In Theatre Foundation II: Performance students will explore presence, the audience/performer relationship and how to shape time, space and energy in work with scripted and devised material. This course is a continuation of Theatre Foundation I and provides a strong foundation for the performer through an integrated study of movement and voice, ensemble and performance. Students will investigate dramatic story telling by exploring the relationship between text and character and in working on monologues and two person scenes.

**Repeatable:** *N*

**Formerly** 31-1252

**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making or THEA 120 Comedy Foundations I: Ensemble and Discovery or THEA 141 Musical Theatre Foundations

**Concurrent Requisite** THEA 107 Theatre Survey II: American Drama

**Minimum Credits 4 Maximum Credits 4**

### **THEA 202 Traditions of World Theatre**

This course will survey the dramas, history, and aesthetics of performance traditions from various locations around the world including Africa, Asia, Latin America, and the West (United States and Europe), emphasizing important developments and highlighting pivotal movements and participants within their

broader historical, social, and cultural contexts. Through an examination of theatrical forms, expressive styles, and contributions of performance traditions from around the world, students will become acquainted with how theatre reflects and constitutes community and culture.

**Repeatable:** *N*

**Formerly** 31-2103

**HU DEI**

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

## **THEA 203 Voice for the Actor**

This course teaches the practice of healthy vocal use by exploring the processes of speech production. Knowledge of the basic anatomy of the breathing musculature and vocal mechanism will support the student actor's developing technique. Particular attention will be paid to freeing both the body and voice from over-effort. The speech sounds of the General American English dialect will be introduced as a tool for students to develop energy and clarity in articulating thought. Students will build their palette of vocal expression through the use of dramatic text.

**Repeatable:** *N*

**Formerly** 31-2300

**Prerequisites** THEA 103 Voice for Non-Theatre Majors and THEA 101 Acting Basic Skills for Non-Acting Majors or THEA 112 Theatre Foundation II: Performance

**Minimum Credits 3 Maximum Credits 3**

## **THEA 204 Movement for the Actor**

Students continue the study of the actor's physical instrument. Working as an ensemble and through personal practice outside of class, students expand physical strength and stability, and the interconnection of voice and body, emotion and body, mind and body.

**Repeatable:** *N*

**Formerly** 31-2305

**Prerequisites** THEA 112 Theatre Foundation II: Performance

**Minimum Credits 3 Maximum Credits 3**

## **THEA 205 Text Analysis**

This course introduces students to varying methods and approaches to script analysis. While students will become familiar with traditional methods of analysis, a significant emphasis will be placed on alternative and complementary methods including contemplation and intuitive responses, visualization and imagery, and somatic responses to play scripts. Through course readings, presentations, and group activities, furthermore, this course will familiarize students with vocabulary and strategies of analysis for actors, designers, and playwrights, thereby facilitating communication of production ideas.

**Repeatable:** *N*

**Formerly** 31-2120

**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making and ENGL 112 Writing and Rhetoric II or THEA 111 Theatre Foundation I: Theatre Making and ENGL 112H Writing and Rhetoric II: Honors or THEA 111 Theatre Foundation I: Theatre Making and ENGL 122 International Writing and Rhetoric II or THEA 141 Musical Theatre Foundations and ENGL 112 Writing and Rhetoric II or THEA 141 Musical Theatre

Foundations and ENGL 112H Writing and Rhetoric II: Honors or THEA 141 Musical Theatre  
Foundations and ENGL 122 International Writing and Rhetoric II  
**Minimum Credits 3 Maximum Credits 3**

### **THEA 207 Scenes: Performance & Analysis**

Students take an active and creative role in analyzing and rehearsing scenes for performance. Students are encouraged to make choices that explore the text in the current cultural moment, but also to analyze the given circumstances embedded in the text. The integration of physical and vocal technique into performance continues from previous course work. Students will present scenes for live and on-camera performance.

**Repeatable:** *N*

**Formerly** 31-2200

**Prerequisites** THEA 112 Theatre Foundation II: Performance or THEA 125 Comedy Survey II or THEA 103 Voice for Non-Theatre Majors and THEA 102 Scene Study for Non-Theatre Majors

**Minimum Credits 3 Maximum Credits 3**

### **THEA 250 Character & Ensemble**

Students analyze the shifting alliances and conflicts that occur in scenes between three or more characters. This analytical work is explored in the context of heightened give and take, awareness, concentration and focus demanded in a more populated stage space. Students are encouraged to make active, transformative choices in physical and vocal technique, and are expected to take responsibility for memorization, preparation and reflection that is essential to the actor's discipline. Students will present scenes for live and on-camera performance.

**Repeatable:** *N*

**Formerly** 31-2205

**Prerequisites** THEA 207 Scenes: Performance & Analysis and THEA 203 Voice for the Actor and THEA 205 Text Analysis or THEA 240 Musical Theatre Scene Study and THEA 203 Voice for the Actor and THEA 205 Text Analysis

**Minimum Credits 4 Maximum Credits 4**

### **THEA 322 Voice and Text**

This course explores the intersection of vocal technique and imagination in creating dynamic acting choices specifically through the use of language. Students will practice skillful application of vocal technique to a wide range of performance texts, while learning to build vocal strength, energy, stamina, and flexibility. Students will investigate structure, rhythm, image, argument, sound and sense in performing a variety of dramatic and poetic texts. A written component of the course requires students to reflect critically on the use of vocal technique in performance.

**Repeatable:** *Y*

**Formerly** 31-3300

**Prerequisites** THEA 205 Text Analysis and THEA 207 Scenes: Performance & Analysis and THEA 203 Voice for the Actor

**Minimum Credits 3 Maximum Credits 3**

### **THEA 390 Theatre Career**

This course will provide upper level Theatre majors with practical knowledge they will need to transition into careers in their field. Taught by our faculty of theatre professionals, this course explores: unions and

contracts as they relate to theatre artists; models of producing: from the storefront theatre to LORT; creating a new theatre company; and self-promotion.

**Repeatable:** *N*

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 1 Maximum Credits 1**

*Choose one of the following courses:*

### **THEA 133A Makeup Techniques:**

This character makeup techniques course focuses on makeup vocabulary, materials, tools, and skills suitable for a variety of media. Research, discussion, and demonstration combine with hands-on experience to develop student skills in painting, color mixing, blending, and contouring. Topics of skin care, color theory, lighting concerns, and the development of a makeup kit are covered.

**Repeatable:** *Y*

**Formerly** THEA 133

**Minimum Credits 3 Maximum Credits 3**

### **THEA 133B Makeup Techniques:**

This fashion and beauty makeup techniques course focuses on makeup vocabulary, materials/tools, and skills suitable for incorporation into a wide variety of media types. Research, discussion, demonstrations, and materials acquisition/experimentation combine with hands-on experience to develop the student's painting, color mixing and blending, and contouring skills. Respect for skin care, color theory, lighting concerns, and makeup kits for the makeup artist, performer, and hobbyist alike are covered.

**Repeatable:** *Y*

**Minimum Credits 3 Maximum Credits 3**

### **THEA 135 Introduction to Basic Makeup**

This short course covers a brief introduction to the most common makeup applications known as the "no-makeup look" & "Corrective" techniques. Focus is geared towards skin care & appropriate color choices to match &/or enhance the student's skin tone & appearance. Introductory vocabulary & Designer/Performer communications; materials appreciation & acquisition; & painting/contouring skills will be covered through discussion, demonstrations, & hands-on experience. This course will introduce the performer, budding designer &/or hobbyist alike to feel comfortable utilizing these simplified techniques as needed. For more in-depth makeup techniques/designs, consider one of other course offerings.

**Repeatable:** *N*

**Formerly** 31-1605

**Minimum Credits 1 Maximum Credits 1**

*Choose one of the following courses:*

### **THEA 150 Prod Tech: Crew**

This course requires that students work as backstage crew for Theatre Department productions. Students gain understanding of behind-the-scenes labor that supports on-stage performance. Participants also get the opportunity to observe nuance and change in live performance as it occurs over several performances.

Moderate yet flexible evening and weekend time is required outside of class.

**Repeatable:** N

**Formerly** 31-1500

**Minimum Credits 1 Maximum Credits 1**

### **THEA 151 Prod Tech: Stagecraft for Actors**

This course introduces students, through lecture and demonstration, to the fundamentals of theatrical scenic and costume construction, the technical aspects of stage lighting and sound, and the industry standard vocabulary of technical theatre.

**Repeatable:** N

**Formerly** 31-1505

**Minimum Credits 1 Maximum Credits 1**

### **THEA 228 Design/Tech Practicum**

This course enables students to work on productions within the department under faculty and staff supervision. Students may repeat the course three times. This course allows the student to acquire the practical skills used in the various shops of the Department.

**Repeatable:** Y

**Formerly** 31-2523

**Prerequisites** THEA 163 Introduction to Costume Construction or THEA 161 Introduction to Scenic Construction or THEA 133A Makeup Techniques: or THEA 235 Makeup Design or THEA 164 Introduction to Lighting Technologies

**Minimum Credits 1 Maximum Credits 1**

*Choose one of the following courses:*

### **THEA 168 Playwriting I**

This course is an introduction to the basic techniques of playwriting from concept to completion. Students will learn basic play structuring, character development, conflict heightening, play synopsis, and script formatting while writing scenes, ten-minute plays, and one-act plays which are all read aloud as table-readings in class.

**Repeatable:** N

**Formerly** 31-2800

**Minimum Credits 3 Maximum Credits 3**

### **THEA 266 Directing I**

This course focuses on process through which one approaches a play from a directorial point of view. Students read and discuss five plays and direct scenes from two or three of them. Students create prompt books for their scenes.

**Repeatable:** N

**Formerly** 31-2700

**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making and ENGL 112 Writing and Rhetoric II or THEA 111 Theatre Foundation I: Theatre Making and ENGL 112H Writing and Rhetoric II: Honors or ENGL

122 International Writing and Rhetoric II and THEA 111 Theatre Foundation I: Theatre Making  
**Requirements** Sophomore Standing or Above (SO)  
**Minimum Credits 3 Maximum Credits 3**

*Complete 1 credit from the following courses:*

### **THEA 285 Creating a Performance**

This course is required for all students that are chosen to rehearse, design and perform a main stage production of the Theatre department. The ensemble will include design, production, and acting members. Each will work as a specialist within their area of concentration, but also as an ensemble member who will seek and give input outside the area of their growing expertise. Students will use collaborative models appropriate to the involvement required at different stages of creative and practical performance development.

**Repeatable:** Y

**Formerly** 31-2960

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

### **THEA 286 Production and Performance**

Creative participation as a performer, designer, technician or crew member in Student Directing Projects, New Stew Showcases, Comedy or Faculty Workshop, or other department performances.

**Repeatable:** Y

**Formerly** 31-2301

**Requirements** Permission Required (DP)

**Minimum Credits 0 Maximum Credits 2**

*Choose two of the following courses:*

### **THEA 301 Advanced Acting: Heightened Languages**

Students will develop performance and analytical skills demanded by texts with heightened language. Emphasis will be placed on how heightened language supports acting choices, and on physical engagement with the text through breath, resonance and the tactile feel of language. Students will research and perform texts from a wide spectrum of cultural, economic and social diversity. This is an advanced acting class that synthesizes learning from previous classes in text analysis, theater history, scene study and vocal and physical training.

**Repeatable:** N

**Formerly** 31-3204

**Prerequisites** THEA 250 Character & Ensemble and THEA 143 Musical Theatre Dance I or THEA 204 Movement for the Actor and THEA 250 Character & Ensemble

**Minimum Credits 3 Maximum Credits 3**

### **THEA 302 Advanced Acting: Physical Approaches**

Students will develop performance and devising skills that are based in the physicality of the actor. Emphasis will be on different physical approaches that investigate impulse, energy, 'spine' and the kinesthetic relationship between performers. Students will research and explore performance representing a

wide spectrum of cultural, economic and social diversity. This is an advanced acting class that synthesizes learning from previous classes in text analysis, theater history, scene study and vocal and physical training.

**Repeatable:** *N*

**Formerly** 31-3200

**Prerequisites** THEA 250 Character & Ensemble and THEA 143 Musical Theatre Dance I or THEA 250 Character & Ensemble and THEA 204 Movement for the Actor

**Minimum Credits 3 Maximum Credits 3**

### **THEA 304 Advanced Acting: On-Camera Performance**

Students develop the skills, terminology and etiquette for performance in the on-camera environment. This combined class works with television and/or film directors to collaborate in rehearsal, performance, capture and post-production processes. Students learn how to prepare for auditions and on-camera performances by taking an active role shaping their own performances in relation to text, character, presentation and performance context. Students also consider how to be compositional 'within the frame', how to maintain continuity, and how to make discoveries from take to take.

**Repeatable:** *N*

**Prerequisites** THEA 250 Character & Ensemble

**Minimum Credits 3 Maximum Credits 3**

### **THEA 305 Advanced Acting: Realism**

Students will develop their performance skills and experience with the stylistic concepts of realism and naturalism. Emphasis is placed on the work the performer must do to activate the text and explore relationships between characters. The audience/performance relationship associated with realism will be considered. Students will research and perform texts from a wide spectrum of cultural, economic and social perspectives. This is an advanced acting class that combines learning from previous classes in text analysis, theater history, scene study and vocal and physical training.

**Repeatable:** *N*

**Prerequisites** THEA 250 Character & Ensemble and THEA 204 Movement for the Actor or THEA 250 Character & Ensemble and THEA 143 Musical Theatre Dance I

**Minimum Credits 3 Maximum Credits 3**

### **THEA 306 Advanced Acting: Presentational Theatre**

Students will develop their skills and experience with performance styles from a range of theatrical periods and playwrights focusing on absurd, expressionistic, political, surrealistic and current dramatic styles in which the performer acknowledges the act of performance. The audience/performance relationship will be widely explored. Students will research and perform texts from a wide spectrum of cultural, economic and social perspectives. This is an advanced acting class that combines learning from previous classes in text analysis, theater history, scene study and vocal and physical training.

**Repeatable:** *N*

**Formerly** 31-3228

**Prerequisites** THEA 250 Character & Ensemble and THEA 204 Movement for the Actor or THEA 250 Character & Ensemble and THEA 143 Musical Theatre Dance I

**Minimum Credits 3 Maximum Credits 3**

### **THEA 307 Advanced Acting: Comedic Performance**

Students will develop their performance skills and experience with a variety of comedic materials from a range of theatrical periods and playwrights. Emphasis will be placed on the creative exploration of comedy through language, physicality and relationship. Cultural considerations about comedy will be investigated. Students will research and perform texts from a wide spectrum of cultural, economic and social perspectives. This is an advanced acting class that synthesizes learning from previous classes in text analysis, theater history, scene study and vocal and physical training.

**Repeatable:** *N*

**Prerequisites** THEA 250 Character & Ensemble and THEA 204 Movement for the Actor or THEA 250 Character & Ensemble and THEA 143 Musical Theatre Dance I

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

### **THEA 389 An Actor's Guide to Hollywood**

This course is designed to give students a practical and applicable experience toward pursuing a career as a film or television actor in Los Angeles. It is a highly competitive business, and the actor who is prepared to face these challenges has a much better chance of succeeding. Meeting in Los Angeles, this course will provide an intensive, hands-on experience, meeting with some of the best LA has to offer. Classes will consist of lectures, demonstrations, off-campus field trips, Q&A sessions, and performance.

**Repeatable:** *N*

**Formerly** 31-3975L

**Requirements** Permission Required (DP)

**Minimum Credits 2 Maximum Credits 2**

### **THEA 420 Professional Survival and How to Audition**

Course examines techniques of self-promotion; knowledge of talent agencies and casting directors; unions, contracts, and bookkeeping for performers; and opportunities in the local market. Students work on monologues and cold readings for auditions. Course assists acting students making the transition from college to career by providing professional survival information, tools, and techniques. Students with an Acting concentration are required to take this course during their senior year.

**Repeatable:** *N*

**Formerly** 31-3900

**Prerequisites** THEA 250 Character & Ensemble or THEA 340 Scenes and Songs

**Minimum Credits 3 Maximum Credits 3**

### **THEA 485 Audition Workshop**

This course is an intensive workshop and feedback session to support the BA Acting candidates' entry into the profession. The content of individual sessions will target and assess the actor's present audition skills in a variety of performance styles: improvisation, physical theatre, musical theatre, cold readings, monologues, on-camera technique, etc. Department faculty will partner with professionals from the theatre community to participate in these sessions and guide the performers to hone their skills for auditioning professionally.

**Repeatable:** *N*

**Formerly** 31-3925

**Prerequisites** THEA 302 Advanced Acting: Physical Approaches or THEA 301 Advanced Acting: Heightened Languages

**Minimum Credits 1 Maximum Credits 1**

# Comedy Writing and Performance, BA

The Bachelor of Arts in Comedy Writing and Performance program is a collaborative partnership between the departments of Theatre, Cinema and Television Arts, and The Second City. It builds on the Theatre Department's long and successful tradition of teaching Improvisation and Sketch Comedy as part of its Acting sequence, and its successful nine-year partnership with The Second City in creating a semester-long immersion in the study and performance of comedy.

As a result of successfully completing program requirements, students should be able to:

- collaborate creatively within a broadly diverse ensemble of writer/performers;
- generate original comedic material using a variety of methods;
- conduct and apply research into historic comic styles and archetypes;
- produce comic material across a variety of media and for diverse audiences;
- revise work based on analysis of comic texts and collaborative feedback;
- execute clear, thoughtful, and effective comic choices in performance;
- identify and use voice/persona in comic writing and performance; and
- use professional and ethical practices in the pursuit of a career in comedy.

The skills required to pursue a career in comedy, while intersecting with those of the traditional theatre, also diverge from them in a number of important ways. The comedy marketplace today spans a wide spectrum of media from stage to television to film to internet-based content, within which the traditional roles of producer, director, writer, and performer are fluid. The BA in Comedy Writing and Performance seeks to provide the cross-training necessary for our graduates to successfully navigate this fluidity as they move forward in their careers. And while the program will seek to train professional comedians, the skills built during this training - collaboration, creative risk taking, understanding of personal voice and persona - are applicable to a multitude of careers and disciplines outside of the entertainment industry proper.

## PROGRAM REQUIREMENTS - 46 credits required

### **TELE 251 Video for Comedians and Performers**

This course is designed as an introductory course in the creative, aesthetic and deeply personal nature of performance. Students will learn simple technical skills necessary to produce performance & video art. Students will plan, produce, and perform their personal bodies of art in a physical and digital manner. Students will work solo or collaboratively on performance and video as an art form and document their projects. Students will be encouraged and assisted in expressing their artistic voice and exploring storytelling using new methods of performance, studio art, music, theater, dance and other art mediums. Students will be expected to perform live in class, both their own and others' material, in a nontraditional, newly creative manner. The uses of research, academic writing and both theoretical and personal discussion will be employed to create and produce the student's body of work. This course will use critical verbal critique to discuss the student's artwork.

**Repeatable:** *N*

**Formerly** 40-2501

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits** 3 **Maximum Credits** 3

### **THEA 120 Comedy Foundations I: Ensemble and Discovery**

Students investigate the elements and principles of process that can be applied to all aspects of comedy creation. Students will improvise, write and perform jokes and sketches for both video and live performance. Readings, ensemble-work, exercises, and attendance at Columbia College Chicago productions deepen understanding and appreciation of the scope of contemporary comedy practices.

**Repeatable:** *N*

**Formerly** 31-1253

**Concurrent Requisite** THEA 124 Comedy Survey I

**Minimum Credits 4 Maximum Credits 4**

## **THEA 121 Comedy Foundations II: Point of View and Performance**

Students explore and hone their performance skills, personal point of view, persona, and character work. Students apply these skills to a variety of performance modes that include improvisation, text and scenic work, clown, commedia, and partner/solo performance.

**Repeatable:** *N*

**Formerly** 31-1254

**Concurrent Requisite** THEA 125 Comedy Survey II

**Minimum Credits 4 Maximum Credits 4**

## **THEA 124 Comedy Survey I**

This course invites incoming students into their role as Comedy Writing and Performance Majors at Columbia College, and creative practitioners in the realm of comedy. Students will investigate the question of "what makes us laugh and why" through a series of readings, screenings, lectures, exercises, and discussions. Students will be introduced to core ideas, conventions of comedy across media, and Chicago area industry professionals who practice comedy in a variety of formats.

**Repeatable:** *N*

**Formerly** 31-1263

**Minimum Credits 2 Maximum Credits 2**

## **THEA 125 Comedy Survey II**

This course builds on Comedy Survey I. While Comedy Survey I explores the first three elements of comedy (Jokes, Physical Comedy and Narrative), Comedy II explores the final two elements--Point of View and Character. Students will investigate the question "Who is being laughed at, and why?" through a series of readings, screenings, lectures, and discussions. Students will investigate concepts of Parody, Satire, Taboo, Risk, Archetype and Stereotype.

**Repeatable:** *N*

**Formerly** 31-1264

**Prerequisites** THEA 124 Comedy Survey I

**Minimum Credits 2 Maximum Credits 2**

## **THEA 207 Scenes: Performance & Analysis**

Students take an active and creative role in analyzing and rehearsing scenes for performance. Students are encouraged to make choices that explore the text in the current cultural moment, but also to analyze the given circumstances embedded in the text. The integration of physical and vocal technique into performance continues from previous course work. Students will present scenes for live and on-camera performance.

**Repeatable:** *N*

**Formerly** 31-2200

**Prerequisites** THEA 112 Theatre Foundation II: Performance or THEA 125 Comedy Survey II or THEA 103 Voice for Non-Theatre Majors and THEA 102 Scene Study for Non-Theatre Majors

**Minimum Credits 3 Maximum Credits 3**

## **THEA 210 Improvisation in Performance**

This course builds on techniques and principles covered in Improvisation Essentials or Comedy Foundations. Through readings, viewings, and active work, students will understand and develop the skills needed for improvisation in performance including established and ensemble created games, scenes, and long form structures. Students will participate in two performances with their class.

**Repeatable:** *N*

**Formerly** 31-2210

**Prerequisites** THEA 110 Improvisation Essentials or THEA 121 Comedy Foundations II: Point of View and Performance

**Minimum Credits 3 Maximum Credits 3**

## **THEA 221 Comedy: Theory**

This course builds on concepts and questions introduced in Comedy Survey II about the nature and ethics of comedy. Students will examine traditional theories of comedy and humor and analyze comedic texts and performances in a variety of media. Students will look at how comedy reflects the concerns of society. They will discuss their own responses to current events and issues as preparation to creating satiric work.

**Repeatable:** *N*

**Formerly** 31-2101

**Prerequisites** THEA 112 Theatre Foundation II: Performance or THEA 125 Comedy Survey II

**Minimum Credits 3 Maximum Credits 3**

## **THEA 223 Writing and Performing Comedy**

This course is an active exploration of a variety of approaches to creating and performing comedic and satirical work. Students will create and perform original work in a variety of mediums and examine how the context in which comedic work is presented affects its content. Throughout the term projects require a combination of research, written work, and oral presentations, as well as creative writing and performance work.

**Repeatable:** *N*

**Formerly** 31-2102

**Prerequisites** THEA 121 Comedy Foundations II: Point of View and Performance or THEA 112 Theatre Foundation II: Performance and THEA 110 Improvisation Essentials

**Minimum Credits 3 Maximum Credits 3**

## **THEA 390 Theatre Career**

This course will provide upper level Theatre majors with practical knowledge they will need to transition into careers in their field. Taught by our faculty of theatre professionals, this course explores: unions and contracts as they relate to theatre artists; models of producing: from the storefront theatre to LORT; creating a new theatre company; and self-promotion.

**Minimum Credits 3 Maximum Credits 3**

## **THEA 344 Acting Sketch and Theatrical Comedy**

This course is a monologue and scene study course that focuses on the techniques specific to acting comic texts - sketch, revue, and modern American theatrical comedy. Students will analyze and rehearse monologues and scenes from contemporary sketch and modern and classic theatrical comedy. This course is part of a set of connected courses that comprise the Comedy Studies semester that takes place at The Second City and there is a midterm performance of Second City archival scenes.

**Repeatable:** *N*

## **Musical Theatre, BA**

The BA in Musical Theatre offers training in acting, dance techniques and styles, voice and musicianship, character and ensemble, voice and movement, and theatre history. Our approach emphasizes the synthesis of acting, singing, and dancing in musical theatre performance. Students are encouraged to put into practice what they learn in the classroom through hands-on engagement in the preparation and presentation of performances produced in the department.

Students are encouraged to audition for musical theatre productions and non-musical plays. In the classroom, students work with a faculty of professionals in the field, who bring their expertise to the art, craft, and business of theatre. In addition, the program encourages students to take elective courses in related areas, such as directing, stage management, design, marketing and management, on-camera acting, and voiceover performance. This pragmatic approach prepares students to face the challenging realities of making a life in the performing arts.

As a result of successfully completing program requirements, students should be able to:

- inhabit a role as cast, demonstrating the ability to use research, text and score analysis, rehearsal, and exploration;
- exhibit foundational vocal technique, musicianship, and song interpretation skills;
- articulate fundamental dance terminology and demonstrate technique in ballet, jazz, tap, and musical theatre styles as an additional means of furthering the dramatic life of a scene;
- communicate a thorough knowledge of musical theatre repertory and history;
- effectively utilize the body and voice as the actor's instruments of communication; and
- model a broad understanding of musical theatre performance as theatrical art and craft and how it intersects with other theatrical disciplines.

## PROGRAM REQUIREMENTS - 47 credits required

### **MUSC 104 Theory II for Musical Theatre**

Theory II for Musical Theatre is a fundamental course tailored to musical theatre students in the Musical Theatre BA and Musical Theatre Performance BFA, as well as other programs. The course concentrates on the core theoretical concepts utilized in music and provides basic aural skills training incorporating genre appropriate music. The course combines study of the concepts of notation, rhythm, tonality, and harmony in the context of reading and aural perception of music through performance and dictation of melodies, intervals, triads, major and minor scales, chord progressions, and basic chord structures. Students learn the written musical theory for concepts addressed in the course and have the ability to demonstrate and apply them through dictation and performance.

**Repeatable:** *N*

**Formerly** 32-1170

**Prerequisites** MUSC 103 Theory I for Musical Theatre or MUSC-T-77 EXAM-MUSC MINIMUM SCORE = 77

Music Theatre Majors Only (2MUS)

**Minimum Credits 3 Maximum Credits 3**

### **MUSC 107 Fundamentals of Musical Theatre Singing**

This course is a beginning level class in singing for the musical theatre performer. It is designed to familiarize students with fundamental vocal techniques and musical theatre repertoire and to help students become comfortable with solo and ensemble singing onstage.

**Repeatable:** *N*

**Formerly** 32-1540

**Requirements** Permission Required (DP) Musical Theatre Majors Only (2MUS)

**Minimum Credits 3 Maximum Credits 3**

### **THEA 107 Theatre Survey II: American Drama**

The American theatre both reflects and creates American identity. This course will examine plays from the mid-nineteenth century through the present day to investigate the ways that Americans participated in the construction, and deconstruction, of Americans' sense of self. Rather than a complete review of American drama, this course will survey a range of content, form, and styles as they define American drama and American identity.

**Repeatable:** *N*

**Prerequisites** THEA 106 Theatre Survey I: Global Drama or THEA 124 Comedy Survey I or THEA 141 Musical Theatre Foundations

**Minimum Credits 2 Maximum Credits 2**

## **THEA 112 Theatre Foundation II: Performance**

In Theatre Foundation II: Performance students will explore presence, the audience/performer relationship and how to shape time, space and energy in work with scripted and devised material. This course is a continuation of Theatre Foundation I and provides a strong foundation for the performer through an integrated study of movement and voice, ensemble and performance. Students will investigate dramatic story telling by exploring the relationship between text and character and in working on monologues and two person scenes.

**Repeatable:** *N*

**Formerly** 31-1252

**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making or THEA 120 Comedy Foundations I: Ensemble and Discovery or THEA 141 Musical Theatre Foundations

**Concurrent Requisite** THEA 107 Theatre Survey II: American Drama

**Minimum Credits 4 Maximum Credits 4**

## **THEA 140 Musical Theatre History**

Required for Musical Theatre/Musical Theatre Performance majors, also open as elective to students in other majors. Course examines musical theatre history from beginnings through 'The Golden Age' of American song and the American musical to the present. Students study key figures, songs and shows in musical theatre, as well as social and cultural factors that influenced the form. Course develops research and critical thinking skills through reading and discussion of textbook, audio/visual presentations, essays, research projects, and tests.

**Repeatable:** *N*

**Formerly** 31-1400

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

## **THEA 141 Musical Theatre Foundations**

Musical Theatre (MT) Foundations prepares incoming students for their role as creative practitioners of musical theatre. Students investigate the elements and principles of the artistic process that can be applied to all aspects of creating musical theatre. The course develops students' awareness, observation and collaborative skills, and their ability to transpose experiences in the world of the play or musical into written, vocal and physical form. Production numbers that explore style and representative genres will be major projects. Readings, composition work in class, and attendance at productions deepen students' understanding and appreciation of the scope of contemporary musical theatre-making. The course will meet in a five-week sub session.

**Repeatable:** *N*

Musical Theatre Majors Only (3MUS)

**Minimum Credits 1 Maximum Credits 1**

## **THEA 202 Traditions of World Theatre**

This course will survey the dramas, history, and aesthetics of performance traditions from various locations around the world including Africa, Asia, Latin America, and the West (United States and Europe), emphasizing important developments and highlighting pivotal movements and participants within their broader historical, social, and cultural contexts. Through an examination of theatrical forms, expressive styles, and contributions of performance traditions from around the world, students will become acquainted with how theatre reflects and constitutes community and culture.

**Repeatable:** *N*

**Formerly** 31-2103

**HU DEI**

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

## **THEA 205 Text Analysis**

This course introduces students to varying methods and approaches to script analysis. While students will become familiar with traditional methods of analysis, a significant emphasis will be placed on alternative and complementary methods including contemplation and intuitive responses, visualization and imagery, and somatic responses to play scripts. Through course readings, presentations, and group activities, furthermore, this course will familiarize students with vocabulary and strategies of analysis for actors, designers, and playwrights, thereby facilitating communication of production ideas.

**Repeatable:** *N*

**Formerly** 31-2120

**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making and ENGL 112 Writing and Rhetoric II or THEA 111 Theatre Foundation I: Theatre Making and ENGL 112H Writing and Rhetoric II: Honors or THEA 111 Theatre Foundation I: Theatre Making and ENGL 122 International Writing and Rhetoric II or THEA 141 Musical Theatre Foundations and ENGL 112 Writing and Rhetoric II or THEA 141 Musical Theatre Foundations and ENGL 112H Writing and Rhetoric II: Honors or THEA 141 Musical Theatre Foundations and ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

## **THEA 240 Musical Theatre Scene Study**

This course requires the musical theatre student to apply their knowledge of basic scene structure and musicality to material from the musical theatre repertoire. The students study and perform two or three-person scenes from musical theatre works with an eye towards introducing the synthesis of song, vocal technique, text, objectives and tactics to further the dramatic life of the material.

**Repeatable:** *N*

**Formerly** 31-2201

**Prerequisites** MUSC 107 Fundamentals of Musical Theatre Singing and THEA 102 Scene Study for Non-Acting Majors and THEA 143 Musical Theatre Dance I and MUSC 104 Theory II for Musical Theatre and THEA 140 Musical Theatre History or MUSC 107 Fundamentals of Musical Theatre Singing and THEA 112

Theatre Foundation II: Performance and THEA 143 Musical Theatre Dance I and MUSC 104 Theory II for Musical Theatre and THEA 140 Musical Theatre History  
**Minimum Credits 3 Maximum Credits 3**

### **THEA 340 Scenes and Songs**

In this multi-disciplinary course in acting and singing for musical theatre, students prepare and perform material from several genres of the musical theatre canon and apply dramaturgical research and text analysis to characterization. Students work to bring characters to life through complete physical, vocal and emotional transformation. Performance style will be introduced, and strong musicianship and vocal technique will continue to be integrated. Emphasis will be placed on working within a supportive ensemble aesthetic, developing a language of constructive feedback and participating in the growth of classmates' work.

**Repeatable:** *N*

**Formerly** 31-2400

**Prerequisites** THEA 205 Text Analysis and THEA 240 Musical Theatre Scene Study and MUSC 171 Primary Lessons or THEA 205 Text Analysis and THEA 240 Musical Theatre Scene Study and MUSC 271 Primary Lessons

**Minimum Credits 3 Maximum Credits 3**

### **THEA 390 Theatre Career**

This course will provide upper level Theatre majors with practical knowledge they will need to transition into careers in their field. Taught by our faculty of theatre professionals, this course explores: unions and contracts as they relate to theatre artists; models of producing: from the storefront theatre to LORT; creating a new theatre company; and self-promotion.

**Repeatable:** *N*

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 1 Maximum Credits 1**

### **THEA 420 Professional Survival and How to Audition**

Course examines techniques of self-promotion; knowledge of talent agencies and casting directors; unions, contracts, and bookkeeping for performers; and opportunities in the local market. Students work on monologues and cold readings for auditions. Course assists acting students making the transition from college to career by providing professional survival information, tools, and techniques. Students with an Acting concentration are required to take this course during their senior year.

**Repeatable:** *N*

**Formerly** 31-3900

**Prerequisites** THEA 250 Character & Ensemble or THEA 340 Scenes and Songs

**Minimum Credits 3 Maximum Credits 3**

*Complete 4 credits from the following courses:*

### **MUSC 171 Primary Lessons**

This course offers a progressive method through private instruction on a student's primary instrument for which a comparable Techniques Class Instruction is currently unavailable. Students must be registered in at least one other music course concurrently. The course is repeatable, but requires authorization by an

area coordinator for first-time enrollment.

**Repeatable:** Y

**Formerly** 32-1771

**Prerequisites** MPRL-1-100 EXAM-MPRL MINIMUM SCORE = 100

Music Department Students Only (8MUS)

**Minimum Credits 2 Maximum Credits 2**

### **MUSC 271 Primary Lessons**

This course offers private instruction at a developing level in voice or primary instrument for students registered in at least one other music course concurrently. The course is repeatable, but requires authorization by an area coordinator for first-time enrollment.

**Repeatable:** Y

**Formerly** 32-2771

**Prerequisites** MPRL-2-100 EXAM-MPRL MINIMUM SCORE = 100

Music Department Students Only (8MUS)

**Minimum Credits 2 Maximum Credits 2**

*Complete 6 credits from the following courses:*

### **THEA 143 Musical Theatre Dance I**

This course is a practical approach to the basic techniques of musical theatre dance required of musical theatre majors at the beginning level. Each class includes ballet and jazz dance terminology, basic floor combinations, and a variety of musical theatre dance styles. Students are offered a focused approach to develop performance skills and demonstrate improved flexibility, musicality and strength in ballet and jazz techniques. Students are introduced to musical theatre dance combinations and professional musical theatre audition procedures.

**Repeatable:** Y

**Formerly** 31-1430

Musical Theatre Majors Only (3MUS)

**Minimum Credits 2 Maximum Credits 2**

### **THEA 243 Musical Theatre Dance II**

This course expands the technical skills in musical theatre dance styles required of musical theatre majors at the intermediate level. Each class includes ballet and jazz dance terminology, floor combinations, a variety of musical theatre dance styles and mock auditions. Students are challenged with more complicated material, and greater demands are placed on speed of learning and retention of choreography for audition purposes. Significant attention is paid to audition practices and professional discipline.

**Repeatable:** Y

**Formerly** 31-2430

**Prerequisites** THEA 143 Musical Theatre Dance I

**Minimum Credits 2 Maximum Credits 2**

### **THEA 440 Musical Theatre Dance III**

This course incorporates all techniques and performance skills acquired in previous musical theatre dance levels, with an emphasis on the elements of style in musical theatre dance. Students frequently learn original Broadway choreography. Attention focuses on developing advanced audition and performance skills in preparation for seeking employment in the musical theatre industry. Significant attention is placed on audition practices and professional discipline. Students are required to audition for Columbia College Theatre Department as well as professional theatre productions.

**Repeatable:** Y

**Formerly** 31-3430

**Prerequisites** THEA 243 Musical Theatre Dance II

**Minimum Credits 2 Maximum Credits 2**

*Choose one of the following courses:*

### **THEA 145 Beginning Musical Theatre Tap**

This course develops dance technique and repertoire within the specialized styles of musical theatre tap and is required of musical theatre majors at the beginning level. Each class includes tap terminology, rhythm progressions, and Broadway-style tap combinations. Students are offered a focused approach to develop performance skills and demonstrate improved flexibility, strength, and the ability to execute basic rhythm sequences. Students are introduced to tap dance combinations and professional musical theatre audition procedures.

**Repeatable:** Y

**Formerly** 31-1431

**Prerequisites** THEA 143 Musical Theatre Dance I

**Minimum Credits 2 Maximum Credits 2**

### **THEA 245 Intermediate Musical Theatre Tap**

This course develops technique, performance, and repertoire within the specialized styles of musical theatre tap required of musical theatre majors at the intermediate level. Each class includes tap terminology, rhythm progressions, Broadway-style tap combinations, and mock auditions. Emphasis will be placed on speed of learning and retention of choreography for audition purposes. Significant attention is paid to audition practices and professional discipline.

**Repeatable:** Y

**Formerly** 31-2431

**Prerequisites** THEA 145 Beginning Musical Theatre Tap

**Minimum Credits 2 Maximum Credits 2**

*Choose one of the following courses:*

### **THEA 168 Playwriting I**

This course is an introduction to the basic techniques of playwriting from concept to completion. Students will learn basic play structuring, character development, conflict heightening, play synopsis, and script formatting while writing scenes, ten-minute plays, and one-act plays which are all read aloud as table-readings in class.

**Repeatable:** N

**Formerly** 31-2800

**Minimum Credits 3 Maximum Credits 3**

## THEA 266 Directing I

This course focuses on process through which one approaches a play from a directorial point of view. Students read and discuss five plays and direct scenes from two or three of them. Students create prompt books for their scenes.

**Repeatable:** N

**Formerly** 31-2700

**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making and ENGL 112 Writing and Rhetoric II or THEA 111 Theatre Foundation I: Theatre Making and ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II and THEA 111 Theatre Foundation I: Theatre Making

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

## THEA 285 Creating a Performance

This course is required for all students that are chosen to rehearse, design and perform a main stage production of the Theatre department. The ensemble will include design, production, and acting members. Each will work as a specialist within their area of concentration, but also as an ensemble member who will seek and give input outside the area of their growing expertise. Students will use collaborative models appropriate to the involvement required at different stages of creative and practical performance development.

**Repeatable:** Y

**Formerly** 31-2960

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

## THEA 286 Production and Performance

Creative participation as a performer, designer, technician or crew member in Student Directing Projects, New Stew Showcases, Comedy or Faculty Workshop, or other department performances.

**Repeatable:** Y

**Formerly** 31-2301

**Requirements** Permission Required (DP)

**Minimum Credits 0 Maximum Credits 2**

## Theatre Design and Technology, BA

The Bachelor of Arts in Theatre Design and Technology emphasizes design as a collaborative process that requires close cooperation among each designer, the director, the technical team, and the performers.

As a result of successfully completing program requirements, students should be able to:

- demonstrate a working understanding that design is a collaborative process that requires close cooperation between the designers, the director, technical team, and performers on a theatrical production;
- demonstrate familiarity with multiple design disciplines (costume, lighting, sound, or scenic design) though students may focus their work in one area;

- demonstrate a fluent knowledge of technical theatre and theatrical drawing, including rendering and drafting;
- articulate knowledge of art and theatre history and dramatic theory; and
- have experienced a range of production responsibilities provided to the theatrical design students by the ample opportunities to work on departmental productions.

Students may focus their work in the area of costumes, lighting, sound, or scenic design, but they must gain familiarity with all design disciplines. Classes are also required in the areas of makeup, technical theatre, rendering and drawing, art and theatre history, and beginning acting. There are ample opportunities for students to work on departmental productions, from the bare-bones workshop level to fully budgeted main stage shows. In addition, assistant design and internship opportunities are available to work on productions in the larger Chicago theatre community. These opportunities often become available through the influence of our faculty of working professionals. Upon graduation, students with a B.A. in Theatre Design and Technology will have developed a strong portfolio of work that can be used to seek admission to graduate school or to look for work in professional theatre.

## PROGRAM REQUIREMENTS - 48 credits required

### **THEA 106 Theatre Survey I: Global Drama**

This course is designed to introduce students to dramas - across history and cultures - that have influenced major trends in theatre. In doing so, students will engage a range of dramatic texts from classical and contemporary dramas to adaptations and revisions of canonical works. Students will study and discuss a sampling of plays that exemplify an array of genres and forms resulting in the student's ability to make connections between a text's form and its context.

**Repeatable:** *N*

**Minimum Credits 2 Maximum Credits 2**

### **THEA 111 Theatre Foundation I: Theatre Making**

Theatre Foundation I: Theatre Making invites incoming students into their role as creative practitioners. Students investigate the elements and principles of artistic process that can be applied to all aspects of theatre making. The course develops students' awareness, observation and collaborative skills, and their ability to transpose experiences in the world into visual, written, vocal and physical form. Readings, composition work in class and attendance at Columbia College Chicago productions and in the city of Chicago deepens students' understanding and appreciation of the scope of contemporary theatre making practices.

**Repeatable:** *N*

**Formerly** 31-1251

**Concurrent Requisite** THEA 106 Theatre Survey I: Global Drama

**Minimum Credits 4 Maximum Credits 4**

### **THEA 152 Aesthetics for Theatre Makers**

Both written and devised theatre works invite the artist to create a world that is unique to the needs of each production. In this course, students will explore the development of a vision and intention for theatrical works. Exploring their own world view, as well as that of their classmates, students will investigate these perspectives for implicit bias and translate their point of view into aesthetic and theatrical works. Working in teams of makers-writers, directors, designers, managers, and technicians, students will collaborate as equals in the creation of a physical world.

**Repeatable:** *N*

**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making or THEA 120 Comedy Foundations I: Ensemble and Discovery or THEA 141 Musical Theatre Foundations

**Minimum Credits 3 Maximum Credits 3**

## **THEA 157 Rendering for Theatre I**

This course introduces the student to figure drawing, color, light and shadow, and a variety of rendering materials and techniques. Through demonstration, work in class, and assignments designed to hone skills, students focus on the rendering of costumes, stage lighting, and sets.

**Repeatable:** *N*

**Formerly** 31-1515

**Minimum Credits 3 Maximum Credits 3**

## **THEA 159 Drafting for Theatre**

This course introduces mechanical drawing techniques for the performing arts. Students learn to create clear, accurate drawings to be used for the design and construction of scenery, and the preparation and implementation of a lighting design.

**Repeatable:** *N*

**Formerly** 31-1510

**Minimum Credits 3 Maximum Credits 3**

## **THEA 202 Traditions of World Theatre**

This course will survey the dramas, history, and aesthetics of performance traditions from various locations around the world including Africa, Asia, Latin America, and the West (United States and Europe), emphasizing important developments and highlighting pivotal movements and participants within their broader historical, social, and cultural contexts. Through an examination of theatrical forms, expressive styles, and contributions of performance traditions from around the world, students will become acquainted with how theatre reflects and constitutes community and culture.

**Repeatable:** *N*

**Formerly** 31-2103

**HU DEI**

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

## **THEA 205 Text Analysis**

This course introduces students to varying methods and approaches to script analysis. While students will become familiar with traditional methods of analysis, a significant emphasis will be placed on alternative and complementary methods including contemplation and intuitive responses, visualization and imagery, and somatic responses to play scripts. Through course readings, presentations, and group activities, furthermore, this course will familiarize students with vocabulary and strategies of analysis for actors, designers, and playwrights, thereby facilitating communication of production ideas.

**Repeatable:** *N*

**Formerly** 31-2120

**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making and ENGL 112 Writing and Rhetoric II or THEA 111 Theatre Foundation I: Theatre Making and ENGL 112H Writing and Rhetoric II: Honors or THEA 111 Theatre Foundation I: Theatre Making and ENGL 122 International Writing and Rhetoric II or THEA 141 Musical Theatre Foundations and ENGL 112 Writing and Rhetoric II or THEA 141 Musical Theatre Foundations and ENGL 112H Writing and Rhetoric II: Honors or THEA 141 Musical Theatre Foundations and ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

## **THEA 227 Vectorworks for the Performing Arts**

This course provides students with a thorough introduction into computer-aided design with a focus on theatrical uses of Vectorworks. By using hands-on exercises, assignments, and projects, students will gain the capacity to create and distribute industry standard (USITT) theatrical drawings and light plots. The student will learn basic digital drawing techniques for completing theatrical drawings and light plots. The course will cover page layout and printing techniques. This course is recommended for lighting designers. Student access to the computer lab is available to complete assignments outside of class.

**Repeatable:** N

**Formerly** 31-2522

**Prerequisites** THEA 159 Drafting for Theatre

**Minimum Credits 3 Maximum Credits 3**

## **THEA 228 Design/Tech Practicum**

This course enables students to work on productions within the department under faculty and staff supervision. Students may repeat the course three times. This course allows the student to acquire the practical skills used in the various shops of the Department.

**Repeatable:** Y

**Formerly** 31-2523

**Prerequisites** THEA 163 Introduction to Costume Construction or THEA 161 Introduction to Scenic Construction or THEA 133A Makeup Techniques: or THEA 235 Makeup Design or THEA 164 Introduction to Lighting Technologies

**Minimum Credits 1 Maximum Credits 1**

## **THEA 285 Creating a Performance**

This course is required for all students that are chosen to rehearse, design and perform a main stage production of the Theatre department. The ensemble will include design, production, and acting members. Each will work as a specialist within their area of concentration, but also as an ensemble member who will seek and give input outside the area of their growing expertise. Students will use collaborative models appropriate to the involvement required at different stages of creative and practical performance development.

**Repeatable:** Y

**Formerly** 31-2960

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

## **THEA 346 Period Styles for Theatrical Design**

This course will familiarize students of theatrical design and directing with the prevalent visual movements in the history of art, architecture, fashion and decorative arts. It will integrate these diverse elements to create a knowledge of the cultural life of each period discussed. Pre-historic through modern periods will be covered. Lecture, research, and field trips utilizing Chicago's architecture and cultural institutions will aid students in the development of their visual vocabulary.

**Repeatable:** *N*

**Formerly** 31-3160

**Prerequisites** THEA 201 Theatre History & Inquiry or THEA 202 Traditions of World Theatre

**Minimum Credits 3 Maximum Credits 3**

## **THEA 390 Theatre Career**

This course will provide upper level Theatre majors with practical knowledge they will need to transition into careers in their field. Taught by our faculty of theatre professionals, this course explores: unions and contracts as they relate to theatre artists; models of producing: from the storefront theatre to LORT; creating a new theatre company; and self-promotion.

**Repeatable:** *N*

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 1 Maximum Credits 1**

## **THEA 425 Creating a Career in Technology and Design**

This course is designed for graduating technology and design students to prepare them to find and secure employment in the theatre and related industries. Through class work, guest speakers, and site visits, the course offers a thorough introduction to various aspects of life as a working professional. Students will prepare a portfolio and resume, and hone interview skills in preparation to pursue entry-level jobs in the entertainment industry.

**Repeatable:** *N*

**Formerly** 31-3905

**Requirements** Senior Standing (SR)

**Minimum Credits 2 Maximum Credits 2**

*Choose one of the following courses:*

## **AUDI 102 Introduction to Audio**

This course provides an overview of the world of sound and audio in its various manifestations, including music, communications, sound in linear and non-linear media, sound art, and sonification. It introduces students to basic concepts and terminology related to sound, audio, and audio equipment and systems, but it is not a theory course. Rather, the course examines aspects of our sonic world through the lenses of audio production, live sound reinforcement, and acoustics, constructing a survey of practices and trends, practitioners, and examples; of history, context, and politics; and of art and aesthetics. Along the way it challenges students to examine and open themselves to difference ways of listening. This course is open to all majors.

**Repeatable:** *N*

**Formerly** 43-1111

**Minimum Credits 3 Maximum Credits 3**

### **THEA 133A Makeup Techniques:**

This character makeup techniques course focuses on makeup vocabulary, materials, tools, and skills suitable for a variety of media. Research, discussion, and demonstration combine with hands-on experience to develop student skills in painting, color mixing, blending, and contouring. Topics of skin care, color theory, lighting concerns, and the development of a makeup kit are covered.

**Repeatable:** Y

**Formerly** THEA 133

**Minimum Credits 3 Maximum Credits 3**

### **THEA 133B Makeup Techniques:**

This fashion and beauty makeup techniques course focuses on makeup vocabulary, materials/tools, and skills suitable for incorporation into a wide variety of media types. Research, discussion, demonstrations, and materials acquisition/experimentation combine with hands-on experience to develop the student's painting, color mixing and blending, and contouring skills. Respect for skin care, color theory, lighting concerns, and makeup kits for the makeup artist, performer, and hobbyist alike are covered.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

### **THEA 161 Introduction to Scenic Construction**

This course is a basic introduction to the construction of an interior architectural set. The class will focus on building basic set elements from raw material, and the assembling of these elements to form a theatrical set. Health and safety in the workplace will comprise a substantial section of the course. During the semester, students will experience the reading and interpretation of ground plans and drawings, the safe use of basic shop and power tools, and strategies for analyzing the construction of sets both on campus and in the professional world.

**Repeatable:** N

**Formerly** 31-1530

**Minimum Credits 3 Maximum Credits 3**

### **THEA 163 Introduction to Costume Construction**

This course provides an introduction to Costume Shop techniques and procedures. Through demonstrations and assigned projects, students learn basic machine and hand-sewing techniques, pattern development, and all aspects of costume construction from the interpretation of a rendering to a finished costume. Content provides an overview of related subjects such as millinery, costume props, and formal wear.

**Repeatable:** N

**Formerly** 31-1525

**Minimum Credits 3 Maximum Credits 3**

### **THEA 164 Introduction to Lighting Technologies**

This basic skills course addresses primary information in the art of stage lighting. Instruction includes purposes, allied techniques, equipment terminology, use of color, and fundamental drafting.

**Repeatable:** *N*  
**Formerly** 31-1520  
**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

### **THEA 233 Sound Design**

This introductory course provides an overview of concepts, processes, and tools in sound design for contemporary theatre. The course will cover the history of sound design, design conceptualization, storytelling, relationships to text and action, collaboration and production protocols, and introduce theatrical audio production tools and processes. Course activities will mix lecture and demonstration with practical and creative projects. Students will learn and practice design-driven operations with audio production and playback software. By the end of the course, students should be able to design, construct, and deliver simple playback-based sound designs, with an emphasis on creating work that is driven by the storytelling needs of the text and production.

**Repeatable:** *N*  
**Formerly** 31-2612  
**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making or AUDI 102 Introduction to Audio  
**Minimum Credits 3 Maximum Credits 3**

### **THEA 235 Makeup Design**

This course develops a student's skills in makeup through critical analysis, collaboration, discussion, and practice. Students gain an understanding of the practical aspects of pre-production, production, and post-production design phases for a variety of media. Hands-on experiences include collaborations with Cinema and Television Arts' FreqOut and additional scripts/projects. Students will develop research, design, presentation, and management skills as a means to enhance their individual artistic voice. No previous experience in Makeup is required.

**Repeatable:** *N*  
**Formerly** 31-2680  
**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making or THEA 133A Makeup Techniques: or THEA 133B Makeup Techniques: or THEA 135 Introduction to Basic Makeup or CINE 113 Cinema Makeup and Makeup Special Effects  
**Minimum Credits 3 Maximum Credits 3**

### **THEA 260 Set Design**

This course introduces the student to the art of Set Design. Focusing on the synthesis of text and space, students will learn to understand spatial relationships in the theatre, actor to actor, and audience to actor. They will learn to manipulate the emotional and visual space of the theatre. The students will be introduced to the process of designing scenery for the stage.

**Repeatable:** *N*  
**Formerly** 31-2610  
**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making  
**Minimum Credits 3 Maximum Credits 3**

### **THEA 262 Costume Design**

This course will introduce students to the art and business of Costume Design for theatre and film. Projects will focus on character development from text, costume research, the creation of color palettes, the use of fabric, and organizational paperwork. The development and presentation of costume design for entire productions will be explored.

**Repeatable:** N

**Formerly** 31-2615

**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making or FASH 285 Fashion Styling I

**Minimum Credits 3 Maximum Credits 3**

## **THEA 265 Lighting Design**

This course will introduce students to the artistic side of creating a live entertainment lighting design, focusing on its application in the theatre. Students will explore the use of light as a tool to create space, emphasis, and rhythm in performance. The focus will be on honing the ability to see and experience light and then use it to create design, including conceiving the design idea and communicating it to others. Students will explore theatrical texts and how to connect the text to the design idea.

**Repeatable:** N

**Formerly** 31-2620

**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

## **THEA 335 Makeup Prosthetics/FX Design**

This repeatable course expands and builds upon previous Makeup, Prosthetics, and FX courses, teaching Theatre, Film, TV, and Avant Garde techniques for the creation, application and removal of prosthetics. Instruction covers the vocabulary, skills, techniques, and safety protocols required for the use of a variety of materials including Latex, Foam, and Silicone. Research, design, casting, sculpting, molding, and painting of prosthetics are incorporated into full makeup projects, both individual and collaborative. Makeup will be self-applied or applied to peers or models.

**Repeatable:** Y

**Formerly** 31-3605

**Prerequisites** THEA 133A Makeup Techniques: or THEA 235 Makeup Design or CINE 113 Cinema Makeup and Makeup Special Effects

**Minimum Credits 3 Maximum Credits 3**

## **THEA 360 Advanced Set Design**

This course is an advanced examination of set construction, emphasizing the procedures for constructing large, intricate theatrical sets. Students will learn to use advanced shop tools and materials to construct scenic elements such as step units and irregular flats. The assembly of complex sets will be covered, both in terms of structure and set dressing. Students will be introduced to the terminology of theatrical architecture and mechanics.

**Repeatable:** Y

**Formerly** 31-3610

**Prerequisites** THEA 159 Drafting for Theatre and THEA 260 Set Design and THEA 157 Rendering for Theatre I and THEA 161 Introduction to Scenic Construction

**Minimum Credits 3 Maximum Credits 3**

## **THEA 365 Advanced Lighting Design**

This course explores the synthesis of Lighting Design and Lighting Technologies, exploring how to use the specialized equipment to create the lighting idea. The focus is on creation of light plots and paperwork and will expand the theoretical design idea into a production based plan. Each student will design a project in the Theatre department as part of this class.

**Repeatable:** Y

**Formerly** 31-3620

**Prerequisites** THEA 265 Lighting Design and THEA 164 Introduction to Lighting Technologies and THEA 227 Vectorworks for the Performing Arts

**Minimum Credits 3 Maximum Credits 3**

## **THEA 399A Topics in Theatre Technology:**

This course focuses on specific topics, skills, ideas, or management issues in the field of technical theatre or design. Each semester this course covers different material that might not be included in the permanent course offerings or concentrates on new or experimental approaches to issues in technical theatre. When possible, topics chosen will pertain to productions within the department.

**Repeatable:** Y

**Formerly** THEA 399

**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making

**Minimum Credits 3 Maximum Credits 3**

## **THEA 399B Topics in Theatre Technology:**

This course focuses on specific topics, skills, ideas, or management issues in the field of technical theatre or design. Each semester this course covers different material that might not be included in the permanent course offerings or concentrates on new or experimental approaches to issues in technical theatre. When possible, topics chosen will pertain to productions within the department.

**Repeatable:** Y

**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making

**Minimum Credits 3 Maximum Credits 3**

## **Design and Technology Elective**

*Choose one of the following courses:*

### **AUDI 102 Introduction to Audio**

This course provides an overview of the world of sound and audio in its various manifestations, including music, communications, sound in linear and non-linear media, sound art, and sonification. It introduces students to basic concepts and terminology related to sound, audio, and audio equipment and systems, but it is not a theory course. Rather, the course examines aspects of our sonic world through the lenses of audio production, live sound reinforcement, and acoustics, constructing a survey of practices and trends, practitioners, and examples; of history, context, and politics; and of art and aesthetics. Along the way it challenges students to examine and open themselves to difference ways of listening. This course is open to all majors.

**Repeatable:** *N*  
**Formerly** 43-1111  
**Minimum Credits 3 Maximum Credits 3**

### **THEA 133A Makeup Techniques:**

This character makeup techniques course focuses on makeup vocabulary, materials, tools, and skills suitable for a variety of media. Research, discussion, and demonstration combine with hands-on experience to develop student skills in painting, color mixing, blending, and contouring. Topics of skin care, color theory, lighting concerns, and the development of a makeup kit are covered.

**Repeatable:** *Y*  
**Formerly** THEA 133  
**Minimum Credits 3 Maximum Credits 3**

### **THEA 133B Makeup Techniques:**

This fashion and beauty makeup techniques course focuses on makeup vocabulary, materials/tools, and skills suitable for incorporation into a wide variety of media types. Research, discussion, demonstrations, and materials acquisition/experimentation combine with hands-on experience to develop the student's painting, color mixing and blending, and contouring skills. Respect for skin care, color theory, lighting concerns, and makeup kits for the makeup artist, performer, and hobbyist alike are covered.

**Repeatable:** *Y*  
**Minimum Credits 3 Maximum Credits 3**

### **THEA 161 Introduction to Scenic Construction**

This course is a basic introduction to the construction of an interior architectural set. The class will focus on building basic set elements from raw material, and the assembling of these elements to form a theatrical set. Health and safety in the workplace will comprise a substantial section of the course. During the semester, students will experience the reading and interpretation of ground plans and drawings, the safe use of basic shop and power tools, and strategies for analyzing the construction of sets both on campus and in the professional world.

**Repeatable:** *N*  
**Formerly** 31-1530  
**Minimum Credits 3 Maximum Credits 3**

### **THEA 163 Introduction to Costume Construction**

This course provides an introduction to Costume Shop techniques and procedures. Through demonstrations and assigned projects, students learn basic machine and hand-sewing techniques, pattern development, and all aspects of costume construction from the interpretation of a rendering to a finished costume. Content provides an overview of related subjects such as millinery, costume props, and formal wear.

**Repeatable:** *N*  
**Formerly** 31-1525  
**Minimum Credits 3 Maximum Credits 3**

### **THEA 164 Introduction to Lighting Technologies**

This basic skills course addresses primary information in the art of stage lighting. Instruction includes purposes, allied techniques, equipment terminology, use of color, and fundamental drafting.

**Repeatable:** *N*

**Formerly** 31-1520

**Minimum Credits 3 Maximum Credits 3**

## **THEA 233 Sound Design**

This introductory course provides an overview of concepts, processes, and tools in sound design for contemporary theatre. The course will cover the history of sound design, design conceptualization, storytelling, relationships to text and action, collaboration and production protocols, and introduce theatrical audio production tools and processes. Course activities will mix lecture and demonstration with practical and creative projects. Students will learn and practice design-driven operations with audio production and playback software. By the end of the course, students should be able to design, construct, and deliver simple playback-based sound designs, with an emphasis on creating work that is driven by the storytelling needs of the text and production.

**Repeatable:** *N*

**Formerly** 31-2612

**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making or AUDI 102 Introduction to Audio

**Minimum Credits 3 Maximum Credits 3**

## **THEA 235 Makeup Design**

This course develops a student's skills in makeup through critical analysis, collaboration, discussion, and practice. Students gain an understanding of the practical aspects of pre-production, production, and post-production design phases for a variety of media. Hands-on experiences include collaborations with Cinema and Television Arts' FreqOut and additional scripts/projects. Students will develop research, design, presentation, and management skills as a means to enhance their individual artistic voice. No previous experience in Makeup is required.

**Repeatable:** *N*

**Formerly** 31-2680

**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making or THEA 133A Makeup Techniques: or THEA 133B Makeup Techniques: or THEA 135 Introduction to Basic Makeup or CINE 113 Cinema Makeup and Makeup Special Effects

**Minimum Credits 3 Maximum Credits 3**

## **THEA 260 Set Design**

This course introduces the student to the art of Set Design. Focusing on the synthesis of text and space, students will learn to understand spatial relationships in the theatre, actor to actor, and audience to actor. They will learn to manipulate the emotional and visual space of the theatre. The students will be introduced to the process of designing scenery for the stage.

**Repeatable:** *N*

**Formerly** 31-2610

**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making

**Minimum Credits 3 Maximum Credits 3**

## **THEA 262 Costume Design**

This course will introduce students to the art and business of Costume Design for theatre and film. Projects will focus on character development from text, costume research, the creation of color palettes, the use of fabric, and organizational paperwork. The development and presentation of costume design for entire productions will be explored.

**Repeatable:** *N*

**Formerly** 31-2615

**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making or FASH 285 Fashion Styling I

**Minimum Credits 3 Maximum Credits 3**

## **THEA 265 Lighting Design**

This course will introduce students to the artistic side of creating a live entertainment lighting design, focusing on its application in the theatre. Students will explore the use of light as a tool to create space, emphasis, and rhythm in performance. The focus will be on honing the ability to see and experience light and then use it to create design, including conceiving the design idea and communicating it to others. Students will explore theatrical texts and how to connect the text to the design idea.

**Repeatable:** *N*

**Formerly** 31-2620

**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making

**Minimum Credits 3 Maximum Credits 3**

## **Theatre, BA**

The Bachelor of Arts in Theatre provides students with a comprehensive program of study through one of our four concentrations: directing, playwriting, stage management, and theatre studies. Students will study theatrical practices, theory, and history from the perspective of all four concentrations in order to gain an understanding of the discipline as a whole.

Students will take courses and gain valuable knowledge in the art and craft of design and technical theatre, the conceptual skills involved in directing, the tools of story crafting required of playwrights, dramatic criticism and dramaturgy, and the organizational expertise necessary to manage stage and production. Students are encouraged to put into practice what they are learning in the classroom through hands-on engagement in the preparation and presentation of performances produced in the department. Students learn from a range of faculty who bring their professional experience to the art, craft, business, and scholarly approach to the study of theatre. This pragmatic approach prepares students to face the challenging realities of making a life in the performing arts.

As a result of successfully completing program requirements, students should be able to:

- identify and apply practical skills as a director, stage manager, playwright, dramaturg, and/or theatre scholar;
- analyze performance, performance text, and practical technique;
- efficiently lead a group of artistic and technical collaborators through the creation and presentation of public performances for theatre;
- think, write, and speak clearly about theory and practice; and
- analyze and employ diverse theatre traditions.

**PROGRAM REQUIREMENTS - 44-47 credits required**

## **THEA 106 Theatre Survey I: Global Drama**

This course is designed to introduce students to dramas - across history and cultures - that have influenced major trends in theatre. In doing so, students will engage a range of dramatic texts from classical and contemporary dramas to adaptations and revisions of canonical works. Students will study and discuss a sampling of plays that exemplify an array of genres and forms resulting in the student's ability to make connections between a text's form and its context.

**Repeatable:** *N*

**Minimum Credits 2 Maximum Credits 2**

## **THEA 111 Theatre Foundation I: Theatre Making**

Theatre Foundation I: Theatre Making invites incoming students into their role as creative practitioners. Students investigate the elements and principles of artistic process that can be applied to all aspects of theatre making. The course develops students' awareness, observation and collaborative skills, and their ability to transpose experiences in the world into visual, written, vocal and physical form. Readings, composition work in class and attendance at Columbia College Chicago productions and in the city of Chicago deepens students' understanding and appreciation of the scope of contemporary theatre making practices.

**Repeatable:** *N*

**Formerly** 31-1251

**Concurrent Requisite** THEA 106 Theatre Survey I: Global Drama

**Minimum Credits 4 Maximum Credits 4**

## **THEA 152 Aesthetics for Theatre Makers**

Both written and devised theatre works invite the artist to create a world that is unique to the needs of each production. In this course, students will explore the development of a vision and intention for theatrical works. Exploring their own world view, as well as that of their classmates, students will investigate these perspectives for implicit bias and translate their point of view into aesthetic and theatrical works. Working in teams of makers-writers, directors, designers, managers, and technicians, students will collaborate as equals in the creation of a physical world.

**Repeatable:** *N*

**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making or THEA 120 Comedy Foundations I: Ensemble and Discovery or THEA 141 Musical Theatre Foundations

**Minimum Credits 3 Maximum Credits 3**

## **THEA 168 Playwriting I**

This course is an introduction to the basic techniques of playwriting from concept to completion. Students will learn basic play structuring, character development, conflict heightening, play synopsis, and script formatting while writing scenes, ten-minute plays, and one-act plays which are all read aloud as table-readings in class.

**Repeatable:** *N*

**Formerly** 31-2800

**Minimum Credits 3 Maximum Credits 3**

## **THEA 202 Traditions of World Theatre**

This course will survey the dramas, history, and aesthetics of performance traditions from various locations around the world including Africa, Asia, Latin America, and the West (United States and Europe), emphasizing important developments and highlighting pivotal movements and participants within their broader historical, social, and cultural contexts. Through an examination of theatrical forms, expressive styles, and contributions of performance traditions from around the world, students will become acquainted with how theatre reflects and constitutes community and culture.

**Repeatable:** *N*

**Formerly** 31-2103

**HU DEI**

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

### **THEA 205 Text Analysis**

This course introduces students to varying methods and approaches to script analysis. While students will become familiar with traditional methods of analysis, a significant emphasis will be placed on alternative and complementary methods including contemplation and intuitive responses, visualization and imagery, and somatic responses to play scripts. Through course readings, presentations, and group activities, furthermore, this course will familiarize students with vocabulary and strategies of analysis for actors, designers, and playwrights, thereby facilitating communication of production ideas.

**Repeatable:** *N*

**Formerly** 31-2120

**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making and ENGL 112 Writing and Rhetoric II or THEA 111 Theatre Foundation I: Theatre Making and ENGL 112H Writing and Rhetoric II: Honors or THEA 111 Theatre Foundation I: Theatre Making and ENGL 122 International Writing and Rhetoric II or THEA 141 Musical Theatre Foundations and ENGL 112 Writing and Rhetoric II or THEA 141 Musical Theatre Foundations and ENGL 112H Writing and Rhetoric II: Honors or THEA 141 Musical Theatre Foundations and ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

### **THEA 254 Stage Management I**

This course will introduce students to the nuts-and-bolts practices and techniques of Stage Management in the professional theatre. Students will assist an advanced stage manager on a department production throughout the course of the semester. Regular availability on evenings and weekends is required.

**Repeatable:** *N*

**Formerly** 31-1540

**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **THEA 266 Directing I**

This course focuses on process through which one approaches a play from a directorial point of view. Students read and discuss five plays and direct scenes from two or three of them. Students create prompt books for their scenes.

**Repeatable:** *N*

**Formerly** 31-2700

**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making and ENGL 112 Writing and Rhetoric II or THEA 111 Theatre Foundation I: Theatre Making and ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II and THEA 111 Theatre Foundation I: Theatre Making

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **THEA 390 Theatre Career**

This course will provide upper level Theatre majors with practical knowledge they will need to transition into careers in their field. Taught by our faculty of theatre professionals, this course explores: unions and contracts as they relate to theatre artists; models of producing: from the storefront theatre to LORT; creating a new theatre company; and self-promotion.

**Repeatable:** N

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 1 Maximum Credits 1**

*Choose one of the following courses:*

## **THEA 320 Dramaturgy**

This course provides an overview of the art and craft of dramaturgy in the contemporary theatre. Through individual and group projects, students examine the role the dramaturg plays in developing production concepts, conducting production research, choosing translations, and developing adaptations of literature for performance. Students will also consider how the dramaturg functions within a theatrical organization to assist in season selection, audience education, and audience development.

**Repeatable:** N

**Formerly** 31-3125

**Prerequisites** THEA 205 Text Analysis

**Minimum Credits 3 Maximum Credits 3**

## **THEA 346 Period Styles for Theatrical Design**

This course will familiarize students of theatrical design and directing with the prevalent visual movements in the history of art, architecture, fashion and decorative arts. It will integrate these diverse elements to create a knowledge of the cultural life of each period discussed. Pre-historic through modern periods will be covered. Lecture, research, and field trips utilizing Chicago's architecture and cultural institutions will aid students in the development of their visual vocabulary.

**Repeatable:** N

**Formerly** 31-3160

**Prerequisites** THEA 201 Theatre History & Inquiry or THEA 202 Traditions of World Theatre

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

## **THEA 228 Design/Tech Practicum**

This course enables students to work on productions within the department under faculty and staff supervision. Students may repeat the course three times. This course allows the student to acquire the

practical skills used in the various shops of the Department.

**Repeatable:** Y

**Formerly** 31-2523

**Prerequisites** THEA 163 Introduction to Costume Construction or THEA 161 Introduction to Scenic Construction or THEA 133A Makeup Techniques: or THEA 235 Makeup Design or THEA 164 Introduction to Lighting Technologies

**Minimum Credits 1 Maximum Credits 1**

## **THEA 286 Production and Performance**

Creative participation as a performer, designer, technician or crew member in Student Directing Projects, New Stew Showcases, Comedy or Faculty Workshop, or other department performances.

**Repeatable:** Y

**Formerly** 31-2301

**Requirements** Permission Required (DP)

**Minimum Credits 0 Maximum Credits 2**

## **THEA 481 Stage Management Practicum**

This course will provide students with a hands-on experience in the practices and techniques of stage management in the professional theatre. In addition to stage managing a departmental project throughout the course of the semester, students will meet weekly for discussion of trending topics within their production work. Regular availability on evenings and weekends is required.

**Repeatable:** Y

**Formerly** 31-2540

**Prerequisites** THEA 254 Stage Management I

**Minimum Credits 1 Maximum Credits 1**

*Choose one of the following courses:*

## **COLL 210 Internship**

This course allows students to take a valuable internship experience in their desired industry for academic credit. Each position is vetted and approved by Career Center to ensure that it is an educational opportunity that will fulfill the learning objectives of the course. Participating in an internship allows the student to gain hands-on experience and explore career interests while applying knowledge and skills learned in the classroom to a work setting. The experience also helps students gain a clearer sense of what they still need to learn and provides an opportunity to build professional networks. Students are responsible for securing their own internships and having them approved prior to registering for this course. Please contact the Career Center for assistance and resources.

**Repeatable:** Y

**Formerly** 99-2100

**Requirements** Permission Required (DP)

**Minimum Credits 1 Maximum Credits 1**

## **THEA 470 One-Act Play Festival**

This J-Term course is a comprehensive workshop production of the works of several selected playwrights. (Actors and Directors are secured during the previous months.) While the playwrights work on and discuss their plays during class time, they will also be attending rehearsals of their plays led by the faculty instructor and student directors. The rehearsal period is short and student actors work with scripts in hand so that playwrights can continue implementing rewrites throughout the rehearsal period. The workshop culminates in a week-long festival of performances whereby each play is performed before a live audience.

**Repeatable:** Y

**Formerly** 31-3707J

**Prerequisites** THEA 268 Playwriting II

**Requirements** Permission Required (DP)

**Minimum Credits 1 Maximum Credits 1**

## **THEA 484 Directing Practicum**

Students enrolled in Directing II, III, or IV classes direct and produce plays each semester. In this Practicum, students will expand on acquired skills necessary to produce a play. In an ongoing classroom dialogue, the students and instructors explore all areas of production including collaboration, technical rehearsal planning, and design, with occasional input from guest designers.

**Repeatable:** Y

**Formerly** 31-3776

**Prerequisites** THEA 266 Directing I

**Requirements** Permission Required (DP)

**Minimum Credits 1 Maximum Credits 1**

## **CONCENTRATIONS**

### **Directing**

## **THEA 102 Scene Study for Non-Acting Majors**

Students learn to solve beginning acting problems through work on scenes from a diverse range of plays. Students study the acting text for clues to character behavior and motivation. They explore the rehearsal process with an emphasis on listening and responding to their scene partner, making choices and reflection and revision. Observation and detailed, constructive critique engages students in each other's work in class.

**Repeatable:** N

**Formerly** 31-1205

**Prerequisites** THEA 101 Acting Basic Skills for Non-Acting Majors or THEA 111 Theatre Foundation I: Theatre Making or THEA 120 Comedy Foundations I: Ensemble and Discovery or THEA 141 Musical Theatre Foundations

**Minimum Credits 3 Maximum Credits 3**

## **THEA 267 Directing II**

With instructor approval, this course asks students to select one act of less than 45 minutes to direct. Students cast play from the Theatre Department student body, direct the play, and mount four performances in the Classic Studio. Rehearsals are held outside class hours and are determined by director and cast. All areas of directing are discussed among students and instructors with occasional guest directors, actors, and

designers. Students will direct a one-act play.

**Repeatable:** *N*

**Formerly** 31-2750

**Prerequisites** THEA 266 Directing I and THEA 481 Stage Management Practicum and THEA 205 Text Analysis

**Concurrent Requisite** THEA 484 Directing Practicum

**Minimum Credits 3 Maximum Credits 3**

## **THEA 281 Basic Viewpoints Workshop**

This course examines Viewpoints, a movement philosophy that explores the issues of time and space. In theatre, it allows a group of actors to function spontaneously and intuitively; to generate bold new work quickly by developing flexibility, articulation, and strength in movement; and to use writing and other resources as steps to creativity. Students will learn the vocabulary and basic theory by applying Viewpoints to creating new compositions as well as using them with existing theatrical texts.

**Repeatable:** *N*

**Formerly** 31-2372

**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making

**Minimum Credits 1 Maximum Credits 1**

## **THEA 366 Directing III**

In this course students will select and direct a one-act play and learn how to research, analyze, stage and articulate their approach to the play.

**Repeatable:** *N*

**Formerly** 31-3701

**Prerequisites** THEA 267 Directing II

**Minimum Credits 3 Maximum Credits 3**

## **THEA 450 Devising I**

Students will explore, devise and present ensemble created works in various styles.

**Repeatable:** *N*

**Formerly** 31-3706

**Prerequisites** THEA 112 Theatre Foundation II: Performance or THEA 101 Acting Basic Skills for Non-Acting Majors or THEA 152 Aesthetics for Theatre Makers or MUSC 223 Elements of Music Design or ARTS 105 Foundation Studio or DANC 167 Dance Improvisation or THEA 121 Comedy Foundations II: Point of View and Performance

**Minimum Credits 3 Maximum Credits 3**

## **THEA 467 Directing History and Theory**

In this seminar/lab class, students will examine a broad variety of historical and contemporary approaches to performance. The history and context of these approaches and theories will be analyzed from the perspective of directing. Students will begin to develop their own theory of performance from a directorial point of view

**Repeatable:** *N*

**Formerly** 31-3704

**Prerequisites** THEA 266 Directing I

**Minimum Credits** 3 **Maximum Credits** 3

## **THEA 484 Directing Practicum**

Students enrolled in Directing II, III, or IV classes direct and produce plays each semester. In this Practicum, students will expand on acquired skills necessary to produce a play. In an ongoing classroom dialogue, the students and instructors explore all areas of production including collaboration, technical rehearsal planning, and design, with occasional input from guest designers.

**Minimum Credits** 1 **Maximum Credits** 1

## Playwriting

### **THEA 102 Scene Study for Non-Acting Majors**

Students learn to solve beginning acting problems through work on scenes from a diverse range of plays. Students study the acting text for clues to character behavior and motivation. They explore the rehearsal process with an emphasis on listening and responding to their scene partner, making choices and reflection and revision. Observation and detailed, constructive critique engages students in each other's work in class.

**Repeatable:** N

**Formerly** 31-1205

**Prerequisites** THEA 101 Acting Basic Skills for Non-Acting Majors or THEA 111 Theatre Foundation I: Theatre Making or THEA 120 Comedy Foundations I: Ensemble and Discovery or THEA 141 Musical Theatre Foundations

**Minimum Credits** 3 **Maximum Credits** 3

### **THEA 268 Playwriting II**

This course furthers techniques of playwriting begun in Playwriting I: scene and character development, dialogue, theme, story, and play structure. Students focus on completion of one-act plays.

**Repeatable:** N

**Formerly** 31-3800

**Prerequisites** THEA 168 Playwriting I

**Minimum Credits** 3 **Maximum Credits** 3

### **THEA 432 New Plays Workshop**

Working in teams, Playwriting and Directing students collaborate to develop a playwright's script for performance via a proposed production. The director guides the script through a series of readings with student actors, resulting in subsequent rewrites by the playwright and a production analysis of the play by the director. The semester culminates in a staged reading of the playwrights' final drafts and the directors' final production analysis.

**Repeatable:** Y

**Formerly** 31-3805

**Prerequisites** THEA 268 Playwriting II or THEA 266 Directing I

**Minimum Credits** 3 **Maximum Credits** 3

### **THEA 468 Playwriting: Advanced**

Playwriting students develop a full-length play while creating class-created and one-act plays and combat scenes to be performed at the end of the semester. Students polish skills acquired in Playwriting I and II, engage in deep analysis and evaluation of a variety of styles and genres, and discuss professional playwriting with visiting working playwrights.

**Repeatable:** Y

**Formerly** 31-3801

**Prerequisites** THEA 320 Dramaturgy and THEA 268 Playwriting II

**Minimum Credits** 3 **Maximum Credits** 3

*Complete 6 credits from the following courses:*

### **THEA 287A Topics in Playwriting**

Students write new plays in response to a specific and unique playwriting topic presented in each distinctive section of this umbrella course. Possible topics include (but are not limited to) writing musical theatre, writing plays for children, adapting literature into drama, writing experimental plays, creating a living newspaper theatre, generating political theatre, writing modern adaptations of classic drama, and/or writing plays focused on one area of the world or one group of people. Each Topics class culminates in a live staged performance or reading featuring student performers.

**Repeatable:** Y

**Formerly** THEA 287

**Prerequisites** THEA 168 Playwriting I

**Minimum Credits** 3 **Maximum Credits** 3

### **THEA 287B Topics in Playwriting**

Students write new plays in response to a specific and unique playwriting topic presented in each distinctive section of this umbrella course. Possible topics include (but are not limited to) writing musical theatre, writing plays for children, adapting literature into drama, writing experimental plays, creating a living newspaper theatre, generating political theatre, writing modern adaptations of classic drama, and/or writing plays focused on one area of the world or one group of people. Each Topics class culminates in a live staged performance or reading featuring student performers.

**Repeatable:** Y

**Prerequisites** THEA 168 Playwriting I

**Minimum Credits** 3 **Maximum Credits** 3

Stage Management

**BUSE 109 Information Management**

This course provides students with a practical framework for employing essential computer applications in today's business environment. Students apply advanced functions of database, spreadsheet, word processing and presentation software to business analysis and decision-making processes. The skill set pursued in this course is fundamental to effective managerial operations of a variety of arts, entertainment and media businesses and organizations.

**Repeatable:** N

**Formerly** 28-1113

**Minimum Credits 3 Maximum Credits 3**

## **THEA 255 Production Management**

This advanced course is designed to build upon the students skills as designers, stage managers, or technicians in order to provide the ability and insight to serve in a supervisory capacity for theatrical productions. Students will learn broad management techniques as well as perform industry specific assignments intended to cultivate an understanding of the technical, financial, logistical, and staffing demands of a professional production.

**Repeatable:** N

**Formerly** 31-3550

**Prerequisites** THEA 254 Stage Management I or THEA 267 Directing II

**Minimum Credits 3 Maximum Credits 3**

## **THEA 285 Creating a Performance**

This course is required for all students that are chosen to rehearse, design and perform a main stage production of the Theatre department. The ensemble will include design, production, and acting members. Each will work as a specialist within their area of concentration, but also as an ensemble member who will seek and give input outside the area of their growing expertise. Students will use collaborative models appropriate to the involvement required at different stages of creative and practical performance development.

**Repeatable:** Y

**Formerly** 31-2960

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

## **THEA 355 Stage Management II**

Students will work on a department production as the lead stage manager while discussing challenges and problems in a group setting. Night and weekend availability is required.

**Repeatable:** Y

**Formerly** 31-3530

**Prerequisites** THEA 254 Stage Management I and THEA 481 Stage Management Practicum

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **THEA 481 Stage Management Practicum**

This course will provide students with a hands-on experience in the practices and techniques of stage management in the professional theatre. In addition to stage managing a departmental project throughout

the course of the semester, students will meet weekly for discussion of trending topics within their production work. Regular availability on evenings and weekends is required.

**Repeatable:** Y

**Formerly** 31-2540

**Prerequisites** THEA 254 Stage Management I

**Minimum Credits 1 Maximum Credits 1**

*Choose one of the following courses:*

### **MUSC 103 Theory I for Musical Theatre**

Course prepares students for study of theory and is based on intense drill in note recognition, work with basic rhythms, and preliminary development of aural skills, with special attention to note replication. Students develop a sense of self-discipline required for the study of music, a sense of relative pitch, a verbal musical literacy, and an ability to listen actively.

**Repeatable:** N

**Formerly** MUSC 108

Music Theatre Majors Only (2MUS)

**Minimum Credits 3 Maximum Credits 3**

### **THEA 110 Improvisation Essentials**

Designed for both Theatre and non-Theatre majors, this course is a study of improvisational techniques, rooted in the work of Viola Spolin, that are foundational to theatre such as The Second City and Upright Citizens Brigade. Students will work individually, in small groups, and as a single ensemble to experience the process of improvising together. Drawing from both everyday life and improvisational concepts (such as give and take, support, mirroring, explore and heighten, environment, object work, and character) students will actively explore through exercises to create consistent and effective scene work.

**Repeatable:** N

**Formerly** 31-1210

**Minimum Credits 3 Maximum Credits 3**

### **THEA 147 Musical Theatre Dance for the Singer/Actor**

This course emphasizes dance terminology and basic techniques necessary at an introductory level. Executing basic dance terminology will be the focus of this course along with attention to proper nutrition and injury prevention. Students will apply terminology in basic floor combinations in a variety of musical theatre dance styles. Each class session will include strengthening exercises to improve flexibility, conditioning and technique in ballet, jazz and tap. No prior dance training is necessary.

**Repeatable:** N

**Formerly** 31-1435

**Minimum Credits 2 Maximum Credits 2**

### **THEA 230 Stage Combat I**

This beginning course instructs students in how to create the illusion of violence for stage and screen including basic instruction in Unarmed (feet, fists, slaps, punches, kicks, falls, and rolls) and Rapier and Dagger (parries, cuts, thrusts and more!) The emphasis is on safe and realistic violence for the stage.

Midterm scenes will be performed in the classroom. Final scenes will be performed in a theatre during the final weeks of the semester.

**Repeatable:** *N*

**Formerly** 31-2315

**Prerequisites** THEA 101 Acting Basic Skills for Non-Acting Majors or THEA 111 Theatre Foundation I: Theatre Making or THEA 120 Comedy Foundations I: Ensemble and Discovery or THEA 141 Musical Theatre Foundations

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

### **THEA 161 Introduction to Scenic Construction**

This course is a basic introduction to the construction of an interior architectural set. The class will focus on building basic set elements from raw material, and the assembling of these elements to form a theatrical set. Health and safety in the workplace will comprise a substantial section of the course. During the semester, students will experience the reading and interpretation of ground plans and drawings, the safe use of basic shop and power tools, and strategies for analyzing the construction of sets both on campus and in the professional world.

**Repeatable:** *N*

**Formerly** 31-1530

**Minimum Credits 3 Maximum Credits 3**

### **THEA 164 Introduction to Lighting Technologies**

This basic skills course addresses primary information in the art of stage lighting. Instruction includes purposes, allied techniques, equipment terminology, use of color, and fundamental drafting.

**Repeatable:** *N*

**Formerly** 31-1520

**Minimum Credits 3 Maximum Credits 3**

### **THEA 260 Set Design**

This course introduces the student to the art of Set Design. Focusing on the synthesis of text and space, students will learn to understand spatial relationships in the theatre, actor to actor, and audience to actor. They will learn to manipulate the emotional and visual space of the theatre. The students will be introduced to the process of designing scenery for the stage.

**Repeatable:** *N*

**Formerly** 31-2610

**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making

**Minimum Credits 3 Maximum Credits 3**

### **THEA 262 Costume Design**

This course will introduce students to the art and business of Costume Design for theatre and film. Projects will focus on character development from text, costume research, the creation of color palettes, the use of fabric, and organizational paperwork. The development and presentation of costume design for entire productions will be explored.

**Repeatable:** *N*

**Formerly** 31-2615

**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making or FASH 285 Fashion Styling I

**Minimum Credits 3 Maximum Credits 3**

## **THEA 265 Lighting Design**

This course will introduce students to the artistic side of creating a live entertainment lighting design, focusing on its application in the theatre. Students will explore the use of light as a tool to create space, emphasis, and rhythm in performance. The focus will be on honing the ability to see and experience light and then use it to create design, including conceiving the design idea and communicating it to others. Students will explore theatrical texts and how to connect the text to the design idea.

**Repeatable:** *N*

**Formerly** 31-2620

**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making

**Minimum Credits 3 Maximum Credits 3**

## **Theatre Studies**

### **THEA 180 Introduction to Theatre Studies**

This course introduces students to basic terminology and methodology used in understanding the scholarly study of theatre. Students will explore the relationship between theory and practice by exploring a range of contexts for theatre study through the following three areas: theatre history, dramatic criticism, and theatre theory. Students will study a sample of cultural and historical influences that form the background of theatre in a global context. Furthermore, students will read a range of dramatic texts alongside major theories of dramatic criticism to understand the practice and as well the critique of canon formation and the sociocultural context in which they were written.

**Repeatable:** *N*

**Minimum Credits 3 Maximum Credits 3**

### **THEA 201 Theatre History & Inquiry**

This course examines theatre history through active research and inquiry into selected periods and genres of theatre. After reading and discussing a script, students will research primary and secondary sources to place the work in its artistic and cultural context. A short presentation of the research will follow. Then, students will develop a thesis and develop that idea through writing, performance, and/or visual presentation.

**Repeatable:** *N*

**Formerly** 31-2100

**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making and ENGL 112 Writing and Rhetoric II or THEA 111 Theatre Foundation I: Theatre Making and ENGL 112H Writing and Rhetoric II: Honors or THEA 111 Theatre Foundation I: Theatre Making and ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

### **THEA 280 Theories of Performance Studies**

What is performance? What does performance do? Why is performance classified as a central element of political, social and cultural life? What are the distinctions between performance as event, theory, and method? In answering these questions, this course introduces students to performance studies, an interdisciplinary field that investigates a wide range of repeatable, embodied, and symbolic actions. Specifically, this course offers a critical survey of the genealogies as well as foundational theories and theorists of performance studies including Zora Neale Hurston, Richard Schechner, Dwight Conquergood, Ervin Goffman, Victor Turner, Judith Butler, E. Patrick Johnson, and D. Soyini Madison. Students will examine a broad range of performances both on and off the stage from rituals and storytelling to live and recorded performances, and from political speeches and protests to human interaction and individual acts of identity expression. Additionally, we will apply analytical frameworks of performance theory to sites and happenings including theatre, religious events, social media, community gatherings, and sporting events as well as examine people's habitual patterns and behaviors of everyday life as performance.

**Repeatable:** N

**Prerequisites** CULS 101 Introduction to Cultural Studies or CULS 101H Introduction to Cultural Studies: Honors or THEA 106 Theatre Survey I: Global Drama and THEA 111 Theatre Foundation I: Theatre Making

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

*Choose two of the following courses:*

### **THEA 140 Musical Theatre History**

Required for Musical Theatre/Musical Theatre Performance majors, also open as elective to students in other majors. Course examines musical theatre history from beginnings through 'The Golden Age' of American song and the American musical to the present. Students study key figures, songs and shows in musical theatre, as well as social and cultural factors that influenced the form. Course develops research and critical thinking skills through reading and discussion of textbook, audio/visual presentations, essays, research projects, and tests.

**Repeatable:** N

**Formerly** 31-1400

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

### **THEA 211 African American Theatre and Performance**

This course surveys the historical, political, and aesthetic advancements of African American theatre from the late 19th century to the contemporary moment. In particular, this course examines dramatic literature alongside social movements such as the Black Power Movement as well as the Black Feminist Movement as a way to investigate how artists/activists used theatre and performance to promote Black liberation. In doing so we will witness changing and often challenging perceptions, creations, and responses to race and racism, and related social constructions of gender and sexuality. Furthermore, we will also address several larger questions pertaining to the development of Black theatre in America: What is a Black play? What is the relationship between Black theatre and the broader American theatre? How has Black theatre and performance contributed to the making of Black identity formation?

**Repeatable:** N

**HU DEI**

**Minimum Credits 3 Maximum Credits 3**

### **THEA 398 Topics in Performance and Representation**

In studio and seminar sessions, students will explore intersections between identity, representation and performance. The relationship of the performer with the character as written in the text and represented in performance will be of primary consideration. Theatrical texts and training methods will be considered in international and historical contexts.

**Repeatable:** Y

**Prerequisites** THEA 112 Theatre Foundation II: Performance or THEA 121 Comedy Foundations II: Point of View and Performance or THEA 152 Aesthetics for Theatre Makers

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## Bachelor of Fine Arts

### Acting, BFA

The Bachelor of Fine Arts in Acting is a pre-professional degree that offers advanced performance skills and a multitude of practical experiences in Chicago and abroad, providing the opportunity to prepare for a career as a global artist, equally adept at interpretation or creation, in classical work as well as current media practice. Students have the option of an international exchange semester to immerse themselves in international performance practice and broaden their experience of the art form.

Each student will have the opportunity to receive personalized instruction and production/performance opportunities, several exclusive to the BFA cohort. Our program capacities are intentionally small to ensure individual attention, honing both the skills of the solo player as well as ensuring a strong commitment to an ensemble ethos. Progressively intense training in voice, movement, and acting styles is matched with inquiry into performance practice from a global perspective. The BFA cohort will create and perform a new work or present a contemporary script, synthesizing the techniques and insights acquired over the course of study in this structured, rigorous program.

Acting BFA students are regularly evaluated to monitor their levels of achievement and progress and to suggest directions for growth. Students must maintain a 3.0 GPA in their major, complete the performance requirements, and demonstrate continued development in order to continue in the program.

As a result of successfully completing program requirements, students should be able to:

- demonstrate a strong integration and practice of the requisite acting, voice, and movement skills of a variety of performance styles, including performance work in different media: on camera, voice over, animation, and devised work;
- display the collaborative skills necessary to be a vital, proactive part of the ensemble: in the classroom, in production, and in the profession;
- exhibit the ability to analyze texts for performance and research;
- articulate through speech and writing a working knowledge of theatre history and its foundational practitioners;
- develop a strategy for entering the profession and sustaining a career through the creation of a business model for self-management as a performer/theatre maker; and
- demonstrate knowledge of contemporary performance practice that deepens their skill set and broadens their professional opportunities.

## PROGRAM REQUIREMENTS - 72 credits required

### THEA 106 Theatre Survey I: Global Drama

This course is designed to introduce students to dramas - across history and cultures - that have influenced major trends in theatre. In doing so, students will engage a range of dramatic texts from classical and contemporary dramas to adaptations and revisions of canonical works. Students will study and discuss a sampling of plays that exemplify an array of genres and forms resulting in the student's ability to make connections between a text's form and its context.

**Repeatable:** *N*

**Minimum Credits 2 Maximum Credits 2**

## **THEA 107 Theatre Survey II: American Drama**

The American theatre both reflects and creates American identity. This course will examine plays from the mid-nineteenth century through the present day to investigate the ways that Americans participated in the construction, and deconstruction, of Americans' sense of self. Rather than a complete review of American drama, this course will survey a range of content, form, and styles as they define American drama and American identity.

**Repeatable:** *N*

**Prerequisites** THEA 106 Theatre Survey I: Global Drama or THEA 124 Comedy Survey I or THEA 141 Musical Theatre Foundations

**Minimum Credits 2 Maximum Credits 2**

## **THEA 111 Theatre Foundation I: Theatre Making**

Theatre Foundation I: Theatre Making invites incoming students into their role as creative practitioners. Students investigate the elements and principles of artistic process that can be applied to all aspects of theatre making. The course develops students' awareness, observation and collaborative skills, and their ability to transpose experiences in the world into visual, written, vocal and physical form. Readings, composition work in class and attendance at Columbia College Chicago productions and in the city of Chicago deepens students' understanding and appreciation of the scope of contemporary theatre making practices.

**Repeatable:** *N*

**Formerly** 31-1251

**Concurrent Requisite** THEA 106 Theatre Survey I: Global Drama

**Minimum Credits 4 Maximum Credits 4**

## **THEA 112 Theatre Foundation II: Performance**

In Theatre Foundation II: Performance students will explore presence, the audience/performer relationship and how to shape time, space and energy in work with scripted and devised material. This course is a continuation of Theatre Foundation I and provides a strong foundation for the performer through an integrated study of movement and voice, ensemble and performance. Students will investigate dramatic story telling by exploring the relationship between text and character and in working on monologues and two person scenes.

**Repeatable:** *N*

**Formerly** 31-1252

**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making or THEA 120 Comedy Foundations I: Ensemble and Discovery or THEA 141 Musical Theatre Foundations

**Concurrent Requisite** THEA 107 Theatre Survey II: American Drama

**Minimum Credits 4 Maximum Credits 4**

## **THEA 126 Introduction to Auditioning**

Students engage in discussion, demonstration and the application of techniques in auditioning for performance in a variety of media such as live theatre, film, television and voice over. Selection and preparation of material, professional conduct and terminology are stressed in addition to developing strategies for relaxation, building confidence and being true to yourself in the audition experience.

**Repeatable:** *N*

**Formerly** 31-1690

**Minimum Credits** 1 **Maximum Credits** 1

## **THEA 185 BFA Acting Workshop**

This course is designed for students who have auditioned for, and been accepted into the BFA in Acting. The course will present a series of performance workshops that offer diverse techniques to augment the BFA curriculum as well as opportunities for students to form important artistic bonds within the BFA cohort. Topics covered will be based in the expertise of existing faculty and/or to take advantage of artists who are not part of the Columbia College faculty but available for a workshop experience.

**Repeatable:** *Y*

**Requirements** BFA Students Only (BFA) Acting Majors Only (M311)

**Minimum Credits** 1 **Maximum Credits** 1

## **THEA 202 Traditions of World Theatre**

This course will survey the dramas, history, and aesthetics of performance traditions from various locations around the world including Africa, Asia, Latin America, and the West (United States and Europe), emphasizing important developments and highlighting pivotal movements and participants within their broader historical, social, and cultural contexts. Through an examination of theatrical forms, expressive styles, and contributions of performance traditions from around the world, students will become acquainted with how theatre reflects and constitutes community and culture.

**Repeatable:** *N*

**Formerly** 31-2103

**HU DEI**

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Minimum Credits** 3 **Maximum Credits** 3

## **THEA 203 Voice for the Actor**

This course teaches the practice of healthy vocal use by exploring the processes of speech production. Knowledge of the basic anatomy of the breathing musculature and vocal mechanism will support the student actor's developing technique. Particular attention will be paid to freeing both the body and voice from over-effort. The speech sounds of the General American English dialect will be introduced as a tool for students to develop energy and clarity in articulating thought. Students will build their palette of vocal expression through the use of dramatic text.

**Repeatable:** *N*

**Formerly** 31-2300

**Prerequisites** THEA 103 Voice for Non-Theatre Majors and THEA 101 Acting Basic Skills for Non-Acting

Majors or THEA 112 Theatre Foundation II: Performance

**Minimum Credits 3 Maximum Credits 3**

### **THEA 204 Movement for the Actor**

Students continue the study of the actor's physical instrument. Working as an ensemble and through personal practice outside of class, students expand physical strength and stability, and the interconnection of voice and body, emotion and body, mind and body.

**Repeatable:** *N*

**Formerly** 31-2305

**Prerequisites** THEA 112 Theatre Foundation II: Performance

**Minimum Credits 3 Maximum Credits 3**

### **THEA 205 Text Analysis**

This course introduces students to varying methods and approaches to script analysis. While students will become familiar with traditional methods of analysis, a significant emphasis will be placed on alternative and complementary methods including contemplation and intuitive responses, visualization and imagery, and somatic responses to play scripts. Through course readings, presentations, and group activities, furthermore, this course will familiarize students with vocabulary and strategies of analysis for actors, designers, and playwrights, thereby facilitating communication of production ideas.

**Repeatable:** *N*

**Formerly** 31-2120

**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making and ENGL 112 Writing and Rhetoric II or THEA 111 Theatre Foundation I: Theatre Making and ENGL 112H Writing and Rhetoric II: Honors or THEA 111 Theatre Foundation I: Theatre Making and ENGL 122 International Writing and Rhetoric II or THEA 141 Musical Theatre Foundations and ENGL 112 Writing and Rhetoric II or THEA 141 Musical Theatre Foundations and ENGL 112H Writing and Rhetoric II: Honors or THEA 141 Musical Theatre Foundations and ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

### **THEA 207 Scenes: Performance & Analysis**

Students take an active and creative role in analyzing and rehearsing scenes for performance. Students are encouraged to make choices that explore the text in the current cultural moment, but also to analyze the given circumstances embedded in the text. The integration of physical and vocal technique into performance continues from previous course work. Students will present scenes for live and on-camera performance.

**Repeatable:** *N*

**Formerly** 31-2200

**Prerequisites** THEA 112 Theatre Foundation II: Performance or THEA 125 Comedy Survey II or THEA 103 Voice for Non-Theatre Majors and THEA 102 Scene Study for Non-Theatre Majors

**Minimum Credits 3 Maximum Credits 3**

### **THEA 250 Character & Ensemble**

Students analyze the shifting alliances and conflicts that occur in scenes between three or more characters. This analytical work is explored in the context of heightened give and take, awareness, concentration and focus demanded in a more populated stage space. Students are encouraged to make active, transformative choices in physical and vocal technique, and are expected to take responsibility for memorization,

preparation and reflection that is essential to the actor's discipline. Students will present scenes for live and on-camera performance.

**Repeatable:** *N*

**Formerly** 31-2205

**Prerequisites** THEA 207 Scenes: Performance & Analysis and THEA 203 Voice for the Actor and THEA 205 Text Analysis or THEA 240 Musical Theatre Scene Study and THEA 203 Voice for the Actor and THEA 205 Text Analysis

**Minimum Credits 4 Maximum Credits 4**

## **THEA 281 Basic Viewpoints Workshop**

This course examines Viewpoints, a movement philosophy that explores the issues of time and space. In theatre, it allows a group of actors to function spontaneously and intuitively; to generate bold new work quickly by developing flexibility, articulation, and strength in movement; and to use writing and other resources as steps to creativity. Students will learn the vocabulary and basic theory by applying Viewpoints to creating new compositions as well as using them with existing theatrical texts.

**Repeatable:** *N*

**Formerly** 31-2372

**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making

**Minimum Credits 1 Maximum Credits 1**

## **THEA 285 Creating a Performance**

This course is required for all students that are chosen to rehearse, design and perform a main stage production of the Theatre department. The ensemble will include design, production, and acting members. Each will work as a specialist within their area of concentration, but also as an ensemble member who will seek and give input outside the area of their growing expertise. Students will use collaborative models appropriate to the involvement required at different stages of creative and practical performance development.

**Repeatable:** *Y*

**Formerly** 31-2960

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

## **THEA 301 Advanced Acting: Heightened Languages**

Students will develop performance and analytical skills demanded by texts with heightened language. Emphasis will be placed on how heightened language supports acting choices, and on physical engagement with the text through breath, resonance and the tactile feel of language. Students will research and perform texts from a wide spectrum of cultural, economic and social diversity. This is an advanced acting class that synthesizes learning from previous classes in text analysis, theater history, scene study and vocal and physical training.

**Repeatable:** *N*

**Formerly** 31-3204

**Prerequisites** THEA 250 Character & Ensemble and THEA 143 Musical Theatre Dance I or THEA 204 Movement for the Actor and THEA 250 Character & Ensemble

**Minimum Credits 3 Maximum Credits 3**

## **THEA 302 Advanced Acting: Physical Approaches**

Students will develop performance and devising skills that are based in the physicality of the actor. Emphasis will be on different physical approaches that investigate impulse, energy, 'spine' and the kinesthetic relationship between performers. Students will research and explore performance representing a wide spectrum of cultural, economic and social diversity. This is an advanced acting class that synthesizes learning from previous classes in text analysis, theater history, scene study and vocal and physical training.

**Repeatable:** *N*

**Formerly** 31-3200

**Prerequisites** THEA 250 Character & Ensemble and THEA 143 Musical Theatre Dance I or THEA 250 Character & Ensemble and THEA 204 Movement for the Actor

**Minimum Credits** 3 **Maximum Credits** 3

## **THEA 304 Advanced Acting: On-Camera Performance**

Students develop the skills, terminology and etiquette for performance in the on-camera environment. This combined class works with television and/or film directors to collaborate in rehearsal, performance, capture and post-production processes. Students learn how to prepare for auditions and on-camera performances by taking an active role shaping their own performances in relation to text, character, presentation and performance context. Students also consider how to be compositional 'within the frame', how to maintain continuity, and how to make discoveries from take to take.

**Repeatable:** *N*

**Prerequisites** THEA 250 Character & Ensemble

**Minimum Credits** 3 **Maximum Credits** 3

## **THEA 322 Voice and Text**

This course explores the intersection of vocal technique and imagination in creating dynamic acting choices specifically through the use of language. Students will practice skillful application of vocal technique to a wide range of performance texts, while learning to build vocal strength, energy, stamina, and flexibility. Students will investigate structure, rhythm, image, argument, sound and sense in performing a variety of dramatic and poetic texts. A written component of the course requires students to reflect critically on the use of vocal technique in performance.

**Repeatable:** *Y*

**Formerly** 31-3300

**Prerequisites** THEA 205 Text Analysis and THEA 207 Scenes: Performance & Analysis and THEA 203 Voice for the Actor

**Minimum Credits** 3 **Maximum Credits** 3

## **THEA 398 Topics in Performance and Representation**

In studio and seminar sessions, students will explore intersections between identity, representation and performance. The relationship of the performer with the character as written in the text and represented in performance will be of primary consideration. Theatrical texts and training methods will be considered in international and historical contexts.

**Repeatable:** *Y*

**Prerequisites** THEA 112 Theatre Foundation II: Performance or THEA 121 Comedy Foundations II: Point of View and Performance or THEA 152 Aesthetics for Theatre Makers

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **THEA 401 Advanced Acting Workshop I**

This capstone acting course concentrates on expanding character and style ranges for students according to their individual needs.

**Repeatable:** N

**Formerly** 31-3891

**Prerequisites** THEA 302 Advanced Acting: Physical Approaches or THEA 301 Advanced Acting: Heightened Languages

**Minimum Credits 3 Maximum Credits 3**

### **THEA 402 Advanced Acting Workshop II**

This capstone BFA Acting class will synthesize performance technique learned in the Department and with our European partners in application to the creation of a devised piece or rehearsal and performance of a contemporary play from the European repertoire.

**Repeatable:** N

**Formerly** 31-3892

**Prerequisites** THEA 401 Advanced Acting Workshop I and THEA 301 Advanced Acting: Heightened Languages and THEA 322 Voice and Text

**Requirements** BFA Students Only (BFA) Acting Majors Only (M311)

**Minimum Credits 3 Maximum Credits 3**

### **THEA 420 Professional Survival and How to Audition**

Course examines techniques of self-promotion; knowledge of talent agencies and casting directors; unions, contracts, and bookkeeping for performers; and opportunities in the local market. Students work on monologues and cold readings for auditions. Course assists acting students making the transition from college to career by providing professional survival information, tools, and techniques. Students with an Acting concentration are required to take this course during their senior year.

**Repeatable:** N

**Formerly** 31-3900

**Prerequisites** THEA 250 Character & Ensemble or THEA 340 Scenes and Songs

**Minimum Credits 3 Maximum Credits 3**

## **Performance Technique Elective**

*Choose one of the following courses:*

### **THEA 110 Improvisation Essentials**

Designed for both Theatre and non-Theatre majors, this course is a study of improvisational techniques, rooted in the work of Viola Spolin, that are foundational to theatre such as The Second City and Upright Citizens Brigade. Students will work individually, in small groups, and as a single ensemble to experience the process of improvising together. Drawing from both everyday life and improvisational concepts (such as give and take, support, mirroring, explore and heighten, environment, object work, and character) students

will actively explore through exercises to create consistent and effective scene work.

**Repeatable:** N

**Formerly** 31-1210

**Minimum Credits 3 Maximum Credits 3**

### **THEA 147 Musical Theatre Dance for the Singer/Actor**

This course emphasizes dance terminology and basic techniques necessary at an introductory level. Executing basic dance terminology will be the focus of this course along with attention to proper nutrition and injury prevention. Students will apply terminology in basic floor combinations in a variety of musical theatre dance styles. Each class session will include strengthening exercises to improve flexibility, conditioning and technique in ballet, jazz and tap. No prior dance training is necessary.

**Repeatable:** N

**Formerly** 31-1435

**Minimum Credits 2 Maximum Credits 2**

### **THEA 231 Stage Combat II**

This course offers continued study of safe and realistic violence for the stage and screen. The emphasis is on Advanced Unarmed and Rapier and Dagger; new weapon skill- Broadsword added. Midterm scenes will be performed in the classroom. Final scenes will be performed on the main stage during Performance Week. Adjudication of Skills Proficiency by a Fight Master of the Society of American Fight Directors and the British Academy of Stage and Screen Combat will be integrated into the final performances.

**Repeatable:** N

**Formerly** 31-2316

**Prerequisites** THEA 230 Stage Combat I

**Minimum Credits 3 Maximum Credits 3**

### **THEA 251 Accents and Dialects**

This course asks students to examine and practice the 10 most commonly used English and foreign language dialects encountered in English-speaking theatre. Content emphasizes technical aspects of dialect, such as vowel and consonant pronunciation, lilt, rhythm, and vocabulary, and how they affect a theatrical character's personality.

**Repeatable:** Y

**Formerly** 31-2325

**Prerequisites** THEA 112 Theatre Foundation II: Performance or THEA 103 Voice for Non-Theatre Majors or RADI 105 Voice and Articulation

**Minimum Credits 3 Maximum Credits 3**

## **Movement Elective**

*Choose one of the following courses:*

### **THEA 113 Feldenkrais: Awareness through Movement**

Course is based on Moshe Feldenkrais Awareness through Movement lessons. Through select breathing and movement sequences, students learn new vocal patterns and make spontaneous acting choices beyond habitual movement. Movement sequences are light and easy and may be accomplished by anyone regardless of age or physical limitations.

**Repeatable:** Y

**Formerly** 31-1310

**Minimum Credits 3 Maximum Credits 3**

## **THEA 230 Stage Combat I**

This beginning course instructs students in how to create the illusion of violence for stage and screen including basic instruction in Unarmed (feet, fists, slaps, punches, kicks, falls, and rolls) and Rapier and Dagger (parries, cuts, thrusts and more!) The emphasis is on safe and realistic violence for the stage. Midterm scenes will be performed in the classroom. Final scenes will be performed in a theatre during the final weeks of the semester.

**Repeatable:** N

**Formerly** 31-2315

**Prerequisites** THEA 101 Acting Basic Skills for Non-Acting Majors or THEA 111 Theatre Foundation I: Theatre Making or THEA 120 Comedy Foundations I: Ensemble and Discovery or THEA 141 Musical Theatre Foundations

**Minimum Credits 3 Maximum Credits 3**

## **Advanced Acting Elective**

*Choose one of the following courses:*

### **THEA 305 Advanced Acting: Realism**

Students will develop their performance skills and experience with the stylistic concepts of realism and naturalism. Emphasis is placed on the work the performer must do to activate the text and explore relationships between characters. The audience/performance relationship associated with realism will be considered. Students will research and perform texts from a wide spectrum of cultural, economic and social perspectives. This is an advanced acting class that combines learning from previous classes in text analysis, theater history, scene study and vocal and physical training.

**Repeatable:** N

**Prerequisites** THEA 250 Character & Ensemble and THEA 204 Movement for the Actor or THEA 250 Character & Ensemble and THEA 143 Musical Theatre Dance I

**Minimum Credits 3 Maximum Credits 3**

### **THEA 306 Advanced Acting: Presentational Theatre**

Students will develop their skills and experience with performance styles from a range of theatrical periods and playwrights focusing on absurd, expressionistic, political, surrealist and current dramatic styles in which the performer acknowledges the act of performance. The audience/performance relationship will be widely explored. Students will research and perform texts from a wide spectrum of cultural, economic and social perspectives. This is an advanced acting class that combines learning from previous classes in text analysis, theater history, scene study and vocal and physical training.

**Repeatable:** N

**Formerly** 31-3228

**Prerequisites** THEA 250 Character & Ensemble and THEA 204 Movement for the Actor or THEA 250 Character & Ensemble and THEA 143 Musical Theatre Dance I

**Minimum Credits 3 Maximum Credits 3**

### **THEA 307 Advanced Acting: Comedic Performance**

Students will develop their performance skills and experience with a variety of comedic materials from a range of theatrical periods and playwrights. Emphasis will be placed on the creative exploration of comedy through language, physicality and relationship. Cultural considerations about comedy will be investigated. Students will research and perform texts from a wide spectrum of cultural, economic and social perspectives. This is an advanced acting class that synthesizes learning from previous classes in text analysis, theater history, scene study and vocal and physical training.

**Repeatable:** *N*

**Prerequisites** THEA 250 Character & Ensemble and THEA 204 Movement for the Actor or THEA 250 Character & Ensemble and THEA 143 Musical Theatre Dance I

**Minimum Credits 3 Maximum Credits 3**

### **Place, Purpose, and Performance Elective**

*Choose one of the following courses:*

#### **THEA 269 Solo Performance I**

This course requires that students use various writing exercises to experiment with generating their own written material, whether it be autobiographical, character driven, or a literary adaptation. They will learn how to present their personal work in monologue form with the focus on culminating in one five minute solo performance piece, to be presented during Performance Week. Students will also be exposed to the work of various contemporary solo performance artists. There will be some journal writing as well as weekly writing assignments.

**Repeatable:** *N*

**Formerly** 31-3810

**Prerequisites** THEA 207 Scenes: Performance & Analysis or THEA 240 Musical Theatre Scene Study or THEA 268 Playwriting II

**Minimum Credits 3 Maximum Credits 3**

#### **THEA 450 Devising I**

Students will explore, devise and present ensemble created works in various styles.

**Repeatable:** *N*

**Formerly** 31-3706

**Prerequisites** THEA 112 Theatre Foundation II: Performance or THEA 101 Acting Basic Skills for Non-Acting Majors or THEA 152 Aesthetics for Theatre Makers or MUSC 223 Elements of Music Design or ARTS 105 Foundation Studio or DANC 167 Dance Improvisation or THEA 121 Comedy Foundations II: Point of View and Performance

**Minimum Credits 3 Maximum Credits 3**

#### **THEA 482 Teaching Practicum**

Theatre Teaching Practicum provides an entry into Teaching Artistry through theory and practical application.

**Repeatable:** *N*

**Formerly** 31-2950

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **Musical Theatre Performance, BFA**

The BFA in Musical Theatre Performance provides rigorous, intensive, pre-professional education in the skills and disciplines of musical theatre. We emphasize the synthesis of acting, singing and musicianship, dance technique and styles, and theatre history in order to prepare students for the demands of a field that values the contributions of a “triple threat” performer. Our program capacities are intentionally small to ensure individual attention, honing both the skills of the solo player as well as ensuring a strong commitment to an ensemble ethos.

BFA students are encouraged to put into practice what they learn in the classroom through the preparation and presentation of performances produced in the department. In the classroom, students work with a faculty of professionals in the field, who bring their expertise to the art, craft, and business of the theatre, with an emphasis on the ongoing need to grow as an artist if they choose to pursue a career in professional musical theatre.

BFA students are regularly evaluated to monitor their levels of achievement, progress and suggest directions for growth. Students must maintain a 3.0 GPA in the major, complete performance requirements, and demonstrate continued development in order to continue in the BFA program.

As a result of successfully completing program requirements, students should be able to:

- inhabit a psychologically and physically credible character through research, text analysis, rehearsal and exploration, and synthesize characterization onstage as an actor, singer and dancer;
- exhibit strong musicianship skills and vocal technique, and demonstrate song interpretation and musical role preparation abilities in a wide variety of styles and formats;
- demonstrate strong dance technique and articulate terminology in ballet, jazz, tap and musical theatre styles as an additional means of characterization that further the dramatic life of the scene;
- effectively communicate through speech and writing an advanced knowledge of musical theatre repertory and history;
- develop a strategy for entering the profession and sustaining a career through the creation of a business model for self-management as a performer/theatre maker; and
- articulate a knowledge of contemporary performance practice that deepens their skill set and broadens their professional opportunities.

## **PROGRAM REQUIREMENTS - 81 credits required**

### **MUSC 104 Theory II for Musical Theatre**

Theory II for Musical Theatre is a fundamental course tailored to musical theatre students in the Musical Theatre BA and Musical Theatre Performance BFA, as well as other programs. The course concentrates on the core theoretical concepts utilized in music and provides basic aural skills training incorporating genre appropriate music. The course combines study of the concepts of notation, rhythm, tonality, and harmony in the context of reading and aural perception of music through performance and dictation of melodies,

intervals, triads, major and minor scales, chord progressions, and basic chord structures. Students learn the written musical theory for concepts addressed in the course and have the ability to demonstrate and apply them through dictation and performance.

**Repeatable:** *N*

**Formerly** 32-1170

**Prerequisites** MUSC 103 Theory I for Musical Theatre or MUSC-T-77 EXAM-MUSC MINIMUM SCORE = 77

Music Theatre Majors Only (2MUS)

**Minimum Credits 3 Maximum Credits 3**

## **MUSC 107 Fundamentals of Musical Theatre Singing**

This course is a beginning level class in singing for the musical theatre performer. It is designed to familiarize students with fundamental vocal techniques and musical theatre repertoire and to help students become comfortable with solo and ensemble singing onstage.

**Repeatable:** *N*

**Formerly** 32-1540

**Requirements** Permission Required (DP) Musical Theatre Majors Only (2MUS)

**Minimum Credits 3 Maximum Credits 3**

## **MUSC 176 Keyboard for Musical Theatre**

This course instructs students how to play the keyboard and how to read its notation on the grand staff. Students learn proper playing position and the necessary technique to play pentachords, cadential sequences, and major scales using both hands in all major and minor keys. In addition, students analyze, play, and transpose short melodies from popular and theater repertoire in major and minor keys in either hand; harmonize longer melodies in major and minor keys; sight read simple short melodies with both hands; and perform a short piece from a piano score using both hands.

**Repeatable:** *N*

**Formerly** 32-1131

Musical Theatre Majors Only (2MUS)

**Minimum Credits 2 Maximum Credits 2**

## **THEA 107 Theatre Survey II: American Drama**

The American theatre both reflects and creates American identity. This course will examine plays from the mid-nineteenth century through the present day to investigate the ways that Americans participated in the construction, and deconstruction, of Americans' sense of self. Rather than a complete review of American drama, this course will survey a range of content, form, and styles as they define American drama and American identity.

**Repeatable:** *N*

**Prerequisites** THEA 106 Theatre Survey I: Global Drama or THEA 124 Comedy Survey I or THEA 141

Musical Theatre Foundations

**Minimum Credits 2 Maximum Credits 2**

## **THEA 112 Theatre Foundation II: Performance**

In Theatre Foundation II: Performance students will explore presence, the audience/performer relationship and how to shape time, space and energy in work with scripted and devised material. This course is a continuation of Theatre Foundation I and provides a strong foundation for the performer through an integrated study of movement and voice, ensemble and performance. Students will investigate dramatic story telling by exploring the relationship between text and character and in working on monologues and two person scenes.

**Repeatable:** *N*

**Formerly** 31-1252

**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making or THEA 120 Comedy Foundations I: Ensemble and Discovery or THEA 141 Musical Theatre Foundations

**Concurrent Requisite** THEA 107 Theatre Survey II: American Drama

**Minimum Credits 4 Maximum Credits 4**

## **THEA 140 Musical Theatre History**

Required for Musical Theatre/Musical Theatre Performance majors, also open as elective to students in other majors. Course examines musical theatre history from beginnings through 'The Golden Age' of American song and the American musical to the present. Students study key figures, songs and shows in musical theatre, as well as social and cultural factors that influenced the form. Course develops research and critical thinking skills through reading and discussion of textbook, audio/visual presentations, essays, research projects, and tests.

**Repeatable:** *N*

**Formerly** 31-1400

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

## **THEA 141 Musical Theatre Foundations**

Musical Theatre (MT) Foundations prepares incoming students for their role as creative practitioners of musical theatre. Students investigate the elements and principles of the artistic process that can be applied to all aspects of creating musical theatre. The course develops students' awareness, observation and collaborative skills, and their ability to transpose experiences in the world of the play or musical into written, vocal and physical form. Production numbers that explore style and representative genres will be major projects. Readings, composition work in class, and attendance at productions deepen students' understanding and appreciation of the scope of contemporary musical theatre-making. The course will meet in a five-week sub session.

**Repeatable:** *N*

Musical Theatre Majors Only (3MUS)

**Minimum Credits 1 Maximum Credits 1**

## **THEA 202 Traditions of World Theatre**

This course will survey the dramas, history, and aesthetics of performance traditions from various locations around the world including Africa, Asia, Latin America, and the West (United States and Europe), emphasizing important developments and highlighting pivotal movements and participants within their broader historical, social, and cultural contexts. Through an examination of theatrical forms, expressive styles, and contributions of performance traditions from around the world, students will become acquainted with how theatre reflects and constitutes community and culture.

**Repeatable:** *N*

**Formerly** 31-2103

**HU DEI**

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

### **THEA 203 Voice for the Actor**

This course teaches the practice of healthy vocal use by exploring the processes of speech production. Knowledge of the basic anatomy of the breathing musculature and vocal mechanism will support the student actor's developing technique. Particular attention will be paid to freeing both the body and voice from over-effort. The speech sounds of the General American English dialect will be introduced as a tool for students to develop energy and clarity in articulating thought. Students will build their palette of vocal expression through the use of dramatic text.

**Repeatable:** *N*

**Formerly** 31-2300

**Prerequisites** THEA 103 Voice for Non-Theatre Majors and THEA 101 Acting Basic Skills for Non-Acting Majors or THEA 112 Theatre Foundation II: Performance

**Minimum Credits 3 Maximum Credits 3**

### **THEA 205 Text Analysis**

This course introduces students to varying methods and approaches to script analysis. While students will become familiar with traditional methods of analysis, a significant emphasis will be placed on alternative and complementary methods including contemplation and intuitive responses, visualization and imagery, and somatic responses to play scripts. Through course readings, presentations, and group activities, furthermore, this course will familiarize students with vocabulary and strategies of analysis for actors, designers, and playwrights, thereby facilitating communication of production ideas.

**Repeatable:** *N*

**Formerly** 31-2120

**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making and ENGL 112 Writing and Rhetoric II or THEA 111 Theatre Foundation I: Theatre Making and ENGL 112H Writing and Rhetoric II: Honors or THEA 111 Theatre Foundation I: Theatre Making and ENGL 122 International Writing and Rhetoric II or THEA 141 Musical Theatre Foundations and ENGL 112 Writing and Rhetoric II or THEA 141 Musical Theatre Foundations and ENGL 112H Writing and Rhetoric II: Honors or THEA 141 Musical Theatre Foundations and ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

### **THEA 240 Musical Theatre Scene Study**

This course requires the musical theatre student to apply their knowledge of basic scene structure and musicality to material from the musical theatre repertoire. The students study and perform two or three-person scenes from musical theatre works with an eye towards introducing the synthesis of song, vocal technique, text, objectives and tactics to further the dramatic life of the material.

**Repeatable:** *N*

**Formerly** 31-2201

**Prerequisites** MUSC 107 Fundamentals of Musical Theatre Singing and THEA 102 Scene Study for Non-

Acting Majors and THEA 143 Musical Theatre Dance I and MUSC 104 Theory II for Musical Theatre and THEA 140 Musical Theatre History or MUSC 107 Fundamentals of Musical Theatre Singing and THEA 112 Theatre Foundation II: Performance and THEA 143 Musical Theatre Dance I and MUSC 104 Theory II for Musical Theatre and THEA 140 Musical Theatre History

**Minimum Credits 3 Maximum Credits 3**

### **THEA 250 Character & Ensemble**

Students analyze the shifting alliances and conflicts that occur in scenes between three or more characters. This analytical work is explored in the context of heightened give and take, awareness, concentration and focus demanded in a more populated stage space. Students are encouraged to make active, transformative choices in physical and vocal technique, and are expected to take responsibility for memorization, preparation and reflection that is essential to the actor's discipline. Students will present scenes for live and on-camera performance.

**Repeatable:** N

**Formerly** 31-2205

**Prerequisites** THEA 207 Scenes: Performance & Analysis and THEA 203 Voice for the Actor and THEA 205 Text Analysis or THEA 240 Musical Theatre Scene Study and THEA 203 Voice for the Actor and THEA 205 Text Analysis

**Minimum Credits 4 Maximum Credits 4**

### **THEA 251 Accents and Dialects**

This course asks students to examine and practice the 10 most commonly used English and foreign language dialects encountered in English-speaking theatre. Content emphasizes technical aspects of dialect, such as vowel and consonant pronunciation, lilt, rhythm, and vocabulary, and how they affect a theatrical character's personality.

**Repeatable:** Y

**Formerly** 31-2325

**Minimum Credits 3 Maximum Credits 3**

### **THEA 289 Musical Theatre Audition Workshop**

This workshop is specifically for students who plan to regularly audition for musical theatre, and focuses primarily on the singing portion of auditions. Discussion topics include how to create a well-rounded audition book, select and prepare audition song cuts, communicate with accompanists, and tailor auditions to specific shows/roles.

**Repeatable:** N

**Formerly** 31-2940

Musical Theatre Majors Only (3MUS)

**Minimum Credits 1 Maximum Credits 1**

### **THEA 340 Scenes and Songs**

In this multi-disciplinary course in acting and singing for musical theatre, students prepare and perform material from several genres of the musical theatre canon and apply dramaturgical research and text analysis to characterization. Students work to bring characters to life through complete physical, vocal and

emotional transformation. Performance style will be introduced, and strong musicianship and vocal technique will continue to be integrated. Emphasis will be placed on working within a supportive ensemble aesthetic, developing a language of constructive feedback and participating in the growth of classmates' work.

**Repeatable:** *N*

**Formerly** 31-2400

**Minimum Credits 3 Maximum Credits 3**

### **THEA 390 Theatre Career**

This course will provide upper level Theatre majors with practical knowledge they will need to transition into careers in their field. Taught by our faculty of theatre professionals, this course explores: unions and contracts as they relate to theatre artists; models of producing: from the storefront theatre to LORT; creating a new theatre company; and self-promotion.

**Repeatable:** *N*

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 1 Maximum Credits 1**

### **THEA 426 Advanced Audition Techniques for Musical Theatre**

This is a comprehensive course that empowers advanced musical theatre students with the skills needed for successful auditions. The class defines an audition as a fully-realized performance strengthened by strategy, savvy presentation and marketing techniques. The course includes individual coachings on audition pieces (songs and monologues), vocal genres and styles, in-depth discussions on selecting material, understanding type, mock audition exercises under varied conditions, callback preparation, cold readings, the casting process, and the business of the business. BFA Musical Theatre Performance Majors only or permission of instructor.

**Repeatable:** *N*

**Formerly** 31-3926

**Prerequisites** THEA 240 Musical Theatre Scene Study

*Complete 10 credits from the following courses:*

### **THEA 143 Musical Theatre Dance I**

This course is a practical approach to the basic techniques of musical theatre dance required of musical theatre majors at the beginning level. Each class includes ballet and jazz dance terminology, basic floor combinations, and a variety of musical theatre dance styles. Students are offered a focused approach to develop performance skills and demonstrate improved flexibility, musicality and strength in ballet and jazz techniques. Students are introduced to musical theatre dance combinations and professional musical theatre audition procedures.

**Repeatable:** Y  
**Formerly** 31-1430  
Musical Theatre Majors Only (3MUS)  
**Minimum Credits 2 Maximum Credits 2**

### **THEA 243 Musical Theatre Dance II**

This course expands the technical skills in musical theatre dance styles required of musical theatre majors at the intermediate level. Each class includes ballet and jazz dance terminology, floor combinations, a variety of musical theatre dance styles and mock auditions. Students are challenged with more complicated material, and greater demands are placed on speed of learning and retention of choreography for audition purposes. Significant attention is paid to audition practices and professional discipline.

**Repeatable:** Y  
**Formerly** 31-2430  
**Prerequisites** THEA 143 Musical Theatre Dance I  
**Minimum Credits 2 Maximum Credits 2**

### **THEA 440 Musical Theatre Dance III**

This course incorporates all techniques and performance skills acquired in previous musical theatre dance levels, with an emphasis on the elements of style in musical theatre dance. Students frequently learn original Broadway choreography. Attention focuses on developing advanced audition and performance skills in preparation for seeking employment in the musical theatre industry. Significant attention is placed on audition practices and professional discipline. Students are required to audition for Columbia College Theatre Department as well as professional theatre productions.

**Repeatable:** Y  
**Formerly** 31-3430  
**Prerequisites** THEA 243 Musical Theatre Dance II  
**Minimum Credits 2 Maximum Credits 2**

### **THEA 442 Musical Theatre Choreography Lab**

This course explores musical theatre dance from a choreographer's perspective. Students research a variety of classic and/or contemporary styles of musical theatre dance. Exercises in music choice, character development, choreographic patterns, partner work, use of props, and creative concepts will be emphasized.

Required projects include creating two choreography pieces utilizing this research as inspiration to develop an original choreographic expression. Students engage in a collaborative environment to develop these choreographic works and present them in a formal performance environment.

**Repeatable:** Y

**Formerly** 31-3436

**Prerequisites** THEA 440 Musical Theatre Dance III and THEA 140 Musical Theatre History

**Minimum Credits 1 Maximum Credits 1**

*Complete 4 credits from the following courses:*

### **THEA 145 Beginning Musical Theatre Tap**

This course develops dance technique and repertoire within the specialized styles of musical theatre tap and is required of musical theatre majors at the beginning level. Each class includes tap terminology, rhythm progressions, and Broadway-style tap combinations. Students are offered a focused approach to develop performance skills and demonstrate improved flexibility, strength, and the ability to execute basic rhythm sequences. Students are introduced to tap dance combinations and professional musical theatre audition procedures.

**Repeatable:** Y

**Formerly** 31-1431

**Prerequisites** THEA 143 Musical Theatre Dance I

**Minimum Credits 2 Maximum Credits 2**

### **THEA 245 Intermediate Musical Theatre Tap**

This course develops technique, performance, and repertoire within the specialized styles of musical theatre tap required of musical theatre majors at the intermediate level. Each class includes tap terminology, rhythm progressions, Broadway-style tap combinations, and mock auditions. Emphasis will be placed on speed of learning and retention of choreography for audition purposes. Significant attention is paid to audition practices and professional discipline.

**Repeatable:** Y

**Formerly** 31-2431

**Prerequisites** THEA 145 Beginning Musical Theatre Tap

**Minimum Credits 2 Maximum Credits 2**

### **THEA 345 Advanced Musical Theatre Tap**

This course develops technique, performance, and repertoire within the specialized styles of musical theatre tap at the advanced level. Focus will be placed on complex rhythms, progressions, and mock auditions. Original Broadway choreography and student choreography projects are included as part of the required assignments. Significant attention is placed on professional audition practices. Students are required to audition for Columbia College Theatre Department as well as professional theatre productions.

**Repeatable:** Y

**Formerly** 31-3435

**Prerequisites** THEA 245 Intermediate Musical Theatre Tap

**Minimum Credits 2 Maximum Credits 2**

*Complete 3 credits from the following courses:*

## **THEA 285 Creating a Performance**

This course is required for all students that are chosen to rehearse, design and perform a main stage production of the Theatre department. The ensemble will include design, production, and acting members. Each will work as a specialist within their area of concentration, but also as an ensemble member who will seek and give input outside the area of their growing expertise. Students will use collaborative models appropriate to the involvement required at different stages of creative and practical performance development.

**Repeatable:** Y

**Formerly** 31-2960

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

## **THEA 286 Production and Performance**

Creative participation as a performer, designer, technician or crew member in Student Directing Projects, New Stew Showcases, Comedy or Faculty Workshop, or other department performances.

**Repeatable:** Y

**Formerly** 31-2301

**Requirements** Permission Required (DP)

**Minimum Credits 0 Maximum Credits 2**

*Choose one of the following courses:*

## **THEA 301 Advanced Acting: Heightened Languages**

Students will develop performance and analytical skills demanded by texts with heightened language. Emphasis will be placed on how heightened language supports acting choices, and on physical engagement with the text through breath, resonance and the tactile feel of language. Students will research and perform texts from a wide spectrum of cultural, economic and social diversity. This is an advanced acting class that synthesizes learning from previous classes in text analysis, theater history, scene study and vocal and physical training.

**Repeatable:** N

**Formerly** 31-3204

**Prerequisites** THEA 250 Character & Ensemble and THEA 143 Musical Theatre Dance I or THEA 204 Movement for the Actor and THEA 250 Character & Ensemble

**Minimum Credits 3 Maximum Credits 3**

## **THEA 302 Advanced Acting: Physical Approaches**

Students will develop performance and devising skills that are based in the physicality of the actor. Emphasis will be on different physical approaches that investigate impulse, energy, 'spine' and the kinesthetic relationship between performers. Students will research and explore performance representing a wide spectrum of cultural, economic and social diversity. This is an advanced acting class that synthesizes learning from previous classes in text analysis, theater history, scene study and vocal and physical training.

**Repeatable:** N

**Formerly** 31-3200

**Prerequisites** THEA 250 Character & Ensemble and THEA 143 Musical Theatre Dance I or THEA 250

Character & Ensemble and THEA 204 Movement for the Actor

**Minimum Credits 3 Maximum Credits 3**

### **THEA 304 Advanced Acting: On-Camera Performance**

Students develop the skills, terminology and etiquette for performance in the on-camera environment. This combined class works with television and/or film directors to collaborate in rehearsal, performance, capture and post-production processes. Students learn how to prepare for auditions and on-camera performances by taking an active role shaping their own performances in relation to text, character, presentation and performance context. Students also consider how to be compositional 'within the frame', how to maintain continuity, and how to make discoveries from take to take.

**Repeatable:** *N*

**Prerequisites** THEA 250 Character & Ensemble

**Minimum Credits 3 Maximum Credits 3**

### **THEA 305 Advanced Acting: Realism**

Students will develop their performance skills and experience with the stylistic concepts of realism and naturalism. Emphasis is placed on the work the performer must do to activate the text and explore relationships between characters. The audience/performance relationship associated with realism will be considered. Students will research and perform texts from a wide spectrum of cultural, economic and social perspectives. This is an advanced acting class that combines learning from previous classes in text analysis, theater history, scene study and vocal and physical training.

**Repeatable:** *N*

**Prerequisites** THEA 250 Character & Ensemble and THEA 204 Movement for the Actor or THEA 250 Character & Ensemble and THEA 143 Musical Theatre Dance I

**Minimum Credits 3 Maximum Credits 3**

### **THEA 306 Advanced Acting: Presentational Theatre**

Students will develop their skills and experience with performance styles from a range of theatrical periods and playwrights focusing on absurd, expressionistic, political, surrealistic and current dramatic styles in which the performer acknowledges the act of performance. The audience/performance relationship will be widely explored. Students will research and perform texts from a wide spectrum of cultural, economic and social perspectives. This is an advanced acting class that combines learning from previous classes in text analysis, theater history, scene study and vocal and physical training.

**Repeatable:** *N*

**Formerly** 31-3228

**Prerequisites** THEA 250 Character & Ensemble and THEA 204 Movement for the Actor or THEA 250 Character & Ensemble and THEA 143 Musical Theatre Dance I

**Minimum Credits 3 Maximum Credits 3**

### **THEA 307 Advanced Acting: Comedic Performance**

Students will develop their performance skills and experience with a variety of comedic materials from a range of theatrical periods and playwrights. Emphasis will be placed on the creative exploration of comedy through language, physicality and relationship. Cultural considerations about comedy will be investigated. Students will research and perform texts from a wide spectrum of cultural, economic and social perspectives. This is an advanced acting class that synthesizes learning from previous classes in text

analysis, theater history, scene study and vocal and physical training.

**Repeatable:** *N*

**Prerequisites** THEA 250 Character & Ensemble and THEA 204 Movement for the Actor or THEA 250 Character & Ensemble and THEA 143 Musical Theatre Dance I

**Minimum Credits 3 Maximum Credits 3**

## Certificate

### Intimacy for Stage and Screen Certificate

This 16-credit graduate certificate will empower artists with industry best practices for the safe, ethical and effective staging of intimacy, nudity and sexual violence for both stage and screen. This program is a rigorous examination of tested methodologies for Intimacy Coordination for TV and Film and Intimacy Choreography for Theatre. This important training teaches graduate students current best practices for the support of the consent and boundaries of the performers, and culturally informed collaborative practices for maintaining the director's vision and the integrity of the production. With this training, students will exhibit an understanding of methods for creating excellent, high-quality choreography and tools and techniques. Additionally, students will demonstrate knowledge and leadership so that a culture of consent becomes the norm in every production process while coordinating the logistical and administrative needs of a wide range of processes.

As a result of successfully completing program requirements, students should be able to:

- demonstrate cultural competency by engaging in training and practical activities to support diversity, equity, and inclusion specific to the fields of Intimacy Choreography and Coordination;
- exhibit comprehension of consent, power dynamics, and boundaries specific to the fields of theatre/live performance, film, and education, and practice techniques for mitigating and addressing those issues;
- utilize choreography and physical storytelling and acquire tools and techniques specific to coaching and crafting intimate scenes;
- demonstrate theatre/live performance specific processes, roles, power dynamics and hierarchies, collaborative methods, team structures, and procedures for working in the theatre/live performance industries; and
- demonstrate an understanding of film and television specific processes, roles, power dynamics and hierarchies, collaborative methods, team structures, and procedures for working in the film/television industry.

## PROGRAM REQUIREMENTS - 16 credits required

### THEA 530 Intimacy Foundations: Ethical Practices

Students will develop a nuanced understanding of the broad spectrum of performance intimacy, consent, and power dynamics. Students will learn the importance of and skills necessary to develop cultural competency and tools for building trauma-informed practices. In this course, students will also complete training in Mental Health First Aid through the National Council for Mental Wellbeing (MHFA through NCMW), and participate in anti-racism training, gender diversity training, comprehensive and inclusive sex ed, and anti-harassment training.

**Repeatable:** *N*

Intimacy for Stage and Screen Certificate Students Only

**Minimum Credits 4 Maximum Credits 4**

### **THEA 531 Tools and Techniques for Intimacy**

Students will learn consent mechanics and boundary establishment practices for theatre, opera, dance, film, and immersive performance. Students will explore and practice desexualized and de-loaded language and professional practices. This course will also cover best practices for nudity, consent-based casting, and documentation.

**Repeatable:** *N*

Intimacy for Stage and Screen Certificate Students Only

**Minimum Credits 4 Maximum Credits 4**

### **THEA 532 Intimacy Choreography for Live Performance**

With a background in the practical and theoretical underpinnings of ethical intimacy specialization, students will be guided through the process of working as an Intimacy Choreographer. While completing in-class projects and developing choreographic ability and skill, students will also complete independent choreography assignments for academic, community, or professional live performance groups.

**Repeatable:** *N*

**Prerequisites** THEA 530 Intimacy Foundations: Ethical Practices and THEA 531 Tools and Techniques for Intimacy

Intimacy for Stage and Screen Certificate Students Only

**Minimum Credits 4 Maximum Credits 4**

### **THEA 533 Intimacy Coordination for Film and Television**

With a background in the practical and theoretical underpinnings of ethical intimacy specialization, students will be guided through the specific and complex process of working as an Intimacy Coordinator for Filmed Media. While completing in-class projects and developing choreographic ability and skill, students will also complete independent coordination assignments for academic, community, or professionally recorded media projects.

**Repeatable:** *N*

**Prerequisites** THEA 530 Intimacy Foundations: Ethical Practices and THEA 531 Tools and Techniques for Intimacy

Intimacy for Stage and Screen Certificate Students Only

**Minimum Credits 4 Maximum Credits 4**

## **Master of Arts**

### **Acting and Contemporary Performance Making, MA**

The Master of Arts (MA) in Acting and Contemporary Performance Making is a one-year program that offers specific skills and experience in the fields of acting and devising. Students receive rigorous preparation in the foundational skills of acting and collaborative devising, including approaches to presence, characterization, physical and vocal expression, improvisation, realistic and heightened texts, collaboration, and creative experimentation. Students will receive exposure to multiple styles, performance formats and

media (including on-camera and voiceover work) and will create two fully-produced original plays. They will also receive a grounding in entrepreneurship and innovation for creatives, which will prepare them to launch their own independent creative careers and collaborative ensembles.

As a result of successfully completing program requirements, students should be able to:

- apply vocal, movement and acting techniques from the realistic to the abstract within performance;
- create and perform material within different theatrical styles and performance languages;
- engage successfully in the artistic and administrative aspects of a collaborative ensemble;
- contribute original work to the theatrical culture of Chicago; and
- employ entrepreneurial skills and best business practices in the creation and development of artistic careers within an ensemble or as a solo artist.

## PROGRAM REQUIREMENTS - 30 credits required

### **BUSE 671 New Ventures in the Creative Marketplace**

In this course, students will learn about the commercial and social importance of innovation in creative industries. Discussion topics include: the entrepreneurial landscape, the traits of a successful entrepreneur, opportunities and challenges in launching and managing new creative ventures, and market viability. Students will work collaboratively to develop, model, produce, and analyze their business ideas.

**Repeatable:** *N*

**Minimum Credits 3 Maximum Credits 3**

### **THEA 601 Vocal Techniques I**

The focus of this course is on developing flexibility, range and power in vocal expression. Students will be introduced to and develop their own personal warm-up methods. There will also be application of the vocal training to text. Troubleshooting will occur on an individual level, to begin dealing with student's personal vocal difficulties.

**Repeatable:** *N*

**Formerly** 31-6350LSP

**Concurrent Requisite** THEA 610 Constructing Contemporary Performance I  
Theatre MA and MFA only (G310)

**Minimum Credits 2 Maximum Credits 2**

### **THEA 602 Vocal Techniques II**

The focus of this course is on developing flexibility, range and power in vocal expression. There will also be application of the vocal training to text. Various exercises and practices will explore the voice as a conduit for energetic presence, intention, emotion and meaning, and embodied language. Troubleshooting will occur on an individual level, to continue dealing with student's personal vocal difficulties.

**Repeatable:** *N*

**Formerly** 31-6355LSP

**Prerequisites** THEA 601 Vocal Techniques I

Theatre MA and MFA only (G310)  
**Minimum Credits 2 Maximum Credits 2**

### **THEA 605 Movement for the Performer I**

A core element of the first year of training, the work of this two-semester class is designed to enable students to develop a practical understanding of the moving human body in space and time, and a more profound understanding of those essential movement laws which structure natural life. Through study of Feldenkrais and Authentic Movement, students gain an appreciation of the expressive and creative potential of the body in performance.

**Repeatable:** *N*  
**Formerly** 31-6330LSP  
Theatre MA and MFA only (G310)  
**Minimum Credits 2 Maximum Credits 2**

### **THEA 606 Movement for the Performer II**

A core element of the first year of training, the work of this unit is designed to enable the student to apply their growing awareness of movement to the demands of contemporary theatre and performance. Through continued study of Feldenkrais and Authentic Movement, students deepen their appreciation of the relationship between the natural movements of life, as they can be observed, and their application to dramatic and post dramatic visions of theatre and performance, paving the way for an autonomous, creative use of this understanding for devising, writing, directing and performing.

**Repeatable:** *N*  
**Formerly** 31-6335LSP  
**Prerequisites** THEA 605 Movement for the Performer I  
Theatre MA and MFA only (G310)  
**Minimum Credits 2 Maximum Credits 2**

### **THEA 610 Constructing Contemporary Performance I**

This course traces the historical emergence of the building blocks of contemporary performance practice (space, time, memory, embodied presence), through avant-garde practices in theatre, dance, music and film, informed by activist trends in the social and political landscapes. Students will engage in practice-based research leading to performance.

**Repeatable:** *N*  
**Formerly** 31-6100LSP  
Theatre MA and MFA only (G310)  
**Minimum Credits 2 Maximum Credits 2**

### **THEA 611 Constructing Contemporary Performance II**

Building on the foundational knowledge acquired in THEA 610, this course examines the intersection of post-dramatic theatre with performance art practices. Topics will include the use of video in the works of performance artists such as Nam June Paik, the creation of digital-based interactive art, design-activated performance, installation art, and the cyborg aesthetic of artists such as Stelarc. Students will engage in practice-based research leading to performance.

**Repeatable:** *N*

**Formerly** 31-6105LSP

**Prerequisites** THEA 610 Constructing Contemporary Performance I  
Theatre MA and MFA only (G310)

**Minimum Credits 2 Maximum Credits 2**

## **THEA 620 Acting and Performance I**

As a core element of the first year of training, the work of this two-semester class prepares students for multiple approaches important to contemporary acting and performance-making. Meeting on a daily basis, classes focus on enhancing physical, emotional, imaginative and cognitive playfulness and expressiveness. We explore the elements of acting and performance making, including time, space, rhythm, comedic and dramatic dynamics, character, story, and performer/audience relationship. Training includes rigorous encounters with a range of techniques and disciplines from psychophysical realism to mask performance, comedic performance, object theatre, on-camera/media work, work with modern and classic texts, and ensemble-based devised performance.

**Repeatable:** *N*

**Formerly** 31-6310LSP

Theatre MA and MFA only (G310)

**Minimum Credits 4 Maximum Credits 4**

## **THEA 621 Acting and Performance II**

As a core element of the first year of training, the work of this two-semester class prepares students in multiple approaches important to contemporary acting and performance making. Meeting on a daily basis, classes focus on enhancing physical, emotional, imaginative and cognitive playfulness and expressiveness. We explore the elements of acting and performance making, including time, space, rhythm, comedic and dramatic dynamics, character, story, and performer/audience relationship. Training includes continued encounters with a range of techniques and disciplines, and progressive application to the creation of original performances.

**Repeatable:** *N*

**Formerly** 31-6315LSP

**Prerequisites** THEA 620 Acting and Performance I  
Theatre MA and MFA only (G310)

**Minimum Credits 4 Maximum Credits 4**

## **THEA 625 Personal Creative Process I**

Developing an awareness of internal obstacles that challenge our creative availability is key to the shaping of sustainable practice as a creator. Through direct contact with materials - drawing, painting, sculpting/clay work and other expressive arts - students will explore an embodied relationship to states of flow, resistance, play and judgment. Daily drawing/painting practice, combined with group work, reflection and personal writing also allows students to deeply ground the experiential process of the course as a whole.

**Repeatable:** N

**Formerly** 31-6910LSP

Theatre MA and MFA only (G310)

**Minimum Credits 1 Maximum Credits 1**

## **THEA 626 Personal Creative Process II**

Students continue to develop their awareness of internal obstacles that challenge their creativity, in support of developing a sustainable practice as a performance maker. Through continued contact with materials and enhanced exploration of the principles and elements of design for performance, students will deepen their embodied relationship to states of flow, resistance, play and judgment. Daily practice, combined with group work, reflection and personal writing will continue to ground the experiential process of the course as a whole.

**Repeatable:** N

**Formerly** 31-6911LSP

**Prerequisites** THEA 625 Personal Creative Process I

Theatre MA and MFA only (G310)

**Minimum Credits 1 Maximum Credits 1**

## **THEA 629 Research Project**

This course offers participants the opportunity for the creation of a performance project around a theme of their own choice. During the initial phase of the project participants will immerse themselves into practical and theoretical research and real life observation around their themes, before bringing their experiences back to the studio to create solo or group performances. Throughout the entire project, members of the pedagogical team will assist the process. During the final week participants will share their projects with a public audience.

**Repeatable:** Y

**Formerly** 31-6216LSP

Theatre MA and MFA only (G310)

**Minimum Credits 1 Maximum Credits 1**

*Complete 3 credits from the following courses:*

## **ARTH 599 Topics in Contemporary Art History and Theory:**

This rotating topics seminar provides opportunities for students and instructors to explore the interdisciplinarity of contemporary art practices around a particular thematic concern. These might include topics such as the environment collaboration, social practice, diversity, gender, etc.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

## **ARTS 603 Art Practice Now!**

In this course students will attend lectures by visiting contemporary artists, curators, critics, and historians every other week throughout the semester. Students will write reflective essays/ critical response papers on each lecture and will meet on alternate weeks to discuss the lectures.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

### **ARTS 620 Graduate Critique**

This course focuses on group discussion and critical assessment of graduate students' work-in-progress. The course positions the student's work within diverse discourses around contemporary and historical practices, social and cultural issues, technical and formal considerations and related interdisciplinary collaborations and issues. Students present work numerous times throughout the semester and participate actively in feedback on the work of peers. Sessions will feature the participation of department faculty, local and national visiting artists and/or arts professionals who will engage students in rigorous critique.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

### **BUSE 647 Fundraising**

This course offers an in-depth study of philanthropy, non-profit organizations, accountability measures, income sources, and types of campaigns. Students will work with existing organizations to develop a portfolio of an organization analysis, case for funding, campaign plans, solicitation materials for individual gifts, and grant applications.

**Repeatable:** N

**Formerly 28-6315**

**Minimum Credits 3 Maximum Credits 3**

### **COMM 503 Civic Media and Participatory Culture**

This seminar course introduces students to the core theoretical principles and historical underpinnings of civic media derived from theories of participatory culture and media, open data, connected learning, and emerging social media and justice movements.

**Repeatable:** N

**Minimum Credits 3 Maximum Credits 3**

### **PHOT 560 The Documentary Book**

Building upon skills learned in Documentary I, this course continues to broaden and deepen an understanding of the various approaches to documentary photography. This course offers an in depth understanding of the various traditional and contemporary approaches to the photographic documentary book. Using desktop publishing software, the class is designed to help the student produce a book of his or her long-term documentary project.

**Repeatable:** N

**Formerly 23-5525**

**Minimum Credits 3 Maximum Credits 3**

## **PHOT 575 Photography Studies Abroad: Ireland**

This three-to-four week intensive course offers an introduction to practicing photography internationally. Students will engage with the historical and contemporary visual culture of a selected country through visits to sites of interest, museums, galleries and educational institutions. Production of a photographically based work, performance, paper or other creative production during the period of travel is required. Collaborative practice and cultural interaction will be encouraged. Students may also have the opportunity to participate in festivals, exhibitions and/or conferences in the country visited. Acceptance based on students' submission of application.

**Repeatable:** *N*

**Formerly** 23-5795

**Requirements** Permission Required (DP)

**Minimum Credits 1 Maximum Credits 6**

## **PHOT 656 Photographic History, Theory & Criticism: 1989-Present**

This course surveys the major issues in the history, theory and criticism of photography since 1989, a period defined by the internet, globalization, photography's rise to art market prominence, and the decline of medium-specific art theories. Close attention will be paid to photography's intersection with other media - film, painting, and installation. Students will be exposed to a variety of photographic theories and art historical approaches so that they may situate their work within contemporary photographic movements and practices.

**Repeatable:** *N*

**Formerly** 23-6730

**Minimum Credits 3 Maximum Credits 3**

## **THEA 575 International Theatre Workshop**

This course provides Theatre majors with the opportunity to study contemporary techniques and practices in international theatre making through an immersive exposure to the artists, productions, venues and cultural context of a particular international location. Examples from past iterations of the course include mask making and performance in Italy, contemporary physical and visual theatre in London, design and production at the Quadrennial festival in Prague, and modern approaches to classic plays at the Stratford Festival in Stratford, Ontario. The workshop will be variable in topics and credit hours (1-3), and will be offered as either a Summer Semester or J-Term course. Participation in the International Theatre Workshop is open to all Theatre majors.

**Repeatable:** *N*

**Requirements** Permission Required (DP)

**Minimum Credits 1 Maximum Credits 3**

## **THEA 696 Independent Project**

This course requires students to design an independent project, with the approval of the Program Director, and chairperson, to study an area in the field of performance, that is not covered in the current curriculum. Prior to registration, the student must submit a written proposal that outlines the goals and methodologies of the project.

**Repeatable:** *N*

**Requirements** Permission Required (DP) Theatre MA and MFA only (G310)

**Minimum Credits 1 Maximum Credits 3**

## **Master of Fine Arts**

### **Acting and Contemporary Performance Making, MFA**

Columbia College Chicago's MFA in Acting and Contemporary Performance Making, a partnership with Arthaus Berlin International Training Centre for Devised Theatre and Performance, offers a practice-based international theatre experience in the fields of acting, devising, and performance making.

Students spend the first year of the program at Columbia's campus in Chicago, where they explore the foundational skills of acting and performance making, including approaches to presence, characterization, physical and vocal expression, improvisation, realistic and heightened texts, collaboration, and creative experimentation. Students will receive exposure to multiple styles, performance formats and media (including on-camera and voiceover work) and will create two fully-produced original plays.

The second year takes place at the Arthaus studios in Berlin, where students advance their performance training through a deeper investigation of their personal creative voice and vision. Students apply this knowledge to the creation of an original thesis performance.

As a result of successfully completing program requirements, students should be able to:

- apply vocal, movement and acting techniques from the realistic to the abstract within performance;
- create and perform material within different theatrical styles and performance languages;
- demonstrate artistic autonomy through the construction of original devised dramatic and post-dramatic performance works;
- engage successfully in the artistic and administrative aspects of a collaborative ensemble;
- contribute scholarship to the emerging field of performance making through the practice-based research undertaken during the course of two years of study in the discipline;
- contribute original work to the theatrical culture of Chicago, in support of the city's re-emerging interest in, and commitment to, international performance;
- employ entrepreneurial skills and best business practices in the creation and development of artistic careers within an ensemble or as a solo artist; and
- apply the transferable skills acquired during the two-year program to career options within the performing arts and related disciplines.

## **PROGRAM REQUIREMENTS - 49 credits required**

### **THEA 601 Vocal Techniques I**

The focus of this course is on developing flexibility, range and power in vocal expression. Students will be introduced to and develop their own personal warm-up methods. There will also be application of the vocal training to text. Troubleshooting will occur on an individual level, to begin dealing with student's personal vocal difficulties.

**Repeatable:** *N*

Theatre MA and MFA only (G310)

**Minimum Credits 4 Maximum Credits 4**

### **THEA 635 Styles and Forms I**

A core element of the second year of the MFA training, the work of this two-semester course engages students in the challenging task of creating their own work, based on creative research into a range of essential styles and dramatic works in the history of western theatre.

**Repeatable:** N

**Formerly** 31-6320

**Prerequisites** THEA 621 Acting and Performance II

Theatre MA and MFA only (G310)

**Minimum Credits 5 Maximum Credits 5**

### **THEA 636 Styles and Forms II**

This is a continuation of the work done in STYLES AND FORMS I (THEA 635). As a core element of the second year of the MFA training, the work of this two-semester class engages students in the challenging task of creating their own work. Classes introduce students to a range of essential styles and dramatic works

in the history of western theatre. The objective of the course is to deepen the students' understanding of the relationship between style and content, to increase their physical, poetical and intellectual understanding of the underlying structures within very different theatrical styles, and to develop the students' ability to negotiate highly transposed levels of play. This exploration will allow students to develop a better insight into what kind of theatre and performance they are passionate about, and also enable them to go beyond already existing forms in order to create their own work.

**Repeatable:** *N*

**Prerequisites** THEA 635 Styles and Forms I  
Theatre MA and MFA only (G310)

**Minimum Credits 5 Maximum Credits 5**

### **THEA 650 Devised Performance Thesis Project**

The Thesis Project will be the culminating experience for the MFA in Acting and Contemporary Performance Making. During the final semester students will bring together all the elements of the practice-based research undertaken during the program and use it as the basis for (a) creating an Ensemble Company and (b) devising an original piece of theatre. The thesis project performance will be supported by visual and written documentation, detailing every stage of the process from conception to performance.

**Repeatable:** *N*

**Formerly** 31-6225

**Prerequisites** THEA 651 Guided Research/Thesis Preparation  
Theatre MA and MFA only (G310)

**Minimum Credits 1 Maximum Credits 1**

### **THEA 651 Guided Research/Thesis Preparation**

Taken in the Fall of the second year, this course is the theoretical element of the MFA training, designed to deepen students' knowledge in the scholarly literature of physical theatre and devised performance. In addition, students will meet with a faculty advisor to begin planning their final thesis projects, pulling together the various strands of knowledge and experience gained in the course of the program thus far.

**Repeatable:** *N*

**Formerly** 31-6120

**Prerequisites** THEA 611 Constructing Contemporary Performance II  
Theatre MA and MFA only (G310)

### **THEA 691 Thesis Hours**

Hours assigned to students to fulfill the requirements of the Thesis Project: (a) creating an Ensemble Company and (b) devising an original piece of theatre. The thesis project performance will be supported by visual and written documentation, detailing every stage of the process from conception to performance.

**Repeatable:** *N*

**Formerly** 31-6227

## **TH**

Theatre MA and MFA only (G310)

**Minimum Credits 2 Maximum Credits 2**

*Choose one of the following courses:*

### **BUSE 647 Fundraising**

This course offers an in-depth study of philanthropy, non-profit organizations, accountability measures, income sources, and types of campaigns. Students will work with existing organizations to develop a portfolio of an organization analysis, case for funding, campaign plans, solicitation materials for individual gifts, and grant applications.

**Repeatable:** *N*

**Formerly** 28-6315

**Minimum Credits 3 Maximum Credits 3**

### **BUSE 657 New Media Strategies**

This course provides students with an in-depth understanding of the production, publication, promotion, and distribution of digital audio, visual, and editorial content. Students investigate current business models and conceptualize future tactics to embrace the convergence of the major media forms being streamed, downloaded, and offered as applications on all devices including tablets, mobile phones, computers and home theaters.

**Repeatable:** *N*

**Formerly** 28-6415

**Minimum Credits 3 Maximum Credits 3**

### **BUSE 663 Entrepreneurship and New Business Creation**

This class introduces entrepreneurship as a way of thinking and acting that can serve as a springboard for a self-sustaining, creative career. It provides students with insight into how arts, entertainment, and media professionals turn ideas into a business, and how various elements of an organization fit together to become a viable venture, whether in the for-profit or non-profit world. Special focus will be given to the concept of arts consulting as a potential entrepreneurial pursuit.

**Repeatable:** *N*

**Formerly** 28-6512

**Minimum Credits 3 Maximum Credits 3**

### **BUSE 671 New Ventures in the Creative Marketplace**

In this course, students will learn about the commercial and social importance of innovation in creative industries. Discussion topics include: the entrepreneurial landscape, the traits of a successful entrepreneur, opportunities and challenges in launching and managing new creative ventures, and market viability. Students will work collaboratively to develop, model, produce, and analyze their business ideas.

**Repeatable:** *N*

**Minimum Credits 3 Maximum Credits 3**

## Minor

### Acting Minor

The goal of the minor in Acting is to provide students with a concentrated introduction to the skills and theories required of the craft and practice of acting. Students will develop skills in the craft of vocal production, physical adaptability and expressiveness, textual analysis of dramatic literature, and an understanding of the basics of theatrical production. In conjunction with training in craft skills, students will develop their talents as performers through the spontaneity of live performance.

As a result of successfully completing program requirements, students should be able to:

- demonstrate a foundational understanding of the skills necessary for the craft and practice of acting;
- demonstrate progress in developing the necessary vocal and physical skills for performance; and
- demonstrate the ability to analyze a text for performance.

This minor will be of interest to students who are training for careers with close tie-ins to the performing arts or in which public performance will be required in the fulfillment of their duties.

### PROGRAM REQUIREMENTS - 18 credits required

#### **THEA 101 Acting Basic Skills for Non-Acting Majors**

Students are introduced to the craft and discipline of the actor. Through physical, vocal, and improvisational exercises and the exploration of scripts of various kinds, students will develop their theatrical imaginations, learn to act on impulse and build listening and ensemble skills. Observation, collaboration and active participation is encouraged.

**Repeatable:** *N*

**Formerly** 31-1200

**Minimum Credits 3 Maximum Credits 3**

#### **THEA 102 Scene Study for Non-Acting Majors**

Students learn to solve beginning acting problems through work on scenes from a diverse range of plays. Students study the acting text for clues to character behavior and motivation. They explore the rehearsal process with an emphasis on listening and responding to their scene partner, making choices and reflection and revision. Observation and detailed, constructive critique engages students in each other's work in class.

**Repeatable:** *N*

**Formerly** 31-1205

**Prerequisites** THEA 101 Acting Basic Skills for Non-Acting Majors or THEA 111 Theatre Foundation I: Theatre Making or THEA 120 Comedy Foundations I: Ensemble and Discovery or THEA 141 Musical Theatre Foundations

**Minimum Credits 3 Maximum Credits 3**

#### **THEA 103 Voice for Non-Theatre Majors**

This course is an introduction to the vocal mechanism used in the production of an effective and flexible voice for the stage. Students will learn fundamentals of breathing, resonance, projection, and articulation.

Vocal technique will be applied to readings and presentations of theatre monologues. Students will learn a vocal warm-up, record, memorize, and perform. The theory of voice and speech will be addressed in a text chosen for the course.

**Repeatable:** *N*

**Formerly** 31-1300

**Minimum Credits 3 Maximum Credits 3**

## **THEA 104 Movement for Non-Theatre Majors**

Students develop a more conscious and able body and improve their facility to transform themselves in their craft as an actor. Coursework focuses on breath, the interconnectedness of the body and mind, and how the body communicates with intention in time and space. The class becomes an ensemble where the exchange of energy and ideas is open and dynamic. Students build physical strength and stability as an ensemble in class and out of class through individual personal practice.

**Repeatable:** *N*

**Formerly** 31-1305

**Minimum Credits 3 Maximum Credits 3**

## **THEA 110 Improvisation Essentials**

Designed for both Theatre and non-Theatre majors, this course is a study of improvisational techniques, rooted in the work of Viola Spolin, that are foundational to theatre such as The Second City and Upright Citizens Brigade. Students will work individually, in small groups, and as a single ensemble to experience the process of improvising together. Drawing from both everyday life and improvisational concepts (such as give and take, support, mirroring, explore and heighten, environment, object work, and character) students will actively explore through exercises to create consistent and effective scene work.

**Repeatable:** *N*

**Formerly** 31-1210

**Minimum Credits 3 Maximum Credits 3**

## **THEA 207 Scenes: Performance & Analysis**

Students take an active and creative role in analyzing and rehearsing scenes for performance. Students are encouraged to make choices that explore the text in the current cultural moment, but also to analyze the given circumstances embedded in the text. The integration of physical and vocal technique into performance continues from previous course work. Students will present scenes for live and on-camera performance.

**Repeatable:** *N*

**Formerly** 31-2200

**Prerequisites** THEA 112 Theatre Foundation II: Performance or THEA 125 Comedy Survey II or THEA 103 Voice for Non-Theatre Majors and THEA 102 Scene Study for Non-Theatre Majors

**Minimum Credits 3 Maximum Credits 3**

## **Devising Collaborative Performance Minor**

Devising Collaborative Performance is a method of performance generation that engages in collaborative creation and often uses improvisational work by the performing ensemble. For theatre majors, this program will build upon the interest in devising that is developed in the first-year Theatre Foundation classes. For

others, regardless of major, the minor serves as a place to build on their particular artistic and creative expertise in exploration of collaborative performance-making and multi-disciplinary performance experiences. Students will take classes in theatre and dance and other departments that build on skills of writing, improvisation, adaptation, documentary performance, and movement.

As a result of successfully completing program requirements, students should be able to:

- demonstrate proficiency in multi-disciplinary communication and performance making;
- exhibit knowledge about multiple devising processes including text-based, movement-based and documentarian;
- demonstrate the application of a variety of performance styles and forms toward the creation of original performance; and
- communicate understanding of devising practices across cultures and countries.

## PROGRAM REQUIREMENTS - 21 credits required

### **THEA 281 Basic Viewpoints Workshop**

This course examines Viewpoints, a movement philosophy that explores the issues of time and space. In theatre, it allows a group of actors to function spontaneously and intuitively; to generate bold new work quickly by developing flexibility, articulation, and strength in movement; and to use writing and other resources as steps to creativity. Students will learn the vocabulary and basic theory by applying Viewpoints to creating new compositions as well as using them with existing theatrical texts.

**Repeatable:** *N*

**Formerly** 31-2372

**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making

**Minimum Credits** 1 **Maximum Credits** 1

### **THEA 450 Devising I**

Students will explore, devise and present ensemble created works in various styles.

**Repeatable:** *N*

**Formerly** 31-3706

**Prerequisites** THEA 112 Theatre Foundation II: Performance or THEA 101 Acting Basic Skills for Non-Acting Majors or THEA 152 Aesthetics for Theatre Makers or MUSC 223 Elements of Music Design or ARTS 105 Foundation Studio or DANC 167 Dance Improvisation or THEA 121 Comedy Foundations II: Point of View and Performance

**Minimum Credits** 3 **Maximum Credits** 3

### **THEA 451 Devising II: Physical Approaches**

In Devising II: Physical Approaches, students will work on learning movement vocabulary and skills to enable them to devise new work. Using movement methodologies from Jacques LeCoq, Robert LePage, companies Frantic Assembly and Complicite and physical approaches embedded in Commedia dell-Arte and Mask Work, students will practice making short pieces in various styles.

**Repeatable:** *N*

**Prerequisites** THEA 450 Devising I

**Minimum Credits** 3 **Maximum Credits** 3

## **THEA 452 Devising III: Performance for Social Justice**

In Devising III: Performance for Social Justice, students will work on learning vocabulary and skills to enable them to devise work that engages communities, creates space for marginalized groups and social justice issues. Using methodologies from such artists as Augusto Boal, Michael Rohd, Emily Mann, companies such as Cornerstone Theatre, Tectonic Theatre Project, Teatro Campasino, Bread and Puppet Theatre, students will practice making short pieces in various styles - Theatre of Testimony, Docudrama, Verbatim.

