## OSU'S POLICY REGARDING UNAUTHORIZED PEER-TO-PEER (P2P) FILE SHARING AND OTHER COPYRIGHT INFRINGEMENT

The university takes copyright infringement seriously. As set forth in the Acceptable Use of University Computing Resources Policy, all students must abide by federal and state copyright laws when using university computing or network resources. The unauthorized publishing or use of copyrighted material on the university computer network is strictly prohibited and users are personally liable for the consequences of such unauthorized use. This specifically applies to Peer-to-Peer or P2P file-sharing of copyrighted music and movies. Students should be aware that by engaging in unauthorized sharing of copyrighted material, they not only violate university policy, but they may also be held criminally and civilly liable by federal and/or state authorities.

Under current copyright law, criminal cases of copyright violation carry a penalty of up to five (5) years in prison and a $\$ 250,000$ fine. Civil penalties for copyright infringement include a minimum fine of $\$ 750$ for each work. Oregon State University will subject students who violate this policy to discipline as appropriate. For a first-time violation of this copyright policy, students are required to pass a copyright quiz within 72 hours or else their network access is disabled. Repeated infringement is subject to disciplinary action by the office of Student Conduct and Community Standards, up to and including expulsion from the university.

To see the entire policy regarding Unauthorized Peer-to-Peer (P2P) File Sharing and Other Copyright Infringement, visit http://fa.oregonstate.edu/gen-manual

## OSU BOARD OF TRUSTEES

The Board of Trustees of Oregon State University governs Oregon's only university with a statewide presence and helps guide OSU's mission to serve the state and the needs of its citizens in a growing global economy.

The board harnesses the talent and energy of education, civic and business leaders to help guide OSU's future as a leader and innovator in excellence in teaching, discovery and service as an internationally recognized public research university. The first 14 members of the board were confirmed by the Oregon Senate in November 2013. OSU President Ed Ray is also a trustee (ex officio and non-voting), for a total of 15 members.

The following list contains the members of the Oregon State University Board of Trustees, as of January 1, 2017:

- Mike Bailey, professor of computer science, OSU Corvallis
- Mark Baldwin, analyst programmer, OSU, Corvallis
- Patricia Bedient, executive vice president/chief financial officer (retired), Sammamish, WA
- Rani Borkar, vice president, OpenPOWER Development, IBM, Beaverton
- Julia Brim-Edwards, senior director, government and public affairs, Nike, Beaverton
- Darald Callahan, president (retired), Chevron Chemical Co., San Rafael, CA
- Michele Longo Eder, attorney (retired), Newport
- Paul Kelly, Jr., attorney (retired), Portland
- Brett Morgan, OSU student
- Laura Naumes, vice president, Naumes Inc., Medford
- Preston Pulliams, president, Gold Hill Associates, Jackson, MS
- Edward Ray, president, Oregon State University, Ex Officio
- Patricia Reser, chairman of the board, Reser's Fine Foods, Inc., Beaverton
- Kirk Schueler, chief executive officer and president, Brooks Resources Corporation, Bend
- Michael Thorne, wheat farmer, Pendleton

## INNOVATION, LEADERSHIP AND EXCELLENCE FOR OREGON AND THE WORLD

Oregon State University is a community of students, faculty, staff, alumni and supporters who aspire to make the world a better place. It is a community defined by innovation, leadership and excellence in academics, research and outreach to serve Oregon, the nation and the world.

With more than 31,000 students, including more than 5,600 students earning their degrees entirely online, Oregon State is the state's largest university, welcoming a diverse student body from all 36 counties across Oregon, all 50 states and more than 100 countries.

Oregon State is the state's land grant university and is one of only two universities in the U.S. to

have land, sea, space and sun grant designations. As a premier international research university, with a record $\$ 336$ million in external research funding in 2016, Oregon State's impact reaches across the state and beyond.

Oregon State's 2015 strategic plan reaffirms the university's commitment to the three Signature Areas that draw from disciplines across the university and integrate research, engagement and teaching at both graduate and undergraduate levels:

- Advancing the Science of Sustainable Earth Ecosystems
- Improving Human Health and Wellness
- Promoting Economic Growth and Social Progress

## STUDENTS COME FIRST

- Oregon State is committed to diversity. Our students come from all walks of life and from all over the world. These students are extraordinarily bright and high-achieving contributors in the classroom and in their communities. Over the past five years, more of Oregon's high school valedictorians and salutatorians have enrolled at Oregon State than at Oregon's other public research universities.
- Oregon State offers a full range of strong scholarships, grants, work-study and loans from federal, state and university sources to help students get the best possible financial aid package.
- OSU Welcome Week begins at fall movein and includes the first day of classes. This week is filled with events and activities for everyone, including Welcome Week Kick-off and Rec Night, new student convocation, student club events and many other educational and social activities geared toward connecting new students and welcoming returning students back to the university and Corvallis.
- Our First-Year Experience program helps new students transition into university life. A variety of small-group experiences is offered - including U-ENGAGE and first-year experience courses - to connect first-year students to faculty, current Oregon State students and other new students.
- The University Exploratory Studies Program allows students to explore a variety of disciplines before choosing an academic major.
- Our Diversity and Cultural Engagement office, cultural centers and Educational Opportunities Program work with African American, Asian American, Native American and Latino students to ensure that their Oregon State experience is positive.
- Oregon State is the only college or university in the state that offers ROTC programs for all four branches of the military - Air Force, Army, Marines and Navy.
- With more than $\mathbf{4 0 0}$ student organizations, plus club, intramural and Pac-12 Conference sports, students find it easy to keep busy at Oregon State.

## OREGON IS OUR CAMPUS

- OSU Ecampus, with more than 45 undergraduate and graduate programs and over 1,000 courses, is consistently ranked in the top 10 among online bachelor's degrees nationwide by U.S. News \& World Report and is ranked number one in value by valuecolleges.com.
- The OSU Extension Service has programs, staff and volunteers providing essential services in all 36 Oregon counties.
- Consistently ranked among the top college towns in the nation, Corvallis is a welcoming, vibrant city of 55,000 people, offering a wide range of community, recreation, dining, shopping and cultural opportunities. And the city is just an hour or more from the Oregon Coast, the snow-capped Cascade Range and Portland - Oregon's largest city.

## MISSION

## PREAMBLE

Oregon State University is a comprehensive, public, internationally recognized research university. As one of only two land, sea, space and sun grant universities in the country (Penn State being the second), OSU offers programs and employs faculty and staff in every county of the state. OSU views the state of Oregon as its campus and works in partnership with all of Oregon's community colleges and the state's public and private colleges and universities to serve Oregonians' educational needs.

## MISSION

As a land grant institution committed to teaching, research, and outreach and engagement, Oregon State University promotes economic, social, cultural and environmental progress for the people of Oregon, the nation and the world. This mission is achieved by producing graduates competitive in the global economy, supporting a continuous search for new knowledge and solutions and maintaining a rigorous focus on academic excellence, particularly in the three Signature Areas: Advancing the Science of Sustainable Earth Ecosystems; Improving Human Health and Wellness; and Promoting Economic Growth and Social Progress.

## VISION

To best serve the people of Oregon, Oregon State University will be among the Top 10 land grant institutions in America.

## GOALS

- Provide outstanding academic programs that further strengthen performance and pre-eminence in the three Signature Areas of Distinction: Advancing the Science of Sustainable Earth Ecosystems; Improving Human Health and Wellness; and Promoting Economic Growth and Social Progress.
- Provide an excellent teaching and learning environment and achieve student access, persistence and success through graduation and beyond that match the best land grant universities in the country.
- Substantially increase revenues from private fundraising, partnerships, research grants and technology transfers while strengthening our ability to more effectively invest and allocate resources to achieve success.

## CORE VALUES

Accountability. We are committed stewards of the loyalty and good will of our alumni and friends and of the human, fiscal and physical resources entrusted to us.
Diversity. We recognize that diversity and excellence go hand-in-hand, enhancing our teaching, scholarship and service as well as our ability to welcome, respect and interact with other people.
Integrity. We practice honesty, freedom, truth and integrity in all that we do.
Respect. We treat each other with civility, dignity and respect.
Social responsibility. We contribute to society's intellectual, cultural, spiritual and economic progress and well-being to the maximum possible extent.

## CORE THEMES

The core themes and their objectives were selected to align with the OSU Strategic Plan, the university's mission and its three fundamental goals. The following core themes were chosen in early 2010:

- Undergraduate education
- Graduate education and research
- Outreach and engagement

Beginning in the fall of 2010, the university has introduced a Core Theme Planning process that will be conducted on an annual cycle and use continuous improvement principles to inform the campus community of how we are fulfilling our mission.

(Session 4) Second 4-week session, July 23-August 17
(Session 5) 3-week session, Aug. 20September 7
Labor Day Holiday, Sept. 3, Monday, no classes)

## ACADEMIC ADVISING

OSU recognizes that quality academic advising is integral to the academic development and well-being of students. Quality academic advising includes both the prescriptive elements of advising (assisting with course selection, maintaining curriculum checklists, tracking degree progress and completing degree audits, etc.) and the developmental aspects of advising (major and career decision making, integration in campus and academic cultures, assistance with and referrals surrounding issues affecting a student's academic success, etc.).

While each college has developed an advising system sensitive to the needs of its academic disciplines and departments, there is consistency in that each also has a head advisor. Undeclared students receive advising through the University Exploratory Studies Program (UESP).

## VISION

Oregon State University aspires to be recognized nationally for excellence in academic advising among land grant institutions.

## MISSION

Oregon State University academic advising is a teaching and learning process dedicated to student success. Academic advising engages students in developing a plan to realize their educational, career and life goals.

## VALUES

The values associated with OSU advising are closely aligned with the stated values of the university.
Accountability: We are committed to providing timely, accurate, and intentional advising.
Diversity: We honor the unique nature and interests of each student. Advising services and delivery methods will be shaped to fit the diverse needs of our campus populations.
Respect: We seek to establish a reciprocal relationship with students based on an ethic of care and shared responsibility.
Social Responsibility: We foster a culture of independent thinking and global awareness so that students make informed, socially responsible choices consistent with their academic, career and life goals.
Integrity: We seek to engage students in a fair and professional process of meaningful self-reflection and authentic inquiry.

## PURPOSE OF ACADEMIC ADVISING

Academic Advisors act as interpreters of the OSU learning environment and facilitators to the undergraduate degree experiences. In working toward degree completion, an advisor can help make sense of options, obligations, and opportunities related to student's academic interests. An advisor can also help students start to think about how undergraduate learning relates to career opportunities. An advisor can help in the decision-making process, especially when the relationship is based on openness, honesty, and trust. Above all, an academic advisor is a person who is invested in helping students create rewarding learning experiences.

For the advising relationship to be effective, students and advisors both need to be engaged in the process. OSU advisors have created this list of Advisor-Advisee Responsibilities to outline the obligations of each:

## AS AN ADVISEE, YOU SHOULD:

- Understand and accept that you are ultimately responsible for your education and your own decisions.
- Initiate a purposeful relationship with your advisor and make appointments when requested and/or when necessary.
- Utilize the technological resources available to you (MyDegrees, OSU Online Catalog and Schedule of Classes, Baccalaureate Core website, your college, school, or department website) to inform yourself about your degree requirements and options.
- Prepare for and be active in your advising session, and ask questions when you have them.
- Work to clarify your personal values, abilities, and goals and share them with your advisor.
- Provide accurate and truthful information when being advised.
- Keep your local address and phone up to date in Online Services and utilize and check your ONID account daily for important information coming from your advisor and the institution.
- Learn and understand OSU's policies, procedures, and requirement as they relate to your academic success and/or degree completion.
- Follow through on plans-of-action identified during advising sessions.
- Be aware of and abide by academic calendar deadlines.
- Call to cancel appointments that cannot be kept.

## YOUR ADVISOR SHOULD:

- Develop a purposeful relationship with and be an advocate for their advisees.
- Inform students of the nature of the advisor/advisee relationship.
- Assist students in defining and developing expressed educational, career, and life plans.
- Provide timely and accurate educational information.
- Promote learning opportunities that will help students define or meet personal goals and plans.
- Assist students in preparing a program that is consistent with their abilities and interests.
- Monitor progress toward educational/career goals.
- Interpret and provide rationale for institutional policies, procedures and requirements.
- Inform inquiring students of campus resources and special services available to them.
- Refer students to those resources that can enhance or supplement their academic or personal experience.

## UNIVERSITY OVERVIEW

Oregon State University provides diverse educational opportunities through the undergraduate and graduate programs of its 13 colleges. Academic choices include studies in scientific, technological, interdisciplinary and professional as well as liberal arts fields. A land grant, sea grant, space grant and sun grant university with beginnings in the 1850s, OSU is now home to more than 30,000 undergraduate, graduate and first professional students, representing more than 100 countries, every state in the nation and every county in Oregon.

In addition to its regular educational programs, the university is responsible for Oregon's land grant mission of research, education and outreach. The OSU Extension Service delivers educational programs in all of Oregon's 36 counties, reaching out to communities with programs as diverse as Master Gardeners, $4-\mathrm{H}$, and community leadership. Working in collaboration with Extension Service faculty, the researchers in Oregon's Agricultural Experiment Station conduct scientific, social and economic research at 11 branch stations at 15 locations across the state, including one of the nation's only urban experiment stations, the Food Innovation Center in Portland.

Oregon State University Ecampus provides learners with access to an OSU education no matter where they live. Ecampus offers accredited courses and degree programs online, with hybrid and continuing education classes offered at various sites throughout the state. There are currently more than 20 undergraduate degree programs, more than 20 undergraduate minors and nearly 30 graduate programs available online. The Ecampus website is ecampus.oregonstate. edu.

In addition to these extended campus opportunities, OSU has established a dual-enrollment Degree Partnership Program (DPP) with all 17 Oregon community colleges and several others in Hawaii. The DPP allows students to take classes at both institutions simultaneously. Students complete just one application, pay one application fee and have the freedom to select courses from either institution's schedule of classes. The DPP website is oregonstate.edu/partnerships.

OSU's educational partners include all Oregon community colleges, Eastern Oregon University, the Oregon Center for Advanced Technology Education, Oregon Health \& Science University, Portland State University, Southern Oregon University, University of Idaho, University of Oregon and Washington State University.

OSU-Cascades in Bend, Oregon - the first branch campus in the state - began offering undergraduate and graduate degree programs in 2001 in partner-
ship with Central Oregon Community College. Students earn an Oregon State University degree in their choice of 18 undergraduate majors, 12 minors and three graduate programs. In 2015, OSUCascades will become a full four-year branch campus and will begin enrolling freshmen and sophomores. The OSUCascades website is osucascades.edu.

## ACCREDITATION

Oregon State University is accredited by the Northwest Commission on Colleges and Universities. The university is authorized to offer baccalaureate, master's, doctorate, and first professional degrees, as well as undergraduate-, postbaccalau-reate-, and graduate-level certificates. The Northwest Commission on Colleges and Universities reaffirmed the accreditation of Oregon State University in Spring 2011. The next comprehensive evaluation is scheduled for 2019. The accreditation includes the College of Pharmacy.
In the College of Agricultural Sciences, the Rangeland Sciences program is accredited by the Society for Range Management. The Department of Food Science and Technology's undergraduate curricula are approved by the Higher Education Review Board of the Institute of Food Technologists. The Agricultural Education major is accredited by the National Council for Accreditation of Teacher Education (NCATE) and the Oregon Teacher Standards and Practices Commission (TSPC).

In the College of Business, the Business Administration programs (undergraduate and graduate) are accredited by the Association to Advance Collegiate Schools of Business-International.

The College of Education programs are accredited by the National Council for Accreditation of Teacher Education (NCATE) and the Oregon Teacher Standards and Practices Commission (TSPC) for the preparation of elementary and secondary teachers. The graduate program in Counseling is accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP). As of November 2016, the College of Education is in the process of seeking CACREP approval to offer the Master in Counseling-Clinical Mental Health Counseling option via Ecampus through hybrid delivery in addition to the land-based program offered in OSU-Cascades.
In the College of Engineering, the Bachelor of Science degrees in Bioengineering, Chemical, Civil, Ecological, Electrical and Computer, Energy Systems, Environmental, Industrial, Manufacturing, Mechanical, and Nuclear Engineering baccalaureate programs are accredited by the Engineering Accreditation Commission of the ABET, Inc. 111 Market Place, Suite 1050, Baltimore, MD 21202-

4012; 410-347-7700. The Construction Engineering Management program is accredited by the American Council for Construction Education. The Bachelor of Science degree in Computer ScienceComputer Systems option is accredited by the Computing Accreditation Commission of the ABET, Inc. 111 Market Place, Suite 1050, Baltimore, MD 212024012; 410-347-7700. The Bachelor of Science degree in Radiation Health Physics is accredited by the Applied Science Accreditation Commission of the ABET, Inc. 111 Market Place, Suite 1050, Baltimore, MD 21202-4012; 410-347-7700.

In the College of Forestry, BS degrees in Forestry, Forest Engineering, and Forest Engineering-Civil Engineering are accredited by the Society of American Foresters (SAF). In addition, the BS degree in Forest Engineering and the BS double degree in Forest Engineering-Civil Engineering are accredited by the Engineering Commission of ABET, www.abet.org. The BS degree in Renewable Materials is accredited by the Society of Wood Science and Technology (SWST).
In the College of Liberal Arts, the Music Education Master of Arts in Teaching (MAT) degree program in the School of Arts and Communication is accredited by the National Council for Accreditation of Teacher Education (NCATE) and by the Oregon Teacher Standards and Practices Commission (TSPC); in the School of Public Policy the Master of Public Policy (MPP) is accredited by the National Association of Schools of Public Affairs and Administration (NASPAA). The next evaluations for both programs are slated for 2021.
The College of Pharmacy's PharmD program is accredited by the Accreditation Council for Pharmacy Education (ACPE). The College also offers PGY1 and PGY2 Community Pharmacy Residencies Community Pharmacy Residencies jointly accredited by the American Society of Health Systems Pharmacists and the American Pharmacists Association.
The College of Public Health and Human Sciences received accreditation in June 2014 by the Council on Education for Public Health as the first accredited school of public health in the state of Oregon. The Athletic Training major is accredited by the Commission on Accreditation of Athletic Training Education. The Dietetic option in the Nutrition major is accredited by the Accreditation Council for Education in Nutrition and Dietetics of the Academy of Nutrition and Dietetics, as is the transcript-visible post-baccalaureate Dietetic Internship. The graduate Physical Education Teacher Education licensure program is accredited by the Council for the Accreditation of Educator Preparation and the Oregon Teacher Standards and Practices Commission. The Health Management and Policy
undergraduate program is certified by the Association of University Programs in Health Administration. In Human Development and Family Sciences, the OSU Child Development Center in Bates Hall is accredited with the National Association for the Education of Young Children (NAEYC). HDFS participates in a double degree program in Early Childhood/ Elementary Education that is accredited through the College of Education's teacher education programs. The Double Degree pathway includes all the course work and field experiences necessary to qualify for an Oregon Initial Teaching License granted by the Teacher Standards and Practices Commission (TSPC).

In the College of Science, the Bachelor of Science in Chemistry Track One is approved by the American Chemical Society and has two options: advanced biochemistry and advanced chemistry. Also, the Bachelor of Science in Biochemistry and Biophysics is accredited by the American Society for Biochemistry and Molecular Biology.

The College of Veterinary Medicine's DVM program is accredited by the American Veterinary Medical Association: Council on Education. In addition to the DVM degree, the Veterinary Diagnostic Laboratory is accredited by the American Association of Veterinary Laboratory Diagnosticians, and the Small Animal Teaching Hospital is accredited by the American Animal Hospital Association.

Student Health Services is accredited by the Accreditation Association for Ambulatory Health Care and is a member of the American College Health Association. The Student Health Services Laboratory is accredited by the Commission on Office Laboratory Accreditation (COLA).

The university's Counseling and Psychological Services (CAPS) office is accredited by the International Association of Counseling Services, Inc., and the pre-doctoral training program at CAPS is accredited by the American Psychological Association.

The Oregon State University Institutional Animal Care and Use Program is fully accredited by AAALAC International. AAALAC accreditation is recognized world-wide as the gold standard for animal research programs. OSU's participation in the rigorous AAALAC accreditation process demonstrates a campus-wide commitment to humane and responsible animal use in research, instruction, production and testing and a dedication to excellent science. This institutional accreditation encompasses the entire campus animal research enterprise and all OSU sites where university-owned animals are housed or maintained, including the College of Agricultural Sciences, the College of Veterinary Medicine, the Eastern Oregon Agricultural

Research Centers, the Hatfield Marine Science Center, the Oregon Hatchery Research Center and the Laboratory Animal Resources Center locations.

The Academic English and General English programs at INTO OSU are accredited by the Commission on English Language Program Accreditation (CEA) for 5 years from August 2013. INTO OSU agrees to uphold the CEA Standards for English Language Programs and Institutions. CEA is recognized by the U.S. Secretary of Education as a national accrediting agency. For further information about this accreditation, please contact the Commission on English Language Program Accreditation, 801 N. Fairfax St., Suite 402A, Alexandria, VA 22314, 703-665-3400, www.cea-accredit.org.

For further information, visit Academic Programs, Assessment \& Accreditation http://oregonstate. edu/admin/aa/apaa/accreditation/ nwccu-institutional-accreditation.

## HISTORY OF OSU

Founded in 1858 as a small, private academy called Corvallis College, Oregon State University has developed into an internationally recognized public research university.

College-level courses were introduced into the curriculum about 1865, and two men and one woman fulfilled the requirements for baccalaureate degrees in 1870, becoming the first graduates of a state-assisted college in the western United States.

Signed into law by President Abraham Lincoln on July 2, 1862, the Morrill Act provided grants of land to be used by states for the sole purpose of endowing, supporting and maintaining public colleges. The Oregon Legislative Assembly designated Corvallis College as the state's land grant institution on October 27, 1868. This was the first state support for higher education in Oregon. Permanent adoption as the state's agricultural college came in 1870.

For many years, the institution was known as Oregon Agricultural College. The name was changed to Oregon State College in 1953 and to Oregon State University in 1961.

Following the designation of the college as a land grant institution, agriculture was added to the existing arts and science curriculum in 1869. The curriculum continued to expand, with professorships in commerce (1880), agriculture (1883), household economy (1889) and engineering (1889) resulting in the establishment in 1908 of the professional schools of commerce, agriculture, engineering and mechanic arts and domestic science and arts. The first summer session was also held in 1908.

Curricular growth continued with the schools of forestry (1913), mines (1913),
pharmacy (1917), education (1918), basic arts and sciences (1922) and health and physical education (1931).

In 1932, the Oregon State Board of Higher Education established the School of Science for the state system at Corvallis, eliminated the School of Mines, and reduced the School of Health and Physical Education to a division. Major work in business administration was discontinued but was reinstated when the College of Business was established (first as a division) in 1943. The College of Liberal Arts was established (as the School of Humanities and Social Sciences) in 1959. The Department of Oceanography was established in 1959, became the School of Oceanography in 1972 and the College of Oceanography in 1983. In 1992, the Department of Atmospheric Sciences in the College of Science was merged with the College of Oceanography and renamed the following year as the College of Oceanic and Atmospheric Sciences. In 2011, the Department of Geosciences in the College of Science was merged with COAS, and the college renamed the College of Earth, Ocean, and Atmospheric Sciences. The College of Health and Physical Education (now the College of Public Health and Human Sciences) was reinstated (as a school) in 1974, and the College of Veterinary Medicine was established (as a school) the following year. In 1983, all schools of the university, except the School of Education, were re-designated as colleges. In 1989, the School of Education became a college. In 1991, the College of Education merged with the College of Home Economics, and within the College of Home Economics and Education, was renamed the School of Education. In 1995, the University Honors College was established. In 2002, the College of Health and Human Performance and the College of Home Economics and Education were merged into the College of Health and Human Sciences. As part of this restructuring, the new School of Education became an independent academic unit. In 2005, the School of Education was renamed the College of Education. The College of Health and Human Sciences was renamed the College of Public Health and Human Sciences in 2011.

Following the approval of legislation adopted by the 2013 Oregon Legislature, Oregon State University made the decision to have its own institutional board of trustees. That board was appointed by Oregon Governor John Kitzhaber in the fall of 2013 and assumed all of its official duties on July 1, 2014.

Presidents of the institution since its founding:
William A. Finley, 1865-72;
Benjamin L. Arnold, 1872-92;
John M. Bloss, 1892-96;

Henry B. Miller, 1896-97;
Thomas M. Gatch, 1897-1907;
William Jasper Kerr, 1907-32;
George Wilcox Peavy, 1934-40;
Frank Llewellyn Ballard, 1940-41;
August Leroy Strand, 1942-61;
James Herbert Jensen, 1961-69;
Robert William MacVicar, 1970-84;
John V. Byrne, 1984-95;
Paul G. Risser, 1996-2002;
Edward J. Ray, August 2003-present.
Acting presidents of the institution since its founding:
Joseph Emery, 1872
John D. Letcher, 1892
George Wilcox Peavy, 1932-34
Francois Archibald Gilfillan, 1941-42
Roy Alton Young, 1969-70
Timothy P. White, 2003
For more details, see http://scarc. library.oregonstate.edu/omeka/exhibits/ show/presidents.

For the OSU Special Collections and Archives Research Center, see http://or-egondigital.org/sets/osu-scarc.

## ORGANIZATION OF THE UNIVERSITY

The president is the chief executive officer of the university and is appointed by the Oregon State Board of Trustees. Subject to the Board, the president is responsible for the overall leadership and direction of the university. The provost and executive vice president is the chief academic and operating officer and is responsible for the daily operations of the university.

In November 2009, four new divisions were created as part of OSU's Strategic Alignment and Budget Reduction Implementation Plan: the Division of Arts and Sciences, Division of Business and Engineering, Division of Earth Systems Science, and the Division of Health Sciences.

The academic programs of Oregon State University are divided among 11 colleges, the Graduate School, and the University Honors College, each with a dean responsible for all faculty, staff, students, and academic programs.

The 11 colleges are the College of Agricultural Sciences; College of Business; College of Earth, Ocean, and Atmospheric Sciences; College of Education; College of Engineering; College of Forestry; College of Public Health and Human Sciences; College of Liberal Arts; College of Pharmacy; College of Science; and the College of Veterinary Medicine.
Colleges are divided into departments or schools administered by a department head, chair, or director. Each department may offer several programs of study leading to degrees, certificates, options, or minors requiring a specific group of courses for completion.
Some courses and programs described in the OSU General Catalog are offered
throughout the year online and at a distance by OSU Ecampus. A list of online and distance education courses and programs are available on the Web at http:// ecampus.oregonstate.edu.
OSU Extended Campus also is home to OSU Summer Session, which serves more than 10,000 students annually on the Corvallis campus, online and at the OSU Hatfield Marine Science Center on the Oregon coast. Summer session courses are published annually in the OSU Summer Session Planning Guide and listed in the online schedule of classes. The OSU Summer Session website is http://summer.oregonstate.edu.

This OSU General Catalog lists requirements for each program, as well as all regular courses offered by Oregon State University. A number of special temporary or ' X ' courses are also offered each year and are listed in the online Schedule of Classes.
The Graduate School section of this catalog offers a summary of graduate programs and general regulations.
Programs and courses offered by OSUCascades on the Central Oregon Community College campus in Bend, Oregon, are available on the Web at http://osucascades.edu/.

## ACADEMIC GLOSSARY/CATALOG DEFINITIONS

The following terms are used throughout the catalog and Registration Information Handbook.

Academic probation: Students who have completed two or more terms at OSU and have an OSU cumulative GPA below 2.0 will be placed on probation. Students who attain a cumulative GPA of 2.0 or better are removed from academic probation.

Academic suspension: Students who are on probation and have a subsequent term GPA of less that 2.0 will be placed on suspension. A student who has been suspended from OSU is prohibited from enrolling in classes, and must fulfill specified criteria before being re-admitted to the university (see Academic Regulation 22. Academic suspension is recorded on the student's academic record.

Academic warning: Students with a term GPA below 2.0 will be placed on academic warning.

Academic year: The time period containing the academic terms fall, winter, and spring (currently September through June). When summer term is considered as part of an academic year, or when it is considered as part of the Banner Student Information Systems (SIS), summer term is the first term of the academic year.

Add/Drop: Students may add or drop classes during the first two weeks of each term.

Advanced placement: Advanced
placement and/or credit may be granted to an entering student who has satisfactorily completed College Board Advanced Placement Examinations taken during high school.

Advanced standing report: A summary of courses and credits completed by a student at one postsecondary institution and accepted by another institution at the time of admission. The advanced standing report is used to determine the number of required and elective credits needed to complete degree requirements.

Advisor: A faculty member appointed by a program, department, school, or college to advise students during their college experience.

Baccalaureate core: The university's general education requirements consisting of skills courses; perspectives courses; difference, power and discrimination courses; synthesis courses; and writing intensive courses. A baccalaureate core course is designated with an asterisk, *, a writing intensive course with a caret, $\wedge$. See Earning a Degree at Oregon State University in this catalog.

Baccalaureate degree: An approved academic award given for the satisfactory completion of an instructional program requiring at least four but not more than five years of full-time equivalent college-level academic work that includes the following: (1) institutional general education requirements (i.e., baccalaureate core); (2) major area of study requirements; and (3) may include option, minor, supporting area, or elective requirements. A minimum of 180 credits is required for most degree programs. Some majors may require more. The conditions and conferral of the award are governed by the faculty and ratified by the Oregon State Board of Higher Education.

BA degree: The Bachelor of Arts degree is conferred for broad and liberal education in humanities, arts, social sciences, and sciences. College BA requirements provide: a) a breadth of preparation in these fields that is significantly greater than that required of all undergraduates through the baccalaureate core; and b) foreign language proficiency certified by the School of Language, Culture, and Society as equivalent to that attained at the end of the second year course in the language. Proficiency in American Sign Language equivalent to that attained at end of the second year also meets the BA language requirement.
BFA degree: The bachelor of fine arts is a professional degree requiring a minimum of 105 credits in the visual arts.

BS degree: The Bachelor of Science degree is conferred for focused curricula that emphasize scientific ways of knowing and quantitative approaches to understanding in the sciences and social sciences, and for curricula in professional fields.

Blanket-numbered courses:
Reserved number courses such as 401/501/601. See Reserved numbered courses.

Certificate program (undergraduate): A specified interdisciplinary program of study leading to an official certificate and notation on the transcript. A certificate program draws courses from more than one department, rather than a single department (as with most minors). An undergraduate certificate program must be taken in conjunction with a formal degree program. An undergraduate certificate requires a minimum of 27 credits.

Certificate program (postbaccalaureate): A specified program of study of undergraduate courses leading to an official certificate and notation on the transcript. A completed baccalaureate degree program from an accredited institution is required. A postbaccalaureate certificate program requires a minimum of 27 credits.

Certificate program (graduate): A structured progression of graduate-level courses that constitute a coherent body of study with a specifically defined focus within a single discipline or a logical combination of disciplines. It is designed for students who have completed a baccalaureate degree and are in pursuit of advanced-level learning. A graduate certificate requires a minimum of 18 graduate credits.

## Certificate program (profes-

 sional): A site-based training and professional development certificate that is not transcript visible.College: A subdivision of the university offering degree programs within a specific subject area. For example, the College of Forestry offers degree programs in forest engineering, forest resources, forest science, and wood science and technology.

Commencement: A term used to refer to the graduation ceremony held in June.

Corequisite: A course that must be taken concurrently with a course.

Course: An organized unit of instruction or research. Types include lectures, recitations, seminars, laboratories, discussions, internships, clerkships, reading and conference, independent study, and other categories of courses.
Course designator (subject code): An abbreviation representing the department, college, or program offering the course. Example: MB indicates that the course is offered through the Department of Microbiology.
Course Reference Number (CRN): A five-digit number used to select a specific course, lab, and/or recitation.
CRED (Credential): A student who has received a previous baccalaureate de-
gree from either OSU or another accredited university or college may be granted a subsequent minor, certificate, major or option under the guidelines of Academic Regulation 27. It indicates the student is not seeking a degree, but rather a credential to accompany an existing degree.
Credit: Credits vary, depending upon the type of course and level at which it is offered. One credit is generally given for three hours per week of work in and out of class. For example, each hour of class lecture is generally expected to require two hours of work out of class. One credit would be given for a lecture course that met for one 50-minute period each week over a 10 -week period; i.e., 10 contact hours between faculty and students. One credit is typically given for a laboratory course that meets for two to three hours per week for an entire term. Equivalent credits are given for recitations, discussions, and other types of courses. All credits given in the General Catalog refer to quarter credits. When transferring in course work from a semester system institution, multiply the number of credits by 1.5 to determine how many quarter credits will be transferred ( 3 semester hours x $1.5=$ 4.5 quarter credits). If planning to transfer OSU credits out to a semester system institution, multiply the number of quarter credits by .67 to determine how many credits will transfer (4 quarter credits x $.67=2.68$ semester credits).

Curriculum: (plural curricula) An organized program of study and courses required for a specific degree or certificate program.

Degree: An academic award granted upon satisfactory completion of a set of collegiate-level educational requirements.
Discipline: A field of study in which a student may concentrate, such as sociology, anthropology, or mathematics.

Doctoral degree: An approved academic award given as a sign of proficiency in scholarship and for the satisfactory completion of an instructional program requiring at least three years of full-time equivalent academic work beyond the baccalaureate degree, the completion of which signifies recognized competence, original research and/or the capacity to do independent advanced graduate-level analysis. A minimum of 108 credits is required beyond the baccalaureate degree. [Note: The total number, above the minimum, will vary by degree program.] The conditions and conferral of the award are governed by the faculty and ratified by the Oregon State Board of Higher Education.
Double degrees: A student may earn multiple, different degrees simultaneously. Additional degrees may also be earned after your first degree was awarded. The degrees may be offered by the same
college, or by different colleges. To earn a double degree, or for each additional degree, a student must complete a minimum of 32 credits above the minimum number of credits needed for one of the degrees. Each degree application is reviewed by the appropriate academic advisor. Advisors complete a separate graduation audit for each of the degrees.
On the student's academic record, each degree awarded will be recorded as a separate degree with its major, e.g., Bachelor of Science in Mathematics, Bachelor of Arts in English. The student will also receive a separate diploma for each degree awarded (See Academic Regulation 26).

Some double-degree programs - Education (BA, BS, HBA, HBS), Innovation Management (BA, BS, HBA, HBS), Sustainability (BS, HBS), International Studies ( $\mathrm{BA}, \mathrm{HBA}$ ) - require that a primary degree be completed in order for the secondary degree to be awarded. When multiple degrees are not dependent on one another, one of the degrees may be awarded even though requirements for the other degree have not yet met. The double degree may be earned concurrently or subsequently. (See Academic Regulation 26.)
Dual (or multiple) majors from same college: A student may earn two or more majors within a single degree program (a particular combination of degree, college, and campus, e.g., BA degree from the College of Liberal Arts on the Corvallis campus). It is sometimes possible to complete two or more majors within the minimum number of credits required for a degree, but usually the student must complete additional credits to complete requirements for all of their majors. For this reason, dual (or multiple) majors are obtained within the same college. The advisor must complete one graduation audit that includes all of the majors. The student's academic record will list one degree with two or more majors, e.g., Bachelor of Science in Mathematics and Chemistry. The student receives one diploma. Dual (or multiple) majors may be obtained concurrently with the completion of the degree, or in some cases may be earned as a credential subsequent to completion of the degree. (See Academic Regulation 27.) Note: Occasionally, with careful planning, a student can complete two majors from separate colleges in less than the 212 credits required for two degrees. When this occurs a student can petition for an exception, and graduate with two majors from separate colleges. The student must pick one college as their home college and all majors will be associated with the home college. The student must have the support of advisors from both major programs to have their petition considered.

Electives: Courses students may select, either for general knowledge or for fulfilling specific degree requirements. They are generally chosen and used by students to supplement or enrich the required curriculum.

Endorsement: An endorsement is the subject matter (content area) or specialty in which an individual is licensed to teach. Endorsements can be part of an initial teaching license or can be added later.

First professional degree: An academic award granted for an instructional program the completion of which: (1) signifies completion of the academic requirements to begin practice in the profession; (2) requires at least two years of full-time equivalent college-level work prior to entrance; and (3) usually requires a total of at least five years of full-time equivalent academic work to complete the degree program, including prior required college-level work plus the length of the professional program itself (examples, DVM in veterinary medicine and PharmD in pharmacy). The conditions and conferral of the award are governed by the faculty and ratified by the state of Oregon Higher Education Coordinating Commission.

Freshman: A student who has completed 44 of fewer term credits toward an undergraduate degree.

Grade-point average (GPA): Total number of grade points received for A, $\mathrm{A}-, \mathrm{B}+, \mathrm{B}, \mathrm{B}-, \mathrm{C}+\mathrm{C}, \mathrm{C}-, \mathrm{D}+\mathrm{D}, \mathrm{D}-$ or F grades divided by total number of credits attempted. OSU uses a 4-point grade scale.

Grade points: Quality points assigned for one term credit of each grade: $\mathrm{A}=4.0 ; \mathrm{A}-=3.7 ; \mathrm{B}+=3.3 ; \mathrm{B}=3 ; \mathrm{B}-=$ 2.7; $\mathrm{C}+=2.3 ; \mathrm{C}=2.0 ; \mathrm{C}-=1.7 ; \mathrm{D}+=1.3$; $\mathrm{D}=1 ; \mathrm{D}-=.7 ; \mathrm{F}=0.0$. Grades of $\mathrm{I}, \mathrm{P}, \mathrm{N}$, $\mathrm{S}, \mathrm{U}$ and W are not computed.

Grades: Letters used to indicate the quality of academic work completed in a given course: A, A-, B+, B, B-, C+, C, C-, D+, D, D-, F, I, S, U, P, N, W.

Graduation audit: An evaluation of a student's academic record to determine if the graduation requirements set forth by the university, college, and major department have been fulfilled.

## Graduate area of concentration:

 A graduate area of concentration is a subdivision of a major or minor in which a strong graduate program is available. Areas of concentration may be referenced on the student's program of study, but they are not listed on the student's transcript. "Areas of concentration" can only be used in association with graduate programs.Graduate major: A graduate major is the area of academic specialization, approved by the State Board of Higher Education, in which the student chooses to qualify for a graduate degree. Upon
completion of a graduate degree, the degree awarded and the graduate major are listed on the student's transcript

Graduate option: Options are for students of a specific major. An option is one of several distinct variants of course aggregations within a major that focus on an area of study designed to provide a student with specialized knowledge, competence, and skills while sharing a minimum core of courses.

A graduate option consists of a minimum of 12 designated quarter credits of related course work (excluding thesis credits), comprised of course work offered by the sponsoring unit as well as by other academic units. The option may be comprised of specific courses, completion of a designated number of credits from a longer list of alternative courses, or a combination of specific and alternative course lists. Approved options may be added to a graduate program of study, and approved by the faculty advisor(s) and the director of the sponsoring unit. On the program of study, there should be no overlap in course credits between options (the same course cannot be used to satisfy credit requirements in multiple options). When the unit submits the final examination card to validate awarding of the major to the Graduate School, the unit will also validate that the requirements of the option have been completed.

Hybrid course: A hybrid course includes both regularly scheduled on-site classroom meetings and significant online, out-of-classroom components that replace regularly scheduled class meeting time. A substantial portion of the course learning activities are delivered online; face-to face meeting time is generally reduced by approximately $50 \%$ compared to a traditional on-campus course. For further information, visit http:// ctl.oregonstate.edu/hybrid-learning/ osu-hybrid-faqs.

Interdisciplinary: A course or program that integrates concepts, knowledge, or faculty from several fields of study.

Junior: A student who has completed at least 90 but not more than 134 term credits toward an undergraduate degree.

Lower-division courses: Course offerings at a level of preparation usually associated with freshmen and sophomore students (e.g., 100- and 200-level courses).

Major (graduate): See Graduate major above.

Major (undergraduate): An extensive program of study in a designated subject area. Majors require at least 36 credits, 24 of which must be upper-division.

Master's degree: An approved academic award given as a mark of proficiency in scholarship and for the
satisfactory completion of an instructional program requiring at least one but not more than two years of full-time equivalent academic work beyond the baccalaureate degree. A minimum of 45 credits is required beyond the baccalaureate degree. [Note: The total number, above the minimum, will vary by degree program.] The conditions and conferral of the award are governed by the faculty and ratified by the Oregon State Board of Higher Education.

Minor (graduate): A graduate minor is an academic area that clearly supports the major. Master's program minors must include a minimum of 15 quarter credits of graduate course work; doctoral minors require a minimum of 18 credits. On a master's or doctoral program, a minor may be:

1. an academic area available only as a minor,
2. a different major,
3. the same major with a different area of concentration, or
4. an integrated minor.

An integrated minor consists of a series of cognate courses from two or more areas. These courses must be outside the major area of concentration, with most of the courses being outside the major department. The graduate faculty member representing the integrated minor must be from outside the major department. Graduate minors are listed on the student's transcript.

Minor (undergraduate): A secondary field of specialized study that may be offered by an academic unit for its own majors and/or majors from other academic units. Minors require at least 27 credits, 12 of which must be at the upper-division level. An approved minor is placed on the student's transcript.

Option (undergraduate): Options are for students of a specific major. Options consist of at least 21 designated credits of course work, 15 of which must be at the upper-division level. If all requirements have been met, the option may be listed on a student's transcript.

Perspectives courses: Baccalaureate core courses that integrate fundamental knowledge from science and liberal arts disciplines to develop cultural, historic, and scientific perspectives.

Postbaccalaureate student: A student holding a baccalaureate degree who is admitted to work toward a second baccalaureate degree or teaching certificate is classified as a postbaccalaureate student (AR 4).
Pre-professional program: Curriculum generally offered at the freshman and sophomore levels. A pre-professional program is designed to ensure students have the aptitude, motivation, and discipline to successfully complete advanced course work as well as achieve the stan-
dards for a chosen career field.
Prerequisites: Requirements that must be completed before enrollment in a particular course. The instructor may waive a prerequisite.
Professional program: Curriculum generally offered at the junior and senior level, designed to prepare students for a professional career within a specific field (e.g., engineering, pharmacy). Admission to professional programs, often based on prior course work and/or work experience, is competitive.

Reading and conference: A course focused on reading assignments to be completed in conferences with the instructor.
Reserved numbered courses: Certain blocks of numbers that have been assigned for specific courses that may be taken for more than one term. The credits being granted vary according to the amount of work done.
100-110 and 200-210: Survey or foundation courses in the liberal arts and sciences
401/501/601: Research and Scholarship
402/502/602: Independent Study
403/503/603: Thesis/Dissertation
404/504/604: Writing and Conference
405/505/605: Reading and Conference
406/506/606: Special Problems/Special Projects
407/507/607: Seminar
408/508/608: Workshop
409/509/609: Practicum/Clinical Experience
410/510/610: Internship/Work Experience
Senior: A student who has completed 135 or more term credits toward an undergraduate degree.

Sequence: Two, three, or four closely related courses that are usually taken in numerical order and through more than one term.

Skills courses: Baccalaureate core courses designed to give the student fundamental mathematical, communication, and fitness competence.

Sophomore: A student who has completed at least 45 but not more than 89 term credits toward an undergraduate degree.
Special topics courses (X99): Like reserved numbered courses, special topics courses may be repeated as specified by the academic unit responsible for the course offering. It is implied that the course content is different each time the student takes the course. In the schedule of classes, section titles are listed as "ST/" followed by the topic covered in the section.

Student enrollment levels: The levels below establish enrollment levels for federal financial aid eligibility and the deferment of student loans. Summer enrollment levels are the same as other terms.

- Full Time: 12 or more credits in a term
- Three Quarter Time: 9 to 11 credits in a term
- Half Time: 6 to 8 credits in a term

Syllabus: A list of course objectives, lecture topics, assigned reading, exams, etc., prepared and distributed by a professor at the beginning of the term.

Synthesis courses: Baccalaureate core upper-division courses that emphasize interdisciplinary, critical thinking approaches to global, technological, and societal issues.

TBA: Commonly used abbreviation for "to be arranged"; time, place, or credit of a course is to be arranged with the instructor.
Term: Usually one-third of the school year. Terms at OSU are divided into fall, winter, and spring terms (also referred to as "quarters"). Summer term is generally an 8 - or 11-week session during the summer. See "Credits" above.

Transfer student: An individual who has completed 36 or more transferable term credits at another institution and will resume his or her college course work at a second institution.
U-Engage: First-year seminar designed to assist the transition of new students to college.

University: An assembly of colleges, each specializing in a different field.

Upper-division courses: Advanced course offerings at a level usually associated with junior or senior students. Upper-division courses are numbered in the 300 s and 400 s .
Waive: This term refers to decisions of advisors to "waive" a course or courses in a student's program. Typical reasons include transfer credit for equivalent courses, equivalent experience in the profession or discipline, and petitioning for and successfully completing an examination. Waiving courses usually does not decrease the total credits required for completion of the degree or program; students should discuss this with their advisor.
Withdraw: To voluntarily leave a course or the term without academic penalty. A W letter grade will be placed on the student's transcript for each course attempted.

Workshop: A brief intensive course for a small group which emphasizes problem solving.

Writing Intensive Courses (WIC): Designated upper-division courses in the major discipline that use student writing as a significant approach to learning. WIC courses must meet a variety of requirements, as do other courses in the baccalaureate core. WIC courses have a carat, $\wedge$, in front of the title.

## READING A COURSE DESCRIPTION

The elements of a typical course description found under department/school headings in the colleges are illustrated by the microbiology course example below:

## Science Course Example:

MB 479. FERMENTATION MICRO-
BIOLOGY (3). An introduction to industrial microbiology with a focus on the physiology of fermentation and use of microorganisms for the production of food ingredients, fermented foods, and beverages. CROSSLISTED as FST 479/FST 579. REQ: Field trips. PREREQS: BB 450 and MB $302^{*}$, (BB 350 or BI 314). This course is repeatable for a maximum of 6 credits.

Course Designator (Subject Code): (MB) an abbreviation representing the department, college, or program offering the course. MB indicates that the course is offered through the Department of Microbiology.

Number: (479) indicates the level of the course. This is an upper-division, undergraduate course. 400-level courses are offered for undergraduate credit. Courses numbered at the 500 - or $600-\mathrm{lev}$ el may be taken for graduate credit. Courses numbered 500-599 are generally taken by master's candidates and courses numbered 600-699 are taken by doctoral candidates. (See Course Numbering System below.)

## Title: FERMENTATION

## MICROBIOLOGY

Credit: (3) the number of credits awarded for successful completion of the course.

Course description: A brief description of what will be taught in the course. "An introduction to industrial microbiology..."

CROSSLISTED: CROSSLISTED as FST 479/FST 579 means the same course is also offered through another department; course numbers, titles, credits, descriptions, and prerequisites are the same for both courses. Only the course designator (subject code) is different.

REQ: A requirement for that course, such as field trips.
PREREQS: Prerequisites a student must have completed or be currently enrolled in before registering for the course. The registration system and/or instructor may not allow students to enroll for the course unless they have the prerequisite on their transcripts or are currently enrolled in the prerequisite. Students may be administratively dropped after registering for their courses if they have not met the prerequisites of a course. These courses are the background necessary for successful performance in the course.

* (Asterisk): The asterisk after a prerequisite (MB 302*) indicates that it may be taken concurrently with the course described.

COREQ: A course that must be taken simultaneously with the course described.

REC: Means the course is recommended but not required by the instructor.

This course is repeatable...: Some courses may be taken again for additional credit that applies toward the student's academic program.

## Liberal Arts Course Example:

## HST 202H. HISTORY OF THE UNIT-

ED STATES (4). Provides an overview of the development of the U.S. from the pre-Columbian era to the present. Attention is given to economic, political, and social trends, as well as to international relations. Covers 1820 to 1920. HST 201 H, HST 202 H , and HST 203H need not be taken in sequence. (H) (SS) (Bacc Core Course PREREQS: Honors College approval required.
Letter suffix: (HST 202H) "H" signifies an Honors College course. An "X" signifies an experimental course.

Liberal Arts Core: Students pursuing College of Liberal Arts majors are required to complete courses in certain study areas. Four abbreviations are used in the college to indicate courses that may be used to fulfill requirements in each of these areas:

- (FA) Fine Arts Core
- (H) Humanities Core
- (NC) Non-Western Core
- (SS) Social Studies Core

## ADDITIONAL CURRICULAR

 TERMS:See the Academic Programs website at http://oregonstate.edu/admin/aa/ apaa/academic-programs/curriculum/ curricular-policies-and-procedures.

## COURSE NUMBERING SYSTEM

State universities in Oregon follow this basic course numbering system:

0-99. Noncredit or credit courses of a remedial, terminal, or semiprofessional nature that are not applicable toward degree requirements.

100-299. Undergraduate, lower-division courses.

300-499. Undergraduate, upper-division courses.

500-599. Graduate courses offered primarily in support of a master's degree but which are also available for doctorallevel credit. Undergraduates of superior scholastic achievement may be admitted on approval of the instructor and department head. An undergraduate student may apply to reserve these courses for later use on a graduate degree program.

600-699. Graduate courses offered principally in support of doctoral-level instructional programs but also available for master's program credit.

700-799. Professional or technical courses that may be applied toward a professional degree (such as DVM or PharmD) but not toward other graduate degrees (such as PhD).

800-899. In-service courses aimed at practicing professionals in the discipline. These courses may not be applied to graduate or professional degree programs.

001NC-099NC. Non-credit courses offered through the INTO Oregon State University Intensive English program.

Commonly Numbered Courses. House Bill 2913 directed the Oregon University System (defunct since June 30,2015 ) and Oregon community colleges to jointly develop, to the extent possible, a common course numbering system for lower-division transfer
courses. The "Commonly Numbered Course List" represents a good faith effort to meet the requirements of the legislation. The list of courses is recommended for use by campuses' faculty and administration as they develop or revise academic programs to better facilitate students transferring from community colleges to public four-year institutions. OSU agreed to this list after review by all affected departments. The "Commonly Numbered Course List" includes course descriptions in addition to the course numbers and titles. Course numbers and title should follow the usage in the list. Descriptions may vary. The list is at: http://oregonstate.edu/admin/aa/ apaa/academic-programs/curriculum/ curricular-policies-and-procedures\#76.

## EQUIVALENT COURSES LIST

Some courses at OSU have equivalent versions with different subject prefixes or course numbers. Such courses are equivalent for degree clearance purposes, in other words, taking either version will meet the requirements for an academic program. Students may only take one of the versions for credit, not both.

Students will not earn credit for a course if they have previously taken its equivalent. Doing so is the same as repeating a course, see Academic Regulation 20, Repeated Courses.
Examples of equivalent courses include:

- Regular and Honors College versions of the same course.
- Crosslisted courses with the same title, course description, and course number (e.g., CS 372 and ECE 372).
- Transfer courses treated as equivalent to OSU courses.
- Courses that have been replaced by a new subject code (e.g., BA 434 replaced by FIN 434).
Equivalent Courses List is in the Registrar's Office website at http://registrar. oregonstate.edu/equivalent-courses.

Oregon State University welcomes all students without regard to race, creed, sex, marital status, sexual preference, age, religion, handicap, or national origin who provide evidence of suitable preparation for course work at the university level.

Information for undergraduate, postbaccalaureate, nondegree undergraduate students is available from the Office of Admissions.
Admission applications are available at http://admissions.oregonstate.edu/ apply-choose-application.
World Wide Web:
http://admissions.oregonstate.edu/
On-campus: B104 Kerr Administration Bldg.
Telephone: 541-737-4411
Toll free: 800-291-4192
Fax: 541-737-2482
OSU code for SAT, AP, TOEFL, or CLEP reports: 4586
OSU code for ACT reports: $\mathbf{3 4 8 2}$

## ADMISSION REQUIREMENTS FOR FIRST-YEAR STUDENTS

## When to Apply

See application deadlines at http:// admissions.oregonstate.edu/ undergraduate-admission-deadlines.

The application and fee must be submitted electronically by the respective deadline.

## The Admission Process

Apply online at http://admissions.oregon-state.edu/apply-choose-application. Applicants are required to use a valid Visa, MasterCard, or Discover credit card to pay the $\$ 60$ nonrefundable application fee. Request that your high school send your official high school transcript to OSU, and have your official SAT or ACT test scores sent to OSU.

Telefax (Fax) credentials of transcripts are considered official if faxed directly from an accredited institution within the U.S.A. with a cover page. The fax number is 541-737-2482.

Portfolios, videotapes, essays and personal interviews are generally not required.

## EVALUATION PROCESS

Admission to Oregon State University is selective and competitive and is based on a holistic review of application materials.

Complete applications are first reviewed to confirm successful completion of the 15 high school subject requirements and GPA earned. There is no minimum SAT or ACT score requirement. However, official scores from one of these tests are required for admission and advising purposes.

Applicants for undergraduate admission are required to complete an "Insight Résumé," a written assessment designed to evaluate students' noncognitive attributes. These attributes include self-concept, realistic self-appraisal, handling the system, ability to set long-range goals, leadership, connections with a strong support person, community engagement, and nontraditional learning.

Academic performance is not the sole criterion for admission to the university. The university may evaluate a person's be-
havior and background to determine their ability to maintain the standards of academic and professional conduct expected at the university. An evaluation may take into consideration current behavior and performance as well as past experiences and actions. Simply qualifying for admission does not guarantee admission.

Go to http://admissions.oregon-state.edu/admission-requirements0\#Notification of status to see when applicants will be notified of their admission status.

## Policy Regarding Students'

## Eligibility to Return to Prior College

Applicants who disclose that they are ineligible to re-enroll at any college or university that they attended within the last seven years for student conduct reasons will be automatically declined admission to OSU. Applicants who disclose that the reason for their ineligibility is for academic reasons will be admitted only if they meet OSU's minimum academic requirements.

All applicants who are denied admission have the right to appeal that decision, and appeals will be reviewed on a case-by-case basis.

## SELECTION OF

## FIRST-YEAR STUDENTS

OSU's admission requirements promote student success by assessing preparedness and academic potential in the unique context of each student's personal experience. Admission assessment will consider all achievement, both academic and nonacademic, to enroll students with a broad range of characteristics and perspectives. These include, but are not limited to academic achievement, creativity, initiative, motivation, leadership, persistence, service to others, intellectual curiosity, exceptional personal or academic recognition, unusual talent or ability, substantial experience with other cultures, and ability to overcome significant challenges.

The admissions process provides a fair and comprehensive review of all applicants for determining potential success at OSU. It is crucial that applicants carefully complete the application process by providing thorough information. Estimating the likelihood of admission is very difficult without considering the complete application file.

## Regular Admission

Initial admission selections are based on a holistic assessment of the criteria listed below.

## Strength of Curriculum

- Quality, quantity, and level of course work throughout the entire high school program, especially course work completed beyond the minimum courses required (See the high school course requirements chart.)

Office of Admissions B104 Kerr Administration Bldg. Oregon State University Corvallis, OR 97331 541-737-4411 Email: osuadmit@ oregonstate.edu Website: http:// admissions. oregonstate.edu/

Administration
Noah Buckley
Director,
541-737-0583
Matt Ogawa
Associate Director, 541-737-9807

Alex Galbreath
Associate Director,
541-737-3418
Erin Rau
Associate Director
541-737-0579
Heather Wofford
Assistant Director, 541-737-9808

Brian Palmer
Assistant Director, 541-737-2499

- Advanced placement (AP), international baccalaureate (IB), or college course work completed or in progress
- Strength of the program taken within the context of the high school attended
- Progressively challenging math sequence (beyond Algebra II), demonstrated by performance

## Academic Performance:

- A recommended high school grade-point average of 3.0 (on a 4.0 scale as calculated by the Office of Admissions)
- Class rank taken in context with academic rigor and size of high school attended
- Performance on standardized tests: SAT or ACT.

## Insight Résumé:

- Understanding of you as a unique, contributing individual
- Your accomplishments, perspectives, experiences, and talents
- Your achievements within the context of your social and personal circumstances
- Participation in activities that develop academic, intellectual, and leadership abilities
Insight Résumé scores are also used for scholarship selection, secondary review of applicants who do not meet admission requirements, and compiling baseline data.

## EXTENDED ADMISSION

(ADMISSION APPEALS)
Students not selected for regular admission may be invited to appeal via in the extended admission process. Extended admission decisions will be determined by the Undergraduate Admissions Committee. In addition to regular admission requirements, students participating in the extended admission review will be asked to provide additional materials for consideration. Please refer to the OSU Admissions website for specifics: http:// admissions.oregonstate.edu/admission-appeals-aka-extended-admissions.

```
HIGH SCHOOL COURSE
REQUIREMENTS
College
Preparatory Minimum
Subjects Units
Grades of C- or higher are required.
English......................... 4 years
Mathematics ............... 3 years
Culminating at the Algebra II level or higher
Social Studies.............. 3 years
Science......................... 3 years
One year each of two different sciences
(biology, chemistry, physics, etc.). One year
of lab strongly recommended.
Foreign Language....... 2 years
```

(not required if high school graduation of GED date prior to 1997)
May be met in any one of these ways:

- Completing two years of the same high school-level foreign language
- Earning grade of C- or higher in the third year of high school-level foreign language
- Completing two consecutive quarters of the same college-level foreign language
- Earning a satisfactory score on an approved assessment of foreign language knowledge
- Demonstrated proficiency in American Sign Language (ASL)
- Completing grades 1 through 7 at a school in which all courses are taught in a language other than English (Documentation is required.)

## ALTERNATIVES TO

## SUBJECT REQUIREMENTS

Students unable to fulfill the subject requirements will be eligible for consideration by:

1. Earning a 940 total score on two SAT Subject Tests (Math level I or II and a second test of choice [foreign language recommended])
2. OR
3. Successfully completing course work (high school or college transfer) for specific subject deficiencies.
Alternatives should be completed by high school graduation.

## Test Requirements

Freshman applicants (except those applying on the basis of GED scores) must submit Scholastic Assessment Test (SAT-Reasoning) or American College Test (ACT) scores. Test scores are used to determine course placement and are considered for applicants not meeting the minimum high school GPA requirement.

Official scores are required.
The institutional code for having most test scores sent to OSU is $\mathbf{4 5 8 6}$.

The OSU ACT code is $\mathbf{3 4 8 2}$.

## High School Graduation

Public high school students must graduate from standard high schools. ${ }^{1}$ Private high school students must graduate from accredited high schools. ${ }^{2}$

## Footnotes

${ }^{1}$ Standard high schools are public high schools that are certified as meeting specified levels of resources, services, and quality established by the Oregon Department of Education.
${ }^{2}$ Accredited high schools are those that are reviewed and recognized by a regional entity, such as the Northwest Association of Schools and Colleges, as meeting an appropriate level of academic rigor and support.

## Graduates of Nonstandard or Unaccredited High Schools or Home-Schooled Students

Graduates of non-standard or unaccredited high schools, or home-schooled students will be considered for admission
based on a holistic assessment using the following:

## SAT and/or ACT

OSU requires students graduating high school in the year 2011 and beyond to submit SAT or ACT scores. Applicants for Fall 2016 should submit an ACT or an SAT that includes the essay portion (currently required as part of the test).

Students applying to OSU for terms after Fall 2016 can submit an ACT score, or either of the SAT tests - the current version that includes the mandatory essay portion, or the new 2016 version in which the essay will be an optional portion of the test. OSU prefers, but does not require, the essay portion of the new SAT test that began being administered in March 2016.

Note: Only scores sent electronically from College Board (SAT) and/or ACT will be considered official and used for admission purposes. There is not an advantage to pay extra for "rush" scores from the testing agency, and in some cases may add to the time it will take to process the scores within our office.

The SAT college code for Oregon State University is 4586.
The ACT college code for Oregon State University is $\mathbf{3 4 8 2}$.

## SAT subject tests

OSU requires students graduating from non-regionally accredited high schools and home-schooled students to provide scores from two SAT subject tests (Math I or II, and a second exam of the student's choice).

Students who have 12 or more completed college credits in core subject areas (Math, Writing/English, Science) while pursuing their high school diploma will be considered as an alternative to the two SAT subject tests.

## Insight Résumé

OSU seeks to look beyond grades and test scores to determine if applicants bring the necessary skills and abilities to be successful here. Your answers to the Insight Résumé, which is part of the OSU application for admission, provides us with:

- Understanding of you as a unique, contributing individual.
- Your accomplishments, perspectives, experiences, and talents.
- Your achievements within the context of your social and personal circumstances.
- Participation in activities that develop academic, intellectual, and leadership abilities.

## Additional Factors

- Oregon State is also looking for students who will lend educational and cultural diversity to our campus. We are looking for students who go above and beyond the minimum whether in talent, academic ability
or potential. Combined with academic strengths, evidence of these characteristics may be considered in our review of applicants for admission.
- Applicants who are ineligible to re-enroll at any college or university that they attended within the last seven years for student conduct reasons will be automatically declined admission at OSU. Applicants who are unable to re-enroll at a previous college or university for academic reasons will be considered for admission only if they meet OSU's minimum academic requirements.
Please note that academic performance is not the sole criterion for admission to the university. The university may evaluate a person's behavior and background to determine their ability to maintain the standards of academic and professional conduct expected at the university. An evaluation may take into consideration current behavior and performance as well as past experiences and actions.

## GED Students

GED students will be considered for admission if they achieve an average GED score of at least:

- 58 , if taken prior to January 2002, with no subtest score less than 41
- 580, if taken between January 2002 and December 2013, with no subtest score less than 410
- 680 (total from 4 subject tests), if taken in January 2014 or later, with no subtest score less than 150
Students who take the GED test in the 1996-97 school year and later must pass two years of the same foreign language prior to admission or an approved additional way to meet OSU's foreign language requirement. Foreign language taken at an unaccredited high school does not qualify. If you have questions pertaining to these guidelines, please contact the OSU Admissions Office regarding your options for completion of this requirement.

Non-cognitive skills and abilities demonstrated via a GED applicant's Insight Résumé (see above) are also considered in making admission decisions.

Applicants admitted on the basis of GED scores are not required to submit SAT or ACT scores, but scores may be considered if available.

## PETITION FOR ADMISSION CONSIDERATION

Students not approved for admission may appeal via the extended admission process. Eligible students will be provided with information about the petition procedure. Deadlines are in effect each term for appeals. For additional information, please refer to the OSU Admissions
website: http://admissions.oregonstate. edu/admission-appeals-aka-extendedadmissions.

## ADVANCED PLACEMENT <br> (AP) CREDIT

Oregon State University awards ungraded credit for achievement on certain College Board Advanced Placement (AP) examinations. Information pertaining to specific AP credit policies is available in high school counseling centers or may be obtained from the OSU Office of Admissions website. OSU's college code is $\mathbf{4 5 8 6}$ for those wishing to have their scores sent.

## INTERNATIONAL

## BACCALAUREATE CREDIT

Oregon State recognizes IB achievement by awarding credit to students who score 5 or above on standard and higher level IB exams. OSU also grants additional benefits for students who complete the full IB diploma with a score of 30 or higher, as follows:

Sophomore Standing, and IB Scholarships are available. Students with a total score on IB exams of 30 or higher may choose to accept the annual, renewable scholarship award of at least $\$ 3,000$ OR may compete for more substantial awards.

Students must indicate that they would like official test scores sent to OSU. The official International Baccalaureate Certificate is required in order to award credit.

Contact your IB coordinator or IB
North America to request score reports.
IBO North America
212-696-4464
http://www.ibo.org/

## TRANSFER ADMISSION

## When to Apply

Apply online at http://admissions.or-egonstate.edu/apply-choose-application. Applicants are required to use a valid Visa, MasterCard, or Discover credit card to pay the $\$ 60$ nonrefundable application fee. Request that your high school send your official high school transcript to OSU. Official transcripts must be sent to OSU from each college or university attended.

Please refer to http://admissions.or-egonstate.edu/undergraduate-admissiondeadlines for application deadlines.

## MINIMUM REQUIREMENTS FOR

 ADMISSION CONSIDERATION
## U.S. Citizens and Permanent

 Residents:1. Successful completion of no less than 36 quarter ( 24 semester) graded, transferable credits from (a) regionally accredited U.S. institution(s). Students with at least

12 quarter hours but fewer than 36 graded transferable hours will be considered on the basis of their high school records and test scores, and must have a 2.25 GPA on all collegiate work attempted.
2. Only college-level, transferable credits are counted in those accepted in the GPA computation (professional-technical course grades are not included).
3. Grade of C-or better earned in the following courses:

- College-level writing equivalent to WR 121 (English Composition) or equivalent.
- Mathematics equivalent to Math 111 (College Algebra) OR - Math 105 (Contemporary Math)
- Two terms of the same foreign language in college will be required of those high school graduates of the class of 1997 and beyond who did not successfully complete two units (years) of foreign language while in high school. For additional information on how to meet foreign language deficiencies, see http:// admissions.oregonstate.edu/ sites/admissions.oregonstate. edu/files/dfl-ways_to_meet.pdf.

4. Students who graduated from high school in 1997 or later must meet a foreign language requirement with either two years of high school level study in the same language or two quarters/semesters of college level study with a minimum grade of a Cor better. For additional information on how to meet foreign language deficiencies, consult with the Office of Admissions.
5. Applicants who are ineligible to re-enroll at any college or university that they attended within the last seven years for student conduct reasons will be automatically declined admission at OSU. Applicants who disclose that the reason for their ineligibility is for academic reasons will be admitted only if they meet OSU's minimum academic requirements.
6. Applicants who are denied admission have the right to appeal that decision, and appeals will be reviewed on a case-by-case basis. Consult with the Office of Admissions for more information on the appeal process.
Please note that meeting the
minimum admissions require-
ments and/or an individual's
academic performance does not
guarantee them admission to the
university. Applicants' experiences,
actions, and non-cognitive skills are assessed by way of the Insight Résumé. Furthermore, the university may evaluate a person's behavior and background to determine their ability to maintain the standards of academic and professional conduct expected at OSU.

Consideration will be given to applicants with a 2.00 GPA and an Associate of Arts Oregon Transfer (AAOT) degree from an Oregon community college, but admission is not guaranteed.

## EVALUATION AND TRANSFERABILITY OF CREDIT <br> Only official records are used to evalu-

 ate eligibility for admission and transferability of credit.Official transcripts of all college work attempted must be submitted directly from the Registrar's Office of each institution. Telefax (Fax) credentials are considered official if faxed directly from a regionally accredited U.S. school with a cover page. OSU's fax number is 541-737-2482.

OSU considers transfer college-level courses successfully completed at colleges or universities regionally accredited by an appropriate accreditation agency. An advanced standing report acknowledging the courses accepted by the university will be sent via email by the Office of Admissions after the official letter of admission.

Persons transferring to OSU from a community college may have up to 124 quarter credits ( 83 semester units) accepted toward their bachelor's degree. If the school previously attended used the semester system, one semester credit equals 1.5 quarter credits at OSU.

## CLEP

Applicants who want credit for CollegeLevel Examination Program (CLEP) tests should have official test scores sent to Admissions using college code 4586. Additional details are available in the OSU Credit Opportunities brochure and on the OSU Admissions website.

For information on OSU's acceptance of professional-technical courses, please see Academic Regulation 2 below.

## ACCEPTANCE OF CREDIT FROM A TWO-YEAR INSTITUTION

 (OSU Academic Regulation 2):
## Credit From A Two-Year Institution

 (Undergraduate Students)a. College Transfer Credits:

Oregon State University accepts for credit toward a baccalaureate degree all college transfer work completed at an Oregon or other accredited community college up to 124 lower-division quarter credits. For Institutional Requirements for Baccalaureate Degrees, see AR 25.

Students are encouraged to work with the relevant academic unit to ensure that transfer credits meet department and college requirements for the degree. It would be unlikely for an individual student to be able to use all 124 credits toward an OSU baccalaureate degree. Transfer credits and grades are not used in calculating the OSU cumulative GPA. Students who hold OSU-approved direct transfer degrees from Oregon or other accredited community colleges (e.g., the Associate of Arts Oregon Transfer) or who have 90 or more credits accepted in transfer will be granted junior standing. ${ }^{1}$ Students who hold OSU-approved direct transfer degrees will be considered to have met the Perspectives and Skills (except WIC) areas of the Baccalaureate Core. In addition, they must complete the upper-division Synthesis areas of the core. Students transferring from Oregon or other accredited community colleges who do not hold approved direct transfer degrees ordinarily will be given baccalaureate core credit in the Perspectives and Skills area on a course-by-course basis for work that is judged to be equivalent in content.
b. Transfer of ProfessionalTechnical Credits: a maximum of 12 quarter credits (8 semester credits) of professional-technical course work applicable in an associate's degree or certificate program at an accredited institution can be accepted upon admission to OSU as general elective credit (graded as Pass) and as part of the 124-quarter credit total that can be applied toward a baccalaureate degree.
c. Transfer of ProfessionalTechnical Course Credits through Articulation Agreements: Lower-division OSU credit may be awarded for specific professional-technical community college courses when those courses are validated by articulation agreement with the appropriate OSU department. This may be above the 12 quarter credits of general electives (graded as Pass) allowed when a student is admitted to OSU. Credit will be awarded only upon the recommendation of the appropriate department and college, and approval by the Curriculum Council. Community college professionaltechnical course work is not equated to upper-division OSU course work. These course credits will count as part of the 124 quarter credits defined in paragraph 2a above. OSU departments who have articulation agreements with community colleges
regarding community college professional-technical courses shall review the agreements annually and forward a dated list of the articulated community college courses to the Curriculum Council.

## Footnote:

${ }^{1}$ Junior standing does not necessarily imply that OSU institutional, college, division, and/ or departmental requirements, which are normally satisfied by OSU students prior to their junior year, have been satisfied.

## PETITION FOR ADMISSION CONSIDERATION

Transfer students not approved for admission may complete the extended admission requirements and will be provided with information about the petition procedure. Deadlines are in effect each term for appeals.

## NONDEGREE STATUS

Nondegree enrollment status is designed for students who want to take courses but do not want to pursue a degree. In some instances, nondegree students may not meet regular admission requirements. Nondegree students are part-time students who are expected to enroll in no more than 8 credits a term. Students who want to enroll for more than 8 credits a term must apply for regular admission.

Nondegree enrollment status requires no formal admission process and has no requirements for entrance. Nondegree applications should be submitted electronically. Approval is granted for a specific term. Students who are unable to attend the specific term and want to enroll later should contact the Office of Admissions (undergraduate nondegree) or the Graduate School (graduate nondegree).

Nondegree students are given grades and academic records, and are reviewed according to university standards of good academic progress.
Nondegree students who wish to seek full admission and pursue a degree must do so by submitting an undergraduate, postbaccalaureate or graduate application for admission. In all cases, an admission application fee is required. Successful enrollment as a nondegree student does not guarantee regular admission. Credits earned while enrolled under nondegree undergraduate status will be applied to a student's record.

Nondegree graduate students who decide to seek admission to a specific degree program during the course of their studies should note that any credits taken as a nondegree student may or may not be applicable for that degree, depending upon a variety of factors, their chosen program, and the policies of the Graduate School. Graduate students are further advised that academic residency must be completed after full
admission as a degree-seeking graduate student, regardless of the number of credits previously earned while in nondegree status. Please refer to "Reclassification of Postbaccalaureate Students, Nondegree-Seeking Students, and Graduate Certificate Students" at http:// catalog.oregonstate.edu/ChapterDetail. aspx?key=36\#Section1792.

Nondegree students follow the registration procedures and policies as outlined in the Registration Information Handbook. The Schedule of Classes is available through the Web at http:// catalog.oregonstate.edu/Default. aspx?section=ClassListing. Registering students are expected to obtain a student identification card through the ID Center in the Kerr Administration Building.

Tuition and fees for nondegree students enrolled in fewer than 9 credits are assessed at resident rates based on undergraduate- or graduate-course level. Payment of the health service fee is optional. Enrollment in excess of 8 credits requires that tuition and fees be assessed at the same rates as regular students and requires full admission as a regular student.

Registration holds in place prior to applying for nondegree status must be satisfied before registration as nondegree student will be allowed.

## ACADEMIC REGULATION 1.

 ADMISSION FOR NONDEGREE STUDENTS1. Nondegree enrollment status for undergraduate students is designed for students who wish to take 8 or fewer credits per term, but do not wish to pursue a degree or a specific postbaccalaureate credential.
2. Nondegree enrollment status for graduate students is designed for students who wish to take graduate courses, but do not wish to pursue an advanced degree. Nondegree graduate students are not limited as to the number of courses (credits) per term.
3. Credits earned as a nondegree undergraduate student may be used to satisfy degree requirements upon admission as a degree-seeking student.
4. Credits earned while enrolled as a nondegree graduate student will not necessarily apply to a graduate program upon admission to degreeseeking status. Communication with the Graduate School and specific academic programs is advised.
5. Nondegree students seeking admission to a degree program must do so by submitting an undergraduate, postbaccalaureate, or graduate application for admission.

## INTERNATIONAL UNDERGRADUATES AS <br> NONDEGREE STUDENTS

International students who are currently in the U.S. on visas such as an F-1, F-2, $\mathrm{B}-2, \mathrm{~J}-1$, etc. and do not have a valid immigration document from OSU should consult with OSU's Office of International Services (OIS) (email: isas.advisor@ oregonstate.edu) before submitting the OSU non-degree application for admission. Students will be required to turn in copies of their immigration documents to move forward. Only certain visa types allow an individual to pursue part-time or non-degree-seeking course work and still maintain one's visa status.

International students who plan to enroll with OSU as non-degree exchange students should use the application form that is made available at each partner institution. For a list of exchange partner institutions, go to http://international.or-egonstate.edu/files/atosu/osu-exchange-partner-institutions.pdf.

Undergraduate students who wish to enroll with OSU for one or more terms, but who do not plan to complete degree requirements at OSU and will not participate in an established exchange program, should contact International Admissions at intladmit@oregonstate.edu for further information, and before applying.

International students who wish to enroll in Academic English, Undergraduate Pathway or Graduate Pathway programs should contact INTO Oregon State University at intladmit@oregonstate.edu for further information.

## SELECT A MAJOR

Undergraduates and postbaccalaureate applicants are asked to select a college and a major within that college. The University Exploratory Studies Program is a choice available to undergraduates who are undecided about a major. Students may change their major in consultation with an academic advisor.

## ADMISSION OF POSTBACCALAUREATE STUDENTS

Admission for postbaccalaureate applicants is determined by the department, not by the Office of Admissions.
If you are interested in pursuing postbaccalaureate course work, please consult the major department before applying for admission.

## DEGREE SEEKING POSTBACCALAUREATE

Students who would like to earn a subsequent undergraduate degree from OSU or complete prerequisites for a graduate program at OSU may apply for degree seeking postbaccalaureate admission through the Office of Admissions. Appli-
cants for consideration must submit an admission application along with official transcripts of all college work by the application deadline. Generally, applicants must meet the following admission requirements:

- Have a bachelor's degree or equivalent from a regionally accredited institution
- 2.25 accumulated GPA requirements. The GPA is computed on the first baccalaureate degree plus any subsequent credit earned.
- Complete College Algebra and English Composition with a C- or better
- Submit Statement of Objectives of 150 to 200 words with their application
- Academic departments may impose additional requirements
- Nonrefundable $\$ 60.00$ application fee*
Please note that academic performance is not the sole criterion for admission to the university. The university may evaluate a person's behavior and background to determine their ability to maintain the standards of academic and professional conduct expected at the university.

You cannot earn a postbaccalaureate degree in the same field in which you earned your original degree.
*Applicants wishing to be considered for admission to multiple programs must submit a new application and fee for each program.

## ADDITIONAL CREDENTIALS

Students who want to earn a subsequent major, minor, option, or certificate from OSU may apply for credential enrollment status using the Postbaccalaureate Admission Application. Students must complete the current requirements for a minor or certificate and receive the dean's approval. Students must also achieve a minimum GPA of 2.00 and complete a minimum of 15 credits in residence at OSU. A nonrefundable $\$ 60.00$ admission application fee is charged. Students pursuing an additional credential will be categorized as non-degree credentials at OSU and not eligible to receive federal financial aid.

## Credential Classifications

- Minor Credential: Additional minor earned after undergraduate work is completed. Baccalaureate work can be completed at OSU or another institution. Students that previously completed a baccalaureate degree from Oregon State or another college cannot enter the same degree program as the degree program they graduated as an undergraduate.
- Major Credential: Additional major earned after undergraduate work is completed at OSU. Major
credential must be completed within the same degree program.
- Option Credential: Additional option earned after undergraduate work is completed at OSU. Option credential must be completed within the same degree and major program.
- Certificate: A structured progression of courses that constitute a coherent body of study with a defined focus within a single discipline or a logical combination of disciplines. Undergraduate certificates can be earned by students without any prior degree (professionals in a field), or as a credential seeking, graduate student or as an undergraduate student in conjunction with an undergraduate degree. The certificate requirements and pre-requisites are defined at the college level.

## INTERNATIONAL APPLICANTS

International applicants should also refer to the admissions procedures for undergraduate/graduate international students for deadlines, test score requirements, and additional information.

## ADMISSION OF SUBSEQUENT MINOR, CREDENTIAL OR CERTIFICATE

Students who want to earn a subsequent minor, credential or certificate from OSU may apply for nondegree credential enrollment status. Students must complete the current requirements for a minor, credential or certificate and receive the dean's approval. Students must also achieve a minimum GPA of 2.0 and complete a minimum of 15 credits in residence. A nonrefundable $\$ 60.00$ admission application fee is charged.

## ADMISSION WITH

## GRADUATE STANDING

To be considered for admission to the Graduate School, an applicant must have a baccalaureate degree from an accredited college or university, as well as a scholastic record, background, or other evidence that indicates the ability to do satisfactory graduate work. See Graduate Admission Procedures in this catalog: http:// catalog.oregonstate.edu/ChapterDetail. aspx?key=36.

[^0]must have completed their high school diploma or secondary school certificate with a minimum 3.0 on a 4.0 scale, an average " $B$ " grade $(A-F)$, or the equivalent.

Applicants transferring from a recognized college or university outside the U.S. must have a cumulative grade-point average of 2.5 , meet OSU's math requirement for transfer students (if you have earned 36 or more transferrable credits) AND be eligible to return to the most recent institution attended.

Applicants transferring from a regionally accredited college or university in the U.S. must have a cumulative gradepoint average of 2.25 , meet OSU's math and writing requirements for transfer students (if you have earned 36 or more transferrable credits), AND be eligible to return to the most recent institution attended.

Applicants for a bachelor's degree must submit official records of all secondary, middle and high schools attended (in general, these represent years 9-12) AND all colleges, universities and/or professional schools attended. Results of comprehensive examinations are required in the original language and on the official form of the institution, government, or other examining or certifying agency.

Applicants must present proof of English language proficiency, if available, by submitting TOEFL, IELTS or an acceptable alternative, e.g., IGCSE, SAT, ACT, or AP results.

## Exceptions to the English

 proficiency test requirement are:- Individuals who have completed a bachelor's degree from a regionally accredited institution in the U.S. or other English speaking country (See list below).
- Citizens of the following countries: Anguilla, Antiqua and Barbuda, Australia, Bahamas, Barbados, Belize, Bermuda, British Virgin Islands, Canada (English speaking provinces), Cayman Islands, Dominica, Grenada, Ireland, Jamaica, Montserrat, New Zealand, St. Kits and Nevis, St. Lucia, St. Vincent and the Grenadines, Trinidad and Tobago, Turks and Caicos, United Kingdom, U.S. Virgin Islands.
- **For citizens of African countries whose official language is English, waivers will be considered on a case-by-case basis if the medium of instruction is English.

## INTO OSU PATHWAY PROGRAMS:

## Undergraduate Pathway

INTO Oregon State University's Undergraduate Pathway programs combine intensive language study, academic skills development and academic course
work in a carefully constructed program designed to move students successfully through one to three terms of undergraduate study in their degree program. Entry requirements vary based on the length of program chosen. All students have a study plan and receive academic advising that is reflective of their specific Undergraduate Pathway program.

Successful completion of Undergraduate Pathway progression requirements allows students to complete one to three terms of undergraduate study and progress to their undergraduate degree at Oregon State University in their respective field of study.

## Academic English + Undergraduate Pathway

Academically qualified applicants for Undergraduate Pathway who are unable to provide a language proficiency score (or who provide one that is below the minimum) will begin their program by taking Academic English courses until they complete Level 4 of the program. All students have a study plan and receive academic advising that is reflective of the Academic English + Undergraduate Pathway program.

## GRADUATE PATHWAY

INTO Oregon State University's Graduate Pathway program is a pre-Master's program that provides international students a direct path to various graduate degrees at the university. The program gives students the academic foundation, essential language skills and GMAT/GRE test preparation to successfully move on to the Master's degree. Entry to this program requires satisfactory completion of a four-year undergraduate degree in an appropriate subject with at least a 2.75 GPA or equivalent overall and a minimum of 2.75 GPA for the final year of study and a 70 iBT TOEFL or equivalent test score (some options have higher entry requirements). All students have a study plan and receive academic advising that is reflective of their specific Graduate Pathway program.

Successful completion of Graduate Pathway progression requirements secures students a place in full-time graduate studies at Oregon State University in their respective field of study.

## Academic English + Graduate Pathway

Academically qualified applicants for Graduate Pathway who are unable to provide a language proficiency score (or who provide one that is below the minimum) will begin their program by taking Academic English courses until they complete Level 5 of the program. All students have a study plan and receive academic advising that is reflective of the Academic English + Graduate Pathway program.

## WHEN TO APPLY: INTERNATIONAL <br> UNDERGRADUATE STUDENTS

The Office of International Admissions recommends that international undergraduate applicants submit a complete application and supporting documents preferably 4 to 6 months before the intended term start date.

## Start Date

Term
Summer 2016
Fall 2016
Winter 2017
Spring 2017
(First day of classes)
June 20
September 21
January 9
April 3
For information about Admission of International Graduate Students, please see the Graduate Admissions Requirements section at http://catalog.oregonstate.edu/ChapterDetail.aspx?key=36.

## ADMISSION TO

## SUMMER SESSION

Students who wish to begin work on a degree during summer session at OSU must satisfy regular admission requirements and apply by the specified deadlines.

## ADMISSION TO <br> PROFESSIONAL PROGRAMS

Professional programs are accredited according to requirements set by professional societies. These programs often have more rigorous requirements for admission, continuation in the program, and acceptance of transfer credit. Therefore, admission to OSU is separate from admission to a professional program and does not guarantee such admission.

OSU-CASCADES CAMPUS
Oregon State University's campus in Bend, Oregon, provides students excellence in academics, practical and experiential learning opportunities, and the lifelong advantages of a premier research university-all on a growing campus community of 1,200 students and faculty.
OSU-Cascades features outstanding faculty in degree programs that reflect Central Oregon's vibrant economy, abundant natural resources and commitment to sustainability. Sixteen undergraduate majors, 30 minors and options, and three graduate programs include fields such as computer science, energy systems engineering, kinesiology, hospitality management, and tourism and outdoor leadership. Experiential learning options include faculty research, internships and study abroad programs in 80 countries.

OSU-Cascades' new campus opens to students in September 2016. It is located near downtown Bend, and is walking or biking distance from many services and amenities used by students. A bus system provides students free transportation,
including to Central Oregon Community College.

OSU-Cascades awards master's and bachelor's degrees.

## DEGREE PARTNERSHIP

 PROGRAMS - DUAL ADMISSION AND ENROLLMENT AT DESIGNATED COMMUNITY COLLEGESOregon State University offers special Degree Partnership Programs (dual admission and enrollment) with most of Oregon's community colleges:

1. Blue Mountain Community College in Pendleton
2. Central Oregon Community College in Bend
3. Chemeketa Community College in Salem
4. Clackamas Community College in Oregon City
5. Clatsop Community College in Astoria
6. Columbia Gorge Community College in The Dalles
7. Klamath Community College in Klamath Falls
8. Lane Community College in Eugene
9. Linn-Benton Community College in Albany
10. Mt. Hood Community College in Gresham
11. Oregon Coast Community College in Newport
12. Portland Community College
13. Rogue Community College in Medford
14. Southwestern Oregon Community College in Coos Bay
15. Tillamook Bay Community College in Tillamook
16. Treasure Valley Community College in Ontario
17. Umpqua Community College in Roseburg
OSU also has Degree Partnership Programs with four of Hawaii's seven community colleges:
18. Hawai'i Community College in Hilo, Hawaii (Big Island)
19. Kapi'olani Community College in Honolulu, Oahu
20. Leeward Community College in Pearl City, Oahu [Pending]
21. Maui College, University of Hawaii, in Kahului, Maui
These programs provide students with simultaneous access and admission/ enrollment status at both OSU and the community college. There is one application process to attend both schools, advising is available at either campus, and the student has the opportunity to access services and participate in college life on both campuses. There is flexibility in scheduling with access to more classes, financial aid is available for qualified students while attending both schools, and admitted students have access to
library and computer lab resources at both campuses. For more information on Degree Partnership Programs (dual admission and enrollment), please contact the admissions office at the community college, OSU Degree Partnership Student Program, 541-737-2790, or the University Partnership Programs Web page at http:// oregonstate.edu/partnerships/ or http:// partnerships/oregonstate.edu.

## Kayleen Salchenberg-Steeves,

Transfer Student Services Manager
541-737-2562, kayleen.salchenberg@ oregonstate.edu
Application deadlines for Degree Partnership Programs vary. Please refer to the DPP website at http://oregonstate.edu/ partnerships/application-deadlines to assure that you meet the appropriate deadline.

## CREDIT FOR

## MILITARY EXPERIENCE

Students are recommended to seek advice from their Academic Advisor prior to transferring in their Military Credits. Oregon State University grants up to 45 credits for military education as recommended by the American Council on Education's (ACE) Guide to the Evaluation of Educational Experiences in the Armed Services. This is in accordance with transfer credit policies at Oregon State University. Students may request evaluation of military credit by furnishing the Office of Admissions with a Joint Services Transcript or Navy SMART transcript or U.S. Coast Guard transcript. Transcripts may be obtained through these homepages:

- JST (https://jst.doded.mil/official. html) Note: Some browser security settings may raise a caution message before entering these Department of Defense websites.
- CCAF (Community College of the Air Force) http://www.au.af.mil/au/ barnes/ccaf/transcripts.asp
- Additional informational links to other service pages can be found on the ACE website (http://www.acenet. edu/higher-education/topics/Pages/ College-Credit-for-Military-Service. aspx).
Oregon State University will grant
1.00 quarter credit for the course HHS

241 Lifetime Fitness Lab. For HHS 241 credit to be granted, please submit either the DD214 or an official ACE transcript. Credit will also be granted if one of the following military science courses has been completed successfully: Physical Fitness, Physical Education, or Physical Conditioning. To receive credit, please submit an official transcript from the institution.

Oregon State University will assess and award block transfer credit upon review of your military record. An evaluation report showing block transfer credits will be sent to you. Your major college will receive a copy of your evaluation report and the ACE recommendation guideline. For a better understanding of how each college uses the 45 -credit block of general elective credits there is a web page on the OSU Veterans website (go to http:// studentlife.oregonstate.edu/veterans, click on Current Students, then click on Military Credit) outlining this information. In addition, if you believe a specific military course, training, experience, etc. directly relates to a university course, you can complete a form to petition for Military Credit Course Substitution (go to http://studentlife.oregonstate.edu/veterans, click on Current Students on the right side, then click on Military Credit on the right side of the page).

Any student receiving GI Bill education benefits while attending Oregon State University is required to obtain transcripts from all previously attended schools and submit them to the school for review of prior credit.

## PLACEMENT EXAMINATIONS

High school seniors planning to enter OSU must take the SAT or the ACT. These tests provide academic advisors with valuable information about a student's educational development, abilities, and aptitudes.

New students are required to take an online Math Placement Test (see http://www.math.oregonstate.edu/mlc-placement-home). Students who enter the university with previous language training from another institution and who wish to continue their study of the language are required to take a language proficiency examination to determine placement level. Please call the OSU School of Language, Culture, and Society at 541-737-4603. Other placement examinations may be required in certain majors.

## REGISTRATION PROCEDURES

Once admitted to Oregon State University, students are eligible for course registration. Complete registration instructions, procedures, schedules and deadlines are detailed in the Schedule of Classes on the Web. A student is officially registered and eligible to attend
classes only when all procedures have been completed. Students who make arrangements to pay outstanding university debts and who do not adhere to the agreed upon plan may be dis-enrolled.

In addition to the basic information regarding registration, the Registration Information Handbook is an essential resource to the student for the academic calendar, fee schedule, academic and other student regulations and procedures, final examination schedule, and listing of baccalaureate core courses.

## RE-ENROLLMENT

Undergraduate students who wish to reenroll in the university after an absence may do so providing they were eligible to re-enroll their last term of attendance. Students who have been absent four or more terms, not including summer terms, should contact the Office of the Registrar to reactivate their records, at which time the current catalog becomes their catalog of record for graduation requirements. The university reserves the right to consider a student's status with respect to voluntary or involuntary leave, as well as any existing student conduct issues when requesting to re-enroll. Students who have been absent less than four terms are still considered active and register following the registration instructions in the current Registration Information Handbook in PDF format in the online catalog at http://catalog.oregonstate. edu/Default.aspx?section=Registration. International students who wish to reenroll after an absence should check in with the Office of International Services (OIS) to make sure they have the required documents to return.

Re-enrolling students who have attended another college or university since their last term at OSU are required to report that enrollment at the time of re-entry. Official transcripts must be forwarded to the Office of Admissions. Returning students with an OSU cumulative GPA below or very near 2.00 are reminded of the OSU graduation requirement (Academic Regulation 25e), which stipulates 2.00 as the minimum OSU cumulative grade-point average required to earn a baccalaureate degree from OSU.
All re-enrolling students are reminded of their responsibility to update any outdated information, such as address, in their OSU records. Contact the Office of the Registrar to make changes.

## OREGON TRANSFER MODULEOSU VERSION

The Oregon Transfer Module (OTM) provides a one-year curriculum for students who plan to transfer to a state of Oregon two-year or four-year college/university of higher education. The Oregon Transfer Module is neither a certificate nor a degree; it represents the successful comple-
tion of certain general education courses. OTM completion will be noted in the student's record. The Oregon Transfer Module documents that a student has met a subset of the common general education requirements at all Oregon community colleges and state universities in Oregon.
The Oregon Transfer Module requirements at Oregon State University are:

- 45 lower-division credits-minimum of 12 credits must be OSU course work according to the attached list
- Minimum grade of C- for each course
- Minimum cumulative GPA 2.0 at time Oregon Transfer Module is completed
- Students are allowed $3 \mathrm{~S} / \mathrm{U}$ credits per full time term or a maximum of 9 S/U credits in the Oregon Transfer Module.
OSU students planning to complete the Oregon Transfer Module must file the OTM Completion Application with the Registrar's Office. Students should fill out the form when the module is completed or they are in the last term of completion.

Upon successful review by OSU and completion of the Oregon Transfer Module, a notation will be added to the student's OSU record indicating the module is complete and the date. The notation will appear on the transcript as follows:
"Oregon Transfer Module Completed day-month-year"

## OREGON TRANSFER MODULE COURSES

Foundational Skills (12-13 credits)
Writing (6 credits)

## Select two writing courses from the

 following:HC 199. Honors Writing (3)
PHL 121. Reasoning and Writing (3)
WR 121. English Composition (3)
WR 201. Writing for Media (3)
WR 214. Writing in Business (3)
WR 222. English Composition (3)
WR 224. Introduction to Fiction Writing (3)
WR 241. Introduction to Poetry Writing (3)
Oral Communication (3 credits)
Select one speech course from the following:
COMM 111. Public Speaking (3)
COMM 114. Argument and Critical
Discourse (3)
COMM 114H. Argument and Critical Discourse (3)
COMM 218. Interpersonal Communication (3)

COMM 218H. Interpersonal Communication (3)

## Mathematics (3-4 credits)

Select one mathematics course from the following:
MTH 105. Introduction to Contemporary Mathematics (3)
MTH 111. College Algebra (4)
MTH 112. Elementary Functions (4)

MTH 211. Foundations of Elementary Mathematics (4)
MTH 241. Calculus for Management and Social Science (4)
MTH 245. Mathematics for Management,
Life, and Social Sciences (4)
MTH 251. Differential Calculus (4)
MTH 251H. Differential Calculus (4)
Introduction to Disciplines (30 credits)
Arts and Letters (9+ credits)
Select a minimum of three courses:
ART 101. Introduction to the Visual Arts (4)
ART 204. Introduction to Art HistoryWestern (3)
ART 205. Introduction to Art HistoryWestern (3)
ART 206. Introduction to Art HistoryWestern (3)
ENG 104. Introduction to Literature: Fiction (3)

ENG 104H. Introduction to Literature: Fiction (3)
ENG 105. Introduction to Literature: Drama (3)

ENG 106. Introduction to Literature: Poetry (3)

ENG 201. Shakespeare (4)
ENG 202. Shakespeare (4)
ENG 204. Survey of British Literature: Beginnings to 1660 (4)
ENG 205. Survey of British Literature:
Restoration to Romantic Era (4)
ENG 206. Survey of British Literature:
Victorian Era to 20th Century (4)
ENG 207. Literatures of Western
Civilization: Classical-Renaissance (4)
ENG 208. Literatures of Western Civilization: 18th Century to Present (4)
ENG 210. Literatures of the World: Asia (4)
ENG 211. Literatures of the World: Africa (4)
ENG 212. Literatures of the World: Meso/ South America, Caribbean (4)
ENG 213. Literatures of the World: Middle East (4)
ENG 215. Classical Mythology (4)

GEO 102. The Surface of the Earth (4)
GEO 201. Physical Geology (4)
GEO 202. Earth Systems Science (4)
GEO 203. Evolution of Planet Earth (4)
MB 230. Introductory Microbiology (4)

OC 103. Exploring the Deep: Geography of the World's Oceans (4)
PH 104. Descriptive Astronomy (4)
PH 106. Perspectives in Physics (4)
PH 201. General Physics (5)
PH 202. General Physics (5)
PH 203. General Physics (5)
PH 211. General Physics with Calculus (4)
PH 212. General Physics with Calculus (4)
PH 213. General Physics with Calculus (4)

## Electives (3+ credits)

One additional course as required to bring the total to 45 . The course may be from any of the Introduction to Disciplines areas (Arts and Letters, Social Science, or Science/Math/Computer Science).

## UNIVERSITY DEGREE REQUIREMENTS

Current degree requirements are printed each year in the "Academic Regulations and Procedures" section of the Registration Information Handbook and in the electronic or printed General Catalog, along with other information on a wide range of topics from minimum credits for full-time status to adding courses. All students are encouraged to review this part of the Registration Information Handbook and electronic or printed General Catalog each year for the most current information about OSU requirements and procedures.

Students with questions about baccalaureate degree requirements are encouraged to contact their advisor. Students needing assistance in selecting a major or selecting an advisor may wish to call or stop by the college office.

## CATALOG YEAR POLICY

## Graduation Requirements/Catalog

## Contract Policy

When determining the graduation requirements for a given student:

- Students must meet all applicable degree requirements from the published catalog(s).
- The student's catalog year for institutional and baccalaureate core requirements is established by his or her first term of attendance (matriculation date) at Oregon State University as an admitted student.
- The student's catalog year for college/ major/option/minor requirements is based on the date of declaration of the major/option/minor; consequently, a student's first (primary) major/ option must be in the same catalog year. If a primary option is declared in a subsequent academic year, the primary option will be aligned with the catalog year of the primary major. If the primary option did not exist in the catalog year of the primary major, the primary major will move to the catalog year that the primary option was declared.
- Additionally, while the student's first major/option must be in the same catalog year, any additional declarations of majors/options/minors will be determined by the declaration dates (and corresponding catalog years). A student, in collaboration with an advisor, can also choose to graduate using a subsequent (to their most recent major declaration date) catalog year within the same major/option.
- At the time of graduation, all continuously enrolled students, including transfer students, may not use a catalog that is more than ten years old. Students may petition their college's head advisor for an extension of a catalog greater than ten years prior
to their expected graduation term.
- Current policy requires a student to reapply after not enrolling at OSU for four consecutive terms (not including summer terms). The published catalog for the resulting readmission/matriculation date will become the catalog of record for graduation requirements. The Planned Educational Leave Program defined in AR 13.c beginning with the 2011-2012 academic year, provides a mechanism for a student to keep their original catalog of record during a planned absence.
- For Degree Partnership Program students, the first term the student is admitted to OSU will be the matriculation date and will determine the catalog year for institutional and baccalaureate core requirements. The catalog year for college/major/option/ minor requirements will be the same as all other OSU students.
- Every effort has been made to ensure the accuracy of information in the OSU General Catalog. However, Oregon State University or the Oregon State Board of Higher Education may find it necessary from time to time to make changes in courses, curricula, or degree requirements. Students already admitted to a program in which such changes have been made will be reasonably accommodated, if possible, to ensure their normal progress toward a degree. A student may, however, still be required to conform to changes in courses, curricula, or degree requirements as deemed necessary by Oregon State University or the Oregon State Board of Higher Education.

## THE BACCALAUREATE

## EXPERIENCE

Oregon State University is committed to creating an atmosphere of intellectual curiosity, academic freedom, diversity, and personal empowerment. This will enable everyone to learn with and from others. This compelling learning experience celebrates knowledge; encourages personal growth and awareness; acknowledges the benefits of diverse experiences, world views, learning styles, and values; and engenders personal and societal values that benefit the individual and society.

OSU develops curricula based on sound disciplinary knowledge and input from practitioners. Students acquire skills and knowledge for a lifetime of learning, and will be involved in scholarly and creative pursuits.
The baccalaureate degree includes:

- the baccalaureate core
- an in-depth study in at least one major; and
- individual elective courses.

Minors are available in many areas and are required in certain programs. Students

should check college, school, program, or departmental requirements.
The Baccalaureate Core (bacc core) Curriculum represents what the OSU faculty believes is the foundation for students' further understanding of the modern world. Informed by natural and social sciences, arts, and humanities, the bacc core requires students to think critically and creatively, and to synthesize ideas and information when evaluating major societal issues. Importantly, the bacc core promotes understanding of interrelationships among disciplines in order to increase students' capacities as ethical citizens of an ever-changing world.

## THE BACCALAUREATE CORE

The Oregon State University Baccalaureate Core (http://catalog.oregonstate. edu/bcc.aspx) is continually enriched. It emphasizes critical thinking, writing, world cultures, appreciation of differences, the arts, sciences, literature, lifelong fitness, and global awareness in 15 course categories. Over 250 courses are available to meet core requirements. Students must complete a total of 48 credits plus a Writing Intensive Course (WIC) of at least 3 credits.

The Baccalaureate Core Committee determines which courses will satisfy each of the requirements above. WIC courses will be reviewed by the WIC Director and the Baccalaureate Core Committee. The core is governed by the following rules: (1) No more than two courses from any one department may be used by a student to satisfy the Perspectives category of the core. (2) No single course may be used by a student to satisfy more than one subject area of the core even though some courses have been approved in more than one area. (3) Both Synthesis courses may not be taken in the same department.
Defining characteristics of baccalaureate core courses are available at http://oregonstate.edu/admin/aa/ apaa/assessment/baccalaureate-core-assessment-0. Additional information is available at http://main.oregonstate.edu/ baccalaureate-core.

The purpose of the writing intensive requirement is to insure that each graduate is prepared to write in the discourse, conventions, and genres of his or her major field.

A student completing requirements for two majors, including double degrees as well as dual majors (one degree with two majors), may request that one WIC course satisfy the WIC requirement for graduation in both majors. This oppor-
tunity is available if and only if:

1. The discourse, written conventions, and genres of the two majors are closely related, and
2. The substitution of a WIC course from one major for that in another major is approved in writing by the chairs or heads of both departments involved and the approval is placed in the student's academic file.
Students and advisors should be aware that in some cases, the WIC course in a major is an integral part of the degree and substitution may not be appropriate. The final decision rests with the department chair or head.

## BACCALAUREATE CORE <br> REQUIREMENTS

No single course may be used by a student to satisfy more than one area of the core even though some courses are approved for more than one area.
Skills Courses (lower division except WIC) (15)
To support students' success in all courses, the following first-year Skills courses are to be taken and completed satisfactorily within the first 45 hours of OSUgenerated credits.
Writing I (WR 121, must earn at least C-) Mathematics (approved list below) Speech (approved list below)
To prepare for the upper-division Writing Intensive Course in the major, the following Skills course is to be taken and completed satisfactorily within the first 90 hours of OSU-generated credits:

Writing II (approved list below)
For transfer students with sophomore standing or above, Writing II and Speech must be completed within the first 45 hours of OSU-generated credits. These requirements apply to all students, whether full time or part time.
Fitness (3)
Mathematics: MTH 105, *Introduction to Contemporary Mathematics, or higher level mathematics (3)
Writing I (3)
Writing II (3)
Speech (3)

## Perspectives Courses (lower and upper division) (24) <br> No more than two courses from any one

 department may be used by a student to satisfy the Perspectives category of the core. GEO courses listed under Physical Science are considered to be from a different department than GEO courses listed under any other Perspective category. Choose an additional course from either Physical Science or Biological Science.Biological Science (including lab) (4)
Physical Science (including lab) (4)
Plus choice of additional physical or biological science (including lab) (4)
Take a minimum of one course in each of the following areas:

Cultural Diversity (3)
Literature and the Arts (3)

Social Processes and Institutions (3)
Western Culture (3)

## Difference, Power, and <br> Discrimination Courses (3)

Synthesis Courses (upper division) (6)

Both synthesis courses may not be taken in the same department.
Contemporary Global Issues (3)
Science, Technology, and Society (3)
WIC (Writing Intensive Course, upper division, included in credits for major) (3)
Total (48) + WIC (3) = 51

## APPROVED <br> BACCALAUREATE CORE <br> COURSES

For the current and complete list of approved baccalaureate core courses, go to http://catalog.oregonstate.edu/ bcc.aspx.

## SKILLS COURSES (15)

To support students' success in all courses, the following first-year Skills courses are to be taken and completed satisfactorily within the first 45 hours of OSUgenerated credits:

> Writing I (WR 121, minimum passing grade C-)
> Mathematics (approved list below) Speech (approved list below)

To prepare for the upper-division Writing Intensive Course in the major, the following Skills course is to be taken and completed satisfactorily within the first 90 hours of OSU-generated credits:

Writing II (approved list below)
For transfer students with sophomore standing or above, Writing II and Speech must be completed within the first 45 hours of OSU-generated credits. These requirements apply to all students, whether full time or part time.
Fitness (3)
Choose HHS 231, plus a 1-credit course listed below or any PAC course:
HHS 231 LIFETIME FITNESS FOR HEALTH (2)

HHS 241 LIFETIME FITNESS (1)
MS 130 MILITARY PHYSICAL CONDITIONING (1)

## Mathematics (3)

MTH 105 INTRODUCTION TO CONTEMPORARY MATHEMATICS (3)
MTH 111 COLLEGE ALGEBRA (4)
MTH 112 ELEMENTARY FUNCTIONS (4)
MTH 211 FOUNDATIONS OF ELEMENTARY MATHEMATICS (4)
MTH 241 CALCULUS FOR MANAGEMENT AND SOCIAL SCIENCE (4)
MTH 245 MATHEMATICS FOR
MANAGEMENT, LIFE, AND SOCIAL SCIENCES (4)

MTH 251 DIFFERENTIAL CALCULUS (4) MTH 251H DIFFERENTIAL CALCULUS (4)

## Speech (3)

COMM 111 PUBLIC SPEAKING (3)
COMM 111H PUBLIC SPEAKING (3)

WR 241 INTRODUCTION TO POETRY WRITING (3)
WR 303 WRITING FOR THE WEB (3) WR 323 ENGLISH COMPOSITION (3) WR 324 SHORT STORY WRITING (4) WR 327 TECHNICAL WRITING (3) WR 330 UNDERSTANDING GRAMMAR (3) WR 341 POETRY WRITING (4) WR 362 SCIENCE WRITING (3)

## PERSPECTIVE COURSES (24)

No more than two courses (or lecture/lab combinations) from any one department may be used by a student to satisfy the Perspectives category of the core. GEO courses listed under Physical Science are considered to be from a different department than GEO courses listed under any other Perspective category. Choose one Biological Science lecture/lab combination, one Cultural Diversity, one Literature and the Arts, one Physical Science lecture/lab combination, one Social Processes and Institutions, one Western Culture, plus one additional lecture/lab combination from either Physical Science or Biological Science.

## Biological Science (Lecture/Lab) (4 or 8)

Choose 1 or 2 lecture/lab
combinations. Combination is assumed (uses the same number) unless indicated in the title.

## MONITORING DEGREE

## PROGRESS WITH MYDEGREES

MyDegrees is a web-based degree checklist program and academic advising tool designed to assist students and advisors in reviewing degree progress. It organizes a student's academic transcript chronologically and categorically, identifying courses they have completed and courses still needed to fulfill the degree requirements.

Students may access this tool through MyOSU at https://myosu.oregonstate. edu, or through links on the Office of the Registrar's home page, http://registrar.oregonstate.edu. Video tutorials on how to use MyDegrees are available on the Registrar's website at http://registrar. oregonstate.edu/video-tutorials.
The Office of the Registrar works with advisors to update and maintain an accurate degree audit that will be used to clear student degree requirements during the final term of the students' undergraduate year.

## MAJOR PROGRAM

In-depth study in at least one area is required in each baccalaureate degree. Major requirements often include not only courses within the given discipline but also necessary prerequisites and work in related areas.

Students must satisfy all the requirements of their major department and major college. The dean's certification of fulfillment of all requirements of the major college is required.

## UPPER-DIVISION COURSES

1. Credits in upper-division courses: minimum 60 (exclusive of upper-division physical education activity courses).
2. Credits in each major: minimum 36 , including at least 24 in upperdivision courses.
For further details on upper-division course requirements, see Academic Regulation 25c, Institutional Requirements for Baccalaureate Degrees, http:// catalog.oregonstate.edu/ChapterDetail. aspx?key=75\#Section2893.

## PRACTICUM COURSES <br> AND INTERNSHIPS

Academic performance is not the sole criterion for admission to and continuation in certain courses and programs at the
university, particularly practicum courses and internships. The university may find it necessary to evaluate a person's behavior and background to determine the ability to maintain the standards of professional conduct which are necessary in some disciplines. An evaluation may take into consideration current performance as well as past experiences and actions which could affect the ability to perform in the particular course or program.

## GRADE-POINT AVERAGE (GPA)

A minimum GPA of 2.00 on OSU cumulative grade-point average is required. See Academic Regulation 25e, Institutional Requirements for Baccalaureate Degrees, http://catalog.oregonstate.edu/ChapterDetail.aspx?key=75\#Section2893.

## TOTAL CREDITS

A minimum 180 earned credits, which must include: ${ }^{1,2}$

## 1. Credits in upper-division

 courses: minimum 60 (exclusive of upper-division physical education activity courses).2. Credits in each major: minimum 36 , including at least 24 in upperdivision courses.

## Footnotes:

${ }^{1}$ Some degree programs may require more than 180 credits.
${ }^{2}$ Unearned credits are those courses for which
a grade of $\mathrm{F}, \mathrm{N}, \mathrm{U}, \mathrm{I}, \mathrm{W}, \mathrm{AUD}$, or WAU are assigned as a final grade for that course. All other grades are calculated as earned credit.

For further information on total credits required, see Academic Regulation 25 c, Institutional Requirements for Baccalaureate Degrees, http:// catalog.oregonstate.edu/ChapterDetail. aspx?key=75\#Section2893.

## ACADEMIC STANDING

Oregon State University expects students to maintain satisfactory academic progress toward degree completion. At the conclusion of each term, grade-point averages are calculated and academic standings determined for students seeking a baccalaureate degree according to the criteria outlined in the Grades, Regulations, and Records section of this catalog.

## ACADEMIC RESIDENCE

## REQUIREMENT

Academic Regulation 25f, Academic Residence (http://catalog. oregonstate.edu/ChapterDetail. aspx?key=75\#Section2893), Institutional Requirements for Baccalaureate Degrees, states:

- A minimum of 45 of the last 75 credits, or 150 total credits, must be completed while the student is in academic residence at OSU. "Academic Residence" is defined as OSU courses taken as a degreeseeking student of OSU or courses through one of the following
approved special programs: Professional degree programs which require that the student enroll in another institution while finishing the bachelor's degree at OSU or an international study program sponsored by Oregon State University.
- A minimum of 15 upper-division credits used to meet the preceding residency requirement (1) must be taken in each of the student's majors.
- Credits earned by special examination for credit (AR 23) are not considered in academic residence.

## OTHER GRADUATION REQUIREMENTS

## BA Degree Requirements

The bachelor of arts (BA) degree is conferred for broad and liberal education in various approved areas of studies (typically humanities, arts, social science, and sciences). Requirements for the BA degree differ from those for a bachelor of science (BS) degree in the same department. Many departments offer only one or the other of the two baccalaureate degrees. Check departmental curricula for detailed information. The BA degree requires second language proficiency, including American Sign Language (ASL), equivalent to that attained at the end of the second year course in the language as certified by the School of Language, Culture, and Society. See the Academic Regulations for more details.

## Concurrent and Subsequent

## Baccalaureate Degrees

Academic Regulation 26: http:// catalog.oregonstate.edu/ChapterDetail. aspx?key=75\#Section2894
a. Concurrent Baccalaureate Degrees: An undergraduate student may be granted two or more baccalaureate degrees (for example the BA or BS) at the same graduation exercise. The student must:

1. Complete institutional, college, and departmental requirements for the degree;
2. Complete, for each additional degree, a minimum of 32 credits more than the requirements of the curriculum requiring the least number of credits; and
3. Complete each additional 32 credits in residence.
b. Subsequent Baccalaureate Degree: A student who has received a previous baccalaureate degree from either OSU or another accredited university may be granted a subsequent baccalaureate degree. The student must:
4. Complete, for a BA degree, the requirements for foreign language
proficiency (AR 25d);
5. Achieve a minimum of 2.00 on OSU cumulative grade-point average;
6. Complete requirements of the major college and receive the dean's certification; and
7. Meet the requirements for a concurrent degree as specified in AR 26a, if a previous baccalaureate degree has been received from OSU. The additional credits may be taken at any time prior to or subsequent to the granting of a previous OSU baccalaureate degree. Students with a baccalaureate degree from another institution must meet the Academic Residence requirement in AR 25 f.
c. A student seeking a baccalaureate degree under the provisions of either AR 26a or AR 26b also must satisfy the appropriate residence requirements as defined in AR 25 f.

## Subsequent Credentials: Minors,

 Certificates, Options, and Majors Academic Regulation 27: http:// catalog.oregonstate.edu/ChapterDetail. aspx?key=75\#Section2895a. Subsequent Minors and Certificates: A student who has received a previous baccalaureate degree from either OSU or another accredited university or college may be granted a subsequent minor or certificate. The student must:

1. Complete current requirements for minor or certificate and receive the dean's approval;
2. Achieve a minimum of 2.0 OSU cumulative grade-point average on work taken for subsequent credential;
3. Academic residence: minimum 15 credits in residence.
b. Subsequent Options and Majors: A student who has received a previous baccalaureate degree from OSU may be granted a subsequent option or major credential:
4. Complete current requirements for option or major and receive dean's approval;
5. Achieve a minimum of 2.0 OSU cumulative grade-point average on work taken for subsequent credential;
6. Academic residence: minimum 15 credits in residence.
c. Additional credits necessary for subsequent credentials may be taken prior to or subsequent to the granting of a previous baccalaureate degree.

## REQUIREMENTS FOR <br> CERTIFICATES

See individual certificate programs described in this catalog.

## REQUIREMENTS FOR <br> <br> ADVANCED DEGREES

 <br> <br> ADVANCED DEGREES}For advanced degree requirements see the Graduate School section of this catalog or contact the Graduate School. Students who take courses they wish to apply toward an advanced degree before they have received baccalaureate degrees may have a limited number of credits reserved by petition. Also see Reserving Credits in the Graduate School section. A graduate student also may obtain baccalaureate degrees from Oregon State University by satisfying the requirements for subsequent degrees.

## APPLYING FOR

 UNDERGRADUATE GRADUATION
## To become a degree candidate:

- You must be a current OSU student with senior standing of 135 or more credits.
- You may make a formal application for the degree with the Office of the Registrar up to three terms before your expected graduation term.
- The deadline to apply is the end of the second full week of the term in which you expect to complete your degree requirements.
- Graduation applications are submitted through MyOSU,
- https://myosu.oregonstate.edu.

Before you apply to graduate, check if you've completed your

## degree requirements:

Meet with your advisor and review your MyDegrees Checklist and confirm that general university requirements are met:

1. Log in to MyOSU at https://myosu. oregonstate.edu
2. Select Student
3. Under My Student Stuff, choose 'MyDegrees'

## Confirm the following is correct:

1. Major, Minor and Option is correctly stated
2. Degree type (BS, BA, BFA, etc.) is correct
3. The total of your Credits Required and Credits Applied
4. Upper-division credits required and earned (this will not appear in MyDegrees if the requirement is met)
5. Degree requirements that have not yet been met
The Office of the Registrar checks for total credits, academic residency, total upper-division credits and grade-point average.

With your advisor, determine which term you will complete your studies and submit your application to graduate. If you will be completing mul-
tiple degrees (see below) you will need to submit a separate application for each degree.

1. Log in to MyOSU at https://myosu. oregonstate.edu
2. Select Student
3. Under My Student Stuff, choose 'Apply to Graduate'
To change your graduation date or program information after the first application, you must cancel your existing application for graduation and file an new application in accordance with the stated deadline.

Commencement exercises are held annually in June and attendance is optional. Students who have graduated in the previous summer, fall or winter terms and senior-level students who have a pending graduation application for spring, summer, or fall terms may participate in the June Commencement exercises.

Ecampus students planning to travel to Corvallis for Commencement can contact Ecampus Student Services for additional information.

Additionally, please be aware that all corresponding transcripts are sealed, meaning the academic record cannot be altered, by the Office of the Registrar 90 days after the conferral of a degree. This ensures that the academic course work that reflects the components that substantiated the awarding of the degree is accurately and permanently recorded.

## DOUBLE DEGREES

A student may earn multiple, different degrees simultaneously. Additional degrees may also be earned after your first degree was awarded. The degrees may be offered by the same college, or by different colleges. To earn a double degree, or for each additional degree, a student must complete a minimum of 32 credits above the minimum number of credits needed for one of the degrees. Each degree application is reviewed by the appropriate academic advisor. Advisors complete a separate graduation audit for each of the degrees.

On the student's academic record, each degree awarded will be recorded as a separate degree with its major, e.g., Bachelor of Science in Mathematics, Bachelor of Arts in English. The student will also receive a separate diploma for each degree awarded (See Academic Regulation 26).
Some double-degree programs - Education (BA, BS, HBA, HBS), Innovation Management (BA, BS, HBA, HBS), Sustainability (BS, HBS), International Studies (BA, HBA) - require that a primary degree be completed in order for the secondary degree to be awarded. When multiple degrees are not dependent on one another, one of the degrees may be awarded even though requirements for
the other degree have not yet met. The double degree may be earned concurrently or subsequently. (See Academic Regulation 26.)

## DUAL (OR MULTIPLE) MAJORS

A student may earn two or more majors within a single degree program (a particular combination of degree, college, and campus, e.g., BA degree from the College of Liberal Arts on the Corvallis campus). It is sometimes possible to complete two or more majors within the minimum number of credits required for a degree, but usually the student must complete additional credits to complete requirements for all of their majors. For this reason, dual (or multiple) majors are obtained within the same college. The advisor must complete one graduation audit that includes all of the majors. The student's academic record will list one degree with two or more majors, e.g., Bachelor of Science in Mathematics and Chemistry. The student receives one diploma. Dual (or multiple) majors may be obtained concurrently with the completion of the degree, or in some cases may be earned as a credential subsequent to completion of the degree. (See Academic Regulation 27.)

Note: Occasionally, with careful planning, a student can complete two majors from separate colleges in less than the 212 credits required for two degrees. When this occurs a student can petition for an exception, and graduate with two majors from separate colleges. The student must pick one college as their home college and all majors will be associated with the home college. The student must have the support of advisors from both major programs to have their petition considered.

## HONORS DEGREES

Students completing the honors college curriculum receive an honors degree in the college of their major, e.g., HBS Honors Bachelor of Science in Chemistry, or HBA Honors Bachelor of Arts in English. In some cases it might be possible for an Honors College student to earn multiple degrees simultaneously by following the double degrees requirements outlined in Academic Regulation 26.

Students seeking an honors degree must meet the requirements of the Honors College in order to receive their degree. Students that complete an Honors degree will have the honors degree recorded on their academic record. The student's diploma will also include the honors degree designation (e.g., Honors Bachelor of Science, etc.).

Note: Honors degrees are not currently available to Ecampus students.

## DEGREES WITH DISTINCTION

Graduates who have completed at least 90 credits at OSU or sixty upper-division credits at OSU, and who have an OSU cumulative GPA of 3.5 or higher, are awarded an OSU degree with distinction as follows:

| Academic <br> Distinction | OsU GPA <br> Range | Graduation <br> Honor Cord <br> Color |
| :--- | :--- | :--- |
| Cum Laude | $3.50-3.69$ | Orange |
| Magna Cum <br> Laude | $3.70-3.84$ | Gold |
| Summa Cum <br> Laude | $3.85-4.00$ | White |

These distinctions are noted on diplomas.

## UNDERGRADUATE RESEARCH/ ARTS FELLOW HONOR DISTINCTION

Oregon State University recognizes significant engagement and accomplishment in undergraduate research and the arts by awarding an honor distinction of "Undergraduate Research/Arts Fellow" to students of all majors upon completion of a significant research or creative arts experience under faculty mentorship.
"Research" here is intended to encompass modes of scholarship and inquiry as they are variously practiced and defined in OSU's academic disciplines. Students completing significant creative projects in the arts may receive the honorary distinction "Undergraduate Arts Fellow." The distinction will be noted on the student's transcript, and the student will receive a blue honor cord to be worn at graduation ceremonies.
To qualify for the Undergraduate Research/Arts Fellow distinction:

1. Students must demonstrate involvement in all major phases of their project including conception, implementation, and presentation. This involvement will generally consist of sustained work over multiple quarters or the summer resulting in an original contribution relative to the discipline.
2. The project presentation must be to an audience that extends beyond the immediate research group or creative context, for example at a public performance, symposium/seminar, the annual CUE (Celebration of Undergraduate Excellence) at OSU, a professional meeting, or through publication in a journal.
3. Evidence of the presentation must be submitted with the final honorary distinction application and deposited into the OSU Scholars Archive.
4. The faculty mentor must endorse the application, verifying satisfaction of the criteria described above.
To apply for the distinction, students should complete the OSU Undergradu-
ate Research/Arts Fellow Honor Distinction Application, which is available at: http://undergraduate.oregonstate.edu/ research/transcript-notation. Students that complete a thesis in the University Honors College, International Education, Physics, BioResource Research or the Bioenergy Minor should submit Form A while form $B$ is to be used for all other research/creative activities. The Form B which application requires submission of a detailed description of the project and the student's involvement in specific research/creative tasks, a timeline of the student's project engagement, details of the public presentation, and the faculty mentor's endorsement. Applications are submitted to the head advisor in the students' major college, who will sign the application and transmit to the Director for Undergraduate Research for signature before it is sent to the Office of the Registrar for processing. Applications may be submitted at any time during the undergraduate's career but no later than three weeks prior to a student's anticipated graduation date.

## DISSERTATION/THESIS

Upon completion and acceptance of a dissertation/thesis at the conclusion of a program of study, the dissertation/thesis will be recorded on a student's transcript, notating the title and term/year that the dissertation/thesis was accepted by the university.

## RE-ENROLLING STUDENTS

Re-enrolling students are reminded that graduation requirements may have changed. Students are responsible for consulting their college for changes in their curriculum. If a program has been discontinued, students cannot expect to continue pursuit of that program. Re-enrolling students are also reminded that individual retention and re-enrollment standards of specific colleges may be in effect.

## OREGON TRANSFER STUDENTS

Oregon community college students entering OSU who have completed the Associate of Arts Oregon Transfer (AAOT) degree (meeting the block transfer agreement between Oregon community colleges and Oregon public universities) will satisfy the lower-division requirements of the baccalaureate core (except those in the synthesis requirement) and have junior standing for registration.

When entering OSU, Oregon community college students who have completed the Associate of Arts Oregon Transfer (AAOT) degree will have junior standing for registration and will satisfy the lowerdivision requirements of the baccalaureate core, except those in the synthesis requirement. The AAOT degree meets the block transfer agreement between Oregon community colleges and Oregon
public universities.
For more information about how OSU accepts any of the transfer degrees, call OSU Admissions at 800-291-4192.

## WASHINGTON TRANSFER STUDENTS

The Direct Transfer Associate degree awarded by any community college in Washington state will satisfy lowerdivision general (core) requirements at OSU. Students will receive junior level standing with an earned Washington Direct Transfer Associate degree of 90 transferable quarter hours or more. The minimum requirements are: 2.0 GPA on 90 earned quarter hours of transferable credit. OSU will accept a maximum of 12 credits in professional, vocational, and technical courses. You must still meet requirements in your chosen major, minor, or professional program.
For more information about how OSU accepts any of the transfer degrees, call OSU Admissions at 800-291-4192.

## CALIFORNIA TRANSFER STUDENTS

OSU accepts the Intersegmental General Education Transfer Curriculum (IGETC) to satisfy lower-division (general) core requirements. The IGETC was developed for community college students who plan to transfer to a four-year institution but are undecided about which one and/ or undecided about a major. Students interested in the IGETC path to transfer are strongly advised to see an academic advisor prior to enrollment. The minimum requirements are: 36 quarter ( 24 semester) academically transferable hours, 2.25 cumulative GPA, IGETC Area 1 Group A English requirement (C- or higher grade), IGETC Area 2 Mathematical Concepts requirement ( C - or higher grade), and student must be admissible to the last institution they attended.
For more information about how OSU accepts any of the transfer degrees, call OSU Admissions at 800-291-4192.

## TRANSFER CREDITS

Decisions on transfer courses meeting specific baccalaureate core (general education requirements) will be made by the Office of Admissions with the Faculty Senate and the Office of Academic Programs. Some requirements may be met by advanced placement or international baccalaureate. For more information, contact the Office of Admissions. Articulation tables for baccalaureate core courses can be found on the Web at http://admissions.oregonstate.edu/ baccalaureate-core-course-equivalencies.

## INTRODUCTION

These regulations and procedures are published to assist students by providing information that is essential for planning and pursuing their academic programs. Continuing efforts are made each year by the students, faculty, and administration to revise and improve these regulations in order to enhance the quality of the university's programs and the achievement of educational goals.

Every student is responsible for knowing the academic regulations and for observing the procedures that govern his or her relations with Oregon State University. Unless otherwise specified, these regulations apply to both undergraduate and graduate students. Any question regarding these regulations\& that cannot be answered by a student's academic advisor should be referred directly to the Office of the Registrar (B102 KAd). Additional information regarding Graduate School policies should be addressed to the Office of the Graduate Dean (A300 KAd).

Some students encounter special problems whose proper solution may require deviations from the academic regulations or procedures. Requests for such deviations in the regulations below must be presented to the Office of the Registrar on petition forms, which are available in that office. Petitions received by the registrar will be forwarded to the proper committee or office for review and appropriate action. Requests for deviations from Graduate School policies should be presented by letter to the graduate dean (See the Graduate School section of this catalog).

Other special problems may involve academic issues such as academic freedom in the classroom or evaluations of a student's academic performance. All students should appeal academic grievances first to the instructor of the course and then to the chair or head of the academic unit in which the course is offered. If the situation is not resolved to the student's satisfaction, an undergraduate student should consult with the head advisor of the college in which the course is offered to obtain further information about appeal procedures of the college or university; a graduate student should consult the dean of the Graduate School regarding academic appeal procedures above the departmental level. (Appeal procedures for other than academic grievances, e.g., grievances regarding student employment, financial aid, housing, discipline, human rights, etc. are outlined in the Student Life Policy and Regulations, which are available on the OSU website under "Student Conduct" or from the Office of Student Leadership and Involvement, 202 Memorial Union. Some of these regulations pertain to both
undergraduate and graduate students. The Graduate School section of this catalog outlines both academic appeal procedures and those relating to the employment of graduate students.)

## AR 1. ADMISSION FOR

 NONDEGREE STUDENTSa. Nondegree enrollment status for undergraduate students is designed for students who wish to take undergraduate classes, but do not wish to pursue a degree or a specific postbaccalaureate credential. Nondegree undergraduate students are limited to taking a maximum of 8 credits per term. Nondegree Ecampus, International Exchange, credential and certificate students are not limited to 8 credits per term.
b. A maximum of 36 credits attempted as a nondegree undergraduate student may be used to satisfy Baccalaureate degree requirements upon admission as a degree-seeking student. The most recent 36 credits (or all credits if fewer than 36) will be applied to the Baccalaureate requirements.
c. Nondegree enrollment status for graduate students is designed for students who wish to take graduate courses but do not wish to pursue an advanced degree. Nondegree graduate students are not limited as to the number of courses (credits) taken per term.
d. Credits earned while enrolled as a nondegree graduate student will not necessarily apply to a graduate program upon admission to degreeseeking status. The student should refer to the admission requirements given in the Graduate School section of this catalog. Communication with the Graduate School and specific academic programs is advised.
e. Nondegree students seeking admission to a degree program may do so by filing an undergraduate, postbaccalaureate, or graduate application for admission.

## Footnote:

AR 1 revised by Faculty Senate academic year 2012-2013.

## AR 2. CREDIT FROM A

 TWO-YEAR INSTITUTION (UNDERGRADUATE STUDENTS)a. College Transfer Credits: Oregon State University accepts for credit toward a baccalaureate degree all college transfer work completed at an Oregon or other regionally accredited community college up to 124 lower-division quarter credits. For Institutional Requirements for Baccalaureate

Degrees, see AR 25. Students are encouraged to work with the relevant academic unit to ensure that transfer credits meet department and college requirements for the degree. It would be unlikely for an individual student to be able to use all 124 credits toward an OSU baccalaureate degree. Transfer credits and grades are not used in calculating the OSU cumulative GPA. Students who hold OSU-approved direct transfer degrees from Oregon or other regionally accredited community colleges (e.g., the Associate of Arts Oregon Transfer) or who have 90 or more credits accepted in transfer will be granted junior standing. ${ }^{1}$ Students who hold OSU-approved direct transfer degrees will be considered to have met the Perspectives and Skills (except WIC) areas of the Baccalaureate Core. In addition, they must complete the upper-division Synthesis areas of the core. Students transferring from Oregon or other regionally accredited community colleges who do not hold approved direct transfer degrees ordinarily will be given baccalaureate core credit in the Perspectives and Skills area on a course-by-course basis for work that is judged to be equivalent in content.
b. Transfer of Professional-

Technical Credits: a maximum of 12 quarter credits (8 semester credits) of professional-technical course work applicable in an associate's degree or certificate program at a regionally accredited institution can be accepted upon admission to OSU as general elective credit (graded as Pass) and as part of the 124 -quarter credit total that can be applied toward a baccalaureate degree.
c. Transfer of ProfessionalTechnical Course Credits through Articulation
Agreements: Lower-division OSU credit may be awarded for specific professional-technical community college courses when those courses are validated by articulation agreement with the appropriate OSU department. This may be above the 12 quarter credits of general electives (graded as Pass) allowed when a student is admitted to OSU. Credit will be awarded only upon the recommendation of the appropriate department and college, and approval by the Curriculum Council. Community college professionaltechnical course work is not equated to upper-division OSU course work.
These course credits will count as part of the 124 quarter credits defined in paragraph 2a above. OSU departments who have articulation
agreements with community colleges regarding community college professional-technical courses shall review the agreements annually and forward a dated list of the articulated community college courses to the Curriculum Council.

## Footnote:

${ }^{1}$ Junior standing does not necessarily imply that OSU institutional, college, division, and/ or departmental requirements, which are normally satisfied by OSU students prior to their junior year, have been satisfied.

## AR 3. CREDIT FROM AN UNACCREDITED INSTITUTION (UNDERGRADUATES)

After three terms of work at Oregon State University satisfactory to the Undergraduate Admissions Committee, a student may request validation of work done in an unaccredited institution of collegiate rank. The committee will consider each petition separately and base its decision on all information available. In some instances, informal examinations by the departments concerned may be required. Credit for transfer of professional-technical work will be awarded in accordance with paragraphs AR $2, \mathrm{~b}$ and c .

## AR 4. CLASSIFYING STUDENTS

a. Undergraduate students: A student who has earned at least 45 credits is classified as a sophomore. A student who has earned at least 90 credits is classified as a junior. A student who has earned at least 135 credits is classified as a senior.
b. Postbaccalaureate students: A student holding a baccalaureate degree who is admitted to work toward a second baccalaureate degree or teaching certificate is classified as a postbaccalaureate student.
c. Graduate students: A student who has been admitted to the Graduate School is classified as a graduate student.

## AR 5. TRANSFER FROM ONE COLLEGE TO ANOTHER (UNDERGRADUATE STUDENTS)

Registered students may transfer from one college to another at any time. Returning but not-registered students may transfer colleges between the dates of readmission and registration.

## AR 6. CHANGE IN CREDITS SCHEDULED

No change may be made in the number of credits specified for the various courses and published in the OSU General Catalog.

## AR 7. MAXIMUM AND MINIMUM

 REGISTRATION1. The minimum number of credits for which a full-time undergraduate student may register is 12 , and the maximum is 19 , regardless of the method of grading used for the classes selected. (In determining the load for students not normally held responsible for physical education, the credits in activity courses in physical education will be disregarded.) The maximum may be extended:
a. Up to and including 24 credits when a student has completed in his or her most recent term at least 12 credits in courses other than those graded $\mathrm{P} / \mathrm{N}$ and $\mathrm{S} / \mathrm{U}$ with a grade-point average of 3.00 or better or when a student has filed with the registrar a petition approved by his or her advisor and college dean (or head advisor).
b. Over 24 credits by petition approved by a student's advisor and college dean (or head advisor) and the Academic Requirements Committee and filed with the registrar.
2. The minimum number of credits for a full-time graduate student is 9 ; the maximum is 16 . The maximum can be extended by approval of the dean of the Graduate School.
a. Degree-seeking graduate students must take a minimum of 3 credits for any term in which they are enrolled.
b. The following FTE and credit allowances are permitted for graduate students holding an academic appointment.

| FTE | Credits |
| :--- | :--- |
| .15 to .29 | 15 |
| .30 to .50 | 12 |

Appointees on graduate assistantships are limited to the above credits during each term.

## AR 8. LATE REGISTRATION

Registration is permitted through the second full week of classes each term. Late fees are assessed in accordance with the fee policies stated in the Schedule of Classes.

## AR 9. ADMISSION TO CLASS

a. Instructors will receive lists of students in their classes within two days after the opening of the term. Subsequent lists will include the names of later registrants. Students whose names appear on these lists are officially registered; others are
to be referred immediately to the Registrar's Office for completion of registration.
b. If it is anticipated that the demand for enrollment in a given course will exceed the maximum number that can be accommodated, the department offering the course may designate it in the Schedule of Classes with the code "NSHD" (no-showdrop). A student who is registered for such a course who attends no meetings of the course during the first five school days of the term will be dropped from the course by the instructor, unless the student has obtained prior permission for absence. If such action is taken, the instructor will send written notice through the department to the Registrar's Office, which in turn will notify the student that the course has been dropped from his or her schedule. Students should not assume they have been dropped unless they receive notification from the Registrar's Office. No fee will be charged.

## AR 10. ELIGIBILITY

To be eligible to hold office or to participate in any extracurricular activity supervised by Oregon State University, students must meet certain requirements.

1. For student activities, students are responsible for following the Student Life Policy and procedures.
2. For participation in intercollegiate athletics, students must meet all institutional Pac-12 and NCAA requirements. Students should contact the Compliance Office in the Department of Intercollegiate Athletics on all such matters.

## AR 11. ADDING AND DROPPING

 COURSES1. Students may add courses through the second full week of classes each term, depending on the nature of the course and the availability of space. From the end of the first full week of classes to the end of the second full week of classes, permission (signature) of the instructor offering the course must be obtained.
2. A student may drop courses without responsibility for grades through the end of the first full week of classes. After the drop deadline courses may not be dropped. Failure to drop a course properly will result in an F grade being recorded; courses properly dropped do not appear on the student's transcript.
3. Add/drop fees will be assessed in accordance with the fee policies stated in the Schedule of Classes.

## AR 12. WITHDRAWAL FROM INDIVIDUAL CLASSES

Any student may withdraw from a maximum of $12^{1}$ individual OSU credit bearing classes throughout their undergraduate career ${ }^{2}$ at $\mathrm{OSU}^{3}$. Any student may petition for an exception from this limitation if the justification for withdrawal is clearly associated with circumstances beyond the student's control.
Withdrawal from a class with a W grade begins after the drop deadline, which is the first full week of classes, and continues through the end of the seventh full week of classes. After the seventh full week of classes, students are expected to complete the program attempted and will receive letter grades ( $\mathrm{A}, \mathrm{A}-, \mathrm{B}+, \mathrm{B}, \mathrm{B}-$, C+, C, C-, D+, D, D-, F, S, U, P, or N) for all classes in which enrolled unless they officially withdraw from the term. Procedures for withdrawal from individual classes are outlined in the term Schedule of Classes.

## Footnotes:

${ }^{1}$ Withdrawal from the term, as defined in AR
13 , is not included in the maximum of 12 individual OSU classes.
${ }^{2}$ This regulation applies to undergraduate, postbaccalaureate, and nondegree
undergraduate students.
${ }^{3}$ The maximum withdrawal count will begin for all students starting fall 2012.

## AR 13. WITHDRAWAL FROM THE

## TERM

a. Any student is entitled to Withdraw from the Term up to four times without prejudice prior to the beginning of finals week. The student may accomplish this by completing the online withdrawal survey available through online services. Withdrawal from the term prior to the beginning of finals week will result in the grade of W being recorded for each course for which the student is registered.
b. When a student's academic progress is interrupted by an emergency situation such as serious illness, accident, or death of a family member, and the emergency situation occurs within the last four weeks of the term, and the student submits evidence to the college head advisor, then the student will work with academic advisors, faculty members, student care teams or Ecampus student services, depending on the complexities of the circumstances to determine an appropriate course of action to determine the grades for the term.
c. Undergraduate Planned Educational Leave Program. The Undergraduate Planned Educational Leave Program (PELP) is a voluntary, temporary, planned interruption or pause in a student's regular,
full-time education. Its purpose is to enhance an undergraduate student's prospect of successful completion of their academic program. The PELP provides one opportunity ${ }^{\mathbf{1}}$ for a student to arrange a voluntary absence for as many as six consecutive regular academic terms (not including summer terms). The PELP is designed to allow a student to pursue other activities that will assist them in clarifying their educational goals, such as job opportunities and experiences away from campus, military deployment, time to resolve personal or medical problems, or other similar pursuits. The PELP allows an undergraduate student to temporarily suspend their academic work for a period of time (in accordance with AR 13a and 13b), and resume their studies with minimal procedural difficulties. The PELP $\$ 25$ non-refundable application fee allows an undergraduate student to maintain their official standing as a student at OSU and reserves the student's right to keep their original academic catalog ${ }^{2}$ active during their absence. Beginning with the 2011-2012 academic year, all OSU undergraduate students ${ }^{3}$ are eligible to request leave through the PELP. The university reserves the right to consider a student's current academic standing and any existing student conduct issues prior to approving the voluntary PELP leave request. Students who withdraw from OSU prior to the 2011-2012 academic year and who are away from campus for four or more consecutive regular academic terms (not including summer terms) must re-enroll with OSU to re-establish their relationship as an OSU student and their academic catalog will be reset to the academic year they return to OSU.

## Transcript Notation

A notation of the dates of any approved leave will be indicated on each student's official transcript.

## Footnotes:

${ }^{1}$ Military deployments are an exception to this limitation. All military personnel who are deployed for military service may submit a voluntary leave request for each deployment.
${ }^{2}$ In accordance with the university's catalog policy contained in the General Catalog.
${ }^{3}$ The PELP began with the 2011-2012 academic year (Summer 2011). Any former OSU students who attended OSU prior to the 2011-2012 academic year and have been absent for four or more consecutive regular academic terms will be held to OSU's prior policy that resets the academic catalog to the catalog in effect at the time they return to OSU.

## AR 14. ATTENDANCE

Attendance is one of the most important factors in a student's academic success. Therefore, an instructor may consider attendance as part of a course grade. If attendance is used in determining the student's grade, how attendance shall be used needs to be defined in the course syllabus by the instructor.

## AR 15. HONESTY IN ACADEMIC WORK

The administration of the classroom rests with the instructor. When evidence of academic dishonesty comes to the instructor's attention, the instructor should: (a) document the incident, (b) permit the accused student to provide an explanation, (c) advise the student of possible penalties, and (d) take action. The instructor may impose any academic penalty up to and including an F grade in the course after consulting with his or her department chair and informing the student of the action taken. Using the standard form, the instructor must report the incident and the action taken to his or her department chair, who, in turn, shall forward the report to his or her dean.
If the student is not enrolled in the college or school in which the course is offered, the dean of that college shall forward the report to the dean of the college or school in which the student is enrolled for possible disciplinary action.

Grade penalties imposed as a result of academic dishonesty may be appealed by the student in accordance with the procedures developed by the department and college or school in which the course is offered.

## AR 16. FINALS WEEK

1. No final, midterm, or comprehensive examinations shall be given during the week preceding final examination week. (Examinations on laboratory work, course material covered by "weekly" or "section" quizzes, television courses, ROTC activities, and physical education activities are allowed.)
2. Course work shall continue up to final week. Final examinations shall be given during finals week in accordance with the finals week schedule. If a final examination is not to be given in a course, this action must be approved by the department with notification to the Registrar's Office. Requests for changes in the time of final examinations will be submitted to the Registrar's Office.
3. All student petitions for changes in the time of final examinations must be made using forms available from the Registrar's Office. (A summary of university final examination policy is printed on the form.) Petitions
for changing final examinations are submitted directly to the instructor. Students may forward disapproved petitions through the dean of the college to the Registrar's Office. Requests to change the assigned final examination time for an entire class must be approved by the Registrar's Office. Final examinations may not be changed to the week preceding final week without approval of the Academic Requirements Committee.
4. No extracurricular activities or curricular activities other than examinations and final class meetings shall be scheduled during final week.

## AR 17. GRADES

The grading system consists of twelve basic grades, A, A-, B+, B, B-, C+, C, C-, $\mathrm{D}+\mathrm{D}, \mathrm{D}-$, and F . The grade of A denotes exceptional accomplishment; B, superior; C, average; D, inferior; F, failure. Other marks are I, incomplete; W, withdrawal; R, thesis in progress; P, pass; N, no-credit; S, satisfactory; U, unsatisfactory; AUD, audited course; WAU, withdrawal from audited course; NG, no basis for a grade (administratively assigned by the Office of the Registrar, see below); WC, complete withdrawal.
When a requirement of a course has not been completed for reasons acceptable to the instructor and the rest of the academic work is passing, a report of I (incomplete) may be made and additional time granted. The I grade is only granted at the discretion of the instructor. The instructor must submit the grade the student will earn if the missing work is not completed; this is the alternate grade. The alternate grade will become the default grade if the missing work is not completed as part of the contract for completion of the grade. The instructor documents the deficiency and the deadline for completing the missing work. A record of the deficiency shall be kept on file in the unit or department office. The allotted time awarded shall not exceed one calendar year except by petition* or the time of the degree conferral, whichever comes first. To remove the I grade, the student must complete the deficiency within the allotted time and the instructor will then submit the appropriate grade. If the student fails to complete the work within the allotted time, the Registrar's Office will automatically change the I grade on the student's record to the alternate grade submitted by the instructor at the time the I was given. The alternate grade will be included in the grade point average. Under no circumstances shall a student who earns an A-F grade or an N or U grade have his or her grade changed retroactively to an I grade.
An instructor may move to correct a grade by filing a Change of Grade in
the Registrar's Office. Grade changes for students of a permanently separated instructor will be managed by the department chair of the course involved. Upon permanent separation from the university an instructor's change of grade will not be accepted by the Office of the Registrar. The Office of the Registrar will routinely review grade changes.
*A student may petition via the Office of the Registrar for an extension of the one calendar year deadline with the concurrence of the faculty. An approved petition will grant an extension of a single additional term, with a maximum of three total extensions being possible. An approved petition for an extension of time to remove an incomplete will be voided at the time of degree conferral.

## AR 18. ALTERNATIVE GRADING SYSTEMS

In addition to traditional letter grading (A-F), Oregon State University has adopted two alternative grading systems to be employed in accordance with the provisions outlined below:

## a. Satisfactory/Unsatisfactory (S/U)

1. Undergraduate students may elect to be graded on a Satisfactory/ Unsatisfactory ( $\mathrm{S} / \mathrm{U}$ ) basis in a course (except $\mathrm{P} / \mathrm{N}$ courses) under the following conditions:
a. A maximum of 36 credits of those presented in satisfaction of the baccalaureate degree may have been graded on an S/U basis at Oregon State University.
a. A student normally elects the option $\mathrm{S} / \mathrm{U}$ at the time of registration. Changes either to or from S/U grading will be permitted through the end of the seventh full week of any term.
a. A student must obtain the approval of his or her academic advisor or dean in order to elect to be graded on an $\mathrm{S} / \mathrm{U}$ basis.
2. Graduate students may elect to take undergraduate courses on the $\mathrm{S} / \mathrm{U}$ basis except those courses required for the removal of deficiencies. Graduate courses may also be taken on an S/U basis. (Such courses cannot be used as part of a student's graduate program. All other provisions of $\mathrm{S} / \mathrm{U}$ grading apply to graduate students.)
3. A grade of $S$ (satisfactory) shall be equivalent to grades $\mathrm{A}, \mathrm{A}-, \mathrm{B}+\mathrm{B}$, $\mathrm{B}-, \mathrm{C}+\mathrm{C}$, and $\mathrm{C}-$. A grade of U (unsatisfactory) shall be equivalent to grades $\mathrm{D}+, \mathrm{D}, \mathrm{D}-$, or F .
4. Grades of $S$ or $U$ shall have no grade-point equivalents; hence such grades shall not be included in the computation of gradepoint averages. The credit of courses in which an $S$ grade is obtained shall be counted toward graduation. Credits shall not be awarded for U grades.
5. Election of $S / U$ grading for a course shall be known only to the student and the academic advisor. Instructors shall enter on grade forms the traditional letter grade (A-F) earned. Automatic conversion to $S$ grades and to $U$ grades will be made in the Registrar's Office. Grades of I, or $W$ may be assigned wherever appropriate.
6. In compliance with Section III of the Statement on Student Rights, Freedoms, and Responsibilities (dated April 28, 1969), disclosure or nondisclosure of the traditional letter grades received in courses in which S grades were awarded is recognized as an exclusive right of the individual student. The Registrar's Office is obliged and authorized to honor requests for disclosure, provided that the express consent of the student is obtained.
b. Pass/No Credit (P/N)
7. Those courses in which traditional letter grading has been deemed inappropriate because of the nature of the course content or the objectives of the course are graded on a Pass/No Credit (P/N) basis.
8. Grades of P or N shall have no grade-point equivalents; hence such grades shall not be included in the computation of gradepoint averages. The credits of courses in which a grade of P is obtained shall be counted toward graduation. Credit shall not be awarded for N grades.
9. Departments are authorized to designate Pass/No Credit courses, subject to the following guidelines and procedures:
a. The principal criterion for choice of grading system is enhancement of the educational experience for the student;
b. The nature, structure, and/ or objectives of a course may suggest that the Pass/ No Credit grading system be adopted. It is anticipated that courses graded on this basis will generally fall into one of the following categories: skill-building courses or
practicums, courses which stress orientation and awareness rather than academic preparation;
c. The designation of Pass/No Credit grading for a course will follow the academic college's recommendation and approval by the University Curriculum Council, and in the case of graduate courses, by the Graduate Council. Designation of courses for $\mathrm{P} / \mathrm{N}$ grading must be completed prior to the opening of the term in which the course is offered and normally prior to preparation of the Schedule of Classes.
10. Courses approved for grading on a Pass/No Credit ( $\mathrm{P} / \mathrm{N}$ ) basis are identified in the General Catalog course descriptions and in the Schedule of Classes.
c. Nothing stated in the above paragraphs shall be construed as constituting support for petitions requesting change of grade in courses taken during or prior to spring term, 1971.

## AR 19. GRADE POINTS

Grade points are computed on the basis of:

- 4 points for each credit of A grade,
- 3.7 for each credit of A- grade,
- 3.3 for each credit of B+ grade,
- 3.0 for each credit of B grade,
- 2.7 for each credit of B- grade,
- 2.3 for each credit of C+ grade,
- 2.0 for each credit of C grade,
- 1.7 for each credit of C-grade,
- 1.3 for each credit of D+ grade,
- 1.0 for each credit of D grade,
- 0.7 for each credit of D- grade, and
- 0 for each credit of F .

Marks of I, W, P, N, NG, R, S, U, AUD, WAU, and WC are disregarded in the computation of points. The grade-point average (GPA) is the quotient of total points divided by total credits; total credits are the number of term credits in which grades A, B, C, D, and F are received. Thus a person receiving 1 credit of A, 2 credits of B, 3 credits of C, 4 credits of $\mathrm{D}, 5$ credits of F would have 20 grade points ( $1 \times 4$ plus $2 \times 3$ plus $3 \times 2$ plus $4 \times 1$ plus $5 \times 0$ ). The grade-point average would be 20 (grade points) divided by 15 (credits) equals 1.33 . A C average on 15 credits attempted would require 30 grade points; if the student has 20 points, he or she is 10 grade points deficient.

## AR 20. REPEATED COURSES

If a student repeats an Oregon State University course, the grade from each attempt $^{1}$ will appear on the student's academic record but only the second attempt will count toward the student's institutional credits, requirements, and grade-point average ${ }^{2}$. An academic unit ${ }^{3}$ may, however, include subsequent attempts after the second attempt to meet individual course degree requirements associated with the baccalaureate core/ma-jors/options/minors/certificates/endorsements. A course may not be repeated on an $\mathrm{S} / \mathrm{U}$ basis if it was taken previously on a normal grade basis ${ }^{4}$.

## Footnotes:

${ }^{1}$ An attempt comprises a final grade in a course where the grade is: $\mathrm{A}, \mathrm{A}-, \mathrm{B}+\mathrm{B}, \mathrm{B}-, \mathrm{C}+, \mathrm{C}, \mathrm{C}-$, D+, D, D-, F, S, U, P, NP or an I/Alternate Grade (where the Alternate Grade is one of these grades).
${ }^{2}$ Recognized repeatable courses as defined in the Oregon State University course catalog, such as activity courses, research, seminars, and selected topics, do not come under this restriction. Additionally, if a course has been approved as a multiple repeatable course for credit and grade points, each attempt will be included in the institutional credits and gradepoint average until it reaches its defined limit (total allowable attempts or credit maximums for the course). Further, the Office of the Registrar will include all courses from the first repeat taken until it reaches the maximum total allowable attempts or credit maximums for the course. All subsequent repeats after the repeat maximum has been reached will be excluded from both institutional credits earned and grade-point average calculations.
${ }^{3}$ Academic Unit: College, School, or Department
${ }^{4}$ Normal Grade Basis is defined as any grade of A, A-, B+, B, B-, C+, C, C-, D+, D, D-, F, or any I/Alternate Grade (where the Alternate Grade is one of these grades).

## AR 21. HONOR ROLL

At the close of each term, the OSU Registrar publishes a list containing the names of all undergraduate and postbaccalaureate students who for the term have completed at least 12 graded credits with a grade-point average of 3.50 or above.

## AR 22. SATISFACTORY ACADEMIC STANDING (FOR UNDERGRADUATE STUDENTS)

 Oregon State University expects students to maintain satisfactory academic progress toward degree completion. At the conclusion of each term, grade-point averages are calculated and academic standings determined for students seeking a baccalaureate degree according to the criteria outlined below. Students whose standings evidence a lack of satisfactory progress will be warned of this condition and advised to seek help from their academic advisors. Any student who is not on Academic Warning, Academic Probation, or Academic Suspension is in good standing.1. Academic Warning: Students with a term GPA below 2.0 will be placed on Academic Warning.
2. Academic Probation: Students who have attempted ${ }^{\mathbf{1}} 24$ or more credits at OSU and have an OSU cumulative GPA below 2.0 will be placed on Academic Probation. Students who attain a cumulative GPA of 2.0 or better are removed from Academic Probation.
3. Academic Suspension: Students who are on Academic Probation and have a subsequent term GPA below 2.0 will be placed on Academic Suspension. Academic Suspension is recorded on the student's academic record. Students who are academically suspended are denied all the privileges of the institution and of all organizations in any way connected to it, including any university-recognized living group.

## 4. Reinstatement to the

University: Suspended students will be considered for reinstatement to the university after two years or completion of a minimum of 24 quarter credits of transferable collegelevel work at an accredited college or university, with a GPA of 2.5 or above.
The Faculty Senate Academic Standing Committee (http://senate.oregonstate. edu/academic-standing-committee) is responsible for enforcement of the above regulations on Satisfactory Academic Standing. Additionally, this committee has discretionary authority to grant exceptions and to develop guidelines for administering these regulations.

## Footnote:

${ }^{1}$ An attempt comprises a final grade in a course where the grade is: $\mathrm{A}, \mathrm{A}-, \mathrm{B}+, \mathrm{B}, \mathrm{B}-, \mathrm{C}+, \mathrm{C}$, C-, D+, D, D-, F, S, U, P, NP, I/Alternate Grade (where the Alternate Grade is one of these grades), W.

## AR 23. SPECIAL EXAMINATION FOR CREDIT

A regularly enrolled student in good standing, either graduate or undergraduate, currently registered at Oregon State University and wishing credit for an OSU course for which a grade has not been previously received, may petition for credit examination under the following conditions:

1. The application for such examination shall be presented on an Official Student Petition and shall bear the approvals of the dean of the student's college, the dean of the college in which the course is offered, and head of the department in which the course is offered. Petitions for special examination for credit may be approved or denied at the sole discretion of the department/college or the faculty member offering the
course, taking into account both the academic merit of the petition and the department/college's ability to deploy adequate resources to prepare, administer, and grade such an examination.
2. In no case may such examination be based on work used for graduation from high school, or in a foreign language that is the mother tongue of the applicant, or in courses not listed in the Oregon State University General Catalog.
3. Grades earned in special examinations shall be submitted and recorded in the same way as for regularly registered courses, and will count with respect to repeating a course as defined in AR 20.
4. A student may not petition for credit by special examination for a course in any term in which the student is or has been enrolled in the course after the add/drop deadline for that term.
5. An examination for credit will not be approved for courses below the level for which college credit has previously been granted.
6. No examination may be taken until the applicant has received a permit from the Registrar's Office, for which a fee of $\$ 80$ will be charged. ${ }^{1}$

## Footnote:

${ }^{1}$ As an alternative to departmental examinations, students may seek credit through the College Level Examination Program (CLEP) to the College Entrance Examination Board. CLEP includes nationally normed subject matter examinations and general examinations covering material included in a number of relatively standard courses taught in colleges and universities throughout the United States. Some of these subject matter examinations and general examinations have been accepted by departments at this institution. Policy guidelines have been established that make it possible for admitted and enrolled students to (a) transfer credits earned though these accepted CLEP subject matter and general examinations to this institution, providing certain criteria are met, and (b) earn credits through accepted CLEP subject matter and general examinations providing certain criteria are met. Further information about CLEP may be obtained from the Office of Admissions, B104 Kerr Administration Bldg.

## AR 24. SPECIAL EXAMINATION FOR WAIVER (UNDERGRADUATE <br> STUDENTS)

A student may petition for examination to waive a course under the following conditions:

1. The application for examination to waive a course shall be presented on an Official Student Petition and shall bear the recommendations of the dean of the student's college, the dean of the college in which the course is offered, and head of the department in which the course is offered. Petitions for
special examination for waiver may be approved or denied at its sole discretion by the department/college offering the course, taking into account both the academic merit of the petition and the department/ college's ability to deploy adequate resources to prepare, administer, and grade such an examination.
2. No examination may be taken until the applicant has received a permit from the Registrar's Office, for which a fee of $\$ 80$ will be charged.
3. A minimum grade of C (or equivalent) must be attained in an examination for that waiver to be granted.
4. Credit will not be granted for courses waived.
5. This regulation does not invalidate the right of a dean of a college or head of a department to waive a course requirement of their particular college or department, respectively.

## AR 25. INSTITUTIONAL REQUIREMENTS FOR BACCALAUREATE DEGREES

a. Baccalaureate Core: Each student will complete the following requirements:

1. Skills Courses (15 credits) Mathematics, Writing I, and Speech must be taken and completed satisfactorily within the first 45 hours of OSU-generated credits. Writing II must be taken and completed satisfactorily within the first 90 hours of OSUgenerated credits.
Fitness (3 credits)
Mathematics ( 3 credits)
Speech (3 credits)
Writing I (3 credits)
Writing II (3 credits)
2. Perspectives Courses (24 credits)
Physical science (with lab) (4 credits) Biological science (with lab) (4 credits) Plus choice of second course in either of the above (with lab) (4 credits)
Take a minimum of one course in each of the following areas:

Western culture (3 credits)
Cultural diversity (3 credits)
Literature and the arts (3 credits)
Social processes and institutions (3 credits)
3. Difference, Power, and Discrimination Courses (3 credits)
4. Synthesis Courses ( 6 credits) Science, technology, and society (3 credits) Contemporary global issues (3 credits)
5. Writing Intensive Courses, upper division (WIC) (3 credits)

The Baccalaureate Core Committee determines which courses will satisfy each of the requirements above. WIC courses will be reviewed by the Writing Advisory Board. The core is governed by the following rules:
(1) No more than two courses from any one department may be used by a student to satisfy the Perspectives category of the core. (2) No single course may be used by a student to satisfy more than one subject area of the core even though some courses have been approved in more than one area. (3) Both Synthesis courses may not be taken in the same department. ${ }^{3}$
b. An undergraduate student may be granted a baccalaureate degree with one or more majors.
c. Credits: Minimum 180 earned credits, which must include: ${ }^{4,5}$

1. Credits in upper-division courses: minimum 60 (exclusive of upper-division physical education activity courses).
2. Credits in each major: minimum 36, including at least 24 in upper-division courses.
d. Baccalaureate Degrees: All students receiving a BA degree shall have proficiency in a second language, including American Sign Language (ASL), equivalent to that attained at the end of the second year sequence with a grade of C - or better as certified by the School of Language, Culture, and Society. Colleges offering both the BA and the $B S$ will have specific requirements distinguishing the two degrees. The college requirements for the two degrees will place comparable demands upon the time and effort of students, and that assessment of comparability will include the foreign language requirement for the BA. Academic units offering both the BA and BS may have specific requirements distinguishing the two degrees.
e. Grade-Point Average: minimum of 2.00 on OSU cumulative gradepoint average.
f. Academic Residence:
3. A minimum of 45 of the last 75 credits, or 150 total credits, must be completed while the student is in academic residence at OSU. "Academic Residence" is defined as OSU courses taken as a degreeseeking student of OSU or courses through one of the following approved special programs:

Professional degree programs which require that the student enroll in another institution while finishing the bachelor's degree at OSU or an international study program sponsored by Oregon State University.
2. A minimum of 15 upperdivision credits used to meet the preceding residency requirement (1) must be taken in each of the student's majors.
3. Credits earned by special examination for credit (AR 23) are not considered in academic residence.
g. Dean's certification of fulfillment of all requirements of major college. (For details, see college advisors and deans.)
h. Restrictions: A maximum number of credits may be applied to the Baccalaureate Degree as follows:

1. Transfer from first professional programs such as Law, Medicine, Pharmacy, and Veterinary Medicine: maximum 48 quarter credits.
2. Music courses (applied music): maximum 12 credits. (This restriction is not applicable to majors in music.)
3. Physical activity courses: maximum 11 credits.
4. Courses graded on an $\mathrm{S} / \mathrm{U}$ basis at Oregon State University: maximum 36 credits.
5. Academic Learning Service courses: maximum 15 credits.
i. Application for a Degree: To become a candidate for a degree, a student must have achieved senior standing and must make formal application for the degree. It is recommended that the student file an application with the registrar three terms prior to the term in which he or she wishes to graduate. The students deadline to file an application with the registrar is the end of the second week of the term in which he or she expects to complete requirements for a degree. [Approved by Faculty Senate 1/8/09.]

## Footnotes:

${ }^{3}$ Lists of approved courses may be obtained from advisors. Approved courses are also listed in the OSU General Catalog.
${ }^{4}$ Some degree programs may require more than 180 credits.
${ }^{5}$ Unearned credits are those courses for which a grade of F, N, U, I, W, AUD, or WAU are assigned as a final grade for that course. All other grades are calculated as earned credit. Faculty Senate revised AR 25 feffective academic year 2013-2014.

## AR 26. CONCURRENT AND SUBSEQUENT BACCALAUREATE DEGREES

a. Concurrent Baccalaureate Degrees: An undergraduate student may be granted two or more baccalaureate degrees (for example the BA or BS) at the same graduation exercise. The student must:

1. Complete institutional, college, and departmental requirements for the degree;
2. Complete, for each additional degree, a minimum of 32 credits more than the requirements of the curriculum requiring the least number of credits; and
3. Complete each additional 32 credits in residence.
b. Subsequent Baccalaureate Degree: A student who has received a previous baccalaureate degree from either OSU or another accredited university may be granted a subsequent baccalaureate degree. The student must:
4. Complete, for a BA degree, the requirements for foreign language proficiency (AR 25d);
5. Achieve a minimum of 2.00 on OSU cumulative grade-point average;
6. Complete requirements of the major college and receive the dean's certification; and
7. Meet the requirements for a concurrent degree as specified in AR 26a, if a previous baccalaureate degree has been received from OSU. The additional credits may be taken at any time prior to or subsequent to the granting of a previous OSU baccalaureate degree. Students with a baccalaureate degree from another institution must meet the Academic Residence requirement in AR $25 f$.
c. A student seeking a baccalaureate degree under the provisions of either AR 26a or AR 26b also must satisfy the appropriate residence requirements as defined in AR 25 f .

## AR 27. SUBSEQUENT

 CREDENTIALS: MINORS, CERTIFICATES, OPTIONS, AND MAJORSa. Subsequent Minors and Certificates: A student who has received a previous baccalaureate degree from either OSU or another accredited university or college may be granted a subsequent minor or certificate. The student must:

1. Complete current requirements for minor or certificate and receive the dean's approval;
2. Achieve a minimum of 2.0 OSU cumulative grade-point average on work taken for subsequent credential;
3. Academic residence: minimum 15 credits in residence.
b. Subsequent Options and Majors: A student who has received a previous baccalaureate degree from OSU may be granted a subsequent option or major credential:
4. Complete current requirements for option or major and receive dean's approval;
5. Achieve a minimum of 2.0 OSU cumulative grade-point average on work taken for subsequent credential;
6. Academic residence: minimum 15 credits in residence.
c. Additional credits necessary for subsequent credentials may be taken prior to or subsequent to the granting of a previous baccalaureate degree.

## AR 28. SUBSTITUTIONS

a. Undergraduate students: Substitutions for institutional requirements as outlined in AR 25 , except for baccalaureate core requirements of AR 25a, may be petitioned to the Academic Requirements Committee after approval by the student's dean or college head advisor. Substitutions for baccalaureate core requirements of AR 25a may be presented for consideration to the student's dean or college head advisor. Substitutions or adjustments of college or departmental requirements are also subject to approval by the college or department.
b. Graduate students: Substitutions for institutional requirements or deviations from the normal Graduate School regulations and policies may be made only by obtaining the approval of the dean of the Graduate School following a petition by means of a letter signed by the student and the student's major professor. Action taken on such substitutions or petitions will not be considered as a precedent for any future action.

## AR 29. GRADUATION EXERCISES

Attendance at graduation exercises is optional for graduating students. In accordance with procedures obtained from the Registrar's Office, the candidate is responsible for declaring whether or not he or she will attend commencement, regardless of the term in which requirements are completed.

## AR 30. AUDITING COURSES

Audit registration permits a student to enroll in a course for no credit and no grade. Course requirements for an audited course will be determined by the course instructor. Audit registration is available to degree and non-degree students. Audit registration is only allowable during the second full week of the term. Those who wish to audit should contact the Office of the Registrar for registration procedures, which will require approval of the course instructor. Audit courses are assessed instructional fees at the same rate as for credit courses. Any changes to an audit registration are subject to the same procedures, deadlines, and special fees as for registration changes to regular courses. Upon completion of an audited course, the designation of AUD will be recorded on the transcript. The designation of WAU will be recorded on the transcript for students who withdraw from an audit course.

## AR 31. ACADEMIC FRESH START POLICY

An Oregon State University undergraduate student may petition once with the registrar to exclude OSU courses from the calculation of institutional requirements, credits, and grade-point average, under a condition of academic fresh start defined below:

## Conditions to qualify:

The student must have an absence from OSU that begins after the end of the student's last term of attendance and exceeds five academic years before readmittance to a degree program at OSU. Prior to applying for academic fresh start student must, after re-enrolling in the university, have successfully completed a minimum of 24 letter-graded units
over two consecutive terms, and earned a grade-point average of at least 2.5 in these terms. The student must also provide a signed letter of recommendation from a current OSU college dean, school director, or department or program chair/ head. It may be seconded by the college head advisor or a current faculty member within the discipline the student is currently engaged to complete advocating on the student's behalf for academic fresh start.
Effect of the academic fresh start:

- Upon meeting all of the conditions of qualification, the student may select from one to three contiguous academic terms from previous enrollment at OSU for the application of academic fresh start.
- The grades ${ }^{\mathbf{1}}$ from all courses taken during the terms that are proposed for academic fresh start will be excluded from meeting institutional requirements and the calculation of institutional units and grade-point average.
- All grades representing the student's academic history at OSU will appear on the student's academic record (transcript), but all academic fresh start approved courses will be coded as "excluded" similar to a repeated course. Additionally, a comment of "Academic Fresh Start" will be appended to each term that qualifies under academic fresh start.
- All courses excluded under academic fresh start, will also be excluded from the calculation of course repeats defined by AR 20.

## Footnote:

${ }^{1}$ Valid grades include outstanding I (Incomplete) grades that have not been resolved.

## CATALOG YEAR POLICY <br> Graduation Requirements/Catalog Contract Policy

When determining the graduation requirements for a given student:

- Students must meet all applicable degree requirements from the published catalog(s).
- The student's catalog year for institutional and baccalaureate core requirements is established by his or her first term of attendance (matriculation date) at Oregon State University as an admitted student.
- The student's catalog year for college/major/option/minor requirements is based on the date of declaration of the major/option/ minor; consequently, a student's first (primary) major/option must be in the same catalog year. If a primary option is declared in a subsequent academic year, the primary option will be aligned with the catalog year of the primary major. If the primary option did not exist in the catalog year of the primary major, the primary major will roll forward to the catalog year of the primary option.
- Additionally, while the student's first major/option must be in the same catalog year, any additional declarations of majors/options/ minors will be determined by the declaration dates (and corresponding catalog years) established by the change of academic program process. A student, in collaboration with an advisor, can also choose to graduate under a subsequent (to their most recent major declaration date) catalog year within the same major/option.
- At the time of graduation, all students, including transfer students, must use a catalog that is not more than ten years old. Students may petition to the head advisor of their college for an extension of a catalog greater than ten years prior to their expected graduation term.
- Current policy requires a student to reapply after not enrolling at OSU for four consecutive terms (not including summer terms); the published catalog for the resulting readmission/matriculation date will become the catalog of record for graduation requirements. The Planned Educational Leave Program defined in AR 13.c beginning with 2011-2012 academic year, provides a mechanism for a student to sustain their original catalog of record during a planned absence.
- For Degree Partnership Program students, the first term the student is admitted to OSU will be the matriculation date and will determine the catalog year for
institutional and baccalaureate core requirements. The catalog year for college/major/option/minor requirements will be the same as all other OSU students.
- Every effort has been made to ensure the accuracy of information in the OSU General Catalog However, Oregon State University or the Oregon State Board of Higher Education may find it necessary from time to time to make changes in courses, curricula, or degree requirements. Students already admitted to a program in which such changes have been made will be reasonably accommodated, if possible, to ensure their normal progress toward a degree. A student may, however, still be required to conform to changes in courses, curricula, or degree requirements as deemed necessary by Oregon State University or the State Board of Higher Education.

## GRADING SYSTEM

## Grades

The grading system consists of:

- A = Exceptional, 4.0 grade points per credit
- $\mathrm{A}-=3.7$ grade points per credit.
- $\mathrm{B}+=3.3$ grade points per credit.
- $B=$ Superior, 3.0 grade points per credit.
- $\mathrm{B}-=2.7$ grade points per credit.
- $\mathrm{C}+=2.3$ grade points per credit.
- $\mathrm{C}=$ Average, 2.0 grade points per credit.
- $\mathrm{C}-=1.7$ grade points per credit.
- $\mathrm{D}+=1.3$ grade points per credit.
- $\mathrm{D}=$ Inferior, 1.0 grade point per credit.
- D- = 0.7 grade point per credit.
- $\mathrm{F}=$ Failure, 0.0 grade point per credit.
- $\mathrm{G}=$ Reserved for Graduate Credit, no grade point per credit.
- I = Incomplete, no grade points or credits.
- I/Alt Grade = Incomplete, no grade points or credits. If not resolved after 12 months or degree conferral, the " I " reverts to the alternate grade.
- $\mathrm{N}=$ No credit, no grade points or credits.
- $\mathrm{NG}=$ No basis for a grade, no credit or grade points.
- $\quad P=$ Pass, credit given, no grade points.
- $\mathrm{R}=$ Thesis in Progress, credit given, no grade points.
- $\mathrm{S}=$ Satisfactory, credit given, no grade points.
- TR = Accepted Transfer Credit.
- $\mathrm{U}=$ Unsatisfactory, no credit or grade points.
- $\mathrm{W}=$ Withdrawal (passing), no credit or grade points.
- $\mathrm{WC}=$ Complete withdrawal, no
credit or grade points.
- AUD = Audit, no credit or grade points.
- $\mathrm{WAU}=$ Withdrawal from Audit, no credit or grade points.
When a requirement of a course has not been completed for reasons acceptable to the instructor and the rest of the academic work is passing, a report of I (incomplete) may be made and additional time granted. The I is only granted at the discretion of the instructor. The instructor must submit the grade the student will earn if the missing work is not completed. That alternate grade will become the default grade if the missing work is not completed. The instructor documents the deficiency and the deadline for completing the missing work. A record of the deficiency shall be kept on file in the unit or department office. The allotted time awarded shall not exceed one calendar year except by petition* or the time of the degree conferral, whichever comes first. To remove the I grade, the student must complete the deficiency within the allotted time and the instructor will then submit the appropriate grade. If the student fails to complete the work within the allotted time, the Office of the Registrar will automatically change the I grade on the student's record to the alternate grade submitted by the instructor at the time the I was given. The alternate grade will be included in the gradepoint average. Under no circumstances shall a student who earns an A-F grade or an N or U grade have his or her grade changed retroactively to an I grade.
An instructor may move to correct a grade by filing a Change of Grade in the Registrar's Office. Grade changes for students of a permanently separated instructor will be managed by the department chair of the course involved. Upon permanent separation from the University an instructor's change of grade will not be accepted by the Office of the Registrar. The Office of the Registrar will routinely review grade changes.
*A student may petition via the Office of the Registrar for an extension of the one calendar year deadline with the concurrence of the faculty. An approved petition will grant an extension of a single additional term, with a maximum of three total extensions being possible. An approved petition for an extension of time to remove an incomplete will be voided at the time of degree conferral.
Students may withdraw from a course. In such cases, a grade of W is assigned. A student who discontinues attendance in a course without official withdrawal receives a grade of F in the course.

## GRADE POINTS

Grade points are computed on the basis of 4 points for each credit of A grade, 3.70 for each credit of A- grade, 3.30 for
each credit of $\mathrm{B}+$ grade, 3.00 for each credit of B grade, 2.70 for each credit of B- grade, 2.30 for each credit of C+ grade, 2.00 for each credit of $C$ grade, 1.70 for each credit of C- grade, 1.30 for each credit of D+ grade, 1.00 for each credit of D grade, .70 for each credit of D - grade, and 0 for each credit of $F$.

Marks of I/Alt, W, WC, P, N, NG, R, S, and $U$ are disregarded in the computation of points. The grade-point average (GPA) is the quotient of total points divided by total credits; total credits are the number of term credits in which grades $\mathrm{A}, \mathrm{B}, \mathrm{C}, \mathrm{D}$, and F are received.

## ACADEMIC STANDING

Satisfactory Academic Standing (Undergraduate Students) (AR 22) Oregon State University expects students to maintain satisfactory academic progress toward degree completion. At the conclusion of each term, grade-point averages are calculated and academic standings determined for students seeking a baccalaureate degree according to the criteria outlined below. Students whose standings evidence a lack of satisfactory progress will be warned of this condition and advised to seek help from their academic advisors. Any student who is not on Academic Warning, Academic Probation, or Academic Suspension is in good standing.

1. Academic Warning: Students with a term GPA below 2.0 will be placed on Academic Warning.
2. Academic Probation: Students who have attempted ${ }^{\mathbf{1}} 24$ or more credits at OSU and have an OSU cumulative GPA below 2.0 will be placed on Academic Probation. Students who attain a cumulative GPA of 2.0 or better are removed from Academic Probation.
3. Academic Suspension: Students who are on Academic Probation and have a subsequent term GPA below 2.0 will be placed on Academic Suspension. Academic Suspension is recorded on the student's academic record. Students who are academically suspended are denied all the privileges of the institution and of all organizations in any way connected to it, including any university-recognized living group.
4. Reinstatement to the University: Suspended students will be considered for reinstatement to the university after two years or completion of a minimum of 24 quarter credits of transferable collegelevel work at an accredited college or university, with a GPA of 2.5 or above.
The Faculty Senate Academic Standing Committee (http://senate.oregonstate. edu/academic-standing-committee) is
responsible for enforcement of the above regulations on Satisfactory Academic Standing. Additionally, this committee has discretionary authority to grant exceptions and to develop guidelines for administering these regulations.

## Footnote:

${ }^{1}$ An attempt comprises a final grade in a course where the grade is: A, $\mathrm{A}-, \mathrm{B}+, \mathrm{B}, \mathrm{B}-, \mathrm{C}+, \mathrm{C}$, C-, D+, D, D-, F, S, U, P, NP, I/Alternate Grade (where the Alternate Grade is one of these grades), W.

## ATTENDANCE

An instructor has the privilege of considering class participation in arriving at a student's grade, but it is not intended that attendance in and of itself normally be a factor in measuring a student's academic accomplishment in a course.

## OTHER LIMITATIONS

Academic performance is not the sole criterion for admission to and continuation in certain courses and programs at the university, such as practicum courses and internships. The university may find it necessary to evaluate a person's background to determine his or her likelihood of maintaining standards of professional conduct that are necessary in the academic discipline or profession. An evaluation may take into consideration current performance, as well as past experiences and actions that could affect a student's ability to perform in the particular course or program.

## STUDENT CONDUCT <br> REGULATIONS

Oregon State University aspires to stimulate a lasting attitude of civility, social responsibility and openness in our students as well as an appreciation for our values of accountability, diversity, respect, and truth. Consistent with that, all students enrolled at OSU are expected to follow student conduct regulations and university policies that have been developed to govern the behavior of students as well as members of the university community. These regulations and policies are formulated to guarantee each student's freedom to learn and to protect the fundamental rights of others. The assumption upon which these regulations are based is that all people must treat others with dignity and respect in order for scholarship to thrive. The regulations and procedures for disciplinary action and appeal are available on the OSU website, http://studentlife.oregonstate. edu/studentconduct/. Violations of the regulations subject a student to appropriate disciplinary or judicial action. These regulations have been formulated by the Student Conduct Committee, the Student Activities Committee, the university administration, and the State Board of Higher Education.

## STUDENT GRADES

Student grades may be obtained via MyOSU at https://myosu.oregonstate. edu: select Student, then Student Grades. Or obtain an unofficial transcript under Academic Profile, and click on Transcript. Grades are not automatically mailed to the student.

You may request a transcript via the Web at no charge: http://registrar. oregonstate.edu/transcripts.
Grades, GPA calculations, and academic standings are not complete and final prior to 8 a.m. on the Wednesday following the final exam week. Grades and GPAs appearing prior to that day may be incomplete.

## STUDENT RECORDS

Family Educational Rights and Privacy Act of 1974, as amended, (20 U.S.C. 1232 g ) provides that Oregon State University students have the right to inspect and review the student's education records within 45 days of the day the university receives a request for access; the right to request the amendment of the student's education record that the student believes are inaccurate or misleading; the right to consent to disclosures of the personally identifiable information contained in the student's educational record, except to the extent that FERPA authorizes disclosure without consent; and the right to file a complaint with the U.S. Department of Education concerning alleged failures by Oregon State University to comply with the requirements of FERPA. The Student Records Policy is available in the printed and electronic Registration Information Handbook and OSU General Catalog.

## PROGRESS STANDARDS FOR VETERAN STUDENTS

Programs at Oregon State University are approved for the use of VA benefits under the Montgomery GI Bill, Dependents Educational Assistance, and Title 38 and Title 10 of the US Code, or benefits offered by the State of Oregon Department of Veteran Affairs. The university, through the Registrar's Office, provides the certifying service to qualified students. The certifying official issues enrollment certification documents to the appropriate VA regional office and monitors students' satisfactory progress for the VA. Any student receiving GI Bill education benefits while attending Oregon State University is required to obtain transcripts from all previously attended schools and submit them to the school for review of prior credit.

1. OSU students who receive benefits from the Veterans Benefits
Administration of the Department of Veterans Affairs are subject to the satisfactory progress standards as set forth in Chapter 38, U.S.

Code sections 1674, 1724, 1775, and 1776, and to those defined by the university in Academic Regulation 22, Satisfactory Academic Standing:
2. Oregon State University expects students to maintain satisfactory academic progress toward degree completion. At the conclusion of each term, grade-point averages are calculated and academic standings determined for students seeking a baccalaureate degree according to the criteria outlined below. Students whose standings evidence a lack of satisfactory progress will be warned of this condition and advised to seek help from their academic advisors. Any student who is not on Academic Warning, Academic Probation, or Academic Suspension is in good standing.
a. Academic Warning: Students with a term GPA below 2.0 will be placed on Academic Warning.
b. Academic Probation: Students who have attempted ${ }^{1} 24$ or more credits at OSU and have an OSU cumulative GPA below 2.0 will be placed on Academic Probation. Students who attain a cumulative GPA of 2.0 or better are removed from Academic Probation.
c. Academic Suspension: Students who are on Academic Probation and have a subsequent term GPA below 2.0 will be placed on Academic Suspension. Academic Suspension is recorded on the student's academic record. Students who are academically suspended are denied all the privileges of the institution and of all organizations in any way connected to it, including any university-recognized living group.
d. Reinstatement to the University: Suspended students will be considered for reinstatement to the university after two years or completion of a minimum of 24 quarter credits of transferable college-level work at an accredited college or university, with a GPA of 2.5 or above.
3. Students, who are placed on probation by the university, also will be notified that they are on probation insofar as Veterans Affairs' progress standards are concerned. If a student's deficiency is not corrected and they subsequently are placed on academic suspension, the university will notify Veterans Affairs of his or her unsatisfactory progress.
4. The university will recertify students who are suspended by the university and subsequently reinstated by the

Academic Standing Committee
5. Students dismissed from the university for unsatisfactory conduct will be reported as making unsatisfactory progress. The university will recertify the student only upon rescission of the dismissal by the university.

## EXEMPTION FROM NONRESIDENT TUITION

HB 2158 (2013) and HB 4021 (2014) section 1. ORS 352.375
A public university listed in ORS 352.002 or community college shall charge an enrolled student who is not a resident of this state, and who is attending classes as an undergraduate or graduate at a public university or community college campus in this state, tuition and fees no greater than the resident rate if the student:
a. Served in the armed forces of the United States; and
b. Was relieved or discharged from that service with either an honorable discharge or a general discharge under honorable conditions; and
c. Undergraduate student newly enrolled after September 15, 2013, or graduate student newly enrolled after September 15, 2014, and
d. Provides proof that the student has established a physical presence in Oregon within 12 months of being enrolled at the public university or community college.

## MILITARY AND VETERAN

 RESOURCES ADVISOR
## William Elfering, MVRA

541-737-7662
william.elfering@oregonstate.edu Website: http://studentlife.oregonstate. edu/veterans
Office of Student Life
The Military and Veteran Resources Advisor (MVRA) advocates for studentveterans to receive targeted support in navigating campus resources and pursuing academic goals and advises about internal and external support programs. The MVRA collaborates with School Certifying Officials to counsel students and parents concerning eligibility and benefits available under various programs at the local, state, regional, and federal level. The MVRA maintains an informative Military and Veteran Resources website and corresponds with prospective, currently enrolled, and alumni studentveterans to provide them with the latest news on benefits, processes, and procedures from the Veterans Administration.

## SCHOOL CERTIFYING OFFICIAL

 (SCO)The School Certifying Official (SCO) certifies the enrollment of veterans and eligible dependents at Oregon State University. All veterans and eligible dependents, whether new, returning, or transfer students, who expect to receive educational benefits from the Veterans Administration must notify the SCO in the Registrar's Office. For questions about benefits, contact veterans@oregonstate. edu.

The School Certifying Official also monitors and reports to the Veterans Administration the Satisfactory Progress Standards for students who are receiving VA education benefits. See Progress Standards for Veteran Students for more information.

## MILITARY TUITION

## ASSISTANCE PROGRAM

The School Certifying Officials (SCO) at Oregon State University are the direct contact points for students using the Military Tuition Assistance Program. SCOs process students' tuition assistance authorizations and contracts and forward copies to OSU Business Affairs for billing the military branches. Depending on the branch of the military, requirements vary on how grades are reported. Grade reporting is done at the end of each academic term.
For questions about the Military Tuition Assistance Program, contact veterans@oregonstate.edu.

## VETERANS ACCESS, CHOICE,

 AND ACCOUNTABILITY ACT (VACAA) OF 2014 (38 U.S.C. 3679(C))Official School Catalog Addendum
I certify the current policy is true and correct:

The following individuals shall be charged the in-state rate, or otherwise considered a resident, for tuition and fees purposes:

- A Veteran using educational assistance under either chapter 30 (Montgomery G.I. Bill - Active Duty Program) or chapter 33 (Post-9/11 G.I. Bill), of title 38, United States Code, who lives in the State of Oregon while attending a school located in the State of Oregon (regardless of his/her formal State of residence) and enrolls in the school within three years of discharge or release from a period of active duty service of 90 days or more.
- Anyone using transferred Post-9/11 GI Bill benefits (38 U.S.C. § 3319) who lives in the State of Oregon while attending a school located in the State of Oregon (regardless of his/ her formal State of residence) and enrolls in the school within three
years of the transferor's discharge or release from a period of active duty service of 90 days or more.
- Anyone using benefits under the Marine Gunnery Sergeant John David Fry Scholarship (38 U.S.C. § 3311(b) (9)) who lives in the State of Oregon while attending a school located in the State of Oregon (regardless of his/ her formal State of residence) and enrolls in the school within three years of the Service member's death in the line of duty following a period of active duty service of 90 days or more.
- Anyone described above while he or she remains continuously enrolled (other than during regularly scheduled breaks between courses, semesters, or terms) at the same school. The person so described must have enrolled in the school prior to the expiration of the three-year period following discharge, release, or death described above and must be using educational benefits under either chapter 30 or chapter 33, of title 38, United States Code.

## VETERAN AND U.S. MILITARY SERVICE RECOGNITION CORD

## Recognition of U.S. Military Service

 Oregon State University recognizes the significant contribution and sacrifices made by OSU students who are U.S. military service members and veterans. Students may receive a red, white, and blue Military Service Recognition Cord to be worn at commencement.To apply for the recognition, students should complete the OSU Military Service Recognition application which is available on the OSU Veterans website at http://studentlife.oregonstate.edu/veterans. Applications are to be submitted to the School Certifying Officials who will approve the application and distribute the recognition cord.

## UNDERGRADUATE PLANNED

 EDUCATIONAL LEAVE PROGRAM Students may find that a planned interruption or pause in their regular, full-time education is needed. PELP is designed to enhance the prospect of successful completion of an academic program by allowing a student to arrange a voluntary absence that temporarily suspends their academic work for a period of time. For detailed information please refer to Academic Regulation 13.
## STUDENT RECORDS-RICHT TO PRIVACY

## NOTICE TO STUDENTS REGARDING PRIVACY OF RECORDS

The Family Educational Rights and Privacy Act (FERPA) of 1974 (Public Law 93380), as amended, Oregon Revised Statutes 351.065, and Oregon Administrative Rule 580-013-0005 of the State Board of Higher Education afford students certain rights with respect to their education records. They are:

1. The right to inspect and review the student's education records within 45 days of the day the university receives a request for access.
2. Students should submit to the registrar, dean, head of the academic department, or other appropriate official, written requests that identify the record(s) they wish to inspect. The university official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the university official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.
3. The right to request the amendment of the student's education record that the student believes are inaccurate or misleading.
4. Students should write the university official responsible for the record, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading.
5. If the university decides not to amend the record as requested by the student, the university will notify the student of the decision and advise the student of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.
6. The right to consent to disclosures of the personally identifiable information contained in the student's educational record, except to the extent that FERPA authorizes disclosure without consent.
7. One exception that permits disclosure without consent is disclosure to school officials with legitimate educational interests. A school official is a person employed by the university in an administrative, supervisory, academic or research, or support staff position (including health staff and members of the Law Enforcement Unit); a person or company with whom the
university has contracted; a person or company acting as consultant or volunteer for the university; a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks.
8. A school official has a legitimate educational interest if the official needs to review an educational record in order to fulfill his or her professional responsibility.
9. The right to file a complaint with the U.S. Department of Education concerning alleged failures by Oregon State University to comply with the requirements of FERPA.
The name and address of the office
that administers FERPA is:
Family Policy Compliance Office
U.S. Department of Education

400 Maryland Avenue, SW
Washington, DC 20202-5920
1-800-USA-LEARN (1-800-872-5327)
Website: https://www2.ed.gov/policy/ gen/guid/fpco/index.html
Revised directory information
effective May 2014: Oregon State
University will provide the following
"directory" information to all inquiries
without students' written consent:

- student's name
- current mailing address and telephone number
- current OSU ONID email address
- campus office address
- class standing (e.g., freshman, sophomore, etc.)
- student level (undergraduate, graduate, etc.)
- college
- major field of study
- honors
- full-time or part-time enrollment status
- status as a graduate teaching assistant or graduate research assistant and hours of service.
- participation in officially recognized activities and sports
- dates of attendance
- anticipated graduation date
- degrees and awards received
- date(s) of degree(s)
- most recent previous educational institution attended by student
A student may request in writing that all of the above directory information be kept confidential. This option may be exercised by filing a written, dated, and signed request at the Office of the Registrar at any time. The restriction remains in effect until revoked by the student even if the student leaves the university or graduates.

The procedures for exercising the above rights are explained in Oregon Ad-
ministrative Rules 576-020-0005 through 576-020-0065.

