IIFET 2000 Conference Program*

Monday, July 10, 2000

Registration and Coffee, 8:00-9:30: Conference Center

Block A: 9:30-10:30: Welcoming and Opening Addresses

Chair: Ann L. Shriver, Executive Director, International Institute of Fisheries Economics and Trade

Timothy White, Provost, Oregon State University

William Boggess, Head, Dept. of Agricultural & Resource Economics, Oregon State University

Trond Bjorndal, President, International Institute of Fisheries Economics & Trade

Louise Solliday, Watershed Advisor to the Governor of Oregon

Richard S. Johnston, Conference Organizer, IIFET 2000

Block B: 10:30-12:00: Opening Speakers

John Ward, Senior Economist, National Marine Fisheries Service: *Fisheries and Policy* Thomas C. Schelling, Distinguished University Professor, Dept. of Economics, University of Maryland: *Micromotives and Macrobehavior*

Block C: 1:30-3:00

Measuring Capacity: Overview and Definitional Issues, Part 1

Organized by: Rolf Färe and John M. Ward

Chair: Rolf Färe

John M. Ward: Capacity, Excess Capacity, and Fisheries Management

Daniel Primont: Measures of Excess Capacity

Catherine J. Morrison-Paul: Thoughts on Productivity, Efficiency, and Capacity Utilization Measurement, With Specific Application to Fisheries

International Trade: Theory, Empirical Analysis and Policy, Part 1

Chair: Ali Emami

Ronald Jones: A Framework for Fragmentation

Munisamy Gopinath: Foreign Direct Investment in Food and Agricultural Sectors

Alper Yilmaz: *How Competitive is the World Wheat Market?*

Back to the Future: Restoring Ecosystems Impacted by Fisheries, Part 1 Organized By: Tony J. Pitcher

Tony J. Pitcher, Back to the Future: A Methodology and Policy Goal for Future Fisheries R. Russ Jones, The Role of Traditional Ecological Knowledge in the Back to the Future Approach to Ecological Modeling

^{*} Several paper titles were changed following the conference. This program reflects the original titles provided by the authors, in most cases. Please see Table of Contents for revised titles.

Regional and International Fisheries Issues

Chairs: Trond Bjørndal and Gordon Munro

Trond Bjørndal and Gordon Munro: The Management of High Seas Fishery Resources and the Implementation of the U.N. Fish Agreement of 1995: Problems and Prospects

Kathleen Miller: Climate, Uncertainty and the Pacific Salmon Treaty: Insights on the Harvest Management Game

Gorazd Ruseski: International Fish Wars: The Threat of Potential Entry and Strategic Effort Subsidization

Pierre Failler: Evaluation of Fishing Agreements Concluded by the European Community

Political Economy, Part 1

Chair: Gil Sylvia

Steven F. Edwards: Rent-Seeking in the U.S. Atlantic Sea Scallop Fishery

John R. Boyce: Conservation for Sale: A Dynamic Common Agency Model of Nature Resource Regulation

Ernst-August Nuppenau: Cleaning of Eutrophic Inland Waters for Fishery and Amenities: On the Treatment of Dynamic Aspects in Political Economy Modeling of Statutory Regulations in Polluting Communities

Compliance and Enforcement, Part 1

Organizer and Chair: Jon Sutinen

K. Kuperan Viswanathan: Illegal Fishing and Compliance in Fisheries

Jesper Raakjaer Nielsen: Important Factors Influencing Rule Compliance in Danish Fisheries Ron Boostrom: The Community-Oriented Policing and Problem Solving Paradigm – What Have We Learned?

Ecology and Theology, Part 1

Organizer and Chair: Alistair McIlgorm

Susan Power Bratton: *What is Ecotheology?* Calvin B. DeWitt: *Ethics and Eco-theology* Karim Hamdy: *The Perspective of Islam*

Market Competition and Channels, Part 1

Chair: Ann Shriver

Rune Lines: Determinants of Preferences for Salmon Suppliers: An Interactionist Perspective
Anssi Ahvonen: Fishery Industry's Confidence Towards the Near Future in Different Levels of
Production Chain in Finland

Audun Iversen: Top Leaders' Network -Do Organizational Characteristics Matter?

Economies in Transition, Part 1

Chair: John P. Farrell

John P. Farrell: The Future of Capitalism Revisited

Matt Amano: Micro Actions, Macro Results: The Japanese Economic Bubble, a Management

View

Erhard Ruckes: A Study of the Development of New Trade Patterns in an Economy in Transition

Monday, July 10

Food, Tastes, and Culture, Part 1

Chair: Cathy Wessells

Sunil Khanna: Birthday Party at McDonalds

Jack Houston: Factors Affecting Consumer Preferences for Fish in Taiwan

Joaquin A. Millan: Regional Preferences in the Spanish Meat and Seafood Consumption

Fishery Management: Experiences With Permits, Quotas and License Limitation, Part 1

Chair: Harry Campbell

Harry Campbell: *Model of the Market of ITQ in Australia's Multispecies South East Fishery* Walter R. Keithly, Jr.: *The Demand for Relaying by the Louisiana Oyster Industry*

Aquaculture, Fisheries, and Externalities, Part 1

Chair: Hillary Egna

Gary D. Sharp: A Brief Overview of the History of Fisheries Science and its Relation to Fish Culture

Block D: 3:30-5:00

Aquaculture, Fisheries, and Externalities, Part 2

Chair: Hillary Egna

Sigbjorn Tveteras: On the Relationship between Aquaculture and Reduction Fisheries
Dag Standal: Cod farming at the intersection of fisheries & aquaculture: Combining
experiences, extracting practices

International Trade: Theory, Empirical Analysis and Policy, Part 2

Chair: Ali Emami

Bruce Blonigen: Antidumping Investigations and the Pass-Through of Antidumping Duties and Exchange Rates

Kenneth J. Roberts: Import and Consumer Impacts of U.S. Anti-Dumping Tariffs: Freshwater Crawfish

Stephen Crutchfield: *The Economics of Food Safety and International Trade in Food Products*Ferdinand J. Paraguas: *Comparative and Competitive Advantages of Tilapia Culture in Selected Asian Countries*

Back to the Future: Restoring Ecosystems Impacted by Fisheries, Part 2 Organized By: Tony J. Pitcher

Ussif Rashid Sumaila: Evaluating the Benefits From Restored Ecosystems: A Back to the Future Approach

Nigel Haggan: Back to the Future: A New Policy Agenda for Fisheries Management

Compliance and Enforcement, Part 2

Organizer and Chair: Jon Sutinen

Ronald Mitchell: Making Treaties Effective: Mechanisms Available for Inducing Compliance Steve Warner: Fisheries Law Enforcement: Assessment of Deterrence

William J. Furlong: Observer Deployment in the Fishery and Regulatory Self-Enforcement

Monday, July 10

Ecology and Theology, Part 2

Organizer and Chair: Alistair McIlgorm

Sunil Khanna: Views on Natural Resources and Food in the Buddhist Great Tradition

Alistair McIlgorm: Towards an Eco-theology of Fisheries Management

Susan Power Bratton: Is "Waste Not, Want Not" an Adequate Ethic for Managing By-catch?

