OPEN ACCESS

Golden Path and APC Support Opportunities

Tibor Faragó-Szilvási

Research Support Librarian, University Library and Archives

ÚNKP, 2022

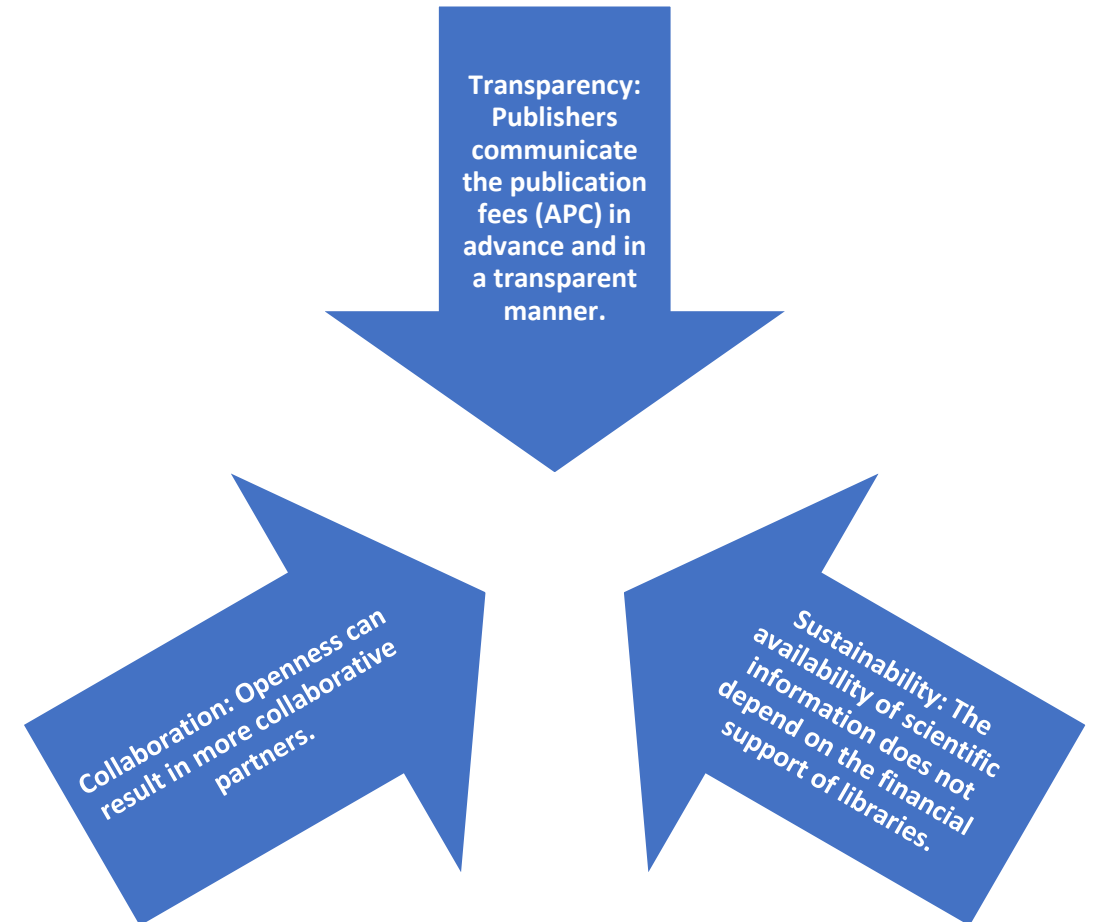

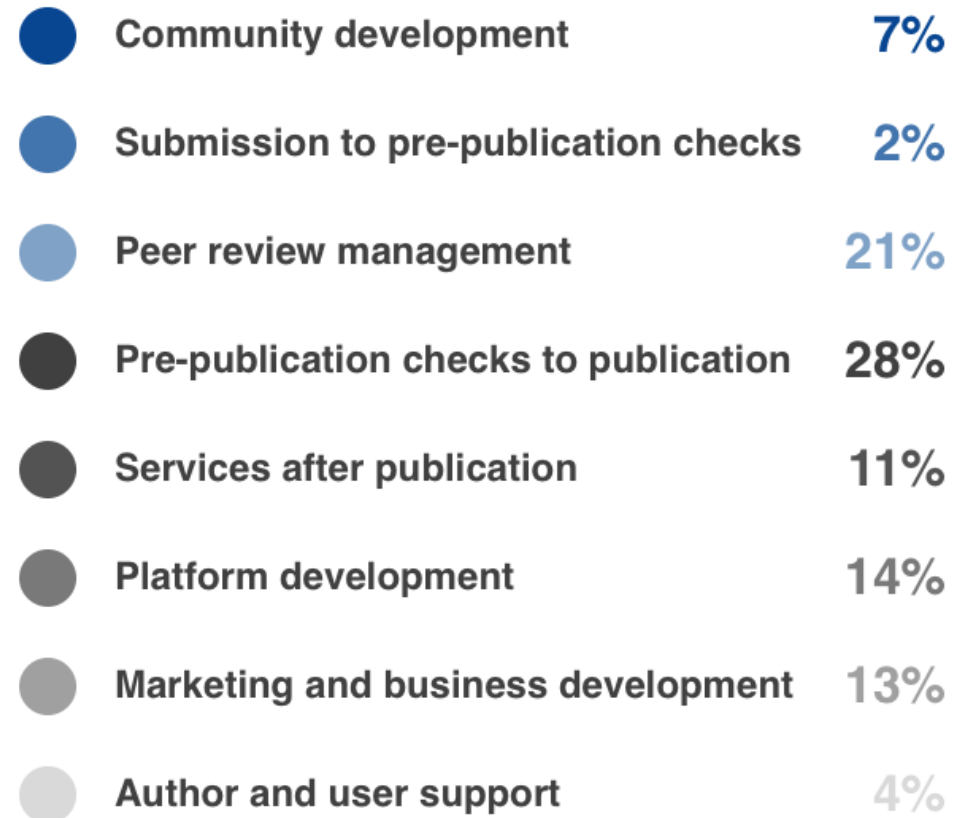

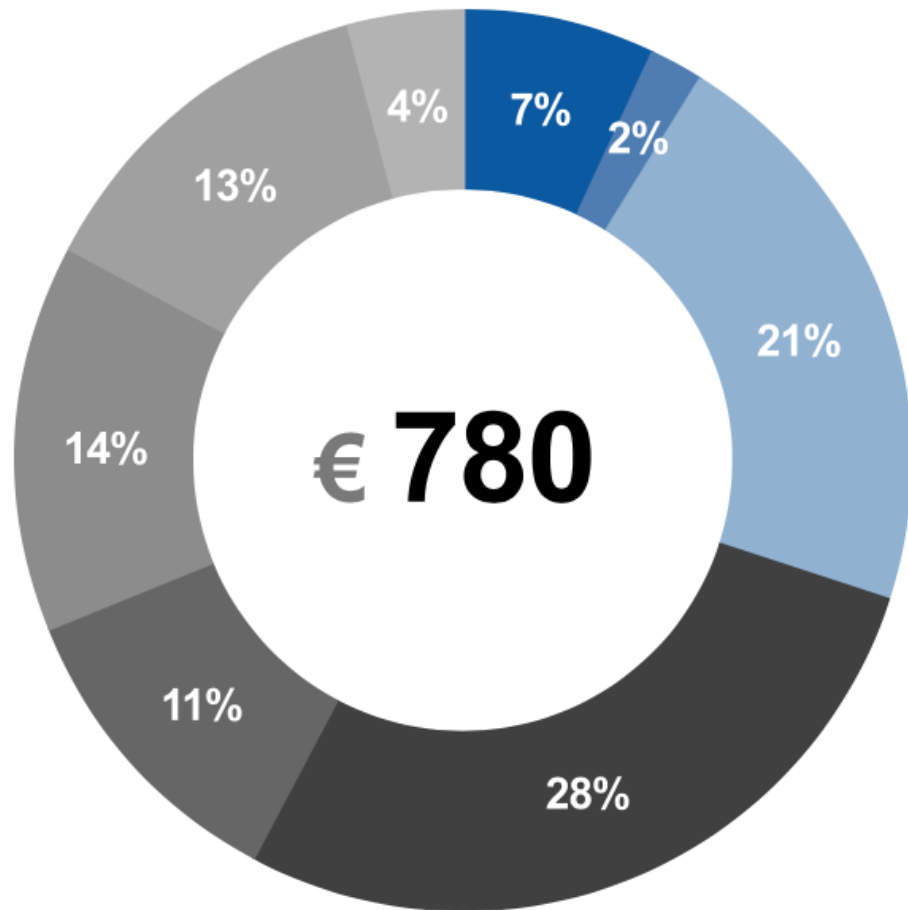

WHAT DO WE CALL OPEN ACCESS?