## RELEASE OF STUDENT INFORMATION TO MILITARY RECRUITERS (SOLOMON

## AMENDMENT)

Oregon State University provides information about students that is requested by military recruiters under requirements of the Solomon Amendment (As of Oct. 23, 1998 [63 Fed. Reg. 56819] and the Interim Rule published Jan. 13, 2000 [65 Fed. Reg. 2056] by Department of Defense). Under this federal law military recruiters may request the following information: Name, current mailing address (as provided by the student) including email address, current telephone number (as provided by the student), age, class level (e.g., freshman, sophomore, etc.), and academic major. The information may be requested for the immediately previous term, current term, or future term for all students age 17 and older who are or were registered at OSU for at least 1 credit in the requested term. Recruiters may request this information each term. Recruiters may not obtain any information that is not in the above list of student recruiting information. For example, they may not request any of the following: Social Security Number or ID Number, place of birth, race/ethnicity/nationality, grades and GPA, grades of low-performing students, religious affiliation, names of students with loans in default, veteran status, or names of students no longer enrolled at OSU. Institutions that do not comply with the Solomon Amendment risk losing federal funding from the departments of Defense, Education, Health and Human Services, Labor, and Transportation. Institutions do not risk losing student-aid funding such as Perkins Loans, Federal SEOG or Work-Study funds.

## USE OF SOCIAL SECURITY NUMBER (SSN)

You are requested to provide voluntarily your Social Security Number to assist OSU (and organizations conducting studies for or on behalf of OSU) in developing, validating, or administering predictive tests and assessments; administering student aid programs; improving instructions; internal identification of students and alumni; collection of student debts; or comparing student educational experiences with subsequent workforce experiences. When conducting studies, OSU will disclose your Social Security Number only in a manner that does not permit personal identification of you by individuals other than representatives of OSU (or the organization conducting the study for OSU) and only if the information is destroyed when no longer needed for the purposes for which the study was conducted. By providing your Social Security Number, you are consenting to the use identified above. This request is made pursuant to ORS 352.004, ORS 352.107, and ORS 352.146. Provision of your Social Security Number and consent to its use is not required and if you choose not to do so you will not be denied any right, benefit, or privilege provided by law. You may revoke your consent to the use of your Social Security Number at any time by contacting: Office of the Registrar, Oregon State University, Corvallis, OR 97331-2130; 541-737-4331.

All access and use at Oregon State University of the Social Security Number is prohibited except for meeting federal or state requirements, compliance, and reporting.

## STUDENTS RIGHTS TO PRIVACY

 OF RECORDS TUTORIAL (FERPA)A brief online tutorial that explains students' rights may be viewed at http://registrar.oregonstate.edu/ ferpa-training-module.

## OSU DIRECTORY

The OSU Campus Directory is a directory of staff and student names, addresses and telephone numbers. This information is extracted at the end of the second week of the fall term and is published annually and posted on the OSU website. To find students, faculty and staff, use the Search box for Find people and pages or go to http://directory.oregonstate.edu/.

Students who do not want information to be included in either the printed or electronic version should indicate that in their Directory Profile on the Web before the end of the second week of fall term. Just log in to MyOSU at https:// myosu.oregonstate.edu and under Update Personal Profile select OSU Directory Preferences, then follow the instructions on that page.

## STUDENT PHOTO ROSTER

Getting to know students is an important means by which instructors and advisors can improve the quality of the learning environment.

## Accessing Student Photo Roster System:

1. Login to MyOSU at https://myosu. oregonstate.edu.
2. Under Update Personal Profile, select OSU Directory Preferences.
3. Check or uncheck the checkbox "Photo Viewable to Advisor".
4. Check or uncheck the checkbox "Photo Viewable to Instructor".
5. Click the "Submit Changes" button to update your Directory Profile. To view your choices regarding opting in or out of the Student Photo Roster System, please view it online using the instructions above.

Selecting the "opt in" option for instructors means that all instructors of record associated with the student's current classes will be able to view the photograph.

Students can change their minds at any time.

## TUITION AND FEES AND PAYMENT: 2017-2018

For a full listing of tuition and fees, please visit OSU Business Affairs at http://fa.oregonstate.edu/business-affairs/ tuition-and-fee-information.
Advance Tuition Deposit: $\mathbf{\$ 2 0 0 . 0 0}$
New undergraduate students will be requested to submit a tuition deposit of $\$ 200.00$ after being admitted to the university. This deposit is the indication of a student's intent to enroll at OSU.

- Fall Term only: Payment for your Advance Tuition Deposit is required to participate in the START program, which allows students to register for fall term classes. After May 1, the deposit is nonrefundable. Note: Not applicable to Ecampus students.

## MANDATORY ENROLLMENT FEES

Students paying mandatory enrollment fees are entitled to services maintained by OSU for the benefit of students. These services include the use of the library; use of laboratory equipment and materials; medical attention and advice at the Student Health Center; use of gymnasium equipment; the student newspaper; admission to some athletic events; admission to concerts and lectures; and registration. No reduction in fees is made to students who may not wish to use these privileges. Employees paying staff fees are entitled to instructional and library privileges only.

MATRICULATION FEE: $\$ 350.00$
All new students (except non-degree seeking) are charged a one-time fee of $\$ 350.00$ at the start of their first term at OSU. This fee provides access to a variety of OSU programs and services at no additional charge. Programs and services included in the fee include, but are not limited to, open house programs, START, CONNECT, pre-enrollment advising, course drop/add/withdrawal, and official transcripts.

## OTHER FEES

Subject to change without notice.

## GRADUATE RESEARCH

ASSISTANT TUITION AND FEES
See Tuition and Fee Information on the OSU Business Office website (http:// fa.oregonstate.edu/business-affairs/ tuition-and-fee-information). Click on "Corvallis Campus Tuition/Fees." Then click on "GRA/GTA Remission."

## PHARMACY TUITION AND FEES

See Tuition and Fee Information on the OSU Business Office website (http:// fa.oregonstate.edu/business-affairs/ tuition-and-fee-information). Click on "Corvallis Campus Tuition/Fees" for the desired year. This opens a PDF within
which you scroll down to the information for Oregon State University-Corvallis Campus Pharmacy Program (usually page 6).

## VETERINARY MEDICINE TUITION AND FEES

See Tuition and Fee Information on the OSU Business Office website (http:// fa.oregonstate.edu/business-affairs/ tuition-and-fee-information). Click on "Corvallis Campus Tuition/Fees" for the desired year. This opens a PDF within which you scroll down to the information for Oregon State University-Corvallis Campus Veterinary Medicine (usually the last page).

## ACADEMIC YEAR FEE BOOK

For more information about tuition and fees, see the Academic Year Fee Book on the OSU Budgets website at http:// fa.oregonstate.edu/budget.

## CURRENT STUDENT ACCOUNTS OFFICE WEBSITE

Go to http://fa.oregonstate.edu/ business-affairs/studentbilling.

## NONDEGREE STUDENTS

(This category is designed for students not planning to complete a degree at OSU.)

Nondegree students may only enroll in 8 or fewer credits and pay tuition/fees at resident rates based on undergraduate or graduate course level. To be eligible to use Student Health Services, you must also pay the student health fee.

If a nondegree student were to enroll in 9 or more credits they would pay tuition/fees based on the undergraduate or graduate tuition fee schedule determined by the student's status.
For more information, call Student Accounts at 541-737-3775.

## FEE PAYMENT OBLIGATION

Web registration presents you with a confirmed class schedule. When you finish registering, your schedule is official. This obligates you to pay all tuition and fees for your classes. If you wish to cancel this commitment and reduce or eliminate tuition charges for the term, you must officially cancel your registration or withdraw from the term. See the Tuition Reduction Schedule at http://fa.oregonstate.edu/business-affairs/tuition-and-fee-information/ tuition-reduction-schedule.
Electronic billing statements are processed around the 5th of each month. Notification that your statement is ready will be sent to your ONID email address. It is very important that your ONID address is active and that you are checking it regularly. You may also select to have your ONID email forwarded to an alternate address. You may view your month-
ly billing statements by logging onto the eBill website at http://mybill.oregonstate. edu. See "eBill and eCheck" at http:// fa.oregonstate.edu/business-affairs/ ecommerce-osu/ebill-and-echeck.

## You may pay your tuition and fees

 in the following ways:OSU currently accepts eCheck, paper checks, money orders and cash as acceptable payment methods. Students can use MyOSU, http://myosu.oregonstate. edu/, (Paying for College, Financial Services, Pay My Bill), as a convenience option for making credit card payments. Please see the Cashiers website for more details regarding all acceptable payment methods.
Accounts are "due upon receipt" of the monthly statement, and any unpaid balance remaining after the 1st of each month is subject to an interest charge of 1 percent per month ( 12 percent APR).

## REGISTRATION/TRANSCRIPT HOLD POLICY

If you are enrolled for the current term, you will be allowed to register for the following term only if your account balance consists of charges only from recent academic terms-the current term and one term prior-and your overall account balance does not exceed $\$ 2,200.00$. If you are not currently enrolled, you must have your account balance paid in full in order to register.

Requests for transcripts cannot be processed until your account balance is paid in full.

## DROP/WITHDRAW REFUNDS

Students who drop or withdraw from a class, or withdraw from the term may be eligible for a tuition refund. Refunds are based on assessed tuition, course fees, and mandatory fees, and are calculated from the date you officially drop, withdraw, or cancel your registration or reduce your class load, not the last date of class attendance. Please see "Registration Cancellation/Withdrawal from the Term."

Refunds are processed as a credit on your account. A check will be issued to you if any credit balance remains after other charges and financial aid repayments have been satisfied. No refunds are authorized for persons paying staff rates. Allow about two weeks for processing a refund. Your refund will be sent to your current mailing address. Be sure to update your current mailing address online in MyOSU, https://myosu.oregonstate.edu/.

The Tuition/Fee Reduction
Schedule below follows those policies as established by Oregon State University (there are no refunds given for persons paying staff rates):

| Academic Year 2017-2018 |  |  |
| :---: | :---: | :---: |
| Drop Dates | Tuition | on |
| for Tuition Refunds | Credit | Due |
| Fall 2017 |  |  |
| October 1 | 100\% | 0\% |
| October 2-15 | 50\% | 50\% |
| After October 15 | 0\% | 100\% |
| Winter 2018 |  |  |
| January 14 | 100\% | 0\% |
| January 15-28 | 50\% | 50\% |
| After January 28 | 0\% | 100\% |
| Spring 2018 |  |  |
| April 8 | 100\% | 0\% |
| April 9-22 | 50\% | 50\% |
| After April 22 | 0\% | 100\% |
| All deadlines are up to | 11:55 p.m |  |

## HOW TO HANDLE AN ERROR IN BILLING

If there appears to be an error on your monthly statement, use the following guidelines:
Graduate Assistants: Errors may occur due to incorrect rate codes. Please notify your department.

Residents Billed Nonresident
Rates: Pay the amount appropriate for a resident and then go to the Office of Admissions to confirm your residency status. You will be advised as to the next action to take.

Financial Aid Not Applied: If financial aid has not been applied you should verify approval of scholarships and grants at the Office of Financial Aid and Scholarships, A218 Kerr Administration Building, 541-737-2241, financial. aid@oregonstate.edu.
Support Payments Not Applied: Verify approval for support billing at Business Affairs, B100 Kerr Administration Building, ThirdPartyBilling@oregonstate.edu.

Housing: Verify the billed amount with the University Housing and Dining Office, Oxford House, 957 SW Jefferson Ave., 541-737-4771.

Any Other Billing Amount Errors: Pay based upon the correct amount, then contact the Business Affairs, B100 Kerr Administration Building for assistance, 541-737-3775, Accounts.
Receivable@oregonstate.edu.

## SPECIAL FEES

Application Fee for Admission (not refundable)-
Undergraduate - \$60
Graduate - \$60.00
Nondegree-Seeking Student - \$30.00

## Archiving Doctoral Thesis -

All doctoral candidates pay a minimum fee of $\$ 25, \$ 80$ if paying for copyright (optional), for archiving of the doctoral dissertation. See the Thesis Guide at http://gradschool.oregonstate.edu/ progress/thesis-guide.

## Auditor's Fee- <br> Fee to audit a course is the same as regular fees in all classes. <br> Collection Fee - \$10 to \$60.00 <br> If you are enrolled Fall term 2017 and do not enroll Winter term 2018 and you leave school owing the university money and collection proceedings are initiated, you may be assessed a service charge. For balances of $\$ 50$ to $\$ 99.99$, the fee is $\$ 10$; for $\$ 100$ to $\$ 499.99$, the fee is $\$ 20$; for $\$ 500$ or more, the fee is $\$ 60$. <br> Course Fees <br> Certain courses have additional fees. Refer to the Schedule of Classes for individual course fees.

Diploma Mailing Fee- \$25.00
(\$40.00 out of country)
Duplicate Diploma - \$40.00 (Covers mailing)
Assessed to cover the cost of special printing order and handling.

## Examination for Credit-

 \$80.00 per exam
## Examination for Waiver-

 $\$ 80.00$ per examFAX Service - \$20.00 per request to fax documents.
Individual Music Lesson Fee -
Consult the Music office in the School of Arts and Communication.
Late Registration Change - \$20.00 per course changed
There is no charge to change registration (add, drop, withdraw from a course, change credits, change grade option, or change to audit) by the stated deadlines. Each registration change after the stated deadlines will be charged a $\$ 20.00$ late registration fee. This applies to any late add, late add to audit, late drop, late withdrawal from a course, late change in grading basis, or late change in course credit. If you initially register after the end of the second week of the term, you will be charged a $\$ 100.00$ late registration fee, but the $\$ 20.00$ fee is not charged when the $\$ 100.00$ late registration fee is charged. For any registration change thereafter, however, you will be charged the $\$ 20.00$ fee.

## Late Registration Fees - \$50.00 and \$100.00

A late registration fee of $\$ 50.00$ will be assessed for all initial registrations during the first two weeks of classes. For registrations approved after the first two weeks of classes (i.e., after the end of the late registration period) a late fee of $\$ 100.00$ will be assessed.

## Library Fines and Fees

- Overdue fine for OSU circulating books is $\$ 0.25$ per day; Summit and Interlibrary Loan are $\$ 1.00$ per day.
- Overdue fine for Reserve Book Room material and Equipment checkout:

1. Hourly Reserves, $\$ 2.00$ per hour.
2. Daily Reserves, $\$ 2.00$ per day.
3. Hourly Equipment, $\$ 1$ to $\$ 10$ per hour.
4. Daily Equipment, $\$ 1$ per day.

Borrowers failing to return regular materials within 42 days of the due date, or equipment and reserves within 6 days of the due date are charged the replacement cost of equipment or a generalized replacement cost of $\$ 70$ for books, $\$ 140$ for Reserve and AV materials. When such items are returned before the replacement has been ordered, the replacement cost will be refunded, and the borrower is only charged the amount of the fine (not to exceed the replacement cost). When such items are returned after replacement items have been ordered, no refund will be made. A charge at cost, to be determined by the library, may be made for repair or replacement of damaged or mutilated library material. For further details, see http://osulibrary.oregonstate. edu/borrowing/fines.

## PELP Fee (Undergraduate Planned

 Educational Leave Program) \$25.00Non-refundable application fee allows an undergraduate student to maintain their official standing as a student at OSU and reserves the student's right to keep their original academic catalog active during their absence.

## Re-Admission Fee: Graduate - Domestic Students \$75.00; International Students \$85.00

 Required after an absence of one term unless on an approved and recorded leave of absence. See "Registration Requirements" in the Graduate School section of the catalog.
## Re-Admission Fee: Undergraduate

 - \$25.00Required after an absence of one year.
See "Eligibility to Register" in the How to Register section for details.

## Reinstatement Fee - \$50.00

If a student is suspended and wishes to be reinstated, the student must pay the reinstatement fee to return to the university.
Returned Check Fee - \$25.00
If a check is returned because of any irregularity for which the student is responsible, a fine of $\$ 25.00$ will be charged.
Replacement ID Card Fee - \$30.00
Senior Citizen Fee - for special materials only
Persons 65 or older may attend class on a noncredit, space-available basis.

## Service Fee for International <br> Programs -

A $\$ 275.00$ per term administrative management fee will be charged for international students supported under
contractual arrangement with sponsoring agencies or entities requiring special administrative or management services beyond those normally provided. This program and finance fee will be assessed for these international student programs that are administered and managed by the International Student and Faculty Services office.

## Special Examination Fee -

See examination for credit/waiver in the list above.

## Staff Fee (except staff auditors) - $\mathbf{3 0}$ percent of resident undergraduate tuition

 Staff members or their dependents may register for courses at 30 percent of the per credit resident undergraduate tuition. Academic, professional, and classified employees whose appointment is equivalent to 0.50 or more may take up to 12 credits a term at this rate. Payment of the staff fee entitles the staff members to instructional and library privileges only. The fee is not refundable. The applicable course fees and resources fees are charged at 100 percent, and family members are subject to other mandatory enrollment fees. Eligibility for the staff rate must be approved by the Office of Human Resources.If you are intending to enroll for course work at another state university in Oregon, you must submit the staff fee privileges approval form to OSU-HR two days prior to the first day of classes.

If you are transferring the staff fee privilege to your dependent, and they are intending to enroll for course work at another state university in Oregon, you must submit the staff fee privileges approval form to OSU-HR two weeks prior to the first day of classes.

Staff fees are nonrefundable.

## Stop Payment Fee - \$15.00

Fee assessed when the payee of an OSU check requests a stop payment order.

## Student ID Card Services Fee \$20.00

Charged to all new and readmitted students their first term after admission or readmission. Ecampus students are not charged this fee unless they request an ID card (ID.Center@oregonstate.edu) or attend an on-campus class.
Transcripts - $\mathbf{\$ 1 0 . 0 0}$ or no fee, depending on delivery method Official electronic transcripts or E-transcripts (PDF) are $\$ 10.00$. Official paper transcripts and unofficial transcripts are free. Instructions on how to order transcripts are available at http://registrar.oregonstate.edu/transcripts. Please note that all obligations to OSU must be cleared before transcript orders can be processed.

## Verification of Enrollment Fee \$15.00 per verification

See Certification of Enrollment or Degree "You can do it on the Web" for other options.

## FINANCIAL AID

## Scholarships, Student Loans, and Grants

Eligible students who have accepted scholarships, student loans and grant awards will have those funds applied automatically to their student billing account. You can monitor your financial aid eligibility and billing account through MyOSU.

If financial aid amounts exceed the amount of qualifying tuition/fees expenses owed, a refund will be generated if the surplus exceeds $\$ 1.00$. Distribution of the refund can be made by direct deposit or check. Please note that federal financial aid cannot be posted toward the balance of the matriculation fee, accrued interest, printing charges, parking or library fines or student health service charges.

- If you would like direct deposit of your financial aid refund, complete the Direct Deposit form found through Online Services or Student Finance website at http:// fa.oregonstate.edu/business-affairs/ student-finance.
- If you would like your refund as a check, your current mailing address must be up to date for all check processing. You can do this through MyOSU, https://myosu.oregonstate. edu/.
For full details, visit the Business
Affairs Office Website. Click on Current Student.

Beginning the third week of the term, students eligible for refunds due to financial aid or scholarship disbursements may request a refund at the Cashier's Office or through email at refund@oregonstate.edu.

## EMERGENCY LOANS

Emergency loans, not to exceed $\$ 350.00$ per term, are available to students in good financial standing, attending at least half time, and formally admitted to the university. Loans are to be repaid by the last day of the current term. Loan amounts become part of the revolving account balance and carry interest at 1 percent per month (12 percent APR). The Cashier's Office reviews the applications and issues payment if approved. Application forms are available at the Cashier's Office in the Kerr Administration Building. Be sure to have your OSU ID and a second photo ID to present with the application.

Ecampus students can email cashiers. office@oregonstate.edu to request the
application. They will be asked to scan the completed form and email it back to the Cashier's Office with accompanying identification.

## PAYMENT OF STUDENT FEES

## Payment of Nonresident

## Instruction Fee (580-10-080)

1. All students classified as nonresidents shall pay a nonresident fee.
2. Refunds of the nonresident fee may be granted if the student shows that the classification previously assigned was in error. However, no such refund shall be made unless the student applies and submits all supporting information for residency status prior to the last day to register for the term in which the student seeks the change of status.

## Enrollment of Spouse and

Dependent Children (580-010-086)
The spouse and dependent children of regular department staff members with a full-time equivalent of at least .50 may enroll as students at resident fee rates in department institutions.

## In-State Tuition for Veterans

The following individuals shall be charged the in-state rate, or otherwise considered a resident, for tuition and fees purposes:

- A Veteran using educational assistance under either chapter 30 (Montgomery G.I. Bill - Active Duty Program) or chapter 33 (Post-9/11 G.I. Bill), of title 38, United States Code, who lives in the State of Oregon while attending a school located in the State of Oregon (regardless of his/her formal State of residence) and enrolls in the school within three years of discharge or release from a period of active duty service of 90 days or more.
- Anyone using transferred Post-911 G.I. Bill benefits (38 U.S.C. § 3319) who lives in the State of Oregon while attending a school located in the State of Oregon (regardless of his/ her formal State of residence) and enrolls in the school within three years of the transferor's discharge or release from a period of active duty service of 90 days or more.
- Anyone using benefits under the Marine Gunnery Sergeant John David Fry Scholarship (38 U.S.C. § 3311(b) (9)) who lives in the State of Oregon while attending a school located in the State of Oregon (regardless of his/ her formal State of residence) and enrolls in the school within three years of the Service member's death in the line of duty following a period of active duty service of 90 days or more.
- Anyone described above while he or she remains continuously
enrolled (other than during regularly scheduled breaks between courses, semesters, or terms) at the same school. The person so described must have enrolled in the school prior to the expiration of the three-year period following discharge, release, or death described above and must be using educational benefits under either chapter 30 or chapter 33 , of title 38, United States Code.

## RESIDENGY REQUIREMENTS

RESIDENCY: OSU ADMISSIONS WEBSITE
For further details about residency, please visit the OSU Admissions website at http://admissions.oregonstate.edu/residency or email Residency@oregonstate. edu.

## APPENDIX I: RESIDENCY

## STANDARDS: A-G

## A. Definitions

For the purpose of these Residency Standards the following definitions apply:

1. "Domicile" is a person's true, fixed, and permanent home and place of habitation. It is the place where a person intends to remain and to which the person expects to return when the person leaves without intending to establish a new domicile elsewhere. In order to establish a domicile in Oregon, a person must maintain a predominant physical presence in Oregon for 12 consecutive months after moving to the state.
2. A "financially independent person" is a person who, at the time of application for residency status: (a) declares himself or herself to be financially independent; (b) has not been claimed as a dependent during the immediately preceding tax year, and will not be claimed as a dependent during the current tax year, on the federal or state income tax returns of any other person; and (c) has not received in the immediately preceding calendar year, and will not receive during the current calendar year, one-half or more of his or her support, in cash or in kind, from another person or persons, except for support received from his or her spouse.
3. A "financially dependent person" is a person who, at the time of application for residency status: (a) declares himself or herself to be financially dependent; and (b) has been claimed as a dependent on the federal and state income tax returns of another person during the immediately preceding tax year.
4. "University" or "Universities" are

Oregon public universities listed in ORS 352.002.
5. "Residency Procedure" is the procedure attached as Appendix II to the Interinstitutional Residency Compact, including any subsequent amendments as described in that

## B. Determination of Residence

1. For purposes of admission and instruction fee assessment, Universities who apply these Residency Standards shall classify a student as Oregon resident or nonresident ${ }^{1}$. In determining resident or nonresident classification, the primary issue is a person's intent in coming to Oregon. Intent is inferred from a person's conduct and history as they relate to the requirements of these Residency Standards. If a person is in Oregon primarily for the purpose of obtaining an education, that person will be considered a nonresident. It is possible for an individual to qualify as a resident of Oregon for purposes of voting or obtaining an Oregon driver's license and not meet the residency requirements established by these Residency Standards.
2. An Oregon resident is a financially independent person who, prior to the term for which Oregon resident classification is requested, has both: (a) established and maintained a domicile in Oregon for 12 consecutive months; and (b) during that period, has been primarily engaged in activities other than those of being a college student.
3. A student may be considered primarily engaged in educational activities regardless of the number of hours for which the student is enrolled. However, a student who is enrolled for more than 8 hours in any semester or quarter during the 12-month period referred to in section B. 2 of these Standards shall be presumed to be in Oregon for primarily educational purposes. Such period of enrollment shall not be counted toward the establishment of a bona fide domicile of 12 consecutive months in this state unless the student proves, in fact, establishment of a bona fíde domicile in this state primarily for purposes other than educational.
4. An Oregon resident is also a financially dependent person who is claimed as a dependent by another person who has both: (a) established and maintained an Oregon domicile for 12 consecutive months; and (b) during that period, has been primarily engaged in activities other
than those of being a college student.
5. A financially dependent person who is claimed as a dependent by another person who has not established and maintained an Oregon domicile shall be presumed to be a non-resident. This presumption may be overcome by evidence of the student's longstanding presence in Oregon and demonstration of other factors under Section C of these Standards.
6. The criteria for determining Oregon resident classification shall also be used to determine whether a person who has moved from Oregon has established a non-Oregon residence.
7. If institution records show that the residence of a student or the person upon whom the student is dependent is outside of Oregon, the student shall continue to be classified as a nonresident until entitlement to resident classification is shown. The burden of showing that the residence classification should be changed is on the student requesting the change.
8. Notwithstanding section B. 4 of these Standards, a student who is financially dependent on a nonOregon resident may nonetheless be considered an Oregon resident if the student resides in Oregon for at least 12 consecutive months with a parent or legal guardian who has both: (a) established and maintained an Oregon domicile for 12 consecutive months; and (b) during that period, has been primarily engaged in activities other than those of being a college student.

## Footnote:

${ }^{\mathbf{1}}$ Oregon law establishes two exemptions from non-resident tuition. ORS 351.641 provides an exemption for students who are not US citizens or lawful permanent residents, but who meet certain other qualifications, including attendance at an Oregon school and receiving a high school diploma or equivalent in Oregon. ORS 352.375 provides an exemption for qualified veterans of the U. S. Armed Forces. Students who qualify for either of these exemptions are not considered Oregon residents under these Residency Standards. However, they are exempt from paying non-resident tuition. Questions about these exemptions and the process for establishing eligibility should be directed to the appropriate official at each university.

## C. Residency Consideration Factors

1. The following factors, although not necessarily conclusive or exclusive, have probable value in support of a claim for Oregon resident classification:
a. Reside in Oregon for 12 consecutive months prior to the beginning of the term for which resident classification is sought and during that period be primarily engaged in activities other than those of a college student;
b. Reliance upon Oregon resources for financial support;
c. Domicile in Oregon of persons legally responsible for the student;
d. Acceptance of an offer of permanent employment in Oregon; and
e. Ownership by the person of his or her living quarters in Oregon.
2. The following factors, standing alone, do not constitute sufficient evidence to effect classification as an Oregon resident:
a. Voting or registration to vote;
b. Employment in any position normally filled by a student;
c. The lease of living quarters;
d. Admission to a licensed practicing profession in Oregon;
e. Automobile registration;
f. Public records, for example, birth and marriage records, Oregon driver's license;
g. Continuous presence in Oregon during periods when not enrolled in school;
h. Ownership of property in Oregon or the payment of Oregon income or other Oregon taxes; or
i. Domicile in Oregon of the student's spouse.
3. Reliance upon non-Oregon resources for financial support is an inference of residency in another state.

## D. Evidence of Financial

## Dependency

In determining whether a student is financially dependent, a student must provide:
a. Evidence of established domicile of the person claiming the student as a dependent; and
b. The identification of the student as a dependent on the federal and state income tax returns of the person claiming the student as a dependent. Additional documentation to substantiate dependency during the current calendar year may be required at a later time if deemed necessary by the institution.
c. A student who provides evidence that he or she is a financially dependent person under these rules shall not be required to establish a 12 -month domicile prior to classification of resident status, provided such a student may not be classified as a resident while receiving financial assistance from another state or state agency for educational purposes.

## E. Residence Classification of

## Armed Forces Personnel

1. For purposes of these Standards, members of the armed forces means officers and enlisted personnel of:
a. The Army, Navy, Air Force, Marine Corps, and Coast Guard of the United States;
b. Reserve components of the Army, Navy, Air Force, Marine Corps, and Coast Guard of the United States;
c. The National Guard of the United States and the Oregon National Guard.
2. Notwithstanding Section B, active members of the armed forces and their spouses and dependent children shall be considered residents for purposes of an institution's tuition and mandatory enrollment fees if the members:
a. Reside in this state while assigned to duty at any base, station, shore establishment, or other facility in this state;
b. Reside in this state while serving as members of the crew of a ship that has an Oregon port of shore establishment as its home port or permanent station; or
c. Reside in another state or a foreign country and file Oregon state income taxes no later than 12 months before leaving active duty.
3. An Oregon resident entering the armed forces retains Oregon residence classification until it is voluntarily relinquished.
4. An Oregon resident who has been in the armed forces and assigned on duty outside of Oregon, including a person who establishes residency under section E.2.c of these Standards, must, within a reasonable time, demonstrate intent to retain classification as an Oregon resident. Such intent may be shown by returning to Oregon within six months after completing service in the armed forces.
5. A person who continues to reside in Oregon after separation from the armed forces may count the time spent in the state while in the armed forces to support a claim for classification as an Oregon resident.
6. The dependent child and spouse of a person who is a resident under Section E. 2 of these Standards shall be considered an Oregon resident. "Dependent child" includes any child of a member of the armed forces who:
a. Is under 18 years of age and not married, otherwise emancipated or self-supporting; or
b. Is under 23 years of age,
unmarried, enrolled in a full-time course of study in an institution of higher learning, and dependent on the member for over one-half of his/her support.

## F. Residence Classification of

 Members of Oregon Tribes1. Students who are enrolled members of federally recognized tribes of Oregon or who are enrolled members of a Native American tribe which had traditional and customary tribal boundaries that included parts of the state of Oregon or which had ceded or reserved lands within the state of Oregon shall be assessed resident tuition regardless of their state of residence.
2. For purposes of these Standards, the federally recognized tribes of Oregon are:
a. Burns Paiute Tribe;
b. Confederated Tribes of Coos, Lower Umpqua and Siuslaw;
c. Confederated Tribes of Grand Ronde Community of Oregon;
d. Confederated Tribes of Siletz Indians of Oregon;
e. Confederated Tribes of the Umatilla Indian Reservation;
f. Confederated Tribes of the Warm Springs Indian Reservation;
g. Coquille Indian Tribe;
h. Cow Creek Band of Umpqua Indians;
i. Klamath Tribes.
3. For purposes of this rule these Standards, the Native American tribes which had traditional and customary tribal boundaries that included parts of the state of Oregon or which had ceded or reserved lands within the state of Oregon are:
a. CALIFORNIA:
4. Benton Paiute Tribe;
5. Big Bend Rancheria;
6. Big Lagoon Rancheria;
7. Blue Lake Rancheria;
8. Bridgeport Indian Colony;
9. Cedarville Rancheria;
10. Fort Bidwell Indian Tribe;
11. Hoopa Valley Tribe;
12. Karuk Tribe of California;
13. Likely Rancheria;
14. Lookout Rancheria;
15. Lytton Rancheria;
16. Melochundum Band of Tolowa Indians;
17. Montgomery Creek Rancheria
18. Pit River Tribe;
19. Quartz Valley Indian

Community;
17. Redding Rancheria;
18. Roaring Creek Rancheria;
19. Smith River Rancheria;
20. Susanville Rancheria;

Tolowa-Tututni Tribe;
21. Winnemucca Colony;
22. XL Ranch;
23. Yurok Tribe.
b. IDAHO:

1. Nez Perce Tribe of Idaho;
2. Shoshoni-Bannock Tribes.
c. NEVADA:
3. Duck Valley ShoshonePaiute Tribes;
4. Fallon Paiute-Shoshone Tribe;
5. Fort McDermitt PaiuteShoshone Tribe;
6. Lovelock Paiute Tribe;
7. Pyramid Lake Paiute Tribe;
8. Reno-Sparks Indian Colony;
9. Summit Lake Paiute Tribe;
10. Walker River Paiute Tribe;
11. Winnemucca Indian Colony;
12. Yerington Paiute Tribe.
d. OKLAHOMA: Modoc Tribe of Oklahoma.
e. WASHINGTON:
13. Chehalis Community Council;
14. Colville Confederated Tribes;
15. Quinault Indian Nation;
16. Shoalwater Bay Tribe;
17. Yakama Indian Nation.
18. A student seeking to be assessed resident tuition and mandatory enrollment fees under these Standards shall submit, following procedures prescribed by the University where the student seeks to enroll, a photocopy of tribal enrollment which documents tribal membership.

## G. Residence Classification of NonCitizens

1. A person who is not a citizen of the United States may be considered an Oregon resident if the person qualifies as a resident under Section B and is one of the following:
a. A lawful permanent resident. The date of approval of lawful permanent residency shall be the earliest date upon which the 12 -month residency requirements under Section B may begin to accrue.
b. An immigrant granted refugee or political asylum in the United States. The date of approval of political asylum or refugee status shall be the earliest date upon which the 12 -month residency requirements under Section B may begin to accrue.
c. A person holding one of the following non-immigrant visa classifications: A, E, G, H-1B, $\mathrm{H}-1 \mathrm{C}$, the spouse or child of a person holding an $\mathrm{H}-1 \mathrm{~B}$ or H-1C visa, I, K, L, NATO, O, R, S, T, TN, U, or V. The date of the issuance of a visa for one of these classifications shall be the earliest date upon which the 12-month residency requirements under Section B may begin to accrue. A person possessing a non-immigrant or temporary visa that is not identified under these Standards shall not be considered an Oregon resident under this Section G.1.c.

## Appendix II: Residency Procedure: A-C

## A. Definitions

Definitions in the Residency Standards shall also apply to this Residency Procedure.

## B. Changes in Residence Classification

1. Unless otherwise specified in the Residency Standards, if an Oregon resident student enrolls in an institution outside of Oregon and later seeks to enroll in a University that applies these Residency Standards, the residence classification of that student shall be re-examined and determined on the same basis as for any other person.
2. A student who becomes eligible for resident tuition during a term of enrollment at a University will not qualify for resident tuition until the beginning of the next term.
3. Once established, classification as a resident continues so long as the student remains in continuous academic year enrollment in the classifying University.
4. A person who seeks eligibility for resident tuition under these rules shall complete and submit a notarized Residence Information Affidavit. The affidavit and all required supportive documents and materials must be submitted by the last day to register for the term in which resident status is sought.
5. Universities that apply this Residency Procedure are only bound by determinations of residency that follow this Procedure, including timely submittal of the notarized affidavit.

## C. Review of Residence

Classification Decisions

1. An inter-institutional residency committee (IRC) is established consisting of the officers who determine student residence classification at each University that
applies this Residency Procedure. The chair of the committee shall rotate among the Universities with no chair serving more than two consecutive years. A majority of the members of the Committee shall constitute a quorum. A majority of a quorum may make recommendations.
2. Residence cases of unusual complexity, especially where there may be conflict of rules, may be referred by the originating classification officer to the IRC for its recommendation to the registrar or designee.
3. Any person who is aggrieved by the originating classification officer's classification decision may, within ten days of the date of mailing or other service of the classification decision, request that the IRC review the classification and make recommendations to the registrar or designee of the originating university. The appeal must be in writing and shall be filed with the originating University. An aggrieved person may supply written statements to the IRC for consideration in reviewing the case and may also make an oral presentation to the IRC on a date to be scheduled by the IRC. The IRC shall make a recommendation to the registrar or designee of the originating University. That registrar or designee shall then issue a decision. The decision of the registrar or designee shall be final unless appealed.
4. A person dissatisfied with the decision of the registrar or designee may, within ten days of the date of the mailing or other service of the decision, appeal the decision to the president or designee of the originating University. An appeal shall be in writing only. The decision of the president or designee shall be final.
5. A person granted a meritorious hardship exception to residency under the Oregon Administrative Rules regarding residency prior to July 1, 1990, shall not lose the exception solely because of the repeal of the exception authorization.

The Office of Financial Aid and Scholarships is here to help you invest in your future. We have many financial aid options for undergraduate and graduate students. In general, it is a good idea to submit your FAFSA early January every year to maximize your opportunities. Although we won't review your financial aid information until after your admission application is filed, you can still apply for financial aid before you have been admitted to OSU. Learn more about your options at OSU by choosing a category below so that you can start the process of applying for aid and reaching your goals.

Financial aid is based on the premise that the student and parents are primarily responsible for providing for their education expenses and is intended to supplement student and family contributions toward educational costs. Financial aid comes from many sources, including the federal and state governments, private organizations, and Oregon State University's institutional funds. These funds consist of grants, scholarships, Federal Work-Study, subsidized loans, unsubsidized loans, and parent loans.

## ELIGIBILITY/APPLICATION PROCEDURES

To be eligible for federal financial aid, a student must:

1. Fill out the Free Application for Federal Student Aid (FAFSA), applying as soon as possible after Jan. 1 using previous year tax data (for example the 2016-2017 application will use 2015 tax information). Parents and students may estimate their income information as accurately as possible in order to complete the form and submit it by the OSU priority deadline of February 28. The FAFSA application process allows for the completion of tax information questions from the IRS directly from your return! Follow the prompts while completing the application to authorize this information exchange. Always remember that there is no fee to apply for federal aid.
2. List Oregon State University as a school that you would like your information to be sent to on the FAFSA. Oregon State's federal school code is 003210.
3. The priority FAFSA application deadline for OSU is February 28th. This date is used to determine eligibility for some need-based aid programs as well as state and institutional funds. Applications received after the priority deadline will still be eligible for federal aid such as the Pell Grant and Direct Loans. Graduate students are not eligible for federal Title IV grants or subsidized loans.
4. Make sure you are eligible to receive financial aid. In order to receive federal funding you must:

- Have a high school diploma or a General Education Development (GED) certificate, or complete a high school education in a home school setting that is treated as such under state law.
- Be enrolled or accepted for enrollment in a degree or approved certificate program (e.g., not special admit)
- Be a U.S. citizen or eligible noncitizen.
- Have a valid Social Security Number.
- Register with the Selective Service if required. You can register at http://www.sss.gov, or you can call 1-847-688-6888. (TTY users can call 1-847-688-2567.)
- Maintain satisfactory academic progress as defined by Oregon State University once in school.
- Are not in default on a federal student loan and do not owe money on a federal student grant.
- The Higher Education Act of 1965 as amended (HEA) suspends aid eligibility for students who have been convicted under federal or state law of the sale or possession of drugs, if the offense occurred during a period of enrollment for which the student was receiving federal student aid (grants, loans, and/or workstudy).

5. Apply for admission to Oregon State University: Apply Online. You will not be considered for any financial aid award until you have applied to the university.

WHAT HAPPENS AFTER I APPLY?
Once you have submitted your FAFSA application online you will receive a confirmation of receipt from Federal Student Aid. They will also send you a Student Aid Report that will give you a summary of your application and inform you of any problems you might need to resolve. You should read this report carefully and resolve problems in a timely manner. If you receive notification that something on your FAFSA is missing or incorrect, you can check your financial aid information through MyOSU Financial Aid information or email the OSU Office of Financial Aid and Scholarships for further information.

Students whose aid application was received by the end of February may expect to receive an initial award letter by approximately April 1 . Aid applications are then completed on a rolling basis by date of receipt with award notifications being sent out as files are completed.

You will receive an email or letter once your financial aid award has been completed. You will also be notified if you need to provide further information in order for us to complete your application. All correspondence will be sent to your ONID email account, so be sure to keep your information up to date!

The award notification will show the type and amount of aid available to you for the coming school year. To reserve these funds, the student must read and accept the award within 30 days. The accepted award indicates the student has read and agrees to the terms of the award as outlined.
You can accept, reject, or revise your Financial Aid Award through MyOSU by completing the following steps:

- Log in
- Select the Paying for College tab
- Select Financial Aid Awards
- Select the appropriate year (ex. 2016-2017)
- Review your Terms \& Conditions by selecting the Terms and Conditions tab
- Then select Accept Award Offer tab
- Make your decisions about the aid that you want
- Click Submit when done
- Go to www.studentloans.gov to complete any necessary Entrance Counseling or Master Promissory Notes
Your parents can also apply for a Parent PLUS loan up to the remaining cost of attendance by completing a PLUS loan application and Master Promissory Note available for them through the Federal Student Loans website. The PLUS application for the upcoming aid year is available after May 1.

Please note that PLUS loans are credit based and require a separate application process. Please visit www.studentloans.gov for additional information. PLUS credit checks/ applications expire within 180 days, so be sure to wait until 180 days or less prior to the start of the term you are attending before your parent applies.

You are responsible for notifying the OSU Office of Financial Aid and Scholarships in the event that you receive any additional awards from any other source. The OSU Office of Financial Aid and Scholarships will then make any required revisions to your aid package. The receipt of additional aid may result in a reduction or elimination of aid from universi-ty-administered programs, even if it has already been paid.

## TYPES OF FINANCIAL AID

## Federal Programs

Federal Pell Grant - The Federal Pell Grant is a need-based grant from the federal government intended for undergraduate students who have not earned
a bachelor's degree. Each student's award amount is determined on the basis of family circumstances and cost of attendance. After the Free Application for Federal Student Aid (FAFSA) is filed, the Department of Education sends you a Student Aid Report (SAR) or an Information Acknowledgement if you filed online. These documents will indicate if you are Pell eligible and it is important to review them for accuracy.

## Federal Supplemental Edu-

 cational Opportunity Grant (FSEOG) - The Federal Supplemental Educational Opportunity Grant is awarded to undergraduate students with exceptional financial need and is administered by the OSU Office of Financial Aid and Scholarships. Funds are limited and eligibility is based in part by meeting the OSU priority FAFSA submission deadline of February 28.Federal College Work-Study Program (FWS) - The Federal WorkStudy (FWS) program provides part-time jobs for students with financial need to help them pay for their education. It's designed to put you to work in the community or in a job related to your studies, whenever possible. The program is administered by the OSU Office of Financial Aid and Scholarships. Funds are limited and eligibility is based on need and in part by meeting the OSU priority FAFSA submission deadline of February 28. The amount of FWS indicated on your award is the maximum amount you may earn for the academic year. Funds are paid monthly on the basis of hours worked in the pay period not to exceed 20 hours per week. Wages range from the state minimum rate up to $\$ 10.00$ per hour, depending on job responsibilities.

Federal Perkins Loan - A Federal Perkins Loan is a low-interest (5 percent) loan for full-time undergraduate, post-
baccalaureate, and graduate students. Funds are limited and eligibility is based on need and in part by meeting the OSU priority FAFSA submission deadline of February 28. Perkins Loans are made through OSU's Financial Aid office. OSU is your lender, and the loan is made with government funds. Repayment and Deferment options are handled by the OSU Business Affairs Student Loan Office. Students must be enrolled at least halftime and repayment begins nine months after graduation, withdrawal, or if you drop below half-time enrollment. The maximum loan amount per year at OSU depends on available institutional funds and may not meet the federal yearly maximum. The Subsidized Federal Direct Ford Loan is need-based with the government paying the interest on the loan while the student is enrolled. Students must be enrolled at least half-time and repayment begins six months after graduation, withdrawal, or if you drop below half-time enrollment. For current interest rates, visit http://financialaid. oregonstate.edu/.
The Unsubsidized Federal Direct Ford Loan is non-need-based with the student being responsible for paying the interest while enrolled. Students may choose to defer the interest by having it added to the principal, which is called capitalization. Students must be enrolled at least half-time and repayment begins six months after graduation, withdrawal, or if you drop below half-time enrollment. The maximum annual loan limit is $\$ 2,000$. For current interest rates, visit http://financialaid.oregonstate.edu/.
Independent undergraduate students are eligible to borrow an additional Federal Direct Unsubsidized Ford Loan amount. Dependent undergraduates may not borrow from this program, unless

Federal Direct Ford Loan Program - Direct Stafford Loans, from the William D. Ford Federal Direct Loan (Direct Loan) Program, are low-interest loans for eligible students to help cover the cost of higher education. Eligible students borrow directly from the U.S. Department of Education (the department) at participating schools.

## Yearly Loan Limits

If you have been awarded a Ford loan, you are eligible for additional Ford loan funding as you progress through school. Depending on your credits and class standing, you will be able to receive different loan amounts. Below are the credit requirements and loan amounts::

| Class Standing | Credits | Loan Limit (Dependent) | Loan Limit <br> (Independent) |
| :--- | :--- | :--- | :--- |
| Freshman | $0-44$ | $\$ 5,500$ | $\$ 9,500$ |
| Sophomore | $45-89$ | $\$ 6,500$ | $\$ 10,500$ |
| Junior/Senior | $90-$ up | $\$ 7,500$ | $\$ 12,500$ |

If you change class standing in either fall or winter term, you may request that your loans be increased for the current academic year. Download and complete the Loan Revision Form and return it to the Office of Financial Aid and Scholarships for review.
an exception is made by a financial aid advisor due to the student's parent being denied the FDPLUS loan. The additional loan limits are:

- $\$ 4,000$ for the first year and second year of undergraduate study;
- \$5,000 per academic year for the remaining years of undergraduate study.
Federal Direct Parent Loan for Undergraduate Students (FDPLUS) - The FDPLUS is a federal loan borrowed by the parent on behalf of a dependent student to assist with educational expenses. Students are awarded the maximum amount they are personally eligible to receive. Parents may borrow the remaining amount up to the cost of attendance in the form of a Parent PLUS loan. As with all loans, you are not required to take it. Parents are required to complete a FAFSA application to be eligible for a Direct PLUS Loan, and the parent must complete a Direct PLUS Loan Application and Master Promissory Note (MPN) on the Federal Loan website. The PLUS is a non-need based loan. Interest is charged on the loan from the date the first disbursement is made until the loan is paid in full. Payment can be deferred while the student is attending school at least half-time, but interest will continue to accrue. For current interest rates, visit http://financialaid.oregonstate.edu/.

## STATE AND INSTITUTIONAL PROGRAMS <br> Campus Scholarships - Limited

 merit and need-based campus scholarships are administered by the Office of Financial Aid. Eligibility is limited to students who have completed fewer than 12 terms and submit the aid application (FAFSA) by February 1. Recipients must be enrolled full time and are notified of their awards in writing.Departmental Awards - Each department on campus administers their own awards. Contact the department or donor directly for specific information regarding the award. For a searchable database of scholarships, visit: https:// scholarship.ucsadm.oregonstate.edu/ prod/search_schol.php.

Private Awards - These awards come from outside donors and can affect your financial aid package. Outside scholarship checks should be mailed to: Student Accounts, Oregon State University, PO Box 1086, Corvallis, OR 97339. If you have not already submitted notification to the Financial Aid Office regarding your outside scholarships, please submit the Reporting Additional Sources of Assistance form located on the Financial Aid Forms page.

State of Oregon Opportunity Grant - The Opportunity Grant is a state grant administered by the Oregon Student Access Commission (OSAC) and
awarded to full-time undergraduates Oregon residents based on need and allowable funding. Twelve terms of eligibility are possible. This grant is not available during summer term.

## OTHER PROGRAMS

Private Supplemental/Alternative Loan - Students needing additional funding for school, whose aid package has not fully met their cost of attendance, may opt to apply for funding through a private lending agency. These loans have a variable interest rate, and a credit check must be done on all applicants. OSU cannot recommend lenders for private/alternative loans.

## GRADUATE STUDENTS

Graduate students are only eligible to receive Unsubsidized Direct Loans effective July 1, 2012. The annual loan maximum is $\$ 20,500$ per academic year for graduate students with an aggregate borrowing limit of $\$ 138,500$, which includes all Federal Direct Subsidized and Unsubsidized loans borrowed for undergraduate study. Students must be enrolled at least half time (5 credits) and repayment begins six months after graduation, withdrawal, or if you drop below half-time enrollment. For current interest rates, visit http:// financialaid.oregonstate.edu/.

In addition to Unsubsidized Direct Loan eligibility, Graduate Students can also apply for a GRAD PLUS loan to help cover education expenses.

The terms and conditions applicable to PLUS Loans for parents also apply to PLUS Loans for graduate and professional students. These terms and conditions include a determination that you (the applicant) do not have an adverse credit history.

Before you can receive a PLUS Loan, your school must have determined your maximum eligibility for Direct Unsubsidized Stafford Loans.

In addition to these Federal Aid Programs, the Graduate School offers additional information on Assistantship, Grant and Scholarship Opportunities on their website, http://gradschool.oregonstate.edu/.

## RECEIPT OF AID FUNDS

OSU Office of Business Affairs is responsible for disbursing refunds from student accounts once financial aid has been applied. You must be registered and have your tuition and fees billed to your account for financial aid to be applied. Aid funds are never made available in advance. Textbooks cannot be charged to a student's account. It is assumed that the student will purchase textbooks out-of-pocket and use any refund to "reimburse" themselves for the costs. If a credit balance remains on your student account after current university charges
are paid, you will be issued a refund. Federal Work-Study earnings are paid by payroll check to you each month for hours worked. You may receive a refund and still have an outstanding balance on your account. For more information about your bill or refund, visit the Business Affairs website.

## Delayed Disbursements

There are several ways in which your aid may be delayed. Here are the most common reasons:

- You may be required to complete Entrance Counseling and sign a Master Promissory Note (MPN) for your Ford Direct Loans. You would have been notified of these requirements via an email to your ONID email account.
- Dropping classes (below 12 for undergraduates, 9 for graduates). All students are assumed to be full-time unless they notify Financial Aid in writing that they will be less. If you are not enrolled at full-time and have not notified us, your aid will not disburse.
- Registering late for classes.
- Being waitlisted for classes. These classes do not count toward your enrollment level until you are actually enrolled in them.
- Having unsatisfied requirements with your financial aid file. Check your status through MyOSU/Financial Aid/ My Eligibility.
You are responsible for managing your Financial Aid experience, so be sure to check MyOSU frequently and review any emails you receive from us as they may include requests for additional information or action.

## REQUESTING CHANGES

It is understood that you want as much grant and scholarship money as possible. When you are awarded your financial aid, your award will reflect your eligibility for available grant aid. When accepting your award, you may always request a lesser loan amount. Please note that loan funds are divided into equal disbursements, based on your enrollment at OSU within the given year. You may replace your Federal Work-Study funds with a Direct Ford loan, however this is dependent upon your loan eligibility. In addition, if you initially decline loan funds but find later that you in fact need them, you may also request that the loan be reinstated up to the total of your original offer. Please request any changes in writing by submitting a Loan Revision Request form to the financial aid office. Be aware that not all budget requests can be accommodated.

## ADDITIONAL COSTS

In certain instances, your cost of attendance may be adjusted to include other
allowable costs incurred to meet your educational needs. Requests are reviewed on a case-by-case basis to determine approval. Documentation of the additional expense must be included for consideration. If approved, additional expenses are usually funded with "self-help" assistance in the form of loans. Adjustments are not made for consumer debts, car payments, or private school tuition.
Adjustments may include, but are not limited to:

- Medical or dental cost not covered by insurance
- Computer expense (one time allowance)
- Child care cost for children 12 and under
- Commuting costs from outside the Corvallis area
- Costs related to students with disabilities
- Study abroad program fees

## PARENT OR STUDENT EXPECTED CONTRIBUTIONS (EFC)

The information you reported on your FAFSA is used to calculate a number called the Expected Family Contribution (EFC). The EFC is not the amount of money that your family must provide. The school uses the EFC to determine the amount of your federal grants, loans, or work-study awards for which you may be eligible.

## CHANGES IN YOUR SITUATION

Financial Aid offices may consider special or unusual circumstances that impact your family situation. Please contact us with any questions you might have regarding your eligibility for a review.

## RENEWING AID

You must apply for financial aid every year by submitting a FAFSA application. Applications must be received before February 28 at the central processor to be considered for priority funding. You may apply for aid online after Jan. 1 for the following academic year. Be sure to keep on top of managing your award!

## DROPPING COURSES AND THE CENSUS DATE

Dropping courses impacts your financial aid in several ways. Aid assistance is based on your enrollment level each term and may be adjusted accordingly. All students are initially awarded based on full-time enrollment. Full-time undergraduate status is 12 or more credits, $3 / 4$ time is $9-11$ credits, $1 / 2$ time is $6-8$ credits, and anything below 6 credits is considered less than half time. Changes in your enrollment levels may affect your financial aid eligibility.

Your financial aid is paid each term
based on your level of enrollment at the "census date". The term Census Date refers to the point at which your enrollment is locked for financial aid purposes, and it happens to coincide with the last date you can add or drop classes for a full tuition refund. This Census Date is used for all terms, including the summer session. At this point in the term, credit hours are locked and financial aid for the term is adjusted to reflect the student's official enrolled credits. For example, if the student received aid at the beginning of the term based on full-time enrollment and then dropped credits, aid is then revised to match their eligibility based on the number of credits enrolled in as of the Census Date and types of aid that were awarded. Credits added after the Census Date cannot be used to increase financial aid eligibility.

When you drop credits after the census date and your aid has been paid, you will not need to repay your financial aid you unless you completely withdraw from ALL classes for the term. You will instead need to be concerned with meeting Satisfactory Academic Progress, as this will affect your overall PACE (completion rate).

## WHAT HAPPENS IF I WITHRAW?

## What Happens If I Withdraw From or Do Not Complete One Or More Courses in a Term?

The impact of a partial withdrawal (official or unofficial) will vary greatly by term, student status, type of aid awarded, participation, and other factors. Students, who plan to drop, withdraw, or not complete one or more course, should contact the Office of Financial Aid and Scholarships for a personalized evaluation of how a partial withdrawal will impact their current and future aid eligibility.

Students are expected to understand the terms, conditions, and requirements that relate to their financial aid award. Additional information on retaining full financial aid eligibility may be found on the Financial Aid Web page:

- http://financialaid.oregonstate.edu/ course-participation
- http://financialaid.oregonstate.edu/ receive
- http://financialaid.oregonstate.edu/ review_termsconditions

## What Happens If I Withdraw From All Courses or Do Not Complete Any Courses in a Term?

The information below is a brief summary of the process that takes place when a student withdraws from all courses or fails to receive a passing grade for a given term. The policies and procedure listed are subject to change without advance notice based on changes in federal or institutional policies. This is not an exhaustive list of the rules pertaining to the

Return of Title IV funds. Further guidance regarding these policies and procedures may be obtained by contacting the Office of Financial Aid and Scholarships. Reference material relating to the federal rules for this process may be found in Volume 5 of the Federal Student Aid Handbook.

Federal financial aid is awarded based on the expectation that a student will participate in all of their courses through the last day of the term. When a student does not complete the term, the Office of Financial Aid is required to review their eligibility for aid that has been or could be disbursed. A student is considered to have earned the full amount of disbursed federal aid if they participated in all courses and completed at least $60 \%$ of the term. In cases where full participation and $60 \%$ term completion cannot be verified, a return of federal Title IV and other types of aid may be required.
An official withdrawal may impact a student's eligibility for current or pending financial aid. Students who withdraw from the university after the start of the term must complete a Withdrawal Survey through the Registrar's Office (click "Withdraw for the Term") and should contact the Office of Financial Aid and Scholarships regarding the impact on their eligibility. The date of official withdrawal (as reported by the Registrar's Office) may be utilized in the federal Return of Title IV funds calculation. If financial aid funds were used to pay tuition and fees, and a student withdraws, any refundable tuition amount is returned to the appropriate financial aid sources (refer to the tuition/fee refund schedule in the OSU Schedule of Classes).

A student is considered unofficially withdrawn if they fail to receive any passing grades in a given term. In the case of an unofficial withdrawal, the Office of Financial Aid is required to review participation reported by OSU and partner school instructors. This participation information is used to establish a last date of participation that may be utilized in the federal Return of Title IV funds calculation.

## Return of Title IV Funds Calculation and Withdrawal Record

OSU is required to calculate the Return of Title IV financial aid funds for students that officially or unofficially withdraw during the academic term. Students who do not intend to complete the term for which they are enrolled, should follow the official withdrawal process as outlined by university regulations.

The Return of Title IV Funds calculation determines the amount of federal funds that must be returned by the institution as well as how much aid the student must return for the period of non-enrollment. For students who
completed less than $60 \%$ of the term, a pro-rated schedule is used to determine the amount of aid that must to be returned. That means the percentage of aid that a student is eligible to retain for the term is based on the percentage of the term that they completed. If a return of aid amount is calculated, the funds must be repaid to the financial aid programs in the following order:

Federal Direct Unsubsidized Ford Loan
Federal Direct Ford Loans
Federal Perkins Loan
Federal Direct PLUS Loan
Federal Pell Grant

## FSEOG

The amount of federal aid that you must repay is determined via the Federal Formula for Return of Title IV funds (Section 484B of the Higher Education Act). This law also specifies the order in which funds are to be returned to the financial aid programs from which they were awarded, starting with loan programs.

You may be required to make a repayment when cash has been disbursed from financial aid funds, in excess of the amount of aid that you earned (based on the date of your total withdrawal or last date of participation) during the term. The amount of Title IV aid earned is determined by multiplying the total Title IV aid (other than FWS) for which you qualified by the percentage of time during the term that you were enrolled.

If less aid was disbursed than was earned, you may submit a request to receive a late disbursement for the difference.

If more aid was disbursed than was earned, the amount of Title IV aid that you must return (i.e., not earned) is determined by subtracting the earned amount from the amount actually disbursed.

The responsibility for returning unearned Title IV aid is shared between the university and you. It is allocated according to the portion of disbursed aid that could have been used to cover university charges, and the portion that could have been disbursed directly to you once those charges were covered. OSU will distribute the unearned aid back to the Title IV programs, as specified by law. You will be notified if you owe a repayment due to an official/unofficial withdrawal within 45 days of the date the determination of the withdrawal is made.
You will be billed for the amount that you owe to the Title IV programs, as well as any amount due to the university, as a result of Title IV funds that were returned that would have been used to cover university charges.

Withdrawing (official or unofficially) from a term may also impact a student's eligibility for financial aid in future terms. Students should familiarize them-
selves with the Satisfactory Academic Progress requirements for federal aid and should contact the Office of Financial Aid and Scholarships regarding how federal and other types of aid may be impacted.

## Summer Term Withdrawals

Withdrawals during the summer term at OSU are evaluated differently than the other terms due to the modules that make up this term. During the summer term a student's completion percentage will be evaluated based on a calendar that encompasses all modules of enrollment.

During all terms a student's Pell Grant will be adjusted to exclude payments made for courses in which participation cannot be verified. During the summer, the Pell Grant is also adjusted throughout the term to exclude payments for courses from which the student withdrew.

## Withdrawals and the Degree Partnership Program

In cases of unofficial withdrawal an instructor reported last date of participation may be required to determine a student's aid eligibility. The OSU Office of Financial Aid and Scholarships is not able to contact partner school instructors directly to obtain this information. After a term has ended DPP students may be contacted with instructions on how to complete this participation verification process. Due to the time sensitive nature of this process, it is very important for DPP students to check their OSU Student (ONID) email regularly to look for these financial aid notifications. Failure to verify participation may result in the reduction or full loss of financial aid eligibility for the term.

## STUDENT RESPONSIBILITIES

## Reporting Changes

Your financial aid is based on the information submitted to our office for the current academic year in which you requested aid. To keep your file current and accurate, you are required to report the changes to the OSU Office of Financial Aid and Scholarships. You should expect a revision of your award in most cases. Reasons for changes can include but are not limited to:

- Additional financial assistance: scholarships, grants, loans, fee waivers, Tribal Assistance, tuition/ book support, social security benefits or any other monetary award not reported previously.
- Receipt of graduate teaching or research assistantship, and/or fellowship.
- Receipt of resident advisor position.
- Changes in enrollment hours and/or withdrawal from the university.
- Changes in residency status for
tuition purposes.
- Change in course load if below full time.

## Entrance and Exit Interview

All Federal Direct Ford loan recipients are required to complete an entrance interview prior to receiving the first disbursement of their loan proceeds. They are also required to complete an exit interview during their last term of attendance. (For further information, visit www. studentloans.gov).

## Appeals

Students who are not satisfied with a decision of a financial aid staff member may appeal that decision, in writing, and then in person to the following staff in the order indicated: the director of Financial Aid and Scholarships, and then the Financial Aid Appeals Subcommittee. The decision of the director and/or Financial Aid Appeals Subcommittee will be considered final.

## STUDENT ENROLLMENT LEVELS

Federal financial aid eligibility and deferment of student loans are affected by enrollment levels. Summer enrollment levels are the same as other terms.

## Undergraduate

Full Time: 12 or more credits in a term Three Quarter Time: 9 to 11 credits in a term
Half Time: 6 to 8 credits in a term Graduate
Full Time: 9 or more credits in a term Half Time: 5 to 8 credits in a term

## SCHOLARSHIP MANAGEMENT SYSTEM (SMS)

In an effort to maximize student access to OSU scholarship opportunities, we have a searchable database that consolidates all available departmental scholarships into a centralized location. Each department administers and awards their own scholarships based on established criteria. The Scholarship Management System consists of a searchable database and an application for scholarships available to continuing OSU students. In the database, click on the name of the scholarship for specific criteria and which department oversees that award. Visit a department's website for more details on their specific scholarship awarding process. For further information about the Scholarship Management System, please email the Scholarship Office at scholarship.office@oregonstate.edu.

- SMS Searchable Database: https:// scholarship.ucsadm.oregonstate.edu/ prod/search_schol.php
- SMS Scholarship Application: https:// scholarship.ucsadm.oregonstate.edu/ prod/app_login.php

## ASOSU OFFICE OF ADVOCACY

## Daniel Dietz, Advocate

Student Experience Center 325
Corvallis, OR 97331
541-737-9200
Websites: http://asosu.oregonstate.edu/ advocacy
**The Office of Advocacy does not handle immigration, taxes, copyright, patent, small business or real estate issues.**

The following are some of the areas with which the Office of Advocacy assists:

- Academic Dishonesty
- Financial Aid
- Privacy
- Student Conduct
- Tuition, Fees, Business
- On-Campus Disputes with OSU

Security Officers/Oregon State Police

- Faculty Misconduct
- Grade Appeals
- Parking
- Residency Appeals
- Student Health Insurance
- University Housing \& Dining

Services/The Gem

- INTO OSU

If you are unsure whether your issue falls within the scope of the Office of Advocacy, please contact one of our student interns at 541-737-9200 for clarification.

## About Us

The Office of Advocacy has worked with thousands of students in a wide array of conflicts. Since 2000, the Office of Advocacy has served to empower and support students within the university. In addition to helping with conflicts, researching and providing general assistance to students, we work to support and further the best interest of students throughout the university. We encourage all students to contact our office with any questions or disputes that involve the university.

## ASSOCIATED STUDENTS OF ORECON STATE UNIVERSITY

## ASOSU

110 Student Experience Center
541-737-2101
541-737-5560 FAX
asosu@oregonstate.edu
Website: http://asosu.oregonstate.edu
The Associated Students of Oregon State University (ASOSU) is an alliance encompassing all students at OSU. The elected and appointed officers comprise the officially recognized student government at OSU. The ASOSU represents students at the campus, community, state, and federal levels on issues that directly influence the quality of, and access to, postsecondary education. ASOSU provides
numerous opportunities for leadership development and professional experience in areas as diverse as political organizing and other forms of social activism.

The structure of ASOSU is similar to other forms of national government. Governance is shared among three branches-the legislative, judicial, and executive. The legislative portion is divided into two bodies, the ASOSU House of Representatives and the ASOSU Senate. House Representatives and Senators are elected by popular vote during the student officer elections in spring term of each academic year. The judiciary function in ASOSU is carried out by the Judicial Council. The Judicial Council, comprised of seven students at large, oversees any controversies or cases that involve interpretation of the ASOSU Constitution.

The Executive branch is led by the president and vice president whom are elected as a ticket by popular vote of the entire student body. Upon election, this executive duo appoints executive officers, service directors, 10 taskforce directors, as well as various support staff. Each executive appointee is subject to approval by the ASOSU Congress. Those seeking employment with ASOSU are welcome and encouraged to apply for positions during the spring hiring process, which usually takes place early in May.

ASOSU is constantly seeking interms and volunteers and future leaders who are ambitious about making a difference in the lives of OSU students.

There are a number of ways to get involved in a broad range of interests and topics. One of the easiest ways to get involved in ASOSU is to simply volunteer. Volunteers work at their own pace and chose their level of involvement.

Through the ASOSU Organizing for Social Change Internship Program, students spend between 2 to 6 hours per week working with any of the various members of the executive branch, as well as attend a class one night a week to learn fundamental leadership and organizing skills. The Internship is a great way to create your own path into campus governance at OSU.

Students can also serve as representative on one of the various campus committees at OSU that govern issues ranging from public safety to budgets and fiscal planning. Students who serve on a university committee are eligible to receive academic credit.

If you are interested in getting involved in one of the nation's premiere student governments, or have any questions or concerns regarding any other matter, please feel free to contact ASOSU any time.

## CAREER DEVELOPMENT CANTER

Brandi Fuhrman, Executive Director<br>Jennifer Elston, Assistant to Executive Director

Breanne Hiivala, Assistant Director/ Career Consultant,College of Liberal Arts and Education

Carolyn Killefer, Assistant Director/ Career Consultant, Colleges of Forestry, Agriculture Science \& Earth, Ocean and Atmospheric Sciences

Communications Coordinator
Office Contact Information
B008 Kerr Administration Bldg.
Corvallis, OR 97331-2127
541-737-4085
Website: http://career.oregonstate.edu
The Career Development Center (CDC) provides career planning and employment services and resources for undergraduate students, graduate students, alumni and post docs. The Fall, Winter, and Spring Career Expos bring over 500 organizations each year to campus and virtually to meet with thousands of OSU students and alumni. More than 100 employers interview OSU undergraduate students, graduate students, and alumni each year in the Career Development Center Interviewing Suite.

Career Consultants are available to discuss career exploration, resume and cover letter development, job seeking strategies, mock interviews, and all other career-related topics. Beaver Careers is a comprehensive online resource that includes job and internship listings, mock interviewing tools, and online access to schedule career consultations. Customized workshops are frequently presented in academic classes or for other campus groups, with topics including cover letters and résumés, interviewing techniques, job search strategies, and making connections for career success.

Resources on the job market and company information, listings of oncampus employer recruitment schedules and career fairs, job listings, and links to
employer home pages, as well as other information about the Career Development Center and how to be successful in today's competitive job market are available on the Web at http://career. oregonstate.edu/. Call 541-737-4085 for more information or to schedule your appointment today.

## CENTER FOR CMVIC

ENCACEMENT
Emily Bowling, Assistant Director for Civic Engagement \& Sustainability
Oregon State University
Student Experience Center, Suite 206
Corvallis, Oregon 97331-2212
541-737-3041
cce@oregonstate.edu
Website: http://sli.oregonstate.edu/cce
Facebook: https://www.facebook.com/ OSUCCE
Twitter: https://twitter.com/OSU_CCE Instagram: https://www.instagram.com/ osu_cce/

## Imagine a better world.

## Make it happen.

Get to know OSU's Center for Civic Engagement (CCE)! The CCE strives to engage students in community service, philanthropy and giving, and activism and advocacy. Join us to further discover where your passions meet our community's needs.

In partnership with community-based organizations, the Center for Civic Engagement (CCE) facilitates meaningful service, community engagement, and educational programs. The CCE strives to:

- Engage students in service, philanthropy, and activism-based work,
- Meet diverse community-identified needs,
- Inspire positive change in local and global communities,
- Enhance students' knowledge of self and sense of place, and
- Foster social responsibility.

## Events and Programs:

- Annual Service Days (Fall into Service, Make a Difference Day, Dr. Martin Luther King Jr. Day of Service, Earth Day Service Day, Day of Caring)
- DOT: Do One Thing to better the world
- Alternative Break Service Trips
- Nonprofit Opportunities Fair
- National Hunger and Homelessness Action Week
- Craft 'N Care

## Services:

- Individual and group service consultations to assist students in finding service opportunities and areas of passion
- Custom workshops and trainings
related to community service, civic leadership, service-learning, reflection strategies, and social change
- Civic engagement tracking and recording
- Networking between the OSU campus and surrounding nonprofit and public service community

## Why get involved?

Here are a few potential benefits of civic engagement and community service:

- Enhance your sense of self and place
- Impact change in your areas of passion and interest
- Build relationships with people motivated to create change
- Explore your values, interests, and passions
- Develop your leadership and career readiness skills
- Deepen your understanding of social issues
- Survey various career paths and options to aid with career decisionmaking
- Feel happier, people who volunteer are happier on average!
- You make a difference! Your community needs YOU!

## COUNSELING AND <br> PSYCHOLOCICAL SERVICES (CAPS)

Ian Kellems, Director
Snell Hall, 5th floor
541-737-2131
Website: http://counseling.oregonstate.edu/
Counseling and Psychological Services (CAPS) is staffed by licensed mental health professionals who are especially trained to work with university students. We provide a variety of short-term confidential counseling, wellness, and educational services to help students address the challenges they face and to help them thrive during their time at OSU.

- CAPS provides clinical services which include individual, couples and group counseling that assist students in understanding themselves better, creating and maintaining satisfying relationships, managing anxiety and stress, improving mood, enhancing academic performance, and addressing mental health problems that interfere with their ability to succeed.
- CAPS seeks to promote mental wellbeing within four areas of emphasis which include Suicide Prevention, Sexual Assault Support Services, which has a separate confidential phone line (541-737-7604), SUCCEED which includes our Mind Spa services, and the Mental Health Initiative.

We are dedicated to helping students within our agency, or-if more intensive or specialized care is needed-making referrals to health care providers in the community. Our counseling services are confidential. This means that anything said to a counselor, the fact that a student used the service, or any test results, are not disclosed to other people or agencies, within the limits of professional ethical and legal standards.

All regularly enrolled Oregon State University students who have paid the Student Health and Counseling Fee are eligible for services. Ecampus students are eligible for services if they pay the entire student fee package for the quarter(s) they receive services.

CAPS staff members are strongly committed to affirming diversity in a broad sense, to treating all with dignity and respect, and to opposing discrimination, prejudice, and oppression.

## DIVERSITY AND CULTURAL <br> ENGACEMIENT

228 Student Experience Center
2251 SW Jefferson Way
Corvallis, OR 97331
Phone: 541-737-9030
Fax: 541-737-7874
Email: dce@oregonstate.edu
Website: http://dce.oregonstate.edu/

## About:

Diversity \& Cultural Engagement creates and advocates for inclusive and educationally purposeful initiatives that enhance deep learning, academic success, cross-cultural fluency and self-efficacy by fostering a climate that supports social equality, community engagement, and global membership. We bridge differences and build community through many programs that involve Transformative Learning, Positive Social Change, Identity Development, Student Engagement, and Academic Success. All of our programs and events are open to all students regardless of race, gender, nationality, religion, ability and class.

## Diversity \& Cultural Engagement

Allison Davis-White Eyes, Director
allison.davis-whiteeyes@oregonstate.edu
Maleah Harris, Administrative
Program Specialist
maleah.harris@oregonstate.edu
DCE serves as the umbrella for all student diversity efforts, including the Cultural Resource Centers (CRCs). The unit as a whole is comprised of professional staff, student workers, and graduate teaching assistants.

DCE provides hands-on guidance and customer service to students, faculty, staff, and community members for all endeavors related to DCE, including
scheduling of CRC facilities and general information on the various opportunities within the unit.

Salvador Miramontes Jr., Marketing and Communications Coordinator salvador.miramontesjr@oregonstate.edu
Serves as the hub for communicating everything housed under DCE through multi-level marketing and all forms of communication. Also represents the unit in all Division of Student Affairs aspects related to diversity communication efforts.

## Research \& Communication

TBA, Associate Director
Contributes to the development of a culture of inquiry among students, faculty, and staff affiliated with DCE. Primarily related to the creation of Participatory Action Research (PAR) initiatives aimed to investigate and transform systems of injustice affecting historically marginalized communities on campus.
Global Diversity Initiatives (GDI)
Amarah Khan, Associate Director amarah.khan@oregonstate.edu Serves as a bridge between various academic and administrative units supporting international students. And looks for ways to cultivate a culturally competent, globally knowledgeable, inclusive and socially responsible student body.

## Cultural Resource Centers

Jason Dorsette, Associate Director jason.dorsette@oregonstate.edu
Responsible for the greater alignment in curriculum development, orientation programming, community building and academic engagement and success strategies of the Cultural Resource Centers.

## Asian \& Pacific Cultural Center

 (APCC)Reagan Le, Assistant Director
reagan.le@oregonstate.edu
2695 SW Jefferson Way
Corvallis, OR 97331
541-737-6361
apcc@oregonstate.edu
Provides a welcoming and engaging space for the retention and success of all students through academic, cultural, and social programming that address the personal needs, academic excellence, and professional development of Asian and Pacific Islanders.

## Centro Cultural César Chávez (CCCC)

Melisa Lopez, Assistant Director
melisa.lopez@oregonstate.edu
691 SW 26th Street
Corvallis, OR 97331
541-737-3790
cccc@oregonstate.edu
Strives to inform both the respective cultural groups and the greater university communities about issues central to the

Chicano/Latino/Hispanic culture and heritage. It's where all students are able to accept and appreciate their differences while encouraging a sense of purpose and unity.

## Ettihad Cultural Center (ECC)

Amarah Khan, Associate Director, GDI amarah.khan@oregonstate.edu
380 Student Experience Center 2251 SW Jefferson Way
Corvallis, OR 97331
EttihadCC@oregonstate.edu
A cross-cultural resource that provides a space for cross-cultural dialogue, learning, understanding, and community building both within the Ettihad region ( North Africa, Southwest Asia and the Middle East) and the campus at large. This center is open to all who are interested in learning more about those cultures and regions.

## Lonnie B. Harris Black Cultural

 Center (BCC)Terrance Harris, Assistant Director terrance.harris@oregonstate.edu
100 SW Memorial Place
Corvallis, OR 97331
541-737-4372
bcc@oregonstate.edu
Compliments the academic program of studies and enriches the quality of campus life for all students interested in or who identify as African and AfricanAmerican students. It also serves as a safe place that promotes activities that educate all on the histories and issues affecting all peoples of African heritage.

## Native American Longhouse Eena Haws (NAL)

Luhui Whitebear-Cupp, Assistant Director
luhui.whitebear-cupp@oregonstate.edu 311 SW 26th Street
Corvallis, OR 97331
541-737-2738
nal@oregonstate.edu
Builds a bridge of understanding between the regions' tribes and visitors of all cultures; a hospitable environment and a source of support honoring the cultures of the first people of this land. It's also used as a teaching area for traditional singing, dancing, storytelling and ceremony.

## Pride Center (PC)

Cindy Konrad, Assistant Director
konrad@oregonstate.edu
1553 SW A Avenue
Corvallis, OR 97331
541-737-9161
pride.center@oregonstate.edu
Provides programs/support services for lesbian, gay, bisexual, transgender, queer, questioning, intersex and asexual (LGBTQQIAA) members and their allies. It's a safe space for all everyone to explore
aspects of sexual orientation and gender identity in an open and non-judgmental atmosphere.

## SOL: LGBT Multicultural Support Network (SOL)

Marisa Moser, Graduate Teaching Assistant
marisa.moser@oregonstate.edu
(Shared space with the Pride Center)
SOL@oregonstate.edu
Supports and improves the campus climate for lesbian, gay, bisexual, transgender, queer, questioning, intersex, and allied (LGBTQQIA) persons of color through counseling, educational programming, advocacy, and ally building among the Oregon State community.

## Women's Center (WC)

Whitney Archer, Senior Assistant Director
whitney.archer@oregonstate.edu Benton Annex - 1700 SW Pioneer Place Corvallis, OR 97331
541-737-3186
womenscenter@oregonstate.edu
Serves as a campus focal point for projects directed at addressing women's issues on campus, in the community-at-large, and globally. As an open community of leaders inspiring change, the center provides advocacy and resources/ opportunities to transform ideas into positive action and reality.

## Academic Success and Engagement

TBD, Associate Director
Implements initiatives from the Vice Provost of Student Affairs addressing pro-active strategies to help retain underrepresented and under-served students. Closely facilitates academic programs committed to equalizing academic success through cohort programs, bridge programs and various retreats.

## Integrated Learning for Social Change

Charlene Martinez, Associate Director charlene.martinez@oregonstate.edu

Programs and resources incorporate interdisciplinary methods for social change education, to transform ourselves and our communities. Civic professionalism, art, empathy, leadership development, and partnerships are core components of each of the programs: Arts and Social Justice, Living Learning Community, PROMISE internship program, and Multiracial Beavers.

## Social Change Leadership Programs <br> (SCLP)

Kali Furman, Interim Coordinator
kali.furman@oregonstate.edu
204 Student Experience Center
2251 SW Jefferson Way
Corvallis, OR 97331
sclp@oregonstate.edu
Works with multiple partners on and off
campus to act as a hub for social justice-and-social change-related education, training and outreach. Programs aim to prepare students to deal with complex social problems by providing transformative learning opportunities in a variety of ways.
Men's Development \& Engagement (MDE)
Allen Dean, Graduate Teaching
Assistant
allen.dean@oregonstate.edu
Focuses on encouraging Oregon State's men to engage in a process of positive gender identity development with the hope of creating a safer and empowering environment for all. Founded in 2011, this program is assisted by interested students, faculty, and staff while continually growing and serving the entire campus community.
Women of Color Coalition (WOCC)
Megan Spencer, Graduate Teaching Assistant
megan.spencer@oregonstate.edu
Formed by the efforts of concerned students following racial and gender bias incidents in March 2014; this collaboration between all students, staff, and faculty work to facilitate a safe space, dialogue, allyship and support in addressing intersections of race/gender/nationality as embedded cultural narratives and of structural violence.

## EDUCATIONAL

OPPORTUNHIES PROCRAM

## Janet Nishihara, Director

## 337 Waldo Hall

541-737-3628
Website: http://eop.oregonstate.edu/
The Educational Opportunities Program (EOP) was created at Oregon State University in 1969 and provides a welcoming environment that supports the full development of the personal and academic potential of undergraduate students who have traditionally been denied equal access to higher education.

These undergraduate groups include students of color, older-than-average students, students with disabilities, students who are single parents, low-income students, students who have been rurally isolated, veterans, and students who are the first generation in their family to attend college.

The goals of the program include providing services which will:

- acclimate students to university culture,
- enhance each student's academic performance,
- develop each student's professional and personal growth, and
- assist students in developing a sense
of belonging and a strong connection to the university.
Students in the program will have access to the following services:
- assistance through the admissions process,
- assistance in locating financial resources,
- orientation to the university,
- academic and personal counseling,
- courses in math, reading and writing, and
- assistance with finding jobs and internships,
- assistance with international study experience and undergraduate research, and
- support in writing resumes and cover letters.
U.S. citizens or permanent residents interested in learning more about the program or in applying for services should visit the EOP website, http://eop. oregonstate.edu/.

## MEMORIAL UNION

PROCRAMS AND SERVICES
Memorial Union and Memorial Union East
Robin Jones, Director of Food Service and Marketing

## Sid Cooper, Director

Deb Mott, Director of Operations
112 Memorial Union

## 541-737-6256

Website: http://mu.oregonstate.edu/ muhome
The Memorial Union, located in the heart of campus, is the community center of the university. It provides services, facilities, and programs to meet the varied social, recreational, and cultural needs of OSU students, faculty, staff, alumni, and campus guests.

The building provides five restaurants, a coffee shop, and banquet facilities, a bookstore, recreation area including billiards and bowling; music practice rooms, ballroom, post office, art gallery; lounges, the Joyce Powell Leadership Center and meeting rooms of all types.

The president of the Memorial Union is a student; other students share actively in its management and in organizing social, recreational, and cultural programs, including the Memorial Union Program Council, a student-led programming board.

The Memorial Union houses the office of the Department of Student Leadership and Involvement, which supports OSU students in organizational and leadership development. Under the Department of Student Leadership and Involvement are Student Activities, Club and Organization Development, Greek Life, and Leadership Education and Development
(LEAD).
The Memorial Union East (MU East, Snell Hall) houses the student governing body, the Associated Students of OSU, and staff who provide support to the Department of Student Leadership and Involvement, as well as financial advising for student groups. MU East also provides a communication center for student broadcast and publications media, meeting rooms, and a craft center.

The Memorial Union buildings stand as constant reminders of this nation's struggle for peace and as living memorials to Oregon Staters who have given their lives in the service of their country.

## MEMORIAL UNION PROGRAM COUNCIL (MUPC)

Linda Howard, Program Advisor
Student Experience Center, Room 264 541-737-1369
Linda.howard@oregonstate.edu
MUPC Office
Student Experience Center, Room 250 541-737-6872
Website: http://sli.oregonstate.edu/osupc
The Memorial Union Program Council (MUPC) is a student-led, student-driven organization that plans and produces high-quality events. MUPC is committed to serving the OSU community by upholding traditions and creating inclusive, accessible, and entertaining programming. Programs and events are intended to create community, make memories, and enhance the college experience.

This is achieved through many traditional events such as Moms \& Family Weekend, Dads \& Family Weekend, Comedy Shows, Fashion Shows, Children's Holiday Party, Battle of the Bands, Dam Jam Concert and more. MUPC also programs a variety of new events, such as Javacoutics Series, Western Windup, OSU Has Talent, Grocery Bingo, Battle of the DJ's, Art Festival, and more.

MUPC offers many opportunities for students to get involved outside of the classroom by helping us plan and implement events. By joining one of our event planning committees, students can hone their leadership skills, network, and build their portfolios. Students can also gain a variety of transferable skills by getting involved with MUPC that will further their growth for any profession. Please contact us about volunteering on the following committees: Music and Concerts, Entertainment and Recreation, Fashion, Community Relations and Traditions, Moms and Dads Weekends, Marketing and Social Media.

## ART AND MUSIC

Yuji Hiratsuka, School of Arts and Communication
541-737-5006
yhiratsuka@oregonstate.edu

## Marlan Carlson, School of Arts and Communication <br> 541-737-5591 <br> mcarlson@oregonstate.edu

Art exhibits, lectures, concerts, and recitals sponsored by the School of Arts and Communication, Memorial Union Program Council, and student musical and art organizations play a central part in the cultural life of the community. Under the patronage of the Memorial Union, exhibitions in the Memorial Union stimulate interest in architecture, painting, sculpture, and related arts. They offer students knowledge of their cultural heritage and an awareness of contemporary art movements.
The School of Arts and Communication features the Fairbanks Gallery of Art http://oregonstate.edu/fairbanksgallery/About.html, which features exhibitions focusing on contemporary Northwest, national, and international artists. This program provides the campus and student communities diverse creative experiences and interactions. The Visiting Artists and Scholars Lectures Series also brings internationally acclaimed artists to the school for free public lectures.
Student and faculty art exhibits are shown in various galleries throughout the year (see "Museums, Galleries, Collections.")

Noncredit classes in ceramics, photography, woodworking, weaving, and glass are offered through the Memorial Union Craft Center.

The School of Arts and Communication offers more than two dozen performance ensembles, giving student musicians of all majors the opportunity to participate at their level of ability. Students enroll in these organizations as a class and earn regular credit. Some ensembles require an audition. All require a consultation with the instructor. The Corvallis-OSU Symphony Orchestra, Wind Ensemble, Campus Band, Chamber Choir, Bella Voce women's chorus, Meistersingers men's chorus, OSU Opera Workshops, jazz band, and the athletic bands present numerous performances on or near campus, in which free or reduced-price tickets are available to students. Faculty members and advanced music majors also perform free, public recitals throughout the school year. The OSU Steinway Piano Series, Chamber Music Corvallis and the Corvallis-OSU Symphony Orchestra bring artists of international fame to campus for public concerts. The Music à la Carte Concert series, held most Thursdays at noon in the Memorial Union Lounge, gives students and faculty the opportunity to see fine amateur and professional chamber, jazz, and ethnic musicians and performance ensembles for free over the lunch hour. Several dance recitals are also
given each year under the auspices of the College Health and Human Sciences and other organizations.

## ATHLETICS

Kyle Pifer, Senior Associate Athletic Director - Compliance
kyle.pifer@oregonstate.edu
132 Gill Coliseum
541-737-7369
Website: http://www.osubeavers.com/
Oregon State University conducts athletic programs for men and women under the auspices of the NCAA. Men's programs compete as part of the Pacific-12 Conference in baseball, basketball, crew, football, golf, soccer, and wrestling. Women's programs also compete in the Pacific-12 Conference in basketball, cross country, crew, golf, gymnastics, soccer, softball, swimming, indoor/outdoor track, and volleyball.

## FORENSICS

Mark J. Porrovecchio, Director 541-737-8230
Shepard Hall 205
Website: http://stuorgs.oregonstate.edu/ forensics/
OSU's nationally recognized forensics program-a member of the Performing Arts Board in the School of Arts and Communication-invites all undergraduates to participate in speech and debate activities. Continuing a tradition at Oregon State that started in 1890s, the forensics team involves members from all majors and schools on campus. Each year, students compete in state, regional, national, and international intercollegiate tournaments. Events include public debate (following the limited preparation model of the Lincoln-Douglas format) and individual public speaking formats such as informative, persuasive, and after dinner, as well as a range of oral interpretation categories involving prose, poetry, and drama. The team travels to tournaments in both the fall and winter terms.

## LECTURES

Frequent public lectures by faculty members, visiting scholars, and persons prominent in national affairs supplement the regular curriculum. Campus sponsors of lectures include the Y-Round Table, Associated Students, Memorial Union Program Council, Sigma Xi, and others.

## ORANGE MEDIA NETWORK

Candace Baltz, Director
Student Experience Center, 4th Floor 2251 SW Jefferson Way
Corvallis, OR 97331
541-737-4615
Email: candace.baltz@oregonstate.edu
Website: http://sli.oregonstate.edu/omn and http://www.orangemedianetwork. com/

## The Daily Barometer

The 120 -year-old campus newspaper of Oregon State University covers local news and events and brings awareness to important student and community issues. Student editors determine news and editorial content and direct the staff in reporting, writing, and editing assignments. 12,000 copies of The Barometer are printed each Monday, and available on racks the same day. The Barometer is also delivered through The Gazette Times each Tuesday. Newsroom: 541-737-2231. Advertising: 541-737-6373. Website: http://www.orangemedianetwork.com/ daily_barometer/.

## Beaver's Digest

This quarterly student life magazine launched in 2014 and focuses on student life, food, style, and fun at OSU. The magazine is produced by students and prints three issues per year. 541-737-3501 Website: http://www.orangemedianetwork.com/beavers_digest/.

## KBVR-FM Radio

KBVR-FM broadcasts locally on 88.7 FM, which can be heard anywhere within a 30 -mile radius of the OSU campus, and a live stream at OrangeMediaNetwork. com lets people tune in from around the world. More than 140 student DJs select what music they want to play and topics they want to talk about, ranging from music, sports, art, science and public affairs programming. 541-737-6323. Website: http://www.orangemedianetwork. com/kbvr_fm/.

## KBVR TV

Orange Media Network students have access to a fully equipped television studio, editing facility and remote gear for practical training and use in television production. KBVR-TV can be seen on Comcast cable channel 26 in Corvallis, Albany and Philomath, and live stream is available in HD at OrangeMediaNetwork.com. KBVR-TV is one of the only college TV stations with 24/7 studentmade shows and programing. TV shows include live music and event coverage, game shows and talk shows, the Emmynominated "State of the Arts" and daily NewsBlasts. 541-737-6326. Website: http://www.orangemedianetwork.com/ kbvr_tv/.

## Prism

The quarterly literary arts journal features content created and submitted by student artists, including poems, paintings, sculptures, essays, and photography. Prism also hosts an artist showcase each year. 541-737-2253. Website: http://www. orangemedianetwork.com/prism/.

## DAMchic

This quarterly fashion magazine is the authority on all matters of style at Oregon State University. The latest edition is at OrangeMediaNetwork.com. 541-737-
7906. Website: http://www.orangemedianetwork.com/damchic/.

## OSU CRAFT CENTER

## Susan Bourque, Manager

Student Experience Center Basement 541-737-2937 Front Desk Information craftcenter@oregonstate.edu susan.bourque@oregonstate.edu 541-737-6371
Website: http://sli.oregonstate.edu/craft
Engage your creativity at the OSU Craft Center...a dynamic, user-supported arts and crafts studio. With its hands-on, friendly and casual environment, it's a great place to take a creative time out from the whirlwind of life. Open seven days per week, the craft center offers studio workspaces, late night programming and a wide variety of classes and workshops for the beginning to experienced artist/craftsperson.

Facilities include fully equipped studios in ceramics; digital photography; fine woodworking; stained glass, fused glass and glass torchwork; fibers and sewing, silkscreen and weaving; jewelry/ metalwork; plus other mixed media crafts and lots of room to work. Power and hand tools are available for use in all the craft areas. The center also operates a promotional button-making business.

Each term, over 35 non-credit classes and workshops are offered. Taught by skilled local artisans, classes focus on non-competitive learning; their small size enables students to receive individual attention. Open studio memberships are also available for those with prior experience who are interested in using the center's studio areas tools and equipment for projects and exploration. Catalogs with current class offerings are located each term around campus, at the Craft Center, or by calling 541-737-2937. The OSU Craft Center's hours of operation follow the OSU academic calendar.

## UNIVERSITY THEATRE

Elizabeth Helman, Coordinator
Withycombe Hall 141
541-737-3067
elizabeth.helman@oregonstate.edu Website: http://liberalarts.oregonstate. edu/school-arts-and-communication/ theatre
University Theatre, continuing a tradition of more than 100 years of public performances in Corvallis, offers all students involvement in the theatre creative process. Each season, three main stage and numerous studio and classroom productions give student actors, designers and technicians ample opportunity to develop as theatre artists and craftspeople.

For several years, the University Theatre, with the support of the Memorial Union and Summer Session, has
produced "Bard in the Quad," summer outdoor performances of Shakespeare on the MU Quad. Auditions and crew assignments for the University Theatre are open to all students, no matter what their major. Students can also earn academic credit for participation on stage and behind the scenes.

## Principles

The Office of Equal Opportunity and Access is committed to success for the entire campus community through equality, fairness, and understanding. Our work is guided by three principles:

- Equity-Ensuring equality of opportunity in all that we do. We strive to ensure equality in terms of the opportunity to become a member of the Oregon State University learning and working community; in one's opportunity to participate in and contribute to the work; in one's opportunity to participate in and benefit from the programs, services, and activities; and in terms of the communities of the state that are served by the university.
- Inclusion-Welcoming, valuing, and seeking to understand the experiences of everyone with whom we interface. We create and sustain this environment through interpersonal interactions that explicitly support and affirm the inherent dignity and uniqueness of individuals and communities, and through institutional efforts that address systemic barriers to inclusion.
- Diversity-Recognizing that a diversity of people, perspectives, experiences, and thought is essential to a compelling research, scholarship, and learning environment. We aim to develop policies and practices that promote and enhance diversity in all university endeavors, striving to benefit maximally from our different ideas, perspectives, and ways of being, knowing, and doing.

## Expertise and Leadership

In service to both Oregon State University and the broader community, the Office of Equal Opportunity and Access provides expertise and leadership in the following areas:

- Engaging in community development, including creating, leading, and supporting opportunities for involvement with an array of equity and inclusion efforts.
- Partnering with a range of individuals and groups to develop and deliver programs, initiatives, and resources related to campus-wide diversity and social justices issues.
- Working to eliminate barriers to achievement for individuals and groups historically underrepresented in higher education.
- Managing the university's affirmative action and equal opportunity efforts.
- Responding to discrimination complaints through investigation and resolution.
- Providing advice and assistance to individuals who believe they have experienced bias or discrimination.
- Promoting understanding about affirmative action, equal opportunity, diversity, and inclusion.
- Coordinating access and accommodation in accordance with the Americans with Disabilities Act.
- Offering education and training on a variety of topics related to equity and inclusion.
- Assisting individuals and offices or units who would like guidance in areas such as search and selection, inclusive working and learning environments, and policy and best practices development.

## OFFIGE OF INSTHUTIONAL DIVERSITY

Melissa.Morgan@oregonstate.edu
Leslie Schacht Drey, Assistant Dean of Student Life
Leslie.SchachtDrey@oregonstate.edu 150 Snell Hall
Oregon State University

Corvallis, OR 97331-8659
541-737-8748
Website: http://studentlife.oregonstate. edu/
The Office of Student Life (OSL) CAREs for students by building COMMUNITY for students, facilitating ACCESS for students, navigating RESOURCES for students and supporting EMPOWERMENT for students. We assist students in the resolution of problems and concerns, provide information about and referral to campus resources, and promote initiatives that address students' needs and interests. We also serve as a resource for parents, families, faculty and staff in supporting student success from the First-Year Experience program through graduation.

## CHILDCARE AND FAMILY RESOURCES

## Amy Luhn, Director

amy.luhn@oregonstate.edu
Kristi King, Student Family Coordinator kristi.king@oregonstate.edu
Erika Woosley, Program Assistant
Erika.woosley@oregonstate.edu
Avery Lodge
541-737-4906
Website: http://childcare.oregonstate. edu/

## Office of Student Life

The Childcare and Family Resources office supports parents at OSU by advocating for student parent needs, as well as the needs of all parents and caregivers on campus and by providing direct services, child care and other family-centered resources in support of a parent's academic and professional success. We oversee Beaver Beginnings, the campus child care center; provide free short-term drop-off child care for students with children; provide lactation rooms across campus and lactation support information; administer student and faculty/staff child care subsidy programs; provide monthly parenting education and support opportunities; and host special events for families, in addition to other services and resources. The Childcare and Family Resources office is primarily student fee funded and is directed by an advisory board of students, faculty and staff. Our Little Village (OLV) is a short-term drop-off child care center with two locations on campus, open evenings and weekends. Drop-off child care enables student parents to take advantage of two important resources on campus: The Valley Library and Dixon Recreation Center. Any currently enrolled student may drop off their child aged 6 months to 10 years old. The free service is paid for by student fees. In The Valley Library, parents must remain in the building while their
child is in care. In Dixon Recreation Center, parents may leave the facility and work or study elsewhere on campus.

## CORVALLIS COMIMUNITY

## RELATIONS

## Jonathan Stoll, Director

jonathan.stoll@oregonstate.edu
B066 Kerr Administration Bldg.
541-737-8606
Website: http://studentlife.oregonstate. edu/ccr

## Office of Student Life

Corvallis Community Relations enhances neighborhood livability and inspires a shared responsibility for creating a healthy, inclusive OSU-Corvallis community. We connect students with community resources to foster good neighborly behavior and educational tools to educate tenants of their rights and responsibilities. Corvallis ranks among the nation's top college towns and best places to live. Through collaboration, communication, education, and celebration, CCR helps to keep it that way.

- Collaboration: Establish synergistic community-university partnerships with key stakeholders. Create valuable partnerships with community stakeholders to achieve shared or mutually agreed upon results.
- Education: Implement programming and outreach to inform off-campus students of city ordinances, tenant rights, conduct processes and the value of positive civil behavior.
- Communication: Build and restore internal and external communication channels to effectively disseminate information and liaise with offcampus living groups.
- Celebration: Highlight the substantial contributions of OSU and its students to the local community.

## Live Smart Workshops

While the independence of living on one's own may be liberating, managing new challenges and increased responsibilities can be challenging. Live Smart Workshops provide OSU students with the tools to transition to living off-campus and to live smarter-to be respectful, good neighbors. Workshop topics include local laws and ordinances, tips on hosting responsible parties, safety and security, financial literacy, and tenant rights and responsibilities. Students who attend the Live Smart Workshop and pass the corresponding online Preferred Renters Exam are eligible to receive a $\$ 50$ rental deposit discount with properties participating in the Preferred Renters program.

## DISABILITY ACCESS SERVICES

Martha Smith, Director
A200 Kerr Administration Bldg. 541-737-4098
martha.smith@oregonstate.edu 541-737-7354 FAX
Disability.services@oregonstate.edu Website: http://ds.oregonstate.edu/home/ Accessibility Website: http://oregonstate. edu/accessibility/

## Office of Student Life

The Disability Access Services office (DAS) offers an array of services to students with documented disabilities. Services include, but are not limited to, note taking, sign language interpreting, real-time transcribing, alternative testing, captioning media for accessibility, and conversion of text into Braille, digital (for audio access) text and tactile images. DAS can also assist with registration, disabil-ity-related housing needs, and access to OSU community events. DAS offers two scholarships for students with physical disabilities or sensory disabilities (hearing loss or visual impairment). DAS also assists the Office Equal Opportunity and Access in supporting faculty, staff and other members of the OSU community with access consultation and accommodation requests.

## FRATERNITIES AND SORORITIES (GREEK LIFE)

Leslie C. Schacht Drey, Director Student Experience Center, Room 314 541-737-5459
Leslie.SchachtDrey@oregonstate.edu Website: http://studentlife.oregonstate. edu/cfsl

## Office of Student Life

Oregon State University is host to 45 different fraternities and sororities representing three governing councils of the College Fraternity Movement. The Greek experience on the OSU campus places emphasis on academic achievement, community building, community service, service learning, and preparing the Greek students for leadership roles following graduation.

The Greek community participates in leadership roles as ASOSU officers, Barometer staff members, MUPC chairs, resident assistants, and varsity athletes.

Representing approximately 12 percent of the undergraduate student population, the Greek community at OSU has provided 100 continuous years of excellence in service and support to Oregon State University.

Students interested in exploring membership in a fraternity or sorority may contact the Center for Fraternity \& Sorority Life at Student Experience Center, Room 314, Corvallis, OR 97331; 541-737-5459, or visit our website for additional information, http://studentlife. oregonstate.edu/cfsl.

## HUMAN RESOURCES SERVICE CENTER (HSRC)

Nicole Hindes, HSRC Coordinator nicole.hindes@oregonstate.edu

## Avery Lodge

541-737-3747
Website: http://studentlife.oregonstate. edu/hsrc

## Office of Student Life

The Human Services Resource Center provides direct service, outreach, education, and referral services to OSU students facing hunger, housing problems, and poverty. Our aim is to ensure basic human needs are met so that students can pursue a quality education. We also work to create a dynamic learning environment in which students, faculty, and the community can learn how to best address current pressing challenges facing college students.
The HSRC provides the following

## services:

- Intermediary services between students and agencies that offer rental assistance, food stamps, food boxes, and health insurance.
- Food Pantry offering emergency food to students in need.
- Textbook Lending Program helping connect eligible students to free textbooks (as well as other affordable ways for everyone to obtain textbooks).
- Workshops, seminars, and opportunities for internships and employment.
- Connecting students to ServiceLearning and community service opportunities.
- Help with applications for food stamps.

## MILITARY AND VETERAN RESOURCES ADVISOR

## William Elfering, MVRA

541-737-7662
william.elfering@oregonstate.edu
Website: http://studentlife.oregonstate.

## edu/veterans

## Office of Student Life

The Military and Veteran Resources Advisor (MVRA) advocates for studentveterans to receive targeted support in navigating campus resources and pursuing academic goals and advises about internal and external support programs. The MVRA collaborates with School Certifying Officials to counsel students and parents concerning eligibility and benefits available under various programs at the local, state, regional, and federal level. The MVRA maintains an informative Military and Veteran Resources website and corresponds with prospective, currently enrolled, and alumni studentveterans to provide them with the latest news on benefits, processes, and procedures from the Veterans Administration.

## NEW STUDENT PROGRAMS \& FAMILY OUTREACH

## Leslee Mayers, Director

leslee.mayers@oregonstate.edu
TBD, First-Year Experience Coordinator
Natalie Rooney, Orientation
Coordinator
natalie.rooney@oregonstate.edu
TBD, Office Manager
A150 Kerr Administration
541-737-7627
Website: http://newstudents.oregonstate. edu/
Office of Student Life
New Student Programs \& Family Outreach supports the college transition process with educational programs and outreach for new OSU students and their families. New Student Programs \& Family Outreach coordinates new student orientations and Welcome Week programs, as well as parent/family outreach through orientations, events, websites and the OSU Parent \& Family Association.

## STUDENT CONDUCT AND COMMUNITY STANDARDS

Carol Millie, Director
Willie Morgan, Assistant Director
150 Snell Hall
541-737-3656
SCCS@oregonstate.edu
Website: http://studentlife.oregonstate. edu/studentconduct/

## Office of Student Life

Student Conduct and Community Standards serves as the central coordinating office for violations of University Student Conduct Regulations. The office acts on reports of possible violations from law enforcement, faculty and staff or others. The program provides conflict resolution support for students, faculty, and staff as well as staff training.

## RECREATIONAL SPORTS

Leah Hall Dorothy, Director
Recreational Sports
541-737-1713
leah.halldorothy@oregonstate.edu Website: http://recsports.oregonstate.edu
Social engagement, physical activity, and healthy living are the signature products of the Department of Recreational Sports. Over four thousand students access campus recreation facilities each day, as extensive programming provides varied activities and growth opportunities for OSU's diverse student interests. Student incidental fees ensure that all registered students have drop-in access to these important, life-balance resources.

## RECREATION FACILITIES

Dixon Recreation Center includes
multiple gyms and courts, a comprehensive fitness center, an indoor track, an indoor climbing center, a sand volleyball court, and Steven's Natatorium. Full-service locker rooms and equipment issue are also available.
The Dixon Climbing Center provides over 7,000 square feet of climbing surface for climbers of all abilities. This 42-foot-tall facility has three types of wall surface and is equipped with several cracks for lead climbing. It also contains the world's only elevator-accessible rappel station. The McAlexander Climbing Center provides over 4,000 square feet of high performance climbing wall surface including a 60 -foot-long bouldering wall. This wall is equipped with several instructional components such as a rappelling ledge, and a cliff-top training platform.
McAlexander Fieldhouse includes indoor turf, multi-sport courts, and an indoor climbing center.
The Stevens Natatorium includes an 8-lane, 25 -yard lap pool, a deep-water pool, and a spa with an adjoining observation deck. Full-service locker rooms, equipment issue area, and a private changing room are also available. When the weather is nice there is also an outside sun deck.

Student Legacy Park includes turf fields, indoor and outdoor tennis courts, a track, basketball court, and outdoor pavilion.

Peavy Sports Fields (grass) are commonly used for intramural play.

Recreational Sports also rents facilities for large and small groups-camps, conference activities, events, etc. Learn more about available spaces, fees, and schedules at http://recsports.oregonstate. edu/rentals.

## RECREATION SERVICES AND PROGRAMS

## The Adventure Leadership Insti-

 tute includes a variety of facilities, classes, programs, and services that support educational and leadership experiences outside the classroom. Special 'for-credit' classes are offered to provide the skills needed to lead trips or facilitate groups. Professional certificates can be obtained in these areas. Call 541-737-4341 to setup an appointment with an advisor. The Adventure Leadership Institute is also the home of the Adventure Club, offering a variety of outdoor pursuits for the OSU community to join in throughout the year.Experiential education is offered to students, faculty, and community groups on a six-acre challenge course of low and high elements designed to actively engage the mind and body. Participants develop a greater understanding of communication and problem solving skills, as well as the people they live
and work with through group challenge activities. Highly trained instructors are on hand to assist all groups.

Fitness programs offer drop-in group fitness classes in activities such as zumba, indoor cycling, yoga, kickboxing, step, boot camp and group strength and resistance. Personal training and small-group training are available by appointment. Fitness hosts special events, presentations and workshops year-round and upon request. Appointments are available for fitness testing, personal training, and athletic training.
Intramural sports emphasize participation and fun through competition with others on campus. There are over\& 40 individual, dual, and team sports including 5 K walk/runs, badminton, basketball, billiards, bowling, dodgeball, flag football, golf, indoor baseball, kickball, pickle ball, racquetball, soccer, softball, swimming, tennis, track, ultimate disc, volleyball, water polo, wrestling, and others.
Safety programs are a campus resource for CPR and First Aid training, first aid kits and supplies, emergency response staffing for events, and safety awareness seminars.
Special events hosted at the recreation center include Start Night, RecNight, and After Dark-popular late-night forums of food, music and activities with friends.

Sport clubs are student run and often compete with other universities around the state and across the United States. Clubs are available for student intercollegiate competition in archery, badminton, baseball, bass fishing, cycling, disc golf, dodgeball, equestrian (dressage, drill, hunter-jumper, IHSA), gymnastics, judo, karate, kendo, lacrosse, pistol, polo, racquetball, rifle, rugby, running, sailing, soccer, table tennis, tae kwon do, tennis, triathlon, ultimate disc, volleyball, and water polo.
Wellness coaching helps students, faculty, and staff develop a personal plan to pursue goals for well-being.

## STUDENT HEALTH SERVICES

Jennifer Haubenreiser, Executive

## Director

201 Plageman Building
541-737-9355
jenny.haubenreiser@oregonstate.edu Website: http://studenthealth.oregonstate.edu/
Appointments 541-737-WELL (9355)
Information/Nurse Advice Line
541-737-2724
SHS@Dixon 541-737-7556
Student Health Services (SHS) at Oregon State provides leadership for health and wellness on campus with a goal to enhance students' success while at OSU
and throughout their lifetimes. SHS is accredited by the Accreditation Association for Ambulatory Health Care and is a member of the American College Health Association. The laboratory is accredited by the Commission on Office Laboratory Accreditation (COLA). The mandatory student health fee covers routine office visits at SHS. See Fees below for information about additional charges.
SHS offers comprehensive primary health care, disease prevention and treatment services, as well as extensive prevention, advocacy and wellness programs for all OSU students. Most services are housed in the Plageman Building on campus, including the medical center, lab, pharmacy and prevention, advocacy and wellness programs. Specialized services are available at the Dixon Recreation Center (SHS@Dixon) and the clinic at Tebeau Hall offers same-day appointments for minor medical concerns.
During the academic year the medical center is open Monday-Friday, 9 a.m. to 6 p.m., and 10 a.m. to 3 p.m. on Saturdays. Hours and services vary during summer session, term breaks and on holidays. A telephone nurse information and advice line is available during clinic hours and after hours. More extensive clinic information and an online self-care guide is available at http://studenthealth. oregonstate.edu/.

## IMMUNIZATION AND MEDICAL HISTORY REQUIREMENTS

A complete Medical Health History Form is required of all registered OSU students. Required immunizations include measles, mumps, and rubella; varicella; hepatitis B; tetanus-diphtheria-pertussis and meningococcus (MCV4) for those under age 22. A tuberculosis screening test is required for students arriving from certain countries and is available at SHS. Students are encouraged to satisfy all immunization requirements before arriving at OSU, but SHS can also administer these vaccinations once a student is attending OSU. Non-compliance results in a hold placed on registration for classes. While not required, students are encouraged to be immunized against hepatitis A, HPV, and meningococcus B. Annual flu immunizations are offered to students and travel immunizations are recommended where appropriate. More information is available at the Immunization Help Line: 541-737-7573.

## MEDICAL SERVICES

## Plageman Building Student Health

 CenterConfidential and high-quality health care is provided by physicians, nurse practitioners, physician assistants, registered nurses, physical therapists and other health care professionals. Students are
encouraged to become established with a primary care clinician early in their academic career. Clinical services include general medicine, women's health, sexual health, allergy/asthma, sports medicine, travel medicine, psychiatry and specialty consultations in orthopedics. Nutrition services and tobacco cessation counseling are also available, and the Oregon Contraceptive Care (CCare) unit provides free contraceptive services to students who meet residency and income guidelines. SHS provides x-ray and laboratory services. A full-service pharmacy, operated by the OSU College of Pharmacy, is located on the first floor of the building.

## Tebeau Hall Same-Day Clinic

SHS's satellite clinic at Tebeau Residence Hall provides same-day appointments for minor illnesses and medical concerns, such as sore throats, coughs and colds, headaches or back pain. Hours are Monday through Friday, 9 a.m. -12 p.m. and 1:00-4:30 p.m. during the academic year. Hours vary during holidays, breaks and summer. Appointments can be made by calling 541-737-9355.

## SHS@Dixon Recreation Center

SHS@Dixon provides services to treat ac-tivity-related injuries and other medical conditions and supports and promotes positive health behaviors. SHS staff provide physical therapy, sports medicine, massage therapy, nutrition consultation, acupuncture, chiropractic and wellness coaching at Dixon Recreation Center. Hours are Monday through Friday, 9-5 p.m. during the academic year. Hours vary during holidays, breaks and summer. For appointments and information, please call 541-737-7556.

## PREVENTION, ADVOCACY \& WELLNESS (PAW)

## Prevention

The prevention team strives to ensure student success through:

- The prevention of high-risk alcohol use and illicit/harmful drug use
- The prevention of sexual violence, interpersonal violence, hazing and other forms of violence
- Engaging evidence-based workshops and other programs
- Early intervention for students with indicated needs through referrals to the Certified Alcohol \& Drug Counselor (CADC) and mandated students through the IMPACT Program
- Supporting students who are in active recovery from substance use dependence through the Collegiate Recovery Community
It is the vision of this team to create a safe and supportive living and learning environment in which all students can thrive and succeed.

## Advocacy: Survivor Advocacy and Resource Center

The Survivor Advocacy and Resource Center (SARC) serves as a first point of contact for all university community members affected by different forms of sexual harassment, including sexual assault, unwanted sexual experiences, domestic violence, dating violence and stalking. Safe and confidential services are available for crisis intervention and stabilization, safety planning, information about reporting options, on-campus advocacy for academic and housing concerns, referral and accompaniment to medical examinations or police and Title IX hearings and more. Free and confidential services are available 24 hours a day, 365 days a year at 541-737-2030 or for walk-in visits at 311 Plageman Building.

## Wellness

The Wellness team works to build knowledge and skills, change attitudes and behaviors, and promote healthy choices among OSU students. The Wellness team provides workshops on a variety of issues most commonly faced by college students, including sexual health, nutrition, stress and body image. Other free services include nutrition counseling with registered dietitians and wellness coaching to explore students' personal strengths and wellness goals. Students interested in contributing to these health promotion efforts are encouraged to participate in the Wellness Agents peer leader program where they can gain professional experience and mentorship while learning about prevention and health promotion in higher education.

## FEES

Students pay a quarterly health fee that provides access to clinical office visits at no charge. Additional fees are charged for certain procedures, laboratory tests, x-rays, pharmacy and on-site medical specialists. The most common fees are listed on the SHS website http://studen-thealth.oregonstate.edu/general/feesservices. Any fees for service can be billed directly to the student's OSU account.

## OSU STUDENT HEALTH <br> INSURANCE

OSU offers insurance plans for students and their eligible dependents. Insured family members who are not OSU students are not eligible to be seen at SHS but can see medical providers within the community. Domestic students must meet minimum credit requirements to qualify for the health insurance. International students registered for one credit or more are automatically charged for the mandatory health insurance unless they submit a health insurance waiver by the third Friday of the term. In order to waive the mandatory OSU insurance
plan a student's health insurance must meet or exceed the current benefit requirements. More information is available in the Insurance Office in the Plageman Building, Room 110, or by calling 541-737-7568.

## STUDENT LEADERSHIP AND INVOLVEMENT, <br> clubs, organizations, ACTIVITIES

Damoni Wright, Executive Director Student Experience Center (SEC) 109 541-737-8849
General SLI Information: 541-737-2101 Website: http://sli.oregonstate.edu/sli
Comprised of the Center for Leadership Development, the Student Events and Activities Center, the Center for Fraternity and Sorority Life, and the Center for Civic Engagement, the Department of Student Leadership and Involvement (SLI) provides programs, services and opportunities that intentionally promote student learning and growth in four critical areas: 1) Civic Engagement \& Sustainability, 2) Community Building \& Celebration, 3) Leadership Development, and 4) Global Perspective \& Multiculturalism. See individual listings for information about each center.

SLI works in direct support of the following Student-Coordinated Programs: Coalition for Community Dialogue, International Student Community Team (ISCT), the Memorial Union Program Council (MUPC), and the Student Sustainability Initiative (SSI); and indirectly with other groups, including ASOSU and the Cultural Resource Centers. See individual listings for information about each program.

Additionally, SLI supports OSU Recognized Student Organizations with leadership, organizational development and activity/event planning, including events through the Cultural Meal Support program.

## STUDENT SUPPORT SERVICES (TRIO)

## Amas Aduviri, Director

Amy Davila-Klautzsch, Assistant Director
333 Waldo Hall/324A Waldo Hall 541-737-3923/541-7373907
Website: http://trio-sss.oregonstate.edu/
Student Support Services (SSS) is a federal TRiO program, funded by the U.S. Department of Education, with the intent of providing assistance to low-income, first generation (neither of whose parents graduated from a four-year institution), and students with a learning or physical disability. SSS is able to provide academic
counseling, peer mentoring, tutoring, and cultural enrichment opportunities for students who qualify for the program. In addition, financial assistance is available to students who meet certain additional criteria.

## STUDENT SUSTAMNABHMTY INTIATIVE

Jen Myers, Advisor

957 SW Jefferson Ave. (Oxford House) Oregon State University
Corvallis, OR 97333
541-737-4771
Website: http://uhds.oregonstate.edu/
The department of University Housing and Dining Services (UHDS) provides a diverse selection of housing and dining alternatives-residence halls and student family housing-all of which offer a variety of programs and services.
Oregon State University (OSU) recognizes the impact the living environment has upon student life. This environment, whether on or off campus, is an important part of the student's educational experience. The university is committed to providing all students in the residential setting an integrated program for personal, social, cultural, and educational development beyond the classroom.

First-year students are required to live on campus their first academic year at OSU. It is easier for students to make friends and adjust to university life if they live on campus for a year or more. Academic indicators have shown that students who live on campus typically do better academically and are more likely to continue their education.
UHDS's main goals are to help students succeed academically, become active citizens of their communities, and to enrich and enjoy their university experience. Through UHDS, students can make arrangements for meals and accommodations, consult with residential education staff, bring suggestions for improvements, and seek counsel on university resources available to them. UHDS's vision is to engage students, enrich their lives and help them thrive.

## RESIDENCE HALLS

Through its 15 residence halls, the university offers a variety of living environments, including living-learning communities, designated quiet floors, coeducational facilities, and substancefree housing, and an academic success program focus with in-hall academic tutoring. More details about the living communities can be found at http:// uhds.oregonstate.edu/halls.

Most student rooms are designed for double occupancy. A limited number of single rooms are available in each hall. All residence halls, like the OSU campus, are smoke-free.
The residence hall dining program features an a la carte meal service, with services offered in Marketplace West, McNary Central, and Arnold Dining centers, Bing's at Weatherford Café is located in Weatherford Hall. Cascadia Market and Peet's Coffee are located in the International Living Learning Center. Residential students have a choice of flexible meal plans, which can be used in any of the UHDS operated dining facilities and cafes. They can also participate in the Orange Rewards program, which allows them to eat in all 28 campus dining venues.
For more detailed descriptions of dining options, please visit the University Housing and Dining Services' website at http://uhds.oregonstate.edu/dining.

## RESIDENCE HALL APPLICATION

Once admitted to OSU, students submit an online application for universityowned residence halls at http://uhds. oregonstate.edu/housing/apply-now. Academic year contracts are available to all students. Comprehensive UHDS information packets titled Living in Beaver Nation are distributed to admitted students or are available from UHDS by calling, 541-737-4771.

## RESIDENCE HALL RATES

Note: The figures listed below are estimated room and meal rates for 20162017. When established, the new rates will be available through UHDS.

## Residence Halls

Estimated rates listed are for the academic year; room and meal package rates will vary by type of room style and meal plan chosen.
Double room with Meal Plan 3 (including $\$ 100$ Orange Rewards):
\$9,900-\$12,300
Rates vary by room option and type, with singles, doubles, triples and quad room options available.

All Oregon State University residence halls and dining facilities are built and operated entirely with income from resident students and summer conferences and camps. No state tax funds are used.

## UNIVERSITY HOUSING FOR STUDENT FAMILIES (ALL <br> TERMS)

Oregon State University maintains 107 unfurnished apartments in Orchard Court for student families. Rentals start at approximately $\$ 525$ a month with water, electricity, garbage, and TV cable service furnished. Additional information is available at http://uhds.oregonstate. edu/housing/family-housing.

## HOUSING IN SUMMER SESSION

Summer Session housing is available for short- or long-term stays. Additional information is available at http://uhds.or-egonstate.edu/housing/summer-housing.

## OFF-CAMPUS HOUSING

Current bulletin board listings for a variety of rentals available in Corvallis and surrounding communities are located in the Memorial Union lower concourse. A copy of the Renters Guide may be obtained upon request from The Daily Barometer office, 118 MU East, Corvallis, OR 97331.

## UNIVERSHY OMBUDS

Sue Theiss, University Ombuds
Waldo Hall 116
541-737-4537
Weekdays, (M-Th) 8:30 a.m.-5:30 p.m., (F) 9 a.m. -5 p.m.

Website: http://oregonstate.edu/ombuds/ Email: ombuds@oregonstate.edu The University Ombuds strengthens campus communication and administrative processes by acting as a designated neutral and conflict management practitioner. The Ombuds' major function is to provide informal, impartial, and confidential* assistance to the university community by listening to concerns, clarifying issues, exploring options for resolution, providing information and referrals, and if all parties agree, facilitating informal, non-binding mediation. Serving as a designated neutral, the ombuds is not an advocate for any individual or for the university, but rather acts as an advocate for fairness and healthy conflict management. The ombuds does not provide legal advice or psychological counseling. This position compliments, but does not replace, the university's existing resources for conflict resolution.

To schedule an appointment, please contact the office by telephone or email. Walk-in appointments are welcome, however, scheduling appointments in advance is preferred to assure availability.
*Confidentiality cannot be promised in matters relating to threats to public safety, child abuse, if there is imminent risk of serious harm, or if compelled by a court of law. Speaking with an ombuds does not constitute legal notice to the university of any problem, concern, or complaint. You must pursue alternative complaint avenues if you wish to obligate the university to respond in any way. The ombuds has no duty or responsibility to report incidents to any person or authority, other than as described above.

## ACADEMICS FOR STUDENT <br> ATHLETES

## Kate Halischak, Director

Third Floor
Beth Ray Center for Academic Support 541-737-4382
kate.halischak@oregonstate.edu
Website: http://oregonstate.edu/ studentathlete/

The mission of Academics for Student Athletes (ASA) is to enable student athletes to achieve academic success through the provision of services that support the teaching and learning mission of the university. ASA strives to provide outstanding academic support and counseling that strengthen the persistence and success of student athletes through graduation, the academic performances of student athletes, the academic selfdirection for student athletes, and the maintenance of NCAA compliance.

## ACADEMIC SUCCESS CENTER

Clare Creighton, Director
102 Waldo Hall
541-737-2272
clare.creighton@oregonstate.edu Website: http://success.oregonstate.edu/
The Academic Success Center (ASC) supports students as they learn how to learn. The ASC offers Academic Coaching, Supplemental Instruction, ALS 116, The Learning Corner (online), and academic success workshops, and engages in crosscampus collaboration and referral.

ACADEMIC LEARNING SERVICES (ALS) AND UNIVERSITY EXPLORATION (UEXP) COURSES

## Jesse Nelson, Director

102 Waldo Hall
541-737-2272
jesse.nelson@oregonstate.edu
Website: http://success.oregonstate.edu/
Academic Learning Services courses are designed to help students acquire a basic foundation of skills necessary for success in the university environment. They are not intended to form a significant part of any student's program, but instead, to help them complete a regular university degree program.
ALS is housed within the Academic Success Center. Many campus organizations and programs make up the courses within ALS, UEXP, and instructors come from throughout the university.

ALS courses are listed at http://catalog. oregonstate.edu/CourseList.aspx?campus =corvallis\&subjectcode=ALS.
UEXP courses are listed at http://catalog.oregonstate.edu/CourseList.aspx?cam pus=corvallis\&subjectcode=UEXP.

## CENTER FOR TEACHING

AND LEARNING
Kay Sagmiller, Director
Brooke Howland, Assistant Director
Cub Kahn, Coordinator, Hybrid Course Initiative

## Jeanna Towns, Office Manager

jeanna.towns@oregonstate.edu 466 Learning Innovation Center (LiNC) 541-737-2816
Website: http://ctl.oregonstate.edu/
The CTL supports excellence in teaching and learning in the academic curriculum and learning in co-curricular settings.
We have particular expertise in pedagogy and course design; general education; writing in the disciplines; difference, power and discrimination; teaching and learning technologies; global learning; GTA training and development; and classroom assessment techniques. Our services include individual consultation, faculty workshops and seminars, faculty learning communities, and orientations.

## COLLABORATIVE LEARNING CENTER

Victoria Heiduschke, Library
Experience Coordinator
victoria@oregonstate.edu
Website: http://osulibrary.oregonstate. edu/clc

Located on the main floor of The Valley Library, the Collaborative Learning Center (CLC) offers a variety of resources for OSU students. During scheduled hours, peer tutors and graduate teaching assistants from the College of Science and the Writing Center are available to help students succeed.
Free drop-in tutoring is available from the Math Learning Center, Chemistry (Mole Hole), and CAMP. Students may also make appointments with Writing Center consultants. There is no charge to use any of the learning services available in the CLC. Current schedules and a list of participating departments are available on the CLC website at http://osulibrary. oregonstate.edu/clc.
The CLC is designed to be a welcoming space for students. As part of the Learning Commons, it provides easy access to all of the resources in The Valley Library as well as

- Computer workstations configured for both individual and collaborative work
- Moveable whiteboards
- Moveable tables and chairs, providing seating for more than 100 students
- "Mini" classrooms equipped with whiteboards, tables and chairs.

## COLLEGE ASSISTANCE

## MIGRANT PROGRAM (CAMP)

## Amas Aduviri, Director

541-737-3923
amas.aduviri@oregonstate.edu
337 Waldo Hall
Oregon State University
Corvallis, OR 97331
541-737-2389
Website: http://oregonstate.edu/dept/ camp/
The College Assistance Migrant Program is a federally-funded program through the U.S. Department of Education that provides support for first-year college students from migrant/seasonal farmworker backgrounds
To be eligible, the student or the student's parents must have worked at least 75 days in the past 24 months in migrant/seasonal farmwork (including crop, dairy, poultry or livestock production, the cultivation or harvesting of trees, or work on a fish farm), be eligible for participation in a Migrant Education Program, or have attended a High School Equivalency Program (HEP) within the last 12 months and have completed a GED.
CAMP students are eligible for the following scholarships and services:

- Placement testing and academic advising
- Quarterly book allowance to cover the cost of textbooks
- Monthly stipend throughout the academic year
- Personal counseling
- Travel allowance
- Supplemental aid to reduce debt and meet financial need
- Internship in residence halls
- Orientation/study skills workshops
- Financial aid counseling
- Health services
- Free tutoring
- Career orientation, job search skills development
- Other services as needed

## COMPUTER CENTERS

Students at Oregon State have access to a wide variety of computer resources, from microcomputers to supercomputers, throughout the university. There are general access microcomputer facilities available to students at no charge. The microcomputer systems are networked so that they can act as workstations to access the campus mainframe and other facilities nationally and internationally. The College of Business facility contains 125 Hewlett-Packard PCs; the Milne facility contains 80 Pentium and 66 Power Macintosh systems; and the Bryan (Sackett Hall) facility houses 15 Pentium and 15 Power Macintosh systems. All facilities contain laser printers. The Milne facility is open 24 hours a day, seven days a week
during the regular academic year.
In addition, many individual colleges, schools, and departments at OSU have their own computer facilities for use by students and faculty.

With thousands of individual computers located all over the campus, OSU students and faculty don't have to look far for the computer resources they need.

## DIFFERENCE, POWER AND DISCRIMINATION (DPD) PROGRAM

Nana Osei-Kofi, Director
316 Waldo Hall
541-737-2824
nana.osei-kofi@oregonstate.edu
The Difference, Power, and Discrimination (DPD) Program offers curriculum development support and education for faculty who teach DPD courses at Oregon State University. The DPD Program promotes the advancement of undergraduate courses that provide multidisciplinary perspectives on difference, power, and discrimination in the United States.

## ECAMPUS SUCCESS COUNSELING

Amy Riley, Student Success Manager 541-737-9211
Ecampus.success@oregonstate.edu
Success counseling is an academic counseling service for undergraduate Ecampus students. Success Counselors work in partnership with students to improve academic skills, to identify support resources, and to address obstacles to academic success at OSU. Success counseling is individualized, strengths-based, and holistic.

For further information, visit http:// ecampus.oregonstate.edu/services/stu-dent-services/success-counseling-current. htm.

## EDUCATIONAL OPPORTUNITIES PROGRAM (EOP) <br> Janet Nishihara, Director

## 337 Waldo Hall

541-737-3628
Website: http://eop.oregonstate.edu/
The Educational Opportunities Program (EOP) was created at Oregon State University in 1969 and provides a welcoming environment that supports the full development of the personal and academic potential of undergraduate students who have traditionally been denied equal access to higher education.

These undergraduate groups include students of color, older-than-average students, students with disabilities, students who are single parents, low-income students, students who have been rurally isolated, veterans, and students who are the first generation in their family to attend college.

The goals of the program include pro-
viding services which will:

- acclimate students to university culture,
- enhance each student's academic performance,
- develop each student's professional and personal growth, and
- assist students in developing a sense of belonging and a strong connection to the university.
Students in the program will have ac-
cess to the following services:
- assistance through the admissions process,
- assistance in locating financial resources,
- orientation to the university,
- academic and personal counseling,
- courses in math, reading and writing, and
- assistance with finding jobs and internships,
- assistance with international study experience and undergraduate research, and
- support in writing resumes and cover letters.
U.S. citizens or permanent residents interested in learning more about the program or in applying for services should visit the EOP website, http://eop. oregonstate.edu/.

## MATH LEARNING CENTER

Thomas P. Dick, Director
108 Kidder Hall
541-737-1570
tpdick@math.oregonstate.edu Website: http://www.math.oregonstate. edu/? $\mathrm{q}=\mathrm{mlc}$

The Mathematics Learning Center provides assistance in all lower-division mathematics courses. Help is available on a drop-in basis at no cost to students. Center hours in 108 Kidder Hall are 9 a.m. to 5 p.m., Monday through Thursday and 9 a.m. to 4 p.m. on Fridays from the second week of the term through dead week. MLC tutors are also available evenings in the Valley Library, 7 p.m. to 10 p.m., Sunday through Thursday. Make-up tests are sometimes administered in the MLC. Study materials, reference texts, and calculators are available. A computer lab is available for use by advanced math students in connection with some math courses. For more information, visit the website at http://www. math.oregonstate.edu/?q=mlc.

## UNIVERSITY EXPLORATORY

 STUDIES PROGRAM
## Kerry Kincanon, Head Advisor

102 Waldo Hall
541-737-8144
uesp.advisor@oregonstate.edu
Website: http://uesp.oregonstate.edu/
The University Exploratory Studies Program (UESP) is an academic advising program for students who choose to explore majors at Oregon State University.

OSU students who are undecided about a major can elect to be in UESP. UESP students work through a decisionmaking process to help them learn more about themselves and the numerous academic options that OSU offers. They are encouraged to declare a major and transfer to an academic school or department once they have found the best fit. As part of a successful academic and university experience, UESP has targeted several important learning outcomes for its students:

- Per the university requirement, UESP students should complete the FirstYear Skills courses (Writing I, Speech, Mathematics) in the baccalaureate core by the time they have earned 45 OSU-generated credits, and the Second-Year Skills course (Writing II) by the time they have finished 90 OSU-generated credits.
- UESP student should know how to access and utilize MyDegrees, OSU's online degree audit system.
- UESP students should engage with active exploration activities and resources.
- UESP students should pursue involvement outside of the classroom.
- UESP students should set goals related to major declaration in alignment with UESP's defined major-decision making process. UESP believes that regular consultation with a trained academic advisor will aid students in meeting these learning outcomes and moving through the major decision-making process. UESP students are required to meet with an advisor at least once a term to discuss major options and experiential learning opportunities and to plan course work for the subsequent term. Many students in UESP will also utilize Sigi3© , ALS 114, and the UESP website to assist in their exploration. UESP and the Career Development Center co-sponsor access for all OSU students to Sigi3@, a comprehensive career planning website. Students can use the site to help them clarify their interests, values, and abilities, as well as find extensive information about the world of work. UESP coordinates ALS 114, Career Decision Making, a two-credit class available each term to any first- and secondyear student interested in exploring
major and career options in a classroom setting. UESP also provides a departmental website with exploration strategies, information about major and career exploration events on campus, and links to several career information websites.

THE WRITING CENTER
Dennis Bennett, Director
Galina Romantsova, English Language Learning Coordinator
Chris Nelson, Graduate Writing Center Coordinator
123 Waldo Hall
541-737-5640
Website: http://writingcenter.oregonstate.edu
The Undergraduate and Graduate Writing Centers are support services for students and faculty at Oregon State University. Their mission is to provide writing programs that enable students at all levels to function effectively, efficiently, and confidently in an academic environment.

The Writing Centers offer free help with any writing task at any stage of the writing process and are open to all OSU students, as well as to staff, faculty, and members of the Corvallis community. Writing assistants can help with all aspects of the writing process from brainstorming and organization to questions of grammar and usage. Call 541-7375640 for an appointment.

## WRITING INTENSIVE

 CURRICULUM (WIC) PROGRAM Vicki Tolar Burton, Director306 Waldo Hall
541-737-3711
vicki.tolarburton@oregonstate.edu
The Writing Intensive Curriculum (WIC)
Program offers support and training for faculty who teach writing intensive courses in the majors and promotes excellence in the teaching of writing at the university.

Primary functions include:

- Offering faculty development seminars on best practices for teaching writing in the disciplines.
- Consulting with faculty who are designing or revising WIC courses.
- Reviewing WIC course proposals and assessing WIC courses in the Baccalaureate Core.
- Consulting with and making presentations to departments on issues of writing in the major.
- Publishing the WIC newsletter, Teaching with Writing.
- Developing and maintaining the WIC website, a rich resource for students and faculty, http://wic. oregonstate.edu/. In addition to writing help, the website includes criteria for WIC courses as well as links to a list of approved WIC courses.
Annually, the program invites departments to nominate their most outstanding student writer for a WIC Culture of Writing award in the discipline. Students who want information on WIC courses in their major should consult their departmental advisor.

With the complementary mission of learning, discovery and engagement, Oregon State University is a powerful force for moving the country forward in the 21st century. OSU's Outreach and Engagement enhances access to enrichment and problem solving through reciprocal relationships for the exchange of knowledge and resources in partnership with individuals, communities, businesses, industries, government and educational institutions.

Outreach and Engagement is an essential component of a contemporary Land-Grant university. It builds upon historic traditions in serving the state's residents in innovative ways through a statewide presence in local communities and a worldwide presence through courses and programs. Engagement will increasingly be defined by learner and student involvement in community issues as a part of their academic experience and by working relationships among stakeholders.
The OSU Extension Service has a presence in 36 Oregon counties and delivers programs in agriculture, family and community development, forestry, Sea Grant and 4 -H youth development. These units have a direct impact on Oregon's economy and the lives of Oregonians.
OSU Open Campus is a collaborative, community-based approach to meeting emerging educational issues and needs.

## OSU EXTENSION SERVICE

A. Scott Reed, Vice Provost for University Outreach and Engagement, Director Extension Service
Lindsey Shirley, Associate Provost for University Outreach and Engagement, Associate Director Extension Service 101 Ballard Extension Hall
Corvallis, OR 97331-3606
541-737-2713
Website: http://extension.oregonstate.edu
Oregon State University's Extension Service provides education and information based on timely research to help Oregonians solve problems and develop skills related to youth, family, farm, forest, and marine resources. It carries out its mission by extending the research and knowledge bases of the university to people who need the information and provides leadership in applying this knowledge to the problems people have identified.

Anyone may participate in Extension offerings. Thousands of Oregon citizens volunteer to assist in Extension programs by leading and teaching groups, responding to questions, and providing educational information. OSU students support their communities, gain practical experience and learn through Extension placements, applying academic learning to address local community needs.

Extension educational programs are developed in response to the needs of people in Oregon. Needs are identified by OSU Extension faculty, who are located throughout the state in county offices. Offcampus faculty, who work with people to assess their needs, partner with members of Extension's on-campus faculty to prepare and deliver useful educational programs. About two-thirds of OSU's Extension faculty and staff are located in offices off campus. Financial support is from county, state, and federal governments, grants, and other sources.
There are five major Extension education program areas:

## AGRICULTURAL SCIENCES AND NATURAL RESOURCES

Extension's agricultural program provides education and technical assistance for people with agricultural interests. The major program emphasis is on food, feed, energy, fiber, seed, and ornamental production and management of animal and plant production systems. Programs include farm/ranch business management, marketing, valueadded processing, natural resource use and conservation, community horticulture, human and environmental health, and bioethics. Audiences include urban and rural residents and businesses, government agencies and communities with wide-ranging interests in conservation, production, and community development.

## FAMILY AND COMMUNITY HEALTH

Extension's Family and Community Health program helps Oregonians improve their health, family, and community through education and community partnerships. Major programming extends knowledge related to public health, nutrition, exercise science, human development, family financial management, and aging to address important needs in Oregon's communities.

## FORESTRY AND NATURAL RESOURCES

Extension's Forestry and Natural Resources Program improves Oregonians' knowledge of forestry and natural resources and their options for enhancing benefits from these resources. This educational program assists forest owners, managers, processors, users, and students in understanding the importance of both production and environmental benefits from Oregon's forests. Priority subjects include reforestation, forest management, silviculture, forest health, wildland fire, intergenerational land transfer, harvesting and processing wood, protection of soil and water, wildlife habitat, and related natural resources use, management, and protection.

University
Outreach and

## Administration

A. Scott Reed,

Vice Provost for University Outreach and Engagement, Director OSU Extension Service

Lindsey Shirley, Associate Provost for University Outreach and Engagement, Associate Director OSU Extension Service

## SEA GRANT PROGRAM

Extension's Sea Grant Program provides education, training, and technical assistance to people with coastal-related needs and interests. Major efforts are concentrated in the areas of fisheries and wildlife, watersheds and other natural resource management, marine engineering, food science and technology, economics, business, resource management, education, and recreation. The program is primarily supported by the OSU Sea Grant College and the OSU Extension Service.

4-H YOUTH DEVELOPMENT
4-H helps young people learn and grow through an intentional process that builds competence, confidence, connection, compassion and character. Young people participate in $4-\mathrm{H}$ through clubs, afterschool programs, camps, and school enrichment activities. These youth are supported by trained volunteers who work under the direction of local 4-H professionals located in all 36 counties. As the only nationwide youth development program with direct ties to the land grant university system, 4-H is uniquely positioned to ensure that its programs are based on what is known about how young people develop and learn.

## OSU OPEN CAMPUS

A. Scott Reed, Vice Provost for University Outreach and Engagement, Director Extension Service
Jeff Sherman, Program Leader, Open

## Campus and Innovation

303 Ballard Hall
Corvallis, OR 97331-3606
541-737-1384
Website: http://opencampus.oregonstate. edu/
OSU Open Campus is a shared initiative between OSU Extension, OSU Ecampus, and local communities, led by the Division of Outreach and Engagement. In an effort to collaboratively engage community colleges, $\mathrm{K}-12$ education, and universities, OSU convenes local educational teams to provide access to degree completion, career and college readiness, and professional and economic development.

## STUDENTS AND FACULTY

 ENGAGING IN COMMUNITIESStudents and faculty who have an interest in working with communities around the state can feel free to contact us for more information.

0regon State University Libraries and Press cultivate superior scholarship and creativity, empowers discovery, and preserves and disseminates knowledge. We develop user-focused services, share our expertise through teaching and research, and build gateways to unique resources to further the growth of the OSU community, the people of Oregon, and the global scholarly community. OSU Libraries supports the instructional and research needs of OSU students, faculty, and staff through both traditional and innovative services and collections. We advance OSU's land grant mission, contributing to learner success, scholarly excellence, and community engagement.

## RESOURCES

The Oregon State University Libraries is the second largest research library in Oregon with three locations: The Valley Library at the main campus in Corvallis, The Marilyn Potts Guin Library at the Mark O. Hatfield Marine Science Center in Newport, and The OSU Cascades Library co-located at Central Oregon Community College in Bend.

The Valley Library collection includes materials in all subject areas, containing nearly 2 million printed volumes; subscriptions to more than 74,000 journal titles, most of which are available online; 500,000 maps and government documents; and hundreds of video and DVD recordings. As of 2014, more than 100,000 electronic books were available via the OSU Libraries' catalog. In addition to the primary research collection, a robust resource sharing program ensures access to information for research and pedagogical needs. OSU Libraries has digitized thousands of documents, photographs, and maps to make them more widely accessible for researchers, students, and the general public. Additionally, a notable collection of contemporary Northwest artwork is on display throughout The Valley Library with over 80 different artists represented.

The Valley Library provides a flexible learning environment that supports community and engaged learning. Two of its learning spaces are the Learning Commons and the Collaborative Learning Center (CLC). The Learning Commons offers a variety of spaces for groups to collaborate, as well as 118 computers (both Windows PCs and iMacs) that give students access to a wide variety of software. The CLC offers a variety of academic and student support services. Peer tutors and graduate teaching assistants from the College of Science, the Academic Success Center, and the Writing Center are available to assist students during scheduled hours in the CLC.
Partnering with Academic Technologies gives students access to video editing and multimedia production software, large format printing, along with hardware
including video cameras, microphones and audio recording equipment. In addition, The Valley Library has 31 three-hour group study rooms, 3790 -day research rooms, six long-term research rooms, one media preview room and three designated floors for quiet study. A drop-in daycare facility is available on the third floor. Laptop computers and tablets are available to OSU students, staff and faculty for six-hour checkout and can be used with the wireless network anywhere in the library.

OSU Libraries supports faculty and student research not only through the purchased collection, but also through unique and rare materials held by the Libraries' Special Collections and Archives Research Center. Content in signature collecting areas is made freely accessible on the web to facilitate use by students, faculty, and other researchers. This includes extensive documents from the Ava Helen and Linus Pauling Papers, the History of Science Collections, the Oregon Multicultural Archives, the Natural Resources Collections, the Oregon Hops and Brewing Archives, and the University Archives.

OSU Libraries also manages the ScholarsArchive@OSU institutional repository. This database makes a wide variety of information resources produced at OSU freely available on the web. Examples include faculty articles, OSU theses and dissertations, and all experiment and extension publications. ScholarsArchive@ OSU is consistently ranked among the top ten institutional repositories in the United States, according to Webometrics.

OSU Libraries extends services and resources to the campus and off-campus community in a variety of ways. The collections can be accessed both online and through mobile devices. Hours at The Valley Library have been extended to 24 hours, five days a week (24/5), allowing OSU students and faculty access to collections as well as computers. The Valley Library has wireless throughout the building. Reference assistance is available in person and by phone, by e-mail, by text message, and by instant message during most hours when The Valley Library is open. Subject specialists are available by appointment for individual research consultation.

The Autzen Electronic Classroom in The Valley Library is an enhanced electronic classroom for library-related instruction. It provides a hands-on setting with 24-networked Mac mini dual-boot student workstations, white boards, 6 large-format projectors and screens, and built-in sound. Additional furniture provides seating for classes up to 50 students, clickers, and white boards.
OSUL\&P teaching librarians provide workshops, tutorials and digital learning objects to help students develop their research skills. In partnership with faculty, they provide targeted learning experiences

in classes and lend their expertise to assignment design and assessment project. Over 7,200 students participate in more than 400 library classes and workshops each year. Teaching librarians also provide individual, in-depth consultations for over 300 students each year in addition to consultations with OSU faculty, staff, and community members.

OSU Libraries has two off-site branches. The Guin Library houses the research and teaching collection of Oregon State University's Hatfield Marine Science Center. The library's collection of more than 35,000 books and journals covers a broad range of marine-related topics including fisheries, aquaculture, oceanography, geology, environmental studies, and biology. Particular attention is paid to collecting material on marine fisheries, marine mammals, and information specific to the Northeast Pacific Ocean.

The Cascades Library in Bend, housed in the Barber Library of Central Oregon Community College, supports OSU-Cascades upper-division programs, including tourism and outdoor leadership and graduate programs in education. This is a relatively new branch campus that relies on the Cascades Library sharing the space and collections of the Central Oregon Community College Library to deliver services.

One on-campus branch facility is located in the College of Veterinary Medicine on campus. Open 24/7 to the college's academic community, the library has one full-time staff member, along with student employees paid by the college. OSU Libraries handles acquisitions and cataloging for the veterinary medicine collection, while the Veterinary Medicine Library fills interlibrary loan requests for items in the OSU Libraries' collection.

Since 2007, OSU Press has been a department of the OSU Libraries. OSU Press supports the university's strategic plan through its publication of scholarly and general interest books in forestry, natural resources management, and natural history as well as the cultural and social history of Oregon and the Pacific Northwest. The Press and Libraries collaborate on several projects including an open textbook initiative that supports the development of free online textbooks by OSU faculty.

## COLLABORATION

As libraries move away from ownership to access, consortial memberships give OSU faculty and students a wide variety of information in a timely and efficient manner.

- OSU Libraries is a member of the Orbis Cascade Alliance which includes 37 Washington, Idaho, and Oregon universities, colleges,
and community colleges with total holdings of 28.7 million titles.
- Membership in the Greater Western Library Alliance (GWLA) enables the Libraries to increase its digital presence through such sites as the Western Waters Digital Library. GWLA is a consortium of 33 research libraries from 17 Midwestern and Western states.
- OSU Libraries is a founding member and active contributor to the Archives West, a consortium of 43 archives and special collections in Oregon, Washington, Idaho, Montana, and Alaska. NWDA provides enhanced access to archival and manuscript collections across the northwest through a union database of Encoded Archival Description (EAD) finding aids.
- OSU Libraries participates in the Oregon Statewide Database Licensing Program that provides a suite of 22 general periodicals and reference database products from Gale/Cengage Learning, the database vendor that was awarded the state contract in 2013.
- As a member of the Center for Research Libraries, the OSU Libraries can provide unlimited access to all CRL resources - approximately five million publications, archives, and collections to supplement our holdings, especially in the areas of humanities and social science. OSU faculty can borrow CRL materials for extended loan periods.
- OSU Libraries is a member of the Western Regional Storage Trust (WEST), a distributed retrospective print journal repository program serving research libraries, college and university libraries, and library consortia in the Western Region of the United States.
- OSU Libraries is a member of the Coalition for Network Information, the Council on Library and Information Resources, OCLC (the world's largest library cooperative), the Library Publishing Coalition, and the Scholarly Publishing and Academic Resources Coalition."
OSU Libraries also collaborates with the University of Oregon Libraries on making joint decisions on collections, expanding access to each library's collections, sharing software, providing joint faculty/ staff development opportunities, and, in general, viewing the two libraries as a single library with shared purposes. This collaboration is especially visible in "Oregon Digital" (https://oregondigital. org/catalog/), which provides integrated online access to digitized materials from both libraries.

OSU Libraries partners with the Institute for Natural Resources on the Oregon

Explorer, a comprehensive, natural resources digital library designed to provide easy and rapid access to reliable, up-to-date information about the state's natural resources.

The most notable addition to the library's instruction program since 2010 has been the implementation of a library course designator that will allow OSU Libraries and Press to develop and offer a for-credit library sciences curriculum to partner with other academic departments to enhance student success in learning and development of critical thinking and life-long learning.

## OSU PRESS

Faye Chadwell, OSU Press Director and the Donald and Delpha Campbell University Librarian
Thomas S. Booth, Associate Director OSU Press
121 The Valley Library
541-737-3166
Email: OSU.Press@oregonstate.edu Website: http://osupress.oregonstate.edu
Since its founding in 1961, the Oregon State University Press has supported and enhanced the university's place as a major research institution by publishing outstanding works of scholarship by the faculty of OSU and of other institutions as well as works of general interest to readers in the state and beyond.

The OSU Press specializes in books of importance to the Pacific Northwest, especially those dealing with natural resource issues and the history, natural history, cultures, and literature of the region. The OSU Press has a long history of publishing books about the state and region, including guides to flora and fauna, atlases, guides to natural and historic sites; biographies, memoirs, and oral histories of cultural or historic importance; and literary works by some of the region's most accomplished writers. The editorial program of the OSU Press includes several distinguished series of books:

- Women and Politics in the Pacific Northwest
- Culture and Environment in the Pacific West, which probes the relationships between cultural and environmental subjects west of the Rockies
- Northwest Reprints, which brings back into print classic works of fiction and nonfiction from the region's past
- Northwest Readers, which makes available collections of writing by notable Northwest authors and anthologies on provocative regional themes
- Oregon Literature Series, a project of the Oregon Council of Teachers of English
- Northwest Photography Series
- Horning Visiting Scholars Series
- First Peoples: New Directions in Indigenous Studies
Books published by the OSU Press have received awards for editorial and design excellence, including the Pacific Northwest Booksellers Association Special Award for Outstanding Contributions to Northwest Literature; Choice Magazine Outstanding Academic Title of the Year; inclusion in the Association of American University Presses Book, Jacket, and Journal Show; Oregon Book Awards for Nonfiction and Literary Nonfiction; and the John Burroughs Society Medal from the American Museum of Natural History for a Distinguished Book of Natural History.

In 2007, OSU Press joined the OSU Libraries. Oregon State University Libraries and Press is a dynamic environment that promotes innovation, values diversity, nurtures creativity, and builds strong communities. Press staff work closely with library colleagues on projects and digital initiatives.
The press publishes 20 to 25 new books each year and has approximately 300 titles in print. The press also distributes select titles published by the University of Oregon Press and partners with other nonprofit organizations in the state on some projects. Publishing decisions are made in consultation with a faculty advisory board after external peer review of each project.

Members of the Editorial Board for
2016-2017 academic year are:

- Peter Betjemann, Chair, Oregon State University, English
- Katy Barber, Portland State University, History
- Natchee Barnd, Oregon State University, Ethnic Studies
- Steve Clark, Oregon State University, University Relations and Marketing
- Ellen Eisenberg, Willamette University, History
- Kenneth Helphand, University of Oregon, Landscape Architecture
- Peg Herring, Oregon State University, Extension and Experiment Station Communications
- Michael Nelson, Oregon State University, HJ Andrews Experimental Forest
- Cristina Eisenberg, Lead Scientist, Earthwatch Institute
The OSU Press is a member of the Association of American University Presses (http://www.aaupnet.org/)—a nonprofit organization whose purpose is to support university presses in their endeavor to make widely available the best of scholarly knowledge and the most important results of scholarly research; to provide an organization through which the exchange of ideas relating to university presses and their functions may be facilitated; and to afford technical advice and assistance to learned bodies, scholarly associations, and institutions of higher learning.

OSU Press books can be purchased from local and national booksellers as well as online at http://osupress.oregonstate.edu. Additional information for authors wishing to submit manuscripts, is also available at http://osupress.or-egonstate.edu/for-authors.

## INFORMATION SERVICES, COMPUTERS, AND ACADEMIC TECHNOLOGIES

Information Services supports OSU students by providing accounts, technologies, equipment checkout, printing, computing networks and computing labs. The OSU Computer Helpdesk provides students with technical support for laptops, mobile devices, and campus systems like Canvas. If you need inperson support, please visit the Walkup Helpdesk in the Valley Library.
Student employment opportunities are available from a variety of units within IS, including the OSU Computer Helpdesk and Academic Technology, with the greatest opportunities announced just prior to each new term.

## ACCOUNTS AND PASSWORDS

http://is.oregonstate.edu/
accounts-support

- Accounts \& Technologies Guide for New Students: This guide is for new OSU students who need to get connected to OSU systems such as email and Canvas. Even if you are already connected to one or more OSU systems, we recommend you go through this guide, just to be sure you've covered the bases and know where to get computing help.
- ONID: ONID stands for OSU

Network ID. It's a universal computer account available to all OSU students, employees and associates. You use your ONID username and password to access Online Services, Canvas, email, the wireless network and many other university computing services.

- Google Apps for OSU: ONID email is accessed via Google Apps for OSU. All OSU students, instructors, and employees may access all the supported core apps: Drive, Mail, Calendar, Site and Groups.
- Office365 for OSU: All OSU students, instructors and employees may collaborate using native Microsoft Office tools: Word, Excel, PowerPoint and OneNote.

## LEARNING TECHNOLOGIES

## http://is.oregonstate.edu/

learning-technologies

- Canvas, OSU's Learning Management System used by both off-campus and on-campus students for classwork.
- Classroom Technology Services
- Event Support
- Technology Consulting
- Computing Labs
- Equipment Loan and Rental
- Standard Printing
- Media Creation
- Virtual Computing Lab

## SOFTWARE

http://is.oregonstate.edu/
accounts-support/software

- Many software packages are available to students.

## TECHNICAL SUPPORT

- OSU Computer Help Documents, http://oregonstate.edu/helpdocs, 24/7 help guides and FAQs
- OSU Service Desk, http:// is.oregonstate.edu/service-desk, Monday-Friday support via phone, 541-737-3474, and webform
- Walkup Helpdesk, in-person support at the Valley Library, Sunday-Friday

## STUDENT EMPLOYMENT

(Opportunities subject to availability) Student workers provide programming, development, and support services for the OSU community. Potential employment is contingent upon eligibility per university policy on student employment.

- OSU Service Desk
- Technical support, programmers
- Central Web Services
- Web app and mobile app developers
- Customer service and support, system maintenance

## MISSION

To produce timely statistics, qualitative information and analyses that support university strategic planning and decision-making.

## FUNCTION

Institutional Research, under the Office of Academic Affairs, provides services to offices and departments at Oregon State University. Responsibilities include:

- Developing and analyzing university strategic indicators and performance measures, drawing upon institutional data from all sectors of the university;
- Maintaining data archives to support longitudinal profiles and studies;
- Generating datasets of strategic interest to the university using survey instruments;
- Conducting research on issues of strategic importance to the university using national and institutional databases;
- Responding to federal, state and other external requests for institutional data;
- Supporting the academic unit program review process;
- Enhancing and improving the curricular review process; and
- Serving as a resource for the university on institutional research issues.

The educational resources of the university include art, galleries, collections, and exhibits of cultural and scientific materials. Research, teaching, and extension functions are combined in these collections, which serve both the institution and the general public.

Over the years, various departments and schools of the university have become repositories for extensive holdings of manuscripts; rare books; prints, paintings, and other art objects; costumes; textiles; historic artifacts; archaeological material; fossils; preserved plants and animals; wood products; and marine material. These collections serve many of the same functions as a library or make possible the identification of materials whose age, name, or significance is unknown.
Most university collections serve primarily research and teaching functions and may be viewed by prior appointment with their curators. Permanent collections and museums include:

## ARCHAEOLOCICAL COLLECTION

## David R. Brauner, Curator

The Archaeological Collection consists of artifacts, field notes, maps, drawings, sketches, and photographs accumulated in archaeological investigations. Several thousand items of primary archaeological documentation comprise this collection. Location: Waldo Hall.

## ABT ABOUT AGRICULTURE

## S.J. Curtis, Curator

Website: http://agsci.oregonstate.edu/art
The College of Agricultural Sciences has sponsored Art About Agriculture since 1983, as a source for education, inspiration, and research enabling people to understand and value agriculture and natural resources through the universal language of visual arts. The program, in part, recognizes regional artists for investigating agriculture and natural resources themes as content and subjects for creating their works of art. It also enables the college to acquire art for a permanent collection of contemporary fine art now representing more than 150 artists with their more than 300 works of art. The Art About Agriculture permanent collection, selected through peer review, comprises fiber arts, mixed media assemblages, paintings, sculptures, watercolors, and works on paper including drawings, photographs, and prints. Many distinguished artists are represented in the Art About Agriculture permanent collection, including Harrison Branch, Sally Cleveland, Betty Feves (1918-1985), Sally

Finch, Sally Haley (1908-2007), Carl Hall (1921-1996), Yuji Hiratsuka, Manuel Izquierdo (1925-2009), Analee Fuentes, Mary Josephson, Betty LaDuke, Marjorie McDonald (1898-1995), Jay Stratton Noller, John Henry Rock (1919-1993), Laura Ross-Paul, Nelson Sandgren (1917-2006), Robert Schlegel, Robert Weller, Phyllis Yes, and Renée Zangara.
In 2015, the College opened Gallery 440 in Strand Agriculture Hall, Rm 440. This reception and meeting space is dedicated for displays from the Art About Agriculture Permanent Collection. Additionally the gallery is a space for promoting artists represented in this collection by exhibiting their recent works of art in group and solo invitational shows.
Since the program began the college has collaborated with more than 50 galleries, primarily in Oregon, and also Washington, and British Columbia, Canada, for presenting the permanent collection, invitational art exhibitions, and regional art competitions. In 2006 the college cosponsored in partnership with the Oregon Historical Society a retrospective exhibition of the entire peerreviewed Art About Agriculture permanent collection. The late Brenda Hood, in memory of her husband, the late Gordon Hood, sponsored This Bountiful Place: Art About Agriculture, the Permanent Collection, the exhibition catalog published in association with the Oregon Historical Press, 2006.
Accessions to the Art About Agriculture permanent collection are made possible from patron-donor partnerships. The College of Agricultural Sciences is grateful for support from the deans of OSU Extension Service, College of Agricultural Sciences, and College of Liberal Arts; Mark Abrahamson; Dan and Wanda Arp; Betty Brose; Gene and Cande Buccola; Capital Press; James and Stella Coakley; Marybeth Collins; William Cook and Gwil Evans; Dan and Sally Edge; The Ford Family Foundation; the Carl Hall Family Collection through Bill Rhoades; the late Margaret Hogg; the late Brenda and Gordon Hood; E.R. Jackman; Larry and Sherry Kaseberg; Betty LaDuke; the Lamb Foundation; Ed Ray; Scott Reed; and the late Gayle Strome. All gifts made to the OSU Foundation-Art About Agriculture qualify as contributions under current state and federal tax codes, including the Oregon Cultural Trust, and may be made at any time.

## COLLECE OF BUSINESSDEsICN COLLECTION

## Elaine L. Pedersen, Collection Curator/Manager

The College of Business, Design Program houses a collection of historic Western and non-Western textiles and clothing.

The collection consists of Euro-American clothing and accessories that span the 19th and 20th centuries. The nonWestern artifacts include textiles and objects largely from the 16th through 20th centuries but including objects from Coptic Egypt and pre-Columbian Peru. The collection, with display cases on the 2nd floor of Milam Hall, supports the outreach missions of the College of Business Design Programs by providing an educational resource and creative inspiration for students, researchers, and the general public. Additional information is available by contacting Elaine L. Pedersen (Collection Manager) at pedersee@oregonstate.edu or Dawn L. Figueroa (Collection Assistant) at dawn.figueroa@ oregonstate.edu, or visiting the collection on the website at: http://business.oregon-state.edu/sdhe/historic-collection.

## DEPARTMENT OF FISHERIES AND WILDLIFESS BIRDS, MAMMALS, AND FISHES COLLECTIONS

Doug Robinson, Curator of Birds
Brian Sidlauskas, Curator of Fishes
Clinton W. Epps, Curator of Mammals
Peter Konstantinidis, Curator of Vertebrates

The Department of Fisheries and Wildlife's Birds and Mammals Collections include more than 9,000 specimens of birds and 10,000 specimens of mammals, as well as the Braly Ornithological Collection; Overton Dowell, Jr., Bird Collection; Alex Walker Ornithological Collection; and Oregon Game Commission Collection. The Ichthyological Collection contains more than 20,000 cataloged lots of fishes representing approximately 150,000 specimens and 45 nominal type specimens. In addition, there are about 100,000 uncataloged specimens available for study. More than 13,000 frozen tissue specimens are available for genetic analysis. The collection emphasizes fishes of the Pacific Northwest, but also holds specimens from many parts of the world including Japan, Iran, Peru, Trinidad, Thailand and India. It recently added many fishes from Guyana and Gabon. The ichthyological collection also holds substantial series of marine and freshwater ichthyoplankton. The freshwater holdings are mainly from Oregon while the marine holdings are from the Pacific Northwest, the Gulf of Mexico, the Caribbean and Florida. Currently we are inventorying the larval fish collection to make it accessible for research. Use of the Department of Fisheries and Wildlife collections is restricted to qualified students and investigators. Location: Nash Hall.

## FAIRBANKS ART GALLERY

## Andrew Nigon, Gallery Coordinator

 Website: http://liberalarts.oregonstate. edu/school-arts-and-communication/art/ fairbanks-gallery-artFairbanks Gallery features exhibitions focusing on contemporary Northwest regional, national, and international artists, as well as Oregon State University art faculty and student exhibitions. The gallery provides the public, campus, and student communities diverse creative experiences and interactions with the inspired, inventive world of visual art. In many cases exhibitions are accompanied by gallery talks, and sometimes also by classroom workshops, critiques and public lectures. Past one-person exhibits have featured notable artists such as Ruth Bernhard, Sue Coe, Wolf Kahn, Jacob Lawrence, Robert Motherwell, Philip Pearlstein, Wayne Thiebauld, Jerry N. Uelsmann, Edward Weston, Jenny Schmid, and Bill Viola. Group shows have included artists Robert Colescott, Christo, Jim Dine, Eric Fischl, Roy de Forest, Helen Frankenthaler, Ann Hamilton, David Hockney, Jenny Holzer, Roy Lichtenstein, Henri Matisse, Peter Milton, Robert Motherwell, James Rosenquist, Frank Stella, Andy Warhol, and William Wegman.

Fairbanks Gallery is also host to many engaging and informative events. On the third Thursday of each month, the gallery is open extended hours in the evening as part of the Corvallis Arts Walk. Artist talks are frequently scheduled on that night, refreshments are offered and there is frequently a free, interactive activity. Upon request and schedule permitting, we can arrange for private group tours and gallery talks for visitors ranging from elementary school students to art museum docents.

## Email list

If you would like to be added to the email list to be notified of Fairbanks Gallery events and the Visiting Artists and Scholars Lecture program, please email OSU.art@oregonstate.edu with "Add to Fairbanks Mailing List" in the subject line.

## Location and Hours

Fairbanks Gallery is open from 8 a.m. - 5 p.m. Monday - Friday. The gallery is located on the first floor of Fairbanks Hall, 220 N.W. 26th St., on the Oregon State University campus in Corvallis, Oregon.

Parking on campus is available at Reser Stadium, a short walk to Fairbanks Hall, with shuttle service offered from the east side of the stadium. Shuttles run approximately every 10 minutes. After 5 p.m., permits are not required in " $A$ " and " $B$ " campus parking lots. There are also two 30-minute loading zone spaces directly
behind Fairbanks Hall. Disabled permit parking is available directly behind Fairbanks, as well as along Jefferson Street near the building. There are two electric vehicle charging spaces directly behind the building.

## Facebook

Become a fan of Fairbanks Gallery of Art at Oregon State University at https:// www.facebook.com/ARTatOSU/.

## FINE ARTS PRINT COLLECTION

Andrew Nigon, Acting Curator Website: http://oregondigital.org/sets/ fairbanks
The School of Arts and Communication's Fine Art Print Collection contains nearly 600 prints representing numerous countries and spanning several centuries. The collection's holdings includes work of various styles, including Japanese Ukiyoe, modern Japanese woodblock, 20th century Latin American, German Expressionism, and 20th century American prints. Artists include Max Beckmann, Francisco Goya, Hideo Hagiwara, Hiroshige Utagawa, William Hogarth, Kathe Kollwitz, Kunisada, Mauricio Lasansky, Otto Mueller, Max Pechstein, Robert Rauschenberg, Jun'Ichiro Sekino, Edward Weston, Yeizan and others.

Prints in the collection have been largely donated over the last seventy years from various sources, including patrons, faculty members, international donors, professional artists, and former students. The collection began in earnest under the direction of Gordon Gilkey. Formerly the chair of OSU's former Department of Art, Gilkey became the dean of the College of Liberal Arts, and later became the curator of the Vivian and Gordon Gilkey Center for Graphic Arts at the Portland Art Museum. While chairman of the Department of Art at OSU, he hired numerous faculty who were talented printmakers. Berk Chappell, John Rock, Paul Gunn, Shepard Levine, Nelson Sandgren, and Demetrios Jameson not only made prints, but helped collect and find donations to add to the collection.

A World Print Competition portfolio of twenty prints was added in 1973. Portfolios of Latin American artists were organized as Actualidad Gráfica Panorama Artístico, and OSU was a recipient in 1975 and 1976. Photographs are included in this collection. In 1974, photography students petitioned the OSU Foundation to fund the purchase of an edition of The Edward Weston Fiftieth Anniversary Portfolio.

A six-year rejuvenation project of preservation, cataloging, and digital photography has culminated in a new collection website. The collection now serves as an
educational resource for the students and faculty at OSU, and the prints are now also accessible via the Web for the general public and other educational institutions. The website also acts as a research center for art students, who can research prints and submit research papers to be Web published. The collection is housed in Valley Library, which offers important temperature and climate controls.

## CEOLOCICAL COLLECTIONS

Andrew Meigs, Geology Program Director
The Geological Collections include minerals, rocks, and fossils. The Edward Taylor Mineral Collections (F. Tepley, Curator) contain several thousand rare and fine specimens. Over 5,000 fossil specimens of Paleozoic, Mesozoic, and Cenozoic marine invertebrates comprise the outstanding John H. Howard and Earl L. Packard Collections in Paleontology (A.G Grunder, Curator). Location: Wilkinson Hall.

## THE HERBARIUM

## Aaron I. Liston, Director

Melanie A. Link-Perez, Curator
The Herbarium contains more than 450,000 named specimens of seed plants, ferns, mosses, algae, fungi, and lichens. Emphasis is on collections from western North America. The herbarium is the repository for the Morton E. Peck Herbarium of Willamette University, a research collection of Oregon flora consisting of more than 30,000 sheets, and the former University of Oregon herbarium. The mycological collections (J. Spatafora, Curator) consist of approximately 125,000 dried specimens of fungi and lichens, supplemented by microscope slides and a culture collection. These collections include the H.C. Gilbert Myxomycete Collection and the Forest Service Pathology Herbarium. The Herbarium is also the home of the Oregon Flora Project. Location: Cordley Hall. Website: http://oregonstate.edu/dept/botany/herbarium/.

## HERPETOLOCICAL COLLECTION

## Stevan J. Arnold, Curator

The herpetological research collection consists of more than 60,000 ethanolpreserved amphibians and reptiles, and approximately 24,000 frozen tissue samples. The collection has excellent representation for sites in the Pacific Northwest and includes the largest collection of garter snakes (Thamnophis) in the world. These and other aspects of the collection are described at the collec-
tion website http://people.oregonstate. edu/~arnoldst/herp\%20collection.htm. The collection is searchable online thru the VertNet portal at http://portal.vert-net.org/p/oregon-state-university. Location: Cordley Hall.

## THE J.C. BRALY MATURAL HISTORY COLLECTION

## Robert T. Mason, Curator

The Natural History Collection includes 550 mounts of birds and mammals in the J.C. Braly Collection. A collection of specimen skins on the first floor is used mainly for teaching. In addition, over 1,000 preserved specimens of amphibians and reptiles from the Pacific Northwest constitute a considerable part of the teaching collection. Location: Cordley Hall.

## THE LASELLS STEWART CENTER CALLERIES

Tina Green-Price, Curator and Associate Director of The LaSells Stewart Center
The LaSells Stewart Center 875 SW 26th Street (located directly across from Reser Stadium)
Corvallis, OR 97331
Oregon State University
The LaSells Stewart Center was constructed from patron-donor funds in 1981 and is the first performing arts venue and conference center on the campus of Oregon State University. The galleries at The LaSells Stewart Center offer visitors the opportunity to experience three distinct art galleries: Giustina Gallery, Murdock Gallery, and South Hall Display Case.
Giustina Gallery is located in the heart of The LaSells Stewart Center and is the largest art gallery in Willamette Valley. It proudly hosts 10 to 12 exhibits each year, featuring fine art of all mediums with over 450 local, regional and international artists represented. Giustina Gallery is recognized for cultivating creativity and building connections among the community and artists. Murdock Gallery provides art enthusiasts a more intimate art work experience-with nearly 64 linear feet of display area. South Hall Display Case features local artists in a two- and three-dimensional presentation case.

Collectively, the galleries provide the local and campus community diverse opportunities to view and display art work. Annual exhibits include: Vista and Vineyards, Art about Agriculture, Cultural Connections Exhibit, Community Art Exhibit, plus many more. Each exhibition is accompanied with a public art reception.
View upcoming exhibits, http://oregonstate.edu/lasells/gallery.

Sign-up to receive email notifications about upcoming art exhibits and receptions, performances and public sessions, http://oregonstate.edu/lasells/stay-informed. Also, like us on Facebook!
Standard Hours of Operation: Monday-Friday, 8 a.m. to 5 p.m., and evenings and weekends during events. To learn more about The LaSells Stewart Center or its galleries, visit, http://oregonstate.edu/lasells/.

## THE LITTLE GALLERY

Helen Wilhelm, Director
World Languages and Cultures
Oregon State University 210 Kidder Hall
Corvallis, Oregon 97331
helen.wilhelm@oregonstate.edu 541-737-2146
The Little Gallery, a space housed in The School of Languages, Cultures and Society, exhibits eclectic selections of art from well-established and emerging artists and visually advances different critical methods of seeing, crucial and transformative approaches to large intercultural questions. The gallery has a welcome place in an international language department, is bringing cultures together and has become a confluence of disciplines, a place for discussion and wonder. The Little Gallery hosts at least one exhibition per term with opening receptions with the artist present. The gallery is open M-F, 8 a.m. -5 p.m. and closed on the weekends and school holidays.

If you would like to be added to the email list to be notified of upcoming exhibitions, or would like to send in a submission for a possible exhibition opportunity, please contact Helen Wilhelm at helen.wilhelm@oregonstate.edu or call 541-737-2146.

## MEMORIAL UNHON ART COLLECTION

## Susan Bourque, Curator

541-737-6371
Website: http://mu.oregonstate.edu/ main/history
To see and interact with OSU Memorial Union Art Collection go to: http://www. facebook.com/pages/OSU-Memorial-Union-Art-Collection/17460794118 Throughout the Memorial Union are selections from its permanent art collection. The collection began in 1928 with a gift from the Board of Regents, but the foundation of the collection came in 1943 with a donation of fifty-three William Henry Price paintings. Currently among the 125 artists included in the collection are paintings and sculptures by J. Leo Fairbanks, works from the early nineteen hundreds by Carrie Gilbert de-
picting Native Americans, prints collected and donated by Gordon and Vivian Gilkey, and historic photographs of OSU (a number of which are on display in the mezzanine hall). Art work commissioned under the Oregon's Percentage for the Arts Programs includes murals by Hector Hernandez, Alex Hirsch, Henk Pender, Sherrie Wolf. The collection has over 300 works of art, half of which are on display at any one time throughout the building.

## MEMORIAL UNION CONCOURSE GALLERY

Susan Bourque, Exhibits Coordinator 541-737-6371
Website: http://mu.oregonstate.edu/ art-gallery/

The Memorial Union Concourse Gallery is one of the largest exhibition spaces on the OSU Campus. Several contemporary art exhibits reflecting a diversity of styles, media and cultural perspectives are scheduled throughout the year. These exhibits feature the artwork of international, regional, local recognized artists, and the art of talented OSU students. This program provides the public, campus, and student communities an opportunity to experience and engage their visual senses as they walk the long concourse or take a break in one of the many seating options available. Some exhibits have related gallery talks, lectures, and/or receptions, when offered, detailed information will be available from our website. The gallery is located at the heart of campus in the historic and beautiful Memorial Union, on 26th and Jefferson Streets.
Gallery hours during the academic year: Monday-Saturday, 8 a.m.-11 p.m.; Sunday, 10:30 a.m. -11 p.m. Term breaks and summer: Monday-Friday, 8 a.m.-5 p.m.

## ORECON STATE <br> ARTHROPOD COLLECTION

David R. Maddison, Director
Christopher J. Marshall, Curator and Collection Manager
Website: http://osac.oregonstate.edu/
The Oregon State Arthropod Collection is a valuable research collection of nearly three million insect and mite specimens, chiefly from the Pacific Northwest. Collection strengths include Coleoptera, Hemiptera, Lepidoptera, and Hymenoptera. Areas of specialization include the Melville Hatch Beetle Collection, mites associated with insects and marine habitats, sphecoid wasps and bees of the world, leaf hoppers and plant bugs of North America, aquatic insects, litter arthropods, butterflies, and moths of the Pacific Northwest. Specimens of historic importance include the Hopkins Collec-
tion of western forest insects and voucher material of the H.J. Andrews (LTER). Location: 4082 Cordley Hall.

## SPECIAL COLLECTIONS <br> AND ARCHIVES RESEARCH CENTER

## Lawrence A. Landis, Director

The University Libraries' Special Collections and Archives Research Center maintains and makes available the university's unique collections of manuscripts, archives, photographs, and books. Its holdings include collections pertaining to the history of science and technology; the historical records of OSU and papers of its prominent faculty members; collections documenting cultural and ethnic groups in Oregon; and collections documenting natural resources in the Pacific Northwest, especially agriculture and forestry. Also included are collections documenting Oregon's hops and craft brewing industries.
The Ava Helen and Linus Pauling Papers is the center's cornerstone history of science and technology collection. It is an archival research collection of more than 500,000 items which chronicles the life and work of OSU alumnus Dr. Linus Pauling, the only person in history to have received two unshared Nobel Prizes (Chemistry, 1954; Peace, 1962). The collection, donated by Dr. Pauling in 1986, includes the original manuscript for Pauling's seminal 1931 paper, The Nature of the Chemical Bond; the research notebooks and working manuscripts for a number of Pauling's over 1,100 journal publications and 13 books; and the original petition for nuclear disarmament presented to the United Nations in 1958, which contains the signatures of more than 9,000 scientists worldwide, including Nobel laureates Albert Schweitzer and Bertrand Russell. The archive also includes Dr. Pauling's numerous awards, over 100 hours of audiovisual material, his mammoth correspondence with many of the most prominent figures of the twentieth century, and a significant trove of molecular models constructed by Pauling. The collection serves the research interests of scholars from around the world. See http://scarc.library.oregonstate.edu/coll/pauling/index.html.

Another significant area within history of science and technology are the Atomic Energy and Nuclear History Collections. The collections include the first published account of the discovery of radioactivity in 1896, writings on the Manhattan project, the hearings of Robert Oppenheimer, and a formerly secret report of the effects of the atom bomb. It also features cultural aspects of the atomic age. See http://scarc.library.
oregonstate.edu/coll/energy/index.html.
The center is the official repository for the historical records created by OSU. The university archives component of the center was established in 1961 to collect, describe, preserve, make accessible to the public, and display historical records created or received in connection with the transaction of university affairs. Closely connected to the university records are the personal papers of several hundred OSU faculty, dating back to the 19th century. More than 300,000 historic photographs document campus buildings, university programs, special events, athletics, faculty, and students. A large collection of memorabilia consists of individual historical items such as programs, posters, brochures, and clippings. See http://scarc.library.oregonstate.edu/ university-history.html for information about collections and other resources pertaining to OSU's history.

The Oregon Multicultural Archives was established by the OSU Libraries in 2005 to assist in preserving the histories and sharing the stories that document the lives and activities of African American, Asian American, Latino/a, and Native American communities of Oregon. Significant collections and projects include the Urban League of Portland Records, the Braceros in Oregon Photograph Collection, the Japanese American Association of Lane County Oral Histories, and the 2012 Oregon Tribal Archives Institute. See http://scarc.library.oregonstate.edu/oma/index.html. The Oregon State University Queer Archives (OSQA) was established in 2014 to preserve and share the stories, histories, and experiences of LGBTQ+ people within the OSU and Corvallis communities. OSQA is committed to fostering intersectional community activism, resisting erasure of queer and trans narratives, and positioning the collection as a space to imagine alternative futures for LGBTQ+ communities. See http://scarc.library.oregonstate.edu/oma/osqa/index.html.

The center's holdings include numerous collections pertaining to natural resources in the Pacific Northwest. A core collection in this area is the Gerald $\mathbf{W}$.
Williams Collection, which includes the personal papers and collected historic photographs of Williams, former chief historian for the U.S. Forest Service. Other significant natural resources related collections include the papers of wildlife conservationist William L. Finley, the Pacific Northwest Stream Survey Records, and the Alderman Farms Films. See http://scarc.library.oregonstate.edu/natu-ral-resources.html for information about natural resources related collections.

The Oregon Hops and Brewing Archives, established in 2013, is the first in the U.S. dedicated to collecting, pre-
serving, and sharing materials that tell the story of hops farming and craft brewing in Oregon. It also highlights related research at OSU dating back to the 1890s. The archive includes oral histories with growers, brewers, and scientists; research reports; grower association records; photographs; and label art from breweries throughout the state. See http://scarc. library.oregonstate.edu/ohba.html.

The McDonald Collection is the university's premier collection of rare books. Fine examples of typography, incunabula, works of famous illustrators, numerous fine bindings, and several first editions are represented in the collection. See http://scarc.library.oregonstate.edu/ omeka/exhibits/show/mcdonald. Other significant rare book collections pertain to the history of the Pacific Northwest and the history of science. See http:// scarc.library.oregonstate.edu/rare-books. html for information on all of the center's rare book holdings.
The center's collections are open to students, faculty, staff, and the public for research from 10 a.m. to 6 p.m., Monday through Friday. The center encourages the use of its collections in undergraduate and graduate classes; instruction services range from general orientation sessions to more specialized sessions with hands-on examination of archival materials in a classroom setting. Tours of the center are available upon request. More information about the center's services and holdings is available at http://scarc. library.oregonstate.edu/. Location: Valley Library.

## VALLEY LIBRARY NW ART COLLECTION

## Ruth Vondracek, Librarian and

 ArchivistThe Valley Library NW Art Collection consists of over 140 contemporary artworks by Northwest artists. The majority of the works were selected in collaboration with the Oregon Arts Commission through the Oregon Percent for Art law; others were donated or commissioned. Located throughout the Valley Library, the collection includes paintings, sculptures, photographs, lithographs, prints and other media. A self-guided tour is available at the information desk. The website http://osulibrary.oregonstate. edu/nwart has images of most of the artworks and information about the artists. Location: Valley Library.

## VISITOR CENTER, OSU

MARINE SCIENCE CENTIER
William Hanshumaker, Public Marine Education Specialist
Extension Sea Grant Faculty
Hatfield Marine Science Center
2030 SE Marine Science Dr.
Newport, OR. 97365-5296
541-867-0167
Website: http://hmsc.oregonstate.edu/ visitor-center
The Visitor Center of the HMSC at Newport features aquariums, interactive exhibits, and hands-on displays that bring to life the marine research conducted by OSU scientists. Special events, educational programs, guided tours and walks are available on request to teach visitors about the ocean and its inhabitants, from undersea volcanoes to the tiniest tide pool creatures.

The Visitor Center serves as a social laboratory for OSU Sea Grant's "Freechoice Learning" initiative.

## THE XYLARIUM (WOOD

 COLLECTION)Barbara Lachenbruch, Curator 541-737-4213
Website: http://woodscience.oregonstate. edu/xylarium

The Xylarium (Wood Collection) contains approximately 2,500 species of wood, primarily from North and South America, Southeast Asia, and Africa.

## OSU ALUNIN ASSOCIATION

Kathy Bickel, Executive Director 725 SW 26th St.
Corvallis, OR 97331
541-737-2351 or 877-678-2837
Email: osualum@oregonstate.edu Website: http://www.osualum.com/
The OSU Alumni Association enriches the lives of alumni and friends by helping them establish lifelong relationships with the university and with each other. Memberships are available to all graduates, former students and friends of Oregon State University. Current students are welcome to join the affiliated OSU Student Alumni Ambassadors, which helps maintain OSU traditions and assists its members in making mentoring connections with alumni.
The OSUAA publishes and maintains the Oregon Stater magazine and an online alumni community at http://www.osualum.com/. It connects with alumni via Facebook, Twitter, Instagram and other social media platforms; organizes alumni gatherings around a variety of athletic, cultural and educational events as well as class reunions, and provides careerbuilding opportunities and education to Beavers before and after graduation.

The association operates the CH2M HILL Alumni Center as one of the showcase conference facilities in the mid-Willamette Valley, hosting events large and small for organizations on and off campus. An elected board of directors helps govern the OSUAA, which is a 501(c)(3) nonprofit organization.

## OBECON STATE UNIVERSITY FOUNDATION

J. Michael Goodwin, President and CEO

## Foundation Bldg.

850 SW 35th St. at Western Blvd. Corvallis, OR 97333
541-737-4218 or 800-354-7281
OSU Portland Center
Union Bank Bldg. 707 SW Washington St., Suite 500 Portland, OR 97205
503-553-3400 or 866-218-8930
Email: OSUFoundation@oregonstate.edu Website: http://osufoundation.org

The Oregon State University Foundation, a private, nonprofit organization, dedicates itself to garnering the resources that enable OSU to achieve excellence in education, research, and outreach. Legally separate from but closely aligned with the university, the foundation leads all fundraising efforts for OSU and manages the philanthropic investments of alumni and friends in the institution.

Private support deepens the university's impact and extends its reach across our state and around the world by helping to make an OSU education accessible to all qualified students, pushing the frontiers of knowledge, contributing to the state's prosperity, and addressing many of the most pressing challenges facing our planet and its people.

On December 31, 2014, the foundation concluded The Campaign for OSU, the university's first comprehensive fundraising campaign, in which more than 106,000 donors made gifts exceeding $\$ 1.1$ billion to advance university priorities. The powerful momentum generated by their support has fueled Oregon State's rise as an internationally recognized public research university. Fundraising efforts are now focused on targeted special initiatives that advance the university's Strategic Plan for creating transformative student learning experiences and building on its greatest strengths and areas of greatest potential impact, such as marine studies.

Annual fundraising totals have averaged more than $\$ 100$ million for the last five years, placing the foundation among top performing like organizations nationally. Governed by a 42 -member volunteer Board of Trustees, the foundation also manages the majority of OSU's composite endowment, valued at more than $\$ 510$ million, which supports Oregon State University and the people it serves.

## COVERNMENT RELATIONS

Jock Mills, Director
652 Kerr Administration Bldg. 541-737-0725
jock.mills@oregonstate.edu
Gabrielle Serra, Director of Federal Relations
626 Kerr Administration Bldg. 541-737-6320
gabrielle.serra@oregonstate.edu

## Karli Olsen, Government Relations

 Coordinator646 Kerr Administration Bldg. 541-737-4514
karli.olsen@oregonstate.edu
Website: http://oregonstate.edu/ government/
Located in the president's office, Government Relations coordinates the university's efforts with state, federal, and local governments. The office provides state and federal legislative information and services to the university community, including assistance in working with the Oregon Congressional delegation, other members of Congress, state legislators, legislative committees, and other lobbying groups. The office also works with the governor's office, state and federal agencies, and other universities.

## UNIVERSITY RELATIONS

 AND MARKETINGSteven J. Clark, Vice President for University Relations and Marketing 634 Kerr Administration Bldg. 541-737-4875
Website: http://communications.oregonstate.edu/
The Oregon State University Division of University Relations and Marketing serves as the communications interface between the university and its various publics. Our work helps our audiences better navigate through the organization. By creating credible, timely, authentic and confident communications opportunities that foster conversations, we heighten awareness and appreciation of OSU's distinctiveness and value. Comprised of the departments of News \& Research Communications, University Events, University Marketing, and Web Communications, each unit is focused on building relationships and advancing OSU's brand and reputation through development of marketing strategies that marry fact-based decision making, innovative practices and superior creativity. We measure success through a variety of metrics, including the quality and diversity of our students and faculty; OSU's reputation of distinction in the three defined signature areas; support from alumni, donors and the Legislature; pride for the institution from our various audiences; and the sense of community we foster on our campuses.

## NEWS AND RESEARCH COMMUNCATIONS

Annie A. Heck, Director 416A Kerr Administration Bldg. 541-737-0790

News and Research Communications serves as the university's primary office for media relations, research communications and internal communications. Promoting OSU's distinction and value through a communications focus on the university's strategic areas of strength, the department builds the university's reputation for excellence in research, education and service to the public. News and Research Communications is part of University Relations and Marketing, OSU's award-winning marketing communications division, which includes Events, Marketing, Trademark Licensing, Web Communications and the Office of the Vice President for University Relations and Marketing.

## ORECON STATE PRODUCTIONS

## David Baker, Director

## 102 Adams Hall

541-737-8323
david.baker@oregonstate.edu
Oregon State Productions is a team of producers who create content for the university from broadcast television to commercials, feature documentaries and web video. We believe every project deserves cinematic treatment and bold storytelling. We tell stories about amazing people who make a difference in the communities they serve. We believe our work advancing OSU, educating the public and bringing attention to the biggest issues of our time is a vital part of OSU's land-grant mission.

## UNIVERSTY EVENTS

Mealoha McFadden, Acting Director 205 Adams Hall 541-737-6522
Email: mealoha.mcfadden@oregonstate. edu

The office of University Events strategizes, plans and implements high-impact events and manages special projects that engage internal and external audiences. Through these activities, we provide outstanding experiences that enhance the understanding of the institution's brand, and help foster support and engagement in the mission and goals that define Oregon State as a leading 21st century land grant university.

## UNIVERSTY MARKETING

## Melody Oldfield, Director

102 Adams Hall
541-737-8956
melody.oldfield@oregonstate.edu
University Marketing creates and executes clear, consistent and engaging strategies that advance the brand reputation of Oregon State University. By sustaining a strong brand image for the university, we promote awareness, understanding and support among OSU students, faculty, alumni, donors and other communities. University Marketing also strives to enhance the university's name recognition and awareness, locally, regionally and nationally, through licensed merchandise bearing registered trademarks of the university.

## DIVISION OF EXTENDED <br> CAMPUS

Lisa L. Templeton, Associate Provost
for Extended Campus
Corvallis, OR 97331-4504
541-737-9204
Website: http://ecampus.oregonstate. edu/about/division

Oregon State University's Division of Extended Campus provides access to a variety of high-quality learning opportunities to students throughout the world. The division is home to Oregon State Ecampus, OSU Summer Session, Open Oregon State and the OSU Ecampus Research Unit, as well as OSU Professional and Continuing Education.

## OREGON STATE ECAMPUS

Lisa L. Templeton, Associate Provost for Extended Campus
4943 The Valley Library
Corvallis, OR 97331-4504
541-737-9204
800-667-1465
Email: ecampus@oregonstate.edu
Website: http://ecampus.oregonstate.edu
ECAMPUS - ONLINE DEGREES AND COURSES
Oregon State Ecampus provides adult learners with access to a high-quality education no matter where they live. Thousands of online and distance students enroll in Ecampus' nationally ranked degree programs and courses each year, all of which are developed by Oregon State University faculty. In the 2016-17 academic year, a total of 21,400 OSU students - nearly 70 percent of the university's student body - took at least one Ecampus class online.
OSU Ecampus is widely regarded as one of America's best providers of online education and has been ranked nationally by numerous publications in each of the last seven years. In January 2017, Oregon State's online bachelor's programs were ranked in the top 10 in the nation for the third consecutive year by U.S. News \& World Report. The recognition was based on student engagement; faculty credentials and training; student services and technology; and peer reputation.

Students interested in pursuing an Oregon State degree online can choose from more than 50 programs, including bachelor's degrees in business administration; fisheries and wildlife sciences; Spanish; computer science (post-baccalaureate); agricultural sciences; and various liberal arts disciplines. Oregon State's online and hybrid graduate-level offerings feature four MBA tracks that include organizational leadership and innovation management; master's programs in industrial engineering and data analytics; a Master of Natural Resources;
and a variety of education programs. Find a complete list of degree and certificate programs at http://ecampus.oregonstate.edu.
Ecampus delivers more than 1,100 courses online throughout the year. A complete list of classes is available online at http://ecampus.oregonstate.edu/soc.

Oregon State's distance learners include full- and part-time students, working and retired professionals, community college students, active-duty and retired military, high school students and individuals who want to further their education with a single college course. Ecampus students and graduates hail from all 50 states and more than 50 countries worldwide.

All curricula for Ecampus courses and degree programs are designed by Oregon State faculty and are held to the same rigorous academic standards as the university's on-campus classes. OSU is accredited by the Northwest Commission on Colleges and Universities, and all Ecampus students who complete degree requirements receive the same diploma and transcript as campus-based students.
Ecampus works closely with more than 700 OSU faculty members and department heads in order to provide students with enriching educational opportunities. Our current online offerings include courses in more than 100 subjects, from anthropology and chemistry to economics and public health.

Oregon State partners with 20 community colleges throughout the state and in Hawaii as a way to help students progress toward a four-year degree. The Degree Partnership Program allows students to take community college and OSU classes concurrently in order to meet the courseload requirement for financial aid and to access other OSU services, including advising. Learn more about taking Ecampus online classes with the Degree Partnership Program at http://partnerships. oregonstate.edu.

