RECOMMENDATIONS FOR 1949-1950

For School Maintenance	\$3,500.00
For Supervision and School Committee	\$240.00
For Repairs	\$200.00

To the Superintending School Committee, Parents and Citizens of Alexander:

The town started the school year with a deficit and due to failure to receive Equalization money from the state, the town ends the year with a deficit. No new or unusual expenditures for school maintenance have been made from money appropriated by the Town.

An appropriation of \$3,500.00 for the coming year will enable the town to pay expenses and wipe out the deficit. There will be a larger amount of state aid; and in particular, the state department has promised Equalization money in December, 1949.

A Special Project sum has been received from the state, and the school department has purchased the or

TOWN OF ALEXANDER

lowing: slide projector, opaque projector, screen for projection, a two-speed victrola, and a set of Compton's Encyclopedia. This audio-visual material will make the school subjects more interesting, and will enable the teachers to present school subjects more effectively. At the present time, Alexander is the only town in Union No. 107 that has this audio visual material.

Electric lights have been installed in Four Corners School. Parents, teachers and pupils are grateful to all those who made possible this great improvement.

In the matter of repairs, the most pressing need is the painting of Four Corners and Hale Schools. To delay repairs only means increased expense in the future.

The school officials and teachers have tried hard to serve the best interests of our boys and girls, and we will continue to do so. I wish personally to thank the school committee and citizens and teachers for their many kindnesses extended to me in this my first year.

Respectfully submitted,
BERNARD B. PIERCE, Supt. of Schools
