

Navigating Stories in Times of Transition

The Covid-19 Pandemic as a Use Case

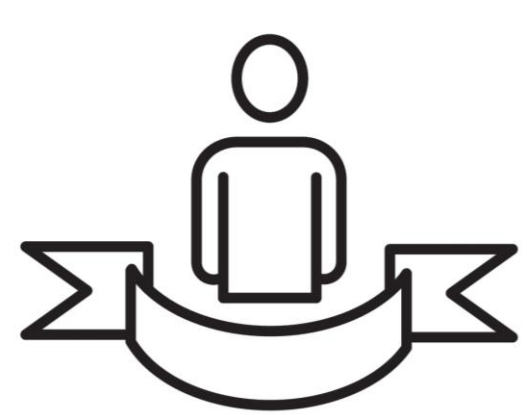

Engaging Users

As a **qualitative researcher**,
I want computational tools to **assist** me in easily
analysing **larger volumes of data** on
the narrative level, so that I can **interpret** how
stories **change over time**.

Easy to use GUI

Data & Infrastructure

Personal stories
Patient stories
Diaries

Oral histories
(DH)

All multimedial data