## SERVICES FOR STUDENTS

Oregon State Ecampus offers a multitude of support services that meet students' needs and helps them along the path to graduation. Once enrolled online, students have access to a team of Ecampus success counselors, who work with learners to identify strategies to support them in achieving their goals; a dedicated Ecampus librarian and 24/7 library support; free online tutoring and remote test proctoring; disability access services; career counseling; and live, around-theclock technical support on OSU's learning management system, Canvas.

Ecampus works to create a sense of community for its students by sharing news about OSU faculty and students online (http://ecampus.oregonstate. edu/news) and in a quarterly newsletter.

Ecampus also has a strong following on Facebook (http://facebook.com/osuecampus), Twitter (http://twitter.com/osuecampus), Instagram (http://instagram. com/osuecampus) and LinkedIn (http:// linkedin.com/company/oregon-stateecampus) where students can engage with fellow students, Beavers fans and ask questions of the Ecampus staff.

Ecampus also provides assistance by email (ecampus@oregonstate.edu), phone (800-667-1465) or in person to prospective and current students who are interested in taking Oregon State courses online and at a distance.

## SERVICES FOR FACULTY

The Ecampus staff provides an array of services for faculty, including course development training workshops, facility coordination and liaison activities with partnering community colleges and universities. Find a complete list of training sessions and workshops online at http://ecampus.oregonstate.edu/faculty/ training.
The Ecampus Faculty Forum is an annual showcase of excellence in online teaching that features interactive, wideranging discussions on how Oregon State applies its academic prestige to online education. Held each spring on campus, the event gives faculty the opportunity to hear colleagues discuss innovative teaching methods, best practices and relate their experiences in online course development. More than 250 OSU faculty, administrators and staff attend the event annually.
Ecampus operates a program called QM Online Course Design, which seeks to improve student success in online courses by focusing on continuously improving course design. Using the independent and research-based Quality Matters (QM) peer review process, the faculty-driven QM program examines course design, not the content itself or the teaching.

Having an online course peer reviewed is an ideal way for OSU faculty to receive fresh ideas from colleagues who can offer positive feedback to create more active learning. The Ecampus Course Development and Training team conducts training sessions year-round, and stipends are awarded when one reviews a peer's course. Learn more at http://ecampus. oregonstate.edu/faculty/qm.

## OSU SUMMER SESSION

Claire Cross, Director
4943 The Valley Library
Corvallis, OR 97331-4504
541-737-1470
800-375-9359
Email: summer.session@oregonstate.edu Website: http://summer.oregonstate.edu
OSU Summer Session serves more than

7,000 students annually on the Corvallis campus and at the OSU Hatfield Marine Science Center on the Oregon coast. Attending summer term is an ideal way to expedite the journey to graduation. It allows students the ability to take classes that are difficult to get into during other terms, stay on track or jump ahead, and gives students the opportunity to improve their GPAs, perform research with faculty, and seek professional development or enrichment courses.

During the summer term, Oregon State offers more than 1,700 on-site and online courses in over 100 subjects, from agriculture to zoology. Courses range in length from one week to 11 weeks, with most courses running in three-, four- or eight-week sessions. Sequential courses (e.g., general chemistry, biology or Spanish) enable students to complete a full year's worth of a subject in one term.

OSU Summer Session courses are held to the same rigorous academic standards as courses offered during the rest of the school year. Among the benefits of enrolling in the summer term are the smaller class sizes and increased accessibility to instructors.

The full-time summer course load for undergraduates is 12 credits; for graduate students, it is 9 credits. Undergraduates may, however, take up to 19 credits, and graduate students up to 16 credits with advisor approval.

Nonresident students enjoy considerable tuition savings during summer term because all students pay in-state tuition (not eligible for OSU Ecampus, VetMed or PharmD classes or INTO students).

Summer classes are open to all students who meet course requirements. Students who have been academically suspended from the university are ineligible to enroll in Summer Session. For application details, call the OSU Office of Admissions at 800-291-4192.

The OSU Summer Session planning guide, available in December, is the primary summer publication and contains important information regarding summer admission, registration procedures and deadlines, the summer calendar, tuition and fees, financial aid and housing. For a free copy of the Planning Guide, stop by the Office of the Registrar in the Kerr Administration building or the OSU Summer Session office on the fourth floor of The Valley Library, or call 800-375-9359. For the most current information, go online to http://summer. oregonstate.edu.
Beginning in December, updated descriptions and schedule information for OSU Summer Session courses are available online at http://summer.oregonstate.edu. Please refer to this website often, as course availability and offerings are updated throughout the summer.

## OPEN OREGON STATE <br> Dianna Fisher, Director

541-737-8658
Email: dianna.fisher@oregonstate.edu Website: http://open.oregonstate.edu/
Open Oregon State works with OSU faculty to create open educational resources (OER) that can be shared in their oncampus and Ecampus courses and digital media collections around the world.

Open Oregon State aims to take advantage of OSU's national reputation in the field of online learning to establish a competitive OER program that focuses on reusable digital components. In partnership with OSU Libraries and Press, this unit also creates interactive, free, online textbooks for students.

Other examples of OERs include full courses, course modules, syllabi, lectures, homework assignments, quizzes, classroom activities, pedagogical materials, and games.

Learn how you and your department can partner with Open Oregon State at http://open.oregonstate.edu/ opportunities.

## ECAMPUS RESEARCH UNIT

Kathryn Linder, Director
4943 The Valley Library
Corvallis, OR 97331-4504
541-737-4629
Email: kathryn.linder@oregonstate.edu Website: http://ecampus.oregonstate. edu/research

The Ecampus Research Unit makes research actionable through the creation of evidence-based resources related to effective online teaching, learning and program administration toward the fulfillment of the goals of Oregon State's mission.

Specifically, the research unit conducts original research, creates and validates instruments, supports full-cycle assessment loops for internal programs, and provides resources to encourage faculty research and external grant applications related to online teaching and learning.

Established in 2015, the Ecampus Research Unit procured more than $\$ 1.1$ million for university initiatives in its first year; launched a weekly podcast, "Research in Action," to address topics and issues facing researchers nationwide; and published a pair of joint studies on the positive effects closed captions and video transcripts have on student learning (http://ecampus.oregonstate.edu/ news/2016/closed-captions) and how many institutions are confused about how to implement captions (http:// ecampus.oregonstate.edu/news/2016/ higher-education-closed-captions).

With nationally ranked online programs delivered by Oregon State Ecampus, OSU can make significant contributions to the field of online teaching and
learning research in the following four areas: access, quality, administrative excellence; and adult learners.
The Research Unit houses a competitive award program to fund Oregon State faculty in their online learning research endeavors. Learn more about the Ecampus Research Fellows (ECRF) program, its goals, timeline and the materials you'll need to apply by visiting http://ecampus. oregonstate.edu/research/fellows/.

## OSU PROFESSIONAL AND CONTINUING EDUCATION (PACE) Melanie Mitchell, Director

541-737-4197
Website: https://pace.oregonstate.edu/
The OSU Professional and Continuing Education unit provides continuing education and training for professionals, organizations, associations and K-12 students throughout the state and beyond.

PACE works with colleges, businesses and professional associations to develop new on-site and online educational offerings in formats that include workshops, webinars, short courses, conferences and certificate programs. Services for businesses and government agencies include fully customized workforce training on a wide array of topics ranging from leadership and human resources to IT and much more.
Our list of renowned online and online offerings attracts learners from across Oregon and the nation, as well as around the globe. Featured course categories include:

- The Business of Craft Beer and Cider
- Our offerings for aspiring craft brewery entrepreneurs and brewing professionals draw on OSU's leading role in fermentation science education and research.
- Innovative Gardening and Permaculture Design Courses
- PACE's innovative online offerings attract enthusiasts and professionals from around the globe.
- Business and IT Professional Certificates
- PACE is partnering with OSU's College of Business to offer a complete array of training solutions for business, IT and marketing professionals, including certificate series such as Digital Brand Management, Business Analysis, Web Development and more.
- Farm and Agriculture Management Courses
- As part of PACE's proud affiliation with OSU Extension, we offer a variety of flexible management and development solutions that support Oregon's thriving farm and ranch industries.
- Our notable industry-specific partnerships include a series of
online workshops for pharmacists developed in partnership with OSU College of Pharmacy. These offerings include an innovative, first-in-thenation online training to prepare pharmacists in Oregon to prescribe hormonal contraceptives. A number of other states are following Oregon's lead in this area and are looking to our training as a national model.

## Services for Learners, Faculty/

 Colleges and Partner Agencies PACE works with works with OSU colleges, businesses and government agencies on instructional design and program development for specific audiences, as well as enrollment management, customer relationship management, event management and marketing. PACE also provides assistance with grant writing and often partners with colleges or departments to provide an outreach vehicle for research in the form of an online continuing education program.Contact us if you would like to discuss how your program might be adapted into an educational offering for professionals or lifelong learners.

0regon State University offers academic Pathway and English language training programs through the INTO OSU Center. Personalized support tailored to international students' educational, social and cultural needs prepares them to progress with confidence as degree-seeking students. INTO OSU provides international students with learning experiences and services that promote academic, professional and personal success.

INTO established its first partnership in the U.S. at Oregon State University in 2008. Located in the new International Living-Learning Center, INTO OSU offers outstanding academic programs, technology-assisted learning, a welcoming, interconnected community of students from across the U.S. and the world, strong student support programs and state-of-theart facilities. The innovative Pathway and English language programs offered at the INTO OSU Center are delivered by highly qualified OSU teaching faculty. INTO OSU also provides a breadth of academic preparation and support services designed specifically to meet the unique needs of its international students.

## FACILITIES

The International Living-Learning Center opened in September 2011 and is the home for INTO Oregon State University. This state-of-the-art building offers a world-class student experience where international and domestic students live and learn together in the heart of the OSU campus. This building includes residential accommodations for more than 300 international and domestic students, 26 classrooms, a large and spacious auditorium, computer labs, a café, market and comfortable open spaces where students can socialize. In the fall of 2015 , INTO OSU opened the newly renovated Cascade Hall. This modern building is just to the north of the ILLC and includes 11 classrooms, a computer lab, a large student lounge with stadium seating, and a quiet study room for students.

## STUDENT SERVICES

The INTO OSU Student Services team provides a range of co-curricular programs and services promoting social, personal and academic wellbeing. Upon arrival at OSU, the team helps students settle in to life in Corvallis, provide social opportunities and a variety of resources tailored to the specific needs of international students. Whether it's a question about making an appointment with a doctor, finding a place to live, renewing your visa or anything else, there will always be someone available to help you.

## INTERNATIONAL

STUDENT ORIENTATION
Orientation involves a variety of important events that prepare students to be successful at OSU, including information about maintaining your visa status, registering for OSU classes, health requirements and insurance coverage. Attendance at International Student Orientation is required of all international students, both direct and INTO OSU.

Other important activities during orientation include: opening an OSU email account, getting an OSU ID card, learning about OSU community expectations and taking a tour of the campus. It's also a great time to make new international and American friends and attend the many social events planned on campus.

## VISA AND

## IMMIGRATION SUPPORT

Upon arrival, the university's Office of International Services (OIS) office in the Division of International Programs, in conjunction with the INTO OSU Student Services team, will provide information, support and guidance on maintaining your immigration status while you are in the U.S. These can include questions about renewing a student visa, making sure your I-20 or DS-2019 status is always current, bringing your dependents, employment, traveling and more. During your program, in conjunction with the INTO OSU Academic Support and Finance teams, they will support you through your program and issue any documentation you may need to support your visa status. Students can come in for walk-in hours, or make individual appointments with an International Student Adviser or Sponsored Student Adviser at the Office of International Services (OIS). In addition, workshops are held throughout the year on topics such as employment, scholarships and travel.

## OSU OFFICE OF

 INTERNATIONAL ADMISSIONSThe OSU Office of International Admissions is housed in the INTO OSU Center. The Office of International Admissions works closely with prospective international students from inquiry to admission for a variety of programs including: General English, Academic English, Pathway Programs (Undergraduate and Graduate), Undergraduate, Post-Baccalaureate, Professional (MBA, PharmD, and DVM), and Non-degree Exchange Students. All other graduate programs (Master's and PhD) are served by the Graduate School. Visit the Office of International Admissions online at http://admissions.oregonstate.edu/ international.

## SCHOLARSHIPS

Oregon State University and INTO Oregon State University are proud to offer a wide variety of scholarships for exceptional international students. Scholarships are available to undergraduate students, graduate students and Pathway students alike. For more information about these exciting scholarship opportunities, please visit http://admissions. oregonstate.edu/international/scholar-ships-international-students. Scholarships are available to undergraduate students, graduate students and Pathway and English language students.

## UNDERGRADUATE PATHWAY

Undergraduate Pathway programs combine intensive language study, academic skills development and academic course work in a carefully constructed program designed to prepare students for rigorous OSU degree programs.
Three types of Undergraduate Pathway programs are available:

- Standard 3-term Pathway: leads students through their first year and upon completion of all progression requirements, students will move on to their degree-seeking program as second-year, freshman students.
- 2-term Accelerated Pathway: This program is composed of two terms of Pathway programming which count toward the student's undergraduate degree.
- 1-term Accelerated Pathway: This program is composed of one term of Pathway programming which counts toward the student's undergraduate degree.
The Undergraduate Pathway programs are designed for students who:
- Want to study for an undergraduate degree in the U.S.
- Need to improve their English language skills
- May have lower GPAs than required of direct-entry students
- Desire additional academic, language, and cultural support in order to succeed during their first year at a U.S. university
- Any or all of the above

The Pathway program is for students who want to take the fast-track to success. Pathway students receive the highest level of support during their transition abroad, making it an ideal choice for international students who are driven to achieve high academic goals.

## Undergraduate Pathway

programs are available in:

- Business
- Engineering
- Science
- Computer Science
- Sustainable Planet
- Food Science and Technology
- Exercise and Sport Science
- General
- General - Liberal Arts Focus
- Public Policy
- Women and Gender Studies
- *Both the 1-term and 2-term Accelerated Pathway programs lead to any undergraduate major at OSU. No specific tracks are offered.

## Pathway Program

## Core Academic Courses

The Undergraduate Pathway program is comprised of OSU credit-earning courses in math, science and writing. From the first day of classes, INTO OSU Pathway students study alongside domestic students in many of the same courses.

For more information please visit http://www.intostudy.com/en-gb/ universities/oregon-state-university/ programs.

## GRADUATE PATHWAY <br> PROGRAM

The innovative Graduate Pathway program is a pre-Master's program that provides international students a direct path to various graduate degrees at the university. The program gives students the academic foundation, essential language skills and GMAT/GRE test preparation to successfully move on to the Master's degree.

Direct admission to the Graduate School and respective department-based graduate programs at Oregon State University is highly competitive with only the best and most prepared students being selected. Many students who meet all the minimum entry requirements are not admitted because of the highly competitive nature of the programs.

The Graduate Pathway program is designed for international students who:

- Require additional preparation to be admitted directly to the Graduate School
- Fall short of meeting the minimum GPA or test score requirements
- Need further English development
- Need to improve study skills for success in their chosen field of study
- Any or all of the above

## Graduate Pathway

Programs are available in:

- Master of Business Administration (MBA)
- Chemical Engineering
- Civil Engineering
- Comparative Health Sciences
- Computer Science
- Construction and Engineering Management
- Electrical and Computer Engineering
- Environmental Engineering
- Industrial Engineering
- Mechanical Engineering
- Mechanical Engineering with Materials Science Emphasis

Three types of Graduate Pathway Programs are offered:

- Standard 3-term Pathway (available for any track offered)
- 2-term Accelerated Pathway (available for the MBA Pathway)
- 1-term Accelerated Pathway (available for the MBA and all Engineering Pathway programs)

## CORE ACADEMIC COURSES

The academic courses included in the Graduate Pathway programs are carefully chosen to ensure success in graduatelevel studies. Students will be advised on which modules to follow during their academic orientation at the INTO OSU Center.
For more information please visit http://www.intostudy.com/en-gb/ universities/oregon-state-university/ programs.

## ACADEMIC ENGLISH

## Program Description

The Academic English program at INTO Oregon State University prepares international students for university study in the U.S. The academically rigorous program provides international students with high-quality English language instruction and the academic skills to succeed at OSU through development of:

- Listening
- Speaking
- Reading
- Writing
- Standardized test preparation
- Academic study skills

Program Highlights

- Intensive English to prepare for university study
- Academic advising throughout the program
- Small classes of 18-20 students
- Highly-trained and experienced instructors
- Participation in the Conversant Program
- Use of a fully-equipped Learning Center with state-of-the art technology

## Program Outcomes

After finishing this intensive program successful students will be able to:

- Interact comfortably in the U.S. classroom with professors and fellow students
- Understand U.S. values in an academic setting
- Present their spoken and written ideas accurately and effectively in English
- Write research papers with proper use of citations and references
- Use the Internet and OSU library databases to conduct academic research
- Read, understand, and critically
evaluate academic texts
- Understand and use vocabulary common to academic disciplines
- Take useful and accurate notes in academic lectures and presentations
- Develop and deliver oral presentations

## GENERAL ENGLISH PROGRAM

## Program Description

The General English program consists of 5 -week sessions designed for students of all levels of English who want to develop communication
skills in many social and professional situations while learning about American culture.

## Program Highlights

- English instruction for personal or employment motives
- Flexible entry dates
- Flexible duration of study
- Access to all OSU campus facilities and events
- Academic advising throughout the program
- Small classes of 18-20 students
- Use of a fully-equipped Learning Center with state-of-the art technology

## Program Outcomes

The General English program allows students to tailor their program to suit their personal, professional, and academic goals.

General English students will be able to:

- Improve general language proficiency in listening, speaking, vocabulary, reading and writing
- Expand career prospects by improving English language proficiency
- Develop conversation skills for realworld situations such as greeting, initiating a conversation, turn-taking, interrupting, asking for information
- Read and understand schedules, signs, ads and other authentic materials
- Understand basic cultural values and behaviors of Americans in order to interact appropriately
- Have the opportunity to interact with native speakers
- Progress to Academic English for further study at OSU

## STUDY ABROAD WITH INTO OSU

## Program Description

Study Abroad at INTO OSU is designed for students who want one or more terms of study abroad experience at a top US university. The program provides students with a classic American university experience while taking a variety of classes. Students will have access to all the support services available at the university and INTO OSU, including exceptional one-on-one tutoring, social and cultural trips and more.

The length of the Study Abroad program will vary depending on a student's needs. The program can be customized for different levels of English and for specific academic interests. There are fall, winter, spring and summer start dates available. Additional program and admission information can be found at http://admissions.oregonstate.edu/international/programs/ study-abroad-osu.

With prior approval from your home university, the academic courses you will study at OSU can be used to gain credits toward your undergraduate degree in your home country. This program is not designed as a route to degree-seeking OSU programs, though your credits may apply to an OSU degree if you seek admission.
This program consists of three parts:

## Study Abroad with English (SAWE)

## Part 1

Students study full-time in the Academic English program. Students have an opportunity to progress to Study Abroad with English Part 2 upon successful completion of Academic English level 4 and meeting internal progression criteria.

## Study Abroad with English (SAWE) Part 2

Students are able to select from OSU undergraduate credit bearing courses offered by the College of Liberal Arts and study alongside domestic and international students while continuing to take 6-12 hours of academic English classes. Students have an opportunity to progress to the Visiting International Students Program upon successful completion of Academic English core level 6 courses or ALS160/ALS162 and meeting internal progression criteria.

## Visiting International Students Program (VISP)

Students can select from a range of OSU credit-bearing courses offered by the College of Liberal Arts. Optional academic English courses are also available.

All OSU undergraduate College of Liberal Arts courses taken through the VISP and SAWE Part 2 program are transferrable with prior approval from the student's home university (except intensive English courses, if selected).

Departmental approval is required for students seeking to register for a course outside the College of Liberal Arts.

For a comprehensive list of all current youth programs at Oregon State University, please visit http://oregonstate.edu/ precollege/main_view.

## OFFICE OF PRECOLLECE PROCRAMS

## Kami Hammerschmith,

Administrative Program Assistant, kami.
hammerschmith@oregonstate.edu, 541-737-0534

Email: precollege@oregonstate.edu Website: http://precollege.oregonstate. edu

General Information: 541-737-9424
OSU's Precollege Programs offers a variety of on- and off-campus academic programs designed to enhance learning and introduce youth to the college community. During the summer months and throughout the academic year, K-12 students participate in programs that range from several hours to several weeks. Our Precollege Programs provide compelling experiences and stimulating learning environments for a diverse group of students.

## OREGON 4-H

Offers a variety of educational opportunities for youths in grades K through 12. The program is part of the OSU Extension Service and is active in all Oregon counties. Opportunities for leadership development, community service, and learning about topics as diverse as natural resource management, foods and fibers, animal science, and engineering abound. All 4-H educational activities are designed to help participants develop lifelong skills that will prepare them for future success. To learn more about local opportunities, contact the OSU Extension office in your county or call the State 4-H Office at 541-737-4444 (HHHH).

## TAG PROGRAMS

Specifically designed academic and social experiences for gifted, talented, and high-ability youth.

## Adventures in Learning

Combines stimulating academic and social opportunities in a fun-filled 10-day experience exposing participants to exciting and sophisticated areas of interest not usually available during the regular school year. The program is designed for gifted, talented and high-ability learners who have completed grades 5 or 6 and who are interested in fast-paced, challenging opportunities.

## Expeditions

Provides gifted, talented, and high-ability youth who have completed grades 3 or 4 a two-week, half-day educational experience with courses taught by experts in a variety of topics. Students are introduced to engaging, intriguing subjects in an enjoyable and nurturing environment.

## Outside the Box

Enables gifted, talented, and high-ability youth who have completed grades 7 or 8 to pursue topics of interest through a unique combination of in-depth, challenging academic explorations and social interaction with intellectual peers. Program participants can anticipate excitement, discovery, and challenge in the program's offerings which are designed specifically to address their interests and abilities.

## Winter Wonderings

Offers a variety of challenging Saturday courses designed specifically for gifted, talented, and high-ability 3rd, 4th, 5th and 6th graders. Participants discover new and exciting areas of study in a fastpaced learning environment with their social and intellectual peers

## OSU KIDSPIRIT SUMMER DAY CAMPS

Sponsored by the College of Public Health and Human Sciences, is an innovative youth summer day camp program, offered Monday-Friday for children grades K through 12 . Youth may attend morning, afternoon, or all day sessions. Programs are based on grade levels. All activities are coeducational. All abilities are welcome! Group leaders will help in classes and escort children to activity areas. Head instructors plan, organize and lead activities.

## Junior Beavers

Grades K through 2, have an established daily program with variations in class offerings from session to session, including skill development and supplementation in recreational sports, art and educational classes.

## Dam Builders

Grades 3 through 5, choose the groups of classes that they take from session to
session. Classes to choose from include athletics, drama, art, science, music, computers and lots more!

## Duck Busters

Grades 6 through 8, choose all of their classes from session to session. Their classes are designed for their age group and skills. Classes include biking, rock climbing, triathlon, art, inventions and lots more!

## Teen Leadership Camp

Grades 9 through 12, is for teens who want to develop their leadership skills by working with youth. They will be facilitated by a coordinator, become certified in First-Aid and Adult and Child CPR, and work directly with the KidSpirit campers by assisting group leaders and head instructors.

## Counselors in Training

Grades 9 through 12, "CIT" is for teens who want to develop their leadership skills by working with youth, but will work with group leaders and head instructors. CIT teens will have more responsibilities and will be given more leadership opportunities.

## Girls on the Run of

## the Willamette Valley

Girls on the Run, is a life-changing experiential learning program for girls in grades $3-5$ and $6-8$, that combines training for a 5 K event with self-esteem enhancing work-outs. The fun, interactive curriculum is designed to educate and prepare preteen girls for a lifetime of self-respect and healthy living.

## KIDSPIRIT SPORT PROGRAMS

KidSpirit offers a variety of recreation classes throughout the summer for participants ages $2-18$. Classes include gymnastics, archery, and tennis. Each of our programs focus on obtaining basic skill sets while learning to interact with other participants in a fun, safe, and supportive environment

## HIGH SCHOOL JOURNALISM INSTITUTE

Co-hosted by OSU and The Oregonian, this camp seeks to nurture budding journalists underrepresented in the field. With guidance from professionals in the field, participants use real journalism skills to report and photograph a 32-page newspaper, as well as blog and produce multimedia pieces for The Oregonian's website. They will learn the value of making a difference by covering multiple perspectives in the news. Students must apply and be selected to participate in the eight-day, no-cost institute.

## CAMPUS FIELD TRIPS PROGRAM

The Office of Precollege Programs hosts middle and high school visits to Oregon State University during the school year. Teachers and group leaders are encour-
aged to plan visits to explore careers, experience OSU, or enhance current curriculum. Register to request a visit using the Precollege website at http://precollege.oregonstate.edu.

## STEM ACADEMY@OSU

STEM Academy@OSU offers educational enrichment opportunities that provide youth a direct connection to the STEM (Science, Technology, Engineering, and Math) fields. Programs include afterschool girls' science and engineering clubs, summer day camps, workshops, and outreach programs. Classes are small, hands-on, informal, project-oriented, and open to all interested students. Tuition costs vary, depending on the program or activity.

For more information, contact catherine.law@oregonstate.edu or STEM. academy@oregonstate.edu

Website: http://stemacademy.oregonstate.edu/

## SUMMER EXPERIENCE IN SCIENCE AND ENGINEERING FOR YOUTH (SESEY)

SESEY is primarily for high school girls and ethnic minorities traditionally un-der-represented in science and engineering, and for science, math, or physics teachers who are interested in developing curricular materials to promote engineering activities in their classrooms.

Students come to the OSU campus for a one-week residential summer camp and are paired with a faculty mentor in engineering for a mini-research project in areas such as microscale technologies, plastics recycling, drug formulation and delivery, bioprocessing, microelectronics, and environmental engineering. There are also group learning activities (computer instruction, communication skills, field trips) and social activities. Students are exposed to science and engineering as viable and interesting career paths. Career counseling is provided by faculty mentors and OSU graduate and undergraduate students who work with the students throughout the week as research project advisors and friends. Students live in OSU housing, so they receive a complete college experience. For more information, contact Skip Rochefort, skip.rochefort@oregonstate.edu.

## SCIENCE AND MATH <br> INVESTIGATIVE LEARTNING EXPERIENCES (SMILE) PROCRAM

Kyle Cole, Director
kyle.cole@oregonstate.edu
541-737-8262
18 Gladys Valley Center
Website: http://smile.oregonstate.edu/
OSU's SMILE (Science and Math Investigative Learning Experiences) Program collaborates with 15 school districts and charter school partners in Oregon to increase the number of historically underrepresented minority, low-income, and other educationally underserved students who graduate from high school prepared to go on to college and pursue careers in math, science, engineering, health professions, and teaching. More than 600 students and 50 teachers in 34 schools across the state participated in SMILE last year. The program functions as a pipeline that takes students from 4th to 12th grade and on to postsecondary education in STEM programs and careers.

SMILE provides a comprehensive program of science and math enrichment and college readiness through weekly after-school clubs, field trips, on-campus college-connection challenge activities, a bridge-to-college summer program for SMILE graduates entering OSU, and professional development for classroom teachers serving as SMILE Club advisors.

## ADDITIONAL YOUTH <br> PROCRAMS

## BUG ZOO

The Oregon State University Bug Zoo is a student group interested in educating its members, other students and the public about the joys and importance of insects, other arthropods and reptiles and amphibians. Bug Zoo educates through live displays and hands-on activities. For more information, contact Sujaya Rao, 541-737-9038, email: sujaya@oregonstate.edu. Website: http://entomology. oregonstate.edu/content/bugzoo.

## DISCOVERY DAYS

Discovery Days is an outreach program involving many of the science departments at OSU as well as departments and schools from the College of Agricultural Sciences and the College of Engineering. This two-day event, held in both the fall and spring terms, features displays and hands-on activities from different departments that are suitable for all ages. For more information, contact Margie Haak, 541-737-6716, email: margie.haak@ oregonstate.edu. Website: http://www.science.oregonstate.edu/DiscoveryDays/.

## EDUCATION/K-12 OUTREACH/

 CHEMISTRY OUTREACHThe Department of Chemistry has an active program to bring chemistry to the local community. Through the Outreach Committee, opportunities are available to tour labs, do hands-on experiments, and have chemistry faculty and students to bring chemistry to schools. For more information, contact Margie Haak, 541-737-6716, email: margie. haak@oregonstate.edu. Website: http:// chemistry.oregonstate.edu/content/ service-profession-outreach-community

HEALTHY YOUTH PROGRAM AT THE LINUS PAULING INSTITUTE The Healthy Youth Program provides educational programs with hands-on activities to children (preschool-grade 12) highlighting the importance of healthful eating and physical activity. Our vegetable gardens provide fresh produce for all our programs, and link a healthy and active lifestyle with a sustainable environment. Contact: Casey Bennett, Program Coordinator, Healthy Youth Program, Linus Pauling Institute, 307 Linus Pauling Science Center, Corvallis OR 97331. Email: casey.bennett@oregonstate.edu; 541-737-8014. Website: http://lpi.oregonstate.edu/healthyyouth

## SUMIMER DAY CAMPS

Chefs in the Garden: Ages 6-8 years. Children learn how to grow their own food, explore new recipes and fun ways to eat healthful foods, cook and eat lunch together in the garden, and learn how a healthy environment is part of a healthy lifestyle. They also get involved in environmental science activities, arts \& crafts, and plenty of physical activities.

Junior Master Chefs: Ages 8-11 years. Children harvest fresh produce from the Pauling Pride Garden and engage all their senses as they explore and prepare a variety of recipes. They learn about kitchen safety, are exposed to various culinary techniques, eat lunch together, and engage in physical activity games outdoors.

Master Chefs: Grades 6th-8th. Youth explore and prepare recipes from around the world and end the week with a cooking competition. They harvest fresh produce from the nearby Pauling Pride Garden. Youth develop teambuilding skills, learn about kitchen safety, experiment with new foods, and learn various culinary techniques.

## CLASSES DURING

## THE SCHOOL YEAR

## Fresh Grown Cooking for Kids:

 Ages 6-11 years. Youth learn basic nutrition, cooking, and kitchen safety skills and engage all their senses as they explore nutritious recipes and prepare meals together. They work together insmall groups to prepare two to three recipes at each class. Recipes incorporate seasonal produce, often harvested from the nearby Spartan Garden.

Master Chefs: Grades 6th-8th. Middle school students explore and prepare recipes from different parts of the world. In the last class of the session, students participate in a cooking competition with a judging panel. Participants develop teambuilding skills, learn about kitchen safety, and experiment with new foods and various culinary techniques.

## Afterschool Garden Clubs:

 Grades K-12. Garden clubs are offered at Lincoln Elementary School, Linus Pauling Middle School, and Corvallis High School.Healthy Sprouts: Preschool children with their parent. Preschool children and their parents listen to stories, engage in fun educational games, learn about the world around them, and get involved with arts \& crafts and physical activity games to prepare them for kindergarten. During each class the children, together with their parents, prepare and enjoy a healthy and nutritious snack.

## INNER CITY YOUTH INSTITUTE (ICYI)

ICYI is a collaborative partnership among the OSU College of Public Health and Human Sciences, the US Forest Service and Pacific Northwest Research Station. The program encourages urban youth to explore careers in natural resources, attain higher education in natural resource careers and understand the interrelationships between the use of natural resources, the people who use them and the land that sustains their community. For more information, visit http://extension.oregonstate.edu/washington/4h// icyi or contact Stacey Sowders, Program 4-H ICYI Program Coordinator: 503-821-1125.

## OREGON WOOD MAGICTM

Oregon Wood Magic ${ }^{\mathrm{TM}}$ is a 2 hour 45 minute interactive experience designed to educate elementary school teachers and their students about the wonders of wood as a material. For more information, visit http://woodscience.oregon-state.edu/oregon-wood-magic or call Michelle Maller, 541-737-4259, Wood Magic Coordinator, michelle.maller@ oregonstate.edu.

## OSU SUMMER VETERINARY EXPERIENCE

The OSU Summer Veterinary Experience is a hands-on learning experience for academically talented, low-income and minority high school students interested in veterinary medicine. Mentors and instructors will work with each student to discover and explore her or his talents and understanding of the basic sciences, animal and human health, and social sciences. For more information, visit http://vetmed.oregonstate.edu/osu-summer-veterinary-experience or contact Tess Collins, 541-737-6985, tess.collins@ oregonstate.edu.

## PET DAY AND OPEN HOUSE

Pet Day and Open House provides outreach and information about veterinary science, and careers in veterinary science and animal care. It is open to the general public the first Saturday in May at Magruder Hall on campus. For more information, contact Lyn Smith-Gloria, lyn.smith-gloria@oregonstate.edu, 541-737-3844. Website: http://vetmed.or-egonstate.edu/pet-day.

## RECRUITMENT AND RETENTION OF WOMEN AND MINORITIES IN ENGINEERING

Committed to bringing more woman and minorities to OSU to become tomorrow's engineers through our three pronged approach of Recruitment, Retention and Research. Activities include K-12 school visits, sponsoring teacher/career counselor workshops, OSU Engineering tours, developing lesson plans for K-12 classes. For more information, contact Ellen Momsen, 541-737-9699, email: ellen.momsen@oregonstate.edu. Website: http://wme.engr.oregonstate.edu/.

## SCIENTISTS AND TEACHERS IN EDUCATION PARTNERSHIPS (STEPS)

Scientists and Teachers in Education Partnerships (STEPs) The STEPs program is a STEM outreach program at Oregon State University which strives to enhance 6-12 science, math, health, and engineering education by forging collaborative partnerships between Oregon scientists, teachers, and students. This goal is accomplished through activities such as teacher workshops, science events for students, and classroom equipment loans. Website: http://biochem.science. oregonstate.edu/content/steps-scientists-and-teachers-education-partnerships. For more information, Kari van Zee, vanzeek@science.oregonstate.edu; Dan Arp, Director, Dan.J.Arp@oregonstate.edu.

## SUITCASE OCEANOGRAPHY

Suitcase Lessons are portable modules for K-6 students based on the FOSS science curriculum. They are designed with complete materials and instructions so any member of the OSU oceanography faculty, graduate student, or a scientist working at an oceanography institute can go to a classroom and successfully present the lessons. These kits can be checked out from CEOAS. Outreach opportunities include developing more lessons or creating suitcase lessons of your own. For more information, contact Marta Torres, 541-737-2902, email: mtorres@coas.oregonstate.edu. Website: http://blogs.oregonstate.edu/suitcase/.

## WAVE RESEARCH LABORATORY TOURS

The O.H. Hinsdale Wave Research Laboratory (HWRL) strives to expose students to engineering and research through guided tours of the wave lab. The tours include an introduction to coastal engineering, demonstrations of the wave lab equipment and experiments being conducted in the laboratory, connecting these concepts to the State of Oregon Teaching standards for Middle and High school students. Tours can range from 30 to 60 minutes. For more information, contact Alicia Lyman-Holt, 541-737-3665, email: alicia.lyman-holt@ oregonstate.edu. Website:http://wave. oregonstate.edu/.

The College of Agricultural Sciences performs four vital servicesteaching, research, extension, and international agriculture-that are closely tied to the human and natural resources of the state of Oregon and that support the economic, environmental, and community welfare of the state, the Pacific Northwest, the nation, and the world.

$\square$he College of Agricultural Sciences offers educational programs to serve the needs of individuals interested in pursuing careers in agribusiness; agriculture; animal, plant and food systems; environmental economics and policy; fisheries and wildlife; food science; range and natural resource management; veterinary medicine; and more. The faculty realizes the importance of individual aims and abilities and, through course work, internships, advising, and extracurricular activities, tries to help each student discover and develop social, aesthetic, and ethical values as well as professional competence.

Undergraduate students may pursue the following bachelor of science degree programs through the College of Agricultural Sciences:

- Agricultural Business Management
- Agricultural Sciences
- Animal Sciences
- Bioresource Research
- Botany
- Crop and Soil Science
- Environmental Economics and Policy
- Fisheries and Wildlife Sciences
- Food Science and Technology
- Horticulture
- Rangeland Sciences
- Sustainability-Double Degree Graduate students may pursue the following degree programs:
- Agricultural Education (MS)
- Animal Science (MS, PhD)
- Applied Economics (MA, MS, PhD, MAIS)
- Applied Systematics in Botany (PSM)
- Biological and Ecological Engineering (MEng, MS, PhD)
- Botany and Plant Pathology (MA, MS, PhD)
- Crop Science (MS, PhD)
- Entomology (MA, MS, PhD)
- Fisheries and Wildlife Administration (PSM)
- Fisheries Management (Certificate)
- Fisheries Science (MS, PhD)
- Food Science and Technology (MS, PhD)
- Horticulture (MS, PhD)
- Interdisciplinary Studies (MAIS)
- Public Policy (MPP)
- Rangeland Ecology and Management (MS, PhD)
- Soil Science (MS, PhD)
- Toxicology (MS, PhD)
- Water Resources Engineering (MS, PhD)
- Water Resources Policy and Management (MS)
- Water Resources Science (MS, PhD)
- Wildlife Management (Certificate)
- Wildlife Science (MS, PhD)

## DOUBLE DEGREES

Undergraduates with majors in the College of Agricultural Sciences can earn a second degree in education, innovation management, international studies, or sustainability. See the College of Education, College of Business, International Programs or Department of Forest Ecosystems and Society sections of this catalog for more information.

## HIGH SCHOOL PREPARATION

Advances in the technology and sciences of agriculture and natural resources make the study of biological, physical, and social sciences and communications vital. High school agricultural science and technology (AST) courses also help prepare students for some fields of study. The following preparation in high school is strongly recommended for students who plan to enter a College of Agricultural Sciences degree program: English, 4 units; mathematics, 3 units; physics, chemistry, and biology, 1 unit each; social studies, 3 units; and foreign language, 2 units.

## INDIVIDUAL ADVISING

Each student is considered an important individual. His or her study program is developed in personal consultation with an advisor in the department of his or her major interest. As early as possible, each student is encouraged to select a subject area and become associated with instructors and other students with similar interests. Initial or early advising is based upon the student's high school record and placement test scores. When high school preparation is found to be inadequate, the student is encouraged to enroll in courses providing the education, training, and experience necessary to help assure success at the university level, even though such work may require the student to take one or more additional terms to complete a prescribed four-year curriculum. Students planning to transfer from a community college or another four-year institution are encouraged to contact an advisor to discuss their plan of study as far in advance of transferring as possible.

## INTERNSHIPS

College of Agricultural Sciences (CAS) departments offer academic credit for on-the-job learning experiences that connect to student learning objectives. Internships are available in all facets of agriculture and can be paid, unpaid, local, national or international. Details regarding specific departmental requirements are available from departmental advisors and the College Experiential Learning Coordinator. Industries, agencies and students interested in general internship information should contact the Experiential Learning Coordinator in the CAS Academic Programs Office.

## SCHOLARSHIPS

The College of Agricultural Sciences and its departments offer a variety of scholarships to deserving students. Several are reserved for incoming high school or transfer students. Additional information and application forms for collegelevel scholarships are available online at http://agsci.oregonstate.edu/scholarships. For information about departmental scholarships, contact each department directly. For more information about university-level scholarships, contact the Office of Financial Aid and Scholarships, 541-737-2241.

## INTERNATIONAL

The College of Agricultural Sciences (CAS) has a long tradition and strong presence in International Agriculture. CAS has International Exchange Agreements with numerous institutions spanning thirteen countries. Students may choose to study abroad via the exchange program with Lincoln University in New Zealand; learn about various regions across the globe by participating in the Exploring World Agriculture class and companion International Educational Tour; or encounter cultures and traditions through their peers in the International Agriculture Club.

## MINOR PROGRAMS

Minors are offered through most departments of the College of Agricultural Sciences. Students interested in pursuing a minor must first contact the key advisor in the area of interest. The minor must consist of a minimum of 27 designated credits of related course work, including 12 in upper-division courses.

## GRADUATION REQUIREMENTS

To be eligible for a bachelor of science (BS) degree, a student must complete a minimum of 180 credits including:

1. University Baccalaureate Core requirements
2. Courses in agricultural sciences: 36 credits including 24 credits at the upper-division level.

Leadership (Also available via Ecampus.)
Graduate Major
Agricultural Education (MAIS, MS)
Graduate Areas of Concentration
Teacher Preparation, Leadership, and
Communication in Agriculture

## Graduate Minor

Agricultural Education
The Department of Agricultural Education and General Agriculture combines two programs: Agricultural Sciences and Agricultural Education.

The Agricultural Sciences Program is an undergraduate studies program that provides maximum flexibility in designing and structuring a course of study to meet the students' individual needs. Agricultural Sciences should be seriously considered by students desiring programs of study not currently available in any other agricultural subject matter department (such as those involving a minor in communications, recreation, or environmental studies in agriculture); students wishing to pursue two or more areas of specialization (such as students who are returning to farms or ranches and who need substantial background, for example, in animal science, crops, and agricultural business management); students preparing for leadership positions in agriculture that require excellent communication and leadership skills as well as breadth of agricultural background (such as agriculture teachers, lobbyists, commodity liaison persons or
extension staff); or students who have not selected a departmental major in the College of Agricultural Sciences but who know they are interested in an agricultural career.
The goal of the Agricultural Sciences Program is to help students identify the agricultural career in which they are most interested and build a course of study that will qualify each student for his or her chosen profession. Advising is of paramount importance in this process and major emphasis is placed on career advising.

The Agricultural Education Program offers course work serving teachers and leaders in agriculture. The MS and MAIS degrees may be pursued with an emphasis in leadership, communication, pedagogy, extension and/ or technical agriculture. Candidates work with an advisor to develop programs that meet their specific needs as indicated by their occupational objectives. The Agricultural Education MS degree aligns with an initial teaching license in Oregon.
Three undergraduate minors are available in the Department of Agricultural Education and General Agriculture.

1. The Agricultural Sciences minor is available for undergraduate students who have majored in an area that requires the addition of breadth in agriculture to their major program. The minor provides the appropriate technical agriculture background for students interested in agricultural management, communication, environmental studies, etc.
2. The Comparative International Agriculture minor provides students with formal instruction in international agricultural concepts and practical experiences through global awareness course work, language immersion via study/ research abroad, and/or international fieldwork. The 27 -credit curriculum prepares students for successful postbaccalaureate international careers, or those seeking graduate studies in international agriculture programs.
3. The Leadership minor is designed for all undergraduates interested in developing premier leadership, enhancing professional competencies, and fostering the skills necessary to meet the local, national, and international needs of our society. The Leadership minor is centered on leadership theory (education), trait/skill development (training), and application (development). It is designed to allow students to apply the course work in a relevant and relational manner.

This minor is also available via Ecampus.

## CAREER OPPORTUNITIES IN AGRICULTURAL SCIENCES

Career opportunities for general agriculture majors are unlimited because of the nature of the program structure. Students can return to home farms or ranches, move into agricultural middle management, become extension staff, move into political lobby positions, work in marketing or international agriculture, become high school teachers of agriculture, or teach agriculture in community colleges. Salaries vary depending on the position a student may strive to achieve.

## UNDERGRADUATE STUDIES CURRICULUM

High school and college transfer students who are admitted to Oregon State University as an undergraduate are eligible to participate in the Agricultural Sciences Program. Agricultural Sciences majors, in consultation with their departmental academic advisor, may plan elective course work to emphasize personal interests, abilities, and career objectives. A leadership and communication area of emphasis is available and is specially designed for those students who will need breadth in their technical agriculture background and excellence in communication and leadership skills. The intent of this area of emphasis within the Agricultural Sciences Program is to prepare agriculture's future leaders in extension, government, and business. A teacher preparation area of emphasis is available and allows for Initial Teacher Licensure within the baccalaureate degree.

## UNDERGRADUATE MINORS

## AGRICULTURAL SCIENCES

## MINOR

The Agricultural Sciences minor is designed for students who have an interest in agricultural sciences. The minor is ideal for students who want to add more exposure and content (broadly) within agriculture to their primary major.

The minor requirements listed below are subject to the following:

- 27 credit minimum (15 required, 12 upper-division electives).
- Courses required for a major and taken in the major department may not count towards this minor.
- Students may not use variable credit courses toward the minor.
- Courses used to fulfill the requirements must be taken for a letter grade.
- Agricultural elective courses for this minor must be upper-division credits.

## Requirements ( 15 credits):

AG 111. Information Technology in Agriculture (3)
AG 301. *Ecosystem Science of Pacific NW Indians (3)
AG 351. *Communicating Agriculture to the Public (3)
AG 412. Agricultural Safety and Health (3)
LEAD 242. Personal Leadership
Development (3)
or LEAD 342. Team and Organizational Leadership (3)

## Electives (12 upper-division credits): <br> Choose 12 credits of upper-division courses, with a minimum of one course from three different areas of study in the College of Agricultural Sciences: <br> Animal Sciences <br> Applied Economics <br> Bioresource Research <br> Botany and Plant Pathology <br> Crop Science <br> Entomology <br> Environmental and Molecular Toxicology <br> Fisheries and Wildlife <br> Food Science and Technology <br> Horticulture <br> Leadership <br> Rangeland Ecology and Management Soil Science <br> Sustainability <br> Total=27 credits <br> Footnote: <br> * Baccalaureate Core Course (BCC)

Minor Code: 106
COMPARATIVE INTERNATIONAL AGRICULTURE MINOR
The minor provides students with formal instruction in international agricultural concepts and practical experiences through global awareness course work, language immersion via study/research abroad, and/or international fieldwork. The 27-credit curriculum prepares students for successful postbaccalaureate international careers, or those seeking graduate studies in international agriculture programs. Students critically examine current international agricultural issues and/or diversity and communications. To be eligible to apply for this minor, students must have a cumulative 2.0 GPA or higher and be in good standing with Oregon State University. Students must also be in a declared major. Participants in this minor program are able to:

1. Research the major agricultural themes and issues of another nation besides the United States of America.
2. Examine trade information to determine the key elements of agricultural trade agreements between the USA and another country.
3. Analyze the effectiveness of agricultural practices of another nation besides the USA.
4. Investigate the effect of broad social, economic, and environmental forces upon the agricultural industry of another nation besides the USA.

## Course Requirements

All 27 credits for the minor must be completed with a C or higher grade. Students can complete 12 to 18 upper-division credits and a maximum of 14 lower division-credits.

## Required for All Students:

AGRI 438. Exploring World Agriculture (2)
Global Core (9-12)
AG 301. *Ecosystem Science of Pacific NW Indians (3)
ANTH 210. *Comparative Cultures (3)
ANTH 330. *Evolution of People,
Technology, and Society (3)
ANTH 486. Anthropology of Food (4)
CROP 330. *World Food Crops (3)
FW 325. *Global Crises in Resource Ecology (3)

GEOG 105. *Geography of the Non-Western World (3)
GEOG 330. *^Geography of International
Development and Globalization (3)
GEOG 431. Global Resources and
Development (3)
PHL 205. *Ethics (4)
PS 204. *Introduction to Comparative Politics (4)
PS 205. *Introduction to International Relations (4)

## External Learning Experience (3-6)

Projects and independent learning experiences in these courses require preapproval by the minor coordinator.
AG 401. Research (variable)
AG 402. Independent Studies (variable)
AG 406. Special Problems (variable)
AG 410. Internship (variable)

## Approved Electives (12 maximum)

Students may choose electives from the following areas of study in the College of Agricultural Sciences:
AEC Applied Economics, AG General Agriculture, AGRI College of Agricultural Sciences, ANS Animal Sciences, BOT Botany and Plant Pathology, CSS Crop and Soil Science, CROP Crop Science, ENT Entomology, FST Food Science Technology, FW Fisheries and Wildlife, HORT Horticulture, RNG Rangeland Ecology and Management, SOIL Soil Science, SUS Sustainability, TOX Toxicology

## Total=27

## Footnotes:

${ }^{\wedge}$ Writing Intensive Course (WIC)

## Minor Code: 477

## LEADERSHIP MINOR

Also offered via Ecampus.
The Leadership minor is designed for all undergraduates interested in developing premier leadership, enhancing professional competencies, and fostering the skills necessary to meet the local, national, and international needs of our society. The Leadership minor is centered on leadership theory (education), trait/skill development (training), and application (development). It is designed to allow students to apply the course work in a relevant and relational manner.

Specifically, the course work focuses on major theories of leadership including contingency, path-goal, leader-member exchange theories as well as transfor-
mational, authentic, team, and servant leadership. Within each theory and type of leadership, students will be challenged to consider leadership ethics, leadership culture, gender in leadership, and integration of leadership into personal, civic, and social change. In addition, the elective courses allow students to pursue the development of trait and skill competencies necessary for employment in their chosen field. Students will then have the opportunity to directly apply their learning through a leadership internship, service learning project, or research opportunity.

## AGRICULTURAL EDUCATION (MS, MAIS)

Graduate Areas of Concentration
Teacher preparation, leadership and communication in agriculture
The Department of Agricultural Education and General Agriculture offers course work that serves teachers and leaders in agriculture. The Master of Science and Master of Arts in Interdisciplinary Studies degrees may be pursued with an emphasis in leadership, communication, pedagogy, extension, and/ or technical agriculture. Candidates work with an advisor to develop programs that meet their specific needs as indicated by their occupational objectives. A person who completes an Agricultural Education master's degree is not solely locked into teaching. Potential occupations also include lobbyist, journalist, and Extension work.

## Major Code: 1050

## AGRICULTURAL EDUCATION GRADUATE MINOR

Develop a teaching, pedagogical, leadership development in agriculture minor by working with a departmental advisor.

## Minor Code: 1050 <br> ■ AGRICULTURAL EDUCATION COURSES

AED 313. THEORY AND PRACTICUM III: FIELD (4). Field based experience for students preparing to be agricultural teachers. Focus on teaching models. PREREQS: Advising and placement by AED staff.
AED 407. SEMINAR (1-16). This course is repeatable for a maximum of 16 credits.
AED 499. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 16 credits.

AED 501. RESEARCH (1-16). This course is repeatable for a maximum of 16 credits.

AED 503. THESIS (1-16). This course is repeatable for a maximum of 999 credits.
AED 505. READING AND CONFERENCE (1-16).
This course is repeatable for a maximum of 16 credits.
AED 507. SEMINAR (1-16). This course is repeatable for a maximum of 16 credits.
AED 508. WORKSHOP (1-16). This course is repeatable for a maximum of 16 credits.
AED 509. PRACTICUM (1-16). This course is repeatable for a maximum of 16 credits.
AED 510. PROFESSIONAL INTERNSHIP: AGRICULTURE EDUCATION (1-40). A field experience in which the intern will integrate
academic study with classroom teaching experience to learn specific competencies relating to functioning well in the context of the classroom and the school, and demonstrate this competency through the assessment of work by supervisors and by evidence collected and presented in work samples. This course is repeatable for a maximum of 40 credits.
AED 518. EXTENSION COURSE IN TEACHER
EDUCATION/PEDAGOGY (1-3). Enables present and prospective teachers of agriculture to continue their professional development on pedagogical topics of current importance. (This course is limited to 9 credits per term.) This course is repeatable for a maximum of 50 credits.
AED 533. RURAL SURVEY METHODS (3).
Technique; analyzing, interpreting, and using results of survey data; identifying and utilizing community resources; develop and organize agriculture programs to meet community needs.
AED 552. PROGRAM ORGANIZATION AND
MANAGEMENT (3). Explores the foundations of vocational education, essential learning skills, advisory committees, and development of a vocational education philosophy. Students will study the elements of educational reform as they apply to specific service areas. Resource analysis, student organizations, and school-to-work transitions will also be studied.

## AED 553. APPLIED INSTRUCTIONAL

STRATEGIES (3). Helps students in the
identification and development of goals, objectives and units. The course includes the development and application of subject area instructional strategies/models, including applied math, writing, communication skills, measurement and evaluation of achievement, and delivery of instruction to at-risk students. Safety is a primary focus.
AED 554. MICRO-TEACHING (3). Planning, presenting and evaluating lessons in a microteaching lab. It includes application of content pedagogy strategies, subject matter principles and media technology. Lessons presented on safety.

## AED 555. LABORATORY PEDAGOGY (3).

Applications of efficient planning, organizing, and teaching skills within the laboratory setting and utilization of laboratory facilities to optimize learning experiences. Laboratory facilities could include a shop, greenhouse, land laboratories/ outdoors, agriscience labs, aquaculture, computer lab, field trips, etc. PREREQS: Enrollment in Agricultural Education Master's program cohort.
AED 556. LINK RESEARCH, TEACHING, AND
PRACTICE (3). Links research to teaching.
Students will work with cooperating teachers to identify and apply research to teaching.

## AED 557. ISSUES AND TRENDS IN

CURRICULUM AND INSTRUCTION (3).
Emphasizes trends related to subject matter curriculum issues unique to agricultural education at the secondary level.
AED 558. IMPROVING AGRICULTURAL
SCIENCE AND TECHNOLOGY PROGRAMS (3).
Provides impetus toward evaluation and
improvement of local programs of agricultural science and technology (AST), such that they better reflect community, regional, and national needs.
AED 599. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 16 credits.
AED 603. DISSERTATION (1-16). Students engage in research and writing related to the completion of their dissertation to fulfill the requirements of the College of Education PhD program. This course is repeatable for a maximum of 999 credits.
AED 640. INSTRUMENTATION AND DATA
COLLECTION IN SOCIAL SCIENCE (3).
Addresses the selection, development, and analysis of various types of quantitative instruments and procedures for collecting research data. The course has a quantitative focus and is oriented toward social science research.

Lec/lab. PREREQS: SED 580 or equivalent introductory research methods course.

## ■ AGRICULTURE-GENERAL COURSES

AG 111. INFORMATION TECHNOLOGY IN AGRICULTURE (3). Using information technology in agriculture and agribusiness; practical experience with computer programs applicable to all agricultural disciplines.
AG 199. SPECIAL STUDIES (1-16). This course is repeatable for a maximum of 16 credits.
AG 211. SURVEY AND CONSTRUCTION (3).
Land measurement and leveling as applied to agricultural uses. Concrete and agricultural building construction including the use of construction power tools, selection of materials and cost estimating.
AG 221. METALS AND WELDING (3). Practices of metal working including the use of metal working machines, metal identification, heat treating and metal properties. Fabrication of metals including arc and oxy-acetylene welding and cutting. Lec/lab.

## AG 230. INTRODUCTION TO EXTENSION AND

ENGAGEMENT (3). For students interested in pursuing a career with the OSU Extension Service. An introduction to the OSU Extension Service mission, philosophy, history, organization, structure, administration, program areas, Extension program development, Extension teaching and delivery methods, and the involvement and use of volunteers. This course is repeatable for a maximum of 6 credits.
AG 301. *ECOSYSTEM SCIENCE OF PACIFIC NW INDIANS (3). Designed and presented in partnership with Pacific Northwest Indians and Alaska Natives, focusing on natural ecosystems, differing views, power relationships, policymaking, and gender roles. (Bacc Core Course)

AG 312. ENGINE THEORY AND OPERATION
(3). Engine construction, operational theories and principles, lubrication, fuels and oils, emissions and preventive maintenance are taught through the process of small engine lab activities. Engine efficiency theories and measurement are presented.

## AG 318. ACCESSING INFORMATION FOR

 AGRICULTURAL RESEARCH (1). Designed for students at a distance to develop library skills and improve access to information used to conduct technical agricultural research.AG 351. *COMMUNICATING AGRICULTURE TO
THE PUBLIC (3). Students will explore various outlets for communicating with the public about agriculture using appropriate, professional writing. Additionally, students will articulate their thoughts on controversial issues as well as write feature and editorial pieces promoting positive agricultural practices and people in agriculture. (Bacc Core Course)
AG 391. FARM IMPLEMENTS (3). Power farming implements including operation, maintenance, adjustments, calibration and use are covered. Field trips may be required.
AG 401. RESEARCH (1-16). This course is repeatable for a maximum of 16 credits.
AG 402. INDEPENDENT STUDIES (1-16). This course is repeatable for a maximum of 16 credits.

AG 403. THESIS (1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required
AG 405. READING AND CONFERENCE (1-16).
This course is repeatable for a maximum of 16 credits.
AG 406. SPECIAL PROBLEMS (1-16). This course is repeatable for a maximum of 16 credits.
AG 407. SEMINAR (1-16). This course is repeatable for a maximum of 16 credits.

AG 409. PRACTICUM (1-16). This course is repeatable for a maximum of 16 credits.

AG 410. INTERNSHIP (1-16). A work internship to give students practical on-the-job preparation in any of the main facets of agriculture or related industries. This course is repeatable for a maximum of 16 credits. PREREQS: College and instructor approval.

AG 412. AG SAFETY AND HEALTH (3). An examination of various hazards associated with agriculture. Control strategies will be explored and prevention methods identified. Hazards examined include machinery, livestock, controlled spaces, pesticides, and other items common to the agricultural workplace. Lec/lab.
AG 421. ^LEADERSHIP DEVELOPMENT (3). Principles of leadership development, leadership analysis and style, record keeping procedures, youth organizations, and activities in leadership for youth. (Writing Intensive Course) PREREQS: Senior standing.
AG 425. DEVELOPMENTS IN AGRICULTURAL MECHANICS (3). Emphasis on the development of instructional units for agricultural instruction programs. Wide applications to agricultural mechanization and biotechnology. This course is repeatable for a maximum of 9 credits. PREREQS: Senior standing.

## AG 492. TECHNOLOGY TRANSFER IN

AGRICULTURE (3). Examination of processes by which formal and informal agricultural instruction programs influence the introduction and acceptance of technology in agriculture. An emphasis in the international arena will be maintained. The focus throughout the course will be on the role of a professional change agent working with technological change. PREREQS: Senior standing.
AG 499. SPECIAL TOPICS (1-4). Topics may vary from term to term and from year to year. May be repeated for credit when topics differ. This course is repeatable for a maximum of 12 credits.

AG 507. SEMINAR (1-16). This course is repeatable for a maximum of 16 credits.

AG 509. PRACTICUM (1-16). This course is repeatable for a maximum of 16 credits.

AG 518. EXTENSION COURSE IN TEACHER EDUCATION: TECHNICAL (1-3). Enables present and prospective teachers of agriculture to continue their professional development on technical topics of current importance. This course is repeatable for a maximum of 9 credits.

AG 521. LEADERSHIP DEVELOPMENT (3).
Principles of leadership development, leadership analysis and style, record keeping procedures, youth organizations, and activities in leadership for youth. PREREQS: Graduate standing.
AG 525. DEVELOPMENTS IN AGRICULTURAL MECHANICS (3). Emphasis on the development of instructional units for agricultural instruction programs. Wide applications to agricultural mechanization and biotechnology. This course is repeatable for a maximum of 45 credits. PREREQS: Graduate standing.
AG 541. COMMUNITY PROGRAMS IN AGRICULTURE (3). Evaluating agricultural education program effectiveness and technical appropriateness. Development of long-range plans for agricultural programs to meet the technical needs of a community. PREREQS: Teaching or Extension experience will be verified by the instructor for approval.

## AG 592. TECHNOLOGY TRANSFER IN

AGRICULTURE (3). Examination of processes by which formal and informal agricultural instruction programs influence the introduction and acceptance of technology in agriculture. An emphasis in the international arena will be maintained. The focus throughout the course will be on the role of a professional change agent working with technological change. PREREQS:

Graduate standing.
AG 808. WORKSHOP (1-4). This course is
repeatable for a maximum of 4 credits.

## ■ LEADERSHIP COURSES

LEAD 242. PERSONAL LEADERSHIP DEVELOPMENT (3). Examines content related to leadership traits, styles, and effective leadership tactics. An introductory course designed to create awareness and develop the employability skills necessary for participants to be productive contributors in their school, home, community and profession.

## LEAD 342. TEAM AND ORGANIZATIONAL

LEADERSHIP (3). Examines the planning, implementation and evaluation of organizations, and challenges students in the development of effective communication, group dynamics, conflict management, teambuilding and problem solving. Students will be challenged to examine their leadership role in their school, community and profession.
LEAD 401. LEADERSHIP RESEARCH (1-16). This course is repeatable for a maximum of 16 credits.
LEAD 405. READING AND CONFERENCE (1-16). This course is repeatable for a maximum of 16 credits.
LEAD 407. SEMINAR (1-16). This course is repeatable for a maximum of 16 credits.
LEAD 409. PRACTICUM (1-16). This course is repeatable for a maximum of 16 credits.

LEAD 410. LEADERSHIP INTERNSHIP (1-16).
Students apply what they have learned through both the leadership theory and trait/skill development portion of the Leadership minor. This course is repeatable for a maximum of 16 credits.
LEAD 442. LEADERSHIP SKILLS FOR CAREER
SUCCESS (3). Focuses on the development and refinement of the following leadership skills: utilizing diversity, team building, project management, program planning models, working with difficult people, conflict management, leading change, establishing an effective network, organizational strategies, and emotional intelligence. PREREQS: Junior, senior, or graduate standing.

## LEAD 443. LEADERSHIP THROUGH

CONVERSATIONS (3). Engages students in the exploration of conversations as a component of leadership. Students will engage in topics related to developing effective conversations, listening, conversation styles, group dynamics, digital communication, meetings as conversations and interviewing skills.
LEAD 444. LEADERSHIP MINOR CAPSTONE
(2). Capstone course for students completing the Leadership minor. Students will reflect on what they have learned through the Leadership minor and how to apply that learning in the context of their future careers. PREREQS: (AG 242 or LEAD 242) and (AG 342 or LEAD 342)

LEAD 542. LEADERSHIP SKILLS FOR CAREER SUCCESS (3). Focuses on the development and refinement of the following leadership skills: utilizing diversity, team building, project management, program planning models, working with difficult people, conflict management, leading change, establishing an effective network, organizational strategies, and emotional intelligence. PREREQS: Junior, senior, or graduate standing.

## LEAD 543. LEADERSHIP THROUGH

CONVERSATIONS (3). Engages students in the exploration of conversations as a component of leadership. Students will engage in topics related to developing effective conversations, listening, conversation styles, group dynamics, digital communication, meetings as conversations and interviewing skills.

John Killefer, Department Head
112 Withycombe Hall
Oregon State University
Corvallis, OR 97331-6702
541-737-1981
Email: dodi.reesman@oregonstate.edu Website: http://anrs.oregonstate.edu/

## FACULTY

Professors Bohnert, Cherian, Downing, Estill, Filley, Killefer, Pirelli,
Associate Professors Bobe, Cooke, Deboodt, Hermes, Kutzler, MataGonzalez, Schreder, Williams
Assistant Professors Arispe, Ates, Bionaz, Bouska, Cruickshank, Dinkins, Duggan, Endress, Morris, Northway, Ochoa, Riggs, Schachtschneider, Udell Senior Instructors Ingham, Kennedy Instructors Gibson, Hazzard, Johnson, Lulay, Monaco, Mueller,Rosenlicht, Shaver, Sherwood, Younger
Senior Research Assistant Keller
Faculty Research Assistant
Brummer, Corder, Schroeder
Professionals Knudson, Reesman, Spencer
Emeritus Professors Borman, Cheeke, Gamroth, Froman, Johnson, Koong, Males, Menino, Peters,
Thompson, Weber
Distinguished Professor Emeritus Stormshak

## ADJUNCT FACULTY

Kiemnec

## COURTESY/AFFILIATE FACULTY

Associate Professor Stringham
Assistant Professors Bates, Boyd,
Davies, Ganskopp, George, James,
Louhaichi, McLean, Sheley, Svejcar

## Undergraduate Majors

Animal Sciences (BS, CRED, HBS)

## Options

Animal Behavior
Animal BioHealth/Pre-Professional
Animal Production
Equine
Rangeland Science
Rangeland Sciences (BS, CRED, HBS)

## Minors

Animal Sciences
Rangeland Ecology and Management

## Graduate Majors

Animal Science (MAIS, MS, PhD)
Graduate Areas of Concentration
Animal Nutrition
Dairy Production
Embryo Physiology
Endocrinology
Growth and Development
Livestock Management

## Nutritional Biochemistry

Reproductive Physiology
Rangeland Ecology and Management (MAIS, MS, PhD)
Graduate Areas of Concentration
Agroforestry
Ecology of Rangelands
Physiology of Range Plants
Range Improvement
Range Nutrition
Restoration Ecology
Riparian Zone Management
Watershed Management

## Graduate Minors

Animal Sciences
Rangeland Ecology and Management
Programs in animal sciences provide up-to-date information on methods of rearing livestock and poultry, that produce meat, milk, eggs, wool, and other animal products. In addition, the department addresses the care of animals that enhance human well-being through companionship, recreation, and human aid such as horses and companion animals. Essential to this information is knowledge generated from the fields of animal behavior/bioethics, genetics, nutrition, and physiology. The various teaching and research programs explore modern areas of animal biotechnology and data processing and how they apply to present day livestock and poultry production. Study in these areas provides the core around which various curricula leading to the BS degree in Animal Sciences can be developed. To allow students flexibility in course arrangement, three specialized program options are offered.

Increasing demands for livestock and poultry products by a rapidly expanding human population mean potential employment for well-trained individuals in such areas as farm, ranch, feedlot operation; meat, poultry, egg and milk processing, meat grading with the USDA; Federal Cooperative Extension Service, county and 4-H work; sales or technical employment with commercial feed, seed, and chemical companies and pharmaceutical houses; agricultural loan officer; government agency positions at local, state and federal levels; the Peace Corps; animal welfare auditing; as well as in journalism, mass media, and public policy. The expanding support structure for companion animals has created a growing job market for graduates in areas such as animal behavior consultant; veterinary technician (animal nurse); and business management. In addition, students become prepared to go on to advanced studies in animal sciences, veterinary medicine, and education.

Graduate students may pursue research projects through the Agricultural Experi-
ment Station as part of their programs for MS or PhD degrees. Graduate areas of concentration are offered in animal nutrition, dairy production, embryo physiology, endocrinology, ethology, growth and development, livestock management, muscle biology and meat science, nutritional biochemistry, reproductive physiology.

## COOPERATIVE PROGRAMS

Students transferring after one or two years at a community college should also be able to complete the requirements for a BS after three or two years, respectively.

## RANGELAND RESOURCE MANAGEMENT

Rangeland resource management is one of the family of natural resources professions important to the social, economic, and political development of Oregon, the nation, and the world. It is based upon ecological principles and is concerned with the restoration, improvement, conservation, and use of rangelands. Since range management is practiced on lands producing domestic and wild animals, timber, water, and recreation, concepts of integrated land use are included in the curriculum. A balance of soil, domestic animal, wildlife, ecology, and other biological sciences is realized in the educational program.

The curriculum below includes university and departmental requirements for the BS degree and provides emphasis either in science, management, ecology, or allied disciplines. The BS degree is also offered on the campus of Eastern Oregon University at La Grande through an extension of the OSU Department of Animal and Rangeland Sciences. Facilities for study include classroom and fieldoriented educational environments both on-campus and at locations throughout Oregon. Field trips are taken in conjunction with specific courses.
Graduate work leading to MAIS, MS, or PhD degrees may involve research on domestic or wild animals, rangeland nutrition, community ecology, physiology of rangeland plants, rangeland improvement, rangeland watershed, and riparian zone management, rangeland restoration, utilization and management, agroforestry and landscape ecology.
Summer employment with private industry, government agencies, and on range research projects makes possible learning experiences while earning a salary. Employment opportunities include resource management, research, Extension, ranch management, college and university teaching, business and industrial activities related to rangeland resources, and foreign agricultural and resource development assistance.
The Department of Animal and Rangeland Sciences is accredited by
the Society for Range Management. It is recognized throughout the country as one of the leading institutions of rangeland management.

## UNDERGRADUATE MAJORS WITH OPTIONS

ANIMAL SCIENCES (BS, CRED, HBS)

## Baccalaureate Core (51)

## Animal Sciences Core

ANS 100. Orientation to Animal Sciences (2)
ANS 121. *Introduction to Animal Sciences (4)

ANS 207. Sophomore Seminar (2)
ANS 251. Principles of Animal Foods Technology (3)
ANS 311. Principles of Animal Nutrition (3)
ANS 313. Applied Animal Nutrition: Feeds and Ration Formulation (4)
ANS 314. Animal Physiology (4)
ANS 316. Reproduction in Domestic Animals (4)
ANS 317. Reproduction in Domestic
Animals Laboratory (1)
ANS 378. Animal Genetics (4)
ANS 420. ${ }^{\wedge}$ Ethical Issues in Animal Agriculture (3)
Two animal industries courses from:
ANS 215. Beef/Dairy Industries (3)
ANS 216. Sheep/Swine Industries (3)
ANS 217. Poultry Industries (3)
ANS 220. Introductory Horse Science (3)
ANS 280. Companion Animal Management (3)

## Two production courses from:

ANS 430. Equine Systems I: Exercise Science (4)
or ANS 431. Equine Systems II: Nutrition (3)

ANS 433. Poultry Meat Production Systems (3)
or ANS 434. Egg Production Systems (3)
ANS 436. Sheep Production Systems (3)
ANS 439. Dairy Production Systems (4)
ANS 445. Beef Production Systems (4)
ANS 456. Companion Animal Production Systems (3)
ANS 460. Swine Production Systems (4)
+Select TWO courses from advanced ANS classes or electives (minimum of 6 credits).
AGRI 438. Exploring World Agriculture (2)
ANS 315. *Contentious Social Issues in
Animal Agriculture (3)
ANS 321. Avian Embryo (4)
ANS 323. Principles of Colt Training (3)
ANS 324. Advanced Colt Training (3)
ANS 327. Applied Physiology of Reproduction (5)
ANS 331. Advanced Livestock Evaluation (4)
ANS 333. Equine Stable Management (3)
ANS 351. Advanced Principles of Animal
Foods Technology (4)
ANS 401. Research (1-16)
ANS 410. Animal Science Internship (3 credits maximum will count toward the two-class requirement)
ANS 415. Livestock Judging Team (3)
ANS 435. Applied Animal Behavior (3)
ANS 441. Topics in Animal Learning (3)

ANS 452. Livestock Housing and Waste Management (3)
ANS/FES/FW/SOC 485. *Consensus and Natural Resource (3)
ANS 511. Digestive Physiology and Nutrition of Ruminant Animals (4)
ANS 512. Monogastric and Poultry Nutrition (3)
Additional ANS Production Systems Course (3)

Select 20 credits from the Agriculture Category (Choose any courses in agricultural field or natural resources area.)

## Physical and Biological Sciences

BI 211, BI 212, BI 213. *Principles of Biology (4,4,4)
CH 121. General Chemistry (5) and CH 122, CH 123 . *General Chemistry (5,5) or CH 231, CH 232, CH 233. *General Chemistry ( $4,4,4$ ) and CH 261, CH 262, CH 263. *Laboratory for Chemistry 231, 232, 233 (1,1,1)
CH 130. General Chemistry of Living Systems (4)
or CH 331. Organic Chemistry (4) or BB 331. *Introduction to Molecular Biology (3)
MB 230. *Introductory Microbiology (4) or MB 302. General Microbiology (3)
MTH 111. *College Algebra (4)

## Statistics

ST 201. Principles of Statistics (4)
or ST 351. Introduction to Statistical Methods (4)

## Business

## Choose one from below:

AEC 211. Management in Agriculture (4)
AEC 221. Marketing in Agriculture (3)
BA 215. Fundamentals of Accounting (4)
BA 230. Business Law I (4)
BA 260. Introduction to Entrepreneurship (4)

## Footnotes:

Major Code: 125

## OPTIONS

## ANIMAL BEHAVIOR OPTION

The Animal Behavior option will provide students with skills necessary to enter professions or graduate studies related to animal behavior and welfare, service and therapy with animals, or other animal care or industry positions that include a behavior management component. Courses chosen are consistent with accepted curriculum for animal behaviorists and provide a solid foundation to those working towards related certifications.

## Required Courses

ANS 341. Animal Behavior and Cognition (3)
ANS 435. Applied Animal Behavior (3)
ANS 441. Topics in Animal Learning (3)
PSY 201. *General Psychology (3)
PSY 202. *General Psychology (3)
PSY 301. Research Methods in Psychology (4) or WR 362. *Science Writing (3)

PSY 330. Brain and Behavior (4)
At least 6 credits from the following:
ANS 401. Research (1-3)**
ANS 410. Animal Science Internship (1-3)** FW/VMB 328. Wildlife Capture and
Immobilization (2)
FW 475. Wildlife Behavior (4)
FW 481. Wildlife Ecology (4)
PSY 340. Cognition (4)
PSY 432. Physiological Psychology (4)
PSY 454. Cognitive Development (4)
PSY 456. Social Development (4)
RNG 442. Rangeland-Animal Relations (4)
Z 350. Animal Behavior (3)

## Footnotes:

** Research and/or internship must be related
to the field of animal behavior

* Baccalaureate Core Course

Option Code: 707

## ANIMAL BIOHEALTH/PRE-

## PROFESSIONAL OPTION

The Animal BioSciences/Pre-Professional option prepares students for professional careers in veterinary medicine, and animal science teaching and research. Extensive training is provided in the biological and physical sciences, offering an excellent foundation for graduate study.
Requirements include the core curriculum and additional credits as required by the College of Veterinary Medicine. The Animal BioSciences/Pre-Professional option is designed for students interested in fulfilling requirements for admission to the OSU College of Veterinary Medicine. It allows students who are admitted to the college, upon completion of three years of undergraduate study, to apply credit earned during the first year of professional study toward the BS degree in Animal Sciences.
Students choosing not to attend veterinary school after the third year of this program may complete additional requirements to qualify for the BS degree in Animal Sciences.

## Required

BB 450, BB 451. General Biochemistry $(4,3)$
BB 314. Cell and Molecular Biology (4)
and MB 230. *Introductory Microbiology (4)
or MB 302. General Microbiology (3)
CH 331, CH 332. Organic Chemistry $(4,4)$
CH 337. Organic Chemistry Laboratory (4)
MTH 112. *Elementary Functions (4)
and MTH 241. *Calculus for
Management and Social Science (4)
or MTH 251. *Differential Calculus (4)
PH 201, PH 202. *General Physics $(5,5)$

## Total=44-45

Footnote:

* Baccalaureate Core Course

Option Code: 709
ANIMAL PRODUCTION OPTION
The Animal Production option will allow students to select a species or production industry that interests them most. This option is for students that want
to specialize in breeding, feeding, care, and welfare of animals. Animal production, nutrition, and management classes combined with business and/or applied economics courses provide a solid basis for a career in industry-level positions that pertain to animal management and production.

At least 15 credits in the option must be upper division.

## Required

ANS 231. Livestock Evaluation (3)
ANS 251. Principles of Animal Foods
Technology (3)

## Animal Industry

Select one of following courses:
ANS 215. Beef/Dairy Industries (3)
ANS 216. Sheep/Swine Industries (3)
ANS 217. Poultry Industries (3)

## Animal Learning

Select two of following:
ANS 341. Animal Behavior and Cognition (3)

ANS 435. Applied Animal Behavior (3)
ANS 441. Topics in Animal Learning (3)
RNG 442. Rangeland-Animal Relations (4)

## Animal Production

## Select one of following courses:

ANS 433. Poultry Meat Production Systems (3)

ANS 434. Egg Production Systems (3)
ANS 436. Sheep Production Systems (3)
ANS 439. Dairy Production Systems (4)
ANS 445. Beef Production Systems (4)
ANS 460. Swine Production Systems (4)

## Business

Select one of following courses:
BA 215. Fundamentals of Accounting (4)
BA 230. Business Law I (4)
BA 260. Introduction to Entrepreneurship (4)
Any AEC course applicable to production animal systems

## Diet/Nutrition Source

Select one of following courses:
CROP/HORT 300. Crop Production in
Pacific Northwest Agroesystems (4)
CROP 310. Forage Production (4)
RNG 341. Rangeland Ecology and
Management (3)

## Electives

Select one of following (3-4 credits):
Any upper-division ANS credit not taken above related to production animals
Any FST courses (FST 212 and FST 213 for dairy interest)
RNG 442. Rangeland-Animal Relations (4)
RNG 470. Pastoral Systems of the World (4)
RNG 490. Rangeland Management
Planning (4)
Total=25-28
Option Code: 708
EQUINE OPTION
The two areas of emphasis within the Equine option are designed to give students direction in regard to their future career and endeavors.

The Management or General Emphasis is designed to prepare those students wanting to not only own horses, but to manage equine facilities, event centers, or to go into areas such as nutrition, pharmaceuticals sales or marketing and promotion.

The Human or Animal Therapy Emphasis is designed to prepare students to go into the area of animal-assisted therapy. Using horses as therapy animals is becoming widely accepted and utilized. For this emphasis, the student not only needs to understand the horse itself but human nature as well.
27 credits with a minimum of 15 credits upper division are required.

## Required: $\mathbf{1 2}$ credits

ANS 220. Introductory Horse Science (3)
ANS 333. Equine Stable Management (3)
ANS 335. Equine Health and Disease (3)
ANS 341. Animal Behavior and Cognition (3)
or ANS 435. Applied Animal Behavior (3)
or ANS 441. Topics in Animal Learning (3)
Select two classes from the following
(you may take all):
ANS 430. Equine Systems I: Exercise Science (4)

ANS 431. Equine Systems II: Nutrition (3)
ANS 432. Equine Systems III: Reproduction (3)

Select a minimum of 9 credits from the following:
Management or General Emphasis:
ANS 223. Equine Marketing (2)
ANS 401. Research (Wild Horse Behavior) (2)
ANS 410. Animal Science Internship (3)1
BA 215. Fundamentals of Accounting (4)
BA 230. Business Law I (4)
or AEC 388. Agricultural Law (4)
BA 260. Introduction to Entrepreneurship (4)
RNG 442. Rangeland-Animal Relations (4)
or CROP 310. Forage Production (4)
RNG 470. Pastoral Systems of the World (3)
Or select a minimum of 9 credits
from the following:
Human or Animal Therapy Emphasis:
ANS 341. Animal Behavior and Cognition (3)

ANS 401. Research (Wild Horse Behavior) (2)
ANS 410. Animal Science Internship (3)1
ANS 435. Applied Animal Behavior (3)
ANS 441. Topics in Animal Learning (3)
BA 260. Introduction to Entrepreneurship (4)
COMM 218. *Interpersonal
Communication (3)
PHL 205. *Ethics (4)
PSY 201. *General Psychology (3)
PSY 202. *General Psychology (3)
PSY 330. Brain and Behavior (4)
PSY 381. Abnormal Psychology (4)
PSY 432. Physiological Psychology (4)

## Footnotes:

* Baccalaureate Core Course
${ }^{\wedge}$ Writing Intensive Course (WIC)
${ }^{1}$ Internships must be related to the field of
equine management or science
Option Code: 693

## RANGELAND SCIENCE OPTION

The Rangeland Sciences option provides students with foundational knowledge and skills relevant to rangeland ecology and management. This option is for students seeking to understand the structure and function of rangelands. Landscape dynamics, including the effects of stress and disturbance, are integral to course work which includes rangeland plant identification, rangeland ecosystem types, rangeland health assessment, hydrology, effects of fire and herbivory, resource inventory, restoration and management planning. Rangeland Sciences courses complement Animal Sciences courses to provide students with an integrated understanding of rangeland stewardship and livestock production.

28 credits are required for the option; 15 of which must be at the upper-division level.

## Required:

Animal Sciences (10 credits):
ANS 435. Applied Animal Behavior (3)
ANS 436. Sheep Production Systems (3)
ANS 445. Beef Production Systems (4)

## Rangeland Science (18 credits):

RNG 341. Rangeland Ecology and
Management (3)
RNG 355. Desert Watershed Management (4)
RNG 421. Wildland Restoration and Ecology (4)
or RNG 441. Rangeland Analysis (4)
RNG 442. Rangeland-Animal Relations (4)
RNG 490. Rangeland Management Planning (4)
Prerequisites and/or Other
Recommended Course Work:
ANS 215. Beef/Dairy Industries (3)
(Prerequisite for ANS 445)
ANS 216. Sheep/Swine Industries (3)
(Prerequisite for ANS 436)
RNG 353. Wildland Plant Identification (4)
RNG 455. Riparian Ecohydrology and
Management (4)
RNG 470. Pastoral Systems of the World (4)

## Total=28

Option Code: 712

## RANGELAND SCIENCES

(BS, CRED, HBS)

## Also available via Ecampus.

Departmental requirements may be utilized to satisfy baccalaureate core and non-departmental minor requirements.

Literature and the Arts (LA) (3)
Please reference the baccalaureate core course catalog for a list of approved courses: http://catalog.oregonstate.edu/ bcc.aspx.
Physical Science (Lecture/Lab or Lab) (1)
Met with Rangeland Sciences General Sciences, Math and Statistics.
Social Processes and Institutions (SPI) (3)
Met with Rangeland Sciences Economics and Natural Resources Section.
Western Culture (WC) (3)
Please reference the baccalaureate core course catalog for a list of approved courses: http://catalog.oregonstate.edu/ bcc.aspx.

## Difference, Power, and

Discrimination Courses (DPD) (3)
Please reference the baccalaureate core course catalog for a list of approved courses: http://catalog.oregonstate.edu/ bcc.aspx.

## Synthesis Courses (6 credits)

The two courses used to fulfill the Synthesis requirement may not be in the same department.
Contemporary Global Issues (CGI) (3)
Please reference Baccalaureate Core course catalog for approved courses: http://catalog.oregonstate.edu/bcc.aspx
Science, Technology, and Society (STS) (3)
Please reference Baccalaureate Core course catalog for approved courses: http://catalog.oregonstate.edu/bcc.aspx

## Writing Intensive Course (WIC) (3 cr)

Select one course from below (3 cr):
AG 421. ${ }^{\wedge}$ Leadership Development (3)
ANS 420. ${ }^{\wedge}$ Ethical Issues in Animal Agriculture (3)
ENSC 479. ^Environmental Case Studies (3)
FW 435. ^Wildlife in Agricultural
Ecosystems (3)
GEOG 323. ${ }^{\wedge}$ Climatology (4)

## Rangeland Sciences ( 32 credits)

RNG 341. Rangeland Ecology and Management (3)
RNG 351. Range Ecology I-Grasslands (3)
RNG 352. Range Ecology II-Shrublands (3)
RNG 353. Wildland Plant Identification (4)
RNG 355. Desert Watershed Management (4)
RNG 421. Wildland Restoration and Ecology (4)
RNG 441. Rangeland Analysis (4)
RNG 442. Rangeland-Animal Relations (4)
RNG 490. Rangeland Management Planning (4)
Plants, Soil and Animals (30 credits)
ANS 313. Applied Animal Nutrition: Feeds and Ration Formulation (4)
or ANS 312. *Feedstuffs and Ration Formula (4)
ANS 436. Sheep Production Systems (3)
or ANS 446. Grazing Livestock Production
(4) Ecampus only.
or ANS 445. Beef Production Systems (4)
BI 370. Ecology (3)
or BOT 341. Plant Ecology (4)
BOT 321. Plant Systematics (4)
BOT 331. Plant Physiology (4)
or BOT 488. Environmental Physiology of Plants (3)
BOT 414. Agrostology (4)
CROP 310. Forage Production (4)
FW 251. Principles of Fish and Wildlife Conservation (3)
SOIL 205. *Soil Science (3)
and SOIL 206. *Soil Science Laboratory for SOIL 205 (1)
or CSS 305. Principles of Soil Science (4)
SOIL 466. Soil Morphology and
Classification (4)
or SOIL 366. Ecosystems of Wildland Soils
(3) Ecampus only.

## Economics and Natural Resources

(10 credits)
FES 251. Recreation Resource Management (4)

FOR 111. Introduction to Forestry (3)
ECON 201. *Introduction to
Microeconomics (4)
or AEC 250. *Introduction to
Environmental Economics and Policy (3)
AEC 351. *Natural Resource Economics and Policy (3)
or AEC/ECON 352. *Environmental Economics and Policy (3)
General Science, Math and
Statistics (45 credits)
BI 211, BI 212, BI 213. *Principles of Biology (4,4,4)
or BI 204, BI 205, BI 206. *Introductory Biology I,II,III (4,4,4)
CH 121. General Chemistry (5)
CH 122. *General Chemistry (5)
CH 130. General Chemistry of Living Systems (4)
GEO 102. *The Surface of the Earth (4) or GEOG 102. *Physical Geography (4)
MTH 111. *College Algebra (4)
MTH 241. *Calculus for Management and Social Science (4)
Free electives (12 maximum)
Total Credits=180

Footnotes:

* Baccalaureate Core Course
$\wedge$ Writing Intensive Course (WIC)
${ }^{1}$ Certain classes may be used to satisfy both the baccalaureate core and the rangeland ecology and management core.
Major Code: 292

## UNDERGRADUATE MINORS

## ANIMAL SCIENCES MINOR

## Required

Select a minimum of 12 credits from any lower-division ANS courses.
And select a minimum of 15 credits
from any upper-division ANS courses.
Total=27-28
Note: These courses should be taken in consultation with an academic advisor in the Department of Animal and Rangeland Sciences.
Minor Code: 125

## RANGELAND ECOLOGY AND <br> MANAGEMENT MINOR

Requirements
RNG 341. Rangeland Ecology and
Management (3)
RNG 351. Range Ecology I-Grasslands (3)
RNG 352. Range Ecology II-Shrublands (3)
RNG 421. Wildland Restoration and Ecology (4)
RNG 442. Rangeland-Animal Relations (4)
RNG 490. Rangeland Management Planning (4)
Select 7 additional credits from:
Any other RNG course
ANS 436. Sheep Production Systems (3)
ANS 443. Beef Production Systems (3)
BOT 341. Plant Ecology (4)

## Total=28

Note: Completion of the Rangeland Ecology and Management minor alone does not qualify students for rangeland conservationist positions with the U.S. Office of Personnel Management (OPM).
Minor Code: 622

## GRADUATE MAJORS

## ANIMAL SCIENCE (MS, PhD,

 MAIS)Graduate Areas of Concentration
Animal nutrition, dairy production (MS only), embryo physiology, endocrinology, growth and development, livestock management (MS only), nutritional biochemistry, reproductive physiology
The Department of Animal and Rangeland Sciences offers graduate work leading to Master of Science and Doctor of Philosophy degrees in Animal Science with concentrations listed above.
Major Code: 1250

## RANGELAND ECOLOGY AND MANAGEMENT (MS, PhD, MAIS)

Graduate Areas of Concentration
Agroforestry, ecology of rangelands, physiology of range plants, range
improvement, range nutrition,
restoration ecology, riparian zone
management, watershed management
The Department of Animal and Rangeland Sciences offers Master of Science and Doctor of Philosophy degrees.

The program integrates plant, soil, and animal sciences to prepare degree candidates for leadership in this professional field. Under the guidance of the rangeland faculty, graduate students study rangeland ecology, physiology of rangeland plants, rangeland nutrition, rangeland improvements, watershed management, restoration ecology, agroforestry, water quality, and riparian zone management. Through the Department of Animal and Rangeland Sciences, range management graduate students have access to greenhouse, field plot, pasture, range, and animal facilities on campus, and at the two Eastern Oregon Agricultural Research Center stations at Union and Burns.

Graduate students in rangeland ecology and management may select courses in complementary areas, including agricultural and resource economics, fisheries and wildlife, botany, soils, statistics, biology forestry, crop science, and animal science. The selection of these complementary areas depends on the interest of the students, their aptitude, and the thesis topic they have chosen. Minors are commonly elected in botany, soils, forage crops, animal nutrition, fisheries and wildlife, agricultural and resource economics, or in an integrated program of study.
Major Code: 6220

## GRADUATE MINORS

ANIMAL SCIENCE GRADUATE MINOR
For more details, see the departmental advisor.

## Minor Code: 1250

## RANGELAND ECOLOGY AND MANAGEMENT GRADUATE MINOR

For more details, see the departmental advisor.

## Minor Code: 6220

$\square$ ANIMAL SCIENCES COURSES
ANS 100. ORIENTATION TO ANIMAL AND RANGELAND SCIENCES (1). Orientation of incoming animal sciences students to college life with emphasis on faculty, facilities, services and curricula of the Department of Animal and Rangeland Sciences.
ANS 121. *INTRODUCTION TO ANIMAL
SCIENCES (4). Principles of breeding, physiology, nutrition, and management as they apply to
modern livestock and poultry production. Lec/lab. (Bacc Core Course)

ANS 121H. *INTRODUCTION TO ANIMAL
SCIENCES (4). Principles of breeding, physiology, nutrition, and management as they apply to modern livestock and poultry production. Lec/lab. (Bacc Core Course) PREREQS: Honors College approval required.
ANS 207. SOPHOMORE SEMINAR (2). Examination of career opportunities in animal sciences. PREREQS: Sophomore standing.

ANS 215. BEEF/DAIRY INDUSTRIES (3). Introduction to beef and dairy industries; history, current industry status, and demonstration and practice of basic husbandry skills. PREREQS: ANS 121
ANS 216. SHEEP/SWINE INDUSTRIES (3). Introduction to the sheep and swine industries including history, current status and production practices, with demonstration and handson experience of basic husbandry practices. PREREQS: ANS 121
ANS 217. POULTRY INDUSTRIES (3).
Familiarization of the organizational structure and marketing arrangement of poultry industries; hands-on managerial techniques, practices and procedures carried out by the poultry industries.
ANS 220. INTRODUCTORY HORSE SCIENCE
(3). Introduction to horses, their history, breeds,
form and function, performance evaluation, current industry status, and general management. PREREQS: ANS 121
ANS 223. EQUINE MARKETING (2). Course covers practical concepts of equine marketing. Emphasis on market assessment, targeting buyers, marketing and advertising strategies, hands-on experience in product preparation and presentation, marketing legalities. PREREQS: ANS 121 and ANS 220 and ANS 192 or instructor approval required.
ANS 231. LIVESTOCK EVALUATION (3). Focuses on an individual animal's economic merit as compared to a sample group. Visual appraisal, performance data, and carcass merit are stressed. Includes the evaluation of both market and breeding animals. The livestock species of concentration include beef cattle, swine, sheep, and meat goats. Lec/lab. PREREQS: Recommended: ANS 121
ANS 251. PRINCIPLES OF ANIMAL FOODS TECHNOLOGY (3). Processing of meat, milk and eggs into human food products. Lec/lab. PREREQS: ANS 121

ANS 280. COMPANION ANIMAL MANAGEMENT
(3). Care and management of companion animals, including dogs, cats, small mammals, reptiles, birds, and tropical fish. Responsibilities of pet ownership and the beneficial aspects of the human-animal relationship.

ANS 302. COMMON DISEASES OF
COMPANION ANIMALS (4). An introduction to common diseases of selected companion animals. Emphasis will be placed on identifying predisposing factors, clinical signs, common diagnostic procedures and potential implications for human health. A $\$ 10$ course fee will be required. Lec/rec. PREREQS: (BI 211 [D-] or BI 211 H [D-]) and (BI 212 [D-] or BI 212H [D-]) and (BI 213 [D-] or Bl 213 H [D-] ) and CH 121 [D-] and CH 122 [D-] and CH 123 [D-] and ANS 280 is recommended.

ANS 311. PRINCIPLES OF ANIMAL NUTRITION
(3). Classification, digestion, absorption, and metabolism of nutrients in animals; consequences of nutritional deficiencies and toxicities.
PREREQS: ((BI 211 [D-] or BI 211H [D-]) and (BI 212 [D-] or BI 212H [D-] ))
ANS 312. FEEDSTUFFS AND RATION
FORMULATION (4). Presents the feedstuffs utilized by domestic animals including their characteristics and processing. Provides
instruction in ration formulation and evaluation leading to development of the basic skills required to formulate and evaluate rations for domestic animals. Taught as a distance education course. PREREQS: ANS 121 and MTH 111 or equivalent or instructor approval.

ANS 313. APPLIED ANIMAL NUTRITION: FEEDS AND RATION FORMULATION (4).
Discusses topics relevant to feedstuff identification and nutrient analysis, feed processing and formulation of balanced animal diets based on nutrient requirements. Provides students handson experiences in identifying various feedstuffs and formulating rations based on the nutrient composition of those feedstuffs. PREREQS: MTH 111 [D] and junior standing
ANS 314. ANIMAL PHYSIOLOGY (4). Biological basis of animal performance; describes how networks of cells act cooperatively to enable locomotion, provide a stable internal environment, allocate resources, remove metabolic endproducts, and counteract microorganisms. PREREQS: General principles of biology equivalent to $\mathrm{BI} 211, \mathrm{BI} 212, \mathrm{BI} 213$; junior standing or higher or instructor permission.

ANS 315. *CONTENTIOUS SOCIAL ISSUES IN ANIMAL AGRICULTURE (3). Discussion of contentious issues including role of animal products and human health; use of hormones and antibiotics; new animal biotechnologies; animal rights/welfare; livestock grazing on public lands. (Bacc Core Course).

ANS 316. REPRODUCTION IN DOMESTIC ANIMALS (4). Anatomy and physiology of mammalian and avian reproductive systems; fertilization, embryonic and fetal development, placentation and parturition; reproductive technologies. Lec/rec. PREREQS: (BI 211 [D-] or Bl 211 H [D-] ) and (CH 121 [D-] or CH 221 [D-] or CH 231 [D-] or CH 231H [D-] ) and ANS 121 and sophomore standing or higher.

## ANS 317. REPRODUCTION IN DOMESTIC

ANIMALS LABORATORY (1). Gross and microscopic anatomy of the reproductive tract; semen collection, evaluation and extension; evaluation of fertilization, embryo and fetal development and placentation. Lec/lab. PREREQS: ANS 316* [D-]
ANS 320. PRINCIPLES OF COMPANION ANIMAL NUTRITION (3). Learn about nutrients, the digestive process, and the application of nutritional sciences to the health and welfare of companion animals. Introduction to the metabolic basis and practical preventative management for nutritional diseases in companion animals. PREREQS: ( Bl 211 [D-] or Bl 211 H [D-]) and (BI 212 [D-] or BI 212H [D-] )

ANS 321. AVIAN EMBRYO (4). Discussion and experimentation involving the development and the environmental requirements for the artificia incubation of avian embryos. Lec/lab. Offered even-numbered years. PREREQS: ANS 121 and ANS 217 and BI 211
ANS 323. PRINCIPLES OF COLT TRAINING (3).
Students acquire the technical and theoretical knowledge of starting and training colts in the stock seat style of riding. PREREQS: ANS 295 [D-] and /or instructor's approval. Departmental approval.
ANS 324. ADVANCED COLT TRAINING (3). Students acquire the technical and theoretical knowledge of advancing the training of young horses in the stock seat style of riding. Lec/lab. PREREQS: ANS 295 and ANS 323 or instructor approval required.
ANS 327. APPLIED PHYSIOLOGY OF REPRODUCTION (5). Principles, techniques and recent development in semen collection, evaluation, extension and preservation; artificial insemination, estrus detection and synchronization; pregnancy diagnosis and embryo transfer. PREREQS: (ANS 316 [D-] and ANS 317 [D-] )

ANS 331. ADVANCED LIVESTOCK
EVALUATION (4). Aspects of an individual animal's economic merit are compared to a sample group. Emphasis is placed on beef, swine and sheep. Visual appraisal, performance data and carcass merit are stressed. Designed to prepare students for the intercollegiate livestock judging team. This course is repeatable for a maximum of 12 credits. PREREQS: ANS 231 and sophomore standing or higher.
ANS 333. EQUINE STABLE MANAGEMENT (3). Discusses developing a business plan, financial statements, and ratios, budgeting, financial planning, taxation, and employment issues within the current equine industry. PREREQS: ANS 220 [D-] and ANS 222 or instructor's approval.
ANS 335. EQUINE HEALTH AND DISEASE
(3). Recognition of common diseases and disorders including their cause, treatment and prevention. Management of internal and external parasites. Recognizing common lameness issues. PREREQS: Junior standing.
ANS 341. ANIMAL BEHAVIOR AND COGNITION
(3). Survey, discuss, and explore principles of animal behavior and cognition from a comparative perspective, taking into account the interacting influences of biology, environment, and life experience on the individual and group behavior of animals across species. Aspects of animal cognition, including reasoning, perception, memory and personality, that play an important role in animal behavior will also be addressed. PREREQS: BI 102 [D] or BI 213 [D]
ANS 351. ADVANCED PRINCIPLES OF ANIMAL FOODS TECHNOLOGY (4). Provides in-depth coverage of both fresh and processed meats and eggs into products suitable for human consumption. PREREQS: ANS 251
ANS 378. ANIMAL GENETICS (4). Fundamentals of inheritance, principles of genetic segregation, population and quantitative genetics, response to natural selection and artificial manipulation of populations. PREREQS: BI 211 [D-] or BI 212 [D-] or BI 213 [D-] and ANS 121 or equivalent and ST 351 recommended.
ANS 380. PRINCIPLES OF ANIMAL ANATOMY AND PHYSIOLOGY (3). An introductory course in animal anatomy to provide a foundation for advanced courses in the Animal Science curriculum. Emphasis is on acquisition of a basic knowledge of minute and gross anatomical structures, their operation, and integration. Begins with anatomical nomenclature such as body planes and directional terms then covers the following tissues and organ systems: epithelium, connective tissue, blood and bone marrow, bone/cartilage, muscle tissue, nervous tissue, digestive system, circulatory system, reproductive system, urinary system, and respiratory system. PREREQS: (BI 211 [D] or BI 211 H [D]) and (BI 212 [D] or BI 212H [D] ) and (BI 213 [D] or BI 213H [D] )
ANS 385. FOUNDATIONS OF MAMMALIAN HISTOLOGY (3). Provides a basic knowledge of mammalian microscopic anatomy. Emphasis will be on the appearance, organization and function of minute anatomical structures that can only be observed with the help of a visual enhancer, such as a microscope. Covers basic histological techniques and histology and related functions of the following tissues and organ systems: epithelium, connective tissue, bone/ cartilage, blood, muscle tissue, nervous tissue, circulatory system, digestive system, reproductive system, urinary system, respiratory system, immune system, integument, eye and ear. Also covers gametogenesis, fertilization, and early development of the vertebrate embryo. Lec/rec. PREREQS: ( Bl 211 [C-] or BI 211 H [C-] ) and (BI 212 [C-] or BI 212 H [C-] ) and (BI 213 [C-] or BI 213 H [C-] ) and (BI 314 [C-] or BI 314H [C-] )
ANS 390. GROSS ANATOMY OF DOMESTIC ANIMALS (4). Provides a foundation for advanced courses in the Animal Sciences
curriculum. Emphasis on gaining knowledge of mammalian anatomy. Lectures cover anatomical nomenclature, structure, operation, and integration of major organ systems. The dog is used as the general model while comparative domestic animal anatomy is also covered. Lec/lab. PREREQS: (BI 211 [D] or BI 211 H [D] ) and (BI 212 [D] or BI 212 H [D] ) and (BI 213 [D] or BI 213H [D] )
ANS 401. RESEARCH (1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required.
ANS 403. THESIS (1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required.
ANS 405. READING AND CONFERENCE (1-
16). Graded $P / N$. This course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required.

ANS 407. SEMINAR (1-16). Graded P/N. This course is repeatable for a maximum of 16 credits.
ANS 410. ANIMAL SCIENCE INTERNSHIP (1-12). On- or off-campus, occupational work experience supervised by the department. Graded $\mathrm{P} / \mathrm{N}$. This course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required.

ANS 415. LIVESTOCK JUDGING TEAM (3).
Designed to train students for participation in the intercollegiate livestock judging team. This course is repeatable for a maximum of 9 credits. PREREQS: ANS 331
ANS 420. ^ETHICAL ISSUES IN ANIMAL AGRICULTURE (3). Students are provided with an opportunity to discuss, debate and write extensively about current, relevant, and controversial social issues dealing with modern animal agriculture. (Writing Intensive Course)
ANS 430. EQUINE SYSTEMS I: EXERCISE SCIENCE (4). Seniors and graduate students intensively explore and apply science to real-life situations regarding cardiorespiratory, muscle physiology, and bone physiology responses to exercise, climate, and altitude. Lec/lab. PREREQS: ANS 314
ANS 431. EQUINE SYSTEMS II: NUTRITION (3). Senior and graduate students intensively explore and apply science to real-life situations regarding starch, fiber, protein, and fat metabolism in performance horses, breeding stock, and growing horses. PREREQS: ANS 313
ANS 432. EQUINE SYSTEMS III:
REPRODUCTION (4). Senior and graduate students explore the fundamentals of equine reproduction and their application in horse breeding. Includes practical training of laboratory techniques. Lec/lab. PREREQS: (ANS 220 [D-] and ANS 316 [D-] ) and ANS 327
ANS 433. POULTRY MEAT PRODUCTION SYSTEMS (3). Fundamental applications and the analysis of management principles applied to brooding, rearing, feeding and housing meattype chickens and turkeys and their respective breeders. Decision case studies and practical management problems are incorporated into the course. Offered odd number years. PREREQS: ANS 217 and ANS 313 and ANS 316 and ANS 378 or instructor's approval
ANS 434. EGG PRODUCTION SYSTEMS (3). Applications and analyses of egg production systems for brooding, rearing, feeding and housing egg producing chickens. Decision case studies and practical management problems are incorporated into the course. Offered evennumbered years. PREREQS: ANS 217 and ANS 313 and ANS 316 and ANS 378 or instructor's approval
ANS 435. APPLIED ANIMAL BEHAVIOR (3).
Exploration of the fundamental processes of animal behavior and implications for animal management, production, housing and welfare. Examples provided in class will cover a range of
species, with emphasis on domestic animals. Lec/ lab. PREREQS: ANS 314 and BI 350 or Z 350 or equivalent.

ANS 436. SHEEP PRODUCTION SYSTEMS (3). Integration of nutrition, genetics, reproduction, behavior, and health principles into management systems for production and marketing of lamb and wool. PREREQS: ANS 216 and ANS 311 and ANS 316 and ANS 378

ANS 439. DAIRY PRODUCTION SYSTEMS (4). Fundamentals of nutrition, breeding, reproductive physiology and health programs and their applications in the care and management of dairy cattle. PREREQS: ANS 215 and ANS 313 and ANS 316 and ANS 378
ANS 440. DAIRY PRODUCTION SYSTEMS
(3). Decision case analysis or special topics in application of dairy management principles. PREREQS: ANS 439 [D-]
ANS 441. TOPICS IN ANIMAL LEARNING (3). Explore when and how the behavior of animals can be shaped by the environment, individual experiences, and interactions with other animals (including humans). PREREQS: BI 211 [D-] and B 212 [D-] and junior standing. Recommended: ANS 435 or ANS 535 and (BI 350 or Z 350) and BI 213

## ANS 443. BEEF PRODUCTION SYSTEMS:

COW/CALF (3). Fundamentals of nutrition, reproductive physiology and health programs and their applications in the care and management of beef cattle. Overnight field trip with extra fee charged. Lec/lab. Taught at EOU La Grande campus only. PREREQS: ANS 313 and ANS 315 and ANS 316 and ANS 378
ANS 444. BEEF PRODUCTION SYSTEMS:
STOCKER/FEEDLOT (3). Continuation of the study of beef cattle management. Students will practice decision-making processes using area beef cattle operations as case studies. Overnight field trip with extra fee charged. Taught at EOU La Grande campus only. PREREQS: ANS 443 or ANS 543
ANS 445. BEEF PRODUCTION SYSTEMS (4).
Students will be exposed to the fundamentals of nutrition, reproductive physiology, selection, health programs, and their applications in the care and management of beef cattle from conception through calving, weaning, stocker/back grounding and the feedlot. Students will practice decisionmaking processes using working case studies. Overnight field trip with extra fee charged. PREREQS: ANS 313 and ANS 316 and ANS 317 and ANS 378
ANS 446. GRAZING LIVESTOCK PRODUCTION
(4). Equips non-animal science majors with basic ruminant livestock (beef cattle, sheep and meat goat) production knowledge, so they may communicate and collaborate effectively with livestock producers. PREREQS: ANS 121 [D-]
ANS 452. LIVESTOCK HOUSING AND WASTE
MANAGEMENT (3). Basics in where, how, and why one would build, insulate, and ventilate livestock buildings. Manure and wastewater collection, treatment, storage, and utilization.
ANS 456. COMPANION ANIMAL PRODUCTION SYSTEMS (3). Fundamentals of dog and cat breeding stock selection, feeding and housing as well as biology and management from estrus through parturition to weaning. Due to the nature of this class, a variety of animals may be present during class session. Questions and interactions are encouraged but, while precautions are taken, any contact with animals carries some risk of injury or illness. PREREQS: (ANS 313 [D-] and ANS 316* [D-] and ANS 317* [D-] and ANS 378 [D-] ) and senior standing.
ANS 460. SWINE PRODUCTION SYSTEMS (4). Students will be exposed to the fundamentals of nutrition, reproductive physiology, selection, health programs, and their applications in the care and management of swine from conception through farrowing, weaning, and the growing/finishing
phases. Students will practice decision-making processes using working case studies. Overnight field trip with extra fee charged. PREREQS: ANS 121 and ANS 216 and ANS 311 and ANS 316 and ANS 378
ANS 485. *CONSENSUS AND NATURAL
RESOURCES (3). Students will use a working group approach. They will select a natural resource topic, study the team process and interaction as a method of learning, explore the issue using systems practice, and strive for consensus on solutions to their issue. CROSSLISTED as FES 485/FES 585, FW 485/ FW 585, SOC 485/SOC 585. (Bacc Core Course)

ANS 499. SPECIAL TOPICS (0-16). This course is repeatable for a maximum of 16 credits.

ANS 501. RESEARCH (1-16). Graded P/N. This course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required.
ANS 503. THESIS (1-16). Graded P/N. This course is repeatable for a maximum of 999 credits.
ANS 505. READING AND CONFERENCE (1-
16). Graded $P / N$. This course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required.

ANS 507. GRADUATE SEMINAR (1). Section
1: Seminar/general for all graduate students. Preparation of effective visual aids. Practice explaining the validity or significance of experimental results to an informed audience. Section 2: Seminar/endocrinology, for graduate students interested in physiology. This course is repeatable for a maximum of 99 credits.

ANS 508. WORKSHOP (1-16). This course is repeatable for a maximum of 16 credits.

ANS 509. TEACHING PRACTICUM (1-16). This course is repeatable for a maximum of 16 credits.

ANS 511. DIGESTIVE PHYSIOLOGY AND NUTRITION OF RUMINANT ANIMALS (4). Anatomy and physiology of the ruminant digestive tract including rumen microbiology and digestive processes. Nutritional biochemistry and physiology of ruminants. Feed chemistry, feed intake and principles of ration balancing. Theory of energy and protein metabolism. PREREQS: ANS 311 or ANS 313
ANS 512. MONOGASTRIC AND POULTRY
NUTRITION (3). Anatomical differences in digestive tracts of monogastrics; nutritional biochemistry of poultry; practical feeding of avian species; least-cost ration techniques; techniques for determining nutrient needs of monogastrics.
PREREQS: ANS 311 and ANS 313
ANS 515. REVIEW OF APPLIED RUMINANT NUTRITION RESEARCH TECHNIQUES (3). Review and discussion and applied techniques and methodology used for ruminant nutrition research.
ANS 530. EQUINE SYSTEMS I: EXERCISE
SCIENCE (4). Senior and graduate students intensively explore and apply science to real-life situations regarding cardiorespiratory, muscle physiology, and bone physiology responses to exercise, climate, and altitude. Lec/lab. PREREQS: ANS 314

ANS 531. EQUINE SYSTEMS II: NUTRITION (3). Senior and graduate students intensively explore and apply science to real-life situations regarding starch, fiber, protein, and fat metabolism in performance horses, breeding stock, and growing horses. PREREQS: ANS 313

## ANS 532. EQUINE SYSTEMS III:

REPRODUCTION (4). Designed for seniors and graduate students to explore the fundamentals of equine reproduction and their application in horse breeding. Includes practical training in laboratory techniques. Lec/lab. PREREQS: ANS 220 and ANS 316 and ANS 327

ANS 533. POULTRY MEAT PRODUCTION
SYSTEMS (3). Fundamental applications and
he analysis of management principles applied to brooding, rearing, feeding and housing meattype chickens and turkeys and their respective breeders. Decision case studies and practical management problems are incorporated into the course. Offered odd number years. PREREQS: ANS 217 and ANS 313 and ANS 316 and ANS 378 or instructor's approval
ANS 534. EGG PRODUCTION SYSTEMS (3). Applications and analyses of egg production systems for brooding, rearing, feeding and housing egg producing chickens. Decision case studies and practical management problems are incorporated into the course. Offered evennumbered years. PREREQS: ANS 217 and ANS 313 and ANS 316 and ANS 378 or instructor's approval
ANS 535. APPLIED ANIMAL BEHAVIOR (3).
Exploration of the fundamental processes of animal behavior and implications for animal management, production, housing and welfare. Examples provided in class will cover a range of species, with emphasis on domestic animals. Lec/ lab. PREREQS: ANS 314 and BI 350 or Z 350 or equivalent.

ANS 536. SHEEP PRODUCTION SYSTEMS (3).
Integration of nutrition, genetics, reproduction, behavior, and health principles into management systems for production and marketing of lamb and wool. PREREQS: ANS 216 and ANS 311 and ANS 316 and ANS 378

ANS 538. BIOLOGY OF LACTATION (3).
Physiological and environmental factors affecting mammary gland development and function. Offered alternate years. PREREQS: Z 431 or Z 531
ANS 539. DAIRY PRODUCTION SYSTEMS (4).
Fundamentals of nutrition, breeding, reproductive physiology and health programs and their applications in the care and management of dairy cattle. PREREQS: ANS 215 and ANS 313 and ANS 316 and ANS 378

ANS 540. DAIRY PRODUCTION SYSTEMS (3). Decision case analysis or special topics in application of dairy management principles. PREREQS: ANS 439
ANS 541. TOPICS IN ANIMAL LEARNING (3). Explore when and how the behavior of animals can be shaped by the environment, individual experiences, and interactions with other animals (including humans). PREREQS: BI 211 and BI 212 and junior standing. Recommended: ANS 435 or ANS 535 and (BI 350 or Z 350) and BI 213
ANS 543. BEEF PRODUCTION SYSTEMS:
COW/CALF (3). Fundamentals of nutrition, reproductive physiology and health programs and their applications in the care and management of beef cattle. Overnight field trip with extra fee charged. Lec/lab. Taught at EOU La Grande campus only. PREREQS: ANS 315 and ANS 313 and ANS 316 and ANS 378

ANS 544. BEEF PRODUCTION SYSTEMS: STOCKER/FEEDLOT (3). Continuation of the study of beef cattle management. Students will practice decision-making processes using area beef cattle operations as case studies. Overnight field trip with extra fee charged. Taught at EOU La Grande campus only. PREREQS: ANS 443 or ANS 543
ANS 545. BEEF PRODUCTION SYSTEMS (4). Students will be exposed to the fundamentals of nutrition, reproductive physiology, selection, health programs, and their applications in the care and management of beef cattle from conception through calving, weaning, stocker/back grounding and the feedlot. Students will practice decisionmaking processes using working case studies. Overnight field trip with extra fee charged. PREREQS: ANS 313 and ANS 316 and ANS 317 and ANS 378

ANS 552. LIVESTOCK HOUSING AND WASTE MANAGEMENT (3). Basics in where, how, and
why one would build, insulate, and ventilate livestock buildings. Manure and wastewater collection, treatment, storage, and utilization. Offered alternate years.

ANS 556. COMPANION ANIMAL PRODUCTION SYSTEMS (3). Fundamentals of dog and cat breeding stock selection, feeding and housing as well as biology and management from estrus through parturition to weaning. Due to the nature of this class, a variety of animals may be present during class session. Questions and interactions are encouraged but, while precautions are taken, any contact with animals carries some risk of injury or illness. PREREQS: (ANS 313 and ANS 316* and ANS 317* and ANS 378) and senior standing.
ANS 560. LIPID METABOLISM (3). Digestion, absorption and metabolism of lipids with emphasis on lipoprotein metabolism, regulation of lipid metabolism in various tissues and metabolism of eicosanoids. Offered alternate years. PREREQS: BB 452 and BB 492 or equivalent
ANS 599. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 16 credits.
ANS 601. RESEARCH (1-16). Graded P/N. This course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required.
ANS 603. THESIS (1-16). This course is repeatable for a maximum of 999 credits.
ANS 605. READING AND CONFERENCE (1-
16). This course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required.

ANS 606. PROJECTS (1-16). This course is repeatable for a maximum of 16 credits.

ANS 607. GRADUATE SEMINAR (1). This course is repeatable for a maximum of 99 credits.

ANS 608. WORKSHOP (1-16). This course is repeatable for a maximum of 16 credits.

ANS 609. TEACHING PRACTICUM (1-16). This course is repeatable for a maximum of 16 credits.

ANS 662. HORMONE ACTION (3). Mechanisms of action of peptide and steroid hormones and related compounds at the cellular level. Offered every other year, winter term. CROSSLISTED as BB 662, MCB 662. PREREQS: BB 551 [C] or BB 592 [C]

ANS 673. BIOLOGY OF MAMMALIAN
REPRODUCTION (4). Physiological,
neuroendocrine, endocrine and environmental
factors that regulate reproduction of mammals. Offered alternate years. PREREQS: ANS 316 or equivalent and BB 350

ANS 699. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 16 credits.

## - RANGELAND ECOLOGY AND MAMAGEMENT COURSES

RNG 121. *INTRODUCTION TO WILDLAND ECOLOGY (4). Ecological principles will be applied to understand contemporary issues related to wildlands, specifically the rangeland biomes that comprises over 50\% of the Earthיs surface (FAO, SRM, USDA ERS). Topics to be covered fall into the following categories: Fundamentals of Ecology; Animals (wildlife \& livestock); Disturbance (e.g., invasive species, fire, mineral extraction, etc.); Ecosystem Goods \& Services (e.g., carbon sequestration, watersheds, biodiversity, recreation, etc.). The course will largely focus on U.S. wildlands, however a portion will examine the ecology and issues of international rangelands in Africa, Eurasia, Australia, and South America. (Bacc Core Course)

RNG 299. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 16 credits.

RNG 299H. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Honors College approval required.

RNG 341. RANGELAND ECOLOGY AND MANAGEMENT (3). Nature and management of rangelands. Integrated land use with emphasis on plant-animal-soil interactions.
RNG 346. TOPICS IN WILDLAND FIRE (3). An interdisciplinary survey of concepts relating to fire science, ecology, management, and policy ncludes case studies of several representative ecosystems, ranging from west- and eastside forests of the Pacific Northwest to shrub steppe ecosystems of the Intermountain West and chaparral ecosystems of southern California. Distance and campus-based delivery using videos, website, and discussion. PREREQS: Course work in forest biology or ecology (e.g., FOR 240, FOR 341) or equivalent.

RNG 351. RANGE ECOLOGY I-GRASSLANDS (3). Principles and terminology of grassland ecology. Addresses the spatial-temporal dynamics of structure, function, and process in North American grassland ecosystems. Water, nutrient cycles and energy pathways are explored in context of the variable driving forces of climate (drought), herbivory, and fire. PREREQS: (BOT 313 [D-] and RNG 341 [D-] )

RNG 352. RANGE ECOLOGY II-SHRUBLANDS
(3). Introduces the ecology of shrublands using an autecological approach. Explores the effects of stressors such as temperature, drought, fire, and herbivory on plant morphology, physiology, reproduction, and growth. Covers life histories of common shrubs and descriptions of shrubland communities used to promote understanding of autecological principles. PREREQS: BOT 313 and RNG 341
RNG 353. WILDLAND PLANT IDENTIFICATION
(4). Students will learn how to identify approximately 100 plant species found in wildlands of North America and Mexico. Individual plant species ecology, basic plant anatomy and identification characteristics observable only through a microscope or dissecting scope, and how to use a dichotomous key for plant ID will also be covered.

RNG 355. DESERT WATERSHED
MANAGEMENT (3). A systems-based understanding of hydrologic processes in arid and semiarid landscapes. The class is focused on gaining knowledge of multiple ecological and hydrological interactions occurring in dryland watersheds and on discussing practical methodology aimed to enhance site productivity and ecosystem resilience. Emphasis is placed on land use effects on watershed function; monitoring of soil, water, and vegetation variables; and methods of rehabilitation of degraded landscapes. The course has a strong experiential learning component through a series of "hands-on" practicums and a field trip to a semiarid location in eastern Oregon. Lec/lab.

RNG 399. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 16 credits.

RNG 403. SENIOR THESIS (1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required.

RNG 405. READING AND CONFERENCE (1-16). This course is repeatable for a maximum of 16 credits.
RNG 406. PROJECTS (1-16). This course is repeatable for a maximum of 16 credits.
RNG 411. ADVANCED PLANT ID (2). Advanced rangeland plant taxonomy. This course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required.

RNG 421. WILDLAND RESTORATION AND ECOLOGY (4). Emphasis is placed on understanding the ecology of arid and semi-arid ecosystems through the study of ecological processes responsible for ecosystem function.
Range improvement practices for stabilizing and repairing degraded wildlands by directing autogenic recovery mechanisms are discussed.

This involves manipulating plants, soil, animals and microenvironments for improved ecosystem function. PREREQS: Course work in soils and ecology. Field trip required.
RNG 430. APPLIED GIS IN RANGELAND SCIENCE (4). Introducing the use of GIS and geospatial information (remote sensing for GIS, GPS, landscape ecology, and cartography principles) in rangeland sciences problem solving and analysis PREREQS: GEO 365 [D-] or GEOG 360 [D-]
RNG 436. WILDLAND FIRE SCIENCE AND MANAGEMENT (4). Principles and applications of fire as a natural resource management tool, the role of fire in conservation management, restoration, and preservation of ecosystems Covers basic techniques and current research used to describe fire behavior and spread, fuels and fuel manipulation, and fire effects on the biota. Focus will be on fire as a natural process in ecosystem dynamics. Lec/lab.

## RNG 441. RANGELAND ANALYSIS (4).

Techniques used to describe vegetation in shrub-lands, grasslands, and forests. Use of measurements in resource management. Course is field-oriented, emphasizing both theory and practice of wildland inventory methods. PREREQS: ST 351 or ST 351H

RNG 442. RANGELAND-ANIMAL RELATIONS (4). Domestic and wild animal use of rangelands as related to environmental factors, palatability, food habits, nutrition, physiography, and their effects on management of rangeland-animal resources.

RNG 455. RIPARIAN ECOHYDROLOGY AND MANAGEMENT (4). A systems approach to study ecological and hydrological relationships occurring in riparian ecosystems. The class is focused on gaining knowledge of multiple connections between soil, water, and terrestrial vegetation occurring in riparian systems. Emphasis is placed on land use effects on the riparian ecologic and hydrologic function, methods of rehabilitation, and theories of the proper use of riparian ecosystems under a multiple-use philosophy (i.e., fish, wildlife, livestock, aesthetics, recreation, and silviculture). PREREQS: RNG 355 [D-]
RNG 470. PASTORAL SYSTEMS OF THE WORLD (4). Description and evaluation of ecosystems which support grazing animals and pastoralists. Biology, ecology and management of these landscapes will be explored through climate, soils, and plant communities and humanlivestock interactions. The historic role of trade and contemporary challenges to the ecological, social and economic sustainability of pastoral systems will be examined.

RNG 477. *AGROFORESTRY (3). Theory and worldwide practice of multiple-crop low input sustainable systems involving concurrent production of tree and agricultural products. Biological, economic, social, and political factors that underlie the application of agroforestry technology. CROSSLISTED as FES 477/FES 577, NR 477. (Bacc Core Course) PREREQS: Introductory course in biology.
RNG 490. RANGELAND MANAGEMENT
PLANNING (4). Administration and management of rangelands; planning processes involving goal setting, inventories, personnel management, environment, conflict resolution, and other constraints necessary for decision-making. Use of data collected from field problems to support the execution of class plans. Field trip required. Lec/lab.

RNG 499. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 16 credits.

RNG 501. RESEARCH AND SCHOLARSHIP (1-16). This course is repeatable for a maximum of 16 credits.

RNG 503. MASTER׳S THESIS (1-16). This course is repeatable for a maximum of 999 credits.

RNG 505. READING AND CONFERENCE (1-16).
This course is repeatable for a maximum of 16 credits.

RNG 506. PROJECTS (1-16). This course is repeatable for a maximum of 16 credits.

RNG 507. SEMINAR (1-2). This course is repeatable for a maximum of 16 credits.
RNG 521. WILDLAND RESTORATION
AND ECOLOGY (4). Emphasis is placed on understanding the ecology of arid and semi-arid ecosystems through the study of ecological processes responsible for ecosystem function Range improvement practices for stabilizing and repairing degraded wildlands by directing autogenic recovery mechanisms are discussed. This involves manipulating plants, soil, animals and microenvironments for improved ecosystem function.

RNG 541. RANGELAND ANALYSIS (4).
Techniques used to describe vegetation in shrub-lands, grasslands, and forests. Use of measurements in resource management. Course is field-oriented, emphasizing both theory and practice of wildland inventory methods. PREREQS: ST 351

RNG 542. RANGELAND-ANIMAL RELATIONS (4). Domestic and wild animal use of rangelands as related to environmental factors, palatability, food habits, nutrition, physiography, and their effects on management of rangeland-animal resources. PREREQS: RNG 341

RNG 555. RIPARIAN ECOHYDROLOGY AND MANAGEMENT (4). A systems approach to study ecological and hydrological relationships occurring in riparian ecosystems. The class is focused on gaining knowledge of multiple connections between soil, water, and terrestrial vegetation occurring in riparian systems. Emphasis is placed on land use effects on the riparian ecologic and hydrologic function, methods of rehabilitation, and theories of the proper use of riparian ecosystems under a multiple-use philosophy (i.e., fish, wildlife, livestock, aesthetics, recreation, and silviculture). PREREQS: RNG 355

RNG 577. AGROFORESTRY (3). Theory and worldwide practice of multiple-crop low input sustainable systems involving concurrent production of tree and agricultural products. Biological, economic, social, and political factors that underlie the application of agroforestry technology. CROSSLISTED as FES 477/FES 577, NR 477. PREREQS: Introductory course in biology.
RNG 590. RANGELAND MANAGEMENT
PLANNING (4). Administration and management of rangelands; planning processes involving goal setting, inventories, personnel management, environment, conflict resolution, and other constraints necessary for decision-making. Use of data collected from field problems to support the execution of class plans. Field trip required. Lec/lab.

RNG 599. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 16 credits.

RNG 601. RESEARCH AND SCHOLARSHIP (1-16). This course is repeatable for a maximum of 16 credits.
RNG 603. PH.D. THESIS (1-16). This course is repeatable for a maximum of 999 credits.
RNG 605. READING AND CONFERENCE (1-16). This course is repeatable for a maximum of 16 credits.
RNG 606. PROJECTS (1-16). This course is repeatable for a maximum of 16 credits.

RNG 607. SEMINAR (1-2). This course is repeatable for a maximum of 16 credits.

RNG 608. WORKSHOP (1-16). This course is repeatable for a maximum of 16 credits.

## RNG 643. WILDLAND PLANT

ECOPHYSIOLOGY (4). Emphasizes the physiological ecology of plants living in arid and semi-arid ecosystems. Primary class emphasis will include photosynthesis, respiration, water stress and water use efficiency, stable isotopes, root structure and function, nutrient uptake and stress, and defoliation. Offered every other winter, odd years.
RNG 661. AGRICULTURAL RESEARCH
PERSPECTIVES (3). Planning and managing agricultural research projects, publishing research results, professional ethics, interactions of science, scientists, and society. Offered on alternate years.

## RNG 662. RANGELAND ECOLOGY (3).

 Studies ecological theory and related resource management implications in rangelands and arid wildlands. Topics include the history and development of rangeland ecology, plant demography, invasive species, plant population dynamics, disturbance theory, succession, vegetation classification and range condition assessments. Offered every other winter, even years. PREREQS: A course in basic ecology recommended.RNG 670. ECOLOGICAL INVASIVE PLANT MANAGEMENT (2). Logic of ecologically based invasive plant management. Ecological processes of invasion. Management of plant succession with emphasis on augmentive restoration. Adaptive management of weed invasions into natural ecosystems. Development of ecologically based management plans for natural ecosystems. Offered odd-numbered years only.
RNG 699. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 16 credits.

## FACULTY

Professors Antle, Boggess, Capalbo, Färe, Jaeger, Lev, Lewis, Seavert, Sylvia, Wu Associate Professors Chen, Diebel,
Durham, Langpap, Reimer, Riggs, Sterns Assistant Professors Dundas, Kling, Melesse, Streletskaya
Assistant Professors (Sr.
Researchers) Bell, Cross, Valdivia
Instructors Brekken, Egelkraut, Fisher, Fleming, Gow, Kerkvliet, King, Olen, Rahe

Senior Research Assistant Houston
Faculty Research Assistant Olen
Research Associate Brekken
Professional Faculty Radke, Richardson, Sandler
Adjunct Faculty D. Adams, Bernell, Elston, Landkamer
Courtesy Faculty Albers, Barkley, Barnhart, Doring, Kilkenny, Papenfus, Plantinga, Whittaker

## Affiliate Faculty Gwin

## AEC GRADUATE FACULTY

The Applied Economics Graduate Program currently has 41 faculty members, drawn from three departments and two schools in five colleges.

Albers, Alig, Antle, Bell, Bernell, Boggess, Buccola, Capalbo, Chen, Chi, Cross, Diebel, Dundas, Durham, Eleveld, Färe, Fisher, Harte, Jaeger, Kerkvliet, Kline, Kling, Langpap, Lev, Lewis, Maness, McMullen, Melesse, Meng, Montgomery, Plantinga, Pugatch, Reimer, Rosenberger, L. Schroeder, Seavert, Sessions, Sterns, Streletskaya, Sylvia, Weber, Wu, Yoon.

## Undergraduate Majors

Agricultural Business Management (BS, HBS)
Environmental Economics and Policy (BS, HBS)

## Minors

Agricultural Business Management
Food Economics and Policy
Natural Resource and Environmental Law and Policy
Resource Economics (Also available via Ecampus.)

## Graduate Major

Applied Economics (MA, MAIS, MS, PhD)

## Graduate Areas of Concentration

Resource and Environmental Economics
Trade and Development
Public Health Economics
Transportation Economics (MA/MS only)

## Graduate Minors

Applied Economics
International Agricultural Development
The Department of Applied Economics offers the Bachelor of Science degree in Agricultural Business Management and the Bachelor of Science degree in Environmental Economics and Policy. These degrees open doors to exciting careers in the traditional areas of commercial agriculture, agricultural business management, and agricultural policy, and in the newer career areas of natural resource and environmental management, marine resources, international trade and development, rural growth and change, and environmental and resource law.

The Agricultural Business Management (ABM) major prepares students for unique challenges and opportunities in agricultural business careers. It combines economic and business principles and their application to farms and ranches, companies processing and marketing farm products, and companies supplying goods and services to farmers and other businesses. The curriculum combines skills in marketing, business management, accounting, and economic analysis with a minor appropriate to a student's professional goals and interests.

## CAREER OPPORTUNITIES FOR UNDERGRADUATES

Graduates may pursue a number of attractive career opportunities. Agricultural Business Management (ABM) majors may move directly into professional jobs with agribusiness firms, financial and insurance institutions, or manage their own agribusinesses. Opportunities also exist for ABM majors to pursue graduate studies in food and agricultural management, agricultural cooperatives, and sustainable development. Environmental Economics and Policy (EEP) students can serve effectively as members of interdisciplinary teams involved in resource and environmental management, planning, and policy analysis. Government job opportunities include management, planning, and analysis positions with federal, state, and local government agencies. Private company opportunities include similar positions with utility companies, banks, consulting firms, and resource management companies. The EEP degree also provides an excellent foundation for graduate work in economics, as well as law, public policy, and urban planning.

## APPLIED ECONOMICS GRADUATE PROGRAM

The Applied Economics Graduate Program offers the MA, MS, and PhD degrees in Applied Economics. Graduates pursue academic, analytical, and policy careers in universities, consulting, trade associations, firms, and government. Core course work consists of microeconomic theory, econometrics, and other quantitative methods. Field (concentration) and elective courses include natural resources and the environment, energy, trade, economic development, marine and coastal resources, transportation, and health care. Program emphasis is on applications to real-world settings, institutions, and problems. Faculty are in the Applied Economics Department; the Colleges of Forestry, Agricultural Sciences, and Liberal Arts; the College of Earth, Ocean, and Atmospheric Sciences; and the School of Public Health and Human Sciences.

## UNDERGRADUATE MAJORS WITH OPTIONS

## AGRICULTURAL BUSINESS

MANAGEMENT (BS, HBS)
The BS in Agricultural Business Management (ABM) degree curriculum blends course work in agricultural economics, business, agricultural sciences, computer science, arts, and humanities so that graduates can respond to the unique challenges and opportunities in agribusiness vocations.

All ABM students must select a minor (minimum of 27 credits) appropriate to their professional goals and interests. An internship or project is required to integrate course work with business-oriented experiences.
AEC 211. Management in Agriculture (4)
AEC 221. Marketing in Agriculture (3)
AEC 250. *Introduction to Environmental Economics and Policy (3)
or ECON 201. *Introduction to
Microeconomics (4)
BA 211. Financial Accounting (4)
BA 213. Managerial Accounting (4)
ECON 202. *Introduction to
Macroeconomics (4)
MTH 111. *College Algebra (4)
MTH 241. *Calculus for Management and Social Science (4)
ST 351. Introduction to Statistical Methods (4)

WR 121. *English Composition (3)
WR 323. *English Composition (3)
or WR 327. *Technical Writing (3)
Note: Students must receive a C- or above in the courses above. If a student receives below a " $\mathrm{C}-$ " he or she must retake the course.

## BS Degree Requirements (180)

Baccalaureate Core (48)
Applied Economics Core Courses
AEC 121. Discovering Agricultural and Resource Economics (1)
AEC 211. Management in Agriculture (4)
AEC 221. Marketing in Agriculture (3)
AEC 250. *Introduction to Environmental Economics and Policy (3)
or ECON 201. *Introduction to
Microeconomics (4)
AEC 300. Applied Economic Analysis (3)
AEC 406. Projects (6)
or AEC 410. Internship (6)
AEC 442. Agricultural Business Management (4)
AEC 461. ${ }^{\wedge}$ Agricultural and Food Policy Issues (4)
AEC 465. Agricultural and Food Financial Management (3)

## Quantitative Courses

Choose two courses from the following list:
AEC 447. Agricultural Price and Market Analysis (4)
ECON 424. Introduction to Econometrics (4)

ST 352. Introduction to Statistical Methods (4)

## Upper-Division Business Courses

Choose two from the following list:
BA 347. International Business (4)
BA 351. Managing Organizations (4)
BA 390. Marketing (4)
BA 463. Family Business Management (4)
FIN 441. Financial Institutions (4)
MRTK 492. Consumer Behavior (4)
MRKT 493. Advertising Management (4)
MRKT 495. Retail Management (4)
MRKT 497. Global Marketing (4)
Choose a minimum of 12 credits
from upper-division AEC or ECON courses or others as approved by advisor.

## Business Administration

BA 211. Financial Accounting (4)
BA 213. Managerial Accounting (4)
BA 233. Legal Environment of Business (2)
BA 360. Introduction to Financial Management (4)

## Computers and Technology

ENVIRONMENTAL ECONOMICS AND POLICY (BS, HBS)
Also available via Ecampus.
The BS degree in Environmental Economics and Policy focuses on the development of strong economic and statistical skills and their use in the analysis while providing flexibility to incorporate interests in the biological, physical or social sciences. They also will focus on course work in environmental sciences, political sciences, and related subject areas with a greater focus on the socioeconomic dimensions of environmental sciences.

## Grade Requirements

All EEP majors must complete the core list of courses with a grade of C - or higher.

## Core Requirements

A grade of C-or higher must be earned in all core requirements.
AEC 250. *Introduction to Environment. Economics and Policy (3) or ECON 201. *Introduction to Microeconomics (4)
AEC 253. *Environmental Law, Policy and Economics (4)
AEC 311. Intermediate Applied Economics
I: Producers and Consumers (4)
AEC 313. Intermediate Applied Economics
II: Markets, Welfare \& Policy (4)
AEC 351. *Natural Resource Economics and Policy (3)
AEC/ECON 352. *Environmental
Economics and Policy (3)
AEC 432. Environmental Law (4)
AEC 434. ${ }^{\wedge}$ Measuring Resource and
Environmental Impacts (4)
ECON 202. *Introduction to Macroeconomics (4)
Upper-Division Electives
Choose 5 or more from the list below; two must be AEC courses:
AEC 310. Exploring Experiential Learning
Opportunities (2)
AEC 388. Agricultural Law (4)
AEC 444. Commodity Futures and Options Market (4)
AEC 447. Agricultural Price and Market Analysis (4)

UNDERGRADUATE MINORS

## AGRICULTURAL BUSINESS MANAGEMENT MINOR

## Also available via Ecampus.

The Agricultural Business Management minor offers students an opportunity to expand their skill sets and business acumen as they prepare for careers in production agricultural and related industries. This minor emphasizes the development of general skills in business administration and economic analysis relevant to the operations of farms, ranches, nurseries and the businesses that provide inputs, services and market outlets for them. The Agricultural Business Management minor is available to students who are not pursuing the ABM major. Business Administration majors planning to minor in Agricultural Business Management must see both a College of Business advisor and a Department of Applied Economics advisor to discuss certain course restrictions in the minor. Business majors must choose alternate courses to replace the credits that are also in the Business Administration major.

Each minor in the Applied Economics Department is created to provide students within and outside the discipline the opportunity to study a secondary area. Each minor requires 27 credits of course work in addition to the student's major. At least 12 of the 27 credits must be upper division. No credits counted toward the minor can be courses also counted toward the student's major.

- Agricultural Business Management
(ABM) majors may not elect to
complete an Agricultural Business Management.
- Environmental Economics and Policy (EEP) majors may not elect to complete a Resource Economics or Natural Resource and Environmental Law and Policy minor.

## Required Courses (14-15 credits)

AEC 211. Agricultural and Food
Management (4)
AEC 221. Agricultural and Food Marketing (3)
AEC 250. *Introduction to Environmental
Economics and Policy (3)
or AEC 251. *Introduction to Agricultural and Food Economics (3)
or ECON 201. *Introduction to
Microeconomics (4)
AEC 311. Intermediate Applied Economics
I: Producers and Consumers (4)
Students will work with the academic advisor in the Department of Applied Economics to select additional courses for a total of 27 credits.
Total $=27$
Footnote:

* Baccalaureate Core Course (BCC)

## Minor Code: 104

## FOOD ECONOMICS AND POLICY MINOR

The Food Economics and Policy minor offers students an opportunity to expand their understanding of the economic and political foundations of contemporary agricultural and food systems. This minor emphasizes the complexity and interconnectedness of consumer demand and the food system's ability to supply agricultural and food products that meet this demand.

The Food Economics and Policy minor is available to all OSU students except for those who are pursuing the Agricultural Business Management (ABM) major.

Each minor in the Applied Economics Department is created to provide students within and outside the discipline the opportunity to study a secondary area. Each minor requires 27 credits of course work in addition to the student's major. At least 12 of the 27 credits must be upper division. No credits counted toward the minor can be courses also counted toward the student's major.

## Required Courses ( 15 credits)

AEC 311. Intermediate Applied Economics
I: Producers and Consumers (4)
AEC 440. The Economics of Business
Organization in the Food System (4)
AEC 466. Agricultural and Food Marketing Management (4)
AGRI 411. *Introduction to Food Systems: Local to Global (3)
Students will work with the academic
advisor in the Department of Applied
Economics to select additional courses for a total of 27 credits.

## Footnote:

* Baccalaureate Core Course (BCC)

Minor Code: 790

## NATURAL RESOURCE AND ENVIRONMENTAL LAW AND <br> POLICY MINOR

The Natural Resource and Environmental Law and Policy minor is available to students who are not pursuing the EEP major.

Each minor in the Applied Economics Department is created to provide students within and outside the discipline the opportunity to study a secondary area. Each minor requires 27 credits of course work in addition to the student's major. At least 12 of the 27 credits must be upper division. No credits counted toward the minor can be courses also counted toward the student's major.

- Agricultural Business Management (ABM) majors may not elect to complete an Agricultural Business Management minor.
- Environmental Economics and Policy (EEP) majors may not elect to complete a Resource Economics or Natural Resource and Environmental Law and Policy minor.

## Required Courses (12 credits)

AEC 253. *Environmental Law, Policy and Economics (4)
AEC 388. Agricultural Law (4)
AEC 432. Environmental Law (4)
Students will work with the academic advisor in the Department of Applied Economics to select additional courses for a total of 27 credits.

## Minor Code: 670

## RESOURCE ECONOMICS MINOR

## Also available via Ecampus.

The Resource Economics minor is available to students who are not pursuing the EEP major.

Each minor in the Applied Economics Department is created to provide students within and outside the discipline the opportunity to study a secondary area. Each minor requires 27 credits of course work in addition to the student's major. At least 12 of the 27 credits must be upper division. No credits counted toward the minor can be courses also counted toward the student's major.

- Agricultural Business Management (ABM) majors may not elect to complete an Agricultural Business Management minor.
- Environmental Economics and Policy (EEP) majors may not elect to complete a Resource Economics or Natural Resource and Environmental Law and Policy minor.

## Required Courses (16-17 credits) <br> AEC 250. *Introduction To Environmental

Economics and Policy (3)
or ECON 201. *Introduction to
Microeconomics (4)
AEC 311. Intermediate Applied Economics

1: Producers and Consumers (4)
AEC 313. Intermediate Applied Economics

## GRADUATE MAJORS

## APPLIED ECONOMICS (MA, MS,

 PhD, MAIS)Graduate Areas of Concentration
Resource and environmental economics, trade and development, public health economics, and transportation economics (MA, MS only)
The Applied Economics Graduate Program provides students with a strong foundation in economic theory, and quantitative methods while preserving sufficient flexibility to specialize in their areas of interest. The core curriculum includes courses in microeconomic and macroeconomic theory, in quantitative methods, and includes a set of qualifying examinations. Additional course work is required in the areas of concentration, which include: research and environmental economics, trade and development, public health economics, transportation economics, and an open area of concentration. The open area can accommodate students' interests in applied economic policy, sustainable development, food and climate policy, and marine issues. The hallmark of the Applied Economics Graduate Program is the training of students to understand and utilize economic theories, principles, and methods to examine real-world problems with significant attention to data, institutions, and context.

Since faculty from across campus are members of the graduate faculty in Applied Economics and are potential research advisors, the Applied Economics Graduate Program allows students to work with faculty who most closely match their interests.

These faculty reside in many academic departments at Oregon State University, including the Department of Applied Economics, the School of Public Policy, the Department of Forest Ecosystems and Society, the Department of Forest Resources, Engineering and Management, and the College of Public Health and Human Sciences. Many students are
supported by graduate teaching or graduate research assistantships. The Graduate School website also provides information related to financing your graduate education.

For detailed information on the Applied Economics Graduate Program, please review the web page at http:// appliedecon.oregonstate.edu/appliedeconomics/aecgradprogram or contact Dr. Christian Langpap, Director of Admissions, Applied Economics Graduate Program, 213 Ballard Extension Hall, OSU, Corvallis, OR 97331 or phone: 541-737-1473, or email: applied.economics@ oregonstate.edu.
Major Code: 1290

## GRADUATE MINORS

## APPLIED ECONOMICS GRADUATE MINOR

For detailed information on the Applied Economics Graduate Program, please review the web page at http://appliede-con.oregonstate.edu/applied-economics/ aecgradprogram or contact Dr. Christian Langpap, Director of Admissions, Applied Economics Graduate Program, 213 Ballard Extension Hall, OSU, Corvallis, OR 97331 or phone:541-737-1473, or email: applied.economics@oregonstate.edu.
Minor Code: 1290

## INTERNATIONAL AGRICULTURAL DEVELOPMENT GRADUATE MINOR

## Requirements

AG 521. Leadership Development (3)
Language competency
Technical electives in agriculture ( 5 for
master's, 9 for doctorate)
Social, cultural and economic electives (5)
Minimum of 21 credits for master's, 25 for doctorate.
Note: The graduate minor in International Agricultural Development is not available to students who took the undergraduate minor in Comparative International Agriculture at Oregon State University.

## Minor Code: 1070

## RURAL STUDIES GRADUATE <br> \section*{MINOR}

Rural communities-both in the U.S. and globally-face an extraordinarily complex set of challenges due to sparse settlements and geographic isolation, exacerbated by globalization and technological change in an interdependent urban-rural system. Addressing these challenges requires both the theoretical insights of multiple disciplines and the practical wisdom that derives from engagement in solving actual problems in rural places. Emerging approaches to the study of rural people and places offer opportunities to examine rural issues from the perspec-
tive of multiple disciplines and diverse research methods that can capture the complexities at the intersections of place and space. Yet graduate training programs in these new approaches to rural studies are scarce.
Offered through campus and fieldbased experiential education, the graduate minor in Rural Studies provides students with the skills and competencies needed to understand economic, social, political and cultural dynamics of rural places.

The Rural Studies minor complements and supports other programs at OSU including the Master of Public Policy's concentration in rural policy and other graduate programs where students and faculty engage in rural issues such as applied economics, anthropology, forest ecosystems and society, geosciences, and human development and family sciences.

## Required Core (7 credits)

RS 511, RS 611 X . Communities and Natural Resources (5) [Pending submission and approval of curriculum proposal.]
RS 512. Introduction to Rural Studies (2)
RS 513. Contemporary Rural Issues (2)
Electives (Minimum 11 credits)
AEC 554. Rural Development Economics and Policy (3)
ANTH 571. Cash, Class and Culture: Hunter-Gatherers to Capitalism (4)
ANTH 581. Natural Resources and
Community Values (4)
ANTH 582. Anthropology of International Development (3)
ANTH 584. Wealth and Poverty (3)
ANTH 586. Anthropology of Food (4)
ANTH 599. Special Topics: Ethnographic
Field School 1-16
ANTH 599. Special Topics: Rural Anthropology (3)
ENG 582. Studies in American Literature, Culture, and the Environment (3)
ES 544. Native American Law: Tribes, Treaties, and the United States (4)
ES/PHL 548. Native American Philosophies (4)

GEO 520. Resilience-Based Natural Resource Management (3)
or GEOG 530. Resilience-Based Natural Resource Management (3)
GEO 523/GEOG 550. Land Use in the American West (3)
GEO 526/GEOG 531. Global Resources and Development (3)
GEOG 551. Planning Principles and
Practices for Resilient Communities (3)
H 520. Health Disparities (3)
HDFS 547. Families and Poverty (3)
PS 575. Environmental Politics and Policy (4)
RS 502. Independent Study (1-16)
SNR 520. Social Aspects of Sustainable
Natural Resources (3) Ecampus only.
SOC 526. Social Inequality (4)
SOC 554. Leisure and Culture (4)
SOC 556. Science and Technology in a
Social Context (4)
SOC 560. Comparative Societies (4)

SOC 566. International Development: Gender Issues (4)
SOC 575. Rural Sociology (4)
SOC 580. Environmental Sociology (4)
SOC 581. Society and Natural Resources (4)

## Total=18 credits

Minor Code: 1080
■ APPLIED ECONOMICS COURSES
AEC 121. DISCOVERING AGRICULTURAL AND RESOURCE ECONOMICS (1). Explore issues, opportunities, and challenges in the dynamic and diverse employment field of agricultural and resource economics. PREREQS: Freshman or sophomore standing and/or interest in exploring a new major or minor in either Agricultural Business Management or Environmental Economics and Policy.
AEC 199. SPECIAL TOPICS (1-4). Targeted courses that focus on specific topics in agricultural and resource economics. Topics may vary from term to term and from year to year. May be repeated for credit when topics differ. This course is repeatable for a maximum of 8 credits.

## AEC 211. AGRICULTURAL AND FOOD

MANAGEMENT (4). Economic and business principles applied to the management of firms in agricultural and food industries, including farms, ranches and nurseries, agricultural input suppliers, packers, shippers, processors and food manufacturers and distributors; firm-level goal setting, information management and financial analysis. PREREQS: AEC 250 [C-] or AEC 251 [C-] or AREC 250 [C-] or ECON 201 [C-] or ECON 201H [C-]

## AEC 221. AGRICULTURAL AND FOOD

MARKETING (3). Organization and functions of agricultural and food markets both domestic and international; market channels and supply chains for various agricultural commodities and food products; role of agribusiness, cooperatives, and government in marketing decisions. PREREQS: AEC 250 [D-] or AEC 251 [D-] or AREC 250 [D-] or ECON 201 [D-] or ECON 201H [D-]

## AEC 240. *RURAL ECONOMICS OF PLACE

 AND PEOPLE (3). Provides perspective on issues influencing rural communities and economic development in rural America. People, places and natural resources of rural communities play a vital role in economic vitality of the West, yet rural landscapes are changing faster than many urban counterparts. (Bacc Core Course)
## AEC 250. *INTRODUCTION TO

ENVIRONMENTAL ECONOMICS AND POLICY
(3). Examines how economic forces and social institutions cause environmental degradation and help build management solutions. Explains key economic concepts for valuing environmental resources and evaluating the trade-offs of alternative management approaches from private markets to regulation. Applies the concepts and theories to topical environmental issues such as water pollution and conserving biodiversity. (Bacc Core Course) PREREQS: MTH 111 or equivalent is recommended.
AEC 251. *INTRODUCTION TO AGRICULTURAL AND FOOD ECONOMICS (3). An introductory applied microeconomics course focused on the unique challenges of agricultural and food systems. Topics include rational choice theory, models of supply and demand, and price formation, with particular attention on markets for agricultural and food products. Additional topics include market interdependencies, government policy, the behavior of firms, and market structure within agricultural and food systems. (Bacc Core Course) PREREQS: MTH 111 or equivalent is recommended.
AEC 253. *ENVIRONMENTAL LAW, POLICY, AND ECONOMICS (4). A general introduction to
federal environmental law and policy in the U.S. Familiarizes students with basic legal institutions and concepts of the American legal system, outlines the transition of environmental policy from its common law roots to its modern administrative law form, and gives an overview of the major federal environmental statutes. Relationships among legal theory and process and economic principles are emphasized. (Bacc Core Course)
AEC 299. SPECIAL TOPICS (1-4). Targeted courses that focus on specific topics in agricultural and resource economics. Topics may vary from term to term and from year to year. May be repeated for credit when topics differ. This course is repeatable for a maximum of 8 credits.

## AEC 310. EXPLORING EXPERIENTIAL

 LEARNING OPPORTUNITIES (2). Provides background and preparation for students' experiential learning (EL) activities. Students will be shown examples of appropriate EL, how to find and compete for opportunities, and how to establish and define their learning objectives for EL. Resume writing, appropriate conduct in the workplace, as well as writing and oral presentation skills will be covered. A proposal for an EL activity will be prepared and presented to classmates. Graded P/N. PREREQS: WR 121, sophomore standing, or Applied Economics advisor approval.
## AEC 311. INTERMEDIATE APPLIED

ECONOMICS I: PRODUCERS AND
CONSUMERS (4). An examination of the theories of consumer behavior and demand, production cost, the firm, supply, and competitive and monopoly market structures. PREREQS: (AEC 250 [C-] or AREC 250 [C-] or ECON 201 [C-] or ECON 201H [C-] ) and (MTH 241 [C-] or MTH 251 [C-] or MTH 251H [C-] )
AEC 313. INTERMEDIATE APPLIED ECONOMICS II: MARKETS, WELFARE \& POLICY (4). Complementing the private-decision focus in AEC 311, the present course focuses on the intermediate microeconomic theory of social welfare and public decision-making. Topics include exchange, monopoly, game theory, social welfare, externalities, public goods and choice, asymmetric information, uncertainty, and costbenefit analysis. Substantial attention will be given to the implications of these theories for real-world problems, especially regarding resource and environmental issues. PREREQS: MTH 241 [C-] or (AEC 311 [C-] or AREC 311 [D-] or ECON 311 [C-])
AEC 351. *NATURAL RESOURCE ECONOMICS AND POLICY (3). Application of principles of economics to identify the causes, consequences, and ways of dealing with natural resource problems, including problems associated with fisheries, forests, water resources, and land. Conceptual topics and policy applications. Emphasis is on developing students, skill in applying an economic way of thinking about natural resource management. (Bacc Core Course) PREREQS: (AEC 250 [D-] or AREC 250 [D-] or ECON 201 [D-] or ECON 201H [D-] ) and MTH 111
AEC 352. *ENVIRONMENTAL ECONOMICS
AND POLICY (3). Provides an overview of the interrelationships between economic activity, the environment, and public policy. Through case studies, discussion groups, readings, and group activities, students learn how economists define and analyze environmental problems and the types of policies they advocate for managing environmental quality. CROSSLISTED as ECON 352. (Bacc Core Course) PREREQS: AEC 250 [D-] or AREC 250 [D-] or ECON 201 [D-] or ECON 201H [D-]
AEC 353. *INTRODUCTION TO COASTAL AND MARINE RESOURCE ECONOMICS (3). Introduces tools of economic analysis for understanding coastal and marine resource management. Surveys a selection of current topics in the field, emphasizing innovation in production and stewardship, institutions, and sustainability. (Bacc Core Course) PREREQS: MTH 111 [C-]
and (AEC 250 [C-] or AREC 250 [C-] or ECON 201 [C-] or ECON 201H [C-] )
AEC 371. TOPICS IN GLOBALIZATION (1). Surveys current economic issues associated with globalization.
AEC 372. AGRICULTURAL COOPERATIVES (3).
An introduction to and in-depth examination of the agricultural cooperative. Students will gain a working knowledge of the concepts, principles, and terminology of agricultural cooperatives through reference materials, lectures, presentations by guest speakers and a cooperatives tour. Students will consider the strengths and weaknesses of the agricultural cooperative as well as the unique management and operational challenges inherent to this form of business operation. PREREQS: AEC 211 [D-] or AREC 211 [D-]
AEC 388. AGRICULTURAL LAW (4). Application of legal principles to business decision making in farming, ranching, and the agricultural support industry. Consideration of the obligations arising out of contract, tort, property, water, public land, and natural resource law.
AEC 399. SPECIAL TOPICS (1-4). Targeted courses that focus on specific topics in agricultural and resource economics. Topics may vary from term to term and from year to year. May be repeated for credit when topics differ. This course is repeatable for a maximum of 8 credits.
AEC 399H. SPECIAL TOPICS (1-4). Targeted courses that focus on specific topics in agricultural and resource economics. Topics may vary from term to term and from year to year. May be repeated for credit when topics differ. This course is repeatable for a maximum of 8 credits. PREREQS: Honors College approval required.
AEC 401. RESEARCH AND SCHOLARSHIP (1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required.
AEC 402. INDEPENDENT STUDY (1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required.

AEC 403. THESIS (1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Senior standing, departmental approval required.
AEC 405. READING AND CONFERENCE (1-16).
This course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required.
AEC 406. PROJECTS (1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required.

AEC 407. SEMINAR (1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required.
AEC 407H. SEMINAR (1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Honors College approval required.
AEC 408. WORKSHOP (1-16). This course is repeatable for a maximum of 16 credits.
AEC 410. INTERNSHIP (1-6). Practical on-thejob training in agricultural business, marketing, commercial agricultural production, or related private or public organizations. Graded P/N. This course is repeatable for a maximum of 6 credits. PREREQS: Junior or senior standing. Submission and approval of pre-internship work plans. Internship program coordinator approval required.
AEC 421. ECONOMICS OF RURAL POVERTY AND THE U.S. SOCIAL SAFETY NET (4).
Examines the geography of poverty in the United States and the "social safety net" that the U.S. has constructed to reduce poverty and its negative effects. Understand the geographical consequences of federal policies and the challenges of providing social safety net programs in rural areas. CROSSLISTED as RS 421.

AEC 432. ENVIRONMENTAL LAW (4). Legal relationships arising out of rights to air, water, and land. The impact of federal and state regulation on pollution control and on the production, use, and disposal of hazardous materials. PREREQS: Junior standing.
AEC 434. ^MEASURING RESOURCE AND ENVIRONMENTAL IMPACTS (4). Examines economic perspectives on the allocation of natural resources and the management of environmental quality, emphasis on the use of economic concepts in the design and evaluation of public policies. (Writing Intensive Course) PREREQS: AEC 313 [D-] or AREC 313 [D-]

## AEC 440. THE ECONOMICS OF BUSINESS

 ORGANIZATION IN THE FOOD SYSTEM (4). Application of economic analysis to questions related to the choice of an appropriate form of business organization for a wide variety of food system enterprises. Topics include costs of contracting, costs of ownership, enterprise scope and scale, and the dynamics of business ownership and structure. Particular emphasis is given to entrepreneurial enterprises and cooperative businesses in the food system. PREREQS: AEC 311 [D-] or ECON 311 [D-] and / or instructor consent
## AEC 442. AGRICULTURAL BUSINESS

MANAGEMENT (4). Application of economic, financial, and strategic management principles to agricultural business with a focus on a case-study framework for analysis and business decision making for alternative business management strategies.

## AEC 444. COMMODITY FUTURES AND

OPTIONS MARKETS (4). Provides an overview of the basic concepts needed to use commodity futures and options markets to successfully manage price risk. To address the increasingly global economy in which commodity transactions occur, the course also includes financial futures such as interest rates and currencies. Specific topics covered include contract standardization, speculation and hedging, opening and closing of positions, and basis, i.e. the relationship between cash and futures markets, input-output hedges, and spreads. Students also gain hands-on experience through a trading simulation.

## AEC 446. INTRODUCTION TO APPLIED

ECONOMETRICS (4). Introduces students to applied econometrics: the use of statistical techniques to estimate and test economic relationships. Topics include multiple regression models, multicollinearity, and simultaneous equations. The applications and labs will focus on econometric analysis of real world problems pertaining to issues in environmental, food, and resource economics and policy. Lec/lab.
PREREQS: AEC 311 [D-] and ST 351 [D-]

## AEC 447. AGRICULTURAL PRICE AND

MARKET ANALYSIS (4). Price determination for agricultural commodities and factors; quantitative analysis of prices, factors and markets; agricultural market structures, performance, and roles of institutions. Lec/lab. PREREQS: (AEC 300 or AEC 311 or AREC 300 or AREC 311 or ECON 311) and (AEC 370 or AREC 370) and ST 351

## AEC 448. ADVANCED TOPICS IN

## ENVIRONMENTAL AND RESOURCE

ECONOMICS (3). Explores advanced applications of environmental and resource economics to selected policy and management concerns in the PNW and globally. Attention will be directed to the methodological underpinnings of environmental and resource policies and instruments using case studies on real world management issues. PREREQS: AEC 311 [D-] and AEC 351 [D-] and AEC 352 [D-] and /or permission of the instructor.

AEC 452. MARINE ECONOMICS (3). Economic
aspects of marine resource utilization and management will be analyzed. Topics include open access aspect of marine resources; conflict and allocation of marine resources, marine resource markets, marine recreation, pollution, and
aquaculture, with special emphasis on commercial fisheries. PREREQS: AEC 351 [D-] or AEC 352 [D-] or AREC 351 [D-] or AREC 352 [D-]
AEC 453. CONSERVATION ON PRIVATE LAND
(3). Explore and experience the increasingly popular phenomenon of conservation on private land. This exploration includes the explosive growth of land trusts and the use of conservation easements to restrict the use of private land and often promote ecological goals.
AEC 454. RURAL DEVELOPMENT ECONOMICS AND POLICY (3). Theories of economic change in developed and less-developed economies; natural resource sectors and the development of rural regions, with emphasis on growth, diversification, and instability; resource mobility and the spatial aspects of development; poverty and inequality; rural development policy. PREREQS: AEC 300 [D-] or AREC 300 [D-] or AEC 311 [D-] or AREC 311 [D-]
AEC 460. CAPITAL INVESTMENT ANALYSIS USING AGBIZ LOGIC (3). Learn and understand the important factors in measuring the impacts of implementing technologies and/or conservation practices, adding value to products, or changing cropping systems or livestock enterprises. The AgBiz LogicTM software programs will be used to apply financial and economic principles to better understand and reduce the financial, production, marketing, and human resource risks facing agribusinesses.
AEC 461. ^AGRICULTURAL AND FOOD
POLICY ISSUES (4). Principles of agricultural and food policy formulation; agricultural adjustment processes; agricultural price and income policies in relation to land use, water, and rural development policies; interrelationships among U.S. and foreign agriculture and trade policies. (Writing Intensive Course) PREREQS: (AEC 250 [D-] or AREC 250 [D-] or ECON 201 [D-] or ECON 201H [D-] ) and (AEC 300 [D-] or AREC 300 [D-] or AEC 311 [D-] or AREC 311 [D-] or ECON 311 [D-] )
AEC 465. AGRICULTURAL AND FOOD
FINANCIAL MANAGEMENT (3). Reviews basic financial reporting statements, details accounting and financing practices specific to agricultural and food enterprises, and links these topics to both operational and strategic management decisions for these enterprises. PREREQS: AEC 211 [D-] and AEC 311 [D-]

## AEC 466. AGRICULTURAL AND FOOD

MARKETING MANAGEMENT (4). Principles, trends, issues, barriers, policies, strategies and decisions involved in domestic and international marketing of perishable and storable agricultural commodities and food products from the point of production to the point of consumption. Topics include firm-level marketing concepts, the integration of marketing with firmsâ TM overall strategic management goals, as well as comparative studies across multiple outlets for agricultural and food products, to include local, regional, and global markets. PREREQS: AEC 221 [D-] and (AEC 250 [D-] or AEC 251 [D-] or ECON 201 [D-] )
AEC 475. WRITING BUSINESS PLANS: AGRICULTURE/FOOD-RELATED
ENTERPRISES (2). Students choose an enterprise and write a comprehensive business plan that describes the business vision, marketing plan, financial projections, risk anagement, and implementation strategy. At the end of term selected students present their plan to a commercial lender. PREREQS: AEC 211 and AEC 221
AEC 499. SPECIAL TOPICS (1-16). Various topics in agricultural and resource economics of special and current interest not covered in other courses. This course is repeatable for a maximum of 16 credits.

AEC 501. RESEARCH AND SCHOLARSHIP (1-16). This course is repeatable for a maximum
of 16 credits.
AEC 502. INDEPENDENT STUDY (1-16). This course is repeatable for a maximum of 16 credits.
AEC 503. THESIS (1-16). This course is
repeatable for a maximum of 999 credits.
AEC 505. READING AND CONFERENCE (1-16).
This course is repeatable for a maximum of 16 credits.

AEC 506. SPECIAL PROJECTS (1-16). This course is repeatable for a maximum of 16 credits.

AEC 507. SEMINAR (1-16). This course is repeatable for a maximum of 16 credits.

AEC 508. WORKSHOP (1-16). This course is repeatable for a maximum of 16 credits.
AEC 512. MICROECONOMIC THEORY I (4).
Fundamental topics in microeconomic theory. Topics include utility maximization and consumer demand, profit maximization and the theory of the firm, and labor and capital markets. PREREQS: AREC 312 and MTH 252 or equivalent.

AEC 513. MICROECONOMIC THEORY II (4). Emphasizes principles for microeconomic theory at the master's level. Builds upon the foundations covered in AEC 512, and extends the theory and principles to cover uncertainty, game theory, competitive market equilibrium and welfare analysis, imperfect competition, and market failures. Primary emphasis is on understanding microeconomic theory and the underlying assumptions, and how it is applied to real world settings. PREREQS: AEC 512 [C]

AEC 515. MACROECONOMIC THEORY (4). Macroeconomic theory and policy that covers the historical foundations and evolution of modern macroeconomic thought. Topics include the equilibrium determination of output, employment, prices, wages, and interest rates; the causes and consequences of economic fluctuations; monetary and fiscal policies; micro-foundations; and the role of expectations. PREREQS: ECON 315 and MTH 251 or equivalent.
AEC 521. ECONOMICS OF RURAL POVERTY AND THE U.S. SOCIAL SAFETY NET (4).
Examines the geography of poverty in the United States and the «social safety net» that the U.S. has constructed to reduce poverty and its negative effects. Understand the geographical consequences of federal policies and the challenges of providing social safety net programs in rural areas. CROSSLISTED as RS 521.

AEC 523. PRELIMINARIES FOR QUANTITATIVE
METHODS (4). Examines mathematical and statistical topics essential for subsequent courses in graduate-level econometric analysis and quantitative methods. The course focuses on matrix algebra, probability and distribution theory (emphasizing joint and conditional distributions), statistical inference, properties of estimators, and iterative methods for solving non-linear systems. PREREQS: (ST 351 or ST 352 or ECON 424 or ECON 524) and MTH 253

AEC 525. APPLIED ECONOMETRICS (4).
General principles of applied econometric research are emphasized, including model building, data analysis, hypothesis testing, and evaluation and interpretation of results. A variety of estimators are applied to real data, including least squares, panel data, simultaneous equations, discrete choice, and limited dependent variable models.
AEC 532. ENVIRONMENTAL LAW (4). Legal relationships arising out of rights to air, water, and rights to air, water, and land. The impact of federal and state regulation on pollution control and on the production, use, and disposal of hazardous materials. PREREQS: Junior standing.
AEC 534. ENVIRONMENTAL AND RESOURCE ECONOMICS (3). Examines environmental and natural resource issues emphasizing the role of economics in understanding their causes,
consequences, and potential solutions (e.g., air, water, fish, forests, climate change, biodiversity) Reviews welfare economics, market failures, externalities, property rights. Covers non-market valuation, innovative market and regulatory policies. PREREQS: AEC 311 or AREC 311 or instructor permission.

AEC 540. THE ECONOMICS OF BUSINESS ORGANIZATION IN THE FOOD SYSTEM (4). Application of economic analysis to questions related to the choice of an appropriate form of business organization for a wide variety of food system enterprises. Topics include costs of contracting, costs of ownership, enterprise scope and scale, and the dynamics of business ownership and structure. Particular emphasis is given to entrepreneurial enterprises and cooperative businesses in the food system. PREREQS: AEC 311 or ECON 311 or instructor consent

AEC 543. INTERNATIONAL TRADE (4), Introduction to the major theories of international trade and to models that are useful for applied policy and regional analysis. Effects of trade and trade policy on consumers, workers, and firms are emphasized. PREREQS: AEC 513 [C]

## AEC 544. COMMODITY FUTURES AND

 OPTIONS MARKETS (4). Provides an overview of the basic concepts needed to use commodity futures and options markets to successfully manage price risk. To address the increasingly global economy in which commodity transactions occur, the course also includes financial futures such as interest rates and currencies. Specific topics covered include contract standardization, speculation and hedging, opening and closing of positions, and basis, i.e. the relationship between cash and futures markets, input-output hedges, and spreads. Students also gain hands-on experience through a trading simulation.
## AEC 546. INTRODUCTION TO APPLIED

ECONOMETRICS (4). Introduces students
to applied econometrics: the use of statistical techniques to estimate and test economic relationships. Topics include multiple regression models, multicollinearity, and simultaneous equations. The applications and labs will focus on econometric analysis of real world problems pertaining to issues in environmental, food, and resource economics and policy. Lec/lab. PREREQS: AEC 311 and ST 351

## AEC 548. ADVANCED TOPICS IN

 ENVIRONMENTAL AND RESOURCEECONOMICS (3). Explores advanced applications of environmental and resource economics to selected policy and management concerns in the PNW and globally. Attention will be directed to the methodological underpinnings of environmental and resource policies and instruments using case studies on real world management issues. PREREQS: AEC 311 and AEC 351 and AEC 352 or permission of the instructor.
AEC 550. ENVIRONMENTAL AND NATURAL RESOURCE ECONOMICS (4). Presents concepts, theories, and methods used in the economic analysis of environmental and natural resource issues. The emphasis is on the economics of environmental policies and the development of decision rules regarding the efficient use of natural resources. PREREQS: AEC 512 [C]

## AEC 551. APPLICATIONS OF

ENVIRONMENTAL AND NATURAL RESOURCE ECONOMICS (4). Applies and expands upon concepts, theories, and methods in environmental and natural resource economics introduced in AEC 550. Topics include non-market valuation, discounting, and benefit-cost analysis, as well as the role and importance of institutions, appropriate research methods, and the philosophical basis for normative judgments in economics. Not offered every year. PREREQS: AEC 550 [C] or AREC 550 [C]

AEC 552. MARINE ECONOMICS (3). Economic aspects of marine resource utilization and management will be analyzed. Topics include open access aspect of marine resources; conflict and allocation of marine resources, marine resource markets, marine recreation, pollution, and aquaculture, with special emphasis on commercial fisheries. CROSSLISTED as MRM 552 PREREQS: (AEC 351 or AEC 352 or AREC 351 or AREC 352)
AEC 553. CONSERVATION ON PRIVATE LAND (3). Explore and experience the increasingly popular phenomenon of conservation on private land. This exploration includes the explosive growth of land trusts and the use of conservation easements to restrict the use of private land and often promote ecological goals.
AEC 554. RURAL DEVELOPMENT ECONOMICS AND POLICY (3). Theories of economic change in developed and less-developed economies; natural resource sectors and the development of rural regions, with emphasis on growth, diversification, and instability; resource mobility and the spatial aspects of development; poverty and inequality; rural development policy. PREREQS: AEC 300 or AREC 300 or AREC 311 or AEC 311

## AEC 560. CAPITAL INVESTMENT ANALYSIS

 USING AGBIZ LOGIC (3). Learn and understand the important factors in measuring the impacts of mplementing technologies and/or conservation practices, adding value to products, or changing cropping systems or livestock enterprises. The AgBiz LogicTM software programs will be used to apply financial and economic principles to better understand and reduce the financial, production, marketing, and human resource risks facing agribusinesses.AEC 565. AGRICULTURAL AND FOOD FINANCIAL MANAGEMENT (3). Reviews basic financial reporting statements, details accounting and financing practices specific to agricultural and food enterprises, and links these topics to both operational and strategic management decisions for these enterprises. PREREQS: AEC 211 and AEC 311

AEC 566. AGRICULTURAL AND FOOD MARKETING MANAGEMENT (4). Principles, trends, issues, barriers, policies, strategies and decisions involved in domestic and international marketing of perishable and storable agricultural commodities and food products from the point of production to the point of consumption. Topics include firm-level marketing concepts, the integration of marketing with firms' overall strategic management goals, as well as comparative studies across multiple outlets for agricultural and food products, to include local, regional, and global markets. PREREQS: AEC 221 and (AEC 250 or AEC 251 or ECON 201)
AEC 599. SPECIAL TOPICS (0-16). Various topics in applied economics of special and current not covered in other courses. May be repeated for credit when topics differ. This course is repeatable for a maximum of 16 credits.
AEC 601. RESEARCH AND SCHOLARSHIP (1-16). This course is repeatable for a maximum of 16 credits.
AEC 602. INDEPENDENT STUDY (1-16). This course is repeatable for a maximum of 16 credits.
AEC 603. THESIS (1-16). This course is repeatable for a maximum of 999 credits
AEC 605. READING AND CONFERENCE (1-16). This course is repeatable for a maximum of 16 credits.

AEC 606. SPECIAL PROJECTS (1-16). This course is repeatable for a maximum of 16 credits.

AEC 607. SEMINAR (1-16). This course is repeatable for a maximum of 16 credits.

AEC 608. WORKSHOP (1-16). This course is repeatable for a maximum of 16 credits.

AEC 611. ADVANCED MICROECONOMIC
THEORY I (4). A rigorous development of the theory of consumption and production, with emphasis on duality. PREREQS: (AEC 512 [C] and AEC 513 [C] ) and MTH 254 or equivalent.

## AEC 612. ADVANCED MICROECONOMIC

THEORY II (4). A rigorous extension of the theory of the consumer and firm to aggregate and heterogeneous populations, decision making under uncertainty, and related game theory concepts. PREREQS: AEC 611 [C]
AEC 613. ADVANCED MICROECONOMIC THEORY III (4). A rigorous development of the theory of competitive equilibrium, market power, public goods, and information. PREREQS: AEC 612 [C]

## AEC 615. ADVANCED MACROECONOMIC

THEORY (4). Introduction to modern macroeconomic theory on economic growth and fluctuations, including a review of Keynesian theory, optimal control theory and dynamic programming, exogenous and endogenous growth models, government budget deficit and debt, and unemployment theories. PREREQS: Intermediate macroeconomics or equivalent.
AEC 625. ADVANCED ECONOMETRICS I (4). Emphasizes the basic theory underlying the main types of estimators used in econometrics, as well as their application in empirical research ncludes derivation, properties, and application of method of moments, maximum likelihood, ordinary and generalized least squares, and instrumental variables estimators, statistical inference and hypothesis testing, and model building and specification analysis. Provides the necessary oundation for estimation techniques covered in AEC 626. Lec/lab. PREREQS: AEC 525 [C]
AEC 626. ADVANCED ECONOMETRICS II (4).
Extensions to the generalized linear regression model are considered: discrete choice, limited dependent variable, panel data, and simultaneous equations models, and new solutions to identification problems. Strong applied orientation, emphasizing problems of data measurement, model selection and specification. PREREQS: AEC 625 [C]

AEC 627. COMPUTATIONAL ECONOMICS
(4). Covers the numerical analysis of static optimization models and stochastic dynamic models in resource and development economics, emphasizing formulation, solution, and simulation of dynamic optimization, rational expectations, and arbitrage pricing models. Lec/lab.

## AEC 640. SUSTAINABLE DEVELOPMENT (3).

 Surveys research on the quantitative economic analysis of sustainable development, with an emphasis on integrated assessment methods and models and their application to agriculture and rural development policy, agricultural technology mpact assessment, and climate change impact assessment.AEC 643. TRADE AND DEVELOPMENT (4). Introduction to advanced topics in modern trade theory, including technology and trade, distributional effects of trade with emphasis on regional development, trade and the environment, and multilateral trade negotiations. Applications of the above theories to specific industries are emphasized. PREREQS: (AEC 543 [C] or AREC 543 [C] ) and AEC 612* [C] and AEC 625* [C] and or equivalent.

AEC 651. ADVANCED NATURAL RESOURCE ECONOMICS (3). Dynamic allocation of scarce exhaustible and renewable natural resources, social versus private decisions; market and nonmarket considerations; technological change; regulation; dynamics and uncertainty. PREREQS: AEC 513

AEC 652. ADVANCED ENVIRONMENTAL ECONOMICS (3). Interrelationships of natural resource use and the environment; applied welfare and benefit-cost analysis; externalities and pollution abatement; non-market valuation
of resources; property rights; legal and social constraints; policy approaches. PREREQS: (AEC 513 [C] or AREC 513 [C] ) and (AEC 525 [C] or AREC 525 [C] )
AEC 653. EMPIRICAL ENVIRONMENTAL
AND RESOURCE ECONOMICS (3). Introduces empirical methods at the current frontiers of research in environmental and resource economics. General topics may include the identification of non-market values, revealed and stated preference methods, environmental policy evaluation, equilibrium sorting models, and climate econometrics. PREREQS: AEC 513 [C] and AEC 525 [C]

AEC 699. SPECIAL TOPICS (1-16). Various topics in applied economics of special and current interest not covered in other courses. This course is repeatable for a maximum of 16 credits.

## RURAL STUDIES COURSES

RS 421. ECONOMICS OF RURAL POVERTY AND THE U.S. SOCIAL SAFETY NET (4). Examines the geography of poverty in the United
States and the "social safety net» that the U.S. has constructed to reduce poverty and its negative effects. Understand the geographical consequences of federal policies and the challenges of providing social safety net programs in rural areas. CROSSLISTED as AEC 421.
RS 499. SPECIAL TOPICS (1-5). This course is repeatable for a maximum of 9 credits.
RS 502. INDEPENDENT STUDY (1-6). This course is repeatable for a maximum of 9 credits.
RS 512. INTRODUCTION TO RURAL STUDIES
(2). Introduces students to the emerging
theoretical perspectives, methodologies, and critical themes that define rural studies in the U.S. and elsewhere. It draws primarily from the disciplines of sociology, economics, anthropology, human development and geography, examining how each discipline understands and analyzes rural households and communities.

RS 513. CONTEMPORARY RURAL ISSUES
(2). The focus will be on issues confronting rural Oregon. The class will also explore broader U.S. and international rural issues and examine commonalities and differences across cultures and development contexts. Weekly lecturers are drawn from the OSU community and beyond, including public policy makers, rural stakeholders, and nonprofit organizations.
RS 521. ECONOMICS OF RURAL POVERTY AND THE U.S. SOCIAL SAFETY NET (4). Examines the geography of poverty in the United States and the "social safety net" that the U.S. has constructed to reduce poverty and its negative effects. Understand the geographical consequences of federal policies and the challenges of providing social safety net programs in rural areas. CROSSLISTED as AEC 521.

RS 599. SPECIAL TOPICS (1-5). This course is repeatable for a maximum of 9 credits.

## BOTANY AND PLANT PATHOLOGY

Lynda Ciuffetti, Department Head
2064 Cordley Hall
Oregon State University
Corvallis, OR 97331-2902

Email: bpp-off@science.oregonstate.edu Website: http://bpp.oregonstate.edu/

## FACULTY

Professors Arp, Behrenfeld, Ciuffetti, Dolja, Fowler, Ingham, Johnson, Liston, McCune, McEvoy, Mundt, Pscheidt, Sayavedra-Soto, Spatafora, Stone, Tyler, Wolpert
Associate Professors Chang, Jaiswal, Milligan, Ocamb, Parke
Assistant Professors Anderson, Busby, Dung, Filichkin, Frost, Goyer, Hagerty, Hardison, Jones, KC, LeBoldus, Luh, Megraw, Santamaria, Westberry
Senior Instructor Putnam
Instructors Curtis, Link-Perez

## COURTESY FACULTY

Professors Carrington, Grunwald, Loper, Martin, Rothwell, Stockey
Associate Professors Gent, Hansen, Kentula, Mahaffee, Pyke, Stockwell, Zasada
Assistant Professors Cronn, Grevstad, Kaye, Meinke, Reichman, Weiland

ADJUNCT FACULTY
Associate Professor Freitag

## Undergraduate Major

Botany (BS, CRED, HBS)

## Minor <br> Botany

## Graduate Majors

Applied Systematics in Botany (PSM)
Botany and Plant Pathology (MA, MS, PhD)
Graduate Areas of Concentration Ecology
Genetics
Genomics and Computational Biology
Molecular and Cellular Biology
Mycology
Plant Pathology
Plant Physiology
Systematics

## Graduate Minor

Botany and Plant Pathology

## UNDERGRADUATE STUDIES

Botany and plant pathology are concerned with the study of plants at all levels of biological organization, from molecular and cellular processes to the global ecosystem. This breadth of field
reflects the wide range of issues and problems that confront plant biologists. In addition to addressing fundamental questions in plant biology, plant scientists in the 21st century will be called upon to provide information useful for producing food, fiber, and medicine for an increasing population, and for increasing our understanding of the diversity of plant and ecological systems and their interactions with humans. Students studying botany and plant pathology at OSU receive the basic science background necessary for such contributions, and may choose to focus in a particular area within plant science.
The undergraduate program in the Department of Botany and Plant Pathology is designed for students who wish to receive a BS in Botany degree and for students pursuing degrees in other fields that require a knowledge of plant biology. For example, students who have an undergraduate major in biology or environmental sciences may wish to emphasize botany courses in their upperdivision course work.
Completion of the undergraduate curriculum in botany can qualify students for graduate work in various areas of plant biology and plant pathology, and for positions in state and federal agencies, and industries concerned with plants and their products.

Prospective botany majors should obtain a strong background in the biological and physical sciences at the high school level. Specifically recommended are a minimum of three years of high school mathematics, including algebra, geometry, and some exposure to trigonometry, one year of chemistry, one year of biology, one year of physics, and courses designed to develop computer and writing skills. Students without an adequate background in mathematics and science may make up these deficiencies early in their college careers.

## GRADUATE STUDIES

The Department of Botany and Plant Pathology offers graduate programs in the following areas of concentration: ecology, genetics, genomics and computational biology, molecular and cellular biology, mycology, plant pathology, plant physiology, and systematics.

Students with majors in any one area may incorporate into their programs minors in other areas within the department or in other departments and colleges. Integrated minors, and interdisciplinary programs in plant physiology, molecular and cellular biology, genetics, and environmental sciences are also available.

The MS and PhD degrees offered by the Department of Botany and Plant Pathology require, in addition to course work, research resulting in presentation
and defense of a thesis. A nonthesis MS degree also is available. PhD candidates must pass a written and oral preliminary examination upon completion of their course work. In addition, PhD students are required to be a teaching assistant for two quarters.
Inquiries concerning graduate studies can be forwarded to the chairperson of the department's graduate studies committee (john.fowler@oregonstate.edu). Additional details available at http://bpp. oregonstate.edu/graduate-programs.

## UNDERGRADUATE MAJORS WITH OPTIONS

## BOTANY (BS, CRED, HBS)

The required curriculum meets the course requirements of the university and the College of Agricultural Sciences and provides an opportunity for specialized study in one or more principal areas of plant science. The undergraduate major, in regular consultation with a faculty advisor, prepares an academic program that meets university requirements, provides adequate scientific background, and fulfills individual goals and interests.

Required courses are listed below according to a suggested schedule. The order in which particular courses are taken may vary in individual cases.

All Botany undergraduate students are required to complete a focus area and its corresponding course work as part of the Botany undergraduate major. A student may choose more than one focus area; course work for focus areas should commence by the junior year. Course work delivered in these areas provides students with advanced knowledge and skills related to the study of plants and plantlike organisms in natural and managed ecosystems and in the laboratory.

## Freshman Year

BI 211, BI 212, BI 213. *Principles of Biology (4,4,4)
CH 121. General Chemistry (5) and CH
122, CH 123. *General Chemistry $(5,5)$
or CH 231, CH 232 , CH 233 . *General
Chemistry ( $4,4,4$ ) and CH 261, CH 262,
CH 263. *Laboratory for Chemistry 231, 232, 233 (1,1,1)
WR 121. *English Composition (3)
Approved Speech (COMM) course (3)
Perspective courses (6)
Select 8 credits of Mathematics from

## the list below:

MTH 111. *College Algebra (4)
MTH 112. *Elementary Functions (4)
MTH 231. Elements of Discrete Mathematics (4)
MTH 241. *Calculus for Management and Social Science (4)
MTH 245. *Mathematics for
Management, Life, and Social Sciences (4)

MTH 251. *Differential Calculus (4)
MTH 252. Integral Calculus (4)

## Sophomore Year

BB 314. Cell and Molecular Biology (4)
BOT 220. Introduction to Plant Biology (4)
BOT 321. Plant Systematics (4)
CH 331, CH 332. Organic Chemistry $(4,4)$
HHS 231. *Lifetime Fitness for Health (2)
HHS 241. *Lifetime Fitness (1) or any PAC course (1-2)
Additional approved writing (WR II) course (3)

Perspectives courses (6)
Additional electives (9-10)

## Junior Year

BB 350. Elementary Biochemistry (4)
or BB 450. General Biochemistry (4) and
BB 451. General Biochemistry (3)
BI 311. Genetics (4)
or PBG 430. Plant Genetics (3) and PBG
431. Plant Genetics Recitation (1)

BOT 313. Plant Structure (4)
BOT 341. Plant Ecology (4)
ST 351. Introduction to Statistical Methods (4)

Perspectives courses (6)
Synthesis courses (6)
Additional electives including botany area
of concentration credits (10-13)

## Senior Year

BOT 331. Plant Physiology (4)
BOT 332. Laboratory Techniques in Plant Biology (3)
Select one Non-Vascular Plant Course:
BOT 461. Mycology (4)
BOT 465. Lichenology (4)
BOT 466. Bryology (4)
Additional Quantitative Skills
Courses (select a minimum of two courses):
CS 161. Introduction to Computer Science I (4)
CS 162. Introduction to Computer Science II (4)
PH 201. *General Physics (5)
PH 265. Scientific Computing (3)
ST 352. Introduction to Statistical Methods (4)

ST 411. Methods of Data Analysis (4)
Others by approval of advisor.
Select one Writing Intensive Course from below:
BB/BI 317. ^Scientific Theory and Practice (3)

BI 371. ^Ecological Methods (3)
BOT 323. ^Flowering Plants of the World (3)

HSTS 415. *^Theory of Evolution and Foundation of Modern Biology (4)
HSTS 419. *^Studies in Scientific
Controversy: Methods and Practices (4)
HSTS 425. *^History of the Life Sciences (4)

MB 311. ^Molecular Microbiology Lab: A Writing Intensive Course (3)
Additional upper-division biological science courses other than BOT courses (4)
Perspectives courses (6)
Additional electives (11-14)
Botany Focus Area Requirements
Ecology, Evolution and Conservation (13)
BI 445. Evolution (3)
BOT 442. Plant Population Ecology (3)

BOT 488. Environmental Physiology of Plants (3)
FW 320. Introductory Population Dynamics (4)

Molecular, Cellular, and Genomic (13)
BI 445. Evolution (3)
BB 451. General Biochemistry (3)
BB 494. Biochemistry Laboratory Molecular Techniques 2 (3)
or BOT 480. Photosynthesis and
Photobiology (3)
BOT 475. Comparative Genomics (4)
Plant Pathology (13)
BOT 350. Introductory Plant Pathology (4)
ENT 311. Introduction to Insect Pest
Management (3)
MB 302. General Microbiology (3)
MB 303. General Microbiology Laboratory (2)

## Total=180

## Footnotes:

* Baccalaureate Core Course (BCC)
${ }^{\wedge}$ Writing Intensive Course (WIC)

## Major Code: 515

## BOTANY MINOR

BI 311. Genetics (4) or HORT/PBG 430. Plant Genetics (3)
BOT 321. Plant Systematics (4)
BOT 331. Plant Physiology (4)
BOT 341. Plant Ecology (4)
Additional upper-division BOT courses (11-12)
[Excluding BOT 101 but may include BOT 401, BOT 405, BOT 407, BOT 410]

## Total=27

The minor requirements listed above are subject to the following constraints:

Courses required for a major and taken in the major department may not count toward a minor. An individual course may not count toward more than one minor. At least 12 credits of the minor must be upper division.

## Minor Code: 515

## GRADUATE MAJORS

## APPLIED SYSTEMATICS IN

 BOTANY (PSM)Aaron Liston, Director
Department of Botany and Plant
Pathology
4086 Cordley Hall
Corvallis OR 97331
541-737-5301
Email: aaron.liston@oregonstate.edu
Website: http://psm.science.oregonstate. edu/
The worlds of science and business are increasingly interconnected, creating strong demand for individuals who can bridge these two disciplines. Systematics is the science devoted to the discovery, description, and classification of the earth's biological diversity. The need for an accurate and comprehensive knowledge of biological diversity is now recognized by a broad array of interests in
the public and private sectors. Plants and fungi are the focus of current initiatives in the conservation of endangered species, the restoration of native ecosystems, and the control of invasive weeds. Industry, private environmental consulting firms, and government agencies have an increasing need for individuals with expertise in plant identification and experience in survey techniques.

The Professional Science Master's (PSM) in Applied Systematics in Botany at OSU is the first program of its kind in the Pacific Northwest and was created with the help of professional affiliates employed in leadership roles in plant biology and conservation. The objective of this degree is to train students to be able to function effectively in a variety of work environments. Special training in business management, communications, and ethics complement core science curriculum, and students are required to complete an internship in lieu of thesis research.

The PSM program can usually be completed in two years, based on full-time study and at least 54 credit hours. Courses in plant and fungal diversity form the foundation of this program (BOT 516, BOT 561, BOT 514, BOT 565 or BOT 566, and BOT 525). Approved elective options (e.g., plant ecology, biological conservation, statistics) give students the flexibility to create their program of study based on career interests. Professional courses are required in communication, research ethics, and business management (PSM 513, PSM 565, PSM 566, PSM 567, COMM 550 and PHL 547). These courses are designed to be taken in sequence during the first academic year. Students are required to complete a 3 - to 6 -month internship (6-12 credits) in lieu of thesis research (BOT 510).