**Repeatable:** N

**Prerequisites** THEA 450 Devising I

**Minimum Credits 2 Maximum Credits 2**

*Choose one of the following courses:*

## **ARTS 250 New Genres I**

This course provides students with opportunities to explore inter- and multi-disciplinary art forms in both a studio and discussion context. Students create performance, installation, and site-specific works dealing with issues of time and space in non-traditional ways. Video, sound, performance, site-specific installation, photography, non-material approaches, and other contemporary means of communication are possible media. Studio instruction may be augmented with field trips, slide lectures, readings, critiques, and discussion that help critically, currently, and historically situate new genre work as fine art practices.

**Repeatable:** N

**Formerly** 22-2258

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **DANC 101 Modern Dance for Non-Majors**

In this course students will study the fundamental principles, practices and vocabulary common to modern dance through a daily practice of warm-up exercises and movement combinations. Emphasis will be on developing conditioning, coordination, alignment, clarity, movement pick-up and artistry. Students will be exposed to the basic historical and philosophical context for the emergence of Modern/Contemporary Dance and will supplement their movement studies with readings from applicable texts, attending performances and written responses.

**Repeatable:** Y

**Formerly** 33-1010

**Minimum Credits 3 Maximum Credits 3**

## **DANC 135 Hip-Hop for Non-Majors**

This course is an introduction to Hip-Hop technique, culture and history. Through this course, students learn about and embody the aesthetics, history and sociocultural context of Hip-Hop. The primary work of this course is embodied practice. Students learn foundational techniques and embodied concepts associated with Hip-Hop and related street dance styles including: breaking, locking, popping & house. The physical training is supplemented with activities such as readings, videos, discussions, lectures & writing assignments. Students also engage in Hip-Hop-centered cultural events to deepen their learning.

**Repeatable:** Y

**Formerly** 33-1230

**Minimum Credits 3 Maximum Credits 3**

## **MUSC 151 Digital Music Production I**

This course introduces students to writing, producing and performing music in the digital workspace, with a focus on club-based genres such as Techno, House and Hip-Hop. The course will trace the historical roots of dance music and club culture from its earliest incarnations in radio, through Northern Soul, Disco, Garage, Hip-Hop, House, Techno, etc. Students will apply various software and hardware combinations to create basic arrangements through regular project work. The course includes a final-project finished track.

**Repeatable:** *N*

**Formerly** 32-1911

**Minimum Credits 3 Maximum Credits 3**

## **THEA 104 Movement for Non-Theatre Majors**

Students develop a more conscious and able body and improve their facility to transform themselves in their craft as an actor. Coursework focuses on breath, the interconnectedness of the body and mind, and how the body communicates with intention in time and space. The class becomes an ensemble where the exchange of energy and ideas is open and dynamic. Students build physical strength and stability as an ensemble in class and out of class through individual personal practice.

**Repeatable:** *N*

**Formerly** 31-1305

**Minimum Credits 3 Maximum Credits 3**

## **THEA 482 Teaching Practicum**

Theatre Teaching Practicum provides an entry into Teaching Artistry through theory and practical application.

**Repeatable:** *N*

**Formerly** 31-2950

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

## **CINE 148 Introduction to Documentary**

Students will examine in-depth the methods by which non-fiction filmmakers develop, produce and distribute documentary films. Through a series of screenings, lectures, critiques and class discussions, a variety of long- and short-form documentary projects will be analyzed by students in relationship to: story, research, producing, directing, cinematography, editing, sound design, history, aesthetics, ethics and distribution. The class will link with material from each concentration area in Cinema and Television Arts - but through the prism of non-fiction filmmaking.

**Repeatable:** *N*

**Formerly** 24-1801

**Prerequisites** MEDI 101 Cinematic Storytelling or ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and

Rhetoric I or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 160 Creative Nonfiction Workshop: Beginning**

A beginning class in writing creative nonfiction, a term including many forms, constantly re-imagined, with the personal and lyrical essay at its core. You will boldly combine different elements of shape, texture, and voice to attempt to produce works of literary art, primarily in the essay, and present your work to the rest of the class in a workshop format. You will also begin reading in nonfiction.

**Repeatable:** *N*

**Formerly** 59-1700

**Minimum Credits 3 Maximum Credits 3**

### **INMD 240 Story Development for Interactive Media**

The increasing impact of interaction on the narrative (stories) told in today and tomorrow's educational and entertainment media requires a different perspective on story development. This class begins with an overview of the area and its history from the writer's perspective, and then moves on to review and analyze common interactive structures and narrative requirements. Students are also exposed to the basic types of interactive narrative and media being created today, and conceptualize and develop their own interactive narrative projects.

**Repeatable:** *N*

**Formerly** GAME 260

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **TELE 112 Aesthetics and Storytelling**

In this course, students will explore the formal elements of television that are used to express meaning, evoke emotion, and shape the vision they wish to communicate. The student will learn the basics of researching, writing, planning, and visualizing stories for the screen. They will also analyze various television program examples, learning to deconstruct the ways that television tells stories.

**Repeatable:** *N*

**Formerly** 40-1103

**Minimum Credits 3 Maximum Credits 3**

## **Electives**

*Complete 6 credits from the following courses:*

### **ARTS 105 Foundation Studio**

Foundation Studio teaches students how to solve art and design problems. It introduces critical strategies common to major areas of study offered within the departments of Art and Art History and Design, but is also applicable to many other fields in the creative sphere. Students are exposed to a diversity of materials and methods, and are encouraged to develop their own unique solutions through experimentation and

collaboration. Assuming the role of problem-solver, students work on increasingly complex projects that culminate in a formalized demonstration of the ability to forge their own creative solutions.

**Repeatable:** *N*

**Formerly** 22-1925

**Minimum Credits 3 Maximum Credits 3**

## **ARTS 250 New Genres I**

This course provides students with opportunities to explore inter- and multi-disciplinary art forms in both a studio and discussion context. Students create performance, installation, and site-specific works dealing with issues of time and space in non-traditional ways. Video, sound, performance, site-specific installation, photography, non-material approaches, and other contemporary means of communication are possible media. Studio instruction may be augmented with field trips, slide lectures, readings, critiques, and discussion that help critically, currently, and historically situate new genre work as fine art practices.

**Repeatable:** *N*

**Formerly** 22-2258

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **DANC 105 Modern IA**

In this course students study the fundamental principles, practices and vocabulary common to Modern dance through a daily practice of warm-up exercises and movement combinations. Classes consist of a series of technical exercises that condition the body for strength, flexibility, endurance, and coordination; develop a physical and conceptual awareness of the elements of space, time, and energy; and promote performance skills of concentration, focus, and musicality. Live musicians accompany all dance major technique classes. Modern Technique IA is the first course in a two-semester sequence. Modern Technique IA is a prerequisite for Modern Technique IB.

**Repeatable:** *N*

**Formerly** 33-1011A

**Minimum Credits 2 Maximum Credits 2**

## **DANC 106 Modern IB**

In this course, students build upon the skills acquired in Modern Technique IA and explore further the fundamental principles, practices and vocabulary common to modern dance through a daily practice of warm-up exercises and movement combinations. Classes consist of a series of technical exercises that condition the body for strength, flexibility, endurance, and coordination; students begin to develop a physical and conceptual awareness of the elements of space, time, and energy; and promote performance skills of concentration, focus, and musicality. Live musicians accompany all dance major technique classes.

**Repeatable:** *N*

**Formerly** 33-1011B

**Prerequisites** DANC 105 Modern IA or DMOD-1-100 EXAM-DMOD MINIMUM SCORE = 100

**Minimum Credits 2 Maximum Credits 2**

## **DANC 165 Contact Improvisation**

This course develops the physical and perceptual skills basic to contact improvisation: falling, rolling, giving and taking weight, moving comfortably from the floor to the air and subtle communication through touch. Students will hone solo improvisational skills and take them into duet and ensemble dancing. The course will provide focused warm-ups designed to cultivate various physical states and motional qualities, skill development and periods of open dancing in which to integrate technical skills.

**Repeatable:** Y

**Formerly** 33-1281

**Prerequisites** DANC 106 Modern IB or 33 1212 Intro to Dance Technique II

**Minimum Credits 1 Maximum Credits 1**

## **DANC 167 Dance Improvisation**

This course introduces students to dance performance, composition, and movement research through improvisation. Coursework balances in-depth individual exploration with rigorous practice in spontaneous duet, small group, and ensemble dance making. Throughout the course students will investigate concepts of dance composition while developing skills to work spontaneously, collaboratively, and independently. Direct physical work will prioritize the development of the student's unique movement voice, readings, writing, and discussion will develop the student's analytical skills.

**Repeatable:** N

**Formerly** DANC 230

**Prerequisites** DANC 105 Modern IA or DANC 205A Modern Technique II or DANC 205B Modern Technique II or DANC 205C Modern Technique II or 33 1211 Intro to Dance Technique I or 33 1311 Modern Technique I or 33 2011 Modern Technique II

**Minimum Credits 3 Maximum Credits 3**

## **DANC 205A Modern Technique II**

In this course students will study the principles, practices and vocabulary common to modern dance through a daily practice of warm-up exercises and movement combinations. Emphasis will be on developing conditioning, coordination, alignment, clarity, movement pick-up and artistry. Live musicians accompany all modern classes.

**Repeatable:** Y

**Formerly** DANC 205

**Prerequisites** DANC 106 Modern IB or DMOD-2-100 EXAM-DMOD MINIMUM SCORE = 100

**Minimum Credits 1 Maximum Credits 1**

## **DANC 205B Modern Technique II**

In this course students will study the principles, practices and vocabulary common to modern dance through a daily practice of warm-up exercises and movement combinations. Emphasis will be on developing conditioning, coordination, alignment, clarity, movement pick-up and artistry. Live musicians accompany all modern classes.

**Repeatable:** Y

**Prerequisites** DANC 106 Modern IB or DMOD-2-100 EXAM-DMOD MINIMUM SCORE = 100

## **DANC 205C Modern Technique II**

In this course students will study the principles, practices and vocabulary common to modern dance through a daily practice of warm-up exercises and movement combinations. Emphasis will be on developing conditioning, coordination, alignment, clarity, movement pick-up and artistry. Live musicians accompany all modern classes.

**Repeatable:** Y

**Prerequisites** DANC 106 Modern IB or DMOD-2-100 EXAM-DMOD MINIMUM SCORE = 100

**Minimum Credits 1 Maximum Credits 1**

## **DSGN 110 Design Thinking**

This course introduces design thinking, and its theories and methods that are empathetic, human-centered, tolerant of ambiguity, and action-oriented. Design thinking is a creative, innovative process to identify and solve complex problems. In this course, students participate in a series of exercises and project challenges that are resolved using a holistic design thinking process.

**Repeatable:** N

**Minimum Credits 3 Maximum Credits 3**

## **MUSC 107 Fundamentals of Musical Theatre Singing**

This course is a beginning level class in singing for the musical theatre performer. It is designed to familiarize students with fundamental vocal techniques and musical theatre repertoire and to help students become comfortable with solo and ensemble singing onstage.

**Repeatable:** N

**Formerly** 32-1540

**Requirements** Permission Required (DP) Musical Theatre Majors Only (2MUS)

**Minimum Credits 3 Maximum Credits 3**

## **MUSC 109 Foundations of Music Supplement**

This lab facilitates students to be successful in Foundations in Music I and II. Class activities are based on intense drill in note recognition, work with basic rhythms, and preliminary development of aural skills, with special attention to note replication. Students develop a sense of self-discipline required for the study of music, a sense of relative pitch, a verbal musical literacy, and an ability to listen actively.

**Repeatable:** Y

**Requirements** Permission Required (DP) Music Majors Only (M320)

**Minimum Credits 1 Maximum Credits 1**

## **MUSC 110 Foundations of Music I**

Foundations of Music I is the initial course of the Music Core Curriculum and includes instruction in the areas of contemporary music theory, aural skills, piano keyboard (or equivalent), digital audio workstations and a variety of applications used widely in the music industry.

**Repeatable:** N

**Formerly** 32-1120

**DEI**

**Concurrent Requisite** MUSC 174 Applied Music I

**Minimum Credits 4 Maximum Credits 4**

## **MUSC 174 Applied Music I**

This course provides an applied experience contemporary instrumental students need prior to enrolling in private lessons. Students will study the foundational knowledge, techniques, skills, and repertoire essential to their chosen instrument. Students will apply their Foundations of Music skills to begin developing an improvisational approach to their instrument.

**Repeatable:** *N*

**Formerly** 32-1321

**Concurrent Requisite** MUSC 110 Foundations of Music I

**Minimum Credits 2 Maximum Credits 2**

## **PHOT 101 Photographic Practice I**

This course introduces students to basic visual grammar of photographic seeing to explore and pursue diverse interests in photography while learning to become an acute observer. Using digital cameras with manual controls and RAW capture, students will learn the craft of making photographs while also being introduced to issues of aesthetic form, historical context, and diverse photographic practices. Students will question, explore, communicate and evaluate using basic photographic concepts and critical-thinking skills while acquiring new sets of technical, conceptual, and formal language that are applicable to many disciplines.

**Repeatable:** *N*

**Formerly** 23-1111

**Minimum Credits 3 Maximum Credits 3**

## **THEA 106 Theatre Survey I: Global Drama**

This course is designed to introduce students to dramas - across history and cultures - that have influenced major trends in theatre. In doing so, students will engage a range of dramatic texts from classical and contemporary dramas to adaptations and revisions of canonical works. Students will study and discuss a sampling of plays that exemplify an array of genres and forms resulting in the student's ability to make connections between a text's form and its context.

**Repeatable:** *N*

**Minimum Credits 2 Maximum Credits 2**

## **THEA 107 Theatre Survey II: American Drama**

The American theatre both reflects and creates American identity. This course will examine plays from the mid-nineteenth century through the present day to investigate the ways that Americans participated in the construction, and deconstruction, of Americans' sense of self. Rather than a complete review of American drama, this course will survey a range of content, form, and styles as they define American drama and American identity.

**Repeatable:** *N*

**Prerequisites** THEA 106 Theatre Survey I: Global Drama or THEA 124 Comedy Survey I or THEA 141 Musical Theatre Foundations

**Minimum Credits 2 Maximum Credits 2**

## **THEA 111 Theatre Foundation I: Theatre Making**

Theatre Foundation I: Theatre Making invites incoming students into their role as creative practitioners. Students investigate the elements and principles of artistic process that can be applied to all aspects of theatre making. The course develops students' awareness, observation and collaborative skills, and their ability to transpose experiences in the world into visual, written, vocal and physical form. Readings, composition work in class and attendance at Columbia College Chicago productions and in the city of Chicago deepens students' understanding and appreciation of the scope of contemporary theatre making practices.

**Repeatable:** *N*

**Formerly** 31-1251

**Concurrent Requisite** THEA 106 Theatre Survey I: Global Drama

**Minimum Credits 4 Maximum Credits 4**

## **THEA 120 Comedy Foundations I: Ensemble and Discovery**

Students investigate the elements and principles of process that can be applied to all aspects of comedy creation. Students will improvise, write and perform jokes and sketches for both video and live performance. Readings, ensemble-work, exercises, and attendance at Columbia College Chicago productions deepen understanding and appreciation of the scope of contemporary comedy practices.

**Repeatable:** *N*

**Formerly** 31-1253

**Concurrent Requisite** THEA 124 Comedy Survey I

**Minimum Credits 4 Maximum Credits 4**

## **THEA 124 Comedy Survey I**

This course invites incoming students into their role as Comedy Writing and Performance Majors at Columbia College, and creative practitioners in the realm of comedy. Students will investigate the question of "what makes us laugh and why" through a series of readings, screenings, lectures, exercises, and discussions. Students will be introduced to core ideas, conventions of comedy across media, and Chicago area industry professionals who practice comedy in a variety of formats.

**Repeatable:** *N*

**Formerly** 31-1263

**Minimum Credits 2 Maximum Credits 2**

## **THEA 141 Musical Theatre Foundations**

Musical Theatre (MT) Foundations prepares incoming students for their role as creative practitioners of musical theatre. Students investigate the elements and principles of the artistic process that can be applied to all aspects of creating musical theatre. The course develops students' awareness, observation and collaborative skills, and their ability to transpose experiences in the world of the play or musical into written, vocal and physical form. Production numbers that explore style and representative genres will be major projects. Readings, composition work in class, and attendance at productions deepen students' understanding and appreciation of the scope of contemporary musical theatre-making. The course will meet in a five-week sub session.

**Repeatable:** *N*

Musical Theatre Majors Only (3MUS)

**Minimum Credits 1 Maximum Credits 1**

## **THEA 143 Musical Theatre Dance I**

This course is a practical approach to the basic techniques of musical theatre dance required of musical theatre majors at the beginning level. Each class includes ballet and jazz dance terminology, basic floor combinations, and a variety of musical theatre dance styles. Students are offered a focused approach to develop performance skills and demonstrate improved flexibility, musicality and strength in ballet and jazz techniques. Students are introduced to musical theatre dance combinations and professional musical theatre audition procedures.

**Repeatable:** Y

**Formerly** 31-1430

Musical Theatre Majors Only (3MUS)

**Minimum Credits 2 Maximum Credits 2**

## **THEA 147 Musical Theatre Dance for the Singer/Actor**

This course emphasizes dance terminology and basic techniques necessary at an introductory level. Executing basic dance terminology will be the focus of this course along with attention to proper nutrition and injury prevention. Students will apply terminology in basic floor combinations in a variety of musical theatre dance styles. Each class session will include strengthening exercises to improve flexibility, conditioning and technique in ballet, jazz and tap. No prior dance training is necessary.

**Repeatable:** N

**Formerly** 31-1435

**Minimum Credits 2 Maximum Credits 2**

## **THEA 243 Musical Theatre Dance II**

This course expands the technical skills in musical theatre dance styles required of musical theatre majors at the intermediate level. Each class includes ballet and jazz dance terminology, floor combinations, a variety of musical theatre dance styles and mock auditions. Students are challenged with more complicated material, and greater demands are placed on speed of learning and retention of choreography for audition purposes. Significant attention is paid to audition practices and professional discipline.

**Repeatable:** Y

**Formerly** 31-2430

**Prerequisites** THEA 143 Musical Theatre Dance I

**Minimum Credits 2 Maximum Credits 2**

## **Playwriting Minor**

The primary goal of the minor in Playwriting is to provide students with a comprehensive opportunity to broaden their skills in writing for the stage. Students in this program will have the opportunity to develop the requisite skills for both long and short forms of dramatic writing. The range of writing and performance experiences should enhance the student's ability and professional marketability in the related fields of stage and media advertising, public relations, and other fields where creative problem solving, script forms, and verbal presentation skills come into play.

**PROGRAM REQUIREMENTS - 18 credits required**

## **THEA 168 Playwriting I**

This course is an introduction to the basic techniques of playwriting from concept to completion. Students will learn basic play structuring, character development, conflict heightening, play synopsis, and script formatting while writing scenes, ten-minute plays, and one-act plays which are all read aloud as table-readings in class.

**Repeatable:** N

**Formerly** 31-2800

**Minimum Credits 3 Maximum Credits 3**

## **THEA 202 Traditions of World Theatre**

This course will survey the dramas, history, and aesthetics of performance traditions from various locations around the world including Africa, Asia, Latin America, and the West (United States and Europe), emphasizing important developments and highlighting pivotal movements and participants within their broader historical, social, and cultural contexts. Through an examination of theatrical forms, expressive styles, and contributions of performance traditions from around the world, students will become acquainted with how theatre reflects and constitutes community and culture.

**Repeatable:** N

**HU DEI**

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

## **THEA 268 Playwriting II**

This course furthers techniques of playwriting begun in Playwriting I: scene and character development, dialogue, theme, story, and play structure. Students focus on completion of one-act plays.

**Repeatable:** N

**Formerly** 31-3800

**Prerequisites** THEA 168 Playwriting I

**Minimum Credits 3 Maximum Credits 3**

## **THEA 432 New Plays Workshop**

Working in teams, Playwriting and Directing students collaborate to develop a playwright's script for performance via a proposed production. The director guides the script through a series of readings with student actors, resulting in subsequent rewrites by the playwright and a production analysis of the play by the director. The semester culminates in a staged reading of the playwrights' final drafts and the directors' final production analysis.

**Repeatable:** Y

**Formerly** 31-3805

**Prerequisites** THEA 268 Playwriting II or THEA 266 Directing I

**Minimum Credits 3 Maximum Credits 3**

*Complete 6 credits from the following courses:*

## **THEA 287A Topics in Playwriting**

Students write new plays in response to a specific and unique playwriting topic presented in each distinctive section of this umbrella course. Possible topics include (but are not limited to) writing musical theatre, writing plays for children, adapting literature into drama, writing experimental plays, creating a living newspaper theatre, generating political theatre, writing modern adaptations of classic drama, and/or writing plays focused on one area of the world or one group of people. Each Topics class culminates in a live staged performance or reading featuring student performers.

**Repeatable:** Y

**Formerly** THEA 287

**Prerequisites** THEA 168 Playwriting I

**Minimum Credits 3 Maximum Credits 3**

## **THEA 287B Topics in Playwriting**

Students write new plays in response to a specific and unique playwriting topic presented in each distinctive section of this umbrella course. Possible topics include (but are not limited to) writing musical theatre, writing plays for children, adapting literature into drama, writing experimental plays, creating a living newspaper theatre, generating political theatre, writing modern adaptations of classic drama, and/or writing plays focused on one area of the world or one group of people. Each Topics class culminates in a live staged performance or reading featuring student performers.

**Repeatable:** Y

**Prerequisites** THEA 168 Playwriting I

**Minimum Credits 3 Maximum Credits 3**

## **Stage Combat Minor**

The Stage Combat minor provides extensive practice in the art form of theatrical violence.

As a result of successfully completing program requirements, students should be able to:

- prepare for Skills Proficiency Certification exams from the British Academy of Stage and Screen Combat in three weapon skills, and Proficiency Certification exams from the Society of American Fight Directors in eight weapon skills, preparing them to be recognized as Advanced Actor Combatants in the United States;
- be able to fake-fight in a safe, realistic, theatrical fashion with or without any type of sword, knife, stick or found object;
- be prepared to act as Fight Captain for any theatrical production;
- understand the differences between fighting for stage and fighting for film, and perform at an advanced level in any medium; and
- enter into any fight/movement audition with confidence.

## **PROGRAM REQUIREMENTS - 19 credits required**

### **THEA 130 History of Martial Styles and Theatrical Violence**

An exploration of the history of swordplay and unarmed combat and of theatrical violence as entertainment.

**Repeatable:** N

**Prerequisites** ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or ENGL 109 Writing and Rhetoric I Stretch B or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

## **THEA 230 Stage Combat I**

This beginning course instructs students in how to create the illusion of violence for stage and screen including basic instruction in Unarmed (feet, fists, slaps, punches, kicks, falls, and rolls) and Rapier and Dagger (parries, cuts, thrusts and more!) The emphasis is on safe and realistic violence for the stage. Midterm scenes will be performed in the classroom. Final scenes will be performed in a theatre during the final weeks of the semester.

**Repeatable:** N

**Formerly** 31-2315

**Prerequisites** THEA 101 Acting Basic Skills for Non-Acting Majors or THEA 111 Theatre Foundation I: Theatre Making or THEA 120 Comedy Foundations I: Ensemble and Discovery or THEA 141 Musical Theatre Foundations

**Minimum Credits 3 Maximum Credits 3**

## **THEA 231 Stage Combat II**

This course offers continued study of safe and realistic violence for the stage and screen. The emphasis is on Advanced Unarmed and Rapier and Dagger; new weapon skill- Broadsword added. Midterm scenes will be performed in the classroom. Final scenes will be performed on the main stage during Performance Week. Adjudication of Skills Proficiency by a Fight Master of the Society of American Fight Directors and the British Academy of Stage and Screen Combat will be integrated into the final performances.

**Repeatable:** N

**Formerly** 31-2316

**Prerequisites** THEA 230 Stage Combat I

**Minimum Credits 3 Maximum Credits 3**

## **THEA 232 Fighting for Film**

In Fighting for Film you will learn to create and perform basic stunt work by creating the illusion of violence for the screen while working with a stunt Coordinator. Basic instruction in Unarmed, Club, and Knife fighting performed in front of the camera to emphasize the differences of working in film vs. Theatre. Safe and realistic violence for the screen is the emphasis of this class while working on a film set setting.

**Repeatable:** Y

**Formerly** 31-2317J

**Prerequisites** THEA 231 Stage Combat II

**Minimum Credits 1 Maximum Credits 1**

## **THEA 234 Advanced Applications of Stage Violence**

Integration of combat skills for working situations including: contemporary violence, fighting film, mass battles; and an introduction to flying and motion capture.

**Repeatable:** N

**Prerequisites** THEA 231 Stage Combat II and THEA 207 Scenes: Performance & Analysis and THEA 232 Fighting for Film  
**Minimum Credits 3 Maximum Credits 3**

### **THEA 330 Stage Combat III**

This course offers continued instruction in creating the illusion of violence for the stage and screen, including Sword & Shield, Knife, Small Sword, Quarterstaff, and Single Sword (Hollywood styles). Mid-term scenes will be performed in the classroom. Final scenes will be performed on the main stage during Performance Week. Adjudication of Skills Proficiency by a Fight Master of the Society of American Fight Directors will be integrated into the final performances.

**Repeatable:** Y

**Formerly** 31-3315

**Prerequisites** THEA 231 Stage Combat II

**Minimum Credits 3 Maximum Credits 3**

### **Elective**

*Choose one of the following courses:*

### **THEA 101 Acting Basic Skills for Non-Acting Majors**

Students are introduced to the craft and discipline of the actor. Through physical, vocal, and improvisational exercises and the exploration of scripts of various kinds, students will develop their theatrical imaginations, learn to act on impulse and build listening and ensemble skills. Observation, collaboration and active participation is encouraged.

**Repeatable:** N

**Formerly** 31-1200

**Minimum Credits 3 Maximum Credits 3**

### **THEA 330 Stage Combat III**

This course offers continued instruction in creating the illusion of violence for the stage and screen, including Sword & Shield, Knife, Small Sword, Quarterstaff, and Single Sword (Hollywood styles). Mid-term scenes will be performed in the classroom. Final scenes will be performed on the main stage during Performance Week. Adjudication of Skills Proficiency by a Fight Master of the Society of American Fight Directors will be integrated into the final performances.

**Repeatable:** Y

**Formerly** 31-3315

**Prerequisites** THEA 231 Stage Combat II

**Minimum Credits 3 Maximum Credits 3**

## **Theatre Directing Minor**

The goal of the minor in Directing is to provide students with a concentrated introduction to the theories, skills, and practice of directing for the theater.

As a result of successfully completing program requirements, students should be able to:

- understand Directing as a multifaceted discipline involving the processes of acting, design, and technology;
- demonstrate the organization skills required of the directing process through project management; and
- understand dramatic structure as a key element of the directing process.

In the Minor's capstone course, students will coordinate all of these elements through the production of a one-act play.

This minor will be of interest to students who wish to develop an understanding of the skills necessary to conceptualize, organize, and facilitate the preparation of scripted material for performance.

## PROGRAM REQUIREMENTS - 23 credits required

### **THEA 106 Theatre Survey I: Global Drama**

This course is designed to introduce students to dramas - across history and cultures - that have influenced major trends in theatre. In doing so, students will engage a range of dramatic texts from classical and contemporary dramas to adaptations and revisions of canonical works. Students will study and discuss a sampling of plays that exemplify an array of genres and forms resulting in the student's ability to make connections between a text's form and its context.

**Repeatable:** *N*

**Minimum Credits 2 Maximum Credits 2**

### **THEA 111 Theatre Foundation I: Theatre Making**

Theatre Foundation I: Theatre Making invites incoming students into their role as creative practitioners. Students investigate the elements and principles of artistic process that can be applied to all aspects of theatre making. The course develops students' awareness, observation and collaborative skills, and their ability to transpose experiences in the world into visual, written, vocal and physical form. Readings, composition work in class and attendance at Columbia College Chicago productions and in the city of Chicago deepens students' understanding and appreciation of the scope of contemporary theatre making practices.

**Repeatable:** *N*

**Formerly** 31-1251

**Concurrent Requisite** THEA 106 Theatre Survey I: Global Drama

**Minimum Credits 4 Maximum Credits 4**

### **THEA 205 Text Analysis**

This course introduces students to varying methods and approaches to script analysis. While students will become familiar with traditional methods of analysis, a significant emphasis will be placed on alternative and complementary methods including contemplation and intuitive responses, visualization and imagery, and somatic responses to play scripts. Through course readings, presentations, and group activities, furthermore, this course will familiarize students with vocabulary and strategies of analysis for actors, designers, and playwrights, thereby facilitating communication of production ideas.

**Repeatable:** *N*

**Formerly** 31-2120

**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making and ENGL 112 Writing and Rhetoric II or

THEA 111 Theatre Foundation I: Theatre Making and ENGL 112H Writing and Rhetoric II: Honors or THEA 111 Theatre Foundation I: Theatre Making and ENGL 122 International Writing and Rhetoric II or THEA 141 Musical Theatre Foundations and ENGL 112 Writing and Rhetoric II or THEA 141 Musical Theatre Foundations and ENGL 112H Writing and Rhetoric II: Honors or THEA 141 Musical Theatre Foundations and ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

## **THEA 254 Stage Management I**

This course will introduce students to the nuts-and-bolts practices and techniques of Stage Management in the professional theatre. Students will assist an advanced stage manager on a department production throughout the course of the semester. Regular availability on evenings and weekends is required.

**Repeatable:** *N*

**Formerly** 31-1540

**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **THEA 266 Directing I**

This course focuses on process through which one approaches a play from a directorial point of view. Students read and discuss five plays and direct scenes from two or three of them. Students create prompt books for their scenes.

**Repeatable:** *N*

**Formerly** 31-2700

**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making and ENGL 112 Writing and Rhetoric II or THEA 111 Theatre Foundation I: Theatre Making and ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II and THEA 111 Theatre Foundation I: Theatre Making

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **THEA 267 Directing II**

With instructor approval, this course asks students to select one act of less than 45 minutes to direct. Students cast play from the Theatre Department student body, direct the play, and mount four performances in the Classic Studio. Rehearsals are held outside class hours and are determined by director and cast. All areas of directing are discussed among students and instructors with occasional guest directors, actors, and designers. Students will direct a one-act play.

**Repeatable:** *N*

**Formerly** 31-2750

**Prerequisites** THEA 266 Directing I and THEA 481 Stage Management Practicum and THEA 205 Text Analysis

**Concurrent Requisite** THEA 484 Directing Practicum

**Minimum Credits 3 Maximum Credits 3**

## **THEA 481 Stage Management Practicum**

This course will provide students with a hands-on experience in the practices and techniques of stage management in the professional theatre. In addition to stage managing a departmental project throughout

the course of the semester, students will meet weekly for discussion of trending topics within their production work. Regular availability on evenings and weekends is required.

**Repeatable:** Y

**Formerly** 31-2540

**Prerequisites** THEA 254 Stage Management I

**Minimum Credits 1 Maximum Credits 1**

## **THEA 484 Directing Practicum**

Students enrolled in Directing II, III, or IV classes direct and produce plays each semester. In this Practicum, students will expand on acquired skills necessary to produce a play. In an ongoing classroom dialogue, the students and instructors explore all areas of production including collaboration, technical rehearsal planning, and design, with occasional input from guest designers.

**Repeatable:** Y

**Formerly** 31-3776

**Prerequisites** THEA 266 Directing I

**Requirements** Permission Required (DP)

**Minimum Credits 1 Maximum Credits 1**

*Choose one of the following courses:*

## **THEA 320 Dramaturgy**

This course provides an overview of the art and craft of dramaturgy in the contemporary theatre. Through individual and group projects, students examine the role the dramaturg plays in developing production concepts, conducting production research, choosing translations, and developing adaptations of literature for performance. Students will also consider how the dramaturg functions within a theatrical organization to assist in season selection, audience education, and audience development.

**Repeatable:** N

**Formerly** 31-3125

**Prerequisites** THEA 205 Text Analysis

**Minimum Credits 3 Maximum Credits 3**

## **THEA 467 Directing History and Theory**

In this seminar/lab class, students will examine a broad variety of historical and contemporary approaches to performance. The history and context of these approaches and theories will be analyzed from the perspective of directing. Students will begin to develop their own theory of performance from a directorial point of view

**Repeatable:** N

**Formerly** 31-3704

**Prerequisites** THEA 266 Directing I

**Minimum Credits 3 Maximum Credits 3**

# **American Sign Language**

## **Bachelor of Arts**

# ASL-English Interpretation, BA

Established in 1993, the American Sign Language Department at Columbia College Chicago offered the first Bachelor of Arts in Interpretation in the state of Illinois. The four-year major is designed for students who want to pursue careers as interpreters. The core curriculum provides a coherent plan of study through courses in American Sign Language, Deaf Culture, linguistics, the theories and skills involved in interpreting and transliterating, multicultural issues, and a two-semester interpreting and transliterating practicum, which includes interpreting fieldwork supervised by professional mentor interpreters.

In order to be successful interpreters, students in the major at Columbia will need to acquire mastery of standard American English, fluency in American Sign Language, and familiarity with public speaking techniques, as well as sensitivity to multicultural issues and challenges in interpersonal communication.

As a result of successfully completing program requirements, students should be able to:

- understand the cultural foundations of the field of ASL-English Interpretation;
- recognize the American Deaf community as a linguistic and cultural minority group;
- possess an in-depth understanding of the history of the Deaf community and American Deaf culture;
- understand what is meant by multiculturalism within the Deaf community and how it effects the interpreting profession;
- appreciate diversity in the interpreting profession and to apply their insights when working in diverse communities;
- define the characteristics of special populations of Deaf and hard of hearing persons who require unique communication and interpreting techniques;
- communicate proficiently in ASL and English;
- demonstrate proficiency of use of and comprehension of advanced vocabulary and grammatical features of ASL;
- demonstrate proficiency of use of and comprehension of advanced vocabulary and grammatical features of English;
- understand the theoretical foundations of the field of ASL-English Interpretation;
- know the history and various theories of spoken language interpreting;
- understand various models of sign language interpreting and compare and contrast those models to the models of spoken language interpreting;
- explore the applications of practical ethical theories and behaviors crucial to professional interpreters;
- understand basic research practices as they relate to the interpreting profession;
- understand the professional foundations of the field of ASL-English Interpretation;
- understand all tenets of the RID-NAD Code of Professional Conduct, as well as their purpose and function from both a theoretical and practical point of view, and to apply the tents to interpreting assignments and ethical scenarios;
- understand the role of the interpreter and the evolution of that role from a cultural perspective;
- demonstrate knowledge of professional credentialing and laws that pertain to interpreters; and
- demonstrate knowledge of ethical business practices, professional interpreting agencies and organizations and Deafness-related organizations.

## PROGRAM REQUIREMENTS - 56 credits required

### **SIGN 101 American Sign Language I**

An introductory course in American Sign Language (ASL). This course concentrates on the development of conversational fluency in ASL. Students will develop expressive and receptive skills through discussions of such topics as sharing information about us and everyday life. Activities include short presentations, storytelling, and lab exercises that provide extensive hands-on practice using different methods of delivery. Students will also be exposed to diverse Deaf signers, modeling appropriate language and culture behaviors in various situations.

**Repeatable:** *N*

**Formerly** 37-1151

**HU DEI**

**Minimum Credits 3 Maximum Credits 3**

## **SIGN 102 American Sign Language II**

A continuation of an introductory course in American Sign Language (ASL). This course includes further training in receptive and expressive skills through discussions of such topics as sharing information about our surroundings and us. Activities include short presentations, storytelling, and lab exercises that provide extensive hands-on practice using different methods of delivery. Students will be also be exposed to Deaf culture and diverse Deaf signers, modeling appropriate language and cultural behaviors in various situations.

**Repeatable:** *Y*

**Formerly** 37-1152

**HU DEI**

**Prerequisites** SIGN 101 American Sign Language I

**Minimum Credits 3 Maximum Credits 3**

## **SIGN 125 Deaf Culture**

Course is an introduction to various aspects of the deaf community as a linguistic and cultural minority group. Designed for individuals who may or may not have had prior experience with deaf people, course raises questions concerning the nature of sign language and its varieties, education of deaf people, historical treatment of deaf people, sociological and cultural issues important to the deaf community, and political activism.

**Repeatable:** *N*

**Formerly** 37-1252

**HU DEI PL**

**Minimum Credits 3 Maximum Credits 3**

## **SIGN 128 Introduction to Interpreting**

This course introduces students to career opportunities within the field of interpreting and the ASL community. Focus is placed on relevant laws that impact the Deaf Community, the historical and current trends in the field of interpreting, the growth of Deaf Studies as a field and career opportunities afford those with linguistic and cultural knowledge of ASL and the Deaf Community. Students begin their study and analysis of the Code of Professional Conduct and Ethics in general. Students will begin their preparation for the field by becoming aware of, and participate in current practices and research related to the field of interpreting and Deaf studies. Lastly, students will begin to develop important critical thinking skills in order to prepare them for the next developmental level.

**Repeatable:** *N*

**Formerly** 37-1253

**Prerequisites** SIGN 101 American Sign Language I

**Minimum Credits** 3 **Maximum Credits** 3

## **SIGN 201 American Sign Language III**

This is the third course in the series of American Sign Language (ASL). This course focuses on the further development of conversational activities. ASL skill development with application to complex grammatical structures continues through discussion of such topics as us, the Deaf community, and its culture. Activities include presentations, storytelling, and lab exercises that provide extensive hands-on practice using different methods of delivery. For community engagement, students are expected to navigate into the diverse Deaf community in order to learn about Deaf co-culture in and beyond Chicago.

**Repeatable:** Y

**Formerly** 37-2153

**HU**

**Prerequisites** SIGN 102 American Sign Language II

**Minimum Credits** 3 **Maximum Credits** 3

## **SIGN 202 American Sign Language IV**

This intermediate American Sign Language course is specifically designed to refine expressive and receptive skills of students pursuing a degree in ASL Interpreting or Deaf Studies. Advanced linguistic structures are introduced and put into practice. Activities include delivering live presentations, narrating life experiences, discussing current events, and lab exercises that provide students opportunities to apply their linguistic and cultural knowledge. For the community engagement, students are expected to engage in the diverse Deaf community to learn their places and develop networks within the community in and beyond Chicago.

**Repeatable:** Y

**Formerly** 37-2154

**HU DEI**

**Prerequisites** SIGN 201 American Sign Language III

**Minimum Credits** 3 **Maximum Credits** 3

## **SIGN 228 Linguistics of ASL**

Course focuses on the linguistic structures of American Sign Language, including phonology, morphology, syntax, and language. Structural aspects of both American Sign Language and English are compared and contrasted, providing students with valuable insight into both languages.

**Repeatable:** N

**Formerly** 37-2253

**Prerequisites** SIGN 102 American Sign Language II

**Minimum Credits** 3 **Maximum Credits** 3

## **SIGN 235 Foundations of Translation**

Students translate discourse from English to American Sign Language and from American Sign Language to English. Instruction includes analysis of the text, understanding language equivalence, restructuring the message, and judging appropriateness when translating.

**Repeatable:** N

**Formerly** 37-2302

**Prerequisites** SIGN 201 American Sign Language III

**Minimum Credits 3 Maximum Credits 3**

### **SIGN 305 Multicultural Issues**

Course explores multicultural issues as related to the interpreting profession and the deaf community. Broad introduction of multiculturalism is followed by an in-depth look at the most common cultures and cultural issues interpreters encounter. Flexibility in the schedule allows for study of additional cultural groups. Guest presenters and field trips allow students to experience the richness of diverse communities and gain insight that can be applied to their interpreting and to their everyday lives.

**Repeatable:** N

**Formerly** 37-3204

**Prerequisites** SIGN 125 Deaf Culture and SIGN 340 Foundations of Interpreting

**Minimum Credits 3 Maximum Credits 3**

### **SIGN 310 Advanced American Sign Language**

This advanced American Sign Language course is specifically designed to refine and further develop expressive and receptive skills of students pursuing a degree in interpreting or Deaf Studies. Advanced linguistic structures are explored and practiced. Colloquial and discourse features and strategies are explored and practiced. Activities include delivering live presentations, narrating life experiences, discussing current events, and lab exercises that provide students opportunities to apply their advanced linguistic and cultural knowledge. For community engagement, students are expected to engage in the diverse Deaf community in order to learn their places and develop networks within the Deaf community here in and beyond Chicago.

**Repeatable:** Y

**Formerly** 37-3205

**Prerequisites** SIGN 202 American Sign Language IV

**Minimum Credits 3 Maximum Credits 3**

### **SIGN 325 Theory of Interpretation**

Course examines history of translation, models of interpreting, and equivalence across languages. Study includes theories of spoken language interpreting and sign language interpreting. Theories of basic, practical ethics and behaviors are explored and applied to the interpreting profession.

**Repeatable:** N

**Formerly** 37-3304

**Prerequisites** SIGN 125 Deaf Culture and SIGN 235 Foundations of Translation

**Minimum Credits 3 Maximum Credits 3**

### **SIGN 340 Foundations of Interpreting**

Students begin to practice interpreting skills consecutively. Students interpret from American Sign Language to English and from English to American Sign Language with a controlled amount of time between the source and the interpretation. Students are introduced to planned and unplanned material and have opportunities to observe working interpreters.

**Repeatable:** *N*

**Formerly** 37-3401

**Prerequisites** SIGN 202 American Sign Language IV and SIGN 128 Introduction to Interpreting and SIGN 235 Foundations of Translation

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

### **SIGN 341 Interpreting Dialogic Discourse**

Course focuses on simultaneously interpreting dialogues from American Sign Language to English and from English to American Sign Language. Interpretation begins before the source message is completed and continues while the source message continues. Students practice interpreting such events as telephone calls, meetings, and interviews. Opportunities to observe working interpreters are provided.

**Repeatable:** *N*

**Formerly** 37-3403

**Prerequisites** SIGN 340 Foundations of Interpreting

**Minimum Credits 3 Maximum Credits 3**

### **SIGN 342 Interpreting Simultaneous Discourse**

This three-credit course is designed to build and strengthen simultaneous interpreting skills from American Sign Language (ASL) to English and English to American Sign Language (ASL). Topics include bridging to simultaneous, sources of errors, comprehension, message meaning transfer, reformulation, self-monitoring and correction techniques. There is a continuous emphasis on Self Analysis.

**Repeatable:** *N*

**Formerly** 37-3404

**Prerequisites** SIGN 340 Foundations of Interpreting

**Concurrent Requisite** SIGN 341 Interpreting Dialogic Discourse

**Minimum Credits 3 Maximum Credits 3**

### **SIGN 343 Interpreting Advanced Discourse**

Course focuses on simultaneously interpreting monologues from American Sign Language to English and from English to American Sign Language. Interpretation in this case begins before the source message is completed and continues while the source message continues. Students practice interpreting speeches, lectures, and narratives. Opportunities to observe working interpreters are provided.

**Repeatable:** *N*

**Formerly** 37-3402

**Prerequisites** SIGN 341 Interpreting Dialogic Discourse

**Minimum Credits 4 Maximum Credits 4**

### **SIGN 481 Interpreting Practicum I: Specializations and Stakeholders**

This course provides an opportunity for students to apply their knowledge, skills, and experiences in a variety of interpreting settings--in education, business, public service agencies, and as freelance interpreters. Students will participate in supervised field work. Students will also attend a weekly seminar to examine the various sub-fields of interpreting and to discuss linguistic and ethical dilemmas.

**Repeatable:** *N*

**Formerly** 37-4501

**Prerequisites** SIGN 341 Interpreting Dialogic Discourse and SIGN 342 Interpreting Simultaneous Discourse

**Requirements** Permission Required (DP)

**Minimum Credits** 3 **Maximum Credits** 3

## **SIGN 482 Interpreting Practicum II**

This course provides an opportunity for students to apply their knowledge, skills, and experiences in a variety of interpreting settings—in education, business, public service agencies, and as freelance interpreters. Students will participate in both supervised and unsupervised field work. Additionally, students will attend a weekly seminar that focuses on the business aspects of interpreting.

**Repeatable:** N

**Formerly** 37-4502

**Prerequisites** SIGN 481 Interpreting Practicum I: Specializations and Stakeholders

**Requirements** Permission Required (DP)

**Minimum Credits** 4 **Maximum Credits** 4

*Complete 3 credits from the following courses:*

## **SIGN 115 Introduction to Classifiers in American Sign Language**

This course will expand on understanding the principles of Classifiers, an integral part of American Sign Language (ASL), knowing how to identify different types of ASL Classifiers, and application of ASL Classifiers. Students will learn and apply the three types of classifiers, learn and use the representative classifiers (animate and inanimate), descriptive classifiers (size-and-shape, extent, perimeter, and pattern and texture), and instrumental classifiers. This course will provide hands-on experiences and skill building activities needed for appropriate classifier use applied to complex descriptions and images. Eye gaze, role shifting, spatial referencing and appropriate use of ASL Classifiers in storytelling will also be covered.

**Repeatable:** N

**Formerly** 37-1153

**Prerequisites** SIGN 101 American Sign Language I

**Minimum Credits** 3 **Maximum Credits** 3

## **SIGN 160 ASL Fingerspelling**

ASL Fingerspelling looks at the use of the ASL alphabet in the hands of native users and focuses on specific features of production that non-native users often have trouble understanding. Emphasis is on how to use and understand fingerspelling and how to make and understand appropriate changes in handshapes and patterns. The course will also cover the history and structure of fingerspelling in American Sign Language and the lexicalization of fingerspelling.

**Repeatable:** Y

**Formerly** 37-1701

**Prerequisites** SIGN 102 American Sign Language II

**Minimum Credits** 3 **Maximum Credits** 3

## **SIGN 211 Deaf Representations in the Media**

The Deaf and hard-of-hearing community exists as a linguistic and cultural minority group often featured in various forms of media. This course raises questions concerning the portrayal of Deaf and hard-of-hearing people in television, film, theater, books, and news media. This course will examine the changing attitudes towards the community, deafness, and sign language throughout history up to current times. Language, rhetoric, imagery, and treatment of both characters and actual persons in the media will also be examined.

**Repeatable:** Y

**Formerly** 37-2201

**HU DEI PL**

**Prerequisites** ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

### **SIGN 221 Historical and Cultural Perspectives on Deaf American Artists and Art**

This course focuses on the refinement of students' appreciations and knowledge in the visual art history and Deaf Arts. This course will also investigate the historical and cultural perceptions toward to the Deaf artists and their works; use comparative studies focusing on the work of Deaf artists which may not appear under the definition of Deaf Art, and will explore and produce a body of work demonstrating a Deaf experience related to painting, sculpture, and installation spaces.

**Repeatable:** N

**Formerly** 37-2251

**PL**

**Prerequisites** SIGN 125 Deaf Culture

**Minimum Credits 3 Maximum Credits 3**

### **SIGN 242 Music Interpreting**

This course will use music as a way to guide students through principles of translation. Genres of music, ASL features, and discourse analysis will be covered, as well as performance versus interpreting in ASL. Political and cultural views of music interpreting will also be discussed.

**Repeatable:** Y

**Formerly** 37-2402

**Prerequisites** SIGN 125 Deaf Culture and SIGN 201 American Sign Language III

**Minimum Credits 3 Maximum Credits 3**

### **SIGN 260 Creativity and ASL**

Course focuses on utilizing American Sign Language as a tool for creating poetry, storytelling, and theatrical productions. Students participate in activities and discussions and occasional assignments outside of class. Course is designed to increase students' understanding of how aspects of deaf culture are expressed through creative American Sign Language.

**Repeatable:** Y

**Formerly** 37-2601

**Prerequisites** SIGN 201 American Sign Language III and SIGN 125 Deaf Culture  
**Minimum Credits 3 Maximum Credits 3**

### **SIGN 299 Topics in ASL-English Interpretation**

This course offers students opportunities to learn about specialized areas of study within the field of Interpretation. Units will cover information that is introduced in other courses within the major, but provide additional theoretical foundations and/or skills practice to prepare students for work in a particular interpreting setting or concentration.

**Repeatable:** Y  
**Formerly** 37-3650  
**Minimum Credits 1 Maximum Credits 3**

### **SIGN 315 Deaf Education**

This course examines the education of people who are Deaf and hard of hearing. Topics include language acquisition, the history and practices of Deaf Education, and various types of technology used in Deaf Education. As Deafness is both a physical and cultural phenomenon, educational philosophies that have influenced Deaf Education will be discussed, as well as legislative initiatives that have impacted the lives of Deaf and hard of hearing children. Content includes lecture, discussion, basic research, and one field trip to a working School for the Deaf.

**Repeatable:** N  
**Formerly** 37-3225  
**PL**  
**Prerequisites** SIGN 125 Deaf Culture and SIGN 201 American Sign Language III  
**Minimum Credits 3 Maximum Credits 3**

### **SIGN 330 Interpreting for Special Populations within the De**

The course examines various special populations interpreters encounter in their work. Examples include specific deaf and hard of hearing consumers who present unique interpreting challenges such as those who communicate orally, persons who are both deaf and blind and those classified as having minimal language skills (MLS). Course content includes lecture and skill building opportunities.

**Repeatable:** N  
**Formerly** 37-3305  
**Prerequisites** SIGN 125 Deaf Culture and SIGN 202 American Sign Language IV  
**Minimum Credits 3 Maximum Credits 3**

### **SIGN 365 ASL Literature**

Course covers two full-length ASL narratives by Ben Bahan and Sam Supalla, well respected ASL storytellers. Through the narratives, students are exposed to the lives and experiences of deaf people. Deaf people rely on ASL narratives to portray themselves and to reaffirm their identities as members of a distinct cultural group. Students also learn how a narrative is formed without a written system and how it is preserved and passed down through the generations. Note: This is a required course for students pursuing an American Sign Language Studies Minor.

**Repeatable:** N  
**Formerly** 37-3661

**Prerequisites** SIGN 202 American Sign Language IV and SIGN 125 Deaf Culture

**Minimum Credits 3 Maximum Credits 3**

### **SIGN 495 Directed Study: ASL/English Interpretation**

Directed Studies are learning activities involving student independence within the context of regular guidance and direction from a faculty advisor. Directed Studies are appropriate for students who wish to explore a subject beyond what is possible in regular courses or for students who wish to engage in a subject or activity not otherwise offered that semester by the College. Directed Studies involve close collaboration with a faculty advisor who will assist in development and design of the project, oversee its progress, evaluate the final results, and submit a grade.

**Repeatable:** Y

**Formerly** 37-1899

**Requirements** Permission Required (DP)

**Minimum Credits 1 Maximum Credits 6**

### **SIGN 496 Independent Project: ASL-English Interpretation**

Independent projects offer credit to students for special projects related to deafness and/or interpreting. Student proposes project to the department chairperson for approval in advance, at which time number of credits are assigned. Contact the Interpreter Training Department for additional details.

**Repeatable:** Y

**Formerly** 37-3898

**Requirements** Permission Required (DP)

**Minimum Credits 1 Maximum Credits 6**

## **Deaf Studies, BA**

*Note: Effective Spring 2023, applications will no longer be accepted into this program.*

The Deaf Studies major is designed to educate students who will be advocates for and with the Deaf community in the United States to promote equality in all aspects of life for all. The curriculum provides a coherent plan of study through courses in American Sign Language, Deaf Culture, linguistics, cultural studies, and practicums involved within the Deaf community. During their final year, Deaf Studies majors will enhance their academic experience through internship, which includes fieldwork related to Deaf Studies, and a capstone designed to meet their individual objectives.

A BA in Deaf Studies can allow students the opportunity to study the disciplines of the social aspects of the Deaf community as well as Deaf individuals and to work in Deaf-related careers such as administration, research, advocacy, or education. The American Sign Language Department at Columbia College Chicago is also in a unique position by partnering with the highly active artistic Deaf community in Chicago and offers courses taught by internationally known faculty in the creative ASL artistic fields.

As a result of successfully completing program requirements, students should be able to:

- understand the cultural foundations of the field of Deaf Studies;
- recognize the American Deaf community as a linguistic and cultural minority group;

- possess an in-depth understanding of the history of the Deaf community and American Deaf culture;
- appreciate diversity in the Deaf community, and will be able to apply their insights when working in diverse communities;
- define the characteristics of special populations of Deaf and hard of hearing persons who require unique communication;
- analyze artistic elements of the Deaf community (themes, forms/genres, stylistic choices, cultural perspectives, or use of cultural identity, for example) in order to produce new interpretations of existing Deaf-related art works in historical and contemporary settings;
- demonstrate solid usage of social media to reflect their criticisms toward cultural studies, and how issues related to the Deaf communities fit in with larger issues of race, power, and oppression;
- communicate proficiently in ASL and English;
- demonstrate proficiency of use of and comprehension of advanced vocabulary and grammatical features of ASL;
- demonstrate proficiency of use of and comprehension of advanced vocabulary and grammatical features of English;
- demonstrate the basic knowledge of poetic features within ASL Literature;
- understand the ethical and professional foundations of the fields of Deaf Studies and Interpretation;
- understand the role of an interpreter, and will understand the evolution of that role from a cultural perspective;
- demonstrate knowledge of professional credentialing and laws that pertain to interpreters;
- demonstrate knowledge of ethical business practices and professional interpreting agencies and organizations, as well as Deafness-related organizations;
- exhibit professional behaviors while interacting within the Deaf and interpreting communities; and
- apply the skills, aptitudes, and knowledge developed throughout the entire course of study through critical reflection on outreach in the Deaf community or advanced research.

## PROGRAM REQUIREMENTS - 46 credits required

### **SIGN 101 American Sign Language I**

An introductory course in American Sign Language (ASL). This course concentrates on the development of conversational fluency in ASL. Students will develop expressive and receptive skills through discussions of such topics as sharing information about us and everyday life. Activities include short presentations, storytelling, and lab exercises that provide extensive hands-on practice using different methods of delivery. Students will also be exposed to diverse Deaf signers, modeling appropriate language and culture behaviors in various situations.

**Repeatable:** *N*

**Formerly** 37-1151

**HU DEI**

**Minimum Credits 3 Maximum Credits 3**

### **SIGN 102 American Sign Language II**

A continuation of an introductory course in American Sign Language (ASL). This course includes further training in receptive and expressive skills through discussions of such topics as sharing information about our surroundings and us. Activities include short presentations, storytelling, and lab exercises that provide extensive hands-on practice using different methods of delivery. Students will be also be exposed to Deaf culture and diverse Deaf signers, modeling appropriate language and cultural behaviors in various

situations.

**Repeatable:** Y

**Formerly** 37-1152

**HU DEI**

**Prerequisites** SIGN 101 American Sign Language I

**Minimum Credits 3 Maximum Credits 3**

## **SIGN 125 Deaf Culture**

Course is an introduction to various aspects of the deaf community as a linguistic and cultural minority group. Designed for individuals who may or may not have had prior experience with deaf people, course raises questions concerning the nature of sign language and its varieties, education of deaf people, historical treatment of deaf people, sociological and cultural issues important to the deaf community, and political activism.

**Repeatable:** N

**Formerly** 37-1252

**HU DEI PL**

**Minimum Credits 3 Maximum Credits 3**

## **SIGN 128 Introduction to Interpreting**

This course introduces students to career opportunities within the field of interpreting and the ASL community. Focus is placed on relevant laws that impact the Deaf Community, the historical and current trends in the field of interpreting, the growth of Deaf Studies as a field and career opportunities afford those with linguistic and cultural knowledge of ASL and the Deaf Community. Students begin their study and analysis of the Code of Professional Conduct and Ethics in general. Students will begin their preparation for the field by becoming aware of, and participate in current practices and research related to the field of interpreting and Deaf studies. Lastly, students will begin to develop important critical thinking skills in order to prepare them for the next developmental level.

**Repeatable:** N

**Formerly** 37-1253

**Prerequisites** SIGN 101 American Sign Language I

**Minimum Credits 3 Maximum Credits 3**

## **SIGN 201 American Sign Language III**

This is the third course in the series of American Sign Language (ASL). This course focuses on the further development of conversational activities. ASL skill development with application to complex grammatical structures continues through discussion of such topics as us, the Deaf community, and its culture. Activities include presentations, storytelling, and lab exercises that provide extensive hands-on practice using different methods of delivery. For community engagement, students are expected to navigate into the diverse Deaf community in order to learn about Deaf co-culture in and beyond Chicago.

**Repeatable:** Y

**Formerly** 37-2153

**HU**

**Prerequisites** SIGN 102 American Sign Language II

**Minimum Credits 3 Maximum Credits 3**

## **SIGN 202 American Sign Language IV**

This intermediate American Sign Language course is specifically designed to refine expressive and receptive skills of students pursuing a degree in ASL Interpreting or Deaf Studies. Advanced linguistic structures are introduced and put into practice. Activities include delivering live presentations, narrating life experiences, discussing current events, and lab exercises that provide students opportunities to apply their linguistic and cultural knowledge. For the community engagement, students are expected to engage in the diverse Deaf community to learn their places and develop networks within the community in and beyond Chicago.

**Repeatable:** Y

**Formerly** 37-2154

**HU DEI**

**Prerequisites** SIGN 201 American Sign Language III

**Minimum Credits 3 Maximum Credits 3**

## **SIGN 211 Deaf Representations in the Media**

The Deaf and hard-of-hearing community exists as a linguistic and cultural minority group often featured in various forms of media. This course raises questions concerning the portrayal of Deaf and hard-of-hearing people in television, film, theater, books, and news media. This course will examine the changing attitudes towards the community, deafness, and sign language throughout history up to current times. Language, rhetoric, imagery, and treatment of both characters and actual persons in the media will also be examined.

**Repeatable:** Y

**Formerly** 37-2201

**HU DEI PL**

**Prerequisites** ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

## **SIGN 228 Linguistics of ASL**

Course focuses on the linguistic structures of American Sign Language, including phonology, morphology, syntax, and language. Structural aspects of both American Sign Language and English are compared and contrasted, providing students with valuable insight into both languages.

**Repeatable:** N

**Formerly** 37-2253

**Prerequisites** SIGN 102 American Sign Language II

**Minimum Credits 3 Maximum Credits 3**

## **SIGN 250 Visual Methodologies**

This course will serve as an introduction to visual methodologies, looking at different types of visual research and critically examining a range of visual methods and their uses. Our society is moving towards a more visually oriented environment in our media and social media, in terms of how information is presented, disseminated, and gathered. The Deaf and Hard-of-Hearing community in America relies greatly on visual stimuli and visual forms of information, but so do many other groups in today's American society. Different methods to develop and study visual data and how they may be used within the Deaf and Hard of Hearing community, among others, will be examined, with opportunities to apply these methods in class projects.

**Repeatable:** N

**Formerly** 37-2501

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

## **SIGN 310 Advanced American Sign Language**

This advanced American Sign Language course is specifically designed to refine and further develop expressive and receptive skills of students pursuing a degree in interpreting or Deaf Studies. Advanced linguistic structures are explored and practiced. Colloquial and discourse features and strategies are explored and practiced. Activities include delivering live presentations, narrating life experiences, discussing current events, and lab exercises that provide students opportunities to apply their advanced linguistic and cultural knowledge. For community engagement, students are expected to engage in the diverse Deaf community in order to learn their places and develop networks within the Deaf community here in and beyond Chicago.

**Repeatable:** Y

**Formerly** 37-3205

**Prerequisites** SIGN 202 American Sign Language IV

**Minimum Credits 3 Maximum Credits 3**

## **SIGN 315 Deaf Education**

This course examines the education of people who are Deaf and hard of hearing. Topics include language acquisition, the history and practices of Deaf Education, and various types of technology used in Deaf Education. As Deafness is both a physical and cultural phenomenon, educational philosophies that have influenced Deaf Education will be discussed, as well as legislative initiatives that have impacted the lives of Deaf and hard of hearing children. Content includes lecture, discussion, basic research, and one field trip to a working School for the Deaf.

**Repeatable:** N

**Formerly** 37-3225

**PL**

**Prerequisites** SIGN 125 Deaf Culture and SIGN 201 American Sign Language III

**Minimum Credits 3 Maximum Credits 3**

## **SIGN 365 ASL Literature**

Course covers two full-length ASL narratives by Ben Bahan and Sam Supalla, well respected ASL storytellers. Through the narratives, students are exposed to the lives and experiences of deaf people. Deaf people rely on ASL narratives to portray themselves and to reaffirm their identities as members of a distinct cultural group. Students also learn how a narrative is formed without a written system and how it is preserved and passed down through the generations. Note: This is a required course for students pursuing an American Sign Language Studies Minor.

**Repeatable:** N

**Formerly** 37-3661

**Prerequisites** SIGN 202 American Sign Language IV and SIGN 125 Deaf Culture

**Minimum Credits 3 Maximum Credits 3**

## **SIGN 475 Deaf Studies Capstone**

This directed study and lecture hybrid course provides a comprehensive review of information, sociolinguistics, and methodologies provided in all previous Deaf Studies courses. Appropriate means of research on ASL and Deaf community related issues will be discussed. Students will propose, develop and complete individual projects based upon research on a specific and significant topic in the Deaf/ASL community.

**Repeatable:** N

**Formerly** 37-4503

**Prerequisites** CULS 201 Cultural Theories and SIGN 365 ASL Literature and SIGN 315 Deaf Education and SIGN 310 Advanced American Sign Language

**Requirements** Permission Required (DP)

**Minimum Credits** 3 **Maximum Credits** 3

## **SIGN 496 Independent Project: ASL-English Interpretation**

Independent projects offer credit to students for special projects related to deafness and/or interpreting. Student proposes project to the department chairperson for approval in advance, at which time number of credits are assigned. Contact the Interpreter Training Department for additional details.

**Repeatable:** Y

**Formerly** 37-3898

**Requirements** Permission Required (DP)

**Minimum Credits** 1 **Maximum Credits** 6

*Choose one of the following courses:*

## **CULS 101 Introduction to Cultural Studies**

This course introduces students to the terms, analytical techniques, and interpretive strategies commonly employed in cultural studies. Emphasis is on interdisciplinary approaches to exploring how cultural processes and artifacts are produced, shaped, distributed, consumed, and responded to in diverse ways. Through discussion, research, and writing, class members investigate these varied dimensions of culture; learn to understand them in their broader social, aesthetic, ethical, and political contexts; and thereby prepare for more advanced coursework in Cultural Studies.

**Repeatable:** N

**Formerly** 46-1100

**HU DEI**

**Minimum Credits** 3 **Maximum Credits** 3

## **CULS 101H Introduction to Cultural Studies: Honors**

This course introduces students to the terms, analytical techniques, and interpretive strategies commonly employed in cultural studies. Emphasis is on critical approaches to exploring how cultural processes and artifacts are produced, shaped, distributed, consumed, and responded to in diverse ways. Through discussion, research, and writing, class members investigate these varied dimensions of culture; learn to understand them in their broader social, aesthetic, ethical, political, and economic contexts; and thereby prepare for more advanced coursework in cultural studies. This is an Honors class. In addition to other possible pre-requisites, students need a minimum G.P.A. of 3.50 or higher to enroll.

**Repeatable:** *N*

**HU DEI**

**Requirements** 3.5 or Higher GPA (35GP)

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

### **SIGN 221 Historical and Cultural Perspectives on Deaf American Artists and Art**

This course focuses on the refinement of students' appreciations and knowledge in the visual art history and Deaf Arts. This course will also investigate the historical and cultural perceptions toward to the Deaf artists and their works; use comparative studies focusing on the work of Deaf artists which may not appear under the definition of Deaf Art, and will explore and produce a body of work demonstrating a Deaf experience related to painting, sculpture, and installation spaces.

**Repeatable:** *N*

**Formerly** 37-2251

**PL**

**Prerequisites** SIGN 125 Deaf Culture

**Minimum Credits 3 Maximum Credits 3**

### **SIGN 225 Deaf Art Movement/De'Via: Discussions with Deaf Artists**

This course focuses on the Deaf Art Movement and the De'VIA Movement and the artwork and movements that preceded and influenced the development of these movements. It involves history and understanding artistic frameworks that help to interpret the meaning of various artwork of this era. Basically this is a contemporary art course about living Deaf Artists. This course will involve interviews with artists in the United States who visit the class in person or via videophone technology. Students will be invited to interview and assist Deaf artists during events outside of class during the semester. Students will be expected to have interview questions ready for each guest presenter based on their experiences with the artist's work. One 7-10 minute presentation in ASL will be required from each student, focusing on a different artist, informing the class of various Deaf artists and their work. This course will expand your working knowledge of Deaf Art and various contemporary Deaf artists and the art movements that have influenced their development.

**Repeatable:** *N*

**Formerly** 37-2252

**Prerequisites** SIGN 102 American Sign Language II

**Minimum Credits 3 Maximum Credits 3**

## **Minor**

### **ASL Studies Minor**

Students majoring in other fields will find that the development of American Sign Language skills and the ability to communicate with Deaf people can significantly increase their marketability and career options upon graduation.

The minor in ASL Studies will provide students with an opportunity to master American Sign Language at a communicative level and have a broad understanding of the culture of the Deaf community.

Students will become familiar with resources available to them related to the Deaf community, such as interpreter referral services and video relay services, and will be able to utilize those services in their own professions. Students will have a clear sense of how American Sign Language and knowledge of the Deaf community apply to their major.

As a result of successfully completing program requirements, students should be able to:

- understand the cultural foundations of the field of ASL studies;
- recognize the American Deaf community as a linguistic and cultural minority group;
- possess an in-depth understanding of the history of the Deaf community and American Deaf culture;
- apply their knowledge of ASL and the Deaf community to their major;
- communicate proficiently in ASL and English;
- demonstrate proficiency of use of and comprehension of advanced vocabulary and grammatical features of ASL; and
- demonstrate proficiency of use of and comprehension of advanced vocabulary and grammatical features of English.

## PROGRAM REQUIREMENTS - 21 credits required

### **SIGN 101 American Sign Language I**

An introductory course in American Sign Language (ASL). This course concentrates on the development of conversational fluency in ASL. Students will develop expressive and receptive skills through discussions of such topics as sharing information about us and everyday life. Activities include short presentations, storytelling, and lab exercises that provide extensive hands-on practice using different methods of delivery. Students will also be exposed to diverse Deaf signers, modeling appropriate language and culture behaviors in various situations.

**Repeatable:** N

**Formerly** 37-1151

**HU DEI**

**Minimum Credits 3 Maximum Credits 3**

### **SIGN 102 American Sign Language II**

A continuation of an introductory course in American Sign Language (ASL). This course includes further training in receptive and expressive skills through discussions of such topics as sharing information about our surroundings and us. Activities include short presentations, storytelling, and lab exercises that provide extensive hands-on practice using different methods of delivery. Students will be also be exposed to Deaf culture and diverse Deaf signers, modeling appropriate language and cultural behaviors in various situations.

**Repeatable:** Y

**Formerly** 37-1152

**HU DEI**

**Prerequisites** SIGN 101 American Sign Language I

**Minimum Credits 3 Maximum Credits 3**

### **SIGN 125 Deaf Culture**

Course is an introduction to various aspects of the deaf community as a linguistic and cultural minority group. Designed for individuals who may or may not have had prior experience with deaf people, course raises questions concerning the nature of sign language and its varieties, education of deaf people, historical treatment of deaf people, sociological and cultural issues important to the deaf community, and political activism.

**Repeatable:** N

**Formerly** 37-1252

**HU DEI PL**

**Prerequisites** SIGN 201 American Sign Language III

**Minimum Credits 3 Maximum Credits 3**

## **SIGN 228 Linguistics of ASL**

Course focuses on the linguistic structures of American Sign Language, including phonology, morphology, syntax, and language. Structural aspects of both American Sign Language and English are compared and contrasted, providing students with valuable insight into both languages.

**Repeatable:** N

**Formerly** 37-2253

**Prerequisites** SIGN 102 American Sign Language II

**Minimum Credits 3 Maximum Credits 3**

*Complete 3 credits from the following courses:*

### **SIGN 115 Introduction to Classifiers in American Sign Language**

This course will expand on understanding the principles of Classifiers, an integral part of American Sign Language (ASL), knowing how to identify different types of ASL Classifiers, and application of ASL Classifiers. Students will learn and apply the three types of classifiers, learn and use the representative classifiers (animate and inanimate), descriptive classifiers (size-and-shape, extent, perimeter, and pattern and texture), and instrumental classifiers. This course will provide hands-on experiences and skill building activities needed for appropriate classifier use applied to complex descriptions and images. Eye gaze, role shifting, spatial referencing and appropriate use of ASL Classifiers in storytelling will also be covered.

**Repeatable:** N

**Formerly** 37-1153

**Prerequisites** SIGN 101 American Sign Language I

**Minimum Credits 3 Maximum Credits 3**

### **SIGN 160 ASL Fingerspelling**

ASL Fingerspelling looks at the use of the ASL alphabet in the hands of native users and focuses on specific features of production that non-native users often have trouble understanding. Emphasis is on how to use and understand fingerspelling and how to make and understand appropriate changes in handshapes and patterns. The course will also cover the history and structure of fingerspelling in American Sign Language and the lexicalization of fingerspelling.

**Repeatable:** Y

**Formerly** 37-1701

**Prerequisites** SIGN 102 American Sign Language II

**Minimum Credits 3 Maximum Credits 3**

### **SIGN 211 Deaf Representations in the Media**

The Deaf and hard-of-hearing community exists as a linguistic and cultural minority group often featured in various forms of media. This course raises questions concerning the portrayal of Deaf and hard-of-hearing people in television, film, theater, books, and news media. This course will examine the changing attitudes towards the community, deafness, and sign language throughout history up to current times. Language, rhetoric, imagery, and treatment of both characters and actual persons in the media will also be examined.

**Minimum Credits 3 Maximum Credits 3**

### **SIGN 221 Historical and Cultural Perspectives on Deaf American Artists and Art**

This course focuses on the refinement of students' appreciations and knowledge in the visual art history and Deaf Arts. This course will also investigate the historical and cultural perceptions toward to the Deaf artists and their works; use comparative studies focusing on the work of Deaf artists which may not appear under the definition of Deaf Art, and will explore and produce a body of work demonstrating a Deaf experience

related to painting, sculpture, and installation spaces.

**Repeatable:** *N*

**Formerly** 37-2251

**PL**

**Prerequisites** SIGN 125 Deaf Culture

**Minimum Credits** 3 **Maximum Credits** 3

## **SIGN 260 Creativity and ASL**

Course focuses on utilizing American Sign Language as a tool for creating poetry, storytelling, and theatrical productions. Students participate in activities and discussions and occasional assignments outside of class. Course is designed to increase students' understanding of how aspects of deaf culture are expressed through creative American Sign Language.

**Repeatable:** *Y*

**Formerly** 37-2601

**Prerequisites** SIGN 201 American Sign Language III and SIGN 125 Deaf Culture

**Minimum Credits** 3 **Maximum Credits** 3

## **SIGN 299 Topics in ASL-English Interpretation**

This course offers students opportunities to learn about specialized areas of study within the field of Interpretation. Units will cover information that is introduced in other courses within the major, but provide additional theoretical foundations and/or skills practice to prepare students for work in a particular interpreting setting or concentration.

**Repeatable:** *Y*

**Formerly** 37-3650

**Minimum Credits** 1 **Maximum Credits** 3

## **SIGN 315 Deaf Education**

This course examines the education of people who are Deaf and hard of hearing. Topics include language acquisition, the history and practices of Deaf Education, and various types of technology used in Deaf Education. As Deafness is both a physical and cultural phenomenon, educational philosophies that have influenced Deaf Education will be discussed, as well as legislative initiatives that have impacted the lives of Deaf and hard of hearing children. Content includes lecture, discussion, basic research, and one field trip to a working School for the Deaf.

## **SIGN 365 ASL Literature**

Course covers two full-length ASL narratives by Ben Bahan and Sam Supalla, well respected ASL storytellers. Through the narratives, students are exposed to the lives and experiences of deaf people. Deaf people rely on ASL narratives to portray themselves and to reaffirm their identities as members of a distinct cultural group. Students also learn how a narrative is formed without a written system and how it is

preserved and passed down through the generations. Note: This is a required course for students pursuing an American Sign Language Studies Minor.

**Repeatable:** *N*

**Formerly** 37-3661

**Prerequisites** SIGN 202 American Sign Language IV and SIGN 125 Deaf Culture

**Minimum Credits** 3 **Maximum Credits** 3

## English and Creative Writing

### Bachelor of Arts

### Creative Writing, BA

The Creative Writing Bachelor of Arts degree encourages students to pursue both specialization and breadth. Students choose to specialize in one of three concentrations (Fiction, Nonfiction and Poetry) while also exploring broad, cross-genre writing opportunities in creative writing courses outside their chosen concentration. Creative Writing majors take 18 hours of Core workshop courses -- at least 12 of which are in their chosen concentration. The Writer's Portfolio, a required junior-year course, gives students the opportunity to reflect on the body of work they've produced at Columbia (in preparation for their Thesis Workshop), while also helping them explore options for applying their writing skills to the workplace after graduation.

Work in the major culminates in the capstone Thesis Workshop, in which students write, revise, and compile a portfolio that can serve as a potential publication, a demonstration of work for employers, or as a graduate school writing submission. Craft and Process Seminars, along with a series of Literature courses (designed for Creative Writers), allow students to explore the history of their chosen genre while creating original and innovative work of their own.

The wide range of course offerings in the Creative Writing Bachelor of Arts degree program helps prepare students to be competitive for an expansive range of careers, both in creative writing and in fields where effective communication, creative problem-solving, critical analysis, editing, and group relationship skills are crucial factors.

## PROGRAM REQUIREMENTS - 42 credits required

### CRWR 110 Foundations in Creative Writing

This course will introduce students to an extensive creative writing practice by inviting them to write in a number of different genres and forms. Students will become familiar with core literary devices such as structure, conflict, scene, character, voice, point of view, setting, tone, metaphor, imagery, dialogue, and language. Students will learn to read closely and analyze stylistic choices and literary elements from genres such as poetry, fiction, nonfiction, playwriting, and hybrid texts. Course writing will range from experimental to traditional, from structured to open. Students will be introduced to the workshop process by writing in various genres and by providing feedback to their peers.

**Repeatable:** *N*

**Formerly** 59-1100

**Minimum Credits** 3 **Maximum Credits** 3

## **CRWR 316 Writer's Portfolio**

Course combines the study of aesthetics with the study of the business of creative writing. Student writing in class may include (but is not limited to) critical essays on the craft of creative writing; craft commentaries on your own work and on the work of others; interviews with other writers; cover letters; query letters; and research essays on publishing markets. Students will learn about professional presentation for submitting their writing for publication and for evaluation by employers and graduate-admission committees in fields where effective communication, creative problem-solving, critical analysis, editing, and group relationship skills are crucial factors.

**Repeatable:** N

**Formerly** 59-3150

**Prerequisites** CRWR 250 Fiction Workshop: Intermediate or CRWR 255 Poetry Workshop: Intermediate or CRWR 260 Creative Nonfiction Workshop: Intermediate

**Minimum Credits 3 Maximum Credits 3**

## **LITR 103 Introduction to Literary Interpretation**

Course introduces students to key terms, concepts, and techniques of literary interpretation, with attention to questions of genre, period, and critical perspective. Students analyze selections of poetry, fiction, nonfiction, and/or drama representing a range of historical periods and cultural traditions, and they learn to compose evidence-based interpretive arguments. Designed for students in English and Creative Writing.

**Repeatable:** N

**Formerly** 52-1701

**DEI**

English or Creative Writing Major or Minor Only (4ECW)

**Minimum Credits 3 Maximum Credits 3**

*Complete 6 credits from the following courses:*

## **LITR 386A Seminar in Literary Interpretation**

This rotating topics course provides students with opportunities for advanced literary analysis in a seminar format, building on the skills in reading, interpretation, research, and argumentation addressed in prior literature courses. Students give focused attention to a selected set of authors, texts, critical perspectives, and / or debates in literary studies and write sustained interpretive arguments based on research and textual analysis. Course is repeatable as topic changes.

**Repeatable:** Y

**Formerly** LITR 386

## **Electives**

*Complete 6 credits from the following courses:*

### **COLL 210 Internship**

This course allows students to take a valuable internship experience in their desired industry for academic credit. Each position is vetted and approved by Career Center to ensure that it is an educational opportunity that will fulfill the learning objectives of the course. Participating in an internship allows the student to gain hands-on experience and explore career interests while applying knowledge and skills learned in the classroom to a work setting. The experience also helps students gain a clearer sense of what they still need to learn and provides an opportunity to build professional networks. Students are responsible for securing their own internships and having them approved prior to registering for this course. Please contact the Career Center for assistance and resources.

**Repeatable:** Y

**Formerly** 99-2100

**Requirements** Permission Required (DP)

**Minimum Credits 1 Maximum Credits 1**

## **COLL 230 Internship: Professionalism and Creativity**

This course allows students to take a valuable internship experience in their desired industry for academic credit. Each position is vetted and approved by Career Center to ensure that it is an educational opportunity that will fulfill the learning objectives of the course. Participating in an internship allows students to gain hands-on experience and explore career interests while applying knowledge and skills learned in the classroom to a work setting. The online, academic component of this internship fosters student understanding of how organizations operate and provides for structured reflection on their experiences and assessment of their knowledge and skills. Students are responsible for securing their own internships and should contact Career Center for assistance and resources to identify and apply for opportunities of interest.

## **CRWR 112 Tutoring Fiction Writing Skills**

Tutorial course addresses basic skills in grammar and punctuation, fiction writing, rewriting, editing, journal writing, organization, and more. Tutorial Program is designed for students concurrently enrolled in Fiction Writing Workshop, Prose Forms, Critical Reading and Writing, and Specialty Writing classes. Many students find one-on-one attention of a tutor (who is an advanced writing student) gives their writing added energy and clarity and helps them make valuable discoveries.

**Repeatable:** Y

**Formerly** 59-1450

**Concurrent Requisite** CRWR 150 Fiction Workshop: Beginning

**Minimum Credits** 1 **Maximum Credits** 2

## **CRWR 120A Craft and Process Seminar in Fiction: Topics**

Course requires that qualified students study the works of writers' processes, styles, techniques and choices by reading and researching published novels, short stories, journals, letters and interviews, as well as author biographies. Students gain in-depth knowledge of the cultural context of authors' works. Students explore the writing processes of well known authors and the ways in which students' own responses to the reading can nourish and heighten the development of their own fiction.

**Repeatable:** Y

**Formerly** CRWR 120

**Minimum Credits** 3 **Maximum Credits** 3

## **CRWR 120B Craft and Process Seminar in Fiction: Topics**

Course requires that qualified students study the works of writers' processes, styles, techniques and choices by reading and researching published novels, short stories, journals, letters and interviews, as well as author biographies. Students gain in-depth knowledge of the cultural context of authors' works. Students explore the writing processes of well known authors and the ways in which students' own responses to the reading can nourish and heighten the development of their own fiction.

**Repeatable:** Y

**Minimum Credits** 3 **Maximum Credits** 3

## **CRWR 120C Craft and Process Seminar in Fiction: Topics**

Course requires that qualified students study the works of writers' processes, styles, techniques and choices by reading and researching published novels, short stories, journals, letters and interviews, as well as author biographies. Students gain in-depth knowledge of the cultural context of authors' works. Students explore the writing processes of well known authors and the ways in which students' own responses to the reading can nourish and heighten the development of their own fiction.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

## **CRWR 121 Craft and Process Seminar in Fiction: First Novels**

Course will expose student writers to the creative and intellectual processes of published writers early in their careers. It will show students that a) writing is an ongoing process of writing and rewriting; b) the creative process is both unique and universal to each writer; and c) published writers faced the same bogeys at the beginning of their careers that student writers face. Through contrast and comparisons (in the journals and class discussions) students will examine and comment on the prose forms, character developments, and story structures first-time novelists have effectively used, along with the writing processes the authors employed to get their first novels finished. Through journal entries and essays, students will examine what all this tells them about how they might go about solving the questions of structure and process presented to them by their own writing. Students will be required to read three novels and conduct research by reading writers' diaries, notebooks, letters, and autobiographies. There will be discussion of the assigned texts and journal readings every week.

**Repeatable:** N

**Formerly** 59-1302

**Minimum Credits 3 Maximum Credits 3**

## **CRWR 122 Craft and Process Seminar in Fiction: Gender and Difference**

Course examines the ways in which gay, lesbian, and straight writers contend with issues of culture, gender, and difference. Course focuses upon such questions as the following: How do straight male and female writers deal with the serious issues and challenges of writing from the point of view of gay and lesbian characters How do gay and lesbian writers deal with the same issues in writing about straight characters Course also examines the particular challenges of writing gender opposites (whatever the sexual orientation of those characters might be). Through the students' reading of assigned stories and novels, through their written responses as writers to their reading, through creative fiction and nonfiction writing assignments, and through individual and small-group research activities, the course will approach broad and specific issues of gender and difference from early writing to the present day.

**Repeatable:** N

**Formerly** 59-1305

**PL**

**Minimum Credits 3 Maximum Credits 3**

## **CRWR 123 Craft and Process Seminar in Fiction: The Novel in Stories**

Course examines creative and intellectual processes of writers working in nonlinear structure forms. It raises questions writers ask themselves when determining how best to structure a body of work that is more cohesive than a collection of stories, yet not a linearly shaped novel. Through readings, small group and large group discussions, journal reflections (both students' and authors'), and research into the authors'

writing processes, students are able to reflect upon and examine issues and questions of structure that go into putting together a cohesive body of creative work.

**Repeatable:** *N*

**Formerly** 59-1306

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 127 Craft and Process Seminar in Fiction: American Voices**

Course researches writing processes of African-American, Hispanic-American, Native-American, and Asian-American writers and other ethnic American writers and the ways in which their reading and responses to reading play an influential role in the fiction-writing process. Particular emphasis will be placed upon taking the point of view of racial and ethnic opposites. Journals and other writings are used as examples of how writers read and write about what they read to develop dimensions of their own fiction and how they see their work in relation to that of other writers. Manuscripts and notes of famous works may be used to show writers' processes and development.

**Repeatable:** *N*

**Formerly** 59-1310

**PL**

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 129 Craft and Process Seminar in Fiction: Autobiographical Fiction**

Course requires that students read fiction known to be autobiographical in nature and respond with journal entries and classroom discussion. Students research primary sources concerning a writer, his or her work, and the process by which the work came into being; give an oral report; and write a final essay. Students read aloud journal entry responses to readings and write their own autobiographical fiction, some of which is read and responded to in class.

**Repeatable:** *N*

**Formerly** 59-1312

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 130 Craft and Process Seminar in Fiction: Crime & Story**

Course explores the fact that, since Oedipus Rex, the crime has been one of the engines that drive story movement. Dostoevsky, Drieser, Petry, Dickens, Atwood, and Wright are among the many writers who use elements of the mystery and crime story to explore the psychological effects of crime on characters in fiction. By analyzing the writing techniques and processes--such as point of view, scene, voice, and story structure--of well-known writers, students will examine how murder, crime, and mystery have been transformed beyond genre to create dramatic literary fiction. By reading published work, as well as researching memoirs, journals, essays, and letters of established writers, students will explore how they may use these techniques to create compelling movement in their fiction.

**Repeatable:** *N*

**Formerly** 59-1316

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 132 Story in Fiction and Film: International**

Course critically explores the elements of fiction writing as they are translated to film with an emphasis on foreign and international stories: voice, point of view, dialogue, scene, structure, and other fictional forms. Fiction has been an important source for cinematic storytelling since its earliest incarnations. Students will view films, read fictional excerpts, discuss techniques, and hear speakers, studying how these elements can be used to heighten their own stories. Course will be helpful for students interested in studying fiction, film, and other arts and media disciplines.

**Repeatable:** *N*

**Formerly** 59-1406

**GA**

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 133 Story in Graphic Forms**

Course covers writing for comics and graphic novels: Forms and formats similar to but unique from those of narrative prose, screenwriting, and storyboarding. The full script and plot outline styles of major publishers are explored and practiced. There's an emphasis on research to enable the writer to translate the envisioned image into words for artist and audience. Business aspects such as submissions, working within publishing cooperatives, and self-publishing are presented.

**Repeatable:** *N*

**Formerly** 59-1410

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 134 Young Adult Fiction**

Course analyzes a selection of published young adult novels, with emphasis on the development of student works, including exploration of ideas and issues that sustain novel-length material. Also studied are plot construction, writing of scene and transition, and the weaving of theme into the whole.

**Repeatable:** *N*

**Formerly** 59-1411

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 135 Dreams and Fiction Writing**

Course helps writers relate the rich, various, and powerful world of dreams to the needs and delights of imaginative prose fiction. Students keep journals of their dreams, read and write dream stories, and study how dreams relate to their fiction writing, including researching the ways in which dreams have influenced the work of well-known writers.

**Repeatable:** *N*

**Formerly** 59-1412

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 138 Science Fiction Writing**

Course offers a fresh approach to conception and writing of science fiction, with a current overview of the state of the field and techniques. Students develop original material and present their manuscripts to instructor for careful examination, possible class reading, and critique.

**Repeatable:** *N*

**Formerly** 59-1416

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 140 Story and Journal**

Course uses students' personal journals and journals and notebooks of authors such as Melville, Kafka, Nin, and Boll as devices for exploration of the imagination, recording of the living image, and development of various kinds of writing.

**Repeatable:** *N*

**Formerly** 59-1419

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 141 Fantasy Writing Workshop**

Course explores the many facets of fantasy fiction, from heroic fantasy to contemporary fantasy to horror. Students will read classic short stories of the genre, with class discussion focusing on structure, content, the use of imagination combined with plausibility, and how these qualities apply to the student's own writing.

**Repeatable:** *N*

**Formerly** 59-1420

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 143 Journal and Sketchbook: Ways of Seeing**

This course, open to those interested in writing and/or visual art, will be team-taught by a writer and a visual artist, using interdisciplinary approaches in order to help students better see their narrative work. Kafka, Goya, Faulkner, and others have been inspired by word and image; their journals and sketchbooks show exploration in text, image, and their intersections. Students will consider their written and visual work fully through personal observation, seeing and responding simultaneously, and seeing-in-the-mind through imagination and memory.

**Repeatable:** *N*

**Formerly** 59-1422

**GA**

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 144A Topics in Fiction Writing**

Courses focus on specific topics, genres, and forms relative to Fiction and Creative Nonfiction Writing (novel, short-story, personal and researched essays, etc.) that might not be included in the current course offerings (eg: Chicago Stories; Gators, Bayous, Jambalaya and Fais Do-Dos: Fieldwork Among Louisiana's Cajuns). Topics covered may include traditional fiction writing topics, and may also concentrate on experimental forms and trends in contemporary fiction as well as publishing and electronic media.

**Repeatable:** *Y*

**Formerly** CRWR 144

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 144B Topics in Fiction Writing**

Courses focus on specific topics, genres, and forms relative to Fiction and Creative Nonfiction Writing (novel, short-story, personal and researched essays, etc.) that might not be included in the current course offerings (eg: Chicago Stories; Gators, Bayous, Jambalaya and Fais Do-Dos: Fieldwork Among Louisiana's Cajuns). Topics covered may include traditional fiction writing topics, and may also concentrate on experimental forms and trends in contemporary fiction as well as publishing and electronic media.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 144C Topics in Fiction Writing**

Courses focus on specific topics, genres, and forms relative to Fiction and Creative Nonfiction Writing (novel, short-story, personal and researched essays, etc.) that might not be included in the current course offerings (eg: Chicago Stories; Gators, Bayous, Jambalaya and Fais Do-Dos: Fieldwork Among Louisiana's Cajuns). Topics covered may include traditional fiction writing topics, and may also concentrate on experimental forms and trends in contemporary fiction as well as publishing and electronic media.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 199A Topics in Creative Writing**

This course is designed to respond to contemporary trends and topical issues in creative writing by focusing on specific topics, genres, and forms relative to the intersection of fiction, poetry, and creative nonfiction writing. Topics may range from the traditional to the experimental (examples: Creative Writing & Performance, Cross-Genre Writing, Creating Hybrid Texts, Creative Writing for New Media, Contemporary Publishing) or focus upon a particular author or theme or purpose in creative work. This course is repeatable, as topics rotate each semester to cover material that is not included in the permanent course offerings.

**Repeatable:** Y

**Formerly CRWR 199**

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 199B Topics in Creative Writing**

This course is designed to respond to contemporary trends and topical issues in creative writing by focusing on specific topics, genres, and forms relative to the intersection of fiction, poetry, and creative nonfiction writing. Topics may range from the traditional to the experimental (examples: Creative Writing & Performance, Cross-Genre Writing, Creating Hybrid Texts, Creative Writing for New Media, Contemporary Publishing) or focus upon a particular author or theme or purpose in creative work. This course is repeatable, as topics rotate each semester to cover material that is not included in the permanent course offerings.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 199C Topics in Creative Writing**

This course is designed to respond to contemporary trends and topical issues in creative writing by focusing on specific topics, genres, and forms relative to the intersection of fiction, poetry, and creative nonfiction writing. Topics may range from the traditional to the experimental (examples: Creative Writing &

Performance, Cross-Genre Writing, Creating Hybrid Texts, Creative Writing for New Media, Contemporary Publishing) or focus upon a particular author or theme or purpose in creative work. This course is repeatable, as topics rotate each semester to cover material that is not included in the permanent course offerings.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 215 Freelance Applications of Creative Writing Training**

Course looks at the application of the broad repertoire of creative writing techniques and approaches to writing and freelance tasks found in various businesses and services, including the writing that appears in a variety of publications and media. The student develops writing projects suitable for inclusion in his/her professional portfolios.

**Repeatable:** N

**Formerly** 59-2101

**Prerequisites** CRWR 250 Fiction Workshop: Intermediate or CRWR 255 Poetry Workshop: Intermediate or CRWR 260 Creative Nonfiction Workshop: Intermediate

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 216 Small Press Publishing**

Course covers the how-to, economic, copyright, technical, and mailing regulation considerations of founding a press or magazine and examines the current, important phenomenon of the developing small-press movement in the American literary scene. Course includes an electronic publication component.

**Repeatable:** N

**Formerly** 59-2102

**Prerequisites** CRWR 250 Fiction Workshop: Intermediate or CRWR 255 Poetry Workshop: Intermediate or CRWR 260 Creative Nonfiction Workshop: Intermediate

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 220 Craft and Process Seminar in Fiction: Novelists**

Course examines the ways in which novelists read, respond to what they read, and incorporate their reading responses dynamically into their own fiction-writing processes. In addition to their own written responses to reading, students work individually and in small groups researching the reading and writing processes behind selected novels (mainstream and alternative), ranging from the beginnings of the form to the present day. Drawing upon authors' journals, notebooks, letters, and more public writings, students explore the writing processes of well-known writers and ways in which students' own responses to reading can nourish and heighten the development of their fiction. Course will survey many of the principal novelists and novels and the development of the genre from its roots to contemporary fiction. Students should be writing fiction, but novel-length material is not required.

**Repeatable:** N

**Formerly** 59-2301

**Prerequisites** CRWR 150 Fiction Workshop: Beginning or CRWR 155 Poetry Workshop: Beginning or CRWR 160 Creative Nonfiction Workshop: Beginning

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 221 Craft and Process Seminar in Fiction: Short Story**

Course encourages development of lively, well-crafted, short fiction by examining reading and writing processes that guide some of the best examples of the form. Students select from a wide range of writers, representing many different voices, backgrounds, subjects, and approaches, to research ways in which writers read, respond to their reading, and use that reading to generate and heighten their short stories. Students write their responses to reading short stories and discuss the relationship of reading to the development of their own fiction.

**Repeatable:** *N*

**Formerly** 59-2302

**Prerequisites** CRWR 150 Fiction Workshop: Beginning or CRWR 155 Poetry Workshop: Beginning or CRWR 160 Creative Nonfiction Workshop: Beginning

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 222 Craft and Process Seminar in Fiction: Women Writers**

Course researches writing processes of women writers and ways in which their reading and responses to reading play influential roles in the fiction-writing process. Journals and other writings by Virginia Woolf, Zora Neale Hurston, Katherine Anne Porter, Katherine Mansfield, Eudora Welty, Toni Cade Bambara, and others are used as examples of how writers read, write about what they read to develop their fiction, and see their work in relation to other writers' works. Manuscripts and notes of famous works may be used to show writers' processes and development. Students' own fiction writing is also part of the course.

**Repeatable:** *N*

**Formerly** 59-2303

**PL**

**Prerequisites** CRWR 150 Fiction Workshop: Beginning or CRWR 155 Poetry Workshop: Beginning or CRWR 160 Creative Nonfiction Workshop: Beginning

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 223 Craft and Process Seminar in Fiction: Fiction Writers and Censorship**

Course emphasizes research, writing, and discussion of creative processes of successful writers, among them Lawrence, Flaubert, Hurston, Wright, Selby, Joyce, and Burroughs, who have been forced to confront directly forms of censorship or marginalization. Writers must be free to draw on their strongest material and use their best, most authentic, telling voices. However, writers often confront external or internal inhibitions: outright legal challenges, vocal attacks upon certain types of stories, subtle publishing prejudices, or self-censoring.

**Repeatable:** *N*

**Formerly** 59-2304

**Prerequisites** CRWR 110 Foundations in Creative Writing

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 233 Researching and Writing Historical Fiction**

Course focuses on the ever-popular genre of historical fiction, which combines the study of research techniques with fictional techniques necessary to produce marketable prose. Through reading, research, and guidance of a historical fiction writer, students produce their own historical fiction.

**Repeatable:** *N*

**Formerly** 59-2410

**Prerequisites** CRWR 150 Fiction Workshop: Beginning or CRWR 155 Poetry Workshop: Beginning or

CRWR 160 Creative Nonfiction Workshop: Beginning

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 239 Dialects and Fiction Writing**

Course provides students with informed training in listening with a good ear and distinguishing between eye dialect and dialect that is both accurately and artistically rendered, with an understanding of the tradition of dialect writing in fiction. Dialect speech and writing have richly contributed to the breadth, variety, and authenticity of American and English literature. Students keep journals and research the ways in which writers employ dialect in their fiction as well as what they have to say about such uses, while also developing a facility with dialect in their own fiction writing.

II or CRWR 160 Creative Nonfiction Workshop: Beginning

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 249 Nonfiction Film As Literature**

This class will explore nonfiction films in their relationship to nonfiction literature. What does it mean to speak of films as essays or memoirs or autobiographies? What is the relationship between text and image, fact, truth, and composition in films presenting themselves as nonfictional? We will also consider some nonfiction literature that invokes and plays off film. Filmmakers such as Ross McElwee, Spike Lee, Erroll Morris, Chris Marker, Barbara Hammer, Su Friedrich, Jonathan Caouette, and Spalding Gray will be considered.

**Repeatable:** *N*

**HL**

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 250 Fiction Workshop: Intermediate**

Course is the second workshop in the core curriculum for the Fiction concentration. Course continues the development of perceptual and technical abilities begun in Fiction Writing: Beginning, with a focus that may include, but is not limited to: point of view, structure, and parody of form.

**Repeatable:** *N*

**Formerly** 59-2201

**Prerequisites** CRWR 150 Fiction Workshop: Beginning

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 255 Poetry Workshop: Intermediate**

Through in-class writing exercises, the reading of model poems, and discussion of student work, students are encouraged to produce poetry of greater sophistication. Familiarity with work of notable poets is strongly encouraged.

**Repeatable:** *Y*

**Formerly** 59-2500

**Prerequisites** CRWR 155 Poetry Workshop: Beginning

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 260 Creative Nonfiction Workshop: Intermediate**

Intermediate class in writing creative nonfiction. This class will build on the introductory workshop, with students expected to expand the range and sophistication of their work. Students will read works of nonfiction and present their work to the rest of the class in a workshop format.

**Repeatable:** *Y*

**Formerly** 59-2700

**Prerequisites** CRWR 160 Creative Nonfiction Workshop: Beginning

**Minimum Credits 3 Maximum Credits 3**

## **CRWR 288 Practice Teaching: Tutor Training**

Course uses a range of pedagogical strategies to train and provide tutors who, concurrent with their training semester, staff the Department of Creative Writing's Fiction tutoring program. Tutors assist Fiction students who need help with reading and writing skills.

**Repeatable:** *N*

**Formerly** 59-3450

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

## **CRWR 315 Creative Writers and Publishing**

Course is designed to give developing creative writers an understanding of the publishing industry, and experience navigating it. Students will write and prepare work for potential publication, familiarize themselves with the literary marketplace and current publishing trends, participate in conversations and interviews with editors, agents, publishers, and other members of the publishing industry and literary community. Assignments will include research, presentations, and opportunities for submission of students' creative work. Students will undertake, present, and potentially publish in-depth research into literary magazines and journals, as well as independent and major publishing houses. Guest speakers may include bookstore owners, editors, publishers, and published creative writers.

**Repeatable:** *N*

**Formerly** 59-3100

**Minimum Credits 3 Maximum Credits 3**

## **CRWR 320 Craft and Process Seminar in Fiction: Kafka and European Masters**

With a focus on Franz Kafka, this course presents the work of Prague's most influential writers, paying special attention to how the historical and cultural landscape of Eastern Europe in the 20th century impacted their lives and work, and exploring the myriad ways culture and geography inform creative process. In this course, students will interact with the city of Prague through the lenses of great works such as Kafka's *The Trial*, Haseks, outrageous novel *Good Soldier Svejk*, Kundera's *The Unbearable Lightness of Being* and works by Karol Capek and Bohumil Hrabal.

**Repeatable:** *N*

**Formerly** 59-3173

**GA**

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

## **CRWR 326A Craft and Process Seminar in Nonfiction**

The Readings in Nonfiction Literature class is designed to explore a variety of subjects in nonfiction, and topics of classes offered might include readings in the essay, twentieth century nonfiction, feminist readings in nonfiction, queer nonfiction, graphic novel memoirs, single or double author courses (Baldwin's *Essays*, or Montaigne and Bacon), etc. The class will change from semester to semester. The class will explore what makes a work of nonfiction specific to its genre and how writers establish their voices in nonfiction.

**Repeatable:** *Y*

**Formerly** CRWR 326

**Prerequisites** CRWR 160 Creative Nonfiction Workshop: Beginning

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 326B Craft and Process Seminar in Nonfiction**

The Readings in Nonfiction Literature class is designed to explore a variety of subjects in nonfiction, and topics of classes offered might include readings in the essay, twentieth century nonfiction, feminist readings in nonfiction, queer nonfiction, graphic novel memoirs, single or double author courses (Baldwin's Essays, or Montaigne and Bacon), etc. The class will change from semester to semester. The class will explore what makes a work of nonfiction specific to its genre and how writers establish their voices in nonfiction.

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 350 Fiction Workshop: Advanced**

Course is the third workshop in the core sequence for the Fiction concentration. Students intensively explore new fictional possibilities in the writing of short fiction and novels (students also have the option to continue to develop strong writing material from previous classes). Workshop may have an emphasis on a particular craft element of fiction and will stress rewriting and revision. Course is repeatable.

**Repeatable:** Y

**Formerly** 59-3201

**Prerequisites** CRWR 250 Fiction Workshop: Intermediate

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 355 Poetry Workshop: Advanced**

Students are encouraged to write poetry of the very highest quality. Workshop format makes use of in-class writing exercises and discussions of student work. Students become familiar with a wide range of models and formal strategies.

**Repeatable:** Y

**Formerly** 59-3500

**Prerequisites** CRWR 255 Poetry Workshop: Intermediate

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 357A Craft and Process Seminar in Poetry**

Rotating topics craft class. Students read literature of specific periods and movements in order to generate poetry (and hybrid writing forms) based on these reading assignments. Craft Seminars that have been offered in past semesters include Poetry Translation, Hybrid Poetics, and Literary College.

**Repeatable:** Y

**Formerly** CRWR 357

**Prerequisites** CRWR 155 Poetry Workshop: Beginning

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 357B Craft and Process Seminar in Poetry**

Rotating topics craft class. Students read literature of specific periods and movements in order to generate poetry (and hybrid writing forms) based on these reading assignments. Craft Seminars that have been offered in past semesters include Poetry Translation, Hybrid Poetics, and Literary College.

**Repeatable:** Y

**Prerequisites** CRWR 155 Poetry Workshop: Beginning

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 360 Creative Nonfiction Workshop: Advanced**

An advanced class in writing creative nonfiction. This class will build on the intermediate workshop, with students expected to have attained a certain mastery in the writing of nonfiction. Students will read works of nonfiction and participate in presenting their work to the rest of the class in a workshop format.

**Repeatable:** Y

**Formerly** 59-3700

**Prerequisites** CRWR 260 Creative Nonfiction Workshop: Intermediate

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 370 Creative Writing: J-Term in Paris**

Dislocation from the familiar has for centuries played upon the imaginative processes of writers. This J-Session course offers an immersion in the literature, art, history, and culture of another city or country. Students read fiction and nonfiction by noted authors; visit major sites associated with these authors; write journal entries and reading responses; and intensively explore new fictional and creative nonfiction possibilities, as well as having the option of continuing to develop strong writing material from previous classes.

**Repeatable:** N

**Formerly** 59-3171J

**GA**

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 372 Topics in Writing Abroad: Rome**

This J-session course offers an intensive two-week immersion in Rome's literature, art, history, and culture. Students read fiction, poetry, and nonfiction by noted authors; visit major sites, including the Colosseum, Vatican, Roman Forum, Pompeii, churches, museums and places associated with noted authors; and participate in writing workshops at Lorenzo d' Medici. Journal entries and reading responses lead to an extended story, essay, or digital project, which may be done in collaboration with students from the Business and Entrepreneurship Department.

**Repeatable:** N

**Formerly** 59-3170J

**GA**

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 415 Literary Magazine Editing**

Course teaches students basic principles of literary magazine editing. This includes the processing and managing of submissions, editorial discussions of submitted material, editorial correspondence (rejections and acceptances), ordering of the final manuscript, and preparation of the electronic manuscript for typesetting.

**Repeatable:** *N*

**Formerly** 59-4150

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 416 Literary Magazine Production**

Course teaches students basic principles of magazine production. Students act as editors and assistants for Columbia literary journals, learning the fundamentals of editorial selection, copyediting, proofreading, design, production and distribution.

**Repeatable:** *N*

**Formerly** 59-4151

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 490 Internship: Creative Writing**

Course provides internships to advanced students with an opportunity to gain work experience in an area of concentration or interest while receiving academic credit toward their degrees.

**Repeatable:** *Y*

**Formerly** 59-3990

**Requirements** Permission Required (DP)

**Minimum Credits 1 Maximum Credits 6**

### **CRWR 495 Directed Study: Creative Writing**

This course consists of learning activities involving student independence within the context of regular guidance and direction from a faculty advisor. Directed Studies are appropriate for students who wish to explore a subject beyond what is possible in regular courses or for students who wish to engage in a subject or activity not otherwise offered that semester by the College. Directed Studies involve close collaboration with a faculty advisor who will assist in development and design of the project, oversee its progress, evaluate the final results, and submit a grade.

**Repeatable:** *Y*

**Formerly** 59-3999

**Requirements** Permission Required (DP)

**Minimum Credits 1 Maximum Credits 4**

### **CRWR 496 Independent Project: Creative Writing**

An independent project is designed by the student, with approval of supervising faculty member, to study an area not available in the curriculum. Prior to registration, student must submit written proposal that outlines the project.

**Repeatable:** *Y*

**Formerly** 59-3998

**Requirements** Permission Required (DP)

**Minimum Credits** 1 **Maximum Credits** 6

## **ENGL 246 Reviewing the Arts**

Students write confident and well-researched reviews of visual, performing, and media arts, reviews that can broaden the role of the arts in our daily lives. Students generate content for their reviews by visiting cultural and artistic institutions, attending performances, and / or viewing recordings. They examine selected expert reviews and theoretical perspectives; and they compose and revise their work through a combination of weekly in-class workshops, discussion, and take-home assignments.

**Repeatable:** *N*

**Formerly** 52-2816

**HU**

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Minimum Credits** 3 **Maximum Credits** 3

## **ENGL 246H Reviewing the Arts: Honors**

Students write confident and well-researched reviews of visual, performing, and media arts, reviews that can broaden the role of the arts in our daily lives. Students generate content for their reviews by visiting cultural and artistic institutions, attending performances, and / or viewing recordings. They examine selected expert reviews and theoretical perspectives; and they compose and revise their work through a combination of weekly in-class workshops, discussion, and take-home assignments. This is an Honors class. In addition to other possible pre-requisites, students need a minimum G.P.A. of 3.50 or higher to enroll.

**Repeatable:** *N*

**Formerly** 52-2816HN

**HU**

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Requirements** 3.5 or Higher GPA (35GP)

**Minimum Credits** 3 **Maximum Credits** 3

## **ENGL 341 Rhetoric of Digital Media**

Students explore rhetorical theories and practices that shape digital networked interaction and literacies. In this course students interact with, analyze, and research technologies and literacies that have transformed communication practices and then turn their attention to producing digital artifacts and materials. Issues covered may include the relationship between print and digital culture, creative content licensing, content strategy and curation, perspectives on authorship, the social and cultural dimensions of technology, and professional models of writing associated with digital media. Each section takes a unique approach to the hands-on exploration of exploring, consuming, creating, and even hacking digital networked spaces and cultures.

**Repeatable:** *N*

**Formerly** 52-3801

**EN**

**Prerequisites** ENGL 122 International Writing and Rhetoric II or ENGL 112 Writing and Rhetoric II or ENGL

## CONCENTRATIONS

### Fiction

The Creative Writing Fiction concentration offers a variety of workshops, Craft and Process Seminars and specialized elective writing courses on a level and scope unequaled in undergraduate programs across the country. The Fiction concentration introduces students to a variety of forms in fiction and helps them explore the history of the genre and find ways of creating fiction that is individual and original. The gateway course in the concentration is Foundations in Creative Writing. From there, students are poised to begin a sequence of scaffolded workshops progressing from Fiction Workshop: Beginning through Fiction Workshop: Intermediate; Fiction Workshop: Advanced; and Fiction Workshop: Thesis. In these workshops, students develop a writing process that includes methods for generating material as well as strategies for revising fiction of increasing quality.

In their sophomore or junior years, students take Writer's Portfolio, a course which gives students the opportunity to strengthen their professional portfolios as they deepen their engagement with the profession of Creative Writing. The work done in this course is reinforced and extended in their capstone course, Fiction Workshop: Thesis. Students also take Craft and Process Seminars which combine the study of craft with readings in the theoretical underpinnings of fiction (sample Craft and Process Seminars in Fiction include courses in Short Story Writers, Novelists, Women Writers, Gender and Difference, Fiction Writers and Censorship, and The Novel in Stories, among others). Specialized elective writing courses in Fiction include workshops in genres as diverse as Young Adult, Fantasy, Science Fiction, Historical Fiction, Graphic Forms and others. Elective courses also include (but are not limited to): additional workshops in Fiction, workshops in Nonfiction and Poetry, Craft and Process Seminars (in any genre), Literary Magazine Editing, Literary Magazine Production, along with courses in Tutoring/Teaching, the visual and performing arts, English and in New Media.

As a result of successfully completing program requirements, students should be able to:

- demonstrate a familiarity with the common language of the discipline of fiction writing;
- use a variety of narrative techniques, written forms, and revision strategies to create effective fiction;
- demonstrate a familiarity with how open fiction is to new modes of expression;
- demonstrate an understanding of the relationship between effective reading and effective writing;
- perform reasonably close readings of works of fiction by 1) analyzing relevant literary elements in fiction (narrative techniques, themes, forms/sub-genres, stylistic choices, or other literary devices common to fiction) and 2) making appropriate reference to relevant texts and contexts;
- demonstrate a meaningful ability to participate in contemporary conversations on social and cultural change;
- demonstrate knowledge of the literary marketplace and processes crucial to publishing their writing; and
- apply creative problem-solving, effective written and oral communications, and critical thinking to their preparation for graduate studies, writing-related careers and other professions.

**Required for the Concentration:**

### **CRWR 150 Fiction Workshop: Beginning**

Course is the first one in the core sequence. Students move at their own pace in developing perceptual, technical, and imaginative abilities in fiction writing. No prerequisites, though either Foundations in Creative

Writing or Writing and Rhetoric I are helpful.

**Repeatable:** N

**Formerly** 59-1201

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 250 Fiction Workshop: Intermediate**

Course is the second workshop in the core curriculum for the Fiction concentration. Course continues the development of perceptual and technical abilities begun in Fiction Writing: Beginning, with a focus that may include, but is not limited to: point of view, structure, and parody of form.

**Repeatable:** N

**Formerly** 59-2201

**Prerequisites** CRWR 150 Fiction Workshop: Beginning

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 350 Fiction Workshop: Advanced**

Course is the third workshop in the core sequence for the Fiction concentration. Students intensively explore new fictional possibilities in the writing of short fiction and novels (students also have the option to continue to develop strong writing material from previous classes). Workshop may have an emphasis on a particular craft element of fiction and will stress rewriting and revision. Course is repeatable.

**Repeatable:** Y

**Formerly** 59-3201

**Prerequisites** CRWR 250 Fiction Workshop: Intermediate

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 450 Fiction Workshop: Thesis**

This capstone course for the Fiction concentration focuses on the writing, revisions, and compilation of a fiction manuscript suitable for submission to publishers and/or submission for graduate school.

**Repeatable:** N

**Formerly** 59-4290

**Prerequisites** CRWR 350 Fiction Workshop: Advanced

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses or take a second Fiction Workshop: Advanced:*

### **CRWR 155 Poetry Workshop: Beginning**

Through in-class writing exercises, reading of model poems, and discussion of student work, this course encourages students to produce poetry of increasing quality.

**Repeatable:** N

**Formerly** 59-1500

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 160 Creative Nonfiction Workshop: Beginning**

A beginning class in writing creative nonfiction, a term including many forms, constantly re-imagined, with the personal and lyrical essay at its core. You will boldly combine different elements of shape, texture, and voice to attempt to produce works of literary art, primarily in the essay, and present your work to the rest of the class in a workshop format. You will also begin reading in nonfiction.

**Repeatable:** N

**Formerly** 59-1700

**Minimum Credits 3 Maximum Credits 3**

*Choose two of the following courses:*

### **CRWR 120A Craft and Process Seminar in Fiction: Topics**

Course requires that qualified students study the works of writers' processes, styles, techniques and choices by reading and researching published novels, short stories, journals, letters and interviews, as well as author biographies. Students gain in-depth knowledge of the cultural context of authors' works. Students explore the writing processes of well known authors and the ways in which students' own responses to the reading can nourish and heighten the development of their own fiction.

**Repeatable:** Y

**Formerly** CRWR 120

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 120B Craft and Process Seminar in Fiction: Topics**

Course requires that qualified students study the works of writers' processes, styles, techniques and choices by reading and researching published novels, short stories, journals, letters and interviews, as well as author biographies. Students gain in-depth knowledge of the cultural context of authors' works. Students explore the writing processes of well known authors and the ways in which students' own responses to the reading can nourish and heighten the development of their own fiction.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 120C Craft and Process Seminar in Fiction: Topics**

Course requires that qualified students study the works of writers' processes, styles, techniques and choices by reading and researching published novels, short stories, journals, letters and interviews, as well as author biographies. Students gain in-depth knowledge of the cultural context of authors' works. Students explore the writing processes of well known authors and the ways in which students' own responses to the reading can nourish and heighten the development of their own fiction.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 121 Craft and Process Seminar in Fiction: First Novels**

Course will expose student writers to the creative and intellectual processes of published writers early in their careers. It will show students that a) writing is an ongoing process of writing and rewriting; b) the creative process is both unique and universal to each writer; and c) published writers faced the same bogeys at the beginning of their careers that student writers face. Through contrast and comparisons (in the journals and class discussions) students will examine and comment on the prose forms, character

developments, and story structures first-time novelists have effectively used, along with the writing processes the authors employed to get their first novels finished. Through journal entries and essays, students will examine what all this tells them about how they might go about solving the questions of structure and process presented to them by their own writing. Students will be required to read three novels and conduct research by reading writers' diaries, notebooks, letters, and autobiographies. There will be discussion of the assigned texts and journal readings every week.

**Repeatable:** *N*

**Formerly** 59-1302

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 122 Craft and Process Seminar in Fiction: Gender and Difference**

Course examines the ways in which gay, lesbian, and straight writers contend with issues of culture, gender, and difference. Course focuses upon such questions as the following: How do straight male and female writers deal with the serious issues and challenges of writing from the point of view of gay and lesbian characters? How do gay and lesbian writers deal with the same issues in writing about straight characters? Course also examines the particular challenges of writing gender opposites (whatever the sexual orientation of those characters might be). Through the students' reading of assigned stories and novels, through their written responses as writers to their reading, through creative fiction and nonfiction writing assignments, and through individual and small-group research activities, the course will approach broad and specific issues of gender and difference from early writing to the present day.

**Repeatable:** *N*

**Formerly** 59-1305

**PL**

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 123 Craft and Process Seminar in Fiction: The Novel in Stories**

Course examines creative and intellectual processes of writers working in nonlinear structure forms. It raises questions writers ask themselves when determining how best to structure a body of work that is more cohesive than a collection of stories, yet not a linearly shaped novel. Through readings, small group and large group discussions, journal reflections (both students' and authors'), and research into the authors' writing processes, students are able to reflect upon and examine issues and questions of structure that go into putting together a cohesive body of creative work.

**Repeatable:** *N*

**Formerly** 59-1306

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 127 Craft and Process Seminar in Fiction: American Voices**

Course researches writing processes of African-American, Hispanic-American, Native-American, and Asian-American writers and other ethnic American writers and the ways in which their reading and responses to reading play an influential role in the fiction-writing process. Particular emphasis will be placed upon taking the point of view of racial and ethnic opposites. Journals and other writings are used as examples of how writers read and write about what they read to develop dimensions of their own fiction and how they see their work in relation to that of other writers. Manuscripts and notes of famous works may be used to show writers' processes and development.

**Repeatable:** *N*

**Formerly** 59-1310

**PL**

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 129 Craft and Process Seminar in Fiction: Autobiographical Fiction**

Course requires that students read fiction known to be autobiographical in nature and respond with journal entries and classroom discussion. Students research primary sources concerning a writer, his or her work, and the process by which the work came into being; give an oral report; and write a final essay. Students read aloud journal entry responses to readings and write their own autobiographical fiction, some of which is read and responded to in class.

**Repeatable:** *N*

**Formerly** 59-1312

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 130 Craft and Process Seminar in Fiction: Crime & Story**

Course explores the fact that, since Oedipus Rex, the crime has been one of the engines that drive story movement. Dostoevsky, Drieser, Petry, Dickens, Atwood, and Wright are among the many writers who use elements of the mystery and crime story to explore the psychological effects of crime on characters in fiction. By analyzing the writing techniques and processes--such as point of view, scene, voice, and story structure--of well-known writers, students will examine how murder, crime, and mystery have been transformed beyond genre to create dramatic literary fiction. By reading published work, as well as researching memoirs, journals, essays, and letters of established writers, students will explore how they may use these techniques to create compelling movement in their fiction.

**Repeatable:** *N*

**Formerly** 59-1316

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 220 Craft and Process Seminar in Fiction: Novelists**

Course examines the ways in which novelists read, respond to what they read, and incorporate their reading responses dynamically into their own fiction-writing processes. In addition to their own written responses to reading, students work individually and in small groups researching the reading and writing processes behind selected novels (mainstream and alternative), ranging from the beginnings of the form to the present day. Drawing upon authors' journals, notebooks, letters, and more public writings, students explore the writing processes of well-known writers and ways in which students' own responses to reading can nourish and heighten the development of their fiction. Course will survey many of the principal novelists and novels and the development of the genre from its roots to contemporary fiction. Students should be writing fiction, but novel-length material is not required.

**Repeatable:** *N*

**Formerly** 59-2301

**Prerequisites** CRWR 150 Fiction Workshop: Beginning or CRWR 155 Poetry Workshop: Beginning or CRWR 160 Creative Nonfiction Workshop: Beginning

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 221 Craft and Process Seminar in Fiction: Short Story**

Course encourages development of lively, well-crafted, short fiction by examining reading and writing processes that guide some of the best examples of the form. Students select from a wide range of writers, representing many different voices, backgrounds, subjects, and approaches, to research ways in which writers read, respond to their reading, and use that reading to generate and heighten their short stories. Students write their responses to reading short stories and discuss the relationship of reading to the development of their own fiction.

**Repeatable:** *N*

**Formerly** 59-2302

**Prerequisites** CRWR 150 Fiction Workshop: Beginning or CRWR 155 Poetry Workshop: Beginning or CRWR 160 Creative Nonfiction Workshop: Beginning

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 222 Craft and Process Seminar in Fiction: Women Writers**

Course researches writing processes of women writers and ways in which their reading and responses to reading play influential roles in the fiction-writing process. Journals and other writings by Virginia Woolf, Zora Neale Hurston, Katherine Anne Porter, Katherine Mansfield, Eudora Welty, Toni Cade Bambara, and others are used as examples of how writers read, write about what they read to develop their fiction, and see their work in relation to other writers' works. Manuscripts and notes of famous works may be used to show writers' processes and development. Students' own fiction writing is also part of the course.

**Repeatable:** *N*

**Formerly** 59-2303

**PL**

**Prerequisites** CRWR 150 Fiction Workshop: Beginning or CRWR 155 Poetry Workshop: Beginning or CRWR 160 Creative Nonfiction Workshop: Beginning

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 223 Craft and Process Seminar in Fiction: Fiction Writers and Censorship**

Course emphasizes research, writing, and discussion of creative processes of successful writers, among them Lawrence, Flaubert, Hurston, Wright, Selby, Joyce, and Burroughs, who have been forced to confront directly forms of censorship or marginalization. Writers must be free to draw on their strongest material and use their best, most authentic, telling voices. However, writers often confront external or internal inhibitions: outright legal challenges, vocal attacks upon certain types of stories, subtle publishing prejudices, or self-censoring.

**Repeatable:** *N*

**Formerly** 59-2304

**Prerequisites** CRWR 110 Foundations in Creative Writing

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 320 Craft and Process Seminar in Fiction: Kafka and European Masters**

With a focus on Franz Kafka, this course presents the work of Prague's most influential writers, paying special attention to how the historical and cultural landscape of Eastern Europe in the 20th century impacted their lives and work, and exploring the myriad ways culture and geography inform creative process. In this course, students will interact with the city of Prague through the lenses of great works such as Kafka's *The Trial*, Heccks, outrageous novel *Good Soldier Svejk*, Kundera's *The Unbearable Lightness of Being* and works by Karol Capek and Bohumil Hrabal.

**Repeatable:** *N*

**Formerly** 59-3173

**GA**

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

## Nonfiction

The Creative Writing Nonfiction concentration introduces students to a variety of forms in nonfiction and helps them explore the history of the genre and find ways of creating nonfiction that is individual and original. The gateway course in the concentration is Foundations in Creative Writing. From there, students are poised to begin a sequence of scaffolded workshops progressing from Creative Nonfiction Workshop: Beginning through Creative Nonfiction Workshop: Intermediate; Creative Nonfiction Workshop: Advanced; and Creative Nonfiction Workshop: Thesis. In these workshops students focus on generating materials and writing and critiquing their essays. Students will also take courses focused on reading various genres of creative nonfiction and major nonfiction authors. Craft and Process Seminars will combine craft with readings in the theoretical underpinnings of nonfiction, and will introduce students to a wide variety of forms drawing from literary genres and subgenres such as autobiography, essay, the graphic novel, memoir, aphorism, and travel writing, among others.

In their sophomore or junior years, students take Writer's Portfolio, a course which gives students the opportunity to strengthen their professional portfolios as they deepen their engagement with the profession of Creative Writing. The work done in this course is reinforced and extended in their capstone course, Creative Nonfiction Workshop: Thesis, where students will develop and revise a thesis of their best work. Students are required to take three literature classes (designed for Creative Writers) in the English Department to deepen their understanding of the history of nonfiction. In accordance with the Department's commitment to interdisciplinary, cross-genre contexts for writing, students also choose two writing electives from a broad a varying selection of courses. Such electives include, but are not limited to: additional workshops in Nonfiction, workshops in Fiction and Poetry, Craft and Process Seminars (in any genre), Literary Magazine Editing, Literary Magazine Production, along with courses in tutoring/Teaching, the visual and performing arts, English and in New Media.

As a result of successfully completing program requirements, students should be able to:

- demonstrate a familiarity with the common language of the discipline of nonfiction writing;
- demonstrate a familiarity with how open nonfiction is to new modes of expression;
- demonstrate an understanding of the major aspects of the history of nonfiction and its sub-genres;
- use a variety of narrative techniques, written forms, and revision strategies to create effective nonfiction;
- demonstrate an understanding of the relationship between effective reading and effective writing;
- perform reasonably close readings of works of nonfiction by 1) analyzing relevant literary elements in nonfiction (narrative techniques, themes, forms/subgenres, stylistic choices, or other literary devices common to nonfiction) and 2) making appropriate reference to relevant texts and contexts;
- demonstrate a meaningful ability to participate in contemporary conversations on social and cultural change;
- demonstrate knowledge of the literary marketplace and processes crucial to publishing their writing; and
- apply creative problem-solving, effective written and oral communications, and critical thinking to their preparation for graduate studies, writing-related careers and other professions.

**Required for the Concentration:**

### **CRWR 160 Creative Nonfiction Workshop: Beginning**

A beginning class in writing creative nonfiction, a term including many forms, constantly re-imagined, with the personal and lyrical essay at its core. You will boldly combine different elements of shape, texture, and voice to attempt to produce works of literary art, primarily in the essay, and present your work to the rest of the class in a workshop format. You will also begin reading in nonfiction.

**Repeatable:** N

**Formerly** 59-1700

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 260 Creative Nonfiction Workshop: Intermediate**

Intermediate class in writing creative nonfiction. This class will build on the introductory workshop, with students expected to expand the range and sophistication of their work. Students will read works of nonfiction and present their work to the rest of the class in a workshop format.

**Repeatable:** Y

**Formerly** 59-2700

**Prerequisites** CRWR 160 Creative Nonfiction Workshop: Beginning

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 360 Creative Nonfiction Workshop: Advanced**

An advanced class in writing creative nonfiction. This class will build on the intermediate workshop, with students expected to have attained a certain mastery in the writing of nonfiction. Students will read works of nonfiction and participate in presenting their work to the rest of the class in a workshop format.

**Repeatable:** Y

**Formerly** 59-3700

**Prerequisites** CRWR 260 Creative Nonfiction Workshop: Intermediate

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 460 Creative Nonfiction Workshop: Thesis**

This capstone course for the Nonfiction concentration focuses on the writing, revisions, and compilation of a nonfiction manuscript suitable for submission to publishers and/or submission for graduate school.

**Repeatable:** N

**Formerly** 59-4890

**Prerequisites** CRWR 360 Creative Nonfiction Workshop: Advanced

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses or take a second Creative Nonfiction Workshop: Advanced:*

### **CRWR 150 Fiction Workshop: Beginning**

Course is the first one in the core sequence. Students move at their own pace in developing perceptual, technical, and imaginative abilities in fiction writing. No prerequisites, though either Foundations in Creative Writing or Writing and Rhetoric I are helpful.

**Repeatable:** N

**Formerly** 59-1201

**Minimum Credits 3 Maximum Credits 3**

## **CRWR 155 Poetry Workshop: Beginning**

Through in-class writing exercises, reading of model poems, and discussion of student work, this course encourages students to produce poetry of increasing quality.

**Repeatable:** N

**Formerly** 59-1500

**Minimum Credits 3 Maximum Credits 3**

*Choose two of the following courses:*

## **CRWR 120A Craft and Process Seminar in Fiction: Topics**

Course requires that qualified students study the works of writers' processes, styles, techniques and choices by reading and researching published novels, short stories, journals, letters and interviews, as well as author biographies. Students gain in-depth knowledge of the cultural context of authors' works. Students explore the writing processes of well known authors and the ways in which students' own responses to the reading can nourish and heighten the development of their own fiction.

**Repeatable:** Y

**Formerly** CRWR 120

**Minimum Credits 3 Maximum Credits 3**

## **CRWR 120B Craft and Process Seminar in Fiction: Topics**

Course requires that qualified students study the works of writers' processes, styles, techniques and choices by reading and researching published novels, short stories, journals, letters and interviews, as well as author biographies. Students gain in-depth knowledge of the cultural context of authors' works. Students explore the writing processes of well known authors and the ways in which students' own responses to the reading can nourish and heighten the development of their own fiction.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

## **CRWR 120C Craft and Process Seminar in Fiction: Topics**

Course requires that qualified students study the works of writers' processes, styles, techniques and choices by reading and researching published novels, short stories, journals, letters and interviews, as well as author biographies. Students gain in-depth knowledge of the cultural context of authors' works. Students explore the writing processes of well known authors and the ways in which students' own responses to the reading can nourish and heighten the development of their own fiction.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

## **CRWR 320 Craft and Process Seminar in Fiction: Kafka and European Masters**

With a focus on Franz Kafka, this course presents the work of Prague's most influential writers, paying special attention to how the historical and cultural landscape of Eastern Europe in the 20th century impacted their lives and work, and exploring the myriad ways culture and geography inform creative process. In this course, students will interact with the city of Prague through the lenses of great works such as Kafka's *The Trial*, Haseks, outrageous novel *Good Soldier Svejk*, Kundera's *The Unbearable Lightness of Being* and

works by Karol Capek and Bohumil Hrabal.

**Repeatable:** *N*

**Formerly** 59-3173

**GA**

**Requirements** Permission Required (DP)

**Minimum Credits** 3 **Maximum Credits** 3

### **CRWR 326A Craft and Process Seminar in Nonfiction**

The Readings in Nonfiction Literature class is designed to explore a variety of subjects in nonfiction, and topics of classes offered might include readings in the essay, twentieth century nonfiction, feminist readings in nonfiction, queer nonfiction, graphic novel memoirs, single or double author courses (Baldwin's Essays, or Montaigne and Bacon), etc. The class will change from semester to semester. The class will explore what makes a work of nonfiction specific to its genre and how writers establish their voices in nonfiction.

**Repeatable:** *Y*

**Formerly** CRWR 326

**Prerequisites** CRWR 160 Creative Nonfiction Workshop: Beginning

**Minimum Credits** 3 **Maximum Credits** 3

### **CRWR 326B Craft and Process Seminar in Nonfiction**

The Readings in Nonfiction Literature class is designed to explore a variety of subjects in nonfiction, and topics of classes offered might include readings in the essay, twentieth century nonfiction, feminist readings in nonfiction, queer nonfiction, graphic novel memoirs, single or double author courses (Baldwin's Essays, or Montaigne and Bacon), etc. The class will change from semester to semester. The class will explore what makes a work of nonfiction specific to its genre and how writers establish their voices in nonfiction.

**Repeatable:** *Y*

**Prerequisites** CRWR 160 Creative Nonfiction Workshop: Beginning

**Minimum Credits** 3 **Maximum Credits** 3

### **CRWR 357A Craft and Process Seminar in Poetry**

Rotating topics craft class. Students read literature of specific periods and movements in order to generate poetry (and hybrid writing forms) based on these reading assignments. Craft Seminars that have been offered in past semesters include Poetry Translation, Hybrid Poetics, and Literary College.

**Repeatable:** *Y*

**Formerly** CRWR 357

**Prerequisites** CRWR 155 Poetry Workshop: Beginning

**Minimum Credits** 3 **Maximum Credits** 3

### **CRWR 357B Craft and Process Seminar in Poetry**

Rotating topics craft class. Students read literature of specific periods and movements in order to generate poetry (and hybrid writing forms) based on these reading assignments. Craft Seminars that have been offered in past semesters include Poetry Translation, Hybrid Poetics, and Literary College.

**Repeatable:** *Y*

**Prerequisites** CRWR 155 Poetry Workshop: Beginning

**Minimum Credits 3 Maximum Credits 3**

## Poetry

The Creative Writing Poetry concentration helps students discover their own voices as poets and develop their craft. Students in the Poetry concentration are grounded in the history of poetry and poetics and are familiar with a wide range of approaches to writing. The gateway course in the concentration is Foundations in Creative Writing. From there, students are poised to begin a sequence of scaffolded workshops progressing from Poetry Workshop: Beginning through Poetry Workshop: Intermediate; Poetry Workshop: Advanced; and Poetry Workshop: Thesis. Students also take Craft and Process Seminars, which combine the study of craft with readings in the theoretical underpinnings of poetry. Examples of Craft and Process Seminars in Poetry include Forms of Poetry, Anatomies of Slam, Hybrid Poetics, Poetry Translation, Literary Collage and Collaboration, Poets' Journals and Letters, Meditation and Poetics, and more.

In their sophomore or junior years, students take Writer's Portfolio, a course which gives students the opportunity to strengthen their professional portfolios as they deepen their engagement with the profession of creative writing. The work done in this course is reinforced and extended in their capstone course, Poetry Workshop: Thesis. The capstone experience in the Poetry concentration is Poetry Workshop: Thesis. In this small, seminar-style course, students write a chapbook-length thesis of poems. Students are required to take three literature classes (designed for Creative Writers) in the English Department to deepen their understanding of the history of poetry. In accordance with the department's commitment to interdisciplinary, cross-genre contexts for writing, students choose two writing electives from a broad and varying selection of courses. Such electives include, but are not limited to: additional workshops in Poetry, workshops in Fiction and Nonfiction, Craft and Process Seminars (in any genre), Literary Magazine Editing, Literary Magazine Production, along with courses in Tutoring/Teaching, the visual and performing arts, English and in New Media.

As a result of successfully completing program requirements, students should be able to:

- demonstrate a familiarity with the common language of the discipline of poetry writing;
- demonstrate a familiarity with how open the discipline of poetry is to new modes of expression;
- demonstrate an understanding of major movements of the history of poetry and its subgenres;
- use a variety of techniques, forms and revision strategies to create effective poetry;
- demonstrate an understanding of the relationship between effective reading and effective writing; perform reasonably close readings of works of poetry by 1) analyzing relevant literary elements in poetry (discursive techniques, themes, forms/subgenres, stylistic choices, or other literary devices common to poetry) and 2) making appropriate reference to relevant texts and contexts;
- demonstrate a meaningful ability to participate in contemporary conversations on social and cultural change;
- demonstrate knowledge of the literary marketplace and processes crucial to publishing their writing; and
- apply creative problem-solving, effective written and oral communications, and critical thinking to their preparation for graduate studies, writing-related careers and other professions.

**Required for the Concentration:**

### **CRWR 155 Poetry Workshop: Beginning**

Through in-class writing exercises, reading of model poems, and discussion of student work, this course encourages students to produce poetry of increasing quality.

**Repeatable:** *N*

**Formerly** 59-1500  
**Minimum Credits** 3 **Maximum Credits** 3

### **CRWR 255 Poetry Workshop: Intermediate**

Through in-class writing exercises, the reading of model poems, and discussion of student work, students are encouraged to produce poetry of greater sophistication. Familiarity with work of notable poets is strongly encouraged.

**Repeatable:** Y  
**Formerly** 59-2500  
**Prerequisites** CRWR 155 Poetry Workshop: Beginning  
**Minimum Credits** 3 **Maximum Credits** 3

### **CRWR 355 Poetry Workshop: Advanced**

Students are encouraged to write poetry of the very highest quality. Workshop format makes use of in-class writing exercises and discussions of student work. Students become familiar with a wide range of models and formal strategies.

**Repeatable:** Y  
**Formerly** 59-3500  
**Prerequisites** CRWR 255 Poetry Workshop: Intermediate  
**Minimum Credits** 3 **Maximum Credits** 3

### **CRWR 455 Poetry Workshop: Thesis**

This capstone course for the Poetry concentration focuses on the writing, revisions, and compilation of a chapbook-length poetry manuscript suitable for submission to publishers and/or submission for graduate school.

**Repeatable:** N  
**Formerly** 59-4690  
**Prerequisites** CRWR 355 Poetry Workshop: Advanced  
**Minimum Credits** 3 **Maximum Credits** 3

*Choose one of the following courses or take a second Poetry Workshop: Advanced:*

### **CRWR 150 Fiction Workshop: Beginning**

Course is the first one in the core sequence. Students move at their own pace in developing perceptual, technical, and imaginative abilities in fiction writing. No prerequisites, though either Foundations in Creative Writing or Writing and Rhetoric I are helpful.

**Repeatable:** N  
**Formerly** 59-1201  
**Minimum Credits** 3 **Maximum Credits** 3

### **CRWR 160 Creative Nonfiction Workshop: Beginning**

A beginning class in writing creative nonfiction, a term including many forms, constantly re-imagined, with the personal and lyrical essay at its core. You will boldly combine different elements of shape, texture, and voice to attempt to produce works of literary art, primarily in the essay, and present your work to the rest of the class in a workshop format. You will also begin reading in nonfiction.

**Repeatable:** N

**Formerly** 59-1700

**Minimum Credits 3 Maximum Credits 3**

*Choose two of the following courses:*

### **CRWR 120A Craft and Process Seminar in Fiction: Topics**

Course requires that qualified students study the works of writers' processes, styles, techniques and choices by reading and researching published novels, short stories, journals, letters and interviews, as well as author biographies. Students gain in-depth knowledge of the cultural context of authors' works. Students explore the writing processes of well known authors and the ways in which students' own responses to the reading can nourish and heighten the development of their own fiction.

**Repeatable:** Y

**Formerly** CRWR 120

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 120B Craft and Process Seminar in Fiction: Topics**

Course requires that qualified students study the works of writers' processes, styles, techniques and choices by reading and researching published novels, short stories, journals, letters and interviews, as well as author biographies. Students gain in-depth knowledge of the cultural context of authors' works. Students explore the writing processes of well known authors and the ways in which students' own responses to the reading can nourish and heighten the development of their own fiction.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 120C Craft and Process Seminar in Fiction: Topics**

Course requires that qualified students study the works of writers' processes, styles, techniques and choices by reading and researching published novels, short stories, journals, letters and interviews, as well as author biographies. Students gain in-depth knowledge of the cultural context of authors' works. Students explore the writing processes of well known authors and the ways in which students' own responses to the reading can nourish and heighten the development of their own fiction.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 320 Craft and Process Seminar in Fiction: Kafka and European Masters**

With a focus on Franz Kafka, this course presents the work of Prague's most influential writers, paying special attention to how the historical and cultural landscape of Eastern Europe in the 20th century impacted their lives and work, and exploring the myriad ways culture and geography inform creative process. In this course, students will interact with the city of Prague through the lenses of great works such as Kafka's *The Trial*, Hecceks, outrageous novel *Good Soldier Svejk*, Kundera's *The Unbearable Lightness of Being* and

works by Karol Capek and Bohumil Hrabal.

**Repeatable:** *N*

**Formerly** 59-3173

**GA**

**Requirements** Permission Required (DP)

**Minimum Credits** 3 **Maximum Credits** 3

### **CRWR 326A Craft and Process Seminar in Nonfiction**

The Readings in Nonfiction Literature class is designed to explore a variety of subjects in nonfiction, and topics of classes offered might include readings in the essay, twentieth century nonfiction, feminist readings in nonfiction, queer nonfiction, graphic novel memoirs, single or double author courses (Baldwin's Essays, or Montaigne and Bacon), etc. The class will change from semester to semester. The class will explore what makes a work of nonfiction specific to its genre and how writers establish their voices in nonfiction.

**Repeatable:** *Y*

**Formerly** CRWR 326

**Prerequisites** CRWR 160 Creative Nonfiction Workshop: Beginning

**Minimum Credits** 3 **Maximum Credits** 3

### **CRWR 326B Craft and Process Seminar in Nonfiction**

The Readings in Nonfiction Literature class is designed to explore a variety of subjects in nonfiction, and topics of classes offered might include readings in the essay, twentieth century nonfiction, feminist readings in nonfiction, queer nonfiction, graphic novel memoirs, single or double author courses (Baldwin's Essays, or Montaigne and Bacon), etc. The class will change from semester to semester. The class will explore what makes a work of nonfiction specific to its genre and how writers establish their voices in nonfiction.

**Repeatable:** *Y*

**Prerequisites** CRWR 160 Creative Nonfiction Workshop: Beginning

**Minimum Credits** 3 **Maximum Credits** 3

### **CRWR 357A Craft and Process Seminar in Poetry**

Rotating topics craft class. Students read literature of specific periods and movements in order to generate poetry (and hybrid writing forms) based on these reading assignments. Craft Seminars that have been offered in past semesters include Poetry Translation, Hybrid Poetics, and Literary College.

**Repeatable:** *Y*

**Formerly** CRWR 357

**Prerequisites** CRWR 155 Poetry Workshop: Beginning

**Minimum Credits** 3 **Maximum Credits** 3

### **CRWR 357B Craft and Process Seminar in Poetry**

Rotating topics craft class. Students read literature of specific periods and movements in order to generate poetry (and hybrid writing forms) based on these reading assignments. Craft Seminars that have been offered in past semesters include Poetry Translation, Hybrid Poetics, and Literary College.

**Repeatable:** *Y*

**Prerequisites** CRWR 155 Poetry Workshop: Beginning

**Minimum Credits 3 Maximum Credits 3**

## English, BA

The major in English at Columbia College Chicago is a career-focused interdisciplinary experience in the liberal arts. Students complete 39 hours of coursework in imaginative literature, professional and technical writing, and creative writing, refining their abilities as critical and creative thinkers and as highly proficient composers and interpreters of written, visual, and digital texts. There is ample opportunity for students to complete a minor or a second major that aligns with students interests and goals. Graduates with an English major are prepared for careers in fields such as technical writing, language and literature education, law, marketing, non-profit services, arts and culture institutions, and other professions that require excellent skills in communication, human understanding, research, and evidence-based analysis.

English majors develop the professional and humanistic expertise that employers increasingly value in the rapidly evolving 21st-century global workplace. The curriculum emphasizes the diversity of cultural expression and communicative practices, and it encourages the respectful inclusion of voices and values from across the rich spectrum of human life. Significant collaborative projects foster leadership, active listening, and cooperation. Internships offer workplace experiences, while the capstone course transitions students toward their post-graduation personal, educational, and career aspirations. Graduates leave the program with an adaptable body of knowledge, an array of technical skills, and the capacity to use what they know to shape thoughtful and rewarding experiences for themselves and for the communities in which they live and work.

As a result of successfully completing program requirements, students should be able to:

- understand critical concepts in literary and rhetorical studies and use these concepts productively in relevant artistic, scholarly, and/or professional situations;
- collaborate with others on complex projects, demonstrating an understanding of roles / tasks such as project leader, content writer, editor, researcher and designer;
- analyze literary and other texts with an awareness of diverse ideological, historical, aesthetic, and material contexts and perspectives;
- evaluate primary and secondary sources to pose meaningful questions about literary, professional, and other texts and discourses;
- evaluate their own work and the work of others to identify opportunities for revision, reorganization, collaboration, and presentation to achieve specific goals for themselves and for external audiences;
- produce written and spoken communication in a variety of genres and media, demonstrating an awareness of audience, aesthetic and professional conventions and purpose; and
- synthesize information and text from multiple contributors into complex projects.

## PROGRAM REQUIREMENTS - 39 credits required

### **COLL 230 Internship: Professionalism and Creativity**

This course allows students to take a valuable internship experience in their desired industry for academic credit. Each position is vetted and approved by Career Center to ensure that it is an educational opportunity that will fulfill the learning objectives of the course. Participating in an internship allows students to gain hands-on experience and explore career interests while applying knowledge and skills learned in the classroom to a work setting. The online, academic component of this internship fosters student understanding of how organizations operate and provides for structured reflection on their experiences and assessment of their knowledge and skills. Students are responsible for securing their own internships and

should contact Career Center for assistance and resources to identify and apply for opportunities of interest.

**Repeatable:** Y

**Formerly** 99-2300

**Requirements** Permission Required (DP)

**Minimum Credits** 3 **Maximum Credits** 3

### **ENGL 241 Writing for the Creative Workplace**

Students are introduced to the study of writing for creative professionals from a rhetorical perspective, gaining a broad sense of issues, topics, genres, and practices that mark the field of professional and technical writing in creative industries. Students also explore professional writing as socially situated art and practice and gain practical hands-on experience through a variety of professional writing projects.

**Repeatable:** N

**Formerly** 52-2801

**Prerequisites** ENGL 122 International Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 112 Writing and Rhetoric II

**Minimum Credits** 3 **Maximum Credits** 3

### **ENGL 242 Writing Digital Content**

Students engage in evaluation, analysis, and preparation of content for the web using a combination of web standard markup and content management/delivery systems. The course covers principles of rhetoric, design, practices of web accessibility, develops basic ability to write in plain text files with web standard markup (HTML and CSS), and offers students practical experience in evaluating, creating, editing, curating, and delivering content for the web.

**Repeatable:** N

**Formerly** 52-2802

**EN**

**Prerequisites** ENGL 122 International Writing and Rhetoric II or ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors

**Minimum Credits** 3 **Maximum Credits** 3

### **ENGL 450 Capstone in English**

In collaboration with the instructor and classmates, students produce a capstone portfolio that demonstrates the culmination of their work in the major, representing both breadth of achievement and significant intellectual inquiry. Students revise selected works in the portfolio and produce a project that highlights their accomplishments in the major for an external audience. Course texts change from section to section.

**Repeatable:** N

**Prerequisites** LITR 388 Critical Editions in Literature or ENGL 350 Content Strategy

**Requirements** Senior Standing (SR)

**Minimum Credits** 3 **Maximum Credits** 3

*Choose one of the following courses:*

### **LITR 103 Introduction to Literary Interpretation**

Course introduces students to key terms, concepts, and techniques of literary interpretation, with attention to questions of genre, period, and critical perspective. Students analyze selections of poetry, fiction, nonfiction, and/or drama representing a range of historical periods and cultural traditions, and they learn to compose evidence-based interpretive arguments. Designed for students in English and Creative Writing.

**Repeatable:** *N*

**Formerly** 52-1701

**DEI**

English or Creative Writing Major or Minor Only (4ECW)

**Minimum Credits 3 Maximum Credits 3**

### **LITR 105 Literature, Culture, and Power**

This course examines how literary texts are connected to social power and privilege. Sections might focus on one or more of the following topics: race, class, gender, sexuality, religion, disability, ethnicity, language, technology, empire, diaspora, etc....

**Repeatable:** *N*

**Formerly** 52-1601

**HL DEI**

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

### **CRWR 110 Foundations in Creative Writing**

This course will introduce students to an extensive creative writing practice by inviting them to write in a number of different genres and forms. Students will become familiar with core literary devices such as structure, conflict, scene, character, voice, point of view, setting, tone, metaphor, imagery, dialogue, and language. Students will learn to read closely and analyze stylistic choices and literary elements from genres such as poetry, fiction, nonfiction, playwriting, and hybrid texts. Course writing will range from experimental to traditional, from structured to open. Students will be introduced to the workshop process by writing in various genres and by providing feedback to their peers.

**Repeatable:** *N*

**Formerly** 59-1100

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 150 Fiction Workshop: Beginning**

Course is the first one in the core sequence. Students move at their own pace in developing perceptual, technical, and imaginative abilities in fiction writing. No prerequisites, though either Foundations in Creative Writing or Writing and Rhetoric I are helpful.

**Repeatable:** *N*

**Formerly** 59-1201

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

### **ENGL 350 Content Strategy**

This course invites students to step into the roles of leader, manager, and editor-in-chief, and to practice strategies that effective leaders use for facilitating other authors' writing. Students will have the opportunity to learn to think strategically about writing as content that can be managed across platforms and digital spaces. Students will also have the opportunity to learn to align content to personal, professional, and organizational goals; to collaborate with other authors; to consider the needs of diverse audiences; and to prepare instructions and guides that shape other authors' writing. Students will also critique the rise of content management systems and discuss tactics to use to leverage imperfect technologies and platforms.

**Repeatable:** *N*

**EN**

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

### **LITR 388 Critical Editions in Literature**

Students collaboratively develop a critical edition of one or more literary texts. Like editors of similar editions from mainstream publishers, students will annotate the text and compose supporting material such as an introduction, critical interpretations, essays addressing biographical, cultural, historical, rhetorical and artistic contexts for the work, and bibliographic material for further research. Students use basic design principles to organize their work into coherent projects. Course texts change from section to section.

**Repeatable:** *N*

**HL**

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

*Complete 6 credits from the following courses:*

### **ENGL 344 Writing, Language, and Culture Seminar**

Students study issues surrounding language, writing, and representation, and produce substantial, complex writing and research projects as they work to build skills in research, prose style, editing, and design. Topics include a rotating series of rhetorical and cultural analyses of consumer, popular culture, networked, and organizational settings. Overall, the course heightens student awareness of the power of writing and representation to shape the way we produce and are produced by the world around us.

**Repeatable:** *Y*

**Formerly** 52-3804

**EN**

**Prerequisites** ENGL 122 International Writing and Rhetoric II or ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors

**Minimum Credits 3 Maximum Credits 3**

### **ENGL 345 Methods of Discourse Analysis: Understanding Text**

Students are introduced to the study of discourse, which is the study of language in use or what people do with language and how they do it. Practiced by scholars from a range of disciplines, discourse analysis is used to approach a variety of questions, such as how people negotiate power in everyday conversation, how racism or sexism might be communicated in institutional documents, or how news media privileges certain groups through lexical and grammatical choices. Using a variety of tools, students learn how to analyze specific instances of written and spoken communication. Through this analysis, students come to understand the relationship between language and politics, values, and beliefs; how identities are constructed in language; and the way we shape our world through the words we use. Such analysis can help students be attentive to these issues in their own oral and written communication. Theoretical principles informing the practice of discourse analysis and an overview of the various disciplinary approaches to discourse analysis are also briefly covered.

**Repeatable:** *N*

**Formerly** 52-3806

**EN**

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

## **ENGL 246H Reviewing the Arts: Honors**

Students write confident and well-researched reviews of visual, performing, and media arts, reviews that can broaden the role of the arts in our daily lives. Students generate content for their reviews by visiting cultural and artistic institutions, attending performances, and / or viewing recordings. They examine selected expert reviews and theoretical perspectives; and they compose and revise their work through a combination of weekly in-class workshops, discussion, and take-home assignments. This is an Honors class. In addition to other possible pre-requisites, students need a minimum G.P.A. of 3.50 or higher to enroll.

**Repeatable:** N

**Formerly** 52-2816HN

**HU**

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Requirements** 3.5 or Higher GPA (35GP)

**Minimum Credits 3 Maximum Credits 3**

## **LITR 240A Introduction to Black Writers**

Course introduces students to selected black writers and literary traditions. Students will examine works of literature in relation to historical context, cultural aesthetics, and critical perspectives on issues such as race, power, and resistance. Course is repeatable as topic changes.

**Repeatable:** Y

**HL DEI**

**Prerequisites** ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

### **LITR 240B Introduction to Black Writers**

Course introduces students to selected black writers and literary traditions. Students will examine works of literature in relation to historical context, cultural aesthetics, and critical perspectives on issues such as race, power, and resistance. Course is repeatable as topic changes.

**Repeatable:** Y

**HL DEI**

**Prerequisites** ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

### **LITR 255 Queer Literature**

Course examines LGBTQ literary and cultural traditions in light of key concepts and insights drawn from queer theory. Consideration of writers such as Tony Kushner, Achy Obejas, Stephen McCauley, Judy Grahn, Paul Monette, Audre Lorde, James Baldwin, Rita Mae Brown, and John Rechy. Course may include earlier works such as Cather's *My Antonia* to explore queer themes not always addressed by other approaches to literature.

**Repeatable:** N

**Formerly** 52-2655

**HL PL**

**Prerequisites** ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

### **LITR 266A Shakespeare**

Students examine Shakespeare's works in their literary, historical, and artistic contexts. Course topics include an introduction to Shakespeare, which provides an overview of Shakespeare's works; Shakespeare: Tragedies, which may include *Hamlet*, *Othello*, *King Lear*, and *Macbeth*; Shakespeare: Comedies, which may include the *Comedy of Errors*, *Twelfth Night*, *Measure for Measure*, and *The Tempest*; Shakespeare: Histories, which may include plays from *Richard II* to *Richard III*. Texts studied may vary from section to section. Course is repeatable as topic changes.

**Repeatable:** Y

**Formerly** LITR 365

**HL**

**Prerequisites** ENGL 122 International Writing and Rhetoric II or ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors  
**Minimum Credits 3 Maximum Credits 3**

### **LITR 266B Shakespeare**

Series of courses examines Shakespeare's works in their literary, historical, and artistic contexts. Shakespeare: Tragedies may include Hamlet, Othello, King Lear, and Macbeth. Shakespeare: Comedies may include The Comedy of Errors, Twelfth Night, Measure for Measure, and The Tempest. Shakespeare: Histories focuses on Shakespeare's dramatization of English history from Richard II to Richard III. Shakespeare: Political Plays considers some histories and plays such as Julius Caesar and Coriolanus. Course is repeatable as topic changes.

**Repeatable:** Y

**HL**

**Prerequisites** ENGL 122 International Writing and Rhetoric II or ENGL 112 Writing and Rhetoric II  
**Minimum Credits 3 Maximum Credits 3**

### **LITR 268 Literature on Film**

Class concerns the relationship between written and filmed versions of a story, novel, or play. Course explores how character development, plot, narrative, symbols, and language are translated from text to film. To facilitate analysis, students acquire a basic vocabulary for discussing literature and film. Instructors may focus on a particular theme, such as the love story, fantasy, or mythology. Works studied have been as diverse as The Color Purple by Alice Walker, Shakespeare's Hamlet, and 2001: A Space Odyssey by Arthur C. Clarke.

**Repeatable:** N

**Formerly** 52-2690

**HL**

**Prerequisites** ENGL 122 International Writing and Rhetoric II or ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors  
**Minimum Credits 3 Maximum Credits 3**

### **LITR 268H Literature on Film: Honors**

Class concerns the relationship between written and filmed versions of a story, novel, or play. Course explores how character development, plot, narrative, symbols, and language are translated from text to film. To facilitate analysis, students acquire a basic vocabulary for discussing literature and film. Instructors may focus on a particular theme, such as the love story, fantasy, or mythology. Works studied have been as diverse as The Color Purple by Alice Walker, Shakespeare's Hamlet, and 2001: A Space Odyssey by Arthur C. Clarke. This is an Honors course and in addition to other pre-requisites, students need a cumulative GPA of 3.50 or higher to enroll.

**Repeatable:** N

**Formerly** 52-2690HN

**HL**

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Requirements** 3.5 or Higher GPA (35GP)

**Minimum Credits 3 Maximum Credits 3**

## **LITR 284 Literature and Visual Culture**

This course introduces students to a broad range of approaches to visual texts and written literature. Students will learn how visual, cultural, and literary theories enable them to create different interpretive strategies in their approaches to specific texts. Critical concepts studied may include subjectivity, the gaze, (re)presentation, gendered bodies, the practice of everyday life, the posthuman. The class will emphasize students' critical writing as a creative process.

**Repeatable:** *N*

**Formerly** 52-2751

**HL**

**Prerequisites** ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

## **LITR 284H Literature and Visual Culture: Honors**

This course introduces students to a broad range of approaches to visual texts and written literature. Students will learn how visual, cultural, and literary theories enable them to create different interpretive strategies in their approaches to specific texts. Critical concepts studied may include subjectivity, the gaze, (re)presentation, gendered bodies, the practice of everyday life, the posthuman. The class will emphasize students' critical writing as a creative process. This is an Honors class. In addition to other possible prerequisites, students need a minimum G.P.A. of 3.50 or higher to enroll.

**Repeatable:** *N*

**Formerly** 52-2751HN

**Prerequisites** ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Requirements** 3.5 or Higher GPA (35GP)

**Minimum Credits 3 Maximum Credits 3**

## **Master of Fine Arts**

### **Creative Writing, MFA**

The MFA in Creative Writing is a multi-faceted, interdisciplinary, multi-genre immersion into the literary arts. Writers may choose to focus on a primary genre, explore a secondary genre, or design their own multi-genre curriculum. The program embodies a creative-critical approach to the literary arts, incorporating literature seminars, workshops, courses in theory and craft, as well as interdisciplinary electives that can be taken across graduate programs at the college, including travel abroad options. Students will be able to take courses in literary editing and production. A majority of our students also teach as Graduate Student Instructors.

As a result of successfully completing the program requirements, students should be able to:

- engage critically across literary texts written in various genres;
- continue to generate creative work in their chosen genre(s) of study;

- articulate critical and theoretical approaches to their own creative work as well as the work of others, across genre and literary traditions;
- demonstrate knowledge of the current literary publishing landscape; and
- craft texts across media and genre or in a specific form that are informed by tradition, innovation, as well as the contemporary literary discourse.

## PROGRAM REQUIREMENTS - 35 credits required

### Workshops

*Choose three of the following courses:*

#### **CRWR 610 Advanced Graduate Fiction Workshop**

This repeatable Fiction workshop emphasizes further development in the writing of short fiction and novels.

**Repeatable:** Y

**Formerly** 59-6203

**Minimum Credits 3 Maximum Credits 3**

#### **CRWR 625 MFA Poetry Workshop**

Students are encouraged to write poetry of the very highest quality. Workshop format makes use of reading assignments, writing exercises, and critique of student work. Students are expected to become familiar with a wide range of models and formal strategies.

**Repeatable:** Y

**Formerly** 59-6500

**Minimum Credits 3 Maximum Credits 3**

#### **CRWR 640 Workshop: Open Genre**

Students will have their creative work discussed and critiqued in a workshop format. Engaging in a variety of genres and the possibilities inherent in transgenre work, students will explore methods in theory and discourse of genre inclusivity. To that end, students will read a variety of texts that explore the demarcation or blurring of genre as well as the current publishing landscape.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

#### **CRWR 662 Graduate Workshop: Nonfiction**

Graduate-only advanced seminar in literature focuses on one author or a group of authors. Course is repeatable as topic changes.

**Repeatable:** Y

**Formerly** 59-6700

**Minimum Credits 3 Maximum Credits 3**

## Thesis Workshop

*Choose one of the following courses:*

### **CRWR 645 Thesis Development: Open Genre**

Students will work towards completing a draft of the thesis, in any genre, required for graduation. Course includes revising and arranging the manuscript and analyzing books in various genres as well as publishing. This course prepares students to work with their thesis advisors.

**Repeatable:** *N*

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 650 Thesis Development: Fiction**

This course concentrates on the process and extended development necessary for the completion of a book-length thesis. The course is designed for graduate students who normally have completed at least two semesters of Advanced Fiction Writing (or will be concurrently enrolled in a second Advanced class), who have sixty to seventy manuscript pages of what they have identified to a Workshop teacher as thesis material, and are in the early stages of working with a thesis advisor. The course is not for graduate students well on their way to completing the thesis, but rather for those in the early developmental stages of thesis work. The course will focus on how to put it all together; that is, such matters as novel structure and movement, short-story structure and movement, dimensions of point of view, and the uniqueness of such in the individual writing of the students.

**Repeatable:** *N*

**Formerly** 59-6401

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 655 Thesis Development: Poetry**

Students in this course will complete the first draft of the thesis required for graduation and prepares students to work with their thesis advisor. Course includes revising and arranging the manuscript, analyzing first books of poetry and the marketplace, and composing the critical essay.

**Repeatable:** *N*

**Formerly** 59-6690

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 665 Thesis Development: Nonfiction**

Students in this course will work towards completing a draft of the nonfiction thesis required for graduation. Course includes revising and arranging the manuscript and analyzing books of nonfiction as well as nonfiction publishing. This course prepares students to work with their thesis advisors.

**Repeatable:** *N*

**Minimum Credits 3 Maximum Credits 3**

## Craft Seminars

*Choose two of the following courses:*

### **CRWR 612A Craft Seminar in Fiction**

Course requires that qualified students study the works of writers' processes, styles, techniques and choices by reading and researching published novels, short stories, journals, letters and interviews, as well as author biographies. Students gain in-depth knowledge of the cultural context of authors' works. Students explore the writing processes of well known authors and the ways in which students' own responses to the reading can nourish and heighten the development of their own fiction and other forms of creative writing.

**Repeatable:** Y

**Formerly** CRWR 612

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 612B Craft Seminar in Fiction**

Course requires that qualified students study the works of writers' processes, styles, techniques and choices by reading and researching published novels, short stories, journals, letters and interviews, as well as author biographies. Students gain in-depth knowledge of the cultural context of authors' works. Students explore the writing processes of well known authors and the ways in which students' own responses to the reading can nourish and heighten the development of their own fiction and other forms of creative writing.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 626 Graduate Poetics Seminar**

The Graduate Poetics Seminar, required of MFA Creative Writing-Poetry students, provides an overview of foundational and touchstone theories of poetic making from Aristotle to the present.

**Repeatable:** N

**Formerly** 59-6510

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 630A Craft Seminar in Poetry**

Rotating topics craft class. Students read literature of specific periods and movements in order to generate poetry and hybrid writing forms based on these reading assignments. Craft Seminars that have been offered in past semesters include Forms of Poetry, Hybridity, What Poets May Learn from Stories, and Marginalia: Otherness in Verse.

**Repeatable:** Y

**Formerly** CRWR 630

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 630B Craft Seminar in Poetry**

Rotating topics craft class. Students read literature of specific periods and movements in order to generate poetry and hybrid writing forms based on these reading assignments. Craft Seminars that have been offered in past semesters include Forms of Poetry, Hybridity, What Poets May Learn from Stories, and Marginalia: Otherness in Verse.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 661A Craft Seminar in Nonfiction**

A class in the craft and theory of different forms of creative nonfiction. Students might write autobiographical essays, journals, prose poetry, letters, biographical pieces, and experimental kinds of prose that are hybrids, or invented forms. The class may also focus on a certain kind of nonfiction writing, such as writing queer nonfiction, or the experimental essay. Some of this work will be discussed in the workshop format. Students will also read different theoretical works that discuss the nature of nonfiction literature.

**Repeatable:** Y

**Formerly** CRWR 661

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 661B Craft Seminar in Nonfiction**

A class in the craft and theory of different forms of creative nonfiction. Students might write autobiographical essays, journals, prose poetry, letters, biographical pieces, and experimental kinds of prose that are hybrids, or invented forms. The class may also focus on a certain kind of nonfiction writing, such as writing queer nonfiction, or the experimental essay. Some of this work will be discussed in the workshop format. Students will also read different theoretical works that discuss the nature of nonfiction literature.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 663 Topics in Nonfiction**

A number and variety of courses are included under the umbrella of nonfiction topics, such as: Journal Writing (writing, reading and discussing nonfiction journals that explore the writer's life or an aspect of it. Course also examines ways personal writing can become public writing within genre of creative nonfiction.); Memoir Writing (how to select the most meaningful memories, and how to develop, focus and structure those memories); and other contemporary NF forms and topics. These courses will be offered different semesters. Content will vary slightly according to instructors.

**Repeatable:** Y

**Formerly** 59-6810

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 699A Craft Seminar in Creative Writing**

This course focuses on specific topics, genres, and forms relative to the intersection of fiction, poetry, and creative nonfiction writing, establishing the connection between the written word and other media. Topics covered may include traditional creative writing topics such as structure, form voice, and image, or may concentrate on experimental forms and trends in contemporary creative writing as well as publishing, performance, and new media. Topics include Pedagogy, Publishing, Experimental Writing, and Multimedia Applications.

**Repeatable:** Y

**Formerly** CRWR 699

**Minimum Credits 3 Maximum Credits 3**

## **CRWR 699B Craft Seminar in Creative Writing**

This course focuses on specific topics, genres, and forms relative to the intersection of fiction, poetry, and creative nonfiction writing, establishing the connection between the written word and other media. Topics covered may include traditional creative writing topics such as structure, form voice, and image, or may concentrate on experimental forms and trends in contemporary creative writing as well as publishing, performance, and new media. Topics include Pedagogy, Publishing, Experimental Writing, and Multimedia Applications.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

## Literature Seminars

*Choose two of the following courses:*

### **LITR 675 History of the Essay**

Seneca to Montaigne to Alice Meynell to Simone Weil, etc. . . . a linear, disjunctive, or creative tour into the heart of the essay. This class will explore the essay in its historical and theoretical forms and development. The class will spend considerable time on the classical essay, but also look deeply at the protean shapes the essay can take, the different ways it makes its lyrical and intellectual possibilities manifest.

**Repeatable:** Y

**Formerly** 52-6695

**Minimum Credits 3 Maximum Credits 3**

### **LITR 679A Graduate Seminar in Literature**

Graduate-only advanced seminar in literature focuses on one author or a group of authors. Course is repeatable as topic changes.

**Repeatable:** Y

**Formerly** LITR 679

**Minimum Credits 3 Maximum Credits 3**

### **LITR 679B Graduate Seminar in Literature**

Graduate-only advanced seminar in literature focuses on one author or a group of authors. Course is repeatable as topic changes.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

## Thesis Advising

*Complete 2 credits from one of the following courses:*

### **CRWR 651 Thesis: Fiction**

Includes one-on-one intensive rewriting manuscript in preparation for candidate's thesis.

**Repeatable:** Y

**Formerly** 59-6402

**TH**

**Minimum Credits 1 Maximum Credits 2**

### **CRWR 656 Thesis: Poetry**

One-on-one intensive revision of the book-length thesis manuscript and/or critical essay required for graduation with an MFA in Poetry. Repeatable once.

**Repeatable:** Y

**Formerly** 59-6691

**TH**

**Minimum Credits 1 Maximum Credits 1**

### **CRWR 660 Thesis: Nonfiction**

Thesis credits, under individual direction by faculty, toward completion of the thesis.

**Repeatable:** Y

**Formerly** 59-6891

**TH**

**Minimum Credits 1 Maximum Credits 2**

## **Electives**

*Choose three of the following courses:*

### **CRWR 515 Literary Magazine Editing**

Course teaches students basic principles of literary magazine editing. This includes the processing and managing of submissions, editorial discussions of submitted material, editorial correspondence (rejections and acceptances), ordering of the final manuscript, and preparation of the electronic manuscript for typesetting.

**Repeatable:** N

**Formerly** 59-5150

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 516 Literary Magazine Production**

Course teaches students basic principles of magazine production. Students act as editors and assistants for Columbia literary journals, learning the fundamentals of editorial selection, copyediting, proofreading, design, production and distribution.

**Repeatable:** N

**Formerly** 59-5151

**Requirements** Permission Required (DP)  
**Minimum Credits 3 Maximum Credits 3**

### **CRWR 610 Advanced Graduate Fiction Workshop**

This repeatable Fiction workshop emphasizes further development in the writing of short fiction and novels.