Five Biblical Ethical Models for Addressing Incidental Fisheries Catch and Ecosystem

Disturbance

Food, Tastes, and Culture, Part 2

Chair: Cathy Wessells

Jari Setala: The Quality Perceptions of Rainbow Trout Defined by Different Market Sectors

E. Roth: *The Price of Fish Quality*

Research and Teaching: Across Disciplines, Countries and Universities

Chair: Gil Sylvia

George Kennedy: New Directions in Interdisciplinary Teaching

Jay Taylor: Misplaced Concreteness: Prospects and Problems with Interdisciplinary Approaches to the Fisheries

Market Competition and Channels, Part 2

Chair: Ann Shriver

Stephane Gouin: Adding Value and the Behavior of Actors in the Fishing Industry

Erhard Ruckes: Growth and Competition in the Italian Seafood Chain

Keysuk (Steve) Kim: Interpersonal Dependence and Interfirm Exchange: A Cross-national Study of Industrial Distributor-Supplier Relationships

Economies in Transition, Part 2

Chair: John P. Farrell

Clinton Atkinson Economic Change and the Fisheries of Russia

Jolanta Zieziula: Poland's Distant-Water Fisheries in Nineties—Problems and Possibilities of Their Overcoming

Markus Vetemaa: Collapse of Political and Economical System as a Cause for Instability in Fisheries Sector: An Estonian Case

Fishery Management: Experiences with Permits, Quotas and License Limitation, Part 2

Chair: Harry Campbell

Sherry L. Larkin: Tradable Effort Permits: A Case Study of the Florida Spiny Lobster Trap Certificate Program

Phil Smith: The Pacific Halibut and Sablefish Individual Fishing Quota (IFQ) Program off Alaska–a Discussion of its Background, Provisions, Performance, and Pending and Proposed Changes

Monday, July 10

Measuring Capacity: Overview and Definitional Issues, Part 2

Organized by: Rolf Färe and John M. Ward

Chair: Rolf Färe

Dominique Greboval: The FAO International Plan of Action for the Management of Fishing Capacity

Eric Thunberg: An Economic Assessment of Latent Effort and Vessel Ownership Transfer in the Northeast US Region

Poster and Demonstration Sessions 5:00-6:30

Didi B. Baticados: *Grouper Culture and Otoshi-ami Fishing Projects of Fisherfolk Cooperatives: Can They be Sustained?*

Tim Bostock: OneFish Community Directory: Expanding the Boundaries of Fisheries Information Management in the Twenty-first Century

Sonia Carrier: EU Fisheries Agreements (1993-1997) Geographic Information System.

Dolores Garza Gil: 1. Cointegration and Causality: An Application to Fresh Hake in the Spanish Market 2. Fisheries Management Institutions: Perceptions of Economic Agents in Galicia (Spain)

Jimi Jinadu: Small-Scale Fisheries in Lagos State, Nigeria: Sustainable Yield Determination Jack Houston: Factors Affecting Consumer Choice of Canned Fish in Taiwan

Michael Morrissey: Oregon State University Seafood Laboratory: The Use of High Hydrostatic Pressure to Shuck Oysters and Extend Shelf-life

Oumarou Njifonjou: African Fisheries: Major Trends and Diagnostic of the 20th Century Shree Prasad Parajuli: Fish Farming at Natural Lake in Nepal: Challenges & Opportunities Hee-Dong Pyo: An Economic Evaluation of Coastal Wetland Preservation versus Development in Korea

Randy Rice: The Use of Technical Information on Sustainability and Quality in the Marketing of Alaska Wild Salmon

Edgar Robles: 1. Poverty Profile in a Mexican Fishing Village through Participatory Techniques 2. Socioeconomic Conditions of Small-Scale Fishermen in Mexico: A Cross-Sectional Profile

Diana Tingley: Regional Socio-economic Studies on Employment and the Level of Dependency on Fishing—Denmark, Ireland and Greece

Evening: 6:00-8:00 Welcoming Reception

8:00-9:00: on-site registration, small group meetings

Block A: 9:00-10:30

The Health Benefits of Seafood Consumption, Part 1

Chair: William F. Connor

Balz Frei: Welcome

William F. Connor: The Importance of N-3 Fatty Acids in Health and Disease

Robert Ackman: Fish is More than a Brain Food

William Harris: From Inuit to Implementation: Omega-3 Fatty Acids Come of Age

Trade, Growth, Natural Resources, and the Environment, Part 1

Chair: John Ward

Brian R. Copeland: Global Warming and Free Trade: A Trade Theory View of the Kyoto

Protocol

Carol McAusland: Cross-Hauling of Polluting Factors

William Jaeger, Economic Growth and Environmental Resources Allocation

Aquaculture, Fisheries, and Externalities, Part 3

Chair: Hillary Egna

Peter Rawlinson: The Economics of Integrated Agri-aquaculture

Christopher S. Wright: Developing an Environmentally Responsible Irritant for the British

Columbia Octopus Dive Fishery

Market Structure, Conduct, and Performance

Chair: Ann Shriver

Josue Martinez-Garmendia: An Examination of the Shrimp Futures Market

Hamady Diop: Non-Stationary Markov Process Analysis of the Size Distribution of Shrimp

Processing Firms in Southeast United States

John R. Isaksen: Vertical Integration and Performance

Patrice Guillotreau: Raising Rivals' Costs in the Tuna Industry

Fishery Management and Producer Associations, Part 1

Chair: Steve Buccola

Joe Sullivan: Harvesting Cooperatives and Antitrust Law–Recent Developments and Implications

Steve Buccola: The Use of Cooperatives in Allocating the Net Returns of a Common Resource Among Individual Cooperative Members

Keith R. Criddle: Political Economy, Profit Maximization, and Homesteading the Eastern Bering Sea Fishery for Walleye Pollock

Scott C. Matulich: Cooperative Bargaining as an Alternative to ITQs: Implications of the American Fisheries Act

Chuck Adams and Anicia E. Garcia Alvarez: Recent Changes in the Cuban Fisheries

Management Structure

Tuesday, July 11

Innovations in Microeconomics: Microbehavior and Macroresults

Chair: Casey Van Kooten

B. Curtis Eaton: Coordination Cascades

Cliff Bekar: Usury Prohibitions

Katrin Happe: Applying Parallel Genetic Algorithms to Economic Problems: the Case of

Agricultural Land Markets

Science and Public Policy

Chair: Jeff Ramsey

Jeff Ramsey: Relationships Between Science and Management

Bryan Norton: Models as Languages: How Can Scientific Modeling Improve Environmental

Policy Process?

Denise Lach and Peter List: Credibility and Advocacy of Environmental Scientists in Resource

Decision Making: A Regional Survey

Compliance and Enforcement, Part 3

Chair: Jon Sutinen

Niels Vestergaard: An Economic Incentive Scheme as a Solution to Compliance Problems Associated with Illegal Landings Within a TAC system

S. Garcia-Martinez: Sea Turtles of Bahia Magdalena, Baja California Sur, Mexico: Demand and Supply of an Endangered Species

James R. Wilson: The Bio-economics of Sea-turtle Conservation and Use by Local Communities in the State of Oaxaca, Mexico: History and Conservation Policies for Olive Ridley Sea Turtle (Lepidochelys olivacea)

Biological, Environmental, and Social Processes, Part 1

Chair: Jeff Dambacher

Howard T. Odum: Energy Evaluation of a Fishery Water Management: Alternatives to Maximize a Regional Economy

Ecology and Theology, Part 3

Organizer and Chair: Alistair McIlgorm

Calvin B. DeWitt: Case Study: Video Presentation: Eco-theology and Reefs

Susan Power Bratton: Fisheries Decline and Religious Response–a Comparison of Ireland and

the Pacific Northwest, USA

Wassim Ayoub: Further Reflections in Islam

Equity, Efficiency, and Communities, Part 1- Access, Equity, and Diversification

Organized by: Flaxen Conway

Parvin Sultana: Community Fishery Management Implications for Food Security and Livelihoods
Christopher Bene: Evaluating Livelihood Strategies and Role of Inland Fisheries in Rural
Development and Poverty Alleviation: The Case of the Yaere Floodplains in Northern
Cameroon