For general information about PSM programs, contact the PSM Director, 2082 Cordley Hall, Corvallis OR 97331, 541-737-5259; email: kirstin.carroll@ oregonstate.edu.
Degree Requirements (50 credits)
Core science courses (19)
Approved electives (7)
Professional courses (18)
Internship (6)

## BOTANY AND PLANT PATHOLOGY (MA, MS, PhD)

Graduate Areas of Concentration
Ecology, genetics, genomics and computational biology, molecular and cellular biology, mycology, plant pathology, plant physiology, systematics
The Department of Botany and Plant Pathology offers graduate programs leading to the Master of Science, and Doctor of Philosophy degrees in the field of botany and plant pathology.

Within this major field, students may elect to specialize in one of the approved areas of concentration.
The selection of an area of concentration is optional. Students may major in botany and plant pathology without selecting an area of concentration. The approved areas of concentration are described below.

- Ecology includes physiological, population, community, ecosystem and global studies in ecology.
- Genetics includes molecular, classical and population studies of the genetics of plants, fungi, and plant-associated microorganisms.
- Genomics and computational biology include the functional, comparative and structural study of plant, fungal, viral and bacterial genomes and the development and application of bioinformatic algorithms and tools used in the analysis of genomic data.
- Molecular and cellular biology include studies of molecular and cellular mechanisms active during plant development, molecular aspects of plant-pathogen interactions, and various aspects of gene regulation, signal transduction, and the cytoskeleton.
- Mycology includes the systematics, ecology, and population genetics of lichenized and nonlichenized fungi.
- Plant pathology includes studies in the areas of bacteriology, nematology, virology, forest pathology, epidemiology of plant diseases, the physiology of parasitism, and the molecular and biochemical basis of plant hostpathogen interactions.
- Plant physiology includes investigations of the regulation of plant growth and development, the molecular and physiological basis of plant-microbe interactions, nitrogen metabolism and the nitrogen cycle, and problems in environmental and stress physiology in plant systems.
- Systematics includes investigations of the taxonomy, phylogeny, and biogeography of plants, fungi, and lichens.
Students majoring in any one area of concentration may incorporate into their programs minors in other areas within the department or minors in other departments and colleges. Integrated minors, and interdisciplinary programs in plant physiology, molecular and cellular biology, genetics, and environmental sciences are also available.
The MS and PhD degrees offered by the Department of Botany and Plant Pathology require, in addition to course work, research resulting in the presentation and defense of a thesis. A nonthesis

MS degree also is available for students with specific career goals. PhD candidates must pass a preliminary examination upon completion of their course work. In addition, PhD students are required to be a teaching assistant for two quarters.
Inquiries concerning graduate studies may be forwarded to the chair of the department's graduate studies committee (john.fowler@oregonstate.edu). Additional details available at http://bpp.oregon-state.edu/graduate-programs.

## Major Code: 5160

## BOTANY AND PLANT

## PATHOLOGY GRADUATE MINOR

Courses required for a Botany and Plant Pathology graduate minor are determined in consultation with the minor advisor.

## Minor Code: 5160 <br> BOTANY AND PLANT PATHOLOGY COURSES

BOT 101. *BOTANY: A HUMAN CONCERN (4). introductory botany for non-majors, emphasizing the role of plants in the environment, agriculture and society. Includes molecular approaches to the study of plant function and genetic engineering. Lec/lab. (Bacc Core Course)

## BOT 220. *INTRODUCTION TO PLANT

BIOLOGY (4). Introduction to plant biology including an overview of major groups of plants, plant cells and cell types, plant anatomy and architecture, physiology and function, and ecology and the roles of plants in the environment. Laboratory exercises build on lecture themes and provide hands-on learning experiences including field trips. Lec/lab. (Bacc Core Course)

BOT 313. PLANT STRUCTURE (4). The structural components of vascular plants and how plant structure relates to function, development, environment, evolution, and human use of plants. Field trip. Lec/lab. PREREQS: BI 213 or BI 213 H
BOT 321. PLANT SYSTEMATICS (4). Vascular plant classification, diversity, and evolutionary relationships. Lab emphasizes the collection and identification of ferns, gymnosperms, and flowering plants in Oregon. Field trips. Lec/lab. PREREQS: BI 213 or BI 213H
BOT 322. ECONOMIC AND ETHNOBOTANY:
ROLE OF PLANTS IN HUMAN CULTURE
(3). Economic and cultural (ethnobotanical) uses of plants and fungi by humans, including domesticated cultivated plants as well as wildgrowing plants, and uses of plants and fungi by indigenous cultures. Ecampus course only.
BOT 323. ^FLOWERING PLANTS OF THE
WORLD (3). Global perspective of plant biodiversity with a focus on evolutionary origins, classification, and evolutionary relationships of the major groups of plants. Development and application of scientific writing and utilization of online information resources in plant evolutionary biology. (Writing Intensive Course) PREREQS: One year of college biology or departmental approval required.

BOT 324. *FUNGI IN SOCIETY (3). Explores the diverse roles played by fungi in relation to human civilization and the natural environment. (Bacc Core Course) PREREQS: One course in biological sciences.
BOT 331. PLANT PHYSIOLOGY (4). Survey of physiological processes in plants, including photosynthesis and plant metabolism, mineral nutrition and ion uptake processes, plant cell/ water relations, regulation of plant growth and development, and transpiration and translocation.

Lec/rec. PREREQS: (BI 213 or BI 213H) and ((CH 123 or (CH 233 and CH 263))
BOT 332. LABORATORY TECHNIQUES IN PLANT BIOLOGY (3). Laboratory experiences in the manipulation and observation of physiological processes in plant systems. Analysis and interpretation of physiological data generated in experimentation with plant systems. Training in basic laboratory skills, including the principles and procedures involved in the use of common items of laboratory instrumentation. Lab. PREREQS: BOT 331 or BI 314 or equivalent.
BOT 341. PLANT ECOLOGY (4). Study of higher plants in relation to their environment. The relationship of plant physiology and reproduction to environmental factors; competition and other species interactions; the structure, dynamics and analysis of vegetation. Field trips. Lec/ lab. PREREQS: BI 213 or BI 213H. BOT 321 is recommended.
BOT 350. INTRODUCTORY PLANT
PATHOLOGY (4). Symptoms, causal agents, diagnosis, and prevention of plant diseases, with emphasis on fungi, bacteria, nematode, and virus pathogens. Lec/lab. PREREQS: BI 213 or BI 213H
BOT 401. RESEARCH (1-16). This course is repeatable for a maximum of 16 credits.
BOT 403. THESIS (1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required.
BOT 405. READING AND CONFERENCE (1-16). This course is repeatable for a maximum of 16 credits.

BOT 407. SEMINAR (1). Section 1: Departmental seminar. Section 2: Lichens and Bryophytes Research (1). Weekly one-hour meetings for reporting and discussion of active research projects, discussion of proposal research, review and discussion of recent literature, and miniworkshops on particular problems. Normally graded $P / N$. This course is repeatable for a maximum of 16 credits.
BOT 407H. SEMINAR (1). Section 1: Departmental seminar. Section 3: Lichens and Bryophytes Research (1). Weekly one-hour meetings for reporting and discussion of active research projects, discussion of proposal research, review and discussion of recent literature, and mini-workshops on particular problems. Normally graded P/N. This course is repeatable for a maximum of 16 credits. PREREQS: Honors College approval required.
BOT 408. WORKSHOP (1-16). This course is repeatable for a maximum of 16 credits.
BOT 410. INTERNSHIP (1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Instructor approval required.
BOT 413. FOREST PATHOLOGY (3). Effects of diseases on forest ecosystems. Recognition of important groups, prediction of pathogen responses to environmental changes, and management strategies for protection of forest resources. Field trips. Lec/lab. CROSSLISTED as FOR 413. PREREQS: BI 204 [C] or BI 212 [C] or BI 212 H [C] or BI 213 [C] or BI 213H [C] and /or equivalent.

BOT 414. AGROSTOLOGY (4). Classification and identification of grasses, with emphasis on the modern system of grass classification; laboratory practice in keying grass specimens to genus and species. Lec/lab. PREREQS: BOT 321
BOT 416. AQUATIC BOTANY (4). Taxonomy and ecology of aquatic vegetation, emphasizing freshwater and marine algae and the submergent vascular plants. Morphology, physiology, and classification of the algae; morphological and physiological adaptations of aquatic vascular plants; and primary production in aquatic ecosystems. Laboratory practice in the identification of local taxa. Field trips. Lec/lab. PREREQS: BI 213 or BI 213H

BOT 425. FLORA OF THE PACIFIC
NORTHWEST (3). Vascular plant identification, terminology, and diagnostic characteristics of plant families. Lab emphasizes the use of keys for identification to the species level and ability to recognize by sight those plant families found in the Pacific Northwest. Field trips. Lec/lab. PREREQS: BOT 321 or equivalent.

## BOT 440. FIELD METHODS IN PLANT

ECOLOGY (4). Concepts and tools for describing, monitoring, and experimenting on vegetation. Combines Web-based material, field experience at the student;s location, and student projects. PREREQS: Course in ecology and a course in statistics.
BOT 442. PLANT POPULATION ECOLOGY (3).
Ecological aspects of plant form and reproduction; demography and population modeling; species interactions, including competition, mutualism, and herbivory. Lec/lab. PREREQS: BOT 341 or equivalent.

BOT 460. FUNCTIONAL GENOMICS (3).
Functional genomics describes a set of conceptual approaches and associated laboratory techniques that rely on large-scale DNA sequence datasets to investigate the function of, and interactions between, genes as well as their RNA/protein products. This course will provide an overview of these techniques, including a) approaches to predicting protein function based on sequence analysis, b) large-scale genetic approaches to identifying novel genotype-phenotype associations, and c) transcriptomic, proteomic and metabolomic approaches that reveal gene functions by measuring changes in abundance/ modification of associated RNA transcripts, proteins and metabolites. PREREQS: (BI 311 [C-] or BI 311H [C-] ) and (BI 314 [C-] or BI 314H [C-] ) and permission by instructor
BOT 461. MYCOLOGY (5). A broad taxonomic survey of the fungi. Topics include life
histories, systematics, ecology, genetics, and ethnomycology. Participation on field trips and the submission of a specimen collection are required. Lec/lab. PREREQS: (BI 211 or BI 211 H ) and (BI 212 or BI 212H) and (BI 213 or BI 213H)
BOT 465. LICHENOLOGY (4). Biology of lichens; includes structure, life histories, classification, and ecology. Field trip fee. Lec/lab. Offered alternate years. PREREQS: (BI 213 or BI 213 H ) and two botany courses.

BOT 466. BRYOLOGY (4). Biology of bryophytes; includes structure, life histories, classification, and ecology. Field trip fee. Lec/lab. Offered alternate years. PREREQS: (BI 213 or BI 213 H ) and two botany courses.
BOT 475. COMPARATIVE GENOMICS (4).
Principles of comparative genomics. Methods for genome assembly and annotation. Genomic approaches for the study of structural change, whole genome duplication, gene family evolution, gene networks, gene regulation and epigenetics. Lab topics include the analysis of next generation sequencing data and conducting comparative genomic analyses. Lec/lab. PREREQS: ((BI 311 [D-] or CSS 430 [D-] ) and BI 314 [D-] ) and students will require a basic working knowledge of cell and molecular biology and genetics.
BOT 476. INTRODUCTION TO COMPUTING
IN THE LIFE SCIENCES (3). Introduction to management of large datasets (e.g., nucleic acids, protein), computer programming languages, application of basic mathematical functions, and assembly of computational pipelines pertinent to life sciences. PREREQS: Cell and molecular biology or genetics, or by approval of instructor. Familiarity with text editing software and unix/linux operating system is advantageous.

## BOT 480. PHOTOSYNTHESIS AND

PHOTOBIOLOGY (3). Explores the diverse use of light in biological systems, with particular emphasis on photosynthesis. Lectures will discuss the nature of light, light in the natural environment,
light absorption in biological systems, use of light energy for photosynthesis, communication, defense, motility, and vision, as well as deleterious effects of light and its use for global monitoring satellite systems. PREREQS: One course in plant physiology, ecology, or the equivalent, or by permission of instructor.

BOT 488. ENVIRONMENTAL PHYSIOLOGY OF PLANTS (3). Introduces students to mechanisms of plant responses to environmental change caused by humans, including atmospheric, nutrient, water, and global climate factors. Concepts are built around principles of plant environment relations. Lec/lab. PREREQS: One course in plant physiology or one course in ecology.
BOT 499. SPECIAL TOPICS (0-16). This course is repeatable for a maximum of 16 credits.
BOT 499H. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Honors College approval required.
BOT 501. RESEARCH (1-16). This course is repeatable for a maximum of 16 credits.
BOT 503. THESIS (1-16). This course is repeatable for a maximum of 999 credits.
BOT 505. READING AND CONFERENCE (1-16).
This course is repeatable for a maximum of 16 credits.

BOT 507. SEMINAR (1-16). Section 1:
Departmental seminar (F, W, S). Section 2: Communication in Ecology (F). Section 3: Community and Habitat Analyses (W). Section 4: Lichens and Bryophytes Research (S). Weekly one-hour meetings for reporting and discussions of proposal research, review and discussion of recent literature, and mini-workshops on particular problems. Graded P/N. This course is repeatable for a maximum of 16 credits.
BOT 508. WORKSHOP (1-16). This course is repeatable for a maximum of 16 credits.
BOT 510. INTERNSHIP (1-16). This course is repeatable for a maximum of 16 credits.
BOT 513. FOREST PATHOLOGY (3). Effects of diseases on forest ecosystems. Recognition of important groups, prediction of pathogen responses to environmental changes, and management strategies for protection of forest resources. Field trips. Lec/lab. CROSSLISTED as FOR 513. PREREQS: BI 204 or BI 212 or BI 212H or BI 213 or BI 213 H or equivalent.

BOT 514. AGROSTOLOGY (4). Classification and identification of grasses, with emphasis on the modern system of grass classification; laboratory practice in keying grass specimens to genus and species. Lec/lab. PREREQS: BOT 321
BOT 516. AQUATIC BOTANY (4). Taxonomy and ecology of aquatic vegetation, emphasizing freshwater and marine algae and the submergent vascular plants. Morphology, physiology, and classification of the algae; morphological and physiological adaptations of aquatic vascular plants; and primary production in aquatic ecosystems. Laboratory practice in the identification of local taxa. Field trips. Lec/lab.

## PREREQS: BI 213 or BI 213 H

## BOT 525. FLORA OF THE PACIFIC

NORTHWEST (3). Vascular plant identification, terminology, and diagnostic characteristics of plant families. Lab emphasizes the use of keys for identification to the species level and ability to recognize by sight those plant families found in the Pacific Northwest. Field trips. Lec/lab. PREREQS: BOT 321 or equivalent.
BOT 540. FIELD METHODS IN PLANT
ECOLOGY (4). Concepts and tools for describing, monitoring, and experimenting on vegetation. Combines Web-based material, field experience at the students location, and student projects. PREREQS: Course in ecology and a course in statistics.

BOT 542. PLANT POPULATION ECOLOGY (3).
Ecological aspects of plant form and reproduction; demography and population modeling; species interactions, including competition, mutualism, and herbivory. Lec/lab. PREREQS: BOT 341 or equivalent.
BOT 543. PLANT COMMUNITY ECOLOGY
(3). The structure, diversity, and successional dynamics of terrestrial plant communities; methods of analysis. Lec/lab. PREREQS: BOT 341 or equivalent.
BOT 547. NUTRIENT CYCLING (3). Reviews and discusses ecosystem-level biogeochemical concepts for terrestrial and freshwater ecosystems, primarily by reading and discussing classic and current literature to determine the state-of-knowledge and uncertainties associated with it. Topics will include root nutrient uptake mechanisms, soil chemical and biochemical transformations in different soil and ecosystems, measuring soil solution and watershed fluxes, soil organic matter formation and structure, the meaning of sustainability, the concept of N saturation in terrestrial ecosystems, and the use of natural abundance and tracer isotopes in ecosystem biogeochemistry. While forest biogeochemical processes will be emphasized, desert, aquatic, wetland, and prairie ecosystems will also be explored. CROSSLISTED as SOIL 547. PREREQS: College-level chemistry and biology and one class in ecology (BI 370 or equivalent) and/or soils (e.g., SOIL 205).
BOT 550. PLANT PATHOLOGY (5). Causal agents of plant disease, diagnosis, pathogenesis, epidemiology, and disease management principles and strategies. Field trip. Lec/lab/rec. PREREQS: BI 213 or Bl 213 H

BOT 552. PLANT DISEASE MANAGEMENT (4).
Analysis of host, pathogen, and environmental factors influencing the increase and spread of plant disease. Epidemiological theory will be used as a basis for developing and evaluating principles and concepts of plant disease management. Lec/ lab/rec. Offered alternate years. PREREQS: BOT 350 or BOT 550

BOT 553. PLANT DISEASE DIAGNOSIS (3). Diagnosis of plant diseases and identification of causal agents. Laboratory practice in identification techniques. Observation of symptoms exhibited by diseased plants in greenhouse and field locations. Field trips. Lec/lab. Offered alternate years in summer term. PREREQS: BOT 350 or BOT 550 BOT 554. PLANT PATHOGENIC NEMATODES
(2). Survey of nematodes that cause plant disease. Includes taxonomy, identification, life cycles, symptomology, interactions with other plant pathogens, and how nematodes cause plant disease. Lec/lab. Offered alternate years. PREREQS: BOT 550 and 6 credits of upperdivision biology.
BOT 556. PHYLOGENETICS (4). Explores the theory and practice of modern phylogenetic analysis. Emphasis placed on tree reconstruction algorithms, assessment of statistical support, and contemporary issues in phylogenetics. Lab will focus on the use of phylogenetic software and the analysis of molecular data sets. Lec/lab. PREREQS: ST 511
BOT 560. FUNCTIONAL GENOMICS (3).
Functional genomics describes a set of conceptual approaches and associated laboratory techniques that rely on large-scale DNA sequence datasets to investigate the function of, and interactions between, genes as well as their RNA/protein products. This course will provide an overview of these techniques, including a) approaches to predicting protein function based on sequence analysis, b) large-scale genetic approaches to identifying novel genotype-phenotype associations, and c) transcriptomic, proteomic and metabolomic approaches that reveal gene functions by measuring changes in abundance/ modification of associated RNA transcripts, proteins and metabolites. PREREQS: (BI 311 or

BI 311H) and (BI 314 or BI 314 H ) and permission of instructor

BOT 561. MYCOLOGY (5). A broad taxonomic survey of the fungi. Topics include life histories, systematics, ecology, genetics, and ethnomycology. Participation on field trips and the submission of a specimen collection are required. Lec/lab. PREREQS: (BI 211 or BI 211 H ) and (BI 212 or BI 212 H ) and (BI 213 or BI 213 H )

BOT 565. LICHENOLOGY (4). Biology of lichens; includes structure, life histories, classification, and ecology. Field trip fee. Lec/lab. Offered alternate years. PREREQS: (BI 213 or BI 213 H ) and two botany courses.
BOT 566. BRYOLOGY (4). Biology of bryophytes; includes structure, life histories, classification, and ecology. Field trip fee. Lec/lab. Offered alternate years. PREREQS: (BI 213 or BI 213 H ) and two botany courses.

## BOT 570. COMMUNITY STRUCTURE AND

ANALYSIS (4). Quantitative methods for the analysis of biotic communities, including community concepts, estimation of community composition parameters, theoretical aspects of multivariate methods of analyzing speciesimportance data, and overview of multivariate tools; hands-on computer analysis of data sets. Lec/lab.
BOT 575. COMPARATIVE GENOMICS (4).
Principles of comparative genomics. Methods for genome assembly and annotation. Genomic approaches for the study of structural change, whole genome duplication, gene family evolution, gene networks, gene regulation and epigenetics. Lab topics include the analysis of next generation sequencing data and conducting comparative genomic analyses. Lec/lab. CROSSLISTED as MCB 575. PREREQS: Students will require a basic working knowledge of cell and molecular biology and genetics. BI 314 and (BI 311 or CSS 430)

BOT 576. INTRODUCTION TO COMPUTING IN THE LIFE SCIENCES (3). Introduction to management of large datasets (e.g., nucleic acids, protein), computer programming languages application of basic mathematical functions, and assembly of computational pipelines pertinent to life sciences. CROSSLISTED as MCB 576. PREREQS: Cell and molecular biology or genetics, or by approval of instructor. Familiarity with text editing software and unix/linux operating system is advantageous.

## BOT 580. PHOTOSYNTHESIS AND

PHOTOBIOLOGY (3). Explores the diverse use of light in biological systems, with particular emphasis on photosynthesis. Lectures will discuss the nature of light, light in the natural environment, light absorption in biological systems, use of light energy for photosynthesis, communication, defense, motility, and vision, as well as deleterious effects of light and its use for global monitoring satellite systems. PREREQS: One course in plant physiology, ecology, or the equivalent, or by permission of instructor.

BOT 588. ENVIRONMENTAL PHYSIOLOGY OF PLANTS (3). Introduces students to mechanisms of plant responses to environmental change caused by humans, including atmospheric, nutrient, water, and global climate factors. Concepts are built around principles of plant environment relations. Lec/lab. PREREQS: One course in plant physiology or one course in ecology.
BOT 590. SELECTED TOPICS IN MYCOLOGY
(1-3). Advanced topics in mycology through analysis of current literature. Detailed study of an aspect of mycology beyond those covered in regular classes. Seminar and discussion format. This course is repeatable for a maximum of 16 credits. PREREQS: BOT 461 or BOT 561
BOT 599. SPECIAL TOPICS (0-16). This course is repeatable for a maximum of 16 credits.

BOT 601. RESEARCH (1-16). This course is repeatable for a maximum of 16 credits.

BOT 603. THESIS (1-16). This course is repeatable for a maximum of 999 credits.

BOT 605. READING AND CONFERENCE (1-16).
This course is repeatable for a maximum of 16 credits.
BOT 607. SEMINAR (1). Section 1. Departmental seminar This course is repeatable for a maximum of 16 credits.
BOT 608. WORKSHOP (1-16). This course is repeatable for a maximum of 16 credits.
BOT 651. MOLECULAR BASIS OF PLANT
PATHOGENESIS (3). Analysis of current concepts in the physiology, biochemistry, and genetics of host-parasite interactions. Topics covered include specificity, recognition, penetration, toxin production, altered plant metabolism during disease, resistance mechanisms and regulatory aspects of gene expression during host-parasite interactions. Offered alternate years. CROSSLISTED as MCB 651. PREREQS: BOT 550
BOT 668. PLANT DISEASE DYNAMICS (4). Evaluation of processes affecting the dynamics of plant disease and pathogen populations through analysis of current literature. Students will be expected to conduct extensive reading and analysis of literature and to meet with the instructor for small group discussions. Offered alternate years. PREREQS: BOT 550 and ST 412

## BOT 691. SELECTED TOPICS-PLANT

ECOLOGY (1-3). Recent advances and developing problems in plant ecology, with critical evaluation of current literature. Topics vary from year to year. This course is repeatable for a maximum of 99 credits. PREREQS: Graduatelevel ecology.
BOT 692. SELECTED TOPICS: PLANT
PATHOLOGY (1-3). Selected topics concerning plant pathogens and plant disease processes, emphasizing current literature and theory. Topics vary from year to year. This course is repeatable for a maximum of 99 credits. PREREQS: BOT 550 or equivalent.
BOT 699. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 16 credits.

## FACULTY

Professors Bottomley, Butler
(emeritus), Corp, Dragila, Hannaway, Hayes, Karow (emeritus), Kling (sr. research), Lajtha, Machado, Macnab, Mallory-Smith, Myrold, Noller, Rao, Reitz, Ross, Shock, Stephenson, Tuck, Young (emeritus), Zemetra
Associate Professors Angima, Baham (emeritus), Bohle, Chastain, Elias (sr. research), Felix, Flowers, Hulting, Kleber, Lutcher, Nonogaki, Parke (sr. research), Rondon, Roseberg, Schrumpf (seed certification, emeritus), D. Sullivan, Walenta, Wysocki
Assistant Professors N. Anderson, Dreves (sr. research), Leonard (sr. research), Pett-Ridge, C. Sullivan, Townsend (sr. research)
Senior Instructors Cassidy, Charlton, Fery, McMorran (seed certification)
Instructors Buhrig, Burr (seed
certification), A. Hunt, Japhet, Maley, Shafa (seed certification), S. Smith (seed certification), Zielinski (seed certification)

## COURTESY FACULTY

Professors Brilman, Brown, Griffith, Olszyk, Peterson
Associate Professors Henning, Mueller-Warrant, Riera-Lizaraz, Vales Assistant Professors M. Johnson, M. Rogers, Weisbrod

## PROFESSIONAL FACULTY

Curry, Garay, Lewis, Lundeen

## Undergraduate Major

Crop and Soil Science (BS, CRED, HBS)

## Options

Agronomy
Plant Breeding and Genetics
Soil Science

## Minors

Crop Science
Soil Science

## Graduate Majors

Crop Science (MAIS, MS, PhD)
Graduate Areas of Concentration
Crop Breeding, Genetics and
Cytogenetics (cereals, oilseeds, potatoes)
Forage and Pasture Management
Grain Crop Production
Post-Harvest Seed Technology
Seed Biology

Seed Crop Physiology
Seed Production
Weed Biology
Weed Management
Graduate Options
Entomology
Plant Breeding and Genetics
Soil Science (MAIS, MS, PhD)
Graduate Areas of Concentration
Environmental Soil Science
Forest Soils
Nutrient Cycling
Soil Geochemistry
Soil Conservation and Land Use
Soil Fertility and Plant Nutrition
Soil Genesis and Classification
Soil Microbiology
Soil Physics
Affiliated Interdisciplinary
Graduate Major
Water Resources Science (MS, PhD) (See
Graduate School)

## Graduate Minors

Crop Science
Soil Science
The discipline of crop science provides the knowledge and understanding of technologies that contribute directly to improvements in production and quality of food, feed, fiber, seed, energy, and nutraceutical crops for the world. The art and science of plant improvement are key elements in efforts to feed, clothe and provide energy for the world's evergrowing population. Conventional and molecular tools assist in the development of new genetic strains of food and energy crops. Crop plants play an important role in the future of sustainable food and energy production.

The discipline of soil science provides the basic understanding of the physical, chemical, and biological properties of this important natural resource. Why is soil important? Soil is the fundamental substrate for life on terrestrial landscapes. Soil plays a vital role in sustaining human welfare and assuring future agricultural productivity and environmental stability. An understanding of global and local ecology depends on an awareness of the soil and its properties. Global information and mapping systems are essential tools for characterizing the landscape and its constituent soils.
Agronomists are crop and soil scientists who work to improve crops and agricultural productivity while effectively managing pests and weeds. Students in crop and soil science explore important contemporary issues faced by our society, including water quality and management, sustainability of different types of crop production, organic crop produc-
tion, erosion and sedimentation, growing crops for biofuel production, land use and reclamation, genetic modification of crop plants, and soil quality and sustainability. An array of careers is available.

## CAREER OPPORTUNITIES

Careers for crop scientists are available in business, industry, farming, research, agricultural chemical industries, seed production, seed technology, communications, conservation, and education. Positions are available in agricultural experiment stations and extension services, state departments of agriculture, food processing companies, insurance agencies, lending institutions, and commercial firms, both domestic and international, dealing in the processing and sale of farm products, chemicals, and seed.

Careers for soil scientists are available in agriculture, forestry, education, state and federal resource agencies, private consulting, and research. Farms, ranches, and agricultural supply companies employ soil scientists as managers or field representatives. Soil scientists may become teachers of vocational agriculture or environmental education, or they may become county extension agents in agriculture or natural resources. The U.S. Department of Agriculture's Forest Service and Natural Resources Conservation Service often employ soil scientists, as do private consulting firms in environmental engineering and land use planning.

## ACADEMIC ADVISING

Undergraduate curricula in crop and soil science are flexible enough to provide for the student's individual professional needs and interests and for a broad-based general education by allowing electives in other colleges throughout the university. Undergraduate advising is a vital part of the program, and the department is well known for excellence in advising. The department has a head advisor who meets with all students each term. Advisors and faculty provide curricular guidance and aid in professional extracurricular activities, career decisions, and job placement.

## SCHOLARSHIPS

The Department of Crop and Soil Science administers a number of scholarships available only to students majoring in the department. Over $\$ 40,000$ is given to students each year.

## STUDENT CLUBS

The department supports a Crop Science Club that provides valuable co-curricular professional development, a collegiate Soil Judging Team that participates in both regional and national competitions, the OSU Organic Growers Club that provides hands-on experience in organic production of vegetable crops, and the

OSU Bug Club, a student club whose members are actively engaged in insect education outreach to local schools and communities. Graduate students in soil science also have a student club.

## CROP AND SOIL SCIENCE (BS, CRED, HBS)

The Bachelor of Science degree in Crop and Soil Science requires the choice of one of three options:

## 1. Agronomy

2. Plant Breeding and Genetics
3. Soil Science

Major Code: 120

## OPTIONS

## AGRONOMY OPTION

Students in the Agronomy option will gain the knowledge and skills necessary to be active participants in producing food, feed, fiber, and energy crops for our world. Increased production of field crops-wheat, corn, rice, sorghum, soybeans, forages, cotton, etc.-will be essential to meet the basic needs of the world's ever-growing population and such production will need to be accomplished in a world of diminishing soil, water, mineral, and petrochemical resources. As an agronomic professional, you will have the knowledge and skill to access the potentials of a given production system and to choose plant materials and plant production practices that will optimize production while minimizing environmental impact. Maximum sustainable production will be your goal and you will need in-depth knowledge of plants, plant genetics, plant pests, soils, soil fertility, production equipment, economics, and politics to achieve this goal. Agronomists work for field crop production companies, as managers of small to large farms and ranches, and as managers of their own farming operations. Agronomists also work for federal, state, or local government agencies as educators, researchers, or field technicians. Others hold teaching, research, or extension positions in universities. Some work for private research laboratories, environmental service companies, insurance companies, or land appraisal firms.

## Major Core

## General Science Core

BI 211, BI 212, BI 213. *Principles of Biology $(4,4,4)$
or BI 204, BI 205, BI 206. *Introductory Biology I, II, III $(4,4,4)$
CH 231, CH 232, CH 233. *General Chemistry $(4,4,4)$
and CH 261, CH 262, CH 263.
*Laboratory for Chemistry 231, 232, 233

## (1,1,1)

Choose one of the following math classes (4):
MTH 241. *Calculus for Management and Social Science (4)

MTH 245. *Mathematics for
Management, Life, and Social Sciences (4)

MTH 251 *Differential Calculus (4)

## Orientation

CROP/ENT/HORT/SOIL 101. Introduction to Horticulture, Crop, Soil, and Insect Science (1)

## Agricultural Science

BOT 331. Plant Physiology (4)
BOT 350. Introductory Plant Pathology (4)
CROP 440. Weed Management (4)
ENT 311. Introduction to Insect Pest Management (4)
SOIL 205. *Soil Science (3) and SOIL 206.
*Soil Science Laboratory for Soil 205 (1)

## Experiential Learning

Take 3 or more credits of the following:
CROP 401. Research (3)
CROP 403. Thesis (3)
CROP 410. Internship (3) and CROP 407. Seminar (1)

## Ecology

Select 1 of the following courses:
BI 370. Ecology (3)
BOT 341. Plant Ecology (4)
RNG 341. Rangeland Ecology and Management (3)

## Technology

CROP 414. Precision Agriculture (4)

## Writing Intensive Course (WIC)

CROP/SOIL 325. ${ }^{\wedge}$ Ag and Environmental
Predicaments: A Case Study Approach (3)

## Capstone

CROP/HORT 480. Case Studies in Cropping Systems Management (4)

## Option Requirements

## Agronomy Core

CROP 200. Crop Ecology and Morphology (3)

CROP 280. Introduction to the Complexity of Oregon Cropping Systems (4)
CROP 319. Principles of Field Crop
Production (3)
CROP 330. *World Food Crops (3)
PBG 430. Plant Genetics (3)
PBG 431. Plant Genetics Recitation (1)
SOIL 316. Nutrient Cycling in
Agroecosystems (4)
ST 351. Introduction to Statistical Methods (4)
or ST 411. Methods of Data Analysis (4)

## Agronomy Electives

Choose at least 7-8 credits from the following courses:
BEE 439. Irrigation Principles and Practices (4)

BOT 313. Plant Structure (4)
CROP 310. Forage Production (4)
CROP 420. Seed Science and Technology (3)

## Ecampus only

CROP 460. Seed Production (3)
HORT 316. Plant Nutrition (4)

## General Electives

Choose at least 7-8 credits from the following courses:
BB 350. Elementary Biochemistry (4)
BOT 321. Plant Systematics (4)
BOT 414. Agrostology (4)

BOT 442. Plant Population Ecology (3)
BOT 480. Photosynthesis and Photobiology
(3)

BOT 488. Environmental Physiology of Plants (3)
CH 331. Organic Chemistry (4)
CH 332. Organic Chemistry (4)
CH 337. Organic Chemistry Laboratory (4)
CROP 199. Special Studies: Issues in
Sustainable Agriculture (1) Repeatable
CROP/HORT 300. Crop Production in
Pacific Northwest Agroecosystems (4)
CROP 418. Toxic Plants in PNW Pastures (1)
Ecampus only.
CSS 320. Principles of Oil and Fiber Crop
Production (1) EOU only.
CSS 321. Principles of Cereal Crop
Production (1) EOU only.
CSS 322. Principles of Potato Production (1) EOU only.
FES 365. *Issues in Natural Resources
Conservation (3) Cascades \& Ecampus only.
GEOG 340. *Introduction to Water Science and Policy (3)
or SOIL 335. *Introduction to Water
Science and Policy (3)

MB 230. *Introductory Microbiology (4)
PBG 441. Plant Tissue Culture (4)
PBG 450. Plant Breeding (4)
PH 201. *General Physics (5)
SOIL 395. *World Soil Resources (3)

## Ecampus only.

SOIL 435. Environmental Soil Physics (3)
SOIL 445. Environmental Soil Chemistry (3)
SOIL 455. Biology of Soil Ecosystems (4)
SOIL 466. Soil Morphology and
Classification (4)
SOIL 475. Soil Resource Potentials (4)
WR 327. *Technical Writing (3)

## Business and Economics

AEC 211. Management in Agriculture (4)
AEC 221. Marketing in Agriculture (3)
AEC 250. *Introduction to Environmental Economics and Policy (3)
or ECON 201. *Introduction to
Microeconomics (4)
Electives in Business
Choose a minimum of 4 credits from the following courses:
AEC 311. Intermediate Applied Economics
I: Producers and Consumers (4)
AEC 372. Agricultural Cooperatives (3)
AEC 388. Agricultural Law (4)
AEC 442. Agricultural Business
Management (4)
AEC 444. Commodity Futures and Options Markets (4)
AEC 460. Capital Investment Analysis Using Agbiz Logic (3)
BA 463. Family Business Management (4)

## Experiential Learning Track

(optional):
10 or more credits of a structured internship (CROP 410) can be substituted for 6 of the 7-8 General Electives credits and four credits of Electives in Business. This would allow a student to use an entire term for internship work.

## Research Track (optional):

Suggested classes, select courses most relevant to your intended graduate school program:
BB 350. Elementary Biochemistry (4)
BI 211, BI 212, BI 213. *Principles of Biology series $(4,4,4)$
BOT 321. Plant Systematics (4)
BOT 341. Plant Ecology (4)
BOT 414. Agrostology (4)
CH 331. Organic Chemistry (4)
CH 332. Organic Chemistry (4)
CH 337. Organic Chemistry Laboratory (4)
MB 230. *Introductory Microbiology (4)
MTH 251. *Differential Calculus (4)
PH 201. *General Physics (5)
WR 327. *Technical Writing (3)

## Grade Requirements

Students pursuing the Agronomy option under the Crop and Soil Science major are required to receive a grade of C or better in all CROP, CSS, ENT, HORT, PBG, and SOIL courses required within their major and option.

## Footnotes:

* Baccalaureate Core Course
$\wedge$ Writing Intensive Course (WIC)
Option Code: 784

## PLANT BREEDING AND <br> GENETICS OPTION

The Plant Breeding and Genetics (PBG) option at Oregon State University embodies the Land Grant mission of integrated research, teaching and extension in the context of cultivar development and fundamental genetics. Plant breeding is a collaborative discipline spanning everything from classical field approaches to gene manipulation at the molecular level. Breeders regularly cooperate with pathologists, entomologists, soil scientists, physiologists, food scientists, genomicists, molecular biologists and experts in other fields.

Students in the Plant Breeding and Genetics option will learn an interdisciplinary approach to applied plant breeding by taking courses across a broad spectrum of disciplines. The option may be tailored to meet students' career goals including graduate school, as well as directly entering public or private sector breeding programs. After completing their degree, students will have gained fundamental knowledge in plant breeding that may be applied in a range of crops including annual and perennial horticultural crops, agronomic food and feed crops, and forestry products.

This option is under both the Crop and Soil Science major and the Horticulture major. The option uses the new horticulture major core.

## Option Requirements

## Plant Materials

Select 2 of the following courses:
BOT 313. Plant Structure (4)
BOT 321. Plant Systematics (4)

BOT 425. Flora of the Pacific Northwest (3)
CROP 200. Crop Ecology and Morphology (3)

HORT 226. Landscape Plant Materials I:
Deciduous Hardwoods and Conifers (4)
HORT 228. Landscape Plant Materials II:
Spring Flowering Trees and Shrubs (4)
HORT 251. Temperate Tree Fruit, Berries,
Grapes, and Nuts (2)
HORT 255. Herbaceous Ornamental Plant
Materials (3)
HORT/CROP 433. Systematics and
Adaptation of Vegetable Crops (4)

## Ecology

Select 1 of the following courses:
BI 370. Ecology (3)
BOT 341. Plant Ecology (4)
HORT 318. ^Applied Ecology of Managed Ecosystems (3)

## Technology

PBG 441. Plant Tissue Culture (4)

## Agricultural Communication

CROP 407. Seminar (1)
or HORT 407. Seminar (1)
HORT 411. Horticulture Book Club (1)
Select 1 of the following Writing

## Intensive Courses:

BOT 323. ${ }^{\wedge}$ Flowering Plants of the World (3)
CROP/SOIL 325. ^Ag and Environmental Predicaments: A Case Study Approach (3)
HORT 318. ^Applied Ecology of Managed Ecosystems (3)

## Capstone

PBG 450. Plant Breeding (4)

## Science and Technology

CROP/HORT 463. Seed Biology (3)
PBG 430. Plant Genetics (3)
ST 351. Introduction to Statistical Methods (4)

Production and Technology
Select 4 of the following courses, for a minimum of 12 credits:
BOT 332. Laboratory Techniques in Plant Biology (3)
CROP 199. Special Studies: Issues in Sustainable Agriculture (1)
CROP 280. Introduction to the Complexity of Oregon Cropping Systems (4)
CROP 310. Forage Production (4)
CROP 330. *World Food Crops (3)
CROP 460. Seed Production (3)
CROP 499. Special Topics [Advanced Organic Farming] (2) or HORT 499. Special Topics [Advanced Organic Farming] (2)
CROP 590. Experimental Design in Agriculture (4)
CSS 320. Principles of Oil and Fiber Crop Production (1)
CSS 321. Principles of Cereal Crop Production (1)
CSS 322. Principles of Potato Production (1)
ENT 499. Special Topics [Insect Agroecology] (3)
or HORT 499. Special Topics [Insect Agroecology] (3)
HORT 260. Organic Farming and Gardening (3)

HORT/CROP 300. Crop Production in

Pacific Northwest Agroecosystems (4)
HORT 351. Floriculture and Greenhouse
Systems (4)
HORT 360. Irrigation and Drainage (4)
HORT 361. Plant Nursery Systems (4)
HORT 452. Berry and Grape Physiology and Culture (4)
HORT 453. Grapevine Growth and
Physiology (3)
HORT 454. Principles and Practices of Vineyard Production (3)

## SOIL SCIENCE OPTION

The study of soil as a science provides students with a basic understanding of the physical, chemical, and biological properties of this essential natural resource. Soil is the fundamental substrate for life in terrestrial systems. Our food, fiber, and renewable energy are dependent on soils. Our understanding of soils is critical in the successful siting of buildings and construction of roadways and other transportation infrastructure. Our understanding of global and local ecology depends on an awareness of soil and its properties. Soils are the filters of our water and play active roles in storing carbon and other materials that are essential in human existence. As a soil science student, you will explore issues including water quality and management, organic crop production, erosion and sedimentation, land use and reclamation, and soil quality and sustainability. As a soil science professional you will be able to use your knowledge and skills to solve real-world, sustainable living problems in urban, agricultural, forest, rangeland, and other natural systems. Many soil scientists work for the Natural Resource Conservation Service. Some work for other federal, state, or local government agencies as extension educators, researchers, or surveyors. Others hold teaching or research positions in colleges and universities. Soil scientists also work for fertilizer companies, private research laboratories, environmental service companies, insurance companies, and land appraisal firms.

## Major Core

## General Science Core

BI 211, BI 212, BI 213. *Principles of Biology $(4,4,4)$
Choose 1 of the following chemistry series:
CH 121. General Chemistry (5) and CH 122, CH 123. *General Chemistry $(5,5)$

## OR:

CH 231, CH 232, CH 233. *General
Chemistry $(4,4,4)$ and CH 261, CH 262, CH 263. *Laboratory for Chemistry 231, 232, 233 (1,1,1)
MTH 111. *College Algebra (4)

## Orientation

SOIL 101. Introduction to Horticulture, Crop, Soil, and Insect Science (1)

## Agricultural Sciences

ENT 311. Introduction to Insect Pest Management (4)
SOIL 205. *Soil Science (3)
Select 1 of the following courses:
BOT 331. Plant Physiology (4)
CROP 200. Crop Ecology and Morphology (3)
HORT 301. The Biology of Horticulture (3)

PBG 622. Mapping Quantitative Trait Loci (1)
PBG 650. Advanced Plant Breeding and
Quantitative Genetics (3)

## Major Code: 1200

## GRADUATE OPTIONS

## ENTOMOLOGY OPTION

The Entomology (ENT) option at Oregon State University embodies the Land Grant mission of integrated research, teaching, and extension in the context of understanding the basic biology of insects and, with this knowledge, then working with insects in natural and/or managed environments. The discipline of entomology at Oregon State University covers behavior, ecology, evolution, physiology, systematics, molecular biology, chemical ecology, plant-insect interactions, pollination by honey bees and native bees, biological control, integrated pest management, and insecticide toxicology. Oregon State Entomology addresses insect-related issues in aquatic and terrestrial systems in natural, agricultural, forested, and urban environments. Entomologists collaborate with plant scientists, physiologists, pathologists, soil scientists, geneticists, molecular biologists, and experts in other fields.
Students in the Entomology option will conduct thesis research related to insects under the supervision of an entomologist associated with the graduate faculty in Crops or Horticulture, and take courses that provide knowledge and understanding about insects. After completing their degree, students will have gained fundamental knowledge in entomology that may be applied in agricultural, aquatic, forested, natural, and urban environments.

## Requirements

## Thesis Credits (3)

ENT 503. Thesis (3)
Course Credits (9)
Select 9 credits from the following:
ENT 507. Seminar (1)
ENT 520. Insect Ecology (3)
ENT 540. Issues in Insect Toxicology (3)
ENT 599. Special Topics (3)
Z 540. Insect Physiology (3)
Z 575. Insect Biodiversity Survey (4)
Z 577. Aquatic Entomology (4)

## Total=12 Credits

Option Code: 5333

## PLANT BREEDING AND GENETICS OPTION

The Plant Breeding and Genetics (PBG) graduate option at Oregon State University embodies the Land Grant mission of integrated research, teaching and extension in the context of cultivar development and fundamental genetics. Plant breeding is a collaborative discipline spanning everything from classical field approaches to gene manipulation at the molecular level. Breeders regularly cooperate with pathologists, entomologists, soil scientists, physiologists, food scientists, genomicists, molecular biologists and experts in other fields.

Students in the Plant Breeding and Genetics graduate option will learn an interdisciplinary approach to applied plant breeding by taking courses across a broad spectrum of disciplines. The option may be tailored to meet students' career goals including further graduate study, as well as direct entry into public or private sector breeding programs. After completing the degree, students will have the fundamental knowledge of plant breeding that may be applied to a range of crops including annual and perennial horticultural crops, agronomic food and feed crops, and forestry products.

## Additional Requirements

Select 12 credits from the following: BOT/MCB 575. Comparative Genomics (4) CROP 590. Experimental Design in Agriculture (4)
PBG 507. Seminar (1-2)
PBG/HORT 519. Current Topics in Plant
Breeding and Genetics (2)
PBG 530. Plant Genetics (3)
PBG/MCB 541. Plant Tissue Culture (4)
PBG 550. Plant Breeding (4)
PBG/MCB 620. DNA Fingerprinting (1)
PBG/MCB 621. Genetic Mapping (1)
PBG/MCB 622. Mapping Quantitative Trait Loci (1)
PBG 650. Advanced Plant Breeding and Quantitative Genetics (3)
Option Code: 1210

## SOIL SCIENCE (MS, PhD, MAIS)

Graduate Areas of Concentration Environmental soil science, forest soils, nutrient cycling, soil geochemistry, soil conservation and land use, soil fertility and plant nutrition, soil genesis and classification, soil microbiology, soil physics
Faculty research specializations in soil science include ecosystem services, forest soils, management of soil nutrients, mineral-organic matter interactions, soil archeology, soil biogeochemistry, soil microbial ecology, sustainable cropping systems, soil geomorphology, soil genesis, and soil hydrology. Amongst research institutions worldwide, Oregon State campus lands present the most soil diversity for the study of associated problems.

## Graduate Level Courses in Soil <br> Science

SOIL 513. Properties, Processes, and
Functions of Soils (4)
SOIL 523. Principles of Stable Isotopes (3)
SOIL 525. Mineral-Organic Matter
Interactions (3)
SOIL 535. Soil Physics (3)
SOIL 536. Vadose Zone Hydrology Laboratory (1)
SOIL 545. Geochemistry of Soil Ecosystems (4)

SOIL 555. Biology of Soil Ecosystems (4)
SOIL 566. Soil Morphology and
Classification (4)
SOIL 568. Soil Landscape Analysis (4)

SOIL 645. Soil Microbial Ecology (3)
Major Code: 1600

## GRADUATE MINORS

## CROP SCIENCE GRADUATE MINOR

For more details, see the major professor.
Approximately two-thirds (30 graduate credits) of the 45 -credit total required for a graduate degree should be listed in the major field and one-third (15 graduate credits) in the minor field. The student's advisory committee must include a member from the minor department.

## Minor Code: 1200

SOIL SCIENCE GRADUATE MINOR For more details, see the major professor.

Approximately two-thirds (30 graduate credits) of the 45 -credit total required for a graduate degree should be listed in the major field and one-third (15 graduate credits) in the minor field. The student's advisory committee must include a member from the minor department.

## Minor Code: 1600

## - CROP SCIENCE COURSES

CROP 101. INTRODUCTION TO
HORTICULTURE, CROP, SOIL, AND INSECT
SCIENCE (1). Introduces students with interests in horticulture, crop, soil, and insect sciences to educational and professional opportunities in these disciplines. Speakers will discuss opportunities in research and academia as well as in the applied professional job market. Open to all students. CROSSLISTED as ENT 101, HORT 101, SOIL 101.
CROP 199. SPECIAL STUDIES: ISSUES IN SUSTAINABLE AGRICULTURE (1-16). Invited speakers present seminars on specific aspects of agriculture relating to sustainability. Topics vary from term to term and year to year. May be repeated for credit when topics differ. This course is repeatable for a maximum of 16 credits.
CROP 200. CROP ECOLOGY AND
MORPHOLOGY (3). An introduction to the concepts and principles of crop ecology and morphology and a foundation for other crop science courses. Examines the dynamics and function of crop communities, and the biotic and environmental interactions that influence productivity. Fundamentals of the developmental morphology of crop seeds, seedlings, and plants. Morphological features of seeds and plants in relation to the identification of crop families and species of economic importance.
CROP 280. INTRODUCTION TO THE
COMPLEXITY OF OREGON CROPPING
SYSTEMS (4). An introduction to field cropping systems of western Oregon. Provides students with a broad overview of the complexity of cropping systems and the knowledge required to grow and produce a crop--plant physiology, seed biology, plant pathology, soil fertility, entomology, and weed science. Students will observe a crop under different management strategies to enhance understanding of management approaches.
CROP 300. CROP PRODUCTION IN PACIFIC NORTHWEST AGROECOSYSTEMS (4).
Relation of crop production to human culture and the natural environment. Origins of agriculture and the processes of agricultural change, and productivity and sustainability of specific crop production systems in the Pacific Northwest. History, geography, resource requirements, and key challenges faced are presented. Fundamental
crop production practices in relation to productivity and sustainability. Lec/lab/rec. CROSSLISTED as HORT 300. PREREQS: One year of general biology or equivalent.
CROP 310. FORAGE PRODUCTION (4). Importance of, and current production practices for, forage crops. Lec/lab. PREREQS: (CSS 300 or CROP 300 or HORT 300) and (CSS 305 or CSS 205 or SOIL 205) or equivalent

CROP 319. PRINCIPLES OF FIELD CROP PRODUCTION (3). Provides students with an understanding of the basic principles of field crop production--tillage, soil testing, fertilization, variety selection, planting, and in-season crop management. Management practices for wheat, corn and soybean as PREREQS: CROP 280 or equivalent and SOIL 205
CROP 325. ^AG AND ENVIRONMENTAL
PREDICAMENTS: A CASE STUDY APPROACH
(3). Evaluation of controversial agricultural and environmental problems. Production of clear oral and written documents describing and analyzing problems and specific courses of action utilizing team-building skills. (Writing Intensive Course) CROSSLISTED as SOIL 325. PREREQS: (CSS 305 [D-] or CSS 205 [D-] or SOIL 205 [D-] )
CROP 330. *WORLD FOOD CROPS (3).
Origin, production, utilization, and improvement of the world's major food crops. The role of crop production in global economic and social development; food security and worldwide nutritional requirements. (Bacc Core Course) PREREQS: CSS 200 or CROP 200 recommended.

CROP 340. *PENS AND PLOWS: WRITINGS OF WORKING THE LAND (3). A survey of literature from ancient Greece to the twentieth century focusing on the significance of agricultural life and/ or the natural world. Students read and discuss writings considered critical in the development of Western culture and receive input on the literary significance and the accuracy of agriculture presented within the readings. (Bacc Core Course) Taught via Ecampus only.
CROP 401. RESEARCH (1-16). This course is repeatable for a maximum of 16 credits.
CROP 403. THESIS (1-16). Independent, original study and preparation of a senior thesis. This course is repeatable for a maximum of 16 credits. PREREQS: Senior standing.
CROP 405. READING AND CONFERENCE (1-16). This course is repeatable for a maximum of 16 credits.
CROP 405H. READING AND CONFERENCE
(1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Honors College approval required.

CROP 407. SEMINAR (1). Senior seminar intended to instruct students on proper techniques for presentation of scientific material. Each student is expected to prepare and present a scientific seminar and to submit written documentation supporting that seminar.
CROP 410. INTERNSHIP (1-6). Professional work experience previously approved and supervised by the department, written report required. This course is repeatable for a maximum of 12 credits. PREREQS: Junior standing.
CROP 414. PRECISION AGRICULTURE (4). Provides insight into the technology available to support precision agriculture and data management planning applications. Examines the concepts and applications of precision agriculture to teach practical use of hardware, equipment and software. An overview of current technology including autonomous vehicles, GPS, soil and crop proximal sensors, imagery and mapping, variable rate control systems, and yield monitors. Lec/lab. CROSSLISTED as HORT 414 PREREQS: Junior standing.

CROP 418. TOXIC PLANTS IN PNW PASTURES
(1). Identifying and understanding ecology and biology of harmful weeds and poisonous plants found in Pacific Northwest pastures and rangelands and determining best management and control options. Taught via Ecampus only. PREREQS: College-level plant biology and/or taxonomy courses.

## CROP 420. SEED SCIENCE AND

TECHNOLOGY (3). Seed formation and factors affecting their development and maturation. Seed structure and chemical composition. Physiological and biochemical aspects of seed germination, dormancy, deterioration and storability. The concept of seed quality, its importance in agriculture, its attributes and impact on field performance. Methods of measuring seed quality of conventional and genetically modified seeds. Taught via Ecampus only. PREREQS: Biology, plant anatomy and/or physiology courses are recommended.
CROP 433. SYSTEMATICS AND ADAPTATION OF VEGETABLE CROPS (4). Covers the botanical and taxonomic relationships, breeding systems and adaptation of vegetable crops. Fresh material is used to illustrate varietal differences and traits of importance. Lec/lab. Offered even years. CROSSLISTED as HORT 433/HORT 533. PREREQS: (BI 102 [D-] or BI 213 [D-] or BI 311 [D-] or HORT 430 [D-] or CSS 430 [D-] or PBG 430 [D-] or HORT 450 [D-] or CSS 450 [D-] or PBG 450 [D-] )
CROP 440. WEED MANAGEMENT (4). Principles of weed control by cultural, biological, and chemical means; weed identification; introduction to herbicides and factors influencing their use. Lec/ lab/rec. PREREQS: One year biological science and one course in organic chemistry.
CROP 460. SEED PRODUCTION (3). An introduction to principles and practices of seedbased genetic delivery systems. Fundamentals of seed crop biology, cultivar maintenance and production methods are stressed. Concepts are illustrated using Pacific Northwest seed crops.
PREREQS: CROP 200 or CSS 200 or equivalent.
CROP 463. SEED BIOLOGY (3). Information about reproductive development of plants such as pollination and fertilization, which is important for the initiation of seed formation, will be provided. Embryo and endosperm development as well as accumulation of seed storage materials, which are major events during seed development, will be covered, as well as the dormancy and germination mechanisms in mature seeds. Lectures and discussions (presentations required for graduate students). Offered even years. CROSSLISTED as HORT 463/HORT 563. Lec/lab.

## CROP 480. CASE STUDIES IN CROPPING

 SYSTEMS MANAGEMENT (4). Decision cases involving the production of field and horticultural crops; individual and group activities; discussion of the decision-making process. Multiple field trips required. A field trip fee will be charged CROSSLISTED as HORT 480/HORT 580. PREREQS: CROP 300 or HORT 300 and senior standing in agriculture.CROP 499. SPECIAL TOPICS IN CROP
SCIENCE AND SOIL SCIENCE (1-16). Technical knowledge and skills development courses offered in a wide array of course formats. Topics vary from term to term and year to year. May be repeated for credit when topics differ. This course is repeatable for a maximum of 16 credits.
CROP 499H. SPECIAL TOPICS IN CROP
SCIENCE AND SOIL SCIENCE (1-16). Technical knowledge and skills development courses offered in a wide array of course formats. Topics vary from term to term and year to year. May be repeated for credit when topics differ. This course is repeatable for a maximum of 16 credits. PREREQS: Honors College approval required

CROP 501. RESEARCH (1-16). This course is repeatable for a maximum of 16 credits.

CROP 503. THESIS (1-16). This course is repeatable for a maximum of 999 credits. PREREQS: Master's-level graduate students.
CROP 505. READING AND CONFERENCE (1-16). This course is repeatable for a maximum of 16 credits.
CROP 506. PROJECTS (1-16). This course is repeatable for a maximum of 16 credits.
CROP 507. SEMINAR (1). Graded P/N. This course is repeatable for a maximum of 99 credits.
CROP 509. PRACTICUM IN TEACHING
(1-3). Developing skills and competence in teaching under staff supervision; organization and presentation of instructional material by assisting in laboratory, recitation, and lectures. CROSSLISTED as ENT 509, PBG 509, SOIL 509. This course is repeatable for a maximum of 9 credits.

## CROP 520. SEED SCIENCE AND

TECHNOLOGY (3). Seed formation and factors affecting their development and maturation. Seed structure and chemical composition. Physiological and biochemical aspects of seed germination, dormancy, deterioration and storability. The concept of seed quality, its importance in agriculture, its attributes and impact on field performance. Methods of measuring seed quality of conventional and genetically modified seeds. Taught via Ecampus only. PREREQS: Biology, plant anatomy and/or physiology courses are recommended.

CROP 533. SYSTEMATICS AND ADAPTATION OF VEGETABLE CROPS (4). Covers the botanical and taxonomic relationships, breeding systems and adaptation of vegetable crops. Fresh material is used to illustrate varietal differences and traits of importance. Lec/lab. CROSSLISTED as HORT 433/HORT 533. PREREQS: BI 102 or B 213 or BI 311 or HORT 430 or CSS 430 or PBG 430 or HORT 450 or CSS 450 or PBG 450
CROP 540. WEED MANAGEMENT (4). Principles of weed control by cultural, biological, and chemical means; weed identification; introduction to herbicides and factors influencing their use. Lec/ lab/rec. PREREQS: One year biological science and one course in organic chemistry.
CROP 560. SEED PRODUCTION (3). An introduction to principles and practices of seedbased genetic delivery systems. Fundamentals of seed crop biology, cultivar maintenance and production methods are stressed. Concepts are illustrated using Pacific Northwest seed crops.
PREREQS: CROP 200 or CSS 200 or equivalent.
CROP 563. SEED BIOLOGY (3). Information about reproductive development of plants such as pollination and fertilization, which is important for the initiation of seed formation, will be provided. Embryo and endosperm development as well as accumulation of seed storage materials, which are major events during seed development, will be covered, as well as the dormancy and germination mechanisms in mature seeds. Lectures and discussions (presentations required for graduate students). Offered even years. CROSSLISTED as HORT 463/HORT 563. Lec/lab.
CROP 580. CASE STUDIES IN CROPPING SYSTEMS MANAGEMENT (4). Decision cases involving the production of field and horticultural crops; individual and group activities; discussion of the decision-making process. Multiple field trips required. A field trip fee will be charged CROSSLISTED as HORT 480/HORT 580. PREREQS: CROP 300 or HORT 300 and senior standing in agriculture.

CROP 590. EXPERIMENTAL DESIGN IN
AGRICULTURE (4). Field layout, analysis, and interpretation of basic experimental designs used in agronomy and plant breeding and including field plot techniques such as optimum plot size and shape, factorial arrangement, replication, subsampling, randomization, and blocking. Recitation provides practical experience with SAS. Lec/rec.

PREREQS: ST 351 or equivalent.
CROP 599. SPECIAL TOPICS IN CROP
SCIENCE AND SOIL SCIENCE (1-16). Technical
knowledge and skills development courses offered in a wide variety of course formats. Topics vary from term to term and year to year. May be repeated for credit when topics differ. This course is repeatable for a maximum of 16 credits.

CROP 601. RESEARCH (1-16). This course is repeatable for a maximum of 16 credits.

CROP 603. THESIS (1-16). This course is repeatable for a maximum of 999 credits.
PREREQS: PhD-level graduate students.
CROP 605. READING AND CONFERENCE (1-16). This course is repeatable for a maximum of 16 credits.
CROP 606. PROJECTS (1-16). This course is repeatable for a maximum of 16 credits.
CROP 607. SEMINAR (1). Graded P/N. This course is repeatable for a maximum of 99 credits.
CROP 608. WORKSHOP (1-16). This course is repeatable for a maximum of 16 credits.
CROP 609. PRACTICUM IN TEACHING (1-3).
Developing skills and competence in teaching under staff supervision; organization and presentation of instructional material by assisting in laboratory, recitation, and lectures. Graded $\mathrm{P} / \mathrm{N}$. This course is repeatable for a maximum of 9 credits.
CROP 660. HERBICIDE SCIENCE (4).
Absorption, movement, and mechanism of action in plants; behavior of herbicides in soil. Offered alternate years. PREREQS: BOT 331 and (CSS 440 or CSS 540 or CROP 440 or CROP 540)
CROP 670. PHYSIOLOGY OF CROP YIELD (3).
Concepts of crop growth and production in relation to environmental and physiological factors and their interactions; current literature. PREREQS: BOT 331 or equivalent.
CROP 699. SPECIAL TOPICS IN CROP SCIENCE AND SOIL SCIENCE (1-16). This course is repeatable for a maximum of 16 credits.

## ■ CROP AND SOIL SCIENCE COURSES

CSS 205. *SOIL SCIENCE (4). Introduction to the chemical, physical and biological nature of soils. Examines the functions of soil as a medium for plant growth, a recycling system for nutrients and wastes, a modifier of atmospheric chemistry, a habitat for soil organisms, a system for water purification, and an engineering medium. Field and laboratory projects provide an understanding of fundamental soil science principles and the impact of human activities on soil quality and sustainability. Lec/lab. (Bacc Core Course) Taught via Ecampus only.
CSS 305. PRINCIPLES OF SOIL SCIENCE (4). Origin, formation, classification, physical, chemical, and biological characteristics; ecosystem functions of soils; effects of soil management on agricultural and forest crop production. Field trips. Taught at EOU LaGrande campus only. PREREQS: Two quarters of college chemistry or equivalent. CSS 306 recitation is recommended.
CSS 306. PROBLEM SOLVING: SOIL SCIENCE APPLICATIONS (1). Problem solving for, and in-depth exploration of, Principles of Soil Science (CSS 305). Real-world problems requiring knowledge of soil physical, chemical, and biological properties. Taught at EOU LaGrande campus only. COREQS: CSS 305
CSS 315. ^NUTRIENT MANAGEMENT AND CYCLING (4). Nutrient forms, transformations, and plant availability as influenced by chemical and biological reactions in soils; soil pH and management of acid and alkaline soils; characteristics and use of fertilizers, soil
amendments and organic wastes. Labs include routine soil testing procedures, computer applications for soil fertility management, and field trips. Lec/lab. (Writing Intensive Course) Taught at EOU LaGrande campus only. PREREQS: CSS 305 [D-] and CH 122. Courses in computers are recommended.

CSS 320. PRINCIPLES OF OIL AND FIBER CROP PRODUCTION (1). An overview of production practices and characteristics of oil seed, essential oil, and fiber crops. Taught at EOU LaGrande campus only. PREREQS: CSS 300 or equivalent and CSS 305
CSS 321. PRINCIPLES OF CEREAL CROP
PRODUCTION (1). An overview of the principles underlying small grain production practices in the Pacific Northwest. Taught at EOU LaGrande campus only. PREREQS: CSS 300 or equivalent and CSS 305

## CSS 322. PRINCIPLES OF POTATO

PRODUCTION (1). Principles and practices governing all aspects of potato production, storage and use. Taught at EOU LaGrande campus only. PREREQS: CSS 300 or equivalent and CSS 305

## - PLANT BREEDING AND GENETICS COURSES

PBG 199. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 16 credits.
PBG 199H. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Honors College approval required.
PBG 299. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 16 credits. PBG 299H. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Honors College approval required.
PBG 399. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 16 credits.
PBG 401. RESEARCH (1-16). This course is repeatable for a maximum of 16 credits.
PBG 403. THESIS (1-16). Graded P/N. This course is repeatable for a maximum of 99 credits.
PBG 405. READING AND CONFERENCE (1-16). This course is repeatable for a maximum of 16 credits.
PBG 405H. READING AND CONFERENCE (1-16).
This course is repeatable for a maximum of 16 credits. PREREQS: Honors College approval required.

PBG 407. SEMINAR (1-16). This course is repeatable for a maximum of 16 credits.

PBG 409. TEACHING PRACTICUM (1-16). Graded P/N. This course is repeatable for a maximum of 16 credits.
PBG 410. INTERNSHIP (1-12). This course is repeatable for a maximum of 12 credits.
PBG 430. PLANT GENETICS (3). Introduction to the principles of plant genetics with an emphasis on the structure and function of economically important plant genomes. PREREQS: One year of biology and chemistry.
PBG 431. PLANT GENETICS RECITATION (1). Review and demonstration of plant genetics principles.
PBG 441. PLANT TISSUE CULTURE (4). Principles, methods, and applications of plant tissue culture. Laboratory is important part of course. Topics include callus culture, regeneration, somaclonal variation, micropropagation, anther culture, somatic hybridization, and transformation. Lec/lab. PREREQS: (BI 311 and BOT 331) or PBG 430 or CSS 430
PBG 450. PLANT BREEDING (4). An introduction to the genetic improvement of self-pollinated, cross-pollinated, and asexually propagated species and the genetic principles on which
breeding methods are based. Examples are drawn from a wide range of crops, including cereal grains, grasses, fruits, nuts, and vegetables; guest lecturers discuss their breeding programs. Additional topics include crop evaluation, germplasm preservation, disease resistance, and biotechnology. Lec/lab. PREREQS: BI 311 or PBG 430

PBG 499. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 16 credits.
PBG 499H. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Honors College approval required.
PBG 501. RESEARCH (1-16). Graded P/N. This course is repeatable for a maximum of 16 credits.
PBG 503. THESIS (1-16). Graded P/N. This course is repeatable for a maximum of 999 credits.
PBG 505. READING AND CONFERENCE (1-16). This course is repeatable for a maximum of 16 credits.
PBG 506. PROJECTS (1-16). This course is repeatable for a maximum of 16 credits.

PBG 507. SEMINAR (1-16). Graded P/N. This course is repeatable for a maximum of 16 credits.
PBG 508. WORKSHOP (1-16). This course is repeatable for a maximum of 16 credits.
PBG 509. PRACTICUM IN TEACHING (1-3). Developing skills and competence in teaching under staff supervision; organization and presentation of instructional materials by assisting in laboratory, recitation, and lectures. CROSSLISTED as ENT 509, CROP 509, SOIL 509. This course is repeatable for a maximum of 9 credits.
PBG 510. INTERNSHIP (4). This course is repeatable for a maximum of 12 credits.
PBG 513. PLANT GENETIC ENGINEERING (3). Principles, methods, and recent developments in the genetic engineering of higher plants. Offered alternate years. PREREQS: (BI 311 and BOT 331) or (CSS 430 or CSS 530) or (HORT 430 or HORT 530) or (PBG 430 or PBG 530)

PBG 519. CURRENT TOPICS IN PLANT BREEDING AND GENETICS (2). Provides an advanced understanding of plant breeding and genetics and their relationship to other disciplines through critical analysis of the scientific literature. Students practice synthesizing information and presenting findings to peers. Instructors, topics, and specific learning objectives vary from term to term. CROSSLISTED as HORT 519. This course is repeatable for a maximum of 12 credits.
PBG 530. PLANT GENETICS (3). Introduction to the principles of plant genetics with an emphasis on the structure and function of economically important plant genomes. PREREQS: One year of biology and chemistry.
PBG 541. PLANT TISSUE CULTURE (4). Principles, methods, and applications of plant tissue culture. Laboratory is important part of course. Topics include callus culture, regeneration, somaclonal variation, micropropagation, anther culture, somatic hybridization, and transformation. Lec/lab. CROSSLISTED as MCB 541. PREREQS: (BI 311 and BOT 331) or PBG 430
PBG 550. PLANT BREEDING (4). An introduction to the genetic improvement of self-pollinated, cross-pollinated, and asexually propagated species and the genetic principles on which breeding methods are based. Example are drawn from a wide range of crops, including cereal grains, grasses, fruits, nuts, and vegetables; guest lecturers discuss their breeding programs. Additional topics include crop evaluation, germplasm preservation, disease resistance, and biotechnology. Lec/lab. PREREQS: BI 311 or PBG 430 or PBG 530
PBG 551. BREEDING CLONAL CROPS (1). The overall goal of the course is to gain fundamental
knowledge of breeding methods for clonal crops these methods are different from those used for seed-propagated crops. Specific examples from a wide array of plant species (tree fruits, berries, tree nuts, potato, sweet potato, cassava, cacao) will be provided to illustrate application of the fundamental knowledge. PREREQS: PBG 450 [C] or PBG 550 [C] and the instructor will waive the enforced prerequisite requirement for students with comparable experience and a desire to learn more about plant breeding.
PBG 591. SELECTED TOPICS (1-16). This course is repeatable for a maximum of 16 credits.
PBG 598. PLANT CHROMOSOME BIOLOGY
(3). Exploration of the relationship between chromosome number, structure, and behavior to gene inheritance, organization, and expression. Discussion of chromosome manipulation strategies for genomics research, genetic analysis and plant breeding. PREREQS: 6 credits of genetics or equivalent.

PBG 599. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 16 credits.

PBG 601. RESEARCH (1-16). Graded P/N. This course is repeatable for a maximum of 16 credits.

PBG 603. DISSERTATION (1-16). Graded P/N. This course is repeatable for a maximum of 999 credits.
PBG 605. READING AND CONFERENCE (1-16). This course is repeatable for a maximum of 16 credits.
PBG 607. SEMINAR (1-16). This course is repeatable for a maximum of 16 credits.
PBG 609. PRACTICUM INTEACHING (1-3).
Developing skills and competence in teaching under staff supervision; organization and presentation of instructional material by assisting in laboratory, recitation, and lectures. Graded $\mathrm{P} / \mathrm{N}$. This course is repeatable for a maximum of 9 credits.
PBG 620. DNA FINGERPRINTING (1). Principles and methods for producing and analyzing DNA fingerprints. Offered even years. CROSSLISTED as MCB 620. PREREQS: BI 311 or CSS 430 or CSS 530 or PBG 430 or PBG 530 or HORT 430 or HORT 530 or equivalent.
PBG 621. GENETIC MAPPING (1). Principles and methods for constructing genetic maps comprised of molecular and other genetic markers. Offered even years. CROSSLISTED as MCB 621
PREREQS: BI 311 or CSS 430 or CSS 530 or PBG 430 or PBG 530 or HORT 430 or HORT 530 or equivalent.
PBG 622. MAPPING QUANTITATIVE TRAIT
LOCI (1). Principles and methods for mapping genes underlying phenotypically complex traits. Offered even years. CROSSLISTED as MCB 622. PREREQS: CROP 590 or CSS 590 or ST 513 or equivalent.
PBG 650. ADVANCED PLANT BREEDING AND QUANTITATIVE GENETICS (3). Pedigree, bulk, single-seed-descent, doubled haploid, backcross, testcross, mass, and half-sib, S~1~, and S~2~ family breeding methods; breeding hybrids and selecting sources of alleles for developing superior hybrids; the nature and consequences of genotype by environment interactions; markerassisted backcross and inbred line breeding; quantitative trait locus mapping; random linear models; designing and analyzing cultivar, line, and family selection experiments. Offered odd years. PREREQS: (CSS 430 or CSS 530 or PBG 430 or PBG 530 or HORT 430 or HORT 530) and (CSS 450 or CSS 550 or PBG 450 or PBG 550 or HORT 450 or HORT 550) and (ST 411 or ST 511) and (ST 412 or ST 512) and (ST 413 or ST 513)
PBG 691. SELECTED TOPICS (1-16). This course is repeatable for a maximum of 16 credits.
PBG 699. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 16 credits.

## SOIL SCIENCE COURSES

SOIL 101. INTRODUCTION TO HORTICULTURE, CROP, SOIL, AND INSECT SCIENCE (1).
Introduces students with interests in horticulture, crop, soil, and insect sciences to educational and professional opportunities in these disciplines. Speakers will discuss opportunities in research and academia as well as in the applied professional job market. Open to all students. CROSSLISTED as CROP 101, ENT 101, HORT 101.

SOIL 199. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 16 credits.
SOIL 199H. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Honors College approval required.
SOIL 205. SOIL SCIENCE (3). Introduction to the chemical, physical and biological nature of soils. Examines how soils function in terms of plant growth, nutrient supply, the global carbon cycle, ecological habitat, and water purification. Community-based learning projects provide hands-on experience with fundamental soil science principles and the impact of human activities on soil quality and sustainability. Lec. (Bacc Core Course if taken with SOIL 206 or FOR 206) PREREQS: SOIL 206* [D-] or FOR 206* [D-]

SOIL 206. *SOIL SCIENCE LABORATORY FOR SOIL 205 (1). Students will gain handson experience with soil science concepts and applications. Laboratory exercises and field trips will help students develop proficiency in the methods/tools for analyzing soil chemistry, biology, morphology, physical properties, and soil forming factors. Skills will be taught in the context of soils; social, economic, and environmental importance. (Bacc Core Course if taken with SOIL 205) COREQS: SOIL 205
SOIL 299. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 16 credits.
SOIL 299H. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Honors College approval required.
SOIL 316. NUTRIENT CYCLING IN
AGROECOSYSTEMS (4). Nutrient forms, transformations, and cycling. Diagnosis and correction of nutrient deficiencies, pH and salinity. Impact of nutrient management practices on crop production, soil health, nutrient use efficiency, and environmental quality. Organic and inorganic fertilization. Labs include soil sampling and testing procedures, data collection on soil and plants, computer applications for soil fertility management, and field trips. Lec/lab. PREREQS: CH 121 [D-] and (SOIL 205 [D-] or CSS 205 [D-] or CSS 305 [D-] )
SOIL 325. ^AG AND ENVIRONMENTAL PREDICAMENTS: A CASE STUDY APPROACH (3). Evaluation of controversial agricultural and environmental problems. Production of clear oral and written documents describing and analyzing problems and specific courses of action utilizing team-building skills. (Writing Intensive Course) CROSSLISTED as CROP 325. PREREQS: (CSS 305 [D-] or CSS 205 [D-] or SOIL 205 [D-] )
SOIL 366. ECOSYSTEMS OF WILDLAND SOILS (3). Focuses on soils that occur in relatively undisturbed ecosystems such as forests and rangelands. Topics covered include properties and processes specific to understanding and managing the soil resource in these areas. An overview of US Soil Taxonomy will also be given. PREREQS: (SOIL 205 [D-] or CSS 205 [D-] or CSS 305 [D-] ) and an understanding and appreciation of environmental chemistry, biology, ecology, and physics is needed for this course.
SOIL 388. SOIL SYSTEMS AND PLANT GROWTH (4). Introduces soils as providers of critical resources for plant growth. Explains how soils supply water, air, thermal energy and nutrients to plants. Shows that sustainable management of soil resources requires substantial
understanding of their role in the functioning of natural, forest, and agricultural systems. Explains controls on stocks and availabilities of individual soil resources and mechanisms making these resources plant-available. PREREQS: ((SOIL 205 [D-] and (SOIL 206 [D-] or FOR 206 [D-] )) or CSS 205 [D-] ) and (CH 121 [D-] or CH 231 [D-] ) and (BOT 220 [D-] or (BI 204 [D-] or BI 205 [D-] or BI 206 [D-] ) or (BI 211 [D-] or BI 212 [D-] or BI 213 [D-] ))
SOIL 395. *WORLD SOIL RESOURCES (3). The properties, global distribution, and agricultural productivity of major world soil groups are described. Potentials for human-accelerated soil degradation are introduced for each soil group, and reasons for conflicting assessments of degradation are discussed. (Bacc Core Course) Offered via Ecampus only. PREREQS: CH 121 [D-] and /or equivalent.

SOIL 399. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 16 credits.

SOIL 401. RESEARCH (1-16). This course is repeatable for a maximum of 16 credits.

SOIL 403. THESIS (1-16). Independent, original study and preparation of a senior thesis. This course is repeatable for a maximum of 16 credits. PREREQS: Senior standing.
SOIL 405. READING AND CONFERENCE (1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Junior standing.
SOIL 405H. READING AND CONFERENCE
(1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Junior standing and Honors College approval required.
SOIL 407. SEMINAR (1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Junior standing.
SOIL 408. WORKSHOP (1-16). Evaluation and judging of soils in Oregon and other states; directed studies of soil morphology, soil survey, soil fertility, soil physics, soil chemistry, soil biology, and soil information systems. This course is repeatable for a maximum of 16 credits.
SOIL 409. PRACTICUM (1-16). This course is repeatable for a maximum of 16 credits.
SOIL 410. INTERNSHIP (1-6). Professional work experience previously approved and supervised by the department, written report required. This course is repeatable for a maximum of 12 credits. PREREQS: Junior standing.
SOIL 435. ENVIRONMENTAL SOIL PHYSICS
(3). Covers principles of soil physical properties and processes as they relate to agricultural, hydrological and environmental problems. Lec/lab. Offered odd years. PREREQS: (CSS 205 [D-] or CSS 305 [D-] or SOIL 205 [D-] ) and CH 123 and MTH 241 and PH 201 or equivalent.

SOIL 445. ENVIRONMENTAL SOIL CHEMISTRY (3). Structural chemistry of clay minerals and organic matter, cation and anion exchange, and soil solution equilibria of soils. Ion exchange, mineral-solution equilibria, and adsorption reactions of silicate clays, oxides, and organic matter are emphasized. Covers the sorption behavior of environmental contaminants and the weathering reactions that govern the transport of reactive solutes through soils. Lec/rec. Offered odd years.

SOIL 455. BIOLOGY OF SOIL ECOSYSTEMS (4). A detailed study of the organisms that live in the soil and their activities in the soil ecosystems, soil as a habitat for organisms, taxonomy and biology of soil organisms, fundamentals of nutrient cycles, special topics in soil biology, review basis of soil microbial and ecological principles. Lec/ rec/lab. PREREQS: (CSS 305 or CSS 205 or SOIL 205). Courses in chemistry, physics, and microbiology are recommended.
SOIL 466. SOIL MORPHOLOGY AND
CLASSIFICATION (4). Observation and
description of soil properties in the field; writing soil profile descriptions; evaluating criteria that define features used to classify soils; using soil classification keys. Lec/lab. PREREQS: (SOIL 205 [D-] or CSS 205 [D-] or CSS 305 [D-] )

## SOIL 468. SOIL LANDSCAPE ANALYSIS

(4). Principles of soil geomorphology, soil stratigraphy, and surficial processes as applied to understanding the soil system and landscape scales. Emphasis on field observations of soils, geomorphic surfaces, and environment. Field project entails design of soil survey map units, field mapping and GIS cartographic techniques. Lec/lab. Offered even years. PREREQS: (SOIL 466* [D-] or CSS 466* [D-] )
SOIL 475. SOIL RESOURCE POTENTIALS (4). Course builds on knowledge from introductory pedology, soil chemistry, soil physics and soil biology to practice the evaluation of nutrient availability and soil moisture storage in the rooting space. Results from the application of pedotransfer functions to observations at the pit wall are translated into quantitative, numerical expressions of soil resource potentials. Lec/lab. PREREQS: (SOIL 435 [D-] and SOIL 455 [D-] and SOIL 466 [D-] )

SOIL 499. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Junior standing
SOIL 499H. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Junior standing and Honors College approval required
SOIL 501. RESEARCH AND SCHOLARSHIP (1-16). This course is repeatable for a maximum of 16 credits.

SOIL 503. THESIS/DISSERTATION (1-16). This course is repeatable for a maximum of 999 credits.

SOIL 505. READING AND CONFERENCE (1-16)
This course is repeatable for a maximum of 16 credits.
SOIL 506. PROJECTS (1-16). This course is repeatable for a maximum of 16 credits.
SOIL 507. SEMINAR (1-16). This course is repeatable for a maximum of 16 credits.
SOIL 508. WORKSHOP (1-16). Evaluation and judging of soils in Oregon and other states; directed studies of soil morphology, soil survey, soil fertility, soil physics, soil chemistry, soil biology, and soil information systems. This course is repeatable for a maximum of 16 credits.

SOIL 509. PRACTICUM IN TEACHING (1-3). Developing skills and competence in teaching under staff supervision; organization and presentation of instructional material by assisting in laboratory, recitation, and lectures. CROSSLISTED as ENT 509, CROP 509, PBG 509. This course is repeatable for a maximum of 9 credits.
SOIL 510. INTERNSHIP (1-6). Professional work experience previously approved and supervised by the department, written report required. This course is repeatable for a maximum of 6 credits.

SOIL 511. SOIL: A NATURAL AND SOCIETAL
RESOURCE (3). Serves degree- and non-degree-seeking graduate learners wanting soil science knowledge but having minimal science background. Understanding soil physical, chemical, and biological properties promotes informed soil management while supporting individual to global societal values. Established curriculum facilitates graduate degrees or certificates, continuing education, professional certification, and self-improvement goals. A highly interactive social media framework supports weekly student-student and instructor-student learning interactions. PREREQS: Graduate standing: a 4-year degree from any accredited university.

SOIL 513. PROPERTIES, PROCESSES, AND FUNCTIONS OF SOILS (4). Physical, chemical, biological, and landscape properties; processes of fluid retention and movement, weathering and cation exchange, decomposition and $\mathrm{C}-\mathrm{N}$ dynamics, erosion and sedimentation; functions of hydrologic regulation, nutrient cycling, environmental protection, ecological habitat. PREREQS: CH 223 or CH 233 or CH 233 H or equivalent
SOIL 515. SOIL FERTILITY MANAGEMENT
(3). Management of plant nutrients in agronomic systems; diagnosis of nutrient availability and prediction of crop response to fertilizers; interactions between nutrient response and chemical, physical and biological properties of soils. PREREQS: CSS 315 and courses in statistics, chemistry and plant physiology.
SOIL 523. PRINCIPLES OF STABLE ISOTOPES
(3). An introduction to the theory and use of stable isotopes. Applications of stable isotopes to soil science, plant physiology, hydrology, and ecosystem studies. Offered even years.
SOIL 525. MINERAL-ORGANIC MATTER INTERACTIONS (3). Studies the fundamental properties of the mineral-organic interface and the mechanisms of interaction between mineral and organic soil properties. PREREQS: CSS 305 or CSS 205 or SOIL 205 or equivalent.

SOIL 535. SOIL PHYSICS (3). Theoretical elements of soil physical properties and processes related to agricultural, hydrological and environmental problems. Offered fall term in even years. PREREQS: Recommended are CSS 305, CSS 205, SOIL 205, MTH 241, CH 123, PH 201 or equivalent.

## SOIL 536. VADOSE ZONE HYDROLOGY

LABORATORY (1). Experimental elements of soil physical properties and processes allowing practical experience in the measurement and analysis of soil physical processes related to agricultural, hydrological and environmental problems. Weekly laboratory. Offered even years. PREREQS: CH 123 and PH 201 or equivalent.
SOIL 545. ENVIRONMENTAL SOIL CHEMISTRY (3). Structural chemistry of clay minerals and organic matter, cation and anion exchange, and soil solution equilibria of soils. Ion exchange, mineral-solution equilibria, and adsorption reactions of silicate clays, oxides, and organic matter are emphasized. Covers the sorption behavior of environmental contaminants and the weathering reactions that govern the transport of reactive solutes through soils. Lec/rec. Offered odd years.
SOIL 547. NUTRIENT CYCLING (3). Reviews and discusses ecosystem-level biogeochemical concepts for terrestrial and freshwater ecosystems, primarily by reading and discussing classic and current literature to determine the state-of-knowledge and uncertainties associated with it. Topics include root nutrient uptake mechanisms, soil chemical and biochemical transformations in different soil and ecosystems, measuring soil solution and watershed fluxes, soil organic matter formation and structure, the meaning of sustainability, the concept of N saturation in terrestrial ecosystems, and the use of natural abundance and tracer isotopes in ecosystem biogeochemistry. While forest biogeochemical processes will be emphasized, desert, aquatic, wetland, and prairie ecosystems will also be explored. CROSSLISTED as BOT 547 PREREQS: College-level chemistry and biology and one class in ecology (BI 370 or equivalent) and/or soils (e.g., SOIL 205).
SOIL 555. BIOLOGY OF SOIL ECOSYSTEMS (4). A detailed study of the organisms that live in the soil and their activities in the soil ecosystems, soil as a habitat for organisms, taxonomy and biology of soil organisms, fundamentals of nutrient cycles, special topics in soil biology, review basis of soil microbial and ecological principles. Lec/ rec/lab. PREREQS: CSS 305 or CSS 205 or

SOIL 205. Courses in chemistry, physics, and microbiology are recommended.

SOIL 566. SOIL MORPHOLOGY AND
CLASSIFICATION (4). Observation and description of soil properties in the field; writing soil profile descriptions; evaluating criteria that define features used to classify soils; using soil classification keys. Lec/lab. PREREQS: CSS 305 or CSS 205 or SOIL 205

SOIL 568. SOIL LANDSCAPE ANALYSIS
(4). Principles of soil geomorphology, soil stratigraphy, and surficial processes as applied to understanding the soil system at landscape scales. Emphasis on field observations of soils, geomorphic surfaces, and environment. Field project entails design of soil survey map units, field mapping and GIS cartographic techniques. Lec/lab. Offered odd years. PREREQS: (CSS 566* [C] or SOIL 566* [C] )
SOIL 591. SELECTED TOPICS (1-16). Course content and title will change with each offering. This course is repeatable for a maximum of 16 credits.

SOIL 599. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 16 credits.

SOIL 601. RESEARCH (1-16). This course is repeatable for a maximum of 16 credits.
SOIL 603. THESIS/DISSERTATION (1-16). This course is repeatable for a maximum of 999 credits.
SOIL 605. READING AND CONFERENCE (1-16). This course is repeatable for a maximum of 16 credits.
SOIL 606. PROJECTS (1-16). This course is repeatable for a maximum of 16 credits.
SOIL 607. SEMINAR (1-16). This course is repeatable for a maximum of 16 credits.
SOIL 608. WORKSHOP (1-16). This course is repeatable for a maximum of 16 credits.
SOIL 609. PRACTICUM IN TEACHING (1-3).
Developing skills and competence in teaching under staff supervision; organization and presentation of instructional material by assisting in laboratory, recitation, and lectures. Graded $\mathrm{P} / \mathrm{N}$. This course is repeatable for a maximum of 9 credits.
SOIL 635. ADVANCED SOIL PHYSICS (3). Explores theoretical development of a key topic in soil physics. Topics may include evaporation from porous media, multiphase fluid movement, soil deformation, and soil salinization, with respect to either historical development, present day understanding or future needs of the field. Course structure incorporates lectures and discussion requiring intensive student participation. Offered odd years. PREREQS: (CSS 535 [C] or SOIL 535 [C] ) and a working knowledge of soil physics and a passing grade in a graduate-level soil physics course.

SOIL 645. SOIL MICROBIAL ECOLOGY (3). An advanced treatment of current topics in soil microbiology, with an emphasis on the ecology of soil microorganisms. Topics include the size, composition, diversity, and activity of soil microbial communities, linkage of microbial community structure to ecosystem functions, and applications of molecular biology to soil microbiology. Offered even years. PREREQS: Recommend SOIL 455 or CSS 455 or MB 448.
SOIL 684. GLOBAL BIOGEOCHEMICAL
CYCLES (4). An in-depth treatment of global biogeochemical cycles, focusing on cycles of carbon, oxygen, nitrogen, phosphorus, and sulfur in the atmosphere, hydrosphere, and lithosphere. CROSSLISTED as GEO 684. PREREQS: One year of college-level physics and chemistry, including introductory biology or equivalent. One year of graduate course work in soil, earth, ocean, atmospheric, or forest science or equivalent or consent of instructor

SOIL 691. SELECTED TOPICS (1-16). This course is repeatable for a maximum of 16 credits.

SOIL 699. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 16 credits.

## ■ SUSTAINABILITY COURSES

## SUS 102. *INTRODUCTION TO

ENVIRONMENTAL SCIENCE AND
SUSTAINABILITY (4). An introduction to the science behind critical environmental issues and the biological basis of creating and maintaining sustainable ecosystems. Focus on such questions as: how do we decide what to believe about environmental issues? How do we quantify, restore, and value biodiversity? What is valid science in the global warming debate? Lec/lab. (Bacc Core Course)
SUS 103. *INTRODUCTION TO CLIMATE
CHANGE (4). An introduction to the principles of climate change science with an emphasis on the empirical evidence for climate change. Students will learn critical thinking skills to assess such questions as: How do we determine the processes controlling global warming? How do we predict trends in climate change? How do we calculate and understand uncertainty in these predictions? What is valid science in the global warming debate? Lec/lab. (Bacc Core Course)
SUS 304. *SUSTAINABILITY ASSESSMENT (4). Explores theories and application of sustainability assessment techniques and analysis methods.
Practical application of globally recognized assessment protocol, including checklists, footprinting, life-cycle analysis and the indicators used to conduct these analyses. Emphasis on ecological and social indicators, although economic indicators are explored. (Bacc Core Course)

SUS 350. *SUSTAINABLE COMMUNITIES
(4). Introduction to the concept of sustainable communities from a multidisciplinary perspective. Instructors from a broad array of disciplines and professions. Development of holistic thinking skills and innovative solutions to complex problems. (Bacc Core Course)

SUS 401. RESEARCH (1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required.
SUS 410. INTERNSHIP (1-16). This course is repeatable for a maximum of 16 credits.
SUS 420. SOCIAL DIMENSIONS OF
SUSTAINABILITY (3). Focuses on the social aspects of sustainability, including how the environment, the economy, social life interact to create the world we live in. Explores how social institutions (school, government, business, family) contribute to sustainability and promote or discourage social and environmental justice at local and global scales. Offered at OSU-Cascades and via Ecampus.

SUS 499. SPECIAL TOPICS (3). This course is repeatable for a maximum of 15 credits.

SUS 512. TOPICS IN THE SCIENCE OF SUSTAINABILITY (4). Provides a graduatelevel introduction to key concepts and issues in environmental science and sustainability, targeted at business-oriented graduate and post-bacc students who do not have a science background. The course is a core requirement of the Sustainable Business certificate program offered jointly by the College of Business (COB) and the College of Agricultural Sciences» (CAS) Sustainability Double-Degree (SDD) Program.
SUS 514. SUSTAINABILITY PLANNING AND ASSESSMENT (4). Sustainability is fundamentally about balancing social, economic and ecological systems. This course examines a range of different methodologies for measuring and evaluating performance towards established sustainability criteria and indicators. Students will critically evaluate tools for making sustainable decisions and understand the limitations of
individual assessment approaches in different contexts. Specific assessment techniques to be explored include ecological footprinting, sustainable community indicators, greenhouse gas emissions inventories, sustainability checklists, environmental management systems (ISO standards), life-cycle analysis, and business sustainability reporting. Students will leave the course with the fundamental skills required to complete sustainability assessments via globally relevant approaches.
SUS 599. SPECIAL TOPICS (0-16). This course is repeatable for a maximum of 16 credits.

Entomology

## GRADUATE AREA OF CONCENTRATION

Graduate students pursuing an entomology area of concentration have the opportunity to study and conduct research within a number of graduate programs across the university in the Departments of Horticulture, Crop and Soil Science, Fisheries and Wildlife, and Forest Eco-
systems and Society. Graduate students obtain their degree within the academic department of their major professor.

Entomologists continue to be at the forefront of basic and applied research in molecular biology, ecology, evolutionary biology, biodiversity, and pest management. The modern fields of physiology, ecology and systematics have their origins in research originally undertaken with insects, and entomologists help lead these disciplines today. Given the unique importance of insects in biodiversity and ecosystem processes, their roles in crop production and public health, and their value as model organisms for the exploration of basic scientific questions, there is demand for graduates who have acquired entomological expertise.

The Entomology Program is a component of the Agricultural Experiment Station, which has many research facilities for students and staff, including farms, greenhouses, an aquatic insect laboratory, and a forest insect research laboratory. In addition to OSU faculty, state and federal entomologists stationed across the state are available for consultation in their fields of specialization. The Oregon State Arthropod Collection has nearly $3,000,000$ specimens of insects and mites and is a recognized center for research in insect systematics and biodiversity.

## ENTOMOLOGY MINOR

The Entomology minor is available to all OSU students. A minimum of 27 credits is required, at least 12 of which must be upper-division credits.
Select one course from the following:
ENT 311. Introduction to Insect Pest Management (4)
Z 365. Biology of Insects (4)
Select the remaining 23 credits from the following:
ENT 101. Introduction to Horticulture, Crop, Soil, and Insect Science (1)
ENT 300/HORT 330. *Plagues, Pests, and Politics (3)
ENT 311. Introduction to Insect Pest Management (4)
ENT 322. Honey Bee Biology and Beekeeping (3)
ENT 401. Research (1-6) ${ }^{\mathbf{1}}$
ENT 405. Reading and Conference (1-6)
ENT 407. Seminar (1)
ENT 410. Internship (1-6) ${ }^{\mathbf{1}}$
ENT 420. Insect Ecology (3)
ENT 440. Issues in Insect Toxicology (3)

## Ecampus only.

ENT 499. Special Topics (variable credits)
Z 365. Biology of Insects (4)
Z 440. Insect Physiology (3)
Z 477. Aquatic Entomology (4)
And entomology and life sciences courses approved in advance by the Entomology minor advisor.

## Total=27 minimum credits

Footnotes:
${ }^{1}$ A maximum of 6 credits can be counted toward the minor from ENT 401 and ENT 410.

## Minor Code: 472

ENTOMOLOGY (MA, MS, PhD)

## Graduate Areas of Concentration Entomology

The Entomology Graduate Program offers qualified candidates opportunities for graduate study and research leading to the Master of Arts, Master of Science, and Doctor of Philosophy degrees. In keeping with traditional areas of strength at the university, a number of major research programs in entomology deal with problems in agriculture, forestry, and environmental quality. Integrated pest management techniques are emphasized in the solution of many of these problems.

There are no specific course requirements for entomology graduate degrees. Each student will work with their major professor and/or graduate committee to establish a program of study.

For additional information on the Entomology Graduate Program, see the program website at http://entomology. oregonstate.edu/.

## Major Code: 5350

## ENTOMOLOGY GRADUATE

 MINORFor more details, see the departmental advisor.

## Minor Code: 5350

## - ENTOMOLOGY COURSES

ENT 101. INTRODUCTION TO HORTICULTURE, CROP, SOIL, AND INSECT SCIENCE (1). Introduces students with interests in horticulture, crop, soil, and insect sciences to educational and professional opportunities in these disciplines. Speakers will discuss opportunities in research and academia as well as in the applied professional job market. Open to all students. CROSSLISTED as CROP 101, HORT 101, SOIL 101.

ENT 300. *PLAGUES, PESTS, AND POLITICS (3). Integration and interaction of agricultural and public health aspects of entomology in society and history. CROSSLISTED as HORT 330. (Bacc Core Course)
ENT 311. INTRODUCTION TO INSECT PEST MANAGEMENT (4). Identification, biology and management of injurious and beneficial insects. Concurrent laboratory is designed to provide hands-on experience with identification of insect groups of relevance to agricultural cropping systems. Lec/lab. PREREQS: Entomology course work or one year college biology.
ENT 322. HONEY BEE BIOLOGY AND
BEEKEEPING (3). In this introduction to the fascinating honey bee and its biology, honey bees are used as model organisms to illustrate general principles of biology, entomology, and sociobiology. Students will learn the basics of beekeeping, have an opportunity to manipulate honey bee colonies, and gain hands-on experience, prevailing winter weather permitting.
ENT 331. *POLLINATORS IN PERIL (3).
Pollinators, human influences on pollination systems, and the potential consequences of pollinator decline. An introduction to the skills needed to investigate media reports and multidisciplinary scientific research. Effects of pesticides, habitat fragmentation, climate change, invasive species, pests, pathogens, and other threats to pollinators in critical
natural and agricultural systems around the world. CROSSLISTED as HORT 331. (Bacc Core Course) PREREQS: Completion of a Baccalaureate Core biological science course.
ENT 401. RESEARCH (1-16). Work on approved problems carried on in the library, laboratory or field. This course is repeatable for a maximum of 16 credits. PREREQS: Instructor approval required.

ENT 403. THESIS (1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Junior standing.
ENT 405. READING AND CONFERENCE (1-16). Reading and discussions on special topics. This course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required.
ENT 407. SEMINAR (1-2). Graded P/N. This course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required.

ENT 410. INTERNSHIP (1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Instructor approval required.
ENT 420. INSECT ECOLOGY (3). Insect ecology, evolution, and management. Biophysical ecology; foraging and feeding; life cycles; population dynamics, regulation, and control; species interactions including herbivore-plant, predatorprey, parasite-host, competition, and mutualism; diversity, food web structure, agricultural ecology, exercises merge models, experiments, and sampling. Offered on even years. PREREQS: BI 370 or equivalent

ENT 440. ISSUES IN INSECT TOXICOLOGY
(3). Introduction to concepts and mechanisms associated with molecular toxicology as it relates to insects, including interactions with naturally occurring and synthetic compounds. Overview of current research in insect toxicology including resistance to pesticides, protection of non-target species, and use of insects as model organisms. Discussion of laboratory and field approaches and potential strategies to address issues in insect toxicology. PREREQS: A background in basic chemistry and biology is recommended.
ENT 444. INSECT AGROECOLOGY (3).
Agroecology incorporates ecological concepts and principles to the design and management of sustainable agricultural systems. Topics include: the role of insects in sustainable agricultural systems; application of the principles of insect ecology to better manage insect pests and maximize crop yield; conserving beneficial insects and other natural resources in agroecosystems and the surrounding landscape. CROSSLISTED as HORT 444. PREREQS: General background or previous course work in entomology.
ENT 499. SPECIAL TOPICS (1-6). This course is repeatable for a maximum of 6 credits.

ENT 501. RESEARCH (1-16). Work on approved problems carried on in the library, laboratory or field. This course is repeatable for a maximum of 16 credits. PREREQS: Instructor approval required.
ENT 503. THESIS (1-16). This course is repeatable for a maximum of 999 credits.
ENT 505. READING AND CONFERENCE (1-16).
Reading and discussions on special topics. This course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required.
ENT 507. SEMINAR (1-2). Graded P/N. This course is repeatable for a maximum of 16 credits.
ENT 508. WORKSHOP (1-16). This course is repeatable for a maximum of 16 credits.
ENT 509. PRACTICUM IN TEACHING (13). Developing skills and competence in teaching under staff supervision; organization and presentation of instructional material by assisting in laboratory, recitation, and lectures. CROSSLISTED as CROP 509, PBG 509, SOIL 509. This course is repeatable for a maximum of

9 credits.
ENT 510. INTERNSHIP (1-16). This course is repeatable for a maximum of 16 credits.
ENT 518. CURRENT TOPICS IN ENTOMOLOGY
2). This is a core course of the Horticulture graduate program. Provides an advanced understanding of entomology and its relationship to other disciplines through critical analysis of the scientific literature. Students practice synthesizing information and presenting findings to peers. Instructors, topics, and specific learning objectives vary from term to term. CROSSLISTED as HORT 518 . This course is repeatable for a maximum of 12 credits.
ENT 520. INSECT ECOLOGY (3). Insect ecology, evolution, and management. Biophysical ecology; foraging and feeding; life cycles; population dynamics, regulation, and control; species interactions including herbivore-plant, predatorprey, parasite-host, competition, and mutualism; diversity, food web structure, agricultural ecology, exercises merge models, experiments, and sampling. Offered even years. PREREQS: BI 370 and Z 365 or equivalent
ENT 540. ISSUES IN INSECT TOXICOLOGY (3). Introduction to concepts and mechanisms associated with molecular toxicology as it relates to insects, including interactions with naturally occurring and synthetic compounds. Overview of current research in insect toxicology including resistance to pesticides, protection of non-target species, and use of insects as model organisms. Discussion of laboratory and field approaches and potential strategies to address issues in insect toxicology. PREREQS: A background in basic chemistry and biology is recommended.
ENT 542. PRINCIPLES OF INTEGRATED PEST MANAGEMENT: SYSTEMS DESIGN (4).
Principles of integrated pest management design focusing on the use of systems analysis as a means to integrate management tactics, environmental and biological monitoring, pest control models, and implementation elements into a cohesive whole. Introduction to integrated pest management on websites. Students will design a hypothetical crop-pest management system. Lec/ lab. PREREQS: ENT 311
ENT 544. INSECT AGROECOLOGY (3). Agroecology incorporates ecological concepts and principles to the design and management of sustainable agricultural systems. Topics include: the role of insects in sustainable agricultural systems; application of the principles of insect ecology to better manage insect pests and maximize crop yield; conserving beneficial insects and other natural resources in agroecosystems and the surrounding landscape. CROSSLISTED as HORT 544. PREREQS: General background or previous course work in entomology.
ENT 599. SPECIAL TOPICS (1-16). Important topics of current interest in the areas of systematics, insect physiology and toxicology, ecology and behavior, and pest management. Course content and title will change with each offering. This course is repeatable for a maximum of 16 credits.
ENT 601. RESEARCH (1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Instructor approval required.
ENT 603. THESIS (1-16). This course is repeatable for a maximum of 999 credits.
ENT 605. READING AND CONFERENCE (1-16).
This course is repeatable for a maximum of 16 credits. PREREQS: Instructor approval required.

ENT 607. SEMINAR (1-16). This course is repeatable for a maximum of 16 credits.

ENT 609. PRACTICUM IN TEACHING (1-3). Developing skills and competence in teaching under staff supervision; organization and presentation of instructional material by assisting in laboratory, recitation, and lectures. Graded $\mathrm{P} / \mathrm{N}$. This course is repeatable for a maximum of

9 credits.
ENT 699. SPECIAL TOPICS (1-16). Important topics of current interest in the areas of systematics, insect physiology and toxicology, ecology and behavior, and pest management. Course content and title will change with each offering. This course is repeatable for a maximum of 16 credits.

Mechanistic Toxicology
Molecular and Cellular Toxicology
Neurotoxicology

## Graduate Minor <br> Toxicology

The Department of Environmental and Molecular Toxicology offers courses leading to MS, and PhD degrees in toxicology.

Training in toxicology prepares students for careers in industry, government, and academic institutions. Biochemical, chemical, and molecular research approaches are emphasized, focusing on the following areas: analytical and exposure assessment, aquatic, biochemical, comparative, environmental, food, immuno- and neurotoxicology.

Research is promoted by the faculty's close ties to the National Institute of Environmental Health Sciences (NIEHS), which supports the Environmental

Health Sciences Center at OSU. The center contributes additional research and training opportunities for students. Opportunities in the area of neurotoxicology are provided by scientists of the Oregon Institute of Occupational Health Sciences (formerly CROET) at Oregon Health and Sciences University.

Financial support is available to most students in the program through graduate research assistantships or from an NIEHS environmental health predoctoral training program. Completing the application by the end of January assures full consideration for funding for fall of that year.
Students who wish to enter the program should have a BS degree (or equivalent) in a science related field and are expected to select an MS or PhD curriculum related to their own area of specialization. Students will take a core set of courses and will attend and participate in the toxicology seminar class. Courses in toxicology also may be taken by students in engineering or the basic sciences.

## PhD PRELIMINARY EXAM GUIDELINES

## Objective

The overall objective of the preliminary examination for advancement to PhD candidacy should assess whether a graduate student has the capacity and promise to:

1. understand the basic science of environmental and molecular toxicology;
2. be a creative and critical thinker;
3. understand the scientific literature;
4. conduct original and independent research; and
5. communicate the ideas and results of experiments.
Thus, the ideal examination format would select from these characteristics and prepare the student for the selective pressures that will be encountered upon completing the Environmental and Molecular Toxicology PhD degree program. In order to maintain high standards and produce quality graduate students, the examination must be rigorous and challenging. In addition, the exam format should set specific limits on the amount of time that the student dedicates to this process.

## Exam Format

The preliminary examination format outlined below consists of both oral and written elements. This examination must be completed no later than the end of the eighth academic term (not including summer terms) after entering the program. In most cases, the student would schedule the exam in the fall term of the third year of residence although students may take the exam earlier, after completing at least one year in the program. The
examination consists of a written and oral presentation of a research proposal that cannot be closely related to the student's thesis project. As outlined, the student's ability to develop, research, and defend original scientific ideas would be evaluated. The student is expected to demonstrate a capacity for critical thinking and a command of the specific field of focus. In addition, the student's general knowledge of environmental and molecular toxicology would be evaluated.

## PROCEDURAL OUTLINE

Research Proposal (written/oral)

1. Student submits outline descriptions (required elements listed below) of two potential research projects. The subject of each project must be chosen by the student based on their knowledge and review of the literature, and must describe original, hypothesis-driven research. The proposed projects cannot have been defined previously in published or unpublished form (i.e., manuscript, abstract, database of funded projects, submitted grant application, etc.), or cannot be known to be in progress. Proposed research also must not be closely related to the thesis research of the student. "Closely related" is defined as any research that conceivably could be part of the student's thesis or that conceivably might be initiated by the student's major professor.

## Project outlines (limited to

 one page each) must include: 1. Description of an unresolved question relevant to the field of environmental and molecular toxicology. (1-3 sentences)2. Statement of specific hypothesis to be tested. (1-2 sentences)
3. Description of an experimental approach designed to test the hypothesis, including a minimum of two specific aims, and a statement of the rationale (justification) for the proposed approach. (2-6 sentences)
4. Statement of the significance of the proposed research. (1-2 sentences)
5. The student's graduate committee reviews both outlines and approves one topic to be developed into a written proposal. The research topic is chosen based on originality, quality, potential significance, and the likelihood of expanding the student's education and training. Approval of the topic would occur within one week after the outlines are submitted. During this period, the outlines would be returned to the student, and the student would receive feedback from the committee
concerning the quality and design of the outlined projects. Major strengths and weaknesses in the experimental design or rationale would be identified.
6. The student develops a written research proposal using the format and topic guidelines of application for the EPA, NIH, NSF, or other appropriate granting agency. The written proposal must be completed and returned to the committee within four weeks after the topic was approved. The scope of the project will be equivalent to that of a "pilot project" proposal and if conducted would be expected to take approximately one year of research time. The proposal is limited in length to 10 pages of double-spaced text ( 12 point font with 0.5 -inch margins), and must include the following elements:
7. Specific Aims. State concisely and realistically what the research described in this application is intended to accomplish and what hypothesis is to be tested. Do not exceed one page.
8. Background and Significance. Briefly describe the background to the present proposal, critically evaluating the existing literature and specifically identifying gaps, which the project is intended to fill. State concisely the importance of the research described in this application, and relate the specific aims to the long-term objectives. Limited to two pages.
9. Research Design and Methods. Discuss in detail the experimental design and procedures to be used to accomplish the specific aims of the project. Describe the protocols to be used and the tentative sequence of investigation. Include the means by which the data will be analyzed and interpreted. Discuss the potential difficulties and limitations of the proposed research and alternative approaches to achieve the aims. Point out any procedures, situations, or materials that may be hazardous to personnel and the precautions to be exercised. Limited to seven pages.
10. Literature Cited. Do not scatter literature citations throughout the text. List them at the end of the proposal. All papers cited in the text must be listed in the reference list and vice versa. The list of literature citations at the end of the
proposal does not count toward the 10-page limit.
11. Appendix. Students may include additional figures in an appendix, limited to five pages. The appendix may not be used to circumvent the page limits of the proposal.
12. The oral exam should be scheduled within two weeks of completion of the written proposal. This deadline can be extended with the approval of the student's graduate committee.
13. During the exam, the student would present the research plan and defend the experimental approach. The presentation would involve a seminar format with slides/overheads and would be expected to last no longer than 30 minutes. Following the presentation, the student would be judged on the soundness of the hypothesis, their understanding of the subject matter, their ability to defend the proposed experimental design, and their general knowledge of the field of environmental and molecular toxicology. The exam is expected to last approximately two hours and is limited in length to three hours.

## Examination Committee

The examination committee is the graduate student's doctoral committee. The doctoral committee consists of a minimum of five members of the graduate faculty, including at least two members of the major department and a representative of the Graduate Council. If a minor is declared, the committee must include a member from the minor department. All committee members must be on the graduate faculty with appropriate authorization to serve on the student's committee. The major professor would serve as the chairperson of the committee to oversee the exam. The decision concerning whether the student merits advancement to PhD candidacy would be the responsibility of the examination committee.

## Evaluation

The basic question for the committee is whether or not they believe the student is adequately prepared to conduct doctoral level research and has a good chance of successfully completing such research. Following a discussion of the student's performance on the examination, each committee member is then asked to vote on the basic question. It is appropriate for secret ballots to be used, and secret ballots must be used if requested by any committee member.

If there is one negative vote on this question, the student will pass. If there are two or more negative votes on this question, the student will not pass.

If the committee decision is that the
student has not passed the examination, the committee must then decide whether or not to allow the student to take a re-examination. If the majority of the committee votes in favor of a re-examination, the recommendation for re-examination should be recorded. In addition, the committee must set a time interval that must elapse before the re-examination is permitted. If the majority of the committee votes against a re-examination, the recommendation to terminate the student's work toward this degree should be recorded.

## TOXICOLOGY MINOR

The Toxicology minor provides basic and applied science majors sufficient background for technical work in toxicology.

## Required

BB 450. General Biochemistry (4)
or BB 490. Biochemistry 1: Structure and Function (3)
CH 334. Organic Chemistry (3)
ST 351. Introduction to Statistical Methods (4)

TOX 411. Fundamentals of Toxicology (3)
Select five courses from the following or two courses plus undergraduate research:
BB 314. Cell and Molecular Biology (4)
TOX 401. Research (9)
TOX 413. Environmental Toxicology and Risk Assessment (3)
TOX 429. Toxic Substances in Food (3)
TOX 430. Chemical Behavior in the Environment (3)
TOX 455. Ecotoxicology: Aquatic Ecosystems (3)
TOX 490. Environmental Forensic Chemistry (3)

## Total=28

## TOXICOLOGY (MS, PhD)

Graduate Areas of Concentration Environmental chemistry and ecotoxicology, mechanistic toxicology, molecular and cellular toxicology, neurotoxicology
The Department of Environmental and Molecular Toxicology provides students with a fundamental knowledge of toxicology that prepares them for responsible positions in research and development, academia, government, professional services, or research foundations.

The graduate faculty includes scientists with a special interest in the application of chemistry, biochemistry, molecular biology, pharmacology, pathology, neuroscience, immunology and ecology to problems in toxicology. The concentration in neurotoxicology is an interinstitutional alliance with Oregon Health and Science University (OHSU). Students will be affiliated with and advised by associated faculty.

For the MS, and PhD degrees, students are required to take a core curriculum
plus elective courses connected with their particular area of specialization. In addition to completing appropriate course work, students will undertake a thesis research project related to some aspect of toxicology. Participation in the seminar program (a one-hour per week seminar) is mandatory.
Minimal prerequisites for admission include one year each of biology, organic chemistry, physics, and statistics. Students who do not meet all of these requirements may be admitted if their academic record is otherwise outstanding.

## Minor Code: 9930

## ■ TOXICOLOGY COURSES

TOX 360. *THE WORLD OF POISONS (3).
Provides a basic understanding of how we are exposed and respond to chemicals, examples of human diseases associated with toxic insult, the role of technology and the interface of society and toxicology in risk perception and legislation. (Bacc Core Course) PREREQS: One 3-credit course in chemistry or one 3-credit course in biology.

TOX 401. RESEARCH (1-16). This course is repeatable for a maximum of 16 credits.

TOX 405. READING AND CONFERENCE (1-16).
This course is repeatable for a maximum of 16 credits.

TOX 411. FUNDAMENTALS OF TOXICOLOGY
(3). Introduction to the discipline of toxicology.

Examination of the basic concepts that define how chemicals are absorbed, distributed, metabolized, and eliminated by the body. Overview of associated dose/response relations. PREREQS: (BB 350* [D-] or BB 450* [D-] or BB 490* [D-] )
TOX 413. ENVIRONMENTAL TOXICOLOGY AND RISK ASSESSMENT (3). Procedures for defining exposure and the use of toxicological data in defining risk assessment. Recent application of mechanistic concepts are reviewed. PREREQS: TOX 411 [D-]

TOX 429. TOXIC SUBSTANCES IN FOOD (3) Toxicology and epidemiology of human exposures to pesticides and food toxicants. PREREQS: (BB 350* [D-] or BB 450* [D-] or BB 490* [D-] )
TOX 430. CHEMICAL BEHAVIOR IN THE ENVIRONMENT (3). Applications of chemical concepts in the definition and solution of pollution problems; analytical considerations, thermodynamic factors influencing movement of chemicals, physical and metabolic transformations occurring in the environment. PREREQS: (CH 123 [D-] or CH 331 [D-] ) and senior standing
TOX 435. *GENES AND CHEMICALS IN AGRICULTURE: VALUE AND RISK (3). A multidisciplinary course that examines the scientific, social, political, economic, environmental, and ethical controversies surrounding agricultural and natural resource biotechnologies. Lec/rec. CROSSLISTED as BI 435/BI 535, BI 435H, FES 435/FES 535, MCB 535. (Bacc Core Course) PREREQS: One quarter each of biology and chemistry helpful but not essential.
TOX 435H. *GENES AND CHEMICALS IN AGRICULTURE: VALUE AND RISK (3). A multidisciplinary course that examines the scientific, social, political, economic, environmental, and ethical controversies surrounding agricultural and natural resource biotechnologies. Lec/rec. CROSSLISTED as B

435H, FS 435H. (Bacc Core Course) PREREQS: One quarter each of biology and chemistry helpful but not essential. Honors College approval required.
TOX 455. ECOTOXICOLOGY: AQUATIC
ECOSYSTEMS (3). Focuses on transport, fate, and effects of toxic substances in freshwater ecosystems. There is special emphasis on impacts on fish. PREREQS: CH 331 [D-]

TOX 490. ENVIRONMENTAL FORENSIC CHEMISTRY (3). Principles of Good Laboratory Practice Standards, methodology, utility and imitations of chemical forensic methods as applied to real investigations. PREREQS: One year of college chemistry and one term of organic chemistry.

TOX 499. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 16 credits.

TOX 501. RESEARCH (1-16). This course is repeatable for a maximum of 16 credits.

TOX 503. THESIS (1-16). This course is repeatable for a maximum of 999 credits

TOX 505. READING AND CONFERENCE (1-16).
This course is repeatable for a maximum of 16 credits.
TOX 507. SEMINAR (1-16). This course is repeatable for a maximum of 16 credits.
TOX 511. FUNDAMENTALS OF TOXICOLOGY
(3). Introduction to the discipline of toxicology. Examination of the basic concepts that define how chemicals are absorbed, distributed, metabolized, and eliminated by the body. Overview of associated dose/response relations. PREREQS: (BB 550* [C] or BB 590* [C] )
TOX 512. TARGET ORGAN TOXICOLOGY (3).
Examination of toxicological effects of chemicals at organ level. Normal physiology of the organ system is received. PREREQS: TOX 511 [C]

TOX 513. ENVIRONMENTAL TOXICOLOGY AND RISK ASSESSMENT (3). Procedures for defining exposure and the use of toxicological data in defining risk assessment. Recent application of mechanistic concepts are reviewed. PREREQS: TOX 511 [C]
TOX 529. TOXIC SUBSTANCES IN FOOD (3)
Toxicology and epidemiology of human exposures to pesticides and food toxicants. PREREQS: BB $350^{*}$ or BB 450* or BB 490*
TOX 530. CHEMICAL BEHAVIOR IN THE ENVIRONMENT (3). Applications of chemical concepts in the definition and solution of pollution problems; analytical considerations, thermodynamic factors influencing movement of chemicals, physical and metabolic transformations occurring in the environment. PREREQS: CH 106 and CH 331 and graduate standing.
TOX 535. GENES AND CHEMICALS IN AGRICULTURE: VALUE AND RISK (3). A multidisciplinary course that examines the scientific, social, political, economic, environmental, and ethical controversies surrounding agricultural and natural resource biotechnologies. Lec/rec. CROSSLISTED as BI 435/BI 535, BI 435H, FES 435/FES 535, MCB 535. PREREQS: One quarter each of biology and chemistry helpful but not essential.
TOX 554. GENOME ORGANIZATION, STRUCTURE, AND MAINTENANCE (4). How diverse organisms store their individual sets of genetic information (genomes). Evolution of genomes and gene families. Structures of DNA and chromosomes. Biochemical and regulatory pathways that protect cellular genomes agains environmental and endogenous damage and ensure transmission of faithful copies to progeny. Remodeling of genomes by recombination and transposition. CROSSLISTED as MCB 554. PREREQS: BI 311 (genetics or equivalent) and (BB 450 and BB 451 and BB 452) or (BB 490 and BB 491 and BB 492) or equivalent.

TOX 555. ECOTOXICOLOGY: AQUATIC
ECOSYSTEMS (3). Focuses on transport, fate, and effects of toxic substances in freshwater ecosystems. There is special emphasis on impacts on fish. PREREQS: CH 331

## TOX 575. ADVANCED XENOBIOTIC

 METABOLISM AND DISPOSITION (2). Course will focus on structure, function and regulation of specific proteins that function in uptake, distribution, metabolism, and excretion of drugs and other chemicals that are foreign to the body (xenobiotics). The course will focus on proteins which are termed Phase I and Phase II xenobiotic metabolizing enzymes and xenobiotic transporters. There will be an emphasis on Cytochrome P450 enzymes and hepatic and renal xenobiotic transporter proteins and their key roles in xenobiotic metabolism and excretion PREREQS: Graduate or professional pharmacy student standing, TOX 512, or consent of instructor.TOX 590. ENVIRONMENTAL FORENSIC CHEMISTRY (3). Principles of Good Laboratory Practice Standards, methodology, utility and limitations of chemical forensic methods as applied to real investigations. PREREQS: One year of college chemistry and one term of organic chemistry.
TOX 599. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 16 credits.

TOX 601. RESEARCH (1-16). This course is repeatable for a maximum of 16 credits.
TOX 603. THESIS (1-16). This course is repeatable for a maximum of 999 credits.
TOX 605. READING AND CONFERENCE (1-16).
This course is repeatable for a maximum of 16 credits.

TOX 607. SEMINAR (1-16). This course is repeatable for a maximum of 16 credits.

TOX 611. TESTING FOR GENOTOXICITY (4) A lab-based course geared toward toxicology, biochemistry, biology, food science, nutrition, pharmacy and MCB students. Introduces principles and methods of several key assays used to screen for DNA damage and mutation. These tests will include the following: (i) Salmonella mutagenicity assay ('Ames test'), (ii) single cell gel electrophoresis ('comet') assay, (iii) micronucleus assay, and (iv) PCR-based single strand conformation polymorphism (SSCP) screening for oncogene/tumor suppressor gene mutation in cancers. This 2 -week, intensive lab/ lecture class runs Mon-Fri in the LPSC during the first session of summer term. Each day includes laboratory work and a 2-hour lecture covering basic principles of the assays, as well as technical details of the experiment for the day. PREREQS: TOX 514 [C] and BB 400 series, prior course work on DNA repair and mutagenesis, and/or instructor approval.

TOX 699. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 16 credits.

TOX 808. WORKSHOP (1-16). This course is repeatable for a maximum of 16 credits.

## FISHERIES AND WILDLIFE

## Selina Heppell, Head

104 Nash Hall
Oregon State University
Corvallis, OR 97331-3803
541-737-4531
Email: selina.heppell@oregonstate.edu
Website: http://fw.oregonstate.edu/

## FACULTY

Professors Baker, Banks, Bartholomew, Brandt, Edge, Se. Heppell, Kauffman, Kennedy, Herlihy, Hughes, Langdon, Mate, Noakes, Robinson, Sampson

## Associate Professors Burris,

B. Dugger, DeBano, Epps, Ford, Friedlaender, Garcia, Giannico, Hagen, Sc. Heppell, Horning, Miller, Sanchez, Sidlauskas, Suryan, Wooster
Assistant Professors Armstrong, Arismendi, Biedenweg, Ellsworth, Gladics, Hutchinson, Klink, Levi, Lyons, O'Malley, Palacios, Torres, Warren
Senior Instructors Duplaix,

## Hanschumaker

Instructors Albertson, Allen, Arbuckle, Campbell, Diebel, S. Dunham, Goggans, Kelly, Konstantinidis, Moore, Painter, Paoletti, Reese, Shinderman, Snyder

## COURTESY FACULTY

Professors Haig, Lackey, Power, Roby, Schreck
Associate Professors K. Dugger, Kaufmann, Landers, Peterson, Rosenberg, Stein, Thompson
Assistant Professors Antolos, Brodeur, Burnett, Camarra, Chapman, Chan, Davison, Dumbauld, J. Dunham, Eagle-Smith, Ebersole, Fitzpatrick, Forsman, Gervais, Haig, Hurst, Jackson, Johnson, Jorden, Landys, McIntosh, Reeves, Rogers, Ryer, Schumaker, Sellinger, Tomas Nash, Van Sickle

## ADJUNCT FACULTY

Professors Kent (Microbiology),
McComb (Graduate School), Smith (Anthropology), Sylvia (Applied Economics), Rempel (OSU Library)
Associate Professor Betts (Forest
Ecosystems and Society)
Assistant Professor, Sr. Research:
Rivers (Forest Ecosystems and Society)

## Departmental Faculty Page:

## Undergraduate Major

Fisheries and Wildlife Sciences (BS, CRED, HBS)
(See specializations section below.)

## Minor

Fisheries and Wildlife Sciences

## Graduate Majors

Fisheries and Wildlife Administration (PSM)
Fisheries Science (MAIS, MS, PhD)
Graduate Areas of Concentration
Aquaculture
Conservation Biology
Fish Genetics
Ichthyology
Limnology
Parasites and Diseases
Physiology and Ecology of Marine and Freshwater Fishes
Stream Ecology
Toxicology
Water Pollution Biology
Wildlife Science (MAIS, MS, PhD)
Graduate Areas of Concentration
Animal-Habitat Relationships
Behavior
Biology of Big Game and Small Mammals
Conservation Biology
Community Studies
Ecology of Avian and Mammalian Predators
Ecology of Waterfowl and Upland Gamebirds
Effects of Parasites, Diseases, and Environmental Contaminants
Nutrition
Population
Population Dynamics
Reproductive Biology
Toxicology of Pesticides
Wildlife Ecology
Wildlife-Forestry Interactions
Wildlife Science

## Graduate Minors

Fisheries Science
Wildlife Science

## Graduate Certificate <br> Fisheries Management <br> Wildlife Management

Fisheries and wildlife prepares students for professional careers in fisheries and wildlife as research scientists, biologists, managers, educators, and administrators. Oregon State University is strategically located for the study of fisheries and wildlife, surrounded by diverse ecosystems including the Pacific Ocean and coastal estuaries, many small and large rivers, lowland valleys, mountains and the high desert. Courses include traditional classroom experiences and laboratories, often enriched by field trips to nearby state fish hatcheries, national forests and wildlife refuges. We also offer experiential learning opportunities at the Hatfield Marine Science Center on the coast in Newport. In addition to our full-time faculty, FW students benefit from courses and mentoring provided by scientists with the Oregon Cooperative

Fish and Wildlife Research Unit, Oregon Department of Fish and Wildlife, and several federal research centers.
The undergraduate curriculum is designed to develop a solid background in biology and ecology for our students as the basis for careers in resource science, conservation and management. However, FW is not simply a biological discipline. Professionals must weigh social considerations when formulating conservation and management strategies and policies. Consequently, biological, social, economic, and political science courses are integrated into the curriculum. The undergraduate curriculum is composed of core courses and a specialization. The core represents the educational foundation for fish and wildlife conservation while the specialization provides each student with an opportunity to build a curriculum to meet specific goals. Our capstone courses emphasize critical thinking in natural resource science and management, as well as science communication and outreach. Students planning to transfer to FW should focus on courses in general biology, general chemistry, physical science, and mathematics during their freshman and sophomore years.

## TRANSFER STUDENTS

Because of the technical and professional nature of the college's curricula, the college reserves the right to determine whether courses taken at another institution satisfy the college's curricular requirements. In general, equivalent col-lege-level courses successfully completed at an accredited college or university are accepted. OSU students requesting a transfer to the College of Agricultural Sciences' Department of Fisheries and Wildlife must be a student in good academic standing at the university. Please contact the departmental head advisor at 541-737-1941 for additional information.

## GRADUATE PROGRAM

Graduate programs leading to the PSM, MS, or PhD (and participation in the MAIS degree program) permit intensive study in special areas of interest under the guidance of nationally known scientists. Advanced study in fisheries science may be pursued in stream ecology, aquaculture, population dynamics in response to exploitation, ecology of marine and freshwater fishes, taxonomy and systematics, genetics, toxicology, and parasites and diseases of fish. Advanced study in wildlife science can involve almost any invertebrate or vertebrate species, biotic community or habitat. Research emphasis may be placed on population dynamics and utilization, life history and ecology, conservation biology, habitats, nutrition, physiology, behavior, and organization of animal communities. Op-
portunities exist for work in terrestrial, marine and aquatic systems.

## FISHERIES AND WILDLIFE SCIENCES (BS, HBS)

## Also available via Ecampus.

The undergraduate curriculum for the Fisheries and Wildlife Sciences BS degree ( 180 credits) is composed of core courses as well as specializations of 24 credits. The core represents the educational foundation of fish and wildlife conservation, and the specializations provide students with an opportunity to build their curriculum to meet specific goals. Working with faculty in formal and informal settings, students are encouraged to become engaged in designing their own education. The core courses required of all students seeking the BS degree are listed below.

For further information, see the Fisheries and Wildlife website at http:// fw.oregonstate.edu/.

## Specializations

Through the specialization, undergraduate students are encouraged to become engaged in designing their own education. Students work with faculty in formal and informal settings to define career and life goals and then develop a course of study to achieve those goals. Specialization plans should be developed during the junior year and will be presented to the faculty for review and comment. Specializations must contain at least 24 credits and must be upper division with four lower-division credits allowed. No courses included may be taken for a satisfactory/unsatisfactory $(\mathrm{S} / \mathrm{U})$ grade. A maximum of two courses may be completed prior to approval of the specialization. Additional upper-division credits taken prior to approval of the specialization may be allowed through petition to advisor. Double counting (when credit is given twice for a course) is not permitted between the specialization and other university or departmental course work except in the following circumstances:
The writing intensive courses (WIC) may double count with the OSU Baccalaureate Core requirements;

Students completing their first BS degree may apply 12 credits from the minor towards the specialization (requires approval by advisor in minor department and FW advisor);

Postbaccalaureate students who are completing their second degree may use a maximum of 12 credits from their first degree towards their specialization (approved by FW advisor).
Specializations are given titles to reflect their content, but titles must not substantially duplicate titles of existing degree programs. Examples of specializations include forest wildlife management,
stream ecology, fish and wildlife law enforcement, marine fisheries, aquaculture, avian conservation and management, conservation education and extension, fisheries business, human dimensions of resource management, conservation biology, and many others. Specializations may include typical on-campus courses, special field courses (when college credit is earned), a full term of course work at the Hatfield Marine Science Center in Newport, Oregon, or one or more terms of international exchange. A maximum of 12 credits in any combination of FW 401 Research and FW 410 International Internship can be used towards the specialization. Combined with required internships and a capstone course, fisheries and wildlife sciences graduates will be well-prepared to begin professional careers in fish and wildlife conservation, or to continue their education in graduate school. For those students unsure of their professional goals or seeking diversity in course work, a broad specialization may be declared.

Specialization guidelines may be viewed at http://fw.oregonstate.edu/ department-fisheries-and-wildlife/ undergraduate/curricula-course-offerings.

## Internships

One of the best avenues to a permanent job in fisheries and wildlife is through a strong internship and temporary employment or volunteer positions. Students are required to complete a minimum of two internships or other approved alternative experiences (one of each type) for their degree. There are two types of internships: exploratory (1-2 credits) and intensive (3-6 credits). Students are encouraged to start gaining professional experience by volunteering or interning with a natural resource agency as early as possible, and no later than their junior year. This requirement is listed as FW 410, Internship (2 required) (4-6), under the Fisheries and Wildlife Core below.

## Baccalaureate Core

## Skills Courses (16 credits)

Fitness
HHS 231 *Lifetime Fitness for Health (2)
HHS 241 *Lifetime Fitness (1)
or approved Physical Activity Course (PAC)

## Mathematics

Met with Fisheries and Wildlife Core.

## Speech

Met with Fisheries and Wildlife Communications.

## Writing I

Met with Fisheries and Wildlife
Communications.

## Writing II

Met with Fisheries and Wildlife Communications.

## Perspective Courses (24 credits)

No more than two courses (or lecture/lab
combinations) from any one department may be used by a student to satisfy the Perspectives category of the core. Please reference the baccalaureate core catalog for further clarification: http://catalog. oregonstate.edu/bcc.aspx.

## Biological Science (Lecture/Lab)

Met with Fisheries and Wildlife Core
Cultural Diversity (CD)
Please reference the baccalaureate core course catalog for a list of approved courses: http://catalog.oregonstate.edu/ bcc.aspx.

## Literature and the Arts (LA)

Please reference the baccalaureate core course catalog for a list of approved courses: http://catalog.oregonstate.edu/ bcc.aspx.

## Physical Science (Lecture/Lab or Lab)

Met with Fisheries and Wildlife Physical and Earth Sciences section

## Social Processes and Institutions

 (SPI)Please reference the baccalaureate core course catalog for a list of approved courses: http://catalog.oregonstate.edu/ bcc.aspx.

## Western Culture (WC)

Please reference the baccalaureate core course catalog for a list of approved courses: http://catalog.oregonstate.edu/ bcc.aspx.
Difference, Power, and

## Discrimination Courses (DPD) (3

 credits)Met with Fisheries and Wildlife Human Dimensions section

## Synthesis Courses (6 credits)

The two courses used to fulfill the Synthesis requirement may not be in the same department.

## Contemporary Global Issues (CGI)

Please reference Baccalaureate Core course catalog for approved courses: http://catalog.oregonstate.edu/bcc.aspx

## Science, Technology, and Society

(STS)
Please reference Baccalaureate Core course catalog for approved courses:

## Writing Intensive Course (WIC) (3-4

 credits)Select one course from below:
FW 435. ^Wildlife in Agricultural
Ecosystems (3)
FW/FES 439. ^Human Dimensions of
Fisheries and Wildlife Management (3)
FW 454. ^Fishery Biology (4)
FW 497. ^Aquaculture (3)

## Communications (9 credits)

COMM 111. *Public Speaking (3)
or COMM 114. *Argument and Critical
Discourse (3)
or COMM 211. *Communicating Online (3)
WR 121. *English Composition (3)

WR 222. *English Composition (3) or HC 199. *Honors Writing-Science (3) or WR 327. *Technical Writing (3)
or WR 362. *Science Writing (3)
Fisheries and Wildlife Core (69-71

## credits)

BI 211, BI 212, BI 213. *Principles of Biology $(4,4,4)$
or BI 204, BI 205, BI 206. *Introductory
Biology I, II, III $(4,4,4)$
BI 370. Ecology (3)
CH 121. General Chemistry (5) and CH 122, CH 123. *General Chemistry $(5,5)$ or CH 231, CH 232, CH 233. *General Chemistry $(4,4,4)$ and CH 261 , CH 262 , CH 263. *Laboratory for Chemistry 231, 232, 233 (1,1,1)
FW 107. Orientation to Fisheries and Wildlife (1)
FW 209. Career Skills in Fisheries and Wildlife Sciences (1)
FW 251. Principles of Fish and Wildlife Conservation (3)
FW 255. Field Sampling of Fish and Wildlife (3)

FW 289. Communication Skills for Fisheries and Wildlife Professionals (4)
FW 307. Specialization Development (1)
FW 320. Introductory Population Dynamics (4)

FW 321. Applied Community and Ecosystem Ecology (3)
FW 410. Internship (2 required) (4-6)
FW 488. Problem Solving in Fisheries and Wildlife Science (3)
MTH 241. *Calculus for Management and Social Science (4)
or MTH 245. *Mathematics for
Management, Life, and Social Sciences (4)
or MTH 251. *Differential Calculus (4)
ST 351, ST 352. Introduction to Statistical Methods $(4,4)$

## Vertebrate Biology (7-11 credits)

Select one of the following (3-4 credits):
BI/FW 302. Biology and Conservation of Marine Mammals (4)
FW 311. Ornithology (3)
FW 315. Ichthyology (3)
FW 317. Mammalogy (3)
FW 331. Ecology of Marine and Estuarine Birds (4)
Z 473. Herpetology (3)
Select one of the following (2-3 credits):
FW 312. Systematics of Birds (2)
FW 316. Systematics of Fishes (3)
FW 318. Systematics of Mammals (2)
Z 474. Systematic Herpetology (2)
Select one additional course from the preceding two lists (2-4 credits)

## Advanced Core (18-26 credits)

Choose one course from each of the following categories, and one additional course from any category. ${ }^{\wedge}$ WIC courses may double count.

## Genetics and Evolution, select one

from below (3-5 credits):
ANS 378. Animal Genetics (4)
BI 311. Genetics (4)
BI 345. *Introduction to Evolution (3)
FW 370. Conservation Genetics (4)

PBG 430. Plant Genetics (3)
Behavior and Physiology, select one

## from below (3-4 credits):

ANS 311. Principles of Animal Nutrition (3)
ANS 314. Animal Physiology (4)
FW 469. Methods in Physiology and
Behavior of Marine Megafauna (3)
FW 471. Environmental Physiology of Fishes (4)
FW 474. Early Life History of Fishes (4)
FW 475. Wildlife Behavior (4)
FW 476. Fish Physiology (4)
Z 350. Animal Behavior (3)
Z 423. Environmental Physiology (3)
Z 431. Vertebrate Physiology I (3)
Z 432. Vertebrate Physiology II (3)
Habitats and Ecosystems, select one
from below (3-5 credits):
BI 351. Marine Ecology (3)
FES 341. Forest Ecology (3)
FES 342. Forest Types of the Northwest (3)
FES 440. Wildlife Fire Ecology (3)
FW 345. *Global Change Biology (CGI) (3)
(Pending Approval)
FW 426. Coastal Ecology and Resource Management (5)
FW/OC 434. Estuarine Ecology (4)
FW 435. ${ }^{\wedge}$ Wildlife in Agricultural
Ecosystems (3)
FW/FES 445. Ecological Restoration (4)
FW/FES 452. Biodiversity Conservation in
Managed Forests (3)
FW 456. Limnology (5)
FW 462. Ecosystem Services (3)
FW 467. Antarctic Science and
Conservation (4)
FW 479. Wetlands and Riparian Ecology (3)
RNG 341. Rangeland Ecology and
Management (3)
Species Conservation and
Management, select one from below
(3-4 credits):
FW 419. The Natural History of Whales and Whaling (3)
FW 427. Principles of Wildlife Diseases (4)
FW 451. Avian Conservation and
Management (3)
FW 454. ${ }^{\wedge}$ Fishery Biology (4)
FW 458. Mammal Conservation and
Management (4)
FW/BI 464. Marine Conservation Biology (3)
FW 465. Marine Fisheries (4)
FW 473. Fish Ecology (4)
FW 481. Wildlife Ecology (3)
FW/MB 491. Fish Diseases in Conservation Biology and Aquaculture (3)
Botany, select one from below (3-4 credits):
BOT 313. Plant Structure (4)
BOT 321. Plant Systematics (4)
BOT 323. ${ }^{\wedge}$ Flowering Plants of the World (3)

BOT 331. Plant Physiology (4)
BOT 341. Plant Ecology (4)
BOT 416. Aquatic Botany (4)
BOT 440. Field Methods in Plant Ecology (4)
BOT 442. Plant Population Ecology (3)
BOT 488. Environmental Physiology of Plants (3)
RNG 353. Wildland Plant Identification (4)

## Physical and Earth Sciences (9-14 credits):

Choose three courses from the two categories below. No more than two courses may be selected from one category. (CGI) and (STS) courses can double count with baccalaureate core. (CGI) and (STS) courses cannot be from the same department.
Physics, Math, and Chemistry
Select no more than two from below,
cannot double count with FW Core:
CH 130. General Chemistry of Living Systems (4)
CH 331. Organic Chemistry (4)
CH 332. Organic Chemistry (4)
CH 390. Environmental Chemistry (3)
MTH 241. *Calculus for Management and
Social Science (4)
MTH 251. *Differential Calculus (4)
MTH 252. Integral Calculus (4)
OC 450. Chemical Oceanography (3)
PH 201. *General Physics (5)
PH 202. *General Physics (5)
PH 205. *Solar System Astronomy (4)
PH 206. *Stars and Stellar Evolution (4)
PH 207. *Galaxies, Quasars, and Cosmology (4)

PH 211. *General Physics with Calculus (4)
PH 212. *General Physics with Calculus (4)
PH 331. *Sound, Hearing, and Music (STS) (3)

PH 332. *Light, Vision, and Color (STS) (3)

## Earth Sciences

Select no more than two from below:
ATS 201. *Climate Science (4)
GEO 201. *Physical Geology (4)
GEO 202. *Earth Systems Science (4)
GEO 203. *Evolution of Planet Earth (4)
GEO 221. *Environmental Geology (4)
GEO 305. *Living with Active Cascade Volcanoes (STS) (3)
GEO 306. *Minerals, Energy, Water, and the Environment (STS) (3)
GEO 307. *National Park Geology and Preservation (STS) (3)
GEO 308. *Global Change and Earth
Sciences (CGI) (3)
OC 201. *Oceanography (4)
OC 332. Coastal Oceanography (3)
SOIL 205. *Soil Science (3) and SOIL 206
*Soil Science Laboratory for SOIL 205 (1)
Corvallis campus only.
or CSS 205. *Soil Science (4) Ecampus only.
or CSS 305. Principles of Soil Science (4)
EOU campus only.
Human Dimensions (9-11 credits)
Select one course from each of the lists
below. (CGI), (STS), (WC), (SPI), and
(DPD) courses can double count as baccalaureate core. (CGI) and (STS) courses cannot be from the same department.

## Difference, Power and

Discrimination-select one:
AG 301. *Ecosystem Science of Pacific NW
Indians (DPD) (3)
FW 340. *Multicultural Perspectives in
Natural Resources (DPD) (3)
GEO 309. *Environmental Justice (DPD) (3)

## Environmental Law, Policy and

## Economics-select one:

AEC 250. *Introduction to Environmental

Economics and Policy (SPI) (3)
AEC 253. *Environmental Law, Policy, and Economics (WC) (4)
AEC 351. *Natural Resource Economics and Policy (CGI) (3)
AEC/ECON 352. *Environmental
Economics and Policy (CGI) (3)
AEC 432. Environmental Law (4)
FOR 462. Natural Resource Law and Policy (3)

FW 350. *Endangered Species, Society and Sustainability (STS) (3)
FW 415. Fisheries and Wildlife Law and Policy (3)
FW 422. Introduction to Ocean Law (3)
PS 475. Environmental Politics and Policy (4)
PS 477. International Environmental Politics and Policy (4)
Other-select one:
ANTH 477. Ecological Anthropology (4)
ANTH 481. *Natural Resources and Community Values (STS) (3)
BOT 322. Economic and Ethnobotany: Role of Plants in Human Culture (3)
FES 354. Communities, Natural Areas, and Sustainable Tourism (3)

## Major Code: 733

FISHERIES AND WILDLIFE SCIENCES MINOR

## Also available via Ecampus.

A sequence in general biology equivalent to BI 211, BI 212, BI 213, *Principles of Biology $(4,4,4)$ or BI 204, BI 205, BI 206, ${ }^{*}$ Introductory Biology $(4,4,4)$ is a prerequisite to the Fisheries and Wildlife Sciences minor.

A minimum of 27 credits is required with a combination of the following courses. Double counting restrictions, when applicable, are listed for each section. Double counting towards baccalaureate core is permitted.

## Required:

Double counting is allowed in this section.
BI 370. Ecology (3)
FW 251. Principles of Fish and Wildlife Conservation (3)
Select a minimum of three courses 7-10 credits from the following: One course may not be double counted.
FW/BI 302. Biology and Conservation of Marine Mammals (4)
FW 311. Ornithology (3)
FW 312. Systematics of Birds (2)
FW 315. Ichthyology (3)
FW 316. Systematics of Fishes (3)
FW 317. Mammalogy (3)
FW 318. Systematics of Mammals (2)
FW 331. Ecology of Marine and Estuarine Birds (4)
Z 473. Herpetology (3)
Z 474. Systematic Herpetology (2)
Select a minimum of 11-14 credits

## from the following:

None of these courses may be double counted.
FW 301. Field Techniques for Marine Mammal Conservation (1)
FW 303. Survey of Geographic Information Systems in Natural Resources (3)
FW 320. Introductory Population Dynamics (4)

FW 321. Applied Community and Ecosystem Ecology (3)
FW 323. Management Principles of Pacific Salmon in the Northwest (3)
FW 325. *Global Crises in Resource Ecology (3)

FW 326. Integrated Watershed Management (3)

FW 340. *Multicultural Perspectives in Natural Resources (3)
FW 350. *Endangered Species, Society and Sustainability (3)
FW 356. *Citizen Science (3)
FW 360. *Origins of F\&W Management-
Evolution, Genetics, and Ecology (3)

Email: bruce.dugger@oregonstate.edu
Website: http://
fw.oregonstate.edu/content/
psm-fisheries-wildlife-administration
The Professional Science Master's degree in Fisheries and Wildlife Administration (PSMFWA) provides advanced training for early- and mid-career professionals employed by natural resources agencies, non-government organizations, and other entities with a need for expertise in fisheries and wildlife science. Applicants must have at least 5 years of experience working in a natural resource field.

The PSMFWA degree will help employers meet workforce planning goals and contribute to self-improvement goals of current employees.

It is taught primarily as a distance, online curriculum via Ecampus, although some students may choose to work toward the PSMFWA degree while in residence at OSU or at the Hatfield Marine Science Center.

The PSMFWA degree is offered as a non-thesis program only. Students have an advisor and graduate committee to review their program of study, provide career and internship advice, and evaluate a final report based on the internship experience.

For general information about the FW PSM program, email fw.gradadvising@ oregonstate.edu or contact the Associate Department Head of Academic Programs, Bruce Dugger, at 541-737-2465.

The 45 -credit PSMFWA curriculum is organized into five main sections:

1. Biophysical sciences core ( 20 credits)
2. Social sciences core ( 12 credits)
3. Business communication and management skills core (6 credits)
4. Ethics (1 credit)
5. Internship (6 credits)

Course substitutions must be approved by the program coordinator.

Most of our courses are offered through Ecampus, but some may be offered through Corvallis, Cascades or Hatfield Marine Science Center. Please check course offerings through the online catalog and schedule of classes or consult with the program advisor.

## Biophysical Sciences Core Courses

 (20 credits minimum):
## Including at least 1 Quantitative <br> \section*{Skills Course}

Fisheries and Wildlife-Related Science
BOT 540. Field Methods in Plant Ecology (4)
FES/MCB/TOX 535. Genes and Chemicals
in Agriculture: Value and Risk (3)
FES 536. Carbon Sequestration in Forests (2)
FES 548. Biology of Invasive Plants (3)
FW 519. The Natural History of Whales and Whaling (3)
FW 521. Aquatic Biological Invasions (4)
FW 526. Coastal Ecology and Resource
Management (5) can count as FW Core -
or- Human Dimensions
FW 527. Principles of Wildlife Diseases (4)
FW 535. Wildlife in Agricultural Ecosystems (3)

FW/FES 545. Ecological Restoration (4)
FW 551. Avian Conservation and
Management (3)
FW/FES 552. Forest Wildlife Habitat
Management (4)
FW 554. Fishery Biology (4)
FW 556. Limnology (5)
FW 558. Mammal Conservation and Management (4)
FW 562. Ecosystem Services (3)
FW 563. Conservation Biology of Wildlife (3)

FW/BI 564. Marine Conservation Biology (3)
FW 565. Marine Fisheries (4)
FW/HSTS 570. Ecology and History:
Landscapes of the Columbia Basin (3)
FW 573. Fish Ecology and Conservation(4)
FW 575. Wildlife Behavior (4)
FW 576. Fish Physiology (4)
FW 579. Wetlands and Riparian Ecology (3)
FW 580. Stream Ecology (3)
FW 581. Wildlife Ecology (3)
FW 597. Aquaculture (3)
FW 599. Special Topics in Fisheries and Wildlife (2-4)
MNR 530. Tropical Forest Ecology and
Management: A Global Perspective (3)
NSE 588. Radioecology (3)
SNR 530. Ecological Principles of
Sustainable Natural Resources (3)
SNR 540. Global Environmental Change (3)
Quantitative Skills in FW Science (1 course
minimum)
BEE 511. Global Environmental Change:
Using Data to Inform Decisions (3)
CH 584. Instruments and Online
Interactions in the Sciences (3)
CH 590 Computer Programming for Scientists (3)
FES/MNR 522. Research Methods in Social Science (4)
FW 524. Introduction to Fisheries Assessment (3)
FW 531. Dynamics of Marine Biological Resources (4)
FW 538. Structured Decision Making in
Natural Resource Management Lab (2) FW 540. Vertebrate Population Dynamics (4) GEO 544. Remote Sensing (4)
or GEOG 580. Remote Sensing I:
Principles and Applications (4)
GEO 565. Geographic Information Systems and Science (4)
or GEOG 560. GIScience I: Introduction
to Geographic Information Science (4)
MCB/VMB 671. Molecular Tools (3)
ST 511. Methods of Data Analysis (4)
(Continues as ST 512, ST 513)

## Social Sciences Core Courses (12

credits minimum)

## Required (5 credits):

FW 537. Structured Decision Making in
Natural Resource Management (2)
FW 620. Ecological Policy (3)
or FW 515. Fisheries and Wildlife Law and Policy (3)
Plus 7 additional credits, with at least one course from each group:

## Policy Courses

AEC 532. Environmental Law (4)
FES/HORT 555. Urban Forest Planning,
Policy and Management (4)
FW 522. Introduction to Ocean Law (3)
GEO 523/GEOG 550. Land Use in the American West (3)
PS 555. The Politics of Climate Change (4)
PS 575. Environmental Politics and Policy (4)
PS 576. Science and Politics (4)
PS 577. International Environmental Politics and Policy (4)
WRP 523. Environmental Water Transactions (3)
Human Dimensions Courses
AEC 534. Environmental and Resource

Economics (3)
AEC 544 Commodity Futures and Options
Markets (4)
AEC/MRM 552. Marine Economics (3)
FES/MCB/TOX 535. Genes and Chemicals
in Agriculture: Value and Risk (3)
FES 554. Managing at the Wildland-Urban
Interface (3)
FES/ANS/FW/SOC 585. Consensus and
Natural Resources (3)
FW 526. Coastal Ecology and Resource Management (5) can count as FW Core -or- Human Dimensions
FW 549. History of Fisheries Science (3)
FW 583. Species Recovery Planning and Restoration (3)
GEO 524/GEOG 541. International Water Resources Management (3)
GEO 525/GEOG 540. Water Resources
Management in the United States (3)
PHL 543. World Views and Environmental Values (3)
SNR 511. Sustainable Natural Resource Development (1)
SNR 520. Social Aspects of Sustainable Natural Resources (3)
SNR 521. Economics of Sustainable Natural Resource Management (3)
SNR 535. Sustainable Management of
Aquatic and Riparian Resources (3)
SNR 540. Global Environmental Change (3)
SOC 580. Environmental Sociology (4)
SOC 581. Society and Natural Resources (4)
WGSS 540. Women and Natural Resources (3)

## Business, Communication, and Management Skills Core Courses (6 credits minimum)

AG 521. Leadership Development (3)
AHE 534. Organizations and Systems
Theory (4)
COMM 550. Communication and the
Practice of Science (3)
FES 593. Environmental Interpretation (4)
FW 514. Professional Development:
Meeting Communications (1)
PS 579. Topics in Public Policy and Public
Administration (4)
WR 525. Advanced Scientific and Technical Writing (4)
WRP 521. Water Conflict Management and Transformation (3)

## Ethics (1 credit minimum)

GRAD 520. Responsible Conduct of Research (1)
PHL 540. Environmental Ethics (3)
PHL 547. Research Ethics (3)
SNR 522. Basic Beliefs and Ethics in Natural Resources (3)

## Internship (6 credits minimum)

FW 510 Professional Internship (1-16) or FW 506. Projects (1-6)

## Total Credits=45 minimum

All courses on these lists are available online. Students taking on-campus or hybrid courses may find logical substitutions that can be approved by the program director.
Major Code: 1331

## FISHERIES SCIENCE (MS, PhD, MAIS)

Graduate Areas of Concentration
Aquaculture, conservation biology, fish genetics, ichthyology, limnology, parasites and diseases, physiology and ecology of marine and freshwater fishes, stream ecology, toxicology, water pollution biology
The Department of Fisheries and Wildlife offers graduate work leading to the Master of Science and Doctor of Philosophy degrees (and participation in the MAIS degree program) with majors in fisheries science.

Fisheries research in graduate studies involves quantitative analyses of marine and freshwater fish populations, water quality, fish systematics, fish and invertebrate physiology, stream ecology, modeling of aquatic ecosystems, land use interactions, endangered species, conservation biology, and aquaculture.

The Oregon Cooperative Fish and Wildlife Research Unit has active research programs funded in part by the Oregon Department of Fish and Wildlife and U.S. Geological Survey. The Agricultural Experiment Station, the Sea Grant program, Forest Science Laboratory and other organizations fund major research projects. The department maintains extensive collections of vertebrate species, which are curated by Doctors Sidlauskas (fish), Epps (mammals), and Dugger (birds).
For more information, visit
http://fw.oregonstate.edu, or email:
fw.gradadvising@oregonstate.edu.

## Major Code: 1300

## WILDLIFE SCIENCE (MS, PhD, MAIS)

## Graduate Areas of Concentration

Animal-habitat relationships; behavior; biology of big game and small mammals; conservation biology; community studies; ecology of avian and mammalian predators; ecology of waterfowl and upland gamebirds; effects of parasites, diseases, and environmental contaminants; nutrition; population; population dynamics; reproductive biology; toxicology of pesticides; wildlife ecology; wildlife-forestry interactions; wildlife science
The Department of Fisheries and Wildlife offers graduate work leading to the Master of Science and Doctor of Philosophy degrees (and participation in the MAIS degree program) with majors in wildlife science.

The wildlife graduate program in the Department of Fisheries and Wildlife includes wildlife research concerning the interaction of wildlife with land uses, migratory waterfowl, upland game birds, forest bird communities, endangered species, population dynamics, and conservation biology.

The Oregon Cooperative Fish and Wildlife Research Unit has active research
programs funded in part by the Oregon Department of Fish and Wildlife and U.S. Geological Survey. The Agricultural Experiment Station, the Sea Grant program, Forest Science Laboratory and other organizations fund major research projects. The department maintains extensive collections of vertebrate species, which are curated by Doctors Sidlauskas (fish), Epps (mammals), and Dugger (birds).

## CERTIFICATES

## FISHERIES MANAGEMENT

 GRADUATE CERTIFICATE
## Also available via Ecampus.

Fisheries management is facing unprecedented challenges. Scientists, decision makers, and stakeholders must work together to rebuild over-fished stocks, implement ecosystem-based approaches, design global fisheries agreements, sustain coastal fishing communities, reduce over-capacity and increase the cost-effectiveness of research and management.

Oregon State University's Graduate Certificate in Fisheries Management integrates diverse approaches and perspectives to find effective solutions for complex fisheries management problems at all levels, local to international.

## Certificate Overview:

The graduate certificate is available for completion online or on-campus and is designed to accommodate the needs of private, agency and NGO professionals, decision-makers and graduate students in the U.S. and other nations.

Current Graduate Students: You must notify the Department of Fisheries and Wildlife of your intention to pursue this certificate. Upon consultation with the certificate program directors, you will be given instructions regarding listing courses on your program of study and obtaining the required signature for that form.

For more information, please see our program site on the Ecampus website at http://ecampus.oregonstate.edu/online-
degrees/graduate/fisheries-management/ and our departmental website at http:// fw.oregonstate.edu or contact the program coordinator at fw.gradadvising@ oregonstate.edu.
Professionals and other students: You must notify the Department of Fisheries and Wildlife of your intention to pursue this certificate.

Please contact Certificate Program Director Dr. Bruce Dugger, bruce.dugger@ oregonstate.edu, or Graduate Program Coordinator fw.gradadvising@oregonstate.edu.

## The certificate requires:

- 18 credits of total course work, taken online and/or on-campus,
- A capstone project (applying knowledge and skills to a fisheries management issue), equivalent in time and effort to a 3-credit course;
- A minimum of two courses from the human dimensions area;
- A minimum of two courses from the fisheries science and ecology area;
- For further information, please see our website or email: fw.gradadvising@oregonstate.edu.
Courses are offered on-campus, at the Hatfield Marine Science Center, and/ or online. Check the course catalog and schedule of classes for location and term offered.

## Capstone project

FW 506. Projects (3 credits)

## Human Dimensions Subject Area

 Select at least 2 courses for a minimum 6 credits from below:AEC 534. Environmental and Resource Economics (3)
AEC/MRM 552. Marine Economics (3)
ANTH 581. Natural Resources and
Community Values (4)
COMM 540. Theories of Conflict and
Conflict Management (3)
COMM 542. Bargaining and Negotiation Processes (3)
COMM 544. Third Parties in Dispute
Resolution: Mediation/Arbitration (3)
COMM 546. Communication in
International Conflict and Disputes (3)
FES/FW/SOC 585. Consensus and Natural Resources (3)
FW 514. Professional Development: Meeting Communications (1)
FW 515. Fisheries and Wildlife Law and Policy (3)
FW 522. Introduction to Ocean Law (3)
FW 537. Structured Decision Making in
Natural Resource Management (2)
FW 549. History of Fisheries Science (3)

## Ecampus only.

FW 620. Ecological Policy (3)
MRM 521. Ocean Law (3)
MRM 530. Principles and Practice of Marine Resource Management (3)
MRM 535. Rights-Based Fisheries
Management (3)
PS 575. Environmental Politics and Policy (4)
PS 576. Science and Politics (4)
PS 577. International Environmental

Politics and Policy (4)
SOC 580. Environmental Sociology (4)
SOC 581. Society and Natural Resources (4) Fisheries Science and Ecology Subject Area:

## Select at least 2 courses for a

minimum 6 credits from below:
FE 530. Watershed Processes (4)
FW 519. The Natural History of Whales and Whaling (3)
FW 520. Ecology and Management of Marine Fishes (3)
FW 521. Aquatic Biological Invasions (4)
FW 524. Introduction to Fisheries
Assessment (3)
FW 531. Dynamics of Marine Biological Resources (4)
FW 538. Structured Decision Making in Natural Resource Management Lab (2) Ecampus only.
FW/FES 545. Ecological Restoration (4)
FW 554. Fishery Biology (4)
FW 556. Limnology (5)
FW 562. Ecosystem Services (3)
FW/BI 564. Marine Conservation Biology (3)
FW 565. Marine Fisheries (4)
FW 571. Environmental Physiology of Fishes (4)
FW 573. Fish Ecology and Conservation (4)
FW 574/OC 574. Early Life History of Fishes (4)

FW 576. Fish Physiology (4)
FW 579. Wetlands and Riparian Ecology (3)
FW 580. Stream Ecology (3)
FW 597. Aquaculture (3)
FW 599. Special Topics in Fisheries and Wildlife (2 or 4)
FW 620. Ecological Policy (3)
OEAS 540. The Biogeochemical Earth (4)
TOX 555. Ecotoxicology: Aquatic Ecosystems (3)

## Total=18 credits

Other courses may be substituted upon approval of the certificate director.
Major Code: CG08

## WILDLIFE MANAGEMENT GRADUATE CERTIFICATE

## Also available via Ecampus.

All courses listed are offered online through Ecampus, and this graduate certificate is designed primarily for online students.

Please contact Certificate Program Director Dr. Bruce Dugger, bruce.dugger@ oregonstate.edu, or Graduate Program Coordinator fw.gradadvising@oregonstate.edu.

## Curriculum

FW 506. Projects: Capstone Project (3)

## Wildlife Sciences Core

## Select at least two courses from

## below:

FW 519. The Natural History of Whales and Whaling (3)
FW 521. Aquatic Biological Invasions (4)
FW 527. Principles of Wildlife Diseases (4)
FW 535. Wildlife in Agricultural Ecosystems (3)

FW 538. Structured Decision Making in
Natural Resource Management Lab (2)

FW 540. Vertebrate Population Dynamics
(4) Ecampus only.

FW/FES 545. Ecological Restoration (4)
FW 551. Avian Conservation and Management (3)
FW/FES 552. Forest Wildlife Habitat Management (4)
FW 558. Mammal Conservation and Management (4)
FW 562. Ecosystem Services (3) counts as FW core OR Human Dimensions
FW 563. Conservation Biology of Wildlife (3)

FW 575. Wildlife Behavior (4)
FW 579. Wetlands and Riparian Ecology (3)
FW 581. Wildlife Ecology (3)
SNR 530. Ecological Principles of Sustainable Natural Resources (3) Ecampus only.
SNR 540. Global Environmental Change (3) Ecampus only.

## Human Dimensions Core

Select at least two courses from below:
AEC 532. Environmental Law (4)
AEC 534. Environmental and Resource Economics (3)

(Continues as ST 512, ST 513)

## Major Code: CG12

## ■ FISHIERES AND WILDLIFE COURSES

FW 107. ORIENTATION TO FISHERIES AND WILDLIFE (1). Information relevant to academic pathways and career planning in the fields of fisheries and wildlife. Graded P/N.
FW 112. SCIENCE OF FLY FISHING TROUT (1).
Uses fly fishing as a window into the larger world of science, art, and conservation, and more specifically into the structure and function of freshwater ecosystems. This class requires students to be concurrently registered for The Literature of Fly Fishing for Trout through English (ENG 225), and the Art of Fly Fishing through Physical Activity Courses (PAC 331). COREQS: ENG 225, PAC 331
FW 113. INTRODUCTION TO MARINE LIFE IN THE SEA-MARINE BIRDS AND MAMMALS (1). Introduces first- and second-year undergraduates, teachers and non-degree students to the breadth of marine science course offerings and research at Oregon State University's Hatfield Marine Science Center located in Newport, Oregon. Using an experiential based format, students collect field data to better understand marine mammals (whales, dolphins and porpoises), seabirds, and their interactions with their environment. Lec/lab. Graded P/N.
FW 199. SPECIAL STUDIES (1-16). Graded P/N. This course is repeatable for a maximum of 16 credits.
FW 199H. SPECIAL STUDIES (1-16). Graded $\mathrm{P} / \mathrm{N}$. This course is repeatable for a maximum of 16 credits. PREREQS: Honors College approval required.
FW 209. CAREER SKILLS IN FISHERIES AND
WILDLIFE SCIENCES (1). A foundation for lifelong career development in fisheries and wildlife sciences. Practice the skills needed to search, apply, and attain internships and jobs. Graded P/N. PREREQS: FW 107 [P]
FW 251. PRINCIPLES OF FISH AND WILDLIFE CONSERVATION (3). History of conservation and natural resource use; ecological principles, and social and economic limitations of conservation; principles and practices of wildlife and fisheries management; role of research in management. PREREQS: Recommend one course in introductory biology.
FW 255. FIELD SAMPLING OF FISH AND
WILDLIFE (3). Introduction to sampling populations and communities of vertebrate animals emphasizing sampling design, collection and management of data, and communication of results. PREREQS: WR 121 and familiarity with personal computers.
FW 289. COMMUNICATION SKILLS FOR
FISHERIES AND WILDLIFE PROFESSIONALS
(4). Introduces students to the theoretical and practical dimensions of interpersonal and public communication in a natural resource management field. Lec/rec. PREREQS: FW 251

## FW 301. FIELD TECHNIQUES FOR MARINE

MAMMAL CONSERVATION (1). A laboratory and hands-on experience covering field techniques, computer software for data organization and analyses, and understanding the practical management conservation application for students who are taking or have taken FW/BI 302, Biology and Conservation of Marine Mammals. Taught summer term at HMSC, Newport, OR. PREREQS: BI 302* [D-] or FW 302* [D-]
FW 302. BIOLOGY AND CONSERVATION OF MARINE MAMMALS (4). An examination of the biology of whales, pinnipeds, and other marine mammals, including general adaptations to a marine existence; systematics and biogeography; reproduction; diving physiology; communication and echolocation; feeding and migratory behavior; and marine mammal/human interactions; including conservation issues. CROSSLISTED as BI 302. Taught at Hatfield Marine Science Center OR
online through Ecampus. PREREQS: One year of introductory biology is mandatory.
FW 303. SURVEY OF GEOGRAPHIC INFORMATION SYSTEMS IN NATURAL RESOURCE (3). Concepts underlying geographic information systems, global positioning system, and remote sensing; application to management and research, data quality issues, and case studies. Not a lab/skills class.

FW 307. SPECIALIZATION DEVELOPMENT (1). Students will examine career alternatives, develop career goals, learn what knowledge, skills, and abilities are important for diverse careers in fisheries and wildlife conservation, and develop an academic and lifelong plan for achieving their career goals. This course is intended to assist students in developing a specialization in fisheries and wildlife sciences. Graded P/N. PREREQS: Recommend FW 209
FW 311. ORNITHOLOGY (3). Survey of the adaptations of birds to a diverse array of habitats. Topics include origins, anatomy, reproductive strategies, migration, flight, behavior, physiology, nutrition, and conservation. PREREQS: One year introductory biology.
FW 312. SYSTEMATICS OF BIRDS (2). External anatomy, classification of birds of the world, and field identification of birds by sight and song. Field trips required. PREREQS: One year introductory biology.
FW 315. ICHTHYOLOGY (3). A survey of the diversity of biological adaptations of fishes. Topics include physiological and zoogeographical adaptations, reproduction, evolution, cladogenesis, morphology, behavior, and genetics. PREREQS: One year introductory biology.

FW 316. SYSTEMATICS OF FISHES (3). Phylogenetic diversity, evolution, relationships and identification of the world's fishes, with particular focus on Oregon fishes. Includes identification, anatomy, use of keys, introduction to the comparative method, systematic theory, taxonomy, field collection and specimen curation. Lec/lab.
PREREQS: (BI 211 [D-] or BI 211H [D-] or BI 204 [D-] ) and (BI 212 [D-] or BI 212H [D-] or BI 205 D-] ) and (BI 213 [D-] or BI 213H [D-] or BI 206 [D-] ) and Recommended pre- or co-requisite: FW 315 Ichthyology.

FW 317. MAMMALOGY (3). A survey of the origins, evolution, diversity, and adaptations of mammals to diverse environments. Topics include taxonomy, reproduction, sensory perception, herbivory, population cycles and behavior. PREREQS: One year introductory biology.

FW 318. SYSTEMATICS OF MAMMALS
(2). A survey of the phylogenetic diversity of the mammals in Oregon from a habitat/ community perspective. Identifying, using keys, and measuring specimens will be stressed. PREREQS: One year introductory biology.
FW 320. INTRODUCTORY POPULATION DYNAMICS (4). Principles and concepts of population dynamics related to fish and wildlife populations; methods of estimating abundance, mortality, sustainable harvest levels and extinction risk; hands-on introduction to models for population analysis. Lec/lab. PREREQS: (B 370* [D-] or BI 370H* [D-] or BI 371* [D-] ) and Recommended: mathematics equivalent to MTH 245 or higher, introductory statistics.

## FW 321. APPLIED COMMUNITY AND

ECOSYSTEM ECOLOGY (3). Perspectives in community and ecosystem ecology, and their use in management of fisheries and wildlife resource systems. PREREQS: FW 320* [D-]
FW 323. MANAGEMENT PRINCIPLES OF PACIFIC SALMON IN THE NORTHWEST (3). Explores the nature of the salmon problem in the Northwest. Experts from diverse disciplines describe principles of salmon biology, habitat ecology and management, socioeconomics of direct and indirect users, and government policies.

FW 325. *GLOBAL CRISES IN RESOURCE
ECOLOGY (3). Historical and contemporary implications of the impacts of burgeoning human populations on rates and patterns of global ecological change. Changes in ecosystem processes and crises of species extinction in the context of cultural and political institutions. (Bacc Core Course)

## FW 326. INTEGRATED WATERSHED

MANAGEMENT (3). A comprehensive approach to watershed management, one that includes biophysical, socioeconomic, planning and education related topics. Intended for students interested in the sustainable management of natural resources. PREREQS: FW 251

## FW 328. WILDLIFE CAPTURE AND

IMMOBILIZATION (2). Manual and chemical restraint methods are covered with an emphasis on darting equipment, animal and human safety, drug pharmacology and species specific recommendations. CROSSLISTED as VMB 328. Lec/lab. This course is repeatable for a maximum of 4 credits.
FW 331. ECOLOGY OF MARINE AND ESTUARINE BIRDS (4). Focusing on how marine and estuarine birds are adapted for life at sea. Topics include morphology, physiology, foraging ecology, and biogeography as well as introductory oceanography. Field trips. PREREQS: One year introductory biology.
FW 340. *MULTICULTURAL PERSPECTIVES IN NATURAL RESOURCES (3). Explores multicultural influences on development of natural resources in the American West. Effects of diverse social values on changes in the physical landscape and biodiversity. (Bacc Core Course)
FW 341. FISH AND WILDLIFE LAW
ENFORCEMENT (2). Introduction to the
philosophy, purposes, and methods of enforcing natural resource laws, emphasizing fish and wildlife laws.

FW 350. *ENDANGERED SPECIES, SOCIETY AND SUSTAINABILITY (3). Provides a general background to endangered species biology, and the social and economic implications of the legislation enacted to conserve endangered species (Endangered Species Act, CITES Treaty). (Bacc Core Course) PREREQS: FW 251

FW 356. *CITIZEN SCIENCE (3). Citizen science involves non-specialists in scientific studies addressing large challenges best solved through collaboration. Citizens contribute data scientists may not otherwise be able to obtain, while improving their understanding of the scientific process, integrating technology into the learning process, and generating new knowledge for society. (Bacc Core Course)
FW 360. *ORIGINS OF F\&W MANAGEMENTEVOLUTION, GENETICS, AND ECOLOGY (3). Examines genetics and human interactions with fisheries and wildlife from an ecological and evolutionary perspective. Basic principles of environmental interactions, and how humans interact with other species and their environments in the disciplines commonly recognized as fisheries, wildlife and conservation sciences (Baccalaureate Core Course) PREREQS: Two terms of course work at OSU or equivalent.
FW 366. ENVIRONMENTAL CONTAMINANTS IN FISH AND WILDLIFE (3). Environmental contamination is an important threat to many fish and wildlife populations and the habitats and prey upon which they rely. The field of ecotoxicology links the ecology of fish and wildlife with toxicology of environmental contaminants, and so spans political, scientific, and public relations realms. Through the pairing of introductory concepts with key case studies, this course provides students with a preparatory framework for understanding toxicological issues of importance for those focused on studying, managing or conserving fish and wildlife populations. PREREQS: (BI 204 [D-] or BI 211 [D-] or BI 211 H [D-] ) and (BI 205 [D-] or

BI 212 [D-] or BI 212H [D-] ) and /or equivalent
FW 370. CONSERVATION GENETICS (4). A
foundational course in preparation for a degree in Fisheries and Wildlife or other degrees focused on conservation of natural resources. Covers a broad range of topics associated with issues surrounding genetics that working professionals in the biological sciences should be conversant about. One of the most important aspects of the course is the development of problem-solving and critical-thinking skills. PREREQS: (BI 211 [D-] or BI 204 [D-] ) and (BI 212 [D-] or BI 205 [D-] ) and (BI 213 [D-] or BI 206 [D-] ) and /or 1 year introductory biology.

FW 401. RESEARCH (1-16). This course is repeatable for a maximum of 16 credits.

FW 403. THESIS (1-16). This course is repeatable for a maximum of 32 credits. PREREQS: Departmental approval required.
FW 405. READING AND CONFERENCE (1-16). This course is repeatable for a maximum of 16 credits.
FW 407. SEMINAR (1-16). Graded P/N. Taught at Hatfield Marine Science Center. This course is repeatable for a maximum of 16 credits.

FW 407H. SEMINAR (1-16). Graded P/N. Taught at Hatfield Marine Science Center. This course is repeatable for a maximum of 16 credits. PREREQS: Honors College approval required.
FW 408. WORKSHOP (1-16). This course is repeatable for a maximum of 16 credits.
FW 410. INTERNSHIP (1-6). This course is repeatable for a maximum of 99 credits.
FW 415. FISHERIES AND WILDLIFE LAW
AND POLICY (3). Provides students with an understanding of the key legal frameworks within which they will work to conserve fish and wildlife resources. Examines federal law and policy relating to allocation and conservation of fish and wildlife resources. PREREQS: PS 201 or other introductory political science course.
FW 419. THE NATURAL HISTORY OF WHALES AND WHALING (3). Addresses the natural history of whales as a unique example of adaptation in an evolutionary lineage, and the history of whaling as a general example of the failings of international resource management. PREREQS: Some background in vertebrate ecology and evolution or genetics is recommended.
FW 421. AQUATIC BIOLOGICAL INVASIONS (4). An overview of the background, theory, evolution, ecology, politics and conservation of invasions by introduced species in aquatic environments. CROSSLISTED as BI 421. Taught at Hatfield Marine Science Center OR online through Ecampus. PREREQS: One year of university-level biology.
FW 422. INTRODUCTION TO OCEAN LAW (3). Examination of US law and primary international law focused on fisheries management with coverage of regulation of other ocean resources including energy, marine mammals, endangered species, pollution, and protected areas. Final project is intended to provide students with handson exposure to real-world fisheries and ocean management issues.
FW 426. COASTAL ECOLOGY AND RESOURCE MANAGEMENT (5). Study of the ecology and management of coastal marine and freshwater ecosystems as well as natural resources, emphasizing experimental (participatory) learning in a field station setting. Lec/lab.
FW 427. PRINCIPLES OF WILDLIFE DISEASES
(4). Ecological aspects of important diseases affecting North American wildlife will be discussed Demonstrations will mainly cover migratory birds, carnivores and ruminants. Lec/lab. Ecampus sections do not use lab demonstrations.
PREREQS: Junior standing or instructor approval required.

FW 431. DYNAMICS OF MARINE BIOLOGICAL RESOURCES (4). Strategies of marine fishery management. A synthesis of the principles of population dynamics for single- and multi-species systems from the viewpoint of a marine resource manager. Offered alternate years. Taught at Hatfield Marine Science Center OR online through Ecampus. PREREQS: BI 370 or BI 371 or equivalent course work.
FW 434. ESTUARINE ECOLOGY (4). Integrated and synthetic training in the ecological processes of estuarine environments, with emphases on ecological interactions among organisms and the biogeochemical cycling of carbon and nitrogen. Topics include geomorphology, estuarine physics and chemistry, primary and secondary producers, ecosystem metabolism, element cycling, food webs, fisheries, restoration, management, and impacts of climate. Field trip required, transportation fee charged. CROSSLISTED as OC 434/OC 534.
FW 435. ^ WILDLIFE IN AGRICULTURAL ECOSYSTEMS (3). Examines the relationships between agricultural production and fish and wildlife populations and communities. Explores the impacts of agricultural practices on fish and wildlife. Field trips required; transportation fee charged. OSU Ecampus students are not required to attend field trips. (Writing Intensive Course) PREREQS: BI 370 and FW 251 or equivalent course work.

FW 439. ^HUMAN DIMENSIONS OF FISHERIES AND WILDLIFE MANAGEMENT (3). Students build an understanding and appreciation for the role of human dimensions (HD) in fisheries and wildlife management. Students work both independently and in groups on assignments with an HD focus. CROSSLISTED as FES 439 (Writing Intensive Course) PREREQS: Principles of fish and wildlife conservation or natural resources and introductory statistics.

## FW 445. ECOLOGICAL RESTORATION (4).

Fundamentals of restoring and reclaiming disturbed landscapes and ecosystems. Topics to be covered include types and assessment of site conditions; determining restoration goals and feasibility; hydrologic, biotic, and soil functions and their importance in restoration; and measures of successful restoration. Lec/lab/rec. CROSSLISTED as FES 445. PREREQS: BI 370 or BI 370 H or instructor approval required.

## FW 451. AVIAN CONSERVATION AND

MANAGEMENT (3). Identification, classification, life history strategies, ecology and management of upland and migratory birds. PREREQS: FW 311 or equivalent course work.

## FW 452. BIODIVERSITY CONSERVATION IN

 MANAGED FORESTS (3). Designed for students in forestry, wildlife, fisheries and related fields. Introduces the concepts of, and approaches to, managing forest stands, landscapes and regions to achieve desired habitat conditions for indicator species and conservation of biological diversity. CROSSLISTED as FES 452. PREREQS: FES 240 or FES 341 or BI 370FW 454. ^${ }^{\wedge}$ FISHERY BIOLOGY (4). Principles and methods used in studying the biology of fishes; ecological requirements of freshwater and anadromous fishes; principles and practices in sport fishery management. (Writing Intensive Course) PREREQS: FW 315 [D-] and FW 320 [D-]
FW 456. LIMNOLOGY (5). Physical, chemical, and biological concepts in limnology and techniques related to aquatic resources and their management. Lec/lab. PREREQS: Senior standing.

FW 458. MAMMAL CONSERVATION AND MANAGEMENT (4). A thorough understanding of the management, conservation, and ecology of mammals in North America; includes population dynamics, harvest management, techniques to determine abundance, diets, reproduction, and the cultural and political variables that contribute to
formulation of management programs. PREREQS: 9 credits of upper-division biological sciences.

FW 462. ECOSYSTEM SERVICES (3). Introduces students to the ecological, economic, and social/ ethical issues involved in the study of ecosystem services, with a major focus on biological components involved in ecosystem services. Topics covered include: 1) an introduction to the roles that living organisms play in the provision of ecosystem services, 2) the relationship of ecosystem functions and services, 3) the societal factors that influence this relationship, 4) general categories of ecosystem services, 5) identification of potential ecosystem services in terrestrial and aquatic systems, 6) an overview of the methods of valuation, and 7) translating ecosystems functions to services. Case studies will be used to illustrate key concepts and relationships within different ecological and social contexts. PREREQS: BI 370 or equivalent course work.

FW 464. MARINE CONSERVATION BIOLOGY
(3). Lectures, group library research, and class debates on current issues regarding the conservation of biodiversity in the sea. Topics include overfishing, invasive species, eutrophication, marine pollution, and global warming, as well as means of addressing these threats. PREREQS: (BI 370 [D-] or BI 370 H [D-] ) and /or equivalent. Seniors, postbacs, and graduate students only.

FW 465. MARINE FISHERIES (4). A global perspective on commercial fish and shellfish harvesting with emphasis on fishing technology and policy issues. Offered fall term in odd years. PREREQS: FW 315 or equivalent.

## FW 467. ANTARCTIC SCIENCE AND

CONSERVATION (4). Explores the history, geology, climate, and ecosystems of Antarctica, with special emphasis on current conservation issues. PREREQS: Upper-division standing; BI 370 or equivalent recommended.

## FW 469. METHODS IN PHYSIOLOGY AND

 BEHAVIOR OF MARINE MEGAFAUNA (3). Explanation of basic behavior and physiology of marine megafauna (mammals, birds, turtles) including mating systems, life history, migration, dive physiology, energetics and foraging ecology, and instruction in field and analytical methods for foraging behavior and physiology. PREREQS: Students should have one year of introductory biology and 9 credits of upper-division courses in Fisheries and Wildlife or biological sciences.
## FW 470. *ECOLOGY AND HISTORY:

LANDSCAPES OF THE COLUMBIA BASIN (3). Integrates environmental history and landscape ecology of the Columbia River Basin from geologic origins to the present, to create an understanding of change caused by natural processes and human activities. CROSSLISTED as HSTS 470/ HSTS 570. (Bacc Core Course) PREREQS: (HST 201 and HST 202 and HST 203) or BI 370 or equivalent course work.

FW 471. ENVIRONMENTAL PHYSIOLOGY
OF FISHES (4). Principles of the functional biology of fishes with emphasis on environmental interactions and management implications. PREREQS: FW 315 and (BI 370 or BI 371 ) or equivalent course work.
FW 472. ADVANCED ICHTHYOLOGY (3).
Evolution of fishes with emphasis on the role of ontogeny; cladistic methodology and classification contrasted with traditional taxonomic approaches. PREREQS: Two years upper-division fisheries or zoology.
FW 473. FISH ECOLOGY (4). Behavior of fishes as a mode of accommodation to various ecological and evolutionary constraints. Importance of heritable and learned patterns to population and community dynamics. Application of behavioral studies to the solution of management problems. Lec/lab/rec. PREREQS: ((BI 370 [D-] or BI 370H [D-] ) and FW 315 [D-] )

FW 474. EARLY LIFE HISTORY OF FISHES (4).
Overview of diversity of development patterns in fishes; emphasis on morphology, life history, and evolution. Offered alternate years. PREREQS: FW 315 or equivalent.
FW 475. WILDLIFE BEHAVIOR (4). Adaptive significance of egocentric and social behavior of wildlife species. Implications of behavior in sound management practice. PREREQS: 9 credits of upper-division biology.
FW 476. FISH PHYSIOLOGY (4). Physiological specializations and adaptations of major groups of fishes. PREREQS: FW 315 [D-]
FW 477. AGE AND GROWTH OF FISH (3). An overview of the terminology, theory, assumptions, limitations, error, and processing and ageing techniques for different types of calcified structures used to age fishes. PREREQS: FW 454 [D-] and introductory statistics is highly recommended.
FW 479. WETLANDS AND RIPARIAN ECOLOGY
(3). Ecology of riparian freshwater and estuarine wetlands of the Pacific Northwest. Effects of land use on ecosystem structure, function, biodiversity, and restoration will be explored. PREREQS: BI 370 or BI 371
FW 481. WILDLIFE ECOLOGY (3).
Interrelationships of wildlife, environmental change. Predicting and measuring responses of wildlife to altered habitat conditions PREREQS: (BI 370 [D-] or BI 370H [D-] or BI 371 [D-] ) and / or equivalent
FW 485. *CONSENSUS AND NATURAL
RESOURCES (3). Students will use a working
group approach. They will select a natural resource topic, study the team process and interaction as a method of learning, explore the issue using systems practice, and strive for consensus on solutions to their issue. CROSSLISTED as ANS 485, FES 485/FES 585, SOC 485/SOC 585. (Bacc Core Course)
FW 488. PROBLEM SOLVING IN FISHERIES
AND WILDLIFE SCIENCE (3). The first of a twocourse capstone sequence designed to introduce students to the synthesis of scientific information on species, habitats and ecosystems and the use of such data in shaping fisheries and wildlife conservation, management and policy. Includes a group problem solving project and case studies. For FW majors in their senior year. Lec/lab. PREREQS: (FW 320 [D-] and FW 321* [D-] ) and 400 -level FW course work (e.g., FW 454 or FW 481 or FW 426)
FW 489. EFFECTIVE COMMUNICATIONS IN FISHERIES AND WILDLIFE SCIENCE (3). Second of a two-course capstone sequence centered on analysis, synthesis, and interpretation of data and written and oral communication of management, education or policy statements. PREREQS: FW 488 [D-]
FW 491. FISH DISEASES IN CONSERVATION BIOLOGY AND AQUACULTURE (3). Introduction to diseases of fish including pathogens important to aquaculture and ornamental industries as well as to wild fish populations and conservation programs. CROSSLISTED as MB 491/MB 591. PREREQS: 9 credits of upper-division fisheries biology.

FW 493. FIELD METHODS FOR MARINE
RESEARCH (3). The primary focus is providing hands-on experience in a small class exploring various field sampling methodologies, research planning logistics, and field operations in estuary and nearshore environments. Topics covered include measurement and collection methods, animal handling techniques, equipment care and handling, sampling strategy, experimental design, data management planning and, if possible, small boat work. PREREQS: One year of biology
FW 496. FISH DISEASES IN CONSERVATION BIOLOGY AND AQUACULTURE LAB (2). This laboratory complements lectures in FW/MB

491/591, with students learning basic necropsy techniques; identification of bacterial, viral and metazoan pathogens; and molecular identification methods. CROSSLISTED as MB 496/MB 596. PREREQS: MB 303 or other upper-division laboratory course.

FW 497. ^AQUACULTURE (3). Principles and practices for the aquaculture of fish, shellfish, and algae. (Writing Intensive Course.) PREREQS: 9 credits of upper-division biology.
FW 498. AQUACULTURE LABORATORY (3). Biology and culture requirements of fish, shellfish, and algae. Emphasis on laboratory culture techniques and practical experience in handling organisms. Taught at Hatfield Marine Science Center. PREREQS: 9 credits of upper-division biology.
FW 499. SPECIAL TOPICS IN FISHERIES AND WILDLIFE (0-16). Various topics in fisheries science and wildlife science. Taught at Hatfield Marine Science Center and Corvallis campus. This course is repeatable for a maximum of 16 credits.

FW 501. RESEARCH (1-16). This course is repeatable for a maximum of 16 credits.

FW 502. TEACHING METHODS IN FISHERIES AND WILDLIFE (1). This is a discussion course designed to help new GTAs and instructors who are learning the trials and tribulations of universitylevel teaching in our department. This is a great course for students who are interested in hearing more about teaching approaches, grading and assessment, student communication, problem students, and development of teaching Graded P/N.
FW 503. THESIS (1-16). This course is repeatable for a maximum of 999 credits.
FW 505. READING AND CONFERENCE (1-16). This course is repeatable for a maximum of 16 credits.

FW 506. PROJECTS (1-6). Projects are synthesis papers or outreach products that are developed with a mentor from campus, a natural resource agency, or the students place of employment. The purpose of your project is to contribute to the field of study with a product that reflects the principles and applications learned in your classes. This course is repeatable for a maximum of 12 credits.

FW 507. SEMINAR (1-16). Selected Topics. Taught at Hatfield Marine Science Center and Corvallis campus. This course is repeatable for a maximum of 16 credits.
FW 508. WORKSHOP (1-16). This course is repeatable for a maximum of 16 credits.
FW 510. PROFESSIONAL INTERNSHIP (1-16).
This course is repeatable for a maximum of 10 credits.

## FW 514. PROFESSIONAL DEVELOPMENT:

 MEETING COMMUNICATIONS (1). Fisheries and wildlife professionals use meetings of scientists, managers and stakeholders to communicate key findings and develop consensus recommendations for policy. This 1-credit experiential learning course will expose students to a scientific or management meeting in their chosen field (fisheries, wildlife, ecology, or conservation biology) and get them to think about how meetings function as well as their content. This course is repeatable for a maximum of 3 credits.
## FW 515. FISHERIES AND WILDLIFE LAW

AND POLICY (3). Provides students with an understanding of the key legal frameworks within which they will work to conserve fish and wildlife resources. Examines federal law and policy relating to allocation and conservation of fish and wildlife resources. PREREQS: PS 201 or other introductory political science course.
FW 519. THE NATURAL HISTORY OF WHALES AND WHALING (3). Addresses the natural history of whales as a unique example of adaptation in an evolutionary lineage, and the history of whaling as
a general example of the failings of international resource management. PREREQS: Some background in vertebrate ecology and evolution or genetics is recommended.
FW 520. ECOLOGY AND MANAGEMENT
OF MARINE FISHES (3). A lecture and lab course that covers the ecology of marine fishes and important ecological principles that guide conservation and management. Life history, behavior, habitat, community dynamics and ecosystem processes are emphasized, along with alternative management strategies. PREREQS: FW 320 or equivalent population dynamics class and ichthyology.

FW 521. AQUATIC BIOLOGICAL INVASIONS (4). An overview of the background, theory, evolution, ecology, politics and conservation of invasions by introduced species in aquatic environments. Taught at Hatfield Marine Science Center OR online through Ecampus. PREREQS: One year of university-level biology.
FW 522. INTRODUCTION TO OCEAN LAW (3).
Examination of US law and primary international law focused on fisheries management with coverage of regulation of other ocean resources including energy, marine mammals, endangered species, pollution, and protected areas. Final project is intended to provide students with handson exposure to real-world fisheries and ocean management issues.
FW 524. INTRODUCTION TO FISHERIES
ASSESSMENT (3). Fisheries management strategies rely on models that predict a populationss responses to exploitation. This course introduces approaches commonly used to assess and evaluate the dynamics and status of a population. Provides an overview of the terminology, data requirements, underlying rationale, assumptions, limitations and uncertainty associated with stock assessments. PREREQS: College algebra and introductory statistics are recommended. For those unfamiliar with data collection and analysis methods in fisheries, FW $454 / 554$, Fishery Biology, is a good precursor to this course.
FW 526. COASTAL ECOLOGY AND RESOURCE
MANAGEMENT (5). Study of the ecology and management of coastal marine and freshwater ecosystems as well as natural resources, emphasizing experimental (participatory) learning in a field station setting. Lec/lab.