- Open Access (OA) refers to freely accessible, online, digital information (openscience.hu).
- It is a global initiative aimed at eliminating knowledge acquisition disparities arising from a lack of financial resources and intellectual property restrictions.
- Open access documents, in accordance with the applicable licenses, can be downloaded, shared, reused, and adapted.
- Bringing closer science to civil society is facilitated by providing research materials not only to insiders but to a wider audience. The concept generally refers to two areas:
 - peer-reviewed scientific articles and journals,
 - and research data.

HOW DO THE PRINCIPLES OF OPEN SCIENCE FULFILL WITH OA PUBLISHING?

source: [European Commission, F1000](#)

HOW CAN A PUBLICATION BE OPEN ACCESS?

The options for authors are usually marked with colors.

Fundamentally, there are two possibilities, and all other models can be derived from these two.

form of open access: we use a CC BY license for all our Gold open access publications.

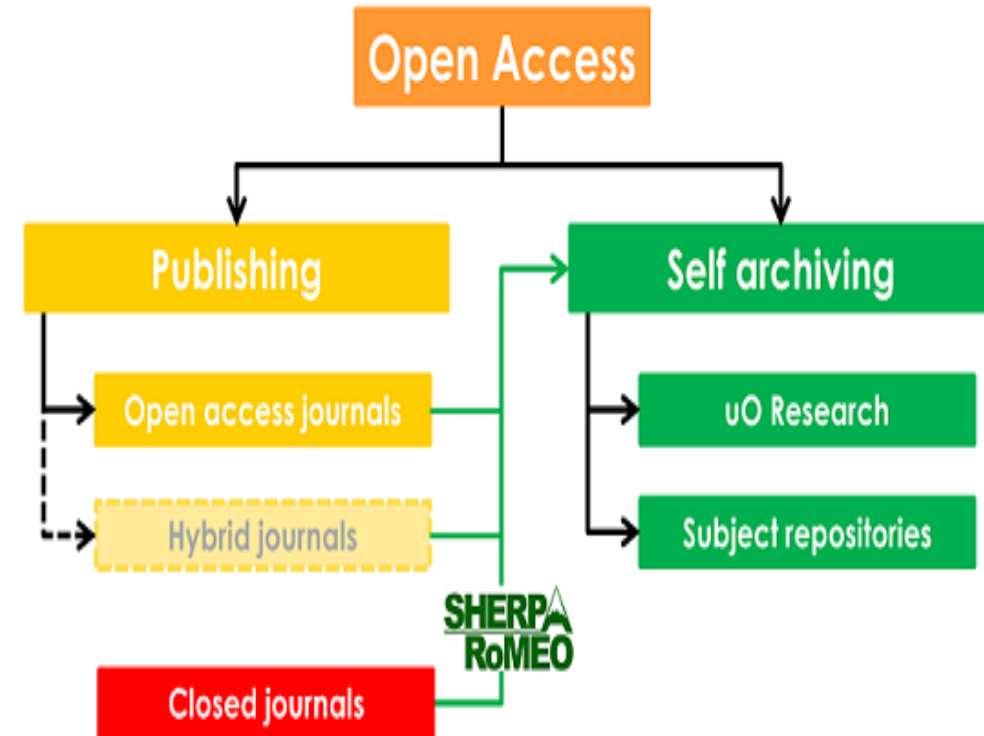

JOURNAL OPERATION MODELS

Subscription based journal

Hybrid journal

Fully open Access journals
e.g. ELTE OJS

Open Access Publishing companies: MDPI, PLOS, Frontiers

source: University of Ottawa

GOLD OPEN ACCESS

- The essence is that the publisher's version can be shared right after publication. The publisher may request an Article Processing Charge (APC).
- Diamond journals, e.g., ELTE OJS (Open Journal Systems).
- APC supports:
 - EISZ Read and Publish agreements
 - Faculty support systems
 - MDPI

OPEN ACCESS SUPPORT POSSIBILITIES

- Open Research Europe (H2020)
- Read and Publish agreements concluded through EISZ.
- Faculty support systems
- MDPI-IOAP
