Inhoudsopgave

Chapter 1	Introduction and scope of the thesis	11
Chapter 2	TLR2-mediated infection in classical monocytes drives inflammatory response to dengue virus	47
Chapter 3	New insights into the antibody-dependent enhancement of dengue virus infection in peripheral blood mononuclear cells: the unexpected role of TLR2	89
Chapter 4	Resveratrol and pterostilbene inhibit SARS-CoV-2 replication in air-liquid interface cultured human primary bronchial epithelial cells	131
Chapter 5	Moxidectin and ivermectin inhibit SARS-CoV-2 replication in Vero E6 Cells but not in human primary bronchial epithelial cells	157
Chapter 6	Mediators of obesity do not influence SARS-CoV-2 infection or activation of primary human lung microvascular endothelial cells <i>in vitro</i>	181
Chapter 7	Summarizing discussion	209
Appendix	Nederlandse samenvatting	249
	Acknowledgements	256
	Curriculum Vitae	272
	Publication list	273