Marie-Therese Sarch: Livelihood Diversification: Responses to Fluctuations in Africa's Inland Fisheries

Capacity: Data Envelope Analysis, Part 1

Chair: Rolf Färe

James E. Kirkley: Data Envelopment Analysis (DEA): A Framework for Assessing Capacity in Fisheries When Data are Limited

Sean Pascoe: Physical Vs. Harvest Based Measures of Capacity: The Case of the UK Vessel Capacity Unit System

Shawna Grosskopf: Assessing Long-Run Fishing Capacity at the Industry Level and the Reallocation of Capacity

Political Economy, Part 2

Chair: Nina Mollett

William Schrank: Bureaucracy, Politics, Economics: The Pathology of Fisheries
Michael Healey: Ludwig's Ratchet and the Collapse of New England Groundfish Stocks
Frank Millerd: The Evolution of Management Institutions for the British Columbia Salmon
Fishery, 1900 to 1930

Block B: 11:00-12:30

Fish as a Competing Contributor to Food and Income in Developed Countries: Issues and Practical Approaches, Part 1

Organized by: Mahfuzuddin Ahmed and Christopher L. Delgado Chair: Stephen Cunningham

Mahfuzuddin Ahmed and Christopher L. Delgado: *Introduction to the Issues and Context of Rapid Changes in World Demand for Fish*

Fatima Ferdouse: Developments in the International Seafood Market—A Review and Analysis of the Impact on the Developing Countries

Christopher L. Delgado: *Issues in Modeling Fish to 2020 Within a Global Food Model* Discussant:

Steve Cunningham

The Health Benefits of Seafood Consumption, Part 2

Chair: William F. Connor

Rosemary Wander: Do We Go Rancid After Eating Fish?

Joyce Nettleton: Communicating Health Messages About N-3FA

Torbjørn Trondsen: Patterns of Fish Consumption: The Influence of Health Related Factors. The Norwegian Women and Cancer Study (45-69 years)

Capacity: Data Envelope Analysis, Part 2

Chair Rolf Färe

Diane Dupont: Privatization and Regulation of Capacity in a Multi-Product Fishery: A Purse From a Sow's Ear?

John B. Walden: Measuring Capacity of the New England Otter Trawl Fishing Fleet

Niels Vestergaard: Measuring Capacity and Capacity Utilization in Fisheries: The Case of the Danish Gill-net Fleet

Trade, Growth, Natural Resources, and the Environment, Part 2

Chair: John Ward

Chi-Chur Chao: Environmental Impacts on Optimal Trade Policies

Ali Emami: Welfare Enhancing Trade and Production Policies for Recovering Free Trade Induced Welfare Losses in Trade of Renewable Natural Resource Goods

Fishery Management and Producer Associations, Part 2

All speakers continued from Part 1.

Chaos Theory and Other Non-linear Dynamics

Chair: Jon Hendricks

Robert Burton: Chaos Theory: An Introduction

Jon Hendricks: Chaos Theory and the Social Sciences

Maria Lucia D'Apice Paez: Innovation System in Public R&D Organizations in Agribusiness: New Institutional Economics (NIE), Sustainable Equilibria, and Chaos Theory

Biological, Environmental, and Social Processes, Part 2

Chair: Jeffrey Dambacher

Philippe Rossignol: *Qualitative Modeling: Theory and Practice*

Jeffrey Dambacher: Qualitative Modeling of Multispecies Fisheries: Putting Humans Into the Equation

Gabriela Montano: Reconstructing Community Interactions in Sea Urchins Reserves

Hiram Li: Cultural vs. Ecological Values Governing Natural Resource Management: Lessons from Qualitative Food Webs

Small Scale Fisheries and Fishery Development, Part 1

James R. Wilson and Jean Boncoeur: *Micro-economic Efficiencies and Macro-economic Inefficiencies: Renewable Resources Policy in Very Poor Countries*

Carlisle A. Pemberton: Open Access Fishing in a Fresh Water Swamp in Trinidad in the Caribbean

Equity, Efficiency & Communities, Co-Management & Family/Community Part 2

Organized By: Flaxen Conway

Ching-Ta Chuang: Co-management and Labor Stickiness in Fishing Communities:

Determination of the Optimal Number of Vessels

Friday Jack Njaya: The Challenges and Potential of Fisheries Co-management in Malawi: Case of Lake Malombe Participatory Fisheries Management Programme

Flaxen Conway: Change and Fishery Management: Impact, Communication and Fishing Communities

Recreational Fisheries: Surveys and Allocation, Part 1

Chair: David Campbell

David Campbell: Australian National Recreational Fisheries Survey: Economic Data
Brad Gentner: Economic Data Collection for Marine Recreational Angling: the U.S. Approach
Scott Williamson: Contingent Valuation as a National Recreational Fishing Policy Tool in New
Zealand

Political Economy, Part 3

Chair: Bruce Weber

Mariam McCall: Legal Challenges to Highly Migratory Species Management Under Magnuson-Stevens

Ola Flaaten and Paul Wallis: Fisheries Management Costs: Concepts and Studies Erik Poole: Income Subsidies and Incentives to Overfish

Block C: 2:00-3:30

Fish as a Competing Contributor to Food and Income in Developed Countries: Issues and Practical Approaches, Part 2

Chair: Stephen Cunningham

Madan Mohan Dey: Analysis of Demand for Fish by Species Group: Methodological Framework and Preliminary Estimates From Selected Asian Countries

Madan Mohan Dey: Production, Consumption and Accessibility of Aquaculture Products in Asia Somying Piumsombun: Accessibility of Aquaculture Products in Thailand

Pamela Jagger: Potentials and Constraints for Aquaculture in Sub-Saharan Africa: The Case of Uganda

Discussant:

Nik Mustapha Raja Abdullah

Fishery Economics: Dealing With Stock Uncertainty

Chair: Rognvaldur Hannesson

Martin L. Weitzman: Landing Fees vs. Harvest Quotas With Uncertain Fish Stocks Discussants:

Enrique Thomann William Jaeger Ragnar Arnason

Consumer Behavior: Food, Health, and Risk

Chair: John Edwards
Paul Slovic: Risk and Stigma

Stephen Johnson: The Effects of Information on People's Judgment of Risk and Benefit

Indigenous Knowledge, Resource Management, and Research, Part 1 Chair: Kurt Peters

Jesse Ford: The Relevance of Indigenous Knowledge to Contemporary Sustainability
William M. Alexander: Place Located Indigenous Knowledge: Finding Value of Per Capita
Earth Resource Consumption Necessary for Human Sustainability

Biological, Environmental, and Social Processes, Part 3

Chair: Jeffrey Dambacher

John Tschirhart: Fisheries in a Complex Ecosystem

Claire Montgomery: Modeling Compatibility of Biological and Economic Objectives on a Forested Landscape

Ussif Rashid Sumaila: Biodiversity Conservation in a Game Theoretic Model of the Fishery

Endangered Species: Steller Sea Lions and Alaska Pollock

Chair: Lewis Queirolo

Andrew W. Trites: Steller Sea Lions: A Window into Changes in the North Pacific Ecosystem Dayton L. Alverson: Steller Sea Lions and the World Around Them

