IC087 Beta Beta

Inventory 2016 November (ASD); 2018 April (ASD); 2021 February (ASD)

Notes: Philip Montgomery stated that this collection comprises contributions from multiple people. It is not organized but the materials are generally in very good condition and most things were in folders with labels. A few items that were loose in boxes were given folders and labels for the sake of identification, protection, and context; otherwise, this inventory uses the labels that were on the folders when the collection was donated, as they were written by the donors. Due to time constraints, where labels had been provided by the donors, I took them at their word and did not ascertain that the contents matched the folder heading. There are multiple plastic keepsakes, vinyl binders, and photo albums that will need to be addressed before their condition deteriorates.

Folder labels that included abbreviations or Greek letters are written out but indicated by [brackets].