**Repeatable:** Y  
**Formerly** 59-6203  
**Minimum Credits 3 Maximum Credits 3**

### **CRWR 612A Craft Seminar in Fiction**

Course requires that qualified students study the works of writers' processes, styles, techniques and choices by reading and researching published novels, short stories, journals, letters and interviews, as well as author biographies. Students gain in-depth knowledge of the cultural context of authors' works. Students explore the writing processes of well known authors and the ways in which students' own responses to the reading can nourish and heighten the development of their own fiction and other forms of creative writing.

**Repeatable:** Y  
**Formerly** CRWR 612  
**Minimum Credits 3 Maximum Credits 3**

### **CRWR 612B Craft Seminar in Fiction**

Course requires that qualified students study the works of writers' processes, styles, techniques and choices by reading and researching published novels, short stories, journals, letters and interviews, as well as author biographies. Students gain in-depth knowledge of the cultural context of authors' works. Students explore the writing processes of well known authors and the ways in which students' own responses to the reading can nourish and heighten the development of their own fiction and other forms of creative writing.

**Repeatable:** Y  
**Minimum Credits 3 Maximum Credits 3**

### **CRWR 620 Critical Reading and Writing: Kafka and European Masters**

With a focus on Franz Kafka, this course presents the work of Prague's most influential writers, paying special attention to how the historical and cultural landscape of Eastern Europe in the 20th century impacted their lives and work, and exploring the myriad ways culture and geography inform creative process. In this course, students will interact with the city of Prague through the lenses of great works such as Kafka's The Trial, Hasek's outrageous novel, The Good Soldier Svejk, Kundera's The Unbearable Lightness of Being, and works by Karol Capek and Bohumil Hrabel.

**Repeatable:** N  
**Formerly** 59-6173  
**Requirements** Permission Required (DP)  
**Minimum Credits 3 Maximum Credits 3**

### **CRWR 625 MFA Poetry Workshop**

Students are encouraged to write poetry of the very highest quality. Workshop format makes use of reading assignments, writing exercises, and critique of student work. Students are expected to become familiar with a wide range of models and formal strategies.

**Repeatable:** Y

**Formerly** 59-6500

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 626 Graduate Poetics Seminar**

The Graduate Poetics Seminar, required of MFA Creative Writing-Poetry students, provides an overview of foundational and touchstone theories of poetic making from Aristotle to the present.

**Repeatable:** N

**Formerly** 59-6510

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 630A Craft Seminar in Poetry**

Rotating topics craft class. Students read literature of specific periods and movements in order to generate poetry and hybrid writing forms based on these reading assignments. Craft Seminars that have been offered in past semesters include Forms of Poetry, Hybridity, What Poets May Learn from Stories, and Marginalia: Otherness in Verse.

**Repeatable:** Y

**Formerly** CRWR 630

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 630B Craft Seminar in Poetry**

Rotating topics craft class. Students read literature of specific periods and movements in order to generate poetry and hybrid writing forms based on these reading assignments. Craft Seminars that have been offered in past semesters include Forms of Poetry, Hybridity, What Poets May Learn from Stories, and Marginalia: Otherness in Verse.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 640 Workshop: Open Genre**

Students will have their creative work discussed and critiqued in a workshop format. Engaging in a variety of genres and the possibilities inherent in transgenre work, students will explore methods in theory and discourse of genre inclusivity. To that end, students will read a variety of texts that explore the demarcation or blurring of genre as well as the current publishing landscape.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 661A Craft Seminar in Nonfiction**

A class in the craft and theory of different forms of creative nonfiction. Students might write autobiographical essays, journals, prose poetry, letters, biographical pieces, and experimental kinds of prose that are hybrids, or invented forms. The class may also focus on a certain kind of nonfiction writing, such as writing queer nonfiction, or the experimental essay. Some of this work will be discussed in the workshop format. Students will also read different theoretical works that discuss the nature of nonfiction literature.

**Repeatable:** Y

**Formerly** CRWR 661

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 661B Craft Seminar in Nonfiction**

A class in the craft and theory of different forms of creative nonfiction. Students might write autobiographical essays, journals, prose poetry, letters, biographical pieces, and experimental kinds of prose that are hybrids, or invented forms. The class may also focus on a certain kind of nonfiction writing, such as writing queer nonfiction, or the experimental essay. Some of this work will be discussed in the workshop format. Students will also read different theoretical works that discuss the nature of nonfiction literature.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 662 Graduate Workshop: Nonfiction**

Graduate-only advanced seminar in literature focuses on one author or a group of authors. Course is repeatable as topic changes.

**Repeatable:** Y

**Formerly** 59-6700

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 663 Topics in Nonfiction**

A number and variety of courses are included under the umbrella of nonfiction topics, such as: Journal Writing (writing, reading and discussing nonfiction journals that explore the writer's life or an aspect of it. Course also examines ways personal writing can become public writing within genre of creative nonfiction.); Memoir Writing (how to select the most meaningful memories, and how to develop, focus and structure those memories); and other contemporary NF forms and topics. These courses will be offered different semesters. Content will vary slightly according to instructors.

**Repeatable:** Y

**Formerly** 59-6810

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 670 Creative Writing: J-Term in Paris**

Dislocation from the familiar has for centuries played upon the imaginative processes of writers. This J-Session course offers an immersion in the literature, art, history, and culture of another city or country. Students read fiction and nonfiction by noted authors; visit major sites associated with these authors; write journal entries and reading responses; and intensively explore new fictional and creative nonfiction possibilities, as well as having the option of continuing to develop strong writing material from previous classes.

**Repeatable:** *N*

**Formerly** 59-6171J

**Requirements** Permission Required (DP)

**Minimum Credits** 3 **Maximum Credits** 3

### **CRWR 672 Topics in Writing Abroad: Rome**

This J-session course offers an intensive two-week immersion in Rome's literature, art, history, and culture. Students read fiction, poetry, and nonfiction by noted authors; visit major sites, including the Colosseum, Vatican, Roman Forum, Pompeii, churches, museums and places associated with noted authors; and participate in writing workshops at Lorenzo d' Medici. Journal entries and reading responses lead to an extended story, essay, or digital project, which may be done in collaboration with students from the Business and Entrepreneurship Department.

**Repeatable:** *N*

**Formerly** 59-6170J

**Requirements** Permission Required (DP)

**Minimum Credits** 3 **Maximum Credits** 3

### **CRWR 699A Craft Seminar in Creative Writing**

This course focuses on specific topics, genres, and forms relative to the intersection of fiction, poetry, and creative nonfiction writing, establishing the connection between the written word and other media. Topics covered may include traditional creative writing topics such as structure, form voice, and image, or may concentrate on experimental forms and trends in contemporary creative writing as well as publishing, performance, and new media. Topics include Pedagogy, Publishing, Experimental Writing, and Multimedia Applications.

**Repeatable:** *Y*

**Formerly** CRWR 699

**Minimum Credits** 3 **Maximum Credits** 3

### **CRWR 699B Craft Seminar in Creative Writing**

This course focuses on specific topics, genres, and forms relative to the intersection of fiction, poetry, and creative nonfiction writing, establishing the connection between the written word and other media. Topics covered may include traditional creative writing topics such as structure, form voice, and image, or may concentrate on experimental forms and trends in contemporary creative writing as well as publishing, performance, and new media. Topics include Pedagogy, Publishing, Experimental Writing, and Multimedia Applications.

**Repeatable:** *Y*

**Minimum Credits** 3 **Maximum Credits** 3

### **GRAD 610 Teaching Methods and Pedagogies**

This course introduces graduate students from across the college to teaching methods and pedagogies, more broadly conceived, as well as in their home disciplines. Students will have the opportunity to work with a faculty member in an undergraduate classroom. Syllabus-writing, time management, and important theoretical and practical aspects of learning and teaching will be covered. Seminars will range from the practical concerns of constructing and conducting a class to the theoretical, thought-provoking issues centered on both teaching and learning.

**Repeatable:** *N*

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

### **LITR 675 History of the Essay**

Seneca to Montaigne to Alice Meynell to Simone Weil, etc. . . . a linear, disjunctive, or creative tour into the heart of the essay. This class will explore the essay in its historical and theoretical forms and development. The class will spend considerable time on the classical essay, but also look deeply at the protean shapes the essay can take, the different ways it makes its lyrical and intellectual possibilities manifest.

**Repeatable:** *Y*

**Formerly** 52-6695

**Minimum Credits 3 Maximum Credits 3**

### **LITR 679A Graduate Seminar in Literature**

Graduate-only advanced seminar in literature focuses on one author or a group of authors. Course is repeatable as topic changes.

**Repeatable:** *Y*

**Formerly** LITR 679

**Minimum Credits 3 Maximum Credits 3**

### **LITR 679B Graduate Seminar in Literature**

Graduate-only advanced seminar in literature focuses on one author or a group of authors. Course is repeatable as topic changes.

**Repeatable:** *Y*

**Minimum Credits 3 Maximum Credits 3**

## **Minor**

### **Creative Writing Minor**

The minor in Creative Writing is designed to allow students to combine their major fields of study with a sequence of creative writing workshops and elective writing courses that will improve reading, writing, storytelling, listening, speaking, and creative problem-solving skills. The minor in Creative Writing is of interest to students who realize the great importance of writing and story in all arts and media disciplines, as well as most careers.

As a result of successfully completing the Creative Writing Minor requirements, students should be able to:

- demonstrate a familiarity with the common language of the discipline of creative writing;
- use a variety of narrative techniques, written forms, and revision strategies to create effective creative writing;
- demonstrate a familiarity with how open creative writing is to new modes of expression;
- demonstrate an understanding of the relationship between effective reading and effective writing;

- perform reasonably close readings of works of creative writing by 1) analyzing relevant literary elements (narrative techniques, themes, forms/subgenres, stylistic choices, or other literary devices common to creative writing), and 2) making appropriate reference to relevant texts and contexts;
- demonstrate a meaningful ability to participate in contemporary conversations on social and cultural change;
- demonstrate knowledge of the literary marketplace and processes crucial to publishing their creative writing; and
- apply creative problem-solving, effective written and oral communications, and critical thinking to their preparation for graduate studies, writing-related careers, and other professions.

## PROGRAM REQUIREMENTS - 18 credits required

### **CRWR 110 Foundations in Creative Writing**

This course will introduce students to an extensive creative writing practice by inviting them to write in a number of different genres and forms. Students will become familiar with core literary devices such as structure, conflict, scene, character, voice, point of view, setting, tone, metaphor, imagery, dialogue, and language. Students will learn to read closely and analyze stylistic choices and literary elements from genres such as poetry, fiction, nonfiction, playwriting, and hybrid texts. Course writing will range from experimental to traditional, from structured to open. Students will be introduced to the workshop process by writing in various genres and by providing feedback to their peers.

**Repeatable:** *N*

**Formerly** 59-1100

**Minimum Credits 3 Maximum Credits 3**

*Complete 6 credits from the following courses:*

### **CRWR 101 Explorations in Creative Writing**

This innovative course in creative writing, centered on a universal human experience, fits in Rubric II within the LAS Core Curriculum: Culture, Values, and Ethics. By reading a wide range of poems, stories and essays, and by reading a small number of films and pieces of music and work in other art forms, students will become familiar with a wide range of human behavior and cultural responses in relation to the thematic topic as expressed in literature and other art. Topics may include Death and Dying, Art and Violence, and Love and Lust.

**Repeatable:** *Y*

**Formerly** 59-1101

**HU**

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 105 Story Across Culture and Media**

This course explores the fundamental human concept of storytelling as it applies to the construction of culture and identity, through a variety of narrative media. Students will investigate, from a global perspective, the role of storytelling in shaping experience in a wide range of cultural and historical contexts. By examining fiction, poetry, non-fiction, film, television, theatre, music, and new media, students will identify universal narrative elements and determine the ways these universal narrative elements frame basic human experiences. This course will be helpful for students interested in studying creative writing, television, film, and other narrative arts where deeper understanding of the humanities and culture strengthen their art.

**Repeatable:** Y

**Formerly** 59-1110

**HU**

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 112 Tutoring Fiction Writing Skills**

Tutorial course addresses basic skills in grammar and punctuation, fiction writing, rewriting, editing, journal writing, organization, and more. Tutorial Program is designed for students concurrently enrolled in Fiction Writing Workshop, Prose Forms, Critical Reading and Writing, and Specialty Writing classes. Many students find one-on-one attention of a tutor (who is an advanced writing student) gives their writing added energy and clarity and helps them make valuable discoveries.

**Repeatable:** Y

**Formerly** 59-1450

**Concurrent Requisite** CRWR 150 Fiction Workshop: Beginning

**Minimum Credits 1 Maximum Credits 2**

### **CRWR 120A Craft and Process Seminar in Fiction: Topics**

Course requires that qualified students study the works of writers' processes, styles, techniques and choices by reading and researching published novels, short stories, journals, letters and interviews, as well as author biographies. Students gain in-depth knowledge of the cultural context of authors' works. Students explore the writing processes of well known authors and the ways in which students' own responses to the reading can nourish and heighten the development of their own fiction.

**Repeatable:** Y

**Formerly** CRWR 120

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 121 Craft and Process Seminar in Fiction: First Novels**

Course will expose student writers to the creative and intellectual processes of published writers early in their careers. It will show students that a) writing is an ongoing process of writing and rewriting; b) the creative process is both unique and universal to each writer; and c) published writers faced the same bogeys at the beginning of their careers that student writers face. Through contrast and comparisons (in the journals and class discussions) students will examine and comment on the prose forms, character developments, and story structures first-time novelists have effectively used, along with the writing processes the authors employed to get their first novels finished. Through journal entries and essays, students will examine what all this tells them about how they might go about solving the questions of structure and process presented to them by their own writing. Students will be required to read three novels and conduct research by reading writers' diaries, notebooks, letters, and autobiographies. There will be discussion of the assigned texts and journal readings every week.

**Repeatable:** N

**Formerly** 59-1302

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 122 Craft and Process Seminar in Fiction: Gender and Difference**

Course examines the ways in which gay, lesbian, and straight writers contend with issues of culture, gender, and difference. Course focuses upon such questions as the following: How do straight male and female writers deal with the serious issues and challenges of writing from the point of view of gay and lesbian characters? How do gay and lesbian writers deal with the same issues in writing about straight characters? Course also examines the particular challenges of writing gender opposites (whatever the sexual orientation of those characters might be). Through the students' reading of assigned stories and novels, through their written responses as writers to their reading, through creative fiction and nonfiction writing assignments, and through individual and small-group research activities, the course will approach broad and specific issues of gender and difference from early writing to the present day.

**Repeatable:** *N*

**Formerly** 59-1305

**PL**

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 123 Craft and Process Seminar in Fiction: The Novel in Stories**

Course examines creative and intellectual processes of writers working in nonlinear structure forms. It raises questions writers ask themselves when determining how best to structure a body of work that is more cohesive than a collection of stories, yet not a linearly shaped novel. Through readings, small group and large group discussions, journal reflections (both students' and authors'), and research into the authors' writing processes, students are able to reflect upon and examine issues and questions of structure that go into putting together a cohesive body of creative work.

**Repeatable:** *N*

**Formerly** 59-1306

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 127 Craft and Process Seminar in Fiction: American Voices**

Course researches writing processes of African-American, Hispanic-American, Native-American, and Asian-American writers and other ethnic American writers and the ways in which their reading and responses to reading play an influential role in the fiction-writing process. Particular emphasis will be placed upon taking the point of view of racial and ethnic opposites. Journals and other writings are used as examples of how writers read and write about what they read to develop dimensions of their own fiction and how they see their work in relation to that of other writers. Manuscripts and notes of famous works may be used to show writers' processes and development.

**Repeatable:** *N*

**Formerly** 59-1310

**PL**

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 129 Craft and Process Seminar in Fiction: Autobiographical Fiction**

Course requires that students read fiction known to be autobiographical in nature and respond with journal entries and classroom discussion. Students research primary sources concerning a writer, his or her work, and the process by which the work came into being; give an oral report; and write a final essay. Students read aloud journal entry responses to readings and write their own autobiographical fiction, some of which is read and responded to in class.

**Repeatable:** *N*

**Formerly** 59-1312

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 130 Craft and Process Seminar in Fiction: Crime & Story**

Course explores the fact that, since Oedipus Rex, the crime has been one of the engines that drive story movement. Dostoevsky, Drieser, Petry, Dickens, Atwood, and Wright are among the many writers who use elements of the mystery and crime story to explore the psychological effects of crime on characters in fiction. By analyzing the writing techniques and processes--such as point of view, scene, voice, and story structure--of well-known writers, students will examine how murder, crime, and mystery have been transformed beyond genre to create dramatic literary fiction. By reading published work, as well as researching memoirs, journals, essays, and letters of established writers, students will explore how they may use these techniques to create compelling movement in their fiction.

**Repeatable:** *N*

**Formerly** 59-1316

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 132 Story in Fiction and Film: International**

Course critically explores the elements of fiction writing as they are translated to film with an emphasis on foreign and international stories: voice, point of view, dialogue, scene, structure, and other fictional forms. Fiction has been an important source for cinematic storytelling since its earliest incarnations. Students will view films, read fictional excerpts, discuss techniques, and hear speakers, studying how these elements can be used to heighten their own stories. Course will be helpful for students interested in studying fiction, film, and other arts and media disciplines.

**Repeatable:** *N*

**Formerly** 59-1406

**GA**

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 133 Story in Graphic Forms**

Course covers writing for comics and graphic novels: Forms and formats similar to but unique from those of narrative prose, screenwriting, and storyboarding. The full script and plot outline styles of major publishers are explored and practiced. There's an emphasis on research to enable the writer to translate the envisioned image into words for artist and audience. Business aspects such as submissions, working within publishing cooperatives, and self-publishing are presented.

**Repeatable:** *N*

**Formerly** 59-1410

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 134 Young Adult Fiction**

Course analyzes a selection of published young adult novels, with emphasis on the development of student works, including exploration of ideas and issues that sustain novel-length material. Also studied are plot construction, writing of scene and transition, and the weaving of theme into the whole.

**Repeatable:** *N*

**Formerly** 59-1411

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 135 Dreams and Fiction Writing**

Course helps writers relate the rich, various, and powerful world of dreams to the needs and delights of imaginative prose fiction. Students keep journals of their dreams, read and write dream stories, and study how dreams relate to their fiction writing, including researching the ways in which dreams have influenced the work of well-known writers.

**Repeatable:** *N*

**Formerly** 59-1412

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 138 Science Fiction Writing**

Course offers a fresh approach to conception and writing of science fiction, with a current overview of the state of the field and techniques. Students develop original material and present their manuscripts to instructor for careful examination, possible class reading, and critique.

**Repeatable:** *N*

**Formerly** 59-1416

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 140 Story and Journal**

Course uses students' personal journals and journals and notebooks of authors such as Melville, Kafka, Nin, and Boll as devices for exploration of the imagination, recording of the living image, and development of various kinds of writing.

**Repeatable:** *N*

**Formerly** 59-1419

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 141 Fantasy Writing Workshop**

Course explores the many facets of fantasy fiction, from heroic fantasy to contemporary fantasy to horror. Students will read classic short stories of the genre, with class discussion focusing on structure, content, the use of imagination combined with plausibility, and how these qualities apply to the student's own writing.

**Repeatable:** *N*

**Formerly** 59-1420

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 143 Journal and Sketchbook: Ways of Seeing**

This course, open to those interested in writing and/or visual art, will be team-taught by a writer and a visual artist, using interdisciplinary approaches in order to help students better see their narrative work. Kafka, Goya, Faulkner, and others have been inspired by word and image; their journals and sketchbooks show exploration in text, image, and their intersections. Students will consider their written and visual work fully through personal observation, seeing and responding simultaneously, and seeing-in-the-mind through

imagination and memory.

**Repeatable:** *N*

**Formerly** 59-1422

**GA**

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 144A Topics in Fiction Writing**

Courses focus on specific topics, genres, and forms relative to Fiction and Creative Nonfiction Writing (novel, short-story, personal and researched essays, etc.) that might not be included in the current course offerings (eg: Chicago Stories; Gators, Bayous, Jambalaya and Fais Do-Dos: Fieldwork Among Louisiana's Cajuns). Topics covered may include traditional fiction writing topics, and may also concentrate on experimental forms and trends in contemporary fiction as well as publishing and electronic media.

**Repeatable:** *Y*

**Formerly** CRWR 144

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 199A Topics in Creative Writing**

This course is designed to respond to contemporary trends and topical issues in creative writing by focusing on specific topics, genres, and forms relative to the intersection of fiction, poetry, and creative nonfiction writing. Topics may range from the traditional to the experimental (examples: Creative Writing & Performance, Cross-Genre Writing, Creating Hybrid Texts, Creative Writing for New Media, Contemporary Publishing) or focus upon a particular author or theme or purpose in creative work. This course is repeatable, as topics rotate each semester to cover material that is not included in the permanent course offerings.

**Repeatable:** *Y*

**Formerly** CRWR 199

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 215 Freelance Applications of Creative Writing Training**

Course looks at the application of the broad repertoire of creative writing techniques and approaches to writing and freelance tasks found in various businesses and services, including the writing that appears in a variety of publications and media. The student develops writing projects suitable for inclusion in his/her professional portfolios.

**Repeatable:** *N*

**Formerly** 59-2101

**Prerequisites** CRWR 250 Fiction Workshop: Intermediate or CRWR 255 Poetry Workshop: Intermediate or CRWR 260 Creative Nonfiction Workshop: Intermediate

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 216 Small Press Publishing**

Course covers the how-to, economic, copyright, technical, and mailing regulation considerations of founding a press or magazine and examines the current, important phenomenon of the developing small-press movement in the American literary scene. Course includes an electronic publication component.

**Repeatable:** *N*

**Formerly** 59-2102

**Prerequisites** CRWR 250 Fiction Workshop: Intermediate or CRWR 255 Poetry Workshop: Intermediate or CRWR 260 Creative Nonfiction Workshop: Intermediate

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 220 Craft and Process Seminar in Fiction: Novelists**

Course examines the ways in which novelists read, respond to what they read, and incorporate their reading responses dynamically into their own fiction-writing processes. In addition to their own written responses to reading, students work individually and in small groups researching the reading and writing processes behind selected novels (mainstream and alternative), ranging from the beginnings of the form to the present day. Drawing upon authors' journals, notebooks, letters, and more public writings, students explore the writing processes of well-known writers and ways in which students' own responses to reading can nourish and heighten the development of their fiction. Course will survey many of the principal novelists and novels and the development of the genre from its roots to contemporary fiction. Students should be writing fiction, but novel-length material is not required.

**Repeatable:** *N*

**Formerly** 59-2301

**Prerequisites** CRWR 150 Fiction Workshop: Beginning or CRWR 155 Poetry Workshop: Beginning or CRWR 160 Creative Nonfiction Workshop: Beginning

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 221 Craft and Process Seminar in Fiction: Short Story**

Course encourages development of lively, well-crafted, short fiction by examining reading and writing processes that guide some of the best examples of the form. Students select from a wide range of writers, representing many different voices, backgrounds, subjects, and approaches, to research ways in which writers read, respond to their reading, and use that reading to generate and heighten their short stories. Students write their responses to reading short stories and discuss the relationship of reading to the development of their own fiction.

**Repeatable:** *N*

**Formerly** 59-2302

**Prerequisites** CRWR 150 Fiction Workshop: Beginning or CRWR 155 Poetry Workshop: Beginning or CRWR 160 Creative Nonfiction Workshop: Beginning

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 222 Craft and Process Seminar in Fiction: Women Writers**

Course researches writing processes of women writers and ways in which their reading and responses to reading play influential roles in the fiction-writing process. Journals and other writings by Virginia Woolf, Zora Neale Hurston, Katherine Anne Porter, Katherine Mansfield, Eudora Welty, Toni Cade Bambara, and others are used as examples of how writers read, write about what they read to develop their fiction, and see their work in relation to other writers' works. Manuscripts and notes of famous works may be used to show writers' processes and development. Students' own fiction writing is also part of the course.

**Repeatable:** *N*

**Formerly** 59-2303

**PL**

**Prerequisites** CRWR 150 Fiction Workshop: Beginning or CRWR 155 Poetry Workshop: Beginning or

CRWR 160 Creative Nonfiction Workshop: Beginning  
**Minimum Credits 3 Maximum Credits 3**

### **CRWR 223 Craft and Process Seminar in Fiction: Fiction Writers and Censorship**

Course emphasizes research, writing, and discussion of creative processes of successful writers, among them Lawrence, Flaubert, Hurston, Wright, Selby, Joyce, and Burroughs, who have been forced to confront directly forms of censorship or marginalization. Writers must be free to draw on their strongest material and use their best, most authentic, telling voices. However, writers often confront external or internal inhibitions: outright legal challenges, vocal attacks upon certain types of stories, subtle publishing prejudices, or self-censoring.

**Repeatable:** *N*

**Formerly** 59-2304

**Prerequisites** CRWR 110 Foundations in Creative Writing

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 233 Researching and Writing Historical Fiction**

Course focuses on the ever-popular genre of historical fiction, which combines the study of research techniques with fictional techniques necessary to produce marketable prose. Through reading, research, and guidance of a historical fiction writer, students produce their own historical fiction.

**Repeatable:** *N*

**Formerly** 59-2410

**Prerequisites** CRWR 150 Fiction Workshop: Beginning or CRWR 155 Poetry Workshop: Beginning or CRWR 160 Creative Nonfiction Workshop: Beginning

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 239 Dialects and Fiction Writing**

Course provides students with informed training in listening with a good ear and distinguishing between eye dialect and dialect that is both accurately and artistically rendered, with an understanding of the tradition of dialect writing in fiction. Dialect speech and writing have richly contributed to the breadth, variety, and authenticity of American and English literature. Students keep journals and research the ways in which writers employ dialect in their fiction as well as what they have to say about such uses, while also developing a facility with dialect in their own fiction writing.

**Repeatable:** *N*

**Formerly** 59-2430

**PL**

**Prerequisites** CRWR 150 Fiction Workshop: Beginning or CRWR 155 Poetry Workshop: Beginning or CRWR 160 Creative Nonfiction Workshop: Beginning

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 242A Topics in Nonfiction**

A number and variety of courses are included under the umbrella of nonfiction topics, such as: Journal Writing (writing, reading and discussing nonfiction journals that explore the writer's life or an aspect of it, such as travel, memories or relationships to art or food. Course also examines ways personal writing can become public writing within genre of creative nonfiction.); Memoir Writing (how to select the most meaningful memories, and how to develop, focus and structure those memories); and the Graphic Memoir

(While the emphasis will be on writing, the course will also explore the connection of writing to drawing and how one can enhance the other, such as how the images and language are placed in panels or pages). These courses will revolve and be offered different semesters. Content will vary slightly according to instructors.

**Repeatable:** Y

**Formerly** CRWR 242

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 122 International Writing and Rhetoric II or CRWR 160 Creative Nonfiction Workshop: Beginning

**Minimum Credits 3 Maximum Credits 3**

## **CRWR 249 Nonfiction Film As Literature**

This class will explore nonfiction films in their relationship to nonfiction literature. What does it mean to speak of films as essays or memoirs or autobiographies? What is the relationship between text and image, fact, truth, and composition in films presenting themselves as nonfictional? We will also consider some nonfiction literature that invokes and plays off film. Filmmakers such as Ross McElwee, Spike Lee, Erroll Morris, Chris Marker, Barbara Hammer, Su Friedrich, Jonathan Caouette, and Spalding Gray will be considered.

**Repeatable:** N

**Formerly** 59-2850

**HL**

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

## **CRWR 288 Practice Teaching: Tutor Training**

Course uses a range of pedagogical strategies to train and provide tutors who, concurrent with their training semester, staff the Department of Creative Writing's Fiction tutoring program. Tutors assist Fiction students who need help with reading and writing skills.

**Repeatable:** N

**Formerly** 59-3450

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

## **CRWR 315 Creative Writers and Publishing**

Course is designed to give developing creative writers an understanding of the publishing industry, and experience navigating it. Students will write and prepare work for potential publication, familiarize themselves with the literary marketplace and current publishing trends, participate in conversations and interviews with editors, agents, publishers, and other members of the publishing industry and literary community. Assignments will include research, presentations, and opportunities for submission of students' creative work. Students will undertake, present, and potentially publish in-depth research into literary magazines and journals, as well as independent and major publishing houses. Guest speakers may include bookstore owners, editors, publishers, and published creative writers.

**Repeatable:** N

**Formerly** 59-3100

**Prerequisites** CRWR 250 Fiction Workshop: Intermediate or CRWR 255 Poetry Workshop:

Intermediate or CRWR 260 Creative Nonfiction Workshop: Intermediate

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 316 Writer's Portfolio**

Course combines the study of aesthetics with the study of the business of creative writing. Student writing in class may include (but is not limited to) critical essays on the craft of creative writing; craft commentaries on your own work and on the work of others; interviews with other writers; cover letters; query letters; and research essays on publishing markets. Students will learn about professional presentation for submitting their writing for publication and for evaluation by employers and graduate-admission committees in fields where effective communication, creative problem-solving, critical analysis, editing, and group relationship skills are crucial factors.

**Repeatable:** *N*

**Formerly** 59-3150

**Prerequisites** CRWR 250 Fiction Workshop: Intermediate or CRWR 255 Poetry Workshop: Intermediate or CRWR 260 Creative Nonfiction Workshop: Intermediate

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 320 Craft and Process Seminar in Fiction: Kafka and European Masters**

With a focus on Franz Kafka, this course presents the work of Prague's most influential writers, paying special attention to how the historical and cultural landscape of Eastern Europe in the 20th century impacted their lives and work, and exploring the myriad ways culture and geography inform creative process. In this course, students will interact with the city of Prague through the lenses of great works such as Kafka's *The Trial*, Heczek's outrageous novel *Good Soldier Svejk*, Kundera's *The Unbearable Lightness of Being* and works by Karol Capek and Bohumil Hrabal.

**Repeatable:** *N*

**Formerly** 59-3173

**GA**

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 326A Craft and Process Seminar in Nonfiction**

The Readings in Nonfiction Literature class is designed to explore a variety of subjects in nonfiction, and topics of classes offered might include readings in the essay, twentieth century nonfiction, feminist readings in nonfiction, queer nonfiction, graphic novel memoirs, single or double author courses (Baldwin's *Essays*, or Montaigne and Bacon), etc. The class will change from semester to semester. The class will explore what makes a work of nonfiction specific to its genre and how writers establish their voices in nonfiction.

**Repeatable:** *Y*

**Formerly** CRWR 326

**Prerequisites** CRWR 160 Creative Nonfiction Workshop: Beginning

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 357A Craft and Process Seminar in Poetry**

Rotating topics craft class. Students read literature of specific periods and movements in order to generate poetry (and hybrid writing forms) based on these reading assignments. Craft Seminars that have been offered in past semesters include Poetry Translation, Hybrid Poetics, and Literary College.

**Repeatable:** Y  
**Formerly** CRWR 357  
**Prerequisites** CRWR 155 Poetry Workshop: Beginning  
**Minimum Credits 3 Maximum Credits 3**

### **CRWR 370 Creative Writing: J-Term in Paris**

Dislocation from the familiar has for centuries played upon the imaginative processes of writers. This J-Session course offers an immersion in the literature, art, history, and culture of another city or country. Students read fiction and nonfiction by noted authors; visit major sites associated with these authors; write journal entries and reading responses; and intensively explore new fictional and creative nonfiction possibilities, as well as having the option of continuing to develop strong writing material from previous classes.

**Repeatable:** N  
**Formerly** 59-3171J  
**GA**  
**Requirements** Permission Required (DP)  
**Minimum Credits 3 Maximum Credits 3**

### **CRWR 372 Topics in Writing Abroad: Rome**

This J-session course offers an intensive two-week immersion in Rome's literature, art, history, and culture. Students read fiction, poetry, and nonfiction by noted authors; visit major sites, including the Colosseum, Vatican, Roman Forum, Pompeii, churches, museums and places associated with noted authors; and participate in writing workshops at Lorenzo d' Medici. Journal entries and reading responses lead to an extended story, essay, or digital project, which may be done in collaboration with students from the Business and Entrepreneurship Department.

**Repeatable:** N  
**Formerly** 59-3170J  
**GA**  
**Requirements** Permission Required (DP)  
**Minimum Credits 3 Maximum Credits 3**

### **CRWR 415 Literary Magazine Editing**

Course teaches students basic principles of literary magazine editing. This includes the processing and managing of submissions, editorial discussions of submitted material, editorial correspondence (rejections and acceptances), ordering of the final manuscript, and preparation of the electronic manuscript for typesetting.

**Repeatable:** N  
**Formerly** 59-4150  
**Requirements** Permission Required (DP)  
**Minimum Credits 3 Maximum Credits 3**

### **CRWR 416 Literary Magazine Production**

Course teaches students basic principles of magazine production. Students act as editors and assistants for Columbia literary journals, learning the fundamentals of editorial selection, copyediting, proofreading,

design, production and distribution.

**Repeatable:** *N*

**Formerly** 59-4151

**Requirements** Permission Required (DP)

**Minimum Credits** 3 **Maximum Credits** 3

### **CRWR 450 Fiction Workshop: Thesis**

This capstone course for the Fiction concentration focuses on the writing, revisions, and compilation of a fiction manuscript suitable for submission to publishers and/or submission for graduate school.

**Repeatable:** *N*

**Formerly** 59-4290

**Prerequisites** CRWR 350 Fiction Workshop: Advanced

**Minimum Credits** 3 **Maximum Credits** 3

### **CRWR 455 Poetry Workshop: Thesis**

This capstone course for the Poetry concentration focuses on the writing, revisions, and compilation of a chapbook-length poetry manuscript suitable for submission to publishers and/or submission for graduate school.

**Repeatable:** *N*

**Formerly** 59-4690

**Prerequisites** CRWR 355 Poetry Workshop: Advanced

**Minimum Credits** 3 **Maximum Credits** 3

### **CRWR 460 Creative Nonfiction Workshop: Thesis**

This capstone course for the Nonfiction concentration focuses on the writing, revisions, and compilation of a nonfiction manuscript suitable for submission to publishers and/or submission for graduate school.

**Repeatable:** *N*

**Formerly** 59-4890

**Prerequisites** CRWR 360 Creative Nonfiction Workshop: Advanced

**Minimum Credits** 3 **Maximum Credits** 3

### **CRWR 490 Internship: Creative Writing**

Course provides internships to advanced students with an opportunity to gain work experience in an area of concentration or interest while receiving academic credit toward their degrees.

**Repeatable:** *Y*

**Formerly** 59-3990

**Requirements** Permission Required (DP)

**Minimum Credits** 1 **Maximum Credits** 6

### **CRWR 495 Directed Study: Creative Writing**

This course consists of learning activities involving student independence within the context of regular guidance and direction from a faculty advisor. Directed Studies are appropriate for students who wish to explore a subject beyond what is possible in regular courses or for students who wish to engage in a subject or activity not otherwise offered that semester by the College. Directed Studies involve close collaboration with a faculty advisor who will assist in development and design of the project, oversee its progress, evaluate the final results, and submit a grade.

**Repeatable:** Y

**Formerly** 59-3999

**Requirements** Permission Required (DP)

**Minimum Credits 1 Maximum Credits 4**

### **CRWR 496 Independent Project: Creative Writing**

An independent project is designed by the student, with approval of supervising faculty member, to study an area not available in the curriculum. Prior to registration, student must submit written proposal that outlines the project.

**Repeatable:** Y

**Formerly** 59-3998

**Requirements** Permission Required (DP)

**Minimum Credits 1 Maximum Credits 6**

### **LITR 103 Introduction to Literary Interpretation**

Course introduces students to key terms, concepts, and techniques of literary interpretation, with attention to questions of genre, period, and critical perspective. Students analyze selections of poetry, fiction, nonfiction, and/or drama representing a range of historical periods and cultural traditions, and they learn to compose evidence-based interpretive arguments. Designed for students in English and Creative Writing.

**Repeatable:** N

**Formerly** 52-1701

**DEI**

English or Creative Writing Major or Minor Only (4ECW)

**Minimum Credits 3 Maximum Credits 3**

### **LITR 386A Seminar in Literary Interpretation**

This rotating topics course provides students with opportunities for advanced literary analysis in a seminar format, building on the skills in reading, interpretation, research, and argumentation addressed in prior literature courses. Students give focused attention to a selected set of authors, texts, critical perspectives, and / or debates in literary studies and write sustained interpretive arguments based on research and textual analysis. Course is repeatable as topic changes.

**Repeatable:** Y

**Formerly** LITR 386

### **LITR 386B Seminar in Literary Interpretation**

This rotating topics course provides students with opportunities for advanced literary analysis in a seminar format, building on the skills in reading, interpretation, research, and argumentation addressed in prior literature courses. Students give focused attention to a selected set of authors, texts, critical perspectives, and / or debates in literary studies and write sustained interpretive arguments based on research and textual analysis. Course is repeatable as topic changes.

**Repeatable:** Y

**Prerequisites** ENGL 112 Writing and Rhetoric II and LITR 103 Introduction to Literary Interpretation or ENGL 112H Writing and Rhetoric II: Honors and LITR 103 Introduction to Literary Interpretation or ENGL 122 International Writing and Rhetoric II and LITR 103 Introduction to Literary Interpretation or ENGL 112 Writing and Rhetoric II and LITR 105 Literature, Culture, and Power or ENGL 112H Writing and Rhetoric II: Honors and LITR 105 Literature, Culture, and Power or ENGL 122 International Writing and Rhetoric II and LITR 105 Literature, Culture, and Power

**Minimum Credits 3 Maximum Credits 3**

### **LITR 386C Seminar in Literary Interpretation**

This rotating topics course provides students with opportunities for advanced literary analysis in a seminar format, building on the skills in reading, interpretation, research, and argumentation addressed in prior literature courses. Students give focused attention to a selected set of authors, texts, critical perspectives, and / or debates in literary studies and write sustained interpretive arguments based on research and textual analysis. Course is repeatable as topic changes.

**Repeatable:** Y

**Prerequisites** ENGL 112 Writing and Rhetoric II and LITR 103 Introduction to Literary Interpretation or ENGL 112H Writing and Rhetoric II: Honors and LITR 103 Introduction to Literary Interpretation or ENGL 122 International Writing and Rhetoric II and LITR 103 Introduction to Literary Interpretation or ENGL 112 Writing and Rhetoric II and LITR 105 Literature, Culture, and Power or ENGL 112H Writing and Rhetoric II: Honors and LITR 105 Literature, Culture, and Power or ENGL 122 International Writing and Rhetoric II and LITR 105 Literature, Culture, and Power

**Minimum Credits 3 Maximum Credits 3**

## **AREAS OF STUDY**

*Complete one area of study.*

Fiction

### **CRWR 150 Fiction Workshop: Beginning**

Course is the first one in the core sequence. Students move at their own pace in developing perceptual, technical, and imaginative abilities in fiction writing. No prerequisites, though either Foundations in Creative Writing or Writing and Rhetoric I are helpful.

**Repeatable:** N

**Formerly** 59-1201

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 250 Fiction Workshop: Intermediate**

Course is the second workshop in the core curriculum for the Fiction concentration. Course continues the development of perceptual and technical abilities begun in Fiction Writing: Beginning, with a focus that may include, but is not limited to: point of view, structure, and parody of form.

**Repeatable:** *N*

**Formerly** 59-2201

**Prerequisites** CRWR 150 Fiction Workshop: Beginning

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 350 Fiction Workshop: Advanced**

Course is the third workshop in the core sequence for the Fiction concentration. Students intensively explore new fictional possibilities in the writing of short fiction and novels (students also have the option to continue to develop strong writing material from previous classes). Workshop may have an emphasis on a particular craft element of fiction and will stress rewriting and revision. Course is repeatable.

**Repeatable:** *Y*

**Formerly** 59-3201

**Prerequisites** CRWR 250 Fiction Workshop: Intermediate

**Minimum Credits 3 Maximum Credits 3**

## **Nonfiction**

### **CRWR 160 Creative Nonfiction Workshop: Beginning**

A beginning class in writing creative nonfiction, a term including many forms, constantly re-imagined, with the personal and lyrical essay at its core. You will boldly combine different elements of shape, texture, and voice to attempt to produce works of literary art, primarily in the essay, and present your work to the rest of the class in a workshop format. You will also begin reading in nonfiction.

**Repeatable:** *N*

**Formerly** 59-1700

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 260 Creative Nonfiction Workshop: Intermediate**

Intermediate class in writing creative nonfiction. This class will build on the introductory workshop, with students expected to expand the range and sophistication of their work. Students will read works of nonfiction and present their work to the rest of the class in a workshop format.

**Repeatable:** *Y*

**Formerly** 59-2700

**Prerequisites** CRWR 160 Creative Nonfiction Workshop: Beginning

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 360 Creative Nonfiction Workshop: Advanced**

An advanced class in writing creative nonfiction. This class will build on the intermediate workshop, with students expected to have attained a certain mastery in the writing of nonfiction. Students will read works of nonfiction and participate in presenting their work to the rest of the class in a workshop format.

**Repeatable:** Y

**Formerly** 59-3700

**Prerequisites** CRWR 260 Creative Nonfiction Workshop: Intermediate

**Minimum Credits 3 Maximum Credits 3**

## Poetry

### **CRWR 155 Poetry Workshop: Beginning**

Through in-class writing exercises, reading of model poems, and discussion of student work, this course encourages students to produce poetry of increasing quality.

**Repeatable:** N

**Formerly** 59-1500

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 255 Poetry Workshop: Intermediate**

Through in-class writing exercises, the reading of model poems, and discussion of student work, students are encouraged to produce poetry of greater sophistication. Familiarity with work of notable poets is strongly encouraged.

**Repeatable:** Y

**Formerly** 59-2500

**Prerequisites** CRWR 155 Poetry Workshop: Beginning

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 355 Poetry Workshop: Advanced**

Students are encouraged to write poetry of the very highest quality. Workshop format makes use of in-class writing exercises and discussions of student work. Students become familiar with a wide range of models and formal strategies.

**Repeatable:** Y

**Formerly** 59-3500

**Prerequisites** CRWR 255 Poetry Workshop: Intermediate

**Minimum Credits 3 Maximum Credits 3**

## **Literature Minor**

The minor in Literature requires 18 credit hours of Literature courses from the English and Creative Writing Department. The 18 credit hours are composed of any combination of six literature courses that meet the following two guidelines: a maximum of two courses (six to seven credit hours) from 100-level literature offerings and a minimum of one course (three credit hours) from 300- or 400-level literature offerings. Within these guidelines, the minor in Literature offers a flexible course of study that students can tailor to meet their specific needs and interests. Students from Cinema and Television Arts, for example, might choose courses such as Literature on Film, Movies and Myth: The Goddess, and Topics in Literature: Spike Lee and August

Wilson. Creative Writing students might select courses such as the English Authors, American Authors, or World Literature sequences complemented by courses on various periods in the American or British novel. Theatre students might be interested in a minor in Literature based on classes such as Introduction to Drama, Introduction to Shakespeare, Shakespeare: Tragedies, and Modern American Drama.

## PROGRAM REQUIREMENTS - 18 credits required

*Complete 18 credits from the following courses. Students must complete a maximum of six credits of 100-level courses and minimum of three credits of 300-level or above courses.*

### **LITR 101 Introduction to Literature**

Course introduces students to genres of fiction, drama, and poetry. By studying important works by writers of culturally diverse backgrounds, students gain experience in reading, analyzing, interpreting, and writing about literature. Course establishes connections between literature and other areas of arts and communications.

**Repeatable:** N

**Formerly** 52-1600

**HL**

**Prerequisites** ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

### **LITR 101H Introduction to Literature: Honors**

Course introduces students to genres of fiction, drama, and poetry. By studying important works by writers of culturally diverse backgrounds, students gain experience in reading, analyzing, interpreting, and writing about literature. Course establishes connections between literature and other areas of arts and communications. This is an Honors class. In addition to other possible pre-requisites, students need a minimum G.P.A. of 3.50 or higher to enroll.

**Repeatable:** N

**Formerly** 52-1600HN

**HL**

**Prerequisites** ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Requirements** 3.5 or Higher GPA (35GP)

**Minimum Credits 3 Maximum Credits 3**

### **LITR 103 Introduction to Literary Interpretation**

Course introduces students to key terms, concepts, and techniques of literary interpretation, with attention to questions of genre, period, and critical perspective. Students analyze selections of poetry, fiction, nonfiction, and/or drama representing a range of historical periods and cultural traditions, and they learn to compose evidence-based interpretive arguments. Designed for students in English and Creative Writing.

**Repeatable:** N

**Formerly** 52-1701

**DEI**

English or Creative Writing Major or Minor Only (4ECW)

**Minimum Credits 3 Maximum Credits 3**

**LITR 105 Literature, Culture, and Power**

This course examines how literary texts are connected to social power and privilege. Sections might focus on one or more of the following topics: race, class, gender, sexuality, religion, disability, ethnicity, language, technology, empire, diaspora, etc....

**Repeatable:** *N*

**Formerly** 52-1601

**HL DEI**

**Minimum Credits 3 Maximum Credits 3**

**LITR 110 Introduction to Poetry**

Students study poetry ranging from traditional forms and figures to contemporary experimental forms. Course may include selected significant poems from all major periods. This is primarily a literature course, not a writing workshop.

**Repeatable:** *N*

**Formerly** 52-1602

**HL**

**Prerequisites** ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

**LITR 110H Introduction to Poetry: Honors**

Students study poetry ranging from traditional forms and figures to contemporary experimental forms. Course may include selected significant poems from all major periods. This is primarily a literature course, not a writing workshop. This is an Honors class. In addition to other possible pre-requisites, students need a minimum G.P.A. of 3.50 or higher to enroll.

**Repeatable:** *N*

**Formerly** 52-1602HN

**Minimum Credits 3 Maximum Credits 3**

**LITR 222 World Literature: Since 1660**

Selected readings from world's great literature from approximately 1660 to the present are studied. Wide selection of writers may include Wordsworth, Pirandello, Sand, Beckett, Joyce, Flaubert, Camus, Kafka, and others.

**Repeatable:** *N*

**Formerly** 52-2631

**HL**

**Prerequisites** ENGL 122 International Writing and Rhetoric II or ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors

**Minimum Credits 3 Maximum Credits 3**

**LITR 225H Postcolonial Literature: Honors**

Generally understood as the literature written in countries that have gone through colonization and decolonization, postcolonial literature includes writing concerned with a wide variety of political and literary issues that include, but are by no means limited to: colonial power and anticolonial conflict, political and cultural legacies of imperialism in the newly independent postcolony, and the role of diaspora. Our class will be structured around these three broad sets of ideas, and will attempt the daunting work of balancing a global understanding of the various moves in postcolonial literature with a particularized and intense analysis of individual works. This is an Honors class. In addition to other possible pre-requisites, students need a minimum G.P.A. of 3.50 or higher to enroll.

**Repeatable:** *N*

**Formerly** 52-2760HN

**HL DEI**

**Minimum Credits 3 Maximum Credits 3**

## **LITR 260 Dramatic Literature**

Series of courses focuses on figures, periods, or movements in dramatic literature. Content includes modern American drama, which surveys twentieth-century American playwrights such as O'Neill, Odets, Heilman, Williams, Miller, Inge, and Hansberry, and experimental drama, which explores the development of experimental theater through figures such as Jarry, Beckett, Stein, Ionesco, Shepard, and Shange. Course is repeatable as topic changes.

**Repeatable:** *Y*

**Formerly** 52-2665

**HL**

**Prerequisites** ENGL 122 International Writing and Rhetoric II or ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors

**Minimum Credits 3 Maximum Credits 3**

## **LITR 260H Dramatic Literature: Honors**

This writing intensive course focuses on dramatic texts by contemporary minority playwrights. We will examine the emergence and development of ethnic American drama, looking at works by African American, Asian American, Native American, and Latino/a playwrights. We will investigate issues relating to the politics of self-representation, the ways hegemonic dominant beliefs discursively construct the Other, and the intersections between race, gender, and sexuality. We will attempt to answer some of the following questions: What is at stake in the representation of people of color and queer people on the American stage

How do issues of racial conflict and sexual politics inform the seemingly neutral domestic space of families and personal relations? What are the linkages between race and class in contemporary society, as depicted by these playwrights? By the end of this course, students will be able to think critically about issues of race, gender and sexuality in American drama, be conversant with theoretical issues of craft and practice in theater studies, and be able to speak and write in a sophisticated, articulate manner about literature in general, and contemporary ethnic American drama in particular. This is an Honors class. In addition to other possible pre-requisites, students need a minimum G.P.A. of 3.50 or higher to enroll.

**Repeatable:** Y

**Formerly** 52-2665HN

**HL**

**Requirements** 3.5 or Higher GPA (35GP)

### **LITR 268 Literature on Film**

Class concerns the relationship between written and filmed versions of a story, novel, or play. Course explores how character development, plot, narrative, symbols, and language are translated from text to film. To facilitate analysis, students acquire a basic vocabulary for discussing literature and film. Instructors may focus on a particular theme, such as the love story, fantasy, or mythology. Works studied have been as diverse as *The Color Purple* by Alice Walker, Shakespeare's *Hamlet*, and *2001: A Space Odyssey* by Arthur C. Clarke.

**Repeatable:** N

### **LITR 285 Graphic Narrative: Words, Image, Culture**

This course explores past and present comics, graphic novel perspectives and the influences of visual culture upon the ways in which human interactions are represented through the convergence of text and images. With an emphasis on the creative and critical processes and products of those who have mastered hybrid image/text forms, students will critically read, discuss and write about significant literary and graphic image contributions to the field. Participants will also investigate their own lived experience with comics, graphic novels and Visual Culture. Students will learn to see beyond the received definitions and applications of comics and graphic novels to discover new cultural, aesthetic, historical, economic, etc. connections with graphic narrative forms. We will examine the works of: Art Spiegelman, Gotthold Ephraim Lessing, Scott McCloud, Will Eisner, Chris Ware, Alison Bechdel, Marijane Satrapi, Mike Mignola, Alan Moore and David Gibbons, Jeremy Lowe, Aaron McGruder, Guy DeLisele, and many others.

**Minimum Credits 3 Maximum Credits 3**

### **LITR 344 Slave Narrative as Documentary**

Course examines literary and cinematic traditions in which slave narratives and African-American documentary film share rhetorical, artistic and political purposes. Course demonstrates how slave narratives and documentary film functioned at the forefronts of the 20th century socio-cultural activism for the redress of inequalities. Through written text and cinema-graphic arguments, the course explores how slave narratives served as analogs to American literary conventions and how documentary films continue to inform popular and critical literary texts and images. This course is a critical research course that informs and supports the goals and objectives of Writing & Rhetoric I and II foundational courses within the English Department.

**Repeatable:** N

**Formerly** 52-3645

**Minimum Credits 3 Maximum Credits 3**

### **LITR 386C Seminar in Literary Interpretation**

This rotating topics course provides students with opportunities for advanced literary analysis in a seminar format, building on the skills in reading, interpretation, research, and argumentation addressed in prior literature courses. Students give focused attention to a selected set of authors, texts, critical perspectives, and / or debates in literary studies and write sustained interpretive arguments based on research and textual analysis. Course is repeatable as topic changes.

**Repeatable:** Y

**Prerequisites** ENGL 112 Writing and Rhetoric II and LITR 103 Introduction to Literary Interpretation or ENGL 112H Writing and Rhetoric II: Honors and LITR 103 Introduction to Literary Interpretation or ENGL 122 International Writing and Rhetoric II and LITR 103 Introduction to Literary Interpretation or ENGL 112 Writing and Rhetoric II and LITR 105 Literature, Culture, and Power or ENGL 112H Writing and Rhetoric II: Honors and LITR 105 Literature, Culture, and Power or ENGL 122 International Writing and Rhetoric II and LITR 105 Literature, Culture, and Power

**Minimum Credits 3 Maximum Credits 3**

### **LITR 388 Critical Editions in Literature**

Students collaboratively develop a critical edition of one or more literary texts. Like editors of similar editions from mainstream publishers, students will annotate the text and compose supporting material such as an introduction, critical interpretations, essays addressing biographical, cultural, historical, rhetorical and artistic contexts for the work, and bibliographic material for further research. Students use basic design principles to organize their work into coherent projects. Course texts change from section to section.

**Repeatable:** N

**HL**

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **LITR 496 Independent Project: Literature**

An independent project is designed by the student, with approval of supervising faculty member, to study an area not available in the curriculum. Prior to registration, student must submit written proposal that outlines the project.

**Repeatable:** Y

**Formerly** 52-3798

**Requirements** Permission Required (DP)

**Minimum Credits 1 Maximum Credits 6**

## **Professional Writing Minor**

The Professional Writing Minor is designed for students across the disciplines who would choose to engage in focused study and practice in applied writing for creative professionals. Courses in the minor explore the rhetorical, ethical, and cultural dimensions of all communicative acts and provide opportunities to learn, research, create, and distribute content for print and digital networked writing environments. The curriculum is designed to accommodate changes in approaches to professional and digital writing and changes in technology in the coming years. Professional Writing students will have the opportunity to gain practical skills in writing for the workplace, experience in writing effectively for and about the arts and media, and advanced abilities in research, editing, writing, and content design while exploring the deep relationship between communicative and creative arts writing practices. This minor is intended to help students prepare for the steadily increasing numbers of specialized professional writing positions in creative industries, government agencies, and nonprofit organizations.

### **PROGRAM REQUIREMENTS - 18 credits required**

#### **ENGL 241 Writing for the Creative Workplace**

Students are introduced to the study of writing for creative professionals from a rhetorical perspective, gaining a broad sense of issues, topics, genres, and practices that mark the field of professional and technical writing in creative industries. Students also explore professional writing as socially situated art and practice and gain practical hands-on experience through a variety of professional writing projects.

**Repeatable:** N

**Formerly** 52-2801

**Prerequisites** ENGL 122 International Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II:

Honors or ENGL 112 Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

#### **ENGL 344 Writing, Language, and Culture Seminar**

Students study issues surrounding language, writing, and representation, and produce substantial, complex writing and research projects as they work to build skills in research, prose style, editing, and design. Topics include a rotating series of rhetorical and cultural analyses of consumer, popular culture, networked, and organizational settings. Overall, the course heightens student awareness of the power of writing and representation to shape the way we produce and are produced by the world around us.

**Repeatable:** Y

**Formerly** 52-3804

**EN**

**Prerequisites** ENGL 122 International Writing and Rhetoric II or ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors

**Minimum Credits 3 Maximum Credits 3**

*Choose two of the following courses:*

## **ENGL 242 Writing Digital Content**

Students engage in evaluation, analysis, and preparation of content for the web using a combination of web standard markup and content management/delivery systems. The course covers principles of rhetoric, design, practices of web accessibility, develops basic ability to write in plain text files with web standard markup (HTML and CSS), and offers students practical experience in evaluating, creating, editing, curating, and delivering content for the web.

**Repeatable:** N

**Formerly** 52-2802

**EN**

**Prerequisites** ENGL 122 International Writing and Rhetoric II or ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors

**Minimum Credits 3 Maximum Credits 3**

## **ENGL 245 Technical Writing for Creative People**

This is an introductory course in technical writing for students in the arts and media. Students will understand and produce primary genres of technical writing including instructions, technical descriptions and recommendation reports. We will also study the workplace contexts in which these genres function, with a special focus on the role of technical writing in the arts and media. This awareness of the rhetorical context of technical writing will ultimately become a powerful basis for students to make informed choices about the texts they produce.

**Repeatable:** N

**Formerly** 52-2805

**EN**

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 122 International Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors

**Minimum Credits 3 Maximum Credits 3**

## **ENGL 246 Reviewing the Arts**

Students write confident and well-researched reviews of visual, performing, and media arts, reviews that can broaden the role of the arts in our daily lives. Students generate content for their reviews by visiting cultural and artistic institutions, attending performances, and / or viewing recordings. They examine selected expert reviews and theoretical perspectives; and they compose and revise their work through a combination of weekly in-class workshops, discussion, and take-home assignments.

**Repeatable:** N

**Formerly** 52-2816

**HU**

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL

122 International Writing and Rhetoric II  
**Minimum Credits 3 Maximum Credits 3**

### **ENGL 246H Reviewing the Arts: Honors**

Students write confident and well-researched reviews of visual, performing, and media arts, reviews that can broaden the role of the arts in our daily lives. Students generate content for their reviews by visiting cultural and artistic institutions, attending performances, and / or viewing recordings. They examine selected expert reviews and theoretical perspectives; and they compose and revise their work through a combination of weekly in-class workshops, discussion, and take-home assignments. This is an Honors class. In addition to other possible pre-requisites, students need a minimum G.P.A. of 3.50 or higher to enroll.

**Repeatable:** N

**Formerly** 52-2816HN

**HU**

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Requirements** 3.5 or Higher GPA (35GP)

**Minimum Credits 3 Maximum Credits 3**

*Choose two of the following courses:*

### **ENGL 341 Rhetoric of Digital Media**

Students explore rhetorical theories and practices that shape digital networked interaction and literacies. In this course students interact with, analyze, and research technologies and literacies that have transformed communication practices and then turn their attention to producing digital artifacts and materials. Issues covered may include the relationship between print and digital culture, creative content licensing, content strategy and curation, perspectives on authorship, the social and cultural dimensions of technology, and professional models of writing associated with digital media. Each section takes a unique approach to the hands-on exploration of exploring, consuming, creating, and even hacking digital networked spaces and cultures.

**Repeatable:** N

**Formerly** 52-3801

**EN**

**Prerequisites** ENGL 122 International Writing and Rhetoric II or ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors

**Minimum Credits 3 Maximum Credits 3**

### **ENGL 346 Cultural Criticism and the Arts**

Students hone fundamental skills for research and writing necessary for insightful, interdisciplinary critical readings of trends or topics in media culture. They will also come to understand how works of art of many kinds can be critiqued to make larger points about society and culture, and how different media can be used to present these kinds of critical pieces. Successful students produce writing of publishable quality and explore options for the distribution and circulation of their work online and in print. The course is designed to increase students' skills as writers, readers, and consumers of culture; as assertive and perceptive critics; and as careful editors and designers of complex writing projects.

**Repeatable:** N

**Formerly** 52-3816

**EN**

**Prerequisites** ENGL 122 International Writing and Rhetoric II or ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors

**Minimum Credits 3 Maximum Credits 3**

## **First-Semester Experience**

## **Humanities, History and Social Sciences**

### **Bachelor of Arts**

### **Cultural Studies, BA**

The Cultural Studies (CS) major is an interdisciplinary approach to the analysis of contemporary culture and its relation to society that prepares students to transform creative enterprises and industries with a commitment to equity, social justice, and a more humane, democratic society. CS helps students to think

critically about cultural politics more generally, looking at the way identities and subjectivity are developed, reinforced, embodied, and performed by becoming adept at examining how race and ethnicity, gender and sexuality, social and economic class, and nationality inform the power structures that undergird culture. While the CS major provides an important center for the critical study of culture and society in the humanities and social sciences across the curriculum, the Cultural Studies minor is an excellent supplement to those studying production and performance. Serving students who seek the superior thinking and communications skills afforded by the liberal arts, the CS major prepares students for career opportunities in arts administration, non-profit management, teaching, community and social service management, public relations, and social media communications positions, as well as preparing students for graduate school or law school.

As a result of successfully completing program requirements, students should be able to:

- understand and use conceptual vocabularies and methods central to the analysis of the intersection of culture with other social and material practices;
- analyze the complex interconnections among discourses, representations, social structures, relations of power, and the performance of subjectivities in multiple contexts;
- apply a range of theories and methodologies to texts, performances, discourses, practices, and institutions, including media, popular culture, art, creative industries, everyday life, and politics;
- identify and evaluate the social and political implications of their own interpretive and creative practices; and
- produce knowledge of social and political significance, using appropriate methods and scholarly sources, that intervenes in the arenas of media, popular culture, and everyday life.

## PROGRAM REQUIREMENTS - 36 credits required

### **CULS 201 Cultural Theories**

This course maps the major concepts, paradigms and methodologies underlying Cultural Studies theory and practice. Assignments draw upon a diverse range of scholars whose work engages with Marxism, Media Studies, Feminism, Psychoanalysis, Anthropology, Sociology, Post-Colonial Theory, and the interdisciplinary field of Cultural Studies itself. We will make use of examples from art, mass media, literature, and architecture to critically examine themes of production and consumption, power and resistance, technologies and bodies, identity and representation, space, place, and globalization.

**Repeatable:** *N*

**Formerly** 46-2100

**Minimum Credits 3 Maximum Credits 3**

### **CULS 410 Senior Seminar**

The Senior Seminar is a synthesis of the theory and research skills students have acquired throughout their academic careers. Taught by a rotation of faculty associated with the cultural studies program, the Senior Seminar helps students cement their research and writing skills in relation to a current project, research interest, or emergent cultural object. In the first half of the course, students will reflect on their theoretical toolkit and in terms of social/cultural/political issues or problems presented by the faculty member. In the second half of the course, students develop and compose their own project, utilizing peer review and consultations with the instructing professor. Students are then able to present their final product at a forum during Manifest.

**Repeatable:** *N*

**Requirements** Junior Standing or Above (JR) Cultural Studies Majors Only (M460)

**Minimum Credits 3 Maximum Credits 3**

## **THEA 280 Theories of Performance Studies**

What is performance? What does performance do? Why is performance classified as a central element of political, social and cultural life? What are the distinctions between performance as event, theory, and method? In answering these questions, this course introduces students to performance studies, an interdisciplinary field that investigates a wide range of repeatable, embodied, and symbolic actions. Specifically, this course offers a critical survey of the genealogies as well as foundational theories and theorists of performance studies including Zora Neale Hurston, Richard Schechner, Dwight Conquergood, Ervin Goffman, Victor Turner, Judith Butler, E. Patrick Johnson, and D. Soyini Madison. Students will examine a broad range of performances both on and off the stage from rituals and storytelling to live and recorded performances, and from political speeches and protests to human interaction and individual acts of identity expression. Additionally, we will apply analytical frameworks of performance theory to sites and happenings including theatre, religious events, social media, community gatherings, and sporting events as well as examine people's habitual patterns and behaviors of everyday life as performance.

**Repeatable:** N

**Prerequisites** CULS 101 Introduction to Cultural Studies or CULS 101H Introduction to Cultural Studies: Honors or THEA 106 Theatre Survey I: Global Drama and THEA 111 Theatre Foundation I: Theatre Making

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

## **CULS 101 Introduction to Cultural Studies**

This course introduces students to the terms, analytical techniques, and interpretive strategies commonly employed in cultural studies. Emphasis is on interdisciplinary approaches to exploring how cultural processes and artifacts are produced, shaped, distributed, consumed, and responded to in diverse ways. Through discussion, research, and writing, class members investigate these varied dimensions of culture; learn to understand them in their broader social, aesthetic, ethical, and political contexts; and thereby prepare for more advanced coursework in Cultural Studies.

**Repeatable:** N

**Formerly** 46-1100

**HU DEI**

**Minimum Credits 3 Maximum Credits 3**

## **CULS 101H Introduction to Cultural Studies: Honors**

This course introduces students to the terms, analytical techniques, and interpretive strategies commonly employed in cultural studies. Emphasis is on critical approaches to exploring how cultural processes and artifacts are produced, shaped, distributed, consumed, and responded to in diverse ways. Through discussion, research, and writing, class members investigate these varied dimensions of culture; learn to understand them in their broader social, aesthetic, ethical, political, and economic contexts; and thereby prepare for more advanced coursework in cultural studies. This is an Honors class. In addition to other possible pre-requisites, students need a minimum G.P.A. of 3.50 or higher to enroll.

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

### **MEDI 201 Culture, Race and Media**

This immersive course enables students to view, analyze, interpret and evaluate current media to identify the consequences of their pervasive influence. Interactive, facilitated discussions and exercises, stimulating readings, web-based assignments and analysis of media examples in myriad genres of cinema, television, games, photography, print, audio, advertisements, performance and others, offer students new insights into both media and their lives. Utilizing regularly posted progress reports, students reflect on their ideologies while investigating race, ethnicity, gender, social class, age, religion, ability, sexual and other identities to recognize their cultural and ethical responsibilities as media makers and influencers.

**Repeatable:** N

**Formerly** 40-2803

**HU DEI PL**

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **MEDI 201H Culture, Race and Media: Honors**

Course enables students to analyze subtle and subliminal messages about culture, race, ethnicity, gender, religion, class, and ability as presented to us through the media. The media--television, film, and print--has a pervasive influence upon how we view the world. Through open discussions of differences, research, and stimulating readings, we will learn who we are and why we view things the way we do. Expected outcomes include new insights into media influence and our responsibility as media makers, a research project, and self-examination of personal cultural and racial identity.

This is an Honors class. In addition to other possible pre-requisites, students need a minimum G.P.A. of 3.50 or higher to enroll.

**Repeatable:** N

**Formerly** 40-2803HN

**HU DEI**

**Requirements** Sophomore Standing or Above (SO) and 3.5 or Higher GPA (35GP)

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

### **ARTH 315 Art Theory Seminar**

This seminar is a reading and writing intensive course in which students discuss major concepts and methods of art theory from modernist formalism to contemporary issues of race, gender, globalism, and feminism. Other topics addressed may include: semiotics, structuralism, Deconstruction, medium, object, social practice, identity politics, relational aesthetics.

**Repeatable:** N

**Formerly** 22-3110

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **CINE 340 Cinema and Media Theory**

Using primary texts, the course examines and interrogates the significant debates and concepts in cinema and media theory. Among other issues, the course focuses on the ontology of the moving image, narratology, ideological and psychological theories spectatorship and audiences, and aesthetic differences between analog and digital. Students will read original texts and write papers in response to screenings where they apply various theories and readings.

**Repeatable:** *N*

**Formerly** 24-3500

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

## **CULS 310 Theories of Media, Society, & Culture**

This course will explore the major theories of mass communication, society and culture that have led up to and departed from Cultural Studies. We will examine a variety of theories from communication and media studies that help us to better understand the role media play in society and culture and different ideas about that role. Theories studied will include early propaganda and administrative research, McLuhan and media ecology, as well as Critical Theory, Apparatus theory, political economy, and Cultural Studies.

**Repeatable:** *N*

**Formerly** 46-3535

**Prerequisites** CULS 201 Cultural Theories

**Minimum Credits** 3 **Maximum Credits** 3

## **CULS 311 Theorizing Power**

This seminar explores central questions and problems in contemporary cultural and political theory related to how we theorize power in two dominant forms, including its meanings, its mechanisms, and its ideology. We will contrast the dominant liberal image of power with other understandings of power derived from Foucault: discursive, disciplinary, and biopolitical. We will examine major texts and concepts from Foucault, Butler, Locke, Mill, and others.

**Repeatable:** *N*

**Formerly** 46-3540

**Prerequisites** CULS 201 Cultural Theories

**Minimum Credits** 3 **Maximum Credits** 3

## **CULS 312 Queer Theory**

This course engages concepts of Queer Theory and the central architects of this relatively new field. The course is divided into three sections: Theory, Cultural Manifestations, and Praxis. In section 1: Theory, students become familiar with key concepts through both core texts and critical interpretations. Section 2: Cultural Manifestations, focuses on cultural expressions of theory, e.g. art, film, and literature. In section 3: Praxis, students demonstrate contemporary applications either through their own work or through the work of others.

**Repeatable:** *N*

**Formerly** 46-3530

**HU**

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **CULS 314 Marx and Marxisms: A Seminar on Marxist Cultural Theory**

This seminar will address key questions and problems in contemporary Marxist cultural theory. We will engage several major texts in the Marxist tradition, including those of Marx, Gramsci, Althusser, Adorno, and Jameson, among others. As a cultural studies seminar, this course will pay particular attention to questions of culture, art, ideology, and the subject, and how these questions have featured in debates within the Marxist tradition. We will also examine the historical and intellectual contexts in which these and other Marxist theories and accounts have emerged and developed.

**Repeatable:** *N*

**Formerly** 46-3520

**Prerequisites** CULS 201 Cultural Theories

**Minimum Credits 3 Maximum Credits 3**

### **CULS 315 Post-Colonial Studies**

An integral part of cultural studies, post-colonial studies deals with the complex implications of colonization and colonialism in societies and cultures. This seminar is an inquiry into concepts such as national culture, citizenship, othering, identity and alterity, cultural imperialism, hybridity, and origins, as well as issues of cultural resistance, negotiation, and agency, using examples from all over the world.

**Repeatable:** *N*

**Formerly** 46-3510

**GA**

**Prerequisites** CULS 201 Cultural Theories

**Minimum Credits 3 Maximum Credits 3**

### **CULS 316 Semiotics and Cultural Change**

The course explores the implications of systemic and structural theories of culture for issues of cultural change, both revolutionary and evolutionary, by considering particular case studies. Using dyadic and triadic methodologies for the study of signs, we examine case studies to interrogate political, social, and pragmatic outcomes of meta-analytic propositions. Fieldwork experiences engage students in contradictions, coherences, coincidences and confrontations between theory and praxis.

**Repeatable:** *N*

**Formerly** 46-3502

**Prerequisites** CULS 201 Cultural Theories

**Minimum Credits 3 Maximum Credits 3**

### **CULS 317 Making and Unmaking Whiteness**

This advanced seminar examines the cultural and political-economic construction of white identities in the United States and analyzes how white identities are reproduced, maintained, and challenged. How has whiteness been defined in relation to notions of color, race, class, gender, sexuality, ethnicity, nation, language, and non-white perspectives? In this course, diverse student experiences come into contact with the work of historians and critical race theorists. The course will also examine counter-hegemonic white identities and the possibilities of 'unmaking' whiteness.

**Repeatable:** N

**Formerly** 46-3215

## **ARTH 230 Craft Culture and History**

In this course, the history of creative making is broadly explored from the point of view of Craft as Cultural Expression, Chicago histories in Craft, Transmaterial Craft, Contemporary Making, and Microindustry. The course is committed to a study of non-dominant narratives in Craft, including, among others, Black, Indigenous, and feminist contributions to the field. Students will have the opportunity to contextualize regional foci with international movements in a project of their own direction guided by course discussions and site visits. Studio visits to regional makers may also take place.

**Repeatable:** *N*

**HU**

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **ARTH 234 Queer Visual Culture**

This course surveys visual culture in the US through the lens of Queer Theory, exploring issues of sexuality, gender, race, class, and ability that historically and currently inform representations of Queerness in the public sphere. Students will examine germinal writings from cultural theorists to understand the historical framework of Queer visual culture. Students will explore concepts around subjectivity, referencing the dynamics between the ways we see ourselves and others.

**Repeatable:** *N*

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **ARTH 236 Black Art and Visual Culture**

This course surveys global art and visual culture, analyzing issues of class, gender and sexuality that historically and currently inform competing notions of blackness within the public sphere. Students examine germinal writings from various cultural theorists, artists and critics within the movements and historical framework of the art world- at-large. The art, representation and production of diaspora creative practices are reviewed within the construct of race and identity.

**Repeatable:** *N*

**Formerly** 22-2135

**HU DEI PL**

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **ARTH 315 Art Theory Seminar**

This seminar is a reading and writing intensive course in which students discuss major concepts and methods of art theory from modernist formalism to contemporary issues of race, gender, globalism, and feminism. Other topics addressed may include: semiotics, structuralism, Deconstruction, medium, object, social practice, identity politics, relational aesthetics.

**Repeatable:** *N*

**Formerly** 22-3110

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **ARTH 346 Gender, The Body, and Representation**

This course offers a history of the representation of the human body with a focus on traditions of figuration that have shaped and disrupted understandings of the body and gender. The historical relationship between the human body and the social body has formal and ideological implications still felt in the 21st century. In this course, students will study and question the effects of the canonical body on contemporary concepts of gender, beauty, desire, perfection, and athleticism. The perspective of the course will be global, transcultural, and will consider the body in art, performance, and as a vehicle for aesthetic, spiritual, political, and economic meanings.

**Repeatable:** *N*

**HU DEI**

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **ARTH 347 Portraiture + Self + Society**

This upper division art history course explores the recent resurgence in practice and performance of portraiture. From venerated oil paintings to family snapshots to social media profiles, this course investigates the practice, performance, and social function of the portrait. Students query the role that portraits play in the formation of individual and collective identities from the late 19th to 21st centuries. Considering the histories of representation, we critically examine the ways in which the social constructs of race, gender, class, and orientation determine how we look at others and ourselves.

**Repeatable:** *N*

**Formerly** 22-2180

**HU DEI PL**

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **CINE 148 Introduction to Documentary**

Students will examine in-depth the methods by which non-fiction filmmakers develop, produce and distribute documentary films. Through a series of screenings, lectures, critiques and class discussions, a variety of long- and short-form documentary projects will be analyzed by students in relationship to: story, research, producing, directing, cinematography, editing, sound design, history, aesthetics, ethics and distribution. The class will link with material from each concentration area in Cinema and Television Arts - but through the prism of non-fiction filmmaking.

**Repeatable:** *N*

**Formerly** 24-1801

**Prerequisites** MEDI 101 Cinematic Storytelling or ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

## **CINE 234 Cinema Analysis and Criticism**

Course is a writing-and-research-intensive introduction to cinema studies. Students are taught how to write about cinema and media using different approaches including: formal analysis, ideological analysis, and historical research. In order to focus more on writing and course content, screenings will be limited. The screenings may change at the discretion of the instructor but the nature and number of the assignments will

remain the same for each offering of the course.

**Repeatable:** *N*

**Formerly** 24-2500

**Minimum Credits 3 Maximum Credits 3**

### **CINE 340 Cinema and Media Theory**

Using primary texts, the course examines and interrogates the significant debates and concepts in cinema and media theory. Among other issues, the course focuses on the ontology of the moving image, narratology, ideological and psychological theories spectatorship and audiences, and aesthetic differences between analog and digital. Students will read original texts and write papers in response to screenings where they apply various theories and readings.

**Repeatable:** *N*

**Formerly** 24-3500

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **COMM 210 Visual Communication**

A theoretical and a hands-on course that immerses students in all aspects of visual communications, including typography, photography, illustration, informational graphics, design, and layout. Students will create visual projects according to their related fields.

**Repeatable:** *N*

**Formerly** 53-2220

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **COMM 222 Communication Ethics**

In this course, students will examine the professional and ethical standards and legal issues for creators of social media, advertising, public relations and media relations who represent companies, brands, media, nonprofits, organizations, causes and education.

**Repeatable:** *N*

**Formerly** 54-2206

**Prerequisites** ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

### **COMM 325 Data Storytelling & Visual Strategies**

This class combines theory and practice on strategies of communicating data through digital graphics and various media platforms. It focuses on visual and media literacy, research, narrative storytelling, and media design. Students will gain experience in translating data into public visual stories by designing various digital media infographics and collaborating on a transmedia storytelling project, including images, explanatory charts, maps, animation, and/or diagrams.

**Repeatable:** *N*

**Formerly** 53-3230

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

## **COMM 326 Semiotics for Creators of Popular Culture**

Writing-intensive course explores the study and use of semiotics (or symbolic meaning) in the development of advertising and other creative works that contribute to the content of popular culture. Interdisciplinary in scope, the course explores how advertising uses symbolic language from diverse disciplines such as literature, cinema, television, performing arts, architecture, fashion, and other fields that shape the overall popular culture.

**Repeatable:** Y

**Formerly** 54-3670

**SS**

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

## **COMM 326H Semiotics for Creators of Popular Culture: Honors**

Writing-intensive course explores the study and use of semiotics (or symbolic meaning) in the development of advertising and other creative works that contribute to the content of popular culture. Interdisciplinary in scope, the course explores how advertising uses symbolic language from diverse disciplines such as literature, cinema, television, performing arts, architecture, fashion, and other fields that shape the overall popular culture. This is an Honors class. In addition to other possible pre-requisites, students need a minimum G.P.A. of 3.50 or higher to enroll.

**Repeatable:** Y

**Formerly** 54-3670HN

**SS**

**Requirements** 3.5 or Higher GPA (35GP)

**Minimum Credits** 3 **Maximum Credits** 3

## **COMM 420 Media Ecosystems**

In this capstone project, students work in teams to analyze the civic impact and the reciprocal relationships between a media outlet and a local community. By applying media theories of public sphere, media ecology, and audience studies, the group conducts a social power analysis to explore the information flow, power relationships, and impact of all participants in the media ecosystem. Each team will deliver a professional media kit to their industry partner.

## **DANC 135 Hip-Hop for Non-Majors**

This course is an introduction to Hip-Hop technique, culture and history. Through this course, students learn about and embody the aesthetics, history and sociocultural context of Hip-Hop. The primary work of this course is embodied practice. Students learn foundational techniques and embodied concepts associated

with Hip-Hop and related street dance styles including: breaking, locking, popping & house. The physical training is supplemented with activities such as readings, videos, discussions, lectures & writing assignments. Students also engage in Hip-Hop-centered cultural events to deepen their learning.

**Repeatable:** Y

**Formerly** 33-1230

**Minimum Credits 3 Maximum Credits 3**

### **DANC 180 Introduction to Dance Studies**

This course orients students to the field of dance as an academic discipline, profession and art form. To this end, this course arms students with information and processes of inquiry so as to facilitate their own decision making as they proceed in the department. Topics to be covered include: an introduction to dance as an art form, dance history, dance as a product of culture, and the relationship of dance technique to the overall field. Class sessions may be augmented by guest lectures led by a number of different Dance Department faculty, staff, students and alumni in an effort to bring new students fully into our learning community.

**Repeatable:** N

**Formerly** 33-1351

**HU DEI**

**Minimum Credits 3 Maximum Credits 3**

### **DANC 330 Postcolonial Approaches to Dance Studies**

This course explores dance and movement practices through a post-colonial lens. This course introduces methodologies for writing about the socio-political meanings that bodies carry as they move through time and space. Topics include: dance as cultural identity, dance as a social form of expression, dance as sacred practice, and dance as political power. Through readings, writing, lectures, discussion and extensive viewing of filmed and live performance, students come to understand dance as a rich human activity with many different manifestations and applications.

**Repeatable:** N

**Formerly** 33-3342

**HU DEI**

**Prerequisites** DANC 180 Introduction to Dance Studies and ENGL 122 International Writing and Rhetoric II or DANC 180 Introduction to Dance Studies and ENGL 112 Writing and Rhetoric II or DANC 180 Introduction to Dance Studies and ENGL 112H Writing and Rhetoric II: Honors

**Minimum Credits 3 Maximum Credits 3**

### **DANC 335 Historical Approaches to Western Concert Dance**

Historical Approaches to Western Concert Dance explores the artistic developments in the field of Western concert dance from the 17th century to the 21st century. The course focuses on the socio-political contexts that birthed ballet and modern dance and traces how the aesthetic values of western dance forms over time morph and shift for the concert stage. Through readings, writing, lectures, discussions and extensive viewing of video and live performance, students come to understand the rich lineage of these dance forms.

**Repeatable:** N

**Formerly** 33-3343

**Prerequisites** DANC 330 Postcolonial Approaches to Dance Studies

**Minimum Credits 3 Maximum Credits 3**

## **EDUC 230 Culture in Young Children's Literature**

This course offers students the opportunity to learn how children's literature, as text and art, has been used to teach youth throughout history; how it has been appropriated by societies; and how children's authors and illustrators have become authors of the culture of their times. The course embodies elements of traditional literary analysis where students will study historical trends, literary and artistic devices, cultural ideologies, and elements of text quality present in multicultural children's literature for audiences aged birth through nine years.

**Minimum Credits** 3 **Maximum Credits** 3

## **FASH 183 Why We Wear: The Sociology of Dress**

This course asks the fundamental question, "Why do we wear what we wear?" Class sessions are structured around meaningful examples, such as the hoodie and the hijab; contemporary case studies, from the ballroom scene to punk; as well as field trips, film screenings and panel discussions that help students to make sense of the social, political and cultural dynamics of fashion.

**Repeatable:** *N*

**Formerly** 27-1930

**DEI**

**Minimum Credits** 3 **Maximum Credits** 3

## **FASH 275 Contemporary Fashion**

In this course students study the modes of dress in society from Dior's New Look of 1947 to the present. Curriculum covers historic events, social movements, the arts, celebrities, trends, and popular culture, and their relationship to fashion. Emphasis is on contemporary dress, why it is worn, what it reflects from the past, and what it might signal for the future.

**Repeatable:** *N*

**Formerly** 27-2176

**Minimum Credits 3 Maximum Credits 3**

## **HIST 256 Hispanics in the U.S. Since 1800**

Course tracks the growing importance of Hispanics in all aspects of American life. Their economic impact has become a topic of controversy. The development of a Latino ethnic consciousness has come into conflict with efforts to assimilate this minority group, thus raising the question of what an American really is. Instruction also addresses the controversial topic of their impact on the U.S. economy. These issues cannot be fully understood without an examination of where Hispanics have come from, their hopes, ways they are trying to achieve their dreams, and their continuing obstacles.

**Repeatable:** *N*

**HI DEI PL**

**Minimum Credits 3 Maximum Credits 3**

### **HIST 266 Cartoons and Satire in American History**

A study of the American past through the humor and satire of the political cartoon. Humor is a political tool. Making fun of one's opponents is a way of weakening their position. We make fun of that which we oppose, but also of that which we fear. Cartoons illuminate all aspects of the American past: from political battles in Congress to battles on the streets; from gender clashes at home to racial clashes in the workforce.

**Repeatable:** *N*

**Formerly** 49-2675

## **HUMA 122 Latin American Women in the Arts**

This course is designed to study the contributions which Latin American women have made (and continue to make) through literary and visual arts. We will examine issues of cultural identity, feminism, and representation through various genres including drama, essays, film, literature, mythology, photography, poetry, and theology.

**Repeatable:** *N*

**Formerly** 51-1113

**HU DEI GA**

**Minimum Credits 3 Maximum Credits 3**

## **HUMA 122H Latin American Women in the Arts: Honors**

This course is designed to study the artistic contributions that Latin American women have made (and continue to make) through literary, visual and performing arts. From Mexican nuns in the 17th century to

Colombian punk rockers in the 1990s and Argentine digital filmmakers in the 2000s, the course will examine theoretical issues of subjectivity and cultural identity; feminist positionings and political agency; and the complex representations of femininity/masculinity, motherhood and patriarchy. This is an Honors class. In addition to other possible pre-requisites, students need a minimum G.P.A. of 3.50 or higher to enroll.

**Repeatable:** *N*

**Formerly** 51-1113HN

**HU DEI GA**

**Requirements** 3.5 or Higher GPA (35GP)

**Minimum Credits 3 Maximum Credits 3**

## **HUMA 211 Black Arts Movement**

The 1960s was a period when many revolutionary Black Americans, artists, dramatists, writers, critics and philosophers engaged in intense debates over the role of the artist in the making of a cultural revolution, and over what constitutes a genuine or true black aesthetic. The Black Arts Movement explicitly targeted a number of long-standing assumptions of literary critics and historians; in particular, the role of the text, the timelessness of art, the responsibility of artists to their communities, and the significance of oral forms in cultural struggles.

**Repeatable:** *N*

**Formerly** 51-2104

**HU PL**

**Minimum Credits 3 Maximum Credits 3**

## **HUMA 215 Transnational and Global Feminisms**

This course will explore the meaning of feminism when considered from diverse cultural, political and economic perspectives and circumstances, and how feminism takes on new forms of resistance in global contexts. Students will analyze those cultural, economic, and political conditions that promote, inhibit, and incite activism on behalf of women's rights.

**Repeatable:** *N*

**Formerly** 51-2222

## **HUMA 221 Introduction to Digital Humanities**

This course will explore the emergence of the digital humanities as both a disciplinary field of study and a reaction to changes in our culture more broadly. Students will be introduced to the theories, methods, and practices of reading, analysis, writing, and exhibition that comprise the digital humanities. Using tools for distant reading, geotemporal visualization, and data mining, they will develop new ways to conceptualize and communicate the rich landscape of our human cultural existence.

**Repeatable:** *N*

**Formerly** 51-2224

**HU**

**Minimum Credits 3 Maximum Credits 3**

## **HUMA 222 Nature and Environmentalism in U.S. Culture**

This course explores the relationship between humans and the non-human natural world, emphasizing popular conceptions of nature in American culture and the way in which the very notion of nature itself is a profoundly human conception. We can never really know the natural world "out there." Rather the natural world that we seek to understand, even conserve and protect, can only ever be understood through the lens of our social and cultural imagination. What are the socio-cultural manifestations of nature, and how do these manifestations affect the uses and/or abuses of nature in American society?

**Repeatable:** *N*

**Formerly** 51-2225

**HU**

### **HUMA 227 The Chinese City in Literature, Art, and Media**

This course uses an interdisciplinary humanities approach to Chinese cities from ancient to contemporary times depicted in various literary texts, visual arts, films and other popular media. The course serves both as an exploration of the Chinese city within historical contexts and as an examination of forms of representation. We will discuss themes such as national identity, the garden and intellectual identity, the intersection between China and the foreign, and human responses to the city in perpetual transition to modernity.

**Repeatable:** *N*  
**Formerly** 51-2602  
**HU DEI GA**  
**Minimum Credits 3 Maximum Credits 3**

### **HUMA 230 Feminism and Film**

Feminist film critic Laura Mulvey argues in her oft-cited essay "Visual Pleasure and Narrative Cinema," that Hollywood film reflects the patriarchal social unconscious, and this can be exemplified in the way women are frequently represented in film as the object of the male gaze. Other scholars, such as Jane Gaines, have written about the way that people of color are often constructed as the object of the white gaze in mainstream cinema. Often times, women and people of color are rendered altogether invisible within the production of film and media, translating into problematic on-screen representations. This course introduces students to feminist film and media studies, engaging major questions that have shaped the vigorous fields of gender and sexuality studies, feminist film theory and feminist media history while considering the works of women filmmakers. Through a feminist lens, students will gain hands-on experience applying theory and history to film analysis.

**Repeatable:** *N*  
**HU DEI**  
**Minimum Credits 3 Maximum Credits 3**

### **HUMA 330 Feminist and Queer Environmentalism**

What does environmental crisis and issues like climate change, natural resource depletion, and pollution have to do with gender and sexuality? How does Nature function as a discourse that informs cultural understandings around gender and sexuality? Why are women on the frontlines of environmental justice movements? Drawing on research in environmental studies as well as gender and sexuality studies, this course provides a critical framework for addressing these questions and examining the linkages between gender, sexuality, and the environment. Students will be introduced to key debates and theoretical inquiry in feminist and queer ecologies.

**Minimum Credits 3 Maximum Credits 3**

### **LITR 279 Zombies in Popular Media**

This course explores the history, significance, and representation of the zombie as a figure in horror and fantasy texts. Instruction follows an intense schedule, using critical theory and source media (literature, comics, and films) to spur discussion and exploration of the figure's many incarnations. Daily assignments focus on reflection and commentary, while final projects foster thoughtful connections between student disciplines and the figure of the zombie.

**Minimum Credits** 3 **Maximum Credits** 3

### **MUSC 164 Hip-Hop: A Sonic History**

Course focuses on hip-hop as a musical culture, exploring the social conditions of the music's emergence and the factors that have facilitated its broad dissemination. We will investigate the social and technological factors that have affected hip-hop's development, as well as considering the ways in which the work of hip-hop musicians has affected both American music and social dynamics. With its ubiquitous presence at the top of the pop music charts, in mainstream advertising, and as a component of personal style, hip-hop has established itself as one of the most significant cultural movements of the last half-century. Course will strive to explore hip-hop's musical language in considerable depth. Through close listening and intensive analysis of a broad selection of musical examples, and through careful study of the musical techniques and aesthetics of hip-hop artists, course will offer students a detailed exploration of the dense and multi-layered hip-hop soundscape.

**Repeatable:** *N*

**Minimum Credits** 3 **Maximum Credits** 3

### **SOCI 210 Gender and Culture**

Course studies the social construction of gender definitions. All cultures assign gender-specific roles and expectations to women and men to create a gender system designed and changed through cultural processes. Content examines gender role acquisition, individual and social consequences of gender roles, socialization theories on gender, and how gender roles in the family and workplace are constructed. Course also examines gender in American culture and other societies and explores possibilities for role change, especially in the arts and media.

**Repeatable:** *N*

### **TELE 250A Television Studies:**

This course examines a specific subject within the field of television, rotating the subjects on a regular basis to keep the course relevant to trends and issues within television and society. Today more than ever, TV is the primary storyteller in U.S. culture, and therefore the medium raises a constant stream of issues concerning everything from representation of groups to how parents raise their children. Classes focus on providing students with in-depth examinations of TV-related topics, with an overarching emphasis on the importance of approaching television and related issues from a variety of humanities perspectives (philosophical, industrial, historiographical, psychological, etc.), so as to enrich and complicate our understanding.

**Repeatable:** *Y*

**Formerly** TELE 250

**HU**

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **TELE 357 Documenting Social Injustice**

Course enables students to become familiar with the range of diversity issues--race, ethnicity, gender, religion, class, etc.--through extensive readings and videos. Social justice education is both a process and a goal and involves students who have a sense of their own agency as well as a sense of social responsibility toward others and society as a whole. Class tours several sites of ethnic art, activism, and social justice. Students work in teams on documenting their impressions and comparing the classroom with the

experiential with help from experts in the field.

**Minimum Credits 3 Maximum Credits 3**

## **THEA 211 African American Theatre and Performance**

This course surveys the historical, political, and aesthetic advancements of African American theatre from the late 19th century to the contemporary moment. In particular, this course examines dramatic literature alongside social movements such as the Black Power Movement as well as the Black Feminist Movement as a way to investigate how artists/activists used theatre and performance to promote Black liberation. In doing so we will witness changing and often challenging perceptions, creations, and responses to race and racism, and related social constructions of gender and sexuality. Furthermore, we will also address several larger questions pertaining to the development of Black theatre in America: What is a Black play? What is the relationship between Black theatre and the broader American theatre? How has Black theatre and performance contributed to the making of Black identity formation?

**Repeatable:** N

## **Seminars**

*Choose two of the following courses:*

### **CULS 214 Media, Politics and Intervention**

There is a belief that media attention can shame people and governments into stopping human rights abuses. Yet, when examining reality: from past 'genocides' to current 'unexplained killings' to ongoing systemic 'abuses'- we know that media attention alone is not sufficient. This course will explore how intervention - by individuals, domestic/international advocacy groups and governments - does or does not occur. The focus will be on the successful and unsuccessful use of media to provoke and sustain tangible respect for human rights.

**Repeatable:** N

**Formerly** 46-2412

**HU DEI GA**

**Minimum Credits 3 Maximum Credits 3**

### **CULS 310 Theories of Media, Society, & Culture**

This course will explore the major theories of mass communication, society and culture that have led up to and departed from Cultural Studies. We will examine a variety of theories from communication and media studies that help us to better understand the role media play in society and culture and different ideas about that role. Theories studied will include early propaganda and administrative research, McLuhan and media ecology, as well as Critical Theory, Apparatus theory, political economy, and Cultural Studies.

**Repeatable:** *N*

**Formerly** 46-3535

**Prerequisites** CULS 201 Cultural Theories

**Minimum Credits** 3 **Maximum Credits** 3

### **CULS 311 Theorizing Power**

This seminar explores central questions and problems in contemporary cultural and political theory related to how we theorize power in two dominant forms, including its meanings, its mechanisms, and its ideology. We will contrast the dominant liberal image of power with other understandings of power derived from Foucault: discursive, disciplinary, and biopolitical. We will examine major texts and concepts from Foucault, Butler, Locke, Mill, and others.

**Repeatable:** *N*

**Formerly** 46-3540

**Prerequisites** CULS 201 Cultural Theories

**Minimum Credits** 3 **Maximum Credits** 3

### **CULS 312 Queer Theory**

This course engages concepts of Queer Theory and the central architects of this relatively new field. The course is divided into three sections: Theory, Cultural Manifestations, and Praxis. In section 1: Theory, students become familiar with key concepts through both core texts and critical interpretations. Section 2: Cultural Manifestations, focuses on cultural expressions of theory, e.g. art, film, and literature. In section 3: Praxis, students demonstrate contemporary applications either through their own work or through the work of others.

**Repeatable:** *N*

**HU**

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

### **CULS 314 Marx and Marxisms: A Seminar on Marxist Cultural Theory**

This seminar will address key questions and problems in contemporary Marxist cultural theory. We will engage several major texts in the Marxist tradition, including those of Marx, Gramsci, Althusser, Adorno, and Jameson, among others. As a cultural studies seminar, this course will pay particular attention to questions of culture, art, ideology, and the subject, and how these questions have featured in debates within the Marxist tradition. We will also examine the historical and intellectual contexts in which these and other Marxist theories and accounts have emerged and developed.

**Repeatable:** *N*

**Formerly** 46-3520

**Prerequisites** CULS 201 Cultural Theories

**Minimum Credits** 3 **Maximum Credits** 3

### **CULS 315 Post-Colonial Studies**

An integral part of cultural studies, post-colonial studies deals with the complex implications of colonization and colonialism in societies and cultures. This seminar is an inquiry into concepts such as national culture,

citizenship, othering, identity and alterity, cultural imperialism, hybridity, and origins, as well as issues of cultural resistance, negotiation, and agency, using examples from all over the world.

**Repeatable:** *N*

**Formerly** 46-3510

**GA**

**Prerequisites** CULS 201 Cultural Theories

**Minimum Credits 3 Maximum Credits 3**

### **CULS 316 Semiotics and Cultural Change**

The course explores the implications of systemic and structural theories of culture for issues of cultural change, both revolutionary and evolutionary, by considering particular case studies. Using dyadic and triadic methodologies for the study of signs, we examine case studies to interrogate political, social, and pragmatic outcomes of meta-analytic propositions. Fieldwork experiences engage students in contradictions, coherences, coincidences and confrontations between theory and praxis.

**Repeatable:** *N*

**Formerly** 46-3502

**Prerequisites** CULS 201 Cultural Theories

**Minimum Credits 3 Maximum Credits 3**

### **CULS 317 Making and Unmaking Whiteness**

This advanced seminar examines the cultural and political-economic construction of white identities in the United States and analyzes how white identities are reproduced, maintained, and challenged. How has whiteness been defined in relation to notions of color, race, class, gender, sexuality, ethnicity, nation, language, and non-white perspectives? In this course, diverse student experiences come into contact with the work of historians and critical race theorists. The course will also examine counter-hegemonic white identities and the possibilities of 'unmaking' whiteness.

**Repeatable:** *N*

**Formerly** 46-3215

**DEI**

**Prerequisites** CULS 201 Cultural Theories

**Minimum Credits 3 Maximum Credits 3**

### **CULS 318 Cybercultures**

This seminar course explores cyberspace, the most powerful and frequently inhabited site within contemporary culture. Students will explore specific themes such as, identity, community, bodies, virtuality, and sexuality through the lens of post-structuralist, postmodern, cyberfeminist, cyborg, and digital culture theories. Readings, discussions, research, writing, and a cyberethnographic project will help students gain a greater understanding of cyberspace, its culture, and the relationships that exist between machines and humans, as well as those between society and technology.

**Repeatable:** *N*

**Formerly** 46-3207

**Prerequisites** CULS 201 Cultural Theories

**Minimum Credits 3 Maximum Credits 3**

### **CULS 319 Technology and Culture**

The use of technologies raises complex and provocative questions about the relationships between humans, animals, the built environment and the natural world. This course engages these questions by introducing students to key theorists, critics and cultural historians of technology. The goal of this course is for students to utilize these perspectives as a means to initiate and/or develop a critical analysis of technologies in their specific cultural, political and historical contexts.

**Repeatable:** *N*

**Formerly** 46-3425

**Minimum Credits** 3 **Maximum Credits** 3

## **CULS 321 Globalization and Culture**

Since the early 1990s, globalization--a multi-faceted and highly contested concept--has become the new buzz word used to name, frame, and also direct the processes of social and technological change that have been taking place all over the world. By the same token, and since then, issues of globalization have been a central preoccupation of intellectual debates and political discourses and practices. This course aims to introduce students to the hotly debated and highly contested conceptual and social phenomenon of globalization, its histories, manifestations, implications, as well as its consequences for the individual and society.

## **Minor**

### **Black World Studies Minor**

The Black World Studies minor at Columbia College Chicago is an interdisciplinary program aimed at fostering a deep understanding of the historical, artistic, cultural, and political experiences of Africans and the African Diaspora. Its purpose is to enhance student's awareness of the relationship between people of African descent within a global framework. By examining crucial moments of black protest, students are exposed to a diversity of liberation struggles aimed at slavery, colonialism, and other forms of social, political, and economic marginalization. Through a critical examination of the social constructions of race, class, and ethnicity, students are enjoined to become more thoughtful agents of change. In exploring how power and knowledge are produced and challenged, Black World Studies empowers students to directly confront these complex issues as conscious global citizens.

## **PROGRAM REQUIREMENTS - 18 credits required**

**HUMA 102 Introduction to Black World Studies**

In this interdisciplinary survey course, students are introduced to the socio-political history and culture of black peoples around the world and the concept of blackness. The course is team taught and divided up into units that cover inter-related components: history, humanities, and social sciences. The course is divided into seven units, beginning with a history of the field of Black Studies. Students will then be taken through the history and historiography of the peoples and their expressive arts.

### **HIST 202 Liberation and Resistance in Southern Africa**

This course seeks to examine the processes of colonization and decolonization during the historical development of a specific region called Southern Africa. By Southern Africa we mean more than just the eleven countries beginning with Angola, Zambia and Malawi which stretch southwards and eastwards toward the island nation of Madagascar and the Republic of South Africa. We include, as well, the island

nations of Mauritius, Reunion, the Comoros and the Seychelles. But most significantly, we include the Congo as part of Southern Africa for we argue that the Congo has been and remains a key constituent element of that vast and powerful socio-economic complex historically dominated by the Witwatersrand mining conglomerates of Anglo-American, DeBeers, Union Miniere and American Metal Climax.

**Repeatable:** *N*

**Formerly** 49-2027

**HI GA**

**Minimum Credits** 3 **Maximum Credits** 3

### **DANC 145 African Dance for Non-Majors**

African Dance for Non-Majors introduces dances, music, and culture of West Africa. Class begins with warm-up exercises that condition the body for the rigors of this form by developing strength, aerobic stamina, coordination, flexibility, and rhythmic awareness. Second part of class is devoted to learning authentic dances and songs from West Africa, as well as their historical and cultural contexts. Students work closely with the instructor and a master drummer to gain an understanding of the marriage of drumming, rhythm, and music to African dance. Students further explore the history and culture of Africa through dance concert attendance, readings, and the completion of three written assignments.

**Repeatable:** Y

**Minimum Credits** 3 **Maximum Credits** 3

### **DANC 185 Hip-Hop and Street Dance Technique I**

This course focuses on foundational techniques of Hip-Hop dance and related street dance styles (e.g., breaking, locking, popping and house) that have contributed significantly to the birth, growth and development of Hip-Hop culture and movement. Students develop proficiency in foundational movement vocabulary associated with these forms, as well as core Hip-Hop techniques and concepts, including: isolations, groove, dynamic range, foot work, freestyle, and musicality. Students also learn about and embody the history, ethos and sociocultural context of Hip-Hop via videos and other resources, class discussions, and attending Hip-Hop-centered cultural events.

**Repeatable:** Y  
**Formerly** 33-1385  
**Minimum Credits** 1 **Maximum Credits** 1

### **DANC 285 Hip-Hop and Street Dance Technique II**

This course focuses on intermediate-level foundational techniques of Hip-Hop dance and related street dance forms (e.g., breaking, locking, popping, and house) that have contributed significantly to the birth, growth and development of Hip-Hop culture and movement. Students develop proficiency in intermediate-level movement vocabulary (associated with the specific forms being taught), as well as core Hip-Hop techniques and concepts, including isolations, groove, dynamic range, footwork, freestyle and musicality. There is an emphasis on performance quality and artistry through set and improvised movement. Students also learn about and embody the history, ethos and sociocultural context of Hip-Hop via videos (and other resources), class discussion, and participating in Hip-Hop-centered cultural events.

**Repeatable:** Y  
**Formerly** 33-2386

### **LITR 105 Literature, Culture, and Power**

This course examines how literary texts are connected to social power and privilege. Sections might focus on one or more of the following topics: race, class, gender, sexuality, religion, disability, ethnicity, language, technology, empire, diaspora, etc....

**Repeatable:** *N*

**Formerly** 52-1601

**HL DEI**

**Minimum Credits 3 Maximum Credits 3**

### **LITR 241 Spike Lee and August Wilson**

This course examines the relationship between the written and filmed versions of a story, novel, or play. The course will explore how character development, plot, narrative, symbols, and language are translated from text to film. To facilitate analysis, students will acquire a basic vocabulary for discussing literature and film. African-American themes regarding socio-historical context, aesthetics, and critical theory will be examined. The course establishes connections between literature and other areas of arts and communications.

**Repeatable:** *N*

**Minimum Credits 3 Maximum Credits 3**

**LITR 344 Slave Narrative as Documentary**

Course examines literary and cinematic traditions in which slave narratives and African-American documentary film share rhetorical, artistic and political purposes. Course demonstrates how slave narratives and documentary film functioned at the forefronts of the 20th century socio-cultural activism for the redress of inequalities. Through written text and cinema-graphic arguments, the course explores how slave narratives served as analogs to American literary conventions and how documentary films continue to inform popular and critical literary texts and images. This course is a critical research course that informs and supports the goals and objectives of Writing & Rhetoric I and II foundational courses within the English Department.

**Repeatable:** N

## **MUSC 163 Afro-Latin and Caribbean: US Musical Crosscurrents**

This course examines the musical traditions of the African diaspora as they have developed within Latin America and the Caribbean and their significant influence on popular music in the US. Through reading, writing, and focused listening, students will explore historical and contemporary musical styles from Cuba, Puerto Rico, the Dominican Republic, Jamaica, Haiti, Trinidad and Tobago, the French Antilles and Brazil. Through close consideration of the music's political, social, and cultural contexts, students will develop an understanding of the shared roots, diasporal unities, and rich practices of exchange associated with the musical cultures of this region.

**Repeatable:** *N*

**Formerly** 32-1624

**HU DEI GA**

**Minimum Credits 3 Maximum Credits 3**

## **MUSC 164 Hip-Hop: A Sonic History**

Course focuses on hip-hop as a musical culture, exploring the social conditions of the music's emergence and the factors that have facilitated its broad dissemination. We will investigate the social and technological factors that have affected hip-hop's development, as well as considering the ways in which the work of hip-hop musicians has affected both American music and social dynamics. With its ubiquitous presence at the top of the pop music charts, in mainstream advertising, and as a component of personal style, hip-hop has established itself as one of the most significant cultural movements of the last half-century. Course will strive to explore hip-hop's musical language in considerable depth. Through close listening and intensive analysis

of a broad selection of musical examples, and through careful study of the musical techniques and aesthetics of hip-hop artists, course will offer students a detailed exploration of the dense and multi-layered hip-hop soundscape.

**Repeatable:** *N*

### **RADI 168 Rock & Soul on the Radio: Roots**

This course covers Rock and Soul music's influence on radio formats, modern culture, and technology. Students will analyze the progression of contemporary rock and soul music from its roots in rhythm and blues, country, folk music and jazz from the beginning of the 20th century through 1969. Students will study and report on individual artists and musical groups who created the music, the cultural trends and the styles of these music genres.

**Repeatable:** *N*

**Formerly** 41-1314

**Minimum Credits 3 Maximum Credits 3**

### **RADI 169 Rock & Soul on the Radio: Contemporary**

This course covers rock and soul music's influence on radio formats, modern culture, current events and present technology. Students will analyze the progression of contemporary rock and soul music from its roots in rhythm and blues, country, folk music and jazz from 1970 to the present. Students will research and report on individual artists and musical groups who created the music, the trends and the styles of this performing art.

**Repeatable:** *N*

**Formerly** 41-1321

## **Cultural Studies Minor**

The Cultural Studies (CS) minor is an interdisciplinary approach to the analysis of contemporary culture and its relation to society that prepares students to transform creative enterprises and industries with a commitment to equity, social justice, and a more humane, democratic society. CS helps students to think critically about cultural politics more generally, looking at the way identities and subjectivity are developed, reinforced, embodied, and performed by becoming adept at examining how race and ethnicity, gender and sexuality, social and economic class, and nationality inform the power structures that undergird culture. While the CS major provides an important centrepiece for the critical study of culture and society in the humanities and social sciences across the curriculum, the Cultural Studies minor is an excellent supplement to those studying production and performance. Serving students who seek the superior thinking and communications skills afforded by the liberal arts, Cultural Studies prepares students for career opportunities in arts administration, non-profit management, teaching, community and social service management, public relations, and social media communications positions, as well as preparing students for graduate school or law school.

**PROGRAM REQUIREMENTS - 18 credits required**

## **CULS 201 Cultural Theories**

This course maps the major concepts, paradigms and methodologies underlying Cultural Studies theory and practice. Assignments draw upon a diverse range of scholars whose work engages with Marxism, Media Studies, Feminism, Psychoanalysis, Anthropology, Sociology, Post-Colonial Theory, and the interdisciplinary field of Cultural Studies itself. We will make use of examples from art, mass media, literature, and architecture to critically examine themes of production and consumption, power and resistance, technologies and bodies, identity and representation, space, place, and globalization.

**Repeatable:** N

## **THEA 280 Theories of Performance Studies**

What is performance? What does performance do? Why is performance classified as a central element of political, social and cultural life? What are the distinctions between performance as event, theory, and method? In answering these questions, this course introduces students to performance studies, an interdisciplinary field that investigates a wide range of repeatable, embodied, and symbolic actions. Specifically, this course offers a critical survey of the genealogies as well as foundational theories and theorists of performance studies including Zora Neale Hurston, Richard Schechner, Dwight Conquergood, Ervin Goffman, Victor Turner, Judith Butler, E. Patrick Johnson, and D. Soyini Madison. Students will examine a broad range of performances both on and off the stage from rituals and storytelling to live and recorded performances, and from political speeches and protests to human interaction and individual acts of identity expression. Additionally, we will apply analytical frameworks of performance theory to sites and happenings including theatre, religious events, social media, community gatherings, and sporting events as well as examine people's habitual patterns and behaviors of everyday life as performance.

**Repeatable:** N

### **MEDI 201H Culture, Race and Media: Honors**

Course enables students to analyze subtle and subliminal messages about culture, race, ethnicity, gender, religion, class, and ability as presented to us through the media. The media--television, film, and print--has a pervasive influence upon how we view the world. Through open discussions of differences, research, and stimulating readings, we will learn who we are and why we view things the way we do. Expected outcomes include new insights into media influence and our responsibility as media makers, a research project, and self-examination of personal cultural and racial identity.

This is an Honors class. In addition to other possible pre-requisites, students need a minimum G.P.A. of 3.50 or higher to enroll.

### **COLL 230 Internship: Professionalism and Creativity**

This course allows students to take a valuable internship experience in their desired industry for academic credit. Each position is vetted and approved by Career Center to ensure that it is an educational opportunity that will fulfill the learning objectives of the course. Participating in an internship allows students to gain hands-on experience and explore career interests while applying knowledge and skills learned in the classroom to a work setting. The online, academic component of this internship fosters student understanding of how organizations operate and provides for structured reflection on their experiences and assessment of their knowledge and skills. Students are responsible for securing their own internships and should contact Career Center for assistance and resources to identify and apply for opportunities of interest.

## **CULS 214 Media, Politics and Intervention**

There is a belief that media attention can shame people and governments into stopping human rights abuses. Yet, when examining reality: from past 'genocides' to current 'unexplained killings' to ongoing systemic 'abuses'- we know that media attention alone is not sufficient. This course will explore how intervention - by individuals, domestic/international advocacy groups and governments - does or does not occur. The focus will be on the successful and unsuccessful use of media to provoke and sustain tangible respect for human rights.

## **CULS 215 Exploring Star Wars: Spectacle, Culture, Fandom**

This course is an examination of the Star Wars phenomenon, as a transmedia narrative, as a cultural reflection of our world, as an object of spectacle and consumerism, and as a space of highly creative fan communities. Drawing from cultural studies, screen studies and the new discipline of participatory culture studies, the course also critically explores how Star Wars articulates social discrimination and xenophobia,

issues of gender and sexuality, and notions of imperialism and colonialism. The course covers films and comics, television and fiction, even cosplay and fan art/film.

**Repeatable:** *N*

**HU**

**Minimum Credits 3 Maximum Credits 3**

### **CULS 310 Theories of Media, Society, & Culture**

This course will explore the major theories of mass communication, society and culture that have led up to and departed from Cultural Studies. We will examine a variety of theories from communication and media studies that help us to better understand the role media play in society and culture and different ideas about that role. Theories studied will include early propaganda and administrative research, McLuhan and media ecology, as well as Critical Theory, Apparatus theory, political economy, and Cultural Studies.

**Repeatable:** *N*

**Formerly** 46-3535

**Prerequisites** CULS 201 Cultural Theories

**Minimum Credits 3 Maximum Credits 3**

### **CULS 311 Theorizing Power**

This seminar explores central questions and problems in contemporary cultural and political theory related to how we theorize power in two dominant forms, including its meanings, its mechanisms, and its ideology. We will contrast the dominant liberal image of power with other understandings of power derived from Foucault: discursive, disciplinary, and biopolitical. We will examine major texts and concepts from Foucault, Butler, Locke, Mill, and others.

**Repeatable:** *N*

**Formerly** 46-3540

**Prerequisites** CULS 201 Cultural Theories

**Minimum Credits 3 Maximum Credits 3**

### **CULS 312 Queer Theory**

This course engages concepts of Queer Theory and the central architects of this relatively new field. The course is divided into three sections: Theory, Cultural Manifestations, and Praxis. In section 1: Theory, students become familiar with key concepts through both core texts and critical interpretations. Section 2: Cultural Manifestations, focuses on cultural expressions of theory, e.g. art, film, and literature. In section 3: Praxis, students demonstrate contemporary applications either through their own work or through the work of others.

### **CULS 314 Marx and Marxisms: A Seminar on Marxist Cultural Theory**

This seminar will address key questions and problems in contemporary Marxist cultural theory. We will engage several major texts in the Marxist tradition, including those of Marx, Gramsci, Althusser, Adorno, and

Jameson, among others. As a cultural studies seminar, this course will pay particular attention to questions of culture, art, ideology, and the subject, and how these questions have featured in debates within the Marxist tradition. We will also examine the historical and intellectual contexts in which these and other Marxist theories and accounts have emerged and developed.

**Repeatable:** *N*

**Formerly** 46-3520

**Prerequisites** CULS 201 Cultural Theories

**Minimum Credits 3 Maximum Credits 3**

### **CULS 315 Post-Colonial Studies**

An integral part of cultural studies, post-colonial studies deals with the complex implications of colonization and colonialism in societies and cultures. This seminar is an inquiry into concepts such as national culture, citizenship, othering, identity and alterity, cultural imperialism, hybridity, and origins, as well as issues of cultural resistance, negotiation, and agency, using examples from all over the world.

**Repeatable:** *N*

**Formerly** 46-3510

**GA**

**Prerequisites** CULS 201 Cultural Theories

**Minimum Credits 3 Maximum Credits 3**

### **CULS 316 Semiotics and Cultural Change**

The course explores the implications of systemic and structural theories of culture for issues of cultural change, both revolutionary and evolutionary, by considering particular case studies. Using dyadic and triadic methodologies for the study of signs, we examine case studies to interrogate political, social, and pragmatic outcomes of meta-analytic propositions. Fieldwork experiences engage students in contradictions, coherences, coincidences and confrontations between theory and praxis.

**Repeatable:** *N*

**Formerly** 46-3502

**Prerequisites** CULS 201 Cultural Theories

**Minimum Credits 3 Maximum Credits 3**

### **CULS 317 Making and Unmaking Whiteness**

This advanced seminar examines the cultural and political-economic construction of white identities in the United States and analyzes how white identities are reproduced, maintained, and challenged. How has whiteness been defined in relation to notions of color, race, class, gender, sexuality, ethnicity, nation, language, and non-white perspectives? In this course, diverse student experiences come into contact with the work of historians and critical race theorists. The course will also examine counter-hegemonic white identities and the possibilities of 'unmaking' whiteness.

**Repeatable:** *N*

**Formerly** 46-3215

**DEI**

**Prerequisites** CULS 201 Cultural Theories

### **CULS 318 Cybercultures**

This seminar course explores cyberspace, the most powerful and frequently inhabited site within contemporary culture. Students will explore specific themes such as, identity, community, bodies, virtuality, and sexuality through the lens of post-structuralist, postmodern, cyberfeminist, cyborg, and digital culture theories. Readings, discussions, research, writing, and a cyberethnographic project will help students gain a greater understanding of cyberspace, its culture, and the relationships that exist between machines and humans, as well as those between society and technology.

**Repeatable:** *N*

**Formerly** 46-3207

**Prerequisites** CULS 201 Cultural Theories

**Minimum Credits** 3 **Maximum Credits** 3

## **CULS 319 Technology and Culture**

The use of technologies raises complex and provocative questions about the relationships between humans, animals, the built environment and the natural world. This course engages these questions by introducing students to key theorists, critics and cultural historians of technology. The goal of this course is for students to utilize these perspectives as a means to initiate and/or develop a critical analysis of technologies in their specific cultural, political and historical contexts.

**Repeatable:** *N*

**Formerly** 46-3425

**Prerequisites** CULS 201 Cultural Theories

**Minimum Credits** 3 **Maximum Credits** 3

## **CULS 321 Globalization and Culture**

Since the early 1990s, globalization--a multi-faceted and highly contested concept--has become the new buzz word used to name, frame, and also direct the processes of social and technological change that have been taking place all over the world. By the same token, and since then, issues of globalization have been a central preoccupation of intellectual debates and political discourses and practices. This course aims to introduce students to the hotly debated and highly contested conceptual and social phenomenon of globalization, its histories, manifestations, implications, as well as its consequences for the individual and society.

**HU**

**Minimum Credits 3 Maximum Credits 3**

### **HUMA 222 Nature and Environmentalism in U.S. Culture**

This course explores the relationship between humans and the non-human natural world, emphasizing popular conceptions of nature in American culture and the way in which the very notion of nature itself is a profoundly human conception. We can never really know the natural world "out there." Rather the natural world that we seek to understand, even conserve and protect, can only ever be understood through the lens of our social and cultural imagination. What are the socio-cultural manifestations of nature, and how do these manifestations affect the uses and/or abuses of nature in American society?

**Repeatable: N**

**Formerly 51-2225**

## **HUMA 227 The Chinese City in Literature, Art, and Media**

This course uses an interdisciplinary humanities approach to Chinese cities from ancient to contemporary times depicted in various literary texts, visual arts, films and other popular media. The course serves both as an exploration of the Chinese city within historical contexts and as an examination of forms of representation. We will discuss themes such as national identity, the garden and intellectual identity, the intersection between China and the foreign, and human responses to the city in perpetual transition to modernity.

**Repeatable:** *N*

**Formerly** 51-2602

**HU DEI GA**

**Minimum Credits 3 Maximum Credits 3**

## **HUMA 230 Feminism and Film**

Feminist film critic Laura Mulvey argues in her oft-cited essay "Visual Pleasure and Narrative Cinema," that Hollywood film reflects the patriarchal social unconscious, and this can be exemplified in the way women are frequently represented in film as the object of the male gaze. Other scholars, such as Jane Gaines, have written about the way that people of color are often constructed as the object of the white gaze in mainstream cinema. Often times, women and people of color are rendered altogether invisible within the production of film and media, translating into problematic on-screen representations. This course introduces students to feminist film and media studies, engaging major questions that have shaped the vigorous fields of gender and sexuality studies, feminist film theory and feminist media history while considering the works of women filmmakers. Through a feminist lens, students will gain hands-on experience applying theory and history to film analysis.

**Repeatable:** *N*

**HU DEI**

**Minimum Credits 3 Maximum Credits 3**

## **HUMA 330 Feminist and Queer Environmentalism**

What does environmental crisis and issues like climate change, natural resource depletion, and pollution have to do with gender and sexuality? How does Nature function as a discourse that informs cultural understandings around gender and sexuality? Why are women on the frontlines of environmental justice movements? Drawing on research in environmental studies as well as gender and sexuality studies, this course provides a critical framework for addressing these questions and examining the linkages between gender, sexuality, and the environment. Students will be introduced to key debates and theoretical inquiry in feminist and queer ecologies.

**Minimum Credits 3 Maximum Credits 3**

### **POLS 213 Power and Freedom on Screen**

Americans cherish individual freedom, while remaining suspicious of power. Yet individual freedom and choice are always exercised within contexts and conditions that are not only unchosen but also saturated with power. This course explores individuals negotiations with power and the unchosen through a series of films paired with theoretical readings. Films will include *Into the Wild*, *Mystic River*, *The Three Burials of Melquiades Estrada*, and *Wendy and Lucy*, while theoretical authors will include Mill, Marx, Foucault, and Butler.

## Education Minor

This eighteen-credit hour minor is available to all Columbia College undergraduates. It is designed to support their understandings of children and adolescents so that they may enhance their career options, such as illustrating or writing children's books, developing video games, or designing and marketing clothes for toddlers or pre-adolescents.

Students will develop basic understandings of human development; the intersection of the roles of child, family, and community; characteristics of children with exceptional and diverse needs; and have opportunities to apply these concepts to their major.

## PROGRAM REQUIREMENTS - 18 credits required

### EDUC 115 Human Development Across the Lifespan

Students survey theories of holistic human development spanning the cognitive, physical, and social emotional domains. Emphasis is on the earlier stages of development, but encompasses the entire lifespan. Attention will be given to the application of theory to personal experience; the impact of an anti-bias approach; and the role of family, culture, and community on development.

*Choose five of the following courses:*

### COLL 230 Internship: Professionalism and Creativity

This course allows students to take a valuable internship experience in their desired industry for academic credit. Each position is vetted and approved by Career Center to ensure that it is an educational opportunity that will fulfill the learning objectives of the course. Participating in an internship allows students to gain hands-on experience and explore career interests while applying knowledge and skills learned in the classroom to a work setting. The online, academic component of this internship fosters student understanding of how organizations operate and provides for structured reflection on their experiences and assessment of their knowledge and skills. Students are responsible for securing their own internships and should contact Career Center for assistance and resources to identify and apply for opportunities of interest.

## **CULS 210 Critiquing Children's Culture**

This course examines varied spheres of children's culture while introducing students to the terms, analytical techniques, and interpretive strategies commonly employed in Cultural Studies. Emphasis is on interdisciplinary approaches to exploring how children's cultural processes and artifacts are produced, shaped, distributed, consumed and responded to in diverse ways. Through discussion, research and writing, class members investigate dimensions of children's culture, learning to understand them in their broader social, aesthetic, ethical, and political contexts. Topics studied include children's literature, animated films, teen literature, toys, public schooling, children's games and new media.

## **EDUC 210 Language Learning and Linguistic Development**

This course develops students' understandings of typical and atypical speech and language development from birth through age eight in monolingual and multilingual children with a focus on the rights of the learner. Students explore the relationships between linguistic and language development, and other areas of development and learning are explored. Since language is integral to thinking and learning processes, the course frames students' examination of the biological, environmental, social, and cultural components of language learning and linguistic development.

**Repeatable:** *N*

## **EDUC 380 The Teaching Artist in School and Community Settings**

This course engages students in the theory and practice of the teaching artist. Students will explore the role of the teaching artist in arts education in an historical context as well as in current practice with children,

adolescents, adult and senior populations. This exploration is anchored in study, reflection, and direct experience in Chicago Public Schools, arts organizations and community settings. Students will spend class time studying teaching artist fundamentals including: building partnerships, developing and implementing inquiry-based arts curricula and lesson plans, creating community in the classroom, designing inclusive experiences in the arts, working within community and school cultures, and understanding classroom management in a variety of settings and populations. Guest teaching artists, from a range of disciplines, will lead sessions introducing a range of effective teaching artist strategies. Students will observe and/or assist in the delivery of arts instruction in a variety of settings.

## **PSYC 101 Introduction to Psychology**

Course introduces the field of psychology and its basic concepts, theories, research methods, and contributions to the understanding of human behavior. Topics include the nervous system, perception, motivation, learning and memory, social behavior, personality, developmental, and clinical psychology. The past and current theories and contributions of major psychologists are explored.

**Repeatable:** *N*

**Formerly** 50-1401

**SS**

**Minimum Credits 3 Maximum Credits 3**

## **PSYC 110 Social Psychology**

Course studies human behavior in its social context to reveal how one's feelings and actions can be influenced by other people. Class examines processes of human interaction and the social influences of family, membership groups, mass media, and socioeconomic class on individuals and groups. Instruction explores basic concepts and theoretical and research perspectives on social processes. Students examine elected forms of social reaction patterns, including socialization, attitudes, language acquisition, collective behavior, deviant behavior, prejudices, and violence.

**Repeatable:** *N*

**Formerly** 50-1402

**SS**

## **Latino and Latin American Studies Minor**

Housed in the department of Humanities, History and Social Sciences but drawing from many departments across the college, the Latino and Latin American Studies minor offers the opportunity for students to explore the histories and cultures of U.S. Latinos and Latin American peoples through an interdisciplinary approach of language, history, social institutions, literature, and the arts. By critically engaging with the ethnic and geopolitical experience of the Latino and Latin American population in the Americas, students will expand their knowledge about the transnational and transcultural complexity and richness of their worlds. The minor provides an academic experience that complements the students' majors by strengthening their cultural and historical literacy with a multicultural perspective that helps students become better informed global citizens.

As a result of successfully completing program requirements, students should be able to:

- reflect on and enrich their understanding of the specificities of U.S. Latino and Latin American societies and cultures in regards to politics, religion, ethnicity, race, class, gender, sex and sexuality through historical documents and the cultural and artistic production in the Americas of these populations;
- engage with issues of cultural and national identity, cultural change, resistance, and political agency in the historical and geopolitical context of colonialism, modernity and globalization, from a variety of perspectives; and
- complement their majors by strengthening their cultural and historical literacy in a decidedly globalized world, and enhance their ability to comprehend cultural difference in a complex and nuanced manner.

## **PROGRAM REQUIREMENTS - 18 credits required**

### **HUMA 103 Introduction to Latin American Studies**

This interdisciplinary humanities course serves as a basic introduction to the social, historical and cultural complexity of Latin America and the Caribbean Basin. From Pre-Columbian times to the contemporary moment, the course examines issues of colonialism and sovereignty, indigeneity, cultural diversity and cultural difference, modernity, postmodernity, and globalization through a variety of historical documents and drawing on all the arts--especially film, literature, music, fine arts and popular culture.

**Repeatable: N**

**Formerly** 51-1215

**Minimum Credits 3 Maximum Credits 3**

*Choose two of the following courses:*

### **SPAN 101 Spanish I: Language and Culture**

Instruction introduces basic structures and vocabulary to develop proficiency in understanding, reading, speaking, and writing Spanish for living, working, and traveling in the U.S. or abroad. Cultural appreciation is enriched through Chicago resources.

**Repeatable:** *N*  
**Formerly** 47-1301  
**HU GA**  
**Minimum Credits 3 Maximum Credits 3**

### **SPAN 102 Spanish II: Language and Culture**

Continued study of basic structures and vocabulary further develops proficiency in understanding, reading, speaking, and writing Spanish. Cultural appreciation is enriched through Chicago resources.

**Repeatable:** *N*  
**Formerly** 47-1302  
**HU GA**  
**Minimum Credits 3 Maximum Credits 3**

### **SPAN 201 Spanish III: Language and Culture**

Building on one year of college Spanish, this course extends each student's capacity to understand, read, speak, and write Spanish through exposure to the rich variety of arts in Hispanic cultures.

**Repeatable:** *N*  
**Formerly** 47-2303  
**HU GA**  
**Minimum Credits 3 Maximum Credits 3**

*Choose three of the following courses:*

### **HIST 141 Latin American History: To 1800**

After the arrival of Europeans in the Western Hemisphere, often called the New World, many of the indigenous people who had created American societies were forced to change. This course explores Amerindian cultures and the first three centuries of contact between Native American, African, and European people in Latin America.

**Repeatable:** *N*  
**Formerly** 49-1401  
**HI DEI GA**  
**Minimum Credits 3 Maximum Credits 3**

### **HIST 142 Latin American History: Since 1800**

Course explores the past two centuries of Latin-American nations in their struggle to overcome their colonial past and establish modern societies. Topics include reform and revolution, the role of the military, dictatorship, underdevelopment, and the agrarian problem.

**Repeatable:** *N*

**Formerly** 49-1402

**HI DEI GA**

**Minimum Credits 3 Maximum Credits 3**

### **HIST 143 History of the Caribbean: To 1800**

The Caribbean Islands were inhabited by free and independent communities when Christopher Columbus arrived in 1492. By studying the people who welcomed Columbus and his successors we can gain a better understanding of the ways in which these and other people came to be dominated by Europeans. This course looks at three of the main themes in Caribbean history, namely, The Native Americans, Europeans and Africans; Comparative European Settlements; and Slavery and Sugar.

**Repeatable:** *N*

**Formerly** 49-1410

**HI DEI GA**

**Minimum Credits 3 Maximum Credits 3**

### **HIST 144 History of the Caribbean: Since 1800**

The diverse elements that have shaped the Caribbean region since the late 18th century are studied in this course. The historical roots of economic, political, and social issues that have affected the Caribbean islands and mainland enclaves are also analyzed, as well as the impact of their relation to the United States of America.

**Repeatable:** *N*

**Formerly** 49-1411

**HI DEI GA**

**Minimum Credits 3 Maximum Credits 3**

### **HIST 241 History of Mexico and Central America**

Students gain a better understanding of Mexico and the nations of Central America through an examination of key historical events. Course focuses on Spanish invasion and conquest, struggles to gain independence from Spain, United States' conquest of the Mexican Northwest, the Mexican Revolution, United States' interventions past and present, the Sandinista Revolution, El Salvador's civil war, and the struggles of indigenous peoples past and present.

**Repeatable:** *N*

**Formerly** 49-2401

**HI GA**

**Minimum Credits 3 Maximum Credits 3**

### **HIST 256 Hispanics in the U.S. Since 1800**

Course tracks the growing importance of Hispanics in all aspects of American life. Their economic impact has become a topic of controversy. The development of a Latino ethnic consciousness has come into conflict with efforts to assimilate this minority group, thus raising the question of what an American really is.

Instruction also addresses the controversial topic of their impact on the U.S. economy. These issues cannot be fully understood without an examination of where Hispanics have come from, their hopes, ways they are trying to achieve their dreams, and their continuing obstacles.

**Repeatable:** *N*

**Formerly** 49-2632

**HI DEI PL**

**Minimum Credits 3 Maximum Credits 3**

### **HUMA 121 Latin American Art, Literature, and Music**

Interdisciplinary humanities course provides an overview of the rich and diverse contributions of art, literature, and music of Mexico, Central America, and South America. Students learn the terminology used to describe, interpret, and appreciate these arts in the context of the culture they reflect.

**Repeatable:** *N*

**Formerly** 51-1111

**HU GA**

**Minimum Credits 3 Maximum Credits 3**

### **HUMA 122 Latin American Women in the Arts**

This course is designed to study the contributions which Latin American women have made (and continue to make) through literary and visual arts. We will examine issues of cultural identity, feminism, and representation through various genres including drama, essays, film, literature, mythology, photography, poetry, and theology.

**Repeatable:** *N*

**Formerly** 51-1113

**HU DEI GA**

**Minimum Credits 3 Maximum Credits 3**

### **HUMA 218 Caribbean Art, Literature and Music**

This course surveys art, literature, and music in Caribbean culture. Students learn to understand historical references within countries represented in this survey. Students will develop an appreciation for the Caribbean art forms by surveying and recognizing important artistic movements, literary works, and cultural revolutions in which artists played a role in influencing 20th century and 21st century art in the Greater and Lesser Antilles.

**Repeatable:** *N*

**Formerly** 51-2218

**GA**

**Minimum Credits 3 Maximum Credits 3**

### **LITR 236 Introduction to U.S. Latinx Literature**

Course provides an introduction to U.S. Latinx Literature.

**Repeatable:** *N*

**Formerly** 52-2761

**HL PL**

**Prerequisites** ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

### **LITR 336 U.S. Latinx Literature**

Course examines short stories, poems, and novels dealing with bicultural experience of those from different parts of Latin America, Mexico, the Caribbean, and South and Central America. Course is for students who want to learn more about Hispanic culture in the U.S. as well as for those who want to learn more about their own culture.

**Repeatable:** *N*

**Formerly** 52-3644

**Minimum Credits 3 Maximum Credits 3**

### **MUSC 163 Afro-Latin and Caribbean: US Musical Crosscurrents**

This course examines the musical traditions of the African diaspora as they have developed within Latin America and the Caribbean and their significant influence on popular music in the US. Through reading, writing, and focused listening, students will explore historical and contemporary musical styles from Cuba, Puerto Rico, the Dominican Republic, Jamaica, Haiti, Trinidad and Tobago, the French Antilles and Brazil. Through close consideration of the music's political, social, and cultural contexts, students will develop an understanding of the shared roots, diasporal unities, and rich practices of exchange associated with the musical cultures of this region.

**Repeatable:** *N*

**Formerly** 32-1624

**HU DEI GA**

**Minimum Credits 3 Maximum Credits 3**

## **Philosophy and Religion Minor**

To be able to contribute to culture, one needs to be able to understand, reflect upon, and critique the philosophical and religious underpinnings of culture. This minor is designed to acquaint students with philosophy and religious studies toward this end.

As a result of successfully completing program requirements, students should be able to:

- make stronger academic arguments;
- improve their critical reading and writing abilities;
- articulate the nuances of major themes in the areas of philosophy and religion they have studied; and
- bring their new questions and critiques of philosophy and religion to bear in their artistic production, as so many major artists in all media have.

**PROGRAM REQUIREMENTS - 18 credits required**

*Students must complete at least one course from philosophy (PHIL, POLS, or CULS) and one course from religious studies (RELI), and complete at least three total courses at the 200-level or above.*

## **CULS 101 Introduction to Cultural Studies**

This course introduces students to the terms, analytical techniques, and interpretive strategies commonly employed in cultural studies. Emphasis is on interdisciplinary approaches to exploring how cultural processes and artifacts are produced, shaped, distributed, consumed, and responded to in diverse ways. Through discussion, research, and writing, class members investigate these varied dimensions of culture; learn to understand them in their broader social, aesthetic, ethical, and political contexts; and thereby prepare for more advanced coursework in Cultural Studies.

**Repeatable:** *N*

**Formerly** 46-1100

**HU DEI**

**Minimum Credits 3 Maximum Credits 3**

## **CULS 201 Cultural Theories**

This course maps the major concepts, paradigms and methodologies underlying Cultural Studies theory and practice. Assignments draw upon a diverse range of scholars whose work engages with Marxism, Media Studies, Feminism, Psychoanalysis, Anthropology, Sociology, Post-Colonial Theory, and the interdisciplinary field of Cultural Studies itself. We will make use of examples from art, mass media, literature, and architecture to critically examine themes of production and consumption, power and resistance, technologies and bodies, identity and representation, space, place, and globalization.

**Repeatable:** *N*

**Formerly** 46-2100

**Minimum Credits 3 Maximum Credits 3**

## **CULS 311 Theorizing Power**

This seminar explores central questions and problems in contemporary cultural and political theory related to how we theorize power in two dominant forms, including its meanings, its mechanisms, and its ideology. We will contrast the dominant liberal image of power with other understandings of power derived from Foucault: discursive, disciplinary, and biopolitical. We will examine major texts and concepts from Foucault, Butler, Locke, Mill, and others.

**Repeatable:** *N*

**Formerly** 46-3540

**Prerequisites** CULS 201 Cultural Theories

**Minimum Credits 3 Maximum Credits 3**

## **CULS 314 Marx and Marxisms: A Seminar on Marxist Cultural Theory**

This seminar will address key questions and problems in contemporary Marxist cultural theory. We will engage several major texts in the Marxist tradition, including those of Marx, Gramsci, Althusser, Adorno, and Jameson, among others. As a cultural studies seminar, this course will pay particular attention to questions of culture, art, ideology, and the subject, and how these questions have featured in debates within the Marxist tradition. We will also examine the historical and intellectual contexts in which these and other Marxist theories and accounts have emerged and developed.

**Repeatable:** *N*

**Formerly** 46-3520

**Prerequisites** CULS 201 Cultural Theories

**Minimum Credits** 3 **Maximum Credits** 3

## **PHIL 101 Introduction to Philosophy**

Course focuses on the nature of careful inquiry and some of the enduring philosophical questions of the ages. Content examines classical and contemporary issues in philosophy, such as the existence and nature of God, the concept of human freedom, the existence and nature of the soul, and the value and meaning of artistic expression.

**Repeatable:** *N*

**Formerly** 51-1401

**HU**

**Minimum Credits** 3 **Maximum Credits** 3

## **PHIL 110 Logic**

Each student's skill in critical reasoning is developed by analysis of basic patterns of argument, evidence, and fallacies. Examples are drawn from such sources as speeches, advertising, journalism, and essays to clarify what is implicit in the claims being made and the reasons used to support them.

**Repeatable:** *N*

**Formerly** 51-1410

**HU**

**Minimum Credits** 3 **Maximum Credits** 3

## **PHIL 111 Ethics and the Good Life**

Course examines major philosophical works to provide insight into human action as the basis of a good and happy life.

**Repeatable:** *N*

**Formerly** 51-1411

**HU**

**Minimum Credits** 3 **Maximum Credits** 3

## **PHIL 210 Contemporary Philosophy**

Course examines central issues and major movements in contemporary philosophy in the twentieth and twenty first centuries, including existentialism, pragmatism, deconstructionism, and linguistic analysis.

**Repeatable:** *N*

**Formerly** 51-2402

**Minimum Credits** 3 **Maximum Credits** 3

## **PHIL 212 Philosophical Issues in Film**

Course addresses a series of philosophical themes including ethical issues, metaphysical questions, and existential quandaries. Philosophical study can open up vistas of meaning to any student, and films can effectively realize abstract ideas in palpable and compelling ways. Several films are used with readings in philosophical literature to explore specific philosophical themes.

**Repeatable:** *N*

**Formerly** 51-2405

**HU**

**Minimum Credits 3 Maximum Credits 3**

## **PHIL 214 The Evolution of the Mind**

The human mind is a product of biological and cultural evolution. This course will study the philosophical and psychological implications of this claim. What makes the human mind unique, compared with those aspects of mind we share with non-human animals? What is the relationship between emotion and thought? What are the successes and failures of evolutionary psychology and philosophy of mind? Are religion and ethics products of the evolution of the mind?

**Repeatable:** *N*

**Formerly** 51-2410

**HU**

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

## **PHIL 214H The Evolution of the Mind: Honors**

The human mind is a product of biological and cultural evolution. This course will study the philosophical and psychological implications of this claim. What makes the human mind unique, compared with those aspects of mind we share with non-human animals? What is the relationship between emotion and thought? What are the successes and failures of evolutionary psychology and philosophy of mind? Are religion and ethics products of the evolution of the mind? This is an Honors course and in addition to other possible prerequisites, students need a minimum GPA of 3.50 or higher to enroll.

**Repeatable:** *N*

**Formerly** 51-2410HN

**HU**

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Requirements** 3.5 or Higher GPA (35GP)

**Minimum Credits 3 Maximum Credits 3**

## **PHIL 215H Emotions: Honors**

The emotions play a significant role in our inner lives. Sometimes the emotions act in concert with our cognitive decision-making, and sometimes they crash over our rational thinking like uncontrollable storms. Emotions influence and fuel our behavior, values, art, and other aspects of culture. Yet, systematic study of emotions is quite recent. In this course we will examine Western psychology and philosophy of emotions. This is an Honors class. In addition to other possible pre-requisites, students need a minimum G.P.A. of 3.50 or higher to enroll.

**Repeatable:** *N*

**Formerly** 51-2411HN

## **PHIL 301 Eastern Philosophy**

This course is designed to explore Eastern spiritual and philosophical traditions, including Hinduism, Buddhism, Daoism, Shintosim, and Confucianism. We will compare and contrast these different philosophical systems with each other as well as Western systems, but the focus will be on relating Eastern philosophies to the students' lives today. As a class, students will help direct the focus, and learn to actively apply Eastern wisdom traditions to their own 21<sup>st</sup> century philosophical concerns. Eastern philosophy is lived, embodied practice, not just intellectual reflection. We will actively experience some of these practices in class, including meditation techniques, calligraphy, mandala creation, tea ceremony, Confucian rites of civility, and so on.

**Repeatable:** *N*

**HU DEI**

**RELI 110 Religion in Today's World**

Framed by history, geography, and contemporary society, this course examines key figures, beliefs, and practices of Buddhism, Christianity, Hinduism, Islam, Judaism, and other religious traditions and movements.

**Repeatable:** *N*  
**Formerly** 51-1501  
**HU DEI GA**  
**Minimum Credits 3 Maximum Credits 3**

### **RELI 210 Religion and Gender**

In this course, we will look at examples from many different cultures to consider forms of religiosity that are traditionally 'gendered', including spirit possession and practices relating to food, ritual, purification, and so on. We will also analyze religions' constructions of masculinity and femininity around the issues of sex, reproduction, pain and agency, and the religious significance of people who do not fit into traditional gendered categories. Finally, we will take up political problems associated with religion and gender, particularly those associated with secularism and colonialism.

**Repeatable:** *N*  
**Formerly** 51-2502  
**HU DEI GA**  
**Minimum Credits 3 Maximum Credits 3**

### **RELI 210H Religion and Gender: Honors**

In this course, we will look at examples from many different cultures to consider forms of religiosity that are traditionally 'gendered', including spirit possession and practices relating to food, ritual, purification, and so on. We will also analyze religions' constructions of masculinity and femininity around the issues of sex, reproduction, pain and agency, and the religious significance of people who do not fit into traditional gendered categories. Finally, we will take up political problems associated with religion and gender, particularly those associated with secularism and colonialism. This is an Honors course and students need a 3.50 cumulative GPA to register.

**Formerly** 51-2502HN  
**HU GA**  
**Requirements** 3.5 or Higher GPA (35GP)  
**Minimum Credits 3 Maximum Credits 3**

### **RELI 211 Religion in U.S. Law and Politics**

In this class, we will look at legal cases, cultural representations, and historical documents pertinent to the issue of religion and politics to understand what secularism is, in the U.S., how it has changed over time, and how it has been imagined; we will build a website narrating these developments. We will also take up what these conceptions mean for our current political landscape as well as broader theoretical questions about the relation of religion to the state.

**Repeatable:** *N*  
**Formerly** 51-2505  
**HU PL**  
**Minimum Credits 3 Maximum Credits 3**

### **RELI 212 Religion Through Film**

This course will consider many of the central categories used to analyze religious phenomena through pairing some of the most important theoretical contributions to the study of religion with films that are concerned with similar themes. We will ask: how does the relevant theory of religion cast light on the film? Does the film suggest revisions to the theory? Can we think of real-world examples that bear out one or the other? What light does film cast on religion?

**Repeatable:** *N*

**Formerly** 51-2506

**HU**

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

### **RELI 212H Religion Through Film: Honors**

This course will consider many of the central categories used to analyze religious phenomena through pairing some of the most important theoretical contributions to the study of religion with films that are concerned with similar themes. We will ask: how does the relevant theory of religion cast light on the film? Does the film suggest revisions to the theory? Can we think of real-world examples that bear out one or the other? What light does film cast on religion? This is an Honors course and students need a cumulative GPA of 3.50 or higher to register.

**Formerly** 51-2506HN

**HU GA**

**Requirements** 3.5 or Higher GPA (35GP)

**Minimum Credits 3 Maximum Credits 3**

### **RELI 213 Religion and Violence**

Much violence perpetrated in the world today is considered religious in nature. This class will interrogate that assumption by considering several important questions: Is there something inherently violent about religion? What work does violence do, for religion? What is religious terrorism, and what do the techniques of terror earn for those who use them? Is violence ever justified? Must it be justified with religion, if it is to be justified at all? Most centrally: is the category of religious violence meaningful?

**Repeatable:** *N*

**Formerly** 51-2522

**HU DEI**

**Minimum Credits 3 Maximum Credits 3**

### **RELI 213H Religion and Violence: Honors**

**Requirements** 3.5 or Higher GPA (35GP)

**Minimum Credits 3 Maximum Credits 3**

### **RELI 310 Religion, Capitalism, Empire**

Ebola medical missions, cargo cults, Hinduism, Joel Osteen, Al-Qaeda--all of these religious phenomena have in common that they are in some way responses to the rise of capitalism and its spread through empire. In this course we will look at the relationship between religion and capitalism, considering the way in which religion was implicated in bringing about modernization and also the way religion provided a site of resistance to various forms of global imperialism. Cases considered to include examples from all over the world.

**Repeatable:** *N*

**Formerly** 51-3500

**HU DEI GA**

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

### **RELI 311 Religion and its Critics**

Recently, the 'New Atheists' have leveled a variety of criticisms against religion, regarding the (purported) falsity of its claims, the ways in which it shapes people and citizens, and the sorts of political problems it occasions. But these arguments are not new--indeed, they go back several hundred years (further, in some cases). In this class, we will look at some of the most important articulations of these criticisms of religion in the modern period, as well as some of the defenses of religion. We will contextualize these ideas with respect to social and political developments, and then in turn use them to reconsider the recent claims of the New Atheists.

**Repeatable:** *N*

**Formerly** 51-3520

## Women's, Gender and Sexuality Studies Minor

The minor in Women's, Gender, and Sexuality Studies, housed in the Humanities, History and Social Sciences Department, is designed to give students an opportunity to explore issues of gender and sexuality in an interdisciplinary and cohesive way. The minor is a rich complement to any of the majors offered at the College because it gives students a strong background in perceiving the structural issues of gender and sexuality in articulation with race, ethnicity, (dis)ability and other socially meaningful categories. In this way, the minor enhances the College's commitment to issues of diversity, equity and inclusion. Students in the minor are engaged in stimulating debates on the role of gender and sexuality in varied societies from a variety of perspectives as a way to help them discover their own voices within these debates. The Women's, Gender, and Sexuality Studies minor assists students in preparing to navigate an increasingly diverse and complex global society.

As a result of successfully completing program requirements, students should be able to:

- identify the intersections between gender and sexuality and other socially meaningful categories, such as race, class, and (dis)ability;
- understand and use the vocabularies, both conceptual and theoretical, as well as the research methods central to the analysis of gender and sexuality; and
- discuss (orally and in writing) the diverse experiences of women, in their own and other cultures, and the meaning of gender as a socially constructed category.

## PROGRAM REQUIREMENTS - 18 credits required

### HUMA 104 Introduction to Women's, Gender and Sexuality Studies

This course will introduce students to the broad variety of scholarship on women through an interdisciplinary approach. The course will begin with an exploration of the history of women's rights movements. It continues with the examination of the social construction of gender, gender roles, sexuality and power. With this background, we will explore a wide variety of topics, ranging from media to spirituality, using the tools of feminist analysis.

*Choose five of the following courses:*

## **BIOL 105 Biology of Human Reproduction**

The course examines the biological aspects of sexuality from a structural, functional, and evolutionary standpoint. Topics may include anatomy and physiology of the reproductive organs, human sexual response, reproductive hormones, birth control and infertility, pregnancy and birth, sexual disorders and sexually transmitted diseases, human inheritance and genetic counseling, evolution of human sexual behavior, and other related issues from a biological perspective.

**Repeatable:** *N*

**Formerly** 56-1115

**SC**

**Minimum Credits 3 Maximum Credits 3**

## **BIOL 235H Evolution of Sex: Honors**

Understanding the nature of sex and its relationship to evolution is important in biology. This class will cover sex and sexual selection across the animal and plant kingdoms. We will discuss the nature of science and the influences of culture on science, specifically the role of feminism on our understanding of female choice. Monogamy, polygamy, polyandry, homosexuality and other types of sexual and asexual relationships will be explored in an evolutionary context through primary literature. This is an Honors class. In addition to other possible pre-requisites, students need a minimum G.P.A. of 3.50 or higher to enroll.

**Repeatable:** *N*

**Requirements** 3.5 or Higher GPA (35GP)

**Minimum Credits 3 Maximum Credits 3**

## **CRWR 122 Craft and Process Seminar in Fiction: Gender and Difference**

Course examines the ways in which gay, lesbian, and straight writers contend with issues of culture, gender, and difference. Course focuses upon such questions as the following: How do straight male and female writers deal with the serious issues and challenges of writing from the point of view of gay and lesbian characters? How do gay and lesbian writers deal with the same issues in writing about straight characters? Course also examines the particular challenges of writing gender opposites (whatever the sexual orientation of those characters might be). Through the students' reading of assigned stories and novels, through their written responses as writers to their reading, through creative fiction and nonfiction writing assignments, and through individual and small-group research activities, the course will approach broad and specific issues of gender and difference from early writing to the present day.

**Repeatable:** *N*

**Formerly** 59-1305

**PL**

**Minimum Credits 3 Maximum Credits 3**

## **CRWR 222 Craft and Process Seminar in Fiction: Women Writers**

Course researches writing processes of women writers and ways in which their reading and responses to reading play influential roles in the fiction-writing process. Journals and other writings by Virginia Woolf, Zora Neale Hurston, Katherine Anne Porter, Katherine Mansfield, Eudora Welty, Toni Cade Bambara, and others are used as examples of how writers read, write about what they read to develop their fiction, and see their work in relation to other writers' works. Manuscripts and notes of famous works may be used to show

writers' processes and development. Students' own fiction writing is also part of the course.

**Prerequisites** CRWR 150 Fiction Workshop: Beginning or CRWR 155 Poetry Workshop: Beginning or CRWR 160 Creative Nonfiction Workshop: Beginning

**Minimum Credits 3 Maximum Credits 3**

## **CULS 312 Queer Theory**

This course engages concepts of Queer Theory and the central architects of this relatively new field. The course is divided into three sections: Theory, Cultural Manifestations, and Praxis. In section 1: Theory, students become familiar with key concepts through both core texts and critical interpretations. Section 2: Cultural Manifestations, focuses on cultural expressions of theory, e.g. art, film, and literature. In section 3: Praxis, students demonstrate contemporary applications either through their own work or through the work of others.

### **HIST 322H Taste and Consumption in French History: Honors**

We tend to associate all things French, whether fashions, luxury goods, fine restaurants, champagne, or French women themselves, with good taste and chic. This course explores how notions of taste and practices of consumption have changed in France from ca. 1650 to ca. 1914, from the absolutist court to the modern department store. Against a historical background of dramatic economic, political, social and cultural change, we will explore how aesthetic, consumerist and critical practices associated with taste became shifting, highly charged and contested markers of individual and group (e.g., national, class and gender) identity and even political position, and will examine different historically-applied theories about the motives that have driven or inspired people to consume, use and display certain goods or appreciate particular aesthetic forms. We will read primary and secondary sources (none in French). This course provides comparative historical insight to help students understand the historicity of the contemporary classed and gendered consumption regimes in which we live today. This class may require a small amount of additional expenditure of monies for required excursions (usually no more than \$30 This is an Honors class. In addition to other possible pre-requisites, students need a minimum G.P.A. of 3.50 or higher to enroll.

**Repeatable:** *N*  
**Formerly** 49-3353HN  
**HI GA**  
**Requirements** 3.5 or Higher GPA (35GP) and Junior Standing or Above (JR)  
**Minimum Credits 3 Maximum Credits 3**

### **HUMA 105 Queer Studies**

The course explores the contributions of gay, lesbian, bisexual, and transgender individuals to culture. Texts will consider vital topics in a broad engagement with Gay and Lesbian Studies. Readings, films, and guest lecturers will help establish the necessary sociological and historical context for the course.

**Repeatable:** *N*

**Minimum Credits 3 Maximum Credits 3**

### **HUMA 230 Feminism and Film**

Feminist film critic Laura Mulvey argues in her oft-cited essay "Visual Pleasure and Narrative Cinema," that Hollywood film reflects the patriarchal social unconscious, and this can be exemplified in the way women are frequently represented in film as the object of the male gaze. Other scholars, such as Jane Gaines, have written about the way that people of color are often constructed as the object of the white gaze in mainstream cinema. Often times, women and people of color are rendered altogether invisible within the production of film and media, translating into problematic on-screen representations. This course introduces students to feminist film and media studies, engaging major questions that have shaped the vigorous fields of gender and sexuality studies, feminist film theory and feminist media history while considering the works of women filmmakers. Through a feminist lens, students will gain hands-on experience applying theory and history to film analysis.

**Repeatable:** *N*

**HU DEI**

**Minimum Credits 3 Maximum Credits 3**

### **HUMA 330 Feminist and Queer Environmentalism**

What does environmental crisis and issues like climate change, natural resource depletion, and pollution have to do with gender and sexuality? How does Nature function as a discourse that informs cultural understandings around gender and sexuality? Why are women on the frontlines of environmental justice movements? Drawing on research in environmental studies as well as gender and sexuality studies, this course provides a critical framework for addressing these questions and examining the linkages between gender, sexuality, and the environment. Students will be introduced to key debates and theoretical inquiry in feminist and queer ecologies.

**Repeatable:** *N*

**HU DEI**

**Prerequisites** ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or ENGL 109 Writing and Rhetoric I Stretch B or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

### **LITR 250 Introduction to Women's Literature**

Survey course engages students in an attempt to isolate and define a distinctly female tradition in literature. Course introduces students to style and content of women's fiction, poetry, drama, and non-fiction.

**Repeatable:** *N*

**Formerly** 52-2650

### **SOCI 115 Women's Health Care Issues**

Course takes an interdisciplinary social-scientific approach to covering many contemporary medical issues facing women in America. Content examines past and present institutional nature of the American medical profession and its delivery of health care for women. Class analyzes various other health care organizations and the quality of health care offered women. Other topics include women's responsibility and autonomy in relation to their health; family, work, and other societal factors affecting women's health; violence against women; women's health care centers; and how women are changing health care institutions.

**Repeatable: N**

**Formerly 50-1602**

**PL**

**Minimum Credits 3 Maximum Credits 3**

### **SOCI 210 Gender and Culture**

Course studies the social construction of gender definitions. All cultures assign gender-specific roles and expectations to women and men to create a gender system designed and changed through cultural processes. Content examines gender role acquisition, individual and social consequences of gender roles, socialization theories on gender, and how gender roles in the family and workplace are constructed. Course also examines gender in American culture and other societies and explores possibilities for role change,

especially in the arts and media.

## **Science and Mathematics**

### **Bachelor of Arts**

## **Environmental and Sustainability Studies, BA**

We live in a world with environmental and sustainability challenges, many of which do not have easy solutions and require communicators to help bridge different areas. This major will provide students with the skills that they need to lead change in the fields of environmental and sustainability studies. Students will learn about the environment, policy, and the intersection of these fields with the arts, communication, and social justice and activism. This interdisciplinary field will prepare students for jobs that are outside and connected to solving the problems of our world. Students in this major are strongly encouraged to complete a minor in a complementary area of study. Elective course choices are intentionally designed to align with minors in Communication, Sustainable Fashion, Fashion Studies, Biology, Environmental Studies, Art History, Fine Arts, Photography, Cinema and Television Arts, Arts Management, Public Relations, and Social Media and Digital Strategy. In their capstone course, students will work in groups to integrate their knowledge of environmental and sustainability issues with an informed creative statement about sustainability that will demonstrate environmental advocacy and inspire local, national, and/or global communities to act on environmental issues in an equitable manner.

Jobs related to the environment and sustainability are one of fastest growing areas of the job market. Through the interdisciplinary nature of this program students will get to work with experts in environmental and sustainability studies as well as experts in their paired field in the arts and communication areas. This mix of specialists who are active in all areas of this degree is unique to this program and will give students many opportunities for training as they complete their degree. Career options befitting students pursuing the BA in Environmental and Sustainability Studies include environmental journalism and communication, environmental photography and photojournalism, documentary TV and film making, sustainable fashion, design, and architecture, environmental law and policy, advocacy, social justice, and activism, among numerous others.

As a result of successfully completing program requirements, students should be able to:

- articulate the relationship between people and global sustainability issues, and understand how creative and diverse perspectives can prepare them for a career that focuses on the integration of sustainability and arts and communication;
- identify and respond to how socio-political and economic choices of privileged groups place an inequitable environmental burden on developing countries, indigenous people, persons of color and other under-represented groups throughout the world;
- conduct scholarly work and develop interdisciplinary and innovative approaches to impactful environmental advocacy and activism through community-based research projects; and

- use creative written, oral, visual, electronic media, and other formats to inform and educate local communities within and beyond Chicago about how to act as an advocate for themselves, their communities, and the environment.

## PROGRAM REQUIREMENTS - 36 credits required

### **COLL 200 Internship**

This course allows students to take a valuable internship experience in their desired industry. Each position is vetted and approved by Career Center to ensure that it is an educational opportunity that will fulfill the learning objectives of the course. Participating in an internship allows the student to gain hands-on experience and explore career interests while applying knowledge and skills learned in the classroom to a work setting. The experience also helps students gain a clearer sense of what they still need to learn and provides an opportunity to build professional networks. Students are responsible for securing their own internships and having them approved prior to registering for this course. Please contact the Career Center for assistance and resources.

### **EASC 115 Natural Disasters**

Both geologic and climatic natural disasters are explored in this course. Central focus is on causes and effects of disasters, particularly on the results of human attempts to prepare for these disasters. Topics include meteorite impacts, volcanoes, earthquakes, landslides, floods, and the effects of floods on human and animal life.

**Repeatable:** N

**Formerly** 56-1320

**SC**

**Minimum Credits** 3 **Maximum Credits** 3

### **HUMA 222 Nature and Environmentalism in U.S. Culture**

This course explores the relationship between humans and the non-human natural world, emphasizing popular conceptions of nature in American culture and the way in which the very notion of nature itself is a profoundly human conception. We can never really know the natural world "out there." Rather the natural world that we seek to understand, even conserve and protect, can only ever be understood through the lens of our social and cultural imagination. What are the socio-cultural manifestations of nature, and how do these manifestations affect the uses and/or abuses of nature in American society?

**Repeatable:** N

**Formerly** 51-2225

### **SCIE 205 Environmental Science**

This course explores the multidisciplinary science of the environment. We focus on contemporary issues such as air and water pollution, global climate change, ozone depletion, acid rain, hazardous and solid waste, alternative energy resources, soils, deforestation, overfishing, biodiversity, and endangered species, and their ecological, economical, and human health impacts. An extensive, hands-on laboratory is a core part of the course.

**Repeatable:** *N*

**Formerly** 56-2610

**SL**

**Minimum Credits 4 Maximum Credits 4**

### **SCIE 305 Environmental Studies Data Interpretation**

This class is an environmental chemistry course which will introduce students to: chemistry sampling and research methods; heavy metals; pesticides; nuclear power; CFCs/the ozone layer and also climate change. This class will have a Chicago emphasis to it and a strong laboratory component that will allow students to learn water, soil and plant techniques as well as toxicology, Atomic Absorption Spectroscopy (AAS), the use of Geographic Information Systems (GIS), and climate change modeling.

**Repeatable:** *N*

**Prerequisites** SCIE 205 Environmental Science and MATH 205 Introduction to Statistics and ENGL 112

Writing and Rhetoric II or SCIE 205 Environmental Science and MATH 205 Introduction to Statistics and ENGL 112H Writing and Rhetoric II: Honors or SCIE 205 Environmental Science and MATH 205 Introduction to Statistics and ENGL 122 International Writing and Rhetoric II

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **SCIE 310 Methods for Environmental and Sustainability Studies**

This seminar class will provide students with the tools necessary to understand methods of environmental and sustainability studies research. They will learn how to find and critique reliable sources and read a scientific paper. Students will also learn how to identify sources of error in project design, methods, and results, and learn how to use applied statistics in the field of environmental and sustainability studies research.

**Repeatable:** *N*

**Prerequisites** MATH 205 Introduction to Statistics and SCIE 205 Environmental Science

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 1 Maximum Credits 1**

### **SCIE 480 Environmental and Sustainability Studies Capstone**

This capstone course is designed for students with senior standing who are pursuing a BA in Environmental and Sustainability Studies. Ideally, students will enter the classroom having already formed potential ideas for a capstone project. Students will use the scientific method and experience gained in other creative disciplines at Columbia College to design and carry out their own interdisciplinary independent capstone project. Projects will investigate an environmental or sustainability issue and explore impact by and impact on diverse human communities from both a well-informed scientific perspective and through a creative lens. They will develop an original statement that communicates the problem, its impact, and steps for acting on it to make change. Students will also explore graduate school options and various careers in the field of environmental and sustainability studies, while also learning how to write a grant proposal, resume, and CV.

**Repeatable:** *N*

**Prerequisites** ENGL 112 Writing and Rhetoric II and SCIE 310 Methods for Environmental and Sustainability Studies or ENGL 112H Writing and Rhetoric II: Honors and SCIE 310 Methods for Environmental and Sustainability Studies or ENGL 122 International Writing and Rhetoric II and SCIE 310 Methods for Environmental and Sustainability Studies

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

### **BIOL 245 Ecology**

This course introduces basic principles of ecology- the study of relationships among living organisms, their environment and each other. We examine ecological concepts applied to individuals, populations and communities of both plants and animals. Topics include plant and animal adaptations to the environment, the role environmental factors in the distribution and abundance of organisms, the dynamics of population growth, species interactions including competition and predation, the structure of ecological communities, and the application of ecology to problems in conservation.

**Repeatable:** *N*

**Formerly** 56-2450

**SL**

**Prerequisites** MATH 110 College Mathematics or MATH 115 Liberal Arts Mathematics or MATH 120 Quantitative Reasoning or ACCU-T-67 EXAM-ACCUPLACER MATH MINIMUM SCORE = 67 or ACT-M-23 EXAM-ACT MATH MINIMUM SCORE = 23 or SAT-M-550 EXAM-SAT MATH MINIMUM SCORE = 550 or CMPS-M-67 EXAM-CMPS MATH MINIMUM SCORE = 67 or ALEK-1-46 EXAM-ALEKS MINIMUM SCORE = 46

**Minimum Credits 4 Maximum Credits 4**

### **BIOL 245H Ecology: Honors**

This course introduces basic principles of ecology- the study of relationships among living organisms, their environment and each other. We examine ecological concepts applied to individuals, populations and communities of both plants and animals. Topics include plant and animal adaptations to the environment, the role environmental factors in the distribution and abundance of organisms, the dynamics of population growth, species interactions including competition and predation, the structure of ecological communities, and the application of ecology to problems in conservation. This is an Honors course. In addition to other possible pre-requisites, students need a minimum G.P.A. of 3.50 or higher to enroll.

**Repeatable:** N

**Formerly** 56-2450HN

**SL**

**Requirements** 3.5 or Higher GPA (35GP)

**Minimum Credits 4 Maximum Credits 4**

*Choose one of the following courses:*

### **ECON 310 Ethics and Economics**

If an action produces "desirable" outcomes (e.g. wearing a mask during a pandemic), would the good outcome *alone* can make the action "morally right thing to do?" Most economists would believe so. For instance, economists tend to favor buying and selling of nearly everything freely since it would be a "win-win" proposal for all the parties involved. Otherwise, nobody trades, as the logic goes. This line of moral reasoning (called "consequentialism") has been so dominant in the public policy-making practice that we are inclined to think of it as common sense. As a result, other ethical perspectives (including those that are not Eurocentric) have been marginalized. This course exposes the ethical biases behind the current practice of policy making; and the racial, gender, and income inequalities such inherent (but unrecognized) biases tend to create and reinforce. The course offers students wider ethical lenses from which legitimacy of various policies and institutions could be debated. It is built on the insight that the underlying motivation behind actions does matter in building an equitable society tolerant of diversity. In a case study-based structure and debate-oriented setting, this course will help students develop a substantive grasp of duty- and virtue-based perspectives and apply these perspectives to a set of contemporary policy issues in the U.S. from self-driving vehicles to surrogate motherhood.

**Repeatable:** N

**Formerly** 50-3202

**SS DEI**

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

### **ECON 310H Ethics and Economics: Controversial Policy Issues of Our Time: Honors**

Conventional economic justification for policies embodies a particular moral logic despite its claim to value-neutrality. This course surveys alternate moral/political perspectives from which legitimacy (or moral acceptability) of contemporary economic policies could be debated. Students will be invited to apply these theoretical arguments to a set of contemporary policy issues in the U.S. This is an Honors class. In addition to other possible pre-requisites, students need a minimum G.P.A. of 3.50 or higher to enroll.

**Repeatable:** *N*

**Formerly** 50-3202HN

**Minimum Credits 3 Maximum Credits 3**

## Electives

*Choose two of the following courses:*

### **ADVE 120 Consumer Behavior**

Course explores the relationship between conscious and unconscious factors influencing many different consumers and examines the need, structure, and interaction with planned communication messages. Survey course gives students insight into the reasons the various disciplines of communication work, using basic readings in the psychology of perception and attitude formation.

**Repeatable:** *N*

**Formerly** 54-1601

**Minimum Credits 3 Maximum Credits 3**

### **ARTH 105 Introduction to Visual Culture**

In this course, students will refine their skills of seeing, discussing, and writing about visual culture. Structured according to methodologies for visual analysis rather than chronology or artistic style, the course introduces students to critical approaches that can be applied to a wide range of images, objects and spaces. Through assignments that emphasize writing, research and presentation skills, students will explore a broad range of perspectives on visual literacy.

**Repeatable:** *N*

**Formerly** 22-1105

### **ARTH 105H Introduction to Visual Culture: Honors**

In this course, students will refine their skills of seeing, discussing, and writing about visual culture. Structured according to methodologies for visual analysis rather than chronology or artistic style, the course introduces students to critical approaches that can be applied to a wide range of images, objects, and spaces. Through assignments that emphasize writing, research, and presentation skills, students will explore a broad range of perspectives on visual literacy. This is an Honors course and in addition to any pre-requisites, students need a minimum 3.50 GPA to enroll.

**Repeatable:** *N*

**HU DEI****Requirements** 3.5 or Higher GPA (35GP)**Minimum Credits** 3 **Maximum Credits** 3**ARTH 220 Global History of Architecture**

In this course, students study the history of architecture from a global perspective. From prehistoric settlements to the architecture of today, the course will examine a wide variety of structures, spaces, decoration and furniture. Students will examine examples of world architecture through lectures, class discussions, documentary films, and field trips. This course is designed to give students a foundation of knowledge regarding the change and development of architecture over time and the relationships between architecture, interior planning, and the decorative arts.

