## About Columbia College Chicago

Columbia College Chicago is a private, nonprofit college offering a distinctive curriculum that blends creative and media arts, liberal arts, and business for more than 6,000 students in more than 100 undergraduate and graduate degree programs. Dedicated to academic excellence and long-term career success, Columbia College Chicago creates a dynamic, challenging, and collaborative space for students who see the world through a creative lens.

## Mission

Columbia College Chicago is an undergraduate and graduate institution whose principal commitment is to provide a comprehensive educational opportunity in the arts, communications, and public information within a context of enlightened liberal education. Columbia's intent is to educate students who will communicate creatively and shape the public's perceptions of issues and events, and who will author the culture of their times. Columbia is an urban institution whose students reflect the economic, racial, cultural, and educational diversity of contemporary America. Columbia conducts education in close relationship to a vital urban reality and serves an important civic purpose by active engagement in the life and culture of the City of Chicago.

Columbia's purpose is:

- to educate students for creative occupations in diverse fields of the arts and media and to encourage awareness of their aesthetic relationship and the opportunity of professional choice among them;
- to extend educational opportunity by admitting unreservedly, at the undergraduate level, a student population with creative ability in or inclination to the subjects of Columbia's interest;
- to provide a college climate that offers students an opportunity to try themselves out, to explore, and to discover what they can and want to do;
- to give educational emphasis to the work of a subject by providing a practical setting, professional facilities, and the example and guide of inventive faculty members who work professionally in the subjects they teach;
- to teach students to do expertly the work they like, to master the crafts of their intended occupations, and to discover alternative opportunities to employ their talents in settings other than customary marketplaces;
- to help students find out who they are, discover their own voices, respect their own individuality, and improve their self-esteem and self-confidence; and

- to offer specialized graduate programs that combine a strong conceptual emphasis with practical professional education, preparing students with mature interests to be both competent artists and successful professionals.

## **Accreditation**

Columbia College Chicago is accredited at the graduate and undergraduate levels by The Higher Learning Commission of the North Central Association of Colleges and Schools. Columbia is accredited as a teacher training institution by the Illinois State Board of Education.

For more information about Columbia's accreditation, please contact:

Higher Learning Commission  
 230 South LaSalle St.  
 Suite 7-500  
 Chicago, IL 60604-1411  
 800-621-7440  
 312-263-0456  
 Fax 312-263-7462  
 info@hlcommission.org

Columbia College Chicago is an independent and unaffiliated institution of higher education.

## **Student Outcomes Assessment**

Because teaching is a central focus of the college, and because the college is constantly striving to improve teaching, Columbia College Chicago has a Students Outcomes Assessment program in the major departments and the Liberal Arts and Science Core courses. This program affords insight into the success of the curricula and teaching practices. To achieve this goal of improving teaching and learning across college programs, student work may be used not to determine how well the student is performing in a given class or program but rather to determine how well the department is delivering the class or course of study. Information from this assessment is used to improve teaching and revise curricula. For more information click [here](#).

## **Equal Opportunity**

Columbia College Chicago complies with all local, state, and federal laws and regulations concerning civil rights. Columbia College Chicago does not discriminate in its admissions, employment, housing, services, or in the education courses or programs that it operates based on age, gender, race, color, ethnicity, religion, national origin, disability, sexual orientation, gender identity or expression, or any other protected class.

## **Academic Calendar**

### **Academic Calendar**

Columbia's academic year consists of two 15-week semesters (fall and spring) and a summer session. While the usual term of a class is 15 weeks, some subjects may be offered in shorter periods, ranging from three to eight weeks. Such intensive segments meet more frequently than traditional 15-week courses. Courses are scheduled during the day and evening as well as on Saturdays. The January session (J-Session), part of the spring semester, is designed to offer concentrated learning experiences usually unavailable in the regular semester. Such courses are designed for both the matriculating and non-matriculating undergraduate student and may include, but are not limited to, immersion, intensive research, travel, certification, internships, master classes, community service, and workshops. Please see Academic Calendar 2022-2023 .

## **Academic Policies**

Each student is expected to be thoroughly familiar with the academic and general requirements and policies of the college, as stated in the Catalog, Student Handbook, Class Schedule, and other official college materials and publications. Faculty and staff are available to provide assistance and guidance to students concerning college requirements and policies; however, the responsibility for understanding and meeting college requirements rests with the student.

- Undergraduate Academic Policies

## **Academic Integrity Policy**

Return to: [Academic Policies](#)

Academic integrity is giving credit to the ideas, research, and creations of others; and part of one's education is learning how to give this credit. When a writer inserts a citation into her work, she is not only being honest

about the source of her knowledge, but also making visible the ways in which her work depends on the support of others--whether they are students or faculty members at her institution or thinkers and writers from distant times and places. The citation is a way of paying tribute to the contributions of others and to situate one's own work in the broader intellectual tradition. Citations may be particular to writing; however, every area of creative endeavor requires some form of acknowledgment of sources. Academic and artistic integrity require scrupulous care for these forms.

Sometimes acknowledging sources is a way of insulating work against criticism, a way of saying to the audience, "You can check my facts on this; I've done my homework; and I know what is my own thinking and what I owe to others." But avoiding charges of dishonesty, fabrication, or theft is not the only reason for making clear the influences on a work. It can also be a way of inviting colleagues, present and future, near and far, to join in the project at hand. Acknowledging sources gives others the information they need to follow in the author's footsteps and become part of an ongoing intellectual or artistic journey.

Collaboration is at the heart of academic work. In a college setting, students and faculty join together to benefit from each other's work, to share knowledge and ideas, to engage in open debate, and to influence and be influenced by other people. Because there is an active exchange of information and ideas, it is essential that members of the community recognize the importance of acknowledgment and learn the conventions of citation and attribution.\*

To that end Columbia endorses continuing efforts in education on this important topic for both students and faculty alike as well as active monitoring of the number and types of academic integrity misconduct.

### **Violations of Academic Integrity<sup>\*</sup>**

**Plagiarism** is copying another person's work and presenting it as one's own. Plagiarism is committed when a student knowingly represents another person's work as his/her own. A student who has tried in good faith to credit his/her source but has "misused a specific citation format, or incorrectly used quotation marks" has not plagiarized. Such a student has "failed to cite and document sources appropriately," according to the Council of Writing Program Administrators.

Plagiarism is often associated with written work when a writer copies a section of another writer's work and fails to acknowledge the source by using quotation marks and proper academic citation. However, plagiarism may exist in other works, such as painting, music, dance, and film as well. Sources must be acknowledged in a manner appropriate to the discipline when images, composition, or conceptions are copied, even when the appropriated material is reconfigured to make a new meaning. Other types of plagiarism are 'mosaic plagiarism' and paraphrasing. In mosaic plagiarism, pieces of other people's work are rearranged without acknowledgment. Paraphrasing is rewording someone else's work without acknowledging the original author's research or thinking.

Information that is "common knowledge" does not need attribution (for example, George Washington was the first president of the United States). However, common knowledge is relative to specific contexts, and it may be difficult for a student to distinguish between alluding to material that is commonly known and plagiarizing. Therefore, students are advised to credit anything that was new to them when they encountered it in the course of their research.

**Recycling:** Columbia does not have a College-wide policy on students reusing or reworking the contents of one assignment to meet the requirements of another. Therefore, students should not assume that recycling of assignments is acceptable; they must disclose their intention to reuse or rework material at the outset of the project to be sure that they have the faculty member's approval.

**Cheating:** Assignments and examinations should be the products of the student's own efforts. Cheating includes, but is not limited to, the use of unauthorized materials for examinations or assignments,

unauthorized assistance from other people, and papers from commercial companies or the Internet. Students should assume, unless told otherwise, that examinations and assignments should be completed without the use of books, notes, or conversation with others; however, individual faculty members may authorize certain types of materials or collaborations for specific assignments. Students should therefore follow the expectations of their instructor regarding the use of materials for their assignments.

**Denial of access:** Denying access of materials to other students is a particularly heinous violation of academic integrity. Examples of this violation include deliberately misplacing or destroying reserve materials; altering computer files that belong to another; unduly tying up equipment needed to complete an assignment; making library material unavailable to others by stealing, hiding, or defacing books or journals.

**Fabrication:** Fabrication occurs when there is falsification or invention of any information, citation, or data in an academic exercise with the intent to deceive. If a student believes that the nature of a particular assignment allows for fabrication, he/she must disclose his/her intention to fabricate to be sure she has the faculty member's approval.

**Facilitation:** Facilitation occurs when a student knowingly allows his/her work to be used by another student or otherwise aids another student in a violation of academic integrity. Students who facilitate the dishonesty of others have violated academic integrity even though they may not themselves benefit from the act.

**Falsification:** Forgery of a grade change form or having a substitute take an examination are serious violations of ethics (see Categories of Violations).

### **Procedures for Violations of Academic Integrity**

Once a faculty member is aware of a possible violation of academic integrity the steps listed below should be followed:

**STEP ONE:** If a faculty member believes a violation of academic integrity has occurred (see Violations of Academic Integrity above), the faculty member will notify the student and meet with him/her to discuss the issue. The student may not bring anyone to this meeting. At that meeting the student will be presented with the evidence supporting the claim of a violation and may choose to present evidence either in support of or contradicting such violation. The faculty member will consider the evidence and render a decision in writing as soon as practicable after the meeting. Such decision will include a penalty appropriate to the level of violation (see Categories of Violations below).

The student will:

- A. Accept the decision and the penalty, or
- B. Appeal the decision.

If the student accepts the decision, the faculty member will impose the penalty. If the incident is minor, the faculty member may use his/her judgment as to whether formal notification should be made. If the violation was of a significant or serious nature (see Categories of Violations below) the faculty member must notify both the department chair or chair's designee and the academic officer or office charged with monitoring academic integrity violations by means of the Academic Misconduct form on the MyColumbia portal.

**STEP TWO:** If the student wishes to appeal the decision of the faculty member, he/she must submit a written appeal to the department chair or chair's designee within two weeks of the written decision of the faculty member. (If the faculty member is the department chair, the student will appeal directly to the school dean or dean's designee). The department chair or designee (or dean or designee) will convene a meeting as soon as practicable after receiving the student's letter of appeal. The meeting will include the chair or designee (or dean or designee), the student, and the faculty member. Based upon a review of the evidence the chair or designee (or dean or designee) will either support or overrule the original decision. If the chair or

designee (or dean or designee) finds the evidence supports the faculty member's decision, he/she should not alter the consequence already imposed. Again, the designated academic officer or office must be notified of the results of the appeal.

**STEP THREE:** If the student wishes to appeal the decision ratified by the chair or designee (or school dean or designee), he/she may appeal to the school dean or dean's designee (or to the vice president for academic affairs if the faculty member is the department chair). This appeal must be made in writing within two weeks of the chair's or designee's (or school dean or designee's) decision and include a summary of the student's position with supporting evidence. The chair or designee (or school dean or designee) will provide the dean (or vice president of academic affairs) with a written summary of the faculty member's findings, supported by the chair's (or dean's) opinion and buttressed with examples key to the original findings. The dean (or vice president for academic affairs) will render a decision as soon as practicable after receipt of the student's letter. If the original finding is supported, the student's right of appeal has ended and the case is closed.

If the dean (or vice president for academic affairs) finds sufficient evidence to change the original decision, the dean (or vice president for academic affairs) will consult with the faculty member and chair (or dean); and an appropriate remedy will be devised which may include, but is not limited to:

1. a retraction of the original charge, an apology to the student, and a cleansing of the student's record, or
2. a reduction or an increase in the original classification, and, commensurate with this reduction or increase of severity, an adjustment of the original penalty.

The dean (or vice president for academic affairs) will submit a written summary of the final action taken to the designated academic officer or office, the chair (or dean), the faculty member, and the student.

Should the academic integrity officer or office find multiple violations of academic integrity occurring in the student's record, the student will be notified and will meet with said designated officer for further review. Additional penalties as a result of multiple violations may be imposed including, but not limited to, probation, suspension, or dismissal from the College. The chair(s) of the student's major department(s) will be notified if additional sanctions are imposed.

## **Categories of Violations**

### **Misuse of Sources (not a violation):**

Students who have made every effort to acknowledge others' work but have failed to use proper citation format or to acknowledge sources accurately or fully have not committed plagiarism.

**Minor (not a violation):** These instances go beyond misuse of sources but may occur due to lack of awareness or inexperience. Examples include (but are not limited to): failure to acknowledge sources of information and/or contributors who helped with an assignment; quoting directly or paraphrasing without acknowledgment; unauthorized assistance on academic work.

**Significant:** These violations usually involve dishonesty on a significant portion of course work, such as a major paper, project, or examination. In these cases, the student has an intent to deceive. Examples include (but are not limited to) copying from or giving others assistance on an examination, plagiarizing major portions of an assignment, using unauthorized material on an examination, using a purchased term paper, presenting the work of another as one's own, or altering a graded examination.

**Serious:** These violations often include repeated offenses and may include (but are not limited to) forgery of grade change forms; theft of examinations; having a substitute take an examination; sabotaging another's work; and/or the violation of the ethical code of a profession.

## **Consequences**

There is a gradation of consequences that can be applied, depending on the severity and frequency of the violation. Consequences include (but are not limited to):

- repetition of the assignment;
- grade reduction of the assignment;
- grade reduction for the course;
- failure of the course;
- repetition of the course;
- probation;
- suspension; and
- dismissal from the College.

## Campus Security Act

Return to: Academic Policies

In compliance with the Campus Security Act of 1990, as amended, Columbia College Chicago prepares and distributes an annual campus security report. A copy of each annual report is located on the campus Safety and Security website at Annual Security and Fire Safety Report or may be obtained from the office located at 916 S. Wabash Ave., room 505.

The annual report contains the following information:

- Current campus policies regarding procedures and facilities for students and others to report criminal actions or other emergencies occurring on campus and policies concerning the college's response to such reports;
- Current campus policies concerning security and access to campus facilities, including campus residences, and security considerations used in the maintenance of campus facilities;
- Current policies concerning campus law enforcement, including the law enforcement authority of campus security personnel, the working relationship of campus security personnel with state and local law enforcement agencies, policies which encourage accurate and prompt reporting of all crimes to campus security, and the appropriate law enforcement agencies, when the victim of such a crime elects or is unable to make such a report;
- A description of the type and frequency of programs designed to inform students and employees of campus security procedures and practices and to encourage students and employees to be responsible for their own security and the security of others;
- Notification procedures pertaining to the report of a missing student from a student housing facility;

- A description of programs designed to inform students and employees about the prevention of crimes;
- Statistics concerning the occurrence on campus, in or on non-campus buildings or property, and on public property during the most recent calendar year, and during the two preceding calendar years for which data are available
  - of the following offenses reported to campus security authorities or local police agencies: murder; sex offenses, forcible or non-forcible; robbery; aggravated assault, burglary, and motor vehicle theft; manslaughter; and arson; of the above crimes, larceny-theft, simple assault, intimidation, and destruction, damage or vandalism of property, and of other crimes involving bodily injury to any person, in which the victim is intentionally selected because of the actual or perceived race, gender, religion, national origin, sexual orientation, gender identity, ethnicity or disability of the victim;
  - of arrests or persons referred for campus disciplinary action for liquor law violations, drug-related violations, and weapons possession; and
  - of domestic violence, dating violence, and stalking incidents that were reported to campus security authorities or local police agencies.
- A statement of policy concerning the monitoring and recording through local police agencies of criminal activity at off-campus student organizations that are recognized by the college and that are engaged in by students attending the college, including those student organizations with off-campus housing facilities.
- Statements of policy regarding the possession, use, and sale of alcoholic beverages and enforcement of state underage drinking laws and the possession, use, and sale of illegal drugs and the enforcement of federal and state drug laws, and a description of any drug or alcohol abuse education programs;
- Current campus policies regarding immediate emergency response and evacuation procedures, including the use of electronic and cellular communication;
- Current campus policy on prevention of and responses to sex offenses occurring on campus; and
- Policy statements and training programs regarding fire safety for students and employees.

Information regarding the list of registered sex offenders may be obtained through the Chicago Police Department website: CLEARMAP Chicago Police Department

## Family Educational Rights and Privacy Act Annual Notice to Students

Return to: Academic Policies

Columbia College Chicago complies with the Family Educational Rights and Privacy Act of 1974 (FERPA or the Act), as amended, by publishing an annual notice to students of their rights under the Act in Columbia College Chicago's catalog and student handbook.

**I.** Students may inspect and review their education records by submitting a written request to the registrar. Columbia will provide the student an opportunity to inspect and review his or her education records within a reasonable time after receiving the request, not exceeding 45 days from the receipt of the request. Students' education records are maintained under the supervision of the registrar in the Office of the Registrar, 600 S. Michigan Ave., room 611, Chicago, IL 60605.

**II.** Students have the right to provide written consent before Columbia discloses personally identifiable information from students' education records, except to the extent that FERPA authorizes

disclosure without consent (e.g., regarding disclosures to certain college officials and concerning information designated in this policy as directory information and other circumstances).

**III.** Under one exception, Columbia discloses education records without a student's consent to "school officials" with "legitimate educational interests." A school official is a person employed by Columbia in an administrative, supervisory, academic, research or support staff position; a person serving on the board of trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official may also include a volunteer, consultant, or contractor outside of Columbia who performs an institutional service or function for which the college would otherwise use its own employees and who is under the direct control of the college with respect to the use and maintenance of personally identifiable information from education records. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

By way of illustration and not limitation, the following personnel are granted access to education records without prior written consent of students when such individuals have legitimate educational interests: the registrar, the general counsel's office, student services directors, student financial services, information technology, college advisors, the president of the college, the provost, the vice president for student success, the deans and the chairpersons of the academic departments, and any of their agents. Student educational records are made available to the above designated persons and offices for record maintenance, evaluation and advising, financial aid evaluation, review for disciplinary and academic action, and billing, among other legitimate educational interests.

**IV.** Another exception permits Columbia to disclose a student's directory information without the student's consent. Columbia designates the following as directory information: the student's name; information on whether or not a student is registered at the college during the term in which the information is requested; grade level; dates of attendance; information concerning the student's graduation status, including whether or not he or she has graduated from the college; the date of any degree awarded, and the type of degree awarded; major field of study; awards received; the student's photograph; participation in officially recognized activities, sports, and organizations; and student ID number, user ID, or other unique personal identifiers used by the student to communicate in electronic systems. Students who do not want Columbia to disclose the above information must notify the registrar in writing. The form for opting out of the release of directory information is available in the Office of the Registrar.

**V.** Upon request, Columbia also discloses education records without consent to officials of another school in which a student seeks or intends to enroll, or is already enrolled, if the disclosure is for purposes related to the student's enrollment or transfer.

**VI.** As required by FERPA, Columbia maintains a record of written requests for access to each disclosure of personally identifiable information. Each student has the right to inspect and review the record of written requests and disclosures.

**VII.** A student has the right to request amendment of any education records that he or she believes are inaccurate, misleading, or otherwise in violation of the student's privacy rights under FERPA. The procedure to seek amendment of a student's education records is as follows:

- 1.** A written request must be submitted to the registrar, specifically identifying the part of the record the student wants changed, stating the reason for the requested amendment, and attaching any supporting documentation to the request.
- 2.** Within a reasonable time after receiving the request, but in no event longer than 45 days, the registrar will issue a decision in response to the student's request. If the college decides not to amend the record as requested, the college will notify the student of his or her right to

a hearing before a panel of the associate deans (Academic Standards Review Committee) on the request to amend. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing. The decision of the Academic Standards Review Committee is final.

3. If the Academic Standards Review Committee denies the student's amendment request, the student has the right to include a written statement setting forth his or her reasons for disagreeing with the committee.

**VIII.** Each student has the right to file a complaint with the United States Department of Education concerning alleged failures by Columbia to comply with the requirements of the Act and the regulations passed pursuant thereto. The name and address of the office that administers FERPA is: Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Ave., SW, Washington D.C. 20202.

This page contains information on policies, procedures, and regulations that are specific to graduate study at Columbia College Chicago.

Graduate students are also subject to college-wide policies that may be found in the college's student handbook. It is the student's responsibility to be aware of all policies, procedures, and regulations that apply to their program of study and the college. (Ask your graduate program director whether your program publishes its own program-specific handbook.)

Columbia College Chicago reserves the right to change, amend, modify, or cancel without notice the statements on this page.

### **Religious Holiday Observance**

Columbia College Chicago respects the right of and encourages all students to observe the religious holidays associated with their faith. Faculty should make every effort to accommodate students who miss scheduled class meetings due to the observance of a religious holiday. Students are expected to contact their instructor as soon as possible to make appropriate arrangements to complete coursework.

See **Religious Holidays and Observances Calendar 2022-2023** for a list of many of the religious holidays observed by members of the Columbia College Chicago community. Please note this is not an exhaustive list and that individual practices may vary.

### Degree Descriptions

Columbia College Chicago offers the following degrees:

- **The Master of Arts (MA)** degree programs guide and support artists and educators who wish to develop advanced knowledge of a specific field of study or area of professional practice by deepening their understanding of theory, history, technique, and creative practice. Students learn to integrate various aspects of their discipline, culminating in a thesis or practicum experience that could lead to professional pathways or entry into further graduate education or scholarship. The degree consists of at least 30 credit hours at the graduate level.
- **The Master of Fine Arts (MFA)** degree programs guide students in theory and artistic practice while emphasizing the development of a student's unique perspective. Students undertake creative and technical studies, build portfolios, engage in collaborative projects, and may develop vital professional connections. Students will complete a culminating project that, depending upon the department, may be a thesis or practicum experience. The MFA is a terminal degree that consists of at least 34 credit hours at the graduate level, in accordance with accrediting bodies or discipline-specific best practices.
- **The Master of Arts Management (MAM)** degree program aims to prepare students for managerial and entrepreneurial careers in the fields of art, entertainment, and media. Along with the theoretical and practical study of the marketing, legal, financial, organizational, leadership, and strategic concepts that accompany these fields, the curriculum allows students to choose elective management courses in live and performing arts, visual arts, music business, media management, and entrepreneurship. Students will have the opportunity to acquire the skills needed to lead and manage a for-profit or non-profit arts organization or launch their own. The degree consists of at least 48 credit hours at the graduate level.

### Degree Requirements

The following requirements apply to all Columbia College Chicago graduate students; however, programs may impose additional requirements. Therefore, students should also reference program-specific policies and/or handbooks and consult their graduate program director to determine if there are program-specific requirements other than those listed here:

- Candidates for master's degrees and graduate certificates must maintain a cumulative grade point average of at least 3.0 (B) in all graduate coursework.
- Students may not apply more than six credit hours of coursework with a grade of 2.0 toward a graduate degree or certificate.
- Students may not apply more than a combined total of six credit hours of independent study toward fulfillment of degrees requiring 40 credits or fewer, nor more than 12 hours for degrees requiring more than 41.
- Grades lower than 2.0 are not applied toward the fulfillment of degree requirements; however, they are included in the cumulative grade point average (GPA) calculation.
- Candidates for master's degrees in programs that require completion of a thesis or equivalent project cannot graduate unless they successfully completed this requirement.

- Students working on their thesis must maintain continuous fall and spring registration in an approved thesis course bearing the 691 or 692 designation.

### Time Limits

<b>Program</b>	<b>Program Credit Hours Required for Completion</b>	<b>Maximum Timeframe Attempted Credit Hours</b>	<b>Maximum Years</b>
MFA	34-60	90	5 Years
MFA with Thesis	34-60	90	7 Years
MA	30-45	60	5 Years
MA with Thesis	30-45	60	7 Years
MAM	45-50	75	5 Years
Certificate	9-30	45	4 Years

Students who do not complete a degree within the prescribed time limit and who wish for an extension must complete and send a "Program Extension Petition" (PEP) via email attachment to their graduate program director to begin the review process. Directors forward reviewed PEPs to their chairs and the dean of the school of graduate studies.

- The PEP is available here or contact the school of graduate studies.
- Extensions are not automatically granted.
- Program directors can only provide initial approval.
- The dean of the school of graduate studies has final approval authority.
- If the petition for exception is approved, the student may be required to retake designated courses. The original grades for any retaken courses are not replaced but appear on the academic record along with the "retake" course grade and are included in the calculation of the cumulative grade point average.
- Petitioners who are granted exceptions after more than a single semester hiatus may need to complete the applicable degree requirements for the current catalog year.

## **Course Loads**

All degree-seeking graduate students are expected to maintain at least part-time status (six graduate credit hours) each fall and spring semester they are registered. Some programs do not allow part-time enrollment. International students should be aware of any additional policies in the "Admissions Requirements" section of the Columbia College Chicago catalog.

Students must enroll as follows in order to maintain full-time status:

- Nine credit hours or at least one thesis class each semester during both the fall and spring.
- Five credit hours or at least one thesis class each session during the summer.

Some programs may require additional credits per semester. Students should seek clarification from their graduate program directors.

Students should also know that an enrollment of fewer than six credit hours may affect their eligibility for federal student loans. Students should seek advice from Columbia Central before dropping or withdrawing from any course.

To be eligible for federal student loans in a summer session, a student must be enrolled in either a thesis class or in classes carrying a minimum of three graduate credit hours.

Students with extenuating circumstances who wish to drop or withdraw from a course after registration and seek a minimum credit adjustment must complete and send a "Minimum Credit Petition" (MCP) via email attachment to their graduate program director within one week of the indicated drop/withdrawal.

- The MCP is available from graduate program directors and the school of graduate studies.
- MCPs include a curricular plan that ensures degree completion within published program completion time limits.
- Adjustments are not automatically granted.
- Program directors in consultation with their chairs have final approval authority.

## **Candidacy and Status Reviews**

As indicated in their handbook, certain programs require reviews of all student achievement at documented points during their study. A student whose achievement at these points is deemed unsatisfactory by the program director may be placed on probation or, when it is unlikely that a student's achievement will meet published criteria in a reasonable period, dismissed. (See "Academic Probation".)

- Graduate program directors have final say about whether a student is placed on probation, but must notify their department chair, the dean of the school of graduate studies, and the registrar in writing about their decision.
- Graduate program directors who seek to dismiss a student must notify their department chair in advance. Upon a student's dismissal, the dean of the school of graduate studies will be notified.
- The registrar must alert a student about probation or dismissal at least three weeks prior to the subsequent term.

## **Thesis or Culminating Project**

Students should consult their program handbook and program director for details regarding the nature, scope, format, and procedures governing submission, review, revision, and resubmission of theses or culminating projects (collectively "thesis/theses").

- All theses are associated with either a one or zero credit ("thesis continuation") course.
- In certain programs, there is a limit to the number of times a student may repeat a credit-bearing thesis class.
- The graduate program director in consultation with the chair may allow a student to enroll in a zero credit thesis continuation course if they exceed the number of times allowed for repeating the credit-bearing class.
- Students enrolled in the zero credit thesis class are actively engaged in thesis research under the supervision of a thesis advisor and are thus in compliance with the continuous enrollment policy.
- Students must continue to register in thesis or thesis continuation classes during fall and spring semesters once they have officially begun the thesis process and until their thesis is accepted.
- The graduate program director is responsible for awarding either a satisfactory progress ("S") or unsatisfactory progress ("U") grade each semester for credit and zero credit thesis courses.

Except as otherwise indicated in a department handbook:

- Each master's thesis is reviewed departmentally by a thesis committee, consisting of a thesis advisor--serving as committee chair--and at least one other member.
- A student may request that the committee include a faculty member from an outside program or department.
- The graduate program director is responsible for organizing the committee, when applicable.

Thesis committees are only allowed to engage in final thesis reviews for students enrolled in a thesis or thesis continuation course; therefore, a student who has not completed their thesis by the end of a semester in which they are enrolled in a thesis or thesis continuation course must register for thesis or thesis continuance in the immediately subsequent semester before the thesis can be submitted for final review.

An "S" grade in a thesis class earns credit and shows satisfactory progress toward the completion of a thesis, but is not included in the calculation of a student's grade point average; a grade of "U" does not earn credit, does not show satisfactory progress toward the completion of a thesis, nor is it included in the calculation of a student's grade point average.

In programs that require such, a student must successfully defend their thesis before receiving their degree.

#### Grading Policies

Columbia College Chicago uses a 4.0 scale to calculate the cumulative grade point average. Individual graduate programs vary in the awarding of pluses and minuses. Students should consult with their graduate program directors for program-specific grading policies.

<b>Grade</b>	<b>Description</b>	<b>Grade Points Awarded</b>
A		4.0
A-		3.7
B+		3.3
B		3.0
B-		2.7
C+		2.3
C		2.0
C-		1.7
D		1.0
F		0.0
I	Incomplete	0.0
IP	In Progress	0.0
W	Withdrawal	0.0

NG	No Grade	0.0
S	Satisfactory Progress	
U	Unsatisfactory Progress	
AU	Audit	

## **Unsatisfactory ("U") Grades and Departmental Review**

Certain graduate level courses are offered with Satisfactory/Unsatisfactory (S/U) as the exclusive grading option.

A student who earns a "U" grade in any course will be notified in writing by the registrar. Copies of the notification will also be sent to the graduate program director and department chair.

Students who earn a "U" grade are subject to a departmental review initiated by the graduate program director and conducted by a committee that includes the director, department chair, and at least one additional full-time faculty member from the student's home department. Students who accumulate three or more unsatisfactory (U) grades will be automatically dismissed from their program.

The graduate program director must forward the review committee's detailed determination to the student, department chair, dean of the school of graduate studies, and registrar.

Outcomes for this review may include but are not limited to:

- Academic Probation for the subsequent semester (see "Academic Probation").
- A semester-long conditional leave of absence
- The restructuring of a student's curriculum plan and/or degree path
- In addition, the review committee may, in the case of a student who has previously been placed on probation, recommend to the dean of the school of graduate studies that the student be dismissed from the program (see "Candidacy and Status Reviews").

In the case of forced conditional leave, the committee must provide details regarding what a student must do in order to resume their study.

## **Incomplete ("I") Grade**

Graduate students whose performance in a course has been satisfactory and who finds, due to extraordinary and unforeseeable circumstances, that they are unable to complete one or more course requirements by the close of the term may request a grade of incomplete (I). Incomplete grades are not included in a student's grade point average calculation but are considered in the completion rate and maximum time frame calculations. Students must apply for an incomplete grade and their request may be approved or denied by the college.

The award of an incomplete grade is not automatic. It requires consultation between the student and instructor and commits each of them to a specific agreement concerning the submission of the outstanding coursework. The incomplete grade may be issued when a student makes definite arrangements with the

instructor to complete coursework outside of class after the course ends. All requests for an incomplete grade along with related documentation must be submitted during the semester in which the incomplete grade is requested including requests related to medical reasons. A student may not complete the work for a course in which an incomplete grade was received by enrolling in or attending the same class in the next semester.

An incomplete grade can only be issued for a graduate student who has met one of the following criteria:

1. A student has successfully completed all course requirements up until the date they request an incomplete but is faced with unexpected circumstances that will make it impossible to complete course requirements by the end of that semester. The student must have, in the instructor's estimation, the ability to complete missed coursework outside of class by the end of the eighth week of the following semester. The instructor must agree to evaluate the student's work and replace the incomplete grade before the end of the following semester. A student-faculty agreement, specifying work to be completed and a due date, must be signed by both instructor and student and approved by the department chair. Approval of a request for an incomplete should be on file no later than the last day of the semester. In the event an instructor is no longer employed by the college, a graduate program director, department chair or faculty member designated by the program director in consultation with the chair will evaluate the work and assign the course grade.
2. An external supervisor for an internship has failed to submit a final report and grade recommendation by the deadline for grade submission. The internship coordinator or graduate program director is responsible for obtaining the final evaluation and submitting a letter grade to replace the incomplete grade by the eighth week of the following semester. In the event the external supervisor for an internship does not submit a final report and grade recommendation, the graduate program director, department chair or a faculty member designated by the program director in consultation with the chair will evaluate the work and assign the course grade.

Incompletes in spring must be cleared no later than the end of the following summer session; fall incompletes must be cleared in spring; summer in fall; and J-Session in spring. A leave of absence or failure to enroll in the next academic term does not extend this deadline.

An incomplete grade that is not cleared at the end of the following term will automatically convert to an F grade.

A student who is on academic probation is not eligible to receive an incomplete grade for the probationary semester (see "Academic Probation").

## **Withdrawal ("W") from Course(s)**

Withdrawal from a course is only permitted at certain times. Please check with the Office of the Registrar for detailed information regarding withdrawal dates and deadlines. For each such course, a grade of W is entered on the student's academic record. Courses with a grade of W do not earn credit and are not included in the calculation of the grade point average (see "Course Loads").

After the withdrawal period has passed and, if discontinuation of a course is dictated by circumstances beyond the student's control, the grade of incomplete may be appropriate (see "Incomplete ("I") Grade"). Otherwise, the instructor will assign a course grade based upon the amount and quality of work completed prior to discontinuation, which may be an F grade.

If the withdrawal period has passed, and the instructor does not agree to a grade of incomplete, the student may file a petition for administrative withdrawal with Columbia Central. The student's request for an administrative withdrawal will be reviewed by the graduate program director, department chair, AVP of Columbia Central, and registrar. If this petition is granted, the grade of W will appear on the student's

transcript for each course from which a withdrawal was requested. If this petition is not granted, a grade of F will appear on the student's transcript for each course from which a withdrawal was requested.

Students who are planning to withdraw from coursework should discuss their decision with their graduate program director and Columbia Central. It is the student's responsibility to make sure they have met all withdrawal requirements and to be aware of any consequences, financial or otherwise, associated with the decision to withdraw. It is especially important that international graduate students also consult the Global Education office to learn how their decision may affect their status (see also "Withdrawal from Program").

## **Change of Grade**

In cases of appeal, all grade changes must be initiated by the instructor in whose course the original grade was awarded, or by the department chair or associate dean of the school with which the department is affiliated. The request for a grade change must be submitted by the end of the semester following the term for which the original grade was awarded. Grade changes are approved by the department chair and then confirmed by the associate dean of the school with which the department is affiliated. A change of grade usually results from one of the following circumstances:

- Removal of an incomplete grade following completion of outstanding requirements.
- Discovery of a posting error.
- Discovery of a violation of academic integrity.
- Reconsideration following an appeal.

### Course Credit, Course Transfer, and Academic Records

Graduate students seeking transfer credit must submit a written request to their graduate program director along with an official transcript showing the course(s) in question. (Some departments do not allow transfer credit for required courses.)

If the graduate program director approves the request, the graduate program director must forward a written transfer credit recommendation to the department chair and dean of the school of graduate studies for approval. If approved, the student, the graduate program director, the chair, and the registrar are notified in writing by the dean of the school of graduate studies and the change is made to the student's academic record.

To be eligible for transfer, coursework must meet the following criteria:

- Courses must have been taken at a regionally accredited institution.
- Courses must have been taken for graduate credit.
- Student must have earned a grade of B (3.0) or equivalent on a numerical scale.
- Credits earned have not already been applied toward the completion of a previous degree.
- Coursework must have been completed not more than five years before the student's first semester of graduate study at Columbia.

The total of all hours earned through transfer and credit-by-examination may not exceed six credits in programs requiring 40 credits or fewer or 12 credits in programs requiring 41 credits or more.

Transfer credit is applied only toward credits earned and does not affect the cumulative grade point average.

Transfer credit evaluations are conducted only for admitted graduate students. The graduate program director may, however, evaluate transfer credit for prospective students; such preliminary evaluation is not official or binding.

## **Credit by Examination**

Graduate students may request the award of credit by examination in lieu of enrolling in required or elective courses. Students must make and their graduate program directors must approve such requests before the first day of their initial semester. Examinations of this sort are generally administered by the regular instructors of the courses in question.

The examination grade is submitted to the graduate program director for final approval. Credit will only be approved if the student earns a grade of 3.0 (B) or higher on the examination. If credit by examination is approved, the course title, number, and number of credits, and instructor name are submitted to the registrar for entry on the student's academic record by the graduate program director. The office of Columbia Central prepares the appropriate statement of charges (equal to the current tuition rate per credit hour multiplied by the number of credit hours earned) for each credit posting.

Credit by examination earns credit toward completion of degree requirements but is not included in the calculation of the cumulative grade point average. A total of all hours earned through transfer credit and credit by examination may not exceed six credit hours for programs requiring 40 credit hours or fewer or 12 credit hours for programs requiring 41 credit hours or more.

## **Internal Transfer**

Graduate students may study in and earn credit toward only one Columbia graduate degree at a time. If a program within Columbia changes substantially, the college does not limit the number of credit hours that can be transferred. Instead, such internal transfers are handled on a case-by-case basis by the graduate program directors of the involved program in consultation with their chairs and the dean of the school of graduate studies.

If the student is admitted to the program into which they seek to transfer, the registrar, the dean of the school of graduate studies, department chair, and the graduate program director from which the student transferred are notified by the director of graduate admissions.

Students who have completed a graduate degree at Columbia cannot apply credit hours and grades earned while enrolled in that degree to another Columbia graduate degree.

A graduate student who wishes to transfer from one program to another must submit the following to the Office of Graduate Admissions by the appropriate application deadline:

- A letter of intent addressed to the director of graduate admissions.
- A new application form for the new program.
- Any supplemental materials, such as documents, work samples, etc., required by the new program.

Such students must follow the regular guidelines and deadlines as outlined in the admission instructions. These students will be reviewed for admission along with other applicants for that cycle. If the student is admitted to the program into which they seek to transfer, the registrar, the dean of the school of graduate studies, and the graduate program director from which the student transferred are notified by the director of graduate admissions.

Except when a student is enrolled in a combined undergraduate/graduate master's program, the college does not permit transfer of credits from undergraduate courses, and undergraduate course work is not applicable toward fulfillment of the requirements of any graduate program. In the case of a student enrolled in a combined undergraduate/graduate master's program, only pre-approved graduate courses taken as an undergraduate will apply toward fulfillment of the requirements of the graduate program.

Except when a student is enrolled in a combined undergraduate/graduate master's program, students enrolled in any of Columbia's graduate programs are not permitted to enroll in undergraduate courses at Columbia. In the case of a student enrolled in a combined undergraduate/graduate master's program, the student may enroll in undergraduate courses at Columbia only before the student has earned their undergraduate degree.

(**Note:** Graduate students may audit undergraduate courses; see "Auditing Undergraduate Courses").

## **Course Waivers**

Graduate credit is awarded only through regular enrollment, transfer credit, and credit by examination. At the graduate level, Columbia does not offer course waivers or other exemptions, such as life experience. Therefore, graduate students cannot receive credit by "placing out" of courses; however, the admissions committee of a graduate program may recommend waiving prerequisite undergraduate courses normally required for admission to that program.

## **Course Substitutions**

When a required graduate course would essentially duplicate life experience or a course previously taken for undergraduate credit, a graduate student may request departmental approval to substitute one graduate course for another. (Some departments do not allow substitution of required courses.) Prior to the start of the semester, the student must petition the graduate program director for approval to substitute. If approved, a course substitution form is completed by the graduate program director, and the registrar, department chair, and the dean of the school of graduate studies are notified. The approval of a course substitution does not reduce the credit requirements for earning a graduate degree.

## **Dropping Courses**

After registration, a student wishing to drop one or more courses must complete the drop process online. Students wishing to drop one or more courses should consult the Office of the Registrar for details regarding drop dates and deadlines. Courses dropped by the applicable deadline will not appear on the student's academic record. Students should also consult with Columbia Central concerning the effect that dropping a course(s) may have on their financial aid eligibility.

## **Retaking Courses**

Any course in which a W was assigned may be retaken for credit. Certain courses required for the degree may be taken for credit more than once within the time limit established by an individual program. The original grade for the course is not replaced. Both the original grade and the "retake" course grade appear on the academic record and are included in calculation of the cumulative grade point average.

Before students decide to retake a course, they should consult with the graduate program director to determine whether such a decision would affect their academic standing, and with Columbia Central to determine whether such a decision would impact their financial aid.

## **Transcripts**

Official Columbia College Chicago transcripts are maintained by the Office of the Registrar. Students may request official transcripts online at registrar@colum.edu. Students must resolve all account holds before their transcripts will be released.

### Auditing Undergraduate Courses

With the approvals detailed below, graduate students may audit undergraduate courses they can argue will enhance their engagement with the graduate program in which they are enrolled. Graduate students are, however, never allowed to audit graduate courses, in their or other graduate programs at the college.

## **Process for Auditing a Course**

**Note:** a student must follow the process below in order to audit a course. Students auditing coursework must be officially registered. Unregistered students are not permitted to audit courses.

Auditing opportunities are subject to class size-limitations, adequate equipment, and other factors.

A student interested in auditing a course must gain all approvals below:

1. Complete the "Course Audit Request" form.
2. Use the form to seek approval from the student's graduate program director. (When considering an audit, both the graduate program director and student should consider the student's ability to continue making timely progress toward the graduate degree.)
3. Obtain approval from the chair of the department in which the course to be audited is housed.
4. Obtain approval from the course instructor. (The instructor may delay a decision until regular semester enrollment is determined but should notify the student before the Add deadline for the term in question.)

The registrar will register the student only after the student's audit request has been approved by the student's program director, the chair in which the audited program is housed, and the class instructor.

## **Responsibilities of Student and Instructor**

The student is responsible for attending and participating in class discussions and activities and adhering to any policies related to attendance and participation as outlined in the course syllabus. The student should make every effort to complete assignments that are necessary for successful participation; however, the student is **not** responsible for submitting coursework.

The instructor is responsible for giving an auditing student access to all course materials, including the learning management system; however, the instructor is **not** responsible for responding to or grading any coursework.

## **Eligibility**

Only full and part-time degree-seeking graduate students are eligible to audit undergraduate courses. This policy does not apply to nondegree-seeking students (formerly known as students-at-large).

Part-time graduate students are eligible to audit undergraduate courses.

A student who currently has an Incomplete is not eligible to audit undergraduate courses.

A student on academic probation or on conditional or unconditional leave of absence is not eligible to audit undergraduate courses.

## **Grades and Credits**

An audit grade of AU will be assigned to those who successfully complete an audit. This grade has no value toward the grade point average.

No credit is earned for auditing a course.

An undergraduate transcript will be generated at the student's request, showing the audited course(s).

After a student audits a course, the student can register for the same course for undergraduate credit (as part of a second BA or as a nondegree-seeking undergraduate student). However, the work done during the audit experience does not count toward credit; that is, a student cannot earn credit retroactively.

## **Cost of Auditing a Course**

A course audit fee will be added to the student's billing statement upon registration. The student is also responsible for paying any instructional resource fee, if applicable.

Part-time students pay the same fee as full-time students.

The course fee is not eligible for financial aid nor covered by graduate scholarships.

## **Available Courses for Auditing**

A student cannot audit independent instruction, such as private lessons, independent study/project, or directed study. All other courses are by chair, graduate program director, and instructor approval only. (See "Process for Auditing a Course".)

## **Additional Policies**

Students can audit up to the equivalent of four credits per semester, and up to the equivalent of 10 credits total during their time in the program.

The college-wide Add/Drop dates apply to all audited courses. The Withdrawal policy is not applicable.

Student Standing

## **Continuous Enrollment**

Graduate students are expected to be enrolled for each fall and spring semester until they complete program requirements. Any exceptions to this policy must adhere to the policies concerning Leave of Absence. Some programs may require summer enrollment; students should consult their program's handbook and/or graduate program director regarding summer enrollment.

## **Leave of Absence**

Graduate students may be granted a leave of absence for up to one full academic year with the approval of the department chair and graduate program director. An approved leave of absence does not extend the time limit for completion of degree requirements. Only in extenuating circumstances may a leave of absence be granted for more than one year or commence after the semester has begun.

If the withdrawal period is still open, the student must withdraw from all courses. If a student fails to withdraw from their courses, a grade of F will appear for each course. If the withdrawal period has passed, the student may file a petition for administrative (late) withdrawal with the office of Columbia Central. The student's request for an administrative withdrawal will be reviewed by the graduate program director, department chair, AVP of Columbia Central, and the registrar.

Students must submit a completed "Request for Graduate Leave of Absence" form to their graduate program director before the end of the official drop period for the semester in which the student requests the leave.

All students considering a leave of absence should consult the Office of the Registrar for details regarding drop dates and deadlines. Contact the school of graduate studies for more information.

At the end of the authorized leave period, and at least six weeks prior to the beginning of the semester in which the student wishes to resume study, the student must notify the graduate program director in writing of the student's desire to return. A student who fails to resume study at the end of the period for which leave has been granted must make a written request for readmission to their graduate program director and may be required to reapply. (See "Resuming and Returning Students".)

If a student who has been placed on academic probation requests a leave of absence in lieu of enrollment for the probationary semester, the probationary semester will be served the semester following the semester for which leave was granted.

The graduate program director must notify the department chair, dean of the school of graduate studies, and the registrar about any leave of absence or resumption after leave.

## **Withdrawal from Program**

Applicants who have accepted an offer of admission but have not yet registered for classes may withdraw from the program by canceling their confirmation of intention-to-enroll. Applicants should do this by contacting the director of graduate admissions before the beginning of the originally intended term of study.

Applicants who have accepted an offer of admission and have registered for classes must notify the director of graduate admissions and the graduate program director in writing of their intent to withdraw from the graduate program to which they have been admitted and must drop all the classes for which they have registered.

Continuing students who wish to withdraw from their program of study must notify their graduate program director in writing. The graduate program director will notify the department chair, the dean of the school of graduate studies, and the registrar in writing of any student who has withdrawn. Whenever possible, withdrawals should not be requested midterm, but the college acknowledges that in certain extenuating circumstances students may be required to do so.

If the withdrawal period is still open, the student must withdraw from all courses. If a student fails to withdraw from their courses, a grade of F will appear for each course. If the withdrawal period has passed, the student may file a petition for administrative (late) withdrawal with the office of Columbia Central. The student's

request for an administrative withdrawal will be reviewed by the graduate program director, AVP of Columbia Central, and the registrar. If this petition is granted, a grade of W will appear for each course for which the withdrawal was requested. If this petition is not granted, a grade of F will appear for each course.

Students who drop all coursework during their first term of graduate enrollment will not have established graduate standing and may be required to reapply. If a subsequent application for readmission is approved, calculation of the time limit for completion of degree requirements will begin with the new term of entry (see "Degree Requirements").

In any case of drop or withdrawal, it is the student's responsibility to work with Columbia Central to determine the implications of their drop or withdrawal and to resolve any outstanding balances.

## **Academic Probation**

A student whose progress in a graduate program fails to meet minimum academic standards is placed on academic probation for the following fall or spring semester. A student who is on probation will be notified in writing by the registrar. The graduate program director, department chair, and the dean of the school of graduate studies are also notified by the registrar of any student on probation.

The following requirements apply to all graduate students:

- A student who earns a semester grade point average of 2.5 or less in any term (fall, spring, or summer) is placed on probation for the next regular semester (fall or spring).
- A student whose cumulative grade point average falls below 3.0 is placed on probation for the following fall or spring semester.

In matters relating to academic probation, the summer session is treated differently from the fall and spring semesters. Poor performance in the summer session may result in placement on probation; however, since summer enrollment is optional for most programs, the summer session is not calculated as a probationary term for students whose spring semester performance results in probation. For such students, the following fall semester is the term of probation.

Academic probation does not preclude continued enrollment in graduate study.

An incomplete grade will not be granted for any course attempted during the probationary semester.

A student's semester GPA and cumulative GPA must both be at least a 3.0 at the end of a probationary semester for the student to be restored to good standing. In this case, the student will be notified in writing by the registrar. The graduate program director, department chair, and the dean of the school of graduate studies are also notified by the registrar when a student returns to good standing.

If either the semester GPA or the cumulative GPA (but not both) are below a 3.0 at the end of a probationary semester, the student may enroll the following semester, but will remain on probation.

A student whose semester GPA and cumulative GPA are both below 3.0 at the end of a probationary semester will be dismissed from the graduate program.

**Note:** Students should consult Columbia Central for policies regarding satisfactory academic progress (SAP) and financial aid eligibility.

## **Academic Dismissal**

A student who has been placed on academic probation and fails to successfully meet the conditions of that probation will be dismissed from the program. A student may also be dismissed if they fail to meet the

criteria of a program assessment that falls under the category of Candidacy and Status Review. (See also 'Candidacy and Status Reviews'.)

A student who earns three "U" grades will be automatically dismissed from their program (see also "Grading Policies").

Following academic dismissal, a student is not eligible for readmission to any of Columbia's graduate programs.

The registrar notifies the graduate program director, department chair, and dean of the school of graduate studies of the academic dismissal of any student.

Students who wish to appeal an academic dismissal should see the relevant process below. (See "Appeals Procedures".)

## **Code of Conduct**

Graduate students are subject to the Columbia College Chicago Student Code of Conduct.

## **Resuming and Returning Students**

Spaces in graduate programs are limited, and a space may not be available when a student desires to return. If a student has left the program without an approved leave of absence or has been absent from the program for longer than the period for which leave was granted, the student will need either written approval from the graduate program director, in consultation with department chair, or official readmission via the regular admission process to resume study. In either case, the time limit for completion of the degree requirements will be calculated from the initial term of entry.

## **Within Degree Completion Time Limit**

Students who are within the time limit for completion of the graduate program in which they matriculated and have interrupted their studies for one full academic year or longer without being granted an official leave of absence or did not resume study at the end of an approved leave (see Leave of Absence) will be withdrawn from the program. Such students must submit a written request for readmission to their graduate program director. The written request must include an explanation of their absence from the program and must be made at least six weeks prior to the start of the term in question. Their graduate program director, after consultation with the department chair, will notify the student in writing of their decision regarding readmission at least three weeks prior to the start of the term in question. The graduate program director will notify the dean of the school of graduate studies, AVP of Columbia Central, and the registrar of their decision.

If the request for readmission is granted, the student must meet with their graduate program director prior to registering to discuss required coursework and develop a written plan for timely graduation. Any graduate assistantships, scholarships, and/or fellowships, etc. awarded at the time of matriculation will not carry forward.

## **Outside Degree Completion Time Limit**

Students who have exceeded the time limit for completion of the graduate program in which they matriculated and have interrupted their studies for one full academic year or longer (regardless of whether they have received an official leave of absence) will be withdrawn from the program. Such students must submit a written petition for exception to the time limit for program completion to the graduate program director of the program in which they matriculated. The petition must be submitted at least six weeks prior to the term in question. The petition must be approved by the graduate program director, the department chair, and the dean of the school of graduate studies.

The dean of the school of graduate studies will notify the student in writing of his or her decision at least three weeks prior to the start of the term in question. The petition must be approved by the graduate program director, the department chair, and the dean of the school of graduate studies.

The graduate program director, the department chair, the AVP of Columbia Central, and the registrar will be notified in writing of the decision of the dean of the school of graduate studies.

If the petition for exception is granted, the student must meet with their graduate program director prior to registering to discuss required coursework and develop a written plan for timely graduation. The current catalog year requirements will apply. Any graduate assistantships, scholarships, fellowships, etc. awarded at the time of matriculation will not carry forward. Contact the School of Graduate Studies for more information.

#### Appeals Procedures

## **Academic Appeals**

Graduate students may use the "Graduate Studies Academic Appeal" form (available from the School of Graduate Studies) to petition the dean of the school of graduate studies to review any academic decision. The dean of the school of graduate studies will send a copy of their decision to the student, the graduate program director, the department chair, and the registrar. The decision of the dean of the school of graduate studies is final.

#### Combined Undergraduate/Graduate Degree Programs

In a combined undergraduate/graduate degree program, a maximum of 50% of the required credits in the graduate program may be counted toward completion of the bachelor's degree. The maximum number of credits may vary from program to program at the college.

Other than the exceptions noted here, all graduate policies apply to students enrolled in combined undergraduate/graduate master's degree programs.

The maximum time for degree completion listed above applies to combined undergraduate/graduate master's programs. Degree time calculation begins when a student first enrolls in a graduate course after earning an undergraduate degree.

The leave of absence policies detailed above apply only after the student has earned their undergraduate degree.

The following requirements apply to students in combined undergraduate/graduate master's programs during the period before the student has earned their undergraduate degree.

A student who earns a semester grade point average of 2.5 or less in any term when they are enrolled in graduate courses will have their admission to the combined undergraduate/graduate master's program revoked. Here, the GPA includes all courses--graduate and undergraduate--that the student was enrolled in during the given semester. The credits earned will count as electives toward their undergraduate degree. If

the student wishes to reapply to the graduate program, they may do so after earning their undergraduate degree, but none of the credits earned may be applied toward the graduate degree.

Once a student has earned their undergraduate degree, all graduate policies related to academic probation will apply.

#### Graduation Procedures

In order to be considered for graduation, students must complete the graduate application form online and, if applicable, work with their graduate program director to complete and forward their thesis-specific completion form to the registrar.

#### Policy Administration

All questions concerning the administration of these policies should be forwarded to the dean of the school of graduate studies.

#### [Expectations and Responsibilities](#)

Columbia College Chicago emphasizes the responsibility of each student to participate in the educational process. This involves the conscientious preparation of assignments and the recognition of the frequent interdependence of students when individual contribution to a group or class effort is required.

**Attendance:** Students are expected to attend classes and to complete assignments as required by the instructor. They should expect their academic progress to suffer if they miss classes.

**Advising:** Students are expected to meet regularly with their college advisor in the College Advising Center. As part of the advising process, students are expected to understand their degree requirements and their academic progress toward the completion of their intended degree.

**Co-curricular Activities:** The college supports student activities that provide broad opportunity for the exercise of interests and talents. These include participation in the Student Government Association, participation in professional organizations, cultural experiences, social activities, sports clubs, and informal meetings between students and faculty.

**The college prohibits the following conduct:** All forms of academic dishonesty, including, but not limited to: cheating, plagiarism, knowingly furnishing false information to the college, forgery, alteration or fraudulent use of college documents, instruments, or identification. For more about this see Academic Integrity.

### Major Declaration

All Columbia students must declare a major by the time they have earned 45 credits. Transfer students with 45 credits or more need to make this declaration at the end of their first semester at Columbia. Certain majors may only be declared via selection by the academic department. Students interested in these majors must follow guidelines set forth by the respective academic department. A maximum of six credits can be shared between two majors and between a major and a minor. Courses may be shared among more than two programs not to exceed six shared credits. Students seeking a BFA, BMus, or BS degree program can share up to six credits between the Columbia Core and the major requirements. Students seeking a BA degree cannot share any courses between the major and the Columbia Core.

### **Change of Major**

After major declaration, students wishing to change their major or concentration must meet with an academic advisor. Students are responsible for meeting the most recent major program requirements in effect at the time of the change. Majors changed beginning in week three of Fall and Spring semesters will take effect on the day after the semester ends.

## **Process for Declaring a Double Major**

Students seeking to declare a double major must do so before completing 45 total credits or within the first semester as a new transfer student. Any student who is adding a second major is required to meet with their academic advisor first to determine the length of time required to complete two specific major programs at the college. When it is determined that a student can graduate with a double major within 140 total credits or less including all credit earned out of residence, the double major will be approved. In the case where adding the second major will result in 141+ total required credits including earned transfer credits, students should follow the process for declaring a dual degree as outlined below. Students who complete a double major will receive one diploma with both majors listed. Academic transcripts will list both majors.

## **Process for Declaring a Dual Degree**

Undergraduate students who wish to double major are encouraged to select two majors that both lead to a Bachelor of Arts (BA) degree. When a student wishes to double major in two majors that lead to two different undergraduate degrees (for example, a BA and a BFA) it is known as a dual degree.

Dual degrees typically extend a student's length of time to completion beyond a four-year time frame. Any student who is considering adding a second degree is required to meet with their academic advisor first to determine the length of time required to complete two degrees at the college. To declare a dual degree, students must submit the following to their academic advisor before completing 45 total credits or within their first semester as a new transfer student:

1. Their complete degree plan for both majors with their anticipated semester of completion and the total credits required to complete both programs
2. Their financial plan and recognition that this intended program may impact their eligibility for continued scholarships, grants, and loans
3. Written support from a full-time faculty member in each of the intended degree programs/major areas of study
4. A written statement by the student explaining how their education would benefit from the dual degree and demonstrating their capacity to complete two undergraduate degrees at the college

The dual degree request will be reviewed for consideration by a committee to include the registrar, the associate vice president of Columbia Central, the assistant provost of Academic Services, and the associate dean(s) of the school(s) housing the two intended degree programs. The student will receive a written response to the dual degree request within three weeks of the submission of all the above materials. The decision of the review committee will be made once all academic and financial considerations are reviewed.

Degree audit and academic planning tools may not accurately reflect both programs of study. Dual degree students will need to work closely with their academic advisor to monitor their progress.

Students who complete a dual degree will receive two diplomas; one for each degree earned. Academic transcripts will list both degrees earned.

## **Financial Aid Implications of a Double Major/Dual Degree**

Federal financial aid regulations require Columbia to discontinue financial aid eligibility once all degree requirements are met. Completion of only one degree program is required for graduation; therefore, once a student completes a degree he or she will no longer be eligible for financial aid.

- Eligibility for Columbia's scholarships is limited to the earlier of four years of attendance or 120 (BA) credits/128 (BFA, BMus, BS) credits. Eligibility for Columbia's scholarships is not extended for students who choose a double major/dual degree. Additional information is available at Internal Scholarships
- For the purposes of federal and state grant eligibility, students are considered graduates once they complete all requirements of an academic program (i.e., a single major/degree). Therefore, once a student completes one of their majors/degrees, they will no longer be eligible for a Federal Pell Grant, Federal Supplemental Educational Opportunity Grant (FSEOG), or the State of Illinois MAP Grant.
- A student can continue to receive federal student loans for a second degree if the student meets all eligibility criteria for student loans. However, all students are encouraged to complete their undergraduate enrollment at Columbia within four years to limit both student loan indebtedness and tuition costs.

# **Interdisciplinary Major - BA**

Columbia College Chicago offers an Interdisciplinary Bachelor of Arts program. This program is designed to allow undergraduate students the opportunity to combine areas of study from two different areas of study in order to facilitate a unique learning experience leading to specific career outcomes. Students must meet with an academic advisor to discuss this opportunity and apply for the major in the College Advising Center. As part of the application process, students are required to meet with designated faculty in each relevant academic department to discuss career goals and map out specific course requirements pertinent to each area of study. A minimum of 40 total credits in the major is required, with no more than two thirds of the total credit hours in one department. Coursework should include an internship, independent project, or other capstone experience. Once approved, the coursework outlined in the application will become the official set of major requirements. All other requirements for the Bachelor of Arts degree apply. Once awarded, the official transcript will list the major as Interdisciplinary and a concentration in the two areas of study.

## **Baccalaureate Degree Programs**

Columbia's undergraduate division offers programs of study leading to a Bachelor of Arts (BA), a Bachelor of Music (BMus), a Bachelor of Science (BS), or a Bachelor of Fine Arts (BFA) degree in specific programs. In addition to the Columbia Core requirements, the BA, BMus, BS, and BFA programs may include requirements and specialized concentrations of courses that enable students to prepare for particular careers.

### **Bachelor of Arts**

The Bachelor of Arts (BA) is a liberal arts degree that allows a student to explore a major in the context of a broad program of general studies at the college level. The BA involves a higher proportion of courses outside the degree program than the BFA, including substantial interdisciplinary opportunities and the option of a minor or a double major in other programs. Students may choose to take additional electives in their major department beyond the required credit hours and may pursue those additional courses in a self-directed manner. The BA requires 120 total credits in the degree: 30 to 45 percent of credits in the major, 35 percent in Columbia Core, and 20 to 35 percent in college-wide electives.

### **Bachelor of Arts Degree Requirements**

To qualify for graduation with a Bachelor of Arts degree, students are required to complete:

- 120 credits with a minimum 2.0 cumulative grade point average
- 42 credits in Columbia Core courses
- six credits of courses designated as Diversity, Equity, and Inclusion (DEI)

Requirements for all majors can be found on the college's web site.

### **Bachelor of Music**

The Bachelor of Music (BMus) is a professional degree that focuses on intensive work in music supported by a program of general studies at the college level. It is further distinguished from the BA by a selective application process into the BMus program and a minimum grade point average (GPA) requirement in the major of 3.0. Students in the BMus are required to complete a senior recital demonstrating their range of skill as a composer and/or performer. The BMus requires a minimum of 128 total credits in the degree: at least 60 percent of the credits in the major field of study, 42 credits of Columbia Core coursework, and a small number of college-wide electives.

## **Bachelor of Music Degree Requirements**

To qualify for graduation with a Bachelor of Music degree in Composition; Contemporary, Urban, and Popular Music; or Performance, students are required to complete the following:

- 128 credits
- 42 credits of Columbia Core requirements
- 84 credits in music (85 for Performance)
- a minimum GPA of 3.0 in the major
- a cumulative GPA of 2.0 or better
- six credits of courses designated as Diversity, Equity, and Inclusion (DEI)

## **Bachelor of Fine Arts**

The Bachelor of Fine Arts (BFA) is a professional degree that focuses on intensive work in the major supported by a program of general studies at the college level. It is further distinguished from the BA by a selective application process into the BFA and a minimum GPA requirement in the major of 3.0. Students in the BFA are required to complete a senior capstone project that represents a substantial body of work elaborating a particular theme, idea, or professional area of practice. The BFA requires a minimum of 128 total credits in the degree: at least 60 percent of the credits in the major field of study, 42 credits of Columbia Core coursework, and a small number of college-wide electives.

## **Bachelor of Fine Arts Degree Requirements**

To qualify for graduation with a Bachelor of Fine Arts degree, students are required to complete the following:

- 128 credits
- 42 credits of Columbia Core requirements
- a minimum GPA of 3.0 in the major
- a cumulative GPA of 2.0 or better
- six credits of courses designated as Diversity, Equity, and Inclusion (DEI)

## **Bachelor of Science**

The Bachelor of Science (BS) is a liberal arts and sciences degree that focuses on intensive work in a major field of study supported by substantial and sustained coursework in science and mathematics and additional general studies at the college level. The BS requires a minimum of 128 total credits in the degree: at least 50 percent of the credits in the major field of study, 39 credits of LAS Core coursework, and a small number of college-wide electives.

## **Bachelor of Science Degree Requirements**

To qualify for graduation with a Bachelor of Science degree, students are required to complete the following:

- 128 credits
- 42 credits of Columbia Core requirements
- a cumulative GPA of 2.0 or better
- six credits of courses designated as Diversity, Equity, and Inclusion (DEI)

## **Second Bachelor's Degree (Second BA)**

If a student has already earned a bachelor's degree from Columbia or another accredited institution, they may earn a second bachelor of arts at Columbia by completing required courses specified by one of the major-granting departments or programs of the college. All other academic requirements are considered fulfilled within the curriculum of the previously granted bachelor's degree. Transfer credits cannot be applied to fulfill degree requirements; however, specific courses may be waived based on work experiences or courses from the original degree. Not all departments offer second bachelor of arts degrees.

Students may select a second bachelor of arts in any regular bachelor of arts program offered by the college in the current catalog. Bachelor of Fine Arts, Bachelor of Science, and Bachelor of Music programs are not available as a second bachelor degree. Please see the section on Majors and Programs for more information on the bachelor of arts program offerings.

Please note that the second bachelor of arts in Television does not include a concentration area. A second bachelor of arts in Interior Architecture is also available.

Second bachelor of arts students are admitted into the particular program to which they applied and are not eligible to change major programs after matriculation. Additionally, second bachelor of arts students are not permitted to declare a double major or a minor. No college-wide electives are required in second bachelor of arts programs, and financial aid cannot be applied toward any courses taken outside of specified program requirements.

### **Minors**

Students who have declared a major in a Bachelor of Arts curriculum are encouraged to include a minor to augment and complement their course of study. Minors consist of 18 to 24 credits and provide an introduction or sequenced specialization in an area of study from either a major or a Liberal Arts and Sciences department. Specific credit and course requirements for each minor can be found on the college's website. Double minors are permitted, and an unlimited number of credits can be shared between two minors. A maximum of six credits can be shared between any minor and the major program(s) of study. Shared courses can be shared among more than two programs. For students following the Columbia Core, an unlimited number of credits can be shared between the Columbia Core and the minor to fulfill requirements. For students following the Liberal Arts and Sciences Core (2005-18 graduates), a maximum of nine credits can be shared between the Liberal Arts and Sciences Core and the minor to fulfill requirements.

### The Columbia Core Curriculum

Columbia College Chicago offers undergraduate students educational opportunities in the visual, performing, media, and communication arts within the context of a comprehensive liberal education. At Columbia, this liberal education occurs in the Columbia Core Curriculum—a set of curricula required for all undergraduate, degree-seeking students.

The Columbia Core provides a strong interdisciplinary framework for the institution's universal learning outcomes, which are intended to guide all students' educational experiences. Students are required to take three **Columbia Experience** courses (nine credits), which highlight the unique academic mission of Columbia College Chicago, and 11 **Essential Liberal Arts and Sciences** courses (33 credits). Nine (9) of the total Columbia Core credit hours must be completed at 200-level or higher.

### The Columbia Core requirements and total credits:

#### **The Columbia Experience (CCCX) - 9 Credits Total**

- CCCX 100-level: Big Chicago - 3 *credits*
- CCCX 200-level: Creative Communities - 3 *credits*

- CCCX 300-level: Innovation and Impact - 3 credits

### **The Essential Liberal Arts and Sciences - 33 Credits Total**

*Communication - 6 credits required*

*Students placing out of Writing and Rhetoric I must complete Writing and Rhetoric II and an advanced writing course.*

- Writing and Rhetoric I (EN) - 3 credits
- Writing and Rhetoric II (EN) - 3-6 credits (3 minimum)

*History and Social Science - 9 credits required*

- History (HI) - 3-6 credits (3 minimum)
- Social Science (SS) - 3-6 credits (3 minimum)

*Humanities - 9 credits required*

- Humanities (HU) - 3-6 credits (3 minimum)
- Literature (LI) - 3-6 credits (3 minimum)

*Math - 3 credits required*

- Math (MA) - 3 credits

*Science - 6 credits required*

- Science (SC) - 3 credits
- Science with Lab (SL) - 3 credits

## **Certificate Programs**

Certificate programs allow students to explore a focused domain of knowledge or skills. These programs are appropriate for professionals and for degree-seeking students who wish to pursue training in a specific skill or discipline. Certificate programs ideally offer fall, spring, and summer start dates and other flexible scheduling options for students. Certificate programs do not necessarily result in professional certification in the program's area of focus; such certification is governed by external bodies.

A certificate is open to any student who is admitted to the college, whether pursuing a specific degree program or only admitted to the certificate program. Certificates consist of 9-18 credits of coursework. No certificate may include both undergraduate and graduate courses in a single program; undergraduate certificates contain only undergraduate coursework, and graduate certificates include only graduate-level coursework. Students pursuing an undergraduate certificate must have completed high school or the equivalent. Students pursuing a graduate certificate must hold a bachelor's degree as a condition of admission.

In order to be eligible for federal financial aid, a certificate program must take at least one year to complete, allow for a minimum registration of 6 credits per semester, and must lead to gainful employment in a recognized discipline. For degree-seeking students, certificates are awarded upon request only, and students cannot earn a certificate in the same discipline as their major, minor, or graduate program.

### **College-wide Graduation Requirements**

College-wide graduation requirements are the standard requirements that students must fulfill in order for Columbia College Chicago to confer their degrees. These standards ensure that graduates have completed the curriculum as it was developed by the faculty.

# **Diversity, Equity, and Inclusion**

All students are required to take at least two courses (minimum six credits) designated as meeting our Diversity, Equity, and Inclusion (DEI) requirements.

Columbia College Chicago actively promotes diversity, equity, and inclusion as vitally important to its present and future success. These principles are essential to the educational experiences of its students, staff, and faculty. The present standing and history of systems of racial oppression permeate all levels of society, and intersect with discrimination based on age, class, disability, ethnicity, gender, national origin, religion, and sexual orientation, among others. As such, these structures of power and privilege need to be studied and understood by all members of the Columbia community. Columbia is committed to creating policies, programs, and opportunities that will ensure that diversity, equity, and inclusion thrive and are at the center of all that it does.

## **College-wide Electives**

Courses other than those that fulfill the Columbia Core and major degree requirements are considered college-wide electives. A student's course of study must include as many college-wide electives as needed to achieve the total number of credit hours required for his or her degree. College-wide electives may be selected from any department and program in the college.

## **Requisites**

**Prerequisites** are courses that must be taken prior to a given course. Course(s) may be listed as prerequisite either because they cover necessary knowledge or skills or they must be taken in sequence.

**Co-requisites** are courses that may be taken prior to or at the same time as a given course. **Concurrent** requisites are courses that must be taken at the same time as a given course. **Course Requirements** are requirements, other than courses, that a student must meet to register for a course. Course requirements may include a specific number of completed credits, a minimum GPA, a minimum grade in a prerequisite course, departmental consent, audition, or portfolio review.

## **Waiver of College-wide Graduation Requirements**

College-wide graduation requirements may only be waived by the Provost (or her/his designee) and only under exceptional circumstances. A student who has not met a requirement for graduation may submit an Academic Petition to the Office of the Provost. Columbia College Chicago does not allow course substitutions or course equivalencies in lieu of a waiver of a graduation requirement.

## **Advanced Credit and Transfer Credit**

### **Transfer Credit**

Columbia College Chicago accepts transfer credit according to its policies from other regionally accredited colleges and universities and considers transfer credit from select institutions with discipline-specific accreditation. Transfer courses must be completed with a C grade or better and must be similar or equivalent in content to those offered by Columbia. The acceptance of transfer credit is at the sole discretion of the college. To be accepted, official college transcripts, military records, or Advanced Placement test scores must be received, at the latest, by Undergraduate Admissions before the end of the student's first semester of attendance at Columbia. Grades and grade point averages do not transfer. All transfer students receive an official transcript evaluation as part of the admissions process.

- No minimum number of transfer credits is required to transfer to Columbia College Chicago

- The maximum number of accepted credits earned outside of Columbia College Chicago is 75
- The final 12 credits required for graduation must be taken at Columbia College Chicago
- A minimum of 45 total credits toward the degree must be taken at Columbia College Chicago
- A minimum of 15 credits required for the major must be taken at Columbia College Chicago
- ESL, adult education, continuing education, workshops, seminars, and developmental courses (those courses usually numbered below 100) are not transferable
- Topics, independent study, and internships are considered on a case by case basis and may not be transferable

For additional information about the Transfer Student application or policies, please visit [www.colum.edu/transfers](http://www.colum.edu/transfers).

### **Articulation Agreements**

Articulation agreements are designed to build strong relationships between two-year institutions and Columbia College Chicago so that transfer students understand exactly what courses will and will not transfer when they enroll at Columbia. Not to be confused with course equivalencies which identify whether individual courses will apply towards a degree at Columbia, articulation agreements identify how an entire group of courses from an awarded associate's degree apply toward a degree at Columbia. For a current list of articulation agreements and established transfer guides with partner institutions, please visit [www.colum.edu/transfers](http://www.colum.edu/transfers).

## **Exam Credit**

Official score reports for all exams must be sent to Admissions for consideration. Credit is accepted for exams with qualifying scores in subjects similar to those offered at Columbia College Chicago.

- **Advanced Placement (AP):** For more information, please see AP Evaluation Guide.
- **College Level Examination Program (CLEP):** For more information, please see CLEP Evaluation Guide.
- **International A-Level:** Credit may be accepted for some A-Level exams with grades of A to C in subjects similar to those offered at Columbia College Chicago.
- **International Baccalaureate (IB):** For more information, please see IB Evaluation Guide.

### **International Transfer Credit**

Enrolled students who study at an international school outside of Columbia's approved study abroad experiences are required to submit a professional course-by-course evaluation of all university-level work from a professional credential evaluation service with NACES membership. This evaluation will help guide the review of transfer credit equivalencies but is not a guarantee of transfer credit. New applicants with international transfer credit should visit the Admissions website for information.

### **Life Experience Credit**

Under special circumstances, a student may be granted up to 16 credit hours in their major for life and work experience. Applications are available in the Office of the Registrar for evaluation of non-college learning experiences.

### **Military Credit**

Veterans may be eligible for active duty and service school credit based on information from official copies of military records. Contact Admissions with additional questions.

### **Information for Illinois Transfer Students**

Columbia College Chicago participates in the Illinois Articulation Initiative (IAI) as a receiving institution. The IAI is a statewide agreement that allows transfer students coming from participating Illinois institutions who meet certain criteria to complete the General Education Core Curriculum (GECC) in lieu of the Columbia College Chicago Core (Columbia Core). Transfer students who are accepted to Columbia College Chicago and who meet at least one of the following criteria are eligible for the IAI:

1. Earned associate's degree from a participating Illinois institution
2. Completion of the GECC package at a participating Illinois institution
3. Completion of 30 transferable credits from one or more participating Illinois institutions

Students who meet number 1 or number 3 above who have not yet completed the GECC package are permitted to do so while enrolled at Columbia College Chicago. If the Columbia Core leads to faster degree completion, the student may choose it instead of the GECC.

Transfer students who complete the GECC package in lieu of the Columbia Core must still complete the following college-wide degree requirements, which may or may not be fulfilled in transfer:

- Columbia Experience 3 (CCCX 300-level): Innovation and Impact (three credits)
- Diversity, Equity, and Inclusion (DEI): (six credits)

Transfer students entering Columbia College Chicago from participating Illinois institutions with 29 or fewer transferable credits are required to complete the Columbia Core.

Students who meet eligibility requirements for the IAI can transfer courses that apply toward the GECC requirements with a grade of D or better. The only exception to this is Writing and Rhetoric I and Writing and Rhetoric II in which a grade of C or better is required.

For more information on the Illinois Articulation Initiative, please visit [www.itransfer.org/IAI/](http://www.itransfer.org/IAI/)

### **Registration**

Registration for continuing degree-seeking students typically begins in the middle of each semester for the subsequent semester. Registration is conducted online through the student portal. To participate in registration, students may be required to meet with their academic advisor for an advising clearance. Students should contact their academic advisor for further information. Students must have no outstanding financial, academic, or immunization obligations to the college. (visit Columbia Central)

### **Dropping/Adding/Withdrawing From Classes**

The college's official schedule revision period ends on the first business day in week two of the semester for the regular 15-week term. For official add, drop, and withdrawal dates tied to five-week, seven-week, and eight-week sessions, please visit [Columbia Central](#). Students may make changes to their class schedules (i.e., add or drop classes) at any time prior to the end of the official revision period. Students may drop classes through the first business day in week three and may withdraw through the ninth week during the Fall and Spring semesters for the regular 15-week term. (Refer to [Columbia Central](#) for guidelines on adding, dropping, or withdrawing from fall and spring sub-sessions and summer classes.) If a student drops a course before the deadline, the course does not appear on the student's academic record. Withdrawals appear on the record as W (withdrawal), which may affect compliance with [Satisfactory Academic Progress](#). Students are advised to consult with an academic advisor in the College Advising Center before deciding to withdraw from a class. Failure to attend a class does not equal withdrawal.

## **Withdrawing from a Course and Withdrawing from the College**

Students who are planning to withdraw from a course are encouraged to speak with both College Advising and Columbia Central prior to withdrawing. Withdrawing from a course can impact the student's financial standing with the college, and can also impact the student's academic standing.

If a student completely withdraws from courses through the 60 percent point of the term (or session if not enrolled for the full term) and was awarded Title IV aid (federal financial aid) they will have their financial aid award prorated based on the last date of attendance. Award adjustments may result in an outstanding student account balance.

In the event that a student decides to no longer attend the college, they must return all school property and make necessary financial arrangements with Columbia Central prior to their departure. Please note, failing to attend classes does not constitute an official withdrawal from the College. All accounts are considered active until the effective date of the official withdrawal.

### **Administrative Withdrawals**

Columbia College Chicago recognizes there may be extenuating and mitigating circumstances affecting student academic progress. A student may petition for a TOTAL administrative withdrawal from ALL classes after the end of the official withdrawal period by submitting a petition supported by appropriate documentation. An administrative withdrawal after the end of the semester is not permitted if the petition is submitted later than 45 calendar days following the last date of the semester in question. Petitions for administrative withdrawals are evaluated and approved or denied by the Exception Committee. The committee will decide if any academic and/or financial exceptions related to the student's petition will be granted. Students may appeal a denial of petition to the Registrar and the assistant vice president of Columbia Central, whose decision is final. Approval of a petition for administrative withdrawal may preclude future approvals of petitions for administrative withdrawals.

Mitigating circumstances that qualify for consideration of an administrative withdrawal include:

#### **Medical**

- The student submits documentation from a medical professional confirming that the student will be/has been hospitalized and the length of the hospitalization and necessary recovery time is a minimum of seven consecutive calendar days during the term (excluding scheduled breaks such as winter break or spring break); OR
- The student submits documentation from a medical professional indicating that it was impossible for the student to attend classes for 14 consecutive calendar days or a greater period of time during the term due to a medical condition (hospitalization not required); OR
- The student submits documentation from a medical or counseling professional confirming that the student is a danger to self and/or others, and therefore must discontinue enrollment; OR
- The student submits information from a health care provider certifying that the student is unable to complete a course(s) due to a medical condition.

*Documentation for medical conditions must explicitly state why the student is or was unable to complete the course(s) and whether the medical condition prevents the student from completing all courses or just particular courses for which academic progress is impeded by the medical condition.*

#### **Non-medical**

- The student provides documentation of being called to military service during the term; OR

- The student provides documentation of being incarcerated for a minimum of seven consecutive calendar days during the term; OR
- An immediate family member of the student's passes away during the term. Immediate family members include the student's mother, father, brother, sister, spouse, or child. If a non-immediate family member living with the student passes away (for example, a grandparent), an exception may also be considered; OR
- The student is a victim of a violent crime during the term.

The following circumstances do not qualify for consideration of an administrative withdrawal:

- Failure to properly drop or withdraw from a course during the add/drop or withdrawal period
- Inability to afford courses for which the student has registered
- Non-attendance with failure to properly drop the course

Students who have questions regarding the administrative withdrawal process should consult with their academic advisor.

### **Mandatory Attendance Process**

Students are required to attend class regularly. Failure to attend class in the first two weeks of the term negatively impacts financial aid. If an instructor reports that a student failed to attend and participate in class during the add/drop period, a grade of NS (no-show) is entered on the student's record for the course. Please note that students are charged tuition and fees for any course for which they receive a NS grade. For more information on non-attendance please visit the Columbia Central website.

## **Failure to Attend and Drop Course(s) for a Semester (Voided Schedule)**

Students are responsible for managing their student records and accounts at Columbia College Chicago, which includes properly dropping all registered courses in the student portal if they decide not to take a course or courses. If a student registers for courses but never attends any of those courses, Columbia may void the student's schedule for the semester ("Voided Schedule"). The first instance of a Voided Schedule, the student will not be held responsible for full tuition and fees; however, effective Summer Semester 2019, continuing students will be charged a fee of \$75 per registered credit for the first instance of a Voided Schedule. This fee covers the administrative and academic costs incurred in support of the student's registration and subsequent failure to attend and properly drop his or her courses. This fee cannot be covered by financial aid and must be paid in full prior to Columbia releasing any records on the student's behalf, including college transcripts and the diploma.

After the first instance of a Voided Schedule, the continuing student will be held responsible for the full tuition and fees for registered courses for any subsequent instances of a Voided Schedule. A student is considered a continuing student if he or she were ever enrolled in any course at Columbia College Chicago and earned any grade in that course, including but not limited to W, I, NS, F, FX, S, U, or P. This policy applies only to students for whom the college can adequately document complete non-attendance for the semester. If the Office of the Registrar determines that a student attended any portion of any registered course, that student is responsible for all tuition and fees for the semester per Columbia's regular refund policy.

### **Religious Holiday Observance**

Columbia College Chicago respects the right of and encourages all students to observe the religious holidays associated with their faith. Faculty should make

every effort to accommodate students who miss scheduled class meetings due to the observance of a religious holiday. Students are expected to contact their instructor as soon as possible to make appropriate arrangements to complete coursework.

## **Course Auditing**

Auditing courses is not permitted by students at the undergraduate level. Course auditing is only permitted by degree-seeking graduate students in undergraduate courses by permission of the instructor. For more information, please see the graduate student auditing policy under graduate academic policies.

### **Grading System**

Grades reflect the instructor's evaluation of a student's achievement, improvement, effort, and motivation within the framework of this system. Columbia's grading system is as follows:

<b>Grade</b>	<b>Description</b>	<b>Grade Points Awarded</b>
A	Excellent	4.0
A-		3.7
B+		3.3
B	Above Average	3.0
B-		2.7
C+		2.3
C	Average	2.0
C-		1.7
D	Below Average	1.0
F	Failure	0.0
P	Pass	0.0
I	Incomplete	0.0
W	Withdrawal	0.0
NG	Unreported	0.0
NS	No Show	0.0
AU	Audit	0.0

### **Treatment of W, NS, I, NG, P, F, and Grades Reported**

- Course withdrawals (W), courses dropped after the add/drop period, are not included in the GPA calculation but are considered in the completion rate and maximum time frame calculations.
- Non-attendance (NS) grades are issued for undergraduate courses when a student fails to attend within the first two weeks of the term. The NS grade is not included in the GPA calculation but is considered exactly like a withdrawal in the completion rate and maximum time frame calculations.
- Incomplete (I) grades are not included in the GPA calculation but are considered in the completion rate and maximum time frame calculations. Students must apply for an I grade and their request may be approved or denied by the College. The I grade may be issued when a student makes definite arrangements with the instructor to complete course work outside class. If medical excuses are part of the student's documentation for requesting an I grade, these must be submitted during the semester in which the incomplete is requested. A student may not complete the work for a course in which an I grade was received by enrolling in the same class in the next semester. An Incomplete Grade (I) can only be issued for an undergraduate student who has met one of the following criteria:
  - The student has successfully completed all course requirements to date but is faced with unexpected circumstances during the final weeks of the semester resulting in the inability to complete course requirements by the end of the semester. The student must have, in the instructor's estimation, the ability to complete missed course requirements outside of class and by the end of the eighth week of the following semester. The instructor must agree to evaluate the student's work and replace the Incomplete grade before the end of the following semester. Student-Faculty Agreement on Incomplete Grade, specifying work to be completed and a due date, must be signed by both instructor and student and approved by the Department Chair. In the event that an instructor is no longer employed by the College, a program Coordinator, Director, or the Department Chair can evaluate the work and assign the course grade.
  - An external supervisor for an Internship has failed to submit a final report and grade recommendation by the deadline for grade submission or the Internship conclusion date falls beyond the end of the grade submission deadline. The Internship Coordinator /faculty member is responsible for obtaining the final evaluation and submitting a letter grade to replace the Incomplete by the eighth week of the following semester. An agreement specifying the need for the final evaluation from the external supervisor must be signed by both instructor and approved by the Department Chair. In the event that an instructor is no longer employed by the College, a program Coordinator, Director, or the Department Chair can evaluate the work and assign the course grade.
  - Once the work has been completed, the faculty member will update the student's final grade. If no action is taken to resolve the incomplete work, the I grade will convert to an F (failing) grade at the end of the subsequent term. Courses with an I grade are not considered officially graded until all grades are certified for the subsequent term.
- Unreported grades (NG) are not included in the grade point average but are considered in the completion rate and maximum time frame calculations. Once the grade is reported, the student's grade point average is updated accordingly.
- Pass (P) grades are not included in the GPA calculation but are considered in the completion rate and maximum time frame calculations. The pass/fail option must be declared by the deadline by completing a form obtained on the Office of the Registrar website. Once this form is submitted the decision cannot be reversed.
  - Students may not declare pass/fail in any major or minor courses. A P (pass) grade does not fulfill major, minor, or pre-requisite requirements where a "C or better" grade is required.
  - The deadline to declare a Pass/Fail will be the same as the deadline to Withdraw from a class. Students are encouraged to discuss the Pass/Fail option with their instructor and advisors; however, permission from the instructor is not required.
- Failure grades (F) are included in the computation of the grade point average, and they are considered in the completion rate and maximum time frame calculations.

- Grades of A, B, C, and D (including pluses and minuses) are included in the grade point calculation and are considered in the completion rate and maximum time frame calculations.
- Audit (AU) grades are not included in the GPA calculation and award no credit.

### **Academic Progress Reports (APRs)**

During week six and seven of the fall and spring terms, Columbia College Chicago requests each faculty member to submit academic progress reports (APRs) for undergraduate 15-week courses\*. The primary intent of the APR process is to identify students who are at-risk of failing the course or are not meeting the minimum grade required. When a student is identified as at-risk of failing a course, they will receive an email notification regarding their academic progress with suggestions and options for how to proceed. The APR process was established to provide students with feedback on their progress and to offer additional support to our students.

The APR process is a critical component in Columbia's commitment to student success. While the APR is not a final grade and does not impact the grade point average, it is a valuable indicator of student performance in the course to date.

When a faculty member submits the APR, they can indicate that each student in their class meets one of the three following criteria:

- *Exceeds basic expectations*: Demonstrating performance at a very high level in the course, typically shown as earning high grades on assignments and displaying a deep engagement with course content.
- *Meets basic expectations*: Demonstrating behavior proven to produce success in college, such as consistent attendance, class participation, and on-time completion of assignments.
- *Does not meet basic expectations*: Demonstrating behaviors known to put students at risk for failure, such as excessive absences, lack of class participation, and missed or incomplete assignments.

While the academic progress report is not a final grade and does not impact the grade point average, it is a valuable indicator of student performance in the course to date. Columbia provides students with this report as part of its commitment to student success. Reports are delivered via the official college email during week six, and students are encouraged to discuss them with their instructor(s).

\*Certain courses are exempt from the academic progress reporting process, such as private lessons, internships, independent projects, directed studies, tutoring, and courses that have not met or have ended by week six.

### **Satisfactory Academic Progress**

Satisfactory Academic Progress (SAP) is a federal requirement for Title IV (federal financial aid) recipients. SAP refers to academic requirements that federal financial aid recipients must meet to retain eligibility for federal financial aid, which includes federal grants and loans. If a federal financial aid recipient fails to meet these requirements, the student will lose eligibility for federal financial aid at Columbia.

Columbia's policy for academic standing requires all undergraduate students meet the standards outlined below regardless of if they are Title IV recipients. If an undergraduate student fails to meet the SAP standards, the student will be prohibited from registering for future courses at Columbia unless the student successfully appeals, as outlined below.

All previous SAP policies that students may have in their possession are no longer valid, and students will not be "grandfathered" under old policies.

## **Staying in SAP Compliance**

To maintain SAP compliance, all undergraduate students must meet the following requirements each semester they are enrolled, including summer term, even if they are not receiving financial aid for that semester:

- Maintain a cumulative grade point average (GPA) of 2.0 or above
- Successfully complete at least two-thirds (67 percent) of their attempted credit hours, and
- Complete their degree program within the maximum time frame, which is 150 percent of the length of their academic program in credit hours.

The above standards apply even if a student has changed majors. All coursework completed under the prior major will be included in the SAP calculation.

If a student is completing a second bachelor's degree at Columbia, only the coursework required for the second bachelor's degree will be evaluated for SAP and the student will be given a maximum time frame that is 150 percent of the number of credit hours required to complete the second bachelor's degree.

## **Maximum Time Frame**

Students whose attempted credit hours, including transfer credit hours, exceed 150 percent of the length of their academic program in credit hours lose eligibility for federal financial aid and cannot register for future courses (financial aid suspension/academic dismissal). Additionally, if it is determined through the SAP review that a student is not on track to complete the academic program within 150 percent of the length of the academic program in credit hours, the student will be placed on financial aid suspension/academic dismissal. A student can appeal the maximum time frame, and if the appeal is successful, the student is placed on an academic plan that holds the student accountable for degree completion within a specific time frame.

To calculate maximum time frame, students should multiply the length of their academic program in credit hours by 150 percent. For example, if a student is completing a BA degree that is 120 credit hours in length, the student's maximum time frame is 180 credit hours ( $120 \times 150 \text{ percent} = 180$ ).

## **Treatment of Grades Reported**

Grades of A, B, C, and D as well as failing grades (F), are counted toward a student's grade point average, completion rate, and maximum time frame. This is true whether an F grade is received due to nonattendance or due to poor academic performance.

Grades of incomplete (I), unreported (NG), pass (P), course withdrawal (W), and no show (NS) are not counted toward a student's grade point average but are counted toward completion rate and maximum time frame.

## **Grade Changes**

When a grade change is reported to the Office of the Registrar, the student is evaluated for SAP compliance at that time. If the student is not in compliance with the standards of SAP based on the grade change, the student will be notified and the below policy and procedures will apply.

## **Remedial Coursework**

Columbia does not offer remedial courses, nor does it accept remedial courses as transfer credit. Therefore, remedial coursework taken at another institution has no impact on SAP at Columbia.

## **Treatment of Transfer Credit**

Columbia accepts transfer coursework from eligible institutions. Grades from accepted transfer coursework are not included in the Columbia grade point average (GPA). Accepted transfer coursework is included in a student's calculation of completion rate and maximum time frame.

## **Retaking Course Work Not Designated as Repeatable for Credit**

Students are permitted to attempt a course a second time to improve their earned grade, provided the course is not designated repeatable for credit. Students may retake a course to improve their grade no more than once (total of two attempts) unless they receive special approval from the academic department. Official Withdrawals from a course (W grade) are not included in the total of two attempts.

The retaken course must be the same as, or equivalent to, the original course, and students will pay tuition and fees for the retaken course. The grade achieved in the retaken course (whether higher, lower, or the same) is included in the computation of the grade point average, and the course is included in the completion rate and maximum time frame calculations. The original course title and original grade remain on the student's academic record. Any credit earned in the first attempt will be replaced by any credit earned in the second attempt; credit can only be earned once for courses not designated as repeatable for credit. The student's academic record will reflect the current academic transaction and SAP compliance for each semester of enrollment. **Federal and state financial aid may only be used for one retake of a course in which a passing grade (D- or above) was previously earned.**

## **Courses Designated as Repeatable for Credit**

Students may register in successive semesters for skill-building, special topics courses, and workshops classified as repeatable for credit courses on the Course Schedule. The number of times a repeatable for credit course may be taken varies, and students should always consult their Academic Advisor prior to registration for these courses. Grades received for courses designated as repeatable for credit will appear separately on the transcript. Tuition and fees are paid each time the course is taken. Courses designated as repeatable for credit may not be retaken to improve a grade.