Lewis Queirolo: Endangered, Threatened and Protected Species: Challenges of Managing
Living Marine Resources in an Internally Conflicted Regulatory Environment and the
Opportunities They Present

Rethinking Resource Management, Part 1

Chair: Carmel Finley

Kathleen S. Carter: *The More Things Change: Oysters, Public Policy, and Species Decline in the Pamlico Sound, 1880-1900*

William G. Robbins: Species Extinction and Cultural Arrogance: The Perils of Ignoring History Marie-Therese Sarch: Fishing and Farming at Lake Chad: Institutions for Access to Natural Resources

The Food Industry: Processing, Retailing, and the Institutional Market Chair: Rod Moore

Rod Moore: Markets and Management: You Need to Know Both Jean Kinsey: Retail Food Distribution: The Race to Efficiency Robert Honson: Overview of School Foodservice Market

Small Scale Fisheries and Fishery Development, Part 2

Chair: Stella Williams

Razack Bakari Lokina: An Economic Analysis to Sustainable Fisheries Management
David Whitmarsh: Economic Effects of Marine Protected Areas on Small-Scale Fisheries: a
Case Study of the Trawl Ban in the Gulf of Castellammare, Sicily

Equity, Efficiency, and Communities, Part 3: Case Studies of Co-Management, Effects on Industry, and Strategies to Work Together

Chair: Flaxen Conway

Peter Panek: The Introduction of Co-management: The Case of The British Columbia Prawn-By-Trap Fishery

Guy Fontenelle: Impact of State Management on the Logic of the Small-Scale Fisherman in Madagascar: Case of Ambara Bay

Peter Britz: Towards Equity, Sustainability and Stability: A Sector Planning Approach to Fishing and Mariculture Development in the Northern Cape Province, South Africa

Capacity: Data Envelope Analysis and Stochastics

Chair: Rolf Färe

Daniel Holland: Factors That Influence the Accuracy of Estimates of Capacity and Capacity Utilization Derived From Data Envelopment Analysis

S. Todd Lee: The Impact of Noisy Catch Data on Estimates of Fishing Capacity Derived From DEA and Stochastic Frontier Models: A Monte Carlo Comparison

Ronald G. Felthoven: Measuring Fishing Capacity for Bering Sea and Aleutian Island Groundfish Fisheries

Recreational Fisheries: Surveys and Allocation, Part 2

Chair: David Campbell

Robert L. Hicks: Approaches for Measuring the Economic Value and Impacts From Marine Recreational Angling: the U.S. Approach

Chuck Hamel: An Economic Discussion of the Marine Sport Fisheries in Lower Inlet Khem Sharma: Economic Impacts of Catch Allocation From Commercial Fishery to Recreational Fishery in Hawaii

Fishery Management: Case Studies, Part 1

Chair: Stanley Wang

Anne Mullan: California Salmon Harvest: Fleet Composition and Regulatory Regimes
Christopher S. Wright: Effect of Trap Soak-Time on the Selectivity Profile and By-kill in Prawn
Trap Fisheries

Wade L. Griffin: An Economic Assessment of Gulf of Mexico Red Snapper Management Policies

Block D: 4:00-5:30

Food Safety and Risk: The HACCP Program

Chair: D.F. Farkas

Amadou Tall: Current Status of HACCP Application in Africa

Frank F. Busta: Evolution and Current Trends in HACCP and Risk Assessment Dan Farkas: Use of High Pressure to Complement Seafood HACCP Programs

Tuesday, July 11

Rethinking Resource Management, Part 2

Chair: Carmel Finley

Carmel Finley and Hans Radtke: *Review of Columbia River Salmon Production Policies*Chris Carter: *Public Hatchery Production of Salmon in Oregon: Does it Make any Economic*

Sense?

Arthur McEvoy: Autonomy, Participation, and Rule of Law Issues in Fisheries Management

Salmon: Industry and Research Perspectives, Part 1

Chair: James Anderson

Robert Ackman: Misunderstandings About Fats in Promotion of Aquaculture Foods

Joyce Nettleton: Fatty Acids in Cultivated and Wild Fish Barbara Belknap: New Research on the U.S. Salmon Market

Indigenous Knowledge, Resource Management, and Research, Part 2

Chair: Kurt Peters

Roberta Hall: *Taking Native Resource Use Seriously*

Sara Singleton: Research Interactions With Indigenous Persons

Functional Foods

Chair: Jimmy Young

Daniel Selivonchick: Functional Foods and Food Science George Constantine: Bioactive Compounds From the Forest

Biological, Environmental, and Social Processes, Part 4

Chair: Jeffrey Dambacher

Matthias E. Hummel: A Method of Analysis of Biological Resource Use Systems Under the Convention on Biological Diversity

William Boggess: The Oregon State of the Environment Report: An Overview of the Motivation,

Purpose, Process, and Findings

Alvin W. Smith: Can the Ocean Make You Sick?

Non-market Valuation: Issues and Approaches, Part 1

Chair: Mary Ahearn

Robert P. Berrens: Internet Versus Telephone in Contingent Valuation: Application to the Kyoto Protocol

Stephen Johnson: Research Surveys: A Structural Decision Process

Brian Garber-Yonts: Public Preferences for Conservation of Biological Diversity in the Oregon Coast Range

Small Scale Fisheries and Fishery Development, Part 3

Chair: Hillary Egna

O.O. Jinadu: Economic Efficiency in the Coastal Small-Scale Fisheries in Lagos State, Nigeria Stella Williams: Economic Potentials of Women in Small-scale Fisheries in West Africa

Tuesday July 11/Wednesday, July 12

Efficiency and Production Relationships

Chair: Rolf Färe

Haakan Eggert: Technical Efficiency in the Swedish Trawl Fishery for Norway Lobster K. Kuperan Viswanathan: Technical Efficiency and Fishing Skill In Developing Country Fisheries: The Kedah, Malaysia Trawl Fishery

I. del Valle: Estimating the Elasticity of Substitution Between Inputs Comprising Fishing Effort: An Application to the VIII Division European Fishery

Social Capital: Communities and Fishery Management

Chair: Bruce Weber

Jonathan Isham: Can Investments in Social Capital Improve Well-Being in Fishing Communities? A Theoretical Perspective for Assessing the Policy Options

Emery Castle: *Economic and Social Change in the Fishery*

A. Rodney Dobell: Canadian Marine Fisheries in a Changing and Uncertain World

Fishery Management: Case Studies, Part 2

Chair: Stanley Wang

Roberto Enriquez-Andrade: Perspectives for Rights-Based Fishery Management in Mexico Ruangrai Tokrisna: Conflict in Fishery Resource Utilization: The Case of Light Luring Anchovy Fishery in Thailand

Stanley Wang: A Bio-economic Analysis of an Area Rotation Management Program in the US Atlantic Sea Scallop Fishery

Evening Activities: Dinner on your own or optional IIFET 2000 Avery Park family-style picnic

Wednesday, July 12

8:00-9:00: Onsite registration, small group meetings

Block A: 9:00-10:30

Rethinking Resource Management, Part 3

Chair: Nina Mollett

Christopher Corkett: Fisheries Stock Assessment: An Inductive Science with the Logical Form of Primitive Magic

Glen Spain: Rethinking Fisheries Management

Steve Scannell: Market Quota System: The Ultimate in Public Resource Management Gregory Valatin: On Demand-side Approaches to Solving the "Tragedy of High Prices" in Fisheries

Property Rights: Design Lesson from Fisheries and Other Natural Resources, Part 1: System Complexities