**Repeatable:** *N***Formerly** 22-1131**HU****Requirements** Sophomore Standing or Above (SO)**Minimum Credits** 3 **Maximum Credits** 3**ARTH 310 Contemporary Art: 1980 to the Present**

This course surveys the history of art and its critical discourses from 1980 to the present, including Post-modernism, the challenges of globalism, the rise of the biennials, relational aesthetics, and other current developments in current art practice and theory.

**Repeatable:** *N***Formerly** 22-3115**HU PL****Requirements** Junior Standing or Above (JR)**Minimum Credits** 3 **Maximum Credits** 3**ARTH 343 Art as Spiritual and Social Practice**

This course focuses on practices of contemporary artists, who recognize the spiritual and social transformative power of their art and utilize their creative skills to challenge oppressive and destructive attitudes such as racism, sexism, consumerism, authoritarianism, and otherizing. Organized in a thematic structure with student-led presentations and discussions, it focuses on human-centered (versus object-centered) art-making practices of diverse American and international artists including Kum-Hwa Kim, Pablo Amaringo, Dawoud Bey, Kathleen Petyarre, and Lalla Essaydi.

**Repeatable:** *N***HU DEI****Requirements** Junior Standing or Above (JR)**Minimum Credits** 3 **Maximum Credits** 3**ARTS 230 Printmaking I**

In this studio course students are exposed to a broad range of basic traditional and innovative printmaking techniques including block, etching, lithography, RISO and the use of these skills to produce independent work within the context of contemporary art and design. This course will include the use of Photoshop and Illustrator in the production of stencils. Students will be introduced to skills and techniques, experiment with the medium, and think creatively and critically. Studio instruction may be augmented with field trips, slide

lectures, readings, critiques, and discussion that help critically, currently, and historically situate printmaking as a fine arts and design practice.

**Repeatable:** *N*

**Formerly** 22-2224

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **ARTS 240 Sculpture I**

This studio course introduces students to the tools, materials, and processes used in the creation of sculptural objects. With particular focus on learning by doing, projects will revolve around a variety of additive, subtractive, mold and computer methods. Studio instruction may be augmented with field trips, slide lectures, readings, critiques, and discussion that help critically, currently, and historically situate sculpture as a fine arts and design practice.

**Repeatable:** *N*

**Formerly** 22-2251

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **BIOL 115 Botany**

This course introduces students to plant life and the impact of plants on society including their use as a major food source, as medicine, and in the industrial and recreational world. As an introductory level botany course, topics also include structure, function, growth processes, reproduction, ecology, genetics, and resources derived from the plant world. The course also examines the impact of plant life on society using examples from major agriculture crops such as coffee and chocolate. Students will investigate live specimens of plants with a strong hands-on laboratory component.

**Repeatable:** *N*

**Formerly** 56-1120

**SL**

**Minimum Credits 3 Maximum Credits 3**

## **BIOL 145 Marine Biology**

This class examines the diversity of marine organisms from the smallest worms to predatory sharks to the largest whales, from the deepest trench to the shore. Students will explore the special adaptations that allow organisms to thrive and create the complex web of ocean life. This class contains a lab component; field trips to the Shedd Aquarium; and a final project that incorporates the students' interests, majors, and cultural backgrounds with course material.

**Repeatable:** *N*

**Formerly** 56-1185

**SL**

**Minimum Credits 3 Maximum Credits 3**

## **BUSE 205 Law for Creative Industries**

This course enables future artists, managers and entrepreneurs to better understand legal issues in business dealings in creative industries, and to recognize where legal problems may arise. This is

accomplished through readings and lectures relating to copyright and other intellectual property rights, contracts, licensing agreements, First Amendment issues, agency agreements, and the formation of partnerships and corporations.

**Repeatable:** *N*

**Formerly** 28-2111

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **BUSE 314 Project Management**

Course is intended to familiarize students with fundamentals of project management and their application in the arts. Course will cover a variety of techniques used to manage any type of arts project regardless of scope and industry. An emphasis will be placed on understanding the importance of matching project goals and objectives with the mission of an arts organization or potential funders' interests.

**Repeatable:** *N*

**Formerly** 28-3150

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **BUSE 334 Digital Media Strategies**

This class addresses new and emerging business models and strategies in today's rapidly evolving media industries. Topics include an in depth understanding of social media, online marketing, retail and distribution of digital, audio, and visual content including a la carte download services, subscription, and ad-supported streaming services. Additional topics include e-commerce, web design strategy, mobile retail and promotion, community building, direct to consumer marketing, and a variety of other vital tech-based strategies.

**Repeatable:** *N*

**Formerly** 28-3416

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **BUSE 358 Marketing Data Analytics**

This course explores data analytics and their impact on marketing strategies. Students start with the fundamentals of proprietary social platform insights and move on to more complex consumer observations provided by big data. Students will explore engagement metrics, cost per click, multi-tiered demographics, audience segmentation, return on engagement, customer relationship management, complex targeting structures, behavioral statistics, and email success metrics.

**Repeatable:** *N*

**Formerly** 28-2515

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 234 Cinema Analysis and Criticism**

Course is a writing-and-research-intensive introduction to cinema studies. Students are taught how to write about cinema and media using different approaches including: formal analysis, ideological analysis, and

historical research. In order to focus more on writing and course content, screenings will be limited. The screenings may change at the discretion of the instructor but the nature and number of the assignments will remain the same for each offering of the course.

**Repeatable:** *N*

**Formerly** 24-2500

**Minimum Credits 3 Maximum Credits 3**

## **COMM 102 Communication Essentials**

This hands-on interactive course explores communication perspectives and challenges (verbal and non-verbal) in our diverse culture. Students will practice management of creative communication issues and opportunities we all encounter working with others and in small group settings. Coursework will also investigate particular challenges facing us as ethical and responsible communicators in public, mass, and digital communication settings. Lastly, course will give students a glimpse of the wide range of creative career possibilities in communications fields.

**Repeatable:** *N*

**Formerly** 45-1300

**DEI**

**Minimum Credits 3 Maximum Credits 3**

## **COMM 219 Social Media Content**

This course trains students to create strategic and ethical social media and digital content; develop concise and accurate writing and editing skills; and employ search engine optimized keywords, links, and hashtags to grow audiences and motivate them to action.

**Repeatable:** *N*

**Formerly** 54-2205

**Prerequisites** ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or ENGL 109 Writing and Rhetoric I Stretch B or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

## **FASH 101 Intro to the Fashion Industry**

This course offers students a broad overview of the interrelated fields of product development and merchandising within the fashion industry. This includes an introduction to global markets, fashion production, distribution, and marketing, and apparel business practices.

**Repeatable:** *N*

**Formerly** 27-1100

**Minimum Credits 3 Maximum Credits 3**

## **FASH 283 Sustainable Fashion Practice**

This course provides an overview of sustainable fashion design, merchandising and business practices and develops students' abilities to make informed and ethical decisions at all stages of the fashion process, from ideation to implementation to disposal. The course will include seminars, guest speakers and hands-on exercises in which students will become versed in sustainable materials, supply chain, the lifecycle of clothing and critical design strategies such as upcycling, zero-waste pattern cutting, design for longevity and

craft preservation.

**Repeatable:** *N*

**Prerequisites** FASH 101 Intro to the Fashion Industry

**Minimum Credits 3 Maximum Credits 3**

## **FASH 307 A History of Fashion in 100 Objects**

By decentering the traditionally Eurocentric focus of fashion history, students will come to understand the universality of fashion and how humans throughout history have utilized dress objects to signal status, construct identity and cultivate community. Through regular visits to the Fashion Study Collection, students will also be introduced to the material culture of dress, the evolution of fashion journalism, retail history and developments in manufacturing and construction.

**Repeatable:** *N*

**Formerly** 27-3175

**DEI**

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

## **PHOT 101 Photographic Practice I**

This course introduces students to basic visual grammar of photographic seeing to explore and pursue diverse interests in photography while learning to become an acute observer. Using digital cameras with manual controls and RAW capture, students will learn the craft of making photographs while also being introduced to issues of aesthetic form, historical context, and diverse photographic practices. Students will question, explore, communicate and evaluate using basic photographic concepts and critical-thinking skills while acquiring new sets of technical, conceptual, and formal language that are applicable to many disciplines.

**Repeatable:** *N*

**Formerly** 23-1111

**Minimum Credits 3 Maximum Credits 3**

## **PHOT 102 Photographic Practice II**

This course reinforces the basic understanding of camera functions, exposure and digital workflow that were taught in PHOT101 Photographic Practice I. It introduces the skills necessary to make and analyze high-quality prints and places greater emphasis on color theory. This course reinforces and expands upon critical thinking skills regarding the diversity of contemporary photographic imagery, and helps students to locate their practice within those traditions and innovations.

**Repeatable:** *N*

**Formerly** 23-1112

**Prerequisites** PHOT 101 Photographic Practice I

**Minimum Credits 3 Maximum Credits 3**

## **PURE 102 Intro to Public Relations**

Course is an overview of the historical development and the contemporary techniques of public relations, one of the fastest-growing career fields in our global information society. Through class discussion and case

studies focusing on both actual and creatively imagined situations, students gain insight into the world presented by the major media and learn the importance of research, planning, action, and evaluation, with an emphasis on ethical implications.

**Repeatable:** N

**Formerly** 54-1700

**Minimum Credits 3 Maximum Credits 3**

### **PURE 220 PR Issues and Crisis**

Course provides opportunity for students to enhance their skill set beyond traditional public relations for organizations, products, and services and develop strategic communications skills and tactics for responding to public policy issues and crisis. Students analyze, discuss, and develop case studies on how public relations techniques are applied to issues advocacy and crisis response.

**Repeatable:** Y

**Formerly** 54-2707

**Prerequisites** PURE 102 Intro to Public Relations

**Minimum Credits 3 Maximum Credits 3**

### **PURE 310 Social Change Communications**

Course focuses on emerging communication strategies and techniques to promote social causes and issues. We will look at the inextricable link between public opinion and communication. Through analyses of social causes and issues, students will explore how these practices are creating an impact in areas like social welfare, health, energy, gender, and multiculturalism.

**Repeatable:** N

**Formerly** 54-3714

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

### **TELE 320 Critical Television Theory and Analysis**

This course seeks to master methods of analysis and theory commonly utilized in Television Studies: historic and industrial, auteurism and genre, semiotics and psychoanalysis, postmodernism, feminist, critical race, discourse, and audience reception. In students' aspirations to become professionals in the field of television, understanding how TV operates culturally and socially in a sophisticated manner will ultimately make them better creative artists, producers, managers, screenwriters, etc.

**Repeatable:** Y

**Formerly** 40-3212

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **Minor**

### **Biology Minor**

The minor in Biology is intended for students interested in living organisms, how organisms interact with the environment, and their relationship to our changing planet. The minor seeks to enable students to discover and pursue careers that lie at the intersection of science and the arts, preparing them for areas that benefit from biological knowledge, such as filmmaking, computer animation, marketing careers in the pharmaceutical industry, journalism, illustration, and science writing and editing.

The goal of the Biology Minor is to introduce students to a variety of biological topics emphasizing the breadth and unity of fields within biology. All students will complete core courses in biology and chemistry. Then, based on their particular interests, the student will select additional coursework from the following categories: Cellular and Molecular Biology, Foundations, Organismal, and Integrative Biology.

## PROGRAM REQUIREMENTS - 20 credits required

### **BIOL 101 Introductory Biology**

This course is an introduction to the study of life, at the molecular, cellular, and whole organism levels. It surveys cell structure and function, the principles of genetics, and the diversity of living organisms, including how they grow, how they evolve and adapt, and how they interact with each other and with their environment. Through observation, experimentation, and interpretation of the living world, students develop an understanding of the biological functions that support life. The biological world is examined with particular attention to issues of greater contemporary relevance and impact.

**Repeatable:** *N*

**Formerly** 56-1110

**SL**

**Minimum Credits 4 Maximum Credits 4**

*Choose one of the following courses:*

### **CHEM 101 Liberal Arts Chemistry**

This introductory chemistry course includes the exploration of the high prevalence of chemical occurrences in the world. Topics such as chemical terminology, atomic structure, bonding, reactions, acids and bases, oxidation and reduction, and nuclear chemistry are considered. Materials from organic chemistry, biochemistry, and polymer chemistry are integrated into discussions and lab activities to demonstrate practical application of everyday substances.

**Repeatable:** *N*

**Formerly** 56-1210

**SL**

**Minimum Credits 4 Maximum Credits 4**

### **CHEM 201 General Chemistry I**

General Chemistry I is a laboratory-intensive course. Content of the course includes the foundations of chemistry and problem-solving strategies; atoms, molecules and ions; balancing chemical equations and reaction stoichiometry; types of chemical reactions and solution stoichiometry; gases; thermochemistry; atomic structure and periodicity; chemical bonding and liquids and solids. It is highly recommended that students have had one year of high school chemistry.

**Repeatable:** *N*

**BIOL 115 Botany**

This course introduces students to plant life and the impact of plants on society including their use as a major food source, as medicine, and in the industrial and recreational world. As an introductory level botany course, topics also include structure, function, growth processes, reproduction, ecology, genetics, and resources derived from the plant world. The course also examines the impact of plant life on society using examples from major agriculture crops such as coffee and chocolate. Students will investigate live specimens of plants with a strong hands-on laboratory component.

**Repeatable:** N

**Formerly** 56-1120

**SL**

**Minimum Credits 3 Maximum Credits 3**

**BIOL 125 General Zoology**

This class examines the diversity of the animal kingdom, focusing on the major groups of invertebrates and vertebrates. We will study these animals in an evolutionary context, emphasizing ecology, life history, and morphology. The lab component will include dissections to examine physical differences across the major phyla. It is recommended that students have a strong background of biology in high school or a previous biology course in college (e.g. Biology the Living World, Animal Physiology, Human Physiology, or Marine Biology).

**Repeatable:** N

**Formerly** 56-1125

**SL**

**Minimum Credits 4 Maximum Credits 4**

**BIOL 130 Human Anatomy and Physiology**

This course examines the basic biological concepts of structure and function of the human body. Body systems, such as the cardiovascular, respiratory, nervous, digestive, muscular, skeletal and reproductive will be surveyed. Special topics may include the disease processes that affect the human body, such as cancers and AIDS.

**Repeatable:** N

**Formerly** 56-1170

**SC**

**Minimum Credits 3 Maximum Credits 3**

**BIOL 145 Marine Biology**

This class examines the diversity of marine organisms from the smallest worms to predatory sharks to the largest whales, from the deepest trench to the shore. Students will explore the special adaptations that allow

organisms to thrive and create the complex web of ocean life. This class contains a lab component; field trips to the Shedd Aquarium; and a final project that incorporates the students' interests, majors, and cultural backgrounds with course material.

**Repeatable:** *N*

**Formerly** 56-1185

**SL**

**Minimum Credits 3 Maximum Credits 3**

## **BIOL 150 Animal Behavior**

This course explores the ways in which animals survive, adapt, and respond to changes in their environment. Basic topics covered include animal learning, mechanisms of behavior, foraging, defense against predation, aggression, sensory systems, communication, mating systems, and parental care behavior. Examples from the animal kingdom will be incorporated, including consideration of the roles animals play in the daily lives of humans, and the discovery and meaning of specific animal behaviors.

**Repeatable:** *N*

**Formerly** 56-1420

**SC**

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

## **BIOL 210 Cancer Biology**

This course introduces students to the fundamental aspects of cancer biology. The underlying environmental and genetic causes that lead cells to transform into malignant cancer cells are investigated. Current methods of cancer screening and diagnosis, traditional treatment and cutting-edge therapies are examined and compared. In addition, the course explores possible measures to delay, reduce, and even prevent cancer development. Several specific types of cancers are examined and used as examples to illustrate the process of cell transformation into malignant cancers.

**Repeatable:** *N*

**Formerly** 56-2120

**SL**

**Minimum Credits 4 Maximum Credits 4**

## **BIOL 215 Genetics**

Course is a survey of the basic fundamentals of genetics and their application to contemporary issues. Major topics include DNA structure and replication, the chromosomal basis of inheritance, protein synthesis, and genetic engineering. Special topics may include human development, cloning, stem cell research, DNA fingerprinting, genetic basis of disease, agricultural crop breeding, reproductive technologies, and the conservation of genetic diversity in nature.

**Repeatable:** *N*

**Formerly** 56-2130

**SC**

**Minimum Credits 3 Maximum Credits 3**

## **BIOL 215H Genetics: Honors**

This course is a survey of the fundamentals of genetics and their application to contemporary issues with hands-on, inquiry-based activities. Major topics include DNA structure and replication, the chromosomal basis of inheritance, mutation, gene expression and epigenetics, and utilization of model organisms and genetic technology. Special topics may include ethical issues in genetics, human development and reproductive technologies, stem cell research, DNA fingerprinting, genetic basis of disease, and use of model organisms in genetic research. This is an Honors course and students need a cumulative GPA of 3.50 or higher to register.

**Repeatable:** *N*

**Formerly** 56-2130HN

**SL**

**Requirements** 3.5 or Higher GPA (35GP)

**Minimum Credits 4 Maximum Credits 4**

## **BIOL 225 Microbiology**

The course examines life at the microscopic level and is designed to provide an understanding of microbiology and its connectedness to the human body, environment, medicine, and industry. Topics will include the exploration of the world of bacteria and viruses; microbial growth and control; the impact of the human microbiome; the role of microbes in biotechnology, industry, and agriculture; the rise of antibiotic resistance; and microbial diseases of humans.

**Repeatable:** *N*

**Formerly** 56-2150

**SL**

**Minimum Credits 4 Maximum Credits 4**

*Choose one of the following courses:*

## **BIOL 205 Epidemics**

In this course, students will examine well-known epidemics and investigate classes of pathogens, modes of transmission, pathology of illness, the immune response, and the co-evolution of infectious agents and humans. Students will assess how colonialism, globalization, and other human movements help spread disease. Each epidemic is discussed through the lens of the public health response and the impact of concurrent scientific breakthroughs in addition to the surrounding environment, while also considering the nature and challenges of contemporary global diseases as it relates to multi-faceted responses.

**Repeatable:** *N*

**Formerly** 56-2100

**SC**

**Minimum Credits 3 Maximum Credits 3**

## **BIOL 220 Human Evolution**

This course is a survey of the biological theory of evolution, as related to the human species. Major topics include basic genetics, general biological evolution, comparative anatomy, and primate and hominid evolution. Special topics may include an examination of the evolution of human traits such as language, art, agriculture, and war, and the role of humans in the extinction of other species.

**Repeatable:** *N*

**Formerly** 56-2134

**SC**

**Minimum Credits 3 Maximum Credits 3**

### **BIOL 235H Evolution of Sex: Honors**

Understanding the nature of sex and its relationship to evolution is important in biology. This class will cover sex and sexual selection across the animal and plant kingdoms. We will discuss the nature of science and the influences of culture on science, specifically the role of feminism on our understanding of female choice. Monogamy, polygamy, polyandry, homosexuality and other types of sexual and asexual relationships will be explored in an evolutionary context through primary literature. This is an Honors class. In addition to other possible pre-requisites, students need a minimum G.P.A. of 3.50 or higher to enroll.

**Repeatable:** *N*

**Formerly** 56-2169HN

**SC DEI**

**Requirements** 3.5 or Higher GPA (35GP)

**Minimum Credits 3 Maximum Credits 3**

### **BIOL 245 Ecology**

This course introduces basic principles of ecology- the study of relationships among living organisms, their environment and each other. We examine ecological concepts applied to individuals, populations and communities of both plants and animals. Topics include plant and animal adaptations to the environment, the role environmental factors in the distribution and abundance of organisms, the dynamics of population growth, species interactions including competition and predation, the structure of ecological communities, and the application of ecology to problems in conservation.

**Repeatable:** *N*

**Formerly** 56-2450

**SL**

**Prerequisites** MATH 110 College Mathematics or MATH 115 Liberal Arts Mathematics or MATH 120 Quantitative Reasoning or ACCU-T-67 EXAM-ACCUPLACER MATH MINIMUM SCORE = 67 or ACT-M-23 EXAM-ACT MATH MINIMUM SCORE = 23 or SAT-M-550 EXAM-SAT MATH MINIMUM SCORE = 550 or CMPS-M-67 EXAM-CMPS MATH MINIMUM SCORE = 67 or ALEK-1-46 EXAM-ALEKS MINIMUM SCORE = 46

**Minimum Credits 4 Maximum Credits 4**

### **BIOL 245H Ecology: Honors**

This course introduces basic principles of ecology- the study of relationships among living organisms, their environment and each other. We examine ecological concepts applied to individuals, populations and communities of both plants and animals. Topics include plant and animal adaptations to the environment, the role environmental factors in the distribution and abundance of organisms, the dynamics of population growth, species interactions including competition and predation, the structure of ecological communities, and the application of ecology to problems in conservation. This is an Honors course. In addition to other possible pre-requisites, students need a minimum G.P.A. of 3.50 or higher to enroll.

**Repeatable:** *N*

**Formerly** 56-2450HN

**SL**

**Requirements** 3.5 or Higher GPA (35GP)

**Minimum Credits 4 Maximum Credits 4**

*Choose one of the following courses or any course from the previous elective areas (does not include Liberal Arts Chemistry or General Chemistry I):*

### **BIOL 110 The Biology of AIDS**

The course examines the basic biology of HIV and is designed to provide an understanding of the pathophysiology of HIV/AIDS and its impact on the immune system. Topics will include cell biology, basic genetics, the immune system, virology, and epidemiology and their connection to the development of anti-retroviral drugs and vaccines, testing for and diagnosis of HIV infection, and an understanding of the virus life cycle. HIV/AIDS awareness and prevention via artistic expressions will also be examined.

**Repeatable:** *N*

**Formerly** 56-1117

**SC**

**Minimum Credits 3 Maximum Credits 3**

### **BIOL 140 Biology of the Human Immune System**

What causes illness and maintains health How does the immune system guard against disease These and other important topics of health are discussed. The effects of diet, stress, and drugs are debated, with discussions of AIDS, genetics, cancer, and other related current topics. Students learn to make sound decisions regarding their bodies. Students complete projects integrating their major field of study with topics in health and illness. Laboratory work is a required component of the course.

**Repeatable:** *N*

**Formerly** 56-1182

**SL**

**Minimum Credits 4 Maximum Credits 4**

### **BIOL 165 Sensation & Perception**

Course studies sensation and perception entering the body through sight, hearing, taste, touch, and smell. Course examines the senses as they relate to biology, chemistry, physics, and psychology. Other senses dealing with coordination and balance will be studied also.

**Repeatable:** *N*

**Formerly** 56-1615

**SL**

**Minimum Credits 3 Maximum Credits 3**

### **BIOL 240H Animal Behavior Observational Research Methods: Honors**

This course will meet primarily at Lincoln Park Zoo, with a few on-campus meetings. The course will provide students with a hands-on introduction to animal behavior observational research methods. We will use Chicago's own Lincoln Park Zoo as our laboratory to learn how to use a range of different observational research methods practiced by professionals in the field of animal behavior. This course will introduce students to appropriate experimental design for behavioral research and different sampling methods through discussion of primary literature and hands-on behavioral data collection. Students will use the scientific method from hypothesis formulation to data analysis, discussion, and scientific communication by designing and presenting their own independent behavioral research projects.

It is assumed that students have had some biology and stats in high school or college, and it is suggested that they take BIOL 150 Animal Behavior prior to taking this course. This is an Honors course and students

need a GPA of 3.50 or higher to register.

**Repeatable:** Y

**Formerly** 56-2420HN

**SL**

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Requirements** 3.5 or Higher GPA (35GP)

**Minimum Credits 4 Maximum Credits 4**

## **SCIE 496 Independent Project: Science and Mathematics**

Independent projects are advanced, student-driven learning experiences involving substantial student independence in project design and project execution. Independent projects are appropriate for students who wish to explore a subject on their own beyond what is possible in regular courses offered by the college.

**Repeatable:** Y

**Formerly** 56-3198

**Requirements** Permission Required (DP)

**Minimum Credits 1 Maximum Credits 6**

## **Environmental Studies Minor**

Future global resource limitations require creative responses to ensure a sustainable environment. Environmental Studies integrates natural and physical science in the fields of biology, chemistry, geology, and ecology to understand and address the complex scientific, economic, political, and ethical issues relating to the environment. This minor will provide an integrative scientific literacy that can enhance students' work in their majors.

Thus, the goal of the Environmental Studies minor is to have all students complete coursework and hands-on laboratory experience to gain a comprehensive understanding of natural and physical sciences related to the environment. Students will complete a core course in Environmental Science, then have the option to choose the discipline within the program that they wish to pursue in greater detail. Finally, students are required to complete an independent study project or skill-based class in environmental science depending on their interests.

As a result of successfully completing program requirements, students should be able to:

- understand basic concepts, principles, facts, theories, and unifying concepts in environmental science that enable them to distinguish science from non-science topics;
- recognize the interdisciplinary nature of environmental studies and how it draws upon both the natural sciences and social sciences;
- understand the earth's natural processes and how these impact human civilization;
- explain the human impact on the environment, how we can combat the environmental problems we face, and appreciate what it means to become an informed citizen with regard to the environment; and
- communicate science effectively in both written and oral formats, to think critically and logically and to apply these skills.

## PROGRAM REQUIREMENTS - 21 credits required

### **SCIE 205 Environmental Science**

This course explores the multidisciplinary science of the environment. We focus on contemporary issues such as air and water pollution, global climate change, ozone depletion, acid rain, hazardous and solid waste, alternative energy resources, soils, deforestation, overfishing, biodiversity, and endangered species, and their ecological, economical, and human health impacts. An extensive, hands-on laboratory is a core part of the course.

**Repeatable:** N

**Formerly** 56-2610

**SL**

**Minimum Credits 4 Maximum Credits 4**

*Complete 3 credits from the following courses:*

### **SCIE 305 Environmental Studies Data Interpretation**

This class is an environmental chemistry course which will introduce students to: chemistry sampling and research methods; heavy metals; pesticides; nuclear power; CFCs/the ozone layer and also climate change. This class will have a Chicago emphasis to it and a strong laboratory component that will allow students to learn water, soil and plant techniques as well as toxicology, Atomic Absorption Spectroscopy (AAS), the use of Geographic Information Systems (GIS), and climate change modeling.

**Repeatable:** N

**Prerequisites** SCIE 205 Environmental Science and MATH 205 Introduction to Statistics and ENGL 112 Writing and Rhetoric II or SCIE 205 Environmental Science and MATH 205 Introduction to Statistics and ENGL 112H Writing and Rhetoric II: Honors or SCIE 205 Environmental Science and MATH 205 Introduction to Statistics and ENGL 122 International Writing and Rhetoric II

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **SCIE 496 Independent Project: Science and Mathematics**

Independent projects are advanced, student-driven learning experiences involving substantial student independence in project design and project execution. Independent projects are appropriate for students who wish to explore a subject on their own beyond what is possible in regular courses offered by the college.

**Repeatable:** Y

**Formerly** 56-3198

**Requirements** Permission Required (DP)

**Minimum Credits 1 Maximum Credits 6**

*Choose two of the following courses:*

### **BIOL 101 Introductory Biology**

This course is an introduction to the study of life, at the molecular, cellular, and whole organism levels. It surveys cell structure and function, the principles of genetics, and the diversity of living organisms, including how they grow, how they evolve and adapt, and how they interact with each other and with their

environment. Through observation, experimentation, and interpretation of the living world, students develop an understanding of the biological functions that support life. The biological world is examined with particular attention to issues of greater contemporary relevance and impact.

**Repeatable:** *N*

**Formerly** 56-1110

**SL**

**Minimum Credits 4 Maximum Credits 4**

## **BIOL 245 Ecology**

This course introduces basic principles of ecology- the study of relationships among living organisms, their environment and each other. We examine ecological concepts applied to individuals, populations and communities of both plants and animals. Topics include plant and animal adaptations to the environment, the role environmental factors in the distribution and abundance of organisms, the dynamics of population growth, species interactions including competition and predation, the structure of ecological communities, and the application of ecology to problems in conservation.

**Repeatable:** *N*

**Prerequisites** MATH 110 College Mathematics or MATH 115 Liberal Arts Mathematics or MATH 120 Quantitative Reasoning or ACCU-T-67 EXAM-ACCUPLACER MATH MINIMUM SCORE = 67 or ACT-M-23 EXAM-ACT MATH MINIMUM SCORE = 23 or SAT-M-550 EXAM-SAT MATH MINIMUM SCORE = 550 or CMPS-M-67 EXAM-CMPS MATH MINIMUM SCORE = 67 or ALEK-1-46 EXAM-ALEKS MINIMUM SCORE = 46

**Minimum Credits 4 Maximum Credits 4**

## **BIOL 245H Ecology: Honors**

This course introduces basic principles of ecology- the study of relationships among living organisms, their environment and each other. We examine ecological concepts applied to individuals, populations and communities of both plants and animals. Topics include plant and animal adaptations to the environment, the role environmental factors in the distribution and abundance of organisms, the dynamics of population growth, species interactions including competition and predation, the structure of ecological communities, and the application of ecology to problems in conservation. This is an Honors course. In addition to other possible pre-requisites, students need a minimum G.P.A. of 3.50 or higher to enroll.

**Repeatable:** *N*

**Formerly** 56-2450HN

**SL**

**Requirements** 3.5 or Higher GPA (35GP)

**Minimum Credits 4 Maximum Credits 4**

## **CHEM 101 Liberal Arts Chemistry**

This introductory chemistry course includes the exploration of the high prevalence of chemical occurrences in the world. Topics such as chemical terminology, atomic structure, bonding, reactions, acids and bases, oxidation and reduction, and nuclear chemistry are considered. Materials from organic chemistry, biochemistry, and polymer chemistry are integrated into discussions and lab activities to demonstrate practical application of everyday substances.

**Repeatable:** *N*

**Formerly** 56-1210

**SL**

**Minimum Credits 4 Maximum Credits 4**

## **EASC 101 Geology: Earth as a Planet**

This course examines the basic scientific principles governing Earth and its operation. Through numerous hands-on activities, students study earth materials and how they form, surface processes and how they shape the land, and internal processes and how they lead to earthquakes, volcanic activity, and even movement of whole continents. Topics also include geologic time, the history of Earth and life on it, climate and climate change, and the impact of human activities on Earth.

**Repeatable:** *N*

**Formerly** 56-1310

**SL**

**Minimum Credits 4 Maximum Credits 4**

*Choose two of the following courses:*

## **BIOL 115 Botany**

This course introduces students to plant life and the impact of plants on society including their use as a major food source, as medicine, and in the industrial and recreational world. As an introductory level botany course, topics also include structure, function, growth processes, reproduction, ecology, genetics, and resources derived from the plant world. The course also examines the impact of plant life on society using examples from major agriculture crops such as coffee and chocolate. Students will investigate live specimens of plants with a strong hands-on laboratory component.

**Repeatable:** *N*

**Formerly** 56-1120

**SL**

**Minimum Credits 3 Maximum Credits 3**

## **BIOL 120 Introduction to Horticulture**

This laboratory course will be taught at the Garfield Park Conservatory and will address the science and art of cultivating fruits, vegetables, and ornamental plants; the functional uses of plants: aesthetics, food, industry, recreation; and growing and using horticultural plants and consumer and environmental issues related to horticulture in daily living.

**Repeatable:** *N*

**Formerly** 56-1121

**SL**

**Minimum Credits 3 Maximum Credits 3**

## **BIOL 145 Marine Biology**

This class examines the diversity of marine organisms from the smallest worms to predatory sharks to the largest whales, from the deepest trench to the shore. Students will explore the special adaptations that allow organisms to thrive and create the complex web of ocean life. This class contains a lab component; field trips to the Shedd Aquarium; and a final project that incorporates the students' interests, majors, and cultural

backgrounds with course material.

**Repeatable:** *N*

**Formerly** 56-1185

**SL**

**Minimum Credits 3 Maximum Credits 3**

### **BIOL 150 Animal Behavior**

This course explores the ways in which animals survive, adapt, and respond to changes in their environment. Basic topics covered include animal learning, mechanisms of behavior, foraging, defense against predation, aggression, sensory systems, communication, mating systems, and parental care behavior. Examples from the animal kingdom will be incorporated, including consideration of the roles animals play in the daily lives of humans, and the discovery and meaning of specific animal behaviors.

**Repeatable:** *N*

**Formerly** 56-1420

**SC**

**Minimum Credits 3 Maximum Credits 3**

### **BIOL 225 Microbiology**

The course examines life at the microscopic level and is designed to provide an understanding of microbiology and its connectedness to the human body, environment, medicine, and industry. Topics will include the exploration of the world of bacteria and viruses; microbial growth and control; the impact of the human microbiome; the role of microbes in biotechnology, industry, and agriculture; the rise of antibiotic resistance; and microbial diseases of humans.

**Repeatable:** *N*

**Formerly** 56-2150

**SL**

**Minimum Credits 4 Maximum Credits 4**

### **CHEM 110 Concepts of Biochemistry**

Includes basic chemical and biochemical principles and an insight on the latest breakthroughs in the field. Topics may include functioning of metabolism, cell signaling, hemoglobin abnormalities, DNA and ancestry, cloning, etc. Specially designed laboratory experiments help the student to discover the hidden side of life. The student will be able to make connections between bio-molecules and functioning of living organisms, disease, forensic tests, environmental issues, and biotechnology.

**Repeatable:** *N*

**Formerly** 56-1215

**SL**

**Minimum Credits 4 Maximum Credits 4**

### **EASC 105 Oceanography and the Marine Environment**

This introductory course explores the oceans of the world, the living organisms of the ocean, and the vast mineral wealth of the ocean floor. New discoveries in the ocean sciences are discussed. The dynamic, growing field of oceanography and the physical, chemical, and biological aspects of oceans are investigated.

**Repeatable:** *N*  
**Formerly** 56-1311  
**SC**  
**Minimum Credits 3 Maximum Credits 3**

### **EASC 110H The Science of Global Change: Honors**

This course examines the idea of global environmental change and the mechanisms by which global change occurs. We will use an approach combining Earth history with modern Earth processes (Earth systems) to understand changes in the physical environment like plate movement and climate change, and changes in the biological environment like evolution and extinction. We will analyze some of the relationships between physical and biological changes on Earth (physical mechanisms for extinction, biological inputs to climate change, and others). Students will be challenged to use their knowledge to better inform public awareness of global change, and public policy on global change issues.

**Repeatable:** *N*  
**Formerly** 56-1312  
**SC**  
**Requirements** 3.5 or Higher GPA (35GP)  
**Minimum Credits 3 Maximum Credits 3**

### **EASC 115 Natural Disasters**

Both geologic and climatic natural disasters are explored in this course. Central focus is on causes and effects of disasters, particularly on the results of human attempts to prepare for these disasters. Topics include meteorite impacts, volcanoes, earthquakes, landslides, floods, and the effects of floods on human and animal life.

**Repeatable:** *N*  
**Formerly** 56-1320  
**SC**  
**Minimum Credits 3 Maximum Credits 3**

### **EASC 120 Meteorology**

This course provides an introduction to the dynamics of the atmosphere and the methods of forecasting weather. Topics include theories of Earth's climate, effects of pollution on the weather, applications to marine and aviation agencies, and careers in meteorology. Activities include graphing, weather forecasting, and maintenance of a weather log.

**Repeatable:** *N*  
**Formerly** 56-1330  
**SC**  
**Minimum Credits 3 Maximum Credits 3**

### **EASC 140H Paleontology Field Observation & Methods: Honors**

This course provides a hands-on introduction to paleontology field methods, including fossil reconnaissance, identification, and collection during a two-week field expedition to the Petrified Forest National Park, Arizona. You will learn about the paleontology and geology of the park by reading and interpreting popular and scientific literature. Emphasis will be placed on detailed observation and documentation of vertebrate fossils and geologic context in a field notebook that will provide the basis for a final project interpreting your field

experience.

**Repeatable:** *N*

**Formerly** 56-1354HN

**SL**

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

## **HUMA 222 Nature and Environmentalism in U.S. Culture**

This course explores the relationship between humans and the non-human natural world, emphasizing popular conceptions of nature in American culture and the way in which the very notion of nature itself is a profoundly human conception. We can never really know the natural world "out there." Rather the natural world that we seek to understand, even conserve and protect, can only ever be understood through the lens of our social and cultural imagination. What are the socio-cultural manifestations of nature, and how do these manifestations affect the uses and/or abuses of nature in American society?

**Repeatable:** *N*

**Formerly** 51-2225

**HU**

**Minimum Credits 3 Maximum Credits 3**

## **MATH 205 Introduction to Statistics**

This course provides a foundation in the principles of statistics, with examples drawn from a variety of sources providing context. Topics include sampling and data collection, averages, measures of variation, confidence intervals, hypothesis testing, correlation, and linear regression.

**Repeatable:** *N*

**Formerly** 56-2706

**MA**

**Prerequisites** MATH 110 College Mathematics or MATH 115 Liberal Arts Mathematics or MATH 120 Quantitative Reasoning or ACCU-T-67 EXAM-ACCUPLACER MATH MINIMUM SCORE = 67 or ACT-M-23 EXAM-ACT MATH MINIMUM SCORE = 23 or SAT-M-550 EXAM-SAT MATH MINIMUM SCORE = 550 or CMPS-M-67 EXAM-CMPS MATH MINIMUM SCORE = 67 or ALEK-1-46 EXAM-ALEKS MINIMUM SCORE = 46

**Minimum Credits 3 Maximum Credits 3**

## **Health and Wellness Minor**

The Health and Wellness Minor educates students on the physiological, environmental, and psychosocial components that impact personal health and well-being. The minor promotes an evidence-based mindset and the acquisition of practical life skills that could empower students to reflect on their own well-being and evaluate their health-related behaviors. The Science and Mathematics Department hosts the core classes of personal wellness, nutrition, and human anatomy to provide students a solid foundation in the physiological component of health. In this interdisciplinary minor, students also choose from a selection of environmental science courses as well as courses in psychology and sociology.

## **PROGRAM REQUIREMENTS - 21 credits required**

### **BIOL 130 Human Anatomy and Physiology**

This course examines the basic biological concepts of structure and function of the human body. Body systems, such as the cardiovascular, respiratory, nervous, digestive, muscular, skeletal and reproductive will be surveyed. Special topics may include the disease processes that affect the human body, such as cancers and AIDS.

**Repeatable:** *N*

**Formerly** 56-1170

**SC**

**Minimum Credits 3 Maximum Credits 3**

### **SCIE 132 Personal Wellness**

This science course focuses on a holistic approach to health management. You will learn to assess your current wellness status and how to make improvements where necessary. Topics include exercise science, nutrition, self-esteem, mental health, stress management, relationships, effective communications, violence, sexuality, chronic diseases, and addictions. Some classes require mild to moderate movement.

**Repeatable:** *N*

**Formerly** BIOL 160

**SC**

**Minimum Credits 3 Maximum Credits 3**

### **SCIE 133 Nutrition**

Course provides an overview of the basic nutrients required by the body for health and life. The role of nutrition in various phases of the life cycle and the psychological and sociological implications of food are discussed. Emphasis is placed on dispelling common nutrition myths and on questioning nutrition information presented in the media.

**Repeatable:** *N*

**Formerly** BIOL 155

**SC**

**Minimum Credits 3 Maximum Credits 3**

### **Physiology/Biology Elective**

*Choose one of the following courses:*

#### **BIOL 105 Biology of Human Reproduction**

The course examines the biological aspects of sexuality from a structural, functional, and evolutionary standpoint. Topics may include anatomy and physiology of the reproductive organs, human sexual response, reproductive hormones, birth control and infertility, pregnancy and birth, sexual disorders and sexually transmitted diseases, human inheritance and genetic counseling, evolution of human sexual behavior, and other related issues from a biological perspective.

**Repeatable:** *N*

**Formerly** 56-1115

**SC**

**Minimum Credits 3 Maximum Credits 3**

## **BIOL 140 Biology of the Human Immune System**

What causes illness and maintains health How does the immune system guard against disease These and other important topics of health are discussed. The effects of diet, stress, and drugs are debated, with discussions of AIDS, genetics, cancer, and other related current topics. Students learn to make sound decisions regarding their bodies. Students complete projects integrating their major field of study with topics in health and illness. Laboratory work is a required component of the course.

**Repeatable:** *N*

**Formerly** 56-1182

**SL**

**Minimum Credits 4 Maximum Credits 4**

## **BIOL 165 Sensation & Perception**

Course studies sensation and perception entering the body through sight, hearing, taste, touch, and smell. Course examines the senses as they relate to biology, chemistry, physics, and psychology. Other senses dealing with coordination and balance will be studied also.

**Repeatable:** *N*

**Formerly** 56-1615

**SL**

**Minimum Credits 3 Maximum Credits 3**

## **BIOL 210 Cancer Biology**

This course introduces students to the fundamental aspects of cancer biology. The underlying environmental and genetic causes that lead cells to transform into malignant cancer cells are investigated. Current methods of cancer screening and diagnosis, traditional treatment and cutting-edge therapies are examined and compared. In addition, the course explores possible measures to delay, reduce, and even prevent cancer development. Several specific types of cancers are examined and used as examples to illustrate the process of cell transformation into malignant cancers.

**Repeatable:** *N*

**Formerly** 56-2120

**SL**

**Minimum Credits 4 Maximum Credits 4**

## **BIOL 235H Evolution of Sex: Honors**

Understanding the nature of sex and its relationship to evolution is important in biology. This class will cover sex and sexual selection across the animal and plant kingdoms. We will discuss the nature of science and the influences of culture on science, specifically the role of feminism on our understanding of female choice. Monogamy, polygamy, polyandry, homosexuality and other types of sexual and asexual relationships will be explored in an evolutionary context through primary literature. This is an Honors class. In addition to other possible pre-requisites, students need a minimum G.P.A. of 3.50 or higher to enroll.

**Repeatable:** *N*

**Formerly** 56-2169HN

**SC DEI**

**Requirements** 3.5 or Higher GPA (35GP)

*Choose one of the following courses:*

### **BIOL 110 The Biology of AIDS**

The course examines the basic biology of HIV and is designed to provide an understanding of the pathophysiology of HIV/AIDS and its impact on the immune system. Topics will include cell biology, basic genetics, the immune system, virology, and epidemiology and their connection to the development of anti-retroviral drugs and vaccines, testing for and diagnosis of HIV infection, and an understanding of the virus life cycle. HIV/AIDS awareness and prevention via artistic expressions will also be examined.

**Repeatable:** *N*

**Formerly** 56-1117

**SC**

**Minimum Credits 3 Maximum Credits 3**

### **BIOL 205 Epidemics**

In this course, students will examine well-known epidemics and investigate classes of pathogens, modes of transmission, pathology of illness, the immune response, and the co-evolution of infectious agents and humans. Students will assess how colonialism, globalization, and other human movements help spread disease. Each epidemic is discussed through the lens of the public health response and the impact of concurrent scientific breakthroughs in addition to the surrounding environment, while also considering the nature and challenges of contemporary global diseases as it relates to multi-faceted responses.

**Repeatable:** *N*

**Formerly** 56-2100

**SC**

**Minimum Credits 3 Maximum Credits 3**

### **BIOL 225 Microbiology**

The course examines life at the microscopic level and is designed to provide an understanding of microbiology and its connectedness to the human body, environment, medicine, and industry. Topics will include the exploration of the world of bacteria and viruses; microbial growth and control; the impact of the human microbiome; the role of microbes in biotechnology, industry, and agriculture; the rise of antibiotic resistance; and microbial diseases of humans.

**Repeatable:** *N*

## **Social Sciences Electives**

*Choose one of the following courses:*

### **EDUC 115 Human Development Across the Lifespan**

Students survey theories of holistic human development spanning the cognitive, physical, and social emotional domains. Emphasis is on the earlier stages of development, but encompasses the entire lifespan. Attention will be given to the application of theory to personal experience; the impact of an anti-bias approach; and the role of family, culture, and community on development.

**Repeatable:** *N*

**Formerly** 38-1125

**SS**

**Minimum Credits 3 Maximum Credits 3**

## **HUMA 104 Introduction to Women's, Gender and Sexuality Studies**

This course will introduce students to the broad variety of scholarship on women through an interdisciplinary approach. The course will begin with an exploration of the history of women's rights movements. It continues with the examination of the social construction of gender, gender roles, sexuality and power. With this background, we will explore a wide variety of topics, ranging from media to spirituality, using the tools of feminist analysis.

**Repeatable:** *N*

**Formerly** 51-1211

**HU DEI PL**

**Minimum Credits 3 Maximum Credits 3**

## **PSYC 101 Introduction to Psychology**

Course introduces the field of psychology and its basic concepts, theories, research methods, and contributions to the understanding of human behavior. Topics include the nervous system, perception, motivation, learning and memory, social behavior, personality, developmental, and clinical psychology. The past and current theories and contributions of major psychologists are explored.

**Repeatable:** *N*

**Formerly** 50-1401

**SS**

**Minimum Credits 3 Maximum Credits 3**

## **SOCI 110 Social Problems in American Society**

Course critically examines major contemporary social problems from the perspectives of social institutions, culture, inequality, socioeconomic, racial and ethnic groups, special interest organizations, political and economic structures, and social policy. Content analyzes various causes of several major problems including physical health, chemical dependency, crime, poverty, family, discrimination, and urban problems. Course explores the impact social problems have on different groups and discusses possible solutions to social problems.

**Repeatable:** *N*

**Formerly** 50-1510

**SS PL**

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

## **ECON 311 Irrational Economics: Why We Make Bad Decisions**

We may not be the rational calculating machines maximizing their satisfaction to perfection, as economists would like to believe. This course sheds lights on the psychological and evolutionary foundation of our apparently irrational economic decisions. A more nuanced understanding of the intricacies of our decision-making process could potentially inform an array of policies that would improve our well-being.

**Formerly** 50-3203

**SS**

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL

122 International Writing and Rhetoric II  
**Minimum Credits 3 Maximum Credits 3**

### **ECON 311H Irrational Economics: Why We Make Bad Decisions: Honors**

We may not be the rational calculating machines maximizing their satisfaction to perfection, as economists would like to believe. This course sheds lights on the psychological and evolutionary foundation of our apparently irrational economic decisions. A more nuanced understanding of the intricacies of our decision-making process could potentially inform an array of policies that would improve our well-being. This is an Honors class. In addition to other possible pre-requisites, students need a minimum G.P.A. of 3.50 or higher to enroll.

**Repeatable:** *N*

**Formerly** 50-3203HN

**SS**

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Requirements** 3.5 or Higher GPA (35GP)

**Minimum Credits 3 Maximum Credits 3**

### **PSYC 211 Abnormal Psychology**

Content covers assessment, description, theory, research, causes, and treatments of various psychological maladaptive behaviors and disorders. Some mental health problems studied include anxiety disorders, depression, neuroses, psychoses. Students learn of classifications and definitions of mental illness and acquire a broader understanding of human nature.

**Repeatable:** *N*

**Formerly** 50-2402

**SS**

**Minimum Credits 3 Maximum Credits 3**

### **PSYC 212 Self Identity and the Mind-Brain Question**

A study in the interrelationship between the workings of the brain and the life of the mind; the incredible experience of neurology transforming into a mental happening. Particular attention will be placed on two questions. Is self a spirit, a computer, a material quality of reflective consciousness? Are people by nature determined to be selfish? These considerations will be placed in the context of the possibilities of the future for the human species.

**Repeatable:** *N*

**Formerly** 50-2403

**SS**

**Minimum Credits 3 Maximum Credits 3**

### **PSYC 214 The Evolution of the Mind**

The human mind is a product of biological and cultural evolution. This course will study the philosophical and psychological implications of this claim. What makes the human mind unique, compared with those aspects of mind we share with non-human animals? What is the relationship between emotion and thought? What are the successes and failures of evolutionary psychology and philosophy of mind? Are religion and ethics products of the evolution of the mind?

**Repeatable:** *N*

**Formerly** 50-2410

**SS**

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

## **PSYC 214H The Evolution of the Mind: Honors**

The human mind is a product of biological and cultural evolution. This course will study the philosophical and psychological implications of this claim. What makes the human mind unique, compared with those aspects of mind we share with non-human animals? What is the relationship between emotion and thought? What are the successes and failures of evolutionary psychology and philosophy of mind? Are religion and ethics products of the evolution of the mind? This is an Honors course and, in addition to other possible pre-requisites, students need a minimum GPA of 3.50 to enroll.

**Repeatable:** *N*

**Formerly** 50-2410HN

**SS**

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Requirements** 3.5 or Higher GPA (35GP)

**Minimum Credits 3 Maximum Credits 3**

## **PSYC 215H Emotions:Honors**

The emotions play a significant role in our inner lives. Sometimes the emotions act in concert with our cognitive decision-making, and sometimes they crash over our rational thinking like uncontrollable storms. Emotions influence and fuel our behavior, values, art, and other aspects of culture. Yet, systematic study of emotions is quite recent. In this course we will examine Western psychology and philosophy of emotions. This is an Honors class. In addition to other possible pre-requisites, students need a minimum G.P.A. of 3.50 or higher to enroll.

**Repeatable:** *N*

**Formerly** 50-2411HN

**SS**

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Requirements** 3.5 or Higher GPA (35GP)

**Minimum Credits 3 Maximum Credits 3**

## **Mathematics Minor**

Mathematics involves both purely abstract concepts as well as practical topics with applications to a variety of fields, including the natural sciences, the social sciences, computer science, and technology. Mathematics helps us to understand the world by providing a coherent and efficient language in which real phenomena can be described and modeled, and it provides powerful tools that we can use to help implement our ideas.

The goal of the mathematics minor is to introduce students to some of the many topics used in mathematics, with an emphasis on applications. All students will complete a three-semester sequence in calculus. Then, based on individual interests, each student will select additional courses from the more advanced topics.

As a result of successfully completing program requirements, students should be able to:

- solve problems using the major concepts, theorems, and techniques of the mathematical subject areas included in the required and elective courses; and
- apply mathematical and analytical skills to solve problems in a variety of contexts.

## PROGRAM REQUIREMENTS - 20 credits required

### **MATH 220 Calculus I**

In the first course of the Calculus sequence, students will briefly review essential precalculus topics and then study the fundamental concepts of Calculus—the limit, derivative, and integral. Topics include techniques for calculating limits; continuity; the definition of the derivative; derivatives of polynomial and rational functions; the chain rule; implicit differentiation; Rolle's and the mean value theorems; applications of the derivative; antiderivatives; the calculus of trigonometric, logarithmic, and exponential functions; the definite integral; and the fundamental theorem of calculus.

**Repeatable:** *N*

**Formerly** 56-2720

**MA**

**Prerequisites** MATH 215 Precalculus or ACCU-T-80 EXAM-ACCUPLACER MATH MINIMUM SCORE = 80 or ACT-M-27 EXAM-ACT MATH MINIMUM SCORE = 27 or SAT-M-620 EXAM-SAT MATH MINIMUM SCORE = 620 or CMPS-M-80 EXAM-CMPS MATH MINIMUM SCORE = 80 or ALEK-1-76 EXAM-ALEKS MINIMUM SCORE = 76

**Minimum Credits 4 Maximum Credits 4**

### **MATH 221 Calculus II**

In the second course of the Calculus sequence, students will study integration techniques and applications of the integral and will analyze the behavior and properties of sequences and series. Topics include area, volume, and other applications of the integral; techniques of integration, including numerical methods, substitution, integration by parts, trigonometric substitution, and partial fractions; indeterminate forms and L'Hôpital's rule; improper integrals; sequences and series; convergence tests; and Taylor and MacLaurin series.

**Repeatable:** *N*

**Formerly** 56-2721

**MA**

**Prerequisites** MATH 220 Calculus I or MATH 220H Calculus I: Honors

**Minimum Credits 4 Maximum Credits 4**

### **MATH 320 Calculus III**

In the third course of the Calculus sequence, students learn to extend the ideas of single-variable Calculus to functions of several variables. Topics include vectors and their operations; functions of several variables; partial derivatives; directional derivatives and gradients; double and triple integrals; vector fields; and Green's theorem.

**Repeatable:** *N*

**Formerly** 56-3710

**MA**

**Prerequisites** MATH 221 Calculus II

**Minimum Credits** 3 **Maximum Credits** 3

*Complete 9 credits from the following courses:*

### **MATH 305 Discrete Mathematics**

Discrete Mathematics is the study of mathematical structures that have distinct, separated values. Topics include mathematical proof, logic, set theory, functions, relations, counting methods, and graph theory.

**Repeatable:** *N*

**Formerly** 56-3700

**MA**

**Prerequisites** MATH 220 Calculus I or MATH 220H Calculus I: Honors

**Minimum Credits** 3 **Maximum Credits** 3

### **MATH 310 Linear Algebra**

Linear algebra is the study of vector spaces and transformations on them. This course emphasizes techniques of computation and applications. Topics include systems of linear equations, matrix algebra, eigenvalues and eigenspaces, and inner product spaces. Applications typically include polynomial interpolation, electrical networks, cryptography, computer graphics, Markov chains, and approximation of functions including Fourier methods.

**Repeatable:** *N*

**Formerly** 56-3740

**MA**

**Prerequisites** MATH 220 Calculus I or MATH 220H Calculus I: Honors

**Minimum Credits** 4 **Maximum Credits** 4

### **MATH 330 Elementary Differential Equations**

Differential Equations is the study of methods of solving equations involving differentials (derivatives). The course concentrates on differential equations of first order and second order; simultaneous, linear, and homogeneous differential equations; solutions by power series; Laplace transforms and applications.

**Repeatable:** *N*

**Formerly** 56-3720

**MA**

**Prerequisites** MATH 221 Calculus II

**Minimum Credits** 3 **Maximum Credits** 3

### **MATH 340 Numerical Analysis**

This course covers numerical methods and computer programming to investigate questions in science and engineering fields. These methods include root finding for nonlinear equations, interpolation, approximation of functions with polynomials, numerical differentiation and integration, numerical solutions of ordinary differential equations and numerical methods for solving systems of equations. The course analyzes algorithms and discusses applicability and accuracy of numerical methods. Some knowledge of computer

programming is required.

**Repeatable:** *N*

**Formerly** 56-3730

**MA**

**Prerequisites** MATH 221 Calculus II and PROG 101 Programming I

**Minimum Credits 4 Maximum Credits 4**

## **MATH 495 Directed Study: Mathematics**

Directed studies are learning activities involving student independence within the context of regular guidance and direction from a faculty advisor. Directed studies are appropriate for students who wish to explore a subject beyond what is possible in regular courses or for students who wish to engage in a subject or activity not otherwise offered that semester by the college.

**Repeatable:** *Y*

**Requirements** Permission Required (DP)

**Minimum Credits 1 Maximum Credits 4**

# **Liberal Arts and Sciences**

## **Audio Arts and Acoustics**

### **Bachelor of Arts**

### **Audio Arts, BA**

With roots in the sciences of acoustics, hearing/perception, and analog/digital electronic technologies, and in the arts and practices of sound recording, design, production and post-production, and reinforcement, the BA in Audio Arts prepares students for creative and professional success in a multifaceted, rapidly evolving 21st-century audio landscape. The core coursework in the program provides a solid foundation in the general theories and practices of audio, and it also exposes students to the broad, diverse manifestations of audio that permeate every facet of contemporary society. Through this process, students discover (or confirm) their passions and aptitudes in audio, which leads them to choose one of four concentrations: music recording, live sound reinforcement, audiovisual systems integration, or audio and sound design.

As a result of successfully completing program requirements, students should be able to:

- demonstrate an understanding of the basic principles of musical acoustics and auditory perception;
- demonstrate a critical awareness regarding the cultural, social, and historical context of the audio arts; and
- evaluate sound quality or utility and correct any deficiencies using appropriate technical means.

## **PROGRAM REQUIREMENTS - 51-53 credits required**

### **AUDI 102 Introduction to Audio**

This course provides an overview of the world of sound and audio in its various manifestations, including music, communications, sound in linear and non-linear media, sound art, and sonification. It introduces students to basic concepts and terminology related to sound, audio, and audio equipment and systems, but it is not a theory course. Rather, the course examines aspects of our sonic world through the lenses of audio production, live sound reinforcement, and acoustics, constructing a survey of practices and trends, practitioners, and examples; of history, context, and politics; and of art and aesthetics. Along the way it challenges students to examine and open themselves to difference ways of listening. This course is open to all majors.

**Repeatable:** *N*

**Formerly** 43-1111

**Minimum Credits 3 Maximum Credits 3**

### **AUDI 103 Audio Theory and Systems**

This course immerses students in the language, theories, and technical knowledge common to all fields in which audio is used. Topics include sound waves and propagation, the analog and digital audio signal, signal analysis and processing (frequency, amplitude and time-based), and basic audio systems (transducers, amplifiers, mixers). To contextualize these theoretical aspects, students are introduced to equipment used in professional audio systems from a technical and functional point of view.

**Repeatable:** *N*

**Formerly** 43-1112

**Prerequisites** AUDI 102 Introduction to Audio

**Concurrent Requisite** PHYS 215 The Science of Acoustics I

**Minimum Credits 3 Maximum Credits 3**

### **AUDI 104 Audio Electronics**

In this course, students build simple audio components to understand the electronics fundamentals that drive complex audio systems. Students also gain proficiency with an understanding of the quantitative relationship between the basic elements of electricity (voltage, resistance, current, and power) as they pertain to the projects they are building.

**Repeatable:** *N*

**Formerly** 43-1182

**Prerequisites** MATH 110 College Mathematics or MATH 115 Liberal Arts Mathematics or MATH 120 Quantitative Reasoning or ACCU-T-67 EXAM-ACCUPLACER MATH MINIMUM SCORE = 67 or ACT-M-23 EXAM-ACT MATH MINIMUM SCORE = 23 or SAT-M-550 EXAM-SAT MATH MINIMUM SCORE = 550 or ALEK-1-46 EXAM-ALEKS MINIMUM SCORE = 46

**Minimum Credits 2 Maximum Credits 2**

### **AUDI 105 Signal Flow and Gain Structure**

This 1 credit course will introduce students to signal flow and gain structure in small (2-4 channel) to large (16 channel) mixing consoles with playback on shared speakers/headphones and patching to and from select outboard equipment (reverb unit, cue/monitor, etc.). Projects and assignments will be done during class. Homework will include readings. Tests will be practical as well as written (vocabulary, application concepts).

**Repeatable:** *N*

**Minimum Credits 1 Maximum Credits 1**

## **AUDI 121 Fundamentals of Audio Production**

Course introduces students to basic theories and techniques of recording, editing, and mixing. Instruction covers fundamentals of microphone usage, signal flow, and non-linear digital recording and editing. Course is taught in a classroom laboratory where lectures and labs focus on the production of short-form audio works of voice, music, and sound effects to develop and improve engineering and production skills.

**Repeatable:** *N*

**Formerly** 43-1115

**Minimum Credits** 3 **Maximum Credits** 3

## **AUDI 202 Studies in Hearing**

This course introduces students to the fundamentals of human hearing physiology as well as issues relating to hearing loss and conservation. It is important for any audio professional to understand how complex and delicate the human hearing system is. We must also realize the significance of the fact that society is, only now, beginning to address the problem of environmentally induced hearing loss. The first part of the course will address hearing physiology. Course will focus on the mechanical systems of hearing, starting with the reception of acoustic energy and ending with the delivery of neural signals to the brain. This will give students the necessary foundation knowledge to engage in presentations and discussions covering the topics of hearing loss and conservation.

**Repeatable:** *N*

**Formerly** 43-2725

**Prerequisites** AUDI 103 Audio Theory and Systems

**Minimum Credits** 3 **Maximum Credits** 3

## **AUDI 301 History of Audio**

This course offers students an exposition of the history and evolution of audio technologies and practices, while also engaging students in an active process of analysis and critique through different lenses (such as aesthetic, technological, sociocultural, political, and economic). The course enables students to deepen their awareness and appreciation of the historical dimensions and trajectories of audio theory, technology, practice, and aesthetics, while also revealing and drawing attention to deeper and more critical themes and issues, that might range from technological debates (e.g. acoustical vs. electrical recording, fidelity vs. convenience, different values and approaches toward production) to sociocultural, political (e.g. issues of access and affordance, diversity, intellectual property).

**Repeatable:** *N*

**Formerly** 43-2720

**Prerequisites** AUDI 103 Audio Theory and Systems

**Minimum Credits** 3 **Maximum Credits** 3

## **PHYS 215 The Science of Acoustics I**

The course introduces the physics of vibrating systems, waves and sound. Topics include the sound spectrum, how the ear works, the transmission of sound through fluids at different temperatures and through different materials and the Doppler effect. The properties of reflection, refraction, diffraction and interference are studied with special emphasis on resonance, standing waves and the Inverse Square Law of the intensity of sound. The course concludes with an introduction to auditorium acoustics and basic electricity used in the operation of speakers and microphones.

**Repeatable:** *N*

**Formerly** 56-2820

**SL**

**Prerequisites** MATH 110 College Mathematics or MATH 115 Liberal Arts Mathematics or MATH 120 Quantitative Reasoning or ACCU-T-67 EXAM-ACCUPLACER MATH MINIMUM SCORE = 67 or ACT-M-23 EXAM-ACT MATH MINIMUM SCORE = 23 or SAT-M-550 EXAM-SAT MATH MINIMUM SCORE = 550 or CMPS-M-67 EXAM-CMPS MATH MINIMUM SCORE = 67 or ALEK-1-46 EXAM-ALEKS MINIMUM SCORE = 46

**Minimum Credits 3 Maximum Credits 3**

## **PROG 110 Art of Code**

Develop projects specific to your major as you learn a disciplined approach to problem-solving and algorithm development with programming. Topics covered throughout the semester include data abstraction, procedural structures, sequence control, repetition, and best practices.

**Repeatable:** *N*

**Formerly** 36-1310

**Prerequisites** MATH 110 College Mathematics or MATH 115 Liberal Arts Mathematics or MATH 120 Quantitative Reasoning or MATH 150 Geometry in the Arts or MATH 155 Math in Art and Nature or MATH 160 Mathematical Ideas or MATH 165 Math for Marketing and Management or ACCU-T-67 EXAM-ACCUPLACER MATH MINIMUM SCORE = 67 or ACT-M-23 EXAM-ACT MATH MINIMUM SCORE = 23 or SAT-M-550 EXAM-SAT MATH MINIMUM SCORE = 550 or CMPS-M-67 EXAM-CMPS MATH MINIMUM SCORE = 67 or ALEK-1-46 EXAM-ALEKS MINIMUM SCORE = 46

**Minimum Credits 3 Maximum Credits 3**

## **CONCENTRATIONS**

### **Audio and Sound Design**

As a result of successfully completing program requirements, students should be able to:

- identify suitable sound recording, production, and synthesis techniques for a given sound design problem and implement them using different hardware and software environments;
- develop computational literacy in the field of audio programming in order to design and implement custom-built software environments for specific sound design problems;
- pursue entry in a graduate program in a field related to the audio arts with little or no additional preparation; and
- work effectively in interdisciplinary teams to contribute towards the design and implementation of media artworks from the perspective of sound.

**Required for the Concentration:**

### **AUDI 122 DAW Production Techniques and Applications**

Course provides students with a solid foundation in working with digital audio workstations. Through lecture/demonstration/discussions, in-class and homework assignments, and a series of creative projects, students gain experience with fundamental practices in digital audio production, including editing, signal processing, automation, mixing, and preparing audio deliverables. Students participate in a series of exercises to develop and refine critical listening, evaluation, and judgment abilities. In the process, students adopt techniques and strategies for organizing and managing sessions, developing effective communication and presentation skills, and acquiring a sense of professionalism in the field.

**Repeatable:** *N*

**Formerly** 43-2215

**Prerequisites** AUDI 121 Fundamentals of Audio Production

**Minimum Credits 3 Maximum Credits 3**

## **AUDI 211 Audio Programming and Performance**

This course introduces principles of sound synthesis and audio programming applied to live performance. The students learn to design their own mini instruments as they explore real-time audio programming topics, including fundamentals of sound synthesis and signal processing (e.g. Additive, Subtractive, Granular, AM, FM), control protocols (e.g. OSC), patterns and event structures, live coding and performance. The semester culminates in a live public performance of original compositions for a laptop ensemble.

**Repeatable:** *N*

**Formerly** 43-2241

**Prerequisites** PROG 101 Programming I or PROG 110 Art of Code

**Minimum Credits 3 Maximum Credits 3**

## **AUDI 231 Psychoacoustics**

Class provides the necessary basis for understanding how we hear the world around us. The course is multidisciplinary, with contributions from the academic disciplines of auditory physiology, physics, and psychology. It examines how the human auditory system processes the information it receives, that is, how physical attributes of sound translate into perceptual attributes such as loudness, pitch, and timbre. Topics extend to the perception of music, sound localization, speech, and beyond. Numerous audio-visual demonstrations are used to reinforce the theoretical material presented.

**Repeatable:** *N*

**Formerly** 43-2310

**Prerequisites** PHYS 215 The Science of Acoustics I

**Minimum Credits 3 Maximum Credits 3**

## **AUDI 323 Live Sound Recording**

This hands-on course explores minimal microphone location recording. These techniques are fundamental to those employed in multi-track studio recording. Course highlights understanding, selection, and placement of microphones through a wide variety of acoustical environments and instruments. Emphasis is placed on classical and acoustic music, ambient sound recording, and sound effects recording. Students check out location recording equipment and record a number of events during the semester.

**Repeatable:** *N*

**Formerly** 43-2220

**Prerequisites** AUDI 122 DAW Production Techniques and Applications and AUDI 105 Signal Flow and Gain Structure

**Minimum Credits 3 Maximum Credits 3**

## **AUDI 324 Audio for Visual Media I**

Studio course presents the technology and techniques used in creating sound tracks for TV, film, and multi-media. Students learn the technology and techniques of synchronizing video with all audio platforms, including analog and both linear and non-linear digital recording and editing systems.

**Repeatable:** N

**Formerly** 43-2420

**Prerequisites** AUDI 122 DAW Production Techniques and Applications and AUDI 105 Signal Flow and Gain Structure

**Minimum Credits 4 Maximum Credits 4**

*Choose two of the following courses:*

### **AUDI 311 Digital Audio Effects Programming**

This course provides an in-depth exploration of the real-time digital audio processes behind the most common types of audio effects. These processes include basic signal modification (e.g. gain, pan, combining signals), filtering and equalization, delay-based effects and modulators, dynamic range processors, distortion effects, and analysis/ resynthesis. Students will design and program working examples of these processes in a high-level audio programming language, preparing the ground for designing, programming, and implementing audio plug-ins.

**Repeatable:** N

**Prerequisites** AUDI 103 Audio Theory and Systems and PROG 101 Programming I or AUDI 103 Audio Theory and Systems and PROG 110 Art of Code

**Minimum Credits 3 Maximum Credits 3**

### **AUDI 312 Principles of Audio Deliverables Mastering and Preservation**

Audio design and production does not end with the final mix but rather leads to a series of critical considerations: how to prepare (master/ re-master) the recording for the intended audience; in what format(s) to best deliver the recording; how to ensure the fidelity and integrity of the recorded signal along the way; what of the production process to save for future use; and how to archive and preserve that material. In addition to original production work, many of these considerations apply to the entire legacy of recorded audio, as evidenced by a proliferation of commercial and nonprofit initiatives in audio archiving, preservation, and restoration. This course addresses the essential aspects of audio design and production related to the dissemination and preservation of audio recordings, from delivery (mastering and deliverables) to preservation (archiving, preservation, and restoration). Through readings, investigation and analysis assignments, and in-class lectures, discussions, and demonstrations, students will encounter critical questions, theories, processes, and practices which are necessary and useful in a range of professional applications.

**Repeatable:** N

**Formerly** 43-3243

**Prerequisites** AUDI 221 Multitrack Music Recording I or AUDI 324 Audio for Visual Media I

**Minimum Credits 3 Maximum Credits 3**

### **AUDI 313 Building Circuits for Sound Art I**

This course introduces students to the skills necessary to build their own hardware for analog synthesis, electro-acoustic music, and sound art. Students will learn to read circuit diagrams, breadboard prototypes and solder finished circuit boards. Students will also explore fabrication techniques to build custom enclosures and interfaces. Students will demonstrate and share their creations through performance and critiques.

Readings and assessments focus on necessary practical knowledge. Projects are assessed for both craftsmanship and creative results. Students should expect to spend 3-6+ hours per week completing projects outside of class, and are responsible for the purchase of their own materials. Students can access class tools and facilities outside of class time.

**Repeatable:** *N*

**Formerly** 43-2261

**Prerequisites** AUDI 104 Audio Electronics

**Minimum Credits 3 Maximum Credits 3**

## **AUDI 314 New Musical Interface Design**

This course lies at the intersection of "interaction design" and "sound and music computing," covering the study and use of sound as one of the principal channels conveying information, meaning, and aesthetic/emotional qualities in interactive contexts. It focuses on technology-mediated, aesthetically-grounded design of new interfaces for musical expression, and the questions that arise from them. It also introduces design methods such as Bootlegging, Auditory Storyboarding, Paper and Sonic Prototyping, Participatory Design, Inclusive Design, Product Sound Design, Interactive Sonification, Tangible and Embodied Interaction, and Audio APIs (e.g. Designing sound in the cloud).

**Repeatable:** *N*

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **AUDI 322 Applied Audio and Music Production for Media**

Students gain experience with current practices and techniques in audio and music production for media and industry, which often require the audio professional to serve in multiple roles in the production process, including audio engineer, producer, sound designer, composer, software programmer, and more. Students will complete individual and group projects that include adaptive ambient loop creation, sound design, MIDI composition for interactive and non-linear applications, post-production for picture, and audio book and documentary production.

**Repeatable:** *N*

**Formerly** 43-3115

**Prerequisites** AUDI 324 Audio for Visual Media I or AUDI 221 Multitrack Music Recording I or GAME 235 Sound and Music for Interactive Visual Media or MUSC 251 Digital Music Production II

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **CINE 311 Post-Production Audio II**

Course explores the post-production techniques used in creating effective audio for cinema. Students develop aesthetic judgment by analyzing a variety of soundtracks and develop technical skills, including track building, ADR, Foley, and mixing, by employing these techniques in the design and creation of their own soundtracks.

**Repeatable:** *N*

**Formerly** 24-2102

**Prerequisites** AUDI 324 Audio for Visual Media I or CINE 211 Post-Production Audio I

**Minimum Credits 4 Maximum Credits 4**

*Choose two of the following courses:*

### **AUDI 411 Data Sonification**

Sonification is the use of designed or intentional sound to display system states and other informational data. This course introduces the concepts and design techniques used in sonification ranging from earcons, spearcons and auditory icons to translation techniques used in mapping data into sound for probing, monitoring, and auditory display for enhanced user interfaces and monitoring and purposes.

**Repeatable:** N

**Formerly** 43-3562

**Prerequisites** AUDI 202 Studies in Hearing

**Minimum Credits 3 Maximum Credits 3**

### **AUDI 412 Spatial Audio**

This course focuses on the relationship between sound and space from a scientific and artistic perspective. It reviews the physiological and psychacoustic foundations of spatial hearing, as well as of stereophonic recording and production techniques. Other major topics include: impulse responses, binaural sound reproduction, 5.1 and other surround sound formats, Ambisonics and other 3D sound spatialization techniques, microphone and loudspeaker arrays. Examples will be drawn from the history and current artistic practice of spatial audio.

**Repeatable:** N

**Prerequisites** AUDI 202 Studies in Hearing or AUDI 231 Psychoacoustics

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **AUDI 413 Building Circuits for Sound Art II**

Students use the skills acquired in AUDI 313 to build more complex projects for analog synthesis, electro-acoustic music, and sound art. Projects are assessed for both craftsmanship and creative results. Students should expect to spend 4-6+ hours per week completing projects outside of class, and are responsible for the purchase of their own materials. Students can access class tools outside of class time.

**Repeatable:** Y

**Formerly** 43-3252

**Prerequisites** AUDI 313 Building Circuits for Sound Art I

**Minimum Credits 3 Maximum Credits 3**

### **AUDI 415 Advanced Practicum in Sound Art**

Course explores the aesthetics and techniques of sound art. A major component of the course is the ongoing analysis and critique of the students' work. In addition to readings, lecture, discussion, and analytical listening, students are expected to give and receive feedback and critiques, under the instructor's guidance. Students are expected to work independently on projects developed with the consent of the instructor.

**Repeatable:** N

**Formerly** 43-3290

**Prerequisites** AUDI 122 DAW Production Techniques and Applications or MUSC 228 Digital Music Composition and Performance or GAME 235 Sound and Music for Interactive Visual Media or CINE 311 Post-Production Audio II

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **AUDI 436 Research Methods: An Interdisciplinary Approach**

Understanding research on quantitative and observable data requires a thorough understanding of the scientific method, familiarity with multiple methodological approaches to research, as well as the ability to critically evaluate the strengths and limitations of methods and data collected within a research paradigm. This multidisciplinary course is designed particularly for students within Media Arts who will benefit from an understanding of research methods in science and communications, as distinct from research in humanities and creative arts. Students in this course will learn about the strengths and limitations of various types of research, as well as directly apply research methods through group and individual research proposals and projects, including projects within their discipline.

This course is not discipline-specific and therefore can serve students outside the department.

**Repeatable:** *N*

**Formerly** 43-3583

**Prerequisites** ENGL 112 Writing and Rhetoric II and MATH 110 College Mathematics or ENGL 112 Writing and Rhetoric II and MATH 115 Liberal Arts Mathematics or ENGL 112 Writing and Rhetoric II and MATH 120 Quantitative Reasoning or ENGL 112 Writing and Rhetoric II and ACCU-T-67 EXAM-ACCUPLACER MATH MINIMUM SCORE = 67 or ENGL 112 Writing and Rhetoric II and ACT-M-23 EXAM-ACT MATH MINIMUM SCORE = 23 or ENGL 112 Writing and Rhetoric II and SAT-M-550 EXAM-SAT MATH MINIMUM SCORE = 550 or ENGL 112H Writing and Rhetoric II: Honors and MATH 110 College Mathematics or ENGL 112H Writing and Rhetoric II: Honors and MATH 115 Liberal Arts Mathematics or ENGL 112H Writing and Rhetoric II: Honors and MATH 120 Quantitative Reasoning or ENGL 112H Writing and Rhetoric II: Honors and ACCU-T-67 EXAM-ACCUPLACER MATH MINIMUM SCORE = 67 or ENGL 112H Writing and Rhetoric II: Honors and ACT-M-23 EXAM-ACT MATH MINIMUM SCORE = 23 or ENGL 112H Writing and Rhetoric II: Honors and SAT-M-550 EXAM-SAT MATH MINIMUM SCORE = 550 or ENGL 122 International Writing and Rhetoric II and MATH 110 College Mathematics or ENGL 122 International Writing and Rhetoric II and MATH 115 Liberal Arts Mathematics or ENGL 122 International Writing and Rhetoric II and MATH 120 Quantitative Reasoning or ENGL 122 International Writing and Rhetoric II and ACCU-T-67 EXAM-ACCUPLACER MATH MINIMUM SCORE = 67 or ENGL 122 International Writing and Rhetoric II and ACT-M-23 EXAM-ACT MATH MINIMUM SCORE = 23 or ENGL 122 International Writing and Rhetoric II and SAT-M-550 EXAM-SAT MATH MINIMUM SCORE = 550 or ENGL 112 Writing and Rhetoric II and ALEK-1-46 EXAM-ALEKS MINIMUM SCORE = 46 or ENGL 112H Writing and Rhetoric II: Honors and ALEK-1-46 EXAM-ALEKS MINIMUM SCORE = 46 or ENGL 122 International Writing and Rhetoric II and ALEK-1-46 EXAM-ALEKS MINIMUM SCORE = 46

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **AUDI 443 Networks and Networking for Media**

Through lectures, readings and hands-on experience, this course provides a basic understanding of the networks and networking protocols necessary for reliable, secure communication in a digital media world. Intended for students who have completed the department's core curriculum, it is also offered to non-majors with instructor approval. Major topics include network topologies (LAN, WAN, WLAN, MAN) and protocols (primarily TCP/IP), IP addressing hierarchies, switching, routing, and VLANs, and network security.

**Repeatable:** *N*

**Formerly** 43-3622

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

## **CINE 415 Sound Mixing for Cinema**

Sound Mixing For Cinema explores the advanced processes used to create effective state-of-the-art cinema sound mixes. In this intensive, hands-on studio course, students will study the latest trends in soundtrack aesthetics & rerecording technology and employ these techniques in mixing soundtracks for a variety of cinema genres & media.

**Repeatable:** *N*

**Formerly** 24-3126

**Prerequisites** CINE 311 Post-Production Audio II

**Minimum Credits** 4 **Maximum Credits** 4

## **Audiovisual Systems Integration**

As a result of successfully completing program requirements, students should be able to:

- analyze the user needs and technical needs of the sound, AV, or computer-network system;
- organize their work effectively, applying the principles of project management;
- design and synthesize technical systems, including sound, audiovisual, and computer networks for monitoring and control; and
- evaluate the system, once installed, and troubleshoot any deficiencies using appropriate analytic techniques.

**Required for the Concentration:**

## **AUDI 241 The Art of Troubleshooting**

Because complex, interactive systems fail in complex, interactive ways, this course builds six essential competencies to assist system designers and system operators to cope with failure and limit immediate damage; to collect symptoms and understand systems rapidly; to apply inferential logic and avoid logical fallacies; to identify, trap, and limit failures; and to patch around them. This is not a course in equipment repair.

**Repeatable:** *N*

**Formerly** 43-3621

**Prerequisites** AUDI 103 Audio Theory and Systems

**Minimum Credits** 3 **Maximum Credits** 3

## **AUDI 242 Sound System Design**

Course offers an in-depth look at what goes into designing and installing permanent sound systems. Students learn to design systems for coverage, intelligibility, and cost effectiveness. Emphasis is placed on understanding specifications of system component and predicting system performance.

**Repeatable:** *N*

**Formerly** 43-3610

**Prerequisites** AUDI 103 Audio Theory and Systems and AUDI 105 Signal Flow and Gain Structure  
**Minimum Credits 3 Maximum Credits 3**

### **AUDI 342 Project Planning, Process and Implementation**

A project is a task with a definite cycle: beginning (planning), middle (execution, supervision), and end (assessment and, often, payment). Most work in audio and acoustics is project work, from recording and mixing a demo in one day, to the design and construction of a concert hall, which can take years. This course blends project management, personal time management, and quick analysis for decision making into a set of key skills for those who must juggle multiple projects.

**Repeatable:** *N*

**Formerly** 43-2610

**Prerequisites** AUDI 102 Introduction to Audio and ENGL 109 Writing and Rhetoric I Stretch B or AUDI 102 Introduction to Audio and ENGL 111 Writing and Rhetoric I or AUDI 102 Introduction to Audio and ENGL 111H Writing and Rhetoric I: Honors or AUDI 102 Introduction to Audio and ENGL 121 International Writing and Rhetoric I or AUDI 102 Introduction to Audio and TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

### **AUDI 343 Installed Systems Documentation**

Course gives students familiarity with the graphical standards of the Construction Specifications Institute. Students will acquire skill at navigating architectural drawings at a workstation and an ability to generate audio system drawings.

**Repeatable:** *N*

**Formerly** 43-3619

**Prerequisites** AUDI 242 Sound System Design

**Minimum Credits 3 Maximum Credits 3**

### **AUDI 441 Loudspeaker System Applications**

This advanced course builds upon theoretical/practical knowledge acquired by students in earlier courses (basic acoustics/psychoacoustics, loudspeaker parameters, signal processing, and live sound reinforcement) and synthesizes the information in the context of optimizing loudspeaker selection, placement, and processing to fulfill specific audio needs. Through practical and theoretical projects, as well as supporting lectures, students define the loudspeaker system design goals for a small number of representative case studies. They then determine appropriate equipment and placement for the desired audio coverage, and utilize a combination of objective and subjective techniques for alignment and calibration of the designed systems.

**Repeatable:** *N*

**Formerly** 43-3623

**Prerequisites** AUDI 343 Installed Systems Documentation

**Minimum Credits 3 Maximum Credits 3**

### **AUDI 442 Audio Visual System Design**

Audio Visual Communication systems play a crucial role in delivering information and are a key part of almost all major installed projects. However, the end result is a tool for communication. Communication requires not just aural communication but visual as well. Audio and video are continually evolving into fully

integrated systems. These systems require transmission, control and display subsystems as part of the whole integration. This course will expose students to a host of new terms and concepts, yet focus on several basic areas: Display, control, flow/distribution, and a general introduction to industry considerations and influences. Students in this course will apply fundamental knowledge and techniques learned in previous courses (Sound System Design, Installed System Documentation, and Project Planning, Process and Implementation) in order to create a complete AV system design.

**Repeatable:** *N*

**Formerly** 43-4473

**Prerequisites** AUDI 242 Sound System Design

**Minimum Credits 3 Maximum Credits 3**

## **AUDI 443 Networks and Networking for Media**

Through lectures, readings and hands-on experience, this course provides a basic understanding of the networks and networking protocols necessary for reliable, secure communication in a digital media world. Intended for students who have completed the department's core curriculum, it is also offered to non-majors with instructor approval. Major topics include network topologies (LAN, WAN, WLAN, MAN) and protocols (primarily TCP/IP), IP addressing hierarchies, switching, routing, and VLANs, and network security.

**Repeatable:** *N*

**Formerly** 43-3622

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

*Choose two of the following courses:*

## **AUDI 231 Psychoacoustics**

Class provides the necessary basis for understanding how we hear the world around us. The course is multidisciplinary, with contributions from the academic disciplines of auditory physiology, physics, and psychology. It examines how the human auditory system processes the information it receives, that is, how physical attributes of sound translate into perceptual attributes such as loudness, pitch, and timbre. Topics extend to the perception of music, sound localization, speech, and beyond. Numerous audio-visual demonstrations are used to reinforce the theoretical material presented.

**Repeatable:** *N*

**Formerly** 43-2310

**Prerequisites** PHYS 215 The Science of Acoustics I

**Minimum Credits 3 Maximum Credits 3**

## **AUDI 436 Research Methods: An Interdisciplinary Approach**

Understanding research on quantitative and observable data requires a thorough understanding of the scientific method, familiarity with multiple methodological approaches to research, as well as the ability to critically evaluate the strengths and limitations of methods and data collected within a research paradigm. This multidisciplinary course is designed particularly for students within Media Arts who will benefit from an understanding of research methods in science and communications, as distinct from research in humanities and creative arts. Students in this course will learn about the strengths and limitations of various types of research, as well as directly apply research methods through group and individual research proposals and projects, including projects within their discipline.

This course is not discipline-specific and therefore can serve students outside the department.

**Repeatable:** *N*

**Formerly** 43-3583

**Prerequisites** ENGL 112 Writing and Rhetoric II and MATH 110 College Mathematics or ENGL 112 Writing and Rhetoric II and MATH 115 Liberal Arts Mathematics or ENGL 112 Writing and Rhetoric II and MATH 120 Quantitative Reasoning or ENGL 112 Writing and Rhetoric II and ACCU-T-67 EXAM-ACCUPLACER MATH MINIMUM SCORE = 67 or ENGL 112 Writing and Rhetoric II and ACT-M-23 EXAM-ACT MATH MINIMUM SCORE = 23 or ENGL 112 Writing and Rhetoric II and SAT-M-550 EXAM-SAT MATH MINIMUM SCORE = 550 or ENGL 112H Writing and Rhetoric II: Honors and MATH 110 College Mathematics or ENGL 112H Writing and Rhetoric II: Honors and MATH 115 Liberal Arts Mathematics or ENGL 112H Writing and Rhetoric II: Honors and MATH 120 Quantitative Reasoning or ENGL 112H Writing and Rhetoric II: Honors and ACCU-T-67 EXAM-ACCUPLACER MATH MINIMUM SCORE = 67 or ENGL 112H Writing and Rhetoric II: Honors and ACT-M-23 EXAM-ACT MATH MINIMUM SCORE = 23 or ENGL 112H Writing and Rhetoric II: Honors and SAT-M-550 EXAM-SAT MATH MINIMUM SCORE = 550 or ENGL 122 International Writing and Rhetoric II and MATH 110 College Mathematics or ENGL 122 International Writing and Rhetoric II and MATH 115 Liberal Arts Mathematics or ENGL 122 International Writing and Rhetoric II and MATH 120 Quantitative Reasoning or ENGL 122 International Writing and Rhetoric II and ACCU-T-67 EXAM-ACCUPLACER MATH MINIMUM SCORE = 67 or ENGL 122 International Writing and Rhetoric II and ACT-M-23 EXAM-ACT MATH MINIMUM SCORE = 23 or ENGL 122 International Writing and Rhetoric II and SAT-M-550 EXAM-SAT MATH MINIMUM SCORE = 550 or ENGL 112 Writing and Rhetoric II and ALEK-1-46 EXAM-ALEKS MINIMUM SCORE = 46 or ENGL 112H Writing and Rhetoric II: Honors and ALEK-1-46 EXAM-ALEKS MINIMUM SCORE = 46 or ENGL 122 International Writing and Rhetoric II and ALEK-1-46 EXAM-ALEKS MINIMUM SCORE = 46

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

## Live Sound Reinforcement

As a result of successfully completing program requirements, students should be able to:

- manage audible content on a jobsite with respect to site-relevant aesthetically correct performance, targeted at client satisfaction;
- manage audible content on a job site with respect to feedback suppression to the degree that there is no audible feedback in house or monitors;
- address industry mandated sound measurement issues as required by the particular characteristics of a given job site;
- address live industry IT-specific issues on job sites as required by situation and hardware availability; and
- define, document, present, and implement sound system designs applicable to a given live sound event for a variety of musical styles and events contexts.

**Required for the Concentration:**

## AUDI 151 Aesthetics of Live Sound I

Course defines in a structured fashion the psychology of the musician and physics of the instrument within the framework of sound reinforcement and analysis. The goal is to familiarize students with one instrument-musician-sound reinforcement approach per week.

**Repeatable:** *N*

**Formerly** 43-2510

**Prerequisites** AUDI 102 Introduction to Audio  
**Minimum Credits 3 Maximum Credits 3**

## **AUDI 252 Live Sound Reinforcement**

This course is designed to teach techniques and tools of sound reinforcement. Content combines product awareness with ear training and hands-on practice. Students complete lab assignments in the Audio Technology Center Live Sound Lab and spend two lab sessions at local music clubs.

**Repeatable:** *N*

**Formerly** 43-2515

**Prerequisites** AUDI 102 Introduction to Audio and AUDI 105 Signal Flow and Gain Structure  
**Minimum Credits 3 Maximum Credits 3**

## **AUDI 351 Aesthetics of Live Sound II**

Course expands of the Aesthetics I course and covers some of the more unusual instruments and ensembles. Instruments may include mandolin, bassoon, Hammond organ, digital keyboards, harp, and more, depending on availability. The course also covers groups such as world music ensembles, and DJ/dance forms such as Hip-Hop, House, R&B/Dusties, Drum & Bass, etc.

**Repeatable:** *N*

**Formerly** 43-3511

**Prerequisites** AUDI 151 Aesthetics of Live Sound I and AUDI 103 Audio Theory and Systems  
**Minimum Credits 3 Maximum Credits 3**

## **AUDI 353 Live Sound Engineering Practicum**

Course presents extremely advanced live sound operational theory in a production context. Instructor presents a theory as it applies to a specific problem, followed by the application of that theory to an actual live performance. Students then apply this knowledge by operating the same systems themselves.

**Repeatable:** *N*

**Formerly** 43-3525

**Prerequisites** AUDI 151 Aesthetics of Live Sound I and AUDI 252 Live Sound Reinforcement  
**Minimum Credits 3 Maximum Credits 3**

## **AUDI 355 Digital Audio Console Practicum**

Course focuses on the role of the digital console in the context of the live sound reinforcement environment. It provides a detailed description and analysis of console operations, including setup, patching, routing, communications, file management, onboard and outboard effects, scenes, defined keys, and integration with other digital devices. Students will be asked to learn both the theory and practical application of console methodology. They will also be exposed to multiple platforms to illustrate the similarities and differences between different manufacturer approaches to digital consoles.

**Repeatable:** *N*

**Formerly** 43-3527

**Prerequisites** AUDI 252 Live Sound Reinforcement  
**Minimum Credits 3 Maximum Credits 3**

## **AUDI 452 Monitor Mixing**

Total immersion stage monitor course for advanced live sound reinforcement students undertakes an in-depth exploration of feedback suppression, mix aesthetic, systems design, and signal flow.

**Repeatable:** N

**Formerly** 43-3528

**Prerequisites** AUDI 353 Live Sound Engineering Practicum

**Minimum Credits 3 Maximum Credits 3**

## **AUDI 453 Digital Equalization and System Management**

Course explores audio equalization methodology in the digital domain, within the context of loudspeaker management systems and digital console operations. In addition, loudspeaker management functions are explored through real-time operation of digitally controlled sound reinforcement systems. Course is largely hands-on, with real-time adjustments audible through a large-scale sound reinforcement system. All control functions, whether computer or digital console based, are concurrently presented for student evaluation on large-scale projection screens.

**Repeatable:** N

**Formerly** 43-3526

**Prerequisites** AUDI 353 Live Sound Engineering Practicum

**Minimum Credits 3 Maximum Credits 3**

*Choose two of the following courses:*

## **AUDI 122 DAW Production Techniques and Applications**

Course provides students with a solid foundation in working with digital audio workstations. Through lecture/demonstration/discussions, in-class and homework assignments, and a series of creative projects, students gain experience with fundamental practices in digital audio production, including editing, signal processing, automation, mixing, and preparing audio deliverables. Students participate in a series of exercises to develop and refine critical listening, evaluation, and judgment abilities. In the process, students adopt techniques and strategies for organizing and managing sessions, developing effective communication and presentation skills, and acquiring a sense of professionalism in the field.

**Repeatable:** N

**Formerly** 43-2215

**Prerequisites** AUDI 121 Fundamentals of Audio Production

**Minimum Credits 3 Maximum Credits 3**

## **AUDI 231 Psychoacoustics**

Class provides the necessary basis for understanding how we hear the world around us. The course is multidisciplinary, with contributions from the academic disciplines of auditory physiology, physics, and psychology. It examines how the human auditory system processes the information it receives, that is, how physical attributes of sound translate into perceptual attributes such as loudness, pitch, and timbre. Topics extend to the perception of music, sound localization, speech, and beyond. Numerous audio-visual demonstrations are used to reinforce the theoretical material presented.

**Repeatable:** N

**Formerly** 43-2310

**Prerequisites** PHYS 215 The Science of Acoustics I

**Minimum Credits 3 Maximum Credits 3**

## **AUDI 242 Sound System Design**

Course offers an in-depth look at what goes into designing and installing permanent sound systems. Students learn to design systems for coverage, intelligibility, and cost effectiveness. Emphasis is placed on understanding specifications of system component and predicting system performance.

**Repeatable:** *N*

**Formerly** 43-3610

**Prerequisites** AUDI 103 Audio Theory and Systems and AUDI 105 Signal Flow and Gain Structure

**Minimum Credits 3 Maximum Credits 3**

## **AUDI 312 Principles of Audio Deliverables Mastering and Preservation**

Audio design and production does not end with the final mix but rather leads to a series of critical considerations: how to prepare (master/ re-master) the recording for the intended audience; in what format(s) to best deliver the recording; how to ensure the fidelity and integrity of the recorded signal along the way; what of the production process to save for future use; and how to archive and preserve that material. In addition to original production work, many of these considerations apply to the entire legacy of recorded audio, as evidenced by a proliferation of commercial and nonprofit initiatives in audio archiving, preservation, and restoration. This course addresses the essential aspects of audio design and production related to the dissemination and preservation of audio recordings, from delivery (mastering and deliverables) to preservation (archiving, preservation, and restoration). Through readings, investigation and analysis assignments, and in-class lectures, discussions, and demonstrations, students will encounter critical questions, theories, processes, and practices which are necessary and useful in a range of professional applications.

**Repeatable:** *N*

**Formerly** 43-3243

**Prerequisites** AUDI 221 Multitrack Music Recording I or AUDI 324 Audio for Visual Media I

**Minimum Credits 3 Maximum Credits 3**

## **AUDI 323 Live Sound Recording**

This hands-on course explores minimal microphone location recording. These techniques are fundamental to those employed in multi-track studio recording. Course highlights understanding, selection, and placement of microphones through a wide variety of acoustical environments and instruments. Emphasis is placed on classical and acoustic music, ambient sound recording, and sound effects recording. Students check out location recording equipment and record a number of events during the semester.

**Repeatable:** *N*

**Formerly** 43-2220

**Prerequisites** AUDI 122 DAW Production Techniques and Applications and AUDI 105 Signal Flow and Gain Structure

**Minimum Credits 3 Maximum Credits 3**

## **AUDI 411 Data Sonification**

Sonification is the use of designed or intentional sound to display system states and other informational data. This course introduces the concepts and design techniques used in sonification ranging from earcons,

spearcons and auditory icons to translation techniques used in mapping data into sound for probing, monitoring, and auditory display for enhanced user interfaces and monitoring and purposes.

**Repeatable:** *N*

**Formerly** 43-3562

**Prerequisites** AUDI 202 Studies in Hearing

**Minimum Credits** 3 **Maximum Credits** 3

### **AUDI 436 Research Methods: An Interdisciplinary Approach**

Understanding research on quantitative and observable data requires a thorough understanding of the scientific method, familiarity with multiple methodological approaches to research, as well as the ability to critically evaluate the strengths and limitations of methods and data collected within a research paradigm. This multidisciplinary course is designed particularly for students within Media Arts who will benefit from an understanding of research methods in science and communications, as distinct from research in humanities and creative arts. Students in this course will learn about the strengths and limitations of various types of research, as well as directly apply research methods through group and individual research proposals and projects, including projects within their discipline.

This course is not discipline-specific and therefore can serve students outside the department.

**Repeatable:** *N*

**Formerly** 43-3583

**Prerequisites** ENGL 112 Writing and Rhetoric II and MATH 110 College Mathematics or ENGL 112 Writing and Rhetoric II and MATH 115 Liberal Arts Mathematics or ENGL 112 Writing and Rhetoric II and MATH 120 Quantitative Reasoning or ENGL 112 Writing and Rhetoric II and ACCU-T-67 EXAM-ACCUPLACER MATH MINIMUM SCORE = 67 or ENGL 112 Writing and Rhetoric II and ACT-M-23 EXAM-ACT MATH MINIMUM SCORE = 23 or ENGL 112 Writing and Rhetoric II and SAT-M-550 EXAM-SAT MATH MINIMUM SCORE = 550 or ENGL 112H Writing and Rhetoric II: Honors and MATH 110 College Mathematics or ENGL 112H Writing and Rhetoric II: Honors and MATH 115 Liberal Arts Mathematics or ENGL 112H Writing and Rhetoric II: Honors and MATH 120 Quantitative Reasoning or ENGL 112H Writing and Rhetoric II: Honors and ACCU-T-67 EXAM-ACCUPLACER MATH MINIMUM SCORE = 67 or ENGL 112H Writing and Rhetoric II: Honors and ACT-M-23 EXAM-ACT MATH MINIMUM SCORE = 23 or ENGL 112H Writing and Rhetoric II: Honors and SAT-M-550 EXAM-SAT MATH MINIMUM SCORE = 550 or ENGL 122 International Writing and Rhetoric II and MATH 110 College Mathematics or ENGL 122 International Writing and Rhetoric II and MATH 115 Liberal Arts Mathematics or ENGL 122 International Writing and Rhetoric II and MATH 120 Quantitative Reasoning or ENGL 122 International Writing and Rhetoric II and ACCU-T-67 EXAM-ACCUPLACER MATH MINIMUM SCORE = 67 or ENGL 122 International Writing and Rhetoric II and ACT-M-23 EXAM-ACT MATH MINIMUM SCORE = 23 or ENGL 122 International Writing and Rhetoric II and SAT-M-550 EXAM-SAT MATH MINIMUM SCORE = 550 or ENGL 112 Writing and Rhetoric II and ALEK-1-46 EXAM-ALEKS MINIMUM SCORE = 46 or ENGL 112H Writing and Rhetoric II: Honors and ALEK-1-46 EXAM-ALEKS MINIMUM SCORE = 46 or ENGL 122 International Writing and Rhetoric II and ALEK-1-46 EXAM-ALEKS MINIMUM SCORE = 46

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

### **AUDI 443 Networks and Networking for Media**

Through lectures, readings and hands-on experience, this course provides a basic understanding of the networks and networking protocols necessary for reliable, secure communication in a digital media world. Intended for students who have completed the department's core curriculum, it is also offered to non-majors with instructor approval. Major topics include network topologies (LAN, WAN, WLAN, MAN) and protocols

(primarily TCP/IP), IP addressing hierarchies, switching, routing, and VLANs, and network security.

**Repeatable:** *N*

**Formerly** 43-3622

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## Music Recording

As a result of successfully completing program requirements, students should be able to:

- apply principles of audio science, theory and practice to predict, formulate and implement effective sound assessment, recording, processing, mixing and synthesis, within a given context;
- demonstrate fluency on a variety of audio production technologies and platforms appropriate for the completion of projects in live and studio contexts;
- develop critical listening skills to identify and assess the impact of the features of sound sources and the capabilities of recording and processing technologies toward the aesthetic goals of a given project; and
- apply effective planning, communication, management and quality control skills to complete professionally and aesthetically successful audio production projects.

**Required for the Concentration:**

## AUDI 122 DAW Production Techniques and Applications

Course provides students with a solid foundation in working with digital audio workstations. Through lecture/demonstration/discussions, in-class and homework assignments, and a series of creative projects, students gain experience with fundamental practices in digital audio production, including editing, signal processing, automation, mixing, and preparing audio deliverables. Students participate in a series of exercises to develop and refine critical listening, evaluation, and judgment abilities. In the process, students adopt techniques and strategies for organizing and managing sessions, developing effective communication and presentation skills, and acquiring a sense of professionalism in the field.

**Repeatable:** *N*

**Formerly** 43-2215

**Prerequisites** AUDI 121 Fundamentals of Audio Production

**Minimum Credits 3 Maximum Credits 3**

## AUDI 221 Multitrack Music Recording I

Students are introduced to the theories, technologies, and practice of multi-track recording sessions. This is the first studio techniques class to be taken by students who select the Audio Design & Production major. Classes focus on the fundamentals of multi-track recording, building upon the fundamentals of console design and signal processing systems as presented in Fundamentals of Audio Production, Audio Theory and Systems, and DAW Production Techniques and Applications. The class includes lecture-demonstrations, in-class group tracking sessions, and additional lab assignments, which are completed in the studios and labs of the Audio Arts & Acoustics Department.

**Repeatable:** *N*

**Formerly** 43-2210

**Prerequisites** AUDI 122 DAW Production Techniques and Applications and AUDI 103 Audio Theory and Systems and AUDI 105 Signal Flow and Gain Structure

**Minimum Credits 4 Maximum Credits 4**

## **AUDI 321 Multitrack Music Recording II**

Students become proficient in the theories, technologies, and practice of multi-track recording and mixing. Building upon the concepts introduced in Multitrack Music Recording I, students continue to study and practice studio recording with an increased focus on digital audio workstation signal flow, signal processing and mixing techniques. Students will conduct in-class as well as independent team recording projects. Class lectures and demonstrations focus on the team projects, including ongoing critiques of both recordings and mixes.

**Repeatable:** N

**Formerly** 43-3210

**Prerequisites** AUDI 221 Multitrack Music Recording I

**Minimum Credits** 4 **Maximum Credits** 4

## **AUDI 323 Live Sound Recording**

This hands-on course explores minimal microphone location recording. These techniques are fundamental to those employed in multi-track studio recording. Course highlights understanding, selection, and placement of microphones through a wide variety of acoustical environments and instruments. Emphasis is placed on classical and acoustic music, ambient sound recording, and sound effects recording. Students check out location recording equipment and record a number of events during the semester.

**Repeatable:** N

**Formerly** 43-2220

**Prerequisites** AUDI 122 DAW Production Techniques and Applications and AUDI 105 Signal Flow and Gain Structure

**Minimum Credits** 3 **Maximum Credits** 3

*Choose two of the following courses:*

## **AUDI 211 Audio Programming and Performance**

This course introduces principles of sound synthesis and audio programming applied to live performance. The students learn to design their own mini instruments as they explore real-time audio programming topics, including fundamentals of sound synthesis and signal processing (e.g. Additive, Subtractive, Granular, AM, FM), control protocols (e.g. OSC), patterns and event structures, live coding and performance. The semester culminates in a live public performance of original compositions for a laptop ensemble.

**Repeatable:** N

**Formerly** 43-2241

**Prerequisites** PROG 101 Programming I or PROG 110 Art of Code

**Minimum Credits** 3 **Maximum Credits** 3

## **AUDI 231 Psychoacoustics**

Class provides the necessary basis for understanding how we hear the world around us. The course is multidisciplinary, with contributions from the academic disciplines of auditory physiology, physics, and psychology. It examines how the human auditory system processes the information it receives, that is, how physical attributes of sound translate into perceptual attributes such as loudness, pitch, and timbre. Topics extend to the perception of music, sound localization, speech, and beyond. Numerous audio-visual demonstrations are used to reinforce the theoretical material presented.

**Repeatable:** *N*

**Formerly** 43-2310

**Prerequisites** PHYS 215 The Science of Acoustics I

**Minimum Credits** 3 **Maximum Credits** 3

## **AUDI 311 Digital Audio Effects Programming**

This course provides an in-depth exploration of the real-time digital audio processes behind the most common types of audio effects. These processes include basic signal modification (e.g. gain, pan, combining signals), filtering and equalization, delay-based effects and modulators, dynamic range processors, distortion effects, and analysis/ resynthesis. Students will design and program working examples of these processes in a high-level audio programming language, preparing the ground for designing, programming, and implementing audio plug-ins.

**Repeatable:** *N*

**Prerequisites** AUDI 103 Audio Theory and Systems and PROG 101 Programming I or AUDI 103 Audio Theory and Systems and PROG 110 Art of Code

**Minimum Credits** 3 **Maximum Credits** 3

## **AUDI 312 Principles of Audio Deliverables Mastering and Preservation**

Audio design and production does not end with the final mix but rather leads to a series of critical considerations: how to prepare (master/ re-master) the recording for the intended audience; in what format(s) to best deliver the recording; how to ensure the fidelity and integrity of the recorded signal along the way; what of the production process to save for future use; and how to archive and preserve that material. In addition to original production work, many of these considerations apply to the entire legacy of recorded audio, as evidenced by a proliferation of commercial and nonprofit initiatives in audio archiving, preservation, and restoration. This course addresses the essential aspects of audio design and production related to the dissemination and preservation of audio recordings, from delivery (mastering and deliverables) to preservation (archiving, preservation, and restoration). Through readings, investigation and analysis assignments, and in-class lectures, discussions, and demonstrations, students will encounter critical questions, theories, processes, and practices which are necessary and useful in a range of professional applications.

**Repeatable:** *N*

**Formerly** 43-3243

**Prerequisites** AUDI 221 Multitrack Music Recording I or AUDI 324 Audio for Visual Media I

**Minimum Credits** 3 **Maximum Credits** 3

## **AUDI 314 New Musical Interface Design**

This course lies at the intersection of "interaction design" and "sound and music computing," covering the study and use of sound as one of the principal channels conveying information, meaning, and aesthetic/emotional qualities in interactive contexts. It focuses on technology-mediated, aesthetically-grounded design of new interfaces for musical expression, and the questions that arise from them. It also introduces design methods such as Bootlegging, Auditory Storyboarding, Paper and Sonic Prototyping, Participatory Design, Inclusive Design, Product Sound Design, Interactive Sonification, Tangible and Embodied Interaction, and Audio APIs (e.g. Designing sound in the cloud).

**Repeatable:** *N*

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

## **AUDI 322 Applied Audio and Music Production for Media**

Students gain experience with current practices and techniques in audio and music production for media and industry, which often require the audio professional to serve in multiple roles in the production process, including audio engineer, producer, sound designer, composer, software programmer, and more. Students will complete individual and group projects that include adaptive ambient loop creation, sound design, MIDI composition for interactive and non-linear applications, post-production for picture, and audio book and documentary production.

**Repeatable:** *N*

**Formerly** 43-3115

**Prerequisites** AUDI 324 Audio for Visual Media I or AUDI 221 Multitrack Music Recording I or GAME 235 Sound and Music for Interactive Visual Media or MUSC 251 Digital Music Production II

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

## **AUDI 324 Audio for Visual Media I**

Studio course presents the technology and techniques used in creating sound tracks for TV, film, and multi-media. Students learn the technology and techniques of synchronizing video with all audio platforms, including analog and both linear and non-linear digital recording and editing systems.

**Repeatable:** *N*

**Formerly** 43-2420

**Prerequisites** AUDI 122 DAW Production Techniques and Applications and AUDI 105 Signal Flow and Gain Structure

**Minimum Credits** 4 **Maximum Credits** 4

## **AUDI 411 Data Sonification**

Sonification is the use of designed or intentional sound to display system states and other informational data. This course introduces the concepts and design techniques used in sonification ranging from earcons, spearcons and auditory icons to translation techniques used in mapping data into sound for probing, monitoring, and auditory display for enhanced user interfaces and monitoring and purposes.

**Repeatable:** *N*

**Formerly** 43-3562

**Prerequisites** AUDI 202 Studies in Hearing

**Minimum Credits** 3 **Maximum Credits** 3

## **AUDI 412 Spatial Audio**

This course focuses on the relationship between sound and space from a scientific and artistic perspective. It reviews the physiological and psychacoustic foundations of spatial hearing, as well as of stereophonic recording and production techniques. Other major topics include: impulse responses, binaural sound reproduction, 5.1 and other surround sound formats, Ambisonics and other 3D sound spatialization techniques, microphone and loudspeaker arrays. Examples will be drawn from the history and current artistic practice of spatial audio.

**Repeatable:** *N*

**Prerequisites** AUDI 202 Studies in Hearing or AUDI 231 Psychoacoustics

**Requirements** Junior Standing or Above (JR)  
**Minimum Credits 3 Maximum Credits 3**

### **AUDI 436 Research Methods: An Interdisciplinary Approach**

Understanding research on quantitative and observable data requires a thorough understanding of the scientific method, familiarity with multiple methodological approaches to research, as well as the ability to critically evaluate the strengths and limitations of methods and data collected within a research paradigm. This multidisciplinary course is designed particularly for students within Media Arts who will benefit from an understanding of research methods in science and communications, as distinct from research in humanities and creative arts. Students in this course will learn about the strengths and limitations of various types of research, as well as directly apply research methods through group and individual research proposals and projects, including projects within their discipline.

This course is not discipline-specific and therefore can serve students outside the department.

**Repeatable:** *N*

**Formerly** 43-3583

**Prerequisites** ENGL 112 Writing and Rhetoric II and MATH 110 College Mathematics or ENGL 112 Writing and Rhetoric II and MATH 115 Liberal Arts Mathematics or ENGL 112 Writing and Rhetoric II and MATH 120 Quantitative Reasoning or ENGL 112 Writing and Rhetoric II and ACCU-T-67 EXAM-ACCUPLACER MATH MINIMUM SCORE = 67 or ENGL 112 Writing and Rhetoric II and ACT-M-23 EXAM-ACT MATH MINIMUM SCORE = 23 or ENGL 112 Writing and Rhetoric II and SAT-M-550 EXAM-SAT MATH MINIMUM SCORE = 550 or ENGL 112H Writing and Rhetoric II: Honors and MATH 110 College Mathematics or ENGL 112H Writing and Rhetoric II: Honors and MATH 115 Liberal Arts Mathematics or ENGL 112H Writing and Rhetoric II: Honors and MATH 120 Quantitative Reasoning or ENGL 112H Writing and Rhetoric II: Honors and ACCU-T-67 EXAM-ACCUPLACER MATH MINIMUM SCORE = 67 or ENGL 112H Writing and Rhetoric II: Honors and ACT-M-23 EXAM-ACT MATH MINIMUM SCORE = 23 or ENGL 112H Writing and Rhetoric II: Honors and SAT-M-550 EXAM-SAT MATH MINIMUM SCORE = 550 or ENGL 122 International Writing and Rhetoric II and MATH 110 College Mathematics or ENGL 122 International Writing and Rhetoric II and MATH 115 Liberal Arts Mathematics or ENGL 122 International Writing and Rhetoric II and MATH 120 Quantitative Reasoning or ENGL 122 International Writing and Rhetoric II and ACCU-T-67 EXAM-ACCUPLACER MATH MINIMUM SCORE = 67 or ENGL 122 International Writing and Rhetoric II and ACT-M-23 EXAM-ACT MATH MINIMUM SCORE = 23 or ENGL 122 International Writing and Rhetoric II and SAT-M-550 EXAM-SAT MATH MINIMUM SCORE = 550 or ENGL 112 Writing and Rhetoric II and ALEK-1-46 EXAM-ALEKS MINIMUM SCORE = 46 or ENGL 112H Writing and Rhetoric II: Honors and ALEK-1-46 EXAM-ALEKS MINIMUM SCORE = 46 or ENGL 122 International Writing and Rhetoric II and ALEK-1-46 EXAM-ALEKS MINIMUM SCORE = 46

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **AUDI 443 Networks and Networking for Media**

Through lectures, readings and hands-on experience, this course provides a basic understanding of the networks and networking protocols necessary for reliable, secure communication in a digital media world. Intended for students who have completed the department's core curriculum, it is also offered to non-majors with instructor approval. Major topics include network topologies (LAN, WAN, WLAN, MAN) and protocols (primarily TCP/IP), IP addressing hierarchies, switching, routing, and VLANs, and network security.

**Repeatable:** *N*

**Formerly** 43-3622

**Requirements** Junior Standing or Above (JR)  
**Minimum Credits 3 Maximum Credits 3**

*Choose three of the following courses:*

### **AUDI 415 Advanced Practicum in Sound Art**

Course explores the aesthetics and techniques of sound art. A major component of the course is the ongoing analysis and critique of the students' work. In addition to readings, lecture, discussion, and analytical listening, students are expected to give and receive feedback and critiques, under the instructor's guidance. Students are expected to work independently on projects developed with the consent of the instructor.

**Repeatable:** N

**Formerly** 43-3290

**Prerequisites** AUDI 122 DAW Production Techniques and Applications or MUSC 228 Digital Music Composition and Performance or GAME 235 Sound and Music for Interactive Visual Media or CINE 311 Post-Production Audio II

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **AUDI 416 Advanced Practicum in Analog Studio Recording**

Course focuses on the craft of studio recording as it developed in the first era of the audio industry, prior to the advantages afforded us by digital technologies. This lecture/lab course is designed to teach the technologies, theories and creative processes engineers embraced in that era, such as live-to-stereo recording, linear-analog recording and editing, producing reverb using the analog plate and natural reverb chambers, analog delay techniques, and hybrid processing (daisy-chains) using discrete signal processors.

**Repeatable:** N

**Formerly** 43-3250

**Prerequisites** AUDI 481 Advanced Practicum in Studio Recording or AUDI 482 Advanced Practicum in Music Design

**Minimum Credits 4 Maximum Credits 4**

### **AUDI 426 Advanced Practicum in Album Production**

Students explore the techniques, procedures and aesthetic decisions employed in complex music recording productions in this studio/practicum course. It includes studying the manner in which the individual skills of audio engineering are applied in the context of client-based production environments. The engineering team will coproduce an album/EP project with Music Department ensembles. This project is augmented by reflection and discussion of the team's experiences.

**Repeatable:** N

**Formerly** 43-3292

**Prerequisites** AUDI 481 Advanced Practicum in Studio Recording or AUDI 482 Advanced Practicum in Music Design

**Minimum Credits 4 Maximum Credits 4**

### **AUDI 481 Advanced Practicum in Studio Recording**

Course gives an overview of current studio recording techniques, covering such topics as microphone usage, signal routing, and synchronization, as well as session set-up and psychology. Course is taught by leading Chicago recording engineers and is geared toward advanced students who desire a career in music engineering.

**Repeatable:** *N*

**Formerly** 43-3220

**Prerequisites** AUDI 321 Multitrack Music Recording II

**Requirements** Permission Required (DP)

**Minimum Credits 4 Maximum Credits 4**

## **AUDI 482 Advanced Practicum in Music Design**

Course introduces students to advanced concepts of musical design using tools of random access audio on a digital workstation. Each week, a component of musical design (for postproduction, editing, processing, and mixing) is introduced and illustrated by the instructor, who supervises the creation of a class project. This project serves as a model for techniques and aesthetics of DAW production. Students bring the weeks' instruction to their own team projects, which they complete in a time frame that parallels the class project.

**Repeatable:** *N*

**Formerly** 43-3230

**Prerequisites** AUDI 321 Multitrack Music Recording II

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

## **AUDI 484 Advanced Practicum in Live Sound Recording**

Course introduces students to advanced concepts and techniques of acoustic live sound recording and the relationship of acoustic recording with critical listening and high-definition playback systems. These techniques will help students gain essential knowledge of recording without the use of processing, such as equalization and compression, and to further understand how to properly assess such recordings through the assembly of high quality playback systems.

**Repeatable:** *N*

**Formerly** 43-3240

**Prerequisites** AUDI 323 Live Sound Recording

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **General Audio Arts**

**Required for the Concentration:**

## **AUDI 122 DAW Production Techniques and Applications**

Course provides students with a solid foundation in working with digital audio workstations. Through lecture/demonstration/discussions, in-class and homework assignments, and a series of creative projects, students gain experience with fundamental practices in digital audio production, including editing, signal processing, automation, mixing, and preparing audio deliverables. Students participate in a series of exercises to develop and refine critical listening, evaluation, and judgment abilities. In the process, students adopt techniques and strategies for organizing and managing sessions, developing effective communication and presentation skills, and acquiring a sense of professionalism in the field.

**Repeatable:** *N*

**Formerly** 43-2215

**Prerequisites** AUDI 121 Fundamentals of Audio Production

**Minimum Credits 3 Maximum Credits 3**

## **AUDI 151 Aesthetics of Live Sound I**

Course defines in a structured fashion the psychology of the musician and physics of the instrument within the framework of sound reinforcement and analysis. The goal is to familiarize students with one instrument-musician-sound reinforcement approach per week.

**Repeatable:** *N*

**Formerly** 43-2510

**Prerequisites** AUDI 102 Introduction to Audio

**Minimum Credits 3 Maximum Credits 3**

## **AUDI 231 Psychoacoustics**

Class provides the necessary basis for understanding how we hear the world around us. The course is multidisciplinary, with contributions from the academic disciplines of auditory physiology, physics, and psychology. It examines how the human auditory system processes the information it receives, that is, how physical attributes of sound translate into perceptual attributes such as loudness, pitch, and timbre. Topics extend to the perception of music, sound localization, speech, and beyond. Numerous audio-visual demonstrations are used to reinforce the theoretical material presented.

**Repeatable:** *N*

**Formerly** 43-2310

**Prerequisites** PHYS 215 The Science of Acoustics I

**Minimum Credits 3 Maximum Credits 3**

## **AUDI 242 Sound System Design**

Course offers an in-depth look at what goes into designing and installing permanent sound systems. Students learn to design systems for coverage, intelligibility, and cost effectiveness. Emphasis is placed on understanding specifications of system component and predicting system performance.

**Repeatable:** *N*

**Formerly** 43-3610

**Prerequisites** AUDI 103 Audio Theory and Systems and AUDI 105 Signal Flow and Gain Structure

**Minimum Credits 3 Maximum Credits 3**

## **AUDI 323 Live Sound Recording**

This hands-on course explores minimal microphone location recording. These techniques are fundamental to those employed in multi-track studio recording. Course highlights understanding, selection, and placement of microphones through a wide variety of acoustical environments and instruments. Emphasis is placed on classical and acoustic music, ambient sound recording, and sound effects recording. Students check out location recording equipment and record a number of events during the semester.

**Repeatable:** *N*

**Formerly** 43-2220

**Prerequisites** AUDI 122 DAW Production Techniques and Applications and AUDI 105 Signal Flow and Gain Structure

**Minimum Credits 3 Maximum Credits 3**

*Choose four of the following courses:*

### **AUDI 211 Audio Programming and Performance**

This course introduces principles of sound synthesis and audio programming applied to live performance. The students learn to design their own mini instruments as they explore real-time audio programming topics, including fundamentals of sound synthesis and signal processing (e.g. Additive, Subtractive, Granular, AM, FM), control protocols (e.g. OSC), patterns and event structures, live coding and performance. The semester culminates in a live public performance of original compositions for a laptop ensemble.

**Repeatable:** N

**Formerly** 43-2241

**Prerequisites** PROG 101 Programming I or PROG 110 Art of Code

**Minimum Credits 3 Maximum Credits 3**

### **AUDI 221 Multitrack Music Recording I**

Students are introduced to the theories, technologies, and practice of multi-track recording sessions. This is the first studio techniques class to be taken by students who select the Audio Design & Production major. Classes focus on the fundamentals of multi-track recording, building upon the fundamentals of console design and signal processing systems as presented in Fundamentals of Audio Production, Audio Theory and Systems, and DAW Production Techniques and Applications. The class includes lecture-demonstrations, in-class group tracking sessions, and additional lab assignments, which are completed in the studios and labs of the Audio Arts & Acoustics Department.

**Repeatable:** N

**Formerly** 43-2210

**Prerequisites** AUDI 122 DAW Production Techniques and Applications and AUDI 103 Audio Theory and Systems and AUDI 105 Signal Flow and Gain Structure

**Minimum Credits 4 Maximum Credits 4**

### **AUDI 241 The Art of Troubleshooting**

Because complex, interactive systems fail in complex, interactive ways, this course builds six essential competencies to assist system designers and system operators to cope with failure and limit immediate damage; to collect symptoms and understand systems rapidly; to apply inferential logic and avoid logical fallacies; to identify, trap, and limit failures; and to patch around them. This is not a course in equipment repair.

**Repeatable:** N

**Formerly** 43-3621

**Prerequisites** AUDI 103 Audio Theory and Systems

**Minimum Credits 3 Maximum Credits 3**

### **AUDI 252 Live Sound Reinforcement**

This course is designed to teach techniques and tools of sound reinforcement. Content combines product awareness with ear training and hands-on practice. Students complete lab assignments in the Audio

Technology Center Live Sound Lab and spend two lab sessions at local music clubs.

**Repeatable:** *N*

**Formerly** 43-2515

**Prerequisites** AUDI 102 Introduction to Audio and AUDI 105 Signal Flow and Gain Structure

**Minimum Credits** 3 **Maximum Credits** 3

## **AUDI 312 Principles of Audio Deliverables Mastering and Preservation**

Audio design and production does not end with the final mix but rather leads to a series of critical considerations: how to prepare (master/ re-master) the recording for the intended audience; in what format(s) to best deliver the recording; how to ensure the fidelity and integrity of the recorded signal along the way; what of the production process to save for future use; and how to archive and preserve that material. In addition to original production work, many of these considerations apply to the entire legacy of recorded audio, as evidenced by a proliferation of commercial and nonprofit initiatives in audio archiving, preservation, and restoration. This course addresses the essential aspects of audio design and production related to the dissemination and preservation of audio recordings, from delivery (mastering and deliverables) to preservation (archiving, preservation, and restoration). Through readings, investigation and analysis assignments, and in-class lectures, discussions, and demonstrations, students will encounter critical questions, theories, processes, and practices which are necessary and useful in a range of professional applications.

**Repeatable:** *N*

**Formerly** 43-3243

**Prerequisites** AUDI 221 Multitrack Music Recording I or AUDI 324 Audio for Visual Media I

**Minimum Credits** 3 **Maximum Credits** 3

## **AUDI 324 Audio for Visual Media I**

Studio course presents the technology and techniques used in creating sound tracks for TV, film, and multimedia. Students learn the technology and techniques of synchronizing video with all audio platforms, including analog and both linear and non-linear digital recording and editing systems.

**Repeatable:** *N*

**Formerly** 43-2420

**Prerequisites** AUDI 122 DAW Production Techniques and Applications and AUDI 105 Signal Flow and Gain Structure

**Minimum Credits** 4 **Maximum Credits** 4

## **AUDI 436 Research Methods: An Interdisciplinary Approach**

Understanding research on quantitative and observable data requires a thorough understanding of the scientific method, familiarity with multiple methodological approaches to research, as well as the ability to critically evaluate the strengths and limitations of methods and data collected within a research paradigm. This multidisciplinary course is designed particularly for students within Media Arts who will benefit from an understanding of research methods in science and communications, as distinct from research in humanities and creative arts. Students in this course will learn about the strengths and limitations of various types of research, as well as directly apply research methods through group and individual research proposals and projects, including projects within their discipline.

This course is not discipline-specific and therefore can serve students outside the department.

**Repeatable:** *N*

**Formerly** 43-3583

**Prerequisites** ENGL 112 Writing and Rhetoric II and MATH 110 College Mathematics or ENGL 112 Writing and Rhetoric II and MATH 115 Liberal Arts Mathematics or ENGL 112 Writing and Rhetoric II and MATH 120 Quantitative Reasoning or ENGL 112 Writing and Rhetoric II and ACCU-T-67 EXAM-ACCUPLACER MATH MINIMUM SCORE = 67 or ENGL 112 Writing and Rhetoric II and ACT-M-23 EXAM-ACT MATH MINIMUM SCORE = 23 or ENGL 112 Writing and Rhetoric II and SAT-M-550 EXAM-SAT MATH MINIMUM SCORE = 550 or ENGL 112H Writing and Rhetoric II: Honors and MATH 110 College Mathematics or ENGL 112H Writing and Rhetoric II: Honors and MATH 115 Liberal Arts Mathematics or ENGL 112H Writing and Rhetoric II: Honors and MATH 120 Quantitative Reasoning or ENGL 112H Writing and Rhetoric II: Honors and ACCU-T-67 EXAM-ACCUPLACER MATH MINIMUM SCORE = 67 or ENGL 112H Writing and Rhetoric II: Honors and ACT-M-23 EXAM-ACT MATH MINIMUM SCORE = 23 or ENGL 112H Writing and Rhetoric II: Honors and SAT-M-550 EXAM-SAT MATH MINIMUM SCORE = 550 or ENGL 122 International Writing and Rhetoric II and MATH 110 College Mathematics or ENGL 122 International Writing and Rhetoric II and MATH 115 Liberal Arts Mathematics or ENGL 122 International Writing and Rhetoric II and MATH 120 Quantitative Reasoning or ENGL 122 International Writing and Rhetoric II and ACCU-T-67 EXAM-ACCUPLACER MATH MINIMUM SCORE = 67 or ENGL 122 International Writing and Rhetoric II and ACT-M-23 EXAM-ACT MATH MINIMUM SCORE = 23 or ENGL 122 International Writing and Rhetoric II and SAT-M-550 EXAM-SAT MATH MINIMUM SCORE = 550 or ENGL 112 Writing and Rhetoric II and ALEK-1-46 EXAM-ALEKS MINIMUM SCORE = 46 or ENGL 112H Writing and Rhetoric II: Honors and ALEK-1-46 EXAM-ALEKS MINIMUM SCORE = 46 or ENGL 122 International Writing and Rhetoric II and ALEK-1-46 EXAM-ALEKS MINIMUM SCORE = 46

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **AUDI 443 Networks and Networking for Media**

Through lectures, readings and hands-on experience, this course provides a basic understanding of the networks and networking protocols necessary for reliable, secure communication in a digital media world. Intended for students who have completed the department's core curriculum, it is also offered to non-majors with instructor approval. Major topics include network topologies (LAN, WAN, WLAN, MAN) and protocols (primarily TCP/IP), IP addressing hierarchies, switching, routing, and VLANs, and network security.

**Repeatable:** *N*

**Formerly** 43-3622

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **Bachelor of Science**

### **Acoustics, BS**

The Bachelor of Science degree program in Acoustics offered by the Audio Arts and Acoustics Department aims to provide students with extensive undergraduate level preparation in the fields of Architectural Acoustics (e.g. sound isolation, design of concert halls, studios, etc.), Environmental Acoustics (e.g. noise measurement and control, noise pollution; regulatory standards; etc.), Sound Perception and Cognition (e.g. physical, physiological, and cognitive bases of communication through sound), and audio and vibration studies in markets as diverse as loudspeaker manufacturing, automotive research and development, and musical instrument construction. A number of graduates of the program are represented at major consulting firms throughout the country and at world-renowned manufacturers. The program also aims to prepare students for graduate studies in hearing sciences and architectural acoustics.

The main educational goal of the program is to offer students a holistic understanding of acoustics as a discipline, by presenting all of its components, i.e. theory, practicum, and aesthetics, through a combination of survey and in-depth courses. Theoretical and applied theory elements of acoustics are introduced in courses such as Architectural Acoustics, Environmental Acoustics, Fundamentals of Vibration Analysis, Studies in Hearing, and Psychoacoustics, while courses like Acoustical Testing I, Acoustical Testing II, and Acoustical Modeling give students the opportunity to analyze and solve real-world problems, while developing a professional portfolio. Practical real-world exposure to the discipline is further emphasized in advanced courses such as Acoustics of Performance Spaces, and Engineered Acoustics, while the aesthetic element of the discipline presented in every class is furthered in courses such as Perception & Cognition of Sound, and Studies in Applied Acoustics.

In all, we have developed a curriculum that provides both the fundamental elements that any practitioner in acoustics should be intimately familiar with, as well as a series of courses that the student can choose from in order to match her/his specific educational and career goals. Students are also encouraged to become better practitioners in the field of acoustics by considering elective courses that truly reflect the foundation of an enlightened liberal arts education.

Students advance through the program in a cohort fashion, with a typical class of 12-15 students graduating in the spring semester. The cohort is expected to develop study groups, bring forth to the attention of the faculty common issues of interest to the students, and plan for and schedule research activities suitable for presentation in refereed conferences.

Although the Acoustics program aims at fostering a climate that develops team work, it also emphasizes individual attention to the students during all phases of their academic careers. Registration for most courses requires instructor permission, leading to regular one-on-one advising sessions between student and faculty members. In addition, office hours are held after every class and a wide range of individual tutoring options are available.

As part of the Audio Arts and Acoustics Department, students benefit from both a liberal arts education and a curriculum that emphasizes the science and mathematics behind the sounds we love (and sometimes hate). This 128-credit degree program aims to prepare its students to successfully compete in the workplace and for graduate admission into relevant advanced academic programs.

This program of study has significant support from those already in the industry. Here are some sample comments\* from a few of our educational partners:

"When hiring, I look for individuals that have a strong educational background in mathematics and science to perform complex acoustical analysis.... [This curriculum] will increase the marketability of the graduates to potential employers and it [will] further assist in supporting their post-graduation academic goals." (Michelle A. Jones, President, Entech Consulting Group)

"There are only a handful of Acoustics degrees available and this [makes] yours even more desirable and competitive.... In the eyes of employers like Kinetics Noise Control, college graduates who can analyze and understand acoustic events using math and physics skills are a step ahead." (Matt Swysgood, Vice President for Architectural and Interiors Markets, Kinetics Noise Control)

\*Please note that these statements are not made by Columbia College Chicago and do not offer a guarantee of promise of employment.

As a result of successfully completing program requirements, students should be able to:

- effectively communicate the theory, methods, and outcomes of acoustics project work, in both verbal and written formats suitable for presentation in educational, professional, and conference settings;

- independently test, model, and assess acoustical parameters pertaining to a wide range of problems in the areas of Architectural Acoustics, Environmental Acoustics, and Sound Perception;
- work effectively in teams to conduct acoustics-related testing and analysis, and to report their findings in a structured and efficient fashion;
- identify and promote Best Practices that are associated with the field of acoustics within their chosen career path;
- pursue entry into a graduate program in a field related to acoustics with little or no additional preparation;
- pursue entry-level positions in the field of acoustics, within the private sector of the industry, i.e. at an acoustical consulting firm, or with a manufacturer of sound and vibration control products; and
- pursue entry-level positions in the field of acoustics, within the regulatory and standards sector of the industry, such as at an acoustical testing laboratory, or with an entity charged with developing and/or enforcing relevant noise and measurement standards.

## PROGRAM REQUIREMENTS - 76 credits required

### **AUDI 103 Audio Theory and Systems**

This course immerses students in the language, theories, and technical knowledge common to all fields in which audio is used. Topics include sound waves and propagation, the analog and digital audio signal, signal analysis and processing (frequency, amplitude and time-based), and basic audio systems (transducers, amplifiers, mixers). To contextualize these theoretical aspects, students are introduced to equipment used in professional audio systems from a technical and functional point of view.

**Repeatable:** *N*

**Formerly** 43-1112

**Prerequisites** AUDI 102 Introduction to Audio

**Concurrent Requisite** PHYS 215 The Science of Acoustics I

**Minimum Credits** 3 **Maximum Credits** 3

### **AUDI 105 Signal Flow and Gain Structure**

This 1 credit course will introduce students to signal flow and gain structure in small (2-4 channel) to large (16 channel) mixing consoles with playback on shared speakers/headphones and patching to and from select outboard equipment (reverb unit, cue/monitor, etc.). Projects and assignments will be done during class. Homework will include readings. Tests will be practical as well as written (vocabulary, application concepts).

**Repeatable:** *N*

**Minimum Credits** 1 **Maximum Credits** 1

### **AUDI 121 Fundamentals of Audio Production**

Course introduces students to basic theories and techniques of recording, editing, and mixing. Instruction covers fundamentals of microphone usage, signal flow, and non-linear digital recording and editing. Course is taught in a classroom laboratory where lectures and labs focus on the production of short-form audio works of voice, music, and sound effects to develop and improve engineering and production skills.

**Repeatable:** *N*

**Formerly** 43-1115

**Minimum Credits** 3 **Maximum Credits** 3

## **AUDI 202 Studies in Hearing**

This course introduces students to the fundamentals of human hearing physiology as well as issues relating to hearing loss and conservation. It is important for any audio professional to understand how complex and delicate the human hearing system is. We must also realize the significance of the fact that society is, only now, beginning to address the problem of environmentally induced hearing loss. The first part of the course will address hearing physiology. Course will focus on the mechanical systems of hearing, starting with the reception of acoustic energy and ending with the delivery of neural signals to the brain. This will give students the necessary foundation knowledge to engage in presentations and discussions covering the topics of hearing loss and conservation.

**Repeatable:** *N*

**Formerly** 43-2725

**Prerequisites** AUDI 103 Audio Theory and Systems

**Minimum Credits 3 Maximum Credits 3**

## **AUDI 231 Psychoacoustics**

Class provides the necessary basis for understanding how we hear the world around us. The course is multidisciplinary, with contributions from the academic disciplines of auditory physiology, physics, and psychology. It examines how the human auditory system processes the information it receives, that is, how physical attributes of sound translate into perceptual attributes such as loudness, pitch, and timbre. Topics extend to the perception of music, sound localization, speech, and beyond. Numerous audio-visual demonstrations are used to reinforce the theoretical material presented.

**Repeatable:** *N*

**Formerly** 43-2310

**Prerequisites** PHYS 215 The Science of Acoustics I

**Minimum Credits 3 Maximum Credits 3**

## **AUDI 232 Architectural Acoustics**

Course reviews the fundamentals of acoustics covered in previous classes and presents all of the materials within the context of the behavior of sound in a bounded space. Practical aspects of the class are emphasized by dedicating a large portion of the semester to case studies. Demonstrations are provided throughout the semester to emphasize both theoretical and practical concepts.

**Repeatable:** *N*

**Formerly** 43-2315

**Prerequisites** MATH 220 Calculus I and AUDI 231 Psychoacoustics or MATH 220H Calculus I: Honors and AUDI 231 Psychoacoustics

**Minimum Credits 3 Maximum Credits 3**

## **AUDI 242 Sound System Design**

Course offers an in-depth look at what goes into designing and installing permanent sound systems. Students learn to design systems for coverage, intelligibility, and cost effectiveness. Emphasis is placed on understanding specifications of system component and predicting system performance.

**Repeatable:** *N*

**Formerly** 43-3610

**Prerequisites** AUDI 103 Audio Theory and Systems and AUDI 105 Signal Flow and Gain Structure  
**Minimum Credits 3 Maximum Credits 3**

### **AUDI 334 Fundamentals of Vibration Analysis**

Course provides students with an understanding of vibration theory, experimental analysis and vibration control. The class focuses on free and forced vibration of mechanical systems with an emphasis on practical applications in the areas of rotating machinery, isolation, and noise reduction. Excessive vibration is often the cause of unwanted sound or noise. Understanding the effects of vibration enhances the understanding of noise related issues in buildings and the environment, addressed in Engineered Acoustics and Environmental Acoustics. This class also provides the necessary background to understand the complex vibration of musical instruments.

**Repeatable:** *N*

**Formerly** 43-3340

**Prerequisites** AUDI 231 Psychoacoustics and MATH 220 Calculus I or AUDI 231 Psychoacoustics and MATH 220H Calculus I: Honors

**Minimum Credits 3 Maximum Credits 3**

### **AUDI 431 Acoustical Testing I**

The testing of an acoustical space represents the proof of performance of the design phase. Course introduces students to a variety of testing tools and techniques to be used in a wide range of situations. The course makes extensive use of real world contexts to present the need for accurate testing and reinforce the methodology introduced during the lectures.

**Repeatable:** *N*

**Formerly** 43-3325

**Prerequisites** AUDI 334 Fundamentals of Vibration Analysis

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

### **AUDI 432 Acoustical Testing II**

Course focuses on practical applications of the theory introduced in Acoustical Testing I.

**Repeatable:** *N*

**Formerly** 43-3326

**Prerequisites** AUDI 431 Acoustical Testing I

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

### **AUDI 433 Acoustical Modeling**

Modeling is rapidly becoming an essential component of the acoustical design process. This course reviews the modeling options currently available to acoustical designers and presents the strengths and the limitations of the various methods. Modeling exercises for a variety of acoustical environments are performed by the students using some of the relevant software currently available. A large portion of the class is devoted to student projects.

**Repeatable:** *N*

**Formerly** 43-3320

**Prerequisites** AUDI 431 Acoustical Testing I  
**Requirements** Permission Required (DP)  
**Minimum Credits 3 Maximum Credits 3**

## **MATH 220 Calculus I**

In the first course of the Calculus sequence, students will briefly review essential precalculus topics and then study the fundamental concepts of Calculus—the limit, derivative, and integral. Topics include techniques for calculating limits; continuity; the definition of the derivative; derivatives of polynomial and rational functions; the chain rule; implicit differentiation; Rolle's and the mean value theorems; applications of the derivative; antiderivatives; the calculus of trigonometric, logarithmic, and exponential functions; the definite integral; and the fundamental theorem of calculus.

**Repeatable:** *N*  
**Formerly** 56-2720

**MA**

**Prerequisites** MATH 215 Precalculus or ACCU-T-80 EXAM-ACCUPLACER MATH MINIMUM SCORE = 80 or ACT-M-27 EXAM-ACT MATH MINIMUM SCORE = 27 or SAT-M-620 EXAM-SAT MATH MINIMUM SCORE = 620 or CMPS-M-80 EXAM-CMPS MATH MINIMUM SCORE = 80 or ALEK-1-76 EXAM-ALEKS MINIMUM SCORE = 76

**Minimum Credits 4 Maximum Credits 4**

## **MATH 221 Calculus II**

In the second course of the Calculus sequence, students will study integration techniques and applications of the integral and will analyze the behavior and properties of sequences and series. Topics include area, volume, and other applications of the integral; techniques of integration, including numerical methods, substitution, integration by parts, trigonometric substitution, and partial fractions; indeterminate forms and L'Hôpital's rule; improper integrals; sequences and series; convergence tests; and Taylor and MacLaurin series.

**Repeatable:** *N*  
**Formerly** 56-2721

**MA**

**Prerequisites** MATH 220 Calculus I or MATH 220H Calculus I: Honors

**Minimum Credits 4 Maximum Credits 4**

## **MATH 330 Elementary Differential Equations**

Differential Equations is the study of methods of solving equations involving differentials (derivatives). The course concentrates on differential equations of first order and second order; simultaneous, linear, and homogeneous differential equations; solutions by power series; Laplace transforms and applications.

**Repeatable:** *N*  
**Formerly** 56-3720

**MA**

**Prerequisites** MATH 221 Calculus II

**Minimum Credits 3 Maximum Credits 3**

## **PHYS 120 Science of Electronics**

This course provides an introduction to electronics. Students acquire knowledge in the fundamentals of electric circuit theory. Course teaches the operation and use of electronic components and instruments such as multimeters and oscilloscopes. Regular laboratories provide opportunities for hands-on activities. During the final weeks of the course students construct an electronic project.

**Repeatable:** N

**Formerly** 56-1820

**SL**

**Prerequisites** MATH 110 College Mathematics or MATH 115 Liberal Arts Mathematics or MATH 120 Quantitative Reasoning or ACCU-T-67 EXAM-ACCUPLACER MATH MINIMUM SCORE = 67 or ACT-M-23 EXAM-ACT MATH MINIMUM SCORE = 23 or SAT-M-550 EXAM-SAT MATH MINIMUM SCORE = 550 or CMPS-M-67 EXAM-CMPS MATH MINIMUM SCORE = 67 or ALEK-1-46 EXAM-ALEKS MINIMUM SCORE = 46

**Minimum Credits 4 Maximum Credits 4**

## **PHYS 215 The Science of Acoustics I**

The course introduces the physics of vibrating systems, waves and sound. Topics include the sound spectrum, how the ear works, the transmission of sound through fluids at different temperatures and through different materials and the Doppler effect. The properties of reflection, refraction, diffraction and interference are studied with special emphasis on resonance, standing waves and the Inverse Square Law of the intensity of sound. The course concludes with an introduction to auditorium acoustics and basic electricity used in the operation of speakers and microphones.

**Repeatable:** N

**Formerly** 56-2820

**SL**

**Prerequisites** MATH 110 College Mathematics or MATH 115 Liberal Arts Mathematics or MATH 120 Quantitative Reasoning or ACCU-T-67 EXAM-ACCUPLACER MATH MINIMUM SCORE = 67 or ACT-M-23 EXAM-ACT MATH MINIMUM SCORE = 23 or SAT-M-550 EXAM-SAT MATH MINIMUM SCORE = 550 or CMPS-M-67 EXAM-CMPS MATH MINIMUM SCORE = 67 or ALEK-1-46 EXAM-ALEKS MINIMUM SCORE = 46

**Minimum Credits 3 Maximum Credits 3**

## **Applied Acoustics Electives**

*Complete 15 credits from the following courses. At least three courses must be upper-level.*

### **AUDI 102 Introduction to Audio**

This course provides an overview of the world of sound and audio in its various manifestations, including music, communications, sound in linear and non-linear media, sound art, and sonification. It introduces students to basic concepts and terminology related to sound, audio, and audio equipment and systems, but it is not a theory course. Rather, the course examines aspects of our sonic world through the lenses of audio production, live sound reinforcement, and acoustics, constructing a survey of practices and trends, practitioners, and examples; of history, context, and politics; and of art and aesthetics. Along the way it challenges students to examine and open themselves to difference ways of listening. This course is open to all majors.

**Repeatable:** N

**Formerly** 43-1111

**Minimum Credits 3 Maximum Credits 3**

## **AUDI 211 Audio Programming and Performance**

This course introduces principles of sound synthesis and audio programming applied to live performance. The students learn to design their own mini instruments as they explore real-time audio programming topics, including fundamentals of sound synthesis and signal processing (e.g. Additive, Subtractive, Granular, AM, FM), control protocols (e.g. OSC), patterns and event structures, live coding and performance. The semester culminates in a live public performance of original compositions for a laptop ensemble.

**Repeatable:** *N*

**Formerly** 43-2241

**Prerequisites** PROG 101 Programming I or PROG 110 Art of Code

**Minimum Credits** 3 **Maximum Credits** 3

## **AUDI 241 The Art of Troubleshooting**

Because complex, interactive systems fail in complex, interactive ways, this course builds six essential competencies to assist system designers and system operators to cope with failure and limit immediate damage; to collect symptoms and understand systems rapidly; to apply inferential logic and avoid logical fallacies; to identify, trap, and limit failures; and to patch around them. This is not a course in equipment repair.

**Repeatable:** *N*

**Formerly** 43-3621

**Prerequisites** AUDI 103 Audio Theory and Systems

**Minimum Credits** 3 **Maximum Credits** 3

## **AUDI 301 History of Audio**

This course offers students an exposition of the history and evolution of audio technologies and practices, while also engaging students in an active process of analysis and critique through different lenses (such as aesthetic, technological, sociocultural, political, and economic). The course enables students to deepen their awareness and appreciation of the historical dimensions and trajectories of audio theory, technology, practice, and aesthetics, while also revealing and drawing attention to deeper and more critical themes and issues, that might range from technological debates (e.g. acoustical vs. electrical recording, fidelity vs. convenience, different values and approaches toward production) to sociocultural, political (e.g. issues of access and affordance, diversity, intellectual property).

**Repeatable:** *N*

**Formerly** 43-2720

**Prerequisites** AUDI 103 Audio Theory and Systems

**Minimum Credits** 3 **Maximum Credits** 3

## **AUDI 331 Environmental Acoustics**

Course aims at providing a comprehensive understanding of issues pertaining to noise pollution and noise control in a wide range of environments such as urban, industrial, airport, entertainment venues, and so forth. Comprehensive course equally covers both theory and practice with field measurements performed by students and teacher. Data are used to reinforce theoretical models. Course emphasizes noise studies in the workplace and reviews current regulatory issues pertaining to noise pollution.

**Repeatable:** *N*

**Formerly** 43-3315

**Prerequisites** AUDI 231 Psychoacoustics

**Minimum Credits 3 Maximum Credits 3**

### **AUDI 332 Acoustics of Performance Spaces**

A continuation of Architectural Acoustics, course is dedicated to the design of performance spaces and recording aural environments. Course covers issues pertaining to architectural design and to sound reinforcement in various indoor contexts such as movie theaters, performance halls, control rooms, recording studios, and Houses of Worship. Course combines case studies spanning many centuries with current foundation material to provide students with a critical understanding of acoustical design issues and a reinforcement of their aesthetic sense for music and voice performances.

**Repeatable:** *N*

**Formerly** 43-3310

**Prerequisites** AUDI 231 Psychoacoustics and AUDI 232 Architectural Acoustics

**Minimum Credits 3 Maximum Credits 3**

### **AUDI 333 Perception and Cognition of Sound**

Course provides the necessary basis for understanding the cognitive processes involved in our auditory perception of complex signals such as environmental sounds, speech and music. It will examine the basic cognitive theories of memory and attention, as well as the underlying concepts of information processing and perceptual grouping. The course will systematically explore how humans respond intellectually and emotionally to complex auditory stimuli. Course is multidisciplinary, with contributions from music, biology, physics, psychology, philosophy, and computer science. Numerous demonstrations are used to reinforce the theoretical material presented in the lectures.

**Repeatable:** *N*

**Formerly** 43-3120

**Prerequisites** AUDI 231 Psychoacoustics

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **AUDI 335 Studies in Applied Acoustics**

Course combines the curricula of a traditional introductory musical acoustics course with special topics on electro-acoustics, room acoustics, and spatial hearing perception. An in-depth presentation of the vibration and sound propagation issues pertaining to a wide range of musical instruments is presented in the context of timbre, tuning, and temperament. The course provides students with the opportunity to investigate and report on a specific project to be conducted as part of a team.

**Repeatable:** *N*

**Formerly** 43-2325

**Prerequisites** AUDI 103 Audio Theory and Systems

**Minimum Credits 3 Maximum Credits 3**

### **AUDI 342 Project Planning, Process and Implementation**

A project is a task with a definite cycle: beginning (planning), middle (execution, supervision), and end (assessment and, often, payment). Most work in audio and acoustics is project work, from recording and mixing a demo in one day, to the design and construction of a concert hall, which can take years. This course blends project management, personal time management, and quick analysis for decision making into

a set of key skills for those who must juggle multiple projects.

**Repeatable:** *N*

**Formerly** 43-2610

**Prerequisites** AUDI 102 Introduction to Audio and ENGL 109 Writing and Rhetoric I Stretch B or AUDI 102 Introduction to Audio and ENGL 111 Writing and Rhetoric I or AUDI 102 Introduction to Audio and ENGL 111H Writing and Rhetoric I: Honors or AUDI 102 Introduction to Audio and ENGL 121 International Writing and Rhetoric I or AUDI 102 Introduction to Audio and TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

### **AUDI 343 Installed Systems Documentation**

Course gives students familiarity with the graphical standards of the Construction Specifications Institute. Students will acquire skill at navigating architectural drawings at a workstation and an ability to generate audio system drawings.

**Repeatable:** *N*

**Formerly** 43-3619

**Prerequisites** AUDI 242 Sound System Design

**Minimum Credits 3 Maximum Credits 3**

### **AUDI 412 Spatial Audio**

This course focuses on the relationship between sound and space from a scientific and artistic perspective. It reviews the physiological and psychacoustic foundations of spatial hearing, as well as of stereophonic recording and production techniques. Other major topics include: impulse responses, binaural sound reproduction, 5.1 and other surround sound formats, Ambisonics and other 3D sound spatialization techniques, microphone and loudspeaker arrays. Examples will be drawn from the history and current artistic practice of spatial audio.

**Repeatable:** *N*

**Prerequisites** AUDI 202 Studies in Hearing or AUDI 231 Psychoacoustics

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **AUDI 415 Advanced Practicum in Sound Art**

Course explores the aesthetics and techniques of sound art. A major component of the course is the ongoing analysis and critique of the students' work. In addition to readings, lecture, discussion, and analytical listening, students are expected to give and receive feedback and critiques, under the instructor's guidance. Students are expected to work independently on projects developed with the consent of the instructor.

**Repeatable:** *N*

**Formerly** 43-3290

**Prerequisites** AUDI 122 DAW Production Techniques and Applications or MUSC 228 Digital Music Composition and Performance or GAME 235 Sound and Music for Interactive Visual Media or CINE 311 Post-Production Audio II

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **AUDI 436 Research Methods: An Interdisciplinary Approach**

Understanding research on quantitative and observable data requires a thorough understanding of the scientific method, familiarity with multiple methodological approaches to research, as well as the ability to critically evaluate the strengths and limitations of methods and data collected within a research paradigm. This multidisciplinary course is designed particularly for students within Media Arts who will benefit from an understanding of research methods in science and communications, as distinct from research in humanities and creative arts. Students in this course will learn about the strengths and limitations of various types of research, as well as directly apply research methods through group and individual research proposals and projects, including projects within their discipline. This course is not discipline-specific and therefore can serve students outside the department.

**Repeatable:** *N*

**Formerly** 43-3583

**Prerequisites** ENGL 112 Writing and Rhetoric II and MATH 110 College Mathematics or ENGL 112 Writing and Rhetoric II and MATH 115 Liberal Arts Mathematics or ENGL 112 Writing and Rhetoric II and MATH 120 Quantitative Reasoning or ENGL 112 Writing and Rhetoric II and ACCU-T-67 EXAM-ACCUPLACER MATH MINIMUM SCORE = 67 or ENGL 112 Writing and Rhetoric II and ACT-M-23 EXAM-ACT MATH MINIMUM SCORE = 23 or ENGL 112 Writing and Rhetoric II and SAT-M-550 EXAM-SAT MATH MINIMUM SCORE = 550 or ENGL 112H Writing and Rhetoric II: Honors and MATH 110 College Mathematics or ENGL 112H Writing and Rhetoric II: Honors and MATH 115 Liberal Arts Mathematics or ENGL 112H Writing and Rhetoric II: Honors and MATH 120 Quantitative Reasoning or ENGL 112H Writing and Rhetoric II: Honors and ACCU-T-67 EXAM-ACCUPLACER MATH MINIMUM SCORE = 67 or ENGL 112H Writing and Rhetoric II: Honors and ACT-M-23 EXAM-ACT MATH MINIMUM SCORE = 23 or ENGL 112H Writing and Rhetoric II: Honors and SAT-M-550 EXAM-SAT MATH MINIMUM SCORE = 550 or ENGL 122 International Writing and Rhetoric II and MATH 110 College Mathematics or ENGL 122 International Writing and Rhetoric II and MATH 115 Liberal Arts Mathematics or ENGL 122 International Writing and Rhetoric II and MATH 120 Quantitative Reasoning or ENGL 122 International Writing and Rhetoric II and ACCU-T-67 EXAM-ACCUPLACER MATH MINIMUM SCORE = 67 or ENGL 122 International Writing and Rhetoric II and ACT-M-23 EXAM-ACT MATH MINIMUM SCORE = 23 or ENGL 122 International Writing and Rhetoric II and SAT-M-550 EXAM-SAT MATH MINIMUM SCORE = 550 or ENGL 112 Writing and Rhetoric II and ALEK-1-46 EXAM-ALEKS MINIMUM SCORE = 46 or ENGL 112H Writing and Rhetoric II: Honors and ALEK-1-46 EXAM-ALEKS MINIMUM SCORE = 46 or ENGL 122 International Writing and Rhetoric II and ALEK-1-46 EXAM-ALEKS MINIMUM SCORE = 46

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

## **AUDI 442 Audio Visual System Design**

Audio Visual Communication systems play a crucial role in delivering information and are a key part of almost all major installed projects. However, the end result is a tool for communication. Communication requires not just aural communication but visual as well. Audio and video are continually evolving into fully integrated systems. These systems require transmission, control and display subsystems as part of the whole integration. This course will expose students to a host of new terms and concepts, yet focus on several basic areas: Display, control, flow/distribution, and a general introduction to industry considerations and influences. Students in this course will apply fundamental knowledge and techniques learned in previous courses (Sound System Design, Installed System Documentation, and Project Planning, Process and Implementation) in order to create a complete AV system design.

**Repeatable:** *N*

**Formerly** 43-4473

**Prerequisites** AUDI 242 Sound System Design  
**Minimum Credits 3 Maximum Credits 3**

## **PROG 110 Art of Code**

Develop projects specific to your major as you learn a disciplined approach to problem-solving and algorithm development with programming. Topics covered throughout the semester include data abstraction, procedural structures, sequence control, repetition, and best practices.

**Repeatable:** *N*

**Formerly** 36-1310

**Prerequisites** MATH 110 College Mathematics or MATH 115 Liberal Arts Mathematics or MATH 120 Quantitative Reasoning or MATH 150 Geometry in the Arts or MATH 155 Math in Art and Nature or MATH 160 Mathematical Ideas or MATH 165 Math for Marketing and Management or ACCU-T-67 EXAM-ACCUPLACER MATH MINIMUM SCORE = 67 or ACT-M-23 EXAM-ACT MATH MINIMUM SCORE = 23 or SAT-M-550 EXAM-SAT MATH MINIMUM SCORE = 550 or CMPS-M-67 EXAM-CMPS MATH MINIMUM SCORE = 67 or ALEK-1-46 EXAM-ALEKS MINIMUM SCORE = 46

**Minimum Credits 3 Maximum Credits 3**

## **Science and Mathematics Electives**

*Choose four of the following courses. At least two courses must be upper-level.*

### **CHEM 201 General Chemistry I**

General Chemistry I is a laboratory-intensive course. Content of the course includes the foundations of chemistry and problem-solving strategies; atoms, molecules and ions; balancing chemical equations and reaction stoichiometry; types of chemical reactions and solution stoichiometry; gases; thermochemistry; atomic structure and periodicity; chemical bonding and liquids and solids. It is highly recommended that students have had one year of high school chemistry.

**Repeatable:** *N*

**Formerly** 56-2270

**SL**

**Prerequisites** MATH 210 College Algebra or ACCU-T-75 EXAM-ACCUPLACER MATH MINIMUM SCORE = 75 or ACT-M-25 EXAM-ACT MATH MINIMUM SCORE = 25 or SAT-M-580 EXAM-SAT MATH MINIMUM SCORE = 580 or ALEK-1-61 EXAM-ALEKS MINIMUM SCORE = 61

**Minimum Credits 4 Maximum Credits 4**

### **CHEM 202 General Chemistry II**

General Chemistry II will expand upon the core chemical concepts from General Chemistry I. Students will continue their study of general chemistry with problem solving activities and laboratory investigations of the properties of solutions, chemical kinetics, chemical equilibrium, acids and bases, solubility and complex ion equilibria, spontaneity, entropy, free energy, electrochemistry, the representative elements, and transition metals and coordination chemistry.

**Repeatable:** *N*

**Formerly** 56-2271

**SL**

**Prerequisites** CHEM 201 General Chemistry I

**Minimum Credits 4 Maximum Credits 4**

## **MATH 205 Introduction to Statistics**

This course provides a foundation in the principles of statistics, with examples drawn from a variety of sources providing context. Topics include sampling and data collection, averages, measures of variation, confidence intervals, hypothesis testing, correlation, and linear regression.

**Repeatable:** *N*

**Formerly** 56-2706

**MA**

**Prerequisites** MATH 110 College Mathematics or MATH 115 Liberal Arts Mathematics or MATH 120 Quantitative Reasoning or ACCU-T-67 EXAM-ACCUPLACER MATH MINIMUM SCORE = 67 or ACT-M-23 EXAM-ACT MATH MINIMUM SCORE = 23 or SAT-M-550 EXAM-SAT MATH MINIMUM SCORE = 550 or CMPS-M-67 EXAM-CMPS MATH MINIMUM SCORE = 67 or ALEK-1-46 EXAM-ALEKS MINIMUM SCORE = 46

**Minimum Credits 3 Maximum Credits 3**

## **MATH 305 Discrete Mathematics**

Discrete Mathematics is the study of mathematical structures that have distinct, separated values. Topics include mathematical proof, logic, set theory, functions, relations, counting methods, and graph theory.

**Repeatable:** *N*

**Formerly** 56-3700

**MA**

**Prerequisites** MATH 220 Calculus I or MATH 220H Calculus I: Honors

**Minimum Credits 3 Maximum Credits 3**

## **MATH 310 Linear Algebra**

Linear algebra is the study of vector spaces and transformations on them. This course emphasizes techniques of computation and applications. Topics include systems of linear equations, matrix algebra, eigenvalues and eigenspaces, and inner product spaces. Applications typically include polynomial interpolation, electrical networks, cryptography, computer graphics, Markov chains, and approximation of functions including Fourier methods.

**Repeatable:** *N*

**Formerly** 56-3740

**MA**

**Prerequisites** MATH 220 Calculus I or MATH 220H Calculus I: Honors

**Minimum Credits 4 Maximum Credits 4**

## **MATH 320 Calculus III**

In the third course of the Calculus sequence, students learn to extend the ideas of single-variable Calculus to functions of several variables. Topics include vectors and their operations; functions of several variables; partial derivatives; directional derivatives and gradients; double and triple integrals; vector fields; and Green's theorem.

**Repeatable:** *N*

**Formerly** 56-3710

**MA**

**Prerequisites** MATH 221 Calculus II  
**Minimum Credits 3 Maximum Credits 3**

## **MATH 340 Numerical Analysis**

This course covers numerical methods and computer programming to investigate questions in science and engineering fields. These methods include root finding for nonlinear equations, interpolation, approximation of functions with polynomials, numerical differentiation and integration, numerical solutions of ordinary differential equations and numerical methods for solving systems of equations. The course analyzes algorithms and discusses applicability and accuracy of numerical methods. Some knowledge of computer programming is required.

**Repeatable:** *N*

**Formerly** 56-3730

**MA**

**Prerequisites** MATH 221 Calculus II and PROG 101 Programming I

**Minimum Credits 4 Maximum Credits 4**

## **PHYS 220 Fundamentals of Physics I**

This is an algebra-based course designed to introduce students to fundamental principles and ideas in physics. Central topics include motion, forces, Newton's laws, friction, momentum, energy, rotations, fluids, oscillations, and thermodynamics. Content will be delivered through lecture, demonstrations, group tutorials, and laboratory exercises.

**Repeatable:** *N*

**Formerly** 56-2830

**SL**

**Prerequisites** MATH 220 Calculus I or MATH 220H Calculus I: Honors or MATH 210 College Algebra

**Minimum Credits 3 Maximum Credits 3**

## **SCIE 155 Science of Musical Instruments**

Students study the scientific principles by which sound is generated in common acoustic musical instruments and discover the mathematical foundation of musical scales. This course explores mechanical oscillation, frequency, wavelength, and the harmonic series. Students investigate the complex timbre of musical instruments through hands-on laboratory experiments using wave and spectrum analysis, and develop scales using sound-generation software. For a final project, students construct a functional instrument and perform an original musical composition.

**Repeatable:** *N*

**Formerly** 56-1881

**SL**

**Prerequisites** MATH 110 College Mathematics or MATH 115 Liberal Arts Mathematics or MATH 120 Quantitative Reasoning or ACCU-T-67 EXAM-ACCUPLACER MATH MINIMUM SCORE = 67 or ACT-M-23 EXAM-ACT MATH MINIMUM SCORE = 23 or SAT-M-550 EXAM-SAT MATH MINIMUM SCORE = 550 or CMPS-M-67 EXAM-CMPS MATH MINIMUM SCORE = 67 or ALEK-1-46 EXAM-ALEKS MINIMUM SCORE = 46

**Minimum Credits 4 Maximum Credits 4**

## **Music Technology, BS**

The Bachelor of Science degree program in Music Technology is an interdisciplinary degree that combines coursework in Audio Arts and Acoustics (AAA), Interactive Arts and Media (IAM) and Music to equip students with the knowledge, theory, contexts and practices necessary for them to participate in, understand and advance professional musical life in the 21st century. Graduates of the program are prepared for a wide range of music-related careers, including Composition, Performance, Recording, Producing, Sound Design, and Software and Hardware Development, as well as advanced graduate studies in fields that include Music, Programming, Human Computer Interaction (HCI) and User Experience (UX).

The primary mission of the program is to educate artists and designers in the interdisciplinary foundations of modern musical practice, through a rigorous yet flexible curriculum that focuses on the impact of technology on music's creation, presentation, representation, and distribution.

As a result of successfully completing program requirements, students should be able to:

- fluently apply technical languages associated with music composition, audio and electronics, art history and literature, and software programming, in both written and spoken presentation;
- demonstrate a nuanced understanding of the relationships between a range of theoretical systems such as music, electronics, acoustics/psychoacoustics, mathematics, computer science relevant to the development of sonic arts;
- creatively apply theoretical and practical understandings in the development of musical platforms, production environments, compositions, exhibitions and performances;
- discuss ways in which electroacoustic works and digital platforms have shaped and been shaped by the details of specific historical, cultural, and technological contexts; and
- analyze and critique conceptual issues as well as specific individual performances, recordings, and platforms within and across relevant theoretical and technical contexts.

## PROGRAM REQUIREMENTS - 75-76 credits required

### **AUDI 102 Introduction to Audio**

This course provides an overview of the world of sound and audio in its various manifestations, including music, communications, sound in linear and non-linear media, sound art, and sonification. It introduces students to basic concepts and terminology related to sound, audio, and audio equipment and systems, but it is not a theory course. Rather, the course examines aspects of our sonic world through the lenses of audio production, live sound reinforcement, and acoustics, constructing a survey of practices and trends, practitioners, and examples; of history, context, and politics; and of art and aesthetics. Along the way it challenges students to examine and open themselves to difference ways of listening. This course is open to all majors.

**Repeatable:** *N*

**Formerly** 43-1111

**Minimum Credits** 3 **Maximum Credits** 3

### **AUDI 103 Audio Theory and Systems**

This course immerses students in the language, theories, and technical knowledge common to all fields in which audio is used. Topics include sound waves and propagation, the analog and digital audio signal, signal analysis and processing (frequency, amplitude and time-based), and basic audio systems (transducers, amplifiers, mixers). To contextualize these theoretical aspects, students are introduced to equipment used in professional audio systems from a technical and functional point of view.

**Repeatable:** *N*

**Formerly** 43-1112

**Prerequisites** AUDI 102 Introduction to Audio

**Concurrent Requisite** PHYS 215 The Science of Acoustics I

**Minimum Credits** 3 **Maximum Credits** 3

## **AUDI 104 Audio Electronics**

In this course, students build simple audio components to understand the electronics fundamentals that drive complex audio systems. Students also gain proficiency with an understanding of the quantitative relationship between the basic elements of electricity (voltage, resistance, current, and power) as they pertain to the projects they are building.

**Repeatable:** *N*

**Formerly** 43-1182

**Prerequisites** MATH 110 College Mathematics or MATH 115 Liberal Arts Mathematics or MATH 120

Quantitative Reasoning or ACCU-T-67 EXAM-ACCUPLACER MATH MINIMUM SCORE = 67 or ACT-M-23

EXAM-ACT MATH MINIMUM SCORE = 23 or SAT-M-550 EXAM-SAT MATH MINIMUM SCORE =

550 or ALEK-1-46 EXAM-ALEKS MINIMUM SCORE = 46

**Minimum Credits** 2 **Maximum Credits** 2

## **AUDI 121 Fundamentals of Audio Production**

Course introduces students to basic theories and techniques of recording, editing, and mixing. Instruction covers fundamentals of microphone usage, signal flow, and non-linear digital recording and editing. Course is taught in a classroom laboratory where lectures and labs focus on the production of short-form audio works of voice, music, and sound effects to develop and improve engineering and production skills.

**Repeatable:** *N*

**Formerly** 43-1115

**Minimum Credits** 3 **Maximum Credits** 3

## **AUDI 231 Psychoacoustics**

Class provides the necessary basis for understanding how we hear the world around us. The course is multidisciplinary, with contributions from the academic disciplines of auditory physiology, physics, and psychology. It examines how the human auditory system processes the information it receives, that is, how physical attributes of sound translate into perceptual attributes such as loudness, pitch, and timbre. Topics extend to the perception of music, sound localization, speech, and beyond. Numerous audio-visual demonstrations are used to reinforce the theoretical material presented.

**Repeatable:** *N*

**Formerly** 43-2310

**Prerequisites** PHYS 215 The Science of Acoustics I

**Minimum Credits** 3 **Maximum Credits** 3

## **AUDI 311 Digital Audio Effects Programming**

This course provides an in-depth exploration of the real-time digital audio processes behind the most common types of audio effects. These processes include basic signal modification (e.g. gain, pan, combining signals), filtering and equalization, delay-based effects and modulators, dynamic range processors, distortion effects, and analysis/ resynthesis. Students will design and program working examples of these processes in a high-level audio programming language, preparing the ground for

designing, programming, and implementing audio plug-ins.