## **Notification of SAP Status**

At the end of each term (fall, spring, summer) each student's cumulative GPA, completion rate, and maximum time frame will be evaluated. Students who do not meet these standards will be notified of their SAP status by the Office of the Registrar.

These notifications include the following four statuses: financial aid warning (academic warning), financial aid suspension (academic dismissal), financial aid probation (academic probation), financial aid probation continuance (academic probation continuance).

The Office of the Registrar notifies students of their SAP status and the impact on financial aid eligibility via their Loop email account at the end of each semester immediately following the grading period. Students who have met the SAP requirements are considered in good standing and do not receive a written notice.

## **Financial Aid Warning (Academic Warning)**

Students who do not maintain a cumulative GPA of 2.0 or above or do not meet the minimum completion rate after one semester will be placed on financial aid warning. Additionally, any student who has attempted 165 credit hours or more and has not completed their degree program will be placed on financial aid warning. Students who receive this notification should meet with the College Advising Center for counseling before registering for the subsequent semester. Students are eligible to continue receiving financial aid and to register for future courses while on financial aid warning.

## **Financial Aid Suspension (Academic Dismissal)**

Students who do not maintain a cumulative GPA of 2.0 or above or do not meet the minimum completion rate after a semester on financial aid warning will be placed on financial aid suspension. Additionally, students who were previously placed on financial aid warning due to maximum time frame and did not complete their degree program during the semester on financial aid warning will be placed on financial aid suspension. Students on financial aid suspension are prohibited from registering for future courses and are not eligible for financial aid.

Students who are on financial aid suspension may be eligible to appeal their standing and should speak with their academic advisor about the appeal requirements and process.

## **Financial Aid Probation (Academic Probation)**

Students who complete the appeal process and are approved will be placed on financial aid probation. While on financial aid probation, students are eligible to register for courses and receive financial aid. Students on financial aid probation status must meet the terms outlined in their academic plan. Failure to regain SAP eligibility or to meet the terms of their academic plan after this subsequent grading period will result in the student being placed on financial aid suspension and being prohibited from registering for future courses and receiving financial aid.

## **Financial Aid Probation Continuance (Academic Probation Continuance)**

Students who failed to meet the minimum SAP requirements but who adhered to their academic plan may be eligible for financial aid probation continuance. Students on financial aid probation continuance maintain eligibility for financial aid and are considered in good academic standing once they renew their academic plan with the College Advising Center. A financial aid probation continuance appeal must be submitted by the established deadline for the appropriate term and is subject to approval.

Students who do not submit an appeal or whose appeal is denied are placed on financial aid suspension and are prohibited from registering for future courses and are not eligible for financial aid.

## **SAP Appeals**

Columbia recognizes there may be extenuating and mitigating circumstances affecting student performance. Columbia allows students to appeal their SAP status by submitting a satisfactory academic progress appeal/academic standing appeal with appropriate documentation to the College Advising Center for consideration if any of the following circumstances exist:

- Death of a relative; and/or
- Physical or mental health illness or injury; and/or
- Extraordinary and unusual change in personal circumstances that affected academic performance; and/or
- Demonstrated significant academic progress while on Academic Warning.

The student's appeal must describe why the student didn't maintain SAP, provide reasonable documentation of that circumstance, and explain how the student will maintain SAP in future terms.

An appeal committee made of professionals from the College Advising Center and Columbia Central reviews all SAP appeals. Because Columbia's academic standing policy and SAP policy are the same, students submit one appeal for both standards and the decision of the committee applies to both the student's financial aid eligibility and the student's ability to continue pursuing a degree at Columbia. If the appeal committee denies a student's appeal or a student declines to submit an appeal, the student is no longer eligible for financial aid and is prohibited from registering for future courses at Columbia.

#### **Deadlines to Appeal**

- Fall SAP suspension: 15 days after notification of financial aid suspension
- Summer SAP suspension: 7 days after notification of financial aid suspension <sup>{1}</sup><sub>SEP</sub>
- Spring SAP suspension: 30 days prior to the start of fall enrollment

Students who do not submit an SAP appeal by the established deadline and/or whose appeal is denied will be ineligible to receive financial aid and prohibited from registering for future courses at Columbia.

## **Regaining Eligibility**

Because Columbia's academic standing policy is the same as its SAP policy, students who do not complete an appeal or whose appeal is denied must sit out from Columbia for at least two semesters. During this time, the student must attend another college or university and demonstrate academic progress at that institution for at least two semesters prior to applying for readmission at Columbia and submitting a new SAP appeal. Students interested in readmission should speak with the College Advising Center.

If a student is granted readmission to Columbia and the SAP appeal is approved, the student is placed on Financial Aid Probation and the above policy applies.

#### **Class Standing**

Class standing for undergraduate students pursuing a Bachelor of Arts, Bachelor of Music, Bachelor of Science, or Bachelor of Fine Arts is classified by the number of credits earned:

<b>Standing</b>	<b>BA, BMus, BS, or BFA</b>
Freshman	0 - 29
Sophomore	30 - 59

Junior	60 - 89
Senior	90 and above

### Academic Forgiveness

#### **Failure to Meet the Minimum Grade Requirement**

Students may progress in major or minor course sequencing or level by earning a minimum grade of C. In all other courses students must earn a minimum grade of D.

Students who fail to earn a minimum grade in any course not designated as "repeatable for credit" (see below) may attempt the course one more time in an effort to earn a higher grade.

#### **Retaking Coursework Not Designated as Repeatable for Credit**

Students are permitted to attempt a course a second time to improve their earned grade, provided the course is not designated repeatable for credit. Students may retake a course to improve their grade no more than once (total of two attempts). Official Withdrawals from a course (W grade) are not included in the total of two attempts.

The retaken course must have the equivalent course number and title as the initial course, and students pay tuition and fees for the retaken course. The grade achieved in the retaken course (whether higher, lower, or the same) is included in the computation of the grade point average, and the course is included in the completion rate and maximum graduation time frame calculations. The original course title and original grade remain on the student's academic record. Any credit earned in the first attempt is replaced by any credit earned in the second attempt; credit can only be earned once for courses not designated as repeatable for credit. The student's academic record reflects the current academic transaction and Satisfactory Academic Progress compliance for each semester of enrollment.

**Federal and state financial aid may only be used for one retake of a course in which a passing grade (D or above) was previously earned.**

#### **Courses Designated as Repeatable for Credit**

Students may register in successive semesters for skill-building, special topics courses, and workshops classified as repeatable for credit courses on the Course Schedule. The number of times a repeatable for credit course may be taken varies, and students should always consult their faculty advisor prior to registration for these courses. Grades received for courses designated as repeatable for credit appear separately on the transcript. Tuition and fees are paid each time the course is taken.

Courses designated as repeatable for credit may not be retaken to improve a grade.

### Academic Options and Opportunities

## **The Honors Program**

The Honors Program community brings together creative thinkers, intellectuals, writers and communicators who seek to share ideas while studying and learning at the highest level. Honors Program students pursue deeper academic and creative challenges with some of Columbia's most engaged faculty members through

a rich array of specially designed courses on subjects ranging from Music and Media in Chicago to Postcolonial Literature to the Evolution of Sex and dozens of other topics. Honors classes include students from all of Columbia's majors in the visual, performing, media and communication arts, creating opportunities for collaborations and relationships that transcend the classroom. Many Honors courses fulfill Columbia Core requirements, and the upper level Honors Undergraduate Research Mentorship Initiative (URMI) course provides one-on-one research opportunities with faculty across the College and can be taken for up to 3 hours of Honors Program credit.

Students can become eligible for the Honors Program in two ways:

- Students are considered for the Honors Program upon admission to Columbia. If admitted to the Honors Program, students receive an invitation with the admission letter. Students who complete the required number of Honors course credits (\*provided below) and maintain at least a 3.5 GPA will receive the designation 'Honors Program Graduate' on their transcripts.
- All students with a cumulative Columbia GPA of 3.5 or greater are also eligible to enroll in Honors courses and may declare into the Honors Program at [colum.edu/honors](http://colum.edu/honors).

#### **\*Honors Program Credit Hour Requirement**

Columbia College Chicago Honors Program is inclusive of those students who would like to pursue 'Honors Program Graduate' distinction and have earned transferable college-level credit prior to their first term of Columbia enrollment. College-level credit includes: Advanced Placement (**AP**), College Level Examination Program (**CLEP**), International A-Level International Baccalaureate (**IB**), military credit, and transferable post-secondary coursework.

For students who have earned prior to their first term of Columbia enrollment:

- 0 - 15 transferable credits: at least 15 Honors credits must be completed.
- 16 - 30 transferable credits: at least 12 Honors credits must be completed.
- 31 - 75 transferable credits: at least 9 Honors credits must be completed.

The Honors Program is distinct from Latin Honors, which is based solely on GPA. Contact the Honors Program with any questions at [honors@colum.edu](mailto:honors@colum.edu) or visit Honors Program.

## **Undergraduate Research Mentorship Initiative** **(URMI)**

The Undergraduate Research Mentorship Initiative (URMI) connects talented students with junior standing and at least a 3.0 GPA who are interested in conducting academic research with faculty members involved in scholarly projects in their areas of expertise. Students who participate in an URMI project can earn a maximum of 3 credits. Honors URMI courses can also be taken for up to 3 credit hours toward the Honors Program requirement. Proposals for URMI projects are due from the faculty and student prior to the project semester. For more information contact your School Dean's office, visit [colum.edu/urmi](http://colum.edu/urmi), or write to the Honors Program at [honors@colum.edu](mailto:honors@colum.edu).

Undergrad Research Mentorship (URMI) Registration Form

### **Independent Projects**

Independent projects are advanced, student-driven learning experiences involving substantial student independence in project design and project execution. Independent projects are appropriate for students who wish to explore a subject on their own beyond what is possible in regular courses offered by the college. An independent project must not be equivalent in content to courses currently offered by the college. An independent project must be approved by a faculty advisor who also evaluates the final results

and awards a grade. Credit for an independent project cannot be applied toward the student's Columbia Core Curriculum requirements.

Independent Project Cover Sheet

### **Directed Studies**

Directed studies are learning activities involving student independence within the context of regular guidance and direction from a faculty advisor. Directed studies are appropriate for students who wish to explore a subject beyond what is possible in regular courses, or for students who wish to engage in a subject or activity not otherwise offered that semester by the college. Directed studies involve close collaboration with a faculty advisor who assists in development and design of the project, oversees its progress, evaluates the final results, and submits a grade.

Directed Study Cover Sheet

### **Internships**

Internships are an experiential learning opportunity that integrates knowledge and theory learned in the classroom with practical application and skills development in a professional setting. They give students the opportunity to gain valuable applied experience, be guided and evaluated by professionals, and make connections in industries they are considering for career paths. Sophomores and above in good academic standing may register for an internship. All undergraduate and graduate internships, with the exceptions noted below, are administered and processed by the Career Center and require a minimum of 75-hours at the internship. Information about the internship requirements and processes is available from the Career Center. Exceptions may be made for specialized internship programs, such as those structured and managed out of state. Internship courses required for professional licensure and/or that are externally regulated are not managed by the Career Center.

### **Study Abroad**

Columbia College Chicago strongly encourages students to spend a term abroad. Whether it is a summer, January session, or full-year program, there are numerous options for students to earn credit while seeing the world. Through the Global Education Office, the college offers students the opportunity to challenge their cultural assumptions and develop as artists and world citizens.

Through Columbia's cornerstone college-wide international exchange programs, students can spend a full semester or year abroad studying at one of the college's partner institutions. With Columbia's departmental programs, students may have the opportunity to participate in a Columbia faculty-led class specific to a course of study at varied sites during January session and summer. Lastly, approved provider programs allow students who are interested in a location, course of study, or timeframe that is not offered by Columbia programming to select an option from outside the college, receive credit and federal financial aid.

The Global Education Office serves as the central point for all the various options to earn credit abroad. Please visit the website at: [www.colum.edu/InternationalPrograms](http://www.colum.edu/InternationalPrograms) for more information.

Columbia College Chicago students wishing to study abroad must apply through the Global Education Office website. Approved programs include all Columbia College Chicago exchange programs, Columbia faculty-led programs, and programs through Columbia's approved providers (AIFS, CEA, and CIS Abroad). Combined, these programs cover a wide range of subjects and destinations.

Students may study abroad independently and not through a Columbia College Chicago exchange, faculty-led or approved provider program. For independent study abroad, students do not apply through nor work with the Global Education Office. Students who study abroad independently will be responsible for obtaining

their transcripts and submitting them to the Office of Undergraduate Admissions for review. Credit earned through independent study abroad is not guaranteed to transfer and financial aid cannot be applied; therefore, study abroad through providers that are not pre-approved by the college is discouraged.

Important details on study abroad program type:

#### Columbia College Chicago Exchange Programs

- Students pay Columbia College Chicago tuition
- Students may use Columbia College Chicago scholarships and federal financial aid
- Final transcripts will be evaluated by a foreign credential evaluation service to convert study abroad grades into the U.S. system credit hours and grades. Final converted grades will be included in the student's grade point average calculation and are considered in the student's completion rate

#### Columbia College Chicago Faculty-Led Programs

- Students pay Columbia College Chicago tuition
- Students may use Columbia College Chicago scholarships and federal financial aid
- Students register through Columbia College Chicago
- Final grades will be included in the student's grade point average calculation and are considered in the student's completion rate

#### Approved Provider Programs

- Students apply to the approved study abroad provider and Columbia College Chicago
- Students pay all tuition and program fees to the approved study abroad provider
- Students may use federal financial aid on approved provider programs
- Students *may not* use Columbia College Chicago scholarships on approved provider programs
- Final grades will be included in the student's grade point average calculation and are considered in the student's completion rate

### **Graduation Audit and Posting of Degrees**

Students must complete an online application for graduation in the MyColumbia portal one academic year before the expected graduation date. For example, if a student intends to complete degree requirements at the close of the Spring 2025 semester, the student should submit a graduation application in the Spring 2024 semester. After grades are certified for the final semester of enrollment, a final degree audit is completed by the Office of the Registrar and the degree is posted if all requirements are met by the student. Once the degree is posted, the transcript of a student's academic record at Columbia College Chicago will not be changed. Attendance at the commencement ceremony does not constitute degree completion or graduation. The college will not issue a student's diploma and official transcript cannot be issued until the student settles all financial obligations to the college. Columbia College Chicago will post the degree once all degree requirements are met, regardless of whether a graduation application was submitted for that particular semester. Students who wish to remain enrolled in classes after degree requirements are met must complete a new application for admission, either for a new degree program or as a non-degree seeking student

## **Assessment of the Graduation Fee**

Columbia College Chicago assesses a modest graduation fee to help defray the costs of graduation-related expenses. These include but are not limited to diploma printing and mailing, degree audit maintenance and evaluation, and commencement ceremony and regalia.

Degree-seeking undergraduate students are assessed the graduation fee once they have earned 90 total credits (senior level status). Second BA students are assessed the graduation fee once upon completion of the graduation application.

The \$175 graduation fee is nonrefundable.

#### Academic Distinction

##### **Dean's List**

Students are eligible for the Dean's List if they are full-time degree-seeking students (12 or more credits per semester) and have an earned grade point average of 3.75 or higher for the term. The Dean's List for each school of the college is posted at [colum.edu/registrar](http://colum.edu/registrar), and the Dean's List designation is reflected on the student's transcript.

##### **Graduation Cum Laude**

Students whose final cumulative grade point average is between 3.75 and 3.79 graduate cum laude (with praise).

Students whose grade point average is between 3.8 and 3.89 graduate magna cum laude (with high praise).

Students whose grade point average is 3.9 or higher graduate summa cum laude (with highest praise).

#### Academic Grievances

A student has the right to appeal academic decisions that affect his or her record at Columbia related to grade changes, attendance penalties, and incomplete grades.

##### **Academic Petitions**

Columbia College Chicago has established clear and reasonable academic requirements, and students must meet these requirements to remain in good academic standing. Under extraordinary and exceptional circumstances, the student may present a written petition to the dean of the appropriate school requesting an exception to a departmental academic requirement. Exceptions are made only on rare occasions and are based on the specific circumstances of the case at hand. A designated representative of the dean reviews the petition and determines whether an exception to an academic requirement is appropriate. That decision is final. For more information on academic petitions, see an academic advisor in the College Advising Center.

##### **Grade Changes**

Only an instructor can change a grade. The request for a grade change must be submitted by the end of the semester following the term for which the original grade was awarded. Both the department chair and the dean of the appropriate school must approve the change. If a grade change is approved, the student's Satisfactory Academic Progress will be re-evaluated.

##### **Procedures for Grade Grievance**

The faculty member and chair of the department in which the disputed grade was awarded resolve grade grievances. Every attempt should be made to resolve the grade grievance through consultations between the student and the instructor or among the student, instructor, and the department chair (or subject-area

coordinator when that person is charged with resolving grade grievances). In the event that these consultations fail to resolve the grievance, an appeal procedure is available to students. Appeal procedures require written documentation. All documents must be dated.

The grading and evaluation policies outlined in the course syllabus form the basis for resolution of all grade grievances.

- A grade grievance occurs when a student protests a grade awarded on the final grade roster. The grievance must be filed within three weeks of the student's receipt of the grade.
- Every grade grievance must be submitted in writing by the student to the instructor who awarded the grade. The student must copy the department chair when the original grievance is submitted to the instructor.
- The instructor will respond in writing to the student and send a copy to the department chair.
- If the response from the instructor is not satisfactory to the student, a written petition of appeal to the department chair (or, in some departments, to the subject-area coordinator, designated by the chair) must be submitted.
- The chair or coordinator will respond to the student's petition of appeal.
- If the decision of the chair or coordinator is unsatisfactory to the student, they may appeal to the dean of the appropriate school, whose decision over every substantive, procedural, or related issue shall be final and cannot be appealed.

Return to: Academic Policies

## **Directed Study Eligibility, Requirements and Process**

### **Eligibility and Requirements**

Undergraduate students may apply up to 16 credits of directed studies and/or independent projects toward graduation. Graduate students should consult their program director for limits on credits for directed studies and/or independent projects.

Students will devote a minimum of three hours of work per week for each credit awarded for the directed study (a total of 45 clock hours per semester per credit awarded). Thus, a three-credit course will entail an average of nine hours per week over 15 weeks.

Tuition will be charged at standard rates based on the number of credits for which the student is enrolled.

A directed study cover sheet must be completed and attached to the student's proposal. The cover sheet must be signed by a faculty advisor and the department chair prior to registration. Please see the process below.

### **Proposal**

The student must write a proposal describing the directed studies project. The written proposal should address the following:

- Learning objectives: What will the student learn as a result of the project? How should the student's project be evaluated?
- Activities and processes in which the student will engage.

- Final product(s)--such as a final paper, a business plan, an art work, a composition or performance--that will result from the project.
- Any material, equipment, or other resources the student will require.
- Any other specifications or criteria set by the faculty advisor for completion of the project.

## **Process**

The student must secure agreement with a faculty member to serve as his or her advisor. The student may ask a particular faculty member or consult with the department chair for recommendations. Faculty members may, or may not, agree to act as an advisor at their own discretion. There is no guarantee that the student will be able to secure an advisor.

In consultation with his or her faculty advisor, the student must complete the directed study cover sheet and attach his or her proposal. See the Directed Study Cover Sheet for details.

The student submits his or her completed cover sheet, with the proposal attached, to his or her faculty advisor for review, approval and signature. The student leaves a copy of the proposal with his or her faculty advisor, and submits the cover sheet with the proposal attached to the department chair, or chair designee, for review and endorsement with signature.

Once the directed study is endorsed by the chair, the proposal will go to the dean's office for approval. The student will be notified via email if for any reason the proposal is not approved, or if the number of credits requested has been reduced. The form will then be sent to the Office of the Registrar, where a section record indicating the course number will be created and the student will be registered in the Directed Study.

Failure to meet the project objectives and requirements in the agreed upon time frame will result in a failing grade for the directed study.

## **Independent Projects Eligibility, Requirements and Process**

### **Eligibility and Requirements**

Undergraduate students who have completed at least 60 credits, including courses in progress, are eligible for independent projects. Graduate students should consult their program director for eligibility.

Undergraduate students may apply up to 16 credits of directed studies and/or independent projects toward graduation. Graduate students should consult their program director for credit limits.

Students will devote a minimum of three hours of work per week for each credit awarded for the independent project (a total of 45 clock hours per semester per credit awarded). Thus, a three-credit course will entail an average of nine hours per week over 15 weeks.

Tuition will be charged at standard rates based on the number of credits for which the student is enrolled.

An independent project cover sheet must be completed and attached to the student's proposal. The cover sheet must be signed by a faculty advisor, the department chair, and the associate dean prior to registration.

## **Proposal**

Students must submit a written proposal describing the independent project. A written proposal for the independent project should address the following:

- Learning objectives: What will the student have learned as a result of the project? How should the project be evaluated?
- Activities and processes in which the student will engage.
- Final product(s)--such as a final paper, a business plan, an art work, a composition or performance--that will result from the project.
- Any material, equipment, or other resources the student will require.
- Any other specifications or criteria set by the faculty advisor for completion of the project.

## **Process**

The student must secure agreement with a faculty member to serve as his or her advisor. The student may ask a particular faculty member or consult with the department chair for recommendations. Faculty members may, or may not, agree to act as the advisor at their own discretion. There is no guarantee that the student will be able to secure an advisor.

In consultation with the faculty advisor, the student must complete the independent projects cover sheet and attach their proposal. See the Independent Project Cover Sheet for details.

The student submits the completed cover sheet with proposal attached to his or her faculty advisor for review, approval and signature. The student leaves a copy of the proposal with his or her faculty advisor and submits the cover sheet with proposal attached to the department chair, or chair designee, for review and endorsement with signature.

Once the independent project is endorsed by the chair, the proposal will go to the dean's office for approval. The student will be notified via email if for any reason the proposal is not approved or if the number of credits requested has been reduced. The form will then be sent to the Office of the Registrar where a section record indicating the course number will be created, and the student will be registered in the class.

Failure to meet the project objectives and requirements in the agreed upon time frame will result in a failing grade for the independent project.

## **Courses**

As a reminder, all courses have been renumbered beginning with the Fall 2018 semester. Click on Course Number Look-up Tool.

**ACON 315 Furniture, Wood Objects, and Gilding Conservation: Study in Florence, Italy**

## **Majors and Programs**

Columbia College Chicago's curriculum provides educational opportunities in the arts, communication, and public information fields within the context of a liberal arts education. Course offerings in major subject areas combine conceptual study with practical application, resulting in realistic career preparation.

To balance their professional education, undergraduate students take a range of courses selected from the Liberal Arts and Sciences Core Curriculum (LAS Core). Students select courses in social sciences, humanities, languages, English, science, mathematics, and history. These courses play an essential role for students in the arts and media by integrating their technical expertise with a broader spectrum of knowledge reflected in the cultural history of societies and by providing a basis for life-long learning.

Undergraduate students may elect to chart a fully individualized interdisciplinary course of study that is not among those offered as a major at Columbia. An interdisciplinary major provides a formally recognized and well-advised program that meets student-defined career and academic goals within a selection of courses from the LAS Core and major-granting departments or programs. For more information, contact the College Advising Center.

## **Bachelor of Arts**

### **Acting, BA**

The Bachelor of Arts in Acting teaches students advanced performance technique and acting practice to prepare them to compete for work after graduation. An integrated immersion course, Theatre Foundation, will develop students' kinesthetic awareness as well as their observational skills and ability to respond to their experience of the world in written, visual, vocal, and physical form. This course also lays the groundwork for the rest of the Acting curriculum. The BA offers training in voice, movement, scene study, ensemble, and a variety of acting styles, including heightened languages and physical approaches.

There are opportunities to collaborate as performers with the Cinema and Television Arts Department as well as study abroad prospects with international theatre programs. Acting students are expected to perform in a minimum of one departmental production prior to graduation. The recommendation is that they will do much more. Acting majors are encouraged to take advantage of the specialized classes we offer to enhance their artistry and marketability upon graduation. The department also provides Acting students in their senior year the opportunity to audition for Senior Showcase, a platform for entry into the professional theatre community.

As a result of successfully completing program requirements, students should be able to:

- demonstrate competence in the performance techniques necessary to fully inhabit any role in which they are cast;
- demonstrate a broad understanding of theatre as an art and craft as well as practical knowledge of the ways that acting intersects with other aspects of the field;
- select, rehearse, and perform scenes and monologues in a variety of media as part of creative processes and in preparation for auditions;
- utilize the body and voice as the actor's instruments of communication;
- integrate theory, process, and text analysis in relation to performance; and
- integrate techniques and skills developed through participation in theatre exercises, games, and improvisations with the preparation of scripted scenes.

## **PROGRAM REQUIREMENTS - 48 credits required**

### **THEA 106 Theatre Survey I: Global Drama**

This course is designed to introduce students to dramas - across history and cultures - that have influenced major trends in theatre. In doing so, students will engage a range of dramatic texts from classical and contemporary dramas to adaptations and revisions of canonical works. Students will study and discuss a

sampling of plays that exemplify an array of genres and forms resulting in the student's ability to make connections between a text's form and its context.

**Repeatable:** *N*

**Minimum Credits 2 Maximum Credits 2**

### **THEA 107 Theatre Survey II: American Drama**

The American theatre both reflects and creates American identity. This course will examine plays from the mid-nineteenth century through the present day to investigate the ways that Americans participated in the construction, and deconstruction, of Americans' sense of self. Rather than a complete review of American drama, this course will survey a range of content, form, and styles as they define American drama and American identity.

**Repeatable:** *N*

**Prerequisites** THEA 106 Theatre Survey I: Global Drama or THEA 124 Comedy Survey I or THEA 141 Musical Theatre Foundations

**Minimum Credits 2 Maximum Credits 2**

### **THEA 111 Theatre Foundation I: Theatre Making**

Theatre Foundation I: Theatre Making invites incoming students into their role as creative practitioners. Students investigate the elements and principles of artistic process that can be applied to all aspects of theatre making. The course develops students' awareness, observation and collaborative skills, and their ability to transpose experiences in the world into visual, written, vocal and physical form. Readings, composition work in class and attendance at Columbia College Chicago productions and in the city of Chicago deepens students' understanding and appreciation of the scope of contemporary theatre making practices.

**Repeatable:** *N*

**Formerly** 31-1251

**Concurrent Requisite** THEA 106 Theatre Survey I: Global Drama

**Minimum Credits 4 Maximum Credits 4**

### **THEA 112 Theatre Foundation II: Performance**

In Theatre Foundation II: Performance students will explore presence, the audience/performer relationship and how to shape time, space and energy in work with scripted and devised material. This course is a continuation of Theatre Foundation I and provides a strong foundation for the performer through an integrated study of movement and voice, ensemble and performance. Students will investigate dramatic story telling by exploring the relationship between text and character and in working on monologues and two person scenes.

**Repeatable:** *N*

**Formerly** 31-1252

**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making or THEA 120 Comedy Foundations I: Ensemble and Discovery or THEA 141 Musical Theatre Foundations

**Concurrent Requisite** THEA 107 Theatre Survey II: American Drama

**Minimum Credits 4 Maximum Credits 4**

### **THEA 202 Traditions of World Theatre**

This course will survey the dramas, history, and aesthetics of performance traditions from various locations around the world including Africa, Asia, Latin America, and the West (United States and Europe), emphasizing important developments and highlighting pivotal movements and participants within their broader historical, social, and cultural contexts. Through an examination of theatrical forms, expressive styles, and contributions of performance traditions from around the world, students will become acquainted with how theatre reflects and constitutes community and culture.

**Repeatable:** *N*

**Formerly** 31-2103

**HU DEI**

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

### **THEA 203 Voice for the Actor**

This course teaches the practice of healthy vocal use by exploring the processes of speech production. Knowledge of the basic anatomy of the breathing musculature and vocal mechanism will support the student actor's developing technique. Particular attention will be paid to freeing both the body and voice from over-effort. The speech sounds of the General American English dialect will be introduced as a tool for students to develop energy and clarity in articulating thought. Students will build their palette of vocal expression through the use of dramatic text.

**Repeatable:** *N*

**Formerly** 31-2300

**Prerequisites** THEA 103 Voice for Non-Theatre Majors and THEA 101 Acting Basic Skills for Non-Acting Majors or THEA 112 Theatre Foundation II: Performance

**Minimum Credits 3 Maximum Credits 3**

### **THEA 204 Movement for the Actor**

Students continue the study of the actor's physical instrument. Working as an ensemble and through personal practice outside of class, students expand physical strength and stability, and the interconnection of voice and body, emotion and body, mind and body.

**Repeatable:** *N*

**Formerly** 31-2305

**Prerequisites** THEA 112 Theatre Foundation II: Performance

**Minimum Credits 3 Maximum Credits 3**

### **THEA 205 Text Analysis**

This course introduces students to varying methods and approaches to script analysis. While students will become familiar with traditional methods of analysis, a significant emphasis will be placed on alternative and complementary methods including contemplation and intuitive responses, visualization and imagery, and somatic responses to play scripts. Through course readings, presentations, and group activities, furthermore, this course will familiarize students with vocabulary and strategies of analysis for actors, designers, and playwrights, thereby facilitating communication of production ideas.

**Repeatable:** *N*

**Formerly** 31-2120

**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making and ENGL 112 Writing and Rhetoric II or

THEA 111 Theatre Foundation I: Theatre Making and ENGL 112H Writing and Rhetoric II: Honors or THEA 111 Theatre Foundation I: Theatre Making and ENGL 122 International Writing and Rhetoric II or THEA 141 Musical Theatre Foundations and ENGL 112 Writing and Rhetoric II or THEA 141 Musical Theatre Foundations and ENGL 112H Writing and Rhetoric II: Honors or THEA 141 Musical Theatre Foundations and ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

## **THEA 207 Scenes: Performance & Analysis**

Students take an active and creative role in analyzing and rehearsing scenes for performance. Students are encouraged to make choices that explore the text in the current cultural moment, but also to analyze the given circumstances embedded in the text. The integration of physical and vocal technique into performance continues from previous course work. Students will present scenes for live and on-camera performance.

**Repeatable:** *N*

**Formerly** 31-2200

**Prerequisites** THEA 112 Theatre Foundation II: Performance or THEA 125 Comedy Survey II or THEA 103 Voice for Non-Theatre Majors and THEA 102 Scene Study for Non-Theatre Majors

**Minimum Credits 3 Maximum Credits 3**

## **THEA 250 Character & Ensemble**

Students analyze the shifting alliances and conflicts that occur in scenes between three or more characters. This analytical work is explored in the context of heightened give and take, awareness, concentration and focus demanded in a more populated stage space. Students are encouraged to make active, transformative choices in physical and vocal technique, and are expected to take responsibility for memorization, preparation and reflection that is essential to the actor's discipline. Students will present scenes for live and on-camera performance.

**Repeatable:** *N*

**Formerly** 31-2205

**Prerequisites** THEA 207 Scenes: Performance & Analysis and THEA 203 Voice for the Actor and THEA 205 Text Analysis or THEA 240 Musical Theatre Scene Study and THEA 203 Voice for the Actor and THEA 205 Text Analysis

**Minimum Credits 4 Maximum Credits 4**

## **THEA 322 Voice and Text**

This course explores the intersection of vocal technique and imagination in creating dynamic acting choices specifically through the use of language. Students will practice skillful application of vocal technique to a wide range of performance texts, while learning to build vocal strength, energy, stamina, and flexibility. Students will investigate structure, rhythm, image, argument, sound and sense in performing a variety of dramatic and poetic texts. A written component of the course requires students to reflect critically on the use of vocal technique in performance.

**Repeatable:** *Y*

**Formerly** 31-3300

**Prerequisites** THEA 205 Text Analysis and THEA 207 Scenes: Performance & Analysis and THEA 203 Voice for the Actor

**Minimum Credits 3 Maximum Credits 3**

## **THEA 390 Theatre Career**

This course will provide upper level Theatre majors with practical knowledge they will need to transition into careers in their field. Taught by our faculty of theatre professionals, this course explores: unions and contracts as they relate to theatre artists; models of producing: from the storefront theatre to LORT; creating a new theatre company; and self-promotion.

**Repeatable:** N

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 1 Maximum Credits 1**

*Choose one of the following courses:*

### **THEA 133A Makeup Techniques:**

This character makeup techniques course focuses on makeup vocabulary, materials, tools, and skills suitable for a variety of media. Research, discussion, and demonstration combine with hands-on experience to develop student skills in painting, color mixing, blending, and contouring. Topics of skin care, color theory, lighting concerns, and the development of a makeup kit are covered.

**Repeatable:** Y

**Formerly** THEA 133

**Minimum Credits 3 Maximum Credits 3**

### **THEA 133B Makeup Techniques:**

This fashion and beauty makeup techniques course focuses on makeup vocabulary, materials/tools, and skills suitable for incorporation into a wide variety of media types. Research, discussion, demonstrations, and materials acquisition/experimentation combine with hands-on experience to develop the student's painting, color mixing and blending, and contouring skills. Respect for skin care, color theory, lighting concerns, and makeup kits for the makeup artist, performer, and hobbyist alike are covered.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

### **THEA 135 Introduction to Basic Makeup**

This short course covers a brief introduction to the most common makeup applications known as the "no-makeup look" & "Corrective" techniques. Focus is geared towards skin care & appropriate color choices to match &/or enhance the student's skin tone & appearance. Introductory vocabulary & Designer/Performer communications; materials appreciation & acquisition; & painting/contouring skills will be covered through discussion, demonstrations, & hands-on experience. This course will introduce the performer, budding designer &/or hobbyist alike to feel comfortable utilizing these simplified techniques as needed. For more in-depth makeup techniques/designs, consider one of other course offerings.

**Repeatable:** N

**Formerly** 31-1605

**Minimum Credits 1 Maximum Credits 1**

*Choose one of the following courses:*

### **THEA 150 Prod Tech: Crew**

This course requires that students work as backstage crew for Theatre Department productions. Students gain understanding of behind-the-scenes labor that supports on-stage performance. Participants also get the opportunity to observe nuance and change in live performance as it occurs over several performances. Moderate yet flexible evening and weekend time is required outside of class.

**Repeatable:** N

**Formerly** 31-1500

**Minimum Credits 1 Maximum Credits 1**

### **THEA 151 Prod Tech: Stagecraft for Actors**

This course introduces students, through lecture and demonstration, to the fundamentals of theatrical scenic and costume construction, the technical aspects of stage lighting and sound, and the industry standard vocabulary of technical theatre.

**Repeatable:** N

**Formerly** 31-1505

**Minimum Credits 1 Maximum Credits 1**

### **THEA 228 Design/Tech Practicum**

This course enables students to work on productions within the department under faculty and staff supervision. Students may repeat the course three times. This course allows the student to acquire the practical skills used in the various shops of the Department.

**Repeatable:** Y

**Formerly** 31-2523

**Prerequisites** THEA 163 Introduction to Costume Construction or THEA 161 Introduction to Scenic Construction or THEA 133A Makeup Techniques: or THEA 235 Makeup Design or THEA 164 Introduction to Lighting Technologies

**Minimum Credits 1 Maximum Credits 1**

*Choose one of the following courses:*

### **THEA 168 Playwriting I**

This course is an introduction to the basic techniques of playwriting from concept to completion. Students will learn basic play structuring, character development, conflict heightening, play synopsis, and script formatting while writing scenes, ten-minute plays, and one-act plays which are all read aloud as table-readings in class.

**Repeatable:** N

**Formerly** 31-2800

**Minimum Credits 3 Maximum Credits 3**

### **THEA 266 Directing I**

This course focuses on process through which one approaches a play from a directorial point of view. Students read and discuss five plays and direct scenes from two or three of them. Students create prompt books for their scenes.

**Repeatable:** N

**Formerly** 31-2700

**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making and ENGL 112 Writing and Rhetoric II or THEA 111 Theatre Foundation I: Theatre Making and ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II and THEA 111 Theatre Foundation I: Theatre Making

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits** 3 **Maximum Credits** 3

*Complete 1 credit from the following courses:*

## **THEA 285 Creating a Performance**

This course is required for all students that are chosen to rehearse, design and perform a main stage production of the Theatre department. The ensemble will include design, production, and acting members. Each will work as a specialist within their area of concentration, but also as an ensemble member who will seek and give input outside the area of their growing expertise. Students will use collaborative models appropriate to the involvement required at different stages of creative and practical performance development.

**Repeatable:** Y

**Formerly** 31-2960

**Requirements** Permission Required (DP)

**Minimum Credits** 3 **Maximum Credits** 3

## **THEA 286 Production and Performance**

Creative participation as a performer, designer, technician or crew member in Student Directing Projects, New Stew Showcases, Comedy or Faculty Workshop, or other department performances.

**Repeatable:** Y

**Formerly** 31-2301

**Requirements** Permission Required (DP)

**Minimum Credits** 0 **Maximum Credits** 2

*Choose two of the following courses:*

## **THEA 301 Advanced Acting: Heightened Languages**

Students will develop performance and analytical skills demanded by texts with heightened language. Emphasis will be placed on how heightened language supports acting choices, and on physical engagement with the text through breath, resonance and the tactile feel of language. Students will research and perform texts from a wide spectrum of cultural, economic and social diversity. This is an advanced acting class that synthesizes learning from previous classes in text analysis, theater history, scene study and vocal and physical training.

**Repeatable:** N

**Formerly** 31-3204

**Prerequisites** THEA 250 Character & Ensemble and THEA 143 Musical Theatre Dance I or THEA 204 Movement for the Actor and THEA 250 Character & Ensemble

**Minimum Credits** 3 **Maximum Credits** 3

## **THEA 302 Advanced Acting: Physical Approaches**

Students will develop performance and devising skills that are based in the physicality of the actor. Emphasis will be on different physical approaches that investigate impulse, energy, 'spine' and the kinesthetic relationship between performers. Students will research and explore performance representing a wide spectrum of cultural, economic and social diversity. This is an advanced acting class that synthesizes learning from previous classes in text analysis, theater history, scene study and vocal and physical training.

**Repeatable:** *N*

**Formerly** 31-3200

**Prerequisites** THEA 250 Character & Ensemble and THEA 143 Musical Theatre Dance I or THEA 250 Character & Ensemble and THEA 204 Movement for the Actor

**Minimum Credits 3 Maximum Credits 3**

### **THEA 304 Advanced Acting: On-Camera Performance**

Students develop the skills, terminology and etiquette for performance in the on-camera environment. This combined class works with television and/or film directors to collaborate in rehearsal, performance, capture and post-production processes. Students learn how to prepare for auditions and on-camera performances by taking an active role shaping their own performances in relation to text, character, presentation and performance context. Students also consider how to be compositional 'within the frame', how to maintain continuity, and how to make discoveries from take to take.

**Repeatable:** *N*

**Prerequisites** THEA 250 Character & Ensemble

**Minimum Credits 3 Maximum Credits 3**

### **THEA 305 Advanced Acting: Realism**

Students will develop their performance skills and experience with the stylistic concepts of realism and naturalism. Emphasis is placed on the work the performer must do to activate the text and explore relationships between characters. The audience/performance relationship associated with realism will be considered. Students will research and perform texts from a wide spectrum of cultural, economic and social perspectives. This is an advanced acting class that combines learning from previous classes in text analysis, theater history, scene study and vocal and physical training.

**Repeatable:** *N*

**Prerequisites** THEA 250 Character & Ensemble and THEA 204 Movement for the Actor or THEA 250 Character & Ensemble and THEA 143 Musical Theatre Dance I

**Minimum Credits 3 Maximum Credits 3**

### **THEA 306 Advanced Acting: Presentational Theatre**

Students will develop their skills and experience with performance styles from a range of theatrical periods and playwrights focusing on absurd, expressionistic, political, surrealistic and current dramatic styles in which the performer acknowledges the act of performance. The audience/performance relationship will be widely explored. Students will research and perform texts from a wide spectrum of cultural, economic and social perspectives. This is an advanced acting class that combines learning from previous classes in text analysis, theater history, scene study and vocal and physical training.

**Repeatable:** *N*

**Formerly** 31-3228

**Prerequisites** THEA 250 Character & Ensemble and THEA 204 Movement for the Actor or THEA 250

Character & Ensemble and THEA 143 Musical Theatre Dance I

**Minimum Credits 3 Maximum Credits 3**

### **THEA 307 Advanced Acting: Comedic Performance**

Students will develop their performance skills and experience with a variety of comedic materials from a range of theatrical periods and playwrights. Emphasis will be placed on the creative exploration of comedy through language, physicality and relationship. Cultural considerations about comedy will be investigated. Students will research and perform texts from a wide spectrum of cultural, economic and social perspectives. This is an advanced acting class that synthesizes learning from previous classes in text analysis, theater history, scene study and vocal and physical training.

**Repeatable:** *N*

**Prerequisites** THEA 250 Character & Ensemble and THEA 204 Movement for the Actor or THEA 250 Character & Ensemble and THEA 143 Musical Theatre Dance I

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

### **THEA 389 An Actor's Guide to Hollywood**

This course is designed to give students a practical and applicable experience toward pursuing a career as a film or television actor in Los Angeles. It is a highly competitive business, and the actor who is prepared to face these challenges has a much better chance of succeeding. Meeting in Los Angeles, this course will provide an intensive, hands-on experience, meeting with some of the best LA has to offer. Classes will consist of lectures, demonstrations, off-campus field trips, Q&A sessions, and performance.

**Repeatable:** *N*

**Formerly** 31-3975L

**Requirements** Permission Required (DP)

**Minimum Credits 2 Maximum Credits 2**

### **THEA 420 Professional Survival and How to Audition**

Course examines techniques of self-promotion; knowledge of talent agencies and casting directors; unions, contracts, and bookkeeping for performers; and opportunities in the local market. Students work on monologues and cold readings for auditions. Course assists acting students making the transition from college to career by providing professional survival information, tools, and techniques. Students with an Acting concentration are required to take this course during their senior year.

**Repeatable:** *N*

**Formerly** 31-3900

**Prerequisites** THEA 250 Character & Ensemble or THEA 340 Scenes and Songs

**Minimum Credits 3 Maximum Credits 3**

### **THEA 485 Audition Workshop**

This course is an intensive workshop and feedback session to support the BA Acting candidates' entry into the profession. The content of individual sessions will target and assess the actor's present audition skills in a variety of performance styles: improvisation, physical theatre, musical theatre, cold readings, monologues, on-camera technique, etc. Department faculty will partner with professionals from the theatre community to participate in these sessions and guide the performers to hone their skills for auditioning professionally.

**Repeatable:** *N*

**Formerly** 31-3925

**Prerequisites** THEA 302 Advanced Acting: Physical Approaches or THEA 301 Advanced Acting: Heightened Languages

**Minimum Credits 1 Maximum Credits 1**

## Advertising, BA

As a Columbia advertising major, you will not only learn advertising theory but also apply it to create campaigns for real clients and businesses. Advertising is an in-demand field in need of creatives with broad skill sets. Whether you're a future art director, copywriter, or strategist, you'll discover your ideal career pathway as you work alongside faculty members who have helped create campaigns for many of the most recognizable global brands. As you prepare for a successful career, this hands-on approach will help you build your portfolio of work to showcase your accomplishments and distinguish yourself from other graduates.

As a result of successfully completing program requirements, students will be able to:

- apply leading theories and articulate the key concepts and strategies commonly used across marketing communication disciplines;
- evaluate the effectiveness of creative solutions for key target audiences by using current and emerging communication platforms;
- produce advertising solutions that are relevant, competitively distinct, effective, and culturally responsive;
- constructively collaborate within teams that reflect diversity and inclusion to produce an effective advertising solution;
- evaluate the social, ethical, and legal implications of proposed advertising strategic and tactical decisions; and
- demonstrate the skills required for obtaining a professional, entry-level position within advertising through the preparation and presentation of professional-quality work.

## PROGRAM REQUIREMENTS - 40 credits required

### ADVE 101 Advertising Principles

This course explores advertising in emerging arenas including digital, mobile, native and social media, and more traditional venues such as television and magazines. Advertising is explored as an interdisciplinary business that brings together designers, art directors, photographers, creative writers, filmmakers, and others. The first half of the course is dedicated to advertising terminology and various concepts, while the second half focuses on developing effective creative strategy and a cross-platform campaign.

**Repeatable:** *N*

**Formerly** 54-1600

**Minimum Credits 3 Maximum Credits 3**

### ADVE 120 Consumer Behavior

Course explores the relationship between conscious and unconscious factors influencing many different consumers and examines the need, structure, and interaction with planned communication messages. Survey course gives students insight into the reasons the various disciplines of communication work, using

basic readings in the psychology of perception and attitude formation.

**Repeatable:** *N*

**Formerly** 54-1601

**Minimum Credits 3 Maximum Credits 3**

## **ADVE 220 Concepting I: The Big Idea**

This course teaches students to develop concepts (including copy) for campaigns targeting consumer audiences. Focused on writing campaigns to be featured in print, broadcast, outdoor, and digital media. The course teaches the elements of style and creativity, relevant communication techniques, and the basics of how commercial messages are constructed.

**Repeatable:** *N*

**Formerly** 54-2606

**Prerequisites** ADVE 101 Advertising Principles or COMM 203 Social Media Strategy

**Minimum Credits 3 Maximum Credits 3**

## **ADVE 245 Advertising Production**

Course allows students to practice the skills needed to plan, produce, and pitch multi-platform advertising campaigns consistent with today's evolving landscape. Students will create innovative concepts for digital advertising (programmatic ads, pre-roll, mobile video, interactive out of home and more) based on a creative brief, reflecting a clear understanding of diverse cultural perspectives. Ultimately, students will learn production planning, execution and film multiple projects.

**Repeatable:** *N*

**Formerly** 54-2602

**Prerequisites** ADVE 220 Concepting I: The Big Idea or COMM 219 Social Media Content

**Minimum Credits 3 Maximum Credits 3**

## **ADVE 280 Advertising Workshop**

This portfolio-building hands-on course is a great way for mid level students interested in advertising and ad minors from allied fields (filmmaking, TV, creative writing, photography, design, marketing, etc.) to create a comprehensive ad plan answering a creative brand problem. Students' final product is a formal presentation and ad plan, complete with research, strategy, produced creative concepts, and media recommendations.

**Repeatable:** *N*

**Formerly** 54-2601

**Prerequisites** ADVE 101 Advertising Principles

**Minimum Credits 3 Maximum Credits 3**

## **ADVE 320 Copywriting**

Course continues the study of relevant communication techniques, elements of style, and creativity in writing copy. Students deepen their concept development and copywriting skills for print ads, websites, online ads, mobile apps, commercials, social media, native ads, and other mediums.

**Repeatable:** *N*

**Formerly** 54-3650

**Prerequisites** ADVE 220 Concepting I: The Big Idea  
**Minimum Credits 3 Maximum Credits 3**

### **ADVE 325 Concepting II: CW/AD Teams**

Offered jointly by the Design Department and the Communication Department, this course teaches students to work in copywriter/art director teams to develop advertising campaigns. Reflecting standard advertising agency practice, this course sensitizes students to the interdisciplinary nature of the creative process.

**Repeatable:** N

**Formerly** 54-3603

**Prerequisites** ADVE 220 Concepting I: The Big Idea

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **ADVE 340 Brand Strategy**

This course introduces account planning as the discipline responsible for leveraging consumer insights into powerful and differentiating communication strategies. The class emphasizes using consumer research in the context of strategic brand management. And the course examines the essential features of a consumer insight: what it is, how to get to it, and how to use it.

**Repeatable:** N

**Formerly** 54-3810

**Prerequisites** ADVE 120 Consumer Behavior

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **ADVE 420 Agency**

Students learn how to function in an advertising or public relations agency as a specialist (account management, creative, media, traffic, production) and as a member of an agency team. Students work with actual clients on real assignments, participate in client meetings, generate contact reports, conduct research, develop strategies, write media plans, ideate concepts, and produce tactical elements. Course culminates in the production of completed marketing campaign elements, enabling students to have published samples for their portfolios.

**Repeatable:** Y

**Formerly** 54-4978

**Minimum Credits 3 Maximum Credits 3**

### **ADVE 480 Campaign Practicum: Strategic Planning**

This is Semester One of a two-semester Capstone course that offers the ultimate hands-on approach to utilizing principles learned across the Advertising and PR curriculum. As part of the American Advertising Federation, students develop a strategic integrated campaign for a corporate client that includes advertising, marketing, and public relations. The two-semester course culminates at the National Student Advertising Competition, where students pitch the campaign before a review panel composed of advertising agency executives and other communications industry professionals. Interested students who do not meet the outlined prerequisites should contact the Communication department.

**Repeatable:** Y

**Formerly** 54-4605

**Prerequisites** ADVE 280 Advertising Workshop or PURE 220 PR Issues and Crisis

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

### **ADVE 492 Concepting III: Portfolio**

Course teaches students how to develop a professionally viable advertising campaign portfolio. Course culminates in the students' presentations of their portfolios before a review panel made up of advertising agency executives and professional recruiters. The final portfolio will have original, integrated campaigns, one-shot ideas, and non-traditional elements.

**Repeatable:** Y

**Formerly** 54-3604

**Prerequisites** ADVE 325 Concepting II: CW/AD Teams or ADVE 380 Account Exec & Brand Manager

**Minimum Credits** 3 **Maximum Credits** 3

### **ARTS 155 Foundation Skill: Digital Video Editing**

In this one-credit course students use editing software like Adobe Premier to create their own short, polished videos. Technical topics include media importing, digital file formats, effects, color correction, keyframing, compression schemes, export, and more. Lectures and screenings will touch upon essential editing techniques to demonstrate the "why" in addition to the "how."

**Repeatable:** Y

**Formerly** 22-1275

**Minimum Credits** 1 **Maximum Credits** 1

### **GRDE 136 Design Lab**

This course covers digital typesetting, layout, and image editing techniques for graphic design, illustration, and advertising. Topics covered include digital document construction and layout, typography formatting and specification, digital image editing, and application.

**Repeatable:** N

**Formerly** 21-1320

**Minimum Credits** 3 **Maximum Credits** 3

*Choose one of the following courses:*

### **ADVE 310 360 Experiential Campaigns**

Experiential communication is one of the hottest branded communication growth areas today. In fact, experiential agencies are growing at twice the rate of traditional agencies. This is not surprising, considering 96% of those experiencing a brand via an activity (digitally or in person) are more likely to buy the brand and share experiences. 360 experiential communication can build not only a brand's ROI, but its ROE (return on engagement) as well. This course will expose students to the very current best practices and also give students the opportunity to develop a strategically sound campaign for a brand (fashion, sports, causes, etc.) based on concrete objectives. This 360 experiential campaign course will not only include engagement driven events (on and off-line), but other critical 360 campaign arenas including: social media; content creation for YouTube, etc.; activation initiatives (e.g., contests, promotions, sampling, pop up shops, etc.); interactive advertising (i.e., location based mobile games) and more.

**Repeatable:** *N*

**Formerly** 54-3607

**Prerequisites** ADVE 101 Advertising Principles or PURE 102 Intro to Public Relations or COMM 203 Social Media Strategy

**Minimum Credits 3 Maximum Credits 3**

## **ADVE 342 Fashion Advertising**

This course exposes students to current best practices in fashion advertising. Students will not only analyze on-trend breakthrough fashion ad campaigns involving mobile, experiential, social media, augmented reality, etc.; they will also develop a 360 integrated campaign for a brand, to be presented to industry professionals. Enrolled students should have some foundational knowledge of the fashion and/or advertising industry as the course will move quickly into strategic considerations, conceptual thinking and campaign tactics. It is an ideal course for those interested in leading integrated 360 communication direction for a fashion brand.

**Repeatable:** *N*

**Formerly** 54-2400

**Prerequisites** ADVE 101 Advertising Principles or FASH 101 Intro to the Fashion Industry

**Minimum Credits 3 Maximum Credits 3**

## **ADVE 350 Retail Competition**

Course focuses on the National Retail Federation's Student Challenge competition, bringing together a select group of cross-disciplinary Fashion and Advertising students to create retail business & communication plans for a major retailer. Course deliverables include a 20-page business and communication plan as well as a 90-second video pitch suitable for inclusion in student portfolios. Consultations with industry professionals will also be a part of this course. The winning plan book and video pitch will be sent on to the National Retail Federation competition in October. If the student team makes the finals, the group is flown to NYC in January for the NRF's Big Show annual conference.

**Repeatable:** *N*

**Formerly** 54-3600

**Prerequisites** ADVE 280 Advertising Workshop

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

## **ADVE 371 Digital Media Planning**

Students create digital-first paid media communication solutions by identifying the right mix of digital advertising platforms, including social, mobile, search, video, digital display, non-digital platforms, and more. Students analyze media data, develop strategic insights, and create recommendations. The course involves media strategy, costing, scheduling, audience analysis, negotiation strategies, and programmatic buying. Students will learn professional resume-building and create a portfolio-ready, contemporary media plan.

**Repeatable:** *N*

**Formerly** 54-3102

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **Animation, BA**

The BA degree in Animation offers students several options and areas of study: hand drawn animation, computer animation, cinema visual effects, stop motion animation, alternative forms of animation (or a combination of any or all). It is designed for students who wish to continue to graduate studies and those with an interest in animation who have not yet committed to a career in that field.

As a result of successfully completing program requirements, students should be able to:

- demonstrate proficiencies in digital and computer-generated software and technology through the creation of animated projects;
- demonstrate a comprehension of history, aesthetics and the analytical context of animation in cinema through written, oral and animated presentations;
- employ a professional level of industry practices, standards and career strategies to successfully market and showcase their animated work; and
- create a professional quality animation portfolio demonstrating original cinematic material and a developed artistic voice.

## PROGRAM REQUIREMENTS - 48-51 credits required

### **ANIM 105 Introduction to Traditional Animation**

This course is an introduction to basic animation principles for students with little or no animation production experience. Students explore basic animation techniques including object, hand-drawn, stop-motion, and alternative animation styles. Animated films, both domestic and international, are screened and discussed. Students complete short exercises in each of the techniques mentioned and complete a final project employing a style of their choice that was previously explored during the semester.

**Repeatable:** *N*

**Formerly** 26-1000

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 106 History of Animation**

Course explores the origins of the animation process, beginning with animated films by J. Stewart Blackton, Emil Cohl, Len Lye, Winsor McCay, and many others through to present day productions. The lives and environments, as well as the artistic and narrative influences on these and other animators, will be dissected and studied. The class will involve weekly screenings of films and videos from around the world, including both independent and commercial, to get an understanding of where this art form has been and where it might be going. Emphasis will be on understanding the motivations and influences on animation artists, and how as contemporary animators you might benefit from studying them.

**Repeatable:** *N*

**Formerly** 26-1070

**Prerequisites** ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 201 Storyboarding for Animation**

Learn the art of visual storytelling for animation as a cinema art form. Draw digitally using industry-standard technologies and create a story reel for the final project; a movie comprised of all of storyboard panels

(which may include dialogue, music, and sound effects) timed out to reflect the actual pacing of the film.

**Repeatable:** N

**Formerly** 26-2040

**Prerequisites** ANIM 101 Animation Foundations or ANIM 105 Introduction to Traditional Animation

**Minimum Credits** 3 **Maximum Credits** 3

### **ANIM 340 The Business of Animated Content**

Course examines central business and legal matters associated with developing, producing and releasing animated content. Students will be introduced to basic business principles and production hierarchies for short and feature animated films including new technologies and the evolving convergent marketplace.

**Repeatable:** N

**Formerly** 26-3605

**Prerequisites** ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or ENGL 109 Writing and Rhetoric I Stretch B or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits** 3 **Maximum Credits** 3

### **ANIM 480 Animation Production Studio I**

This course is the first of two semesters in which students will be working collaboratively with classmates on a single project, the purpose of which is to simulate an actual production environment that they might face once having left academia. Each participant will be assigned a particular production role based on a portfolio review at the beginning of the class in which each student will be asked to share portfolio work from previous classes with the executive producer (the instructor) and fellow classmates. This first semester of pre-production includes screenplay, design of characters and backgrounds, storyboards, recording of vocal talent, and completion of a story reel.

**Repeatable:** Y

**Formerly** 26-4085

**Prerequisites** ANIM 210 Drawing for Animation I or ANIM 350 Computer Animation: Keyframing II or ANIM 351 Environmental Design & Modeling or ANIM 352 Character Design and Modeling

**Requirements** Senior Standing (SR)

**Minimum Credits** 6 **Maximum Credits** 6

### **ANIM 481 Animation Production Studio II**

In this course students continue working on the project started in Animation Production Studio I. This class is primarily devoted to production and post-production, with the students embarking on traditional and/or computer animation production, generating visual effects, and working with a sound designer and composer. The goal of this course is to complete production and screen the film by the end of the semester.

**Repeatable:** Y

**Formerly** 26-4090

**Prerequisites** ANIM 480 Animation Production Studio I

**Requirements** Senior Standing (SR)

**Minimum Credits** 6 **Maximum Credits** 6

### **ANIM 485 Animation Portfolio Development**

Course will help students prepare for work in the field of animation by providing weekly insight and guidance as they develop a working portfolio, resume, and video/DVD with work they've completed. In addition to weekly in-class work, several professional animation studio student recruiters will come to campus throughout the 15-week class to present portfolio examples and discuss the field. They will meet with each of the students one on one to discuss their particular situation and to give them their advice and direction.

**Repeatable:** Y

**Formerly** 26-4048

**Prerequisites** ANIM 480 Animation Production Studio I

**Requirements** Senior Standing (SR)

**Minimum Credits** 3 **Maximum Credits** 3

## CONCENTRATIONS

### Computer Animation

#### **ANIM 150 Computer Animation: Keyframing I**

This course establishes a beginning understanding of computer-generated (CG) keyframing via object and camera keyframing using industry standard software application. Further animation assignments focus on an intermediate level of character animation through a provided CG character and rig.

**Repeatable:** N

**Formerly** 26-1015

**Minimum Credits** 3 **Maximum Credits** 3

#### **GAME 201 Computer Animation: Modeling**

This course covers basic principles and language of three-dimensional (3D) modeling and animation utilizing industry standard software. Lectures cover the language and applications of these tools for use in the game, animation and film industries. By the completion of this course, students construct a series of sophisticated beginner level character and environment model 3D assets for their 3D portfolio. This course is suitable for students with little to no prior experience in 3D modeling or digital design.

**Repeatable:** N

**Formerly** 36-2370

**Minimum Credits** 3 **Maximum Credits** 3

*Choose one of the following courses:*

#### **ANIM 121 Stop-Motion Animation**

Course provides a basic understanding of three-dimensional animation using armatures, puppets, and objects. With the use of a Video Lunchbox, students will investigate the nature of human movement, and cover topics such as timing, weight, exaggeration, composition, lighting, and narrative approaches. Students will also become familiar with various materials and tools as you explore ways to create characters and simple scenery. A variety of stop-motion films, spanning a wide range of genres, will be viewed and discussed.

**Repeatable:** N

**Formerly** 26-1030

**Prerequisites** ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

## **ANIM 210 Drawing for Animation I**

Drawing-intensive course allows students to acquire an understanding of figurative human emotions and movements, enabling them to create believable animated characters. Students will create model sheets, learn the principles of animation, and learn how to endow your characters with believable actions and acting. Digital pencil testing will allow for the building of the animation from basic motion to more refined movements and emotion. Particular attention will be given to timing, layout, the creation of extreme drawings, and the process of inbetweening.

**Repeatable:** N

**Formerly** 26-2025

**Prerequisites** ANIM 101 Animation Foundations or ANIM 105 Introduction to Traditional Animation

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

## **ANIM 211 Alternative Strategies in Animation**

Course explores alternative approaches to the normally highly structured, technically oriented process of creating an animated film. Students will be expected to be curious and imaginative as they are introduced to unorthodox approaches including sand, pastels, drawing directly on film stock, paint-on-glass, and other techniques. Students will also view and discuss films created by non-mainstream artists/animators such as Len Lye, Norman McLaren, and others, which will introduce them to highly graphic and imaginative movement and messages.

**Repeatable:** N

**Formerly** 26-2028

**Prerequisites** ANIM 105 Introduction to Traditional Animation

**Minimum Credits 3 Maximum Credits 3**

## **ANIM 213 Animation Layout**

This course focuses on the layout process in animation production which is the creation of the monochromatic drawings which are later rendered as backgrounds for each shot. Students will strengthen their drawing skills by learning how to draw in proper perspective, understand lighting and shading principles. The layout process also teaches students how to block character animation within each shot and also understand how the camera functions within the action of each shot.

**Repeatable:** N

**Formerly** 26-2010

**Prerequisites** ANIM 201 Storyboarding for Animation

**Minimum Credits 3 Maximum Credits 3**

*Choose two of the following courses:*

## **ANIM 350 Computer Animation: Keyframing II**

Course will expand upon the skills and concepts introduced in ANIM 150 Computer Animation: Keyframing I. Using current computer animation software, students will be introduced to advanced concepts and techniques using inverse kinematics/forward kinematics, dynamics, and simulations. Using MEL scripts for animation will also be covered. A series of short exercises will ensure that students understand these skills and techniques as the class progresses. A final project will encourage students to exhibit these acquired skills.

**Repeatable:** Y

**Formerly** 26-3046

**Prerequisites** ANIM 150 Computer Animation: Keyframing I

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 351 Environmental Design & Modeling**

Course emphasizes the design and technical ability needed to model non-character 3-D objects. Students will be introduced to level design, industrial design, and architectural terms and concepts. Using 3-D software, students will design and build environments, set dressing, and vehicles. Level of detail exercises will introduce the concept of polygon and image budget creation. Exercises in stand-alone software packages will teach advanced texture/mapping.

**Repeatable:** Y

**Formerly** 26-3082

**Prerequisites** GAME 201 Computer Animation: Modeling or ANIM 240 Computer Animation

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 352 Character Design and Modeling**

Course emphasizes the design and technical ability needed to model 3-D characters. Students will be introduced to design, sculpting, and anatomical terms and concepts. Using 3-D software, students will design and build characters and other organic models. Level of detail exercises will introduce the concept of polygon and image budgets. Exercises in stand-alone software packages will teach advanced texture mapping.

**Repeatable:** Y

**Formerly** 26-3086

**Prerequisites** GAME 201 Computer Animation: Modeling or ANIM 240 Computer Animation

**Minimum Credits 3 Maximum Credits 3**

*Complete 6 credits from the following courses:*

### **ANIM 311 Acting For Animators**

This course, recommended for both Traditional and Computer Animation students, focuses on acting techniques for animators exploring the similarities and differences of stage and screen acting. Students will learn acting techniques through physical and emotional acting exercises in addition to viewing scenes from a variety of live action and animated films. Focus of this class is exploring the emotional feelings of characters which lead to their physical movement. Animation assignments include creating a performance with a CG rig (for Computer Animation Students) and hand-drawn character animation (for Traditional Animation Students).

**Repeatable:** N

**Formerly** 26-3050

**Prerequisites** ANIM 210 Drawing for Animation I or ANIM 240 Computer Animation or ANIM 121 Stop-

Motion Animation

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 332 Animation for Comics**

An examination of Limited Animation practices detailing core principles, practices, methodologies and movements for online and broadcast comic book programming.

**Repeatable:** *N*

**Formerly** 26-3010

**Prerequisites** INMD 240 Story Development for Interactive Media or RAD1 205 Writing for Radio or RAD1 339 Voice Acting for Animation or ANIM 105 Introduction to Traditional Animation or ANIM 263 CVFX: Compositing I

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 365 Computer Animation: Visual Effects**

This course introduces the advanced Computer Animation Concentration student to the visual effects process of integrating computer-generated elements with live action footage. Early assignments integrate pre-existing computer generated elements with live action content. Subsequent assignments introduce advanced texture-mapping, rendering and camera tracking techniques. The course concludes with the development of a solo visual effects sequence that combines idea generation, production strategy and advanced CG rendered objects, particles, effects and camera. Screening of film examples and a presentation assignment about the visual effects industry will underscore the aesthetic impact of CG elements in a live action film.

**Repeatable:** *N*

**Formerly** 26-3049

**Prerequisites** ANIM 150 Computer Animation: Keyframing I

**Minimum Credits 4 Maximum Credits 4**

### **ANIM 373A Advanced Topics in Computer Animation**

This course continues to refine and advance the aesthetic understanding and technical abilities needed in advanced Computer Generated (CG) animation through a series of rotating topics courses. Computer Animation software such as Autodesk's Maya will be used for classroom review, professional examples and student assignments.

**Repeatable:** *Y*

**Formerly** ANIM 373

**Prerequisites** ANIM 240 Computer Animation

**Minimum Credits 1 Maximum Credits 1**

### **ANIM 373B Advanced Topics in Computer Animation**

This course continues to refine and advance the aesthetic understanding and technical abilities needed in advanced Computer Generated (CG) animation through a series of rotating topics courses. Computer Animation software such as Autodesk's Maya will be used for classroom review, professional examples and student assignments.

**Repeatable:** *Y*

**Prerequisites** ANIM 240 Computer Animation

**Minimum Credits 1 Maximum Credits 1**

### **ANIM 373C Advanced Topics in Computer Animation**

This course continues to refine and advance the aesthetic understanding and technical abilities needed in advanced Computer Generated (CG) animation through a series of rotating topics courses. Computer Animation software such as Autodesk's Maya will be used for classroom review, professional examples and student assignments.

**Repeatable:** Y

**Prerequisites** ANIM 240 Computer Animation

**Minimum Credits 1 Maximum Credits 1**

### **ANIM 373D Advanced Topics in Computer Animation**

This course continues to refine and advance the aesthetic understanding and technical abilities needed in advanced Computer Generated (CG) animation through a series of rotating topics courses. Computer Animation software such as Autodesk's Maya will be used for classroom review, professional examples and student assignments.

**Repeatable:** Y

**Prerequisites** ANIM 240 Computer Animation

**Minimum Credits 1 Maximum Credits 1**

### **ANIM 382 Animation Preproduction**

In this course, students develop the stories for their animated thesis solo films required for the BFA degrees in both Traditional and Computer Animation. Students create storyboards and story reels, model sheets, explore art direction, timing, and various other aspects of preproduction that will lead to green-lighting the production of their films in either Traditional or Computer Animation Studio. Animation Preproduction & Story Development must be taken by both Traditional and Computer Animation students pursuing BFAs in their respective areas.

**Repeatable:** Y

**Formerly** 26-3051

**Prerequisites** ANIM 201 Storyboarding for Animation and ANIM 210 Drawing for Animation I or ANIM 201 Storyboarding for Animation and ANIM 240 Computer Animation

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 451 Advanced Character & Environmental Design**

Course continues to refine and advance the design and technical abilities needed to model 3D characters and non-character 3D objects. Using industry standard software for 3D modeling and advanced texture-mapping, students will design and build either characters or environments based on industry standards.

**Repeatable:** N

**Formerly** 26-4089

**Prerequisites** ANIM 352 Character Design and Modeling or ANIM 351 Environmental Design & Modeling

**Minimum Credits 3 Maximum Credits 3**

## **ANIM 482 Animation Solo Project**

After successfully completing Animation Preproduction and Computer Animation students enroll in this course to begin and subsequently complete production of their solo thesis films required for the BFA degree in Traditional and Computer Animation. Animation Solo Project is a repeatable course offering students sufficient time to complete production of their animated films.

**Repeatable:** Y

**Formerly** 26-4060

**Prerequisites** ANIM 382 Animation Preproduction

**Minimum Credits** 3 **Maximum Credits** 3

## **GAME 337 3D Digital Sculpting**

This course focuses on skills, techniques and concepts that pertain to 3D digital sculpting. In this class students learn how to concept, produce and present high quality 3d models created using specialized digital sculpting software.

**Repeatable:** Y

**Formerly** 36-3350

**Prerequisites** GAME 201 Computer Animation: Modeling

**Minimum Credits** 3 **Maximum Credits** 3

## **GAME 436 Advanced 3D Digital Sculpting**

Digital sculpting is a cornerstone of 3D content creation and concept art creation for games. This course serves as a way for students to create more thoughtfully considered content using digital sculpting processes. Students will learn how to sculpt a series of 3D concepts and then develop a concept into a fully realized, hyper realistic piece of content for a game. This goal will be achieved by using more involved retopology and normal mapping techniques to translate high resolution from high polygon meshes to optimized, low polygon game meshes that can be translated to a game engine.

**Repeatable:** N

**Formerly** 36-3750

**Prerequisites** GAME 337 3D Digital Sculpting

**Minimum Credits** 3 **Maximum Credits** 3

## **Traditional Animation (Hand Drawn Pathway)**

### **ANIM 210 Drawing for Animation I**

Drawing-intensive course allows students to acquire an understanding of figurative human emotions and movements, enabling them to create believable animated characters. Students will create model sheets, learn the principles of animation, and learn how to endow your characters with believable actions and acting. Digital pencil testing will allow for the building of the animation from basic motion to more refined movements and emotion. Particular attention will be given to timing, layout, the creation of extreme drawings, and the process of inbetweening.

**Repeatable:** N

**Formerly** 26-2025

**Prerequisites** ANIM 101 Animation Foundations or ANIM 105 Introduction to Traditional Animation  
**Minimum Credits 3 Maximum Credits 3**

### **ANIM 211 Alternative Strategies in Animation**

Course explores alternative approaches to the normally highly structured, technically oriented process of creating an animated film. Students will be expected to be curious and imaginative as they are introduced to unorthodox approaches including sand, pastels, drawing directly on film stock, paint-on-glass, and other techniques. Students will also view and discuss films created by non-mainstream artists/animators such as Len Lye, Norman McLaren, and others, which will introduce them to highly graphic and imaginative movement and messages.

**Repeatable:** *N*

**Formerly** 26-2028

**Prerequisites** ANIM 105 Introduction to Traditional Animation

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 213 Animation Layout**

This course focuses on the layout process in animation production which is the creation of the monochromatic drawings which are later rendered as backgrounds for each shot. Students will strengthen their drawing skills by learning how to draw in proper perspective, understand lighting and shading principles. The layout process also teaches students how to block character animation within each shot and also understand how the camera functions within the action of each shot.

**Repeatable:** *N*

**Formerly** 26-2010

**Prerequisites** ANIM 201 Storyboarding for Animation

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 310 Drawing for Animation II**

This course focuses on advanced character animation where students acquire the skills necessary to understand and communicate the emotions and intentions of a character. Exploring and communicating acting through their character's actions and movements, students apply the principles of classic animation learned in Drawing for Animation I (ANIM 210). Working from a dialogue track, students will learn lip-synching and adding personality and depth to their characters while continuing to develop their skills drawing and animating digitally using a stylus and tablet.

**Repeatable:** *N*

**Formerly** 26-3026

**Prerequisites** ANIM 210 Drawing for Animation I

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 330 Digital Animation Techniques: Ink, Paint & Composite**

Course introduces students to what has become the norm at most studios: digital ink and paint and compositing. Students will work with animated drawings created in Drawing for Animation I (ANIM 210), or create new drawings to scan, paint, and render with independent peg moves, using computers as the medium, creating a full-color 20-second piece of animation for a final project.

**Repeatable:** *Y*

**Formerly** 26-2075

**Prerequisites** ANIM 210 Drawing for Animation I

**Minimum Credits** 3 **Maximum Credits** 3

*Complete 6 credits from the following courses:*

### **ANIM 311 Acting For Animators**

This course, recommended for both Traditional and Computer Animation students, focuses on acting techniques for animators exploring the similarities and differences of stage and screen acting. Students will learn acting techniques through physical and emotional acting exercises in addition to viewing scenes from a variety of live action and animated films. Focus of this class is exploring the emotional feelings of characters which lead to their physical movement. Animation assignments include creating a performance with a CG rig (for Computer Animation Students) and hand-drawn character animation (for Traditional Animation Students).

**Repeatable:** N

**Formerly** 26-3050

**Prerequisites** ANIM 210 Drawing for Animation I or ANIM 240 Computer Animation or ANIM 121 Stop-Motion Animation

**Minimum Credits** 3 **Maximum Credits** 3

### **ANIM 331 Digital Animation Techniques Current 2D Trends**

Course introduces students to digital animation techniques and aesthetics currently used by traditional animators for professional productions. Students will apply fundamental animation principles learned in Drawing for Animation 1 (ANIM 210) and apply them using various techniques and software which may include Flash, Photoshop, and After Effects. Students learn to create paperless hand-drawn animation using a digital drawing tablet and computer, creating a short animated piece by the end of the semester.

**Repeatable:** N

**Formerly** 26-3047

**Prerequisites** ANIM 210 Drawing for Animation I

**Minimum Credits** 3 **Maximum Credits** 3

### **ANIM 370 Motion Graphics II**

Course teaches complex film and video compositing under tight deadlines using advanced high-end systems. Course emphasizes storyboarding and design as well as postproduction house protocols.

**Repeatable:** N

**Formerly** 24-2421

**Prerequisites** ANIM 270 Motion Graphics I or CINE 310 Cinema Models and Miniatures

**Minimum Credits** 3 **Maximum Credits** 3

### **ANIM 374A Advanced Topics in Traditional Animation**

This is an advanced topics course in traditional animation. Different sections of this course will focus on different topic areas related to Traditional Animation that are not taught in other classes. Please contact the department for specifics on the content of each topic.

**Repeatable:** Y

**Formerly** ANIM 374

**Prerequisites** ANIM 210 Drawing for Animation I

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 1 Maximum Credits 3**

### **ANIM 374B Advanced Topics in Traditional Animation**

This is an advanced topics course in traditional animation. Different sections of this course will focus on different topic areas related to Traditional Animation that are not taught in other classes. Please contact the department for specifics on the content of each topic.

**Repeatable:** Y

**Prerequisites** ANIM 210 Drawing for Animation I

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 1 Maximum Credits 3**

### **ANIM 374C Advanced Topics in Traditional Animation**

This is an advanced topics course in traditional animation. Different sections of this course will focus on different topic areas related to Traditional Animation that are not taught in other classes. Please contact the department for specifics on the content of each topic.

**Repeatable:** Y

**Prerequisites** ANIM 210 Drawing for Animation I

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 1 Maximum Credits 3**

### **ANIM 374D Advanced Topics in Traditional Animation**

This is an advanced topics course in traditional animation. Different sections of this course will focus on different topic areas related to Traditional Animation that are not taught in other classes. Please contact the department for specifics on the content of each topic.

**Repeatable:** Y

**Prerequisites** ANIM 210 Drawing for Animation I

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 1 Maximum Credits 3**

### **ANIM 382 Animation Preproduction**

In this course, students develop the stories for their animated thesis solo films required for the BFA degrees in both Traditional and Computer Animation. Students create storyboards and story reels, model sheets, explore art direction, timing, and various other aspects of preproduction that will lead to green-lighting the production of their films in either Traditional or Computer Animation Studio. Animation Preproduction & Story Development must be taken by both Traditional and Computer Animation students pursuing BFAs in their respective areas.

**Repeatable:** Y

**Formerly** 26-3051

**Prerequisites** ANIM 201 Storyboarding for Animation and ANIM 210 Drawing for Animation I or ANIM 201 Storyboarding for Animation and ANIM 240 Computer Animation

**Minimum Credits 3 Maximum Credits 3**

## **ANIM 482 Animation Solo Project**

After successfully completing Animation Preproduction and Computer Animation students enroll in this course to begin and subsequently complete production of their solo thesis films required for the BFA degree in Traditional and Computer Animation. Animation Solo Project is a repeatable course offering students sufficient time to complete production of their animated films.

**Repeatable:** Y

**Formerly** 26-4060

**Prerequisites** ANIM 382 Animation Preproduction

**Minimum Credits 3 Maximum Credits 3**

## **Traditional Animation (Stop-Motion Pathway)**

### **ANIM 121 Stop-Motion Animation**

Course provides a basic understanding of three-dimensional animation using armatures, puppets, and objects. With the use of a Video Lunchbox, students will investigate the nature of human movement, and cover topics such as timing, weight, exaggeration, composition, lighting, and narrative approaches. Students will also become familiar with various materials and tools as you explore ways to create characters and simple scenery. A variety of stop-motion films, spanning a wide range of genres, will be viewed and discussed.

**Repeatable:** N

**Formerly** 26-1030

**Prerequisites** ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 122 Animation Maquettes**

This course teaches the process of creating animation maquettes: the sculptures created from model sheets that are used in the animation field. Students with a sculpting interest will explore the creation of maquettes in the same manner as industry professionals. Preexisting model sheets and models created by the student will be used to interpret two dimensional illustration into 3D sculptures.

**Repeatable:** N

**Formerly** 26-1010

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 302 Stop-Motion Animation II**

Course requires that students be responsible for creating a short stop-motion to complete during this 15-week class. Students will be responsible for constructing sets, props, and stop-motion puppets, and will be assigned exercises that help to refine and perfect key scenes within your project. Students will have the option of incorporating sound and lip-sync into your project. Various digital shooting methods will be explored, including using a mini-DV camcorder with a video Lunchbox DV, or using a digital still camera, and editing in an NLE application.

**Repeatable:** N

**Formerly** 26-3031

**Prerequisites** ANIM 121 Stop-Motion Animation

**Minimum Credits** 3 **Maximum Credits** 3

*Choose one of the following courses:*

### **ANIM 210 Drawing for Animation I**

Drawing-intensive course allows students to acquire an understanding of figurative human emotions and movements, enabling them to create believable animated characters. Students will create model sheets, learn the principles of animation, and learn how to endow your characters with believable actions and acting. Digital pencil testing will allow for the building of the animation from basic motion to more refined movements and emotion. Particular attention will be given to timing, layout, the creation of extreme drawings, and the process of inbetweening.

**Repeatable:** N

**Formerly** 26-2025

**Prerequisites** ANIM 101 Animation Foundations or ANIM 105 Introduction to Traditional Animation

**Minimum Credits** 3 **Maximum Credits** 3

### **ANIM 211 Alternative Strategies in Animation**

Course explores alternative approaches to the normally highly structured, technically oriented process of creating an animated film. Students will be expected to be curious and imaginative as they are introduced to unorthodox approaches including sand, pastels, drawing directly on film stock, paint-on-glass, and other techniques. Students will also view and discuss films created by non-mainstream artists/animators such as Len Lye, Norman McLaren, and others, which will introduce them to highly graphic and imaginative movement and messages.

**Repeatable:** N

**Formerly** 26-2028

**Prerequisites** ANIM 105 Introduction to Traditional Animation

**Minimum Credits** 3 **Maximum Credits** 3

### **ANIM 263 CVFX: Compositing I**

Lectures and demonstrations, with supporting materials, along with weekly exercises to reinforce the ideas and principles put forth in these presentations, will guide students toward a solid fundamental understanding of the visual effects postproduction process via the compositing workflow. Students will be given the opportunity to show what they have learned by executing a basic final project at the end of the semester, with a subsequent critique by the class and individually with the instructor.

**Repeatable:** N

**Formerly** 24-2209

**Minimum Credits** 3 **Maximum Credits** 3

*Complete 9 credits from the following courses:*

### **ANIM 311 Acting For Animators**

This course, recommended for both Traditional and Computer Animation students, focuses on acting techniques for animators exploring the similarities and differences of stage and screen acting. Students will

learn acting techniques through physical and emotional acting exercises in addition to viewing scenes from a variety of live action and animated films. Focus of this class is exploring the emotional feelings of characters which lead to their physical movement. Animation assignments include creating a performance with a CG rig (for Computer Animation Students) and hand-drawn character animation (for Traditional Animation Students).

**Repeatable:** N

**Formerly** 26-3050

**Prerequisites** ANIM 210 Drawing for Animation I or ANIM 240 Computer Animation or ANIM 121 Stop-Motion Animation

**Minimum Credits 3 Maximum Credits 3**

## **ANIM 363 CVFX: Compositing II**

This course teaches students the various analogue and digital techniques of compositing film elements of diverse origin, from film, electronic imaging systems, and computer-generated images, through lecture, demonstration, and hands-on practice.

**Repeatable:** N

**Formerly** 24-3209

**Prerequisites** ANIM 263 CVFX: Compositing I or ANIM 370 Motion Graphics II

**Minimum Credits 3 Maximum Credits 3**

## **ANIM 382 Animation Preproduction**

In this course, students develop the stories for their animated thesis solo films required for the BFA degrees in both Traditional and Computer Animation. Students create storyboards and story reels, model sheets, explore art direction, timing, and various other aspects of preproduction that will lead to green-lighting the production of their films in either Traditional or Computer Animation Studio. Animation Preproduction & Story Development must be taken by both Traditional and Computer Animation students pursuing BFAs in their respective areas.

**Repeatable:** Y

**Formerly** 26-3051

**Prerequisites** ANIM 201 Storyboarding for Animation and ANIM 210 Drawing for Animation I or ANIM 201 Storyboarding for Animation and ANIM 240 Computer Animation

**Minimum Credits 3 Maximum Credits 3**

## **ANIM 482 Animation Solo Project**

After successfully completing Animation Preproduction and Computer Animation students enroll in this course to begin and subsequently complete production of their solo thesis films required for the BFA degree in Traditional and Computer Animation. Animation Solo Project is a repeatable course offering students sufficient time to complete production of their animated films.

**Repeatable:** Y

**Formerly** 26-4060

**Prerequisites** ANIM 382 Animation Preproduction

**Minimum Credits 3 Maximum Credits 3**

## **CINE 310 Cinema Models and Miniatures**

Course emphasizes the design and technical ability needed to create miniatures and models for cinema. Film examples will be analyzed for scale, medium, and style. Students will be introduced to physical modeling and sculpting techniques, media, scale, and architectural terms and concepts. Beginning from sketches and draftings, students will design and build miniature objects, environments, and characters utilizing a variety of materials.

**Repeatable:** Y

**Formerly** 24-2015

**Prerequisites** CINE 107 Production Design I and CINE 208 Cinema Set Design and Construction or CINE 205 Cinema Props

**Minimum Credits 3 Maximum Credits 3**

## Art History, BA

The Bachelor of Arts in Art History aims to provide skills in analyzing and interpreting art in relation to its historical and cultural contexts. Students will have the opportunity to learn how art acquires and conveys meaning by exploring the interactions among artists, objects, patrons, and society at large across a broad spectrum of media, cultures, and periods. The curriculum at Columbia College Chicago emphasizes fields of study outside the traditional canon of western art history and specializes in global, modern, and contemporary art, theory, and visual culture. These areas provide exciting perspectives on our visual and cultural environment and reflect the inclusive and interdisciplinary nature of art and art history today.

As a result of successfully completing program requirements, students should be able to:

- describe, analyze, and interpret artworks and other cultural objects;
- write well-constructed essays using the terms and critical concepts of art history and visual culture studies;
- practice effective research skills, including evaluating research sources, using electronic databases and primary source archives;
- create projects that engage with art history and visual culture through innovative formats that involve collaborative and interdisciplinary processes; and
- write and present original scholarship that is appropriate for submission for publication or as a writing sample in applications to graduate programs, internships, fellowships, and jobs in the field.

## PROGRAM REQUIREMENTS - 36 credits required

### ARTH 110 Art History Survey: Prehistoric to Modern

This introductory course is a global survey of the history of visual arts from pre-historic times through the nineteenth century. Students study examples from Africa, Asia, the Americas, and Europe in an overall chronological order. Class lectures and discussions focus on various civilizations, periods, and styles around the world including Mesopotamia, Egypt, Greece, and Rome, Early Chinese, Early Christian, Early Islamic, Early Buddhist, Niger Valley, Pre-Columbian, Gothic, Renaissance, Baroque, Impressionism and Post-Impression. Students explore the aesthetic values of these diverse cultures in relation to historical, socio-political, religious, and other contexts for the creation of art.

**Repeatable:** N

**Formerly** 22-1101

**HU**

**Minimum Credits 3 Maximum Credits 3**

## **ARTH 210 20th Century Art History**

This course surveys the history of modern art and critical theories from Post-Impressionism in the 1890s, covering major subsequent currents such as Cubism, Expressionism, Surrealism, Dada, The Harlem Renaissance, Abstract Expressionism, The Black Arts Movement and Post-modernism. Developments in design and architecture, such as the Bauhaus, International Style, and Post-modernism, will also be addressed.

**Repeatable:** *N*

**Formerly** 22-2110

**HU**

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits** 3 **Maximum Credits** 3

## **ARTH 310 Contemporary Art: 1980 to the Present**

This course surveys the history of art and its critical discourses from 1980 to the present, including Post-modernism, the challenges of globalism, the rise of the biennials, relational aesthetics, and other current developments in current art practice and theory.

**Repeatable:** *N*

**Formerly** 22-3115

**HU PL**

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

## **ARTH 315 Art Theory Seminar**

This seminar is a reading and writing intensive course in which students discuss major concepts and methods of art theory from modernist formalism to contemporary issues of race, gender, globalism, and feminism. Other topics addressed may include: semiotics, structuralism, Deconstruction, medium, object, social practice, identity politics, relational aesthetics.

**Repeatable:** *N*

**Formerly** 22-3110

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

## **ARTH 410 Art Discourse and Research**

This seminar is open to all majors; it is recommended for students intending to write a thesis, extended essay, or writing sample. The course engages advanced students in the study of contemporary discursive conditions, disciplinary conventions, and professional practices under which objects, performances, and other forms enter the category of "art." Through intensive reading, seminar discussions, and writing, students deepen their understanding of and ability to employ critical methods and research in the analysis of art. Additionally, students will work on their professional portfolio, which many include CVs, resumes, artist statements, or statements of purpose. This course is required of Art History majors and serves as the first semester of the Art History capstone.

**Repeatable:** *N*

**Formerly** 22-3190

**Requirements** Senior Standing (SR)  
**Minimum Credits 3 Maximum Credits 3**

### **ARTH 491 Written Thesis**

This practicum is open to upper-division undergraduates of all majors who are interested in producing a written thesis or a substantial writing sample. Based on individual interests, research, and interactions with the instructor, other faculty members, and fellow students, each student will produce a research-based thesis. This course provides an excellent opportunity for students to develop and refine a professional writing sample to be used in applications for grants, fellowships, graduate programs, and other professional opportunities. This course is required of Art History majors and serves as the second semester of the Art History capstone.

**Repeatable:** N  
**Formerly** 22-3120  
**Requirements** Senior Standing (SR)  
**Minimum Credits 3 Maximum Credits 3**

### **ARTS 103 Art Now! Art and Art History Speaker Series**

ART NOW! is the Art and Art History Department's curricularized one-credit Speaker Series. Over the course of a semester, students attend no fewer than six sessions sponsored by the department, where they learn about and engage with a diverse mix of art makers, curators, critics, historians, and entrepreneurs. Students hear directly from the unique individuals--international, national, and Chicago-based--who are actively authoring the culture of our times, and gain exposure to the rich range of perspectives, practices, and professional pathways possible for the contemporary creative. In addition to attending the lectures, students prepare by reviewing materials that provide background and context for each speaker and students participate in a digital discussion forum, where they critically engage current issues facing contemporary art and culture and present informed positions and assessments of contemporary art practice. This course provides an accessible, timely, and lively introduction to the multiple worlds of contemporary art and current art discourse, as well as being an excellent way to stay current with the latest developments.

**Repeatable:** Y  
**DEI**  
**Minimum Credits 1 Maximum Credits 1**

*Choose one of the following courses:*

### **ARTH 105 Introduction to Visual Culture**

In this course, students will refine their skills of seeing, discussing, and writing about visual culture. Structured according to methodologies for visual analysis rather than chronology or artistic style, the course introduces students to critical approaches that can be applied to a wide range of images, objects and spaces. Through assignments that emphasize writing, research and presentation skills, students will explore a broad range of perspectives on visual literacy.

**Repeatable:** N  
**Formerly** 22-1105  
**HU DEI**  
**Minimum Credits 3 Maximum Credits 3**

### **ARTH 105H Introduction to Visual Culture: Honors**

In this course, students will refine their skills of seeing, discussing, and writing about visual culture. Structured according to methodologies for visual analysis rather than chronology or artistic style, the course introduces students to critical approaches that can be applied to a wide range of images, objects, and spaces. Through assignments that emphasize writing, research, and presentation skills, students will explore a broad range of perspectives on visual literacy. This is an Honors course and in addition to any pre-requisites, students need a minimum 3.50 GPA to enroll.

**Repeatable:** *N*

**HU DEI**

**Requirements** 3.5 or Higher GPA (35GP)

**Minimum Credits 3 Maximum Credits 3**

*Choose two of the following courses:*

### **ARTH 220 Global History of Architecture**

In this course, students study the history of architecture from a global perspective. From prehistoric settlements to the architecture of today, the course will examine a wide variety of structures, spaces, decoration and furniture. Students will examine examples of world architecture through lectures, class discussions, documentary films, and field trips. This course is designed to give students a foundation of knowledge regarding the change and development of architecture over time and the relationships between architecture, interior planning, and the decorative arts.

**Repeatable:** *N*

**Formerly** 22-1131

**HU**

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **ARTH 230 Craft Culture and History**

In this course, the history of creative making is broadly explored from the point of view of Craft as Cultural Expression, Chicago histories in Craft, Transmaterial Craft, Contemporary Making, and Microindustry. The course is committed to a study of non-dominant narratives in Craft, including, among others, Black, Indigenous, and feminist contributions to the field. Students will have the opportunity to contextualize regional foci with international movements in a project of their own direction guided by course discussions and site visits. Studio visits to regional makers may also take place.

**Repeatable:** *N*

**HU**

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **ARTH 234 Queer Visual Culture**

This course surveys visual culture in the US through the lens of Queer Theory, exploring issues of sexuality, gender, race, class, and ability that historically and currently inform representations of Queerness in the public sphere. Students will examine germinal writings from cultural theorists to understand the historical framework of Queer visual culture. Students will explore concepts around subjectivity, referencing the dynamics between the ways we see ourselves and others.