Chair: Susan Hanna

Steve Edwards: An Elemental Basis of Property Rights to Marine Fishery Resources

Anthony T. Charles: *Use Rights: Overview and Multi-Objective Analysis*

James A. Wilson: Conservation Incentives in a Complex Fishery

Small Scale Fisheries and Fishery Development, Part 4

Chair: Wade Griffin

Foday Turay: Restoration of the Collapsed State in Sierra Leone: Problems, Challenges and Prospects for Fisheries Management

Markets, Trends, and Fishery Management

Chair: Pat Corcoran

Larz Malony: Fishery Management and the Marketing of Fish

Gregg Small: The Influence of Fisheries Regulation and Policy on Quality, Recovery, and Value

Salmon: Industry and Research Perspectives, Part 2

Chair: Knut Heen

Stewart Anderson: Salmon Color and the Consumer "Eye Appeal is Buy Appeal"

Anne McMullin: Sustainability of the Farmed Salmon Industry, Its Policies and the Strategies Regarding Research and Development

Natural Resources: Perspectives of Indigenous Peoples, Part 1

Chair: Judith Vergun

Jody Calica: Natural Resource Preservation and the Confederated Tribes of the Warm Springs
Reservation

The Costs of Fisheries Management, Part 1

Organized By: William Schrank

Chair: Giulio Pontecorvo

Ragnar Arnason: Cost of Fisheries Management: Theoretical and Practical Implications Sean Pascoe: The Effects of Unilateral Cost Recovery in an International Fishery Ola Flaaten: The OECD Study on Fisheries Management Costs—Outline of a Study

Endangered Species: Columbia River Salmon, Part 1

Chair: R. Bruce Rettig

Robert T. Lackey, Policy Conundrum: Restoring Wild Salmon to the Pacific Northwest

Nonmarket Valuation: Issues and Approaches, Part 2

Chair: Mary Ahearn

Peter C. Boxall: Incorporating Endogenous Perceptions of Environmental Attributes in Recreation Demand Models: The Case of Congestion

G. Cornelis van Kooten: Fuzzy Approaches to Measuring a Fuzzy Concept: An Alternative to Nonmarket Valuation

Mary Ahearn: Approaches to Valuing Landscapes

Fishery Management: Effort Control and Buyback, Part 1

Chair: James Crutchfield

Bruce Twomley: Commercial Fishing License Limitation: A Controversial System of Grandfather Rights

Phil Smith: Federal Limited Access System in Alaska

Dinty Mather: Economic Organization and Transformation in the South African Squid Industry

Generic vs Brand Promotion, Part 1

Chair: Walter Armbruster

Joachim Scholderer: Generic Advertising for Fish: Results From a Research-Based Campaign

Walter Armbruster: Generic Advertising for the Seafood Industry

Henry W. Kinnucan: Generic Versus 'Brand' Promotion: A Model With Application to

International Trade

Øystein Myrland: Effects of Generic Advertising on Consumers' Attitudes, Revealed Preferences

and At-home Consumption of Salmon in Germany

Biological, Environmental, and Social Processes, Part 5

Chair: Jeffrey Dambacher

Pierre Failler: Sustainability Through Economics

Courtland Smith: Cultural and Natural Assets for Sustainability

Ralf Doering: Concepts of Sustainable Fisheries

Block B: 11:00-12:30

Reflections on Co-management, Consensus, and Conditions for Labor

Chair: Patrick Corcoran

Steve Donda: Journey to Sustainable Fisheries Management in Malawi: The Cases of Lakes Malombe and Chiuta

Elizabeth Davis: How Does the Local Labor Market Affect Job Outcomes of the Working Poor? Earnings, Job Stability and Upward Mobility

Patrick Corcoran: Watershed Councils and Their Struggles Toward Consensus

What and How are We Measuring? Part 1

Chair: Gil Sylvia

R.Q. Grafton: Guidelines for the Economic Evaluation of Fisheries Anthony Cox: Economic Performance Indicators for Fisheries

Ross Cullen: Selection of Mechanisms to Achieve Internalization of Fishing Externalities

Property Rights, Part 2: In the Wake of IFQs

Chair: Susan Hanna

Christopher M. Dewees: New Zealand's Quota Management System: Changes in the Auckland

Fishing Community Through the First 14 Years

Sevaly Sen: Property Rights in ITQ fisheries: fact or fiction?

Thorolfur Matthiasson: Changing the Rules for Regulation of Icelandic Fisheries Gunnar Knapp: Attitudes of Alaska Halibut Fishermen Toward IFQ Management

The Food Industry

Chair: David Lakey

Panel Discussion:

Herb Ashkenasy

Pam Lund

Lynn Wilson

Harry Forsberg

William Woods, Jr.

Craig Smith

Aquaculture and Mariculture Production Issues, Part 1

Chair: Ron Fleming

Bill Gerwick: Seaweeds: A Rich Source of Products Useful to Aquaculture, Medicine, and

Biomedical Research

David Zilberman: An Economic Analysis of Algoculture

Natural Resources: Perspectives of Indigenous Peoples, Part 2

Chair: Judith Vergun

Judith Vergun: The Effects of Uplands Management on Riverine Systems

Frank Lake: Management of Marine and Riverine Fishery Resources in the Pacific Northwest by

Indigenous People

The Costs of Fisheries Management, Part 2

Organized By: William Schrank

Chair: John Gates

Rognvaldur Hannesson: *Management and Enforcement Costs in Norway's Fisheries* William E. Schrank: *The Cost of Marine Fishery Management in Eastern Canada*:

Newfoundland, 1989/90 to1997/98

Ragnar Arnason: Government Expenditures on Fisheries and Fisheries Management in Iceland

Endangered Species: Columbia River Salmon, Part 2

Chair: R. Bruce Rettig

Daniel Huppert: Role of Economic Analysis in Columbia River Salmon Decisions

Shep Buchanan: Power, Fish and the Greenhouse on the Columbia River

Emery Castle: Economic and Social Change in the Fishery: Institutions and Structure

Nonmarket Valuation: Recreational Fisheries, Part 1

Chair: Stephen Beare

Daniel McFadden: The Travel Cost Method for Valuing Recreational Fishing — Issues of Sampling, Estimation and WTP for Site Improvements

Diane Dupont: Gender Differences in Nonmarket Benefit Estimates: Potential for Biases in Aggregate Values

Frank Lupi: Modeling the Demand for Recreational Fishing in Michigan

Edi Defrancesco: Recreation Management in the Venice Lagoon: Methodological Aspects and Empirical Evaluation

Biological, Environmental, and Social Processes, Part 6

Chair: Jeffrey Dambacher

Matt Hoffman: Micro Behavior and Macro Landcover Change: Simulating Deforestation and Reforestation in Indiana Over Two Centuries

Alfons Balmann: Modelling Land Use With Multi-agent Systems—Perspectives for the Analysis of Agricultural and Environmental Policies

JunJie Wu: The Economics of Conservation Targeting Strategies

Fishery Management: Effort Control and Buyback, Part 2

Chair: James Crutchfield

Stephen Cunningham: Fishery Management in the Mediterranean: An Evaluation of Effort-Based Management Systems

Olivier Guyader: Economic Analysis of the Impact of Buyback and the Role of Financial Incentive Schemes: Application to the French Fishery Sector

Anne M. Wakeford: Fisheries Buybacks, An Appropriate Solution to Conservation?