FW 527. PRINCIPLES OF WILDLIFE DISEASES
(4). Ecological aspects of important diseases affecting North American wildlife will be discussed Demonstrations will mainly cover migratory birds, carnivores and ruminants. Lec/lab. Ecampus sections do not use lab demonstrations.
PREREQS: Junior standing or instructor approval required.
FW 531. DYNAMICS OF MARINE BIOLOGICAL
RESOURCES (4). Strategies of marine fishery management. A synthesis of the principles of population dynamics for single- and multi-species systems from the viewpoint of a marine resource manager. Offered alternate years. Taught at Hatfield Marine Science Center OR online through Ecampus. PREREQS: BI 370 or BI 371 or equivalent course work.
FW 534. ESTUARINE ECOLOGY (4). Integrated and synthetic training in the ecological processes of estuarine environments, with emphases on ecological interactions among organisms and the biogeochemical cycling of carbon and nitrogen. Topics include geomorphology, estuarine physics and chemistry, primary and secondary producers, ecosystem metabolism, element cycling, food webs, fisheries, restoration, management, and impacts of climate. Field trip required, transportation fee charged. CROSSLISTED as OC 434/OC 534.
FW 535. WILDLIFE IN AGRICULTURAL ECOSYSTEMS (3). Examines the relationships between agricultural production and fish and
wildlife populations and communities. Explores the impacts of agricultural practices on fish and wildlife. Field trips required; transportation fee charged. OSU Ecampus students are not required to attend field trips. PREREQS: BI 370 and FW 251 or equivalent course work.
FW 537. STRUCTURED DECISION MAKING IN NATURAL RESOURCE MANAGEMENT (2). Structured decision making (SDM) is used for making natural resource management and policy decisions. It is an ideal framework for interdisciplinary teams to cooperate and identify the most effective management strategies. Graduate students from diverse backgrounds (natural resources, political science, others) are provided with an understanding of the SDM process. PREREQS: One year of college-level mathematics, one quarter of fish and wildlife management or similar course is recommended.

## FW 538. STRUCTURED DECISION MAKING IN

 NATURAL RESOURCE MANAGEMENT LAB (2). Students who are taking or have taken FW 537 are provided with the understanding of and ability to employ the techniques needed to build models that are used during the structured decisionmaking process. The laboratory emphasizes the use of graphical models and basic statistical techniques for building decision-making models.Lec/lab. PREREQS: FW 537* [D-]

## FW 540. VERTEBRATE POPULATION

DYNAMICS (4). Concepts in population ecology and quantitative approaches to managing wildlife populations; methods of parameter estimation, model structure, assumptions, and analysis, applications to common management issues. PREREQS: Upper-division population ecology and basic statistics courses expected.

FW 544. QUANTITATIVE DECISION ANALYSIS FOR FISH AND WILDLIFE MANAGEMENT (4). Decision analysis allows decision makers o examine the expected effects of different strategies before implementation; incorporate multiple objectives and values of stakeholders; determine the relative influence of various sources of uncertainty; and estimate the value of collecting additional data. Quantitatively oriented graduate students in natural resources are provided with an in-depth overview of decision analysis and adaptive management, emphasizing animal population management. Lec/lab. PREREQS: ST 511 and ST 512 or equivalent, basic background in animal population dynamics and management.
FW 545. ECOLOGICAL RESTORATION (4).
Fundamentals of restoring and reclaiming disturbed landscapes and ecosystems. Topics to be covered include types and assessment of site conditions; determining restoration goals and feasibility; hydrologic, biotic, and soil functions and their importance in restoration; and measures of successful restoration. CROSSLISTED as FES 545. PREREQS: BI 370 or BI 370 H or instructor approval required
FW 549. HISTORY OF FISHERIES SCIENCE (3). Surveys the development of fisheries science, professionalization of the discipline, patronage, and the political, economic, and social context in which fisheries science operates. PREREQS: Graduate standing.
FW 550. TROPHIC CASCADES (2-3). Theory and empirical analysis of terrestrial carnivore effects on plants and ecosystems as mediated through herbivores. Emphasis on large carnivores, frequency/strength of trophic cascades, implications for ecosystem function, management, and restoration. Lectures, current literature, discussions, field exercise, term paper, and student presentations. CROSSLISTED as FES 550. This course is repeatable for a maximum of 3 credits.

FW 551. AVIAN CONSERVATION AND
MANAGEMENT (3). Identification, classification, life history strategies, ecology and management of upland and migratory birds. PREREQS: FW 311 or equivalent course work.

## FW 552. FOREST WILDLIFE HABITAT

MANAGEMENT (4). Management of terrestrial vertebrates in forest ecosystems. Effects on silvicultural practices and landscape pattern on habitats and populations. CROSSLISTED as FES 552. PREREQS: FOR 341 or equivalent course in ecology.

FW 554. FISHERY BIOLOGY (4). Principles and methods used in studying the biology of fishes; ecological requirements of freshwater and anadromous fishes; principles and practices in sport fishery management. PREREQS: FW 315 and FW 320

FW 556. LIMNOLOGY (5). Physical, chemical, and biological concepts in limnology and techniques related to aquatic resources and their management. Lec/lab. PREREQS: Senior standing.
FW 558. MAMMAL CONSERVATION AND
MANAGEMENT (4). A thorough understanding of the management, conservation, and ecology of mammals in North America; includes population dynamics, harvest management, techniques to determine abundance, diets, reproduction, and the cultural and political variables that contribute to formulation of management programs. PREREQS: 9 credits of upper-division biological sciences.

FW 560. PSYCHOLOGY OF ENVIRONMENTAL DECISIONS (3). Natural resource management and conservation programs have one thing in common: to be effective, they must consider how and why humans make decisions. This course approaches this topic from a psychological lens and will cover the psychological processes associated with making individual and group decisions, common biases and heuristics in our decision-making, and how these apply to diverse natural resource management and conservation issues. Students will learn how to take these aspects of human decision making into consideration when participating in or facilitating collaborative environmental programs.
FW 562. ECOSYSTEM SERVICES (3). Introduces students to the ecological, economic, and social/ ethical issues involved in the study of ecosystem services, with a major focus on biological components involved in ecosystem services. Topics covered include: 1) an introduction to the roles that living organisms play in the provision of ecosystem services, 2) the relationship of ecosystem functions and services, 3) the societal factors that influence this relationship, 4) general categories of ecosystem services, 5) identification of potential ecosystem services in terrestrial and aquatic systems, 6) an overview of the methods of valuation, and 7) translating ecosystems functions to services. Case studies will be used to illustrate key concepts and relationships within different ecological and social contexts. PREREQS: BI 370 or equivalent course work.

FW 563. CONSERVATION BIOLOGY OF
WILDLIFE (3). Overview of the field of conservation biology with emphasis on the relationship to conservation and management of wildlife.
FW 564. MARINE CONSERVATION BIOLOGY
(3). Lectures, group library research, and class debates on current issues regarding the conservation of biodiversity in the sea. Topics include overfishing, invasive species, eutrophication, marine pollution, and global warming, as well as means of addressing these threats. PREREQS: BI 370 or BI 370 H or equivalent. Seniors, postbacs, and graduate students only.
FW 565. MARINE FISHERIES (4). A global perspective on commercial fish and shellfish harvesting with emphasis on fishing technology and policy issues. Offered fall term in odd years. PREREQS: FW 315 or equivalent course work.

FW 569. BEHAVIOR AND PHYSIOLOGY OF MARINE MEGAFAUNA (3). An in-depth study of marine megafauna (mammals, birds, turtles)
with an emphasis on methods and analyses of behavior and physiology for conservation. Lab and field exercises include investigations into the behavior-physiology nexus of diving, migration, thermoregulation, energy expenditure, and mating systems. Research techniques to be explored will include, for example, tracking and remote biotelemetry monitoring technologies, respirometry, genetics, and direct field study observation. Theoretical approaches, field techniques and statistical analyses will help prepare students for a career in fisheries or wildlife science. Lec/lab. Taught at HMSC. PREREQS: One year of introductory biology and nine credits of upper-division courses in Fisheries and Wildlife or biological sciences in their undergraduate program.

## FW 570. ECOLOGY AND HISTORY:

 LANDSCAPES OF THE COLUMBIA BASIN (3). Integrates environmental history and landscape ecology of the Columbia River Basin from geologic origins to the present, to create an understanding of change caused by natural processes and human activities. CROSSLISTED as HSTS 470/ HSTS 570. PREREQS: (HST 201 and HST 202 and HST 203) or BI 370 or equivalent course work.FW 571. ENVIRONMENTAL PHYSIOLOGY
OF FISHES (4). Principles of the functional biology of fishes with emphasis on environmental interactions and management implications. PREREQS: FW 315 and (BI 370 or BI 371 ) or equivalent course work.
FW 572. ADVANCED ICHTHYOLOGY (3).
Evolution of fishes with emphasis on the role of ontogeny; cladistic methodology and classification contrasted with traditional taxonomic approaches. PREREQS: Two years upper-division fisheries or zoology.
FW 573. FISH ECOLOGY AND CONSERVATION (4). Behavior of fishes as a mode of accommodation to various ecological and evolutionary constraints. Importance of heritable and learned patterns to population and community dynamics. Application of behavioral studies to the solution of management problems. PREREQS: BI 370 and FW 315 or equivalent course work.
FW 574. EARLY LIFE HISTORY OF FISHES (4). Overview of diversity of development patterns in fishes; emphasis on morphology, life history, and evolution. Offered alternate years. CROSSLISTED as OC 574. PREREQS: FW 315 or equivalent.

FW 575. WILDLIFE BEHAVIOR (4). Adaptive significance of egocentric and social behavior of wildlife species. Implications of behavior in sound management practice. PREREQS: 9 credits of upper-division biology.

FW 576. FISH PHYSIOLOGY (4). Physiological specializations and adaptations of major groups o fishes. PREREQS: FW 315 or equivalent course work.
FW 579. WETLANDS AND RIPARIAN ECOLOGY
(3). Ecology of riparian freshwater and estuarine wetlands of the Pacific Northwest. Effects of land use on ecosystem structure, function, biodiversity, and restoration will be explored. PREREQS: BI 370 or BI 371 or equivalent course work.
FW 580. STREAM ECOLOGY (3). Structure and function of stream ecosystems, with emphasis on biological processes; physical and chemical relations; riparian influences and landscape perspectives. PREREQS: 9 credits of upperdivision science.

FW 581. WILDLIFE ECOLOGY (3).
Interrelationships of wildlife, environment and humans. Evaluation of properties and habitats of wildlife populations. PREREQS: (BI 370 or BI 371) and FW 311 and FW 320 and ST 351 or equivalent course work.

FW 583. SPECIES RECOVERY PLANNING AND RESTORATION (3). The importance of communication in science is stressed and a
broad knowledge of endangered species-related information is provided. Students develop the ability to critically evaluate published information in scientific literature and to present and summarize it as part of the collaborative species recovery planning process with a varied audience of stakeholders. PREREQS: FW 563 and FW 573 or equivalent course work recommended.

## FW 585. CONSENSUS AND NATURAL

RESOURCES (3). Students will use a working group approach. They will select a natural resource topic, study the team process and interaction as a method of learning, explore the issue using systems practice, and strive for consensus on solutions to their issue. CROSSLISTED as ANS 485, FES 485/FES 585, SOC 485/SOC 585.
FW 590. COASTAL POPULATION GENETICS
AND CONSERVATION (6). Hands-on application of molecular population genetics in coastal fishery management and conservation, study design, DNA extraction, PCR, analysis techniques, paper review and write-up. Taught at Hatfield Marine Science Center. PREREQS: BI 311 or equivalent introductory genetics course.
FW 591. FISH DISEASES IN CONSERVATION BIOLOGY AND AQUACULTURE (3). Introduction to diseases of fish including pathogens important to aquaculture and ornamental industries as well as to wild fish populations and conservation programs. CROSSLISTED as MB 491/MB 591. PREREQS: 9 credits of upper-division fisheries biology.
FW 596. FISH DISEASES IN CONSERVATION BIOLOGY AND AQUACULTURE LAB (2). This laboratory complements lectures in FW/MB 491/591, with students learning basic necropsy techniques; identification of bacterial, viral and metazoan pathogens; and molecular identification methods. CROSSLISTED as MB 496/MB 596. PREREQS: MB 303 or other upper-division laboratory course.
FW 597. AQUACULTURE (3). Principles and practices for the aquaculture of fish, shellfish, and algae. PREREQS: 9 credits of upper-division biology.

FW 598. AQUACULTURE LABORATORY (3). Biology and culture requirements of fish, shellfish, and algae. Emphasis on laboratory culture techniques and practical experience in handling organisms. Taught at Hatfield Marine Science Center. PREREQS: 9 credits of upper-division biology.

FW 599. SPECIAL TOPICS IN FISHERIES AND
WILDLIFE (0-16). Various topics in fisheries science and wildlife science. Taught at Hatfield Marine Science Center and Corvallis campus. This course is repeatable for a maximum of 99 credits.

FW 601. RESEARCH (1-16). This course is repeatable for a maximum of 16 credits.

FW 603. THESIS (1-16). This course is repeatable for a maximum of 999 credits.

FW 605. READING AND CONFERENCE (1-16). This course is repeatable for a maximum of 16 credits.

FW 606. PROJECTS (1-16). This course is repeatable for a maximum of 16 credits.
FW 607. SEMINAR (1-16). This course is repeatable for a maximum of 16 credits.
FW 620. ECOLOGICAL POLICY (3). Policy issues associated with ecosystem management, risk assessment, biological diversity, ecosystem health, sustainability, invasive species, bioregionalism, globalization and transnational factors, and rights, ethics, and morals. PREREQS: Background in natural resources, environmental sciences, ecological sciences, ecological economics, political science, or similar discipline.
FW 661. ANALYSIS OF ANIMAL POPULATIONS
(5). Quantitative methods for estimating
parameters (abundance, survival, population stability) of animal populations. Emphasis is on vertebrate animals and statistical methods of hypothesis testing, parameter estimation, and inference testing. Offered odd-numbered years. PREREQS: ST 511 and ST 512 or equivalent
FW 667. RESEARCH PERSPECTIVES (4).
Critical evaluation of philosophical perspectives in resource science and management. The aim of the course is to help students develop their own philosophical views through discussion of dominant perspectives and their problems and suggestion of potentially more adequate views PREREQS: 9 credits of upper-division science, philosophy or natural resources.
FW 699. SPECIAL TOPICS IN FISHERIES
AND WILDLIFE (1-4). Various topics in fisheries science and wildlife science. Taught at Hatfield
Marine Science Center and Corvallis campus. This course is repeatable for a maximum of 8 credits.

FW 808. WORKSHOP (1-16).

## Graduate Minor <br> Food Science and Technology

Food science and technology concerns the chemistry and engineering necessary to deliver safe, convenient food products from the farm gate to the food marketer. The academic program integrates principles and concepts in the physical, biological, and engineering sciences, and applies them to the scientific and technological aspects of food and beverage processing. The role of the food scientist is to successfully integrate these disciplines to assure an abundant, high quality, and nutritious food supply.
Graduate programs leading to the MS or PhD degree in food science permit intensified study in subject areas of special interest. Research areas in the department include both basic and applied aspects of chemistry/biochemistry, microbiology/biotechnology, sensory analysis, and food engineering. Research in food processing operations covers a number of food commodities such as cereal products, dairy products, fruits, vegetables, meats, seafood, wines and beers.
Departmental facilities include wellequipped laboratories, a pilot plant, a winery, a pilot research brewery, and an artisan cheese-making plant for instruction and research. Research facilities also are available at the Coastal Oregon Marine Experiment Station Seafood Laboratory at Astoria and the Food Innovation Center in Portland, Oregon.

## WORK EXPERIENCE AND INTERNSHIPS

Because of the educational value of professional work experience, the department strongly encourages students to gain practical work experience during summer and other terms. Students typically work in brewing, wineries, dairy processing, and seasonal fruit and vegetable processing. Students may earn internship credit with prior approval of the department and of the employer. OSU students may also participate in international internship programs.

## SCHOLARSHIPS

The College of Agricultural Sciences, the department, the food industry, and the Institute of Food Technologists offer over 25 merit and financial need scholarships to encourage students preparing for careers in the food industry. For more information, contact the department, 541-737-3131, and the Office of Financial Aid and Scholarships, 541-737-2241.

## CAREER OPPORTUNITIES

Food science graduates have had excellent success in finding positions (median nationwide entry level salary for bachelor of science degree holders is $\$ 50,000$ ) in
an industry that possesses tremendous variety, mobility and opportunity for advancement. Career opportunities in the food, brewing, distilling, and enology industries include management, research and development, process and production supervision, quality assurance, distribution, sales, marketing, consulting, and trade associations. Governmental agencies employ food scientists for work in regulatory control, research, and the development of food standards.

Graduates of a master's or doctoral program hold positions in teaching, colleges and university research and extension, and in industry.

## FOOD SCIENCE AND

TECHNOLOGY (BS, CRED, HBS)
A bachelor's degree in Food Science and Technology provides the necessary foundation to pursue any of the many possible food and beverage related career paths. The program integrates principles and concepts in the physical, biological and engineering sciences (including courses in general chemistry, organic chemistry, biology, physics, math and statistics, biochemistry, microbiology, and food engineering) and applies them to the scientific and technical aspects of food and beverage processing. Students who achieve at least a 2.00 GPA in the required foundation courses in chemistry additionally earn a Chemistry minor.

In addition to completing the Food Science and Technology Core, students must select from among three options (areas of concentration):

1. Enology and Viticulture
2. Fermentation Science
3. Food Science

All curricula are approved by the Higher Education Committee of the Institute of Food Technologists, making students eligible for national and Oregon IFT scholarships, as well as providing universal degree recognition within the food industry. Beyond choosing an option, students are able to further customize their studies through a menu of elective credits, facilitating the development of additional expertise in food related areas such as microbiology, toxicology, nutrition, horticulture, and animal sciences, and crediting formalized career and professional development experiences. Among minors that complement the Food Science and Technology major are Business and Entrepreneurship, Microbiology, and Nutrition.

## Grade Requirements

All courses required for completion of the Food Science and Technology major must be passed, graded on the A-F scale. Included are both "core" and "option" courses in FST, as well as supporting courses in math, sciences, and written and oral communication.

1. A C- grade, or better, must be earned in the specified prerequisites for the following courses. (These courses have additional prerequisites, but the C- minimum applies to the prerequisites listed below).

- BEE 472: MTH 112 and (MTH 241 or MTH 251) and PH 201
- FST 420: ST 351
- FST 422: CH 331 and CH 332
- FST 460: BI 212 and CH 331 and CH 332
- FST 466: BI 212 and CH 331 and CH 332
- FST 479: BI 212 and CH 331 and CH 332

2. Students must earn at least a 2.00 "major" GPA. The major GPA is a cumulative GPA calculated on a list of courses particular to each option. Selected core and option courses are included, as specified in the list accompanying requirements of each option.
Food Science and Technology Core
(100-104 credits)
Chemistry/Biochemistry

## Foundation Courses

BB 350. Elementary Biochemistry (4)
CH 231, CH 232, CH 233. *General
Chemistry (4,4,4)
CH 261, CH 262, CH 263. *Laboratory for Chemistry 231-233 (1,1,1)
CH 324. Quantitative Analysis (4)
CH 331, CH 332. Organic Chemistry $(4,4)$
CH 337. Organic Chemistry Laboratory (4)
Physics, Statistics and Mathematics Foundation Courses
PH 201. *General Physics (5)
ST 351. Introduction to Statistical Methods (4)

Select either MTH 241 or (MTH 251 and MTH 252):
MTH 241. *Calculus for Management and Social Science (4)
or MTH 251. *Differential Calculus (4)
and MTH 252. Integral Calculus (4)

## Biological Science Foundation

## Courses

BI 211. *Principles of Biology (4)
BI 212. *Principles of Biology (4)
BI 213. *Principles of Biology (4)
MB 302. General Microbiology (3)
MB 303. General Microbiology Laboratory (2)

## Communication Foundation

Courses
COMM 111. *Public Speaking (3)
Select one of WR 222, WR 327 or WR 362:
WR 222. *English Composition (3)
WR 327. *Technical Writing (3)
WR 362. *Science Writing (3)

## Food Science and Technology Core

## Courses (29)

BEE 472. Introduction to Food Engineering Principles (5)
BEE 473. Introduction to Food Engineering Process Design (3)
FST 360. Food Safety and Sanitation (3)

FST 370. Industry Preparation/HACCP (3)
FST 385. ^Communicating Food and
Fermentation Science (3)
FST 407. Senior Seminar (1)
FST 421. *Food Law (3)
FST 422. Food Chemistry Fundamentals (4)
FST 425. Food Systems Chemistry (4)

## Footnotes:

* Baccalaureate Core Course
$\wedge$ Writing Intensive Course
A C- or better grade is required in the following
courses: BI 212, CH 331-CH 332, MTH 112,
MTH 241 or MTH 251, PH 201 and ST 351.

## Postbaccalaureate Study in FST

## Admission

Students holding a bachelor's degree from an accredited institution who are otherwise admissible to Oregon State University (see: http://oregonstate.edu/ admissions/main/post-baccalaureate) will be accepted into the Food Science and Technology major upon meeting the following additional criteria:

All of the following courses (or equivalents) must be completed with a cumulative GPA of 2.25 ( 4.00 maximum scale). In the case of repeated courses, the second grade earned in the course will be used in the GPA calculation.

- BI 211-BI 213 Principles of Biology
- CH 231-CH 233 General Chemistry and CH 261-CH 263 General Chemistry Laboratory
- MTH 111 College Algebra; MTH 112 Elementary Functions and MTH 241 Calculus for Management and Social Science or MTH 251 Differential Calculus
- PH 201 General Physics

## Earning the Degree

To earn a Bachelor of Science (BS) degree in Food Science and Technology, postbaccalaureate students must fulfill all of the FST major core requirements, and those of any one of three options: Enology and Viticulture, Fermentation Science, or Food Science (see: http://oregonstate.edu/foodsci/ prospective-undergraduate-students).
The Baccalaureate Core (general studies) component of an OSU bachelor's degree is considered fulfilled by the student's first degree. Additionally, the university requires that a minimum of 45 credits applied to this degree ( 32 if the first degree is from OSU) must be completed with Oregon State University course work completed while enrolled in this degree program.
Additional information for prospective postbaccalaureate students is available at the FST undergraduate department website: http://oregonstate.edu/foodsci/ home.
Major Code: 135

## OPTIONS

## ENOLOGY AND VITICULTURE OPTION

The wine industry in the United States is centered on the West Coast, which produces about 95 percent of our nation's wines. Oregon is third in the nation in terms of the number of wineries and fourth in the nation in total volume of wine produced. The Oregon wine industry is a rapidly growing industry and is becoming increasingly important to the larger Oregon economy.
The Enology and Viticulture option within the Department of Food Science and Technology prepares students to become successful winemakers. Courses in enology, taught by food science faculty, provide a scientifically-based understanding of wine production. Supporting course work in horticulture, botany and crop and soil science, helps students develop an understanding of the interaction between grape production and winemaking. Graduates in this option will possess the necessary breadth and depth of knowledge and associated practical skills to become independently thinking and successful winemakers.
Fermentation and Enology Courses
FST 466. Wine Production Principles (3)
FST 467. Wine Production, Analysis, and
Sensory Evaluation (5)
FST/MB 479. Fermentation Microbiology (3)
Plant and Soil Science Courses
BOT 331. Plant Physiology (4)
HORT 301. The Biology of Horticulture (3)
HORT 453. Grapevine Growth and
Physiology (3)
HORT 454. Principles and Practices of
Vineyard Production (3)
SOIL 205. *Soil Science (3)
SOIL 206. *Soil Science Laboratory for SOIL 205 (1)

## Enology and Viticulture Option Electives <br> Complete 9 credits from the list below:

AG 407. Seminar: "Leadership Academy" (3) ${ }^{1}$
BOT 350. Introductory Plant Pathology (4)
ENT 311. Introduction to Insect Pest Management (4)
FST 101. Food Science Orientation (1)
FST 251. Introduction to Wines, Beers, and Spirits (3)
FST 260. *Food Science and Technology in
Western Culture (3)
FST 273. *Wine in the Western World (3)
FST 401. Research (3)1
FST 410. Internship (3)1,2
FST 420. Sensory Evaluation of Food (4)
FST 430. Innovation and Food Product
Development (4)
FST 480. Topics in Fermentation (1) (up to 2
credits of FST 480 may be applied)
HORT 251. Temperate Tree Fruit, Berries,
Grapes and Nuts (2)
HORT 316. Plant Nutrition (4)
HORT 452. Berry and Grape Physiology and
Culture (4)

MB 440. Food Microbiology (3)
MB 441. Food Microbiology Laboratory (2)
NUTR 216. *Food in Non-Western Culture (3) TOX 429. Toxic Substances in Food (3)
Total=37
Students may complete more than one option. Courses must be selected so that at least 12 credits in each option are counted uniquely toward requirements of that option.
FST Major Requirement of 2.00 GPA
(Enology and Viticulture Option)
The following courses are included in calculation of the FST major GPA for students in the Enology and Viticulture option:
BB 350. Elementary Biochemistry (4)
BEE 472. Introduction to Food Engineering Principles (5)
BEE 473. Introduction to Food Engineering Process Design (3)
BOT 331. Plant Physiology (4)
CH 324. Quantitative Analysis (4)
FST 360. Food Safety and Sanitation (3)
FST 370. Industry Preparation/HACCP (3)
FST 385. ^Communicating Food and
Fermentation Science (3)
FST 407. Senior Seminar (1)
FST 421. *Food Law (3)
FST 422. Food Chemistry Fundamentals (4)
FST 425. Food Systems Chemistry (4)
FST 466. Wine Production Principles (3)
FST 467. Wine Production, Analysis and
Sensory Evaluation (5)
FST/MB 479. Fermentation Microbiology (3)
HORT 453. Grapevine Growth and
Physiology (3)
HORT 454. Principles and Practices of Vineyard Production (3)
MB 302. General Microbiology (3)
MB 303. General Microbiology Laboratory (2)

Plus any of the following utilized in fulfillment of option requirements:
AG 407. Seminar: Leadership Academy (up to 3 credits)
BOT 350. Introductory Plant Pathology (4)
ENT 311. Introduction to Insect Pest Management (4)
FST 101. Food Science Orientation (1)
FST 251. Introduction to Wines, Beers and Spirits (3)
FST 260. *Food Science and Technology in Western Culture (3)
FST 273. *Wine in the Western World (3)
FST 401. Research (up to 3 credits)
FST 410. Internship (up to 3 credits)
FST 420. Sensory Evaluation of Food (4)
FST 430. Innovation and Food Product Development (4)
FST 480. Topics in Fermentation (up to 2 credits)
HORT 251. Temperate Tree Fruit, Berries, Grapes and Nuts (2)
HORT 316. Plant Nutrition (4)
HORT 452. Berry and Grape Physiology and Culture (4)
MB 440. Food Microbiology (3)
MB 441. Food Microbiology Laboratory (2)
NUTR 216. *Food in Non-Western Culture (3)

TOX 429. Toxic Substances in Food (3)

Footnotes:

* Baccalaureate Core Course (BCC)
$\wedge$ Writing Intensive Course (WIC)
${ }^{\mathbf{1}}$ Competitive selection and/or departmental approval required.
${ }^{2}$ Students may not earn internship credit in all states. Consult with internship coordinator for list of eligible states.
Option Code: 635

## FERMENTATION SCIENCE

 OPTIONThe Fermentation Science option, one of just a handful of such programs in the nation, is a hands-on applied science addressing the biological, chemical and physical processes of fermented foods, including those used in the production of wine, beer, and spirits, as well as a variety of other fermented foods such as cheese, yogurt, soy sauce, pickles, breads, and fermented vegetables. Graduates enjoy a wide variety of employment opportuni-ties-including some of the nation's largest wineries and breweries, artisan cheese plants, coffee, soy, and pickle companies, among others. Graduates of the Fermentation Science option can readily cross over from the beverage industry to the food industry with good preparedness.

## Foundation Science Courses

PH 202. *General Physics (5)
Choose one of NUTR 225 or NUTR 240:
NUTR 225. General Human Nutrition (3)
NUTR 240. Human Nutrition (3)

## Food Science and Technology

## Courses

FST 460. Brewing Science (3)
FST 466. Wine Production Principles (3)
FST/MB 479. Fermentation Microbiology (3)
FST 490. Food Processing Calculations (2)
FST 491. Food Processing Calculations
Laboratory (1)
FST 495. Food Packaging (2)
Complete two courses from among
FST 423, FST 461 and FST 467.
If all three are selected, credits
from one course are applied to
the Option Electives requirements below:
FST 423. Food Analysis (4)
FST 461. Brewing Analysis (3)
FST 467. Wine Production, Analysis, and Sensory Evaluation (5)

## Fermentation Science Option

 ElectivesComplete 6-8 credits from the list below, to bring the total in the Fermentation Science option to 37:
AG 407. Seminar: Leadership Academy (3) ${ }^{1}$
FST 101. Food Science Orientation (1)
FST 212. Dairy Processing (2)
FST 213. Dairy Processing Laboratory (1)
FST 251. Introduction to Wines, Beers, and Spirits (3)
FST 260. *Food Science and Technology in
Western Culture (3)
FST 273. *Wine in the Western World (3)

## Option Code: 141

## FOOD SCIENCE OPTION

Food scientists belong to one of the world's largest industries-the food industry. From the farm gate to the market, food scientists develop foods and beverages in response to society's needs and demands, working to make foods safe, nutritious, convenient, economical, and tasty. Food scientists look for better ways to select, preserve, process, and package food products, including the ingredients that go into them. Society's focus on food has increased as a heightened awareness of diet, health, and biosecurity (or food safety) has increased worldwide.

Graduates of the Food Science option are typically interested in research and development of new products, food safety, sensory and flavor qualities, quality control or quality assurance. Some even work as freelance food technologists.

## Physics/Statistics Courses

PH 202. *General Physics (5)
ST 352. Introduction to Statistical Methods (4)

## Nutrition Courses

NUTR 216. *Food in Non-Western Culture (3)

TOX 429. Toxic Substances in Food (3)
Option Code: 136

## UNDERGRADUATE MINORS

## FERMENTATION SCIENCE MINOR

Required Courses (12)
FST 251. Introduction to Wines, Beers and Spirits (3)
MB 302. General Microbiology (3)
MB 303. General Microbiology Lab (2)
Select one of the following two:
BB 314. Cell and Molecular Biology (4
BB 350. Elementary Biochemistry (4)

## Elective Courses (15)

Select 15 credits from the following:
BIOE 457. Bioreactors (3)
FST 360. Food Safety and Sanitation (3)
FST 460. Brewing Science (3)
FST 466. Wine Production Principles (3)
FST 467. Wine Production, Analysis, and Sensory Evaluation (5)
FST 479. Fermentation Microbiology (3)
FST 480. Topics in Fermentation (1-2 credits per class)**
MB 440. Food Microbiology (3)
MB 441. Food Microbiology Lab (2)
**May take up to 4 credits.
Total=27
Minor Code: 141

## FOOD MANUFACTURING MINOR

The Food Manufacturing minor introduces students to several engineering and operations concepts. A key component of the minor is a three-month manufacturing internship at a food processing facility. Prior to the internship, students will work within the department's pilot plants, producing at least one of cheese, beer, wine, liquors, or fruit and vegetable products.

## Required Courses (13 credits)

BA 357. Operations Management (4)
FST 315. Pilot Plant Experiences(2)
FST 410. Internship (3)
ST 351. Introduction to Statistical Methods (4)

Select 1 of the 3 following courses (4 credits)
MTH 251. *Differential Calculus (4)
MTH 252. Integral Calculus (4)
MTH 268. Mathematical Ideas in Biology (4)

## Select 3 of the 5 following courses

(10-12 credits)
BA 351. Managing Organizations (4)
ENGR 390. Engineering Economy (3)
IE 355. Statistical Quality Control (4)
IE 471. Project Management in Engineering
(3)

MFGE 436. Lean Manufacturing Systems Engineering (4)

## Total=27-29 credits

## Minor Code: 797

## FOOD SCIENCE MINOR

Required Courses (7 credits)
FST 360. Food Safety and Sanitation (3) FST 422. Food Chemistry Fundamentals (4)

## Elective Courses

Select 20 credits from the following (at least 5 credits must be upper division):
ANS 251. Principles of Animal Foods Technology (3)
BEE 472. Introduction to Food Engineering Principles (5)
BEE 473. Introduction to Food Engineering Process Design (3)
FST 210. Fruit and Vegetable Processing (3)
FST 212. Dairy Processing (2)
FST 213. Dairy Processing Laboratory (1)
FST 251. Introduction to Wines, Beers, and Spirits (3)
FST 260. *Food Science and Technology in
Western Culture (3)
FST 273. *Wine in the Western World (3)
FST 420. Sensory Evaluation of Food (4)
FST 421. *Food Law (3)
FST 423. Food Analysis (4)
FST 425. Food Systems Chemistry (4)
FST 460. Brewing Science (3)
FST 466. Wine Production Principles (3)
FST 479. Fermentation Microbiology (3)
FST 480. Topics in Fermentation (1-2)
FST 490. Food Processing Calculations (2)
FST 491. Food Processing Calculations
Laboratory (1)
FST 495. Food Packaging (2)
MB 440. Food Microbiology (3)
MB 441. Food Microbiology Laboratory (2)

## FOOD SCIENCE AND

 TECHNOLOGY (MS, PhD)
## Graduate Areas of Concentration

Brewing, enology, flavor chemistry, food chemistry/biochemistry, food engineering, food microbiology/ biotechnology, food and seafood processing, sensory evaluation
The Department of Food Science and Technology offers graduate programs leading toward the Master of Science and Doctor of Philosophy degrees. A variety of research specializations is available covering the chemical, physical, microbiological, and sensory properties of foods.

Food processing and engineering research deals with basic and applied aspects of contemporary food technologies. Areas of emphasis include the measurement and modeling of thermo-physical properties of foods and the modeling of heat and mass transfer phenomena. Other studies deal with the use of high pressure as a means of food preservation and the use of edible food coatings to enhance the nutritional quality of fresh fruits and vegetables.
Wine-related studies include relationships between sensory and chemical data and the effects of processing, wine microorganisms, and vineyard practices on quality.

Dairy processing research concerns milk quality, cheese technology, and cheese economics.

With over 75 years of history breeding and studying hops at OSU, the brewing research within FST connects to this long history by examining the flavor and stability of hops and hoppy aroma in beer as well as improved economics.

Studies in food microbiology focus on food safety and the application of beneficial microorganisms in food production. Included in this topic area are studies dealing with the effect of processing conditions on microbial viability and the characterization of yeast strains involved in fermented products.

Sensory science projects focus on an understanding of the fundamental nature of sensory phenomena and characterization of the sensory attributes of selected products.
Food chemistry research concerns the occurrence, role, formation, stability and analysis of various food constituents. Studies involving flavor chemistry and sensory evaluation aim to identify the flavor-active compounds of a wide variety of foods and beverages. Other studies focus on understanding the functional properties of cereal grains and develop-
ment of environmentally sustainable chemical and biological processes for converting food wastes and related renewable waste streams into useful byproducts.

Investigations on seafood processing and by-product utilization are being conducted on the campus, and at the Coastal Oregon Marine Experiment Station Seafood Laboratory in Astoria, Oregon.

The Food Innovation Center in Portland, Oregon-OSU's most unusual agricultural experiment station-provides entrepreneurs advice, testing and feedback on product development, packaging and shelf-life evaluation, sensory and consumer testing, marketing planning and access and business development.
Students desiring to pursue graduate study must have a BS degree or equivalent. Students from related fields of study (chemistry, microbiology, biology, etc.) should have a strong background in the basic sciences and must have earned at least a B (GPA 3.0) average during their last two years of undergraduate study.

## Major Code: 1350

## FOOD SCIENCE AND

TECHNOLOGY GRADUATE MINOR For more details, see the departmental advisor.

## Minor Code: 1350

■ FOOD SCIENCE AND TECHNOLOGY COURSES

## FST 101. FOOD SCIENCE ORIENTATION (1).

For food science majors. Orientation and academic guidance toward career planning in food science and technology.
FST 199. SPECIAL STUDIES (1-16). Graded
$\mathrm{P} / \mathrm{N}$. This course is repeatable for a maximum of 16 credits.

## FST 210. FRUIT AND VEGETABLE

PROCESSING (3). Lectures, lab activities
and plant tours to help majors and non-majors understand traditional and modern fruit and vegetable processing technologies. PREREQS:
CH 123 or CH 223 or ((CH 233 or CH 233 H ) and (CH 263 or CH 263 H ))
FST 212. DAIRY PROCESSING (2). Methods of processing and preserving milk and milk products and related unit operations. PREREQS: CH 123 or CH 223 or CH 233 or CH 233 H

FST 213. DAIRY PROCESSING LABORATORY (1). Laboratory and field work to accompany FST 212. Field trip required. PREREQS: Concurrent enrollment in FST 212
FST 251. INTRODUCTION TO WINES, BEERS,
AND SPIRITS (3). A descriptive introduction to the history, science, sensory, economics, and societal aspects of alcoholic beverages. PREREQS: High school biology and chemistry. Open to any major.
FST 260. *FOOD SCIENCE AND TECHNOLOGY IN WESTERN CULTURE (3). Exploring the sciences and technologies of food processing and preservation within the context of their historical, current, and possible future influences on what we eat, the structure of our society, and our day-today lives. (Bacc Core Course)
FST 273. *WINE IN THE WESTERN WORLD (3). A study of wine throughout history, from its accidental discovery and refinement through today, with a focus on the profound role wine
plays in agriculture, social rituals, human health, economics, and the ambivalent pursuit of pleasure. (Baccalaureate Core Course)
FST 315. PILOT PLANT EXPERIENCES (2). Students will be working in one of the FST pilot plants (dairy, vegetables/fruit, brewing, wine making, distilling) and will be assisting with the manufacturing of foods or beverages. Students must have available blocks of time in their schedules to contribute significantly to a production run. Production schedules for each pilot plant will be determined in advance of registration for each term. Not all pilot plants will be available each term. Lab.

FST 360. FOOD SAFETY AND SANITATION (3). Principles, practices, and regulations governing and ensuring the microbiological safety of our food supply through risk assessment, surveillance, and intervention. PREREQS: ((BI 211 [D-] or BI 211H [D-] or BI 212 [D-] or BI 212H [D-] or BI 213 [D-] or BI 213H [D-] ) and (CH 121 [D-] or CH 221 [D-] or CH 221H [D-] or CH 231 [D-] or CH 231H [D-] ))
FST 370. INDUSTRY PREPARATION/HACCP (3). Assists students in preparation for internships and employment in the food industry by introducing compliance with food safety regulations, HACCP, and audits. PREREQS: One year of chemistry and one year of biology.

## FST 385. ^COMMUNICATING FOOD AND

FERMENTATION SCIENCE (3). This writing intensive course (WIC) will guide students in the investigation and critical evaluation of literature on a topic of current interest in food or fermentation science, and the development of their ability to write concisely and with precision about technical subject matter in this discipline. Lec/rec. (Writing Intensive Course) PREREQS: WR 121 [C-] and FST 360 [D-] and MB 302* [D-] and fulfillment of Baccalaureate Core Writing II requirement. Concurrent enrollment in MB 302 permitted.

FST 399. SPECIAL TOPICS (0-16). This course is repeatable for a maximum of 16 credits.
FST 399H. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 16 credits.
PREREQS: Honors College approval required.
FST 401. RESEARCH (1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required.
FST 403. THESIS (1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required

FST 405. READING AND CONFERENCE (1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required.
FST 407. SENIOR SEMINAR (1).
FST 410. INTERNSHIP (1-16). A work internship to give students practical on-the-job training in the food processing or related industries. Graded P/N. This course is repeatable for a maximum of 16 credits. PREREQS: Junior standing. Departmental approval, submission of employer and employee evaluation forms, and written reports.
FST 420. SENSORY EVALUATION OF FOOD
(4). Sensory test methods used in the evaluation of the taste, smell, texture, and color of foods as well as the evaluation of consumer acceptance of foods. This includes methods for measuring sensory qualities, underlying psychological principles, statistical methods for analyzing data, and proper interpretation of these results. Lec/lab. PREREQS: (ST 351 [C-] or ST 411 [C-] ) and (ST 352* [D-] or ST 412* [D-] )
FST 421. *FOOD LAW (3). Concepts, statutes, regulations, and agencies controlling the production, processing, and distribution and promotion of food. (Bacc Core Course)
FST 422. FOOD CHEMISTRY FUNDAMENTALS
(4). An integrated lecture/lab/recitation course applying theories of molecular reactivity to model
food systems. Lectures focus on the molecular bases of chemical phenomena that dictate the behavior of foods. Laboratories and recitations provide opportunities for students to observe, manipulate, and explore model food systems. Emphasis on major food components (water, lipids, proteins, and carbohydrates) and their behavior under conditions of particular relevance to food processing. Lec/lab/rec. PREREQS: ((CH 331 [C-] and CH 332 [C-] ) or (CH 334 [C-] and CH 335 [C-] and CH 336 [C-]) and BB 350 [D-] and (MTH 241 [D-] or MTH 252 [D-] or MTH 252 H [D-] ))
FST 423. FOOD ANALYSIS (4). An integrated laboratory/lecture course covering methods used for the quantitative analysis of the chemical composition of foods and agricultural products. PREREQS: CH 324 and CH 337 and BB 350

FST 425. FOOD SYSTEMS CHEMISTRY (4).
The chemistry of food components in real-world food systems. Focused on water, proteins, carbohydrates, lipids, and food polymers, their interactions, and the effects of food processing and storage. Integrates writing as a learning tool and means of professional communication. Lec/lab/rec. PREREQS: FST 422 [D-] and /or equivalent or instructor's discretion.
FST 430. INNOVATION AND FOOD PRODUCT
DEVELOPMENT (4). Provides technical background and hand-on laboratory experience in food product development and food innovation. Lec/lab. PREREQS: CH 331 [D-] and CH 332 [D-] and FST 360 [D-] and FST 421 [D-] and FST 422 [D-]
FST 460. BREWING SCIENCE (3). Chemistry, microbiology and engineering of malting and brewing operations for the production of beer, including the compositional analysis of barley, malt, hops, water, and beer and their effects on beer quality. PREREQS: (BI 212 [C-] or BI 212H [C-]) and CH 331 [C-] and CH 332 [C-] and BEE $472^{*}$ and MB 302*
FST 461. BREWING ANALYSIS (3).
Compositional analysis, laboratory techniques and sensory evaluation of barley, malt, hops, water, yeast and beer. Lec/lab. PREREQS: (FST 460 [D-] and (MB 303 [D-] or MB 303H [D-] ))
FST 466. WINE PRODUCTION PRINCIPLES (3). Principles of wine production technology from grape berry development through bottling, covering the microbiology and chemistry of fermentation, aging and production practices of red and white table wines, as well as sparkling and dessert wines. PREREQS: (BI 212 [C-] or BI 212 H [C-]) and CH 331 [C-] and CH 332 [C-] and BB 350 and MB 302
FST 467. WINE PRODUCTION, ANALYSIS, AND SENSORY EVALUATION (5). An integrated lecture/lab course that focuses on the practical fundamentals of red and white wine production. Students will make wine and monitor its progression from the grape to the bottle using standard chemical, microbial, and sensorial techniques. PREREQS: (FST 466 [D-] and FST 479* [D-] )
FST 479. FERMENTATION MICROBIOLOGY
(3). An introduction to industrial microbiology with a focus on the physiology of fermentation and use of microorganisms for the production of food ingredients, fermented foods, and beverages. FST students need to take BB 350 and MB students need to take BB 450 for their respective majors. CROSSLISTED as MB 479/MB 579. PREREQS: (BI 212 [C-] or BI 212H [C-]) and CH 331 [C-] and CH 332 [C-] and (BB 350 [D-] or BB 450 [D-]) and MB 302 [D-]
FST 480. TOPICS IN FERMENTATION (0-2). Selected topics in fermentation science will be presented by department faculty and invited outside experts. Topics and format will change each quarter. Students may take the course for 1 or 2 credits as the topics change. Lec/lab. This course is repeatable for a maximum of 8 credits.

FST 490. FOOD PROCESSING CALCULATIONS
(2). Application of engineering principles to produce safe processed foods meeting consumer expectations for safety and quality. Validate process engineering models by comparing predicted values with new experimental data. PREREQS: (BEE 472 [D-] and FST 360 [D-] ) COREQS: FST 491

FST 491. FOOD PROCESSING CALCULATIONS LABORATORY (1). Experiments in a pilot plant supported by a computer laboratory. Prepare samples of novel process technology products. PREREQS: Microsoft Excel skills. COREQS: FST 490

FST 495. FOOD PACKAGING (2). Fundamentals of food packaging covering the major packaging solutions with a focus on plastic, paper, and paperboard. PREREQS: Junior standing in a physical or biological science-based major.
FST 499. SPECIAL STUDIES (0-16). This course is repeatable for a maximum of 16 credits.
FST 501. RESEARCH (1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required.
FST 503. THESIS (1-16). This course is repeatable for a maximum of 999 credits.
FST 505. READING AND CONFERENCE (1-16).
This course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required.
FST 507. SEMINAR (1). This course is repeatable for a maximum of 4 credits.
FST 509. PRACTICUM IN TEACHING (1-16). This course is repeatable for a maximum of 16 credits.
FST 510. INTERNSHIP (1-16). This course is repeatable for a maximum of 16 credits.
FST 514. HEALTH BENEFITS OF FUNCTIONAL FOODS, NUTRACEUTICALS AND DIETARY SUPPLEMENTS (3). Functional foods, nutraceuticals and dietary supplements represent a rapidly expanding segment of domestic and international markets. This course will overview the principles and procedures necessary to evaluate and market these products. The chemistry and mechanisms of major nutraceutical ingredient categories and current scientific information supporting their biochemical and physiological efficacy will be addressed. Special dietary products, such as medical, weight control, sport, and herbal supplements, will be addressed. Regulatory aspects of labeling and structurefunction claims will be covered. CROSSLISTED as NUTR 514. PREREQS: BB 350 and CH 332
FST 520. SENSORY EVALUATION OF FOOD (4). Sensory test methods used in the evaluation of the taste, smell, texture, and color of foods as well as the evaluation of consumer acceptance of foods. This includes methods for measuring sensory qualities, underlying psychological principles, statistical methods for analyzing data, and proper interpretation of these results. Lec/lab. PREREQS: (ST 351 or ST 411) and (ST 352* or ST 412*)
FST 521. FOOD LAW (3). Concepts, statutes, regulations, and agencies controlling the production, processing, and distribution and promotion of food.
FST 522. FOOD CHEMISTRY FUNDAMENTALS
(4). An integrated lecture/lab/recitation course applying theories of molecular reactivity to model food systems. Lectures focus on the molecular bases of chemical phenomena that dictate the behavior of foods. Laboratories and recitations provide opportunities for students to observe, manipulate, and explore model food systems. Emphasis on major food components (water, lipids, proteins, and carbohydrates) and their behavior under conditions of particular relevance to food processing. Lec/lab/rec. PREREQS: ((CH 331 and CH 332 ) or (CH 334 and CH 335 and CH 336 ) and BB 350 and (MTH 241 or MTH 252 or MTH 252H))

FST 523. FOOD ANALYSIS (4). An integrated laboratory/lecture course covering methods used for the quantitative analysis of the chemical composition of foods and agricultural products. PREREQS: CH 324 and CH 337 and BB 350
FST 525. FOOD SYSTEMS CHEMISTRY (4).
The chemistry of food components in real-world food systems. Focused on water, proteins, carbohydrates, lipids, and food polymers, their interactions, and the effects of food processing and storage. Integrates writing as a learning tool and means of professional communication. Lec/lab/rec. PREREQS: FST 522 [C] and /or equivalent or instructor's discretion.

FST 560. BREWING SCIENCE (3). Chemistry, microbiology and engineering of malting and brewing operations for the production of beer, including the compositional analysis of barley, malt, hops, water, and beer and their effects on beer quality. PREREQS: (BI 212 or BI 212 H ) and CH 331 and CH 332 and BEE 472* and MB 302*

## FST 561. BREWING ANALYSIS (3).

Compositional analysis, laboratory techniques and sensory evaluation of barley, malt, hops, water, yeast and beer. Lec/lab. PREREQS: FST 460 and (MB 303 or MB 303H)
FST 566. WINE PRODUCTION PRINCIPLES
(3). Principles of wine production technology from grape berry development through bottling, covering the microbiology and chemistry of fermentation, aging and production practices of red and white table wines, as well as sparkling and dessert wines. PREREQS: (BI 212 or BI 212 H ) and CH 331 and CH 332 and BB 350 and MB 302

FST 567. WINE PRODUCTION, ANALYSIS, AND SENSORY EVALUATION (5). An integrated lecture/lab course that focuses on the practical fundamentals of red and white wine production. Students will make wine and monitor its progression from the grape to the bottle using standard chemical, microbial, and sensorial techniques. PREREQS: FST 566 [C] COREQS: FST 579
FST 579. FERMENTATION MICROBIOLOGY
(3). An introduction to industrial microbiology with a focus on the physiology of fermentation and use of microorganisms for the production of food ingredients, fermented foods, and beverages. FST students need to take BB 350 and MB students need to take BB 450 for their respective majors. CROSSLISTED as MB 479/MB 579. PREREQS: ( BI 212 or BI 212 H ) and CH 331 and CH 332 and (BB 350 or BB 450) and MB 302
FST 590. FOOD PROCESSING CALCULATIONS (2). Application of engineering principles to produce safe processed foods meeting consumer expectations for safety and quality. Validate process engineering models by comparing predicted values with new experimental data PREREQS: (BEE 572 [C] and MB 540 [C] ) and Microsoft Excel skills. COREQS: FST 591
FST 591. FOOD PROCESSING CALCULATIONS LABORATORY (1). Experiments in a pilot plant supported by a computer laboratory. Prepare samples of novel process technology products. PREREQS: Microsoft Excel skills. COREQS: FST 590

FST 595. FOOD PACKAGING (2). Fundamentals of food packaging covering the major packaging solutions with a focus on plastic, paper, and paperboard. PREREQS: Junior standing in a physical or biological science-based major.
FST 599. SPECIAL STUDIES (0-16). This course is repeatable for a maximum of 16 credits.
FST 601. RESEARCH (1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required.

FST 603. THESIS (1-16). This course is repeatable for a maximum of 999 credits.

FST 605. READING AND CONFERENCE (116). This course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required.
FST 607. SEMINAR (1). This course is repeatable for a maximum of 4 credits.
FST 620. ADVANCED TOPICS IN SENSORY SCIENCE (2). Current and/or advanced subjects in human sensory science. Includes 1) topics in human flavor perception that covers human psychophysics, neuroscience, and related fields, and 2) sensory evaluation techniques and data handling methods that are advanced in nature. Different points of view regarding above topics will be discussed. This course is repeatable for a maximum of 4 credits. PREREQS: FST 520 [C]

FST 628. FLAVOR CHEMISTRY (3). The definition of flavor, analytical methods in flavor chemistry, and mechanisms of odor interaction in food system will be discussed. In addition, an integrated approach will be used to study the flavor chemistry of economically-important agricultural products in the Pacific Northwest such as dairy products, fruits, and alcoholic beverages. PREREQS: FST 522 and FST 523
FST 639. FOOD POLYMER SCIENCE
(3). Investigates the theoretical principles and structure-function relationships of food macromolecules. The theoretical principles are related, where possible, to observable phenomena during thermal processing and storage of foods. PREREQS: (FST 422 or FST 522) and (FST 425 or FST 525) or equivalent
FST 641. PROCESSING WHEAT AND OTHER SMALL GRAINS: A MOLECULAR VIEW (3). Provides a fundamental overview of wheat and other cereals from the perspective of the molecular level events that are important in milling, baking, and other processes. Uses cereal processing (focused primarily on breadmaking) as the vehicle for placing elements of food chemistry, food polymer science, physical chemistry, and rheology into the cohesive framework of a single food category. Students will experience how the sciences of chemistry, physics, engineering, microbiology, biochemistry, nutrition, etc. amalgamate in the production of the selected cereal products. Lec/lab.
FST 666. ADVANCED TOPICS IN ENOLOGY (3). An in-depth investigation of advanced wine processing techniques and wine research, focusing on their impact on production and wine quality. PREREQS: FST 566 [B] and FST 567* [B] and it is recommended that the student have taken a viticulture course (HORT 454) and have a good understanding of how vineyard practices influence grape quality.

## HORTICULTURE

Bill Braunworth, Department Head 4017 Agricultural and Life Sciences Building
Oregon State University
Corvallis, OR 97331-7304

## FACULTY

Professors Bell, Long, Mehlenbacher, Myers, Strik
Associate Professors Andrews, Braunworth, Bubl, Castagnoli, Contreras, Deluc, Detweiler, Kaiser, Lambrinos, Langellotto, W. Miller, Nonogaki, Peachey, Renquist, Rosetta, Skinkis, Stone, Walton, Yang
Assistant Professors Albert, Bouska, Choate, Coop, Edmunds, Formiga, Garrett, Hooven, Kowalewski, Levin, Lukas, Melathopoulos, Moretti, Nackley, Powell, Sagili, Sanchez, Stoven, Vining, Wang, Wiman
Instructors Bonady, Danler, Dixon, Donegan, Lemein, B. Miller, Millison, Shay, Stephan

## COURTESY FACULTY

Bassil, Bryla, Chernoh, Choi, Einhorn, Finn, Golembiewski, Griesbach, Hedstrom, Hummer, Jeknic, Jana Lee, Jung-Min Lee, Martin, Owen Jr., Peters, Reed, Scagel, Schreiner, Seiter, Tarara

## ADJUNCT FACULTY

Bondi, Kennedy, Landgren, Stephenson

## Undergraduate Major

Horticulture (BS, CRED, HBS)

## Options

Ecological and Sustainable Horticultural Production
Ecological Landscape and Urban Forestry
General Horticulture (Online)
Horticultural Research
Plant Breeding and Genetics
Therapeutic Horticulture
Turf Management
Viticulture and Enology

## Minors

Entomology (Administered by the Department of Horticulture in the College of Agricultural Sciences.) Horticulture
Turf and Landscape Management

## Graduate Major

Horticulture (MS, PhD, MAIS)

## Graduate Options

Entomology
Plant Breeding and Genetics
Graduate Minor
Horticulture

Horticulture involves the production, genetic improvement, storage, and marketing of fruits, nuts, vegetables, flowers, and vegetable crops; and the design, construction, and management of landscape plantings such as parks, gardens, golf courses, restoration projects, and sports fields. It is a science, an art, an avocation, and a business.

Horticultural and other high-value specialty crops are the largest components of Oregon's agricultural industry. Landscape horticulture is a rapidly expanding service industry in the urban areas of the Pacific Northwest and throughout the nation. Excellent and varied career opportunities exist for college graduates in both crop and landscape horticulture.

The undergraduate program provides students with a solid background in the fundamental life and physical sciences, as well as an understanding of the technologies and management systems used in the horticultural industry. Problemsolving and decision-making skills are stressed, as is student involvement. Field trips are an important component of many of the courses.

The program has eight options:

1. Ecological and Sustainable Horticultural Production
2. Ecological Landscape and Urban Forestry
3. General Horticulture (Online)
4. Horticultural Research
5. Plant Breeding and Genetics
6. Therapeutic Horticulture
7. Turf Management
8. Viticulture and Enology

The Ecological and Sustainable Horticultural Production option prepares students for careers dealing directly or indirectly with the production, breeding, post-harvest handling, marketing, and scientific study of horticultural crops.

The Ecological Landscape and
Urban Forestry option prepares students to be practitioners and leaders in the design, construction, and installation of our green spaces.

The General Horticulture is an online option and is especially recommended for students already working in the horticultural industry, whose careers will benefit from post-secondary education in the horticultural sciences.

The Horticultural Research option prepares students to assist in research or to pursue graduate studies.

The Plant Breeding and Genetics option provides an interdisciplinary approach to applied plant breeding and practical experience in breeding and genetic analysis working in the greenhouse, field, and laboratory.

The Therapeutic Horticulture option prepares students to design healing and adapted gardens and to provide
therapy programs used to improve the quality of people's lives.

The Turf Management option prepares students for careers in golf course maintenance and park and athletic field maintenance.

The Viticulture and Enology option prepares students for careers in Oregon's growing vineyard and winery industry.

All options allow the student considerable flexibility to pursue a minor or to tailor course work to meet individual goals. Qualified students interested in the business aspects of horticulture are encouraged to pursue a minor in business. All undergraduates are required to complete either an approved internship or an undergraduate research project.

A high school student preparing for the program should follow a wellbalanced college preparatory curriculum. Course work in biology, chemistry, and mathematics is strongly recommended. Course work in the social sciences, humanities, arts, and foreign languages is also encouraged, and the student should develop public speaking and writing abilities.

The program was designed to facilitate timely completion of degree requirements by transfer and postbaccalaureate students. Students intending to transfer into the program from a two- or fouryear institution should complete as many of the lower-division requirements as possible. Some professional-technical courses from community colleges may be equivalent to lower-division horticulture courses. Equivalent credit can be given for such courses. Contact a departmental advisor for further information.

For additional information about the program, contact one of the undergraduate advisors: Kelly Donegan (head advisor, all options) and Sarah McDonald (advisor for the General Horticulture option).

## HORTICULTURE (BS, CRED, HBS)

Also available via Ecampus.

## BS Degree Baccalaureate Core

 Requirements (48)All students must complete an option and its corresponding core to complete the major, which requires a minimum of 180 credits.

## Major Core

## General Science

BI 211, BI 212, BI 213. *Principles of Biology $(4,4,4)$
OR the alternative BI 204-BI 206 series:
BI 204, BI 205, BI 206. *Introductory Biology I,II,III $(4,4,4)$
(Horticultural Research option requires the BI 211, BI 212, BI 213 biology series.)
CH 121. General Chemistry (5)
or CH 231. *General Chemistry (4) and

CH 261. *Laboratory for Chemistry 231 (1)

CH 122. *General Chemistry (5)
or CH 232. *General Chemistry (4) and
CH 262. *Laboratory for Chemistry 232 (1)
CH 123. *General Chemistry (5)
or CH 233. *General Chemistry (4) and
CH 263. *Laboratory for Chemistry 233 (1)
(Horticultural Research option requires the
CH 231/261, CH 232/262, CH 233/263
chemistry series.)
MTH 112. *Elementary Functions (4)
or MTH 241. *Calculus for Management and Social Science (4)
or MTH 245. *Mathematics for
Management, Life, and Social Sciences (4)
or MTH 251. *Differential Calculus (4)
(Horticultural Research option requires
MTH 251.)

## Agricultural Science

BOT 331. Plant Physiology (4)
BOT 350. Introductory Plant Pathology (4)
CROP 440. Weed Management (4)
ENT 311. Introduction to Insect Pest
Management (4)
SOIL 205. *Soil Science (3) and SOIL 206.
*Soil Science Laboratory for SOIL 205 (1) or CSS 205. *Soil Science (4)

## Orientation

HORT 112. Introduction to Horticultural Systems, Practices and Careers (2) or CROP/ENT/HORT/SOIL 101. Introduction to Horticulture, Crop, Soil, and Insect Science (1)
(For Plant Breeding \& Genetics option only.)

## Horticultural Science

HORT 301. The Biology of Horticulture (3)
HORT 311. Plant Propagation (4)
HORT 316. Plant Nutrition (4)

## Experiential Learning

HORT 403. Thesis (6-12) (Horticultural Research option requires HORT 403. Thesis.)
or HORT 410. Internship (6-12) (Plant Breeding and Genetics option requires PBG 403. Thesis or PBG 410. Internship (6-12) and CSS majors only need to complete 3 credits minimum.)
HORT 412. Career Exploration: Internships and Research Projects (1)

## Grade Requirements for <br> Horticulture Major

Students pursuing a major in horticulture are required to receive a grade of C- or better in all HORT (horticulture) and PBG (plant breeding and genetics) courses that are required for completion of their major and option. If a grade below C- is received in a HORT or PBG course required for their major and option a student will need to re-take the course and receive a grade of C - or better. If the grade below a C- was received for a course that is part of a group of courses where the student can select which courses to take (i.e., they do not need to take all of the courses, just a specified number of courses or credits) then it would be acceptable for the student to substitute a course for the one that they
had received a grade below a C-. For example, in most of our options, a student needs to complete three of four plant identification courses. If a student received a grade lower than a C-in one of the classes, they could either re-take the same course or complete the other three courses with a grade of C - or better.

## Grade Requirements for

Horticulture Major - Plant Breeding and Genetics Option
Students pursuing an option in Plant Breeding and Genetics, under the Horticulture Major, and under the Crop and Soil Science Major, are required to receive a grade of C- or better in all BOT, CROP, CSS, FOR, HORT, MB, PBG, SOIL and ST courses required within their major and option.

## Major Code: 145

## OPTIONS

## ECOLOGICAL AND SUSTAINABLE HORTICULTURAL PRODUCTION OPTION

Students in the Ecological and Sustainable Horticultural Production option gain the knowledge and skills necessary to plan and manage horticultural production systems for fruit, vegetable, nursery, and greenhouse crops using environmentally sustainable practices. They come to see horticulture as a way to create and maintain vital and productive agro-ecosystems and understand the role of horticulture within a larger societal context which includes issues of ecology, economics, and politics.

The Ecological and Sustainable Horticultural Production option stresses active learning, case studies about real-world situations, and integrating ideas and facts from many different subjects. Ecological and Sustainable Horticultural Production graduates will be active learners, and possess skills prized by employers and useful for establishing their own enterprises. They will have a broad and thorough knowledge of horticulture and the skills and knowledge needed to identify, develop, and practice ecological and sustainable methods. They will be able to think critically. They will be skilled in finding and using information, as well as synthesizing information from many sources to analyze novel situations and solve problems in the field.

The Ecological and Sustainable Horticultural Production option uses the new horticulture major core.

## Option Requirements

## Plant Materials

## Select 3 of the following courses:

BOT 313. Plant Structure (4)
BOT 321. Plant Systematics (4)
BOT 323. ^Flowering Plants of the World (3) BOT 425. Flora of the Pacific Northwest (3) CROP 200. Crop Ecology and Morphology
(3)

FES 241. Dendrology (3)
HORT 226. Landscape Plant Materials I:
Deciduous Hardwoods and Conifers (4)
HORT 228. Landscape Plant Materials II:
Spring Flowering Trees and Shrubs (4)
HORT 251. Temperate Tree Fruit, Berries,
Grapes, and Nuts (2)
HORT 255. Herbaceous Ornamental Plant
Materials (3)
HORT/CROP 433. Systematics and
Adaptation of Vegetable Crops (4)

## Ecology

HORT 318. ^Applied Ecology of Managed Ecosystems (3)

## Technology

HORT/CROP 414. Precision Agriculture (4)

## Horticultural Communication

HORT 318. ^Applied Ecology of Managed Ecosystems (3)
HORT 407. Seminar (1)
HORT 411. Horticulture Book Club (1)

## Capstone

HORT/CROP 480. Case Studies in Cropping Systems Management (4)

## Advanced Horticultural Science

HORT/CROP 300. Crop Production in Pacific Northwest Agroecosystems (4)
HORT 495. Horticultural Management Plans (3)
PBG 430. Plant Genetics (3)
Horticultural Production Electives
HORT 360. Irrigation and Drainage (4)
Select 1 of the following courses:
HORT 260. Organic Farming and Gardening (3)

HORT 351. Floriculture and Greenhouse Systems (4)
HORT 361. Plant Nursery Systems (4)
HORT 451. Tree Fruit Physiology and Culture (4)
HORT 452. Berry and Grape Physiology and Culture (4)
HORT 453. Grapevine Growth and Physiology (3)
HORT 454. Principles and Practices of Vineyard Production (3)

## Horticultural Electives

Select a minimum of 9 credits from the above list or from the following list:
CROP 280. Introduction to the Complexity of Oregon Cropping Systems (4)
CROP/SOIL 325. Ag and Environmental
Predicaments: A Case Study Approach (3)
ENT 322. Honey Bee Biology and Beekeeping (3)
HORT 199. Special Topics (1-16)
HORT 199. Special Topics [Issues in
Sustainable Agriculture] (1)
HORT 285. Permaculture Design and
Theory: Certificate Course (4)
HORT 299. Special Topics (1-16)
HORT 314. Principles of Turfgrass Maintenance (4)
HORT 399. Special Topics (1-16)
HORT 405. Reading and Conference
[Pesticide Applicator Training] (4)
HORT/CROP 463. Seed Biology (3)
HORT 485. Advanced Permaculture Design (3)

HORT 499. Special Topics (1-16)
HORT 499. Special Topics [Advanced Organic Farming] (2)
or CROP 499. Special Topics [Advanced Organic Farming] (2)
HORT 499. Special Topics [Insect
Agroecology] (3)
or ENT 499. Special Topics [Insect
Agroecology] (3)
HORT 499. Special Topics [Organic and 3rd
Party Certification Practices] (2)
or CROP 499. Special Topics [Organic and
3rd Party Certification Practices] (2)
PBG 441. Plant Tissue Culture (4)
PBG 450. Plant Breeding (4)
SOIL 316. Nutrient Cycling in
Agroecoystems (4)
SOIL 455. Biology of Soil Ecosystems (4)

## Business Management

Select 1 of the following courses:
AEC 211. Management in Agriculture (4)
AEC 221. Marketing in Agriculture (3)
AEC 250. *Introduction to Environmental Economics and Policy (3)
AEC 251. *Introduction to Agricultural and Food Economics (3)
BA 215. Fundamentals of Accounting (4)
BA 260. Introduction to Entrepreneurship (4)

BA 463. Family Business Management (4)

## Government and Policy

Select 1 of the following courses:
AEC 250. *Introduction to Environmental Economics and Policy (3)
AEC 251. *Introduction to Agricultural and Food Economics (3)
AEC 253. Environmental Law, Policy, and Economics (4)
AGRI 411. Introduction to Food Systems: Local to Global (3)
FES 492. Ecosystem Services Ecology, Sociology, Policy (3)
NR 455. Natural Resource Decision Making (4)

PS 201. *Introduction to United States Government and Politics (4)
PS 205. *Introduction to International Relations (4)
PS 331. *State and Local Politics (4)
PS 475. Environmental Politics and Policy (4)

PS 477. International Environmental Politics and Policy (4)
SUS 350. *Sustainable Communities (4)
Ecology and Sustainability

## Ecosystems Courses

Meets Synthesis requirements. Each course must be from a different department.

## Contemporary Global Issues

Select 1 of the following courses:
AEC 351. *Natural Resource Economics and Policy (3)
AEC/ECON 352. *Environmental
Economics and Policy (3)
BI 301. *Human Impacts on Ecosystems (3)
BI 306. *^Environmental Ecology (3)
CROP 330. *World Food Crops (3)

## ECOLOGICAL LANDSCAPE AND URBAN FORESTRY OPTION

The landscape industry and urban forestry sector are large and diverse, offering careers in landscape design, construction, management, and restoration; conservation; park, botanical and public garden management; urban forestry policy and management; research; consulting; and interior-scaping. Landscape professionals design, build, and manage aesthetically pleasing, functional, and environmentally responsible natural spaces where we all live, work, and play. In recent years, the industry has expanded and rapidly become more sophisticated to meet the challenges of today's urban environment. Consequently, there is great demand for creative, motivated individuals who love the outdoors and enjoy working with plants, soil, water, nature, and people. In the Ecological Landscape and

Urban Forestry option, students will learn about sustainable landscape management, urban forestry, and about the ecosystem services provided by the built environment, such as carbon sequestration and climate regulation, temperature modulation, waste decomposition and detoxification, purification of water and air, storm and rainwater management, crop pollination, pest and disease control, nutrient dispersal and cycling, seed dispersal, and intellectual and spiritual inspiration, recreational experiences and scientific discovery.

The Ecological Landscape and Urban Forestry option uses the new horticulture major core.

## Option Requirements

## Plant Materials

HORT 226. Landscape Plant Materials I:
Deciduous Hardwoods and Conifers (4)
HORT 228. Landscape Plant Materials II:
Spring Flowering Trees and Shrubs (4)
Select 1 of the following courses:
BOT 313. Plant Structure (4)
BOT 321. Plant Systematics (4)
BOT 323. ^Flowering Plants of the World (3)

BOT 425. Flora of the Pacific Northwest (3)
HORT 251. Temperate Tree Fruit, Berries, Grapes, and Nuts (2)
HORT 255. Herbaceous Ornamental Plant Materials (3)
HORT/CROP 433. Systematics and
Adaptation of Vegetable Crops (4)
RNG 353. Wildland Plant Identification (4)

## GENERAL HORTICULTURE <br> OPTION

## Via Ecampus only.

The online General Horticulture option curriculum is built on a strong foundation in horticultural science. This option is especially recommended for students already working in the horticultural industry, whose careers will benefit from post-secondary education in the horticultural sciences. Students learn horticultural principles and practices associated with horticultural production within the context of plant biology, pest management, soils, ecology, and economics with applications in plant nutrition, pest management, business, and marketing. In addition, students are well-informed about the latest technology and trends in the field. The option provides sufficiently broad electives for the student to build his or her curriculum to meet specific goals.

Our graduates are skilled in finding and using information, as well as synthesizing information from many sources
to solve problems. On-campus students benefit from field and lab experiences, research projects, and internships. Ecampus students will benefit from these same hands-on opportunities. With departmental support, the online student will identify opportunities for field, laboratory, internship, and research experiences, which will be vetted by the Department of Horticulture. Some lab experiences will be in the form of kits that the student will purchase and receive by mail; others will be virtual lab experiences created collaboratively between Department of Horticulture faculty and the curriculum design team in Ecampus.

The internship provides professionallevel interaction with growers, managers, field reps, and consultants, and provides hands-on experience. Similarly, the research project familiarizes students with research topics and connects them with researchers in academia, public agencies, and private industry. Mentoring and advising will assist online students in taking advantage of departmental strengths. We anticipate that many online students will already be employed in one of the horticultural industries or at research facilities.

The General Horticulture option uses the new horticulture major core.

## Option Requirements

## Plant Materials

Select 3 of the following courses:
BOT 440. Field Methods in Plant Ecology (4)
HORT 226. Landscape Plant Materials I:
Deciduous Hardwoods and Conifers (4)
HORT 228. Landscape Plant Materials II:
Spring Flowering Trees and Shrubs (4)
HORT 255. Herbaceous Ornamental Plant Materials (3)

## HORTICULTURAL RESEARCH OPTION

The Horticultural Research option is designed for students interested in graduate school and a career in academic or industrial research. It provides an excellent foundation in the natural sciences and horticulture and accommodates the specific interests of each student. Graduates of this program will be critical thinkers, and experienced technical communicators. They will be skilled in finding and using information, as well as synthesizing information from many sources to analyze novel situations and solve problems.

The relationship between the student and the research mentor is a key feature of this program. The mentor will assist the student in choosing upper-division classes that match the student's interests. Each student also completes a research project under the guidance of his or her mentor and writes an undergraduate thesis. Students can work with horticulture researchers on the OSU campus or at research institutions of their choosing. Our undergraduates have been welcomed at local research institutions including the United States Department of Agriculture-Agricultural Research Service laboratories, the National Clonal Germplasm Repository in Corvallis, the Corvallis Plant Materials Center of the National Resources Conservation Service, and the North Willamette Research and Extension Center.

The Horticultural Research option uses the new horticulture major core.

## Option Requirements

Plant Materials
Select 1 of the following courses:

BOT 313. Plant Structure (4)
BOT 321. Plant Systematics (4)
BOT 425. Flora of the Pacific Northwest (3)
CROP 200. Crop Ecology and Morphology (3)

FES 241. Dendrology (3)
HORT 226. Landscape Plant Materials I:
Deciduous Hardwoods and Conifers (4)
HORT 228. Landscape Plant Materials II:
Spring Flowering Trees and Shrubs (4)
HORT 251. Temperate Tree Fruit, Berries,
Grapes, and Nuts (2)
HORT 255. Herbaceous Ornamental Plant Materials (3)
HORT/CROP 433. Systematics and
Adaptation of Vegetable Crops (4)

## Ecology

Select 1 of the following courses:
BI 370. Ecology (3)
BOT 341. Plant Ecology (4)
HORT 318. ^Applied Ecology of Managed Ecosystems (3)

## Technology

Select 1 of the following courses:
HORT/CROP 414. Precision Agriculture (4)
PBG 441. Plant Tissue Culture (4)

## Horticultural Communication

HORT/BRR 406. Projects: Data Presentations (1)

HORT 407. Seminar (1)
HORT 411. Horticulture Book Club (1)
Select 1 of the following Writing

## Intensive Courses:

BOT 323. ${ }^{\wedge}$ Flowering Plants of the World (3)
CROP/SOIL 325. ^Ag and Environmental Predicaments: A Case Study Approach (3)
HORT 318. ^Applied Ecology of Managed Ecosystems (3)

## Capstone

Select 1 of the following courses:
HORT 452. Berry and Grape Physiology and Culture (4)
HORT 453. Grapevine Growth and
Physiology (3)
HORT 454. Principles and Practices of
Vineyard Production (3)
HORT/CROP 463. Seed Biology (3)
HORT/CROP 480. Case Studies in Cropping Systems Management (4)
HORT 495. Horticultural Management Plans (3)
PBG 450. Plant Breeding (4)

## Advanced Horticultural Science

PBG 430. Plant Genetics (3)

## Math and Science Foundation

## Courses

BB 350. Elementary Biochemistry (4)
CH 331. Organic Chemistry (4)
CH 332. Organic Chemistry (4)
MTH 251. *Differential Calculus (4)
MTH 252. Integral Calculus (4)
PH 201. *General Physics (5)
PH 202. *General Physics (5)
ST 351. Introduction to Statistical Methods (4)

Select 12 credits of upper-division
Horticulture and Life Science
courses (with approval of research mentor and advisor)

## Ecology and Sustainability

Ecosystems Courses
Meets Synthesis Requirements. Each course must be from a different department.

## Contemporary Global Issues

Select 1 of the following courses:
AEC 351. *Natural Resource Economics and Policy (3)
AEC/ECON 352. *Environmental
Economics and Policy (3)
BI 301. *Human Impacts on Ecosystems (3)
BI 306. *^Environmental Ecology (3)
CROP 330. *World Food Crops (3)
FES 365. *Issues in Natural Resources
Conservation (3)
FW 325. *Global Crises in Resource Ecology (3)

GEOG 300. *Sustainability for the Common Good (3)
GEOG 330. *^Geography of International
Development and Globalization (3)
HORT/ENT 331. *Pollinators in Peril (3)
SUS 350. *Sustainable Communities (4)
Z 349. *Biodiversity: Causes, Consequences, and Conservation (3)
Science, Technology and Society
Select 1 of the following courses:
ANS 315. *Contentious Social Issues in Animal Agriculture (3)
ANS/FES/FW/SOC 485. *Consensus and
Natural Resources (3)
ATS 320. *The Changing Climate (3)
[Terminated fall 2017]
BI 348. *Human Ecology (3)
BOT 324. *Fungi in Society (3)
CH 374. *Technology, Energy, and Risk (3)
ENGR 350. *Sustainable Engineering (3)
ENGR 363. *Energy Matters (3)
ENSC 479. *^Environmental Case Studies (3)

FES/TOX 435. *Genes and Chemicals in Agriculture: Value and Risk (3)
FES/NR/RNG 477. *Agroforestry (3)
FST 421. *Food Law (3)
FW/HSTS 470. *Ecology and History:
Landscapes of the Columbia Basin (3)
GEOG 300. *Sustainability for the Common Good (3)
GEOG 340. *Introduction to Water Science and Policy (3)
HORT 330/ENT 300. *Plagues, Pests and Politics (3)
HST 481. *Environmental History of the United States (4)
HSTS 421. *Technology and Change (4)
NUTR 312. *Issues in Nutrition and Health (3)

PH 313. *Energy Alternatives (3)
PHL 325. *Scientific Reasoning (4)
PS 476. *Science and Politics (4)
SOIL 395. *World Soil Resources (3)
SUS 304. *Sustainability Assessment (4)

## Total credits=64-72

## Footnotes:

## PLANT BREEDING AND GENETICS OPTION

The Plant Breeding and Genetics (PBG) option at Oregon State University embodies the Land Grant mission of integrated research, teaching and extension in the context of cultivar development and fundamental genetics. Plant breeding is a collaborative discipline spanning everything from classical field approaches to gene manipulation at the molecular level. Breeders regularly cooperate with pathologists, entomologists, soil scientists, physiologists, food scientists, genomicists, molecular biologists and experts in other fields.

Students in the Plant Breeding and Genetics option will learn an interdisciplinary approach to applied plant breeding by taking courses across a broad spectrum of disciplines. The option may be tailored to meet students' career goals including graduate school, as well as directly entering public or private sector breeding programs. After completing their degree, students will have gained fundamental knowledge in plant breeding that may be applied in a range of crops including annual and perennial horticultural crops, agronomic food and feed crops, and forestry products.
This option is under both the Crop and Soil Science major and the Horticulture major. The option uses the new horticulture major core.

## Option Requirements

## Plant Materials

Select 2 of the following courses:
BOT 313. Plant Structure (4)
BOT 321. Plant Systematics (4)
BOT 425. Flora of the Pacific Northwest (3)
CROP 200. Crop Ecology and Morphology (3)

HORT 226. Landscape Plant Materials I: Deciduous Hardwoods and Conifers (4)
HORT 228. Landscape Plant Materials II:
Spring Flowering Trees and Shrubs (4)
HORT 251. Temperate Tree Fruit, Berries,
Grapes, and Nuts (2)
HORT 255. Herbaceous Ornamental Plant
Materials (3)
HORT/CROP 433. Systematics and
Adaptation of Vegetable Crops (4)

## Ecology

Select 1 of the following courses:
BI 370. Ecology (3)
BOT 341. Plant Ecology (4)
HORT 318. ^Applied Ecology of Managed
Ecosystems (3)

## THERAPEUTIC HORTICULTURE <br> \section*{OPTION}

Horticultural therapy is a rapidly growing area of horticulture. The therapeutic benefits of garden environments have been understood and applied since ancient times. Horticultural therapy is recognized as a practical and effective treatment with wide-ranging benefits for people in therapeutic, vocational, and wellness programs. It is now taught and practiced throughout the world in a wide diversity of settings and cultures including mental health, physical rehabilitation, voca-
tional services, corrections, long-term care and hospice, special education, and youth and community services. Horticultural therapists design garden spaces that accommodate people with a wide range of abilities and assist people with physical, emotional or mental disabilities in gaining skills, adaptations, and coping methods that enhance their lives.

Students in the Therapeutic Horticulture option graduate with a strong foundation in horticultural science and practices. In addition, they acquire the skills and knowledge needed to design healing and adapted gardens and to provide therapy programs used to improve the quality of people's lives.

The Therapeutic Horticulture option uses the new horticulture major core.

## Option Requirements

## Plant Materials

Select 2 courses from the following:
HORT 226. Landscape Plant Materials I:
Deciduous Hardwoods and Conifers (4)
HORT 228. Landscape Plant Materials II:
Spring Flowering Trees and Shrubs (4)
HORT 251. Temperate Tree Fruit, Berries,
Grapes, and Nuts (2)
HORT 255. Herbaceous Ornamental Plant Materials (3)
HORT/CROP 433. Systematics and
Adaptation of Vegetable Crops (4)

## TURF MANAGEMENT OPTION

Turf is the central feature of golf courses, sports fields, parks, cemeteries, and landscapes in cities and neighborhoods throughout the United States. More than 200 golf course superintendents in Oregon and 1,500 in Washington, California, and Idaho manage turf as the focal point of their facilities. Professional lawn care is a thriving industry in Oregon communities that is complemented by a vibrant sports turf and grass seed industry, all of which adds millions of dollars to local economies. This continually growing industry offers more career track jobs than any other area in horticulture.
Students in turf management become golf course superintendents, athletic field and park managers, and lawn care professionals with commensurate responsibilities and salaries. Students in this curriculum must have a passion for the outdoors, for turf maintenance, and for working with other people in a team context. Prior practical work experience and a willingness to work summers and/ or extended internships while at OSU is a characteristic shared by our students. The curriculum focuses on science, technology, 'in-field' hands-on experience, and decision making in real-world settings. Active participation in student clubs, class field labs, and out-of-class
internship work experiences is critical to success. Activities stress networking and exposure to multiple work environments to help students integrate quickly into the industry.
The Turf Management option uses the new horticulture major core.

## VITICULTURE AND ENOLOGY

## OPTION

The Oregon winegrape industry has experienced steady growth since its beginning in 1961. Oregon now ranks third nationally in the number of wineries, and fourth in wine production and vineyard acreage. Vineyards and wineries have also become an integral part of the Oregon tourism industry.

The viticulture and enology curriculum addresses the educational needs of students planning to enter the winegrape industry as viticulturists, vineyard managers, consultants and professionals.
The curriculum involves active learning, providing case studies about real-world situations, enhancing critical thinking skills through understanding the art and science of vineyard and winery production. Viticulture and enology students will be active learners in a multi-disciplinary major. Upon graduation, they will possess the skills prized by employers as managers with the ability to think critically and troubleshoot in the vineyard and winery. They will have a thorough knowledge of vine physiology, vineyard production, winery production and related topics. They will understand how their actions in the field affect the quality of the finished wine. They will be skilled in finding resources and using information to analyze novel situations and solve problems in the industry.

The Viticulture and Enology option uses the new horticulture major core.

## Fermentation Science

FST 466. Wine Production Principles (3)
FST 467. Wine Production, Analysis, and Sensory Evaluation (5)

## Business Management

Select 1 of the following courses:
AEC 211. Management in Agriculture (4)
AEC 221. Marketing in Agriculture (3)
AEC 250. *Introduction to Environmental Economics and Policy (3)
AEC 251. *Introduction to Agricultural and Food Economics (3)
BA 215. Fundamentals of Accounting (4) BA 260. Introduction to Entrepreneurship (4) BA 463. Family Business Management (4)

## Ecology and Sustainability

## Ecosystems Courses

Meets Synthesis requirements. Each course must be from a different department.

## Contemporary Global Issues

Select 1 of the following courses:
AEC 351. *Natural Resource Economics and Policy (3)
AEC/ECON 352. *Environmental
Economics and Policy (3)
BI 301. *Human Impacts on Ecosystems (3)
BI 306. *^Environmental Ecology (3
CROP 330. *World Food Crops (3)
FES 365. *Issues in Natural Resources Conservation (3)
FW 325. *Global Crises in Resource Ecology (3)

GEOG 300. *Sustainability for the Common Good (3)
GEOG 330. *^Geography of International Development and Globalization (3)
HORT/ENT 331. *Pollinators in Peril (3)
SUS 350. *Sustainable Communities (4)
Z 349. *Biodiversity: Causes, Consequences and Conservation (3)
Science, Technology and Society
Select 1 of the following courses:
ANS 315. *Contentious Social Issues in Animal Agriculture (3)
ANS/FES/FW/SOC 485. *Consensus and Natural Resources (3)
ATS 320. *The Changing Climate (3)
[Terminated fall 2017]
BI 348. *Human Ecology (3)
BOT 324. *Fungi in Society (3)
CH 374. *Technology, Energy, and Risk (3)

ENGR 350. *Sustainable Engineering (3)
ENGR 363. *Energy Matters (3)
ENSC 479. *^Environmental Case Studies (3)
FES/TOX 435. *Genes and Chemicals in
Agriculture: Value and Risk (3)
FES/NR/RNG 477. *Agroforestry (3)
FST 421. *Food Law (3)
FW/HSTS 470. *Ecology and History:
Landscapes of the Columbia Basin (3)
GEOG 300. *Sustainability for the Common Good (3)
GEOG 340. *Introduction to Water Science and Policy (3)
HORT 330/ENT 300. *Plagues, Pests and Politics (3)
HST 481. *Environmental History of the
United States (4)
HSTS 421. *Technology and Change (4)
NUTR 312. *Issues in Nutrition and Health (3)

PH 313. *Energy Alternatives (3)
PHL 325. *Scientific Reasoning (4)
PS 476. *Science and Politics (4)
SOIL 395. *World Soil Resources (3)
SUS 304. *Sustainability Assessment (4)
Total credits=57-63
Footnotes:

* Baccalaureate Core Course (BCC)
${ }^{\wedge}$ Writing Intensive Course (WIC)
Option Code: 613
UNDERGRADUATE MINORS

## HORTICULTURE MINOR

Also available via Ecampus.
The Horticulture minor is an effective way for students, including majors outside the College of Agricultural Sciences, to meet their interests. The goals of students minoring in horticulture may vary widely. With just 5 credits in the minor core, students will be able to tailor their additional horticulture course work to personal goals.
HORT 112. Introduction to Horticultural Systems, Practices and Careers (2)
HORT 301. The Biology of Horticulture (3)
Additional HORT credits (22) (At least 10 must be upper division)
Course selection must be approved by the departmental academic advisor.

## Total=27 credits

Students are required to earn a grade of C- or better in all HORT and PBG courses taken to complete the minor.

## Minor Code: 145

## TURF AND LANDSCAPE

## MANAGEMENT MINOR

The Turf and Landscape Management minor is an effective way for students, including majors outside of the College of Agricultural Sciences, to meet their interests. The two areas of focus, turf or landscape, allow students to tailor their course work to personal goals.

## Requirements

HORT 112. Introduction to Horticultural Systems, Practices and Careers (2)

HORT 301. The Biology of Horticulture (3)
SOIL 205. *Soil Science (3) and SOIL 206.
*Soil Science Laboratory for Soil Science 205 (1)
or CSS 205. *Soil Science (4)
Plus courses listed under Turf Focus or Landscape Focus

## Turf Focus

HORT 314. Principles of Turfgrass
Maintenance (4)
HORT 315. Sustainable Landscapes:
Maintenance, Conservation, Restore (4)
HORT 360. Irrigation and Drainage (4)
HORT 405. Reading and Conference:
"Pesticide Applicator Training" (4)
HORT 418. Golf Course Maintenance (4)

## Total=29

Landscape Focus
Select two of the following courses:
HORT 226. Landscape Plant Materials I:
Deciduous Hardwoods and Conifers (4)
HORT 228. Landscape Plant Materials II:
Spring Flowering Trees and Shrubs (4)
HORT 255. Herbaceous Ornamental Plant Materials (3)
Select 10 to 11 credits from the following, to total a minimum of 27 credits:
HORT 285. Permaculture Design and
Theory: Certificate Course (4)
HORT 314. Principles of Turfgrass
Maintenance (4)
HORT 315. Sustainable Landscapes:
Maintenance, Conservation, Restore (4)
HORT 318. ^Applied Ecology of Managed Ecosystems (3)
HORT 358. Landscape Construction
Techniques (4)
HORT 360. Irrigation and Drainage (4)
HORT 380. Sustainable Landscape Design (3)

HORT 405. Reading and Conference:
"Pesticide Applicator Training" (4)

## Total=27

## Minimum Grade Requirement:

Students must receive a grade of C- or better in all HORT and PBG courses taken to complete the minor.

## Footnotes:

* Baccalaureate Core Course (BCC)
${ }^{\wedge}$ Writing Intensive Course (WIC)

## Minor Code: 147

HORTICULTURE (MS, PhD, MAIS)
The Department of Horticulture offers graduate work leading to the Master of Science (MS) and Doctor of Philosophy (PhD) degrees. The MS and PhD degrees culminate in original research reported in a thesis and are often pursued by students interested in research related careers, or who wish direct training in research methods.
The Department of Horticulture has strengths and expertise in:

Breeding, Genetics, and Biotechnology. Faculty and students explore fundamental questions related to the control and regulation of plant traits using a variety of techniques and tools
including molecular biology, genomics and bioinformatics. Faculty and students also apply fundamental knowledge to make genetic improvements to crop plants and to modify plant growth and productivity. Current breeding programs exist in berry, hazelnut and vegetable systems.

Sustainable Crop Production. Faculty and students explore basic and applied questions related to the design and management of sustainable and productive horticultural cropping and farming systems. The program integrates a diverse set of disciplines and tools including basic plant sciences, applied crop management, and field experimentation and analysis. Program areas include viticulture and enology, berries and small fruit, tree fruit and nuts, vegetables, nursery and greenhouse production, and entomology.

Community and Landscape Horticultural Systems. Faculty and students explore basic and applied questions related to the design and function of urban and community landscapes including golf courses, sports fields, gardens, parks and open space. Program areas include turf and landscape management, community food systems, pollinator ecology, sustainable landscapes, and entomology

For more information, visit our website at http://horticulture.oregonstate. edu, contact a member of the graduate faculty, or contact John Lambrinos, Graduate Coordinator, Department of Horticulture, 4017 Agricultural and Life Sciences Building, OSU, Corvallis, OR 97331-7304, email: john.lambrinos@ oregonstate.edu.
Major Code: 1450

## GRADUATE OPTIONS

## ENTOMOLOGY OPTION

The Entomology (ENT) option at Oregon State University embodies the Land Grant mission of integrated research, teaching, and extension in the context of understanding the basic biology of insects and, with this knowledge, then working with insects in natural and/or managed environments. The discipline of entomology at Oregon State University covers behavior, ecology, evolution, physiology, systematics, molecular biology, chemical ecology, plant-insect interactions, pollination by honey bees and native bees, biological control, integrated pest management, and insecticide toxicology. Oregon State Entomology addresses insect-related issues in aquatic and terrestrial systems in natural, agricultural, forested, and urban environments. Entomologists collaborate with plant scientists, physiologists, pathologists, soil scientists, geneticists, molecular biolo-
gists, and experts in other fields.
Students in the Entomology option will conduct thesis research related to insects under the supervision of an entomologist associated with the graduate faculty in Crops or Horticulture, and take courses that provide knowledge and understanding about insects. After completing their degree, students will have gained fundamental knowledge in entomology that may be applied in agricultural, aquatic, forested, natural, and urban environments.

## Requirements

Thesis Credits (3)
ENT 503. Thesis (3)

## Course Credits (9)

Select 9 credits from the
following:
ENT 507. Seminar (1)
ENT 520. Insect Ecology (3)
ENT 540. Issues in Insect Toxicology (3)
ENT 599. Special Topics (3)
Z 540. Insect Physiology (3)
Z 575. Insect Biodiversity Survey (4)
Z 577. Aquatic Entomology (4)

## Total=12 Credits

Option Code: 5333
PLANT BREEDING AND GENETICS OPTION
The Plant Breeding and Genetics (PBG) graduate option at Oregon State University embodies the Land Grant mission of integrated research, teaching and extension in the context of cultivar development and fundamental genetics. Plant breeding is a collaborative discipline spanning everything from classical field approaches to gene manipulation at the molecular level. Breeders regularly cooperate with pathologists, entomologists, soil scientists, physiologists, food scientists, genomicists, molecular biologists and experts in other fields.
Students in the Plant Breeding and Genetics graduate option will learn an interdisciplinary approach to applied plant breeding by taking courses across a broad spectrum of disciplines. The option may be tailored to meet students' career goals including further graduate study, as well as direct entry into public or private sector breeding programs. After completing the degree, students will have the fundamental knowledge of plant breeding that may be applied to a range of crops including annual and perennial horticultural crops, agronomic food and feed crops, and forestry products.

## Additional Requirements

Select 12 credits from the following:
BOT/MCB 575. Comparative Genomics (4)
CROP 590. Experimental Design in
Agriculture (4)
PBG 507. Seminar (1-2)
PBG/HORT 519. Current Topics in Plant Breeding and Genetics (2)

PBG 530. Plant Genetics (3)
PBG/MCB 541. Plant Tissue Culture (4)
PBG 550. Plant Breeding (4)
PBG/MCB 620. DNA Fingerprinting (1)
PBG/MCB 621. Genetic Mapping (1)
PBG/MCB 622. Mapping Quantitative Trait Loci (1)
PBG 650. Advanced Plant Breeding and Quantitative Genetics (3)
Option Code: 1210

## HORTICULTURE GRADUATE

 MINORFor more details, see the departmental advisor.

## Minor Code: 1450

## ■ CROP SCIENCE COURSES

CROP 101. INTRODUCTION TO
HORTICULTURE, CROP, SOIL, AND INSECT
SCIENCE (1). Introduces students with interests in horticulture, crop, soil, and insect sciences to educational and professional opportunities in these disciplines. Speakers will discuss opportunities in research and academia as well as in the applied professional job market. Open to all students. CROSSLISTED as ENT 101, HORT 101, SOIL 101.
CROP 199. SPECIAL STUDIES: ISSUES IN SUSTAINABLE AGRICULTURE (1-16). Invited speakers present seminars on specific aspects of agriculture relating to sustainability. Topics vary from term to term and year to year. May be repeated for credit when topics differ. This course is repeatable for a maximum of 16 credits.
CROP 200. CROP ECOLOGY AND
MORPHOLOGY (3). An introduction to the concepts and principles of crop ecology and morphology and a foundation for other crop science courses. Examines the dynamics and function of crop communities, and the biotic and environmental interactions that influence productivity. Fundamentals of the developmental morphology of crop seeds, seedlings, and plants. Morphological features of seeds and plants in relation to the identification of crop families and species of economic importance.
CROP 280. INTRODUCTION TO THE
COMPLEXITY OF OREGON CROPPING
SYSTEMS (4). An introduction to field cropping systems of western Oregon. Provides students with a broad overview of the complexity of cropping systems and the knowledge required to grow and produce a crop--plant physiology, seed biology, plant pathology, soil fertility, entomology, and weed science. Students will observe a crop under different management strategies to enhance understanding of management approaches.
CROP 300. CROP PRODUCTION IN PACIFIC NORTHWEST AGROECOSYSTEMS (4).
Relation of crop production to human culture and the natural environment. Origins of agriculture and the processes of agricultural change, and productivity and sustainability of specific crop production systems in the Pacific Northwest. History, geography, resource requirements, and key challenges faced are presented. Fundamental crop production practices in relation to productivity and sustainability. Lec/lab/rec. CROSSLISTED as HORT 300. PREREQS: One year of general biology or equivalent.
CROP 310. FORAGE PRODUCTION (4). Importance of, and current production practices for, forage crops. Lec/lab. PREREQS: (CSS 300 or CROP 300 or HORT 300) and (CSS 305 or CSS 205 or SOIL 205) or equivalent
CROP 319. PRINCIPLES OF FIELD CROP
PRODUCTION (3). Provides students with an understanding of the basic principles of field crop production--tillage, soil testing, fertilization,
variety selection, planting, and in-season crop management. Management practices for wheat, corn and soybean as PREREQS: CROP 280 or equivalent and SOIL 205

## CROP 325. ^AG AND ENVIRONMENTAL

PREDICAMENTS: A CASE STUDY APPROACH
(3). Evaluation of controversial agricultural and environmental problems. Production of clear oral and written documents describing and analyzing problems and specific courses of action utilizing team-building skills. (Writing Intensive Course) CROSSLISTED as SOIL 325. PREREQS: (CSS 305 [D-] or CSS 205 [D-] or SOIL 205 [D-] )

CROP 330. *WORLD FOOD CROPS (3). Origin, production, utilization, and improvement of the world's major food crops. The role of crop production in global economic and social development; food security and worldwide nutritional requirements. (Bacc Core Course) PREREQS: CSS 200 or CROP 200 recommended.

CROP 340. *PENS AND PLOWS: WRITINGS OF WORKING THE LAND (3). A survey of literature from ancient Greece to the twentieth century focusing on the significance of agricultural life and/ or the natural world. Students read and discuss writings considered critical in the development of Western culture and receive input on the literary significance and the accuracy of agriculture presented within the readings. (Bacc Core Course) Taught via Ecampus only.

CROP 401. RESEARCH (1-16). This course is repeatable for a maximum of 16 credits.

CROP 403. THESIS (1-16). Independent, original study and preparation of a senior thesis. This course is repeatable for a maximum of 16 credits PREREQS: Senior standing.
CROP 405. READING AND CONFERENCE (1-16). This course is repeatable for a maximum of 16 credits.
CROP 405H. READING AND CONFERENCE
(1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Honors College approval required.

CROP 407. SEMINAR (1). Senior seminar intended to instruct students on proper techniques for presentation of scientific material. Each student is expected to prepare and present a scientific seminar and to submit written documentation supporting that seminar.
CROP 410. INTERNSHIP (1-6). Professional work experience previously approved and supervised by the department, written report required. This course is repeatable for a maximum of 12 credits. PREREQS: Junior standing.
CROP 414. PRECISION AGRICULTURE (4). Provides insight into the technology available to support precision agriculture and data management planning applications. Examines the concepts and applications of precision agriculture to teach practical use of hardware, equipment and software. An overview of current technology including autonomous vehicles, GPS soil and crop proximal sensors, imagery and mapping, variable rate control systems, and yield monitors. Lec/lab. CROSSLISTED as HORT 414. PREREQS: Junior standing
CROP 418. TOXIC PLANTS IN PNW PASTURES
(1). Identifying and understanding ecology and biology of harmful weeds and poisonous plants found in Pacific Northwest pastures and rangelands and determining best management and control options. Taught via Ecampus only. PREREQS: College-level plant biology and/or taxonomy courses.

## CROP 420. SEED SCIENCE AND

TECHNOLOGY (3). Seed formation and factors affecting their development and maturation. Seed structure and chemical composition. Physiological and biochemical aspects of seed germination, dormancy, deterioration and storability. The concept of seed quality, its importance in
agriculture, its attributes and impact on field performance. Methods of measuring seed quality of conventional and genetically modified seeds. Taught via Ecampus only. PREREQS: Biology, plant anatomy and/or physiology courses are recommended.
CROP 433. SYSTEMATICS AND ADAPTATION OF VEGETABLE CROPS (4). Covers the botanical and taxonomic relationships, breeding systems and adaptation of vegetable crops. Fresh material is used to illustrate varietal differences and traits of importance. Lec/lab. Offered even years. CROSSLISTED as HORT 433/HORT 533. PREREQS: (BI 102 [D-] or BI 213 [D-] or BI 311 [D-] or HORT 430 [D-] or CSS 430 [D-] or PBG 430 [D-] or HORT 450 [D-] or CSS 450 [D-] or PBG 450 [D-] )
CROP 440. WEED MANAGEMENT (4). Principles of weed control by cultural, biological, and chemical means; weed identification; introduction to herbicides and factors influencing their use. Lec/ lab/rec. PREREQS: One year biological science and one course in organic chemistry.
CROP 460. SEED PRODUCTION (3). An introduction to principles and practices of seedbased genetic delivery systems. Fundamentals of seed crop biology, cultivar maintenance and production methods are stressed. Concepts are illustrated using Pacific Northwest seed crops. PREREQS: CROP 200 or CSS 200 or equivalent.
CROP 463. SEED BIOLOGY (3). Information about reproductive development of plants such as pollination and fertilization, which is important for the initiation of seed formation, will be provided. Embryo and endosperm development as well as accumulation of seed storage materials, which are major events during seed development, will be covered, as well as the dormancy and germination mechanisms in mature seeds. Lectures and discussions (presentations required for graduate students). Offered even years. CROSSLISTED as HORT 463/HORT 563. Lec/lab.

## CROP 480. CASE STUDIES IN CROPPING

SYSTEMS MANAGEMENT (4). Decision cases involving the production of field and horticultural crops; individual and group activities; discussion of the decision-making process. Multiple field rips required. A field trip fee will be charged. CROSSLISTED as HORT 480/HORT 580. PREREQS: CROP 300 or HORT 300 and senior standing in agriculture.

## CROP 499. SPECIAL TOPICS IN CROP

SCIENCE AND SOIL SCIENCE (1-16). Technical knowledge and skills development courses offered in a wide array of course formats. Topics vary from term to term and year to year. May be repeated for credit when topics differ. This course is repeatable for a maximum of 16 credits.

## CROP 499H. SPECIAL TOPICS IN CROP

SCIENCE AND SOIL SCIENCE (1-16). Technical knowledge and skills development courses offered in a wide array of course formats. Topics vary from term to term and year to year. May be repeated for credit when topics differ. This course is repeatable for a maximum of 16 credits. PREREQS: Honors College approval required.
CROP 501. RESEARCH (1-16). This course is repeatable for a maximum of 16 credits.
CROP 503. THESIS (1-16). This course is repeatable for a maximum of 999 credits. PREREQS: Master's-level graduate students.
CROP 505. READING AND CONFERENCE (1-16). This course is repeatable for a maximum of 16 credits.

CROP 506. PROJECTS (1-16). This course is repeatable for a maximum of 16 credits.

CROP 507. SEMINAR (1). Graded P/N. This course is repeatable for a maximum of 99 credits.

CROP 509. PRACTICUM IN TEACHING
(1-3). Developing skills and competence in teaching under staff supervision; organization
and presentation of instructional material by assisting in laboratory, recitation, and lectures CROSSLISTED as ENT 509, PBG 509, SOIL 509. This course is repeatable for a maximum of 9 credits.
CROP 520. SEED SCIENCE AND
TECHNOLOGY (3). Seed formation and factors affecting their development and maturation. Seed structure and chemical composition. Physiological and biochemical aspects of seed germination, dormancy, deterioration and storability. The concept of seed quality, its importance in agriculture, its attributes and impact on field performance. Methods of measuring seed quality of conventional and genetically modified seeds. Taught via Ecampus only. PREREQS: Biology, plant anatomy and/or physiology courses are recommended.

CROP 533. SYSTEMATICS AND ADAPTATION OF VEGETABLE CROPS (4). Covers the botanical and taxonomic relationships, breeding systems and adaptation of vegetable crops. Fresh material is used to illustrate varietal differences and traits of importance. Lec/lab. CROSSLISTED as HORT 433/HORT 533. PREREQS: BI 102 or B 213 or BI 311 or HORT 430 or CSS 430 or PBG 430 or HORT 450 or CSS 450 or PBG 450

CROP 540. WEED MANAGEMENT (4). Principles of weed control by cultural, biological, and chemical means; weed identification; introduction to herbicides and factors influencing their use. Lec/ lab/rec. PREREQS: One year biological science and one course in organic chemistry.

CROP 560. SEED PRODUCTION (3). An introduction to principles and practices of seedbased genetic delivery systems. Fundamentals of seed crop biology, cultivar maintenance and production methods are stressed. Concepts are illustrated using Pacific Northwest seed crops.
PREREQS: CROP 200 or CSS 200 or equivalent.
CROP 563. SEED BIOLOGY (3). Information about reproductive development of plants such as pollination and fertilization, which is important for the initiation of seed formation, will be provided. Embryo and endosperm development as well as accumulation of seed storage materials, which are major events during seed development, will be covered, as well as the dormancy and germination mechanisms in mature seeds. Lectures and discussions (presentations required for graduate students). Offered even years. CROSSLISTED as HORT 463/HORT 563. Lec/lab.

CROP 580. CASE STUDIES IN CROPPING
SYSTEMS MANAGEMENT (4). Decision cases involving the production of field and horticultural crops; individual and group activities; discussion of the decision-making process. Multiple field trips required. A field trip fee will be charged. CROSSLISTED as HORT 480/HORT 580. PREREQS: CROP 300 or HORT 300 and senior standing in agriculture.
CROP 590. EXPERIMENTAL DESIGN IN
AGRICULTURE (4). Field layout, analysis, and interpretation of basic experimental designs used in agronomy and plant breeding and including field plot techniques such as optimum plot size and shape, factorial arrangement, replication, subsampling, randomization, and blocking. Recitation provides practical experience with SAS. Lec/rec. PREREQS: ST 351 or equivalent.

CROP 599. SPECIAL TOPICS IN CROP SCIENCE AND SOIL SCIENCE (1-16). Technical knowledge and skills development courses offered in a wide variety of course formats. Topics vary from term to term and year to year. May be repeated for credit when topics differ. This course is repeatable for a maximum of 16 credits.

CROP 601. RESEARCH (1-16). This course is repeatable for a maximum of 16 credits.
CROP 603. THESIS (1-16). This course is repeatable for a maximum of 999 credits. PREREQS: PhD-level graduate students.

CROP 605. READING AND CONFERENCE (1-16). This course is repeatable for a maximum of 16 credits.

CROP 606. PROJECTS (1-16). This course is repeatable for a maximum of 16 credits.

CROP 607. SEMINAR (1). Graded P/N. This course is repeatable for a maximum of 99 credits.
CROP 608. WORKSHOP (1-16). This course is repeatable for a maximum of 16 credits.
CROP 609. PRACTICUM IN TEACHING (1-3).
Developing skills and competence in teaching under staff supervision; organization and presentation of instructional material by assisting in laboratory, recitation, and lectures. Graded $\mathrm{P} / \mathrm{N}$. This course is repeatable for a maximum of 9 credits.
CROP 660. HERBICIDE SCIENCE (4).
Absorption, movement, and mechanism of action in plants; behavior of herbicides in soil. Offered alternate years. PREREQS: BOT 331 and (CSS 440 or CSS 540 or CROP 440 or CROP 540)

CROP 670. PHYSIOLOGY OF CROP YIELD (3). Concepts of crop growth and production in relation to environmental and physiological factors and their interactions; current literature. PREREQS: BOT 331 or equivalent.
CROP 699. SPECIAL TOPICS IN CROP
SCIENCE AND SOIL SCIENCE (1-16). This course is repeatable for a maximum of 16 credits.

## - HORTICULTURE COURSES

HORT 101. INTRODUCTION TO
HORTICULTURE, CROP, SOIL, AND INSECT
SCIENCE (1). Introduces students with interests in horticulture, crop, soil, and insect sciences to educational and professional opportunities in these disciplines. Speakers will discuss opportunities in research and academia as well as in the applied professional job market. Open to all students. CROSSLISTED as CROP 101, ENT 101, SOIL 101.

## HORT 111. INTRODUCTION TO

HORTICULTURAL CROP PRODUCTION (2).
Characteristics of commercial horticulture; survey of commercial horticultural systems with emphasis on the Pacific Northwest; career opportunities in horticulture. Required field trips.

## HORT 112. INTRODUCTION TO

HORTICULTURAL SYSTEMS, PRACTICES AND CAREERS (2). Overview of horticultural systems and practices, with an emphasis on the Pacific Northwest. Exploration of career opportunities in horticulture. Includes viticulture, environmental landscaping, turf management, greenhouse and nursery production, farming, education, and research. Required field trips.
HORT 199. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 16 credits.
HORT 199H. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Honors College approval required.

HORT 217. *SOCIAL IMPACTS OF SCIENCE (3). Contemporary societies provide funding for scientific research, at the same time they struggle with existing and emerging societal problems. This course will discuss how social problems can be addressed by science and technology, and how the impacts of research are quantified. (Bacc Core Course)

## HORT 226. LANDSCAPE PLANT MATERIALS

 : DECIDUOUS HARDWOODS AND CONIFERS(4). Identification of trees, shrubs, vines, and ground covers used in landscape horticulture. Basic plant taxonomy, nomenclature, anatomy, and use of plants in the landscape. Diverse plant material covered with an emphasis on deciduous hardwoods and conifers.
HORT 228. LANDSCAPE PLANT MATERIALS II: SPRING FLOWERING TREES AND SHRUBS (4) Identification of trees, shrubs, vines, and ground
covers used in landscape horticulture. Basic plant taxonomy, nomenclature, anatomy, and use of plants in the landscape. Diverse plant material covered with an emphasis on spring flowering trees and shrubs. Lec/rec.
HORT 251. TEMPERATE TREE FRUIT, BERRIES, GRAPES, AND NUTS (2). Covers fruit and nut crops for temperate zones. Emphasis placed on scientific and common names, plant adaptation, basic morphology, major cultivars, and markets. Offered alternate years.
HORT 255. HERBACEOUS ORNAMENTAL
PLANT MATERIALS (3). Identification and culture of herbaceous plants used in the landscape. Offered via Ecampus only.

## HORT 260. ORGANIC FARMING AND

GARDENING (3). Organic farming and gardening methods are discussed in class and practiced in the field. The philosophical background of organic farming as well as the biological, environmental and social factors involved in organic food production are covered. Emphasis is on handson application of scientific principles to create sustainable food production systems. Lec/lab.
HORT 270. INTRODUCTION TO THERAPEUTIC HORTICULTURE (2). An introduction to the history, benefits, and methods of therapeutic horticulture. Surveys program models for vocational, social/recreational, wellness and therapeutic applications of horticulture.

## HORT 271. TECHNIQUES AND ADAPTIVE

 STRATEGIES IN THERAPEUTICHORTICULTURE (2). An introduction to the characteristics of therapeutic gardens. Survey of year-round, indoor and outdoor therapeutic horticultural programming adaptations, strategies and techniques for different special populations. PREREQS: HORT 270 [D-]
HORT 272. BASIC THERAPEUTIC SKILLS I (2). The assessment and evaluation process in therapeutic horticulture. Development of communication strategies, helping skills, and horticultural skills for therapeutic situations. PREREQS: HORT 271 [D-]
HORT 273. BASIC THERAPEUTIC SKILLS II (2). Assessment and documentation tools in therapeutic horticulture. Treatment issues related to different types of physical and mental issues. Conduct and evaluate therapeutic horticultural activity sessions. PREREQS: HORT 272 [D-]
HORT 274. THERAPEUTIC HORTICULTURAL PROGRAMS FOR OLDER ADULTS/CHILDREN (2). Benefits and applications of therapeutic horticulture to older adults and special needs children. PREREQS: HORT 273 [D-]
HORT 275. THERAPEUTIC GARDEN DESIGN,
MAINTENANCE AND PROGRAMMING (2).
The history, characteristics and design of the therapeutic garden. The use of the garden in therapeutic horticultural programming. PREREQS: (HORT 274 [D-] and HORT 280 [D-] )

## HORT 285. PERMACULTURE DESIGN

AND THEORY: CERTIFICATE COURSE (4).
Permaculture design course meets internationally recognized standards for certification. Lectures, hands-on activities, experiential learning, group discussions, readings, student projects and presentations. Two mandatory weekend days. Design intensive, utilizing graphic and verbal presentation skills. Research into other functioning permaculture systems through literature, websites, and as observed on field trips. Lec/lab. This course is repeatable for a maximum of 8 credits.
HORT 286. PERMACULTURE CERTIFICATION
(1). Permaculture Designer's Certificate issued upon completion by Cascadia Permaculture Institute. Lectures, activities, experiential learning, discussions, readings, projects, presentations. Two mandatory weekend day field trips. Design intensive, utilizing graphic and verbal presentation skills. Research functioning permaculture systems as found in literature, websites, observed on field
trips. COREQS: HORT 285
HORT 299. SPECIAL TOPICS (0-16). This course is repeatable for a maximum of 16 credits.
HORT 299H. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Honors College approval required.

HORT 300. CROP PRODUCTION IN PACIFIC NORTHWEST AGROECOSYSTEMS (4).
Relation of crop production to human culture and the natural environment. Origins of agriculture and the processes of agricultural change, and productivity and sustainability of specific crop production systems in the Pacific Northwest. History, geography, resource requirements, and key challenges faced are presented. Fundamental crop production practices in relation to productivity and sustainability. Lec/lab/rec. CROSSLISTED as CROP 300. PREREQS: One year of general biology or equivalent.
HORT 301. THE BIOLOGY OF HORTICULTURE
(3). Gain fundamental knowledge of plant growth and development of horticultural crops and understand how manipulation of growth systems affects growth and development. The course will progress from a micro- to macro-level, the last section covering how environmental factors affect growth and development. PREREQS: General biology or botany sequence.
HORT 303. HORTICULTURAL PROJECTS
(2). Student-managed crop production projects with emphasis on container grown, greenhouse crops. Crop scheduling, propagation and planting, selecting temperature and lighting regimes, specifying growth regulator applications, nutrient management, irrigation management, pest monitoring, and problem diagnosis and correction. PREREQS: HORT 301
HORT 311. PLANT PROPAGATION (4). The regeneration of plants from vegetative and reproductive tissue and organs. Horticultural and physiological principles, methods, and techniques or laboratory, greenhouse nursery, field, and orchard. PREREQS: HORT 301

## HORT 314. PRINCIPLES OF TURFGRASS

MAINTENANCE (4). Identification and adaptation of common turfgrasses. Physiology of turfgrass growth and response to cultural and environmental stresses. Cultural practices including establishment, general maintenance, and pest control. Field trips required. PREREQS: (CSS 205 or CSS 305 or SOIL 205)

## HORT 315. SUSTAINABLE LANDSCAPES:

MAINTENANCE, CONSERVATION, RESTORE
(4). Sustainable care and maintenance practices for non-turf landscape areas. Low input pruning, planting, fertilization, and pest control with an emphasis on IPM. Plant responses to stress, particularly those encountered in the urban environment. Outdoor labs required. PREREQS: Basic knowledge of plant physiology is recommended.

HORT 316. PLANT NUTRITION (4). Basic concepts and principles of plant mineral nutrition that provide a basis for solving practical nutritional problems in horticultural crops. Areas covered include mineral nutrients, nutrient availability in the soil and plant uptake, nutrient deficiencies and toxicities and their causes and remedies, and plant and soil analysis. Lec/lab/rec. PREREQS: (CSS 205 [D-] or CSS 305 [D-] or SOIL 205 [D-] )
HORT 318. ^APPLIED ECOLOGY OF
MANAGED ECOSYSTEMS (3). Survey of
ecological processes in managed ecosystems emphasizing ecological management techniques. Ecosystem services; biodiversity management; weed dynamics; agroecology; urban ecology; restoration and mitigation; landscape management. Field trip required. (Writing Intensive Course)

HORT 319. RESTORATION HORTICULTURE (3). As world population increases to some 9 billion plus by 2044, the importance of ecologically
sound horticultural practices becomes increasingly apparent. Integration of ecological concepts and theory in management and development of created landscapes is critical for the preservation of many ecological services currently provided by undeveloped areas. Offered via Ecampus only. PREREQS: WR 121 or equivalent. Students must be reasonably proficient in writing skills and able to communicate through writing. Basic ecology course or practical experience providing understanding of ecological principals and concepts.

HORT 330. *PLAGUES, PESTS, AND POLITICS (3). Integration and interaction of agricultural and public health aspects of entomology in society and history. CROSSLISTED as ENT 300. (Bacc Core Course)
HORT 331. *POLLINATORS IN PERIL (3). Pollinators, human influences on pollination systems, and the potential consequences of pollinator decline. An introduction to the skills needed to investigate media reports and multidisciplinary scientific research. Effects of pesticides, habitat fragmentation, climate change, invasive species, pests, pathogens, and other threats to pollinators in critical natural and agricultural systems around the world. (Bacc Core Course) CROSSLISTED as ENT 331. PREREQS: Completion of a Baccalaureate Core biological science course.

HORT 349. DIAGNOSING PLANT PROBLEMS
(3). Basic principles of problem diagnosis in crop, garden, and landscape plants are covered Problems caused by cultural and environmental issues, plant diseases, insect pests, and other causes are addressed. Students will gain familiarity with resources for plant problem diagnosis. Offered via Ecampus only. PREREQS: A background in basic biology, plant pathology and/or entomology is recommended. Enrollees from outside the university setting may have gained their experience within a job or other practical setting.
HORT 350. URBAN FORESTRY (3). Introduction to principles and practices of planting and managing trees as a system of urban environment; understanding the economic, environmental, social aspects of urban forests, and an overview of contemporary land use issues and societal perspectives between people and plants. CROSSLISTED as FES 350. Offered via Ecampus only. PREREQS: Foundational forestry and horticulture courses are recommended.
HORT 351. FLORICULTURE AND
GREENHOUSE SYSTEMS (4). For students interested in growing plants in commercial or educational greenhouses. Actively explores the production and scheduling of floriculture crops for various markets. Combines the practical aspects of growing floral crops under environments created by traditional and technologically advanced greenhouses. Greenhouse structures and crop environment manipulation will be emphasized. Students actively manage a floriculture crop and are responsible for developing and implementing production schedules, and for making key decisions on the culture of diverse floral crops. PREREQS: HORT 301
HORT 358. LANDSCAPE CONSTRUCTION TECHNIQUES (4). Study of landscape construction process from initial site analysis to finished landscape. Techniques used in building hardscape and landscape areas. Field trips required. Lec/lab.
HORT 360. IRRIGATION AND DRAINAGE (4). Familiarizes students with the principles and practices of irrigation and drainage systems. Optimum use of water, irrigation and drainage system design, installation, repairs, and troubleshooting are emphasized. Lec/lab. PREREQS: CSS 305 [D-] or SOIL 205 [D-] or (SOIL 205 [D-] and SOIL 205 [D-] )
HORT 361. PLANT NURSERY SYSTEMS (4).
Covers how to grow shrubs and trees, and
herbaceous annuals and perennials in nurseries for use in urban landscapes and managed ecosystems such as forestry and restoration. Plant nursery systems are diverse and require intensive management involving a dynamic decision making process. This course actively explores field and container production systems as well as the marketing of plants, an overview of plant growth regulation and post-production handling, the influence of efficient production practices on plant quality, integrating pest management strategies, and natural resource utilization. PREREQS: HORT 301

## HORT 380. SUSTAINABLE LANDSCAPE

DESIGN (3). The assessment of design problems/ situations, the development of solutions and the communication of those solutions to the client through the design. Specific topics include designing for ecosystem maintenance/ enhancement, introduction to computer-aided design (CAD), using color in landscape designs and rendering section/elevation views.
HORT 399. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 16 credits.
HORT 401. RESEARCH (1-16). This course is repeatable for a maximum of 16 credits.
HORT 402. INDEPENDENT STUDY (1-16). This course is repeatable for a maximum of 16 credits.
HORT 403. THESIS (1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Junior standing. Departmental approval required.
HORT 405. READING AND CONFERENCE
(1-16). This course is repeatable for a maximum of 16 credits.
HORT 405H. READING AND CONFERENCE
(1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Honors College approval required.
HORT 406. PROJECTS: DATA PRESENTATIONS
(1). For any student doing research, to learn to develop and evaluate poster and slide presentations containing scientific data. Students are exposed to a variety of scientific disciplines as they prepare and critique their own and other students> posters and oral presentations. Students improve written and oral communication skills. Letter grade is based on participation, improvement, and the quality of a final poster project and oral presentation. Offered winter term. CROSSLISTED as BRR 406.

HORT 407. SEMINAR (1). Senior seminar intended to instruct students on proper techniques for presentation of scientific material. Each student is expected to prepare and present a scientific seminar and to attend and evaluate the seminars given by other class members.
HORT 408. WORKSHOP (1-16). This course is repeatable for a maximum of 16 credits.
HORT 409. PRACTICUM (1-16). This course is repeatable for a maximum of 16 credits.

HORT 410. INTERNSHIP (1-12). Work internship to acquaint horticulture majors with the practices of the horticulture industry. Under direction of departmental internship committee. Requires approved statement of intent, submission of employer and employee evaluation forms and written report. This course is repeatable for a maximum of 12 credits. PREREQS: Junior standing.
HORT 411. HORTICULTURE BOOK CLUB (1). Reading and discussion of noteworthy books and associated topics relating to agriculture, society and the environment. This course is repeatable for a maximum of 2 credits. PREREQS: Sophomore standing.

## HORT 412. CAREER EXPLORATION:

INTERNSHIPS AND RESEARCH PROJECTS
(1). Provides orientation to the horticulture major internship and research project requirement.

Covers procedures for selecting, performing, and reporting on an internship or research project. Includes guidance and skill development valuable in the pursuit of horticultural career goals, such as cover letter and resume preparation and interviewing experience.
HORT 414. PRECISION AGRICULTURE (4). Provides insight into the technology available to support precision agriculture and data management planning applications. Examines the concepts and applications of precision agriculture to teach practical use of hardware, equipment and software. An overview of current technology including autonomous vehicles, GPS, soil and crop proximal sensors, imagery and mapping, variable rate control systems, and yield monitors. Lec/lab. CROSSLISTED as CROP 414. PREREQS: Junior standing.
HORT 418. GOLF COURSE MAINTENANCE (4). Basic aspects of golf course maintenance under emperate zone conditions. Lec/lab. PREREQS: HORT 314
HORT 433. SYSTEMATICS AND ADAPTATION OF VEGETABLE CROPS (4). Covers the botanical and taxonomic relationships, breeding systems and adaptation of vegetable crops. Fresh material is used to illustrate varietal differences and traits of importance. Lec/lab. CROSSLISTED as CROP 433/CROP 533. PREREQS: BI 102 [D-] or BI 213 [D-] or BI 311 [D-] or HORT 430 [D-] or CSS 430 [D-] or HORT 450 [D-] or CSS 450 [D-] or PBG 450 [D-]
HORT 444. INSECT AGROECOLOGY (3).
Agroecology incorporates ecological concepts and principles to the design and management of sustainable agricultural systems. Topics include: the role of insects in sustainable agricultural systems; application of the principles of insect ecology to better manage insect pests and maximize crop yield; conserving beneficial insects and other natural resources in agroecosystems and the surrounding landscape. CROSSLISTED as ENT 444. PREREQS: General background or previous course work in entomology.
HORT 447. ARBORICULTURE (4). The principles and practices of arboriculture, the art and science of selecting, planting, establishing and maintaining trees in urban, suburban, commercial and residential landscapes. Lec/lab. CROSSLISTED as FES 447. Offered via Ecampus only. PREREQS: (FES 141 or FES 241 or HORT 226 or HORT 228) and (FOR 111 or HORT 112)
HORT 451. TREE FRUIT PHYSIOLOGY AND CULTURE (4). Plant growth and development in relation to tree fruit production; emphasis on canopy development and pruning theory, flowering and fruit set, and development, dormancy, and cold acclimation. Field trips required. PREREQS: HORT 301* and BOT 331*

## HORT 452. BERRY AND GRAPE PHYSIOLOGY

AND CULTURE (4). Production of wine grapes, caneberries, strawberries, blueberries, and other miscellaneous berry crops. Emphasis on plant growth and development; pruning and training systems; flower and fruit development and cultivars. Field trips required. Offered in alternate years. PREREQS: HORT 301
HORT 453. GRAPEVINE GROWTH AND
PHYSIOLOGY (3). The physiological aspects of grapevine growth and development including dormancy, flowering and fruit set, vegetative growth, fruit development and water relations. Additional topics include taxonomy, morphology and physiological influences of vineyard mesoclimate and vine microclimate. Lec/lab. PREREQS: HORT 301 or instructor approval.
HORT 454. PRINCIPLES AND PRACTICES OF VINEYARD PRODUCTION (3). The relationship of vineyard and canopy management to grapevine physiology and fruit quality. Nutrient/water relations within the soil/vine continuum. Vineyard microclimate, floor management, and pests will also be discussed. Lec/lab. PREREQS: HORT

301 [D-] and HORT 453 (need not be taken before HORT 454 but is highly recommended).
HORT 455. URBAN FOREST PLANNING, POLICY AND MANAGEMENT (4). Examination of planning, policy, and management strategies used in the stewardship of urban natural resources. Fundamentals for developing effective programs to maximize the economic, environmental, and social values and benefits of urban forest landscapes. CROSSLISTED as FES 455. Taught via Ecampus only. PREREQS: FES 350 or FOR 350 or HORT 350
HORT 463. SEED BIOLOGY (3). Information about reproductive development of plants such as pollination and fertilization, which is important for the initiation of seed formation, will be provided. Embryo and endosperm development as well as accumulation of seed storage materials, which are major events during seed development, will be covered, as well as the dormancy and germination mechanisms in mature seeds. Lectures and discussions (presentations required for graduate students). Offered every even year fall term. CROSSLISTED as CROP 463/CROP 563. Lec/ lab.

## HORT 480. CASE STUDIES IN CROPPING

 SYSTEMS MANAGEMENT (4). Decision cases involving the production of field and horticultural crops; individual and group activities; discussion of the decision-making process. Multiple field trips required. A field trip fee will be charged. CROSSLISTED as CROP 480/CROP 580. This course is repeatable for a maximum of 8 credits. PREREQS: CROP 300 or HORT 300 and senior standing in agriculture.
## HORT 481. CASE STUDIES IN

HORTICULTURAL SYSTEMS MANAGEMENT
(4). Field-based decision cases involving problematical situations encountered in horticultural farming systems including nursery production, orchard and vineyard systems, market gardening, Christmas tree, and row crop production. Required field trips may include weekend trips. This course is repeatable for a maximum of 8 credits. PREREQS: (HORT 300 or CSS 300) and HORT 301 and CSS 305
HORT 485. ADVANCED PERMACULTURE DESIGN (3). Course work centers on choice of advanced design project track: broad scale rural farm or ranch, urban neighborhood or community development, educational institution or organization, or commercial property business development. Students conduct in-depth site analysis and draft design document which is reviewed and revised with research-based knowledge to complete design gaps. PREREQS: (HORT 285 [D-] and HORT 286 [D-] )
HORT 495. HORTICULTURAL MANAGEMENT PLANS (3). Develop an integrated management plan for a horticultural enterprise. This course is repeatable for a maximum of 6 credits. PREREQS: Senior standing.
HORT 499. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 16 credits.

HORT 499H. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 16 credits PREREQS: Honors College approval required.
HORT 501. RESEARCH (1-16). This course is repeatable for a maximum of 16 credits.
HORT 503. THESIS (1-16). This course is repeatable for a maximum of 999 credits.
HORT 505. READING AND CONFERENCE (1-16). This course is repeatable for a maximum of 16 credits.
HORT 506. PROJECTS (1-16). This course is repeatable for a maximum of 16 credits.
HORT 507. SEMINAR (1-16). This course is repeatable for a maximum of 16 credits.
HORT 508. WORKSHOP (1-16). This course is repeatable for a maximum of 16 credits.

HORT 509. PRACTICUM (1-16). This course is repeatable for a maximum of 16 credits.

HORT 510. INTERNSHIP (1-12). Offered via Ecampus only. This course is repeatable for a maximum of 12 credits.

## HORT 511. RESEARCH AND EDUCATIONAL

 PERSPECTIVES IN HORTICULTURE (2). Introduces beginning graduate students to the faculty in horticulture and provides an in-depth discussion of their research and education programs.
## HORT 518. CURRENT TOPICS IN

ENTOMOLOGY (2). This is a core course of the Horticulture graduate program. Provides an advanced understanding of entomology and its relationship to other disciplines through critical analysis of the scientific literature. Students practice synthesizing information and presenting findings to peers. Instructors, topics, and specific learning objectives vary from term to term. CROSSLISTED as ENT 518. This course is repeatable for a maximum of 12 credits.

HORT 519. CURRENT TOPICS IN PLANT BREEDING AND GENETICS (2). Provides an advanced understanding of plant breeding and genetics and their relationship to other disciplines through critical analysis of the scientific literature. Students practice synthesizing information and presenting findings to peers. Instructors, topics, and specific learning objectives vary from term to term. CROSSLISTED as PBG 519. This course is repeatable for a maximum of 12 credits.
HORT 520. CURRENT TOPICS IN
HORTICULTURAL RESEARCH (2). This is a core course in the horticulture graduate program. Students gain an advanced understanding of horticulture science and its relationship to other disciplines through critical analysis of the scientific literature. Students practice synthesizing information and presenting findings to their peers. Instructors, topics and specific learning objectives vary from term to term. This course is repeatable for a maximum of 12 credits.
HORT 533. SYSTEMATICS AND ADAPTATION OF VEGETABLE CROPS (4). Covers the botanical and taxonomic relationships, breeding systems and adaptation of vegetable crops. Fresh material is used to illustrate varietal differences and traits of importance. Lec/lab. CROSSLISTED as CROP 433/CROP 533. PREREQS: BI 102 or BI 213 or BI 311 or HORT 430 or CSS 430 or HORT 450 or CSS 450

## HORT 544. INSECT AGROECOLOGY (3).

 Agroecology incorporates ecological concepts and principles to the design and management of sustainable agricultural systems. Topics include: the role of insects in sustainable agricultural systems; application of the principles of insect ecology to better manage insect pests and maximize crop yield; conserving beneficial insects and other natural resources in agroecosystems and the surrounding landscape. CROSSLISTED as ENT 544. PREREQS: General background or previous course work in entomology.HORT 547. ARBORICULTURE (4). The principles and practices of arboriculture, the art and science of selecting, planting, establishing and maintaining trees in urban, suburban, commercial and residential landscapes. Lec/lab CROSSLISTED as FES 447.

HORT 552. BERRY AND GRAPE PHYSIOLOGY AND CULTURE (4). Production of wine grapes, caneberries, strawberries, blueberries, and other miscellaneous berry crops. Emphasis on plant growth and development; pruning and training systems; flower and fruit development and cultivars. Field trips required. Offered in alternate years. PREREQS: HORT 301
HORT 555. URBAN FOREST PLANNING,
POLICY AND MANAGEMENT (4). Examination of planning, policy, and management strategies used in the stewardship of urban natural resources. Fundamentals for developing effective programs to
maximize the economic, environmental, and socia values and benefits of urban forest landscapes CROSSLISTED as FES 555. Taught via Ecampus only. PREREQS: FOR 350 or FES 350 or HORT 350 for undergraduates.
HORT 563. SEED BIOLOGY (3). Information about reproductive development of plants such as pollination and fertilization, which is important for the initiation of seed formation, will be provided. Embryo and endosperm development as well as accumulation of seed storage materials, which are major events during seed development, will be covered, as well as the dormancy and germination mechanisms in mature seeds. Lectures and discussions (presentations required for graduate students). Offered every even year fall term. CROSSLISTED as CROP 463/CROP 563. Lec/ lab.
HORT 580. CASE STUDIES IN CROPPING SYSTEMS MANAGEMENT (4). Decision cases involving the production of field and horticultural crops; individual and group activities; discussion of the decision-making process. Multiple field trips required. A field trip fee will be charged CROSSLISTED as CROP 480/CROP 580 PREREQS: CROP 300 or HORT 300 and senio standing in agriculture.
HORT 591. SELECTED TOPICS (1-16). This course is repeatable for a maximum of 16 credits.
HORT 599. SPECIAL TOPICS (0-16). This course is repeatable for a maximum of 16 credits.
HORT 601. RESEARCH (1-16). This course is repeatable for a maximum of 16 credits.
HORT 603. DISSERTATION (1-16). This course is repeatable for a maximum of 999 credits.
HORT 605. READING \& CONFERENCE (1-16). This course is repeatable for a maximum of 16 credits.

HORT 606. PROJECTS (1-16). This course is repeatable for a maximum of 16 credits.
HORT 607. SEMINAR (1-16). This course is repeatable for a maximum of 16 credits.

HORT 608. WORKSHOP (1-16). This course is repeatable for a maximum of 16 credits.

HORT 691. SELECTED TOPICS (1-16). This course is repeatable for a maximum of 16 credits. HORT 699. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 16 credits.

## PLANT BREEDING AND GENETICS COURSES

PBG 199. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 16 credits.
PBG 199H. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 16 credits PREREQS: Honors College approval required.
PBG 299. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 16 credits.
PBG 299H. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 16 credits PREREQS: Honors College approval required.
PBG 399. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 16 credits.

PBG 401. RESEARCH (1-16). This course is repeatable for a maximum of 16 credits.

PBG 403. THESIS (1-16). Graded P/N. This course is repeatable for a maximum of 99 credits.

PBG 405. READING AND CONFERENCE (1-16). This course is repeatable for a maximum of 16 credits.

PBG 405H. READING AND CONFERENCE (1-
16). This course is repeatable for a maximum of 16 credits. PREREQS: Honors College approval required.
PBG 407. SEMINAR (1-16). This course is repeatable for a maximum of 16 credits.

PBG 409. TEACHING PRACTICUM (1-16). Graded P/N. This course is repeatable for a maximum of 16 credits.

PBG 410. INTERNSHIP (1-12). This course is repeatable for a maximum of 12 credits.
PBG 430. PLANT GENETICS (3). Introduction to the principles of plant genetics with an emphasis on the structure and function of economically important plant genomes. PREREQS: One year of biology and chemistry.

## PBG 431. PLANT GENETICS RECITATION

 (1). Review and demonstration of plant genetics principles.PBG 441. PLANT TISSUE CULTURE (4). Principles, methods, and applications of plant tissue culture. Laboratory is important part of course. Topics include callus culture, regeneration, somaclonal variation, micropropagation, anther culture, somatic hybridization, and transformation. Lec/lab. PREREQS: (BI 311 and BOT 331) or PBG 430 or CSS 430
PBG 450. PLANT BREEDING (4). An introduction to the genetic improvement of self-pollinated, cross-pollinated, and asexually propagated species and the genetic principles on which breeding methods are based. Examples are drawn from a wide range of crops, including cereal grains, grasses, fruits, nuts, and vegetables; guest lecturers discuss their breeding programs. Additional topics include crop evaluation, germplasm preservation, disease resistance, and biotechnology. Lec/lab. PREREQS: BI 311 or PBG 430
PBG 499. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 16 credits.
PBG 499H. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Honors College approval required.
PBG 501. RESEARCH (1-16). Graded P/N. This course is repeatable for a maximum of 16 credits.
PBG 503. THESIS (1-16). Graded P/N. This course is repeatable for a maximum of 999 credits.

PBG 505. READING AND CONFERENCE (1-16).
This course is repeatable for a maximum of 16 credits.

PBG 506. PROJECTS (1-16). This course is repeatable for a maximum of 16 credits.

PBG 507. SEMINAR (1-16). Graded P/N. This course is repeatable for a maximum of 16 credits.

PBG 508. WORKSHOP (1-16). This course is repeatable for a maximum of 16 credits.
PBG 509. PRACTICUM IN TEACHING (1-
3). Developing skills and competence in teaching under staff supervision; organization and presentation of instructional materials by assisting in laboratory, recitation, and lectures. CROSSLISTED as ENT 509, CROP 509, SOIL 509. This course is repeatable for a maximum of 9 credits.
PBG 510. INTERNSHIP (4). This course is repeatable for a maximum of 12 credits.
PBG 513. PLANT GENETIC ENGINEERING (3). Principles, methods, and recent developments in the genetic engineering of higher plants. Offered alternate years. PREREQS: (BI 311 and BOT 331) or (CSS 430 or CSS 530) or (HORT 430 or HORT 530) or (PBG 430 or PBG 530)

PBG 519. CURRENT TOPICS IN PLANT
BREEDING AND GENETICS (2). Provides an advanced understanding of plant breeding and genetics and their relationship to other disciplines through critical analysis of the scientific literature. Students practice synthesizing information and presenting findings to peers. Instructors, topics, and specific learning objectives vary from term to term. CROSSLISTED as HORT 519. This course is repeatable for a maximum of 12 credits.

PBG 530. PLANT GENETICS (3). Introduction to the principles of plant genetics with an emphasis on the structure and function of economically important plant genomes. PREREQS: One year of biology and chemistry.
PBG 541. PLANT TISSUE CULTURE (4). Principles, methods, and applications of plant tissue culture. Laboratory is important part of course. Topics include callus culture, regeneration, somaclonal variation, micropropagation, anther culture, somatic hybridization, and transformation. Lec/lab. CROSSLISTED as MCB 541. PREREQS: (BI 311 and BOT 331) or PBG 430

PBG 550. PLANT BREEDING (4). An introduction to the genetic improvement of self-pollinated, cross-pollinated, and asexually propagated species and the genetic principles on which breeding methods are based. Example are drawn from a wide range of crops, including cereal grains, grasses, fruits, nuts, and vegetables; guest lecturers discuss their breeding programs. Additional topics include crop evaluation, germplasm preservation, disease resistance, and biotechnology. Lec/lab. PREREQS: BI 311 or PBG 430 or PBG 530

PBG 551. BREEDING CLONAL CROPS (1). The overall goal of the course is to gain fundamental knowledge of breeding methods for clonal crops; these methods are different from those used for seed-propagated crops. Specific examples from a wide array of plant species (tree fruits, berries, tree nuts, potato, sweet potato, cassava, cacao) will be provided to illustrate application of the fundamental knowledge. PREREQS: PBG 450 [C] or PBG 550 [C] and the instructor will waive the enforced prerequisite requirement for students with comparable experience and a desire to learn more about plant breeding.
PBG 591. SELECTED TOPICS (1-16). This course is repeatable for a maximum of 16 credits.

PBG 598. PLANT CHROMOSOME BIOLOGY
(3). Exploration of the relationship between chromosome number, structure, and behavior to gene inheritance, organization, and expression. Discussion of chromosome manipulation strategies for genomics research, genetic analysis, and plant breeding. PREREQS: 6 credits of genetics or equivalent.
PBG 599. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 16 credits.
PBG 601. RESEARCH (1-16). Graded P/N. This course is repeatable for a maximum of 16 credits.
PBG 603. DISSERTATION (1-16). Graded P/N. This course is repeatable for a maximum of 999 credits.
PBG 605. READING AND CONFERENCE (1-16).
This course is repeatable for a maximum of 16 credits.

PBG 607. SEMINAR (1-16). This course is repeatable for a maximum of 16 credits.

PBG 609. PRACTICUM IN TEACHING (1-3).
Developing skills and competence in teaching under staff supervision; organization and presentation of instructional material by assisting in laboratory, recitation, and lectures. Graded $\mathrm{P} / \mathrm{N}$. This course is repeatable for a maximum of 9 credits.

PBG 620. DNA FINGERPRINTING (1). Principles and methods for producing and analyzing DNA fingerprints. Offered even years. CROSSLISTED as MCB 620. PREREQS: BI 311 or CSS 430 or CSS 530 or PBG 430 or PBG 530 or HORT 430 or HORT 530 or equivalent.

PBG 621. GENETIC MAPPING (1). Principles and methods for constructing genetic maps comprised of molecular and other genetic markers. Offered even years. CROSSLISTED as MCB 621.
PREREQS: BI 311 or CSS 430 or CSS 530 or PBG 430 or PBG 530 or HORT 430 or HORT 530 or equivalent.

PBG 622. MAPPING QUANTITATIVE TRAIT
LOCI (1). Principles and methods for mapping genes underlying phenotypically complex traits. Offered even years. CROSSLISTED as MCB 622. PREREQS: CROP 590 or CSS 590 or ST 513 or equivalent.
PBG 650. ADVANCED PLANT BREEDING AND QUANTITATIVE GENETICS (3). Pedigree, bulk, single-seed-descent, doubled haploid, backcross, testcross, mass, and half-sib, S~1~, and S~2~ family breeding methods; breeding hybrids and selecting sources of alleles for developing superior hybrids; the nature and consequences of genotype by environment interactions; marker assisted backcross and inbred line breeding; quantitative trait locus mapping; random linear models; designing and analyzing cultivar, line, and family selection experiments. Offered odd years. PREREQS: (CSS 430 or CSS 530 or PBG 430 or PBG 530 or HORT 430 or HORT 530) and (CSS 450 or CSS 550 or PBG 450 or PBG 550 or HORT 450 or HORT 550) and (ST 411 or ST 511) and (ST 412 or ST 512) and (ST 413 or ST 513)
PBG 691. SELECTED TOPICS (1-16). This course is repeatable for a maximum of 16 credits. PBG 699. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 16 credits.

## I SOIL SCIENCE COURSES

SOIL 101. INTRODUCTION TO HORTICULTURE, CROP, SOIL, AND INSECT SCIENCE (1).
Introduces students with interests in horticulture, crop, soil, and insect sciences to educational and professional opportunities in these disciplines. Speakers will discuss opportunities in research and academia as well as in the applied professional job market. Open to all students. CROSSLISTED as CROP 101, ENT 101, HORT 101.

SOIL 199. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 16 credits.
SOIL 199H. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Honors College approval required.
SOIL 205. SOIL SCIENCE (3). Introduction to the chemical, physical and biological nature of soils. Examines how soils function in terms of plant growth, nutrient supply, the global carbon cycle, ecological habitat, and water purification. Community-based learning projects provide hands-on experience with fundamental soil science principles and the impact of human activities on soil quality and sustainability. Lec. (Bacc Core Course if taken with SOIL 206 or FOR 206) PREREQS: SOIL 206* [D-] or FOR 206* [D-]

SOIL 206. *SOIL SCIENCE LABORATORY FOR SOIL 205 (1). Students will gain handson experience with soil science concepts and applications. Laboratory exercises and field trips will help students develop proficiency in the methods/tools for analyzing soil chemistry, biology, morphology, physical properties, and soil forming factors. Skills will be taught in the context of soils; social, economic, and environmental importance. (Bacc Core Course if taken with SOIL 205) COREQS: SOIL 205
SOIL 299. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 16 credits.
SOIL 299H. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Honors College approval required.

## SOIL 316. NUTRIENT CYCLING IN

AGROECOSYSTEMS (4). Nutrient forms, transformations, and cycling. Diagnosis and correction of nutrient deficiencies, pH and salinity. Impact of nutrient management practices on crop production, soil health, nutrient use efficiency, and environmental quality. Organic and inorganic fertilization. Labs include soil sampling and testing procedures, data collection on soil and plants, computer applications for soil fertility management, and field trips. Lec/lab. PREREQS:

CH 121 [D-] and (SOIL 205 [D-] or CSS 205 [D-] or CSS 305 [D-] )

## SOIL 325. ^AG AND ENVIRONMENTAL

PREDICAMENTS: A CASE STUDY APPROACH
(3). Evaluation of controversial agricultural and environmental problems. Production of clear oral and written documents describing and analyzing problems and specific courses of action utilizing team-building skills. (Writing Intensive Course) CROSSLISTED as CROP 325. PREREQS: (CSS 305 [D-] or CSS 205 [D-] or SOIL 205 [D-] )
SOIL 366. ECOSYSTEMS OF WILDLAND SOILS (3). Focuses on soils that occur in relatively undisturbed ecosystems such as forests and rangelands. Topics covered include properties and processes specific to understanding and managing the soil resource in these areas. An overview of US Soil Taxonomy will also be given. PREREQS: (SOIL 205 [D-] or CSS 205 [D-] or CSS 305 [D-] ) and an understanding and appreciation of environmental chemistry, biology, ecology, and physics is needed for this course.

## SOIL 388. SOIL SYSTEMS AND PLANT

GROWTH (4). Introduces soils as providers of critical resources for plant growth. Explains how soils supply water, air, thermal energy and nutrients to plants. Shows that sustainable management of soil resources requires substantial understanding of their role in the functioning of natural, forest, and agricultural systems. Explains controls on stocks and availabilities of individual soil resources and mechanisms making these resources plant-available. PREREQS: ((SOIL 205 [D-] and (SOIL 206 [D-] or FOR 206 [D-] )) or CSS 205 [D-] ) and (CH 121 [D-] or CH 231 [D-] ) and (BOT 220 [D-] or (BI 204 [D-] or BI 205 [D-] or BI 206 [D-] ) or (BI 211 [D-] or Bl 212 [D-] or Bl 213 [D-])
SOIL 395. *WORLD SOIL RESOURCES (3). The properties, global distribution, and agricultural productivity of major world soil groups are described. Potentials for human-accelerated soil degradation are introduced for each soil group, and reasons for conflicting assessments of degradation are discussed. (Bacc Core Course) Offered via Ecampus only. PREREQS: CH 121 [D-] and /or equivalent.
SOIL 399. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 16 credits.
SOIL 401. RESEARCH (1-16). This course is repeatable for a maximum of 16 credits.
SOIL 403. THESIS (1-16). Independent, original study and preparation of a senior thesis. This course is repeatable for a maximum of 16 credits. PREREQS: Senior standing.
SOIL 405. READING AND CONFERENCE (1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Junior standing.
SOIL 405H. READING AND CONFERENCE
(1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Junior standing and Honors College approval required.
SOIL 407. SEMINAR (1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Junior standing.
SOIL 408. WORKSHOP (1-16). Evaluation and judging of soils in Oregon and other states; directed studies of soil morphology, soil survey, soil fertility, soil physics, soil chemistry, soil biology, and soil information systems. This course is repeatable for a maximum of 16 credits.

SOIL 409. PRACTICUM (1-16). This course is repeatable for a maximum of 16 credits.

SOIL 410. INTERNSHIP (1-6). Professional work experience previously approved and supervised by the department, written report required. This course is repeatable for a maximum of 12 credits. PREREQS: Junior standing.
SOIL 435. ENVIRONMENTAL SOIL PHYSICS
(3). Covers principles of soil physical properties
and processes as they relate to agricultural, hydrological and environmental problems. Lec/lab. Offered odd years. PREREQS: (CSS 205 [D-] or CSS 305 [D-] or SOIL 205 [D-] ) and CH 123 and MTH 241 and PH 201 or equivalent.
SOIL 445. ENVIRONMENTAL SOIL CHEMISTRY (3). Structural chemistry of clay minerals and organic matter, cation and anion exchange, and soil solution equilibria of soils. Ion exchange, mineral-solution equilibria, and adsorption reactions of silicate clays, oxides, and organic matter are emphasized. Covers the sorption behavior of environmental contaminants and the weathering reactions that govern the transport of reactive solutes through soils. Lec/rec. Offered odd years.
SOIL 455. BIOLOGY OF SOIL ECOSYSTEMS
(4). A detailed study of the organisms that live in the soil and their activities in the soil ecosystems, soil as a habitat for organisms, taxonomy and biology of soil organisms, fundamentals of nutrient cycles, special topics in soil biology, review basis of soil microbial and ecological principles. Lec/ rec/lab. PREREQS: (CSS 305 or CSS 205 or SOIL 205). Courses in chemistry, physics, and microbiology are recommended.

## SOIL 466. SOIL MORPHOLOGY AND

CLASSIFICATION (4). Observation and description of soil properties in the field; writing soil profile descriptions; evaluating criteria that define features used to classify soils; using soil classification keys. Lec/lab. PREREQS: (SOIL 205 [D-] or CSS 205 [D-] or CSS 305 [D-] )
SOIL 468. SOIL LANDSCAPE ANALYSIS (4). Principles of soil geomorphology, soil stratigraphy, and surficial processes as applied to understanding the soil system and landscape scales. Emphasis on field observations of soils, geomorphic surfaces, and environment. Field project entails design of soil survey map units, field mapping and GIS cartographic techniques. Lec/lab. Offered even years. PREREQS: (SOIL 466* [D-] or CSS 466* [D-] )
SOIL 475. SOIL RESOURCE POTENTIALS (4).
Course builds on knowledge from introductory pedology, soil chemistry, soil physics and soil biology to practice the evaluation of nutrient availability and soil moisture storage in the rooting space. Results from the application of pedotransfer functions to observations at the pit wall are translated into quantitative, numerical expressions of soil resource potentials. Lec/lab. PREREQS: (SOIL 435 [D-] and SOIL 455 [D-] and SOIL 466 [D-] )
SOIL 499. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Junior standing.

SOIL 499H. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Junior standing and Honors College approval required.
SOIL 501. RESEARCH AND SCHOLARSHIP (1-16). This course is repeatable for a maximum of 16 credits.
SOIL 503. THESIS/DISSERTATION (1-16). This course is repeatable for a maximum of 999 credits.
SOIL 505. READING AND CONFERENCE (1-16).
This course is repeatable for a maximum of 16 credits.

SOIL 506. PROJECTS (1-16). This course is repeatable for a maximum of 16 credits.

SOIL 507. SEMINAR (1-16). This course is repeatable for a maximum of 16 credits.

SOIL 508. WORKSHOP (1-16). Evaluation and judging of soils in Oregon and other states; directed studies of soil morphology, soil survey, soil fertility, soil physics, soil chemistry, soil biology, and soil information systems. This course is repeatable for a maximum of 16 credits.

SOIL 509. PRACTICUM IN TEACHING
(1-3). Developing skills and competence in teaching under staff supervision; organization and presentation of instructional material by assisting in laboratory, recitation, and lectures. CROSSLISTED as ENT 509, CROP 509, PBG 509. This course is repeatable for a maximum of 9 credits.

SOIL 510. INTERNSHIP (1-6). Professional work experience previously approved and supervised by the department, written report required. This course is repeatable for a maximum of 6 credits.
SOIL 511. SOIL: A NATURAL AND SOCIETAL RESOURCE (3). Serves degree- and non-degree-seeking graduate learners wanting soil science knowledge but having minimal science background. Understanding soil physical, chemical, and biological properties promotes informed soil management while supporting individual to global societal values. Established curriculum facilitates graduate degrees or certificates, continuing education, professional certification, and self-improvement goals. A highly interactive social media framework supports weekly student-student and instructor-student learning interactions. PREREQS: Graduate standing: a 4-year degree from any accredited university.
SOIL 513. PROPERTIES, PROCESSES, AND FUNCTIONS OF SOILS (4). Physical, chemical, biological, and landscape properties; processes of fluid retention and movement, weathering and cation exchange, decomposition and C-N dynamics, erosion and sedimentation; functions of hydrologic regulation, nutrient cycling, environmental protection, ecological habitat. PREREQS: CH 223 or CH 233 or CH 233 H or equivalent

SOIL 515. SOIL FERTILITY MANAGEMENT
(3). Management of plant nutrients in agronomic systems; diagnosis of nutrient availability and prediction of crop response to fertilizers; interactions between nutrient response and chemical, physical and biological properties of soils. PREREQS: CSS 315 and courses in statistics, chemistry and plant physiology.
SOIL 523. PRINCIPLES OF STABLE ISOTOPES
(3). An introduction to the theory and use of stable isotopes. Applications of stable isotopes to soil science, plant physiology, hydrology, and ecosystem studies. Offered even years.

SOIL 525. MINERAL-ORGANIC MATTER
INTERACTIONS (3). Studies the fundamental properties of the mineral-organic interface and the mechanisms of interaction between mineral and organic soil properties. PREREQS: CSS 305 or CSS 205 or SOIL 205 or equivalent.

SOIL 535. SOIL PHYSICS (3). Theoretical elements of soil physical properties and processes related to agricultural, hydrological and environmental problems. Offered fall term in even years. PREREQS: Recommended are CSS 305, CSS 205, SOIL 205, MTH 241, CH 123, PH 201 or equivalent.

SOIL 536. VADOSE ZONE HYDROLOGY LABORATORY (1). Experimental elements of soil physical properties and processes allowing practical experience in the measurement and analysis of soil physical processes related to agricultural, hydrological and environmental problems. Weekly laboratory. Offered even years. PREREQS: CH 123 and PH 201 or equivalent.

SOIL 545. ENVIRONMENTAL SOIL CHEMISTRY (3). Structural chemistry of clay minerals and organic matter, cation and anion exchange, and soil solution equilibria of soils. Ion exchange, mineral-solution equilibria, and adsorption reactions of silicate clays, oxides, and organic matter are emphasized. Covers the sorption behavior of environmental contaminants and the weathering reactions that govern the transport of reactive solutes through soils. Lec/rec. Offered odd years.

SOIL 547. NUTRIENT CYCLING (3). Reviews and discusses ecosystem-level biogeochemical concepts for terrestrial and freshwater ecosystems, primarily by reading and discussing classic and current literature to determine the state-of-knowledge and uncertainties associated with it. Topics include root nutrient uptake mechanisms, soil chemical and biochemical transformations in different soil and ecosystems, measuring soil solution and watershed fluxes, soil organic matter formation and structure, the meaning of sustainability, the concept of N saturation in terrestrial ecosystems, and the use of natural abundance and tracer isotopes in ecosystem biogeochemistry. While forest biogeochemical processes will be emphasized, desert, aquatic, wetland, and prairie ecosystems will also be explored. CROSSLISTED as BOT 547 PREREQS: College-level chemistry and biology and one class in ecology (BI 370 or equivalent) and/or soils (e.g., SOIL 205).
SOIL 555. BIOLOGY OF SOIL ECOSYSTEMS (4). A detailed study of the organisms that live in the soil and their activities in the soil ecosystems, soil as a habitat for organisms, taxonomy and biology of soil organisms, fundamentals of nutrient cycles, special topics in soil biology, review basis of soil microbial and ecological principles. Lec/ rec/lab. PREREQS: CSS 305 or CSS 205 or SOIL 205. Courses in chemistry, physics, and microbiology are recommended.
SOIL 566. SOIL MORPHOLOGY AND CLASSIFICATION (4). Observation and description of soil properties in the field; writing soil profile descriptions; evaluating criteria that define features used to classify soils; using soil classification keys. Lec/lab. PREREQS: CSS 305 or CSS 205 or SOIL 205
SOIL 568. SOIL LANDSCAPE ANALYSIS
(4). Principles of soil geomorphology, soil stratigraphy, and surficial processes as applied to understanding the soil system at landscape scales. Emphasis on field observations of soils, geomorphic surfaces, and environment. Field project entails design of soil survey map units, field mapping and GIS cartographic techniques. Lec/lab. Offered odd years. PREREQS: (CSS 566* [C] or SOIL 566* [C] )
SOIL 591. SELECTED TOPICS (1-16). Course content and title will change with each offering. This course is repeatable for a maximum of 16 credits.
SOIL 599. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 16 credits.
SOIL 601. RESEARCH (1-16). This course is repeatable for a maximum of 16 credits.
SOIL 603. THESIS/DISSERTATION (1-16). This course is repeatable for a maximum of 999 credits.
SOIL 605. READING AND CONFERENCE (1-16). This course is repeatable for a maximum of 16 credits.

SOIL 606. PROJECTS (1-16). This course is repeatable for a maximum of 16 credits.

SOIL 607. SEMINAR (1-16). This course is repeatable for a maximum of 16 credits.

SOIL 608. WORKSHOP (1-16). This course is repeatable for a maximum of 16 credits.

SOIL 609. PRACTICUM IN TEACHING (1-3). Developing skills and competence in teaching under staff supervision; organization and presentation of instructional material by assisting in laboratory, recitation, and lectures. Graded $\mathrm{P} / \mathrm{N}$. This course is repeatable for a maximum of 9 credits.

SOIL 635. ADVANCED SOIL PHYSICS (3). Explores theoretical development of a key topic in soil physics. Topics may include evaporation from porous media, multiphase fluid movement, soil deformation, and soil salinization, with respect to either historical development, present day understanding or future needs of the field. Course
structure incorporates lectures and discussion requiring intensive student participation. Offered odd years. PREREQS: (CSS 535 [C] or SOIL 535 [C] ) and a working knowledge of soil physics and a passing grade in a graduate-level soil physics course.
SOIL 645. SOIL MICROBIAL ECOLOGY (3). An advanced treatment of current topics in soil microbiology, with an emphasis on the ecology of soil microorganisms. Topics include the size, composition, diversity, and activity of soil microbia communities, linkage of microbial community structure to ecosystem functions, and applications of molecular biology to soil microbiology. Offered even years. PREREQS: Recommend SOIL 455 or CSS 455 or MB 448
SOIL 684. GLOBAL BIOGEOCHEMICAL CYCLES (4). An in-depth treatment of globa biogeochemical cycles, focusing on cycles of carbon, oxygen, nitrogen, phosphorus, and sulfur in the atmosphere, hydrosphere, and lithosphere. CROSSLISTED as GEO 684. PREREQS: One year of college-level physics and chemistry, including introductory biology or equivalent. One year of graduate course work in soil, earth, ocean, atmospheric, or forest science or equivalent or consent of instructor.

SOIL 691. SELECTED TOPICS (1-16). This course is repeatable for a maximum of 16 credits.
SOIL 699. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 16 credits.

## OTHER DEGREES $\&$ <br> PROGPAMS WITHIN THE <br> COLLEGE OF AGRICULTUBAL SCIINCES <br> UNDERGRADUATE MAJORS WITH OPTIONS

## BIORESOURCE RESEARCH

(BS, CRED, HBS)
Completion of an option is required to earn a degree in Bioresource Research.

## Sample Curriculum

First Year (45)
BI 211, BI 212, BI 213. *Principles of Biology (4,4,4)
BRR 100. Great Experiments in Bioresource Sciences (1)
CH 231, CH 232, CH 233. *General Chemistry (4,4,4)
and CH 261, CH 262, CH 263.
*Laboratory for Chemistry 231, 232, 233
(1,1,1)
HHS 231. *Lifetime Fitness for Health (2)
HHS 241. *Lifetime Fitness (1) or any PAC course (1-2)
WR 121. *English Composition (3)
Baccalaureate core (6)
Unrestricted electives (5)

## Second Year (45)

BRR 200. Developing a Research Proposal: Theory and Practice (1)
PHL 205. *Ethics (4)
CH 331, CH 332. Organic Chemistry $(4,4)$
CH 337. Organic Chemistry Lab (4)
PH 201, PH 202, PH 203. *General Physics $(5,5,5)$
ST 351. Introduction to Statistical Methods (4)

Baccalaureate core selection (6)
Unrestricted electives (3)

Third Year (45)
BI 311. Genetics (4)
BRR 401. Research and Scholarship (8)
COMM 111. *Public Speaking (3)
MTH 251. *Differential Calculus (4)
MTH 252. Integral Calculus (4)
or MTH 268. Mathematical Ideas in Biology (4)
Baccalaureate core selection (3)
Unrestricted electives (4)
Selected courses to meet BRR option requirement (15)

## Fourth Year (45)

BB 450, BB 451. General Biochemistry $(4,3)$
BRR 401. Research and Scholarship (6)
BRR 403. ^Thesis (4)
BRR 406. Projects: Data Presentations (1)
BRR 407. Seminar (1)
BRR 409. Practicum: Teaching and Peer Mentoring (1)
WR 327. *Technical Writing (3)
Baccalaureate core selection (3)
Unrestricted electives (5)
Selected courses to meet BRR option requirement (14)

## Options Curricula

One option specialization is required (more are often possible). Course work for EACH option must total 29 credits.

## Footnotes:

* Baccalaureate Core Course
^ Writing Intensive Course (WIC)
Major Code: 113

## OPTIONS

## ANIMAL REPRODUCTION AND

## DEVELOPMENT OPTION

Animal reproduction and development entails the study of life processes in cells, organs, and whole animals to enhance efficient production of high-quality animals and animal food products. Students use antibody-based assays, molecular genetics, protein chemistry, embryo and tissue culture, electron chemistry, and other modern laboratory techniques in research in areas of animal reproduction, development and growth, preparing them for positions or graduate programs in the bioscience/biomedical/veterinary/ agricultural fields.

## Required Courses

ANS 121. *Introduction to Animal Sciences (4)

ANS 314. Animal Physiology (4)
ANS 316. Reproduction in Domestic Animals (4)
ANS 317. Reproduction in Domestic Animals Lab (1)
CROP/HORT 300. Crop Production in
Pacific Northwest Agroecosystems (4)
Select one of the following courses:
BB 314. Cell and Molecular Biology (4)
BOT 331. Plant Physiology (4)
CSS 305. Principles of Soil Science (4) EOU
campus only.
and CSS 306. Problem Solving: Soil
Science (1) EOU campus only.
or SOIL 205. *Soil Science (3)

ENT 311. Introduction to Insect Pest Management (4)
MB 302. General Microbiology (3)
RNG 341. Rangeland Ecology and Management (3)
TOX 411. Fundamentals of Toxicology (3)

## Specialization and Breadth Courses

7 to 9 credits approved by option faculty and research mentor.

## Total=29

Option Code: 127

## APPLIED GENETICS OPTION

Applied genetics is directed at changing the genomes of organisms, to increase their utility to humans. Techniques are derived from cytogenetics, molecular biology, and Mendelian and quantitative genetics. Typically, applied geneticists have expertise in one or more related fields of study such as agronomy, biochemistry, botany, entomology, food processing, forestry, microbiology, pathology, physiology, and statistics.

The goals of applied genetics include:

1. improving the quality of food and fiber products,
2. improving the cost efficiency of a given product, and
3. minimizing adverse environmental effects of food or fiber production.
Students in this option will be well prepared for positions in biosciences and agriculture, or in graduate and professional programs.

## Required Courses

PBG 430. Plant Genetics (3)
and PBG 450. Plant Breeding (4)
or ANS 378. Animal Genetics (4)
ST 411. Methods of Data Analysis (4)

## Specialization and Breadth Courses

18 to 21 credits approved by option faculty and research mentor.

## Total=29

Option Code: 114

## BIOENERGY OPTION

Bioenergy is renewable energy (e.g., fuel ethanol, hydrogen and biodiesel) derived from biomass, including byproducts, residues, woody waste products, and crops and microbes which are grown specifically for fuel. Development and production of bioenergy could contribute to long-term environmental and economic sustainability. Bioenergy research creates new uses for agricultural and other materials by developing new biochemical processes for the production of sustainable fuels. This area of research involves both science and engineering. Students completing this option will be ready for challenging careers in industry, governmental agencies, consulting companies, and novel start-up companies, or for graduate programs.

## Substituted Courses

BRR 350. Introduction to Regional

Bioenergy (2) for BRR 100 and BRR 409
BRR 450. Interdisciplinary Research:
Bioenergy Focus (2) for BRR 200

## Required Courses

1. Background Course

Choose one course from below (3 cr):
CROP 330. *World Food Crops (3)
FOR 111. Introduction to Forestry (3)
MB 302. General Microbiology (3)

## 2. Upper-Division Lab Course

Choose one course from below (2-3 cr):
BB 493. Biochemistry Laboratory Molecular
Techniques 1 (3)
BB 494. Biochemistry Laboratory Molecular Techniques 2 (3)
BOT 332. Laboratory Techniques in Plant Biology (3)
MB 303. General Microbiology Laboratory (2)

## 3. Engineering Course

Choose one course from the list, or another appropriate upperdivision course in the area of process or ecological engineering, genomics/bioinformatics, or genetic engineering, approved by research mentor (3-4):
BEE 102. Ecological Engineering II (3)
BEE 320. Biosystems Analysis and Modeling (4)

BEE 453. Introduction to Process Engineering Design (4) [Terminated spring 2015]
BOT 475. Comparative Genomics (4)

## 4. Specialization and Breadth

## Courses

WSE 473. Bioenergy and Environmental Impact (3)
Choose additional courses from above and below, or other upperdivision courses approved by research mentor, to total 29 credits:
AEC 300. Applied Economic Analysis (3)
[Terminated summer 2016]
AEC 351. *Natural Resource Economics and Policy (3)
AEC/ECON 352. *Environmental
Economics and Policy (3)
BB 314. Cell and Molecular Biology (4)
BEE 221. Fundamentals of Ecological Engineering (3)
Note: Students choosing BEE 221 may substitute it for BEE 102.
BEE 499. Special Topics: Biofuel Feedstocks and Production (3)
ECON 201. *Introduction to
Microeconomics (4)
ENGR 231 Understanding Energy (3)
ENGR 350. *Sustainable Engineering (3)
ENGR 363 *Energy Matters (3)
FES/TOX 435. *Genes and Chemicals in Agriculture: Value and Risk (3)
FOR 330. Forest Resource Economics I (4)
FOR 331. Forest Resource Economics II (4)
MB 310. Bacterial Molecular Genetics (3)
MB 312. Bacterial Physiology and Metabolism (3)
MB 456. Microbial Genetics and Biotechnology (3)
MB/FST 479. Fermentation Microbiology (3)
MTH 254. Vector Calculus I (4)

MTH 256. Applied Differential Equations (4)
PHAR 537. Bioorganic Chemistry (3)
WR 201. *Writing for Media (3)
WR 214. *Writing in Business (3)
WSE 210. *Renewable Materials Technology and Utilization (4)
WSE 321. Chemistry of Renewable Materials (4)

WSE 322. Physical and Mechanical
Properties of Renewable Materials (4)
WSE 324. Renewable Materials Laboratory
(3)

WSE 453. ^Global Trade in Renewable
Materials (3)
WSE 535. Polymer Synthesis and Structure (3)

WSE 573. Bioenergy and Environmental Impact (3)

## Total=29

## Footnotes:

* Baccalaureate Core Course
^ Writing Intensive Course (WIC)
Option Code: 767

## BIOPRODUCTS OPTION

Bioproducts are biomaterials or biochemicals (e.g., biodegradable plastics and composites, antibiotics, pharmaceuticals and herbicides) produced by conversion processes from plant, animal, or microbial biomass. Development and production of bioproducts contribute to environmental and economic sustainability. Bioproducts research creates new uses for agricultural and other materials by developing new biochemical processes for the production of renewable chemicals and bioproducts. This area of research involves both science and engineering. Students completing this option will be ready for challenging careers in industry, governmental agencies, consulting companies, and novel start-up companies, or for graduate programs.
Students must choose option classes from three categories, to provide:

1. background appropriate to the systems that their research concerns (e.g., forests, agricultural crops, microbes);
2. an upper-division laboratory class;
3. appropriate "engineering" course work, broadly defined to include process engineering, ecological engineering, bioinformatics, breeding, or genetic engineering, depending on the student's choice of research.

## 1. Background Course

Choose one course from below (3 cr):
CROP 330. *World Food Crops (3)
FOR 111. Introduction to Forestry (3)
MB 302. General Microbiology (3)
2. Upper-Division Lab Course

Choose one course from below (2-3 cr):
BB 493. Biochemistry Laboratory Molecular Techniques 1 (3)
BB 494. Biochemistry Laboratory Molecular Techniques 2 (3)
BOT 332. Laboratory Techniques in Plant

Biology (3)
MB 303. General Microbiology Laboratory (2)
3. Engineering Course

Choose one from the list, or another appropriate upper-division course in the area of process or ecological engineering, genomics/ bioinformatics, or genetic engineering, approved by research mentor (3-4):
BEE 102. Ecological Engineering II (3)
BEE 320. Biosystems Analysis and Modeling (4)

BOT 475. Comparative Genomics (4)
ENGR 350. *Sustainable Engineering (3)
4. Specialization and Breadth

## Courses

Choose 19-21 credits from above and below, or other upper-division courses approved by research mentor, to total 29:
AEC 300. Applied Economic Analysis (3)
[Terminated summer 2016]
AEC 351. *Natural Resource Economics and Policy (3)
AEC/ECON 352. *Environmental
Economics and Policy (3)
BB 314. Cell and Molecular Biology (4)
BEE 221. Fundamentals of Ecological Engineering (3)
Note: Students choosing BEE 221 may substitute it for BEE 102.
BEE 499. Special Topics: Biofuel Feedstocks and Production (3)
ECON 201. *Introduction to
Microeconomics (4)
ENGR 363. *Energy Matters (3)
FES/TOX 435. *Genes and Chemicals in Agriculture: Value and Risk (3)
FOR 330. Forest Resource Economics I (4)
FOR 331. Forest Resource Economics II (4)
MB 310. Bacterial Molecular Genetics (3)
MB 312. Bacterial Physiology and Metabolism (3)
MB 456. Microbial Genetics and Biotechnology (3)
MB/FST 479. Fermentation Microbiology (3)
MTH 254. Vector Calculus I (4)
MTH 256. Applied Differential Equations (4)
PHAR 537. Bioorganic Chemistry (3)
WR 201. *Writing for Media (3)
WR 214. *Writing in Business (3)
WSE 210. *Renewable Materials Technology and Utilization (4)
WSE 321. Chemistry of Renewable Materials (3)

WSE 322. Physical and Mechanical
Properties of Renewable Materials (4)
WSE 324. Renewable Materials Laboratory (3)
WSE 453. ${ }^{\wedge}$ Global Trade in Renewable Materials (3)
WSE 535. Polymer Synthesis and Structure (3)

WSE 573. Bioenergy and Environmental Impact (3)

## Total=29

Footnotes:

* Baccalaureate Core Course

Option Code: 768

## BIOTECHNOLOGY OPTION

Biotechnology refers to laboratory-based techniques such as genetic engineering, recombinant DNA, tissue culture, and horizontal gene transfer, to make or modify products, to improve plants or animals, or to develop useful microorganisms. Examples include gene transfer to increase plant yield or disease resistance; cell and tissue culture to clonally propagate plants or animals; manipulation of microorganisms or cultured cells for the production of fermented food and beverages or the development of vaccines; production of antibodies for detection of animal and plant diseases; drug discovery and development. Students will gain laboratory and/or field experience in modern techniques of biotechnology, preparing them for biosciences or biomedical graduate/professional schools or careers in biotechnology.

## Substituted Courses

BB 490. Biochemistry 1: Structure and
Function (3) and BB 491. Biochemistry 2: Metabolism (3)
for BB 450 and BB 451 . Biochemistry $(4,3)$

## Required Courses

BB 314. Cell and Molecular Biology (4)
BB 492. Biochemistry 3: Genetic
Biochemistry (3)
MB 302. General Microbiology (3) and MB 303. General Microbiology Lab (2)
or PBG 441. Plant Tissue Culture (4)
MB 310. Bacterial Molecular Genetics (3)
Specialization and Breadth Courses
13 to 15 credits approved by option faculty and research mentor.

## Total=29

Option Code: 116

## CLIMATE AND BIOSYSTEMS <br> MODELING OPTION

The Climate and Biosystems Modeling option applies general systems theory to the analysis of climate, environmental and agricultural systems, and their interactions. Systems theory provides a method of analyzing overall system behavior by examining the relations among-and the behavior of-individual components, and synthesizing these relationships into a mathematical framework that describes the total system. Computer simulation using this mathematical framework can predict and analyze the response to various changes in the inputs to, and/ or structure of, the system, providing a powerful tool for the development of comprehensive solutions to problems. Examples of topics for student research could include studying the effects of climate change on vectored disease transmission, marine biodiversity, distributions of crops and crop pathogens, the carbon and nitrogen cycles, and wildfire cycles. The option is flexible; students design personalized programs and may complete a double major or minor if
desired. This option will prepare students for challenging careers in governmental regulatory agencies and environmental consulting companies, or for graduate programs.

BRR students interested in climate and/or ecosystem research but not modeling should investigate the Sustainable Ecosystems option.

## Required Courses

1. Climate

Choose one course from below (4 credits):
ATS 420. Principles of Climate: Physics of Climate and Climate Change (4)
GEOG 323. ^Climatology (4)

## 2. Biosystems

Choose one from below or another appropriate course approved by research mentor (3-4 credits):
BI 370. Ecology (3)
BOT 341. Plant Ecology (4)
CE 412. Hydrology (4)
FE 430. Watershed Processes (4)
FES 341. Forest Ecology (3)
FW 320. Introductory Population Dynamics (4)

OC 440. Biological Oceanography (4)

## 3. Quantitative Modeling <br> Choose one course from below (3-4 credits):

BEE 320. Biosystems Analysis and Modeling (4)

ST 435. Quantitative Ecology (3)
ST 443. Applied Stochastic Models (3)

## 4. Computer Programming

Choose one course from below or another appropriate course approved by research mentor (4 credits):
CS 151. Introduction to C Programming (4) CS 161. Introduction to Computer Science I (4)

## 5. Statistics

Choose one sequence from below (8 credits):
ST 411, ST 412. Methods of Data Analysis $(4,4)$
ST 421, ST 422. Introduction to
Mathematical Statistics (4,4)

## Specialization and Breadth Courses

6 to 9 credits approved by research mentor.

## Total=29 credits

## Footnote:

$\wedge$ Writing Intensive Course
Option Code: 816

## ENVIRONMENTAL CHEMISTRY

## OPTION

Environmental chemistry focuses on the basic principles that control the fate of chemicals in the environment. A bewildering variety of chemicals, an inevitable result of modern industrial civilization, are released daily; some of them persist in soil, water, or air. The extent to which these chemicals are a health hazard depends in part on where, how much,
and in what form they accumulate. OSU scientists use state-of-the-art methods to detect trace amounts of chemicals in the environment, at levels as low as one part per trillion, and track their movement and transformations. Students will acquire laboratory skills that will be in high demand as the worldwide public concern with environmental quality increases.

## Substituted Courses

CH 334, CH 335, CH 336. Organic
Chemistry ( $3,3,3$ )
for CH 331, CH 332. Organic Chemistry $(4,4)$
PH 211, PH 212, PH 213. *General Physics with Calculus (4,4,4)
for PH 201, 202, 203. *General Physics $(5,5,5)$

## Required Courses

CH 390. Environmental Chemistry (3)
CH 440. Physical Chemistry (3)
CSS 305. Principles of Soil Science (4) $\boldsymbol{E O U}$ campus only.
and CSS 306. Problem Solving: Soil Science Applications (1) EOU campus only.
or SOIL 205. *Soil Science (3)
MTH 254. Vector Calculus I (4)

## Select two courses from:

CH 324. Quantitative Analysis (4)
CH 421. Analytical Chemistry (3)
CH 428. Instrumental Analysis (4)
CH 435. Structural Determination by Spectroscopic Methods (3)
CH 440. Physical Chemistry (3)
CH 461. Experimental Chemistry II (3)
SOIL 545. Geochemistry of Soil
Ecosystems (4)
TOX 430. Chemical Behavior in the Environment (3)
TOX 490. Environmental Forensic Chemistry (3)
Specialization and Breadth Courses
5 to 8 credits approved by option faculty and research mentor.
Total=29 (not including substitute courses)
Option Code: 117

## FOOD QUALITY OPTION

Food quality research includes a broad range of studies involving sensory appeal, convenience, safety, and nutrition of food and beverages. The sensory aspects of food quality emphasize taste, texture, aroma, and appearance. The convenience aspects of food quality include shelf-life, ease of preparation, and improved functional properties. Food safety is concerned with acute and chronic responses of consumers to microorganisms and chemicals that occur naturally or are added to foods. Nutritional aspects of food quality are related to the nutrient content of foods and the role of nutrients in human health. Research in these areas is grounded in the application of basic sciences, including biology, chemistry, microbiology, molecular biology, psychology and engineering. Students will
acquire skills appropriate for laboratory, industrial, or regulatory positions.

## Required Courses <br> FST 421. Food Law (3)

FST 422. Food Chemistry Fundamentals (4)
FST 423. Food Analysis (4)
MB 302. General Microbiology (3)
Specialization and Breadth Courses
14 credits approved by option faculty and research mentor.

## Total=29

Option Code: 138

## GENOMICS/BIOINFORMATICS OPTION

Technological advances in the life sciences have led to a virtual explosion of genomics, proteomics, metabolomics and related "omics" data that give unprecedented global and molecular views of living systems. The Genomics/Bioinformatics Option focuses on computational analyses of these data, using state-of-the-art methods. Computational areas of emphasis within this option include sequence (DNA and protein) analysis and alignment, biological network analysis, and quantitative modeling. Students will be able to use these data to answer research questions and address emerging applications in life sciences, biotechnology, and medicine, and will be prepared for careers or graduate programs in this new, rapidly growing field.

## Required Courses

Biochemistry/Molecular Biology:
Choose one course from below:
BB 314. Cell and Molecular Biology (4)
BB 331. *Introduction to Molecular Biology (3)

## Computer Science:

Choose either:
BOT 476. Introduction to Computing in the Life Sciences (3)

## or

CS 161, CS 162. Introduction to Computer Science I, II (4,4)
and MTH 231. Elements of Discrete Mathematics (4)

## Genomics and Bioinformatics

BB 499. Special Topics: Nucleic Acid Bioinformatics (3)
BOT 475. Comparative Genomics (4)

## Statistics

ST 352. Introduction to Statistical Methods (4)

## Organismal Biology Elective:

Choose at least 3 credits of upper-
division course work related to the group of organisms that your research concerns. Examples could include:
BOT 321. Plant Systematics (4)
MB 302. General Microbiology (3)
PBG 430. Plant Genetics (3)
PBG 450. Plant Breeding (4)
Z 361. Invertebrate Biology (3)

## Specialization and Breadth

Courses:
Choose courses from the lists be-
low, or other upper-division cours-
es approved by research mentor,

## for a total of 29 option credits.

## General electives:

BB 481. Macromolecular Structure (3)
BB 494. Biochemistry Laboratory Molecular
Techniques 2 (3)
BB 499. Special Topics: Biocomputing:
Molecular Simulation (3)
MB 310. Bacterial Molecular Genetics (3)
MB 311. ^Molecular Microbiology
Laboratory: A Writing Intensive Course (3)
MB 668. Microbial Bioinformatics and Genome Evolution (4)
If your interest is in biological data
mining, suggested choices include:
CS 261. Data Structures (4)
CS 325. Analysis of Algorithms (4)
CS 420. Graph Theory with
Applications to Computer Science (3)
If your interest is in modeling, suggested choices include:
MTH 254. Vector Calculus I (4)
MTH 256. Applied Differential
Equations (4)
MTH 341. Linear Algebra I (3)
ST 411, ST 412. Methods of Data Analysis $(4,4)$
ST 421, ST 422. Introduction to
Mathematical Statistics $(4,4)$
ST 441. Probability, Computing, and
Simulation in Statistics (4)

## Total=29

Option Code: 627

## PEST BIOLOGY AND <br> MANAGEMENT OPTION

Pest biology and management involves the study of living organisms, such as insects, fungal and bacterial pathogens, vertebrates, and weeds, that limit agricultural productivity. Students with an interest in entomology may study identification, biology and control of insects, including integrated plant protection, biocontrol, and use of beneficial insects. Research approaches range from basic laboratory studies to field experiments. Students will develop research skills in pest biology, development of management strategies, and assessment of pest impact on plants or livestock, preparing them for a variety of regulatory and research positions and graduate programs.

## Required Courses

BOT 331. Plant Physiology (4)
BOT 350. Introductory Plant Pathology (4)
CROP 440. Weed Management (4)
ENT 311. Introduction to Insect Pest
Management (5)
Specialization and Breadth Courses
12 credits approved by option faculty and research mentor.

## Total=29

Option Code: 118

## PLANT GROWTH AND DEVELOPMENT OPTION

Plant growth and development involves the study of the control and coordination of processes in cells, organs, and/ or whole plants, including, for example, changes in gene expression in response to environmental conditions such as climate change. Students will develop research skills and knowledge about the regulation of plant growth and development, metabolism, structure and function of macromolecules (i.e., enzymes, storage proteins, and nucleic acids), and whole plant physiology, preparing them for agricultural and biosciences positions or graduate programs.

## Required Courses

BOT 313. Plant Structure (4)
BOT 331. Plant Physiology (4)

## Select two of the following:

BB 314. Cell and Molecular Biology (4)
BOT 332. Laboratory Techniques in Plant Biology (3)
BOT 421. Advanced Plant Systematics (4)
CSS 305. Principles of Soil Science (4) EOU campus only.
and CSS 306. Problem Solving: Soil
Science (1) EOU campus only.
or SOIL 205. *Soil Science (3)
HORT 316. Plant Nutrition (4)
Specialization and Breadth Courses
12 to 14 credits approved by option
faculty and research mentor.

## Total=29

Option Code: 149

## SUSTAINABLE ECOSYSTEMS OPTION

Sustainable ecosystems research addresses the sustainability of agricultural, forest, rangeland, wildlife, fishery, and native ecosystems. The program aims to define and develop natural and managed ecosystems in which environmental soundness results from the conscious interaction of humans with wildlife and other components of the systems. Innovative links among scientific and humanistic disciplines will bring about increased understanding of the present and future health of natural and managed ecosystems and associated human communities. Sustainable ecosystems research is multidisciplinary: insights from sociology, political science, anthropology, or philosophy may be combined with basic concepts from biology, chemistry, and physics to support research rooted in agricultural, forestry, rangeland management or wildlife management. Students will acquire perspective by choosing among a broad variety of courses, and will participate in field, laboratory, or systems analysis projects, preparing them for graduate/professional schools or research and regulatory positions.

## Required Courses

Ecology and Ecological Methods:
BI 370. Ecology (3)
or BOT 341. Plant Ecology (4)
or FES 341. Forest Ecology (3)
or RNG 421. Wildland Restoration and
Ecology (4)
BI 371. ^Ecological Methods (3)
or RNG 441. Rangeland Analysis (4)

## Ethics/Values:

Select one of the following:
PHL 440. *Environmental Ethics (4)
PHL 443. *World Views and Environmental Values (3)

## Social/Political:

Select one of the following:
AEC 352. *Environmental Economics and Policy (3)
ANTH 481. *Natural Resources and
Community Values (3)
ANTH 482. *Anthropology of International
Development (4)
ANS 315. *Contentious Social Issues in Animal Agriculture (3)
FOR 460. ^Forest Policy (4)
FW 325. *Global Crises in Resource Ecology (3)

FW 340. *Multicultural Perspectives in Natural Resources (3)
HST 481. *Environmental History of the U.S. (4)

PS 475. Environmental Politics and Policy (4)

SOC 480. *Environmental Sociology (4)
SOC 481. *Society and Natural Resources (4)

## Integrative/Management/

## Conservation:

## Select one of the following:

AEC 351. *Natural Resource Economics and Policy (3)
ANS/SOC 485. *Consensus and Natural Resource Issues (3)
BA 463. Family Business Management (4)
BI 348. *Human Ecology (3)
BOT 488. Environmental Physiology of Plants (3)
CROP 480. Case Studies in Cropping Systems Management (4)
FE 430. Watershed Processes (4)
FES 365. *Issues in Natural Resources Conservation (3)
FES/NR/RNG 477. *Agroforestry (3)
FOR 457. Techniques for Forest Resource Analysis (4)
FOR 459. Forest Resource Planning and Decision Making (4)
FW 321. Fisheries and Wildlife Resource Ecology (3)
GEOG 300. *Sustainability for the Common Good (3)
RNG 468. International Rangeland Resource Management (3)
SOIL 395. *World Soil Resources (3) Ecampus only.

## Specialization Courses

Nine to 14 credits approved by option faculty and research mentor.

## Total=29

Option Code: 142

## TOXICOLOGY OPTION

Toxicology concerns potentially hazardous chemicals in food and the environment and their effects on biological life. Toxic chemicals include pesticides such as insecticides and herbicides, industrial waste products, compounds that exist naturally in plants, those that contaminate foods as a result of fungal growth, and even some that are produced in the preparation and cooking of foods. Potential health effects from toxin exposures can range from immediate impairment of breathing or nerve function to chronic diseases, cancer, birth defects, and immune disorders. Toxicology research focuses on understanding mechanisms of toxicity, human and environmental risks from exposure, and means for reducing risks. Students will acquire laboratory skills in applied biochemistry and molecular, cellular, and organismal biology, preparing them for research or regulatory positions or biosciences/biomedical graduate/professional programs.

## Substituted Courses

CH 334, CH 335, CH 336. Organic
Chemistry $(3,3,3)$ for CH 331, $332(4,4)$.

## Required Courses

TOX 411. Fundamentals of Toxicology (3)
TOX 413. Environmental Toxicology and Risk Management (3)

## Specialization and Breadth Courses

23 credits approved by option faculty and research mentor.

## Total=29

Option Code: 993

## WATER RESOURCES OPTION

Water resources research involves the use of science and policy tools to identify contaminants and make assessments of water quality. Students will acquire laboratory skills to detect water contaminants and track their movements and transformations while learning related policy and management concerns. Research areas could include microbial contaminants, the impact of urbanization on water quality, and marine and estuarine water quality and its impact on fisheries and shellfish industries. Option course work covers water sciences and hydrology, environmental policy and management. Students completing this option will be prepared for graduate school or for positions in environmental consulting, research, and natural resource management.

## Water Sciences

Choose four courses from below:
CSS 305. Principles of Soil Science (4) EOU

## campus only.

or SOIL 205. *Soil Science (3)
FW 456. Limnology (5)
GEO 487. Hydrogeology (4)
MB 302. General Microbiology (3)
OC 332. Coastal Oceanography (3)

OC 433. Coastal and Estuarine Oceanography (3)
TOX 430. Chemical Behavior in the Environment (3)

## Watersheds and Hydrology:

Choose one course from below:
CE 412. Hydrology (4)
FE 430. Watershed Processes (4)

## Water Resources Environmental Analysis

Choose one course from below:
BEE 448. Non-point Source Pollution
Assessment and Control (3)
BI 371. ${ }^{\wedge}$ Ecological Methods (3)
BOT 547. Nutrient Cycling (3)
CE 413. GIS in Water Resources (3)
ENVE 456. Sustainable Water Resources Development (3)
GEO 424/GEOG 441. International Water Resources Management (3)
TOX 455. Ecotoxicology: Aquatic Ecosystems (3)

## Water Resources Environmental

 Policy and ManagementChoose one course from below:
AEC 432. Environmental Law (4)
FOR 462. Natural Resource Policy and Law (3)

FW 326. Integrated Watershed Management (3)

GEO 425/GEOG 440. Water Resources
Management in the US (3)
PS 475. Environmental Politics and Policy (4)
RNG 455. Riparian Ecohydrology and Management (4)

## Specialization and Breadth Courses

1 to 7 additional credits of upper division courses approved by research mentor, for a total of 29 credits.
Recommended areas: Climatology geology, resource economics, watersheds, watersheds management, microbial ecology, engineering, mathematics, hydrology, hydrogeology, irrigation, toxicology, ecology, environmental analysis, environmental chemistry, geochemistry, environmental management, environmental policy, economics, marine biology, aquatic and marine botany and zoology, oceanography, statistics, geography, environmental ethics, research ethics.
Option Code: 626

## INTERNATIONAL STUDIES (BA, HBA)

See International Programs for information on the International Studies Degree.
Major Code: 910

## SUSTAINABILITY (BS, HBS)

Also available via Ecampus.
OSU Main Campus Contact: Ann
Scheerer, 3017B Agricultural and Life Sciences Building, Oregon State University, Corvallis, OR 97331; 541-737-5687; Ann. Scheerer@oregonstate.edu or the Sustainability Double Degree academic advisor, Sus.Advising@oregonstate.edu.