**Repeatable:** N

**Prerequisites** AUDI 103 Audio Theory and Systems and PROG 101 Programming I or AUDI 103 Audio Theory and Systems and PROG 110 Art of Code

**Minimum Credits 3 Maximum Credits 3**

## **GAME 140 Sound for Interaction**

This course provides the foundation for designing, programming and critiquing interactive sound environments. Audio programming environments are introduced to facilitate the production of generative, responsive and interactive sound projects. Theories of acoustic, psychoacoustics as well as audio recording and production techniques are presented and applied in the context of interactive sound. Approaches to creating images and narratives through sound without the support of visuals is emphasized. Film, website, game and animation audio is analyzed alongside audio only works for impact, technique, structure and effectiveness.

**Repeatable:** N

**Formerly** 36-1400

**Prerequisites** ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

## **INMD 263 Physical Computing I**

Course teaches students to read wiring diagrams, as well as design and build basic electronic circuits for general applications. Students use commercially available tools to design, build, and program simple functional devices which produce a physical response (light, sound, or motion) in the environment and interfacing with a computer.

**Repeatable:** Y

**Formerly** 36-2620

**Minimum Credits 3 Maximum Credits 3**

## **MATH 220 Calculus I**

In the first course of the Calculus sequence, students will briefly review essential precalculus topics and then study the fundamental concepts of Calculus—the limit, derivative, and integral. Topics include techniques for calculating limits; continuity; the definition of the derivative; derivatives of polynomial and rational functions; the chain rule; implicit differentiation; Rolle's and the mean value theorems; applications of the derivative; antiderivatives; the calculus of trigonometric, logarithmic, and exponential functions; the definite integral; and the fundamental theorem of calculus.

**Repeatable:** N

**Formerly** 56-2720

**MA**

**Prerequisites** MATH 215 Precalculus or ACCU-T-80 EXAM-ACCUPLACER MATH MINIMUM SCORE = 80 or ACT-M-27 EXAM-ACT MATH MINIMUM SCORE = 27 or SAT-M-620 EXAM-SAT MATH MINIMUM SCORE = 620 or CMPS-M-80 EXAM-CMPS MATH MINIMUM SCORE = 80 or ALEK-1-76 EXAM-ALEKS MINIMUM SCORE = 76

**Minimum Credits 4 Maximum Credits 4**

## **MATH 221 Calculus II**

In the second course of the Calculus sequence, students will study integration techniques and applications of the integral and will analyze the behavior and properties of sequences and series. Topics include area, volume, and other applications of the integral; techniques of integration, including numerical methods, substitution, integration by parts, trigonometric substitution, and partial fractions; indeterminate forms and L'Hôpital's rule; improper integrals; sequences and series; convergence tests; and Taylor and MacLaurin series.

**Repeatable:** *N*

**Formerly** 56-2721

**MA**

**Prerequisites** MATH 220 Calculus I or MATH 220H Calculus I: Honors

**Minimum Credits 4 Maximum Credits 4**

## **MEDI 481 The Sonic Experience**

This course is designed for students interested in or already engaged in interdisciplinary coursework in music, audio arts, computer programming and interactivity. The Sonic Experience will provide a unifying framework of contexts, theories, and applications to enhance students' understanding of and competencies in these allied Music Technology fields.

**Repeatable:** *Y*

**Formerly** 75-3101

**Prerequisites** MATH 220 Calculus I or MATH 220H Calculus I: Honors

**Requirements** Junior Standing or Above (JR) Music Technology Majors Only (M900)

**Minimum Credits 3 Maximum Credits 3**

## **MEDI 482 Music Technology Capstone**

In this course, seniors in Music Technology will harness their energies, knowledge, skills, and interests to create final capstone projects of their individual design. This 1-credit course is a project-based companion to the final spring semester of the 4-semester sequence of MEDI 481 The Sonic Experience. The course is offered in spring only, and the final projects are presented as part of the Manifest Festival. Students who plan to graduate in a fall semester should take this capstone course the previous spring.

**Repeatable:** *N*

**Concurrent Requisite** MEDI 481 The Sonic Experience

**Requirements** Senior Standing (SR)

**Minimum Credits 1 Maximum Credits 1**

## **MUSC 110 Foundations of Music I**

Foundations of Music I is the initial course of the Music Core Curriculum and includes instruction in the areas of contemporary music theory, aural skills, piano keyboard (or equivalent), digital audio workstations and a variety of applications used widely in the music industry.

**Repeatable:** *N*

**Formerly** 32-1120

**DEI**

**Concurrent Requisite** MUSC 174 Applied Music I

**Minimum Credits 4 Maximum Credits 4**

## **MUSC 174 Applied Music I**

This course provides an applied experience contemporary instrumental students need prior to enrolling in private lessons. Students will study the foundational knowledge, techniques, skills, and repertoire essential to their chosen instrument. Students will apply their Foundations of Music skills to begin developing an improvisational approach to their instrument.

**Repeatable:** *N*

**Formerly** 32-1321

**Concurrent Requisite** MUSC 110 Foundations of Music I

**Minimum Credits 2 Maximum Credits 2**

## **PHYS 215 The Science of Acoustics I**

The course introduces the physics of vibrating systems, waves and sound. Topics include the sound spectrum, how the ear works, the transmission of sound through fluids at different temperatures and through different materials and the Doppler effect. The properties of reflection, refraction, diffraction and interference are studied with special emphasis on resonance, standing waves and the Inverse Square Law of the intensity of sound. The course concludes with an introduction to auditorium acoustics and basic electricity used in the operation of speakers and microphones.

**Repeatable:** *N*

**Formerly** 56-2820

**SL**

**Prerequisites** MATH 110 College Mathematics or MATH 115 Liberal Arts Mathematics or MATH 120

Quantitative Reasoning or ACCU-T-67 EXAM-ACCUPLACER MATH MINIMUM SCORE = 67 or ACT-M-23

EXAM-ACT MATH MINIMUM SCORE = 23 or SAT-M-550 EXAM-SAT MATH MINIMUM SCORE = 550 or

CMPS-M-67 EXAM-CMPS MATH MINIMUM SCORE = 67 or ALEK-1-46 EXAM-ALEKS MINIMUM SCORE

= 46

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

## **PROG 101 Programming I**

Learn programming concepts as you problem-solve with code, develop algorithms, and create object-oriented applications. Topics covered throughout the semester include data structures, repetition, sequence control structures, program design, testing, and programming best practices.

**Repeatable:** *N*

**Formerly** 36-1501

**Minimum Credits 3 Maximum Credits 3**

## **PROG 110 Art of Code**

Develop projects specific to your major as you learn a disciplined approach to problem-solving and algorithm development with programming. Topics covered throughout the semester include data abstraction, procedural structures, sequence control, repetition, and best practices.

**Repeatable:** *N*

**Formerly** 36-1310

**Prerequisites** MATH 110 College Mathematics or MATH 115 Liberal Arts Mathematics or MATH 120

Quantitative Reasoning or MATH 150 Geometry in the Arts or MATH 155 Math in Art and Nature or MATH 160 Mathematical Ideas or MATH 165 Math for Marketing and Management or ACCU-T-67 EXAM-ACCUPLACER MATH MINIMUM SCORE = 67 or ACT-M-23 EXAM-ACT MATH MINIMUM SCORE = 23 or SAT-M-550 EXAM-SAT MATH MINIMUM SCORE = 550 or CMPS-M-67 EXAM-CMPS MATH MINIMUM SCORE = 67 or ALEK-1-46 EXAM-ALEKS MINIMUM SCORE = 46

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

### **AUDI 211 Audio Programming and Performance**

This course introduces principles of sound synthesis and audio programming applied to live performance. The students learn to design their own mini instruments as they explore real-time audio programming topics, including fundamentals of sound synthesis and signal processing (e.g. Additive, Subtractive, Granular, AM, FM), control protocols (e.g. OSC), patterns and event structures, live coding and performance. The semester culminates in a live public performance of original compositions for a laptop ensemble.

**Repeatable:** N

**Formerly** 43-2241

**Prerequisites** PROG 101 Programming I or PROG 110 Art of Code

**Minimum Credits 3 Maximum Credits 3**

### **GAME 235 Sound and Music for Interactive Visual Media**

This course introduces students to the psychological and technical aspects of applying sound and music to interactive visual media. Students work to develop their skills with tools for non-linear editing, the production of interactive sound environments (sound effects and musical tracks) and incorporating sound into interactive visual media. Works from a variety of interactive media including Games, web, installations and performance are analyzed and discussed in terms of aesthetic quality and technical implementation.

**Repeatable:** N

**Formerly** 36-2610

**Prerequisites** GAME 140 Sound for Interaction

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

### **PHYS 120 Science of Electronics**

This course provides an introduction to electronics. Students acquire knowledge in the fundamentals of electric circuit theory. Course teaches the operation and use of electronic components and instruments such as multimeters and oscilloscopes. Regular laboratories provide opportunities for hands-on activities. During the final weeks of the course students construct an electronic project.

**Repeatable:** N

**Formerly** 56-1820

**SL**

**Prerequisites** MATH 110 College Mathematics or MATH 115 Liberal Arts Mathematics or MATH 120 Quantitative Reasoning or ACCU-T-67 EXAM-ACCUPLACER MATH MINIMUM SCORE = 67 or ACT-M-23 EXAM-ACT MATH MINIMUM SCORE = 23 or SAT-M-550 EXAM-SAT MATH MINIMUM SCORE = 550 or CMPS-M-67 EXAM-CMPS MATH MINIMUM SCORE = 67 or ALEK-1-46 EXAM-ALEKS MINIMUM SCORE = 46

**Minimum Credits 4 Maximum Credits 4**

## SCIE 155 Science of Musical Instruments

Students study the scientific principles by which sound is generated in common acoustic musical instruments and discover the mathematical foundation of musical scales. This course explores mechanical oscillation, frequency, wavelength, and the harmonic series. Students investigate the complex timbre of musical instruments through hands-on laboratory experiments using wave and spectrum analysis, and develop scales using sound-generation software. For a final project, students construct a functional instrument and perform an original musical composition.

**Repeatable:** *N*

**Formerly** 56-1881

**SL**

**Prerequisites** MATH 110 College Mathematics or MATH 115 Liberal Arts Mathematics or MATH 120 Quantitative Reasoning or ACCU-T-67 EXAM-ACCUPLACER MATH MINIMUM SCORE = 67 or ACT-M-23 EXAM-ACT MATH MINIMUM SCORE = 23 or SAT-M-550 EXAM-SAT MATH MINIMUM SCORE = 550 or CMPS-M-67 EXAM-CMPS MATH MINIMUM SCORE = 67 or ALEK-1-46 EXAM-ALEKS MINIMUM SCORE = 46

**Minimum Credits 4 Maximum Credits 4**

*Choose one of the following courses:*

## MATH 310 Linear Algebra

Linear algebra is the study of vector spaces and transformations on them. This course emphasizes techniques of computation and applications. Topics include systems of linear equations, matrix algebra, eigenvalues and eigenspaces, and inner product spaces. Applications typically include polynomial interpolation, electrical networks, cryptography, computer graphics, Markov chains, and approximation of functions including Fourier methods.

**Repeatable:** *N*

**Formerly** 56-3740

**MA**

**Prerequisites** MATH 220 Calculus I or MATH 220H Calculus I: Honors

**Minimum Credits 4 Maximum Credits 4**

## MATH 340 Numerical Analysis

This course covers numerical methods and computer programming to investigate questions in science and engineering fields. These methods include root finding for nonlinear equations, interpolation, approximation of functions with polynomials, numerical differentiation and integration, numerical solutions of ordinary differential equations and numerical methods for solving systems of equations. The course analyzes algorithms and discusses applicability and accuracy of numerical methods. Some knowledge of computer programming is required.

**Repeatable:** *N*

**Formerly** 56-3730

**MA**

**Prerequisites** MATH 221 Calculus II and PROG 101 Programming I

**Minimum Credits 4 Maximum Credits 4**

## CONCENTRATIONS

## Sonic Arts

*Choose four of the following courses:*

### **AUDI 122 DAW Production Techniques and Applications**

Course provides students with a solid foundation in working with digital audio workstations. Through lecture/demonstration/discussions, in-class and homework assignments, and a series of creative projects, students gain experience with fundamental practices in digital audio production, including editing, signal processing, automation, mixing, and preparing audio deliverables. Students participate in a series of exercises to develop and refine critical listening, evaluation, and judgment abilities. In the process, students adopt techniques and strategies for organizing and managing sessions, developing effective communication and presentation skills, and acquiring a sense of professionalism in the field.

**Repeatable:** *N*

**Formerly** 43-2215

**Prerequisites** AUDI 121 Fundamentals of Audio Production

**Minimum Credits 3 Maximum Credits 3**

### **AUDI 333 Perception and Cognition of Sound**

Course provides the necessary basis for understanding the cognitive processes involved in our auditory perception of complex signals such as environmental sounds, speech and music. It will examine the basic cognitive theories of memory and attention, as well as the underlying concepts of information processing and perceptual grouping. The course will systematically explore how humans respond intellectually and emotionally to complex auditory stimuli. Course is multidisciplinary, with contributions from music, biology, physics, psychology, philosophy, and computer science. Numerous demonstrations are used to reinforce the theoretical material presented in the lectures.

**Repeatable:** *N*

**Formerly** 43-3120

**Prerequisites** AUDI 231 Psychoacoustics

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **AUDI 412 Spatial Audio**

This course focuses on the relationship between sound and space from a scientific and artistic perspective. It reviews the physiological and psychacoustic foundations of spatial hearing, as well as of stereophonic recording and production techniques. Other major topics include: impulse responses, binaural sound reproduction, 5.1 and other surround sound formats, Ambisonics and other 3D sound spatialization techniques, microphone and loudspeaker arrays. Examples will be drawn from the history and current artistic practice of spatial audio.

**Repeatable:** *N*

**Prerequisites** AUDI 202 Studies in Hearing or AUDI 231 Psychoacoustics

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **AUDI 415 Advanced Practicum in Sound Art**

Course explores the aesthetics and techniques of sound art. A major component of the course is the ongoing analysis and critique of the students' work. In addition to readings, lecture, discussion, and analytical listening, students are expected to give and receive feedback and critiques, under the instructor's guidance. Students are expected to work independently on projects developed with the consent of the instructor.

**Repeatable:** *N*

**Formerly** 43-3290

**Prerequisites** AUDI 122 DAW Production Techniques and Applications or MUSC 228 Digital Music Composition and Performance or GAME 235 Sound and Music for Interactive Visual Media or CINE 311 Post-Production Audio II

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **MUSC 111 Foundations of Music II**

Foundations of Music II is the second course of the Music Core Curriculum and includes instruction in the areas of contemporary music theory, aural skills, piano keyboard (or equivalent), digital audio workstations and a variety of applications used widely in the music industry.

**Repeatable:** *N*

**DEI**

**Prerequisites** MUSC 110 Foundations of Music I

**Concurrent Requisite** MUSC 175 Applied Music II

**Minimum Credits 4 Maximum Credits 4**

## **MUSC 175 Applied Music II**

This course provides an applied experience contemporary instrumental students need prior to enrolling in private lessons. Students will study technique, scales, chords, sight-reading and repertoire. Students will apply their Foundations of Music skills to begin developing an improvisational approach to their instrument.

**Repeatable:** *N*

**Concurrent Requisite** MUSC 111 Foundations of Music II

**Minimum Credits 2 Maximum Credits 2**

## **MUSC 223 Elements of Music Design**

Elements of Music Design is an intermediate project-based music course to be taken after completing Foundations II in the music sequence. The course is designed to prepare the student to identify music through aural transcription and write music in a specific style. This course is intended for the developing musician in the creation of music in a global context.

**Repeatable:** *N*

**DEI**

**Prerequisites** MUSC 111 Foundations of Music II

**Minimum Credits 3 Maximum Credits 3**

## **MUSC 228 Digital Music Composition and Performance**

This course develops the foundational skills and knowledge necessary for the creative use of technology in music composition and performance. Students will learn the basics of electro-acoustic music, object-oriented

computer programming, psychoacoustics, and live and automated manipulation of audio as it relates to sound production and music composition. This course will give students an understanding of the technology essential to today's composer/performer in a hands-on environment that emphasizes the immediate creative application of new knowledge.

**Repeatable:** *N*

**Formerly** 32-2261

**Prerequisites** MUSC 111 Foundations of Music II

**Minimum Credits 2 Maximum Credits 2**

## **MUSC 361 Music, Time, and Place I**

This course addresses ways in which music shapes and is shaped by its social, cultural, and historical contexts. Through reading, writing, and focused listening, students explore the range of philosophies undergirding diverse musical practices and the processes through which those philosophies change over time. Students examine the technical features of specific musical examples as they engage with the aesthetic and ideological issues animating musical practice.

**Repeatable:** *N*

**Formerly** 32-2611

**DEI**

**Prerequisites** MUSC 111 Foundations of Music II

**Minimum Credits 3 Maximum Credits 3**

## **Sound and Music Computing**

*Choose four of the following courses:*

### **AUDI 314 New Musical Interface Design**

This course lies at the intersection of "interaction design" and "sound and music computing," covering the study and use of sound as one of the principal channels conveying information, meaning, and aesthetic/emotional qualities in interactive contexts. It focuses on technology-mediated, aesthetically-grounded design of new interfaces for musical expression, and the questions that arise from them. It also introduces design methods such as Bootlegging, Auditory Storyboarding, Paper and Sonic Prototyping, Participatory Design, Inclusive Design, Product Sound Design, Interactive Sonification, Tangible and Embodied Interaction, and Audio APIs (e.g. Designing sound in the cloud).

**Repeatable:** *N*

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **AUDI 411 Data Sonification**

Sonification is the use of designed or intentional sound to display system states and other informational data. This course introduces the concepts and design techniques used in sonification ranging from earcons, spearcons and auditory icons to translation techniques used in mapping data into sound for probing, monitoring, and auditory display for enhanced user interfaces and monitoring and purposes.

**Repeatable:** *N*

**Formerly** 43-3562

**Prerequisites** AUDI 202 Studies in Hearing  
**Minimum Credits 3 Maximum Credits 3**

### **AUDI 412 Spatial Audio**

This course focuses on the relationship between sound and space from a scientific and artistic perspective. It reviews the physiological and psychacoustic foundations of spatial hearing, as well as of stereophonic recording and production techniques. Other major topics include: impulse responses, binaural sound reproduction, 5.1 and other surround sound formats, Ambisonics and other 3D sound spatialization techniques, microphone and loudspeaker arrays. Examples will be drawn from the history and current artistic practice of spatial audio.

**Repeatable:** *N*

**Prerequisites** AUDI 202 Studies in Hearing or AUDI 231 Psychoacoustics

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **AUDI 443 Networks and Networking for Media**

Through lectures, readings and hands-on experience, this course provides a basic understanding of the networks and networking protocols necessary for reliable, secure communication in a digital media world. Intended for students who have completed the department's core curriculum, it is also offered to non-majors with instructor approval. Major topics include network topologies (LAN, WAN, WLAN, MAN) and protocols (primarily TCP/IP), IP addressing hierarchies, switching, routing, and VLANs, and network security.

**Repeatable:** *N*

**Formerly** 43-3622

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **GAME 240 Sound Design for Games I**

This course allows the student to actively implement, design, and control the audio assets in a game. Open source game engines and game editors are widely used in this course to familiarize students with the production and creative demands that will be required of them. Technique, production, and creativity are fostered in texts and lectures throughout the course. Sound libraries are the source of much of the raw audio for project work.

**Repeatable:** *Y*

**Formerly** 36-2400

**Prerequisites** GAME 110 Introduction to Game Development and GAME 235 Sound and Music for Interactive Visual Media

**Minimum Credits 3 Maximum Credits 3**

### **INMD 363 Physical Computing II**

Students learn how to network microprocessors and computers together to control interactive media environments and/or physical objects. Students work on project to explore USB, Ethernet, Wifi, Bluetooth, and XBee networking. Students work on a final project reflecting on their own interest, to develop a device of environment for controlling a second physical or virtual environment.

**Repeatable:** *Y*

**Formerly** 36-3630

**Prerequisites** INMD 263 Physical Computing I

**Minimum Credits 3 Maximum Credits 3**

## **PROG 201 Programming II**

Create applications utilizing object-oriented, event-driven strategies. Design principles such as modularity and abstraction, and object-oriented principles such as encapsulation, inheritance, and polymorphism are covered throughout the semester as you build several projects for your portfolio.

**Repeatable:** *N*

**Formerly** 36-2600

**Prerequisites** PROG 101 Programming I

**Minimum Credits 3 Maximum Credits 3**

## **PROG 220 C++ Programming I**

Develop C++ applications utilizing language-specific features. Topics include: object-oriented programming, exception handling, resource management, pointers, and templates. Prior experience with programming is required.

**Repeatable:** *N*

**Formerly** 36-2550

**Prerequisites** PROG 101 Programming I

**Minimum Credits 3 Maximum Credits 3**

## **Interactive Music Design**

*Choose four of the following courses:*

## **AUDI 313 Building Circuits for Sound Art I**

This course introduces students to the skills necessary to build their own hardware for analog synthesis, electro-acoustic music, and sound art. Students will learn to read circuit diagrams, breadboard prototypes and solder finished circuit boards. Students will also explore fabrication techniques to build custom enclosures and interfaces. Students will demonstrate and share their creations through performance and critiques.

Readings and assessments focus on necessary practical knowledge. Projects are assessed for both craftsmanship and creative results. Students should expect to spend 3-6+ hours per week completing projects outside of class, and are responsible for the purchase of their own materials. Students can access class tools and facilities outside of class time.

**Repeatable:** *N*

**Formerly** 43-2261

**Prerequisites** AUDI 104 Audio Electronics

**Minimum Credits 3 Maximum Credits 3**

## **AUDI 314 New Musical Interface Design**

This course lies at the intersection of "interaction design" and "sound and music computing," covering the study and use of sound as one of the principal channels conveying information, meaning, and aesthetic/emotional qualities in interactive contexts. It focuses on technology-mediated, aesthetically-grounded design of new interfaces for musical expression, and the questions that arise from them. It also introduces design methods such as Bootlegging, Auditory Storyboarding, Paper and Sonic Prototyping, Participatory Design, Inclusive Design, Product Sound Design, Interactive Sonification, Tangible and Embodied Interaction, and Audio APIs (e.g. Designing sound in the cloud).

**Repeatable:** *N*

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **AUDI 413 Building Circuits for Sound Art II**

Students use the skills acquired in AUDI 313 to build more complex projects for analog synthesis, electro-acoustic music, and sound art. Projects are assessed for both craftsmanship and creative results. Students should expect to spend 4-6+ hours per week completing projects outside of class, and are responsible for the purchase of their own materials. Students can access class tools outside of class time.

**Repeatable:** *Y*

**Formerly** 43-3252

**Prerequisites** AUDI 313 Building Circuits for Sound Art I

**Minimum Credits 3 Maximum Credits 3**

## **GAME 240 Sound Design for Games I**

This course allows the student to actively implement, design, and control the audio assets in a game. Open source game engines and game editors are widely used in this course to familiarize students with the production and creative demands that will be required of them. Technique, production, and creativity are fostered in texts and lectures throughout the course. Sound libraries are the source of much of the raw audio for project work.

**Repeatable:** *Y*

**Formerly** 36-2400

**Prerequisites** GAME 110 Introduction to Game Development and GAME 235 Sound and Music for Interactive Visual Media

**Minimum Credits 3 Maximum Credits 3**

## **INMD 320 Wearable Interfaces**

This introductory course focuses on wearable applications of physical computing. Students will use conductive materials, circuits, and sensors to create functional, wearable pieces that incorporate different types of metrics and feedback. Students will explore foundational topics of programming and logic to extend microcontrollers. Students will work in small teams to leverage talent and capabilities from multiple fields of study to create collaborative products and prototypes.

**Repeatable:** *N*

**Formerly** 36-3020

**Minimum Credits 3 Maximum Credits 3**

## **INMD 363 Physical Computing II**

Students learn how to network microprocessors and computers together to control interactive media environments and/or physical objects. Students work on project to explore USB, Ethernet, Wifi, Bluetooth, and XBee networking. Students work on a final project reflecting on their own interest, to develop a device of environment for controlling a second physical or virtual environment.

**Repeatable:** Y

**Formerly** 36-3630

**Prerequisites** INMD 263 Physical Computing I

**Minimum Credits** 3 **Maximum Credits** 3

# **Cinema and Television Arts**

## **Bachelor of Arts**

### **Documentary, BA**

*Note: Effective Spring 2023, applications will no longer be accepted into this program.*

The Bachelor of Arts in Documentary is an undergraduate program that facilitates a deep exploration into the diverse and innovative ways we collectively craft truth in story, image and sound. This program crosses disciplines resulting in a field of study that draws students interested in a comprehensive education in all forms of nonfiction media.

The Documentary BA Program creates new opportunities for complex collaborative skills, expanding students' connections to the storytelling, technological, business, and marketing skills of documentary practice. The program facilitates creative collaboration between Columbia College students, faculty, alumni, and industry professionals in all facets of documentary processes, practices, and studies.

Undergraduates who successfully complete the program will have a wide knowledge of documentary ethics, theory and practice, and will be able to Implement impact and outreach in the social justice and civic engagement space.

At the capstone level, students will complete their portfolio of non-fiction work spanning media formats in a program which allows them to enter an already converged world.

As a result of successfully completing program requirements, students should be able to:

- apply the technical and creative skills learned in the program to produce a portfolio of creative work (individual and collaborative) across a variety of documentary and non fiction storytelling media forms;
- analyze and interpret the aesthetic, historical, and conventional aspects of various nonfiction media forms, traditional and emerging;
- effectively interpret and employ legal and ethical best practices and apply these to documentary media creations;
- create comprehensive proposals for individual and interdisciplinary documentary projects, including research, planning, budgeting, interviewing, fund-raising, grant writing, audience engagement and distribution plan;

- develop individual voice and display in a variety of written, visual and audible forms; and
- create documentary content and tools that address social issues and further a civic agenda, individually and / or in collaboration community organizations.

## PROGRAM REQUIREMENTS - 48 credits required

### **CINE 148 Introduction to Documentary**

Students will examine in-depth the methods by which non-fiction filmmakers develop, produce and distribute documentary films. Through a series of screenings, lectures, critiques and class discussions, a variety of long- and short-form documentary projects will be analyzed by students in relationship to: story, research, producing, directing, cinematography, editing, sound design, history, aesthetics, ethics and distribution. The class will link with material from each concentration area in Cinema and Television Arts - but through the prism of non-fiction filmmaking.

**Repeatable:** *N*

**Formerly** 24-1801

**Prerequisites** MEDI 101 Cinematic Storytelling or ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

### **CINE 265 Documentary Production I**

This intensive workshop course gives students an introduction in basic documentary field production in three areas: the interview, cinema verite, and lighting on location. The emphasis centers on camera operation, including filming the essential shots that are key to the edit of a documentary sequence, including: tripod usage, cinema verite, and various other handheld styles of documentary filming. Students will learn the basic aspects of recording location documentary sound with an emphasis on microphone placement, booming, and the usage of wireless and hard-wired microphones. The focus of the course will teach students how to work in a two-person documentary team using minimal equipment to capture intimate moments. Additional topics include set protocols specific to documentary, crew coordination strategies, gear checklists and preparation, logging, data wrangling, and the basics of delivering media to the editorial team.

**Repeatable:** *N*

**Prerequisites** MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production and CINE 148 Introduction to Documentary

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 266 Documentary Storytelling**

Course begins with an overview of the relationships between story and discourse in narrative storytelling. This includes narrative voice and perspective, the temporal and spatial arrangements of events and mutual influences between plot and character. Once fundamental principles are established, the focus shifts specifically to documentary. By studying excerpts from existing works, students develop an understanding of narrative approaches to documentary and apply that knowledge to a personal project they wish to develop.

**Repeatable:** *N*

**Formerly** 24-2807

**Prerequisites** CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or CINE 267 Documentary Production Module I: Location Camera and Sound or CINE 264 Documentary Production Module II: The Interview or CINE 269 Documentary Production III: Intermediate Field Production or MEDI 101 Cinematic Storytelling

**Minimum Credits 3 Maximum Credits 3**

## **CINE 271 Documentary Cinematography**

This course focuses on the language, practice and art of visual storytelling in the documentary form. Students will examine the cinematographer's role in the ideation, shooting and editing of non-fiction film content. Through a series of screenings, lectures, experiential exercises and class discussions, students will better understand the history and practice of cinematography as it pertains to story, character and structure - all through the prism of documentary.

**Repeatable:** N

**Formerly** 24-2820

**Prerequisites** CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or CINE 267 Documentary Production Module I: Location Camera and Sound or CINE 264 Documentary Production Module II: The Interview or CINE 269 Documentary Production III: Intermediate Field Production or MEDI 101 Cinematic Storytelling

**Minimum Credits 3 Maximum Credits 3**

## **CINE 273 Documentary Sound**

This course will focus on applied sound recording techniques specific to the documentary format, including short and feature film projects. Students will record audio in controlled and uncontrolled situations while exercising the skills required in pre-production, production, and post-production of advanced documentary films. It will combine theory and case studies with hands-on exercises and/or seminars in disciplines such as location sound recording, effects, Foley, sound editing, sound design and mixing.

**Repeatable:** N

**Formerly** 24-2805

**Prerequisites** CINE 267 Documentary Production Module I: Location Camera and Sound or CINE 264 Documentary Production Module II: The Interview or CINE 269 Documentary Production III: Intermediate Field Production

**Minimum Credits 3 Maximum Credits 3**

## **CINE 335 Editing the Documentary**

This course provides documentary editing experience and creative collaborations on original work developed by students in the documentary production classes. Pre-production planning, on set workflow issues and handling large amounts of media in the edit room are discussed from the post-production perspective. Students will add original creative work for their editing reels from the projects completed in this class.

**Repeatable:** Y

**Formerly** CINE 228

**Prerequisites** CINE 130 Editing I or CINE 265 Documentary Production I or CINE 267 Documentary Production Module I: Location Camera and Sound or TELE 230 Production and Editing I

**Minimum Credits 4 Maximum Credits 4**

## **CINE 427 Producing the Documentary**

This course prepares advanced documentary students to work in the documentary production industry as a hired producer/director/writer. Typical work-for-hire tasks are explored. Students write and develop production packages suitable for known production companies and media outlets. Advanced producing topics are covered including complex budgeting, scheduling, hiring, and delivery and distribution requirements.

**Repeatable:** Y

**Formerly** 24-4810

**Prerequisites** CINE 264 Documentary Production Module II: The Interview or CINE 269 Documentary Production III: Intermediate Field Production or CINE 267 Documentary Production Module I: Location Camera and Sound

**Minimum Credits 3 Maximum Credits 3**

## **CINE 477 Documentary Projects**

This course develops advanced techniques in the process of documentary filmmaking, from idea, research, treatment, shooting techniques, to editing. Students produce a fully developed short documentary film which exhibits a sophisticated approach to documentary concepts, practices, aesthetics, and ethical problems encountered in contemporary documentary filmmaking. Students will workshop ideas leading to a production that communicates meaning, demonstrates an ethical concern for its subjects, affects its audience, and reflects an individual voice.

**Repeatable:** Y

**Formerly** CINE 377

**Prerequisites** CINE 266 Documentary Storytelling or CINE 267 Documentary Production Module I: Location Camera and Sound or CINE 264 Documentary Production Module II: The Interview or CINE 269 Documentary Production III: Intermediate Field Production or PHOT 360 Documentary Methods or JOUR 350 Digital Storytelling

**Minimum Credits 3 Maximum Credits 3**

## **MEDI 101 Cinematic Storytelling**

This course explores the elements of cinematic storytelling that are used to articulate theme, evoke emotion, and create personal connection with an audience. The student will analyze, research, develop, and visualize cinematic stories for the screen. Aesthetics and storytelling components will be applied in MEDI 102 Cinema and Television Production.

**Repeatable:** N

**Concurrent Requisite** MEDI 102 Cinema and Television Production

**Minimum Credits 3 Maximum Credits 3**

## **MEDI 102 Cinema and Television Production**

This hands-on course explores the techniques of cinema and television production as a collaborator on both individual and group projects. The student will practice conceptualization, visualization, cinematography, sound recording, and editing techniques through effective visual and oral presentations. The aesthetic and storytelling principles will be applied from MEDI 101 Cinematic Storytelling.

**Repeatable:** N

**Concurrent Requisite** MEDI 101 Cinematic Storytelling

**Minimum Credits 3 Maximum Credits 3**

## **MEDI 480A Documentary Practicum I**

An interdisciplinary, capstone documentary course that uses non-fiction approaches and techniques to address social issue topics through cross-disciplinary practices. Students entering the first part of the Documentary BA capstone will collaborate in a single, multifaceted project, grounded in a significant social issue in collaboration with community organizations. The course will address one topic from various disciplines, perspectives, and platforms, and will include the creation of non-fiction content, learning guides; links, and other outreach.

**Repeatable:** N

**Formerly** MEDI 480

**Requirements** Junior Standing or Above (JR) and Permission Required (DP)

**Minimum Credits 4 Maximum Credits 4**

## **MEDI 483 Documentary Practicum II**

The second part of the documentary capstone course uses non-fiction approaches and techniques to address social issue topics through cross-disciplinary practices. Students will complete their collaborative, multifaceted documentary projects grounded in significant social issues in collaboration with community organizations, completing the Documentary BA in a course addressing one topic from various perspectives and platforms, including the creation of non-fiction content, learning guides, links, and other outreach.

**Repeatable:** N

**Requirements** Permission Required (DP)

**Minimum Credits 4 Maximum Credits 4**

## **TELE 357 Documenting Social Injustice**

Course enables students to become familiar with the range of diversity issues--race, ethnicity, gender, religion, class, etc.--through extensive readings and videos. Social justice education is both a process and a goal and involves students who have a sense of their own agency as well as a sense of social responsibility toward others and society as a whole. Class tours several sites of ethnic art, activism, and social justice. Students work in teams on documenting their impressions and comparing the classroom with the experiential with help from experts in the field.

## **CRWR 160 Creative Nonfiction Workshop: Beginning**

A beginning class in writing creative nonfiction, a term including many forms, constantly re-imagined, with the personal and lyrical essay at its core. You will boldly combine different elements of shape, texture, and voice to attempt to produce works of literary art, primarily in the essay, and present your work to the rest of the class in a workshop format. You will also begin reading in nonfiction.

**Repeatable:** *N*

**Formerly** 59-1700

**Minimum Credits 3 Maximum Credits 3**

## **JOUR 102 Introduction to Journalism**

This course explores rules and roles of journalism along with the challenges of the contemporary media landscape. It also introduces reporting, interviewing and writing skills through hands-on assignments.

**Repeatable:** *N*

**Formerly** 53-1011

**Minimum Credits 3 Maximum Credits 3**

## **PHOT 101 Photographic Practice I**

This course introduces students to basic visual grammar of photographic seeing to explore and pursue diverse interests in photography while learning to become an acute observer. Using digital cameras with manual controls and RAW capture, students will learn the craft of making photographs while also being introduced to issues of aesthetic form, historical context, and diverse photographic practices. Students will question, explore, communicate and evaluate using basic photographic concepts and critical-thinking skills while acquiring new sets of technical, conceptual, and formal language that are applicable to many disciplines.

**Repeatable:** *N*

**Formerly** 23-1111

**Minimum Credits 3 Maximum Credits 3**

## **Film and Television, BA**

The goal of the Cinema and Television Arts BA in Film and Television is to provide students the opportunity to make short films through collaboration, analysis, technical skill development and practice. The curriculum is designed for students who want an overview of the filmmaking process or who intend to pursue further education, such as graduate school.

Cinema and Television Arts Film and Television majors complete 47 credits in the major which include 19 credits of required core classes and at least 28 hours in areas of interest including a capstone experience. Courses prepare students for advanced study, which will provide the opportunity to assemble a body of work.

As a result of successfully completing program requirements, students should be able to:

- reveal personal voice, vision, and intent using written, visual, and aural storytelling skills to produce fiction, nonfiction, and experimental projects with originality and aesthetic depth;
- demonstrate technical proficiency and project management by collaborating on films, videos, series, and other media using industry standards and practices;
- critically examine personal work and the work of others in the context of cinema and television history, aesthetics, and cultural influences;
- ethically practice inclusivity in the production and analysis of media arts to contribute to a more diverse and equitable industry; and
- develop a path from college to creative career, and employ business practices associated with existing and emergent media forms.

## PROGRAM REQUIREMENTS - 47 credits required

### **MEDI 101 Cinematic Storytelling**

This course explores the elements of cinematic storytelling that are used to articulate theme, evoke emotion, and create personal connection with an audience. The student will analyze, research, develop, and visualize cinematic stories for the screen. Aesthetics and storytelling components will be applied in MEDI 102 Cinema and Television Production.

**Repeatable:** *N*

**Concurrent Requisite** MEDI 102 Cinema and Television Production

**Minimum Credits 3 Maximum Credits 3**

### **MEDI 102 Cinema and Television Production**

This hands-on course explores the techniques of cinema and television production as a collaborator on both individual and group projects. The student will practice conceptualization, visualization, cinematography, sound recording, and editing techniques through effective visual and oral presentations. The aesthetic and storytelling principles will be applied from MEDI 101 Cinematic Storytelling.

**Repeatable:** *N*

**Concurrent Requisite** MEDI 101 Cinematic Storytelling

**Minimum Credits 3 Maximum Credits 3**

## Basic Focus Exploration Elective

*Choose one of the following courses:*

### **CINE 104 Fundamentals of Casting**

This course introduces the fundamental practices, etiquette and protocol for casting cinema productions. Sources of actors, methods of posting calls, offers and booking sheets and implementing SAG guidelines are presented and examined. The role and value of a casting director and their collaboration with directors, producers and line producers is covered. A standard protocol for scheduling and running casting sessions from pre-reads through chemistry tests is developed with an emphasis on professionalism.

**Repeatable:** *N*

**Formerly** 24-1301

**Minimum Credits 1 Maximum Credits 1**

## **CINE 105 Production Design Fabrication Basics**

Production design is both an artistic and industrial enterprise. In order to be an effective designer, one must have a thorough grounding in the techniques of safe and efficient fabrication. This course introduces students to the art, math and science of the common materials and processes necessary to the creation of props, sets and dressing for cinema production design.

**Repeatable:** Y

**Formerly** 24-1011

**Minimum Credits 1 Maximum Credits 1**

## **CINE 118 Introduction to Sound for Cinema and Television**

This introductory course covers theory and aesthetics of sound as it is used in cinema and television, emphasizing visual storytelling through audio.

**Repeatable:** N

**Formerly** 24-1100

**Minimum Credits 1 Maximum Credits 1**

## **CINE 142 Idea Development for Cinema**

Students will examine their own creative process as well as conceptualize and develop creative projects that can be adapted to the short film format. The goal is to generate a number of viable concepts and ideas that can be stockpiled for future use as well as to learn and implement development techniques by concentrating on a couple of those concepts and bringing them to the pre-production stage. Portfolios developed in this class can be used for future projects.

**Repeatable:** Y

**Formerly** 24-1701

**Minimum Credits 1 Maximum Credits 1**

## **CINE 181A Studies in Editing**

This repeatable course consists of rotating subjects of interest to the developing editor or filmmakers who wants to explore particular aspects of editing and postproduction in depth. Classes include lectures, film clips, written papers and/or exercises. Students choose to register for the subjects that best address their interests and needs.

**Repeatable:** Y

**Formerly** CINE 181

**Minimum Credits 1 Maximum Credits 1**

## **CINE 181B Studies in Editing**

This repeatable course consists of rotating subjects of interest to the developing editor or filmmakers who wants to explore particular aspects of editing and postproduction in depth. Classes include lectures, film clips, written papers and/or exercises. Students choose to register for the subjects that best address their interests and needs.

**Repeatable:** Y

**Minimum Credits 1 Maximum Credits 1**

### **CINE 181C Studies in Editing**

This repeatable course consists of rotating subjects of interest to the developing editor or filmmakers who wants to explore particular aspects of editing and postproduction in depth. Classes include lectures, film clips, written papers and/or exercises. Students choose to register for the subjects that best address their interests and needs.

**Repeatable:** Y

**Minimum Credits 1 Maximum Credits 1**

### **CINE 181D Studies in Editing**

This repeatable course consists of rotating subjects of interest to the developing editor or filmmakers who wants to explore particular aspects of editing and postproduction in depth. Classes include lectures, film clips, written papers and/or exercises. Students choose to register for the subjects that best address their interests and needs.

**Repeatable:** Y

**Minimum Credits 1 Maximum Credits 1**

### **CINE 181E Studies in Editing**

This repeatable course consists of rotating subjects of interest to the developing editor or filmmakers who wants to explore particular aspects of editing and postproduction in depth. Classes include lectures, film clips, written papers and/or exercises. Students choose to register for the subjects that best address their interests and needs.

**Repeatable:** Y

**Minimum Credits 1 Maximum Credits 1**

### **CINE 182A Topics in Cinematography**

This repeatable course consists of rotating subjects of interest to the developing cinematographer or filmmaker who appreciates the importance of visual storytelling. Suggested topics include introduction to cinematography; cinematography aesthetics; the role of lighting in storytelling; choreography of camera for story; editing from a cinematographers POV; blocking for camera; optics and lensing; etc. Topics address relevant camera and visual subjects that merit in depth exploration. Classes include lectures, films clips, written papers and/or exercises. Students choose to register for the topic/semester that best address their interests and needs.

**Repeatable:** Y

**Formerly CINE 182**

### **CINE 182B Topics in Cinematography**

This repeatable course consists of rotating subjects of interest to the developing cinematographer or filmmaker who appreciates the importance of visual storytelling. Suggested topics include introduction to

cinematography; cinematography aesthetics; the role of lighting in storytelling; choreography of camera for story; editing from a cinematographers POV; blocking for camera; optics and lensing; etc. Topics address relevant camera and visual subjects that merit in depth exploration. Classes include lectures, films clips, written papers and/or exercises. Students choose to register for the topic/semester that best address their interests and needs.

**Repeatable:** Y

**Minimum Credits 1 Maximum Credits 1**

### **CINE 182C Topics in Cinematography**

This repeatable course consists of rotating subjects of interest to the developing cinematographer or filmmaker who appreciates the importance of visual storytelling. Suggested topics include introduction to cinematography; cinematography aesthetics; the role of lighting in storytelling; choreography of camera for story; editing from a cinematographers POV; blocking for camera; optics and lensing; etc. Topics address relevant camera and visual subjects that merit in depth exploration. Classes include lectures, films clips, written papers and/or exercises. Students choose to register for the topic/semester that best address their interests and needs.

**Repeatable:** Y

**Minimum Credits 1 Maximum Credits 1**

### **CINE 182D Topics in Cinematography**

This repeatable course consists of rotating subjects of interest to the developing cinematographer or filmmaker who appreciates the importance of visual storytelling. Suggested topics include introduction to cinematography; cinematography aesthetics; the role of lighting in storytelling; choreography of camera for story; editing from a cinematographers POV; blocking for camera; optics and lensing; etc. Topics address relevant camera and visual subjects that merit in depth exploration. Classes include lectures, films clips, written papers and/or exercises. Students choose to register for the topic/semester that best address their interests and needs.

**Repeatable:** Y

**Minimum Credits 1 Maximum Credits 1**

### **CINE 182E Topics in Cinematography**

This repeatable course consists of rotating subjects of interest to the developing cinematographer or filmmaker who appreciates the importance of visual storytelling. Suggested topics include introduction to cinematography; cinematography aesthetics; the role of lighting in storytelling; choreography of camera for story; editing from a cinematographers POV; blocking for camera; optics and lensing; etc. Topics address relevant camera and visual subjects that merit in depth exploration. Classes include lectures, films clips, written papers and/or exercises. Students choose to register for the topic/semester that best address their interests and needs.

**Repeatable:** Y

**Minimum Credits 1 Maximum Credits 1**

### **CINE 184 Seminar in Producing**

This course consists of topics of interest to the developing filmmaker with an interest in producing. It will provide an indepth exploration of aesthetics, history, and cinematic trends from a producer's perspective.

Subjects may include the producer/director power dynamic; the rise of the female producer; international co-productions; and the art and business of film analysis.

**Repeatable:** Y

**Formerly** 24-3606

**Minimum Credits 1 Maximum Credits 1**

## **CINE 267 Documentary Production Module I: Location Camera and Sound**

This intensive workshop course gives students an introduction in basic documentary field production. The emphasis centers on camera operation including filming the essential shots that are key to the edit of a documentary sequence, including: tripod usage, cinema verite and various other handheld styles of documentary filming. Students will learn the basic aspects of recording location documentary sound with an emphasis on microphone placement, booming and the usage of wireless and hard-wired microphones. The focus of the course will teach students how to work in a two person documentary team using minimal equipment to capture intimate moments. Additional topics include set protocols specific to documentary, crew coordination strategies, gear checklists and preparation, logging, data wrangling and the basics of delivering media to the editorial team.

**Repeatable:** N

**Formerly** 24-2809

**Minimum Credits 1 Maximum Credits 1**

## **TELE 135 Online Video Culture**

This class examines the online video culture from the perspectives of creator and audience. Students immerse themselves in the online identities they create and spend the semester creating content and communicating with each other via public, Twitter, and You Tube accounts. They discuss content discovery as viewers and try to incorporate various discovery strategies as video creators. Through a series of simple video making and publishing exercises, students create searchable, topical, and shareable content and monitor its performance using YouTube analytics.

**Repeatable:** N

**Formerly** 40-1501

**Minimum Credits 1 Maximum Credits 1**

## **Culture, Race, and Media Elective**

*Choose one of the following courses:*

### **MEDI 201 Culture, Race and Media**

This immersive course enables students to view, analyze, interpret and evaluate current media to identify the consequences of their pervasive influence. Interactive, facilitated discussions and exercises, stimulating readings, web-based assignments and analysis of media examples in myriad genres of cinema, television, games, photography, print, audio, advertisements, performance and others, offer students new insights into both media and their lives. Utilizing regularly posted progress reports, students reflect on their ideologies while investigating race, ethnicity, gender, social class, age, religion, ability, sexual and other identities to recognize their cultural and ethical responsibilities as media makers and influencers.

**Repeatable:** N

**Formerly** 40-2803

**HU DEI PL****Requirements** Sophomore Standing or Above (SO)**Minimum Credits 3 Maximum Credits 3****MEDI 201H Culture, Race and Media: Honors**

Course enables students to analyze subtle and subliminal messages about culture, race, ethnicity, gender, religion, class, and ability as presented to us through the media. The media--television, film, and print--has a pervasive influence upon how we view the world. Through open discussions of differences, research, and stimulating readings, we will learn who we are and why we view things the way we do. Expected outcomes include new insights into media influence and our responsibility as media makers, a research project, and self-examination of personal cultural and racial identity.

This is an Honors class. In addition to other possible pre-requisites, students need a minimum G.P.A. of 3.50 or higher to enroll.

**Repeatable:** N**Formerly** 40-2803HN**HU DEI****Requirements** Sophomore Standing or Above (SO) and 3.5 or Higher GPA (35GP)**Minimum Credits 3 Maximum Credits 3****Writing for CTVA Elective**

*Choose one of the following courses:*

**CINE 140 Script Analysis for Cinema**

This course provides students with an opportunity to learn more about various concentrations by examining the methods by which professionals approach, break down, or prepare a script for filming. Students analyze various drafts of scripts from several feature length and shorter films. Beginning with story analysis, class analyzes scripts in relationship to producing, directing, acting, production design, cinematography, editing, and sound design. Script strengths and weaknesses are discussed in relation to each of the production areas. Course material links with material from each of the major concentration areas in Cinema.

**Repeatable:** N**Formerly** 24-1700**Prerequisites** ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7**Minimum Credits 3 Maximum Credits 3****CINE 145 Screenwriting I: Writing the Short Film**

Course is a workshop that explores basic methods of writing for cinema which further develop the students' skills in presenting their ideas in written form. Students will develop craft skills basic to cinema writing: research, story development, scene structure, dialogue, and character definition. Emphasis is on finding visual equivalents for human emotions and on developing the writer's individual personal vision. This work culminates in the development and revision of two short narrative scripts. Instrumental in the development of the student as a writer is the ability to read, and effectively critique, the work of their peers.

**Repeatable:** N**Formerly** 24-1710

**Prerequisites** ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or ENGL 109 Writing and Rhetoric I Stretch B or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

## **CINE 234 Cinema Analysis and Criticism**

Course is a writing-and-research-intensive introduction to cinema studies. Students are taught how to write about cinema and media using different approaches including: formal analysis, ideological analysis, and historical research. In order to focus more on writing and course content, screenings will be limited. The screenings may change at the discretion of the instructor but the nature and number of the assignments will remain the same for each offering of the course.

**Repeatable:** N

**Formerly** 24-2500

**Minimum Credits 3 Maximum Credits 3**

## **TELE 212 Television Arts: Writing**

Building on concepts and techniques introduced in Aesthetics and Storytelling, course allows students to explore basic methods of television writing for scripted and non-scripted formats. Students will develop craft skills basic to television writing: research, story structure, dialogue, and character development, all of which will prepare them for writing scenes and short scripts. Course will not only prepare the student to write full length scripts but will also help them grow as artists, learning to tell stories in a unique and personally meaningful way.

**Repeatable:** N

**Formerly** 40-2100

**Prerequisites** ENGL 111 Writing and Rhetoric I and MEDI 101 Cinematic Storytelling or ENGL 111H Writing and Rhetoric I: Honors and MEDI 101 Cinematic Storytelling or ENGL 121 International Writing and Rhetoric I and MEDI 101 Cinematic Storytelling or ENGL 111 Writing and Rhetoric I and CINE 102 Cinema Notebooks or ENGL 111H Writing and Rhetoric I: Honors and CINE 102 Cinema Notebooks or ENGL 121 International Writing and Rhetoric I and CINE 102 Cinema Notebooks or ENGL 111 Writing and Rhetoric I and TELE 112 Aesthetics and Storytelling or ENGL 111H Writing and Rhetoric I: Honors and TELE 112 Aesthetics and Storytelling or ENGL 121 International Writing and Rhetoric I and TELE 112 Aesthetics and Storytelling or ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II or MEDI 101 Cinematic Storytelling and TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7 or CINE 102 Cinema Notebooks and TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7 or TELE 112 Aesthetics and Storytelling and TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

## **CTVA History Electives**

*Choose two of the following courses:*

### **CINE 143 World Cinema I**

This course examines the world cinema up until World War II. Emphasis is placed on major directors, national cinemas, and movements that contributed to the development of narrative cinema. Screenings will be discussed for their aesthetic, historical, technological and ideological significance. Students will research and write papers and be involved in a number of other in-class and online research activities to help engage

them actively with the material.

**Repeatable:** *N*

**Formerly** 24-2550

**Minimum Credits 3 Maximum Credits 3**

## **CINE 144 World Cinema II**

This course examines the world cinema after World War II. Emphasis is placed on major directors, national cinemas, and movements that contributed to the development of narrative cinema. Screenings will be discussed for their aesthetic, historical, technological and ideological significance. Students will research and write papers and be involved in a number of other in-class and online research activities to help engage them actively with the material.

**Repeatable:** *N*

**Formerly** 24-2551

**Minimum Credits 3 Maximum Credits 3**

## **TELE 110 The History of Television**

Cultural history course examines not only the chronological development of television as a technology and an industry, but also explores also how television has become a part of our histories and, indeed, how TV has shaped history and our sense of it. Television is a primary source for the transmission of information, politics, entertainment, and our collective and dispersed cultures in the United States, surpassing even film and newspaper because of its combined accessibility and visual appeals. Since its arrival on the scene at the World's Fair of 1939, TV has been the site through which we engage with any number of issues and events--from the most intimate to the most broadly social.

**Repeatable:** *N*

**Formerly** 40-1101

**DEI**

**Minimum Credits 3 Maximum Credits 3**

## **Production Techniques**

*Complete 9 credits from the following courses:*

### **ANIM 270 Motion Graphics I**

Course teaches techniques to digitally integrate software and composite layers of images. Discussions of digital and optical effects from conception to design encourage students to make creative use of software.

**Repeatable:** *N*

**Formerly** 24-1420

**Prerequisites** INMD 120 Digital Image Design or GRDE 136 Design Lab or TELE 230 Production & Editing I or PHOT 202 Photographic Practice III or PHOT 206 Digital Imaging I or CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process

**Minimum Credits 3 Maximum Credits 3**

### **CINE 107 Production Design I**

Course provides an overview of production design for the visual media by exploring the history and theory of production design, as well as the application of art, design, and architecture to moving image storytelling. Students examine and critique case studies. Instruction covers the process of script analysis and breakdowns to budgeting for the art department. The roles and procedures of the art department will be introduced. Basics of architectural drafting and simple drawing will be covered. Students will be required to serve in the art department of an advanced film production.

**Repeatable:** *N*

**Formerly** 24-1015

**Minimum Credits 3 Maximum Credits 3**

## **CINE 121 Lighting I**

Course introduces the physics of motion picture lighting for students with little or no lighting experience. Students become familiar with important safety procedures and the use of standard lighting equipment. Special attention is given to important light measuring techniques using incident light meters and spot meters, quality of light and lighting ratios. Course encourages intelligent, thoughtful approaches to the aesthetics of lighting.

**Repeatable:** *N*

**Formerly** 24-1200

**Prerequisites** CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production

**Minimum Credits 4 Maximum Credits 4**

## **CINE 128 Acting and Directing Workshop**

Course is designed to introduce fundamentals of the actor's craft to directing students. Students learn various acting techniques and apply them to basic directing methods. The relationship between actor, text, and director is emphasized through analysis, rehearsal, and scene work. Intended outcome is an understanding of the actor's process and the collaboration and communication necessary between actors and directors.

**Repeatable:** *N*

**Formerly** 24-1300

**Prerequisites** CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production

**Minimum Credits 3 Maximum Credits 3**

## **CINE 130 Editing I**

Course helps students develop the basic non-linear editing skills needed to tell stories effectively through screenings, practical hands-on assignments, using NLE editing software, readings, and lectures. Organizational skills needed to handle NLE offline digital video and audio materials are covered. Editing exercises consist of various editing genres, using scenes from longer works. Students receive ongoing critiques of their work to determine their proficiency of craft and creativity.

**Repeatable:** *N*

**Formerly** 24-1401

**Concurrent Requisite** CINE 131 Editing I Studio

**Minimum Credits 3 Maximum Credits 3**

## **CINE 131 Editing I Studio**

This course is required concurrently with Editing I. Students develop basic skill in the use of a digital editing platform in completing the Editing I course exercises, as well as investigating current technical developments and digital workflow concepts. Content is presented through demonstrations, tutorials and hands-on practice using visual and audio media. Students receive ongoing critique, quizzes and one-to-one problem solving to determine their proficiency and advancement in the use of the platform.

**Repeatable:** *N*

**Formerly** 24-1401B

**Concurrent Requisite** CINE 130 Editing I

**Minimum Credits 1 Maximum Credits 1**

## **CINE 148 Introduction to Documentary**

Students will examine in-depth the methods by which non-fiction filmmakers develop, produce and distribute documentary films. Through a series of screenings, lectures, critiques and class discussions, a variety of long- and short-form documentary projects will be analyzed by students in relationship to: story, research, producing, directing, cinematography, editing, sound design, history, aesthetics, ethics and distribution. The class will link with material from each concentration area in Cinema and Television Arts - but through the prism of non-fiction filmmaking.

**Repeatable:** *N*

**Formerly** 24-1801

**Prerequisites** MEDI 101 Cinematic Storytelling or ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

## **CINE 203 Production: Fact and Fiction**

Students will have the opportunity to develop, produce, edit and exhibit two short films based on a single idea by exploring a variety of visual and aural strategies, styles, and production approaches appropriate for both fiction and documentary filmmaking. Students will also have the opportunity to explore developing a point-of-view and narrative structures leading to forming their authorial and personal voice. Students will relate fundamental cinematic concepts to their creative process including mise-en-scène, visual and sonic design, intentionality, and audience awareness. Further emphasis is placed on effective small team production techniques.

**Repeatable:** *N*

**Formerly** 24-2003

**Prerequisites** TELE 230 Production and Editing I or CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production

**Minimum Credits 3 Maximum Credits 3**

## **CINE 211 Post-Production Audio I**

Entry-level Sound for Cinema course offers instruction and exploration into the methodology and skills training of sound design and mixing for cinema. Course includes an introduction to the Digital Audio Workstation for sound editing, enhancement and manipulation, and re-recording mixing of the various categories of cinema sound. Students work on a variety of cinema sound projects that mirror professional practice and foster development of the necessary skills to proceed through the Sound for Cinema pathway.

**Repeatable:** N

**Formerly** 24-2101

**Prerequisites** CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production or JOUR 351 Multimedia Photo Essay

**Minimum Credits 4 Maximum Credits 4**

## **CINE 213 Location Sound Recording I**

Course introduces students to production applications and audio technologies for cinema and television arts. Areas covered include digital recorders, mixers, microphones, signal chain, time-code, metadata, production protocols, and pre-production strategies for cinema and television production.

**Repeatable:** N

**Formerly** 24-2103

**Prerequisites** TELE 230 Production and Editing I or CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production

**Minimum Credits 4 Maximum Credits 4**

## **CINE 216 Image Design for Cinema**

In this course students will examine the design of images and their critical role in how filmmakers communicate story. Through lectures, practical assignments and critique, students refine their ability to use visual components to see, conceive and communicate most effectively. This course bridges the gap between theory and practice and highlights the relationship between story structure and visual structure.

**Repeatable:** N

**Formerly** 24-2201

**Prerequisites** CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production

**Minimum Credits 3 Maximum Credits 3**

## **CINE 222 New Media and Emerging Video Practices**

This class will introduce students to practices found in new media and emerging video and screen-based storytelling. Students will participate in hands-on demonstrations as new technologies and techniques will be presented and contextualized. Students will research contemporary examples, practitioners, and production methodologies while completing short video projects utilizing the skills they learned in class. Students experiment with various approaches to visual storytelling and think outside the traditional cinematic and television formats. Some areas discussed include 360 video and interactive storytelling.

**Repeatable:** Y

**Formerly** TELE 235

**Minimum Credits 3 Maximum Credits 3**

## **CINE 248 Producing I: Production Team**

Course explores the production team and the role of the line producer, unit production manager, production manager, and assistant directors in managing the physical production process of producing a film. This process will include budgeting and scheduling, and managing cast, crew and vendor relationships. Additional team members are examined, including the roles of the casting director, location manager,

production coordinator, and script supervisor. The post-production supervisor position is discussed including post-production scheduling, budgeting, and meeting delivery requirements for distribution and film festivals.

**Repeatable:** *N*

**Formerly** 24-2600

**Prerequisites** MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production or CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process

**Minimum Credits 3 Maximum Credits 3**

## **CINE 250 Advanced Script Supervising**

This three-credit hour course is affiliated with the advanced production and offers students an opportunity to learn about the role of Script Supervisor by serving as Script Supervisors on a film. Learning will be delivered through instructor mentoring and focus on practical preparation of scripts notes, lining scripts, assigning slate numbers, working with the various departments during production and set etiquette.

**Repeatable:** *Y*

**Formerly** 24-2612

**Prerequisites** CINE 225 Cinema Directing I or CINE 249 Introduction to Script Supervising

**Minimum Credits 3 Maximum Credits 3**

## **TELE 125 Television Arts: Production**

Introductory class in the art of television production provides an overview, and basic, practical, hands-on experience in all aspects of today's trends in the television industry. Although taught in a studio environment, this course will cover camera operation, sound, lighting, video transitions, and graphics as they relate to all forms of production. The final project for the class is the completion of three full productions created by students in the class.

**Repeatable:** *N*

**Formerly** 40-1302

**Minimum Credits 3 Maximum Credits 3**

## **TELE 332 Video for Internet and Mobile**

This class explores online and social video platforms and their influence on culture. The proliferation of mobile devices, platforms, and apps such as YouTube, Facebook, Vimeo, TikTok, Instagram, Tumblr, Twitter have presented the opportunity for the creation and distribution of emerging visual storytelling forms. While exploring multiple platforms, students will create short-form unscripted or soft scripted videos and series. Critical readings will explore why people share and how ideas are transmitted and amplified through online video. Students will consider audience development, analytics, and best practices while developing their voice as makers.

**Repeatable:** *N*

**Formerly** 40-3236

**Prerequisites** PHOT 260 Introduction to Photojournalism or TELE 135 Online Video Culture or TELE 251 Video for Comedians and Performers or CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production

**Minimum Credits 3 Maximum Credits 3**

## **Advanced Production Techniques**

*Complete 9 credits from the following courses:*

### **CINE 208 Cinema Set Design and Construction**

This course introduces the planning and fabrication skills necessary to design, estimate, and safely construct motion picture sets. Students will learn the basics of hand-drawn drafting to create working drawings and cost estimating for budget creation. Students will collaborate on in-class projects, gaining hands-on experience in construction techniques, shop safety, and the uses of common construction materials as they relate to set construction.

**Repeatable:** Y

**Formerly** 24-2013

**Prerequisites** CINE 105 Production Design Fabrication Basics and CINE 107 Production Design I

**Minimum Credits 4 Maximum Credits 4**

### **CINE 215 Cinematography: Camera Seminar I**

This course gives students a working knowledge of beginning digital motion picture camera systems. It provides hands-on training in camera handling and assisting. Students learn basic image acquisition techniques based on optics, focal length, stops, and depth-of-field. Students are introduced to set protocol and the duties of different members of the camera department.

**Repeatable:** N

**Formerly** 24-2202

**Prerequisites** CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production

**Minimum Credits 3 Maximum Credits 3**

### **CINE 221 Photo Theory**

This course deals with histories of technologies of image acquisition, from the first photographic emulsion to today's digital sensors. It offers in-depth studies of latent image theory, image quality, densitometry, sensitometry and digital sensors, scanning, and archiving.

**Repeatable:** N

**Formerly** 24-2216

**Prerequisites** CINE 121 Lighting I and CINE 216 Image Design for Cinema

**Minimum Credits 3 Maximum Credits 3**

### **CINE 223 Cinema Color I**

Students acquire a working knowledge of the aesthetics and technical aspects of the color correction process. Content addresses theory and application of color correction, image control and manipulation techniques. Principles and history of color theory and the tools available to filmmakers are explored through lecture, interactive computer exercises, and hands-on work with current professional color correction software.

**Repeatable:** N

**Formerly** 24-2208

**Prerequisites** CINE 130 Editing I or CINE 216 Image Design for Cinema

**Minimum Credits 3 Maximum Credits 3**

## **CINE 225 Cinema Directing I**

Course builds upon the relationship between actor, text, and director and expands to include camera blocking, basic scene coverage, additional rehearsal techniques, and effective critiquing skills. Emphasis is on the development of director's breakdowns, pre-visualization, set-etiquette, and fundamental collaboration with key department heads. Scene work culminates with the blocking and staging of a cinematic narrative scene.

**Repeatable:** *N*

**Formerly** 24-2301

**Prerequisites** CINE 128 Acting and Directing Workshop

**Minimum Credits** 6 **Maximum Credits** 6

## **CINE 230 Editing II**

Hands-on course helps students continue to develop the necessary skills to become professional editors. Editing projects are increasingly more complex, concluding with finishing a short film. Communicating and collaborating with a director is emphasized. Students use professional state-of-the-art non-linear digital editing equipment and receive ongoing critiques of their work to determine their proficiency of craft and creativity. Understanding NLE workflow from capturing footage through exporting the final project is emphasized.

**Repeatable:** *N*

**Formerly** 24-2402

**Prerequisites** CINE 130 Editing I and CINE 131 Editing I Lab

**Concurrent Requisite** CINE 231 Editing II Studio

**Minimum Credits** 3 **Maximum Credits** 3

## **CINE 231 Editing II Studio**

This course must be taken concurrently with Editing II. Students develop advanced editing skills using a state-of-the-art digital editing platform. Skill development includes: editing techniques, sound design, color correction, simple compositing, and exporting to successfully complete the Editing II course projects. Content is presented through demonstrations, tutorials and hands-on practice. Ongoing critique and one-on-one problem solving are offered to determine proficiency and advancement in use of the platform.

**Repeatable:** *N*

**Formerly** 24-2402B

**Prerequisites** CINE 130 Editing I

**Concurrent Requisite** CINE 230 Editing II

**Minimum Credits** 1 **Maximum Credits** 1

## **CINE 245 Screenwriting II: The Feature Film**

Course teaches students to produce longer and more complex screenplays; facilitates a deeper understanding of the screenwriting process; and enables students to develop character, story, and linear structure. Students master systematic work habits in order to fully develop the screenplay, from initial idea to completed script. Course also provides students with the opportunity for consistent critique of their screenwriting.

**Repeatable:** *N*

**Formerly** 24-2710

**Prerequisites** CINE 145 Screenwriting I: Writing the Short Film or TELE 212 Television Arts: Writing  
**Minimum Credits 3 Maximum Credits 3**

## **CINE 266 Documentary Storytelling**

Course begins with an overview of the relationships between story and discourse in narrative storytelling. This includes narrative voice and perspective, the temporal and spatial arrangements of events and mutual influences between plot and character. Once fundamental principles are established, the focus shifts specifically to documentary. By studying excerpts from existing works, students develop an understanding of narrative approaches to documentary and apply that knowledge to a personal project they wish to develop.

**Repeatable:** *N*

**Formerly** 24-2807

**Prerequisites** CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or CINE 267 Documentary Production Module I: Location Camera and Sound or CINE 264 Documentary Production Module II: The Interview or CINE 269 Documentary Production III: Intermediate Field Production or MEDI 101 Cinematic Storytelling

**Minimum Credits 3 Maximum Credits 3**

## **CINE 275 Experimental Production I**

Project-centered course engages students in non-narrative, alternative aspects of video and digital production. Students develop an aesthetic that explores, challenges, extends, or subverts mainstream narrative or documentary structures. Topics include camera experimentation and image manipulation; development of personal, political, or social themes; and distribution and marketing of experimental work.

**Repeatable:** *N*

**Formerly** 24-2901

**Prerequisites** CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production

**Minimum Credits 3 Maximum Credits 3**

## **CINE 311 Post-Production Audio II**

Course explores the post-production techniques used in creating effective audio for cinema. Students develop aesthetic judgment by analyzing a variety of soundtracks and develop technical skills, including track building, ADR, Foley, and mixing, by employing these techniques in the design and creation of their own soundtracks.

**Repeatable:** *N*

**Formerly** 24-2102

**Prerequisites** AUDI 324 Audio for Visual Media I or CINE 211 Post-Production Audio I

**Minimum Credits 4 Maximum Credits 4**

## **CINE 313 Location Sound Recording II**

This course applies the principles and applications of production sound recording for cinema and television arts by providing sound services for advanced student productions. Under faculty supervision students will examine professional protocols and practical applications of production sound for discussions, exchange of experiences, and problem solving.

**Repeatable:** *Y*

**Formerly** 24-3101

**Prerequisites** AUDI 122 DAW Production Techniques and Applications or CINE 213 Location Sound Recording I

**Minimum Credits 4 Maximum Credits 4**

## **CINE 335 Editing the Documentary**

This course provides documentary editing experience and creative collaborations on original work developed by students in the documentary production classes. Pre-production planning, on set workflow issues and handling large amounts of media in the edit room are discussed from the post-production perspective. Students will add original creative work for their editing reels from the projects completed in this class.

**Repeatable:** Y

**Formerly** CINE 228

**Prerequisites** CINE 130 Editing I or CINE 265 Documentary Production I or CINE 267 Documentary Production Module I: Location Camera and Sound or TELE 230 Production and Editing I

**Minimum Credits 4 Maximum Credits 4**

## **CINE 364 The Assistant Director's Workshop**

Course teaches assistant directors how to run a set by assembling all of the elements needed for filming and for the daily operation of the shooting set. Through lecture, exercises, and on-set experience, this course explores an assistant director's objective of providing the director with everything needed to put the director's vision on film. Their duties are supervisory, organizational, administrative - and multifarious. Working within the structure that is governed by budgets, union and guild contracts, industry custom, and so on, they make schedules, attend to the cast, direct extras, oversee the crew as each shot is prepared, create detailed reports of each day's events, and are looked to by cast and crew to solve many problems that arise in student productions.

**Repeatable:** N

**Formerly** 24-3624

**Prerequisites** CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production

**Minimum Credits 3 Maximum Credits 3**

## **TELE 225 Television Arts: Directing**

Course builds on the production skills covered in Television Arts: Production and introduces the intermediate techniques of television directing. The course will focus on multi-camera directing techniques. Students will learn how to visualize and plan for multi-camera productions and real-time scenes. Students will break down scenes for shooting in a multi-camera environment, learn live switching techniques, camera and talent blocking, and working with actors. Students who complete this class will have experience in a variety of shooting styles and genres found in television today.

**Repeatable:** N

**Formerly** TELE 325

**Prerequisites** TELE 125 Television Arts: Production

**Minimum Credits 3 Maximum Credits 3**

## **TELE 310 Writing for Television**

Scriptwriting course is for students who already have a basic understanding of story structure, dialog, and character development. In this class the student will learn to write full-length television scripts and will study the structure and conventions of writing the sitcom, sketch comedy, and hour-long dramatic scripts. Student work will be read aloud and workshopped, step by step, in a traditional writers table' story conference procedure. Each student will leave the course with at least one full-length, polished script from one of the featured genres.

**Repeatable:** N

**Formerly** 40-3202

**Prerequisites** TELE 212 Television Arts: Writing or CINE 145 Screenwriting I: Writing the Short Film

**Minimum Credits** 3 **Maximum Credits** 3

### **TELE 343 Remote Television Production**

Course teaches students to adapt their knowledge of both studio and field production, utilizing a mobile remote production truck to shoot on location at a variety of events in and around Chicago. Relevant programs are researched, produced, and directed by students. Productions may include music, performance, sports, and events. Emphasis is placed on pre-production, meeting deadlines, survey of locations, and performance of a wide range of crew duties, including directing, in a live environment.

**Repeatable:** Y

**Formerly** 40-3316

**Prerequisites** TELE 225 Television Arts: Directing

**Minimum Credits** 4 **Maximum Credits** 4

### **Cinema, TV, and Media Studies Elective**

*Choose one of the following courses:*

#### **CINE 235A Authorship:**

Screening/discussion course is an intensive study of a single director (or directors) as auteur. The featured director(s) changes each semester. Class examines recurring themes, stylistic innovations, and differentiating interpretations of directors' films. Course may be repeated as featured directors change.

**Repeatable:** Y

**Formerly** CINE 235

**Minimum Credits** 3 **Maximum Credits** 3

#### **CINE 235B Authorship:**

Screening/discussion course is an intensive study of a single director (or directors) as auteur. The featured director(s) changes each semester. Class examines recurring themes, stylistic innovations, and differentiating interpretations of directors' films. Course may be repeated as featured directors change.

**Repeatable:** Y

**Minimum Credits** 3 **Maximum Credits** 3

#### **CINE 235C Authorship:**

Screening/discussion course is an intensive study of a single director (or directors) as auteur. The featured director(s) changes each semester. Class examines recurring themes, stylistic innovations, and differentiating interpretations of directors' films. Course may be repeated as featured directors change.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

### **CINE 235D Authorship:**

Screening/discussion course is an intensive study of a single director (or directors) as auteur. The featured director(s) changes each semester. Class examines recurring themes, stylistic innovations, and differentiating interpretations of directors' films. Course may be repeated as featured directors change.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

### **CINE 235E Authorship:**

Screening/discussion course is an intensive study of a single director (or directors) as auteur. The featured director(s) changes each semester. Class examines recurring themes, stylistic innovations, and differentiating interpretations of directors' films. Course may be repeated as featured directors change.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

### **CINE 235F Authorship:**

Screening/discussion course is an intensive study of a single director (or directors) as auteur. The featured director(s) changes each semester. Class examines recurring themes, stylistic innovations, and differentiating interpretations of directors' films. Course may be repeated as featured directors change.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

### **CINE 238A Cinema History and Culture**

This course examines historical and cultural issues in cinema. Topics may include specific genres, national cinemas, representations of gender and sexuality, non-narrative cinema, or the aesthetic impact of technological innovations. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help engage them actively with the topics.

**Repeatable:** Y

**Formerly** CINE 238

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 238B Cinema History and Culture**

This course examines historical and cultural issues in cinema. Topics may include specific genres, national cinemas, representations of gender and sexuality, non-narrative cinema, or the aesthetic impact of

technological innovations. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help engage them actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 238C Cinema History and Culture**

This course examines historical and cultural issues in cinema. Topics may include specific genres, national cinemas, representations of gender and sexuality, non-narrative cinema, or the aesthetic impact of technological innovations. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help engage them actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 238D Cinema History and Culture**

This course examines historical and cultural issues in cinema. Topics may include specific genres, national cinemas, representations of gender and sexuality, non-narrative cinema, or the aesthetic impact of technological innovations. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help engage them actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 238E Cinema History and Culture**

This course examines historical and cultural issues in cinema. Topics may include specific genres, national cinemas, representations of gender and sexuality, non-narrative cinema, or the aesthetic impact of technological innovations. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help engage them actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 238F Cinema History and Culture**

This course examines historical and cultural issues in cinema. Topics may include specific genres, national cinemas, representations of gender and sexuality, non-narrative cinema, or the aesthetic impact of technological innovations. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help engage them actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 240A Cinema and Global Media Culture**

This course examines the impact of global media culture on cinema history and aesthetics. Topics may include cinematic adaptations of video games, graphic novels, or television series, as well as an analysis of how distribution models and international film festivals help determine cinematic form and audience reception. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help them engage actively with the topics.

**Repeatable:** Y

**Formerly** CINE 240

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 240B Cinema and Global Media Culture**

This course examines the impact of global media culture on cinema history and aesthetics. Topics may include cinematic adaptations of video games, graphic novels, or television series, as well as an analysis of how distribution models and international film festivals help determine cinematic form and audience reception. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help them engage actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 240C Cinema and Global Media Culture**

This course examines the impact of global media culture on cinema history and aesthetics. Topics may include cinematic adaptations of video games, graphic novels, or television series, as well as an analysis of how distribution models and international film festivals help determine cinematic form and audience reception. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help them engage actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 240D Cinema and Global Media Culture**

This course examines the impact of global media culture on cinema history and aesthetics. Topics may include cinematic adaptations of video games, graphic novels, or television series, as well as an analysis of how distribution models and international film festivals help determine cinematic form and audience reception. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help them engage actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **CINE 240E Cinema and Global Media Culture**

This course examines the impact of global media culture on cinema history and aesthetics. Topics may include cinematic adaptations of video games, graphic novels, or television series, as well as an analysis of how distribution models and international film festivals help determine cinematic form and audience reception. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help them engage actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **TELE 250A Television Studies:**

This course examines a specific subject within the field of television, rotating the subjects on a regular basis to keep the course relevant to trends and issues within television and society. Today more than ever, TV is the primary storyteller in U.S. culture, and therefore the medium raises a constant stream of issues concerning everything from representation of groups to how parents raise their children. Classes focus on providing students with in-depth examinations of TV-related topics, with an overarching emphasis on the importance of approaching television and related issues from a variety of humanities perspectives (philosophical, industrial, historiographical, psychological, etc.), so as to enrich and complicate our understanding.

**Repeatable:** Y

**Formerly** TELE 250

**HU**

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

## **TELE 250B Television Studies:**

This course examines a specific subject within the field of television, rotating the subjects on a regular basis to keep the course relevant to trends and issues within television and society. Today more than ever, TV is the primary storyteller in U.S. culture, and therefore the medium raises a constant stream of issues concerning everything from representation of groups to how parents raise their children. Classes focus on providing students with in-depth examinations of TV-related topics, with an overarching emphasis on the importance of approaching television and related issues from a variety of humanities perspectives (philosophical, industrial, historiographical, psychological, etc.), so as to enrich and complicate our understanding.

**Repeatable:** Y

**HU**

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

### **TELE 250C Television Studies:**

This course examines a specific subject within the field of television, rotating the subjects on a regular basis to keep the course relevant to trends and issues within television and society. Today more than ever, TV is the primary storyteller in U.S. culture, and therefore the medium raises a constant stream of issues concerning everything from representation of groups to how parents raise their children. Classes focus on providing students with in-depth examinations of TV-related topics, with an overarching emphasis on the importance of approaching television and related issues from a variety of humanities perspectives (philosophical, industrial, historiographical, psychological, etc.), so as to enrich and complicate our understanding.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits** 3 **Maximum Credits** 3

## Career Management Elective

*Choose one of the following courses:*

### **CINE 344 Careers in Film and Television**

This course takes a hands-on approach to helping CTVA students learn what will face them as professionals in film and TV ranging from the basics of freelancing to working in the industry as an employee and managing one's personal affairs such as taxes, setting up a company, and signing an employment agreement for a media company.

**Repeatable:** N

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 1 **Maximum Credits** 1

### **COLL 232 Internship**

This internship course allows students to gain hands-on experience within the Los Angeles entertainment and arts industries, bridging theory with practice. This real-world experiential learning opportunity allows students to apply the knowledge and skills learned in the classroom to an existing organization. The online academic component of the course allows students to deepen their understanding of how entertainment and arts organizations and professions are structured and operate while learning how to assess and apply the knowledge and skills learned to more effectively contribute to an organization's success. The course features content specific to coursework and work experiences during the semester in LA.

**Repeatable:** Y

**Requirements** Permission Required (DP)

**Minimum Credits** 3 **Maximum Credits** 3

## Advanced Career Preparation Elective

*Choose one of the following courses:*

### **CINE 229 The Assistant Editor**

This course examines the role of the feature film assistant editor past, present and future, with a focus on providing hands-on experience using traditional and current skills associated with this position. In addition to exploring the responsibilities associated with the preparation and organization of digital elements students

will conform a short film from a digital edit as a basis of understanding the evolution of current post-production processes

**Repeatable:** *N*

**Formerly** 24-2425

**Prerequisites** CINE 130 Editing I

**Minimum Credits** 3 **Maximum Credits** 3

### **CINE 345 Advanced Casting Director**

Course will focus on the casting director's role as a facilitator of (and creative collaborator) in casting for filmed entertainment. This instruction will entail the full range of affairs between casting director and director during the auditioning phase and a comprehensive look at hiring actors, contract negotiations, actor representation, and the Screen Actors Guild.

**Repeatable:** *Y*

**Formerly** 24-3601

**Prerequisites** CINE 104 Fundamentals of Casting

**Minimum Credits** 3 **Maximum Credits** 3

### **CINE 362 Los Angeles Speaker Series**

This course offers students participating in the Los Angeles program the opportunity to gain insight into the daily business of the entertainment industry through a series of guest lecturers.

**Repeatable:** *Y*

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

### **CINE 424 Strategic Distribution for Filmmakers**

This course focuses on the practical step-by-step process of creating and implementing strategies to launch short-form content into current distribution and festival venues. Having a good film is not enough; a producer must identify specific elements in the film across a myriad of different and evolving technology and trend-driven platforms, as well as be able to effectively secure distribution.

**Repeatable:** *N*

**Formerly** 24-4660

**Prerequisites** CINE 248 Producing I: Production Team or CINE 225 Cinema Directing I

**Minimum Credits** 3 **Maximum Credits** 3

### **CINE 427 Producing the Documentary**

This course prepares advanced documentary students to work in the documentary production industry as a hired producer/director/writer. Typical work-for-hire tasks are explored. Students write and develop production packages suitable for known production companies and media outlets. Advanced producing topics are covered including complex budgeting, scheduling, hiring, and delivery and distribution requirements.

**Repeatable:** *Y*

**Formerly** 24-4810

**Prerequisites** CINE 264 Documentary Production Module II: The Interview or CINE 269 Documentary

Production III: Intermediate Field Production or CINE 267 Documentary Production Module I: Location Camera and Sound

**Minimum Credits 3 Maximum Credits 3**

### **CINE 428 The Business of Screenwriting**

Course instructs students how the inner workings of the film industry directly affect their ambitions as screenwriters. They will understand that there is much more to being a screenwriter than writing the script alone. Course will give the students a working knowledge of finding an agent, researching producers for their material, dealing with studios, understanding different types of contracts, copyright law and the Writers Guild of America. Students will also have a chance to take their scripts through a professional submission process to the agent or production company of their choice.

**Repeatable:** Y

**Formerly** 24-4742

**Prerequisites** CINE 245 Screenwriting II: The Feature Film and CINE 140 Script Analysis for Cinema

**Minimum Credits 3 Maximum Credits 3**

### **CINE 430 Creative Seminar: Portfolio Review**

This course provides an opportunity for students to revisit work completed throughout their studies. Students critique their previous work in an effort to understand their themes and styles, their strengths and weaknesses, and their development as a filmmaker. This examination assists students in setting future goals both in terms of selecting their Capstone classes and what they plan to do after graduation, whether that includes working in media, applying to grad schools, or identifying other career paths.

**Repeatable:** N

**Formerly** 24-4000

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **TELE 328 Television Program Development**

Television Program Development teaches students how to take an idea for a scripted television series and turn it into a fully realized written document (show bible) that focuses on creating a sustainable premise and includes a pilot story, subsequent stories, characters and a vision, which effectively reflect the series' setting, tone, and structure. From this detailed document, students will be able to write a pilot script (in a subsequent class or on their own). Additionally, the class introduces students to the variety of programming needs of broadcast, cable and streaming platforms.

**Repeatable:** N

**Formerly** 40-3232

**Prerequisites** CINE 145 Screenwriting I: Writing the Short Film or CINE 248 Producing I: Production Team or TELE 210 The Television Producer or TELE 212 Television Arts: Writing

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **Capstone**

*Choose one of the following courses:*

## **CINE 325 Cinema Directing II**

Course continues the development of collaboration with actors and key department heads while introducing the principles of cinematic coverage and providing the opportunity to develop personal directorial style. Pre-visualization, fundamental considerations of location shooting, and the use of editing and audio design in cinematic storytelling are emphasized. Student work culminates with the direction of scenes on both studio and location.

**Repeatable:** N

**Formerly** 24-3302

**Prerequisites** CINE 225 Cinema Directing I

**Minimum Credits** 6 **Maximum Credits** 6

## **CINE 368 The Line Producer Workshop**

This course provides the Line Producing student with the unique opportunity to produce an advanced student short film. This course teaches Line Producers how to produce a short film by assembling all of the preparation elements needed for filming and then for the day-to-day operation of the shooting set/principal photography. The course explores a Line Producer's objective of maintaining financial responsibility while providing the production and Creative Producer with everything needed to put the Director's vision on film. Their duties are supervisory, organizational, administrative and multifarious. The Line Producing student will be working within the structure that is governed by budgets, union and schedules, attend to cast, contract with vendors, hire crew, create detailed reports of each day's events and are looked to by cast and crew to problem solve on a moment to moment notice before and during production.

**Repeatable:** Y

**Formerly** 24-3635

**Prerequisites** CINE 248 Producing I: Production Team

**Minimum Credits** 6 **Maximum Credits** 6

## **CINE 429 Fictional Cinema Production**

This course brings students together to pitch and collaboratively create short fictional films in a group throughout the semester. In this course, students will hone various filmmaking skills they are already mastering (shooting, sound recording, editing, etc.) while also being reintroduced, at a more advanced level, to areas they may not have actively participated in since their first-year courses. The goal is for students to emerge at the end of the semester with a portfolio-quality piece suitable for film festivals and reels showcasing their talents.

**Repeatable:** N

**Prerequisites** CINE 203 Production: Fact and Fiction or CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

## **CINE 440A Seminar in Cinema, Television, and Media Studies**

In this seminar, students will engage in extensive research into areas of cinema and/or television history, media, or theory and criticism. Students will apply their research into the composition of a graduate-level essay. This is a rotating subjects course.

**Repeatable:** Y

**Formerly** CINE 440

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 440B Seminar in Cinema, Television, and Media Studies**

In this seminar, students will engage in extensive research into areas of cinema and/or television history, media, or theory and criticism. Students will apply their research into the composition of a graduate-level essay. This is a rotating subjects course.

**Repeatable:** Y

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 440C Seminar in Cinema, Television, and Media Studies**

In this seminar, students will engage in extensive research into areas of cinema and/or television history, media, or theory and criticism. Students will apply their research into the composition of a graduate-level essay. This is a rotating subjects course.

**Repeatable:** Y

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 440D Seminar in Cinema, Television, and Media Studies**

In this seminar, students will engage in extensive research into areas of cinema and/or television history, media, or theory and criticism. Students will apply their research into the composition of a graduate-level essay. This is a rotating subjects course.

**Repeatable:** Y

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 440E Seminar in Cinema, Television, and Media Studies**

In this seminar, students will engage in extensive research into areas of cinema and/or television history, media, or theory and criticism. Students will apply their research into the composition of a graduate-level essay. This is a rotating subjects course.

**Repeatable:** Y

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 445 Screenwriting III**

Based on student goals as identified in Ideation and Theme, course allows the student to develop a final portfolio thesis project. This thesis is the culmination of the skills the student has developed during their studies at Columbia.

**Repeatable:** Y

**Formerly** 24-4710

**Prerequisites** CINE 378 Ideation & Theme: Portfolio Review or CINE 430 Creative Seminar: Portfolio Review

**Minimum Credits 3 Maximum Credits 3**

## **CINE 477 Documentary Projects**

This course develops advanced techniques in the process of documentary filmmaking, from idea, research, treatment, shooting techniques, to editing. Students produce a fully developed short documentary film which exhibits a sophisticated approach to documentary concepts, practices, aesthetics, and ethical problems encountered in contemporary documentary filmmaking. Students will workshop ideas leading to a production that communicates meaning, demonstrates an ethical concern for its subjects, affects its audience, and reflects an individual voice.

**Repeatable:** Y

**Formerly** CINE 377

**Prerequisites** CINE 266 Documentary Storytelling or CINE 267 Documentary Production Module I: Location Camera and Sound or CINE 264 Documentary Production Module II: The Interview or CINE 269 Documentary Production III: Intermediate Field Production or PHOT 360 Documentary Methods or JOUR 350 Digital Storytelling

**Minimum Credits 3 Maximum Credits 3**

## **TELE 480 Branded Entertainment Practicum**

In this course, students gain theoretical and practical experience in the strategy, production and distribution of client-based branded entertainment media. Students join collaborative interdisciplinary teams and work with commercial and not-for-profit clients to develop and execute branded entertainment strategy plans, media content and analytic processes. Contemporary social media platforms, business models and best practices for evaluating impact will be presented and used by the student teams.

**Repeatable:** Y

**Formerly** 40-3242

**Prerequisites** TELE 210 The Television Producer and TELE 330 Production and Editing II or CINE 230 Editing II or CINE 275 Experimental Production I

**Minimum Credits 3 Maximum Credits 3**

## **Bachelor of Fine Arts**

### **Film and Television, BFA**

The Bachelor of Fine Arts in Film and Television is designed specifically to help students meet the qualification for direct entry into the profession and is built around extensive modeling of professional practice integrated with research and collaborative production of thesis work. Students can earn a BFA in Film and Television with a concentration in Cinematography, Directing, Editing and Post-Production, Sound for Cinema, Cinema Visual Effects, Producing, Production Design or Screenwriting.

**PROGRAM REQUIREMENTS - 62-71 credits required**

**CINE 401 BFA Studio**

Students begin the development of the Thesis Project by collaborating with other BFA candidates. All will contribute ideas for development with ongoing revisions, peer evaluation, and Advisor/Instructor critiques. The work will culminate in a single locked script approved by the Thesis Advisors/Instructors for production. Concurrent with the script development, students will hone their skills through progressively complex assignments building toward a final short narrative cinematic story.

**Repeatable:** *N*

**Formerly** 24-4020

**Minimum Credits 6 Maximum Credits 6**

## **CINE 402 BFA Research and Presentation**

The Research and Presentation component of the BFA course of study provides an opportunity for candidates to place their Thesis work in the appropriate historical, thematic, and aesthetic context. Using the subject matter of the Thesis as the focal point of their work, candidates will research artists, genres, and cultural influences that provide a backdrop for the development and execution of the Thesis. A self-reflection and analysis of the candidate's work throughout the course of study, culminating in the Thesis, is integral to the overall written presentation

**Repeatable:** *Y*

**Formerly** 24-4040

**Minimum Credits 3 Maximum Credits 3**

## **CINE 491A BFA Thesis I**

In this course, CTVA BFA students commence with preproduction on scripts developed in the designated BFA Studio curriculum and approved by the BFA faculty instructors. Students will collaborate with their thesis cohorts with an emphasis on visual and aural realization for all department heads including Directing, Producing, Cinematography, Production Design, and Sound for Cinema. The teams must meet specified milestones during the process, and production will take place during designated production windows once green lit by their advisors. Each BFA candidate is expected to meet the complete deliverable schedule required by their department.

**Repeatable:** *N*

**Formerly** CINE 491

**Minimum Credits 6 Maximum Credits 6**

## **CINE 491B BFA Thesis II**

In this course, Film and Television BFA students complete the thesis project produced in CINE 491A BFA Thesis I. Students will continue to collaborate with their thesis cohorts with an emphasis on visual and aural realization for all department heads including Directing, Producing, Cinematography, Production Design, Editing and Post Production, and Sound for Cinema. The teams must meet specified milestones during the completion process. Each BFA candidate is expected to meet the complete deliverable schedule required by their department.

**Repeatable:** *Y*

**Prerequisites** CINE 491A BFA Thesis I

**Minimum Credits 3 Maximum Credits 3**

## **MEDI 101 Cinematic Storytelling**

This course explores the elements of cinematic storytelling that are used to articulate theme, evoke emotion, and create personal connection with an audience. The student will analyze, research, develop, and visualize cinematic stories for the screen. Aesthetics and storytelling components will be applied in MEDI 102 Cinema and Television Production.

**Repeatable:** N

**Concurrent Requisite** MEDI 102 Cinema and Television Production

**Minimum Credits 3 Maximum Credits 3**

## **MEDI 102 Cinema and Television Production**

This hands-on course explores the techniques of cinema and television production as a collaborator on both individual and group projects. The student will practice conceptualization, visualization, cinematography, sound recording, and editing techniques through effective visual and oral presentations. The aesthetic and storytelling principles will be applied from MEDI 101 Cinematic Storytelling.

**Repeatable:** N

**Concurrent Requisite** MEDI 101 Cinematic Storytelling

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

## **CINE 143 World Cinema I**

This course examines the world cinema up until World War II. Emphasis is placed on major directors, national cinemas, and movements that contributed to the development of narrative cinema. Screenings will be discussed for their aesthetic, historical, technological and ideological significance. Students will research and write papers and be involved in a number of other in-class and online research activities to help engage them actively with the material.

**Repeatable:** N

**Formerly** 24-2550

**Minimum Credits 3 Maximum Credits 3**

## **CINE 144 World Cinema II**

This course examines the world cinema after World War II. Emphasis is placed on major directors, national cinemas, and movements that contributed to the development of narrative cinema. Screenings will be discussed for their aesthetic, historical, technological and ideological significance. Students will research and write papers and be involved in a number of other in-class and online research activities to help engage them actively with the material.

**Repeatable:** N

**Formerly** 24-2551

**Minimum Credits 3 Maximum Credits 3**

## **CONCENTRATIONS**

Cinematography

The goal of the cinematography program is to provide students a pre-professional level of knowledge and competence in cameras and lighting necessary to conceive and create images for the screen in relationship to story. As a result of successfully completing program requirements, students should be able to:

- demonstrate a professional level of knowledge and competence necessary to conceive and create images for the screen;
- demonstrate the concept, practice, and aesthetics of lighting;
- demonstrate the ability to link a lighting concept to dramatic material;
- develop and articulate a film or television story with the emphasis on communicating the message of the piece visually;
- demonstrate a comprehensive knowledge of all film, television, and digital camera systems as well as the responsibilities of the Cinematographer, Camera Operator, Camera Assistants, Gaffer, and Key Grip;
- demonstrate the skill to collaborate with all key departments (Directing, Producing, Production Design, Special FX, etc.);
- demonstrate a comprehensive knowledge of electronic imaging, image optics, special effects, film stocks, laboratory practices, and finishing the film or television project (color correction and final delivery for exhibition);
- demonstrate the ability to translate a director's concept into a complete short film or television story that both demonstrates proficiency of craft and creativity, and fulfills the director's vision;
- interpret a narrative screenplay and break it down into a visual treatment, shot list, storyboard, floor plan; in collaboration with the director; and
- demonstrate the ability to critically examine their own work and others.

**Required for the Concentration:**

## **CINE 121 Lighting I**

Course introduces the physics of motion picture lighting for students with little or no lighting experience. Students become familiar with important safety procedures and the use of standard lighting equipment. Special attention is given to important light measuring techniques using incident light meters and spot meters, quality of light and lighting ratios. Course encourages intelligent, thoughtful approaches to the aesthetics of lighting.

**Repeatable:** *N*

**Formerly** 24-1200

**Prerequisites** CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production

**Minimum Credits 4 Maximum Credits 4**

## **CINE 215 Cinematography: Camera Seminar I**

This course gives students a working knowledge of beginning digital motion picture camera systems. It provides hands-on training in camera handling and assisting. Students learn basic image acquisition techniques based on optics, focal length, stops, and depth-of-field. Students are introduced to set protocol and the duties of different members of the camera department.

**Repeatable:** *N*

**Formerly** 24-2202

**Prerequisites** CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production

**Minimum Credits 3 Maximum Credits 3**

## **CINE 216 Image Design for Cinema**

In this course students will examine the design of images and their critical role in how filmmakers communicate story. Through lectures, practical assignments and critique, students refine their ability to use visual components to see, conceive and communicate most effectively. This course bridges the gap between theory and practice and highlights the relationship between story structure and visual structure.

**Repeatable:** *N*

**Formerly** 24-2201

**Prerequisites** CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production

**Minimum Credits 3 Maximum Credits 3**

## **CINE 221 Photo Theory**

This course deals with histories of technologies of image acquisition, from the first photographic emulsion to today's digital sensors. It offers in-depth studies of latent image theory, image quality, densitometry, sensitometry and digital sensors, scanning, and archiving.

**Repeatable:** *N*

**Formerly** 24-2216

**Prerequisites** CINE 121 Lighting I and CINE 216 Image Design for Cinema

**Minimum Credits 3 Maximum Credits 3**

## **CINE 223 Cinema Color I**

Students acquire a working knowledge of the aesthetics and technical aspects of the color correction process. Content addresses theory and application of color correction, image control and manipulation techniques. Principles and history of color theory and the tools available to filmmakers are explored through lecture, interactive computer exercises, and hands-on work with current professional color correction software.

**Repeatable:** *N*

**Formerly** 24-2208

**Prerequisites** CINE 130 Editing I or CINE 216 Image Design for Cinema

**Minimum Credits 3 Maximum Credits 3**

## **CINE 306 Cinematography I**

Through still and motion picture exercises, this course focuses on the interpretation of artistic goals by exploring the use of camera movement, focal length, depth of field, camera angles, etc. Students begin by developing different creative visualizations using pre-production tools including storyboards, shot lists, and overheads. Technical issues including acquisition formats, exposure, and lighting are analyzed.

**Repeatable:** *N*

**Formerly** 24-3202

**Prerequisites** CINE 215 Cinematography: Camera Seminar I and CINE 221 Photo Theory

**Minimum Credits 4 Maximum Credits 4**

## **CINE 308 Cinematography II**

This course is devoted to digital acquisition and collaboration with directors on set. Cinematographers will work with a student enrolled in an advanced directing class, teaming up to create a pre-production plan and to shoot and color correct a short narrative story. Students will also shoot a non-narrative short such as a music video, commercial, or documentary. Using advanced digital systems, cinematography students learn all aspects of digital workflow from pre-production through post production.

**Repeatable:** *N*

**Formerly** 24-3204

**Prerequisites** CINE 306 Cinematography I

**Requirements** Permission Required (DP)

**Minimum Credits 4 Maximum Credits 4**

## **CINE 315 Cinematography: Camera Seminar II**

This class expands upon concepts introduced in Camera Seminar I. In addition to the technical aspects of high end, professional level camera systems, this course focuses on the skills required to be a professional operator and the first assistant. Instruction also covers support equipment including the dolly, jib, gear head, and video assist. The course focuses on how various camera skills can be used to enhance storytelling.

**Repeatable:** *N*

**Formerly** 24-3201

**Prerequisites** CINE 215 Cinematography: Camera Seminar I and CINE 321 Lighting II

**Concurrent Requisite** CINE 316 Camera Seminar II Studio

**Minimum Credits 3 Maximum Credits 3**

## **CINE 316 Camera Seminar II Studio**

Camera Seminar II Studio is a mandatory concurrent course for those enrolled in Camera Seminar II. In it, students will work in groups acting as operators and focus pullers for in-class exercises. These exercises expand upon the skills students are developing in Camera Seminar II, applying them to more complex and complete storytelling assignments.

**Repeatable:** *N*

**Formerly** 24-3201A

**Concurrent Requisite** CINE 315 Cinematography: Camera Seminar II

**Minimum Credits 3 Maximum Credits 3**

## **CINE 321 Lighting II**

This course expands upon the skills and concepts introduced in Lighting I that revolve around the aesthetics and technical aspects of lighting for narrative storytelling. Using discovery and experimentation, it focuses on the emotional impact of visual image. Both lecture and hands-on practical experience are used to stress the technical elements necessary to accomplish the sophisticated marriage of art and science. Lighting II Studio is a concurrent requisite.

**Repeatable:** *N*

**Formerly** 24-3200

**Prerequisites** CINE 121 Lighting I and CINE 215 Cinematography: Camera Seminar I

**Concurrent Requisite** CINE 322 Lighting II Studio

**Minimum Credits 3 Maximum Credits 3**

## **CINE 322 Lighting II Studio**

This course is designed to work in conjunction with Lighting II. Students will collaborate on class exercises, involving a full array of pre-visualization and production techniques with an emphasis on collaboration and communication. The coursework expands upon the skills cinematography students learn in Lighting II, applying them to more complex and complete storytelling assignments.

**Repeatable:** Y

**Formerly** 24-3200A

**Concurrent Requisite** CINE 321 Lighting II

**Minimum Credits** 3 **Maximum Credits** 3

### **CINE 406 Cinematography III**

Building on Cinematography II, this course focuses on visual storytelling with an emphasis on color, camera movement, shot design, and other creative choices. Students develop a story and visual concept and shoot a short project without any dialogue, relying heavily on visuals to communicate story, tone, theme, and emotional impact.

**Repeatable:** N

**Formerly** 24-4203

**Prerequisites** CINE 308 Cinematography II and CINE 315 Cinematography: Camera Seminar II and CINE 316 Camera Seminar II Studio

**Requirements** Permission Required (DP)

**Minimum Credits** 4 **Maximum Credits** 4

### **Cinema Visual Effects**

This specialized area of study combines analytical and practical application of technical, creative and physiological studies in support of creating effects that support the film's cinematic vision. As a result of successfully completing program requirements, students should be able to:

- identify and construct a design preparation and implementation for digital composites;
- demonstrate the skills to use color grading, format transformation, and element correction tools for dramatic construction;
- demonstrate the ability to apply basic digital editing and use compositing techniques for creating animated type sequences for film and television titling;
- utilize the proper methods of creating mattes from Chroma-key extraction methods and for applying motion tracking and stabilization tools to visual elements;
- demonstrate an ability to plan, pre-visualize, and create visual effects sequences, titles, and graphics in a 3D, node-based composite system environment, working individually and collaboratively as part of a team;
- utilize cinematography techniques and studies of historical examples of visual effects sequences to effect planning, design, and execution of a series of visual effect assignments;
- articulate the aesthetic role and history of visual effects in film and television; and
- communicate and collaborate with art department, directors, and/or producers on pre-visualization of VFX elements.

**Required for the Concentration:**

### **ANIM 150 Computer Animation: Keyframing I**

This course establishes a beginning understanding of computer-generated (CG) keyframing via object and camera keyframing using industry standard software application. Further animation assignments focus on an

intermediate level of character animation through a provided CG character and rig.

**Repeatable:** *N*

**Formerly** 26-1015

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 161 CVFX Foundations**

This course introduces students to core methodologies and practices for creating, constructing and producing key visual effects sequences for live-action cinema. Students will learn a cross-section of visual effect approaches developing their knowledge and practical application of these technologies in supporting live-action cinema. This survey primer on core methodologies allows students to organize, plan and execute required cinema visual effects developing interpersonal and practical skill sets.

**Repeatable:** *N*

**Formerly** 24-1600

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 262 CVFX: Cinematography I**

Course teaches students the methodology of visual effects production through practical, hands-on application. Students acquire general knowledge of a variety of skills needed to effectively produce and direct a visual effects sequence.

**Repeatable:** *N*

**Formerly** 24-2204

**Prerequisites** CINE 121 Lighting I

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 263 CVFX: Compositing I**

Lectures and demonstrations, with supporting materials, along with weekly exercises to reinforce the ideas and principles put forth in these presentations, will guide students toward a solid fundamental understanding of the visual effects postproduction process via the compositing workflow. Students will be given the opportunity to show what they have learned by executing a basic final project at the end of the semester, with a subsequent critique by the class and individually with the instructor.

**Repeatable:** *N*

**Formerly** 24-2209

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 270 Motion Graphics I**

Course teaches techniques to digitally integrate software and composite layers of images. Discussions of digital and optical effects from conception to design encourage students to make creative use of software.

**Repeatable:** *N*

**Formerly** 24-1420

**Prerequisites** INMD 120 Digital Image Design or GRDE 136 Design Lab or TELE 230 Production & Editing I or PHOT 202 Photographic Practice III or PHOT 206 Digital Imaging I or CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process

**Minimum Credits 3 Maximum Credits 3**

## **ANIM 363 CVFX: Compositing II**

This course teaches students the various analogue and digital techniques of compositing film elements of diverse origin, from film, electronic imaging systems, and computer-generated images, through lecture, demonstration, and hands-on practice.

**Repeatable:** *N*

**Formerly** 24-3209

**Prerequisites** ANIM 263 CVFX: Compositing I or ANIM 370 Motion Graphics II

**Minimum Credits 3 Maximum Credits 3**

## **ANIM 365 Computer Animation: Visual Effects**

This course introduces the advanced Computer Animation Concentration student to the visual effects process of integrating computer-generated elements with live action footage. Early assignments integrate pre-existing computer generated elements with live action content. Subsequent assignments introduce advanced texture-mapping, rendering and camera tracking techniques. The course concludes with the development of a solo visual effects sequence that combines idea generation, production strategy and advanced CG rendered objects, particles, effects and camera. Screening of film examples and a presentation assignment about the visual effects industry will underscore the aesthetic impact of CG elements in a live action film.

**Repeatable:** *N*

**Formerly** 26-3049

**Prerequisites** ANIM 150 Computer Animation: Keyframing I

**Minimum Credits 4 Maximum Credits 4**

## **ANIM 370 Motion Graphics II**

Course teaches complex film and video compositing under tight deadlines using advanced high-end systems. Course emphasizes storyboarding and design as well as postproduction house protocols.

**Repeatable:** *N*

**Formerly** 24-2421

**Prerequisites** ANIM 270 Motion Graphics I or CINE 310 Cinema Models and Miniatures

**Minimum Credits 3 Maximum Credits 3**

## **CINE 130 Editing I**

Course helps students develop the basic non-linear editing skills needed to tell stories effectively through screenings, practical hands-on assignments, using NLE editing software, readings, and lectures. Organizational skills needed to handle NLE offline digital video and audio materials are covered. Editing exercises consist of various editing genres, using scenes from longer works. Students receive ongoing critiques of their work to determine their proficiency of craft and creativity.

**Repeatable:** *N*

**Formerly** 24-1401

**Concurrent Requisite** CINE 131 Editing I Studio

**Minimum Credits 3 Maximum Credits 3**

## **CINE 131 Editing I Studio**

This course is required concurrently with Editing I. Students develop basic skill in the use of a digital editing platform in completing the Editing I course exercises, as well as investigating current technical developments and digital workflow concepts. Content is presented through demonstrations, tutorials and hands-on practice using visual and audio media. Students receive ongoing critique, quizzes and one-to-one problem solving to determine their proficiency and advancement in the use of the platform.

**Repeatable:** *N*

**Formerly** 24-1401B

**Concurrent Requisite** CINE 130 Editing I

**Minimum Credits 1 Maximum Credits 1**

## **CINE 223 Cinema Color I**

Students acquire a working knowledge of the aesthetics and technical aspects of the color correction process. Content addresses theory and application of color correction, image control and manipulation techniques. Principles and history of color theory and the tools available to filmmakers are explored through lecture, interactive computer exercises, and hands-on work with current professional color correction software.

**Repeatable:** *N*

**Formerly** 24-2208

**Prerequisites** CINE 130 Editing I or CINE 216 Image Design for Cinema

**Minimum Credits 3 Maximum Credits 3**

## **CINE 323 Cinema Color II**

This course expands upon concepts taught in Cinema Color I by providing students with training in the theory and techniques of digital transfer and digital intermediates. Students apply their knowledge of the technical aspects and aesthetics of the celluloid-based film transfers and digital manipulation. Principles of color theory and the tools available to filmmakers engaged in the process of electronic media and image manipulation are explored through lecture and interactive computer exercises.

**Repeatable:** *N*

**Formerly** 24-3208

**Prerequisites** CINE 223 Cinema Color I

**Minimum Credits 3 Maximum Credits 3**

## **Directing**

This concentration is designed to provide training and practice in all aspects of fictional directing, with course offerings that allow students to study the craft of directing through the eyes of and in collaboration with screenwriters, casting directors, editors, cinematographers, production designers and others. As a result of successfully completing program requirements, students should be able to:

- interpret a narrative screenplay visually and aurally to generate a completed short film or television story ready for exhibition and distribution;
- analyze a narrative screenplay, prepare a director's breakdown, and visual treatment;
- prepare a shot list, lined shooting script, floor plan, and storyboards in collaboration with a cinematographer, producer, and assistant director;
- effectively communicate and collaborate with actors to create psychologically believable cinematic performances;

- effectively tell a visual screen story through cinematic elements including camera, lighting, production design, editing, and audio;
- critically examine their own work and that of their peers; and
- develop and articulate a personal vision of cinematic storytelling while effectively collaborating with producers, cinematographers, production designers, and editors in all phases of film and television production from development through to completion.

**Required for the Concentration:**

## **CINE 104 Fundamentals of Casting**

This course introduces the fundamental practices, etiquette and protocol for casting cinema productions. Sources of actors, methods of posting calls, offers and booking sheets and implementing SAG guidelines are presented and examined. The role and value of a casting director and their collaboration with directors, producers and line producers is covered. A standard protocol for scheduling and running casting sessions from pre-reads through chemistry tests is developed with an emphasis on professionalism.

**Repeatable:** *N*

**Formerly** 24-1301

**Minimum Credits** 1 **Maximum Credits** 1

## **CINE 128 Acting and Directing Workshop**

Course is designed to introduce fundamentals of the actor's craft to directing students. Students learn various acting techniques and apply them to basic directing methods. The relationship between actor, text, and director is emphasized through analysis, rehearsal, and scene work. Intended outcome is an understanding of the actor's process and the collaboration and communication necessary between actors and directors.

**Repeatable:** *N*

**Formerly** 24-1300

**Prerequisites** CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production

**Minimum Credits** 3 **Maximum Credits** 3

## **CINE 145 Screenwriting I: Writing the Short Film**

Course is a workshop that explores basic methods of writing for cinema which further develop the students' skills in presenting their ideas in written form. Students will develop craft skills basic to cinema writing: research, story development, scene structure, dialogue, and character definition. Emphasis is on finding visual equivalents for human emotions and on developing the writer's individual personal vision. This work culminates in the development and revision of two short narrative scripts. Instrumental in the development of the student as a writer is the ability to read, and effectively critique, the work of their peers.

**Repeatable:** *N*

**Formerly** 24-1710

**Prerequisites** ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or ENGL 109 Writing and Rhetoric I Stretch B or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits** 3 **Maximum Credits** 3

## **CINE 225 Cinema Directing I**

Course builds upon the relationship between actor, text, and director and expands to include camera blocking, basic scene coverage, additional rehearsal techniques, and effective critiquing skills. Emphasis is on the development of director's breakdowns, pre-visualization, set-etiquette, and fundamental collaboration with key department heads. Scene work culminates with the blocking and staging of a cinematic narrative scene.

**Repeatable:** N

**Formerly** 24-2301

**Prerequisites** CINE 128 Acting and Directing Workshop

**Minimum Credits 6 Maximum Credits 6**

## **CINE 250 Advanced Script Supervising**

This three-credit hour course is affiliated with the advanced production and offers students an opportunity to learn about the role of Script Supervisor by serving as Script Supervisors on a film. Learning will be delivered through instructor mentoring and focus on practical preparation of scripts notes, lining scripts, assigning slate numbers, working with the various departments during production and set etiquette.

**Repeatable:** Y

**Formerly** 24-2612

**Prerequisites** CINE 225 Cinema Directing I or CINE 249 Introduction to Script Supervising

**Minimum Credits 3 Maximum Credits 3**

## **CINE 325 Cinema Directing II**

Course continues the development of collaboration with actors and key department heads while introducing the principles of cinematic coverage and providing the opportunity to develop personal directorial style. Pre-visualization, fundamental considerations of location shooting, and the use of editing and audio design in cinematic storytelling are emphasized. Student work culminates with the direction of scenes on both studio and location.

**Repeatable:** N

**Formerly** 24-3302

**Prerequisites** CINE 225 Cinema Directing I

**Minimum Credits 6 Maximum Credits 6**

## **CINE 345 Advanced Casting Director**

Course will focus on the casting director's role as a facilitator of (and creative collaborator) in casting for filmed entertainment. This instruction will entail the full range of affairs between casting director and director during the auditioning phase and a comprehensive look at hiring actors, contract negotiations, actor representation, and the Screen Actors Guild.

**Repeatable:** Y

**Formerly** 24-3601

**Prerequisites** CINE 104 Fundamentals of Casting

**Minimum Credits 3 Maximum Credits 3**

*Complete 15 credits from the following courses:*

## **ANIM 161 CVFX Foundations**

This course introduces students to core methodologies and practices for creating, constructing and producing key visual effects sequences for live-action cinema. Students will learn a cross-section of visual effect approaches developing their knowledge and practical application of these technologies in supporting live-action cinema. This survey primer on core methodologies allows students to organize, plan and execute required cinema visual effects developing interpersonal and practical skill sets.

**Repeatable:** *N*

**Formerly** 24-1600

**Minimum Credits 3 Maximum Credits 3**

## **CINE 121 Lighting I**

Course introduces the physics of motion picture lighting for students with little or no lighting experience. Students become familiar with important safety procedures and the use of standard lighting equipment. Special attention is given to important light measuring techniques using incident light meters and spot meters, quality of light and lighting ratios. Course encourages intelligent, thoughtful approaches to the aesthetics of lighting.

**Repeatable:** *N*

**Formerly** 24-1200

**Prerequisites** CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production

**Minimum Credits 4 Maximum Credits 4**

## **CINE 130 Editing I**

Course helps students develop the basic non-linear editing skills needed to tell stories effectively through screenings, practical hands-on assignments, using NLE editing software, readings, and lectures. Organizational skills needed to handle NLE offline digital video and audio materials are covered. Editing exercises consist of various editing genres, using scenes from longer works. Students receive ongoing critiques of their work to determine their proficiency of craft and creativity.

**Repeatable:** *N*

**Formerly** 24-1401

**Concurrent Requisite** CINE 131 Editing I Studio

**Minimum Credits 3 Maximum Credits 3**

## **CINE 131 Editing I Studio**

This course is required concurrently with Editing I. Students develop basic skill in the use of a digital editing platform in completing the Editing I course exercises, as well as investigating current technical developments and digital workflow concepts. Content is presented through demonstrations, tutorials and hands-on practice using visual and audio media. Students receive ongoing critique, quizzes and one-to-one problem solving to determine their proficiency and advancement in the use of the platform.

**Repeatable:** *N*

**Formerly** 24-1401B

**Concurrent Requisite** CINE 130 Editing I

**Minimum Credits 1 Maximum Credits 1**

## **CINE 202 Cinematic Art in the Land of Leonardo**

In this course students investigate Florentine history and art as it relates to contemporary cinema by analyzing, planning, and filming segments from a film script. Special attention is paid to visual perspective, the impact of physical context on visual narrative, individual and collaborative approaches to art making, and the role of patronage, apprenticeship and mentorship. Primary references are Dante's Inferno , Renaissance perspectival painting, and 20th century Italian Neo-Realism. Each topic is approached from the point of view of performance, photography/cinematography, design, and editing. The course will be of value not only to Cinema Art + Science students but also to actors, photographers, set and fashion designers, and those interested in art history and art criticism.

**Repeatable:** N

**Formerly** 24-2001

**GA**

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 216 Image Design for Cinema**

In this course students will examine the design of images and their critical role in how filmmakers communicate story. Through lectures, practical assignments and critique, students refine their ability to use visual components to see, conceive and communicate most effectively. This course bridges the gap between theory and practice and highlights the relationship between story structure and visual structure.

**Repeatable:** N

**Formerly** 24-2201

**Prerequisites** CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production

**Minimum Credits 3 Maximum Credits 3**

### **CINE 235A Authorship:**

Screening/discussion course is an intensive study of a single director (or directors) as auteur. The featured director(s) changes each semester. Class examines recurring themes, stylistic innovations, and differentiating interpretations of directors' films. Course may be repeated as featured directors change.

**Repeatable:** Y

**Formerly** CINE 235

**Minimum Credits 3 Maximum Credits 3**

### **CINE 235B Authorship:**

Screening/discussion course is an intensive study of a single director (or directors) as auteur. The featured director(s) changes each semester. Class examines recurring themes, stylistic innovations, and differentiating interpretations of directors' films. Course may be repeated as featured directors change.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

### **CINE 235C Authorship:**

Screening/discussion course is an intensive study of a single director (or directors) as auteur. The featured director(s) changes each semester. Class examines recurring themes, stylistic innovations, and differentiating interpretations of directors' films. Course may be repeated as featured directors change.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

### **CINE 235D Authorship:**

Screening/discussion course is an intensive study of a single director (or directors) as auteur. The featured director(s) changes each semester. Class examines recurring themes, stylistic innovations, and differentiating interpretations of directors' films. Course may be repeated as featured directors change.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

### **CINE 235E Authorship:**

Screening/discussion course is an intensive study of a single director (or directors) as auteur. The featured director(s) changes each semester. Class examines recurring themes, stylistic innovations, and differentiating interpretations of directors' films. Course may be repeated as featured directors change.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

### **CINE 235F Authorship:**

Screening/discussion course is an intensive study of a single director (or directors) as auteur. The featured director(s) changes each semester. Class examines recurring themes, stylistic innovations, and differentiating interpretations of directors' films. Course may be repeated as featured directors change.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

### **CINE 245 Screenwriting II: The Feature Film**

Course teaches students to produce longer and more complex screenplays; facilitates a deeper understanding of the screenwriting process; and enables students to develop character, story, and linear structure. Students master systematic work habits in order to fully develop the screenplay, from initial idea to completed script. Course also provides students with the opportunity for consistent critique of their screenwriting.

**Repeatable:** N

**Formerly** 24-2710

**Prerequisites** CINE 145 Screenwriting I: Writing the Short Film or TELE 212 Television Arts: Writing

**Minimum Credits 3 Maximum Credits 3**

### **CINE 275 Experimental Production I**

Project-centered course engages students in non-narrative, alternative aspects of video and digital production. Students develop an aesthetic that explores, challenges, extends, or subverts mainstream narrative or documentary structures. Topics include camera experimentation and image manipulation; development of personal, political, or social themes; and distribution and marketing of experimental work.

**Repeatable:** N

**Formerly** 24-2901

**Prerequisites** CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production

**Minimum Credits 3 Maximum Credits 3**

### **CINE 329 Scene Study with Camera: A Directing Workshop**

Course focuses on narrative scene work that is written by the director. Two scenes are developed, cast, rehearsed, shot on location and edited. Collaboration with a cinematographer remains a focus. Critical evaluation during each stage in the process emphasizes identifying the opportunities to revise and improve the material as the director realizes the dramatic potential of a scene and continues to develop a personal style.

**Repeatable:** Y

**Formerly** 24-3305

**Prerequisites** CINE 325 Cinema Directing II

**Minimum Credits 6 Maximum Credits 6**

### **CINE 364 The Assistant Director's Workshop**

Course teaches assistant directors how to run a set by assembling all of the elements needed for filming and for the daily operation of the shooting set. Through lecture, exercises, and on-set experience, this course explores an assistant director's objective of providing the director with everything needed to put the director's vision on film. Their duties are supervisory, organizational, administrative - and multifarious. Working within the structure that is governed by budgets, union and guild contracts, industry custom, and so on, they make schedules, attend to the cast, direct extras, oversee the crew as each shot is prepared, create detailed reports of each day's events, and are looked to by cast and crew to solve many problems that arise in student productions.

**Repeatable:** N

**Formerly** 24-3624

**Prerequisites** CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production

**Minimum Credits 3 Maximum Credits 3**

### **CINE 383A Advanced Topics in Cinema Directing**

This is an advanced topics course in the area of Cinema Directing. Topics will vary.

**Repeatable:** Y

**Formerly** CINE 383

**Minimum Credits 1 Maximum Credits 4**

### **CINE 383B Advanced Topics in Cinema Directing**

This is an advanced topics course in the area of Cinema Directing. Topics will vary.

**Repeatable:** Y

**Minimum Credits 1 Maximum Credits 4**

### **CINE 383C Advanced Topics in Cinema Directing**

This is an advanced topics course in the area of Cinema Directing. Topics will vary.

**Repeatable:** Y

**Minimum Credits 1 Maximum Credits 4**

### **CINE 383D Advanced Topics in Cinema Directing**

This is an advanced topics course in the area of Cinema Directing. Topics will vary.

**Repeatable:** Y

**Minimum Credits 1 Maximum Credits 4**

### **CINE 383E Advanced Topics in Cinema Directing**

This is an advanced topics course in the area of Cinema Directing. Topics will vary.

**Repeatable:** Y

**Minimum Credits 1 Maximum Credits 4**

### **CINE 416 Advanced First Assistant Director**

Course would focus on applied advanced first assistant director skills, including short and feature film scheduling, calling roll on-set, collaborating with the director and other key crew during production, working in both union and non-union settings, and wrangling associated production documentation.

**Repeatable:** Y

**Formerly** 24-4615

**Prerequisites** CINE 364 The Assistant Director's Workshop

**Minimum Credits 3 Maximum Credits 3**

### **CINE 425 Cinema Directing III**

Course covers directing original material, from script breakdown and pre-visualization through location production and picture cut, culminating in a short narrative cinematic story. Using HD video format, instruction elaborates on collaborative skills needed to work with a cinematographer, production designer, editor, and other department heads. Students apply for admittance by submitting a very short, dramatically effective screenplay that is ready for pre-production.

**Repeatable:** N

**Formerly** 24-3303

**Prerequisites** CINE 325 Cinema Directing II

**Requirements** Permission Required (DP)

**Minimum Credits 6 Maximum Credits 6**

### **CINE 475 Experimental Production II**

Project-centered course stimulates and assists students in the creation of an alternative film, video, or digital work. Students will employ an aesthetic that explores, challenges, or subverts mainstream narrative or documentary structures. The class builds on topics from Experimental Production I, including camera

experimentation and image manipulation as well as the development of personal, political, or social themes. Festivals, distribution, and marketing of experimental film and video will also be emphasized. The class will produce a show at the end of the semester.

**Repeatable:** Y

**Formerly** 24-4902

**Prerequisites** CINE 275 Experimental Production I

**Minimum Credits 3 Maximum Credits 3**

## Editing and Post-Production

This concentration prepares students for careers in editing for picture, sound and other related post-production specializations of cinematic storytelling. As a result of successfully completing program requirements, students should be able to:

- demonstrate advanced cinema editing skills, concepts and practices in the editing and finishing of an original short film or television story;
- demonstrate the ability to apply dramatic structure with materials provided including the effective arrangement of time, dramatic arc, dialogue, and character development within the work;
- identify and articulate effective critical analysis and critique;
- write a statement of intention for a project that reflects a personal point of view, and apply that statement to their work;
- demonstrate the ability to control rhythm, emotional content, transitions of sound and picture, and other editing techniques to facilitate audience response;
- demonstrate the ability to receive and incorporate critical analysis;
- demonstrate the ability to incorporate sound elements such as dialogue, sound effects, voice over, and music, throughout the post-production process;
- demonstrate the ability to collaborate with directors, producers, and post-production personnel to facilitate, implement and integrate the director's vision for the film or television story, through all phases of production, from development to completion;
- demonstrate and apply technical proficiency within the responsibilities of an editor, assistant editor and post-production professional on a cinematic work; and
- demonstrate proficiency in one or more of the following areas: sound design and mixing; motion graphics; compositing and vfx; on set data wrangling and workflow; color correction and online.

**Required for the Concentration:**

## CINE 130 Editing I

Course helps students develop the basic non-linear editing skills needed to tell stories effectively through screenings, practical hands-on assignments, using NLE editing software, readings, and lectures.

Organizational skills needed to handle NLE offline digital video and audio materials are covered. Editing exercises consist of various editing genres, using scenes from longer works. Students receive ongoing critiques of their work to determine their proficiency of craft and creativity.

**Repeatable:** N

**Formerly** 24-1401

**Concurrent Requisite** CINE 131 Editing I Studio

**Minimum Credits 3 Maximum Credits 3**

## CINE 131 Editing I Studio

This course is required concurrently with Editing I. Students develop basic skill in the use of a digital editing platform in completing the Editing I course exercises, as well as investigating current technical developments and digital workflow concepts. Content is presented through demonstrations, tutorials and hands-on practice using visual and audio media. Students receive ongoing critique, quizzes and one-to-one problem solving to determine their proficiency and advancement in the use of the platform.

**Repeatable:** *N*

**Formerly** 24-1401B

**Concurrent Requisite** CINE 130 Editing I

**Minimum Credits 1 Maximum Credits 1**

## **CINE 211 Post-Production Audio I**

Entry-level Sound for Cinema course offers instruction and exploration into the methodology and skills training of sound design and mixing for cinema. Course includes an introduction to the Digital Audio Workstation for sound editing, enhancement and manipulation, and re-recording mixing of the various categories of cinema sound. Students work on a variety of cinema sound projects that mirror professional practice and foster development of the necessary skills to proceed through the Sound for Cinema pathway.

**Repeatable:** *N*

**Formerly** 24-2101

**Prerequisites** CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production or JOUR 351 Multimedia Photo Essay

**Minimum Credits 4 Maximum Credits 4**

## **CINE 230 Editing II**

Hands-on course helps students continue to develop the necessary skills to become professional editors. Editing projects are increasingly more complex, concluding with finishing a short film. Communicating and collaborating with a director is emphasized. Students use professional state-of-the-art non-linear digital editing equipment and receive ongoing critiques of their work to determine their proficiency of craft and creativity. Understanding NLE workflow from capturing footage through exporting the final project is emphasized.

**Repeatable:** *N*

**Formerly** 24-2402

**Prerequisites** CINE 130 Editing I and CINE 131 Editing I Lab

**Concurrent Requisite** CINE 231 Editing II Studio

**Minimum Credits 3 Maximum Credits 3**

## **CINE 231 Editing II Studio**

This course must be taken concurrently with Editing II. Students develop advanced editing skills using a state-of-the-art digital editing platform. Skill development includes: editing techniques, sound design, color correction, simple compositing, and exporting to successfully complete the Editing II course projects. Content is presented through demonstrations, tutorials and hands-on practice. Ongoing critique and one-on-one problem solving are offered to determine proficiency and advancement in use of the platform.

**Repeatable:** *N*

**Formerly** 24-2402B

**Prerequisites** CINE 130 Editing I

**Concurrent Requisite** CINE 230 Editing II  
**Minimum Credits 1 Maximum Credits 1**

*Complete 3 credits from the following courses:*

### **CINE 181A Studies in Editing**

This repeatable course consists of rotating subjects of interest to the developing editor or filmmakers who wants to explore particular aspects of editing and postproduction in depth. Classes include lectures, film clips, written papers and/or exercises. Students choose to register for the subjects that best address their interests and needs.

**Repeatable:** Y  
**Formerly** CINE 181  
**Minimum Credits 1 Maximum Credits 1**

### **CINE 181B Studies in Editing**

This repeatable course consists of rotating subjects of interest to the developing editor or filmmakers who wants to explore particular aspects of editing and postproduction in depth. Classes include lectures, film clips, written papers and/or exercises. Students choose to register for the subjects that best address their interests and needs.

**Repeatable:** Y  
**Minimum Credits 1 Maximum Credits 1**

### **CINE 181C Studies in Editing**

This repeatable course consists of rotating subjects of interest to the developing editor or filmmakers who wants to explore particular aspects of editing and postproduction in depth. Classes include lectures, film clips, written papers and/or exercises. Students choose to register for the subjects that best address their interests and needs.

**Repeatable:** Y  
**Minimum Credits 1 Maximum Credits 1**

### **CINE 181D Studies in Editing**

This repeatable course consists of rotating subjects of interest to the developing editor or filmmakers who wants to explore particular aspects of editing and postproduction in depth. Classes include lectures, film clips, written papers and/or exercises. Students choose to register for the subjects that best address their interests and needs.

**Repeatable:** Y  
**Minimum Credits 1 Maximum Credits 1**

### **CINE 181E Studies in Editing**

This repeatable course consists of rotating subjects of interest to the developing editor or filmmakers who wants to explore particular aspects of editing and postproduction in depth. Classes include lectures, film clips, written papers and/or exercises. Students choose to register for the subjects that best address their interests and needs.

interests and needs.

**Repeatable:** Y

**Minimum Credits 1 Maximum Credits 1**

### **CINE 332 Editing the Short Form**

Students edit commercials, trailers, music videos and other promotional short form content under tight deadlines while learning skills relevant to editing spots in a professional environment.

**Repeatable:** N

**Formerly** 24-3404

**Prerequisites** CINE 230 Editing II

**Minimum Credits 3 Maximum Credits 3**

### **CINE 334 Experimental Editing**

Through a series of exercises, course teaches alternative editing strategies for both narrative and non-narrative work. Students cut three short projects based on each covered experimental tradition and then a longer final project. Projects develop with increasing complexity and enable students to apply their ideas about experimental film to their material to develop their own style and aesthetic. Students receive critiques of their work after each project to determine the progress of their proficiency of craft and creativity.

**Repeatable:** N

**Formerly** 24-3429

**Prerequisites** CINE 130 Editing I

**Minimum Credits 3 Maximum Credits 3**

### **CINE 335 Editing the Documentary**

This course provides documentary editing experience and creative collaborations on original work developed by students in the documentary production classes. Pre-production planning, on set workflow issues and handling large amounts of media in the edit room are discussed from the post-production perspective. Students will add original creative work for their editing reels from the projects completed in this class.

**Repeatable:** Y

**Formerly** CINE 228

**Prerequisites** CINE 130 Editing I or CINE 265 Documentary Production I or CINE 267 Documentary Production Module I: Location Camera and Sound or TELE 230 Production and Editing I

**Minimum Credits 4 Maximum Credits 4**

### **CINE 410 Advanced Editing Seminar**

This intensive course provides an opportunity for editing students to collaborate on original creative work by advanced direction, thesis and independent projects, in a seminar environment. Deadlines are strictly enforced as editors collaborate with students in other areas of expertise in creating a short digital narrative project. Students also develop an extensive written career plan to showcase their creative work and important portfolio materials such as website, editing samples, resume, cover letters, and business cards.

**Repeatable:** Y

**Formerly** 24-4406

**Prerequisites** CINE 230 Editing II  
**Requirements** Permission Required (DP)  
**Minimum Credits 4 Maximum Credits 4**

*Complete 3 credits from the following courses:*

### **ANIM 161 CVFX Foundations**

This course introduces students to core methodologies and practices for creating, constructing and producing key visual effects sequences for live-action cinema. Students will learn a cross-section of visual effect approaches developing their knowledge and practical application of these technologies in supporting live-action cinema. This survey primer on core methodologies allows students to organize, plan and execute required cinema visual effects developing interpersonal and practical skill sets.

**Repeatable:** N  
**Formerly** 24-1600  
**Minimum Credits 3 Maximum Credits 3**

### **ANIM 263 CVFX: Compositing I**

Lectures and demonstrations, with supporting materials, along with weekly exercises to reinforce the ideas and principles put forth in these presentations, will guide students toward a solid fundamental understanding of the visual effects postproduction process via the compositing workflow. Students will be given the opportunity to show what they have learned by executing a basic final project at the end of the semester, with a subsequent critique by the class and individually with the instructor.

**Repeatable:** N  
**Formerly** 24-2209  
**Minimum Credits 3 Maximum Credits 3**

### **ANIM 270 Motion Graphics I**

Course teaches techniques to digitally integrate software and composite layers of images. Discussions of digital and optical effects from conception to design encourage students to make creative use of software.

**Repeatable:** N  
**Formerly** 24-1420  
**Prerequisites** INMD 120 Digital Image Design or GRDE 136 Design Lab or TELE 230 Production & Editing I or PHOT 202 Photographic Practice III or PHOT 206 Digital Imaging I or CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process  
**Minimum Credits 3 Maximum Credits 3**

### **ANIM 361 CVFX: Studio**

In this workshop, students will serve as visual effects artists or supervisors on one or more significant short films, in collaboration with students from other disciplines. Emphasis is on the realization of visual elements used in the films, as well as the artistic relationship between the visual effects supervisor, director, and visual effects artists. Students will take on specific roles in visual effects post-production, including compositing, 3D modeling, animation, cinema title design, and VFX supervisor. Each student will be assigned to their role based on prerequisites and a portfolio review.

**Repeatable:** Y

**Formerly** 24-3020

**Prerequisites** ANIM 363 CVFX: Compositing II or ANIM 365 Computer Animation: Visual Effects or ANIM 350 Computer Animation: Keyframing II or ANIM 353 Motion Capture II or ANIM 370 Motion Graphics II or ANIM 351 Environmental Design & Modeling or ANIM 352 Character Design and Modeling

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

## **CINE 223 Cinema Color I**

Students acquire a working knowledge of the aesthetics and technical aspects of the color correction process. Content addresses theory and application of color correction, image control and manipulation techniques. Principles and history of color theory and the tools available to filmmakers are explored through lecture, interactive computer exercises, and hands-on work with current professional color correction software.

**Repeatable:** N

**Formerly** 24-2208

**Prerequisites** CINE 130 Editing I or CINE 216 Image Design for Cinema

**Minimum Credits 3 Maximum Credits 3**

## **CINE 226 Digital Workflow**

This repeatable course consists of rotating subjects supporting the creative workflow of digital cinema. This course would be of interest to developing editors, cinematographers, post-production supervisors, VFX supervisors or anyone else seeking fluency in the contemporary digital landscape. Classes may include lectures, demonstrations, site visits and/or practice.

**Repeatable:** Y

**Formerly** 24-2404

**Prerequisites** CINE 130 Editing I

**Minimum Credits 1 Maximum Credits 1**

## **CINE 227 Advanced Post-Production Tools**

This repeatable course consists of rotating subjects which support students to advance and deepen their skills in the tools used in editing and post-production workflows. Students will learn through lectures, demonstrations and exercises as they deepen and apply their skills in editing and post-production.

**Repeatable:** Y

**Formerly** 24-2406

**Prerequisites** CINE 130 Editing I

**Minimum Credits 3 Maximum Credits 3**

## **CINE 229 The Assistant Editor**

This course examines the role of the feature film assistant editor past, present and future, with a focus on providing hands-on experience using traditional and current skills associated with this position. In addition to exploring the responsibilities associated with the preparation and organization of digital elements students will conform a short film from a digital edit as a basis of understanding the evolution of current post-production processes

**Repeatable:** N

**Formerly** 24-2425

**Prerequisites** CINE 130 Editing I

**Minimum Credits** 3 **Maximum Credits** 3

## **CINE 232 Post-Production Supervisor**

Course is designed for the advanced editing student who is working as a post-production producer. Content emphasizes pre-production decisions necessary for post-production: scheduling, budgeting, hiring personnel and allocating facilities and equipment. Class explores various national and international distribution requirements. Students learn strategies for communicating with third-party vendors including sound, labs, and post-production houses. Course uses a feature length film as model.

**Repeatable:** N

**Formerly** 24-2427

**Prerequisites** CINE 130 Editing I and CINE 131 Editing I Studio

**Minimum Credits** 3 **Maximum Credits** 3

## **CINE 311 Post-Production Audio II**

Course explores the post-production techniques used in creating effective audio for cinema. Students develop aesthetic judgment by analyzing a variety of soundtracks and develop technical skills, including track building, ADR, Foley, and mixing, by employing these techniques in the design and creation of their own soundtracks.

**Repeatable:** N

**Formerly** 24-2102

**Prerequisites** AUDI 324 Audio for Visual Media I or CINE 211 Post-Production Audio I

**Minimum Credits** 4 **Maximum Credits** 4

## **CINE 414 Digital Cinema Mastering**

Course provides an advanced editing experience in three areas: developing skills necessary to manipulate large amounts of cinema source material; acquiring the means to apply those skills while working with clients; and using nonlinear editing and color correction equipment to complete assigned online editing and cinema mastering projects. Students also learn organizational skills necessary to edit projects and gain advanced knowledge of post-production protocols in offline editing and the generation of EDLs and KeyKode cutlists, video online editing and digital cinema mastering. Students work on advanced cinema and high definition projects on industry leading nonlinear editing and color correction software. Digital Intermediates and Digital Cinema Packages will also be covered. Students receive critiques of their work after each project to determine the development of their proficiency of craft and creativity. Course culminates in the finishing of a cinema project from an off-line creative edit to a digital cinema master.

**Repeatable:** Y

**Formerly** 24-4428

**Prerequisites** CINE 230 Editing II

**Minimum Credits** 4 **Maximum Credits** 4

*Complete 16 credits from the following courses:*

## **ANIM 180 Studies In:**

Rotating CVFX Topic course dedicated to specific areas of study within the cinema visual effects discipline.

**Repeatable:** Y

**Formerly** 24-1025

**Minimum Credits 1 Maximum Credits 1**

### **ANIM 363 CVFX: Compositing II**

This course teaches students the various analogue and digital techniques of compositing film elements of diverse origin, from film, electronic imaging systems, and computer-generated images, through lecture, demonstration, and hands-on practice.

**Repeatable:** N

**Formerly** 24-3209

**Prerequisites** ANIM 263 CVFX: Compositing I or ANIM 370 Motion Graphics II

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 370 Motion Graphics II**

Course teaches complex film and video compositing under tight deadlines using advanced high-end systems. Course emphasizes storyboarding and design as well as postproduction house protocols.

**Repeatable:** N

**Formerly** 24-2421

**Prerequisites** ANIM 270 Motion Graphics I or CINE 310 Cinema Models and Miniatures

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 470 Motion Graphics III**

Students in this course complete a series of projects modeled upon current professional practices while refining design and research skills. Student projects include a team-based client work, an independent textual interpretation or research-inspired animation, and additional short animations. The team-based projects will include interaction with the client/s. Research, ideation, prototyping, production and evaluation will be a collective and collaborative process. Students develop a portfolio-based web site that includes video samples, a personal statement and resume.

**Repeatable:** Y

**Formerly** 24-4422

**Prerequisites** ANIM 370 Motion Graphics II or ANIM 240 Computer Animation

**Minimum Credits 3 Maximum Credits 3**

### **CINE 135 Photoshop Workshop for Editors**

Intensive two-day seminar course in Photoshop assists editing students in video finishing. Photoshop can be used as a tool for graphics production for film and video. Students will learn titling, alpha channels, mattes, etc.

**Repeatable:** N

**Formerly** 24-1426

**Minimum Credits 1 Maximum Credits 1**

## **CINE 214 Music for Cinema**

Students are introduced to the language of cinema and how composers and music supervisors serve the needs of the frame while exploring the functions of the score and music licensing. Textural conceptualization and technology expanding emotional resonance are examined. Understanding the vocabulary of music, contemporary targeting issues impacting tone, voicing, spotting and the business of synchronization to picture are a vital component. Students develop musical application skills using analysis and creative projects to foster and enhance their understanding.

**Repeatable:** N

**Formerly** 24-2104

**Prerequisites** CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production

**Minimum Credits** 3 **Maximum Credits** 3

## **CINE 224 Color Correction for Editors**

Course is designed for any Cinema or Television student with specific value for the editor. Students acquire a working knowledge of aesthetics and the technical aspects of color correction as it applies to the editing environment. Course involves lecture and practical experience. Students may bring an existing project to work with during the workshop part of the class, or exercises will be provided for them.

**Repeatable:** N

**Formerly** 24-2206J

**Prerequisites** CINE 230 Editing II

**Minimum Credits** 2 **Maximum Credits** 2

## **CINE 318 The Art and Craft of Foley**

This workshop course offers hands-on projects designed to prepare students to cue, perform, and edit Foley tracks as needed for cinema, animation, television, and games. Small class projects will include studio time for performing footsteps, props, and cloth for Foley. Final projects will require the cueing, shooting, and editing of Foley on student projects.

**Repeatable:** Y

**Formerly** 24-2106

**Prerequisites** CINE 311 Post-Production Audio II

**Minimum Credits** 2 **Maximum Credits** 2

## **CINE 319 The Art and Craft of Automated Dialogue Replacement**

This workshop course offers hands-on projects designed to prepare students to cue, perform, and edit Automated Dialogue Replacement tracks as needed for cinema, animation, television, and games. Small class projects will include studio time for recording principal performers and group ADR. Final projects will require the cueing, shooting, and editing of ADR on student projects.

**Repeatable:** Y

**Formerly** 24-2107

**Prerequisites** CINE 311 Post-Production Audio II

**Minimum Credits** 2 **Maximum Credits** 2

## **CINE 323 Cinema Color II**

This course expands upon concepts taught in Cinema Color I by providing students with training in the theory and techniques of digital transfer and digital intermediates. Students apply their knowledge of the technical aspects and aesthetics of the celluloid-based film transfers and digital manipulation. Principles of color theory and the tools available to filmmakers engaged in the process of electronic media and image manipulation are explored through lecture and interactive computer exercises.

**Repeatable:** *N*

**Formerly** 24-3208

**Prerequisites** CINE 223 Cinema Color I

**Minimum Credits** 3 **Maximum Credits** 3

### **CINE 327 Digital Imaging Technician and On-Set Post-Production**

This is an intermediate-to-advanced, highly technical course in the use of on-set data management. Students will learn the responsibilities of a Digital Imaging Technician (DIT) and will gain experience working on-set for advanced productions. As a member of the Camera Department, students will practice the critical role of interfacing between the production and post teams. A basic understanding of advanced camera systems, data management or color grading is required.

**Repeatable:** *Y*

**Formerly** 24-3211

**Prerequisites** CINE 230 Editing II or CINE 315 Cinematography: Camera Seminar II

**Minimum Credits** 3 **Maximum Credits** 3

### **CINE 411 Post-Production Audio III**

Advanced level Sound for Cinema course designed to further student's insight and experience into the art of preparing, mixing and re-recording sound tracks for cinema. Students work in collaborative environment to complete class projects that mirror professional industry cinema sound practice. Skills training and learning outcomes offered in this class represent the capstone in the Sound for Cinema pathway.

**Repeatable:** *Y*

**Formerly** 24-3122

**Prerequisites** CINE 311 Post-Production Audio II

**Minimum Credits** 4 **Maximum Credits** 4

### **CINE 415 Sound Mixing for Cinema**

Sound Mixing For Cinema explores the advanced processes used to create effective state-of-the-art cinema sound mixes. In this intensive, hands-on studio course, students will study the latest trends in soundtrack aesthetics & rerecording technology and employ these techniques in mixing soundtracks for a variety of cinema genres & media.

**Repeatable:** *N*

**Formerly** 24-3126

**Prerequisites** CINE 311 Post-Production Audio II

**Minimum Credits** 4 **Maximum Credits** 4

### **COLL 210 Internship**

This course allows students to take a valuable internship experience in their desired industry for academic credit. Each position is vetted and approved by Career Center to ensure that it is an educational opportunity.

that will fulfill the learning objectives of the course. Participating in an internship allows the student to gain hands-on experience and explore career interests while applying knowledge and skills learned in the classroom to a work setting. The experience also helps students gain a clearer sense of what they still need to learn and provides an opportunity to build professional networks. Students are responsible for securing their own internships and having them approved prior to registering for this course. Please contact the Career Center for assistance and resources.

**Repeatable:** Y

**Formerly** 99-2100

**Requirements** Permission Required (DP)

**Minimum Credits 1 Maximum Credits 1**

## **COLL 230 Internship: Professionalism and Creativity**

This course allows students to take a valuable internship experience in their desired industry for academic credit. Each position is vetted and approved by Career Center to ensure that it is an educational opportunity that will fulfill the learning objectives of the course. Participating in an internship allows students to gain hands-on experience and explore career interests while applying knowledge and skills learned in the classroom to a work setting. The online, academic component of this internship fosters student understanding of how organizations operate and provides for structured reflection on their experiences and assessment of their knowledge and skills. Students are responsible for securing their own internships and should contact Career Center for assistance and resources to identify and apply for opportunities of interest.

**Repeatable:** Y

**Formerly** 99-2300

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

## **Producing**

The curriculum balances creativity with business acumen and production management skills. The learning culminates in a thesis consisting of a finished short film, a slate of feature films ready for the marketplace. As a result of successfully completing program requirements, students should be able to:

- research and write project-based investment proposals;
- write story notes, script coverage and edit notes at an industry entry-level. Define the key differences between a Creative Producer and a Line Producer/UPM;
- use industry-standard software to create professional production budgets and schedules;
- create producer-driven paperwork and documentation such as Call Sheets and Production Reports;
- manage a crew in all phases of film and television production from development through to exhibition;
- negotiate and execute deal memos relating to cast and crew, and define the role of unions and representation in these processes;
- articulate and pitch projects;
- research, make offers and secure the involvement of principle actors for film and television projects;
- develop short and feature-length projects in collaboration with a creative partner, as well as secure the legal rights;
- articulate trends in distribution and customary acquisition (deal) terms; and
- create a project-based plan including key art, festival and distribution strategies, cast and crew bio's, press and promotions.

**Required for the Concentration:**

**CINE 248 Producing I: Production Team**

Course explores the production team and the role of the line producer, unit production manager, production manager, and assistant directors in managing the physical production process of producing a film. This process will include budgeting and scheduling, and managing cast, crew and vendor relationships. Additional team members are examined, including the roles of the casting director, location manager, production coordinator, and script supervisor. The post-production supervisor position is discussed including post-production scheduling, budgeting, and meeting delivery requirements for distribution and film festivals.

**Repeatable:** *N*

**Formerly** 24-2600

**Prerequisites** MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production or CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process

**Minimum Credits 3 Maximum Credits 3**

**CINE 261 Intro to Producing the Commercial**

Course provides an introduction to the role of a commercial producer focusing on the advertising industry, the agencies, the creatives, bidding, as well as the physical/ logistical elements of producing commercials including scheduling, budgeting, crewing up, casting, working with vendors, for stage and location shooting. Course will cover a wide range of short-form content including commercials, corporate videos, to new media content.

**Repeatable:** *N*

**Formerly** 24-3615

**Prerequisites** CINE 248 Producing I: Production Team or TELE 210 The Television Producer

**Minimum Credits 3 Maximum Credits 3**

**CINE 348 Producing II: Legal and Financial Options**

Taking a pragmatic view of the evolving film industry, course examines the basic process of financing film and video projects including research and analysis and associated procedures to procure production financing. Course also explores the bundle of rights associated with filmmaking including the role of the chain of title and the protocol of negotiating corresponding multi-platform distribution deals. A thorough examination of cast and crew dealmaking, contracts relating to locations, vendors, and other production affiliates is discussed.

**Repeatable:** *N*

**Formerly** 24-3607

**Prerequisites** CINE 248 Producing I: Production Team

**Minimum Credits 3 Maximum Credits 3**

**CINE 349 Producing III: The Creative Producer**

Course examines the role and functions of the creative producer throughout the life cycle of a film. The creative producer is the person who acquires intellectual property, develops it, packages it, finds financing, and hires and supervise the entirety of the cast and crew from pre-production through distribution. Course will balance classroom lectures with practical exercises in advanced filmmaking.

**Repeatable:** *N*

**Formerly** 24-3609

**Prerequisites** CINE 248 Producing I: Production Team

**Minimum Credits** 3 **Maximum Credits** 3

## **CINE 368 The Line Producer Workshop**

This course provides the Line Producing student with the unique opportunity to produce an advanced student short film. This course teaches Line Producers how to produce a short film by assembling all of the preparation elements needed for filming and then for the day-to-day operation of the shooting set/principal photography. The course explores a Line Producer's objective of maintaining financial responsibility while providing the production and Creative Producer with everything needed to put the Director's vision on film. Their duties are supervisory, organizational, administrative and multifarious. The Line Producing student will be working within the structure that is governed by budgets, union and schedules, attend to cast, contract with vendors, hire crew, create detailed reports of each day's events and are looked to by cast and crew to problem solve on a moment to moment notice before and during production.

**Repeatable:** Y

**Formerly** 24-3635

**Prerequisites** CINE 248 Producing I: Production Team

**Minimum Credits** 6 **Maximum Credits** 6

## **CINE 424 Strategic Distribution for Filmmakers**

This course focuses on the practical step-by-step process of creating and implementing strategies to launch short-form content into current distribution and festival venues. Having a good film is not enough; a producer must identify specific elements in the film across a myriad of different and evolving technology and trend-driven platforms, as well as be able to effectively secure distribution.

**Repeatable:** N

**Formerly** 24-4660

**Prerequisites** CINE 248 Producing I: Production Team or CINE 225 Cinema Directing I

**Minimum Credits** 3 **Maximum Credits** 3

*Complete 18 credits from the following courses:*

## **CINE 249 Introduction to Script Supervising**

Course focuses on the role of the script supervisor, a film profession responsible for maintaining script continuity, working with the director to ensure that scenes are completely covered, and preparing daily notes for the editor and post-supervisor. Course will also cover the script supervisor as a critical crew position and will enhance students' understanding of the multitude of details that must be addressed in production and the resulting impact on post-production through the creation and dissemination of associated on-set documentation and the management of continuity protocol.

**Repeatable:** Y

**Formerly** 24-2600J

**Minimum Credits** 2 **Maximum Credits** 2

## **CINE 345 Advanced Casting Director**

Course will focus on the casting director's role as a facilitator of (and creative collaborator) in casting for filmed entertainment. This instruction will entail the full range of affairs between casting director and director

during the auditioning phase and a comprehensive look at hiring actors, contract negotiations, actor representation, and the Screen Actors Guild.

**Repeatable:** Y

**Formerly** 24-3601

**Prerequisites** CINE 104 Fundamentals of Casting

**Minimum Credits** 3 **Maximum Credits** 3

### **CINE 364 The Assistant Director's Workshop**

Course teaches assistant directors how to run a set by assembling all of the elements needed for filming and for the daily operation of the shooting set. Through lecture, exercises, and on-set experience, this course explores an assistant director's objective of providing the director with everything needed to put the director's vision on film. Their duties are supervisory, organizational, administrative - and multifarious. Working within the structure that is governed by budgets, union and guild contracts, industry custom, and so on, they make schedules, attend to the cast, direct extras, oversee the crew as each shot is prepared, create detailed reports of each day's events, and are looked to by cast and crew to solve many problems that arise in student productions.

**Repeatable:** N

**Formerly** 24-3624

**Prerequisites** CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production

**Minimum Credits** 3 **Maximum Credits** 3

### **CINE 369 Producing the Commercial**

Course introduces the role of the producer in development, production, postproduction, and delivery of commercials. Instruction emphasizes standard practices in production company operations. Students learn how to read storyboards and scripts and understand strategic marketing plans through practical applications. Students will bid, schedule, and execute a commercial production.

**Repeatable:** N

**Formerly** 24-3637

**Prerequisites** CINE 261 Intro to Producing the Commercial

**Minimum Credits** 3 **Maximum Credits** 3

### **CINE 376 Script Rewrite and Polish**

Advanced collaborative workshop course asks students to focus on the subtleties associated with production rewriting from sculpting dialogue, polishing characters to defining the role of theme in the short film arena. Juxtaposed with these creative affairs, students will be introduced to business practices associated with doing rewrite work, including work for hire scenarios. Material for the class must be approved by instructors and Practicum faculty before being admitted into the class

**Repeatable:** N

**Formerly** 24-3701J

**Prerequisites** CINE 349 Producing III: The Creative Producer or CINE 245 Screenwriting II: The Feature Film

**Minimum Credits** 2 **Maximum Credits** 2

### **CINE 409 Pitching Hollywood: Los Angeles**

The most important part of any successful career is the ability to present ideas clearly. This course will examine how entertainment professionals pitch their stories, and provide students with tools to present their own creative work. Students will engage in repetitive pitching of various types and lengths before an audience.

**Repeatable:** N

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

## **CINE 416 Advanced First Assistant Director**

Course would focus on applied advanced first assistant director skills, including short and feature film scheduling, calling roll on-set, collaborating with the director and other key crew during production, working in both union and non-union settings, and wrangling associated production documentation.

**Repeatable:** Y

**Formerly** 24-4615

**Prerequisites** CINE 364 The Assistant Director's Workshop

**Minimum Credits 3 Maximum Credits 3**

## **Production Design**

The Production Design concentration offers students the opportunity to develop the creative and problem solving skills necessary for professional level design of sets, props, and special effects as well as the collaborative skills necessary to work with directors, cinematographers, and producers. As a result of successfully completing program requirements, students will be able to:

- formulate and conceive a visual concept to support the theme of the film or television story as interpreted by the director;
- demonstrate a body of working knowledge in the history of art-forms relevant to Production Design (e.g., Architecture, Fashion, Interior Design, Industrial Design);
- communicate a concept visually to collaborators through concept art and storyboards;
- communicate a concept visually through technical draftings done traditionally and with CAD;
- assemble and manage an art department, both creatively and logistically, from preproduction through production;
- develop and manage an art department budget;
- implement a design through the construction and/or acquisition of the set decoration, props, and costumes;
- implement a design through the construction and decoration of a set or modified location; and
- collaborate and communicate with directors, producers, and cinematographers in all phases of film and television production from development through production.

**Required for the Concentration:**

## **CINE 107 Production Design I**

Course provides an overview of production design for the visual media by exploring the history and theory of production design, as well as the application of art, design, and architecture to moving image storytelling. Students examine and critique case studies. Instruction covers the process of script analysis and breakdowns to budgeting for the art department. The roles and procedures of the art department will be introduced. Basics of architectural drafting and simple drawing will be covered. Students will be required to serve in the art department of an advanced film production.

**Repeatable:** N

**Formerly** 24-1015

**Minimum Credits 3 Maximum Credits 3**

## **CINE 110 History and Techniques of Production Design**

The men and women who have become Production Designers have arrived from many different backgrounds. Production Designers strive to create a visual language that encompasses and defines the world we see in film. What techniques have designers developed and how have they evolved since cinemas early beginnings in the silent era, through the studio system, and into the digital age? By exploring the evolution of the profession, as well as the evolution of film both in Hollywood and the wider world, this course will provide historical context for the Production Designer.

**Repeatable:** N

**Formerly** 24-1016

**Minimum Credits 3 Maximum Credits 3**

## **CINE 205 Cinema Props**

Course emphasizes the safety, construction, and planning skills necessary to design, estimate, and construct three dimensional specialty props, models and miniatures for cinema. Emphasis is on the collaborative skills of transforming images from a designer's sketches and concept art to working drawings and full three dimensional construction props. Techniques include carving, molding, casting, as well as scaling of paint and dress techniques for miniatures.

**Repeatable:** N

**Formerly** 24-2011

**Prerequisites** CINE 105 Production Design Fabrication Basics and CINE 107 Production Design I

**Minimum Credits 3 Maximum Credits 3**

## **CINE 208 Cinema Set Design and Construction**

This course introduces the planning and fabrication skills necessary to design, estimate, and safely construct motion picture sets. Students will learn the basics of hand-drawn drafting to create working drawings and cost estimating for budget creation. Students will collaborate on in-class projects, gaining hands-on experience in construction techniques, shop safety, and the uses of common construction materials as they relate to set construction.

**Repeatable:** Y

**Formerly** 24-2013

**Prerequisites** CINE 105 Production Design Fabrication Basics and CINE 107 Production Design I

**Minimum Credits 4 Maximum Credits 4**

## **CINE 209 Production Design Rendering Techniques**

Production Design for cinema requires precise visual communication between all departments. This course emphasizes the rendering and drafting techniques necessary to create useful and believable previsualization images of sets, props, keyframes, and storyboards. Focus will be on utilizing elements and principles of design to compose drawings based on observation, understanding and utilizing perspective, and applying shading techniques and lighting.

**Repeatable:** Y

**Formerly** 24-2014

**Prerequisites** ARTS 110 Drawing I and CINE 107 Production Design I

**Minimum Credits 3 Maximum Credits 3**

## **CINE 307 Production Design II**

Building on the concepts introduced in Production Design I, this course expands on the foundation of the student as designer with an emphasis on the development of the visual concept and collaboration with a director and cinematographer. New material includes the creative and technical aspects of the art department as they relate to physical production and location modification. Course covers the traditional skills of sketching, drafting, and concept art and explains how they are used to communicate a designer's vision to production crews. Students will be required to collaborate with peers on an advanced production.

**Repeatable:** N

**Formerly** 24-2010

**Prerequisites** CINE 107 Production Design I

**Minimum Credits 3 Maximum Credits 3**

## **CINE 365 Set Decoration**

Building on the concepts introduced in Production Design 1, course emphasizes the development and fulfillment of a film's visual theme through set decoration. Course will include the creative and practical aspects of the Art Department as they relate to Set Decorating.

**Repeatable:** N

**Formerly** 24-2012

**Prerequisites** CINE 107 Production Design I

**Minimum Credits 3 Maximum Credits 3**

## **ILLU 203 Illustration: Concept Art I**

This course examines the sketching process, using research to solve problems and various types of media to create clear and effective visual presentations.

**Repeatable:** N

**Formerly** 21-2401

**Prerequisites** ANIM 105 Introduction to Traditional Animation or ARTS 105 Foundation Studio or ARTS 110 Drawing I or GAME 205 2D Art for Games or ILLU 101 Introduction to Illustration

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

*Complete 13 credits from the following courses:*

## **ARTS 110 Drawing I**

This course teaches students how to represent accurately and proportionately objects, planes, and volumes through line and tone by developing hand-to-eye coordination. Basics of form development, 1, 2 and 3 point perspective, composition, texture, and modeling through various shading techniques are explored in various exercises augmented by critiques, slide lectures, and discussions.

**Repeatable:** N

**Formerly** ARTS 210

**Minimum Credits 3 Maximum Credits 3**

### **CINE 113 Cinema Makeup and Makeup Special Effects**

The goal of this course is to give a broad overview of the responsibilities of the makeup artist on a film or television production and to show how makeup interacts with other departments. The class will also cover specific techniques and tools used in creating makeup looks for cinema, including historical period styles, aging, light special effects and gore. Students will learn how to create a budget, a character proposal, and to work with other members of a production team.

**Repeatable:** *N*

**Formerly** 24-1017

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 216 Image Design for Cinema**

In this course students will examine the design of images and their critical role in how filmmakers communicate story. Through lectures, practical assignments and critique, students refine their ability to use visual components to see, conceive and communicate most effectively. This course bridges the gap between theory and practice and highlights the relationship between story structure and visual structure.

**Repeatable:** *N*

**Formerly** 24-2201

**Prerequisites** CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production

**Minimum Credits 3 Maximum Credits 3**

### **CINE 310 Cinema Models and Miniatures**

Course emphasizes the design and technical ability needed to create miniatures and models for cinema. Film examples will be analyzed for scale, medium, and style. Students will be introduced to physical modeling and sculpting techniques, media, scale, and architectural terms and concepts. Beginning from sketches and draftings, students will design and build miniature objects, environments, and characters utilizing a variety of materials.

**Repeatable:** *Y*

**Formerly** 24-2015

**Prerequisites** CINE 107 Production Design I and CINE 208 Cinema Set Design and Construction or CINE 205 Cinema Props

**Minimum Credits 3 Maximum Credits 3**

### **CINE 466 Production Design: Special Effects**

This course introduces students to the design and execution of safe practical special effects for cinema. Students will develop and design effects taking advantage of camera, frame, object, and space manipulation. Students will combine techniques and technology such as forced perspective, mechanical movements, electric motors, actuators and electronics to create safe and effective illusions for the screen. Students will study professional effects and will collaborate on a final project to be captured on film or video.

**Repeatable:** *N*

**Formerly** 24-3006

**Prerequisites** CINE 208 Cinema Set Design and Construction or CINE 205 Cinema Props

**Minimum Credits** 4 **Maximum Credits** 4

## **ILLU 314 Digital Illustration I**

This course helps students begin to master digital painting, drawing, and image processing techniques to extend and augment their skills and techniques with traditional media and methods. Students work with the latest painting and drawing software that digitally mimics traditional tools such as watercolor, oil paint, airbrush, and charcoal. Students also explore methods such as brush effects, compositing, masking, and collage as a resource for initiating, developing, and refining illustration concepts.

**Repeatable:** N

**Formerly** 21-3403

**Prerequisites** ILLU 214 Illustration Studio I

**Minimum Credits** 3 **Maximum Credits** 3

## **THEA 135 Introduction to Basic Makeup**

This short course covers a brief introduction to the most common makeup applications known as the "no-makeup look" & "Corrective" techniques. Focus is geared towards skin care & appropriate color choices to match &/or enhance the student's skin tone & appearance. Introductory vocabulary & Designer/Performer communications; materials appreciation & acquisition; & painting/contouring skills will be covered through discussion, demonstrations, & hands-on experience. This course will introduce the performer, budding designer &/or hobbyist alike to feel comfortable utilizing these simplified techniques as needed. For more in-depth makeup techniques/designs, consider one of other course offerings.

**Repeatable:** N

**Formerly** 31-1605

**Minimum Credits** 1 **Maximum Credits** 1

## **THEA 335 Makeup Prosthetics/FX Design**

This repeatable course expands and builds upon previous Makeup, Prosthetics, and FX courses, teaching Theatre, Film, TV, and Avant Garde techniques for the creation, application and removal of prosthetics. Instruction covers the vocabulary, skills, techniques, and safety protocols required for the use of a variety of materials including Latex, Foam, and Silicone. Research, design, casting, sculpting, molding, and painting of prosthetics are incorporated into full makeup projects, both individual and collaborative. Makeup will be self-applied or applied to peers or models.

**Repeatable:** Y

**Formerly** 31-3605

**Prerequisites** THEA 133A Makeup Techniques: or THEA 235 Makeup Design or CINE 113 Cinema Makeup and Makeup Special Effects

**Minimum Credits** 3 **Maximum Credits** 3

## **Screenwriting**

The concentration offers students the opportunity to develop the understanding and skills to translate stories into both cinematic and emotional experiences for the audience. As a result of successfully completing program requirements, students should be able to:

- develop both short scripts and features. Write scripts for either themselves or others to direct;
- generate, develop, implement and revise story ideas into screenplay format;
- critique the work of their peers both orally and in writing and apply it to their own revision process;
- collaborate and communicate effectively;
- develop short and feature length projects in collaboration with a creative partner;
- negotiate and execute an option agreement including a writing services component to the agreement; and
- produce "Production Ready" scripts based on creative producer and instructor notes throughout the development process.

**Required for the Concentration:**

## **CINE 140 Script Analysis for Cinema**

This course provides students with an opportunity to learn more about various concentrations by examining the methods by which professionals approach, break down, or prepare a script for filming. Students analyze various drafts of scripts from several feature length and shorter films. Beginning with story analysis, class analyzes scripts in relationship to producing, directing, acting, production design, cinematography, editing, and sound design. Script strengths and weaknesses are discussed in relation to each of the production areas. Course material links with material from each of the major concentration areas in Cinema.

**Repeatable:** *N*

**Formerly** 24-1700

**Prerequisites** ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits** 3 **Maximum Credits** 3

## **CINE 145 Screenwriting I: Writing the Short Film**

Course is a workshop that explores basic methods of writing for cinema which further develop the students' skills in presenting their ideas in written form. Students will develop craft skills basic to cinema writing: research, story development, scene structure, dialogue, and character definition. Emphasis is on finding visual equivalents for human emotions and on developing the writer's individual personal vision. This work culminates in the development and revision of two short narrative scripts. Instrumental in the development of the student as a writer is the ability to read, and effectively critique, the work of their peers.

**Repeatable:** *N*

**Formerly** 24-1710

**Prerequisites** ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or ENGL 109 Writing and Rhetoric I Stretch B or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits** 3 **Maximum Credits** 3

## **CINE 245 Screenwriting II: The Feature Film**

Course teaches students to produce longer and more complex screenplays; facilitates a deeper understanding of the screenwriting process; and enables students to develop character, story, and linear structure. Students master systematic work habits in order to fully develop the screenplay, from initial idea to completed script. Course also provides students with the opportunity for consistent critique of their screenwriting.

**Repeatable:** N

**Formerly** 24-2710

**Prerequisites** CINE 145 Screenwriting I: Writing the Short Film or TELE 212 Television Arts: Writing

**Minimum Credits 3 Maximum Credits 3**

### **CINE 253 Adaptation**

Course examines problems, obstacles, and reconstruction principles inherent in adapting a literary work for the screen. Content focuses primarily on the kinds of short work attractive to low-budget filmmakers and works possible within the Columbia production program.

**Repeatable:** N

**Formerly** 24-2715

**Prerequisites** CINE 145 Screenwriting I: Writing the Short Film or TELE 212 Television Arts: Writing

**Minimum Credits 3 Maximum Credits 3**

### **CINE 260 Screen Treatment & Presentation**

Course develops students' skills in presenting their film ideas orally and in written treatment format. Course builds on concepts learned in Screenwriting I and Screenwriting II. Students master techniques to improve their oral pitching skills, learn how to write a query letter, and explore ways to improve their storytelling ideas. Course emphasizes rewriting and developing skills to sell screenplays.