Block C: 2:00-3:30

Trees, Water, and Fish

Chair: K. Norman Johnson

K. Norman Johnson: CLAMS: The Coastal Landscape and Modeling Study

Natural Resources: Perspectives of Indigenous Peoples, Part 3

Chair: Judith Vergun

Tom Mexsis Happynook: Cultural Biodiversity: Indigenous Relationships with Their Environment

Helen Redbird-Smith: Taking the Pulse of the Universe

Allison Davis-White Eyes: Sacred Sites, Sacred Land: A Native Perspective.

Food Attributes: Consumer and Producer Perspectives, Part 1

Chair: Scott Miller

Jean Pierre Boude: Quality Initiatives, Fishermen's Income and Fishing Strategy

Perry Smith: Quality/Price Relationships on the Sydney Fish Market

Asmo Honkanen: Future Threats and Opportunities in Finnish Fisheries: A Study to Build up a Regular Follow-up Data Collection

Property Rights, Part 3: Building Flexibility into Property Rights Systems

Chair: Susan Hanna

James D. Hastie: Permit Stacking as an Approach to Implementing Harvest Rights That Can be

Transferred and Accumulated

Mariam McCall: Property Rights in Atlantic HMS Management

James Sanchirico: Individual Transferable Quotas and Bycatch Management: Preliminary Evidence from the New Zealand Experience

Industry Development, Innovations, and Product Forms

Chair: Howard Johnson

Herbert Ashkenasy: Freeze-dried Product: The Process and the Markets

Howard Johnson: Retail Seafood: a New Paradigm

David Lancaster: Electronic Commerce in the Seafood Industry

Aquaculture and Mariculture Production Issues, Part 2

Chair: Ronald A. Fleming

Ronald A. Fleming: An Economic Evaluation of Commercial Paddlefish (Polyodon spathula)

Production

Atle G. Guttormsen: Input Factors Substitutability in Salmon Farming

Diego Valderrama: A Risk Programming Model for Shrimp Farming in Honduras

Why Not Merge the Social Sciences? Part 1

Chair: Courtland Smith

Panel Discussion

Roberta Hall B. Curtis Eaton John Edwards Ronald Mitchell

The Costs of Fisheries Management, Part 3

Organized By: William Schrank Chair: Walter Keithly, Jr.

Ragnar Arnason: Cost of Fisheries Management: The Case of Iceland, Norway and

Newfoundland

Vilhilmur Wiium: Fishery Management Costs: The Case of Namibia

Somying Piomsombun and Rolf Willman: Fisheries Management Costs in Thai Marine Fisheries

Nonmarket Valuation: Recreational Fisheries, Part 2

All speakers continued from Part 1.

What and How are We Measuring? Part 2

Chair: Gil Sylvia

Michael Haby: Developing An Economic Profile of Texas Shrimp Fishing Operations in the Gulf

of Mexico

Noel Taylor-Moore: The Business of Fishing in Queensland, Australia

Patricia Koss: Designing and Operating Fish and Wildlife Programs in an Environment of

Uncertainty

Ex-vessel Price Determination, Part 1

Chair: Jim Anderson

Barbara Stevenson: Portland's Auction Success

Claire W. Armstrong: Auctions and the First-hand Sale of Fish

Fishery Management: Dealing with Bycatch

Chair: James Crutchfield

Yong Suhk Wui: An Economic Analysis of New Bycatch-Reduction Policies for the Gulf of Mexico Shrimp Fishery

Vicki Hoover Krutzikowsky: Finfish Bycatch Effects on Quality of Ocean Shrimp, Pandalus Jordani

Block D: 4:00-5:30

Food Attributes: Consumer and Producer Perspectives, Part 2

Chair: Scott Miller

Elizabeth Greene: Using Marketing Management Analysis to Develop Quality Control Systems for Pacific Whiting and Albacore Tuna

Stephen Crutchfield: Labeling Genetically Modified Foods: An Economic Proposal

Ted Evans: Seafood Inspection and Quality Audits as a Way of Doing Business in International Seafood Trade

Property Rights, Part 4: The Social Context of Fisheries Management

Chair: Susan Hanna

Torbjorn Trondsen: *Market Orientation in Fisheries Management*

Michael Healey: Paradox of Fairness: The Impact of Escalating Complexity on Fishery Management

Parzival Copes: Challenging ITQs: Legal and Political Action in Iceland, Canada and Chile Robin Alden: Apprenticeship and Conservation Incentives

Seafood Markets and Fishery Management: International Dimensions

Chair: James Anderson

Mark Soboil: *Impact of Fishery Enhancement Subsidies on International Trade and Fisheries* Rene Cerda-D'amico: *Foreign Trade of the Swordfish Landed in Chile*

Industry Sourcing Panel

Chair: Ray Cesca

Ray Cesca William Woods, Jr. Justin LeBlanc

Why Not Merge the Social Sciences? Part 2

Chair: Courtland Smith
Panel discussion continued from Part 1.

Aquaculture and Mariculture Production Issues, Part 3

Chair: Ron Fleming

Ruamporn Sirirattrakul: Dramatic Development of Shrimp Culture in Asian Countries

Mucai Muchiri: Break Even Prices and Investment Costs Under Different Loan Schemes for

Small-Scale Fish Farmers in Kenya

Valuing Indigenous Rights, Part 1

Chair: David Campbell

David Campbell: Valuing Indigenous Rights: Concepts and Methods

Peter C. Boxall: Indigenous Values

Randall Bess: Maori Claims to Fisheries Resources

Bioeconomic Modeling, Part 1

Chair: Trond Bjorndal

Michael Harte: Time Preferences of Fishers and the Optimal Harvest of Fisheries Resources Martin D. Smith: Optimal Fisheries Management Over Space: An Endangered Predator and

Harvestable Prey Model

Rognvaldur Hannesson: A Note on ITQs and Optimal Investment

The Costs of Fisheries Management, Part 4

Organized By: William Schrank

Chair: Parzival Copes

Anthony Cox: Cost Recovery in Fisheries Management: The Australian Experience

Nick Wyatt: Cost Recovery and Fisheries Management in New Zealand

Jon Sutinen: A Summing Up — What Have We Learned; Where Do We Go From Here

Columbia River Pastoral Letter Project

Chair: Frank Fromherz

Frank Fromherz: The Columbia River Watershed: Notes on a Pastoral Letter Emerging

Irene Martin: Summary of Remarks on the Columbia River Pastoral Letter

Steven Kolmes: Remarks

Economic and Social Effects of Environmental Perturbations, Part 1

Organizer: John Gates

Gary D. Sharp: Climate and Fisheries: Costs and Benefits of Change

Tsuyoshi Kawasaki: Global Warming Could Have a Tremendous Effect on the World Fisheries

Production

Gunnar Knapp: Implications of Climate Change for Fisheries Management

What and How are We Measuring? Part 3

Chair: Gil Sylvia

Patty Clayton: Using Fishermen's Expertise to Improve Fisheries Management

Elizabeth Mitchell: The Cost of Eating Fish: Funding and Implementation of Observer Programs

in Domestic and High Seas Fisheries

John Harms: The Economics of Cooperative Fishery Research: A Survey of U.S. West Coast

Groundfish Industry and Scientists

Chuck Hamel: Fish Harvesting Employment Data Collection

Ex-vessel Price Determination, Part 2

Chair: Christopher Wright

Thorolfur Matthiasson: *Ex-vessel Price Formation in Iceland* Perry Smith: *Price Formation on the Sydney Fish Market*

Shekar Bose: An Empirical Investigation of Price-quantity Relations of the Quota Species of

Australia's South-East Fishery

Evening Activities: Dinner on your own, optional IIFET 2000 Gourmet Winery Picnic, or "Walk in the Woods" Forestry Fish Conservation Activities Walk and Picnic.