OSU-Cascades Campus Contact:

Matt Shinderman, Forest Ecosystems and Society, Oregon State University Cascades; 541-322-3159; matt.shinderman@ osucascades.edu.

## Sustainability Core (17-20)

All Sustainability Majors and Minors must take the five courses that make up the Sustainability Core: SUS 304, SUS 350, an ecological sustainability course (SUS 102 recommended), a social sustainability course (choose one below), and an economic sustainability course (choose one below):
SUS 304. *Sustainability Assessment (4)
SUS 350. *Sustainable Communities (4)

## Ecological Dimensions of

Sustainability (3-4)
Select 3 to 4 credits from the following:
BI 301. *Human Impacts on Ecosystems (3)
SUS 102. *Introduction to Environmental
Science and Sustainability (4)
Social Dimensions of Sustainability
(3-4)

## Select 3 to 4 credits from the

## following:

SOC 381. Social Dimensions of
Sustainability (4) Ecampus only.
SOC 480. *Environmental Sociology (4)
SOC 481. *Society and Natural Resources (4)
SOC/FES/ANS/FW 485. *Consensus and
Natural Resources (3)
SUS 420. Social Dimensions of

## Sustainability (3) Ecampus, Cascades

## Campus

## Economic Dimensions of

## Sustainability (3-4)

Select 3 to 4 credits from the following:
AEC 250. *Introduction to Environmental Economics and Policy (3)
AEC 351. *Natural Resources Economics and Policy (3)
AEC/ECON 352. *Environmental
Economics and Policy (3)
AEC 434. ${ }^{\wedge}$ Measuring Resource and
Environmental Impacts (4)

## Practicum (3-12)

Sustainability majors are required to complete a minimum of 3 Practicum credits. Before registering for a practicum, students must get practicum approved by Sustainability Double Degree advisor. Email: Sus.advising@oregonstate.edu.
SUS 401. Research (3-12)
SUS 410. Internship (3-12)
SUS 499. Special Topics (3-12)
Note: SUS 410 credits may be achieved by participation in an $\mathrm{IE}_{3}$ Global Internship with advisor approval.

## Remaining Elective Credits (4-16)

In addition to the required credits specified above, students must work with the sustainability program advisor to select courses relevant to their discipline and career path interests.

## Credits total=36

Classes that can be used to fulfill remain-
ing requirements are listed below. Students are NOT limited to taking courses within their primary major of study. The Sustainability advisor(s) will approve courses not listed here if they have an obvious link to sustainability and fulfill the intent of the double degree. See the OSU Sustainability Office list of sustain-ability-related courses.

## Business

AEC 250. *Introduction to Environmental Economics and Policy (3)
AEC 253. *Environmental Law, Policy and Economics (4)

## Footnotes:

* Bacc Core Course (BCC)
$\wedge$ Writing Intensive Course (WIC)

## Major Code: 870

## SUSTAINABILITY MINOR

Available on the Corvallis and OSU-Cascades campuses, and via Ecampus.
The Sustainability minor includes core sustainability courses (5) and tailored elective courses to expand students'
knowledge and experience of their primary major in the context of sustainability principles and frameworks. Courses from a student's major course of study will not count towards minor requirements. Completion of the Sustainability minor requires 27 credits beyond the 180-credit minimum for graduation.

## Sustainability Core (17-20)

All Sustainability students must take (8):
SUS 304. *Sustainability Assessment (4)
SUS 350. *Sustainable Communities (4)

## Social Dimensions of

## Sustainability:

## Select 3 to 4 credits from the

 following:SOC 381. Social Dimensions of Sustainability (4)
SOC 480. *Environmental Sociology (4)
SOC 481. *Society and Natural Resources (4)
SOC/ANS/FES/FW 485. *Consensus and
Natural Resources (3)
SUS 420. Social Dimensions of Sustainability (3)

## Ecological Dimensions of

## Sustainability:

Select 3 to 4 credits from the following:
BI 306. *^Environmental Ecology (3)
SUS 102. *Introduction to Environmental Science and Sustainability (4)

## Economic Dimensions of

Sustainability:

## Select 3 to 4 credits from the

 following:AEC 250. *Introduction to Environmental Economics and Policy (3)
AEC/ECON 352. *Environmental
Economics and Policy (3)
AEC 434. ${ }^{\wedge}$ Measuring Resource and
Environmental Impacts (4)

## Sustainability Individualized Study/ <br> Elective Credits (7-10)

Students will work with their primary academic advisor and the Sustainability academic advisor to select electives in the theme relevant to their interests for a total of 7-10 credits. Students should discuss with Sustainability advisor to apply elective courses that may not be listed below.

## Total Credits=27

## Elective Courses:

## Business

AEC 250. *Introduction to Environmental Economics and Policy (3)
AEC 253. *Environmental Law, Policy and Economics (4)
AEC 351. *Natural Resource Economics and Policy (3)
AEC/ECON 352. *Environmental
Economics and Policy (3)
AEC 434. ${ }^{\wedge}$ Measuring Resource and
Environmental Impacts (4)
BA 302. Business Process Management (4)
BA 351. Managing Organizations (4)
BA 352. Managing Individual and Team Performance (4)
BA 362. Social Entrepreneurship and Social

Initiatives (4)
BA 432. Environmental Law, Sustainability and Business (4)
BA 466. Integrative Strategic Experience (4)
ECON 202. Introduction to
Macroeconomics (4)
ECON 315. Intermediate Macroeconomic Theory (4)

## Engineering

BEE 221. Fundamentals of Ecological Engineering (3)
BEE 320. Biosystems Analysis and Modeling (4)

BEE 322. Ecological Engineering
Thermodynamics and Transfer Process (4)
CCE 422. Green Building Materials (3)
CHE 450. Conventional and Alternative Energy Systems (3)
CHE 451. Solar Energy Technologies (3)
ECE 438. Electric and Hybrid Electric
Vehicles (4)
ENGR 350. *Sustainable Engineering (3)
ENVE 321. Environmental Engineering
Fundamentals (4)
ME 312. Thermodynamics (4)

## Natural Sciences

ATS 320. *The Changing Climate (3)
[Terminated fall 2017]
BI 301. *Human Impacts on Ecosystems (3)
BI 306. *^Environmental Ecology (3)
BI 370. Ecology (3)
CH 374. *Technology, Energy, and Risk (3)
CH 390. Environmental Chemistry (3)
FES/TOX 435. *Genes and Chemicals in Agriculture: Value and Risk (3)
FOR 462. Natural Resource Policy and Law (3)

FW 251. Principles of Fish and Wildlife Conservation (3)
FW 303. Survey of Geographic Information Systems in Natural Resource (3)
FW 321. Applied Community and Ecosystem Ecology (3)
FW 325. *Global Crises in Resource Ecology (3)

FW 326. Integrated Watershed Management (3)

FW 340. *Multicultural Perspectives in
Natural Resources (3)
FW 350. *Endangered Species, Society and Sustainability (3)
FW 435. ^Wildlife in Agricultural
Ecosystems (3)
FW/ANS/FES/SOC 485. *Consensus and Natural Resources (3)
FW 488. Problem Solving in Fisheries and Wildlife Science (3)
FW 489. Effective Communications in Fisheries and Wildlife Science (3)
GEO 306. *Minerals, Energy, Water and the Environment (3)
GEO 309. *Environmental Justice (3)
GEO 453. Resource Evaluation Methods/ EIS (3)
GEOG 300. *Sustainability for the Common Good (3)
GEOG 324. Geography of Life: Species
Distributions and Conservation (4)
GEOG 330. *^Geography of International
Development and Globalization (3)
GEOG 331. *Population, Consumption, and Environment (3)
GEOG 340. *Introduction to Water Science
and Policy (3)
GEOG 360. GIScience I: Geographic Information Systems and Theory (4)
GEOG 430. Resilience-Based Natural
Resource Management (3)
GEOG 431. Global Resources and
Development (3)
GEOG 441. International Water Resources
Management (3)
GEOG 450. Land Use in the American West (3)

GEOG 451. Planning Principles and
Practices for Resilient Communities (4)
GEOG 452. Sustainable Site Planning (3)
PH 313. *Energy Alternatives (3)
WSE 210. *Renewable Materials Technology and Utilization (4)
WSE 266. *Industrial Hemp (3)
WSE 321. Chemistry of Renewable Materials (3)

WSE 322. Physical and Mechanical
Properties of Renewable Materials (4)
SOIL 499. Special Topics [Organic Farming] (1-16)
Z 349. *Biodiversity: Causes, Consequences and Conservation (3)

## Social Sciences/Humanities

AEC 250. *Introduction to Environmental Economics and Policy (3)
AEC 253. *Environmental Law, Policy and Economics (4)
AEC 351. *Natural Resource Economics and Policy (3)
AEC/ECON 352. *Environmental
Economics and Policy (3)
AEC 434. ${ }^{\wedge}$ Measuring Resource and
Environmental Impacts (4)
ANTH 481. *Natural Resources and Community Values (3)
COMM 408. Workshop (3)
COMM 440. Theories of Conflict and
Conflict Management (3)
COMM 442. Bargaining and Negotiation Processes (3)
ENG 482. Studies in American Literature, Culture and the Environment (4)
PHL 325. *Scientific Reasoning (4)
PHL 390. Moral Theories (3)
PHL 439. Philosophy of Nature (3)
PHL 440. Environmental Ethics (3)
PHL 443. *World Views and Environmental Values (3)
PS 331. *State and Local Politics (4)
PS 370. *Science, Religion, and Politics (4)
PS 449. ^Topics in Comparative Politics (4)
PS 461. Environmental Political Theory (4)
PS 475. Environmental Politics and Policy (4)

PS 477. International Environmental Politics and policy (4)
SOC 360. *Population Trends and Policy (4)
SOC 381. Social Dimensions of Sustainability (4)
SOC 480. *Environment Sociology (4)
SOC 481. *Society and Natural Resources (4)
SOC/ANS/FES/FW 485. *Consensus and Natural Resources (3)

## Footnotes:

* Baccalaureate Core Course
${ }^{\wedge}$ Writing Intensive Course (WIC)
Minor Code: 871

## BIOENERGY MINOR

Bioenergy is renewable energy derived from biomass, including by-products, residues, waste products, and crops and microbes grown specifically for fuel. Development of bioenergy could contribute to long-term environmental and economic sustainability, and help mitigate the climate impact of using fossil fuels. However, developing and establishing bioenergy will require integrating expertise from social, economic, and scientific/ technical fields.
The Bioenergy minor is research-based and interdisciplinary, and provides an introduction to bioenergy concepts and issues, along with research experience and professional development. The Bioenergy minor is open to students in majors in science, agricultural sciences, forestry, engineering, earth/ocean/atmospheric sciences, education, social sciences and business, or with permission of the bioenergy adviser. Required classes for the minor present central bioenergy concepts such as life cycle analysis, feedstocks, feedstock conversions, and sustainability; introduce interdisciplinary research and research methods; expose students to regional bioenergy industries and issues; and provide professional skills and training. Each student will do a mentored bioenergy research project with a participating faculty member, industry or extension partner; write a thesis; and present a public seminar. This transcriptvisible minor complements existing majors to help students attain their career or graduate/professional school goals in the growing field of bioenergy.

For further information, contact:

## Kate Field, Director

## Wanda Crannell, Advisor

158 Strand Agriculture Hall
Oregon State University
Corvallis, OR 97331-2911
541-737-2999
E-mail: BRR@oregonstate.edu
Website: http://agsci.oregonstate.edu/brr/
A basic knowledge of chemistry is needed to understand bioenergy core concepts, such as the carbon cycle and pathways of energy conversion. Bioenergy minor students must take CH 122 or equivalent. CH 122 fulfills Bacc Core requirements and is a prerequisite for WSE 473, which is required for the Bioenergy minor.

## Required

BRR 350. Introduction to Regional Bioenergy (2)
BRR 450. Interdisciplinary Research:
Bioenergy Focus (2)
BRR 401. Research and Scholarship (10)
BRR 403. Thesis (4)
BRR 406. Projects: Data Presentation (1)
BRR 407. Seminar (1)
WSE 473. Bioenergy and Environmental Impact (3)

## Bioenergy Electives Categories

Technical Electives:
Choose one course from this list, or another course approved by the Bioenergy advisor that fulfills the intent of the Technical category.
BB 314. Cell and Molecular Biology (4)
BB 350. Elementary Biochemistry (4)
BEE 320. Biosystems Analysis and Modeling (4)

BEE 472. Introduction to Process
Engineering (4)
BEE 473. Introduction to Process
Engineering Design (4)
BEE 499/599. Special Topics: Biofuel
Feedstocks and Production (3)
BIOE 457. Bioreactors (3)
BIOE 490. ^Bioengineering Process Design (4)

BOT 321. Plant Systemics (4)
BOT 331. Plant Physiology (4)
BOT 414. Agrostology (4)
BOT 475. Comparative Genomics (4)
CROP 300. Crop Production in Pacific
Northwest Agroecosystems (4)
FST 479. Fermentation Microbiology (3)
HORT 301. The Biology of Horticulture (3)
MB 230. *Introductory Microbiology (4)
MB 302. General Microbiology (3)
MB 303. General Microbiology Laboratory (2)
MB 312. Bacterial Physiology and
Metabolism (3)
PBG 430. Plant Genetics (3)
PH 313. *Energy Alternatives (3)
WSE 210. *Renewable Materials Technology and Utilization (4)
WSE 321. Chemistry and Structure of Renewable Materials (4)
WSE 322. Physical and Mechanical
Properties of Renewable Materials (4)
WSE 324. Renewable Materials Laboratory (3)

## Environmental:

Choose one course from this list, or another course approved by the Bioenergy advisor that fulfills the intent of the Environmental category.
ATS 320. *The Changing Climate (3)
[Terminated fall 2017]
BEE 499. Special Topics: Bioenergy Systems and Life-Cycle Analysis (2)
BI 301. *Human Impacts on Ecosystems (3)
BI 306. *^Environmental Ecology (3)
CH 390. Environmental Chemistry (3)
ENGR 350. *Sustainable Engineering (3)
ENSC 479. *^Environmental Case Studies (3)
ENVE 321. Environmental Engineering Fundamentals (4)
ENVE 322. Fundamentals of Environmental Engineering (4)
ENVE 415. Environmental Engineering Laboratory (3)
ENVE 425. Air Pollution Control (3)
WSE 473. Bioenergy and Environmental Impact (3)

## Social/Economic/Policy:

Choose one course from this list, or another course approved by the Bioenergy advisor that fulfills the intent of the Social/Economic/Policy category.
AEC 250. *Introduction to Environmental

Economics and Policy (3)
AEC 351. *Natural Resource Economics and Policy (3)
AEC 352. *Environmental Economics and Policy (3)
AEC 434. ${ }^{\wedge}$ Measuring Resource and
Environmental Impacts (4)
AEC 454. Rural Development Economics and Policy (3)
AG 492. Technology Transfer in Agriculture (3)

ANS/FES/FW/SOC 485. *Consensus and Natural Resources (3)
BA 363. Technology and Innovation Management (4)
BA 458. Innovation and New Product Development (4)
BA 464. New Venture Financing (4)
CH 374. *Technology, Energy, and Risk (3)
ED 253. Learning Across the Lifespan (3)
FES/NR/RNG 477. *Agroforestry (3)
FOR 330. Forest Resource Economics I (4)
FW 325. *Global Crises in Resource Ecology (3)

GEOG 340. *Introduction to Water Science and Policy (3)
GEOG 451. Planning Principles and
Practices for Resilient Communities (4)
SED 459. Science and the Nature of Inquiry (3)

SOC 418. Qualitative Research Methods (4)
SOC 481. *Society and Natural Resources (4)
WSE 455. Marketing and Innovation in Renewable Materials (4)

## Total=28-34

Minor Code: 497

## ■ COLLEGE OF AGRICULTURAL

 SCIENCE COURSESAGRI 199. SPECIAL TOPICS (1-3). This course is repeatable for a maximum of 8 credits.
AGRI 299. SPECIAL TOPICS (1-4). Targeted courses that focus on specific topics in agriculture and natural resources. Topics may vary from term to term and from year to year. May be repeated for credit when topics differ. This course is repeatable for a maximum of 8 credits.
AGRI 399. SPECIAL TOPICS (1-4). Targeted
courses that focus on specific topics in agricultural science. Topics may vary from term to term and from year to year. May be repeated for credit when topics differ. This course is repeatable for a maximum of 8 credits.
AGRI 402. INDEPENDENT STUDIES (1-16).
Graded P/N. This course is repeatable for a maximum of 16 credits.
AGRI 407. SEMINAR (1-16). This course is repeatable for a maximum of 16 credits.

## AGRI 411. *INTRODUCTION TO FOOD

SYSTEMS: LOCAL TO GLOBAL (3). What is a food system, what does it look like, and how does it work? How do our food choices shape our world? Food systems, farm to plate, operate within social, political, economic, and natural environments, at multiple scales. This multidisciplinary course will introduce students to the complex topic of food systems, at different scales and from a variety of perspectives. (Bacc Core Course)
AGRI 438. EXPLORING WORLD AGRICULTURE
(2). Global practices of food production are highly diverse. However, there are also many common global issues related to agriculture, food, and natural resources. Speakers with international backgrounds and experiences will present material, as well as student teams who will
research a topic of personal interest. In addition, opportunities for global study, internship, and research will be explored.
AGRI 499. SPECIAL TOPICS (1-4). Targeted courses that focus on specific topics in agriculture and natural resources. Topics may vary from term to term and from year to year. May be repeated for credit when topics differ. This course is repeatable for a maximum of 8 credits.
AGRI 511. INTRODUCTION TO FOOD SYSTEMS: LOCAL TO GLOBAL (3). What is a food system, what does it look like, and how does it work? How do our food choices shape our world? Food systems, farm to plate, operate within social, political, economic, and natural environments, at multiple scales. This multidisciplinary course will introduce students to the complex topic of food systems, at different scales and from a variety of perspectives.
AGRI 599. SPECIAL TOPICS (1-4). Targeted courses that focus on specific topics in agricultural science. Topics may vary from term to term and from year to year. May be repeated for credit when topics differ. This course is repeatable for a maximum of 8 credits.

## ■ BIORESOURCE RESEARCH COURSES

BRR 100. GREAT EXPERIMENTS IN
BIORESOURCE SCIENCES (1). For students interested in BRR and undergraduate research, to introduce the research process and help them start defining research interests and project areas. Faculty describe research projects and experimental approaches, and pose interesting political and ethical questions related to scientific research. Students work with junior and senior student mentors already involved in research projects. Offered fall term. This course is repeatable for a maximum of 2 credits.
BRR 200. DEVELOPING A RESEARCH PROPOSAL: THEORY AND PRACTICE (1). An introduction to conceptual issues for organizing, planning, designing and conducting research in biological and agricultural sciences and natural resources disciplines. Students will master methods and philosophy of research, and then apply them by working in teams to analyze a timely and relevant problem and formulate experimental approaches to address it. This course is repeatable for a maximum of 2 credits.
BRR 299. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 16 credits.
BRR 325. *ENERGY TECHNOLOGY AND SOCIAL CHANGE (3). Science and technology co-evolve with a prosperous human society. The course discusses key issues surrounding the interaction between social changes and energy technologies. (Bacc Core Course) PREREQS: One term physical science with lab.
BRR 350. INTRODUCTION TO REGIONAL BIOENERGY (2). Field trips to visit regional industry and research facilities will introduce bioenergy core concepts and technologies. Guest lecturers will provide technical background and discuss economic, environmental and sociocultural sustainability of bioenergy. Course projects will analyze and present each facility in the context of regional bioenergy issues. Lec/lab.
BRR 399. SPECIAL TOPICS (0-4). This course is repeatable for a maximum of 6 credits.
BRR 401. RESEARCH AND SCHOLARSHIP (116). Undergraduate mentored research. Students select a faculty research mentor (from 7 OSU colleges) and complete 14 credits of research. Students follow established guidelines to prepare project proposals, progress reports, and a thesis; learn research methods applicable to their chosen field; gain professional skills and contacts. Students are evaluated on their ability to develop and complete a research project proposal, learn and develop research methodologies, conduct
research and trouble-shooting procedures, and demonstrate responsible and ethical participation in the research project. Offered all terms. This course is repeatable for a maximum of 99 credits. PREREQS: Departmental approval required.
BRR 403. ^THESIS (4). BRR students independently interpret and present their research in writing. Students write the thesis in a style appropriate for submission to a peer-reviewed journal in their chosen scientific discipline.
Students receive a letter grade based on their final thesis. Timeliness of reports is factored in student assessments. The student's faculty mentor and the BRR Director provide a consensus grade when the thesis is completed. Offered all terms. (Writing Intensive Course) This course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required.
BRR 404. WRITING AND CONFERENCE (1-3).
Thesis writing for Bioenergy minor and other students. This course is repeatable for a maximum of 3 credits.
BRR 405. READING AND CONFERENCE (1-16).
This course is repeatable for a maximum of 16 credits.
BRR 406. PROJECTS-DATA PRESENTATIONS
(1). For any student doing research, to learn to develop and evaluate poster and slide presentations containing scientific data. Students are exposed to a variety of scientific disciplines as they prepare and critique their own and other students> posters and oral presentations. Students improve written and oral communication skills. Letter grade is based on participation, improvement, and the quality of a final poster project and oral presentation. Offered winter term. CROSSLISTED as HORT 406.

BRR 407. SEMINAR (1). For BRR students, to encourage excellence in public speaking. Exposes students to a variety of current seminar topics and provides them with the opportunity to evaluate components of good public seminars. Students receive a grade only after completing a public seminar on their own research (final research seminar). Offered spring term.
BRR 409. PRACTICUM: TEACHING AND PEER MENTORING (1-2). Upper-division BRR students are grouped with lower-division students in BRR 100 to facilitate discussion and encourage dialogue about current research topics. Juniors and seniors Juniors and seniors continue to learn new ways to teach and communicate science issues in written and verbal formats. Offered fall term. This course is repeatable for a maximum of 16 credits.
BRR 410. INTERNSHIP (1-12). Supervised internship allowing students to gain off-campus work experience for credit. Under direction and approval of the program director, students will submit a statement of intent, identify employer contact, and provide a written report upon completion. This course is repeatable for a maximum of 16 credits. PREREQS: Junior standing.

## BRR 450. INTERDISCIPLINARY RESEARCH:

BIOENERGY FOCUS (2). Bioenergy research presentations and papers introduce scientific inquiry, the research process, research seminars, papers and proposals. Analysis of different disciplines; approaches to research tools and data sources (e.g., quantitative versus qualitative approaches). Student teams write research proposals. Second core class in the Bioenergy minor.

BRR 499. SPECIAL TOPICS (2). This course is repeatable for a maximum of 4 credits.

The College of Business provides nationally recognized researchbased education that prepares profession-ready graduates who can excel in an innovative knowledgebased economy. The undergraduate and graduate programs in business and the undergraduate program in accounting are all accredited by the Association to Advance Collegiate Schools of Business.
The School of Design and Human Environment (SDHE) offers nationally recognized academic programs at the undergraduate and graduate level. Students can gain practical experience in their chosen fields through exciting research, internship and/or study abroad opportunities. For specific information about the School of Design and Human Environment, please refer directly to the SDHE section of this catalog or their website: http://business. oregonstate.edu/sdhe/advising.

The information below refers only to the undergraduate/graduate business-specific majors offered by the college.

The College of Business offers seven undergraduate degree programs and three graduate degree programs. Curricula lead to bachelor of arts (BA), bachelor of science (BS), master of business administration (MBA), business administration and accountancy (MBAA), and doctor of philosophy (PhD) in business administration degrees. For advanced degrees, see the Graduate School section of this catalog.

Students wanting to earn a bachelor of arts degree in the College of Business will need to:

1. Demonstrate proficiency through the second year of a foreign language (foreign language is defined as completing the 213 level of that language with a C or better or getting a signed letter from the School of Language, Culture, and Society that states they have determined the student has that level of proficiency without needing the course work), and
2. Demonstrate cultural awareness by either:
3. Completing 6 credits of upperdivision course work focusing on the culture of regions that commonly use the foreign language in which the student is proficient, or
4. Successfully complete a study abroad, global internship, or research experience of at least 10 weeks in a non-English speaking foreign country while enrolled at OSU. This experience must be clearly documented for audit purposes.
The Bachelor of Arts and Bachelor of Science degrees in Business Administration offer options in General Business (Cascades Campus and Extended Campus only), Hospitality Management (Cascades Campus
only), International Business, and Entrepreneurship for Business Majors.

Bachelor of Arts and Bachelor of Science degrees are also available in Business Information Systems, Finance, Management, and Marketing. The Accountancy degree is only a Bachelor of Science.

College of Business undergraduate students have the opportunity to participate in student exchange programs around the world

The College of Business encourages experiential learning through its Arthur Stonehill International Exchange Program, Austin Entrepreneurship Program, Austin Family Business Program, Close to Customer (C2C) Marketing Project, student clubs, and internships.

## FACULTY

Accounting:
Professor Graham
Associate Professors Coakley,
Frischmann, Kleinsorge, Moore
Assistant Professors Akroyd,
Huang, Lin, B. Scott
Senior Instructor Bourne
Instructors Lauka, Lyons, Peacock, Perez
BIS:
Professor Reitsma
Associate Professors Coakley, Marshall, Zhu
Assistant Professor Li
Senior Instructor Raja
Instructors Arora, Micheau
Global Business Analysis:
Professors Hsieh, N. King
Associate Professor Wu
Assistant Professors Chang, Kim, I. Scott, Lu

Instructors Costa, Feeney,
Gonzalez, Hasbrook, Higgins, Lewis, Lykins, Malone, Martin, Micheau, Olstad, Rose, Smith, Young
Strategy and Entrepreneurship: Associate Professors Arthurs, D. Neubaum
Assistant Professors Barden, J. Chen, Cho, Gerasyminka, HoehnWeiss, Joshi, Murnieks, Vestal
Instructors Cassidy, Dowling,
Higgins, Mentler, Morris, S. Neubaum, Noxel, Smouse, Van Order
Finance:
Professor Brooks
Associate Professors BeckerBlease, Berger, Mathew, Yang
Assistant Professors Anthony, Chira
Instructors Burgdorfer,
Varadharajan
Management:
Associate Professors Baldridge, Hacker
Assistant Professors Cho, Hardy,
Houston, Klotz, Leavitt, Murphy,

Undergraduate Majors
Accountancy (BS, CRED, HBS)
Options
Accounting Information Systems
International Business
Apparel Design (BS, CRED, HBS)
Business Administration (BA, BS, CRED, HBA, HBS)

## Options

Entrepreneurship for Business Majors
General Business (Cascades Campus and Ecampus only)
Hospitality Management (Cascades Campus only)
International Business
Merchandising Management
Retail Management (Ecampus only)
Supply Chain and Logistics Management
Business Information Systems (BA, BS, CRED, HBA, HBS)

Option
International Business
Finance (BA, BS, CRED, HBA, HBS)
Option
International Business
Hospitality Management (BA, BS, CRED, HBA, HBS) Offered at OSU-Cascades only.
Innovation Management (BA, BS, HBA, HBS)
Design and Innovation Management (BS, CRED, HBS)

## Options

Apparel Design
Design Management
Interior Design
International Studies (BA, HBA)
Management (BA, BS, CRED, HBA, HBS)

## Option

International Business
Marketing (BA, BS, CRED, HBA, HBS)
Option
International Business
Merchandising Management (BS, CRED, HBS)
Sustainability (BS, HBS)

## Minors

Business and Entrepreneurship
Merchandising Management

## Certificate Program

Postbaccalaureate Certificate in Accounting

## Graduate Majors

Business Administration (MBA)
Graduate Area of Concentration
Clean Technology
Graduate Options
Business Analytics
Corporate Finance
Innovation Management
Marketing
Organizational Leadership
Research Thesis
Supply Chain and Logistics Management
Business Administration (PhD)
Graduate Options
Accounting
Innovation/Commercialization
Business Administration and
Accountancy (MBAA)
Data Analytics (MS)
Graduate Option
Health Analytics
Design and Human Environment (MA, MAIS, MS, PhD)
Graduate Areas of Concentration (MA, MS)
Cultural/Historic Aspects of the Near Environment
Design in the Near Environment
Human Behavior and the Near Environment
Merchandising Management Textiles

Graduate Areas of Concentration (PhD)
Cultural/Historic Aspects of the Near Environment
Design in the Near Environment
Human Behavior and the Near Environment

## Graduate Minors

Business Administration
Design and Human Environment

## Graduate Certificate

Business Analytics
Data Analytics
Financial Planning

## HIGH SCHOOL PREPARATION

The following high school courses are recommended for students planning to enroll in the College of Business: English, four years; mathematics, four years; history and social studies, three years; foreign language, two years; natural science, two years. In addition, competence in microcomputer word processing, spreadsheet, and database software is recommended.

## TRANSFER STUDENTS

Students planning to transfer into the College of Business should do so as early as possible. Those planning to transfer from a community college should consult with an advisor at the community college to determine the most appropriate courses to complete prior to transfer. An advisor in the College of Business should also be contacted for advice.

## ADVISING AND EXPERIENTIAL LEARNING

The College of Business has experienced advisors available to assist students in all academic matters, as well as in the areas of career choice, internships, and other experiential learning opportunities. The resources of the Career Development Center and College of Business Career Success Center (Austin Hall 102) are available to all students seeking information concerning career development and interviews with visiting firms.

## CONCURRENT DEGREES

Students who wish to earn an undergraduate degree from the College of Business combined with another OSU degree may enroll in a concurrent degree program. Some degrees must be completed in conjunction with a primary degree (see the International Studies major in International Programs, the Sustainability major in the Department of Forest Ecosystems and Society, or the Education major in the College of Education for more information.) The requirements for earning two degrees are listed under Earning a Degree at OSU. Students who intend to obtain one of their degrees from the College of Business should see an advisor in the College of Business as soon as possible.

## MINOR PROGRAMS

The College of Business offers one tran-script-visible minor for students majoring in other disciplines. The Business and Entrepreneurship minor allows students to enhance their skills in areas such as marketing, management, finance, and entrepreneurship. More information may be obtained from the College of Business Advising Office, Austin Hall 122, 541-737-3716.

## THE ARTHUR STONEHILL INTERNATIONAL BUSINESS EXCHANGE PROGRAM

The College of Business administers the largest international business exchange program in the state. This opportunity allows qualified students to study abroad in one of 12 carefully selected and approved programs. Successful completion of course work enables students to earn their option in International Business through this one term of study. Current programs are available in Austria, Austra-
ia (I.B. option not available here), Czech Republic, Denmark, Germany, Hong Kong, Netherlands, Norway, Singapore, Spain, Sweden, and Thailand. A onecredit orientation class is required the term prior to departure, and a reflection paper is due upon return. All courses are taught in English and focus on various aspects of international finance, management, and marketing.

## AUSTIN ENTREPRENEURSHIP PROGRAM

## Sandy Neubaum, Director

The Austin Entrepreneurship Program (AEP) at Weatherford Hall is dedicated to teaching entrepreneurship and developing entrepreneurial thinking. By combining a formal entrepreneurship curriculum with a broad range of informal curriculum activities in a unique residential college facility, students live, study, work and dream together...sharing ideas, thinking creatively and learning practical life skills through hands-on experience.

## AUSTIN FAMILY BUSINESS PROGRAM

## Sherri Noxel, Director

Located within the College of Business since 1985, the Austin Family Business Program fosters family businesses through workshops, checklists, videos, academic courses, and internet resources. The program helps business-owning families manage day-to-day operations and plan for future generations.

## CLOSE TO THE CUSTOMER PROJECT (C2C) <br> Linda Lovett, Director

The C2C Project delivers market research to entrepreneurship students, as well as external clients, while providing experiential learning for students.

## GRADUATE PROGRAM

Master of Business Administration
The MBA program is an accelerated management program with an experiential component and an emphasis on innovation, sustainability, technology and entrepreneurship. The program is designed to provide our graduates with the necessary skills to solve complex business problems and to successfully compete in the business marketplace. Foundation courses include such fundamentals as business law, accounting, finance, and marketing. Advanced courses explore contemporary business topics in depth, with an emphasis on sustainability, technology, entrepreneurship and innovation in the global economy. Course work is completed in tandem with the experiential component of the program, the Integrated Business Project (IBP).

With the IBP, student teams are tasked
with creating fact-based, research-driven business plans for the companies of their choice. Whether developing an entrepreneurial venture from scratch or providing an established business with a new direction and growth potential, students become active in their own education. As the cornerstone of the College of Business MBA, the IBP program has a lasting impact not only on students but on commerce and industry in Oregon.
The MBA program is an intensive, fast-paced program designed to guide students through a rigorous foundation and core curriculum while allowing them to pursue their interests and push their boundaries. Throughout, students learn to build teams, integrate disciplines, work under pressure and multitask. In short, the same skills they will rely on when they leave campus.

## COLLEGE OF BUSINESS ACADEMIC AND PROFESSIONAL STANDARDS

The standards set forth below apply to all students enrolled in the College of Business (COB) and are in addition to those standards applicable to all students in the university. Students are responsible for satisfying these requirements.

## Prerequisite Grade Requirements

A grade of C - or better is required for prerequisites for all classes offered by the College of Business. A higher grade is required in some classes as noted in the catalog.

## Academic Progression Standards

 Academic progression standards specify the requirements a student must meet in order to graduate with a degree from the College of Business. OSU has minimum GPA standards. The College of Business (COB) has additional GPA requirements and standards. Students must satisfy both OSU and COB standards to earn their business degree.The COB Progression Standards require that students:

- Achieve a minimum grade of C- or better in all classes used to complete their business degree program.
- Maintain a minimum 2.5 GPA over all course work completed within their business degree program.
- Complete over fifty percent of the business program and discipline course work at OSU.
- Resolve all incomplete (I) grades
in any classes within the business degree program within one year, or prior to graduation, whichever occurs first.
- Make satisfactory progress toward the completion of the business degree program in a timely fashion.
The business degree program includes all COB classes (BA/ACTG) taken for major and elective credit and non-BA classes that are part of the degree requirements (see table below). Any course used to satisfy business degree requirements must be taken using the A-F grade mode. The Satisfactory/Unsatisfactory (S/U) grade basis may not be used. If a course is completed with the $\mathrm{S} / \mathrm{U}$ grade basis prior to declaring the business degree program, the original earned grade (A-F) will be used to compute progression standard GPAs.

Transfer grades in business degree program classes may be used to satisfy course work requirements but are not used in the overall COB GPA calculation used to determine graduation. They are, however, used in the All Inclusive Business GPA. Thus, if a course is completed at OSU and must be repeated to earn a higher grade, then the course must be repeated at OSU for the grade to be included in the GPA calculation.

Lower-division classes (100-200 level) completed at any accredited college or university with a grade of C - or higher may be used to satisfy pre-business core requirements, but will not be included in the overall COB GPA calculation. These transfer courses will be used in the All Inclusive Business GPA.

Upper-division classes (300-level and above) completed with a grade of C - or higher at school(s) accredited by the Association to Advance Collegiate Schools of Business may be used to satisfy upperdivision business core and discipline-specific course work requirements, but will not be included in the overall COB GPA calculation. These transfer courses will be used in the All-Inclusive Business GPA.
Guiding Professional Standards for the College of Business Community
As a member of the College of Business community, you should strive to:

- treat others with honesty, respect, and courtesy;
- maintain the highest levels of academic integrity;
- act in accordance with ethical and

| Progression Group | BA Classes | Non-BA Class |

social responsibilities;

- foster a professional learning environment; and
- act in a professional manner. You are also expected to comply with the law as well as all university regulations and policies that apply to you. Those university policies include, but are not limited to, the University Student Conduct Regulations, the university's Discrimination and Harassment Policies and the university's Policy on Acceptable Use of Computing Resources. Failure to comply with these laws, regulations, and policies may result in the pursuit of disciplinary action by the college, as detailed further below.
General Statement on Professional

## Conduct and Academic Integrity

## The Guiding Professional Standards for

 the College of Business community, subscribed to by all members of the College of Business community, are intended to support and implement the values held by the college. Those values encompass the pursuit of excellence in teaching, learning and scholarship. All members of the College of Business community accept our responsibility to strive to meet those standards and to act in an ethically proper manner in our dealings with others. We dedicate ourselves to create and nurture a culture of innovation, cooperation, diversity and mutual respect within the College of Business while recognizing and pursuing the social responsibilities imposed by these values.A reputation for personal integrity is valuable in the business and broader world. A good reputation is created through personal behavior and performance over time that is observed by friends, colleagues, and business associates, both superiors and subordinates.

The students, faculty, administrators and staff of the College of Business are committed to fostering and creating a positive, professional learning environment. These goals will be pursued by conduct that is honest, civil, courteous and responsible.

## Academic and Disciplinary <br> Procedures

The College of Business Academic and Disciplinary Procedures govern the college's response to a student's failure to progress adequately academically in the college or a violation of the law or university regulations and policies that apply to the student, including the Guiding Professional Standards of the college, the university Student Conduct Regulations, the university's Discrimination and Harassment Policies, or the university's Policy on Acceptable Use of Computing Resources. As is the case for all students, College of Business students are also subject to the university's Student Conduct Regulations and the procedures for
enforcement of those regulations. A failure by the student to progress adequately academically or a violation by the student of the Guiding Professional Standards of the college, the university Student Conduct Regulations, the university's Policy on Discrimination and Harassment, or the university's Policy on Acceptable Use of Computing Resources may result in the pursuit of one or more of the actions detailed below, including dismissal of the student from the college. The college will notify a student against whom it pursues such action with information about the effect of the action on the student's status in the college and information regarding how the student may respond to or appeal the action.

A student against whom the college pursues such action will be issued one of the following notices, depending on the student's academic status or the severity or frequency of the behavior resulting in the action:

## Warning Notice

"Warning" status is cautionary and is issued for one or more of the following academic reasons:

- Earning a 'D' or ' $F$ ' grade in a business program class.
- A small deviation below the minimum 2.5 business GPA.
- Failure to complete business course work in a timely fashion.
A "Warning" may also be issued to identify student behavior, which may place a student's enrollment status in the college at risk. The warning status may be removed following satisfactory resolution of behavioral concerns, as determined by the college.

## Probation Notice

If a student has larger deviations from the COB progression standards than those defined for a warning, or if the student continues to be out of compliance with any of the COB academic progression standards following a Warning, the student may be placed on probation and may be required to take specific action to correct the problem(s).

Student behavior that is a significant departure from the law or university regulations and policies that apply to the student, including the Guiding Professional Standards of the college, the university Student Conduct Regulations, the university's Discrimination and Harassment Policies, or the university's Policy on Acceptable Use of Computing Resources may also result in "Probation" status. Such behavior includes, but is not limited to, academic dishonesty, criminal violations, repeated or intentional violation of university policies, or significant breaches of the Guiding Professional Standards of the college, the university Student Conduct Regulations, the university's Policy on Discrimination and

Harassment or the university's Policy on Acceptable Use of Computing Resources. Detailed information on university policies can be found at the Student Conduct website at http://studentlife.oregonstate. edu/studentconduct.

A student on probation status must follow recommendations of the college in order to avoid suspension or dismissal. Students on probation status must meet with an advisor following each term to review their progress and standing in the college until the probation status is removed. Students who successfully fulfill the recommendations will be removed from probation status. Students who fail to follow or are unsuccessful in fulfilling the recommendations will be placed on suspension and evaluated for dismissal from the college

Probation may also be continued if a student is still out of compliance with academic or behavioral requirements but is taking steps to correct the problem(s) identified.

## Suspension Notice

A student who has displayed severe or repeated departures from the law or university regulations and policies that apply to the student, including the Guiding Professional Standards of the college, the university Student Conduct Regulations, the university's Discrimination and Harassment Policies, or the university's Policy on Acceptable Use of Computing Resources may be placed on suspension status. The college will place an indefinite hold on the progression of a student placed on suspension status until the college can adequately evaluate whether the student will be allowed to continue in the college.

Students engaged in an appeal of their dismissal from the college will also be placed on suspension status.

A student may also be placed on suspension if a student does not take steps to become compliant with the college's academic progression standards (such as retaking a class the student has failed), or the student is not making adequate progress in correcting the student's academic problems.

A student placed on suspension status will not be allowed to progress in the college. The student must wait for a minimum of one term before reapplying for admission to the college and must submit applications in accordance with published guidelines and deadlines. Following reapplication, the college will review the student's record, including any interim proof of progress. After review, the college may recommend immediate dismissal from the college, recommend that the student continues on suspension status pending receipt of additional information, or prescribe a plan to address specific concerns that resulted in the
student's suspension status. If a plan for progression is developed by the college, the student will be placed on probation status pending satisfactory progress.

If the student was placed on suspension for academic reasons and qualifies for readmission, the student must start in Pre-Business and reapply to ProSchool. If, after readmission, the college's or the university's academic standards or requirements have changed since the student was last a business major, the student will be subject to the more recent standards or requirements.

## Dismissal from the College

A student will be dismissed from the college if the student's behavior is a sufficiently severe and significant departure from the law or university regulations and policies that apply to the student, including the Guiding Professional Standards of the college, the university Student Conduct Regulations, the university's Discrimination and Harassment Policies, or the university's Policy on Acceptable Use of Computing Resources or the student fails to constructively address previous behavioral concerns after college action. A student may also be dismissed if the student departs significantly from the college's academic progression standards or if the student fails to follow adequately any plan prescribed while the student is on probation status.

## Appeal of Academic or Disciplinary

## Status

1. Any student who wishes to challenge the student's academic or disciplinary status at the college must submit an appeal in writing to the dean of the college within seven (7) calendar days following the issuance of a notice from the college identifying the student's status. The dean may refer the issue back to the college's standing committee for review if warranted. Following the review, the dean will notify the affected student of his or her decision by mail or email.
2. The student may appeal the dean's decision to the Oregon State University provost in writing within seven (7) calendar days following the issuance of a decision by the dean. The provost's decision on the appeal is the university's final decision.

Assistant Professor Tural
Senior Instructors Burnett, Egan Instructors Cluver, Gallagher, Scranton, Vong

## Undergraduate Majors

Apparel Design (BS, CRED, HBS)
Design and Innovation Management (BS, CRED, HBS)
Options
Apparel Design
Design Management
Interior Design
Merchandising Management (BS, CRED, HBS)

## Minor

Merchandising Management

## Graduate Major

Design and Human Environment (MA, MAIS, MS, PhD)
Graduate Areas of Concentration Apparel Design
Cultural and Historic Aspects of the Near Environment
Human Behavior the Near Environment Interior Design
Merchandising Management Textiles

Graduate Minor
Design and Human Environment
The School of Design and Human Environment offers undergraduate instruction in the areas of apparel design, interiors/residential design, housing studies, and merchandising management. Advanced courses prepare students for positions in retailing of apparel and textile products, design and development of sewn products for manufacturers and retailers, housing design and policy, design of commercial and residential environments, and for graduate work leading to research and college and university teaching.

## GRADUATE STUDIES

The school offers the MS, MA, MAIS, and PhD degrees. Areas of emphasis for
the MS and MA degrees include cultural/ historic aspects of the near environment, human behavior and the near environment, design in the near environment, merchandising management and textiles. Areas of emphasis for the PhD degree include cultural/historic aspects of the near environment, design in the near environment, and human behavior and the near environment.

## PRE-PROFESSIONAL STUDIES ADMISSION REQUIREMENTS

To be considered for admission to the professional majors of Apparel Design, Merchandising Management, and Interior Design (Interior Design option and Housing Studies option), a student must earn a minimum GPA and complete a list of designated courses. Application information is available in the College of Business Advising Office in Austin Hall 122, http://business.oregonstate.edu/ advising.

## UNDERGRADUATE MAJORS WITH OPTIONS

APPAREL DESIGN (BS, CRED, HBS)
We are excited to announce that the curricular redesign of our apparel design degree program is complete. With an emphasis on outdoor and performance wear, graduates are well poised to enter the apparel industry that dominates the pacific northwest. Students interested in apparel design should visit URL http:// catalog.oregonstate.edu/MajorDetail. aspx?id=214 to view the degree requirements. Please note that we have proposed to rename the "Interior Design" major as the "Design and Innovation" major (per proposal 100333). Apparel Design is an option within this major. Until the name change is complete, please select pre-interior design as your major when applying to OSU.
The Apparel Design program prepares students to work in the diverse field of design. Apparel design and product development professionals design sportswear, suits, dresses, coats, accessories, and just about everything else that people wear. Designers research color and style trends to create concepts and sketches for fashions one to two years in advance of the market. Some create new garment styles while others adapt styles from a previous season.

The Apparel Design major is a professional program (major code 400). Entering students are designated as Pre-Apparel Design majors (major code 453). After completing at least 40 credits, students apply for acceptance into the professional program. Students will not be permitted to take Apparel Design professional course work without acceptance into the professional program. To be consid-
ered for admission into the Professional Apparel Design program, all Pre-Apparel Design students must meet the following requirements:

- Declared as Pre-Apparel Design major prior to applying to the professional program.
- A 2.5 cumulative OSU GPA.
- Completed and received a C- or better in all Pre-Apparel Design Core courses.
- Completed at least 40 credits of course work before the first term of the professional program. (Transfer credits: maximum of 30 credits transferred from accredited institution.)

## Baccalaureate Core

Courses may include BCC courses in the pre-professional core, professional core, and support courses.

## Pre-Apparel Design major code 453

## Major Code: 400

## INTERIOR DESIGN (BS, CRED,

## HBS)

The Interior Design major is a professional program. Entering students are designated as Pre-Interior Design majors (major code 454).

Design major requirements are divided into two parts. The first part (the pre-design major), usually taken in the first two years, must be completed before formal admission into the major. The second part (Professional School) is usually taken in the last two years after formal admission into the Design major.

## Summary of Requirements: <br> Pre-Design Major (57)

Pre-Design Core Classes (32)
Art, Communications, Economics, Math,
Statistics, and Writing (25)*
Professional School (64-67)
Pro-School Design Core Classes (40)** Design Option Courses (24-27)
University General Education Requirements (24)

Unrestricted Electives (32-35)
*21 credits from pre-design major satisfy University General Education Requirements.
**8 credits from design major satisfy
University General Education Requirements
Total Required for Graduation (180)

## Design Curriculum

The Design major is a professional program offered through the College of Business.

## Pre-Design Program

Newly admitted students to OSU and all current OSU students who seek to complete an undergraduate design degree program offered by the College of Business (COB) are designated as pre-design majors. The pre-design program requires completion of courses within the first and second year (see core curriculum below) that build a solid foundation for the upper-division design curricula.

These courses must be completed before the student is eligible for admission to the professional design program. The pre-design course work may be completed at OSU or any accredited college or university that offers equivalent courses transferable to OSU.

## Professional Design Program

Admission to the professional design program is restricted to those students who have demonstrated an ability to achieve the high standards required for professional studies. Enrollment within each academic option may be limited to the number of students who can be served by the faculty and facilities of that option. Therefore students should strive to meet the minimum eligibility standards of their particular option of choice as well as those of the College of Business itself. Additional information on the proschool process and current competitive GPA levels for each option can be found on the Pro-School Competitive GPA section of the College of Business Advising website.

To apply and be considered for admission, all pre-professional students must meet the following requirements:

- Be declared as a Pre-Design major.
- Have a minimum OSU cumulative GPA of 2.5 , and a minimum cumulative GPA of 2.5 in all PreDesign course work.
- Have completed and received a C- or better in ALL courses within the PreDesign major by the end of spring term before applying.
Students who have completed their pre-design courses at a college or university other than OSU must be admitted to pre-design their first term and apply for the professional program during their first term of attendance.

Admission into the Interior Design option requires completion of DSGN 287, Studio I: Design Communication (4), and submission of a portfolio. The portfolio will expect students to submit work that demonstrates competency in both two-dimensional and three-dimensional design. The following courses are recommended for students who need to further develop those skills:
ART 115. Foundations: 2-D (4)
ART 117. Foundations: 3-D (4)

## Design Program Requirements (180)

## Design Core Curriculum (72)

The design core curriculum provides students with a broad overview of design thinking and processes;

## Option (24-27)

Options are designed to allow students to extend their professional preparation beyond the introductory level in one or more areas. There are four options available to the Design major:

1. Apparel Design
2. Design Management
3. Housing Studies
4. Interior Design

All options need to be started in the third year. See an academic advisor for more information.

## Mathematics and Statistics (8)

MTH 111. *College Algebra (4)
ST 201. Principles of Statistics (4)

## Economics (4)

ECON 201. *Introduction to
Microeconomics (4)

## Art (10)

ART 101. *Introduction to the Visual Arts (4)
ART 206. * Introduction to Art History -
Western (3)
or ART 205. * Introduction to Art History - Western (3)
or ART 204. *Introduction to Art History - Western (3)

ART 367. *History of Design (3)

## Written and Oral Communication

 (6)COMM 111. *Public Speaking (3)
or COMM 114. *Argument and Critical Discourse (3)
or COMM 218. *Interpersonal Communication (3)
WR 222. *English Composition (3)
or WR 323. *English Composition (3)
or WR 327. *Technical Writing (3)

## University General Requirements

 (24)The ART, COMM, ECON, MTH, and WR classes above meet the university's baccalaureate core requirements for Mathematics, Social Processes and Institutions, Writing II, Speech, Western Culture, Literature and Arts, and Science, Technology and Society. All students must meet the other baccalaureate core requirements and the other requirements for baccalaureate degrees. (See Earning a Degree at OSU.)

## Unrestricted Electives (32-35)

Students are provided elective credits to enable them to achieve a degree of specialization and depth to match their interests.

## Minor (27)

Students are encouraged to choose a non-business university-approved minor that consists of a minimum of 27 credits, with at least 12 credits at the upper-division level. Students are responsible for determining whether the minor has been approved for transcript visibility and to request the notation on their transcript. Students may also choose to complete a coherent set of non-business courses to support their career goals.

## Pre-Interior Design (Major code 454)

## First Year (45 credits)

Students entering OSU on the Corvallis campus as their first college experience are required to participate in Innovation

Nation, the College of Business LivingLearning Community (LLC). These students will complete the following threecourse sequence during their first year:
BA 160. B-Engaged (3)
BA 161. Innovation Nation-Awareness to Action (3)
BA 162. Innovation Nation-Ideas to Reality (3)
Students who transfer to OSU from another academic institution will complete the following courses:

BA 101. Business Now (6)
BA 170. Business Insights (2)
All other students, including students completing their degree via OSU Extend Campus and current OSU students who are changing their major to design, will complete the following course:

## BA 101. Business Now (6)

All students should also complete:
ART 101. *Introduction to the Visual Arts (4)
COMM 111. *Public Speaking (3)
or COMM 114. *Argument and Critical
Discourse (3)
or COMM 218. *Interpersonal
Communication (3)
MTH 111. *College Algebra (4)
WR 121. *English Composition (3)
General Baccalaureate Core courses (17)
Elective credits (5-8)
Note: Students entering design programs should have basic art and illustration skills. ART 115, Foundations: 2-D
(4), and ART 117, Foundations: 3-D
(4), are highly recommended elective courses.

## Second Year (45 credits)

ART 206. * Introduction to Art History Western (3)
or ART 205. * Introduction to Art History - Western (3)
or ART 204. *Introduction to Art History - Western (3)

BA 215. Fundamentals of Accounting (4)
BA 253. Professional Development (4)
DHE 221. Computer Aided Apparel Design I (3)
DHE 281. Drawing and Sketching (4)
DSGN 244. Color Innovation (4)
DSGN 255. Textiles (4)
ECON 201. *Introduction to
Microeconomics (4)
ST 201. Principles of Statistics (4)
WR 222. *English Composition (3) or WR 323. *English Composition (3) or WR 327. *Technical Writing (3)
Baccalaureate core, minor courses, or unrestricted electives (8)
Students interested in Interior Design should complete the following course during the second year:
DHE 287. Studio I: Design Communication (4)

## Professional Interior Design (Major code 458)

Third Year (45 credits)
ART 367. *History of Design (4)
or *ENGR 350. Sustainable Engineering
(3) (Required for Housing Studies option.)

BA 260. Introduction to Entrepreneurship
(4)

BA 352. Managing Individual and Team Performance (4)
BA 354. ^Managing Ethics and Corporate Social Responsibility (4)
BA 390. Marketing (4)
DSGN 341. Design Thinking and Process Innovation (4)
MGMT 364. Project Management (4)
Interior Design option-specific course work (12-15) (See option descriptions on next page.)
Baccalaureate core, minor courses, or unrestricted electives (2-5)

## Fourth Year (45 credits)

DSGN 475. *Global Sourcing of Textiles, Apparel and Footwear (4)
MRKT 492. Consumer Behavior (4)
MRKT 495. Retail Management (4)
Interior Design option-specific course work

## MERCHANDISING MANAGEMENT

## (BS, CRED, HBS)

Students in the Merchandising Management program prepare for positions in management, merchandising, inventory control, sales promotion, public relations, or human resources. This field offers a wide variety of career opportunities with retailers, manufacturers, marketing research firms and product information services. In a global, diverse, and fast-paced, competitive environment, merchandisers are involved in market analysis, product planning, sourcing, procurement, pricing, distribution and visual presentation of apparel and textile products to satisfy consumer needs.

The Merchandising Management major is a professional program (major code 416). Entering students are designated as Pre-Merchandising Management majors (major code 277).

Merchandising Management major requirements are divided into two parts. The first part (the pre-Merchandising Management major), usually taken in the first two years, must be completed before formal admission into the major. The second part (Professional School) is usually taken in the last two years after formal admission into the Design major.

## Summary of Requirements:

Pre-Merchandising Management Major (57)
Pre-Merchandising Management Core
Classes (32)
Art, Communications, Economics, Math,
Statistics, and Writing (25)*
Professional School (67)
Pro-School Core Classes (40)**
Merchandising Management Courses (27)
University General Education Requirements (24)

Unrestricted Electives (32)
*21 credits from pre-merchandising management major satisfy University General Education Requirements.
**8 credits from merchandising major satisfy University General Education Requirements

## Total Required for Graduation <br> (180)

## Merchandising Management

## Curriculum

The Merchandising Management major is a professional program offered through the College of Business.

## Pre-Merchandising Management Program

Newly admitted students to OSU and all current OSU students who seek to complete an undergraduate Merchandising Management degree program offered by the College of Business (COB) are designated as pre-Merchandising Management majors. The pre-Merchandising Management program requires completion of courses within the first and second year (see core curriculum below) that build a solid foundation for the upper-division design curricula. These courses must be completed before the student is eligible for admission to the professional design program. The pre-Merchandising Management course work may be completed at OSU or any accredited college or university that offers equivalent courses transferable to OSU.

## Professional Merchandising

## Management Program

Admission to the professional merchandising management program is restricted to those students who have demonstrated an ability to achieve the high standards required for professional studies. Enrollment within each academic option may be limited to the number of students who can be served by the faculty and facilities of that option. Therefore students should strive to meet the minimum eligibility standards of their particular option of choice as well as those of the College of Business itself. Additional
information on the pro-school process and current competitive GPA levels for each option can be found on the ProSchool Competitive GPA section of the College of Business Advising website.
To apply and be considered for admission, all pre-professional students must meet the following requirements:

- Be declared as a Pre-Merchandising Management major.
- Have a minimum OSU cumulative GPA of 2.5, and a minimum cumulative GPA of 2.5 in all PreDesign course work.
- Have completed and received a C- or better in ALL courses within the PreMerchandising Management major by the end of spring term before applying.
Students who have completed their pre-Merchandising Management courses at a college or university other than OSU must be admitted to pre-Merchandising Management their first term and apply for the professional program during their first term of attendance.

## Merchandising Management

Program Requirements (180)

## Merchandising Management Core

 Curriculum (72)The Merchandising Management core curriculum provides students with a broad overview of design thinking and processes.

## Mathematics and Statistics (8)

MTH 111. *College Algebra (4)
ST 201. Principles of Statistics (4)

## Economics (4)

ECON 201. *Introduction to
Microeconomics (4)

## Art (10)

ART 101. *Introduction to the Visual Arts (4)

ART 206. * Introduction to Art History Western (3)
or ART 204. *Introduction to Art History - Western (3)
or ART 205. * Introduction to Art History - Western (3)

ART 367. *History of Design (3)

## Written and Oral Communication

(6)

COMM 111. *Public Speaking (3)
or COMM 114. *Argument and Critical
Discourse (3)
or COMM 218. *Interpersonal
Communication (3)
WR 222. *English Composition (3)
or WR 323. *English Composition (3)
or WR 327. *Technical Writing (3)

## University General Requirements <br> \section*{(24)}

The ART, COMM, ECON, MTH, and WR classes above meet the university's baccalaureate core requirements for Mathematics, Social Processes and Institutions, Writing II, Speech, Western Culture, Literature and Arts, and Science,

Technology and Society. All students must meet the other baccalaureate core requirements and the other requirements for baccalaureate degrees. (See Earning a Degree at OSU.)

## Unrestricted Electives (32-35)

Students are provided elective credits to enable them to achieve a degree of specialization and depth to match their interests.

## Minor (27)

Students are encouraged to choose a non-business university-approved minor that consists of a minimum of 27 credits, with at least 12 credits at the upper-division level. Students are responsible for determining whether the minor has been approved for transcript visibility and to request the notation on their transcript. Students may also choose to complete a coherent set of non-business courses to support their career goals.

## Pre- Merchandising Management

 Design (Major code 277)
## First Year (45 credits)

Students entering OSU on the Corvallis campus as their first college experience are required to participate in Innovation Nation, the College of Business LivingLearning Community (LLC). These students will complete the following threecourse sequence during their first year:
BA 160. B-Engaged (3)
BA 161. Innovation Nation-Awareness to Action (3)
BA 162. Innovation Nation-Ideas to Reality (3)

Students who transfer to OSU from another academic institution will complete the following courses:
BA 101. Business Now (6)
BA 170. Business Insights (2)
All other students, including students completing their degree via OSU Extended Campus and current OSU students who are changing their major to design, will complete the following course:
BA 101. Business Now (6)
All students should also complete:
ART 101. *Introduction to the Visual Arts (4)
COMM 111. *Public Speaking (3)
or COMM 114. *Argument and Critical Discourse (3)
or COMM 218. *Interpersonal
Communication (3)
MTH 111. *College Algebra (4)
WR 121. *English Composition (3)
General Baccalaureate Core courses (17)
Elective credits (5-8).
Note: Students entering design programs should have basic art and illustration skills. ART 115, Foundations: 2-D (4), and ART 117, Foundations: 3-D (4), are highly recommended elective courses.

## Second Year ( 45 credits)

ART 206. * Introduction to Art History Western (3)
or ART 204. *Introduction to Art History - Western (3)
or ART 205. * Introduction to Art History

- Western (3)

BA 215. Fundamentals of Accounting (4)
BA 253. Professional Development (4)
DHE 221. Computer Aided Apparel Design I (3)
DHE 255. Textiles (4)
DSGN 244. Color Innovation (4)
DSGN 281. Drawing and Sketching (4)
ECON 201. *Introduction to
Microeconomics (4)
ST 201. Principles of Statistics (4)
WR 222. *English Composition (3)
or WR 323. *English Composition (3)
or WR 327. *Technical Writing (3)
Baccalaureate core, minor courses, or unrestricted electives (8)
Professional Merchandising
Management Design (Major code

## 416)

## Third Year (45 credits)

ART 367. *History of Design (4)
or *ENGR 350. Sustainable Engineering
(3) (required for Housing Studies option)

BA 260. Introduction to Entrepreneurship (4)

BA 352. Managing Individual and Team Performance (4)
BA 354. ${ }^{\wedge}$ Managing Ethics and Corporate Social Responsibility (4)
BA 390. Marketing (4)
DSGN 341. Design Thinking and Process
Innovation (4)
DHE 330. Fashion Forecasting and Market Analysis (4)

## Pre-Merchandising Management major code 277 <br> Major Code: 416

## MERCHANDISING MANAGEMENT MINOR

## This program suspended per

proposal 94292, July 13, 2015.
The Merchandising Management minor emphasizes the merchandising of textile products such as apparel, outdoor gear, and home furnishings.

BA 215 or equivalent, BA 390, and ECON 201, ECON 202 are prerequisites for upper-division courses in the minor.

## Core courses (28)

All courses must be taken on a graded (A-F) basis.
DHE 255. Textiles (4)
DHE 270. *Appearance, Power and Society (DPD) (4)
DHE 271. Introduction to Retail Buying (3)
DHE 277. Fashion Trend Analysis (3)
DHE 326. Sewn Product Development (5)
DHE 370. ${ }^{\wedge}$ Textile and Apparel Market Analysis (4)
DHE 470. Retail Merchandising (4)
Select a minimum of 8 credits from the following:
DHE 366. Cross Cultural Aspects of the Near Environment (4)
DHE 461. History of the Near Environment (4)

DHE 462. *History of the Near Environment II (STS) (4)
DHE 463. History of Contemporary Fashion (4)

DHE 472. Merchandise Planning and Control (4)
DHE 473. Assortment Analysis and Management (4)
DHE 475. *Global Sourcing of Textiles, Apparel, and Footwear (4)

## DESIGN AND HUMAN ENVIRONMENT (MA, MS, PhD, MAIS)

## Graduate Areas of Concentration

Apparel design, cultural and historic aspects of the near environment, human behavior in the near environment, interior design, merchandising management, and textiles

Admission to the Design and Human Environment graduate major has been suspended, November 2015.
The School of Design and Human Environment offers graduate work leading toward Master of Science, Master of Arts, and Doctor of Philosophy degrees in Design and Human Environment.

Areas of concentration for MS and MA
degrees include apparel design, cultural and historic aspects of the near environment, human behavior the near environment, interior design, merchandising management, and textiles.

Areas of concentration for the PhD degree include cultural and historic aspects of the near environment, human behavior in the near environment, merchandising management, and textiles.

Graduate programs in DHE prepare students for college and university teaching, research and creative scholarship; careers in design, product development, product quality assurance or merchandising; historic/cultural research, collection management, and preservation of textile and architectural artifacts; and public policy.

Research is a central component of the DHE graduate program. Students have an opportunity to work on research and creative scholarships with internationally recognized faculty members who have published in the areas of historic costume, human behavior and the near environment, apparel design, interior design, fashion theory, consumer behavior, and housing.

For further information, visit http://gradschool.oregonstate.edu/ programs/4410/design-and-human-environment-phd-ma-ms-minor, email MBAInfo@bus.oregonstate.edu or call 541-737-5510.

## ■ DESIGN AND HUMAN ENVIRONMENT COURSES

DHE 121. COMPUTER DESIGN FOR APPAREL
(3). Instruction in drawing, editing, and layout techniques using Adobe Illustrator and Photoshop. Studio.

DHE 160. DESIGN PERSPECTIVES (4).
Overview of how design reflects and shapes social, cultural, and temporal values and contexts across many different areas of design specialization. Areas to be explored include design processes, principles, and problem solving.
DHE 161. DESIGN EXPLORATIONS (4). Introduction to principles and theories of design through iterative development and making of project work. Topics include basic design terminology, design principles, and materiality. Lec/studio. PREREQS: DHE 160 [C-]
DHE 170. INTRODUCTION TO THE TEXTILE AND APPAREL INDUSTRY (4). Overview of industry sectors involved in the planning, creation, production, merchandising, distribution, and consumption of textile, apparel, and related products. Overview of various career options within the industry.
DHE 180. INTRODUCTION TO SINGLE FAMILY HOUSING (3). Critical examination of single family housing. Considers space planning fundamentals. Introduces construction principles and methods. Develops a working knowledge of methods used to communicate architectural ideas.

DHE 181. INTRODUCTION TO INTERIOR
DESIGN (3). Introduction to the interior design profession including space planning fundamentals, design process, color, sustainability, and humancentered design.
DHE 182. COMPUTER ASSISTED DESIGN AND DRAFTING (3). Instruction in computer assisted design and drafting techniques. PREREQS: Enrollment restricted to pre-interiors, pre-housing, and merchandising management majors.

## DHE 187. INTRODUCTION TO DESIGN

 COMMUNICATION (0-3). Fundamentals of design communication including drafting, lettering, illustrative sketching, perspective, and orthographic projections. Lec/studio. PREREQS: DHE 180 [C-] and enrollment restricted to pre-interiors, pre-housing, and merchandising management majors.DHE 199. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 16 credits.
DHE 221. COMPUTER AIDED APPAREL
DESIGN I (3). Introduction to the Adobe Creative Suite: Illustrator, Photoshop and InDesign. Instruction in drawing, image editing and design layout. PREREQS: DHE 170 [C-] and restricted to professional school students majoring in Merchandising Management (major code 416) and Apparel Design (major code 400).
DHE 227. APPAREL DESIGN AND
PRODUCTION 1 (4). Terminology, construction techniques and processes used to produce apparel. Development of production patterns and specifications with analysis of apparel construction related to equipment, cost, quality, end use and customer needs. PREREQS: Restricted to Apparel Design (major code 400) majors.

DHE 233. HISTORY OF CONTEMPORARY FASHION (4). Examination of fashion change in apparel from 1890 to the present. Recognition of style variations. Influence of socio-cultural factors. PREREQS: DHE 170 [C-] and restricted to professional school students majoring in Merchandising Management and Apparel Design.
DHE 240. SURVEY OF DESIGN IN THE NEAR ENVIRONMENT (3). Introduction to theories of aesthetics and elements and principles of design as related to the fields of apparel, interiors, housing, and merchandising.
DHE 242. INTRODUCTION TO SOFTGOODS MERCHANDSNG (4). Overview of merchandising functions within the apparel industry, as well as how these functions interact with industry sectors involved in the planning, creation, production, distribution, and sale of apparel and related products. Wholesale and retail assortment planning. Basic merchandising mathematics. Exce skill development. PREREQS: Restricted to PreBusiness majors.
DHE 245. APPLICATIONS OF DESIGN THEORY
(5). Examines theories of design and aesthetics, application of the elements and principles of design related to apparel, housing, and interior design. Lec/studio. PREREQS: Enrollment restricted to pre-interiors, pre-housing and preapparel majors.
DHE 255. TEXTILES (4). Properties, identification, selection, use and care of textile fibers and fabrics. Analysis of fiber, yarn, and fabric constructions in textiles.

DHE 262. HUMAN-CENTERED RESEARCH IN DESIGN AND MERCHANDISING (4). Application of a qualitative, multi-method approach to gain insight into how the consumer experience can be improved within a given context. PREREQS: DHE 161 [C-] and restricted to professional school students majoring in Apparel Design, Merchandising Management, Graphic Design, and Interior Design.
DHE 263. HUMAN-CENTERED DESIGN
THEORIES AND STRATEGIES (4). Overview of
perception, semantics, and information design theories and strategies within a human-centered
context.
DHE 270. *APPEARANCE, POWER AND
SOCIETY (4). Survey of the cultural, sociological, psychological, economic, and aesthetic influences on appearance and power. (Bacc Core Course)

## DHE 271. INTRODUCTION TO RETAIL BUYING

(3). Introduction to soft goods retailing with a
focus on the role of the retail buyer. Fundamental retailing and merchandising concepts, sustainable and socially responsible decision-making related to retail buying, basic merchandising mathematics and Excel skill development. Lec/lab.

## DHE 276. INTRODUCTION TO

MERCHANDISING MANAGEMENT (4). Overview of merchandising functions within the textile and apparel industry. Fundamental merchandising concepts. Merchandising mathematics related to pricing and re-pricing, the profit and loss statement, and performance evaluation. Excel skill development. Lec/lab. PREREQS: DHE 170 [C-] and restricted to Merchandising Management majors (major code 416).

DHE 277. FASHION TREND ANALYSIS (3). The fashion trend forecasting process within the soft goods industry; use of information sources and trend analysis in developing and promoting a fashion product. PREREQS: Enrollment restricted to merchandising management, pre-apparel and apparel design majors.

## DHE 281. DRAWING AND SKETCHING

INTERIORS (4). Build technical drawing skills, observational and perspective drawing, as well as imagination and creativity. Working knowledge of visual methods for communicating design concepts and describing interior spaces. PREREQS: DHE 280 [D-] and acceptance into the Interior Design Professional Program

## DHE 283. BUILDING CONSTRUCTION AND

 MATERIALS (3). Introduction to the manufacture, characteristics and use of construction materials used in contract and residential construction, including environmentally friendly materials. PREREQS: Enrollment restricted to students who have been admitted into the DHE interior design professional program.DHE 287. STUDIO I: DESIGN COMMUNICATION (4). Design communication through electronic media: 2D and 3D visualizations and presentations of interior space. Lec/studio. PREREQS: DHE 187 [C-] and enrollment restricted to housing studies and interior design majors.

## DHE 288. ENVIRONMENTAL BUILDING

SYSTEMS (3). Lighting, heating, ventilating, air conditioning, and acoustical systems in residential and commercial buildings. Includes sustainable building principles. PREREQS: (DHE 283 [C-] and DHE 287 [C-] ) and enrollment restricted to housing studies and interior design majors.
DHE 289. STUDIO II: RESIDENTIAL SPACE PLANNING (4). Utilization of space planning principles in the design of residences. Includes rendering, perspective drawing, graphic communication techniques, and model building. PREREQS: DHE 287 [C-] and enrollment restricted to housing studies and interior design majors.
DHE 299. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 16 credits.

## DHE 300. FIELD EXPERIENCE ORIENTATION

AND DEVELOPMENT (1-2). Exploration of career choices, goals, and field experience opportunities; preparation in planning, obtaining, and completing an internship. Graded P/N. Section 1: Apparel Design. Section 2: Interior Design and Housing Studies. Section 3: Merchandising Management. Section 4: Graphic Design. This course is repeatable for a maximum of 3 credits.

DHE 310. FIELD EXPERIENCE (1-12). Integration and application of academic preparation in an on-the-job work situation with supervision by personnel at the participating site and university faculty. Application must be made
prior to participation. Section 1: Merchandising Management (1-12) Section 2: Interior Design (1-12) Section 3: Apparel Design (1-12) Section 4: Graphic Design (1-12) Graded P/N. This course is repeatable for a maximum of 16 credits PREREQS: DHE 300 [D-] and acceptance into a professional program and departmental approval. All sections: DHE 300

DHE 321. ILLUSTRATION, PORTFOLIO, AND DESIGN DEVELOPMENT (3). Techniques in technical drawing, fashion illustration, and portfolio development; use of computer-aided design applications in the design of apparel. PREREQS: (DHE 245 [C-] and DHE 277 [C-] ) and enrollment restricted to Apparel Design (major code 400) majors.
DHE 326. SEWN PRODUCT DEVELOPMENT
(5). Materials, assembly process, quality factors, and costs in the development of sewn textile products; consideration of consumer produc expectations and intended end-use. Lec/lab. PREREQS: (DHE 250* [C-] or DHE 255* [C-] ) and enrollment restricted to merchandising management, pre-apparel, and apparel design majors.

DHE 327. APPAREL DESIGN AND
PRODUCTION 2 (4). Terminology, construction techniques and processes used to produce apparel. Development of production patterns and specifications. Development of original apparel designs. PREREQS: DHE 227 [C-] and enrollment restricted to Apparel Design (major code 400) majors.

## HE 328. COMPUTER-AIDED PATTERN

DEVELOPMENT (3). Computer-aided flat pattern, grading and marker techniques using pattern development software. PREREQS: DHE 327 or previous flat pattern experience.
DHE 330. ^FASHION FORECASTING AND
MARKET ANALYSIS (4). Forecasting and market analysis processes applied to fashion goods (Writing Intensive Course) PREREQS: DHE 233 [C-] and WR 121 [C-] and WR 222 [C-] and restricted to professional school students majoring in Merchandising Management (major code 416) and Apparel Design (major code 400).

DHE 331. CONTEMPORARY ISSUES IN
HOUSING (3). Introduction to housing as a product, environment, service and process. Emphasizes housing issues that have impact upon the well-being of individuals, families and communities.

DHE 334. FASHION HISTORY AND SOCIETY (4). The influence of society, culture, geography, fashion, and technology on the design and consumption of dress, Late Middle Ages to 1899. PREREQS: DHE 330 [C-] and restricted to professional school students majoring in Merchandising Management (major code 416) and Apparel Design (major code 400).
DHE 352. TEXTILES FOR INTERIORS (4). Types, qualities, and maintenance of functional and decorative fabrics for homes and public buildings. Use of specifications, standards, and legislation. PREREQS: DHE 255 [C-] and enrollment restricted to Merchandising Management and Interior Design majors.

## DHE 355. TEXTILE PERFORMANCE AND

EVALUATION (4). Analysis and evaluation of textile materials and final products in relation to end use. Performance properties and serviceability testing, product specifications and industrial standards. Lec/lab. PREREQS: DHE 255 [C-] and restricted to professional school students majoring in Merchandising Management (major code 416) and Apparel Design (major code 400).
DHE 360. COLLABORATIVE STUDIO (4).
Examines a variety of collaborative methodologies and situations. Students will work across disciplines to solve complex collaborative projects. The projects will be both client based and hypothetical. Lec/studio. PREREQS: DHE 262 [C-] and DHE 263 [C-]

DHE 366. CROSS CULTURAL ASPECTS OF THE NEAR ENVIRONMENT (4). Sociocultural study of the function and design of clothing, housing, interiors, and textiles. Cultural diversity; impact of cross-cultural contact; ethnicity.
DHE 370. ^TEXTILE AND APPAREL MARKET
ANALYSIS (4). Organization, operation, and merchandising activities of the domestic textile and apparel industries. Analysis of the marketing process and the product/service mix of textile and apparel manufacturers. (Writing Intensive Course) PREREQS: DHE 277* [C-] and BA 390 is recommended. Enrollment restricted to Merchandising Management, pre-apparel, and Apparel Design majors.

## DHE 376. RETAIL MERCHANDISE PLANNING

 AND PRESENTATION (4). Organization, operation, and competitive strategies of soft goods retailers. Planning, procurement, and promotion of merchandise assortments and inventory management. PREREQS: DHE 276 [C-] and BA 215 [C-] and restricted to professional school students majoring in Merchandising Management (major code 416).
## DHE 387. STUDIO III: ADVANCED DESIGN

COMMUNICATION (4). Development of illustrative sketching, perspective drawing, concept model construction, and presentation materials. PREREQS: DHE 289 [C-] and enrollment restricted to Housing Studies and Interior Design majors.
DHE 388. STUDIO IV: HOSPITALITY DESIGN
(4). Study and design of hospitality spaces in compliance with building codes and industry standards, with emphasis on sustainability, safety, and cultural context. PREREQS: DHE 352 [C-] and DHE 387 [C-]
DHE 389. STUDIO IV: KITCHEN AND BATH DESIGN (4). Kitchen and bath planning in compliance with building codes and industry standards, with emphasis on resource conservation, safety, and special needs. This course utilizes both CAD and hand drafting PREREQS: DHE 387 [C-] and enrollment restricted to Housing Studies and Interior Design majors.

DHE 394. STUDIO V: LIGHTING DESIGN (4). Lighting design and documentation for residential and small commercial projects. The commercial projects include space planning and lighting design for workspace and retail environments. PREREQS: DHE 388 [C-]

DHE 399. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 16 credits.

## DHE 400. FIELD EXPERIENCE ORIENTATION

 AND DEVELOPMENT (1). Exploration of career choices, goals, and field experience opportunities; preparation in planning, obtaining, and completing an internship. Graded P/N. Section 1: Apparel Design. Section 2: Interior Design and Housing Studies. Section 3: Merchandising Management. This course is repeatable for a maximum of 3 credits.DHE 401. RESEARCH AND SCHOLARSHIP
(1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required.

DHE 402. INDEPENDENT STUDY (1-16). This course is repeatable for a maximum of 16 credits PREREQS: Departmental approval required.

DHE 403. THESIS (1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required.
DHE 405. READING AND CONFERENCE (1-
16). This course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required.
DHE 406. PROJECTS (1-16). This course
is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required.

DHE 407. SEMINAR (1-16). This course is repeatable for a maximum of 16 credits.

DHE 408. WORKSHOP (1-16). This course is repeatable for a maximum of 16 credits.

DHE 409. PRACTICUM (1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required.
DHE 410. FIELD EXPERIENCE (6-12). Integration and application of academic preparation in an on-the-job work situation with supervision by personnel at the participating site and university faculty. Application must be made prior to participation. Section 1: Merchandising Management (12). Section 2: Interior Design (12). Section 3: Apparel Design (12). This course is repeatable for a maximum of 16 credits. PREREQS: DHE 400 [C-] and junior standing and departmental approval. Sect. 1: BA 215 and DHE 370. Sect. 2: DHE 289. Sect. 3: DHE 321.

## DHE 415. *RENEWABLE MATERIALS IN

 THE MODERN AGE (3). Micro-renewable materials anatomy course taught within an interdisciplinary, hands-on format. Suitable for all majors and backgrounds. Course covers the micro- and macro-anatomy of wood and other common renewable materials like bamboo and cellulose fibers. Utilizes studio-based learning. CROSSLISTED as WSE 415. (Bacc Core Course)DHE 415H. *RENEWABLE MATERIALS IN
THE MODERN AGE (3). Micro-renewable materials anatomy course taught within an interdisciplinary, hands-on format. Suitable for all majors and backgrounds. Course covers the micro- and macro-anatomy of wood and other common renewable materials like bamboo and cellulose fibers. Utilizes studio-based learning CROSSLISTED as WSE 415H. (Bacc Core Course) PREREQS: Honors College approval required.
DHE 422. DHE FASHION SHOW AND DESIGN EXHIBITION (1-16). Special topics in design and human environment. This course is repeatable for a maximum of 16 credits.

DHE 427. DRAPING (4). Garment design based on manipulation of fabric on a body form; emphasis on the interrelationships between fabric, garment design, and the human form. PREREQS: (DHE 321 [C-] and DHE 327 [C-] ) and enrollment restricted to Apparel Design majors (major code 400).

## DHE 428. APPAREL PRODUCTION

PROCESSES (4). Production pattern-making, pattern grading, marker making, garment specifications, and cost analysis. Apparel assembly processes; analysis of equipment capabilities and production processes. PREREQS: DHE 327 [C-] and enrollment restricted to apparel design majors.
DHE 429. ADVANCED APPAREL DESIGN (4).
Design processes and research methods used to develop apparel designs. Students will identify design problems and implement appropriate methods to develop apparel products. PREREQS: (DHE $321^{*}$ [C-] and DHE $327^{*}$ [C-] and DHE $427^{*}$ [C-] and DHE 428* [C-] ) and enrollment restricted to Apparel Design majors (major code 400).
DHE 432. STUDIO V: ADVANCED HOUSING
STUDIO (4). Problem-solving and design processes to meet or satisfy actual client needs; projects may range from remodeling to new construction design. Professional portfolio preparation. PREREQS: DHE 389 [C-] and enrollment restricted to Interior Design majors (major code 458).

DHE 435. HOUSING POLICY (3). Analysis of local, state, and federal housing and community development policies and programs that address the housing issues and needs of individuals, families, and communities.
DHE 436. REAL ESTATE FINANCE AND
MANAGEMENT (5). Examines principles and practices used in the purchase, sale
and management of real estate. Considers perspectives of consumers, investors, managers, and lenders.

## DHE 437. CONSUMER BEHAVIOR AND

CULTURE (4). Global and cultural consumer behavior, globalization and cross-cultural marketing related to soft goods merchandising and retailing. PREREQS: DHE 334 [C-] and restricted to professional school students majoring in Merchandising Management (major code 416) and Apparel Design (major code 400).
DHE 443. STUDIO VI: COMMERCIAL DESIGN
(4). Commercial design, space planning and specifications for facilities such as retail, hospitality, healthcare, public institutions and offices. PREREQS: DHE 389 [C-] and enrollment restricted to interior design majors.
DHE 445. STUDIO VII: ADVANCED
COMMERCIAL DESIGN (4). Interior design project development with emphasis on design of hospitality environments. Application of knowledge of space planning, building codes, and specifications to projects. Studio work includes concept sketches, schematic drawings, contract documents, sample boards, and models PREREQS: DHE 443 [C-] and enrollment restricted to Interior Design majors (major code 458).

DHE 453. PRODUCT QUALITY ASSURANCE
(4). Analysis and evaluation of textile materials and final products in relation to end use. Performance properties and serviceability testing, product specifications and industrial standards. Lec/lab. PREREQS: DHE 255 [C-] and DHE 326
DHE 461. HISTORY OF THE NEAR
ENVIRONMENT I (4). History of clothing, furniture, interiors, textiles, and housing and building styles; primarily Euro-American, from the ancient world to the Renaissance. The influence of social and cultural factors upon design of the near environment. Need not be taken in sequence.

## DHE 462. *HISTORY OF THE NEAR

ENVIRONMENT II (4). History of clothing, furniture, interiors, textiles, and housing and building styles; primarily Euro-American, from the Renaissance to 1899. The influence of social and cultural factors upon design of the near environment. Need not be taken in sequence. (Bacc Core Course)
DHE 463. HISTORY OF CONTEMPORARY FASHION (4). Historic analysis of fashion change in men's and women's apparel from 1890 to the present. The influence of social and cultural factors upon Euro-American fashion. PREREQS: DHE 461 or DHE 462 is recommended.
DHE 464. CONTEMPORARY HISTORY OF INTERIORS AND HOUSING (3). History of housing and interior design from the mid-19th century until the present. PREREQS: (DHE 461 [C-] or DHE 462 [C-] )

## DHE 470. RETAIL MERCHANDISING (4).

Organization, operation, and competitive strategies of soft goods retailers. Planning, procurement, pricing, and promotion of merchandise assortments and inventory management. PREREQS: DHE 370 [C-]
DHE 472. MERCHANDISE PLANNING
AND CONTROL (4). Quantitative analysis of inventory planning, pricing, and control for the profitable management of soft goods; analysis of management problems using quantitative data and merchandising principles. Lec/rec. PREREQS: DHE 271 [C-] and DHE 470 [C-] and (BA 215 [C-] or BA 215H [C-] ) and enrollment restricted to Apparel Design (major code 400) and Merchandising Management (major code 416) majors.
DHE 475. *GLOBAL SOURCING OF TEXTILES, APPAREL, AND FOOTWEAR (4). Trade theory and the effects of trade policy, cultural values, and economics on the global production, distribution, and consumption of textiles, apparel, and

## footwear. (Bacc Core Course)

DHE 476. LINE PLANNING AND PRODUCT
DEVELOPMENT (4). Overview of the
merchandising function within branded apparel companies and private label retailers. PREREQS: DHE 376 [C-] and restricted to professional school students majoring in Merchandising Management (major code 416).
DHE 481. ^PROFESSIONAL PRACTICE IN HOUSING AND INTERIOR DESIGN (3). Ethical, business, and legal aspects of the design profession. Development of written documents, schedules, specifications, and other materials typical of the profession. (Writing Intensive Course) PREREQS: DHE 389 [C-] and enrollment restricted to Interior Design (major code 458) majors.
DHE 488. STUDIO VI: HEALTHCARE DESIGN
(4). Interior design project development with emphasis on healthcare design, contract documents, and building codes. PREREQS: DHE 394 [C-]

DHE 490. STUDY TOUR (1-6). Planned study tour with specific professional focus. This course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval and advanced registration and deposit. Course prerequisites as appropriate to topic.
DHE 495. STUDIO VII: SENIOR THESIS II
(4). Individual design project development of programming document and construction drawings. PREREQS: DHE 494* [C-]
DHE 499. SPECIAL TOPICS IN DESIGN AND HUMAN ENVIRONMENT (1-16). This course is repeatable for a maximum of 16 credits.
DHE 501. RESEARCH AND SCHOLARSHIP
(1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required.

DHE 502. INDEPENDENT STUDY (1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required.
DHE 503. THESIS (1-16). This course is repeatable for a maximum of 999 credits.
DHE 505. READING AND CONFERENCE (1-
16). This course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required.
DHE 506. PROJECTS (1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required.
DHE 507. SEMINAR (1-16). This course is repeatable for a maximum of 16 credits.

DHE 508. WORKSHOP (1-16). This course is repeatable for a maximum of 16 credits.

DHE 509. PRACTICUM (1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required.

DHE 510. INTERNSHIP (1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required.
DHE 515. RENEWABLE MATERIALS IN THE MODERN AGE (3). Micro-renewable materials anatomy course taught within an interdisciplinary, hands-on format. Suitable for all majors and backgrounds. Course covers the micro- and macro-anatomy of wood and other common renewable materials like bamboo and cellulose fibers. Utilizes studio-based learning. CROSSLISTED as WSE 515.

DHE 527. DRAPING (4). Garment design based on manipulation of fabric on a body form; emphasis on the interrelationships between fabric, garment design, and the human form. PREREQS: DHE 321 and DHE 327
DHE 528. APPAREL PRODUCTION
PROCESSES (4). Production pattern-making, pattern grading, marker making, garment
specifications, and cost analysis. Apparel assembly processes; analysis of equipment capabilities and production processes. PREREQS: DHE 327
DHE 529. ADVANCED APPAREL DESIGN (4).
Design processes and research methods used to develop apparel designs. Students will identify design problems and implement appropriate methods to develop apparel products. Lec/studio. PREREQS: DHE 327 and DHE 427 and DHE 428 are recommended and may be taken concurrently.
DHE 553. PRODUCT QUALITY ASSURANCE
(4). Analysis and evaluation of textile materials and final products in relation to end use.
Performance properties and serviceability testing, product specifications and industrial standards. Lec/lab. PREREQS: DHE 255 and DHE 326

DHE 555. FUNCTIONAL TEXTILES (3).
Development of functional textiles, functional textiles principles, production, evolution, and performance. Applications of functional textiles in areas such as sports and recreation, medical, protective gear, transportation, etc.

## DHE 561. HISTORY OF THE NEAR

ENVIRONMENT I (4). History of clothing,
furniture, interiors, textiles, and housing and building styles; primarily Euro-American, from the ancient world to the Renaissance. The influence of social and cultural factors upon design of the near environment. Need not be taken in sequence.

## DHE 562. HISTORY OF THE NEAR

ENVIRONMENT II (4). History of clothing, furniture, interiors, textiles, and housing and building styles; primarily Euro-American, from the Renaissance to 1899. The influence of social and cultural factors upon design of the near environment. Need not be taken in sequence.

## DHE 563. HISTORY OF CONTEMPORARY

FASHION (4). Historic analysis of fashion change in men's and women's apparel from 1890 to the present. The influence of social and cultural factors upon Euro-American fashion.

DHE 564. CONTEMPORARY HISTORY OF INTERIORS AND HOUSING (3). History of housing and interior design from the mid-19th century until the present.

## DHE 566. RESEARCH IN THE CROSS

 CULTURAL ASPECTS OF THE NEARENVIRONMENT (3). Examines the research methods used to study the cultural aspects of the near environment. Case studies concerning cultural variation in the design and use of fabric, clothing and adornment, housing.
DHE 570. RETAIL MERCHANDISING (4).
Organization, operation, and competitive strategies of soft goods retailers. Planning procurement, pricing, and promotion of merchandise assortments and inventory management.

## DHE 572. MERCHANDISE PLANNING

AND CONTROL (4). Quantitative analysis of inventory planning, pricing, and control for the profitable management of soft goods; analysis of management problems using quantitative data and merchandising principles. PREREQS: DHE 570* [C] and BA 215
DHE 575. GLOBAL PRODUCTION AND TRADE IN TEXTILES AND APPAREL (4). Trade theory and the effects of trade policy, cultural values, and economics on the global production, distribution, and consumption of textile products.

DHE 577. FASHION THEORY (4). Examination of historical, sociological, psychological, marketing, and economic concepts, theories, and research that contribute to current understanding of the fashion process.
DHE 582. AESTHETIC AND PERCEPTUAL THEORIES OF THE NEAR ENVIRONMENT (2).
Aesthetic aspects from the philosophical and theoretical bases formulated in art, art history, and psychology as applied to the near environment.

DHE 585. HUMAN BEHAVIOR AND THE NEAR ENVIRONMENT (3). Application of concepts and theories from cultural anthropology, sociology, psychology, and social psychology to the study of clothing and interiors. The significance of the near environment in the dynamics of social interaction.

## DHE 587. TRENDS AND ISSUES IN

MERCHANDISING (3). Theoretical approach to the study of merchandising policies and practices. Management issues related to strategic planning, competitive positioning, and operational problems of textile and apparel businesses. This course is repeatable for a maximum of 6 credits.

DHE 594. RESEARCH METHODS IN DESIGN
AND HUMAN ENVIRONMENT (3). Introduction to theory and research design in Design and Human Environment. Includes sampling, measurement, data collection (both qualitative and quantitative) and data analysis.
DHE 599. SPECIAL TOPICS IN DESIGN AND HUMAN ENVIRONMENT (1-16). This course is repeatable for a maximum of 16 credits.

DHE 601. RESEARCH AND SCHOLARSHIP (1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required.

DHE 602. INDEPENDENT STUDY (1-16). This course is repeatable for a maximum of 16 credits PREREQS: Departmental approval required.
DHE 603. THESIS (1-16). This course is repeatable for a maximum of 999 credits
DHE 605. READING AND CONFERENCE (1-
16). This course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required.

DHE 606. PROJECTS (1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required.
DHE 607. SEMINAR (1-16). This course is repeatable for a maximum of 16 credits.
DHE 608. WORKSHOP (1-16). This course is repeatable for a maximum of 16 credits.
DHE 609. PRACTICUM (1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required.

DHE 610. INTERNSHIP/WORK EXPERIENCE
(1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required.

DHE 665. HISTORIC/CULTURAL THEORIES AND METHODS OF THE NEAR ENVIRONMENT (3). Critical analysis of historical and cultural paradigms, theories, and research methods.
DHE 685. ADVANCED TOPICS IN HUMAN BEHAVIOR AND THE NEAR ENVIRONMENT
(3). Critical evaluation of the current literature on human behavior as it relates to aspects of the near environment (clothing, interiors, housing). Latest theoretical developments and research methods. Content varies with each offering. PREREQS: DHE 585 or equivalent with a minimum grade of at least C-

DHE 690. THEORY DEVELOPMENT (3). Critical analysis of scientific explanation, research, theory, and paradigms. Focus on theory development, particularly within the area of the near environment.

## I DESIGN COURSES

DSGN 221. COMPUTER AIDED DESIGN 1 (3). Introduction to the Adobe Creative Suite: Illustrator and Photoshop. Instruction in drawing, image editing, flat illustrations and textile design.

## DSGN 226. SPECIFICATION BUYING (4).

 Introduction to terminology, assembly process, quality factors, and costs in the development of sewn product specifications. Lec/labDSGN 244. COLOR INNOVATION (4). The
aesthetics, meaning, and perception of color provide the foundational knowledge in this course.

DSGN 255. TEXTILES (4). Properties,
identification, selection, use and care of textile fibers and fabrics. Analysis of fiber, yarn, and fabric constructions in textiles.

## DSGN 276. INTRODUCTION TO

MERCHANDISING MANAGEMENT (4). Provides
the introductory knowledge necessary to prepare students for working in the retail industry. Introduces students to the retail industry including basic terminology, industry history, and to merchandising management decisions. Prepares students for more advanced knowledge acquired in the Merchandising Management concentration.
DSGN 281. DRAWING AND SKETCHING (4)
Designed for both beginning drawers and those wanting to improve their skills. Focuses exclusively on hand drawing skills with an emphasis on technical drawing skills, observational and perspective drawing, as well as imagination and creativity. Students develop a working knowledge of visual methods for communicating design concepts. Class format includes a combination of quick drawing activities, demonstrations, lectures, critiques, and work time on drawing assignments. Throughout the term students are introduced to the drawings of several prominent designers and artists.

## DSGN 327. PERFORMANCE APPAREL

INNOVATION I (4). Develop innovative performance apparel from technical specifications or prototypes. Analysis of apparel construction related to equipment, cost, quality, end use and customer needs. Lec/lab. PREREQS: DSGN 226 [C-]
DSGN 328. DIGITAL DESIGN FOR APPAREL
(3). Computer-aided flat pattern, grading and marker techniques using industry relevant pattern development software. PREREQS: DSGN 327 [C-]
DSGN 329. SPORTSWEAR INDUSTRY
COLLABORATION (3). Industry lead team project. Creation of briefs, sketch, pattern, design textile prints, construct prototypes based on dentified consumer and company. PREREQS: DSGN 327 [C-]
DSGN 330. ^FASHION FORECASTING AND
MARKET ANALYSIS (4). Forecasting and market analysis processes applied to fashion goods. (Writing Intensive Course) PREREQS: DHE 233 [C-] and WR 121 [C-] and WR 222 [C-] and restricted to professional school students majoring in Merchandising Management (major code 416) and Apparel Design (major code 400).
DSGN 335. APPAREL AND FOOTWEAR VALUE CHAIN (3). Survey of the structure, functions, and current trends within the apparel and footwear value chain.
DSGN 341. DESIGN THINKING AND PROCESS
INNOVATION (4). Application of a qualitative, multi-method approach to gain insight into how the consumer experience can be improved within a given context. Application of design thinking principles to identify and develop solutions to improve consumer experience within a given context.

DSGN 342. INTRODUCTION TO DESIGN
MANAGEMENT (4). Introduces the foundations and concepts of design strategy and creative development. PREREQS: DSGN 243 [C-]
DSGN 343. IDEA VISUALIZATION (4).
Focuses on the design process through visual communication of ideation and sketching. PREREQS: DSGN 342 [C-]
DSGN 352. TEXTILES FOR INTERIORS (4).
Types, qualities, and maintenance of functional and decorative fabrics for homes and public buildings. Use of specifications, standards, and legislation. PREREQS: DSGN 255 [C-]
or DHE 255 [C-] and enrollment restricted to Merchandising Management and Interior Design majors.
DSGN 355. SPECIFICATION AND EVALUATION OF PERFORMANCE MATERIALS (4).
Specification of materials for athletic and outdoor apparel to enhance human comfort, safety, and performance. Lec/lab. PREREQS: DSGN 255 [C-] and DSGN 327 [C-]
DSGN 377. RETAIL AND MERCHANDISING (4).
Provides the introductory foundational knowledge necessary to prepare students for working in the retail industry. Introduces students to the retail industry including basic terminology, retail strategy and related decisions, and merchandising management. This data analysis-focused course prepares students for more advanced knowledge and skills related to merchandise buying, planning, and control.
DSGN 383. BUILDING CONSTRUCTION
AND MATERIALS (3). An introduction to the manufacture, characteristics, sustainability, and use of construction materials in commercial and residential construction. PREREQS: Enrollment restricted to students who have been admitted into the interior design professional program.
DSGN 387. STUDIO III: ADVANCED DESIGN COMMUNICATION (4). Development of presentation and Building Information Modeling (BIM) skills through various computer programs including Adobe Illustrator, Adobe PhotoShop, Sketchup, and Revit Architecture. In-class exercises and take-home assignments. PREREQS: DSGN 287 [C-]

DSGN 388. STUDIO IV: HOSPITALITY DESIGN
(4). Study and design of hospitality spaces in compliance with building codes and industry standards, with emphasis on sustainability, safety, and cultural context. PREREQS: DSGN 352 [C-] and DSGN 387 [C-] or (DHE 352 [C-] and DHE 387 [C-] )
DSGN 394. STUDIO V: LIGHTING DESIGN (4). Lighting design and documentation for residential and small commercial projects. The commercial projects include space planning and lighting design for workspace and retail environments. Lec/Studio. PREREQS: DSGN 388 [C-] or DHE 388 [C-]
DSGN 403. THESIS (1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required.
DSGN 405. READING AND CONFERENCE
(1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required.
DSGN 406. PROJECTS (1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required.

DSGN 407. SEMINAR (1-16). This course is repeatable for a maximum of 16 credits.

DSGN 408. WORKSHOP (1-16). This course is repeatable for a maximum of 16 credits.

DSGN 409. PRACTICUM (1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required.
DSGN 410. FIELD EXPERIENCE (6-12). This course is repeatable for a maximum of 16 credits. PREREQS: and junior standing and departmental approval. Sect. 1: BA 215 and DHE 370. Sect. 2: DHE 289. Sect. 3: DHE 321.

DSGN 422. DHE FASHION SHOW AND DESIGN EXHIBITION (1-16). Special topics in design and human environment. This course is repeatable for a maximum of 16 credits.

## DSGN 427. PERFORMANCE APPAREL

INNOVATION II (4). Develop innovative performance apparel from technical specifications or prototypes. Analysis of apparel construction related to equipment, cost, quality, end use and customer needs. PREREQS: DSGN 327 [C-]
DSGN 428. TECHNICAL SPORTSWEAR SIZING AND FIT (4). Development of sizing and grading systems used in sportswear and evaluation of garment fit by use of virtual and physical prototypes. PREREQS: DSGN 327 [C-]
DSGN 429. FUNCTIONAL DESIGN AND PRODUCT DEVELOPMENT (4). Design processes and research methods used to create functional designs. Students will identify design problems and develop design brief and functional product line for identified target company. Lec/lab. PREREQS: DSGN 428 [C-]

DSGN 440. DESIGN RESEARCH (4). Surveys design principles, methods and applications in business outcomes. Application of design research is investigated and analyzed in group projects. PREREQS: DSGN 343 [C-]
DSGN 441. SERVICE DESIGN INNOVATION (4).
Focuses on the impact that service design has on business enterprises. Creative ideation, critical analysis, and innovative thinking are integrated as foundations for service design outcomes. PREREQS: DSGN 440 [C-]
DSGN 442. MATERIALITY AND MAKING FIELD PROJECT (4). Focuses on material properties and specifications. Students work in the makerspace to design product outcomes. PREREQS: DHE 440 [C-]

DSGN 464. CONTEMPORARY HISTORY OF INTERIORS AND HOUSING (3). History of interior design from the mid-19th century to the present. PREREQS: ART 204 [C-] or ART 205 [C-] or ART 206 [C-]

DSGN 471. RETAIL PRESENTATION
STRATEGIES (4). Provides an overview of, and examines competitive presentation strategies within, retail environments and channels (e.g., in-store, catalog, online, mobile) by integrating the principles and elements of design with sensory marketing. PREREQS: DSGN 377 [C-] and (BA 390 [C-] or BA 390H [C-] or MRKT 390 [C-] )

## DSGN 472. MERCHANDISE PLANNING

AND CONTROL (4). Quantitative analysis of inventory planning, pricing, and control for the profitable management of soft goods; analysis of management problems using quantitative data and merchandising principles. Lec/rec. PREREQS: DHE 271 [C-] and DHE 470 [C-] and (BA 215 [C-] or BA 215H [C-] ) and enrollment restricted to Apparel Design (major code 400) and Merchandising Management (major code 416) majors.

DSGN 473. RETAIL STRATEGIES PRACTICUM
(4). Explores the role that retail strategies play within a value delivery network. Looks at how retailing helps deliver value created in manufacturing and in services. Examines how these organizations develop strategies to attract consumers and also how consumers develop strategies to acquire goods and services from retailers. Provides a foundation for students who plan to work in retailing or related disciplines. PREREQS: DSGN 377 [C-] and senior standing.
DSGN 475. *GLOBAL SOURCING OF
TEXTILES, APPAREL, AND FOOTWEAR (4).
Trade theory and the effects of trade policy, cultural values, and economics on the global production, distribution, and consumption of extiles, apparel, and footwear. (Bacc Core Course)
DSGN 488. STUDIO VI: HEALTHCARE DESIGN
(4). Interior design project development with emphasis on healthcare design, contract documents, and building codes. PREREQS: DSGN 394 [C-] or DHE 394 [C-]
DSGN 495. STUDIO VII: SENIOR THESIS
II (3). Individual design project development of programming document and construction drawings. PREREQS: DSGN 488 [C-]

## COLLECE OF BUSINESS PROCRAMS <br> UNDERGRADUATE MAJORS WITH OPTIONS

## ACCOUNTANCY (BS, CRED, HBS)

Also available at the OSU-Cascades campus.
The goal of the Accountancy program at OSU is to provide a professionally oriented program to prepare students for successful careers in the major fields of accounting including tax accounting, cost accounting, auditing, corporate accounting and not-for-profit accounting.

With a BS degree in Accountancy, you could become a corporate accountant and work in the controller's office or that of the chief financial officer. Or you could work as a cost analyst in the production department of a company. One popular option is to become an independent auditor and "test" the financial records of companies and organizations.

Accountancy is a study of the concepts and techniques used in reporting on matters related to an entity's financial status and performance. Because entities compete for economic resources, accounting information is essential to managers for planning and controlling activities. Information generated by the accounting process is relevant for business decision-making.

The OSU College of Business is one of 160 schools to have achieved accreditation for its accountancy program by the AACSB International.

The Accountancy major at Oregon State University provides a professionally oriented program to prepare students for successful careers in the major fields of accounting. Accountancy students take the nine required courses shown below (beyond the introductory accounting courses that are taken by all business students) then choose one elective course/ track from the four tracks shown below. These tracks are designed to give students specialized knowledge in the career field they hope to enter after degree completion. These fields are Audit, Tax, and Industry.

Accountancy students satisfy University Baccalaureate Core course requirements and College of Business core course requirements. In addition to the courses, accountancy program students must meet all university and college progression standards as well as a minimum of 60 credits in upper-division courses (300-400 level) and a minimum of 180 credits total to graduate. The Oregon State Board of Accountancy requires a minimum of 225 credits in order to take the Uniform Certified Public Accounting Exam. The Certified Management Accountant program only requires 180 credits.

Accountancy major requirements are divided into two parts. The first part (the pre-accountancy major) usually taken in the first two years must be completed before formal admission into the accountancy major. The second part (Professional School) is usually taken in the last two years after formal admission into the accountancy major.

## Summary of Requirements:

Pre-Accountancy Major (52-57)
Pre-Business Core Classes (34-39)
Math, Economics, Writing and
Communications (18)*
Professional School (72)
Pro-School Business Core Classes (32)
Accountancy Courses (40)
University General Education Requirements (40)

Unrestricted Electives (11-16)
*10 credits from pre-business major satisfy University General Education Requirements.

## Total Required for Graduation

 (180)
## Accountancy Courses in

 the Professional ProgramAccountancy (BS) (40 credits)Accountancy students must complete 40 credits of accounting courses- 36 credits in required courses and 4 credits in one of the four elective tracks.

Once in the Accountancy major, students must continue to earn a C or better (not C-) in their ACTG classes for graduation and prerequisite purposes. In the first instance of a student earning lower than a C in an ACTG class, he/she must repeat the class. In the second instance of a student earning lower than a C in an ACTG class, he/she is removed from the Accountancy major and thus should see an advisor to discuss options.

## Required ( $\mathbf{3 6}$ credits):

ACTG 317. External Reporting I (4)
ACTG 318. External Reporting II (4)
ACTG 319. External Reporting III (4)
ACTG 321. Cost Management I (4)
ACTG 378. Accounting Information
Management (4)
ACTG 379. Accounting Analytics (4)
ACTG 417. Advanced Accounting (4)
ACTG 424. Introduction to Taxation (4)
ACTG 427. Assurance and Attestation Services (4)

## Electives:

Select one course from the following track list (4 credits):
ACTG 420. IT Auditing (4)
ACTG 422. Strategic Cost Management (4)
ACTG 425. Advanced Taxation (4)
ACTG 428. Advanced Audit Analytics (4)
The accountancy program electives offer four diverse tracks to students. Each track give students a unique, specialized perspective on the subject matter. Students should choose their elective track based on their career objectives: IT Audit (ACTG 420), Cost (ACTG 422), Tax (ACTG 425) or Audit (ACTG 428).

The accountancy program typically begins in students' third year with a lock-step series of accounting courses designed to provide a solid knowledge base in accounting procedures and the accounting profession. During fall term students take ACTG 317, followed by ACTG 318 and either ACTG 321 or ACTG 378 during winter term and ACTG 319 and either ACTG 321 or ACTG 378 during spring term. ACTG 424 and ACTG 427 follow during students' fourth year. Also during their fourth year, students may take accounting electives that correspond to their career interests. Students are encouraged to take more than the minimum requirement for elective classes as all elective classes are relevant for future careers.

Students wishing to pursue the Accountancy major must also be accepted into the professional business program. Enrollment into all ACTG courses except ACTG 317 is limited to students accepted into the Accountancy program. A minimum All-Inclusive Business (AIB - see Professional Business Program section below) GPA of 2.75 must be earned to be eligible for admission into the Accountancy program, but a 2.75 GPA does not guarantee acceptance as admissions are competitive and subject to capacity constraints. Instructions on how to apply can be found online at the COB advising website. Students denied admission to the Accountancy major may reapply for the following fall if they meet minimum eligibility requirements.

## Business Administration/ Accountancy Curricula

The undergraduate curriculum in business administration reflects the increasingly complex economic, social, and technological aspects of modern business decision-making. Course work emphasizes the development of effective decisionmaking, an understanding of personal values and motivation, and the awareness of the interrelationships between business and society.

## Pre-Accountancy Program

Newly admitted students to OSU and all current OSU students who seek to complete an undergraduate degree program offered by the College of Business (COB) are designated as pre-business majors (including pre-Accountancy, pre-Business Information Systems, pre-Business, preFinance, pre-Management and pre-Marketing). The pre-Accountancy program requires completion of courses within the first and second year (see core curriculum below) that build a solid foundation for the upper-division business curricula. These courses must be completed before the student is eligible for admission to the professional business program. The pre-business course work may be completed at OSU or any ac-
credited college or university that offers equivalent courses transferable to OSU.

## Professional Business Program

Admission to the professional business program is restricted to those students who have demonstrated an ability to achieve the high standards required for professional studies. Enrollment within each academic discipline (major or option) is limited to the number of students who can be served by the faculty and facilities of that major/option.
Therefore, students should strive to meet the minimum eligibility standards of their particular major of choice as well as those of the College of Business itself. Minimum standards for a particular major can often be higher. More information on the pro-school process and current competitive GPA levels for each major can be found on the Pro-School Competitive GPA section of the College of Business Advising website.
Students must apply for admission to the professional business program. To be eligible to apply, students must earn COB grades of C- or better, have 90 credits by the end of the application term, have a minimum COB GPA of 2.75 , and meet the minimum standards for their particular major of choice in the All-Inclusive Business GPA. The All-Inclusive Business GPA includes all business program course work taken from OSU and transfer institution(s). Students earning an AllInclusive Business GPA of 3.0 or above will be assured admission to the professional business program, but it does not guarantee admittance into the major of their choice. Students with an AllInclusive Business GPA less than 3.0 will be admitted to an academic discipline (major or option) with available capacity using the following criteria: compliance with entrance requirements for the major/option; their rank order based on their All-Inclusive Business GPA; and the contribution of the student to the diversity of viewpoints within the college.

Students who have completed their pre-business courses at a college or university other than OSU must be admitted to pre-business their first term and apply for the professional program during their first term of attendance.
Students may apply to the Accountancy major from any of the pre-business majors, including pre-Accountancy, pre-Business Information Systems, preBusiness, pre-Finance, pre-Management and pre-Marketing.

## Business Administration/ <br> Accountancy Program <br> Requirements (180)

Business Administration Core Curriculum (66-71)
The business administration core curriculum provides students with a broad overview of business; basic skills in
accounting and quantitative methods; an understanding of the legal and social environment of business; a background in management and organizational behavior, marketing, finance, and operations management; an understanding of the entrepreneurial process; and the opportunity to integrate course work and further develop decision-making skills through the analysis of business cases.

## Accountancy (40)

Accountancy students must complete 40 credits of accounting courses in the accountancy program. See an academic advisor for more information.

## Mathematics (4)

Basic mathematics requirements:
MTH 241. *Calculus for Management and Social Science (4)

## Economics (8)

ECON 201. *Introduction to
Microeconomics (4)
ECON 202. *Introduction to Macroeconomics (4)

## Written and Oral Communication

 (6)Business students also must take:
COMM 111. *Public Speaking (3)
or COMM 114. *Argument and Critical Discourse (3)
WR 222. *English Composition (3)
or WR 323. *English Composition (3)
or WR 327. *Technical Writing (3)

## University General Requirements

 (40)MTH 241; ECON 201 and ECON 202; WR 222, WR 323 or WR 327, and COMM 111 or COMM 114 meet the university's Baccalaureate Core requirements for mathematics, social processes and institutions, writing II, and speech, respectively. All students must meet the other Baccalaureate Core requirements and the other requirements for baccalaureate degrees. (See Requirements for Baccalaureate Degrees.)

## Unrestricted Electives (11-16)

Students are provided elective credits to enable them to achieve a degree of specialization and depth to match their interests. Students are encouraged to choose a non-business univer-sity-approved minor that consists of a minimum of 27 credits, with at least 12 credits at the upper-division level. Students are responsible for determining whether the minor has been approved for transcript visibility and to request the notation on their transcript. Students may also choose to complete a coherent set of non-business courses to support their career goals.

## SAMPLE SCHEDULE

Pre-Accounting (Major code 770)

## First Year (45 credits)

Students entering OSU on the Corvallis campus as their first college experience
are required to participate in Innovation Nation, the College of Business LivingLearning Community (LLC). These students will complete the following threecourse sequence during their first year:
BA 160. B-Engaged (3)
BA 161. Innovation Nation-Awareness to Action (3)
BA 162. Innovation Nation-Ideas to Reality (3)

Students who transfer to the Corvallis campus from another college or university, and current OSU Corvallis-campus students who are changing their major to pre-business or pre-accountancy, will complete the following courses:
BA 101. Business Now (6)
BA 280. Business Insights (2)
All other students, including students completing their pre-accountancy and pre-business degree requirements via OSU Ecampus or another college/university, will complete the following course: BA 101. Business Now (6)

## All students should also complete:

COMM 111. *Public Speaking (3) or COMM 114. *Argument and Critical Discourse (3)
or COMM 218. *Interpersonal Communications (3)
MTH 241. *Calculus for Management and Social Science (4)
Baccalaureate core, unrestricted electives (29-32)

## Second Year (45 credits)

Corvallis-campus students in the prebusiness or pre-accountancy major should complete the following courses:
BA 281. Professional Development (3)
BA 282. Personal, Professional and
Leadership Development I (1)
BA 283. Personal, Professional and
Leadership Development II (1)
BA 284. Personal, Professional and Leadership Development III (1) All Ecampus students, and all Cor-vallis-campus students transferring into the college and eligible to apply to the professional school should complete:
BA 381. Personal and Professional Development (4)
All second-year students should also complete:
BA 211. Financial Accounting (4) (C or better required)
BA 213. Managerial Accounting (4) (C or better required)
BA 230. Business Law I (4)
BA 260. Introduction to Entrepreneurship (4)

BA 275. Foundations of Statistical Inference (4)

BA 302. Business Process Management (4)
ECON 201. *Introduction to
Microeconomics (4)
ECON 202. *Introduction to
Macroeconomics (4)
WR 222. *English Composition (3)
or WR 323. *English Composition (3)
or WR 327. *Technical Writing (3)
Baccalaureate core, minor courses, or unrestricted electives (4-6)
Professional Accountancy (Major code 641)
Required Accountancy Courses (40 credits)
ACTG 317. External Reporting I (4)
ACTG 318. External Reporting II (4)

## OPTIONS

## ACCOUNTING INFORMATION <br> SYSTEMS OPTION

The Accounting Information Systems (AIS) option prepares students for entrylevel positions and successful careers in the information management or information systems auditing fields. The program builds on the business, accounting, and computer skills classes required of all accounting students, and prepares students specifically to apply the information technologies to accounting, auditing, and other business tasks.

The program of study that includes the accounting major and these selected courses has been certified by the Information Systems Audit and Control Association. Graduates of this program qualify for one year of work experience toward the Certified Information Systems Auditor designation.

## Sophomore Year

BA 272. Business Application Development
(4) (or equivalent programming course)

## Junior Year

ACTG 378. Accounting Information
Management (4) ${ }^{1}$
BA 371. Business Information Systems
Analysis and Design (4)
BA 372. Business Information Systems
Design and Development (4)
MGMT 364. Project Management (4)

## Senior Year

ACTG 420. IT Auditing (4)
BA 479. Business Telecommunications and Networking (4)
BA 483. Business Analytics (4)

## Total=28

## Footnote:

${ }^{1}$ The professional business program requires completion of either BA 370 or ACTG 378.
ACTG 378 is not included in the total credits completed within the option.

## Option Code: 236

## INTERNATIONAL BUSINESS OPTION

The International Business option prepares students for positions in organizations engaged in international trade. Students study the economic, political, geographical, and socio-cultural factors that impact business across national boundaries. Areas of greatest opportunity for overseas assignments are with service organizations such as banks, consulting firms and accounting firms; with import/ export firms; with governmental organizations; and in marketing and financial
management areas of multinational firms. A career in international business can lead to exciting and rewarding opportunities abroad. Most multinational business firms, however, hire new employees first for domestic assignments in order to provide them with a thorough knowledge of the firm, its products, and its policies, or for specific assignments in one of the functional areas of the business, before providing overseas opportunities.

Because the majority of employees who eventually hold high-level positions in an international business start in entry-level positions within business areas, all international business students must also complete requirements for a primary discipline within a business. These disciplines include the majors in accountancy, business administration (Entrepreneurship, General Business, and Hospitality Management options), business information systems, finance, management and marketing.

Students earn this option with a minimum of one quarter term of study abroad through an international exchange or study abroad program approved by the College of Business. Students must complete a minimum of 18 quarter credits in business or business-related course work. The successfully completed course work must articulate back to OSU as courses that extend the knowledge and skills attained within the business core (that is, they cannot be used as a direct substitute for a business core course). Within the Arthur Stonehill International Business Exchange program offered through the College of Business, all courses offered by the partner schools are taught in English.

## Course Requirements

BA 347. International Business (4) BA 348. International Exchange Orientation (1)

BA 349. Impact of Culture on Business (1)
BA XXX. Minimum of 18 credits of business or business-related course work completed on an approved international exchange or study aboard program.

## Total=24

Students must earn this option with one term of study abroad through an approved College of Business international exchange. Courses in these programs are taught in English.

## Option Code: 190

## BUSINESS ADMINISTRATION (BA, BS, CRED, HBA, HBS)

Also available via Ecampus.
Business Administration major requirements are divided into two parts. The first part (the pre-business major), usually taken in the first two years, must be completed before formal admission into the major. The second part (Professional School) is usually taken in the last two
years after formal admission into the Business Administration major.

## Summary of Requirements:

Pre-Business Major (52-57)
Pre-Business Core Classes (34-39)
Math, Economics, Writing and
Communications (18)*
Professional School (36)
University General Education Requirements (40)

Unrestricted Electives (47-52)
Option Courses (24)**
*10 credits from pre-business major satisfy University General Education Requirements.
** Options are available to provide specializations

## Total Required for Graduation

 (180)
## Business Administration

Curriculum
The undergraduate curriculum in business administration reflects the increasingly complex economic, social, and technological aspects of modern business decision-making. Course work emphasizes the development of effective decisionmaking, an understanding of personal values and motivation, and the awareness of the interrelationships between business and society.

## Pre-Business Program

Newly admitted students to OSU and all current OSU students who seek to complete an undergraduate degree program offered by the College of Business (COB) are designated as pre-business majors. The pre-business program requires completion of courses within the first and second year (see core curriculum below) that build a solid foundation for the upper-division business curricula. These courses must be completed before the student is eligible for admission to the professional business program. The prebusiness course work may be completed at OSU or any accredited college or university that offers equivalent courses transferable to OSU.

## Professional Business Program

 Admission to the professional business program is restricted to those students who have demonstrated an ability to achieve the high standards required for professional studies. Enrollment within each academic discipline (major or option) is limited to the number of students who can be served by the faculty and facilities of that major/option.Therefore, students should strive to meet the minimum eligibility standards of their particular major of choice as well as those of the College of Business itself. Minimum standards for a particular major can often be higher. More information on the pro-school process and current competitive GPA levels for each major can be found on the Pro-School Competitive GPA section of the College
of Business Advising website.
Students must apply for admission to the professional business program. To be eligible to apply, students must earn COB grades of C- or better, have 90 credits by the end of the application term, have a minimum COB GPA of 2.5 , and meet the minimum standards for their particular major of choice in the All-Inclusive Business GPA. The All-Inclusive Business GPA includes all business program course work taken from OSU and transfer institution(s). Students earning an AllInclusive Business GPA of 3.0 or above will be assured admission to the professional business program, but it does not guarantee admittance into the major of their choice. Students with an AllInclusive Business GPA less than 3.0 will be admitted to an academic discipline (major or option) with available capacity using the following criteria: compliance with entrance requirements for the major/option; their rank order based on their All-Inclusive Business GPA; and the contribution of the student to the diversity of viewpoints within the college.

Students who have completed their pre-business courses at a college or university other than OSU must be admitted to pre-business their first term and apply for the professional program during their first term of attendance.

## Business Administration Program

 Requirements (180)
## Business Administration Core

## Curriculum (70-75)

The business administration core curriculum provides students with a broad overview of business; basic skills in accounting and quantitative methods; an understanding of the legal and social environment of business; a background in management and organizational behavior, marketing, finance, and operations management; an understanding of the entrepreneurial process; and the opportunity to integrate course work and further develop decision-making skills through the analysis of business cases.

## Mathematics (4)

Basic mathematics requirements:
MTH 241. *Calculus for Management and Social Science (4)

## Economics (8)

ECON 201. *Introduction to Microeconomics (4)
ECON 202. *Introduction to
Macroeconomics (4)
Written and Oral Communication (6) Business students also must take:
COMM 111. *Public Speaking (3)
or COMM 114. *Argument and Critical Discourse (3)
or COMM 218. *Interpersonal
Communications (3)
WR 222. *English Composition (3)
or WR 323. *English Composition (3)
or WR 327. *Technical Writing (3)

## University General Requirements (40)

MTH 241; ECON 201/ECON 202; WR
222, WR 323 or WR 327; and COMM
111, COMM 114 or COMM 218 meet the University's Baccalaureate Core requirements for mathematics, social processes and institutions, writing II, and speech, respectively. All students must meet the other baccalaureate core requirements and the other requirements for baccalaureate degrees. (See Earning a Degree at OSU.)

## Unrestricted Electives (47-52)

Students are provided elective credits to enable them to achieve a degree of specialization and depth to match their interests.

## Minor (27)

Students are encouraged to choose a non-business university-approved minor that consists of a minimum of 27 credits, with at least 12 credits at the upper-division level. Students are responsible for determining whether the minor has been approved for transcript visibility and to request the notation on their transcript. Students may also choose to complete a coherent set of non-business courses to support their career goals.

## Option (24)

Options are designed to allow students to extend their professional preparation beyond the introductory level in one or more areas. There are five options available to the Business Administration major:

1. Entrepreneurship for Business Majors
2. General Business (Available at OSU Cascades campus and Ecampus)
3. Hospitality Management (OSU Cascades campus only)
4. International Business (requires participation in study abroad program)
5. Supply Chain and Logistics Management (Ecampus only)
Some options need to be started in the third year, while others can be completed all during the fourth year. See an aca-
demic advisor for more information.

## Pre-Business (Major code 180)

## First Year (45 credits)

Students entering OSU on the Corvallis campus as their first college experience are required to participate in Innovation Nation, the College of Business LivingLearning Community (LLC). These students will complete the following threecourse sequence during their first year:

## BA 160. B-Engaged (3)

BA 161. Innovation Nation-Awareness to Action (3)
BA 162. Innovation Nation-Ideas to Reality (3)

Students who transfer to the Corvallis campus from another college or univer-
sity, and current OSU Corvallis-campus students who are changing their major to pre-business, will complete the following courses:
BA 101. Business Now (6)
BA 280. Business Insights (2)
All other students, including students completing their degree at OSU-Cascades or via OSU Ecampus, will complete the following course:
BA 101. Business Now (6)
All students should also complete:
COMM 111. *Public Speaking (3)
or COMM 114. *Argument and Critical Discourse (3)
or COMM 218. *Interpersonal
Communications (3)
MTH 241. *Calculus for Management and Social Science (4)
Baccalaureate core, unrestricted electives (29-32)

## Second Year (45 credits)

Corvallis-campus students in the prebusiness major should complete the following courses:
BA 281. Professional Development (3)
BA 282. Personal, Professional and
Leadership Development I (1)
BA 283. Personal, Professional and
Leadership Development II (1)
BA 284. Personal, Professional and
Leadership Development III (1)
All Ecampus students, and all Corvalliscampus students transferring into the college and eligible to apply to the professional school should complete:
BA 381. Personal and Professional Development (4)

All other students, including students competing their degree at OSU-Cascades, will complete:
BA 253. Professional Development (4) or BA 353. Professional Development (4)

All second-year students should also complete:
BA 211. Financial Accounting (4)
BA 213. Managerial Accounting (4)
BA 230. Business Law I (4)
BA 260. Introduction to Entrepreneurship (4)
BA 275. Foundations of Statistical Inference (4)

BA 302. Business Process Management (4)
ECON 201. *Introduction to
Microeconomics (4)
ECON 202. *Introduction to
Macroeconomics (4)
WR 222. *English Composition (3) or WR 323. *English Composition (3) or WR 327. *Technical Writing (3)
Baccalaureate core, minor courses, or unrestricted electives (4-6)

## GENERAL BUSINESS OPTION

## Also available via Ecampus and at

 OSU-Cascades Campus.All students in the General Business option must take 24 credits of upperdivision College of Business courses in addition to the undergraduate business core curriculum. A minimum of 12 credits must be 400 level. Courses must be pre-approved by an advisor prior to beginning this option.
Option Code: 201

## HOSPITALITY MANAGEMENT OPTION

## Available only at OSU-Cascades Campus.

Course work within the Hospitality Management option is aimed at developing the students' knowledge of strategic thinking and its application to the hospitality industry. We define the hospitality industry as including all organizations that provide overnight accommodations and/or food service, to include hotels, destination resorts, hospitals, residence halls, cruise ships, etc.
Through an understanding of scanning techniques, the student will become acquainted with the major trends in the hospitality industries and will develop the analytical skills to interpret their current and future impact. From this understanding of environmental scanning and knowledge of the forces driving change in the hospitality industry, students will develop competitive methods that define the products and services in which hospitality firms need to invest to remain competitive. Students will then identify and evaluate core competencies in terms of overall value addition and competitive advantage to the firm taking into consideration both present and future effects.
Students graduating from the program are required to possess knowledge of forces in the hospitality industry's environment that drive change. Furthermore, they should be able to assess the impact of these forces on the hospitality industry, which will enable them to appreciate the cause and effect relationship between the forces that drive change and the firms within the industry. This, in essence, will provide students with the tools to be effective leaders in the hospitality industry.

## Required Courses

BA 487. Hospitality Financial Management (4)

BA 488. Advanced Hospitality Management (4)

MRKT 486. Customer Relationship
Management (CRM) (4)

MRKT 498. Services Marketing (4)
Total=24
Option Code: 491

## INTERNATIONAL BUSINESS OPTION

The International Business option prepares students for positions in organizations engaged in international trade. Students study the economic, political, geographical, and socio-cultural factors that impact business across national boundaries. Areas of greatest opportunity for overseas assignments are with service organizations such as banks, consulting firms and accounting firms; with import/ export firms; with governmental organizations; and in marketing and financial management areas of multinational firms. A career in international business can lead to exciting and rewarding opportunities abroad. Most multinational business firms, however, hire new employees first for domestic assignments in order to provide them with a thorough knowledge of the firm, its products, and its policies, or for specific assignments in one of the functional areas of the business, before providing overseas opportunities.
Because the majority of employees who eventually hold high-level positions in an international business start in entry-level positions within business areas, all international business students must also complete requirements for a primary discipline within a business. These disciplines include the majors in accountancy, business administration (Entrepreneurship, General Business, and Hospitality Management options), business information systems, finance, management and marketing.
Students earn this option with a minimum of one quarter term of study abroad through an international exchange or study abroad program approved by the College of Business. Students must complete a minimum of 18 quarter credits in business or business-related course work. The successfully completed course work must articulate back to OSU as courses that extend the knowledge and skills attained within the business core (that is, they cannot be used as a direct substitute for a business core course). Within the

Arthur Stonehill International Business Exchange program offered through the College of Business, all courses offered by the partner schools are taught in English.

## Course Requirements

BA 347. International Business (4)
BA 348. International Exchange Orientation (1)

BA 349. Impact of Culture on Business (1)
BA XXX. Minimum of 18 credits of business or business-related course work completed on an approved international exchange or study aboard program.

## Total=24

Students must earn this option with one term of study abroad through an approved College of Business international exchange. Courses in these programs are taught in English.

## Option Code: 190

## MERCHANDISING MANAGEMENT OPTION

Students in the Merchandising Management option prepare for retail management positions, merchandising positions related to product development and manufacturing, and merchandising positions related to retail. In a global, diverse, and fast-paced, competitive environment, merchandisers are involved in market analysis, business planning, assortment planning, sourcing, pricing, distribution and visual presentation of apparel and textile products to satisfy the needs of the consumer.

## Required Courses

DHE 255. Textiles (4)
DHE 330. ${ }^{\wedge}$ Fashion Forecasting and Market Analysis (4)
DHE 472. Merchandize Planning and Control (4)
DSGN 377. Retail and Merchandising (4)
DSGN 471. Retail Presentation Strategies (4)
DSGN 473. Retail Strategies Practicum (4)
MRKT 492. Consumer Behavior (4)
MRKT 495. Retail Management (4)

## Total=32 credits

Footnote:
^ Writing Intensive Course (WIC)

## Option Code: 782

## RETAIL MANAGEMENT OPTION

## Offered via Ecampus only.

The Retail Management option covers management and marketing strategies for the retail industry. The program includes all the steps required to bring the customers into the store and fulfill their buying needs. A retail store manager is responsible for ensuring that a store operates efficiently and profitably and that its employees perform adequately. They are responsible for a store's sales and employee schedule, resolving problems that arise in the store and coordinating a store's activities.

All courses in the Retail Management option are offered via Ecampus.

## Required courses (16 credits)

MGMT 453. Human Resources Management (4)

MGMT 457. Supply Chain Strategy (4)
MRKT 492. Consumer Behavior (4)
MRKT 495. Retail Management (4)

## Electives

Choose two of the following courses (8 credits):
BA 451. Supply and Sourcing Management (4)

BA 481. Survey of Business Analytics (4)
[Pending approval]
MGMT 364. Project Management (4)
MGMT 455. Influence and Negotiation (4)
MRKT 396. Fundamentals of Marketing Research (4)
MRKT 488. Personal Selling (4)
MRKT 493. Integrated Marketing
Communications (4)
MRKT 497. Global Marketing (4) [Pending submission and approval of proposal]
MRKT 498. Services Marketing (4)
[Pending submission and approval

## of proposal]

## Total=24

Option Code: 744

## SUPPLY CHAIN AND LOGISTICS MANAGEMENT OPTION

## Also available via Ecampus.

The Supply Chain and Logistics Management (SCLM) option, within the Business Administration (BA) undergraduate major, offers students an alternative focus that includes acquiring a solid mastery of international operations and supply chain and logistics management concepts and methods.

This undergraduate option prepares graduates for operations, logistics, procurement and supply chain management in the service and manufacturing industries. In the past two decades, the loss of manufacturing jobs in the U.S. triggered attrition of innovation capabilities across many sectors of the economy contributing to the current anemic economic recovery. The U.S. needs a professionallytrained workforce that is able to manage internal operations and global supply chains in the manufacturing and service sectors and in government agencies. Well-trained operations and supply chain managers are also needed in global companies that operate outside the U.S., including companies that operate in the Asia-Pacific Rim.

Entry Requirements: Admission to professional-school for this option requires earning a 2.50 cumulative GPA in pre-business course work and all prebusiness course work either completed with a grade of C - or better or registered to complete.

The Supply Chain and Logistics Management option requires a total of 28 credits beyond the undergraduate business core.

BA 451. Supply and Sourcing Management (4)

BA 454. Lean Enterprise Management and Capstone (4)
BA 459. Manufacturing and Service Operations (4)
BA 478. Supply Chain Analytics (4)
MGMT 364. Project Management (4)
MGMT 455. Influence and Negotiation (4)
MGMT 457. Supply Chain Strategy (4)

## Total=28 credits

Option Code: 694

## BUSINESS INFORMATION SYSTEMS (BA, BS, CRED, HBA, HBS)

The Business Information Systems (BIS) curriculum will teach you to harness technology to help organizations achieve a competitive advantage in today's rapidly changing environment.

You will gain a firm foundation in business administration and learn to architect, manage, develop and deploy information systems. Depending on your skills and interests you might become a business process analyst, IT project manager, data modeler, systems analyst, software quality tester, developer or database administrator, or you can choose from other technology-related business careers.
You won't only learn theory. You have plenty of opportunities to build, troubleshoot, refine and manage information systems through targeted exercises in real-world projects and current projects sponsored by outside companies to help you learn to bring together people, business processes, and information technology.
Business Information Systems (BIS) major requirements are divided into two parts. The first part (the pre-BIS major), usually taken in the first two years, must be completed before formal admission into the BIS major. The second part (Professional School) is usually taken in the last two years after formal admission into the BIS major.
Summary of Requirements:
Pre-BIS Major (52-57)
Pre-Business Core Classes (34-39)
Math, Economics, Writing and
Communications (18)*
Professional School (64)
Pro-School Business Core Classes (32)
BIS Courses (32)
University General Education Requirements (40)

Unrestricted Electives (19-24)
*10 credits from pre-business major satisfy University General Education Requirements.

## Total Required for Graduation

## (180)

## Required Courses in the Business <br> Information Systems Major (32 <br> credits)

BIS students must complete 32 credits
of information systems courses in the professional program.

## Required courses include:

ACTG 378. Accounting Information Management (4)
BA 272. Business Application Development (4)

BA 371. Business Information Systems Analysis and Design (4)
BA 372. Business Information Systems Design and Development (4)
BA 479. Business Telecommunications and Networking (4)
BA 480. Information Systems Security (4)
BA 483. Business Analytics (4)
MGMT 364. Project Management (4)

## Business Administration/BIS <br> Curricula

The undergraduate curriculum in business administration reflects the increasingly complex economic, social, and technological aspects of modern business decision-making. Course work emphasizes the development of effective decisionmaking, an understanding of personal values and motivation, and the awareness of the interrelationships between business and society.

## Pre-Business Program

Newly admitted students to OSU and all current OSU students who seek to complete an undergraduate degree program offered by the College of Business (COB) are designated as pre-business majors (including pre-Accountancy, pre-BIS, preBusiness, pre-Finance, pre-Management and pre-Marketing). The pre-business programs require completion of courses within the first and second year (see core curriculum below) that build a solid foundation for the upper-division business curricula. These courses must be completed before the student is eligible for admission to the professional business program. The pre-business course work may be completed at OSU or any accredited college or university that offers equivalent courses transferable to OSU.

## Professional Business Program

Admission to the professional business program is restricted to those students who have demonstrated an ability to achieve the high standards required for professional studies. Enrollment within each academic discipline (major or option) is limited to the number of students who can be served by the faculty and facilities of that major/option.

Therefore students should strive to meet the minimum eligibility standards of their particular major of choice as well as those of the College of Business itself. Minimum standards for a particular major can often be higher. More information on the pro-school process and current competitive GPA levels for each major can be found on the Pro-School Competitive GPA section of the College
of Business Advising website.
Students must apply for admission to the professional business program. To be eligible to apply, students must earn COB grades of C- or better, have 90 credits by the end of the application term, have a minimum COB GPA of 2.5 , and meet the minimum standards for their particular major of choice in the All-Inclusive Business GPA. The All-Inclusive Business GPA includes all business program course work taken from OSU and transfer institution(s). Students earning an AllInclusive Business GPA of 3.0 or above will be assured admission to the professional business program, but it does not guarantee admittance into the major of their choice. Students with an AllInclusive Business GPA less than 3.0 will be admitted to an academic discipline (major or option) with available capacity using the following criteria: compliance with entrance requirements for the major/option; their rank order based on their All-Inclusive Business GPA; and the contribution of the student to the diversity of viewpoints within the college.

Students who have completed their pre-business courses at a college or university other than OSU must be admitted to pre-business their first term and apply for the professional program during their first term of attendance.
Students may apply to the Business Information Systems major from any of the pre-business majors, including pre-Accountancy, pre-BIS, pre-Business, pre-Finance, pre-Management and pre-Marketing.

## Business Administration/Business Information Systems Requirements (180)

## Business Administration Core

 Curriculum (66-71)The business administration core curriculum provides students with a broad overview of business; basic skills in accounting and quantitative methods; an understanding of the legal and social environment of business; a background in management and organizational behavior, marketing, finance, and operations management; an understanding of the entrepreneurial process; and the opportunity to integrate course work and further develop decision-making skills through the analysis of business cases.

## Business Information Systems (32)

BIS students must complete 32 credits of information systems courses in the professional program. See an academic advisor for more information.

## Mathematics (4)

Basic mathematics requirements:
MTH 241. *Calculus for Management and Social Science (4)

## Economics (8)

ECON 201. *Introduction to
Microeconomics (4)

ECON 202. *Introduction to Macroeconomics (4)

## Written and Oral Communication

 (6)Business students also must take:
COMM 111. *Public Speaking (3) or COMM 114. *Argument and Critical Discourse (3) or COMM 218. *Interpersonal Communication (3)
WR 222. *English Composition (3) or WR 323. *English Composition (3) or WR 327. *Technical Writing (3)

## University General Requirements (40)

MTH 241, ECON 201/ECON 202, WR 222 , WR 323 or WR 327, and COMM 111 or COMM 114 meet the university's baccalaureate core requirements for mathematics, social processes and institutions, writing II, and speech, respectively. All students must meet the other baccalaureate core requirements and the other requirements for baccalaureate degrees. (See Earning a Degree at OSU.)
Unrestricted Electives (19-24)
Students are provided elective credits to enable them to achieve a degree of specialization and depth to match their interests. Students are encouraged to choose a non-business univer-sity-approved minor that consists of a minimum of 27 credits, with at least 12 credits at the upper-division level. Students are responsible for determining whether the minor has been approved for transcript visibility and to request the notation on their transcript. Students may also choose to complete a coherent set of non-business courses to support their career goals.

## Sample Four-Year Schedule

Pre-Business Information Systems (Major code 771)

## First Year (45 credits)

Students entering OSU on the Corvallis campus as their first college experience are required to participate in Innovation Nation, the College of Business LivingLearning Community (LLC). These students will complete the following threecourse sequence during their first year:
BA 160. B-Engaged (3)
BA 161. Innovation Nation-Awareness to Action (3)
BA 162. Innovation Nation-Ideas to Reality (3)
Students who transfer to the Corvallis campus from another college or university, and current OSU Corvallis-campus students who are changing their major to business, will complete the following courses:
BA 101. Business Now (6)
BA 280. Business Insights (2)
All other students, including students completing their pre-BIS and pre-business
degree requirements via OSU Ecampus or another college/university, will complete the following course
BA 101. Business Now (6)
All students should also complete:
COMM 111. *Public Speaking (3)
or COMM 114. *Argument and Critical Discourse (3)
or COMM 218. *Interpersonal Communications (3)
MTH 241. *Calculus for Management and Social Science (4)
Baccalaureate core, unrestricted electives (29-32)

## Second Year (45 credits)

Corvallis-campus students in the prebusiness or pre-BIS major should complete the following courses:
BA 281. Professional Development (3)
BA 282. Personal, Professional and Leadership Development I (1)
BA 283. Personal, Professional and Leadership Development II (1)
BA 284. Personal, Professional and
Leadership Development III (1)
All Ecampus students, and all Corvalliscampus students transferring into the college and eligible to apply to the professional school should complete:
BA 381. Personal and Professional Development (4)

All second-year students should also complete:
BA 211. Financial Accounting (4)
BA 213. Managerial Accounting (4)
BA 230. Business Law I (4)
BA 260. Introduction to Entrepreneurship (4)
BA 275. Foundations of Statistical Inference (4)

BA 302. Business Process Management (4)
ECON 201. *Introduction to
Microeconomics (4)
ECON 202. *Introduction to Macroeconomics (4)
WR 222. *English Composition (3) or WR 323. *English Composition (3) or WR 327. *Technical Writing (3)
Baccalaureate core, minor courses, or unrestricted electives (4-6)

## OPTIONS

## INTERNATIONAL BUSINESS <br> \section*{OPTION}

The International Business option prepares students for positions in organizations engaged in international trade. Students study the economic, political, geographical, and socio-cultural factors that impact business across national boundaries. Areas of greatest opportunity for overseas assignments are with service organizations such as banks, consulting firms and accounting firms; with import/ export firms; with governmental organizations; and in marketing and financial management areas of multinational firms. A career in international business can lead to exciting and rewarding opportunities abroad. Most multinational
business firms, however, hire new employees first for domestic assignments in order to provide them with a thorough knowledge of the firm, its products, and its policies, or for specific assignments in one of the functional areas of the business, before providing overseas opportunities.

Because the majority of employees who eventually hold high-level positions in an international business start in entry-level positions within business areas, all international business students must also complete requirements for a primary discipline within a business. These disciplines include the majors in accountancy, business administration (Entrepreneurship, General Business, and Hospitality Management options), business information systems, finance, management and marketing.

Students earn this option with a minimum of one quarter term of study abroad through an international exchange or study abroad program approved by the College of Business. Students must complete a minimum of 18 quarter credits in business or business-related course work. The successfully completed course work must articulate back to OSU as courses that extend the knowledge and skills attained within the business core (that is, they cannot be used as a direct substitute for a business core course). Within the Arthur Stonehill International Business Exchange program offered through the College of Business, all courses offered by the partner schools are taught in English.

## Course Requirements

BA 347. International Business (4)
BA 348. International Exchange Orientation (1)

BA 349. Impact of Culture on Business (1)
BA XXX. Minimum of 18 credits of business or business-related course work completed on an approved international exchange or study aboard program.

## Total=24

Students must earn this option with one term of study abroad through an approved College of Business international exchange. Courses in these programs are taught in English.

## Option Code: 190

## DESIGN AND INNOVATION

MANAGEMENT (BS, CRED, HBS)
The Design and Innovation Management major is a professional program. Entering students are designated as Pre-Design and Innovation Management majors (major code 911).

The Design and Innovation Management major requirements are divided into two parts.

1. The first part (the Pre-Design and Innovation Management major), usually taken in the first two years, must be completed before formal
admission into the major.
2. The second part (Professional School) is usually taken in the last two years after formal admission into the Design and Innovation Management major.
Summary of Requirements:
Pre-Design and Innovation Management Major (57)
Pre-Design Core Classes (32)
Art, Communications, Economics, Math,
Statistics, and Writing (25)*
Professional School (64-67)
Pro-School Design Core Classes (40)**
Design Option Courses (24-27)
University General Education Requirements (24)

Unrestricted Electives (32-35)
*21 credits from pre-design major satisfy University General Education Requirements.
**8 credits from design major satisfy University General Education Requirements
Total Required for Graduation (180)

## Design Curriculum

The Design and Innovation Management major is a professional program offered through the College of Business.

## Pre-Design Program

Newly admitted students to OSU and all current OSU students who seek to complete an undergraduate design degree program offered by the College of Business (COB) are designated as pre-design majors. The pre-design program requires completion of courses within the first and second year (see core curriculum below) that build a solid foundation for the upper-division design curricula. These courses must be completed before the student is eligible for admission to the professional design program. The pre-design course work may be completed at OSU or any accredited college or university that offers equivalent courses transferable to OSU.

## Professional Design Program

Admission to the professional design program is restricted to those students who have demonstrated an ability to achieve the high standards required for professional studies. Enrollment within each academic option may be limited to the number of students who can be served by the faculty and facilities of that option. Therefore students should strive to meet the minimum eligibility standards of their particular option of choice as well as those of the College of Business itself. Additional information on the proschool process and current competitive GPA levels for each option can be found on the Pro-School Competitive GPA section of the College of Business Advising website.

To apply and be considered for admission, all pre-professional students must meet the following requirements:

- Be declared as a Pre-Design and

Innovation Management major.

- Have a minimum OSU cumulative GPA of 2.5 , and a minimum cumulative GPA of 2.5 in all PreDesign and Innovation Management course work.
- Have completed and received a C- or better in ALL courses within the PreDesign major by the end of spring term before applying.
Students who have completed their pre-design courses at a college or university other than OSU must be admitted to pre-design their first term and apply for the professional program during their first term of attendance.

Admission into the Interior Design option requires completion of DSGN 287, Studio I: Design Communication (4), and submission of a portfolio. The portfolio will expect students to submit work that demonstrates competency in both two-dimensional and three-dimensional design. The following courses are recommended for students who need to further develop those skills:
ART 115. Foundations: 2-D (4)
ART 117. Foundations: 3-D (4)
Design Program Requirements (180)
Design Core Curriculum (72)
The design core curriculum provides students with a broad overview of design thinking and processes;

## Option (24-27)

Options are designed to allow students to extend their professional preparation beyond the introductory level in one or more areas. There are three options available to the Design and Innovation Management major:

1. Apparel Design
2. Design Management
3. Interior Design

All options need to be started in the third year. See an academic advisor for more information.

## Mathematics and Statistics (8)

MTH 111. *College Algebra (4)
ST 201. Principles of Statistics (4)

## Economics (4)

ECON 201. *Introduction to Microeconomics (4)

## Art (10)

ART 101. *Introduction to the Visual Arts (4)
ART 206. * Introduction to Art History -
Western (3)
or ART 205. * Introduction to Art History - Western (3)
or ART 204. *Introduction to Art History - Western (3)

ART 367. *History of Design (3)

## Written and Oral Communication

## (6)

COMM 111. *Public Speaking (3)
or COMM 114. *Argument and Critical
Discourse (3)
or COMM 218. *Interpersonal
Communication (3)

WR 222. *English Composition (3) or WR 323. *English Composition (3) or WR 327. *Technical Writing (3)

## University General Requirements

 (24)The ART, COMM, ECON, MTH, and
WR classes above meet the university's baccalaureate core requirements for Mathematics, Social Processes and Institutions, Writing II, Speech, Western Culture, Literature and Arts, and Science, Technology and Society. All students must meet the other baccalaureate core requirements and the other requirements for baccalaureate degrees. (See Earning a Degree at OSU.)

## Unrestricted Electives (32-35)

Students are provided elective credits to enable them to achieve a degree of specialization and depth to match their interests.

## Minor (27)

Students are encouraged to choose a non-business university-approved minor that consists of a minimum of 27 credits, with at least 12 credits at the upper-division level. Students are responsible for determining whether the minor has been approved for transcript visibility and to request the notation on their transcript. Students may also choose to complete a coherent set of non-business courses to support their career goals.

## Pre-Design and Innovation <br> Management (Major code 911) <br> First Year (45 credits)

Students entering OSU on the Corvallis campus as their first college experience are required to participate in Innovation Nation, the College of Business LivingLearning Community (LLC). These students will complete the following threecourse sequence during their first year:

## BA 160. B-Engaged (3)

BA 161. Innovation Nation-Awareness to Action (3)
BA 162. Innovation Nation-Ideas to Reality (3)

Students who transfer to OSU from another academic institution will complete the following courses:
BA 101. Business Now (6)
BA 170. Business Insights (2)
All other students, including students completing their degree via OSU Extend Campus and current OSU students who are changing their major to design, will complete the following course:
BA 101. Business Now (6)
All students should also complete:
ART 101. *Introduction to the Visual Arts (4)
COMM 111. *Public Speaking (3)
or COMM 114. *Argument and Critical Discourse (3)
or COMM 218. *Interpersonal
Communication (3)

MTH 111. *College Algebra (4)
WR 121. *English Composition (3)
General Baccalaureate Core courses (17) Elective credits (5-8)
Note: Students entering design programs should have basic art and illustration skills. ART 115, Foundations: 2-D (4), and ART 117, Foundations: 3-D (4), are highly recommended elective courses.

## Second Year (45 credits)

ART 206. * Introduction to Art History Western (3)
or ART 205. * Introduction to Art History

- Western (3)
or ART 204. *Introduction to Art History
- Western (3)

BA 215. Fundamentals of Accounting (4)
BA 253. Professional Development (4)
DHE 221. Computer Aided Apparel Design I (3)

## FINANCE (BA, BS, CRED, HBA, HBS)

The goal of the finance program at OSU is to prepare students for careers in institutional finance, which includes careers in banking, brokerage, insurance and other fields.

Individuals entering a career with a financial institution have many opportunities open to them. Many who go into banking select career paths in either operations or lending. Within the lending area, finance majors can specialize in installment credit lending to consumers of durable goods, mortgage lending to
home builders and buyers, or commercial lending to help finance the growth of businesses.

Men and women entering the securities industry find careers as stock and bond brokers, security analysts or portfolio managers. Individuals choosing the area of insurance typically enter company operations through either claims or underwriting positions. Those with sales positions can choose to work either with corporations or individuals as a client base. In addition, many decide to work for the government as finance personnel in charge of revenue and expenditure programs.

Financial managers engage in many activities designed to ensure the efficient use of an individual's or organization's capital resources. The finance field involves the management of funds in our economic system. Because financial managers deal with other people's money, finance is a career choice for individuals who enjoy working with people and who desire challenging assignments.

The BS/BA in finance has been accepted into the Chartered Financial Analyst ${ }^{\circledR}$ (CFA) Institute University Recognition Program. This status is granted to institutions whose degree program or programs incorporate at least 70 percent of the CFA Program Candidate Body of Knowledge (CBOK), which provides students with a solid grounding in the CBOK and positions them well for the CFA exams.

Finance major requirements are divided into two parts. The first part (the pre-finance major), usually taken in the first two years, must be completed before formal admission into the Finance major. The second part (Professional School) is usually taken in the last two years after formal admission into the Finance major.

## Summary of Requirements:

Pre-Finance Major (52-57)
Pre-Business Core Classes (34-39)
Math, Economics, Writing and
Communications (18)*
Professional School (64)
Pro-School Business Core Classes (28)
Finance Courses (36)
University General Education Requirements (40)

Unrestricted Electives (19-24)
*10 credits from pre-business major satisfy University General Education Requirements.

## Total Required for Graduation

 (180)
## Finance Courses in the Professional

 Program-Finance ( 36 credits)Finance students must complete 20 credits in required courses; 12 credits of elective finance courses; and 4 credits of elective finance-specific courses.

## Required courses include (20 credits):

ACTG 378. Accounting Information Management (4)

FIN 340. Finance (4)
FIN 341. Investments (4)
FIN 342. Advanced Financial Management (4)

FIN 445. International Financial
Management (4)
Finance Electives-Select three of the following courses (12 credits):
FIN 441. Financial Institutions (4)
FIN 442. Financial Statement Analysis (4)
FIN 443. Portfolio Management (4)
FIN 444. Financial Risk Management (4)
FIN 499. Selected Topics in Finance (4)
Finance-Specific Electives-Select one of the following courses (4 credits):
ACTG 317. External Reporting I (4)
ECON 330. Money and Banking (4)
ECON 340. International Economics (4)
The Finance program typically begins in students' third year with a lock-step series of finance courses designed to provide a solid knowledge base. During fall term, students take FIN 340, followed by FIN 341 and ACTG 378 during winter term and FIN 342 during spring term. FIN 445 follows during students' fourth year. Also during their fourth-year students may take electives that correspond to their career interests.

## Business Administration/Finance Curricula

The undergraduate curriculum in business administration reflects the increasingly complex economic, social, and technological aspects of modern business decision-making. Course work emphasizes the development of effective decisionmaking, an understanding of personal values and motivation, and the awareness of the interrelationships between business and society.

## Pre-Business Program

Newly admitted students to OSU and all current OSU students who seek to complete an undergraduate degree program offered by the College of Business (COB) are designated as pre-Business majors (including pre-Accountancy, pre-BIS, preBusiness, pre-Finance, pre-Management and pre-Marketing). The pre-business program requires completion of courses within the first and second year (see core curriculum below) that build a solid foundation for the upper-division business curricula. These courses must be completed before the student is eligible for admission to the professional business program. The pre-business course work may be completed at OSU or any accredited college or university that offers equivalent courses transferable to OSU.

## Professional Business Program

Admission to the professional business program is restricted to those students who have demonstrated an ability to achieve the high standards required for professional studies. Enrollment within each academic discipline (major or op-
tion) is limited to the number of students who can be served by the faculty and facilities of that major/option.

Therefore, students should strive to meet the minimum eligibility standards of their particular major of choice as well as those of the College of Business itself. Minimum standards for a particular major can often be higher. More information on the pro-school process and current competitive GPA levels for each major can be found on the Pro-School Competitive GPA section of the College of Business Advising website.
Students must apply for admission to the professional business program. To be eligible to apply, students must earn COB grades of C- or better, have 90 credits by the end of the application term, have a minimum COB GPA of 2.5 , and meet the minimum standards for their particular major of choice in the All-Inclusive Business GPA. The All-Inclusive Business GPA includes all business program course work taken from OSU and transfer institution(s). Students earning an AllInclusive Business GPA of 3.0 or above will be assured admission to the professional business program, but it does not guarantee admittance into the major of their choice. Students with an AllInclusive Business GPA less than 3.0 will be admitted to an academic discipline (major or option) with available capacity using the following criteria: compliance with entrance requirements for the major/option; their rank order based on their All-Inclusive Business GPA; and the contribution of the student to the diversity of viewpoints within the college.

Students who have completed their pre-business courses at a college or university other than OSU must be admitted to pre-business their first term and apply for the professional program during their first term of attendance.

Students may apply to the Finance major from any of the pre-business majors, including pre-Accountancy, pre-BIS, preBusiness, pre-Finance, pre-Management and pre-Marketing.

## Business Administration/Finance Program Requirements (180) Business Administration Core Curriculum (62-67)

The business administration core curriculum provides students with a broad overview of business; basic skills in accounting and quantitative methods; an understanding of the legal and social environment of business; a background in management and organizational behavior, marketing, finance, and operations management; an understanding of the entrepreneurial process; and the opportunity to integrate course work and further develop decision-making skills through the analysis of business cases.

## Finance (36)

Finance students must complete 36 credits of finance courses in the professional program. See an academic advisor for more information.

## Mathematics (4)

Basic mathematics requirements: MTH 241. *Calculus for Management and Social Science (4)

## Economics (8)

ECON 201. *Introduction to Microeconomics (4)
ECON 202. *Introduction to Macroeconomics (4)

## Written and Oral Communication

 (6)Business students also must take:
COMM 111. *Public Speaking (3)
or COMM 114. *Argument and Critical Discourse (3)
or COMM 218. *Interpersonal
Communications (3)
WR 222. *English Composition (3)
or WR 323. *English Composition (3)
or WR 327. *Technical Writing (3)

## University General Requirements

 (40)MTH 241, ECON 201/ECON 202, WR 222, WR 323 or WR 327, and COMM 111 or COMM 114 meet the university's baccalaureate core requirements for mathematics, social processes and institutions, writing II, and speech, respectively. All students must meet the other baccalaureate core requirements and the other requirements for baccalaureate degrees. (See Earning a Degree at OSU.)

## Unrestricted Electives (19-24)

Students are provided elective credits to enable them to achieve a degree of specialization and depth to match their interests. Students are encouraged to choose a non-business univer-sity-approved minor that consists of a minimum of 27 credits, with at least 12 credits at the upper-division level. Students are responsible for determining whether the minor has been approved for transcript visibility and to request the notation on their transcript. Students may also choose to complete a coherent set of non-business courses to support their career goals.

## SAMPLE SCHEDULE

Pre-Finance (Major code 772)

## First Year (45 credits)

Students entering OSU on the Corvallis campus as their first college experience are required to participate in Innovation Nation, the College of Business LivingLearning Community (LLC). These students will complete the following threecourse sequence during their first year:

## BA 160. B-Engaged (3)

BA 161. Innovation Nation-Awareness to Action (3)

BA 162. Innovation Nation-Ideas to Reality (3)
Students who transfer to the Corvallis campus from another college or university, and current OSU Corvallis-campus students who are changing their major to finance, will complete the following courses:

BA 101. Business Now (6)
BA 280. Business Insights (2)
All other students, including students completing their pre-finance degree requirements via OSU Ecampus or another college/university, will complete the following course:
BA 101. Business Now (6)
All students should also complete:
COMM 111. *Public Speaking (3) or COMM 114. *Argument and Critical Discourse (3)
or COMM 218. *Interpersonal Communications (3)
MTH 241. *Calculus for Management and Social Science (4)
Baccalaureate core, unrestricted electives (29-32)

## Second Year (45 credits)

Corvallis-campus students in the prebusiness or pre-finance major should complete the following courses:
BA 281. Professional Development (3)
BA 282. Personal, Professional and Leadership Development I (1)
BA 283. Personal, Professional and Leadership Development II (1)
BA 284. Personal, Professional and Leadership Development III (1)
All Ecampus students, and all Corvalliscampus students transferring into the college and eligible to apply to the professional school should complete:
BA 381. Personal and Professional Development (4)

All second-year students should also complete:
BA 211. Financial Accounting (4)
BA 213. Managerial Accounting (4)
BA 230. Business Law I (4)
BA 260. Introduction to Entrepreneurship (4)

BA 275. Foundations of Statistical Inference (4)

BA 302. Business Process Management (4)
ECON 201. *Introduction to
Microeconomics (4)
ECON 202. *Introduction to
Macroeconomics (4)
WR 222. *English Composition (3)
or WR 323. *English Composition (3)
or WR 327. *Technical Writing (3)
Baccalaureate core, minor or unrestricted electives (8)

## INTERNATIONAL BUSINESS

 OPTIONThe International Business option prepares students for positions in organizations engaged in international trade. Students study the economic, political, geographical, and socio-cultural factors that impact business across national boundaries. Areas of greatest opportunity for overseas assignments are with service organizations such as banks, consulting firms and accounting firms; with import/ export firms; with governmental organizations; and in marketing and financial management areas of multinational firms. A career in international business can lead to exciting and rewarding opportunities abroad. Most multinational business firms, however, hire new employees first for domestic assignments in order to provide them with a thorough knowledge of the firm, its products, and its policies, or for specific assignments in one of the functional areas of the business, before providing overseas opportunities.
Because the majority of employees who eventually hold high-level positions in an international business start in entry-level positions within business areas, all international business students must also complete requirements for a primary discipline within a business. These disciplines include the majors in accountancy, business administration (Entrepreneurship, General Business, and Hospitality Management options), business information systems, finance, management and marketing.

Students earn this option with a minimum of one quarter term of study abroad through an international exchange or study abroad program approved by the College of Business. Students must complete a minimum of 18 quarter credits in business or business-related course work. The successfully completed course work must articulate back to OSU as courses that extend the knowledge and skills attained within the business core (that is, they cannot be used as a direct substitute for a business core course). Within the Arthur Stonehill International Business Exchange program offered through the College of Business, all courses offered by the partner schools are taught in English.

## Course Requirements

BA 347. International Business (4)
BA 348. International Exchange Orientation (1)

BA 349. Impact of Culture on Business (1)
BA XXX. Minimum of 18 credits of business or business-related course work completed on an approved international exchange or study aboard program.

## Total=24

Students must earn this option with one term of study abroad through an ap-
proved College of Business international exchange. Courses in these programs are taught in English.

## Option Code: 190

## HOSPITALITY MANAGEMENT

 (BA, BS, CRED)Offered only at OSU-Cascades campus.
The undergraduate curriculum in hospitality management provides students with the knowledge necessary to become leaders, executives and owners in the hospitality industry. The course work provides students with skills in service, operations management, hospitality technology, food and beverage operations as well as basic business fundamentals in marketing and accounting.

## Baccalaureate Core Classes (51-59)

## Major Code: 291

## INNOVATION MANAGEMENT

(BA, BS, HBA, HBS)
The Innovation Management major is a double-degree program. It can only be added to a primary OSU non-business major.

Graduates of the IMDD program will gain expertise in developing new ideas and inventions and learn how to take these ideas through the innovation and commercialization process. The intent is to build upon the "technical" skills developed by students in their primary major while giving them the tools to become more productive and innovative members of the organizations where they will work. It will provide students with a foundation in business basics, such as marketing and accounting, while also building students' expertise in the innovation and commercialization process.

This major is limited to 45 qualified students per year. Interested students should consult with the College of Business Advising Office, Austin Hall 122, 541-737-3716, for more detail about the declaration requirements and process.

A College of Business GPA of 2.50 (OSU grades only) and a minimum grade of C - or above is required in all completed BA course work that is relevant to the degree program. Students may not S/U courses in this major.

## Requirements

BA 215. Fundamentals of Accounting (4)
BA 260. Introduction to Entrepreneurship (4)

BA 351. Managing Organizations (4)
or BA 352. Managing Individual and Team Performance (4)
BA 353. ${ }^{\wedge}$ Professional Development (4)
BA 363. Technology and Innovation
Management (4)
BA 390. Marketing (4)
BA 458. Innovation and New Product
Development (4)
BA 468. Technology Commercialization (4)
MGMT 452. Leadership (4)

## Total=36

Additional course work that may be completed to achieve 24 credits unique to the Innovation Management degree program: BA 460. Venture Management (4) BA 464. New Venture Financing (4)
MRKT 488. Personal Selling (4)

## Total=12

## INTERNATIONAL STUDIES (BA, HBA)

See International Programs for information on the International Studies Degree.
Major Code: 910

## MANAGEMENT (BA, BS, CRED,

 HBA, HBS)The management curriculum helps prepare students for careers as managers and supervisors in goods-producing and service enterprises. Students obtain a solid grounding in the management of systems, personnel, and quality. The integrative focus of the program also provides excellent preparation for graduatelevel studies in law, urban and regional planning, public services administration, and health care administration.

Management is the process of planning, organizing, leading and controlling all that encompasses human, material and financial resources in an organizational environment. A management degree means that you have learned the concepts of getting things done through others within organizations.

Management major requirements are divided into two parts. The first part (the pre-management major), usually taken in the first two years, must be completed before formal admission into the management major. The second part (Professional School) is usually taken in the last two years after formal admission into the management major.
Summary of Requirements:
Pre-Management Major (53)
Pre-Business Core Classes (35)
Math, Economics, Writing and
Communications (18) ${ }^{1}$

${ }^{1}=10$ credits from Pre-business major satisfy University General Education Requirements.
Total Required for Graduation (180)

## Management Courses in the Professional ProgramManagement (32 credits)

Management students must complete 32 credits in the professional program: 24 credits in required courses, 4 credits in 1 of the 6 elective courses, and 4 credits of experiential learning.

## Required Courses Include:

MGMT 364. Project Management (4)
MGMT 446. Cross-Cultural Management (4) or MGMT 448. Employee Recruitment and Selection (4)

MGMT 452. Leadership (4)
MGMT 453. Human Resources Management (4)

MGMT 455. Influence and Negotiation (4)
MGMT 457. Supply Chain Strategy (4)

## Electives:

Select one of the following courses:
BA 362. Social Entrepreneurship and Social Initiatives (4)
BA 363. Technology and Innovation
Management (4)
BA 432. Environmental Law, Sustainability, and Business (4)
BA 447. Topics in International Business (4)
BA 460. Venture Management (4)
BA 463. Family Business Management (4)

## Experiential Learning:

Select one of the following experiential activities:

Professional internship: Complete BA 410, Internship, with minimum of 4 credits

Research project: Complete BA 403, Thesis; or BA 405, Reading and Conference; or BA 407, Seminar, with minimum of 4 credits

International experience: Complete an international study abroad or exchange that transfers a minimum of 4 academic credits to OSU.

Mentoring: Complete the Introduction to Mentoring and Coaching Seminar series (minimum of 4 credits). This series requires participation in mentor activities.

Experiential learning/entrepreneurship (solving specific problems of local businesses or non-profit organizations): Complete BA 406, Projects, with a minimum of 4 credits.

## Business Administration/ Management Curricula

The undergraduate curriculum in business administration reflects the increasingly complex economic, social, and technological aspects of modern business decision-making. Course work emphasizes the development of effective decisionmaking, an understanding of personal values and motivation, and the awareness of the interrelationships between business and society.

## Pre-Business Program

Newly admitted students to OSU and all current OSU students who seek to complete an undergraduate degree program offered by the College of Business (COB) are designated as pre-business majors (including pre-Accountancy, pre-BIS, preBusiness, pre-Finance, pre-Management and pre-Marketing). The pre-business program requires completion of courses within the first and second year (see core curriculum below) that build a solid foundation for the upper-division business curricula. These courses must be completed before the student is eligible for admission to the professional business program. The pre-business course
work may be completed at OSU or any accredited college or university that offers equivalent courses transferable to OSU.

## Professional Business Program

Admission to the professional business program is restricted to those students who have demonstrated an ability to achieve the high standards required for professional studies. Enrollment within each academic discipline (major or option) is limited to the number of students who can be served by the faculty and facilities of that major/option.

Therefore students should strive to meet the minimum eligibility standards of their particular major of choice as well as those of the College of Business itself. Minimum standards for a particular major can often be higher. More information on the pro-school process and current competitive GPA levels for each major can be found on the Pro-School Competitive GPA section of the College of Business Advising website.

Students must apply for admission to the professional business program. To be eligible to apply, students must earn COB grades of C- or better, have 90 credits by the end of the application term, have a minimum COB GPA of 2.5 , and meet the minimum standards for their particular major of choice in the All-Inclusive Business GPA. The All-Inclusive Business GPA includes all business program course work taken from OSU and transfer institution(s). Students earning an AllInclusive Business GPA of 3.0 or above will be assured admission to the professional business program, but it does not guarantee admittance into the major of their choice. Students with an AllInclusive Business GPA less than 3.0 will be admitted to an academic discipline (major or option) with available capacity using the following criteria: compliance with entrance requirements for the major/option; their rank order based on their All-Inclusive Business GPA; and the contribution of the student to the diversity of viewpoints within the college.
Students who have completed their pre-business courses at a college or university other than OSU must be admitted to pre-business their first term and apply for the professional program during their first term of attendance.

Students may apply to the Management major from any of the pre-business majors, including pre-Accountancy, pre-BIS, pre-Business, pre-Finance, preManagement and pre-Marketing.

## Business Administration/ <br> Management Program <br> Requirements (180)

## Business Administration Core Curriculum (73)

The business administration core curriculum provides students with a broad overview of business; basic skills in accounting and quantitative methods; an understanding of the legal and social environment of business; a background in management and organizational behavior, marketing, finance, and operations management; an understanding of the entrepreneurial process; and the opportunity to integrate course work and further develop decision-making skills through the analysis of business cases.

## Management (32)

Management students must complete 32 credits of management courses in the professional program. See an academic advisor for more information.

## Mathematics (4)

Basic mathematics requirements:
MTH 241. *Calculus for Management and Social Science (4)

## Economics (8)

ECON 201. *Introduction to Microeconomics (4)

## ECON 202. *Introduction to

 Macroeconomics (4)
## Written and Oral Communication

 (6)Business students also must take:
COMM 111. *Public Speaking (3)
or COMM 114. *Argument and Critical Discourse (3)
or COMM 218. *Interpersonal Communication (3)
WR 222. *English Composition (3) or WR 323. *English Composition (3) or WR 327. *Technical Writing (3)

## University General Requirements (40)

MTH 241, ECON 201/ECON 202, WR 222, WR 323 or WR 327, and COMM 111 or COMM 114 meet the university's baccalaureate core requirements for mathematics, social processes and institutions, writing II, and speech, respectively. All students must meet the other baccalaureate core requirements and the other requirements for baccalaureate degrees. (See Earning a Degree at OSU.)

## Unrestricted Electives (17)

Students are provided elective credits to enable them to achieve a degree of specialization and depth to match their interests. Students are encouraged to choose a non-business univer-sity-approved minor that consists of a minimum of 27 credits, with at least 12 credits at the upper-division level. Students are responsible for determining whether the minor has been approved for transcript visibility and to request the notation on their transcript. Students may also choose to complete a coherent set of non-business courses to support their career goals.

## SAMPLE SCHEDULE <br> Pre-Management (Major code 773)

First Year (45 credits)
Students entering OSU on the Corvallis campus as their first college experience are required to participate in Innovation Nation, the College of Business LivingLearning Community (LLC). These students will complete the following threecourse sequence during their first year:
BA 160. B-Engaged (3)
BA 161. Innovation Nation-Awareness to Action (3)
BA 162. Innovation Nation-Ideas to Reality (3)
Students who transfer to OSU from another college or university will complete the following courses:
BA 101. Business Now (6)
BA 170. Business Insights (2)
All other students, including students completing their pre-business or premanagement degree requirements via OSU Extend Campus or at another college/university, will complete the following course:
BA 101. Business Now (6)
All students should also complete:
COMM 111. *Public Speaking (3)
or COMM 114. *Argument and Critical Discourse (3)
or COMM 218. *Interpersonal
Communication (3)
MTH 241. *Calculus for Management and Social Science (4)
Baccalaureate core, unrestricted electives (29-32)

## Second Year (45 credits)

Corvallis-campus students in the pre-
business or pre-management major should complete the following courses:
BA 281. Professional Development (3)
BA 282. Personal, Professional and Leadership Development I (1)
BA 283. Personal, Professional and
Leadership Development II (1)
BA 284. Personal, Professional and
Leadership Development III (1)
All Ecampus students and all Corvalliscampus students transferring into the college and eligible to apply to the professional school should complete:
BA 381. Personal and Professional Development (4)
All second-year students should also complete:
BA 211. Financial Accounting (4)
BA 213. Managerial Accounting (4)
BA 230. Business Law I (4)
BA 260. Introduction to Entrepreneurship (4)
BA 275. Foundations of Statistical Inference (4)

BA 302. Business Process Management (4)
ECON 201. *Introduction to
Microeconomics (4)
ECON 202. *Introduction to
Macroeconomics (4)

WR 222. *English Composition (3)
or WR 323. *English Composition (3) or WR 327. *Technical Writing (3)
Baccalaureate core, minor or unrestricted electives (8)

## Professional Management (Major

 code 196)
## Required Management Courses

(32 credits)
MGMT 364. Project Management (4)
MGMT 446. Cross-Cultural Management (4) or MGMT 448. Employee Recruitment and Selection (4)
MGMT 452. Leadership (4)
MGMT 453. Human Resources Management (4)

MGMT 455. Influence and Negotiation (4)
MGMT 457. Supply Chain Strategy (4)

## Management Electives

Select one of the following courses (4 credits):
BA 362. Social Entrepreneurship and Social Initiatives (4)
BA 363. Technology and Innovation Management (4)
BA 447. Topics in International Business (4)
BA 460. Venture Management (4)
BA 463. Family Business Management (4)

## Experiential Learning:

Select one of the following
experiential activities ( 4 credits):
Professional internship: Complete BA 410, Internship with minimum of 4 credits

Research project: Complete BA 403,
Thesis; or BA 405, Reading and Confer-
ence; or BA 407, Seminar, with minimum of 4 credits

International experience: Complete an international study abroad or exchange that transfers a minimum of 4 academic credits to OSU.

Mentoring: Complete the Introduction to Mentoring and Coaching Seminar series (minimum of 4 credits). This series requires participation in mentor activities.

Experiential learning/entrepreneurship (solving specific problems of local businesses or non-profit organizations): Complete BA 406, Projects, with a minimum of 4 credits.

## Business Core Courses (36 credits)

BA 347. International Business (4)
BA 352. Managing Individual and Team Performance (4)
BA 354. ^Managing Ethics and Corporate Social Responsibility (4)
BA 357. Operations Management (4)
BA 360. Introduction to Financial
Management (4)
BA 370. Business Information Systems Overview (4)
BA 375. Applied Quantitative Methods (4)
BA 390. Marketing (4)
BA 466. Integrative Strategic Experience (4)

## Baccalaureate core, minor or unrestricted electives (22 credits)

Pre-Professional Management
Major Code: 773
Major Code: 196

## INTERNATIONAL BUSINESS

## OPTION

The International Business option prepares students for positions in organizations engaged in international trade. Students study the economic, political, geographical, and socio-cultural factors that impact business across national boundaries. Areas of greatest opportunity for overseas assignments are with service organizations such as banks, consulting firms and accounting firms; with import/ export firms; with governmental organizations; and in marketing and financial management areas of multinational firms. A career in international business can lead to exciting and rewarding opportunities abroad. Most multinational business firms, however, hire new employees first for domestic assignments in order to provide them with a thorough knowledge of the firm, its products, and its policies, or for specific assignments in one of the functional areas of the business, before providing overseas opportunities.
Because the majority of employees who eventually hold high-level positions in an international business start in entry-level positions within business areas, all international business students must also complete requirements for a primary discipline within a business. These disciplines include the majors in
accountancy, business administration (Entrepreneurship, General Business, and Hospitality Management options), business information systems, finance, management and marketing.

Students earn this option with a minimum of one quarter term of study abroad through an international exchange or study abroad program approved by the College of Business. Students must complete a minimum of 18 quarter credits in business or business-related course work. The successfully completed course work must articulate back to OSU as courses that extend the knowledge and skills attained within the business core (that is, they cannot be used as a direct substitute for a business core course). Within the Arthur Stonehill International Business Exchange program offered through the College of Business, all courses offered by the partner schools are taught in English.

## Course Requirements

BA 347. International Business (4)
BA 348. International Exchange Orientation (1)

BA 349. Impact of Culture on Business (1)
BA XXX. Minimum of 18 credits of business or business-related course work completed on an approved international exchange or study aboard program.

## Total $=24$

Students must earn this option with one term of study abroad through an approved College of Business international exchange. Courses in these programs are taught in English.

## Option Code: 190

## MARKETING (BA, BS, CRED,

## HBA, HBS)

The marketing curriculum provides students with technical marketing skills and leadership training. Opportunities exist for marketing graduates in a wide variety of organizations, including manufacturing firms, service firms, retailers, wholesalers, advertising agencies, the communications media and government agencies. Career options include sales, advertising, retailing, brand management, logistics management, market research, purchasing management and more.
The heart of marketing is matching supply and demand in a complex, advanced economy. Marketing consists of a sequence of activities: identifying customer needs, developing goods and services to satisfy those needs, communicating information about products to potential customers, and distributing the products to customers. In small firms, a few people must carry out all the marketing functions or activities. Large corporations, on the other hand, tend to hire people with specific potential or skills to fill more specialized job requirements.

Marketing major requirements are
divided into two parts. The first part (the pre-Marketing major), usually taken in the first two years, must be completed before formal admission into the Marketing major. The second part (Professional School) is usually taken in the last two years after formal admission into the Marketing major.

## Summary of Requirements:

Pre-Marketing Major (52-57)
Pre-Business Core Classes (34-39)
Math, Economics, Writing and
Communications (18)*
Professional School (68-70)
Pro-School Business Core Classes (32)
Marketing Courses (36-38)
University General Education Requirements (40)

Unrestricted Electives (13-20)
*10 credits from pre-business major satisfy University General Education Requirements.
Total Required for Graduation

## (180)

## Required Courses in the

 Professional Program-Marketing (36-38 credits)Marketing major courses provide students with expertise in marketing, promotion, product management and planning and branding gained through learning marketing theory then applying that theory to experiential learning opportunities that involve applying theory to practice.

## Required Courses Include (24 credits):

MRKT 390. Principles of Marketing (4)
MRKT 396. Fundamentals of Marketing
Research (4) C or better required.
MRKT 489. Personal Selling Skills and Techniques (4)
MRKT 492. Consumer Behavior (4)
MRKT 496. Marketing Research Practicum (4)
MRKT 499. Marketing Strategy (4)
Marketing Specializations (12-14 credits)
Choose one of the following specializations:

1) Consumer Insights and Analytics Specialization:
Required (14 credits):
BA 405. Reading and Conference (2)
or BA 406. Projects (2) or BA 410. Business Internship (2) (e.g., C2C Participation or Related Internship)
BA 481. Survey of Business Analytics (4) (Pending approval CPS \# 100669)
MRKT 486. Customer Relationship Management (CRM) (4)
MRKT 491. Qualitative Research Methods (4)

Additional courses for supplementing the Consumer Insights and Analytics
Specialization:
PSY 301. Research Methods in Psychology (4)

ST 351. Introduction to Statistical Methods (4)
ST 352. Introduction to Statistical Methods (4)
2) Retail Specialization ( 14 credits):

Required ( 10 credits):
BA 405. Reading and Conference (2) or BA 406. Projects (2) or BA 410. Business Internship (2) (e.g., Participate in DAM Chic or OSU Fashion Organization or Related Internship)
DSGN 377. Retailing and Merchandising (4)

MRKT 495. Retail Management (4)
Complete at least one of the
following courses (4 credits):
DSGN 471. Retail Presentation Strategy (4)

DSGN 472. Merchandising Planning and Control (4)
3) Innovation and Communication

## Specialization (14 credits):

Required (14 credits):
BA 405. Reading and Conference (2) or BA 406. Projects (2)
or BA 410. Business Internship (2) (e.g.,
AIGA Participation or Related Internship)
BA 458. Innovation and New Product Development (4)
DSGN 341. Design Thinking and Process Innovation (4)
MRKT 493. Integrated Marketing Communications (4)
Additional courses for supplementing
the Innovation and Communication
Specialization:
DSGN 342. Introduction to Design
Management (4)
DSGN 343. Idea Visualization (4)
NMC 240. Survey of Social Media (3)
NMC 351. New Media Visualization (3)

## 4) Professional Sales and Personal

Selling Specialization (13 credits):
Required (10 credits):
BA 405. Reading and Conference (2) or BA 406. Projects (2) or BA 410. Business Internship (2) (e.g., Sales Club/Sales Academy Participation or Related Internship)
MGMT 455. Influence and Negotiation (4)

MRKT 488. Personal Selling (4)
And at least one of the
following courses ( 3 credits):
COMM 312. Advanced Public Speaking (3)

COMM 316. Advanced Persuasion (3)
COMM 318. Advanced Interpersonal Communication (3)
5) General Marketing (minimum 12 credits):

Select three of the following courses:
MRKT 488. Personal Selling (4)
MRKT 486. Customer Relationship
Management (CRM) (4)
MRKT 491. Qualitative Research Methods (4)

MRKT 493. Integrated Marketing Communications (4)
MRKT 495. Retail Management (4)
MRKT 497. Global Marketing (4)

## Marketing Curriculum

The undergraduate curriculum in marketing reflects the increasingly complex eco-
nomic, social, and technological aspects of modern business decision-making. Course work emphasizes the development of effective decision-making, an understanding of personal values and motivation, and the awareness of the interrelationships between business and society.

## Pre-Business Program

Newly admitted students to OSU and all current OSU students who seek to complete an undergraduate degree program offered by the College of Business (COB) are designated as pre-business majors (including pre-Accounting, pre-BIS, preBusiness, pre-Finance, pre-Management and pre-Marketing). The pre-business program requires completion of courses within the first and second year (see core curriculum below) that build a solid foundation for the upper-division business curricula. These courses must be completed before the student is eligible for admission to the professional business program. The pre-business course work may be completed at OSU or any accredited college or university that offers equivalent courses transferable to OSU.

## Professional Business Program

Admission to the professional business program is restricted to those students who have demonstrated an ability to achieve the high standards required for professional studies. Enrollment within each academic discipline (major or option) is limited to the number of students who can be served by the faculty and facilities of that major/option.

Therefore, students should strive to meet the minimum eligibility standards of their particular major of choice as well as those of the College of Business itself. Minimum standards for a particular major can often be higher. More information on the pro-school process and current competitive GPA levels for each major can be found on the Pro-School Competitive GPA section of the College of Business Advising website.

Students must apply for admission to the professional business program. To be eligible to apply, students must earn COB grades of C- or better, have 90 credits by the end of the application term, have a minimum COB GPA of 2.5 , and meet the minimum standards for their particular major of choice in the All-Inclusive Business GPA. The All-Inclusive Business GPA includes all business program course work taken from OSU and transfer institution(s). Students earning an AllInclusive Business GPA of 3.0 or above will be assured admission to the professional business program, but it does not guarantee admittance into the major of their choice. Students with an AllInclusive Business GPA less than 3.0 will be admitted to an academic discipline
(major or option) with available capacity using the following criteria: compliance with entrance requirements for the major/option; their rank order based on their All-Inclusive Business GPA; and the contribution of the student to the diversity of viewpoints within the college.

Students who have completed their pre-business courses at a college or university other than OSU must be admitted to pre-business their first term and apply for the professional program during their first term of attendance.

Students may apply to the Marketing major from any of the pre-business majors, including pre-Accounting, pre-BIS, pre-Business, pre-Finance, pre-Management and pre-Marketing.

## Business Administration/Marketing Program Requirements (180) <br> Business Administration Core Curriculum (70-75)

The business administration core curriculum provides students with a broad overview of business; basic skills in accounting and quantitative methods; an understanding of the legal and social environment of business; a background in management and organizational behavior, marketing, finance, and operations management; an understanding of the entrepreneurial process; and the opportunity to integrate course work and further develop decision-making skills through the analysis of business cases.

## Marketing (36-38)

Marketing students must complete 36-38 credits of marketing courses in the professional program. See an academic advisor for more information.

## Mathematics (4)

Basic mathematics requirements:
MTH 241. *Calculus for Management and Social Science (4)

## Economics (8)

ECON 201. *Introduction to
Microeconomics (4)
ECON 202. *Introduction to
Macroeconomics (4)

## Written and Oral Communication

 (6)Business students also must take:
COMM 111. *Public Speaking (3)
or COMM 114. *Argument and Critical Discourse (3)
or COMM 218. *Interpersonal
Communication (3)
WR 222. *English Composition (3)
or WR 323. *English Composition (3) or WR 327. *Technical Writing (3)

## University General Requirements

 (40)MTH 241, ECON 201/ECON 202, WR 222, WR 323 or WR 327, and COMM 111 or COMM 114 meet the university's baccalaureate core requirements for mathematics, social processes and institutions, writing II, and speech, respectively. All
students must meet the other baccalaureate core requirements and the other requirements for baccalaureate degrees. (See Earning a Degree at OSU.)

## Unrestricted Electives (9-16)

Students are provided elective credits to enable them to achieve a degree of specialization and depth to match their interests. Students are encouraged to choose a non-business univer-sity-approved minor that consists of a minimum of 27 credits, with at least 12 credits at the upper-division level. Students are responsible for determining whether the minor has been approved for transcript visibility and to request the notation on their transcript. Students may also choose to complete a coherent set of non-business courses to support their career goals.

## SAMPLE SCHEDULE

Pre-Marketing (Major code 774)

## First Year (45 credits)

Students entering OSU on the Corvallis campus as their first college experience are required to participate in Innovation Nation, the College of Business LivingLearning Community (LLC). These students will complete the following threecourse sequence during their first year:
BA 160. B-Engaged (3)
BA 161. Innovation Nation-Awareness to Action (3)
BA 162. Innovation Nation-Ideas to Reality (3)
Students who transfer to the Corvallis campus from another college or university, and current OSU Corvallis-campus students who are changing their major to management will complete the following courses:
BA 101. Business Now (6)
BA 280. Business Insights (2)
All other students, including students completing their degree via OSU Ecampus and current OSU students who are changing their major to business, will complete the following course:
BA 101. Business Now (6)
All students should also complete:
COMM 111. *Public Speaking (3) or COMM 114. *Argument and Critical Discourse (3)
or COMM 218. *Interpersonal Communication (3)
MTH 241. *Calculus for Management and Social Science (4)
Baccalaureate core, unrestricted electives (29-32)

## Second Year (45 credits)

Corvallis-campus students in the prebusiness or pre-management major should complete the following courses:
BA 281. Professional Development (3)
BA 282. Personal, Professional and
Leadership Development I (1)

BA 283. Personal, Professional and Leadership Development II (1)
BA 284. Personal, Professional and Leadership Development III (1) All Ecampus students and all Corvalliscampus students transferring into the college and eligible to apply to the professional school should complete:
BA 381. Personal and Professional Development (4)
All second-year students should also
complete:
BA 211. Financial Accounting (4)
BA 213. Managerial Accounting (4)
BA 230. Business Law I (4)
BA 260. Introduction to Entrepreneurship (4)

BA 275. Foundations of Statistical Inference (4)

MRKT 495. Retail Management (4)
Complete at least one of the
following courses (4 credits):
DSGN 471. Retail Presentation Strategy (4)

DSGN 472. Merchandising Planning and Control (4)
3) Innovation and Communication

Specialization ( 14 credits):
Required ( 14 credits):
BA 405. Reading and Conference (2) or BA 406. Projects (2)
or BA 410. Business Internship (2) (e.g.,
AIGA Participation or Related Internship)
BA 458. Innovation and New Product
Development (4)
DSGN 341. Design Thinking and Process Innovation (4)
MRKT 493. Integrated Marketing Communications (4)
Additional courses for supplementing
the Innovation and Communication
Specialization:
DSGN 342. Introduction to Design Management (4)
DSGN 343. Idea Visualization (4)
NMC 240. Survey of Social Media (3)
NMC 351. New Media Visualization (3)
4) Professional Sales and Personal

Selling Specialization (13 credits):
Required ( $\mathbf{1 0}$ credits):
BA 405. Reading and Conference (2) or BA 406. Projects (2)
or BA 410. Business Internship (2) (e.g., Sales Club/Sales Academy Participation or Related Internship)
MGMT 455. Influence and Negotiation (4)

MRKT 488. Personal Selling (4)
And at least one of the following courses ( 3 credits):
COMM 312. Advanced Public Speaking (3)

COMM 316. Advanced Persuasion (3)
COMM 318. Advanced Interpersonal Communication (3)
5) General Marketing (minimum 12 credits):
Select three of the following courses:
MRKT 488. Personal Selling (4)
MRKT 486. Customer Relationship
Management (CRM) (4)
MRKT 491. Qualitative Research Methods (4)

MRKT 493. Integrated Marketing
Communications (4)
MRKT 495. Retail Management (4)
MRKT 497. Global Marketing (4)
Business Core Courses ( 32 credits)
BA 347. International Business (4)
BA 352. Managing Individual and Team
Performance (4)
BA 354. ${ }^{\wedge}$ Managing Ethics and Corporate
Social Responsibility (4)
BA 357. Operations Management (4)

BA 360. Introduction to Financial Management (4)
BA 370. Business Information Systems Overview (4)
BA 375. Applied Quantitative Methods (4)
BA 466. Integrative Strategic Experience (4)
Baccalaureate core, minor or unrestricted electives (20-22 credits)

## Pre-Professional Marketing Major

## Code: 774

Major Code: 799

## INTERNATIONAL BUSINESS OPTION

The International Business option prepares students for positions in organizations engaged in international trade. Students study the economic, political, geographical, and socio-cultural factors that impact business across national boundaries. Areas of greatest opportunity for overseas assignments are with service organizations such as banks, consulting firms and accounting firms; with import/ export firms; with governmental organizations; and in marketing and financial management areas of multinational firms. A career in international business can lead to exciting and rewarding opportunities abroad. Most multinational business firms, however, hire new employees first for domestic assignments in order to provide them with a thorough knowledge of the firm, its products, and its policies, or for specific assignments in one of the functional areas of the business, before providing overseas
opportunities.
Because the majority of employees who eventually hold high-level positions in an international business start in entry-level positions within business areas, all international business students must also complete requirements for a primary discipline within a business. These disciplines include the majors in accountancy, business administration (Entrepreneurship, General Business, and Hospitality Management options), business information systems, finance, management and marketing.

Students earn this option with a minimum of one quarter term of study abroad through an international exchange or study abroad program approved by the College of Business. Students must complete a minimum of 18 quarter credits in business or business-related course work. The successfully completed course work must articulate back to OSU as courses that extend the knowledge and skills attained within the business core (that is, they cannot be used as a direct substitute for a business core course). Within the Arthur Stonehill International Business Exchange program offered through the College of Business, all courses offered by the partner schools are taught in English.

## Course Requirements

BA 347. International Business (4)
BA 348. International Exchange Orientation (1)

BA 349. Impact of Culture on Business (1)
BA XXX. Minimum of 18 credits of business or business-related course work completed on an approved international exchange or study aboard program.

## Total=24

Students must earn this option with one term of study abroad through an approved College of Business international exchange. Courses in these programs are taught in English.
Option Code: 190

## SUSTAINABILITY (BS, HBS)

## Also available via Ecampus.

OSU Main Campus Contact: Ann Scheerer, 3017B Agricultural and Life Sciences Building, Oregon State University, Corvallis, OR 97331; 541-737-5687; Ann. Scheerer@oregonstate.edu or the Sustainability Double Degree academic advisor, Sus.Advising@oregonstate.edu.