**Repeatable:** N

**Formerly** 24-2740

**Prerequisites** CINE 245 Screenwriting II: The Feature Film or CINE 140 Script Analysis for Cinema

**Minimum Credits 3 Maximum Credits 3**

### **CINE 378 Ideation & Theme: Portfolio Review**

Course provides an opportunity for screenwriting students to revisit work completed throughout their tenure in the screenwriting program. Students critique their previous work in an effort to understand their themes and styles, their strengths and weaknesses, and their development as a writer. This examination assists students in setting professional goals as screenwriters, whether that includes working in Hollywood or the independent scene.

**Repeatable:** N

**Formerly** 24-3750

**Prerequisites** CINE 245 Screenwriting II: The Feature Film and CINE 253 Adaptation and CINE 260 Screen Treatment & Presentation

**Minimum Credits 3 Maximum Credits 3**

### **CINE 428 The Business of Screenwriting**

Course instructs students how the inner workings of the film industry directly affect their ambitions as screenwriters. They will understand that there is much more to being a screenwriter than writing the script alone. Course will give the students a working knowledge of finding an agent, researching producers for their material, dealing with studios, understanding different types of contracts, copyright law and the Writers Guild of America. Students will also have a chance to take their scripts through a professional submission process to the agent or production company of their choice.

**Repeatable:** Y

**Formerly** 24-4742

**Prerequisites** CINE 245 Screenwriting II: The Feature Film and CINE 140 Script Analysis for Cinema

**Minimum Credits 3 Maximum Credits 3**

Electives

*Complete 15 credits of electives, with a minimum of 3 credits per elective group:*

### **CRWR 132 Story in Fiction and Film: International**

Course critically explores the elements of fiction writing as they are translated to film with an emphasis on foreign and international stories: voice, point of view, dialogue, scene, structure, and other fictional forms. Fiction has been an important source for cinematic storytelling since its earliest incarnations. Students will view films, read fictional excerpts, discuss techniques, and hear speakers, studying how these elements can be used to heighten their own stories. Course will be helpful for students interested in studying fiction, film, and other arts and media disciplines.

**Repeatable:** *N*

**Formerly** 59-1406

**GA**

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 150 Fiction Workshop: Beginning**

Course is the first one in the core sequence. Students move at their own pace in developing perceptual, technical, and imaginative abilities in fiction writing. No prerequisites, though either Foundations in Creative Writing or Writing and Rhetoric I are helpful.

**Repeatable:** *N*

**Formerly** 59-1201

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 155 Poetry Workshop: Beginning**

Through in-class writing exercises, reading of model poems, and discussion of student work, this course encourages students to produce poetry of increasing quality.

**Repeatable:** *N*

**Formerly** 59-1500

**Minimum Credits 3 Maximum Credits 3**

### **GAME 105 Game Culture**

Course explores the increasing popularity of games within today's culture, which necessitates analysis of how games are impacted by social and ideological forces and influence them in turn. Questions like Why do we play and How do we play differently are explored, with many others, as students are guided through topics such as role-playing and identity, ethics, group behavior, competition, gender, race, and aesthetics in modern (and historical) games.

**Repeatable:** *N*

**Formerly** 36-1100

**Prerequisites** ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

### **INMD 110 Interactive Culture**

Through discussion, lecture, and critique, this course develops critical thinking skills and the student's ability to apply media theory to media design. Students learn how interactivity plays an increasingly important role in our world by exposure to leading designers, artists, thinkers, authors, and critics throughout the history of media.

**Repeatable:** *N*

**Formerly** 36-1000

**Prerequisites** ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

### **INMD 240 Story Development for Interactive Media**

The increasing impact of interaction on the narrative (stories) told in today and tomorrow's educational and entertainment media requires a different perspective on story development. This class begins with an overview of the area and its history from the writer's perspective, and then moves on to review and analyze common interactive structures and narrative requirements. Students are also exposed to the basic types of interactive narrative and media being created today, and conceptualize and develop their own interactive narrative projects.

**Repeatable:** *N*

**Formerly** GAME 260

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **RADI 205 Writing for Radio**

This introductory course covers the basic style, format, and techniques used in various forms of creative writing specific to radio broadcasting and audio media, including content for the Internet and mobile-devices. Students write for several genres, including commercials, public service announcements, commentary, news, documentary, and essay. Emphasis is placed on the specific techniques employed in writing for the ear.

**Repeatable:** *N*

**Formerly** 41-2107

**Prerequisites** ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

### **TELE 110 The History of Television**

Cultural history course examines not only the chronological development of television as a technology and an industry, but also explores also how television has become a part of our histories and, indeed, how TV has shaped history and our sense of it. Television is a primary source for the transmission of information, politics, entertainment, and our collective and dispersed cultures in the United States, surpassing even film and newspaper because of its combined accessibility and visual appeals. Since its arrival on the scene at the World's Fair of 1939, TV has been the site through which we engage with any number of issues and events--from the most intimate to the most broadly social.

**Repeatable:** *N*

**Formerly** 40-1101

**DEI**

**Minimum Credits 3 Maximum Credits 3**

## **TELE 112 Aesthetics and Storytelling**

In this course, students will explore the formal elements of television that are used to express meaning, evoke emotion, and shape the vision they wish to communicate. The student will learn the basics of researching, writing, planning, and visualizing stories for the screen. They will also analyze various television program examples, learning to deconstruct the ways that television tells stories.

**Repeatable:** *N*

**Formerly** 40-1103

**Minimum Credits 3 Maximum Credits 3**

## **TELE 212 Television Arts: Writing**

Building on concepts and techniques introduced in Aesthetics and Storytelling, course allows students to explore basic methods of television writing for scripted and non-scripted formats. Students will develop craft skills basic to television writing: research, story structure, dialogue, and character development, all of which will prepare them for writing scenes and short scripts. Course will not only prepare the student to write full length scripts but will also help them grow as artists, learning to tell stories in a unique and personally meaningful way.

**Repeatable:** *N*

**Formerly** 40-2100

**Prerequisites** ENGL 111 Writing and Rhetoric I and MEDI 101 Cinematic Storytelling or ENGL 111H Writing and Rhetoric I: Honors and MEDI 101 Cinematic Storytelling or ENGL 121 International Writing and Rhetoric I and MEDI 101 Cinematic Storytelling or ENGL 111 Writing and Rhetoric I and CINE 102 Cinema Notebooks or ENGL 111H Writing and Rhetoric I: Honors and CINE 102 Cinema Notebooks or ENGL 121 International Writing and Rhetoric I and CINE 102 Cinema Notebooks or ENGL 111 Writing and Rhetoric I and TELE 112 Aesthetics and Storytelling or ENGL 111H Writing and Rhetoric I: Honors and TELE 112 Aesthetics and Storytelling or ENGL 121 International Writing and Rhetoric I and TELE 112 Aesthetics and Storytelling or ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II or MEDI 101 Cinematic Storytelling and TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7 or CINE 102 Cinema Notebooks and TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7 or TELE 112 Aesthetics and Storytelling and TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

## **TELE 310 Writing for Television**

Scriptwriting course is for students who already have a basic understanding of story structure, dialog, and character development. In this class the student will learn to write full-length television scripts and will study the structure and conventions of writing the sitcom, sketch comedy, and hour-long dramatic scripts. Student work will be read aloud and workshopped, step by step, in a traditional writers table' story conference procedure. Each student will leave the course with at least one full-length, polished script from one of the featured genres.

**Repeatable:** N

**Formerly** 40-3202

**Prerequisites** TELE 212 Television Arts: Writing or CINE 145 Screenwriting I: Writing the Short Film

**Minimum Credits** 3 **Maximum Credits** 3

### **TELE 318 Writing the Situation Comedy**

Advanced level scriptwriting course teaches the skills needed to write the most popular form in television today, the situation comedy. The class will require the students to write two half-hour comedies, one based on an existing prime-time television series, the other based on an original pilot concept. The scripts will be read and reviewed, step by step, in a classic writer's table story conference procedure. In addition, there will be lectures on the writing of both the established sitcom as well as the original pilot episode.

**Repeatable:** Y

**Formerly** 40-3221

**Prerequisites** TELE 310 Writing for Television or CINE 145 Screenwriting I: Writing the Short Film

**Minimum Credits** 3 **Maximum Credits** 3

### **TELE 320 Critical Television Theory and Analysis**

This course seeks to master methods of analysis and theory commonly utilized in Television Studies: historic and industrial, auteurism and genre, semiotics and psychoanalysis, postmodernism, feminist, critical race, discourse, and audience reception. In students' aspirations to become professionals in the field of television, understanding how TV operates culturally and socially in a sophisticated manner will ultimately make them better creative artists, producers, managers, screenwriters, etc.

**Repeatable:** Y

**Formerly** 40-3212

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits** 3 **Maximum Credits** 3

### **TELE 327 Writing for Television Genre**

Course is an advanced level writing class with much time devoted to the development of analytic skills. The class will be broken up into two parts. The first will be an investigation of a variety of analytic methods. The second half will be spent examining a variety of genres and writing a series of outlines and script excerpts. The topics would include action/adventure, melodrama, drama, comedy, mystery, and science fiction. Each would be examined with examples drawn from both current and past television programming. The class would conclude with the completion of a full-length script.

**Repeatable:** N

**Formerly** 40-3231

**Prerequisites** TELE 310 Writing for Television or CINE 145 Screenwriting I: Writing the Short Film  
**Minimum Credits 3 Maximum Credits 3**

### **TELE 333 Writing for Internet and Mobile TV**

This course will focus on telling one story using multiple creative and distribution platforms. The primary or origin form will be a scripted multiple episode dramatic or comedic web series. Each series will also have 3 extension platforms: social media and open source creative platforms that will tell a different part of the story. Students will pitch, develop, write and using a smart-phone, laptop or tablet will create 'in character' extension content on YouTube, Facebook, Instagram, Tumblr, Bitmoji, etc. The final project will consist of a completed 6-9 episode written web series with transmedia extension content for a deeper exploration of character and story.

**Repeatable:** N

**Formerly** 40-3237

**Prerequisites** TELE 212 Television Arts: Writing or TELE 310 Writing for Television or CINE 145 Screenwriting I: Writing the Short Film

**Minimum Credits 3 Maximum Credits 3**

### **TELE 440A Writing the Television Pilot:**

Writing the Television Pilot: is an advanced level writing class devoted to the development and writing of a TV pilot script(s). The first part of the class will be spent examining the unique qualities and responsibilities of a TV pilot: to introduce plot, story, character, relationships and mystery. The second half of the class will be spent pitching ideas, developing, work shopping, and table reading multiple drafts the student's original pilot script. The class would conclude with the completion of a full-length pilot script(s). This is a rotating subject course.

**Repeatable:** Y

**Formerly** TELE 440

**Minimum Credits 3 Maximum Credits 3**

### **THEA 168 Playwriting I**

This course is an introduction to the basic techniques of playwriting from concept to completion. Students will learn basic play structuring, character development, conflict heightening, play synopsis, and script formatting while writing scenes, ten-minute plays, and one-act plays which are all read aloud as table-readings in class.

**Repeatable:** N

**Formerly** 31-2800

**Minimum Credits 3 Maximum Credits 3**

*Complete 3 to 6 credits from the following courses:*

### **ANIM 105 Introduction to Traditional Animation**

This course is an introduction to basic animation principles for students with little or no animation production experience. Students explore basic animation techniques including object, hand-drawn, stop-motion, and alternative animation styles. Animated films, both domestic and international, are screened and discussed. Students complete short exercises in each of the techniques mentioned and complete a final project

employing a style of their choice that was previous explored during the semester.

**Repeatable:** *N*

**Formerly** 26-1000

**Minimum Credits 3 Maximum Credits 3**

## **CINE 107 Production Design I**

Course provides an overview of production design for the visual media by exploring the history and theory of production design, as well as the application of art, design, and architecture to moving image storytelling. Students examine and critique case studies. Instruction covers the process of script analysis and breakdowns to budgeting for the art department. The roles and procedures of the art department will be introduced. Basics of architectural drafting and simple drawing will be covered. Students will be required to serve in the art department of an advanced film production.

**Repeatable:** *N*

**Formerly** 24-1015

**Minimum Credits 3 Maximum Credits 3**

## **CINE 118 Introduction to Sound for Cinema and Television**

This introductory course covers theory and aesthetics of sound as it is used in cinema and television, emphasizing visual storytelling through audio.

**Repeatable:** *N*

**Formerly** 24-1100

**Minimum Credits 1 Maximum Credits 1**

## **CINE 121 Lighting I**

Course introduces the physics of motion picture lighting for students with little or no lighting experience. Students become familiar with important safety procedures and the use of standard lighting equipment. Special attention is given to important light measuring techniques using incident light meters and spot meters, quality of light and lighting ratios. Course encourages intelligent, thoughtful approaches to the aesthetics of lighting.

**Repeatable:** *N*

**Formerly** 24-1200

**Prerequisites** CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production

**Minimum Credits 4 Maximum Credits 4**

## **CINE 128 Acting and Directing Workshop**

Course is designed to introduce fundamentals of the actor's craft to directing students. Students learn various acting techniques and apply them to basic directing methods. The relationship between actor, text, and director is emphasized through analysis, rehearsal, and scene work. Intended outcome is an understanding of the actor's process and the collaboration and communication necessary between actors and directors.

**Repeatable:** *N*

**Formerly** 24-1300

**Prerequisites** CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production  
**Minimum Credits 3 Maximum Credits 3**

## **CINE 130 Editing I**

Course helps students develop the basic non-linear editing skills needed to tell stories effectively through screenings, practical hands-on assignments, using NLE editing software, readings, and lectures. Organizational skills needed to handle NLE offline digital video and audio materials are covered. Editing exercises consist of various editing genres, using scenes from longer works. Students receive ongoing critiques of their work to determine their proficiency of craft and creativity.

**Repeatable:** *N*

**Formerly** 24-1401

**Concurrent Requisite** CINE 131 Editing I Studio

**Minimum Credits 3 Maximum Credits 3**

## **CINE 131 Editing I Studio**

This course is required concurrently with Editing I. Students develop basic skill in the use of a digital editing platform in completing the Editing I course exercises, as well as investigating current technical developments and digital workflow concepts. Content is presented through demonstrations, tutorials and hands-on practice using visual and audio media. Students receive ongoing critique, quizzes and one-to-one problem solving to determine their proficiency and advancement in the use of the platform.

**Repeatable:** *N*

**Formerly** 24-1401B

**Concurrent Requisite** CINE 130 Editing I

**Minimum Credits 1 Maximum Credits 1**

## **CINE 148 Introduction to Documentary**

Students will examine in-depth the methods by which non-fiction filmmakers develop, produce and distribute documentary films. Through a series of screenings, lectures, critiques and class discussions, a variety of long- and short-form documentary projects will be analyzed by students in relationship to: story, research, producing, directing, cinematography, editing, sound design, history, aesthetics, ethics and distribution. The class will link with material from each concentration area in Cinema and Television Arts - but through the prism of non-fiction filmmaking.

**Repeatable:** *N*

**Formerly** 24-1801

**Prerequisites** MEDI 101 Cinematic Storytelling or ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

## **CINE 225 Cinema Directing I**

Course builds upon the relationship between actor, text, and director and expands to include camera blocking, basic scene coverage, additional rehearsal techniques, and effective critiquing skills. Emphasis is on the development of director's breakdowns, pre-visualization, set-etiquette, and fundamental collaboration with key department heads. Scene work culminates with the blocking and staging of a cinematic narrative

scene.

**Repeatable:** *N*

### **CINE 239D New Perspectives on Cinema Studies**

This one-credit course examines historical and cultural issues in cinema not usually discussed in a fifteen week course. Topics may include specific genres, national cinemas, representations of gender and sexuality, non-narrative cinema, or the aesthetic impact of technological innovations. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help engage them actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 1 Maximum Credits 1**

### **CINE 239E New Perspectives on Cinema Studies**

This one-credit course examines historical and cultural issues in cinema not usually discussed in a fifteen week course. Topics may include specific genres, national cinemas, representations of gender and sexuality, non-narrative cinema, or the aesthetic impact of technological innovations. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help engage them actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 1 Maximum Credits 1**

### **CINE 240A Cinema and Global Media Culture**

This course examines the impact of global media culture on cinema history and aesthetics. Topics may include cinematic adaptations of video games, graphic novels, or television series, as well as an analysis of how distribution models and international film festivals help determine cinematic form and audience reception. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help them engage actively with the topics.

**Repeatable:** Y

**Formerly** CINE 240

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 240B Cinema and Global Media Culture**

This course examines the impact of global media culture on cinema history and aesthetics. Topics may include cinematic adaptations of video games, graphic novels, or television series, as well as an analysis of how distribution models and international film festivals help determine cinematic form and audience reception. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help them engage actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 240C Cinema and Global Media Culture**

This course examines the impact of global media culture on cinema history and aesthetics. Topics may include cinematic adaptations of video games, graphic novels, or television series, as well as an analysis of how distribution models and international film festivals help determine cinematic form and audience reception. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help them engage actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 240D Cinema and Global Media Culture**

This course examines the impact of global media culture on cinema history and aesthetics. Topics may include cinematic adaptations of video games, graphic novels, or television series, as well as an analysis of how distribution models and international film festivals help determine cinematic form and audience reception. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help them engage actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 240E Cinema and Global Media Culture**

This course examines the impact of global media culture on cinema history and aesthetics. Topics may include cinematic adaptations of video games, graphic novels, or television series, as well as an analysis of how distribution models and international film festivals help determine cinematic form and audience reception. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help them engage actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 241A New Trends in Global Cinema**

This one-credit course examines the impact of global media culture on cinema history and aesthetics in the form of topics not usually discussed in a fifteen week course. Topics may include cinematic adaptations of video games, graphic novels, or television series, as well as an examination of how distribution models and international film festivals help determine cinematic form and audience reception. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help engage them actively with the topics.

**Repeatable:** Y

**Formerly** CINE 241

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 1 Maximum Credits 1**

### **CINE 241B New Trends in Global Cinema**

This one-credit course examines the impact of global media culture on cinema history and aesthetics in the form of topics not usually discussed in a fifteen week course. Topics may include cinematic adaptations of video games, graphic novels, or television series, as well as an examination of how distribution models and international film festivals help determine cinematic form and audience reception. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help engage them actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 1 Maximum Credits 1**

### **CINE 241C New Trends in Global Cinema**

This one-credit course examines the impact of global media culture on cinema history and aesthetics in the form of topics not usually discussed in a fifteen week course. Topics may include cinematic adaptations of video games, graphic novels, or television series, as well as an examination of how distribution models and international film festivals help determine cinematic form and audience reception. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help engage them actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 1 Maximum Credits 1**

### **CINE 241D New Trends in Global Cinema**

This one-credit course examines the impact of global media culture on cinema history and aesthetics in the form of topics not usually discussed in a fifteen week course. Topics may include cinematic adaptations of video games, graphic novels, or television series, as well as an examination of how distribution models and international film festivals help determine cinematic form and audience reception. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help engage them actively with the topics.

online research activities to help engage them actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 1 Maximum Credits 1**

### **CINE 241E New Trends in Global Cinema**

This one-credit course examines the impact of global media culture on cinema history and aesthetics in the form of topics not usually discussed in a fifteen week course. Topics may include cinematic adaptations of video games, graphic novels, or television series, as well as an examination of how distribution models and international film festivals help determine cinematic form and audience reception. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help engage them actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 1 Maximum Credits 1**

### **CINE 248 Producing I: Production Team**

Course explores the production team and the role of the line producer, unit production manager, production manager, and assistant directors in managing the physical production process of producing a film. This process will include budgeting and scheduling, and managing cast, crew and vendor relationships. Additional team members are examined, including the roles of the casting director, location manager, production coordinator, and script supervisor. The post-production supervisor position is discussed including post-production scheduling, budgeting, and meeting delivery requirements for distribution and film festivals.

**Repeatable:** N

**Formerly** 24-2600

**Prerequisites** MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production or CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process

**Minimum Credits 3 Maximum Credits 3**

### **CINE 266 Documentary Storytelling**

Course begins with an overview of the relationships between story and discourse in narrative storytelling. This includes narrative voice and perspective, the temporal and spatial arrangements of events and mutual influences between plot and character. Once fundamental principles are established, the focus shifts specifically to documentary. By studying excerpts from existing works, students develop an understanding of narrative approaches to documentary and apply that knowledge to a personal project they wish to develop.

**Repeatable:** N

**Formerly** 24-2807

**Prerequisites** CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or CINE 267 Documentary Production Module I: Location Camera and Sound or CINE 264 Documentary Production Module II: The Interview or CINE 269 Documentary Production III: Intermediate Field Production or MEDI 101 Cinematic Storytelling

**Minimum Credits 3 Maximum Credits 3**

### **CINE 275 Experimental Production I**

Project-centered course engages students in non-narrative, alternative aspects of video and digital production. Students develop an aesthetic that explores, challenges, extends, or subverts mainstream narrative or documentary structures. Topics include camera experimentation and image manipulation; development of personal, political, or social themes; and distribution and marketing of experimental work.

**Repeatable:** N

**Formerly** 24-2901

**Prerequisites** CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production

**Minimum Credits 3 Maximum Credits 3**

### **MEDI 310 Transmedia Analysis: Games, Film and Television**

Modern storytelling is not constrained to one medium. This course provides students with an opportunity to learn about the ways in which core narrative properties can be adapted to various media, specifically narrative games, television, and film. Through selected case studies, students will analyze the ways in which core narrative properties are defined, adapted, and transformed across media. This class is a prerequisite for the Semester in LA/Transmedia Production: Games, Film, and Television course.

**Repeatable:** N

**Formerly** 24-3001

**Prerequisites** INMD 240 Story Development for Interactive Media or CINE 245 Screenwriting II: The Feature Film or TELE 310 Writing for Television

**Minimum Credits 3 Maximum Credits 3**

*Complete 3 to 6 credits from the following courses:*

### **CINE 355A Screenwriting Workshops:**

Course is designed to help the students write better and more effective scripts. Students will learn a variety of approaches and techniques. This is a repeatable course with rotating topics, which in the past have included co-writing and experimental screenwriting.

**Repeatable:** Y

**Formerly** CINE 355

**Prerequisites** CINE 245 Screenwriting II: The Feature Film and CINE 140 Script Analysis for Cinema

**Minimum Credits 3 Maximum Credits 3**

### **CINE 355B Screenwriting Workshops:**

Course is designed to help the students write better and more effective scripts. Students will learn a variety of approaches and techniques. This is a repeatable course with rotating topics, which in the past have included co-writing and experimental screenwriting.

**Repeatable:** Y

**Prerequisites** CINE 245 Screenwriting II: The Feature Film and CINE 140 Script Analysis for Cinema

**Minimum Credits 3 Maximum Credits 3**

### **CINE 355C Screenwriting Workshops:**

Course is designed to help the students write better and more effective scripts. Students will learn a variety of approaches and techniques. This is a repeatable course with rotating topics, which in the past have

included co-writing and experimental screenwriting.

**Repeatable:** Y

**Prerequisites** CINE 245 Screenwriting II: The Feature Film and CINE 140 Script Analysis for Cinema

**Minimum Credits 3 Maximum Credits 3**

### **CINE 355D Screenwriting Workshops:**

Course is designed to help the students write better and more effective scripts. Students will learn a variety of approaches and techniques. This is a repeatable course with rotating topics, which in the past have included co-writing and experimental screenwriting.

**Repeatable:** Y

**Prerequisites** CINE 245 Screenwriting II: The Feature Film and CINE 140 Script Analysis for Cinema

**Minimum Credits 3 Maximum Credits 3**

### **CINE 355E Screenwriting Workshops:**

Course is designed to help the students write better and more effective scripts. Students will learn a variety of approaches and techniques. This is a repeatable course with rotating topics, which in the past have included co-writing and experimental screenwriting.

**Repeatable:** Y

**Prerequisites** CINE 245 Screenwriting II: The Feature Film and CINE 140 Script Analysis for Cinema

**Minimum Credits 3 Maximum Credits 3**

### **CINE 373 Comparative Screenwriting:**

This is a repeatable, rotating subjects course that provides students with an extensive examination of the screenwriter's role, career, development, and relationship to the production process. These objectives are achieved by comparing and contrasting screenplays and/or screenwriters that are related in a significant way.

**Repeatable:** Y

**Formerly** 24-3720

**Prerequisites** CINE 140 Script Analysis for Cinema and CINE 145 Screenwriting I: Writing the Short Film

**Minimum Credits 3 Maximum Credits 3**

### **CINE 374A Genres in Screenwriting:**

Course examines a specific genre and provides an opportunity to develop and write a feature screenplay based upon elements of the genre, but reflective of the student's personal themes, as well. This is a repeatable, rotating subjects course wherein the genre rotates from semester to semester.

**Repeatable:** Y

**Formerly** CINE 374

**Prerequisites** CINE 245 Screenwriting II: The Feature Film

**Minimum Credits 3 Maximum Credits 3**

### **CINE 374B Genres in Screenwriting:**

Course examines a specific genre and provides an opportunity to develop and write a feature screenplay based upon elements of the genre, but reflective of the student's personal themes, as well. This is a repeatable, rotating subjects course wherein the genre rotates from semester to semester.

**Repeatable:** Y

**Prerequisites** CINE 245 Screenwriting II: The Feature Film

**Minimum Credits 3 Maximum Credits 3**

### **CINE 374C Genres in Screenwriting:**

Course examines a specific genre and provides an opportunity to develop and write a feature screenplay based upon elements of the genre, but reflective of the student's personal themes, as well. This is a repeatable, rotating subjects course wherein the genre rotates from semester to semester.

**Repeatable:** Y

**Prerequisites** CINE 245 Screenwriting II: The Feature Film

**Minimum Credits 3 Maximum Credits 3**

### **CINE 374D Genres in Screenwriting:**

Course examines a specific genre and provides an opportunity to develop and write a feature screenplay based upon elements of the genre, but reflective of the student's personal themes, as well. This is a repeatable, rotating subjects course wherein the genre rotates from semester to semester.

**Repeatable:** Y

**Prerequisites** CINE 245 Screenwriting II: The Feature Film

**Minimum Credits 3 Maximum Credits 3**

### **CINE 374E Genres in Screenwriting:**

Course examines a specific genre and provides an opportunity to develop and write a feature screenplay based upon elements of the genre, but reflective of the student's personal themes, as well. This is a repeatable, rotating subjects course wherein the genre rotates from semester to semester.

**Repeatable:** Y

**Prerequisites** CINE 245 Screenwriting II: The Feature Film

**Minimum Credits 3 Maximum Credits 3**

### **CINE 376 Script Rewrite and Polish**

Advanced collaborative workshop course asks students to focus on the subtleties associated with production rewriting from sculpting dialogue, polishing characters to defining the role of theme in the short film arena. Juxtaposed with these creative affairs, students will be introduced to business practices associated with doing rewrite work, including work for hire scenarios. Material for the class must be approved by instructors and Practicum faculty before being admitted into the class

**Repeatable:** N

**Formerly** 24-3701J

**Prerequisites** CINE 349 Producing III: The Creative Producer or CINE 245 Screenwriting II: The Feature Film

**Minimum Credits 2 Maximum Credits 2**

### **CINE 380A Studies in Screenwriting:**

This repeatable course consists of subjects of interest to the developing screenwriter. Previous courses have focused on myths and dreams, experimental scriptwriting, business aspects of screenwriting, and historical research. This is a rotating subjects course.

**Repeatable:** Y

**Formerly** CINE 380

**Prerequisites** CINE 145 Screenwriting I: Writing the Short Film

**Minimum Credits 3 Maximum Credits 3**

### **CINE 380B Studies in Screenwriting:**

This repeatable course consists of subjects of interest to the developing screenwriter. Previous courses have focused on myths and dreams, experimental scriptwriting, business aspects of screenwriting, and historical research. This is a rotating subjects course.

**Repeatable:** Y

**Prerequisites** CINE 145 Screenwriting I: Writing the Short Film

**Minimum Credits 3 Maximum Credits 3**

### **CINE 380C Studies in Screenwriting:**

This repeatable course consists of subjects of interest to the developing screenwriter. Previous courses have focused on myths and dreams, experimental scriptwriting, business aspects of screenwriting, and historical research. This is a rotating subjects course.

**Repeatable:** Y

**Prerequisites** CINE 145 Screenwriting I: Writing the Short Film

**Minimum Credits 3 Maximum Credits 3**

### **CINE 380D Studies in Screenwriting:**

This repeatable course consists of subjects of interest to the developing screenwriter. Previous courses have focused on myths and dreams, experimental scriptwriting, business aspects of screenwriting, and historical research. This is a rotating subjects course.

**Repeatable:** Y

**Prerequisites** CINE 145 Screenwriting I: Writing the Short Film

**Minimum Credits 3 Maximum Credits 3**

### **CINE 380E Studies in Screenwriting:**

This repeatable course consists of subjects of interest to the developing screenwriter. Previous courses have focused on myths and dreams, experimental scriptwriting, business aspects of screenwriting, and historical research. This is a rotating subjects course.

**Repeatable:** Y

**Prerequisites** CINE 145 Screenwriting I: Writing the Short Film

**Minimum Credits 3 Maximum Credits 3**

## Sound for Cinema

The concentration prepares students to handle the various audio steps involved in pre-production, production, post-production and the release of the motion picture. As a result of successfully completing program requirements, students should be able to:

- define basic audio concepts and terminology that relate to audio pre-production, production, and digital post-production;
- demonstrate and articulate basic knowledge of the digital post-production process, material preparation, archival processes, and the manipulation of a sound track for a desired effect;
- define audio principles and terminology as they apply to the motion picture;
- demonstrate proficiency in the use of location sound packages;
- demonstrate a proficiency of audio production from pre-planning, communication with crew during production through delivery to Post-production;
- design an effective soundtrack, which enhances the story of a completed project;
- demonstrate the ability to edit and mix dialog, music and sound effects;
- demonstrate the ability to record, edit and mix ADR (replacement audio dialogue) and Foley (replacement audio sound effects);
- demonstrate the ability to collaborate with a director and/or producer and other postproduction personnel to create a complete soundtrack of dialogue, music and special effects suitable for distribution;
- utilize advanced audio mixing hardware and software to create mono, stereo and surround mixes for multiple release media; and
- demonstrate advanced knowledge of the digital production process (material preparation for dialogue, sound effects management, delivery and archival processes, the manipulation of a sound track) with an emphasis on professional best practices.

**Required for the Concentration:**

### **AUDI 102 Introduction to Audio**

This course provides an overview of the world of sound and audio in its various manifestations, including music, communications, sound in linear and non-linear media, sound art, and sonification. It introduces students to basic concepts and terminology related to sound, audio, and audio equipment and systems, but it is not a theory course. Rather, the course examines aspects of our sonic world through the lenses of audio production, live sound reinforcement, and acoustics, constructing a survey of practices and trends, practitioners, and examples; of history, context, and politics; and of art and aesthetics. Along the way it challenges students to examine and open themselves to difference ways of listening. This course is open to all majors.

**Repeatable:** *N*

**Formerly** 43-1111

**Minimum Credits** 3 **Maximum Credits** 3

### **CINE 118 Introduction to Sound for Cinema and Television**

This introductory course covers theory and aesthetics of sound as it is used in cinema and television, emphasizing visual storytelling through audio.

**Repeatable:** *N*

**Formerly** 24-1100

**Minimum Credits** 1 **Maximum Credits** 1

## **CINE 211 Post-Production Audio I**

Entry-level Sound for Cinema course offers instruction and exploration into the methodology and skills training of sound design and mixing for cinema. Course includes an introduction to the Digital Audio Workstation for sound editing, enhancement and manipulation, and re-recording mixing of the various categories of cinema sound. Students work on a variety of cinema sound projects that mirror professional practice and foster development of the necessary skills to proceed through the Sound for Cinema pathway.

**Repeatable:** *N*

**Formerly** 24-2101

**Prerequisites** CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production or JOUR 351 Multimedia Photo Essay

**Minimum Credits 4 Maximum Credits 4**

## **CINE 213 Location Sound Recording I**

Course introduces students to production applications and audio technologies for cinema and television arts. Areas covered include digital recorders, mixers, microphones, signal chain, time-code, metadata, production protocols, and pre-production strategies for cinema and television production.

**Repeatable:** *N*

**Formerly** 24-2103

**Prerequisites** TELE 230 Production and Editing I or CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production

**Minimum Credits 4 Maximum Credits 4**

## **CINE 214 Music for Cinema**

Students are introduced to the language of cinema and how composers and music supervisors serve the needs of the frame while exploring the functions of the score and music licensing. Textural conceptualization and technology expanding emotional resonance are examined. Understanding the vocabulary of music, contemporary targeting issues impacting tone, voicing, spotting and the business of synchronization to picture are a vital component. Students develop musical application skills using analysis and creative projects to foster and enhance their understanding.

**Repeatable:** *N*

**Formerly** 24-2104

**Prerequisites** CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production

**Minimum Credits 3 Maximum Credits 3**

## **CINE 311 Post-Production Audio II**

Course explores the post-production techniques used in creating effective audio for cinema. Students develop aesthetic judgment by analyzing a variety of soundtracks and develop technical skills, including track building, ADR, Foley, and mixing, by employing these techniques in the design and creation of their own soundtracks.

**Repeatable:** *N*

**Formerly** 24-2102

**Prerequisites** AUDI 324 Audio for Visual Media I or CINE 211 Post-Production Audio I

**Minimum Credits 4 Maximum Credits 4**

## **CINE 313 Location Sound Recording II**

This course applies the principles and applications of production sound recording for cinema and television arts by providing sound services for advanced student productions. Under faculty supervision students will examine professional protocols and practical applications of production sound for discussions, exchange of experiences, and problem solving.

**Repeatable:** Y

**Formerly** 24-3101

**Prerequisites** AUDI 122 DAW Production Techniques and Applications or CINE 213 Location Sound Recording I

**Minimum Credits 4 Maximum Credits 4**

## **CINE 318 The Art and Craft of Foley**

This workshop course offers hands-on projects designed to prepare students to cue, perform, and edit Foley tracks as needed for cinema, animation, television, and games. Small class projects will include studio time for performing footsteps, props, and cloth for Foley. Final projects will require the cueing, shooting, and editing of Foley on student projects.

**Repeatable:** Y

**Formerly** 24-2106

**Prerequisites** CINE 311 Post-Production Audio II

**Minimum Credits 2 Maximum Credits 2**

## **CINE 319 The Art and Craft of Automated Dialogue Replacement**

This workshop course offers hands-on projects designed to prepare students to cue, perform, and edit Automated Dialogue Replacement tracks as needed for cinema, animation, television, and games. Small class projects will include studio time for recording principal performers and group ADR. Final projects will require the cueing, shooting, and editing of ADR on student projects.

**Repeatable:** Y

**Formerly** 24-2107

**Prerequisites** CINE 311 Post-Production Audio II

**Minimum Credits 2 Maximum Credits 2**

## **CINE 411 Post-Production Audio III**

Advanced level Sound for Cinema course designed to further student's insight and experience into the art of preparing, mixing and re-recording sound tracks for cinema. Students work in collaborative environment to complete class projects that mirror professional industry cinema sound practice. Skills training and learning outcomes offered in this class represent the capstone in the Sound for Cinema pathway.

**Repeatable:** Y

**Formerly** 24-3122

**Prerequisites** CINE 311 Post-Production Audio II

**Minimum Credits 4 Maximum Credits 4**

## **CINE 415 Sound Mixing for Cinema**

Sound Mixing For Cinema explores the advanced processes used to create effective state-of-the-art cinema sound mixes. In this intensive, hands-on studio course, students will study the latest trends in soundtrack aesthetics & rerecording technology and employ these techniques in mixing soundtracks for a variety of cinema genres & media.

**Repeatable:** *N*

**Formerly** 24-3126

**Prerequisites** CINE 311 Post-Production Audio II

**Minimum Credits** 4 **Maximum Credits** 4

## **Television Writing and Business, BFA**

The BFA in Television Writing and Business addresses the growing need to prepare students for launching and managing entertainment projects while maintaining creative control of their productions. Today's studios, networks, and independent production companies seek creatives with high level writing skills and sound business acumen and entrepreneurial thinking. This program fulfills that need while also teaching students how to create their own opportunities for employment and engagement with the television and digital media industry.

As a result of successfully completing program requirements, students should be able to:

- develop the writing skills that enable the successful development and execution of a television series.
- understand the fundamentals of what is needed to be an Executive Producer;
- understand how to finance and manage creative organizations and professionals;
- apply the creative, technical, and business processes needed to develop and produce content;
- produce, manage, finance, and distribute content across multiple platforms;
- apply critical thinking, problem solving, communication, and entrepreneurial skills to the television industry;
- analyze trends, opportunities, and challenges to compete successfully in a rapidly changing global media environment;
- lead the next generation of creative ventures; and
- launch self-sustaining creative careers.

## **PROGRAM REQUIREMENTS - 71 credits required**

### **BUSE 109 Information Management**

This course provides students with a practical framework for employing essential computer applications in today's business environment. Students apply advanced functions of database, spreadsheet, word processing and presentation software to business analysis and decision-making processes. The skill set pursued in this course is fundamental to effective managerial operations of a variety of arts, entertainment and media businesses and organizations.

**Repeatable:** *N*

**Formerly** 28-1113

**Minimum Credits** 3 **Maximum Credits** 3

## **BUSE 155 Business of Film and TV**

This course studies how the movie business works in today's ever-changing marketplace, concentrating equally on mainstream Hollywood films as well as smaller independent films made outside the studio system. The two businesses co-exist, compete, and sometimes cross over in their attempts for money, starts, distribution deals, movie screens, and audience approval. Course will examine recent mega-mergers in the media world, the type of movies being released, the factors that constitute whether a film is considered a success or failure, and what it takes to compete as a professional working in the very competitive movie industry. Topics will include past events that have shaped today's film business climate, the various methods of film financing, the cost of film distribution, the state of independent film, the operation of movie theaters, and the mysteries of Hollywood accounting. Throughout the course, students will get an inside glimpse into the economic, political, and power structures behind the scenes which help determine that movies get made, distributed, and seen by the public.

**Repeatable:** *N*

**Formerly** 28-1635

**Minimum Credits 3 Maximum Credits 3**

## **BUSE 201 Accounting**

This course is a thorough overview of financial accounting topics for arts, entertainment and media organizations, starting with the accounting cycle for a sole proprietorship and ending with the study of corporations. Clear principles and procedures are used to demonstrate the function of the accounting cycle. The Income Statement, Statement of Equity, Balance Sheet, and Statement of Cash Flow are prepared. The class presents topics that will enhance the student's understanding of the financial statements, including an introduction to ratio analysis.

**Repeatable:** *N*

**Formerly** 28-2110

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **BUSE 205 Law for Creative Industries**

This course enables future artists, managers and entrepreneurs to better understand legal issues in business dealings in creative industries, and to recognize where legal problems may arise. This is accomplished through readings and lectures relating to copyright and other intellectual property rights, contracts, licensing agreements, First Amendment issues, agency agreements, and the formation of partnerships and corporations.

**Repeatable:** *N*

**Formerly** 28-2111

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **BUSE 220 Entertainment Marketing**

This course teaches students to analyze arts, entertainment, media, and fashion organizations within their environmental context to determine how to position them in the marketplace. Students develop an understanding of the consumer and market, choose proper research techniques to solve problems, determine appropriate promotional techniques to develop relationships with customers, and develop a complete and integrated marketing plan for an organization.

**Repeatable:** *N*

**Formerly** 28-1115

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **BUSE 248 Talent Management**

This course examines the crucial role of professional management for all types of artists and entertainers. Instruction focuses on roles of personal manager, booking agent, talent agent, road manager, and company manager. Course explores formation of an agency, development of talent, and special touring considerations.

**Repeatable:** *N*

**Formerly** 28-2430

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **BUSE 275 Self-Management and Freelancing**

This course provides artists of all disciplines with the fundamentals of self-sustaining careers in the arts, entertainment and media. The class equips students with an understanding of the matrix of skills, promotional vehicles, and revenue streams in the arts industries as well as fundamentals of career development and business acumen.

**Repeatable:** *N*

**Formerly** 28-2712

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **BUSE 308 Entrepreneurship**

This class introduces entrepreneurship as a way of thinking and acting that can serve as a springboard for a self-sustaining, creative career. It provides students with insight into how arts, entertainment, and media professionals turn ideas into a business, and how various elements of an organization fit together to become a viable venture, whether in the profit or non-profit world. Through launching their own microbusinesses, students learn to recognize and evaluate opportunities; problem-solve and manage risks; plan and manage time effectively; leverage resources; craft business models; and develop audiences to support their work.

**Repeatable:** *N*

**Formerly** 28-3130

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **BUSE 334 Digital Media Strategies**

This class addresses new and emerging business models and strategies in today's rapidly evolving media industries. Topics include an in depth understanding of social media, online marketing, retail and distribution of digital, audio, and visual content including a la carte download services, subscription, and ad-supported streaming services. Additional topics include e-commerce, web design strategy, mobile retail and promotion, community building, direct to consumer marketing, and a variety of other vital tech-based strategies.

**Repeatable:** *N*

**Formerly** 28-3416

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

### **BUSE 479 Executive Producing for Film and TV: Practicum**

Executive Management for Film and Television gives students the opportunity to develop a financial deal-making strategy for film and television projects. Students will investigate the responsibilities of executives and stakeholders - CFOs, Executive Directors, Executive Producers, Legal Counsel, Financial Advisors, Investors, and Donors - in for-profit and nonprofit companies and learn how they interact in greenlighting a film or TV project. Simulated scenarios in which students assume these executive management roles will allow students to experience what is involved in managing stakeholders, negotiating deals, and structuring the finances for these projects.

**Repeatable:** *N*

**Formerly** 28-4550

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

### **TELE 110 The History of Television**

Cultural history course examines not only the chronological development of television as a technology and an industry, but also explores also how television has become a part of our histories and, indeed, how TV has shaped history and our sense of it. Television is a primary source for the transmission of information, politics, entertainment, and our collective and dispersed cultures in the United States, surpassing even film and newspaper because of its combined accessibility and visual appeals. Since its arrival on the scene at the World's Fair of 1939, TV has been the site through which we engage with any number of issues and events—from the most intimate to the most broadly social.

**Repeatable:** *N*

**Formerly** 40-1101

**DEI**

**Minimum Credits** 3 **Maximum Credits** 3

### **TELE 125 Television Arts: Production**

Introductory class in the art of television production provides an overview, and basic, practical, hands-on experience in all aspects of today's trends in the television industry. Although taught in a studio environment, this course will cover camera operation, sound, lighting, video transitions, and graphics as they relate to all forms of production. The final project for the class is the completion of three full productions created by students in the class.

**Repeatable:** *N*

**Formerly** 40-1302

**Minimum Credits** 3 **Maximum Credits** 3

### **TELE 210 The Television Producer**

Course introduces the student to the duties of the television producer, focusing primarily on the producer's role in creating differing types of programming. We will explore relationships with the production team, the

director, writers, and the studio. Main goals include individual development in areas of problem solving, prioritization, team building, and scheduling for a successful project. The role of the producer in all phases of the production process will be emphasized.

**Repeatable:** *N*

**Formerly** 40-2201

**Prerequisites** TELE 230 Production and Editing I or TELE 125 Television Arts: Production or CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production

**Minimum Credits 3 Maximum Credits 3**

## **TELE 212 Television Arts: Writing**

Building on concepts and techniques introduced in Aesthetics and Storytelling, course allows students to explore basic methods of television writing for scripted and non-scripted formats. Students will develop craft skills basic to television writing: research, story structure, dialogue, and character development, all of which will prepare them for writing scenes and short scripts. Course will not only prepare the student to write full length scripts but will also help them grow as artists, learning to tell stories in a unique and personally meaningful way.

**Repeatable:** *N*

**Formerly** 40-2100

**Minimum Credits 3 Maximum Credits 3**

## **TELE 310 Writing for Television**

Scriptwriting course is for students who already have a basic understanding of story structure, dialog, and character development. In this class the student will learn to write full-length television scripts and will study the structure and conventions of writing the sitcom, sketch comedy, and hour-long dramatic scripts. Student work will be read aloud and workshopped, step by step, in a traditional writers table' story conference procedure. Each student will leave the course with at least one full-length, polished script from one of the featured genres.

**Repeatable:** *N*

**Formerly** 40-3202

**Prerequisites** TELE 212 Television Arts: Writing or CINE 145 Screenwriting I: Writing the Short Film

**Minimum Credits 3 Maximum Credits 3**

## **TELE 328 Television Program Development**

Television Program Development teaches students how to take an idea for a scripted television series and turn it into a fully realized written document (show bible) that focuses on creating a sustainable premise and includes a pilot story, subsequent stories, characters and a vision, which effectively reflect the series' setting, tone, and structure. From this detailed document, students will be able to write a pilot script (in a subsequent class or on their own). Additionally, the class introduces students to the variety of programming needs of broadcast, cable and streaming platforms.

**Repeatable:** *N*

**Formerly** 40-3232

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

*Choose two foundations courses, either MEDI 101 and 102 or TELE 112 and 230:*

## **MEDI 101 Cinematic Storytelling**

This course explores the elements of cinematic storytelling that are used to articulate theme, evoke emotion, and create personal connection with an audience. The student will analyze, research, develop, and visualize cinematic stories for the screen. Aesthetics and storytelling components will be applied in MEDI 102 Cinema and Television Production.

**Repeatable:** *N*

**Concurrent Requisite** MEDI 102 Cinema and Television Production

**Minimum Credits 3 Maximum Credits 3**

## **MEDI 102 Cinema and Television Production**

This hands-on course explores the techniques of cinema and television production as a collaborator on both individual and group projects. The student will practice conceptualization, visualization, cinematography, sound recording, and editing techniques through effective visual and oral presentations. The aesthetic and storytelling principles will be applied from MEDI 101 Cinematic Storytelling.

**Repeatable:** *N*

**Concurrent Requisite** MEDI 101 Cinematic Storytelling

**Minimum Credits 3 Maximum Credits 3**

## **TELE 112 Aesthetics and Storytelling**

In this course, students will explore the formal elements of television that are used to express meaning, evoke emotion, and shape the vision they wish to communicate. The student will learn the basics of researching, writing, planning, and visualizing stories for the screen. They will also analyze various television program examples, learning to deconstruct the ways that television tells stories.

**Repeatable:** *N*

**Formerly** 40-1103

**Minimum Credits 3 Maximum Credits 3**

## **TELE 230 Production and Editing I**

In this course students will develop basic skills in field production and editing. Each student will learn and practice the fundamentals of field production in terms of conceptual development, research and planning, and finally editing and project management. Students will have the opportunity to put into practice the basic rules of visual composition, sequencing and storytelling as learned in prerequisite course, and successfully apply those concepts in this practical hands-on course.

**Repeatable:** *N*

**Formerly** 40-2302

**Prerequisites** TELE 112 Aesthetics and Storytelling or CINE 102 Cinema Notebooks

**Minimum Credits** 3 **Maximum Credits** 3

## Speciality Electives

*Complete 17 credits from the following courses:*

### **BUSE 303 Finance**

Finance is the art and science of managing funds. This course provides an understanding of the financial system, basic financial management techniques, and analyses as applied to the arts, entertainment, and media business environment. Concepts studied include cash flow, ratio analyses, time value of money methodology, capital budgeting, and business ethics. The course introduces students to essential financial management tools used by decision-makers.

**Repeatable:** *N*

**Formerly** 28-3110

**Prerequisites** BUSE 201 Accounting

**Minimum Credits** 3 **Maximum Credits** 3

### **BUSE 368 Leadership**

What is leadership and what does it take to be an effective leader in arts, entertainment, and media today? This course seeks to answer such questions as students study, analyze, and discuss leadership concepts and practices. Students also learn how to lead by evaluating the effectiveness of various leadership styles and through the development, application, and assessment of their own leadership capabilities through group and individual assignments and activities.

**Repeatable:** *N*

**Formerly** 28-3511

### **MEDI 201H Culture, Race and Media: Honors**

Course enables students to analyze subtle and subliminal messages about culture, race, ethnicity, gender, religion, class, and ability as presented to us through the media. The media--television, film, and print--has a pervasive influence upon how we view the world. Through open discussions of differences, research, and stimulating readings, we will learn who we are and why we view things the way we do. Expected outcomes include new insights into media influence and our responsibility as media makers, a research project, and self-examination of personal cultural and racial identity.

This is an Honors class. In addition to other possible pre-requisites, students need a minimum G.P.A. of 3.50 or higher to enroll.

**Repeatable:** N

**Formerly** 40-2803HN

**HU DEI**

**Requirements** Sophomore Standing or Above (SO) and 3.5 or Higher GPA (35GP)

**Minimum Credits 3 Maximum Credits 3**

### **TELE 320 Critical Television Theory and Analysis**

This course seeks to master methods of analysis and theory commonly utilized in Television Studies: historic and industrial, auteurism and genre, semiotics and psychoanalysis, postmodernism, feminist, critical race, discourse, and audience reception. In students' aspirations to become professionals in the field of television, understanding how TV operates culturally and socially in a sophisticated manner will ultimately make them better creative artists, producers, managers, screenwriters, etc.

## **Master of Fine Arts**

### **Cinema and Television Directing, MFA**

The MFA Program in Cinema and Television Directing is dedicated to developing cinema and television storytellers by cultivating the role of the director and fostering the individual director's personal style and voice. Directors need equal mastery of leadership, storytelling, and production skills which our students develop by making several short films in the first year of the program, with series production and their thesis film in the second year. Columbia's MFA Program in Cinema and Television Directing focuses on working collaboratively with producers to create character-driven narratives that are diverse, authentic, invoke the human experience and connect with an audience. Directing students take 9 hours of elective classes and are encouraged to develop marketable skills in their area of interests, such as screenwriting, editing, teaching, script supervising, and more. This program immerses the student in rigorous coursework in

directing, writing, and production as preparation for their short thesis film, which they may complete during or after their coursework. Students complete written long-form projects, either a feature screenplay or a series show bible, and create a career plan to launch themselves professionally after graduation.

As a result of successfully completing program requirements, students should be able to:

- demonstrate character-based narrative skills including: the establishment of motive, dimensionality, importance, risk, conflict, and subtext; use of established filmmaking styles that express these elements; effective utilization of beats in both writing and directing;
- adapt their understanding of the human experience into dramatic material for cinema and television;
- collaborate in meaningful and effective ways with producers, production department heads, other writers and directors, and executives and/or administrators;
- identify and communicate with a chosen audience; and
- develop and articulate a personal vision of cinematic storytelling through collaborative processes.

## PROGRAM REQUIREMENTS - 56 credits required

### **CINE 503 Directing for the Screen I**

With an emphasis on fictional narrative form, the course covers basic skills in the effective communication of ideas through the language of cinema and television. Students learn to develop craft as well as personal voice with the study of the basic relationship between actor, text, and director, the course expands to include staging, rehearsal techniques, and effective critiquing skills. Focus is on the development of hands-on proficiencies in cinema and television production. Students work on their own projects as well as those of their peers.

**Repeatable:** *N*

**Formerly** 24-6361

**Minimum Credits 3 Maximum Credits 3**

### **CINE 507 Screenwriting I**

This course introduces students to techniques for finding story ideas and for developing them in a variety of script formats. It aims to provide approaches to writing screenplays drawing from the writer's own life experiences and direct observations; to facilitate a deeper understanding of the screenwriting process and writing for an audience; to teach students the elements and structure of Western drama as applied to short screenplay form, including character, story/plot and cause/effect structure; to assist in developing systematic work habits to carry the student from conception to idea development through revisions to polishing scenes/scripts; and to provide students with the opportunity for critique of their screenwriting. Students learn to write in treatment form as well as shot outline, split script, and master scene formats.

**Repeatable:** *N*

**Formerly** 24-6713

**Minimum Credits 3 Maximum Credits 3**

### **CINE 509 Editing Theory and Practice**

This course gives directors hands on experience in editing and post-production practices using, in part, projects written and directed in Directing for Character. Emphasizes collaborative strategies across multiple cinematic disciplines and a comprehensive overview of the entire post-production process.

**Repeatable:** *N*

**Formerly** 24-6430

**Minimum Credits 3 Maximum Credits 3**

### **CINE 510 Line Producing**

The course focuses on teaching the student how to navigate through production obstacles commonly associated with line producing or production managing a film. This course teaches basic strategies of how to line produce a short film by assembling the preparation elements needed for filming and then for the day-to-day operation of the set in principal photography. Students will learn how to work within the structure that is governed by budgets, schedules, casting, contracts and crew, etc.

**Repeatable:** *N*

**Formerly** 24-6604A

**Prerequisites** CINE 503 Directing for the Screen I or CINE 506 Acquisition, Development & Presentation

**Minimum Credits 2 Maximum Credits 2**

### **CINE 513 Ideation and Development**

Ideation and Development (MFA) is a course designed to help students approach the creative process in multiple ways and to explore story, character and theme in conjunction with considerations of personal vision and expression. Students develop and research a range of simple ideas and work through the conceptualization and proposal process using various writing and visualization strategies. These film possibilities are filtered in a variety of ways throughout the course. Work completed earlier in the graduate program can be drawn from and work produced in this class is intended to be further developed into Thesis projects.

**Repeatable:** *N*

**Formerly** 24-6700

**Prerequisites** CINE 503 Directing for the Screen I

**Minimum Credits 3 Maximum Credits 3**

### **CINE 521 Constructing the Image**

This course explores and analyzes the visual element and design of the cinematic image. Through lectures, practical assignments, and critiques, students refine their ability to compose and light their project. The class addresses how to translate ideas into images and experiment with varied lighting designs to create compelling images. Lenses, exposure, contrast, camera placement, composition, movement, continuity, and color, as well as working with crew will also be covered.

**Repeatable:** *N*

**Minimum Credits 3 Maximum Credits 3**

### **CINE 541 Sound Acquisition and Design**

This graduate course covers theory and aesthetics of sound as it is used in cinema and television, emphasizing storytelling through audio. Through lectures, demonstrations and exercises, students will learn how to record, edit, design and mix audio, with emphasis on visual media and the relationship of sound to emotion and story.

**Repeatable:** *N*

**Minimum Credits 2 Maximum Credits 2**

### **CINE 542 Media Financing**

In this course, Master of Fine Arts students will learn concepts and strategies for funding narrative films and documentary projects. Focus will be on both independent strategies, and studio / network funding. Crowd funding, grant writing, fiscal sponsorship, and equity funding will be among the topics covered.

**Repeatable:** *N*

**Prerequisites** CINE 508 Business and Legal or CINE 503 Directing for the Screen I

**Minimum Credits 1 Maximum Credits 1**

### **CINE 548 Introduction to Cinema and Television Studies and Theory**

This course is designed to provide graduate students in the Department of Cinema and Television Arts with an introduction to foundational approaches in the study and analysis of film and television, focusing on film and television history and the ways in which creative artists can benefit from understanding the ways in which media scholars discuss film and television. Readings will offer students exposure to classical examinations of both mediums, and the course will provide opportunities for students to apply insights from these scholarly examinations to film and television of their choosing. An additional component of the course invites students to examine film and television theory and analysis through a critical lens, considering how foundational theories and methods are rooted in Western European, male and hetero-centric understandings of film and television.

**Repeatable:** *N*

**Prerequisites** CINE 504 Writing for Producers or CINE 507 Screenwriting I

**Minimum Credits 3 Maximum Credits 3**

### **CINE 601 Advanced Preproduction**

Advanced Preproduction is an online workshop-style course in which Master of Fine Arts students will actively engage in the development and preproduction of their thesis project, creating preparatory materials, detailed plans, and developing strategies to bring them to the shooting stage of the project. Materials developed in this course will be utilized in the creation of the students' greenlight package and thesis project.

**Repeatable:** *N*

**Prerequisites** CINE 512 Story Development or CINE 513 Ideation and Development

**Minimum Credits 1 Maximum Credits 1**

### **CINE 603 Directing for the Screen II**

Building on the foundations of Directing for the Screen I and Screenwriting I, students will develop, cast, rehearse, prepare, shoot, and edit two short narrative films through a series of lectures, written assignments, shooting exercises and training workshops. These classroom experiences are designed to provide the student with a better understanding of the relationship of character to dramatic scene and story, in an effort to become better visual storytellers.

**Repeatable:** *N*

**Formerly** 24-6362

**Prerequisites** CINE 503 Directing for the Screen I

**Minimum Credits 3 Maximum Credits 3**

## **CINE 604 Marketing, Distribution and Exhibition**

The Marketing, Distribution and Exhibition seminar is a course that explores the Marketing, Distribution and Exhibition phase in film, television and related media.

**Repeatable:** *N*

**Formerly** 24-6613

**Prerequisites** CINE 512 Story Development or CINE 681 Thesis Workshop

**Minimum Credits** 3 **Maximum Credits** 3

## **CINE 624 Advanced Post Production Applications**

This advanced post-production course guides the completion for Year 1 projects. Then, using their cumulative knowledge of postproduction and finishing strategies, students will engage in planning and production for their Thesis project with a focus on editing and post production requirements.

**Repeatable:** *N*

**Prerequisites** CINE 509 Editing Theory and Practice or CINE 514 Post-Production

**Minimum Credits** 1 **Maximum Credits** 1

## **CINE 625 Applied Postproduction**

In this course producers and directors apply their knowledge of post-production and finishing strategies to their thesis production or another advanced project. Teams schedule and budget the specific post-production requirements across multiple workflows and platforms and continue to apply professional collaboration as a creative team. Site visits to local post-production facilities are included.

**Repeatable:** *Y*

**Formerly** 24-6618

**Prerequisites** CINE 509 Editing Theory and Practice or CINE 514 Post-Production

**Minimum Credits** 3 **Maximum Credits** 3

## **CINE 632 Writing and Directing the Series**

In this advanced workshop, students will serve as writers and directors for a new fiction series. Students will have the opportunity to experience all phases of production from concept and development through filming and finalizing the program.

**Repeatable:** *N*

**Prerequisites** CINE 513 Ideation and Development

**Minimum Credits** 3 **Maximum Credits** 3

## **CINE 640 Career Management**

Cinema and Television graduate students will prepare for their professional careers after graduation. Students will learn about talent management, LLCs, freelancing, business plans, portfolios, promotional vehicles and revenue streams in motion picture industries.

**Repeatable:** *N*

**Prerequisites** CINE 681 Thesis Workshop

**Minimum Credits** 1 **Maximum Credits** 1

## **CINE 645 Screenwriting II**

This course has been developed to provide graduate students with a variety of experiences designed to hone observation, problem-solving, creativity and writing skills as they apply to developing long-form works, either feature-length screenplays or show bibles for series. The class operates as an intensive workshop. The goal is to help students produce longer and more complex screenplays; to facilitate a deeper understanding of the screenwriting process for both features and series; to assist students in better developing character, story and linear structure; to assist in developing systematic work habits to carry the student from idea development through revisions to completed script; to provide students with the opportunity for critique of their screenwriting.

**Repeatable:** N

**Formerly** 24-6710

**Prerequisites** CINE 507 Screenwriting I

**Minimum Credits 3 Maximum Credits 3**

## **CINE 681 Thesis Workshop**

This is an advanced directing workshop in which students will further develop material generated in Ideation & Theme. Students will explore that material through a series of rehearsals, pre-visualization exercises, exploratory shoots, critique and discussion. These will provide the students with the opportunity to develop and sketch material from character-based, theme-based, traditional and nontraditional narrative perspectives as ways to test out active creative decisions that will help them prepare a strategy and finished script for their thesis film.

**Repeatable:** Y

**Formerly** 24-6363

**TH**

**Prerequisites** CINE 603 Directing for the Screen II

**Minimum Credits 3 Maximum Credits 3**

## **CINE 691 Graduate Thesis: CTVA**

Graduate students work with their thesis advisors on their required thesis deliverables including film, long form project or written thesis.

**Repeatable:** Y

**Formerly** 24-6071

**TH**

**Prerequisites** CINE 512 Story Development or CINE 513 Ideation and Development

**Requirements** Permission Required (DP)

**Minimum Credits 1 Maximum Credits 6**

## **Electives**

*Complete 9 credits from the following courses:*

## **BUSE 579 Executive Producing for Film and TV: Practicum**

Executive Management for Film and Television gives students the opportunity to develop a financial deal-making strategy for film and television projects. Students will investigate the responsibilities of executives

and stakeholders - CFOs, Executive Directors, Executive Producers, Legal Counsel, Financial Advisors, Investors, and Donors - in for-profit and nonprofit companies and learn how they interact in greenlighting a film or TV project. Simulated scenarios in which students assume these executive management roles will allow students to experience what is involved in managing stakeholders, negotiating deals, and structuring the finances for these projects.

**Repeatable:** *N*

**Formerly** 28-5550

**Minimum Credits 3 Maximum Credits 3**

## **BUSE 627 Leadership in the Arts, Entertainment & Media**

Leadership in the Arts, Entertainment & Media Management will provide students with an overview of leadership theories, research and practices, along with the skills and techniques to assess and develop leadership capabilities in themselves and to others. The course will challenge students to understand and analyze how leaders successfully balance the creative and commercial aspects of an arts or media organization. Through lecture, discussion, case studies, improvisation, videos and experiential learning, students will examine the roles and responsibilities of leadership.

**Repeatable:** *N*

**Formerly** 28-6127

**Minimum Credits 3 Maximum Credits 3**

## **BUSE 657 New Media Strategies**

This course provides students with an in-depth understanding of the production, publication, promotion, and distribution of digital audio, visual, and editorial content. Students investigate current business models and conceptualize future tactics to embrace the convergence of the major media forms being streamed, downloaded, and offered as applications on all devices including tablets, mobile phones, computers and home theaters.

**Repeatable:** *N*

**Formerly** 28-6415

**Minimum Credits 3 Maximum Credits 3**

## **CINE 508 Business and Legal**

This course introduces basic legal and financial concepts for media producers including production financing, international co-productions, standard business practices in the entertainment industry, and essential components of entrepreneurial producing. Additionally it will explore contracts and negotiations associated with delivery items intellectual property ownership, copyright, rights agreements, licensing, and chain-of-title.

**Repeatable:** *N*

**Formerly** 24-6610

**Minimum Credits 3 Maximum Credits 3**

## **CINE 516 Advanced First Assistant Director**

The course would focus on applied advanced First Assistant Director skills, including short and feature film scheduling, calling roll on-set, collaborating with the Director and other key crew during production, working in both union and non-union settings, and wrangling associated production documentation.

**Repeatable:** Y  
**Formerly** 24-5615  
**Minimum Credits** 3 **Maximum Credits** 3

### **CINE 522 Critical Analysis of Contemporary Film & Media**

This seminar critically examines contemporary trends in domestic and international film, television and media ideas, production and distribution and its symbiotic relationship with culture. Select indigenous industries and the role of the Internet in the globalization of entertainment are examined.

**Repeatable:** N  
**Formerly** 24-6609  
**Minimum Credits** 3 **Maximum Credits** 3

### **CINE 524 Digital Cinema Mastering**

Course provides an advanced editing experience in three areas: developing skills necessary to manipulate large amounts of cinema source material; acquiring the means to apply those skills while working with clients; and using nonlinear editing and color correction equipment to complete assigned online editing and cinema mastering projects. Students also learn organizational skills necessary to edit projects and gain advanced knowledge of post-production protocols in offline editing and the generation of EDLs and KeyKode cutlists, video online editing and digital cinema mastering. Students work on advanced cinema and high definition projects on industry leading nonlinear editing and color correction software. Digital Intermediates and Digital Cinema Packages will also be covered. Students receive critiques of their work after each project to determine the development of their proficiency of craft and creativity. Course culminates in the finishing of a cinema project from an off-line creative edit to a digital cinema master.

**Repeatable:** N  
**Formerly** 24-5428  
**Prerequisites** CINE 509 Editing Theory and Practice  
**Requirements** Permission Required (DP)  
**Minimum Credits** 4 **Maximum Credits** 4

### **CINE 527 Producing the Documentary**

This course prepares documentary students to work in the documentary production industry as a hired producer/director/writer. Students write and develop production packages suitable for known production companies and media outlets. Advanced producing topics are covered including complex budgeting, scheduling, hiring and delivery and distribution requirements.

**Repeatable:** Y  
**Formerly** 24-5810  
**Minimum Credits** 2 **Maximum Credits** 2

### **CINE 528 The Business of Screenwriting**

Students will learn how the inner workings of the film industry directly affect their ambitions as screenwriters. They will understand that there is much more to being a screenwriter than writing the script alone. This course will give the students a working knowledge of finding an agent, researching producers for their material, dealing with studios, understanding different types of contracts, copyright law and the Writers Guild of America. Students will also have a chance to take their scripts through a professional submission process

to the agent or production company of their choice.

**Repeatable:** Y

**Formerly** 24-5742

**Prerequisites** CINE 507 Screenwriting I

**Minimum Credits** 3 **Maximum Credits** 3

### **CINE 540 Advanced Editing Seminar**

This intensive course provides an opportunity for editing students to collaborate on original creative work by advanced direction, thesis and independent projects, in a seminar environment. Deadlines are strictly enforced as editors collaborate with students in other areas of expertise in creating a short digital narrative project. Students also develop an extensive written career plan to showcase their creative work and important portfolio materials such as website, editing samples, resume, cover letters, and business cards.

**Repeatable:** N

**Formerly** 24-5406

**Prerequisites** CINE 509 Editing Theory and Practice

**Requirements** Permission Required (DP)

**Minimum Credits** 4 **Maximum Credits** 4

### **CINE 575 Experimental Production II**

Project-centered course stimulates and assists students in the creation of an alternative film, video, or digital work. Students will employ an aesthetic that explores, challenges, or subverts mainstream narrative or documentary structures. The class builds on topics from Experimental Production I, including camera experimentation and image manipulation, as well as the development of personal, political or social themes. Festivals, distribution and marketing of experimental film and video will also be emphasized. The class will produce a show at the end of the semester.

**Repeatable:** N

**Formerly** 24-5902

**Minimum Credits** 3 **Maximum Credits** 3

### **CINE 577 Documentary Projects**

This course develops advanced techniques in the process of documentary filmmaking, from idea, research, treatment, shooting techniques, to editing. Students produce a fully developed short documentary film which exhibits a sophisticated approach to documentary concepts, practices, aesthetics, and ethical problems encountered in contemporary documentary filmmaking. Students will workshop ideas leading to a production that communicates meaning, demonstrates an ethical concern for its subjects, affects its audience, and reflects an individual voice. Graduate students will contribute to scholarship in documentary as well as practice professional exhibition strategies using press kits and other strategies.

**Repeatable:** Y

**Requirements** Permission Required (DP)

**Minimum Credits** 3 **Maximum Credits** 3

### **CINE 690 Internship: Graduate Cinema**

This course provides graduate students with practical work experience that places them in training positions related to their academic studies. The college awards academic credit in internships based on a ratio of

credit hours to hours worked. Even though the internship takes place outside the classroom, there are institutional and departmental requirements for students seeking and taking internships.

**Repeatable:** Y

**Formerly** 24-6089

**Requirements** Permission Required (DP)

**Minimum Credits 1 Maximum Credits 6**

### **CINE 695 Directed Study: CTVA Graduate**

Directed Studies are learning activities involving student autonomy within the context of regular guidance and direction from a faculty advisor. They are appropriate for students who wish to explore a subject beyond what is possible in existing courses or for students who wish to engage in a subject or activity not otherwise offered by the College. Directed studies cannot be substituted for any existing course whether it is running or not, including canceled courses. Directed studies involve close collaboration with a faculty advisor who assists in development and design of the study, oversees the student's progress on a regular basis, evaluates the final results, and submits a grade.

**Repeatable:** Y

**Prerequisites** CINE 501 Introduction to Cinema Directing or CINE 502 Introduction To Creative Producing

**Requirements** Permission Required (DP)

**Minimum Credits 1 Maximum Credits 4**

### **CINE 696 Independent Project: Graduate Cinema**

Independent Projects are advanced, student-driven learning experiences involving substantial student independence in project design and project execution. Independent Projects are appropriate for students who wish to explore a subject on their own beyond what is possible in regular courses offered by the college. An independent project must not be equivalent in content to courses offered by the college and should not be used to replace an existing or canceled course. Independent Projects must be approved by a faculty advisor who also evaluates the final results and awards a grade.

**Repeatable:** Y

**Formerly** 24-6098

**Requirements** Permission Required (DP)

**Minimum Credits 1 Maximum Credits 6**

### **CINE 699A Graduate Topics in Cinema**

This is a Graduate studies topics course in Cinema. Different sections will have differing areas of focus, so please contact the department for information on the content offered in this particular semester.

**Repeatable:** Y

**Formerly** CINE 699

**Prerequisites** CINE 501 Introduction to Cinema Directing and CINE 502 Introduction To Creative Producing

**Requirements** Permission Required (DP)

**Minimum Credits 1 Maximum Credits 4**

### **CINE 699B Graduate Topics in Cinema**

This is a Graduate studies topics course in Cinema. Different sections will have differing areas of focus, so please contact the department for information on the content offered offered in this particular semester.

**Repeatable:** Y

**Prerequisites** CINE 501 Introduction to Cinema Directing and CINE 502 Introduction To Creative Producing

**Requirements** Permission Required (DP)

**Minimum Credits 1 Maximum Credits 4**

### **CINE 699C Graduate Topics in Cinema**

This is a Graduate studies topics course in Cinema. Different sections will have differing areas of focus, so please contact the department for information on the content offered offered in this particular semester.

**Repeatable:** Y

**Prerequisites** CINE 501 Introduction to Cinema Directing and CINE 502 Introduction To Creative Producing

**Requirements** Permission Required (DP)

**Minimum Credits 1 Maximum Credits 4**

### **CINE 699D Graduate Topics in Cinema**

This is a Graduate studies topics course in Cinema. Different sections will have differing areas of focus, so please contact the department for information on the content offered offered in this particular semester.

**Repeatable:** Y

**Prerequisites** CINE 501 Introduction to Cinema Directing and CINE 502 Introduction To Creative Producing

**Requirements** Permission Required (DP)

**Minimum Credits 1 Maximum Credits 4**

### **CINE 699E Graduate Topics in Cinema**

This is a Graduate studies topics course in Cinema. Different sections will have differing areas of focus, so please contact the department for information on the content offered offered in this particular semester.

**Repeatable:** Y

**Prerequisites** CINE 501 Introduction to Cinema Directing and CINE 502 Introduction To Creative Producing

**Requirements** Permission Required (DP)

**Minimum Credits 1 Maximum Credits 4**

### **COLL 600 Graduate Internship**

In this course, students with internship opportunities gain valuable, hands-on experience in an industry of interest while receiving mentorship, critical feedback and educational supervision. This is an individual experience and is different for each student. Students cannot take this course without prior authorization from their Internship and Career Advisor. There are several steps to getting approval for an internship for credit.

**Repeatable:** Y

**Requirements** Permission Required (DP)  
**Minimum Credits 0 Maximum Credits 0**

## **GRAD 610 Teaching Methods and Pedagogies**

This course introduces graduate students from across the college to teaching methods and pedagogies, more broadly conceived, as well as in their home disciplines. Students will have the opportunity to work with a faculty member in an undergraduate classroom. Syllabus-writing, time management, and important theoretical and practical aspects of learning and teaching will be covered. Seminars will range from the practical concerns of constructing and conducting a class to the theoretical, thought-provoking issues centered on both teaching and learning.

**Repeatable:** *N*

**Requirements** Permission Required (DP)  
**Minimum Credits 3 Maximum Credits 3**

## **Cinema and Television Producing, MFA**

The Cinema and Television Producing MFA at Columbia College Chicago is an immersive degree designed to develop enterprising creative leaders with the skills to deliver successful media projects from conception to distribution. Educating students to serve as Creative Producers, the program teaches the creative aspects of seeking new material, anticipating and adapting to the industry, screenwriting, collaboration with directors and crew, and driving content development with the technology of all phases of production. Students attend their final courses in Los Angeles on a studio lot in direct contact with executives and craftspeople at every level of the Hollywood industry. Coursework includes classes on acquisitions and development, line producing, business and legal, history and aesthetics, production of both films and series, and marketing and distribution as preparation for their long form narrative package thesis and short film thesis, which they may complete during or after their coursework.

As a result of successfully completing program requirements, students should be able to:

- demonstrate management skills through the successful deployment of resources while guiding projects through development, preproduction, production, post-production, and exhibition;
- analyze the potential, including strengths and weaknesses, of stories to become viable film projects;
- demonstrate writing for cinema and television through the production of screenplays, show bibles or other forms;
- collaborate in meaningful and effective ways with directors, screenwriters, production department heads, producing team members, investors, vendors, and executives and/or administrators;
- develop tools for identifying, researching, and marketing to a chosen audience; and
- develop and articulate a personal vision of cinematic storytelling through collaborative processes.

## **PROGRAM REQUIREMENTS - 56 credits required**

### **CINE 504 Writing for Producers**

This course explores all forms of writing associated with professional producing ranging from business writing, creative writing (development), screenwriting, and writing associated with distribution, movie-marketing and exhibition, with a particular emphasis on screenwriting.

**Repeatable:** *N*

**Formerly** 24-6721

**Minimum Credits** 3 **Maximum Credits** 3

### **CINE 506 Acquisition, Development & Presentation**

This course explores the development and execution of creative producing in all media. Starting with a story idea and ending with the distribution of a finished product, the creative producer is one of the few participants present throughout the entire life cycle. This course will include: finding, analyzing, and acquiring intellectual property, collaborating with writers/directors, pitching, packaging material, pre-visualization, casting, financing, and working with a line producer to execute the vision. In addition it will prepare students to take their creative ideas into the real world by tracking current changes in media relating to studios, financiers, web content, television and cable programming, and distributors.

**Repeatable:** *N*

**Formerly** 24-6612

**Minimum Credits** 3 **Maximum Credits** 3

### **CINE 508 Business and Legal**

This course introduces basic legal and financial concepts for media producers including production financing, international co-productions, standard business practices in the entertainment industry, and essential components of entrepreneurial producing. Additionally it will explore contracts and negotiations associated with delivery items intellectual property ownership, copyright, rights agreements, licensing, and chain-of-title.

**Repeatable:** *N*

**Formerly** 24-6610

**Minimum Credits** 3 **Maximum Credits** 3

### **CINE 510 Line Producing**

The course focuses on teaching the student how to navigate through production obstacles commonly associated with line producing or production managing a film. This course teaches basic strategies of how to line produce a short film by assembling the preparation elements needed for filming and then for the day-to-day operation of the set in principal photography. Students will learn how to work within the structure that is governed by budgets, schedules, casting, contracts and crew, etc.

**Repeatable:** *N*

**Formerly** 24-6604A

**Prerequisites** CINE 503 Directing for the Screen I or CINE 506 Acquisition, Development & Presentation

**Minimum Credits** 2 **Maximum Credits** 2

### **CINE 512 Story Development**

This intensive, semester long workshop explores and develops a variety of ideation strategies subject to group critique resulting in script notes. Participants practice different pitching approaches. Developed ideas are drafted as short scripts and features. Emphasis is on rigorous research.

**Repeatable:** *N*

**Formerly** 24-6607

**Prerequisites** CINE 504 Writing for Producers

**Minimum Credits** 3 **Maximum Credits** 3

## **CINE 514 Post-Production**

This course gives producers a comprehensive introduction to post-production strategies and workflow while collaborating with directors in finishing a short film. Includes creative critique, post-production planning, budgeting and scheduling, and hands-on editing of a short film or promotional reel.

**Repeatable:** *N*

**Formerly** 24-6606

**Prerequisites** CINE 552 The Production Team

**Minimum Credits 3 Maximum Credits 3**

## **CINE 522 Critical Analysis of Contemporary Film & Media**

This seminar critically examines contemporary trends in domestic and international film, television and media ideas, production and distribution and its symbiotic relationship with culture. Select indigenous industries and the role of the Internet in the globalization of entertainment are examined.

**Repeatable:** *N*

**Formerly** 24-6609

**Minimum Credits 3 Maximum Credits 3**

## **CINE 525 Producing the Short Film**

In this course, Creative Producing students will produce a short film, completing the development, preproduction and production. They will also begin the editing and postproduction, with a plan for completion of their film. They will work in collaboration with students in the Cinema Directing program, who will serve as directors for these films.

**Repeatable:** *N*

**Prerequisites** CINE 506 Acquisition, Development & Presentation

**Minimum Credits 2 Maximum Credits 2**

## **CINE 542 Media Financing**

In this course, Master of Fine Arts students will learn concepts and strategies for funding narrative films and documentary projects. Focus will be on both independent strategies, and studio / network funding. Crowd funding, grant writing, fiscal sponsorship, and equity funding will be among the topics covered.

**Repeatable:** *N*

**Prerequisites** CINE 508 Business and Legal or CINE 503 Directing for the Screen I

**Minimum Credits 1 Maximum Credits 1**

## **CINE 548 Introduction to Cinema and Television Studies and Theory**

This course is designed to provide graduate students in the Department of Cinema and Television Arts with an introduction to foundational approaches in the study and analysis of film and television, focusing on film and television history and the ways in which creative artists can benefit from understanding the ways in which media scholars discuss film and television. Readings will offer students exposure to classical examinations of both mediums, and the course will provide opportunities for students to apply insights from these scholarly examinations to film and television of their choosing. An additional component of the course invites students to examine film and television theory and analysis through a critical lens, considering how

foundational theories and methods are rooted in Western European, male and hetero-centric understandings of film and television.

**Repeatable:** *N*

**Prerequisites** CINE 504 Writing for Producers or CINE 507 Screenwriting I

**Minimum Credits 3 Maximum Credits 3**

## **CINE 552 The Production Team**

This course is an introduction to the process and strategies required for short narrative film production. First year graduate producers will experience first-hand responsibilities as assistant director, line producer, production manager and related disciplines, in both structured on-set exercises and advanced films. The aim is for students to learn these various disciplines in order to better produce their own projects, coordinate appropriate crew and advance their skills in navigating the challenges of larger scale work.

**Repeatable:** *N*

**Minimum Credits 2 Maximum Credits 2**

## **CINE 601 Advanced Preproduction**

Advanced Preproduction is an online workshop-style course in which Master of Fine Arts students will actively engage in the development and preproduction of their thesis project, creating preparatory materials, detailed plans, and developing strategies to bring them to the shooting stage of the project. Materials developed in this course will be utilized in the creation of the students' greenlight package and thesis project.

**Repeatable:** *N*

**Prerequisites** CINE 512 Story Development or CINE 513 Ideation and Development

**Minimum Credits 1 Maximum Credits 1**

## **CINE 602 Long-Form Narrative Development**

Building upon their experiences and preliminary work in Acquisitions, Development & Presentation, students will continue to develop a slate of potential projects, specifically finding, developing, and acquiring the rights to material to be developed into a long-form narrative property (such as a feature length film or serialized storytelling such as a TV series, extended web series or transmedia project) and work to produce a first draft from which a production package can evolve in Long-Form Narrative Packaging.

**Repeatable:** *N*

**Formerly** 24-6614

**Prerequisites** CINE 512 Story Development

**Minimum Credits 3 Maximum Credits 3**

## **CINE 604 Marketing, Distribution and Exhibition**

The Marketing, Distribution and Exhibition seminar is a course that explores the Marketing, Distribution and Exhibition phase in film, television and related media.

**Repeatable:** *N*

**Formerly** 24-6613

**Prerequisites** CINE 512 Story Development or CINE 681 Thesis Workshop

**Minimum Credits 3 Maximum Credits 3**

## **CINE 611 Business Affairs**

Business Affairs is a Los Angeles-based seminar that introduces students to market trends in financing, ranging from entrepreneurial business plan-driven investment scenarios to more conventional distributor-driven opportunities, that include fundamentals in the roles of agents and managers. Students develop negotiating skills and further examine the art of effective negotiations.

**Repeatable:** *N*

**Formerly** 24-6611L

**Prerequisites** CINE 604 Marketing, Distribution and Exhibition

**Requirements** Permission Required (DP)

**Minimum Credits** 3 **Maximum Credits** 3

## **CINE 612 Long Form Narrative Package**

This course is a hands-on approach based on the principles learned, and materials developed, in Acquisition, Development and Presentation, and Long Form Narrative Development, concentrating on a final pitch and oral presentation with a thesis binder consisting of multiple projects and corresponding selling strategies. Coursework will include professionally-modeled research that identifies project-specific buyers, talent, and financing tactics. Students will package at least one project from their slate developed in course Long-Form Narrative Development.

**Repeatable:** *N*

**Formerly** 24-6619L

**Prerequisites** CINE 602 Long-Form Narrative Development

**Requirements** Permission Required (DP) Creative Producing MFA Students Only (G244)

**Minimum Credits** 2 **Maximum Credits** 2

## **CINE 624 Advanced Post Production Applications**

This advanced post-production course guides the completion for Year 1 projects. Then, using their cumulative knowledge of postproduction and finishing strategies, students will engage in planning and production for their Thesis project with a focus on editing and post production requirements.

**Repeatable:** *N*

**Prerequisites** CINE 509 Editing Theory and Practice or CINE 514 Post-Production

**Minimum Credits** 1 **Maximum Credits** 1

## **CINE 625 Applied Postproduction**

In this course producers and directors apply their knowledge of post-production and finishing strategies to their thesis production or another advanced project. Teams schedule and budget the specific post-production requirements across multiple workflows and platforms and continue to apply professional collaboration as a creative team. Site visits to local post-production facilities are included.

**Repeatable:** *Y*

**Formerly** 24-6618

**Prerequisites** CINE 509 Editing Theory and Practice or CINE 514 Post-Production

**Minimum Credits** 3 **Maximum Credits** 3

## **CINE 631 Writing and Producing the Series**

In this advanced workshop, students will serve as writers and directors for a new fiction series. Students will have the opportunity to experience all phases of production from concept and development through filming and finalizing the program.

**Repeatable:** N

**Prerequisites** CINE 512 Story Development

**Minimum Credits 3 Maximum Credits 3**

### **CINE 665 The Entrepreneurial Producer**

This Los Angeles-based advanced workshop will provide a detailed examination of the producer's role of packaging with a practical emphasis on attaching talent, calibrating trends in international co-productions, soft monies and tax incentives, international sales and pre-sales, and film marketing.

**Repeatable:** N

**Prerequisites** CINE 604 Marketing, Distribution and Exhibition

**Requirements** Permission Required (DP) Creative Producing MFA Students Only (G244)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 691 Graduate Thesis: CTVA**

Graduate students work with their thesis advisors on their required thesis deliverables including film, long form project or written thesis.

**Repeatable:** Y

**Formerly** 24-6071

**TH**

**Prerequisites** CINE 512 Story Development or CINE 513 Ideation and Development

**Requirements** Permission Required (DP)

**Minimum Credits 1 Maximum Credits 6**

*Complete 3 credits from the following courses:*

### **BUSE 579 Executive Producing for Film and TV: Practicum**

Executive Management for Film and Television gives students the opportunity to develop a financial deal-making strategy for film and television projects. Students will investigate the responsibilities of executives and stakeholders - CFOs, Executive Directors, Executive Producers, Legal Counsel, Financial Advisors, Investors, and Donors - in for-profit and nonprofit companies and learn how they interact in greenlighting a film or TV project. Simulated scenarios in which students assume these executive management roles will allow students to experience what is involved in managing stakeholders, negotiating deals, and structuring the finances for these projects.

**Repeatable:** N

**Formerly** 28-5550

**Minimum Credits 3 Maximum Credits 3**

### **BUSE 615 Arts, Media, and the Law**

Course covers basic legal principles and issues pertaining to the Arts, Entertainment, and Media Industries in both for-profit and not-for-profit sectors. Topics include: forms of business organization, Intellectual property, rights of privacy and publicity, contracts, libel, and first amendment rights. [Core course]

**Repeatable:** *N*  
**Formerly** 28-6117  
**Minimum Credits 3 Maximum Credits 3**

### **BUSE 620 Strategic Planning**

This class is a 'big picture' course that addresses the central challenge facing 21st century Arts, Entertainment and Media (AEM) organizations: how to create a sustainable competitive advantage in a rapidly changing world. The focus is on the total enterprise - the industry and competitive environment in which it operates, its resources and capabilities, and its prospects for success. Contemporary readings and case studies in both for-profit and non-profit sectors provide students with real-world situations in AEM fields. Students develop skills to assess market opportunities, explore new business models, design appropriate strategies, and craft plans for successful, sustainable ventures.

**Repeatable:** *N*  
**Formerly** 28-6120  
**Minimum Credits 3 Maximum Credits 3**

### **BUSE 633 Managing and Licensing Intellectual Property**

This course examines the latest issues relating to the management and licensing of intellectual property in arts, entertainment and media. The course includes analysis and simulated hands-on management of real-world intellectual property portfolios chosen by the students, from identifying portfolios that are ripe for extraction of unrealized value to formulating plans for delivering that value in the form of incremental revenue to the intellectual property owners.

**Repeatable:** *N*  
**Formerly** 28-6151  
**Minimum Credits 3 Maximum Credits 3**

### **BUSE 635 Negotiation Strategies**

This course focuses on strategic techniques used in negotiations for the creative industries. Topics covered include diversity issues, conflict resolution, cultural sensitivity, styles of negotiation; preparation needed prior to negotiations, and negotiation tactics. The course provides aspects of experiential learning, providing students with an opportunity to develop their skills by participating in negotiations and integrating their experiences with the principles presented in the assigned readings and course discussions.

**Repeatable:** *N*  
**Formerly** 28-6154  
**Minimum Credits 3 Maximum Credits 3**

### **BUSE 638 Project Management**

Project management is fundamental to the successful realization of creative practice and ventures. Designed for artists, arts managers and other creatives, students in this course investigate current project management models and strategies, analyze case studies from the creative industries, and engage with professionals in the creative sector as they develop critical planning, management, and assessment competencies. Students apply the concepts and skills learned to create a working project management plan for a specific creative endeavor of the student's choice.

**Repeatable:** *N*  
**Formerly** 28-6161  
**Minimum Credits 3 Maximum Credits 3**

### **BUSE 663 Entrepreneurship and New Business Creation**

This class introduces entrepreneurship as a way of thinking and acting that can serve as a springboard for a self-sustaining, creative career. It provides students with insight into how arts, entertainment, and media professionals turn ideas into a business, and how various elements of an organization fit together to become a viable venture, whether in the for-profit or non-profit world. Special focus will be given to the concept of arts consulting as a potential entrepreneurial pursuit.

**Repeatable:** *N*  
**Formerly** 28-6512  
**Minimum Credits 3 Maximum Credits 3**

### **CINE 521 Constructing the Image**

This course explores and analyzes the visual element and design of the cinematic image. Through lectures, practical assignments, and critiques, students refine their ability to compose and light their project. The class addresses how to translate ideas into images and experiment with varied lighting designs to create compelling images. Lenses, exposure, contrast, camera placement, composition, movement, continuity, and color, as well as working with crew will also be covered.

**Repeatable:** *N*  
**Minimum Credits 3 Maximum Credits 3**

### **CINE 527 Producing the Documentary**

This course prepares documentary students to work in the documentary production industry as a hired producer/director/writer. Students write and develop production packages suitable for known production companies and media outlets. Advanced producing topics are covered including complex budgeting, scheduling, hiring and delivery and distribution requirements.

**Repeatable:** *Y*  
**Formerly** 24-5810  
**Minimum Credits 2 Maximum Credits 2**

## **Minor**

### **Cinema and Television Studies Minor**

Students enrolled in the Cinema and Television Studies minor will analyze our new screen culture of the 21st century. In particular, they will have opportunities to closely analyze cinema and television texts; write different kinds of critical, analytical, and research essays; study global and historical trends in cinema and television; read major theorists and philosophers of the disciplines; and explore the aesthetic and cultural convergence between television and cinema.

**PROGRAM REQUIREMENTS - 18 credits required**

## **CINE 234 Cinema Analysis and Criticism**

Course is a writing-and-research-intensive introduction to cinema studies. Students are taught how to write about cinema and media using different approaches including: formal analysis, ideological analysis, and historical research. In order to focus more on writing and course content, screenings will be limited. The screenings may change at the discretion of the instructor but the nature and number of the assignments will remain the same for each offering of the course.

**Repeatable:** N

**Formerly** 24-2500

**Minimum Credits** 3 **Maximum Credits** 3

## **TELE 320 Critical Television Theory and Analysis**

This course seeks to master methods of analysis and theory commonly utilized in Television Studies: historic and industrial, auteurism and genre, semiotics and psychoanalysis, postmodernism, feminist, critical race, discourse, and audience reception. In students' aspirations to become professionals in the field of television, understanding how TV operates culturally and socially in a sophisticated manner will ultimately make them better creative artists, producers, managers, screenwriters, etc.

**Repeatable:** Y

**Formerly** 40-3212

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits** 3 **Maximum Credits** 3

*Choose one of the following courses:*

## **CINE 143 World Cinema I**

This course examines the world cinema up until World War II. Emphasis is placed on major directors, national cinemas, and movements that contributed to the development of narrative cinema. Screenings will be discussed for their aesthetic, historical, technological and ideological significance. Students will research and write papers and be involved in a number of other in-class and online research activities to help engage them actively with the material.

**Repeatable:** N

**Formerly** 24-2550

**Minimum Credits** 3 **Maximum Credits** 3

## **CINE 144 World Cinema II**

This course examines the world cinema after World War II. Emphasis is placed on major directors, national cinemas, and movements that contributed to the development of narrative cinema. Screenings will be discussed for their aesthetic, historical, technological and ideological significance. Students will research and write papers and be involved in a number of other in-class and online research activities to help engage them actively with the material.

**Repeatable:** N

**Formerly** 24-2551

**Minimum Credits** 3 **Maximum Credits** 3

## **TELE 110 The History of Television**

Cultural history course examines not only the chronological development of television as a technology and an industry, but also explores also how television has become a part of our histories and, indeed, how TV has shaped history and our sense of it. Television is a primary source for the transmission of information, politics, entertainment, and our collective and dispersed cultures in the United States, surpassing even film and newspaper because of its combined accessibility and visual appeals. Since its arrival on the scene at the World's Fair of 1939, TV has been the site through which we engage with any number of issues and events—from the most intimate to the most broadly social.

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

### **CINE 235A Authorship:**

Screening/discussion course is an intensive study of a single director (or directors) as auteur. The featured director(s) changes each semester. Class examines recurring themes, stylistic innovations, and differentiating interpretations of directors' films. Course may be repeated as featured directors change.

**Repeatable:** Y

**Formerly** CINE 235

**Minimum Credits 3 Maximum Credits 3**

### **CINE 235B Authorship:**

Screening/discussion course is an intensive study of a single director (or directors) as auteur. The featured director(s) changes each semester. Class examines recurring themes, stylistic innovations, and differentiating interpretations of directors' films. Course may be repeated as featured directors change.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

### **CINE 235C Authorship:**

Screening/discussion course is an intensive study of a single director (or directors) as auteur. The featured director(s) changes each semester. Class examines recurring themes, stylistic innovations, and differentiating interpretations of directors' films. Course may be repeated as featured directors change.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

### **CINE 235D Authorship:**

Screening/discussion course is an intensive study of a single director (or directors) as auteur. The featured director(s) changes each semester. Class examines recurring themes, stylistic innovations, and differentiating interpretations of directors' films. Course may be repeated as featured directors change.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

### **CINE 235E Authorship:**

Screening/discussion course is an intensive study of a single director (or directors) as auteur. The featured director(s) changes each semester. Class examines recurring themes, stylistic innovations, and differentiating interpretations of directors' films. Course may be repeated as featured directors change.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

### **CINE 235F Authorship:**

Screening/discussion course is an intensive study of a single director (or directors) as auteur. The featured director(s) changes each semester. Class examines recurring themes, stylistic innovations, and differentiating interpretations of directors' films. Course may be repeated as featured directors change.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

### **CINE 238A Cinema History and Culture**

This course examines historical and cultural issues in cinema. Topics may include specific genres, national cinemas, representations of gender and sexuality, non-narrative cinema, or the aesthetic impact of technological innovations. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help engage them actively with the topics.

**Repeatable:** Y

**Formerly** CINE 238

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 238B Cinema History and Culture**

This course examines historical and cultural issues in cinema. Topics may include specific genres, national cinemas, representations of gender and sexuality, non-narrative cinema, or the aesthetic impact of technological innovations. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help engage them actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 238C Cinema History and Culture**

This course examines historical and cultural issues in cinema. Topics may include specific genres, national cinemas, representations of gender and sexuality, non-narrative cinema, or the aesthetic impact of technological innovations. Course may be repeated as topics change. Students will research and write

papers and be involved in a number of other in-class and online research activities to help engage them actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 238D Cinema History and Culture**

This course examines historical and cultural issues in cinema. Topics may include specific genres, national cinemas, representations of gender and sexuality, non-narrative cinema, or the aesthetic impact of technological innovations. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help engage them actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 238E Cinema History and Culture**

This course examines historical and cultural issues in cinema. Topics may include specific genres, national cinemas, representations of gender and sexuality, non-narrative cinema, or the aesthetic impact of technological innovations. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help engage them actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 238F Cinema History and Culture**

This course examines historical and cultural issues in cinema. Topics may include specific genres, national cinemas, representations of gender and sexuality, non-narrative cinema, or the aesthetic impact of technological innovations. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help engage them actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 240A Cinema and Global Media Culture**

This course examines the impact of global media culture on cinema history and aesthetics. Topics may include cinematic adaptations of video games, graphic novels, or television series, as well as an analysis of how distribution models and international film festivals help determine cinematic form and audience reception. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help them engage actively with the topics.

**Repeatable:** Y

**Formerly** CINE 240

## **Video Production Minor**

This minor focuses on the creation of compelling video productions, from planning to shooting to post production. Students will have the opportunity to create videos in a number of genres, including scripted and unscripted formats, in traditional and emerging forms. With the expanding arena of platforms available to video content creators, this minor offers students the chance to build and enhance their skills in the creation of high quality video programming. This minor is appropriate for students from a variety of departments who are interested in adding video creation experience to their work as artists or media makers.

## **PROGRAM REQUIREMENTS - 15 credits required**

*Choose two foundations courses, either MEDI 101 and 102 or TELE 112 and 230:*

### **MEDI 101 Cinematic Storytelling**

This course explores the elements of cinematic storytelling that are used to articulate theme, evoke emotion, and create personal connection with an audience. The student will analyze, research, develop, and visualize cinematic stories for the screen. Aesthetics and storytelling components will be applied in MEDI 102 Cinema and Television Production.

**Repeatable:** N

**Concurrent Requisite** MEDI 102 Cinema and Television Production

**Minimum Credits 3 Maximum Credits 3**

### **MEDI 102 Cinema and Television Production**

This hands-on course explores the techniques of cinema and television production as a collaborator on both individual and group projects. The student will practice conceptualization, visualization, cinematography, sound recording, and editing techniques through effective visual and oral presentations. The aesthetic and storytelling principles will be applied from MEDI 101 Cinematic Storytelling.

**Repeatable:** N

**Concurrent Requisite** MEDI 101 Cinematic Storytelling

**Minimum Credits 3 Maximum Credits 3**

## **TELE 112 Aesthetics and Storytelling**

In this course, students will explore the formal elements of television that are used to express meaning, evoke emotion, and shape the vision they wish to communicate. The student will learn the basics of researching, writing, planning, and visualizing stories for the screen. They will also analyze various television program examples, learning to deconstruct the ways that television tells stories.

**Repeatable:** N

**Formerly** 40-1103

**Minimum Credits 3 Maximum Credits 3**

## **TELE 230 Production and Editing I**

In this course students will develop basic skills in field production and editing. Each student will learn and practice the fundamentals of field production in terms of conceptual development, research and planning, and finally editing and project management. Students will have the opportunity to put into practice the basic rules of visual composition, sequencing and storytelling as learned in prerequisite course, and successfully apply those concepts in this practical hands-on course.

**Repeatable:** N

**Formerly** 40-2302

**Prerequisites** TELE 112 Aesthetics and Storytelling or CINE 102 Cinema Notebooks

**Minimum Credits 3 Maximum Credits 3**

*Complete 9 credits from the following courses:*

## **CINE 121 Lighting I**

Course introduces the physics of motion picture lighting for students with little or no lighting experience. Students become familiar with important safety procedures and the use of standard lighting equipment. Special attention is given to important light measuring techniques using incident light meters and spot meters, quality of light and lighting ratios. Course encourages intelligent, thoughtful approaches to the aesthetics of lighting.

**Repeatable:** N

**Formerly** 24-1200

**Prerequisites** CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production

**Minimum Credits 4 Maximum Credits 4**

## **CINE 130 Editing I**

Course helps students develop the basic non-linear editing skills needed to tell stories effectively through screenings, practical hands-on assignments, using NLE editing software, readings, and lectures. Organizational skills needed to handle NLE offline digital video and audio materials are covered. Editing exercises consist of various editing genres, using scenes from longer works. Students receive ongoing critiques of their work to determine their proficiency of craft and creativity.

**Repeatable:** *N*

**Formerly** 24-1401

**Concurrent Requisite** CINE 131 Editing I Studio

**Minimum Credits 3 Maximum Credits 3**

### **CINE 131 Editing I Studio**

This course is required concurrently with Editing I. Students develop basic skill in the use of a digital editing platform in completing the Editing I course exercises, as well as investigating current technical developments and digital workflow concepts. Content is presented through demonstrations, tutorials and hands-on practice using visual and audio media. Students receive ongoing critique, quizzes and one-to-one problem solving to determine their proficiency and advancement in the use of the platform.

**Repeatable:** *N*

**Formerly** 24-1401B

**Concurrent Requisite** CINE 130 Editing I

**Minimum Credits 1 Maximum Credits 1**

### **CINE 145 Screenwriting I: Writing the Short Film**

Course is a workshop that explores basic methods of writing for cinema which further develop the students' skills in presenting their ideas in written form. Students will develop craft skills basic to cinema writing: research, story development, scene structure, dialogue, and character definition. Emphasis is on finding visual equivalents for human emotions and on developing the writer's individual personal vision. This work culminates in the development and revision of two short narrative scripts. Instrumental in the development of the student as a writer is the ability to read, and effectively critique, the work of their peers.

**Repeatable:** *N*

**Formerly** 24-1710

**Prerequisites** ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or ENGL 109 Writing and Rhetoric I Stretch B or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

### **CINE 203 Production: Fact and Fiction**

Students will have the opportunity to develop, produce, edit and exhibit two short films based on a single idea by exploring a variety of visual and aural strategies, styles, and production approaches appropriate for both fiction and documentary filmmaking. Students will also have the opportunity to explore developing a point-of-view and narrative structures leading to forming their authorial and personal voice. Students will relate fundamental cinematic concepts to their creative process including mise-en-scène, visual and sonic design, intentionality, and audience awareness. Further emphasis is placed on effective small team production techniques.

**Repeatable:** *N*

**Formerly** 24-2003

**Prerequisites** TELE 230 Production and Editing I or CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production

**Minimum Credits 3 Maximum Credits 3**

### **CINE 213 Location Sound Recording I**

Course introduces students to production applications and audio technologies for cinema and television arts. Areas covered include digital recorders, mixers, microphones, signal chain, time-code, metadata, production protocols, and pre-production strategies for cinema and television production.

**Repeatable:** *N*

**Formerly** 24-2103

**Prerequisites** TELE 230 Production and Editing I or CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production

**Minimum Credits 4 Maximum Credits 4**

## **CINE 264 Documentary Production Module II: The Interview**

This intensive workshop uses practical hands on experience in the essentials of the documentary interview. The workshop will focus on the basics for interviews including, strong camera skills, correct framing, lens sizes and eyeline, three-point lighting, microphone placement and appropriate sound recording for the formal, on the fly and alternative-styles of on-camera interviews. Students will work on developing questions and conversation strategies for working documentary interview subjects, helping interviewees feel at ease on camera. Focus will be given towards creative problem solving of sound and image technical issues for both on location and studio interviews.

**Repeatable:** *N*

**Formerly** 24-2812

**Prerequisites** CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or CINE 148 Introduction to Documentary or JOUR 102 Introduction to Journalism or PHOT 101 Photographic Practice I or PHOT 102 Photographic Practice II or MEDI 101 Cinematic Storytelling

**Minimum Credits 1 Maximum Credits 1**

## **CINE 267 Documentary Production Module I: Location Camera and Sound**

This intensive workshop course gives students an introduction in basic documentary field production. The emphasis centers on camera operation including filming the essential shots that are key to the edit of a documentary sequence, including: tripod usage, cinema verite and various other handheld styles of documentary filming. Students will learn the basic aspects of recording location documentary sound with an emphasis on microphone placement, booming and the usage of wireless and hard-wired microphones. The focus of the course will teach students how to work in a two person documentary team using minimal equipment to capture intimate moments. Additional topics include set protocols specific to documentary, crew coordination strategies, gear checklists and preparation, logging, data wrangling and the basics of delivering media to the editorial team.

**Repeatable:** *N*

**Formerly** 24-2809

**Minimum Credits 1 Maximum Credits 1**

## **CINE 269 Documentary Production III: Intermediate Field Production**

Intensive workshop course gives students additional grounding in intermediate documentary field production including a variety of visual strategies, sophisticated three point lighting techniques with advanced equipment. Students will work with advanced sound recording techniques. Additional topics include one person crew strategies and production problem solving.

**Repeatable:** *N*

**Formerly** 24-2815

**Prerequisites** CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or CINE 148 Introduction to Documentary or JOUR 102 Introduction to Journalism or PHOT 101 Photographic Practice I or PHOT 102 Photographic Practice II or MEDI 101 Cinematic Storytelling

**Minimum Credits 1 Maximum Credits 1**

## **TELE 212 Television Arts: Writing**

Building on concepts and techniques introduced in Aesthetics and Storytelling, course allows students to explore basic methods of television writing for scripted and non-scripted formats. Students will develop craft skills basic to television writing: research, story structure, dialogue, and character development, all of which will prepare them for writing scenes and short scripts. Course will not only prepare the student to write full length scripts but will also help them grow as artists, learning to tell stories in a unique and personally meaningful way.

**Repeatable:** *N*

**Formerly** 40-2100

**Prerequisites** ENGL 111 Writing and Rhetoric I and MEDI 101 Cinematic Storytelling or ENGL 111H Writing and Rhetoric I: Honors and MEDI 101 Cinematic Storytelling or ENGL 121 International Writing and Rhetoric I and MEDI 101 Cinematic Storytelling or ENGL 111 Writing and Rhetoric I and CINE 102 Cinema Notebooks or ENGL 111H Writing and Rhetoric I: Honors and CINE 102 Cinema Notebooks or ENGL 121 International Writing and Rhetoric I and CINE 102 Cinema Notebooks or ENGL 111 Writing and Rhetoric I and TELE 112 Aesthetics and Storytelling or ENGL 111H Writing and Rhetoric I: Honors and TELE 112 Aesthetics and Storytelling or ENGL 121 International Writing and Rhetoric I and TELE 112 Aesthetics and Storytelling or ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II or MEDI 101 Cinematic Storytelling and TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7 or CINE 102 Cinema Notebooks and TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7 or TELE 112 Aesthetics and Storytelling and TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

## **TELE 310 Writing for Television**

Scriptwriting course is for students who already have a basic understanding of story structure, dialog, and character development. In this class the student will learn to write full-length television scripts and will study the structure and conventions of writing the sitcom, sketch comedy, and hour-long dramatic scripts. Student work will be read aloud and workshopped, step by step, in a traditional writers table' story conference procedure. Each student will leave the course with at least one full-length, polished script from one of the featured genres.

**Repeatable:** *N*

**Formerly** 40-3202

**Prerequisites** TELE 212 Television Arts: Writing or CINE 145 Screenwriting I: Writing the Short Film

**Minimum Credits 3 Maximum Credits 3**

## **TELE 330 Production and Editing II**

This course helps students gain intermediate technical and aesthetic skills in field shooting and editing. Through a series of shooting and editing exercises, students will further develop skills introduced in Production & Editing. Topics include pre-production, planning, aesthetics, and idea development; intermediate shooting and lighting techniques; intermediate non-linear editing, titling, and effects; media management; basic color correction and use of video scopes; and shooting and editing styles and genres. These concepts will be implemented through a series of exercises culminating in the creation of an original

student final video project.

**Repeatable:** *N*

**Formerly** 40-2401

**Prerequisites** TELE 230 Production and Editing I or CINE 103 Cinema Image and Process

**Minimum Credits 3 Maximum Credits 3**

### **TELE 332 Video for Internet and Mobile**

This class explores online and social video platforms and their influence on culture. The proliferation of mobile devices, platforms, and apps such as YouTube, Facebook, Vimeo, TikTok, Instagram, Tumblr, Twitter have presented the opportunity for the creation and distribution of emerging visual storytelling forms. While exploring multiple platforms, students will create short-form unscripted or soft scripted videos and series. Critical readings will explore why people share and how ideas are transmitted and amplified through online video. Students will consider audience development, analytics, and best practices while developing their voice as makers.

**Repeatable:** *N*

**Formerly** 40-3236

**Prerequisites** PHOT 260 Introduction to Photojournalism or TELE 135 Online Video Culture or TELE 251 Video for Comedians and Performers or CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production

**Minimum Credits 3 Maximum Credits 3**

### **TELE 357 Documenting Social Injustice**

Course enables students to become familiar with the range of diversity issues--race, ethnicity, gender, religion, class, etc.--through extensive readings and videos. Social justice education is both a process and a goal and involves students who have a sense of their own agency as well as a sense of social responsibility toward others and society as a whole. Class tours several sites of ethnic art, activism, and social justice. Students work in teams on documenting their impressions and comparing the classroom with the experiential with help from experts in the field.

**Repeatable:** *Y*

**Formerly** 40-3340

**SS**

**Prerequisites** MEDI 201 Culture, Race and Media or MEDI 201H Culture, Race and Media: Honors or JOUR 337 Creating the TV News Package or CINE 267 Documentary Production Module I: Location Camera and Sound or CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production

**Minimum Credits 3 Maximum Credits 3**

### **TELE 367 Experimental Production and Editing**

Course is an advanced level production class in which students create an original, individually conceived piece of video art. The course is an introduction to the history of experimental video and video artists, as well as project development, production, and editing techniques that are specific to experimental video. Students learn advanced techniques of shooting and editing including non-traditional camera techniques, audio and microphone techniques, field lighting, graphics and effects integration, and integration of other art media. Students also learn how to develop voice and point of view and are highly encouraged to produce an original work that defies standard television genres and conventions. Editing is accomplished using a non-linear editing workstation.

**Repeatable:** Y

**Formerly** 40-3412A

**Prerequisites** TELE 212 Television Arts: Writing and TELE 330 Production and Editing II

**Minimum Credits 4 Maximum Credits 4**

### **TELE 371 Narrative Production and Editing**

Course is an advanced level production class in which students create an original, individually conceived narrative work. Course looks at the various types of narrative genre, as well as project development, production, and editing techniques that are specific to narrative television. Students learn advanced techniques of shooting and editing including camera techniques and setups, audio and microphone techniques, field lighting, narrative story structure, script breakdown techniques, and storyboarding. Students also learn how to develop voice and point-of-view as well as understand how to work within the various narrative contexts. Editing is accomplished using a non-linear editing workstation.

**Repeatable:** Y

**Formerly** 40-3412B

**Minimum Credits 3 Maximum Credits 3**

## **Writing for Television Minor**

This minor provides an introduction to writing for television in its various forms, from comedy, drama and branded entertainment to the growing fields of interactive and web based media. It offers a sequence of courses that begins with an introduction to visual storytelling, continues with specific genre based scriptwriting courses, and finishes with a course that plans a TV series. This minor is designed to help writers from other disciplines enter an expanding market by adding television writing skills to their portfolios.

## **PROGRAM REQUIREMENTS - 18 credits required**

### **TELE 212 Television Arts: Writing**

Building on concepts and techniques introduced in Aesthetics and Storytelling, course allows students to explore basic methods of television writing for scripted and non-scripted formats. Students will develop craft

skills basic to television writing: research, story structure, dialogue, and character development, all of which will prepare them for writing scenes and short scripts. Course will not only prepare the student to write full length scripts but will also help them grow as artists, learning to tell stories in a unique and personally meaningful way.

**Formerly** 40-3202

**Prerequisites** TELE 212 Television Arts: Writing or CINE 145 Screenwriting I: Writing the Short Film

**Minimum Credits 3 Maximum Credits 3**

## **TELE 328 Television Program Development**

Television Program Development teaches students how to take an idea for a scripted television series and turn it into a fully realized written document (show bible) that focuses on creating a sustainable premise and includes a pilot story, subsequent stories, characters and a vision, which effectively reflect the series' setting, tone, and structure. From this detailed document, students will be able to write a pilot script (in a subsequent class or on their own). Additionally, the class introduces students to the variety of programming needs of broadcast, cable and streaming platforms.

**Repeatable:** N

**Formerly** 40-3232

**Prerequisites** CINE 145 Screenwriting I: Writing the Short Film or CINE 248 Producing I: Production Team or TELE 210 The Television Producer or TELE 212 Television Arts: Writing

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

*Complete 9 credits from the following courses:*

## **COLL 230 Internship: Professionalism and Creativity**

This course allows students to take a valuable internship experience in their desired industry for academic credit. Each position is vetted and approved by Career Center to ensure that it is an educational opportunity that will fulfill the learning objectives of the course. Participating in an internship allows students to gain hands-on experience and explore career interests while applying knowledge and skills learned in the classroom to a work setting. The online, academic component of this internship fosters student understanding of how organizations operate and provides for structured reflection on their experiences and assessment of their knowledge and skills. Students are responsible for securing their own internships and should contact Career Center for assistance and resources to identify and apply for opportunities of interest.

**Repeatable:** Y

**Formerly** 99-2300

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

### **TELE 318 Writing the Situation Comedy**

Advanced level scriptwriting course teaches the skills needed to write the most popular form in television today, the situation comedy. The class will require the students to write two half-hour comedies, one based on an existing prime-time television series, the other based on an original pilot concept. The scripts will be read and reviewed, step by step, in a classic writer's table story conference procedure. In addition, there will be lectures on the writing of both the established sitcom as well as the original pilot episode.

**Repeatable:** Y

**Formerly** 40-3221

**Prerequisites** TELE 310 Writing for Television or CINE 145 Screenwriting I: Writing the Short Film

**Minimum Credits 3 Maximum Credits 3**

### **TELE 320 Critical Television Theory and Analysis**

This course seeks to master methods of analysis and theory commonly utilized in Television Studies: historic and industrial, auteurism and genre, semiotics and psychoanalysis, postmodernism, feminist, critical race, discourse, and audience reception. In students' aspirations to become professionals in the field of television, understanding how TV operates culturally and socially in a sophisticated manner will ultimately make them better creative artists, producers, managers, screenwriters, etc.

**Repeatable:** Y

**Formerly** 40-3212

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **TELE 327 Writing for Television Genre**

Course is an advanced level writing class with much time devoted to the development of analytic skills. The class will be broken up into two parts. The first will be an investigation of a variety of analytic methods. The second half will be spent examining a variety of genres and writing a series of outlines and script excerpts. The topics would include action/adventure, melodrama, drama, comedy, mystery, and science fiction. Each would be examined with examples drawn from both current and past television programming. The class would conclude with the completion of a full-length script.

**Repeatable:** N

**Formerly** 40-3231

**Prerequisites** TELE 310 Writing for Television or CINE 145 Screenwriting I: Writing the Short Film

**Minimum Credits** 3 **Maximum Credits** 3

### **TELE 333 Writing for Internet and Mobile TV**

This course will focus on telling one story using multiple creative and distribution platforms. The primary or origin form will be a scripted multiple episode dramatic or comedic web series. Each series will also have 3 extension platforms: social media and open source creative platforms that will tell a different part of the story. Students will pitch, develop, write and using a smart-phone, laptop or tablet will create 'in character' extension content on YouTube, Facebook, Instagram, Tumblr, Bitmoji, etc. The final project will consist of a completed 6-9 episode written web series with transmedia extension content for a deeper exploration of character and story.

**Repeatable:** N

**Formerly** 40-3237

**Prerequisites** TELE 212 Television Arts: Writing or TELE 310 Writing for Television or CINE 145 Screenwriting I: Writing the Short Film

**Minimum Credits** 3 **Maximum Credits** 3

### **TELE 385A Advanced Television Studies:**

This course examines a specific subject within the field of television, rotating the subjects on a regular basis to keep the course relevant to trends and issues within television and society. Today more than ever, TV is the primary storyteller in U.S. culture, and therefore the medium raises a constant stream of issues concerning everything from representation of groups to how parents raise their children. Classes focus on providing students with in-depth examinations of TV-related topics, with an overarching emphasis on the importance of approaching television and related issues from a variety of humanities perspectives (philosophical, industrial, historiographical, psychological, etc.), so as to enrich and complicate our understanding. This advanced course requires each student to complete an original research project utilizing academic scholarship, along with the creation of a formal academic presentation.

### **TELE 487 Analyzing Comedy Structure**

This course enables students to analyze a variety of comedies currently in production. A variety of speakers from the industry will illuminate the shows, describing how they were developed, written, and produced.

**Repeatable:** N

**Formerly** 40-3824L

**Prerequisites** CINE 245 Screenwriting II: The Feature Film or TELE 310 Writing for Television

**Requirements** Permission Required (DP)

**Minimum Credits** 3 **Maximum Credits** 3

### **TELE 495 Directed Study: Television**

Course consists of learning activities involving student independence within the context of regular guidance and direction from a faculty advisor. Directed Studies are appropriate for students who wish to explore a subject beyond what is possible in regular courses or for students who wish to engage in a subject or activity not otherwise offered that semester by the College. Directed Studies involve close collaboration with a faculty advisor who will assist in development and design of the project, oversee its progress, evaluate the final results, and submit a grade.

**Repeatable:** Y

**Formerly** 40-3796

**Requirements** Permission Required (DP)

**Minimum Credits** 1 **Maximum Credits** 6

### **TELE 496 Independent Project: Television**

Course is an independent project designed by the student, with the approval of a supervising faculty member, to study an area that is not at present available in the curriculum. Prior to registration, the student must submit a written proposal that outlines the project.

**Repeatable:** Y

**Formerly** 40-3798

**Requirements** Permission Required (DP)

**Minimum Credits** 1 **Maximum Credits** 6

## **Communication**

### **Bachelor of Arts**

### **Advertising, BA**

As a Columbia advertising major, you will not only learn advertising theory but also apply it to create campaigns for real clients and businesses. Advertising is an in-demand field in need of creatives with broad skill sets. Whether you're a future art director, copywriter, or strategist, you'll discover your ideal career pathway as you work alongside faculty members who have helped create campaigns for many of the most recognizable global brands. As you prepare for a successful career, this hands-on approach will help you build your portfolio of work to showcase your accomplishments and distinguish yourself from other graduates.

As a result of successfully completing program requirements, students will be able to:

- apply leading theories and articulate the key concepts and strategies commonly used across marketing communication disciplines;
- evaluate the effectiveness of creative solutions for key target audiences by using current and emerging communication platforms;

- produce advertising solutions that are relevant, competitively distinct, effective, and culturally responsive;
- constructively collaborate within teams that reflect diversity and inclusion to produce an effective advertising solution;
- evaluate the social, ethical, and legal implications of proposed advertising strategic and tactical decisions; and
- demonstrate the skills required for obtaining a professional, entry-level position within advertising through the preparation and presentation of professional-quality work.

## PROGRAM REQUIREMENTS - 40 credits required

### **ADVE 101 Advertising Principles**

This course explores advertising in emerging arenas including digital, mobile, native and social media, and more traditional venues such as television and magazines. Advertising is explored as an interdisciplinary business that brings together designers, art directors, photographers, creative writers, filmmakers, and others. The first half of the course is dedicated to advertising terminology and various concepts, while the second half focuses on developing effective creative strategy and a cross-platform campaign.

**Repeatable:** *N*

**Formerly** 54-1600

**Minimum Credits 3 Maximum Credits 3**

### **ADVE 120 Consumer Behavior**

Course explores the relationship between conscious and unconscious factors influencing many different consumers and examines the need, structure, and interaction with planned communication messages. Survey course gives students insight into the reasons the various disciplines of communication work, using basic readings in the psychology of perception and attitude formation.

**Repeatable:** *N*

**Formerly** 54-1601

**Minimum Credits 3 Maximum Credits 3**

### **ADVE 220 Concepting I: The Big Idea**

This course teaches students to develop concepts (including copy) for campaigns targeting consumer audiences. Focused on writing campaigns to be featured in print, broadcast, outdoor, and digital media. The course teaches the elements of style and creativity, relevant communication techniques, and the basics of how commercial messages are constructed.

**Repeatable:** *N*

**Formerly** 54-2606

**Prerequisites** ADVE 101 Advertising Principles or COMM 203 Social Media Strategy

**Minimum Credits 3 Maximum Credits 3**

### **ADVE 245 Advertising Production**

Course allows students to practice the skills needed to plan, produce, and pitch multi-platform advertising campaigns consistent with today's evolving landscape. Students will create innovative concepts for digital advertising (programmatic ads, pre-roll, mobile video, interactive out of home and more) based on a creative

brief, reflecting a clear understanding of diverse cultural perspectives. Ultimately, students will learn production planning, execution and film multiple projects.

**Repeatable:** *N*

**Formerly** 54-2602

**Prerequisites** ADVE 220 Concepting I: The Big Idea or COMM 219 Social Media Content

**Minimum Credits 3 Maximum Credits 3**

## **ADVE 280 Advertising Workshop**

This portfolio-building hands-on course is a great way for mid level students interested in advertising and ad minors from allied fields (filmmaking, TV, creative writing, photography, design, marketing, etc.) to create a comprehensive ad plan answering a creative brand problem. Students' final product is a formal presentation and ad plan, complete with research, strategy, produced creative concepts, and media recommendations.

**Repeatable:** *N*

**Formerly** 54-2601

**Prerequisites** ADVE 101 Advertising Principles

**Minimum Credits 3 Maximum Credits 3**

## **ADVE 320 Copywriting**

Course continues the study of relevant communication techniques, elements of style, and creativity in writing copy. Students deepen their concept development and copywriting skills for print ads, websites, online ads, mobile apps, commercials, social media, native ads, and other mediums.

**Repeatable:** *N*

**Formerly** 54-3650

**Prerequisites** ADVE 220 Concepting I: The Big Idea

**Minimum Credits 3 Maximum Credits 3**

## **ADVE 325 Concepting II: CW/AD Teams**

Offered jointly by the Design Department and the Communication Department, this course teaches students to work in copywriter/art director teams to develop advertising campaigns. Reflecting standard advertising agency practice, this course sensitizes students to the interdisciplinary nature of the creative process.

**Repeatable:** *N*

**Formerly** 54-3603

**Prerequisites** ADVE 220 Concepting I: The Big Idea

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **ADVE 340 Brand Strategy**

This course introduces account planning as the discipline responsible for leveraging consumer insights into powerful and differentiating communication strategies. The class emphasizes using consumer research in the context of strategic brand management. And the course examines the essential features of a consumer insight: what it is, how to get to it, and how to use it.

**Repeatable:** *N*

**Formerly** 54-3810

**Prerequisites** ADVE 120 Consumer Behavior  
**Requirements** Junior Standing or Above (JR)  
**Minimum Credits 3 Maximum Credits 3**

## **ADVE 420 Agency**

Students learn how to function in an advertising or public relations agency as a specialist (account management, creative, media, traffic, production) and as a member of an agency team. Students work with actual clients on real assignments, participate in client meetings, generate contact reports, conduct research, develop strategies, write media plans, ideate concepts, and produce tactical elements. Course culminates in the production of completed marketing campaign elements, enabling students to have published samples for their portfolios.

**Repeatable:** Y  
**Formerly** 54-4978  
**Minimum Credits 3 Maximum Credits 3**

## **ADVE 480 Campaign Practicum: Strategic Planning**

This is Semester One of a two-semester Capstone course that offers the ultimate hands-on approach to utilizing principles learned across the Advertising and PR curriculum. As part of the American Advertising Federation, students develop a strategic integrated campaign for a corporate client that includes advertising, marketing, and public relations. The two-semester course culminates at the National Student Advertising Competition, where students pitch the campaign before a review panel composed of advertising agency executives and other communications industry professionals. Interested students who do not meet the outlined prerequisites should contact the Communication department.

**Repeatable:** Y  
**Formerly** 54-4605  
**Prerequisites** ADVE 280 Advertising Workshop or PURE 220 PR Issues and Crisis  
**Requirements** Junior Standing or Above (JR)  
**Minimum Credits 3 Maximum Credits 3**

## **ADVE 492 Concepting III: Portfolio**

Course teaches students how to develop a professionally viable advertising campaign portfolio. Course culminates in the students' presentations of their portfolios before a review panel made up of advertising agency executives and professional recruiters. The final portfolio will have original, integrated campaigns, one-shot ideas, and non-traditional elements.

**Repeatable:** Y  
**Formerly** 54-3604  
**Prerequisites** ADVE 325 Concepting II: CW/AD Teams or ADVE 380 Account Exec & Brand Manager  
**Minimum Credits 3 Maximum Credits 3**

## **ARTS 155 Foundation Skill: Digital Video Editing**

In this one-credit course students use editing software like Adobe Premier to create their own short, polished videos. Technical topics include media importing, digital file formats, effects, color correction, keyframing, compression schemes, export, and more. Lectures and screenings will touch upon essential editing techniques to demonstrate the "why" in addition to the "how."

**Repeatable:** Y  
**Formerly** 22-1275  
**Minimum Credits 1 Maximum Credits 1**

### **GRDE 136 Design Lab**

This course covers digital typesetting, layout, and image editing techniques for graphic design, illustration, and advertising. Topics covered include digital document construction and layout, typography formatting and specification, digital image editing, and application.

**Repeatable:** N  
**Formerly** 21-1320  
**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

### **ADVE 310 360 Experiential Campaigns**

Experiential communication is one of the hottest branded communication growth areas today. In fact, experiential agencies are growing at twice the rate of traditional agencies. This is not surprising, considering 96% of those experiencing a brand via an activity (digitally or in person) are more likely to buy the brand and share experiences. 360 experiential communication can build not only a brand's ROI, but its ROE (return on engagement) as well. This course will expose students to the very current best practices and also give students the opportunity to develop a strategically sound campaign for a brand (fashion, sports, causes, etc.) based on concrete objectives. This 360 experiential campaign course will not only include engagement driven events (on and off-line), but other critical 360 campaign arenas including: social media; content creation for YouTube, etc.; activation initiatives (e.g., contests, promotions, sampling, pop up shops, etc.); interactive advertising (i.e., location based mobile games) and more.

**Repeatable:** N  
**Formerly** 54-3607  
**Prerequisites** ADVE 101 Advertising Principles or PURE 102 Intro to Public Relations or COMM 203 Social Media Strategy  
**Minimum Credits 3 Maximum Credits 3**

### **ADVE 342 Fashion Advertising**

This course exposes students to current best practices in fashion advertising. Students will not only analyze on-trend breakthrough fashion ad campaigns involving mobile, experiential, social media, augmented reality, etc.; they will also develop a 360 integrated campaign for a brand, to be presented to industry professionals. Enrolled students should have some foundational knowledge of the fashion and/or advertising industry as the course will move quickly into strategic considerations, conceptual thinking and campaign tactics. It is an ideal course for those interested in leading integrated 360 communication direction for a fashion brand.

**Repeatable:** N  
**Formerly** 54-2400  
**Prerequisites** ADVE 101 Advertising Principles or FASH 101 Intro to the Fashion Industry  
**Minimum Credits 3 Maximum Credits 3**

### **ADVE 350 Retail Competition**

Course focuses on the National Retail Federation's Student Challenge competition, bringing together a select group of cross-disciplinary Fashion and Advertising students to create retail business & communication plans for a major retailer. Course deliverables include a 20-page business and communication plan as well as a 90-second video pitch suitable for inclusion in student portfolios. Consultations with industry professionals will also be a part of this course. The winning plan book and video pitch will be sent on to the National Retail Federation competition in October. If the student team makes the finals, the group is flown to NYC in January for the NRF's Big Show annual conference.

**Repeatable:** *N*

**Formerly** 54-3600

**Prerequisites** ADVE 280 Advertising Workshop

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

## **ADVE 371 Digital Media Planning**

Students create digital-first paid media communication solutions by identifying the right mix of digital advertising platforms, including social, mobile, search, video, digital display, non-digital platforms, and more. Students analyze media data, develop strategic insights, and create recommendations. The course involves media strategy, costing, scheduling, audience analysis, negotiation strategies, and programmatic buying. Students will learn professional resume-building and create a portfolio-ready, contemporary media plan.

**Repeatable:** *N*

**Formerly** 54-3102

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **Communication, BA**

The Bachelor of Arts in Communication curriculum prepares students to contribute intellectually, culturally and creatively as skilled communicators. Our program is unique as it pushes the boundaries of the traditional communication BA. Students learn to apply foundational visual, written and oral communication skills to solve real world challenges through project-based learning, internships, and a range of capstone projects. As students advance in their studies, the skills gained in data analysis and storytelling, multimedia production, leadership, global communications and community engagement are transformed into real-world portfolio pieces, opening doors in a wide array of career fields, from tech start-ups to non-profits to civic/government, and beyond. The program encourages students to choose between several complementary minors to further develop their skills in a specific area of focus within the communication industry. The professional experiences, creative challenges and analytical skills gained prepare students for roles in a range of commercial, artistic and civic endeavors.

As a result of successfully completing program requirements, students should be able to:

- analyze and evaluate the development, current state, and emerging trends of interpersonal, intercultural, and mediated communication;
- apply verbal and nonverbal communication practices to effectively interact in teams and collaborative environments;
- process and respond to individual identities, cultural world views, and historical frameworks that influence media absorption and message interpretation;
- produce mediated communication across a variety of platforms, appropriate to a diverse range of audiences, purposes, contents, and contexts; and

- contribute to the public discourse and build reciprocal relationships with communities in a meaningful and productive manner through ethical communication principles and practices.

## PROGRAM REQUIREMENTS - 42 credits required

### **COMM 102 Communication Essentials**

This hands-on interactive course explores communication perspectives and challenges (verbal and non-verbal) in our diverse culture. Students will practice management of creative communication issues and opportunities we all encounter working with others and in small group settings. Coursework will also investigate particular challenges facing us as ethical and responsible communicators in public, mass, and digital communication settings. Lastly, course will give students a glimpse of the wide range of creative career possibilities in communications fields.

**Repeatable:** *N*

**Formerly** 45-1300

**DEI**

**Minimum Credits 3 Maximum Credits 3**

### **COMM 120 Truth, Lies and Accuracy in the Digital Age**

In this media literacy class, you will examine and develop multiple strategies to access, evaluate, create and reflect on various media texts. You will critique current case studies from economic and cultural perspectives using various analysis tools and reliable sources. Your final research project will include a paper, a presentation and a media product that showcase your skills at locating reliable information, analyzing various points of views, and composing a media text reflecting your perspective and social responsibility.

**Repeatable:** *N*

**Formerly** 53-1610

**Minimum Credits 3 Maximum Credits 3**

### **COMM 140 Smartphone/photo**

This is a hands-on class focusing on the technical, aesthetic and multimedia skills needed to produce images with a smartphone for professional communication and storytelling.

**Repeatable:** *N*

**Formerly** JOUR 140

**Minimum Credits 1 Maximum Credits 1**

### **COMM 141 Smartphone/video**

This is a hands-on class focusing on the technical, aesthetic and multimedia skills needed to produce professional video with a smartphone.

**Repeatable:** *N*

**Formerly** JOUR 141

**Minimum Credits 1 Maximum Credits 1**

### **COMM 143 Smartphone/audio**

This is a hands-on class focusing on the technical, aesthetic and multimedia skills needed to produce professional audio with a smartphone.

**Repeatable:** *N*

**Formerly** JOUR 143

**Minimum Credits 1 Maximum Credits 1**

## **COMM 202 Applied Communication Research**

This course introduces students to best practices in communication research design and process. Students develop a mixed research methodology encompassing contemporary digital research and consumer collaborative creative methodologies to make better decisions for their audience's needs. It emphasizes translating research into actionable insights and applicable plans. The final project is an applied communication research project for an organization, non-profit, association, or brand, suitable for inclusion in the student's portfolio.

**Repeatable:** *N*

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **COMM 210 Visual Communication**

A theoretical and a hands-on course that immerses students in all aspects of visual communications, including typography, photography, illustration, informational graphics, design, and layout. Students will create visual projects according to their related fields.

**Repeatable:** *N*

**Formerly** 53-2220

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **COMM 310 Oral Traditions**

This foundational course introduces students to the study of oral tradition - the verbal transmission and preservation of information from one generation to the next - and its history and processes. Taking a multi-dimensional perspective, students study a range of verbal sources starting with the known origins of oral communication up to the modern application of spoken word performance.

**Repeatable:** *N*

**Formerly** 45-3410

**Prerequisites** COMM 102 Communication Essentials

**Minimum Credits 3 Maximum Credits 3**

## **COMM 325 Data Storytelling & Visual Strategies**

This class combines theory and practice on strategies of communicating data through digital graphics and various media platforms. It focuses on visual and media literacy, research, narrative storytelling, and media design. Students will gain experience in translating data into public visual stories by designing various digital media infographics and collaborating on a transmedia storytelling project, including images, explanatory charts, maps, animation, and/or diagrams.

**Repeatable:** *N*

**Formerly** 53-3230

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

## **COMM 420 Media Ecosystems**

In this capstone project, students work in teams to analyze the civic impact and the reciprocal relationships between a media outlet and a local community. By applying media theories of public sphere, media ecology, and audience studies, the group conducts a social power analysis to explore the information flow, power relationships, and impact of all participants in the media ecosystem. Each team will deliver a professional media kit to their industry partner.

**Repeatable:** N

**Formerly** COMM 320

**DEI**

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

## **PURE 210 Presentation Skills**

Course emphasizes verbal skills, from presenting and selling ideas to developing an effective public presence before various audiences. It is recommended for students in other majors as they seek to market themselves. Qualifies for the Oral Communication requirement.

**Repeatable:** N

**Formerly** 54-2702

**SP**

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits** 3 **Maximum Credits** 3

## **PURE 330 Global Communications**

This course examines the role of global communications in human relationships and in business communications. We'll study the theory of intercultural communications in the context of global communications professional practice, and how culture impacts receptivity to messages. We will learn how global communications professionals navigate complex ecosystems to drive organizational success while breaking down barriers to inclusion and engaging stakeholders.

**Repeatable:** N

**Formerly** 54-3707

**GA**

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

## **Practice Electives**

*Choose three of the following courses:*

### **ADVE 371 Digital Media Planning**

Students create digital-first paid media communication solutions by identifying the right mix of digital advertising platforms, including social, mobile, search, video, digital display, non-digital platforms, and more. Students analyze media data, develop strategic insights, and create recommendations. The course involves media strategy, costing, scheduling, audience analysis, negotiation strategies, and programmatic buying. Students will learn professional resume-building and create a portfolio-ready, contemporary media plan.

**Repeatable:** *N*

**Formerly** 54-3102

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **COLL 230 Internship: Professionalism and Creativity**

This course allows students to take a valuable internship experience in their desired industry for academic credit. Each position is vetted and approved by Career Center to ensure that it is an educational opportunity that will fulfill the learning objectives of the course. Participating in an internship allows students to gain hands-on experience and explore career interests while applying knowledge and skills learned in the classroom to a work setting. The online, academic component of this internship fosters student understanding of how organizations operate and provides for structured reflection on their experiences and assessment of their knowledge and skills. Students are responsible for securing their own internships and should contact Career Center for assistance and resources to identify and apply for opportunities of interest.

**Repeatable:** *Y*

**Formerly** 99-2300

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

### **COMM 326 Semiotics for Creators of Popular Culture**

Writing-intensive course explores the study and use of semiotics (or symbolic meaning) in the development of advertising and other creative works that contribute to the content of popular culture. Interdisciplinary in scope, the course explores how advertising uses symbolic language from diverse disciplines such as literature, cinema, television, performing arts, architecture, fashion, and other fields that shape the overall popular culture.

**Repeatable:** *Y*

**Formerly** 54-3670

**SS**

### **COMM 326H Semiotics for Creators of Popular Culture: Honors**

Writing-intensive course explores the study and use of semiotics (or symbolic meaning) in the development of advertising and other creative works that contribute to the content of popular culture. Interdisciplinary in scope, the course explores how advertising uses symbolic language from diverse disciplines such as literature, cinema, television, performing arts, architecture, fashion, and other fields that shape the overall popular culture. This is an Honors class. In addition to other possible pre-requisites, students need a minimum G.P.A. of 3.50 or higher to enroll.

**Repeatable:** *Y*

**Formerly** 54-3670HN

## **SS**

**Requirements** 3.5 or Higher GPA (35GP)

**Minimum Credits 3 Maximum Credits 3**

### **JOUR 216 Blogging: Beyond the Basics**

Anyone can blog; this course will teach you how to blog well. Students from throughout the college identify a niche, research the editorial opportunities for that audience, report and write posts, shoot and upload relevant photos and videos, and implement blogging best practices, including ethics, copyright, links, SEO, social media and monetization.

**Repeatable:** Y

**Formerly** 53-2116

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **PURE 310 Social Change Communications**

Course focuses on emerging communication strategies and techniques to promote social causes and issues. We will look at the inextricable link between public opinion and communication. Through analyses of social causes and issues, students will explore how these practices are creating an impact in areas like social welfare, health, energy, gender, and multiculturalism.

**Repeatable:** N

**Formerly** 54-3714

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

### **PURE 450 Organizational Communication**

The most effective organizations build brand loyalty across all stakeholder groups, internal and external, as a method of achieving business strategy. Through open discussions, case studies, research, readings, and guest speakers in the discipline, students will learn how some of the world's most successful organizations grow market share and build world-class brands through effective organizational communication. Students will gain insights into the design and strategy of the organizational communication function, and the profile, character traits, and strategies of the effective leader communicator. Students will also learn how organizational communication unlocks the potential and passions of key stakeholder groups, particularly internal stakeholder groups; builds loyalty and trust; enhances the reputation of the organization; and drives the achievement of key performance indicators (KPIs).

**Repeatable:** N

**Prerequisites** PURE 102 Intro to Public Relations and PURE 105 Public Relations Writing or COMM 102 Communication Essentials and COMM 202 Applied Communication Research

**Minimum Credits 3 Maximum Credits 3**

### **RADI 302 Radio Storytelling**

This course focuses on the craft of writing and producing effective radio essays made popular through work found on National Public Radio. Emphasis is placed on storytelling techniques, writing for the ear, sound usage and basic spoken-word audio editing. Students produce four completed radio essays. The course progresses from writing to re-drafting, to audio production, to completed packages. Selected pieces will be

considered for broadcast on WCRX 88.1 FM.

**Repeatable:** N

**Formerly** RAD1 202

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

## Capstone

*Choose one of the following courses:*

### **ADVE 420 Agency**

Students learn how to function in an advertising or public relations agency as a specialist (account management, creative, media, traffic, production) and as a member of an agency team. Students work with actual clients on real assignments, participate in client meetings, generate contact reports, conduct research, develop strategies, write media plans, ideate concepts, and produce tactical elements. Course culminates in the production of completed marketing campaign elements, enabling students to have published samples for their portfolios.

**Repeatable:** Y

**Formerly** 54-4978

**Minimum Credits 3 Maximum Credits 3**

### **COMM 470 Digital Content and Analytics**

This course focuses on digital communication tools utilized today to strategically plan, create, execute, and evaluate strategic communication programs across contemporary platforms, both well-established and emerging. Industry tools to be explored include: Google Analytics, social media, search engine marketing, and email marketing. Students will explore strategically planning, creating, and analyzing digital content outcomes.

**Repeatable:** N

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **COMM 499A Advanced Topics in Communication**

This is an advanced topics course in Communication for the Communication Department. Topics will vary.

**Repeatable:** Y

**Formerly** COMM 399A

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **COMM 499B Advanced Topics in Communication and Media**

This is an advanced topics course in Communication for the Communication Department. Topics will vary.

**Repeatable:** Y

**Formerly** COMM 399B

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **RADI 481 WCRX Practicum I**

This course provides hands-on experience in the operation of college radio station WCRX. Students become proficient with new digital tools and various digital platforms to understand and effectively use social media in a live broadcast environment. Students work on the air as a music or talk host, news or sports anchor, or call play-by-play sports. They may also work in production or as a social media producer to develop content and maintain social media on-line communities for WCRX. Course requires a minimum of six hours per week of practical activity and two class hours per week.

**Repeatable:** Y

**Formerly** 41-3300

**Prerequisites** RADI 118 Radio Workshop and RADI 210 Radio Production I: Intro

**Requirements** Permission Required (DP) and Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **Journalism, BA**

The digital revolution has changed the way we gather, produce and disseminate news, but journalists are more in demand than ever. People always want to know what's going on and need responsible, ethical, accurate journalists to tell them. Our journalism program provides hands-on, multimedia experience in reporting, writing, editing, producing and publishing in state-of-the-art newsrooms and on mobile devices. The curriculum is structured around a core of courses, introducing students to new technologies as they progress through increasingly more complex and topical courses. The core courses aim to prepare students for advanced work in one of the major's four concentrations: Broadcast Journalism: Radio; Broadcast Journalism: Television; Magazine; and News and Features.

Practicing and studying journalism enhances critical thinking: figuring out what the story is and how to get it quickly, accurately and fairly. Students will have the opportunity to learn how to place news in a context that helps readers, listeners, and viewers make sense of the world. Good writing is paramount. Students are taught how to find, report and tell engaging stories that stand out in today's complex world using social media, audio, video and still photography on smart phones and DSLR cameras.

Students produce the highly-respected [Columbia Chronicle](#), named best college weekly in the nation by the Society of Professional Journalists. Every spring, students in the Magazine Program team up with students in Design to create [Echo](#) magazine, which regularly wins top awards in student magazine contests, along with its website. Broadcast Journalism students, in collaboration with the Television Department, produce [Newsbeat](#), a live TV newscast, and [Metro Minutes](#), a TV news magazine. Broadcast TV students have won highly competitive recognition from the Academy of Television Arts and Sciences' Emmy Awards. Students can write and produce news for college radio station WCRX 88.1 FM, and host their own talk and music shows. We stress portfolio-building, so students can show internship providers their professional and high-quality work they produce with mentoring by faculty who are actively engaged in the fields they teach. With outside grant support, professors founded [ChicagoTalks](#) and [AustinTalks](#), online publications that cover the neighborhoods of the nation's third-largest city, increasing multi-platform publishing opportunities for our students.

As a result of successfully completing program requirements, students should be able to:

- write correctly and clearly in forms and styles appropriate for the media professions, audiences and purposes they serve;

- gather and report information thoroughly and accurately using a wide range of sources;
- design and present audio, images, video and other stories using current tools and technologies;
- create and produce work that can be shared publicly in various media;
- demonstrate and apply an understanding of professional journalistic ethical principles in pursuit of truth, independence, accuracy, fairness and diversity; and
- understand and apply the principles and laws of copyright, freedom of speech and freedom of the press in the United States.

## PROGRAM REQUIREMENTS - 37-42 credits required

### **JOUR 102 Introduction to Journalism**

This course explores rules and roles of journalism along with the challenges of the contemporary media landscape. It also introduces reporting, interviewing and writing skills through hands-on assignments.

**Repeatable:** N

**Formerly** 53-1011

**Minimum Credits 3 Maximum Credits 3**

### **JOUR 108 Copy Editing**

This foundational course teaches students how to improve grammar, punctuation and spelling skills, while learning how to spot errors, correct English usage, sharpen copy's clarity and conciseness, remedy inconsistencies and redundancies, and edit stories to meet generally accepted journalistic standards and Associated Press (AP) style.

**Repeatable:** Y

**Formerly** 53-1017

**Minimum Credits 3 Maximum Credits 3**

### **JOUR 205 Reporting II**

The course helps students refine their reporting, interviewing, researching and writing skills as they conceptualize, pitch and produce journalistic stories. Students further develop critical-thinking skills as well as the use of social media for newsgathering and storytelling. It emphasizes precision and clarity. Equipment is required for this course. See the Department website.

**Repeatable:** N

**Formerly** 53-2020A

**Prerequisites** JOUR 105 Reporting I and JOUR 108 Copy Editing or JOUR 106 College News Workshop and JOUR 108 Copy Editing

**Minimum Credits 3 Maximum Credits 3**

### **JOUR 208 Media Ethics and Law**

Course instructs students in legal and ethical issues that working journalists confront in the gathering and dissemination of news; First Amendment history and interpretation are highlighted.

**Repeatable:** N

**Formerly** 53-2015

**Prerequisites** JOUR 102 Introduction to Journalism or ADVE 101 Advertising Principles or PURE 102 Intro to Public Relations

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

## **JOUR 105 Reporting I**

This course teaches students reporting skills used in all major journalism media formats. It is designed to give students a solid foundation for subsequent courses in journalistic storytelling. Equipment is required for this course. See the department website.

**Repeatable:** N

**Formerly** 53-1015

**Prerequisites** JOUR 102 Introduction to Journalism and ENGL 111 Writing and Rhetoric I or JOUR 102 Introduction to Journalism and ENGL 111H Writing and Rhetoric I: Honors or JOUR 102 Introduction to Journalism and ENGL 121 International Writing and Rhetoric I or JOUR 102 Introduction to Journalism and ENGL 109 Writing and Rhetoric I Stretch B or JOUR 102 Introduction to Journalism and TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

## **JOUR 106 College News Workshop**

Students in this sophomore-level class serve as reporters and writers for The Columbia Chronicle, the college's award-winning weekly newspaper and its website. The class has learning objectives that parallel those of Reporting I and it may be substituted for Reporting I. Half the class time is devoted to an accelerated introduction to the fundamentals of journalism, and the other half to carrying out Chronicle assignments. This class is also open to a limited number of photography majors interested in photojournalism and building their portfolios. Equipment is required for this course. Consult the department website.

**Repeatable:** N

**Formerly** 53-1015A

**Prerequisites** JOUR 102 Introduction to Journalism and ENGL 111 Writing and Rhetoric I or JOUR 102 Introduction to Journalism and ENGL 111H Writing and Rhetoric I: Honors or JOUR 102 Introduction to Journalism and ENGL 121 International Writing and Rhetoric I or JOUR 102 Introduction to Journalism and ENGL 109 Writing and Rhetoric I Stretch B or JOUR 102 Introduction to Journalism and TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

## **CONCENTRATIONS**

### **Broadcast Journalism: Radio**

Broadcast Journalism is an interdisciplinary program taught in cooperation with the Television and Communication departments. Students will have the opportunity to learn to report, write and produce radio news, features, and in-depth stories. Radio news students get hands-on training at Columbia's radio station,

WCRX 88.1 FM. Students intern at major media outlets, including Chicago affiliates of ABC, NBC, CBS and NPR.

**Required for the Concentration:**

## **JOUR 234 Broadcast News Writing**

Intended for students entering the Broadcast Journalism concentration, course teaches basic techniques for writing radio and television news scripts.

**Repeatable:** *N*

**Formerly** 53-2310

**Prerequisites** JOUR 105 Reporting I

**Minimum Credits 3 Maximum Credits 3**

## **RADI 105 Voice and Articulation**

Course helps students acquire pronunciation and grammar of oral Standard English that is necessary for broadcasting and oral communication in any professional environment. Students receive an individual evaluation of articulation and voice. Course stresses the concept of becoming bi-dialectic, or learning and using Standard English in addition to your primary dialect. Classroom exercises focus on using Standard English when reading copy and engaging in improvisational conversation.

**Repeatable:** *N*

**Formerly** 41-1107

**Minimum Credits 3 Maximum Credits 3**

## **RADI 118 Radio Workshop**

This entry-level course provides hands-on and practical experience in performing radio programs and operating industry standard radio broadcast equipment. Course also focuses on the performance experience of an on-air host at a music radio station. Students will develop a personal on-air style by performing radio programs, delivering copy, integrating music into shows and preparing material for program breaks. This course is a pre-requisite for an on-air position at the college radio station WCRX, 88.1FM.

**Repeatable:** *Y*

**Formerly** 41-1121

**Prerequisites** RADI 105 Voice and Articulation

**Minimum Credits 3 Maximum Credits 3**

## **RADI 210 Radio Production I: Intro**

This introduction to digital audio production combines theory with creative, hands-on audio production projects. Each student will use a digital audio workstation loaded with professional audio software. Students will learn audio/production/computer terminology along with fundamental audio production techniques, including recording, editing, mixing, and working with music and sound effects. Each student also will use a portable digital field recorder to produce class projects.

**Repeatable:** *N*

**Formerly** RADI 126

**Minimum Credits 3 Maximum Credits 3**

## **RADI 230 Podcasting**

In this introductory course, students learn the aesthetics of podcasting as well as basic content development and production techniques while creating elements of a podcast.

**Repeatable:** *N*

**Formerly** 41-2252

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **RADI 302 Radio Storytelling**

This course focuses on the craft of writing and producing effective radio essays made popular through work found on National Public Radio. Emphasis is placed on storytelling techniques, writing for the ear, sound usage and basic spoken-word audio editing. Students produce four completed radio essays. The course progresses from writing to re-drafting, to audio production, to completed packages. Selected pieces will be considered for broadcast on WCRX 88.1 FM.

**Repeatable:** *N*

**Formerly** RADI 202

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

## **RADI 421 Radio and Audio Documentary**

This Radio Department capstone course teaches students to produce sound-rich audio documentaries suitable for broadcast on the radio, delivered on the Internet, or through mobile media. Students study and employ the appropriate artistic aesthetic necessary for producing quality work in this genre. Each student uses research, the techniques of interviewing, writing, editing, and audio production to create two short documentaries.

**Repeatable:** *Y*

**Formerly** 41-4221

**Prerequisites** AUDI 121 Fundamentals of Audio Production or CINE 130 Editing I or CINE 211 Post-Production Audio I or JOUR 350 Digital Storytelling or PHOT 260 Introduction to Photojournalism or RADI 210 Radio Production I: Intro

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **RADI 481 WCRX Practicum I**

This course provides hands-on experience in the operation of college radio station WCRX. Students become proficient with new digital tools and various digital platforms to understand and effectively use social media in a live broadcast environment. Students work on the air as a music or talk host, news or sports anchor, or call play-by-play sports. They may also work in production or as a social media producer to develop content and maintain social media on-line communities for WCRX. Course requires a minimum of six hours per week of practical activity and two class hours per week.

**Repeatable:** *Y*

**Formerly** 41-3300

**Prerequisites** RADI 118 Radio Workshop and RADI 210 Radio Production I: Intro

**Requirements** Permission Required (DP) and Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

### **JOUR 318 Investigative Reporting**

Course focuses on exploring methods to track a story to its roots, emphasizing the key watchdog and spotlight functions of journalism. Students are taught how to find and report tough stories that powerful interests would rather not have revealed; gather relevant information and documentation; verify that information; and present results for various media.

**Repeatable:** N

**Formerly** 53-3115

**Prerequisites** JOUR 205 Reporting II

**Minimum Credits 3 Maximum Credits 3**

### **JOUR 328 Interpretive Reporting**

Course focuses on interpretive reporting, an advanced journalistic technique that goes beyond the who, what, where of basic reporting to the why and how to bring perspective, clarity, and insight to major news stories. Students use journalistic tools of interviewing, research, and reporting to explain relevance of major issues.

**Repeatable:** N

**Formerly** 53-3130

**Prerequisites** JOUR 205 Reporting II

**Minimum Credits 3 Maximum Credits 3**

## **Broadcast Journalism: Television**

Broadcast Journalism is an interdisciplinary program taught in cooperation with the Television and Communication departments. Students will have the opportunity to learn to report, write and produce television news, features, and in-depth stories. Student-produced television news programs, such as Metro Minutes, a news magazine focusing on arts and entertainment, and Newsbeat, a live TV newscast (news, weather, sports and features), are program highlights. Students intern at major media outlets, including Chicago affiliates of ABC, NBC, CBS, PBS, Fox, and Telemundo.

**Required for the Concentration:**

### **JOUR 234 Broadcast News Writing**

Intended for students entering the Broadcast Journalism concentration, course teaches basic techniques for writing radio and television news scripts.

**Repeatable:** N

**Formerly** 53-2310

**Prerequisites** JOUR 105 Reporting I

**Minimum Credits 3 Maximum Credits 3**

## **JOUR 318 Investigative Reporting**

Course focuses on exploring methods to track a story to its roots, emphasizing the key watchdog and spotlight functions of journalism. Students are taught how to find and report tough stories that powerful interests would rather not have revealed; gather relevant information and documentation; verify that information; and present results for various media.

**Repeatable:** N

**Formerly** 53-3115

**Prerequisites** JOUR 205 Reporting II

**Minimum Credits 3 Maximum Credits 3**

## **JOUR 337 Creating the TV News Package**

This hands-on/lecture course prepares Broadcast Journalism, Television or Cinema students for shooting, interviewing, logging, and editing news package material and provides an opportunity for future reporters and video journalists to practice with their own material in the production of news stories for television. Stand-ups, interviews, voice-overs, sound bites, cut-aways, writing to video, and the use of the television medium to tell the journalistic story are hallmarks of this course.

**Repeatable:** N

**Formerly** TELE 337

**Prerequisites** TELE 125 Television Arts: Production and TELE 212 Television Arts: Writing or TELE 125 Television Arts: Production and JOUR 352 Writing & Reporting TV News or MEDI 102 Cinema and Television Production and TELE 212 Television Arts: Writing

**Minimum Credits 3 Maximum Credits 3**

## **JOUR 352 Writing & Reporting TV News**

Course builds on skills taught in Broadcast News Writing by focusing on development and writing of reporter-news packages as well as news producing. Some stories written in this class are produced in Creating the Television News Package.

**Repeatable:** N

**Formerly** 53-3310

**Prerequisites** JOUR 234 Broadcast News Writing

**Minimum Credits 3 Maximum Credits 3**

## **JOUR 481 TV Newsbeat**

In this course students will produce a TV news show. While the focus will be on television news, much of what students learn and practice will be applicable across digital platforms. This course refines skills learned in previous coursework to gain additional experience in all facets of planning and executing a local news program.

**Repeatable:** Y

**Formerly** 53-4601A

**Prerequisites** COMM 219 Social Media Content or JOUR 450 Journalism Short Documentary or JOUR 337 Creating the TV News Package and JOUR 352 Writing & Reporting TV News

**Requirements** Permission Required (DP)  
**Minimum Credits 4 Maximum Credits 4**

## **TELE 125 Television Arts: Production**

Introductory class in the art of television production provides an overview, and basic, practical, hands-on experience in all aspects of today's trends in the television industry. Although taught in a studio environment, this course will cover camera operation, sound, lighting, video transitions, and graphics as they relate to all forms of production. The final project for the class is the completion of three full productions created by students in the class.

**Repeatable:** N  
**Formerly** 40-1302  
**Minimum Credits 3 Maximum Credits 3**

## **TELE 379 On-Camera Talent**

Course teaches the student the role of being on camera talent in a variety of different production situations. The varied roles of a live reporter, in a hard news deadline situation, the anchor's roles on the news set, the host talent's responsibility and interactions in the entertainment genres of talk, game, and magazine shows. The art of the interview, the how-to of writing scripts, researching guest, and formulating questions will also be included. The culmination of this class will be to conduct on camera interviews in Live, Pre-Taped, and location situations.

**Repeatable:** Y  
**Formerly** 40-3699  
**Requirements** Sophomore Standing or Above (SO)  
**Minimum Credits 3 Maximum Credits 3**

## **Magazine**

The Magazine concentration prepares students for freelance and staff positions at consumer and business-to-business magazines. Students take courses in multi-platform magazine writing and editing and have the opportunity to demonstrate their proficiency by working with students in Design and Photography to create Echo magazine, Columbia College's national award-winning student publication, which is distributed throughout Chicago and contributes to students' portfolios. Students also are encouraged to work as interns during their junior and senior years, in Chicago and elsewhere.

**Required for the Concentration:**

## **JOUR 332 Magazine and Feature Writing**

In this course, students pitch and write a variety of stories, including a substantive feature story that uses scenes and characters to create an engaging narrative. The course covers idea generation, targeting, research, interviewing, structuring, writing and revising, as well as critique.

**Repeatable:** N  
**Formerly** 53-3216  
**Prerequisites** JOUR 205 Reporting II  
**Minimum Credits 3 Maximum Credits 3**

## **JOUR 335 Business Journalism**

Students learn how to research and write articles about business - from large corporations down to small family-owned companies. Students learn terminology specific to business writing and how to craft accessible stories for specialized and general business audiences.

**Repeatable:** N

**Formerly** 53-3215

**Prerequisites** JOUR 205 Reporting II

**Minimum Credits 3 Maximum Credits 3**

### **JOUR 338 Advanced Editing**

In this course, students learn advanced skills necessary for editing magazines and other publications. Students learn to shape stories for specific audiences and platforms, and apply editing, copy editing, fact-checking and audience engagement strategies.

**Repeatable:** N

**Formerly** 53-3210

**Prerequisites** JOUR 108 Copy Editing and JOUR 205 Reporting II

**Minimum Credits 3 Maximum Credits 3**

### **JOUR 350 Digital Storytelling**

The Digital Storytelling course offers intensive hands-on training in multimedia news gathering and production, as well as distribution through digital channels, for a range of journalism story forms, including audio, video, photo essays, online writing, social networking, and audio slideshows. Equipment is required for this course. Consult the Department website.

**Repeatable:** N

**Formerly** 53-3231

**Prerequisites** JOUR 105 Reporting I or JOUR 106 College News Workshop

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

### **JOUR 216 Blogging: Beyond the Basics**

Anyone can blog; this course will teach you how to blog well. Students from throughout the college identify a niche, research the editorial opportunities for that audience, report and write posts, shoot and upload relevant photos and videos, and implement blogging best practices, including ethics, copyright, links, SEO, social media and monetization.

**Repeatable:** Y

**Formerly** 53-2116

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **PROG 102 Code**

Computer science powers the technology and innovation that drives the world; experience in coding logic and syntax is essential for students in a variety of disciplines. This course provides a doorway for students with no experience to gain insight into computational thinking and the application of abstraction at multiple levels, from logic gates and bits, to larger global, social, and political topics. Students in this course learn about the impact of computer science, and complete the semester with work for their portfolio.

**Repeatable:** *N*

**Minimum Credits 3 Maximum Credits 3**

*Complete 6 credits from the following courses:*

### **COMM 140 Smartphone/photo**

This is a hands-on class focusing on the technical, aesthetic and multimedia skills needed to produce images with a smartphone for professional communication and storytelling.

**Repeatable:** *N*

**Formerly** JOUR 140

**Minimum Credits 1 Maximum Credits 1**

### **COMM 141 Smartphone/video**

This is a hands-on class focusing on the technical, aesthetic and multimedia skills needed to produce professional video with a smartphone.

**Repeatable:** *N*

**Formerly** JOUR 141

**Minimum Credits 1 Maximum Credits 1**

### **COMM 143 Smartphone/audio**

This is a hands-on class focusing on the technical, aesthetic and multimedia skills needed to produce professional audio with a smartphone.

**Repeatable:** *N*

**Formerly** JOUR 143

**Minimum Credits 1 Maximum Credits 1**

### **COMM 210 Visual Communication**

A theoretical and a hands-on course that immerses students in all aspects of visual communications, including typography, photography, illustration, informational graphics, design, and layout. Students will create visual projects according to their related fields.

**Repeatable:** *N*

**Formerly** 53-2220

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **COMM 219 Social Media Content**

This course trains students to create strategic and ethical social media and digital content; develop concise and accurate writing and editing skills; and employ search engine optimized keywords, links, and hashtags to grow audiences and motivate them to action.

**Repeatable:** N

**Formerly** 54-2205

**Prerequisites** ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or ENGL 109 Writing and Rhetoric I Stretch B or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

## **JOUR 168 Essentials of Interviewing**

Effective interviewing enables you to obtain information, capture dynamic quotes and incorporate personalities into a story. In this course, students develop skills and strategies, including how to land an interview, thoroughly research the topic and subject, get the subject to open up and offer candid responses, handle follow-up questions, and select and edit quotations. These techniques apply to documentary practices of all kinds in journalism, audio, fiction, creative nonfiction, marketing and other fields.

**Repeatable:** Y

**Formerly** 53-1715

**Minimum Credits 1 Maximum Credits 1**

## **JOUR 245 Covering Sports**

This class explores diverse approaches to covering sports across different media. Students will interact with professionals who cover sports for a variety of media; explore various types of sports coverage; and report and create stories about sports.

**Repeatable:** N

**Formerly** 53-2520

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

*Complete 6 credits from the following courses:*

## **JOUR 316 Opinion and Commentary**

Course teaches students to write or produce research-based opinion stories in their own voices. Course includes exercises in editorial, column, podcast, op-doc and opinion writing on various platforms, including audio and video.

**Repeatable:** N

**Formerly** 53-2510

**DEI**

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **JOUR 318 Investigative Reporting**

Course focuses on exploring methods to track a story to its roots, emphasizing the key watchdog and spotlight functions of journalism. Students are taught how to find and report tough stories that powerful interests would rather not have revealed; gather relevant information and documentation; verify that information; and present results for various media.

**Repeatable:** N

**Formerly** 53-3115

**Prerequisites** JOUR 205 Reporting II

**Minimum Credits 3 Maximum Credits 3**

## **JOUR 328 Interpretive Reporting**

Course focuses on interpretive reporting, an advanced journalistic technique that goes beyond the who, what, where of basic reporting to the why and how to bring perspective, clarity, and insight to major news stories. Students use journalistic tools of interviewing, research, and reporting to explain relevance of major issues.

**Repeatable:** N

**Formerly** 53-3130

**Prerequisites** JOUR 205 Reporting II

**Minimum Credits 3 Maximum Credits 3**

## **JOUR 363 Fashion Journalism**

Students study fashion history, terminology and business and craft news, review and trend stories covering fashion shows, boutiques and designers.

**Repeatable:** N

**Formerly** 53-3542

**Prerequisites** JOUR 205 Reporting II

**Minimum Credits 3 Maximum Credits 3**

## **JOUR 405 Covering Politics:**

Students will learn the fundamentals of covering political campaigns by reporting on local, state and/or presidential races. Students will produce content on deadline and more enterprising work in a variety of formats. Course is open to non-majors with an interest in politics.

**Repeatable:** Y

**Formerly** 53-4120

**Prerequisites** JOUR 105 Reporting I or JOUR 106 College News Workshop

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

## **JOUR 450 Journalism Short Documentary**

Journalism Short Documentary offers intensive, hands-on training in video storytelling and production. Students learn to produce in-depth "mini-doc" stories focusing on newsworthy trends and issues using journalistic best practices and ethics.

**Repeatable:** Y

**Formerly** 53-4840

**Prerequisites** JOUR 350 Digital Storytelling or PHOT 360 Documentary Methods or CINE 266 Documentary Storytelling  
**Minimum Credits 3 Maximum Credits 3**

## **JOUR 463 Global Multimedia**

This course is a practical guide to being a foreign correspondent and to covering international issues in the United States, focusing on immigrant communities in Chicago to understand and report issues of global importance. Students will follow and analyze breaking news and in-depth reporting from around the world. This is a multimedia and social media course that gives students the opportunity to choose from multiple, emerging platforms to tell their stories.

**Repeatable:** N

**Formerly** 53-4660

**Requirements** Senior standing (SR)

**Minimum Credits 3 Maximum Credits 3**

## **JOUR 484 College Magazine Workshop**

In this fast-paced, hands-on course, students in the Journalism and Design programs work together to create a glossy, four-color magazine and a companion website in a single semester. Students redesign the publication, write and edit all stories, create or assign all photos and illustrations, design the pages, sell the advertisements, copy edit, fact check and proofread all pages; and send the magazine out the printer. They also create a website with unique content.

**Repeatable:** Y

**Formerly** 53-4536

**Requirements** Permission Required (DP)

**Minimum Credits 6 Maximum Credits 6**

## **News and Features**

The News and Features concentration focuses on storytelling across media platforms, from deadline news to in-depth analysis, all against the backdrop of Chicago's diverse communities. Students learn to tighten their writing skills, and also get the opportunity to take advanced specialized courses in a number of areas, including covering the courts, business writing, investigative journalism and reporting on the city from a global perspective. Multimedia skills, such as shooting and editing video and audio are infused throughout the curriculum from core courses to electives. Through the College Newspaper Workshop, students have the opportunity to write for the award-winning Columbia Chronicle, the College's weekly student newspaper, and its companion website. Many students also write for the ChicagoTalks and AustinTalks websites, and several of them have been winners and finalists in professional journalism award competitions.

**Required for the Concentration:**

## **JOUR 318 Investigative Reporting**

Course focuses on exploring methods to track a story to its roots, emphasizing the key watchdog and spotlight functions of journalism. Students are taught how to find and report tough stories that powerful interests would rather not have revealed; gather relevant information and documentation; verify that information; and present results for various media.

**Repeatable:** N

**Formerly** 53-3115

**Prerequisites** JOUR 205 Reporting II

**Minimum Credits 3 Maximum Credits 3**

### **JOUR 321 Covering Urban Affairs**

This course is about how a variety of societal forces impact people in urban communities. It explores how decisions and actions by various forces -- including city and county government, media, community leaders and organizations - impact education, health care, housing, transportation, cultural affairs and other quality of life issues in a community. Students will produce multimedia work illustrating these interactions. The course will often focus on a singular topic area.

**Repeatable:** N

**Formerly** 53-3120

**PL**

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **JOUR 350 Digital Storytelling**

The Digital Storytelling course offers intensive hands-on training in multimedia news gathering and production, as well as distribution through digital channels, for a range of journalism story forms, including audio, video, photo essays, online writing, social networking, and audio slideshows. Equipment is required for this course. Consult the Department website.

**Repeatable:** N

**Formerly** 53-3231

**Prerequisites** JOUR 105 Reporting I or JOUR 106 College News Workshop

**Minimum Credits 3 Maximum Credits 3**

### **JOUR 463 Global Multimedia**

This course is a practical guide to being a foreign correspondent and to covering international issues in the United States, focusing on immigrant communities in Chicago to understand and report issues of global importance. Students will follow and analyze breaking news and in-depth reporting from around the world. This is a multimedia and social media course that gives students the opportunity to choose from multiple, emerging platforms to tell their stories.

