Summary information

Repository:	McGovern Historical Center, Texas Medical Center Library
Title:	Robert J. Emery, DrPH papers
Reference code:	MS 248
Date:	1995-2011 (creation)
Physical description:	3 cubic feet (6 boxes)
Language:	English

Custodial history

Deed-1

Scope and content

This collection contains materials related to Dr. Robert Emery's career on the faculty of the UT School of Public Health. There is a mix of materials specific to UT, along with external training materials, resources, and publications relevant to this work. The UT materials include reports related to areas of the School of Public Health, such as Industrial Hygiene & Air Environment and the Southwest Center for Occupational & Environmental Health. In addition, there are academic materials from courses related to topics such as workplace safety and public health risk communication. There are also materials from workshops or trainings. Finally, there are publications from sources such as the National Institute for Occupational Safety and Health. The materials range in date from approximately 1995-2011.

Notes

Physical condition

The materials are in good condition.

Immediate source of acquisition

Brought to the MHC by Rocio Rodriguez, Program Manager, Texas Epidemic Public Health Institute, UTHealth School of Public Health. Archivists Sandra Yates and Matt Richardson had previously surveyed the office at SPH and identified these as materials of interest. August 22, 2022.

Arrangement

Materials have been minimally processed, and loosely arranged based on material types. Box-level description is available.

Many materials arrived in large 3-ring binders. These have been removed, and the contents divided into archival folders, noting the sequence "(1 of 5, 2 of 5, etc....)."

Restrictions on access

This collection is open for research.

Conditions governing use

Copyright restrictions may apply. Permission to publish from this material must be facilitated through the repository, McGovern Historical Center.