**Repeatable:** *N*

**Requirements** Sophomore Standing or Above (SO)  
**Minimum Credits 3 Maximum Credits 3**

### **ARTH 236 Black Art and Visual Culture**

This course surveys global art and visual culture, analyzing issues of class, gender and sexuality that historically and currently inform competing notions of blackness within the public sphere. Students examine germinal writings from various cultural theorists, artists and critics within the movements and historical framework of the art world- at-large. The art, representation and production of diaspora creative practices are reviewed within the construct of race and identity.

**Repeatable:** N

**Formerly** 22-2135

**HU DEI PL**

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **ARTH 237 Art of Islam**

This course examines Islamic Art and its transformation over fourteen centuries through contributions of various cultures and civilizations. Structured within a chronological frame, the course will provide a discussion of creative process, experience and perception of images (calligraphy and manuscript illuminations), objects (textiles, pottery and decorative arts) and spaces (architecture) in historical and contemporary cultures of Islam. Through assignments that emphasize research and presentation skills, students will explore a broad range of perspectives.

**Repeatable:** N

**Formerly** 22-2143

**HU DEI GA**

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **ARTH 238A Studies in Global Art History:**

This rotating topics course focuses on specific themes, regions, or periods in the global history of art that are not addressed in the regular course offerings. As well as introducing different material to grow global awareness, this course may engage new, experimental, or highly interdisciplinary approaches to issues in an area of global art history.

**Repeatable:** Y

**Formerly** ARTH 238

**HU GA**

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **ARTH 238B Studies in Global Art History:**

This rotating topics course focuses on specific themes, regions, or periods in the global history of art that are not addressed in the regular course offerings. As well as introducing different material to grow global awareness, this course may engage new, experimental, or highly interdisciplinary approaches to issues in an area of global art history.

**Repeatable:** Y

**HU**

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **ARTH 239 Image + Object: Postpunk**

In this course students will study the intersection of punk, fashion, music, art/design, theory, and economics. This is not a course about the history of punk (although that history will be present); rather it is a course about the anti-aesthetics and effects of punk, especially as a mechanism for critiquing social control. Noisy and anarchic, punk grappled with an everyday reality saturated with contradiction and dilemma, turning mundane things like safety pins and plaid into objects of social critique. This course follows the trajectory of that critique *circa* 1979 in the music of the Sex Pistols, the fashion of Vivienne Westwood, the record sleeves of Jamie Reed and Raymond Pettibon, the poetic/violent refusals of Black Flag, to present concerns with DIY projects and culture, struggles for autonomy, and critical making in the work of designers and artists operating post punk. Related topics include postmodernism, youth subcultures, the music industry, and issues of politics, race, and gender.

**Repeatable:** N

**HU**

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **ARTH 299A Topics in Art History:**

This is a rotating topics course that features innovative ideas and formats emerging in the field of Art History.

**Repeatable:** Y

**Formerly** ARTH 299

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **ARTH 299B Topics in Art History:**

This is a rotating topics course that features innovative ideas and formats emerging in the field of Art History.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **ARTH 299H Topics in Art History: Honors**

This is a rotating topics course that features innovative ideas and formats emerging in the field of Art History.

**Repeatable:** Y

**Formerly** 22-3100HN

**Requirements** 3.5 or Higher GPA (35GP) and Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

*Choose two of the following courses:*

### **ARTH 311 Histories of the Graphic Novel**

This course will explore the multifaceted development of the graphic novel as an artistic form. The term "graphic novel" may have been coined in 1964, but the form itself has reached its current state from a variety of historical and cultural developments. Topics covered will range from Tijuana Bibles to Jack Chick tracts, from Classics Illustrated to the "Black-and-white Boom" of the 1980s, and from underground comix to the New York Times bestseller list. Readings will be a mixture of comics and secondary literature. Students will gain an understanding of various artistic movements, publishing strategies, and cultural discourses which have led to wide-ranging possibilities exhibited in the graphic novels of today.

**Repeatable:** *N*

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **ARTH 339 Dada, Surrealism, Futurism**

This course surveys the avant-garde art movements of the early 20th century with particular focus on Futurism, Dada, and Surrealism. Special emphasis is given to avant garde challenges to the traditional canon of art and to its democratization of art practice. Lectures and discussions follow an interdisciplinary approach to the analysis and comparison of painting, sculpture, typography, music, fashion, performance, film, photography, and writing. The course also provides a historical frame for understanding the experiments and investigations of avant-garde artists who challenged and redefined the traditions of art in response to social upheaval and to political conditions of mechanization and war.

**Repeatable:** *N*

**Formerly** 22-3105

**HU**

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **ARTH 343 Art as Spiritual and Social Practice**

This course focuses on practices of contemporary artists, who recognize the spiritual and social transformative power of their art and utilize their creative skills to challenge oppressive and destructive attitudes such as racism, sexism, consumerism, authoritarianism, and otherizing. Organized in a thematic structure with student-led presentations and discussions, it focuses on human-centered (versus object-centered) art-making practices of diverse American and international artists including Kum-Hwa Kim, Pablo Amaringo, Dawoud Bey, Kathleen Petyarre, and Lalla Essaydi.

**Repeatable:** *N*

**HU DEI**

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **ARTH 346 Gender, The Body, and Representation**

This course offers a history of the representation of the human body with a focus on traditions of figuration that have shaped and disrupted understandings of the body and gender. The historical relationship between the human body and the social body has formal and ideological implications still felt in the 21st century. In this course, students will study and question the effects of the canonical body on contemporary concepts of gender, beauty, desire, perfection, and athleticism. The perspective of the course will be global, transcultural, and will consider the body in art, performance, and as a vehicle for aesthetic, spiritual, political, and economic meanings.

**Repeatable:** *N*

**HU DEI**

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **ARTH 347 Portraiture + Self + Society**

This upper division art history course explores the recent resurgence in practice and performance of portraiture. From venerated oil paintings to family snapshots to social media profiles, this course investigates the practice, performance, and social function of the portrait. Students query the role that portraits play in the formation of individual and collective identities from the late 19th to 21st centuries. Considering the histories of representation, we critically examine the ways in which the social constructs of race, gender, class, and orientation determine how we look at others and ourselves.

**Repeatable:** *N*

**Formerly** 22-2180

**HU DEI PL**

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **ARTH 348 Art and Ritual**

This course focuses on ritual as a critical tool to understand historical and contemporary visual arts of various cultures around the globe. Students study examples of art and ritual from the Middle East, the Mediterranean, Africa, Asia, and the Americas, recognizing the importance of contextuality with a special emphasis on cultural constructs of religion, the cycle of life, power, and sexuality. Student-led discussions, peer-to-peer activities, and presentations create opportunities for further exploration of art and ritual.

**Repeatable:** *N*

**Formerly** 22-2141

**HU DEI GA**

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **ARTH 420 Modern and Contemporary Art History and Theory**

This seminar surveys 20th and 21st century art and its critical discourses. The course provides historical and theoretical frames for understanding the experiments and investigations of modern, postmodern, and contemporary artists working in painting, sculpture, installation, media art, performance, sound and olfactory art, among other forms. Work by historians and theorists will be inclusive and diverse, centering the writing and practices of women, people of color, and others historically under-represented or excluded in the study of modern and contemporary art. The core experience of the class includes reading, writing, research, and presentations. This course is intended for seniors.

**Repeatable:** *N*

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

## **Arts Management, BA**

The Bachelor of Arts in Arts Management is designed to equip students with the knowledge, skills, and experience to manage arts and cultural organizations and creative endeavors. The Arts Management core curriculum provides a solid foundation of essential current business skills and practices within the context of a global cultural environment. The three concentrations allow student to further focus on their particular area of interest: Creative Industries, Performing Arts Management or Visual Arts Management. The program bridges theory and practice throughout the curriculum and culminates in a capstone practicum or internship.

As a result of successfully completing program requirements, students should be able to:

- apply fundamental business skills and acumen in the management of cultural organizations and creative endeavors;
- employ critical thinking, problem solving and communication skills to the entrepreneurial development of cultural and creative endeavors;
- analyze trends, opportunities, and challenges in cultural and creative organizations in a global and technological environment;
- manage discipline-specific projects, events, performances, or exhibitions that reflect current industry practices; and
- assess how the business practices of arts organizations and the creative industries can be responsive to issues of diversity, equity and inclusion.

## PROGRAM REQUIREMENTS - 48 credits required

### **BUSE 101 Introduction to Marketing**

This introductory survey course explores the fundamentals of marketing: product, promotion, pricing, and distribution, as well as the impact of consumer and market research, technology, and globalization.

**Repeatable:** *N*

**Formerly** 28-1090

**Minimum Credits 3 Maximum Credits 3**

### **BUSE 105 Introduction to Management and Entrepreneurship**

In this course students learn the basic management functions of planning, organizing, leading and controlling, as they explore their opportunities as future arts managers and entrepreneurs. Using text, activities, films, cases and projects, students deepen their understanding of the role of the arts manager; practice applying management skills, tools, and techniques; and identify ways to effectively and creatively respond to management problems and challenges.

**Repeatable:** *N*

**Formerly** 28-1110

**Minimum Credits 3 Maximum Credits 3**

### **BUSE 109 Information Management**

This course provides students with a practical framework for employing essential computer applications in today's business environment. Students apply advanced functions of database, spreadsheet, word processing and presentation software to business analysis and decision-making processes. The skill set pursued in this course is fundamental to effective managerial operations of a variety of arts, entertainment and media businesses and organizations.

**Repeatable:** *N*  
**Formerly** 28-1113  
**Minimum Credits** 3 **Maximum Credits** 3

## **BUSE 201 Accounting**

This course is a thorough overview of financial accounting topics for arts, entertainment and media organizations, starting with the accounting cycle for a sole proprietorship and ending with the study of corporations. Clear principles and procedures are used to demonstrate the function of the accounting cycle. The Income Statement, Statement of Equity, Balance Sheet, and Statement of Cash Flow are prepared. The class presents topics that will enhance the student's understanding of the financial statements, including an introduction to ratio analysis.

**Repeatable:** *N*  
**Formerly** 28-2110  
**Requirements** Sophomore Standing or Above (SO)  
**Minimum Credits** 3 **Maximum Credits** 3

## **BUSE 205 Law for Creative Industries**

This course enables future artists, managers and entrepreneurs to better understand legal issues in business dealings in creative industries, and to recognize where legal problems may arise. This is accomplished through readings and lectures relating to copyright and other intellectual property rights, contracts, licensing agreements, First Amendment issues, agency agreements, and the formation of partnerships and corporations.

**Repeatable:** *N*  
**Formerly** 28-2111  
**Requirements** Sophomore Standing or Above (SO)  
**Minimum Credits** 3 **Maximum Credits** 3

## **BUSE 208 Business Writing**

The course emphasizes the importance of professionally written communication for artists, entrepreneurs, and managers in today's arts, entertainment and media environment. The course focuses on identifying the most appropriate media and format for reaching target audiences and achieving intended communication goals. It also provides students with the essential tools and skills to organize and effectively convey information in a clear and concise manner.

**Minimum Credits** 3 **Maximum Credits** 3

## **BUSE 210 Economics for Creatives**

This course introduces economic principles including supply and demand, consumer choice, opportunity costs, market system, money, and banking as they apply to the management of arts, entertainment and

media. The factors that impact each of these principles are also explored in depth. This is an integrated macro-micro introduction for future managers and entrepreneurs.

**Repeatable:** *N*

**Formerly** 28-1112

**Minimum Credits 3 Maximum Credits 3**

### **BUSE 303 Finance**

Finance is the art and science of managing funds. This course provides an understanding of the financial system, basic financial management techniques, and analyses as applied to the arts, entertainment, and media business environment. Concepts studied include cash flow, ratio analyses, time value of money methodology, capital budgeting, and business ethics. The course introduces students to essential financial management tools used by decision-makers.

**Repeatable:** *N*

**Formerly** 28-3110

**Prerequisites** BUSE 201 Accounting

**Minimum Credits 3 Maximum Credits 3**

### **BUSE 308 Entrepreneurship**

This class introduces entrepreneurship as a way of thinking and acting that can serve as a springboard for a self-sustaining, creative career. It provides students with insight into how arts, entertainment, and media professionals turn ideas into a business, and how various elements of an organization fit together to become a viable venture, whether in the profit or non-profit world. Through launching their own microbusinesses, students learn to recognize and evaluate opportunities; problem-solve and manage risks; plan and manage time effectively; leverage resources; craft business models; and develop audiences to support their work.

**Repeatable:** *N*

**Formerly** 28-3130

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **BUSE 312 Organizational Behavior**

This course examines the relationship between organizational structures and the behavior that results from these structures. Effective management systems and methods will be studied, teaching students how an organization's environment impacts behavior and vice versa. Additional topics include leadership; ethics; resources management; and diversity, equity and inclusion in the workplace.

**Repeatable:** *N*

**Formerly** 28-2150

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **BUSE 325 Cultural Policy**

Course provides an overview of the history, evolution, and challenges of arts and cultural policy on a global scale. Students will learn how the arts contribute to human and community development, cultural equity and learn how cultural managers can develop partnerships and strategies to work more effectively with policy makers.

**Repeatable:** *N*

**Prerequisites** ENGL 122 International Writing and Rhetoric II or ENGL 111 Writing and Rhetoric I or ENGL 109 Writing and Rhetoric I Stretch B or ENGL 112 Writing and Rhetoric II or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## CONCENTRATIONS

### Creative Industries

#### **BUSE 150 Business of Media**

This course surveys the business of traditional media fields including radio, television and film, while also studying emerging digital media industries, including the Web and mobile platforms. This course also examines how changes in technology, consumer behavior, and deregulation are transforming the media industry and the production, distribution, and consumption of content in a digital environment.

**Repeatable:** *N*

**Formerly** 28-1610

**Minimum Credits 3 Maximum Credits 3**

#### **BUSE 318 International Arts Management**

This course introduces students to the increasingly global nature of arts management. Students study cultural policies, organizational structures, and funding in a range of international arts, entertainment, and media enterprises. This course also prepares students for study abroad opportunities.

**Repeatable:** *N*

**Formerly** 28-3160

**GA**

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

#### **BUSE 334 Digital Media Strategies**

This class addresses new and emerging business models and strategies in today's rapidly evolving media industries. Topics include an in depth understanding of social media, online marketing, retail and distribution of digital, audio, and visual content including a la carte download services, subscription, and ad-supported streaming services. Additional topics include e-commerce, web design strategy, mobile retail and promotion, community building, direct to consumer marketing, and a variety of other vital tech-based strategies.

**Repeatable:** *N*

**Formerly** 28-3416

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

#### **BUSE 488 Events Management: Practicum**

This course is designed to provide resources, tools, and training necessary for planning and management of live events. Students are given hands-on orientation of event management processes and the opportunity to participate in managing actual events.

**Repeatable:** Y

**Formerly** 28-4090

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

### **BUSE 311 Strategic Management**

This course focuses on the roles of the chief executive, board, and other senior managers in strategic planning, policy-making, and management of an organization. Case studies in both the for-profit and not-for-profit sectors give special attention to real-world situations of small and large businesses in the arts, entertainment, media, and retail management fields.

**Repeatable:** N

**Formerly** 28-3135

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **BUSE 314 Project Management**

Course is intended to familiarize students with fundamentals of project management and their application in the arts. Course will cover a variety of techniques used to manage any type of arts project regardless of scope and industry. An emphasis will be placed on understanding the importance of matching project goals and objectives with the mission of an arts organization or potential funders' interests.

**Repeatable:** N

**Formerly** 28-3150

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **Film Business**

### **BUSE 155 Business of Film and TV**

This course studies how the movie business works in today's ever-changing marketplace, concentrating equally on mainstream Hollywood films as well as smaller independent films made outside the studio system. The two businesses co-exist, compete, and sometimes cross over in their attempts for money, starts, distribution deals, movie screens, and audience approval. Course will examine recent mega-mergers in the media world, the type of movies being released, the factors that constitute whether a film is considered a success or failure, and what it takes to compete as a professional working in the very competitive movie industry. Topics will include past events that have shaped today's film business climate, the various methods of film financing, the cost of film distribution, the state of independent film, the operation of movie theaters, and the mysteries of Hollywood accounting. Throughout the course, students will get an inside glimpse into the economic, political, and power structures behind the scenes which help determine that movies get made, distributed, and seen by the public.

**Repeatable:** N

Formerly 28-1635

**Minimum Credits 3 Maximum Credits 3**

### **BUSE 248 Talent Management**

This course examines the crucial role of professional management for all types of artists and entertainers. Instruction focuses on roles of personal manager, booking agent, talent agent, road manager, and company manager. Course explores formation of an agency, development of talent, and special touring considerations.

**Repeatable:** *N*

**Formerly** 28-2430

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **BUSE 373 Film Marketing**

This course provides an in-depth look at how film is marketed by studios, independent distributors, and filmmakers. Shifts in technology like social media and changes in viewer habits are particularly addressed.

**Repeatable:** *N*

**Formerly** 28-3630

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **BUSE 479 Executive Producing for Film and TV: Practicum**

Executive Management for Film and Television gives students the opportunity to develop a financial deal-making strategy for film and television projects. Students will investigate the responsibilities of executives and stakeholders - CFOs, Executive Directors, Executive Producers, Legal Counsel, Financial Advisors, Investors, and Donors - in for-profit and nonprofit companies and learn how they interact in greenlighting a film or TV project. Simulated scenarios in which students assume these executive management roles will allow students to experience what is involved in managing stakeholders, negotiating deals, and structuring the finances for these projects.

**Repeatable:** *N*

**Formerly** 28-4550

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

### **BUSE 332 Managing and Licensing Intellectual Property**

This course examines issues related to the management and licensing of intellectual property in the arts, entertainment and media industries, and additionally explores new and emerging opportunities specific to the digital age. Students will engage in intellectual property and industry analysis, including simulated hands-on management of real-world intellectual property portfolios. Students will identify intellectual property assets and portfolios that are appropriate for monetization and will formulate plans for delivering and realizing such value and revenue to the relevant rights holders.

**Repeatable:** *N*

**Formerly** 28-2250

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

## **BUSE 381 Box Office Management and Ticketing Strategies**

Every organization wants to sell more tickets. How can this be achieved? This course presents revenue maximization techniques, including dynamic pricing, promotional and discounting strategies, list selection and segmentation, new box office technologies, marketing analyses and how these techniques are used in the not-for-profit and for-profit sectors of the creative industries.

**Repeatable:** *N*

**Formerly** 28-3815

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

## Performing Arts

### **BUSE 170 Business of Live Entertainment**

This course introduces students to management fundamentals of both not-for-profit and for-profit organizations involved in the producing, presenting and promoting of live entertainment and the performing arts. It gives students an overview in conceptualizing, forming, financing, managing and operating such entities, and bringing a live event from idea conception to night-of-show. These concepts are explored through both theoretical discussions and practical exercises that focus on evaluation of real events, from concerts to theater productions and other forms of performance art.

**Repeatable:** *N*

**Formerly** 28-1718

**Minimum Credits** 3 **Maximum Credits** 3

### **BUSE 207 Nonprofit Management in the Creative Industries**

Students interested in founding or working for a nonprofit explore the fundamentals of forming, organizing, managing, and leading mission-driven organizations. Students investigate the essential elements that differentiate nonprofit organizations from their for-profit counterparts. These include the core principles of nonprofit organizations: mission and vision; focus on audiences served; impact on communities in the context of diversity, equity and inclusion; legal and tax-exemption requirements; governance and board development; and fundraising.

**Repeatable:** *N*

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits** 3 **Maximum Credits** 3

## **BUSE 381 Box Office Management and Ticketing Strategies**

Every organization wants to sell more tickets. How can this be achieved? This course presents revenue maximization techniques, including dynamic pricing, promotional and discounting strategies, list selection

and segmentation, new box office technologies, marketing analyses and how these techniques are used in the not-for-profit and for-profit sectors of the creative industries.

**Repeatable:** N

**Formerly** 28-3815

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **BUSE 385 Presenting the Performing Arts**

This course focuses on the process of planning live and performing arts programs, series and seasons, selecting facilities, scheduling and budgeting, booking, negotiating contracts, marketing, pro forma settlements and professional ethics. Both profit-making and non-profit performance sectors are covered.

**Repeatable:** N

**Formerly** 28-3830

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

### **BUSE 487 Club Management: Practicum**

This course provides students with experiential learning opportunities in programming, marketing, and operating a club-style performance space. The course will include classroom activities and hands-on experiences in the process of identifying appropriate programs and artist/attractions for an acoustic space of c. 100 capacity; developing a performance schedule; contracting talent; devising an operational plan and support documents; managing live public concerts; budgeting and marketing.

**Repeatable:** Y

**Formerly** 28-4080

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **BUSE 488 Events Management: Practicum**

This course is designed to provide resources, tools, and training necessary for planning and management of live events. Students are given hands-on orientation of event management processes and the opportunity to participate in managing actual events.

**Repeatable:** Y

**Formerly** 28-4090

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## Visual Arts Management

### **ARTH 315 Art Theory Seminar**

This seminar is a reading and writing intensive course in which students discuss major concepts and methods of art theory from modernist formalism to contemporary issues of race, gender, globalism, and

feminism. Other topics addressed may include: semiotics, structuralism, Deconstruction, medium, object, social practice, identity politics, relational aesthetics.

**Repeatable:** *N*

**Formerly** 22-3110

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **BUSE 125 Business of Visual Arts**

This course investigates a broad range of visual arts institutions, organizations, and businesses, including museums, commercial galleries, non-profit and alternative venues, auction house and art fairs. The course includes site visits and meetings with professionals to provide an inside look at how these arts businesses operate and to expose students to diverse career opportunities in the field of visual arts. This course is an entry point for other visual arts management classes, a requirement for students pursuing a visual arts management degree, and is also open to non-Business and Entrepreneurship majors.

**Repeatable:** *N*

**Formerly** 28-1270

**Minimum Credits 3 Maximum Credits 3**

## **BUSE 323 Exhibition Management**

This course provides students with practical experience in the development of exhibitions. The course covers the process of creating an exhibition including curating, design development, interpretation and programming, project planning and management, budgeting, and marketing. Course activities include hands-on experiences, lectures, research, field trips and meetings with exhibition professionals in museums, galleries, and design firms.

**Repeatable:** *N*

**Formerly** 28-2210

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

## **BUSE 207 Nonprofit Management in the Creative Industries**

Students interested in founding or working for a nonprofit explore the fundamentals of forming, organizing, managing, and leading mission-driven organizations. Students investigate the essential elements that differentiate nonprofit organizations from their for-profit counterparts. These include the core principles of nonprofit organizations: mission and vision; focus on audiences served; impact on communities in the context of diversity, equity and inclusion; legal and tax-exemption requirements; governance and board development; and fundraising.

**Repeatable:** *N*

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **BUSE 215 Artists and the Art Market**

Designed to serve artists and arts managers and entrepreneurs, this course explores the ecosystem of the contemporary art market, within the context of its historic development and with a focus on future trends. It explores the art marketplace from the perspective of key stakeholders: artists, buyers, and mediating businesses (including auction houses, commercial galleries, art fairs, private dealers and advisors, on-line, and direct sales from the artist studio). The course addresses concepts relevant to both artists and arts managers and entrepreneurs including pricing, branding, marketing, business models, and career opportunities.

**Repeatable:** N

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

## **BUSE 415 International Cultural Heritage Management: Rome**

Rome is home to over 2000 years of human history and culture. Students spend an intensive J-term session investigating cultural sites, archeological excavations, museums and exhibitions in and around the city. Through first-hand observation, research, and reflection, students analyze differing strategies used to engage visitors from diverse backgrounds with the cultural heritage of Rome. These include approaches to curatorial direction, exhibition design and production, interpretative methodologies, use of technology, and marketing and communication strategies.

Site visits include museums and cultural sites such as the Roman Forum, Colosseum and Palatine Hill; the Vatican Museum and Sistine Chapel; Borghese Gallery; Museum of Contemporary Art; Keats-Shelley Memorial House and Cinecitta film studio; as well as a day trip to Pompeii.

**Repeatable:** N

**Formerly** 28-4178J

**GA**

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

## **BUSE 480 Curatorial Practicum**

This practicum course enables students of all majors to develop a fully realized exhibition proposal in any media, subject or discipline, with the expectation that the proposal is submitted for review with a Columbia College gallery and/or external galleries or venues. Students apply best practices for curating an exhibition from preliminary research through final production, mentored by exhibition professionals and scholars in related fields.

**Repeatable:** Y

**Formerly** 28-4010

**Minimum Credits 3 Maximum Credits 3**

## **BUSE 481 Gallery Management: Practicum**

This practicum course provides hands-on gallery management, exhibition, curatorial, and design experience for students of all majors. Known as The Hokin Project, this course presents the work of the Columbia

College Chicago community through exhibitions, programs, and events in the Hokin Gallery. Gallery Management Practicum is a student-run collaboration of the Business and Entrepreneurship Department and Student Affairs / Department of Exhibitions and Performance Spaces(DEPS).

**Repeatable:** Y

**Formerly** 28-4020

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## ASL-English Interpretation, BA

Established in 1993, the American Sign Language Department at Columbia College Chicago offered the first Bachelor of Arts in Interpretation in the state of Illinois. The four-year major is designed for students who want to pursue careers as interpreters. The core curriculum provides a coherent plan of study through courses in American Sign Language, Deaf Culture, linguistics, the theories and skills involved in interpreting and transliterating, multicultural issues, and a two-semester interpreting and transliterating practicum, which includes interpreting fieldwork supervised by professional mentor interpreters.

In order to be successful interpreters, students in the major at Columbia will need to acquire mastery of standard American English, fluency in American Sign Language, and familiarity with public speaking techniques, as well as sensitivity to multicultural issues and challenges in interpersonal communication.

As a result of successfully completing program requirements, students should be able to:

- understand the cultural foundations of the field of ASL-English Interpretation;
- recognize the American Deaf community as a linguistic and cultural minority group;
- possess an in-depth understanding of the history of the Deaf community and American Deaf culture;
- understand what is meant by multiculturalism within the Deaf community and how it effects the interpreting profession;
- appreciate diversity in the interpreting profession and to apply their insights when working in diverse communities;
- define the characteristics of special populations of Deaf and hard of hearing persons who require unique communication and interpreting techniques;
- communicate proficiently in ASL and English;
- demonstrate proficiency of use of and comprehension of advanced vocabulary and grammatical features of ASL;
- demonstrate proficiency of use of and comprehension of advanced vocabulary and grammatical features of English;
- understand the theoretical foundations of the field of ASL-English Interpretation;
- know the history and various theories of spoken language interpreting;
- understand various models of sign language interpreting and compare and contrast those models to the models of spoken language interpreting;
- explore the applications of practical ethical theories and behaviors crucial to professional interpreters;
- understand basic research practices as they relate to the interpreting profession;
- understand the professional foundations of the field of ASL-English Interpretation;
- understand all tenets of the RID-NAD Code of Professional Conduct, as well as their purpose and function from both a theoretical and practical point of view, and to apply the tents to interpreting assignments and ethical scenarios;
- understand the role of the interpreter and the evolution of that role from a cultural perspective;

- demonstrate knowledge of professional credentialing and laws that pertain to interpreters; and
- demonstrate knowledge of ethical business practices, professional interpreting agencies and organizations and Deafness-related organizations.

## PROGRAM REQUIREMENTS - 56 credits required

### **SIGN 101 American Sign Language I**

An introductory course in American Sign Language (ASL). This course concentrates on the development of conversational fluency in ASL. Students will develop expressive and receptive skills through discussions of such topics as sharing information about us and everyday life. Activities include short presentations, storytelling, and lab exercises that provide extensive hands-on practice using different methods of delivery. Students will also be exposed to diverse Deaf signers, modeling appropriate language and culture behaviors in various situations.

**Repeatable:** N

**Formerly** 37-1151

**HU DEI**

**Minimum Credits 3 Maximum Credits 3**

### **SIGN 102 American Sign Language II**

A continuation of an introductory course in American Sign Language (ASL). This course includes further training in receptive and expressive skills through discussions of such topics as sharing information about our surroundings and us. Activities include short presentations, storytelling, and lab exercises that provide extensive hands-on practice using different methods of delivery. Students will be also be exposed to Deaf culture and diverse Deaf signers, modeling appropriate language and cultural behaviors in various situations.

**Repeatable:** Y

**Formerly** 37-1152

**HU DEI**

**Prerequisites** SIGN 101 American Sign Language I

**Minimum Credits 3 Maximum Credits 3**

### **SIGN 125 Deaf Culture**

Course is an introduction to various aspects of the deaf community as a linguistic and cultural minority group. Designed for individuals who may or may not have had prior experience with deaf people, course raises questions concerning the nature of sign language and its varieties, education of deaf people, historical treatment of deaf people, sociological and cultural issues important to the deaf community, and political activism.

**Repeatable:** N

**Formerly** 37-1252

**HU DEI PL**

**Minimum Credits 3 Maximum Credits 3**

### **SIGN 128 Introduction to Interpreting**

This course introduces students to career opportunities within the field of interpreting and the ASL community. Focus is placed on relevant laws that impact the Deaf Community, the historical and current trends in the field of interpreting, the growth of Deaf Studies as a field and career opportunities afford those with linguistic and cultural knowledge of ASL and the Deaf Community. Students begin their study and analysis of the Code of Professional Conduct and Ethics in general. Students will begin their preparation for the field by becoming aware of, and participate in current practices and research related to the field of interpreting and Deaf studies. Lastly, students will begin to develop important critical thinking skills in order to prepare them for the next developmental level.

**Repeatable:** *N*

**Formerly** 37-1253

**Prerequisites** SIGN 101 American Sign Language I

**Minimum Credits 3 Maximum Credits 3**

### **SIGN 201 American Sign Language III**

This is the third course in the series of American Sign Language (ASL). This course focuses on the further development of conversational activities. ASL skill development with application to complex grammatical structures continues through discussion of such topics as us, the Deaf community, and its culture. Activities include presentations, storytelling, and lab exercises that provide extensive hands-on practice using different methods of delivery. For community engagement, students are expected to navigate into the diverse Deaf community in order to learn about Deaf co-culture in and beyond Chicago.

**Repeatable:** *Y*

**Formerly** 37-2153

**HU**

**Prerequisites** SIGN 102 American Sign Language II

**Minimum Credits 3 Maximum Credits 3**

### **SIGN 202 American Sign Language IV**

This intermediate American Sign Language course is specifically designed to refine expressive and receptive skills of students pursuing a degree in ASL Interpreting or Deaf Studies. Advanced linguistic structures are introduced and put into practice. Activities include delivering live presentations, narrating life experiences, discussing current events, and lab exercises that provide students opportunities to apply their linguistic and cultural knowledge. For the community engagement, students are expected to engage in the diverse Deaf community to learn their places and develop networks within the community in and beyond Chicago.

**Repeatable:** *Y*

**Formerly** 37-2154

**HU DEI**

**Prerequisites** SIGN 201 American Sign Language III

**Minimum Credits 3 Maximum Credits 3**

### **SIGN 228 Linguistics of ASL**

Course focuses on the linguistic structures of American Sign Language, including phonology, morphology, syntax, and language. Structural aspects of both American Sign Language and English are compared and contrasted, providing students with valuable insight into both languages.

**Repeatable:** *N*

**Formerly** 37-2253

**Prerequisites** SIGN 102 American Sign Language II

**Minimum Credits** 3 **Maximum Credits** 3

## **SIGN 235 Foundations of Translation**

Students translate discourse from English to American Sign Language and from American Sign Language to English. Instruction includes analysis of the text, understanding language equivalence, restructuring the message, and judging appropriateness when translating.

**Repeatable:** *N*

**Formerly** 37-2302

**Prerequisites** SIGN 201 American Sign Language III

**Minimum Credits** 3 **Maximum Credits** 3

## **SIGN 305 Multicultural Issues**

Course explores multicultural issues as related to the interpreting profession and the deaf community. Broad introduction of multiculturalism is followed by an in-depth look at the most common cultures and cultural issues interpreters encounter. Flexibility in the schedule allows for study of additional cultural groups. Guest presenters and field trips allow students to experience the richness of diverse communities and gain insight that can be applied to their interpreting and to their everyday lives.

**Repeatable:** *N*

**Formerly** 37-3204

**Prerequisites** SIGN 125 Deaf Culture and SIGN 340 Foundations of Interpreting

**Minimum Credits** 3 **Maximum Credits** 3

## **SIGN 310 Advanced American Sign Language**

This advanced American Sign Language course is specifically designed to refine and further develop expressive and receptive skills of students pursuing a degree in interpreting or Deaf Studies. Advanced linguistic structures are explored and practiced. Colloquial and discourse features and strategies are explored and practiced. Activities include delivering live presentations, narrating life experiences, discussing current events, and lab exercises that provide students opportunities to apply their advanced linguistic and cultural knowledge. For community engagement, students are expected to engage in the diverse Deaf community in order to learn their places and develop networks within the Deaf community here in and beyond Chicago.

**Repeatable:** *Y*

**Formerly** 37-3205

**Prerequisites** SIGN 202 American Sign Language IV

**Minimum Credits** 3 **Maximum Credits** 3

## **SIGN 325 Theory of Interpretation**

Course examines history of translation, models of interpreting, and equivalence across languages. Study includes theories of spoken language interpreting and sign language interpreting. Theories of basic, practical ethics and behaviors are explored and applied to the interpreting profession.

**Repeatable:** *N*

**Formerly** 37-3304

**Prerequisites** SIGN 125 Deaf Culture and SIGN 235 Foundations of Translation

**Minimum Credits 3 Maximum Credits 3**

### **SIGN 340 Foundations of Interpreting**

Students begin to practice interpreting skills consecutively. Students interpret from American Sign Language to English and from English to American Sign Language with a controlled amount of time between the source and the interpretation. Students are introduced to planned and unplanned material and have opportunities to observe working interpreters.

**Repeatable:** *N*

**Formerly** 37-3401

**Prerequisites** SIGN 202 American Sign Language IV and SIGN 128 Introduction to Interpreting and SIGN 235 Foundations of Translation

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

### **SIGN 341 Interpreting Dialogic Discourse**

Course focuses on simultaneously interpreting dialogues from American Sign Language to English and from English to American Sign Language. Interpretation begins before the source message is completed and continues while the source message continues. Students practice interpreting such events as telephone calls, meetings, and interviews. Opportunities to observe working interpreters are provided.

**Repeatable:** *N*

**Formerly** 37-3403

**Prerequisites** SIGN 340 Foundations of Interpreting

**Minimum Credits 3 Maximum Credits 3**

### **SIGN 342 Interpreting Simultaneous Discourse**

This three-credit course is designed to build and strengthen simultaneous interpreting skills from American Sign Language (ASL) to English and English to American Sign Language (ASL). Topics include bridging to simultaneous, sources of errors, comprehension, message meaning transfer, reformulation, self-monitoring and correction techniques. There is a continuous emphasis on Self Analysis.

**Repeatable:** *N*

**Formerly** 37-3404

**Prerequisites** SIGN 340 Foundations of Interpreting

**Concurrent Requisite** SIGN 341 Interpreting Dialogic Discourse

**Minimum Credits 3 Maximum Credits 3**

### **SIGN 343 Interpreting Advanced Discourse**

Course focuses on simultaneously interpreting monologues from American Sign Language to English and from English to American Sign Language. Interpretation in this case begins before the source message is completed and continues while the source message continues. Students practice interpreting speeches, lectures, and narratives. Opportunities to observe working interpreters are provided.

**Repeatable:** *N*

**Formerly** 37-3402

**Prerequisites** SIGN 341 Interpreting Dialogic Discourse

**Minimum Credits 4 Maximum Credits 4**

### **SIGN 481 Interpreting Practicum I: Specializations and Stakeholders**

This course provides an opportunity for students to apply their knowledge, skills, and experiences in a variety of interpreting settings--in education, business, public service agencies, and as freelance interpreters. Students will participate in supervised field work. Students will also attend a weekly seminar to examine the various sub-fields of interpreting and to discuss linguistic and ethical dilemmas.

**Repeatable:** N

**Formerly** 37-4501

**Prerequisites** SIGN 341 Interpreting Dialogic Discourse and SIGN 342 Interpreting Simultaneous Discourse

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

### **SIGN 482 Interpreting Practicum II**

This course provides an opportunity for students to apply their knowledge, skills, and experiences in a variety of interpreting settings--in education, business, public service agencies, and as freelance interpreters. Students will participate in both supervised and unsupervised field work. Additionally, students will attend a weekly seminar that focuses on the business aspects of interpreting.

**Repeatable:** N

**Formerly** 37-4502

**Prerequisites** SIGN 481 Interpreting Practicum I: Specializations and Stakeholders

**Requirements** Permission Required (DP)

**Minimum Credits 4 Maximum Credits 4**

*Complete 3 credits from the following courses:*

### **SIGN 115 Introduction to Classifiers in American Sign Language**

This course will expand on understanding the principles of Classifiers, an integral part of American Sign Language (ASL), knowing how to identify different types of ASL Classifiers, and application of ASL Classifiers. Students will learn and apply the three types of classifiers, learn and use the representative classifiers (animate and inanimate), descriptive classifiers (size-and-shape, extent, perimeter, and pattern and texture), and instrumental classifiers. This course will provide hands-on experiences and skill building activities needed for appropriate classifier use applied to complex descriptions and images. Eye gaze, role shifting, spatial referencing and appropriate use of ASL Classifiers in storytelling will also be covered.

**Repeatable:** N

**Formerly** 37-1153

**Prerequisites** SIGN 101 American Sign Language I

**Minimum Credits 3 Maximum Credits 3**

### **SIGN 160 ASL Fingerspelling**

ASL Fingerspelling looks at the use of the ASL alphabet in the hands of native users and focuses on specific features of production that non-native users often have trouble understanding. Emphasis is on how to use and understand fingerspelling and how to make and understand appropriate changes in handshapes and

patterns. The course will also cover the history and structure of fingerspelling in American Sign Language and the lexicalization of fingerspelling.

**Repeatable:** Y

**Formerly** 37-1701

**Prerequisites** SIGN 102 American Sign Language II

**Minimum Credits 3 Maximum Credits 3**

## **SIGN 211 Deaf Representations in the Media**

The Deaf and hard-of-hearing community exists as a linguistic and cultural minority group often featured in various forms of media. This course raises questions concerning the portrayal of Deaf and hard-of-hearing people in television, film, theater, books, and news media. This course will examine the changing attitudes towards the community, deafness, and sign language throughout history up to current times. Language, rhetoric, imagery, and treatment of both characters and actual persons in the media will also be examined.

**Repeatable:** Y

**Formerly** 37-2201

**HU DEI PL**

**Prerequisites** ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

## **SIGN 221 Historical and Cultural Perspectives on Deaf American Artists and Art**

This course focuses on the refinement of students' appreciations and knowledge in the visual art history and Deaf Arts. This course will also investigate the historical and cultural perceptions toward to the Deaf artists and their works; use comparative studies focusing on the work of Deaf artists which may not appear under the definition of Deaf Art, and will explore and produce a body of work demonstrating a Deaf experience related to painting, sculpture, and installation spaces.

**Repeatable:** N

**Formerly** 37-2251

**PL**

**Prerequisites** SIGN 125 Deaf Culture

**Minimum Credits 3 Maximum Credits 3**

## **SIGN 242 Music Interpreting**

This course will use music as a way to guide students through principles of translation. Genres of music, ASL features, and discourse analysis will be covered, as well as performance versus interpreting in ASL. Political and cultural views of music interpreting will also be discussed.

**Repeatable:** Y

**Formerly** 37-2402

**Prerequisites** SIGN 125 Deaf Culture and SIGN 201 American Sign Language III

**Minimum Credits 3 Maximum Credits 3**

## **SIGN 260 Creativity and ASL**

Course focuses on utilizing American Sign Language as a tool for creating poetry, storytelling, and theatrical productions. Students participate in activities and discussions and occasional assignments outside of class. Course is designed to increase students' understanding of how aspects of deaf culture are expressed through creative American Sign Language.

**Repeatable:** Y

**Formerly** 37-2601

**Prerequisites** SIGN 201 American Sign Language III and SIGN 125 Deaf Culture

**Minimum Credits** 3 **Maximum Credits** 3

## **SIGN 299 Topics in ASL-English Interpretation**

This course offers students opportunities to learn about specialized areas of study within the field of Interpretation. Units will cover information that is introduced in other courses within the major, but provide additional theoretical foundations and/or skills practice to prepare students for work in a particular interpreting setting or concentration.

**Repeatable:** Y

**Formerly** 37-3650

**Minimum Credits** 1 **Maximum Credits** 3

## **SIGN 315 Deaf Education**

This course examines the education of people who are Deaf and hard of hearing. Topics include language acquisition, the history and practices of Deaf Education, and various types of technology used in Deaf Education. As Deafness is both a physical and cultural phenomenon, educational philosophies that have influenced Deaf Education will be discussed, as well as legislative initiatives that have impacted the lives of Deaf and hard of hearing children. Content includes lecture, discussion, basic research, and one field trip to a working School for the Deaf.

**Repeatable:** N

**Formerly** 37-3225

**PL**

**Prerequisites** SIGN 125 Deaf Culture and SIGN 201 American Sign Language III

**Minimum Credits** 3 **Maximum Credits** 3

## **SIGN 330 Interpreting for Special Populations within the De**

The course examines various special populations interpreters encounter in their work. Examples include specific deaf and hard of hearing consumers who present unique interpreting challenges such as those who communicate orally, persons who are both deaf and blind and those classified as having minimal language skills (MLS). Course content includes lecture and skill building opportunities.

**Repeatable:** N

**Formerly** 37-3305

**Prerequisites** SIGN 125 Deaf Culture and SIGN 202 American Sign Language IV

**Minimum Credits** 3 **Maximum Credits** 3

## **SIGN 365 ASL Literature**

Course covers two full-length ASL narratives by Ben Bahan and Sam Supalla, well respected ASL storytellers. Through the narratives, students are exposed to the lives and experiences of deaf people. Deaf people rely on ASL narratives to portray themselves and to reaffirm their identities as members of a distinct cultural group. Students also learn how a narrative is formed without a written system and how it is preserved and passed down through the generations. Note: This is a required course for students pursuing an American Sign Language Studies Minor.

**Repeatable:** *N*

**Formerly** 37-3661

**Prerequisites** SIGN 202 American Sign Language IV and SIGN 125 Deaf Culture

**Minimum Credits** 3 **Maximum Credits** 3

### **SIGN 495 Directed Study: ASL/English Interpretation**

Directed Studies are learning activities involving student independence within the context of regular guidance and direction from a faculty advisor. Directed Studies are appropriate for students who wish to explore a subject beyond what is possible in regular courses or for students who wish to engage in a subject or activity not otherwise offered that semester by the College. Directed Studies involve close collaboration with a faculty advisor who will assist in development and design of the project, oversee its progress, evaluate the final results, and submit a grade.

**Repeatable:** *Y*

**Formerly** 37-1899

**Requirements** Permission Required (DP)

**Minimum Credits** 1 **Maximum Credits** 6

### **SIGN 496 Independent Project: ASL-English Interpretation**

Independent projects offer credit to students for special projects related to deafness and/or interpreting. Student proposes project to the department chairperson for approval in advance, at which time number of credits are assigned. Contact the Interpreter Training Department for additional details.

**Repeatable:** *Y*

**Formerly** 37-3898

**Requirements** Permission Required (DP)

**Minimum Credits** 1 **Maximum Credits** 6

## **Audio Arts, BA**

With roots in the sciences of acoustics, hearing/perception, and analog/digital electronic technologies, and in the arts and practices of sound recording, design, production and post-production, and reinforcement, the BA in Audio Arts prepares students for creative and professional success in a multifaceted, rapidly evolving 21st-century audio landscape. The core coursework in the program provides a solid foundation in the general theories and practices of audio, and it also exposes students to the broad, diverse manifestations of audio that permeate every facet of contemporary society. Through this process, students discover (or confirm) their passions and aptitudes in audio, which leads them to choose one of four concentrations: music recording, live sound reinforcement, audiovisual systems integration, or audio and sound design.

As a result of successfully completing program requirements, students should be able to:

- demonstrate an understanding of the basic principles of musical acoustics and auditory perception;

- demonstrate a critical awareness regarding the cultural, social, and historical context of the audio arts; and
- evaluate sound quality or utility and correct any deficiencies using appropriate technical means.

## PROGRAM REQUIREMENTS - 51-53 credits required

### **AUDI 102 Introduction to Audio**

This course provides an overview of the world of sound and audio in its various manifestations, including music, communications, sound in linear and non-linear media, sound art, and sonification. It introduces students to basic concepts and terminology related to sound, audio, and audio equipment and systems, but it is not a theory course. Rather, the course examines aspects of our sonic world through the lenses of audio production, live sound reinforcement, and acoustics, constructing a survey of practices and trends, practitioners, and examples; of history, context, and politics; and of art and aesthetics. Along the way it challenges students to examine and open themselves to difference ways of listening. This course is open to all majors.

**Repeatable:** *N*

**Formerly** 43-1111

**Minimum Credits** 3 **Maximum Credits** 3

### **AUDI 103 Audio Theory and Systems**

This course immerses students in the language, theories, and technical knowledge common to all fields in which audio is used. Topics include sound waves and propagation, the analog and digital audio signal, signal analysis and processing (frequency, amplitude and time-based), and basic audio systems (transducers, amplifiers, mixers). To contextualize these theoretical aspects, students are introduced to equipment used in professional audio systems from a technical and functional point of view.

**Repeatable:** *N*

**Formerly** 43-1112

**Prerequisites** AUDI 102 Introduction to Audio

**Concurrent Requisite** PHYS 215 The Science of Acoustics I

**Minimum Credits** 3 **Maximum Credits** 3

### **AUDI 104 Audio Electronics**

In this course, students build simple audio components to understand the electronics fundamentals that drive complex audio systems. Students also gain proficiency with an understanding of the quantitative relationship between the basic elements of electricity (voltage, resistance, current, and power) as they pertain to the projects they are building.

**Repeatable:** *N*

**Formerly** 43-1182

**Prerequisites** MATH 110 College Mathematics or MATH 115 Liberal Arts Mathematics or MATH 120 Quantitative Reasoning or ACCU-T-67 EXAM-ACCUPLACER MATH MINIMUM SCORE = 67 or ACT-M-23 EXAM-ACT MATH MINIMUM SCORE = 23 or SAT-M-550 EXAM-SAT MATH MINIMUM SCORE = 550 or ALEK-1-46 EXAM-ALEKS MINIMUM SCORE = 46

**Minimum Credits** 2 **Maximum Credits** 2

### **AUDI 105 Signal Flow and Gain Structure**

This 1 credit course will introduce students to signal flow and gain structure in small (2-4 channel) to large (16 channel) mixing consoles with playback on shared speakers/headphones and patching to and from select outboard equipment (reverb unit, cue/monitor, etc.). Projects and assignments will be done during class. Homework will include readings. Tests will be practical as well as written (vocabulary, application concepts).

**Repeatable:** *N*

**Minimum Credits 1 Maximum Credits 1**

## **AUDI 121 Fundamentals of Audio Production**

Course introduces students to basic theories and techniques of recording, editing, and mixing. Instruction covers fundamentals of microphone usage, signal flow, and non-linear digital recording and editing. Course is taught in a classroom laboratory where lectures and labs focus on the production of short-form audio works of voice, music, and sound effects to develop and improve engineering and production skills.

**Repeatable:** *N*

**Formerly** 43-1115

**Minimum Credits 3 Maximum Credits 3**

## **AUDI 202 Studies in Hearing**

This course introduces students to the fundamentals of human hearing physiology as well as issues relating to hearing loss and conservation. It is important for any audio professional to understand how complex and delicate the human hearing system is. We must also realize the significance of the fact that society is, only now, beginning to address the problem of environmentally induced hearing loss. The first part of the course will address hearing physiology. Course will focus on the mechanical systems of hearing, starting with the reception of acoustic energy and ending with the delivery of neural signals to the brain. This will give students the necessary foundation knowledge to engage in presentations and discussions covering the topics of hearing loss and conservation.

**Repeatable:** *N*

**Formerly** 43-2725

**Prerequisites** AUDI 103 Audio Theory and Systems

**Minimum Credits 3 Maximum Credits 3**

## **AUDI 301 History of Audio**

This course offers students an exposition of the history and evolution of audio technologies and practices, while also engaging students in an active process of analysis and critique through different lenses (such as aesthetic, technological, sociocultural, political, and economic). The course enables students to deepen their awareness and appreciation of the historical dimensions and trajectories of audio theory, technology, practice, and aesthetics, while also revealing and drawing attention to deeper and more critical themes and issues, that might range from technological debates (e.g. acoustical vs. electrical recording, fidelity vs. convenience, different values and approaches toward production) to sociocultural, political (e.g. issues of access and affordance, diversity, intellectual property).

**Repeatable:** *N*

**Formerly** 43-2720

**Prerequisites** AUDI 103 Audio Theory and Systems

**Minimum Credits 3 Maximum Credits 3**

## **PHYS 215 The Science of Acoustics I**

The course introduces the physics of vibrating systems, waves and sound. Topics include the sound spectrum, how the ear works, the transmission of sound through fluids at different temperatures and through different materials and the Doppler effect. The properties of reflection, refraction, diffraction and interference are studied with special emphasis on resonance, standing waves and the Inverse Square Law of the intensity of sound. The course concludes with an introduction to auditorium acoustics and basic electricity used in the operation of speakers and microphones.

**Repeatable:** *N*

**Formerly** 56-2820

**SL**

**Prerequisites** MATH 110 College Mathematics or MATH 115 Liberal Arts Mathematics or MATH 120 Quantitative Reasoning or ACCU-T-67 EXAM-ACCUPLACER MATH MINIMUM SCORE = 67 or ACT-M-23 EXAM-ACT MATH MINIMUM SCORE = 23 or SAT-M-550 EXAM-SAT MATH MINIMUM SCORE = 550 or CMPS-M-67 EXAM-CMPS MATH MINIMUM SCORE = 67 or ALEK-1-46 EXAM-ALEKS MINIMUM SCORE = 46

**Minimum Credits 3 Maximum Credits 3**

## **PROG 110 Art of Code**

Develop projects specific to your major as you learn a disciplined approach to problem-solving and algorithm development with programming. Topics covered throughout the semester include data abstraction, procedural structures, sequence control, repetition, and best practices.

**Repeatable:** *N*

**Formerly** 36-1310

**Prerequisites** MATH 110 College Mathematics or MATH 115 Liberal Arts Mathematics or MATH 120 Quantitative Reasoning or MATH 150 Geometry in the Arts or MATH 155 Math in Art and Nature or MATH 160 Mathematical Ideas or MATH 165 Math for Marketing and Management or ACCU-T-67 EXAM-ACCUPLACER MATH MINIMUM SCORE = 67 or ACT-M-23 EXAM-ACT MATH MINIMUM SCORE = 23 or SAT-M-550 EXAM-SAT MATH MINIMUM SCORE = 550 or CMPS-M-67 EXAM-CMPS MATH MINIMUM SCORE = 67 or ALEK-1-46 EXAM-ALEKS MINIMUM SCORE = 46

**Minimum Credits 3 Maximum Credits 3**

## **CONCENTRATIONS**

### **Audio and Sound Design**

As a result of successfully completing program requirements, students should be able to:

- identify suitable sound recording, production, and synthesis techniques for a given sound design problem and implement them using different hardware and software environments;
- develop computational literacy in the field of audio programming in order to design and implement custom-built software environments for specific sound design problems;
- pursue entry in a graduate program in a field related to the audio arts with little or no additional preparation; and
- work effectively in interdisciplinary teams to contribute towards the design and implementation of media artworks from the perspective of sound.

**Required for the Concentration:**

## **AUDI 122 DAW Production Techniques and Applications**

Course provides students with a solid foundation in working with digital audio workstations. Through lecture/demonstration/discussions, in-class and homework assignments, and a series of creative projects, students gain experience with fundamental practices in digital audio production, including editing, signal processing, automation, mixing, and preparing audio deliverables. Students participate in a series of exercises to develop and refine critical listening, evaluation, and judgment abilities. In the process, students adopt techniques and strategies for organizing and managing sessions, developing effective communication and presentation skills, and acquiring a sense of professionalism in the field.

**Repeatable:** *N*

**Formerly** 43-2215

**Prerequisites** AUDI 121 Fundamentals of Audio Production

**Minimum Credits** 3 **Maximum Credits** 3

## **AUDI 211 Audio Programming and Performance**

This course introduces principles of sound synthesis and audio programming applied to live performance. The students learn to design their own mini instruments as they explore real-time audio programming topics, including fundamentals of sound synthesis and signal processing (e.g. Additive, Subtractive, Granular, AM, FM), control protocols (e.g. OSC), patterns and event structures, live coding and performance. The semester culminates in a live public performance of original compositions for a laptop ensemble.

**Repeatable:** *N*

**Formerly** 43-2241

**Prerequisites** PROG 101 Programming I or PROG 110 Art of Code

**Minimum Credits** 3 **Maximum Credits** 3

## **AUDI 231 Psychoacoustics**

Class provides the necessary basis for understanding how we hear the world around us. The course is multidisciplinary, with contributions from the academic disciplines of auditory physiology, physics, and psychology. It examines how the human auditory system processes the information it receives, that is, how physical attributes of sound translate into perceptual attributes such as loudness, pitch, and timbre. Topics extend to the perception of music, sound localization, speech, and beyond. Numerous audio-visual demonstrations are used to reinforce the theoretical material presented.

**Repeatable:** *N*

**Formerly** 43-2310

**Prerequisites** PHYS 215 The Science of Acoustics I

**Minimum Credits** 3 **Maximum Credits** 3

## **AUDI 323 Live Sound Recording**

This hands-on course explores minimal microphone location recording. These techniques are fundamental to those employed in multi-track studio recording. Course highlights understanding, selection, and placement of microphones through a wide variety of acoustical environments and instruments. Emphasis is placed on classical and acoustic music, ambient sound recording, and sound effects recording. Students check out location recording equipment and record a number of events during the semester.

**Repeatable:** *N*

**Formerly** 43-2220

**Prerequisites** AUDI 122 DAW Production Techniques and Applications and AUDI 105 Signal Flow and Gain Structure

**Minimum Credits 3 Maximum Credits 3**

## **AUDI 324 Audio for Visual Media I**

Studio course presents the technology and techniques used in creating sound tracks for TV, film, and multi-media. Students learn the technology and techniques of synchronizing video with all audio platforms, including analog and both linear and non-linear digital recording and editing systems.

**Repeatable:** *N*

**Formerly** 43-2420

**Prerequisites** AUDI 122 DAW Production Techniques and Applications and AUDI 105 Signal Flow and Gain Structure

**Minimum Credits 4 Maximum Credits 4**

*Choose two of the following courses:*

## **AUDI 311 Digital Audio Effects Programming**

This course provides an in-depth exploration of the real-time digital audio processes behind the most common types of audio effects. These processes include basic signal modification (e.g. gain, pan, combining signals), filtering and equalization, delay-based effects and modulators, dynamic range processors, distortion effects, and analysis/ resynthesis. Students will design and program working examples of these processes in a high-level audio programming language, preparing the ground for designing, programming, and implementing audio plug-ins.

**Repeatable:** *N*

**Prerequisites** AUDI 103 Audio Theory and Systems and PROG 101 Programming I or AUDI 103 Audio Theory and Systems and PROG 110 Art of Code

**Minimum Credits 3 Maximum Credits 3**

## **AUDI 312 Principles of Audio Deliverables Mastering and Preservation**

Audio design and production does not end with the final mix but rather leads to a series of critical considerations: how to prepare (master/ re-master) the recording for the intended audience; in what format(s) to best deliver the recording; how to ensure the fidelity and integrity of the recorded signal along the way; what of the production process to save for future use; and how to archive and preserve that material. In addition to original production work, many of these considerations apply to the entire legacy of recorded audio, as evidenced by a proliferation of commercial and nonprofit initiatives in audio archiving, preservation, and restoration. This course addresses the essential aspects of audio design and production related to the dissemination and preservation of audio recordings, from delivery (mastering and deliverables) to preservation (archiving, preservation, and restoration). Through readings, investigation and analysis assignments, and in-class lectures, discussions, and demonstrations, students will encounter critical questions, theories, processes, and practices which are necessary and useful in a range of professional applications.

**Repeatable:** *N*

**Formerly** 43-3243

**Prerequisites** AUDI 221 Multitrack Music Recording I or AUDI 324 Audio for Visual Media I

**Minimum Credits 3 Maximum Credits 3**

## **AUDI 313 Building Circuits for Sound Art I**

This course introduces students to the skills necessary to build their own hardware for analog synthesis, electro-acoustic music, and sound art. Students will learn to read circuit diagrams, breadboard prototypes and solder finished circuit boards. Students will also explore fabrication techniques to build custom enclosures and interfaces. Students will demonstrate and share their creations through performance and critiques.

Readings and assessments focus on necessary practical knowledge. Projects are assessed for both craftsmanship and creative results. Students should expect to spend 3-6+ hours per week completing projects outside of class, and are responsible for the purchase of their own materials. Students can access class tools and facilities outside of class time.

**Repeatable:** *N*

**Formerly** 43-2261

**Prerequisites** AUDI 104 Audio Electronics

**Minimum Credits** 3 **Maximum Credits** 3

## **AUDI 314 New Musical Interface Design**

This course lies at the intersection of "interaction design" and "sound and music computing," covering the study and use of sound as one of the principal channels conveying information, meaning, and aesthetic/emotional qualities in interactive contexts. It focuses on technology-mediated, aesthetically-grounded design of new interfaces for musical expression, and the questions that arise from them. It also introduces design methods such as Bootlegging, Auditory Storyboarding, Paper and Sonic Prototyping, Participatory Design, Inclusive Design, Product Sound Design, Interactive Sonification, Tangible and Embodied Interaction, and Audio APIs (e.g. Designing sound in the cloud).

**Repeatable:** *N*

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

## **AUDI 322 Applied Audio and Music Production for Media**

Students gain experience with current practices and techniques in audio and music production for media and industry, which often require the audio professional to serve in multiple roles in the production process, including audio engineer, producer, sound designer, composer, software programmer, and more. Students will complete individual and group projects that include adaptive ambient loop creation, sound design, MIDI composition for interactive and non-linear applications, post-production for picture, and audio book and documentary production.

**Repeatable:** *N*

**Formerly** 43-3115

**Prerequisites** AUDI 324 Audio for Visual Media I or AUDI 221 Multitrack Music Recording I or GAME 235 Sound and Music for Interactive Visual Media or MUSC 251 Digital Music Production II

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

## **CINE 311 Post-Production Audio II**

Course explores the post-production techniques used in creating effective audio for cinema. Students develop aesthetic judgment by analyzing a variety of soundtracks and develop technical skills, including track building, ADR, Foley, and mixing, by employing these techniques in the design and creation of their own soundtracks.

**Repeatable:** N

**Formerly** 24-2102

**Prerequisites** AUDI 324 Audio for Visual Media I or CINE 211 Post-Production Audio I

**Minimum Credits 4 Maximum Credits 4**

*Choose two of the following courses:*

### **AUDI 411 Data Sonification**

Sonification is the use of designed or intentional sound to display system states and other informational data. This course introduces the concepts and design techniques used in sonification ranging from earcons, spearcons and auditory icons to translation techniques used in mapping data into sound for probing, monitoring, and auditory display for enhanced user interfaces and monitoring and purposes.

**Repeatable:** N

**Formerly** 43-3562

**Prerequisites** AUDI 202 Studies in Hearing

**Minimum Credits 3 Maximum Credits 3**

### **AUDI 412 Spatial Audio**

This course focuses on the relationship between sound and space from a scientific and artistic perspective. It reviews the physiological and psychacoustic foundations of spatial hearing, as well as of stereophonic recording and production techniques. Other major topics include: impulse responses, binaural sound reproduction, 5.1 and other surround sound formats, Ambisonics and other 3D sound spatialization techniques, microphone and loudspeaker arrays. Examples will be drawn from the history and current artistic practice of spatial audio.

**Repeatable:** N

**Prerequisites** AUDI 202 Studies in Hearing or AUDI 231 Psychoacoustics

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **AUDI 413 Building Circuits for Sound Art II**

Students use the skills acquired in AUDI 313 to build more complex projects for analog synthesis, electro-acoustic music, and sound art. Projects are assessed for both craftsmanship and creative results. Students should expect to spend 4-6+ hours per week completing projects outside of class, and are responsible for the purchase of their own materials. Students can access class tools outside of class time.

**Repeatable:** Y

**Formerly** 43-3252

**Prerequisites** AUDI 313 Building Circuits for Sound Art I

**Minimum Credits 3 Maximum Credits 3**

### **AUDI 415 Advanced Practicum in Sound Art**

Course explores the aesthetics and techniques of sound art. A major component of the course is the ongoing analysis and critique of the students' work. In addition to readings, lecture, discussion, and analytical listening, students are expected to give and receive feedback and critiques, under the instructor's guidance. Students are expected to work independently on projects developed with the consent of the instructor.

**Repeatable:** *N*

**Formerly** 43-3290

**Prerequisites** AUDI 122 DAW Production Techniques and Applications or MUSC 228 Digital Music Composition and Performance or GAME 235 Sound and Music for Interactive Visual Media or CINE 311 Post-Production Audio II

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **AUDI 436 Research Methods: An Interdisciplinary Approach**

Understanding research on quantitative and observable data requires a thorough understanding of the scientific method, familiarity with multiple methodological approaches to research, as well as the ability to critically evaluate the strengths and limitations of methods and data collected within a research paradigm. This multidisciplinary course is designed particularly for students within Media Arts who will benefit from an understanding of research methods in science and communications, as distinct from research in humanities and creative arts. Students in this course will learn about the strengths and limitations of various types of research, as well as directly apply research methods through group and individual research proposals and projects, including projects within their discipline.

This course is not discipline-specific and therefore can serve students outside the department.

**Repeatable:** *N*

**Formerly** 43-3583

**Prerequisites** ENGL 112 Writing and Rhetoric II and MATH 110 College Mathematics or ENGL 112 Writing and Rhetoric II and MATH 115 Liberal Arts Mathematics or ENGL 112 Writing and Rhetoric II and MATH 120 Quantitative Reasoning or ENGL 112 Writing and Rhetoric II and ACCU-T-67 EXAM-ACCUPLACER MATH MINIMUM SCORE = 67 or ENGL 112 Writing and Rhetoric II and ACT-M-23 EXAM-ACT MATH MINIMUM SCORE = 23 or ENGL 112 Writing and Rhetoric II and SAT-M-550 EXAM-SAT MATH MINIMUM SCORE = 550 or ENGL 112H Writing and Rhetoric II: Honors and MATH 110 College Mathematics or ENGL 112H Writing and Rhetoric II: Honors and MATH 115 Liberal Arts Mathematics or ENGL 112H Writing and Rhetoric II: Honors and MATH 120 Quantitative Reasoning or ENGL 112H Writing and Rhetoric II: Honors and ACCU-T-67 EXAM-ACCUPLACER MATH MINIMUM SCORE = 67 or ENGL 112H Writing and Rhetoric II: Honors and ACT-M-23 EXAM-ACT MATH MINIMUM SCORE = 23 or ENGL 112H Writing and Rhetoric II: Honors and SAT-M-550 EXAM-SAT MATH MINIMUM SCORE = 550 or ENGL 122 International Writing and Rhetoric II and MATH 110 College Mathematics or ENGL 122 International Writing and Rhetoric II and MATH 115 Liberal Arts Mathematics or ENGL 122 International Writing and Rhetoric II and MATH 120 Quantitative Reasoning or ENGL 122 International Writing and Rhetoric II and ACCU-T-67 EXAM-ACCUPLACER MATH MINIMUM SCORE = 67 or ENGL 122 International Writing and Rhetoric II and ACT-M-23 EXAM-ACT MATH MINIMUM SCORE = 23 or ENGL 122 International Writing and Rhetoric II and SAT-M-550 EXAM-SAT MATH MINIMUM SCORE = 550 or ENGL 112 Writing and Rhetoric II and ALEK-1-46 EXAM-ALEKS MINIMUM SCORE = 46 or ENGL 112H Writing and Rhetoric II: Honors and ALEK-1-46 EXAM-ALEKS MINIMUM SCORE = 46 or ENGL 122 International Writing and Rhetoric II and ALEK-1-46 EXAM-ALEKS MINIMUM SCORE = 46

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **AUDI 443 Networks and Networking for Media**

Through lectures, readings and hands-on experience, this course provides a basic understanding of the networks and networking protocols necessary for reliable, secure communication in a digital media world. Intended for students who have completed the department's core curriculum, it is also offered to non-majors with instructor approval. Major topics include network topologies (LAN, WAN, WLAN, MAN) and protocols (primarily TCP/IP), IP addressing hierarchies, switching, routing, and VLANs, and network security.

**Repeatable:** *N*

**Formerly** 43-3622

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

## **CINE 415 Sound Mixing for Cinema**

Sound Mixing For Cinema explores the advanced processes used to create effective state-of-the-art cinema sound mixes. In this intensive, hands-on studio course, students will study the latest trends in soundtrack aesthetics & rerecording technology and employ these techniques in mixing soundtracks for a variety of cinema genres & media.

**Repeatable:** *N*

**Formerly** 24-3126

**Prerequisites** CINE 311 Post-Production Audio II

**Minimum Credits** 4 **Maximum Credits** 4

## **Audiovisual Systems Integration**

As a result of successfully completing program requirements, students should be able to:

- analyze the user needs and technical needs of the sound, AV, or computer-network system;
- organize their work effectively, applying the principles of project management;
- design and synthesize technical systems, including sound, audiovisual, and computer networks for monitoring and control; and
- evaluate the system, once installed, and troubleshoot any deficiencies using appropriate analytic techniques.

**Required for the Concentration:**

## **AUDI 241 The Art of Troubleshooting**

Because complex, interactive systems fail in complex, interactive ways, this course builds six essential competencies to assist system designers and system operators to cope with failure and limit immediate damage; to collect symptoms and understand systems rapidly; to apply inferential logic and avoid logical fallacies; to identify, trap, and limit failures; and to patch around them. This is not a course in equipment repair.

**Repeatable:** *N*

**Formerly** 43-3621

**Prerequisites** AUDI 103 Audio Theory and Systems

**Minimum Credits** 3 **Maximum Credits** 3

## **AUDI 242 Sound System Design**

Course offers an in-depth look at what goes into designing and installing permanent sound systems. Students learn to design systems for coverage, intelligibility, and cost effectiveness. Emphasis is placed on understanding specifications of system component and predicting system performance.

**Repeatable:** *N*

**Formerly** 43-3610

**Prerequisites** AUDI 103 Audio Theory and Systems and AUDI 105 Signal Flow and Gain Structure

**Minimum Credits** 3 **Maximum Credits** 3

## **AUDI 342 Project Planning, Process and Implementation**

A project is a task with a definite cycle: beginning (planning), middle (execution, supervision), and end (assessment and, often, payment). Most work in audio and acoustics is project work, from recording and mixing a demo in one day, to the design and construction of a concert hall, which can take years. This course blends project management, personal time management, and quick analysis for decision making into a set of key skills for those who must juggle multiple projects.

**Repeatable:** *N*

**Formerly** 43-2610

**Prerequisites** AUDI 102 Introduction to Audio and ENGL 109 Writing and Rhetoric I Stretch B or AUDI 102 Introduction to Audio and ENGL 111 Writing and Rhetoric I or AUDI 102 Introduction to Audio and ENGL 111H Writing and Rhetoric I: Honors or AUDI 102 Introduction to Audio and ENGL 121 International Writing and Rhetoric I or AUDI 102 Introduction to Audio and TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits** 3 **Maximum Credits** 3

## **AUDI 343 Installed Systems Documentation**

Course gives students familiarity with the graphical standards of the Construction Specifications Institute. Students will acquire skill at navigating architectural drawings at a workstation and an ability to generate audio system drawings.

**Repeatable:** *N*

**Formerly** 43-3619

**Prerequisites** AUDI 242 Sound System Design

**Minimum Credits** 3 **Maximum Credits** 3

## **AUDI 441 Loudspeaker System Applications**

This advanced course builds upon theoretical/practical knowledge acquired by students in earlier courses (basic acoustics/psychoacoustics, loudspeaker parameters, signal processing, and live sound reinforcement) and synthesizes the information in the context of optimizing loudspeaker selection, placement, and processing to fulfill specific audio needs. Through practical and theoretical projects, as well as supporting lectures, students define the loudspeaker system design goals for a small number of representative case studies. They then determine appropriate equipment and placement for the desired audio coverage, and utilize a combination of objective and subjective techniques for alignment and calibration of the designed systems.

**Repeatable:** *N*

**Formerly** 43-3623

**Prerequisites** AUDI 343 Installed Systems Documentation

**Minimum Credits** 3 **Maximum Credits** 3

## **AUDI 442 Audio Visual System Design**

Audio Visual Communication systems play a crucial role in delivering information and are a key part of almost all major installed projects. However, the end result is a tool for communication. Communication requires not just aural communication but visual as well. Audio and video are continually evolving into fully integrated systems. These systems require transmission, control and display subsystems as part of the whole integration. This course will expose students to a host of new terms and concepts, yet focus on several basic areas: Display, control, flow/distribution, and a general introduction to industry considerations and influences. Students in this course will apply fundamental knowledge and techniques learned in previous courses (Sound System Design, Installed System Documentation, and Project Planning, Process and Implementation) in order to create a complete AV system design.

**Repeatable:** N

**Formerly** 43-4473

**Prerequisites** AUDI 242 Sound System Design

**Minimum Credits 3 Maximum Credits 3**

## **AUDI 443 Networks and Networking for Media**

Through lectures, readings and hands-on experience, this course provides a basic understanding of the networks and networking protocols necessary for reliable, secure communication in a digital media world. Intended for students who have completed the department's core curriculum, it is also offered to non-majors with instructor approval. Major topics include network topologies (LAN, WAN, WLAN, MAN) and protocols (primarily TCP/IP), IP addressing hierarchies, switching, routing, and VLANs, and network security.

**Repeatable:** N

**Formerly** 43-3622

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

*Choose two of the following courses:*

## **AUDI 231 Psychoacoustics**

Class provides the necessary basis for understanding how we hear the world around us. The course is multidisciplinary, with contributions from the academic disciplines of auditory physiology, physics, and psychology. It examines how the human auditory system processes the information it receives, that is, how physical attributes of sound translate into perceptual attributes such as loudness, pitch, and timbre. Topics extend to the perception of music, sound localization, speech, and beyond. Numerous audio-visual demonstrations are used to reinforce the theoretical material presented.

**Repeatable:** N

**Formerly** 43-2310

**Prerequisites** PHYS 215 The Science of Acoustics I

**Minimum Credits 3 Maximum Credits 3**

## **AUDI 436 Research Methods: An Interdisciplinary Approach**

Understanding research on quantitative and observable data requires a thorough understanding of the scientific method, familiarity with multiple methodological approaches to research, as well as the ability to critically evaluate the strengths and limitations of methods and data collected within a research paradigm. This multidisciplinary course is designed particularly for students within Media Arts who will benefit from an

understanding of research methods in science and communications, as distinct from research in humanities and creative arts. Students in this course will learn about the strengths and limitations of various types of research, as well as directly apply research methods through group and individual research proposals and projects, including projects within their discipline.

This course is not discipline-specific and therefore can serve students outside the department.

**Repeatable:** *N*

**Formerly** 43-3583

**Prerequisites** ENGL 112 Writing and Rhetoric II and MATH 110 College Mathematics or ENGL 112 Writing and Rhetoric II and MATH 115 Liberal Arts Mathematics or ENGL 112 Writing and Rhetoric II and MATH 120 Quantitative Reasoning or ENGL 112 Writing and Rhetoric II and ACCU-T-67 EXAM-ACCUPLACER MATH MINIMUM SCORE = 67 or ENGL 112 Writing and Rhetoric II and ACT-M-23 EXAM-ACT MATH MINIMUM SCORE = 23 or ENGL 112 Writing and Rhetoric II and SAT-M-550 EXAM-SAT MATH MINIMUM SCORE = 550 or ENGL 112H Writing and Rhetoric II: Honors and MATH 110 College Mathematics or ENGL 112H Writing and Rhetoric II: Honors and MATH 115 Liberal Arts Mathematics or ENGL 112H Writing and Rhetoric II: Honors and MATH 120 Quantitative Reasoning or ENGL 112H Writing and Rhetoric II: Honors and ACCU-T-67 EXAM-ACCUPLACER MATH MINIMUM SCORE = 67 or ENGL 112H Writing and Rhetoric II: Honors and ACT-M-23 EXAM-ACT MATH MINIMUM SCORE = 23 or ENGL 112H Writing and Rhetoric II: Honors and SAT-M-550 EXAM-SAT MATH MINIMUM SCORE = 550 or ENGL 122 International Writing and Rhetoric II and MATH 110 College Mathematics or ENGL 122 International Writing and Rhetoric II and MATH 115 Liberal Arts Mathematics or ENGL 122 International Writing and Rhetoric II and MATH 120 Quantitative Reasoning or ENGL 122 International Writing and Rhetoric II and ACCU-T-67 EXAM-ACCUPLACER MATH MINIMUM SCORE = 67 or ENGL 122 International Writing and Rhetoric II and ACT-M-23 EXAM-ACT MATH MINIMUM SCORE = 23 or ENGL 122 International Writing and Rhetoric II and SAT-M-550 EXAM-SAT MATH MINIMUM SCORE = 550 or ENGL 112 Writing and Rhetoric II and ALEK-1-46 EXAM-ALEKS MINIMUM SCORE = 46 or ENGL 112H Writing and Rhetoric II: Honors and ALEK-1-46 EXAM-ALEKS MINIMUM SCORE = 46 or ENGL 122 International Writing and Rhetoric II and ALEK-1-46 EXAM-ALEKS MINIMUM SCORE = 46

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## Live Sound Reinforcement

As a result of successfully completing program requirements, students should be able to:

- manage audible content on a jobsite with respect to site-relevant aesthetically correct performance, targeted at client satisfaction;
- manage audible content on a job site with respect to feedback suppression to the degree that there is no audible feedback in house or monitors;
- address industry mandated sound measurement issues as required by the particular characteristics of a given job site;
- address live industry IT-specific issues on job sites as required by situation and hardware availability; and
- define, document, present, and implement sound system designs applicable to a given live sound event for a variety of musical styles and events contexts.

**Required for the Concentration:**

## AUDI 151 Aesthetics of Live Sound I

Course defines in a structured fashion the psychology of the musician and physics of the instrument within the framework of sound reinforcement and analysis. The goal is to familiarize students with one instrument-musician-sound reinforcement approach per week.

**Repeatable:** *N*

**Formerly** 43-2510

**Prerequisites** AUDI 102 Introduction to Audio

**Minimum Credits 3 Maximum Credits 3**

## **AUDI 252 Live Sound Reinforcement**

This course is designed to teach techniques and tools of sound reinforcement. Content combines product awareness with ear training and hands-on practice. Students complete lab assignments in the Audio Technology Center Live Sound Lab and spend two lab sessions at local music clubs.

**Repeatable:** *N*

**Formerly** 43-2515

**Prerequisites** AUDI 102 Introduction to Audio and AUDI 105 Signal Flow and Gain Structure

**Minimum Credits 3 Maximum Credits 3**

## **AUDI 351 Aesthetics of Live Sound II**

Course expands of the Aesthetics I course and covers some of the more unusual instruments and ensembles. Instruments may include mandolin, bassoon, Hammond organ, digital keyboards, harp, and more, depending on availability. The course also covers groups such as world music ensembles, and DJ/dance forms such as Hip-Hop, House, R&B/Dusties, Drum & Bass, etc.

**Repeatable:** *N*

**Formerly** 43-3511

**Prerequisites** AUDI 151 Aesthetics of Live Sound I and AUDI 103 Audio Theory and Systems

**Minimum Credits 3 Maximum Credits 3**

## **AUDI 353 Live Sound Engineering Practicum**

Course presents extremely advanced live sound operational theory in a production context. Instructor presents a theory as it applies to a specific problem, followed by the application of that theory to an actual live performance. Students then apply this knowledge by operating the same systems themselves.

**Repeatable:** *N*

**Formerly** 43-3525

**Prerequisites** AUDI 151 Aesthetics of Live Sound I and AUDI 252 Live Sound Reinforcement

**Minimum Credits 3 Maximum Credits 3**

## **AUDI 355 Digital Audio Console Practicum**

Course focuses on the role of the digital console in the context of the live sound reinforcement environment. It provides a detailed description and analysis of console operations, including setup, patching, routing, communications, file management, onboard and outboard effects, scenes, defined keys, and integration with other digital devices. Students will be asked to learn both the theory and practical application of console methodology. They will also be exposed to multiple platforms to illustrate the similarities and differences between different manufacturer approaches to digital consoles.

**Repeatable:** N

**Formerly** 43-3527

**Prerequisites** AUDI 252 Live Sound Reinforcement

**Minimum Credits 3 Maximum Credits 3**

## **AUDI 452 Monitor Mixing**

Total immersion stage monitor course for advanced live sound reinforcement students undertakes an in-depth exploration of feedback suppression, mix aesthetic, systems design, and signal flow.

**Repeatable:** N

**Formerly** 43-3528

**Prerequisites** AUDI 353 Live Sound Engineering Practicum

**Minimum Credits 3 Maximum Credits 3**

## **AUDI 453 Digital Equalization and System Management**

Course explores audio equalization methodology in the digital domain, within the context of loudspeaker management systems and digital console operations. In addition, loudspeaker management functions are explored through real-time operation of digitally controlled sound reinforcement systems. Course is largely hands-on, with real-time adjustments audible through a large-scale sound reinforcement system. All control functions, whether computer or digital console based, are concurrently presented for student evaluation on large-scale projection screens.

**Repeatable:** N

**Formerly** 43-3526

**Prerequisites** AUDI 353 Live Sound Engineering Practicum

**Minimum Credits 3 Maximum Credits 3**

*Choose two of the following courses:*

## **AUDI 122 DAW Production Techniques and Applications**

Course provides students with a solid foundation in working with digital audio workstations. Through lecture/demonstration/discussions, in-class and homework assignments, and a series of creative projects, students gain experience with fundamental practices in digital audio production, including editing, signal processing, automation, mixing, and preparing audio deliverables. Students participate in a series of exercises to develop and refine critical listening, evaluation, and judgment abilities. In the process, students adopt techniques and strategies for organizing and managing sessions, developing effective communication and presentation skills, and acquiring a sense of professionalism in the field.

**Repeatable:** N

**Formerly** 43-2215

**Prerequisites** AUDI 121 Fundamentals of Audio Production

**Minimum Credits 3 Maximum Credits 3**

## **AUDI 231 Psychoacoustics**

Class provides the necessary basis for understanding how we hear the world around us. The course is multidisciplinary, with contributions from the academic disciplines of auditory physiology, physics, and psychology. It examines how the human auditory system processes the information it receives, that is, how physical attributes of sound translate into perceptual attributes such as loudness, pitch, and timbre. Topics

extend to the perception of music, sound localization, speech, and beyond. Numerous audio-visual demonstrations are used to reinforce the theoretical material presented.

**Repeatable:** *N*

**Formerly** 43-2310

**Prerequisites** PHYS 215 The Science of Acoustics I

**Minimum Credits 3 Maximum Credits 3**

## **AUDI 242 Sound System Design**

Course offers an in-depth look at what goes into designing and installing permanent sound systems. Students learn to design systems for coverage, intelligibility, and cost effectiveness. Emphasis is placed on understanding specifications of system component and predicting system performance.

**Repeatable:** *N*

**Formerly** 43-3610

**Prerequisites** AUDI 103 Audio Theory and Systems and AUDI 105 Signal Flow and Gain Structure

**Minimum Credits 3 Maximum Credits 3**

## **AUDI 312 Principles of Audio Deliverables Mastering and Preservation**

Audio design and production does not end with the final mix but rather leads to a series of critical considerations: how to prepare (master/ re-master) the recording for the intended audience; in what format(s) to best deliver the recording; how to ensure the fidelity and integrity of the recorded signal along the way; what of the production process to save for future use; and how to archive and preserve that material. In addition to original production work, many of these considerations apply to the entire legacy of recorded audio, as evidenced by a proliferation of commercial and nonprofit initiatives in audio archiving, preservation, and restoration. This course addresses the essential aspects of audio design and production related to the dissemination and preservation of audio recordings, from delivery (mastering and deliverables) to preservation (archiving, preservation, and restoration). Through readings, investigation and analysis assignments, and in-class lectures, discussions, and demonstrations, students will encounter critical questions, theories, processes, and practices which are necessary and useful in a range of professional applications.

**Repeatable:** *N*

**Formerly** 43-3243

**Prerequisites** AUDI 221 Multitrack Music Recording I or AUDI 324 Audio for Visual Media I

**Minimum Credits 3 Maximum Credits 3**

## **AUDI 323 Live Sound Recording**

This hands-on course explores minimal microphone location recording. These techniques are fundamental to those employed in multi-track studio recording. Course highlights understanding, selection, and placement of microphones through a wide variety of acoustical environments and instruments. Emphasis is placed on classical and acoustic music, ambient sound recording, and sound effects recording. Students check out location recording equipment and record a number of events during the semester.

**Repeatable:** *N*

**Formerly** 43-2220

**Prerequisites** AUDI 122 DAW Production Techniques and Applications and AUDI 105 Signal Flow and Gain Structure

**Minimum Credits 3 Maximum Credits 3**

## **AUDI 411 Data Sonification**

Sonification is the use of designed or intentional sound to display system states and other informational data. This course introduces the concepts and design techniques used in sonification ranging from earcons, spearcons and auditory icons to translation techniques used in mapping data into sound for probing, monitoring, and auditory display for enhanced user interfaces and monitoring and purposes.

**Repeatable:** *N*

**Formerly** 43-3562

**Prerequisites** AUDI 202 Studies in Hearing

**Minimum Credits 3 Maximum Credits 3**

## **AUDI 436 Research Methods: An Interdisciplinary Approach**

Understanding research on quantitative and observable data requires a thorough understanding of the scientific method, familiarity with multiple methodological approaches to research, as well as the ability to critically evaluate the strengths and limitations of methods and data collected within a research paradigm. This multidisciplinary course is designed particularly for students within Media Arts who will benefit from an understanding of research methods in science and communications, as distinct from research in humanities and creative arts. Students in this course will learn about the strengths and limitations of various types of research, as well as directly apply research methods through group and individual research proposals and projects, including projects within their discipline.

This course is not discipline-specific and therefore can serve students outside the department.

**Repeatable:** *N*

**Formerly** 43-3583

**Prerequisites** ENGL 112 Writing and Rhetoric II and MATH 110 College Mathematics or ENGL 112 Writing and Rhetoric II and MATH 115 Liberal Arts Mathematics or ENGL 112 Writing and Rhetoric II and MATH 120 Quantitative Reasoning or ENGL 112 Writing and Rhetoric II and ACCU-T-67 EXAM-ACCUPLACER MATH MINIMUM SCORE = 67 or ENGL 112 Writing and Rhetoric II and ACT-M-23 EXAM-ACT MATH MINIMUM SCORE = 23 or ENGL 112 Writing and Rhetoric II and SAT-M-550 EXAM-SAT MATH MINIMUM SCORE = 550 or ENGL 112H Writing and Rhetoric II: Honors and MATH 110 College Mathematics or ENGL 112H Writing and Rhetoric II: Honors and MATH 115 Liberal Arts Mathematics or ENGL 112H Writing and Rhetoric II: Honors and MATH 120 Quantitative Reasoning or ENGL 112H Writing and Rhetoric II: Honors and ACCU-T-67 EXAM-ACCUPLACER MATH MINIMUM SCORE = 67 or ENGL 112H Writing and Rhetoric II: Honors and ACT-M-23 EXAM-ACT MATH MINIMUM SCORE = 23 or ENGL 112H Writing and Rhetoric II: Honors and SAT-M-550 EXAM-SAT MATH MINIMUM SCORE = 550 or ENGL 122 International Writing and Rhetoric II and MATH 110 College Mathematics or ENGL 122 International Writing and Rhetoric II and MATH 115 Liberal Arts Mathematics or ENGL 122 International Writing and Rhetoric II and MATH 120 Quantitative Reasoning or ENGL 122 International Writing and Rhetoric II and ACCU-T-67 EXAM-ACCUPLACER MATH MINIMUM SCORE = 67 or ENGL 122 International Writing and Rhetoric II and ACT-M-23 EXAM-ACT MATH MINIMUM SCORE = 23 or ENGL 122 International Writing and Rhetoric II and SAT-M-550 EXAM-SAT MATH MINIMUM SCORE = 550 or ENGL 112 Writing and Rhetoric II and ALEK-1-46 EXAM-ALEKS MINIMUM SCORE = 46 or ENGL 112H Writing and Rhetoric II: Honors and ALEK-1-46 EXAM-ALEKS MINIMUM SCORE = 46 or ENGL 122 International Writing and Rhetoric II and ALEK-1-46 EXAM-ALEKS MINIMUM SCORE = 46

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **AUDI 443 Networks and Networking for Media**

Through lectures, readings and hands-on experience, this course provides a basic understanding of the networks and networking protocols necessary for reliable, secure communication in a digital media world. Intended for students who have completed the department's core curriculum, it is also offered to non-majors with instructor approval. Major topics include network topologies (LAN, WAN, WLAN, MAN) and protocols (primarily TCP/IP), IP addressing hierarchies, switching, routing, and VLANs, and network security.

**Repeatable:** *N*

**Formerly** 43-3622

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## Music Recording

As a result of successfully completing program requirements, students should be able to:

- apply principles of audio science, theory and practice to predict, formulate and implement effective sound assessment, recording, processing, mixing and synthesis, within a given context;
- demonstrate fluency on a variety of audio production technologies and platforms appropriate for the completion of projects in live and studio contexts;
- develop critical listening skills to identify and assess the impact of the features of sound sources and the capabilities of recording and processing technologies toward the aesthetic goals of a given project; and
- apply effective planning, communication, management and quality control skills to complete professionally and aesthetically successful audio production projects.

**Required for the Concentration:**

## AUDI 122 DAW Production Techniques and Applications

Course provides students with a solid foundation in working with digital audio workstations. Through lecture/demonstration/discussions, in-class and homework assignments, and a series of creative projects, students gain experience with fundamental practices in digital audio production, including editing, signal processing, automation, mixing, and preparing audio deliverables. Students participate in a series of exercises to develop and refine critical listening, evaluation, and judgment abilities. In the process, students adopt techniques and strategies for organizing and managing sessions, developing effective communication and presentation skills, and acquiring a sense of professionalism in the field.

**Repeatable:** *N*

**Formerly** 43-2215

**Prerequisites** AUDI 121 Fundamentals of Audio Production

**Minimum Credits 3 Maximum Credits 3**

## AUDI 221 Multitrack Music Recording I

Students are introduced to the theories, technologies, and practice of multi-track recording sessions. This is the first studio techniques class to be taken by students who select the Audio Design & Production major. Classes focus on the fundamentals of multi-track recording, building upon the fundamentals of console design and signal processing systems as presented in Fundamentals of Audio Production, Audio Theory and Systems, and DAW Production Techniques and Applications. The class includes lecture-demonstrations, in-class group tracking sessions, and additional lab assignments, which are completed in the studios and labs of the Audio Arts & Acoustics Department.

**Repeatable:** *N*

**Formerly** 43-2210

**Prerequisites** AUDI 122 DAW Production Techniques and Applications and AUDI 103 Audio Theory and Systems and AUDI 105 Signal Flow and Gain Structure

**Minimum Credits** 4 **Maximum Credits** 4

## **AUDI 321 Multitrack Music Recording II**

Students become proficient in the theories, technologies, and practice of multi-track recording and mixing. Building upon the concepts introduced in Multitrack Music Recording I, students continue to study and practice studio recording with an increased focus on digital audio workstation signal flow, signal processing and mixing techniques. Students will conduct in-class as well as independent team recording projects. Class lectures and demonstrations focus on the team projects, including ongoing critiques of both recordings and mixes.

**Repeatable:** *N*

**Formerly** 43-3210

**Prerequisites** AUDI 221 Multitrack Music Recording I

**Minimum Credits** 4 **Maximum Credits** 4

## **AUDI 323 Live Sound Recording**

This hands-on course explores minimal microphone location recording. These techniques are fundamental to those employed in multi-track studio recording. Course highlights understanding, selection, and placement of microphones through a wide variety of acoustical environments and instruments. Emphasis is placed on classical and acoustic music, ambient sound recording, and sound effects recording. Students check out location recording equipment and record a number of events during the semester.

**Repeatable:** *N*

**Formerly** 43-2220

**Prerequisites** AUDI 122 DAW Production Techniques and Applications and AUDI 105 Signal Flow and Gain Structure

**Minimum Credits** 3 **Maximum Credits** 3

*Choose two of the following courses:*

## **AUDI 211 Audio Programming and Performance**

This course introduces principles of sound synthesis and audio programming applied to live performance. The students learn to design their own mini instruments as they explore real-time audio programming topics, including fundamentals of sound synthesis and signal processing (e.g. Additive, Subtractive, Granular, AM, FM), control protocols (e.g. OSC), patterns and event structures, live coding and performance. The semester culminates in a live public performance of original compositions for a laptop ensemble.

**Repeatable:** *N*

**Formerly** 43-2241

**Prerequisites** PROG 101 Programming I or PROG 110 Art of Code

**Minimum Credits** 3 **Maximum Credits** 3

## **AUDI 231 Psychoacoustics**

Class provides the necessary basis for understanding how we hear the world around us. The course is multidisciplinary, with contributions from the academic disciplines of auditory physiology, physics, and

psychology. It examines how the human auditory system processes the information it receives, that is, how physical attributes of sound translate into perceptual attributes such as loudness, pitch, and timbre. Topics extend to the perception of music, sound localization, speech, and beyond. Numerous audio-visual demonstrations are used to reinforce the theoretical material presented.