**Repeatable:** N

**Formerly** 53-4660

**Requirements** Senior standing (SR)

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

## **JOUR 216 Blogging: Beyond the Basics**

Anyone can blog; this course will teach you how to blog well. Students from throughout the college identify a niche, research the editorial opportunities for that audience, report and write posts, shoot and upload relevant photos and videos, and implement blogging best practices, including ethics, copyright, links, SEO, social media and monetization.

**Repeatable:** Y

**Formerly** 53-2116

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

## **PROG 102 Code**

Computer science powers the technology and innovation that drives the world; experience in coding logic and syntax is essential for students in a variety of disciplines. This course provides a doorway for students with no experience to gain insight into computational thinking and the application of abstraction at multiple levels, from logic gates and bits, to larger global, social, and political topics. Students in this course learn about the impact of computer science, and complete the semester with work for their portfolio.

**Repeatable:** N

**Minimum Credits** 3 **Maximum Credits** 3

*Complete 6 credits from the following courses:*

## **COMM 140 Smartphone/photo**

This is a hands-on class focusing on the technical, aesthetic and multimedia skills needed to produce images with a smartphone for professional communication and storytelling.

**Repeatable:** N

**Formerly** JOUR 140

**Minimum Credits** 1 **Maximum Credits** 1

## **COMM 141 Smartphone/video**

This is a hands-on class focusing on the technical, aesthetic and multimedia skills needed to produce professional video with a smartphone.

**Repeatable:** N

**Formerly** JOUR 141

**Minimum Credits** 1 **Maximum Credits** 1

## **COMM 143 Smartphone/audio**

This is a hands-on class focusing on the technical, aesthetic and multimedia skills needed to produce professional audio with a smartphone.

**Repeatable:** N

**Formerly** JOUR 143

**Minimum Credits** 1 **Maximum Credits** 1

## **COMM 210 Visual Communication**

A theoretical and a hands-on course that immerses students in all aspects of visual communications, including typography, photography, illustration, informational graphics, design, and layout. Students will create visual projects according to their related fields.

**Repeatable:** N

**Formerly** 53-2220

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits** 3 **Maximum Credits** 3

## **COMM 219 Social Media Content**

This course trains students to create strategic and ethical social media and digital content; develop concise and accurate writing and editing skills; and employ search engine optimized keywords, links, and hashtags to grow audiences and motivate them to action.

**Repeatable:** N

**Formerly** 54-2205

**Prerequisites** ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or ENGL 109 Writing and Rhetoric I Stretch B or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits** 3 **Maximum Credits** 3

## **JOUR 168 Essentials of Interviewing**

Effective interviewing enables you to obtain information, capture dynamic quotes and incorporate personalities into a story. In this course, students develop skills and strategies, including how to land an interview, thoroughly research the topic and subject, get the subject to open up and offer candid responses, handle follow-up questions, and select and edit quotations. These techniques apply to documentary practices of all kinds in journalism, audio, fiction, creative nonfiction, marketing and other fields.

**Repeatable:** Y

**Formerly** 53-1715

**Minimum Credits** 1 **Maximum Credits** 1

## **JOUR 245 Covering Sports**

This class explores diverse approaches to covering sports across different media. Students will interact with professionals who cover sports for a variety of media; explore various types of sports coverage; and report and create stories about sports.

**Repeatable:** N

**Formerly** 53-2520

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Minimum Credits** 3 **Maximum Credits** 3

*Choose two of the following courses:*

## **JOUR 316 Opinion and Commentary**

Course teaches students to write or produce research-based opinion stories in their own voices. Course includes exercises in editorial, column, podcast, op-doc and opinion writing on various platforms, including audio and video.

**Repeatable:** *N*

**Formerly** 53-2510

**DEI**

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **JOUR 328 Interpretive Reporting**

Course focuses on interpretive reporting, an advanced journalistic technique that goes beyond the who, what, where of basic reporting to the why and how to bring perspective, clarity, and insight to major news stories. Students use journalistic tools of interviewing, research, and reporting to explain relevance of major issues.

**Repeatable:** *N*

**Formerly** 53-3130

**Prerequisites** JOUR 205 Reporting II

**Minimum Credits 3 Maximum Credits 3**

## **JOUR 332 Magazine and Feature Writing**

In this course, students pitch and write a variety of stories, including a substantive feature story that uses scenes and characters to create an engaging narrative. The course covers idea generation, targeting, research, interviewing, structuring, writing and revising, as well as critique.

**Repeatable:** *N*

**Formerly** 53-3216

**Prerequisites** JOUR 205 Reporting II

**Minimum Credits 3 Maximum Credits 3**

## **JOUR 338 Advanced Editing**

In this course, students learn advanced skills necessary for editing magazines and other publications. Students learn to shape stories for specific audiences and platforms, and apply editing, copy editing, fact-checking and audience engagement strategies.

**Repeatable:** *N*

**Formerly** 53-3210

**Prerequisites** JOUR 108 Copy Editing and JOUR 205 Reporting II

**Minimum Credits 3 Maximum Credits 3**

## **JOUR 363 Fashion Journalism**

Students study fashion history, terminology and business and craft news, review and trend stories covering fashion shows, boutiques and designers.

**Repeatable:** *N*  
**Formerly** 53-3542  
**Prerequisites** JOUR 205 Reporting II  
**Minimum Credits** 3 **Maximum Credits** 3

### **JOUR 405 Covering Politics:**

Students will learn the fundamentals of covering political campaigns by reporting on local, state and/or presidential races. Students will produce content on deadline and more enterprising work in a variety of formats. Course is open to non-majors with an interest in politics.

**Repeatable:** *Y*  
**Formerly** 53-4120  
**Prerequisites** JOUR 105 Reporting I or JOUR 106 College News Workshop  
**Requirements** Permission Required (DP)  
**Minimum Credits** 3 **Maximum Credits** 3

### **JOUR 450 Journalism Short Documentary**

Journalism Short Documentary offers intensive, hands-on training in video storytelling and production. Students learn to produce in-depth "mini-doc" stories focusing on newsworthy trends and issues using journalistic best practices and ethics.

**Repeatable:** *Y*  
**Formerly** 53-4840  
**Prerequisites** JOUR 350 Digital Storytelling or PHOT 360 Documentary Methods or CINE 266 Documentary Storytelling  
**Minimum Credits** 3 **Maximum Credits** 3

## **Photojournalism, BA**

The Photojournalism major aims to provide students with valuable photography, video, audio and new media skills. The curriculum draws upon the expertise of the college's Journalism, Photography and Cinema programs, and students will have the opportunity to learn to report and document news and features on various multimedia platforms. Faculty practice award-winning photo and video journalism.

As a result of successfully completing program requirements, students should be able to:

- demonstrate the highest standards of photojournalism to document history accurately and ethically;
- produce tightly focused and compelling breaking news, news features and documentaries, using still images, video, and audio as the assignment and situation demand;
- report and write accurate short articles, descriptive text and captions using clear, forceful, grammatically correct English;
- capture and create high production value video with technical proficiency in any environment and on deadline; and
- capture and create high production value audio with technical proficiency in any environment and on deadline

**PROGRAM REQUIREMENTS - 43 credits required**

## **COMM 141 Smartphone/video**

This is a hands-on class focusing on the technical, aesthetic and multimedia skills needed to produce professional video with a smartphone.

**Repeatable:** *N*

**Formerly** JOUR 141

**Minimum Credits 1 Maximum Credits 1**

## **INMD 130 Immersive Environments I**

Examine historical and contemporary uses of immersive environments. Generate a variety of work using Augmented Reality, Virtual Reality & 360 Video technologies. Explore 21st Century alternative modes of spectatorship; in particular immersive and interactive ways of experiencing visual spectacle.

**Repeatable:** *N*

**Formerly** INMD 430

**Minimum Credits 3 Maximum Credits 3**

## **JOUR 102 Introduction to Journalism**

This course explores rules and roles of journalism along with the challenges of the contemporary media landscape. It also introduces reporting, interviewing and writing skills through hands-on assignments.

**Repeatable:** *N*

**Formerly** 53-1011

**Minimum Credits 3 Maximum Credits 3**

## **JOUR 205 Reporting II**

The course helps students refine their reporting, interviewing, researching and writing skills as they conceptualize, pitch and produce journalistic stories. Students further develop critical-thinking skills as well as the use of social media for newsgathering and storytelling. It emphasizes precision and clarity. Equipment is required for this course. See the Department website.

**Repeatable:** *N*

**Formerly** 53-2020A

**Prerequisites** JOUR 105 Reporting I and JOUR 108 Copy Editing or JOUR 106 College News Workshop and JOUR 108 Copy Editing

**Minimum Credits 3 Maximum Credits 3**

## **JOUR 450 Journalism Short Documentary**

Journalism Short Documentary offers intensive, hands-on training in video storytelling and production. Students learn to produce in-depth "mini-doc" stories focusing on newsworthy trends and issues using journalistic best practices and ethics.

**Repeatable:** *Y*

**Formerly** 53-4840

**Prerequisites** JOUR 350 Digital Storytelling or PHOT 360 Documentary Methods or CINE 266 Documentary Storytelling

**Minimum Credits 3 Maximum Credits 3**

## **PHOT 101 Photographic Practice I**

This course introduces students to basic visual grammar of photographic seeing to explore and pursue diverse interests in photography while learning to become an acute observer. Using digital cameras with manual controls and RAW capture, students will learn the craft of making photographs while also being introduced to issues of aesthetic form, historical context, and diverse photographic practices. Students will question, explore, communicate and evaluate using basic photographic concepts and critical-thinking skills while acquiring new sets of technical, conceptual, and formal language that are applicable to many disciplines.

**Repeatable:** *N*

**Formerly** 23-1111

**Minimum Credits 3 Maximum Credits 3**

## **PHOT 102 Photographic Practice II**

This course reinforces the basic understanding of camera functions, exposure and digital workflow that were taught in PHOT101 Photographic Practice I. It introduces the skills necessary to make and analyze high-quality prints and places greater emphasis on color theory. This course reinforces and expands upon critical thinking skills regarding the diversity of contemporary photographic imagery, and helps students to locate their practice within those traditions and innovations.

**Repeatable:** *N*

**Formerly** 23-1112

**Prerequisites** PHOT 101 Photographic Practice I

**Minimum Credits 3 Maximum Credits 3**

## **PHOT 205 Principles of Light**

Building upon skills learned in previous classes, this foundation level photography course introduces methods for controlling light in the studio and on location. Artificial light sources, both continuous and strobe and hand held light meters are explored. Students will have the opportunity to engage with a variety of lighting concepts and techniques broadly applicable to the various fields of photography.

**Repeatable:** *Y*

**Prerequisites** PHOT 102 Photographic Practice II

**Minimum Credits 3 Maximum Credits 3**

## **PHOT 260 Introduction to Photojournalism**

This is a hands-on class focusing on the technical, aesthetic, journalistic and interpersonal skills needed to produce images that tell stories for newspapers, magazines, books and the Internet. Weekly assignments will introduce students to specific areas of photojournalism. Students may be assigned to cover protests and demonstrations, political campaigns, live performances, press conferences, sporting events as well as feature stories that explore contemporary social issues. Journalistic ethics will be the subject of ongoing discussions throughout the semester, as will applicable business practices for both free-lance and staff photojournalists.

**Repeatable:** *N*

**Formerly** 23-3500

**Prerequisites** PHOT 101 Photographic Practice I

**Minimum Credits** 3 **Maximum Credits** 3

## **PHOT 360 Documentary Methods**

Course introduces students to a wide range of approaches and styles of documentary photography. Students will conceive, develop, and pursue documentary photographic projects and present the work in a manner consistent with the meaning and point of view of the work.

**Repeatable:** *N*

**Formerly** 23-3520

**Prerequisites** PHOT 102 Photographic Practice II

**Minimum Credits** 3 **Maximum Credits** 3

*Choose one of the following courses:*

## **JOUR 105 Reporting I**

This course teaches students reporting skills used in all major journalism media formats. It is designed to give students a solid foundation for subsequent courses in journalistic storytelling. Equipment is required for this course. See the department website.

**Repeatable:** *N*

**Formerly** 53-1015

**Prerequisites** JOUR 102 Introduction to Journalism and ENGL 111 Writing and Rhetoric I or JOUR 102 Introduction to Journalism and ENGL 111H Writing and Rhetoric I: Honors or JOUR 102 Introduction to Journalism and ENGL 121 International Writing and Rhetoric I or JOUR 102 Introduction to Journalism and ENGL 109 Writing and Rhetoric I Stretch B or JOUR 102 Introduction to Journalism and TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits** 3 **Maximum Credits** 3

## **JOUR 106 College News Workshop**

Students in this sophomore-level class serve as reporters and writers for The Columbia Chronicle, the college's award-winning weekly newspaper and its website. The class has learning objectives that parallel those of Reporting I and it may be substituted for Reporting I. Half the class time is devoted to an accelerated introduction to the fundamentals of journalism, and the other half to carrying out Chronicle assignments. This class is also open to a limited number of photography majors interested in photojournalism and building their portfolios. Equipment is required for this course. Consult the department website.

**Repeatable:** *N*

**Formerly** 53-1015A

**Prerequisites** JOUR 102 Introduction to Journalism and ENGL 111 Writing and Rhetoric I or JOUR 102 Introduction to Journalism and ENGL 111H Writing and Rhetoric I: Honors or JOUR 102 Introduction to Journalism and ENGL 121 International Writing and Rhetoric I or JOUR 102 Introduction to Journalism and ENGL 109 Writing and Rhetoric I Stretch B or JOUR 102 Introduction to Journalism and TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Requirements** Permission Required (DP)

**Minimum Credits** 3 **Maximum Credits** 3

*Choose three of the following courses:*

### **COMM 325 Data Storytelling & Visual Strategies**

This class combines theory and practice on strategies of communicating data through digital graphics and various media platforms. It focuses on visual and media literacy, research, narrative storytelling, and media design. Students will gain experience in translating data into public visual stories by designing various digital media infographics and collaborating on a transmedia storytelling project, including images, explanatory charts, maps, animation, and/or diagrams.

**Repeatable:** N

**Formerly** 53-3230

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **JOUR 316 Opinion and Commentary**

Course teaches students to write or produce research-based opinion stories in their own voices. Course includes exercises in editorial, column, podcast, op-doc and opinion writing on various platforms, including audio and video.

**Repeatable:** N

**Formerly** 53-2510

**DEI**

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **JOUR 321 Covering Urban Affairs**

This course is about how a variety of societal forces impact people in urban communities. It explores how decisions and actions by various forces -- including city and county government, media, community leaders and organizations - impact education, health care, housing, transportation, cultural affairs and other quality of life issues in a community. Students will produce multimedia work illustrating these interactions. The course will often focus on a singular topic area.

**Repeatable:** N

**Formerly** 53-3120

**PL**

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **JOUR 405 Covering Politics:**

Students will learn the fundamentals of covering political campaigns by reporting on local, state and/or presidential races. Students will produce content on deadline and more enterprising work in a variety of formats. Course is open to non-majors with an interest in politics.

**Repeatable:** Y

**Formerly** 53-4120

**Prerequisites** JOUR 105 Reporting I or JOUR 106 College News Workshop

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

## **JOUR 463 Global Multimedia**

This course is a practical guide to being a foreign correspondent and to covering international issues in the United States, focusing on immigrant communities in Chicago to understand and report issues of global importance. Students will follow and analyze breaking news and in-depth reporting from around the world. This is a multimedia and social media course that gives students the opportunity to choose from multiple, emerging platforms to tell their stories.

**Repeatable:** *N*

**Formerly** 53-4660

**Requirements** Senior standing (SR)

**Minimum Credits 3 Maximum Credits 3**

## **JOUR 464 Solutions Journalism**

Solutions journalism provides practical insight into how contemporary problems can be addressed. It focuses on effectiveness and provides evidence through in-depth explorations of the people, programs and institutions responding to problems. Students in this upper-level journalism course conduct extensive research as well as in-person interviews, and report and write a publishable story with intellectual depth, factual accuracy and compelling prose.

**Repeatable:** *N*

**Formerly** JOUR 364

**Prerequisites** JOUR 205 Reporting II

**Minimum Credits 3 Maximum Credits 3**

## **RADI 302 Radio Storytelling**

This course focuses on the craft of writing and producing effective radio essays made popular through work found on National Public Radio. Emphasis is placed on storytelling techniques, writing for the ear, sound usage and basic spoken-word audio editing. Students produce four completed radio essays. The course progresses from writing to re-drafting, to audio production, to completed packages. Selected pieces will be considered for broadcast on WCRX 88.1 FM.

**Repeatable:** *N*

**Formerly** RADI 202

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

## **RADI 481 WCRX Practicum I**

This course provides hands-on experience in the operation of college radio station WCRX. Students become proficient with new digital tools and various digital platforms to understand and effectively use social media in a live broadcast environment. Students work on the air as a music or talk host, news or sports anchor, or call play-by-play sports. They may also work in production or as a social media producer to develop content and maintain social media on-line communities for WCRX. Course requires a minimum of six hours per week of practical activity and two class hours per week.

**Repeatable:** Y

**Formerly** 41-3300

**Prerequisites** RADI 118 Radio Workshop and RADI 210 Radio Production I: Intro

**Requirements** Permission Required (DP) and Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

### **CINE 477 Documentary Projects**

This course develops advanced techniques in the process of documentary filmmaking, from idea, research, treatment, shooting techniques, to editing. Students produce a fully developed short documentary film which exhibits a sophisticated approach to documentary concepts, practices, aesthetics, and ethical problems encountered in contemporary documentary filmmaking. Students will workshop ideas leading to a production that communicates meaning, demonstrates an ethical concern for its subjects, affects its audience, and reflects an individual voice.

**Repeatable:** Y

**Formerly** CINE 377

**Prerequisites** CINE 266 Documentary Storytelling or CINE 267 Documentary Production Module I: Location Camera and Sound or CINE 264 Documentary Production Module II: The Interview or CINE 269

Documentary Production III: Intermediate Field Production or PHOT 360 Documentary Methods or JOUR 350 Digital Storytelling

**Minimum Credits 3 Maximum Credits 3**

### **JOUR 481 TV Newsbeat**

In this course students will produce a TV news show. While the focus will be on television news, much of what students learn and practice will be applicable across digital platforms. This course refines skills learned in previous coursework to gain additional experience in all facets of planning and executing a local news program.

**Repeatable:** Y

**Formerly** 53-4601A

**Prerequisites** COMM 219 Social Media Content or JOUR 450 Journalism Short Documentary or JOUR 337 Creating the TV News Package and JOUR 352 Writing & Reporting TV News

**Requirements** Permission Required (DP)

**Minimum Credits 4 Maximum Credits 4**

## **Public Relations, BA**

Students majoring in Public Relations learn to shape the messages that influence public opinion, attitudes and behaviors. Students experience a real-world curriculum, developing portfolio-ready work in the classroom. Throughout their studies, Columbia will endeavor to provide PR majors with multiple opportunities to secure top internships, network with industry thought leaders, utilize cutting edge media tools and platforms, enter industry competitions, develop leadership skills, and participate in our award-winning chapter of the Public Relations Student Society of America (PRSSA). The Public Relations BA aims to equip students with the skills and knowledge necessary for career success in the agency, corporate, government, and non-profit sectors.

As a result of successfully completing program requirements, students should be able to:

- create professional-quality written, verbal and multi-media public relations-oriented content;
- articulate the functions and operations of traditional media outlets, influencer- and expert-generated media, entertainment media, branded and social media channels as well as their interactions with each other;
- effectively collaborate with a diverse range of team members, outside public, and clients, as well as other stakeholders who reflect diversity and inclusion;
- articulate the ethical and cultural implications of proposed public relations recommendations, as well as the issues that arise in the media's shaping of public opinion; and
- demonstrate the ability to manage the development of public relations-oriented solutions, based on research and analytics.

## PROGRAM REQUIREMENTS - 45 credits required

### **ADVE 120 Consumer Behavior**

Course explores the relationship between conscious and unconscious factors influencing many different consumers and examines the need, structure, and interaction with planned communication messages. Survey course gives students insight into the reasons the various disciplines of communication work, using basic readings in the psychology of perception and attitude formation.

**Repeatable:** *N*

**Formerly** 54-1601

**Minimum Credits 3 Maximum Credits 3**

### **ADVE 310 360 Experiential Campaigns**

Experiential communication is one of the hottest branded communication growth areas today. In fact, experiential agencies are growing at twice the rate of traditional agencies. This is not surprising, considering 96% of those experiencing a brand via an activity (digitally or in person) are more likely to buy the brand and share experiences. 360 experiential communication can build not only a brand's ROI, but its ROE (return on engagement) as well. This course will expose students to the very current best practices and also give students the opportunity to develop a strategically sound campaign for a brand (fashion, sports, causes, etc.) based on concrete objectives. This 360 experiential campaign course will not only include engagement driven events (on and off-line), but other critical 360 campaign arenas including: social media; content creation for You Tube, etc.; activation initiatives (e.g., contests, promotions, sampling, pop up shops, etc.); interactive advertising (i.e., location based mobile games) and more.

**Repeatable:** *N*

**Formerly** 54-3607

**Prerequisites** ADVE 101 Advertising Principles or PURE 102 Intro to Public Relations or COMM 203 Social Media Strategy

**Minimum Credits 3 Maximum Credits 3**

### **ADVE 340 Brand Strategy**

This course introduces account planning as the discipline responsible for leveraging consumer insights into powerful and differentiating communication strategies. The class emphasizes using consumer research in the context of strategic brand management. And the course examines the essential features of a consumer insight: what it is, how to get to it, and how to use it.

**Repeatable:** *N*

**Formerly** 54-3810

**Prerequisites** ADVE 120 Consumer Behavior

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

## **ADVE 420 Agency**

Students learn how to function in an advertising or public relations agency as a specialist (account management, creative, media, traffic, production) and as a member of an agency team. Students work with actual clients on real assignments, participate in client meetings, generate contact reports, conduct research, develop strategies, write media plans, ideate concepts, and produce tactical elements. Course culminates in the production of completed marketing campaign elements, enabling students to have published samples for their portfolios.

**Repeatable:** Y

**Formerly** 54-4978

**Minimum Credits** 3 **Maximum Credits** 3

## **COMM 202 Applied Communication Research**

This course introduces students to best practices in communication research design and process. Students develop a mixed research methodology encompassing contemporary digital research and consumer collaborative creative methodologies to make better decisions for their audience's needs. It emphasizes translating research into actionable insights and applicable plans. The final project is an applied communication research project for an organization, non-profit, association, or brand, suitable for inclusion in the student's portfolio.

**Repeatable:** N

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits** 3 **Maximum Credits** 3

## **COMM 219 Social Media Content**

This course trains students to create strategic and ethical social media and digital content; develop concise and accurate writing and editing skills; and employ search engine optimized keywords, links, and hashtags to grow audiences and motivate them to action.

**Repeatable:** N

**Formerly** 54-2205

**Prerequisites** ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or ENGL 109 Writing and Rhetoric I Stretch B or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits** 3 **Maximum Credits** 3

## **PURE 102 Intro to Public Relations**

Course is an overview of the historical development and the contemporary techniques of public relations, one of the fastest-growing career fields in our global information society. Through class discussion and case studies focusing on both actual and creatively imagined situations, students gain insight into the world presented by the major media and learn the importance of research, planning, action, and evaluation, with an emphasis on ethical implications.

**Repeatable:** *N*  
**Formerly** 54-1700  
**Minimum Credits 3 Maximum Credits 3**

## **PURE 105 Public Relations Writing**

Writing-intensive course covers all forms of writing for communicating public relations messages, including press releases, media alerts, public service announcements, video news releases, pitch letters, speechwriting, brochures, newsletters, and other public relations presentations. At the successful completion of the semester, each student has accomplished a writing portfolio.

**Repeatable:** *N*  
**Formerly** 54-1701  
**Minimum Credits 3 Maximum Credits 3**

## **PURE 210 Presentation Skills**

Course emphasizes verbal skills, from presenting and selling ideas to developing an effective public presence before various audiences. It is recommended for students in other majors as they seek to market themselves. Qualifies for the Oral Communication requirement.

**Repeatable:** *N*  
**Formerly** 54-2702  
**SP**  
**Requirements** Sophomore Standing or Above (SO)  
**Minimum Credits 3 Maximum Credits 3**

## **PURE 220 PR Issues and Crisis**

Course provides opportunity for students to enhance their skill set beyond traditional public relations for organizations, products, and services and develop strategic communications skills and tactics for responding to public policy issues and crisis. Students analyze, discuss, and develop case studies on how public relations techniques are applied to issues advocacy and crisis response.

**Repeatable:** *Y*  
**Formerly** 54-2707  
**Prerequisites** PURE 102 Intro to Public Relations  
**Minimum Credits 3 Maximum Credits 3**

## **PURE 310 Social Change Communications**

Course focuses on emerging communication strategies and techniques to promote social causes and issues. We will look at the inextricable link between public opinion and communication. Through analyses of social causes and issues, students will explore how these practices are creating an impact in areas like social welfare, health, energy, gender, and multiculturalism.

**Repeatable:** *N*  
**Formerly** 54-3714  
**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II  
**Minimum Credits 3 Maximum Credits 3**

## **PURE 375 Strategic Media Relations**

This course is designed to deliver each student understanding and experience in real-life media relations. Students will have access to the media database planning tool used by top PR agencies and corporations to develop media outreach strategies and assess media placement outcomes. In addition, students will deliver media pitches and/or media training to a real-world client. This class is designed to enhance the student's body of work; teach firsthand the life and times of the media relations pro; and increase appreciation for the importance of media relationships when it comes to effective public relations.

**Repeatable:** N

**Formerly** 54-3713

**Prerequisites** PURE 102 Intro to Public Relations and PURE 105 Public Relations Writing or COMM 102 Communication Essentials and PURE 105 Public Relations Writing

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

*Choose one of the following courses:*

## **COMM 150 Sports Communication**

Course explores the breadth of the sports communication industry, with a focus on the skills essential for sports communication professionals, including in media relations, promotions, advertising endorsements, sponsorships, experiential/events, digital and social media.

**Repeatable:** N

**Formerly** ADVE 150

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Minimum Credits** 3 **Maximum Credits** 3

## **PURE 240 Fashion Public Relations**

This course builds on the communications foundation and provides students with both a practical and historical context for how to build a fashion brand utilizing public relations. Students will analyze through case study and practical application the fashion public relations industry and the impact of PR on historical and contemporary fashion trends.

**Repeatable:** Y

**Formerly** 54-2715

**Prerequisites** PURE 102 Intro to Public Relations or FASH 101 Intro to the Fashion Industry

**Minimum Credits** 3 **Maximum Credits** 3

## **PURE 260 Political & Government PR**

This course focuses on the specialized activities of major and minor political campaigns and the public relations activities of various government bodies at the national, state, and local levels. We focus on the four Ms of political campaigns - message, messenger, media and money. Some of the questions addressed by the course are: How are statements to convey the candidate's position conceived, crafted and conveyed How does one shape public opinion through written and spoken communications How does a candidate and the campaign identify which messages and positions on an issue will resonate with the values of the electorate and its base

**Repeatable:** N

**Formerly** 54-2705

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

## **RADI 230 Podcasting**

In this introductory course, students learn the aesthetics of podcasting as well as basic content development and production techniques while creating elements of a podcast.

**Repeatable:** N

**Formerly** 41-2252

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits** 3 **Maximum Credits** 3

*Complete 6 credits from the following courses:*

## **BUSE 368 Leadership**

What is leadership and what does it take to be an effective leader in arts, entertainment, and media today? This course seeks to answer such questions as students study, analyze, and discuss leadership concepts and practices. Students also learn how to lead by evaluating the effectiveness of various leadership styles and through the development, application, and assessment of their own leadership capabilities through group and individual assignments and activities.

**Repeatable:** N

**Formerly** 28-3511

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

## **COLL 210 Internship**

This course allows students to take a valuable internship experience in their desired industry for academic credit. Each position is vetted and approved by Career Center to ensure that it is an educational opportunity that will fulfill the learning objectives of the course. Participating in an internship allows the student to gain hands-on experience and explore career interests while applying knowledge and skills learned in the classroom to a work setting. The experience also helps students gain a clearer sense of what they still need to learn and provides an opportunity to build professional networks. Students are responsible for securing their own internships and having them approved prior to registering for this course. Please contact the Career Center for assistance and resources.

**Repeatable:** Y

**Formerly** 99-2100

**Requirements** Permission Required (DP)

**Minimum Credits** 1 **Maximum Credits** 1

## **COLL 230 Internship: Professionalism and Creativity**

This course allows students to take a valuable internship experience in their desired industry for academic credit. Each position is vetted and approved by Career Center to ensure that it is an educational opportunity

that will fulfill the learning objectives of the course. Participating in an internship allows students to gain hands-on experience and explore career interests while applying knowledge and skills learned in the classroom to a work setting. The online, academic component of this internship fosters student understanding of how organizations operate and provides for structured reflection on their experiences and assessment of their knowledge and skills. Students are responsible for securing their own internships and should contact Career Center for assistance and resources to identify and apply for opportunities of interest.

**Repeatable:** Y

**Formerly** 99-2300

**Requirements** Permission Required (DP)

**Minimum Credits** 3 **Maximum Credits** 3

## **COMM 420 Media Ecosystems**

In this capstone project, students work in teams to analyze the civic impact and the reciprocal relationships between a media outlet and a local community. By applying media theories of public sphere, media ecology, and audience studies, the group conducts a social power analysis to explore the information flow, power relationships, and impact of all participants in the media ecosystem. Each team will deliver a professional media kit to their industry partner.

**Repeatable:** N

**Formerly** COMM 320

**DEI**

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

## **PURE 330 Global Communications**

This course examines the role of global communications in human relationships and in business communications. We'll study the theory of intercultural communications in the context of global communications professional practice, and how culture impacts receptivity to messages. We will learn how global communications professionals navigate complex ecosystems to drive organizational success while breaking down barriers to inclusion and engaging stakeholders.

**Repeatable:** N

**Formerly** 54-3707

**GA**

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

## **PURE 360 Advanced Topics in PR**

Topics courses offer the opportunity to explore specialized areas of PR, examine current trends in the practice, and gain knowledge of emerging principles. Courses may include reputation management, stakeholder and media relations, etc.

**Repeatable:** N

**Formerly** 54-3708

**Minimum Credits** 3 **Maximum Credits** 3

## **PURE 380 PR Writers Workshop**

This portfolio-building course adds to the public relations student's body of work with intensive writing assignments. It will give all students an opportunity to refine their writing from earlier course work in everything from PR Writing I to social and digital content courses. Emphasis is on editing and curating the PR portfolio for professional presentation.

**Repeatable:** *N*

**Formerly** 54-3750

**Prerequisites** PURE 105 Public Relations Writing

**Minimum Credits 3 Maximum Credits 3**

## **PURE 450 Organizational Communication**

The most effective organizations build brand loyalty across all stakeholder groups, internal and external, as a method of achieving business strategy. Through open discussions, case studies, research, readings, and guest speakers in the discipline, students will learn how some of the world's most successful organizations grow market share and build world-class brands through effective organizational communication. Students will gain insights into the design and strategy of the organizational communication function, and the profile, character traits, and strategies of the effective leader communicator. Students will also learn how organizational communication unlocks the potential and passions of key stakeholder groups, particularly internal stakeholder groups; builds loyalty and trust; enhances the reputation of the organization; and drives the achievement of key performance indicators (KPIs).

**Repeatable:** *N*

**Prerequisites** PURE 102 Intro to Public Relations and PURE 105 Public Relations Writing or COMM 102 Communication Essentials and COMM 202 Applied Communication Research

**Minimum Credits 3 Maximum Credits 3**

## **Radio, BA**

This Radio major provides students with a comprehensive education in radio and audio media via online, streaming and web-based platforms. Social media, advanced production software, and radio automation systems are integrated in the curriculum to prepare students to engage in the most current technology across digital platforms. The curriculum emphasizes core skills and knowledge for on-air talent, writing, producing, production, and creative content programming. Students create a body of work that can be used when seeking internships and employment. This work may include voice over, radio theater, documentary, and audio storytelling.

All Radio majors complete at least one semester working at the award-winning WCRX 88.1 FM and wcrxfm.com as on-air show hosts, producers, music curators, sportscasters, newscasters, production directors and social media/web content producers. They can propose a new music, talk, news or sports program to further develop their unique voice and talent.

The Radio internship program places students in commercial, public, internet and satellite radio, as well as in production and voice-over companies.

As a result of successfully completing program requirements, students should be able to:

- demonstrate an understanding of the history and operations of the radio station, including programming, engineering, and rules and regulations of the Federal Communications Commission;
- identify and understand the decision-making processes for ethical dilemmas and issues;
- use proper pronunciation and appropriate vocal techniques for effective radio/audio communications;

- demonstrate proficiency of technical and production skills required for radio/audio production;
- create and execute various audio content;
- write, direct, produce, and execute both long- and short-form radio/audio programs; and
- produce a professional quality radio/audio portfolio.

## PROGRAM REQUIREMENTS - 42 credits required

### **COMM 222 Communication Ethics**

In this course, students will examine the professional and ethical standards and legal issues for creators of social media, advertising, public relations and media relations who represent companies, brands, media, nonprofits, organizations, causes and education.

**Repeatable:** *N*

**Formerly** 54-2206

**Prerequisites** ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

### **RADI 102 Introduction to Radio**

Introductory course deals with the language and concepts of the radio broadcasting industry. Students are introduced to an overview of radio broadcast history, station organization, past and present technologies, and terminology through the use of lectures, special guests, projects, films, quizzes, exams, and group exercises.

**Repeatable:** *N*

**Formerly** 41-1100

**Minimum Credits 3 Maximum Credits 3**

### **RADI 105 Voice and Articulation**

Course helps students acquire pronunciation and grammar of oral Standard English that is necessary for broadcasting and oral communication in any professional environment. Students receive an individual evaluation of articulation and voice. Course stresses the concept of becoming bi-dialectic, or learning and using Standard English in addition to your primary dialect. Classroom exercises focus on using Standard English when reading copy and engaging in improvisational conversation.

**Repeatable:** *N*

**Formerly** 41-1107

**Minimum Credits 3 Maximum Credits 3**

### **RADI 118 Radio Workshop**

This entry-level course provides hands-on and practical experience in performing radio programs and operating Industry standard radio broadcast equipment. Course also focuses on the performance experience of an on-air host at a music radio station. Students will develop a personal on-air style by performing radio programs, delivering copy, integrating music into shows and preparing material for program breaks. This course is a pre-requisite for an on-air position at the college radio station WCRX, 88.1FM.

**Repeatable:** Y

**Formerly** 41-1121

**Prerequisites** RADI 105 Voice and Articulation

**Minimum Credits** 3 **Maximum Credits** 3

## **RADI 205 Writing for Radio**

This introductory course covers the basic style, format, and techniques used in various forms of creative writing specific to radio broadcasting and audio media, including content for the Internet and mobile-devices. Students write for several genres, including commercials, public service announcements, commentary, news, documentary, and essay. Emphasis is placed on the specific techniques employed in writing for the ear.

**Repeatable:** N

**Formerly** 41-2107

**Prerequisites** ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits** 3 **Maximum Credits** 3

## **RADI 210 Radio Production I: Intro**

This introduction to digital audio production combines theory with creative, hands-on audio production projects. Each student will use a digital audio workstation loaded with professional audio software. Students will learn audio/production/computer terminology along with fundamental audio production techniques, including recording, editing, mixing, and working with music and sound effects. Each student also will use a portable digital field recorder to produce class projects.

**Repeatable:** N

**Formerly** RADI 126

**Minimum Credits** 3 **Maximum Credits** 3

## **RADI 230 Podcasting**

In this introductory course, students learn the aesthetics of podcasting as well as basic content development and production techniques while creating elements of a podcast.

**Repeatable:** N

**Formerly** 41-2252

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits** 3 **Maximum Credits** 3

## **RADI 421 Radio and Audio Documentary**

This Radio Department capstone course teaches students to produce sound-rich audio documentaries suitable for broadcast on the radio, delivered on the Internet, or through mobile media. Students study and employ the appropriate artistic aesthetic necessary for producing quality work in this genre. Each student uses research, the techniques of interviewing, writing, editing, and audio production to create two short documentaries.

**Repeatable:** Y

**Formerly** 41-4221

**Prerequisites** AUDI 121 Fundamentals of Audio Production or CINE 130 Editing I or CINE 211 Post-Production Audio I or JOUR 350 Digital Storytelling or PHOT 260 Introduction to Photojournalism or RADI 210 Radio Production I: Intro

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

## **RADI 481 WCRX Practicum I**

This course provides hands-on experience in the operation of college radio station WCRX. Students become proficient with new digital tools and various digital platforms to understand and effectively use social media in a live broadcast environment. Students work on the air as a music or talk host, news or sports anchor, or call play-by-play sports. They may also work in production or as a social media producer to develop content and maintain social media on-line communities for WCRX. Course requires a minimum of six hours per week of practical activity and two class hours per week.

**Repeatable:** Y

**Formerly** 41-3300

**Prerequisites** RADI 118 Radio Workshop and RADI 210 Radio Production I: Intro

**Requirements** Permission Required (DP) and Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

## **Electives**

*Choose one of the following courses:*

### **BUSE 275 Self-Management and Freelancing**

This course provides artists of all disciplines with the fundamentals of self-sustaining careers in the arts, entertainment and media. The class equips students with an understanding of the matrix of skills, promotional vehicles, and revenue streams in the arts industries as well as fundamentals of career development and business acumen.

**Repeatable:** N

**Formerly** 28-2712

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits** 3 **Maximum Credits** 3

### **MEDI 370 DocYourWorld**

#docyourworld is a modular course born out of the successful multi-disciplinary collaboration of Cinema, Television, Radio, Journalism, Interactive Arts & Media, Creative Writing, and Photography. This course culminates in the annual event, which bears the same name. #docyourworld brings together students and faculty from across the college along with leaders in the field of the non-fiction documentary form. Students curate and produce the two-day event and develop skills for working with stakeholders in the documentary field.

**Repeatable:** N

**Formerly** 24-1815

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

## **RADI 326 Radio Production II: Advanced**

This intermediate-level course focuses on writing and producing short-form features for music radio. Students will write, record, edit, and produce short features, including a person on the street, mock interview, movie review, and a music-themed PSA. The final project is an artist/music rockumentary that will include original scripting/narration, artist/fan interviews, and music. All projects are recorded, edited, and produced using state-of-the-art digital audio workstations and software.

**Repeatable:** N

**Formerly** 41-3407

**Prerequisites** RADI 210 Radio Production I: Intro

**Minimum Credits 3 Maximum Credits 3**

## **RADI 350 Podcast Series Production**

In this advanced course, students produce and publish a multi-episode, original series, reflecting their individual interests. Students learn the aesthetics of a high-quality audio podcast production. Through the development of audio production techniques and topic exploration, students find their distinctive voice to create unique content. Students also set up a viable system for podcast production and distribution, and explore monetization of their series.

**Repeatable:** Y

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **RADI 352 Radio Dramatic Series:Production**

This is the final part of a three-course sequence to create an episodic radio series for WCRX-FM. Focus will be on transforming audio scripts developed in Radio Dramatic Series: Writing into production documents and the technical and artistic execution of those instructions. Students read scripts and listen to programs that exemplify fine series production. They will systematically shape voice tracks, sound effects and a commissioned musical score into consistent, ready-to-broadcast individual programs on a set schedule.

**Repeatable:** N

**Formerly** 41-3319

**Prerequisites** RADI 210 Radio Production I: Intro or AUDI 121 Fundamentals of Audio Production

**Minimum Credits 3 Maximum Credits 3**

## **RADI 481 WCRX Practicum I**

This course provides hands-on experience in the operation of college radio station WCRX. Students become proficient with new digital tools and various digital platforms to understand and effectively use social media in a live broadcast environment. Students work on the air as a music or talk host, news or sports anchor, or call play-by-play sports. They may also work in production or as a social media producer to develop content and maintain social media on-line communities for WCRX. Course requires a minimum of six hours per week of practical activity and two class hours per week.

**Repeatable:** Y

**Formerly** 41-3300

**Prerequisites** RADI 118 Radio Workshop and RADI 210 Radio Production I: Intro

**Requirements** Permission Required (DP) and Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **TELE 335 Web Series Producer**

This class will cover the responsibilities of a web series producer with focus on launching, distributing, and growing a loyal audience of internet and mobile viewers. Each student will be responsible for building an online presence for and launching of a completed web show.

**Repeatable:** *N*

**Formerly** 40-3240

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **CONCENTRATIONS**

Narrative

## **RADI 302 Radio Storytelling**

This course focuses on the craft of writing and producing effective radio essays made popular through work found on National Public Radio. Emphasis is placed on storytelling techniques, writing for the ear, sound usage and basic spoken-word audio editing. Students produce four completed radio essays. The course progresses from writing to re-drafting, to audio production, to completed packages. Selected pieces will be considered for broadcast on WCRX 88.1 FM.

**Repeatable:** *N*

**Formerly** RADI 202

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

## **RADI 342 Radio Dramatic Series: Writing**

This is part one of a three-course sequence to create an episodic radio series for WCRX-FM. This course covers the style, format and technique of writing the series. Students will read scripts and listen to programs that exemplify fine series writing. They will design and write an original episodic series. Students will analyze their scripts individually and as elements of a larger work. Focus is on the script as a creative and practical blueprint to guide performers and technicians in creating a final product.

**Repeatable:** *N*

**Formerly** 41-3315

**Prerequisites** RADI 205 Writing for Radio or THEA 168 Playwriting I or CINE 145 Screenwriting I: Writing the Short Film or TELE 212 Television Arts: Writing

**Minimum Credits 3 Maximum Credits 3**

## **RADI 350 Podcast Series Production**

In this advanced course, students produce and publish a multi-episode, original series, reflecting their individual interests. Students learn the aesthetics of a high-quality audio podcast production. Through the development of audio production techniques and topic exploration, students find their distinctive voice to create unique content. Students also set up a viable system for podcast production and distribution, and explore monetization of their series.

**Repeatable:** Y

**Requirements** Junior Standing or Above (JR)

*Choose one of the following courses:*

### **RADI 168 Rock & Soul on the Radio: Roots**

This course covers Rock and Soul music's influence on radio formats, modern culture, and technology. Students will analyze the progression of contemporary rock and soul music from its roots in rhythm and blues, country, folk music and jazz from the beginning of the 20th century through 1969. Students will study and report on individual artists and musical groups who created the music, the cultural trends and the styles of these music genres.

**Repeatable:** N

**Formerly** 41-1314

**Minimum Credits 3 Maximum Credits 3**

### **RADI 169 Rock & Soul on the Radio: Contemporary**

This course covers rock and soul music's influence on radio formats, modern culture, current events and present technology. Students will analyze the progression of contemporary rock and soul music from its roots in rhythm and blues, country, folk music and jazz from 1970 to the present. Students will research and report on individual artists and musical groups who created the music, the trends and the styles of this performing art.

**Repeatable:** N

**Formerly** 41-1321

**Minimum Credits 3 Maximum Credits 3**

Voiceover

### **RADI 235 Voiceover**

This course is for all students who are interested in the field of voiceover for commercials, narration, industrials, animation, Internet, and gaming. Students will practice voicing copy using acting techniques, vocal techniques, building characters, and analyzing copy. They will take a trip to a professional studio, record voiceovers in the Audio Arts and Acoustics studios, learn to select, edit and prepare copy for a future demo and learn to perform cold voiceover auditions.

**Repeatable:** Y

**Formerly** 41-2308

**Prerequisites** RADI 105 Voice and Articulation or THEA 103 Voice for Non-Theatre Majors or THEA 112 Theatre Foundation II: Performance

**Minimum Credits 3 Maximum Credits 3**

### **RADI 320 Voiceover Demo Production**

Performance-based course that introduces the student to the skills and techniques used in interpreting and presenting commercial and narrative copy for radio and television advertising as well as scripts used in corporate training and industrial narration. Students work in a studio classroom and receive individual critiques. Emphasis is placed on developing a style that works for each student. Course also includes some lecture presentations regarding the business of voice-overs and how to prepare a demo tape.

**Repeatable:** N

**Formerly** 41-3183

**Prerequisites** RADI 210 Radio Production I: Intro and RADI 235 Voiceover

**Minimum Credits 3 Maximum Credits 3**

## **RADI 339 Voice Acting for Animation**

This course is for students who wish to develop the skills needed to be an animation voice talent. It will explore the acting skills, the vocal skills, the job requirements, the hands on techniques of voicing to picture, auditioning and script analysis. The student will prepare an audio minute of character voices for their portfolio, CD and/or website.

**Repeatable:** Y

**Formerly** 41-3308

**Prerequisites** RADI 235 Voiceover

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

## **RADI 239 Voice Acting for Intractv Gaming**

This course focuses on voice acting techniques necessary to provide unique and compelling performances for the expanding area of interactive games. Students practice using actual game scripts developing text analysis, acting skills, and unique vocal demands required for interactive games as they explore the entrepreneurial skills necessary to enter this field. Acting technique and studio experience helps students know and understand the auditioning, performance, directing, and recording process as students prepare actual interactive game voiceover cuts for their websites.

**Repeatable:** N

**Formerly** 41-2310

**Prerequisites** RADI 235 Voiceover

**Minimum Credits 3 Maximum Credits 3**

## **RADI 280 Voiceover for Narration**

This course is for voiceover students who intend to pursue future work in long form narration. The course will cover the areas of audiobook narration, medical, technical, IVRS (Interactive Voice Response Systems), business to business audio/video tracks, training/educational video voiceover, TV and Radio identity voice branding and film narration. Skills introduced and reinforced are: i.e. script/galley marking, subtle character differentiation, vocal strength and stamina; and tone/delivery for long form narration. Students also prepare professional sample cuts suitable for website posting.

**Repeatable:** Y

**Formerly** 41-2820

**Prerequisites** RADI 235 Voiceover

**Minimum Credits 3 Maximum Credits 3**

# Social Media and Digital Strategy, BA

Columbia is one of the first schools in the country to offer a Social Media and Digital Strategy major, an undergraduate program that prepares students to work in this exciting new field across industries. Content creators, social media managers, digital strategy experts, and others are needed for nonprofits, companies, artists, start-ups, and more. This major draws from established programs in Advertising, Business and Entrepreneurship, Communication, Fashion, Journalism, and Public Relations. This field is rich with internship opportunities, helping you graduate career-ready with ample real-world experience.

As a result of successfully completing program requirements, students should be able to:

- critically analyze, produce, create and distribute social media and digital content that is strategically sound and consumer-relevant;
- identify, interpret, and report research, data and trends to public audience;
- measure and analyze audience engagement, business models and performance metrics;
- execute digital strategies and social media that build awareness for causes and brands, create social change and/or generate revenue streams; and
- adhere to legal and ethical standards when employing social media whether for business, media government, nonprofits or causes.

## PROGRAM REQUIREMENTS - 45 credits required

### **ADVE 120 Consumer Behavior**

Course explores the relationship between conscious and unconscious factors influencing many different consumers and examines the need, structure, and interaction with planned communication messages. Survey course gives students insight into the reasons the various disciplines of communication work, using basic readings in the psychology of perception and attitude formation.

**Repeatable:** *N*

**Formerly** 54-1601

**Minimum Credits 3 Maximum Credits 3**

### **COMM 107 Social Media and Digital Strategy Foundations**

This introductory course provides foundational knowledge to enable students to become better social media users and producers. Students will focus on diversity, inclusiveness and accessibility as they learn about the applications, ethics and effects of social media, as well as the impacts of corporate ownership.

**Repeatable:** *N*

**DEI**

**Minimum Credits 3 Maximum Credits 3**

### **COMM 202 Applied Communication Research**

This course introduces students to best practices in communication research design and process. Students develop a mixed research methodology encompassing contemporary digital research and consumer collaborative creative methodologies to make better decisions for their audience's needs. It emphasizes translating research into actionable insights and applicable plans. The final project is an applied communication research project for an organization, non-profit, association, or brand, suitable for inclusion

in the student's portfolio.

**Repeatable:** *N*

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **COMM 203 Social Media Strategy**

This course teaches students how to connect brands (ranging from business to nonprofits and initiatives) to their critical audiences by developing targeted strategies on social media. Through real-world best practices, examples, and hands-on projects, students will learn about previous social media strategies and develop the strategic components of a social media communication plan that blends aspects of advertising, public relations, and branded content.

**Repeatable:** *N*

**Formerly** COMM 103

**Prerequisites** ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or ENGL 109 Writing and Rhetoric I Stretch B or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

## **COMM 219 Social Media Content**

This course trains students to create strategic and ethical social media and digital content; develop concise and accurate writing and editing skills; and employ search engine optimized keywords, links, and hashtags to grow audiences and motivate them to action.

**Repeatable:** *N*

**Formerly** 54-2205

**Prerequisites** ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or ENGL 109 Writing and Rhetoric I Stretch B or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

## **COMM 325 Data Storytelling & Visual Strategies**

This class combines theory and practice on strategies of communicating data through digital graphics and various media platforms. It focuses on visual and media literacy, research, narrative storytelling, and media design. Students will gain experience in translating data into public visual stories by designing various digital media infographics and collaborating on a transmedia storytelling project, including images, explanatory charts, maps, animation, and/or diagrams.

**Repeatable:** *N*

**Formerly** 53-3230

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **COMM 470 Digital Content and Analytics**

This course focuses on digital communication tools utilized today to strategically plan, create, execute, and evaluate strategic communication programs across contemporary platforms, both well-established and emerging. Industry tools to be explored include: Google Analytics, social media, search engine marketing,

and email marketing. Students will explore strategically planning, creating, and analyzing digital content outcomes.

**Repeatable:** N

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **PURE 105 Public Relations Writing**

Writing-intensive course covers all forms of writing for communicating public relations messages, including press releases, media alerts, public service announcements, video news releases, pitch letters, speechwriting, brochures, newsletters, and other public relations presentations. At the successful completion of the semester, each student has accomplished a writing portfolio.

**Repeatable:** N

**Formerly** 54-1701

**Minimum Credits 3 Maximum Credits 3**

## **PURE 220 PR Issues and Crisis**

Course provides opportunity for students to enhance their skill set beyond traditional public relations for organizations, products, and services and develop strategic communications skills and tactics for responding to public policy issues and crisis. Students analyze, discuss, and develop case studies on how public relations techniques are applied to issues advocacy and crisis response.

**Repeatable:** Y

**Formerly** 54-2707

**Prerequisites** PURE 102 Intro to Public Relations

**Minimum Credits 3 Maximum Credits 3**

## **Digital Content Electives**

*Complete 6 credits from the following courses:*

### **ADVE 220 Concepting I: The Big Idea**

This course teaches students to develop concepts (including copy) for campaigns targeting consumer audiences. Focused on writing campaigns to be featured in print, broadcast, outdoor, and digital media. The course teaches the elements of style and creativity, relevant communication techniques, and the basics of how commercial messages are constructed.

**Repeatable:** N

**Formerly** 54-2606

**Prerequisites** ADVE 101 Advertising Principles or COMM 203 Social Media Strategy

**Minimum Credits 3 Maximum Credits 3**

### **ADVE 245 Advertising Production**

Course allows students to practice the skills needed to plan, produce, and pitch multi-platform advertising campaigns consistent with today's evolving landscape. Students will create innovative concepts for digital advertising (programmatic ads, pre-roll, mobile video, interactive out of home and more) based on a creative

brief, reflecting a clear understanding of diverse cultural perspectives. Ultimately, students will learn production planning, execution and film multiple projects.

**Repeatable:** *N*

**Formerly** 54-2602

**Prerequisites** ADVE 220 Concepting I: The Big Idea or COMM 219 Social Media Content

**Minimum Credits 3 Maximum Credits 3**

### **COMM 140 Smartphone/photo**

This is a hands-on class focusing on the technical, aesthetic and multimedia skills needed to produce images with a smartphone for professional communication and storytelling.

**Repeatable:** *N*

**Formerly** JOUR 140

**Minimum Credits 1 Maximum Credits 1**

### **COMM 141 Smartphone/video**

This is a hands-on class focusing on the technical, aesthetic and multimedia skills needed to produce professional video with a smartphone.

**Repeatable:** *N*

**Formerly** JOUR 141

**Minimum Credits 1 Maximum Credits 1**

### **COMM 143 Smartphone/audio**

This is a hands-on class focusing on the technical, aesthetic and multimedia skills needed to produce professional audio with a smartphone.

**Repeatable:** *N*

**Formerly** JOUR 143

**Minimum Credits 1 Maximum Credits 1**

### **COMM 210 Visual Communication**

A theoretical and a hands-on course that immerses students in all aspects of visual communications, including typography, photography, illustration, informational graphics, design, and layout. Students will create visual projects according to their related fields.

**Repeatable:** *N*

**Formerly** 53-2220

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **RADI 230 Podcasting**

In this introductory course, students learn the aesthetics of podcasting as well as basic content development and production techniques while creating elements of a podcast.

**Repeatable:** N

**Formerly** 41-2252

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## Digital Strategy Electives

*Choose three of the following courses:*

### **ADVE 310 360 Experiential Campaigns**

Experiential communication is one of the hottest branded communication growth areas today. In fact, experiential agencies are growing at twice the rate of traditional agencies. This is not surprising, considering 96% of those experiencing a brand via an activity (digitally or in person) are more likely to buy the brand and share experiences. 360 experiential communication can build not only a brand's ROI, but its ROE (return on engagement) as well. This course will expose students to the very current best practices and also give students the opportunity to develop a strategically sound campaign for a brand (fashion, sports, causes, etc.) based on concrete objectives. This 360 experiential campaign course will not only include engagement driven events (on and off-line), but other critical 360 campaign arenas including: social media; content creation for You Tube, etc.; activation initiatives (e.g., contests, promotions, sampling, pop up shops, etc.); interactive advertising (i.e., location based mobile games) and more.

**Repeatable:** N

**Formerly** 54-3607

**Prerequisites** ADVE 101 Advertising Principles or PURE 102 Intro to Public Relations or COMM 203 Social Media Strategy

**Minimum Credits 3 Maximum Credits 3**

### **ADVE 340 Brand Strategy**

This course introduces account planning as the discipline responsible for leveraging consumer insights into powerful and differentiating communication strategies. The class emphasizes using consumer research in the context of strategic brand management. And the course examines the essential features of a consumer insight: what it is, how to get to it, and how to use it.

**Repeatable:** N

**Formerly** 54-3810

**Prerequisites** ADVE 120 Consumer Behavior

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **ADVE 371 Digital Media Planning**

Students create digital-first paid media communication solutions by identifying the right mix of digital advertising platforms, including social, mobile, search, video, digital display, non-digital platforms, and more. Students analyze media data, develop strategic insights, and create recommendations. The course involves media strategy, costing, scheduling, audience analysis, negotiation strategies, and programmatic buying. Students will learn professional resume-building and create a portfolio-ready, contemporary media plan.

**Repeatable:** N

**Formerly** 54-3102

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **ADVE 380 Account Exec & Brand Manager**

Course focuses on the role of two key marketing positions, one on the client and the other on the agency side of business. Students examine roles and responsibilities of these career options within the context of an integrated marketing environment.

**Repeatable:** N

**Formerly** 54-3504

**Prerequisites** BUSE 101 Introduction to Marketing or ADVE 101 Advertising Principles or PURE 102 Intro to Public Relations or COMM 203 Social Media Strategy

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **BUSE 334 Digital Media Strategies**

This class addresses new and emerging business models and strategies in today's rapidly evolving media industries. Topics include an in depth understanding of social media, online marketing, retail and distribution of digital, audio, and visual content including a la carte download services, subscription, and ad-supported streaming services. Additional topics include e-commerce, web design strategy, mobile retail and promotion, community building, direct to consumer marketing, and a variety of other vital tech-based strategies.

**Repeatable:** N

**Formerly** 28-3416

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **PURE 310 Social Change Communications**

Course focuses on emerging communication strategies and techniques to promote social causes and issues. We will look at the inextricable link between public opinion and communication. Through analyses of social causes and issues, students will explore how these practices are creating an impact in areas like social welfare, health, energy, gender, and multiculturalism.

**Repeatable:** N

**Formerly** 54-3714

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

## **Capstone**

*Choose one of the following courses:*

### **ADVE 420 Agency**

Students learn how to function in an advertising or public relations agency as a specialist (account management, creative, media, traffic, production) and as a member of an agency team. Students work with actual clients on real assignments, participate in client meetings, generate contact reports, conduct research, develop strategies, write media plans, ideate concepts, and produce tactical elements. Course culminates in the production of completed marketing campaign elements, enabling students to have published samples for their portfolios.

**Repeatable:** Y

**Formerly** 54-4978

**Minimum Credits 3 Maximum Credits 3**

## **ADVE 480 Campaign Practicum: Strategic Planning**

This is Semester One of a two-semester Capstone course that offers the ultimate hands-on approach to utilizing principles learned across the Advertising and PR curriculum. As part of the American Advertising Federation, students develop a strategic integrated campaign for a corporate client that includes advertising, marketing, and public relations. The two-semester course culminates at the National Student Advertising Competition, where students pitch the campaign before a review panel composed of advertising agency executives and other communications industry professionals. Interested students who do not meet the outlined prerequisites should contact the Communication department.

**Repeatable:** Y

**Formerly** 54-4605

**Prerequisites** ADVE 280 Advertising Workshop or PURE 220 PR Issues and Crisis

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **Master of Arts**

### **Civic Media, MA**

The Master of Arts in Civic Media offers students an applied perspective on how digital technologies can transform society and culture and encourage new forms of interaction. Students partner with diverse communities and civic and media organizations to collaboratively create, design, deploy, and assess accepted and alternative civic media solutions within the current media ecosystem. During the program, students will foster and support local civic engagement, media literacy, and social action, particularly in historically oppressed and under-represented communities.

As a result of successfully completing program requirements, students should be able to:

- access, analyze, evaluate, and curate data collected from private, public, and government sectors to examine their accountability and social impact;
- use community-centered technologies and culturally responsive practices to fight processes of systemic oppression and build sustainable bridges between diverse groups and institutions;
- design and produce impactful media strategies and content that foster civic engagement and lead to social and cultural equity, particularly in historically underrepresented and systematically oppressed communities; and
- lead and inspire communities to strategically employ civic media practices to increase access, strengthen democratic participation, and ensure equity, in the service of collective problem-solving and socially and culturally transformative community engagement.

## PROGRAM REQUIREMENTS - 30 credits required

### **COMM 503 Civic Media and Participatory Culture**

This seminar course introduces students to the core theoretical principles and historical underpinnings of civic media derived from theories of participatory culture and media, open data, connected learning, and emerging social media and justice movements.

**Repeatable:** *N*

**Minimum Credits 3 Maximum Credits 3**

### **COMM 509 Nonviolent Communication Seminar**

Featuring emerging and enduring scholarship and community-involved social justice and change guest speakers, this seminar style course will introduce humanistic psychologist and activist Dr. Marshall B. Rosenberg's principles of nonviolent individual and group communication; consider the value and application of Dr. Martin Luther King Jr.'s nonviolence principles and steps in the current civic media ecosystem; and serve as an introduction to the MA in Civic Media program, college resources, and academic research best practices.

**Repeatable:** *N*

**Minimum Credits 3 Maximum Credits 3**

### **COMM 519 Workshop in Social Change Communication**

This graduate workshop explores the role of current developments in communication to support, challenge, and accelerate social changes in contemporary global societies as they manifest in urban neighborhoods such as Chicago. In a workshop format with featured guest speakers, students will engage in critical reflection to examine the complexity of social issues that involve various citizens, communities, and organizations. Applying an intersectionality framework, topics may include digital divide, politics, race, gender, sexuality, religion, status quo, or such other subjects that invite critical discussion and application of different communication frameworks to drive social change.

**Repeatable:** *Y*

**Minimum Credits 2 Maximum Credits 2**

### **COMM 691 Thesis**

The civic media thesis can be a scholarly or journalistic story or civically-minded strategic media project that demonstrates research, documentation and media competencies. Theses are approved and reviewed by a thesis review committee graduate faculty and subject to approval by a thesis review committee, which serves as mentors and advisors.

**Repeatable:** *N*

**TH**

**Requirements** Permission Required (DP)

**Minimum Credits 1 Maximum Credits 1**

### **INMD 501 Experience Design**

Engaging experience design looks beyond the digital environment; physical space, pervasive multi-channel experiences, and non-UI environments will be explored alongside traditional digital media and product design. This course will encourage students to evaluate their own work, as well as the work of others, from the viewpoint of their audience. By gaining an awareness of how the participant experiences their work, students should gain an understanding of how to create engaging, user-centered interfaces.

**Repeatable:** *N*

**Minimum Credits 3 Maximum Credits 3**

## Engaged Civic Research Electives

*Choose two of the following courses:*

### **COMM 530 Communication Research**

This class focuses on core strategic communication research tools and methods, including consumer profile databases, social media listening, mobile consumer diaries, digital and physical focus groups, in-home studies, and co-creation and projective techniques. The final communication research project for an organization is suitable for inclusion in the student's portfolio.

**Repeatable:** *N*

**Minimum Credits 3 Maximum Credits 3**

### **COMM 555 Data Activism and Impact Communication**

This course provides students with an overview of the ways advocates can use and apply quantitative data to systematically analyze and create social actions. Students will learn to access, analyze, and evaluate pre-existing and collected data. By observing current civic movements and identifying needs, students will be able to design and conduct a quantitative study that addresses a social issue. By the end of the semester, students will engage in digital storytelling of their applied research to drive a social change.

**Repeatable:** *N*

**Minimum Credits 3 Maximum Credits 3**

### **INMD 503 Research and Evaluation Methods**

Through hypothesis creation and evaluation methods, students will be introduced to techniques for defining an audience and testing their work, as well as existing interfaces. A variety of tools and methodologies will be explored; students will create reflective and research-based case studies to document their process.

**Repeatable:** *N*

**Minimum Credits 3 Maximum Credits 3**

### **JOUR 564 Solutions Journalism: Investigating Social Impact**

In this research course, students will use the techniques of solutions journalism to gain practical insight into how contemporary problems can be addressed. Students will produce a publishable solutions journalism story by carefully researching a problem and the responses to it through in-depth interviews with community members as well as experts, gathering evidence of impact (effectiveness as well as limitations), and completing a story that is insightful, factually accurate and written with intellectual depth and compelling prose.

**Repeatable:** *N*

**Minimum Credits 3 Maximum Credits 3**

## Production and Design Electives

*Complete 9 credits from the following courses:*

### **COMM 570 Digital Content and Analytics**

Course focuses in on digital communication specific industry tools utilized today to strategically plan, create, execute, and evaluate strategic communication programs across contemporary platforms, both well-established and emerging. Industry tools to be explored: Google Analytics, HubSpot CRM, YouTube Advertising, social media platforms (Facebook, Instagram, LinkedIn and newer platforms), search engine marketing and email marketing. Students will explore strategically planning, creating and analyzing digital content outcomes.

**Repeatable:** *N*

**Minimum Credits 3 Maximum Credits 3**

### **COMM 599 Advanced Topics in Communication and Media**

In this course, students explore the topical issues, scholarship, and theories driving emerging communication and media industry practice. Topics change as appropriate and necessary.

**Repeatable:** *Y*

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

### **COMM 690 Graduate Internship: Communication & Media**

In this individualized course, students are provided essential supervision, mentorship, and critical internship feedback. Prior to committing to an internship, students must secure the approval of both their graduate program director and internship and career advisor. During internships, students are required to keep all parties (graduate program director, internship and career advisors, and sponsoring organization) up to date regarding their activities. This course can be repeated a maximum of three times.

**Repeatable:** *Y*

**Requirements** Permission Required (DP)

**Minimum Credits 1 Maximum Credits 1**

### **INMD 507 Universal Design**

This course will focus on inclusive design methods; specifically how to create products, environments, and tools that are accessible without forcing the user to become adaptable. Students will critique current work and cite both modern theory and legal regulations to document a path to universal accessibility.

**Repeatable:** *N*

**Minimum Credits 3 Maximum Credits 3**

### **INMD 550 Collaborative Development**

This course offers an introductory look into the collaborative process in the interactive field. Students will have the opportunity to learn about the roles in interactive team development, how to effectively manage time and project scope, how to set and meet deadlines, and how to work as a group to deliver user-centered projects.

**Repeatable:** N

**Minimum Credits 3 Maximum Credits 3**

### **JOUR 563 Global Multimedia**

In this multimedia and social media course, graduate students cover international issues in the United States, focusing on immigrant communities in Chicago to understand and report on issues of global importance; analyze breaking news and in-depth reporting from around the world; and write and produce multimedia international spot news/feature stories.

**Repeatable:** N

**Formerly** 53-5660

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

### **JOUR 567 Solutions Journalism Lab**

Graduate students will produce a short solutions journalism project as they assume various roles in research, pre-production, production and post-production. As part of the production process, students will learn how to write a journalistic documentary treatment, determine the appropriate media production tools and platform, establish a community engagement plan, and develop an appropriate method for distribution to connect with their targeted audience. Graduate students are asked to have additional reflections and to analyze the impact of their solutions journalism work.

**Repeatable:** N

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

### **JOUR 599 Topics in Storytelling for Social Change**

In this course, graduate students explore emerging journalism and media industry practice in which storytelling drives social change. Students will research, pitch and produce a media work that leads to impactful social change, choosing the appropriate tools and platforms to reach their intended audience. Projects may take the form of interactive or immersive media, cloud-based mobile media, location-based media experiences, serious games, video or other approved media. Topics change as appropriate and necessary.

**Repeatable:** Y

**Requirements** Permission Required (DP)

**Minimum Credits 1 Maximum Credits 3**

## **Capstone**

*Complete 3 credits from the following courses:*

### **COMM 520 Media Ecosystems**

In this capstone project, each graduate student will lead a team of undergraduates to analyze the civic impact and the reciprocal relationships between a media outlet and a local community. By applying media theories of public sphere, media ecology, and audience studies, the group conducts a social power analysis to explore the information flow, power relationships, and impact of all participants in the media ecosystem. Each team will deliver a professional media kit to their industry partner.

**Repeatable:** *N*

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

## **COMM 589 Communication Practicum**

In this course, graduate students function as strategic communication specialists (account management, creative, media, project management, production) in a team working with an actual client on an integrated marketing campaign. They participate in client meetings, generate contact reports, conduct research, develop strategies and communication planning, write media plans, and contribute to conceiving and production.

**Repeatable:** *N*

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

## **COMM 601 Civic Media Practicum**

Serving as the final capstone, this course will enable students to engage thoroughly in the complete cycle of a civic media project, including iterative design through user testing, documentation, assessment, impact sharing, and sustainability planning. Students will complete, implement, document and assess a collaborative civic media project in a real-world community context. Drawing from strategic framework analysis sustainability studies and systems thinking, collaborative student teams will design a communications plan that connects their findings and impact stories with broader issues and contexts to cultivate meaningful and long-term community adoption.

**Repeatable:** *Y*

**Minimum Credits 1 Maximum Credits 6**

# **Strategic Communication, MA**

The Strategic Communication MA leverages Columbia's distinctive position as a strategically creative-driven school with a proven approach to hands-on communication problem-solving rooted in current industry best practices. It also takes advantage of Columbia College's dedication to diversity, equity, and inclusion by emphasizing management, collaboration, and communication informed by diverse voices and perspectives. Its user-friendly format (hybrid, full-time for three semesters or part-time for five semesters), Columbia College's location in the third-largest U.S. media market, and existing faculty who are well-connected with leading agencies and communication firms make this program especially well-positioned.

As a result of successfully completing program requirements, students should be able to:

- create, plan, and implement impactful communication strategies and strategic frameworks that are insights-based, audience relevant, competitively unique, creative, metrics-based, and innovative;
- design, conduct, and analyze research initiatives using both secondary and innovative primary research tools, KPIs (key performance indicators), and other performance metrics;

- lead and successfully participate in a diverse team, involving collaboration and connection with different perspectives, backgrounds, cultural values and lifestyles, skill sets, working styles, and expectations;
- manage and support the content creation process by leveraging best practices in project management, team communication, production tools, and methodologies; and
- adapt an inclusive framework to strategic planning, leadership, implementation, research, and content management to ensure an equitable process with diverse perspectives and contributions.

## PROGRAM REQUIREMENTS - 30 credits required

### **COMM 530 Communication Research**

This class focuses on core strategic communication research tools and methods, including consumer profile databases, social media listening, mobile consumer diaries, digital and physical focus groups, in-home studies, and co-creation and projective techniques. The final communication research project for an organization is suitable for inclusion in the student's portfolio.

**Repeatable:** *N*

**Minimum Credits 3 Maximum Credits 3**

### **COMM 550 Organizational Communication**

The most effective organizations build brand loyalty across all stakeholder groups, internal and external, as a method of achieving business strategy. Through open discussions, case studies, research, readings and guest speakers in the discipline, students will learn how some of the world's most successful organizations including Southwest Airlines, Target, Trader Joe's, and Apple, grow market share and build world-class brands through effective organizational communication. Students will gain insights into the design and strategy of the organizational communication function, and the profile, character traits and strategies of the effective leader communicator. Students will also learn how organizational communication unlocks the potential and passions of key stakeholder groups, particularly internal stakeholder groups; builds loyalty and trust; enhances the reputation of the organization; and drives the achievement of key performance indicators (KPIs).

**Repeatable:** *N*

**Minimum Credits 3 Maximum Credits 3**

### **COMM 570 Digital Content and Analytics**

Course focuses in on digital communication specific industry tools utilized today to strategically plan, create, execute, and evaluate strategic communication programs across contemporary platforms, both well-established and emerging. Industry tools to be explored: Google Analytics, HubSpot CRM, YouTube Advertising, social media platforms (Facebook, Instagram, LinkedIn and newer platforms), search engine marketing and email marketing. Students will explore strategically planning, creating and analyzing digital content outcomes.

**Repeatable:** *N*

**Minimum Credits 3 Maximum Credits 3**

### **COMM 610 Communication Planning**

Course explores core communication planning theories and methods to arrive at distinguishing and powerful strategic insights for brands, associations, and organizations. Students will construct research-based communication briefings and strategic plans across digital and other communication platforms for all intended publics.

**Repeatable:** *N*

**Minimum Credits 3 Maximum Credits 3**

### **COMM 620 Public Relations Seminar**

This course enables students to develop strategic communications skills and real-life media relations for responding to various issues and crisis with an emphasis on ethical public relations management. Students analyze, critique, discuss, and develop media outreach strategies and assess media placement outcomes. Students learn a range of effective public relations methods for handling various events with respect to target audiences.

**Repeatable:** *N*

**Minimum Credits 3 Maximum Credits 3**

### **COMM 630 Advertising Seminar**

This course enables students to delve into strategic issues facing modern advertisers and develop a strategic advertising planning campaign across many contemporary advertising platforms. Students critically explore a brand or organization's category, key competitors and trends, research and analyze strategic consumer opportunities, develop an integrated 360 campaign with media placement recommendations, and identify critical KPIs (key performance indicators) and measurement goals.

**Repeatable:** *N*

**Minimum Credits 3 Maximum Credits 3**

### **COMM 640 Brand Management**

This course explores leadership and management of the communication team for a brand (be it a product, service, association, organization, or an individual). Students will explore techniques for managing both "down and up." Strategic leadership tools will also be explored for overseeing day-today needs as well as long term communication planning across all platforms. Coursework will include needs analysis, conflict anticipation and resolution, partnership management, and strategic brand guidance for a variety of critical audiences, inside and outside of an organization.

**Repeatable:** *N*

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

### **COMM 589 Communication Practicum**

In this course, graduate students function as strategic communication specialists (account management, creative, media, project management, production) in a team working with an actual client on an integrated marketing campaign. They participate in client meetings, generate contact reports, conduct research, develop strategies and communication planning, write media plans, and contribute to conceiving and production.

**Repeatable:** *N*

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

## **COMM 650 Strategic Communication Lab**

This is the culminating course in the Strategic Communication Master of Arts degree. Course leverages all prior graduate degree learning and practical experiences students have had prior into this culminating course. In this capstone applied project course the students will work in teams with an organization to be determined each semester (non-profit, profit, cause, consulting firm, brand, etc.). Students will engage in primary and secondary research, analyze the market and competition, identify key findings, design strategic frameworks, arrive at an insight, construct an over-arching strategy and develop comprehensive cross-platform solutions in a strategic communication plan.

**Repeatable:** *N*

**Minimum Credits 3 Maximum Credits 3**

*Complete 6 credits from the following courses:*

## **BUSE 601 Marketing Strategy I**

This course provides a comprehensive overview of marketing concepts and research methods. Upon completion of the course, students should be able to: 1) Understand all the elements of the marketing mix 2) Relate them to a cultural/artistic context 3) Understand basic quantitative & qualitative research approaches 4) Apply analytical skills to data interpretation & decision making

**Repeatable:** *N*

**Formerly** 28-6100

**Minimum Credits 3 Maximum Credits 3**

## **BUSE 630 Data Analytics for Decision Making**

This course provides students with a practical framework for understanding and implementing data analysis into decision-making for business. Students will learn how data is discovered, recorded, securely stored, organized, analyzed and put to use for business decision-making purposes. Concepts such as probability, big data, hypothesis testing and presenting data in narrative formats will be explored.

**Repeatable:** *N*

**Formerly** 28-6128

**Minimum Credits 3 Maximum Credits 3**

## **BUSE 679 Strategic Leadership for Entrepreneurs**

In this course, students will learn the essential knowledge and skills of strategic leadership, how to develop their own leadership vision and competencies, and how to communicate strategic vision to others within a new venture framework.

**Repeatable:** *N*

**Minimum Credits 3 Maximum Credits 3**

## **COMM 555 Data Activism and Impact Communication**

This course provides students with an overview of the ways advocates can use and apply quantitative data to systematically analyze and create social actions. Students will learn to access, analyze, and evaluate pre-existing and collected data. By observing current civic movements and identifying needs, students will be able to design and conduct a quantitative study that addresses a social issue. By the end of the semester, students will engage in digital storytelling of their applied research to drive a social change.

**Repeatable:** *N*

**Minimum Credits 3 Maximum Credits 3**

### **COMM 599 Advanced Topics in Communication and Media**

In this course, students explore the topical issues, scholarship, and theories driving emerging communication and media industry practice. Topics change as appropriate and necessary.

**Repeatable:** *Y*

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

### **COMM 690 Graduate Internship: Communication & Media**

In this individualized course, students are provided essential supervision, mentorship, and critical internship feedback. Prior to committing to an internship, students must secure the approval of both their graduate program director and internship and career advisor. During internships, students are required to keep all parties (graduate program director, internship and career advisors, and sponsoring organization) up to date regarding their activities. This course can be repeated a maximum of three times.

**Repeatable:** *Y*

**Requirements** Permission Required (DP)

**Minimum Credits 1 Maximum Credits 1**

### **COMM 699 Advanced Topics in Communication and Media**

In this course, students explore the topical issues, scholarship, and theories driving emerging communication and media industry practice. Topics change as appropriate and necessary.

**Repeatable:** *Y*

**Minimum Credits 1 Maximum Credits 3**

### **INMD 501 Experience Design**

Engaging experience design looks beyond the digital environment; physical space, pervasive multi-channel experiences, and non-UI environments will be explored alongside traditional digital media and product design. This course will encourage students to evaluate their own work, as well as the work of others, from the viewpoint of their audience. By gaining an awareness of how the participant experiences their work, students should gain an understanding of how to create engaging, user-centered interfaces.

**Repeatable:** *N*

**Minimum Credits 3 Maximum Credits 3**

### **INMD 550 Collaborative Development**

This course offers an introductory look into the collaborative process in the interactive field. Students will have the opportunity to learn about the roles in interactive team development, how to effectively manage time and project scope, how to set and meet deadlines, and how to work as a group to deliver user-centered projects.

**Repeatable:** *N*

**Minimum Credits 3 Maximum Credits 3**

## **Minor**

### **Advertising Minor**

The Advertising Minor provides students across the college the opportunity to expand their career options, building on skills learned in their majors. Students pursuing an Advertising Minor learn about the advertising industry, its many connected parts (consumer insights, strategic planning, account management, media, creative, production, branded content, etc.) and where they could fit. Advertising Minor students also develop work suitable for inclusion in a professional advertising portfolio, demonstrating their knowledge and hands-on skills acquired through case study and real client experiences. The ad industry draws from most creative occupations, including art direction, design, illustration, photography, interactive, cultural studies, management, film, acting, audio, fiction, poetry, television, radio, music and more.

### **PROGRAM REQUIREMENTS - 18 credits required**

#### **ADVE 101 Advertising Principles**

This course explores advertising in emerging arenas including digital, mobile, native and social media, and more traditional venues such as television and magazines. Advertising is explored as an interdisciplinary business that brings together designers, art directors, photographers, creative writers, filmmakers, and others. The first half of the course is dedicated to advertising terminology and various concepts, while the second half focuses on developing effective creative strategy and a cross-platform campaign.

**Repeatable:** *N*

**Formerly** 54-1600

**Minimum Credits 3 Maximum Credits 3**

#### **ADVE 120 Consumer Behavior**

Course explores the relationship between conscious and unconscious factors influencing many different consumers and examines the need, structure, and interaction with planned communication messages. Survey course gives students insight into the reasons the various disciplines of communication work, using basic readings in the psychology of perception and attitude formation.

**Repeatable:** *N*

**Formerly** 54-1601

**Minimum Credits 3 Maximum Credits 3**

#### **ADVE 280 Advertising Workshop**

This portfolio-building hands-on course is a great way for mid level students interested in advertising and ad minors from allied fields (filmmaking, TV, creative writing, photography, design, marketing, etc.) to create a

comprehensive ad plan answering a creative brand problem. Students' final product is a formal presentation and ad plan, complete with research, strategy, produced creative concepts, and media recommendations.

**Repeatable:** *N*

**Formerly** 54-2601

**Prerequisites** ADVE 101 Advertising Principles

**Minimum Credits** 3 **Maximum Credits** 3

## AREAS OF STUDY

*Complete one area of study.*

Creative

### **ADVE 220 Concepting I: The Big Idea**

This course teaches students to develop concepts (including copy) for campaigns targeting consumer audiences. Focused on writing campaigns to be featured in print, broadcast, outdoor, and digital media. The course teaches the elements of style and creativity, relevant communication techniques, and the basics of how commercial messages are constructed.

**Repeatable:** *N*

**Formerly** 54-2606

**Prerequisites** ADVE 101 Advertising Principles or COMM 203 Social Media Strategy

**Minimum Credits** 3 **Maximum Credits** 3

### **ADVE 325 Concepting II: CW/AD Teams**

Offered jointly by the Design Department and the Communication Department, this course teaches students to work in copywriter/art director teams to develop advertising campaigns. Reflecting standard advertising agency practice, this course sensitizes students to the interdisciplinary nature of the creative process.

**Repeatable:** *N*

**Formerly** 54-3603

**Prerequisites** ADVE 220 Concepting I: The Big Idea

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits** 3 **Maximum Credits** 3

### **COMM 219 Social Media Content**

This course trains students to create strategic and ethical social media and digital content; develop concise and accurate writing and editing skills; and employ search engine optimized keywords, links, and hashtags to grow audiences and motivate them to action.

**Repeatable:** *N*

**Formerly** 54-2205

**Prerequisites** ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or ENGL 109 Writing and Rhetoric I Stretch B or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits** 3 **Maximum Credits** 3

## Strategy and Management

### **ADVE 340 Brand Strategy**

This course introduces account planning as the discipline responsible for leveraging consumer insights into powerful and differentiating communication strategies. The class emphasizes using consumer research in the context of strategic brand management. And the course examines the essential features of a consumer insight: what it is, how to get to it, and how to use it.

**Repeatable:** *N*

**Formerly** 54-3810

**Prerequisites** ADVE 120 Consumer Behavior

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

### **ADVE 371 Digital Media Planning**

Students create digital-first paid media communication solutions by identifying the right mix of digital advertising platforms, including social, mobile, search, video, digital display, non-digital platforms, and more. Students analyze media data, develop strategic insights, and create recommendations. The course involves media strategy, costing, scheduling, audience analysis, negotiation strategies, and programmatic buying. Students will learn professional resume-building and create a portfolio-ready, contemporary media plan.

**Repeatable:** *N*

**Formerly** 54-3102

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

### **ADVE 380 Account Exec & Brand Manager**

Course focuses on the role of two key marketing positions, one on the client and the other on the agency side of business. Students examine roles and responsibilities of these career options within the context of an integrated marketing environment.

**Repeatable:** *N*

**Formerly** 54-3504

**Prerequisites** BUSE 101 Introduction to Marketing or ADVE 101 Advertising Principles or PURE 102 Intro to Public Relations or COMM 203 Social Media Strategy

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

## **Fashion Communication Minor**

The Fashion Communication minor offers students the opportunity to develop practical communication skills for the fashion industry. This minor complements skills Columbia students develop in several majors, including Advertising, Communication, Fashion Studies, Marketing and Public Relations.

As a result of successfully completing the program requirements, students should be able to:

- understand the development, current state, and emerging trends of fashion communication and its audiences;

- create communication content for the fashion industry across a variety of media forms, appropriate to specific audiences, purposes, contents, and contexts; and
- accomplish goals with a critical awareness of fashion communication practices.

## PROGRAM REQUIREMENTS - 18 credits required

### **COMM 102 Communication Essentials**

This hands-on interactive course explores communication perspectives and challenges (verbal and non-verbal) in our diverse culture. Students will practice management of creative communication issues and opportunities we all encounter working with others and in small group settings. Coursework will also investigate particular challenges facing us as ethical and responsible communicators in public, mass, and digital communication settings. Lastly, course will give students a glimpse of the wide range of creative career possibilities in communications fields.

**Repeatable:** *N*

**Formerly** 45-1300

**DEI**

**Minimum Credits 3 Maximum Credits 3**

### **FASH 101 Intro to the Fashion Industry**

This course offers students a broad overview of the interrelated fields of product development and merchandising within the fashion industry. This includes an introduction to global markets, fashion production, distribution, and marketing, and apparel business practices.

**Repeatable:** *N*

**Formerly** 27-1100

**Minimum Credits 3 Maximum Credits 3**

### **FASH 203 Trendspotting**

This course introduces students to research methodology and critical assessment of trend sources and research used to develop products, marketing and merchandising campaigns for fashion and adjacent industries.

**Repeatable:** *N*

**Formerly** 27-2125

**DEI**

**Minimum Credits 3 Maximum Credits 3**

### **PURE 240 Fashion Public Relations**

This course builds on the communications foundation and provides students with both a practical and historical context for how to build a fashion brand utilizing public relations. Students will analyze through case study and practical application the fashion public relations industry and the impact of PR on historical and contemporary fashion trends.

**Repeatable:** *Y*

**Formerly** 54-2715

**Prerequisites** PURE 102 Intro to Public Relations or FASH 101 Intro to the Fashion Industry  
**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

### **COMM 202 Applied Communication Research**

This course introduces students to best practices in communication research design and process. Students develop a mixed research methodology encompassing contemporary digital research and consumer collaborative creative methodologies to make better decisions for their audience's needs. It emphasizes translating research into actionable insights and applicable plans. The final project is an applied communication research project for an organization, non-profit, association, or brand, suitable for inclusion in the student's portfolio.

**Repeatable:** N

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **COMM 219 Social Media Content**

This course trains students to create strategic and ethical social media and digital content; develop concise and accurate writing and editing skills; and employ search engine optimized keywords, links, and hashtags to grow audiences and motivate them to action.

**Repeatable:** N

**Formerly** 54-2205

**Prerequisites** ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or ENGL 109 Writing and Rhetoric I Stretch B or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

### **ADVE 342 Fashion Advertising**

This course exposes students to current best practices in fashion advertising. Students will not only analyze on-trend breakthrough fashion ad campaigns involving mobile, experiential, social media, augmented reality, etc.; they will also develop a 360 integrated campaign for a brand, to be presented to industry professionals. Enrolled students should have some foundational knowledge of the fashion and/or advertising industry as the course will move quickly into strategic considerations, conceptual thinking and campaign tactics. It is an ideal course for those interested in leading integrated 360 communication direction for a fashion brand.

**Repeatable:** N

**Formerly** 54-2400

**Prerequisites** ADVE 101 Advertising Principles or FASH 101 Intro to the Fashion Industry

**Minimum Credits 3 Maximum Credits 3**

### **ADVE 350 Retail Competition**

Course focuses on the National Retail Federation's Student Challenge competition, bringing together a select group of cross-disciplinary Fashion and Advertising students to create retail business & communication plans for a major retailer. Course deliverables include a 20-page business and

communication plan as well as a 90-second video pitch suitable for inclusion in student portfolios. Consultations with industry professionals will also be a part of this course. The winning plan book and video pitch will be sent on to the National Retail Federation competition in October. If the student team makes the finals, the group is flown to NYC in January for the NRF's Big Show annual conference.

**Repeatable:** *N*

**Formerly** 54-3600

**Prerequisites** ADVE 280 Advertising Workshop

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

## **JOUR 363 Fashion Journalism**

Students study fashion history, terminology and business and craft news, review and trend stories covering fashion shows, boutiques and designers.

**Repeatable:** *N*

**Formerly** 53-3542

**Prerequisites** JOUR 205 Reporting II

**Minimum Credits 3 Maximum Credits 3**

## **Journalism Minor**

The minor in Journalism allows students in other majors to explore their interest in journalism, and prepare them for various career options and freelance opportunities. The program includes crucial core courses in journalism fundamentals while offering electives that allow students to specialize in several topics and build off of other majors. Students learn the rights and responsibilities of journalists in a democratic society and practice using technology and social media in the service of good journalism. The minor intends to equip students to be savvy reporters, as well as multimedia storytellers.

## **PROGRAM REQUIREMENTS - 15 credits required**

### **JOUR 102 Introduction to Journalism**

This course explores rules and roles of journalism along with the challenges of the contemporary media landscape. It also introduces reporting, interviewing and writing skills through hands-on assignments.

**Repeatable:** *N*

**Formerly** 53-1011

**Minimum Credits 3 Maximum Credits 3**

### **JOUR 205 Reporting II**

The course helps students refine their reporting, interviewing, researching and writing skills as they conceptualize, pitch and produce journalistic stories. Students further develop critical-thinking skills as well as the use of social media for newsgathering and storytelling. It emphasizes precision and clarity. Equipment is required for this course. See the Department website.

**Repeatable:** N

**Formerly** 53-2020A

**Prerequisites** JOUR 105 Reporting I and JOUR 108 Copy Editing or JOUR 106 College News Workshop and JOUR 108 Copy Editing

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

## **JOUR 105 Reporting I**

This course teaches students reporting skills used in all major journalism media formats. It is designed to give students a solid foundation for subsequent courses in journalistic storytelling. Equipment is required for this course. See the department website.

**Repeatable:** N

**Formerly** 53-1015

**Prerequisites** JOUR 102 Introduction to Journalism and ENGL 111 Writing and Rhetoric I or JOUR 102 Introduction to Journalism and ENGL 111H Writing and Rhetoric I: Honors or JOUR 102 Introduction to Journalism and ENGL 121 International Writing and Rhetoric I or JOUR 102 Introduction to Journalism and ENGL 109 Writing and Rhetoric I Stretch B or JOUR 102 Introduction to Journalism and TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

## **JOUR 106 College News Workshop**

Students in this sophomore-level class serve as reporters and writers for The Columbia Chronicle, the college's award-winning weekly newspaper and its website. The class has learning objectives that parallel those of Reporting I and it may be substituted for Reporting I. Half the class time is devoted to an accelerated introduction to the fundamentals of journalism, and the other half to carrying out Chronicle assignments. This class is also open to a limited number of photography majors interested in photojournalism and building their portfolios. Equipment is required for this course. Consult the department website.

**Repeatable:** N

**Formerly** 53-1015A

**Prerequisites** JOUR 102 Introduction to Journalism and ENGL 111 Writing and Rhetoric I or JOUR 102 Introduction to Journalism and ENGL 111H Writing and Rhetoric I: Honors or JOUR 102 Introduction to Journalism and ENGL 121 International Writing and Rhetoric I or JOUR 102 Introduction to Journalism and ENGL 109 Writing and Rhetoric I Stretch B or JOUR 102 Introduction to Journalism and TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Requirements** Permission Required (DP)

## Radio Minor

The Radio Minor is designed to create a curricular opportunity for students to more fully investigate radio as a discipline adjacent to or beyond their major coursework. A Radio minor and the created body of work augments a student's portfolio, preparing them for a contemporary multi-media environment.

### PROGRAM REQUIREMENTS - 18 credits required

#### **RADI 105 Voice and Articulation**

Course helps students acquire pronunciation and grammar of oral Standard English that is necessary for broadcasting and oral communication in any professional environment. Students receive an individual evaluation of articulation and voice. Course stresses the concept of becoming bi-dialectic, or learning and using Standard English in addition to your primary dialect. Classroom exercises focus on using Standard English when reading copy and engaging in improvisational conversation.

**Repeatable:** *N*

**Formerly** 41-1107

**Minimum Credits 3 Maximum Credits 3**

#### **RADI 205 Writing for Radio**

This introductory course covers the basic style, format, and techniques used in various forms of creative writing specific to radio broadcasting and audio media, including content for the Internet and mobile-devices. Students write for several genres, including commercials, public service announcements, commentary, news, documentary, and essay. Emphasis is placed on the specific techniques employed in writing for the ear.

**Repeatable:** *N*

**Formerly** 41-2107

**Prerequisites** ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

#### **RADI 210 Radio Production I: Intro**

This introduction to digital audio production combines theory with creative, hands-on audio production projects. Each student will use a digital audio workstation loaded with professional audio software. Students will learn audio/production/computer terminology along with fundamental audio production techniques, including recording, editing, mixing, and working with music and sound effects. Each student also will use a

portable digital field recorder to produce class projects.

**Repeatable:** *N*

**Formerly** RADI 126

**Minimum Credits 3 Maximum Credits 3**

## AREAS OF STUDY

*Complete one area of study.*

Music

### **RADI 118 Radio Workshop**

This entry-level course provides hands-on and practical experience in performing radio programs and operating industry standard radio broadcast equipment. Course also focuses on the performance experience of an on-air host at a music radio station. Students will develop a personal on-air style by performing radio programs, delivering copy, integrating music into shows and preparing material for program breaks. This course is a pre-requisite for an on-air position at the college radio station WCRX, 88.1FM.

**Repeatable:** *Y*

**Formerly** 41-1121

**Prerequisites** RADI 105 Voice and Articulation

**Minimum Credits 3 Maximum Credits 3**

### **RADI 326 Radio Production II: Advanced**

This intermediate-level course focuses on writing and producing short-form features for music radio. Students will write, record, edit, and produce short features, including a person on the street, mock interview, movie review, and a music-themed PSA. The final project is an artist/music rockumentary that will include original scripting/narration, artist/fan interviews, and music. All projects are recorded, edited, and produced using state-of-the-art digital audio workstations and software.

**Repeatable:** *N*

**Formerly** 41-3407

**Prerequisites** RADI 210 Radio Production I: Intro

**Minimum Credits 3 Maximum Credits 3**

### **RADI 481 WCRX Practicum I**

This course provides hands-on experience in the operation of college radio station WCRX. Students become proficient with new digital tools and various digital platforms to understand and effectively use social media in a live broadcast environment. Students work on the air as a music or talk host, news or sports anchor, or call play-by-play sports. They may also work in production or as a social media producer to develop content and maintain social media on-line communities for WCRX. Course requires a minimum of six hours per week of practical activity and two class hours per week.

**Repeatable:** *Y*

**Formerly** 41-3300

**Prerequisites** RADI 118 Radio Workshop and RADI 210 Radio Production I: Intro

**Requirements** Permission Required (DP) and Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## Storytelling

### **RADI 302 Radio Storytelling**

This course focuses on the craft of writing and producing effective radio essays made popular through work found on National Public Radio. Emphasis is placed on storytelling techniques, writing for the ear, sound usage and basic spoken-word audio editing. Students produce four completed radio essays. The course progresses from writing to re-drafting, to audio production, to completed packages. Selected pieces will be considered for broadcast on WCRX 88.1 FM.

**Repeatable:** N

**Formerly** RADI 202

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

### **RADI 421 Radio and Audio Documentary**

This Radio Department capstone course teaches students to produce sound-rich audio documentaries suitable for broadcast on the radio, delivered on the Internet, or through mobile media. Students study and employ the appropriate artistic aesthetic necessary for producing quality work in this genre. Each student uses research, the techniques of interviewing, writing, editing, and audio production to create two short documentaries.

**Repeatable:** Y

**Formerly** 41-4221

**Prerequisites** AUDI 121 Fundamentals of Audio Production or CINE 130 Editing I or CINE 211 Post-Production Audio I or JOUR 350 Digital Storytelling or PHOT 260 Introduction to Photojournalism or RADI 210 Radio Production I: Intro

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

### **RADI 230 Podcasting**

In this introductory course, students learn the aesthetics of podcasting as well as basic content development and production techniques while creating elements of a podcast.

**Repeatable:** N

**Formerly** 41-2252

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **RADI 342 Radio Dramatic Series: Writing**

This is part one of a three-course sequence to create an episodic radio series for WCRX-FM. This course covers the style, format and technique of writing the series. Students will read scripts and listen to programs that exemplify fine series writing. They will design and write an original episodic series. Students will analyze their scripts individually and as elements of a larger work. Focus is on the script as a creative and practical blueprint to guide performers and technicians in creating a final product.

**Repeatable:** *N*

**Formerly** 41-3315

**Prerequisites** RADI 205 Writing for Radio or THEA 168 Playwriting I or CINE 145 Screenwriting I: Writing the Short Film or TELE 212 Television Arts: Writing

**Minimum Credits 3 Maximum Credits 3**

## **RADI 352 Radio Dramatic Series:Production**

This is the final part of a three-course sequence to create an episodic radio series for WCRX-FM. Focus will be on transforming audio scripts developed in Radio Dramatic Series: Writing into production documents and the technical and artistic execution of those instructions. Students read scripts and listen to programs that exemplify fine series production. They will systematically shape voice tracks, sound effects and a commissioned musical score into consistent, ready-to-broadcast individual programs on a set schedule.

**Repeatable:** *N*

**Formerly** 41-3319

**Prerequisites** RADI 210 Radio Production I: Intro or AUDI 121 Fundamentals of Audio Production

**Minimum Credits 3 Maximum Credits 3**

## **Social Media and Digital Strategy Minor**

This minor, with curriculum pulled from three departments, will introduce and prepare students with skills necessary to compete in the social media space, an overarching business tool for companies and causes of all types.

## **PROGRAM REQUIREMENTS - 18 credits required**

### **ADVE 120 Consumer Behavior**

Course explores the relationship between conscious and unconscious factors influencing many different consumers and examines the need, structure, and interaction with planned communication messages. Survey course gives students insight into the reasons the various disciplines of communication work, using basic readings in the psychology of perception and attitude formation.

**Repeatable:** *N*

**Formerly** 54-1601

**Minimum Credits 3 Maximum Credits 3**

### **BUSE 358 Marketing Data Analytics**

This course explores data analytics and their impact on marketing strategies. Students start with the fundamentals of proprietary social platform insights and move on to more complex consumer observations provided by big data. Students will explore engagement metrics, cost per click, multi-tiered demographics, audience segmentation, return on engagement, customer relationship management, complex targeting

structures, behavioral statistics, and email success metrics.

**Repeatable:** *N*

**Formerly** 28-2515

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

## **COMM 107 Social Media and Digital Strategy Foundations**

This introductory course provides foundational knowledge to enable students to become better social media users and producers. Students will focus on diversity, inclusiveness and accessibility as they learn about the applications, ethics and effects of social media, as well as the impacts of corporate ownership.

**Repeatable:** *N*

**DEI**

**Minimum Credits** 3 **Maximum Credits** 3

## **COMM 203 Social Media Strategy**

This course teaches students how to connect brands (ranging from business to nonprofits and initiatives) to their critical audiences by developing targeted strategies on social media. Through real-world best practices, examples, and hands-on projects, students will learn about previous social media strategies and develop the strategic components of a social media communication plan that blends aspects of advertising, public relations, and branded content.

**Repeatable:** *N*

**Formerly** COMM 103

**Prerequisites** ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or ENGL 109 Writing and Rhetoric I Stretch B or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits** 3 **Maximum Credits** 3

## **COMM 219 Social Media Content**

This course trains students to create strategic and ethical social media and digital content; develop concise and accurate writing and editing skills; and employ search engine optimized keywords, links, and hashtags to grow audiences and motivate them to action.

**Repeatable:** *N*

**Formerly** 54-2205

**Prerequisites** ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or ENGL 109 Writing and Rhetoric I Stretch B or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits** 3 **Maximum Credits** 3

## **COMM 325 Data Storytelling & Visual Strategies**

This class combines theory and practice on strategies of communicating data through digital graphics and various media platforms. It focuses on visual and media literacy, research, narrative storytelling, and media design. Students will gain experience in translating data into public visual stories by designing various digital media infographics and collaborating on a transmedia storytelling project, including images, explanatory charts, maps, animation, and/or diagrams.

**Repeatable:** *N*

**Formerly** 53-3230

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

## Sports Communication Minor

The Sports Communication minor offers students the opportunity to develop practical communication skills for the sports industry. This minor complements skills Columbia students are developing in many majors (e.g., Business and Entrepreneurship, Cinema and Television Arts, Design, Photography, Cultural Studies). It includes two foundational communication courses and four courses focusing on either the history, the business, or the media coverage of sports.

As a result of successfully completing the program requirements, students should be able to:

- understand the development, current state, and emerging trends of sports communication and its audiences;
- create communication content for the sports industry across a variety of media forms, appropriate to specific audiences, purposes, contents, and contexts; and
- accomplish goals with a critical awareness of sports communication practices.

## PROGRAM REQUIREMENTS - 15 credits required

### **BUSE 165 Business of Sports**

This course is an introduction to Sports Management principles, the structure of the sports industry and sports organizations, either franchises (ex: Cubs), leagues (ex: NBA), venues (ex: Wrigley Field), equipment (ex: Nike), or events (ex: the Olympics). Course also examines the types of employment training and skills career seekers require. Class will focus on the following topics: sports, culture & society, scope of sports industry; sports consumers; governance; leadership; liability & risk management; role of sports agents; careers in sports management. This course is an entry point for other sports management classes, a requirement for students pursuing a sports management degree, and is also open to non-Business and Entrepreneurship majors.

**Repeatable:** *N*

**Formerly** 28-1710

**Minimum Credits** 3 **Maximum Credits** 3

### **COMM 102 Communication Essentials**

This hands-on interactive course explores communication perspectives and challenges (verbal and non-verbal) in our diverse culture. Students will practice management of creative communication issues and opportunities we all encounter working with others and in small group settings. Coursework will also investigate particular challenges facing us as ethical and responsible communicators in public, mass, and digital communication settings. Lastly, course will give students a glimpse of the wide range of creative career possibilities in communications fields.

**Repeatable:** *N*

**Formerly** 45-1300

**DEI**

**Minimum Credits 3 Maximum Credits 3**

## **COMM 150 Sports Communication**

Course explores the breadth of the sports communication industry, with a focus on the skills essential for sports communication professionals, including in media relations, promotions, advertising endorsements, sponsorships, experiential/events, digital and social media.

**Repeatable:** *N*

**Formerly** ADVE 150

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

## **COMM 219 Social Media Content**

This course trains students to create strategic and ethical social media and digital content; develop concise and accurate writing and editing skills; and employ search engine optimized keywords, links, and hashtags to grow audiences and motivate them to action.

**Repeatable:** *N*

**Formerly** 54-2205

**Prerequisites** ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or ENGL 109 Writing and Rhetoric I Stretch B or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

## **JOUR 245 Covering Sports**

This class explores diverse approaches to covering sports across different media. Students will interact with professionals who cover sports for a variety of media; explore various types of sports coverage; and report and create stories about sports.

**Repeatable:** *N*

**Formerly** 53-2520

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

## **Voiceover Minor**

The goal of the minor in Voiceover is to provide students with the skills and knowledge required for the art and practice of voiceover copy interpretation and performance. This minor provides basic skills in the appropriate and effective communication of information. Students learn to interpret, mark and deliver text for copy, including commercials, animation, film narration, audiobooks, eLearning, Internet, entertainment, training videos, mobisodes, webisodes, and tour audio and more.

**PROGRAM REQUIREMENTS - 18 credits required**

## **RADI 210 Radio Production I: Intro**

This introduction to digital audio production combines theory with creative, hands-on audio production projects. Each student will use a digital audio workstation loaded with professional audio software. Students will learn audio/production/computer terminology along with fundamental audio production techniques, including recording, editing, mixing, and working with music and sound effects. Each student also will use a portable digital field recorder to produce class projects.

**Repeatable:** N

**Formerly** RADI 126

**Minimum Credits 3 Maximum Credits 3**

## **RADI 235 Voiceover**

This course is for all students who are interested in the field of voiceover for commercials, narration, industrials, animation, Internet, and gaming. Students will practice voicing copy using acting techniques, vocal techniques, building characters, and analyzing copy. They will take a trip to a professional studio, record voiceovers in the Audio Arts and Acoustics studios, learn to select, edit and prepare copy for a future demo and learn to perform cold voiceover auditions.

**Repeatable:** Y

**Formerly** 41-2308

**Prerequisites** RADI 105 Voice and Articulation or THEA 103 Voice for Non-Theatre Majors or THEA 112 Theatre Foundation II: Performance

**Minimum Credits 3 Maximum Credits 3**

## **RADI 320 Voiceover Demo Production**

Performance-based course that introduces the student to the skills and techniques used in interpreting and presenting commercial and narrative copy for radio and television advertising as well as scripts used in corporate training and industrial narration. Students work in a studio classroom and receive individual critiques. Emphasis is placed on developing a style that works for each student. Course also includes some lecture presentations regarding the business of voice-overs and how to prepare a demo tape.

**Repeatable:** N

**Formerly** 41-3183

**Prerequisites** RADI 210 Radio Production I: Intro and RADI 235 Voiceover

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

## **RADI 105 Voice and Articulation**

Course helps students acquire pronunciation and grammar of oral Standard English that is necessary for broadcasting and oral communication in any professional environment. Students receive an individual evaluation of articulation and voice. Course stresses the concept of becoming bi-dialectic, or learning and using Standard English in addition to your primary dialect. Classroom exercises focus on using Standard English when reading copy and engaging in improvisational conversation.

**Repeatable:** N

**Formerly** 41-1107

**Minimum Credits 3 Maximum Credits 3**

## **THEA 103 Voice for Non-Theatre Majors**

This course is an introduction to the vocal mechanism used in the production of an effective and flexible voice for the stage. Students will learn fundamentals of breathing, resonance, projection, and articulation. Vocal technique will be applied to readings and presentations of theatre monologues. Students will learn a vocal warm-up, record, memorize, and perform. The theory of voice and speech will be addressed in a text chosen for the course.

**Repeatable:** *N*

**Formerly** 31-1300

**Minimum Credits** 3 **Maximum Credits** 3

## **THEA 111 Theatre Foundation I: Theatre Making**

Theatre Foundation I: Theatre Making invites incoming students into their role as creative practitioners. Students investigate the elements and principles of artistic process that can be applied to all aspects of theatre making. The course develops students' awareness, observation and collaborative skills, and their ability to transpose experiences in the world into visual, written, vocal and physical form. Readings, composition work in class and attendance at Columbia College Chicago productions and in the city of Chicago deepens students' understanding and appreciation of the scope of contemporary theatre making practices.

**Repeatable:** *N*

**Formerly** 31-1251

**Concurrent Requisite** THEA 106 Theatre Survey I: Global Drama

**Minimum Credits** 4 **Maximum Credits** 4

*Choose two of the following courses:*

## **RADI 239 Voice Acting for Intractv Gaming**

This course focuses on voice acting techniques necessary to provide unique and compelling performances for the expanding area of interactive games. Students practice using actual game scripts developing text analysis, acting skills, and unique vocal demands required for interactive games as they explore the entrepreneurial skills necessary to enter this field. Acting technique and studio experience helps students know and understand the auditioning, performance, directing, and recording process as students prepare actual interactive game voiceover cuts for their websites.

**Repeatable:** *N*

**Formerly** 41-2310

**Prerequisites** RADI 235 Voiceover

**Minimum Credits** 3 **Maximum Credits** 3

## **RADI 280 Voiceover for Narration**

This course is for voiceover students who intend to pursue future work in long form narration. The course will cover the areas of audiobook narration, medical, technical, IVRS (Interactive Voice Response Systems), business to business audio/video tracks, training/educational video voiceover, TV and Radio identity voice branding and film narration. Skills introduced and reinforced are: i.e. script/galley marking, subtle character differentiation, vocal strength and stamina; and tone/delivery for long form narration. Students also prepare professional sample cuts suitable for website posting.

**Repeatable:** Y

**Formerly** 41-2820

**Prerequisites** RADI 235 Voiceover

**Minimum Credits** 3 **Maximum Credits** 3

## **RADI 302 Radio Storytelling**

This course focuses on the craft of writing and producing effective radio essays made popular through work found on National Public Radio. Emphasis is placed on storytelling techniques, writing for the ear, sound usage and basic spoken-word audio editing. Students produce four completed radio essays. The course progresses from writing to re-drafting, to audio production, to completed packages. Selected pieces will be considered for broadcast on WCRX 88.1 FM.

**Repeatable:** N

**Formerly** RADI 202

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Minimum Credits** 3 **Maximum Credits** 3

## **RADI 339 Voice Acting for Animation**

This course is for students who wish to develop the skills needed to be an animation voice talent. It will explore the acting skills, the vocal skills, the job requirements, the hands on techniques of voicing to picture, auditioning and script analysis. The student will prepare an audio minute of character voices for their portfolio, CD and/or website.

**Repeatable:** Y

**Formerly** 41-3308

**Prerequisites** RADI 235 Voiceover

**Minimum Credits** 3 **Maximum Credits** 3

# **Interactive Arts and Media**

## **Bachelor of Arts**

### **Animation, BA**

The BA degree in Animation offers students several options and areas of study: hand drawn animation, computer animation, cinema visual effects, stop motion animation, alternative forms of animation (or a combination of any or all). It is designed for students who wish to continue to graduate studies and those with an interest in animation who have not yet committed to a career in that field.

As a result of successfully completing program requirements, students should be able to:

- demonstrate proficiencies in digital and computer-generated software and technology through the creation of animated projects;
- demonstrate a comprehension of history, aesthetics and the analytical context of animation in cinema through written, oral and animated presentations;
- employ a professional level of industry practices, standards and career strategies to successfully market and showcase their animated work; and

- create a professional quality animation portfolio demonstrating original cinematic material and a developed artistic voice.

## PROGRAM REQUIREMENTS - 48-51 credits required

### **ANIM 105 Introduction to Traditional Animation**

This course is an introduction to basic animation principles for students with little or no animation production experience. Students explore basic animation techniques including object, hand-drawn, stop-motion, and alternative animation styles. Animated films, both domestic and international, are screened and discussed. Students complete short exercises in each of the techniques mentioned and complete a final project employing a style of their choice that was previously explored during the semester.

**Repeatable:** *N*

**Formerly** 26-1000

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 106 History of Animation**

Course explores the origins of the animation process, beginning with animated films by J. Stewart Blackton, Emil Cohl, Len Lye, Winsor McCay, and many others through to present day productions. The lives and environments, as well as the artistic and narrative influences on these and other animators, will be dissected and studied. The class will involve weekly screenings of films and videos from around the world, including both independent and commercial, to get an understanding of where this art form has been and where it might be going. Emphasis will be on understanding the motivations and influences on animation artists, and how as contemporary animators you might benefit from studying them.

**Repeatable:** *N*

**Formerly** 26-1070

**Prerequisites** ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 201 Storyboarding for Animation**

Learn the art of visual storytelling for animation as a cinema art form. Draw digitally using industry-standard technologies and create a story reel for the final project; a movie comprised of all of storyboard panels (which may include dialogue, music, and sound effects) timed out to reflect the actual pacing of the film.

**Repeatable:** *N*

**Formerly** 26-2040

**Prerequisites** ANIM 101 Animation Foundations or ANIM 105 Introduction to Traditional Animation

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 340 The Business of Animated Content**

Course examines central business and legal matters associated with developing, producing and releasing animated content. Students will be introduced to basic business principles and production hierarchies for short and feature animated films including new technologies and the evolving convergent marketplace.

**Repeatable:** N

**Formerly** 26-3605

**Prerequisites** ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or ENGL 109 Writing and Rhetoric I Stretch B or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **ANIM 480 Animation Production Studio I**

This course is the first of two semesters in which students will be working collaboratively with classmates on a single project, the purpose of which is to simulate an actual production environment that they might face once having left academia. Each participant will be assigned a particular production role based on a portfolio review at the beginning of the class in which each student will be asked to share portfolio work from previous classes with the executive producer (the instructor) and fellow classmates. This first semester of pre-production includes screenplay, design of characters and backgrounds, storyboards, recording of vocal talent, and completion of a story reel.

**Repeatable:** Y

**Formerly** 26-4085

**Prerequisites** ANIM 210 Drawing for Animation I or ANIM 350 Computer Animation: Keyframing II or ANIM 351 Environmental Design & Modeling or ANIM 352 Character Design and Modeling

**Requirements** Senior Standing (SR)

**Minimum Credits 6 Maximum Credits 6**

## **ANIM 481 Animation Production Studio II**

In this course students continue working on the project started in Animation Production Studio I. This class is primarily devoted to production and post-production, with the students embarking on traditional and/or computer animation production, generating visual effects, and working with a sound designer and composer. The goal of this course is to complete production and screen the film by the end of the semester.

**Repeatable:** Y

**Formerly** 26-4090

**Prerequisites** ANIM 480 Animation Production Studio I

**Requirements** Senior Standing (SR)

**Minimum Credits 6 Maximum Credits 6**

## **ANIM 485 Animation Portfolio Development**

Course will help students prepare for work in the field of animation by providing weekly insight and guidance as they develop a working portfolio, resume, and video/DVD with work they've completed. In addition to weekly in-class work, several professional animation studio student recruiters will come to campus throughout the 15-week class to present portfolio examples and discuss the field. They will meet with each of the students one on one to discuss their particular situation and to give them their advice and direction.

**Repeatable:** Y

**Formerly** 26-4048

**Prerequisites** ANIM 480 Animation Production Studio I

**Requirements** Senior Standing (SR)

**Minimum Credits 3 Maximum Credits 3**

## CONCENTRATIONS

### Computer Animation

#### **ANIM 150 Computer Animation: Keyframing I**

This course establishes a beginning understanding of computer-generated (CG) keyframing via object and camera keyframing using industry standard software application. Further animation assignments focus on an intermediate level of character animation through a provided CG character and rig.

**Repeatable:** *N*

**Formerly** 26-1015

**Minimum Credits 3 Maximum Credits 3**

#### **GAME 201 Computer Animation: Modeling**

This course covers basic principles and language of three-dimensional (3D) modeling and animation utilizing industry standard software. Lectures cover the language and applications of these tools for use in the game, animation and film industries. By the completion of this course, students construct a series of sophisticated beginner level character and environment model 3D assets for their 3D portfolio. This course is suitable for students with little to no prior experience in 3D modeling or digital design.

**Repeatable:** *N*

**Formerly** 36-2370

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

#### **ANIM 121 Stop-Motion Animation**

Course provides a basic understanding of three-dimensional animation using armatures, puppets, and objects. With the use of a Video Lunchbox, students will investigate the nature of human movement, and cover topics such as timing, weight, exaggeration, composition, lighting, and narrative approaches. Students will also become familiar with various materials and tools as you explore ways to create characters and simple scenery. A variety of stop-motion films, spanning a wide range of genres, will be viewed and discussed.

**Repeatable:** *N*

**Formerly** 26-1030

**Prerequisites** ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

#### **ANIM 210 Drawing for Animation I**

Drawing-intensive course allows students to acquire an understanding of figurative human emotions and movements, enabling them to create believable animated characters. Students will create model sheets, learn the principles of animation, and learn how to endow your characters with believable actions and acting. Digital pencil testing will allow for the building of the animation from basic motion to more refined movements and emotion. Particular attention will be given to timing, layout, the creation of extreme drawings, and the

process of inbetweening.

**Repeatable:** N

**Formerly** 26-2025

**Prerequisites** ANIM 101 Animation Foundations or ANIM 105 Introduction to Traditional Animation

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

### **ANIM 211 Alternative Strategies in Animation**

Course explores alternative approaches to the normally highly structured, technically oriented process of creating an animated film. Students will be expected to be curious and imaginative as they are introduced to unorthodox approaches including sand, pastels, drawing directly on film stock, paint-on-glass, and other techniques. Students will also view and discuss films created by non-mainstream artists/animations such as Len Lye, Norman McLaren, and others, which will introduce them to highly graphic and imaginative movement and messages.

**Repeatable:** N

**Formerly** 26-2028

**Prerequisites** ANIM 105 Introduction to Traditional Animation

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 213 Animation Layout**

This course focuses on the layout process in animation production which is the creation of the monochromatic drawings which are later rendered as backgrounds for each shot. Students will strengthen their drawing skills by learning how to draw in proper perspective, understand lighting and shading principles. The layout process also teaches students how to block character animation within each shot and also understand how the camera functions within the action of each shot.

**Repeatable:** N

**Formerly** 26-2010

**Prerequisites** ANIM 201 Storyboarding for Animation

**Minimum Credits 3 Maximum Credits 3**

*Choose two of the following courses:*

### **ANIM 350 Computer Animation: Keyframing II**

Course will expand upon the skills and concepts introduced in ANIM 150 Computer Animation: Keyframing I. Using current computer animation software, students will be introduced to advanced concepts and techniques using inverse kinematics/forward kinematics, dynamics, and simulations. Using MEL scripts for animation will also be covered. A series of short exercises will ensure that students understand these skills and techniques as the class progresses. A final project will encourage students to exhibit these acquired skills.

**Repeatable:** Y

**Formerly** 26-3046

**Prerequisites** ANIM 150 Computer Animation: Keyframing I

**Minimum Credits 3 Maximum Credits 3**

## **ANIM 351 Environmental Design & Modeling**

Course emphasizes the design and technical ability needed to model non-character 3-D objects. Students will be introduced to level design, industrial design, and architectural terms and concepts. Using 3-D software, students will design and build environments, set dressing, and vehicles. Level of detail exercises will introduce the concept of polygon and image budget creation. Exercises in stand-alone software packages will teach advanced texture/mapping.

**Repeatable:** Y

**Formerly** 26-3082

**Prerequisites** GAME 201 Computer Animation: Modeling or ANIM 240 Computer Animation

**Minimum Credits** 3 **Maximum Credits** 3

## **ANIM 352 Character Design and Modeling**

Course emphasizes the design and technical ability needed to model 3-D characters. Students will be introduced to design, sculpting, and anatomical terms and concepts. Using 3-D software, students will design and build characters and other organic models. Level of detail exercises will introduce the concept of polygon and image budgets. Exercises in stand-alone software packages will teach advanced texture mapping.

**Repeatable:** Y

**Formerly** 26-3086

**Prerequisites** GAME 201 Computer Animation: Modeling or ANIM 240 Computer Animation

**Minimum Credits** 3 **Maximum Credits** 3

*Complete 6 credits from the following courses:*

## **ANIM 311 Acting For Animators**

This course, recommended for both Traditional and Computer Animation students, focuses on acting techniques for animators exploring the similarities and differences of stage and screen acting. Students will learn acting techniques through physical and emotional acting exercises in addition to viewing scenes from a variety of live action and animated films. Focus of this class is exploring the emotional feelings of characters which lead to their physical movement. Animation assignments include creating a performance with a CG rig (for Computer Animation Students) and hand-drawn character animation (for Traditional Animation Students).

**Repeatable:** N

**Formerly** 26-3050

**Prerequisites** ANIM 210 Drawing for Animation I or ANIM 240 Computer Animation or ANIM 121 Stop-Motion Animation

**Minimum Credits** 3 **Maximum Credits** 3

## **ANIM 332 Animation for Comics**

An examination of Limited Animation practices detailing core principles, practices, methodologies and movements for online and broadcast comic book programming.

**Repeatable:** N

**Formerly** 26-3010

**Prerequisites** INMD 240 Story Development for Interactive Media or RAD1 205 Writing for Radio or RAD1

339 Voice Acting for Animation or ANIM 105 Introduction to Traditional Animation or ANIM 263 CVFX:  
Compositing I

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 365 Computer Animation: Visual Effects**

This course introduces the advanced Computer Animation Concentration student to the visual effects process of integrating computer-generated elements with live action footage. Early assignments integrate pre-existing computer generated elements with live action content. Subsequent assignments introduce advanced texture-mapping, rendering and camera tracking techniques. The course concludes with the development of a solo visual effects sequence that combines idea generation, production strategy and advanced CG rendered objects, particles, effects and camera. Screening of film examples and a presentation assignment about the visual effects industry will underscore the aesthetic impact of CG elements in a live action film.

**Repeatable:** N

**Formerly** 26-3049

**Prerequisites** ANIM 150 Computer Animation: Keyframing I

**Minimum Credits 4 Maximum Credits 4**

### **ANIM 373A Advanced Topics in Computer Animation**

This course continues to refine and advance the aesthetic understanding and technical abilities needed in advanced Computer Generated (CG) animation through a series of rotating topics courses. Computer Animation software such as Autodesk's Maya will be used for classroom review, professional examples and student assignments.

**Repeatable:** Y

**Formerly** ANIM 373

**Prerequisites** ANIM 240 Computer Animation

**Minimum Credits 1 Maximum Credits 1**

### **ANIM 373B Advanced Topics in Computer Animation**

This course continues to refine and advance the aesthetic understanding and technical abilities needed in advanced Computer Generated (CG) animation through a series of rotating topics courses. Computer Animation software such as Autodesk's Maya will be used for classroom review, professional examples and student assignments.

**Repeatable:** Y

**Prerequisites** ANIM 240 Computer Animation

**Minimum Credits 1 Maximum Credits 1**

### **ANIM 373C Advanced Topics in Computer Animation**

This course continues to refine and advance the aesthetic understanding and technical abilities needed in advanced Computer Generated (CG) animation through a series of rotating topics courses. Computer Animation software such as Autodesk's Maya will be used for classroom review, professional examples and student assignments.

**Repeatable:** Y

**Prerequisites** ANIM 240 Computer Animation

**Minimum Credits 1 Maximum Credits 1**

### **ANIM 373D Advanced Topics in Computer Animation**

This course continues to refine and advance the aesthetic understanding and technical abilities needed in advanced Computer Generated (CG) animation through a series of rotating topics courses. Computer Animation software such as Autodesk's Maya will be used for classroom review, professional examples and student assignments.

**Repeatable:** Y

**Prerequisites** ANIM 240 Computer Animation

**Minimum Credits 1 Maximum Credits 1**

### **ANIM 382 Animation Preproduction**

In this course, students develop the stories for their animated thesis solo films required for the BFA degrees in both Traditional and Computer Animation. Students create storyboards and story reels, model sheets, explore art direction, timing, and various other aspects of preproduction that will lead to green-lighting the production of their films in either Traditional or Computer Animation Studio. Animation Preproduction & Story Development must be taken by both Traditional and Computer Animation students pursuing BFAs in their respective areas.

**Repeatable:** Y

**Formerly** 26-3051

**Prerequisites** ANIM 201 Storyboarding for Animation and ANIM 210 Drawing for Animation I or ANIM 201 Storyboarding for Animation and ANIM 240 Computer Animation

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 451 Advanced Character & Environmental Design**

Course continues to refine and advance the design and technical abilities needed to model 3D characters and non-character 3D objects. Using industry standard software for 3D modeling and advanced texture-mapping, students will design and build either characters or environments based on industry standards.

**Repeatable:** N

**Formerly** 26-4089

**Prerequisites** ANIM 352 Character Design and Modeling or ANIM 351 Environmental Design & Modeling

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 482 Animation Solo Project**

After successfully completing Animation Preproduction and Computer Animation students enroll in this course to begin and subsequently complete production of their solo thesis films required for the BFA degree in Traditional and Computer Animation. Animation Solo Project is a repeatable course offering students sufficient time to complete production of their animated films.

**Repeatable:** Y

**Formerly** 26-4060

**Prerequisites** ANIM 382 Animation Preproduction

**Minimum Credits 3 Maximum Credits 3**

## **GAME 337 3D Digital Sculpting**

This course focuses on skills, techniques and concepts that pertain to 3D digital sculpting. In this class students learn how to concept, produce and present high quality 3d models created using specialized digital sculpting software.

**Repeatable:** Y

**Formerly** 36-3350

**Prerequisites** GAME 201 Computer Animation: Modeling

**Minimum Credits** 3 **Maximum Credits** 3

## **GAME 436 Advanced 3D Digital Sculpting**

Digital sculpting is a cornerstone of 3D content creation and concept art creation for games. This course serves as a way for students to create more thoughtfully considered content using digital sculpting processes. Students will learn how to sculpt a series of 3D concepts and then develop a concept into a fully realized, hyper realistic piece of content for a game. This goal will be achieved by using more involved retopology and normal mapping techniques to translate high resolution from high polygon meshes to optimized, low polygon game meshes that can be translated to a game engine.

**Repeatable:** N

**Formerly** 36-3750

**Prerequisites** GAME 337 3D Digital Sculpting

**Minimum Credits** 3 **Maximum Credits** 3

## Traditional Animation (Hand Drawn Pathway)

### **ANIM 210 Drawing for Animation I**

Drawing-intensive course allows students to acquire an understanding of figurative human emotions and movements, enabling them to create believable animated characters. Students will create model sheets, learn the principles of animation, and learn how to endow your characters with believable actions and acting. Digital pencil testing will allow for the building of the animation from basic motion to more refined movements and emotion. Particular attention will be given to timing, layout, the creation of extreme drawings, and the process of inbetweening.

**Repeatable:** N

**Formerly** 26-2025

**Prerequisites** ANIM 101 Animation Foundations or ANIM 105 Introduction to Traditional Animation

**Minimum Credits** 3 **Maximum Credits** 3

### **ANIM 211 Alternative Strategies in Animation**

Course explores alternative approaches to the normally highly structured, technically oriented process of creating an animated film. Students will be expected to be curious and imaginative as they are introduced to unorthodox approaches including sand, pastels, drawing directly on film stock, paint-on-glass, and other techniques. Students will also view and discuss films created by non-mainstream artists/animators such as Len Lye, Norman McLaren, and others, which will introduce them to highly graphic and imaginative movement and messages.

**Repeatable:** N

**Formerly** 26-2028

**Prerequisites** ANIM 105 Introduction to Traditional Animation

**Minimum Credits** 3 **Maximum Credits** 3

## **ANIM 213 Animation Layout**

This course focuses on the layout process in animation production which is the creation of the monochromatic drawings which are later rendered as backgrounds for each shot. Students will strengthen their drawing skills by learning how to draw in proper perspective, understand lighting and shading principles. The layout process also teaches students how to block character animation within each shot and also understand how the camera functions within the action of each shot.

**Repeatable:** N

**Formerly** 26-2010

**Prerequisites** ANIM 201 Storyboarding for Animation

**Minimum Credits** 3 **Maximum Credits** 3

## **ANIM 310 Drawing for Animation II**

This course focuses on advanced character animation where students acquire the skills necessary to understand and communicate the emotions and intentions of a character. Exploring and communicating acting through their character's actions and movements, students apply the principles of classic animation learned in Drawing for Animation I (ANIM 210). Working from a dialogue track, students will learn lip-synching and adding personality and depth to their characters while continuing to develop their skills drawing and animating digitally using a stylus and tablet.

**Repeatable:** N

**Formerly** 26-3026

**Prerequisites** ANIM 210 Drawing for Animation I

**Minimum Credits** 3 **Maximum Credits** 3

## **ANIM 330 Digital Animation Techniques: Ink, Paint & Composite**

Course introduces students to what has become the norm at most studios: digital ink and paint and compositing. Students will work with animated drawings created in Drawing for Animation I (ANIM 210), or create new drawings to scan, paint, and render with independent peg moves, using computers as the medium, creating a full-color 20-second piece of animation for a final project.

**Repeatable:** Y

**Formerly** 26-2075

**Prerequisites** ANIM 210 Drawing for Animation I

**Minimum Credits** 3 **Maximum Credits** 3

*Complete 6 credits from the following courses:*

## **ANIM 311 Acting For Animators**

This course, recommended for both Traditional and Computer Animation students, focuses on acting techniques for animators exploring the similarities and differences of stage and screen acting. Students will learn acting techniques through physical and emotional acting exercises in addition to viewing scenes from a variety of live action and animated films. Focus of this class is exploring the emotional feelings of characters which lead to their physical movement. Animation assignments include creating a performance with a CG rig

(for Computer Animation Students) and hand-drawn character animation (for Traditional Animation Students).

**Repeatable:** *N*

**Formerly** 26-3050

**Prerequisites** ANIM 210 Drawing for Animation I or ANIM 240 Computer Animation or ANIM 121 Stop-Motion Animation

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 331 Digital Animation Techniques Current 2D Trends**

Course introduces students to digital animation techniques and aesthetics currently used by traditional animators for professional productions. Students will apply fundamental animation principles learned in Drawing for Animation 1 (ANIM 210) and apply them using various techniques and software which may include Flash, Photoshop, and After Effects. Students learn to create paperless hand-drawn animation using a digital drawing tablet and computer, creating a short animated piece by the end of the semester.

**Repeatable:** *N*

**Formerly** 26-3047

**Prerequisites** ANIM 210 Drawing for Animation I

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 370 Motion Graphics II**

Course teaches complex film and video compositing under tight deadlines using advanced high-end systems. Course emphasizes storyboarding and design as well as postproduction house protocols.

**Repeatable:** *N*

**Formerly** 24-2421

**Prerequisites** ANIM 270 Motion Graphics I or CINE 310 Cinema Models and Miniatures

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 374A Advanced Topics in Traditional Animation**

This is an advanced topics course in traditional animation. Different sections of this course will focus on different topic areas related to Traditional Animation that are not taught in other classes. Please contact the department for specifics on the content of each topic.

**Repeatable:** *Y*

**Formerly** ANIM 374

**Prerequisites** ANIM 210 Drawing for Animation I

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 1 Maximum Credits 3**

### **ANIM 374B Advanced Topics in Traditional Animation**

This is an advanced topics course in traditional animation. Different sections of this course will focus on different topic areas related to Traditional Animation that are not taught in other classes. Please contact the department for specifics on the content of each topic.

**Repeatable:** *Y*

**Prerequisites** ANIM 210 Drawing for Animation I

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 1 Maximum Credits 3**

### **ANIM 374C Advanced Topics in Traditional Animation**

This is an advanced topics course in traditional animation. Different sections of this course will focus on different topic areas related to Traditional Animation that are not taught in other classes. Please contact the department for specifics on the content of each topic.

**Repeatable:** Y

**Prerequisites** ANIM 210 Drawing for Animation I

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 1 Maximum Credits 3**

### **ANIM 374D Advanced Topics in Traditional Animation**

This is an advanced topics course in traditional animation. Different sections of this course will focus on different topic areas related to Traditional Animation that are not taught in other classes. Please contact the department for specifics on the content of each topic.

**Repeatable:** Y

**Prerequisites** ANIM 210 Drawing for Animation I

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 1 Maximum Credits 3**

### **ANIM 382 Animation Preproduction**

In this course, students develop the stories for their animated thesis solo films required for the BFA degrees in both Traditional and Computer Animation. Students create storyboards and story reels, model sheets, explore art direction, timing, and various other aspects of preproduction that will lead to green-lighting the production of their films in either Traditional or Computer Animation Studio. Animation Preproduction & Story Development must be taken by both Traditional and Computer Animation students pursuing BFAs in their respective areas.

**Repeatable:** Y

**Formerly** 26-3051

**Prerequisites** ANIM 201 Storyboarding for Animation and ANIM 210 Drawing for Animation I or ANIM 201 Storyboarding for Animation and ANIM 240 Computer Animation

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 482 Animation Solo Project**

After successfully completing Animation Preproduction and Computer Animation students enroll in this course to begin and subsequently complete production of their solo thesis films required for the BFA degree in Traditional and Computer Animation. Animation Solo Project is a repeatable course offering students sufficient time to complete production of their animated films.

**Repeatable:** Y

**Formerly** 26-4060

**Prerequisites** ANIM 382 Animation Preproduction

**Minimum Credits 3 Maximum Credits 3**

## Traditional Animation (Stop-Motion Pathway)

### **ANIM 121 Stop-Motion Animation**

Course provides a basic understanding of three-dimensional animation using armatures, puppets, and objects. With the use of a Video Lunchbox, students will investigate the nature of human movement, and cover topics such as timing, weight, exaggeration, composition, lighting, and narrative approaches. Students will also become familiar with various materials and tools as you explore ways to create characters and simple scenery. A variety of stop-motion films, spanning a wide range of genres, will be viewed and discussed.

**Repeatable:** *N*

**Formerly** 26-1030

**Prerequisites** ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 122 Animation Maquettes**

This course teaches the process of creating animation maquettes: the sculptures created from model sheets that are used in the animation field. Students with a sculpting interest will explore the creation of maquettes in the same manner as industry professionals. Preexisting model sheets and models created by the student will be used to interpret two dimensional illustration into 3D sculptures.

**Repeatable:** *N*

**Formerly** 26-1010

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 302 Stop-Motion Animation II**

Course requires that students be responsible for creating a short stop-motion to complete during this 15-week class. Students will be responsible for constructing sets, props, and stop-motion puppets, and will be assigned exercises that help to refine and perfect key scenes within your project. Students will have the option of incorporating sound and lip-sync into your project. Various digital shooting methods will be explored, including using a mini-DV camcorder with a video Lunchbox DV, or using a digital still camera, and editing in an NLE application.

**Repeatable:** *N*

**Formerly** 26-3031

**Prerequisites** ANIM 121 Stop-Motion Animation

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

### **ANIM 210 Drawing for Animation I**

Drawing-intensive course allows students to acquire an understanding of figurative human emotions and movements, enabling them to create believable animated characters. Students will create model sheets, learn the principles of animation, and learn how to endow your characters with believable actions and acting. Digital pencil testing will allow for the building of the animation from basic motion to more refined movements and emotion. Particular attention will be given to timing, layout, the creation of extreme drawings, and the

process of inbetweening.

**Repeatable:** *N*

**Formerly** 26-2025

**Prerequisites** ANIM 101 Animation Foundations or ANIM 105 Introduction to Traditional Animation

**Minimum Credits 3 Maximum Credits 3**

## **ANIM 211 Alternative Strategies in Animation**

Course explores alternative approaches to the normally highly structured, technically oriented process of creating an animated film. Students will be expected to be curious and imaginative as they are introduced to unorthodox approaches including sand, pastels, drawing directly on film stock, paint-on-glass, and other techniques. Students will also view and discuss films created by non-mainstream artists/animators such as Len Lye, Norman McLaren, and others, which will introduce them to highly graphic and imaginative movement and messages.

**Repeatable:** *N*

**Formerly** 26-2028

**Minimum Credits 3 Maximum Credits 3**

## **ANIM 263 CVFX: Compositing I**

Lectures and demonstrations, with supporting materials, along with weekly exercises to reinforce the ideas and principles put forth in these presentations, will guide students toward a solid fundamental understanding of the visual effects postproduction process via the compositing workflow. Students will be given the opportunity to show what they have learned by executing a basic final project at the end of the semester, with a subsequent critique by the class and individually with the instructor.

**Repeatable:** *N*

**Formerly** 24-2209

**Minimum Credits 3 Maximum Credits 3**

*Complete 9 credits from the following courses:*

## **ANIM 311 Acting For Animators**

This course, recommended for both Traditional and Computer Animation students, focuses on acting techniques for animators exploring the similarities and differences of stage and screen acting. Students will learn acting techniques through physical and emotional acting exercises in addition to viewing scenes from a variety of live action and animated films. Focus of this class is exploring the emotional feelings of characters which lead to their physical movement. Animation assignments include creating a performance with a CG rig (for Computer Animation Students) and hand-drawn character animation (for Traditional Animation Students).

**Repeatable:** *N*

**Formerly** 26-3050

**Prerequisites** ANIM 210 Drawing for Animation I or ANIM 240 Computer Animation or ANIM 121 Stop-Motion Animation

**Minimum Credits 3 Maximum Credits 3**

## **ANIM 363 CVFX: Compositing II**

This course teaches students the various analogue and digital techniques of compositing film elements of diverse origin, from film, electronic imaging systems, and computer-generated images, through lecture, demonstration, and hands-on practice.

**Repeatable:** N

**Formerly** 24-3209

**Prerequisites** ANIM 263 CVFX: Compositing I or ANIM 370 Motion Graphics II

**Minimum Credits** 3 **Maximum Credits** 3

## **ANIM 382 Animation Preproduction**

In this course, students develop the stories for their animated thesis solo films required for the BFA degrees in both Traditional and Computer Animation. Students create storyboards and story reels, model sheets, explore art direction, timing, and various other aspects of preproduction that will lead to green-lighting the production of their films in either Traditional or Computer Animation Studio. Animation Preproduction & Story Development must be taken by both Traditional and Computer Animation students pursuing BFAs in their respective areas.

**Repeatable:** Y

**Formerly** 26-3051

**Prerequisites** ANIM 201 Storyboarding for Animation and ANIM 210 Drawing for Animation I or ANIM 201 Storyboarding for Animation and ANIM 240 Computer Animation

**Minimum Credits** 3 **Maximum Credits** 3

## **ANIM 482 Animation Solo Project**

After successfully completing Animation Preproduction and Computer Animation students enroll in this course to begin and subsequently complete production of their solo thesis films required for the BFA degree in Traditional and Computer Animation. Animation Solo Project is a repeatable course offering students sufficient time to complete production of their animated films.

**Repeatable:** Y

**Formerly** 26-4060

**Prerequisites** ANIM 382 Animation Preproduction

**Minimum Credits** 3 **Maximum Credits** 3

## **CINE 310 Cinema Models and Miniatures**

Course emphasizes the design and technical ability needed to create miniatures and models for cinema. Film examples will be analyzed for scale, medium, and style. Students will be introduced to physical modeling and sculpting techniques, media, scale, and architectural terms and concepts. Beginning from sketches and draftings, students will design and build miniature objects, environments, and characters utilizing a variety of materials.

**Repeatable:** Y

**Formerly** 24-2015

**Prerequisites** CINE 107 Production Design I and CINE 208 Cinema Set Design and Construction or CINE 205 Cinema Props

**Minimum Credits** 3 **Maximum Credits** 3

## **Game Art, BA**

The Bachelor of Arts in Game Art provides a fundamental introduction to game-oriented computer art and animation concepts to students with little or no previous experience. The curriculum includes courses in character and environment visualization, computer generated character modeling and digital sculpting, environment modeling, level design and motion capture animation for game content. Students are expected to emerge with an understanding of the game industry's workflow techniques, concepts and strategy for designing and modeling 3D characters and environments, the process of directing, capturing and editing motion capture performances, and mastering the pipeline of state-of-the-art game engines.

As a result of successfully completing program requirements, students should be able to:

- use a variety of workflows and software packages to create sophisticated visual concepts and game/simulation assets, including characters, environments, props and visual effects, and integrate those assets into a game engine;
- implement a wide range of 2D and 3D visual styles to realize a strong creative vision and design for a game or simulation;
- incorporate feedback and art direction to improve game and simulations projects;
- utilize research skills and strategies to conceptualize and produce game art assets for games and simulations;
- use communication and negotiation skills to facilitate professional and productive collaboration between artists or within an interdisciplinary game design team;
- apply knowledge of contemporary art, design and media disciplines to generate creative solutions for games and simulations; and
- create professional digital portfolios and related materials in preparation for careers or postgraduate study as game artists.

## PROGRAM REQUIREMENTS - 54 credits required

### **ANIM 150 Computer Animation: Keyframing I**

This course establishes a beginning understanding of computer-generated (CG) keyframing via object and camera keyframing using industry standard software application. Further animation assignments focus on an intermediate level of character animation through a provided CG character and rig.

**Repeatable:** *N*

**Formerly** 26-1015

**Minimum Credits 3 Maximum Credits 3**

### **GAME 105 Game Culture**

Course explores the increasing popularity of games within today's culture, which necessitates analysis of how games are impacted by social and ideological forces and influence them in turn. Questions like Why do we play and How do we play differently are explored, with many others, as students are guided through topics such as role-playing and identity, ethics, group behavior, competition, gender, race, and aesthetics in modern (and historical) games.

**Repeatable:** *N*

**Formerly** 36-1100

**Prerequisites** ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

## **GAME 110 Introduction to Game Development**

In this course, students learn about and practice foundational skills in the interdisciplinary field of game development, including the areas of game design, game art, programming, sound design UI/UX, and project management. Additionally, students are introduced to the business and career requirements of the game industry. They will learn the personal management skills of a developer. They will identify the skills relevant to the game development discipline of their choice and devise a plan for demonstrating these skills in a professional portfolio. Throughout the course, students will build a prototype digital game from their design, giving them exposure to all aspects of game development and the production process.

**Repeatable:** *N*

**Formerly** 36-1500

**Minimum Credits 3 Maximum Credits 3**

## **GAME 201 Computer Animation: Modeling**

This course covers basic principles and language of three-dimensional (3D) modeling and animation utilizing industry standard software. Lectures cover the language and applications of these tools for use in the game, animation and film industries. By the completion of this course, students construct a series of sophisticated beginner level character and environment model 3D assets for their 3D portfolio. This course is suitable for students with little to no prior experience in 3D modeling or digital design.

**Repeatable:** *N*

**Formerly** 36-2370

**Minimum Credits 3 Maximum Credits 3**

## **GAME 205 2D Art for Games**

This course introduces students to the process of game art creation; brainstorming and conceptualizing, iterative design, interface design, pitching ideas, and documenting production. Students will complete the course with a portfolio of work that includes research, documentation, sketches, storyboards, interface designs, and formalized character, prop, and background sheets.

**Repeatable:** *N*

**Formerly** 36-2350

**Prerequisites** INMD 120 Digital Image Design and GAME 110 Introduction to Game Development

**Minimum Credits 3 Maximum Credits 3**

## **GAME 210 2D Motion for Games**

This course teaches students the fundamentals of traditional 2D animation. The twelve principles of animation will be used to help students develop strong 2D and 3D animation skills. Assignments such as bouncing ball, pendulum and walk cycles will be taught. Industry pipelines and techniques are taught through lectures, demos, and weekly assignments.

**Repeatable:** *N*

**Formerly** 36-2360

**Prerequisites** GAME 205 2D Art for Games or INMD 120 Digital Image Design and GAME 110 Introduction to Game Development

**Minimum Credits 3 Maximum Credits 3**

## **GAME 215 Character Visualization for Games**

In this course students are guided through the character concept creation process. Students begin by learning to effectively utilize complex and abstract geometric forms to communicate ideas. Students then expand their understanding value, shadows, shading, perspective, and composition in the creation of compelling character concept sheets. Lectures and drawing demos support in-depth creative projects that culminate into a final presentation. This course is designed to assist in the transition between foundations of drawing to methods of communicating character concepts.

**Repeatable:** N

**Formerly** 36-2380

**Prerequisites** GAME 205 2D Art for Games and GAME 210 2D Motion for Games

**Minimum Credits 3 Maximum Credits 3**

### **GAME 330 Advanced 3D for Games**

This course focuses on how to work between 3D applications and a game engines. Through this course, students will learn how to create high quality 3D assets and implement them into various game engines. Students will learn how to use basic scripting techniques for implementation and polish in engine. Students will work with engine specific visual effects and physics to create immersive and convincing environments using game engines.

**Repeatable:** Y

**Formerly** 36-3302

**Prerequisites** GAME 210 2D Motion for Games

**Minimum Credits 3 Maximum Credits 3**

### **GAME 337 3D Digital Sculpting**

This course focuses on skills, techniques and concepts that pertain to 3D digital sculpting. In this class students learn how to concept, produce and present high quality 3d models created using specialized digital sculpting software.

**Repeatable:** Y

**Formerly** 36-3350

**Prerequisites** GAME 201 Computer Animation: Modeling

**Minimum Credits 3 Maximum Credits 3**

### **GAME 436 Advanced 3D Digital Sculpting**

Digital sculpting is a cornerstone of 3D content creation and concept art creation for games. This course serves as a way for students to create more thoughtfully considered content using digital sculpting processes. Students will learn how to sculpt a series of 3D concepts and then develop a concept into a fully realized, hyper realistic piece of content for a game. This goal will be achieved by using more involved retopology and normal mapping techniques to translate high resolution from high polygon meshes to optimized, low polygon game meshes that can be translated to a game engine.

**Repeatable:** N

**Formerly** 36-3750

**Prerequisites** GAME 337 3D Digital Sculpting

**Minimum Credits 3 Maximum Credits 3**

### **INMD 102 Fundamentals of Interaction**

Contemporary interactive media share a common computational canvas. This course explores technology underlying these media, and introduces students interested in programming and interactive media development to foundational theories and practices in interface design and development. Interaction principles will be explored through practical assignments; sketching, prototyping, and design are essential parts of the development process. Students complete the course with an understanding of participant-centered design, usability, and foundational development terms and concepts.

**Repeatable:** N

**Formerly** 36-1010

**Minimum Credits 3 Maximum Credits 3**

## **INMD 120 Digital Image Design**

Technical, conceptual and aesthetic skills and concepts will inform an introductory body of work using imaging applications. Idea development, research, vocabulary and critical analysis skills will enhance development of individual voice. This fundamental media art course will also focus on visual design theory, gestalt principles and semiotics.

**Repeatable:** N

**Formerly** 36-1300

**Minimum Credits 3 Maximum Credits 3**

## **PROG 101 Programming I**

Learn programming concepts as you problem-solve with code, develop algorithms, and create object-oriented applications. Topics covered throughout the semester include data structures, repetition, sequence control structures, program design, testing, and programming best practices.

**Repeatable:** N

**Formerly** 36-1501

**Minimum Credits 3 Maximum Credits 3**

*Choose two of the following courses:*

## **ANIM 351 Environmental Design & Modeling**

Course emphasizes the design and technical ability needed to model non-character 3-D objects. Students will be introduced to level design, industrial design, and architectural terms and concepts. Using 3-D software, students will design and build environments, set dressing, and vehicles. Level of detail exercises will introduce the concept of polygon and image budget creation. Exercises in stand-alone software packages will teach advanced texture/mapping.

**Repeatable:** Y

**Formerly** 26-3082

**Prerequisites** GAME 201 Computer Animation: Modeling or ANIM 240 Computer Animation

**Minimum Credits 3 Maximum Credits 3**

## **ANIM 352 Character Design and Modeling**

Course emphasizes the design and technical ability needed to model 3-D characters. Students will be introduced to design, sculpting, and anatomical terms and concepts. Using 3-D software, students will design and build characters and other organic models. Level of detail exercises will introduce the concept of

polygon and image budgets. Exercises in stand-alone software packages will teach advanced texture mapping.

**Repeatable:** Y

**Formerly** 26-3086

**Prerequisites** GAME 201 Computer Animation: Modeling or ANIM 240 Computer Animation

**Minimum Credits** 3 **Maximum Credits** 3

## **ANIM 451 Advanced Character & Environmental Design**

Course continues to refine and advance the design and technical abilities needed to model 3D characters and non-character 3D objects. Using industry standard software for 3D modeling and advanced texture-mapping, students will design and build either characters or environments based on industry standards.

**Repeatable:** N

**Formerly** 26-4089

**Prerequisites** ANIM 352 Character Design and Modeling or ANIM 351 Environmental Design & Modeling

**Minimum Credits** 3 **Maximum Credits** 3

## **GAME 335 Shading and Surfacing for Games**

In this course, students will learn the workflows necessary to create materials, textures, and shaders for physically based render systems. Students will learn how to edit shaders and materials through the creation and editing of textures in an image-editing program. Students will also be taught the theory behind physically based rendering and how it relates to rendering objects in real time through game engine technology.

**Repeatable:** N

**Formerly** 36-3315

**Prerequisites** GAME 201 Computer Animation: Modeling

**Minimum Credits** 3 **Maximum Credits** 3

## Capstone

*Choose one of the following Capstone options:*

**Option A:**

## **GAME 371 Game Level Production**

In this production course, students will work on building a game level in phases from design to prototype to deployment. They will work to understand how space is used in a game and design the blocking and scale of elements in a game level. Students will use design pre-production techniques that optimize game production workflows. They will be introduced to theories of personal leadership using best social practices including decision making, emotional mastery, and normative professional behavior. They will learn best team practices used in the video game industry. The game level will be built using art and game editors suitable for use in their portfolio and capstone courses.

**Repeatable:** Y

**Formerly** GAME 470

**Prerequisites** ANIM 240 Computer Animation or GAME 225 Game Engine Scripting or PROG 310 Game Programming I

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

## Option B:

### **GAME 480 Game Studio I**

Course is the first stage of the senior/capstone experience of the Game Design/Programming/Art Majors. It represents the pre-production stage of the capstone project and is required for all students in Game majors. Students are exposed to best team practices and overall project management, art, sound, programming, and design pre-production techniques and requirements. They also participate in finalizing plans for launching their career in the context of the team. The demo games will be presented in a professional public context.

**Repeatable:** N

**Formerly** 36-3997

**Prerequisites** PROG 420 C++ Programming II or GAME 370 Studio Collaboration or GAME 330 Advanced 3D for Games

**Requirements** Senior Standing (SR)

**Minimum Credits 3 Maximum Credits 3**

### **GAME 485 Game Studio II**

Complete a substantial game with market quality content in this intense capstone experience. You'll use industry best practices and tools as you complete the project started in Game Studio I. Several disciplines (including game design, programming, game art, animation, and sound) work together as Yoyu Studio, and operate as a "team of teams".

**Repeatable:** Y

**Formerly** 36-3998

**Prerequisites** GAME 480 Game Studio I

**Minimum Credits 6 Maximum Credits 6**

## **Game Design, BA**

Game design is a profession that is able to place students in the game industry and other related fields that need system architects for technical and artistic simulations. Students in the Game Design major start learning design thinking skills to creatively solve problems where there are many possible answers. With their design skills, they will be able to apply design patterns at a system level to architect solutions based on solid models of the problem domain. While these skills are applied to entertainment games, these skills will have wide application in other fields where simulation is a critical 21st century platform.

Students in the Game Design major learn to be a developer of game assets. They can learn to be a developer in one of four specialties: 1) programming 2) art 3) user interface / user experience (UI/UX) and 4) sound / music. These skills will provide a solid foundation of skills to prepare them for their next step in their career.

Game design is inherently collaborative. Thus, the program will develop strong personal leadership qualities in the students. They will achieve their personal leadership goals by engaging in multiple courses that require production of a game or other production related artifact. Their development will be guided by indexing against best practices in communication, social emotional mastery, conflict resolution, negotiation, personal and team organization, and values of responsibility, humility and integrity. As game design is inherently technical and changes rapidly, they will be guided to achieve a confident generative work ethic where they will learn how to learn in a variety of learning spaces. They will learn models of how to make a

decision and what it means to make a tasteful game decision. Finally, they will be trained in cultural issues and virtues to reflect Columbia College's mission of guiding them to truly be "authors" of the future games industry.

As a result of successfully completing program requirements, students should be able to:

- demonstrate mastery of best practices in personal leadership, including organization, communication, coordination, conflict resolution, and social emotional learning;
- apply game design patterns, techniques, and systems thinking to create game experiences that are engaging and immersive;
- create professional digital portfolios and related materials in preparation for careers or postgraduate study as game developers as an expression of their game design style;
- utilize critical thinking, analytic skills and domain-specific knowledge to construct original game and simulation designs, as well as deconstruct, analyze, and evaluate existing works;
- use effective game production techniques from a variety of methodologies to produce a well-planned and documented project;
- demonstrate high-level game engine scripting skills, user interfaces, data tracking, level design and game flow management to produce games;
- integrate theory, analysis and production techniques in the creation of games for entertainment, learning, social connection and other purposes; and
- contribute to the creation of games while working in interdisciplinary teams using appropriate game development techniques based on an understanding of multiple design methodologies and strategies.

## PROGRAM REQUIREMENTS - 48-49 credits required

### **GAME 105 Game Culture**

Course explores the increasing popularity of games within today's culture, which necessitates analysis of how games are impacted by social and ideological forces and influence them in turn. Questions like Why do we play and How do we play differently are explored, with many others, as students are guided through topics such as role-playing and identity, ethics, group behavior, competition, gender, race, and aesthetics in modern (and historical) games.

**Repeatable:** *N*

**Formerly** 36-1100

**Prerequisites** ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

### **GAME 110 Introduction to Game Development**

In this course, students learn about and practice foundational skills in the interdisciplinary field of game development, including the areas of game design, game art, programming, sound design UI/UX, and project management. Additionally, students are introduced to the business and career requirements of the game industry. They will learn the personal management skills of a developer. They will identify the skills relevant to the game development discipline of their choice and devise a plan for demonstrating these skills in a professional portfolio. Throughout the course, students will build a prototype digital game from their design, giving them exposure to all aspects of game development and the production process.

**Repeatable:** *N*

**Formerly** 36-1500

**Minimum Credits** 3 **Maximum Credits** 3

## **GAME 225 Game Engine Scripting**

Course is a production-oriented class focusing on applied game design and development, utilizing existing game production software tools and engines. Students learn to use asset management software to integrate a variety of media and asset types from multiple sources. The course also emphasizes utilizing the scripting elements of the game engine to create and refine game world events related to story, gameplay, and multimedia presentation. Time is also spent utilizing these scripting elements to create computer-controlled characters that display meaningful character behaviors and artificial intelligence, resulting in the appearance of personality.

**Repeatable:** *N*

**Formerly** 36-2510

**Prerequisites** GAME 110 Introduction to Game Development

**Minimum Credits** 3 **Maximum Credits** 3

## **INMD 102 Fundamentals of Interaction**

Contemporary interactive media share a common computational canvas. This course explores technology underlying these media, and introduces students interested in programming and interactive media development to foundational theories and practices in interface design and development. Interaction principles will be explored through practical assignments; sketching, prototyping, and design are essential parts of the development process. Students complete the course with an understanding of participant-centered design, usability, and foundational development terms and concepts.

**Repeatable:** *N*

**Formerly** 36-1010

**Minimum Credits** 3 **Maximum Credits** 3

## **INMD 240 Story Development for Interactive Media**

The increasing impact of interaction on the narrative (stories) told in today and tomorrow's educational and entertainment media requires a different perspective on story development. This class begins with an overview of the area and its history from the writer's perspective, and then moves on to review and analyze common interactive structures and narrative requirements. Students are also exposed to the basic types of interactive narrative and media being created today, and conceptualize and develop their own interactive narrative projects.

**Repeatable:** *N*

**Formerly** GAME 260

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits** 3 **Maximum Credits** 3

## **PROG 101 Programming I**

Learn programming concepts as you problem-solve with code, develop algorithms, and create object-oriented applications. Topics covered throughout the semester include data structures, repetition, sequence

control structures, program design, testing, and programming best practices.

**Repeatable:** *N*

**Formerly** 36-1501

**Minimum Credits 3 Maximum Credits 3**

## **PROG 201 Programming II**

Create applications utilizing object-oriented, event-driven strategies. Design principles such as modularity and abstraction, and object-oriented principles such as encapsulation, inheritance, and polymorphism are covered throughout the semester as you build several projects for your portfolio.

**Repeatable:** *N*

**Formerly** 36-2600

**Prerequisites** PROG 101 Programming I

**Minimum Credits 3 Maximum Credits 3**

## **Capstone**

### **GAME 371 Game Level Production**

In this production course, students will work on building a game level in phases from design to prototype to deployment. They will work to understand how space is used in a game and design the blocking and scale of elements in a game level. Students will use design pre-production techniques that optimize game production workflows. They will be introduced to theories of personal leadership using best social practices including decision making, emotional mastery, and normative professional behavior. They will learn best team practices used in the video game industry. The game level will be built using art and game editors suitable for use in their portfolio and capstone courses.

**Repeatable:** *Y*

**Formerly** GAME 470

**Prerequisites** ANIM 240 Computer Animation or GAME 225 Game Engine Scripting or PROG 310 Game Programming I

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **GAME 480 Game Studio I**

Course is the first stage of the senior/capstone experience of the Game Design/Programming/Art Majors. It represents the pre-production stage of the capstone project and is required for all students in Game majors. Students are exposed to best team practices and overall project management, art, sound, programming, and design pre-production techniques and requirements. They also participate in finalizing plans for launching their career in the context of the team. The demo games will be presented in a professional public context.

**Repeatable:** *N*

**Formerly** 36-3997

**Prerequisites** PROG 420 C++ Programming II or GAME 370 Studio Collaboration or GAME 330 Advanced 3D for Games

**Requirements** Senior Standing (SR)

**Minimum Credits 3 Maximum Credits 3**

## **GAME 485 Game Studio II**

Complete a substantial game with market quality content in this intense capstone experience. You'll use industry best practices and tools as you complete the project started in Game Studio I. Several disciplines (including game design, programming, game art, animation, and sound) work together as Yoyu Studio, and operate as a "team of teams".

**Repeatable:** Y

**Formerly** 36-3998

**Prerequisites** GAME 480 Game Studio I

**Minimum Credits 6 Maximum Credits 6**

## **CONCENTRATIONS**

### **Game Development**

#### **GAME 220 Simulation and Serious Games**

Course introduces the students to the concepts of simulation design and develops the student's ability to analyze a realistic process or environment in terms of the elements within each that lend themselves to modeling, interaction, and play. Though games are traditionally viewed as being for fun, there exists a significant potential for using game-style presentation and techniques for realistic purposes, so-called non-entertainment serious games. The designer's practical skills develop through the use of a basic scripting language and generally available interactive authoring environments and design tools.

**Repeatable:** N

**Formerly** 36-2500

**Prerequisites** GAME 110 Introduction to Game Development and PROG 201 Programming II

**Minimum Credits 3 Maximum Credits 3**

#### **GAME 236 Game Design I**

Course begins the process of developing a suite of design skills. Design thinking will be defined as a process where many solutions are simultaneously possible. They will learn basics of game theory, mechanism design, and play theory. They will learn gameplay design patterns which are considered best practice. They use and develop skills such as sketching, acting, paper prototyping, digital prototyping, etc. They will begin to identify their own personal style of game design, such as narrative design, strategy design, etc. They will produce a substantial game design and prototype and document as necessary.

**Repeatable:** N

**Formerly** 36-2520

**Prerequisites** GAME 110 Introduction to Game Development

**Minimum Credits 3 Maximum Credits 3**

#### **GAME 336 Game Design II**

Course furthers the student's ability to develop games using a real-time engine and game development system. Course gives the designer the opportunity to develop derived game levels and content within already existing game platforms. The course surveys games that will impact their game design process and reflect on themes of pacing, level design, encounters, etc. They customize game components such as game feel, game control schemes, feedback, etc. They will make a series of gameplay examples which

demonstrates their mastery of creating game content.

**Repeatable:** *N*

**Formerly** 36-2530

**Prerequisites** GAME 236 Game Design I

**Minimum Credits** 3 **Maximum Credits** 3

## **GAME 345 Advanced Game Scripting and Environments**

This course builds on the gameplay scripting practices developed in Game Engine Scripting. They will learn confidence in developing 2D and 3D games, utilizing their own original, functional script elements and stock game assets and environments. Students learn programming design patterns and practice version control workflows with branches and code review. They will learn the basics of technical leadership in the context of game development. Using these skills, students create a new game project with an industry standard game engine.

**Repeatable:** *N*

**Formerly** 36-3510

**Prerequisites** GAME 225 Game Engine Scripting

**Minimum Credits** 3 **Maximum Credits** 3

## **GAME 370 Studio Collaboration**

Students in Studio Collaboration act effectively as interns to the Game Studio 2 course, which is the senior capstone final class. Students will acquire the skills of Quality Assurance and Testing. They will continue to grow their personal leadership and social emotional skills such as communication, negotiation, coordination, and professionalism. They will learn to model the best practice software team processes such as Agile/Scrum. Finally they will begin to prototype their ideas for their Game Studio course.

**Repeatable:** *N*

**Formerly** 36-3650

**Prerequisites** GAME 371 Game Level Production

**Minimum Credits** 3 **Maximum Credits** 3

## **Game Sound**

### **AUDI 121 Fundamentals of Audio Production**

Course introduces students to basic theories and techniques of recording, editing, and mixing. Instruction covers fundamentals of microphone usage, signal flow, and non-linear digital recording and editing. Course is taught in a classroom laboratory where lectures and labs focus on the production of short-form audio works of voice, music, and sound effects to develop and improve engineering and production skills.

**Repeatable:** *N*

**Formerly** 43-1115

**Minimum Credits** 3 **Maximum Credits** 3

### **GAME 140 Sound for Interaction**

This course provides the foundation for designing, programming and critiquing interactive sound environments. Audio programming environments are introduced to facilitate the production of generative,

responsive and interactive sound projects. Theories of acoustic, psychoacoustics as well as audio recording and production techniques are presented and applied in the context of interactive sound. Approaches to creating images and narratives through sound without the support of visuals is emphasized. Film, website, game and animation audio is analyzed alongside audio only works for impact, technique, structure and effectiveness.

**Repeatable:** *N*

**Formerly** 36-1400

**Prerequisites** ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

## **GAME 235 Sound and Music for Interactive Visual Media**

This course introduces students to the psychological and technical aspects of applying sound and music to interactive visual media. Students work to develop their skills with tools for non-linear editing, the production of interactive sound environments (sound effects and musical tracks) and incorporating sound into interactive visual media. Works from a variety of interactive media including Games, web, installations and performance are analyzed and discussed in terms of aesthetic quality and technical implementation.

**Repeatable:** *N*

**Formerly** 36-2610

**Prerequisites** GAME 140 Sound for Interaction

**Minimum Credits 3 Maximum Credits 3**

## **GAME 240 Sound Design for Games I**

This course allows the student to actively implement, design, and control the audio assets in a game. Open source game engines and game editors are widely used in this course to familiarize students with the production and creative demands that will be required of them. Technique, production, and creativity are fostered in texts and lectures throughout the course. Sound libraries are the source of much of the raw audio for project work.

**Repeatable:** *Y*

**Formerly** 36-2400

**Prerequisites** GAME 110 Introduction to Game Development and GAME 235 Sound and Music for Interactive Visual Media

**Minimum Credits 3 Maximum Credits 3**

## **GAME 340 Sound Design for Games II**

Course follows on the first section by introducing more effective means of producing quality work. This is achieved through the use of original recordings and the implementation of these recordings into the game environment. A completed game level will be completed by the end of the semester.

**Repeatable:** *N*

**Formerly** 36-3400

**Prerequisites** GAME 240 Sound Design for Games I

**Minimum Credits 3 Maximum Credits 3**

## **GAME 440 Game Audio Studio**

This course is the audio team management companion course to the senior year capstone classes Indie Team Game Studio and Large Team Game Studio. This course explores audio team leadership, administration, and cross-team communication with regard to the scheduling and implementation of audio production tasks related to the senior capstone project's communication.

**Repeatable:** *N*

**Formerly** 36-3800

**Prerequisites** GAME 475 Indie Team Game Studio or GAME 485 Game Studio II

**Requirements** Permission Required (DP)

**Minimum Credits 1 Maximum Credits 1**

## Immersive Media, BA

In the Immersive Media major, students will have the opportunity to combine a technical and aesthetic skillset to develop the next generation of augmented, mixed, and virtual reality experiences. Students gain skills that prepare them for a job or graduate study in immersive media. This degree program is for computational artists, filmmakers, game creators, and computer scientists interested in pioneering an emerging media.

Students take lessons from a history of immersive practices to lead the current spatial media and computing evolution. Further, students gain insight into the social, political, and cultural consequences of immersive media.

At its core, students in this program will develop a programming, interaction design, and immersive user experience skillset. They will learn how to develop immersive experiences, beyond games and entertainment, that leverage the latest in emerging media.

In their senior year, students develop a comprehensive immersive media experience for their portfolio. They work as a team small team to manage the project from pre-production to production.

As a result of successfully completing program requirements, students should be able to:

- understand the history of immersive media from its traditional beginnings in antiquity to its contemporary usage;
- identify and utilize the significant and emerging theories of immersive media design and development as part of their practice;
- draw on an interdisciplinary skillset to develop a unique immersive aesthetic that is compelling for audiences and users;
- incorporate empathy, diversity, equity, and inclusion in the emerging art form to develop a more just immersive media ecosystem;
- capably draw on psychology insights to develop immersive experiences that provide users and audiences with a sense of presence;
- implement physics to develop realistic simulations for entertainment, health, engineering, and other areas;
- use appropriate terminology for immersive media design and development;
- demonstrate the social and emotional competencies necessary to perform and communicate responsibly in collaborative teams and group settings;
- analyze and critique their work in the context of the piece's goal, its perception, and the intended audience;
- exhibit proficiency applying the principles of user-centered theory and workflow to create interactive, immersive experiences;
- synthesize technology ideas and aesthetics to build and refine a professional portfolio; and

- recognize the functions, methods, vocabulary, and roles unique to the programmer, the designer, and the immersive artist within the iterative and collaborative design process.

## PROGRAM REQUIREMENTS - 48 credits required

### **INMD 110 Interactive Culture**

Through discussion, lecture, and critique, this course develops critical thinking skills and the student's ability to apply media theory to media design. Students learn how interactivity plays an increasingly important role in our world by exposure to leading designers, artists, thinkers, authors, and critics throughout the history of media.

**Repeatable:** *N*

**Formerly** 36-1000

**Prerequisites** ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits** 3 **Maximum Credits** 3

### **INMD 130 Immersive Environments I**

Examine historical and contemporary uses of immersive environments. Generate a variety of work using Augmented Reality, Virtual Reality & 360 Video technologies. Explore 21st Century alternative modes of spectatorship; in particular immersive and interactive ways of experiencing visual spectacle.

**Repeatable:** *N*

**Formerly** INMD 430

**Minimum Credits** 3 **Maximum Credits** 3

### **INMD 210 Interface Design I**

Course advances students' practical understanding of media theory, with an emphasis on interactive models of communication. This course focuses on navigational models of interaction design and how to create participant-centered interfaces through research, usability testing, and iterative design. Students produce substantial written critiques to demonstrate their growing understanding of the discipline.

