**Baptismal Record Reference Number.** The name of each baptized person is entered chronologically in Record of Baptisms with personal data and a record of baptism. Also, a chronological number is entered to the left of the person's name. If the baptized person is enrolled as a preparatory member, it is not necessary to repeat the baptismal record and personal data in Record of Preparatory Membership. Instead, enter in the column "Baptismal Record Reference Number" the same number that appears opposite the name in Record of Baptisms. This

number serves as a cross reference to the baptismal record, thereby making it unnecessary to enter this information more than once.

**Preparatory Membership Terminated.** In the column "How" record how the membership was terminated. Example: Full Membership. When a preparatory member is received into full membership, enter the name, address, etc., in the Official Record of Full Membership.