OSU-Cascades Campus Contact: Matt Shinderman, Forest Ecosystems and Society, Oregon State University Cascades; 541-322-3159; matt.shinderman@ osucascades.edu.

## Sustainability Core (17-20)

All Sustainability Majors and Minors must take the five courses that make up the Sustainability Core: SUS 304, SUS 350, an ecological sustainability course (SUS 102 recommended), a social sustainability course (choose one below), and an
economic sustainability course (choose one below):
SUS 304. *Sustainability Assessment (4)
SUS 350. *Sustainable Communities (4)

## Ecological Dimensions of

 Sustainability (3-4)
## Select 3 to 4 credits from the

 following:BI 301. *Human Impacts on Ecosystems (3)
SUS 102. *Introduction to Environmental
Science and Sustainability (4)
Social Dimensions of Sustainability

## (3-4)

Select 3 to 4 credits from the following:
SOC 381. Social Dimensions of
Sustainability (4)(Ecampus only)
SOC 480. *Environmental Sociology (4)
SOC 481. *Society and Natural Resources (4)
SOC/FES/ANS/FW 485. *Consensus and
Natural Resources (3)
SUS 420. Social Dimensions of Sustainability (3)(Ecampus, Cascades Campus )

## Economic Dimensions of

Sustainability (3-4)
Select 3 to 4 credits from the following:
AEC 250. *Introduction to Environmental Economics and Policy (3)
AEC 351. *Natural Resources Economics and Policy (3)
AEC/ECON 352. *Environmental
Economics and Policy (3)
AEC 434. ${ }^{\wedge}$ Measuring Resource and
Environmental Impacts (4)

## Practicum (3-12)

Sustainability majors are required to complete a minimum of 3 Practicum credits. Before registering for a practicum, students must get practicum approved by Sustainability Double Degree advisor. Email: Sus.advising@oregonstate.edu.
SUS 401. Research (3-12)
SUS 410. Internship (3-12)
SUS 499. Special Topics (3-12)
Note: SUS 410 credits may be achieved by participation in an $\mathrm{IE}_{3}$ Global Internship with advisor approval.

## Remaining Elective Credits (4-16)

In addition to the required credits specified above, students must work with the sustainability program advisor to select courses relevant to their discipline and career path interests.

## Credits total=36

Classes that can be used to fulfill remaining requirements are listed below. Students are NOT limited to taking courses within their primary major of study. The Sustainability advisor(s) will approve courses not listed here if they have an obvious link to sustainability and fulfill the intent of the double degree. See the OSU Sustainability Office list of sustain-ability-related courses.

## Business

AEC 250. *Introduction to Environmental

Economics and Policy (3)
AEC 253. *Environmental Law, Policy and Economics (4)
AEC 351. *Natural Resource Economics and Policy (3)
AEC/ECON 352. *Environmental
Economics and Policy (3)

## UNDERGRADUATE MINORS

## BUSINESS AND

ENTREPRENEURSHIP MINOR
Also available at OSU-Cascades and

## via Ecampus.

The Business and Entrepreneurship
minor teaches students to recognize
business opportunities, equips them with skills to secure funding, and provides insight on how to manage the commercialization of the business opportunity. Fundamental business classes are combined with those designed to specifically address the challenges of launching a new venture or an idea within an existing organization. With an innovative curriculum taught by dedicated professors, the Business and Entrepreneurship minor provides a fundamental stepping
stone on the road to identifying and commercializing business opportunities in any type of organization.

Interested students must view an online orientation, http://business.oregon-state.edu/advising/business-entrepre-neurship-minor, and meet requirements stated therein before they can declare the minor.

## Required Courses

BA 215. Fundamentals of Accounting (4)
or [BA 211. Financial Accounting (4) and
BA 213. Managerial Accounting (4)]
BA 230. Business Law I (4)
BA 260. Introduction to Entrepreneurship (4)

BA 314. Sustainable Business Operations (4)
BA 351. Managing Organizations (4)
or BA 352. Managing Individual and
Team Performance (4)
BA 360. Introduction to Financial
Management (4)
or FIN 340. Finance (4)
or ENGR 390. Engineering Economy (3)
BA 390. Marketing (4)
ECON 201. *Introduction to
Microeconomics (4)
or AEC 311. Intermediate Applied
Economics I: Producers and Consumers
(4) [AEC 250 is a prereq for AEC 311]

Note: Registration access to these substitutes is generally not allowed for minors. However, some students may have access to them via Honors College or previous status as a business major.

## Total=32

To earn the minor upon graduation, students must meet all of the following:

- Earn a minimum of C-in each of their minor courses (all courses must be taken A-F grading)
- Complete over 50 percent of their minor with OSU credits
- Have minimum 2.5 GPA (OSU grades) in all required minor course work
For further information, please contact the Office of Student Services, Austin Hall 122, 541-737-3716.

${ }^{\wedge}$ Writing Intensive Course
Minor Code: 574

## SUSTAINABILITY MINOR

Available on the Corvallis and OSU-Cascades campuses, and via Ecampus.
OSU Main Campus Contact: Ann Scheerer, 3017B Agricultural and Life Sciences Building, Oregon State University, Corvallis, OR 97331; 541-737-5687; Ann. Scheerer@oregonstate.edu or the Sustainability Double Degree academic advisor, Sus.Advising@oregonstate.edu.
OSU-Cascades Campus Contact: Matt Shinderman, Forest Ecosystems and Society, Oregon State University Cascades; 541-322-3159; matt.shinderman@
osucascades.edu.
The Sustainability minor includes core sustainability courses (5) and tailored elective courses to expand students' knowledge and experience of their primary major in the context of sustainability principles and frameworks. Courses from a student's major course of study will not count towards minor requirements. Completion of the Sustainability minor requires 27 credits beyond the 180 -credit minimum for graduation.

## Sustainability Core (17-20)

All Sustainability students must take (8):
SUS 304. *Sustainability Assessment (4)
SUS 350. *Sustainable Communities (4)

## Social Dimensions of

Sustainability:
Select 3 to 4 credits from the following:
SOC 381. Social Dimensions of Sustainability (4)
SOC 480. *Environmental Sociology (4)
SOC 481. *Society and Natural Resources (4)
SOC 485/ANS 485/FES 485/FW 485.
*Consensus and Natural Resources (3)
SUS 420. Social Dimensions of Sustainability (3)

## Ecological Dimensions of

Sustainability:
Select 3 to 4 credits from the following:
BI 306. *^Environmental Ecology (3)
SUS 102. *Introduction to Environmental Science and Sustainability (4)

## Economic Dimensions of

Sustainability:

## Select 3 to 4 credits from the

## following:

AEC 250. *Introduction to Environmental Economics and Policy (3)
AEC/ECON 352. *Environmental
Economics and Policy (3)
AEC 434. ${ }^{\wedge}$ Measuring Resource and Environmental Impacts (4)

## Sustainability Individualized Study/

Elective Credits (7-10)
Students will work with their primary academic advisor and the Sustainability academic advisor to select electives in the theme relevant to their interests for a total of 7-10 credits. Students should discuss with Sustainability advisor to apply elective courses that may not be listed below.

## Total Credits=27

## Elective Courses:

## Business

AEC 250. *Introduction to Environmental Economics and Policy (3)
AEC 253. *Environmental Law, Policy and Economics (4)

GRADUATE MAJORS

## BUSINESS ADMINISTRATION

 (MBA, PhD)
## Graduate Areas of Concentration Clean technology

## Also available via Ecampus.

The Master of Business Administration program features an innovative, advanced business curriculum that ties together the functional disciplines of business. It is open to both business and non-business undergraduates. Core courses include business law, accounting, finance, operations, management and marketing.
The program provides the knowledge and skills that effective leaders needpreparing graduates to create, build and manage global enterprises that are socially responsible. Sustainable businesses operate deftly to simultaneously meet economic, social and environmental challenges. That's why applied projects are woven into our curriculum-so our graduates are ready to make smart, bold moves that solve complex problems and make a positive impact on the world.

The MBA program is a place for students to pursue their dreams and push their boundaries. Students learn to build and lead teams, integrate disciplines, work under pressure and multitask-the same skills they will rely on when they leave campus.

For more information, email MBAInfo@bus.oregonstate.edu or call 541-737-5510
The MBA requires 60 credits of course work, including 15 credits of Core-1 courses, 27 credits of Core-2 courses, and 18 credits within one of the six available graduate options:

1. Business Analytics
2. Finance
3. Innovation Management
4. Organizational Leadership

## BUSINESS ANALYTICS OPTION

## Also available via Ecampus.

The Business Analytics graduate option, within the Master of Business Administration (MBA) program, supports a rapidly-growing interest from organizations that need people who can integrate data sets and tools to address opportunities and risks. The information value of both in-house and third-party data sets can now be leveraged using powerful emerging technologies. Increasingly organizations leverage advances in software interoperability, data exchange mecha-
nisms and data mining and visualization techniques to better understand their operations, customers, and markets. This trend has become known as 'data mining,' 'business analytics,' 'business intelligence' or, nowadays, 'big data'.
Candidates with an undergraduate business major or minor can complete an MBA with business analytics in nine intensive months as full-time students. Other college graduates can take Core-1 courses over the summer and join the cohort in the fall. Part-time students can complete the MBA over a longer time frame. A final capstone project and oral exam demonstrate a student's ability to apply learned concepts.

The Business Analytics graduate option requires 60 credits of course work, including 15 credits of Core- 1 courses, 27 credit hours of Core-2 courses, 15 credits within the Business Analytics graduate option, and 3 credits for an elective.

## Core-1 Course Work (15 credits)

BA 513. Business Legal Environment (3) BA 514. Operations Management (3) BA 515. Managerial Decision Tools (3) BA 516. Creating Value in Exchange (3) BA 517. Markets and Valuation (3)

## Unrestricted Elective Course (3 credits) <br> Total=60 credits <br> Option Code: 2059

## CORPORATE FINANCE OPTION

The Corporate Finance graduate option, within the Master of Business Administration (MBA) program, will provide training for students in financial issues at the firm level. These issues include the process by which companies raise capital,
decide on a capital structure, implement hedging strategies, and develop governance structures. The option culminates in a capstone course in the market for corporate control where students will develop the ability to conduct analyses and valuation of transactions in this market. Graduates from this program will be well-suited for careers in traditional corporate finance settings, as well as in investment banking.

Candidates with an undergraduate business major or minor may be able to complete an MBA with a Corporate Finance graduate option in nine intensive months as full-time students. Other college graduates can take Core-1 courses over the summer and join the cohort in the fall. Part-time students can complete the MBA over a longer time frame.
The Corporate Finance graduate option requires 60 credits of course work, including 15 credits of Core- 1 courses, 27 credits of Core-2 courses, 15 credits within the Corporate Finance graduate option, and 3 credits of elective credit.

## Core-1 Course Work (15 credits)

BA 513. Business Legal Environment (3)

INNOVATION MANAGEMENT OPTION

## Also available via Ecampus.

The Innovation Management graduate option, within the Master of Business Administration (MBA) program, emphasizes
innovation, technology commercialization, and entrepreneurship to prepare graduates to assume leadership roles in emerging businesses. This MBA graduate option provides the student background, tools and experiential learning in the management of innovative business and technical concepts. A core element of the Innovation Management graduate option is the completion of a self-paced experiential project based on development/analysis of an innovative business or technical concept.

Length: The MBA curriculum can be completed within an intensive oneyear time frame on campus. Part-time students, taking six to nine credits per quarter, can complete the program in two years on campus or in Portland.

## Learning Outcomes:

- Develop a research-driven, investorready lean canvas business model and plan to take an innovative idea to market (BA 560, BA 567, BA 570, BA 568)
- Present a compelling argument for funding (BA 567, BA 568)
The Innovation Management MBA graduate option requires 60 credits of course work, including 15 credits of Core-1 courses, 27 credits of Core-2 courses, 18 credits within the Innovation Management graduate option.

## Core-1 Course Work (15 credits)

BA 513. Business Legal Environment (3)
BA 514. Operations Management (4)

## ORGANIZATIONAL LEADERSHIP

## OPTION

## Also available via Ecampus.

The Organizational Leadership graduate option, within the Master of Business Administration (MBA) program, is designed to serve leaders and professionals from any industry. The program will be delivered on the Corvallis campus, and in Portland as an online/hybrid program in partnership with OSU Ecampus. The number of in-person sessions required for each individual online/hybrid course will depend on the courses learning objec-
tives, with in-person sessions delivered in the Collaborative Life Sciences facility in Portland.

## Key Benefits:

- Flexible and affordable program that helps prepare students for leadership roles in established and emerging business organizations.
- Online/hybrid classes blend face-toface and online sessions to maximize learning and flexibility.
- Management and leadership course content similar to educational content provided in top ranking executive MBA programs.
Length: Part-time students, taking at most two courses per academic quarter, may complete this degree in 21 months.

Additional time will be required if candidates need to complete the Core-1 courses (see below).

Learning Outcomes: Upon completion of this graduate degree option, graduates will be able to:

- Understand, analyze, and apply ethics frameworks to facilitate corporate social responsibility and ethical decision making (MGMT 559).
- Understand, analyze, and apply human resource management information to facilitate executive level strategic decision making. (MGMT 572).
- Understand, analyze, and apply classical and modern leadership theories and techniques to facilitate leadership effectiveness. (BA 550, MGMT 559).
- Understand, analyze and apply negotiation techniques toward attainment of organizational objectives. (MGMT 574).
The Organizational Leadership graduate option requires 60 credits of course work, including 15 credits of Core-1 courses, 27 credits of Core-2 courses, 12 credits within the Organizational Leadership graduate option, and 6 credits for the Integrative Capstone Experience.

## Core-1 Course Work (15 credits)

BA 513. Business Legal Environment (3)
BA 514. Operations Management (3)
BA 515. Managerial Decision Tools (3)
BA 516. Creating Value in Exchange (3)
BA 517. Markets and Valuation (3)
Note: Core-1 requirements may be waived if a candidate has a recent undergraduate major in business, or has completed equivalent course work within an undergraduate business minor.

## Core-2 Course Work ( 27 credits)

BA 528. Financial and Cost Analysis (3)
BA 540. Corporate Finance (3)
BA 550. Organization Leadership and
Management (3)
BA 555. Practical Business Analysis (3)

Integrative Capstone Experience (6 credits)
MGMT 575. Integrative Capstone I (3)
MGMT 576. Integrative Capstone II (3)
Total=60 credits
Option Code: 2061

## RESEARCH THESIS OPTION

The Research Thesis graduate option, within the Master of Business Administration (MBA) program, is intended to offer students and College of Business faculty with joint research interests, an opportunity to engage in research as part of the student's MBA program. Students can design, execute, and report on business research problems and their solutions. These may include an analysis of existing academic literature and the formulation of research questions and research plans. Students may also collect and analyze data and report on research findings in both an oral and written format.

The Research Thesis graduate option requires a minimum of 46 credits of course work, including 33 credits of general MBA courses and a minimum of 13 credits within the Research Thesis graduate option.

## General MBA Course Work (33 credits)

BA 528. Financial and Cost Analysis (3)
BA 531. Business Law - Technology/New Ventures (3)
BA 540. Corporate Finance (3)
BA 543. Financial Markets and Institutions (3)

BA 550. Organization Leadership and Management (3)

BA 503. Thesis (6)
BA 505. Reading and Conference (4)
MRKT 596. Marketing Research Design and Methods (3)

## Total=46 credits

Option Code: 2056

## SUPPLY CHAIN AND LOGISTICS MANAGEMENT OPTION

## Also available via Ecampus.

The Supply Chain and Logistics Management (SCLM) graduate option, within the Master of Business Administration (MBA) program, offers students an alternative focus for their MBA that includes acquiring a solid mastery of international operations and supply chain and logistics management concepts and methods.

This MBA graduate option prepares graduates for operations, logistics and supply chain management in the service and manufacturing industries. In the past two decades, the loss of manufacturing jobs in the U.S. triggered attrition of innovation capabilities across many sectors of the economy contributing to the current anemic economic recovery. The U.S. needs a professionally-trained workforce
that is able to manage internal operations and global supply chains in the manufacturing and service sectors and in government agencies. Well-trained operations and supply chain managers are also needed in global companies that operate outside the U.S., including companies that operate in the Asia-Pacific Rim.

Learning Outcomes: Graduates will acquire a solid mastery of global supply chain and international operations management concepts and methods.

- Effectively use concepts of operations and supply chain management and qualitative and quantitative methods to make appropriate decisions in international business contexts that include new and unfamiliar situations.
- Design appropriate management plans for global supply chains that are lawful, ethical and environmentally and socially responsible.
- Develop a global outlook that reflects changes experienced and anticipated by firms and industries and understand the requirements for effective change management in global operations and supply chains.
Length: The MBA curriculum can be completed within an intensive oneyear time frame on campus. Part-time students, taking six to nine credits per quarter, can complete the program in two years on campus or in Portland.

The SCLM graduate option requires 60 credits of course work, including 15 credits of Core- 1 courses, 27 credits of Core- 2 courses, 15 credits within the SCLM graduate option, and 3 credits from a list of electives.

## Core-1 Course Work (15 credits)

BA 513. Business Legal Environment (3) BA 514. Operations Management (3)
BA 515. Managerial Decision Tools (3) BA 516. Creating Value in Exchange (3) BA 517. Markets and Valuation (3)
Note: Core-1 requirements may be waived if a candidate has a recent undergraduate major in business, or has completed equivalent course work within an undergraduate business minor.

## Core-2 Course Work (27 credits)

BA 528. Financial and Cost Analysis (3)
BA 540. Corporate Finance (3)

## BUSINESS ADMINISTRATION

 AND ACCOUNTANCY (MBAA)The Master of Business Administration and Accountancy is a one-year master's program for students with an undergraduate degree in accounting. It allows accounting students to receive an undergraduate degree and a master's degree during their five years of university study required to become a CPA. As an integrated program, the MBAA is designed to allow students the opportunity to plan early enough in their accounting education program to enable them to receive both an undergraduate degree and a graduate degree. The MBAA is also designed to accommodate postbaccalaureate students wishing to prepare for accounting careers by completing a two-year plan of study.

ACTG 317. EXTERNAL REPORTING I (4). Examines the theory and practice of financial accounting, the processing and controls phases of the accounting system, and reporting to external parties. Emphasis is placed on the accounting cycle and financial statement structure and content. The emphasis on the accounting cycle includes the processing and tracing of transaction data from source documents to financial statements. PREREQS: BA 211 [C] and BA 213 [C] and departmental approval.

## ACTG 318. EXTERNAL REPORTING II (4).

Continuation from ACTG 317 and the theory and practice of financial accounting and the reporting to external parties. Covers financial reporting objectives to provide information that is useful in investment and credit decisions, in assessing cash flow prospects, and about company resources and claims to those resources. PREREQS: ACTG 317 [C] and junior standing and departmental approval.
ACTG 319. EXTERNAL REPORTING III (4). Continuation from ACTG 318 and the theory and practice of financial accounting and the reporting to external parties. Covers financial reporting objectives to provide information that is useful in investment and credit decisions, in assessing cash flow prospects, and about company resources and claims to those resources. PREREQS: ACTG 318 [C] and departmental approval.
ACTG 321. COST MANAGEMENT I (4).
Reinforces and builds on the language and concepts of management accounting. Emphasizes different models for product costing and examines their effects on profit planning, budgeting, motivation, and control. PREREQS: ACTG 317 [C] and /or departmental approval.

## ACTG 378. ACCOUNTING INFORMATION

MANAGEMENT (4). Introduces students to the field of information management. Topics include information systems technology, the strategic role of IT, the business applications of networks, databases and Internet technologies, the system life cycle model, systems analysis and design methodologies, and the development and implementation of information systems. Lec/ rec. PREREQS: (BA 213 [C] and (BA 271 [C] or BA 302 [C] ) and (BA 275 [C] or BA 276 [C] )) and junior standing and departmental approval required.

## ACTG 378H. ACCOUNTING INFORMATION

MANAGEMENT (4). Introduces students to the field of information management. Topics include information systems technology, the strategic role of IT, the business applications of networks, databases and Internet technologies, the system life cycle model, systems analysis and design methodologies, and the development and implementation of information systems. Lec/rec. PREREQS: BA 213 [C] or BA 302 [C] and (BA 275 [C] or BA 276 [C] ) and junior standing and departmental approval required. Honors College approval required.
ACTG 379. ACCOUNTING ANALYTICS (4). Covers the analysis of data as it pertains to accounting professionals. The focuses include analytic techniques for decision making and the examination of "big data" involving accounting information. Hands-on experiences will develop skills with select software tools used in data analytics for accounting professionals. PREREQS ACTG 318 [C] and ACTG 378 [C]
ACTG 417. ADVANCED ACCOUNTING (4). An advanced course in financial accounting theory. Covers corporate combinations, consolidated financial statements, and government and not-forprofit accounting. PREREQS: ACTG 319 [C] and departmental approval required.
ACTG 420. IT AUDITING (4). Explores key information systems issues such as planning, acquisition, delivery, and monitoring from a risk
and control perspective. Students learn to use IT audit standards, guidelines, and frameworks and build data analysis tool skills. PREREQS: ((ACTG 319 [C] or BA 372 [C] ) and ACTG 378 [C] ) and departmental approval required.
ACTG 422. STRATEGIC COST MANAGEMENT
(4). Continuation of concepts and processes of management accounting. Emphasizes relevant costs, cost accumulation and allocation, segment performance measurement and control and quantitative techniques. PREREQS: ACTG 319 [C] and ACTG 321 [C] and BA 357 [C] and departmental approval.
ACTG 424. INTRODUCTION TO TAXATION (4). Meets two major objectives. First, it is a technical introduction to U.S. income tax with emphasis on general and business related topics. Second, it provides a framework for students to launch further study in the tax area. Students will be encouraged to supplement text materials with readings from the Internal Revenue Code and Regulations as well as secondary tax research services. PREREQS: ACTG 319 [C] and /or equivalent course

## ACTG 425. ADVANCED TAXATION (4).

Examination of the federal tax system as it applies to corporations, partnerships, and estates and trusts. Emphasis is placed on understanding tax planning for business owners and refining the ability to research tax issues. PREREQS: (ACTG 325 [C] or ACTG 424 [C] ) and departmental approval.

ACTG 427. ASSURANCE AND ATTESTATION SERVICES (4). Assertions of enterprises gain credibility when examined by an independent third party. Assurance and attestation provide credibility Coverage includes ethics, risk, materiality, internal control, evidence and reporting. PREREQS: ACTG 319 [C] and /or acceptance into either the Accounting Certificate Program or the MBA Program. Departmental approval required.
ACTG 428. ADVANCED AUDIT ANALYTICS
(4). An advanced four-credit course covering audit theory, current audit practice and auditor professional skills. The equivalent of three credits (30 hours) relates to in-class activities, readings, presentations, research and group discussions of relevant advanced audit topics. The equivalent of one credit (10 hours) relates to understanding the use and future of data analytics in the audit profession. Theory, current audit practice and auditor professional skills. PREREQS: ACTG 427 [C]
ACTG 429. TOPICS IN ACCOUNTING (1-4). Analysis of current topics in accounting. Topics will vary from term to term. PREREQS: Departmental approval required.

ACTG 516. ACCOUNTING RESEARCH AND
ANALYSIS (3). Emphasis on financial accounting, tax and auditing research and analysis and communication of conclusions in the context of accounting case studies. PREREQS: Acceptance into the OSU MBAA or approval of the director of the Accounting Program.

ACTG 517. ADVANCED ACCOUNTING (4). An advanced course in financial accounting theory. Corporate combinations, consolidated financial statements, foreign operations and subsidiaries, partnerships, and sole proprietorships; contemporary issues in financial accounting. PREREQS: ACTG 319 and departmental approval required.
ACTG 518. ACCOUNTING THEORY AND
PRACTICE I (3). Expands and integrates knowledge of US and international generally accepted accounting principles (GAAP) in a rigorous study of the design, selection, and consequences of various models of financial reporting. PREREQS: (ACTG 516 [C] and ACTG 517 [C] ) and acceptance into the OSU MBAA or approval by the Director of the Accounting Program.

ACTG 519. ACCOUNTING THEORY AND
PRACTICE II (3). Study of the design, selection, and consequences of various models of financial reporting. Research accounting treatments for complex facts and circumstances with ambiguous accounting guidance. Build on financial reporting models to develop in-depth understanding and application of accounting practice. PREREQS: ACTG 518 [C] and acceptance into the OSU Accountancy MBA program or approval of the director of the Accounting Program.
ACTG 520. IT AUDITING (4). Explores key information systems issues such as planning, acquisition, delivery, and monitoring from a risk and control perspective. Students learn to use IT audit standards, guidelines, and frameworks and build data analysis tool skills. PREREQS: ((ACTG 319 or BA 372) and ACTG 378) and departmental approval required.

ACTG 522. STRATEGIC COST MANAGEMENT
(4). Continuation of concepts and processes of management accounting. Emphasizes relevant costs, cost accumulation and allocation, segment performance measurement and control and quantitative techniques. PREREQS: ACTG 319 and ACTG 321 and BA 357 and departmental approval required.
ACTG 524. INTRODUCTION TO TAXATION (4). Meets two major objectives. First, it is a technical introduction to U.S. income tax with emphasis on general and business related topics. Second, it provides a framework for students to launch further study in the tax area. Students will be encouraged to supplement text materials with readings from the Internal Revenue Code and Regulations as well as secondary tax research services. PREREQS: BA 528 [C] and /or equivalent course

ACTG 525. ADVANCED TAXATION (4). Examination of the federal tax system as it applies to corporations, partnerships, and estates and trusts. Emphasis is placed on understanding tax planning for business owners and refining the ability to research tax issues. PREREQS: ACTG 424 and departmental approval required.
ACTG 527. ASSURANCE AND ATTESTATION SERVICES (4). Assertions of enterprises gain credibility when examined by an independent third party. Assurance and attestation provide credibility. Coverage includes ethics, risk, materiality, interna control, evidence and reporting. PREREQS:
ACTG 319 and departmental approval required.
ACTG 529. TOPICS IN ACCOUNTING (1-4).
Analysis of current topics in accounting. Topics will vary from term to term. PREREQS: Instructor approval required.
ACTG 620. FOUNDATIONS OF ACCOUNTING RESEARCH (3). Introduces first-year doctoral students to accounting research by discussing the development of modern accounting theory, relating it to theories in economics and finance, and exposing students to the different areas of and methodologies used in accounting research. Also begins a survey of classic and contemporary literature in the area of financial accounting research. Specific financial accounting topics may change from quarter to quarter, but sample topics include earnings management, earnings quality, and voluntary disclosure. PREREQS: Doctoral student status and departmental approval.
ACTG 621. FINANCIAL ACCOUNTING RESEARCH (3). Surveys classic and contemporary research in the area of financial accounting. Specific topics may change from quarter to quarter, but sample topics include the value relevance of accounting information, post earnings announcement drift, the residual income model, analysts, use accounting information, and market-based assessments of the usefulness and limitations of alternative accounting measurements and disclosures. PREREQS: Doctoral student status and departmental approval.

ACTG 622. ACCOUNTING, JUDGMENT AND ACCOUNTABILITY (3). Surveys classic and contemporary research in areas related to management, judgment, and accountability in accounting. Specific topics may change from quarter to quarter, but sample topics include research on management incentives and compensation, performance measurement, auditing, corporate governance, and research using behavioral methods. PREREQS: Doctoral student status and departmental approval.

ACTG 623. TAX RESEARCH (3). Surveys classic and contemporary research in the area of taxation. Specific topics may change from quarter to quarter, but sample topics include tax vs. nontax costs in business decisions, book-tax differences, taxes and financial reporting, multijurisdictional tax ssues, and tax avoidance. PREREQS: Doctoral student status and departmental approval.

## - BUSINESS ADMINISTRATION COURSES

BA 101. BUSINESS NOW (6). Presents an integrated view of both established and entrepreneurial business organizations by studying their common processes and characteristics. Introduces theory and develops basic skills in the areas of management, finance, accounting and marketing. Lec/lab/rec.
BA 140. FINANCIAL LITERACY FOR COLLEGE LIFE (2). Helps you learn the fundamentals of personal finance. It is crucial you are prepared to be prudent managers of your financial resources, enabling you to achieve long- and short-term financial goals and security. In addition, this course will examine how your background experiences, values, goals, and decisions can impact your financial future.
BA 150. EXPLORING ENTREPRENEURSHIP
(1). Participants are challenged with economic concepts and projects. Inspirational speakers address key topics concerning all aspects of business and leadership development. Students must be registered for Young Entrepreneurs Business Week Camp to receive credit for the course. Graded P/N.

BA 151. EXPLORING INVESTING (1). Students participating in Investing Week will learn about basic investment vehicles and the principles of evaluating a potential investment. Students will also learn how to understand the financial market system and how it affects their personal and business life. Students will be assigned a role as a junior analyst with Toots, Toots and Peabody, and critically assess the benefits and strengths of individual investment vehicles. Graded P/N.
BA 152. EXPLORING SOCIAL
ENTREPRENEURSHIP (1). Provides an immersive experience regarding responsible business practices. In addition, from an entrepreneurial prospective, students have the opportunity to explore ways in which real social change is being conducted worldwide. Graded P/N.
BA 160. B-ENGAGED (3). Understand and accomplish college-level academic work and explore OSU resources and options that will enhance your college experience and success. Opportunity to connect with faculty and peers with common interests in a supportive learning environment.
BA 160H. B-ENGAGED (3). Understand and accomplish college-level academic work and explore OSU resources and options that will enhance your college experience and success. Opportunity to connect with faculty and peers with common interests in a supportive learning environment. PREREQS: Honors College approval required

BA 161. INNOVATION NATION--AWARENESS
TO ACTION (3). First course in a two-course sequence. Begins a conversation on selfmanagement, offering opportunities for active reflection on critical skill sets necessary for
success in today's global market. Builds a foundation of entrepreneurial knowledge and gaining a competitive edge while becoming aware of your role in managing your own career.
BA 161H. INNOVATION NATION--AWARENESS TO ACTION (3). First course in a two-course sequence. Begins a conversation on selfmanagement, offering opportunities for active reflection on critical skill sets necessary for success in today's global market. Builds a foundation of entrepreneurial knowledge and gaining a competitive edge While becoming aware of your role in managing your own career. PREREQS: Honors College approval required.

## BA 162. INNOVATION NATION--IDEAS

TO REALITY (3). Second course in a twocourse sequence. Topics include evaluating entrepreneurial capabilities, creativity and innovation, opportunity recognition, impression management, and responsible business practices. Continues a conversation on self-management offering opportunities for active reflection on critical skill sets necessary for success in todayss global market. PREREQS: BA 161 [C-]
BA 170. BUSINESS INSIGHTS (2). The first term within a new university and/or major is a critical time for college students. Business Insights was developed to help you transition to the OSU College of Business academic community and learning expectations. Business Insights will help you understand and accomplish college-level academic work and explore OSU resources and options that will enhance your college experience and success. Additionally, Business Insights is your opportunity to connect with a faculty member and peers with common interests in a supportive learning environment.

BA 199. SPECIAL STUDIES (1-4). Graded P/N. This course is repeatable for a maximum of 4 credits.

BA 210. INTERNSHIP (1-6). Planned and supervised work experience at selected cooperating business firms. Supplementary training, conference, reports, and appraisals. Graded $\mathrm{P} / \mathrm{N}$. This course is repeatable for a maximum of 16 credits.

BA 211. FINANCIAL ACCOUNTING (4). Accounting information from the perspective of external users, principally investors and creditors. Emphasis on the preparation and interpretation of financial statements, income recognition and determination, and asset valuation. PREREQS: (MTH 111 [C-] or MTH 241 [C-] or MTH 251 [C-] or MTH 251 H [C-] ) or Placement Test MPT(24) or Placement Test MPAL(060) and sophomore standing.
BA 211H. FINANCIAL ACCOUNTING (4).
Accounting information from the perspective of external users, principally investors and creditors. Emphasis on the preparation and interpretation of financial statements, income recognition and determination, and asset valuation. PREREQS: MTH 111 [C-] or MTH 241 [C-] or MTH 251 [C-] or MTH 251H [C-] or Placement Test MPT(24) or Placement Test MPAL(60) and sophomore standing and Honors College approval required.
BA 213. MANAGERIAL ACCOUNTING (4). Accounting information from the perspective of management users with an emphasis on data accumulation for product costing, planning, and performance evaluation and control. PREREQS: BA 211 [C-]
BA 213H. MANAGERIAL ACCOUNTING (4). Accounting information from the perspective of management users with an emphasis on data accumulation for product costing, planning, and performance evaluation and control. PREREQS: BA 211 [C-] or BA 211H [C-] and Honors College approval required.
BA 215. FUNDAMENTALS OF ACCOUNTING
(4). Looks at how the accounting model reflects business transactions and events. Students are introduced to both financial and managerial
accounting and the creation, interpretation, and analysis of financial statements. In addition, students obtain an understanding of the determination, organization, and management of costs and revenues including management decisions based upon this information.

BA 230. BUSINESS LAW I (4). Nature and function of law in our business society. Obligations arising out of agency, contract formation and breach, crimes, torts, warranty, regulation of competition, and international aspects thereof. PREREQS: Sophomore standing.
BA 230H. BUSINESS LAW I (4). Nature and function of law in our business society. Obligations arising out of agency, contract formation and breach, crimes, torts, warranty, regulation of competition, and international aspects thereof. PREREQS: Sophomore standing. Honors College approval required.
BA 233. LEGAL ENVIRONMENT OF BUSINESS
(2). Nature and function of U.S. law in our business society. Obligations arising out of agency and employment law, contract formation and breach, warranty, crimes and torts. PREREQS: Sophomore standing.
BA 233H. LEGAL ENVIRONMENT OF
BUSINESS (2). Nature and function of U.S law in our business society. Obligations arising out of agency and employment law, contract formation and breach, warranty, crimes and torts. PREREQS: Sophomore standing. Honors College approval required.
BA 253. PROFESSIONAL DEVELOPMENT
(4). Designed to improve the ability of students to describe their accomplishments and sell their ideas in situations like professional networking, company meetings, response to proposals for services, and interviews. It teaches writing skills and workplace integration for new jobs. Particular emphasis is put on verbal communication and preparation for verbal communication. Students will learn to create career plans that require them to research career options and potential employers, and prepare a developmental roadmap that will lead them to success within the chosen profession. PREREQS: (BA 101 [C-] or BA 162 [C-] or DHE 160 [C-] ) and (WR 222 [C-] or WR 323 [C-] or WR 327 [C-] )
BA 253H. PROFESSIONAL DEVELOPMENT
(4). Designed to improve the ability of students to describe their accomplishments and sell their ideas in situations like professional networking, company meetings, response to proposals for services, and interviews. It teaches writing skills and workplace integration for new jobs. Particular emphasis is put on verbal communication and preparation for verbal communication. Students will learn to create career plans that require them to research career options and potential employers, and prepare a developmental roadmap that will lead them to success within the chosen profession. PREREQS: (BA 101 [C-] or BA 162 [C-] or DHE 160 [C-] ) and (WR 222 [C-] or WR 323 [C-] or WR 327 [C-] or WR 327H [C-] ) and Honors College approval required.
BA 260. INTRODUCTION TO
ENTREPRENEURSHIP (4). Topics include evaluating entrepreneurial capabilities, creativity, business plan creation, opportunity assessment and feasibility analysis, business implementation, new product introduction, and seeking funds. PREREQS: Sophomore standing.
BA 260H. INTRODUCTION TO
ENTREPRENEURSHIP (4). Topics include evaluating entrepreneurial capabilities, creativity, business plan creation, opportunity assessment and feasibility analysis, business implementation, new product introduction, and seeking funds. PREREQS: Sophomore standing and Honors College approval required.

BA 272. BUSINESS APPLICATION
DEVELOPMENT (4). Introduction to business programming with C\#.NET. Beginning
programming skills and concepts, .NET programming environment, object-oriented and event-oriented models, and console applications.

## BA 275. FOUNDATIONS OF STATISTICAL

INFERENCE (4). An introductory course on statistical inference with an emphasis on business applications. Coverage includes descriptive statistics, random variables, probability distributions, sampling and sampling distributions, statistical inference for means and proportions using one and two samples, and linear regression analysis. PREREQS: MTH 241 [C-] or MTH 251 [C-] or MTH 251H [C-]

BA 275H. FOUNDATIONS OF STATISTICAL
INFERENCE (4). An introductory course on statistical inference with an emphasis on business applications. Coverage includes descriptive statistics, random variables, probability distributions, sampling and sampling distributions, statistical inference for means and proportions using one and two samples, and linear regression analysis. PREREQS: MTH 241 [C-] or MTH 251 [C-] or MTH 251H [C-] and Honors College approval required

## BA 276. INTRODUCTION TO STATISTICAL

INFERENCE (2). An introductory level statistics course on data analysis and statistical inference with an emphasis on business applications. Coverage includes descriptive statistics, random variables, probability distributions, sampling and sampling distributions, statistical inference for means and proportions using one and two samples. It serves as a prerequisite to BA 376. PREREQS: (MTH 245 [C-] or MTH 251 [C-] or MTH 251 H [C-] ) and sophomore standing.
BA 280. BUSINESS INSIGHTS (2). Connect with faculty and peers and explore OSU resources designed to enhance your college experience and success. Engage in professional development activities and cultivate the soft skills employers are looking for in their future employees.
BA 281. PROFESSIONAL DEVELOPMENT (3) Designed to give students an early start on the process of career planning and development.
The process involves thoughtful self-assessment, career exploration, planning and follow-through with preliminary employment strategies.
PREREQS: (BA 101 [C-] and BA 280 [C-] ) or BA 162 [C-]
BA 282. PERSONAL, PROFESSIONAL AND LEADERSHIP DEVELOPMENT I (1). BA 282, taken during fall term of the second year, helps students develop lifelong skills that are practical, meaningful, and useful. These skills and the understanding developed through this course strengthens the student's ability to adapt career goals to changing market conditions, make good decisions in difficult situations, and set financial goals. PREREQS: BA 101 [C-] or BA 162 [C-]

BA 283. PERSONAL, PROFESSIONAL AND LEADERSHIP DEVELOPMENT II (1). BA 283, taken during winter term of the second year, course helps students develop lifelong skills that are practical, meaningful, and useful. These skills and the understanding developed through this course strengthens the student's ability to adapt career goals to changing market conditions, make good decisions in difficult situations, and set financial goals. PREREQS: BA 101 [C-] or BA 162 [C-]
BA 284. PERSONAL, PROFESSIONAL AND LEADERSHIP DEVELOPMENT III (1). BA 284, taken during spring term of the second year, course helps students develop lifelong skills that are practical, meaningful, and useful. These skills and the understanding developed through this course strengthens the student's ability to adapt career goals to changing market conditions, make good decisions in difficult situations, and set financial goals. PREREQS: BA 101 [C-] or BA 162 [C-]

BA 290. INTRODUCTION TO CAREERS IN
MARKETING (3). Explores marketing through the
perspectives of current marketing professionals. introductory language and principles of marketing are introduced and examined through real world examples. Presents various careers within marketing. PREREQS: Sophomore standing
BA 302. BUSINESS PROCESS MANAGEMENT
(4). Integrates core concepts from Business Information Systems (BIS) with those of Operations Management and introduces a process-oriented view of the flows of materials information and services through and across organizations. The course helps students dentify information-bearing events, assess and improve process efficiency, learn to model and analyze business processes, and understand the interactions between human behavior and process design. Hands-on, case-based assignments and abs allow students to practice the principles addressed. PREREQS: (MTH 245 [C-] or MTH 251 [C-] or MTH 251H [C-] ) and sophomore standing
BA 314. SUSTAINABLE BUSINESS
OPERATIONS (4). Operations are the processes by which an organization transforms inputs (e.g., labor, material, and knowledge) into outputs (products and services). Operations managers are responsible for designing, running and improving the processes and systems to efficiently accomplish this for production or service businesses. This course focuses on the concepts and tools employed by operations managers to provide their organization a competitive advantage. Topics include statistical tools and quantitative methods (descriptive statistics, probabilities, sampling, interval estimation and hypothesis testing) and operations management concepts (strategies, forecasting, process design, capacity utilization, quality systems, supply chain management, inventory management, resource planning, sustainability and lean systems.)
PREREQS: MTH 111 [C-]
BA 333. LEGAL AND ETHICAL BUSINESS
SOLUTIONS (2). Legal and ethical regulations of U.S. and global business organizations including financial, human resources, operations and marketing functions. Emphasizes legal and ethical strategies for entrepreneurs including business entity selection, raising capital and managing intellectual property. PREREQS: ((BA 230 [C-] or BA 233 [C-] ) and (ECON 201 [C-] or ECON 201H [C-] )) and junior standing.
BA 333H. LEGAL AND ETHICAL BUSINESS SOLUTIONS (2). Legal and ethical regulations of U.S. and global business organizations including financial, human resources, operations and marketing functions. Emphasizes legal and ethical strategies for entrepreneurs including business entity selection, raising capital and managing intellectual property. PREREQS: (BA 230 [C-] or BA 233 [C-] ) and (ECON 201 [C-] or ECON 201H [C-] ) and junior standing and Honors College approval required.
BA 347. INTERNATIONAL BUSINESS (4). Integrated view of international business including current patterns of international business, socioeconomic and geopolitical systems within countries as they affect the conduct of business, major theories explaining international business transactions, financial forms and institutions that facilitate international transactions, and the interface between nation states and the firms conducting foreign business activities. PREREQS: (ECON 202 [C-] or ECON 202H [C-] ) and junior standing.
BA 347H. INTERNATIONAL BUSINESS (4). Integrated view of international business including current patterns of international business, socioeconomic and geopolitical systems within countries as they affect the conduct of business, major theories explaining international business transactions, financial forms and institutions that facilitate international transactions, and the interface between nation states and the firms conducting foreign business activities. PREREQS: ECON 202 [C-] or ECON 202H [C-] and junior
standing and Honors College approval required.
BA 348. INTERNATIONAL EXCHANGE
ORIENTATION (1). Consists of large-group sessions as well as small-group break-out sessions for each country individually. It is vital to attend all sessions as valuable information pertaining to your study abroad opportunity will be presented. Graded P/N.

BA 349. IMPACT OF CULTURE ON BUSINESS
(1). A requirement of all students participating in a College of Business-approved international exchange program and for completing the College of Business International Business option. The major emphasis is for students to reflect on their experience while studying, living and traveling in a foreign culture and for them to determine how the foreign culture impacts how they would conduct business in that country. Graded P/N. PREREQS: BA 348* [C-]

## BA 351. MANAGING ORGANIZATIONS (4).

A systems perspective to understanding the management functions of planning, organizing, leading and controlling. Ethical and diversity ssues are addressed as they are relevant in entrepreneurial and established ventures. PREREQS: Junior standing. No credit for business administration majors.

BA 352. MANAGING INDIVIDUAL AND TEAM PERFORMANCE (4). Diagnose individual and small-group behavior and develop skill in improving individual and small-group performance in entrepreneurial and established ventures. Emphasis on professional skill development and the practical application of theory and research. Concepts of ethics, diversity and cross-cultural relations are integrated throughout the course. PREREQS: (COMM 111 [C-] or COMM 111H [C-] or COMM 114 [C-] or COMM 114H [C-] ) and junior standing.

BA 352H. MANAGING INDIVIDUAL AND TEAM
PERFORMANCE (4). Diagnose individual
and small-group behavior and develop skill in improving individual and small-group performance in entrepreneurial and established ventures. Emphasis on professional skill development and the practical application of theory and research. Concepts of ethics, diversity and cross-cultural relations are integrated throughout the course. PREREQS: (COMM 111 [C-] or COMM 111H [C-] or COMM 114 [C-] or COMM 114H [C-] ) and junior standing. Honors College approval required
BA 353. ^PROFESSIONAL DEVELOPMENT
(4). Designed to improve the ability of students to describe their accomplishments and sell themselves in situations like professional networking, company meetings, response to proposals for services, and interviews. Emphasizes writing skills, workplace integration, verbal communication, and preparation of developmental roadmaps that will lead students to success within their chosen profession. (Writing Intensive Course) PREREQS: ((COMM 111 [C-] or COMM 111H [C-] or COMM 114 [C-] or COMM $114 \mathrm{H}[\mathrm{C}-]$ ) and (WR 222 [C-] or WR 323 [C-] or WR 327 [C-] )) and junior standing.
BA 354. ${ }^{\wedge}$ MANAGING ETHICS AND CORPORATE SOCIAL RESPONSIBILITY (4). Introduces contemporary issues that business professionals face making ethical and socially responsible decisions in an increasingly fastpaced, transparent, and global environment. (Writing Intensive Course) PREREQS: (COMM 111 [C-] or COMM 111H [C-] or COMM 114 [C-] or COMM 114H [C-] ) and (WR 222 [C-] or WR 323 [C-] or WR 327 [C-] or HC 199 [C-] ) and junior standing and admitted to professional business program.
BA 357. OPERATIONS MANAGEMENT (4). Decision making in managing the production of goods and services: product planning, process planning, facility planning, control of quantity, cost and quality. Special emphasis on exponential forecasting, inventory management, work
methods, project management, productivity improvement, and international comparisons PREREQS: (BA 275 [C-] or BA 275H [C-] or BA 276 [C-] ) and junior standing.
BA 357H. OPERATIONS MANAGEMENT (4). Decision making in managing the production of goods and services: product planning, process planning, facility planning, control of quantity, cost and quality. Special emphasis on exponential forecasting, inventory management, work methods, project management, productivity improvement, and international comparisons. PREREQS: BA 275 [C-] or BA 275H [C-] or BA 276 [C-] and junior standing and Honors College approval required.
BA 360. INTRODUCTION TO FINANCIAL
MANAGEMENT (4). Explore the issues facing a financial manager in new business ventures, small businesses, and corporations. Focus on the role of the financial manager in business settings, explores the functions of a financial manager in financial analysis, forecasting, planning, and control; asset and liability management; capital budgeting; and raising funds for new business ventures, small businesses, and corporations. PREREQS: (BA 213 [C-] or BA 213H [C-] or BA 215 [C-] or BA 215H [C-]) and (ECON 201 [C-] or ECON 201H [C-] or AREC 250 [C-] )
BA 360H. INTRODUCTION TO FINANCIAL MANAGEMENT (4). Explore the issues facing a financial manager in new business ventures, small businesses, and corporations. Focus on the role of the financial manager in business settings, explores the functions of a financial manager in financial analysis, forecasting, planning, and control; asset and liability management; capital budgeting; and raising funds for new business ventures, small businesses, and corporations. PREREQS: (BA 213 [C-] or BA 213H [C-] or BA 215 [C-] or BA 215H [C-]) and (ECON 201 [C-] or ECON 201H [C-] or AREC 250 [C-] ) and Honors College approval required.

BA 362. SOCIAL ENTREPRENEURSHIP AND SOCIAL INITIATIVES (4). The core concepts of entrepreneurship, using entrepreneurship to craft innovative responses to social problems. Entrepreneurial skills are as valuable in the social sector as they are in business. Includes both profit and non-profit firms that have programs designed to create social value. PREREQS: Junior standing

## BA 363. TECHNOLOGY AND INNOVATION

 MANAGEMENT (4). Introduces students to the fundamentals of managing innovation and technology toward the production of intellectual assets; how innovations are created, evaluated and leveraged within business strategy; and how innovation is managed within various business environments. PREREQS: (BA 260 [C-] or BA 260 H [C-] )BA 365. FAMILY BUSINESS MANAGEMENT
(4). Focuses on the opportunities and the problems characteristic of family businesses: entrepreneurship, management succession, transfer of ownership, mixing family and business roles, family conflicts, personnel issues, non-family employees, and outside advisors. Taught via Ecampus only. PREREQS: Junior standing or instructor permission.

## BA 370. BUSINESS INFORMATION SYSTEMS

OVERVIEW (4). Introduce students to the field of information management. Topics include information systems technology, the strategic role of IT, the business applications of networks, databases and Internet technologies, and the development and implementation of information systems. Use relational database models to design a real-world case study. PREREQS: BA 302 [C-] and junior standing.
BA 371. BUSINESS INFORMATION SYSTEMS ANALYSIS AND DESIGN (4). Explore systems analysis, logical design and documentation of information system (IS) applications with processoriented methodologies. Lec/rec. PREREQS: (BA 272 [C-] and ACTG 378 [C-] ) and junior standing.

BA 372. BUSINESS INFORMATION SYSTEMS DESIGN AND DEVELOPMENT (4). Logical and physical design of computer-based information systems; tools and techniques that underlie the design processes. Design of an enterprise information system with CASE tools. Alternative approaches to systems design with emphasis on object-orientation. Lec/rec. PREREQS: BA 371 [C-] and junior standing.
BA 375. APPLIED QUANTITATIVE METHODS
(4). Introduces students to the basics of data science and data analytics for handling of largescale databases. It provides an overview of the main data-analytic techniques and topics including data visualization, linear and nonlinear regression analysis, time series analysis and forecasting, classification, and clustering methods. PREREQS: BA 275 [C-] and /or equivalent. Business majors only.

BA 375H. APPLIED QUANTITATIVE METHODS
(4). Introduces students to the basics of data science and data analytics for handling of largescale databases. It provides an overview of the main data-analytic techniques and topics including data visualization, linear and nonlinear regression analysis, time series analysis and forecasting, classification, and clustering methods. PREREQS: BA 275 [C-] and /or equivalent. Business majors only. Honors College approval required.
BA 376. APPLIED QUANTITATIVE METHODS
(2). An in-depth discussion on advanced quantitative methods most relevant to business students. Topics may include regression analysis, time series and forecasting, design of experiments, simulations, decision analysis, survey data analysis, data mining and computationally intensive statistical methods. PREREQS: BA 276 [C-] and available to business majors only.
BA 381. PERSONAL AND PROFESSIONAL DEVELOPMENT (4). Designed to help students transition to the OSU and COB communities, identify and employ academic success strategies, and start the process of career planning and development. Teaches students how to set financial goals. Credit may not be received for equivalent courses BA 353 or BA 253. PREREQS: BA 101 [C-] and second-year students who transfer into the COB and those enrolled in a COB Ecampus program.
BA 390. MARKETING (4). Consumer and industrial markets, and activities and enterprises involved in distributing products to those markets. Objective is to develop an understanding of distribution processes, marketing problems, and marketing principles. PREREQS: (ECON 201 [C-] or ECON 201H [C-] or AREC 250 [C-]) and junior standing.
BA 390H. MARKETING (4). Consumer and industrial markets, and activities and enterprises involved in distributing products to those markets. Objective is to develop an understanding of distribution processes, marketing problems, and marketing principles. PREREQS: (ECON 201 [C-] or ECON 201H [C-] or AREC 250 [C-] ) and junior standing. Honors College approval required.
BA 403. THESIS (1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required.

BA 405. READING AND CONFERENCE (1-16).
Supervised individual work in some field of special application and interest. Subjects chosen must be approved by professor in charge. This course is repeatable for a maximum of 16 credits. PREREQS: Senior standing and departmental approval required.

BA 406. PROJECTS (1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required.

BA 407. SEMINAR (1-16). This course is repeatable for a maximum of 16 credits.

BA 407H. SEMINAR (1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Honors College approval required.
BA 410. BUSINESS INTERNSHIP (1-12).
Planned and supervised work experience at selected cooperating business firms.
Supplementary training, conference, reports, and appraisals. Graded P/N. This course is repeatable for a maximum of 16 credits. PREREQS: Upperdivision standing and departmental approval required.
BA 432. ENVIRONMENTAL LAW,
SUSTAINABILITY, AND BUSINESS (4). Explores
fundamental business, legal, and policy issues raised by environmental law, sustainable business practices, and clean energy policies, and their impact on business and management practices. PREREQS: Junior standing.
BA 447. TOPICS IN INTERNATIONAL
BUSINESS (1-4). Analysis of current topics in international business. Topics will vary from term to term. PREREQS: BA 347 [C-]

## BA 451. SUPPLY AND SOURCING

MANAGEMENT (4). Prepares students to effectively use operations and supply chain concepts and methods to make appropriate sourcing and supply decisions in international business contexts. Provides an overview of the global supply function and explores the steps of the supply management cycle. Topics include purchasing/procurement procedures and policy, supply organization, specifications and statement of work development, sourcing strategy, supplier evaluation, global sourcing, competitive bidding, price/cost analysis, e-procurement, and ethical, environmentally and socially responsible supply management. PREREQS: BA 357 [C-]

## BA 454. LEAN ENTERPRISE MANAGEMENT

AND CAPSTONE (4). BA 454 is the capstone
class for students in the Supply Chain and Logistics Management option. PREREQS: BA 459 [C-] and BA 478 [C-]
BA 458. INNOVATION AND NEW PRODUCT
DEVELOPMENT (4). Strategic management of an organization's system and technologies in support of innovation and new product/service development. Application experience with new product/service development process using problem solving skills, information management, and critical thinking. PREREQS: (BA 390 [C-] or BA 390H [C-] )
BA 459. MANUFACTURING AND SERVICE OPERATIONS (4). Focuses on the management of global service operations including designing and managing systems to coordinate global information and material flows within and between firms and functions in a supply chain. Covers planning operations, evaluating system alternatives, designing and researching global supply networks, examining complex adaptive systems and evaluating value stream synchronization. PREREQS: BA 451 [C-]
BA 460. VENTURE MANAGEMENT (4).
Entrepreneurial and innovation processes applied to new business start-ups, existing small businesses, and new ventures within larger organizations; new venture planning, project management, and productivity improvement. Cases and projects are used to apply concepts and to develop communication skills. PREREQS: ((BA 260 [C-] or BA 260H [C-] ) and (BA 351 [C-] or BA 352 [C-] or BA 352H [C-] ) and (BA 390 [C-] or BA 390 H [C-] )) and senior standing.
BA 463. FAMILY BUSINESS MANAGEMENT (4). Focuses on the opportunities and the problems characteristic of family businesses: entrepreneurship, management succession, transfer of ownership, mixing family and business roles, family conflicts, personnel issues, non-family employees, and outside advisors. PREREQS: Senior standing and instructor approval.
BA 464. NEW VENTURE FINANCING (4).
Explore financial issues facing entrepreneurial
business ventures: cash flow and budgets, financial analysis, financial statement forecasting, financial controls, asset management, and understanding the funding options at different points in the business life cycle including SBA loans, angel investment, venture capital, bank loans, and going public. PREREQS: ((BA 260 [C-] or BA 260 H [C-] ) and (BA 340 [C-] or FIN 340 [C-] or BA 340 H [C-] or FIN 340 H [C-] or BA 360 [C-] ))
BA 465. *SYSTEMS THINKING AND PRACTICE
(4). Hard and soft system theories examined, methods and techniques for dealing with realworld problems; skills and dialogue techniques to identify mindsets, define problems, and explore alternative pathways for solutions. (Bacc Core Course)
BA 465H. *SYSTEMS THINKING AND
PRACTICE (4). Hard and soft systems theories are examined, including methods and techniques for dealing with real-world problems; skills and dialogue techniques to identify mindsets, define problems, and explore alternative pathways for solutions. PREREQS: Honors College approval required.

## BA 466. INTEGRATIVE STRATEGIC

EXPERIENCE (4). Provides students with an overview of the basic concepts in strategic management. Students learn frameworks and models to understand and analyze a firm,s external environment and internal resources in an effort to create sustainable competitive advantages. Analysis and critique of conventional conceptions of business ethics. Evaluation of ethical issues involving businesses at firm, national, and international levels. PREREQS: ((BA 340 [C-] or BA 340 H [C-] or FIN 340 [C-] or FIN 340 H [C-] or BA 360 [C-] ) and (BA 352 [C-] or BA 352 H [C-] ) and BA 357 [C-] and (BA 390 [C-] or BA 390 H [C-] )) and senior standing.
BA 467. NEW VENTURE LABORATORY (4). Entrepreneurship capstone course. Fully develop a business plan including product specs with prototype, financial analysis, market analysis, marketing plan, management structure and proposed financing. PREREQS: (BA 357 [C-] and BA 458 [C-] )
BA 468. TECHNOLOGY COMMERCIALIZATION (4). "Hands on" class in which students will exercise commercialization concepts on recently awarded Oregon State University patents. Students will learn a process and tools to assess the business viability of a technical idea, and to develop the best business approach for commercialization. PREREQS: BA 363 [C-] and / or instructor permission.

## BA 478. SUPPLY CHAIN ANALYTICS (4).

 Explores modeling methods for design, analysis, execution and integration of supply chains. Introduces students to a variety of modeling and optimization techniques for the analysis of strategic, tactical and operational supply chain problems, including demand forecasting, risk analysis, revenue management, distribution and facility location. PREREQS: BA 357 [C-] and BA 375 [C-]BA 479. BUSINESS TELECOMMUNICATIONS
AND NETWORKING (4). Provide a fundamental understanding of the five-layer Internet model and its effects on the business environment. Planning and managing networks in support of enterprisewide computing. Assignments involve server hardware and software configurations including DNS/DHCP server configurations, addition of clients to a network, and creating/managing user accounts. PREREQS: ACTG 378 [C-] and /or instructor approval.
BA 480. INFORMATION SYSTEMS SECURITY (4). Course emphasis is on security risk mitigation methods and procedures such as access control, identity management, intrusion prevention and detection, network and physical security, etc. These and other topics will be placed in both the operational and strategic context of the business. The course also addresses several IS governance
and IS security frameworks within which the various security concepts, aspects, policies and procedures can be viewed and discussed. PREREQS: BA 272 [C-] and ACTG 378 [C-] and BA 479 [C-]
BA 482. SMALL-BUSINESS MANAGEMENT (4). Covers the management and building of smallto mid-sized businesses that are past the initial start-up phase. Topics such as promotion and marketing, human resource management, operations and quality control, budgeting, and risk management will be discussed in a small-business context. PREREQS: BA 260 (undergraduate); none for graduate course. Junior standing.

BA 483. BUSINESS ANALYTICS (4). Presents how organizations can successfully "collect, evaluate and apply information" for better decision making. Technologies such as transaction processing systems, RFID, weblogs, social networks, website usage, and online communities have the potential to reveal market trends, suppliers, preferences, and competitors, next moves. The success of an organization largely depends on its ability to take advantage of those data sets that are already available to it. PREREQS: BA 371 [C-] and BA 479 [C-] and senior standing.

## BA 486. CUSTOMER RELATIONSHIP

MANAGEMENT (CRM) (4). An integration of people, process and technology. Students will learn how individuals and companies can gain the return on investment that they expect through technology implementation, service and business process mapping, employee training, customer relationship, customer life time value, technology solutions that track customer data and employee performance. PREREQS: (BA 390 [C-] or BA 390H [C-] ) and senior standing.

## BA 487. HOSPITALITY FINANCIAL

MANAGEMENT (4). Introduces students to the evaluation of investments in competitive products and services as sustainable strategies for the hospitality industry. PREREQS: (BA 360 [C-] and BA 486 [C-] ) and senior standing.

## BA 488. ADVANCED HOSPITALITY

MANAGEMENT (4). Designed to provide students with an in-depth understanding of the importance of core competencies in the hospitality industry in terms of overall value addition, competitive methods, and competitive advantage, taking into consideration both present and future effects. PREREQS: BA 352 [C-]
BA 501. RESEARCH (1-16). This course is repeatable for a maximum of 16 credits.
BA 503. THESIS (1-16). This course is repeatable for a maximum of 999 credits.
BA 505. READING AND CONFERENCE (1-16).
This course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required.

BA 506. PROJECTS (1-16). This course
is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required.

BA 507. SEMINAR (1-16). This course is repeatable for a maximum of 16 credits.

BA 510. BUSINESS INTERNSHIP (1-6). Planned and supervised work experience at selected cooperating business firms. Supplementary training, conferences, reports, and appraisals. This course is repeatable for a maximum of 16 credits. PREREQS: Graduate standing, departmental approval required.

## BA 512. BUSINESS ANALYSIS AND

COMMUNICATION (6). Students will be guided through a process of determining business issues or challenges given specific situations, providing reasons/justifications why these are important, proposing solutions to the identified business problems, and communicating this analysis through in-class discussions and writing. PREREQS: ALS 162 [B] or instructor approval.

BA 513. BUSINESS LEGAL ENVIRONMENT (3). Provides the essential legal foundation for business managers in companies operating in the U.S. Effective strategies for managers to prevent and resolve legal disputes will be stressed. Topics include legal issues related to corporate forms, creating and enforcing contracts, reducing exposure to tort liability and the role of employees as agents of a business.
BA 514. OPERATIONS MANAGEMENT (3).
Provides a foundation for business managers in statistics and operations management. Emphasis on quantitative tools for sampling, interval estimation and hypothesis testing as well as operations management concepts for processes, quality systems, supply chain management, inventory management, resource planning, and sustainable lean systems. PREREQS: College algebra (including probabilities).

BA 515. MANAGERIAL DECISION TOOLS (3). Develop business management skills by learning the principles of managerial and financial accounting. Emphasis will be placed on understanding financial statements, cost analysis, and funding decisions. Focuses on integrating the theoretical framework of accounting and finance with the "hands on" technical skills needed to evaluate financial decisions within an organization PREREQS: College algebra.
BA 516. CREATING VALUE IN EXCHANGE (3).
A graduate-level survey course that provides a foundation for business managers in the concepts of marketing. The student will develop an understanding of marketing principles and an awareness of marketing challenges. PREREQS: Microeconomics
BA 517. MARKETS AND VALUATION (3).
Introduces students to the basic questions facing a financial manager and the tools a financial manager uses to find answers to these questions. Introduces the basic tools of finance and applications of financial theory in use today. Students will be introduced to legal, ethical, technology, and global issues facing a financial manager. The course is designed to enhance a student's approach to financial decision making and emphasizes technical analysis and quantitative approaches to decision making.

BA 528. FINANCIAL AND COST ANALYSIS (3).
Analysis of the balance sheet and income statement to determine profitability, risk, and rate of return; preparation of pro forma financial statements; cost measurement for products, projects, jobs, customers, and markets; strategic cost decision making for pricing and resource allocation. PREREQS: BA 213 with C- or higher and graduate standing.
BA 531. BUSINESS LAW - TECHNOLOGY/ NEW VENTURES (3). An integrative course on managing legal and ethical issues for new ventures. Focuses on business law for founders of start-up companies including formation of new business entities, protecting intellectual property, workforce management and global issues. Topics presented from an entrepreneurial perspective and include technology law, e-commerce law and government regulation. Students develop skills to identify and resolve legal and ethical issues, deal with administrative agencies, and proactively manage legal liability. Considerations of ethics and corporate responsibility are emphasized. PREREQS: BA 230 and BA 233 and BA 513 or equivalent with a minimum grade of C - or better, graduate standing.

## BA 532. ENVIRONMENTAL LAW,

SUSTAINABILITY, AND BUSINESS (4). Explores fundamental business, legal, and policy issues raised by environmental law, sustainable business practices, and clean energy policies, and their impact on business and management practices. PREREQS: Graduate standing.
BA 533. BUSINESS LAW FOR MANAGERS (3). Develops knowledge and skills about business law used by managers in global organizations. Topics
covered include establishing lawful and ethical business practices; preventing and responding to compliance failures, infringement and other legal threats; effective use of contracts; and resolving disputes through litigation and alternative dispute resolution. PREREQS: BA 230 and BA 233 and BA 513 and PHAR 707 and PHAR 708 or equivalent.

BA 540. CORPORATE FINANCE (3). Emphasizes analytical tools to measure and manage firm value, through corporate strategies such as mergers and acquisitions, leveraged buyouts, international expansion, and new venture development. PREREQS: (BA 340 or FIN 340 or FIN 340 H ) with a minimum grade of C - or better and graduate standing.
BA 543. FINANCIAL MARKETS AND INSTITUTIONS (3). Investigates the five major financial markets: common stock, bond, derivatives, mortgage, and currency. The course examines the agents in each of these markets, the rules of trading, and the rationale of the agents participating in the different markets. PREREQS: (BA 340 or FIN 340 or FIN 340H) with a minimum grade of C - or better and graduate standing.

## BA 550. ORGANIZATION LEADERSHIP

AND MANAGEMENT (3). Organization-wide implementation issues driven by change. Provides a balanced view of the structural and human sides of organization design. PREREQS: BA 352 a minimum grade of C - or better and graduate standing.

BA 551. SUPPLY AND SOURCING
MANAGEMENT (3). Focus on effectively using operations and supply chain management to make sourcing and supply decisions in international business contexts. Topics include purchasing/procurement procedures and policy, supply organization, specifications, sourcing strategy, supplier evaluation, competitive bidding, and e-procurement. Global contexts and environmentally and socially responsible supply management are emphasized

## BA 552. MANUFACTURING AND SERVICE

OPERATIONS (3). Focus on the management of global service operations including designing and managing systems to coordinate global information and material flows within and between firms in a supply chain. Covers planning operations, evaluating system alternatives designing and researching global supply networks, examining complex adaptive systems and evaluating value stream synchronization. PREREQS: BA 551 [B-] and BA 555 [B-]

## BA 554. LEAN ENTERPRISE MANAGEMENT

 AND CAPSTONE (3). Analyze business cases that address global value creation and production/ delivery systems. Complete integrated business projects to identify critical operations and supply chain management issues, apply multidisciplinary knowledge, analyze and evaluate alternative solutions and write and present reports recommending firm strategies. International business and cross-cultural competencies are emphasized. PREREQS: BA 552 [B-] and BA 561 [B-]BA 555. PRACTICAL BUSINESS ANALYSIS
(3). Advanced survey of quantitative business methods useful for aiding management decisions. Topics include a review of basic statistics, mathematical programming, business simulation, statistical process control, advanced regression analysis and forecasting. PREREQS: BA 275 with a minimum grade of C - or better graduate standing.

## BA 557. GLOBAL LOGISTICS MANAGEMENT

FUNDAMENTALS AND STRATEGY (3).
Students will learn key concepts, basic strategies, and decision-making tools relevant to logistics management, and apply them to real-world logistics problems faced by companies in the context of managing their global supply chains. PREREQS: BA 551 [B] and BA 552 [B] and BA 561 [B] and graduate standing

BA 560. VENTURE PLANNING (3).
Entrepreneurial and innovation processes applied to new business start-ups, existing small businesses, and new ventures within larger organizations; emphasis on venture planning with project management. Lec/rec. PREREQS: ((BA 340 or BA 340 H or FIN 340 or FIN 340 H ) and (BA 390 or BA 390 H )) with a minimum grade of $\mathrm{C}-$ or better and graduate standing. Restricted to MBA students who are completing the Integrated Business Project (IBP).
BA 561. SUPPLY CHAIN MANAGEMENT (3).
Covers tools and concepts needed to manage the entire supply chain effectively. Topics include negotiation, purchasing, logistics operations, and applying e-business tools. Emphasis on creating integrated supply chains. PREREQS: (BA 357 and BA 555) with a minimum grade of C - or better.

BA 562. MANAGING PROJECTS (3). Covers tools and concepts used by managers to plan and initiate business projects. Computer applications, cases and a project. PREREQS: (BA 352 and BA 357) with a minimum grade of C - or better and graduate standing.
BA 563. FAMILY BUSINESS MANAGEMENT
(4). Focuses on the opportunities and the problems characteristic of family businesses: entrepreneurship, management succession, transfer of ownership, mixing family and business roles, family conflicts, personnel issues, non-family employees, and outside advisors. PREREQS: Graduate standing and instructor approval.

BA 565. SYSTEMS THINKING AND PRACTICE (4). Hard and soft system theories examined, methods and techniques for dealing with realworld problems; skills and dialogue techniques to identify mindsets, define problems, and explore alternative pathways for solutions. PREREQS: Graduate standing.

BA 566. CLEAN TECHNOLOGY
COMMERCIALIZATION (3). Students will exercise commercialization concepts on recently awarded clean technology patents. Students will learn process and tools to assess the business viability of a technical idea, and to develop the best business approach for commercialization. Lec/rec. PREREQS: Graduate standing.
BA 567. SELECTED TOPICS IN MANAGEMENT
(0-4). Examination of the impact of recent advances in management on contemporary business. Topic will vary from term to term. Lec/ rec. This course is repeatable for a maximum of 16 credits. PREREQS: Graduate standing.

## BA 568. INTEGRATED BUSINESS PROJECT

(3). The project requires students to complete a business plan, as a means of directing the development of a business. A business plan can help focus a business idea, chart a course for strategic business development, and facilitate setting objectives and creating evaluative benchmarks of progress. To be taken during the last year of the MBA program.

## BA 569. ADVANCED STRATEGIC

MANAGEMENT (3). Advanced integrative casebased course on the process of systematically developing and managing firm strategies. Topics are covered from a general management perspective and include setting corporate goals and objectives, analyzing external competitive environments, understanding business models, identifying strategy options, and designing appropriate organization systems and structure for implementation of plans. International and e-business issues are integrated throughout. PREREQS: Graduate standing. All foundation courses.

BA 570. INNOVATION STRATEGY, IP, AND NPD (3). Enables students who are aspiring entrepreneurs forming new ventures or corporate managers leading existing businesses to understand the fundamental drivers of the success or failure of new products, from the perspective of the strategic management of
technological innovation. PREREQS: BA 560 [B-] and acceptance into the OSU MBA Program or approval by the Director of MBA Operations

## BA 572. ADVANCED INFORMATION SYSTEMS

(3). The development, implementation and management of information technology applications will be addressed. Topics will address the development and application of technology to support linkages within the organization and outside the organization. Projects will be assigned to illustrate the topics. PREREQS: Graduate standing.
BA 573. DATA ANALYTICS FOR COMPETITIVE
ADVANTAGE (3). Case studies, hands-on data analysis experience, and a class project will introduce basic concepts of data analytics, sketch the lifecycle of a data analytics project, and connect analytics to business consequences. Students will use representative analytic tools to support decision making.

BA 574. DATA MANAGEMENT (3). Familiarize students with the major activities involved in collecting and managing data for a data analytics project, including extracting information from relational databases, mapping organizational requirements into a data design, transforming data into information, exploring data warehouse concepts, and exploring basic concepts underlying Hadoop and other noSQL data management and analysis methods. PREREQS: BA 573 [C]

## BA 575. DATA EXPLORATION AND

VISUALIZATION (3). In this course we concentrate on the initial, exploratory phases of business analytic data analysis. We explore different types of data and the types of analysis they allow; aggregating and disaggregating data and issues of validity with both selecting and collecting data. We also start exploring one or more datasets relating to our Integrated Business Analytics Project (BA 577). PREREQS: BA 573 [C]
BA 576. DATA AND TEXT MINING (3). Examine how data/text analysis technologies can be used to improve decision making. The class covers the fundamental principles and techniques of data mining, text analysis, and uses real-world examples and cases to place data-mining techniques in context. Students will have handson experience with data/text mining software. PREREQS: BA 574 [C] and BA 575 [C]

BA 577. INTEGRATED BUSINESS ANALYTICS
PROJECT (3). Students will integrate what they have learned to solve industry-sponsored problems. The goal of the class is to provide students with opportunities to design, implement, and evaluate analytic solutions for a real-world enterprise. Student teams will examine the data requirements, technical requirements, and organizational requirements necessary for the success of analytical solutions. The project will give students the experience of leading and managing an analytical team, much as a Chief Analytics Officer (CAO) would be expected to do. PREREQS: BA 555 [C] and BA 574 [C] and BA 575 [C]
BA 578. SUPPLY CHAIN ANALYTICS (3).
Explores modeling methods for design, analysis, execution and integration of supply chains. Introduces students to a variety of modeling and optimization techniques for the analysis of strategic, tactical and operational supply chain problems including demand forecasting, risk analysis, revenue management, distribution and facility location. PREREQS: BA 555 [B-]

BA 582. SMALL-BUSINESS MANAGEMENT
(4). Covers the management and building of small- to mid-sized businesses that are past the initial start-up phase. Topics such as promotion and marketing, human resource management, operations and quality control, budgeting, and risk management will be discussed in a small-business context. PREREQS: BA 260 (undergraduate); none for graduate course. Junior standing.

BA 590. MARKETING MANAGEMENT (3). Provides students with an understanding of how a market-orientation can help firms to profitably deliver value to their targeted customers. Through a combination of lectures, in-class exercises, and case discussions, students will learn how to analyze complex marketing challenges, and make strategic decisions based on established marketing management principles. PREREQS: BA 390 with a minimum grade of C - or better and graduate standing.
BA 601. RESEARCH AND SCHOLARSHIP (1-16). Graded P/N. This course is repeatable for a maximum of 32 credits.

BA 602. INDEPENDENT STUDY (1-16). This course is repeatable for a maximum of 32 credits.

BA 603. THESIS/DISSERTATION (1-16). Graded $\mathrm{P} / \mathrm{N}$. This course is repeatable for a maximum of 999 credits.
BA 605. READING AND CONFERENCE (1-16). This course is repeatable for a maximum of 32 credits.
BA 607. SEMINAR (1-16). This course is repeatable for a maximum of 32 credits.

## BA 611. TEACHING EFFECTIVENESS (1-6).

Provides an overview of a broad range of effective teaching techniques and common issues associated with teaching at the college level (e.g., defining learning outcomes, common pitfalls, assessing of student learning, etc.). This course is repeatable for a maximum of 6 credits. PREREQS: Doctoral student status.

BA 612. FOUNDATIONS OF BUSINESS
RESEARCH (3). Introduces first-year business doctoral students to concepts fundamental to conducting research in business as a social science. Specific topics may change from quarter to quarter, but sample topics include the academic environment in business, research paradigms, ethics in research, fundamentals of scientific research, constructs, validity, sampling, and analysis and interpretation. PREREQS: Doctoral student status and departmental approval.

## BA 613. SEMINAR IN BUSINESS RESEARCH

METHODS (3). Provides first-year business PhD students with an in-depth introduction to the most common research methodologies used by current business faculty across multiple functional disciplines. Specific research methods covered may change from quarter to quarter, but sample topics include use of basic econometric models for analysis of archival data, experimental methodologies, qualitative research techniques, and survey research. PREREQS: Doctoral student status and departmental approval
BA 660. FOUNDATIONS OF
ENTREPRENEURSHIP RESEARCH (3).
Provides a broad overview of the foundations of entrepreneurship research, including theoretical underpinnings of the field as well as some of the common and/or promising approaches to the study of entrepreneurial phenomena. PREREQS: Doctoral student status and departmental approval.

## BA 661. DOCTORAL SEMINAR IN

ORGANIZATIONAL THEORY (3). Surveys research on classic and contemporary developments in basic organizational theory PREREQS: Doctoral student status and departmental approval.

BA 662. CORPORATE ENTREPRENEURSHIP AND NEW VENTURES (3). Surveys research in the area of corporate entrepreneurship and venturing, focusing on relevant theoretical underpinnings and core concepts in the corporate entrepreneurship, entrepreneurship, and strategy literatures. PREREQS: Doctoral student status and departmental approval.
BA 663. STRATEGIC MANAGEMENT (3).
Surveys research exploring the central question in strategy: Why do some firms outperform others? The course considers a wide variety of
foundational and contemporary issues in the field, and while specific topics may change from quarter to quarter, sample topics include competitive and cooperative interactions, the resource-based view and firm capabilities, organizational learning and adaptation, and industry evolution. PREREQS: Doctoral student status and departmental approval.

## BA 664.TECHNOLOGY AND INNOVATION

 MANAGEMENT (3). Surveys research on the management of innovation and technology in organizations, focusing on innovation as an outcome (product, service, technology, practice) and on the process of generation, adoption, and implementation of innovation in organizations. PREREQS: Doctoral student status and departmental approval.BA 808. WORKSHOPS (0-16). Workshops aimed at practicing professionals in the discipline. Topics may vary.

## I FINANCE COURSES

FIN 340. FINANCE (4). Role and functions of a financial manager in the modern business environment in which a manager operates; formulation of financial objectives and policies; financial analysis, forecasting, planning, and control; asset management; capital budgeting; acquisition of funds through borrowing, stock issue, and by internal means; dividend policy; and international aspects of finance. PREREQS: ((BA 213 [C-] or BA 215 [C-] or BA 215H [C-] ) and (ECON 201 [C-] or ECON 201H [C-] )) and junior standing.
FIN 340H. FINANCE (4). Role and functions of a financial manager in the modern business environment in which a manager operates; formulation of financial objectives and policies; financial analysis, forecasting, planning, and control; asset management; capital budgeting; acquisition of funds through borrowing, stock issue, and by internal means; dividend policy; and international aspects of finance. PREREQS: ((BA 213 [C-] or BA 215 [C-] or BA 215H [C-] ) and (ECON 201 [C-] or ECON 201H [C-] )) and junior standing. Honors College approval required.
FIN 341. INVESTMENTS (4). Risk and reward characteristics of investments; sources of investment information; domestic and internationa security markets; investment characteristics of common stocks, debt securities, convertible securities, option contracts, and investment companies; real property investment; economic market analysis; technical market analysis; tax aspects of investments; and investment management. PREREQS: (FIN 340 [C-] or FIN 340 H [C-] or BA 340 [C-] or BA 340 H [C-] or BA 360 [C-] )
FIN 342. ADVANCED FINANCIAL
MANAGEMENT (4). Capital market theory and the valuation of risky assets, capital budgeting, valuing the firm's securities, capital structure theory, long-term financing alternatives, cost of capital, dividend policy, working capital management, financial analysis and planning, mergers, and takeovers. PREREQS: (FIN 340 [C-] or FIN 340 H [C-] or BA 340 [C-] or BA 340 H [C-] or BA 360 [C-] )
FIN 434. CFA PREPARATION (2-4). Provides students with structure and guidance in their preparation for the Chartered Financial Analyst (CFA) Level exam. Students systematically prepare for and are tested on the 18 sections of the exam. This course is repeatable for a maximum of 4 credits.
FIN 437. APPLIED PORTFOLIO MANAGEMENT (2). Hands-on experience of managing two investment portfolios. Each member in the Oregon State Investment Group (OSIG) should act as a financial analyst to analyze a chosen company by performing the Discounted Cash Flow (DCF) or Residual Income Model (RIM), the relative valuation, and the SWOT analyses. The weekly
seminar offers opportunities for students to present their analyses and offer comments and suggestions to other,s presentations. PREREQS: Junior standing, instructor approval required.
FIN 438. APPLIED PORTFOLIO MANAGEMENT II (1). Each student will act as a financial analyst to analyze a chosen company using models learned in FIN 437. Provides students with an opportunity to practice security valuation and get familiar with the tools. In addition, this course will focus on various measures of portfolio performance. PREREQS: FIN 437 [C-] or BA 437 [C-] and junior standing and instructor approval required.
FIN 439. APPLIED PORTFOLIO MANAGEMENT
III (1). Each student will act as a financial analyst to analyze a chosen company using models learned from FIN 437. Provides students additional opportunity to practice security valuation and strengthen their understanding of the tools. In addition, this course will introduce ways to develop an efficient portfolio. PREREQS: FIN 437 [C-] or BA 437 [C-] and junior standing and instructor approval required.
FIN 440. FIXED INCOME SECURITIES (4). Provides students with intermediate knowledge of fixed income assets, interest rate and interest rate theory, the tools for estimating values, and managing portfolios of fixed income assets. The course can also serve as a partial coverage of material expected of applicants planning on seeking the Certified Financial Analyst designation. PREREQS: FIN 341 [C-] and FIN 342 [C-]
FIN 441. FINANCIAL INSTITUTIONS (4).
Introduction of markets and institutions that form the economic system of trading financial and real assets both domestically and internationally. The introduction of concepts of financial theory, institutional detail, regulatory environments, and the history of financial markets. Topics include legal, ethical, technological, and global issues facing financial managers, markets, and institutions. PREREQS: (BA 341 [C-] or FIN 341 [C-] or AREC 465 [C-] or AEC 465 [C-]) and (BA 342 [C-] or FIN 342 [C-] or AREC 442 [C-] or AEC 442 [C-] ) and senior standing.
FIN 442. FINANCIAL STATEMENT ANALYSIS
(4). Student develop the understanding and skill to use financial statements for investment decisions, credit decisions, performance analysis, and forecasting. Three main topic areas: analysis overview, accounting analysis, and financial analysis. PREREQS: (BA 341 [C-] or FIN 341 [C-] ) and (BA 342 [C-] or FIN 342 [C-] ) and ACTG 317 [C-] and /or instructor approval. Senior standing.
FIN 443. PORTFOLIO MANAGEMENT (4).
An introduction to the construction, revision, and performance evaluation of financial asset portfolios. PREREQS: FIN 341 [C-] or BA 341 [C-]
FIN 444. FINANCIAL RISK MANAGEMENT (4). Investigation of financial hedging activities for corporations and financial institutions using futures, options, and other derivative securities. Identification of risk attributes, valid hedging rationales, and management of hedging programs. PREREQS: (BA 341 [C-] or FIN 341 [C-]) and (BA 342 [C-] or FIN 342 [C-] ) and senior standing.

## FIN 445. INTERNATIONAL FINANCIAL

MANAGEMENT (4). International monetary environment; foreign exchange risk management; source and availability of funds to finance trade and multinational operations; taxation planning and control; international portfolio diversification; international banking; capital budgeting; political risk evaluation of performance. PREREQS: (FIN 342 [C-] or BA 342 [C-] ) and (BA 347 [C-] or ECON 340 [C-]) and (FIN 441 [C-] or FIN 444 [C-] or BA 441 [C-] or BA 444 [C-] )
FIN 499. SELECTED TOPICS IN FINANCE (1-4).
Examination of the impact of recent advances in finance on contemporary business. Topic will vary from term to term. This course is repeatable
or a maximum of 16 credits. PREREQS: Senior standing

FIN 542. INVESTMENTS (3). Introduction to the tools and concepts of security analysis and investments; basic security types, including stocks, bonds, options and futures, respective markets and to how these securities are traded; fundamental valuation techniques and theory for stocks and bonds. PREREQS: BA 360 or equivalent.
FIN 543. PORTFOLIO MANAGEMENT (4).
An introduction to the construction, revision, and performance evaluation of financial asset portfolios. PREREQS: FIN 542 [C]
FIN 544. FINANCIAL RISK MANAGEMENT
(4). Investigation of financial hedging activities for corporations and financial institutions using futures, options, and other derivative securities. Identification of risk attributes, valid hedging rationales, and management of hedging programs. PREREQS: FIN 542
FIN 545. INTERNATIONAL FINANCIAL
MANAGEMENT (3). The goal of this course is to teach students how to become an effective global financial manager. To achieve this goal, the course focuses on important topics that include the fundamentals of the macroeconomic environment of international financial management, the financial environment in which a multinational firm and its managers must function, and the foreign exchange management and financial management in a multinational firm. Students will be exposed to business-related global issues, processes, trends, and systems inside and outside the classroom. PREREQS: BA 540 [B-]

## FIN 546. ADVANCED CORPORATE FINANCE

(3). The second course in the Corporate Finance sequence. Examines corporate payout policies and capital structure choices, choices in debt financing, financial planning and working capital management, and valuation of projects using a real-options approach. PREREQS: BA 540 [B-] and acceptance into the OSU MBA Program or approval by the Director of MBA Operations
FIN 549. MERGERS AND ACQUISITIONS (3). Provides an in-depth examination of the theory and practice of the market for corporate control, primarily focusing on mergers and acquisitions (M\&A). The objective of the course is to provide an understanding of how to structure, value, and implement an M\&A transaction. Students will be expected to apply the appropriate tools and skills to evaluate M\&A transactions. PREREQS: FIN 546 [B-]

## FIN 550. FUNDAMENTALS OF FINANCIAL

PLANNING (4). Professional conduct and regulation, general financial planning principles, and education planning. PREREQS: Graduate standing.

FIN 551. FINANCIAL PLANNING I (6).
Fundaments of financial planning; regulations in the financial services industry; income and debt management techniques; risk management process in financial planning; insurance planning; income tax fundamentals; tax management strategies. PREREQS: BA 528 [C] and FIN 542 [C] and graduate standing.
FIN 552. FINANCIAL PLANNING II (3).
Retirement planning; qualified and non-qualified retirement plans; IRAs; legal, tax, financial and non-financial aspects of estate planning; trusts; wills; wealth transfers. PREREQS: FIN 551 [C]
FIN 553. FINANCIAL PLANNING III (6).
Synthesis and integration of financial planning fundamentals to develop a comprehensive financial plan; client communication. PREREQS: FIN 552 [C]
FIN 640. FOUNDATIONS OF FINANCIAL
RESEARCH (3). Provides an in-depth introduction to the foundations of financial research with an emphasis on theoretical developments and empirical research methods. Specific topics may
change from quarter to quarter, but sample topics include theory of the firm, capital structure theory, dividend policy, and event study methodology. PREREQS: Doctoral student status and departmental approval.
FIN 641. CORPORATE FINANCE SEMINAR (3). Survey classic and contemporary research in the area of corporate finance. Specific topics may change from quarter to quarter, but sample topics include capital structure, dividend policy, agency theory, adverse selection and signaling, and non-cooperative games with and without complete information. PREREQS: Doctoral student status and departmental approval.

FIN 642. CAPITAL MARKETS (3). Surveys research on capital markets. Specific topics may change from quarter to quarter, but sample topics include asset pricing models, efficient markets vs behavioral finance, market volatility, volume, new issues market, and emerging markets. PREREQS: Doctoral student status and departmental approval.

## ■ HOSPITALITY MANAGEMENT COURSES

HM 101. INTRODUCTION TO HOSPITALITY (4). Introduction to the food-service, lodging, and tourism components of the hospitality industry, and the essential leadership and management skills necessary for success in the field. Background information, current issues, and future challenges in various segments of the industry are included.
HM 210. HOSPITALITY INTERNSHIP (3).
Students are required to complete this internship so that OSU and the sponsoring company can offer a platform from where students can apply the management concepts learned in class and acquire the necessary hands-on experience in a hotel, restaurant/food service and/or tourism industry to eventually qualify for a supervisory of managerial level role. PREREQS: HM 101 [C-]
HM 230. LODGING MANAGEMENT (4). Provides a comprehensive introduction to the management of hotels and lodging properties. Focuses on operations, service, management and financials of the lodging industry. PREREQS: HM 101 [C-]

HM 235. HOSPITALITY LAW AND LABOR RELATIONS (4). Provides insight into the laws and regulations governing the hospitality industry with an emphasis on labor relations and human resources best practices. Addresses the general concepts of tort, contracts, liability, risk management, employment practices, licensing and insurance needs. Explores the legal issues that today,s hospitality professionals face such as privacy, labor laws, the common law system for innkeepers and newer hospitality products in the shared economy such as AirBnB or VRBO.

HM 240. HOSPITALITY COST CONTROL (4). introduces the basic techniques and control procedures used in the hospitality industry to maximize profit and minimize costs. Examines and discusses methods employed to protect and uphold the investors/owners strategic financial goals. Students will focus on all aspects of hospitality control objectives; from food and beverage costs, purchasing, labor costs, menu pricing, establishing room rates, cash flow, theft and loss prevention, to computer applications. The principles of effective budgeting, important hospitality financial ratios and the factors that determine hospitality profitability will also be reviewed.
HM 310. INTERNSHIP II (3). Hospitality Internship II builds on the knowledge students have gained from their course work internship (HM 210). Students are required to complete this internship in a hotel, restaurant/food service and/or related hospitality sector. In cooperation with OSU and the sponsoring company, students will apply the HM concepts learned in class to a real-world business environment.

HM 320. SERVICE AUTOMATION AND
TECHNOLOGY (4). Students discover the basic concepts of hospitality technology and service automation. The hospitality industry continues to see significant changes in all facets of business due to changing customer expectations, new and cheaper technology, and a challenging labor market. The result of these forces has led the hospitality industry to increasingly turn to automation of basic job tasks to stay competitive. Examines new technologies shaping the hospitality industry and how industry leaders are taking advantage of these new technologies to improve efficiency and service.
HM 340. HOSPITALITY COST CONTROL (4). Introduces the basic techniques and control procedures used in the hospitality industry to maximize profit and minimize costs. Examines and discusses methods employed to protect and uphold the investors/owners strategic financial goals. Students will focus on all aspects of hospitality control objectives; from food and beverage costs, purchasing, labor costs, menu pricing, establishing room rates, cash flow, theft and loss prevention, to computer applications. The principles of effective budgeting, important hospitality financial ratios and the factors that determine hospitality profitability will also be reviewed.

HM 410. HOSPITALITY INTERNSHIP III (3). Hospitality Internship III builds on the knowledge the students have gained from their course work and their previous internships (HM 210 \& HM 310). Students are required to complete this internship in a hotel, restaurant/food service and/ or related hospitality sector. In cooperation with OSU and the sponsoring company, students apply the HM concepts learned in class to a real-world environment. PREREQS: HM 310 [C-]

## HM 420. REVENUE MANAGEMENT AND

PRICING (4). Revenue management is critical to the hospitality industry due to the perishable nature of a service-based product. The fundamental principles and concepts of revenue management covered are capacity management, duration control, demand and revenue forecasting, discounting, overbooking practices, displacement analysis, channel management, and pricing execution

## HM 425. ADVANCED RESTAURANT

MANAGEMENT AND OWNERSHIP (4). Covers
concept development, design and funding of a new restaurant, and best practices in operations and management of a full-service foodservice operation. Intended for students wishing to develop their knowledge of foodservice entrepreneurialism, creation, operations and management/ownership.
HM 460. HOSPITALITY INVESTMENT AND ASSET MANAGEMENT (4). Covers the principles of hospitality investment and asset management. Provides future hospitality owners/executives with the tools and knowledge to evaluate real estate investments in new hospitality ventures. Tools for financial analysis and assessment, debt and equity financing (public and private), and the use of industry benchmarks are discussed and practiced. Students explore the financial feasibility of a specific hospitality investment while considering financial risk, new income streams, competitor analysis and market forecasting, investment and asset management.

## MANAGEMENT COURSES

MGMT 364. PROJECT MANAGEMENT (4). Covers the tools available to project managers, the human and organizational dimensions in different project environments, some computer applications, cases, and a project. PREREQS: BA 351 [C-] or BA 352 [C-] or BA 352H [C-]
MGMT 446. CROSS-CULTURAL MANAGEMENT
(4). Provides a comprehensive understanding of cross-cultural management issues including leading culturally diverse workforces and
managing diversity in the workplace. Students will not only learn theoretical foundations and best practices to address regarding global work practices, but also learn how to transfer and apply the course materials in this course to their PREREQS: BA 352 [C-] or BA 352H [C-]
MGMT 448. EMPLOYEE RECRUITMENT AND SELECTION (4). Provides an in-depth coverage of best practices pertaining to the process of attracting, selecting, and hiring new employees in modern organizations. Topics that will be emphasized include recruitment tactics, legal issues related to staffing, the criteria organizations use to make hiring decisions, and the strengths and weaknesses of various techniques used to evaluate prospective applicants throughout the selection process. The implications of what we discuss for the organization, the hiring manager, and the job-seeker are considered. PREREQS: BA 352 [C-]
MGMT 452. LEADERSHIP (4). In-depth study of leadership research, theory and skills. Emphasis on analysis of organizational leadership situations and application of leadership skills in the workplace. PREREQS: BA 351 [C-] or BA 352 [C-] or BA 352H [C-

## MGMT 453. HUMAN RESOURCES

MANAGEMENT (4). Personnel administration for line supervisors and managers. Integrates systems approach to understanding government regulation of employment, resolution of workplace personnel problems, and performance-based personnel management. PREREQS: BA 351 [C-] or BA 352 [C-] or BA 352H [C-]
MGMT 455. INFLUENCE AND NEGOTIATION
(4). Focuses on analysis, skill development and application of management research to real-life organizational influence, persuasion, negotiation and conflict management situations. PREREQS: BA 352 [C-] or BA 352H [C-]
MGMT 456. MANAGEMENT FIELD PRACTICUM (4). An innovative application of key management principles and tools to real-life projects is provided Students will be responsible for developing, designing, executing, and evaluating projects. PREREQS: MGMT 364 [C-] or BA 364 [C-] and senior standing.
MGMT 457. SUPPLY CHAIN STRATEGY (4). Covers tools and concepts needed to manage the supply chain effectively. Topics include negotiation, purchasing, logistics operations, and applying e-business tools. Emphasis on creating integrated supply chains. PREREQS: BA 357 [C-]

## MGMT 459. MANAGING ETHICS AND

 CORPORATE SOCIAL RESPONSIBILITY (4). Introduces students to contemporary issues managers face making ethical and sociallyresponsible decisions in an increasingly competitive, transparent, and global environment. Practical examples and cases, as well as contemporary behavioral ethics research and theory are incorporated throughout the course. PREREQS: (BA 352 [C-] or BA 352H [C-] ) and senior standing and a minimum passing grade of C- or better.MGMT 499. SELECTED TOPICS IN
MANAGEMENT (1-4). Examination of the impact of recent advances in management on contemporary business. Topic will vary from term to term. This course is repeatable for a maximum of 16 credits. PREREQS: Senior standing and departmental approval.

## MGMT 553. HUMAN RESOURCES

MANAGEMENT (4). Personnel administration for line supervisors and managers. Integrates systems approach to understanding government regulation of employment, resolution of workplace personnel problems, and performance-based personnel management. PREREQS: (BA 350 or BA 352 or BA 352 H ) with a minimum grade of C or better and graduate standing.

MGMT 555. INFLUENCE AND NEGOTIATION
(4). Focuses on analysis, skill development and application of management research to real life organizational influence, persuasion, negotiation and conflict management situations. PREREQS: BA 516 [C]
MGMT 559. MANAGING ETHICS AND CORPORATE SOCIAL RESPONSIBILITY (3). Introduces students to contemporary issues managers face making ethical and sociallyresponsible decisions in an increasingly competitive, transparent, and global environment. Practical examples and cases, as well as contemporary behavioral ethics research and theory are incorporated throughout the course.
MGMT 571. ETHICAL LEADERSHIP (3).
Students will learn the theoretical paradigms of ethical conduct and decision making and consider the role of business in society. PREREQS: BA 550 [C] and graduate standing.

MGMT 572. MANAGING HUMAN RESOURCES (3). Students will learn the theories of human resource management, the legal requirements for human resource practices and the practical skills to execute human resource management activities. PREREQS: BA 516 or equivalent with a minimum grade of C - or better and graduate standing.
MGMT 574. NEGOTIATIONS (3). Students will learn the theories of negotiation and the techniques to develop an effective negotiation style. PREREQS: BA 516 with a minimum grade of C- or better and graduate standing.
MGMT 575. INTEGRATIVE CAPSTONE I (3).
First course in a two-course sequence spanning the final two quarters of the OLMBA program. Students will conduct an extensive analysis of the students organization, the industry and external environment, the organizationss competitors, internal organization, and business level strategy. PREREQS: BA 562 [B] and Graduate standing and enrolled in the Organizational Leadership MBA Program. It is expected that students will complete MGMT 575 and MGMT 576 sequentially.

## MGMT 576. INTEGRATIVE CAPSTONE II (3).

Second course in a two-course sequence spanning the final two quarters of the OLMBA program. Students start from the final proposal in MGMT 575 and formulate an integrative project plan through the application of multidisciplinary knowledge. PREREQS: MGMT 575 [B] and with a B or better. Graduate standing and enrolled in Organizational Leadership MBA Program.

MGMT 650. ORGANIZATIONAL BEHAVIOR (3). Surveys research on individual differences, psychological states, and team processes related to work motivation, decision-making and performance. PREREQS: Doctoral student status and departmental approval.

## ■ MARKETING COURSES

MRKT 390. PRINCIPLES OF MARKETING (4).
Covers concepts and principles used by marketing professionals. Designed explicitly for Marketing majors, it's an introduction to the relationships between customers, products, and companies in a competitive and dynamically evolving marketplace. PREREQS: ECON 201 [C-] or ECON 201H [C-] and admission to Pro School Marketing major.

MRKT 396. FUNDAMENTALS OF MARKETING RESEARCH (4). Introduction to the fundamentals of market research. Provides a basic understanding of marketing research and relevant decisions in the process. PREREQS: ((BA 275 [C-] or BA 276 [C-] or ST 202 [C-] ) and (BA 390 [C-] or BA 390H [C-] ))

MRKT 486. CUSTOMER RELATIONSHIP MANAGEMENT (CRM) (4). An integration of people, process and technology. Students will learn how individuals and companies can gain the return on investment that they expect through technology implementation, service and business
process mapping, employee training, customer relationship, customer life time value, technology solutions that track customer data and employee performance. PREREQS: BA 396 [C-] or MRKT 396 [C-] and Senior standing.
MRKT 488. PERSONAL SELLING (4). An introductory course that focuses on two areas: the principles and theory of personal selling, and on understanding and developing the interpersonal communication skills needed for successful personal selling. PREREQS: BA 390 [C-] or BA 390H [C-]
MRKT 489. PERSONAL SELLING SKILLS
DEVELOPMENT (4). Learn and develop the skills necessary for persuasive encounters in personal selling settings, such as making sales calls, preparing and delivering presentations, writing documents (sales proposals, cover letters, and resumes) and structuring logical, persuasive, prioritized arguments. PREREQS: MRKT 488 [C-] or BA 491 [C-] and senior standing.

## MRKT 491. QUALITATIVE RESEARCH

METHODS (4). Students will gain an overall understanding of qualitative research and methods such as focus groups, in-depth interviews, and observational research. Explores qualitative research methods through hands-on learning and experiences. PREREQS: BA 390 [Cor BA 390H [C-] or MRKT 390 [C-]
MRKT 492. CONSUMER BEHAVIOR (4). Understanding the processes that lead to purchase, so as to improve decisions on segmentation and the appropriate marketing mix for each segment. How consumers and households make decisions, and why different individuals/groups make different decisions. Application of behavioral science concepts at individual, subcultural and cultural levels. Effects of consumerism and regulation also are considered. PREREQS: BA 390 [C-] or BA 390H [C-]
MRKT 493. ADVERTISING MANAGEMENT (4) Analysis of the influence of marketing communications on the attitudes and behaviors of consumer and industrial buyers. Identification and examination of the major decisions made by marketing/advertising managers in implementing the promotional mix. PREREQS: BA 390 [C-] or BA 390H [C-]
MRKT 495. RETAIL MANAGEMENT (4).
Management of retail business with emphasis on strategic planning, analysis, and control, focused on middle- and upper-middle management decisions. PREREQS: BA 390 [C-] or BA 390H [C-]

## MRKT 496. MARKETING RESEARCH

PRACTICUM (4). Provides the student with practical experience in the collection, analysis and interpretation of primary data. PREREQS: MRKT 396 [C] or BA 396 [C] and departmental approval. Marketing majors or instructor approval required.
MRKT 497. GLOBAL MARKETING (4).
Consideration of cultural, political, regulatory, economic and trade barriers in the design of marketing plans for product development, pricing, channels of distribution; and promotion alternatives in a global market. PREREQS: (BA 347 [C-] and (BA 390 [C-] or BA 390H [C-] ))
MRKT 498. SERVICES MARKETING (4).
Formulation of strategic and tactical marketing plans for organizations (both profit and not-for-profit) in the service sector of the economy. Projects or cases are used to provide a comprehensive experience. PREREQS: BA 390 [C-] or BA 390 H [C-] or BA 590 [C-]
MRKT 499. MARKETING STRATEGY (4). Market and competitive analysis for developing overall strategies and tactics to achieve the marketing objectives of the business enterprise. Projects or cases are used to provide a comprehensive experience. PREREQS: MRKT 396 [C] or BA 396 [C]

## MRKT 581. APPLIED QUANTITATIVE

MARKETING ANALYSIS (4). Includes a comprehensive presentation of quantitative methods used in marketing management. It is designed to prepare students to use quantitative techniques in making marketing decisions. Topics include ANOVA, regression, discriminant and logit analysis, factor analysis, cluster analysis, and structural equation modeling. PREREQS: BA 596 [C] or MRKT 596 [C]

## MRKT 582. APPLIED QUALITATIVE

MARKETING ANALYSIS (3). Explores the uses and application of qualitative research methods to inform and improve marketing decision-making. Students will be introduced to such methods as focus group interviews, individual in-depth interviews, observational research methods, participant observation, and ethnographic immersion. Students will learn appropriate analytic strategies and reporting methodologies. PREREQS: BA 596 [C] or MRKT 596 [C]
MRKT 588. PERSONAL SELLING (4). An introductory course that focuses on two areas: the principles and theory of personal selling, and on understanding and developing the interpersonal communication skills needed for successful personal selling.
MRKT 589. PERSONAL SELLING SKILLS
DEVELOPMENT (4). Learn and develop the skills necessary for persuasive encounters in personal selling settings, such as making sales calls, preparing and delivering presentations, writing documents (sales proposals, cover letters, and resumes) and structuring logical, persuasive, prioritized arguments. PREREQS: BA 491 or MRKT 488 with a minimum grade of C - or better. Senior standing.
MRKT 592. CONSUMER BEHAVIOR (3).
Understanding the processes that lead to purchase, so as to improve decisions on segmentation and the appropriate marketing mix for each segment. How consumers and households make decisions, and why different individuals/groups make different decisions. Application of behavioral science concepts at individual, subcultural and cultural levels. Effects of consumerism and regulation also are considered.
PREREQS: BA 516 [B-]

MRKT 593. INTEGRATED MARKETING
COMMUNICATIONS (3). Analysis of the influence of marketing communications on the attitudes and behaviors of consumer and industrial
buyers. Identification and examination of the major decisions made by marketing/advertising managers in implementing the promotional mix. PREREQS: BA 516 [B-]
MRKT 595. RETAIL MANAGEMENT (4).
Management of retail business with emphasis on strategic planning, analysis, and control, focused on middle- and upper-management decisions.
PREREQS: (BA 390 or BA 390 H or BA 590) and a minimum grade of C - or better and graduate standing.
MRKT 596. MARKETING RESEARCH DESIGN
AND METHODS (3). Focuses on articulating
research problems, creating appropriate research design to address information needs (i.e., understanding markets, competitors, and customers), ethics (to include IRB training), and the application of diverse data collection methods, including secondary, qualitative, and quantitative methods. Measurement, sampling, and data preparation will also be addressed. PREREQS:

## BA 390 or equivalent.

MRKT 597. GLOBAL MARKETING (4).
Consideration of cultural, political, regulatory, economic and trade barriers in the design of marketing plans for product development, pricing, channels of distribution; and promotion alternatives in a global market. PREREQS: (BA 347 and (BA 390 or BA 309 H or BA 590) with a minimum grade of C - or better and graduate standing
MRKT 599. SELECTED TOPICS IN MARKETING
(1-4). Concepts and methods in advanced marketing management practice. Latest theoretical developments and quantitative methods in marketing, with particular relevance to managerial applications. Topics will vary from term to term. This course is repeatable for a maximum of 16 credits. PREREQS: Graduate standing.

## MRKT 690. MARKETING AND

COMMERCIALIZATION (3). Surveys marketing research related to innovation. Specific topics may change from quarter to quarter, but sample topics include research on marketing strategy, consumer behavior, brand equity, brand management, and product management, each from the perspective of the consumer and the firm. PREREQS: Doctoral student status and departmental approval.

## College of Business 253

The College of Earth, Ocean, and Atmospheric Sciences (CEOAS) has a three-fold mission: to pursue basic and applied research; educate and train undergraduate and graduate students; and to extend information to society about Earth, oceans and atmosphere, including their interactions and the interrelationships with humans and ecosystems.

The college prepares students for professional careers and enables faculty to seek out new ideas and innovative approaches to the complex issues of planetary-scale science. Degree offerings are: Earth Sciences (BS, CRED, HBS) with options in Climate Science, Geography, Geology, and Ocean Science; Environmental Sciences (BS, CRED, HBS); Geography and Geospatial Science (BS); Geography (MA, MS, PhD, MAIS); Geology (MA, MS, PhD, MAIS); Marine Resource Management (MA, MS); and Ocean, Earth, and Atmospheric Sciences (MA, MS, PhD, MAIS).

Please see http://ceoas.oregonstate.edu/ for more information about the college.

## HISTORY

In 2011, the College of Earth, Ocean, and Atmospheric Sciences was created by the merger of the College of Oceanic and Atmospheric Sciences (COAS), the Department of Geosciences and the Environmental Sciences Undergraduate Program in the College of Science. The college is at the heart of a new research and education enterprise organized around the interdisciplinary sciences of the Earth, ocean, and atmosphere. It spans the natural science disciplines and creates strong linkages with the social sciences both within the college as well as around the university.

The college is Oregon's principal source of expert knowledge about the Earth, ocean, and the atmosphere, especially in the Pacific Northwest region, which has long been the focus of major research efforts by OSU researchers. It conducts the only comprehensive oceanographic and atmospheric research programs in Oregon, as well as major programs in geology, geography, and geospatial studies. Today, research activities of the college extend throughout the world and to all oceans. Its graduates hold professional and leadership positions in science, resource management, education, regulatory agencies, and the private sector in the United States and internationally.

The new college has celebrated 100 years of excellence in the Geology program while establishing new degree options in ocean and climate science. The college has diversified and increased general education courses and offers certificates in geospatial studies and water conflict management and transformation. The college fosters experiential learning through labs, field, and shipboard experiences.

## FACULTY

Professors Barnes, Barth, Becker, Benoit-Bird, Bloomer, Brook, Campana, Cianelli, Clark, Colwell, Conway, Crump, Davis, de Silva, Dever, Dilles, Egbert, Goldfinger, Goñi, Graham, Haggerty, Hales, Haller, Harris, Harte, Jones, Kent, Koppers, Kosro, Letelier, Lyle, Matano, Marinelli, Meigs, Mellinger, Mix, Mote, Moum, Nabelek, Nash, Nielsen, Nolin, Noone, Özkan-Haller, Reimers, Samelson, Schultz, Skyllingstad, Smyth, Spitz, Torres, Trehu, Wheatcroft, Wolf Associate Professors Carlson, Corcoran, de Szoeke, Gosnell, Haley, Kirby, Kurapov, Lancaster, Lerczak, Matsumoto, Ruggiero, Santelmann, Schmittner, Shearman, Shell, Stoner, Tepley, Tufillaro, Waldbusser, White Assistant Professors Bernard, Buizert, Copeman, Creveling, Durland, Fehrenbacher, Fram, Haxel, Hutchings, Jarvis, Juranek, Kennedy, McKay, O'Neill, Rupp, Shiel, Shroyer, Thurber, Tilt, Van Den Hoek, Wettstein, Wilson, Wrathall, Zhao
Senior Instructors L. Becker, Cook, Hommel, K. Yalcin
Instructors Hyrapiet, Keller, Milstein, Nelson, R. Yalcin
Academic Advisors Chuinard (head advisor), Gaid, Lieuallen, Menn
Experiential Learning
Coordinator Cardinal-Lanier

## EMERITI

Allen, Bennett, Byrne, Caldwell, Carey, Chelton (Distinguished) Coakley, Collier, Couch, Cowles, Dalrymple, Deardorff, de Szoeke, Dillon, Duncan, Esbensen, Fisk, Frenkel, Gates, Gonor, Good, Gordon (Associate), Grunder, Holman, Huyer, Jackson, Keller, Kimerling, Klinkhammer, Komar, Kulm, Lawrence, Levi, Lillie, Mahrt, Maresh, Matzke, Miller, R. Miller, Morris, Muckleston, Nelson, Neshyba, Niem, Nolan, Paulson, Pearcy, Pease, Pillsbury (Associate), Pisias, Prahl, Rosenfeld, B. Sherr, E. Sherr, Simoneit, Small, Smith, Strub, Taylor, Unsworth, Vong, Wheeler (Distinguished), Yeats, Zaneveld

Please see the college website at http:// ceoas.oregonstate.edu for updated listings that include adjunct faculty, research faculty, courtesy faculty, and research associates.

## REQUIREMENTS FOR UNDERGRADUATE PROGRAMS IN THE COLLEGE:

The University Baccalaureate Core requirements are explained in a separate section, "Earning a Degree at Oregon State University". The major and option requirements are explained below. If you want to add a minor program or certificate, you will also need to complete the requirements for that minor or certificate. Specific requirements for interdisciplinary minors are listed in the Interdisciplinary Programs section of this catalog.

## Academic Advising

Undergraduates within CEOAS are assigned a professional advisor based on the student's major program of study. Advisors help to monitor academic progress through the degree programs, assist students with defining goals within the major, help in navigating university policies and regulations, and provide referrals to campus-wide resources. Faculty within CEOAS are involved as mentors for undergraduates-to guide students on professional and career-related decisions and to help connect students with research opportunities.

## Internships and Experiential

## Learning

CEOAS places a strong emphasis in gaining experience outside of the classroom and offers specialized support to all students for internships and undergraduate research through a designated experiential learning coordinator available to all undergraduates within the college.

## Teacher Education

The Earth Sciences and Environmental Sciences majors provide excellent scientific preparation for teaching middle school and high school science. All professional teacher licensure certification occurs in the College of Education.

## Double Degrees

Undergraduates with majors in CEOAS can earn a second degree in education, innovation management, international studies, or sustainability. See the College of Education, College of Business, International Programs or Department of Forest Ecosystems and Society sections of this catalog for more information.

## COLLEGE UNDERGRADUATE GRADUATION REQUIREMENTS

Along with fulfilling the university-level, baccalaureate core, and major requirements for BS degrees within CEOAS, students must meet the following college requirements:

- A grade of at least $C$ - minus is required for all upper-
division ( 300 level and above) courses taken to fulfill major requirements.
- A minimum 2.00 GPA in major requirement courses (excluding baccalaureate core and electives) is required for all CEOAS majors.
- "S/U" grading is not allowed for courses taken to fulfill major requirements.

## REQUIREMENTS FOR ADMISSION TO THE GRADUATE PROGRAMS <br> IN THE COLLEGE:

1. A bachelor's degree with a major (40 quarter credits or more) in a relevant discipline (see individual program requirements) such as physics, mathematics, chemistry, biology, geology, atmospheric science, computer science, or engineering. Geography and Marine Resource Management applicants also have a bachelor's degree in the social or political sciences, geography, economics, business administration, or fisheries.
2. A minimum cumulative grade-point average of 3.00 on a 4.00 scale for the last 90 quarter credits of undergraduate work.
3. A solid foundation in prerequisites (see individual program requirements).
4. Graduate Record Examination (GRE) scores (general).
5. Three letters of recommendation.
6. For TOEFL requirements, please see the OSU Admissions Web pages for graduate requirements and contact the CEOAS Student Services Office for specific information.
Early January is the deadline to apply for the following fall term admission. Early application is strongly recommended.

## MASTER'S PROGRAMS

All students in College of Earth, Ocean, and Atmospheric Sciences graduate majors must satisfy the minimum program requirements ( 45 credits including 6 credits of thesis) established by the Graduate School. Some graduate credits earned at other institutions may be approved for inclusion in the program. The Marine Resource Management graduate program requires additional course work credits. Please contact the Student Services for more information.

A two-hour, final oral examination is required for completion of the master's program (thesis option only).

## DOCTOR OF PHILOSOPHY

## PROGRAM

The content of PhD programs, other than core requirements, is determined by individual students and their committees. Specific university requirements
are formulated by the Graduate School. Approximately 80 credits of courses in the graduate major (including the core courses and 30 to 35 credits of thesis) are usually included in the major. The dissertation is based on an original investigation in some area of the graduate major.

One year of courses taken as a part of a master's program is normally transferable into the PhD program.

## DEGREES AND PROGRAMS WTHIN THE COLLEGE OF EARTH, OCEAN, AND ATMOSPHERICS SCIENCES <br> UNDERGRADUATE MAJORS WITH OPTIONS

EARTH SCIENCES (BS, CRED, HBS)
The Earth Sciences major program is among the nation's premier undergraduate programs, serving students with a broad range of interests and career aspirations. The program engages in science and in critical societal issues facing the region, the nation, and the international community.

The Earth Sciences major offers four options: Climate Science, Geography, Geology, and Ocean Science. The degree emphasizes hands-on learning through laboratory and field, or shipboard, experiences and undergraduate research and internships. The separate options provide preparation for careers with climate, geological or marine science emphasis and are also suited for students interested in careers in environmental science, science education, and in graduate studies.

The Geology option includes the topics covered by the test for the state Geologist Practice Examination conducted by the Board of Geologist Examiners (http://www.oregon.gov/osbge/Pages/ index.aspx).

## Required Baccalaureate Core Courses (36-38)

Earth Sciences Major Requirements (36-37)
ATS 201. *Climate Science (4)
CH 231. *General Chemistry (4) and CH
261. *Laboratory for Chemistry 231 (1) or CH 121. General Chemistry (5)
PH 211. *General Physics with Calculus (4)
or PH 201. *General Physics (5)
GEO 201. *Physical Geology (4)
GEO 202. *Earth Systems Science (4)
MTH 251. *Differential Calculus (4)
OC 201. *Oceanography (4)
ST 351. Introduction to Statistical Methods (4)

In addition, select one "skills" course from the list below:
CBEE 102. Engineering Problem Solving and Computations (3)
ENGR 112. Introduction to Engineering Computing (3)
GEOG 360. GIScience I: Geographic

Information Systems and Theory (4)
PH 265. Scientific Computing (3)
ST 352. Introduction to Statistical Methods (4)

## Earth Sciences Options

All students must complete one of three options:

- Climate Science
- Geography
- Geology
- Ocean Science

Footnote:

* Baccalaureate Core Course

Major Code: $\mathbf{8 3 4}$
OPTIONS

## CLIMATE SCIENCE OPTION

Students completing the Climate Science option will be prepared for a variety of careers in different areas related to climate, including 1) research and technical fields, 2) outreach, education, and communication, and 3) policy and economics. All students will gain skills in the areas of basic science, data collection and analysis, in addition to a rigorous curriculum in climate science. A broad set of electives will allow students to pursue additional course work to prepare them in their specific areas of interest. Some students may choose to pursue advanced degrees in related disciplines, whereas others will enter the job market directly.
Option specific Math and Science
Requirements (23-24)
Students taking PH 211 in this
option are required to take PH 221 concurrently.
PH 221. Recitation for Physics 211 (1)
An additional term of college-level chemistry:
CH 122. *General Chemistry (5)
or CH 232 . *General Chemistry (4) and
CH 262. *Laboratory for Chemistry 232 (1)
Two additional terms of college-level physics:
PH 202. *General Physics (5)
PH 203. *General Physics (5)
or
PH 212. *General Physics with Calculus (4) and PH 222. *Recitation for Physics 212. (1)

PH 213. *General Physics with Calculus (4) and PH 223. *Recitation for Physics 213. (1)

Two additional terms of calculus:
MTH 252. Integral Calculus (4)
MTH 254. Vector Calculus I (4)
Core Requirements (29)
ATS 295. Observing Climate (3)
ATS 301. ^Climate Data Analysis (4)
ATS 310. Meteorology (4)
ATS 420. Principles of Climate: Physics of
Climate and Climate Change (4)
ATS 421. Climate Modeling (4)
GEO 484. Introduction to Biogeochemistry (3)

GEO 486. Quaternary Paleoclimatology (3)
GEOG 323. ^Climatology (4)

## Experiential Learning (6)

$\mathbf{6}$ credits from the following:
ATS 401. Research (6)
ATS 403. Thesis (6)
ATS 410. Internship (6)
Electives (21-22)
At least one course in Climate
Impacts, Adaptation, or
Mitigation:
CH 374. *Technology, Energy, and Risk (3)
ENGR 363. *Energy Matters (3)
FW 325. *Global Crises in Resource Ecology (3)

GEOG 240. *Climate Change, Water and Society (3)
GEOG 441. International Water Resources Management (3)
GEOG 440. Water Resources Management in the United States (3)
OC 333. Oceans, Coasts, and People (3)
PH 313. *Energy Alternatives (3)
WSE 473. Bioenergy and Environmental Impact (3)
At least one course in Policy or Economics:
AEC/ECON 352. *Environmental
Economics and Policy (3)
PS 455. The Politics of Climate Change (4)
PS 473. US Energy Policy (4)
PS 477. International Environmental
Politics and Policy (4)
PS 478. Renewable Energy Policy (4)
An additional 15 credits of electives

## listed above or below:

ATS 411. Thermodynamics and Cloud
Microphysics (4)
ATS 412. Atmospheric Radiation (3)
ATS 413. Atmospheric Chemistry (3)
ATS 475. Planetary Atmospheres (3)
GEO 433. Coastal Geomorphology (3)
GEO 481. Glacial Geology (4)
GEO 488. Quaternary Stratigraphy of North

## America (3)

GEOG 423. Snow Hydrology (3)
OC 334. ^Polar Oceanography (3)
OC 430. Principles of Physical
Oceanography (4)
OC 440. Biological Oceanography (4)
OC 450. Chemical Oceanography (3)
OC 460. Geological Oceanography (3)
No more than two skills courses of electives below may be used toward the 15 additional elective credits:
GEOG 480. Remote Sensing I: Principles and Applications (4)
GEOG 481. Remote Sensing I: Digital Image Processing (4)
MTH 256. Applied Differential Equations (4)
MTH 341. Linear Algebra I (3)
ST 352. Introduction to Statistical Methods (4)

WR 362. *Science Writing (3)
Total=79-81
Footnotes:

* Baccalaureate Core Course (BCC)
${ }^{\wedge}$ Writing Intensive Course (WIC)
Option Code: $\mathbf{8 3 6}$

## GEOGRAPHY OPTION

The Geography option under the Earth Sciences major will be terminated. It has been replaced by the Geography and

Geospatial Science major.

## Requirements (29-30)

ANTH 110. *Introduction to Cultural Anthropology (3)
or PS 204. *Introduction to Comparative Politics (3)
or SOC 204. *Introduction to Sociology (3)
BI 213. Principles of Biology (4)
CS 161. Introduction to Computer Science I (4)
GEOG 295. Introduction to Geographic Field Research (3)
GEOG 201. *Foundations of Geospatial Science and GIS (4)
GEOG 323. ^Climatology (4)
or GEOG 330. *^Geography of International Development and Globalization (3)
GEOG 370. Geovisualization: Cartography (4)
ST 202. Principles of Statistics (4)
or ST 352. Introduction to Statistical Methods (4)

## Electives (32)

Choose from the four lists below, including at least one course in Physical Geography; one course in Geography of Resources, Planning, Hazards; one course in GIScience; and one course in Regional Geography/Globalization:

## Physical Geography

GEO 322. Surface Processes (4)
GEO 484. Introduction to Biogeochemistry (3)

GEO 486. Quaternary Paleoclimatology (3)
GEO 487. Hydrogeology (4)
GEOG 323. ^Climatology (4)
GEOG 324. Geography of Life: Species
Distributions and Conservation (4)
GEOG 423. Snow Hydrology (3)
GEO 432. Applied Geomorphology (3)

## Geography of Resources, Planning,

## Hazards

GEOG 340. *Introduction to Water Science and Policy (3)
GEOG 430. Resilience-Based Natural Resource Management (3)
GEOG 431. Global Resources and Development (3)
GEOG 441. International Water Resources Management (3)
GEOG 440. Water Resources Management in the United States (3)
GEOG 450. Land Use in the American West (3)

GEOG 452. Sustainable Site Planning (3)
OC 333. Oceans, Coasts and People (3)

## GIScience

FE 208. Forest Surveying (4)
GEOG 360. GIScience I: Geographic Information Systems and Theory (4)
GEOG 361. GIScience II: Analysis and Applications (4)
GEOG 472. Geovisualization: Geovisual Analytics (3)
GEOG 480. Remote Sensing I: Principles and Applications (4)
GEOG 481. Remote Sensing II: Digital Image Processing (4)
Regional Geography/Globalization
GEOG 311. *Geography of Africa (3)
GEOG 313. *Geography of Asia (3)

GEOG 314. *Geography of Latin America (3)
GEOG 315. *Geography of the United States and Canada (3)
GEOG 330. *^Geography of International Development and Globalization (3)
GEOG 331. *Population, Consumption, and Environment (3)

## Option Total=61-62

## Footnotes:

* Baccalaureate Core Course (BCC)
${ }^{\wedge}$ Writing Intensive Courses (WIC)
Option Code: 263

## GEOLOGY OPTION

The Geology option is suitable for students interested in careers in applied geology, environmental sciences, science education, and in research. The Geology option includes the topics covered by the test for the state Geologist Practice Examination conducted by the Board of Geologist Examiners (http://www.oregon. gov/osbge/Pages/index.aspx).

## Requirements

CH 232. *General Chemistry (4) and CH 262. *Laboratory for Chemistry 232 (1) or CH 122. *General Chemistry (5)
PH 212. *General Physics with Calculus (4) or PH 202. *General Physics (5)
In addition, complete a third term of either chemistry or physics:
CH 233. *General Chemistry (4) and CH
263. *Laboratory for Chemistry 233 (1)
or CH 123 . *General Chemistry (5)

## OR

PH 213. *General Physics with Calculus (4) or PH 203. *General Physics (5)
GEO 203. *Evolution of Planet Earth (4)
GEO 295. Introduction to Field Geology (3)
GEO 310. Earth Materials I: Mineralogy (4)
GEO 315. Earth Materials II: Petrology (4)
GEO 322. Surface Processes (4)
GEO 340. Structural Geology (4)
GEO 370. Stratigraphy and Sedimentology (4)
GEO 415. Earth Materials III: Igneous
Petrography (4)
GEO 430. Geochemistry (4)
GEO 463. ^Geophysics and Tectonics (4)
GEO 487. Hydrogeology (4)
GEO 495. Advanced Field Geology (6)
MTH 252. Integral Calculus (4)

## Elective Specializations

## Choose 9-12 credits from any courses

## below:

GEO 403. Thesis (3) may count toward the 9-12 credits.

## Solid Earth

GEO 412. Igneous Petrology (4)
GEO 440. Economic Geology (4)
GEO 497. Field Mapping of Ore Deposits (3)

## Earth Surface

BI 427. Paleobiology (3)
GEO 432. Applied Geomorphology (3)
GEO 481. Glacial Geology (4)
GEO 484. Introduction to Biogeochemistry (3)

GEO 486. Quaternary Paleoclimatology (3)
GEO 488. Quaternary Stratigraphy of North
America (3)
GEOG 423. Snow Hydrology (3)

SOIL 466. Soil Morphology and
Classification (4)
SOIL 468. Soil Landscape Analysis (4)

## Natural Hazards

GEO 427. ^Volcanology (4)
GEO 433. Coastal Geomorphology (3)
GEO 461. Geology of Earthquakes (3)

## GIScience

GEOG 480. Remote Sensing I: Principles and Applications (4)
GEOG 472. Geovisualization: Geovisual Analytics (3)
GEOG 360. GIScience I: Geographic
Information Systems and Theory (4)
GEOG 481. Remote Sensing II: Digital
Image Processing (4)

## Option Total=76-81

Footnotes:

* Baccalaureate Core Course (BCC)
${ }^{\wedge}$ Writing Intensive Course (WIC)

## OCEAN SCIENCE OPTION

This option is offered within the following major(s):
Earth Sciences - College of Earth, Ocean, and Atmospheric Sciences Because of its interdisciplinary scope and quantitative rigor, the Ocean Science option is suitable for students interested in careers in all aspects of marine science, environmental sciences, science education, and in advanced graduate studies in a range of subjects.

## Requirements

CH 232. *General Chemistry (4) and CH 262. *Laboratory for Chemistry 232 (1) or CH 122. *General Chemistry (5)
PH 212. *General Physics with Calculus (4) and PH 222. Recitation for Physics 212 (1) or PH 202. *General Physics (5)
In addition, complete the third term of either the chemistry or physics series:
CH 233. *General Chemistry (4) and CH 263. *Laboratory for Chemistry 233 (1) or CH 123. *General Chemistry (5)

## OR

PH 213. *General Physics with Calculus (4) and PH 223. Recitation for Physics 213 (1) or PH 203. *General Physics (5)
Plus two additional courses in biology; select two of the following:
BI 211. *Principles of Biology (4)
BI 212. *Principles of Biology (4)
BI 213. *Principles of Biology (4)
MTH 252. Integral Calculus (4)
OC 295. Introduction to Field Oceanography (3)
OC 332. Coastal Oceanography (3)
OC 333. Oceans, Coasts, and People (3)
OC 334. ^Polar Oceanography (3)
OC 430. Principles of Physical
Oceanography (4)
OC 440. Biological Oceanography (4)
OC 450. Chemical Oceanography (3)
OC 460. Geological Oceanography (3)

## Experiential Learning

The program must contain at least 6 credits of experiential learning that may include an internship, research or senior thesis. Combinations of these are allowed
(e.g., 3 credits of internship or 3 credits of research). Students are urged to work with advisors and the program head at an early stage of their study to plan their experiential learning.

## Select combinations of from the

following that total 6 credits:
OC 401. Research Projects (1-16)
OC 403. Thesis (1-16)
OC 410. Internship (1-16)
Plus two terms (2 credits total) of enrollment in a marine-oriented seminar series:
OC 407. Seminar (1)
Plus at least 18 credits from the electives below:
Students could choose to focus on a specific area or sample from a wide range. Additional MTH courses would be ap-
propriate for some students planning on graduate studies in ocean science.)

## Biological

BI 211. *Principles of Biology (4)
BI 212. *Principles of Biology (4)
BI 213. *Principles of Biology (4)
BI 351. Marine Ecology (3)
BI 370. Ecology (3)
BI/FW 464. Marine Conservation Biology (3)
GEO 484. Introduction to Biogeochemistry (3)

OC/FW 434. Estuarine Ecology (4)

## Climate

ATS 301. Climate Data Analysis (4)
ATS 310. Meteorology (4)
ATS 420. Principles of Climate: Physics of
Climate and Climate Change (4)
ATS 421. Climate Modeling (4)
GEO 481. Glacial Geology (4)
GEO 486. Quaternary Paleoclimatology (3)
GEOG 323. ^Climatology (4)

## Fluids

CE 311. Fluid Mechanics (4)
CE 412. Hydrology (4)
OC 433. Coastal and Estuarine Oceanography (3)

## Geological

GEO 370. Stratigraphy and Sedimentology (4)

GEO 433. Coastal Geomorphology (3)
GEO 463. ^Geophysics and Tectonics (4)

## Remote Sensing

GEOG 370. Geovisualization: Cartography (4)

GEOG 480. Remote Sensing I: Principles and Applications (4)

## Option Total=78-80

## Footnotes:

Option Code: 659
GEOGRAPHY AND GEOSPATIAL SCIENCE (BS, CRED, HBS)
Geography is a scientific approach to understanding people's relationship with their environment and resources. Geography is central to many important issues, including planning for land-use change, global studies, and adaptation to climate change. Geospatial science
applies techniques, including web mapping, geovisualization, remote sensing, and geographic information systems (GIS), to address these issues. Geographic thinking and geospatial technology are present in every aspect of modern life, and career opportunities abound for students trained in geography and geospatial science.

Students majoring in Geography and Geospatial Science complete work in five major areas:

1. OSU's baccalaureate core
2. Basic statistics and math
3. Geography and Geospatial Science core
4. Electives
5. Experiential learning (field courses and internship or research)
The major consists of 85 credits of
course work. In addition to baccalaureate core courses, the major consists of
6. supporting mathematics and statistics ( 12 cr );
7. foundational skills in geography and geospatial science ( 17 cr ),
8. upper-division geospatial science ( 12 cr);
9. experiential learning ( 9 cr );
10. seminar ( 1 cr );
11. upper-division electives ( 31 cr ); and
12. capstone course ( 3 cr )

## Supporting Skills (12)

MTH 112. *Elementary Functions (4)
ST 351. Introduction to Statistical Methods (4)

ST 352. Introduction to Statistical Methods (4)

## Foundational Skills (17)

GEOG 105. *Geography of the Non-Western World (3)
or GEOG 106. *Geography of the Western World (3)
GEOG 102. *Physical Geography (4)
or GEO 202. *Earth Systems Science (4)
GEOG 103. *Human Geography (3) or GEOG 203. *Human-Environment Geography (3)
GEOG 201. *Foundations of Geospatial Science and GIS (4)
GEOG 240. *Climate Change, Water, and Society (3)
or GEOG 250. *Land-Use Planning for Sustainable Communities (3) or GEOG 251. Geography of Disaster Management (3)

## Upper-Division Geospatial Science <br> Techniques and Problem-Solving (12)

GEOG 360. GIScience I: Geographic Information Systems and Theory (4)
GEOG 370. Geovisualization: Cartography (4)

GEOG 480. Remote Sensing I: Principles and Applications (4)

## Seminar (1)

GEOG 407. Seminar (1)

## Experiential Learning (9)

GEOG 295. Introduction to Geographic Field Research (3)

GEOG 410. Internship (3)
or GEOG 401. Research (3)
or GEOG 403. Thesis (3)
GEOG 495. Field Geography of Oregon I (3)
Capstone (3)
GEOG 464. Geospatial Perspectives on Intelligence, Security, and Ethics (3)
Upper-Division Geography and
Geospatial Science Electives (31)
GEOG 323. ^Climatology (4)
or GEOG 324. Geography of Life: Species Distributions and Conservation (4)

Select 27 credits from lists below, at least five courses at $\mathbf{4 0 0}$ level.
Geospatial Science
GEOG 361. GIScience II: Analysis and Applications (4)
GEOG 371. Geovisualization: Web Mapping (4)

GEOG 462. GIScience III: Programming for Geospatial Analysis (4)
GEOG 463. GIScience IV: Spatial Modeling (4)

GEOG 472. Geovisualization: Geovisual Analytics (3)
GEOG 481. Remote Sensing II: Digital Image Processing (4)

## International Studies

GEOG 311. *Geography of Africa (3)

Distributions and Conservation (4)
GEOG 431. Global Resources and Development (3)
or GEOG 432. Geography of Food and Agriculture (3)
GEOG 462. GIScience III: Programming for

Geospatial Analysis (4)
or GEOG 472. Geovisualization: Geovisual Analytics (3)

## Senior Year (up to 27)

## Fall (8)

GEOG 407. Seminar (1)
GEOG 450. Land Use in the American West (3)
or GEOG 440. Water Resources
Management in the United States (3)
or GEOG 463. GIScience IV: Spatial
Modeling (4)
GEOG 480. Remote Sensing I: Principles and Applications (4)

## Winter (10)

GEOG 410. Internship (1-16)
or GEOG 401. Research (1-16)
or GEOG 403. Thesis (3)
GEOG 423. Snow Hydrology (3)
or GEOG 424. Hydrology for Water
Resources Management (3)
or GEOG 441. International Water
Resources Management (3)
or GEOG 451. Planning Principles and
Practices for Resilient Communities (4)
GEOG 481. Remote Sensing II: Digital
Image Processing (4)

## Spring (9)

GEOG 430. Resilience-Based Natural Resource Management (3)
or GEOG 452. Sustainable Site Planning
(3)
or GEOG 472. Geovisualization: Geovisual Analytics (3)
GEOG 464. Geospatial Perspectives on
Intelligence, Security, and Ethics (3)
GEOG 495. Field Geography of Oregon I (3)
Sample Two-Year Plan: Geography
and Geospatial Science)
Up to 29 transfer credits may be accepted representing the equivalent of:
GEOG 102. *Physical Geography (4)
or GEO 202. *Earth Systems Science (4)
GEOG 103. *Human Geography (3)
or GEOG 203. *Human-Environment Geography (3)
GEOG 105. *Geography of the Non-Western
World (3)
or GEOG 106. * Geography of the
Western World (3)
GEOG 201. *Foundations of Geospatial
Science and GIS (4)
GEOG 240. *Climate Change, Water, and Society (3)
or GEOG 250. *Land Use Planning for Sustainable Communities (3)
or GEOG 251. *Geography of Disaster Management (3)
MTH 112. *Elementary Functions (4)
ST 351. Introduction to Statistical Methods (4)
and ST 352. Introduction to Statistical Methods (4)

## Junior Year (up to 42)

## Fall (14)

GEOG 295. Introduction to Geographic
Field Research (3)
GEOG 300. *Sustainability for the Common Good (3)
or GEOG 331. *Population, Consumption,
and Environment (3)
or GEOG 340. *Introduction to Water Science and Policy (3)
GEOG 360. GIScience I: Geographic Information Systems and Theory (4)
GEOG 370. Geovizualization: Cartography (4)

## Winter (14)

GEOG 300. *Sustainability for the Common Good (3)
or GEOG 330. *^Geography of
International Development and
Globalization (3)
or GEOG 350. *Geography of Natural
Hazards (3)
GEOG 361. GIScience II: Analysis and Applications (4)
GEOG 371. Geovisualization: Web Mapping (4)

GEOG 423. Snow Hydrology (3)
or GEOG 424. Hydrology for Water
Resources Management (3)
or GEOG 441. International Water
Resources Management (3)

## Spring (14)

GEOG 300. *Sustainability for the Common Good (3)
or GEOG 340. *Introduction to Water
Science and Policy (3)
or GEOG 430. Resilience-Based Natural
Resource Management (3)
or GEOG 440. Water Resources
Management in the United States (3)
GEOG 323. ${ }^{\wedge}$ Climatology
or GEOG 324. Geography of Life: Species
Distributions and Conservation (4)
GEOG 431. Global Resources and
Development (3)
or GEOG 432. Geography of Food and Agriculture (3)
GEOG 462. GIScience III: Programming for Geospatial Analysis (4)
or GEOG 472. Geovisualization: Geovisual
Analytics (3)

## Senior Year (up to 27)

Fall (8)
GEOG 450. Land Use in the American West (3)
or GEOG 440. Water Resources
Management in the United States (3)
or GEOG 463. GIScience IV: Spatial
Modeling (4)
GEOG 480. Remote Sensing I: Principles
and Applications (4)
GEOG 507. Seminar (1)

## Winter (10)

GEOG 410. Internship (3)
or GEOG 401. Research (3)
or GEOG 403. Thesis (3)
GEOG 423. Snow Hydrology (3)
or GEOG 424. Hydrology for Water
Resources Management (3)
or GEOG 441. International Water
Resources Management (3)
or GEOG 451. Planning Principles and
Practices for Resilient Communities (4)
GEOG 481. Remote Sensing II: Digital
Image Processing (4)

## Spring (9)

GEOG 430. Resilience-Based Natural
Resource Management (3)
or GEOG. 440. Water Resources

Management in the United States (3) or GEOG 452. Sustainable Site Planning (3) or GEOG 472. Geovisualization: Geovisual Analytics (3)
GEOG 464. Geospatial Perspectives on
Intelligence, Security, and Ethics (3)
GEOG 495. Field Geography of Oregon I (3)
Footnotes:

* Baccalaureate Core Course
^ Writing Intensive Course (WIC)
Option Code: 262

## OCEAN SCIENCE OPTION

Because of its interdisciplinary scope and quantitative rigor, the Ocean Science option is suitable for students interested in careers in all aspects of marine science, environmental sciences, science education, and in advanced graduate studies in a range of subjects.

## Requirements

CH 232. *General Chemistry (4) and CH 262. *Laboratory for Chemistry 232 (1) or CH 122. *General Chemistry (5)
PH 212. *General Physics with Calculus (4) and PH 222. Recitation for Physics 212 (1) or PH 202. *General Physics (5)
In addition, complete the third term
of either the chemistry or physics series:
CH 233. *General Chemistry (4) and CH
263. *Laboratory for Chemistry 233 (1)
or CH 123. *General Chemistry (5)
OR
PH 213. *General Physics with Calculus (4) and PH 223. Recitation for Physics 213 (1)
or PH 203. *General Physics (5)
Plus two additional courses in
biology; select two of the following:
BI 211. *Principles of Biology (4)
BI 212. *Principles of Biology (4)
BI 213. *Principles of Biology (4)
MTH 252. Integral Calculus (4)
OC 295. Introduction to Field
Oceanography (3)
OC 332. Coastal Oceanography (3)
OC 333. Oceans, Coasts, and People (3)
OC 334. ^Polar Oceanography (3)
OC 430. Principles of Physical
Oceanography (4)
OC 440. Biological Oceanography (4)
OC 450. Chemical Oceanography (3)
OC 460. Geological Oceanography (3)

## Experiential Learning

The program must contain at least 6 credits of experiential learning that may include an internship, research or senior thesis. Combinations of these are allowed (e.g., 3 credits of internship or 3 credits of research). Students are urged to work with advisors and the program head at an early stage of their study to plan their experiential learning.
Select combinations of from the
following that total 6 credits:
OC 401. Research Projects (1-16)
OC 403. Thesis (1-16)
OC 410. Internship (1-16)
Plus two terms ( 2 credits total) of enrollment in a marine-oriented

## seminar series:

OC 407. Seminar (1)

## Plus at least 18 credits from the

 electives below:Students could choose to focus on a specific area or sample from a wide range. Additional MTH courses would be appropriate for some students planning on graduate studies in ocean science.)

## Biological

BI 211. *Principles of Biology (4)
BI 212. *Principles of Biology (4)
BI 213. *Principles of Biology (4)
BI 351. Marine Ecology (3)
BI 370. Ecology (3)
BI/FW 464. Marine Conservation Biology (3) GEO 484. Introduction to Biogeochemistry (3)

OC/FW 434. Estuarine Ecology (4)

## Climate

ATS 301. Climate Data Analysis (4)
ATS 310. Meteorology (4)
ATS 420. Principles of Climate: Physics of
Climate and Climate Change (4)
ATS 421. Climate Modeling (4)
GEO 481. Glacial Geology (4)
GEO 486. Quaternary Paleoclimatology (3)
GEOG 323. ${ }^{\wedge}$ Climatology (4)

## Fluids

CE 311. Fluid Mechanics (4)
CE 412. Hydrology (4)
OC 433. Coastal and Estuarine Oceanography (3)

## Geological

GEO 370. Stratigraphy and Sedimentology (4)

GEO 433. Coastal Geomorphology (3)
GEO 463. ^Geophysics and Tectonics (4)

## Remote Sensing

GEOG 370. Geovisualization: Cartography (4)

GEOG 480. Remote Sensing I: Principles and Applications (4)

## Option Total=78-80

Footnotes:

* Baccalaureate Core Course (BCC)
^ Writing Intensive Course (WIC)

## Option Code: 659

## ENVIRONMENTAL SCIENCES (BS, CRED, HBS)

Also available via Ecampus.
See below for all approved specialization areas.

## Undergraduate Major

Environmental Sciences (BS, CRED, HBS)

## Options

Alternative Energy
Applied Ecology
Aquatic Biology
Conservation, Resources, and
Sustainability
Earth Systems
Environmental Agriculture
Environmental Policy and Economics
Environmental Science Education
Environmental Water Resources

## Minor

Environmental Sciences

## Graduate Major

Environmental Sciences (MA, MS, PhD, PSM) (This interdisciplinary program is hosted by the Graduate School.)

An Environmental Sciences undergraduate degree provides a rigorous education that can lead to helping to understand and resolve some of today's most challenging scientific and policy issues-including global climate change, pollution, biodiversity conservation, sustainability, and balancing resource use and preservation. To help reach these objectives, the Bachelor of Science in Environmental Sciences offers an interdisciplinary approach to environmental problem solving. As an Environmental Sciences major, a student completes course work in four general areas:

1. OSU's general education courses (the baccalaureate core)
2. Basic science and math
3. Environmental sciences and humanities core
4. A specialization area

In addition, each student completes a minimum of 3 credits of experiential learning as an internship, research, study abroad, or field course. The BS degree in Environmental Sciences provides excellent training for a variety of careersincluding work with federal, state, and local agencies, industry, non-profits, and education-or for graduate school. Students can pursue the BS degree either at the Corvallis campus or online through OSU Ecampus.

## Major Curriculum

The Environmental Sciences major requires credits in seven categories: 48 credits of baccalaureate core; 51-53 credits of basic science and math; 27-36 credits of environmental sciences and humanities; 27-31 credits of specialization; 3 credits writing intensive course; 3 credits minimum of experiential learning; and 4-53 credits of elective courses (depends on the number of baccalaureate core electives that will also meet requirements of the major).

## Baccalaureate Core (48)

The university baccalaureate core course
(BCC) requirement is met with 48 credits and a writing intensive course (WIC). The environmental sciences student satisfies the general education requirement by selecting 27 unrestricted credits from the general list of approved courses and 21 credits from a restrictive list of BCC courses, which simultaneously satisfy requirements for the Environmental Sciences major. The WIC and Synthesis requirements are satisfied by courses taken as part of the environmental sciences core curriculum.

## Orientation

ENSC 101. Environmental Sciences Orientation (1)

## Basic Science and Math Courses

(51-53 credits)
BI 211, BI 212, BI 213. *Principles of Biology (4,4,4)
or BI 204, BI 205, BI 206. *Introductory Biology I, II, III (4,4,4)
CH 121 . General Chemistry (5) and CH 122, CH 123. *General Chemistry $(5,5)$ or CH 231, CH 232, CH 233. *General
Chemistry $(4,4,4)$ and CH 261, CH 262 ,
CH 263. *Laboratory for Chemistry 231, 232, 233 (1,1,1)
MTH 251. *Differential Calculus (4)
MTH 268. Mathematical Ideas in Biology (4) or MTH 252. Integral Calculus (4)
PH 201, PH 202. *General Physics $(5,5)$ or PH 211, PH 212. *General Physics with Calculus $(4,4)$
ST 351, ST 352. Introduction to Statistical Methods (4,4)
Environmental Sciences and Humanities Core (28-38 credits)
Natural Environmental Systems (minimum of 12 credits)
One course in atmosphere:
ATS 201. *Climate Science (4)
ATS 310. Meteorology (4)
ATS 420. Principles of Climate: Physics of
Climate and Climate Change (4)
GEOG 323. ^Climatology (4)
One course in biosphere:
BI 370. Ecology (3)
One course in geosphere:
CSS 205. *Soil Science (4)
GEO 202. *Earth Systems Science (4)
GEO 221. *Environmental Geology (4)
GEO 322. Surface Processes (4)
GEOG 102. *Physical Geography (4)
GEOG 350. *Geography of Natural Hazards (3)

SOIL 205. *Soil Science (3)
and SOIL 206. *Soil Science Laboratory for SOIL 205 (1)
SOIL 395. *World Soil Resources (3)

## One course in hydrosphere:

FW 456. Limnology (5)
GEOG 340. *Introduction to Water Science and Policy (3)
GEO 487. Hydrogeology (4)
OC 201. *Oceanography (4)

## Humans and the Environment

(15-20 credits)
One course in economics, selected from the following:

AEC 250. *Introduction to Environmental
Economics and Policy (3)
ECON 201. *Introduction to
Microeconomics (4)
ECON 202. *Introduction to
Macroeconomics (4)
FW 462. Ecosystem Services (3)

## One course in ethics and

## environmental ethics, selected from

 the following:ANS/FES/FW/SOC 485. *Consensus and Natural Resources (3)
ANTH 481. *Natural Resources and Community Values (3)
CH 374. *Technology, Energy, and Risk (3)
ES 353. *Environmental Racism (4)
ES/PHL/REL 448. Native American Philosophies (4)
FES/TOX 435. *Genes and Chemicals in
Agriculture: Value and Risk (3)
FW 340. *Multicultural Perspectives in
Natural Resources (3)
GEO 309. *Environmental Justice (3)
PHL 325. *Scientific Reasoning (4)
PHL 439. Philosophy of Nature (3)
PHL 440. Environmental Ethics (3)
PHL/REL 443. *World Views and
Environmental Values (3)
PS 461. Environmental Political Theory (4)
SOC 456. *Science and Technology in Social Context (4)
SOC 480. *Environmental Sociology (4)
SOC 481. *Society and Natural Resources (4)
WGSS 440. *Women and Natural Resources (3)

## One course in the human <br> environment, selected from the following:

AG 301. *Ecosystem Science of Pacific NW Indians (3)
ATS 320. *The Changing Climate (3)
[Terminated fall 2017]
BI 301. *Human Impacts on Ecosystems (3)
BI 348. *Human Ecology (3)
ENSC 479. *^Environmental Case Studies (3)

FW 325. *Global Crises in Resource Ecology (3)

FW/HSTS 470. *Ecology and History: Landscapes of the Columbia Basin (3)
GEO 308. *Global Change and Earth Sciences (3)
GEOG 203. *Human-Environment Geography (3)
GEOG 300. *Sustainability for the Common Good (3)
GEOG 431. Global Resources and Development (3)
GEOG 450. Land Use in the American West (3)

HST 481. *Environmental History of the United States (4)
SUS 102. *Introduction to Environmental
Science and Sustainability (4)
SUS 330. Ecological Dimensions of Sustainability (3)
SUS 350. *Sustainable Communities (4)
WGSS 440. *Women and Natural Resources (3)

Z 349. *Biodiversity: Causes, Consequences, and Conservation (3)
One course in environmental law and policy, selected from the following:

AEC 253. *Environmental Law, Policy, and Economics (4)
AEC 351. *Natural Resource Economics and Policy (3)
AEC/ECON 352. *Environmental
Economics and Policy (3)
AEC 432. Environmental Law (4)
FOR 462. Natural Resource Policy and Law (3)

FW 415. Fisheries and Wildlife Law and Policy (3)
FW 422. Introduction to Ocean Law (3)
GEOG 340. *Introduction to Water Science and Policy (3)
PS 475. Environmental Politics and Policy (4)
PS 476. *Science and Politics (4)
PS 477. International Environmental
Politics and Policy (4)
SOC 360. *Population Trends and Policy (4)
WGSS 440. *Women and Natural Resources (3)

One course in environmental management, selected from the following:
BI/FW 464. Marine Conservation Biology (3)
BOT/FOR 413. Forest Pathology (3)
FES/HORT 350. Urban Forestry (3)
FES 352. Wilderness Management (3)
FES 355. Management for Multiple Resource Values (3)
FES 365. *Issues in Natural Resources Conservation (3)
FES 412. Forest Entomology (3)
FES/FW 445. Ecological Restoration (4)
FOR 346. Topics in Wildland Fire (3)
FW 251. Principles of Fish and Wildlife Conservation (3)
FW 323. Management Principles of Pacific Salmon in the Northwest (3)
FW 326. Integrated Watershed Management (3)

FW 431. Dynamics of Marine Biological Resources (4)
FW 435. ^Wildlife in Agricultural Ecosystems (3)
GEO 306. *Minerals, Energy, Water and the Environment (3)
GEOG 430. Resilience-Based Natural
Resource Management (3)
GEOG 441. International Water Resources Management (3)
GEOG 440. Water Resources Management in the United States (3)
GEOG 452. Sustainable Site Planning (3)
NR 455. Natural Resource Decision Making (4)

RNG 341. Rangeland Ecology and Management (3)
RNG 355. Desert Watershed Management (4)

RNG 421. Wildland Restoration and Ecology (4)
RNG 455. Riparian Ecohydrology and Management (4)
RNG 490. Rangeland Management Planning (4)

## Experiential Learning (3 credits)

The program must contain at least one course, internship, or research experience that provides opportunities for hands-on experience in design and collection of observations in the physical, biological or social environment. Students are
urged to work with advisors at an early stage in their study to identify courses or experiences that are appropriate.
Specialization Area (27+ credits)
This requirement can be met by completing an approved certificate, option, or minor from a participating program in the environmental or closely related sciences, or working with advisors to develop an innovative course cluster to analyze environmental systems.

## Approved Certificates:

- Geographic Information Science

## Approved Options (All options

 under the Environmental Sciences major):- Alternative Energy
- Applied Ecology (EC)
- Aquatic Biology (EC)
- Conservation, Resources, and Sustainability (EC)
- Earth Systems (EC)
- Environmental Agriculture (EC)
- Environmental Policy and Economics (EC)
- Environmental Science Education
- Environmental Water Resources (EC)

## Footnotes:

* Baccalaureate Core Course (BCC)
$\wedge$ Writing Intensive Course (WIC)
EC Available via Ecampus
Major Code: 657

## OPTIONS

## ALTERNATIVE ENERGY OPTION

The Alternative Energy option draws from a variety of disciplines that offer courses in energy-related topics, not engineering. Students in this option will be well-informed about energy alternatives for work in urban and regional planning, city government, NGOs promoting energy alternatives to fossil fuels sources, power companies working with the public, policymaking in the energy field, and law school with an aim toward environmental law.

## Alternative Energy Core

Choose 3 courses from below (10-11 credits):
CHE 450. Conventional and Alternative Energy Systems (3)
ECON 466. ${ }^{\wedge}$ Economics of Traditional and Renewable Energy (4)
PH 313. *Energy Alternatives (3)
PS 473. US Energy Policy (4)

## Electives

Choose from the list below or additional core courses to total at least 27 credits:
AEC/ECON 352. *Environmental Economics and Policy (3)
AEC 432. Environmental Law (4)
ANTH 469. Energy in Cultural Perspective (4)
BA 432. Environmental Law, Sustainability, and Business (4)
BRR 350. Introduction to Regional Bioenergy (2)

BRR 450. Interdisciplinary Research: Bioenergy Focus (2)
ENGR 350. *Sustainable Engineering (3)
ENGR 363. *Energy Matters (3)
GEO 306. *Minerals, Energy, Water, and the Environment (3)
GEOG 300. *Sustainability for the Common Good (3)
NSE 319. *Societal Aspects of Nuclear Technology (3)
PS 455. The Politics of Climate Change (4)
PS 477. International Environmental
Politics and Policy (4)
PS 478. Renewable Energy Policy (4)
WSE 473. Bioenergy and Environmental Impact (3)

## Total=27

## Footnotes:

* Baccalaureate Core Course (BCC)
${ }^{\wedge}$ Writing Intensive Course (WIC)
Option Code: 842

## APPLIED ECOLOGY OPTION

## Also available via Ecampus.

The Applied Ecology option is for Environmental Sciences students who seek to orient their studies around ecology. This is applied ecology and therefore includes geographic methods for measuring and data collection in ecological change. Students seeking a concentration in policy and management are encouraged to consider the Conservation, Resources, and Sustainability option.

Students should first complete
BI 370 Ecology (3).
Core (10-20)
Ecological Studies
Select a minimum of 1 course from below:
BOT 341. Plant Ecology (4)
FES 341. Forest Ecology (3)
FW 479. Wetlands and Riparian Ecology (3)
RNG 341. Rangeland Ecology and
Management (3)

## Field Methods

Select a minimum of 1 course from below:
BI 371. ^Ecological Methods (3)
BOT 440. Field Methods in Plant Ecology (4)
RNG 353. Wildland Plant Identification (4)

## Geographic Methods

Select 1 to 3 courses from below:
GEOG 201. *Foundations of Geospatial
Science and GIS (4)
GEOG 360. GIScience I: Geographic
Information Systems and Theory (4)
GEOG 370. Geovisualization Cartography (4)
GEOG 480. Remote Sensing I: Principles and Applications (4)

## Electives

Select 9-17 credits from below:
BI 311. Genetics (4)
or PBG 430. Plant Genetics (3)
BI 345. *Introduction to Evolution (3)
or BI 445. Evolution (3)
BI 351. Marine Ecology (3)
BI 481. Biogeography (3)

BOT 313. Plant Structure (4)
BOT 321. Plant Systematics (4)
BOT 331. Plant Physiology (4)
BOT 415. Forest Insect and Disease
Management (5) [Terminated winter 2017]
FES 342. Forest types of the Northwest (3)
FES/HORT 350. Urban Forestry (3)
FES/FW 445. Ecological Restoration (4)
FOR 346. Topics in Wildland Fire (3)
FW 311. Ornithology (3)
FW 312. Systematics of Birds (2)
FW 315. Ichthyology (3)
FW 317. Mammalogy (3)
FW 320. Introductory Population Dynamics (4)

FW 321. Applied Community and
Ecosystem Ecology (3)
FW 427. Principles of Wildlife Diseases (4)
FW/OC 434. Estuarine Ecology (4)
FW 451. Avian Conservation and
Management (3)
FW 456. Limnology (5)
FW 462. Ecosystem Services (3)
FW/HSTS 470. *Ecology and History:
Landscapes of the Columbia Basin (3)
FW 473. Fish Ecology (4)
FW 481. Wildlife Ecology (4)
GEOG 324. Geography of Life: Species
Distributions and Conservation (4)

FW 462. Ecosystem Services (3)
GEOG 360. GIScience I: Geographic
Information Systems and Theory (4)
GEOG 430. Resilience-Based Natural
Resource Management (3)
GEOG 450. Land Use in the American West (3)

GEOG 441. International Water Resources Management (3)
GEOG 440. Water Resources Management
in the United States (3)
GEOG 431. Global Resources and
Development (3)
GEOG 452. Sustainable Site Planning (3)
GEOG 451. Planning Principles and
Practices for Resilient Communities (4)
PS 473. U.S. Energy Policy (4)
PS 475. Environmental Politics and Policy (4)

PS 477. International Environmental Politics and Policy (4)
RNG 341. Rangeland Ecology and Management (3)
RNG 490. Rangeland Management Planning (4)
SUS 304. *Sustainability Assessment (4)

## Society and Values

Choose at least 1 course from below:
ANS/FES/FW/SOC 485. *Consensus and Natural Resources (3)
ANTH 481. *Natural Resources and Community Values (3)
BEE 411. Global Environmental Change:
Using Data to Inform Decisions (3)
BI 348. *Human Ecology (3)
FES 360. Collaboration and Conflict Management (3)
FW 340. *Multicultural Perspectives in Natural Resources (3)
FW 439. ^Human Dimensions of Fisheries and Wildlife Management (3)
FW/HSTS 470. *Ecology and History:
Landscapes of the Columbia Basin (3)
GEO 309. *Environmental Justice (3)
HST 481. *Environmental History of the United States (4)
NR 455. Natural Resource Decision Making (4)

PHL 443. *World Views and Environmental Values (3)
PS 461. Environmental Political Theory (4)
SOC 480. *Environmental Sociology (4)

SOC 481. *Society and Natural Resources (4)
SUS 330. Ecological Dimensions of
Sustainability (3) [Terminated fall 2016]
SUS 350. *Sustainable Communities (4)
WGSS 440. *Women and Natural Resources (3)

WGSS 450. Ecofeminism (3)
Total Credits greater than or $=\mathbf{2 7}$
Footnotes:

* Baccalaureate Core Course (BCC)
${ }^{\wedge}$ Writing Intensive Course (WIC)
Option Code: $\mathbf{8 4 3}$

## EARTH SYSTEMS OPTION

## Also available via Ecampus.

With the Earth Systems option, students will obtain a solid base in the sciences and they would be able to apply that base in an integrative way in order to build a strong knowledge traditionally referred to as natural history.
Students should first complete GEO
202 *Earth Systems Science (4) or GEO
221 *Environmental Geology (4).

## Earth Systems Core

Select a minimum of 11 credits from below:
GEO 201. *Physical Geology (4)
or *SOIL 205. Soil Science (3)
GEO 203. *Evolution of Planet Earth (4)
GEOG 323. ^Climatology (4)
or ATS 210. Introduction to Atmospheric
Sciences (3)
or ATS 310. Meteorology (4)
OC 201. *Oceanography (4)
Students should select an additional course in atmosphere, hydrosphere, and geosphere from the approved list in the Environmental Sciences and Humanities core (minimum of 11 credits).

## Electives

Select from at least 2 categories
from below:

## Atmosphere:

ATS 411. Thermodynamics and Cloud
Microphysics (4)
ATS 412. Atmospheric Radiation (3)
ATS 413. Atmospheric Chemistry (3)
ATS 420. Principles of Climate: Physics of Climate and Climate Change (4)
ATS 421. Climate Modeling (4)
GEO 484. Introduction to Biogeochemistry (3)

## Earth History:

GEO 308. *Global Change and Earth
Sciences (3)
GEO 370. Stratigraphy and Sedimentology (4)

GEO 481. Glacial Geology (4)
GEO 486. Quaternary Paleoclimatology (3)
GEO 488. Quaternary Stratigraphy on North America (3)

## Earth's Surface:

FE 430. Watershed Processes (4)
GEO 322. Surface Processes (4)
GEO 340. Structural Geology (4)
GEO 432. Applied Geomorphology (3)
GEO 433. Coastal Geomorphology (3)

GEO 487. Hydrogeology (4)
GEOG 423. Snow Hydrology (3)

## Oceans:

FW/OC 434. Estuarine Ecology (4)
OC 332. Coastal Oceanography (3)
OC 333. Oceans, Coasts, and People (3)
OC 334. ^Polar Oceanography (3)
OC 430. Principles of Physical
Oceanography (4)
OC 433. Coastal and Estuarine
Oceanography (3)
OC 440. Biological Oceanography (4)
OC 450. Chemical Oceanography (3)
OC 460. Geological Oceanography (3)

## Soils:

SOIL 366. Ecosystems of Wildland Soils (3)
SOIL 435. Environmental Soil Physics (3)
SOIL 445. Environmental Soil Chemistry (3)
SOIL 455. Biology of Soil Ecosystems (4)
SOIL 466. Soil Morphology and
Classification (4)
SOIL 468. Soil Landscape Analysis (4)
Human-Environment Interaction:
GEO 304. *Geography of Natural Hazards (3)

GEO 306. *Minerals, Energy, Water, and the Environment (3)
GEO 307. *National Park Geology and Preservation (3)
GEOG 324. Geography of Life: Species
Distributions and Conservation (4)
GEOG 430. Resilience-Based Natural Resource Management (3)
GEOG 450. Land Use in the American West (3)

GEOG 441. International Water Resources Management (3)
GEOG 440. Water Resources Management in the United States (3)
GEOG 431. Global Resources and Development (3)
GEOG 439. *Geography of Food and Agriculture (3)

## Methods:

GEOG 201. *Foundations of Geospatial Science and GIS (4)
GEOG 360. GIScience I: Geographic Information Systems and Theory (4)
GEOG 370. Geovisualization: Cartography (4)

GEOG 480. Remote Sensing I: Principles and Applications (4)

## Total Credits greater than or $=\mathbf{2 7}$

## Footnotes:

* Baccalaureate Core Course (BCC)

## ENVIRONMENTAL AGRICULTURE

 OPTION
## Also available Via Ecampus.

The Environmental Agriculture option has a core of agricultural sciences courses and includes a variety of course possibilities in the areas of agricultural ecology and production, as well as societal issues related to agriculture and environmental science.
Students should first complete:
SOIL 205. *Soil Science (3) and SOIL 206.
*Soil Science Laboratory for Soil 205 (1) or SOIL 395. *World Soil Resources (3)

## Core

Select a minimum of 6-8 credits from below:
AGRI 411. Introduction to Food Systems: Local to Global (3)
ANS 121. *Introduction to Animal Sciences (4)

CROP 280. Introduction to the Complexity of Oregon Cropping Systems (4)
CROP/HORT 300. Crop Production in Pacific Northwest Agroecosystems (4) or CROP 200. Crop Ecology and Morphology (3)
ENT 311. Introduction to Insect Pest Management (4)
HORT 260. Organic Farming and Gardening (3)

HORT 301. The Biology of Horticulture (3)
HORT 318. ^Applied Ecology of Managed Ecosystems (3)

## Ecology and Production

Select a minimum of 9 credits from below:
AGRI 438. Exploring World Agriculture (2)
ANS 215. Beef/Dairy Industries (3)
ANS 216. Sheep/Swine Industries (3)
ANS 217. Poultry Industries (3)
BEE 439. Irrigation Principles and Practices (4)

BOT 313. Plant Structure (4)
BOT 350. Introductory Plant Pathology (4)
CROP 310. Forage Production (4)
CROP 319. Principles of Field Crop
Production (3)
CRP 440. Weed Management (4)
ENT 322. Honey Bee Biology and
Beekeeping (3)
FES/HORT 350. Urban Forestry (3)

## Ecampus only

FES/NR/RNG 477. *Agroforestry (3)
HORT 226. Landscape Plant Materials I:
Deciduous Hardwoods and Conifers (4)
HORT 228. Landscape Plant Materials II:
Spring Flowering Trees and Shrubs (4)
HORT 285. Permaculture Design and
Theory: Certificate Course (4)
HORT 311. Plant Propagation (4)
HORT 314. Principles of Turfgrass
Maintenance (4)
HORT 315. Sustainable Landscapes:
Maintenance, Conservation, Restore (4)
HORT 316. Plant Nutrition (4)
HORT 351. Floriculture and Greenhouse Systems (4)
HORT 361. Plant Nursery Systems (4)
HORT 380. Sustainable Landscape Design (3)
PBG 431. Plant Genetics Recitation (1)
RNG 442. Rangeland-Animal Relations (4)

## Societal Issues

Select a minimum of 6 credits from below:
AEC 372. Agricultural Cooperatives (3)
AEC 442. Agricultural Business
Management (4)
ANS 315. *Contentious Social Issues in Animal Agriculture (3)
ANTH 361. Food Studies in a Social Justice Perspective (4)
ANTH 486. Anthropology of Food (4)
CROP 330. *World Food Crops (3)

ENT/HORT 331. *Pollinators in Peril (3)
FES/TOX 435. *Genes and Chemicals in Agriculture: Value and Risk (3)
GEOG 432. *Geography of Food and Agriculture (3)
HORT 319. Restoration Horticulture (3)

## Ecampus only

HORT 330/ENT 300. *Plagues, Pests and Politics (3)
SUS 350. *Sustainable Communities (4) 400-level CROP, ENT, HORT courses may be added in consultation with an advisor.

## Total credits=27

Footnotes:
*Baccalaureate Core Course (BCC)
Option Code: $\mathbf{8 4 9}$

## ENVIRONMENTAL POLICY AND ECONOMICS OPTION

## Also available via Ecampus.

The Environmental Conservation and Sustainability option is for students interested in environmental law, policy and advocacy.
Students must first complete
ECON 201. *Introduction to Mi-
croeconomics (4)
Core Courses (11)
AEC/ECON 352. *Environmental
Economics and Policy (3)
PS 201. *Introduction to United States
Government and Politics (4)
PS 475. Environmental Politics and Policy (4)
Electives (choose a minimum of 16 credits from list below)

## Economics

AEC 311. Intermediate Applied Economics
I: Producers and Consumers (4)
AEC 313. Intermediate Applied Economics
II: Markets, Welfare \& Policy (4)
AEC 351. *Natural Resource Economics and Policy (3)
AEC 434. ${ }^{\wedge}$ Measuring Resource and Environmental Impacts (4)
AEC 454. Rural Development Economics and Policy (3)
AEC 461. ^Agricultural and Food Policy Issues (4)
ECON 311. Intermediate Microeconomic Theory (4)
ECON 428. ^Introduction to Economic Research (4)
ECON 435. Public Economics (4)
ECON 439. ^Public Policy Analysis (4)
ECON 466. ${ }^{\wedge}$ Economics of Traditional and Renewable Energy (4)

## Policy

AEC 432. Environmental Law (4)
AEC 452. Marine Economics (3)
FOR 460. ^Forest Policy (4)
FOR 462. Natural Resource Policy and Law (3)

FW 415. Fisheries and Wildlife Law and Policy (3)
FW 422. Introduction to Ocean Law (3)
PS 311. Congressional Politics (4)
PS 314. Interest Group Politics (4)
PS 315. The Politics of Media (4)
PS 316. Public Opinion and Politics (4)
PS 331. *State and Local Politics (4)

PS 455. The Politics of Climate Change (4)
PS 461. Environmental Political Theory (4)
PS 473. US Energy Policy (4)
PS 476. *Science Politics (4)
PS 477. International environmental Politics and Policy (4)
PS 478. Renewable Energy Policy (4)

## Applications

ANS/FES/FW/SOC 485. *Consensus and Natural Resources (3)
BEE 411. Global Environmental Change: Using Data to Inform Decisions (3)
FES/TOX 435. *Genes and Chemicals in Agriculture: Value and Risk (3)
FOR 330. Forest Resource Economics I (4)
FW 340. *Multicultural Perspectives in Natural Resources (3)
GEO 309. *Environmental Justice (3)
GEOG 330. ${ }^{\wedge *}$ Geography of International
Development and Globalization (3)
GEOG 331. *Population, Consumption, and Environment (3)
GEOG 430. Resilience-Based Natural Resource Management (3)
GEOG 431. Global Resources and Development (3)
GEOG 440. Water Resource Management in the U.S. (3)
GEOG 441. International Water Resources Management (3)
GEOG 450. Land Use in the American West (3)

HST 481. *Environmental History of the United States (4)
PS 455. The Politics of Climate Change (4)
SOC 360. *Population Trends and Policy (4)
SOC 480. *Environmental Sociology (4)
SOC 481. *Society and Natural Resources (4)

## Total Credits=31

${ }^{\wedge}$ Writing Intensive Course (WIC)

## Option Code: 844

ENVIRONMENTAL SCIENCE EDUCATION OPTION
The Environmental Science Education option in Environmental Sciences prepares students for entry into OSU's Education Double Degree Program or the MS Professional Teacher Education Program. Environmental Sciences students preparing to teach in secondary school can choose either to pursue a state endorsement in Integrated Science (to teach any middle school science class or high school environmental science, earth science, or another course that is not biology, chemistry, or physics) or Biology, for all secondary biology classes. Students should consult the Content Mastery Sheets for these subjects that are provided by the OSU College of Education. The courses required are subject to change.

## Environmental Science Education <br> Core (12-13 credits)

Practicum Experience (3 credits)
SED 406. Projects (1-16)
or ED 309. Field Practicum (3-6)
or ED 409. Practicum/Clinical Experience
(1-16)
Education Courses (6 credits)
ED 216. *Purpose, Structure, \& Function of Education in a Democracy (3)
ED 219. Civil Rights and Multicultural Issues in Education (3)
SED 412. Technology Foundations for Teaching Math and Science (3)
SED 413. Inquiry in Science and Science Education (3)
Human Development Course (3-4 credits)
ED 253. Learning Across the Lifespan (3)
ED 512. Psychology of the Adolescent (3)
HDFS 313. Adolescent Development (4)
Special Course Requirements by Program:

- Required for students in the Double Degree Program: ED 216, ED 219, ED 253
- Required for students in the PreMS Professional Teacher Education Program: SED 412, SED 413
- Students preparing for the MS Professional Teacher Education Program must take either HDFS 313 or ED 512.
Environmental Sciences students preparing to teach in secondary school can choose either to pursue a state endorsement in Integrated Science (to teach any middle school science class or high school environmental science, earth science, or another course at is not biology, chemistry, or physics) or Biology, for all secondary biology classes. Students should consult the Content Mastery
Sheets for these subjects that are provided by the OSU College of Education. The courses required are subject to change.

## Upper-Division Science (14-15 credits)

In consultation with your advisor, select additional upper-division science courses from Atmospheric Sciences (ATS), Biochemistry and Biophysics (BB), Botany (BOT), Geology (GEO), History of Science (HSTS), Microbiology (MB), Oceanography (OC) or Zoology (Z).

BI 311. Genetics (4) and BI 445. Evolution (3) are recommended but not required.

## Environmental Sciences students seeking an endorsement in Integrated Science, must take:

ATS 210. Introduction to the Atmospheric Sciences (3)
or GEOG 323. ${ }^{\wedge}$ Climatology (4)
GEO 202. *Earth Systems Science (4)
GEO 203. *Evolution of Planet Earth (4)
or GEO 308. *Global Change and Earth Sciences (3)
OC 201. *Oceanography (4)

## Environmental Sciences students

seeking an endorsement in Biology, must take:
CH 231. *General Chemistry (4)
CH 232. *General Chemistry (4)
CH 233. *General Chemistry (4)

## Footnotes:

* Baccalaureate Core Course (BCC)
${ }^{\wedge}$ Writing intensive Course (WIC)

## Option Code: 846

## ENVIRONMENTAL WATER

 RESOURCES OPTION
## Also available via Ecampus.

The Environmental Sciences BS with the option in Water Resources provides a solid science base for domestic and international work related to water.
Students must first complete GEOG 340. *Introduction to Water Science and Policy (3) or SOIL 335. *Introduction to Water Science and Policy (3).

The option requires a minimum of 27 credits from the three categories below.

## Core

Choose a minimum of one course, additional courses count in the Sciences category:
CE 412. Hydrology (4)
FE 430. Watershed Processes (4)
or FE 434. Forest Watershed Management (4)

GEO 487. Hydrogeology (4)

## Sciences

Choose a minimum of two courses:
BEE 458. Nonpoint Source Pollution
Assessment and Control (3)
CE 311. Fluid Mechanics (4)
CE 313. Hydraulic Engineering (4)
CE 417. Hydraulic Engineering Design (4)
FW 456. Limnology (5)
FW 479. Wetlands and Riparian Ecology (3)
GEO 322. Surfaces Processes (4)
GEO 432. Applied Geomorphology (3)
GEOG 323. ${ }^{\wedge}$ Climatology (4)
GEOG 423. Snow Hydrology (3)
Resources and Policy
Choose a minimum of two courses:
AEC 351. *Natural Resource Economics and
Policy (3)
AEC/ECON 352. *Environmental
Economics and Policy (3)
ENVE 456. Sustainable Water Resources
Development (3)
FW 431. Dynamics of Marine Biological Resources (4)
GEOG 430. Resilience-Based Natural
Resource Management (3)
GEOG 440. Water Resources Management in the United States (3)
GEOG 441. International Water Resources Management (3)
GEOG 452. Sustainable Site Planning (3)
OC 333. Oceans, Coasts, and People (3)
RNG 355. Desert Watershed Management (4)
RNG 455. Riparian Echydrology and Management (4)
Total Credits = $\mathbf{2 7}$

* Baccalaureate Core Course
${ }^{\wedge}$ Writing Intensive Course
Option Code: 847
GEOGRAPHY AND GEOSPATIAL
SCIENCE (BS, CRED, HBS)
Geography is a scientific approach to understanding people's relationship with their environment and resources. Geography is central to many important
issues, including planning for land-use change, global studies, and adaptation to climate change. Geospatial science applies techniques, including web mapping, geovisualization, remote sensing, and geographic information systems (GIS), to address these issues. Geographic thinking and geospatial technology are present in every aspect of modern life, and career opportunities abound for students trained in geography and geospatial science.

Students majoring in Geography and Geospatial Science complete work in five major areas:

1. OSU's baccalaureate core
2. Basic statistics and math
3. Geography and Geospatial Science core
4. Electives
5. Experiential learning (field courses and internship or research)
The major consists of 85 credits of course work. In addition to baccalaureate core courses, the major consists of
6. supporting mathematics and statistics ( 12 cr );
7. foundational skills in geography and geospatial science ( 17 cr ),
8. upper-division geospatial science (12 cr);
9. experiential learning ( 9 cr );
10. seminar ( 1 cr );
11. upper-division electives ( 31 cr ); and
12. capstone course ( 3 cr )

## Supporting Skills (12)

MTH 112. *Elementary Functions (4)
ST 351. Introduction to Statistical Methods (4)

ST 352. Introduction to Statistical Methods (4)

## Foundational Skills (17)

GEOG 105. *Geography of the Non-Western World (3)
or GEOG 106. *Geography of the Western World (3)
GEOG 102. *Physical Geography (4)
or GEO 202. *Earth Systems Science (4)
GEOG 103. *Human Geography (3) or GEOG 203. *Human-Environment Geography (3)
GEOG 201. *Foundations of Geospatial Science and GIS (4)
GEOG 240. *Climate Change, Water, and Society (3)
or GEOG 250. *Land-Use Planning for Sustainable Communities (3) or GEOG 251. Geography of Disaster Management (3)

## Upper-Division Geospatial Science <br> Techniques and Problem-Solving (12) <br> GEOG 360. GIScience I: Geographic Information Systems and Theory (4) <br> GEOG 370. Geovisualization: Cartography (4) <br> GEOG 480. Remote Sensing I: Principles and Applications (4)

## Seminar (1)

GEOG 407. Seminar (1)

Experiential Learning (9)
GEOG 295. Introduction to Geographic Field Research (3)
GEOG 410. Internship (3)
or GEOG 401. Research (3)
or GEOG 403. Thesis (3)
GEOG 495. Field Geography of Oregon I (3)
Capstone (3)
GEOG 464. Geospatial Perspectives on Intelligence, Security, and Ethics (3)
Upper-Division Geography and Geospatial Science Electives (31) GEOG 323. ^Climatology (4) or GEOG 324. Geography of Life: Species Distributions and Conservation (4)

## Select 27 credits from lists below,

at least five courses at 400 level

## Geospatial Science

GEOG 361. GIScience II: Analysis and Applications (4)
GEOG 371. Geovisualization: Web Mapping (4)

GEOG 462. GIScience III: Programming for Geospatial Analysis (4)
GEOG 463. GIScience IV: Spatial Modeling (4)

GEOG 472. Geovisualization: Geovisual Analytics (3)
GEOG 481. Remote Sensing II: Digital Image Processing (4)

## International Studies

GEOG 311. *Geography of Africa (3)
GEOG 313. *Geography of Asia (3)
GEOG 314. *Geography of Latin America (3)

GEOG 330. *^Geography of International
Development and Globalization (3)
GEOG 431. Development and Global Resources (3)

## Water Resources

GEOG 340. *Introduction to Water Science and Policy (3)
GEOG 423. Snow Hydrology (4)
GEOG 424. Hydrology for Water Resource Management (3)
GEOG 440. Water Resources Management in the United States (3)
GEOG 441. International Water Resources Management (3)

## Resources, Hazards, and Planning

GEOG 300. *Sustainability for the Common Good (3)
GEOG 331. *Population, Consumption and Environment (3)
GEOG 350. *Geography of Natural Hazards (3)

GEOG 430. Resilience-Based Natural Resource Management (3)
GEOG 432. *Geography of Food and Agriculture (3)
GEOG 450. Land Use in the American West (3)

GEOG 451. Planning Principles and
Practices for Resilient Communities (4)
GEOG 452. Sustainable Site Planning (3)
Total=85

## SAMPLE FOUR-YEAR PLAN: GEOGRAPHY AND GEOSPATIAL SCIENCE

## Freshman Year (14)

GEOG 102. *Physical Geography (4)
or GEO 202. *Earth Systems Science (4)
GEOG 103. *Human Geography (3)
or GEOG 203. *Human-Environment
Geography (3)
GEOG 105. *Geography of the Non-Western World (3)
or GEOG 106. * Geography of the
Western World (3)
MTH 112. *Elementary Functions (4)

## Sophomore Year (18)

GEOG 201. *Foundations of Geospatial Science and GIS (4)
GEOG 240. *Climate Change, Water, and Society (3)
or GEOG 250. *Land Use Planning for Sustainable Communities (3) or GEOG 251. *Geography of Disaster Management (3)
GEOG 295. Introduction to Geographic Field Research (3)
ST 351. Introduction to Statistical Methods (4)

ST 352. Introduction to Statistical Methods (4)

## Junior Year (up to 42)

Fall (14)
GEOG 300. *Sustainability for the Common Good (3)
or GEOG 331. *Population, Consumption, and Environment (3)
or GEOG 340. *Introduction to Water Science and Policy (3)
GEOG 360. GIScience I: Geographic Information Systems and Theory (4)
GEOG 370. Geovisualization: Cartography (4)

GEOG 450. Land Use in the American West (3)

## Winter (14)

GEOG 300. *Sustainability for the Common Good (3)
or GEOG 330. *^Geography of
International Development and Globalization (3)
or GEOG 350. *Geography of Natural Hazards (3)
GEOG 361. GIScience II: Analysis and Applications (4)
GEOG 371. Geovisualization: Web Mapping (4)

GEOG 423. Snow Hydrology (3)
or GEOG 424. Hydrology for Water Resources Management (3)
or GEOG 441. International Water
Resources Management (3)

## Spring (14)

GEOG 300. *Sustainability for the Common Good (3)
or GEOG 340. *Introduction to Water Science and Policy (3)
or GEOG 430. Resilience-Based Natural Resource Management (3)
or GEOG 440. Water Resources
Management in the United States (3)
GEOG 323. ^Climatology (4)
or GEOG 324. Geography of Life: Species
Distributions and Conservation (4)

GEOG 431. Global Resources and Development (3)
or GEOG 432. Geography of Food and Agriculture (3)
GEOG 462. GIScience III: Programming for Geospatial Analysis (4)
or GEOG 472. Geovisualization: Geovisual Analytics (3)
Senior Year (up to 27)
Fall (8)
GEOG 407. Seminar (1)
GEOG 450. Land Use in the American West (3)
or GEOG 440. Water Resources Management in the United States (3) or GEOG 463. GIScience IV: Spatial Modeling (4)
GEOG 480. Remote Sensing I: Principles and Applications (4)

## Winter (10)

GEOG 410. Internship (1-16)
or GEOG 401. Research (1-16) or GEOG 403. Thesis (3)
GEOG 423. Snow Hydrology (3)
or GEOG 424. Hydrology for Water Resources Management (3)
or GEOG 441. International Water
Resources Management (3)
or GEOG 451. Planning Principles and
Practices for Resilient Communities (4)
GEOG 481. Remote Sensing II: Digital Image Processing (4)

## Spring (9)

GEOG 430. Resilience-Based Natural Resource Management (3) or GEOG 452. Sustainable Site Planning (3)
or GEOG 472. Geovisualization: Geovisual Analytics (3)
GEOG 464. Geospatial Perspectives on
Intelligence, Security, and Ethics (3)
GEOG 495. Field Geography of Oregon I (3)

## SAMPLE TWO-YEAR PLAN: GEOGRAPHY AND GEOSPATIAL SCIENCE

Up to 29 transfer credits may be accepted representing the equivalent of:
GEOG 102. *Physical Geography (4) or GEO 202. *Earth Systems Science (4)
GEOG 103. *Human Geography (3) or GEOG 203. *Human-Environment Geography (3)
GEOG 105. *Geography of the Non-Western World (3)
or GEOG 106. * Geography of the Western World (3)
GEOG 201. *Foundations of Geospatial Science and GIS (4)
GEOG 240. *Climate Change, Water, and Society (3)
or GEOG 250. *Land Use Planning for Sustainable Communities (3)
or GEOG 251. *Geography of Disaster
Management (3)
MTH 112. *Elementary Functions (4)
ST 351. Introduction to Statistical Methods (4)
and ST 352. Introduction to Statistical Methods (4)
Junior Year (up to 42)

Fall (14)
GEOG 295. Introduction to Geographic Field Research (3)
GEOG 300. *Sustainability for the Common Good (3)
or GEOG 331. *Population, Consumption, and Environment (3)
or GEOG 340. *Introduction to Water Science and Policy (3)
GEOG 360. GIScience I: Geographic
Information Systems and Theory (4)
GEOG 370. Geovizualization: Cartography (4)

Winter (14)
GEOG 300. *Sustainability for the Common Good (3)
or GEOG 330. *^Geography of
International Development and Globalization (3)
or GEOG 350. *Geography of Natural Hazards (3)
GEOG 361. GIScience II: Analysis and Applications (4)
GEOG 371. Geovisualization: Web Mapping (4)

GEOG 423. Snow Hydrology (3)
or GEOG 424. Hydrology for Water
Resources Management (3)
or GEOG 441. International Water
Resources Management (3)

## INTERNATIONAL STUDIES <br> (BA, HBA)

See International Programs for information on the International Studies Degree.
Major Code: 910

## SUSTAINABILITY (BS, HBS)

## Also available via Ecampus.

OSU Main Campus Contact: Ann
Scheerer, 3017B Agricultural and Life Sciences Building, Oregon State University, Corvallis, OR 97331; 541-737-5687; Ann. Scheerer@oregonstate.edu or the Sustainability Double Degree academic advisor, Sus.Advising@oregonstate.edu.

OSU-Cascades Campus Contact: Matt Shinderman, Forest Ecosystems and Society, Oregon State University Cascades; 541-322-3159; matt.shinderman@ osucascades.edu.

## Sustainability Core (17-20)

All Sustainability Majors and Minors must take the five courses that make up the Sustainability Core: SUS 304, SUS
350, an ecological sustainability course
(SUS 102 recommended), a social sustainability course (choose one below), and an economic sustainability course (choose one below):
SUS 304. *Sustainability Assessment (4)
SUS 350. *Sustainable Communities (4)

## Ecological Dimensions of

## Sustainability (3-4)

## Select 3 to 4 credits from the

following:
BI 301. *Human Impacts on Ecosystems (3)
SUS 102. *Introduction to Environmental
Science and Sustainability (4)

## Social Dimensions of Sustainability

(3-4)
Select 3 to 4 credits from the following:
SOC 381. Social Dimensions of
Sustainability (4)(Ecampus only)
SOC 480. *Environmental Sociology (4)
SOC 481. *Society and Natural Resources (4)
SOC/FES/ANS/FW 485. *Consensus and
Natural Resources (3)
SUS 420. Social Dimensions of Sustainability (3)(Ecampus, Cascades Campus)

## Economic Dimensions of

Sustainability (3-4)
Select 3 to 4 credits from the

## following:

AEC 250. *Introduction to Environmental Economics and Policy (3)
AEC 351. *Natural Resources Economics and Policy (3)
AEC/ECON 352. *Environmental Economics and Policy (3)
AEC 434. ${ }^{\wedge}$ Measuring Resource and Environmental Impacts (4)

## Practicum (3-12)

Sustainability majors are required to complete a minimum of 3 Practicum credits. Before registering for a practicum students must get practicum approved by Sustainability Double Degree advisor. Email: Sus.advising@oregonstate.edu.
SUS 401. Research (3-12)
SUS 410. Internship (3-12)
SUS 499. Special Topics (3-12)
Note: SUS 410 credits may be achieved by participation in an $\mathrm{IE}_{3}$ Global Internship with advisor approval.

## Remaining Elective Credits (4-16)

In addition to the required credits specified above, students must work with the sustainability program advisor to select courses relevant to their discipline and career path interests.

## Credits total=36

Classes that can be used to fulfill remaining requirements are listed below. Students are NOT limited to taking courses within their primary major of study. The Sustainability advisor(s) will approve courses not listed here if they have an obvious link to sustainability and fulfill the intent of the double degree. See the OSU Sustainability Office list of sustain-ability-related courses.

## Business

AEC 250. *Introduction to Environmental Economics and Policy (3)
AEC 253. *Environmental Law, Policy and Economics (4)
AEC 351. *Natural Resource Economics and Policy (3)
AEC/ECON 352. *Environmental Economics and Policy (3)
AEC 434. ${ }^{\wedge}$ Measuring Resource and
Environmental Impacts (4)
BA 302. Business Process Management (4)
BA 351. Managing Organizations (4)
BA 352. Managing Individual and Team Performance (4)
BA 362. Social Entrepreneurship and Social Initiatives (4)
BA 432. Environmental Law, Sustainability and Business (4)
BA 465. *Systems Thinking and Practice (4)
BA 466. Integrative Strategic Experience (4)
ECON 202. *Introduction to
Macroeconomics (4)
ECON 311. Intermediate Microeconomic Theory (4)
ECON 315. Intermediate Macroeconomic Theory (4)
MGMT 452. Leadership (4)

## Engineering

BEE 221. Fundamentals of Ecological Engineering (3)

BEE 320. Biosystems Analysis and Modeling (4)

BEE 322. Ecological Engineering
Thermodynamics and Transfer Process (4)
CCE 422. Green Building Materials (3)
CHE 450. Conventional and Alternative Energy Systems (3)
CHE 451. Solar Energy Technologies (3)
ECE 438. Electric and Hybrid Vehicles (4)
ENGR 350. *Sustainable Engineering (3)
ENVE 321. Environmental Engineering
Fundamentals (4)
ENVE 322. Fundamentals of Environmental Engineering (4)
HEST 310. *Introduction to Community
Engagement and Community-Based Design (3)

## Natural Sciences

ANS/FES/FW/SOC 485. *Consensus and Natural Resources (3)
ATS 320. *The Changing Climate (3)
BI 301. *Human Impacts on Ecosystems (3)
BI 306. *^Environmental Ecology (3)
BI 348. *Human Ecology (3)

## UNDERGRADUATE MINORS

## EARTH SCIENCES MINOR

The Earth Sciences minor is designed for students who have a broad interest in Earth Sciences. Earth Science majors and Environmental Sciences majors are restricted from taking this minor.