**Repeatable:** *N*

**Formerly** 36-2110

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits** 3 **Maximum Credits** 3

### **INMD 235 Immersive Environments II**

Continue to explore immersive and interactive visual engagement. Design immersive environmental projects for institutions, galleries, and public forums, and develop idiosyncratic and multipurpose animated visual sculptures, projections, immersive video environments, and/or art showcases.

**Repeatable:** *N*

**Formerly** INMD 435

**Prerequisites** INMD 130 Immersive Environments I

**Minimum Credits** 3 **Maximum Credits** 3

## **INMD 240 Story Development for Interactive Media**

The increasing impact of interaction on the narrative (stories) told in today and tomorrow's educational and entertainment media requires a different perspective on story development. This class begins with an overview of the area and its history from the writer's perspective, and then moves on to review and analyze common interactive structures and narrative requirements. Students are also exposed to the basic types of interactive narrative and media being created today, and conceptualize and develop their own interactive narrative projects.

**Repeatable:** N

**Formerly** GAME 260

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits** 3 **Maximum Credits** 3

## **INMD 315 Experience Design**

This course will encourage students to evaluate their own work, as well as the work of others, from the viewpoint of their audience. By gaining an awareness of how the participant experiences their work, students will gain an understanding of how to create engaging, user-centered interfaces.

**Repeatable:** N

**Formerly** 36-3150

**Prerequisites** INMD 210 Interface Design I

**Minimum Credits** 3 **Maximum Credits** 3

## **INMD 370 Studio Collaboration**

Students in Studio Collaboration act effectively as interns to IAM Team, which is the final stage in the Interaction Design and Programming senior/capstone sequence. IAM Team is an intensive team production course that teaches students to work collaboratively while producing projects for an external client. Course begins with concepts of team organization and communication and continues with the formation of production teams, design of the project, and acquisition of media elements. Students practice scheduling and meeting deadlines by shipping multiple versions of the project.

**Repeatable:** Y

**Prerequisites** INMD 114 Web Development I or INMD 260 Intro to IAM Team Development or INMD 210 Interface Design I or INMD 235 Immersive Environments II

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

## **INMD 440 Immersive Environments III**

Building upon Immersive Environments I and II, this course will challenge students to engage with advanced theories in the understanding of immersive media. These theories will be put into practice through the design and development of immersive media works that use volumetric capture, IoT, 3<sup>rd</sup> party APIs, and physical materials. Students are encouraged to pursue work as a form of research through artistic intervention with immersive media.

**Repeatable:** *N*

**Prerequisites** INMD 235 Immersive Environments II

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **INMD 441 Immersive Environments IV**

In this capstone course, students will combine lessons, both practical and theoretical, from the immersive media program to construct a complete immersive media prototype. Students move from pre-production to production over the course of a semester. They perfect their project management skills and learn how to lead through the development process. They also engage in a portfolio review to make sure they are prepared for industry work or graduate education.

**Repeatable:** *N*

**Prerequisites** INMD 440 Immersive Environments III

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **GAME 110 Introduction to Game Development**

In this course, students learn about and practice foundational skills in the interdisciplinary field of game development, including the areas of game design, game art, programming, sound design UI/UX, and project management. Additionally, students are introduced to the business and career requirements of the game industry. They will learn the personal management skills of a developer. They will identify the skills relevant to the game development discipline of their choice and devise a plan for demonstrating these skills in a professional portfolio. Throughout the course, students will build a prototype digital game from their design, giving them exposure to all aspects of game development and the production process.

**Repeatable:** *N*

**Formerly** 36-1500

**Minimum Credits 3 Maximum Credits 3**

## **GAME 225 Game Engine Scripting**

Course is a production-oriented class focusing on applied game design and development, utilizing existing game production software tools and engines. Students learn to use asset management software to integrate a variety of media and asset types from multiple sources. The course also emphasizes utilizing the scripting elements of the game engine to create and refine game world events related to story, gameplay, and multimedia presentation. Time is also spent utilizing these scripting elements to create computer-controlled characters that display meaningful character behaviors and artificial intelligence, resulting in the appearance of personality.

**Repeatable:** *N*

**Formerly** 36-2510

**Prerequisites** GAME 110 Introduction to Game Development

**Minimum Credits 3 Maximum Credits 3**

## **GAME 345 Advanced Game Scripting and Environments**

This course builds on the gameplay scripting practices developed in Game Engine Scripting. They will learn confidence in developing 2D and 3D games, utilizing their own original, functional script elements and stock

game assets and environments. Students learn programming design patterns and practice version control workflows with branches and code review. They will learn the basics of technical leadership in the context of game development. Using these skills, students create a new game project with an industry standard game engine.

**Repeatable:** *N*

**Formerly** 36-3510

**Prerequisites** GAME 225 Game Engine Scripting

**Minimum Credits 3 Maximum Credits 3**

## **PROG 101 Programming I**

Learn programming concepts as you problem-solve with code, develop algorithms, and create object-oriented applications. Topics covered throughout the semester include data structures, repetition, sequence control structures, program design, testing, and programming best practices.

**Repeatable:** *N*

**Formerly** 36-1501

**Minimum Credits 3 Maximum Credits 3**

## **PROG 201 Programming II**

Create applications utilizing object-oriented, event-driven strategies. Design principles such as modularity and abstraction, and object-oriented principles such as encapsulation, inheritance, and polymorphism are covered throughout the semester as you build several projects for your portfolio.

**Repeatable:** *N*

**Formerly** 36-2600

**Prerequisites** PROG 101 Programming I

**Minimum Credits 3 Maximum Credits 3**

## **PROG 366 Algorithms**

Learn fundamental principles of algorithm design as you work with practical data structures (such as heaps and trees) and common algorithms (such as sort and search). At the end of the semester you will have a library of code you can use in future problem-solving, and a project showcasing your skills.

**Repeatable:** *N*

**Formerly** 36-3720

**Prerequisites** PROG 201 Programming II

**Minimum Credits 3 Maximum Credits 3**

## **PROG 449 AI Programming**

How is artificial intelligence used to create game characters with realistic behaviors? Concepts such as decision trees, algorithms, state machines, neural networks and rule-based systems will be explored as you create work for your portfolio.

**Repeatable:** *N*

**Formerly** PROG 350

**Prerequisites** PROG 366 Algorithms

**Minimum Credits 3 Maximum Credits 3**

# Programming, BA

The Bachelor of Arts in Programming prepares graduates to develop interactive applications for a variety of platforms. Programming is an exciting multidisciplinary field that requires creativity, professional discipline, and strong collaborative production skills. The program provides an environment for students to develop games, simulations, immersive experiences, software, and other interactive experiences, as well as providing the strong background in Liberal Arts and Sciences required to thrive in this growing and competitive field. Students pursuing this degree choose between two concentrations (Game Programming or Application Programming) and participate in a senior capstone course to collaboratively develop work for their portfolio.

As a result of successfully completing program requirements, students should be able to:

- apply advanced programming principles and concepts in the development of interactive experiences;
- synthesize knowledge and skills to build and refine a professional body of work;
- effectively communicate and successfully function in multi-disciplinary teams; and
- perform with a critical understanding of the vocabulary, fundamental concepts, skills, and roles for a career in computer science, or graduate school.

## PROGRAM REQUIREMENTS - 50 credits required

### INMD 114 Web Development I

Counter to printed compositions, web design and development is about fluid and interactive experiences. This course provides an introduction to programming environments and teaches fundamental skills necessary to prototype and deploy digital media. Using technical elements like variables, conditions, sequences and events, completion of this course will empower students with the ability to design interactive applications.

**Repeatable:** Y

**Formerly** 36-1420

**Minimum Credits** 3 **Maximum Credits** 3

### INMD 214 Web Development II

Interactive design and development can narrate any topic. Using methods and techniques exposed in Web Development I, students prototype and iterate work as a means of increasing complexity and refining concept. Throughout this course students gain and apply the project development strategies necessary to research and produce interactive media using professional management strategies.

**Repeatable:** N

**Formerly** 36-2421

**Prerequisites** INMD 114 Web Development I

**Minimum Credits** 3 **Maximum Credits** 3

### PROG 101 Programming I

Learn programming concepts as you problem-solve with code, develop algorithms, and create object-oriented applications. Topics covered throughout the semester include data structures, repetition, sequence

control structures, program design, testing, and programming best practices.

**Repeatable:** *N*

**Formerly** 36-1501

**Minimum Credits 3 Maximum Credits 3**

## **PROG 103 Computer Architecture**

How do computer systems execute, store information, and communicate? Computer hardware and architecture are explored from multiple perspectives. Topics include Boolean logic, data representation, processor organization, input/output, memory organization, system support software, performance, portability, robustness, and communication.

**Repeatable:** *N*

**Formerly** 36-1200

**Prerequisites** PROG 101 Programming I

**Minimum Credits 3 Maximum Credits 3**

## **PROG 201 Programming II**

Create applications utilizing object-oriented, event-driven strategies. Design principles such as modularity and abstraction, and object-oriented principles such as encapsulation, inheritance, and polymorphism are covered throughout the semester as you build several projects for your portfolio.

**Repeatable:** *N*

**Formerly** 36-2600

**Prerequisites** PROG 101 Programming I

**Minimum Credits 3 Maximum Credits 3**

## **PROG 220 C++ Programming I**

Develop C++ applications utilizing language-specific features. Topics include: object-oriented programming, exception handling, resource management, pointers, and templates. Prior experience with programming is required.

**Repeatable:** *N*

**Formerly** 36-2550

**Prerequisites** PROG 101 Programming I

**Minimum Credits 3 Maximum Credits 3**

## **PROG 301 Programming III**

Develop complex applications with reusable components. Advanced principles of object oriented design and programming are covered as a library of reusable code and a substantial project is built.

**Repeatable:** *N*

**Formerly** 36-3700

**Prerequisites** PROG 201 Programming II

**Minimum Credits 3 Maximum Credits 3**

## **PROG 340 Graphics Application Programming**

Build applications that leverage libraries and utilize programmatic modeling, shading, textures, and transformations. Additional topics may include cross platform operability, high-performance optimization, UX and interface design. Students will complete the class with several projects for their portfolio and reusable components for future work.

**Repeatable:** *N*

**Formerly** 36-3200

**Prerequisites** PROG 201 Programming II

**Minimum Credits 3 Maximum Credits 3**

## **PROG 366 Algorithms**

Learn fundamental principles of algorithm design as you work with practical data structures (such as heaps and trees) and common algorithms (such as sort and search). At the end of the semester you will have a library of code you can use in future problem-solving, and a project showcasing your skills.

**Repeatable:** *N*

**Formerly** 36-3720

**Prerequisites** PROG 201 Programming II

**Minimum Credits 3 Maximum Credits 3**

## **PROG 420 C++ Programming II**

Create project-based work while strengthening an understanding of advanced C++. Design principles and patterns are utilized to create extensible and maintainable code in application and game programming. Additional technologies (e.g. Unreal Engine) are also used in the creation of portfolio work. Prior C++ experience is required.

**Repeatable:** *N*

**Formerly** PROG 320

**Prerequisites** PROG 220 C++ Programming I

**Minimum Credits 3 Maximum Credits 3**

## **PROG 449 AI Programming**

How is artificial intelligence used to create game characters with realistic behaviors? Concepts such as decision trees, algorithms, state machines, neural networks and rule-based systems will be explored as you create work for your portfolio.

**Repeatable:** *N*

**Formerly** PROG 350

**Prerequisites** PROG 366 Algorithms

**Minimum Credits 3 Maximum Credits 3**

*Complete 2 credits from the following courses:*

## **PROG 450A Code Sprint**

Strengthen skills and understanding of a programming language (or learn a new language) in an accelerated, fast paced setting. Industry best practices are used to create an advanced-level project. Complete the course with portfolio work.

**Repeatable:** Y

**Prerequisites** PROG 201 Programming II

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 1 Maximum Credits 1**

## **PROG 450B Code Sprint**

Strengthen skills and understanding of a programming language (or learn a new language) in an accelerated, fast paced setting. Industry best practices are used to create an advanced-level project. Complete the course with portfolio work.

**Repeatable:** Y

**Prerequisites** PROG 201 Programming II

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 1 Maximum Credits 1**

## **PROG 450C Code Sprint**

Strengthen skills and understanding of a programming language (or learn a new language) in an accelerated, fast paced setting. Industry best practices are used to create an advanced-level project. Complete the course with portfolio work.

**Repeatable:** Y

**Prerequisites** PROG 201 Programming II

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 1 Maximum Credits 1**

*Choose two of the following courses:*

## **PROG 260 Data Design for Applications**

Build applications that use databases and cloud data stores. You'll learn how to build an application that can create, read, update, and delete data from a database. You'll also learn about database design, optimization, security and learn how to write application code that interfaces asynchronously with a database. Industry-standard database tools will be used.

**Repeatable:** N

**Formerly** 36-3520

**Prerequisites** INMD 114 Web Development I or PROG 101 Programming I

**Minimum Credits 3 Maximum Credits 3**

## **PROG 310 Game Programming I**

Build games using industry-standard technologies, practical problem solving, and design patterns (such as strategy, singleton, factory, and observer patterns). Topics include: game components, game services, input handling and state management.

**Repeatable:** N

**Formerly** 36-3270

**Prerequisites** GAME 110 Introduction to Game Development and PROG 201 Programming II

**Minimum Credits 3 Maximum Credits 3**

## **PROG 410 Game Programming II**

Develop complex games using programming best practices and design patterns. At the completion of the course you will have an advanced game for your portfolio.

**Repeatable:** N

**Formerly** 36-3500

**Prerequisites** PROG 310 Game Programming I

**Minimum Credits** 3 **Maximum Credits** 3

## **PROG 455 Application Design**

Complete the full process of shipping an application. Plan, design, and develop products while learning advanced software engineering methods, and exploring topics such as design patterns, behavior-driven design, and source code management.

**Repeatable:** N

**Formerly** PROG 355

**Prerequisites** INMD 214 Web Development II or PROG 201 Programming II or PROG 260 Data Design for Applications

**Minimum Credits** 3 **Maximum Credits** 3

*Choose one of the following capstone options:*

**Option A:**

## **INMD 260 Intro to IAM Team Development**

Working in a collaborative environment is a fundamental skill within the interaction design industry. In this course, students will learn about the roles in interactive team development; how to effectively manage time and project scope; how to set and meet deadlines; and how to work as a group to deliver user-centered projects.

**Repeatable:** N

**Formerly** 36-2602

**Prerequisites** INMD 102 Fundamentals of Interaction and INMD 130 Immersive Environments I and PROG 101 Programming I or INMD 214 Web Development II and PROG 101 Programming I or GAME 110 Introduction to Game Development and PROG 101 Programming I or INMD 102 Fundamentals of Interaction and INMD 114 Web Development I

**Minimum Credits** 3 **Maximum Credits** 3

## **INMD 460 IAM Team**

Intensive team production course teaches students to work collaboratively while producing projects for an external client. Course begins with concepts of team organization and communication and continues with the formation of production teams, design of the project, and acquisition of media elements. Students practice scheduling and meeting deadlines by shipping multiple versions of the project.

**Repeatable:** Y

**Formerly** 36-4600

**Prerequisites** INMD 260 Intro to IAM Team Development

**Minimum Credits** 6 **Maximum Credits** 6

## Option B:

### **GAME 480 Game Studio I**

Course is the first stage of the senior/capstone experience of the Game Design/Programming/Art Majors. It represents the pre-production stage of the capstone project and is required for all students in Game majors. Students are exposed to best team practices and overall project management, art, sound, programming, and design pre-production techniques and requirements. They also participate in finalizing plans for launching their career in the context of the team. The demo games will be presented in a professional public context.

**Repeatable:** N

**Formerly** 36-3997

**Prerequisites** PROG 420 C++ Programming II or GAME 370 Studio Collaboration or GAME 330 Advanced 3D for Games

**Requirements** Senior Standing (SR)

**Minimum Credits 3 Maximum Credits 3**

### **GAME 485 Game Studio II**

Complete a substantial game with market quality content in this intense capstone experience. You'll use industry best practices and tools as you complete the project started in Game Studio I. Several disciplines (including game design, programming, game art, animation, and sound) work together as Yoyu Studio, and operate as a "team of teams".

**Repeatable:** Y

**Formerly** 36-3998

**Prerequisites** GAME 480 Game Studio I

**Minimum Credits 6 Maximum Credits 6**

## **User Experience and Interaction Design, BA**

In the User Experience and Interaction Design major, students have the opportunity to invent creative, participant-centered design solutions that prepare them for careers within the dynamic and expanding fields of interactive design and development. The User Experience and Interaction Design degree is ideal for both the creative artist who possesses digital/computer-based skills and the back-end developer/coder/programmer with an aesthetic eye, strong work ethic and an impulse to innovate.

The major emphasizes the principles of user interface and experience design anchored by a strong dose of back-end technical skill development. By synthesizing their digital design skills, creativity, and knowledge of user-centered interaction theory, students create versatile projects that reach a wide variety of clients and audiences.

In their senior year, students participate in a dynamic capstone team class where they perform a specialized role within an interactive production team. Upon successful completion of the program, students are expected to compile a professional web-based portfolio featuring a body of work that seeks to exhibit a mastery of navigational interfaces, user-centered design practices and visual identity design.

As a result of successfully completing program requirements, students should be able to:

- demonstrate the ability to apply interactive culture core concepts to create and critique media works;

- identify and evaluate major historical and contemporary theories, works and ideas on social, interactive and mobile media;
- incorporate empathy and emotion to develop participant-centered work within the context of interaction design;
- demonstrate facility with interaction design patterns and methodologies as they relate to interactive art and media disciplines;
- develop interactive work using a variety of computational tools, technologies and processes to express ideas and solve design problems;
- exhibit proficiency applying the principles of user-centered theory and workflow to create interactive applications and digital media;
- synthesize technology ideas and aesthetics to build and refine a professional portfolio;
- use professional writing practices to articulate ideas appropriate to a target audience;
- make strategic use of digital media to deliver well-organized and professional oral and written presentations before groups;
- analyze and critique their own work in the context of the goal of the piece, its perception and the intended audience;
- use appropriate interaction design vocabulary to promote and advocate for their work;
- exhibit the professional behaviors, skills and work habits necessary to succeed in the global marketplace within their chosen field, including time-management and meta-cognition (learning to learn);
- demonstrate the social and emotional competencies necessary to perform and communicate responsibly in collaborative teams and group settings; and
- recognize the functions, methods, vocabulary and roles that are unique to the programmer, the designer and the artist within the iterative and collaborative design process.

## PROGRAM REQUIREMENTS - 42 credits required

### **INMD 102 Fundamentals of Interaction**

Contemporary interactive media share a common computational canvas. This course explores technology underlying these media, and introduces students interested in programming and interactive media development to foundational theories and practices in interface design and development. Interaction principles will be explored through practical assignments; sketching, prototyping, and design are essential parts of the development process. Students complete the course with an understanding of participant-centered design, usability, and foundational development terms and concepts.

**Repeatable:** *N*

**Formerly** 36-1010

**Minimum Credits 3 Maximum Credits 3**

### **INMD 114 Web Development I**

Counter to printed compositions, web design and development is about fluid and interactive experiences. This course provides an introduction to programming environments and teaches fundamental skills necessary to prototype and deploy digital media. Using technical elements like variables, conditions, sequences and events, completion of this course will empower students with the ability to design interactive applications.

**Repeatable:** *Y*

**Formerly** 36-1420

**Minimum Credits 3 Maximum Credits 3**

## **INMD 120 Digital Image Design**

Technical, conceptual and aesthetic skills and concepts will inform an introductory body of work using imaging applications. Idea development, research, vocabulary and critical analysis skills will enhance development of individual voice. This fundamental media art course will also focus on visual design theory, gestalt principles and semiotics.

**Repeatable:** *N*

**Formerly** 36-1300

**Minimum Credits 3 Maximum Credits 3**

## **INMD 210 Interface Design I**

Course advances students' practical understanding of media theory, with an emphasis on interactive models of communication. This course focuses on navigational models of interaction design and how to create participant-centered interfaces through research, usability testing, and iterative design. Students produce substantial written critiques to demonstrate their growing understanding of the discipline.

**Repeatable:** *N*

**Formerly** 36-2110

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **INMD 215 Conversational Interfaces**

Conversation interfaces offer a greater degree of engagement than typical navigational models, and its dependence upon spoken word and audio broaden the reach and application of interactive media beyond visual environments. Students have the opportunity to author highly engaging, writing-centric interactive content. From fiction to non-fiction, poetry to ad copy, this new interaction model offers substantial creative and professional territory for interaction designers and writers alike.

**Repeatable:** *N*

**Formerly** 36-2130

**Prerequisites** ENGL 112 Writing and Rhetoric II and INMD 102 Fundamentals of Interaction or ENGL 112H Writing and Rhetoric II: Honors and INMD 102 Fundamentals of Interaction or ENGL 122 International Writing and Rhetoric II and INMD 102 Fundamentals of Interaction

**Minimum Credits 3 Maximum Credits 3**

## **INMD 220A Prototyping Strategies**

Students gain a deeper understanding of techniques and practices by sketching, thumbnailing, storyboarding and making physical mock-ups for digital projects. The iterative production cycle is practiced by rapid prototyping in a collaborative environment, and is informed by research and testing. Each five week module of this one credit, repeatable course will focus on a different prototyping tool and evaluation method. This class develops a student's ability to communicate quickly visually before committing to code and design, and to create participant-centered works based on usability-testing results.

**Repeatable:** Y

**Formerly** INMD 220

**Prerequisites** INMD 102 Fundamentals of Interaction

**Minimum Credits 1 Maximum Credits 1**

## **INMD 220B Prototyping Strategies**

Students gain a deeper understanding of techniques and practices by sketching, thumbnailing, storyboarding and making physical mock-ups for digital projects. The iterative production cycle is practiced by rapid prototyping in a collaborative environment, and is informed by research and testing. Each five week module of this one credit, repeatable course will focus on a different prototyping tool and evaluation method. This class develops a student's ability to communicate quickly visually before committing to code and design, and to create participant-centered works based on usability-testing results.

**Repeatable:** Y

**Prerequisites** INMD 102 Fundamentals of Interaction

**Minimum Credits 1 Maximum Credits 1**

## **INMD 220C Prototyping Strategies**

Students gain a deeper understanding of techniques and practices by sketching, thumbnailing, storyboarding and making physical mock-ups for digital projects. The iterative production cycle is practiced by rapid prototyping in a collaborative environment, and is informed by research and testing. Each five week module of this one credit, repeatable course will focus on a different prototyping tool and evaluation method. This class develops a student's ability to communicate quickly visually before committing to code and design, and to create participant-centered works based on usability-testing results.

**Repeatable:** Y

**Prerequisites** INMD 102 Fundamentals of Interaction

**Minimum Credits 1 Maximum Credits 1**

## **INMD 260 Intro to IAM Team Development**

Working in a collaborative environment is a fundamental skill within the interaction design industry. In this course, students will learn about the roles in interactive team development; how to effectively manage time and project scope; how to set and meet deadlines; and how to work as a group to deliver user-centered projects.

**Repeatable:** N

**Formerly** 36-2602

**Prerequisites** INMD 102 Fundamentals of Interaction and INMD 130 Immersive Environments I and PROG 101 Programming I or INMD 214 Web Development II and PROG 101 Programming I or GAME 110 Introduction to Game Development and PROG 101 Programming I or INMD 102 Fundamentals of Interaction and INMD 114 Web Development I

**Minimum Credits 3 Maximum Credits 3**

## **INMD 315 Experience Design**

This course will encourage students to evaluate their own work, as well as the work of others, from the viewpoint of their audience. By gaining an awareness of how the participant experiences their work, students will gain an understanding of how to create engaging, user-centered interfaces.

**Repeatable:** N

**Formerly** 36-3150

**Prerequisites** INMD 210 Interface Design I

**Minimum Credits** 3 **Maximum Credits** 3

## **INMD 350 Service Design and Systems Thinking**

Successful digital products solve a problem held by an identifiable group of people. Identifying the problem, the potential solutions, and knowing how to identify and reach the target market are all essential elements of a digital product launch. Students will explore the foundational concepts and practices of both user and market research and will have the opportunity to gain valuable experience pitching their ideas.

Multidisciplinary teams research, plan, design and rapidly build a digital product and pitch their ideas to professionals including product and user experience experts, start-up team members and investors, and digital entrepreneurs.

**Repeatable:** Y

**Prerequisites** INMD 114 Web Development I or INMD 210 Interface Design I

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

## **INMD 460 IAM Team**

Intensive team production course teaches students to work collaboratively while producing projects for an external client. Course begins with concepts of team organization and communication and continues with the formation of production teams, design of the project, and acquisition of media elements. Students practice scheduling and meeting deadlines by shipping multiple versions of the project.

**Repeatable:** Y

**Formerly** 36-4600

**Prerequisites** INMD 260 Intro to IAM Team Development

**Minimum Credits** 6 **Maximum Credits** 6

*Choose three of the following courses:*

## **AUDI 436 Research Methods: An Interdisciplinary Approach**

Understanding research on quantitative and observable data requires a thorough understanding of the scientific method, familiarity with multiple methodological approaches to research, as well as the ability to critically evaluate the strengths and limitations of methods and data collected within a research paradigm. This multidisciplinary course is designed particularly for students within Media Arts who will benefit from an understanding of research methods in science and communications, as distinct from research in humanities and creative arts. Students in this course will learn about the strengths and limitations of various types of research, as well as directly apply research methods through group and individual research proposals and projects, including projects within their discipline.

This course is not discipline-specific and therefore can serve students outside the department.

**Repeatable:** N

**Formerly** 43-3583

**Prerequisites** ENGL 112 Writing and Rhetoric II and MATH 110 College Mathematics or ENGL 112 Writing and Rhetoric II and MATH 115 Liberal Arts Mathematics or ENGL 112 Writing and Rhetoric II and MATH 120 Quantitative Reasoning or ENGL 112 Writing and Rhetoric II and ACCU-T-67 EXAM-ACCUPLACER MATH MINIMUM SCORE = 67 or ENGL 112 Writing and Rhetoric II and ACT-M-23 EXAM-ACT MATH MINIMUM SCORE = 23 or ENGL 112 Writing and Rhetoric II and SAT-M-550 EXAM-SAT MATH MINIMUM

SCORE = 550 or ENGL 112H Writing and Rhetoric II: Honors and MATH 110 College Mathematics or ENGL 112H Writing and Rhetoric II: Honors and MATH 115 Liberal Arts Mathematics or ENGL 112H Writing and Rhetoric II: Honors and MATH 120 Quantitative Reasoning or ENGL 112H Writing and Rhetoric II: Honors and ACCU-T-67 EXAM-ACCUPLACER MATH MINIMUM SCORE = 67 or ENGL 112H Writing and Rhetoric II: Honors and ACT-M-23 EXAM-ACT MATH MINIMUM SCORE = 23 or ENGL 112H Writing and Rhetoric II: Honors and SAT-M-550 EXAM-SAT MATH MINIMUM SCORE = 550 or ENGL 122 International Writing and Rhetoric II and MATH 110 College Mathematics or ENGL 122 International Writing and Rhetoric II and MATH 115 Liberal Arts Mathematics or ENGL 122 International Writing and Rhetoric II and MATH 120 Quantitative Reasoning or ENGL 122 International Writing and Rhetoric II and ACCU-T-67 EXAM-ACCUPLACER MATH MINIMUM SCORE = 67 or ENGL 122 International Writing and Rhetoric II and ACT-M-23 EXAM-ACT MATH MINIMUM SCORE = 23 or ENGL 122 International Writing and Rhetoric II and SAT-M-550 EXAM-SAT MATH MINIMUM SCORE = 550 or ENGL 112 Writing and Rhetoric II and ALEK-1-46 EXAM-ALEKS MINIMUM SCORE = 46 or ENGL 112H Writing and Rhetoric II: Honors and ALEK-1-46 EXAM-ALEKS MINIMUM SCORE = 46 or ENGL 122 International Writing and Rhetoric II and ALEK-1-46 EXAM-ALEKS MINIMUM SCORE = 46

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **INMD 130 Immersive Environments I**

Examine historical and contemporary uses of immersive environments. Generate a variety of work using Augmented Reality, Virtual Reality & 360 Video technologies. Explore 21st Century alternative modes of spectatorship; in particular immersive and interactive ways of experiencing visual spectacle.

**Repeatable:** N

**Formerly** INMD 430

**Minimum Credits 3 Maximum Credits 3**

## **INMD 214 Web Development II**

Interactive design and development can narrate any topic. Using methods and techniques exposed in Web Development I, students prototype and iterate work as a means of increasing complexity and refining concept. Throughout this course students gain and apply the project development strategies necessary to research and produce interactive media using professional management strategies.

**Repeatable:** N

**Formerly** 36-2421

**Prerequisites** INMD 114 Web Development I

**Minimum Credits 3 Maximum Credits 3**

## **INMD 263 Physical Computing I**

Course teaches students to read wiring diagrams, as well as design and build basic electronic circuits for general applications. Students use commercially available tools to design, build, and program simple functional devices which produce a physical response (light, sound, or motion) in the environment and interfacing with a computer.

**Repeatable:** Y

**Formerly** 36-2620

**Minimum Credits 3 Maximum Credits 3**

## **INMD 355 Information Architecture**

This course provides insight into the way we sort and categorize data, and how these different schema impact the user experience. Students will explore multiple concepts of organizational techniques, and introduce the student to methods for effectively assessing and creating their own organizational structures to optimize the user experience.

**Repeatable:** *N*

**Formerly** 36-3515

**Prerequisites** INMD 210 Interface Design I

**Minimum Credits 3 Maximum Credits 3**

## **INMD 370 Studio Collaboration**

Students in Studio Collaboration act effectively as interns to IAM Team, which is the final stage in the Interaction Design and Programming senior/capstone sequence. IAM Team is an intensive team production course that teaches students to work collaboratively while producing projects for an external client. Course begins with concepts of team organization and communication and continues with the formation of production teams, design of the project, and acquisition of media elements. Students practice scheduling and meeting deadlines by shipping multiple versions of the project.

**Repeatable:** *Y*

**Prerequisites** INMD 114 Web Development I or INMD 260 Intro to IAM Team Development or INMD 210 Interface Design I or INMD 235 Immersive Environments II

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **Bachelor of Fine Arts**

### **Computer Animation, BFA**

The BFA degree in Computer Animation is offered as a professional degree. The educational experience and subsequent body of work reflect three areas of success in the animation profession: a capstone animated film created in a collaborative, team-oriented setting; an animated short created as a solo thesis project; and additional courses in critical studies, story, advanced CG animation, and the technical facility that seeks to prepare students for immediate entry into the professional world.

As a result of successfully completing program requirements, students should be able to:

- demonstrate proficiencies in digital and computer-generated software and technology through the creation of animated projects;
- demonstrate a comprehension of history, aesthetics and the analytical context of animation in cinema through written, oral and animated presentations;
- employ a professional level of industry practices, standards and career strategies to successfully market and showcase their animated work;
- collaborate on a team project in the development, production and presentation of an animated short film;
- create and present an animated thesis film; and
- create a professional quality animation portfolio demonstrating original cinematic material and a developed artistic voice.

## PROGRAM REQUIREMENTS - 79 credits required

### **ANIM 106 History of Animation**

Course explores the origins of the animation process, beginning with animated films by J. Stewart Blackton, Emil Cohl, Len Lye, Winsor McCay, and many others through to present day productions. The lives and environments, as well as the artistic and narrative influences on these and other animators, will be dissected and studied. The class will involve weekly screenings of films and videos from around the world, including both independent and commercial, to get an understanding of where this art form has been and where it might be going. Emphasis will be on understanding the motivations and influences on animation artists, and how as contemporary animators you might benefit from studying them.

**Repeatable:** *N*

**Formerly** 26-1070

**Prerequisites** ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 150 Computer Animation: Keyframing I**

This course establishes a beginning understanding of computer-generated (CG) keyframing via object and camera keyframing using industry standard software application. Further animation assignments focus on an intermediate level of character animation through a provided CG character and rig.

**Repeatable:** *N*

**Formerly** 26-1015

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 201 Storyboarding for Animation**

Learn the art of visual storytelling for animation as a cinema art form. Draw digitally using industry-standard technologies and create a story reel for the final project; a movie comprised of all of storyboard panels (which may include dialogue, music, and sound effects) timed out to reflect the actual pacing of the film.

**Repeatable:** *N*

**Formerly** 26-2040

**Prerequisites** ANIM 101 Animation Foundations or ANIM 105 Introduction to Traditional Animation

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 240 Computer Animation**

Expanding on the skills learned in Introduction to Computer Animation (ANIM 150), this course will focus on establishing an intermediate level of CG skills using Autodesk's Maya software application. Assignments focus on polygonal character modeling, rigging, texture-mapping, lighting, digital rendering, and skeletal animation.

**Repeatable:** *N*

**Formerly** 26-3045

**Prerequisites** ANIM 150 Computer Animation: Keyframing I or GAME 201 Computer Animation: Modeling

**Minimum Credits 4 Maximum Credits 4**

## **ANIM 340 The Business of Animated Content**

Course examines central business and legal matters associated with developing, producing and releasing animated content. Students will be introduced to basic business principles and production hierarchies for short and feature animated films including new technologies and the evolving convergent marketplace.

**Repeatable:** N

**Formerly** 26-3605

**Prerequisites** ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or ENGL 109 Writing and Rhetoric I Stretch B or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits** 3 **Maximum Credits** 3

## **ANIM 382 Animation Preproduction**

In this course, students develop the stories for their animated thesis solo films required for the BFA degrees in both Traditional and Computer Animation. Students create storyboards and story reels, model sheets, explore art direction, timing, and various other aspects of preproduction that will lead to green-lighting the production of their films in either Traditional or Computer Animation Studio. Animation Preproduction & Story Development must be taken by both Traditional and Computer Animation students pursuing BFAs in their respective areas.

**Repeatable:** Y

**Formerly** 26-3051

**Prerequisites** ANIM 201 Storyboarding for Animation and ANIM 210 Drawing for Animation I or ANIM 201 Storyboarding for Animation and ANIM 240 Computer Animation

**Minimum Credits** 3 **Maximum Credits** 3

## **ANIM 480 Animation Production Studio I**

This course is the first of two semesters in which students will be working collaboratively with classmates on a single project, the purpose of which is to simulate an actual production environment that they might face once having left academia. Each participant will be assigned a particular production role based on a portfolio review at the beginning of the class in which each student will be asked to share portfolio work from previous classes with the executive producer (the instructor) and fellow classmates. This first semester of pre-production includes screenplay, design of characters and backgrounds, storyboards, recording of vocal talent, and completion of a story reel.

**Repeatable:** Y

**Formerly** 26-4085

**Prerequisites** ANIM 210 Drawing for Animation I or ANIM 350 Computer Animation: Keyframing II or ANIM 351 Environmental Design & Modeling or ANIM 352 Character Design and Modeling

**Requirements** Senior Standing (SR)

**Minimum Credits** 6 **Maximum Credits** 6

## **ANIM 481 Animation Production Studio II**

In this course students continue working on the project started in Animation Production Studio I. This class is primarily devoted to production and post-production, with the students embarking on traditional and/or computer animation production, generating visual effects, and working with a sound designer and composer. The goal of this course is to complete production and screen the film by the end of the semester.

**Repeatable:** Y

**Formerly** 26-4090

**Prerequisites** ANIM 480 Animation Production Studio I

**Requirements** Senior Standing (SR)

**Minimum Credits** 6 **Maximum Credits** 6

## **ANIM 482 Animation Solo Project**

After successfully completing Animation Preproduction and Computer Animation students enroll in this course to begin and subsequently complete production of their solo thesis films required for the BFA degree in Traditional and Computer Animation. Animation Solo Project is a repeatable course offering students sufficient time to complete production of their animated films.

**Repeatable:** Y

**Formerly** 26-4060

**Prerequisites** ANIM 382 Animation Preproduction

**Minimum Credits** 3 **Maximum Credits** 3

## **ANIM 485 Animation Portfolio Development**

Course will help students prepare for work in the field of animation by providing weekly insight and guidance as they develop a working portfolio, resume, and video/DVD with work they've completed. In addition to weekly in-class work, several professional animation studio student recruiters will come to campus throughout the 15-week class to present portfolio examples and discuss the field. They will meet with each of the students one on one to discuss their particular situation and to give them their advice and direction.

**Repeatable:** Y

**Formerly** 26-4048

**Prerequisites** ANIM 480 Animation Production Studio I

**Requirements** Senior Standing (SR)

**Minimum Credits** 3 **Maximum Credits** 3

## **CINE 145 Screenwriting I: Writing the Short Film**

Course is a workshop that explores basic methods of writing for cinema which further develop the students' skills in presenting their ideas in written form. Students will develop craft skills basic to cinema writing: research, story development, scene structure, dialogue, and character definition. Emphasis is on finding visual equivalents for human emotions and on developing the writer's individual personal vision. This work culminates in the development and revision of two short narrative scripts. Instrumental in the development of the student as a writer is the ability to read, and effectively critique, the work of their peers.

**Repeatable:** N

**Formerly** 24-1710

**Prerequisites** ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or ENGL 109 Writing and Rhetoric I Stretch B or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits** 3 **Maximum Credits** 3

## **GAME 201 Computer Animation: Modeling**

This course covers basic principles and language of three-dimensional (3D) modeling and animation utilizing industry standard software. Lectures cover the language and applications of these tools for use in the game, animation and film industries. By the completion of this course, students construct a series of sophisticated beginner level character and environment model 3D assets for their 3D portfolio. This course is suitable for students with little to no prior experience in 3D modeling or digital design.

**Repeatable:** *N*

**Formerly** 36-2370

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

### **ANIM 101 Animation Foundations**

Introductory foundation class for freshman providing a survey of various animated forms. Over the course of 15 weeks, students will be exposed to: Traditional Animation, Computer Graphics, Visual Effects, Motion Graphics & Alternative Strategies culminating in a final project based on a specific, dedicated workflow.

**Repeatable:** *N*

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 105 Introduction to Traditional Animation**

This course is an introduction to basic animation principles for students with little or no animation production experience. Students explore basic animation techniques including object, hand-drawn, stop-motion, and alternative animation styles. Animated films, both domestic and international, are screened and discussed. Students complete short exercises in each of the techniques mentioned and complete a final project employing a style of their choice that was previously explored during the semester.

**Repeatable:** *N*

**Formerly** 26-1000

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

### **ANIM 121 Stop-Motion Animation**

Course provides a basic understanding of three-dimensional animation using armatures, puppets, and objects. With the use of a Video Lunchbox, students will investigate the nature of human movement, and cover topics such as timing, weight, exaggeration, composition, lighting, and narrative approaches. Students will also become familiar with various materials and tools as you explore ways to create characters and simple scenery. A variety of stop-motion films, spanning a wide range of genres, will be viewed and discussed.

**Repeatable:** *N*

**Formerly** 26-1030

**Prerequisites** ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 122 Animation Maquettes**

This course teaches the process of creating animation maquettes: the sculptures created from model sheets that are used in the animation field. Students with a sculpting interest will explore the creation of maquettes in the same manner as industry professionals. Preexisting model sheets and models created by the student will be used to interpret two dimensional illustration into 3D sculptures.

**Repeatable:** *N*

**Formerly** 26-1010

**Minimum Credits 3 Maximum Credits 3**

## **ANIM 210 Drawing for Animation I**

Drawing-intensive course allows students to acquire an understanding of figurative human emotions and movements, enabling them to create believable animated characters. Students will create model sheets, learn the principles of animation, and learn how to endow your characters with believable actions and acting. Digital pencil testing will allow for the building of the animation from basic motion to more refined movements and emotion. Particular attention will be given to timing, layout, the creation of extreme drawings, and the process of inbetweening.

**Repeatable:** *N*

**Formerly** 26-2025

**Prerequisites** ANIM 101 Animation Foundations or ANIM 105 Introduction to Traditional Animation

**Minimum Credits 3 Maximum Credits 3**

## **ANIM 213 Animation Layout**

This course focuses on the layout process in animation production which is the creation of the monochromatic drawings which are later rendered as backgrounds for each shot. Students will strengthen their drawing skills by learning how to draw in proper perspective, understand lighting and shading principles. The layout process also teaches students how to block character animation within each shot and also understand how the camera functions within the action of each shot.

**Repeatable:** *N*

**Formerly** 26-2010

**Prerequisites** ANIM 201 Storyboarding for Animation

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

## **CINE 234 Cinema Analysis and Criticism**

Course is a writing-and-research-intensive introduction to cinema studies. Students are taught how to write about cinema and media using different approaches including: formal analysis, ideological analysis, and historical research. In order to focus more on writing and course content, screenings will be limited. The screenings may change at the discretion of the instructor but the nature and number of the assignments will remain the same for each offering of the course.

**Repeatable:** *N*

**Formerly** 24-2500

**Minimum Credits 3 Maximum Credits 3**

## **CINE 235A Authorship:**

Screening/discussion course is an intensive study of a single director (or directors) as auteur. The featured director(s) changes each semester. Class examines recurring themes, stylistic innovations, and differentiating interpretations of directors' films. Course may be repeated as featured directors change.

**Repeatable:** Y

**Formerly** CINE 235

**Minimum Credits 3 Maximum Credits 3**

### **CINE 235B Authorship:**

Screening/discussion course is an intensive study of a single director (or directors) as auteur. The featured director(s) changes each semester. Class examines recurring themes, stylistic innovations, and differentiating interpretations of directors' films. Course may be repeated as featured directors change.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

### **CINE 235C Authorship:**

Screening/discussion course is an intensive study of a single director (or directors) as auteur. The featured director(s) changes each semester. Class examines recurring themes, stylistic innovations, and differentiating interpretations of directors' films. Course may be repeated as featured directors change.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

### **CINE 235D Authorship:**

Screening/discussion course is an intensive study of a single director (or directors) as auteur. The featured director(s) changes each semester. Class examines recurring themes, stylistic innovations, and differentiating interpretations of directors' films. Course may be repeated as featured directors change.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

### **CINE 235E Authorship:**

Screening/discussion course is an intensive study of a single director (or directors) as auteur. The featured director(s) changes each semester. Class examines recurring themes, stylistic innovations, and differentiating interpretations of directors' films. Course may be repeated as featured directors change.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

### **CINE 235F Authorship:**

Screening/discussion course is an intensive study of a single director (or directors) as auteur. The featured director(s) changes each semester. Class examines recurring themes, stylistic innovations, and differentiating interpretations of directors' films. Course may be repeated as featured directors change.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

### **CINE 238A Cinema History and Culture**

This course examines historical and cultural issues in cinema. Topics may include specific genres, national cinemas, representations of gender and sexuality, non-narrative cinema, or the aesthetic impact of technological innovations. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help engage them actively with the topics.

**Repeatable:** Y

**Formerly** CINE 238

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 238B Cinema History and Culture**

This course examines historical and cultural issues in cinema. Topics may include specific genres, national cinemas, representations of gender and sexuality, non-narrative cinema, or the aesthetic impact of technological innovations. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help engage them actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 238C Cinema History and Culture**

This course examines historical and cultural issues in cinema. Topics may include specific genres, national cinemas, representations of gender and sexuality, non-narrative cinema, or the aesthetic impact of technological innovations. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help engage them actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 238D Cinema History and Culture**

This course examines historical and cultural issues in cinema. Topics may include specific genres, national cinemas, representations of gender and sexuality, non-narrative cinema, or the aesthetic impact of technological innovations. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help engage them actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **CINE 238E Cinema History and Culture**

This course examines historical and cultural issues in cinema. Topics may include specific genres, national cinemas, representations of gender and sexuality, non-narrative cinema, or the aesthetic impact of technological innovations. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help engage them actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **CINE 238F Cinema History and Culture**

This course examines historical and cultural issues in cinema. Topics may include specific genres, national cinemas, representations of gender and sexuality, non-narrative cinema, or the aesthetic impact of technological innovations. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help engage them actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **CINE 240A Cinema and Global Media Culture**

This course examines the impact of global media culture on cinema history and aesthetics. Topics may include cinematic adaptations of video games, graphic novels, or television series, as well as an analysis of how distribution models and international film festivals help determine cinematic form and audience reception. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help them engage actively with the topics.

**Repeatable:** Y

**Formerly** CINE 240

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **CINE 240B Cinema and Global Media Culture**

This course examines the impact of global media culture on cinema history and aesthetics. Topics may include cinematic adaptations of video games, graphic novels, or television series, as well as an analysis of how distribution models and international film festivals help determine cinematic form and audience reception. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help them engage actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **CINE 240C Cinema and Global Media Culture**

This course examines the impact of global media culture on cinema history and aesthetics. Topics may include cinematic adaptations of video games, graphic novels, or television series, as well as an analysis of how distribution models and international film festivals help determine cinematic form and audience reception. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help them engage actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 240D Cinema and Global Media Culture**

This course examines the impact of global media culture on cinema history and aesthetics. Topics may include cinematic adaptations of video games, graphic novels, or television series, as well as an analysis of how distribution models and international film festivals help determine cinematic form and audience reception. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help them engage actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 240E Cinema and Global Media Culture**

This course examines the impact of global media culture on cinema history and aesthetics. Topics may include cinematic adaptations of video games, graphic novels, or television series, as well as an analysis of how distribution models and international film festivals help determine cinematic form and audience reception. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help them engage actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 243 Studies in Film Aesthetics**

Course investigates how artistic and cultural movements and technological innovations determine and enhance the aesthetics development of the medium. Previous topics have included expressionism; surrealism; and aspects of film: cinemascope, technicolor, stereophonic sound, and 3-D. Course may be repeated as topics change.

**Repeatable:** N

**Formerly** 24-2561

**Minimum Credits 3 Maximum Credits 3**

*Choose two of the following courses:*

### **ANIM 350 Computer Animation: Keyframing II**

Course will expand upon the skills and concepts introduced in ANIM 150 Computer Animation: Keyframing I. Using current computer animation software, students will be introduced to advanced concepts and techniques using inverse kinematics/forward kinematics, dynamics, and simulations. Using MEL scripts for animation will also be covered. A series of short exercises will ensure that students understand these skills and techniques as the class progresses. A final project will encourage students to exhibit these acquired skills.

**Repeatable:** Y

**Formerly** 26-3046

**Prerequisites** ANIM 150 Computer Animation: Keyframing I

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 351 Environmental Design & Modeling**

Course emphasizes the design and technical ability needed to model non-character 3-D objects. Students will be introduced to level design, industrial design, and architectural terms and concepts. Using 3-D software, students will design and build environments, set dressing, and vehicles. Level of detail exercises will introduce the concept of polygon and image budget creation. Exercises in stand-alone software packages will teach advanced texture/mapping.

**Repeatable:** Y

**Formerly** 26-3082

**Prerequisites** GAME 201 Computer Animation: Modeling or ANIM 240 Computer Animation

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 352 Character Design and Modeling**

Course emphasizes the design and technical ability needed to model 3-D characters. Students will be introduced to design, sculpting, and anatomical terms and concepts. Using 3-D software, students will design and build characters and other organic models. Level of detail exercises will introduce the concept of polygon and image budgets. Exercises in stand-alone software packages will teach advanced texture mapping.

**Repeatable:** Y

**Formerly** 26-3086

**Prerequisites** GAME 201 Computer Animation: Modeling or ANIM 240 Computer Animation

**Minimum Credits 3 Maximum Credits 3**

## **Electives**

*Complete 18 credits from the following courses:*

### **ANIM 121 Stop-Motion Animation**

Course provides a basic understanding of three-dimensional animation using armatures, puppets, and objects. With the use of a Video Lunchbox, students will investigate the nature of human movement, and cover topics such as timing, weight, exaggeration, composition, lighting, and narrative approaches. Students will also become familiar with various materials and tools as you explore ways to create characters and simple scenery. A variety of stop-motion films, spanning a wide range of genres, will be viewed and discussed.

**Repeatable:** N

**Formerly** 26-1030

**Prerequisites** ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

## **ANIM 122 Animation Maquettes**

This course teaches the process of creating animation maquettes: the sculptures created from model sheets that are used in the animation field. Students with a sculpting interest will explore the creation of maquettes in the same manner as industry professionals. Preexisting model sheets and models created by the student will be used to interpret two dimensional illustration into 3D sculptures.

**Repeatable:** *N*

**Formerly** 26-1010

**Minimum Credits 3 Maximum Credits 3**

## **ANIM 161 CVFX Foundations**

This course introduces students to core methodologies and practices for creating, constructing and producing key visual effects sequences for live-action cinema. Students will learn a cross-section of visual effect approaches developing their knowledge and practical application of these technologies in supporting live-action cinema. This survey primer on core methodologies allows students to organize, plan and execute required cinema visual effects developing interpersonal and practical skill sets.

**Repeatable:** *N*

**Formerly** 24-1600

**Minimum Credits 3 Maximum Credits 3**

## **ANIM 210 Drawing for Animation I**

Drawing-intensive course allows students to acquire an understanding of figurative human emotions and movements, enabling them to create believable animated characters. Students will create model sheets, learn the principles of animation, and learn how to endow your characters with believable actions and acting. Digital pencil testing will allow for the building of the animation from basic motion to more refined movements and emotion. Particular attention will be given to timing, layout, the creation of extreme drawings, and the process of inbetweening.

**Repeatable:** *N*

**Formerly** 26-2025

**Prerequisites** ANIM 101 Animation Foundations or ANIM 105 Introduction to Traditional Animation

**Minimum Credits 3 Maximum Credits 3**

## **ANIM 211 Alternative Strategies in Animation**

Course explores alternative approaches to the normally highly structured, technically oriented process of creating an animated film. Students will be expected to be curious and imaginative as they are introduced to unorthodox approaches including sand, pastels, drawing directly on film stock, paint-on-glass, and other techniques. Students will also view and discuss films created by non-mainstream artists/animators such as Len Lye, Norman McLaren, and others, which will introduce them to highly graphic and imaginative movement and messages.

**Repeatable:** *N*

**Formerly** 26-2028

**Prerequisites** ANIM 105 Introduction to Traditional Animation

**Minimum Credits** 3 **Maximum Credits** 3

### **ANIM 250A Topics in Animation**

This is a topics course in Animation. Different sections of this course will focus on different topic areas related to Animation that are not taught in other classes. Please contact the department for specifics on the content of each topic. .

**Repeatable:** *Y*

**Formerly** ANIM 250

**Minimum Credits** 1 **Maximum Credits** 3

### **ANIM 250B Topics in Animation**

This is a topics course in Animation. Different sections of this course will focus on different topic areas related to Animation that are not taught in other classes. Please contact the department for specifics on the content of each topic. .

**Repeatable:** *Y*

**Minimum Credits** 1 **Maximum Credits** 3

### **ANIM 250C Topics in Animation**

This is a topics course in Animation. Different sections of this course will focus on different topic areas related to Animation that are not taught in other classes. Please contact the department for specifics on the content of each topic. .

**Repeatable:** *Y*

**Minimum Credits** 1 **Maximum Credits** 3

### **ANIM 250D Topics in Animation**

This is a topics course in Animation. Different sections of this course will focus on different topic areas related to Animation that are not taught in other classes. Please contact the department for specifics on the content of each topic. .

**Repeatable:** *Y*

**Minimum Credits** 1 **Maximum Credits** 3

### **ANIM 263 CVFX: Compositing I**

Lectures and demonstrations, with supporting materials, along with weekly exercises to reinforce the ideas and principles put forth in these presentations, will guide students toward a solid fundamental understanding of the visual effects postproduction process via the compositing workflow. Students will be given the opportunity to show what they have learned by executing a basic final project at the end of the semester, with a subsequent critique by the class and individually with the instructor.

**Repeatable:** *N*

**Formerly** 24-2209

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 270 Motion Graphics I**

Course teaches techniques to digitally integrate software and composite layers of images. Discussions of digital and optical effects from conception to design encourage students to make creative use of software.

**Repeatable:** *N*

**Formerly** 24-1420

**Prerequisites** INMD 120 Digital Image Design or GRDE 136 Design Lab or TELE 230 Production & Editing I or PHOT 202 Photographic Practice III or PHOT 206 Digital Imaging I or CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 311 Acting For Animators**

This course, recommended for both Traditional and Computer Animation students, focuses on acting techniques for animators exploring the similarities and differences of stage and screen acting. Students will learn acting techniques through physical and emotional acting exercises in addition to viewing scenes from a variety of live action and animated films. Focus of this class is exploring the emotional feelings of characters which lead to their physical movement. Animation assignments include creating a performance with a CG rig (for Computer Animation Students) and hand-drawn character animation (for Traditional Animation Students).

**Repeatable:** *N*

**Formerly** 26-3050

**Prerequisites** ANIM 210 Drawing for Animation I or ANIM 240 Computer Animation or ANIM 121 Stop-Motion Animation

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 332 Animation for Comics**

An examination of Limited Animation practices detailing core principles, practices, methodologies and movements for online and broadcast comic book programming.

**Repeatable:** *N*

**Formerly** 26-3010

**Prerequisites** INMD 240 Story Development for Interactive Media or RAD1 205 Writing for Radio or RAD1 339 Voice Acting for Animation or ANIM 105 Introduction to Traditional Animation or ANIM 263 CVFX: Compositing I

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 350 Computer Animation: Keyframing II**

Course will expand upon the skills and concepts introduced in ANIM 150 Computer Animation: Keyframing I. Using current computer animation software, students will be introduced to advanced concepts and techniques using inverse kinematics/forward kinematics, dynamics, and simulations. Using MEL scripts for animation will also be covered. A series of short exercises will ensure that students understand these skills and techniques as the class progresses. A final project will encourage students to exhibit these acquired skills.

**Repeatable:** Y

**Formerly** 26-3046

**Prerequisites** ANIM 150 Computer Animation: Keyframing I

**Minimum Credits** 3 **Maximum Credits** 3

### **ANIM 351 Environmental Design & Modeling**

Course emphasizes the design and technical ability needed to model non-character 3-D objects. Students will be introduced to level design, industrial design, and architectural terms and concepts. Using 3-D software, students will design and build environments, set dressing, and vehicles. Level of detail exercises will introduce the concept of polygon and image budget creation. Exercises in stand-alone software packages will teach advanced texture/mapping.

**Repeatable:** Y

**Formerly** 26-3082

**Prerequisites** GAME 201 Computer Animation: Modeling or ANIM 240 Computer Animation

**Minimum Credits** 3 **Maximum Credits** 3

### **ANIM 352 Character Design and Modeling**

Course emphasizes the design and technical ability needed to model 3-D characters. Students will be introduced to design, sculpting, and anatomical terms and concepts. Using 3-D software, students will design and build characters and other organic models. Level of detail exercises will introduce the concept of polygon and image budgets. Exercises in stand-alone software packages will teach advanced texture mapping.

**Repeatable:** Y

**Formerly** 26-3086

**Prerequisites** GAME 201 Computer Animation: Modeling or ANIM 240 Computer Animation

**Minimum Credits** 3 **Maximum Credits** 3

### **ANIM 363 CVFX: Compositing II**

This course teaches students the various analogue and digital techniques of compositing film elements of diverse origin, from film, electronic imaging systems, and computer-generated images, through lecture, demonstration, and hands-on practice.

**Repeatable:** N

**Formerly** 24-3209

**Prerequisites** ANIM 263 CVFX: Compositing I or ANIM 370 Motion Graphics II

**Minimum Credits** 3 **Maximum Credits** 3

### **ANIM 370 Motion Graphics II**

Course teaches complex film and video compositing under tight deadlines using advanced high-end systems. Course emphasizes storyboarding and design as well as postproduction house protocols.

**Repeatable:** N

**Formerly** 24-2421

**Prerequisites** ANIM 270 Motion Graphics I or CINE 310 Cinema Models and Miniatures

**Minimum Credits** 3 **Maximum Credits** 3

## **ANIM 373A Advanced Topics in Computer Animation**

This course continues to refine and advance the aesthetic understanding and technical abilities needed in advanced Computer Generated (CG) animation through a series of rotating topics courses. Computer Animation software such as Autodesk's Maya will be used for classroom review, professional examples and student assignments.

**Repeatable:** Y

**Formerly** ANIM 373

**Prerequisites** ANIM 240 Computer Animation

**Minimum Credits 1 Maximum Credits 1**

## **ANIM 373B Advanced Topics in Computer Animation**

This course continues to refine and advance the aesthetic understanding and technical abilities needed in advanced Computer Generated (CG) animation through a series of rotating topics courses. Computer Animation software such as Autodesk's Maya will be used for classroom review, professional examples and student assignments.

**Repeatable:** Y

**Prerequisites** ANIM 240 Computer Animation

**Minimum Credits 1 Maximum Credits 1**

## **ANIM 373C Advanced Topics in Computer Animation**

This course continues to refine and advance the aesthetic understanding and technical abilities needed in advanced Computer Generated (CG) animation through a series of rotating topics courses. Computer Animation software such as Autodesk's Maya will be used for classroom review, professional examples and student assignments.

**Repeatable:** Y

**Prerequisites** ANIM 240 Computer Animation

**Minimum Credits 1 Maximum Credits 1**

## **ANIM 373D Advanced Topics in Computer Animation**

This course continues to refine and advance the aesthetic understanding and technical abilities needed in advanced Computer Generated (CG) animation through a series of rotating topics courses. Computer Animation software such as Autodesk's Maya will be used for classroom review, professional examples and student assignments.

**Repeatable:** Y

**Prerequisites** ANIM 240 Computer Animation

**Minimum Credits 1 Maximum Credits 1**

## **ANIM 451 Advanced Character & Environmental Design**

Course continues to refine and advance the design and technical abilities needed to model 3D characters and non-character 3D objects. Using industry standard software for 3D modeling and advanced texture-mapping, students will design and build either characters or environments based on industry standards.

**Repeatable:** *N*

**Formerly** 26-4089

**Prerequisites** ANIM 352 Character Design and Modeling or ANIM 351 Environmental Design & Modeling

**Minimum Credits** 3 **Maximum Credits** 3

### **ANIM 470 Motion Graphics III**

Students in this course complete a series of projects modeled upon current professional practices while refining design and research skills. Student projects include a team-based client work, an independent textual interpretation or research-inspired animation, and additional short animations. The team-based projects will include interaction with the client/s. Research, ideation, prototyping, production and evaluation will be a collective and collaborative process. Students develop a portfolio-based web site that includes video samples, a personal statement and resume.

**Repeatable:** *Y*

**Formerly** 24-4422

**Prerequisites** ANIM 370 Motion Graphics II or ANIM 240 Computer Animation

**Minimum Credits** 3 **Maximum Credits** 3

### **GAME 337 3D Digital Sculpting**

This course focuses on skills, techniques and concepts that pertain to 3D digital sculpting. In this class students learn how to concept, produce and present high quality 3d models created using specialized digital sculpting software.

**Repeatable:** *Y*

**Formerly** 36-3350

**Prerequisites** GAME 201 Computer Animation: Modeling

**Minimum Credits** 3 **Maximum Credits** 3

### **GAME 436 Advanced 3D Digital Sculpting**

Digital sculpting is a cornerstone of 3D content creation and concept art creation for games. This course serves as a way for students to create more thoughtfully considered content using digital sculpting processes. Students will learn how to sculpt a series of 3D concepts and then develop a concept into a fully realized, hyper realistic piece of content for a game. This goal will be achieved by using more involved retopology and normal mapping techniques to translate high resolution from high polygon meshes to optimized, low polygon game meshes that can be translated to a game engine.

**Repeatable:** *N*

**Formerly** 36-3750

**Prerequisites** GAME 337 3D Digital Sculpting

**Minimum Credits** 3 **Maximum Credits** 3

## **Traditional Animation, BFA**

The BFA degree in Traditional Animation is offered as a professional degree. The educational experience and subsequent body of work reflect three areas of success in the animation profession: (a) a capstone animated film created in a collaborative, team-oriented setting, (b) an animated short created as a solo thesis project, and (c) additional courses in critical studies, story, classic art, advanced animation, and the technical facility that seeks to prepare students for immediate entry into the professional world.

As a result of successfully completing program requirements, students should be able to:

- demonstrate proficiencies in digital and computer-generated software and technology through the creation of animated projects;
- demonstrate a comprehension of history, aesthetics and the analytical context of animation in cinema through written, oral and animated presentations;
- employ a professional level of industry practices, standards and career strategies to successfully market and showcase their animated work;
- collaborate on a team project in the development, production and presentation of an animated short film;
- create and present an animated thesis film; and
- create a professional quality animation portfolio demonstrating original cinematic material and a developed artistic voice.

## PROGRAM REQUIREMENTS - 72 credits required

### **ANIM 105 Introduction to Traditional Animation**

This course is an introduction to basic animation principles for students with little or no animation production experience. Students explore basic animation techniques including object, hand-drawn, stop-motion, and alternative animation styles. Animated films, both domestic and international, are screened and discussed. Students complete short exercises in each of the techniques mentioned and complete a final project employing a style of their choice that was previously explored during the semester.

**Repeatable:** *N*

**Formerly** 26-1000

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 106 History of Animation**

Course explores the origins of the animation process, beginning with animated films by J. Stewart Blackton, Emil Cohl, Len Lye, Winsor McCay, and many others through to present day productions. The lives and environments, as well as the artistic and narrative influences on these and other animators, will be dissected and studied. The class will involve weekly screenings of films and videos from around the world, including both independent and commercial, to get an understanding of where this art form has been and where it might be going. Emphasis will be on understanding the motivations and influences on animation artists, and how as contemporary animators you might benefit from studying them.

**Repeatable:** *N*

**Formerly** 26-1070

**Prerequisites** ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 201 Storyboarding for Animation**

Learn the art of visual storytelling for animation as a cinema art form. Draw digitally using industry-standard technologies and create a story reel for the final project; a movie comprised of all of storyboard panels (which may include dialogue, music, and sound effects) timed out to reflect the actual pacing of the film.

**Repeatable:** *N*

**Formerly** 26-2040

**Prerequisites** ANIM 101 Animation Foundations or ANIM 105 Introduction to Traditional Animation

**Minimum Credits 3 Maximum Credits 3**

## **ANIM 210 Drawing for Animation I**

Drawing-intensive course allows students to acquire an understanding of figurative human emotions and movements, enabling them to create believable animated characters. Students will create model sheets, learn the principles of animation, and learn how to endow your characters with believable actions and acting. Digital pencil testing will allow for the building of the animation from basic motion to more refined movements and emotion. Particular attention will be given to timing, layout, the creation of extreme drawings, and the process of inbetweening.

**Repeatable:** *N*

**Formerly** 26-2025

**Prerequisites** ANIM 101 Animation Foundations or ANIM 105 Introduction to Traditional Animation

**Minimum Credits 3 Maximum Credits 3**

## **ANIM 213 Animation Layout**

This course focuses on the layout process in animation production which is the creation of the monochromatic drawings which are later rendered as backgrounds for each shot. Students will strengthen their drawing skills by learning how to draw in proper perspective, understand lighting and shading principles. The layout process also teaches students how to block character animation within each shot and also understand how the camera functions within the action of each shot.

**Repeatable:** *N*

**Formerly** 26-2010

**Prerequisites** ANIM 201 Storyboarding for Animation

**Minimum Credits 3 Maximum Credits 3**

## **ANIM 310 Drawing for Animation II**

This course focuses on advanced character animation where students acquire the skills necessary to understand and communicate the emotions and intentions of a character. Exploring and communicating acting through their character's actions and movements, students apply the principles of classic animation learned in Drawing for Animation I (ANIM 210). Working from a dialogue track, students will learn lip-synching and adding personality and depth to their characters while continuing to develop their skills drawing and animating digitally using a stylus and tablet.

**Repeatable:** *N*

**Formerly** 26-3026

**Prerequisites** ANIM 210 Drawing for Animation I

**Minimum Credits 3 Maximum Credits 3**

## **ANIM 330 Digital Animation Techniques: Ink, Paint & Composite**

Course introduces students to what has become the norm at most studios: digital ink and paint and compositing. Students will work with animated drawings created in Drawing for Animation I (ANIM 210), or create new drawings to scan, paint, and render with independent peg moves, using computers as the medium, creating a full-color 20-second piece of animation for a final project.

**Repeatable:** Y

**Formerly** 26-2075

**Prerequisites** ANIM 210 Drawing for Animation I

**Minimum Credits** 3 **Maximum Credits** 3

### **ANIM 340 The Business of Animated Content**

Course examines central business and legal matters associated with developing, producing and releasing animated content. Students will be introduced to basic business principles and production hierarchies for short and feature animated films including new technologies and the evolving convergent marketplace.

**Repeatable:** N

**Formerly** 26-3605

**Prerequisites** ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or ENGL 109 Writing and Rhetoric I Stretch B or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits** 3 **Maximum Credits** 3

### **ANIM 382 Animation Preproduction**

In this course, students develop the stories for their animated thesis solo films required for the BFA degrees in both Traditional and Computer Animation. Students create storyboards and story reels, model sheets, explore art direction, timing, and various other aspects of preproduction that will lead to green-lighting the production of their films in either Traditional or Computer Animation Studio. Animation Preproduction & Story Development must be taken by both Traditional and Computer Animation students pursuing BFAs in their respective areas.

**Repeatable:** Y

**Formerly** 26-3051

**Prerequisites** ANIM 201 Storyboarding for Animation and ANIM 210 Drawing for Animation I or ANIM 201 Storyboarding for Animation and ANIM 240 Computer Animation

**Minimum Credits** 3 **Maximum Credits** 3

### **ANIM 480 Animation Production Studio I**

This course is the first of two semesters in which students will be working collaboratively with classmates on a single project, the purpose of which is to simulate an actual production environment that they might face once having left academia. Each participant will be assigned a particular production role based on a portfolio review at the beginning of the class in which each student will be asked to share portfolio work from previous classes with the executive producer (the instructor) and fellow classmates. This first semester of pre-production includes screenplay, design of characters and backgrounds, storyboards, recording of vocal talent, and completion of a story reel.

**Repeatable:** Y

**Formerly** 26-4085

**Prerequisites** ANIM 210 Drawing for Animation I or ANIM 350 Computer Animation: Keyframing II or ANIM 351 Environmental Design & Modeling or ANIM 352 Character Design and Modeling

**Requirements** Senior Standing (SR)

**Minimum Credits** 6 **Maximum Credits** 6

## **ANIM 481 Animation Production Studio II**

In this course students continue working on the project started in Animation Production Studio I. This class is primarily devoted to production and post-production, with the students embarking on traditional and/or computer animation production, generating visual effects, and working with a sound designer and composer. The goal of this course is to complete production and screen the film by the end of the semester.

**Repeatable:** Y

**Formerly** 26-4090

**Prerequisites** ANIM 480 Animation Production Studio I

**Requirements** Senior Standing (SR)

**Minimum Credits** 6 **Maximum Credits** 6

## **ANIM 482 Animation Solo Project**

After successfully completing Animation Preproduction and Computer Animation students enroll in this course to begin and subsequently complete production of their solo thesis films required for the BFA degree in Traditional and Computer Animation. Animation Solo Project is a repeatable course offering students sufficient time to complete production of their animated films.

**Repeatable:** Y

**Formerly** 26-4060

**Prerequisites** ANIM 382 Animation Preproduction

**Minimum Credits** 3 **Maximum Credits** 3

## **ANIM 485 Animation Portfolio Development**

Course will help students prepare for work in the field of animation by providing weekly insight and guidance as they develop a working portfolio, resume, and video/DVD with work they've completed. In addition to weekly in-class work, several professional animation studio student recruiters will come to campus throughout the 15-week class to present portfolio examples and discuss the field. They will meet with each of the students one on one to discuss their particular situation and to give them their advice and direction.

**Repeatable:** Y

**Formerly** 26-4048

**Prerequisites** ANIM 480 Animation Production Studio I

**Requirements** Senior Standing (SR)

**Minimum Credits** 3 **Maximum Credits** 3

## **ARTH 210 20th Century Art History**

This course surveys the history of modern art and critical theories from Post-Impressionism in the 1890s, covering major subsequent currents such as Cubism, Expressionism, Surrealism, Dada, The Harlem Renaissance, Abstract Expressionism, The Black Arts Movement and Post-modernism. Developments in design and architecture, such as the Bauhaus, International Style, and Post-modernism, will also be addressed.

**Repeatable:** N

**Formerly** 22-2110

**HU**

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits** 3 **Maximum Credits** 3

## **ARTS 110 Drawing I**

This course teaches students how to represent accurately and proportionately objects, planes, and volumes through line and tone by developing hand-to-eye coordination. Basics of form development, 1, 2 and 3 point perspective, composition, texture, and modeling through various shading techniques are explored in various exercises augmented by critiques, slide lectures, and discussions.

**Repeatable:** N

**Formerly** ARTS 210

**Minimum Credits 3 Maximum Credits 3**

## **CINE 145 Screenwriting I: Writing the Short Film**

Course is a workshop that explores basic methods of writing for cinema which further develop the students' skills in presenting their ideas in written form. Students will develop craft skills basic to cinema writing: research, story development, scene structure, dialogue, and character definition. Emphasis is on finding visual equivalents for human emotions and on developing the writer's individual personal vision. This work culminates in the development and revision of two short narrative scripts. Instrumental in the development of the student as a writer is the ability to read, and effectively critique, the work of their peers.

**Repeatable:** N

**Formerly** 24-1710

**Prerequisites** ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or ENGL 109 Writing and Rhetoric I Stretch B or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

## **ILLU 204 Figure Drawing I**

In this course students are provided the opportunity through direct observation of the human form to learn skills in representing the human form using a variety of materials, by concentrating on proportion, light, shape, and movement. Slide discussions of master figure drawings set examples and standards.

**Repeatable:** Y

**Formerly** 21-2402

**Prerequisites** ANIM 105 Introduction to Traditional Animation or ARTS 110 Drawing I or GAME 205 2D Art for Games or ILLU 101 Introduction to Illustration

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

## **ANIM 121 Stop-Motion Animation**

Course provides a basic understanding of three-dimensional animation using armatures, puppets, and objects. With the use of a Video Lunchbox, students will investigate the nature of human movement, and cover topics such as timing, weight, exaggeration, composition, lighting, and narrative approaches. Students will also become familiar with various materials and tools as you explore ways to create characters and simple scenery. A variety of stop-motion films, spanning a wide range of genres, will be viewed and discussed.

**Repeatable:** N

**Formerly** 26-1030

**Prerequisites** ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 122 Animation Maquettes**

This course teaches the process of creating animation maquettes: the sculptures created from model sheets that are used in the animation field. Students with a sculpting interest will explore the creation of maquettes in the same manner as industry professionals. Preexisting model sheets and models created by the student will be used to interpret two dimensional illustration into 3D sculptures.

**Repeatable:** N

**Formerly** 26-1010

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 211 Alternative Strategies in Animation**

Course explores alternative approaches to the normally highly structured, technically oriented process of creating an animated film. Students will be expected to be curious and imaginative as they are introduced to unorthodox approaches including sand, pastels, drawing directly on film stock, paint-on-glass, and other techniques. Students will also view and discuss films created by non-mainstream artists/animators such as Len Lye, Norman McLaren, and others, which will introduce them to highly graphic and imaginative movement and messages.

**Repeatable:** N

**Formerly** 26-2028

**Prerequisites** ANIM 105 Introduction to Traditional Animation

**Minimum Credits 3 Maximum Credits 3**

*Complete 6 credits from the following courses:*

### **ANIM 311 Acting For Animators**

This course, recommended for both Traditional and Computer Animation students, focuses on acting techniques for animators exploring the similarities and differences of stage and screen acting. Students will learn acting techniques through physical and emotional acting exercises in addition to viewing scenes from a variety of live action and animated films. Focus of this class is exploring the emotional feelings of characters which lead to their physical movement. Animation assignments include creating a performance with a CG rig (for Computer Animation Students) and hand-drawn character animation (for Traditional Animation Students).

**Repeatable:** N

**Formerly** 26-3050

**Prerequisites** ANIM 210 Drawing for Animation I or ANIM 240 Computer Animation or ANIM 121 Stop-Motion Animation

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 312 Cartooning**

Course introduces different aspects of cartoon drawing. Course teaches basic techniques of cartoon drawing and investigates five genres of cartooning. Students study in-depth one liner, multi-panel,

advertisement, illustrative, and political editorial cartoons. Instruction includes historical study of specific types of cartoons dating from 1745. Course explores style of cartoons, thematic types, and construction of cartoon character for the technique of animation.

**Repeatable:** N

**Formerly** 26-3070

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 331 Digital Animation Techniques Current 2D Trends**

Course introduces students to digital animation techniques and aesthetics currently used by traditional animators for professional productions. Students will apply fundamental animation principles learned in Drawing for Animation 1 (ANIM 210) and apply them using various techniques and software which may include Flash, Photoshop, and After Effects. Students learn to create paperless hand-drawn animation using a digital drawing tablet and computer, creating a short animated piece by the end of the semester.

**Repeatable:** N

**Formerly** 26-3047

**Prerequisites** ANIM 210 Drawing for Animation I

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 374A Advanced Topics in Traditional Animation**

This is an advanced topics course in traditional animation. Different sections of this course will focus on different topic areas related to Traditional Animation that are not taught in other classes. Please contact the department for specifics on the content of each topic.

**Repeatable:** Y

**Formerly** ANIM 374

**Prerequisites** ANIM 210 Drawing for Animation I

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 1 Maximum Credits 3**

### **ANIM 374B Advanced Topics in Traditional Animation**

This is an advanced topics course in traditional animation. Different sections of this course will focus on different topic areas related to Traditional Animation that are not taught in other classes. Please contact the department for specifics on the content of each topic.

**Repeatable:** Y

**Prerequisites** ANIM 210 Drawing for Animation I

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 1 Maximum Credits 3**

### **ANIM 374C Advanced Topics in Traditional Animation**

This is an advanced topics course in traditional animation. Different sections of this course will focus on different topic areas related to Traditional Animation that are not taught in other classes. Please contact the department for specifics on the content of each topic.

**Repeatable:** Y

**Prerequisites** ANIM 210 Drawing for Animation I

**Requirements** Sophomore Standing or Above (SO)  
**Minimum Credits 1 Maximum Credits 3**

### **ANIM 374D Advanced Topics in Traditional Animation**

This is an advanced topics course in traditional animation. Different sections of this course will focus on different topic areas related to Traditional Animation that are not taught in other classes. Please contact the department for specifics on the content of each topic.

**Repeatable:** Y

**Prerequisites** ANIM 210 Drawing for Animation I

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 1 Maximum Credits 3**

### **Electives**

*Choose one of the following courses:*

### **CINE 234 Cinema Analysis and Criticism**

Course is a writing-and-research-intensive introduction to cinema studies. Students are taught how to write about cinema and media using different approaches including: formal analysis, ideological analysis, and historical research. In order to focus more on writing and course content, screenings will be limited. The screenings may change at the discretion of the instructor but the nature and number of the assignments will remain the same for each offering of the course.

**Repeatable:** N

**Formerly** 24-2500

**Minimum Credits 3 Maximum Credits 3**

### **CINE 235A Authorship:**

Screening/discussion course is an intensive study of a single director (or directors) as auteur. The featured director(s) changes each semester. Class examines recurring themes, stylistic innovations, and differentiating interpretations of directors' films. Course may be repeated as featured directors change.

**Repeatable:** Y

**Formerly** CINE 235

**Minimum Credits 3 Maximum Credits 3**

### **CINE 235B Authorship:**

Screening/discussion course is an intensive study of a single director (or directors) as auteur. The featured director(s) changes each semester. Class examines recurring themes, stylistic innovations, and differentiating interpretations of directors' films. Course may be repeated as featured directors change.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

### **CINE 235C Authorship:**

Screening/discussion course is an intensive study of a single director (or directors) as auteur. The featured director(s) changes each semester. Class examines recurring themes, stylistic innovations, and differentiating interpretations of directors' films. Course may be repeated as featured directors change.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

### **CINE 235D Authorship:**

Screening/discussion course is an intensive study of a single director (or directors) as auteur. The featured director(s) changes each semester. Class examines recurring themes, stylistic innovations, and differentiating interpretations of directors' films. Course may be repeated as featured directors change.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

### **CINE 235E Authorship:**

Screening/discussion course is an intensive study of a single director (or directors) as auteur. The featured director(s) changes each semester. Class examines recurring themes, stylistic innovations, and differentiating interpretations of directors' films. Course may be repeated as featured directors change.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

### **CINE 235F Authorship:**

Screening/discussion course is an intensive study of a single director (or directors) as auteur. The featured director(s) changes each semester. Class examines recurring themes, stylistic innovations, and differentiating interpretations of directors' films. Course may be repeated as featured directors change.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

### **CINE 238A Cinema History and Culture**

This course examines historical and cultural issues in cinema. Topics may include specific genres, national cinemas, representations of gender and sexuality, non-narrative cinema, or the aesthetic impact of technological innovations. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help engage them actively with the topics.

**Repeatable:** Y

**Formerly** CINE 238

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 238B Cinema History and Culture**

This course examines historical and cultural issues in cinema. Topics may include specific genres, national cinemas, representations of gender and sexuality, non-narrative cinema, or the aesthetic impact of

technological innovations. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help engage them actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 238C Cinema History and Culture**

This course examines historical and cultural issues in cinema. Topics may include specific genres, national cinemas, representations of gender and sexuality, non-narrative cinema, or the aesthetic impact of technological innovations. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help engage them actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 238D Cinema History and Culture**

This course examines historical and cultural issues in cinema. Topics may include specific genres, national cinemas, representations of gender and sexuality, non-narrative cinema, or the aesthetic impact of technological innovations. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help engage them actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 238E Cinema History and Culture**

This course examines historical and cultural issues in cinema. Topics may include specific genres, national cinemas, representations of gender and sexuality, non-narrative cinema, or the aesthetic impact of technological innovations. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help engage them actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 238F Cinema History and Culture**

This course examines historical and cultural issues in cinema. Topics may include specific genres, national cinemas, representations of gender and sexuality, non-narrative cinema, or the aesthetic impact of technological innovations. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help engage them actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 240A Cinema and Global Media Culture**

This course examines the impact of global media culture on cinema history and aesthetics. Topics may include cinematic adaptations of video games, graphic novels, or television series, as well as an analysis of how distribution models and international film festivals help determine cinematic form and audience reception. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help them engage actively with the topics.

**Repeatable:** Y

**Formerly** CINE 240

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 240B Cinema and Global Media Culture**

This course examines the impact of global media culture on cinema history and aesthetics. Topics may include cinematic adaptations of video games, graphic novels, or television series, as well as an analysis of how distribution models and international film festivals help determine cinematic form and audience reception. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help them engage actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 240C Cinema and Global Media Culture**

This course examines the impact of global media culture on cinema history and aesthetics. Topics may include cinematic adaptations of video games, graphic novels, or television series, as well as an analysis of how distribution models and international film festivals help determine cinematic form and audience reception. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help them engage actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 240D Cinema and Global Media Culture**

This course examines the impact of global media culture on cinema history and aesthetics. Topics may include cinematic adaptations of video games, graphic novels, or television series, as well as an analysis of how distribution models and international film festivals help determine cinematic form and audience reception. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help them engage actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **CINE 240E Cinema and Global Media Culture**

This course examines the impact of global media culture on cinema history and aesthetics. Topics may include cinematic adaptations of video games, graphic novels, or television series, as well as an analysis of how distribution models and international film festivals help determine cinematic form and audience reception. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help them engage actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **CINE 243 Studies in Film Aesthetics**

Course investigates how artistic and cultural movements and technological innovations determine and enhance the aesthetics development of the medium. Previous topics have included expressionism; surrealism; and aspects of film: cinemascope, technicolor, stereophonic sound, and 3-D. Course may be repeated as topics change.

**Repeatable:** N

**Formerly** 24-2561

**Minimum Credits 3 Maximum Credits 3**

## **Bachelor of Science**

### **Programming, BS**

The Programming Bachelor of Science prepares dedicated students for careers as software engineers. The program provides an environment for students to develop games, simulations, immersive experiences, software, and other interactive experiences for a variety of platforms. Rigorous mathematics requirements prepare students for both industry careers and the pursuit of a graduate degree in Computer Science. Students pursuing this degree choose between two concentrations (Game Programming or Application Programming) and participate in a senior capstone course to collaboratively develop work for their portfolio.

As a result of successfully completing program requirements, students should be able to:

- apply advanced programming principles and concepts in the development of interactive experiences;
- synthesize knowledge and skills to build and refine a professional body of work;
- utilize advanced mathematics relevant to computer science and programming;
- demonstrate an ability to expand and deepen their knowledge in areas of computer science beyond the core curriculum;
- effectively communicate and successfully function in multi-disciplinary teams; and
- perform with a critical understanding of the vocabulary, fundamental concepts, skills, and roles for a career in computer science, or graduate school.

## PROGRAM REQUIREMENTS - 70 credits required

### **INMD 114 Web Development I**

Counter to printed compositions, web design and development is about fluid and interactive experiences. This course provides an introduction to programming environments and teaches fundamental skills necessary to prototype and deploy digital media. Using technical elements like variables, conditions, sequences and events, completion of this course will empower students with the ability to design interactive applications.

**Repeatable:** Y

**Formerly** 36-1420

**Minimum Credits 3 Maximum Credits 3**

### **INMD 214 Web Development II**

Interactive design and development can narrate any topic. Using methods and techniques exposed in Web Development I, students prototype and iterate work as a means of increasing complexity and refining concept. Throughout this course students gain and apply the project development strategies necessary to research and produce interactive media using professional management strategies.

**Repeatable:** N

**Formerly** 36-2421

**Prerequisites** INMD 114 Web Development I

**Minimum Credits 3 Maximum Credits 3**

### **PROG 101 Programming I**

Learn programming concepts as you problem-solve with code, develop algorithms, and create object-oriented applications. Topics covered throughout the semester include data structures, repetition, sequence control structures, program design, testing, and programming best practices.

**Repeatable:** N

**Formerly** 36-1501

**Minimum Credits 3 Maximum Credits 3**

### **PROG 103 Computer Architecture**

How do computer systems execute, store information, and communicate? Computer hardware and architecture are explored from multiple perspectives. Topics include Boolean logic, data representation, processor organization, input/output, memory organization, system support software, performance, portability, robustness, and communication.

**Repeatable:** N

**Formerly** 36-1200

**Prerequisites** PROG 101 Programming I

**Minimum Credits 3 Maximum Credits 3**

### **PROG 201 Programming II**

Create applications utilizing object-oriented, event-driven strategies. Design principles such as modularity and abstraction, and object-oriented principles such as encapsulation, inheritance, and polymorphism are covered throughout the semester as you build several projects for your portfolio.

**Repeatable:** *N*

**Formerly** 36-2600

**Prerequisites** PROG 101 Programming I

**Minimum Credits 3 Maximum Credits 3**

## **PROG 220 C++ Programming I**

Develop C++ applications utilizing language-specific features. Topics include: object-oriented programming, exception handling, resource management, pointers, and templates. Prior experience with programming is required.

**Repeatable:** *N*

**Formerly** 36-2550

**Prerequisites** PROG 101 Programming I

**Minimum Credits 3 Maximum Credits 3**

## **PROG 301 Programming III**

Develop complex applications with reusable components. Advanced principles of object oriented design and programming are covered as a library of reusable code and a substantial project is built.

**Repeatable:** *N*

**Formerly** 36-3700

**Prerequisites** PROG 201 Programming II

**Minimum Credits 3 Maximum Credits 3**

## **PROG 340 Graphics Application Programming**

Build applications that leverage libraries and utilize programmatic modeling, shading, textures, and transformations. Additional topics may include cross platform operability, high-performance optimization, UX and interface design. Students will complete the class with several projects for their portfolio and reusable components for future work.

**Repeatable:** *N*

**Formerly** 36-3200

**Prerequisites** PROG 201 Programming II

**Minimum Credits 3 Maximum Credits 3**

## **PROG 366 Algorithms**

Learn fundamental principles of algorithm design as you work with practical data structures (such as heaps and trees) and common algorithms (such as sort and search). At the end of the semester you will have a library of code you can use in future problem-solving, and a project showcasing your skills.

**Repeatable:** *N*

**Formerly** 36-3720

**Prerequisites** PROG 201 Programming II

**Minimum Credits 3 Maximum Credits 3**

## **PROG 420 C++ Programming II**

Create project-based work while strengthening an understanding of advanced C++. Design principles and patterns are utilized to create extensible and maintainable code in application and game programming. Additional technologies (e.g. Unreal Engine) are also used in the creation of portfolio work. Prior C++ experience is required.

**Repeatable:** N

**Formerly** PROG 320

**Prerequisites** PROG 220 C++ Programming I

**Minimum Credits 3 Maximum Credits 3**

## **PROG 449 AI Programming**

How is artificial intelligence used to create game characters with realistic behaviors? Concepts such as decision trees, algorithms, state machines, neural networks and rule-based systems will be explored as you create work for your portfolio.

**Repeatable:** N

**Formerly** PROG 350

**Prerequisites** PROG 366 Algorithms

**Minimum Credits 3 Maximum Credits 3**

*Complete 2 credits from the following courses:*

## **PROG 450A Code Sprint**

Strengthen skills and understanding of a programming language (or learn a new language) in an accelerated, fast paced setting. Industry best practices are used to create an advanced-level project. Complete the course with portfolio work.

**Repeatable:** Y

**Prerequisites** PROG 201 Programming II

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 1 Maximum Credits 1**

## **PROG 450B Code Sprint**

Strengthen skills and understanding of a programming language (or learn a new language) in an accelerated, fast paced setting. Industry best practices are used to create an advanced-level project. Complete the course with portfolio work.

**Repeatable:** Y

**Prerequisites** PROG 201 Programming II

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 1 Maximum Credits 1**

## **PROG 450C Code Sprint**

Strengthen skills and understanding of a programming language (or learn a new language) in an accelerated, fast paced setting. Industry best practices are used to create an advanced-level project. Complete the course with portfolio work.

**Repeatable:** Y

**Prerequisites** PROG 201 Programming II

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 1 Maximum Credits 1**

*Choose two of the following courses:*

## **PROG 260 Data Design for Applications**

Build applications that use databases and cloud data stores. You'll learn how to build an application that can create, read, update, and delete data from a database. You'll also learn about database design, optimization, security and learn how to write application code that interfaces asynchronously with a database. Industry-standard database tools will be used.

**Repeatable:** N

**Formerly** 36-3520

**Prerequisites** INMD 114 Web Development I or PROG 101 Programming I

**Minimum Credits 3 Maximum Credits 3**

## **PROG 310 Game Programming I**

Build games using industry-standard technologies, practical problem solving, and design patterns (such as strategy, singleton, factory, and observer patterns). Topics include: game components, game services, input handling and state management.

**Repeatable:** N

**Formerly** 36-3270

**Prerequisites** GAME 110 Introduction to Game Development and PROG 201 Programming II

**Minimum Credits 3 Maximum Credits 3**

## **PROG 410 Game Programming II**

Develop complex games using programming best practices and design patterns. At the completion of the course you will have an advanced game for your portfolio.

**Repeatable:** N

**Formerly** 36-3500

**Prerequisites** PROG 310 Game Programming I

**Minimum Credits 3 Maximum Credits 3**

## **PROG 455 Application Design**

Complete the full process of shipping an application. Plan, design, and develop products while learning advanced software engineering methods, and exploring topics such as design patterns, behavior-driven design, and source code management.

**Repeatable:** N

**Formerly** PROG 355

**Prerequisites** INMD 214 Web Development II or PROG 201 Programming II or PROG 260 Data Design for Applications

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following capstone options:*

**Option A:**

### **INMD 260 Intro to IAM Team Development**

Working in a collaborative environment is a fundamental skill within the interaction design industry. In this course, students will learn about the roles in interactive team development; how to effectively manage time and project scope; how to set and meet deadlines; and how to work as a group to deliver user-centered projects.

**Repeatable:** N

**Formerly** 36-2602

**Prerequisites** INMD 102 Fundamentals of Interaction and INMD 130 Immersive Environments I and PROG 101 Programming I or INMD 214 Web Development II and PROG 101 Programming I or GAME 110 Introduction to Game Development and PROG 101 Programming I or INMD 102 Fundamentals of Interaction and INMD 114 Web Development I

**Minimum Credits 3 Maximum Credits 3**

### **INMD 460 IAM Team**

Intensive team production course teaches students to work collaboratively while producing projects for an external client. Course begins with concepts of team organization and communication and continues with the formation of production teams, design of the project, and acquisition of media elements. Students practice scheduling and meeting deadlines by shipping multiple versions of the project.

**Repeatable:** Y

**Formerly** 36-4600

**Prerequisites** INMD 260 Intro to IAM Team Development

**Minimum Credits 6 Maximum Credits 6**

**Option B:**

### **GAME 480 Game Studio I**

Course is the first stage of the senior/capstone experience of the Game Design/Programming/Art Majors. It represents the pre-production stage of the capstone project and is required for all students in Game majors. Students are exposed to best team practices and overall project management, art, sound, programming, and design pre-production techniques and requirements. They also participate in finalizing plans for launching their career in the context of the team. The demo games will be presented in a professional public context.

**Repeatable:** N

**Formerly** 36-3997

**Prerequisites** PROG 420 C++ Programming II or GAME 370 Studio Collaboration or GAME 330 Advanced 3D for Games

**Requirements** Senior Standing (SR)

**Minimum Credits 3 Maximum Credits 3**

### **GAME 485 Game Studio II**

Complete a substantial game with market quality content in this intense capstone experience. You'll use industry best practices and tools as you complete the project started in Game Studio I. Several disciplines

(including game design, programming, game art, animation, and sound) work together as Yoyu Studio, and operate as a "team of teams".

**Repeatable:** Y

**Formerly** 36-3998

**Prerequisites** GAME 480 Game Studio I

**Minimum Credits** 6 **Maximum Credits** 6

## Science and Mathematics

### **MATH 215 Precalculus**

This course is designed to prepare students for Calculus. Topics include solving linear and nonlinear equations and inequalities, systems of linear equations and inequalities, functions, inverse functions, exponential and logarithmic functions, and trigonometric functions (definition, graph and identities). In addition to content mastery, the course will further develop students' problem solving and critical thinking skills.

**Repeatable:** N

**Formerly** 56-2713

**MA**

**Prerequisites** MATH 210 College Algebra or ACCU-T-75 EXAM-ACCUPLACER MATH MINIMUM SCORE = 75 or ACT-M-25 EXAM-ACT MATH MINIMUM SCORE = 25 or SAT-M-580 EXAM-SAT MATH MINIMUM SCORE = 580 or CMPS-M-75 EXAM-CMPS MATH MINIMUM SCORE = 75 or ALEK-1-61 EXAM-ALEKS MINIMUM SCORE = 61

**Minimum Credits** 3 **Maximum Credits** 3

### **MATH 220 Calculus I**

In the first course of the Calculus sequence, students will briefly review essential precalculus topics and then study the fundamental concepts of Calculus—the limit, derivative, and integral. Topics include techniques for calculating limits; continuity; the definition of the derivative; derivatives of polynomial and rational functions; the chain rule; implicit differentiation; Rolle's and the mean value theorems; applications of the derivative; antiderivatives; the calculus of trigonometric, logarithmic, and exponential functions; the definite integral; and the fundamental theorem of calculus.

**Repeatable:** N

**Formerly** 56-2720

**MA**

**Prerequisites** MATH 215 Precalculus or ACCU-T-80 EXAM-ACCUPLACER MATH MINIMUM SCORE = 80 or ACT-M-27 EXAM-ACT MATH MINIMUM SCORE = 27 or SAT-M-620 EXAM-SAT MATH MINIMUM SCORE = 620 or CMPS-M-80 EXAM-CMPS MATH MINIMUM SCORE = 80 or ALEK-1-76 EXAM-ALEKS MINIMUM SCORE = 76

**Minimum Credits** 4 **Maximum Credits** 4

### **PHYS 220 Fundamentals of Physics I**

This is an algebra-based course designed to introduce students to fundamental principles and ideas in physics. Central topics include motion, forces, Newton's laws, friction, momentum, energy, rotations, fluids, oscillations, and thermodynamics. Content will be delivered through lecture, demonstrations, group tutorials, and laboratory exercises.

**Repeatable:** *N*

**Formerly** 56-2830

**SL**

**Prerequisites** MATH 220 Calculus I or MATH 220H Calculus I: Honors or MATH 210 College Algebra

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

## **MATH 205 Introduction to Statistics**

This course provides a foundation in the principles of statistics, with examples drawn from a variety of sources providing context. Topics include sampling and data collection, averages, measures of variation, confidence intervals, hypothesis testing, correlation, and linear regression.

**Repeatable:** *N*

**Formerly** 56-2706

**MA**

**Prerequisites** MATH 110 College Mathematics or MATH 115 Liberal Arts Mathematics or MATH 120 Quantitative Reasoning or ACCU-T-67 EXAM-ACCUPLACER MATH MINIMUM SCORE = 67 or ACT-M-23 EXAM-ACT MATH MINIMUM SCORE = 23 or SAT-M-550 EXAM-SAT MATH MINIMUM SCORE = 550 or CMPS-M-67 EXAM-CMPS MATH MINIMUM SCORE = 67 or ALEK-1-46 EXAM-ALEKS MINIMUM SCORE = 46

**Minimum Credits 3 Maximum Credits 3**

## **MATH 221 Calculus II**

In the second course of the Calculus sequence, students will study integration techniques and applications of the integral and will analyze the behavior and properties of sequences and series. Topics include area, volume, and other applications of the integral; techniques of integration, including numerical methods, substitution, integration by parts, trigonometric substitution, and partial fractions; indeterminate forms and L'Hôpital's rule; improper integrals; sequences and series; convergence tests; and Taylor and MacLaurin series.

**Repeatable:** *N*

**Formerly** 56-2721

**MA**

**Prerequisites** MATH 220 Calculus I or MATH 220H Calculus I: Honors

**Minimum Credits 4 Maximum Credits 4**

*Choose two of the following courses:*

## **MATH 305 Discrete Mathematics**

Discrete Mathematics is the study of mathematical structures that have distinct, separated values. Topics include mathematical proof, logic, set theory, functions, relations, counting methods, and graph theory.

**Repeatable:** *N*

**Formerly** 56-3700

**MA**

**Prerequisites** MATH 220 Calculus I or MATH 220H Calculus I: Honors

**Minimum Credits 3 Maximum Credits 3**

## **MATH 310 Linear Algebra**

Linear algebra is the study of vector spaces and transformations on them. This course emphasizes techniques of computation and applications. Topics include systems of linear equations, matrix algebra, eigenvalues and eigenspaces, and inner product spaces. Applications typically include polynomial interpolation, electrical networks, cryptography, computer graphics, Markov chains, and approximation of functions including Fourier methods.

**Repeatable:** *N*

**Formerly** 56-3740

**MA**

**Prerequisites** MATH 220 Calculus I or MATH 220H Calculus I: Honors

**Minimum Credits 4 Maximum Credits 4**

## **MATH 340 Numerical Analysis**

This course covers numerical methods and computer programming to investigate questions in science and engineering fields. These methods include root finding for nonlinear equations, interpolation, approximation of functions with polynomials, numerical differentiation and integration, numerical solutions of ordinary differential equations and numerical methods for solving systems of equations. The course analyzes algorithms and discusses applicability and accuracy of numerical methods. Some knowledge of computer programming is required.

**Repeatable:** *N*

**Formerly** 56-3730

**MA**

**Prerequisites** MATH 221 Calculus II and PROG 101 Programming I

**Minimum Credits 4 Maximum Credits 4**

## **Master of Arts**

### **Interaction Design, MA**

The Master of Arts in Interaction Design program provides a technically and creatively challenging environment intersecting art, design, and emerging technologies. Leadership, interaction design theory, and development are at the core of this degree. Graduates complete the program with a portfolio showcasing how they problem solve with critical thinking and design.

As a result of successfully completing program requirements, students should be able to:

- apply participant-centered design theory using industry-standard research methodologies, analyzing data, and creating successful user experiences (UX) and user interfaces (UI);
- utilize problem solving and critical thinking skills to develop successful solutions to complex problems;
- create work using industry-standard development technologies appropriate to one of the degree concentration areas; and
- demonstrate professional quality project and documentation using effective verbal and written communication skills.

**PROGRAM REQUIREMENTS - 31 credits required**

## **INMD 501 Experience Design**

Engaging experience design looks beyond the digital environment; physical space, pervasive multi-channel experiences, and non-UI environments will be explored alongside traditional digital media and product design. This course will encourage students to evaluate their own work, as well as the work of others, from the viewpoint of their audience. By gaining an awareness of how the participant experiences their work, students should gain an understanding of how to create engaging, user-centered interfaces.

**Repeatable:** *N*

**Minimum Credits 3 Maximum Credits 3**

## **INMD 503 Research and Evaluation Methods**

Through hypothesis creation and evaluation methods, students will be introduced to techniques for defining an audience and testing their work, as well as existing interfaces. A variety of tools and methodologies will be explored; students will create reflective and research-based case studies to document their process.

**Repeatable:** *N*

**Minimum Credits 3 Maximum Credits 3**

## **INMD 504 Information Architecture**

This course provides insight into the way we sort and categorize data, and how these different schema impact the User Experience. Students will explore multiple concepts of organizational techniques, and be introduced to methods for effectively assessing and creating their own organizational structures to optimize the User Experience.

**Repeatable:** *N*

**Minimum Credits 3 Maximum Credits 3**

## **INMD 570 Studio Leadership**

Consult, mentor, and guide senior undergraduate teams in capstone courses. Work closely with faculty to learn teamwork best practices and collaboration methodologies while strengthening practical leadership skills. This is a graduate level course.

**Repeatable:** *Y*

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

## **INMD 575 Creative Leadership Skills I**

Leadership skills I introduces the fundamental skills and techniques of becoming a leader including developing principles of decision making, managing apprenticeships, developing mentorships, personal responsibility, and work ethic application. This is a graduate level course.

**Repeatable:** *N*

**Requirements** Permission Required (DP)

**Minimum Credits 1 Maximum Credits 1**

## **INMD 576 Creative Leadership Skills II**

Creative Leadership Skills II builds on the concepts covered in Creative Leadership Skills I. Advanced strategies for productive, efficient, management and leadership skills are covered, including workplace dynamics and 360 management skills. This is a graduate level course.

**Repeatable:** N

**Prerequisites** INMD 575 Creative Leadership Skills I

**Minimum Credits 1 Maximum Credits 1**

## **INMD 577 Creative Leadership Skills III**

Creative Leadership Skills III explores practical management scenarios and advanced leadership skillsets. Transformational leadership skills are practiced in the context of a holistic organizational view. Course builds on knowledge and skills obtained in Creative Leadership Skills II. This is a graduate level course.

**Repeatable:** N

**Prerequisites** INMD 576 Creative Leadership Skills II

**Minimum Credits 1 Maximum Credits 1**

## **INMD 691 Thesis**

In consultation with a graduate faculty advisor in the Interactive Arts and Media department, plan, design, develop, document, and present a project that makes at least a minor contribution to current research or understanding of the discipline. This is a graduate level course.

**Repeatable:** N

**Formerly** INMD 590

**TH**

**Requirements** Permission Required (DP)

**Minimum Credits 1 Maximum Credits 1**

## **Development Electives**

*Complete 6 credits from the following courses:*

### **PROG 550A Code Sprint**

Learn a new programming language, or refresh your understanding of a language you've worked with previously, in an accelerated, fast pace setting. Industry best practices are used as you iterate versions of an application. Complete the course with work for your portfolio. This is a graduate level course.

**Repeatable:** Y

**Requirements** Permission Required (DP)

**Minimum Credits 1 Maximum Credits 1**

### **PROG 550B Code Sprint**

Learn a new programming language, or refresh your understanding of a language you've worked with previously, in an accelerated, fast pace setting. Industry best practices are used as you iterate versions of an application. Complete the course with work for your portfolio. This is a graduate level course.

**Repeatable:** Y

**Requirements** Permission Required (DP)

**Minimum Credits 1 Maximum Credits 1**

## **PROG 550C Code Sprint**

Learn a new programming language, or refresh your understanding of a language you've worked with previously, in an accelerated, fast pace setting. Industry best practices are used as you iterate versions of an application. Complete the course with work for your portfolio. This is a graduate level course.

**Repeatable:** Y

**Requirements** Permission Required (DP)

**Minimum Credits 1 Maximum Credits 1**

## **PROG 555 Application Design**

Complete the full process of shipping an application. Plan, design, and develop products while learning advanced software engineering methods, and exploring topics such as design patterns, behavior-driven design, and source code management. This course is graduate level, and a sophisticated level of work is expected.

**Repeatable:** N

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

## **AREAS OF FOCUS**

*Complete one area of focus.*

### **Immersive Experiences**

## **INMD 508 Information Visualization**

Data can be a powerful cognition device when used effectively. In this course, students will have the opportunity to gain an understanding of visual design theory as it relates to the display of information, and how to create engaging visualizations that are clear, usable, and participant centered.

**Repeatable:** N

**Minimum Credits 3 Maximum Credits 3**

## **INMD 530 Immersive Environments I**

Examine historical and contemporary uses of immersive environments. Generate a variety of work using Augmented Reality, Virtual Reality & 360 Video technologies. Explore 21st Century alternative modes of spectatorship; in particular immersive and interactive ways of experiencing visual spectacle. Develop a sophisticated portfolio of work using industry-standard technologies. This is a graduate level course.

**Repeatable:** N

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

## **INMD 535 Immersive Environments II**

Continue to explore immersive and interactive visual engagement on a graduate level. Design immersive environmental projects for institutions, galleries, and public forums, and develop idiosyncratic and multipurpose animated visual sculptures, projections, immersive video environments, and/or art showcases. This is a graduate level course.

**Repeatable:** *N*

**Prerequisites** INMD 530 Immersive Environments I

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

## Interfaces and Applications

### **INMD 506 Prototyping**

This course is about the interactive media production process. Students will have the opportunity to gain a deeper understanding of techniques and practices by sketching, thumbnailing, storyboarding, and making physical mockups for digital projects. The iterative production cycle is practiced by rapid prototyping in a collaborative environment, and is informed by research and testing. This class aims to develop a student's ability to communicate quickly visually before committing to code and design, and to create participant-centered works based on usability testing results.

**Repeatable:** *N*

**Minimum Credits 3 Maximum Credits 3**

### **INMD 509 Interface Design**

This course aims to advance students' practical understanding of media theory with an emphasis on interactive models of communication. This course focuses on navigational models of interaction design and how to create participant-centered interfaces through research, usability testing, and iterative design. Students should produce substantial written critiques to demonstrate their growing understanding of the discipline.

**Repeatable:** *N*

**Minimum Credits 3 Maximum Credits 3**

### **INMD 550 Collaborative Development**

This course offers an introductory look into the collaborative process in the interactive field. Students will have the opportunity to learn about the roles in interactive team development, how to effectively manage time and project scope, how to set and meet deadlines, and how to work as a group to deliver user-centered projects.

**Repeatable:** *N*

**Minimum Credits 3 Maximum Credits 3**

## User Experience

### **INMD 502 User Behavior**

This course aims to provide students with an understanding of cognitive theory and the behaviors that impact choice, preference, and behavior as it relates to interactive design. Students will be encouraged to view work through the lens of emotional design to create highly engaging and enjoyable interfaces.

**Repeatable:** *N*

**Minimum Credits 3 Maximum Credits 3**

### **INMD 506 Prototyping**

This course is about the interactive media production process. Students will have the opportunity to gain a deeper understanding of techniques and practices by sketching, thumbnailing, storyboarding, and making physical mockups for digital projects. The iterative production cycle is practiced by rapid prototyping in a collaborative environment, and is informed by research and testing. This class aims to develop a student's ability to communicate quickly visually before committing to code and design, and to create participant-centered works based on usability testing results.

**Repeatable:** *N*

**Minimum Credits 3 Maximum Credits 3**

### **INMD 507 Universal Design**

This course will focus on inclusive design methods; specifically how to create products, environments, and tools that are accessible without forcing the user to become adaptable. Students will critique current work and cite both modern theory and legal regulations to document a path to universal accessibility.

**Repeatable:** *N*

**Minimum Credits 3 Maximum Credits 3**

## **Minor**

### **Animation Minor**

The Animation minor provides a solid grounding in the technique and theory of animation. In required core courses, you will study the history of animation around the globe, explore basic techniques such as object, hand-drawn and stop-motion animation, and draw digitally using industry-standard editing and storyboarding software, creating a story reel for a final project.

## **PROGRAM REQUIREMENTS - 18 credits required**

### **ANIM 101 Animation Foundations**

Introductory foundation class for freshman providing a survey of various animated forms. Over the course of 15 weeks, students will be exposed to: Traditional Animation, Computer Graphics, Visual Effects, Motion Graphics & Alternative Strategies culminating in a final project based on a specific, dedicated workflow.

**Repeatable:** *N*

**Minimum Credits 3 Maximum Credits 3**

## **ANIM 106 History of Animation**

Course explores the origins of the animation process, beginning with animated films by J. Stewart Blackton, Emil Cohl, Len Lye, Winsor McCay, and many others through to present day productions. The lives and environments, as well as the artistic and narrative influences on these and other animators, will be dissected and studied. The class will involve weekly screenings of films and videos from around the world, including both independent and commercial, to get an understanding of where this art form has been and where it might be going. Emphasis will be on understanding the motivations and influences on animation artists, and how as contemporary animators you might benefit from studying them.

**Repeatable:** *N*

**Formerly** 26-1070

**Prerequisites** ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

## **ANIM 201 Storyboarding for Animation**

Learn the art of visual storytelling for animation as a cinema art form. Draw digitally using industry-standard technologies and create a story reel for the final project; a movie comprised of all of storyboard panels (which may include dialogue, music, and sound effects) timed out to reflect the actual pacing of the film.

**Repeatable:** *N*

**Formerly** 26-2040

**Prerequisites** ANIM 101 Animation Foundations or ANIM 105 Introduction to Traditional Animation

**Minimum Credits 3 Maximum Credits 3**

*Complete 9 credits from the following courses:*

## **ANIM 121 Stop-Motion Animation**

Course provides a basic understanding of three-dimensional animation using armatures, puppets, and objects. With the use of a Video Lunchbox, students will investigate the nature of human movement, and cover topics such as timing, weight, exaggeration, composition, lighting, and narrative approaches. Students will also become familiar with various materials and tools as you explore ways to create characters and simple scenery. A variety of stop-motion films, spanning a wide range of genres, will be viewed and discussed.

**Repeatable:** *N*

**Formerly** 26-1030

**Prerequisites** ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

## **ANIM 122 Animation Maquettes**

This course teaches the process of creating animation maquettes: the sculptures created from model sheets that are used in the animation field. Students with a sculpting interest will explore the creation of maquettes in the same manner as industry professionals. Preexisting model sheets and models created by the student will be used to interpret two dimensional illustration into 3D sculptures.

**Repeatable:** *N*

**Formerly** 26-1010

**Minimum Credits 3 Maximum Credits 3**

## **ANIM 150 Computer Animation: Keyframing I**

This course establishes a beginning understanding of computer-generated (CG) keyframing via object and camera keyframing using industry standard software application. Further animation assignments focus on an intermediate level of character animation through a provided CG character and rig.

**Repeatable:** *N*

**Formerly** 26-1015

**Minimum Credits 3 Maximum Credits 3**

## **ANIM 210 Drawing for Animation I**

Drawing-intensive course allows students to acquire an understanding of figurative human emotions and movements, enabling them to create believable animated characters. Students will create model sheets, learn the principles of animation, and learn how to endow your characters with believable actions and acting. Digital pencil testing will allow for the building of the animation from basic motion to more refined movements and emotion. Particular attention will be given to timing, layout, the creation of extreme drawings, and the process of inbetweening.

**Repeatable:** *N*

**Formerly** 26-2025

**Prerequisites** ANIM 101 Animation Foundations or ANIM 105 Introduction to Traditional Animation

**Minimum Credits 3 Maximum Credits 3**

## **ANIM 213 Animation Layout**

This course focuses on the layout process in animation production which is the creation of the monochromatic drawings which are later rendered as backgrounds for each shot. Students will strengthen their drawing skills by learning how to draw in proper perspective, understand lighting and shading principles. The layout process also teaches students how to block character animation within each shot and also understand how the camera functions within the action of each shot.

**Repeatable:** *N*

**Formerly** 26-2010

**Prerequisites** ANIM 201 Storyboarding for Animation

**Minimum Credits 3 Maximum Credits 3**

## **ANIM 302 Stop-Motion Animation II**

Course requires that students be responsible for creating a short stop-motion to complete during this 15-week class. Students will be responsible for constructing sets, props, and stop-motion puppets, and will be assigned exercises that help to refine and perfect key scenes within your project. Students will have the option of incorporating sound and lip-sync into your project. Various digital shooting methods will be

explored, including using a mini-DV camcorder with a video Lunchbox DV, or using a digital still camera, and editing in an NLE application.

**Repeatable:** *N*

**Formerly** 26-3031

**Prerequisites** ANIM 121 Stop-Motion Animation

**Minimum Credits 3 Maximum Credits 3**

## **ANIM 310 Drawing for Animation II**

This course focuses on advanced character animation where students acquire the skills necessary to understand and communicate the emotions and intentions of a character. Exploring and communicating acting through their character's actions and movements, students apply the principles of classic animation learned in Drawing for Animation I (ANIM 210). Working from a dialogue track, students will learn lip-synching and adding personality and depth to their characters while continuing to develop their skills drawing and animating digitally using a stylus and tablet.

**Repeatable:** *N*

**Formerly** 26-3026

**Prerequisites** ANIM 210 Drawing for Animation I

**Minimum Credits 3 Maximum Credits 3**

## **ANIM 311 Acting For Animators**

This course, recommended for both Traditional and Computer Animation students, focuses on acting techniques for animators exploring the similarities and differences of stage and screen acting. Students will learn acting techniques through physical and emotional acting exercises in addition to viewing scenes from a variety of live action and animated films. Focus of this class is exploring the emotional feelings of characters which lead to their physical movement. Animation assignments include creating a performance with a CG rig (for Computer Animation Students) and hand-drawn character animation (for Traditional Animation Students).

**Repeatable:** *N*

**Formerly** 26-3050

**Prerequisites** ANIM 210 Drawing for Animation I or ANIM 240 Computer Animation or ANIM 121 Stop-Motion Animation

**Minimum Credits 3 Maximum Credits 3**

## **ANIM 330 Digital Animation Techniques: Ink, Paint & Composite**

Course introduces students to what has become the norm at most studios: digital ink and paint and compositing. Students will work with animated drawings created in Drawing for Animation I (ANIM 210), or create new drawings to scan, paint, and render with independent peg moves, using computers as the medium, creating a full-color 20-second piece of animation for a final project.

**Repeatable:** *Y*

**Formerly** 26-2075

**Prerequisites** ANIM 210 Drawing for Animation I

**Minimum Credits 3 Maximum Credits 3**

## **ANIM 331 Digital Animation Techniques Current 2D Trends**

Course introduces students to digital animation techniques and aesthetics currently used by traditional animators for professional productions. Students will apply fundamental animation principles learned in Drawing for Animation 1 (ANIM 210) and apply them using various techniques and software which may include Flash, Photoshop, and After Effects. Students learn to create paperless hand-drawn animation using a digital drawing tablet and computer, creating a short animated piece by the end of the semester.

**Repeatable:** N

**Formerly** 26-3047

**Prerequisites** ANIM 210 Drawing for Animation I

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 340 The Business of Animated Content**

Course examines central business and legal matters associated with developing, producing and releasing animated content. Students will be introduced to basic business principles and production hierarchies for short and feature animated films including new technologies and the evolving convergent marketplace.

**Repeatable:** N

**Formerly** 26-3605

**Prerequisites** ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or ENGL 109 Writing and Rhetoric I Stretch B or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 350 Computer Animation: Keyframing II**

Course will expand upon the skills and concepts introduced in ANIM 150 Computer Animation: Keyframing I. Using current computer animation software, students will be introduced to advanced concepts and techniques using inverse kinematics/forward kinematics, dynamics, and simulations. Using MEL scripts for animation will also be covered. A series of short exercises will ensure that students understand these skills and techniques as the class progresses. A final project will encourage students to exhibit these acquired skills.

**Repeatable:** Y

**Formerly** 26-3046

**Prerequisites** ANIM 150 Computer Animation: Keyframing I

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 351 Environmental Design & Modeling**

Course emphasizes the design and technical ability needed to model non-character 3-D objects. Students will be introduced to level design, industrial design, and architectural terms and concepts. Using 3-D software, students will design and build environments, set dressing, and vehicles. Level of detail exercises will introduce the concept of polygon and image budget creation. Exercises in stand-alone software packages will teach advanced texture/mapping.

**Repeatable:** Y

**Formerly** 26-3082

**Prerequisites** GAME 201 Computer Animation: Modeling or ANIM 240 Computer Animation

**Minimum Credits 3 Maximum Credits 3**

## **ANIM 352 Character Design and Modeling**

Course emphasizes the design and technical ability needed to model 3-D characters. Students will be introduced to design, sculpting, and anatomical terms and concepts. Using 3-D software, students will design and build characters and other organic models. Level of detail exercises will introduce the concept of polygon and image budgets. Exercises in stand-alone software packages will teach advanced texture mapping.

**Repeatable:** Y

**Formerly** 26-3086

**Prerequisites** GAME 201 Computer Animation: Modeling or ANIM 240 Computer Animation

**Minimum Credits** 3 **Maximum Credits** 3

## **ANIM 365 Computer Animation: Visual Effects**

This course introduces the advanced Computer Animation Concentration student to the visual effects process of integrating computer-generated elements with live action footage. Early assignments integrate pre-existing computer generated elements with live action content. Subsequent assignments introduce advanced texture-mapping, rendering and camera tracking techniques. The course concludes with the development of a solo visual effects sequence that combines idea generation, production strategy and advanced CG rendered objects, particles, effects and camera. Screening of film examples and a presentation assignment about the visual effects industry will underscore the aesthetic impact of CG elements in a live action film.

**Repeatable:** N

**Formerly** 26-3049

**Prerequisites** ANIM 150 Computer Animation: Keyframing I

**Minimum Credits** 4 **Maximum Credits** 4

## **ANIM 373A Advanced Topics in Computer Animation**

This course continues to refine and advance the aesthetic understanding and technical abilities needed in advanced Computer Generated (CG) animation through a series of rotating topics courses. Computer Animation software such as Autodesk's Maya will be used for classroom review, professional examples and student assignments.

**Repeatable:** Y

**Formerly** ANIM 373

**Prerequisites** ANIM 240 Computer Animation

**Minimum Credits** 1 **Maximum Credits** 1

## **ANIM 373B Advanced Topics in Computer Animation**

This course continues to refine and advance the aesthetic understanding and technical abilities needed in advanced Computer Generated (CG) animation through a series of rotating topics courses. Computer Animation software such as Autodesk's Maya will be used for classroom review, professional examples and student assignments.

**Repeatable:** Y

**Prerequisites** ANIM 240 Computer Animation

**Minimum Credits** 1 **Maximum Credits** 1

## **ANIM 373C Advanced Topics in Computer Animation**

This course continues to refine and advance the aesthetic understanding and technical abilities needed in advanced Computer Generated (CG) animation through a series of rotating topics courses. Computer Animation software such as Autodesk's Maya will be used for classroom review, professional examples and student assignments.

**Repeatable:** Y

**Prerequisites** ANIM 240 Computer Animation

**Minimum Credits 1 Maximum Credits 1**

## **ANIM 373D Advanced Topics in Computer Animation**

This course continues to refine and advance the aesthetic understanding and technical abilities needed in advanced Computer Generated (CG) animation through a series of rotating topics courses. Computer Animation software such as Autodesk's Maya will be used for classroom review, professional examples and student assignments.

**Repeatable:** Y

**Prerequisites** ANIM 240 Computer Animation

**Minimum Credits 1 Maximum Credits 1**

## **ANIM 382 Animation Preproduction**

In this course, students develop the stories for their animated thesis solo films required for the BFA degrees in both Traditional and Computer Animation. Students create storyboards and story reels, model sheets, explore art direction, timing, and various other aspects of preproduction that will lead to green-lighting the production of their films in either Traditional or Computer Animation Studio. Animation Preproduction & Story Development must be taken by both Traditional and Computer Animation students pursuing BFAs in their respective areas.

**Repeatable:** Y

**Formerly** 26-3051

**Prerequisites** ANIM 201 Storyboarding for Animation and ANIM 210 Drawing for Animation I or ANIM 201 Storyboarding for Animation and ANIM 240 Computer Animation

**Minimum Credits 3 Maximum Credits 3**

## **ANIM 374A Advanced Topics in Traditional Animation**

This is an advanced topics course in traditional animation. Different sections of this course will focus on different topic areas related to Traditional Animation that are not taught in other classes. Please contact the department for specifics on the content of each topic.

**Repeatable:** Y

**Formerly** ANIM 374

**Prerequisites** ANIM 210 Drawing for Animation I

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 1 Maximum Credits 3**

## **ANIM 374B Advanced Topics in Traditional Animation**

This is an advanced topics course in traditional animation. Different sections of this course will focus on different topic areas related to Traditional Animation that are not taught in other classes. Please contact the department for specifics on the content of each topic.

**Repeatable:** Y

**Prerequisites** ANIM 210 Drawing for Animation I

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 1 Maximum Credits 3**

### **ANIM 374C Advanced Topics in Traditional Animation**

This is an advanced topics course in traditional animation. Different sections of this course will focus on different topic areas related to Traditional Animation that are not taught in other classes. Please contact the department for specifics on the content of each topic.

**Repeatable:** Y

**Prerequisites** ANIM 210 Drawing for Animation I

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 1 Maximum Credits 3**

### **ANIM 374D Advanced Topics in Traditional Animation**

This is an advanced topics course in traditional animation. Different sections of this course will focus on different topic areas related to Traditional Animation that are not taught in other classes. Please contact the department for specifics on the content of each topic.

**Repeatable:** Y

**Prerequisites** ANIM 210 Drawing for Animation I

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 1 Maximum Credits 3**

### **ANIM 451 Advanced Character & Environmental Design**

Course continues to refine and advance the design and technical abilities needed to model 3D characters and non-character 3D objects. Using industry standard software for 3D modeling and advanced texture-mapping, students will design and build either characters or environments based on industry standards.

**Repeatable:** N

**Formerly** 26-4089

**Prerequisites** ANIM 352 Character Design and Modeling or ANIM 351 Environmental Design & Modeling

**Minimum Credits 3 Maximum Credits 3**

## **Game Art Minor**

Students in the Game Art Minor have the opportunity to gain in-depth experience using a variety of software tools and workflows to create sophisticated visual concepts and game-engine-ready production assets. Our students learn to integrate art assets, including characters, environments, props, animations, and visual effects into a variety of game engines, with a focus on quality, efficiency and expediency. We place special emphasis on fostering professional and productive collaborations between artists within an interdisciplinary game development team. Cross-disciplinary communication skills are required for a team of artists, designers, programmers, and sound designers to come together to create a fun and engaging game.

The Game Art Minor emphasizes the importance of utilizing research strategies and acquiring knowledge of visual art, design, and media disciplines in order to conceptualize and generate creative visual solutions for games and simulations.

## PROGRAM REQUIREMENTS - 21 credits required

### **GAME 105 Game Culture**

Course explores the increasing popularity of games within today's culture, which necessitates analysis of how games are impacted by social and ideological forces and influence them in turn. Questions like Why do we play and How do we play differently are explored, with many others, as students are guided through topics such as role-playing and identity, ethics, group behavior, competition, gender, race, and aesthetics in modern (and historical) games.

**Repeatable:** *N*

**Formerly** 36-1100

**Prerequisites** ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

### **GAME 110 Introduction to Game Development**

In this course, students learn about and practice foundational skills in the interdisciplinary field of game development, including the areas of game design, game art, programming, sound design UI/UX, and project management. Additionally, students are introduced to the business and career requirements of the game industry. They will learn the personal management skills of a developer. They will identify the skills relevant to the game development discipline of their choice and devise a plan for demonstrating these skills in a professional portfolio. Throughout the course, students will build a prototype digital game from their design, giving them exposure to all aspects of game development and the production process.

**Repeatable:** *N*

**Formerly** 36-1500

**Minimum Credits 3 Maximum Credits 3**

### **GAME 201 Computer Animation: Modeling**

This course covers basic principles and language of three-dimensional (3D) modeling and animation utilizing industry standard software. Lectures cover the language and applications of these tools for use in the game, animation and film industries. By the completion of this course, students construct a series of sophisticated beginner level character and environment model 3D assets for their 3D portfolio. This course is suitable for students with little to no prior experience in 3D modeling or digital design.

**Repeatable:** *N*

**Formerly** 36-2370

**Minimum Credits 3 Maximum Credits 3**

### **GAME 205 2D Art for Games**

This course introduces students to the process of game art creation; brainstorming and conceptualizing, iterative design, interface design, pitching ideas, and documenting production. Students will complete the

course with a portfolio of work that includes research, documentation, sketches, storyboards, interface designs, and formalized character, prop, and background sheets.

**Repeatable:** *N*

**Formerly** 36-2350

**Prerequisites** INMD 120 Digital Image Design and GAME 110 Introduction to Game Development

**Minimum Credits 3 Maximum Credits 3**

## **GAME 210 2D Motion for Games**

This course teaches students the fundamentals of traditional 2D animation. The twelve principles of animation will be used to help students develop strong 2D and 3D animation skills. Assignments such as bouncing ball, pendulum and walk cycles will be taught. Industry pipelines and techniques are taught through lectures, demos, and weekly assignments.

**Repeatable:** *N*

**Formerly** 36-2360

**Prerequisites** GAME 205 2D Art for Games or INMD 120 Digital Image Design and GAME 110 Introduction to Game Development

**Minimum Credits 3 Maximum Credits 3**

## **GAME 215 Character Visualization for Games**

In this course students are guided through the character concept creation process. Students begin by learning to effectively utilize complex and abstract geometric forms to communicate ideas. Students then expand their understanding value, shadows, shading, perspective, and composition in the creation of compelling character concept sheets. Lectures and drawing demos support in-depth creative projects that culminate into a final presentation. This course is designed to assist in the transition between foundations of drawing to methods of communicating character concepts.

**Repeatable:** *N*

**Formerly** 36-2380

**Prerequisites** GAME 205 2D Art for Games and GAME 210 2D Motion for Games

**Minimum Credits 3 Maximum Credits 3**

## **GAME 330 Advanced 3D for Games**

This course focuses on how to work between 3D applications and a game engines. Through this course, students will learn how to create high quality 3D assets and implement them into various game engines. Students will learn how to use basic scripting techniques for implementation and polish in engine. Students will work with engine specific visual effects and physics to create immersive and convincing environments using game engines.

**Repeatable:** *Y*

**Formerly** 36-3302

**Prerequisites** GAME 210 2D Motion for Games

**Minimum Credits 3 Maximum Credits 3**

## **Game Design Minor**

Students in the Game Design minor have the opportunity to learn to design games in terms of game-play, fun and user experience, system design, and level design. Classes in the minor focus on critical thinking, advanced theory, integrated scripting/programming, deep analytic skills and disciplinary knowledge to construct original game and simulation designs, as well as deconstruct, analyze, and evaluate existing works. Students learn to apply innovative game design patterns and use state-of-the-art techniques and tools to create game experiences that are engaging and immersive. The program focuses on the importance of using effective game production techniques from a variety of methodologies in order to create well-planned and documented projects of various sizes, ranging from large commercial-style teams, to smaller independent-scale projects.

Special emphasis is placed on fostering professional and productive collaborations between designers within an interdisciplinary game development team. Cross-disciplinary communication skills are required for a team of artists, designers, programmers, and sound designers to come together to create a fun and engaging game.

## PROGRAM REQUIREMENTS - 21 credits required

### **GAME 105 Game Culture**

Course explores the increasing popularity of games within today's culture, which necessitates analysis of how games are impacted by social and ideological forces and influence them in turn. Questions like Why do we play and How do we play differently are explored, with many others, as students are guided through topics such as role-playing and identity, ethics, group behavior, competition, gender, race, and aesthetics in modern (and historical) games.

**Repeatable:** *N*

**Formerly** 36-1100

**Minimum Credits 3 Maximum Credits 3**

### **GAME 110 Introduction to Game Development**

In this course, students learn about and practice foundational skills in the interdisciplinary field of game development, including the areas of game design, game art, programming, sound design UI/UX, and project management. Additionally, students are introduced to the business and career requirements of the game industry. They will learn the personal management skills of a developer. They will identify the skills relevant to the game development discipline of their choice and devise a plan for demonstrating these skills in a professional portfolio. Throughout the course, students will build a prototype digital game from their design, giving them exposure to all aspects of game development and the production process.

**Repeatable:** *N*

**Formerly** 36-1500

**Minimum Credits 3 Maximum Credits 3**

### **GAME 225 Game Engine Scripting**

Course is a production-oriented class focusing on applied game design and development, utilizing existing game production software tools and engines. Students learn to use asset management software to integrate a variety of media and asset types from multiple sources. The course also emphasizes utilizing the scripting elements of the game engine to create and refine game world events related to story, gameplay, and

multimedia presentation. Time is also spent utilizing these scripting elements to create computer-controlled characters that display meaningful character behaviors and artificial intelligence, resulting in the appearance of personality.

**Repeatable:** *N*

**Formerly** 36-2510

**Prerequisites** GAME 110 Introduction to Game Development

**Minimum Credits 3 Maximum Credits 3**

## **GAME 236 Game Design I**

Course begins the process of developing a suite of design skills. Design thinking will be defined as a process where many solutions are simultaneously possible. They will learn basics of game theory, mechanism design, and play theory. They will learn gameplay design patterns which are considered best practice. They use and develop skills such as sketching, acting, paper prototyping, digital prototyping, etc. They will begin to identify their own personal style of game design, such as narrative design, strategy design, etc. They will produce a substantial game design and prototype and document as necessary.

**Repeatable:** *N*

**Formerly** 36-2520

**Prerequisites** GAME 110 Introduction to Game Development

**Minimum Credits 3 Maximum Credits 3**

## **PROG 101 Programming I**

Learn programming concepts as you problem-solve with code, develop algorithms, and create object-oriented applications. Topics covered throughout the semester include data structures, repetition, sequence control structures, program design, testing, and programming best practices.

**Repeatable:** *N*

**Formerly** 36-1501

**Minimum Credits 3 Maximum Credits 3**

## **PROG 201 Programming II**

Create applications utilizing object-oriented, event-driven strategies. Design principles such as modularity and abstraction, and object-oriented principles such as encapsulation, inheritance, and polymorphism are covered throughout the semester as you build several projects for your portfolio.

**Repeatable:** *N*

**Formerly** 36-2600

**Prerequisites** PROG 101 Programming I

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

## **GAME 230 Game Production**

This course builds on the general game development principles presented in Intro to Game Development and allows students to gain experience with basic game production by making a simple 2D game using professional middleware production tools. Students pitch simple game ideas and then divide into production teams to create the project. Multidisciplinary teams of game artists, designers, programmers and sound

designers learn to work and create in a small team production environment using industry best practices. Students finish the course with a game prototype for their portfolio.

**Repeatable:** *N*

**Formerly** 36-2515

**Prerequisites** GAME 140 Sound for Interaction and GAME 110 Introduction to Game Development or GAME 110 Introduction to Game Development and GAME 225 Game Engine Scripting or GAME 201 Computer Animation: Modeling and GAME 205 2D Art for Games and PROG 101 Programming I

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **GAME 345 Advanced Game Scripting and Environments**

This course builds on the gameplay scripting practices developed in Game Engine Scripting. They will learn confidence in developing 2D and 3D games, utilizing their own original, functional script elements and stock game assets and environments. Students learn programming design patterns and practice version control workflows with branches and code review. They will learn the basics of technical leadership in the context of game development. Using these skills, students create a new game project with an industry standard game engine.

**Repeatable:** *N*

**Formerly** 36-3510

**Prerequisites** GAME 225 Game Engine Scripting

**Minimum Credits 3 Maximum Credits 3**

## **MEDI 310 Transmedia Analysis: Games, Film and Television**

Modern storytelling is not constrained to one medium. This course provides students with an opportunity to learn about the ways in which core narrative properties can be adapted to various media, specifically narrative games, television, and film. Through selected case studies, students will analyze the ways in which core narrative properties are defined, adapted, and transformed across media. This class is a prerequisite for the Semester in LA/Transmedia Production: Games, Film, and Television course.

**Repeatable:** *N*

**Formerly** 24-3001

**Prerequisites** INMD 240 Story Development for Interactive Media or CINE 245 Screenwriting II: The Feature Film or TELE 310 Writing for Television

**Minimum Credits 3 Maximum Credits 3**

## **Immersive Media Minor**

Immersive media are part of an emerging art and communication practice that synthesizes multiple creative disciplines. These media seek to achieve the psychological state of immersion by redefining a user's perception of reality by replacing it or making it hybrid with digital content. Industries from medicine and engineering to gaming and cultural heritage are embracing immersive media platforms such as the Oculus Rift, HTC Vive, HoloLens, and MagicLeap. Completing the minor will prepare you to leverage a critical liberal arts perspective with the latest affordances of augmented mixed and virtual reality to build compelling, immersive experiences.

**PROGRAM REQUIREMENTS - 18 credits required**

## **PROG 102 Code**

Computer science powers the technology and innovation that drives the world; experience in coding logic and syntax is essential for students in a variety of disciplines. This course provides a doorway for students with no experience to gain insight into computational thinking and the application of abstraction at multiple levels, from logic gates and bits, to larger global, social, and political topics. Students in this course learn about the impact of computer science, and complete the semester with work for their portfolio.

**Repeatable:** *N*

**Minimum Credits 3 Maximum Credits 3**

## **INMD 130 Immersive Environments I**

Examine historical and contemporary uses of immersive environments. Generate a variety of work using Augmented Reality, Virtual Reality & 360 Video technologies. Explore 21st Century alternative modes of spectatorship; in particular immersive and interactive ways of experiencing visual spectacle.

**Repeatable:** *N*

**Formerly** INMD 430

**Minimum Credits 3 Maximum Credits 3**

## **INMD 235 Immersive Environments II**

Continue to explore immersive and interactive visual engagement. Design immersive environmental projects for institutions, galleries, and public forums, and develop idiosyncratic and multipurpose animated visual sculptures, projections, immersive video environments, and/or art showcases.

**Repeatable:** *N*

**Formerly** INMD 435

**Prerequisites** INMD 130 Immersive Environments I

**Minimum Credits 3 Maximum Credits 3**

*Complete 3 credits from the following courses:*

## **CINE 107 Production Design I**

Course provides an overview of production design for the visual media by exploring the history and theory of production design, as well as the application of art, design, and architecture to moving image storytelling. Students examine and critique case studies. Instruction covers the process of script analysis and breakdowns to budgeting for the art department. The roles and procedures of the art department will be introduced. Basics of architectural drafting and simple drawing will be covered. Students will be required to serve in the art department of an advanced film production.

**Repeatable:** *N*

**Formerly** 24-1015

**Minimum Credits 3 Maximum Credits 3**

## **COMM 120 Truth, Lies and Accuracy in the Digital Age**

In this media literacy class, you will examine and develop multiple strategies to access, evaluate, create and reflect on various media texts. You will critique current case studies from economic and cultural perspectives using various analysis tools and reliable sources. Your final research project will include a paper, a

presentation and a media product that showcase your skills at locating reliable information, analyzing various points of views, and composing a media text reflecting your perspective and social responsibility.

**Repeatable:** *N*

**Formerly** 53-1610

**Minimum Credits 3 Maximum Credits 3**

## **GAME 140 Sound for Interaction**

This course provides the foundation for designing, programming and critiquing interactive sound environments. Audio programming environments are introduced to facilitate the production of generative, responsive and interactive sound projects. Theories of acoustic, psychoacoustics as well as audio recording and production techniques are presented and applied in the context of interactive sound. Approaches to creating images and narratives through sound without the support of visuals is emphasized. Film, website, game and animation audio is analyzed alongside audio only works for impact, technique, structure and effectiveness.

**Repeatable:** *N*

**Formerly** 36-1400

**Prerequisites** ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

*Complete 3 credits from the following courses:*

## **COMM 210 Visual Communication**

A theoretical and a hands-on course that immerses students in all aspects of visual communications, including typography, photography, illustration, informational graphics, design, and layout. Students will create visual projects according to their related fields.

**Repeatable:** *N*

**Formerly** 53-2220

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **INMD 210 Interface Design I**

Course advances students' practical understanding of media theory, with an emphasis on interactive models of communication. This course focuses on navigational models of interaction design and how to create participant-centered interfaces through research, usability testing, and iterative design. Students produce substantial written critiques to demonstrate their growing understanding of the discipline.

**Repeatable:** *N*

**Formerly** 36-2110

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **INMD 240 Story Development for Interactive Media**

The increasing impact of interaction on the narrative (stories) told in today and tomorrow's educational and entertainment media requires a different perspective on story development. This class begins with an overview of the area and its history from the writer's perspective, and then moves on to review and analyze common interactive structures and narrative requirements. Students are also exposed to the basic types of interactive narrative and media being created today, and conceptualize and develop their own interactive narrative projects.

**Repeatable:** N

**Formerly** GAME 260

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **MEDI 201 Culture, Race and Media**

This immersive course enables students to view, analyze, interpret and evaluate current media to identify the consequences of their pervasive influence. Interactive, facilitated discussions and exercises, stimulating readings, web-based assignments and analysis of media examples in myriad genres of cinema, television, games, photography, print, audio, advertisements, performance and others, offer students new insights into both media and their lives. Utilizing regularly posted progress reports, students reflect on their ideologies while investigating race, ethnicity, gender, social class, age, religion, ability, sexual and other identities to recognize their cultural and ethical responsibilities as media makers and influencers.

**Repeatable:** N

**Formerly** 40-2803

**HU DEI PL**

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

*Complete 3 credits from the following courses:*

## **COMM 326 Semiotics for Creators of Popular Culture**

Writing-intensive course explores the study and use of semiotics (or symbolic meaning) in the development of advertising and other creative works that contribute to the content of popular culture. Interdisciplinary in scope, the course explores how advertising uses symbolic language from diverse disciplines such as literature, cinema, television, performing arts, architecture, fashion, and other fields that shape the overall popular culture.

**Repeatable:** Y

**Formerly** 54-3670

**SS**

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **COMM 420 Media Ecosystems**

In this capstone project, students work in teams to analyze the civic impact and the reciprocal relationships between a media outlet and a local community. By applying media theories of public sphere, media ecology, and audience studies, the group conducts a social power analysis to explore the information flow, power relationships, and impact of all participants in the media ecosystem. Each team will deliver a professional media kit to their industry partner.

**Repeatable:** *N*

**Formerly** COMM 320

**DEI**

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **INMD 315 Experience Design**

This course will encourage students to evaluate their own work, as well as the work of others, from the viewpoint of their audience. By gaining an awareness of how the participant experiences their work, students will gain an understanding of how to create engaging, user-centered interfaces.

**Repeatable:** *N*

**Formerly** 36-3150

**Prerequisites** INMD 210 Interface Design I

**Minimum Credits 3 Maximum Credits 3**

### **INMD 320 Wearable Interfaces**

This introductory course focuses on wearable applications of physical computing. Students will use conductive materials, circuits, and sensors to create functional, wearable pieces that incorporate different types of metrics and feedback. Students will explore foundational topics of programming and logic to extend microcontrollers. Students will work in small teams to leverage talent and capabilities from multiple fields of study to create collaborative products and prototypes.

**Repeatable:** *N*

**Formerly** 36-3020

**Minimum Credits 3 Maximum Credits 3**

### **INMD 360A Advanced Topics in Interaction Design**

This is an Advanced topics course in Interaction Design. Different sections of this course will focus on different topic areas related to Interaction Design that are not taught in other classes. Please contact the department for specifics on the content of each topic.

**Repeatable:** *Y*

**Formerly** INMD 360

**Minimum Credits 1 Maximum Credits 3**

### **INMD 360B Advanced Topics in Interaction Design**

This is an Advanced topics course in Interaction Design. Different sections of this course will focus on different topic areas related to Interaction Design that are not taught in other classes. Please contact the department for specifics on the content of each topic.

**Repeatable:** *Y*

**Minimum Credits 1 Maximum Credits 3**

### **INMD 360C Advanced Topics in Interaction Design**

This is an Advanced topics course in Interaction Design. Different sections of this course will focus on different topic areas related to Interaction Design that are not taught in other classes. Please contact the department for specifics on the content of each topic.

**Repeatable:** Y

**Minimum Credits 1 Maximum Credits 3**

## **INMD 360D Advanced Topics in Interaction Design**

This is an Advanced topics course in Interaction Design. Different sections of this course will focus on different topic areas related to Interaction Design that are not taught in other classes. Please contact the department for specifics on the content of each topic.

**Repeatable:** Y

**Minimum Credits 1 Maximum Credits 3**

## **Motion Graphics Minor**

Motion Graphics is a growing practice that combines video, photo, graphic, typography and 3D elements for cinema, television and the web in the form of title sequences, television commercials, television network identifications, music video effects, and web based graphic animations. The Motion Graphics minor is a sequence of classes in which students design and implement projects using 2D and 3D animation tools, digital cinematography, green screen video capture and sound design. Students are introduced to the design process, and design thinking, through a combination of self-directed and group client projects.

## **PROGRAM REQUIREMENTS - 15 credits required**

### **ANIM 270 Motion Graphics I**

Course teaches techniques to digitally integrate software and composite layers of images. Discussions of digital and optical effects from conception to design encourage students to make creative use of software.

**Repeatable:** N

**Formerly** 24-1420

**Prerequisites** INMD 120 Digital Image Design or GRDE 136 Design Lab or TELE 230 Production & Editing I or PHOT 202 Photographic Practice III or PHOT 206 Digital Imaging I or CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 370 Motion Graphics II**

Course teaches complex film and video compositing under tight deadlines using advanced high-end systems. Course emphasizes storyboarding and design as well as postproduction house protocols.

**Repeatable:** N

**Formerly** 24-2421

**Prerequisites** ANIM 270 Motion Graphics I or CINE 310 Cinema Models and Miniatures

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 470 Motion Graphics III**

Students in this course complete a series of projects modeled upon current professional practices while refining design and research skills. Student projects include a team-based client work, an independent textual interpretation or research-inspired animation, and additional short animations. The team-based projects will include interaction with the client/s. Research, ideation, prototyping, production and evaluation will be a collective and collaborative process. Students develop a portfolio-based web site that includes video samples, a personal statement and resume.

**Repeatable:** Y

**Formerly** 24-4422

**Prerequisites** ANIM 370 Motion Graphics II or ANIM 240 Computer Animation

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

### **GRDE 136 Design Lab**

This course covers digital typesetting, layout, and image editing techniques for graphic design, illustration, and advertising. Topics covered include digital document construction and layout, typography formatting and specification, digital image editing, and application.

**Repeatable:** N

**Formerly** 21-1320

**Minimum Credits 3 Maximum Credits 3**

### **INMD 120 Digital Image Design**

Technical, conceptual and aesthetic skills and concepts will inform an introductory body of work using imaging applications. Idea development, research, vocabulary and critical analysis skills will enhance development of individual voice. This fundamental media art course will also focus on visual design theory, gestalt principles and semiotics.

**Repeatable:** N

**Formerly** 36-1300

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

### **ANIM 363 CVFX: Compositing II**

This course teaches students the various analogue and digital techniques of compositing film elements of diverse origin, from film, electronic imaging systems, and computer-generated images, through lecture, demonstration, and hands-on practice.

**Repeatable:** N

**Formerly** 24-3209

**Prerequisites** ANIM 263 CVFX: Compositing I or ANIM 370 Motion Graphics II

**Minimum Credits 3 Maximum Credits 3**

### **GRDE 131 Survey of Typography**

This course allows students to investigate the basic aspects of letterforms and typography through a variety of projects. Students are exposed to the historical background, technical and aesthetic issues, and

communicative abilities of typography as individual forms and as text.

**Repeatable:** *N*

**Formerly** 21-1310

**Prerequisites** GRDE 136 Design Lab

**Minimum Credits** 3 **Maximum Credits** 3

## Programming Minor

Coding and application development is in high demand; computer science powers the technology and innovation that drives the world, and experience in coding logic and syntax is essential for a variety of disciplines. Graduating with a minor in programming could provide you with an edge in this competitive economy.

### PROGRAM REQUIREMENTS - 18 credits required

#### PROG 101 Programming I

Learn programming concepts as you problem-solve with code, develop algorithms, and create object-oriented applications. Topics covered throughout the semester include data structures, repetition, sequence control structures, program design, testing, and programming best practices.

**Repeatable:** *N*

**Formerly** 36-1501

**Minimum Credits** 3 **Maximum Credits** 3

#### PROG 102 Code

Computer science powers the technology and innovation that drives the world; experience in coding logic and syntax is essential for students in a variety of disciplines. This course provides a doorway for students with no experience to gain insight into computational thinking and the application of abstraction at multiple levels, from logic gates and bits, to larger global, social, and political topics. Students in this course learn about the impact of computer science, and complete the semester with work for their portfolio.

**Repeatable:** *N*

**Minimum Credits** 3 **Maximum Credits** 3

#### PROG 201 Programming II

Create applications utilizing object-oriented, event-driven strategies. Design principles such as modularity and abstraction, and object-oriented principles such as encapsulation, inheritance, and polymorphism are covered throughout the semester as you build several projects for your portfolio.

**Repeatable:** *N*

**Formerly** 36-2600

**Prerequisites** PROG 101 Programming I

**Minimum Credits** 3 **Maximum Credits** 3

#### PROG 220 C++ Programming I

Develop C++ applications utilizing language-specific features. Topics include: object-oriented programming, exception handling, resource management, pointers, and templates. Prior experience with programming is required.

**Repeatable:** *N*

**Formerly** 36-2550

**Prerequisites** PROG 101 Programming I

**Minimum Credits** 3 **Maximum Credits** 3

## **PROG 260 Data Design for Applications**

Build applications that use databases and cloud data stores. You'll learn how to build an application that can create, read, update, and delete data from a database. You'll also learn about database design, optimization, security and learn how to write application code that interfaces asynchronously with a database. Industry-standard database tools will be used.

**Repeatable:** *N*

**Formerly** 36-3520

**Prerequisites** INMD 114 Web Development I or PROG 101 Programming I

**Minimum Credits** 3 **Maximum Credits** 3

## **PROG 455 Application Design**

Complete the full process of shipping an application. Plan, design, and develop products while learning advanced software engineering methods, and exploring topics such as design patterns, behavior-driven design, and source code management.

**Repeatable:** *N*

**Formerly** PROG 355

**Prerequisites** INMD 214 Web Development II or PROG 201 Programming II or PROG 260 Data Design for Applications

**Minimum Credits** 3 **Maximum Credits** 3

## **User Experience Minor**

The User Experience (UX) minor's focus on user interaction, audience behavior, participant engagement, metrics, and observation assists students in making compelling, participant-centered work. It is the perfect accompaniment for a multitude of degree programs at Columbia (particularly Design, Advertising, Journalism, Marketing, Television, and Game Design), and gives graduates a substantial leg up in a rapidly growing field with a variety of career opportunities. Students augment their practical work with theory classes in interface design, information architecture, research, and prototyping.

## **PROGRAM REQUIREMENTS - 18 credits required**

### **INMD 210 Interface Design I**

Course advances students' practical understanding of media theory, with an emphasis on interactive models of communication. This course focuses on navigational models of interaction design and how to create participant-centered interfaces through research, usability testing, and iterative design. Students produce substantial written critiques to demonstrate their growing understanding of the discipline.

**Repeatable:** *N*

**Formerly** 36-2110

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **INMD 315 Experience Design**

This course will encourage students to evaluate their own work, as well as the work of others, from the viewpoint of their audience. By gaining an awareness of how the participant experiences their work, students will gain an understanding of how to create engaging, user-centered interfaces.

**Repeatable:** *N*

**Formerly** 36-3150

**Prerequisites** INMD 210 Interface Design I

**Minimum Credits 3 Maximum Credits 3**

*Complete 12 credits from the following courses:*

## **AUDI 436 Research Methods: An Interdisciplinary Approach**

Understanding research on quantitative and observable data requires a thorough understanding of the scientific method, familiarity with multiple methodological approaches to research, as well as the ability to critically evaluate the strengths and limitations of methods and data collected within a research paradigm. This multidisciplinary course is designed particularly for students within Media Arts who will benefit from an understanding of research methods in science and communications, as distinct from research in humanities and creative arts. Students in this course will learn about the strengths and limitations of various types of research, as well as directly apply research methods through group and individual research proposals and projects, including projects within their discipline.

This course is not discipline-specific and therefore can serve students outside the department.

**Repeatable:** *N*

**Formerly** 43-3583

**Prerequisites** ENGL 112 Writing and Rhetoric II and MATH 110 College Mathematics or ENGL 112 Writing and Rhetoric II and MATH 115 Liberal Arts Mathematics or ENGL 112 Writing and Rhetoric II and MATH 120 Quantitative Reasoning or ENGL 112 Writing and Rhetoric II and ACCU-T-67 EXAM-ACCUPLACER MATH MINIMUM SCORE = 67 or ENGL 112 Writing and Rhetoric II and ACT-M-23 EXAM-ACT MATH MINIMUM SCORE = 23 or ENGL 112 Writing and Rhetoric II and SAT-M-550 EXAM-SAT MATH MINIMUM SCORE = 550 or ENGL 112H Writing and Rhetoric II: Honors and MATH 110 College Mathematics or ENGL 112H Writing and Rhetoric II: Honors and MATH 115 Liberal Arts Mathematics or ENGL 112H Writing and Rhetoric II: Honors and MATH 120 Quantitative Reasoning or ENGL 112H Writing and Rhetoric II: Honors and ACCU-T-67 EXAM-ACCUPLACER MATH MINIMUM SCORE = 67 or ENGL 112H Writing and Rhetoric II: Honors and ACT-M-23 EXAM-ACT MATH MINIMUM SCORE = 23 or ENGL 112H Writing and Rhetoric II: Honors and SAT-M-550 EXAM-SAT MATH MINIMUM SCORE = 550 or ENGL 122 International Writing and Rhetoric II and MATH 110 College Mathematics or ENGL 122 International Writing and Rhetoric II and MATH 115 Liberal Arts Mathematics or ENGL 122 International Writing and Rhetoric II and MATH 120 Quantitative Reasoning or ENGL 122 International Writing and Rhetoric II and ACCU-T-67 EXAM-ACCUPLACER MATH MINIMUM SCORE = 67 or ENGL 122 International Writing and Rhetoric II and ACT-M-23 EXAM-ACT MATH MINIMUM SCORE = 23 or ENGL 122 International Writing and Rhetoric II and SAT-M-550 EXAM-SAT MATH MINIMUM SCORE = 550 or ENGL 112 Writing and Rhetoric II and ALEK-1-46 EXAM-ALEKS MINIMUM SCORE = 46 or ENGL 112H Writing and Rhetoric II: Honors and ALEK-1-46 EXAM-ALEKS MINIMUM SCORE = 46 or ENGL 122 International Writing and Rhetoric II and ALEK-1-46

EXAM-ALEKS MINIMUM SCORE = 46

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **INMD 102 Fundamentals of Interaction**

Contemporary interactive media share a common computational canvas. This course explores technology underlying these media, and introduces students interested in programming and interactive media development to foundational theories and practices in interface design and development. Interaction principles will be explored through practical assignments; sketching, prototyping, and design are essential parts of the development process. Students complete the course with an understanding of participant-centered design, usability, and foundational development terms and concepts.

**Repeatable:** *N*

**Formerly** 36-1010

**Minimum Credits 3 Maximum Credits 3**

## **INMD 130 Immersive Environments I**

Examine historical and contemporary uses of immersive environments. Generate a variety of work using Augmented Reality, Virtual Reality & 360 Video technologies. Explore 21st Century alternative modes of spectatorship; in particular immersive and interactive ways of experiencing visual spectacle.

**Repeatable:** *N*

**Formerly** INMD 430

**Minimum Credits 3 Maximum Credits 3**

## **INMD 215 Conversational Interfaces**

Conversation interfaces offer a greater degree of engagement than typical navigational models, and its dependence upon spoken word and audio broaden the reach and application of interactive media beyond visual environments. Students have the opportunity to author highly engaging, writing-centric interactive content. From fiction to non-fiction, poetry to ad copy, this new interaction model offers substantial creative and professional territory for interaction designers and writers alike.

**Repeatable:** *N*

**Formerly** 36-2130

**Prerequisites** ENGL 112 Writing and Rhetoric II and INMD 102 Fundamentals of Interaction or ENGL 112H Writing and Rhetoric II: Honors and INMD 102 Fundamentals of Interaction or ENGL 122 International Writing and Rhetoric II and INMD 102 Fundamentals of Interaction

**Minimum Credits 3 Maximum Credits 3**

## **INMD 220A Prototyping Strategies**

Students gain a deeper understanding of techniques and practices by sketching, thumbnailing, storyboarding and making physical mock-ups for digital projects. The iterative production cycle is practiced by rapid prototyping in a collaborative environment, and is informed by research and testing. Each five week module of this one credit, repeatable course will focus on a different prototyping tool and evaluation method. This class develops a student's ability to communicate quickly visually before committing to code and design, and to create participant-centered works based on usability-testing results.

**Repeatable:** Y

**Formerly** INMD 220

**Prerequisites** INMD 102 Fundamentals of Interaction

**Minimum Credits 1 Maximum Credits 1**

## **INMD 220B Prototyping Strategies**

Students gain a deeper understanding of techniques and practices by sketching, thumbnailing, storyboarding and making physical mock-ups for digital projects. The iterative production cycle is practiced by rapid prototyping in a collaborative environment, and is informed by research and testing. Each five week module of this one credit, repeatable course will focus on a different prototyping tool and evaluation method. This class develops a student's ability to communicate quickly visually before committing to code and design, and to create participant-centered works based on usability-testing results.

**Repeatable:** Y

**Prerequisites** INMD 102 Fundamentals of Interaction

**Minimum Credits 1 Maximum Credits 1**

## **INMD 220C Prototyping Strategies**

Students gain a deeper understanding of techniques and practices by sketching, thumbnailing, storyboarding and making physical mock-ups for digital projects. The iterative production cycle is practiced by rapid prototyping in a collaborative environment, and is informed by research and testing. Each five week module of this one credit, repeatable course will focus on a different prototyping tool and evaluation method. This class develops a student's ability to communicate quickly visually before committing to code and design, and to create participant-centered works based on usability-testing results.

**Repeatable:** Y

**Prerequisites** INMD 102 Fundamentals of Interaction

**Minimum Credits 1 Maximum Credits 1**

## **INMD 220D Prototyping Strategies**

Students gain a deeper understanding of techniques and practices by sketching, thumbnailing, storyboarding and making physical mock-ups for digital projects. The iterative production cycle is practiced by rapid prototyping in a collaborative environment, and is informed by research and testing. Each five week module of this one credit, repeatable course will focus on a different prototyping tool and evaluation method. This class develops a student's ability to communicate quickly visually before committing to code and design, and to create participant-centered works based on usability-testing results.

**Repeatable:** Y

**Prerequisites** INMD 102 Fundamentals of Interaction

**Minimum Credits 1 Maximum Credits 1**

## **INMD 250A Topics in Interactive Arts and Media:**

This repeatable course consists of rotating subjects of interest.

**Repeatable:** Y

**Formerly** INMD 250

**Minimum Credits 1 Maximum Credits 6**

### **INMD 250B Topics in Interactive Arts and Media:**

This repeatable course consists of rotating subjects of interest.

**Repeatable:** Y

**Minimum Credits 1 Maximum Credits 6**

### **INMD 250C Topics in Interactive Arts and Media:**

This repeatable course consists of rotating subjects of interest.

**Repeatable:** Y

**Minimum Credits 1 Maximum Credits 6**

### **INMD 250D Topics in Interactive Arts and Media:**

This repeatable course consists of rotating subjects of interest.

**Repeatable:** Y

**Minimum Credits 1 Maximum Credits 6**

### **INMD 355 Information Architecture**

This course provides insight into the way we sort and categorize data, and how these different schema impact the user experience. Students will explore multiple concepts of organizational techniques, and introduce the student to methods for effectively assessing and creating their own organizational structures to optimize the user experience.

**Repeatable:** N

**Formerly** 36-3515

**Prerequisites** INMD 210 Interface Design I

**Minimum Credits 3 Maximum Credits 3**

### **INMD 370 Studio Collaboration**

Students in Studio Collaboration act effectively as interns to IAM Team, which is the final stage in the Interaction Design and Programming senior/capstone sequence. IAM Team is an intensive team production course that teaches students to work collaboratively while producing projects for an external client. Course begins with concepts of team organization and communication and continues with the formation of production teams, design of the project, and acquisition of media elements. Students practice scheduling and meeting deadlines by shipping multiple versions of the project.

**Repeatable:** Y

**Prerequisites** INMD 114 Web Development I or INMD 260 Intro to IAM Team Development or INMD 210 Interface Design I or INMD 235 Immersive Environments II

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **Web Development Minor**

In today's digital landscape, it is paramount to have a fundamental understanding of web development, social media, and user-centered design. The Interactive Arts and Media Department's minor in Web Development is designed for students of any major who would like to supplement their work with skills in developing for and distributing work through the web. The minor is ideal for those majoring in graphic design, fiction writing, marketing, arts and media management, journalism, television and film/video.

The Web Development minor seeks to provide students with a firm grounding in the technical aspects of web-based creation, programming, and information management. Students are exposed to state-of-the-art programming languages in order to create interactive websites with dynamic content. By combining high-end web content and design programming skills students can become more competitive in the creative industries marketplace.

## PROGRAM REQUIREMENTS - 18 credits required

### INMD 114 Web Development I

Counter to printed compositions, web design and development is about fluid and interactive experiences. This course provides an introduction to programming environments and teaches fundamental skills necessary to prototype and deploy digital media. Using technical elements like variables, conditions, sequences and events, completion of this course will empower students with the ability to design interactive applications.

**Repeatable:** Y

**Formerly** 36-1420

**Minimum Credits 3 Maximum Credits 3**

### INMD 210 Interface Design I

Course advances students' practical understanding of media theory, with an emphasis on interactive models of communication. This course focuses on navigational models of interaction design and how to create participant-centered interfaces through research, usability testing, and iterative design. Students produce substantial written critiques to demonstrate their growing understanding of the discipline.

**Repeatable:** N

**Formerly** 36-2110

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### INMD 214 Web Development II

Interactive design and development can narrate any topic. Using methods and techniques exposed in Web Development I, students prototype and iterate work as a means of increasing complexity and refining concept. Throughout this course students gain and apply the project development strategies necessary to research and produce interactive media using professional management strategies.

**Repeatable:** N

**Formerly** 36-2421

**Prerequisites** INMD 114 Web Development I

**Minimum Credits 3 Maximum Credits 3**

*Choose three of the following courses:*

### **INMD 340 Emergent Web Technologies**

The internet includes a perpetually evolving set of technologies and production practices that include design conventions, programming languages, and media techniques. Course builds on previously developed skills in Web Development II by using them in new contexts focusing on a specific current emergent Web technology.

**Repeatable:** *N*

**Formerly** 36-3444

**Prerequisites** INMD 214 Web Development II

**Minimum Credits 3 Maximum Credits 3**

### **INMD 350 Service Design and Systems Thinking**

Successful digital products solve a problem held by an identifiable group of people. Identifying the problem, the potential solutions, and knowing how to identify and reach the target market are all essential elements of a digital product launch. Students will explore the foundational concepts and practices of both user and market research and will have the opportunity to gain valuable experience pitching their ideas. Multidisciplinary teams research, plan, design and rapidly build a digital product and pitch their ideas to professionals including product and user experience experts, start-up team members and investors, and digital entrepreneurs.

**Repeatable:** *Y*

**Prerequisites** INMD 114 Web Development I or INMD 210 Interface Design I

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **INMD 370 Studio Collaboration**

Students in Studio Collaboration act effectively as interns to IAM Team, which is the final stage in the Interaction Design and Programming senior/capstone sequence. IAM Team is an intensive team production course that teaches students to work collaboratively while producing projects for an external client. Course begins with concepts of team organization and communication and continues with the formation of production teams, design of the project, and acquisition of media elements. Students practice scheduling and meeting deadlines by shipping multiple versions of the project.

**Repeatable:** *Y*

**Prerequisites** INMD 114 Web Development I or INMD 260 Intro to IAM Team Development or INMD 210 Interface Design I or INMD 235 Immersive Environments II

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **PROG 101 Programming I**

Learn programming concepts as you problem-solve with code, develop algorithms, and create object-oriented applications. Topics covered throughout the semester include data structures, repetition, sequence control structures, program design, testing, and programming best practices.

**Repeatable:** *N*

**Formerly** 36-1501

**Minimum Credits 3 Maximum Credits 3**

## **PROG 201 Programming II**

Create applications utilizing object-oriented, event-driven strategies. Design principles such as modularity and abstraction, and object-oriented principles such as encapsulation, inheritance, and polymorphism are covered throughout the semester as you build several projects for your portfolio.

**Repeatable:** *N*

**Formerly** 36-2600

**Prerequisites** PROG 101 Programming I

**Minimum Credits 3 Maximum Credits 3**

# **Graduate Studies**

## **Degree Planning Tools**

Columbia's bachelor degree programs require either 120 or 128 credits. Students should plan to complete 15-16 credits per semester. To assist students with planning their degree completion, four-year planning tools have been created for each undergraduate major program. With assistance from their academic advisor, students may be able to plan for additional experiences such as pursuing a minor, studying abroad, or taking an internship.

#### Admissions Requirements

##### **Undergraduate**

Columbia College Chicago offers exceptional educational programs in the visual, performing, media, and communications arts. Students with training in these creative areas, as well as students who have a strong interest but no formal training, are invited to apply. Columbia seeks to enroll a culturally, geographically, economically, and educationally diverse student body. Prospective students are expected to demonstrate preparedness through educational experiences and motivation that are sufficient to meet the high academic standards and expectations of the college.

An Admissions Review Committee evaluates all completed applications for admission to the college. For more information, please visit Admissions.

## **Graduate**

Columbia College Chicago offers master's degrees in the arts, media, and the business of the arts. Columbia's programs look for candidates who demonstrate a high level of aptitude and passion for their medium and who have a potential for continued growth and excellence at the graduate level.

A Graduate Admissions Review Committee conducts a holistic evaluation of all completed applications for admission to the applicants chosen program.

For more information about Columbia College Chicago Graduate Admissions, including requirements, please visit Graduate Requirements and Deadlines.

## Tuition and Fees

### **Undergraduate**

Undergraduate tuition charges are based upon the number of credits for which a student enrolls each semester. A full-time student is one who enrolls for a minimum of 12 credits. Full-time students who enroll for 12 to 18 credits are charged the semester tuition rate. For any additional credit hours of enrollment beyond 18 credits, the student is charged a per-credit-hour rate. A part-time student is one who enrolls for fewer than 12 credits in a semester. For part-time students who enroll in 1 to 11 credits, tuition is based upon a per-credit-hour rate. Tuition rates, student fees, and refund schedule are established each year. In addition, the college charges students one flat fee to provide various student services such as orientation, registration, student activities, health services, and student health insurance.

### **Graduate**

Graduate tuition charges are based upon the number of credits for which a student enrolls each semester and are calculated using the then current per-credit-hour rate for that program. Students are also responsible for paying one flat fee to provide various student services associated with graduation, registration, student activities, health services, and student health insurance. Tuition rates, student fees, and refund schedules are established each year. Please consult the Columbia Central website for current details.

## Second Bachelor's Degree

If a student has already earned a bachelor's degree from Columbia or another accredited institution, they may earn a second bachelor's degree at Columbia by completing required courses specified by one of the major-granting departments or programs of the college. All other academic requirements will be considered fulfilled within the curriculum of the previously granted bachelor's degree. Credits applied to the original degree and transfer credits cannot count toward this degree; however, specific courses may be waived based on work experiences or courses from the original degree. Not all departments offer second bachelor's degrees.

## Returning Students

Columbia College Chicago students who interrupt their studies at Columbia for one full academic year or longer must complete the returning student online application. In this case, an academic year is considered consecutively not enrolling for fall, spring, and summer semesters. Upon applying for re-enrollment, the student must meet the academic program and degree completion requirements that are in place at the time of re-enrollment. Transcripts are required for any colleges attended since enrolling at Columbia.

- A returning undergraduate student must meet with a college advisor in the College Advising Center prior to registration.
- A returning graduate student should contact the School of Graduate Studies to determine a path to graduation.

### Nondegree-seeking Students

#### **Undergraduate**

Students who are not seeking a college degree and wish to enroll in courses for credit at Columbia College Chicago must complete the nondegree-seeking application. Nondegree students may register for courses at Columbia during open registration each semester after all degree-seeking candidates of the college have registered. Nondegree students must meet all prerequisite requirements for the courses in which they enroll. Credit earned as a nondegree student may be counted toward a Columbia degree if the student later applies for admission to the college and is admitted to an undergraduate program of study. Nondegree seeking students may apply for admission to an undergraduate degree program of the College at any time but may not change their enrollment status mid-semester. Nondegree students are not eligible for financial aid through federal, state, or institutional programs or for veterans' benefits. Applicants who have been denied admission to Columbia through the regular admission process are not eligible to enroll as nondegree students.

#### **Graduate**

Some graduate level courses are available for nondegree-seeking students. Contact the School of Graduate Studies for more information.

Nondegree students may apply for admission as degree-seeking graduate students in accordance with published admission criteria. Students may not change their enrollment status mid-semester; that is, a nondegree student must complete their current semester of enrollment as a nondegree student and enroll as a degree student in the next applicable semester following admission to the college. Credit earned as a nondegree student may be applied toward a Columbia College Chicago graduate degree only at the discretion of the academic department to which the student is granted admission. Nondegree students are not eligible for veterans' benefits or financial aid through federal, state, or institutional programs.

### Retention of Application Materials

Only the application form and transcript(s) are retained in a student's permanent educational record at Columbia College Chicago. Letters of recommendation and/or any additional supporting materials are not retained, nor are they available for student perusal prior to or after admission to the college. Columbia does not retain application materials for students who do not enroll.

## **Columbia College Chicago Online**

*Note: Effective Summer 2020 this program was discontinued. For more information, visit the [Columbia College Chicago Online web page](#).*