**Repeatable:** *N*

**Formerly** 43-2310

**Prerequisites** PHYS 215 The Science of Acoustics I

**Minimum Credits 3 Maximum Credits 3**

## **AUDI 311 Digital Audio Effects Programming**

This course provides an in-depth exploration of the real-time digital audio processes behind the most common types of audio effects. These processes include basic signal modification (e.g. gain, pan, combining signals), filtering and equalization, delay-based effects and modulators, dynamic range processors, distortion effects, and analysis/ resynthesis. Students will design and program working examples of these processes in a high-level audio programming language, preparing the ground for designing, programming, and implementing audio plug-ins.

**Repeatable:** *N*

**Prerequisites** AUDI 103 Audio Theory and Systems and PROG 101 Programming I or AUDI 103 Audio Theory and Systems and PROG 110 Art of Code

**Minimum Credits 3 Maximum Credits 3**

## **AUDI 312 Principles of Audio Deliverables Mastering and Preservation**

Audio design and production does not end with the final mix but rather leads to a series of critical considerations: how to prepare (master/ re-master) the recording for the intended audience; in what format(s) to best deliver the recording; how to ensure the fidelity and integrity of the recorded signal along the way; what of the production process to save for future use; and how to archive and preserve that material. In addition to original production work, many of these considerations apply to the entire legacy of recorded audio, as evidenced by a proliferation of commercial and nonprofit initiatives in audio archiving, preservation, and restoration. This course addresses the essential aspects of audio design and production related to the dissemination and preservation of audio recordings, from delivery (mastering and deliverables) to preservation (archiving, preservation, and restoration). Through readings, investigation and analysis assignments, and in-class lectures, discussions, and demonstrations, students will encounter critical questions, theories, processes, and practices which are necessary and useful in a range of professional applications.

**Repeatable:** *N*

**Formerly** 43-3243

**Prerequisites** AUDI 221 Multitrack Music Recording I or AUDI 324 Audio for Visual Media I

**Minimum Credits 3 Maximum Credits 3**

## **AUDI 314 New Musical Interface Design**

This course lies at the intersection of "interaction design" and "sound and music computing," covering the study and use of sound as one of the principal channels conveying information, meaning, and aesthetic/emotional qualities in interactive contexts. It focuses on technology-mediated, aesthetically-grounded design of new interfaces for musical expression, and the questions that arise from them. It also introduces design methods such as Bootlegging, Auditory Storyboarding, Paper and Sonic Prototyping, Participatory Design, Inclusive Design, Product Sound Design, Interactive Sonification, Tangible and

Embodied Interaction, and Audio APIs (e.g. Designing sound in the cloud).

**Repeatable:** *N*

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

## **AUDI 322 Applied Audio and Music Production for Media**

Students gain experience with current practices and techniques in audio and music production for media and industry, which often require the audio professional to serve in multiple roles in the production process, including audio engineer, producer, sound designer, composer, software programmer, and more. Students will complete individual and group projects that include adaptive ambient loop creation, sound design, MIDI composition for interactive and non-linear applications, post-production for picture, and audio book and documentary production.

**Repeatable:** *N*

**Formerly** 43-3115

**Prerequisites** AUDI 324 Audio for Visual Media I or AUDI 221 Multitrack Music Recording I or GAME 235 Sound and Music for Interactive Visual Media or MUSC 251 Digital Music Production II

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

## **AUDI 324 Audio for Visual Media I**

Studio course presents the technology and techniques used in creating sound tracks for TV, film, and multi-media. Students learn the technology and techniques of synchronizing video with all audio platforms, including analog and both linear and non-linear digital recording and editing systems.

**Repeatable:** *N*

**Formerly** 43-2420

**Prerequisites** AUDI 122 DAW Production Techniques and Applications and AUDI 105 Signal Flow and Gain Structure

**Minimum Credits** 4 **Maximum Credits** 4

## **AUDI 411 Data Sonification**

Sonification is the use of designed or intentional sound to display system states and other informational data. This course introduces the concepts and design techniques used in sonification ranging from earcons, spearcons and auditory icons to translation techniques used in mapping data into sound for probing, monitoring, and auditory display for enhanced user interfaces and monitoring and purposes.

**Repeatable:** *N*

**Formerly** 43-3562

**Prerequisites** AUDI 202 Studies in Hearing

**Minimum Credits** 3 **Maximum Credits** 3

## **AUDI 412 Spatial Audio**

This course focuses on the relationship between sound and space from a scientific and artistic perspective. It reviews the physiological and psychacoustic foundations of spatial hearing, as well as of stereophonic recording and production techniques. Other major topics include: impulse responses, binaural sound reproduction, 5.1 and other surround sound formats, Ambisonics and other 3D sound spatialization

techniques, microphone and loudspeaker arrays. Examples will be drawn from the history and current artistic practice of spatial audio.

**Repeatable:** *N*

**Prerequisites** AUDI 202 Studies in Hearing or AUDI 231 Psychoacoustics

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **AUDI 436 Research Methods: An Interdisciplinary Approach**

Understanding research on quantitative and observable data requires a thorough understanding of the scientific method, familiarity with multiple methodological approaches to research, as well as the ability to critically evaluate the strengths and limitations of methods and data collected within a research paradigm. This multidisciplinary course is designed particularly for students within Media Arts who will benefit from an understanding of research methods in science and communications, as distinct from research in humanities and creative arts. Students in this course will learn about the strengths and limitations of various types of research, as well as directly apply research methods through group and individual research proposals and projects, including projects within their discipline.

This course is not discipline-specific and therefore can serve students outside the department.

**Repeatable:** *N*

**Formerly** 43-3583

**Prerequisites** ENGL 112 Writing and Rhetoric II and MATH 110 College Mathematics or ENGL 112 Writing and Rhetoric II and MATH 115 Liberal Arts Mathematics or ENGL 112 Writing and Rhetoric II and MATH 120 Quantitative Reasoning or ENGL 112 Writing and Rhetoric II and ACCU-T-67 EXAM-ACCUPLACER MATH MINIMUM SCORE = 67 or ENGL 112 Writing and Rhetoric II and ACT-M-23 EXAM-ACT MATH MINIMUM SCORE = 23 or ENGL 112 Writing and Rhetoric II and SAT-M-550 EXAM-SAT MATH MINIMUM SCORE = 550 or ENGL 112H Writing and Rhetoric II: Honors and MATH 110 College Mathematics or ENGL 112H Writing and Rhetoric II: Honors and MATH 115 Liberal Arts Mathematics or ENGL 112H Writing and Rhetoric II: Honors and MATH 120 Quantitative Reasoning or ENGL 112H Writing and Rhetoric II: Honors and ACCU-T-67 EXAM-ACCUPLACER MATH MINIMUM SCORE = 67 or ENGL 112H Writing and Rhetoric II: Honors and ACT-M-23 EXAM-ACT MATH MINIMUM SCORE = 23 or ENGL 112H Writing and Rhetoric II: Honors and SAT-M-550 EXAM-SAT MATH MINIMUM SCORE = 550 or ENGL 122 International Writing and Rhetoric II and MATH 110 College Mathematics or ENGL 122 International Writing and Rhetoric II and MATH 115 Liberal Arts Mathematics or ENGL 122 International Writing and Rhetoric II and MATH 120 Quantitative Reasoning or ENGL 122 International Writing and Rhetoric II and ACCU-T-67 EXAM-ACCUPLACER MATH MINIMUM SCORE = 67 or ENGL 122 International Writing and Rhetoric II and ACT-M-23 EXAM-ACT MATH MINIMUM SCORE = 23 or ENGL 122 International Writing and Rhetoric II and SAT-M-550 EXAM-SAT MATH MINIMUM SCORE = 550 or ENGL 112 Writing and Rhetoric II and ALEK-1-46 EXAM-ALEKS MINIMUM SCORE = 46 or ENGL 112H Writing and Rhetoric II: Honors and ALEK-1-46 EXAM-ALEKS MINIMUM SCORE = 46 or ENGL 122 International Writing and Rhetoric II and ALEK-1-46 EXAM-ALEKS MINIMUM SCORE = 46

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **AUDI 443 Networks and Networking for Media**

Through lectures, readings and hands-on experience, this course provides a basic understanding of the networks and networking protocols necessary for reliable, secure communication in a digital media world. Intended for students who have completed the department's core curriculum, it is also offered to non-majors with instructor approval. Major topics include network topologies (LAN, WAN, WLAN, MAN) and protocols

(primarily TCP/IP), IP addressing hierarchies, switching, routing, and VLANs, and network security.

**Repeatable:** *N*

**Formerly** 43-3622

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

*Choose three of the following courses:*

### **AUDI 415 Advanced Practicum in Sound Art**

Course explores the aesthetics and techniques of sound art. A major component of the course is the ongoing analysis and critique of the students' work. In addition to readings, lecture, discussion, and analytical listening, students are expected to give and receive feedback and critiques, under the instructor's guidance. Students are expected to work independently on projects developed with the consent of the instructor.

**Repeatable:** *N*

**Formerly** 43-3290

**Prerequisites** AUDI 122 DAW Production Techniques and Applications or MUSC 228 Digital Music Composition and Performance or GAME 235 Sound and Music for Interactive Visual Media or CINE 311 Post-Production Audio II

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

### **AUDI 416 Advanced Practicum in Analog Studio Recording**

Course focuses on the craft of studio recording as it developed in the first era of the audio industry, prior to the advantages afforded us by digital technologies. This lecture/lab course is designed to teach the technologies, theories and creative processes engineers embraced in that era, such as live-to-stereo recording, linear-analog recording and editing, producing reverb using the analog plate and natural reverb chambers, analog delay techniques, and hybrid processing (daisy-chains) using discrete signal processors.

**Repeatable:** *N*

**Formerly** 43-3250

**Prerequisites** AUDI 481 Advanced Practicum in Studio Recording or AUDI 482 Advanced Practicum in Music Design

**Minimum Credits** 4 **Maximum Credits** 4

### **AUDI 426 Advanced Practicum in Album Production**

Students explore the techniques, procedures and aesthetic decisions employed in complex music recording productions in this studio/practicum course. It includes studying the manner in which the individual skills of audio engineering are applied in the context of client-based production environments. The engineering team will coproduce an album/EP project with Music Department ensembles. This project is augmented by reflection and discussion of the team's experiences.

**Repeatable:** *N*

**Formerly** 43-3292

**Prerequisites** AUDI 481 Advanced Practicum in Studio Recording or AUDI 482 Advanced Practicum in Music Design

**Minimum Credits** 4 **Maximum Credits** 4

## **AUDI 481 Advanced Practicum in Studio Recording**

Course gives an overview of current studio recording techniques, covering such topics as microphone usage, signal routing, and synchronization, as well as session set-up and psychology. Course is taught by leading Chicago recording engineers and is geared toward advanced students who desire a career in music engineering.

**Repeatable:** *N*

**Formerly** 43-3220

**Prerequisites** AUDI 321 Multitrack Music Recording II

**Requirements** Permission Required (DP)

**Minimum Credits** 4 **Maximum Credits** 4

## **AUDI 482 Advanced Practicum in Music Design**

Course introduces students to advanced concepts of musical design using tools of random access audio on a digital workstation. Each week, a component of musical design (for postproduction, editing, processing, and mixing) is introduced and illustrated by the instructor, who supervises the creation of a class project. This project serves as a model for techniques and aesthetics of DAW production. Students bring the weeks' instruction to their own team projects, which they complete in a time frame that parallels the class project.

**Repeatable:** *N*

**Formerly** 43-3230

**Prerequisites** AUDI 321 Multitrack Music Recording II

**Requirements** Permission Required (DP)

**Minimum Credits** 3 **Maximum Credits** 3

## **AUDI 484 Advanced Practicum in Live Sound Recording**

Course introduces students to advanced concepts and techniques of acoustic live sound recording and the relationship of acoustic recording with critical listening and high-definition playback systems. These techniques will help students gain essential knowledge of recording without the use of processing, such as equalization and compression, and to further understand how to properly assess such recordings through the assembly of high quality playback systems.

**Repeatable:** *N*

**Formerly** 43-3240

**Prerequisites** AUDI 323 Live Sound Recording

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

## General Audio Arts

**Required for the Concentration:**

## **AUDI 122 DAW Production Techniques and Applications**

Course provides students with a solid foundation in working with digital audio workstations. Through lecture/demonstration/discussions, in-class and homework assignments, and a series of creative projects, students gain experience with fundamental practices in digital audio production, including editing, signal processing, automation, mixing, and preparing audio deliverables. Students participate in a series of

exercises to develop and refine critical listening, evaluation, and judgment abilities. In the process, students adopt techniques and strategies for organizing and managing sessions, developing effective communication and presentation skills, and acquiring a sense of professionalism in the field.

**Repeatable:** *N*

**Formerly** 43-2215

**Prerequisites** AUDI 121 Fundamentals of Audio Production

**Minimum Credits 3 Maximum Credits 3**

## **AUDI 151 Aesthetics of Live Sound I**

Course defines in a structured fashion the psychology of the musician and physics of the instrument within the framework of sound reinforcement and analysis. The goal is to familiarize students with one instrument-musician-sound reinforcement approach per week.

**Repeatable:** *N*

**Formerly** 43-2510

**Prerequisites** AUDI 102 Introduction to Audio

**Minimum Credits 3 Maximum Credits 3**

## **AUDI 231 Psychoacoustics**

Class provides the necessary basis for understanding how we hear the world around us. The course is multidisciplinary, with contributions from the academic disciplines of auditory physiology, physics, and psychology. It examines how the human auditory system processes the information it receives, that is, how physical attributes of sound translate into perceptual attributes such as loudness, pitch, and timbre. Topics extend to the perception of music, sound localization, speech, and beyond. Numerous audio-visual demonstrations are used to reinforce the theoretical material presented.

**Repeatable:** *N*

**Formerly** 43-2310

**Prerequisites** PHYS 215 The Science of Acoustics I

**Minimum Credits 3 Maximum Credits 3**

## **AUDI 242 Sound System Design**

Course offers an in-depth look at what goes into designing and installing permanent sound systems. Students learn to design systems for coverage, intelligibility, and cost effectiveness. Emphasis is placed on understanding specifications of system component and predicting system performance.

**Repeatable:** *N*

**Formerly** 43-3610

**Prerequisites** AUDI 103 Audio Theory and Systems and AUDI 105 Signal Flow and Gain Structure

**Minimum Credits 3 Maximum Credits 3**

## **AUDI 323 Live Sound Recording**

This hands-on course explores minimal microphone location recording. These techniques are fundamental to those employed in multi-track studio recording. Course highlights understanding, selection, and placement of microphones through a wide variety of acoustical environments and instruments. Emphasis is placed on classical and acoustic music, ambient sound recording, and sound effects recording. Students check out location recording equipment and record a number of events during the semester.

**Repeatable:** N

**Formerly** 43-2220

**Prerequisites** AUDI 122 DAW Production Techniques and Applications and AUDI 105 Signal Flow and Gain Structure

**Minimum Credits** 3 **Maximum Credits** 3

*Choose four of the following courses:*

### **AUDI 211 Audio Programming and Performance**

This course introduces principles of sound synthesis and audio programming applied to live performance. The students learn to design their own mini instruments as they explore real-time audio programming topics, including fundamentals of sound synthesis and signal processing (e.g. Additive, Subtractive, Granular, AM, FM), control protocols (e.g. OSC), patterns and event structures, live coding and performance. The semester culminates in a live public performance of original compositions for a laptop ensemble.

**Repeatable:** N

**Formerly** 43-2241

**Prerequisites** PROG 101 Programming I or PROG 110 Art of Code

**Minimum Credits** 3 **Maximum Credits** 3

### **AUDI 221 Multitrack Music Recording I**

Students are introduced to the theories, technologies, and practice of multi-track recording sessions. This is the first studio techniques class to be taken by students who select the Audio Design & Production major. Classes focus on the fundamentals of multi-track recording, building upon the fundamentals of console design and signal processing systems as presented in Fundamentals of Audio Production, Audio Theory and Systems, and DAW Production Techniques and Applications. The class includes lecture-demonstrations, in-class group tracking sessions, and additional lab assignments, which are completed in the studios and labs of the Audio Arts & Acoustics Department.

**Repeatable:** N

**Formerly** 43-2210

**Prerequisites** AUDI 122 DAW Production Techniques and Applications and AUDI 103 Audio Theory and Systems and AUDI 105 Signal Flow and Gain Structure

**Minimum Credits** 4 **Maximum Credits** 4

### **AUDI 241 The Art of Troubleshooting**

Because complex, interactive systems fail in complex, interactive ways, this course builds six essential competencies to assist system designers and system operators to cope with failure and limit immediate damage; to collect symptoms and understand systems rapidly; to apply inferential logic and avoid logical fallacies; to identify, trap, and limit failures; and to patch around them. This is not a course in equipment repair.

**Repeatable:** N

**Formerly** 43-3621

**Prerequisites** AUDI 103 Audio Theory and Systems

**Minimum Credits** 3 **Maximum Credits** 3

### **AUDI 252 Live Sound Reinforcement**

This course is designed to teach techniques and tools of sound reinforcement. Content combines product awareness with ear training and hands-on practice. Students complete lab assignments in the Audio Technology Center Live Sound Lab and spend two lab sessions at local music clubs.

**Repeatable:** *N*

**Formerly** 43-2515

**Prerequisites** AUDI 102 Introduction to Audio and AUDI 105 Signal Flow and Gain Structure

**Minimum Credits** 3 **Maximum Credits** 3

## **AUDI 312 Principles of Audio Deliverables Mastering and Preservation**

Audio design and production does not end with the final mix but rather leads to a series of critical considerations: how to prepare (master/ re-master) the recording for the intended audience; in what format(s) to best deliver the recording; how to ensure the fidelity and integrity of the recorded signal along the way; what of the production process to save for future use; and how to archive and preserve that material. In addition to original production work, many of these considerations apply to the entire legacy of recorded audio, as evidenced by a proliferation of commercial and nonprofit initiatives in audio archiving, preservation, and restoration. This course addresses the essential aspects of audio design and production related to the dissemination and preservation of audio recordings, from delivery (mastering and deliverables) to preservation (archiving, preservation, and restoration). Through readings, investigation and analysis assignments, and in-class lectures, discussions, and demonstrations, students will encounter critical questions, theories, processes, and practices which are necessary and useful in a range of professional applications.

**Repeatable:** *N*

**Formerly** 43-3243

**Prerequisites** AUDI 221 Multitrack Music Recording I or AUDI 324 Audio for Visual Media I

**Minimum Credits** 3 **Maximum Credits** 3

## **AUDI 324 Audio for Visual Media I**

Studio course presents the technology and techniques used in creating sound tracks for TV, film, and multimedia. Students learn the technology and techniques of synchronizing video with all audio platforms, including analog and both linear and non-linear digital recording and editing systems.

**Repeatable:** *N*

**Formerly** 43-2420

**Prerequisites** AUDI 122 DAW Production Techniques and Applications and AUDI 105 Signal Flow and Gain Structure

**Minimum Credits** 4 **Maximum Credits** 4

## **AUDI 436 Research Methods: An Interdisciplinary Approach**

Understanding research on quantitative and observable data requires a thorough understanding of the scientific method, familiarity with multiple methodological approaches to research, as well as the ability to critically evaluate the strengths and limitations of methods and data collected within a research paradigm. This multidisciplinary course is designed particularly for students within Media Arts who will benefit from an understanding of research methods in science and communications, as distinct from research in humanities and creative arts. Students in this course will learn about the strengths and limitations of various types of research, as well as directly apply research methods through group and individual research proposals and projects, including projects within their discipline.

This course is not discipline-specific and therefore can serve students outside the department.

**Repeatable:** *N*

**Formerly** 43-3583

**Prerequisites** ENGL 112 Writing and Rhetoric II and MATH 110 College Mathematics or ENGL 112 Writing and Rhetoric II and MATH 115 Liberal Arts Mathematics or ENGL 112 Writing and Rhetoric II and MATH 120 Quantitative Reasoning or ENGL 112 Writing and Rhetoric II and ACCU-T-67 EXAM-ACCUPLACER MATH MINIMUM SCORE = 67 or ENGL 112 Writing and Rhetoric II and ACT-M-23 EXAM-ACT MATH MINIMUM SCORE = 23 or ENGL 112 Writing and Rhetoric II and SAT-M-550 EXAM-SAT MATH MINIMUM SCORE = 550 or ENGL 112H Writing and Rhetoric II: Honors and MATH 110 College Mathematics or ENGL 112H Writing and Rhetoric II: Honors and MATH 115 Liberal Arts Mathematics or ENGL 112H Writing and Rhetoric II: Honors and MATH 120 Quantitative Reasoning or ENGL 112H Writing and Rhetoric II: Honors and ACCU-T-67 EXAM-ACCUPLACER MATH MINIMUM SCORE = 67 or ENGL 112H Writing and Rhetoric II: Honors and ACT-M-23 EXAM-ACT MATH MINIMUM SCORE = 23 or ENGL 112H Writing and Rhetoric II: Honors and SAT-M-550 EXAM-SAT MATH MINIMUM SCORE = 550 or ENGL 122 International Writing and Rhetoric II and MATH 110 College Mathematics or ENGL 122 International Writing and Rhetoric II and MATH 115 Liberal Arts Mathematics or ENGL 122 International Writing and Rhetoric II and MATH 120 Quantitative Reasoning or ENGL 122 International Writing and Rhetoric II and ACCU-T-67 EXAM-ACCUPLACER MATH MINIMUM SCORE = 67 or ENGL 122 International Writing and Rhetoric II and ACT-M-23 EXAM-ACT MATH MINIMUM SCORE = 23 or ENGL 122 International Writing and Rhetoric II and SAT-M-550 EXAM-SAT MATH MINIMUM SCORE = 550 or ENGL 112 Writing and Rhetoric II and ALEK-1-46 EXAM-ALEKS MINIMUM SCORE = 46 or ENGL 112H Writing and Rhetoric II: Honors and ALEK-1-46 EXAM-ALEKS MINIMUM SCORE = 46 or ENGL 122 International Writing and Rhetoric II and ALEK-1-46 EXAM-ALEKS MINIMUM SCORE = 46

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **AUDI 443 Networks and Networking for Media**

Through lectures, readings and hands-on experience, this course provides a basic understanding of the networks and networking protocols necessary for reliable, secure communication in a digital media world. Intended for students who have completed the department's core curriculum, it is also offered to non-majors with instructor approval. Major topics include network topologies (LAN, WAN, WLAN, MAN) and protocols (primarily TCP/IP), IP addressing hierarchies, switching, routing, and VLANs, and network security.

**Formerly** 43-3622

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **Comedy Writing and Performance, BA**

The Bachelor of Arts in Comedy Writing and Performance program is a collaborative partnership between the departments of Theatre, Cinema and Television Arts, and The Second City. It builds on the Theatre Department's long and successful tradition of teaching Improvisation and Sketch Comedy as part of its Acting sequence, and its successful nine-year partnership with The Second City in creating a semester-long immersion in the study and performance of comedy.

As a result of successfully completing program requirements, students should be able to:

- collaborate creatively within a broadly diverse ensemble of writer/performers;

- generate original comedic material using a variety of methods;
- conduct and apply research into historic comic styles and archetypes;
- produce comic material across a variety of media and for diverse audiences;
- revise work based on analysis of comic texts and collaborative feedback;
- execute clear, thoughtful, and effective comic choices in performance;
- identify and use voice/persona in comic writing and performance; and
- use professional and ethical practices in the pursuit of a career in comedy.

The skills required to pursue a career in comedy, while intersecting with those of the traditional theatre, also diverge from them in a number of important ways. The comedy marketplace today spans a wide spectrum of media from stage to television to film to internet-based content, within which the traditional roles of producer, director, writer, and performer are fluid. The BA in Comedy Writing and Performance seeks to provide the cross-training necessary for our graduates to successfully navigate this fluidity as they move forward in their careers. And while the program will seek to train professional comedians, the skills built during this training - collaboration, creative risk taking, understanding of personal voice and persona - are applicable to a multitude of careers and disciplines outside of the entertainment industry proper.

## PROGRAM REQUIREMENTS - 46 credits required

### **TELE 251 Video for Comedians and Performers**

This course is designed as an introductory course in the creative, aesthetic and deeply personal nature of performance. Students will learn simple technical skills necessary to produce performance & video art. Students will plan, produce, and perform their personal bodies of art in a physical and digital manner. Students will work solo or collaboratively on performance and video as an art form and document their projects. Students will be encouraged and assisted in expressing their artistic voice and exploring storytelling using new methods of performance, studio art, music, theater, dance and other art mediums. Students will be expected to perform live in class, both their own and others' material, in a nontraditional, newly creative manner. The uses of research, academic writing and both theoretical and personal discussion will be employed to create and produce the student's body of work. This course will use critical verbal critique to discuss the student's artwork.

**Repeatable:** *N*

**Formerly** 40-2501

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits** 3 **Maximum Credits** 3

### **THEA 120 Comedy Foundations I: Ensemble and Discovery**

Students investigate the elements and principles of process that can be applied to all aspects of comedy creation. Students will improvise, write and perform jokes and sketches for both video and live performance. Readings, ensemble-work, exercises, and attendance at Columbia College Chicago productions deepen understanding and appreciation of the scope of contemporary comedy practices.

**Repeatable:** *N*

**Formerly** 31-1253

**Concurrent Requisite** THEA 124 Comedy Survey I

**Minimum Credits** 4 **Maximum Credits** 4

### **THEA 121 Comedy Foundations II: Point of View and Performance**

Students explore and hone their performance skills, personal point of view, persona, and character work. Students apply these skills to a variety of performance modes that include improvisation, text and scenic work, clown, commedia, and partner/solo performance.

**Repeatable:** *N*

**Formerly** 31-1254

**Concurrent Requisite** THEA 125 Comedy Survey II

**Minimum Credits 4 Maximum Credits 4**

### **THEA 124 Comedy Survey I**

This course invites incoming students into their role as Comedy Writing and Performance Majors at Columbia College, and creative practitioners in the realm of comedy. Students will investigate the question of "what makes us laugh and why" through a series of readings, screenings, lectures, exercises, and discussions. Students will be introduced to core ideas, conventions of comedy across media, and Chicago area industry professionals who practice comedy in a variety of formats.

**Repeatable:** *N*

**Formerly** 31-1263

**Minimum Credits 2 Maximum Credits 2**

### **THEA 125 Comedy Survey II**

This course builds on Comedy Survey I. While Comedy Survey I explores the first three elements of comedy (Jokes, Physical Comedy and Narrative), Comedy II explores the final two elements--Point of View and Character. Students will investigate the question "Who is being laughed at, and why?" through a series of readings, screenings, lectures, and discussions. Students will investigate concepts of Parody, Satire, Taboo, Risk, Archetype and Stereotype.

**Repeatable:** *N*

**Formerly** 31-1264

**Prerequisites** THEA 124 Comedy Survey I

**Minimum Credits 2 Maximum Credits 2**

### **THEA 207 Scenes: Performance & Analysis**

Students take an active and creative role in analyzing and rehearsing scenes for performance. Students are encouraged to make choices that explore the text in the current cultural moment, but also to analyze the given circumstances embedded in the text. The integration of physical and vocal technique into performance continues from previous course work. Students will present scenes for live and on-camera performance.

**Repeatable:** *N*

**Formerly** 31-2200

**Prerequisites** THEA 112 Theatre Foundation II: Performance or THEA 125 Comedy Survey II or THEA 103 Voice for Non-Theatre Majors and THEA 102 Scene Study for Non-Theatre Majors

**Minimum Credits 3 Maximum Credits 3**

### **THEA 210 Improvisation in Performance**

This course builds on techniques and principles covered in Improvisation Essentials or Comedy Foundations. Through readings, viewings, and active work, students will understand and develop the skills needed for improvisation in performance including established and ensemble created games, scenes, and

long form structures. Students will participate in two performances with their class.

**Repeatable:** *N*

**Formerly** 31-2210

**Prerequisites** THEA 110 Improvisation Essentials or THEA 121 Comedy Foundations II: Point of View and Performance

**Minimum Credits 3 Maximum Credits 3**

### **THEA 221 Comedy: Theory**

This course builds on concepts and questions introduced in Comedy Survey II about the nature and ethics of comedy. Students will examine traditional theories of comedy and humor and analyze comedic texts and performances in a variety of media. Students will look at how comedy reflects the concerns of society. They will discuss their own responses to current events and issues as preparation to creating satiric work.

**Repeatable:** *N*

**Formerly** 31-2101

**Prerequisites** THEA 112 Theatre Foundation II: Performance or THEA 125 Comedy Survey II

**Minimum Credits 3 Maximum Credits 3**

### **THEA 223 Writing and Performing Comedy**

This course is an active exploration of a variety of approaches to creating and performing comedic and satirical work. Students will create and perform original work in a variety of mediums and examine how the context in which comedic work is presented affects its content. Throughout the term projects require a combination of research, written work, and oral presentations, as well as creative writing and performance work.

**Repeatable:** *N*

**Formerly** 31-2102

**Prerequisites** THEA 121 Comedy Foundations II: Point of View and Performance or THEA 112 Theatre Foundation II: Performance and THEA 110 Improvisation Essentials

**Minimum Credits 3 Maximum Credits 3**

### **THEA 390 Theatre Career**

This course will provide upper level Theatre majors with practical knowledge they will need to transition into careers in their field. Taught by our faculty of theatre professionals, this course explores: unions and contracts as they relate to theatre artists; models of producing: from the storefront theatre to LORT; creating a new theatre company; and self-promotion.

**Repeatable:** *N*

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 1 Maximum Credits 1**

*Choose one of the following courses:*

### **THEA 321A Topics In Comedy**

This course focuses on specific topics, skills or ideas in the field of comedy. Each semester this course covers different material that might not be included in the permanent course offerings or concentrates on new or experimental approaches in the field of comedy. These courses will include a significant performance

or writing component.

**Repeatable:** Y

**Formerly** THEA 321

**Prerequisites** THEA 223 Writing and Performing Comedy

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

### **THEA 321B Topics In Comedy**

This course focuses on specific topics, skills or ideas in the field of comedy. Each semester this course covers different material that might not be included in the permanent course offerings or concentrates on new or experimental approaches in the field of comedy. These courses will include a significant performance or writing component.

**Repeatable:** Y

**Prerequisites** THEA 223 Writing and Performing Comedy

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

### **THEA 391 The Professional Comedian**

Students meet with professionals from the world of comedy for discussions and practical advice on potential careers in comedy. They research and create individual and group comedy projects that will build their portfolio. Projects may include one or more of the following: writing and compiling a sketch packet, writing a sitcom spec., creating and shooting a web series pilot, creating a multiple character pieces for an SNL style audition. This course will conclude with a showcase of student work.

**Repeatable:** N

**Formerly** 31-3195

**Prerequisites** THEA 221 Comedy: Theory and THEA 223 Writing and Performing Comedy and THEA 210 Improvisation in Performance

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

**Comedy Studies Semester:**

### **THEA 286 Production and Performance**

Creative participation as a performer, designer, technician or crew member in Student Directing Projects, New Stew Showcases, Comedy or Faculty Workshop, or other department performances.

**Repeatable:** Y

**Formerly** 31-2301

**Requirements** Permission Required (DP)

**Minimum Credits** 0 **Maximum Credits** 2

### **THEA 325 Physical and Vocal Training for Comedy**

This course is designed to develop physical and vocal awareness that empowers students to be more fully present in process and performance. Students will participate in active physical and vocal explorations while learning techniques to broaden their understanding and mastery of physical comedy. This course is part of a

set of connected courses that comprise the Comedy Studies semester that takes place at The Second City and material created in this course may be used in the showcase performances held in a Second City theatre that take place at the end of the semester.

**Repeatable:** *N*

**Formerly** 31-2390

**Concurrent Requisite** THEA 341 History and Analysis of Modern American Comedy and THEA 342 Writing Comic Scenes and THEA 343 Creating Scenes through Improvisation and THEA 344 Acting Sketch and Theatrical Comedy

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

## **THEA 341 History and Analysis of Modern American Comedy**

This course is an overview of the history of modern American comedy tracing its roots in Western comedy traditions to present day. Through readings, viewings, research, written and creative assignments, students will develop an understanding of how social, historical, and economic contexts affect comedic performance and apply their understanding of these contexts to the creation of original comic work. This course is part of a set of connected courses that comprise the Comedy Studies semester that takes place at The Second City and material created in this course may be used in the showcase performances held in a Second City theatre that take place at the end of the semester.

**Repeatable:** *N*

**Formerly** 31-3190

**Concurrent Requisite** THEA 325 Physical and Vocal Training for Comedy and THEA 344 Acting Sketch and Theatrical Comedy and THEA 343 Creating Scenes through Improvisation and THEA 342 Writing Comic Scenes

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

## **THEA 342 Writing Comic Scenes**

This course provides a broad overview of types of comic scenes for the stage through the practical application of structure, characterization and comic principles. Students will study and write different types of comic scenes, analyze those scenes in terms of form and content, rewrite scenes, and pitch ideas for scenes. In addition, this course provides an introduction to pitching, developing story and writing treatments for television and film. This course is part of a set of connected courses that comprise the Comedy Studies semester that takes place at The Second City and material created in this course may be used in the showcase performances held in a Second City theatre that take place at the end of the semester.

**Repeatable:** *N*

**Formerly** 31-3890

**Concurrent Requisite** THEA 325 Physical and Vocal Training for Comedy and THEA 341 History and Analysis of Modern American Comedy and THEA 344 Acting Sketch and Theatrical Comedy and THEA 343 Creating Scenes through Improvisation

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

## **THEA 343 Creating Scenes through Improvisation**

This course covers the methods developed and used at The Second City theatre to create scripted sketch comedy using improvisational techniques. Students will work in small groups and as an ensemble to

generate sketch through preplanning and spot improvisations. They will apply a variety of styles and formats in improvised work. They will re-improvise and revise their material based on instructor notes and feedback. This course is part of a set of connected courses that comprise the Comedy Studies semester that takes place at The Second City and material created in this course may be used in the showcase performances held in a Second City theatre at the end of the semester.

**Repeatable:** *N*

**Formerly** 31-3295

**Concurrent Requisite** THEA 325 Physical and Vocal Training for Comedy and THEA 344 Acting Sketch and Theatrical Comedy and THEA 342 Writing Comic Scenes and THEA 341 History and Analysis of Modern American Comedy

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

## **THEA 344 Acting Sketch and Theatrical Comedy**

This course is a monologue and scene study course that focuses on the techniques specific to acting comic texts - sketch, revue, and modern American theatrical comedy. Students will analyze and rehearse monologues and scenes from contemporary sketch and modern and classic theatrical comedy. This course is part of a set of connected courses that comprise the Comedy Studies semester that takes place at The Second City and there is a midterm performance of Second City archival scenes.

**Repeatable:** *N*

**Formerly** 31-3290

**Concurrent Requisite** THEA 325 Physical and Vocal Training for Comedy and THEA 341 History and Analysis of Modern American Comedy and THEA 342 Writing Comic Scenes and THEA 343 Creating Scenes through Improvisation

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

## **Communication, BA**

The Bachelor of Arts in Communication curriculum prepares students to contribute intellectually, culturally and creatively as skilled communicators. Our program is unique as it pushes the boundaries of the traditional communication BA. Students learn to apply foundational visual, written and oral communication skills to solve real world challenges through project-based learning, internships, and a range of capstone projects. As students advance in their studies, the skills gained in data analysis and storytelling, multimedia production, leadership, global communications and community engagement are transformed into real-world portfolio pieces, opening doors in a wide array of career fields, from tech start-ups to non-profits to civic/government, and beyond. The program encourages students to choose between several complementary minors to further develop their skills in a specific area of focus within the communication industry. The professional experiences, creative challenges and analytical skills gained prepare students for roles in a range of commercial, artistic and civic endeavors.

As a result of successfully completing program requirements, students should be able to:

- analyze and evaluate the development, current state, and emerging trends of interpersonal, intercultural, and mediated communication;
- apply verbal and nonverbal communication practices to effectively interact in teams and collaborative environments;
- process and respond to individual identities, cultural world views, and historical frameworks that influence media absorption and message interpretation;

- produce mediated communication across a variety of platforms, appropriate to a diverse range of audiences, purposes, contents, and contexts; and
- contribute to the public discourse and build reciprocal relationships with communities in a meaningful and productive manner through ethical communication principles and practices.

## PROGRAM REQUIREMENTS - 42 credits required

### **COMM 102 Communication Essentials**

This hands-on interactive course explores communication perspectives and challenges (verbal and non-verbal) in our diverse culture. Students will practice management of creative communication issues and opportunities we all encounter working with others and in small group settings. Coursework will also investigate particular challenges facing us as ethical and responsible communicators in public, mass, and digital communication settings. Lastly, course will give students a glimpse of the wide range of creative career possibilities in communications fields.

**Repeatable:** *N*

**Formerly** 45-1300

**DEI**

**Minimum Credits 3 Maximum Credits 3**

### **COMM 120 Truth, Lies and Accuracy in the Digital Age**

In this media literacy class, you will examine and develop multiple strategies to access, evaluate, create and reflect on various media texts. You will critique current case studies from economic and cultural perspectives using various analysis tools and reliable sources. Your final research project will include a paper, a presentation and a media product that showcase your skills at locating reliable information, analyzing various points of views, and composing a media text reflecting your perspective and social responsibility.

**Repeatable:** *N*

**Formerly** 53-1610

**Minimum Credits 3 Maximum Credits 3**

### **COMM 140 Smartphone/photo**

This is a hands-on class focusing on the technical, aesthetic and multimedia skills needed to produce images with a smartphone for professional communication and storytelling.

**Repeatable:** *N*

**Formerly** JOUR 140

**Minimum Credits 1 Maximum Credits 1**

### **COMM 141 Smartphone/video**

This is a hands-on class focusing on the technical, aesthetic and multimedia skills needed to produce professional video with a smartphone.

**Repeatable:** *N*

**Formerly** JOUR 141

**Minimum Credits 1 Maximum Credits 1**

## **COMM 143 Smartphone/audio**

This is a hands-on class focusing on the technical, aesthetic and multimedia skills needed to produce professional audio with a smartphone.

**Repeatable:** *N*

**Formerly** JOUR 143

**Minimum Credits 1 Maximum Credits 1**

## **COMM 202 Applied Communication Research**

This course introduces students to best practices in communication research design and process. Students develop a mixed research methodology encompassing contemporary digital research and consumer collaborative creative methodologies to make better decisions for their audience's needs. It emphasizes translating research into actionable insights and applicable plans. The final project is an applied communication research project for an organization, non-profit, association, or brand, suitable for inclusion in the student's portfolio.

**Repeatable:** *N*

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **COMM 210 Visual Communication**

A theoretical and a hands-on course that immerses students in all aspects of visual communications, including typography, photography, illustration, informational graphics, design, and layout. Students will create visual projects according to their related fields.

**Repeatable:** *N*

**Formerly** 53-2220

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **COMM 310 Oral Traditions**

This foundational course introduces students to the study of oral tradition - the verbal transmission and preservation of information from one generation to the next - and its history and processes. Taking a multi-dimensional perspective, students study a range of verbal sources starting with the known origins of oral communication up to the modern application of spoken word performance.

**Repeatable:** *N*

**Formerly** 45-3410

**Prerequisites** COMM 102 Communication Essentials

**Minimum Credits 3 Maximum Credits 3**

## **COMM 325 Data Storytelling & Visual Strategies**

This class combines theory and practice on strategies of communicating data through digital graphics and various media platforms. It focuses on visual and media literacy, research, narrative storytelling, and media design. Students will gain experience in translating data into public visual stories by designing various digital media infographics and collaborating on a transmedia storytelling project, including images, explanatory

charts, maps, animation, and/or diagrams.

**Repeatable:** N

**Formerly** 53-3230

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

## **COMM 420 Media Ecosystems**

In this capstone project, students work in teams to analyze the civic impact and the reciprocal relationships between a media outlet and a local community. By applying media theories of public sphere, media ecology, and audience studies, the group conducts a social power analysis to explore the information flow, power relationships, and impact of all participants in the media ecosystem. Each team will deliver a professional media kit to their industry partner.

**Repeatable:** N

**Formerly** COMM 320

**DEI**

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

## **PURE 210 Presentation Skills**

Course emphasizes verbal skills, from presenting and selling ideas to developing an effective public presence before various audiences. It is recommended for students in other majors as they seek to market themselves. Qualifies for the Oral Communication requirement.

**Repeatable:** N

**Formerly** 54-2702

**SP**

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits** 3 **Maximum Credits** 3

## **PURE 330 Global Communications**

This course examines the role of global communications in human relationships and in business communications. We'll study the theory of intercultural communications in the context of global communications professional practice, and how culture impacts receptivity to messages. We will learn how global communications professionals navigate complex ecosystems to drive organizational success while breaking down barriers to inclusion and engaging stakeholders.

**Repeatable:** N

**Formerly** 54-3707

**GA**

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

## **Practice Electives**

*Choose three of the following courses:*

## **ADVE 371 Digital Media Planning**

Students create digital-first paid media communication solutions by identifying the right mix of digital advertising platforms, including social, mobile, search, video, digital display, non-digital platforms, and more. Students analyze media data, develop strategic insights, and create recommendations. The course involves media strategy, costing, scheduling, audience analysis, negotiation strategies, and programmatic buying. Students will learn professional resume-building and create a portfolio-ready, contemporary media plan.

**Repeatable:** N

**Formerly** 54-3102

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **COLL 230 Internship: Professionalism and Creativity**

This course allows students to take a valuable internship experience in their desired industry for academic credit. Each position is vetted and approved by Career Center to ensure that it is an educational opportunity that will fulfill the learning objectives of the course. Participating in an internship allows students to gain hands-on experience and explore career interests while applying knowledge and skills learned in the classroom to a work setting. The online, academic component of this internship fosters student understanding of how organizations operate and provides for structured reflection on their experiences and assessment of their knowledge and skills. Students are responsible for securing their own internships and should contact Career Center for assistance and resources to identify and apply for opportunities of interest.

**Repeatable:** Y

**Formerly** 99-2300

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

## **COMM 326 Semiotics for Creators of Popular Culture**

Writing-intensive course explores the study and use of semiotics (or symbolic meaning) in the development of advertising and other creative works that contribute to the content of popular culture. Interdisciplinary in scope, the course explores how advertising uses symbolic language from diverse disciplines such as literature, cinema, television, performing arts, architecture, fashion, and other fields that shape the overall popular culture.

**Repeatable:** Y

**Formerly** 54-3670

**SS**

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **COMM 326H Semiotics for Creators of Popular Culture: Honors**

Writing-intensive course explores the study and use of semiotics (or symbolic meaning) in the development of advertising and other creative works that contribute to the content of popular culture. Interdisciplinary in scope, the course explores how advertising uses symbolic language from diverse disciplines such as literature, cinema, television, performing arts, architecture, fashion, and other fields that shape the overall popular culture. This is an Honors class. In addition to other possible pre-requisites, students need a minimum G.P.A. of 3.50 or higher to enroll.

**Repeatable:** Y

**Formerly** 54-3670HN

**SS**

**Requirements** 3.5 or Higher GPA (35GP)

**Minimum Credits** 3 **Maximum Credits** 3

## **JOUR 216 Blogging: Beyond the Basics**

Anyone can blog; this course will teach you how to blog well. Students from throughout the college identify a niche, research the editorial opportunities for that audience, report and write posts, shoot and upload relevant photos and videos, and implement blogging best practices, including ethics, copyright, links, SEO, social media and monetization.

**Repeatable:** Y

**Formerly** 53-2116

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

## **PURE 310 Social Change Communications**

Course focuses on emerging communication strategies and techniques to promote social causes and issues. We will look at the inextricable link between public opinion and communication. Through analyses of social causes and issues, students will explore how these practices are creating an impact in areas like social welfare, health, energy, gender, and multiculturalism.

**Repeatable:** N

**Formerly** 54-3714

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Minimum Credits** 3 **Maximum Credits** 3

## **PURE 450 Organizational Communication**

The most effective organizations build brand loyalty across all stakeholder groups, internal and external, as a method of achieving business strategy. Through open discussions, case studies, research, readings, and guest speakers in the discipline, students will learn how some of the world's most successful organizations grow market share and build world-class brands through effective organizational communication. Students will gain insights into the design and strategy of the organizational communication function, and the profile, character traits, and strategies of the effective leader communicator. Students will also learn how organizational communication unlocks the potential and passions of key stakeholder groups, particularly internal stakeholder groups; builds loyalty and trust; enhances the reputation of the organization; and drives the achievement of key performance indicators (KPIs).

**Repeatable:** N

**Prerequisites** PURE 102 Intro to Public Relations and PURE 105 Public Relations Writing or COMM 102 Communication Essentials and COMM 202 Applied Communication Research

**Minimum Credits** 3 **Maximum Credits** 3

## **RADI 302 Radio Storytelling**

This course focuses on the craft of writing and producing effective radio essays made popular through work found on National Public Radio. Emphasis is placed on storytelling techniques, writing for the ear, sound

usage and basic spoken-word audio editing. Students produce four completed radio essays. The course progresses from writing to re-drafting, to audio production, to completed packages. Selected pieces will be considered for broadcast on WCRX 88.1 FM.

**Repeatable:** N

**Formerly** RADI 202

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

## Capstone

*Choose one of the following courses:*

### **ADVE 420 Agency**

Students learn how to function in an advertising or public relations agency as a specialist (account management, creative, media, traffic, production) and as a member of an agency team. Students work with actual clients on real assignments, participate in client meetings, generate contact reports, conduct research, develop strategies, write media plans, ideate concepts, and produce tactical elements. Course culminates in the production of completed marketing campaign elements, enabling students to have published samples for their portfolios.

**Repeatable:** Y

**Formerly** 54-4978

**Minimum Credits 3 Maximum Credits 3**

### **COMM 470 Digital Content and Analytics**

This course focuses on digital communication tools utilized today to strategically plan, create, execute, and evaluate strategic communication programs across contemporary platforms, both well-established and emerging. Industry tools to be explored include: Google Analytics, social media, search engine marketing, and email marketing. Students will explore strategically planning, creating, and analyzing digital content outcomes.

**Repeatable:** N

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **COMM 499A Advanced Topics in Communication**

This is an advanced topics course in Communication for the Communication Department. Topics will vary.

**Repeatable:** Y

**Formerly** COMM 399A

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **COMM 499B Advanced Topics in Communication and Media**

This is an advanced topics course in Communication for the Communication Department. Topics will vary.

**Repeatable:** Y

**Formerly** COMM 399B

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **RADI 481 WCRX Practicum I**

This course provides hands-on experience in the operation of college radio station WCRX. Students become proficient with new digital tools and various digital platforms to understand and effectively use social media in a live broadcast environment. Students work on the air as a music or talk host, news or sports anchor, or call play-by-play sports. They may also work in production or as a social media producer to develop content and maintain social media on-line communities for WCRX. Course requires a minimum of six hours per week of practical activity and two class hours per week.

**Repeatable:** Y

**Formerly** 41-3300

**Prerequisites** RADI 118 Radio Workshop and RADI 210 Radio Production I: Intro

**Requirements** Permission Required (DP) and Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **Creative Writing, BA**

The Creative Writing Bachelor of Arts degree encourages students to pursue both specialization and breadth. Students choose to specialize in one of three concentrations (Fiction, Nonfiction and Poetry) while also exploring broad, cross-genre writing opportunities in creative writing courses outside their chosen concentration. Creative Writing majors take 18 hours of Core workshop courses -- at least 12 of which are in their chosen concentration. The Writer's Portfolio, a required junior-year course, gives students the opportunity to reflect on the body of work they've produced at Columbia (in preparation for their Thesis Workshop), while also helping them explore options for applying their writing skills to the workplace after graduation.

Work in the major culminates in the capstone Thesis Workshop, in which students write, revise, and compile a portfolio that can serve as a potential publication, a demonstration of work for employers, or as a graduate school writing submission. Craft and Process Seminars, along with a series of Literature courses (designed for Creative Writers), allow students to explore the history of their chosen genre while creating original and innovative work of their own.

The wide range of course offerings in the Creative Writing Bachelor of Arts degree program helps prepare students to be competitive for an expansive range of careers, both in creative writing and in fields where effective communication, creative problem-solving, critical analysis, editing, and group relationship skills are crucial factors.

## **PROGRAM REQUIREMENTS - 42 credits required**

### **CRWR 110 Foundations in Creative Writing**

This course will introduce students to an extensive creative writing practice by inviting them to write in a number of different genres and forms. Students will become familiar with core literary devices such as structure, conflict, scene, character, voice, point of view, setting, tone, metaphor, imagery, dialogue, and

language. Students will learn to read closely and analyze stylistic choices and literary elements from genres such as poetry, fiction, nonfiction, playwriting, and hybrid texts. Course writing will range from experimental to traditional, from structured to open. Students will be introduced to the workshop process by writing in various genres and by providing feedback to their peers.

**Repeatable:** N

**Formerly** 59-1100

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 316 Writer's Portfolio**

Course combines the study of aesthetics with the study of the business of creative writing. Student writing in class may include (but is not limited to) critical essays on the craft of creative writing; craft commentaries on your own work and on the work of others; interviews with other writers; cover letters; query letters; and research essays on publishing markets. Students will learn about professional presentation for submitting their writing for publication and for evaluation by employers and graduate-admission committees in fields where effective communication, creative problem-solving, critical analysis, editing, and group relationship skills are crucial factors.

**Repeatable:** N

**Formerly** 59-3150

**Prerequisites** CRWR 250 Fiction Workshop: Intermediate or CRWR 255 Poetry Workshop: Intermediate or CRWR 260 Creative Nonfiction Workshop: Intermediate

**Minimum Credits 3 Maximum Credits 3**

### **LITR 103 Introduction to Literary Interpretation**

Course introduces students to key terms, concepts, and techniques of literary interpretation, with attention to questions of genre, period, and critical perspective. Students analyze selections of poetry, fiction, nonfiction, and/or drama representing a range of historical periods and cultural traditions, and they learn to compose evidence-based interpretive arguments. Designed for students in English and Creative Writing.

**Repeatable:** N

**Formerly** 52-1701

**DEI**

English or Creative Writing Major or Minor Only (4ECW)

**Minimum Credits 3 Maximum Credits 3**

*Complete 6 credits from the following courses:*

### **LITR 386A Seminar in Literary Interpretation**

This rotating topics course provides students with opportunities for advanced literary analysis in a seminar format, building on the skills in reading, interpretation, research, and argumentation addressed in prior literature courses. Students give focused attention to a selected set of authors, texts, critical perspectives, and / or debates in literary studies and write sustained interpretive arguments based on research and textual analysis. Course is repeatable as topic changes.

**Repeatable:** Y

**Formerly** LITR 386

## **Electives**

*Complete 6 credits from the following courses:*

### **COLL 210 Internship**

This course allows students to take a valuable internship experience in their desired industry for academic credit. Each position is vetted and approved by Career Center to ensure that it is an educational opportunity that will fulfill the learning objectives of the course. Participating in an internship allows the student to gain hands-on experience and explore career interests while applying knowledge and skills learned in the classroom to a work setting. The experience also helps students gain a clearer sense of what they still need to learn and provides an opportunity to build professional networks. Students are responsible for securing their own internships and having them approved prior to registering for this course. Please contact the

Career Center for assistance and resources.

**Repeatable:** Y

**Formerly** 99-2100

**Requirements** Permission Required (DP)

**Minimum Credits 1 Maximum Credits 1**

### **COLL 230 Internship: Professionalism and Creativity**

This course allows students to take a valuable internship experience in their desired industry for academic credit. Each position is vetted and approved by Career Center to ensure that it is an educational opportunity that will fulfill the learning objectives of the course. Participating in an internship allows students to gain hands-on experience and explore career interests while applying knowledge and skills learned in the classroom to a work setting. The online, academic component of this internship fosters student understanding of how organizations operate and provides for structured reflection on their experiences and assessment of their knowledge and skills. **Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 112 Tutoring Fiction Writing Skills**

Tutorial course addresses basic skills in grammar and punctuation, fiction writing, rewriting, editing, journal writing, organization, and more. Tutorial Program is designed for students concurrently enrolled in Fiction Writing Workshop, Prose Forms, Critical Reading and Writing, and Specialty Writing classes. Many students find one-on-one attention of a tutor (who is an advanced writing student) gives their writing added energy and clarity and helps them make valuable discoveries.

**Repeatable:** Y

**Formerly** 59-1450

**Concurrent Requisite** CRWR 150 Fiction Workshop: Beginning

**Minimum Credits 1 Maximum Credits 2**

### **CRWR 120A Craft and Process Seminar in Fiction: Topics**

Course requires that qualified students study the works of writers' processes, styles, techniques and choices by reading and researching published novels, short stories, journals, letters and interviews, as well as author biographies. Students gain in-depth knowledge of the cultural context of authors' works. Students explore the writing processes of well known authors and the ways in which students' own responses to the reading can nourish and heighten the development of their own fiction.

**Repeatable:** Y

**Formerly** CRWR 120

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 120B Craft and Process Seminar in Fiction: Topics**

Course requires that qualified students study the works of writers' processes, styles, techniques and choices by reading and researching published novels, short stories, journals, letters and interviews, as well as author

biographies. Students gain in-depth knowledge of the cultural context of authors' works. Students explore the writing processes of well known authors and the ways in which students' own responses to the reading can nourish and heighten the development of their own fiction.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 120C Craft and Process Seminar in Fiction: Topics**

Course requires that qualified students study the works of writers' processes, styles, techniques and choices by reading and researching published novels, short stories, journals, letters and interviews, as well as author biographies. Students gain in-depth knowledge of the cultural context of authors' works. Students explore the writing processes of well known authors and the ways in which students' own responses to the reading can nourish and heighten the development of their own fiction.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 121 Craft and Process Seminar in Fiction: First Novels**

Course will expose student writers to the creative and intellectual processes of published writers early in their careers. It will show students that a) writing is an ongoing process of writing and rewriting; b) the creative process is both unique and universal to each writer; and c) published writers faced the same boogies at the beginning of their careers that student writers face. Through contrast and comparisons (in the journals and class discussions) students will examine and comment on the prose forms, character developments, and story structures first-time novelists have effectively used, along with the writing processes the authors employed to get their first novels finished. Through journal entries and essays, students will examine what all this tells them about how they might go about solving the questions of structure and process presented to them by their own writing. Students will be required to read three novels and conduct research by reading writers' diaries, notebooks, letters, and autobiographies. There will be discussion of the assigned texts and journal readings every week.

**Repeatable:** N

**Formerly 59-1302**

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 122 Craft and Process Seminar in Fiction: Gender and Difference**

Course examines the ways in which gay, lesbian, and straight writers contend with issues of culture, gender, and difference. Course focuses upon such questions as the following: How do straight male and female writers deal with the serious issues and challenges of writing from the point of view of gay and lesbian characters? How do gay and lesbian writers deal with the same issues in writing about straight characters? Course also examines the particular challenges of writing gender opposites (whatever the sexual orientation of those characters might be). Through the students' reading of assigned stories and novels, through their written responses as writers to their reading, through creative fiction and nonfiction writing assignments, and through individual and small-group research activities, the course will approach broad and specific issues of gender and difference from early writing to the present day.

**Repeatable:** N

**Formerly 59-1305**

**PL**

**Minimum Credits 3 Maximum Credits 3**

## **CRWR 123 Craft and Process Seminar in Fiction: The Novel in Stories**

Course examines creative and intellectual processes of writers working in nonlinear structure forms. It raises questions writers ask themselves when determining how best to structure a body of work that is more cohesive than a collection of stories, yet not a linearly shaped novel. Through readings, small group and large group discussions, journal reflections (both students' and authors'), and research into the authors' writing processes, students are able to reflect upon and examine issues and questions of structure that go into putting together a cohesive body of creative work.

**Repeatable:** *N*

**Formerly** 59-1306

**Minimum Credits 3 Maximum Credits 3**

## **CRWR 127 Craft and Process Seminar in Fiction: American Voices**

Course researches writing processes of African-American, Hispanic-American, Native-American, and Asian-American writers and other ethnic American writers and the ways in which their reading and responses to reading play an influential role in the fiction-writing process. Particular emphasis will be placed upon taking the point of view of racial and ethnic opposites. Journals and other writings are used as examples of how writers read and write about what they read to develop dimensions of their own fiction and how they see their work in relation to that of other writers. Manuscripts and notes of famous works may be used to show writers' processes and development.

**Repeatable:** *N*

**Formerly** 59-1310

**PL**

**Minimum Credits 3 Maximum Credits 3**

## **CRWR 129 Craft and Process Seminar in Fiction: Autobiographical Fiction**

Course requires that students read fiction known to be autobiographical in nature and respond with journal entries and classroom discussion. Students research primary sources concerning a writer, his or her work, and the process by which the work came into being; give an oral report; and write a final essay. Students read aloud journal entry responses to readings and write their own autobiographical fiction, some of which is read and responded to in class.

**Repeatable:** *N*

**Formerly** 59-1312

**Minimum Credits 3 Maximum Credits 3**

## **CRWR 130 Craft and Process Seminar in Fiction: Crime & Story**

Course explores the fact that, since Oedipus Rex, the crime has been one of the engines that drive story movement. Dostoevsky, Drieser, Petry, Dickens, Atwood, and Wright are among the many writers who use elements of the mystery and crime story to explore the psychological effects of crime on characters in fiction. By analyzing the writing techniques and processes--such as point of view, scene, voice, and story structure--of well-known writers, students will examine how murder, crime, and mystery have been transformed beyond genre to create dramatic literary fiction. By reading published work, as well as researching memoirs, journals, essays, and letters of established writers, students will explore how they may use these techniques to create compelling movement in their fiction.

**Repeatable:** *N*

**Formerly** 59-1316

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 132 Story in Fiction and Film: International**

Course critically explores the elements of fiction writing as they are translated to film with an emphasis on foreign and international stories: voice, point of view, dialogue, scene, structure, and other fictional forms. Fiction has been an important source for cinematic storytelling since its earliest incarnations. Students will view films, read fictional excerpts, discuss techniques, and hear speakers, studying how these elements can be used to heighten their own stories. Course will be helpful for students interested in studying fiction, film, and other arts and media disciplines.

**Repeatable:** *N*

**Formerly** 59-1406

**GA**

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 133 Story in Graphic Forms**

Course covers writing for comics and graphic novels: Forms and formats similar to but unique from those of narrative prose, screenwriting, and storyboarding. The full script and plot outline styles of major publishers are explored and practiced. There's an emphasis on research to enable the writer to translate the envisioned image into words for artist and audience. Business aspects such as submissions, working within publishing cooperatives, and self-publishing are presented.

**Repeatable:** *N*

**Formerly** 59-1410

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 134 Young Adult Fiction**

Course analyzes a selection of published young adult novels, with emphasis on the development of student works, including exploration of ideas and issues that sustain novel-length material. Also studied are plot construction, writing of scene and transition, and the weaving of theme into the whole.

**Repeatable:** *N*

**Formerly** 59-1411

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 135 Dreams and Fiction Writing**

Course helps writers relate the rich, various, and powerful world of dreams to the needs and delights of imaginative prose fiction. Students keep journals of their dreams, read and write dream stories, and study how dreams relate to their fiction writing, including researching the ways in which dreams have influenced the work of well-known writers.

**Repeatable:** *N*

**Formerly** 59-1412

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 138 Science Fiction Writing**

Course offers a fresh approach to conception and writing of science fiction, with a current overview of the state of the field and techniques. Students develop original material and present their manuscripts to instructor for careful examination, possible class reading, and critique.

**Repeatable:** *N*

**Formerly** 59-1416

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 140 Story and Journal**

Course uses students' personal journals and journals and notebooks of authors such as Melville, Kafka, Nin, and Boll as devices for exploration of the imagination, recording of the living image, and development of various kinds of writing.

**Repeatable:** *N*

**Formerly** 59-1419

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 141 Fantasy Writing Workshop**

Course explores the many facets of fantasy fiction, from heroic fantasy to contemporary fantasy to horror. Students will read classic short stories of the genre, with class discussion focusing on structure, content, the use of imagination combined with plausibility, and how these qualities apply to the student's own writing.

**Repeatable:** *N*

**Formerly** 59-1420

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 143 Journal and Sketchbook: Ways of Seeing**

This course, open to those interested in writing and/or visual art, will be team-taught by a writer and a visual artist, using interdisciplinary approaches in order to help students better see their narrative work. Kafka, Goya, Faulkner, and others have been inspired by word and image; their journals and sketchbooks show exploration in text, image, and their intersections. Students will consider their written and visual work fully through personal observation, seeing and responding simultaneously, and seeing-in-the-mind through imagination and memory.

**Repeatable:** *N*

**Formerly** 59-1422

**GA**

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 144A Topics in Fiction Writing**

Courses focus on specific topics, genres, and forms relative to Fiction and Creative Nonfiction Writing (novel, short-story, personal and researched essays, etc.) that might not be included in the current course offerings (eg: Chicago Stories; Gators, Bayous, Jambalaya and Fais Do-Dos: Fieldwork Among Louisiana's Cajuns). Topics covered may include traditional fiction writing topics, and may also concentrate on experimental forms and trends in contemporary fiction as well as publishing and electronic media.

**Repeatable:** *Y*

**Formerly CRWR 144**

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 144B Topics in Fiction Writing**

Courses focus on specific topics, genres, and forms relative to Fiction and Creative Nonfiction Writing (novel, short-story, personal and researched essays, etc.) that might not be included in the current course offerings (eg: Chicago Stories; Gators, Bayous, Jambalaya and Fais Do-Dos: Fieldwork Among Louisiana's Cajuns). Topics covered may include traditional fiction writing topics, and may also concentrate on experimental forms and trends in contemporary fiction as well as publishing and electronic media.

**Repeatable: Y**

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 144C Topics in Fiction Writing**

Courses focus on specific topics, genres, and forms relative to Fiction and Creative Nonfiction Writing (novel, short-story, personal and researched essays, etc.) that might not be included in the current course offerings (eg: Chicago Stories; Gators, Bayous, Jambalaya and Fais Do-Dos: Fieldwork Among Louisiana's Cajuns). Topics covered may include traditional fiction writing topics, and may also concentrate on experimental forms and trends in contemporary fiction as well as publishing and electronic media.

**Repeatable: Y**

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 199A Topics in Creative Writing**

This course is designed to respond to contemporary trends and topical issues in creative writing by focusing on specific topics, genres, and forms relative to the intersection of fiction, poetry, and creative nonfiction writing. Topics may range from the traditional to the experimental (examples: Creative Writing & Performance, Cross-Genre Writing, Creating Hybrid Texts, Creative Writing for New Media, Contemporary Publishing) or focus upon a particular author or theme or purpose in creative work. This course is repeatable, as topics rotate each semester to cover material that is not included in the permanent course offerings.

**Repeatable: Y**

**Formerly CRWR 199**

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 199B Topics in Creative Writing**

This course is designed to respond to contemporary trends and topical issues in creative writing by focusing on specific topics, genres, and forms relative to the intersection of fiction, poetry, and creative nonfiction writing. Topics may range from the traditional to the experimental (examples: Creative Writing & Performance, Cross-Genre Writing, Creating Hybrid Texts, Creative Writing for New Media, Contemporary Publishing) or focus upon a particular author or theme or purpose in creative work. This course is repeatable, as topics rotate each semester to cover material that is not included in the permanent course offerings.

**Repeatable: Y**

**Minimum Credits 3 Maximum Credits 3**

## **CRWR 199C Topics in Creative Writing**

This course is designed to respond to contemporary trends and topical issues in creative writing by focusing on specific topics, genres, and forms relative to the intersection of fiction, poetry, and creative nonfiction writing. Topics may range from the traditional to the experimental (examples: Creative Writing & Performance, Cross-Genre Writing, Creating Hybrid Texts, Creative Writing for New Media, Contemporary Publishing) or focus upon a particular author or theme or purpose in creative work. This course is repeatable, as topics rotate each semester to cover material that is not included in the permanent course offerings.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

## **CRWR 215 Freelance Applications of Creative Writing Training**

Course looks at the application of the broad repertoire of creative writing techniques and approaches to writing and freelance tasks found in various businesses and services, including the writing that appears in a variety of publications and media. The student develops writing projects suitable for inclusion in his/her professional portfolios.

**Repeatable:** N

**Formerly** 59-2101

**Prerequisites** CRWR 250 Fiction Workshop: Intermediate or CRWR 255 Poetry Workshop: Intermediate or CRWR 260 Creative Nonfiction Workshop: Intermediate

**Minimum Credits 3 Maximum Credits 3**

## **CRWR 216 Small Press Publishing**

Course covers the how-to, economic, copyright, technical, and mailing regulation considerations of founding a press or magazine and examines the current, important phenomenon of the developing small-press movement in the American literary scene. Course includes an electronic publication component.

**Repeatable:** N

**Formerly** 59-2102

**Prerequisites** CRWR 250 Fiction Workshop: Intermediate or CRWR 255 Poetry Workshop: Intermediate or CRWR 260 Creative Nonfiction Workshop: Intermediate

**Minimum Credits 3 Maximum Credits 3**

## **CRWR 220 Craft and Process Seminar in Fiction: Novelists**

Course examines the ways in which novelists read, respond to what they read, and incorporate their reading responses dynamically into their own fiction-writing processes. In addition to their own written responses to reading, students work individually and in small groups researching the reading and writing processes behind selected novels (mainstream and alternative), ranging from the beginnings of the form to the present day. Drawing upon authors' journals, notebooks, letters, and more public writings, students explore the writing processes of well-known writers and ways in which students' own responses to reading can nourish and heighten the development of their fiction. Course will survey many of the principal novelists and novels and the development of the genre from its roots to contemporary fiction. Students should be writing fiction, but novel-length material is not required.

**Repeatable:** N

**Formerly** 59-2301

**Prerequisites** CRWR 150 Fiction Workshop: Beginning or CRWR 155 Poetry Workshop: Beginning or CRWR 160 Creative Nonfiction Workshop: Beginning  
**Minimum Credits 3 Maximum Credits 3**

### **CRWR 221 Craft and Process Seminar in Fiction: Short Story**

Course encourages development of lively, well-crafted, short fiction by examining reading and writing processes that guide some of the best examples of the form. Students select from a wide range of writers, representing many different voices, backgrounds, subjects, and approaches, to research ways in which writers read, respond to their reading, and use that reading to generate and heighten their short stories. Students write their responses to reading short stories and discuss the relationship of reading to the development of their own fiction.

**Repeatable:** *N*

**Formerly** 59-2302

**Prerequisites** CRWR 150 Fiction Workshop: Beginning or CRWR 155 Poetry Workshop: Beginning or CRWR 160 Creative Nonfiction Workshop: Beginning

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 222 Craft and Process Seminar in Fiction: Women Writers**

Course researches writing processes of women writers and ways in which their reading and responses to reading play influential roles in the fiction-writing process. Journals and other writings by Virginia Woolf, Zora Neale Hurston, Katherine Anne Porter, Katherine Mansfield, Eudora Welty, Toni Cade Bambara, and others are used as examples of how writers read, write about what they read to develop their fiction, and see their work in relation to other writers' works. Manuscripts and notes of famous works may be used to show writers' processes and development. Students' own fiction writing is also part of the course.

**Repeatable:** *N*

**Formerly** 59-2303

**PL**

**Prerequisites** CRWR 150 Fiction Workshop: Beginning or CRWR 155 Poetry Workshop: Beginning or CRWR 160 Creative Nonfiction Workshop: Beginning

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 223 Craft and Process Seminar in Fiction: Fiction Writers and Censorship**

Course emphasizes research, writing, and discussion of creative processes of successful writers, among them Lawrence, Flaubert, Hurston, Wright, Selby, Joyce, and Burroughs, who have been forced to confront directly forms of censorship or marginalization. Writers must be free to draw on their strongest material and use their best, most authentic, telling voices. However, writers often confront external or internal inhibitions: outright legal challenges, vocal attacks upon certain types of stories, subtle publishing prejudices, or self-censoring.

**Repeatable:** *N*

**Formerly** 59-2304

**Prerequisites** CRWR 110 Foundations in Creative Writing

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 233 Researching and Writing Historical Fiction**

Course focuses on the ever-popular genre of historical fiction, which combines the study of research techniques with fictional techniques necessary to produce marketable prose. Through reading, research, and guidance of a historical fiction writer, students produce their own historical fiction.

**Repeatable:** N

**Formerly** 59-2410

**Prerequisites** CRWR 150 Fiction Workshop: Beginning or CRWR 155 Poetry Workshop: Beginning or CRWR 160 Creative Nonfiction Workshop: Beginning

**Minimum Credits 3 Maximum Credits 3**

## **CRWR 239 Dialects and Fiction Writing**

Course provides students with informed training in listening with a good ear and distinguishing between eye dialect and dialect that is both accurately and artistically rendered, with an understanding of the tradition of dialect writing in fiction. Dialect speech and writing have richly contributed to the breadth, variety, and authenticity of American and English literature. Students keep journals and research the ways in which writers employ dialect in their fiction as well as what they have to say about such uses, while also developing a facility with dialect in their own fiction writing.

**Repeatable:** N

**Formerly** 59-2430

**PL**

**Prerequisites** CRWR 150 Fiction Workshop: Beginning or CRWR 155 Poetry Workshop: Beginning or CRWR 160 Creative Nonfiction Workshop: Beginning

**Minimum Credits 3 Maximum Credits 3**

## **CRWR 242A Topics in Nonfiction**

A number and variety of courses are included under the umbrella of nonfiction topics, such as: Journal Writing (writing, reading and discussing nonfiction journals that explore the writer's life or an aspect of it, such as travel, memories or relationships to art or food. Course also examines ways personal writing can become public writing within genre of creative nonfiction.); Memoir Writing (how to select the most meaningful memories, and how to develop, focus and structure those memories); and the Graphic Memoir (While the emphasis will be on writing, the course will also explore the connection of writing to drawing and how one can enhance the other, such as how the images and language are placed in panels or pages). These courses will revolve and be offered different semesters. Content will vary slightly according to instructors.

**Repeatable:** Y

**Formerly** CRWR 242

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 122 International Writing and Rhetoric II or CRWR 160 Creative Nonfiction Workshop: Beginning

**Minimum Credits 3 Maximum Credits 3**

## **CRWR 242B Topics in Nonfiction**

A number and variety of courses are included under the umbrella of nonfiction topics, such as: Journal Writing (writing, reading and discussing nonfiction journals that explore the writer's life or an aspect of it, such as travel, memories or relationships to art or food. Course also examines ways personal writing can become public writing within genre of creative nonfiction.); Memoir Writing (how to select the most meaningful memories, and how to develop, focus and structure those memories); and the Graphic Memoir (While the emphasis will be on writing, the course will also explore the connection of writing to drawing and

how one can enhance the other, such as how the images and language are placed in panels or pages). These courses will revolve and be offered different semesters. Content will vary slightly according to instructors.

**Repeatable:** Y

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 122 International Writing and Rhetoric II or CRWR 160 Creative Nonfiction Workshop: Beginning

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 249 Nonfiction Film As Literature**

This class will explore nonfiction films in their relationship to nonfiction literature. What does it mean to speak of films as essays or memoirs or autobiographies? What is the relationship between text and image, fact, truth, and composition in films presenting themselves as nonfictional? We will also consider some nonfiction literature that invokes and plays off film. Filmmakers such as Ross McElwee, Spike Lee, Erroll Morris, Chris Marker, Barbara Hammer, Su Friedrich, Jonathan Caouette, and Spalding Gray will be considered.

**Repeatable:** N

**Formerly** 59-2850

**HL**

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 250 Fiction Workshop: Intermediate**

Course is the second workshop in the core curriculum for the Fiction concentration. Course continues the development of perceptual and technical abilities begun in Fiction Writing: Beginning, with a focus that may include, but is not limited to: point of view, structure, and parody of form.

**Repeatable:** N

**Formerly** 59-2201

**Prerequisites** CRWR 150 Fiction Workshop: Beginning

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 255 Poetry Workshop: Intermediate**

Through in-class writing exercises, the reading of model poems, and discussion of student work, students are encouraged to produce poetry of greater sophistication. Familiarity with work of notable poets is strongly encouraged.

**Repeatable:** Y

**Formerly** 59-2500

**Prerequisites** CRWR 155 Poetry Workshop: Beginning

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 260 Creative Nonfiction Workshop: Intermediate**

Intermediate class in writing creative nonfiction. This class will build on the introductory workshop, with students expected to expand the range and sophistication of their work. Students will read works of nonfiction and present their work to the rest of the class in a workshop format.

**Repeatable:** Y

**Formerly** 59-2700

**Prerequisites** CRWR 160 Creative Nonfiction Workshop: Beginning

**Minimum Credits** 3 **Maximum Credits** 3

### **CRWR 288 Practice Teaching: Tutor Training**

Course uses a range of pedagogical strategies to train and provide tutors who, concurrent with their training semester, staff the Department of Creative Writing's Fiction tutoring program. Tutors assist Fiction students who need help with reading and writing skills.

**Repeatable:** N

**Formerly** 59-3450

**Requirements** Permission Required (DP)

**Minimum Credits** 3 **Maximum Credits** 3

### **CRWR 315 Creative Writers and Publishing**

Course is designed to give developing creative writers an understanding of the publishing industry, and experience navigating it. Students will write and prepare work for potential publication, familiarize themselves with the literary marketplace and current publishing trends, participate in conversations and interviews with editors, agents, publishers, and other members of the publishing industry and literary community. Assignments will include research, presentations, and opportunities for submission of students' creative work. Students will undertake, present, and potentially publish in-depth research into literary magazines and journals, as well as independent and major publishing houses. Guest speakers may include bookstore owners, editors, publishers, and published creative writers.

**Repeatable:** N

**Formerly** 59-3100

**Minimum Credits** 3 **Maximum Credits** 3

### **CRWR 320 Craft and Process Seminar in Fiction: Kafka and European Masters**

With a focus on Franz Kafka, this course presents the work of Prague's most influential writers, paying special attention to how the historical and cultural landscape of Eastern Europe in the 20th century impacted their lives and work, and exploring the myriad ways culture and geography inform creative process. In this course, students will interact with the city of Prague through the lenses of great works such as Kafka's *The Trial*, Haseks, outrageous novel *Good Soldier Svejk*, Kundera's *The Unbearable Lightness of Being* and works by Karol Capek and Bohumil Hrabal.

**Repeatable:** N

**Formerly** 59-3173

**GA**

**Requirements** Permission Required (DP)

**Minimum Credits** 3 **Maximum Credits** 3

### **CRWR 326A Craft and Process Seminar in Nonfiction**

The Readings in Nonfiction Literature class is designed to explore a variety of subjects in nonfiction, and topics of classes offered might include readings in the essay, twentieth century nonfiction, feminist readings in nonfiction, queer nonfiction, graphic novel memoirs, single or double author courses (Baldwin's Essays, or Montaigne and Bacon), etc. The class will change from semester to semester. The class will explore what makes a work of nonfiction specific to its genre and how writers establish their voices in nonfiction.

**Repeatable:** Y

**Formerly** CRWR 326

**Prerequisites** CRWR 160 Creative Nonfiction Workshop: Beginning

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 326B Craft and Process Seminar in Nonfiction**

The Readings in Nonfiction Literature class is designed to explore a variety of subjects in nonfiction, and topics of classes offered might include readings in the essay, twentieth century nonfiction, feminist readings in nonfiction, queer nonfiction, graphic novel memoirs, single or double author courses (Baldwin's Essays, or Montaigne and Bacon), etc. The class will change from semester to semester. The class will explore what makes a work of nonfiction specific to its genre and how writers establish their voices in nonfiction.

**Repeatable:** Y

**Prerequisites** CRWR 160 Creative Nonfiction Workshop: Beginning

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 350 Fiction Workshop: Advanced**

Course is the third workshop in the core sequence for the Fiction concentration. Students intensively explore new fictional possibilities in the writing of short fiction and novels (students also have the option to continue to develop strong writing material from previous classes). Workshop may have an emphasis on a particular craft element of fiction and will stress rewriting and revision. Course is repeatable.

**Repeatable:** Y

**Formerly** 59-3201

**Prerequisites** CRWR 250 Fiction Workshop: Intermediate

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 355 Poetry Workshop: Advanced**

Students are encouraged to write poetry of the very highest quality. Workshop format makes use of in-class writing exercises and discussions of student work. Students become familiar with a wide range of models and formal strategies.

**Repeatable:** Y

**Formerly** 59-3500

**Prerequisites** CRWR 255 Poetry Workshop: Intermediate

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 357A Craft and Process Seminar in Poetry**

Rotating topics craft class. Students read literature of specific periods and movements in order to generate poetry (and hybrid writing forms) based on these reading assignments. Craft Seminars that have been offered in past semesters include Poetry Translation, Hybrid Poetics, and Literary College.

**Repeatable:** Y  
**Formerly** CRWR 357  
**Prerequisites** CRWR 155 Poetry Workshop: Beginning  
**Minimum Credits 3 Maximum Credits 3**

### **CRWR 357B Craft and Process Seminar in Poetry**

Rotating topics craft class. Students read literature of specific periods and movements in order to generate poetry (and hybrid writing forms) based on these reading assignments. Craft Seminars that have been offered in past semesters include Poetry Translation, Hybrid Poetics, and Literary College.

**Repeatable:** Y  
**Prerequisites** CRWR 155 Poetry Workshop: Beginning  
**Minimum Credits 3 Maximum Credits 3**

### **CRWR 360 Creative Nonfiction Workshop: Advanced**

An advanced class in writing creative nonfiction. This class will build on the intermediate workshop, with students expected to have attained a certain mastery in the writing of nonfiction. Students will read works of nonfiction and participate in presenting their work to the rest of the class in a workshop format.

**Repeatable:** Y  
**Formerly** 59-3700  
**Prerequisites** CRWR 260 Creative Nonfiction Workshop: Intermediate  
**Minimum Credits 3 Maximum Credits 3**

### **CRWR 370 Creative Writing: J-Term in Paris**

Dislocation from the familiar has for centuries played upon the imaginative processes of writers. This J-Session course offers an immersion in the literature, art, history, and culture of another city or country. Students read fiction and nonfiction by noted authors; visit major sites associated with these authors; write journal entries and reading responses; and intensively explore new fictional and creative nonfiction possibilities, as well as having the option of continuing to develop strong writing material from previous classes.

**Repeatable:** N  
**Formerly** 59-3171J  
**GA**  
**Requirements** Permission Required (DP)  
**Minimum Credits 3 Maximum Credits 3**

### **CRWR 372 Topics in Writing Abroad: Rome**

This J-session course offers an intensive two-week immersion in Rome's literature, art, history, and culture. Students read fiction, poetry, and nonfiction by noted authors; visit major sites, including the Colosseum, Vatican, Roman Forum, Pompeii, churches, museums and places associated with noted authors; and participate in writing workshops at Lorenzo d' Medici. Journal entries and reading responses lead to an extended story, essay, or digital project, which may be done in collaboration with students from the Business and Entrepreneurship Department.

**Repeatable:** N  
**Formerly** 59-3170J

**GA****Requirements** Permission Required (DP)**Minimum Credits 3 Maximum Credits 3****CRWR 415 Literary Magazine Editing**

Course teaches students basic principles of literary magazine editing. This includes the processing and managing of submissions, editorial discussions of submitted material, editorial correspondence (rejections and acceptances), ordering of the final manuscript, and preparation of the electronic manuscript for typesetting.

**Repeatable:** *N***Formerly** 59-4150**Requirements** Permission Required (DP)**Minimum Credits 3 Maximum Credits 3****CRWR 416 Literary Magazine Production**

Course teaches students basic principles of magazine production. Students act as editors and assistants for Columbia literary journals, learning the fundamentals of editorial selection, copyediting, proofreading, design, production and distribution.

**Repeatable:** *N***Formerly** 59-4151**Requirements** Permission Required (DP)**Minimum Credits 3 Maximum Credits 3****CRWR 490 Internship: Creative Writing**

Course provides internships to advanced students with an opportunity to gain work experience in an area of concentration or interest while receiving academic credit toward their degrees.

**Repeatable:** *Y***Formerly** 59-3990**Requirements** Permission Required (DP)**Minimum Credits 1 Maximum Credits 6****CRWR 495 Directed Study: Creative Writing**

This course consists of learning activities involving student independence within the context of regular guidance and direction from a faculty advisor. Directed Studies are appropriate for students who wish to explore a subject beyond what is possible in regular courses or for students who wish to engage in a subject or activity not otherwise offered that semester by the College. Directed Studies involve close collaboration with a faculty advisor who will assist in development and design of the project, oversee its progress, evaluate the final results, and submit a grade.

**Repeatable:** *Y***Formerly** 59-3999**Requirements** Permission Required (DP)**Minimum Credits 1 Maximum Credits 4**

## **CRWR 496 Independent Project: Creative Writing**

An independent project is designed by the student, with approval of supervising faculty member, to study an area not available in the curriculum. Prior to registration, student must submit written proposal that outlines the project.

**Repeatable:** Y

**Formerly** 59-3998

**Requirements** Permission Required (DP)

**Minimum Credits** 1 **Maximum Credits** 6

## **ENGL 246 Reviewing the Arts**

Students write confident and well-researched reviews of visual, performing, and media arts, reviews that can broaden the role of the arts in our daily lives. Students generate content for their reviews by visiting cultural and artistic institutions, attending performances, and / or viewing recordings. They examine selected expert reviews and theoretical perspectives; and they compose and revise their work through a combination of weekly in-class workshops, discussion, and take-home assignments.

**Repeatable:** N

**Formerly** 52-2816

**HU**

**Minimum Credits** 3 **Maximum Credits** 3

## **ENGL 246H Reviewing the Arts: Honors**

Students write confident and well-researched reviews of visual, performing, and media arts, reviews that can broaden the role of the arts in our daily lives. Students generate content for their reviews by visiting cultural and artistic institutions, attending performances, and / or viewing recordings. They examine selected expert reviews and theoretical perspectives; and they compose and revise their work through a combination of weekly in-class workshops, discussion, and take-home assignments. This is an Honors class. In addition to other possible pre-requisites, students need a minimum G.P.A. of 3.50 or higher to enroll.

**Repeatable:** N

**Formerly** 52-2816HN

**HU**

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Requirements** 3.5 or Higher GPA (35GP)

**Minimum Credits** 3 **Maximum Credits** 3

## **ENGL 341 Rhetoric of Digital Media**

Students explore rhetorical theories and practices that shape digital networked interaction and literacies. In this course students interact with, analyze, and research technologies and literacies that have transformed communication practices and then turn their attention to producing digital artifacts and materials. Issues covered may include the relationship between print and digital culture, creative content licensing, content strategy and curation, perspectives on authorship, the social and cultural dimensions of technology, and professional models of writing associated with digital media. Each section takes a unique approach to the hands-on exploration of exploring, consuming, creating, and even hacking digital networked spaces and

cultures.

**Repeatable:** *N*

**Formerly** 52-3801

**EN**

**Prerequisites** ENGL 122 International Writing and Rhetoric II or ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors

**Minimum Credits 3 Maximum Credits 3**

## CONCENTRATIONS

### Fiction

The Creative Writing Fiction concentration offers a variety of workshops, Craft and Process Seminars and specialized elective writing courses on a level and scope unequaled in undergraduate programs across the country. The Fiction concentration introduces students to a variety of forms in fiction and helps them explore the history of the genre and find ways of creating fiction that is individual and original. The gateway course in the concentration is Foundations in Creative Writing. From there, students are poised to begin a sequence of scaffolded workshops progressing from Fiction Workshop: Beginning through Fiction Workshop: Intermediate; Fiction Workshop: Advanced; and Fiction Workshop: Thesis. In these workshops, students develop a writing process that includes methods for generating material as well as strategies for revising fiction of increasing quality.

In their sophomore or junior years, students take Writer's Portfolio, a course which gives students the opportunity to strengthen their professional portfolios as they deepen their engagement with the profession of Creative Writing. The work done in this course is reinforced and extended in their capstone course, Fiction Workshop: Thesis. Students also take Craft and Process Seminars which combine the study of craft with readings in the theoretical underpinnings of fiction (sample Craft and Process Seminars in Fiction include courses in Short Story Writers, Novelists, Women Writers, Gender and Difference, Fiction Writers and Censorship, and The Novel in Stories, among others). Specialized elective writing courses in Fiction include workshops in genres as diverse as Young Adult, Fantasy, Science Fiction, Historical Fiction, Graphic Forms and others. Elective courses also include (but are not limited to): additional workshops in Fiction, workshops in Nonfiction and Poetry, Craft and Process Seminars (in any genre), Literary Magazine Editing, Literary Magazine Production, along with courses in Tutoring/Teaching, the visual and performing arts, English and in New Media.

As a result of successfully completing program requirements, students should be able to:

- demonstrate a familiarity with the common language of the discipline of fiction writing;
- use a variety of narrative techniques, written forms, and revision strategies to create effective fiction;
- demonstrate a familiarity with how open fiction is to new modes of expression;
- demonstrate an understanding of the relationship between effective reading and effective writing;
- perform reasonably close readings of works of fiction by 1) analyzing relevant literary elements in fiction (narrative techniques, themes, forms/sub-genres, stylistic choices, or other literary devices common to fiction) and 2) making appropriate reference to relevant texts and contexts;
- demonstrate a meaningful ability to participate in contemporary conversations on social and cultural change;
- demonstrate knowledge of the literary marketplace and processes crucial to publishing their writing; and
- apply creative problem-solving, effective written and oral communications, and critical thinking to their preparation for graduate studies, writing-related careers and other professions.

**Required for the Concentration:**

**CRWR 150 Fiction Workshop: Beginning**

Course is the first one in the core sequence. Students move at their own pace in developing perceptual, technical, and imaginative abilities in fiction writing. No prerequisites, though either Foundations in Creative Writing or Writing and Rhetoric I are helpful.

**Repeatable:** N

**Formerly** 59-1201

**Minimum Credits 3 Maximum Credits 3**

**CRWR 250 Fiction Workshop: Intermediate**

Course is the second workshop in the core curriculum for the Fiction concentration. Course continues the development of perceptual and technical abilities begun in Fiction Writing: Beginning, with a focus that may include, but is not limited to: point of view, structure, and parody of form.

**Repeatable:** N

**Formerly** 59-2201

**Prerequisites** CRWR 150 Fiction Workshop: Beginning

**Minimum Credits 3 Maximum Credits 3**

**CRWR 350 Fiction Workshop: Advanced**

Course is the third workshop in the core sequence for the Fiction concentration. Students intensively explore new fictional possibilities in the writing of short fiction and novels (students also have the option to continue to develop strong writing material from previous classes). Workshop may have an emphasis on a particular craft element of fiction and will stress rewriting and revision. Course is repeatable.

**Repeatable:** Y

**Formerly** 59-3201

**Prerequisites** CRWR 250 Fiction Workshop: Intermediate

**Minimum Credits 3 Maximum Credits 3**

**CRWR 450 Fiction Workshop: Thesis**

This capstone course for the Fiction concentration focuses on the writing, revisions, and compilation of a fiction manuscript suitable for submission to publishers and/or submission for graduate school.

**Repeatable:** N

**Formerly** 59-4290

**Prerequisites** CRWR 350 Fiction Workshop: Advanced

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses or take a second Fiction Workshop: Advanced:*

**CRWR 155 Poetry Workshop: Beginning**

Through in-class writing exercises, reading of model poems, and discussion of student work, this course encourages students to produce poetry of increasing quality.

**Repeatable:** N  
**Formerly** 59-1500  
**Minimum Credits** 3 **Maximum Credits** 3

### **CRWR 160 Creative Nonfiction Workshop: Beginning**

A beginning class in writing creative nonfiction, a term including many forms, constantly re-imagined, with the personal and lyrical essay at its core. You will boldly combine different elements of shape, texture, and voice to attempt to produce works of literary art, primarily in the essay, and present your work to the rest of the class in a workshop format. You will also begin reading in nonfiction.

**Repeatable:** N  
**Formerly** 59-1700  
**Minimum Credits** 3 **Maximum Credits** 3

*Choose two of the following courses:*

### **CRWR 120A Craft and Process Seminar in Fiction: Topics**

Course requires that qualified students study the works of writers' processes, styles, techniques and choices by reading and researching published novels, short stories, journals, letters and interviews, as well as author biographies. Students gain in-depth knowledge of the cultural context of authors' works. Students explore the writing processes of well known authors and the ways in which students' own responses to the reading can nourish and heighten the development of their own fiction.

**Repeatable:** Y  
**Formerly** CRWR 120  
**Minimum Credits** 3 **Maximum Credits** 3

### **CRWR 120B Craft and Process Seminar in Fiction: Topics**

Course requires that qualified students study the works of writers' processes, styles, techniques and choices by reading and researching published novels, short stories, journals, letters and interviews, as well as author biographies. Students gain in-depth knowledge of the cultural context of authors' works. Students explore the writing processes of well known authors and the ways in which students' own responses to the reading can nourish and heighten the development of their own fiction.

**Repeatable:** Y  
**Minimum Credits** 3 **Maximum Credits** 3

### **CRWR 120C Craft and Process Seminar in Fiction: Topics**

Course requires that qualified students study the works of writers' processes, styles, techniques and choices by reading and researching published novels, short stories, journals, letters and interviews, as well as author biographies. Students gain in-depth knowledge of the cultural context of authors' works. Students explore the writing processes of well known authors and the ways in which students' own responses to the reading can nourish and heighten the development of their own fiction.

**Repeatable:** Y  
**Minimum Credits** 3 **Maximum Credits** 3

## **CRWR 121 Craft and Process Seminar in Fiction: First Novels**

Course will expose student writers to the creative and intellectual processes of published writers early in their careers. It will show students that a) writing is an ongoing process of writing and rewriting; b) the creative process is both unique and universal to each writer; and c) published writers faced the same bogeys at the beginning of their careers that student writers face. Through contrast and comparisons (in the journals and class discussions) students will examine and comment on the prose forms, character developments, and story structures first-time novelists have effectively used, along with the writing processes the authors employed to get their first novels finished. Through journal entries and essays, students will examine what all this tells them about how they might go about solving the questions of structure and process presented to them by their own writing. Students will be required to read three novels and conduct research by reading writers' diaries, notebooks, letters, and autobiographies. There will be discussion of the assigned texts and journal readings every week.

