Aquaculture

Research Institute

Welcome to the Aquaculture Research Institute's newsletter where we provide updates on ARI's research, education and outreach initiatives.

2022 Reflections

2022 was another great year for ARI — we continue to be a leader in Maine's aquaculture sector through research, education, and innovation. Learn more about what we've accomplished in the past year by clicking below!

Help us continue to grow and support Maine's future aquaculture workforce!

[Subscribe](#)[Past Issues](#)[Translate ▼](#)

Innovation and Workforce Development on Sunday the 26th at 8:30 am. The session will highlight the technology, workforce training, and sustainability advancements happening in Maine. On Saturday the 25th at 5:30 pm, ARI will host a meet and greet happy hour at the conference site in the evening.

Maine Fisherman's Forum

March 2nd–4th at the **Samoset Resort** (220 Warrenton St, Rockport, ME 04856)

Join us at the 48th fisherman's forum where fishermen, clammers, lobstermen, aquaculturists, and other members of the seafood industry have the opportunity to get together and participate in seminars, a trade show, and other fun activities! [More details can be found here.](#)

ARI will have a session on Saturday the 4th at 9 am as well as a table in the trade show during the entire forum.

ARI Education Highlights

ARI's Summer Externship Deadline

The deadline for our summer externship is approaching fast...get those applications in by February 1st!

This will be ARI's 5th summer of ARI's 12-week summer undergraduate externship. Students will gain hands-on experience working in Maine's aquaculture industry and will complete projects working with their host institution to be presented at the Aquaculture Research Symposium. [More information about the externship can be found here.](#)

Aquatic Animal Health Workshop

March 14 - 18; 10:00 am – 4:00 pm

This workshop taught by Dr. Deborah Bouchard is a week-long, 6-hour/day hands-on course based at UMaine's state-of-the-art aquatic animal health facility in Orono. Participants will learn the basics of aquatic animal health for a diverse group of organisms, from finfish to shellfish, commonly cultivated as part of Maine's aquaculture industry. [More Info here.](#)