7:30 - Native American Films at LaSells-Stewart Center by Makah filmmaker Sandra Osawa: "Usual and Accustomed Places" and "On and Off the Res' With Charlie Hill." Free and open to the public.

8:00-9:00: on-site registration, small group meetings

Block A: 9:00-10:30

Property Rights, Part 5: Co-management/Self Management

Chair: Susan Hanna

Olivier Thebaud: The Economics of Fisheries Self-regulation: Analytical Issues and a Historical Case Study

Janne Hukkinen: Scenarios of Self-organizing Institutional Design for Environmental Management in Upper Lapland, Finland

Pekka Salmi: Private Water Ownership and Fisheries Governance in Finland

Kuperan Viswanathan: Welfare Impacts and Transaction Costs of Fisheries Co-Management at Oxbow Lake (Baor) in Bangladesh

Food Attributes: Consumer and Producer Perspectives, Part 3

Chair: Maria Paez

Catherine Mariojouls: Analysis of French Demand for Oysters and Mussels Within European Market

Economic and Social Effects of Environmental Perturbations, Part 2

Organizer: John Gates

Giulio Pontecorvo: Economic Effects of Environmental Fluctuations in the Anchoveta Fisheries of Chile and Peru

Jung-Hee Cho: Environmental Factors and Natural Resource Stocks: The Atlantic Herring Case Stephen Polasky: Renewable Resource Management with Environmental Prediction

Ecolabeling, Part 1

Chair: Cathy Wessells

Holger Donath: Consumer Preferences for Ecolabeled Seafood. A Comparison of Consumers in the US and Norway

Jonathan Peacey: The Marine Stewardship Council Fisheries Certification Program: Progress and Challenges

S. Jaffry: Consumer Choice for Quality and Sustainability in Seafood Products: Empirical Findings From Europe

James A. Young: The European Consumer's Understanding and Perceptions of Organic Salmon Production

Ragnar Tveteras: Demand for Organic Salmon in the European Union

Seafood Markets and Fishery Management: Conceptual and Empirical Issues, Part 1

Chair: Ken Roberts

Daniel Georgianna: The Effect of Reduced Landings on Fresh Fish Processing in New England Charmaine Gallagher: An Integrated Bioeconomic Model of the Oregon Pink Shrimp Fishery Patricia Koss: Reciprocal Exposure and Holdup in Fisheries: Implications for Fishery Management Policy

Aquaculture and Mariculture Production Issues, Part 4

Chair: Ron Fleming

Ragnar Tveteras: Technical Change and Productive Inefficiency Change in Norwegian Salmon Farming: The Influence of Regional Agglomeration Externalities

Bioeconomic Modeling, Part 2

Chair: Trond Bjorndal

Stephen Beare: Access Management Using Real Time Catch Data in the Northern Prawn Fishery: An Application of Stochastic Control Rules

Simon Mardle: The Determination and Use of Objective Preferences in a Given Fisheries Bioeconomic Modelling Framework

Kjetil Helstad: Management of Herring, Capelin and Cod in the Greater Barents Sea Economic Optimal Management From a Norwegian Viewpoint

Fisheries and Trade: Industry and Government Perspectives, Part 1

Chair: Greg Schneider

Erhard Ruckes: Evolution of The International Regulatory Framework Governing International Trade in Fishery Products

William Emerson: The Trade Distorting Effect of Subsidies

Greg Schneider: Current Debate Over Potential Use of Trade Measures Fawzi A. Taha: Japan's Declining Fish Catch Raises Trade Prospects

Richard Schulberg: Sustainable Development and Trade

William Woods, Jr. (Panel Discussant): An Industry Perspective

Price Analysis and Demand Estimation, Part 1

Chair: Scott Matulich

Terje Vassdal: Regime Shifts in the International White Fish Markets: The Case of Alaska Pollock as a New Entrant

Minoru Tada: Japanese Fish Demand and the Price Linkage with Foreign Markets

Innovations in Fishery Management: Sustainable Mandates—Devolving Institutions, Part 1

Organized By: Gil Sylvia

Anthony Scott: Five Stages in the Evolution of the Market-Oriented Fishery

John Goodlad: UK Fisheries Management—The Shetland Experience

Michael Arbuckle: New Zealand Fisheries Under the Quota Management System

George Kallis: Vessel Reduction/Gear Changes and Stock Enhancement

Valuing Indigenous Rights, Part 2

Chair: David Campbell

Tony Wright: The Economics of Subsistence Fishing in Eastern Canada: Striking a Balance Between Aboriginal Claims and the Implication of First Nations in the General Economy

David C. Natcher: Arriving at Appropriate Criteria and Indicators for Sustainable Forest Management: A First Nation's Perspective

Collaboration Among Industry, Government and Education Partners Workshop Coordinators:

Lynn Wilson Pam Lund

Block B: 11:00-12:30 Ecolabeling, Part 2

All speakers continued from Part 1.

Property Rights: States and Other Interests

Chair: Susan Hanna

R. Quentin Grafton: Property Rights for Fisheries

Sara Singleton: Commons Problems, Collective Action and Efficiency in Past and Present Institutions of Governance in PNW Salmon Fisheries

Tadashi Yamamoto: Why Fishery Community-based Fishery Management (FCFM) has been Well Developed In Japan–Legal Framework is indispensable for the Development of FCFM

Eric J. Ziegelmayer: Ocean Limits: Commoditization and the Crisis of the Fishery

Seafood Markets and Fishery Management: Conceptual and Empirical Issues, Part 2

Chair: Ken Roberts

Quentin S. W. Fong: From Shark Fin Markets to Shark Populations: An Integrated Market Preference - Cohort Analysis of the Blacktip Shark (Carcharhinus Limbatus)

Josué Martínez-Garmendia: Incorporating Market Information in the Management of the US North Atlantic Bluefin Tuna

James E. Wilen: Markets and Rent Dissipation Under Regulated Open Access

Direct Marketing

Michael Washburn: Direct Marketing of Seafood: A Fisherman's Perspective

Cory Schreiber: Perspectives from the Food Service Industry

Harry Daughters: Perspectives from Seafood Retailing

Aquaculture: Incentives to Adopt and Impacts on Communities, Part 1 Chair: Salvador Garcia-Martinez

Masudul Hoq Chowdhury: Increasing Efficiency of Pond Fish Production in Rural Bangladesh Paul M. Thompson: Impacts of Aquaculture Extension on Pond Operators and the Rural Community

Ruben C. Sevilleja: Adoption and Economics of Tilapia Farming Technology in the Philippines

Fisheries and Trade: Industry and Government Perspectives, Part 2 All speakers continued from Part 1.

Fishing Behavior and Institutions, Part 1

Chair: James R. Wilson

Bertrand Le Gallic: Differences of Profitability Within a Multi-species Multi-gear Fishery: How Much is Explained by Barriers to Entry?