**Repeatable:** *N*

**Formerly** 59-1302

**Minimum Credits 3 Maximum Credits 3**

## **CRWR 122 Craft and Process Seminar in Fiction: Gender and Difference**

Course examines the ways in which gay, lesbian, and straight writers contend with issues of culture, gender, and difference. Course focuses upon such questions as the following: How do straight male and female writers deal with the serious issues and challenges of writing from the point of view of gay and lesbian characters? How do gay and lesbian writers deal with the same issues in writing about straight characters? Course also examines the particular challenges of writing gender opposites (whatever the sexual orientation of those characters might be). Through the students' reading of assigned stories and novels, through their written responses as writers to their reading, through creative fiction and nonfiction writing assignments, and through individual and small-group research activities, the course will approach broad and specific issues of gender and difference from early writing to the present day.

**Repeatable:** *N*

**Formerly** 59-1305

**PL**

**Minimum Credits 3 Maximum Credits 3**

## **CRWR 123 Craft and Process Seminar in Fiction: The Novel in Stories**

Course examines creative and intellectual processes of writers working in nonlinear structure forms. It raises questions writers ask themselves when determining how best to structure a body of work that is more cohesive than a collection of stories, yet not a linearly shaped novel. Through readings, small group and large group discussions, journal reflections (both students' and authors'), and research into the authors' writing processes, students are able to reflect upon and examine issues and questions of structure that go into putting together a cohesive body of creative work.

**Repeatable:** *N*

**Formerly** 59-1306

**Minimum Credits 3 Maximum Credits 3**

## **CRWR 127 Craft and Process Seminar in Fiction: American Voices**

Course researches writing processes of African-American, Hispanic-American, Native-American, and Asian-American writers and other ethnic American writers and the ways in which their reading and responses to

reading play an influential role in the fiction-writing process. Particular emphasis will be placed upon taking the point of view of racial and ethnic opposites. Journals and other writings are used as examples of how writers read and write about what they read to develop dimensions of their own fiction and how they see their work in relation to that of other writers. Manuscripts and notes of famous works may be used to show writers' processes and development.

**Repeatable:** *N*

**Formerly** 59-1310

**PL**

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 129 Craft and Process Seminar in Fiction: Autobiographical Fiction**

Course requires that students read fiction known to be autobiographical in nature and respond with journal entries and classroom discussion. Students research primary sources concerning a writer, his or her work, and the process by which the work came into being; give an oral report; and write a final essay. Students read aloud journal entry responses to readings and write their own autobiographical fiction, some of which is read and responded to in class.

**Repeatable:** *N*

**Formerly** 59-1312

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 130 Craft and Process Seminar in Fiction: Crime & Story**

Course explores the fact that, since Oedipus Rex, the crime has been one of the engines that drive story movement. Dostoevsky, Drieser, Petry, Dickens, Atwood, and Wright are among the many writers who use elements of the mystery and crime story to explore the psychological effects of crime on characters in fiction. By analyzing the writing techniques and processes--such as point of view, scene, voice, and story structure--of well-known writers, students will examine how murder, crime, and mystery have been transformed beyond genre to create dramatic literary fiction. By reading published work, as well as researching memoirs, journals, essays, and letters of established writers, students will explore how they may use these techniques to create compelling movement in their fiction.

**Repeatable:** *N*

**Formerly** 59-1316

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 220 Craft and Process Seminar in Fiction: Novelists**

Course examines the ways in which novelists read, respond to what they read, and incorporate their reading responses dynamically into their own fiction-writing processes. In addition to their own written responses to reading, students work individually and in small groups researching the reading and writing processes behind selected novels (mainstream and alternative), ranging from the beginnings of the form to the present day. Drawing upon authors' journals, notebooks, letters, and more public writings, students explore the writing processes of well-known writers and ways in which students' own responses to reading can nourish and heighten the development of their fiction. Course will survey many of the principal novelists and novels and the development of the genre from its roots to contemporary fiction. Students should be writing fiction, but novel-length material is not required.

**Repeatable:** *N*

**Formerly** 59-2301

**Prerequisites** CRWR 150 Fiction Workshop: Beginning or CRWR 155 Poetry Workshop: Beginning or CRWR 160 Creative Nonfiction Workshop: Beginning  
**Minimum Credits 3 Maximum Credits 3**

### **CRWR 221 Craft and Process Seminar in Fiction: Short Story**

Course encourages development of lively, well-crafted, short fiction by examining reading and writing processes that guide some of the best examples of the form. Students select from a wide range of writers, representing many different voices, backgrounds, subjects, and approaches, to research ways in which writers read, respond to their reading, and use that reading to generate and heighten their short stories. Students write their responses to reading short stories and discuss the relationship of reading to the development of their own fiction.

**Repeatable:** *N*

**Formerly** 59-2302

**Prerequisites** CRWR 150 Fiction Workshop: Beginning or CRWR 155 Poetry Workshop: Beginning or CRWR 160 Creative Nonfiction Workshop: Beginning

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 222 Craft and Process Seminar in Fiction: Women Writers**

Course researches writing processes of women writers and ways in which their reading and responses to reading play influential roles in the fiction-writing process. Journals and other writings by Virginia Woolf, Zora Neale Hurston, Katherine Anne Porter, Katherine Mansfield, Eudora Welty, Toni Cade Bambara, and others are used as examples of how writers read, write about what they read to develop their fiction, and see their work in relation to other writers' works. Manuscripts and notes of famous works may be used to show writers' processes and development. Students' own fiction writing is also part of the course.

**Repeatable:** *N*

**Formerly** 59-2303

**PL**

**Prerequisites** CRWR 150 Fiction Workshop: Beginning or CRWR 155 Poetry Workshop: Beginning or CRWR 160 Creative Nonfiction Workshop: Beginning

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 223 Craft and Process Seminar in Fiction: Fiction Writers and Censorship**

Course emphasizes research, writing, and discussion of creative processes of successful writers, among them Lawrence, Flaubert, Hurston, Wright, Selby, Joyce, and Burroughs, who have been forced to confront directly forms of censorship or marginalization. Writers must be free to draw on their strongest material and use their best, most authentic, telling voices. However, writers often confront external or internal inhibitions: outright legal challenges, vocal attacks upon certain types of stories, subtle publishing prejudices, or self-censoring.

**Repeatable:** *N*

**Formerly** 59-2304

**Prerequisites** CRWR 110 Foundations in Creative Writing

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 320 Craft and Process Seminar in Fiction: Kafka and European Masters**

With a focus on Franz Kafka, this course presents the work of Prague's most influential writers, paying special attention to how the historical and cultural landscape of Eastern Europe in the 20th century impacted their lives and work, and exploring the myriad ways culture and geography inform creative process. In this course, students will interact with the city of Prague through the lenses of great works such as Kafka's *The Trial*, Heccks, outrageous novel *Good Soldier Svejk*, Kundera's *The Unbearable Lightness of Being* and works by Karol Capek and Bohumil Hrabel.

**Repeatable:** *N*

**Formerly** 59-3173

**GA**

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

## Nonfiction

The Creative Writing Nonfiction concentration introduces students to a variety of forms in nonfiction and helps them explore the history of the genre and find ways of creating nonfiction that is individual and original. The gateway course in the concentration is *Foundations in Creative Writing*. From there, students are poised to begin a sequence of scaffolded workshops progressing from *Creative Nonfiction Workshop: Beginning* through *Creative Nonfiction Workshop: Intermediate*; *Creative Nonfiction Workshop: Advanced*; and *Creative Nonfiction Workshop: Thesis*. In these workshops students focus on generating materials and writing and critiquing their essays. Students will also take courses focused on reading various genres of creative nonfiction and major nonfiction authors. *Craft and Process Seminars* will combine craft with readings in the theoretical underpinnings of nonfiction, and will introduce students to a wide variety of forms drawing from literary genres and subgenres such as autobiography, essay, the graphic novel, memoir, aphorism, and travel writing, among others.

In their sophomore or junior years, students take *Writer's Portfolio*, a course which gives students the opportunity to strengthen their professional portfolios as they deepen their engagement with the profession of Creative Writing. The work done in this course is reinforced and extended in their capstone course, *Creative Nonfiction Workshop: Thesis*, where students will develop and revise a thesis of their best work. Students are required to take three literature classes (designed for Creative Writers) in the English Department to deepen their understanding of the history of nonfiction. In accordance with the Department's commitment to interdisciplinary, cross-genre contexts for writing, students also choose two writing electives from a broad a varying selection of courses. Such electives include, but are not limited to: additional workshops in Nonfiction, workshops in Fiction and Poetry, *Craft and Process Seminars* (in any genre), *Literary Magazine Editing*, *Literary Magazine Production*, along with courses in tutoring/Teaching, the visual and performing arts, English and in New Media.

As a result of successfully completing program requirements, students should be able to:

- demonstrate a familiarity with the common language of the discipline of nonfiction writing;
- demonstrate a familiarity with how open nonfiction is to new modes of expression;
- demonstrate an understanding of the major aspects of the history of nonfiction and its sub-genres;
- use a variety of narrative techniques, written forms, and revision strategies to create effective nonfiction;
- demonstrate an understanding of the relationship between effective reading and effective writing;
- perform reasonably close readings of works of nonfiction by 1) analyzing relevant literary elements in nonfiction (narrative techniques, themes, forms/subgenres, stylistic choices, or other literary devices common to nonfiction) and 2) making appropriate reference to relevant texts and contexts;
- demonstrate a meaningful ability to participate in contemporary conversations on social and cultural change;

- demonstrate knowledge of the literary marketplace and processes crucial to publishing their writing; and
- apply creative problem-solving, effective written and oral communications, and critical thinking to their preparation for graduate studies, writing-related careers and other professions.

**Required for the Concentration:**

### **CRWR 160 Creative Nonfiction Workshop: Beginning**

A beginning class in writing creative nonfiction, a term including many forms, constantly re-imagined, with the personal and lyrical essay at its core. You will boldly combine different elements of shape, texture, and voice to attempt to produce works of literary art, primarily in the essay, and present your work to the rest of the class in a workshop format. You will also begin reading in nonfiction.

**Repeatable:** N

**Formerly** 59-1700

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 260 Creative Nonfiction Workshop: Intermediate**

Intermediate class in writing creative nonfiction. This class will build on the introductory workshop, with students expected to expand the range and sophistication of their work. Students will read works of nonfiction and present their work to the rest of the class in a workshop format.

**Repeatable:** Y

**Formerly** 59-2700

**Prerequisites** CRWR 160 Creative Nonfiction Workshop: Beginning

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 360 Creative Nonfiction Workshop: Advanced**

An advanced class in writing creative nonfiction. This class will build on the intermediate workshop, with students expected to have attained a certain mastery in the writing of nonfiction. Students will read works of nonfiction and participate in presenting their work to the rest of the class in a workshop format.

**Repeatable:** Y

**Formerly** 59-3700

**Prerequisites** CRWR 260 Creative Nonfiction Workshop: Intermediate

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 460 Creative Nonfiction Workshop: Thesis**

This capstone course for the Nonfiction concentration focuses on the writing, revisions, and compilation of a nonfiction manuscript suitable for submission to publishers and/or submission for graduate school.

**Repeatable:** N

**Formerly** 59-4890

**Prerequisites** CRWR 360 Creative Nonfiction Workshop: Advanced

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses or take a second Creative Nonfiction Workshop: Advanced:*

## **CRWR 150 Fiction Workshop: Beginning**

Course is the first one in the core sequence. Students move at their own pace in developing perceptual, technical, and imaginative abilities in fiction writing. No prerequisites, though either Foundations in Creative Writing or Writing and Rhetoric I are helpful.

**Repeatable:** N

**Formerly** 59-1201

**Minimum Credits 3 Maximum Credits 3**

## **CRWR 155 Poetry Workshop: Beginning**

Through in-class writing exercises, reading of model poems, and discussion of student work, this course encourages students to produce poetry of increasing quality.

**Repeatable:** N

**Formerly** 59-1500

**Minimum Credits 3 Maximum Credits 3**

*Choose two of the following courses:*

## **CRWR 120A Craft and Process Seminar in Fiction: Topics**

Course requires that qualified students study the works of writers' processes, styles, techniques and choices by reading and researching published novels, short stories, journals, letters and interviews, as well as author biographies. Students gain in-depth knowledge of the cultural context of authors' works. Students explore the writing processes of well known authors and the ways in which students' own responses to the reading can nourish and heighten the development of their own fiction.

**Repeatable:** Y

**Formerly** CRWR 120

**Minimum Credits 3 Maximum Credits 3**

## **CRWR 120B Craft and Process Seminar in Fiction: Topics**

Course requires that qualified students study the works of writers' processes, styles, techniques and choices by reading and researching published novels, short stories, journals, letters and interviews, as well as author biographies. Students gain in-depth knowledge of the cultural context of authors' works. Students explore the writing processes of well known authors and the ways in which students' own responses to the reading can nourish and heighten the development of their own fiction.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

## **CRWR 120C Craft and Process Seminar in Fiction: Topics**

Course requires that qualified students study the works of writers' processes, styles, techniques and choices by reading and researching published novels, short stories, journals, letters and interviews, as well as author biographies. Students gain in-depth knowledge of the cultural context of authors' works. Students explore the writing processes of well known authors and the ways in which students' own responses to the reading can nourish and heighten the development of their own fiction.

**Repeatable:** Y

**Minimum Credits** 3 **Maximum Credits** 3

### **CRWR 320 Craft and Process Seminar in Fiction: Kafka and European Masters**

With a focus on Franz Kafka, this course presents the work of Prague's most influential writers, paying special attention to how the historical and cultural landscape of Eastern Europe in the 20th century impacted their lives and work, and exploring the myriad ways culture and geography inform creative process. In this course, students will interact with the city of Prague through the lenses of great works such as Kafka's *The Trial*, Haseks, outrageous novel *Good Soldier Svejk*, Kundera's *The Unbearable Lightness of Being* and works by Karol Capek and Bohumil Hrabal.

**Repeatable:** N

**Formerly** 59-3173

**GA**

**Requirements** Permission Required (DP)

**Minimum Credits** 3 **Maximum Credits** 3

### **CRWR 326A Craft and Process Seminar in Nonfiction**

The Readings in Nonfiction Literature class is designed to explore a variety of subjects in nonfiction, and topics of classes offered might include readings in the essay, twentieth century nonfiction, feminist readings in nonfiction, queer nonfiction, graphic novel memoirs, single or double author courses (Baldwin's *Essays*, or Montaigne and Bacon), etc. The class will change from semester to semester. The class will explore what makes a work of nonfiction specific to its genre and how writers establish their voices in nonfiction.

**Repeatable:** Y

**Formerly** CRWR 326

**Prerequisites** CRWR 160 Creative Nonfiction Workshop: Beginning

**Minimum Credits** 3 **Maximum Credits** 3

### **CRWR 326B Craft and Process Seminar in Nonfiction**

The Readings in Nonfiction Literature class is designed to explore a variety of subjects in nonfiction, and topics of classes offered might include readings in the essay, twentieth century nonfiction, feminist readings in nonfiction, queer nonfiction, graphic novel memoirs, single or double author courses (Baldwin's *Essays*, or Montaigne and Bacon), etc. The class will change from semester to semester. The class will explore what makes a work of nonfiction specific to its genre and how writers establish their voices in nonfiction.

**Repeatable:** Y

**Prerequisites** CRWR 160 Creative Nonfiction Workshop: Beginning

**Minimum Credits** 3 **Maximum Credits** 3

### **CRWR 357A Craft and Process Seminar in Poetry**

Rotating topics craft class. Students read literature of specific periods and movements in order to generate poetry (and hybrid writing forms) based on these reading assignments. Craft Seminars that have been offered in past semesters include Poetry Translation, Hybrid Poetics, and Literary College.

**Repeatable:** Y

**Formerly** CRWR 357

**Prerequisites** CRWR 155 Poetry Workshop: Beginning

**Minimum Credits 3 Maximum Credits 3**

## **CRWR 357B Craft and Process Seminar in Poetry**

Rotating topics craft class. Students read literature of specific periods and movements in order to generate poetry (and hybrid writing forms) based on these reading assignments. Craft Seminars that have been offered in past semesters include Poetry Translation, Hybrid Poetics, and Literary College.

**Repeatable:** Y

**Prerequisites** CRWR 155 Poetry Workshop: Beginning

**Minimum Credits 3 Maximum Credits 3**

## Poetry

The Creative Writing Poetry concentration helps students discover their own voices as poets and develop their craft. Students in the Poetry concentration are grounded in the history of poetry and poetics and are familiar with a wide range of approaches to writing. The gateway course in the concentration is Foundations in Creative Writing. From there, students are poised to begin a sequence of scaffolded workshops progressing from Poetry Workshop: Beginning through Poetry Workshop: Intermediate; Poetry Workshop: Advanced; and Poetry Workshop: Thesis. Students also take Craft and Process Seminars, which combine the study of craft with readings in the theoretical underpinnings of poetry. Examples of Craft and Process Seminars in Poetry include Forms of Poetry, Anatomies of Slam, Hybrid Poetics, Poetry Translation, Literary Collage and Collaboration, Poets' Journals and Letters, Meditation and Poetics, and more.

In their sophomore or junior years, student take Writer's Portfolio, a course which gives students the opportunity to strengthen their professional portfolios as they deepen their engagement with the profession of creative writing. The work done in this course is reinforced and extended in their capstone course, Poetry Workshop: Thesis. The capstone experience in the Poetry concentration is Poetry Workshop: Thesis. In this small, seminar-style course, students write a chapbook-length thesis of poems. Students are required to take three literature classes (designed for Creative Writers) in the English Department to deepen their understanding of the history of poetry. In accordance with the department's commitment to interdisciplinary, cross-genre contexts for writing, students choose two writing electives from a broad and varying selection of courses. Such electives include, but are not limited to: additional workshops in Poetry, workshops in Fiction and Nonfiction, Craft and Process Seminars (in any genre), Literary Magazine Editing, Literary Magazine Production, along with courses in Tutoring/Teaching, the visual and performing arts, English and in New Media.

As a result of successfully completing program requirements, students should be able to:

- demonstrate a familiarity with the common language of the discipline of poetry writing;
  - demonstrate a familiarity with how open the discipline of poetry is to new modes of expression;
  - demonstrate an understanding of major movements of the history of poetry and its subgenres;
  - use a variety of techniques, forms and revision strategies to create effective poetry;
  - demonstrate an understanding of the relationship between effective reading and effective writing; perform reasonably close readings of works of poetry by 1) analyzing relevant literary elements in poetry (discursive techniques, themes, forms/subgenres, stylistic choices, or other literary devices common to poetry) and 2) making appropriate reference to relevant texts and contexts;
  - demonstrate a meaningful ability to participate in contemporary conversations on social and cultural change;
  - demonstrate knowledge of the literary marketplace and processes crucial to publishing their writing;
- and

- apply creative problem-solving, effective written and oral communications, and critical thinking to their preparation for graduate studies, writing-related careers and other professions.

**Required for the Concentration:**

### **CRWR 155 Poetry Workshop: Beginning**

Through in-class writing exercises, reading of model poems, and discussion of student work, this course encourages students to produce poetry of increasing quality.

**Repeatable:** N

**Formerly** 59-1500

**Minimum Credits** 3 **Maximum Credits** 3

### **CRWR 255 Poetry Workshop: Intermediate**

Through in-class writing exercises, the reading of model poems, and discussion of student work, students are encouraged to produce poetry of greater sophistication. Familiarity with work of notable poets is strongly encouraged.

**Repeatable:** Y

**Formerly** 59-2500

**Prerequisites** CRWR 155 Poetry Workshop: Beginning

**Minimum Credits** 3 **Maximum Credits** 3

### **CRWR 355 Poetry Workshop: Advanced**

Students are encouraged to write poetry of the very highest quality. Workshop format makes use of in-class writing exercises and discussions of student work. Students become familiar with a wide range of models and formal strategies.

**Repeatable:** Y

**Formerly** 59-3500

**Prerequisites** CRWR 255 Poetry Workshop: Intermediate

**Minimum Credits** 3 **Maximum Credits** 3

### **CRWR 455 Poetry Workshop: Thesis**

This capstone course for the Poetry concentration focuses on the writing, revisions, and compilation of a chapbook-length poetry manuscript suitable for submission to publishers and/or submission for graduate school.

**Repeatable:** N

**Formerly** 59-4690

**Prerequisites** CRWR 355 Poetry Workshop: Advanced

**Minimum Credits** 3 **Maximum Credits** 3

*Choose one of the following courses or take a second Poetry Workshop: Advanced:*

### **CRWR 150 Fiction Workshop: Beginning**

Course is the first one in the core sequence. Students move at their own pace in developing perceptual, technical, and imaginative abilities in fiction writing. No prerequisites, though either Foundations in Creative Writing or Writing and Rhetoric I are helpful.

**Repeatable:** N

**Formerly** 59-1201

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 160 Creative Nonfiction Workshop: Beginning**

A beginning class in writing creative nonfiction, a term including many forms, constantly re-imagined, with the personal and lyrical essay at its core. You will boldly combine different elements of shape, texture, and voice to attempt to produce works of literary art, primarily in the essay, and present your work to the rest of the class in a workshop format. **Minimum Credits 3 Maximum Credits 3**

## **Cultural Studies, BA**

The Cultural Studies (CS) major is an interdisciplinary approach to the analysis of contemporary culture and its relation to society that prepares students to transform creative enterprises and industries with a commitment to equity, social justice, and a more humane, democratic society. CS helps students to think critically about cultural politics more generally, looking at the way identities and subjectivity are developed, reinforced, embodied, and performed by becoming adept at examining how race and ethnicity, gender and sexuality, social and economic class, and nationality inform the power structures that undergird culture. While the CS major provides an important center for the critical study of culture and society in the humanities and social sciences across the curriculum, the Cultural Studies minor is an excellent supplement to those studying production and performance. Serving students who seek the superior thinking and communications skills afforded by the liberal arts, the CS major prepares students for career opportunities in arts administration, non-profit management, teaching, community and social service management, public relations, and social media communications positions, as well as preparing students for graduate school or law school.

As a result of successfully completing program requirements, students should be able to:

- understand and use conceptual vocabularies and methods central to the analysis of the intersection of culture with other social and material practices;
- analyze the complex interconnections among discourses, representations, social structures, relations of power, and the performance of subjectivities in multiple contexts;
- apply a range of theories and methodologies to texts, performances, discourses, practices, and institutions, including media, popular culture, art, creative industries, everyday life, and politics;
- identify and evaluate the social and political implications of their own interpretive and creative practices; and
- produce knowledge of social and political significance, using appropriate methods and scholarly sources, that intervenes in the arenas of media, popular culture, and everyday life.

## **PROGRAM REQUIREMENTS - 36 credits required**

### **CULS 201 Cultural Theories**

This course maps the major concepts, paradigms and methodologies underlying Cultural Studies theory and practice. Assignments draw upon a diverse range of scholars whose work engages with Marxism, Media Studies, Feminism, Psychoanalysis, Anthropology, Sociology, Post-Colonial Theory, and the interdisciplinary field of Cultural Studies itself. We will make use of examples from art, mass media, literature, and architecture to critically examine themes of production and consumption, power and resistance, technologies

and bodies, identity and representation, space, place, and globalization.

**Repeatable:** N

**Formerly** 46-2100

**Minimum Credits 3 Maximum Credits 3**

### **CULS 410 Senior Seminar**

The Senior Seminar is a synthesis of the theory and research skills students have acquired throughout their academic careers. Taught by a rotation of faculty associated with the cultural studies program, the Senior Seminar helps students cement their research and writing skills in relation to a current project, research interest, or emergent cultural object. In the first half of the course, students will reflect on their theoretical toolkit and in terms of social/cultural/political issues or problems presented by the faculty member. In the second half of the course, students develop and compose their own project, utilizing peer review and consultations with the instructing professor. Students are then able to present their final product at a forum during Manifest.

**Repeatable:** N

**Requirements** Junior Standing or Above (JR) Cultural Studies Majors Only (M460)

**Minimum Credits 3 Maximum Credits 3**

### **THEA 280 Theories of Performance Studies**

What is performance? What does performance do? Why is performance classified as a central element of political, social and cultural life? What are the distinctions between performance as event, theory, and method? In answering these questions, this course introduces students to performance studies, an interdisciplinary field that investigates a wide range of repeatable, embodied, and symbolic actions. Specifically, this course offers a critical survey of the genealogies as well as foundational theories and theorists of performance studies including Zora Neale Hurston, Richard Schechner, Dwight Conquergood, Ervin Goffman, Victor Turner, Judith Butler, E. Patrick Johnson, and D. Soyini Madison. Students will examine a broad range of performances both on and off the stage from rituals and storytelling to live and recorded performances, and from political speeches and protests to human interaction and individual acts of identity expression. Additionally, we will apply analytical frameworks of performance theory to sites and happenings including theatre, religious events, social media, community gatherings, and sporting events as well as examine people's habitual patterns and behaviors of everyday life as performance.

**Repeatable:** N

**Prerequisites** CULS 101 Introduction to Cultural Studies or CULS 101H Introduction to Cultural Studies: Honors or THEA 106 Theatre Survey I: Global Drama and THEA 111 Theatre Foundation I: Theatre Making

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

### **CULS 101 Introduction to Cultural Studies**

This course introduces students to the terms, analytical techniques, and interpretive strategies commonly employed in cultural studies. Emphasis is on interdisciplinary approaches to exploring how cultural processes and artifacts are produced, shaped, distributed, consumed, and responded to in diverse ways. Through discussion, research, and writing, class members investigate these varied dimensions of culture; learn to understand them in their broader social, aesthetic, ethical, and political contexts; and thereby prepare for more advanced coursework in Cultural Studies.

**Repeatable:** *N*  
**Formerly** 46-1100  
**HU DEI**  
**Minimum Credits 3 Maximum Credits 3**

### **CULS 101H Introduction to Cultural Studies: Honors**

This course introduces students to the terms, analytical techniques, and interpretive strategies commonly employed in cultural studies. Emphasis is on critical approaches to exploring how cultural processes and artifacts are produced, shaped, distributed, consumed, and responded to in diverse ways. Through discussion, research, and writing, class members investigate these varied dimensions of culture; learn to understand them in their broader social, aesthetic, ethical, political, and economic contexts; and thereby prepare for more advanced coursework in cultural studies. This is an Honors class. In addition to other possible pre-requisites, students need a minimum G.P.A. of 3.50 or higher to enroll.

**Repeatable:** *N*  
**HU DEI**  
**Requirements** 3.5 or Higher GPA (35GP)  
**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

### **MEDI 201 Culture, Race and Media**

This immersive course enables students to view, analyze, interpret and evaluate current media to identify the consequences of their pervasive influence. Interactive, facilitated discussions and exercises, stimulating readings, web-based assignments and analysis of media examples in myriad genres of cinema, television, games, photography, print, audio, advertisements, performance and others, offer students new insights into both media and their lives. Utilizing regularly posted progress reports, students reflect on their ideologies while investigating race, ethnicity, gender, social class, age, religion, ability, sexual and other identities to recognize their cultural and ethical responsibilities as media makers and influencers.

**Repeatable:** *N*  
**Formerly** 40-2803  
**HU DEI PL**  
**Requirements** Sophomore Standing or Above (SO)  
**Minimum Credits 3 Maximum Credits 3**

### **MEDI 201H Culture, Race and Media: Honors**

Course enables students to analyze subtle and subliminal messages about culture, race, ethnicity, gender, religion, class, and ability as presented to us through the media. The media--television, film, and print--has a pervasive influence upon how we view the world. Through open discussions of differences, research, and stimulating readings, we will learn who we are and why we view things the way we do. Expected outcomes include new insights into media influence and our responsibility as media makers, a research project, and self-examination of personal cultural and racial identity.

This is an Honors class. In addition to other possible pre-requisites, students need a minimum G.P.A. of 3.50 or higher to enroll.

**Repeatable:** *N*  
**Formerly** 40-2803HN  
**HU DEI**

**Requirements** Sophomore Standing or Above (SO) and 3.5 or Higher GPA (35GP)

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

### **ARTH 315 Art Theory Seminar**

This seminar is a reading and writing intensive course in which students discuss major concepts and methods of art theory from modernist formalism to contemporary issues of race, gender, globalism, and feminism. Other topics addressed may include: semiotics, structuralism, Deconstruction, medium, object, social practice, identity politics, relational aesthetics.

**Repeatable:** N

**Formerly** 22-3110

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 340 Cinema and Media Theory**

Using primary texts, the course examines and interrogates the significant debates and concepts in cinema and media theory. Among other issues, the course focuses on the ontology of the moving image, narratology, ideological and psychological theories spectatorship and audiences, and aesthetic differences between analog and digital. Students will read original texts and write papers in response to screenings where they apply various theories and readings.

**Repeatable:** N

**Formerly** 24-3500

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **CULS 310 Theories of Media, Society, & Culture**

This course will explore the major theories of mass communication, society and culture that have led up to and departed from Cultural Studies. We will examine a variety of theories from communication and media studies that help us to better understand the role media play in society and culture and different ideas about that role. Theories studied will include early propaganda and administrative research, McLuhan and media ecology, as well as Critical Theory, Apparatus theory, political economy, and Cultural Studies.

**Repeatable:** N

**Formerly** 46-3535

**Prerequisites** CULS 201 Cultural Theories

**Minimum Credits 3 Maximum Credits 3**

### **CULS 311 Theorizing Power**

This seminar explores central questions and problems in contemporary cultural and political theory related to how we theorize power in two dominant forms, including its meanings, its mechanisms, and its ideology. We will contrast the dominant liberal image of power with other understandings of power derived from Foucault: discursive, disciplinary, and biopolitical. We will examine major texts and concepts from Foucault, Butler, Locke, Mill, and others.

**Repeatable:** N

**Formerly** 46-3540

**Prerequisites** CULS 201 Cultural Theories

**Minimum Credits** 3 **Maximum Credits** 3

## **CULS 312 Queer Theory**

This course engages concepts of Queer Theory and the central architects of this relatively new field. The course is divided into three sections: Theory, Cultural Manifestations, and Praxis. In section 1: Theory, students become familiar with key concepts through both core texts and critical interpretations. Section 2: Cultural Manifestations, focuses on cultural expressions of theory, e.g. art, film, and literature. In section 3: Praxis, students demonstrate contemporary applications either through their own work or through the work of others.

**Repeatable:** *N*

**Formerly** 46-3530

**HU**

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

## **CULS 314 Marx and Marxisms: A Seminar on Marxist Cultural Theory**

This seminar will address key questions and problems in contemporary Marxist cultural theory. We will engage several major texts in the Marxist tradition, including those of Marx, Gramsci, Althusser, Adorno, and Jameson, among others. As a cultural studies seminar, this course will pay particular attention to questions of culture, art, ideology, and the subject, and how these questions have featured in debates within the Marxist tradition. We will also examine the historical and intellectual contexts in which these and other Marxist theories and accounts have emerged and developed.

**Repeatable:** *N*

**Formerly** 46-3520

**Prerequisites** CULS 201 Cultural Theories

**Minimum Credits** 3 **Maximum Credits** 3

## **CULS 315 Post-Colonial Studies**

An integral part of cultural studies, post-colonial studies deals with the complex implications of colonization and colonialism in societies and cultures. This seminar is an inquiry into concepts such as national culture, citizenship, othering, identity and alterity, cultural imperialism, hybridity, and origins, as well as issues of cultural resistance, negotiation, and agency, using examples from all over the world.

**Repeatable:** *N*

**Formerly** 46-3510

**GA**

**Prerequisites** CULS 201 Cultural Theories

**Minimum Credits** 3 **Maximum Credits** 3

## **CULS 316 Semiotics and Cultural Change**

The course explores the implications of systemic and structural theories of culture for issues of cultural change, both revolutionary and evolutionary, by considering particular case studies. Using dyadic and triadic methodologies for the study of signs, we examine case studies to interrogate political, social, and pragmatic outcomes of meta-analytic propositions. Fieldwork experiences engage students in contradictions,

coherences, coincidences and confrontations between theory and praxis.

**Repeatable:** N

**Formerly** 46-3502

**Prerequisites** CULS 201 Cultural Theories

**Minimum Credits** 3 **Maximum Credits** 3

## **CULS 317 Making and Unmaking Whiteness**

This advanced seminar examines the cultural and political-economic construction of white identities in the United States and analyzes how white identities are reproduced, maintained, and challenged. How has whiteness been defined in relation to notions of color, race, class, gender, sexuality, ethnicity, nation, language, and non-white perspectives? In this course, diverse student experiences come into contact with the work of historians and critical race theorists. The course will also examine counter-hegemonic white identities and the possibilities of 'unmaking' whiteness.

**Repeatable:** N

**Formerly** 46-3215

**DEI**

**Prerequisites** CULS 201 Cultural Theories

**Minimum Credits** 3 **Maximum Credits** 3

## **TELE 320 Critical Television Theory and Analysis**

This course seeks to master methods of analysis and theory commonly utilized in Television Studies: historic and industrial, auteurism and genre, semiotics and psychoanalysis, postmodernism, feminist, critical race, discourse, and audience reception. In students' aspirations to become professionals in the field of television, understanding how TV operates culturally and socially in a sophisticated manner will ultimately make them better creative artists, producers, managers, screenwriters, etc.

**Repeatable:** Y

**Formerly** 40-3212

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits** 3 **Maximum Credits** 3

## **Interdisciplinary Electives**

*Choose four of the following courses:*

### **ARTH 105 Introduction to Visual Culture**

In this course, students will refine their skills of seeing, discussing, and writing about visual culture. Structured according to methodologies for visual analysis rather than chronology or artistic style, the course introduces students to critical approaches that can be applied to a wide range of images, objects and spaces. Through assignments that emphasize writing, research and presentation skills, students will explore a broad range of perspectives on visual literacy.

**Repeatable:** N

**Formerly** 22-1105

**HU DEI**

**Minimum Credits 3 Maximum Credits 3**

### **ARTH 105H Introduction to Visual Culture: Honors**

In this course, students will refine their skills of seeing, discussing, and writing about visual culture. Structured according to methodologies for visual analysis rather than chronology or artistic style, the course introduces students to critical approaches that can be applied to a wide range of images, objects, and spaces. Through assignments that emphasize writing, research, and presentation skills, students will explore a broad range of perspectives on visual literacy. This is an Honors course and in addition to any pre-requisites, students need a minimum 3.50 GPA to enroll.

**Repeatable: N**

**HU DEI**

**Requirements 3.5 or Higher GPA (35GP)**

**Minimum Credits 3 Maximum Credits 3**

### **ARTH 230 Craft Culture and History**

In this course, the history of creative making is broadly explored from the point of view of Craft as Cultural Expression, Chicago histories in Craft, Transmaterial Craft, Contemporary Making, and Microindustry. The course is committed to a study of non-dominant narratives in Craft, including, among others, Black, Indigenous, and feminist contributions to the field. Students will have the opportunity to contextualize regional foci with international movements in a project of their own direction guided by course discussions and site visits. Studio visits to regional makers may also take place.

**Repeatable: N**

**HU**

**Requirements Sophomore Standing or Above (SO)**

**Minimum Credits 3 Maximum Credits 3**

### **ARTH 234 Queer Visual Culture**

This course surveys visual culture in the US through the lens of Queer Theory, exploring issues of sexuality, gender, race, class, and ability that historically and currently inform representations of Queerness in the public sphere. Students will examine germinal writings from cultural theorists to understand the historical framework of Queer visual culture. Students will explore concepts around subjectivity, referencing the dynamics between the ways we see ourselves and others.

**Repeatable: N**

**Requirements Sophomore Standing or Above (SO)**

**Minimum Credits 3 Maximum Credits 3**

### **ARTH 236 Black Art and Visual Culture**

This course surveys global art and visual culture, analyzing issues of class, gender and sexuality that historically and currently inform competing notions of blackness within the public sphere. Students examine germinal writings from various cultural theorists, artists and critics within the movements and historical framework of the art world- at-large. The art, representation and production of diaspora creative practices are reviewed within the construct of race and identity.

**Repeatable: N**

**Formerly** 22-2135

**HU DEI PL**

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **ARTH 315 Art Theory Seminar**

This seminar is a reading and writing intensive course in which students discuss major concepts and methods of art theory from modernist formalism to contemporary issues of race, gender, globalism, and feminism. Other topics addressed may include: semiotics, structuralism, Deconstruction, medium, object, social practice, identity politics, relational aesthetics.

**Repeatable:** *N*

**Formerly** 22-3110

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **ARTH 346 Gender, The Body, and Representation**

This course offers a history of the representation of the human body with a focus on traditions of figuration that have shaped and disrupted understandings of the body and gender. The historical relationship between the human body and the social body has formal and ideological implications still felt in the 21st century. In this course, students will study and question the effects of the canonical body on contemporary concepts of gender, beauty, desire, perfection, and athleticism. The perspective of the course will be global, transcultural, and will consider the body in art, performance, and as a vehicle for aesthetic, spiritual, political, and economic meanings.

**Repeatable:** *N*

**HU DEI**

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **ARTH 347 Portraiture + Self + Society**

This upper division art history course explores the recent resurgence in practice and performance of portraiture. From venerated oil paintings to family snapshots to social media profiles, this course investigates the practice, performance, and social function of the portrait. Students query the role that portraits play in the formation of individual and collective identities from the late 19th to 21st centuries. Considering the histories of representation, we critically examine the ways in which the social constructs of race, gender, class, and orientation determine how we look at others and ourselves.

**Repeatable:** *N*

**Formerly** 22-2180

**HU DEI PL**

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 148 Introduction to Documentary**

Students will examine in-depth the methods by which non-fiction filmmakers develop, produce and distribute documentary films. Through a series of screenings, lectures, critiques and class discussions, a variety of long- and short-form documentary projects will be analyzed by students in relationship to: story, research,

producing, directing, cinematography, editing, sound design, history, aesthetics, ethics and distribution. The class will link with material from each concentration area in Cinema and Television Arts - but through the prism of non-fiction filmmaking.

**Repeatable:** *N*

**Formerly** 24-1801

**Prerequisites** MEDI 101 Cinematic Storytelling or ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

## **CINE 234 Cinema Analysis and Criticism**

Course is a writing-and-research-intensive introduction to cinema studies. Students are taught how to write about cinema and media using different approaches including: formal analysis, ideological analysis, and historical research. In order to focus more on writing and course content, screenings will be limited. The screenings may change at the discretion of the instructor but the nature and number of the assignments will remain the same for each offering of the course.

**Repeatable:** *N*

**Formerly** 24-2500

**Minimum Credits 3 Maximum Credits 3**

## **CINE 340 Cinema and Media Theory**

Using primary texts, the course examines and interrogates the significant debates and concepts in cinema and media theory. Among other issues, the course focuses on the ontology of the moving image, narratology, ideological and psychological theories spectatorship and audiences, and aesthetic differences between analog and digital. Students will read original texts and write papers in response to screenings where they apply various theories and readings.

**Repeatable:** *N*

**Formerly** 24-3500

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **COMM 210 Visual Communication**

A theoretical and a hands-on course that immerses students in all aspects of visual communications, including typography, photography, illustration, informational graphics, design, and layout. Students will create visual projects according to their related fields.

**Repeatable:** *N*

**Formerly** 53-2220

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **COMM 222 Communication Ethics**

In this course, students will examine the professional and ethical standards and legal issues for creators of social media, advertising, public relations and media relations who represent companies, brands, media, nonprofits, organizations, causes and education.

**Repeatable:** *N*

**Formerly** 54-2206

**Prerequisites** ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

## **COMM 325 Data Storytelling & Visual Strategies**

This class combines theory and practice on strategies of communicating data through digital graphics and various media platforms. It focuses on visual and media literacy, research, narrative storytelling, and media design. Students will gain experience in translating data into public visual stories by designing various digital media infographics and collaborating on a transmedia storytelling project, including images, explanatory charts, maps, animation, and/or diagrams.

**Repeatable:** *N*

**Formerly** 53-3230

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **COMM 326 Semiotics for Creators of Popular Culture**

Writing-intensive course explores the study and use of semiotics (or symbolic meaning) in the development of advertising and other creative works that contribute to the content of popular culture. Interdisciplinary in scope, the course explores how advertising uses symbolic language from diverse disciplines such as literature, cinema, television, performing arts, architecture, fashion, and other fields that shape the overall popular culture.

**Repeatable:** *Y*

**Formerly** 54-3670

**SS**

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **COMM 326H Semiotics for Creators of Popular Culture: Honors**

Writing-intensive course explores the study and use of semiotics (or symbolic meaning) in the development of advertising and other creative works that contribute to the content of popular culture. Interdisciplinary in scope, the course explores how advertising uses symbolic language from diverse disciplines such as literature, cinema, television, performing arts, architecture, fashion, and other fields that shape the overall popular culture. This is an Honors class. In addition to other possible pre-requisites, students need a minimum G.P.A. of 3.50 or higher to enroll.

**Repeatable:** *Y*

**Formerly** 54-3670HN

**SS**

**Requirements** 3.5 or Higher GPA (35GP)

**Minimum Credits 3 Maximum Credits 3**

## **COMM 420 Media Ecosystems**

In this capstone project, students work in teams to analyze the civic impact and the reciprocal relationships between a media outlet and a local community. By applying media theories of public sphere, media ecology, and audience studies, the group conducts a social power analysis to explore the information flow, power relationships, and impact of all participants in the media ecosystem. Each team will deliver a professional media kit to their industry partner.

**Repeatable:** *N*

**Formerly** COMM 320

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

### **DANC 135 Hip-Hop for Non-Majors**

This course is an introduction to Hip-Hop technique, culture and history. Through this course, students learn about and embody the aesthetics, history and sociocultural context of Hip-Hop. The primary work of this course is embodied practice. Students learn foundational techniques and embodied concepts associated with Hip-Hop and related street dance styles including: breaking, locking, popping & house. The physical training is supplemented with activities such as readings, videos, discussions, lectures & writing assignments. Students also engage in Hip-Hop-centered cultural events to deepen their learning.

**Repeatable:** *Y*

**Formerly** 33-1230

**Minimum Credits** 3 **Maximum Credits** 3

### **DANC 180 Introduction to Dance Studies**

This course orients students to the field of dance as an academic discipline, profession and art form. To this end, this course arms students with information and processes of inquiry so as to facilitate their own decision making as they proceed in the department. Topics to be covered include: an introduction to dance as an art form, dance history, dance as a product of culture, and the relationship of dance technique to the overall field. Class sessions may be augmented by guest lectures led by a number of different Dance Department faculty, staff, students and alumni in an effort to bring new students fully into our learning community.

**Repeatable:** *N*

**Formerly** 33-1351

**HU DEI**

**Minimum Credits** 3 **Maximum Credits** 3

### **DANC 330 Postcolonial Approaches to Dance Studies**

This course explores dance and movement practices through a post-colonial lens. This course introduces methodologies for writing about the socio-political meanings that bodies carry as they move through time and space. Topics include: dance as cultural identity, dance as a social form of expression, dance as sacred practice, and dance as political power. Through readings, writing, lectures, discussion and extensive viewing of filmed and live performance, students come to understand dance as a rich human activity with many different manifestations and applications.

**Repeatable:** *N*

**Formerly** 33-3342

**HU DEI**

**Prerequisites** DANC 180 Introduction to Dance Studies and ENGL 122 International Writing and Rhetoric II or DANC 180 Introduction to Dance Studies and ENGL 112 Writing and Rhetoric II or DANC 180 Introduction to Dance Studies and ENGL 112H Writing and Rhetoric II: Honors  
**Minimum Credits 3 Maximum Credits 3**

### **DANC 335 Historical Approaches to Western Concert Dance**

Historical Approaches to Western Concert Dance explores the artistic developments in the field of Western concert dance from the 17th century to the 21st century. The course focuses on the socio-political contexts that birthed ballet and modern dance and traces how the aesthetic values of western dance forms over time morph and shift for the concert stage. Through readings, writing, lectures, discussions and extensive viewing of video and live performance, students come to understand the rich lineage of these dance forms.

**Repeatable:** *N*

**Formerly** 33-3343

**Prerequisites** DANC 330 Postcolonial Approaches to Dance Studies

**Minimum Credits 3 Maximum Credits 3**

### **EDUC 230 Culture in Young Children's Literature**

This course offers students the opportunity to learn how children's literature, as text and art, has been used to teach youth throughout history; how it has been appropriated by societies; and how children's authors and illustrators have become authors of the culture of their times. The course embodies elements of traditional literary analysis where students will study historical trends, literary and artistic devices, cultural ideologies, and elements of text quality present in multicultural children's literature for audiences aged birth through nine years.

**Repeatable:** *N*

**Formerly** 38-2601

**HL DEI**

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

### **FASH 183 Why We Wear: The Sociology of Dress**

This course asks the fundamental question, "Why do we wear what we wear?" Class sessions are structured around meaningful examples, such as the hoodie and the hijab; contemporary case studies, from the ballroom scene to punk; as well as field trips, film screenings and panel discussions that help students to make sense of the social, political and cultural dynamics of fashion.

**Repeatable:** *N*

**Formerly** 27-1930

**DEI**

**Minimum Credits 3 Maximum Credits 3**

### **FASH 275 Contemporary Fashion**

In this course students study the modes of dress in society from Dior's New Look of 1947 to the present. Curriculum covers historic events, social movements, the arts, celebrities, trends, and popular culture, and their relationship to fashion. Emphasis is on contemporary dress, why it is worn, what it reflects from the past, and what it might signal for the future.

**Repeatable:** *N*

**Formerly** 27-2176

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 122 International Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors

**Minimum Credits 3 Maximum Credits 3**

### **FASH 383 Fashion and Dress Beyond the West**

This interdisciplinary, topic-based course examines the dress, adornment, beautification and body modification practices and customs of non-Western, marginalized and indigenous peoples. Through readings, assignments, discussions, museum trips, film screenings, fieldwork, site visits and archival research, students will be asked to think critically about the relationship between identity, race, gender, memory, community and citizenship, as well as how the residual effects of colonialism have shaped the Western fashion system. The course will culminate with a group exhibition or publication.

**Repeatable:** *N*

**HU DEI**

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **GAME 105 Game Culture**

Course explores the increasing popularity of games within today's culture, which necessitates analysis of how games are impacted by social and ideological forces and influence them in turn. Questions like Why do we play and How do we play differently are explored, with many others, as students are guided through topics such as role-playing and identity, ethics, group behavior, competition, gender, race, and aesthetics in modern (and historical) games.

**Repeatable:** *N*

**Formerly** 36-1100

**Prerequisites** ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

### **HIST 253 Writings of Black Protest: To 1860**

Using the writings of African Americans during the era of slavery (1750 to 1860), content considers black protest thought in an historical perspective. Students use primary documents to discover the feelings of hope, fear, and frustration of free and enslaved blacks of this time.

**Repeatable:** *N*

**Formerly** 49-2626

**HI DEI PL**

**Minimum Credits 3 Maximum Credits 3**

### **HIST 254 Writings of Black Protest: Since 1860**

Writings of African Americans from the Civil War to the present are the focus of this confrontation with the realities of the black experience and thought in American perspective. Students use primary documents to examine black history and culture.

**Repeatable:** *N*

**Formerly** 49-2627

**HI DEI PL**

**Minimum Credits 3 Maximum Credits 3**

### **HIST 256 Hispanics in the U.S. Since 1800**

Course tracks the growing importance of Hispanics in all aspects of American life. Their economic impact has become a topic of controversy. The development of a Latino ethnic consciousness has come into conflict with efforts to assimilate this minority group, thus raising the question of what an American really is. Instruction also addresses the controversial topic of their impact on the U.S. economy. These issues cannot be fully understood without an examination of where Hispanics have come from, their hopes, ways they are trying to achieve their dreams, and their continuing obstacles.

**Repeatable:** *N*

**Formerly** 49-2632

**HI DEI PL**

**Minimum Credits 3 Maximum Credits 3**

### **HIST 266 Cartoons and Satire in American History**

A study of the American past through the humor and satire of the political cartoon. Humor is a political tool. Making fun of one's opponents is a way of weakening their position. We make fun of that which we oppose, but also of that which we fear. Cartoons illuminate all aspects of the American past: from political battles in Congress to battles on the streets; from gender clashes at home to racial clashes in the workforce.

## **HUMA 122H Latin American Women in the Arts: Honors**

This course is designed to study the artistic contributions that Latin American women have made (and continue to make) through literary, visual and performing arts. From Mexican nuns in the 17th century to Colombian punk rockers in the 1990s and Argentine digital filmmakers in the 2000s, the course will examine theoretical issues of subjectivity and cultural identity; feminist positionings and political agency; and the complex representations of femininity/masculinity, motherhood and patriarchy. This is an Honors class. In addition to other possible pre-requisites, students need a minimum G.P.A. of 3.50 or higher to enroll.

**Repeatable:** *N*

**Formerly** 51-1113HN

**HU DEI GA**

**Requirements** 3.5 or Higher GPA (35GP)

**Minimum Credits 3 Maximum Credits 3**

## **HUMA 211 Black Arts Movement**

The 1960s was a period when many revolutionary Black Americans, artists, dramatists, writers, critics and philosophers engaged in intense debates over the role of the artist in the making of a cultural revolution, and over what constitutes a genuine or true black aesthetic. The Black Arts Movement explicitly targeted a number of long-standing assumptions of literary critics and historians; in particular, the role of the text, the timelessness of art, the responsibility of artists to their communities, and the significance of oral forms in cultural struggles.

**Repeatable:** *N*

**Formerly** 51-2104

**HU PL**

### **HUMA 222 Nature and Environmentalism in U.S. Culture**

This course explores the relationship between humans and the non-human natural world, emphasizing popular conceptions of nature in American culture and the way in which the very notion of nature itself is a profoundly human conception. We can never really know the natural world "out there." Rather the natural world that we seek to understand, even conserve and protect, can only ever be understood through the lens of our social and cultural imagination. What are the socio-cultural manifestations of nature, and how do these manifestations affect the uses and/or abuses of nature in American society?

**Repeatable:** *N*

**Formerly** 51-2225

**HU**

### **HUMA 227 The Chinese City in Literature, Art, and Media**

This course uses an interdisciplinary humanities approach to Chinese cities from ancient to contemporary times depicted in various literary texts, visual arts, films and other popular media. The course serves both as an exploration of the Chinese city within historical contexts and as an examination of forms of representation. We will discuss themes such as national identity, the garden and intellectual identity, the intersection between China and the foreign, and human responses to the city in perpetual transition to modernity.

**Repeatable: N**

**Formerly 51-2602**

**HU DEI GA**

**Minimum Credits 3 Maximum Credits 3**

### **HUMA 230 Feminism and Film**

Feminist film critic Laura Mulvey argues in her oft-cited essay "Visual Pleasure and Narrative Cinema," that Hollywood film reflects the patriarchal social unconscious, and this can be exemplified in the way women are frequently represented in film as the object of the male gaze. Other scholars, such as Jane Gaines, have written about the way that people of color are often constructed as the object of the white gaze in mainstream cinema. Often times, women and people of color are rendered altogether invisible within the production of film and media, translating into problematic on-screen representations. This course introduces students to feminist film and media studies, engaging major questions that have shaped the vigorous fields of gender and sexuality studies, feminist film theory and feminist media history while considering the works of women filmmakers. Through a feminist lens, students will gain hands-on experience applying theory and history to film analysis.

**Repeatable: N**

**HU DEI**

**Minimum Credits 3 Maximum Credits 3**

### **HUMA 330 Feminist and Queer Environmentalism**

What does environmental crisis and issues like climate change, natural resource depletion, and pollution have to do with gender and sexuality? How does Nature function as a discourse that informs cultural understandings around gender and sexuality? Why are women on the frontlines of environmental justice movements? Drawing on research in environmental studies as well as gender and sexuality studies, this course provides a critical framework for addressing these questions and examining the linkages between gender, sexuality, and the environment. Students will be introduced to key debates and theoretical inquiry in feminist and queer ecologies.

### **LITR 225H Postcolonial Literature: Honors**

Generally understood as the literature written in countries that have gone through colonization and decolonization, postcolonial literature includes writing concerned with a wide variety of political and literary issues that include, but are by no means limited to: colonial power and anticolonial conflict, political and cultural legacies of imperialism in the newly independent postcolony, and the role of diaspora. Our class will be structured around these three broad sets of ideas, and will attempt the daunting work of balancing a global understanding of the various moves in postcolonial literature with a particularized and intense analysis of individual works. This is an Honors class. In addition to other possible pre-requisites, students need a minimum G.P.A. of 3.50 or higher to enroll.

## **MUSC 164 Hip-Hop: A Sonic History**

Course focuses on hip-hop as a musical culture, exploring the social conditions of the music's emergence and the factors that have facilitated its broad dissemination. We will investigate the social and technological factors that have affected hip-hop's development, as well as considering the ways in which the work of hip-hop musicians has affected both American music and social dynamics. With its ubiquitous presence at the top of the pop music charts, in mainstream advertising, and as a component of personal style, hip-hop has established itself as one of the most significant cultural movements of the last half-century. Course will strive to explore hip-hop's musical language in considerable depth. Through close listening and intensive analysis of a broad selection of musical examples, and through careful study of the musical techniques and aesthetics of hip-hop artists, course will offer students a detailed exploration of the dense and multi-layered hip-hop soundscape.

**Repeatable:** *N*

**Minimum Credits 3 Maximum Credits 3**

## **THEA 211 African American Theatre and Performance**

This course surveys the historical, political, and aesthetic advancements of African American theatre from the late 19th century to the contemporary moment. In particular, this course examines dramatic literature alongside social movements such as the Black Power Movement as well as the Black Feminist Movement as a way to investigate how artists/activists used theatre and performance to promote Black liberation. In doing so we will witness changing and often challenging perceptions, creations, and responses to race and racism, and related social constructions of gender and sexuality. Furthermore, we will also address several larger questions pertaining to the development of Black theatre in America: What is a Black play? What is the relationship between Black theatre and the broader American theatre? How has Black theatre and performance contributed to the making of Black identity formation?

## **Seminars**

*Choose two of the following courses:*

## **CULS 214 Media, Politics and Intervention**

There is a belief that media attention can shame people and governments into stopping human rights abuses. Yet, when examining reality: from past 'genocides' to current 'unexplained killings' to ongoing systemic 'abuses'- we know that media attention alone is not sufficient. This course will explore how intervention - by individuals, domestic/international advocacy groups and governments - does or does not

occur. The focus will be on the successful and unsuccessful use of media to provoke and sustain tangible respect for human rights.

**Repeatable:** *N*

**Formerly** 46-2412

**HU DEI GA**

**Minimum Credits 3 Maximum Credits 3**

### **CULS 310 Theories of Media, Society, & Culture**

This course will explore the major theories of mass communication, society and culture that have led up to and departed from Cultural Studies. We will examine a variety of theories from communication and media studies that help us to better understand the role media play in society and culture and different ideas about that role. Theories studied will include early propaganda and administrative research, McLuhan and media ecology, as well as Critical Theory, Apparatus theory, political economy, and Cultural Studies.

**Repeatable:** *N*

**Formerly** 46-3535

**Minimum Credits 3 Maximum Credits 3**

### **CULS 311 Theorizing Power**

This seminar explores central questions and problems in contemporary cultural and political theory related to how we theorize power in two dominant forms, including its meanings, its mechanisms, and its ideology. We will contrast the dominant liberal image of power with other understandings of power derived from Foucault: discursive, disciplinary, and biopolitical. We will examine major texts and concepts from Foucault, Butler, Locke, Mill, and others.

**Repeatable:** *N*

**Formerly** 46-3540

**Prerequisites** CULS 201 Cultural Theories

**Minimum Credits 3 Maximum Credits 3**

### **CULS 312 Queer Theory**

This course engages concepts of Queer Theory and the central architects of this relatively new field. The course is divided into three sections: Theory, Cultural Manifestations, and Praxis. In section 1: Theory, students become familiar with key concepts through both core texts and critical interpretations. Section 2: Cultural Manifestations, focuses on cultural expressions of theory, e.g. art, film, and literature. In section 3: Praxis, students demonstrate contemporary applications either through their own work or through the work of others.

**Prerequisites** CULS 201 Cultural Theories

**Minimum Credits 3 Maximum Credits 3**

### **CULS 315 Post-Colonial Studies**

An integral part of cultural studies, post-colonial studies deals with the complex implications of colonization and colonialism in societies and cultures. This seminar is an inquiry into concepts such as national culture, citizenship, othering, identity and alterity, cultural imperialism, hybridity, and origins, as well as issues of cultural resistance, negotiation, and agency, using examples from all over the world.

**Repeatable:** *N*

**Formerly** 46-3510

**GA**

**Prerequisites** CULS 201 Cultural Theories

**Minimum Credits 3 Maximum Credits 3**

### **CULS 316 Semiotics and Cultural Change**

The course explores the implications of systemic and structural theories of culture for issues of cultural change, both revolutionary and evolutionary, by considering particular case studies. Using dyadic and triadic methodologies for the study of signs, we examine case studies to interrogate political, social, and pragmatic outcomes of meta-analytic propositions. Fieldwork experiences engage students in contradictions, coherences, coincidences and confrontations between theory and praxis.

**Repeatable:** *N*

**Formerly** 46-3502

**Prerequisites** CULS 201 Cultural Theories

**Minimum Credits 3 Maximum Credits 3**

### **CULS 317 Making and Unmaking Whiteness**

This advanced seminar examines the cultural and political-economic construction of white identities in the United States and analyzes how white identities are reproduced, maintained, and challenged. How has whiteness been defined in relation to notions of color, race, class, gender, sexuality, ethnicity, nation, language, and non-white perspectives? In this course, diverse student experiences come into contact with the work of historians and critical race theorists. The course will also examine counter-hegemonic white identities and the possibilities of 'unmaking' whiteness.

**Repeatable:** *N*

**Formerly** 46-3215

**DEI**

**Prerequisites** CULS 201 Cultural Theories

**Minimum Credits 3 Maximum Credits 3**

## **CULS 318 Cybercultures**

This seminar course explores cyberspace, the most powerful and frequently inhabited site within contemporary culture. Students will explore specific themes such as, identity, community, bodies, virtuality, and sexuality through the lens of post-structuralist, postmodern, cyberfeminist, cyborg, and digital culture theories. Readings, discussions, research, writing, and a cyberethnographic project will help students gain a greater understanding of cyberspace, its culture, and the relationships that exist between machines and humans, as well as those between society and technology.

**Repeatable:** *N*

**Formerly** 46-3207

**Prerequisites** CULS 201 Cultural Theories

**Minimum Credits 3 Maximum Credits 3**

## **CULS 319 Technology and Culture**

The use of technologies raises complex and provocative questions about the relationships between humans, animals, the built environment and the natural world. This course engages these questions by introducing students to key theorists, critics and cultural historians of technology. The goal of this course is for students to utilize these perspectives as a means to initiate and/or develop a critical analysis of technologies in their specific cultural, political and historical contexts.

**Repeatable:** *N*

**Formerly** 46-3425

**Prerequisites** CULS 201 Cultural Theories

**Minimum Credits 3 Maximum Credits 3**

## **CULS 321 Globalization and Culture**

Since the early 1990s, globalization--a multi-faceted and highly contested concept--has become the new buzz word used to name, frame, and also direct the processes of social and technological change that have been taking place all over the world. By the same token, and since then, issues of globalization have been a central preoccupation of intellectual debates and political discourses and practices. This course aims to introduce students to the hotly debated and highly contested conceptual and social phenomenon of globalization, its histories, manifestations, implications, as well as its consequences for the individual and society.

**Repeatable:** *N*

**Formerly** 46-3415

**HU GA**

**Prerequisites** CULS 101 Introduction to Cultural Studies

**Minimum Credits 3 Maximum Credits 3**

## **PHIL 212 Philosophical Issues in Film**

Course addresses a series of philosophical themes including ethical issues, metaphysical questions, and existential quandaries. Philosophical study can open up vistas of meaning to any student, and films can effectively realize abstract ideas in palpable and compelling ways. Several films are used with readings in philosophical literature to explore specific philosophical themes.

**Repeatable:** *N*

**Formerly** 51-2405

**HU**

**Minimum Credits 3 Maximum Credits 3**

### **PHIL 212H Philosophical Issues in Film: Honors**

Course addresses a series of philosophical themes including ethical issues, metaphysical questions, and existential quandaries. Philosophical study can open up vistas of meaning to any student, and films can effectively realize abstract ideas in palpable and compelling ways. Several films are used with readings in philosophical literature to explore specific philosophical themes. Honors section includes independent research and peer writing critique. This is an Honors course and students need a cumulative GPA of 3.50 or higher to register.

**Repeatable: N**

**HU**

**Requirements 3.5 or Higher GPA (35GP)**

**Minimum Credits 3 Maximum Credits 3**

### **PHIL 320 Philosophy of Food and Culture**

The course is an interdisciplinary investigation into the philosophical and cultural dimensions of food. Using a variety of theoretical perspectives and models, the course examines issues of gender, ethnicity, class, consumption, agribusiness, global politics, and semiotics while we attempt to understand the complex ways in which social norms, cultural meaning, and economic realities underlie food habits.

**Repeatable: N**

**Formerly CULS 320**

**HU**

**Prerequisites** CULS 101 Introduction to Cultural Studies or CULS 101H Introduction to Cultural Studies: Honors or PHIL 101 Introduction to Philosophy or MEDI 201 Culture, Race and Media or MEDI 201H Culture, Race and Media: Honors

**Minimum Credits 3 Maximum Credits 3**

### **POLS 213 Power and Freedom on Screen**

Americans cherish individual freedom, while remaining suspicious of power. Yet individual freedom and choice are always exercised within contexts and conditions that are not only unchosen but also saturated with power. This course explores individuals negotiations with power and the unchosen through a series of films paired with theoretical readings. Films will include Into the Wild, Mystic River, The Three Burials of Melquiades Estrada, and Wendy and Lucy, while theoretical authors will include Mill, Marx, Foucault, and Butler.

**Repeatable: N**

**Formerly 50-2314**

**SS DEI**

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

## **Dance, BA**

The Dance, BA program is for students who see dance as their major area of study within a broader based undergraduate education. The credit requirements for the BA are less numerous than those for the BFA, allowing students to explore other subjects through elective courses or minors. The dance major provides substantial proficiency in contemporary dance idioms as well as solid foundations of related information, skills and experiences.

As a result of successfully completing program requirements, students should be able to:

- demonstrate proficiency as contemporary dancers with practical experience across culturally diverse dance forms;
- create dances and scholarship that demonstrates exposure to collaborative and/or interdisciplinary processes;
- recognize how dance practices circulate within systems of power and resistance;
- analyze their own scholarship and creative works as well as the works of their peers and professionals;
- create a portfolio that showcases their body of work and demonstrates transferable skills that can be applied to settings inside and outside of dance;
- apply their knowledge of functional body mechanics to the design and presentation of concept-based dance curriculum for a variety of populations; and
- effectively communicate their ideas kinesthetically, verbally and in writing.

#### **Standards of Performance**

The Dance Department expects exemplary effort and accomplishment from our BA candidates. Failure to meet one or more of the following expectations will result in review of the advisability of a candidate's continuation within the program. BA candidates in dance must:

- pass all required courses with grades of C or better;
- advance through technical requirements in a timely manner;
- exhibit engagement and presence in their artistic and scholarly practices; and
- conduct themselves in a manner beneficial to their own and others' education.

#### **Transfer Students Seeking a BA in Dance**

Transfer students seeking the BA degree must earn a minimum of 45 credits at Columbia and at least 15 of those must be toward major requirements. Any prior dance courses at a previous institution will be evaluated for equivalency with Columbia College's Dance Department requirements.

For students who have earned a Bachelor's degree previously, a Second Bachelor of Arts in Dance is available.

## **PROGRAM REQUIREMENTS - 48 credits required**

### **DANC 167 Dance Improvisation**

This course introduces students to dance performance, composition, and movement research through improvisation. Coursework balances in-depth individual exploration with rigorous practice in spontaneous duet, small group, and ensemble dance making. Throughout the course students will investigate concepts of dance composition while developing skills to work spontaneously, collaboratively, and independently. Direct physical work will prioritize the development of the student's unique movement voice, readings, writing, and discussion will develop the student's analytical skills.

**Repeatable:** *N*  
**Formerly** DANC 230

**Prerequisites** DANC 105 Modern IA or DANC 205A Modern Technique II or DANC 205B Modern Technique II or DANC 205C Modern Technique II or 33 1211 Intro to Dance Technique I or 33 1311 Modern Technique I or 33 2011 Modern Technique II

**Minimum Credits 3 Maximum Credits 3**

## **DANC 180 Introduction to Dance Studies**

This course orients students to the field of dance as an academic discipline, profession and art form. To this end, this course arms students with information and processes of inquiry so as to facilitate their own decision making as they proceed in the department. Topics to be covered include: an introduction to dance as an art form, dance history, dance as a product of culture, and the relationship of dance technique to the overall field. Class sessions may be augmented by guest lectures led by a number of different Dance Department faculty, staff, students and alumni in an effort to bring new students fully into our learning community.

**Repeatable:** *N*

**Formerly** 33-1351

**HU DEI**

**Minimum Credits 3 Maximum Credits 3**

## **DANC 225 Experiential Anatomy**

This course is an introduction to the scientific principles underlying the complexities of movement specific to dance. Through writing, movement workshops, reading, and lectures, you will learn to apply scientific principles to movement specific to dance training. This course covers anatomical terminology and topography, skeletal design of each of the major joints, alignment, breathing and care, and prevention of injuries.

**Repeatable:** *N*

**Formerly** 33-2371

**Prerequisites** DANC 106 Modern IB or 33 1212 Intro to Dance Technique II or 33 1311 Modern Technique I or 33 2011 Modern Technique II

**Minimum Credits 3 Maximum Credits 3**

## **DANC 245 Choreography I**

This course explores a variety of concepts and processes that may be used in making dances. Students will create their own dance studies in response to a variety of assigned exercises. Topics will include concepts such as space, time, shape, and dynamics, and processes for the invention, manipulation and structuring of movement materials. Improvisation and other physical processes will be employed as works are developed, revised and solidified into repeatable forms. Students will engage in critiques of their own and others' work and are expected to work rigorously and imaginatively to expand in new directions.

**Repeatable:** *N*

**Formerly** DANC 345

**Prerequisites** DANC 167 Dance Improvisation

**Minimum Credits 3 Maximum Credits 3**

## **DANC 330 Postcolonial Approaches to Dance Studies**

This course explores dance and movement practices through a post-colonial lens. This course introduces methodologies for writing about the socio-political meanings that bodies carry as they move through time

and space. Topics include: dance as cultural identity, dance as a social form of expression, dance as sacred practice, and dance as political power. Through readings, writing, lectures, discussion and extensive viewing of filmed and live performance, students come to understand dance as a rich human activity with many different manifestations and applications.

**Repeatable:** N

**Formerly** 33-3342

**HU DEI**

**Prerequisites** DANC 180 Introduction to Dance Studies and ENGL 122 International Writing and Rhetoric II or DANC 180 Introduction to Dance Studies and ENGL 112 Writing and Rhetoric II or DANC 180 Introduction to Dance Studies and ENGL 112H Writing and Rhetoric II: Honors

**Minimum Credits 3 Maximum Credits 3**

### **DANC 335 Historical Approaches to Western Concert Dance**

Historical Approaches to Western Concert Dance explores the artistic developments in the field of Western concert dance from the 17th century to the 21st century. The course focuses on the socio-political contexts that birthed ballet and modern dance and traces how the aesthetic values of western dance forms over time morph and shift for the concert stage. Through readings, writing, lectures, discussions and extensive viewing of video and live performance, students come to understand the rich lineage of these dance forms.

**Repeatable:** N

**Formerly** 33-3343

**Prerequisites** DANC 330 Postcolonial Approaches to Dance Studies

**Minimum Credits 3 Maximum Credits 3**

### **DANC 340 Teaching Dance I**

This course is a broad overview of teaching dance, covering both creative and technical skills as they are taught to diverse student populations. In this class students will plan and present material to their classmates and to a population outside of class. Students will observe teachers at work, discuss various methods of teaching and prepare materials for teaching job applications.

**Repeatable:** N

**Formerly** 33-3372

**Prerequisites** DANC 245 Choreography I

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **DANC 346 Choreography II**

In Choreography II students will complete at least three movement studies and one fully realized work. Working as soloists, in duets and in small groups, students will create and perform dances and revise them based on class critiques. Class-time will be spent investigating concepts as well as performing and discussing dances prepared outside of class. In addition to making dances, students will also view videos, attend performances, and write about major contemporary artists.

**Repeatable:** N

**Prerequisites** DANC 245 Choreography I

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

## **DANC 198A Topics in Movement Practice**

This course teaches specific movement forms and styles that enrich students in ways that may include increased aptitude in dance, more efficient movement, and improved body awareness, as well as broadening their understanding of dance traditions and practices throughout the world. Each semester a different discipline or set of disciplines is featured. Course develops awareness of movement and aesthetic principles particular to each form.

**Repeatable:** Y

**Formerly** DANC 198

**Minimum Credits 1 Maximum Credits 1**

## **DANC 198B Topics in Movement Practice**

This course teaches specific movement forms and styles that enrich students in ways that may include increased aptitude in dance, more efficient movement, and improved body awareness, as well as broadening their understanding of dance traditions and practices throughout the world. Each semester a different discipline or set of disciplines is featured. Course develops awareness of movement and aesthetic principles particular to each form.

**Repeatable:** Y

**Minimum Credits 1 Maximum Credits 1**

*Complete 3 credits from the following courses:*

## **COLL 210 Internship**

This course allows students to take a valuable internship experience in their desired industry for academic credit. Each position is vetted and approved by Career Center to ensure that it is an educational opportunity that will fulfill the learning objectives of the course. Participating in an internship allows the student to gain hands-on experience and explore career interests while applying knowledge and skills learned in the classroom to a work setting. The experience also helps students gain a clearer sense of what they still need to learn and provides an opportunity to build professional networks. Students are responsible for securing their own internships and having them approved prior to registering for this course. Please contact the Career Center for assistance and resources.

**Repeatable:** Y

**Formerly** 99-2100

**Requirements** Permission Required (DP)

**Minimum Credits 1 Maximum Credits 1**

## **COLL 230 Internship: Professionalism and Creativity**

This course allows students to take a valuable internship experience in their desired industry for academic credit. Each position is vetted and approved by Career Center to ensure that it is an educational opportunity that will fulfill the learning objectives of the course. Participating in an internship allows students to gain hands-on experience and explore career interests while applying knowledge and skills learned in the classroom to a work setting. The online, academic component of this internship fosters student understanding of how organizations operate and provides for structured reflection on their experiences and assessment of their knowledge and skills. Students are responsible for securing their own internships and should contact Career Center for assistance and resources to identify and apply for opportunities of interest.

**Repeatable:** Y

**Formerly** 99-2300

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

## **DANC 341 Teaching Dance II**

This course will focus primarily on methodologies of teaching dance technique. Students will serve as teaching assistants - demonstrating, making corrections, and presenting exercises - in a Level I course, in any style. Students will prepare and present movement assignments, design lesson plans, observe and practice teaching skills, and create teaching resources. For the culminating project, students will prepare and present a technique class.

**Repeatable:** N

**Formerly** 33-3674

**Prerequisites** DANC 340 Teaching Dance I

**Minimum Credits 3 Maximum Credits 3**

## **DANC 355 Concert Production**

Concert Production is a broad survey of the tasks and processes involved in producing dance as a theatrical event. Emphasis is placed on the relationship of production elements to the choreographic concept or artistic vision and the experience of producing from an administrative, artistic, design, and technical level. A wide range of subject matter is covered including: collaborations with artistic and technical personnel, programming, performance spaces, basics of publicity, grant writing, budgeting, costuming, lighting, sound, video, and practical experience on an actual production. Students gain essential background information as well as practical experience related to the people processes, equipment, and backstage operations that support live performance. Through written work, discussions, and practical projects, students develop a model dance production plan from initial conception to full theatrical completion.

**Repeatable:** N

**Formerly** 33-3456

**Prerequisites** DANC 346 Choreography II

**Minimum Credits 3 Maximum Credits 3**

## **DANC 360 Kinesiology**

This course, a continuation of study begun in Experiential Anatomy, looks at the scientific principles underlying the complexities of movement specific to dance. Content covers the muscular and neuromuscular systems, the physiological support systems, the prevention and care of injuries, development of conditioning programs, analysis of dance movements, and awareness of common anatomical and muscular imbalances found in dancers. Through lecture and movement workshops students learn to apply this information to their own training and to the principles of teaching.

**Repeatable:** N

**Formerly** 33-3473

**Prerequisites** DANC 225 Experiential Anatomy

**Minimum Credits 3 Maximum Credits 3**

## **DANC 365 Screen Dance and Sound Design**

This course explores computer-based technologies and their applications in dance. A variety of software packages will be examined as partners in the creative process, components within stage productions, and as tools for career support. Direct interaction with technology will be supported by viewings, readings, and discussions about important artists and work in the field. Students will produce finished projects through work in at least two of the following software environments: Dance Forms, Protools LE, and iMovie.

**Repeatable:** *N*

**Formerly** 33-3840

**Prerequisites** DANC 245 Choreography I

**Minimum Credits** 3 **Maximum Credits** 3

### **DANC 399A Advanced Topics in Dance**

Advanced Topics in Dance offers an opportunity for in-depth, collaborative research in domains of performance, choreography and scholarship. Each semester, the course will focus on specific themes or issues submitted to hybrid pedagogical enterprises that may include, choreographic, performative, and scholarly articulations. Semester long course topics may include: Dance for Camera, Post-Colonial Choreographies, Feminist Discourses in Dance, Physical Theatre Workshop, and Site-Specific Dancemaking Strategies. Through extended research processes-which may include extensive viewing of video and live performances, reading of pertinent literature, student driven choreographic workshops, instructor-led movement experiences, and substantial performance and production experience-students will engage with dance as a form that resists compartmentalization by methodological boundaries.

**Repeatable:** *Y*

**Formerly** DANC 399

**Requirements** Permission Required (DP)

**Minimum Credits** 3 **Maximum Credits** 3

### **DANC 399B Advanced Topics in Dance**

Advanced Topics in Dance offers an opportunity for in-depth, collaborative research in domains of performance, choreography and scholarship. Each semester, the course will focus on specific themes or issues submitted to hybrid pedagogical enterprises that may include, choreographic, performative, and scholarly articulations. Semester long course topics may include: Dance for Camera, Post-Colonial Choreographies, Feminist Discourses in Dance, Physical Theatre Workshop, and Site-Specific Dancemaking Strategies. Through extended research processes-which may include extensive viewing of video and live performances, reading of pertinent literature, student driven choreographic workshops, instructor-led movement experiences, and substantial performance and production experience-students will engage with dance as a form that resists compartmentalization by methodological boundaries.

**Repeatable:** *Y*

**Requirements** Permission Required (DP)

**Minimum Credits** 3 **Maximum Credits** 3

### **DANC 480 Repertory Performance Workshop**

Course offers intensive practical experience to students who work as ensemble members under the direction of different guest artist choreographers. The class functions as a dance company engaged in processes of creation, rehearsal, and performance of dance works. You will learn and practice different rehearsal and performance processes, ensemble skills, repertoire maintenance, and performance disciplines. Each semester culminates with fully produced performances of completed works.

## West African Techniques

*Complete 4 credits from the following courses:*

### **DANC 120 West African Dance Technique IA**

In this course students will study the fundamental techniques, terminology, and history common to traditional West African Dances, primarily those derived from the Old Mali Empire. Developmental exercises will condition the body and refine the ear for the polycentric and polyrhythmic requirements of the forms. Students will learn rhythms (steps) that integrate polycentric somatic forms in space with polyrhythmic patterns in time and emphasize grounded stance and appropriate use of alignment.

**Repeatable:** N  
**Formerly** 33-1031A  
**Minimum Credits** 1 **Maximum Credits** 1

### **DANC 121 West African Dance Technique IB**

This course expands upon the fundamental techniques, terminology, and history common to traditional West African Dances, primarily those derived from the Old Mali Empire. Developmental exercises will condition the body and refine the ear for the polycentric and polyrhythmic requirements of the forms. Students will learn rhythms (steps) that integrate polycentric somatic forms in space with polyrhythmic patterns in time and emphasize grounded stance and appropriate use of alignment.

**Repeatable:** N  
**Formerly** 33-1031B  
**Prerequisites** DANC 120 West African Dance Technique IA or DWAF-1-100 EXAM-DWAF MINIMUM SCORE = 100  
**Minimum Credits** 1 **Maximum Credits** 1

### **DANC 220A West African Dance Technique II**

This course focuses on the techniques, terminology, and history common to traditional West African Dances, primarily those derived from the Old Mali Empire. Developmental exercises will condition the body and refine the ear for the polycentric and polyrhythmic requirements of the forms. Students will learn rhythms (steps) that integrate polycentric somatic forms in space with polyrhythmic patterns in time and emphasize grounded stance and appropriate use of alignment.

**Repeatable:** Y  
**Formerly** DANC 220  
**Prerequisites** DANC 121 West African Dance Technique IB or DWAF-2-100 EXAM-DWAF MINIMUM SCORE = 100  
**Minimum Credits** 1 **Maximum Credits** 1

### **DANC 220B West African Dance Technique II**

This course focuses on the techniques, terminology, and history common to traditional West African Dances, primarily those derived from the Old Mali Empire. Developmental exercises will condition the body and refine the ear for the polycentric and polyrhythmic requirements of the forms. Students will learn rhythms (steps) that integrate polycentric somatic forms in space with polyrhythmic patterns in time and emphasize grounded stance and appropriate use of alignment.

**Repeatable:** Y

**Prerequisites** DANC 121 West African Dance Technique IB or DWAF-2-100 EXAM-DWAF MINIMUM SCORE = 100

**Minimum Credits 1 Maximum Credits 1**

### **DANC 320 West African Dance Technique III**

This course goes deeper into the techniques, terminology, and history common to traditional West African Dances, primarily those derived from the Old Mali Empire. Developmental exercises will condition the body and refine the ear for the polycentric and polyrhythmic requirements of the forms. Students will learn rhythms (steps) that integrate polycentric somatic forms in space with polyrhythmic patterns in time and emphasize grounded stance and appropriate use of alignment.

**Repeatable:** Y

**Formerly** 33-3031

**Prerequisites** DANC 220A West African Dance Technique II or DANC 220B West African Dance Technique II or DWAF-3-100 EXAM-DWAF MINIMUM SCORE = 100

**Minimum Credits 1 Maximum Credits 1**

## **Hip-Hop and Street Dance Techniques**

*Complete 2 credits from the following courses:*

### **DANC 185 Hip-Hop and Street Dance Technique I**

This course focuses on foundational techniques of Hip-Hop dance and related street dance styles (e.g., breaking, locking, popping and house) that have contributed significantly to the birth, growth and development of Hip-Hop culture and movement. Students develop proficiency in foundational movement vocabulary associated with these forms, as well as core Hip-Hop techniques and concepts, including: isolations, groove, dynamic range, foot work, freestyle, and musicality. Students also learn about and embody the history, ethos and sociocultural context of Hip-Hop via videos and other resources, class discussions, and attending Hip-Hop-centered cultural events.

**Repeatable:** Y

**Formerly** 33-1385

**Minimum Credits 1 Maximum Credits 1**

### **DANC 285 Hip-Hop and Street Dance Technique II**

This course focuses on intermediate-level foundational techniques of Hip-Hop dance and related street dance forms (e.g., breaking, locking, popping, and house) that have contributed significantly to the birth, growth and development of Hip-Hop culture and movement. Students develop proficiency in intermediate-level movement vocabulary (associated with the specific forms being taught), as well as core Hip-Hop techniques and concepts, including isolations, groove, dynamic range, footwork, freestyle and musicality. There is an emphasis on performance quality and artistry through set and improvised movement. Students also learn about and embody the history, ethos and sociocultural context of Hip-Hop

via videos (and other resources), class discussion, and participating in Hip-Hop-centered cultural events.

**Repeatable:** Y

**Formerly** 33-2386

**Prerequisites** DANC 185 Hip-Hop and Street Dance Technique I or DHIP-2-100 EXAM-DHIP MINIMUM SCORE = 100

**Minimum Credits 1 Maximum Credits 1**

### **DANC 385 Hip-Hop and Street Dance Technique III**

This course focuses on intermediate to advanced-level techniques of Hip-Hop dance and related street dance forms (e.g., breaking, locking, popping, and house) that have contributed significantly to the birth, growth and development of Hip-Hop culture and movement. Students develop proficiency in intermediate to advanced-level movement vocabulary (associated with the specific forms being taught), as well as core Hip-Hop techniques and concepts, including isolations, groove, dynamic range, footwork, freestyle and musicality. There is an emphasis on performance quality, artistry and the development of original style through set and improvised movement. Students are expected to interface with the broader Hip-Hop community, professional artists, as well as demonstrate a high level of proficiency in technique and the embodiment of history, ethos and philosophies of Hip-Hop (and/or related street dance forms).

**Repeatable:** Y

**Prerequisites** DANC 285 Hip-Hop and Street Dance Technique II or DHIP-3-100 EXAM-DHIP MINIMUM SCORE = 100

**Minimum Credits 1 Maximum Credits 1**

## **Ballet Techniques**

*Complete 4 credits from the following courses:*

### **DANC 115 Ballet Technique IA**

This course focuses on fundamental principles, practices and vocabulary common to classical ballet technique through a daily practice of warm-up exercises at the barre and movement combinations both in the center and across the floor. The knowledge acquired at the barre is tested in the center through adagio and allegro sections of the class. Adagio tests balance and fosters a lyrical quality while allegro tests coordination, articulation and the ability to move quickly and softly through space. Emphasis is placed on physical conditioning, coordination, alignment, clarity, movement pick-up and artistry.

**Repeatable:** N

**Formerly** 33-1021A

**Minimum Credits 1 Maximum Credits 1**

### **DANC 116 Ballet Technique IB**

This course expands upon the fundamental principles, practices and vocabulary introduced in Ballet IA and, common to classical ballet technique, through a daily practice of warm-up exercises at the barre and movement combinations both in the center and across the floor. The knowledge acquired at the barre is tested in the center through the adagio and allegro sections of the class. Adagio tests balance and fosters a lyrical quality while allegro tests coordination, articulation and the ability to move quickly and softly through space. Emphasis is placed on physical conditioning, coordination, alignment, clarity, movement pick-up and artistry.

**Repeatable:** N

**Formerly** 33-1021B

**Prerequisites** DANC 115 Ballet Technique IA or DBAL-1-100 EXAM-DBAL MINIMUM SCORE = 100

**Minimum Credits 1 Maximum Credits 1**

## **DANC 215A Ballet Technique II**

This course focuses on the principles, practices and vocabulary common to classical ballet technique through a daily practice of warm-up exercises at the barre and movement combinations both in the center and across the floor. The knowledge acquired at the barre is tested in the center through the adagio and allegro sections of the class. Adagio tests balance and fosters a lyrical quality while allegro tests coordination, articulation and the ability to move quickly and softly through space. Emphasis is placed on physical conditioning, coordination, alignment, clarity, movement pick-up and artistry.

**Repeatable:** Y

**Formerly** DANC 215

**Prerequisites** DANC 116 Ballet Technique IB or DBAL-2-100 EXAM-DBAL MINIMUM SCORE = 100

**Minimum Credits 1 Maximum Credits 1**

## **DANC 215B Ballet Technique II**

This course focuses on the principles, practices and vocabulary common to classical ballet technique through a daily practice of warm-up exercises at the barre and movement combinations both in the center and across the floor. The knowledge acquired at the barre is tested in the center through the adagio and allegro sections of the class. Adagio tests balance and fosters a lyrical quality while allegro tests coordination, articulation and the ability to move quickly and softly through space. Emphasis is placed on physical conditioning, coordination, alignment, clarity, movement pick-up and artistry.

**Repeatable:** Y

**Prerequisites** DANC 116 Ballet Technique IB or DBAL-2-100 EXAM-DBAL MINIMUM SCORE = 100

**Minimum Credits 1 Maximum Credits 1**

## **DANC 215C Ballet Technique II**

This course focuses on the principles, practices and vocabulary common to classical ballet technique through a daily practice of warm-up exercises at the barre and movement combinations both in the center and across the floor. The knowledge acquired at the barre is tested in the center through the adagio and allegro sections of the class. Adagio tests balance and fosters a lyrical quality while allegro tests coordination, articulation and the ability to move quickly and softly through space. Emphasis is placed on physical conditioning, coordination, alignment, clarity, movement pick-up and artistry.

**Repeatable:** Y

**Prerequisites** DANC 116 Ballet Technique IB or DBAL-2-100 EXAM-DBAL MINIMUM SCORE = 100

**Minimum Credits 1 Maximum Credits 1**

## **DANC 315A Ballet Technique III**

This course goes deeper into the principles, practices and vocabulary common to classical ballet technique through a daily practice of warm-up exercises at the barre and movement combinations both in the center and across the floor. The knowledge acquired at the barre is tested in the center through the adagio and allegro sections of the class. Adagio tests balance and fosters a lyrical quality while allegro tests coordination, articulation and the ability to move quickly and softly through space. Emphasis is placed on

physical conditioning, coordination, alignment, clarity, movement pick-up and artistry. Students must audition to be placed at this level.

**Repeatable:** Y

**Formerly** DANC 315

**Prerequisites** DBAL-3-100 EXAM-DBAL MINIMUM SCORE = 100

**Minimum Credits 1 Maximum Credits 1**

### **DANC 315B Ballet Technique III**

This course goes deeper into the principles, practices and vocabulary common to classical ballet technique through a daily practice of warm-up exercises at the barre and movement combinations both in the center and across the floor. The knowledge acquired at the barre is tested in the center through the adagio and allegro sections of the class. Adagio tests balance and fosters a lyrical quality while allegro tests coordination, articulation and the ability to move quickly and softly through space. Emphasis is placed on physical conditioning, coordination, alignment, clarity, movement pick-up and artistry. Students must audition to be placed at this level.

**Repeatable:** Y

**Prerequisites** DBAL-3-100 EXAM-DBAL MINIMUM SCORE = 100

**Minimum Credits 1 Maximum Credits 1**

## **Modern Techniques**

*Complete 8 credits from the following courses:*

### **DANC 105 Modern IA**

In this course students study the fundamental principles, practices and vocabulary common to Modern dance through a daily practice of warm-up exercises and movement combinations. Classes consist of a series of technical exercises that condition the body for strength, flexibility, endurance, and coordination; develop a physical and conceptual awareness of the elements of space, time, and energy; and promote performance skills of concentration, focus, and musicality. Live musicians accompany all dance major technique classes. Modern Technique IA is the first course in a two-semester sequence. Modern Technique IA is a prerequisite for Modern Technique IB.

**Repeatable:** N

**Formerly** 33-1011A

**Minimum Credits 2 Maximum Credits 2**

### **DANC 106 Modern IB**

In this course, students build upon the skills acquired in Modern Technique IA and explore further the fundamental principles, practices and vocabulary common to modern dance through a daily practice of warm-up exercises and movement combinations. Classes consist of a series of technical exercises that condition the body for strength, flexibility, endurance, and coordination; students begin to develop a physical and conceptual awareness of the elements of space, time, and energy; and promote performance skills of concentration, focus, and musicality. Live musicians accompany all dance major technique classes.

**Repeatable:** N

**Formerly** 33-1011B

**Prerequisites** DANC 105 Modern IA or DMOD-1-100 EXAM-DMOD MINIMUM SCORE = 100  
**Minimum Credits 2 Maximum Credits 2**

### **DANC 205A Modern Technique II**

In this course students will study the principles, practices and vocabulary common to modern dance through a daily practice of warm-up exercises and movement combinations. Emphasis will be on developing conditioning, coordination, alignment, clarity, movement pick-up and artistry. Live musicians accompany all modern classes.

**Repeatable:** Y

**Formerly** DANC 205

**Prerequisites** DANC 106 Modern IB or DMOD-2-100 EXAM-DMOD MINIMUM SCORE = 100

**Minimum Credits 1 Maximum Credits 1**

### **DANC 205B Modern Technique II**

In this course students will study the principles, practices and vocabulary common to modern dance through a daily practice of warm-up exercises and movement combinations. Emphasis will be on developing conditioning, coordination, alignment, clarity, movement pick-up and artistry. Live musicians accompany all modern classes.

**Repeatable:** Y

**Prerequisites** DANC 106 Modern IB or DMOD-2-100 EXAM-DMOD MINIMUM SCORE = 100

**Minimum Credits 1 Maximum Credits 1**

### **DANC 205C Modern Technique II**

In this course students will study the principles, practices and vocabulary common to modern dance through a daily practice of warm-up exercises and movement combinations. Emphasis will be on developing conditioning, coordination, alignment, clarity, movement pick-up and artistry. Live musicians accompany all modern classes.

**Repeatable:** Y

**Prerequisites** DANC 106 Modern IB or DMOD-2-100 EXAM-DMOD MINIMUM SCORE = 100

**Minimum Credits 1 Maximum Credits 1**

### **DANC 310A Intermediate Contemporary Modern Techniques**

This course will challenge you physically, going deeper into contemporary modern dance vocabulary that emphasizes more complex and layered dance phrasework. You will draw upon skills acquired in Modern Technique II with increasing focus on body alignment specific to modern dance technique, rhythmic clarity, and spatial intent. Emphasis is on deeper skill building in relationship to stamina, focus, and concentration in the practice of more complex physical vocabulary. You must complete four credits of Modern Technique II prior to enrolling in this course.