## Required ( 15 credits)

ATS 320. *The Changing Climate (3)
[Terminated fall 2017]
GEO 201. *Physical Geology (4)
or GEO 101. *The Solid Earth (4)
or GEO 221. *Environmental Geology (4)
GEO 202. *Earth Systems Science (4)
or GEOG 102. *Physical Geography (4)
OC 201. *Oceanography (4)
Select 4 courses from the following
list (total upper-division elective credits must be 12):
ATS 210. Introduction to Atmospheric Sciences (3)
GEO 305. *Living with Active Cascade Volcanoes (3)
GEO 306. *Minerals, Energy, Water, and the Environment (3)
GEO 307. *National Park Geology and Preservation (3)
GEO 308. *Global Change and Earth
Sciences (3)
GEOG 323. ${ }^{\wedge}$ Climatology (4)
GEOG 324. Geography of Life: Species
Distributions and Conservation (4)
GEOG 340. *Introduction to Water Science and Policy (3)
GEO 380. *Earthquakes in the Pacific Northwest (3)
GEOG 431. Global Resources and
Development (3)
GEOG 441. International Water Resources Management (3)
OC 332. Coastal Oceanography (3)
OC 333. Oceans, Coasts and People (3)
OC 334. ^Polar Oceanography (3)

## Footnotes:

Minor Code: 835

## ENYIRONMENTAL SCIENCES MINOR

## Also available via Ecampus.

Courses taken in the "Humans and the Environment" section of the Environmental Sciences minor must be unique to the minor and cannot be used to satisfy major or other minor requirements. Course substitutions must be selected in consultation with an environmental sciences advisor. Substitutions must cover material in the same course category (natural environmental systems or humans and the environment) at a similar or higher level. Credits must sum to a minimum of 27.

## Core: Natural Environmental

## Systems (12-14)

ATS 210. Introduction to the Atmospheric Sciences (3)
or ATS 420. Principles of Climate: Physics
of Climate and Climate Change (4)
or GEOG 323. ^Climatology (4)
BI 370. Ecology (3)
or FES 341. Forest Ecology (3)
GEO 202. *Earth Systems Science (4)
or GEO 221. *Environmental Geology (4)
or SOIL 205. *Soil Science (3)
or SOIL 395. *World Soil Resources (3)
OC 201. *Oceanography (4)
or FW 456. Limnology (5)
or GEO 487. Hydrogeology (4)
or GEOG 340. *Introduction to Water
Science and Policy (3)

## Humans and the Environment (15-19)

Select at least one course in each of the following five categories to bring the total number of credits to 27 or more.
One course in economics, selected from the following:
AEC 250. *Introduction to Environmental Economics and Policy (3)
ECON 201. *Introduction to
Microeconomics (4)
ECON 202. *Introduction to
Macroeconomics (4)
FW 462. Ecosystem Services (3)
One course in environmental law and policy, selected from the following:
AEC 253. *Environmental Law, Policy, and Economics (4)
AEC 351. *Natural Resource Economics and Policy (3)
AEC/ECON 352. *Environmental
Economics and Policy (3)
AEC 432. Environmental Law (4)
FOR 462. Natural Resource Policy and Law (3)

FW 415. Fisheries and Wildlife Law and Policy (3)
PS 475. Environmental Politics and Policy (4)
PS 476. *Science and Politics (4)
PS 477. International Environmental Politics and Policy (4)
SOC 360. *Population Trends and Policy (4)
One course in ethics and
environmental ethics, selected from the following:

ANS/FES/FW/SOC 485. *Consensus and
Natural Resources (3)
ANTH 481. *Natural Resources and
Community Values (3)
CH 374. *Technology, Energy and Risk (3)
FES/MCB/TOX 435. *Genes and Chemicals
in Agriculture: Value and Risk (3)
FW 340. *Multicultural Perspectives in
Natural Resources (3)
GEO 309. *Environmental Justice (3)
PHL 325. *Scientific Reasoning (4)
PHL 439. Philosophy of Nature (3)
PHL 443. *World Views and Environmental Values (3)
PHL/ES 448. Native American Philosophies (4)

PS 461. Environmental Political Theory (4)
SOC 456. *Science and Technology in Social Context (4)
SOC 480. *Environmental Sociology (4)
SOC 481. *Society and Natural Resources (4)
WGSS 440. *Women and Natural Resources (3)

One course in the human
environment, selected from the following:
AG 301. *Ecosystem Science of Pacific NW Indians (3)
ATS 320. *The Changing Climate (3)
[Terminated fall 2017]
BI 301. *Human Impacts on Ecosystems (3)
BI 348. *Human Ecology (3)
ENSC 479. *^Environmental Case Studies (3)

FW 325. *Global Crises in Resource Ecology (3)

GEO 308. *Global Change and Earth Sciences (3)
GEOG 300. *Sustainability for the Common Good (3)
HST 481. *Environmental History of the
United States (4)
HSTS/FW 470. *Ecology and History:
Landscapes of the Columbia Basin (3)
SOIL 395. *World Soil Resources (3)
Ecampus only.
Z 349. *Biodiversity: Causes, Consequences, and Conservation (3)
One course in environmental management, selected from the following:
BI/FW/Z 464. Marine Conservation Biology (3)

BOT 415. Forest Insect and Disease Management (5) [Terminated winter 2017]
FES 352. Wilderness Management (3)
FES 355. Management for Multiple Resource Values (3)
FES 365. *Issues in Natural Resources Conservation (3) Ecampus only.
FES/FW 445. Ecological Restoration (4)
FOR 346. Topics in Wildland Fire (3)
FW 251. Principles of Fish and Wildlife Conservation (3)
FW 323. Management Principles of Pacific Salmon in the Northwest (3)
FW 326. Integrated Watershed Management (3)

FW 435. ${ }^{\wedge}$ Wildlife in Agricultural
Ecosystems (3)
FW 479. Wetlands and Riparian Ecology (3) GEO 306. *Minerals, Energy, Water and the Environment (3)

^ Writing Intensive Course (WIC)

## Minor Code: 758

## GEOGRAPHY MINOR

## Also available via Ecampus.

The Geography minor will allow interested non-majors to explore:

- how the Earth works,
- the people who live on its surface,
- the value of accessing and properly using geographic information, and
- how to bring concepts of relative location, pattern, and spatial process to bear on key societal questions.
The minor consists of 14 credits of core courses and at least 13 credits of elective courses for a total of 27 credits. Students must complete a minimum of 14 unique credits in the minor that do not fulfill requirements of majors, minors, options or certificates.

## Core Requirements (14)

One course in each of the following areas:
Human and Regional Geography (choose one):
GEOG 103. *Human Geography (3) EC
GEOG 105. *Geography of the Non-Western

## World (3) EC

GEOG 106. *Geography of the Western World (3) EC
GEOG 203. *Human-Environment Geography (3) EC

## Physical Geography (choose one):

GEO 202. *Earth Systems Science (4)
GEO 203. *Evolution of Planet Earth (4)
GEO 221. *Environmental Geology (4) EC
GEOG 102. *Physical Geography (4) EC
OC 103. *Exploring the Deep: Geography of the World's Oceans (4) EC

## Sustainability

GEOG 300. *Sustainability for the Common Good (3) EC

## Geographic Techniques (choose one):

GEOG 201. *Foundations of Geospatial
Science and GIS (4) EC

GEOG 360. Geographic Information
Systems and Theory (4) EC
GEOG 370. Geovisualization: Cartography (4) $E C$

GEOG 371. Geovisualization: Web Mapping (4)

## Electives (13)

Select any combination of additional courses from the list below totaling at least 13 credits. Courses are grouped below by focus area; students may choose courses from one or more focus areas.

## Physical Geography:

FE 430. Watershed Processes (4) EC
GEO 306. *Minerals, Energy, Water, and the
Environment (3) EC
GEOG 323. ^Climatology (4) EC
GEOG 324. Geography of Life: Species
Distributions and Conservation (4)
GEOG 423. Snow Hydrology (3)

## International Studies

GEOG 311. *Geography of Africa (3)
GEOG 313. *Geography of Asia (3)
GEOG 330. *^Geography of International
Development and Globalization (3)
GEOG 431. Global Resources and Development (3)

## Water Resources

GEOG 340. *Introduction to Water Science and Policy (3)
GEOG 423. Snow Hydrology (3)
GEOG 424. Hydrology for Water Resources Management (3)
GEOG 440. Water Resources Management in the United States (3)
GEOG 441. International Water Resources Management (3)

## Resources, Hazards, and Planning

GEO 305. *Living with Active Cascade Volcanoes (3) EC
GEO 308. *Global Change and Earth Sciences (3) EC
GEO 380. *Earthquakes in the Pacific Northwest (3) EC
GEOG 331. *Population, Consumption, and Environment (3)
GEOG 350. *Geography of Natural Hazards (3)

GEOG 430. Resilience-based Natural
Resource Management (3)
GEOG 432. Geography of Food and Agriculture (3)
GEOG 450. Land Use in the American West (3)

GEOG 451. Planning Principles and
Practices for Resilient Communities (4)
GEOG 452. Sustainable Site Planning (3)
Total = 27

## SUSTAINABILITY MINOR

Available on the Corvallis and OSU-Cascades campuses, and via Ecampus.
OSU Main Campus Contact: Ann Scheerer, 3017B Agricultural and Life Sciences Building, Oregon State University, Corvallis, OR 97331; 541-737-5687; Ann. Scheerer@oregonstate.edu or the Sustainability Double Degree academic advisor, Sus.Advising@oregonstate.edu.

OSU-Cascades Campus Contact: Matt Shinderman, Forest Ecosystems and Society, Oregon State University Cascades; 541-322-3159; matt.shinderman@ osucascades.edu.

The Sustainability minor includes core sustainability courses (5) and tailored elective courses to expand students' knowledge and experience of their primary major in the context of sustainability principles and frameworks. Courses from a student's major course of study will not count towards minor requirements. Completion of the Sustainability minor requires 27 credits beyond the 180-credit minimum for graduation.

## Sustainability Core (17-20)

All Sustainability students must take (8):
SUS 304. *Sustainability Assessment (4) SUS 350. *Sustainable Communities (4)
Social Dimensions of Sustainability:

## Select 3 to 4 credits from the

 following:SOC 381. Social Dimensions of
Sustainability (4)
SOC 480. *Environmental Sociology (4)
SOC 481. *Society and Natural Resources (4)
SOC 485/ANS 485/FES 485/FW 485.
*Consensus and Natural Resources (3)
SUS 420. Social Dimensions of Sustainability (3)
Ecological Dimensions of

## Sustainability:

## Select 3 to 4 credits from the

 following:BI 306. *^Environmental Ecology (3)
SUS 102. *Introduction to Environmental
Science and Sustainability (4)
Economic Dimensions of

## Sustainability:

## Select 3 to 4 credits from the

 following:AEC 250. *Introduction to Environmental
Economics and Policy (3)
AEC/ECON 352. *Environmental

Economics and Policy (3)
AEC 434. ${ }^{\wedge}$ Measuring Resource and
Environmental Impacts (4)

## Sustainability Individualized Study/

## Elective Credits (7-10)

Students will work with their primary academic advisor and the Sustainability academic advisor to select electives in the theme relevant to their interests for a total of 7-10 credits. Students should discuss with Sustainability advisor to apply elective courses that may not be listed below.

## Total Credits=27

## Elective Courses:

## Business

AEC 250. *Introduction to Environmental Economics and Policy (3)
AEC 253. *Environmental Law, Policy and Economics (4)
AEC 351. *Natural Resource Economics and Policy (3)
AEC/ECON 352. *Environmental
Economics and Policy (3)
AEC 434. ${ }^{\wedge}$ Measuring Resource and
Environmental Impacts (4)
BA 302. Business Process Management (4)
BA 351. Managing Organizations (4)
BA 352. Managing Individual and Team Performance (4)
BA 362. Social Entrepreneurship and Social Initiatives (4)
BA 432. Environmental Law, Sustainability and Business (4)
BA 466. Integrative Strategic Experience (4)
ECON 202. Introduction to
Macroeconomics (4)
ECON 315. Intermediate Macroeconomic Theory (4)

## Engineering

BEE 221. Fundamentals of Ecological Engineering (3)
BEE 320. Biosystems Analysis and Modeling (4)

BEE 322. Ecological Engineering
Thermodynamics and Transfer Process (4)
CCE 422. Green Building Materials (3)
CHE 450. Conventional and Alternative
Energy Systems (3)
CHE 451. Solar Energy Technologies (3)
ECE 438. Electric and Hybrid Electric Vehicles (4)
ENGR 350. *Sustainable Engineering (3)
ENVE 321. Environmental Engineering
Fundamentals (4)
ME 312. Thermodynamics (4)

## Natural Sciences

ATS 320. *The Changing Climate (3)
[Terminated fall 2017]
BI 301. *Human Impacts on Ecosystems (3)
BI 306. *^Environmental Ecology (3)
BI 370. Ecology (3)
CH 374. *Technology, Energy, and Risk (3)
CH 390. Environmental Chemistry (3)
FES/TOX 435. *Genes and Chemicals in Agriculture: Value and Risk (3)
FOR 462. Natural Resource Policy and Law (3)

FW 251. Principles of Fish and Wildlife Conservation (3)
FW 303. Survey of Geographic Information

Systems in Natural Resource (3)
FW 321. Applied Community and Ecosystem Ecology (3)
FW 325. *Global Crises in Resource Ecology (3)

FW 326. Integrated Watershed Management (3)

FW 340. *Multicultural Perspectives in Natural Resources (3)
FW 350. *Endangered Species, Society and Sustainability (3)
FW 435. ${ }^{\wedge}$ Wildlife in Agricultural
Ecosystems (3)
FW/ANS/FES/SOC 485. *Consensus and
Natural Resources (3)
FW 488. Problem Solving in Fisheries and Wildlife Science (3)
FW 489. Effective Communications in Fisheries and Wildlife Science (3)
GEO 306. *Minerals, Energy, Water and the Environment (3)
GEO 309. *Environmental Justice (3)
GEO 453. Resource Evaluation Methods/ EIS (3)
GEOG 300. *Sustainability for the Common Good (3)
GEOG 324. Geography of Life: Species
Distributions and Conservation (4)
GEOG 330. *^Geography of International
Development and Globalization (3)
GEOG 331. *Population, Consumption, and Environment (3)
GEOG 340. *Introduction to Water Science and Policy (3)
GEOG 360. GIScience I: Geographic
Information Systems and Theory (4)
GEOG 430. Resilience-Based Natural
Resource Management (3)
GEOG 431. Global Resources and
Development (3)
GEOG 441. International Water Resources Management (3)
GEOG 450. Land Use in the American West (3)

GEOG 451. Planning Principles and
Practices for Resilient Communities (4)
GEOG 452. Sustainable Site Planning (3)
PH 313. *Energy Alternatives (3)
WSE 210. *Renewable Materials Technology and Utilization (4)
WSE 266. *Industrial Hemp (3)
WSE 321. Chemistry of Renewable Materials (3)

WSE 322. Physical and Mechanical
Properties of Renewable Materials (4)
SOIL 499. Special Topics [Organic Farming] (1-16)
Z 349. *Biodiversity: Causes, Consequences and Conservation (3)

## Social Sciences/Humanities

AEC 250. *Introduction to Environmental Economics and Policy (3)
AEC 253. *Environmental Law, Policy and Economics (4)
AEC 351. *Natural Resource Economics and Policy (3)
AEC/ECON 352. *Environmental
Economics and Policy (3)
AEC 434. ${ }^{\wedge}$ Measuring Resource and Environmental Impacts (4)

## GRADUATE MAJORS

GEOGRAPHY (MA, MS, PhD)
Graduate Areas of Concentration
Geographic information science, physical geography, resource geography
Geography is the study of human use and interaction with the Earth and the identification of spatial and temporal variation in natural and human processes. Geography uses principles of mathematics, social science, and natural science to analyze and interpret change in the environment. Many geographic studies require a combination of field, laboratory, and computational work. Geography plays an important role in urban and land use planning, resource evaluation, environmental analysis, education, and cartography.

Majors in geography develop a background in regional geography, resource geography, geographic information science, and physical geography and in statistics and disciplines related to geography such as geology, forestry, and anthropology. Course offerings combined with excellent facilities and supportive electives allow students to develop particular interests such as resource management, environmental analysis, land use planning and cartography/geographic information systems/remote sensing.

The program has an applied orientation, placing emphasis on the application of geographic information science to environmental and resource utilization and problem solution. Master's degree candidates may elect a thesis or nonthesis option. No foreign language is
required for the MS degree. One foreign language is required for the PhD degrees.

Contact Program Director Julia Jones, 541-737-1224, jonesj@geo.oregonstate. edu, for additional information.

## Major Code: 5450

## GEOLOGY (MA, MS, PhD, MAIS)

Graduate Areas of Concentration
Solid Earth processes and history
(volcanology, igneous petrology, economic geology); surface Earth processes and history (Earth system history, hydrogeology and hydrology, geomorphology and surface processes, climate and biogeochemical cycles)
Geology is the study of the materials, processes, and history of the solid Earth and its fluid envelopes. Geology is an integrative field, drawing on mathematics, chemistry, physics and biology to understand the interactions of the lithosphere, biosphere, atmosphere and hydrosphere. Studies in geology commonly combine observations and measurements from field, laboratory, and computational studies. Geology plays an important role in decisions about resource use, slope stability and the safety of building projects, natural hazards standards, mineral exploration and extraction, the basic workings of the Earth, and the understanding of the effects and rates of natural and human-induced change in the environment.

Most graduate research in the geology program includes field study. An approved field course of at least 9 quarter credits or equivalent experience is prerequisite to candidacy for a graduate degree. No foreign language is required.
Contact Program Director Ed Brook, 541-737-8197, brooke@geo.oregonstate. edu, for additional information.

Students who seek training in a combination of field and laboratory techniques applying a variety of scientific problems will find very few places with the number of opportunities or the variety of facilities that are available at Oregon State. Research in the department falls under three broad areas: Solid Earth Processes and History; Surface Earth Processes and History; and Human Interaction with the Earth.

Programs of study in the Geology graduate major lead to the Master of Science or Master of Arts and Doctor of Philosophy degrees
Master of Science (MS) and Master of Arts (MA) Degrees:
The master's degree requires successful completion of at least 45 credits of appropriate courses including a thesis. The thesis presents a written summary of research findings and conclusions. All master's programs include a final oral examination. Each graduate program is supervised by a committee of at least three members of the graduate faculty who col-
laborate with the student in developing a program of study and research leading to the final oral examination. The examination is conducted and approved by the student's graduate committee.
The MA degree requires a foreign language proficiency equivalent to that attained at the end of a second-year university course in that language with a grade of C (2.00) or better.
Doctor of Philosophy (PhD) Degree: The doctor of philosophy (PhD) degree is granted for proven ability in research and mastery of an area within the discipline of geology. This is demonstrated through successful performance in at least 108 credits of appropriate course work and research. The pursuit of the PhD also requires passing qualifying exams that advance a student to candidacy. The doctoral program includes original research in a major topic in one of the department's areas of specialization submitted as a dissertation that is presented and defended orally. A committee of at least four members of the graduate faculty assist the major professor in supervising and examining the PhD student. PhD candidates must complete at least three of four consecutive terms with at least 36 credits taken on the OSU campus.

## Graduate Minor

Advanced degree programs in geology may include an optional minor subject area. It may be in a single discipline or an integrated grouping of courses organized around a theme. In developing minors, students commonly combine courses from several campus departments.

## Major Code: 5500

## MARINE RESOURCE

## MANAGEMENT (MA, MS)

Graduate Areas of Concentration Marine resource management
Marine Resource Management (MRM) is a science-based, interdisciplinary master's program based in College of Earth, Ocean, and Atmospheric Sciences (CEOAS). The program provides students with the interdisciplinary training necessary to function confidently and effectively in professional resource management positions. Marine and coastal issues are technically and politically complex, involving many interests, perspectives and stakeholders. To deal effectively with these issues, marine resource managers need a broad-based background in both physical and social sciences. Graduates from the program are trained to bridge the gap between science and policy.
The program offers two tracks, professional and a thesis:

Professional track students develop a project and defend a report on that work, based on either an internship or a research project.

Thesis track students are expected to produce a more extensive and rigorous piece of original work and analysis, and must meet additional requirements set by the Graduate School and advisor. Applicants must meet the general admission requirements of the college.
More than 40 faculty members from CEOAS, other university departments, and outside institutions participate in MRM. These partnerships include departments of Fisheries and Wildlife, Applied Economics, and Anthropology; the School of Public Policy; Sea Grant Extension specialists; and scientists and management professionals from state and federal agencies. The program consists of required courses in oceanography, atmospheric science, and marine law. Typical elective courses include resource economics, fisheries science, political science, anthropology, sociology, and communications. Each program of study is adjusted to the needs of the individual. Applicants must meet the general admission requirements of the college.

Contact Flaxen Conway, 541-7371339, fconway@coas.oregonstate.edu, for more information.

## Major Code: 6550

## OCEAN, EARTH AND ATMOSPHERIC SCIENCES (MA, MS, PhD, MAIS)

Graduate Areas of Concentration Atmospheric sciences, geological oceanography, geophysics, ocean ecology and biogeochemistry, physical oceanography
Ocean, Earth and Atmospheric Sciences (OEAS) is an interdisciplinary graduate major that first introduces students to the elements of the Earth system and the processes of mass and energy flow among them through a set of core/breadth courses:

- OEAS 500. Cascadia Field Trip (3)
- OEAS 520. The Solid Earth (4)
- OEAS 530. The Fluid Earth (4)
- OEAS 540. The Biogeochemical Earth (4)

Students then pursue focused graduate course work and research in the following concentration areas, directed by their program committee.

## OEAS CONCENTRATION AREAS

## Atmospheric Sciences

The atmospheric sciences are concerned with dynamics, physics and processes, including the interactions of the atmosphere with soil physics, hydrology and oceanic circulation. The atmospheric sciences concentration in the College of Earth, Ocean, and Atmospheric Sciences prepares students for careers in teaching and research through advanced study and participation in research projects directed by faculty members. MA, MS and

PhD degrees are offered.
Applicants should have an undergraduate degree in physics, mathematics, engineering, chemistry or atmospheric science, with strength in mathematics. All applicants should have completed one year each of chemistry and physics with calculus, and courses in vector calculus and in differential equations.

Students perform thesis research on a wide range of problems including the study of global climate change, clouds and the earth's radiation budget, the structure and dynamics of turbulent flows, air-sea interaction, planetary atmospheres, the optimal use and economic value of weather and climate forecasts, and the study of acid rain and its effects on terrestrial ecosystems. In addition to theoretical, numerical, and observational methods of analysis, approximately onefourth of the research projects either use or are developing methods for obtaining meteorological information from satellites.
Opportunities exist for PhD candidates to conduct some of their thesis research in Europe or at the National Center for Atmospheric Research. Most research projects involve collaboration with other scientists, either on the Oregon State University campus or at major domestic or international research centers.

## Geophysics

Geophysics is concerned with physical processes within and on Earth, especially the internal physical constitution of the planet, and seismic, gravitational, geothermal, geoelectrical, geomagnetic phenomena and their relation to geological processes. The geophysics concentration offers graduate work toward MA, MS, and PhD degrees. Candidates should have an undergraduate degree in physics, mathematics, engineering, geology, or geophysics. Mathematics through differential equations is required and mathematical physics is desirable. Graduate Record Exam scores are required of all applicants. Opportunities for research exist on a wide range of geophysical problems in marine and continental regimes, emphasizing experimental, applied, and theoretical aspects.

## Oceanography

Oceanography, the application of the sciences to the study of the oceans, is an interdisciplinary environmental science concerned with all processes: biological, chemical, geological, and physical, as well as the interactions between the ocean. The College of Earth, Ocean, and Atmospheric Sciences graduate major offers MA, MS, and PhD degrees with a concentration in oceanography.

For all areas in oceanography, applicants should have a strong quantitative background and an undergraduate degree in a relevant field of science or engineer-
ing and one year each of chemistry, physics, and calculus. Prior background in oceanography is not essential.
In geological oceanography (marine geology), a broad range of geological processes that influence the ocean is studied. Fields of interest include plate tectonics and the structure of the ocean basins, igneous petrology and geochemistry, paleoceanography and paleoclimatology, and coastal sedimentary processes. Candidates show strength in one or more of these fields: earth science, chemistry, physics, biology or mathematics.
Physical oceanography research covers the physical processes in the sea, exchange of energy and momentum at the air-sea interface, and the transmission and absorption of energy in the sea (e.g., light, heat, and sound). Circulation, tides, waves, heat content and density distributions are some of the other phenomena of particular interest. Candidates should have an undergraduate major in physics, mathematics, or engineering.
Contact Robert Allan, 541-737-1340, rallan@coas.oregonstate.edu, for more information.

## Major Code: 5001

## GRADUATE MINORS

## GEOGRAPHY GRADUATE MINOR

A Geography graduate minor consists of a minimum of 15 credits of Geography graduate course work, including courses in physical geography and resource geography. A student interested in Geographic Information Science should pursue the Graduate Certificate in Geographic Information Science.
Contact Program Director Julia Jones, 541-737-1224, jonesj@geo.oregonstate. edu, for additional information.

## RISK AND UNCERTAINTY QUANTIFICATION IN EARTH SYSTEMS GRADUATE MINOR

Marine and coastal scientific and management issues are technically and socially complex, involving many forms of science, interests, perspectives, and stakeholders. There is much uncertainty in modeling forecast and policy outcomes associated with climate change and global markets. This interdisciplinary graduate minor will provide students with knowledge and skills to quantify and communicate risk and uncertainty derived from the analyses of large data in earth system science.

The graduate minor focuses on marine science and resource management, yet will be relevant to students from a variety of fields. Students will extend their ability to perceive and solve problems in a transdisciplinary context related to statistical inference, uncertainty quantification, risk analyses, earth system science, and social systems. Students will also acquire professional skills in communication and collaboration. The world is changing. Join us in becoming more resilient. The graduate minor is open to all OSU graduate students.

## Learning Goals

## Social Systems

The "social or human system" component is one of the key elements of a coupled natural human system. Specifically, it encompasses the social, cultural, economic, management, and policy aspects of the system, and how they interact with each other and with their environment. Disciplinary approaches to the human system include anthropology, sociology, policy, economics, etc. The goal of the "social systems" training component of the graduate R\&U minor is to learn about social science methods, theory and/or applications as they relate to a marine, coupled natural human system. Risk and Uncertainty graduate minor students are expected to complete the requirements by taking at least one course in this area. The course must allow students to: (1) Recognize the perspective of the particular discipline or area of study, (2) Understand and respect the various methodological approaches used in the social sciences (qualitative and/or quantitative), their possibilities and limitations, and how these may be best integrated to the earth systems, big data or R\&U component of the minor, (3) Explain and extract the scalar nature of the course material, whether it is related to cultural, social, institutional, management, or policy aspects of a system, (4) Critically assess gaps or opportunities for inclusion of social, cultural, or economic elements of a natural system, and vice versa.

## Risk and Uncertainty

The goal of the risk and uncertainty quantification training component of the graduate R\&U minor is to understand and acquire mastery of some of the fundamental mathematical/computational and statistical methods for quantifying uncertainty and analyzing risk for decision making. NRT (National Research Traineeship) students seeking the graduate minor are expected to acquire (mathematical/computational/statistical) tools that can be used to describe and assess risk and uncertainty in problems related to the marine, coupled natural human system. Students have options to choose from a variety of courses dealing with the mathematical foundations of risk and uncertainty involving mathematical techniques in (i) decision making under uncertainty, (ii) ruin probabilities, (iii) measures of variability, (iv) probabilities of rare events and large deviations, (v) Monte Carlo simulation, (vi) optimization and dynamic programming, (vii) stochastic models in biology pertaining to spread of disease and related phenomena. Students are expected to acquire experience in a combination of computational, simulation and/or theoretical approaches. NRT students with a social science or human dimension component will be expected to understand and become literate and conversant in the quantitative aspects of risk and uncertainty quantification.

## Earth Systems

Students will develop an integrated understanding of the Earth System, including biological, physical and geological mechanisms that affect Earth climate, species dynamics and interactions, elemental cycles and ecosystem services. The emphasis will be on understanding the linkages between physics, biology, geology, and chemistry from a system theory perspective, and on how these linkages affect Earth's biogeochemical processes. Disciplinary components of the Earth System module include biological, chemical and physical oceanography, biogeochemestry, geology, climate and atmospheric sciences, and ecology.

## Big Data

Issues surrounding massive data sets ("big" data) are intertwined with data-enabled science and engineering. The goals of the big data training component are for students (1) to acquire computational and data-management skills necessary for handling and processing large data sets, and (2) to assess the value of information obtained from big data with respect to such issues as observation bias, signal versus noise, spurious relationships, and incidental endogeneity. Much of the training in big data management and processes is acquired through hands-on experiences. Specific components of the
big data module include handling and processing massive datasets; being able to identify and articulate the limitations of big data sets; implementing classification, clustering and/or network analyses as appropriate.
Graduate PhD students are required to complete at least 18 credits, MS students complete 15 credits.
All students complete the professional development requirement ( 6 credits).

Additional credits are taken from these four following specializations:

1. Big Data and Uncertainty

Quantification
2. Risk Analyses
3. Earth Systems
4. Social Systems

## Mentoring Requirements

There must be a minor professor in the student's committee. The minor professor is in any of the fields where course designators fall but must not be from the student's major.

## Classes for Minor

Graduate PhD students are required to complete at least 18 credits, MS students are required to complete at least 15 credits for the minor.

PhD students take one course from each of the four remaining areas: Big data and Uncertainty Quantification, Risk Analyses, Earth Systems, and Social Systems.

MS students take one course in Social Systems and one in Earth Systems and choose one course from either Big Data and Uncertainty Quantification or Risk Analysis.

## Professional Development

MRM 525. Special Topics in Marine Resource Management (6) (2 credits each fall, winter, and spring term in sequence):
a. Marine and Earth Systems Science: Foundations in Risk and Uncertainty (2)
b. Marine and Earth Systems Science: Collaborative Working Structures in Risk and Uncertainty (2)
c. Marine and Earth Systems Science: Communication of Risk and Uncertainty (2)

## Big Data and Uncertainty

 Quantification Specialization:CS 515. Algorithms and Data Structure (4)\#
CS 534. Machine Learning (4) \#
GEOG 565. Spatio-Temporal Variation in
Ecology and Earth Science (4)
GEOG 566. Advanced Spatial Statistics and GIScience (4)
ST 538. Modern Analytical Methods
for Large and Complex Datasets (3)
(Pending Approval)
ST 599. Special Topics: Big Data and Uncertainty Quantification (3)

## Risk Analysis Specialization:

Minor Code: 5050

## WATER CONFLICT MANAGEMENT AND TRANSFORMATION GRADUATE MINOR

Graduate Areas of Concentration Water conflict management and transformation
The graduate minor in Water Conflict Management and Transformation is designed to accommodate the needs of professionals and graduate students. It offers an integrative approach that explicitly integrates human and policy dimensions of water resources within the framework of scientific and technological solutions. The graduate minor is a flexible, coherent program that offers critical and underemphasized skills essential to preventing and resolving water conflicts. It helps facilitate dialogue on critical water issues across diverse values and perspectives, and it serves OSU students, citizens and officials in Oregon, the United States and internationally.

The curriculum centers around casebased, interactive course and field work
to provide an in-depth look at water conflict, conflict transformation, and prevention issues and strategies across four distinct and overlapping themes: water governance, water and ecosystems, water and society, and water and economics. Each theme incorporates several topics critical to understanding water conflicts. A highlight of the minor is the capstone course coupled with an intersession practicum working with watershed councils, landowners, and agencies in Northeast Oregon; and a guided and critiqued project in which two teams take on, for example, the roles of Jordan and Israel to negotiate a treaty for water resource allocation in a simulated water negotiation. These techniques will hone student skills, understanding and thought development. Students will also take part in fieldwork in a watershed or basin at risk of, or in, water conflict.

Through this minor, students will learn about and practice conflict transformation skills, explore what new institutional networks and relationships are needed, and how these can be achieved through role-playing, in-class exercises, and guest lectures. Students will also be introduced to leadership skills for guiding this type of change.

Contact Lynette de Silva, 541-7377013, desilval@geo.oregonstate.edu, for additional information.

All students seeking a graduate minor are subject to all general policies governing the courses for the master's degree. As such, these students will be required to take a minimum of 50 percent graduate stand-alone courses. The remaining credits may be the 500-component of 400/500 slash courses.

## Capstone Course Work (3 credits required)

Oregon State University offers an undergraduate and graduate certificate in Geographic Information Science. Geographic Information Science ("GIScience") is a discipline that combines theory and principles underlying:

- geospatial data collection (remotely sensed imagery from satellites, aircraft, and drones, social media, telemetry, GPS, etc.);
- technologies to manage, analyze, and visualize geospatial data (geographic information systems);
- computational, statistical, and mathematical methods to analyze and model geospatial data (machine learning, Big Data, spatial statistics, spatial modeling, geovisual analytics, etc.);
- digital cartography and geovisualization (the science and practice of creating maps); and
- cognitive, social, and environmental implications of GIScience (professional ethics, privacy, digital divide, etc.).
The OSU GIScience certificate can help lead to certification as a nationally-recognized geographic information systems (GIS) professional (GISP). GIS professionals are in high demand for jobs in government, NGOs, and the private sector, and have rewarding careers in natural resource management, online and interactive mapping, business, planning, and many others.

## Required Core (19-20 credits)

FE 208. Forest Surveying (4)
GEOG 201. *Foundations of Geospatial
Science and GIS (4)
GEOG 360. GIScience I: Geographic Information Systems and Theory (4)
or FE 257. GIS and Forest Engineering Applications (3)
or CE 202. Civil Engineering: Geospatial Information and GIS (3)
GEOG 370. Geovisualization I: Cartography (4)

GEOG 480. Remote Sensing I: Principles and Applications (4) EC

## Electives (7-8)

CE 413. GIS in Water Resources (3)
CROP/HORT 414. Precision Agriculture (4)
ECE 468. Digital Image Processing (3)
ENSC 410. Internship (1 or more)
or FOR 410. Internship (1 or more)
or GEO 410. Internship (1 or more)
or GEOG 410. Internship (1 or more)
FE 209. Forest Photogrammetry and Remote Sensing (4)
FE 310. Forest Route Surveying (4)
FE 423. Unmanned Aircraft System Remote Sensing (3)
FW 303. Survey of Geographic Information
Systems in Natural Resource (3)
GEO 401. Research (1-4)
or GEOG 401. Research (1-4)
GEO 403. Thesis (1-4)
or GEOG 403. Thesis (1-4)
GEOG 361. GIScience II: Analysis and Applications (4) EC
GEOG 371. Geovisualization: Web Mapping (4)

GEOG 451. Planning Principles and
Practices for Resilient Communities (4)
GEOG 462. GIScience III: Programming For Geospatial Analysis (4)
GEOG 463. GIScience IV: Spatial Modeling (4)

GEOG 464. Geospatial Perspectives on
Intelligence, Security, and Ethics (3)
GEOG 472. Geovisualization: Geovisual Analytics (3)
GEOG 481. Remote Sensing II: Digital
Image Processing (4) EC
RNG 430. Applied GIS in Rangeland Science (4)

SOIL 468. Soil Landscape Analysis (4)

## Footnotes:

* Baccalaureate Core Course (BCC)

EC signifies the course can also be completed through Ecampus - Distance Education

## Also available via Ecampus.

Oregon State University offers an undergraduate and graduate certificate in Geographic Information Science. Geographic Information Science (GIScience) is a discipline that combines theory and principles underlying:

- geospatial data collection (remotely sensed imagery from satellites, aircraft, and drones, social media, telemetry, GPS, etc.);
- technologies to manage, analyze, and
visualize geospatial data (geographic information systems);
- computational, statistical, and mathematical methods to analyze and model geospatial data (machine learning, Big Data, spatial statistics, spatial modeling, geovisual analytics, etc.);
- digital cartography and geovisualization (the science and practice of creating maps); and
- cognitive, social and environmental implications of GIScience (professional ethics, privacy, digital divide, etc.).
The OSU GIScience certificate can help lead to certification as a nationally-recognized geographic information systems (GIS) professional (GISP). GIS professionals are in high demand for jobs in government, NGOs, and the private sector, and have rewarding careers in natural resource management, online and interactive mapping, business, planning, and many others.

Students must have completed the following background course or have equivalent experience: introductory cartography (GEOG 370). This course can either be completed prior to starting the certificate program or pursued in tandem with the other courses in the certificate.

## Background Course

GEOG 370. Geovisualization: Cartography (4) EC

## Required Core ( 8 credits)

GEOG 560. GIScience I: Introduction to
Geographic Information Science (4) EC GEOG 580. Remote Sensing I: Principles and Applications (4) EC

## Electives (11 credits)

CE 513. GIS in Water Resources (3)
CE 562. Digital Terrain Modeling (4)
CE 566. 3D Laser Scanning and Imaging (4)
CS 553. Scientific Visualization (4)
CS 554. Geometric Modeling in Computer Graphics (4)
FE 523. Unmanned Aircraft System Remote Sensing (3)
FOR 510. Internship (1 or more credits, advisor approval)
or GEOG 510. Internship (1 or more
credits, advisor approval) $\mathbf{E C}$
GEOG 551. Planning Principles and
Practices for Resilient Communities (4)
GEOG 561. GIScience II: Analysis and Applications (4) EC
GEOG 562. GIScience III: Programming for Geospatial Analysis (4) EC
GEOG 563. GIScience IV: Spatial Modeling (4)

GEOG 564. Geospatial Perspectives on
Intelligence, Security, \& Ethics (3) EC
GEOG 565. Spatio-Temporal Variation in
Ecology and Earth Science (4)
GEOG 566. Advanced Spatial Statistics and GIScience (4)
GEOG 571. Geovisualization: Web Mapping (4)

GEOG 572. Geovisualization: Geovisual Analytics (3)

GEOG 581. Remote Sensing II: Digital
Image Processing (4)
H 547. GIS and Public Health (3)
H 592. Spatial Epidemiology (3)
OC 678. Ocean Remote Sensing (4)
SOIL 568. Soil Landscape Analysis (4)
ST 565. Time Series (3)
ST 567. Spatial Statistics (3)
The following courses may count towards elective credits after consulting with and receiving approval from the program director:
CE 501. Research (3-4)
CE 560. Selected Topics in Geomatics Engineering (3-4)
CS 519. Topics in Computer Science (3-4)
CS 549. Selected Topics in Information-
Based Systems (3-4)
GEO 501. Research (3-4)
GEOG 501. Research (3-4)
GEOG 599. Special Studies (3-4)
GEOG 699. Special Studies (3-4)

## Also available via Ecampus.

The graduate certificate in Water Conflict Management and Transformation is an 18 -credit interdisciplinary program. It is designed to provide graduate students, non-degree students, water professionals and decision-makers with the required specialized resources and skills to address the water demands and challenges of the 21st Century, in Oregon, across the United States and internationally.

The curriculum centers around casebased, interactive course and field work to provide an in-depth look at water conflict, conflict transformation, and prevention issues and strategies across four distinct and overlapping themes:

- Water Governance
- Water and Ecosystems
- Water and Society
- Water and Economics

Each theme incorporates several topics critical to understanding water conflicts.

The curriculum for the graduate certificate in Water Conflict Management and Transformation is as follows:

## Capstone Course Work (3 credits required)

COMM 542. Bargaining and Negotiation Processes (3)
COMM 546. Communication in
International Conflict and Disputes (3)
WRP 521. Water Conflict Management and Transformation (3)

## Capstone Practicum/Internship (3

credits required)
WRP 509. Practicum (3)
WRP 510. Internship (3)

## Water Governance ( 3 credits

 required)AEC 532. Environmental Law (4)
COMM 540. Theories of Conflict and
Conflict Management (3)
FOR 562. Natural Resource Policy and Law (3)
FOR 563. Environmental Policy and Law Interactions (3)
GEOG 540. Water Resources Management in the United States (3)
GEOG 541. International Water Resources Management (3)
PS 575. Environmental Politics and Policy (4)
PS 577. International Environmental Politics and Policy (4)
WRP 599. Special Topics: Oregon Water Law and Policy (3)

## Water and Society ( 3 credits

required)
ANTH 581. Natural Resources and Community Values (4)
ENVE 531. Fate and Transport of Chemicals in Environmental Systems (4)
ENVE 532/OC 532. Aquatic Chemistry:
Natural and Engineered Systems (4)
ENVE 554. Groundwater Remediation (4)
ENVE 556. Sustainable Water Resources Development (3)
FES/FW/SOC 585. Consensus and Natural Resources (3)
GEOG 530. Resilience-Based Natural Resource Management (3)
H 512. Introduction to Environmental \& Occupational Health Sciences (3)
H 514. Environment, Safety and Health Seminar (1)
H 527. Critical Assessment of International Health Programs (3)
H 528. Global Health Issues (3)
H 529. International Health (3)
H 540. Water and Human Health (3)
H 541. Air Quality and Human Health (3)
PHL 540. Environmental Ethics (3)
PHL/REL 543. World Views and
Environmental Values (3)
PS 577. International Environmental Politics and Policy (4)
SNR 520. Social Aspects of Sustainable Natural Resources (3)
SOC 580. Environmental Sociology (4)
SOC 581. Society and Natural Resources (4)
WRP 524. Sociotechnological Aspects of Water Resources (3)

## Water and Ecosystems (3 credits <br> \section*{required)}

BEE 512. Physical Hydrology (3)
BEE 558. Nonpoint Source Pollution
Assessment and Control (3)
FE 530. Watershed Processes (4)
FE 532. Forest Hydrology (4)

FW 526. Coastal Ecology and Resource Management (5)
FW 579. Wetlands and Riparian Ecology (3)
GEOG 523. Snow Hydrology (3)
MNR 511. Introduction to Sustainable
Natural Resources (3)
SNR 530. Ecological Principles of
Sustainable Natural Resources (3)
SNR 540. Global Environment Change (3)
WRS 532. Applied Field Problems (3)
WRS 536. Fundamentals of Hydrology (3)
Water and Economics ( 3 credits required)
AEC 505. Reading and Conference (3) or AEC 507. Seminar (3)
AEC 534. Environmental and Resource Economics (3)
AEC 550. Environmental and Natural Resource Economics (4)
AEC 551. Applications of Environmental and Natural Resource Economics (4)
SNR 521. Economics of Sustainable Natural Resource Management (3)
WRP 523. Environmental Water
Transactions (3)
WRP 599. Special Topics: The Business of Water (3)

## Total=18

Advisor guidance and approval is required for each student's certificate program of study. All students seeking a graduate certificate are subject to all general policies governing the courses for the master's degree. As such, these students will be required to take a minimum of $50 \%$ graduate stand-alone courses. The remaining credits may be the 500 component of 400/500 slash courses.
Non-degree students, and those requiring additional information and advising should contact Lynette de Silva at desilval@geo.oregonstate.edu.

## Major Code: CG06

## MARINE RESOURCE <br> MANAGEMENT GRADUATE <br> CERTIFICATE

The management of our marine resources encompasses both biophysical and human dimensions. Marine management professionals need to understand these dimensions, utilizing both physical and social sciences to tackle challenging issues, and effectively communicate best management practices to scientists, decision makers, and stakeholders.
The Marine Resource Management graduate certificate offers a blend of sci-ence- and management-oriented courses that prepare participants (professionals, decision-makers, and graduate students) to become leaders in marine resource management.

## Certificate Overview and Requirements:

- Completion of core courses in marine policy and law,
- Two courses from the human dimensions area, and
- Two courses from the ocean and coastal science area.

## Course Examples:

- Ocean Law
- Rights-Based Fisheries Management
- Ecological Policy
- Physical Oceanography
- Marine Pollution

Current graduate students must notify the Marine Resource Management program of their intention to pursue this certificate. Upon consultation with MRM faculty, they will be given instructions regarding listing courses on their programs of study and obtaining the required signature for that form.

Professionals and other stu-
dents must notify the Marine Resources Management program of their intention to pursue this certificate.

Contact Robert Allan, 541-737-1340, rallan@coas.oregonstate.edu, for more information.

## Required Courses

MRM 520. Coastal Law (3)
or MRM 521. Ocean Law (3)
MRM 530. Principles and Practice of Marine Resource Management (3)

## Human Dimensions Subject Area <br> Select 2 courses for at least 6 credits

 from below:AEC 534. Environmental and Resource Economics (3)
ANTH 581. Natural Resources and Community Values (4)
COMM 540. Theories of Conflict and Conflict Management (3)
COMM 542. Bargaining and Negotiation
Processes (3)
COMM 544. Third Parties in Dispute
Resolution: Mediation/Arbitration (3)
FW 520. Ecology and Management of
Marine Fishes (3)
FW/BI 564. Marine Conservation Biology (3)
FW 620. Ecological Policy (3)
MRM 535. Rights-Based Fisheries
Management (3)
PS 575. Environmental Politics and Policy (4)
PS 577. International Environmental
Politics and Policy (4)
SOC 580. Environmental Sociology (4)
SOC 581. Society and Natural Resources (4)
Ocean and Atmospheric Systems

## Science Subject Area

Select 2 courses for at least 6 credits from below:
ATS 520. Principles of Climate: Physics of Climate and Climate Change (4)
FW 531. Dynamics of Marine Biological Resources (4)
OC 533. Coastal and Estuarine
Oceanography (3)
OEAS 520. The Solid Earth (4)
OEAS 530. The Fluid Earth (4)
OEAS 540. The Biogeochemical Earth (4)

## Total=18 credits

Other courses may be substituted upon approval of the certificate director.

Note: The Marine Resource Management graduate certificate is not eligible for federal financial aid if it is not part of a master's degree-seeking program.

The certificate is not eligible if taken as a stand-alone program. The MRM graduate certificate is eligible for federal financial aid if it is part of a master's degree-seeking program.

## Major Code: CG07 <br> ATMOSPHERIC SCIENCES COURSES

ATS 201. *CLIMATE SCIENCE (4). Physical laws governing the Earth's climate and their interactions with chemical and biological processes on land and in the atmosphere, oceans, and cryosphere. Past, present, and potential future climate changes due to natural and human causes are assessed using a variety of observations, models, and laboratory exercises. (Bacc Core Course)
ATS 210. INTRODUCTION TO THE ATMOSPHERIC SCIENCES (3). Physical basis of atmospheric phenomena on small, medium and large scales; introduction to atmospheric dynamics and thermodynamics; examination of atmospheric circulation systems; introduction to atmospheric physics and chemistry. Offered every term. PREREQS: College algebra and elementary functions.
ATS 295. OBSERVING CLIMATE (3). One-week course taught during Spring Break at field sites near Corvallis, with ten hours of preparatory meetings on campus. Make and analyze observations of properties of the atmosphere, ocean, biosphere, and cryosphere that reflect processes relevant to regional and global climate. Serves as an introduction to upper-division course work in climate science. Field trip(s) required; transportation fee charged. Lec/lab. PREREQS: ATS 201 [C-] or ATS 320 [C-]
ATS 301. CLIMATE DATA ANALYSIS (4).
Quantitative methods to characterize the physical climate system and detect change. Interpret data based on source timescale, and statistics; communicate conclusions and uncertainties regarding past climate and future changes. PREREQS: ATS 201 [C-] and ST 351 [C-]
ATS 310. METEOROLOGY (4). The study of the atmosphere, in particular atmospheric phenomena that we experience as weather. In this class key physical concepts in meteorology are introduced and explored. The physics of the atmosphere necessary to understand why atmospheric phenomena occur and how these are forecast is discussed. Meteorological data from observations and models will be analyzed to explore concepts introduced in the context of the weather we experience. PREREQS: (MTH 251 [C-] or MTH 251 H [C-]) and (MTH $252^{*}$ [C-] or MTH $252 \mathrm{H}^{*}$ [C-] ) and (PH 201 [D-] or PH 201H [D-] or PH 211 [D-] or PH 211H [D-]) and (PH 202* [D-] or PH 202H* [D-] or PH 212* [D-] or PH 212H* [D-] )
ATS 320. *THE CHANGING CLIMATE (3). Survey of Earth's climate and the factors that influence climate. Examine causes of changes in atmospheric composition, the expected consequences of these changes, problems predicting future changes, and what can be done about the changes. Offered annually in fall. (Bacc Core Course)
ATS 399. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 12 credits.
ATS 399H. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 12 credits. PREREQS: Honors College approval required.
ATS 401. RESEARCH (1-16). This course is repeatable for a maximum of 24 credits.
ATS 403. THESIS (1-16). This course is repeatable for a maximum of 24 credits.
ATS 405. READING AND CONFERENCE (1-16). This course is repeatable for a maximum of 16 credits.

ATS 406. PROJECTS (1-16). This course is repeatable for a maximum of 24 credits.
ATS 407. SEMINAR (1). One-credit sections. Graded P/N. This course is repeatable for a maximum of 12 credits.
ATS 410. INTERNSHIP (1-12). Pre-career professional experience under joint faculty and employer supervision. Graded P/N. This course is repeatable for a maximum of 48 credits. PREREQS: 12 credits of upper-division college courses and approval required.
ATS 411. THERMODYNAMICS AND CLOUD
MICROPHYSICS (4). Thermodynamic processes in the atmosphere, and an introduction to cloud microphysics. Offered annually. PREREQS: ((MTH 254 [D-] or MTH 254H [D-] ) and PH 213 [D-] )
ATS 412. ATMOSPHERIC RADIATION (3).
Radiative transfer in the earth and planetary atmospheres, absorption and scattering of sunlight, absorption and emission of terrestrial radiation, absorption and scattering cross sections for molecules, cloud droplets and aerosols. Applications include enhancement of photochemical reaction rates in clouds, remote sensing, and the earth's radiation budget, radiative-convective equilibrium, radiative forcing due to changes in atmospheric composition and climate change. PREREQS: ((MTH 254 [D-] or MTH 254H [D-] ) and (MTH 256 [D-] or MTH 256H [D-] ) and PH 213 [D-] )
ATS 413. ATMOSPHERIC CHEMISTRY (3).
Principles of atmospheric chemistry; chemical
fundamentals, sampling principles, sources, reactions, scavenging, and deposition of sulfur, nitrogen, ozone, and carbon compounds. Atmospheric aerosol size distribution, mechanics, optics, and scavenging. Offered annually.
PREREQS: (CH 121 or CH 201 or CH 221 or CH 231 or CH 231 H or CH 224 ) and (MTH 251 or MTH 241)
ATS 420. PRINCIPLES OF CLIMATE: PHYSICS OF CLIMATE AND CLIMATE CHANGE (4). Physics of climate past, present and future. Covers radiative processes, thermodynamics, and dynamics, as well as the paleoclimate record and mechanisms driving this variability. Current modes of climate variability (e.g., ENSO) will also be surveyed. Climate models, ranging from 0 - to 3-dimensional, will be examined and projections for the future assessed. PREREQS: MTH 252 and (PH 202 or PH 202H or PH 212 or PH 212H)
ATS 421. CLIMATE MODELING (4). Numerical models of the physics, chemistry, biology, and geology of the climate system. A range of climate models from a simple, single equation to complex state-of-the-science systems used for future projections. Theoretical concepts will be linked to practical applications through hands-on programming exercises and data analysis. Lec/lab. PREREQS: ATS 420/ATS 520 (recommended, talk to instructor if not taken); no prior programming knowledge required.
ATS 475. PLANETARY ATMOSPHERES (3). Origin and evolution of planetary atmospheres; vertical structure of atmospheres; hazes and clouds; atmospheric motions and general circulation. Presentation of recent observations and current research issues, focusing on Venus, Earth, Mars, Jupiter, Saturn, and Titan. Emphasis on comparative aspects and simple models. PREREQS: ((MTH 254 [D-] or MTH 254H [D-] ) and PH 213 [D-] )
ATS 499. SELECTED TOPICS (1-16). This course is repeatable for a maximum of 16 credits.
ATS 501. RESEARCH (1-16). This course is repeatable for a maximum of 24 credits.
ATS 503. THESIS (1-16). This course is repeatable for a maximum of 999 credits.
ATS 505. READING AND CONFERENCE (1-16). This course is repeatable for a maximum of 16 credits.

ATS 506. PROJECTS (1-16). This course is repeatable for a maximum of 72 credits.

ATS 507. SEMINAR (1). One-credit sections. Graded P/N. This course is repeatable for a maximum of 48 credits.

## ATS 511. THERMODYNAMICS AND CLOUD

MICROPHYSICS (4). Thermodynamic processes in the atmosphere, and an introduction to cloud microphysics. Offered annually. PREREQS: MTH 254 and PH 213

## ATS 512. ATMOSPHERIC RADIATION (3).

Radiative transfer in the earth and planetary atmospheres, absorption and scattering of sunlight, radiation, absorption and emission of terrestrial absorption and scattering cross sections for molecules, cloud droplets and aerosols. Applications include enhancement of photochemical reaction rates in clouds, remote sensing, and the earthיs radiation budget, radiative-convective equilibrium, radiative forcing due to changes in atmospheric composition and climate change. PREREQS: MTH 254 and MTH 256 and PH 213

ATS 513. ATMOSPHERIC CHEMISTRY (3). Principles of atmospheric chemistry; chemical fundamentals, sampling principles, sources, reactions, scavenging, and deposition of sulfur, nitrogen, ozone, and carbon compounds. Atmospheric aerosol size distribution, mechanics, optics, and scavenging. Offered annually. PREREQS: (CH 121 or CH 201 or CH 221 or CH 231 or CH 231 H or CH 224) and (MTH 251 or MTH 241)
ATS 515. ATMOSPHERIC DYNAMICS I (4).
Derivation of equations governing atmospheric motions; shallow atmosphere approximation and the primitive equations. Simple balanced flows; vertical motion, circulation, vorticity and potential vorticity; Ekman layer dynamics; prototypical atmospheric waves; geostrophic adjustment; quasi-geostrophic motions; analysis of structure of synoptic-scale systems; baroclinic instability. Offered alternate years. PREREQS: MTH 256 and PH 213
ATS 516. ATMOSPHERIC DYNAMICS II (4).
Review of basic equations; scale analysis and approximations. Turbulence and boundary layers. Dry and moist convection; convective storms. Frontogenesis; symmetric instability; internal gravity waves and mountain waves; differentially heated circulations including sea breezes. Slope flows and urban circulations. Offered alternate years. PREREQS: ATS 515 [C] and /or equivalent.

## ATS 520. PRINCIPLES OF CLIMATE: PHYSICS

 OF CLIMATE AND CLIMATE CHANGE (4). Physics of climate past, present and future. Covers radiative processes, thermodynamics, and dynamics, as well as the paleoclimate record and mechanisms driving this variability. Current models of climate variability (e.g., ENSO) will also be surveyed. Climate models, ranging from 0 - to 3-dimensional, will be examined and projections for the future assessed. PREREQS: MTH 252 and (PH 202 or PH 202H or PH 212 or PH 212H)ATS 521. CLIMATE MODELING (4). Numerical models of the physics, chemistry, biology, and geology of the climate system. A range of climate models from a simple, single equation to complex state-of-the-science systems used for future projections. Theoretical concepts will be linked to practical applications through hands-on programming exercises and data analysis. Lec/lab. PREREQS: ATS 420/ATS 520 (recommended, talk to instructor if not taken); no prior programming knowledge required.

## ATS 546. EXPERIMENTAL ENERGY AND

GAS EXCHANGE (4). Experimental methods to quantify the atmospheric carbon dioxide, water, methane, heat, momentum, and radiative exchange at the vegetation-land-ocean-air interface. Techniques include bulk and gradient approaches, and eddy covariance. The central activity consists of student teams designing
and conducting a field experiment, analyzing and interpreting observations, and presenting results. Lec/lab/discussion/activity. PREREQS: (ATS 516 or ATS 564 or FS 564 or ATS 516) or equivalent. Talk to instructor when no theoretical and conceptional background exists; basic programming skills in Matlab or IDL desirable.

ATS 564. INTERACTIONS OF VEGETATION AND ATMOSPHERE (3). Quantitative treatment of radiation, heat, mass, and momentum exchange between vegetation and atmosphere; forest, natural and agricultural ecosystem examples. Physical and biological controls of carbon dioxide and water vapor exchange; remote sensing of canopy processes; models of stand-scale evaporation, photosynthesis and respiration; landscape and regional scale exchanges; vegetation and planetary boundary layer coupling; vegetation in global climate models. PREREQS: MTH 251 and PH 201

ATS 575. PLANETARY ATMOSPHERES (3). Origin and evolution of planetary atmospheres; vertical structure of atmospheres; hazes and clouds; atmospheric motions and general circulation. Presentation of recent observations and current research issues, focusing on Venus, Earth, Mars, Jupiter, Saturn, and Titan. Emphasis on comparative aspects and simple models. PREREQS: MTH 254 and PH 213
ATS 590. SPECIAL TOPICS (1-4). Maximum of 12 credits may be used in a graduate program. This course is repeatable for a maximum of 24 credits.

ATS 601. RESEARCH (1-16). This course is repeatable for a maximum of 36 credits.

ATS 603. THESIS (1-16). This course is repeatable for a maximum of 999 credits.

ATS 605. READING AND CONFERENCE (1-16).
This course is repeatable for a maximum of 16 credits.
ATS 606. PROJECTS (1-16). This course is repeatable for a maximum of 84 credits.
ATS 607. SEMINAR (1). One-credit sections. Graded P/N. This course is repeatable for a maximum of 48 credits.
ATS 615. LARGE-SCALE INTERACTIONS OF THE OCEAN AND ATMOSPHERE (3). Oceanatmosphere circulations in the time-mean and seasonal cycles, equatorial wave modes, El NinoSouthern Oscillation, Madden-Julian oscillation, teleconnections and atmospheric bridges, midlatitude air-sea interactions, Pacific and Atlantic decadal variability, the North Atlantic oscillation/ Arctic oscillation. PREREQS: (ATS 515 [C] or OC 670 [C] ) and /or instructor approval.
ATS 630. CLIMATE DYNAMICS (3). Physical basis of climate and climatic change; radiation budget, surface energy budget, atmosphere and ocean circulation; energy balance models and their application to problems in climate change. Offered alternate years. PREREQS: MTH 254 and PH 213
ATS 655. MESOSCALE NUMERICAL
MODELING (3). Review and classification of governing equations, finite difference approaches, Galerkin methods, truncation error and accuracy of solutions. Analysis of numerical stability, boundary conditions, and gridding methods focusing on issues relevant to mesoscale modeling such as nesting and terrain-following coordinate systems. Discussion of elliptical systems and methods for pressure solution. Study of current models with emphasis on turbulence parameterization, microphysics and initialization. Development of simple models and application of existing model systems. PREREQS: ((ATS 515 [C] and ATS 516 [C] ) or OC 671 [C] ) and /or instructor approval.
ATS 690. SELECTED TOPICS (1-16). Maximum of 12 credits may be used in a graduate program. This course is repeatable for a maximum of 12 credits.

## ■ ENVIRONMENTAL SCIENCES COURSES

ENSC 101. ENVIRONMENTAL SCIENCES ORIENTATION (1). Introduction to the Environmental Sciences Program and related professional and educational opportunities. Recommended for all freshman and first-year transfer environmental sciences majors, but open to all students interested in learning about career options in the environmental sciences. Graded P/N.
ENSC 399. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 16 credits.

ENSC 401. RESEARCH AND SCHOLARSHIP (1-16). This course is repeatable for a maximum of 24 credits. PREREQS: Instructor and departmental approval required.
ENSC 402. INDEPENDENT STUDIES (1-16). This course is repeatable for a maximum of 24 credits. PREREQS: Departmental approval required.
ENSC 403. THESIS (1-16). This course is repeatable for a maximum of 24 credits. PREREQS: Departmental approval required.
ENSC 405. READING AND CONFERENCE (1-12). This course is repeatable for a maximum of 16 credits. PREREQS: Instructor and departmental approval required.
ENSC 406. PROJECTS (1-16). This course is repeatable for a maximum of 24 credits. PREREQS: Departmental approval required.
ENSC 407. SEMINAR (1-16). This course is repeatable for a maximum of 12 credits. PREREQS: Departmental approval required.
ENSC 407H. SEMINAR (1-16). This course is repeatable for a maximum of 12 credits. PREREQS: Departmental approval required. Honors College approval required.
ENSC 408. WORKSHOP (1-16). This course is repeatable for a maximum of 12 credits. PREREQS: Departmental approval required.
ENSC 410. ENVIRONMENTAL SCIENCE
INTERNSHIP (1-12). Supervised practical experience working with professionals at selected cooperating institutions, agencies, laboratories, or companies. Graded P/N. This course is repeatable for a maximum of 48 credits. PREREQS: Instructor and departmental approval required.
ENSC 479. *^ENVIRONMENTAL CASE STUDIES (3). Improves students' ability to ask questions, gather and synthesize information, and communicate ideas on environmental topics. Instruction and information necessary for the course is entirely Web based. (Bacc Core Course) (Writing Intensive Course) PREREQS: One year of college biology or chemistry and junior standing required.

ENSC 499. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 16 credits.

ENSC 501. RESEARCH AND SCHOLARSHIP (1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required.
ENSC 503. THESIS (1-16). This course is repeatable for a maximum of 999 credits.
ENSC 505. READING AND CONFERENCE
(1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required.

ENSC 506. PROJECTS (1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required.
ENSC 507. SEMINAR (1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required.
ENSC 508. WORKSHOP (1-16). This course is repeatable for a maximum of 16 credits.

ENSC 510. INTERNSHIP (1-12). This course is repeatable for a maximum of 12 credits. PREREQS: Departmental approval required.

ENSC 515. ENVIRONMENTAL PERSPECTIVES AND METHODS (3). Unique perspective or method each quarter. Possibilities include: remote sensing, modeling over a range of scales in time, space, and levels of system organization; and risk analysis.

ENSC 520. ENVIRONMENTAL ANALYSIS (3).
Develop analytical thinking, explore analytical approaches, enhance writing skills, and gain experience in oral communication about environmental issues.
ENSC 530. RESEARCH PROFILES (1-2). Faculty and graduate student environmental research presentations.

ENSC 599. SELECTED TOPICS (1-16). This course is repeatable for a maximum of 16 credits.
ENSC 601. RESEARCH AND SCHOLARSHIP (1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required.
ENSC 603. THESIS (1-16). This course is repeatable for a maximum of 999 credits.
ENSC 605. READING AND CONFERENCE
(1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required.

ENSC 606. PROJECTS (1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required
ENSC 607. SEMINAR (1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required.
ENSC 630. RESEARCH PROFILES (1-2). Faculty and graduate student environmental research presentations.
ENSC 699. SELECTED TOPICS (1-16). This course is repeatable for a maximum of 16 credits.

## GEOSCIENCES COURSES

GEO 100. *NATURAL DISASTERS:
HOLLYWOOD VERSUS REALITY (4).
Introduction to natural hazards, as seen through the lens of popular media. Course will explore the causes and consequences of natural disasters via in-class exercises and activities designed to develop students, skills in scientific analysis and problem solving. (Bacc Core Course)
GEO 101. *THE SOLID EARTH (4). Solid earth processes and materials. Earthquakes, volcanoes, earth structure, rocks, minerals, ores. Solid earth hazard prediction and planning. Geologic time. Lec/lab. (Bacc Core Course)
GEO 199. SPECIAL STUDIES (1-16). This course is repeatable for a maximum of 16 credits.
GEO 201. *PHYSICAL GEOLOGY (4). Study of earth's interior. Tectonic processes and their influence on mountains, volcanoes, earthquakes, minerals, and rocks. Field trip(s) required; transportation fee charged. Lec/lab. (Bacc Core Course)
GEO 202. *EARTH SYSTEMS SCIENCE (4).
Surficial processes (glaciers, rivers), climate, soils, vegetation, and their interrelationships. Field trip(s) required; transportation fee charged. Lec/lab. (Bacc Core Course)
GEO 203. *EVOLUTION OF PLANET EARTH (4). History of earth and life as interpreted from fossils and the rock record. Field trip(s) required; transportation fee charged. Lec/lab. (Bacc Core Course)
GEO 221. *ENVIRONMENTAL GEOLOGY (4). Introductory geology emphasizing geologic hazards (volcanoes, earthquakes, landslides, flooding), geologic resources (water, soil, air,
mineral, energy), and associated environmental problems and mitigation strategies. Lec/lab. (Bacc Core Course)
GEO 295. INTRODUCTION TO FIELD GEOLOGY
(3). Two-week course taught in the fall program in various locations throughout the west. Collect field data to make geological maps, cross-sections, columns, and reports. Serves as an introduction to upper-level course work for Geology degree. Lec/ lab. PREREQS: GEO 201 [C-]
GEO 305. *LIVING WITH ACTIVE CASCADE
VOLCANOES (3). The impact of volcanic activity on people, infrastructure, and natural resources; how and why volcanic activity in the Cascade Range occurs; volcano monitoring and hazard assessment. Field trip required, transportation fee charged. (Bacc Core Course)
GEO 306. *MINERALS, ENERGY, WATER, AND THE ENVIRONMENT (3). Geologic occurrences, environmental consequences, and future of non-renewable earth resources, including metals, materials, oil, soil, and groundwater. (Bacc Core Course)
GEO 307. *NATIONAL PARK GEOLOGY
AND PRESERVATION (3). National parks as classrooms to study geological processes and the importance of preserving natural landscapes. Field trip(s) required; transportation fee charged. (Bacc Core Course)

GEO 307H. *NATIONAL PARK GEOLOGY AND PRESERVATION (3). National parks as classrooms to study geological processes and the importance of preserving natural landscapes. Field trip(s) required; transportation fee charged. (Bacc Core Course) PREREQS: Honors College approval required.

GEO 308. *GLOBAL CHANGE AND EARTH SCIENCES (3). Study of global change over different time scales during the history of the earth, with emphasis on evolution of its atmosphere, plate tectonics, paleoclimates, and mass extinctions. (Bacc Core Course)
GEO 309. *ENVIRONMENTAL JUSTICE (3).
Technical and social issues surrounding the unequal exposure to environmental hazards based on race and the environmental justice movement that has grown to address charges of such environmental racism. (Bacc Core Course) PREREQS: (WR 121 [C-] or WR 121H [C-] ) and sophomore standing
GEO 310. EARTH MATERIALS I: MINERALOGY
(4). Principles of crystal morphology, and structure. Characteristics, identification, and origins of minerals. Lec/lab. PREREQS: (GEO 201 [D-] or GEO 221 [D-] ) and ((CH 121 [D-] or (CH 231 [D-] and CH 261 [D-] ) or (CH 231H [D-] and CH 261H [D-] )))
GEO 315. EARTH MATERIALS II: PETROLOGY
(4). Origin, identification and classification of igneous, sedimentary, and metamorphic rocks Field trip(s) required, transportation fee charged. Lec/lab. PREREQS: GEO 310 [D-]
GEO 322. SURFACE PROCESSES (4).
Examination of surficial processes and terrestrial landforms of the earth, including slopes, rivers, glaciers, deserts, and coastlines. Field trip(s) required; transportation fee charged. Lec/lab. PREREQS: (GEO 102 [D-] or GEO 102H [D-] or GEO 202 [D-] ) and (MTH 251 [C-] or MTH 251H [C-] ) and (PH 201 [D-] or PH 201H [D-] or PH 211 [D-] or PH 211 H [D-])
GEO 329. *GEOGRAPHY OF THE UNITED
STATES AND CANADA (3). Cultural, economic, political, and settlement geography. Emphasis on regional patterns and problems. Analysis of recent and projected changes. (Bacc Core Course)

GEO 340. STRUCTURAL GEOLOGY (4).
Analysis of geometry and kinematics of geologic structures including brittle and ductile faults, folds, joints, deformation fabrics. Field trip(s) required; transportation fee charged. Lec/lab. PREREQS: GEO 201 [D-]

GEO 352. *OREGON: GEOLOGY, PLACE, AND LIFE ON THE RING OF FIRE (4). Provides an overview of the geology of Oregon in the context of the Pacific Northwest including tectonic setting, geologic features and landscapes, as well as topics and concepts of interest to society in general. Lessons will include discussion of the relationship between people and the landscape, incorporating the concept of ethnographic landscapes--geologic structures, natural resources and geologic hazards that are part of the identity of a place. Emphasizes written and graphic communication skills. Field trip required, transportation fee charged. Lec/lab. (Bacc core course) PREREQS: Introductory science course recommended.
GEO 352H. *OREGON: GEOLOGY, PLACE, AND LIFE ON THE RING OF FIRE (4). Provides an overview of the geology of Oregon in the context of the Pacific Northwest including tectonic setting, geologic features and landscapes, as well as topics and concepts of interest to society in general. Lessons will include discussion of the relationship between people and the landscape, incorporating the concept of ethnographic andscapes--geologic structures, natural resources and geologic hazards that are part of the identity of a place. Emphasizes written and graphic communication skills. Field trip required, transportation fee charged. Lec/lab. (Bacc core course) PREREQS: Introductory science course recommended.

## GEO 370. STRATIGRAPHY AND

SEDIMENTOLOGY (4). Basic principles of sedimentology and stratigraphy. Sedimentology is largely concerned with classifying and interpreting the origin of sedimentary rocks. Stratigraphy provides formal rules and strategies for organizing sedimentary (and other) rocks into a temporal framework. Reconstruction of Earth history with various approaches centered on paleoclimatology, paleogeography, paleooceanography, and tectonics. Lec/lab. PREREQS: GEO 201 [D-]
GEO 380. *EARTHQUAKES IN THE PACIFIC NORTHWEST (3). Earthquake hazards in the Northwest; responses to reducing earthquake risk at state, local, and personal levels. (Bacc Core Course)
GEO 399. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 16 credits.
GEO 399H. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Honors College approval required.
GEO 400. FIELD TRIPS (1-16). Participation in group field trips that are not a part of any other course. Transportation fee is charged. Students may prepare guides for trips. Faculty sponsor must be prearranged. Graded P/N. This course is repeatable for a maximum of 48 credits. PREREQS: Departmental approval required.
GEO 401. RESEARCH (1-16). Independent, original research subjects guided by faculty conferences and resulting in a brief written report. Faculty sponsor must be prearranged. This course is repeatable for a maximum of 24 credits. PREREQS: Departmental approval required.
GEO 403. THESIS (1-16). Independent, original study that culminates in a senior thesis. Faculty sponsor must be prearranged. This course is repeatable for a maximum of 24 credits. PREREQS: Departmental approval required.
GEO 405. READING AND CONFERENCE (116). Independent reading in specialized topics guided by and discussed in faculty conferences. Faculty sponsor must be prearranged. This course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required.
GEO 407. SEMINAR (1-16). Graded P/N. This course is repeatable for a maximum of 12 credits. PREREQS: Departmental approval required. GEO 408. WORKSHOP (1-16). This course is repeatable for a maximum of 12 credits.

PREREQS: Departmental approval required.
GEO 410. INTERNSHIP (1-15). Pre-career professional experience under joint faculty and employer supervision. Graded P/N. This course is repeatable for a maximum of 48 credits. PREREQS: 12 credits of upper-division geosciences and departmental approval required.
GEO 412. IGNEOUS PETROLOGY (4).
Petrogenesis of igneous rocks. Petrographic analysis using polarizing microscopes. Field trip may be required, transportation fee charged. Lec/ lab. PREREQS: GEO 315 [D-] and GEO 415

## GEO 415. EARTH MATERIALS III:

PETROGRAPHY (4). Microscope-based study of minerals and igneous, sedimentary and metamorphic rocks. Representation and interpretation of geological processes based on microscopic observation. Lec/lab. PREREQS: GEO 201 [D-] and GEO 310 [D-] and GEO 315 [D-]
GEO 427. ^ VOLCANOLOGY (4). A survey of volcanoes: their distribution, forms, composition, eruptive products, eruptive styles, and associated phenomena. Field trip may be required; transportation fee charged. Offered alternate years. Lec/lab. (Writing Intensive Course) PREREQS: GEO 315 [D-]
GEO 430. GEOCHEMISTRY (4). Principles of geochemistry applied to problems of earth science. Field trip(s) may be required; transportation fees charged. Lec/rec. PREREQS: GEO 315* [D-] and ((CH 121 [D-] and CH 122 [D-] ) or ( $(\mathrm{CH} 231$ [D-] or CH 231 H [D-] ) and (CH 261 [D-] or CH 261 H [D-] ) and (CH 232 [D-] or CH 232H [D-] ) and (CH 262 [D-] or CH 262H [D-] )))
GEO 431. ENVIRONMENTAL GEOCHEMISTRY
(3). An introduction to natural processes at and near the earth's surface, as well as an examination of the impact of human activities on the natural environment. Study includes discussion of the sources, transformations, transport, and fate of contaminants. Field trip(s) required; transportation fee charge. PREREQS: (CH 121 [D-] and CH 122 [D-] and CH 123 [D-]) or ( (CH 231 [D-] or CH 231H [D-]) and (CH 232 [D-] or CH 232 H [D-] ) and (CH 233 [D-] or CH 233H [D-] ))
GEO 432. APPLIED GEOMORPHOLOGY
(3). Effect of landform processes upon human activity; consequences of resource management strategies on erosional balance within landscape; identification of mitigation of natural hazards; role of geomorphic process studies in environmental planning. Taught as seminar, themes TBA. Field trip(s) may be required; transportation fee charged. PREREQS: GEO 322
GEO 433. COASTAL GEOMORPHOLOGY (3). Morphodynamic approach to coastal landforms, processes and evolution including the impacts and response of humans to coastal change. PREREQS: ((PH 211 [D-] or PH 211H [D-] ) and (PH 212 [D-] or PH 212H [D-] ) and GEO 322 [D-] ) and MTH 251 and MTH 252 or equivalent.
GEO 440. ECONOMIC GEOLOGY (4). Principles of the origin, distribution, and importance of metallic mineral deposits formed by magmatic, hydrothermal, and sedimentary processes. Lec/ lab. PREREQS: GEO 315 [D-] and GEO 340
GEO 461. GEOLOGY OF EARTHQUAKES (3). Tectonics of the present day as based on surface geology, geodesy, seismicity, and crustal structure; description of active faults and folds; use of neotectonics in evaluation of earthquake hazard. Field trip(s) may be required; transportation fee charged. Offered alternate years. PREREQS: GEO 340 [D-]
GEO 463. ${ }^{\wedge}$ GEOPHYSICS AND TECTONICS
(4). Geophysical observations as constraints on geologic interpretation. Lec/lab. (Writing Intensive Course) PREREQS: MTH 251 and (PH 202 or PH 212) or equivalent.

GEO 481. GLACIAL GEOLOGY (4). Mass balance of glaciers, physics of glacial flow, processes of glacial erosion and deposition, glacial meltwater, glacial isostasy and eustasy, and Quaternary stratigraphy. Field trip(s) may be required; transportation fee charged. Lec/lab. Offered alternate years. PREREQS: GEO 202

GEO 484. INTRODUCTION TO
BIOGEOCHEMISTRY (3). Interdisciplinary course, applying concepts from chemistry, physics, biology and geology to Earth systems including terrestrial, ocean and freshwater environments; water and energy cycles; carbon, nitrogen, phosphorus and sulfur cycles; biogeochemical cycles through Earth history. PREREQS: MTH 111 [D-] and ((CH 121
[D-] and CH 122 [D-] ) or (CH 231 [D-] and CH 261 [D-] and CH 232 [D-] and CH 262 [D-] ))
GEO 486. QUATERNARY PALEOCLIMATOLOGY (3). Introduction to geochronology, climate proxies, climate forcing, and climate modeling applied to paleoclimate problems. Emphasis on Quaternary climate history. PREREQS: (GEO 202 [D-] or GEO 203 [D-] ) and (CH 122 [D-] or CH 222 [D-] or ((CH 232 [D-] or CH 232 H [D-] ) and (CH 262 [D-] or CH 262H [D-] or CH 272 [D-] ))) and PH 201 or PH 211 or equivalent.

GEO 487. HYDROGEOLOGY (4). Movement of water through porous media. Darcy's Law and groundwater flow equation. Development of groundwater resources. Computer models. Lec/ lab. PREREQS: (MTH 252 [D-] or MTH 252H [D-] and GEO 202

GEO 488. QUATERNARY STRATIGRAPHY OF NORTH AMERICA (3). Stratigraphic principles applied to Quaternary deposits. Survey Quaternary dating methods. Proxy records of glaciation and climate change. Quaternary stratigraphy of North America, emphasizing stratigraphic records of ice sheets, glaciers, and pluvial lakes. Offered alternate years. PREREQS: (GEO 481 or GEO 581) or instructor approval required.
GEO 495. ADVANCED FIELD GEOLOGY (6).
Six-week summer program in central Oregon. Collect field data to make geological maps, crosssections, columns, and reports. Fee charged. PREREQS: GEO 295 [C-] and GEO 315 [C-] and GEO 340 [C-] and GEO 370 [C-] and GEO 295
GEO 497. FIELD MAPPING OF ORE DEPOSITS (3). Eight-day field trip over spring vacation to a mineral district in the western United States, emphasizing detailed mapping of outcrops, trenches, and underground workings. Students prepare final maps and a report suitable for presentation to management or publication during spring term. Transportation fee charged. Not offered every year. PREREQS: (GEO 440 or GEO 540) and GEO 495

GEO 499. SPECIAL TOPICS (0-16). This course is repeatable for a maximum of 16 credits.

GEO 500. FIELD TRIPS (1-16). Participation in group field trips that are not a part of any other course. Transportation fee is charged. Students may prepare guides for trips. Faculty sponsor must be prearranged. Graded P/N. This course is repeatable for a maximum of 48 credits.
PREREQS: Departmental approval required.
GEO 501. RESEARCH (1-16). Independent, original research subjects guided by faculty conferences and resulting in a brief written report. Faculty sponsor must be prearranged. This course is repeatable for a maximum of 24 credits. PREREQS: Departmental approval required.

GEO 503. THESIS (1-16). Independent, original study that culminates in a senior thesis. Faculty sponsor must be prearranged. This course is repeatable for a maximum of 999 credits. PREREQS: Departmental approval required.
GEO 505. READING AND CONFERENCE (1-
16). Independent reading in specialized topics guided by and discussed in faculty conferences. Faculty sponsor must be prearranged. This
course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required.
GEO 507. SEMINAR (1-16). Graded P/N. This course is repeatable for a maximum of 48 credits. PREREQS: Departmental approval required.
GEO 508. WORKSHOP (1-16). This course is repeatable for a maximum of 24 credits. PREREQS: Departmental approval required.
GEO 510. INTERNSHIP (1-15). Pre-career professional experience under joint faculty and employer supervision. May not be used to meet minimum credit hour requirements for graduate degrees in geosciences. Graded P/N This course is repeatable for a maximum of 16 credits. PREREQS: 12 credits of upper-division geosciences.
GEO 512. IGNEOUS PETROLOGY (4).
Petrogenesis of igneous rocks. Petrographic analysis using polarizing microscopes. Field trip may be required, transportation fee charged. Lec/ lab. PREREQS: GEO 315 and GEO 415
GEO 516. INTERPRETATION OF GEOLOGIC MAPS (3). Development of skills in formulating geologic problems, using geologic maps, and developing solutions by the scientific method. PREREQS: GEO 495

GEO 518. GEOSCIENCE COMMUNICATION (3). Professional development of the skills of technical editing and writing for geoscientists. Practice the craft of presentation development and delivery, and the broader issues of problem development, and manuscript and proposal writing specific to geoscience graduate students.
GEO 527. VOLCANOLOGY (4). A survey of volcanoes: their distribution, forms, composition, eruptive products, eruptive styles, and associated phenomena. Field trip may be required; transportation fee charged. Offered alternate years. Lec/lab. PREREQS: GEO 315
GEO 530. GEOCHEMISTRY (4). Principles of geochemistry applied to problems of earth science. Field trip(s) may be required; transportation fees charged. Lec/rec. PREREQS: GEO 315 and ( $(\mathrm{CH} 121$ and CH 122 ) or ( $(\mathrm{CH} 231$ or CH 231 H ) and ( CH 261 or CH 261 H ) and ( CH 232 or CH 232 H ) and (CH 262 or CH 262 H$)$ ))
GEO 531. ENVIRONMENTAL GEOCHEMISTRY (3). An introduction to natural processes at and near the earth's surface, as well as an examination of the impact of human activities on the natural environment. Study includes discussion of the sources, transformations, transport, and fate of contaminants. Field trip(s) required; transportation fee charged. PREREQS: (CH 121 and CH 122 and CH 123 ) or ((CH 231 or CH 231 H$)$ and (CH 232 or CH 232 H ) and (CH 233 or CH 233 H ))
GEO 532. APPLIED GEOMORPHOLOGY
(3). Effect of landform processes upon human activity; consequences of resource management strategies on erosional balance within landscape; identification of mitigation of natural hazards; role of geomorphic process studies in environmental planning. Taught as seminar, themes TBA. Field trip(s) may be required; transportation fee charged. PREREQS: GEO 322
GEO 533. COASTAL GEOMORPHOLOGY (3). Morphodynamic approach to coastal landforms, processes and evolution including the impacts and response of humans to coastal change. PREREQS: MTH 251 and MTH 252 and PH 211 and PH 212 or equivalent and GEO 322 or equivalent.

GEO 535. GEOCHEMICAL ANALYSIS
TECHNIQUES (3). An introduction to the theory, techniques and instrumentation used for the chemical analysis of earth materials, with emphasis on analysis of solid earth material samples (predominantly, but not restricted to, rocks). Includes discussions of laboratory safety, relevant statistical approaches, basic physical and chemical principles of analysis, sample
preparation techniques and data processing and reporting. Course also includes a large componen of hands-on experience with instrumentation available in-house in the College of Earth, Ocean, and Atmospheric Sciences. Lec/lab. PREREQS: GEO 530 [C] and /or equivalent.
GEO 536. STRUCTURAL AND NEOTECTONIC FIELD METHODS (3). Field-intensive mapping experience emphasizing a topical issue in active tectonics, neotectonics, earthquake geology, or structural geology. One-week field trip required transportation fee charged. Weekly discussions during quarter. Offered alternate years.
PREREQS: GEO 495
GEO 537. TECTONIC GEOMORPHOLOGY
(3). Exploration of linkages between patterns of erosion, crustal deformation, and landscape evolution from geomorphic, geologic, geophysical, and modeling perspectives. Field trip required; transportation fee charged. Offered alternate years. PREREQS: GEO 322 and GEO 340

GEO 540. ECONOMIC GEOLOGY (4). Principles of the origin, distribution, and importance of metallic mineral deposits formed by magmatic, hydrothermal, and sedimentary processes. Lec/ lab. PREREQS: GEO 315 and GEO 340
GEO 550. COASTAL HAZARDS: PROCESSES, RESPONSE, AND ADAPTATION (3). Coastal hazards and the associated risks they pose to rapidly expanding coastal communities. Examination of coastal hazards from a transdisciplinary perspective including the physical processes, the coastal response, and coastal adaptation/management options for dealing with the hazards. Emphasizes probabilistic and other user-inspired approaches for assessing coastal vulnerability to the various hazards. PREREQS: College-level calculus, physics and geology recommended.

GEO 561. GEOLOGY OF EARTHQUAKES (3). Tectonics of the present day as based on surface geology, geodesy, seismicity, and crustal structure description of active faults and folds; use of neotectonics in evaluation of earthquake hazard Field trip(s) may be required; transportation fee charged. Offered alternate years. PREREQS: GEO 340

GEO 563. GEOPHYSICS AND TECTONICS
(4). Geophysical observations as constraints on geologic interpretation. Lec/lab. PREREQS: MTH 251 and (PH 202 or PH 212) or equivalent
GEO 577. ALGORITHMS FOR GEOGRAPHIC INFORMATION SCIENCE (4). Introduction to algorithms and data models for the manipulation and visualization of geospatial data. Students are introduced to object-oriented programming using the Java programming language. PREREQS:
GEO 545 [C] and GEO 565 [C] and GEO 578 [C] and /or equivalent courses and programming experience.

GEO 581. GLACIAL GEOLOGY (4). Mass balance of glaciers, physics of glacial flow, processes of glacial erosion and deposition, glacial meltwater, glacial isostasy and eustasy, and Quaternary stratigraphy. Field trip(s) may e required; transportation fee charged. Lec/lab Offered alternate years. PREREQS: GEO 202

## GEO 583. SNOW HYDROLOGY (3)

Fundamentals of snow hydrology. Physical principles of snow formation, snowpack accumulation, energy balance, snowcover-climate interactions, snow metamorphism, snowpack ablation, snowpack/snowmelt chemistry, remote sensing of snow, avalanches, field methods, snowmelt/runoff modeling techniques, and watershed processes.
GEO 586. QUATERNARY PALEOCLIMATOLOGY
(3). Introduction to geochronology, climate proxies, climate forcing, and climate modeling applied to paleoclimate problems. Emphasis on Quaternary climate history. PREREQS: ((GEO 202 or GEO 203) and ( CH 122 or CH 222 or $(\mathrm{CH} 232$ and CH 262) or ( CH 232 H and CH 262 H )) ) and ( PH 201 or

HH 211) or equivalent
GEO 588. QUATERNARY STRATIGRAPHY OF NORTH AMERICA (3). Stratigraphic principles applied to Quaternary deposits. Survey Quaternary dating methods. Proxy records of glaciation and climate change. Quaternary stratigraphy of North America, emphasizing stratigraphic records of ice sheets, glaciers, and pluvial lakes. Offered alternate years. PREREQS: (GEO 481 or GEO 581) or instructor approval required
GEO 597. FIELD MAPPING OF ORE DEPOSITS
(3). Eight-day field trip over spring vacation to a mineral district in the western United States, emphasizing detailed mapping of outcrops, trenches, and underground workings. Students prepare final maps and a report suitable for presentation to management or publication during spring term. Transportation fee charged. Not offered every year. PREREQS: (GEO 440 or GEO 540) and GEO 495

GEO 599. SPECIAL TOPICS (0-16). This course is repeatable for a maximum of 24 credits.

GEO 600. FIELD TRIPS (1-16). Participation in group field trips that are not part of any other course. Transportation fee charged. Students may prepare guide for trips. Faculty sponsors must be arranged. Graded P/N. This course is repeatable for a maximum of 84 credits.

GEO 601. RESEARCH (1-16). This course is repeatable for a maximum of 36 credits.

GEO 603. THESIS (1-16). This course is repeatable for a maximum of 999 credits

GEO 605. READING AND CONFERENCE (1-16).
This course is repeatable for a maximum of 16 credits.
GEO 606. PROJECTS (1-16). This course is repeatable for a maximum of 84 credits.
GEO 607. SEMINAR (1-16). Graded P/N. This course is repeatable for a maximum of 48 credits
GEO 608. WORKSHOP (1-16). This course is repeatable for a maximum of 24 credits.
GEO 622. IGNEOUS PETROLOGY (3). Controls on the distribution of major and trace elements; theory, applications, and examples. Field trip(s) may be required; transportation fee charged Offered alternate years. PREREQS: GEO 412 or GEO 512
GEO 633. GEOCHRONOLOGY AND ISOTOPE GEOLOGY (3). Measurements of cosmic and geologic time by radioactive decay. Use of radiogenic and stable isotopic tracers in geology. Offered alternate years. PREREQS: Graduate standing in geology or related fields.
GEO 684. GLOBAL BIOGEOCHEMICAL CYCLES (4). An in-depth treatment of global biogeochemical cycles, focusing on cycles of carbon, oxygen, nitrogen, phosphorus, and sulfur in the atmosphere, hydrosphere, and lithosphere CROSSLISTED as SOIL 684. PREREQS: One year of college-level physics and chemistry, including introductory biology or equivalent. One year of graduate course work in soil, earth, ocean, atmospheric, or forest science or equivalent or consent of instructor.

## GEO 691. MASS AND HEAT TRANSPORT IN

 THE ENVIRONMENT (4). Quantitative treatment of processes affecting transport in lakes, streams, and groundwater: advection; diffusion; dispersion. Lec/lab. Offered alternate years. PREREQS: (GEO 487 or CE 412) or equivalent and MTH 256GEO 694. TOPICS IN ORE GENESIS (1-3). In-depth examination of published research on selected mineral deposits to build an understanding of environments and processes of ore formation. Offered alternate years. This course is repeatable for a maximum of 6 credits

GEO 699. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 24 credits.

## GEOGRAPHY COURSES

GEOG 100. *CLIMATE JUSTICE (3). Unequal distribution of social, economic and political power that creates winners and losers from climate change. Case studies of climate-change-related environmental degradation, conflict, conservation, climate denial, renewable energy, and investment. Concepts and actions to promote climate justice. Lec/rec. (Bacc Core Course)
GEOG 102. *PHYSICAL GEOGRAPHY (4).
Processes that shape the earth's surface.
Weathering, mass movement, landforms, river systems, groundwater, biogeography, human effects on the landscape. Use of maps and imagery. (Bacc Core Course) Equivalent course is GEO 102.

GEOG 103. *HUMAN GEOGRAPHY (3).
Introduction to how human activity affects or is influenced by the earth's surface, including languages, religions, migration, development, and resources. (Bacc Core Course)

GEOG 105. *GEOGRAPHY OF THE NON-
WESTERN WORLD (3). An introduction to the rich variety of environments, population and settlement dynamics, cultures, geopolitical changes, and economies in Africa, the Middle East, and Asia Lec/lab/rec. (Bacc Core Course) Equivalent course is GEO 105.

GEOG 106. *GEOGRAPHY OF THE WESTERN
WORLD (3). An introduction to the rich variety of environments, population and settlement dynamics, cultures, geopolitical changes, and economics in Europe and Russia, Australia and Oceania, and the Americas. Lec/rec. (SS) (Bacc Core Course) Equivalent course is GEO 106.

GEOG 199. SPECIAL STUDIES (1-16). This course is repeatable for a maximum of 16 credits.

GEOG 201. *FOUNDATIONS OF GEOSPATIAL
SCIENCE AND GIS (4). Basic physical science principles underlying geospatial technologies such as GPS, mobile devices, and online mapping and navigation tools used in GIS, remote sensing, and geovisualization. Concepts and applications in government, business, and the environment. (Bacc Core Course) Equivalent course is GEO 301.

GEOG 203. *HUMAN-ENVIRONMENT
GEOGRAPHY (3). How human societies manage resources, physical limits to sustainability, role of science in the use and management of resources, and how societal resource use adversely affects other societies, in human history and across spatial scales. Lec/rec. (Bacc Core Course)
GEOG 240. *CLIMATE CHANGE, WATER AND
SOCIETY (3). Introduction to social, ecological and economic impacts of climate change induced water problems in various geographic regions and cultures. Approaches to climate change mitigation and adaptation in various parts of the world. (Bacc Core Course) Equivalent course is GEO 204.
GEOG 250. *LAND USE PLANNING FOR SUSTAINABLE COMMUNITIES (3). Overview of the history and current practices of land use and community planning. Use basic geospatial tools to assess land use patterns and planning processes. (Bacc Core Course)
GEOG 251. *GEOGRAPHY OF DISASTER MANAGEMENT (3). Introduction to the geographic concepts and processes for effective disaster management, including response, recovery, mitigation and preparedness. Risk assessment and evidence-based best practices to prepare and respond to emergencies in a variety of geographic contexts. (Bacc Core Course) Equivalent course is GEO 205

GEOG 295. INTRODUCTION TO GEOGRAPHIC FIELD RESEARCH (3). Two-week course taught in the fall program in various locations throughout the west. Collect and analyze data associated with both human and physical geography. Field trip required, transportation fee charged. Lec/lab.

Equivalent course is GEO 296
GEOG 299. SPECIAL STUDIES (1-16). This course is repeatable for a maximum of 16 credits.
GEOG 300. *SUSTAINABILITY FOR THE COMMON GOOD (3). Geography of human relationships to the earthיs systems with an emphasis on individual impacts and collective efforts to achieve environmental sustainability. Lec/ rec. (SS) (Bacc Core Course) Equivalent course is GEO 300 PREREQS: Upper-division standing.

GEOG 311. *GEOGRAPHY OF AFRICA (3). An introduction to the physical, historical, cultural, political, and development geography of Africa south of the Sahara. (NC) (Bacc Core Course) Equivalent course is GEO 325.
GEOG 313. *GEOGRAPHY OF ASIA (3). Geographic analysis of Asia's lands and peoples. Emphasis on regional physical environments, resources and development potentials, population trends, and international importance to the United States. Offered once every other year. (NC) (Bacc Core Course) Equivalent course is GEO 327.
GEOG 314. *GEOGRAPHY OF LATIN AMERICA (3). Focuses on the diverse landscapes, peoples and cultural traditions of Latin America, a vast region extending from the United States-Mexican border to the southern tip of South America. (NC) (Bacc Core Course)
GEOG 323. ^CLIMATOLOGY (4). Systematic analysis of global and regional climates. Physical principles of climate, climate classifications, and distribution and characteristics of climate regimes. Lec/lab. (Writing Intensive Course) PREREQS: GEOG 102 [D-] or GEO 202 [D-] or GEO 102 [D-] GEOG 324. GEOGRAPHY OF LIFE: SPECIES DISTRIBUTIONS AND CONSERVATION (4). Plant, animal, and biotic community distribution and dynamics. Effect of climate, tectonics, disturbance on extinction, speciation, and succession. Field trip(s) required; transportation fee charged. Lec/lab. Equivalent course is GEO 324.

GEOG 330. *^GEOGRAPHY OF
INTERNATIONAL DEVELOPMENT AND
GLOBALIZATION (3). Introduction to the geography of global wealth and inequality with a focus on contemporary development, underdevelopment, and globalization problems in Asian, African, Caribbean, Latin American, and Pacific Island countries. (Bacc Core Course) (Writing Intensive Course) Equivalent course is GEO 330. PREREQS: GEOG 105 [D-] or GEOG 106 [D-] or GEO 105 [D-] or GEO 106 [D-] and or consent of instructor.
GEOG 331. *POPULATION, CONSUMPTION, AND ENVIRONMENT (3). An examination of population patterns and trends, emphasizing historical growth and more recent demographic changes; using geographic tools to understand patterns of spatial distribution, to use and analyze data sources, and to gain experience interpreting and displaying data about population structure and dynamics; and developing the ability to evaluate the relationship between population, consumption, resources, and quality of life. Patterns of consumption, as individuals and societies will be examined and different future scenarios will be examined with reference to environmental, social and economic sustainability. (Bacc Core Course) Equivalent course is GEO 350.

## GEOG 340. *INTRODUCTION TO WATER

SCIENCE AND POLICY (3). Policy and science of the hydrologic cycle. Emphasis on interaction between water's natural time-space fluctuations and human uses. (Bacc Core Course) Equivalent course is GEO 335 and SOIL 335.

## GEOG 340H. *INTRODUCTION TO WATER

SCIENCE AND POLICY (3). Policy and science of the hydrologic cycle. Emphasis on interaction between water's natural time-space fluctuations and human uses. (Bacc Core Course) PREREQS: Honors College approval required.

GEOG 350. *GEOGRAPHY OF NATURAL
HAZARDS (3). Introduction to the geography of risk, natural hazards, and disasters, focusing on concepts of vulnerability, adaptation and resilience of human society in the Pacific Northwest and globally. Equivalent course is GEO 304.
GEOG 360. GISCIENCE I: GEOGRAPHIC INFORMATION SYSTEMS AND THEORY (4).
Fundamentals of spatial data, geographic information systems (GIS), and introductory spatial analysis, programming, and modeling. Equivalent course is GEO 365 and GEO 465.
GEOG 361. GISCIENCE II: ANALYSIS AND APPLICATIONS (4). Applications-based course. Development and conduct of geospatial analyses using various spatial data structures, techniques and models. Students acquire, clean, integrate, manipulate, visualize and analyze geospatial data through laboratory work. Lec/lab. Equivalent course is GEO 480. PREREQS: GEOG 360 [C-] and MTH 112 [C-] and (ST 201 [C-] or ST 351 [C-] )

## GEOG 370. GEOVISUALIZATION:

CARTOGRAPHY (4). Basic cartographic principles. Design, compilation, and construction of maps. Equivalent course is GEO 360. PREREQS: GEOG 201 [D-] or GEO 301 [D-]
GEOG 371. GEOVISUALIZATION: WEB MAPPING (4). Current developments in Internet mapping and advanced cartographic skills applied to web-based maps. Techniques of Internet mapping and principles of web-based cartography, including multimedia, animation, 3D visualization, and user interface design. Lec/lab. PREREQS: GEOG 201 [D-] or GEO 301 [D-]
GEOG 399. SPECIAL STUDIES (1-16). This course is repeatable for a maximum of 16 credits.
GEOG 399H. SPECIAL STUDIES (1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Honors College approval required.
GEOG 400. FIELD TRIPS (1-16). Participation in group field trips that are not a part of any other course. Transportation fee is charged. Students may prepare guides for trips. Faculty sponsor must be prearranged. This course is repeatable for a maximum of 48 credits. PREREQS: Departmental approval required
GEOG 401. RESEARCH (1-16). Independent, original research subjects guided by faculty conferences and resulting in a brief written report. Faculty sponsor must be prearranged. This course is repeatable for a maximum of 24 credits. PREREQS: Departmental approval required.
GEOG 403. THESIS (1-16). Independent, original study that culminates in a senior thesis. Faculty sponsor must be prearranged. This course is repeatable for a maximum of 24 credits. PREREQS: Departmental approval required.
GEOG 405. READING AND CONFERENCE
(1-16). Independent reading in specialized topics guided by and discussed in faculty conferences. Faculty sponsor must be prearranged. This course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required.
GEOG 407. SEMINAR (1-16). Graded P/N. This course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required.

GEOG 408. WORKSHOP (1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required.
GEOG 410. INTERNSHIP (1-16). Pre-career professional experience under joint faculty and employer supervision. Graded P/N. This course is repeatable for a maximum of 16 credits. PREREQS: 12 credits of upper-division geography and departmental approval required.
GEOG 423. SNOW HYDROLOGY (3).
Fundamentals of snow hydrology. Physical principles of snow formation, snowpack accumulation, energy balance, snowcover-climate
interactions, snow metamorphism, snowpack ablation, snowpack/snowmelt chemistry, remote sensing of snow, avalanches, field methods, snowmelt/runoff modeling techniques, and watershed processes. Equivalent course is GEO 483.

GEOG 424. HYDROLOGY FOR WATER RESOURCES MANAGEMENT (3). A quantitative introduction to surface and subsurface hydrology with a focus on decision making for the water resource professional PREREQS: MTH 251 [C-] and /or consent of instructor
GEOG 430. RESILIENCE-BASED NATURAL RESOURCE MANAGEMENT (3). Causes and consequences of conflict over natural resource management at local to global scales; principles for managing social-ecological systems for resilience. Field trip(s) may be required; transportation fee charged. Equivalent course is GEO 420.

GEOG 431. GLOBAL RESOURCES AND
DEVELOPMENT (3). Examines resource development issues and strategies in the Global South. Issues and strategies from agriculture, forestry, fisheries, energy, wildlife management, mineral development, land use, and health are examined. Equivalent course is GEO 426.

GEOG 432. *GEOGRAPHY OF FOOD AND AGRICULTURE (3). Overview of food and agriculture in relation to production and consumption regions as a basis for distinguishing different types of food and agricultural systems. Local and global examination of the geographic aspects of breeding, location in agricultural systems, and adaptation in agro-ecosystems using field study, explorations of literature, and lecture. Field trip required, transportation fee charged. (Bacc Core Course) Equivalent course is GEO 449.

GEOG 440. WATER RESOURCES
MANAGEMENT IN THE UNITED STATES (3). An investigation of the various approaches to water resources geography within the U.S. Explores the disciplines that address water resources management, their tools, and their limitations. Topics include engineering, law, economics, risk assessment, game theory, conflict resolution, and the fine arts. Equivalent course is GEO 425. PREREQS: 9 credits of upper-division geography and any course dealing with the hydrologic cycle.
GEOG 441. INTERNATIONAL WATER
RESOURCES MANAGEMENT (3). An
investigation of the various approaches to water resources geography at the international level. Explores the interaction between water science and policy through issues of current "hydropolitics" and water resources development. Topics include water quality, dams and development, conflict and cooperation, climate change, and water institutions. Equivalent course is GEO 424. PREREQS: 9 credits of upper-division geography and any course dealing with the hydrologic cycle.
GEOG 450. LAND USE IN THE AMERICAN
WEST (3). Development of a conceptual framework for land use study; analysis of land as a resource, land use trends, land use principles, and management issues as related to planning, focusing on the American West, the fastest growing region in the nation. Equivalent course is GEO 423.

GEOG 451. PLANNING PRINCIPLES AND PRACTICES FOR RESILIENT COMMUNITIES
(4). Applies GIS skills and techniques to determine and analyze future land uses. Determine suitable land uses that incorporate community goals, site constraints and minimize use conflicts. Regulatory and market-based implementation strategies for land uses will also be discussed. Lec/lab.
Equivalent course is GEO 452. PREREQS: GEOG 360 [C-] or GEOG 560 [C-] or GEO 365 [C-] or GEO 465 [C-]
GEOG 452. SUSTAINABLE SITE PLANNING (3). Use of geographic concepts and techniques in
site planning to create sustainable management reports for local sites. Inventory of environmental characteristics and human uses, conceptual design for future uses of the site, principles of green infrastructure and sustainable building practices. Local field trip required, transportation fee charged. Equivalent course is GEO 451. PREREQS: GEOG 250 recommended

GEOG 462. GISCIENCE III: PROGRAMMING FOR GEOSPATIAL ANALYSIS (4). Introduction to the extension of geographic information systems (GIS) through programming. No prior programming experience is expected. Teaches a pragmatic approach to design and write programs for geospatial analysis. Equivalent course is GEO 578. PREREQS: GEOG 361 [C-] or GEOG 561 [C-] or GEO 480 [C-]
GEOG 463. GISCIENCE IV: SPATIAL
MODELING (4). Introduction to spatial simulation models representing attraction, segregation, individual entities, and processes of spread, applied to contemporary problems in human and physical geography. PREREQS: GEOG 462 [C-] or GEOG 562 [C-] or GEO 578 [C-]
GEOG 464. GEOSPATIAL PERSPECTIVES ON INTELLIGENCE, SECURITY, AND ETHICS (3). Applications and implications of geospatial science (GIS, remote sensing, and spatial analysis) in intelligence, human, environmental, and ethical domains. Concepts and practices of ethics in geospatial science, including data access, management, visualization, and decision-making. Equivalent course is GEO 567. PREREQS: GEOG 360 [C-] or GEOG 560 [C-] or GEO 365 [C-] or GEO 465 [C-] and senior standing
GEOG 472. GEOVISUALIZATION: GEOVISUAL
ANALYTICS (3). Concepts and techniques underlying the production of maps by computer. Practical experience with a variety of computer mapping packages. Lec/lab. Equivalent course is GEO 445. PREREQS: GEOG 370 [C-] or GEOG 371 [C-] or GEO 360 [C-]
GEOG 480. REMOTE SENSING I: PRINCIPLES AND APPLICATIONS (4). Fundamentals of satellite remote sensing and image analysis. Topics include physical principles of remote sensing from the ultraviolet to the microwave, sensors and sensor technology, and environmental applications of remote sensing through image analysis. Lec/lab. Equivalent course s GEO 444. PREREQS: GEOG 201 [C-] or GEO 301 [C-]
GEOG 481. REMOTE SENSING II: DIGITAL IMAGE PROCESSING (4). Digital analysis of remote sensor data. Image display enhancement, classification, and rectification principles. Practical experience with an image processing system. Equivalent course is GEO 466. PREREQS: (GEOG 480 [C-] or GEOG 580 [C-] or GEO 444 [C-] or GEO 544 [C-] ) and (ST 202 [D-] or ST 352 [D-] )
GEOG 495. FIELD GEOGRAPHY OF OREGON
I (3). Designed as a capstone experience. Challenges students to assess the origins of the physical features of a landscape, and evaluate the impacts of features on the area's human geography, and vice versa. Three weekend field trips required, transportation fee charged Equivalent course is GEO 435. PREREQS: GEOG 295 [C-] or GEO 295 [C-] and junior or senior standing. Restricted to Earth Science and Geography majors.
GEOG 499. SPECIAL STUDIES (1-16). This course is repeatable for a maximum of 16 credits.
GEOG 500. FIELD TRIPS (1-16). Participation in group field trips that are not a part of any other course. Transportation fee charged. Students may prepare guides for trips. Faculty sponsor must be prearranged. This course is repeatable for a maximum of 48 credits. PREREQS: Departmental approval required

GEOG 501. RESEARCH (1-16). Independent,
original research subjects guided by faculty conferences and resulting in a brief written report. Faculty sponsor must be prearranged. This course is repeatable for a maximum of 24 credits. PREREQS: Departmental approval required.
GEOG 503. THESIS (1-16). Independent, original study that culminates in a thesis. Faculty sponsor must be prearranged. This course is repeatable for a maximum of 999 credits.

GEOG 505. READING AND CONFERENCE (1-16). Independent reading in specialized topics guided by and discussed in faculty conferences. Faculty sponsor must be prearranged. This course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required.

GEOG 507. SEMINAR (1-16). Graded P/N. This course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required.

GEOG 508. WORKSHOP (1-16). This course is repeatable for a maximum of 16 credits.

GEOG 510. INTERNSHIP (1-15). Pre-career professional experience under joint faculty and employer supervision. Graded P/N. This course is repeatable for a maximum of 16 credits. PREREQS: Pre-career experience under joint faculty and employer supervision. May not be used to meet minimum credit hour requirements for graduate degrees in geography.
GEOG 511. HISTORY AND PHILOSOPHY OF GEOGRAPHY (3). The historical development of research traditions in the discipline of geography. This includes an examination of changes in conceptual structures and current trends. Equivalent course is GEO 515. PREREQS: Graduate standing in geography (or related field).
GEOG 512. SOCIAL-ECOLOGICAL SYSTEMS (3). Exploration of critical debates surrounding theories associated with social-ecological systems, resilience, vulnerability, adaptation, social learning, transformation, adaptive governance. Equivalent course is GEO 554. PREREQS: 9 credits of graduate study.
GEOG 523. SNOW HYDROLOGY (3). Fundamentals of snow hydrology. Physical principles of snow formation, snowpack accumulation, energy balance, snowcover-climate interactions, snow metamorphism, snowpack ablation, snowpack/snowmelt chemistry, remote sensing of snow, avalances, field methods, snowmelt/runoff modeling techniques, and watershed processes. Equivalent course is GEO 583.

## GEOG 524. HYDROLOGY FOR WATER

RESOURCES MANAGEMENT (3). A quantitative introduction to surface and subsurface hydrology with a focus on decision making for the water resource professional. PREREQS: MTH 251 or consent of instructor

GEOG 530. RESILIENCE-BASED NATURAL RESOURCE MANAGEMENT (3). Causes and consequences of conflict over natural resource management at local to global scales; principles for managing social-ecological systems for resilience. Field trip(s) may be required; transportation fee charged. Equivalent course is GEO 520.
GEOG 531. GLOBAL RESOURCES AND
DEVELOPMENT (3). Examines resource development issues and strategies in the Global South. Issues and strategies from agriculture, forestry, fisheries, energy, wildlife management, mineral development, land use, and health are examined. Equivalent course is GEO 526.

## GEOG 532. GEOGRAPHY OF FOOD AND

AGRICULTURE (3). Overview of food and agriculture in relation to production and consumption regions as a basis for distinguishing different types of food and agricultural systems. Local and global examination of the geographic aspects of breeding, location in agricultural systems, and adaptation in agro-ecosystems using field study, explorations of literature, and
lecture. Field trip required, transportation fee charged. Equivalent course is GEO 549.

GEOG 540. WATER RESOURCES
MANAGEMENT IN THE UNITED STATES (3). An investigation of the various approaches to water resources geography within the U.S. Explores the disciplines that address water resources management, their tools, and their limitations. Topics include engineering, law, economics, risk assessment, game theory, conflict resolution, and the fine arts. Equivalent course is GEO 525. PREREQS: 9 credits of upper-division geography and any course dealing with the hydrologic cycle.

GEOG 541. INTERNATIONAL WATER
RESOURCES MANAGEMENT (3). An
investigation of the various approaches to water resources geography at the international level. Explores the interaction between water science and policy through issues of current "hydropolitics" and water resources development. Topics include water quality, dams and development, conflict and cooperation, climate change, and water institutions. Equivalent course is GEO 524. PREREQS: 9 credits of upper-division geography and any course dealing with the hydrologic cycle.

GEOG 546. ADVANCED LANDSCAPE AND SEASCAPE ECOLOGY (4). Pattern-process interactions in large scale ecological and physical systems, including terrestrial, aquatic, and marine/ ocean ecosystems. Principles of pattern-process interactions from genetic to community levels of ecological organization applied to design of conservation reserves. Hypothesis testing, field techniques, spatial models/statistics, GIS/remote sensing. Lec/lab. Equivalent course is GEO 546.
GEOG 550. LAND USE IN THE AMERICAN
WEST (3). Development of a conceptual framework for land use study; analysis of land as a resource, land use trends, land use principles, and management issues as related to planning, focusing on the American West, the fastest growing region in the nation. Equivalent course is GEO 523.
GEOG 551. PLANNING PRINCIPLES AND PRACTICES FOR RESILIENT COMMUNITIES (4). Applies GIS skills and techniques to determine and analyze future land uses. Determine suitable and uses that incorporate community goals, site constraints and minimize use conflicts. Regulatory and market-based implementation strategies for land uses will also be discussed. Lec/lab. Equivalent course is GEO 552. PREREQS: GEOG 360 [C] or GEOG 560 [C]
GEOG 552. SUSTAINABLE SITE PLANNING (3).
Use of geographic concepts and techniques in site planning to create sustainable management reports for local sites. Inventory of environmental characteristics and human uses, conceptual design for future uses of the site, principles of green infrastructure and sustainable building practices. Local field trip required, transportation fee charged. Equivalent course is GEO 551. PREREQS: GEOG 250 recommended.

GEOG 560. GISCIENCE I: INTRODUCTION TO GEOGRAPHIC INFORMATION SCIENCE (4). Introduction to modern spatial data processing, development, and functions of geographic information systems (GIS); theory, concepts and applications of geographic information science (GIScience). Equivalent course is GEO 565.
GEOG 561. GISCIENCE II: ANALYSIS AND APPLICATIONS (4). Applications-based course. Development and conduct of geospatial analyses using various spatial data structures, techniques and models. Students acquire, clean, integrate, manipulate, visualize and analyze geospatial data through laboratory work. Lec/lab. Equivalent course is GEO 580. PREREQS: GEOG 560 [C]
GEOG 562. GISCIENCE III: PROGRAMMING FOR GEOSPATIAL ANALYSIS (4). Introduction to the extension of geographic information systems (GIS) through programming. No prior programming experience is expected. Teaches a
pragmatic approach to design and write programs or geospatial analysis. Equivalent course is GEO 578. PREREQS: GEOG 361 [C] or GEOG 561 [C]

## GEOG 563. GISCIENCE IV: SPATIAL

MODELING (4). Introduction to spatial simulation models representing attraction, segregation, individual entities, and processes of spread, applied to contemporary problems in human and physical geography. PREREQS: GEOG 462 [C] or GEOG 562 [C]
GEOG 564. GEOSPATIAL PERSPECTIVES ON INTELLIGENCE, SECURITY, AND ETHICS (3). Applications and implications of geospatial science (GIS, remote sensing, and spatial analysis) in intelligence, human, environmental, and ethical domains. Concepts and practices of ethics in geospatial science, including data access, management, visualization, and decision-making. Equivalent course is GEO 567. PREREQS: GEOG 360 [C] or GEOG 560 [C] and senior standing
GEOG 565. SPATIO-TEMPORAL VARIATION IN ECOLOGY AND EARTH SCIENCE (4). Objectives and techniques of spatial and temporal analysis. Point patterns, geostatistics, spectral analysis, wavelet analysis, interpolation, and mapping. Equivalent course is GEO 541.
GEOG 566. ADVANCED SPATIAL STATISTICS
AND GISCIENCE (4). Provides advanced graduate students from a variety of disciplines in earth science and ecology the opportunity to structure and conduct spatio-temporal analyses using available software tools and their own datasets for their graduate research. Equivalent course is GEO 584.

## GEOG 571. GEOVISUALIZATION: WEB

MAPPING (4). Overview of methods and applications in interactive, dynamic cartographic visualization. Design and construction of customized user interfaces to geographic information. Lec/lab. Equivalent course is GEO 568. PREREQS: GEOG 370

GEOG 572. GEOVISUALIZATION: GEOVISUAL
ANALYTICS (3). Concepts and techniques underlying the production of maps by computer. Practical experience with a variety of computer mapping packages. Lec/lab. Equivalent course is GEO 545. PREREQS: GEOG 370 or GEOG 371
GEOG 580. REMOTE SENSING I: PRINCIPLES AND APPLICATIONS (4). Fundamentals of satellite remote sensing and image analysis. Topics include physical principles of remote sensing from the ultraviolet to the microwave, sensors and sensor technology, and environmental applications of remote sensing through image analysis. Lec/lab. Equivalent course is GEO 544. PREREQS: GEOG 201 or GEO 301
GEOG 581. REMOTE SENSING II: DIGITAL IMAGE PROCESSING (4). Digital analysis of remote sensor data. Image display enhancement, classification, and rectification principles. Practical experience with an image processing system.
Equivalent course is GEO 566. PREREQS: GEOG 580 [C] and (ST 352 or ST 202)
GEOG 595. FIELD GEOGRAPHY OF OREGON
II (3). Designed to introduce students to the widest possible range of topics on all aspects of Oregon geography within a limited time, then turn that experience into a viable research proposal. While physical processes are the primary topic, resource and environmental effects are stressed. Field trip required, transportation fee charged. Equivalent course is GEO 534.

## GEOG 596. FIELD RESEARCH IN

 GEOMORPHOLOGY AND LANDSCAPEECOLOGY (3). Natural history interpretation of disturbance and recovery processes and management implications in forest-stream landscapes of western Oregon. Course consists of field experience and several seminars. Transportation and lodging fee charged. Equivalent course is GEO 548. PREREQS: 9 graduate credits in sciences or engineering.

GEOG 599. SPECIAL STUDIES (1-16). This course is repeatable for a maximum of 24 credits.

GEOG 600. FIELD TRIPS (1-16). Participation in group field trips that are not a part of any other course. Transportation fee charged. Students may prepare guides for trips. Faculty sponsor must be prearranged. This course is repeatable for a maximum of 48 credits. PREREQS: Departmental approval required

GEOG 601. RESEARCH (1-16). Independent, original research subjects guided by faculty conferences and resulting in a brief written report. Faculty sponsor must be prearranged. This course is repeatable for a maximum of 36 credits. PREREQS: Departmental approval required.

GEOG 603. THESIS (1-16). Independent, original study that culminates in a thesis Faculty sponsor must be prearranged. This course is repeatable for a maximum of 999 credits.
GEOG 605. READING AND CONFERENCE
(1-16). Independent reading in specialized topics guided by and discussed in faculty conferences. Faculty sponsor must be prearranged. This course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required.
GEOG 607. SEMINAR (1-16). Graded P/N. This course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required.
GEOG 608. WORKSHOP (1-16). This course is repeatable for a maximum of 16 credits. PREREQS: Departmental approval required.
GEOG 699. SPECIAL STUDIES (1-16). This course is repeatable for a maximum of 24 credits.

## GEOPHYSICS COURSES

GPH 501. RESEARCH (1-16). Original research work that will not be part of the data used in a thesis. Graded P/N. This course is repeatable for a maximum of 24 credits.
GPH 503. THESIS (1-16). Thesis research and writing. This course is repeatable for a maximum of 999 credits.

GPH 505. READING AND CONFERENCE (1-16). Independent reading and library research on specialized topics in geophysics, guided by discussions with supervising faculty. A written report may be required. This course is repeatable for a maximum of 16 credits. PREREQS: Instructor and topic approval required before registration.
GPH 507. SEMINAR (1-16). This course is repeatable for a maximum of 48 credits.
GPH 601. RESEARCH (1-16). Original research work that will not be part of the data used in a thesis. Graded P/N. This course is repeatable for a maximum of 36 credits.

GPH 603. THESIS (1-16). Thesis research and writing. This course is repeatable for a maximum of 999 credits.

GPH 605. READING AND CONFERENCE (1-16). Independent reading and library research on specialized topics in geophysics guided by discussions with supervising faculty. A written report may be required. This course is repeatable for a maximum of 16 credits. PREREQS: Instructor and topic approval required before registration.
GPH 607. SEMINAR (1-16). This course is repeatable for a maximum of 48 credits.
GPH 630. ELEMENTS OF SEISMOLOGY (4). Survey of basic concepts in global seismology: world seismicity; elastic structure of the earth; seismic wave paths in the earth; locating earthquakes; earthquake focal mechanisms, magnitudes, stress drop, energy; stress and strain, elasticity, wave equation, plane waves in homogeneous and layered media, surface waves, free oscillations; ray theory; seismometry; earthquake prediction. Laboratory
exercises include interpretation and analysis of seismograms from global seismographic networks. PREREQS: Differential equations.
GPH 632. CRUSTAL SEISMOLOGY (3). Structure of the earth's crust and upper mantle from seismic reflection and large offset (refraction, wide-angle reflection) data. Methods of data collection, data processing theory and practice, modeling and interpretation techniques, correlation of seismic results with laboratory measurements of rock properties, and regional case studies. PREREQS: GPH 630 [C]
GPH 640. GEODESY (4). Physical and observational geodesy, including the Earth's gravity field and potential and determination of the Earth's geoid. Interpretation of geoid, geoid anomalies, and isostatic compensation. Gravity, point-position and remote sensing geodetic measurement techniques, including GPS, InSAR, VLBI, leveling, triangulation/trilateration, and low-Earth orbit gravity satellite missions are covered as are geodetic reference frames. Offered alternate years.
GPH 641. ELECTROMAGNETIC METHODS IN GEOPHYSICS (3). Survey of electromagnetic (EM) methods in geophysics. Review of electromagnetic theory, Maxwellis equations in the quasi-static limit, the diffusion of EM fields in a layered conductor, qualitative discussion of EM fields in 2- and 3-D conductors. EM techniques, including DC resistivity, magnetotellurics, controlled source EM, induced polarization, and long-period magnetometer array methods. Applications to exploration, to basic research on crustal structure and to studies of upper-mantel conductivity. PREREQS: Upper-division EM course.

GPH 642. EARTH MAGNETISM (3).
Geomagnetism and magnetic potential: general morphology and secular change; internal and external sources; principles of paleomagnetism, including field and laboratory procedures; origin of remnant magnetism in rocks and the controlling physical and chemical processes; the origin of the Earth's magnetic field. PREREQS: Instructor approval required.
GPH 650. GEOPHYSICAL INVERSE THEORY
(4). Survey of the theory and applications of inverse methods currently used in the geophysical sciences for the interpretation of inaccurate and inadequate data. Backus-Gilbert inverse theory, resolution, regularization methods (such as damped least squares) for linear and non-linear problems, stochastic inversion, and extremal models. Applications to seismic, gravity, magnetic and electromagnetic data. PREREQS: Linear algebra, instructor approval required.
GPH 651. GEODYNAMICS I (3). Application of the techniques of continuum mechanics to geological problems. Thermal and subsidence history of the lithosphere; stress and strain in the earth; elasticity and flexure of the lithosphere; gravitational compensation. Offered alternate years. PREREQS: Instructor approval required.
GPH 665. GEOPHYSICAL FIELD TECHNIQUES
(3). Instrumentation, field methods and interpretation of gravimetric, magnetic, electrical and seismic prospecting techniques. Students will be required to collect, reduce, analyze, and interpret data.
GPH 689. SPECIAL TOPICS IN GEOPHYSICS
(1-4). Special topics of current interest in geophysics, not covered in detail in other courses. May be repeated on different topics for credit. This course is repeatable for a maximum of 16 credits.

## 1 MARINE RESOURCE <br> MANAGEMENT COURSES

MRM 501. RESEARCH AND SCHOLARSHIP (1-16). Graded P/N. This course is repeatable for a maximum of 24 credits.
MRM 503. THESIS (1-16). This course is
repeatable for a maximum of 999 credits.
MRM 505. READING AND CONFERENCE (1-16).
This course is repeatable for a maximum of 16 credits.

MRM 506. PROJECTS (1-16). This course is repeatable for a maximum of 72 credits.

MRM 507. SEMINAR (1-16). This course is repeatable for a maximum of 48 credits.

MRM 508. WORKSHOP (1-16). This course is repeatable for a maximum of 24 credits.

MRM 510. INTERNSHIP (1-9). Planned and supervised resource management experience with selected cooperating governmental agencies, private organizations, or business firms. Supplementary conferences, reports and evaluations. Graded $P / N$. This course is repeatable for a maximum of 16 credits. PREREQS: For marine resource management majors only.
MRM 520. COASTAL LAW (3). Examines federal and state judicial and legislative protection of public beach access rights; ownership and use of tide and submerged lands, including the public trust doctrine and the federal and state navigation servitudes; federal and state protection of wetlands; and the Federal Coastal Zone Management Act.

## MRM 525. SPECIAL TOPICS IN MARINE

RESOURCE MANAGEMENT (1-4). Subjects of current interest in marine resource management not covered in depth in other courses. May be repeated for credit when topic varies. This course is repeatable for a maximum of 24 credits.

## MRM 530. PRINCIPLES AND PRACTICE

## OF MARINE RESOURCE MANAGEMENT

(3). Introduces learners to the core concepts/ skills required for guiding the management of the interactions between human and natural marine systems. Particular attention is given to the concept and framework of EcosystemBased Management, the goal of which is to conserve, maintain and restore ecosystem functions to promote the economic and ecological sustainability of marine ecosystems and human communities that depend on the services they provide. Tomorrow's marine resource managers must be capable of identifying, requesting, analyzing, synthesizing, and combining natural and social science with experiential knowledge and human/social capital to generate meaningful policy and management recommendations and strategies.
MRM 534. OCEANS IN CRISIS (3). Explores the state of the world's oceans and coasts, whether or not they are indeed in crisis, and what, if any management responses can be reasonably expected to halt and restore our oceans.

## MRM 535. RIGHTS-BASED FISHERIES

MANAGEMENT (3). Clear, appropriate and enforceable fishing entitlements and responsibilities are a cornerstone of sustainable fisheries management. Rights-based management tools such as dedicated access privileges, community quotas, co-management and cost recovery will be explored as ways of promoting individual and collective responsibility for sustainable fisheries management. High seas fisheries will also be addressed.
MRM 552. MARINE ECONOMICS (3). Economic aspects of marine resource utilization and management will be analyzed. Topics include open access aspect of marine resources; conflict and allocation of marine resources, marine resource markets, marine recreation, pollution, and aquaculture, with special emphasis on commercial fisheries. CROSSLISTED as AEC 552 PREREQS: AEC 351 or AEC 352 or AREC 351 or AREC 352

MRM 599. SPECIAL TOPICS (1-16). This course is repeatable for a maximum of 24 credits.

## ■ OCEANOGRAPHY COURSES

## OC 103. *EXPLORING THE DEEP:

GEOGRAPHY OF THE WORLD'S OCEANS (4). Introduces non-science students to the oceans, including marine geology and chemistry, ocean currents, coastal and biological processes. Field trip required, transportation fee charged. Lec/lab. (Bacc Core Course)
OC 199. SPECIAL TOPICS IN OCEANOGRAPHY
(1-4). Introduction to topics of current interest in oceanography for lower-division undergraduates. May be repeated for credit when topic varies. This course is repeatable for a maximum of 16 credits.
OC 201. *OCEANOGRAPHY (4). Plate tectonics and the geological structure of ocean basins; physical and chemical properties of seawater; Earth's energy budget; large-scale circulation of the atmosphere and ocean; marine sediment properties and transport; Earth history recorded in marine sediments; the carbon cycle in the atmosphere and sea; and the ecology of pelagic and benthic systems. Lec/lab. (Bacc Core Course)

## OC 295. INTRODUCTION TO FIELD

OCEANOGRAPHY (3). One-week course taught during Spring Break at Hatfield Marine Science Center, with ten hours of preparatory meetings on the Corvallis campus. Collect oceanographic data and samples from ships and coastal marine habitats and conduct preliminary analysis of data and samples. Serves as an introduction to upperdivision course work in ocean science. Field trip(s) required; transportation fee charged. PREREQS: OC 201 [D-] or OC 332 [D-] or OC 332H [D-] OC 332. COASTAL OCEANOGRAPHY (3). Physics, geology, biology and hydrology of coastal oceans. How coastal waters respond to forcing by heating, cooling, winds, tides, waves, rain, evaporation, river runoff and freezing. Geography and geology of coastlines: erosion and deposition processes, beach dynamics. Coastal equilibrium cells as sources and sinks of sediment. Rocky shore, beach, mudflat, estuarine, and coastal biotic communities; animal migrations. Law of the Sea rights and responsibilities of coastal states. Fisheries and mariculture in coastal seas. Pollution and coastal ocean resources. Using a matrix to define environmental problems; pathways that pollutants take through the coastal ecosystem. Offered annually.
OC 333. OCEANS, COASTS, AND PEOPLE
(3). Contemporary issues related to human interactions with the oceans and coastal zones, including living and energy resources, geohazards and impacts of global change. Content presented in lectures, readings and group discussions, with project oral presentations. PREREQS: OC 201 is recommended.

OC 334. ${ }^{\wedge}$ POLAR OCEANOGRAPHY (3). Explores the physical, chemical and biological oceanography of the Arctic and Antarctic and examines the impacts of man's activities both directly through resource utilization, and indirectly through climate change. Introduction to polar oceanography through a series of lectures, interactive classes, written assignments and a case study. (Writing Intensive Course) PREREQS: OC 201 [D-]
OC 399. SPECIAL TOPICS IN OCEANOGRAPHY (1-4). This course is repeatable for a maximum of 16 credits.

OC 399H. SPECIAL TOPICS IN
OCEANOGRAPHY (1-4). This course is repeatable for a maximum of 16 credits. PREREQS: Honors College approval required.
OC 401. RESEARCH PROJECTS (1-16). Field and laboratory research in oceanography for undergraduates, resulting in a written report. This course is repeatable for a maximum of 24 credits. PREREQS: Instructor and topic approval required before registration.
OC 403. THESIS (1-16). Independent, original study that culminates in a senior thesis. Faculty
sponsor must be prearranged. Graded P/N. This course is repeatable for a maximum of 24 credits. PREREQS: College approval required.
OC 405. READING AND CONFERENCE (1-4). Independent library research and reading in specialized topics in oceanography for undergraduates, guided by discussions in conferences with faculty. A written report may be required. This course is repeatable for a maximum of 16 credits. PREREQS: Instructor and topic approval required before registration.
OC 407. SEMINAR (1-3). Undergraduate seminar on current developments in the oceanographic research literature, with student presentations and group discussions. A written report may be required. This course is repeatable for a maximum of 12 credits.
OC 407H. SEMINAR (1-3). Undergraduate seminar on current developments in the oceanographic research literature, with student presentations and group discussions. A written report may be required. This course is repeatable for a maximum of 12 credits. PREREQS: Honors College approval required.
OC 410. INTERNSHIP (1-16). Pre-career professional experience under joint faculty and employer supervision. Graded P/N. This course is repeatable for a maximum of 48 credits. PREREQS: 12 credits of upper-division college courses and approval required.
OC 430. PRINCIPLES OF PHYSICAL OCEANOGRAPHY (4). Fundamental principles of physical oceanography; conservation of mass, heat, momentum and vorticity; equations governing motion in the ocean; geostrophy; planetary boundary layers; wind-driven and thermohaline circulation. Descriptive oceanography; application of the fundamental principles to the ocean; examination of the major current systems; water mass analysis. Offered annually. PREREQS: One year each of college physics and college calculus.
OC 433. COASTAL AND ESTUARINE OCEANOGRAPHY (3). Circulation of the coastal ocean including continental shelf circulation, upwelling, coastal jets, undercurrents, coastaltrapped waves. Fundamentals of surface waves and tides; tsunamis, wind generation, breaking waves. Estuary classification and circulation patterns; shallow-water processes and beach morphology. Offered alternate years. PREREQS: One year of college physics and one year of calculus.
OC 434. ESTUARINE ECOLOGY (4). Integrated and synthetic training in the ecological processes of estuarine environments, with emphases on ecological interactions among organisms and the biogeochemical cycling of carbon and nitrogen. Topics include geomorphology, estuarine physics and chemistry, primary and secondary producers, ecosystem metabolism, element cycling, food webs, fisheries, restoration management, and impacts of climate. Field trip required, transportation fee charged. CROSSLISTED as FW 434/FW 534. Offered on Corvallis campus via interactive video from HMSC campus.
OC 440. BIOLOGICAL OCEANOGRAPHY (4). An advanced examination of the ocean as an ecosystem with emphasis on the processes affecting the production and structure of oceanic communities. Starting with the physical and chemical characteristics of the ocean environment, lectures and labs examine the flow of energy and matter from primary producers through primary consumers up to higher trophic levels. Microbial and benthic processes are examined. Current topics, such as hypoxia, ocean acidification and harmful algal blooms are discussed. Lec/lab. PREREQS: OC 201 [C-] and two terms of collegelevel biology or instructor approval.
OC 450. CHEMICAL OCEANOGRAPHY (3).
Chemical properties and processes in the oceans. Composition, origin and evolution of sea
water; thermodynamic and kinetic predictions for reactions in sea water; major and minor element reservoirs and fluxes; vertical and horizontal transport of materials; isotopic clocks and tracers; nutrients; chemical processes and fluxes across major marine interfaces, including estuaries, atmosphere, sediments, suspended particles and hydrothermal systems. Offered annually PREREQS: One year of college-level general chemistry.
OC 460. GEOLOGICAL OCEANOGRAPHY (3). Structure of ocean basins, plate tectonics and sea floor spreading, marine sedimentation, history of ocean basins, and analysis of geological and geophysical data. Offered annually. PREREQS: One year each of physics and chemistry or science background.
OC 499. SPECIAL TOPICS IN OCEANOGRAPHY (1-4). Subjects of current interest in oceanography, not covered in depth in other courses. May be repeated for credit when topic varies. Graded P/N. This course is repeatable for a maximum of 16 credits. PREREQS: Varies with current topic. For upper-division undergraduates.
OC 501. RESEARCH (1-16). Original research work that will not be part of the data used in a thesis. Graded P/N. This course is repeatable for a maximum of 24 credits. PREREQS: Instructor approval required.
OC 503. THESIS (1-16). Thesis research and writing. This course is repeatable for a maximum of 999 credits.
OC 505. READING AND CONFERENCE (1-16) Independent reading and library research on specialized topics in oceanography, guided by discussions with supervising faculty. A written report may be required. This course is repeatable for a maximum of 16 credits. PREREQS: Instructor and topic approval required before registration.
OC 506. PROJECTS (1-16). This course is repeatable for a maximum of 72 credits.

OC 507. SEMINAR (1-3). Student presentations and discussions of current research literature or personal research results. Original research presentations by visiting scientists, OSU faculty and graduate students presenting final thesis results. Other sections and specific topics by arrangement. This course is repeatable for a maximum of 48 credits.

OC 508. WORKSHOP (1-16). This course is repeatable for a maximum of 24 credits.

## OC 512. BASIC MATLAB FOR

## ENVIRONMENTAL SCIENTISTS AND

ENGINEERS (2). MATLAB desktop environment will be introduced and basic programming and data analysis skills will be developed, with an emphasis on writing optimized routines to analyze data sets utilizing matrix algebra and vectorization of functions. Basic graphics and visualization will be covered, including two-dimensional and threedimensional graphing, contouring and movies.

OC 515. OREGON COAST MATH CAMP (3). Selected topics from differential calculus, integral calculus, ordinary and partial differential equations, statistics, linear algebra and vector calculus. Two-week course taught at Hatfield Marine Science Center in Newport, Oregon, before fall term begins. Graded P/N. PREREQS: Differential and integral calculus and linear algebra highly recommended or consent of instructor.

## OC 521. APPLICATIONS IN OCEAN

ECOLOGY AND BIOGEOCHEMISTRY (4).
Methodological underpinnings of marine ecology and biogeochemistry. Students will learn about both new and traditional methods of seawater analysis and biological rate determinations. They will evaluate methods by analyzing observations and samples, and assessing the interpretive effectiveness of approaches. Lec/lab. PREREQS: OEAS 540 [C] COREQS: OC 522, OC 523

OC 522. OCEAN BIOGEOCHEMICAL DYNAMICS (4). Examines what keeps ocean systems in balance, and determines their response to perturbation. The course relies on connections between physical transport and biogeochemical reaction rates and energetics, taught from the perspective of key ocean biogeochemical cycles. PREREQS: Bachelor's degree in scientific field or consent of instructor. OEB students are required to also take OC 523, Ocean Ecological Dynamics, and OC 521, Applications in Ocean Ecology and Biogeochemistry, as part of first-year Tier Two curriculum. COREQS: OC 521, OC 523
OC 523. OCEAN ECOLOGICAL DYNAMICS (4). Major characteristics of ocean biota and ocean ecosystems. Main themes will be centered on the bioenergetics of marine systems at levels ranging from the individual to ocean biomes, and on how ocean biota facilitates diverse marine biogeochemical processes. Lec/rec.
OC 528. MICROPROBE ANALYSIS (3). Theory and application of electron microprobe analysis to problems in geology, engineering, chemistry, physics, and biology.

OC 533. COASTAL AND ESTUARINE
OCEANOGRAPHY (3). Circulation of the coastal ocean including continental shelf circulation, upwelling, coastal jets, undercurrents, coastaltrapped waves. Fundamentals of surface waves and tides; tsunamis, wind generation, breaking waves; shallow-water processes and beach morphology. Offered alternate years. PREREQS: One year of college physics and one year of calculus.
OC 534. ESTUARINE ECOLOGY (4). Integrated and synthetic training in the ecological processes of estuarine environments, with emphases on ecological interactions among organisms and the biogeochemical cycling of carbon and nitrogen. Topics include geomorphology, estuarine physics and chemistry, primary and secondary producers, ecosystem metabolism, element cycling, food webs, fisheries, restoration management, and impacts of climate. Field trip required, transportation fee charged. CROSSLISTED as FW 434/FW 534.

## OC 561. IGNEOUS AND TECTONIC

PROCESSES IN THE OCEAN (3). An integrated view of the igneous and tectonic processes responsible for the formation and evolution of the ocean basins. The course is organized by tectonic environment including ridge crest, ridge flank, ocean basins, seamounts, and active and passive margins. PREREQS: One year each physics, calculus and geology.

OC 562. SEDIMENTARY PROCESSES IN THE OCEAN BASINS (3). An integrated view of sediment processes in the ocean basins from a source to sink perspective, with a special emphasis on the interpretation of the historical record. PREREQS: OC 550 and one year each physics and calculus and geology.
OC 574. EARLY LIFE HISTORY OF FISHES (4). Overview of diversity of development patterns in fishes; emphasis on morphology, life history, and evolution. Offered alternate years. CROSSLISTED as FW 574. PREREQS: FW 315 or equivalent.
OC 599. SPECIAL TOPICS IN OCEANOGRAPHY
(1-4). Subjects of current interest in oceanography, not covered in depth in other courses. May be repeated for credit when topic varies. This course is repeatable for a maximum of 24 credits. PREREQS: Varies with current topic.
OC 601. RESEARCH (1-16). Original research work that will not be part of the data used in a thesis. Graded P/N. This course is repeatable for a maximum of 36 credits. PREREQS: Instructor approval required.
OC 603. THESIS (1-16). Thesis research and writing. This course is repeatable for a maximum of 999 credits.

OC 605. READING AND CONFERENCE (1-16).
Independent reading and library research on specialized topics in oceanography, guided by discussions with supervising faculty. A written report may be required. This course is repeatable for a maximum of 16 credits. PREREQS: instructor and topic approval required before registration.
OC 606. PROJECTS (1-16). This course is repeatable for a maximum of 84 credits.
OC 607. SEMINAR (1-3). Student presentations and discussion of current research literature or personal research results. Original research presentations by visiting scientists, OSU faculty and graduate students presenting final thesis results. Other sections and specific topics by arrangement. This course is repeatable for a maximum of 48 credits.
OC 608. WORKSHOP (1-16). This course is repeatable for a maximum of 24 credits.
OC 630. OCEAN WAVE MECHANICS I (3). Linear wave boundary value problem formulation and solution, water particle kinematics, shoaling, refraction, diffraction, and reflection. Linear long wave theory with applications to tides, seiching, and storm surge. CROSSLISTED as CE 630. Lec/ lab.
OC 631. OCEAN WAVE MECHANICS II (3).
Second in the sequence of ocean engineering wave mechanics, covers the following topics: introduction to long wave theory, wave superposition, wave height distribution, and the wind-wave spectrum, introduction to wave forces, and basic nonlinear properties of water waves. May include additional selected topic in wave mechanics. CROSSLISTED as CE 631. PREREQS: (CE 630 [C] or OC 630 [C] )
OC 634. LONG WAVE MECHANICS (3). Theory of long waves. Depth-integrated Euler's equation and its jump conditions. Evolution equations and their solutions. Nonlinear shallow-water waves, the Korteweg-deVries equation and Boussinesq equation. Boundary-layer effects. Shallow-water waves on beaches. Applications of the fundamentals to problems of tsunamis. CROSSLISTED as CE 634. PREREQS: (OC 630 [C] and CE 631 [C] ) and OC 670 or equivalent.

OC 635. APPLIED MODELING OF NEARSHORE
PROCESSES (4). An introduction to numerical modeling of the nearshore ocean, providing hands-on experience with state-of-the-art numerical models for wave propagation, nearshore circulation, planform shoreline evolution and bathymetric profile evolution. Focuses on review of model requirements, detailed study of several specific models for several domains of interest, application to coastal phenomena, interpretation of model results. Lec/lab. Offered alternate years. CROSSLISTED as CE 635.

## OC 646. PHYSICAL/BIOLOGICAL

 INTERACTIONS IN THE UPPER OCEAN (4). Variability in physical oceanic processes in the upper ocean and relationship to spatial and temporal variations in biomass, growth rates, and other biological patterns in the organisms of ocean surface waters. The relationship between variability in ocean physical phenomena and ecosystem dynamics, including the requirements of sampling design for upper ocean ecological studies. Time and space scales of physical and biological phenomena in the upper ocean. Offered alternate years. Offered alternate years, typically fall term. PREREQS: (OEAS 530 [C] and OEAS 540 [C] ) and /or instructor approval required.OC 647. MARINE MICROBIAL PROCESSES (4). Roles of procaryotic and eukaryotic microbes in the biological and chemical processes of the sea, with emphasis on pelagic ecosystems. Functional and taxonomic types and distribution of marine micro- organisms. Biochemical and physiological processes of major groups of microbes as these relate to geochemical cycles of biologically
active elements in the sea. Heterotrophic and mixotrophic protists in pelagic foodwebs. Discussion of current experimental approaches to determining aspects of microbial activity and production. Offered alternate years. PREREQS: OC 540 [C] and two years of biology or instructor approval required.

OC 649. SPECIAL TOPICS IN BIOLOGICAL OCEANOGRAPHY (1-4). Special topics of current interest in biological oceanography not covered in detail in other courses. May be repeated for credit when topic varies. This course is repeatable for a maximum of 16 credits.

OC 657. SEDIMENT BIOGEOCHEMISTRY (3).
An overview of early diagenetic processes in marine sediments and the interdisciplinary approaches used to quantify material transformations at the seafloor. PREREQS: OC 550 is recommended.

## OC 659. SPECIAL TOPICS IN CHEMICAL

 OCEANOGRAPHY (1-4). Special topics of current interest in chemical oceanography not covered in detail by other courses. May be repeated for credit when topic varies. This course is repeatable for a maximum of 16 credits.OC 660. PALEOCEANOGRAPHY (3). Largescale changes in the oceanic and atmospheric system, as recorded in marine sediments, and their implications for understanding global environment changes. Chemical, physical, and biological proxies for oceanic and atmospheric processes in the geologic record period. Evidence for changing global climate at time scales longer than the historical record; the oceanic history of the Late-Cenozoic ice ages, long term evolution of climate change patterns, catastrophic global environmental events, and application of quantitative models to the past. Current research topics in paleoceanography. Offered alternate years. PREREQS: OC 560 or instructor approval required.
OC 662. NEARSHORE HYDRODYNAMICS (3). Briefly reviews wave processes in the nearshore, and concentrates on the wave-averaged circulation with an eye towards it potential effects on bathymetric change. PREREQS: Approach will often be quantitative; previous courses related to water wave mechanics and differential equations is recommended.
OC 664. NEARSHORE SEDIMENT TRANSPORT
(3). To study the dynamics of a nearshore wave field propagating over a shoaling bathymetry, the response of sediments and morphology to those motions, emergent morphology due to the coupled system, anthropogenic influences and mitigation. PREREQS: General physics, integral and differential calculus; nearshore hydrodynamics.

OC 665. APPLIED GEOSTATISTICS (4). Spatial and stratigraphic characteristics of geologic data; geologic data bases; application of matrix theory o the solution of geologic problems; descriptive models, predictive models, spatial models, and stratigraphic and time-series models. Offered alternate years. PREREQS: One year of statistics and one year of computer science.
OC 666. ISOTOPIC MARINE GEOCHEMISTRY
(3). Radiogenic and light stable isotopes and application to composition and evolution of the suboceanic mantle, petrogenesis of the oceanic crust, sediment provenance and sedimentary processes, geochronology, seawater chemical dynamics and paleoclimatology. Offered alternate years.
OC 668. THEORETICAL PETROLOGY (3). Theoretical aspects of igneous petrology in marine petrochemical processes. Igneous and metamorphic geology; hydrothermal solutions. Principles of energy, enthalpy, entropy. Equilibrium processes of melting, crystallization, mineral chemistry, geothermometers, geobarometers. Offered alternate years. PREREQS: Petrology.
OC 669. SPECIAL TOPICS IN GEOLOGICAL OCEANOGRAPHY (1-4). Subjects of current
interest in geological oceanography not covered in depth in other courses. May be repeated for credit when topic varies. This course is repeatable for a maximum of 16 credits.

OC 670. FLUID DYNAMICS (4). Fundamentals of fluid dynamics: conservation laws of mass, momentum, and energy; inviscid and viscous flows; boundary layers; vorticity dynamics; irrotational and potential flow. Offered annually. PREREQS: One year of college physics; mathematics through differential equations and vector calculus.
OC 671. GEOPHYSICAL FLUID DYNAMICS (4). Dynamics of rotating and stratified fluids, potential vorticity, geostrophic motion; inviscid shallowwater theory, Poincare, Kelvin, and Rossby waves; geostrophic adjustment, quasigeostrophic approximation, Ekman layers, two-layer and continuously stratified models. Offered annually. PREREQS: OC 670 [C]

OC 672. THEORY OF OCEAN CIRCULATION
(4). Theory of steady and time-dependent arge-scale circulation in ocean basins. Effects of earth's curvature: the beta-plane approximation. The wind-driven Sverdrup circulation, western boundary currents, eastern boundary upwelling; the effects of friction. Linear theory and nonlinear theory; inertial gyres. Effects of buoyancy forcing; heating, cooling, evaporation, precipitation; density stratification. Wind- and buoyancy-forced circulation in the thermocline; ventilation. Potential vorticity conservation and homogenization. Offered annually. PREREQS: (OC 670 [C] and OC 671 [C] )

## OC 673. DESCRIPTIVE PHYSICAL

OCEANOGRAPHY (4). Fundamental mass, force, and energy balances of the ocean; geostrophy; planetary boundary layers; wind-driven and thermohaline circulation; vorticity; air-sea fluxes of heat, salt, moisture and momentum. Application of these balances through descriptive examination of the ocean-global heat budget; surface current systems; abyssal circulation. Study of variability on a variety of time and space scales. instrumentation and platforms used for observing the ocean. Offered annually. PREREQS: (OC 530 [C] or OC 670 [C] or ATS 515 [C] )
OC 674. TURBULENCE (4). Governing equations, turbulent kinetic energy, vorticity dynamics; turbulent transports of mass and momentum; statistical description of turbulent flows, spectral dynamics; turbulent boundary layers, planetary boundary layers in the atmosphere and ocean, convective mixed layers, stable boundary layers; deep ocean turbulence. Offered alternate years. PREREQS: OC 670 [C]

OC 675. NUMERICAL MODELING IN OCEAN CIRCULATION (4). Review of theoretical models of ocean circulation, including shallow water, barotropic, quasigeostrophic, and primitive equation models; adjustment times, internal length and time scales; the role of advection, bathymetry, and coastlines; global models, basin models, regional models and models of jets, eddies and boundary currents. Review of numerical techniques and problems specific to ocean modeling. Local facilities are used to develop models on remote supercomputers. PREREQS: OC 670 [C] and /or equivalent and a working knowledge of FORTRAN.
OC 676. INVERSE MODELING AND DATA
ASSIMILATION (4). Survey of methods for combining oceanographic observations and observing systems with numerical models of ocean circulation. Topics include: finitedimensional least squares theory with inequality constraints; optimal interpolation; the representation theory of smoothing; the Kalman smoother and filter; gradient descent methods for minimization; spatial and temporal regularity of filters and smoothers; linear theory of array design; nonlinear optimization, practical assimilation methods. PREREQS: Strong background in linear algebra and advanced calculus, geophysical
fluid dynamics, numerical modeling of ocean circulation.

OC 678. OCEAN REMOTE SENSING (4). Theory and applications of satellite remote sensing observations of the ocean with emphasis on strengths and limitations in the measurements Topics include review of electricity and magnetism, absorption and scattering in the atmosphere (radiative transfer), satellite orbital mechanics, measurements of ocean color, infrared remote sensing, microwave radiometry, scatterometry, and satellite altimetry. Offered alternate years. PREREQS: MTH 252 and PH 212

OC 679. SPECIAL TOPICS IN PHYSICAL OCEANOGRAPHY (1-4). Subjects of current interest in physical oceanography, not covered in depth in other courses. May be repeated for credit when topic varies. This course is repeatable for a maximum of 16 credits.
OC 680. STABILITY OF GEOPHYSICAL FLUID
FLOWS (4). Linear perturbation analysis applied to geophysical flows. These methods provide both quantitative and conceptual insight into the formative stages of turbulent flow. Emphasis is on practical numerical methods for the solution of differential eigenvalue problems. Examples are drawn from a wide range of geophysical flow instabilities, based in part upon student interests. PREREQS: OC 670 [C] and COREQ: OC 670 and multivariate calculus, matrix calculus, Matlab.

OC 681. GEOPHYSICAL WAVES (4).
Fundamentals of wave dynamics applied to geophysical fluids. Hyperbolic waves--linear and nonlinear; characteristics; shock waves. Dispersive waves--linear waves, dispersion relations, group velocity; isotropic and anisotropic dispersion; nonlinear solitary waves. Application o geophysical waves--surface gravity, capillary, internal gravity, Kelvin, planetary, coastal. Offered alternate years. PREREQS: OC 670 [C]

## OC 682. DATA ANALYSIS IN THE TIME AND

 SPACE DOMAINS (4). Theory of classical and modern techniques for analysis of data in the time and space domains with applications to real oceanographic and atmospheric data. Topics include correlation analysis, regression analysis, EOF analysis, objective mapping, interpolation, filtering, sampling errors, and confidence tests. Offered alternate years. PREREQS: MTH 341 and MTH 342 and MTH 418 and OC 608 and ST 314 and a working knowledge of Matlab, IDL, or FORTRAN, or consent of instructor.OC 683. DATA ANALYSIS IN THE FREQUENCY
AND WAVE NUMBER DOMAINS (4). Theory of classical and modern techniques for analysis of data in the frequency and wavenumber domains with applications to real oceanographic and atmospheric data. Topics include sampling theory, one-dimensional autospectral analysis, multidimensional autospectral analysis, coherence and phase analysis, bi-spectral analysis, wavelet analysis, and confidence tests. Offered alternate years. PREREQS: MTH 341 and MTH 342 and MTH 418 and OC 608 and ST 314 and a working knowledge of Matlab, IDL, or FORTRAN, or consent of instructor.

OC 691. PROPOSAL WRITING (3). Teaches the use of NSF Fastlane. Includes a discussion of ethics and fairness in reviewing, a review of real proposals by faculty, a simulated NSF funding panel, and then development of a real proposal, for review purposes. This will relate directly to the student's current thesis or project. The course enables graduate students from all disciplines to develop rigorous, well thought-out proposals. It should be taken early enough in the program so that the proposal process contributes to their research progress.

OC 808. WORKSHOP (1-16). This course is repeatable for a maximum of 16 credits.

## ■ OCEAN, EARTH, AND

## ATMOSPHERIC SCIENCES

## COURSES

OEAS 500. CASCADIA FIELD TRIP (2-4). A field course to various locations within the Cascade volcanic arc, Coast Range and Oregon Coast. Introduction to the range of physical and biological science topics to be covered in OEAS 520,
OEAS 530 and OEAS 540 in field settings; the linkages between these topics, and their impact on humans, with case examples. Students will practice math skills, and collect samples and data to be used in laboratory sessions in the later courses. Offered annually. Transportation fee charged. Graded P/N. This course is repeatable for a maximum of 4 credits.
OEAS 520. THE SOLID EARTH (4). Movement of mass and energy within the Earth and into/out of its outer surface, expressed as plate tectonics, earthquakes, heat flow, volcanoes, geomagnetic field; composition, structure, hydrology and aging of ocean crust; lithosphere creation, recycling and mantle overturn. Marine sedimentation, sources and transport, continental weathering, tectonicsclimate interactions, glacial history and sea level response. Geohazards, storm events, beach and estuary processes. Offered annually. Lec/lab. PREREQS: One year each of physics, chemistry, calculus, or instructor permission.
OEAS 530. THE FLUID EARTH (4). Fundamental principles of fluid circulation in the atmosphere and ocean. Atmospheric chemistry, radiation, thermodynamics, and dynamics. Conservation of mass, heat, momentum and vorticity in the ocean; equations governing motion; geostrophy; planetary boundary layers; wind-driven and thermohaline circulation. Air-sea fluxes and global circulation models; climate change. Offered annually. Lec/lab. PREREQS: One year each of physics, chemistry, calculus, or science background and permission of instructor; field course.
OEAS 540. THE BIOGEOCHEMICAL EARTH (4). Integrating fundamental concepts in biological and chemical oceanography to understand energy and material transformations in estuarine, coastal and open ocean habitats. Topics include structure and function of marine ecosystems, biogeochemical cycles, and human impacts. Offered annually. Lec/ lab. PREREQS: One year of physics, chemistry, and calculus, or instructor permission.

The College of Education develops multiculturally competent researchers, scholars, learning leaders and practitioners who make a difference by promoting innovation, social justice, and lifelong learning with a focus on STEM and cultural and linguistic diversity. Our research and professional preparation foster scholarship, intellectual stimulation, openness, flexibility, and a sense of community.

$\square$he College of Education offers an undergraduate Education Double Degree and graduate degrees and programs to prepare teachers, counselor educators, and other educational professionals for careers in schools, community colleges, business and industry, and other postsecondary settings. In addition, there are electives for undergraduate students who wish to explore education as a career choice.
All programs reflect research-based approaches to education and counseling developed by university faculty, prekindergarten through adult teachers and administrators, counselors and leaders from business and industry. Students gain experience through extensive internships in their field of study.

## AUTHORIZATION AND ACCREDITATION

The College of Education is authorized by the State Board of Higher Education to offer teacher education and counseling programs and by the Oregon Teacher Standards and Practices Commission (TSPC) to recommend teacher and counselor candidates for initial licensure.
The Teacher Standards and Practices Commission (TSPC) listing of endorsements that OSU is authorized to approve is on the Web at http://www.tspc. state.or.us/program_list.asp.

All teacher education programs are fully accredited by the Council for the Accreditation of Educator Preparation (CAEP) and by the Oregon Teacher Standards and Practices Commission. Counselor education programs are fully accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP).
Applicants for teacher and counselor licensure must meet TSPC requirements in effect at the time of admission to a licensure program. Licensure rules are regulated by TSPC and may change. Students should consult regularly with their advisor.

## ADVISING

Early and continuous advising is an important aspect of an education in both the undergraduate and graduate programs in the College of Education. Students pursuing an undergraduate degree shall meet with a professional academic advisor in the centralized advising office, while graduate students shall be assigned a faculty advisor. Undergraduates pursuing the undergraduate Double Degree in Education are urged to declare their interest immediately in order to work for the preferred 3.0 GPA entry requirement and to graduate in a timely manner. It is important for undergraduates to work concurrently with both the College of Education academic advisor and the academic advisor for their primary degree to ensure knowledge of academic progress,
degree requirements, and educational opportunities in their chosen field.

## SCHOLARSHIPS

The College of Education offers a variety of scholarships and fellowships to deserving students. A listing of the many opportunities can be found at http://education. oregonstate.edu/education-scholarships-and-fellowships. Students who have declared their major in education are sent an email application to consider applying during winter term each year. Additional state and private scholarship information are available at the OSU Office of Financial Aid and Scholarships.

## FACULTY

Professors Bell, Dierking, Flick, Ng, Russ-Eft, Storksdieck
Associate Professors Bouwma-
Gearhart, Ciechanowski, Crisp, Dykeman, Elliott, Rowe, Rubel
Assistant Professors Aaron, Arellano, Bottoms, Colomer, Giamellaro, Johnson, Lara, Tevis, Thompson
Instructors Adams, Aduviri, Aguilera, Biles, Boyd-Berman, Cabot, CazaresCervantes, Clemens, Cornwall, Eakin, Ford, Golya, Helback, Hoffman, Johnson, Knapp, Lee, Leija, Meyers, Nyman, M. O'Malley, N. O'Malley, Platt, Reese, Sánchez-Aragon, Schamp, Schuetz, L. White, Wright

## EMERITUS FACULTY

Copa, Courtney, Duvall, Falk, Higgins, Moule, Niess, Sanchez, Stern, Ward, Winograd

## PROGRAM COORDINATORS

Aguilera, Cabot, Eakin, Hoffman, Johnson, Lee, Nyman, Platt, Schuetz, White, Zeller

Undergraduate Major
Education (BA, BS, HBA, HBS)

## DECREES \& PROCRAMS WHANI THE COLLECE OF EDUCATION <br> UNDERGRADUATE MAJORS WITH OPTIONS

## EDUCATION (BA, BS, HBA, HBS)

The undergraduate Education Double Degree program enables students to earn two undergraduate degrees concur-rently-one in their chosen field and the second in Education (BA or BS degree). The Education Double Degree in teacher education is an undergraduate pathway to teacher preparation available to all OSU students. The BA/BS in Education can only be obtained in conjunction with a BA/BS in a student's chosen field.
The Double Degree program has two stages. The first stage, Pre-Education, allows students to take foundational education courses and required contentspecific classes without prerequisites. These classes can meet baccalaureate core requirements and elective credits. The second stage, Professional Level, consists of 40 credits focusing on a particular authorization level. The Professional Level includes pedagogy classes and student teaching. Students earn their second degree (Education BS/BA) and simultaneously earn an Oregon Preliminary Teaching License in their chosen content area and authorization level.
First-years, sophomores, juniors, and seniors may enroll in one or more of the pre-education courses at any time during any year of their studies. There are no initial prerequisites for these courses and they may help students decide whether teaching is right for them. To enter the Professional Level of the Double Degree students need to have completed required course work, pass a content exam, and pass the Civil Rights in the Educational Environment Exam. The full application information is on the College of Education website. It is strongly recommended that students meet with the College of Education Double Degree advisor early in the Pre-Education level and at least a year prior to their application to the Professional Level.

Karla Rockhold is the Double Degree program advisor, 541-737-4661, karla. rockhold@oregonstate.edu.

## Education (Double Degree) K-12 Classrooms Pathway

## Level I: Pre-Education

Classes Required for Admission to Professional Level-these classes can be taken any time prior to application to Level II.

## ED 216. *Purpose, Structure, and Function

 of Education in a Democracy (3)ED 219. Civil Rights and Multicultural Issues in Education (3)
ED 253. Learning Across the Lifespan (3)+

ED 309. Field Practicum (3)
or ED 409 Practicum/Clinical Experience (3)
ED 472. Foundations of ESOL Education (3)
ED 479. Linguistics for Teachers (3)

## Completion of First Degree

Content Specific Courses for Subject Area Teaching (Content Mastery Sheets are available on the College of Education website or in the Student Services Office in Furman Hall.)

## Level II: Professional Level

Admission (Cohort Year)
Application is due April 1, the spring before beginning cohort year.

## Early Childhood/Elementary

## Authorizations

Fall Term
ED 340. ^Supportive Differentiated
Environments (3)
ED 409. Practicum/Clinical Experience (3)
ED 410. Internship/Work Experience (2)
ED 457. Teaching Elementary Mathematics for Understanding (3)
SED 459. Science and the Nature of Inquiry (3)

Winter Term
ED 407. Seminar (2)
ED 410. Internship/Work Experience (2)
ED 456. Strategies for Teaching Language
Arts and Social Studies (3)
ED 473. Instructional Approaches for ESOL Education (3)
ED 483. Developmental Reading (3)

## Spring Term

ED 410. Internship/Work Experience (10)
ED 424. Teacher as Reflective Practitioner (2)

## Middle/High School Authorizations

Fall Term
ED 340. ^Supportive Differentiated
Environments (3)
ED 409. Practicum/Clinical Experience (3)
ED 410. Internship/Work Experience (2)
ED 412. Learning Styles and Needs in Adolescence (2)
ED 491 Content Standards and Curriculum Development for Mid Level 9 (3) or ED 494 Content Standards and Curriculum Development for High School (3)
or SED 473 Science Pedagogy and Technology I (4) or SED 474 Mathematics Pedagogy and Technology I (4)

## Winter Term

ED 407. Seminar (1)
ED 410. Internship/Work Experience (2)
ED 425. Curriculum Implementation and Instructional Strategies 7-12 (4)
or SED 476 Math Pedagogy and Technology II
ED 427. Alternative Assessment for Middle and High School Teaching (2)
ED 493. Reading, Literature, and Language Development in the Content (2) or ED 473. Instructional Approaches for ESOL Education (3)

## Spring Term

ED 410. Internship/Work Experience (10)
ED 424. Teacher as Reflective Practitioner (2)

## Footnotes:

+ If you have taken HDFS 211, 311, 313, 314 and have a 3.0 GPA or higher, you do not need to take ED 253.
\# With junior or senior standing
* Baccalaureate Core Course (BCC)
$\wedge$ Writing Intensive Course (WIC)
Pre-Education Major Code: 232
Major Code: 233

## OPTIONS

## ADVANCED MATHEMATICS TEACHING OPTION

This option is for students wanting to earn their bachelor's degree in Education and qualify for an Oregon Teaching License to teach advanced mathematics at the middle school (grades 5-9) and high school (grades 9-12) levels.

## Pre-Education Level

Students at this level will be taking general education prerequisite courses and required content course work.

Note: Pre-Education students should meet with the Double Degree Advisor at least once a year in order to ensure they are on track to meet the prerequisite and content mastery requirements prior to applying to the Professional Level.

## Pre-Education General Course Work

 (18 credits)Completed prior to Professional Level:
ED 216. *Purpose, Structure, \& Function of Education in a Democracy (3)
ED 219. Civil Rights and Multicultural Issues in Education (3)
ED 253. Learning Across the Lifespan (3)
(Not required if you have taken HDFS 311,
313 and 314 with a 3.0 or higher GPA)
ED 309. Field Practicum (3) (Can be waived with 60 hours supervised/documented volunteer service)
ED 472. Foundations of ESOL Education (3)
ED 479. Linguistics for Teachers (3)

## Advanced Mathematics Content

 Mastery Requirements (47 credits)To be completed prior to Professional Level. These requirements are based on standards from the National Council of Teachers of Mathematics for teaching grades 7-12. Most of these classes will also meet requirements for a student's first degree.

- Must have 3.0 accumulative GPA on all course work to fulfill content mastery requirements.
- All grades must be taken as A-F graded courses; no P/N or S/U grades accepted for content mastery courses
Standard 1. Calculus (12 cr)
MTH 251. *Differential Calculus (4)
MTH 252. Integral Calculus (4)
MTH 254. Vector Calculus I (4)
Standard 2. Discrete Math (3 cr)
MTH 355. Discrete Mathematics (3)
Standard 3. Statistics (4 cr)
ST 351. Introduction to Statistical Methods (4)

Standard 4. Probability (3 cr)
MTH 361. Introduction to Probability (3)
Standard 5. Geometry (3 cr)
MTH 338. ^Non-Euclidean Geometry (3)
Standard 6. Linear Algebra (3 cr)
MTH 341. Linear Algebra I (3)
Standard 7. Abstract Algebra (3 cr)
MTH 343. Introduction to Modern Algebra (3)

## Standard 8. Algebraic and

Geometric Transformations (9 cr)
MTH 491, MTH 492, MTH 493. Algebra and Geometric Transformations $(3,3,3)$
Standard 9. Math Electives (7 cr)
SED 414. Inquiry in Mathematics and Mathematics Education (3)
Choose one from below (4):
MTH 253. Infinite Series and Sequences (4)

MTH 255. Vector Calculus II (4)
MTH 256. Applied Differential Equations (4)
MTH 306. Matrix and Power Series Methods (4)
MTH 311. Advanced Calculus (4)
MTH 312. Advanced Calculus (4)
Statistics or Engineering Course as approved by Double Degree Advisor

## Professional Level

To be accepted into the Professional Level, a student must have completed the required Pre-Education General Courses and the Content Mastery Requirements with a minimum 3.0 GPA or by special petition. In addition, students need two letters of recommendation and passing scores on required licensure exams.

## Professional Level Course Work (37-38 credits)

Taken during the Professional year-long program:
ED 340. ${ }^{\wedge}$ Supportive Differentiated
Environments (3)
ED 407. Seminar (1)
ED 409. Practicum/Clinical Experience (2)
(September Experience)
ED 409. Practicum/Clinical Experience (3) (Fall Practicum)
ED 410. Internship/Work Experience (3) (Part-time Student Teaching)
ED 410. Internship/Work Experience (10)
(Full-time Student Teaching)
ED 412. Learning Styles and Needs in Adolescence (2)
ED 424. Teacher as Reflective Practitioner (2)
ED 425. Curriculum Implementation and
Instructional Strategies 7-12 (4)
ED 427. Alternative Assessment for Middle and High School (2)
ED 493. Reading, Literature, and Language Development in the Content (2) or ED 473. Instructional Approaches for ESOL Education (3)
ED 494 Content Standards and Curriculum Development for High School (3)

## Footnotes:

* Baccalaureate Core Course
$\wedge$ Writing Intensive Course (WIC)
Option Code: 60

## BASIC MATHEMATICS TEACHING OPTION

This option is for students wanting to earn a bachelor's degree in Education and qualify for an Oregon Teaching License to teach basic mathematics at the middle school (grades 5-9) and only grade 9 in high school.

## Pre-Education Level

Students at this level will be taking general education prerequisite courses and required contact course work.

Note: Pre-Education students should meet with the Double Degree Advisor at least once a year in order to ensure they are on track to meet the prerequisite and content mastery requirements prior to applying to the Professional Level.
Pre-Education General Course Work ( 18 credits)
Complete prior to Professional Level:
ED 216. *Purpose, Structure, \& Function of
Education in a Democracy (3)
ED 219. Civil Rights and Multicultural
Issues in Education (3)
ED 253. Learning Across the Lifespan (3)
(Not required if you have taken HDFS 311,
313 and 314 with a 3.0 or higher GPA)
ED 309. Field Practicum (3) (Can be waived with 60 hours supervised/documented volunteer service.)
ED 472. Foundations of ESOL Education (3) ED 479. Linguistics for Teachers (3)

## Basic Mathematics Content

Mastery Requirements (37 credits)
To be completed prior to beginning the Professional Level. These requirements are based on standards from the National Council of Teachers of Mathematics for teaching grades $7-12$. Most of these courses will also meet requirements for student's first degree.

- Must have 3.0 accumulative GPA on all course work to fulfill content mastery requirements.
- All grades must be taken as A-F graded courses; no P/N or S/U grades accepted for content mastery courses.

## Standard 1. Algebra/Trigonometry

 (4 cr)MTH 112.*Elementary Functions (4)
Standard 2. Calculus (4 cr)
MTH 241. *Calculus for Management and Social Science (4)
or MTH 251. *Differential Calculus (4)
Standard 3. Foundations in
Elementary Mathematics (12 cr)
MTH 211. *Foundations of Elementary Mathematics (4)
MTH 212, MTH 390. Foundations of
Elementary Mathematics $(4,4)$

## Standard 4. Statistics and

Probability ( $8 \mathbf{c r}$ )
ST 201. Principles of Statistics (4)
ST 202. Principles of Statistics (4)
Standard 5. Math Electives (at least 6 cr )
Choose at least 2 courses (at least 6 credits):

MTH 245. *Mathematics for Management,
Life, and Social Sciences (4)
MTH 252. Integral Calculus (4)
MTH 341. Linear Algebra I (3)
Any Statistics (ST) Course

## Standard 6. Mathematics Education (3 cr) <br> SED 414. Inquiry in Mathematics and Mathematics Education (3) (Elementary or Secondary Section)

## Professional Level

To be accepted into the Professional Level, a student must have completed the required Pre-Education General Courses and the Content Mastery Requirements with a minimum 3.0 GPA or by special petition. In addition, students need two letters of recommendation and passing scores on required licensure exams.

## Professional Level Course Work

## Early Childhood/Elementary

Content Mastery Requirements

## (66-67 cr)

Completed prior to Professional Level.
These requirements are based on the National Board for Professional Teaching Standards/Generalist, Standard II: Knowledge of Content and Curriculum. Most of these courses will also meet requirements for student's first degree.

- Must have 3.0 accumulative GPA on all course work to fulfill content mastery requirements.
- All grades must be taken as A-F graded courses; no P/N or S/U grades accepted for content mastery courses.
- All classes must be passed with a Cor above.

## Standard 1. English Language Arts

## (15 cr)

Know the important themes, ideas,
concepts, and strategies central to learning how to read, write, speak, view and listen.

A minimum of 6 credits of English:
Any two ENG courses
A minimum of 6 credits of writing required:
WR 121. *English Composition (3) required
WR 222. *English Composition (3)
or any ${ }^{\wedge}$ WIC Course (3)
A minimum of 3 credits speaking,
viewing, listening - choose 1 course:
COMM 111. *Public Speaking (3)
COMM 218. *Interpersonal
Communication (3)
or any other communication/speech course (3)
Standard 2. Social Studies (10-11 cr)
Know the major issues, concepts, themes and ideas in social studies.
A minimum of 4 credits of US history

- choose 1 course from below:

HST 201. *History of the United States (4)
HST 202. *History of the United States (4)
HST 203. *History of the United States (4)
Note: These history courses need not be taken in sequence.
$A$ minimum of 3 credits of geography, political science, economics, or civics - choose 1 course from below:
GEOG 105. *Geography of the Non-Western World (3)
GEOG 106. *Geography of the Western
World (3)
or any civics, economics or other geography course (3)
A minimum of 3 credits of Difference, Power, and Discrimination or equity focused classes - choose 1 course from below:
DHE 270. *Appearance, Power and Society (4)
ENG/FILM 220. *Topics in Difference,
Power, and Discrimination (4)
ES 351. *Ethnic Minorities in Oregon (4)
ES/ANTH/WLC 459. Language, Race and
Racism in the U.S.: Advanced Study (4)
HDFS 201. *Contemporary Families in the US (3)
PHL 280. *Ethics of Diversity (4)
SOC 206. *Social Problems and Issues (3)
SOC 312. *Sociology of the Family (4)
SOC 426. *Social Inequality (4)
WGSS 325. *Disney: Gender, Race, Empire (3)

Standard 3. Mathematics (15 cr)
Know the major concepts, procedures, processes, and ideas of mathematics that define number systems and number sense, computation, geometry, algebra, measurement, and statistics and probability.
All 4 courses are required (15):
MTH 211. *Foundations of Elementary Mathematics (4)
MTH 212. Foundations of Elementary Mathematics (4)
MTH 390. Foundations of Elementary Mathematics (4)
SED 414. Inquiry in Mathematics and Mathematics Education (3) (Elementary Section)

## Standard 4. Science (15 cr)

Draw on own knowledge of fundamental
ideas and concepts in Earth and space science, life science, and physical science and their relationship to one another and/or other disciplines.
All 4 science courses are required (15):

BI 101. *General Biology (4)
GEO 201. *Physical Geology (4)
PH 111. *Inquiring into Physical Phenomena (4)
SED 413. Inquiry in Science and Science Education (3) (Elementary Section)

## Standard 5. The Arts or Technology in Teaching ( $\mathbf{3} \mathbf{~ c r}$ )

- Understand the intrinsic value of the arts and their usefulness in providing insight into other disciplines.
- Understand uses of technology in classroom teaching.
- A minimum of 3 credits in any art, music, theater arts or educational technology course.

## Standard 6. Educational

Foundations (8 cr)
In addition to the above content requirements, a knowledge of early childhood/ elementary learners.
HDFS 311. Infant and Child Development (4)

HDFS 313. Adolescent Development (4)

## Professional Level

To be accepted into the Professional Level, a student must have completed the required Pre-Education General Courses and the Content Mastery Requirements with a minimum 3.0 GPA or by special petition. In addition, students need two letters of recommendation and passing scores on all required Oregon licensure exams.
Professional Level Course Work (40 cr)
Taken during the Professional year-long program.
ED 340. ^Supportive Differentiated
Environments (3)
ED 407. Seminar (2)
ED 409. Practicum/Clinical Experience (2)
(September Practicum)
ED 409. Practicum/Clinical Experience (3)
(Fall Practicum)
ED 410. Internship/Work Experience (3)
(Part-time Student Teaching)
ED 410. Internship/Work Experience (10)
(Full-time Student Teaching)
ED 424. Teacher as Reflective Practitioner (2)
ED 456. Strategies for Teaching Language Arts and Social Studies (3)
ED 457. Teaching Elementary Mathematics for Understanding (3)
ED 473. Instructional Approaches for ESOL Education (3)
ED 483. Developmental Reading (3)
SED 459. Science and the Nature of Inquiry (3)

## FAMILY AND CONSUMER

 SCIENCES TEACHING OPTIONThis option is for students wanting to earn a bachelor's degree in Education and qualify for an Oregon Teaching License to teach Family and Consumer Sciences (FACS) at the middle school (grades 6-9) and/or high school (grades 9-12) levels.

Family and Consumer Science students are encouraged to add an optional, but highly recommended, Career and Technical Education (CTE) Endorsement. This endorsement can be added during or after the degree program so one can begin working on it at any time. The following CTE endorsements are compatible with Family and Consumer Sciences:
a. Hospitality and Tourism (food, hotel, etc.)
b. Human Services (counseling, personal finance, childcare, care of disabled, personal health and fitness, etc.)
c. Education and Related Fields (preschool, teacher, administration in education-related fields, training and other)
The CTE Endorsement is earned with 1,800 hours in the industry at one workplace or 600 hours working in a variety of work settings including job shadows, internships, volunteer work and paid work.

Check with the Double Degree Advisor for more information about how to add this endorsement.

## Pre-Education Level

Students at this level will be taking general education prerequisite course work and required content course work. Students at this level will be taking general education prerequisite courses and required content course work.

Note: Pre-Education students should meet with the Double Degree Advisor at least once a year in order to ensure they are on track to meet the prerequisite and content mastery requirements prior to applying to the Professional Level.

## Pre-Education General Course Work

 (18 cr)Completed prior to Professional Level:
ED 216. *Purpose, Structure and Function of Education in a Democracy (3)
ED 219. Civil Rights and Multicultural Issues in Education (3)
ED 253. Learning Across the Lifespan (3)
(Not required if you have taken HDFS 311,
313 and 314 with a 3.0 or higher GPA)
ED 309. Field Practicum (3) (Can be waived with 60 hours supervised/documented volunteer service)
ED 472. Foundations of ESOL Education (3)
ED 479. Linguistics for Teachers (3) Prerequisite ED 472

## Family and Consumer Science

Content Requirements (33-37 cr)
To be completed prior to beginning the Professional Level. Most of these courses
will also meet the student's first degree requirements. Students will most likely be earning a degree in HDFS, Nutrition (Dietetics or food systems management), DHE, or Public Health.

- Must have 3.0 accumulative GPA on all course work to fulfill content mastery requirements.
- All grades must be taken as A-F graded courses; no P/N or S/U grades accepted for content mastery courses.
- Work or volunteer experiences in these standards may be considered in place of course work.
Standard 1. Career, Community,
and Family Connections (3-4 cr)
Choose 1 course from the following (3-4):
HDFS 201. *Contemporary Families in the U.S. (3)

HDFS 341. Family Studies (4)
HDFS 431. Family, School, and Community Collaboration (3)
SOC 312. *Sociology of the Family (4)
SOC 412. Sociology of Work and Family (4)
Standard 2. Consumer Services and
Family Resources (Major or 11-12 cr)
DHE Major
or
Choose 1 course from each group A, B, and C:
A)

DHE 227. Apparel Design and Construction I (4)
DHE 240. Survey of Design in the Near Environment (3)
DHE 270.*Appearance, Power and Society (4)
DHE 331. Contemporary Issues in Housing
(3)
B)

ECON 201. *Introduction to
Microeconomics (4)
ECON 202. *Introduction to
Macroeconomics (4)
C)

BA 215. Fundamentals of Accounting (4)
MRKT 492. Consumer Behavior (4)
MTH 245. *Mathematics for Management, Life, and Social Sciences (4)
ST 201. Principles of Statistics (4)
ST 202. Principles of Statistics (4)
Standard 3. Human Development and Interpersonal Relationships
(Major or 18-20 cr)

## HDFS Major

or

## HEALTH TEACHING OPTION

This option is for students wanting to earn a bachelor's degree in Education and qualify for an Oregon Teaching License to teach health at the middle school (grades 6-9) and/or the high school (grades 9-12) levels.
Health students are encouraged to add a Career and Technical Education (CTE) Endorsement in Health Sciences. This endorsement qualifies one to teach specialized career training courses at the secondary level. The CTE endorsement is earned by working 1,800 hours in the health industry or working 600 hours in a variety of health industry experiences including job shadows, internships, volunteer work and paid work. This endorsement can be added during or after the degree program so one can begin working on it at any time. For more information, check with the Double Degree Advisor.

## Pre-Education Level

Students at this level will be taking general education prerequisite course work and required content course work. Note: Pre-Education students should meet with the Double Degree Advisor at least once a year in order to ensure they are on track to meet the prerequisite and content mastery requirements prior to applying to the Professional Level.

## Pre-Education General Education

 courses ( 18 cr )
## Completed prior to Professional

 Level:ED 216. *Purpose, Structure and Function of Education in a Democracy (3)
ED 219. Civil Rights and Multicultural
Issues in Education (3)
ED 253. Learning Across the Lifespan (3)
(Not required if you have taken HDFS 311,
313 and 314 with a 3.0 or higher GPA)
ED 309. Field Practicum (3) (Can be waived with 60 hours supervised/documented volunteer service)
ED 472. Foundations of ESOL Education (3)
ED 479. Linguistics for Teachers (3)
Prerequisite ED 472

## Health Content Mastery

requirements (48-54 cr)
To be completed prior to beginning the Professional Level. Most of this course work will also meets the student's first degree.

- Must have 3.0 accumulative GPA on all course work to fulfill content mastery requirements.
- All grades must be taken as A-F graded courses; no P/N or S/U grades accepted for content mastery courses.
- Experiences in these areas are highly valued and may be considered in place of course work.
Standard 1. Knowledge and
Understanding of Substance Use

## and Abuse ( 6 cr )

Choose 2 courses or practicum:
H 120. *Health and Culture: Using Theatre to Promote Health (3)
H 349. Peer Helper Skills Development (3)
H 364. Drugs, Society and Human Behavior (3)

SOC 442. Sociology of Drug Use and Abuse (4)

Or practicum experience that focuses on
substance abuse and health and HHS 231,
*Lifetime Fitness for Health (2)

## Standard 2. Knowledge and

Understanding of Nutrition ( $\mathbf{3} \mathbf{c r}$ )
Choose 1 course from below (3):
NUTR 225. General Human Nutrition (3)
NUTR 240. Human Nutrition (3)
NUTR 312. *Issues in Nutrition and Health (3)

LBCC: HE 204. Exercise and Weight Management (3)
LBCC: HE 205. Diet and Nutrition: Active Lifestyle (3)

## Standard 3. Knowledge and Understanding of Disease Prevention (6-7 cr)

H 320. Introduction to Human Disease (3)
And choose 1 additional course (3-4):
H 210. *Introduction to the Health Care System (3)
H 225. *Social and Individual Health Determinants (4)
HDFS 314. Adult Development and Aging (4)
SOC 350. Health, Illness and Society (4) or Practicum Experience that focuses on substance abuse and health
or two LBCC Courses:

## HE 225. Social and Individual

Determinants of Health (3)
HE 253. Aids and Sexually Transmitted Diseases (3)

## Standard 4. Knowledge and Understanding of Environmental Health (3-4 cr)

Choose 1 course (3-4):
H 344. Foundations of Environmental Health (3)
H 220. Introduction to Health Data Analysis (3)

HDFS 444. Family Violence and Neglect (4)
LBCC: HE 125. Occupational Safety and Health (3)

Standard 5. Knowledge and Understanding of Safety and Injury Prevention (2-3 cr and First Aid Certification)
Required: Current Certification in First Aid, CPT and/or AED
Choose 2 courses from below (2-3):
HHS 241. *Lifetime Fitness (1)
HHS 243. *Lifetime Fitness: Resistance Training (1)
HHS 244. *Lifetime Fitness: Weight
Management (1)
KIN 158. Care and Prevention of Athletic Injuries (3)
PAC 304. ALI: Backpacking (1)
PAC 320. ALI: Mountaineering I (1)
PAC 325. ALI: Wilderness First Aid (1)
PAC 329. ALI: Wilderness First Responder (2)

## Standard 6. Personal Health,

Growth, and Development (13 cr)
BI 231. Introduction to Human Anatomy and Physiology (3)
H 225. *Social and Individual Health Determinants (4)
And choose 2 courses from below (3-4):
BI 232. Introduction to Human Anatomy and Physiology (3)
BI 233. Introduction to Human Anatomy and Physiology (3)
HDFS 311. Infant and Child Development (4)
HDFS 313. Adolescent Development (4)
KIN 230. Introduction to Adventure Programs (3)
KIN 312. *Sociocultural Dimensions of Physical Activity (3)
KIN 370. Psychology of Sport and Physical Activity (3)

## Standard 7. Mental and Emotional <br> Health (11 cr)

ED 216. *Purpose, Structure, and Function of Education in a Democracy (3)
ED 253. Learning Across the Lifespan (3)
And choose 2 courses from below (3-4):
H 421. Mental Health (3)
HDFS 432. Children and Youth with Special Needs (3)
HDFS 447. *Families and Poverty (4)
PSY 201. *General Psychology (3)
PSY 202. *General Psychology (3)
PSY 330. Brain and Behavior (4)
PSY 360. Social Psychology (4)
SOC 204. *Introduction to Sociology (3) or Child Abuse Training with Certificate of Completion
Standard 8. Human Sexuality and Family Life Education ( 3 cr)
Choose 1 course from below (3-4):
HDFS 240. *Human Sexuality (3)
HDFS 312. Parenting Research and
Application (4)
SOC 312. *Sociology of the Family (4)

## Professional Level

To be accepted into the Professional Level, a student must have completed the required Pre-Education General Courses and the Content Area Mastery course work with a minimum 3.0 GPA or by special petition. In addition, students need two letters of recommendation and
passing scores on all exams required for Oregon licensure.

## Professional Level Course Work (38-39 cr)

Credits taken in order during the Professional year-long program.

## Fall Term (13 credits)

ED 340. ^Supported Differentiated Environments (3)
ED 409. Practicum/Clinical Experience (2) (September Experience)

## INTEGRATED SCIENCE TEACHING

 OPTIONThis option is for students wishing to earn a bachelor's degree in Education and qualify for an Oregon Teaching License to teach integrated science at the middle school (grades 6-9) and/or high school (grades 9-12) levels.

## Pre-Education Level

Students at this level will be taking general education prerequisite courses and required content course work.
Note: Pre-Education students should meet with the Education Double Degree Advisor at least once a year to ensure they are on track to meeting prerequisite and content mastery requirements prior to applying for the Professional Level.
Pre-Education General Course Work (18 credits)
Taken prior to admission to the Professional Level:
ED 216. *Purpose, Structure, \& Function of Education in a Democracy (3)
ED 219. Civil Rights and Multicultural Issues in Education (3)
ED 253. Learning Across the Lifespan (3)
(Not required if you have taken HDFS 311,
313 and 314 with a 3.0 or higher GPA)
ED 309. Field Practicum (3) (Can be waived
with 60 hours supervised/documented volunteer service)
ED 472. Foundations ESOL Education (3) ED 479. Linguistics for Teachers (3)

## Integrated Science Content

## Mastery Requirements (49-54

## credits)

To be completed prior to beginning the Professional Level. Most of this course work will meet student's first degree requirements.

- Must have 3.0 accumulative GPA on all course work to fulfill content mastery requirements.
- All grades must be taken as A-F graded courses; no P/N or S/U grades accepted for content mastery courses; no grade below C- accepted for content mastery courses.
Note: Integrated Science students must demonstrate an emphasis in one of the four content areas below. In the emphasis area, the student must complete the full introductory sequence as well as a minimum of 6 upper-division course credits. All remaining content areas require a minimum of two courses in the introductory sequence.

## Standard 1. Introductory Physics

## Sequence (9-10 credits/15 credits

## for emphasis)

Choose a full series if this is your area of emphasis. If not your area of emphasis, choose two courses from either one of the series.
PH 201, PH 202, PH 203. *General Physics
$(5,5,5)$
or PH 211, PH 212, PH 213. *General
Physics with Calculus $(4,4.4)$

## Optional:

You may replace either PH 203 or PH 213 of the above series with one of the following astronomy courses:
PH 104. *Descriptive Astronomy (4)
PH 205. *Solar System Astronomy (4)
PH 206. *Stars and Stellar Evolution (4)
PH 207. *Galaxies, Quasars, and Cosmology (4)

Standard 2. Introductory Chemistry Sequence ( 10 credits/15 credits for emphasis)
Choose full series if this is your area of emphasis. If not your area of emphasis, choose two courses from series.
CH 231, CH 232, CH 233. *General Chemistry $(4,4,4)$
and CH $261 .{ }^{*}$ Laboratory for CH 231, CH 232, CH 233 (1,1,1)

## Standard 3. Introductory Biology

Sequence ( 8 credits/ 12 credits for emphasis)
Choose full series if this is your area of emphasis. If not your area of emphasis, choose 2 courses from either series.
BI 101, BI 102, BI 103. *General Biology (4,4,4)
or BI 211, BI 212, BI $213 *$ Principles of
Biology (4,4,4)

## Standard 4. Geosciences Sequence

 (7-8 credits/15 credits for emphasis)For the purpose of licensure, geosciences include geology (excluding geography and geographic information systems) as well as appropriate atmospheric science and oceanography courses. Choose full series plus 1 additional course if this is your area of emphasis. If not your area of emphasis, you must include a minimum of 1 course from the introductory sequence.

## Introductory Sequence:

GEO 201. *Physical Geology (4)
GEO 202. *Earth Systems Science (4)
GEO 203. *Evolution of Planet Earth (4)
Other choices for an additional course(s):

## Geology:

GEO 221. *Environmental Geology (4)
GEO 305. *Living with Active Cascade Volcanoes (3)
GEO 306. *Minerals, Energy, Water, and the Environment (3)
GEO 307. *National Park Geology and Preservation (3)
GEO 308. *Global Change and Earth Sciences (3)
GEO 352. *Oregon: Geology, Place, and Life on the Ring of Fire (4)
Atmospheric Sciences:
ATS 210. Introduction to the Atmospheric Sciences (3)
ATS 320. *The Changing Climate (3)
Standard 5. Upper-division course work in your emphasis area (6 credits)
Standard 6. Science Education (3 cr)
SED 413. Inquiry in Science and Science Education (3)

## Professional Level

To be accepted into the Professional Level, a student must have completed the required Pre-Education General Courses and the Content Mastery Requirements with a minimum 3.0 GPA or by special petition. In addition, students need two letters of recommendation and passing scores on all required Oregon licensure exams.
Professional Level Course Work
(37-38 credits)
