

# CLUBS

-Kristene Dontje

## HOPE 4 AFRICA @ ISU

This organization is specifically targeted on helping kids in Africa get a leg up, particularly in Kenya. It's easy to assume the way things are here is the way the world should be; this club raises awareness of the problems these kids are facing and gathers funds to start helping them achieve their goals in life.

## DESCARGA LATIN DANCE CLUB

An offshoot of the Ballroom Dance Club, Descarga teaches the Latin-originating dances, such as the Salsa and Merengue - a fast-paced, sultry turn from those stuffy Gone-With-The-Wind waltzes. The instructors are well-experienced and accredited, and everyone is welcome, whether you're a pro or a prom-night wallflower.

## THE ONE CAMPAIGN

Made up of people concerned and ready to get active in the fight against poverty and global crises like AIDS. The One Campaign uses the lobbying power of large numbers of individuals to give politicians a little healthy advice as to how to keep their promises. They focus on getting real results from the people in power and broadcast their successes on their website.

## ISU STUDENT ORGANIC FARM

Iowa State is all about its agriculture and sustainability. So meet the Student Organic Farm, which is exactly what it sounds like. It's a functional farm run by students and faculty, growing everything from asparagus to watermelons for the sake of education and community awareness. They're also one of the local producers that sells to ISU Dining. Pretty nifty, right?