**Repeatable:** Y

**Formerly** DANC 310

**Prerequisites** DANC 205A Modern Technique II and DANC 205B Modern Technique II or DANC 205A Modern Technique II and DANC 205C Modern Technique II or DANC 205B Modern Technique II and DANC 205C Modern Technique II or DMOD-3-100 EXAM-DMOD MINIMUM SCORE = 100

**Minimum Credits 1 Maximum Credits 1**

### **DANC 310B Intermediate Contemporary Modern Techniques**

This course will challenge you physically, going deeper into contemporary modern dance vocabulary that emphasizes more complex and layered dance phrasework. You will draw upon skills acquired in Modern Technique II with increasing focus on body alignment specific to modern dance technique, rhythmic clarity, and spatial intent. Emphasis is on deeper skill building in relationship to stamina, focus, and concentration in the practice of more complex physical vocabulary. You must complete four credits of Modern Technique II prior to enrolling in this course.

**Repeatable:** Y

**Prerequisites** DANC 205A Modern Technique II and DANC 205B Modern Technique II or DANC 205A Modern Technique II and DANC 205C Modern Technique II or DANC 205B Modern Technique II and DANC 205C Modern Technique II or DMOD-3-100 EXAM-DMOD MINIMUM SCORE = 100

**Minimum Credits 1 Maximum Credits 1**

### **DANC 425A Advanced Contemporary Modern Techniques**

This course will challenge you physically with an advanced contemporary modern vocabulary that emphasizes your individual contributions to the class material. You will draw upon skills acquired in Intermediate Contemporary Modern Techniques with increasing focus on building a stronger class community with your peers, to work both as an ensemble, as well as cultivating your unique voice and individuality. Emphasis is on building complex and layered physical vocabulary that challenges you to think creatively with curiosity and commitment, empowers you to take risks, and consider your individual role within the class context. You must audition for placement at this level.

**Repeatable:** Y

**Formerly** DANC 425

**Prerequisites** DMOD-4-100 EXAM-DMOD MINIMUM SCORE = 100

**Minimum Credits 1 Maximum Credits 1**

### **DANC 425B Advanced Contemporary Modern Techniques**

This course will challenge you physically with an advanced contemporary modern vocabulary that emphasizes your individual contributions to the class material. You will draw upon skills acquired in Intermediate Contemporary Modern Techniques with increasing focus on building a stronger class community with your peers, to work both as an ensemble, as well as cultivating your unique voice and individuality. Emphasis is on building complex and layered physical vocabulary that challenges you to think creatively with curiosity and commitment, empowers you to take risks, and consider your individual role within the class context. You must audition for placement at this level.

**Repeatable:** Y

**Prerequisites** DMOD-4-100 EXAM-DMOD MINIMUM SCORE = 100

**Minimum Credits 1 Maximum Credits 1**

### **Contemporary Modern/Hip-Hop and Street Dance Techniques**

*Complete 2 credits from the following courses:*

### **DANC 310A Intermediate Contemporary Modern Techniques**

This course will challenge you physically, going deeper into contemporary modern dance vocabulary that emphasizes more complex and layered dance phrasework. You will draw upon skills acquired in Modern Technique II with increasing focus on body alignment specific to modern dance technique, rhythmic clarity, and spatial intent. Emphasis is on deeper skill building in relationship to stamina, focus, and concentration in the practice of more complex physical vocabulary. You must complete four credits of Modern Technique II prior to enrolling in this course.

**Repeatable:** Y

**Formerly** DANC 310

**Prerequisites** DANC 205A Modern Technique II and DANC 205B Modern Technique II or DANC 205A Modern Technique II and DANC 205C Modern Technique II or DANC 205B Modern Technique II and DANC 205C Modern Technique II or DMOD-3-100 EXAM-DMOD MINIMUM SCORE = 100

**Minimum Credits 1 Maximum Credits 1**

### **DANC 310B Intermediate Contemporary Modern Techniques**

This course will challenge you physically, going deeper into contemporary modern dance vocabulary that emphasizes more complex and layered dance phrasework. You will draw upon skills acquired in Modern Technique II with increasing focus on body alignment specific to modern dance technique, rhythmic clarity, and spatial intent. Emphasis is on deeper skill building in relationship to stamina, focus, and concentration in the practice of more complex physical vocabulary. You must complete four credits of Modern Technique II prior to enrolling in this course.

**Repeatable:** Y

**Prerequisites** DANC 205A Modern Technique II and DANC 205B Modern Technique II or DANC 205A Modern Technique II and DANC 205C Modern Technique II or DANC 205B Modern Technique II and DANC 205C Modern Technique II or DMOD-3-100 EXAM-DMOD MINIMUM SCORE = 100

**Minimum Credits 1 Maximum Credits 1**

### **DANC 385 Hip-Hop and Street Dance Technique III**

This course focuses on intermediate to advanced-level techniques of Hip-Hop dance and related street dance forms (e.g., breaking, locking, popping, and house) that have contributed significantly to the birth, growth and development of Hip-Hop culture and movement. Students develop proficiency in intermediate to advanced-level movement vocabulary (associated with the specific forms being taught), as well as core Hip-Hop techniques and concepts, including isolations, groove, dynamic range, footwork, freestyle and musicality. There is an emphasis on performance quality, artistry and the development of original style through set and improvised movement. Students are expected to interface with the broader Hip-Hop community, professional artists, as well as demonstrate a high level of proficiency in technique and the embodiment of history, ethos and philosophies of Hip-Hop (and/or related street dance forms).

**Repeatable:** Y

**Prerequisites** DANC 285 Hip-Hop and Street Dance Technique II or DHIP-3-100 EXAM-DHIP MINIMUM SCORE = 100

**Minimum Credits 1 Maximum Credits 1**

## **DANC 425A Advanced Contemporary Modern Techniques**

This course will challenge you physically with an advanced contemporary modern vocabulary that emphasizes your individual contributions to the class material. You will draw upon skills acquired in Intermediate Contemporary Modern Techniques with increasing focus on building a stronger class community with your peers, to work both as an ensemble, as well as cultivating your unique voice and individuality. Emphasis is on building complex and layered physical vocabulary that challenges you to think creatively with curiosity and commitment, empowers you to take risks, and consider your individual role within the class context. You must audition for placement at this level.

**Repeatable:** Y

**Formerly** DANC 425

**Prerequisites** DMOD-4-100 EXAM-DMOD MINIMUM SCORE = 100

**Minimum Credits** 1 **Maximum Credits** 1

## **DANC 425B Advanced Contemporary Modern Techniques**

This course will challenge you physically with an advanced contemporary modern vocabulary that emphasizes your individual contributions to the class material. You will draw upon skills acquired in Intermediate Contemporary Modern Techniques with increasing focus on building a stronger class community with your peers, to work both as an ensemble, as well as cultivating your unique voice and individuality. Emphasis is on building complex and layered physical vocabulary that challenges you to think creatively with curiosity and commitment, empowers you to take risks, and consider your individual role within the class context. You must audition for placement at this level.

**Repeatable:** Y

**Prerequisites** DMOD-4-100 EXAM-DMOD MINIMUM SCORE = 100

**Minimum Credits** 1 **Maximum Credits** 1

## **Deaf Studies, BA**

*Note: Effective Spring 2023, applications will no longer be accepted into this program.*

The Deaf Studies major is designed to educate students who will be advocates for and with the Deaf community in the United States to promote equality in all aspects of life for all. The curriculum provides a coherent plan of study through courses in American Sign Language, Deaf Culture, linguistics, cultural studies, and practicums involved within the Deaf community. During their final year, Deaf Studies majors will enhance their academic experience through internship, which includes fieldwork related to Deaf Studies, and a capstone designed to meet their individual objectives.

A BA in Deaf Studies can allow students the opportunity to study the disciplines of the social aspects of the Deaf community as well as Deaf individuals and to work in Deaf-related careers such as administration, research, advocacy, or education. The American Sign Language Department at Columbia College Chicago is also in a unique position by partnering with the highly active artistic Deaf community in Chicago and offers courses taught by internationally known faculty in the creative ASL artistic fields.

As a result of successfully completing program requirements, students should be able to:

- understand the cultural foundations of the field of Deaf Studies;
- recognize the American Deaf community as a linguistic and cultural minority group;
- possess an in-depth understanding of the history of the Deaf community and American Deaf culture;
- appreciate diversity in the Deaf community, and will be able to apply their insights when working in diverse communities;
- define the characteristics of special populations of Deaf and hard of hearing persons who require unique communication;
- analyze artistic elements of the Deaf community (themes, forms/genres, stylistic choices, cultural perspectives, or use of cultural identity, for example) in order to produce new interpretations of existing Deaf-related art works in historical and contemporary settings;
- demonstrate solid usage of social media to reflect their criticisms toward cultural studies, and how issues related to the Deaf communities fit in with larger issues of race, power, and oppression;
- communicate proficiently in ASL and English;
- demonstrate proficiency of use of and comprehension of advanced vocabulary and grammatical features of ASL;
- demonstrate proficiency of use of and comprehension of advanced vocabulary and grammatical features of English;
- demonstrate the basic knowledge of poetic features within ASL Literature;
- understand the ethical and professional foundations of the fields of Deaf Studies and Interpretation;
- understand the role of an interpreter, and will understand the evolution of that role from a cultural perspective;
- demonstrate knowledge of professional credentialing and laws that pertain to interpreters;
- demonstrate knowledge of ethical business practices and professional interpreting agencies and organizations, as well as Deafness-related organizations;
- exhibit professional behaviors while interacting within the Deaf and interpreting communities; and
- apply the skills, aptitudes, and knowledge developed throughout the entire course of study through critical reflection on outreach in the Deaf community or advanced research.

## PROGRAM REQUIREMENTS - 46 credits required

### **SIGN 101 American Sign Language I**

An introductory course in American Sign Language (ASL). This course concentrates on the development of conversational fluency in ASL. Students will develop expressive and receptive skills through discussions of such topics as sharing information about us and everyday life. Activities include short presentations, storytelling, and lab exercises that provide extensive hands-on practice using different methods of delivery. Students will also be exposed to diverse Deaf signers, modeling appropriate language and culture behaviors in various situations.

**Repeatable:** *N*

**Formerly** 37-1151

**HU DEI**

**Minimum Credits 3 Maximum Credits 3**

### **SIGN 102 American Sign Language II**

A continuation of an introductory course in American Sign Language (ASL). This course includes further training in receptive and expressive skills through discussions of such topics as sharing information about our surroundings and us. Activities include short presentations, storytelling, and lab exercises that provide

extensive hands-on practice using different methods of delivery. Students will be also be exposed to Deaf culture and diverse Deaf signers, modeling appropriate language and cultural behaviors in various situations.

**Repeatable:** Y

**Formerly** 37-1152

**HU DEI**

**Prerequisites** SIGN 101 American Sign Language I

**Minimum Credits 3 Maximum Credits 3**

## **SIGN 125 Deaf Culture**

Course is an introduction to various aspects of the deaf community as a linguistic and cultural minority group. Designed for individuals who may or may not have had prior experience with deaf people, course raises questions concerning the nature of sign language and its varieties, education of deaf people, historical treatment of deaf people, sociological and cultural issues important to the deaf community, and political activism.

**Repeatable:** N

**Formerly** 37-1252

**HU DEI PL**

**Minimum Credits 3 Maximum Credits 3**

## **SIGN 128 Introduction to Interpreting**

This course introduces students to career opportunities within the field of interpreting and the ASL community. Focus is placed on relevant laws that impact the Deaf Community, the historical and current trends in the field of interpreting, the growth of Deaf Studies as a field and career opportunities afford those with linguistic and cultural knowledge of ASL and the Deaf Community. Students begin their study and analysis of the Code of Professional Conduct and Ethics in general. Students will begin their preparation for the field by becoming aware of, and participate in current practices and research related to the field of interpreting and Deaf studies. Lastly, students will begin to develop important critical thinking skills in order to prepare them for the next developmental level.

**Repeatable:** N

**Formerly** 37-1253

**Prerequisites** SIGN 101 American Sign Language I

**Minimum Credits 3 Maximum Credits 3**

## **SIGN 201 American Sign Language III**

This is the third course in the series of American Sign Language (ASL). This course focuses on the further development of conversational activities. ASL skill development with application to complex grammatical structures continues through discussion of such topics as us, the Deaf community, and its culture. Activities include presentations, storytelling, and lab exercises that provide extensive hands-on practice using different methods of delivery. For community engagement, students are expected to navigate into the diverse Deaf community in order to learn about Deaf co-culture in and beyond Chicago.

**Repeatable:** Y

**Formerly** 37-2153

**HU**

**Prerequisites** SIGN 102 American Sign Language II  
**Minimum Credits 3 Maximum Credits 3**

## **SIGN 202 American Sign Language IV**

This intermediate American Sign Language course is specifically designed to refine expressive and receptive skills of students pursuing a degree in ASL Interpreting or Deaf Studies. Advanced linguistic structures are introduced and put into practice. Activities include delivering live presentations, narrating life experiences, discussing current events, and lab exercises that provide students opportunities to apply their linguistic and cultural knowledge. For the community engagement, students are expected to engage in the diverse Deaf community to learn their places and develop networks within the community in and beyond Chicago.

**Repeatable:** Y

**Formerly** 37-2154

**HU DEI**

**Prerequisites** SIGN 201 American Sign Language III

**Minimum Credits 3 Maximum Credits 3**

## **SIGN 211 Deaf Representations in the Media**

The Deaf and hard-of-hearing community exists as a linguistic and cultural minority group often featured in various forms of media. This course raises questions concerning the portrayal of Deaf and hard-of-hearing people in television, film, theater, books, and news media. This course will examine the changing attitudes towards the community, deafness, and sign language throughout history up to current times. Language, rhetoric, imagery, and treatment of both characters and actual persons in the media will also be examined.

**Repeatable:** Y

**Formerly** 37-2201

**HU DEI PL**

**Prerequisites** ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

## **SIGN 228 Linguistics of ASL**

Course focuses on the linguistic structures of American Sign Language, including phonology, morphology, syntax, and language. Structural aspects of both American Sign Language and English are compared and contrasted, providing students with valuable insight into both languages.

**Repeatable:** N

**Formerly** 37-2253

**Prerequisites** SIGN 102 American Sign Language II

**Minimum Credits 3 Maximum Credits 3**

## **SIGN 250 Visual Methodologies**

This course will serve as an introduction to visual methodologies, looking at different types of visual research and critically examining a range of visual methods and their uses. Our society is moving towards a more visually oriented environment in our media and social media, in terms of how information is presented, disseminated, and gathered. The Deaf and Hard-of-Hearing community in America relies greatly on visual

stimuli and visual forms of information, but so do many other groups in today's American society. Different methods to develop and study visual data and how they may be used within the Deaf and Hard of Hearing community, among others, will be examined, with opportunities to apply these methods in class projects.

**Repeatable:** *N*

**Formerly** 37-2501

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

## **SIGN 310 Advanced American Sign Language**

This advanced American Sign Language course is specifically designed to refine and further develop expressive and receptive skills of students pursuing a degree in interpreting or Deaf Studies. Advanced linguistic structures are explored and practiced. Colloquial and discourse features and strategies are explored and practiced. Activities include delivering live presentations, narrating life experiences, discussing current events, and lab exercises that provide students opportunities to apply their advanced linguistic and cultural knowledge. For community engagement, students are expected to engage in the diverse Deaf community in order to learn their places and develop networks within the Deaf community here in and beyond Chicago.

**Repeatable:** *Y*

**Formerly** 37-3205

**Prerequisites** SIGN 202 American Sign Language IV

**Minimum Credits 3 Maximum Credits 3**

## **SIGN 315 Deaf Education**

This course examines the education of people who are Deaf and hard of hearing. Topics include language acquisition, the history and practices of Deaf Education, and various types of technology used in Deaf Education. As Deafness is both a physical and cultural phenomenon, educational philosophies that have influenced Deaf Education will be discussed, as well as legislative initiatives that have impacted the lives of Deaf and hard of hearing children. Content includes lecture, discussion, basic research, and one field trip to a working School for the Deaf.

**Repeatable:** *N*

**Formerly** 37-3225

**PL**

**Prerequisites** SIGN 125 Deaf Culture and SIGN 201 American Sign Language III

**Minimum Credits 3 Maximum Credits 3**

## **SIGN 365 ASL Literature**

Course covers two full-length ASL narratives by Ben Bahan and Sam Supalla, well respected ASL storytellers. Through the narratives, students are exposed to the lives and experiences of deaf people. Deaf people rely on ASL narratives to portray themselves and to reaffirm their identities as members of a distinct cultural group. Students also learn how a narrative is formed without a written system and how it is preserved and passed down through the generations. Note: This is a required course for students pursuing an American Sign Language Studies Minor.

**Repeatable:** *N*

**Formerly** 37-3661

**Prerequisites** SIGN 202 American Sign Language IV and SIGN 125 Deaf Culture

**Minimum Credits 3 Maximum Credits 3**

### **SIGN 475 Deaf Studies Capstone**

This directed study and lecture hybrid course provides a comprehensive review of information, sociolinguistics, and methodologies provided in all previous Deaf Studies courses. Appropriate means of research on ASL and Deaf community related issues will be discussed. Students will propose, develop and complete individual projects based upon research on a specific and significant topic in the Deaf/ASL community.

**Repeatable:** N

**Formerly** 37-4503

**Prerequisites** CULS 201 Cultural Theories and SIGN 365 ASL Literature and SIGN 315 Deaf Education and SIGN 310 Advanced American Sign Language

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

### **SIGN 496 Independent Project: ASL-English Interpretation**

Independent projects offer credit to students for special projects related to deafness and/or interpreting. Student proposes project to the department chairperson for approval in advance, at which time number of credits are assigned. Contact the Interpreter Training Department for additional details.

**Repeatable:** Y

**Formerly** 37-3898

**Requirements** Permission Required (DP)

**Minimum Credits 1 Maximum Credits 6**

*Choose one of the following courses:*

### **CULS 101 Introduction to Cultural Studies**

This course introduces students to the terms, analytical techniques, and interpretive strategies commonly employed in cultural studies. Emphasis is on interdisciplinary approaches to exploring how cultural processes and artifacts are produced, shaped, distributed, consumed, and responded to in diverse ways. Through discussion, research, and writing, class members investigate these varied dimensions of culture; learn to understand them in their broader social, aesthetic, ethical, and political contexts; and thereby prepare for more advanced coursework in Cultural Studies.

**Repeatable:** N

**Formerly** 46-1100

**HU DEI**

**Minimum Credits 3 Maximum Credits 3**

### **CULS 101H Introduction to Cultural Studies: Honors**

This course introduces students to the terms, analytical techniques, and interpretive strategies commonly employed in cultural studies. Emphasis is on critical approaches to exploring how cultural processes and artifacts are produced, shaped, distributed, consumed, and responded to in diverse ways. Through discussion, research, and writing, class members investigate these varied dimensions of culture; learn to understand them in their broader social, aesthetic, ethical, political, and economic contexts; and thereby

prepare for more advanced coursework in cultural studies. This is an Honors class. In addition to other possible pre-requisites, students need a minimum G.P.A. of 3.50 or higher to enroll.

**Repeatable:** *N*

**HU DEI**

**Requirements** 3.5 or Higher GPA (35GP)

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

### **SIGN 221 Historical and Cultural Perspectives on Deaf American Artists and Art**

This course focuses on the refinement of students' appreciations and knowledge in the visual art history and Deaf Arts. This course will also investigate the historical and cultural perceptions toward to the Deaf artists and their works; use comparative studies focusing on the work of Deaf artists which may not appear under the definition of Deaf Art, and will explore and produce a body of work demonstrating a Deaf experience related to painting, sculpture, and installation spaces.

**Repeatable:** *N*

**Formerly** 37-2251

**PL**

**Prerequisites** SIGN 125 Deaf Culture

**Minimum Credits 3 Maximum Credits 3**

### **SIGN 225 Deaf Art Movement/De'Via: Discussions with Deaf Artists**

This course focuses on the Deaf Art Movement and the De'VIA Movement and the artwork and movements that preceded and influenced the development of these movements. It involves history and understanding artistic frameworks that help to interpret the meaning of various artwork of this era. Basically this is a contemporary art course about living Deaf Artists. This course will involve interviews with artists in the United States who visit the class in person or via videophone technology. Students will be invited to interview and assist Deaf artists during events outside of class during the semester. Students will be expected to have interview questions ready for each guest presenter based on their experiences with the artist's work. One 7-10 minute presentation in ASL will be required from each student, focusing on a different artist, informing the class of various Deaf artists and their work. This course will expand your working knowledge of Deaf Art and various contemporary Deaf artists and the art movements that have influenced their development.

**Repeatable:** *N*

**Formerly** 37-2252

**Prerequisites** SIGN 102 American Sign Language II

**Minimum Credits 3 Maximum Credits 3**

## **Design Management, BA**

The BA in Design Management aims to equip students with the knowledge and skills to pursue careers as managers, executives, and owners of design entities. Students will have the opportunity to learn how to manage and lead design-oriented organizations with an emphasis on entrepreneurial thinking and leadership. The Design Management major combines theory and practice by providing students with a hands-on design agency practicum experience.

The full-time and adjunct faculty of more than 100 renowned academics and creative professionals integrate current industry practices into the classroom. With over 700 business and entrepreneurship students and a global network of alumni, the program has a major influence in the field of arts, entertainment, and media management worldwide.

As a result of successfully completing program requirements, students should be able to:

- understand how the design industry has evolved and be able to speculate on future trends;
- assess how various business models are structured for design-based freelancers, sole-proprietorships, small businesses, and large firms;
- examine the broad range of design disciplines and their relationship to one another; and
- apply fundamental project management-related career paths in the design industry and identify the skills, knowledge and experience necessary for success.

A grade of C or better is required in all major coursework.

For students who have earned a Bachelors degree previously, Columbia offers a Second Bachelor of Arts in Design Management.

## PROGRAM REQUIREMENTS - 42 credits required

### **BUSE 105 Introduction to Management and Entrepreneurship**

In this course students learn the basic management functions of planning, organizing, leading and controlling, as they explore their opportunities as future arts managers and entrepreneurs. Using text, activities, films, cases and projects, students deepen their understanding of the role of the arts manager; practice applying management skills, tools, and techniques; and identify ways to effectively and creatively respond to management problems and challenges.

**Repeatable:** *N*

**Formerly** 28-1110

**Minimum Credits** 3 **Maximum Credits** 3

### **BUSE 109 Information Management**

This course provides students with a practical framework for employing essential computer applications in today's business environment. Students apply advanced functions of database, spreadsheet, word processing and presentation software to business analysis and decision-making processes. The skill set pursued in this course is fundamental to effective managerial operations of a variety of arts, entertainment and media businesses and organizations.

**Repeatable:** *N*

**Formerly** 28-1113

**Minimum Credits** 3 **Maximum Credits** 3

### **BUSE 130 Business of Design**

This course introduces students to management practices in the design field. Students will investigate the business practices associated with a variety of design disciplines including graphic design, illustration, interior architecture, product design, web design, branding, marketing, photography, product design, and advertising design. Through an examination of functionality (mission/purpose, products/services, and target markets), clients/audience, organizational structure, strategy, and operations, students will understand the management of integrated design practices.

**Repeatable:** *N*  
**Formerly** 28-1310  
**Minimum Credits 3 Maximum Credits 3**

## **BUSE 201 Accounting**

This course is a thorough overview of financial accounting topics for arts, entertainment and media organizations, starting with the accounting cycle for a sole proprietorship and ending with the study of corporations. Clear principles and procedures are used to demonstrate the function of the accounting cycle. The Income Statement, Statement of Equity, Balance Sheet, and Statement of Cash Flow are prepared. The class presents topics that will enhance the student's understanding of the financial statements, including an introduction to ratio analysis.

**Repeatable:** *N*  
**Formerly** 28-2110  
**Requirements** Sophomore Standing or Above (SO)  
**Minimum Credits 3 Maximum Credits 3**

## **BUSE 205 Law for Creative Industries**

This course enables future artists, managers and entrepreneurs to better understand legal issues in business dealings in creative industries, and to recognize where legal problems may arise. This is accomplished through readings and lectures relating to copyright and other intellectual property rights, contracts, licensing agreements, First Amendment issues, agency agreements, and the formation of partnerships and corporations.

**Repeatable:** *N*  
**Formerly** 28-2111  
**Requirements** Sophomore Standing or Above (SO)  
**Minimum Credits 3 Maximum Credits 3**

## **BUSE 208 Business Writing**

The course emphasizes the importance of professionally written communication for artists, entrepreneurs, and managers in today's arts, entertainment and media environment. The course focuses on identifying the most appropriate media and format for reaching target audiences and achieving intended communication goals. It also provides students with the essential tools and skills to organize and effectively convey information in a clear and concise manner.

**Repeatable:** *N*  
**Formerly** 28-2120  
**Prerequisites** ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or ENGL 109 Writing and Rhetoric I Stretch B or ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7  
**Requirements** Sophomore Standing or Above (SO)  
**Minimum Credits 3 Maximum Credits 3**

## **BUSE 210 Economics for Creatives**

This course introduces economic principles including supply and demand, consumer choice, opportunity costs, market system, money, and banking as they apply to the management of arts, entertainment and media. The factors that impact each of these principles are also explored in depth. This is an integrated macro-micro introduction for future managers and entrepreneurs.

**Repeatable:** *N*

**Formerly** 28-1112

**Minimum Credits 3 Maximum Credits 3**

## **BUSE 220 Entertainment Marketing**

This course teaches students to analyze arts, entertainment, media, and fashion organizations within their environmental context to determine how to position them in the marketplace. Students develop an understanding of the consumer and market, choose proper research techniques to solve problems, determine appropriate promotional techniques to develop relationships with customers, and develop a complete and integrated marketing plan for an organization.

**Repeatable:** *N*

**Formerly** 28-1115

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **BUSE 275 Self-Management and Freelancing**

This course provides artists of all disciplines with the fundamentals of self-sustaining careers in the arts, entertainment and media. The class equips students with an understanding of the matrix of skills, promotional vehicles, and revenue streams in the arts industries as well as fundamentals of career development and business acumen.

**Repeatable:** *N*

**Formerly** 28-2712

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **BUSE 303 Finance**

Finance is the art and science of managing funds. This course provides an understanding of the financial system, basic financial management techniques, and analyses as applied to the arts, entertainment, and media business environment. Concepts studied include cash flow, ratio analyses, time value of money methodology, capital budgeting, and business ethics. The course introduces students to essential financial management tools used by decision-makers.

**Repeatable:** *N*

**Formerly** 28-3110

**Prerequisites** BUSE 201 Accounting

**Minimum Credits 3 Maximum Credits 3**

## **BUSE 308 Entrepreneurship**

This class introduces entrepreneurship as a way of thinking and acting that can serve as a springboard for a self-sustaining, creative career. It provides students with insight into how arts, entertainment, and media professionals turn ideas into a business, and how various elements of an organization fit together to become

a viable venture, whether in the profit or non-profit world. Through launching their own microbusinesses, students learn to recognize and evaluate opportunities; problem-solve and manage risks; plan and manage time effectively; leverage resources; craft business models; and develop audiences to support their work.

**Repeatable:** N

**Formerly** 28-3130

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **BUSE 314 Project Management**

Course is intended to familiarize students with fundamentals of project management and their application in the arts. Course will cover a variety of techniques used to manage any type of arts project regardless of scope and industry. An emphasis will be placed on understanding the importance of matching project goals and objectives with the mission of an arts organization or potential funders' interests.

**Repeatable:** N

**Formerly** 28-3150

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **BUSE 368 Leadership**

What is leadership and what does it take to be an effective leader in arts, entertainment, and media today? This course seeks to answer such questions as students study, analyze, and discuss leadership concepts and practices. Students also learn how to lead by evaluating the effectiveness of various leadership styles and through the development, application, and assessment of their own leadership capabilities through group and individual assignments and activities.

**Repeatable:** N

**Formerly** 28-3511

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **BUSE 489 Creative Agency: Practicum**

Students participate in a communications agency that extends student learning beyond the classroom by providing real-world experience and utilizing multi-platform tools to communicate. Students collaborate on a creative communications campaign including client management, advertising, branding, graphic design, marketing, and research.

**Repeatable:** Y

**Formerly** 28-4123

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

# **Documentary, BA**

*Note: Effective Spring 2023, applications will no longer be accepted into this program.*

The Bachelor of Arts in Documentary is an undergraduate program that facilitates a deep exploration into the diverse and innovative ways we collectively craft truth in story, image and sound. This program crosses disciplines resulting in a field of study that draws students interested in a comprehensive education in all forms of nonfiction media.

The Documentary BA Program creates new opportunities for complex collaborative skills, expanding students' connections to the storytelling, technological, business, and marketing skills of documentary practice. The program facilitates creative collaboration between Columbia College students, faculty, alumni, and industry professionals in all facets of documentary processes, practices, and studies.

Undergraduates who successfully complete the program will have a wide knowledge of documentary ethics, theory and practice, and will be able to Implement impact and outreach in the social justice and civic engagement space.

At the capstone level, students will complete their portfolio of non-fiction work spanning media formats in a program which allows them to enter an already converged world.

As a result of successfully completing program requirements, students should be able to:

- apply the technical and creative skills learned in the program to produce a portfolio of creative work (individual and collaborative) across a variety of documentary and non fiction storytelling media forms;
- analyze and interpret the aesthetic, historical, and conventional aspects of various nonfiction media forms, traditional and emerging;
- effectively interpret and employ legal and ethical best practices and apply these to documentary media creations;
- create comprehensive proposals for individual and interdisciplinary documentary projects, including research, planning, budgeting, interviewing, fund-raising, grant writing, audience engagement and distribution plan;
- develop individual voice and display in a variety of written, visual and audible forms; and
- create documentary content and tools that address social issues and further a civic agenda, individually and / or in collaboration community organizations.

## PROGRAM REQUIREMENTS - 48 credits required

### **CINE 148 Introduction to Documentary**

Students will examine in-depth the methods by which non-fiction filmmakers develop, produce and distribute documentary films. Through a series of screenings, lectures, critiques and class discussions, a variety of long- and short-form documentary projects will be analyzed by students in relationship to: story, research, producing, directing, cinematography, editing, sound design, history, aesthetics, ethics and distribution. The class will link with material from each concentration area in Cinema and Television Arts - but through the prism of non-fiction filmmaking.

**Repeatable:** *N*

**Formerly** 24-1801

**Prerequisites** MEDI 101 Cinematic Storytelling or ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

### **CINE 265 Documentary Production I**

This intensive workshop course gives students an introduction in basic documentary field production in three areas: the interview, cinema verite, and lighting on location. The emphasis centers on camera operation, including filming the essential shots that are key to the edit of a documentary sequence, including: tripod usage, cinema verite, and various other handheld styles of documentary filming. Students will learn the basic aspects of recording location documentary sound with an emphasis on microphone placement, booming, and the usage of wireless and hard-wired microphones. The focus of the course will teach students how to work in a two-person documentary team using minimal equipment to capture intimate moments. Additional topics include set protocols specific to documentary, crew coordination strategies, gear checklists and preparation, logging, data wrangling, and the basics of delivering media to the editorial team.

**Repeatable:** *N*

**Prerequisites** MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production and CINE 148 Introduction to Documentary

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits** 3 **Maximum Credits** 3

## **CINE 266 Documentary Storytelling**

Course begins with an overview of the relationships between story and discourse in narrative storytelling. This includes narrative voice and perspective, the temporal and spatial arrangements of events and mutual influences between plot and character. Once fundamental principles are established, the focus shifts specifically to documentary. By studying excerpts from existing works, students develop an understanding of narrative approaches to documentary and apply that knowledge to a personal project they wish to develop.

**Repeatable:** *N*

**Formerly** 24-2807

**Prerequisites** CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or CINE 267 Documentary Production Module I: Location Camera and Sound or CINE 264 Documentary Production Module II: The Interview or CINE 269 Documentary Production III: Intermediate Field Production or MEDI 101 Cinematic Storytelling

**Minimum Credits** 3 **Maximum Credits** 3

## **CINE 271 Documentary Cinematography**

This course focuses on the language, practice and art of visual storytelling in the documentary form. Students will examine the cinematographer's role in the ideation, shooting and editing of non-fiction film content. Through a series of screenings, lectures, experiential exercises and class discussions, students will better understand the history and practice of cinematography as it pertains to story, character and structure - all through the prism of documentary.

**Repeatable:** *N*

**Formerly** 24-2820

**Prerequisites** CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or CINE 267 Documentary Production Module I: Location Camera and Sound or CINE 264 Documentary Production Module II: The Interview or CINE 269 Documentary Production III: Intermediate Field Production or MEDI 101 Cinematic Storytelling

**Minimum Credits** 3 **Maximum Credits** 3

## **CINE 273 Documentary Sound**

This course will focus on applied sound recording techniques specific to the documentary format, including short and feature film projects. Students will record audio in controlled and uncontrolled situations while exercising the skills required in pre-production, production, and post-production of advanced documentary films. It will combine theory and case studies with hands-on exercises and/or seminars in disciplines such as location sound recording, effects, Foley, sound editing, sound design and mixing.

**Repeatable:** N

**Formerly** 24-2805

**Prerequisites** CINE 267 Documentary Production Module I: Location Camera and Sound or CINE 264 Documentary Production Module II: The Interview or CINE 269 Documentary Production III: Intermediate Field Production

**Minimum Credits 3 Maximum Credits 3**

### **CINE 335 Editing the Documentary**

This course provides documentary editing experience and creative collaborations on original work developed by students in the documentary production classes. Pre-production planning, on set workflow issues and handling large amounts of media in the edit room are discussed from the post-production perspective. Students will add original creative work for their editing reels from the projects completed in this class.

**Repeatable:** Y

**Formerly** CINE 228

**Prerequisites** CINE 130 Editing I or CINE 265 Documentary Production I or CINE 267 Documentary Production Module I: Location Camera and Sound or TELE 230 Production and Editing I

**Minimum Credits 4 Maximum Credits 4**

### **CINE 427 Producing the Documentary**

This course prepares advanced documentary students to work in the documentary production industry as a hired producer/director/writer. Typical work-for-hire tasks are explored. Students write and develop production packages suitable for known production companies and media outlets. Advanced producing topics are covered including complex budgeting, scheduling, hiring, and delivery and distribution requirements.

**Repeatable:** Y

**Formerly** 24-4810

**Prerequisites** CINE 264 Documentary Production Module II: The Interview or CINE 269 Documentary Production III: Intermediate Field Production or CINE 267 Documentary Production Module I: Location Camera and Sound

**Minimum Credits 3 Maximum Credits 3**

### **CINE 477 Documentary Projects**

This course develops advanced techniques in the process of documentary filmmaking, from idea, research, treatment, shooting techniques, to editing. Students produce a fully developed short documentary film which exhibits a sophisticated approach to documentary concepts, practices, aesthetics, and ethical problems encountered in contemporary documentary filmmaking. Students will workshop ideas leading to a production that communicates meaning, demonstrates an ethical concern for its subjects, affects its audience, and reflects an individual voice.

**Repeatable:** Y

**Formerly** CINE 377

**Prerequisites** CINE 266 Documentary Storytelling or CINE 267 Documentary Production Module I: Location Camera and Sound or CINE 264 Documentary Production Module II: The Interview or CINE 269 Documentary Production III: Intermediate Field Production or PHOT 360 Documentary Methods or JOUR 350 Digital Storytelling

**Minimum Credits 3 Maximum Credits 3**

## **MEDI 101 Cinematic Storytelling**

This course explores the elements of cinematic storytelling that are used to articulate theme, evoke emotion, and create personal connection with an audience. The student will analyze, research, develop, and visualize cinematic stories for the screen. Aesthetics and storytelling components will be applied in MEDI 102 Cinema and Television Production.

**Repeatable:** *N*

**Concurrent Requisite** MEDI 102 Cinema and Television Production

**Minimum Credits 3 Maximum Credits 3**

## **MEDI 102 Cinema and Television Production**

This hands-on course explores the techniques of cinema and television production as a collaborator on both individual and group projects. The student will practice conceptualization, visualization, cinematography, sound recording, and editing techniques through effective visual and oral presentations. The aesthetic and storytelling principles will be applied from MEDI 101 Cinematic Storytelling.

**Repeatable:** *N*

**Concurrent Requisite** MEDI 101 Cinematic Storytelling

**Minimum Credits 3 Maximum Credits 3**

## **MEDI 480A Documentary Practicum I**

An interdisciplinary, capstone documentary course that uses non-fiction approaches and techniques to address social issue topics through cross-disciplinary practices. Students entering the first part of the Documentary BA capstone will collaborate in a single, multifaceted project, grounded in a significant social issue in collaboration with community organizations. The course will address one topic from various disciplines, perspectives, and platforms, and will include the creation of non-fiction content, learning guides; links, and other outreach.

**Repeatable:** *N*

**Formerly** MEDI 480

**Requirements** Junior Standing or Above (JR) and Permission Required (DP)

**Minimum Credits 4 Maximum Credits 4**

## **MEDI 483 Documentary Practicum II**

The second part of the documentary capstone course uses non-fiction approaches and techniques to address social issue topics through cross-disciplinary practices. Students will complete their collaborative, multifaceted documentary projects grounded in significant social issues in collaboration with community organizations, completing the Documentary BA in a course addressing one topic from various perspectives and platforms, including the creation of non-fiction content, learning guides, links, and other outreach.

**Repeatable:** *N*

**Requirements** Permission Required (DP)  
**Minimum Credits 4 Maximum Credits 4**

### **TELE 357 Documenting Social Injustice**

Course enables students to become familiar with the range of diversity issues--race, ethnicity, gender, religion, class, etc.--through extensive readings and videos. Social justice education is both a process and a goal and involves students who have a sense of their own agency as well as a sense of social responsibility toward others and society as a whole. Class tours several sites of ethnic art, activism, and social justice. Students work in teams on documenting their impressions and comparing the classroom with the experiential with help from experts in the field.

**Repeatable:** Y

**Formerly** 40-3340

Production course for advanced documentary students studies and engages in various subgenres of documentary filmmaking. Such past topics have included visualizing the documentary, the nature film documentary, and cinema verite. Students may repeat this course as topics change.

**Repeatable:** Y

**Prerequisites** CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or MEDI 101 Cinematic Storytelling

**Minimum Credits 3 Maximum Credits 3**

### **CINE 381C Studies in Documentary**

Production course for advanced documentary students studies and engages in various subgenres of documentary filmmaking. Such past topics have included visualizing the documentary, the nature film documentary, and cinema verite. Students may repeat this course as topics change.

**Repeatable:** Y

**Prerequisites** CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or MEDI 101 Cinematic Storytelling

**Minimum Credits 3 Maximum Credits 3**

### **CINE 381D Studies in Documentary**

Production course for advanced documentary students studies and engages in various subgenres of documentary filmmaking. Such past topics have included visualizing the documentary, the nature film documentary, and cinema verite. Students may repeat this course as topics change.

**Repeatable:** Y

**Prerequisites** CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or MEDI 101 Cinematic Storytelling

**Minimum Credits 3 Maximum Credits 3**

### **CINE 381E Studies in Documentary**

Production course for advanced documentary students studies and engages in various subgenres of documentary filmmaking. Such past topics have included visualizing the documentary, the nature film documentary, and cinema verite. Students may repeat this course as topics change.

**Repeatable:** Y

**Prerequisites** CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or MEDI 101 Cinematic Storytelling

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

### **CRWR 160 Creative Nonfiction Workshop: Beginning**

A beginning class in writing creative nonfiction, a term including many forms, constantly re-imagined, with the personal and lyrical essay at its core. You will boldly combine different elements of shape, texture, and voice to attempt to produce works of literary art, primarily in the essay, and present your work to the rest of the class in a workshop format. You will also begin reading in nonfiction.

**Repeatable:** N

**Formerly** 59-1700

**Minimum Credits 3 Maximum Credits 3**

### **JOUR 102 Introduction to Journalism**

This course explores rules and roles of journalism along with the challenges of the contemporary media landscape. It also introduces reporting, interviewing and writing skills through hands-on assignments.

**Repeatable:** N

**Formerly** 53-1011

**Minimum Credits 3 Maximum Credits 3**

## PHOT 101 Photographic Practice I

This course introduces students to basic visual grammar of photographic seeing to explore and pursue diverse interests in photography while learning to become an acute observer. Using digital cameras with manual controls and RAW capture, students will learn the craft of making photographs while also being introduced to issues of aesthetic form, historical context, and diverse photographic practices. Students will question, explore, communicate and evaluate using basic photographic concepts and critical-thinking skills while acquiring new sets of technical, conceptual, and formal language that are applicable to many disciplines.

**Repeatable:** *N*

**Formerly** 23-1111

**Minimum Credits 3 Maximum Credits 3**

## English, BA

The major in English at Columbia College Chicago is a career-focused interdisciplinary experience in the liberal arts. Students complete 39 hours of coursework in imaginative literature, professional and technical writing, and creative writing, refining their abilities as critical and creative thinkers and as highly proficient composers and interpreters of written, visual, and digital texts. There is ample opportunity for students to complete a minor or a second major that aligns with students interests and goals. Graduates with an English major are prepared for careers in fields such as technical writing, language and literature education, law, marketing, non-profit services, arts and culture institutions, and other professions that require excellent skills in communication, human understanding, research, and evidence-based analysis.

English majors develop the professional and humanistic expertise that employers increasingly value in the rapidly evolving 21st-century global workplace. The curriculum emphasizes the diversity of cultural expression and communicative practices, and it encourages the respectful inclusion of voices and values from across the rich spectrum of human life. Significant collaborative projects foster leadership, active listening, and cooperation. Internships offer workplace experiences, while the capstone course transitions students toward their post-graduation personal, educational, and career aspirations. Graduates leave the program with an adaptable body of knowledge, an array of technical skills, and the capacity to use what they know to shape thoughtful and rewarding experiences for themselves and for the communities in which they live and work.

As a result of successfully completing program requirements, students should be able to:

- understand critical concepts in literary and rhetorical studies and use these concepts productively in relevant artistic, scholarly, and/or professional situations;
- collaborate with others on complex projects, demonstrating an understanding of roles / tasks such as project leader, content writer, editor, researcher and designer;
- analyze literary and other texts with an awareness of diverse ideological, historical, aesthetic, and material contexts and perspectives;
- evaluate primary and secondary sources to pose meaningful questions about literary, professional, and other texts and discourses;
- evaluate their own work and the work of others to identify opportunities for revision, reorganization, collaboration, and presentation to achieve specific goals for themselves and for external audiences;
- produce written and spoken communication in a variety of genres and media, demonstrating an awareness of audience, aesthetic and professional conventions and purpose; and
- synthesize information and text from multiple contributors into complex projects.

## PROGRAM REQUIREMENTS - 39 credits required

### **COLL 230 Internship: Professionalism and Creativity**

This course allows students to take a valuable internship experience in their desired industry for academic credit. Each position is vetted and approved by Career Center to ensure that it is an educational opportunity that will fulfill the learning objectives of the course. Participating in an internship allows students to gain hands-on experience and explore career interests while applying knowledge and skills learned in the classroom to a work setting. The online, academic component of this internship fosters student understanding of how organizations operate and provides for structured reflection on their experiences and assessment of their knowledge and skills. Students are responsible for securing their own internships and should contact Career Center for assistance and resources to identify and apply for opportunities of interest.

**Repeatable:** Y

**Formerly** 99-2300

**Requirements** Permission Required (DP)

**Minimum Credits** 3 **Maximum Credits** 3

### **ENGL 241 Writing for the Creative Workplace**

Students are introduced to the study of writing for creative professionals from a rhetorical perspective, gaining a broad sense of issues, topics, genres, and practices that mark the field of professional and technical writing in creative industries. Students also explore professional writing as socially situated art and practice and gain practical hands-on experience through a variety of professional writing projects.

**Repeatable:** N

**Formerly** 52-2801

**Prerequisites** ENGL 122 International Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 112 Writing and Rhetoric II

**Minimum Credits** 3 **Maximum Credits** 3

### **ENGL 242 Writing Digital Content**

Students engage in evaluation, analysis, and preparation of content for the web using a combination of web standard markup and content management/delivery systems. The course covers principles of rhetoric, design, practices of web accessibility, develops basic ability to write in plain text files with web standard markup (HTML and CSS), and offers students practical experience in evaluating, creating, editing, curating, and delivering content for the web.

**Repeatable:** N

**Formerly** 52-2802

**EN**

**Prerequisites** ENGL 122 International Writing and Rhetoric II or ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors

**Minimum Credits** 3 **Maximum Credits** 3

### **ENGL 450 Capstone in English**

In collaboration with the instructor and classmates, students produce a capstone portfolio that demonstrates the culmination of their work in the major, representing both breadth of achievement and significant intellectual inquiry. Students revise selected works in the portfolio and produce a project that highlights their

accomplishments in the major for an external audience. Course texts change from section to section.

**Repeatable:** *N*

**Prerequisites** LITR 388 Critical Editions in Literature or ENGL 350 Content Strategy

**Requirements** Senior Standing (SR)

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

### **LITR 103 Introduction to Literary Interpretation**

Course introduces students to key terms, concepts, and techniques of literary interpretation, with attention to questions of genre, period, and critical perspective. Students analyze selections of poetry, fiction, nonfiction, and/or drama representing a range of historical periods and cultural traditions, and they learn to compose evidence-based interpretive arguments. Designed for students in English and Creative Writing.

## **ENGL 350 Content Strategy**

This course invites students to step into the roles of leader, manager, and editor-in-chief, and to practice strategies that effective leaders use for facilitating other authors' writing. Students will have the opportunity to learn to think strategically about writing as content that can be managed across platforms and digital spaces. Students will also have the opportunity to learn to align content to personal, professional, and organizational goals; to collaborate with other authors; to consider the needs of diverse audiences; and to prepare instructions and guides that shape other authors' writing. Students will also critique the rise of content management systems and discuss tactics to use to leverage imperfect technologies and platforms.

**Repeatable:** N

**EN**

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

## **LITR 388 Critical Editions in Literature**

Students collaboratively develop a critical edition of one or more literary texts. Like editors of similar editions from mainstream publishers, students will annotate the text and compose supporting material such as an introduction, critical interpretations, essays addressing biographical, cultural, historical, rhetorical and artistic contexts for the work, and bibliographic material for further research. Students use basic design principles to organize their work into coherent projects. Course texts change from section to section.

**Repeatable:** N

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

*Complete 6 credits from the following courses:*

## **ENGL 344 Writing, Language, and Culture Seminar**

Students study issues surrounding language, writing, and representation, and produce substantial, complex writing and research projects as they work to build skills in research, prose style, editing, and design. Topics include a rotating series of rhetorical and cultural analyses of consumer, popular culture, networked, and organizational settings. Overall, the course heightens student awareness of the power of writing and representation to shape the way we produce and are produced by the world around us.

**Repeatable:** Y

**Formerly** 52-3804

**EN**

**Prerequisites** ENGL 122 International Writing and Rhetoric II or ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors

**Minimum Credits 3 Maximum Credits 3**

### **ENGL 345 Methods of Discourse Analysis: Understanding Text**

Students are introduced to the study of discourse, which is the study of language in use or what people do with language and how they do it. Practiced by scholars from a range of disciplines, discourse analysis is used to approach a variety of questions, such as how people negotiate power in everyday conversation, how racism or sexism might be communicated in institutional documents, or how news media privileges certain groups through lexical and grammatical choices. Using a variety of tools, students learn how to analyze specific instances of written and spoken communication. Through this analysis, students come to understand the relationship between language and politics, values, and beliefs; how identities are constructed in language; and the way we shape our world through the words we use. Such analysis can help students be attentive to these issues in their own oral and written communication. Theoretical principles informing the practice of discourse analysis and an overview of the various disciplinary approaches to discourse analysis are also briefly covered.

**Minimum Credits 3 Maximum Credits 3**

## **Environmental and Sustainability Studies, BA**

We live in a world with environmental and sustainability challenges, many of which do not have easy solutions and require communicators to help bridge different areas. This major will provide students with the skills that they need to lead change in the fields of environmental and sustainability studies. Students will learn about the environment, policy, and the intersection of these fields with the arts, communication, and social justice and activism. This interdisciplinary field will prepare students for jobs that are outside and connected to solving the problems of our world. Students in this major are strongly encouraged to complete a minor in a complementary area of study. Elective course choices are intentionally designed to align with minors in Communication, Sustainable Fashion, Fashion Studies, Biology, Environmental Studies, Art History, Fine Arts, Photography, Cinema and Television Arts, Arts Management, Public Relations, and Social Media and Digital Strategy. In their capstone course, students will work in groups to integrate their knowledge of environmental and sustainability issues with an informed creative statement about sustainability that will demonstrate environmental advocacy and inspire local, national, and/or global communities to act on environmental issues in an equitable manner.

Jobs related to the environment and sustainability are one of fastest growing areas of the job market. Through the interdisciplinary nature of this program students will get to work with experts in environmental and sustainability studies as well as experts in their paired field in the arts and communication areas. This mix of specialists who are active in all areas of this degree is unique to this program and will give students many opportunities for training as they complete their degree. Career options befitting students pursuing the BA in Environmental and Sustainability Studies include environmental journalism and communication, environmental photography and photojournalism, documentary TV and film making, sustainable fashion, design, and architecture, environmental law and policy, advocacy, social justice, and activism, among numerous others.

As a result of successfully completing program requirements, students should be able to:

- articulate the relationship between people and global sustainability issues, and understand how creative and diverse perspectives can prepare them for a career that focuses on the integration of sustainability and arts and communication;
- identify and respond to how socio-political and economic choices of privileged groups place an inequitable environmental burden on developing countries, indigenous people, persons of color and other under-represented groups throughout the world;
- conduct scholarly work and develop interdisciplinary and innovative approaches to impactful environmental advocacy and activism through community-based research projects; and
- use creative written, oral, visual, electronic media, and other formats to inform and educate local communities within and beyond Chicago about how to act as an advocate for themselves, their communities, and the environment.

## PROGRAM REQUIREMENTS - 36 credits required

### **COLL 200 Internship**

This course allows students to take a valuable internship experience in their desired industry. Each position is vetted and approved by Career Center to ensure that it is an educational opportunity that will fulfill the learning objectives of the course. Participating in an internship allows the student to gain hands-on experience and explore career interests while applying knowledge and skills learned in the classroom to a work setting. The experience also helps students gain a clearer sense of what they still need to learn and provides an opportunity to build professional networks. Students are responsible for securing their own internships and having them approved prior to registering for this course. Please contact the Career Center for assistance and resources.

**Repeatable:** Y

### **EASC 115 Natural Disasters**

Both geologic and climatic natural disasters are explored in this course. Central focus is on causes and effects of disasters, particularly on the results of human attempts to prepare for these disasters. Topics include meteorite impacts, volcanoes, earthquakes, landslides, floods, and the effects of floods on human and animal life.

**Repeatable:** N  
**Formerly** 56-1320  
**SC**  
**Minimum Credits** 3 **Maximum Credits** 3

### **HUMA 222 Nature and Environmentalism in U.S. Culture**

This course explores the relationship between humans and the non-human natural world, emphasizing popular conceptions of nature in American culture and the way in which the very notion of nature itself is a profoundly human conception. We can never really know the natural world "out there." Rather the natural world that we seek to understand, even conserve and protect, can only ever be understood through the lens of our social and cultural imagination. What are the socio-cultural manifestations of nature, and how do these manifestations affect the uses and/or abuses of nature in American society?

**Repeatable:** N  
**Formerly** 51-2225  
**HU**

## **SCIE 205 Environmental Science**

This course explores the multidisciplinary science of the environment. We focus on contemporary issues such as air and water pollution, global climate change, ozone depletion, acid rain, hazardous and solid waste, alternative energy resources, soils, deforestation, overfishing, biodiversity, and endangered species, and their ecological, economical, and human health impacts. An extensive, hands-on laboratory is a core part of the course.

**Repeatable:** *N*

**Formerly** 56-2610

**SL**

**Minimum Credits 4 Maximum Credits 4**

## **SCIE 305 Environmental Studies Data Interpretation**

This class is an environmental chemistry course which will introduce students to: chemistry sampling and research methods; heavy metals; pesticides; nuclear power; CFCs/the ozone layer and also climate change. This class will have a Chicago emphasis to it and a strong laboratory component that will allow students to learn water, soil and plant techniques as well as toxicology, Atomic Absorption Spectroscopy (AAS), the use of Geographic Information Systems (GIS), and climate change modeling.

**Repeatable:** *N*

**Prerequisites** SCIE 205 Environmental Science and MATH 205 Introduction to Statistics and ENGL 112 Writing and Rhetoric II or SCIE 205 Environmental Science and MATH 205 Introduction to Statistics and ENGL 112H Writing and Rhetoric II: Honors or SCIE 205 Environmental Science and MATH 205 Introduction to Statistics and ENGL 122 International Writing and Rhetoric II

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **SCIE 310 Methods for Environmental and Sustainability Studies**

This seminar class will provide students with the tools necessary to understand methods of environmental and sustainability studies research. They will learn how to find and critique reliable sources and read a scientific paper. Students will also learn how to identify sources of error in project design, methods, and results, and learn how to use applied statistics in the field of environmental and sustainability studies research.

**Repeatable:** *N*

**Prerequisites** MATH 205 Introduction to Statistics and SCIE 205 Environmental Science

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 1 Maximum Credits 1**

## **SCIE 480 Environmental and Sustainability Studies Capstone**

This capstone course is designed for students with senior standing who are pursuing a BA in Environmental and Sustainability Studies. Ideally, students will enter the classroom having already formed potential ideas for a capstone project. Students will use the scientific method and experience gained in other creative disciplines at Columbia College to design and carry out their own interdisciplinary independent capstone project. Projects will investigate an environmental or sustainability issue and explore impact by and impact on diverse human communities from both a well-informed scientific perspective and through a creative lens. They will develop an original statement that communicates the problem, its impact, and steps for acting on it to make change. Students will also explore graduate school options and various careers in the field of environmental and sustainability studies, while also learning how to write a grant proposal, resume, and CV.

**Repeatable:** *N*

*Choose one of the following courses:*

**ECON 310 Ethics and Economics**

If an action produces "desirable" outcomes (e.g. wearing a mask during a pandemic), would the good outcome *alone* can make the action "morally right thing to do?" Most economists would believe so. For instance, economists tend to favor buying and selling of nearly everything freely since it would be a "win-win" proposal for all the parties involved. Otherwise, nobody trades, as the logic goes. This line of moral reasoning (called "consequentialism") has been so dominant in the public policy-making practice that we are inclined to think of it as common sense. As a result, other ethical perspectives (including those that are not Eurocentric) have been marginalized. This course exposes the ethical biases behind the current practice of policy making; and the racial, gender, and income inequalities such inherent (but unrecognized) biases tend to create and reinforce. The course offers students wider ethical lenses from which legitimacy of various policies and institutions could be debated. It is built on the insight that the underlying motivation behind actions does matter in building an equitable society tolerant of diversity. In a case study-based structure and debate-oriented setting, this course will help students develop a substantive grasp of duty- and virtue-based perspectives and apply these perspectives to a set of contemporary policy issues in the U.S. from self-driving vehicles to surrogate motherhood.

**Repeatable:** N**Formerly** 50-3202**SS DEI****Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II**Minimum Credits** 3 **Maximum Credits** 3**ECON 310H Ethics and Economics: Controversial Policy Issues of Our Time:  
Honors**

Conventional economic justification for policies embodies a particular moral logic despite its claim to value-neutrality. This course surveys alternate moral/political perspectives from which legitimacy (or moral acceptability) of contemporary economic policies could be debated. Students will be invited to apply these theoretical arguments to a set of contemporary policy issues in the U.S. This is an Honors class. In addition to other possible pre-requisites, students need a minimum G.P.A. of 3.50 or higher to enroll.

**Repeatable:** N**Formerly** 50-3202HN**SS****Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II**Requirements** 3.5 or Higher GPA (35GP)**Minimum Credits** 3 **Maximum Credits** 3**Electives**

**HU DEI**

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **ARTS 230 Printmaking I**

In this studio course students are exposed to a broad range of basic traditional and innovative printmaking techniques including block, etching, lithography, RISO and the use of these skills to produce independent work within the context of contemporary art and design. This course will include the use of Photoshop and Illustrator in the production of stencils. Students will be introduced to skills and techniques, experiment with the medium, and think creatively and critically. Studio instruction may be augmented with field trips, slide lectures, readings, critiques, and discussion that help critically, currently, and historically situate printmaking as a fine arts and design practice.

**Repeatable:** *N*

### **ARTS 240 Sculpture I**

This studio course introduces students to the tools, materials, and processes used in the creation of sculptural objects. With particular focus on learning by doing, projects will revolve around a variety of additive, subtractive, mold and computer methods. Studio instruction may be augmented with field trips, slide lectures, readings, critiques, and discussion that help critically, currently, and historically situate sculpture as a fine arts and design practice.

**Repeatable:** *N*

**Formerly** 22-2251

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **BIOL 115 Botany**

This course introduces students to plant life and the impact of plants on society including their use as a major food source, as medicine, and in the industrial and recreational world. As an introductory level botany course, topics also include structure, function, growth processes, reproduction, ecology, genetics, and resources derived from the plant world. The course also examines the impact of plant life on society using examples from major agriculture crops such as coffee and chocolate. Students will investigate live specimens of plants with a strong hands-on laboratory component.

**Repeatable:** *N*

**Formerly** 56-1120

**SL**

**Minimum Credits 3 Maximum Credits 3**

## **BIOL 145 Marine Biology**

This class examines the diversity of marine organisms from the smallest worms to predatory sharks to the largest whales, from the deepest trench to the shore. Students will explore the special adaptations that allow organisms to thrive and create the complex web of ocean life. This class contains a lab component; field trips to the Shedd Aquarium; and a final project that incorporates the students' interests, majors, and cultural backgrounds with course material.

**Repeatable:** *N*

**Formerly** 56-1185

**SL**

**Minimum Credits 3 Maximum Credits 3**

## **BUSE 205 Law for Creative Industries**

This course enables future artists, managers and entrepreneurs to better understand legal issues in business dealings in creative industries, and to recognize where legal problems may arise. This is accomplished through readings and lectures relating to copyright and other intellectual property rights, contracts, licensing agreements, First Amendment issues, agency agreements, and the formation of partnerships and corporations.

**Repeatable:** *N*

**Formerly** 28-2111

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **BUSE 314 Project Management**

Course is intended to familiarize students with fundamentals of project management and their application in the arts. Course will cover a variety of techniques used to manage any type of arts project regardless of scope and industry. An emphasis will be placed on understanding the importance of matching project goals and objectives with the mission of an arts organization or potential funders' interests.

**Repeatable:** *N*

**Formerly** 28-3150

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **BUSE 334 Digital Media Strategies**

This class addresses new and emerging business models and strategies in today's rapidly evolving media industries. Topics include an in depth understanding of social media, online marketing, retail and distribution of digital, audio, and visual content including a la carte download services, subscription, and ad-supported streaming services. Additional topics include e-commerce, web design strategy, mobile retail and promotion, community building, direct to consumer marketing, and a variety of other vital tech-based strategies.

**Repeatable:** *N*

**Formerly** 28-3416

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **BUSE 358 Marketing Data Analytics**

This course explores data analytics and their impact on marketing strategies. Students start with the fundamentals of proprietary social platform insights and move on to more complex consumer observations provided by big data. Students will explore engagement metrics, cost per click, multi-tiered demographics, audience segmentation, return on engagement, customer relationship management, complex targeting structures, behavioral statistics, and email success metrics.

**Repeatable:** *N*

**Formerly** 28-2515

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **CINE 234 Cinema Analysis and Criticism**

Course is a writing-and-research-intensive introduction to cinema studies. Students are taught how to write about cinema and media using different approaches including: formal analysis, ideological analysis, and historical research. In order to focus more on writing and course content, screenings will be limited. The screenings may change at the discretion of the instructor but the nature and number of the assignments will remain the same for each offering of the course.

**Repeatable:** *N*

**Formerly** 24-2500

**Minimum Credits 3 Maximum Credits 3**

## **COMM 102 Communication Essentials**

This hands-on interactive course explores communication perspectives and challenges (verbal and non-verbal) in our diverse culture. Students will practice management of creative communication issues and opportunities we all encounter working with others and in small group settings. Coursework will also investigate particular challenges facing us as ethical and responsible communicators in public, mass, and digital communication settings. Lastly, course will give students a glimpse of the wide range of creative career possibilities in communications fields.

**Repeatable:** *N*

**Formerly** 45-1300

**DEI**

**Minimum Credits 3 Maximum Credits 3**

## **COMM 219 Social Media Content**

This course trains students to create strategic and ethical social media and digital content; develop concise and accurate writing and editing skills; and employ search engine optimized keywords, links, and hashtags to grow audiences and motivate them to action.

**Repeatable:** *N*

**Formerly** 54-2205

**Prerequisites** ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or ENGL 109 Writing and Rhetoric I Stretch B or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

## **FASH 101 Intro to the Fashion Industry**

This course offers students a broad overview of the interrelated fields of product development and merchandising within the fashion industry. This includes an introduction to global markets, fashion production, distribution, and marketing, and apparel business practices.

**Repeatable:** *N*

**Formerly** 27-1100

**Minimum Credits 3 Maximum Credits 3**

## **FASH 283 Sustainable Fashion Practice**

This course provides an overview of sustainable fashion design, merchandising and business practices and develops students' abilities to make informed and ethical decisions at all stages of the fashion process, from ideation to implementation to disposal. The course will include seminars, guest speakers and hands-on exercises in which students will become versed in sustainable materials, supply chain, the lifecycle of clothing and critical design strategies such as upcycling, zero-waste pattern cutting, design for longevity and craft preservation.

**Repeatable:** *N*

**Prerequisites** FASH 101 Intro to the Fashion Industry

**Minimum Credits 3 Maximum Credits 3**

## **FASH 307 A History of Fashion in 100 Objects**

By decentering the traditionally Eurocentric focus of fashion history, students will come to understand the universality of fashion and how humans throughout history have utilized dress objects to signal status, construct identity and cultivate community. Through regular visits to the Fashion Study Collection, students will also be introduced to the material culture of dress, the evolution of fashion journalism, retail history and developments in manufacturing and construction.

**Repeatable:** *N*

**Formerly** 27-3175

**DEI**

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

## **PHOT 101 Photographic Practice I**

This course introduces students to basic visual grammar of photographic seeing to explore and pursue diverse interests in photography while learning to become an acute observer. Using digital cameras with manual controls and RAW capture, students will learn the craft of making photographs while also being introduced to issues of aesthetic form, historical context, and diverse photographic practices. Students will question, explore, communicate and evaluate using basic photographic concepts and critical-thinking skills while acquiring new sets of technical, conceptual, and formal language that are applicable to many disciplines.

**Repeatable:** *N*

**Formerly** 23-1111

**Minimum Credits 3 Maximum Credits 3**

## **PHOT 102 Photographic Practice II**

This course reinforces the basic understanding of camera functions, exposure and digital workflow that were taught in PHOT101 Photographic Practice I. It introduces the skills necessary to make and analyze high-quality prints and places greater emphasis on color theory. This course reinforces and expands upon critical thinking skills regarding the diversity of contemporary photographic imagery, and helps students to locate their practice within those traditions and innovations.

**Repeatable:** *N*

**Formerly** 23-1112

**Prerequisites** PHOT 101 Photographic Practice I

**Minimum Credits 3 Maximum Credits 3**

## **PURE 102 Intro to Public Relations**

Course is an overview of the historical development and the contemporary techniques of public relations, one of the fastest-growing career fields in our global information society. Through class discussion and case studies focusing on both actual and creatively imagined situations, students gain insight into the world presented by the major media and learn the importance of research, planning, action, and evaluation, with an emphasis on ethical implications.

**Repeatable:** *N*

**Formerly** 54-1700

**Minimum Credits 3 Maximum Credits 3**

## **PURE 220 PR Issues and Crisis**

Course provides opportunity for students to enhance their skill set beyond traditional public relations for organizations, products, and services and develop strategic communications skills and tactics for responding to public policy issues and crisis. Students analyze, discuss, and develop case studies on how public relations techniques are applied to issues advocacy and crisis response.

**Repeatable:** *Y*

**Formerly** 54-2707

**Prerequisites** PURE 102 Intro to Public Relations

**Minimum Credits 3 Maximum Credits 3**

## **PURE 310 Social Change Communications**

Course focuses on emerging communication strategies and techniques to promote social causes and issues. We will look at the inextricable link between public opinion and communication. Through analyses of social causes and issues, students will explore how these practices are creating an impact in areas like social welfare, health, energy, gender, and multiculturalism.

**Repeatable:** *N*

**Formerly** 54-3714

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

## **TELE 320 Critical Television Theory and Analysis**

This course seeks to master methods of analysis and theory commonly utilized in Television Studies: historic and industrial, auteurism and genre, semiotics and psychoanalysis, postmodernism, feminist, critical race, discourse, and audience reception. In students' aspirations to become professionals in the field of television, understanding how TV operates culturally and socially in a sophisticated manner will ultimately make them better creative artists, producers, managers, screenwriters, etc.

**Repeatable:** *Y*

**Formerly** 40-3212

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **Fashion Studies, BA**

The industry-aware BA in Fashion Studies is built on a shared core, offers students fashion product development and fashion merchandising concentrations, and culminates in a year-long, hands-on capstone experience--wherein students in both concentrations team with local producers to design, prototype, source, manufacture, bring to market, and actually sell their own designed and developed apparel.

Along the way, students are purposefully introduced to the fashion industry, design principles, trend research and forecasting, social media practices, textile and apparel identification and evaluation, global fashion history, fashion math, and other essential baseline knowledge and skills.

Curated elective clusters allow students to meaningfully deepen or broaden their studies and/or engagement in areas such as apparel construction, visual merchandising, wearable technology, surface embellishment, costume supervision, and a host of other revolving offerings.

Students are encouraged to minor across the college in programs such as the following in order to further contextualize their study and make themselves more marketable:

- Marketing
- Public Relations
- Journalism
- Business & Entrepreneurship
- Art History

Those teaching in the BA in fashion studies program seek to maximize returns on student intellectual, creative, and practical investment, and are committed to helping graduates enter secure meaningful, fashion-related careers.

As a result of successfully completing program requirements, students should be able to:

- use discipline-appropriate technology in order to navigate the multi-channel global business environment;
- distinguish between consumer and fashion industry decision-making processes;
- identify, analyze and apply elements of design relative to market segmentation;
- evaluate consumer, fashion and design theories in order to propose solutions to existing and potential industry-related problems
- use best practice primary and secondary research to communicate fashion industry-related concepts and solutions;
- understand the evolution of production and consumption in the fashion industry with regard to its impact on human, cultural, and ecological systems; and
- apply the professional skills (organizational, planning, communication, networking, adaptability) necessary to succeed in an entrepreneurial or corporate career.

## PROGRAM REQUIREMENTS - 48 credits required

### **FASH 101 Intro to the Fashion Industry**

This course offers students a broad overview of the interrelated fields of product development and merchandising within the fashion industry. This includes an introduction to global markets, fashion production, distribution, and marketing, and apparel business practices.

**Repeatable:** *N*

**Formerly** 27-1100

**Minimum Credits 3 Maximum Credits 3**

### **FASH 102 Fashion Design Principles**

This course offers an overview of the process of design for the body, built environment, and user experience, introducing students to design and digital skills as they apply broadly to the field of fashion. The course will introduce key design principles in conjunction with digital tools for presentation and visual communication.

**Repeatable:** *N*

**Formerly** 27-1101

**Minimum Credits 3 Maximum Credits 3**

### **FASH 203 Trendspotting**

This course introduces students to research methodology and critical assessment of trend sources and research used to develop products, marketing and merchandising campaigns for fashion and adjacent industries.

**Repeatable:** *N*

**Formerly** 27-2125

**DEI**

**Minimum Credits 3 Maximum Credits 3**

### **FASH 204 Math for Fashion**

This course explores mathematical applications used in product development and merchandising for the fashion industry. Emphasis is placed on use of formula-based spreadsheets to expedite and defend financial problem solving.

**Repeatable:** *N*

**Formerly** 27-2110

**Prerequisites** MATH 110 College Mathematics or MATH 115 Liberal Arts Mathematics or MATH 120 Quantitative Reasoning or MATH 150 Geometry in the Arts or MATH 155 Math in Art and Nature or MATH 160 Mathematical Ideas or MATH 165 Math for Marketing and Management or ACCU-T-75 EXAM-ACCUPLACER MATH MINIMUM SCORE = 75 or ACT-M-25 EXAM-ACT MATH MINIMUM SCORE = 25 or SAT-M-580 EXAM-SAT MATH MINIMUM SCORE = 580 or ALEK-1-61 EXAM-ALEKS MINIMUM SCORE = 61

**Minimum Credits 3 Maximum Credits 3**

## **FASH 205 Textiles Survey**

This course demonstrates the interrelationship between textiles and clothing design. It explores the importance of the textile industry to the fashion industry. Students acquire understanding of fibers, fabrics, manufacturing techniques, trends, definitions, and uses of textiles applied to both industries. Laws governing uses, liabilities, treatment, standards, and labeling are discussed.

**Repeatable:** *N*

**Formerly** 27-2121

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **FASH 306 Apparel Evaluation**

This course provides students with a production vocabulary based on a thorough knowledge of the relationship between textiles and finished garments. Students will learn about garment fit, construction details, federal regulations, quality control and wholesale/retail pricing based on market segmentation. Decision making and negotiating skills are also highlighted.

**Repeatable:** *N*

**Formerly** 27-3115

**Prerequisites** FASH 101 Intro to the Fashion Industry or FASH 205 Textiles Survey

**Minimum Credits 3 Maximum Credits 3**

## **FASH 307 A History of Fashion in 100 Objects**

By decentering the traditionally Eurocentric focus of fashion history, students will come to understand the universality of fashion and how humans throughout history have utilized dress objects to signal status, construct identity and cultivate community. Through regular visits to the Fashion Study Collection, students will also be introduced to the material culture of dress, the evolution of fashion journalism, retail history and developments in manufacturing and construction.

**Repeatable:** *N*

**Formerly** 27-3175

**DEI**

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

## **FASH 308 Professional Practice**

Students will create a professional package based on their career interests comprised of the following elements: a portfolio, resume, cover letter, website and LinkedIn page. Students will develop interview skills and gain an understanding of how to pursue a meaningful career in the fashion industry.

**Repeatable:** *N*

**Formerly** 27-3130

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **FASH 309 Sourcing and Supply Chain**

This course introduces students to the economic, environmental and social challenges that impact sustainability while sourcing textile and apparel locally and globally.

**Repeatable:** *N*

**Formerly** 27-3930

**DEI**

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **FASH 401 Fashion Design and Merchandising Concept to Consumer I**

This course is the penultimate course in a year-long capstone for both design and merchandising students. It requires cross-functional teams to design and develop a viable fashion and/or function based market-ready capsule for a specific market segment, constrained by defined sourcing and production variables.

**Repeatable:** *N*

**Formerly** 27-4100

**Prerequisites** FASH 330 Digital Patternmaking and Construction or FASH 322 Merchandising and Assortment Planning

**Requirements** Senior Standing (SR)

**Minimum Credits 3 Maximum Credits 3**

## **FASH 402 Fashion Design and Merchandising Concept to Consumer II**

This course is the culmination of a yearlong capstone for both design and merchandising students. It requires cross-functional teams to design, develop, and merchandise a viable fashion and/or function based market-ready collection for a specific market segment, constrained by defined sourcing and production variables.

**Repeatable:** *N*

**Formerly** 27-4101

**Prerequisites** FASH 401 Fashion Design and Merchandising Concept to Consumer I

**Requirements** Senior Standing (SR)

**Minimum Credits 3 Maximum Credits 3**

## **CONCENTRATIONS**

Merchandising

## **COMM 219 Social Media Content**

This course trains students to create strategic and ethical social media and digital content; develop concise and accurate writing and editing skills; and employ search engine optimized keywords, links, and hashtags to grow audiences and motivate them to action.

**Repeatable:** *N*

**Formerly** 54-2205

**Prerequisites** ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or ENGL 109 Writing and Rhetoric I Stretch B or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits** 3 **Maximum Credits** 3

## **FASH 220 Future of Retail and Shopping**

This course introduces students to the omnichannel retail environment integrating traditional brick and mortar commerce with e-commerce. Students will identify the various methods of e-commerce delivery, recommend true-to-brand strategies that encompass multiple channels and prepare a mock e-commerce initiative.

**Repeatable:** *N*

**Formerly** 27-2930

**Prerequisites** ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits** 3 **Maximum Credits** 3

## **FASH 221 Marketing Fashion Brands**

This course provides a critical look at fashion marketing and branding. Students will examine case studies, conduct market research and execute marketing projects for a fashion business.

**Repeatable:** *N*

**Formerly** 27-2935

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits** 3 **Maximum Credits** 3

## **FASH 322 Merchandising and Assortment Planning**

This course integrates assortment planning and marketing within the constraints of stock and sales plans. Emphasis is placed on planning, developing, and computing of assortment and buying plans. Domestic and foreign merchandise resources, vendor negotiation, and profitability are also covered.

**Repeatable:** *N*

**Formerly** 27-3940

**Prerequisites** FASH 221 Marketing Fashion Brands

**Minimum Credits** 3 **Maximum Credits** 3

## **FASH 323 Visual Merchandising and Space Planning**

Students will analyze store environments and the role of visual merchandising through interior/exterior displays and store layout. This course emphasizes the use of color, fixtures, and lighting used for display purposes. This course blends hands on learning experience with the most current software.

**Repeatable:** *N*

**Formerly** 27-3921

**Prerequisites** FASH 221 Marketing Fashion Brands

**Minimum Credits 3 Maximum Credits 3**

## Product Development

### **FASH 130 Patternmaking and Construction I**

Patternmaking and Construction I introduces students to and gives them practice in a range of patternmaking and construction techniques used in apparel product development. Students will be able to create and apply basic blocks, patternmaking and draping techniques to construct prototypes and finished products.

**Repeatable:** *N*

**Formerly** 27-1607

Fashion Majors Only (2FSH)

**Minimum Credits 3 Maximum Credits 3**

### **FASH 230 Patternmaking and Construction II**

Patternmaking and Construction II further develops students' knowledge of patternmaking and construction techniques used in apparel product development and advances their technical skills in these areas.

**Repeatable:** *N*

**Formerly** 27-2607

**Prerequisites** FASH 130 Patternmaking and Construction I

**Minimum Credits 3 Maximum Credits 3**

### **FASH 231 Approaches and Process in Fashion Design**

This course introduces individual and teamed students to design-focused product development through consumer market-segment research and category-specific design challenges across traditional and niche markets such as women's, men's, children's, active sports, underwear, event, occasion, and special-needs wear and accessories.

**Repeatable:** *N*

**Formerly** 27-2730

**Prerequisites** FASH 101 Intro to the Fashion Industry

**Minimum Credits 3 Maximum Credits 3**

### **FASH 330 Digital Patternmaking and Construction**

Students will move between Optitex digital platform, paper patternmaking, sewn prototypes and adjustments to fit. Familiarity with digital applications will open pathways to nuanced alteration, grading for size and use of patterned fabric.

**Repeatable:** *N*

**Formerly** 27-3607

**Prerequisites** FASH 230 Patternmaking and Construction II and FASH 231 Approaches and Process in Fashion Design

**Minimum Credits 3 Maximum Credits 3**

## **FASH 331 Design Solutions for Fashion**

Using 2D and 3D platforms and prototypes to creatively solve design challenges, students will work independently and in teams to research, analyze and develop design strategies and innovations for a variety of products for fashion consumers.

**Repeatable:** *N*

**Formerly** 27-3730

**Prerequisites** FASH 230 Patternmaking and Construction II and FASH 231 Approaches and Process in Fashion Design

**Minimum Credits 3 Maximum Credits 3**

## **Film and Television, BA**

The goal of the Cinema and Television Arts BA in Film and Television is to provide students the opportunity to make short films through collaboration, analysis, technical skill development and practice. The curriculum is designed for students who want an overview of the filmmaking process or who intend to pursue further education, such as graduate school.

Cinema and Television Arts Film and Television majors complete 47 credits in the major which include 19 credits of required core classes and at least 28 hours in areas of interest including a capstone experience. Courses prepare students for advanced study, which will provide the opportunity to assemble a body of work.

As a result of successfully completing program requirements, students should be able to:

- reveal personal voice, vision, and intent using written, visual, and aural storytelling skills to produce fiction, nonfiction, and experimental projects with originality and aesthetic depth;
- demonstrate technical proficiency and project management by collaborating on films, videos, series, and other media using industry standards and practices;
- critically examine personal work and the work of others in the context of cinema and television history, aesthetics, and cultural influences;
- ethically practice inclusivity in the production and analysis of media arts to contribute to a more diverse and equitable industry; and
- develop a path from college to creative career, and employ business practices associated with existing and emergent media forms.

## **PROGRAM REQUIREMENTS - 47 credits required**

### **MEDI 101 Cinematic Storytelling**

This course explores the elements of cinematic storytelling that are used to articulate theme, evoke emotion, and create personal connection with an audience. The student will analyze, research, develop, and visualize cinematic stories for the screen. Aesthetics and storytelling components will be applied in MEDI 102 Cinema and Television Production.

**Repeatable:** N

**Concurrent Requisite** MEDI 102 Cinema and Television Production

**Minimum Credits 3 Maximum Credits 3**

## **MEDI 102 Cinema and Television Production**

This hands-on course explores the techniques of cinema and television production as a collaborator on both individual and group projects. The student will practice conceptualization, visualization, cinematography, sound recording, and editing techniques through effective visual and oral presentations. The aesthetic and storytelling principles will be applied from MEDI 101 Cinematic Storytelling.

**Repeatable:** N

**Concurrent Requisite** MEDI 101 Cinematic Storytelling

**Minimum Credits 3 Maximum Credits 3**

## **Basic Focus Exploration Elective**

*Choose one of the following courses:*

### **CINE 104 Fundamentals of Casting**

This course introduces the fundamental practices, etiquette and protocol for casting cinema productions. Sources of actors, methods of posting calls, offers and booking sheets and implementing SAG guidelines are presented and examined. The role and value of a casting director and their collaboration with directors, producers and line producers is covered. A standard protocol for scheduling and running casting sessions from pre-reads through chemistry tests is developed with an emphasis on professionalism.

**Repeatable:** N

**Formerly** 24-1301

**Minimum Credits 1 Maximum Credits 1**

### **CINE 105 Production Design Fabrication Basics**

Production design is both an artistic and industrial enterprise. In order to be an effective designer, one must have a thorough grounding in the techniques of safe and efficient fabrication. This course introduces students to the art, math and science of the common materials and processes necessary to the creation of props, sets and dressing for cinema production design.

**Repeatable:** Y

**Formerly** 24-1011

**Minimum Credits 1 Maximum Credits 1**

### **CINE 118 Introduction to Sound for Cinema and Television**

This introductory course covers theory and aesthetics of sound as it is used in cinema and television, emphasizing visual storytelling through audio.

**Repeatable:** N

**Formerly** 24-1100

**Minimum Credits 1 Maximum Credits 1**

## **CINE 142 Idea Development for Cinema**

Students will examine their own creative process as well as conceptualize and develop creative projects that can be adapted to the short film format. The goal is to generate a number of viable concepts and ideas that can be stockpiled for future use as well as to learn and implement development techniques by concentrating on a couple of those concepts and bringing them to the pre-production stage. Portfolios developed in this class can be used for future projects.

**Repeatable:** Y

**Formerly** 24-1701

**Minimum Credits 1 Maximum Credits 1**

## **CINE 181A Studies in Editing**

This repeatable course consists of rotating subjects of interest to the developing editor or filmmakers who wants to explore particular aspects of editing and postproduction in depth. Classes include lectures, film clips, written papers and/or exercises. Students choose to register for the subjects that best address their interests and needs.

**Repeatable:** Y

**Formerly** CINE 181

**Minimum Credits 1 Maximum Credits 1**

## **CINE 181B Studies in Editing**

This repeatable course consists of rotating subjects of interest to the developing editor or filmmakers who wants to explore particular aspects of editing and postproduction in depth. Classes include lectures, film clips, written papers and/or exercises. Students choose to register for the subjects that best address their interests and needs.

**Repeatable:** Y

**Minimum Credits 1 Maximum Credits 1**

## **CINE 181C Studies in Editing**

This repeatable course consists of rotating subjects of interest to the developing editor or filmmakers who wants to explore particular aspects of editing and postproduction in depth. Classes include lectures, film clips, written papers and/or exercises. Students choose to register for the subjects that best address their interests and needs.

**Repeatable:** Y

**Minimum Credits 1 Maximum Credits 1**

## **CINE 181D Studies in Editing**

This repeatable course consists of rotating subjects of interest to the developing editor or filmmakers who wants to explore particular aspects of editing and postproduction in depth. Classes include lectures, film clips, written papers and/or exercises. Students choose to register for the subjects that best address their interests and needs.

**Repeatable:** Y

**Minimum Credits 1 Maximum Credits 1**

### **CINE 181E Studies in Editing**

This repeatable course consists of rotating subjects of interest to the developing editor or filmmakers who wants to explore particular aspects of editing and postproduction in depth. Classes include lectures, film clips, written papers and/or exercises. Students choose to register for the subjects that best address their interests and needs.

**Repeatable:** Y

**Minimum Credits 1 Maximum Credits 1**

### **CINE 182A Topics in Cinematography**

This repeatable course consists of rotating subjects of interest to the developing cinematographer or filmmaker who appreciates the importance of visual storytelling. Suggested topics include introduction to cinematography; cinematography aesthetics; the role of lighting in storytelling; choreography of camera for story; editing from a cinematographers POV; blocking for camera; optics and lensing; etc. Topics address relevant camera and visual subjects that merit in depth exploration. Classes include lectures, films clips, written papers and/or exercises. Students choose to register for the topic/semester that best address their interests and needs.

**Repeatable:** Y

**Formerly CINE 182**

**Minimum Credits 1 Maximum Credits 1**

### **CINE 182B Topics in Cinematography**

This repeatable course consists of rotating subjects of interest to the developing cinematographer or filmmaker who appreciates the importance of visual storytelling. Suggested topics include introduction to cinematography; cinematography aesthetics; the role of lighting in storytelling; choreography of camera for story; editing from a cinematographers POV; blocking for camera; optics and lensing; etc. Topics address relevant camera and visual subjects that merit in depth exploration. Classes include lectures, films clips, written papers and/or exercises. Students choose to register for the topic/semester that best address their interests and needs.

**Repeatable:** Y

**Minimum Credits 1 Maximum Credits 1**

### **CINE 182C Topics in Cinematography**

This repeatable course consists of rotating subjects of interest to the developing cinematographer or filmmaker who appreciates the importance of visual storytelling. Suggested topics include introduction to cinematography; cinematography aesthetics; the role of lighting in storytelling; choreography of camera for story; editing from a cinematographers POV; blocking for camera; optics and lensing; etc. Topics address relevant camera and visual subjects that merit in depth exploration. Classes include lectures, films clips, written papers and/or exercises. Students choose to register for the topic/semester that best address their interests and needs.

**Repeatable:** Y

**Minimum Credits 1 Maximum Credits 1**

## **CINE 182D Topics in Cinematography**

This repeatable course consists of rotating subjects of interest to the developing cinematographer or filmmaker who appreciates the importance of visual storytelling. Suggested topics include introduction to cinematography; cinematography aesthetics; the role of lighting in storytelling; choreography of camera for story; editing from a cinematographers POV; blocking for camera; optics and lensing; etc. Topics address relevant camera and visual subjects that merit in depth exploration. Classes include lectures, films clips, written papers and/or exercises. Students choose to register for the topic/semester that best address their interests and needs.

**Repeatable:** Y

**Minimum Credits 1 Maximum Credits 1**

## **CINE 182E Topics in Cinematography**

This repeatable course consists of rotating subjects of interest to the developing cinematographer or filmmaker who appreciates the importance of visual storytelling. Suggested topics include introduction to cinematography; cinematography aesthetics; the role of lighting in storytelling; choreography of camera for story; editing from a cinematographers POV; blocking for camera; optics and lensing; etc. Topics address relevant camera and visual subjects that merit in depth exploration. Classes include lectures, films clips, written papers and/or exercises. Students choose to register for the topic/semester that best address their interests and needs.

**Repeatable:** Y

**Minimum Credits 1 Maximum Credits 1**

## **CINE 184 Seminar in Producing**

This course consists of topics of interest to the developing filmmaker with an interest in producing. It will provide an indepth exploration of aesthetics, history, and cinematic trends from a producer's perspective. Subjects may include the producer/director power dynamic; the rise of the female producer; international co-productions; and the art and business of film analysis.

**Repeatable:** Y

**Formerly 24-3606**

**Minimum Credits 1 Maximum Credits 1**

## **CINE 267 Documentary Production Module I: Location Camera and Sound**

This intensive workshop course gives students an introduction in basic documentary field production. The emphasis centers on camera operation including filming the essential shots that are key to the edit of a documentary sequence, including: tripod usage, cinema verite and various other handheld styles of documentary filming. Students will learn the basic aspects of recording location documentary sound with an emphasis on microphone placement, booming and the usage of wireless and hard-wired microphones. The focus of the course will teach students how to work in a two person documentary team using minimal equipment to capture intimate moments. Additional topics include set protocols specific to documentary, crew coordination strategies, gear checklists and preparation, logging, data wrangling and the basics of delivering media to the editorial team.

**Repeatable:** N

**Formerly 24-2809**

**Minimum Credits 1 Maximum Credits 1**

## **TELE 135 Online Video Culture**

This class examines the online video culture from the perspectives of creator and audience. Students immerse themselves in the online identities they create and spend the semester creating content and communicating with each other via public, Twitter, and YouTube accounts. They discuss content discovery as viewers and try to incorporate various discovery strategies as video creators. Through a series of simple video making and publishing exercises, students create searchable, topical, and shareable content and monitor its performance using YouTube analytics.

**Repeatable:** N

**Formerly** 40-1501

**Minimum Credits 1 Maximum Credits 1**

## **Culture, Race, and Media Elective**

*Choose one of the following courses:*

### **MEDI 201 Culture, Race and Media**

This immersive course enables students to view, analyze, interpret and evaluate current media to identify the consequences of their pervasive influence. Interactive, facilitated discussions and exercises, stimulating readings, web-based assignments and analysis of media examples in myriad genres of cinema, television, games, photography, print, audio, advertisements, performance and others, offer students new insights into both media and their lives. Utilizing regularly posted progress reports, students reflect on their ideologies while investigating race, ethnicity, gender, social class, age, religion, ability, sexual and other identities to recognize their cultural and ethical responsibilities as media makers and influencers.

**Repeatable:** N

**Formerly** 40-2803

**HU DEI PL**

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **MEDI 201H Culture, Race and Media: Honors**

Course enables students to analyze subtle and subliminal messages about culture, race, ethnicity, gender, religion, class, and ability as presented to us through the media. The media--television, film, and print--has a pervasive influence upon how we view the world. Through open discussions of differences, research, and stimulating readings, we will learn who we are and why we view things the way we do. Expected outcomes include new insights into media influence and our responsibility as media makers, a research project, and self-examination of personal cultural and racial identity.

This is an Honors class. In addition to other possible pre-requisites, students need a minimum G.P.A. of 3.50 or higher to enroll.

**Repeatable:** N

**Formerly** 40-2803HN

**HU DEI**

**Requirements** Sophomore Standing or Above (SO) and 3.5 or Higher GPA (35GP)

**Minimum Credits 3 Maximum Credits 3**

## **Writing for CTVA Elective**

*Choose one of the following courses:*

### **CINE 140 Script Analysis for Cinema**

This course provides students with an opportunity to learn more about various concentrations by examining the methods by which professionals approach, break down, or prepare a script for filming. Students analyze various drafts of scripts from several feature length and shorter films. Beginning with story analysis, class analyzes scripts in relationship to producing, directing, acting, production design, cinematography, editing, and sound design. Script strengths and weaknesses are discussed in relation to each of the production areas. Course material links with material from each of the major concentration areas in Cinema.

**Repeatable:** *N*

**Formerly** 24-1700

**Prerequisites** ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

### **CINE 145 Screenwriting I: Writing the Short Film**

Course is a workshop that explores basic methods of writing for cinema which further develop the students' skills in presenting their ideas in written form. Students will develop craft skills basic to cinema writing: research, story development, scene structure, dialogue, and character definition. Emphasis is on finding visual equivalents for human emotions and on developing the writer's individual personal vision. This work culminates in the development and revision of two short narrative scripts. Instrumental in the development of the student as a writer is the ability to read, and effectively critique, the work of their peers.

**Repeatable:** *N*

**Formerly** 24-1710

**Prerequisites** ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or ENGL 109 Writing and Rhetoric I Stretch B or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

### **CINE 234 Cinema Analysis and Criticism**

Course is a writing-and-research-intensive introduction to cinema studies. Students are taught how to write about cinema and media using different approaches including: formal analysis, ideological analysis, and historical research. In order to focus more on writing and course content, screenings will be limited. The screenings may change at the discretion of the instructor but the nature and number of the assignments will remain the same for each offering of the course.

**Repeatable:** *N*

**Formerly** 24-2500

**Minimum Credits 3 Maximum Credits 3**

### **TELE 212 Television Arts: Writing**

Building on concepts and techniques introduced in Aesthetics and Storytelling, course allows students to explore basic methods of television writing for scripted and non-scripted formats. Students will develop craft skills basic to television writing: research, story structure, dialogue, and character development, all of which will prepare them for writing scenes and short scripts. Course will not only prepare the student to write full

length scripts but will also help them grow as artists, learning to tell stories in a unique and personally meaningful way.