Martin D. Smith: Two Econometric Approaches to Simulate Spatial Management of a Commercial Fishery

Subsistence Whaling, Part 1

Organized by: Mark Herrmann

Tom Albert: Critical Contributions, by Eskimo Hunters in Alaska, to Studies of Spring Migrating Bowhead Whales (Balaena Mysticetus)

Tom Mexsis Happynook: The Social, Cultural and Economic Importance of "Subsistence Whaling"

Sandra Osawa: The Historical Background of the Current Makah Whaling Controversy

Price Analysis and Demand Estimation, Part 2

Chair: Scott Matulich

Hwang-Jaw Lee: Consumer Demand for Seafood in Taiwan

Joaquin A. Millan: Interdependent Preferences for Seafood Consumption Jack Houston: Factors Affecting Consumer Preferences for Shrimp in Taiwan

Innovations in Fishery Management: Sustainable Mandates--Devolving Institutions, Part 2

Organized By: Gil Sylvia

Tom McClurg: Cost Recovery

Michael Harte: Industry-led Research

Tony Craig: Devolution of Fisheries Management Functions in New Zealand

Bioeconomic Modeling, Part 3

Chair: Trond Bjorndal

Micki Stewart: Analysis of the Impacts of Marine Reserves in the Galapagos Islands

Duncan Knowler: Nutrient Enrichment and Marine Ecosystem Disturbance: A Deterministic and

Stochastic Analysis of the Black Sea

Lee G. Anderson: A Bioeconomic Analysis of Marine Reserves

Asset Markets, Options and Green Accounting, Part 1

Chair: Ellen Burnes

Eyjolfur Gudmundsson: Asset Pricing, Derivatives and Futures Trading for Harvesting Rights to Renewable Resources

Ellen Burnes: The Value of Investment Hedging With Resource Reserve

Atle G. Guttormsen: Optimal Rotation Time in Fish Farming

Arantza Murillas: Investment and Development of Fishing Resources: A Real Option Approach

Robert D. Cairns: Green Accounting for a Commercial Fishery

Asgeir Danielsson: Environmental National Accounting for Commercially Exploited Fishstocks

Block C: 2:00-3:30

Seafood Markets and Fishery Management: Conceptual and Empirical Issues. Part 3

Chair: Chris Delgado

Michelle James: Industry Perspective on the Effect of Fisheries Management on Seafood Markets: The B.C. Geoduck Example

Yoshiaki Matsuda: History of Fish Marketing and Trade With Particular Reference to Japan Haruko Yamashita: Problems of Export-Oriented Yellowfin Tuna Industry–Indonesia and the Philippines

Fishing Behavior and Institutions, Part 2

Chair: James R. Wilson

David B. Sampson: Fishing Strategies and Fishing Success: An Empirical Analysis Based on Trawl Logbooks

Sean Pascoe: Economic Performance of Fishers: Stochastic or Chaotic?

Aquaculture: Incentives to Adopt and Impacts on Communities, Part 2

Chair: Salvador Garcia-Martinez

Mathias W. Wafula, Socio-economic Impact of Aquaculture Support Programmes on the Communities in the Lake Victoria Basin of Kenya

Eunice Perez Sanchez, Aquaculture Impacts in the Socio-economics of the Coastal Communities of Tabasco, Mexico

Subsistence Whaling, Part 2

Organized by: Mark Herrmann

William Aron: The International Whaling Commission—A History of Malignant Neglect
Milton Freeman: Sustained Ambiguity as a Management Device in the International Regulation
of Whaling

Price Analysis and Demand Estimation, Part 3

Chair: Peder Andersen

Diane F. Primont: *On the Construction of Price Indexes*

Jeffrey T. LaFrance: U.S. Income Distribution and Gorman Engel Curves for Food

Frank Asche: Is Salmon a Substitute for Whitefish?

Jessica Hartmann: Price Relationships Along the Value Chain: An Analysis of Hake Markets in France and Spain

Innovations in Fishery Management: Sustainable Mandates-Devolving Institutions, Part 3

Organized By: Gil Sylvia

Rene Cerda-D'amico: Individual Transferable Share Quotas in Chilean Fisheries

Heather McCarty: Using Tax Incentives to Fund Industry Based Research

Paul Starr: Self-monitoring of Catch and Effort and Experimental Increases in Catch Limits
John R. Gauvin: Use of a Halibut Excluder Device in the Flatfish Trawl Fisheries of the Eastern
Bering Sea: Evaluating Incentives for Bycatch Reduction in Commons Fisheries

Fishery Economics: From Homo Economicus to Homo Sapiens?

Chair: Tony Charles

Panel Discussion

James A. Wilson Bruce Rettig Philip Neher

Collaboration: Science and Industry

Chair: Catherine Durham

Roy G. Arnold: University/Food Industry Partnerships for Human Resource Development and

Technology Transfer

Catherine Durham: The Oregon State University Food Innovation Center

James E. Kirkley: Capacity Measures: Industry Uses of State-of-the-Art Research

Asset Markets, Options and Green Accounting, Part 2

All speakers continued from Part 1.

Bioeconomic Modeling, Part 4

Chair: Trond Bjorndal

Daniel V. Gordon: Evaluation of Alternative Management Strategies for the Norwegian Spring-

Spawning Herring Fishery: A Bio-Economic Simulation Model

Paul Hillis: A Regional Management Model of Fisheries in the Irish Sea

Luca Rossetto: The Management of Fishery in Venice Lagoon

Deqin Cai: An Extension of the Classified Estimates of Dredge Efficiency and Animal Stock and

Abundance and Its Application to Sea Scallop Fishery in Georges Bank

Trees, Water and Fish, Part 2

Chair: John Sessions

John Sessions: Saving the Fish, While Providing Economic Benefits

Benno Warkenton: Changes in Decision-Making in Diffuse Water Pollution Control

Block D: 4:00-5:30 Concluding Sessions

Rethinking Microbehavior and Macroresults and IIFET: Future Directions

Chair: Richard Johnston

Discussants:

Parzival Copes James Anderson

Ola Flaaten

Presentation of IIFET 2002 Proposal

Innovations in Fishery Management: Sustainable Mandates—Devolving Institutions, Part 4: What Have We Learned?

Chair: Gil Sylvia

Evening Activities: Closing Banquet Dinner and Entertainment

Friday, July 14

Special Session: The History of the West Coast Fishing Industry Chair: Barry Fisher

Period 1: 9:00-10:30

Joe Easley: History of Trawling Off the Pacific Coast

Barry Fisher: The Groundfish Sector Just Before and Just After the Magnuson Act: Structural Changes in the Fleet, How it Fishes and What it Catches; Some East Coast — West Coast Comparisons

Ralph Brown: Fishing under the Federal Management Structure: the Mid 1980s to the Present

Discussion

Period 2: 11:00-12:30

Susan Hanna: Setting the Fishery Management Stage: Evolution of West Coast Groundfish Management

Jim Branson: The Alaska Fisheries and Their Management: Pre-Statehood, under State Management and Post-Magnuson Act

Bob Schoning: Over Fifty Years of Government Fisheries Service, Then and Now: State, Federal and International Levels

Clinton Atkinson: A Review of Fisheries Research in the Pacific Area Discussion

Period 3: 2:00-3:30

John McGowan: The History of Fish Processing, Especially Canning of Alaska, Washington and Oregon Salmon and Tuna

Paul Heikkila: Ninety Years of Salmon Trolling

Lee Wiegardt: The History of West Coast Oyster Production, Processing and Marketing

Nick Furman: The Dungeness Crab Fishery: A Historical Perspective

Discussion

Period 4: 4:00-5:30

Glen Spain: Charting a Path Through an Uncertain Future: Lessons from Our History

Zeke Grader: History of Seafood Processing in California and Oregon

Christopher DeWees: The California Fisheries: an Historical Perspective, with Particular Reference to Harvesting in Central and Southern California

General Discussion

Reception, 5:30-6:30, Courtesy of Coastal Oregon Marine Experiment Station
