Mathematics Teacher

I am a high school mathematics teacher at Allen County-Scottsville High School. In my former life, I was a mathematics professor and head of the Mathematics Department at Western Kentucky University, author of the math comic book series *Operation Comics*, and the one-time host of the television show *Math Matters: Why Do I Need To Know This?*. I am currently working on becoming the best math teacher ever, but I am still knowledgeable in the areas of spectrum analysis using wavelets, mathematical modeling, and mathematical curricula development for elementary students.