**Repeatable:** *N*

**Formerly** 40-2100

**Prerequisites** ENGL 111 Writing and Rhetoric I and MEDI 101 Cinematic Storytelling or ENGL 111H Writing and Rhetoric I: Honors and MEDI 101 Cinematic Storytelling or ENGL 121 International Writing and Rhetoric I and MEDI 101 Cinematic Storytelling or ENGL 111 Writing and Rhetoric I and CINE 102 Cinema Notebooks or ENGL 111H Writing and Rhetoric I: Honors and CINE 102 Cinema Notebooks or ENGL 121 International Writing and Rhetoric I and CINE 102 Cinema Notebooks or ENGL 111 Writing and Rhetoric I and TELE 112 Aesthetics and Storytelling or ENGL 111H Writing and Rhetoric I: Honors and TELE 112 Aesthetics and Storytelling or ENGL 121 International Writing and Rhetoric I and TELE 112 Aesthetics and Storytelling or ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II or MEDI 101 Cinematic Storytelling and TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7 or CINE 102 Cinema Notebooks and TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7 or TELE 112 Aesthetics and Storytelling and TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

## CTVA History Electives

*Choose two of the following courses:*

### **CINE 143 World Cinema I**

This course examines the world cinema up until World War II. Emphasis is placed on major directors, national cinemas, and movements that contributed to the development of narrative cinema. Screenings will be discussed for their aesthetic, historical, technological and ideological significance. Students will research and write papers and be involved in a number of other in-class and online research activities to help engage them actively with the material.

**Repeatable:** *N*

**Formerly** 24-2550

**Minimum Credits 3 Maximum Credits 3**

### **CINE 144 World Cinema II**

This course examines the world cinema after World War II. Emphasis is placed on major directors, national cinemas, and movements that contributed to the development of narrative cinema. Screenings will be discussed for their aesthetic, historical, technological and ideological significance. Students will research and write papers and be involved in a number of other in-class and online research activities to help engage them actively with the material.

**Repeatable:** *N*

**Formerly** 24-2551

**Minimum Credits 3 Maximum Credits 3**

### **TELE 110 The History of Television**

Cultural history course examines not only the chronological development of television as a technology and an industry, but also explores also how television has become a part of our histories and, indeed, how TV has shaped history and our sense of it. Television is a primary source for the transmission of information,

politics, entertainment, and our collective and dispersed cultures in the United States, surpassing even film and newspaper because of its combined accessibility and visual appeals. Since its arrival on the scene at the World's Fair of 1939, TV has been the site through which we engage with any number of issues and events--from the most intimate to the most broadly social.

**Repeatable:** *N*

**Formerly** 40-1101

**DEI**

**Minimum Credits 3 Maximum Credits 3**

## Production Techniques

*Complete 9 credits from the following courses:*

### **ANIM 270 Motion Graphics I**

Course teaches techniques to digitally integrate software and composite layers of images. Discussions of digital and optical effects from conception to design encourage students to make creative use of software.

**Repeatable:** *N*

**Formerly** 24-1420

**Prerequisites** INMD 120 Digital Image Design or GRDE 136 Design Lab or TELE 230 Production & Editing I or PHOT 202 Photographic Practice III or PHOT 206 Digital Imaging I or CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process

**Minimum Credits 3 Maximum Credits 3**

### **CINE 107 Production Design I**

Course provides an overview of production design for the visual media by exploring the history and theory of production design, as well as the application of art, design, and architecture to moving image storytelling. Students examine and critique case studies. Instruction covers the process of script analysis and breakdowns to budgeting for the art department. The roles and procedures of the art department will be introduced. Basics of architectural drafting and simple drawing will be covered. Students will be required to serve in the art department of an advanced film production.

**Repeatable:** *N*

**Formerly** 24-1015

**Minimum Credits 3 Maximum Credits 3**

### **CINE 121 Lighting I**

Course introduces the physics of motion picture lighting for students with little or no lighting experience. Students become familiar with important safety procedures and the use of standard lighting equipment. Special attention is given to important light measuring techniques using incident light meters and spot meters, quality of light and lighting ratios. Course encourages intelligent, thoughtful approaches to the aesthetics of lighting.

**Repeatable:** *N*

**Formerly** 24-1200

**Prerequisites** CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production

**Minimum Credits 4 Maximum Credits 4**

## **CINE 128 Acting and Directing Workshop**

Course is designed to introduce fundamentals of the actor's craft to directing students. Students learn various acting techniques and apply them to basic directing methods. The relationship between actor, text, and director is emphasized through analysis, rehearsal, and scene work. Intended outcome is an understanding of the actor's process and the collaboration and communication necessary between actors and directors.

**Repeatable:** *N*

**Formerly** 24-1300

**Prerequisites** CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production

**Minimum Credits** 3 **Maximum Credits** 3

## **CINE 130 Editing I**

Course helps students develop the basic non-linear editing skills needed to tell stories effectively through screenings, practical hands-on assignments, using NLE editing software, readings, and lectures. Organizational skills needed to handle NLE offline digital video and audio materials are covered. Editing exercises consist of various editing genres, using scenes from longer works. Students receive ongoing critiques of their work to determine their proficiency of craft and creativity.

**Repeatable:** *N*

**Formerly** 24-1401

**Concurrent Requisite** CINE 131 Editing I Studio

**Minimum Credits** 3 **Maximum Credits** 3

## **CINE 131 Editing I Studio**

This course is required concurrently with Editing I. Students develop basic skill in the use of a digital editing platform in completing the Editing I course exercises, as well as investigating current technical developments and digital workflow concepts. Content is presented through demonstrations, tutorials and hands-on practice using visual and audio media. Students receive ongoing critique, quizzes and one-to-one problem solving to determine their proficiency and advancement in the use of the platform.

**Repeatable:** *N*

**Formerly** 24-1401B

**Concurrent Requisite** CINE 130 Editing I

**Minimum Credits** 1 **Maximum Credits** 1

## **CINE 148 Introduction to Documentary**

Students will examine in-depth the methods by which non-fiction filmmakers develop, produce and distribute documentary films. Through a series of screenings, lectures, critiques and class discussions, a variety of long- and short-form documentary projects will be analyzed by students in relationship to: story, research, producing, directing, cinematography, editing, sound design, history, aesthetics, ethics and distribution. The class will link with material from each concentration area in Cinema and Television Arts - but through the prism of non-fiction filmmaking.

**Repeatable:** *N*

**Formerly** 24-1801

**Prerequisites** MEDI 101 Cinematic Storytelling or ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111

Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7  
**Minimum Credits 3 Maximum Credits 3**

### **CINE 203 Production: Fact and Fiction**

Students will have the opportunity to develop, produce, edit and exhibit two short films based on a single idea by exploring a variety of visual and aural strategies, styles, and production approaches appropriate for both fiction and documentary filmmaking. Students will also have the opportunity to explore developing a point-of-view and narrative structures leading to forming their authorial and personal voice. Students will relate fundamental cinematic concepts to their creative process including mise-en-scène, visual and sonic design, intentionality, and audience awareness. Further emphasis is placed on effective small team production techniques.

**Repeatable:** *N*

**Formerly** 24-2003

**Prerequisites** TELE 230 Production and Editing I or CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production  
**Minimum Credits 3 Maximum Credits 3**

### **CINE 211 Post-Production Audio I**

Entry-level Sound for Cinema course offers instruction and exploration into the methodology and skills training of sound design and mixing for cinema. Course includes an introduction to the Digital Audio Workstation for sound editing, enhancement and manipulation, and re-recording mixing of the various categories of cinema sound. Students work on a variety of cinema sound projects that mirror professional practice and foster development of the necessary skills to proceed through the Sound for Cinema pathway.

**Repeatable:** *N*

**Formerly** 24-2101

**Prerequisites** CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production or JOUR 351 Multimedia Photo Essay

**Minimum Credits 4 Maximum Credits 4**

### **CINE 213 Location Sound Recording I**

Course introduces students to production applications and audio technologies for cinema and television arts. Areas covered include digital recorders, mixers, microphones, signal chain, time-code, metadata, production protocols, and pre-production strategies for cinema and television production.

**Repeatable:** *N*

**Formerly** 24-2103

**Prerequisites** TELE 230 Production and Editing I or CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production  
**Minimum Credits 4 Maximum Credits 4**

### **CINE 216 Image Design for Cinema**

In this course students will examine the design of images and their critical role in how filmmakers communicate story. Through lectures, practical assignments and critique, students refine their ability to use visual components to see, conceive and communicate most effectively. This course bridges the gap

between theory and practice and highlights the relationship between story structure and visual structure.

**Repeatable:** *N*

**Formerly** 24-2201

**Prerequisites** CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production

**Minimum Credits 3 Maximum Credits 3**

## **CINE 222 New Media and Emerging Video Practices**

This class will introduce students to practices found in new media and emerging video and screen-based storytelling. Students will participate in hands-on demonstrations as new technologies and techniques will be presented and contextualized. Students will research contemporary examples, practitioners, and production methodologies while completing short video projects utilizing the skills they learned in class. Students experiment with various approaches to visual storytelling and think outside the traditional cinematic and television formats. Some areas discussed include 360 video and interactive storytelling.

**Repeatable:** *Y*

**Formerly** TELE 235

**Minimum Credits 3 Maximum Credits 3**

## **CINE 248 Producing I: Production Team**

Course explores the production team and the role of the line producer, unit production manager, production manager, and assistant directors in managing the physical production process of producing a film. This process will include budgeting and scheduling, and managing cast, crew and vendor relationships. Additional team members are examined, including the roles of the casting director, location manager, production coordinator, and script supervisor. The post-production supervisor position is discussed including post-production scheduling, budgeting, and meeting delivery requirements for distribution and film festivals.

**Repeatable:** *N*

**Formerly** 24-2600

**Prerequisites** MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production or CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process

**Minimum Credits 3 Maximum Credits 3**

## **CINE 250 Advanced Script Supervising**

This three-credit hour course is affiliated with the advanced production and offers students an opportunity to learn about the role of Script Supervisor by serving as Script Supervisors on a film. Learning will be delivered through instructor mentoring and focus on practical preparation of scripts notes, lining scripts, assigning slate numbers, working with the various departments during production and set etiquette.

**Repeatable:** *Y*

**Formerly** 24-2612

**Prerequisites** CINE 225 Cinema Directing I or CINE 249 Introduction to Script Supervising

**Minimum Credits 3 Maximum Credits 3**

## **TELE 125 Television Arts: Production**

Introductory class in the art of television production provides an overview, and basic, practical, hands-on experience in all aspects of today's trends in the television industry. Although taught in a studio environment,

this course will cover camera operation, sound, lighting, video transitions, and graphics as they relate to all forms of production. The final project for the class is the completion of three full productions created by students in the class.

**Repeatable:** N

**Formerly** 40-1302

**Minimum Credits 3 Maximum Credits 3**

## **TELE 332 Video for Internet and Mobile**

This class explores online and social video platforms and their influence on culture. The proliferation of mobile devices, platforms, and apps such as YouTube, Facebook, Vimeo, TikTok, Instagram, Tumblr, Twitter have presented the opportunity for the creation and distribution of emerging visual storytelling forms. While exploring multiple platforms, students will create short-form unscripted or soft scripted videos and series. Critical readings will explore why people share and how ideas are transmitted and amplified through online video. Students will consider audience development, analytics, and best practices while developing their voice as makers.

**Repeatable:** N

**Formerly** 40-3236

**Prerequisites** PHOT 260 Introduction to Photojournalism or TELE 135 Online Video Culture or TELE 251 Video for Comedians and Performers or CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production

**Minimum Credits 3 Maximum Credits 3**

## **Advanced Production Techniques**

*Complete 9 credits from the following courses:*

### **CINE 208 Cinema Set Design and Construction**

This course introduces the planning and fabrication skills necessary to design, estimate, and safely construct motion picture sets. Students will learn the basics of hand-drawn drafting to create working drawings and cost estimating for budget creation. Students will collaborate on in-class projects, gaining hands-on experience in construction techniques, shop safety, and the uses of common construction materials as they relate to set construction.

**Repeatable:** Y

**Formerly** 24-2013

**Prerequisites** CINE 105 Production Design Fabrication Basics and CINE 107 Production Design I

**Minimum Credits 4 Maximum Credits 4**

### **CINE 215 Cinematography: Camera Seminar I**

This course gives students a working knowledge of beginning digital motion picture camera systems. It provides hands-on training in camera handling and assisting. Students learn basic image acquisition techniques based on optics, focal length, stops, and depth-of-field. Students are introduced to set protocol and the duties of different members of the camera department.

**Repeatable:** N

**Formerly** 24-2202

**Prerequisites** CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or MEDI 101

Cinematic Storytelling and MEDI 102 Cinema and Television Production

**Minimum Credits 3 Maximum Credits 3**

### **CINE 221 Photo Theory**

This course deals with histories of technologies of image acquisition, from the first photographic emulsion to today's digital sensors. It offers in-depth studies of latent image theory, image quality, densitometry, sensitometry and digital sensors, scanning, and archiving.

**Repeatable:** *N*

**Formerly** 24-2216

**Prerequisites** CINE 121 Lighting I and CINE 216 Image Design for Cinema

**Minimum Credits 3 Maximum Credits 3**

### **CINE 223 Cinema Color I**

Students acquire a working knowledge of the aesthetics and technical aspects of the color correction process. Content addresses theory and application of color correction, image control and manipulation techniques. Principles and history of color theory and the tools available to filmmakers are explored through lecture, interactive computer exercises, and hands-on work with current professional color correction software.

**Repeatable:** *N*

**Formerly** 24-2208

**Prerequisites** CINE 130 Editing I or CINE 216 Image Design for Cinema

**Minimum Credits 3 Maximum Credits 3**

### **CINE 225 Cinema Directing I**

Course builds upon the relationship between actor, text, and director and expands to include camera blocking, basic scene coverage, additional rehearsal techniques, and effective critiquing skills. Emphasis is on the development of director's breakdowns, pre-visualization, set-etiquette, and fundamental collaboration with key department heads. Scene work culminates with the blocking and staging of a cinematic narrative scene.

**Repeatable:** *N*

**Formerly** 24-2301

**Prerequisites** CINE 128 Acting and Directing Workshop

**Minimum Credits 6 Maximum Credits 6**

### **CINE 230 Editing II**

Hands-on course helps students continue to develop the necessary skills to become professional editors. Editing projects are increasingly more complex, concluding with finishing a short film. Communicating and collaborating with a director is emphasized. Students use professional state-of-the-art non-linear digital editing equipment and receive ongoing critiques of their work to determine their proficiency of craft and creativity. Understanding NLE workflow from capturing footage through exporting the final project is emphasized.

**Repeatable:** *N*

**Formerly** 24-2402

**Prerequisites** CINE 130 Editing I and CINE 131 Editing I Lab

**Concurrent Requisite** CINE 231 Editing II Studio  
**Minimum Credits 3 Maximum Credits 3**

## **CINE 231 Editing II Studio**

This course must be taken concurrently with Editing II. Students develop advanced editing skills using a state-of-the-art digital editing platform. Skill development includes: editing techniques, sound design, color correction, simple compositing, and exporting to successfully complete the Editing II course projects. Content is presented through demonstrations, tutorials and hands-on practice. Ongoing critique and one-on-one problem solving are offered to determine proficiency and advancement in use of the platform.

**Repeatable:** *N*

**Formerly** 24-2402B

**Prerequisites** CINE 130 Editing I

**Concurrent Requisite** CINE 230 Editing II

**Minimum Credits 1 Maximum Credits 1**

## **CINE 245 Screenwriting II: The Feature Film**

Course teaches students to produce longer and more complex screenplays; facilitates a deeper understanding of the screenwriting process; and enables students to develop character, story, and linear structure. Students master systematic work habits in order to fully develop the screenplay, from initial idea to completed script. Course also provides students with the opportunity for consistent critique of their screenwriting.

**Repeatable:** *N*

**Formerly** 24-2710

**Prerequisites** CINE 145 Screenwriting I: Writing the Short Film or TELE 212 Television Arts: Writing

**Minimum Credits 3 Maximum Credits 3**

## **CINE 266 Documentary Storytelling**

Course begins with an overview of the relationships between story and discourse in narrative storytelling. This includes narrative voice and perspective, the temporal and spatial arrangements of events and mutual influences between plot and character. Once fundamental principles are established, the focus shifts specifically to documentary. By studying excerpts from existing works, students develop an understanding of narrative approaches to documentary and apply that knowledge to a personal project they wish to develop.

**Repeatable:** *N*

**Formerly** 24-2807

**Prerequisites** CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or CINE 267 Documentary Production Module I: Location Camera and Sound or CINE 264 Documentary Production Module II: The Interview or CINE 269 Documentary Production III: Intermediate Field Production or MEDI 101 Cinematic Storytelling

**Minimum Credits 3 Maximum Credits 3**

## **CINE 275 Experimental Production I**

Project-centered course engages students in non-narrative, alternative aspects of video and digital production. Students develop an aesthetic that explores, challenges, extends, or subverts mainstream narrative or documentary structures. Topics include camera experimentation and image manipulation; development of personal, political, or social themes; and distribution and marketing of experimental work.

**Repeatable:** N

**Formerly** 24-2901

**Prerequisites** CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production

**Minimum Credits 3 Maximum Credits 3**

## **CINE 311 Post-Production Audio II**

Course explores the post-production techniques used in creating effective audio for cinema. Students develop aesthetic judgment by analyzing a variety of soundtracks and develop technical skills, including track building, ADR, Foley, and mixing, by employing these techniques in the design and creation of their own soundtracks.

**Repeatable:** N

**Formerly** 24-2102

**Prerequisites** AUDI 324 Audio for Visual Media I or CINE 211 Post-Production Audio I

**Minimum Credits 4 Maximum Credits 4**

## **CINE 313 Location Sound Recording II**

This course applies the principles and applications of production sound recording for cinema and television arts by providing sound services for advanced student productions. Under faculty supervision students will examine professional protocols and practical applications of production sound for discussions, exchange of experiences, and problem solving.

**Repeatable:** Y

**Formerly** 24-3101

**Prerequisites** AUDI 122 DAW Production Techniques and Applications or CINE 213 Location Sound Recording I

**Minimum Credits 4 Maximum Credits 4**

## **CINE 335 Editing the Documentary**

This course provides documentary editing experience and creative collaborations on original work developed by students in the documentary production classes. Pre-production planning, on set workflow issues and handling large amounts of media in the edit room are discussed from the post-production perspective. Students will add original creative work for their editing reels from the projects completed in this class.

**Repeatable:** Y

**Formerly** CINE 228

**Prerequisites** CINE 130 Editing I or CINE 265 Documentary Production I or CINE 267 Documentary Production Module I: Location Camera and Sound or TELE 230 Production and Editing I

**Minimum Credits 4 Maximum Credits 4**

## **CINE 364 The Assistant Director's Workshop**

Course teaches assistant directors how to run a set by assembling all of the elements needed for filming and for the daily operation of the shooting set. Through lecture, exercises, and on-set experience, this course explores an assistant director's objective of providing the director with everything needed to put the director's vision on film. Their duties are supervisory, organizational, administrative - and multifarious. Working within

the structure that is governed by budgets, union and guild contracts, industry custom, and so on, they make schedules, attend to the cast, direct extras, oversee the crew as each shot is prepared, create detailed reports of each day's events, and are looked to by cast and crew to solve many problems that arise in student productions.

**Repeatable:** *N*

**Formerly** 24-3624

**Prerequisites** CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production

**Minimum Credits 3 Maximum Credits 3**

## **TELE 225 Television Arts: Directing**

Course builds on the production skills covered in Television Arts: Production and introduces the intermediate techniques of television directing. The course will focus on multi-camera directing techniques. Students will learn how to visualize and plan for multi-camera productions and real-time scenes. Students will break down scenes for shooting in a multi-camera environment, learn live switching techniques, camera and talent blocking, and working with actors. Students who complete this class will have experience in a variety of shooting styles and genres found in television today.

**Repeatable:** *N*

**Formerly** TELE 325

**Prerequisites** TELE 125 Television Arts: Production

**Minimum Credits 3 Maximum Credits 3**

## **TELE 310 Writing for Television**

Scriptwriting course is for students who already have a basic understanding of story structure, dialog, and character development. In this class the student will learn to write full-length television scripts and will study the structure and conventions of writing the sitcom, sketch comedy, and hour-long dramatic scripts. Student work will be read aloud and workshopped, step by step, in a traditional writers table' story conference procedure. Each student will leave the course with at least one full-length, polished script from one of the featured genres.

**Repeatable:** *N*

**Formerly** 40-3202

**Prerequisites** TELE 212 Television Arts: Writing or CINE 145 Screenwriting I: Writing the Short Film

**Minimum Credits 3 Maximum Credits 3**

## **TELE 343 Remote Television Production**

Course teaches students to adapt their knowledge of both studio and field production, utilizing a mobile remote production truck to shoot on location at a variety of events in and around Chicago. Relevant programs are researched, produced, and directed by students. Productions may include music, performance, sports, and events. Emphasis is placed on pre-production, meeting deadlines, survey of locations, and performance of a wide range of crew duties, including directing, in a live environment.

**Repeatable:** *Y*

**Formerly** 40-3316

**Prerequisites** TELE 225 Television Arts: Directing

**Minimum Credits 4 Maximum Credits 4**

## Cinema, TV, and Media Studies Elective

*Choose one of the following courses:*

### **CINE 235A Authorship:**

Screening/discussion course is an intensive study of a single director (or directors) as auteur. The featured director(s) changes each semester. Class examines recurring themes, stylistic innovations, and differentiating interpretations of directors' films. Course may be repeated as featured directors change.

**Repeatable:** Y

**Formerly** CINE 235

**Minimum Credits 3 Maximum Credits 3**

### **CINE 235B Authorship:**

Screening/discussion course is an intensive study of a single director (or directors) as auteur. The featured director(s) changes each semester. Class examines recurring themes, stylistic innovations, and differentiating interpretations of directors' films. Course may be repeated as featured directors change.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

### **CINE 235C Authorship:**

Screening/discussion course is an intensive study of a single director (or directors) as auteur. The featured director(s) changes each semester. Class examines recurring themes, stylistic innovations, and differentiating interpretations of directors' films. Course may be repeated as featured directors change.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

### **CINE 235D Authorship:**

Screening/discussion course is an intensive study of a single director (or directors) as auteur. The featured director(s) changes each semester. Class examines recurring themes, stylistic innovations, and differentiating interpretations of directors' films. Course may be repeated as featured directors change.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

### **CINE 235E Authorship:**

Screening/discussion course is an intensive study of a single director (or directors) as auteur. The featured director(s) changes each semester. Class examines recurring themes, stylistic innovations, and differentiating interpretations of directors' films. Course may be repeated as featured directors change.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

### **CINE 235F Authorship:**

Screening/discussion course is an intensive study of a single director (or directors) as auteur. The featured director(s) changes each semester. Class examines recurring themes, stylistic innovations, and differentiating interpretations of directors' films. Course may be repeated as featured directors change.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

### **CINE 238A Cinema History and Culture**

This course examines historical and cultural issues in cinema. Topics may include specific genres, national cinemas, representations of gender and sexuality, non-narrative cinema, or the aesthetic impact of technological innovations. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help engage them actively with the topics.

**Repeatable:** Y

**Formerly** CINE 238

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 238B Cinema History and Culture**

This course examines historical and cultural issues in cinema. Topics may include specific genres, national cinemas, representations of gender and sexuality, non-narrative cinema, or the aesthetic impact of technological innovations. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help engage them actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 238C Cinema History and Culture**

This course examines historical and cultural issues in cinema. Topics may include specific genres, national cinemas, representations of gender and sexuality, non-narrative cinema, or the aesthetic impact of technological innovations. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help engage them actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 238D Cinema History and Culture**

This course examines historical and cultural issues in cinema. Topics may include specific genres, national cinemas, representations of gender and sexuality, non-narrative cinema, or the aesthetic impact of technological innovations. Course may be repeated as topics change. Students will research and write

papers and be involved in a number of other in-class and online research activities to help engage them actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 238E Cinema History and Culture**

This course examines historical and cultural issues in cinema. Topics may include specific genres, national cinemas, representations of gender and sexuality, non-narrative cinema, or the aesthetic impact of technological innovations. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help engage them actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 238F Cinema History and Culture**

This course examines historical and cultural issues in cinema. Topics may include specific genres, national cinemas, representations of gender and sexuality, non-narrative cinema, or the aesthetic impact of technological innovations. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help engage them actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 240A Cinema and Global Media Culture**

This course examines the impact of global media culture on cinema history and aesthetics. Topics may include cinematic adaptations of video games, graphic novels, or television series, as well as an analysis of how distribution models and international film festivals help determine cinematic form and audience reception. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help them engage actively with the topics.

**Repeatable:** Y

**Formerly** CINE 240

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 240B Cinema and Global Media Culture**

This course examines the impact of global media culture on cinema history and aesthetics. Topics may include cinematic adaptations of video games, graphic novels, or television series, as well as an analysis of how distribution models and international film festivals help determine cinematic form and audience reception. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help them engage actively with the

topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 240C Cinema and Global Media Culture**

This course examines the impact of global media culture on cinema history and aesthetics. Topics may include cinematic adaptations of video games, graphic novels, or television series, as well as an analysis of how distribution models and international film festivals help determine cinematic form and audience reception. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help them engage actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 240D Cinema and Global Media Culture**

This course examines the impact of global media culture on cinema history and aesthetics. Topics may include cinematic adaptations of video games, graphic novels, or television series, as well as an analysis of how distribution models and international film festivals help determine cinematic form and audience reception. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help them engage actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 240E Cinema and Global Media Culture**

This course examines the impact of global media culture on cinema history and aesthetics. Topics may include cinematic adaptations of video games, graphic novels, or television series, as well as an analysis of how distribution models and international film festivals help determine cinematic form and audience reception. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help them engage actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **TELE 250A Television Studies:**

This course examines a specific subject within the field of television, rotating the subjects on a regular basis to keep the course relevant to trends and issues within television and society. Today more than ever, TV is the primary storyteller in U.S. culture, and therefore the medium raises a constant stream of issues concerning everything from representation of groups to how parents raise their children. Classes focus on providing students with in-depth examinations of TV-related topics, with an overarching emphasis on the

importance of approaching television and related issues from a variety of humanities perspectives (philosophical, industrial, historiographical, psychological, etc.), so as to enrich and complicate our understanding.

**Repeatable:** Y

**Formerly** TELE 250

**HU**

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

### **TELE 250B Television Studies:**

This course examines a specific subject within the field of television, rotating the subjects on a regular basis to keep the course relevant to trends and issues within television and society. Today more than ever, TV is the primary storyteller in U.S. culture, and therefore the medium raises a constant stream of issues concerning everything from representation of groups to how parents raise their children. Classes focus on providing students with in-depth examinations of TV-related topics, with an overarching emphasis on the importance of approaching television and related issues from a variety of humanities perspectives (philosophical, industrial, historiographical, psychological, etc.), so as to enrich and complicate our understanding.

**Repeatable:** Y

**HU**

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

### **TELE 250C Television Studies:**

This course examines a specific subject within the field of television, rotating the subjects on a regular basis to keep the course relevant to trends and issues within television and society. Today more than ever, TV is the primary storyteller in U.S. culture, and therefore the medium raises a constant stream of issues concerning everything from representation of groups to how parents raise their children. ### **TELE 320 Critical Television Theory and Analysis**

This course seeks to master methods of analysis and theory commonly utilized in Television Studies: historic and industrial, auteurism and genre, semiotics and psychoanalysis, postmodernism, feminist, critical race, discourse, and audience reception. In students' aspirations to become professionals in the field of television, understanding how TV operates culturally and socially in a sophisticated manner will ultimately make them better creative artists, producers, managers, screenwriters, etc.

**Repeatable:** Y

**Formerly** 40-3212

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **Career Management Elective**

*Choose one of the following courses:*

### **CINE 344 Careers in Film and Television**

This course takes a hands-on approach to helping CTVA students learn what will face them as professionals in film and TV ranging from the basics of freelancing to working in the industry as an employee and managing one's personal affairs such as taxes, setting up a company, and signing an employment agreement for a media company.

**Repeatable:** N

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 1 Maximum Credits 1**

## **COLL 232 Internship**

This internship course allows students to gain hands-on experience within the Los Angeles entertainment and arts industries, bridging theory with practice. This real-world experiential learning opportunity allows students to apply the knowledge and skills learned in the classroom to an existing organization. The online academic component of the course allows students to deepen their understanding of how entertainment and arts organizations and professions are structured and operate while learning how to assess and apply the knowledge and skills learned to more effectively contribute to an organization's success. The course features content specific to coursework and work experiences during the semester in LA.

**Repeatable:** Y

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

## **Advanced Career Preparation Elective**

*Choose one of the following courses:*

### **CINE 229 The Assistant Editor**

This course examines the role of the feature film assistant editor past, present and future, with a focus on providing hands-on experience using traditional and current skills associated with this position. In addition to exploring the responsibilities associated with the preparation and organization of digital elements students will conform a short film from a digital edit as a basis of understanding the evolution of current post-production processes

**Repeatable:** N

**Formerly** 24-2425

**Prerequisites** CINE 130 Editing I

**Minimum Credits 3 Maximum Credits 3**

### **CINE 345 Advanced Casting Director**

Course will focus on the casting director's role as a facilitator of (and creative collaborator) in casting for filmed entertainment. This instruction will entail the full range of affairs between casting director and director during the auditioning phase and a comprehensive look at hiring actors, contract negotiations, actor representation, and the Screen Actors Guild.

**Repeatable:** Y

**Formerly** 24-3601

**Prerequisites** CINE 104 Fundamentals of Casting

**Minimum Credits 3 Maximum Credits 3**

### **CINE 362 Los Angeles Speaker Series**

This course offers students participating in the Los Angeles program the opportunity to gain insight into the daily business of the entertainment industry through a series of guest lecturers.

**Repeatable:** Y

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 424 Strategic Distribution for Filmmakers**

This course focuses on the practical step-by-step process of creating and implementing strategies to launch short-form content into current distribution and festival venues. Having a good film is not enough; a producer must identify specific elements in the film across a myriad of different and evolving technology and trend-driven platforms, as well as be able to effectively secure distribution.

**Repeatable:** N

**Formerly** 24-4660

**Prerequisites** CINE 248 Producing I: Production Team or CINE 225 Cinema Directing I

**Minimum Credits 3 Maximum Credits 3**

### **CINE 427 Producing the Documentary**

This course prepares advanced documentary students to work in the documentary production industry as a hired producer/director/writer. Typical work-for-hire tasks are explored. Students write and develop production packages suitable for known production companies and media outlets. Advanced producing topics are covered including complex budgeting, scheduling, hiring, and delivery and distribution requirements.

**Repeatable:** Y

**Formerly** 24-4810

**Prerequisites** CINE 264 Documentary Production Module II: The Interview or CINE 269 Documentary Production III: Intermediate Field Production or CINE 267 Documentary Production Module I: Location Camera and Sound

**Minimum Credits 3 Maximum Credits 3**

### **CINE 428 The Business of Screenwriting**

Course instructs students how the inner workings of the film industry directly affect their ambitions as screenwriters. They will understand that there is much more to being a screenwriter than writing the script alone. Course will give the students a working knowledge of finding an agent, researching producers for their material, dealing with studios, understanding different types of contracts, copyright law and the Writers Guild of America. Students will also have a chance to take their scripts through a professional submission process to the agent or production company of their choice.

**Repeatable:** Y

**Formerly** 24-4742

**Prerequisites** CINE 245 Screenwriting II: The Feature Film and CINE 140 Script Analysis for Cinema

**Minimum Credits 3 Maximum Credits 3**

### **CINE 430 Creative Seminar: Portfolio Review**

This course provides an opportunity for students to revisit work completed throughout their studies. Students critique their previous work in an effort to understand their themes and styles, their strengths and

weaknesses, and their development as a filmmaker. This examination assists students in setting future goals both in terms of selecting their Capstone classes and what they plan to do after graduation, whether that includes working in media, applying to grad schools, or identifying other career paths.

**Repeatable:** *N*

**Formerly** 24-4000

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

## **TELE 328 Television Program Development**

Television Program Development teaches students how to take an idea for a scripted television series and turn it into a fully realized written document (show bible) that focuses on creating a sustainable premise and includes a pilot story, subsequent stories, characters and a vision, which effectively reflect the series' setting, tone, and structure. From this detailed document, students will be able to write a pilot script (in a subsequent class or on their own). Additionally, the class introduces students to the variety of programming needs of broadcast, cable and streaming platforms.

**Repeatable:** *N*

**Formerly** 40-3232

**Prerequisites** CINE 145 Screenwriting I: Writing the Short Film or CINE 248 Producing I: Production Team or TELE 210 The Television Producer or TELE 212 Television Arts: Writing

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

## Capstone

*Choose one of the following courses:*

### **CINE 325 Cinema Directing II**

Course continues the development of collaboration with actors and key department heads while introducing the principles of cinematic coverage and providing the opportunity to develop personal directorial style. Pre-visualization, fundamental considerations of location shooting, and the use of editing and audio design in cinematic storytelling are emphasized. Student work culminates with the direction of scenes on both studio and location.

**Repeatable:** *N*

**Formerly** 24-3302

**Prerequisites** CINE 225 Cinema Directing I

**Minimum Credits** 6 **Maximum Credits** 6

### **CINE 368 The Line Producer Workshop**

This course provides the Line Producing student with the unique opportunity to produce an advanced student short film. This course teaches Line Producers how to produce a short film by assembling all of the preparation elements needed for filming and then for the day-to-day operation of the shooting set/principal photography. The course explores a Line Producer's objective of maintaining financial responsibility while providing the production and Creative Producer with everything needed to put the Director's vision on film. Their duties are supervisory, organizational, administrative and multifarious. The Line Producing student will be working within the structure that is governed by budgets, union and schedules, attend to cast, contract with vendors, hire crew, create detailed reports of each day's events and are looked to by cast and crew to

problem solve on a moment to moment notice before and during production.

**Repeatable:** Y

**Formerly** 24-3635

**Prerequisites** CINE 248 Producing I: Production Team

**Minimum Credits** 6 **Maximum Credits** 6

### **CINE 429 Fictional Cinema Production**

This course brings students together to pitch and collaboratively create short fictional films in a group throughout the semester. In this course, students will hone various filmmaking skills they are already mastering (shooting, sound recording, editing, etc.) while also being reintroduced, at a more advanced level, to areas they may not have actively participated in since their first-year courses. The goal is for students to emerge at the end of the semester with a portfolio-quality piece suitable for film festivals and reels showcasing their talents.

**Repeatable:** N

**Prerequisites** CINE 203 Production: Fact and Fiction or CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

### **CINE 440A Seminar in Cinema, Television, and Media Studies**

In this seminar, students will engage in extensive research into areas of cinema and/or television history, media, or theory and criticism. Students will apply their research into the composition of a graduate-level essay. This is a rotating subjects course.

**Repeatable:** Y

**Formerly** CINE 440

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

### **CINE 440B Seminar in Cinema, Television, and Media Studies**

In this seminar, students will engage in extensive research into areas of cinema and/or television history, media, or theory and criticism. Students will apply their research into the composition of a graduate-level essay. This is a rotating subjects course.

**Repeatable:** Y

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

### **CINE 440C Seminar in Cinema, Television, and Media Studies**

In this seminar, students will engage in extensive research into areas of cinema and/or television history, media, or theory and criticism. Students will apply their research into the composition of a graduate-level essay. This is a rotating subjects course.

**Repeatable:** Y

**Requirements** Junior Standing or Above (JR)  
**Minimum Credits 3 Maximum Credits 3**

### **CINE 440D Seminar in Cinema, Television, and Media Studies**

In this seminar, students will engage in extensive research into areas of cinema and/or television history, media, or theory and criticism. Students will apply their research into the composition of a graduate-level essay. This is a rotating subjects course.

**Repeatable:** Y

**Requirements** Junior Standing or Above (JR)  
**Minimum Credits 3 Maximum Credits 3**

### **CINE 440E Seminar in Cinema, Television, and Media Studies**

In this seminar, students will engage in extensive research into areas of cinema and/or television history, media, or theory and criticism. Students will apply their research into the composition of a graduate-level essay. This is a rotating subjects course.

**Repeatable:** Y

**Requirements** Junior Standing or Above (JR)  
**Minimum Credits 3 Maximum Credits 3**

### **CINE 445 Screenwriting III**

Based on student goals as identified in Ideation and Theme, course allows the student to develop a final portfolio thesis project. This thesis is the culmination of the skills the student has developed during their studies at Columbia.

**Repeatable:** Y

**Formerly** 24-4710

**Prerequisites** CINE 378 Ideation & Theme: Portfolio Review or CINE 430 Creative Seminar: Portfolio Review

**Minimum Credits 3 Maximum Credits 3**

### **CINE 477 Documentary Projects**

This course develops advanced techniques in the process of documentary filmmaking, from idea, research, treatment, shooting techniques, to editing. Students produce a fully developed short documentary film which exhibits a sophisticated approach to documentary concepts, practices, aesthetics, and ethical problems encountered in contemporary documentary filmmaking. Students will workshop ideas leading to a production that communicates meaning, demonstrates an ethical concern for its subjects, affects its audience, and reflects an individual voice.

**Repeatable:** Y

**Formerly** CINE 377

**Prerequisites** CINE 266 Documentary Storytelling or CINE 267 Documentary Production Module I: Location Camera and Sound or CINE 264 Documentary Production Module II: The Interview or CINE 269 Documentary Production III: Intermediate Field Production or PHOT 360 Documentary Methods or JOUR 350 Digital Storytelling

**Minimum Credits 3 Maximum Credits 3**

## **TELE 480 Branded Entertainment Practicum**

In this course, students gain theoretical and practical experience in the strategy, production and distribution of client-based branded entertainment media. Students join collaborative interdisciplinary teams and work with commercial and not-for-profit clients to develop and execute branded entertainment strategy plans, media content and analytic processes. Contemporary social media platforms, business models and best practices for evaluating impact will be presented and used by the student teams.

**Repeatable:** Y

**Formerly** 40-3242

**Prerequisites** TELE 210 The Television Producer and TELE 330 Production and Editing II or CINE 230 Editing II or CINE 275 Experimental Production I

**Minimum Credits 3 Maximum Credits 3**

## **Fine Arts, BA**

The Fine Arts BA aims to provide a rigorous undergraduate program in professional art making within the context of a liberal arts education. The Fine Arts major is designed to support students with various interests and abilities. It serves students who expect to become professional artists as well as welcoming those who plan to pursue careers in fields requiring creative, spatial, and design abilities. The department of Art and Art History offers a variety of courses in drawing, painting, printmaking, sculpture, and new genre and new media art. Students are exposed to and work in more than one medium over the course of the major in order to expand their creative options. The BA provides a great opportunity for broadly interested art makers to double degree or minor in fields such as art history, photography, graphic design, poetry, arts education, visual arts management, entrepreneurship, etc., which leads to a unique and personal level of investigation and rigorous creative expression.

As a result of successfully completing program requirements, students should be able to:

- demonstrate a developed visual, media, and material sensitivity;
- establish technical skills and a growing awareness of the principles of visual organization within a range of art and design materials, methods and media;
- demonstrate an ability to make and understand basic connections between concept and form;
- understand the nature of contemporary thinking on art, and gain a basic discernment of quality in works of art;
- be familiar with the works and intentions of major artists and movements of the past, in both Western and non-Western worlds; and
- have an awareness of how artistic concerns are mobilized in the contemporary art world.

## **PROGRAM REQUIREMENTS - 48 credits required**

### **ARTH 110 Art History Survey: Prehistoric to Modern**

This introductory course is a global survey of the history of visual arts from pre-historic times through the nineteenth century. Students study examples from Africa, Asia, the Americas, and Europe in an overall chronological order. Class lectures and discussions focus on various civilizations, periods, and styles around the world including Mesopotamia, Egypt, Greece, and Rome, Early Chinese, Early Christian, Early Islamic, Early Buddhist, Niger Valley, Pre-Columbian, Gothic, Renaissance, Baroque, Impressionism and Post-Impression. Students explore the aesthetic values of these diverse cultures in relation to historical, socio-political, religious, and other contexts for the creation of art.

**Repeatable:** *N*

**Formerly** 22-1101

**HU**

**Minimum Credits 3 Maximum Credits 3**

## **ARTS 103 Art Now! Art and Art History Speaker Series**

ART NOW! is the Art and Art History Department's curricularized one-credit Speaker Series. Over the course of a semester, students attend no fewer than six sessions sponsored by the department, where they learn about and engage with a diverse mix of art makers, curators, critics, historians, and entrepreneurs. Students hear directly from the unique individuals--international, national, and Chicago-based--who are actively authoring the culture of our times, and gain exposure to the rich range of perspectives, practices, and professional pathways possible for the contemporary creative. In addition to attending the lectures, students prepare by reviewing materials that provide background and context for each speaker and students participate in a digital discussion forum, where they critically engage current issues facing contemporary art and culture and present informed positions and assessments of contemporary art practice. This course provides an accessible, timely, and lively introduction to the multiple worlds of contemporary art and current art discourse, as well as being an excellent way to stay current with the latest developments.

**Repeatable:** *Y*

**DEI**

**Minimum Credits 1 Maximum Credits 1**

## **ARTS 105 Foundation Studio**

Foundation Studio teaches students how to solve art and design problems. It introduces critical strategies common to major areas of study offered within the departments of Art and Art History and Design, but is also applicable to many other fields in the creative sphere. Students are exposed to a diversity of materials and methods, and are encouraged to develop their own unique solutions through experimentation and collaboration. Assuming the role of problem-solver, students work on increasingly complex projects that culminate in a formalized demonstration of the ability to forge their own creative solutions.

**Repeatable:** *N*

**Formerly** 22-1925

**Minimum Credits 3 Maximum Credits 3**

## **ARTS 106 Fundamentals of Visual Design**

This course introduces students to elements and principles of visual design. While handling digital media through the use of industry-standard software (for example, Photoshop, Illustrator, and other Adobe Creative Suite programs), students investigate connections between formal analysis, concept, and ideas in pixel, vector, and motion-based imagery. Lectures and critiques advance verbal communication skills to cultivate facility with the formal language of art and design, building understandings of the relationships of perception, process, and presentation.

**Repeatable:** *N*

**Minimum Credits 3 Maximum Credits 3**

## **ARTS 110 Drawing I**

This course teaches students how to represent accurately and proportionately objects, planes, and volumes through line and tone by developing hand-to-eye coordination. Basics of form development, 1, 2 and 3 point

perspective, composition, texture, and modeling through various shading techniques are explored in various exercises augmented by critiques, slide lectures, and discussions.

**Repeatable:** *N*

**Formerly** ARTS 210

**Minimum Credits 3 Maximum Credits 3**

## **ARTS 220 Painting I**

This studio course introduces the artistic medium and discipline of painting. Students learn painting materials, techniques, and its technical vocabulary through direct, hands-on experimentation with a broad range of painting media, tools, and processes (for example, oil, acrylics, ink, etc.). Studio instruction may be augmented with field trips, slide lectures, readings, critiques, and discussion that help critically, currently, and historically situate painting as a fine arts practice

**Repeatable:** *N*

**Formerly** 22-2220

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **ARTS 230 Printmaking I**

In this studio course students are exposed to a broad range of basic traditional and innovative printmaking techniques including block, etching, lithography, RISO and the use of these skills to produce independent work within the context of contemporary art and design. This course will include the use of Photoshop and Illustrator in the production of stencils. Students will be introduced to skills and techniques, experiment with the medium, and think creatively and critically. Studio instruction may be augmented with field trips, slide lectures, readings, critiques, and discussion that help critically, currently, and historically situate printmaking as a fine arts and design practice.

**Repeatable:** *N*

**Formerly** 22-2224

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **ARTS 240 Sculpture I**

This studio course introduces students to the tools, materials, and processes used in the creation of sculptural objects. With particular focus on learning by doing, projects will revolve around a variety of additive, subtractive, mold and computer methods. Studio instruction may be augmented with field trips, slide lectures, readings, critiques, and discussion that help critically, currently, and historically situate sculpture as a fine arts and design practice.

**Repeatable:** *N*

**Formerly** 22-2251

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **ARTS 250 New Genres I**

This course provides students with opportunities to explore inter- and multi-disciplinary art forms in both a studio and discussion context. Students create performance, installation, and site-specific works dealing with

issues of time and space in non-traditional ways. Video, sound, performance, site-specific installation, photography, non-material approaches, and other contemporary means of communication are possible media. Studio instruction may be augmented with field trips, slide lectures, readings, critiques, and discussion that help critically, currently, and historically situate new genre work as fine art practices.

**Repeatable:** N

**Formerly** 22-2258

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **ARTS 450 Senior Fine Arts Studio**

The Senior Fine Arts Studio provides intensive studio-centered work on a one-to-one basis with the instructor. The tutorial relationship is specifically designed for individual guidance on self-directed projects in order to help students achieve clarity of expression and further their conceptual, material, and process development. The development of sustained, self-directed studio practice is a central aspect of a professional practice. Students will meet both as a group to share goals and progress and individually with the instructor throughout the semester for intensive critique sessions. All Fine Arts BA and BFA students and BFA in Photography majors pursuing fine arts are required to take this course.

**Repeatable:** N

**Formerly** 22-4220

**Prerequisites** ARTS 110 Drawing I and ARTS 220 Painting I and ARTS 230 Printmaking I and ARTS 240 Sculpture I and ARTS 250 New Genres I or PHOT 102 Photographic Practice II

**Requirements** Senior Standing (SR) Fine Arts or Photography Majors Only (PHAR)

**Minimum Credits 3 Maximum Credits 3**

## **ARTS 463 Professional Practices in Fine Arts**

This course addresses professional issues such as portfolio preparation, proposal writing, budget preparation, approaching galleries, establishing alternative spaces, internships, residencies, and grant opportunities. Preparation for graduate school application and exhibition opportunities are central to the class.

**Repeatable:** N

**Formerly** 22-4200

**Requirements** Senior Standing (SR)

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

## **ARTH 105 Introduction to Visual Culture**

In this course, students will refine their skills of seeing, discussing, and writing about visual culture. Structured according to methodologies for visual analysis rather than chronology or artistic style, the course introduces students to critical approaches that can be applied to a wide range of images, objects and spaces. Through assignments that emphasize writing, research and presentation skills, students will explore a broad range of perspectives on visual literacy.

**Repeatable:** N

**Formerly** 22-1105

**HU DEI**

**Minimum Credits 3 Maximum Credits 3**

## **ARTH 105H Introduction to Visual Culture: Honors**

In this course, students will refine their skills of seeing, discussing, and writing about visual culture. Structured according to methodologies for visual analysis rather than chronology or artistic style, the course introduces students to critical approaches that can be applied to a wide range of images, objects, and spaces. Through assignments that emphasize writing, research, and presentation skills, students will explore a broad range of perspectives on visual literacy. This is an Honors course and in addition to any pre-requisites, students need a minimum 3.50 GPA to enroll.

**Repeatable:** *N*

**HU DEI**

**Requirements** 3.5 or Higher GPA (35GP)

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

## **ARTS 226 Color Strategies**

In this course, you will study the application and effective use of color. We will explore a range of historical and contemporary case studies, examining global and culture-specific color theory and color systems. You will utilize the knowledge and techniques covered throughout the semester in the production of a body of work related to your major area of study.

**Repeatable:** *N*

**Formerly** 22-2960

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **ARTS 231 Papermaking**

This class will qualify students in the basic techniques, materials, processes, and concepts used in the Papermaking Studio. Technique will be taught as a method of investigation and a material exploration of ideas. Projects will focus on using papermaking as an image making tool and sculptural material. Projects engaging micro-industry, environmental, and community-building models will also be considered. Students will gain skills in beating a variety of fibers, sheet forming, and other papermaking techniques.

**Repeatable:** *N*

**Formerly** 66-2100

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **ARTS 239 Artists' Books**

In this studio course you will be introduced to the tools and techniques of book construction as well as the conceptual possibilities and concerns of the book as a significant contemporary art form. You will construct a variety of blank book models, learn simple image transfer techniques, engage digital and risographic printing techniques, and produce your own artists' books. We will reflect on the artistic cultures of publication from mass produced offset runs to DIY zine cultures to one of a kind objects.

**Repeatable:** *N*

**Formerly** 22-2239

**Requirements** Sophomore Standing or Above (SO)  
**Minimum Credits 3 Maximum Credits 3**

### **ARTS 251 Digital Media**

This course investigates issues of art and technology, and introduces digital devices and software for the production of image and time-based art works. Students will extend their understanding of the Adobe Creative Suite, and the digital processes artists use to extend their art practices using contemporary tools. The course will introduce history and current theory related to digital art making, sound and video art, and their broader application in art contexts. Students may also have the opportunity to extend their digital creations into physical space.

**Repeatable:** N

**Formerly** 22-2219

**Requirements** Sophomore Standing or Above (SO)  
**Minimum Credits 3 Maximum Credits 3**

### **ARTS 299A Topics in Studio Art I:**

This rotating topics course introduces topics not addressed in the regular course offerings, and may engage new, experimental, or highly interdisciplinary approaches to art practice. This is a vital, open space for experimentation and for representing a diversity of art media, practices, and themes. Studio instruction may be augmented with field trips, slide lectures, readings, critiques, and discussions that help critically, currently, and historically situate the course topic.

**Repeatable:** Y

**Formerly** ARTS 299

**Requirements** Sophomore Standing or Above (SO)  
**Minimum Credits 3 Maximum Credits 3**

### **ARTS 299B Topics in Studio Art I:**

This rotating topics course introduces topics not addressed in the regular course offerings, and may engage new, experimental, or highly interdisciplinary approaches to art practice. This is a vital, open space for experimentation and for representing a diversity of art media, practices, and themes. Studio instruction may be augmented with field trips, slide lectures, readings, critiques, and discussions that help critically, currently, and historically situate the course topic.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)  
**Minimum Credits 3 Maximum Credits 3**

*Choose two of the following courses:*

### **ARTS 320A Painting and Drawing II:**

In this intermediate/advanced studio course students have the opportunity for a focused, in-depth engagement with painting and drawing. Students will receive advanced instruction in a more specialized area of or approach to painting and drawing practice. Studio instruction may be augmented with field trips, slide lectures, readings, critiques, and discussion that help critically, currently, and historically situate painting and drawing as fine arts practices. Topics include: Painting at Mural Scale; Painting and Projection; Painting the Figure; Storytelling; Abstraction.

**Repeatable:** Y

**Formerly** ARTS 320

**Prerequisites** ARTS 220 Painting I

**Minimum Credits** 3 **Maximum Credits** 3

### **ARTS 320B Painting and Drawing II:**

In this intermediate/advanced studio course students have the opportunity for a focused, in-depth engagement with painting and drawing. Students will receive advanced instruction in a more specialized area of or approach to painting and drawing practice. Studio instruction may be augmented with field trips, slide lectures, readings, critiques, and discussion that help critically, currently, and historically situate painting and drawing as fine arts practices. Topics include: Painting at Mural Scale; Painting and Projection; Painting the Figure; Storytelling; Abstraction.

**Repeatable:** Y

**Prerequisites** ARTS 220 Painting I

**Minimum Credits** 3 **Maximum Credits** 3

### **ARTS 331 Silkscreen**

This course will explore more intermediate and advanced level silkscreen printing techniques including cut, hand drawn and photographic stencils and printing on a variety of surfaces. Students will explore innovative and experimental fine art editioning practices in silkscreen and build a body of work that is conceptually, as well as technically, proficient.

**Repeatable:** Y

**Formerly** 22-3226

**Prerequisites** ARTS 230 Printmaking I

**Minimum Credits** 3 **Maximum Credits** 3

### **ARTS 333 Letterpress Studio**

Letterpress is the original broadcast medium: printing from movable type is a technological innovation that has had huge, far-reaching effects. Only a tiny percent of commercial printing is done using hand-set metal type anymore, but the entire discipline of typography was invented by the technological innovation of letterpress printing, and all the terms of typography have their genesis in metal, movable type. This class focuses on learning the printing techniques used in letterpress, understanding how the fundamental concepts in typography have their origins in metal type, and as opportunity to create a series of projects informed by these ideas and techniques. Students will learn letterpress printing through a series of demonstrations and studio projects.

**Repeatable:** N

**Formerly** 66-3426

**Minimum Credits** 3 **Maximum Credits** 3

### **ARTS 334 Lithography**

This course will introduce students to intermediate and more advanced lithographic processes including multi-color printing using aluminum plate and photo lithography. Students will explore innovative and experimental fine art editioning practices in lithography and build a body of work that is conceptually, as well as technically, proficient.

**Repeatable:** *N*

**Formerly** 22-3224

**Prerequisites** ARTS 230 Printmaking I

**Minimum Credits 3 Maximum Credits 3**

## **ARTS 335 Etching**

In this course, you will explore a wide range of materials and techniques used to create the linear, tonal, and photographic images of the intaglio print. Basic techniques cover line etching for precise linework, drypoint for velvety and textured lines, soft ground for both crayon-like lines and textures, aquatint for tones, and lift grounds for the quality of watercolor. Inking techniques include black-and-white and color intaglio, and may include others such as à la poupée, stenciling, and chine collé for added color and texture. All processes will be discussed and demonstrated, along with photo etching techniques. You may be producing monoprints, collagraphs, and/or carborundum prints.

**Repeatable:** *N*

**Prerequisites** ARTS 230 Printmaking I

**Minimum Credits 3 Maximum Credits 3**

## **ARTS 340A Sculpture II:**

This intermediate/advanced studio course builds on the essential knowledge and skills gained in Sculpture I and provides students the opportunity for deeper creative exploration and artistic engagement in a specific area of sculptural object making. Studio instruction may be augmented with field trips, slide lectures, readings, critiques, and discussion that help critically, currently, and historically situate sculpture as a fine arts and design practice. Topics include: Digital Fabrication; Responsive Objects; Figurative Sculpture; Woodworking.

**Repeatable:** *Y*

**Formerly** ARTS 340

**Prerequisites** ARTS 240 Sculpture I

**Minimum Credits 3 Maximum Credits 3**

## **ARTS 340B Sculpture II:**

This intermediate/advanced studio course builds on the essential knowledge and skills gained in Sculpture I and provides students the opportunity for deeper creative exploration and artistic engagement in a specific area of sculptural object making. Studio instruction may be augmented with field trips, slide lectures, readings, critiques, and discussion that help critically, currently, and historically situate sculpture as a fine arts and design practice. Topics include: Digital Fabrication; Responsive Objects; Figurative Sculpture; Woodworking.

**Repeatable:** *Y*

**Prerequisites** ARTS 240 Sculpture I

**Minimum Credits 3 Maximum Credits 3**

## **ARTS 354 Installation/Site-Specific Art**

In this studio course, students are challenged to expand their visual and conceptual vocabulary using various spatial, time-based, and site-specific approaches to the creation of new work. Research and development, execution, documentation, and presentation of projects will be supported through course

assignments. Classroom/studio activity will promote the creative process in a relationship between the artist's expression and the designated medium and site.

**Repeatable:** N

**Formerly** 22-3234

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **ARTS 356 Performance Art**

This course gives students a comprehensive introduction to the history and practice of performance art with a particular emphasis on the performative body in art since the 1960s, including experiments in live art in feminism and multiculturalism that have made particular use of performance. Students will respond to prompts to create their own performance works, which will be presented for critique. Particular emphasis will be placed on idea development and the role of the experiential in art production and reception. Various documentation strategies will be covered in the class, including photographic and video techniques.

**Repeatable:** N

**Formerly** 22-3236

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **ARTS 499A Topics in Studio Art II:**

This is an advanced and open space for specific instruction in emergent contemporary art forms and specific critical practices. Studio instruction may be augmented with field trips, slide lectures, readings, critiques, and discussion that help critically, currently, and historically situate the course topic. Rotating topics may include: Multiples and Democratized Experience; Shaping Solid Light; Art Activism Studio; Art and Archives.

**Repeatable:** Y

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **ARTS 499B Topics in Studio Art II:**

This is an advanced and open space for specific instruction in emergent contemporary art forms and specific critical practices. Studio instruction may be augmented with field trips, slide lectures, readings, critiques, and discussion that help critically, currently, and historically situate the course topic. Rotating topics may include: Multiples and Democratized Experience; Shaping Solid Light; Art Activism Studio; Art and Archives.

**Repeatable:** Y

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **Foundation Skill Electives**

*Complete 3 credits from the following courses:*

### **ARTS 113 Foundation Skill: Ideation Sketching**

This course will help students develop their visual skills through rapid sketching and ideation which helps visualize the design process. Students will be introduced to strategies for flat mapping, three dimensional object sketching, and temporal sequencing.

**Repeatable:** *N*

**Formerly** 22-1964

**Minimum Credits 1 Maximum Credits 1**

### **ARTS 120 Foundation Skill: Color Theory**

This course will focus on learning and applying color theories and systems. Students will solve color problems in traditional and digital formats.

**Repeatable:** *N*

**Formerly** 22-1965

**Minimum Credits 1 Maximum Credits 1**

### **ARTS 130 Foundation Skill: Silkscreening**

This course introduces the student to the techniques of screen printing through a series of exercises designed to integrate the core concepts of editions, stencils, photo stencils, half tones, color layers, and key plates, to produce a series of prints on paper.

**Repeatable:** *N*

**Formerly** 22-1962

**Minimum Credits 1 Maximum Credits 1**

### **ARTS 131 Foundation Skill: Stamps and Stencils**

This course introduces the student to techniques for making stamps and stencils through a series of exercises designed to integrate the core concepts of image replication, from hand-cut stamps and utility (X-Acto) knife-cut paint stencils to images that originated in software and are output via laser cutter.

**Repeatable:** *N*

**Minimum Credits 1 Maximum Credits 1**

### **ARTS 135 Foundation Skill: Papermaking**

In this course students will be introduced to the papermaking studio and learn to make pulp with a variety of plant fibers, using them in collage, lamination and simple 3-D construction methods. Additionally, students will learn the possibilities for hand papermaking as an artistic medium and in collaboration with print and book possibilities.

**Repeatable:** *N*

**Formerly** 22-1976

**Minimum Credits 1 Maximum Credits 1**

### **ARTS 141 Foundation Skill: Laser Cutter**

This course introduces students to laser cutting technology. Students use two-dimensional design skills to convert two-dimensional planar material into three-dimensional form and engage in a process that includes:

visual research, designing work in scale, manual and digital drafting using Adobe Illustrator and digital output using laser technology.

**Repeatable:** *N*

**Formerly** 22-1977

**Minimum Credits 1 Maximum Credits 1**

### **ARTS 143 Foundation Skill: Mold Making**

This course introduces students to techniques in mold making for the creation of multiples. Students will create traditional one- and two-piece molds and explore the production of multiples utilizing press molding and slip casting.

**Repeatable:** *N*

**Formerly** 22-1975

**Minimum Credits 1 Maximum Credits 1**

### **ARTS 144 Foundation Skill: Wood**

This course will introduce students to the basic properties, characteristics, sizes, and connection requirements of wood in its natural and man-modified states (lumber, plywood, etc.). Students will also learn a wide variety of basic tools to modify and manipulate this material.

**Repeatable:** *N*

**Formerly** 22-1974

**Minimum Credits 1 Maximum Credits 1**

### **ARTS 145 Foundation Skill: 3D Printing**

This course introduces students to the basics of 3D Printing technology. Students learn how to create digital models using 3D modeling tools; how to prepare those digital models for 3D printing; and how to use 3D printers to create physical versions of their digital models. Students will additionally consider uses of 3D printing in a range of creative practices.

**Repeatable:** *N*

**Minimum Credits 1 Maximum Credits 1**

### **ARTS 150 Foundation Skill: Digital Camera**

Using a digital camera with manual controls students will be introduced to the process of making correct exposures. Basic techniques such as composition, depth of field, file management and lighting will also be covered. As this is a screen-based class, students will need access to a digital Single Lens Reflex Camera (dSLR), which can be checked out from the Art & Art History Media Center for short periods of time.

**Repeatable:** *N*

**Formerly** 22-1967

**Minimum Credits 1 Maximum Credits 1**

### **ARTS 151 Foundation Skill: Web Design**

This course introduces students to the use of HTML (hyper text markup language) and CCS (cascading style sheets) for web design.

**Repeatable:** *N*

**Formerly** 22-1961

**Minimum Credits 1 Maximum Credits 1**

### **ARTS 152 Foundation Skill: InDesign**

This course will introduce students to the basics of Adobe Indesign software, a layout and design tool used to create publications such as graphic novels and page layouts for portfolio presentations.

**Repeatable:** *N*

**Formerly** 22-1968

**Minimum Credits 1 Maximum Credits 1**

### **ARTS 153 Foundation Skill: Photoshop**

This class explores the basics of Adobe Photoshop, a software used for image editing and compositing. Image selection, layers, resolution, color correction, and image repair are among the topics covered.

**Repeatable:** *N*

**Formerly** 22-1969

**Minimum Credits 1 Maximum Credits 1**

### **ARTS 154 Foundation Skill: Illustrator**

This course introduces students to Adobe Illustrator, a digital application used to create illustrations and technical drawings. The creation of vector paths, as well as the application of strokes and fills, will be demonstrated. Students will explore use gradients, blends, and effects.

**Repeatable:** *N*

**Formerly** 22-1970

**Minimum Credits 1 Maximum Credits 1**

### **ARTS 155 Foundation Skill: Digital Video Editing**

In this one-credit course students use editing software like Adobe Premier to create their own short, polished videos. Technical topics include media importing, digital file formats, effects, color correction, keyframing, compression schemes, export, and more. Lectures and screenings will touch upon essential editing techniques to demonstrate the "why" in addition to the "how."

**Repeatable:** *Y*

**Formerly** 22-1275

**Minimum Credits 1 Maximum Credits 1**

### **ARTS 199A Topics in Foundation Skill:**

This course will focus on a specific foundational topic in art and design. The course will cover different material that might not be included in the permanent course offering.

**Repeatable:** Y

**Formerly** ARTS 199

**Minimum Credits 1 Maximum Credits 1**

### **ARTS 199B Topics in Foundation Skill:**

This course will focus on a specific foundational topic in art and design. The course will cover different material that might not be included in the permanent course offering.

**Repeatable:** Y

**Minimum Credits 1 Maximum Credits 1**

### **ARTS 199C Topics in Foundation Skill:**

This course will focus on a specific foundational topic in art and design. The course will cover different material that might not be included in the permanent course offering.

**Repeatable:** Y

**Minimum Credits 1 Maximum Credits 1**

## **Game Art, BA**

The Bachelor of Arts in Game Art provides a fundamental introduction to game-oriented computer art and animation concepts to students with little or no previous experience. The curriculum includes courses in character and environment visualization, computer generated character modeling and digital sculpting, environment modeling, level design and motion capture animation for game content. Students are expected to emerge with an understanding of the game industry's workflow techniques, concepts and strategy for designing and modeling 3D characters and environments, the process of directing, capturing and editing motion capture performances, and mastering the pipeline of state-of-the-art game engines.

As a result of successfully completing program requirements, students should be able to:

- use a variety of workflows and software packages to create sophisticated visual concepts and game/simulation assets, including characters, environments, props and visual effects, and integrate those assets into a game engine;
- implement a wide range of 2D and 3D visual styles to realize a strong creative vision and design for a game or simulation;
- incorporate feedback and art direction to improve game and simulations projects;
- utilize research skills and strategies to conceptualize and produce game art assets for games and simulations;
- use communication and negotiation skills to facilitate professional and productive collaboration between artists or within an interdisciplinary game design team;
- apply knowledge of contemporary art, design and media disciplines to generate creative solutions for games and simulations; and
- create professional digital portfolios and related materials in preparation for careers or postgraduate study as game artists.

## PROGRAM REQUIREMENTS - 54 credits required

### **ANIM 150 Computer Animation: Keyframing I**

This course establishes a beginning understanding of computer-generated (CG) keyframing via object and camera keyframing using industry standard software application. Further animation assignments focus on an intermediate level of character animation through a provided CG character and rig.

**Repeatable:** *N*

**Formerly** 26-1015

**Minimum Credits 3 Maximum Credits 3**

### **GAME 105 Game Culture**

Course explores the increasing popularity of games within today's culture, which necessitates analysis of how games are impacted by social and ideological forces and influence them in turn. Questions like Why do we play and How do we play differently are explored, with many others, as students are guided through topics such as role-playing and identity, ethics, group behavior, competition, gender, race, and aesthetics in modern (and historical) games.

**Repeatable:** *N*

**Formerly** 36-1100

**Prerequisites** ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

### **GAME 110 Introduction to Game Development**

In this course, students learn about and practice foundational skills in the interdisciplinary field of game development, including the areas of game design, game art, programming, sound design UI/UX, and project management. Additionally, students are introduced to the business and career requirements of the game industry. They will learn the personal management skills of a developer. They will identify the skills relevant to the game development discipline of their choice and devise a plan for demonstrating these skills in a professional portfolio. Throughout the course, students will build a prototype digital game from their design, giving them exposure to all aspects of game development and the production process.

**Repeatable:** *N*

**Formerly** 36-1500

**Minimum Credits 3 Maximum Credits 3**

### **GAME 201 Computer Animation: Modeling**

This course covers basic principles and language of three-dimensional (3D) modeling and animation utilizing industry standard software. Lectures cover the language and applications of these tools for use in the game, animation and film industries. By the completion of this course, students construct a series of sophisticated beginner level character and environment model 3D assets for their 3D portfolio. This course is suitable for students with little to no prior experience in 3D modeling or digital design.

**Repeatable:** *N*

**Formerly** 36-2370

**Minimum Credits** 3 **Maximum Credits** 3

### **GAME 205 2D Art for Games**

This course introduces students to the process of game art creation; brainstorming and conceptualizing, iterative design, interface design, pitching ideas, and documenting production. Students will complete the course with a portfolio of work that includes research, documentation, sketches, storyboards, interface designs, and formalized character, prop, and background sheets.

**Repeatable:** N

**Formerly** 36-2350

**Prerequisites** INMD 120 Digital Image Design and GAME 110 Introduction to Game Development

**Minimum Credits** 3 **Maximum Credits** 3

### **GAME 210 2D Motion for Games**

This course teaches students the fundamentals of traditional 2D animation. The twelve principles of animation will be used to help students develop strong 2D and 3D animation skills. Assignments such as bouncing ball, pendulum and walk cycles will be taught. Industry pipelines and techniques are taught through lectures, demos, and weekly assignments.

**Repeatable:** N

**Formerly** 36-2360

**Prerequisites** GAME 205 2D Art for Games or INMD 120 Digital Image Design and GAME 110 Introduction to Game Development

**Minimum Credits** 3 **Maximum Credits** 3

### **GAME 215 Character Visualization for Games**

In this course students are guided through the character concept creation process. Students begin by learning to effectively utilize complex and abstract geometric forms to communicate ideas. Students then expand their understanding value, shadows, shading, perspective, and composition in the creation of compelling character concept sheets. Lectures and drawing demos support in-depth creative projects that culminate into a final presentation. This course is designed to assist in the transition between foundations of drawing to methods of communicating character concepts.

**Repeatable:** N

**Formerly** 36-2380

**Prerequisites** GAME 205 2D Art for Games and GAME 210 2D Motion for Games

**Minimum Credits** 3 **Maximum Credits** 3

### **GAME 330 Advanced 3D for Games**

This course focuses on how to work between 3D applications and a game engines. Through this course, students will learn how to create high quality 3D assets and implement them into various game engines. Students will learn how to use basic scripting techniques for implementation and polish in engine. Students will work with engine specific visual effects and physics to create immersive and convincing environments using game engines.

**Repeatable:** Y

**Formerly** 36-3302

**Prerequisites** GAME 210 2D Motion for Games

**Minimum Credits 3 Maximum Credits 3**

### **GAME 337 3D Digital Sculpting**

This course focuses on skills, techniques and concepts that pertain to 3D digital sculpting. In this class students learn how to concept, produce and present high quality 3d models created using specialized digital sculpting software.

**Repeatable:** Y

**Formerly** 36-3350

**Prerequisites** GAME 201 Computer Animation: Modeling

**Minimum Credits 3 Maximum Credits 3**

### **GAME 436 Advanced 3D Digital Sculpting**

Digital sculpting is a cornerstone of 3D content creation and concept art creation for games. This course serves as a way for students to create more thoughtfully considered content using digital sculpting processes. Students will learn how to sculpt a series of 3D concepts and then develop a concept into a fully realized, hyper realistic piece of content for a game. This goal will be achieved by using more involved retopology and normal mapping techniques to translate high resolution from high polygon meshes to optimized, low polygon game meshes that can be translated to a game engine.

**Repeatable:** N

**Formerly** 36-3750

**Prerequisites** GAME 337 3D Digital Sculpting

**Minimum Credits 3 Maximum Credits 3**

### **INMD 102 Fundamentals of Interaction**

Contemporary interactive media share a common computational canvas. This course explores technology underlying these media, and introduces students interested in programming and interactive media development to foundational theories and practices in interface design and development. Interaction principles will be explored through practical assignments; sketching, prototyping, and design are essential parts of the development process. Students complete the course with an understanding of participant-centered design, usability, and foundational development terms and concepts.

**Repeatable:** N

**Formerly** 36-1010

**Minimum Credits 3 Maximum Credits 3**

### **INMD 120 Digital Image Design**

Technical, conceptual and aesthetic skills and concepts will inform an introductory body of work using imaging applications. Idea development, research, vocabulary and critical analysis skills will enhance development of individual voice. This fundamental media art course will also focus on visual design theory, gestalt principles and semiotics.

**Repeatable:** N

**Formerly** 36-1300

**Minimum Credits 3 Maximum Credits 3**

## **PROG 101 Programming I**

Learn programming concepts as you problem-solve with code, develop algorithms, and create object-oriented applications. Topics covered throughout the semester include data structures, repetition, sequence control structures, program design, testing, and programming best practices.

**Repeatable:** N

**Formerly** 36-1501

**Minimum Credits 3 Maximum Credits 3**

*Choose two of the following courses:*

## **ANIM 351 Environmental Design & Modeling**

Course emphasizes the design and technical ability needed to model non-character 3-D objects. Students will be introduced to level design, industrial design, and architectural terms and concepts. Using 3-D software, students will design and build environments, set dressing, and vehicles. Level of detail exercises will introduce the concept of polygon and image budget creation. Exercises in stand-alone software packages will teach advanced texture/mapping.

**Repeatable:** Y

**Formerly** 26-3082

**Prerequisites** GAME 201 Computer Animation: Modeling or ANIM 240 Computer Animation

**Minimum Credits 3 Maximum Credits 3**

## **ANIM 352 Character Design and Modeling**

Course emphasizes the design and technical ability needed to model 3-D characters. Students will be introduced to design, sculpting, and anatomical terms and concepts. Using 3-D software, students will design and build characters and other organic models. Level of detail exercises will introduce the concept of polygon and image budgets. Exercises in stand-alone software packages will teach advanced texture mapping.

**Repeatable:** Y

**Formerly** 26-3086

**Prerequisites** GAME 201 Computer Animation: Modeling or ANIM 240 Computer Animation

**Minimum Credits 3 Maximum Credits 3**

## **ANIM 451 Advanced Character & Environmental Design**

Course continues to refine and advance the design and technical abilities needed to model 3D characters and non-character 3D objects. Using industry standard software for 3D modeling and advanced texture-mapping, students will design and build either characters or environments based on industry standards.

**Repeatable:** N

**Formerly** 26-4089

**Prerequisites** ANIM 352 Character Design and Modeling or ANIM 351 Environmental Design & Modeling

**Minimum Credits 3 Maximum Credits 3**

## **GAME 335 Shading and Surfacing for Games**

In this course, students will learn the workflows necessary to create materials, textures, and shaders for physically based render systems. Students will learn how to edit shaders and materials through the creation and editing of textures in an image-editing program. Students will also be taught the theory behind physically based rendering and how it relates to rendering objects in real time through game engine technology.

**Repeatable:** N

**Formerly** 36-3315

**Prerequisites** GAME 201 Computer Animation: Modeling

**Minimum Credits 3 Maximum Credits 3**

## Capstone

*Choose one of the following Capstone options:*

**Option A:**

### **GAME 371 Game Level Production**

In this production course, students will work on building a game level in phases from design to prototype to deployment. They will work to understand how space is used in a game and design the blocking and scale of elements in a game level. Students will use design pre-production techniques that optimize game production workflows. They will be introduced to theories of personal leadership using best social practices including decision making, emotional mastery, and normative professional behavior. They will learn best team practices used in the video game industry. The game level will be built using art and game editors suitable for use in their portfolio and capstone courses.

**Repeatable:** Y

**Formerly** GAME 470

**Prerequisites** ANIM 240 Computer Animation or GAME 225 Game Engine Scripting or PROG 310 Game Programming I

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

**Option B:**

### **GAME 480 Game Studio I**

Course is the first stage of the senior/capstone experience of the Game Design/Programming/Art Majors. It represents the pre-production stage of the capstone project and is required for all students in Game majors. Students are exposed to best team practices and overall project management, art, sound, programming, and design pre-production techniques and requirements. They also participate in finalizing plans for launching their career in the context of the team. The demo games will be presented in a professional public context.

**Repeatable:** N

**Formerly** 36-3997

**Prerequisites** PROG 420 C++ Programming II or GAME 370 Studio Collaboration or GAME 330 Advanced 3D for Games

**Requirements** Senior Standing (SR)

**Minimum Credits 3 Maximum Credits 3**

### **GAME 485 Game Studio II**

Complete a substantial game with market quality content in this intense capstone experience. You'll use industry best practices and tools as you complete the project started in Game Studio I. Several disciplines (including game design, programming, game art, animation, and sound) work together as Yoyu Studio, and operate as a "team of teams".

**Repeatable:** Y

**Formerly** 36-3998

**Prerequisites** GAME 480 Game Studio I

**Minimum Credits** 6 **Maximum Credits** 6

## Game Design, BA

Game design is a profession that is able to place students in the game industry and other related fields that need system architects for technical and artistic simulations. Students in the Game Design major start learning design thinking skills to creatively solve problems where there are many possible answers. With their design skills, they will be able to apply design patterns at a system level to architect solutions based on solid models of the problem domain. While these skills are applied to entertainment games, these skills will have wide application in other fields where simulation is a critical 21st century platform.

Students in the Game Design major learn to be a developer of game assets. They can learn to be a developer in one of four specialties: 1) programming 2) art 3) user interface / user experience (UI/UX) and 4) sound / music. These skills will provide a solid foundation of skills to prepare them for their next step in their career.

Game design is inherently collaborative. Thus, the program will develop strong personal leadership qualities in the students. They will achieve their personal leadership goals by engaging in multiple courses that require production of a game or other production related artifact. Their development will be guided by indexing against best practices in communication, social emotional mastery, conflict resolution, negotiation, personal and team organization, and values of responsibility, humility and integrity. As game design is inherently technical and changes rapidly, they will be guided to achieve a confident generative work ethic where they will learn how to learn in a variety of learning spaces. They will learn models of how to make a decision and what it means to make a tasteful game decision. Finally, they will be trained in cultural issues and virtues to reflect Columbia College's mission of guiding them to truly be "authors" of the future games industry.

As a result of successfully completing program requirements, students should be able to:

- demonstrate mastery of best practices in personal leadership, including organization, communication, coordination, conflict resolution, and social emotional learning;
- apply game design patterns, techniques, and systems thinking to create game experiences that are engaging and immersive;
- create professional digital portfolios and related materials in preparation for careers or postgraduate study as game developers as an expression of their game design style;
- utilize critical thinking, analytic skills and domain-specific knowledge to construct original game and simulation designs, as well as deconstruct, analyze, and evaluate existing works;
- use effective game production techniques from a variety of methodologies to produce a well-planned and documented project;
- demonstrate high-level game engine scripting skills, user interfaces, data tracking, level design and game flow management to produce games;
- integrate theory, analysis and production techniques in the creation of games for entertainment, learning, social connection and other purposes; and

- contribute to the creation of games while working in interdisciplinary teams using appropriate game development techniques based on an understanding of multiple design methodologies and strategies.

## PROGRAM REQUIREMENTS - 48-49 credits required

### **GAME 105 Game Culture**

Course explores the increasing popularity of games within today's culture, which necessitates analysis of how games are impacted by social and ideological forces and influence them in turn. Questions like Why do we play and How do we play differently are explored, with many others, as students are guided through topics such as role-playing and identity, ethics, group behavior, competition, gender, race, and aesthetics in modern (and historical) games.

**Repeatable:** *N*

**Formerly** 36-1100

**Prerequisites** ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

### **GAME 110 Introduction to Game Development**

In this course, students learn about and practice foundational skills in the interdisciplinary field of game development, including the areas of game design, game art, programming, sound design UI/UX, and project management. Additionally, students are introduced to the business and career requirements of the game industry. They will learn the personal management skills of a developer. They will identify the skills relevant to the game development discipline of their choice and devise a plan for demonstrating these skills in a professional portfolio. Throughout the course, students will build a prototype digital game from their design, giving them exposure to all aspects of game development and the production process.

**Repeatable:** *N*

**Formerly** 36-1500

**Minimum Credits 3 Maximum Credits 3**

### **GAME 225 Game Engine Scripting**

Course is a production-oriented class focusing on applied game design and development, utilizing existing game production software tools and engines. Students learn to use asset management software to integrate a variety of media and asset types from multiple sources. The course also emphasizes utilizing the scripting elements of the game engine to create and refine game world events related to story, gameplay, and multimedia presentation. Time is also spent utilizing these scripting elements to create computer-controlled characters that display meaningful character behaviors and artificial intelligence, resulting in the appearance of personality.

**Repeatable:** *N*

**Formerly** 36-2510

**Prerequisites** GAME 110 Introduction to Game Development

**Minimum Credits 3 Maximum Credits 3**

### **INMD 102 Fundamentals of Interaction**

Contemporary interactive media share a common computational canvas. This course explores technology underlying these media, and introduces students interested in programming and interactive media development to foundational theories and practices in interface design and development. Interaction principles will be explored through practical assignments; sketching, prototyping, and design are essential parts of the development process. Students complete the course with an understanding of participant-centered design, usability, and foundational development terms and concepts.

**Repeatable:** *N*

**Formerly** 36-1010

**Minimum Credits 3 Maximum Credits 3**

## **INMD 240 Story Development for Interactive Media**

The increasing impact of interaction on the narrative (stories) told in today and tomorrow's educational and entertainment media requires a different perspective on story development. This class begins with an overview of the area and its history from the writer's perspective, and then moves on to review and analyze common interactive structures and narrative requirements. Students are also exposed to the basic types of interactive narrative and media being created today, and conceptualize and develop their own interactive narrative projects.

**Repeatable:** *N*

**Formerly** GAME 260

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **PROG 101 Programming I**

Learn programming concepts as you problem-solve with code, develop algorithms, and create object-oriented applications. Topics covered throughout the semester include data structures, repetition, sequence control structures, program design, testing, and programming best practices.

**Repeatable:** *N*

**Formerly** 36-1501

**Minimum Credits 3 Maximum Credits 3**

## **PROG 201 Programming II**

Create applications utilizing object-oriented, event-driven strategies. Design principles such as modularity and abstraction, and object-oriented principles such as encapsulation, inheritance, and polymorphism are covered throughout the semester as you build several projects for your portfolio.

**Repeatable:** *N*

**Formerly** 36-2600

**Prerequisites** PROG 101 Programming I

**Minimum Credits 3 Maximum Credits 3**

## **Capstone**

## **GAME 371 Game Level Production**

In this production course, students will work on building a game level in phases from design to prototype to deployment. They will work to understand how space is used in a game and design the blocking and scale of elements in a game level. Students will use design pre-production techniques that optimize game production workflows. They will be introduced to theories of personal leadership using best social practices including decision making, emotional mastery, and normative professional behavior. They will learn best team practices used in the video game industry. The game level will be built using art and game editors suitable for use in their portfolio and capstone courses.

**Repeatable:** Y

**Formerly** GAME 470

**Prerequisites** ANIM 240 Computer Animation or GAME 225 Game Engine Scripting or PROG 310 Game Programming I

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **GAME 480 Game Studio I**

Course is the first stage of the senior/capstone experience of the Game Design/Programming/Art Majors. It represents the pre-production stage of the capstone project and is required for all students in Game majors. Students are exposed to best team practices and overall project management, art, sound, programming, and design pre-production techniques and requirements. They also participate in finalizing plans for launching their career in the context of the team. The demo games will be presented in a professional public context.

**Repeatable:** N

**Formerly** 36-3997

**Prerequisites** PROG 420 C++ Programming II or GAME 370 Studio Collaboration or GAME 330 Advanced 3D for Games

**Requirements** Senior Standing (SR)

**Minimum Credits 3 Maximum Credits 3**

## **GAME 485 Game Studio II**

Complete a substantial game with market quality content in this intense capstone experience. You'll use industry best practices and tools as you complete the project started in Game Studio I. Several disciplines (including game design, programming, game art, animation, and sound) work together as Yoyu Studio, and operate as a "team of teams".

**Repeatable:** Y

**Formerly** 36-3998

**Prerequisites** GAME 480 Game Studio I

**Minimum Credits 6 Maximum Credits 6**

## **CONCENTRATIONS**

### **Game Development**

#### **GAME 220 Simulation and Serious Games**

Course introduces the students to the concepts of simulation design and develops the student's ability to analyze a realistic process or environment in terms of the elements within each that lend themselves to

modeling, interaction, and play. Though games are traditionally viewed as being for fun, there exists a significant potential for using game-style presentation and techniques for realistic purposes, so-called non-entertainment serious games. The designer's practical skills develop through the use of a basic scripting language and generally available interactive authoring environments and design tools.

**Repeatable:** *N*

**Formerly** 36-2500

**Prerequisites** GAME 110 Introduction to Game Development and PROG 201 Programming II

**Minimum Credits 3 Maximum Credits 3**

## **GAME 236 Game Design I**

Course begins the process of developing a suite of design skills. Design thinking will be defined as a process where many solutions are simultaneously possible. They will learn basics of game theory, mechanism design, and play theory. They will learn gameplay design patterns which are considered best practice. They use and develop skills such as sketching, acting, paper prototyping, digital prototyping, etc. They will begin to identify their own personal style of game design, such as narrative design, strategy design, etc. They will produce a substantial game design and prototype and document as necessary.

**Repeatable:** *N*

**Formerly** 36-2520

**Prerequisites** GAME 110 Introduction to Game Development

**Minimum Credits 3 Maximum Credits 3**

## **GAME 336 Game Design II**

Course furthers the student's ability to develop games using a real-time engine and game development system. Course gives the designer the opportunity to develop derived game levels and content within already existing game platforms. The course surveys games that will impact their game design process and reflect on themes of pacing, level design, encounters, etc. They customize game components such as game feel, game control schemes, feedback, etc. They will make a series of gameplay examples which demonstrates their mastery of creating game content.

**Repeatable:** *N*

**Formerly** 36-2530

**Prerequisites** GAME 236 Game Design I

**Minimum Credits 3 Maximum Credits 3**

## **GAME 345 Advanced Game Scripting and Environments**

This course builds on the gameplay scripting practices developed in Game Engine Scripting. They will learn confidence in developing 2D and 3D games, utilizing their own original, functional script elements and stock game assets and environments. Students learn programming design patterns and practice version control workflows with branches and code review. They will learn the basics of technical leadership in the context of game development. Using these skills, students create a new game project with an industry standard game engine.

**Repeatable:** *N*

**Formerly** 36-3510

**Prerequisites** GAME 225 Game Engine Scripting

**Minimum Credits 3 Maximum Credits 3**

## **GAME 370 Studio Collaboration**

Students in Studio Collaboration act effectively as interns to the Game Studio 2 course, which is the senior capstone final class. Students will acquire the skills of Quality Assurance and Testing. They will continue to grow their personal leadership and social emotional skills such as communication, negotiation, coordination, and professionalism. They will learn to model the best practice software team processes such as Agile/Scrum. Finally they will begin to prototype their ideas for their Game Studio course.

**Repeatable:** *N*

**Formerly** 36-3650

**Prerequisites** GAME 371 Game Level Production

**Minimum Credits 3 Maximum Credits 3**

## **Game Sound**

### **AUDI 121 Fundamentals of Audio Production**

Course introduces students to basic theories and techniques of recording, editing, and mixing. Instruction covers fundamentals of microphone usage, signal flow, and non-linear digital recording and editing. Course is taught in a classroom laboratory where lectures and labs focus on the production of short-form audio works of voice, music, and sound effects to develop and improve engineering and production skills.

**Repeatable:** *N*

**Formerly** 43-1115

**Minimum Credits 3 Maximum Credits 3**

### **GAME 140 Sound for Interaction**

This course provides the foundation for designing, programming and critiquing interactive sound environments. Audio programming environments are introduced to facilitate the production of generative, responsive and interactive sound projects. Theories of acoustic, psychoacoustics as well as audio recording and production techniques are presented and applied in the context of interactive sound. Approaches to creating images and narratives through sound without the support of visuals is emphasized. Film, website, game and animation audio is analyzed alongside audio only works for impact, technique, structure and effectiveness.

**Repeatable:** *N*

**Formerly** 36-1400

**Prerequisites** ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

### **GAME 235 Sound and Music for Interactive Visual Media**

This course introduces students to the psychological and technical aspects of applying sound and music to interactive visual media. Students work to develop their skills with tools for non-linear editing, the production of interactive sound environments (sound effects and musical tracks) and incorporating sound into interactive visual media. Works from a variety of interactive media including Games, web, installations and performance are analyzed and discussed in terms of aesthetic quality and technical implementation.

**Repeatable:** *N*

**Formerly** 36-2610

**Prerequisites** GAME 140 Sound for Interaction

**Minimum Credits** 3 **Maximum Credits** 3

## **GAME 240 Sound Design for Games I**

This course allows the student to actively implement, design, and control the audio assets in a game. Open source game engines and game editors are widely used in this course to familiarize students with the production and creative demands that will be required of them. Technique, production, and creativity are fostered in texts and lectures throughout the course. Sound libraries are the source of much of the raw audio for project work.

**Repeatable:** *Y*

**Formerly** 36-2400

**Prerequisites** GAME 110 Introduction to Game Development and GAME 235 Sound and Music for Interactive Visual Media

**Minimum Credits** 3 **Maximum Credits** 3

## **GAME 340 Sound Design for Games II**

Course follows on the first section by introducing more effective means of producing quality work. This is achieved through the use of original recordings and the implementation of these recordings into the game environment. A completed game level will be completed by the end of the semester.

**Repeatable:** *N*

**Formerly** 36-3400

**Prerequisites** GAME 240 Sound Design for Games I

**Minimum Credits** 3 **Maximum Credits** 3

## **GAME 440 Game Audio Studio**

This course is the audio team management companion course to the senior year capstone classes Indie Team Game Studio and Large Team Game Studio. This course explores audio team leadership, administration, and cross-team communication with regard to the scheduling and implementation of audio production tasks related to the senior capstone project's communication.

**Repeatable:** *N*

**Formerly** 36-3800

**Prerequisites** GAME 475 Indie Team Game Studio or GAME 485 Game Studio II

**Requirements** Permission Required (DP)

**Minimum Credits** 1 **Maximum Credits** 1

## **Graphic Design, BA**

The Bachelor of Arts in Graphic Design program seeks to provide students an education in various aspects of visual communications, while encouraging them to experience other creative fields. Students should be able to create and develop visual responses to communication problems through an understanding of typography, composition, aesthetics, and construction of meaningful design solutions. Coursework introduces opportunities to identify communications problems, research, generate and analyze multiple

solutions, and evaluate potential outcomes. Students may focus on graphic design in the context of a broader program of general studies, choosing to pursue a minor or a double major if appropriate.

Students may, if desired, choose an additional concentration in Publication Design or Web Design.

As a result of successfully completing program requirements, students should be able to:

- describe, analyze, and interpret visual communications within social, historical and theoretical contexts;
- utilize software for print, web, and new media and gain the ability to seek out new uses for emerging technologies;
- use developed skills in typography, layout, and information design to create clear and dynamic visual communication solutions; and
- apply primary and secondary research methods in the conceptualization and solution of design problems.

A grade of C or better is required in all major coursework.

For students who have already earned a Bachelor's degree in another field, the Second Bachelor of Arts in Graphic Design is available.

## PROGRAM REQUIREMENTS - 48 credits required

### **ARTH 225 History of Communication Design**

This course introduces students to the history of visual communication, including text and image. Lectures, slides, and discussions focus on the work of important practitioners in the field and on the historical and cultural significance of design, technology, and innovation. Materials in this course are especially relevant to the fields of graphic design, advertising, and illustration, and may also be of interest to students of photography, journalism, and the history and criticism of graphic design.

**Repeatable:** *N*

**Formerly** 22-2170

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **ARTS 105 Foundation Studio**

Foundation Studio teaches students how to solve art and design problems. It introduces critical strategies common to major areas of study offered within the departments of Art and Art History and Design, but is also applicable to many other fields in the creative sphere. Students are exposed to a diversity of materials and methods, and are encouraged to develop their own unique solutions through experimentation and collaboration. Assuming the role of problem-solver, students work on increasingly complex projects that culminate in a formalized demonstration of the ability to forge their own creative solutions.

**Repeatable:** *N*

**Formerly** 22-1925

**Minimum Credits 3 Maximum Credits 3**

### **ARTS 106 Fundamentals of Visual Design**

This course introduces students to elements and principles of visual design. While handling digital media through the use of industry-standard software (for example, Photoshop, Illustrator, and other Adobe Creative

Suite programs), students investigate connections between formal analysis, concept, and ideas in pixel, vector, and motion-based imagery. Lectures and critiques advance verbal communication skills to cultivate facility with the formal language of art and design, building understandings of the relationships of perception, process, and presentation.

**Repeatable:** *N*

**Minimum Credits 3 Maximum Credits 3**

## **ARTS 110 Drawing I**

This course teaches students how to represent accurately and proportionately objects, planes, and volumes through line and tone by developing hand-to-eye coordination. Basics of form development, 1, 2 and 3 point perspective, composition, texture, and modeling through various shading techniques are explored in various exercises augmented by critiques, slide lectures, and discussions.

**Repeatable:** *N*

**Formerly** ARTS 210

**Minimum Credits 3 Maximum Credits 3**

## **DSGN 110 Design Thinking**

This course introduces design thinking, and its theories and methods that are empathetic, human-centered, tolerant of ambiguity, and action-oriented. Design thinking is a creative, innovative process to identify and solve complex problems. In this course, students participate in a series of exercises and project challenges that are resolved using a holistic design thinking process.

**Repeatable:** *N*

**Minimum Credits 3 Maximum Credits 3**

## **DSGN 350 Portfolio**

Portfolio is a focal course designed to utilize work from other required courses within a student's major. Students explore concepts and professional techniques to develop, document, and curate a body of work for different audiences (think entering the job market), demonstrating a range of work, conceptual sophistication and technical proficiency. The course will allow students to demonstrate professionalism, verbal skills, and conceptual and critical thinking, while communicating a personal creative story in a compelling manner. Topics include archiving and curating a sequence, researching a target market, and self-branding.

**Repeatable:** *N*

**Formerly** 21-4385

**Requirements** Junior Standing or Above (JR) Design Majors Only (4DSG)

**Minimum Credits 3 Maximum Credits 3**

## **GRDE 136 Design Lab**

This course covers digital typesetting, layout, and image editing techniques for graphic design, illustration, and advertising. Topics covered include digital document construction and layout, typography formatting and specification, digital image editing, and application.

**Repeatable:** *N*

**Formerly** 21-1320

**Minimum Credits 3 Maximum Credits 3**

## **GRDE 231 Graphic Design I: Form and Structure**

As the basis for creating well-structured design outcomes, students in this course are provided opportunities to learn the basics of creating graphic design using the principles of form and structure. This course explores how graphic content informs the structure of visual compositions and client based outcomes. Instruction will engage students in developing conceptual thinking and problem-solving skills; observational and presentation skill; and knowledge of basic typography and color theory.

**Repeatable:** N

**Formerly** 21-2330

**Prerequisites** ARTS 105 Foundation Studio and GRDE 136 Design Lab or 22 1920 Making 2 and GRDE 136 Design Lab

**Minimum Credits** 3 **Maximum Credits** 3

## **GRDE 232 Graphic Design II: Semiotics and Form**

Graphic design as a discipline is highly focused on creating graphic language. This language helps to organize information and to tell a brand story through consistent use of symbols. In this course, concepts will be synthesized into graphic form by use of symbology and typography as the major components in developing a graphic language as essential to brand building. Students will explore basic concepts of symbology as it pertains to basic graphic structure and universal communication. Outcomes will include 2-D and 3-D design solutions.

**Repeatable:** N

**Formerly** 21-2350

**Prerequisites** GRDE 231 Graphic Design I: Form and Structure

**Concurrent Requisite** GRDE 238 Typography for Graphic Design

**Minimum Credits** 3 **Maximum Credits** 3

## **GRDE 238 Typography for Graphic Design**

This course examines the historical, aesthetic, and cultural development of typographic forms from their beginnings in 1455 to the 21st century. Projects involve the examination of historical styles and theories of type design and typographic layouts, and their influence on modern and contemporary typography.

**Repeatable:** N

**Formerly** 21-2340

**Prerequisites** GRDE 231 Graphic Design I: Form and Structure

**Minimum Credits** 3 **Maximum Credits** 3

## **GRDE 240 Website Design I**

This course covers website design topics, including hypertext, graphic style information, graphic file formats, digital imaging, and basic computer-user interface issues. Course assignments include design and execution of HTML documents and graphics.

**Repeatable:** N

**Formerly** 21-2375

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits** 3 **Maximum Credits** 3

*Choose one of the following courses:*

## **ARTH 105 Introduction to Visual Culture**

In this course, students will refine their skills of seeing, discussing, and writing about visual culture. Structured according to methodologies for visual analysis rather than chronology or artistic style, the course introduces students to critical approaches that can be applied to a wide range of images, objects and spaces. Through assignments that emphasize writing, research and presentation skills, students will explore a broad range of perspectives on visual literacy.

**Repeatable:** N

**Formerly** 22-1105

**HU DEI**

**Minimum Credits 3 Maximum Credits 3**

## **ARTH 105H Introduction to Visual Culture: Honors**

In this course, students will refine their skills of seeing, discussing, and writing about visual culture. Structured according to methodologies for visual analysis rather than chronology or artistic style, the course introduces students to critical approaches that can be applied to a wide range of images, objects, and spaces. Through assignments that emphasize writing, research, and presentation skills, students will explore a broad range of perspectives on visual literacy. This is an Honors course and in addition to any pre-requisites, students need a minimum 3.50 GPA to enroll.

**Repeatable:** N

**HU DEI**

**Requirements** 3.5 or Higher GPA (35GP)

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

## **COLL 200 Internship**

This course allows students to take a valuable internship experience in their desired industry. Each position is vetted and approved by Career Center to ensure that it is an educational opportunity that will fulfill the learning objectives of the course. Participating in an internship allows the student to gain hands-on experience and explore career interests while applying knowledge and skills learned in the classroom to a work setting. The experience also helps students gain a clearer sense of what they still need to learn and provides an opportunity to build professional networks. Students are responsible for securing their own internships and having them approved prior to registering for this course. Please contact the Career Center for assistance and resources.

**Repeatable:** Y

**Formerly** 99-2000

**Requirements** Permission Required (DP)

**Minimum Credits 0 Maximum Credits 0**

## **COLL 210 Internship**

This course allows students to take a valuable internship experience in their desired industry for academic credit. Each position is vetted and approved by Career Center to ensure that it is an educational opportunity that will fulfill the learning objectives of the course. Participating in an internship allows the student to gain hands-on experience and explore career interests while applying knowledge and skills learned in the classroom to a work setting. The experience also helps students gain a clearer sense of what they still need

to learn and provides an opportunity to build professional networks. Students are responsible for securing their own internships and having them approved prior to registering for this course. Please contact the Career Center for assistance and resources.

**Repeatable:** Y

**Formerly** 99-2100

**Requirements** Permission Required (DP)

**Minimum Credits 1 Maximum Credits 1**

## **COLL 230 Internship: Professionalism and Creativity**

This course allows students to take a valuable internship experience in their desired industry for academic credit. Each position is vetted and approved by Career Center to ensure that it is an educational opportunity that will fulfill the learning objectives of the course. Participating in an internship allows students to gain hands-on experience and explore career interests while applying knowledge and skills learned in the classroom to a work setting. The online, academic component of this internship fosters student understanding of how organizations operate and provides for structured reflection on their experiences and assessment of their knowledge and skills. Students are responsible for securing their own internships and should contact Career Center for assistance and resources to identify and apply for opportunities of interest.

**Repeatable:** Y

**Formerly** 99-2300

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

## **CONCENTRATIONS**

### **General Concentration**

**Required for the Concentration:**

### **GRDE 305 Publication Design**

This course examines editorial operations, production procedures, and the roles of the art director and designer to familiarize students with theoretical and practical concerns of magazine and trade publication design and internet publishing. The course content emphasizes the identity of current publications as a result of design format and grid structure.

**Repeatable:** N

**Formerly** 21-3345

**Prerequisites** GRDE 238 Typography for Graphic Design and GRDE 232 Graphic Design II: Semiotics and Form

**Minimum Credits 3 Maximum Credits 3**

### **GRDE 331 Graphic Design III: Visual Identity and Narrative**

Building on Graphic Design I and II, students are provided the opportunity to understand methodologies and strategies used for building and maintaining narrative-based visual identities (branding). Students will employ advanced use of typographic skills; explore the development of culturally relevant messages and images, thus building longevity and viability in brand recognition. Corporate client projects focus on use of graphic design to express core values and impact consumer perceptions of the brand. Outcomes may

include graphics and complete branding systems.

**Repeatable:** *N*

**Formerly** 21-3358

**Prerequisites** GRDE 232 Graphic Design II:Semiotics and Form and GRDE 238 Typography for Graphic Design

**Minimum Credits 3 Maximum Credits 3**

## **GRDE 340 Website Design II**

This course covers advanced topics in website design, covering human-computer interface design, multimedia use in internet and intranet publications, and network systems design and functions. Course assignments include design and execution of HTML documents, graphics, and other media objects.

**Repeatable:** *N*

**Formerly** 21-3376

**Prerequisites** GRDE 240 Website Design I

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

## **GRDE 325 Packaging Design**

This course explores packaging materials, surface graphics, marketing, and production problems. Refinement and integration of many design principles are applied in a methodical design process. In-class workshops explore topics including: group critiques, prototyping, building consumer profiles, developing concept boards and visual style guides. In this course students will produce various physical prototypes, 3D renderings and documentation of their projects.

**Repeatable:** *N*

**Formerly** 21-3360

**Prerequisites** GRDE 232 Graphic Design II:Semiotics and Form

**Minimum Credits 3 Maximum Credits 3**

## **GRDE 348 Experimental Typography**

This course studies 20th- and 21st-century design philosophies and their influence on typography and typographic design. Projects allow students to experiment with type from a variety of approaches and examine its possibilities as expressive form in relation to syntax and visual communication.

**Repeatable:** *N*

**Formerly** 21-3370

**Prerequisites** GRDE 238 Typography for Graphic Design

**Minimum Credits 3 Maximum Credits 3**

## **Publication Design**

This concentration introduces students to the processes and methods of publication design. By studying the identity of publications, students will learn how to create systems using unifying elements like typography, images, and illustrations.

**Required for the Concentration:**

## **GRDE 305 Publication Design**

This course examines editorial operations, production procedures, and the roles of the art director and designer to familiarize students with theoretical and practical concerns of magazine and trade publication design and internet publishing. The course content emphasizes the identity of current publications as a result of design format and grid structure.

**Repeatable:** N

**Formerly** 21-3345

**Prerequisites** GRDE 238 Typography for Graphic Design and GRDE 232 Graphic Design II:Semiotics and Form

**Minimum Credits 3 Maximum Credits 3**

## **GRDE 315 Book Design**

This course begins with a brief history of bookmaking, publication presses, and critique of book classifications. Students focus on the relationship of content to layout and book cover design by examining the unifying elements of type, photos, illustrations, and other graphic devices.

**Repeatable:** N

**Formerly** 21-3347

**Prerequisites** GRDE 238 Typography for Graphic Design and GRDE 232 Graphic Design II:Semiotics and Form

**Minimum Credits 3 Maximum Credits 3**

*Complete 6 credits from the following courses:*

## **ARTS 239 Artists' Books**

In this studio course you will be introduced to the tools and techniques of book construction as well as the conceptual possibilities and concerns of the book as a significant contemporary art form. You will construct a variety of blank book models, learn simple image transfer techniques, engage digital and risographic printing techniques, and produce your own artists' books. We will reflect on the artistic cultures of publication from mass produced offset runs to DIY zine cultures to one of a kind objects.

**Repeatable:** N

**Formerly** 22-2239

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **GRDE 331 Graphic Design III: Visual Identity and Narrative**

Building on Graphic Design I and II, students are provided the opportunity to understand methodologies and strategies used for building and maintaining narrative-based visual identities (branding). Students will employ advanced use of typographic skills; explore the development of culturally relevant messages and images, thus building longevity and viability in brand recognition. Corporate client projects focus on use of graphic design to express core values and impact consumer perceptions of the brand. Outcomes may include graphics and complete branding systems.

**Repeatable:** N

**Formerly** 21-3358

**Prerequisites** GRDE 232 Graphic Design II:Semiotics and Form and GRDE 238 Typography for Graphic

Design

**Minimum Credits 3 Maximum Credits 3**

### **GRDE 332 Graphic Design IV: Narrative and Research Studio**

In this course students will use inquiry-based methods to find meaning and create narrative-based outcomes. Students are provided the opportunity to understand the importance of design research and information organization. Research phase includes: Data collection and analysis from various relevant sources. This highly intensive course employs advanced use of typography to create information graphics.

**Repeatable:** *N*

**Formerly** 21-3372

**Prerequisites** GRDE 331 Graphic Design III: Visual Identity and Narrative  
Graphic Design Majors Only (M213)

**Minimum Credits 3 Maximum Credits 3**

### **JOUR 484 College Magazine Workshop**

In this fast-paced, hands-on course, students in the Journalism and Design programs work together to create a glossy, four-color magazine and a companion website in a single semester. Students redesign the publication, write and edit all stories, create or assign all photos and illustrations, design the pages, sell the advertisements, copy edit, fact check and proofread all pages; and send the magazine out the printer. They also create a website with unique content.

**Repeatable:** *Y*

**Formerly** 53-4536

**Requirements** Permission Required (DP)

**Minimum Credits 6 Maximum Credits 6**

### **Website Design**

In the Web Design concentration, students will have the opportunity to learn advanced methods for creating interactive digital content. Students will learn HTML, CSS, backend technologies, and content management systems, and they will practice by building digital products.

**Required for the Concentration:**

### **GRDE 340 Website Design II**

This course covers advanced topics in website design, covering human-computer interface design, multimedia use in internet and intranet publications, and network systems design and functions. Course assignments include design and execution of HTML documents, graphics, and other media objects.

**Repeatable:** *N*

**Formerly** 21-3376

**Prerequisites** GRDE 240 Website Design I

**Minimum Credits 3 Maximum Credits 3**

### **GRDE 350 Web Design III**

This course covers advanced topics in website design for students in design and art fields. Studies include the creation and implementation of design templates to allow end user control over HTML-based content,

files, documents in popular open source, industry standard content management systems. Course assignments include the merger of front end web technologies such as HTML/CSS and back end technologies including PHP/MySQL.

**Repeatable:** N

**Formerly** 21-3381

**Prerequisites** GRDE 340 Website Design II

**Minimum Credits 3 Maximum Credits 3**

## **INMD 114 Web Development I**

Counter to printed compositions, web design and development is about fluid and interactive experiences. This course provides an introduction to programming environments and teaches fundamental skills necessary to prototype and deploy digital media. Using technical elements like variables, conditions, sequences and events, completion of this course will empower students with the ability to design interactive applications.

**Repeatable:** Y

**Formerly** 36-1420

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

## **GRDE 325 Packaging Design**

This course explores packaging materials, surface graphics, marketing, and production problems. Refinement and integration of many design principles are applied in a methodical design process. In-class workshops explore topics including: group critiques, prototyping, building consumer profiles, developing concept boards and visual style guides. In this course students will produce various physical prototypes, 3D renderings and documentation of their projects.

**Repeatable:** N

**Formerly** 21-3360

**Prerequisites** GRDE 232 Graphic Design II:Semiotics and Form

**Minimum Credits 3 Maximum Credits 3**

## **GRDE 331 Graphic Design III: Visual Identity and Narrative**

Building on Graphic Design I and II, students are provided the opportunity to understand methodologies and strategies used for building and maintaining narrative-based visual identities (branding). Students will employ advanced use of typographic skills; explore the development of culturally relevant messages and images, thus building longevity and viability in brand recognition. Corporate client projects focus on use of graphic design to express core values and impact consumer perceptions of the brand. Outcomes may include graphics and complete branding systems.

**Repeatable:** N

**Formerly** 21-3358

**Prerequisites** GRDE 232 Graphic Design II:Semiotics and Form and GRDE 238 Typography for Graphic Design

**Minimum Credits 3 Maximum Credits 3**

## **GRDE 348 Experimental Typography**

This course studies 20th- and 21st-century design philosophies and their influence on typography and typographic design. Projects allow students to experiment with type from a variety of approaches and examine its possibilities as expressive form in relation to syntax and visual communication.

**Repeatable:** *N*

**Formerly** 21-3370

**Prerequisites** GRDE 238 Typography for Graphic Design

**Minimum Credits 3 Maximum Credits 3**

## Illustration, BA

The Bachelor of Arts in Illustration program seeks to provide students an education in illustration while encouraging them to experience other creative fields. With a customizable approach to illustration practice, the program introduces students to materials, methods, and processes commonly utilized. Students should be able to create and develop meaningful visual compositions in a range of traditional and digital media. Students may focus on illustration in the context of a broader program of general studies, choosing to pursue a minor or a double major, if appropriate.

As a result of successfully completing program requirements, students should be able to:

- apply art and design materials, techniques, technology, and concepts to the vocabulary/terminology relative to digital and traditional illustration, through the development of their own aesthetics;
- critically contextualize and analyze ideas and work in relation to illustration and visual communications history;
- describe, analyze, interpret, and contextualize one's own illustration;
- develop professionalism with integrity through ethical and sustainable work habits; and
- develop and present a cohesive body of work.

A grade of C or better is required in all major coursework.

For students who have already earned a Bachelor's degree in another field, the Second Bachelor of Arts in Illustration is available.

## PROGRAM REQUIREMENTS - 48 credits required

### ARTS 105 Foundation Studio

Foundation Studio teaches students how to solve art and design problems. It introduces critical strategies common to major areas of study offered within the departments of Art and Art History and Design, but is also applicable to many other fields in the creative sphere. Students are exposed to a diversity of materials and methods, and are encouraged to develop their own unique solutions through experimentation and collaboration. Assuming the role of problem-solver, students work on increasingly complex projects that culminate in a formalized demonstration of the ability to forge their own creative solutions.

**Repeatable:** *N*

**Formerly** 22-1925

**Minimum Credits 3 Maximum Credits 3**

### ARTS 106 Fundamentals of Visual Design

This course introduces students to elements and principles of visual design. While handling digital media through the use of industry-standard software (for example, Photoshop, Illustrator, and other Adobe Creative

Suite programs), students investigate connections between formal analysis, concept, and ideas in pixel, vector, and motion-based imagery. Lectures and critiques advance verbal communication skills to cultivate facility with the formal language of art and design, building understandings of the relationships of perception, process, and presentation.

**Repeatable:** *N*

**Minimum Credits 3 Maximum Credits 3**

## **ARTS 110 Drawing I**

This course teaches students how to represent accurately and proportionately objects, planes, and volumes through line and tone by developing hand-to-eye coordination. Basics of form development, 1, 2 and 3 point perspective, composition, texture, and modeling through various shading techniques are explored in various exercises augmented by critiques, slide lectures, and discussions.

**Repeatable:** *N*

**Formerly** ARTS 210

**Minimum Credits 3 Maximum Credits 3**

## **DSGN 110 Design Thinking**

This course introduces design thinking, and its theories and methods that are empathetic, human-centered, tolerant of ambiguity, and action-oriented. Design thinking is a creative, innovative process to identify and solve complex problems. In this course, students participate in a series of exercises and project challenges that are resolved using a holistic design thinking process.

**Repeatable:** *N*

**Minimum Credits 3 Maximum Credits 3**

## **ILLU 101 Introduction to Illustration**

This course is designed to introduce students to the field of illustration and basic illustration processes. Students will experiment within a studio environment with a variety of traditional and digital materials, techniques, styles, and their hybrids. Classes are supplemented with a series of presentations on contemporary illustrators, market trends, demonstrations, and documentation.

**Repeatable:** *N*

**Minimum Credits 3 Maximum Credits 3**

## **ILLU 203 Illustration: Concept Art I**

This course examines the sketching process, using research to solve problems and various types of media to create clear and effective visual presentations.

**Repeatable:** *N*

**Formerly** 21-2401

**Prerequisites** ANIM 105 Introduction to Traditional Animation or ARTS 105 Foundation Studio or ARTS 110 Drawing I or GAME 205 2D Art for Games or ILLU 101 Introduction to Illustration

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **ILLU 204 Figure Drawing I**

In this course students are provided the opportunity through direct observation of the human form to learn skills in representing the human form using a variety of materials, by concentrating on proportion, light, shape, and movement. Slide discussions of master figure drawings set examples and standards.

**Repeatable:** Y

**Formerly** 21-2402

**Prerequisites** ANIM 105 Introduction to Traditional Animation or ARTS 110 Drawing I or GAME 205 2D Art for Games or ILLU 101 Introduction to Illustration

**Minimum Credits 3 Maximum Credits 3**

## **ILLU 213 Illustration History & Practice**

This course covers and analyzes the origins of contemporary illustration. The course examines, from a historical perspective, illustrators, illustration trends, styles, and techniques from print to animated motion pictures. Significant illustrators and illustrations are featured throughout the semester. Course objectives are to gain a better appreciation of illustration and its origins, as well as learning to analyze how illustration has reflected and influenced our society and culture today.

**Repeatable:** N

**Formerly** 21-3401

**Prerequisites** ILLU 203 Illustration: Concept Art I

**Minimum Credits 3 Maximum Credits 3**

## **ILLU 214 Illustration Studio I**

This course covers the fundamental process of illustration from conceptual development to application of traditional and digital media for books, magazines, journals, posters, and storyboards. The objectives of the course are to develop, from a historical perspective, the fundamental understanding of illustration as a form of visual expression, and to learn the basic principles of illustration as a form of communication.

**Repeatable:** N

**Formerly** 21-3402

**Prerequisites** ILLU 203 Illustration: Concept Art I

**Minimum Credits 3 Maximum Credits 3**

## **ILLU 313 Illustration Studio II**

Professional applications of traditional and/or digital illustration related to a market-based portfolio. Assignments present industry-specific problems which encourage students to examine their process, project conceptualization, and personal style. The objective of this class is to create a collection of artwork for professional portfolio development.

**Repeatable:** N

**Formerly** 21-4401

**Prerequisites** ILLU 214 Illustration Studio I

**Requirements** Junior Standing or Above (JR) Illustration Majors Only (M214)

**Minimum Credits 3 Maximum Credits 3**

## **ILLU 444 Illustration Studio III**

This course assists senior students majoring in illustration with the creation of competitive artwork and assembly of an illustration portfolio. The course also covers professional practices, career strategies, compensation, and industries of employment for illustrators. The objective of this class is to complete a collection of artwork for a portfolio and transition from students to their career.

**Repeatable:** *N*

**Formerly** 21-4406

**Prerequisites** ILLU 313 Illustration Studio II

**Requirements** Senior Standing (SR) Illustration Majors Only (M214)

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

## **ARTH 105 Introduction to Visual Culture**

In this course, students will refine their skills of seeing, discussing, and writing about visual culture. Structured according to methodologies for visual analysis rather than chronology or artistic style, the course introduces students to critical approaches that can be applied to a wide range of images, objects and spaces. Through assignments that emphasize writing, research and presentation skills, students will explore a broad range of perspectives on visual literacy.

**Repeatable:** *N*

**Formerly** 22-1105

**HU DEI**

**Minimum Credits 3 Maximum Credits 3**

## **ARTH 105H Introduction to Visual Culture: Honors**

In this course, students will refine their skills of seeing, discussing, and writing about visual culture. Structured according to methodologies for visual analysis rather than chronology or artistic style, the course introduces students to critical approaches that can be applied to a wide range of images, objects, and spaces. Through assignments that emphasize writing, research, and presentation skills, students will explore a broad range of perspectives on visual literacy. This is an Honors course and in addition to any pre-requisites, students need a minimum 3.50 GPA to enroll.

**Repeatable:** *N*

**HU DEI**

**Requirements** 3.5 or Higher GPA (35GP)

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

## **ILLU 314 Digital Illustration I**

This course helps students begin to master digital painting, drawing, and image processing techniques to extend and augment their skills and techniques with traditional media and methods. Students work with the latest painting and drawing software that digitally mimics traditional tools such as watercolor, oil paint, airbrush, and charcoal. Students also explore methods such as brush effects, compositing, masking, and collage as a resource for initiating, developing, and refining illustration concepts.

**Repeatable:** *N*

**Formerly** 21-3403

**Prerequisites** ILLU 214 Illustration Studio I  
**Minimum Credits 3 Maximum Credits 3**

### **ILLU 360A Illustration: Materials & Techniques**

Students will be given the opportunity to create innovative illustrations through the hands-on exploration of a series of materials- and techniques-based projects. Contemporary and historical approaches within the field of illustration will be presented and discussed. By engaging with a variety of textures and surfaces, watercolor and gauche painting, ink applications and other media, students will be encouraged to seek deeper connections between seeing, thinking, and making, as it relates to the field of illustration.

**Repeatable:** N

**Formerly** ILLU 360

**Prerequisites** ILLU 214 Illustration Studio I or ARTS 220 Painting I

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **ILLU 360B Illustration: Materials & Techniques**

Students will be given the opportunity to create innovative illustrations through the hands-on exploration of a series of materials and techniques-based projects. Contemporary and historical approaches within the field of illustration will be presented and discussed. By engaging with a variety of textures and surfaces, watercolor and gauche painting, ink applications and other media, students will be encouraged to seek deeper connections between seeing, thinking, and making, as it relates to the field of illustration.

**Repeatable:** N

**Prerequisites** ILLU 214 Illustration Studio I or ARTS 220 Painting I

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

*Choose three of the following courses:*

### **ARTH 311 Histories of the Graphic Novel**

This course will explore the multifaceted development of the graphic novel as an artistic form. The term "graphic novel" may have been coined in 1964, but the form itself has reached its current state from a variety of historical and cultural developments. Topics covered will range from Tijuana Bibles to Jack Chick tracts, from Classics Illustrated to the "Black-and-white Boom" of the 1980s, and from underground comix to the New York Times bestseller list. Readings will be a mixture of comics and secondary literature. Students will gain an understanding the of various artistic movements, publishing strategies, and cultural discourses which have led to wide-ranging possibilities exhibited in the graphic novels of today.

**Repeatable:** N

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **GRDE 131 Survey of Typography**

This course allows students to investigate the basic aspects of letterforms and typography through a variety of projects. Students are exposed to the historical background, technical and aesthetic issues, and communicative abilities of typography as individual forms and as text.

**Repeatable:** *N*

**Formerly** 21-1310

**Prerequisites** GRDE 136 Design Lab

**Minimum Credits 3 Maximum Credits 3**

### **GRDE 136 Design Lab**

This course covers digital typesetting, layout, and image editing techniques for graphic design, illustration, and advertising. Topics covered include digital document construction and layout, typography formatting and specification, digital image editing, and application.

**Repeatable:** *N*

**Formerly** 21-1320

**Minimum Credits 3 Maximum Credits 3**

### **ILLU 212 Figure Drawing and Color**

In this course students create a series of expressive figure drawings through an exploration of projects, media and materials, and process documentation. Contemporary and historical approaches within figurative art and color will be presented and discussed. Utilizing a variety of textures and surfaces, collage and other media, students will be encouraged to seek connections between hand, eye, and mind, using the figure as subject and departure point. Emphasis is on expressive representations of gesture, movement, and form.

**Repeatable:** *Y*

**Formerly** 21-2405

**Prerequisites** ARTS 105 Foundation Studio or ARTS 110 Drawing I or ILLU 101 Introduction to Illustration

**Minimum Credits 3 Maximum Credits 3**

### **ILLU 303 Illustration: Concept Art II**

This course expands upon and refines the sketching-based processes, methods, media, and techniques covered in Illustration: Concept Art, stressing research, presentation skills, and the importance of drawn environments. Completed projects are designed to support a variety of professional markets and create portfolio level artwork.

**Repeatable:** *N*

**Prerequisites** ILLU 203 Illustration: Concept Art I

**Minimum Credits 3 Maximum Credits 3**

### **ILLU 304 Figure Drawing II**

This course focuses on conceptual development, rendering techniques, experimentation, and stylization as a means of communication using clothed and nude models. Various media and techniques are explored.

**Repeatable:** *Y*

**Formerly** 21-3404

**Prerequisites** ILLU 204 Figure Drawing or 22 1285 Figurative Sculpture

**Minimum Credits 3 Maximum Credits 3**

### **ILLU 310 History of Political and Social Illustration**

This course explores the history of illustration as a reflection of, comment upon, response to, and protest against society, politics and culture. Through a combination of lectures, journaling, quizzes, and research projects, students will refine their skills of seeing, analyzing, discussing, and writing about illustration. Structured primarily by theme, the lectures trace the boundaries of the illustration medium while providing chronological context.

**Repeatable:** *N*

**Formerly** 21-3405

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **ILLU 320 Cartooning**

This course introduces different aspects and basic techniques of cartoon drawing, emphasizing clear, efficient visual storytelling, the art of composition, and establishing character and environment. Instruction includes the historical study of various types of cartoons (both from print and animation). Styles of cartoons, thematic types, narrative structures, and construction of cartoon characters are analyzed and explored.

**Repeatable:** *N*

**Formerly** 21-3406

**Prerequisites** ARTS 110 Drawing I or ILLU 204 Figure Drawing I or ILLU 203 Illustration: Concept Art I or ANIM 210 Drawing for Animation I or GAME 205 2D Art for Games

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **ILLU 414 Digital Illustration II**

In this course students study more advanced digital art making techniques, application usage and experimental digital processes. Projects may include advanced content creation for print, online interactive, and other media utilizing industry specific guidelines, graphics and design applications. Completed projects are designed to support a variety of professional markets and create portfolio level artwork.

**Repeatable:** *N*

**Prerequisites** ILLU 314 Digital Illustration I

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **ILLU 440 Drawing the Graphic Novel**

This course provides students with a means for creative self-discovery and the exploration of complex ideas. Students record their observations, experiences, and memories in a sketchbook and translate this material into various graphic narratives of varying lengths. The class explores the rhythms of storytelling and formal elements of comics. Students learn to compose comic pages using iconic visual language, while experimenting with a variety of tools, media, and approaches.

**Repeatable:** *N*

**Formerly** 21-4402

**Prerequisites** ILLU 320 Cartooning or ARTS 110 Drawing I or ILLU 204 Figure Drawing I or ILLU 203 Illustration: Concept Art I or ANIM 210 Drawing for Animation I or GAME 205 2D Art for Games

**Minimum Credits 3 Maximum Credits 3**

## **ILLU 441 Children's Book Illustration**

Students study the work of children's book illustrators and their techniques, sources of inspiration, and influences. Students experiment and develop individual graphic and illustrative styles with emphasis on practical application of children's book illustration for publishing in contemporary markets.

**Repeatable:** *N*

**Formerly** 21-4403

**Prerequisites** ILLU 214 Illustration Studio I or ILLU 320 Cartooning or ARTS 110 Drawing I or ILLU 204 Figure Drawing I or ILLU 203 Illustration: Concept Art I or ANIM 210 Drawing for Animation I or GAME 205 2D Art for Games

**Minimum Credits 3 Maximum Credits 3**

## **ILLU 442 Freelance Illustration**

This course combines analysis and personal expression to convey ideas via illustration. Content includes traditional and non-traditional methods and materials. Students apply previously learned skills and techniques to solve visual problems, as in a professional environment.

**Repeatable:** *N*

**Formerly** 21-4404

**Prerequisites** ILLU 314 Digital Illustration I or ILLU 360A Illustration: Materials & Techniques

**Minimum Credits 3 Maximum Credits 3**

## **Immersive Media, BA**

In the Immersive Media major, students will have the opportunity to combine a technical and aesthetic skillset to develop the next generation of augmented, mixed, and virtual reality experiences. Students gain skills that prepare them for a job or graduate study in immersive media. This degree program is for computational artists, filmmakers, game creators, and computer scientists interested in pioneering an emerging media.

Students take lessons from a history of immersive practices to lead the current spatial media and computing evolution. Further, students gain insight into the social, political, and cultural consequences of immersive media.

At its core, students in this program will develop a programming, interaction design, and immersive user experience skillset. They will learn how to develop immersive experiences, beyond games and entertainment, that leverage the latest in emerging media.

In their senior year, students develop a comprehensive immersive media experience for their portfolio. They work as a team small team to manage the project from pre-production to production.

As a result of successfully completing program requirements, students should be able to:

- understand the history of immersive media from its traditional beginnings in antiquity to its contemporary usage;
- identify and utilize the significant and emerging theories of immersive media design and development as part of their practice;
- draw on an interdisciplinary skillset to develop a unique immersive aesthetic that is compelling for audiences and users;
- incorporate empathy, diversity, equity, and inclusion in the emerging art form to develop a more just immersive media ecosystem;

- capably draw on psychology insights to develop immersive experiences that provide users and audiences with a sense of presence;
- implement physics to develop realistic simulations for entertainment, health, engineering, and other areas;
- use appropriate terminology for immersive media design and development;
- demonstrate the social and emotional competencies necessary to perform and communicate responsibly in collaborative teams and group settings;
- analyze and critique their work in the context of the piece's goal, its perception, and the intended audience;
- exhibit proficiency applying the principles of user-centered theory and workflow to create interactive, immersive experiences;
- synthesize technology ideas and aesthetics to build and refine a professional portfolio; and
- recognize the functions, methods, vocabulary, and roles unique to the programmer, the designer, and the immersive artist within the iterative and collaborative design process.

## PROGRAM REQUIREMENTS - 48 credits required

### **INMD 110 Interactive Culture**

Through discussion, lecture, and critique, this course develops critical thinking skills and the student's ability to apply media theory to media design. Students learn how interactivity plays an increasingly important role in our world by exposure to leading designers, artists, thinkers, authors, and critics throughout the history of media.

**Repeatable:** *N*

**Formerly** 36-1000

**Prerequisites** ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

### **INMD 130 Immersive Environments I**

Examine historical and contemporary uses of immersive environments. Generate a variety of work using Augmented Reality, Virtual Reality & 360 Video technologies. Explore 21st Century alternative modes of spectatorship; in particular immersive and interactive ways of experiencing visual spectacle.

**Repeatable:** *N*

**Formerly** INMD 430

**Minimum Credits 3 Maximum Credits 3**

### **INMD 210 Interface Design I**

Course advances students' practical understanding of media theory, with an emphasis on interactive models of communication. This course focuses on navigational models of interaction design and how to create participant-centered interfaces through research, usability testing, and iterative design. Students produce substantial written critiques to demonstrate their growing understanding of the discipline.

**Repeatable:** *N*

**Formerly** 36-2110

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL

122 International Writing and Rhetoric II  
**Requirements** Sophomore Standing or Above (SO)  
**Minimum Credits 3 Maximum Credits 3**

### **INMD 235 Immersive Environments II**

Continue to explore immersive and interactive visual engagement. Design immersive environmental projects for institutions, galleries, and public forums, and develop idiosyncratic and multipurpose animated visual sculptures, projections, immersive video environments, and/or art showcases.

**Repeatable:** *N*  
**Formerly** INMD 435  
**Prerequisites** INMD 130 Immersive Environments I  
**Minimum Credits 3 Maximum Credits 3**

### **INMD 240 Story Development for Interactive Media**

The increasing impact of interaction on the narrative (stories) told in today and tomorrow's educational and entertainment media requires a different perspective on story development. This class begins with an overview of the area and its history from the writer's perspective, and then moves on to review and analyze common interactive structures and narrative requirements. Students are also exposed to the basic types of interactive narrative and media being created today, and conceptualize and develop their own interactive narrative projects.

**Repeatable:** *N*  
**Formerly** GAME 260  
**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II  
**Requirements** Sophomore Standing or Above (SO)  
**Minimum Credits 3 Maximum Credits 3**

### **INMD 315 Experience Design**

This course will encourage students to evaluate their own work, as well as the work of others, from the viewpoint of their audience. By gaining an awareness of how the participant experiences their work, students will gain an understanding of how to create engaging, user-centered interfaces.

**Repeatable:** *N*  
**Formerly** 36-3150  
**Prerequisites** INMD 210 Interface Design I  
**Minimum Credits 3 Maximum Credits 3**

### **INMD 370 Studio Collaboration**

Students in Studio Collaboration act effectively as interns to IAM Team, which is the final stage in the Interaction Design and Programming senior/capstone sequence. IAM Team is an intensive team production course that teaches students to work collaboratively while producing projects for an external client. Course begins with concepts of team organization and communication and continues with the formation of production teams, design of the project, and acquisition of media elements. Students practice scheduling and meeting deadlines by shipping multiple versions of the project.

**Repeatable:** *Y*

**Prerequisites** INMD 114 Web Development I or INMD 260 Intro to IAM Team Development or INMD 210 Interface Design I or INMD 235 Immersive Environments II

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **INMD 440 Immersive Environments III**

Building upon Immersive Environments I and II, this course will challenge students to engage with advanced theories in the understanding of immersive media. These theories will be put into practice through the design and development of immersive media works that use volumetric capture, IoT, 3<sup>rd</sup> party APIs, and physical materials. Students are encouraged to pursue work as a form of research through artistic intervention with immersive media.

**Repeatable:** *N*

**Prerequisites** INMD 235 Immersive Environments II

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **INMD 441 Immersive Environments IV**

In this capstone course, students will combine lessons, both practical and theoretical, from the immersive media program to construct a complete immersive media prototype. Students move from pre-production to production over the course of a semester. They perfect their project management skills and learn how to lead through the development process. They also engage in a portfolio review to make sure they are prepared for industry work or graduate education.

**Repeatable:** *N*

**Prerequisites** INMD 440 Immersive Environments III

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **GAME 110 Introduction to Game Development**

In this course, students learn about and practice foundational skills in the interdisciplinary field of game development, including the areas of game design, game art, programming, sound design UI/UX, and project management. Additionally, students are introduced to the business and career requirements of the game industry. They will learn the personal management skills of a developer. They will identify the skills relevant to the game development discipline of their choice and devise a plan for demonstrating these skills in a professional portfolio. Throughout the course, students will build a prototype digital game from their design, giving them exposure to all aspects of game development and the production process.

**Repeatable:** *N*

**Formerly** 36-1500

**Minimum Credits 3 Maximum Credits 3**

### **GAME 225 Game Engine Scripting**

Course is a production-oriented class focusing on applied game design and development, utilizing existing game production software tools and engines. Students learn to use asset management software to integrate a variety of media and asset types from multiple sources. The course also emphasizes utilizing the scripting elements of the game engine to create and refine game world events related to story, gameplay, and multimedia presentation. Time is also spent utilizing these scripting elements to create computer-controlled

characters that display meaningful character behaviors and artificial intelligence, resulting in the appearance of personality.

**Repeatable:** *N*

**Formerly** 36-2510

**Prerequisites** GAME 110 Introduction to Game Development

**Minimum Credits** 3 **Maximum Credits** 3

## **GAME 345 Advanced Game Scripting and Environments**

This course builds on the gameplay scripting practices developed in Game Engine Scripting. They will learn confidence in developing 2D and 3D games, utilizing their own original, functional script elements and stock game assets and environments. Students learn programming design patterns and practice version control workflows with branches and code review. They will learn the basics of technical leadership in the context of game development. Using these skills, students create a new game project with an industry standard game engine.

**Repeatable:** *N*

**Formerly** 36-3510

**Prerequisites** GAME 225 Game Engine Scripting

**Minimum Credits** 3 **Maximum Credits** 3

## **PROG 101 Programming I**

Learn programming concepts as you problem-solve with code, develop algorithms, and create object-oriented applications. Topics covered throughout the semester include data structures, repetition, sequence control structures, program design, testing, and programming best practices.

**Repeatable:** *N*

**Formerly** 36-1501

**Minimum Credits** 3 **Maximum Credits** 3

## **PROG 201 Programming II**

Create applications utilizing object-oriented, event-driven strategies. Design principles such as modularity and abstraction, and object-oriented principles such as encapsulation, inheritance, and polymorphism are covered throughout the semester as you build several projects for your portfolio.

**Repeatable:** *N*

**Formerly** 36-2600

**Prerequisites** PROG 101 Programming I

**Minimum Credits** 3 **Maximum Credits** 3

## **PROG 366 Algorithms**

Learn fundamental principles of algorithm design as you work with practical data structures (such as heaps and trees) and common algorithms (such as sort and search). At the end of the semester you will have a library of code you can use in future problem-solving, and a project showcasing your skills.

**Repeatable:** *N*

**Formerly** 36-3720

**Prerequisites** PROG 201 Programming II  
**Minimum Credits 3 Maximum Credits 3**

## **PROG 449 AI Programming**

How is artificial intelligence used to create game characters with realistic behaviors? Concepts such as decision trees, algorithms, state machines, neural networks and rule-based systems will be explored as you create work for your portfolio.

**Repeatable:** *N*

**Formerly** PROG 350

**Prerequisites** PROG 366 Algorithms

**Minimum Credits 3 Maximum Credits 3**

## **Journalism, BA**

The digital revolution has changed the way we gather, produce and disseminate news, but journalists are more in demand than ever. People always want to know what's going on and need responsible, ethical, accurate journalists to tell them. Our journalism program provides hands-on, multimedia experience in reporting, writing, editing, producing and publishing in state-of-the-art newsrooms and on mobile devices. The curriculum is structured around a core of courses, introducing students to new technologies as they progress through increasingly more complex and topical courses. The core courses aim to prepare students for advanced work in one of the major's four concentrations: Broadcast Journalism: Radio; Broadcast Journalism: Television; Magazine; and News and Features.

Practicing and studying journalism enhances critical thinking: figuring out what the story is and how to get it quickly, accurately and fairly. Students will have the opportunity to learn how to place news in a context that helps readers, listeners, and viewers make sense of the world. Good writing is paramount. Students are taught how to find, report and tell engaging stories that stand out in today's complex world using social media, audio, video and still photography on smart phones and DSLR cameras.

Students produce the highly-respected [Columbia Chronicle](#), named best college weekly in the nation by the Society of Professional Journalists. Every spring, students in the Magazine Program team up with students in Design to create [Echo](#) magazine, which regularly wins top awards in student magazine contests, along with its website. Broadcast Journalism students, in collaboration with the Television Department, produce [Newsbeat](#), a live TV newscast, and [Metro Minutes](#), a TV news magazine. Broadcast TV students have won highly competitive recognition from the Academy of Television Arts and Sciences' Emmy Awards. Students can write and produce news for college radio station WCRX 88.1 FM, and host their own talk and music shows. We stress portfolio-building, so students can show internship providers their professional and high-quality work they produce with mentoring by faculty who are actively engaged in the fields they teach. With outside grant support, professors founded [ChicagoTalks](#) and [AustinTalks](#), online publications that cover the neighborhoods of the nation's third-largest city, increasing multi-platform publishing opportunities for our students.

As a result of successfully completing program requirements, students should be able to:

- write correctly and clearly in forms and styles appropriate for the media professions, audiences and purposes they serve;
- gather and report information thoroughly and accurately using a wide range of sources;
- design and present audio, images, video and other stories using current tools and technologies;
- create and produce work that can be shared publicly in various media;

- demonstrate and apply an understanding of professional journalistic ethical principles in pursuit of truth, independence, accuracy, fairness and diversity; and
- understand and apply the principles and laws of copyright, freedom of speech and freedom of the press in the United States.

## PROGRAM REQUIREMENTS - 37-42 credits required

### **JOUR 102 Introduction to Journalism**

This course explores rules and roles of journalism along with the challenges of the contemporary media landscape. It also introduces reporting, interviewing and writing skills through hands-on assignments.

**Repeatable:** *N*

**Formerly** 53-1011

**Minimum Credits 3 Maximum Credits 3**

### **JOUR 108 Copy Editing**

This foundational course teaches students how to improve grammar, punctuation and spelling skills, while learning how to spot errors, correct English usage, sharpen copy's clarity and conciseness, remedy inconsistencies and redundancies, and edit stories to meet generally accepted journalistic standards and Associated Press (AP) style.

**Repeatable:** *Y*

**Formerly** 53-1017

**Minimum Credits 3 Maximum Credits 3**

### **JOUR 205 Reporting II**

The course helps students refine their reporting, interviewing, researching and writing skills as they conceptualize, pitch and produce journalistic stories. Students further develop critical-thinking skills as well as the use of social media for newsgathering and storytelling. It emphasizes precision and clarity. Equipment is required for this course. See the Department website.

**Repeatable:** *N*

**Formerly** 53-2020A

**Prerequisites** JOUR 105 Reporting I and JOUR 108 Copy Editing or JOUR 106 College News Workshop and JOUR 108 Copy Editing

**Minimum Credits 3 Maximum Credits 3**

### **JOUR 208 Media Ethics and Law**

Course instructs students in legal and ethical issues that working journalists confront in the gathering and dissemination of news; First Amendment history and interpretation are highlighted.

**Repeatable:** *N*

**Formerly** 53-2015

**Prerequisites** JOUR 102 Introduction to Journalism or ADVE 101 Advertising Principles or PURE 102 Intro

to Public Relations

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

## **JOUR 105 Reporting I**

This course teaches students reporting skills used in all major journalism media formats. It is designed to give students a solid foundation for subsequent courses in journalistic storytelling. Equipment is required for this course. See the department website.

**Repeatable:** *N*

**Formerly** 53-1015

**Prerequisites** JOUR 102 Introduction to Journalism and ENGL 111 Writing and Rhetoric I or JOUR 102 Introduction to Journalism and ENGL 111H Writing and Rhetoric I: Honors or JOUR 102 Introduction to Journalism and ENGL 121 International Writing and Rhetoric I or JOUR 102 Introduction to Journalism and ENGL 109 Writing and Rhetoric I Stretch B or JOUR 102 Introduction to Journalism and TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

## **JOUR 106 College News Workshop**

Students in this sophomore-level class serve as reporters and writers for The Columbia Chronicle, the college's award-winning weekly newspaper and its website. The class has learning objectives that parallel those of Reporting I and it may be substituted for Reporting I. Half the class time is devoted to an accelerated introduction to the fundamentals of journalism, and the other half to carrying out Chronicle assignments. This class is also open to a limited number of photography majors interested in photojournalism and building their portfolios. Equipment is required for this course. Consult the department website.

**Repeatable:** *N*

**Formerly** 53-1015A

**Prerequisites** JOUR 102 Introduction to Journalism and ENGL 111 Writing and Rhetoric I or JOUR 102 Introduction to Journalism and ENGL 111H Writing and Rhetoric I: Honors or JOUR 102 Introduction to Journalism and ENGL 121 International Writing and Rhetoric I or JOUR 102 Introduction to Journalism and ENGL 109 Writing and Rhetoric I Stretch B or JOUR 102 Introduction to Journalism and TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

## **CONCENTRATIONS**

### **Broadcast Journalism: Radio**

Broadcast Journalism is an interdisciplinary program taught in cooperation with the Television and Communication departments. Students will have the opportunity to learn to report, write and produce radio news, features, and in-depth stories. Radio news students get hands-on training at Columbia's radio station, WCRX 88.1 FM. Students intern at major media outlets, including Chicago affiliates of ABC, NBC, CBS and NPR.

**Required for the Concentration:**

## **JOUR 234 Broadcast News Writing**

Intended for students entering the Broadcast Journalism concentration, course teaches basic techniques for writing radio and television news scripts.

**Repeatable:** *N*

**Formerly** 53-2310

**Prerequisites** JOUR 105 Reporting I

**Minimum Credits 3 Maximum Credits 3**

## **RADI 105 Voice and Articulation**

Course helps students acquire pronunciation and grammar of oral Standard English that is necessary for broadcasting and oral communication in any professional environment. Students receive an individual evaluation of articulation and voice. Course stresses the concept of becoming bi-dialectic, or learning and using Standard English in addition to your primary dialect. Classroom exercises focus on using Standard English when reading copy and engaging in improvisational conversation.

**Repeatable:** *N*

**Formerly** 41-1107

**Minimum Credits 3 Maximum Credits 3**

## **RADI 118 Radio Workshop**

This entry-level course provides hands-on and practical experience in performing radio programs and operating industry standard radio broadcast equipment. Course also focuses on the performance experience of an on-air host at a music radio station. Students will develop a personal on-air style by performing radio programs, delivering copy, integrating music into shows and preparing material for program breaks. This course is a pre-requisite for an on-air position at the college radio station WCRX, 88.1FM.

**Repeatable:** *Y*

**Formerly** 41-1121

**Prerequisites** RADI 105 Voice and Articulation

**Minimum Credits 3 Maximum Credits 3**

## **RADI 210 Radio Production I: Intro**

This introduction to digital audio production combines theory with creative, hands-on audio production projects. Each student will use a digital audio workstation loaded with professional audio software. Students will learn audio/production/computer terminology along with fundamental audio production techniques, including recording, editing, mixing, and working with music and sound effects. Each student also will use a portable digital field recorder to produce class projects.

**Repeatable:** *N*

**Formerly** RADI 126

**Minimum Credits 3 Maximum Credits 3**

## **RADI 230 Podcasting**

In this introductory course, students learn the aesthetics of podcasting as well as basic content development and production techniques while creating elements of a podcast.

**Repeatable:** N

**Formerly** 41-2252

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **RADI 302 Radio Storytelling**

This course focuses on the craft of writing and producing effective radio essays made popular through work found on National Public Radio. Emphasis is placed on storytelling techniques, writing for the ear, sound usage and basic spoken-word audio editing. Students produce four completed radio essays. The course progresses from writing to re-drafting, to audio production, to completed packages. Selected pieces will be considered for broadcast on WCRX 88.1 FM.

**Repeatable:** N

**Formerly** RADI 202

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

## **RADI 421 Radio and Audio Documentary**

This Radio Department capstone course teaches students to produce sound-rich audio documentaries suitable for broadcast on the radio, delivered on the Internet, or through mobile media. Students study and employ the appropriate artistic aesthetic necessary for producing quality work in this genre. Each student uses research, the techniques of interviewing, writing, editing, and audio production to create two short documentaries.

**Repeatable:** Y

**Formerly** 41-4221

**Prerequisites** AUDI 121 Fundamentals of Audio Production or CINE 130 Editing I or CINE 211 Post-Production Audio I or JOUR 350 Digital Storytelling or PHOT 260 Introduction to Photojournalism or RADI 210 Radio Production I: Intro

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **RADI 481 WCRX Practicum I**

This course provides hands-on experience in the operation of college radio station WCRX. Students become proficient with new digital tools and various digital platforms to understand and effectively use social media in a live broadcast environment. Students work on the air as a music or talk host, news or sports anchor, or call play-by-play sports. They may also work in production or as a social media producer to develop content and maintain social media on-line communities for WCRX. Course requires a minimum of six hours per week of practical activity and two class hours per week.

**Repeatable:** Y

**Formerly** 41-3300

**Prerequisites** RADI 118 Radio Workshop and RADI 210 Radio Production I: Intro

**Requirements** Permission Required (DP) and Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

### **JOUR 318 Investigative Reporting**

Course focuses on exploring methods to track a story to its roots, emphasizing the key watchdog and spotlight functions of journalism. Students are taught how to find and report tough stories that powerful interests would rather not have revealed; gather relevant information and documentation; verify that information; and present results for various media.

**Repeatable:** *N*

**Formerly** 53-3115

**Prerequisites** JOUR 205 Reporting II

**Minimum Credits 3 Maximum Credits 3**

### **JOUR 328 Interpretive Reporting**

Course focuses on interpretive reporting, an advanced journalistic technique that goes beyond the who, what, where of basic reporting to the why and how to bring perspective, clarity, and insight to major news stories. Students use journalistic tools of interviewing, research, and reporting to explain relevance of major issues.

**Repeatable:** *N*

**Formerly** 53-3130

**Prerequisites** JOUR 205 Reporting II

**Minimum Credits 3 Maximum Credits 3**

### **Broadcast Journalism: Television**

Broadcast Journalism is an interdisciplinary program taught in cooperation with the Television and Communication departments. Students will have the opportunity to learn to report, write and produce television news, features, and in-depth stories. Student-produced television news programs, such as Metro Minutes, a news magazine focusing on arts and entertainment, and Newsbeat, a live TV newscast (news, weather, sports and features), are program highlights. Students intern at major media outlets, including Chicago affiliates of ABC, NBC, CBS, PBS, Fox, and Telemundo.

**Required for the Concentration:**

### **JOUR 234 Broadcast News Writing**

Intended for students entering the Broadcast Journalism concentration, course teaches basic techniques for writing radio and television news scripts.

**Repeatable:** *N*

**Formerly** 53-2310

**Prerequisites** JOUR 105 Reporting I

**Minimum Credits 3 Maximum Credits 3**

### **JOUR 318 Investigative Reporting**

Course focuses on exploring methods to track a story to its roots, emphasizing the key watchdog and spotlight functions of journalism. Students are taught how to find and report tough stories that powerful

interests would rather not have revealed; gather relevant information and documentation; verify that information; and present results for various media.

**Repeatable:** *N*

**Formerly** 53-3115

**Prerequisites** JOUR 205 Reporting II

**Minimum Credits** 3 **Maximum Credits** 3

## **JOUR 337 Creating the TV News Package**

This hands-on/lecture course prepares Broadcast Journalism, Television or Cinema students for shooting, interviewing, logging, and editing news package material and provides an opportunity for future reporters and video journalists to practice with their own material in the production of news stories for television. Stand-ups, interviews, voice-overs, sound bites, cut-aways, writing to video, and the use of the television medium to tell the journalistic story are hallmarks of this course.

**Repeatable:** *N*

**Formerly** TELE 337

**Prerequisites** TELE 125 Television Arts: Production and TELE 212 Television Arts: Writing or TELE 125 Television Arts: Production and JOUR 352 Writing & Reporting TV News or MEDI 102 Cinema and Television Production and TELE 212 Television Arts: Writing

**Minimum Credits** 3 **Maximum Credits** 3

## **JOUR 352 Writing & Reporting TV News**

Course builds on skills taught in Broadcast News Writing by focusing on development and writing of reporter-news packages as well as news producing. Some stories written in this class are produced in Creating the Television News Package.

**Repeatable:** *N*

**Formerly** 53-3310

**Prerequisites** JOUR 234 Broadcast News Writing

**Minimum Credits** 3 **Maximum Credits** 3

## **JOUR 481 TV Newsbeat**

In this course students will produce a TV news show. While the focus will be on television news, much of what students learn and practice will be applicable across digital platforms. This course refines skills learned in previous coursework to gain additional experience in all facets of planning and executing a local news program.

**Repeatable:** *Y*

**Formerly** 53-4601A

**Prerequisites** COMM 219 Social Media Content or JOUR 450 Journalism Short Documentary or JOUR 337 Creating the TV News Package and JOUR 352 Writing & Reporting TV News

**Requirements** Permission Required (DP)

**Minimum Credits** 4 **Maximum Credits** 4

## **TELE 125 Television Arts: Production**

Introductory class in the art of television production provides an overview, and basic, practical, hands-on experience in all aspects of today's trends in the television industry. Although taught in a studio environment, this course will cover camera operation, sound, lighting, video transitions, and graphics as they relate to all forms of production. The final project for the class is the completion of three full productions created by students in the class.

**Repeatable:** *N*

**Formerly** 40-1302

**Minimum Credits 3 Maximum Credits 3**

## **TELE 379 On-Camera Talent**

Course teaches the student the role of being on camera talent in a variety of different production situations. The varied roles of a live reporter, in a hard news deadline situation, the anchor's roles on the news set, the host talent's responsibility and interactions in the entertainment genres of talk, game, and magazine shows. The art of the interview, the how-to of writing scripts, researching guest, and formulating questions will also be included. The culmination of this class will be to conduct on camera interviews in Live, Pre-Taped, and location situations.

**Repeatable:** *Y*

**Formerly** 40-3699

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **Magazine**

The Magazine concentration prepares students for freelance and staff positions at consumer and business-to-business magazines. Students take courses in multi-platform magazine writing and editing and have the opportunity to demonstrate their proficiency by working with students in Design and Photography to create Echo magazine, Columbia College's national award-winning student publication, which is distributed throughout Chicago and contributes to students' portfolios. Students also are encouraged to work as interns during their junior and senior years, in Chicago and elsewhere.

**Required for the Concentration:**

## **JOUR 332 Magazine and Feature Writing**

In this course, students pitch and write a variety of stories, including a substantive feature story that uses scenes and characters to create an engaging narrative. The course covers idea generation, targeting, research, interviewing, structuring, writing and revising, as well as critique.

**Repeatable:** *N*

**Formerly** 53-3216

**Prerequisites** JOUR 205 Reporting II

**Minimum Credits 3 Maximum Credits 3**

## **JOUR 335 Business Journalism**

Students learn how to research and write articles about business - from large corporations down to small family-owned companies. Students learn terminology specific to business writing and how to craft accessible stories for specialized and general business audiences.

**Repeatable:** *N*

**Formerly** 53-3215

**Prerequisites** JOUR 205 Reporting II

**Minimum Credits** 3 **Maximum Credits** 3

## **JOUR 338 Advanced Editing**

In this course, students learn advanced skills necessary for editing magazines and other publications. Students learn to shape stories for specific audiences and platforms, and apply editing, copy editing, fact-checking and audience engagement strategies.

**Repeatable:** N

**Formerly** 53-3210

**Prerequisites** JOUR 108 Copy Editing and JOUR 205 Reporting II

**Minimum Credits** 3 **Maximum Credits** 3

## **JOUR 350 Digital Storytelling**

The Digital Storytelling course offers intensive hands-on training in multimedia news gathering and production, as well as distribution through digital channels, for a range of journalism story forms, including audio, video, photo essays, online writing, social networking, and audio slideshows. Equipment is required for this course. Consult the Department website.

**Repeatable:** N

**Formerly** 53-3231

**Prerequisites** JOUR 105 Reporting I or JOUR 106 College News Workshop

**Minimum Credits** 3 **Maximum Credits** 3

*Choose one of the following courses:*

## **JOUR 216 Blogging: Beyond the Basics**

Anyone can blog; this course will teach you how to blog well. Students from throughout the college identify a niche, research the editorial opportunities for that audience, report and write posts, shoot and upload relevant photos and videos, and implement blogging best practices, including ethics, copyright, links, SEO, social media and monetization.

**Repeatable:** Y

**Formerly** 53-2116

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

## **PROG 102 Code**

Computer science powers the technology and innovation that drives the world; experience in coding logic and syntax is essential for students in a variety of disciplines. This course provides a doorway for students with no experience to gain insight into computational thinking and the application of abstraction at multiple levels, from logic gates and bits, to larger global, social, and political topics. Students in this course learn about the impact of computer science, and complete the semester with work for their portfolio.

**Repeatable:** *N*  
**Minimum Credits 3 Maximum Credits 3**

*Complete 6 credits from the following courses:*

### **COMM 140 Smartphone/photo**

This is a hands-on class focusing on the technical, aesthetic and multimedia skills needed to produce images with a smartphone for professional communication and storytelling.

**Repeatable:** *N*  
**Formerly** JOUR 140  
**Minimum Credits 1 Maximum Credits 1**

### **COMM 141 Smartphone/video**

This is a hands-on class focusing on the technical, aesthetic and multimedia skills needed to produce professional video with a smartphone.

**Repeatable:** *N*  
**Formerly** JOUR 141  
**Minimum Credits 1 Maximum Credits 1**

### **COMM 143 Smartphone/audio**

This is a hands-on class focusing on the technical, aesthetic and multimedia skills needed to produce professional audio with a smartphone.

**Repeatable:** *N*  
**Formerly** JOUR 143  
**Minimum Credits 1 Maximum Credits 1**

### **COMM 210 Visual Communication**

A theoretical and a hands-on course that immerses students in all aspects of visual communications, including typography, photography, illustration, informational graphics, design, and layout. Students will create visual projects according to their related fields.

**Repeatable:** *N*  
**Formerly** 53-2220  
**Requirements** Sophomore Standing or Above (SO)  
**Minimum Credits 3 Maximum Credits 3**

### **COMM 219 Social Media Content**

This course trains students to create strategic and ethical social media and digital content; develop concise and accurate writing and editing skills; and employ search engine optimized keywords, links, and hashtags to grow audiences and motivate them to action.

**Repeatable:** *N*  
**Formerly** 54-2205

**Prerequisites** ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or ENGL 109 Writing and Rhetoric I Stretch B or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

## **JOUR 168 Essentials of Interviewing**

Effective interviewing enables you to obtain information, capture dynamic quotes and incorporate personalities into a story. In this course, students develop skills and strategies, including how to land an interview, thoroughly research the topic and subject, get the subject to open up and offer candid responses, handle follow-up questions, and select and edit quotations. These techniques apply to documentary practices of all kinds in journalism, audio, fiction, creative nonfiction, marketing and other fields.

**Repeatable:** Y

**Formerly** 53-1715

**Minimum Credits 1 Maximum Credits 1**

## **JOUR 245 Covering Sports**

This class explores diverse approaches to covering sports across different media. Students will interact with professionals who cover sports for a variety of media; explore various types of sports coverage; and report and create stories about sports.

**Repeatable:** N

**Formerly** 53-2520

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

*Complete 6 credits from the following courses:*

## **JOUR 316 Opinion and Commentary**

Course teaches students to write or produce research-based opinion stories in their own voices. Course includes exercises in editorial, column, podcast, op-doc and opinion writing on various platforms, including audio and video.

**Repeatable:** N

**Formerly** 53-2510

**DEI**

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **JOUR 318 Investigative Reporting**

Course focuses on exploring methods to track a story to its roots, emphasizing the key watchdog and spotlight functions of journalism. Students are taught how to find and report tough stories that powerful interests would rather not have revealed; gather relevant information and documentation; verify that information; and present results for various media.

**Repeatable:** N

**Formerly** 53-3115

**Prerequisites** JOUR 205 Reporting II  
**Minimum Credits 3 Maximum Credits 3**

### **JOUR 328 Interpretive Reporting**

Course focuses on interpretive reporting, an advanced journalistic technique that goes beyond the who, what, where of basic reporting to the why and how to bring perspective, clarity, and insight to major news stories. Students use journalistic tools of interviewing, research, and reporting to explain relevance of major issues.

**Repeatable:** N  
**Formerly** 53-3130  
**Prerequisites** JOUR 205 Reporting II  
**Minimum Credits 3 Maximum Credits 3**

### **JOUR 363 Fashion Journalism**

Students study fashion history, terminology and business and craft news, review and trend stories covering fashion shows, boutiques and designers.

**Repeatable:** N  
**Formerly** 53-3542  
**Prerequisites** JOUR 205 Reporting II  
**Minimum Credits 3 Maximum Credits 3**

### **JOUR 405 Covering Politics:**

Students will learn the fundamentals of covering political campaigns by reporting on local, state and/or presidential races. Students will produce content on deadline and more enterprising work in a variety of formats. Course is open to non-majors with an interest in politics.

**Repeatable:** Y  
**Formerly** 53-4120  
**Prerequisites** JOUR 105 Reporting I or JOUR 106 College News Workshop  
**Requirements** Permission Required (DP)  
**Minimum Credits 3 Maximum Credits 3**

### **JOUR 450 Journalism Short Documentary**

Journalism Short Documentary offers intensive, hands-on training in video storytelling and production. Students learn to produce in-depth "mini-doc" stories focusing on newsworthy trends and issues using journalistic best practices and ethics.

**Repeatable:** Y  
**Formerly** 53-4840  
**Prerequisites** JOUR 350 Digital Storytelling or PHOT 360 Documentary Methods or CINE 266 Documentary Storytelling  
**Minimum Credits 3 Maximum Credits 3**

### **JOUR 463 Global Multimedia**

This course is a practical guide to being a foreign correspondent and to covering international issues in the United States, focusing on immigrant communities in Chicago to understand and report issues of global importance. Students will follow and analyze breaking news and in-depth reporting from around the world. This is a multimedia and social media course that gives students the opportunity to choose from multiple, emerging platforms to tell their stories.

**Repeatable:** *N*

**Formerly** 53-4660

**Requirements** Senior standing (SR)

**Minimum Credits** 3 **Maximum Credits** 3

## **JOUR 484 College Magazine Workshop**

In this fast-paced, hands-on course, students in the Journalism and Design programs work together to create a glossy, four-color magazine and a companion website in a single semester. Students redesign the publication, write and edit all stories, create or assign all photos and illustrations, design the pages, sell the advertisements, copy edit, fact check and proofread all pages; and send the magazine out the printer. They also create a website with unique content.

**Repeatable:** *Y*

**Formerly** 53-4536

**Requirements** Permission Required (DP)

**Minimum Credits** 6 **Maximum Credits** 6

## **News and Features**

The News and Features concentration focuses on storytelling across media platforms, from deadline news to in-depth analysis, all against the backdrop of Chicago's diverse communities. Students learn to tighten their writing skills, and also get the opportunity to take advanced specialized courses in a number of areas, including covering the courts, business writing, investigative journalism and reporting on the city from a global perspective. Multimedia skills, such as shooting and editing video and audio are infused throughout the curriculum from core courses to electives. Through the College Newspaper Workshop, students have the opportunity to write for the award-winning Columbia Chronicle, the College's weekly student newspaper, and its companion website. Many students also write for the ChicagoTalks and AustinTalks websites, and several of them have been winners and finalists in professional journalism award competitions.

**Required for the Concentration:**

## **JOUR 318 Investigative Reporting**

Course focuses on exploring methods to track a story to its roots, emphasizing the key watchdog and spotlight functions of journalism. Students are taught how to find and report tough stories that powerful interests would rather not have revealed; gather relevant information and documentation; verify that information; and present results for various media.

**Repeatable:** *N*

**Formerly** 53-3115

**Prerequisites** JOUR 205 Reporting II

**Minimum Credits** 3 **Maximum Credits** 3

## **JOUR 321 Covering Urban Affairs**

This course is about how a variety of societal forces impact people in urban communities. It explores how decisions and actions by various forces -- including city and county government, media, community leaders and organizations - impact education, health care, housing, transportation, cultural affairs and other quality of life issues in a community. Students will produce multimedia work illustrating these interactions. The course will often focus on a singular topic area.

**Repeatable:** N

**Formerly** 53-3120

**Formerly** 53-4840

**Prerequisites** JOUR 350 Digital Storytelling or PHOT 360 Documentary Methods or CINE 266  
Documentary Storytelling

**Minimum Credits** 3 **Maximum Credits** 3

## **Marketing, BA**

The BA in Marketing equips students with the knowledge and skills needed to compete in the global marketing industry. Students learn fundamental marketing principles, apply creative tactics and promotion strategies, and analyze social media and digital platform data to devise and execute marketing and communications plans for a wide range of products and services. Concentrations further prepare students for careers in digital media marketing, entertainment industry marketing, or sports management. The program's full-time and adjunct faculty consists of academics and creative professionals who integrate current industry practices into their classroom to prepare students for diverse marketing careers.

As a result of successfully completing program requirements, students should be able to:

- understand essential marketing practices and principles including market research, media selection, and communication campaigns;
- apply quantitative methods for assessing differences among consumers, segments, markets or other important elements;
- distinguish innovations from ideas based on competitiveness, consumer acceptance, scalability, and profitability;
- appraise marketing decisions for their adherence to brand consistency and core values;
- create a strategic marketing plan that synthesizes fundamentals of marketing practices and principles; and
- assess how the business practices of marketing can be responsive to issues of diversity, equity, and inclusion.

**PROGRAM REQUIREMENTS - 48 credits required**

## **BUSE 101 Introduction to Marketing**

This introductory survey course explores the fundamentals of marketing: product, promotion, pricing, and distribution, as well as the impact of consumer and market research, technology, and globalization.

**Repeatable:** *N*

**Formerly** 28-1090

**Minimum Credits 3 Maximum Credits 3**

## **BUSE 109 Information Management**

This course provides students with a practical framework for employing essential computer applications in today's business environment. Students apply advanced functions of database, spreadsheet, word processing and presentation software to business analysis and decision-making processes. The skill set pursued in this course is fundamental to effective managerial operations of a variety of arts, entertainment and media businesses and organizations.

**Repeatable:** *N*

**Minimum Credits 3 Maximum Credits 3**

## **BUSE 205 Law for Creative Industries**

This course enables future artists, managers and entrepreneurs to better understand legal issues in business dealings in creative industries, and to recognize where legal problems may arise. This is accomplished through readings and lectures relating to copyright and other intellectual property rights, contracts, licensing agreements, First Amendment issues, agency agreements, and the formation of partnerships and corporations.

**Repeatable:** *N*

**Formerly** 28-2111

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **BUSE 210 Economics for Creatives**

This course introduces economic principles including supply and demand, consumer choice, opportunity costs, market system, money, and banking as they apply to the management of arts, entertainment and media. The factors that impact each of these principles are also explored in depth. This is an integrated macro-micro introduction for future managers and entrepreneurs.

**Repeatable:** *N*  
**Formerly** 28-1112  
**Minimum Credits 3 Maximum Credits 3**

## **BUSE 253 Marketing Research**

This course surveys the many types of research, qualitative and quantitative, used by marketers to facilitate decision-making. It emphasizes the rationale behind each technique, and students will strategize, design and conduct a research study. Special attention will be paid to audience research.

**Repeatable:** *N*  
**Formerly** 28-2500  
**Requirements** Sophomore Standing or Above (SO)  
**Minimum Credits 3 Maximum Credits 3**

## **BUSE 260 Brands and Branding**

This course surveys the strategies and activities that create distinctive brand identities and generate loyalty for products, services, people and places. Students will discover the many touch points and stakeholders that affect branding and create a portfolio-appropriate brand audit and branding recommendation.

**Repeatable:** *N*  
**Formerly** 28-2510  
**Minimum Credits 3 Maximum Credits 3**

## **BUSE 358 Marketing Data Analytics**

This course explores data analytics and their impact on marketing strategies. Students start with the fundamentals of proprietary social platform insights and move on to more complex consumer observations provided by big data. Students will explore engagement metrics, cost per click, multi-tiered demographics, audience segmentation, return on engagement, customer relationship management, complex targeting structures, behavioral statistics, and email success metrics.

**Repeatable:** *N*  
**Formerly** 28-2515  
**Requirements** Junior Standing or Above (JR)  
**Minimum Credits 3 Maximum Credits 3**

## **BUSE 360 Developing a Marketing Plan**

Comprehensive course teaches students to prepare a marketing plan for a specific product or service. Student learning builds on the foundations learned in the core marketing courses to formulate a strategic marketing plan. The course will provide a systematic approach that facilitates organization of data, development of strategy, alignment of all plan elements, and measurement of marketing ROI. Upon completion, students will be able to develop a comprehensive, real world marketing plan.

**Repeatable:** *N*  
**Formerly** 28-3502  
**Requirements** Junior Standing or Above (JR)  
**Minimum Credits 3 Maximum Credits 3**

## **BUSE 363 Marketing and Branding Yourself**

This course introduces students to the steps involved in the job search process. Various Skills, techniques and resources for creating personal brand to improve job hunting effectiveness. Students develop resumes and cover letters, interview effectively, assess skills and career objectives and manage the search process. Several guest speakers discuss job-hunting in their particular marketing/advertising areas.

**Repeatable:** *N*

**Formerly** 28-3505

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **BUSE 378 Sponsorship**

This course provides future managers and artists with an understanding of sponsorship techniques and a hands-on experience. They will understand and utilize various sponsorship techniques and learn how to apply those techniques in the arts, entertainment and media industries.

**Repeatable:** *N*

**Formerly** 28-3760

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **CONCENTRATIONS**

### **Digital Media**

#### **BUSE 150 Business of Media**

This course surveys the business of traditional media fields including radio, television and film, while also studying emerging digital media industries, including the Web and mobile platforms. This course also examines how changes in technology, consumer behavior, and deregulation are transforming the media industry and the production, distribution, and consumption of content in a digital environment.

## **Music Business, BA**

The BA in Music Business is designed to equip students to pursue careers in the evolving music industry. Students learn the fundamental management concepts of the recorded music business, copyright, music publishing, artist management, live and touring and music marketing. The industry focus prepares music business majors to be the next generation of innovative music industry executives. The Music Business program offers students hands-on management experiences through student-run businesses that include a record label, a talent agency, a music publishing company, and an online distribution platform.

As a result of successfully completing program requirements, students should be able to:

- understand essential business practices and principles as they relate to the mechanics of the music industry;
- apply critical thinking, problem solving and communication skills to the entrepreneurial development of management, marketing and publishing strategies focused on consumer engagement and revenue generation;
- evaluate trends, opportunities, and challenges within the music industry to anticipate future developments;
- manage creative projects, resources and relationships to be competitive within the rapidly changing landscape of the global music industry; and
- assess how the business practices of the music industry can be responsive to issues of diversity, equity, and inclusion.

## PROGRAM REQUIREMENTS - 48 credits required

### **BUSE 109 Information Management**

This course provides students with a practical framework for employing essential computer applications in today's business environment. Students apply advanced functions of database, spreadsheet, word processing and presentation software to business analysis and decision-making processes. **Requirements** Sophomore Standing or Above (SO)

**Minimum Credits** 3 **Maximum Credits** 3

## **BUSE 205 Law for Creative Industries**

This course enables future artists, managers and entrepreneurs to better understand legal issues in business dealings in creative industries, and to recognize where legal problems may arise. This is accomplished through readings and lectures relating to copyright and other intellectual property rights, contracts, licensing agreements, First Amendment issues, agency agreements, and the formation of partnerships and corporations.

**Repeatable:** *N*

**Formerly** 28-2111

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits** 3 **Maximum Credits** 3

## **BUSE 208 Business Writing**

The course emphasizes the importance of professionally written communication for artists, entrepreneurs, and managers in today's arts, entertainment and media environment. The course focuses on identifying the most appropriate media and format for reaching target audiences and achieving intended communication goals. It also provides students with the essential tools and skills to organize and effectively convey information in a clear and concise manner.

**Repeatable:** *N*

**Formerly** 28-2120

**Prerequisites** ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or ENGL 109 Writing and Rhetoric I Stretch B or ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits** 3 **Maximum Credits** 3

## **BUSE 220 Entertainment Marketing**

This course teaches students to analyze arts, entertainment, media, and fashion organizations within their environmental context to determine how to position them in the marketplace. Students develop an understanding of the consumer and market, choose proper research techniques to solve problems, determine appropriate promotional techniques to develop relationships with customers, and develop a complete and integrated marketing plan for an organization.

**Repeatable:** *N*

**Formerly** 28-1115

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits** 3 **Maximum Credits** 3

## **BUSE 250 Music Publishing**

Students learn principles and procedures involved in music publishing both nationally and internationally. The course examines copyright basics, registration, and publishing income sources. Analysis of publishing deals and their negotiation provides a foundation in understanding the business of music publishing.

**Repeatable:** *N*

**Formerly** 28-2435

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits** 3 **Maximum Credits** 3

### **BUSE 308 Entrepreneurship**

This class introduces entrepreneurship as a way of thinking and acting that can serve as a springboard for a self-sustaining, creative career. It provides students with insight into how arts, entertainment, and media professionals turn ideas into a business, and how various elements of an organization fit together to become a viable venture, whether in the profit or non-profit world. Through launching their own microbusinesses, students learn to recognize and evaluate opportunities; problem-solve and manage risks; plan and manage time effectively; leverage resources; craft business models; and develop audiences to support their work.

**Repeatable:** *N*

**Formerly** 28-3130

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

### **BUSE 334 Digital Media Strategies**

This class addresses new and emerging business models and strategies in today's rapidly evolving media industries. Topics include an in depth understanding of social media, online marketing, retail and distribution of digital, audio, and visual content including a la carte download services, subscription, and ad-supported streaming services. Additional topics include e-commerce, web design strategy, mobile retail and promotion, community building, direct to consumer marketing, and a variety of other vital tech-based strategies.

**Repeatable:** *N*

**Formerly** 28-3416

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

### **BUSE 354 Decision Making: Music Business**

This capstone course in Music Business examines the organization and operation of principle sectors of the music business: the recording business, artist management and International music management. This course encapsulates the student's academic experience in the Music Business program. Students will explore the decision making process as it relates to the environment of the music business, marketing strategies, artist/performer relationships, deal structures and entrepreneurial opportunities. Students will also focus on a self-assessment and career strategy to assimilate into the music industry.

**Repeatable:** *N*

**Formerly** 28-3472

**Prerequisites** BUSE 135 Business of Music

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

### **BUSE 358 Marketing Data Analytics**

This course explores data analytics and their impact on marketing strategies. Students start with the fundamentals of proprietary social platform insights and move on to more complex consumer observations provided by big data. Students will explore engagement metrics, cost per click, multi-tiered demographics, audience segmentation, return on engagement, customer relationship management, complex targeting structures, behavioral statistics, and email success metrics.

**Repeatable:** *N*

**Formerly** 28-2515

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## CONCENTRATIONS

### Artist Management

#### **BUSE 210 Economics for Creatives**

This course introduces economic principles including supply and demand, consumer choice, opportunity costs, market system, money, and banking as they apply to the management of arts, entertainment and media. The factors that impact each of these principles are also explored in depth. This is an integrated macro-micro introduction for future managers and entrepreneurs.

**Repeatable:** *N*

**Formerly** 28-1112

**Minimum Credits 3 Maximum Credits 3**

#### **BUSE 248 Talent Management**

This course examines the crucial role of professional management for all types of artists and entertainers. Instruction focuses on roles of personal manager, booking agent, talent agent, road manager, and company manager. Course explores formation of an agency, development of talent, and special touring considerations.

**Repeatable:** *N*

**Formerly** 28-2430

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

#### **BUSE 370 Music Industry Deals**

The music business is built on relationships that are formalized by legal transactions that outline the rights and responsibilities of those involved. Students will have the opportunity to read, review, understand, and analyze contemporary agreements pertaining to a variety of aspects of the music business. Students will also have the opportunity to engage with both collaborators and adversaries in the evaluation and negotiation of important agreements, and should learn to pinpoint and apply concepts such as bargaining power, industry standards, incentivization, risk and uncertainty, party expectations, and more. This class aims to educate students on the real-life business of 'doing the deals' that keep the music business running.

**Repeatable:** *N*

**Prerequisites** BUSE 135 Business of Music

**Requirements** Junior Standing or Above (JR)  
**Minimum Credits 3 Maximum Credits 3**

### **BUSE 378 Sponsorship**

This course provides future managers and artists with an understanding of sponsorship techniques and a hands-on experience. They will understand and utilize various sponsorship techniques and learn how to apply those techniques in the arts, entertainment and media industries.

**Repeatable:** N

**Formerly** 28-3760

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

### **BUSE 483 AEMMP Record Label: Practicum**

This course provides students with an experiential learning opportunity operating a student-run record label. Students will work collaboratively on the development and management of music projects that include finding potential artists and repertoire, contract negotiation, production, marketing and distribution. During the Spring semester students may be able to enroll in a section of this course that will participate in activities at the SXSW Music Conference and Festival in Austin, TX.

**Repeatable:** Y

**Formerly** 28-4040

**Prerequisites** BUSE 135 Business of Music

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **BUSE 486 Artist Management: Practicum**

This course provides students with an experiential learning opportunity to work with artists on matters of presentation, marketability, branding, product development, career planning and live performance. Additionally, students will gain management experience as they represent artists, develop promotional materials, create an online presence, plan artist showcases and prepare for product release. During the Spring semester students may be able to enroll in a section of this course that will participate in activities at the SXSW Music Conference and Festival in Austin, TX.

**Repeatable:** Y

**Formerly** 28-4070

**Prerequisites** BUSE 248 Talent Management

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **BUSE 487 Club Management: Practicum**

This course provides students with experiential learning opportunities in programming, marketing, and operating a club-style performance space. The course will include classroom activities and hands-on experiences in the process of identifying appropriate programs and artist/attractions for an acoustic space of c. 100 capacity; developing a performance schedule; contracting talent; devising an operational plan and support documents; managing live public concerts; budgeting and marketing.

**Repeatable:** Y  
**Formerly** 28-4080  
**Requirements** Junior Standing or Above (JR)  
**Minimum Credits 3 Maximum Credits 3**

## Live and Touring

### **BUSE 170 Business of Live Entertainment**

This course introduces students to management fundamentals of both not-for-profit and for-profit organizations involved in the producing, presenting and promoting of live entertainment and the performing arts. It gives students an overview in conceptualizing, forming, financing, managing and operating such entities, and bringing a live event from idea conception to night-of-show. These concepts are explored through both theoretical discussions and practical exercises that focus on evaluation of real events, from concerts to theater productions and other forms of performance art.

**Repeatable:** N  
**Formerly** 28-1718  
**Minimum Credits 3 Maximum Credits 3**

### **BUSE 378 Sponsorship**

This course provides future managers and artists with an understanding of sponsorship techniques and a hands-on experience. They will understand and utilize various sponsorship techniques and learn how to apply those techniques in the arts, entertainment and media industries.

**Repeatable:** N  
**Formerly** 28-3760  
**Requirements** Sophomore Standing or Above (SO)  
**Minimum Credits 3 Maximum Credits 3**

### **BUSE 381 Box Office Management and Ticketing Strategies**

Every organization wants to sell more tickets. How can this be achieved? This course presents revenue maximization techniques, including dynamic pricing, promotional and discounting strategies, list selection and segmentation, new box office technologies, marketing analyses and how these techniques are used in the not-for-profit and for-profit sectors of the creative industries.

**Repeatable:** N  
**Formerly** 28-3815  
**Requirements** Junior Standing or Above (JR)  
**Minimum Credits 3 Maximum Credits 3**

### **BUSE 387 Producing & Touring Live Entertainment**

This course focuses on the process of translating artistic vision into a tangible live production, finding the money to launch it, and putting it on stage and on the road. By examining successful producing and touring organizations, students will deepen their knowledge of organization structure, financing, budgeting, professional ethics, and the tactical responsibilities that producing and touring require. Both profit-making and non-profit performance sectors are covered.

**Repeatable:** N

**Formerly** 28-3832

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

*Choose one of the following courses:*

### **BUSE 483 AEMMP Record Label: Practicum**

This course provides students with an experiential learning opportunity operating a student-run record label. Students will work collaboratively on the development and management of music projects that include finding potential artists and repertoire, contract negotiation, production, marketing and distribution. During the Spring semester students may be able to enroll in a section of this course that will participate in activities at the SXSW Music Conference and Festival in Austin, TX.

**Repeatable:** Y

**Formerly** 28-4040

**Prerequisites** BUSE 135 Business of Music

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

### **BUSE 487 Club Management: Practicum**

This course provides students with experiential learning opportunities in programming, marketing, and operating a club-style performance space. The course will include classroom activities and hands-on experiences in the process of identifying appropriate programs and artist/attractions for an acoustic space of c. 100 capacity; developing a performance schedule; contracting talent; devising an operational plan and support documents; managing live public concerts; budgeting and marketing.

**Repeatable:** Y

**Formerly** 28-4080

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

### **BUSE 488 Events Management: Practicum**

This course is designed to provide resources, tools, and training necessary for planning and management of live events. Students are given hands-on orientation of event management processes and the opportunity to participate in managing actual events.

**Repeatable:** Y

**Formerly** 28-4090

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

Recorded Music and Publishing

### **BUSE 243 Managing Music Productions**

This course provides a comprehensive overview of managing a recording project from initial planning through completion. The role of the music producer in creating a variety of recorded material for the entertainment and media industries is explored. Administrative, technical and musical aspects of production are emphasized as students complete assignments aimed at developing a sense of skill and technique in producing a variety of musical product formats.

**Repeatable:** *N*

**Formerly** 28-2425

**Prerequisites** BUSE 135 Business of Music

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits** 3 **Maximum Credits** 3

## **BUSE 280 Record Label Operations**

This course closely examines the recorded music sector of the music business. Topics include record label operations, distribution, revenue models and artist agreements. Students will learn the fundamentals, best practices, and innovations that take place at record labels and music groups around the world. They will examine how independent and major companies sign artists, build and maintain catalogs, as well as promote and distribute product. The course will focus on day-to-day operations and activities of organizations that develop music projects from inception to the marketplace.

**Repeatable:** *N*

**Prerequisites** BUSE 135 Business of Music

**Minimum Credits** 3 **Maximum Credits** 3

## **BUSE 370 Music Industry Deals**

The music business is built on relationships that are formalized by legal transactions that outline the rights and responsibilities of those involved. Students will have the opportunity to read, review, understand, and analyze contemporary agreements pertaining to a variety of aspects of the music business. Students will also have the opportunity to engage with both collaborators and adversaries in the evaluation and negotiation of important agreements, and should learn to pinpoint and apply concepts such as bargaining power, industry standards, incentivization, risk and uncertainty, party expectations, and more. This class aims to educate students on the real-life business of 'doing the deals' that keep the music business running.

**Repeatable:** *N*

**Prerequisites** BUSE 135 Business of Music

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

*Choose one of the following courses:*

## **BUSE 316 Negotiation Skills**

Course offers the opportunity to learn negotiation techniques, recognize unfair tactics, and bring about mutually beneficial situations. Instruction also touches on body language, personality types, regional and international ethnic differences, and hidden meanings of words.

**Repeatable:** *N*

**Formerly** 28-3152

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

## **BUSE 332 Managing and Licensing Intellectual Property**

This course examines issues related to the management and licensing of intellectual property in the arts, entertainment and media industries, and additionally explores new and emerging opportunities specific to the digital age. Students will engage in intellectual property and industry analysis, including simulated hands-on management of real-world intellectual property portfolios. Students will identify intellectual property assets and portfolios that are appropriate for monetization and will formulate plans for delivering and realizing such value and revenue to the relevant rights holders.

**Repeatable:** N

**Formerly** 28-2250

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **BUSE 350 Music Publishing II: Licensing Strategies**

This course teaches students concepts involved in developing contracts and music licensing strategies in the music industry. Specific topics include: negotiations involving various new media contracts from the viewpoint of the attorney, media company, and artist and manager; strategic budgeting and negotiation of the artistic development deals; licensing of completed recorded music; the internet as a tool for repertoire; and the utilization of technology for artist development.

**Repeatable:** N

**Formerly** 28-3430

**Prerequisites** BUSE 250 Music Publishing

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

## **BUSE 483 AEMMP Record Label: Practicum**

This course provides students with an experiential learning opportunity operating a student-run record label. Students will work collaboratively on the development and management of music projects that include finding potential artists and repertoire, contract negotiation, production, marketing and distribution. During the Spring semester students may be able to enroll in a section of this course that will participate in activities at the SXSW Music Conference and Festival in Austin, TX.

**Repeatable:** Y

**Prerequisites** BUSE 135 Business of Music

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **BUSE 484 AEMMP Digital Distribution and Promotion Agency: Practicum**

This class provides students with an experiential learning opportunity and addresses new and emerging technologically based business models and strategies in today's rapidly evolving music and media industries. Topics include an in depth understanding of the retail and distribution of digital audio and visual content. Additional topics include online promotion strategies, e-commerce, web design strategy, mobile retail and promotion, community building, social network marketing, and direct to consumer marketing. During the Spring semester, students may be able to enroll in a section of this course that will participate in activities at the SXSW Music Conference and Festival in Austin, TX.

**Repeatable:** Y

**Formerly** 28-4060

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

### **BUSE 485 AEMMP Music Publishing: Practicum**

AEMMP Music Publishing: Practicum provides students with an experiential learning opportunity operating a student-run music publishing organization. Students will work with music rights holders and clients in need of music content for various media applications. Areas of focus will include A&R (Artist & Repertoire), publishing administration, licensing strategy and royalty collection. Students will gain publishing management experience as they facilitate licensing opportunities for artists. During the Spring semester, students may be able to enroll in a section of this course that will participate in activities at the SXSW Music Conference and Festival in Austin, TX.

**Repeatable:** Y

**Formerly** 28-4065

**Prerequisites** BUSE 250 Music Publishing

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

## **Music, BA**

The Bachelor of Arts in Music gives students a broad training in the field, which includes a well-rounded curriculum that provides foundational training in music theory, contexts, and contemporary applications. Students choose elective courses and ensembles appropriate to each student's goals. Careful planning also allows the student to effectively integrate the Liberal Arts and Sciences core curriculum with the study of their major. Graduates of the program are prepared for possible careers as performers, arrangers, studio musicians, and composers and will gain tools required for pursuing further study in music. Students have the opportunity to study diverse musical styles, including various forms of Rock, Pop, Jazz and Jazz hybrids, as well as contemporary and classic urban and R & B styles, on a pathway toward discovering creative directions for their lives and careers. For students who have already completed a Bachelor's degree, the Music Department also offers a Second Bachelor of Arts in Music.

As a result of successfully completing program requirements, students should be able to demonstrate:

- basic music literacy, including reading and writing of music notation;
- performance and improvisational skills on an instrument or voice;
- understanding of the characteristics, performance practices, and historical context of a diverse range of musical styles and genres;
- ability to critically assess music performances;
- applied knowledge and foundational skill in composition, improvisation, and digital music production and the ability to create and produce original music; and
- a foundational understanding of the skills and tools required to plan for a career in music or a career that utilizes the student's creative and artistic knowledge, skills and experiences.

## **PROGRAM REQUIREMENTS - 48 credits required**

### **MUSC 110 Foundations of Music I**

Foundations of Music I is the initial course of the Music Core Curriculum and includes instruction in the areas of contemporary music theory, aural skills, piano keyboard (or equivalent), digital audio workstations and a variety of applications used widely in the music industry.

**Repeatable:** *N*

**Formerly** 32-1120

**DEI**

**Concurrent Requisite** MUSC 174 Applied Music I

**Minimum Credits 4 Maximum Credits 4**

## **MUSC 111 Foundations of Music II**

Foundations of Music II is the second course of the Music Core Curriculum and includes instruction in the areas of contemporary music theory, aural skills, piano keyboard (or equivalent), digital audio workstations and a variety of applications used widely in the music industry.

**Repeatable:** *N*

**DEI**

**Prerequisites** MUSC 110 Foundations of Music I

**Concurrent Requisite** MUSC 175 Applied Music II

**Minimum Credits 4 Maximum Credits 4**

## **MUSC 174 Applied Music I**

This course provides an applied experience contemporary instrumental students need prior to enrolling in private lessons. Students will study the foundational knowledge, techniques, skills, and repertoire essential to their chosen instrument. Students will apply their Foundations of Music skills to begin developing an improvisational approach to their instrument.

**Repeatable:** *N*

**Formerly** 32-1321

**Concurrent Requisite** MUSC 110 Foundations of Music I

**Minimum Credits 2 Maximum Credits 2**

## **MUSC 175 Applied Music II**

This course provides an applied experience contemporary instrumental students need prior to enrolling in private lessons. Students will study technique, scales, chords, sight-reading and repertoire. Students will apply their Foundations of Music skills to begin developing an improvisational approach to their instrument.

**Repeatable:** *N*

**Concurrent Requisite** MUSC 111 Foundations of Music II

**Minimum Credits 2 Maximum Credits 2**

## **MUSC 210 Foundations of Music III**

Foundations of Music III is the third course of the Music Core Curriculum and includes instruction in the areas of contemporary music theory, aural skills, piano keyboard (or equivalent), digital audio workstations, and a variety of applications used widely in the music industry.

**Repeatable:** *N*

**DEI**

**Prerequisites** MUSC 111 Foundations of Music II  
**Minimum Credits 3 Maximum Credits 3**

### **MUSC 211 Foundations of Music IV**

Foundations of Music IV focus on the development and influences of the blues on contemporary music as well as exploration of diverse rhythmic influences from many cultures around the world in current music making. The course also focuses on application of concepts from the Foundations sequence in present music practice.

**Repeatable:** N

**DEI**

**Prerequisites** MUSC 210 Foundations of Music III  
**Minimum Credits 3 Maximum Credits 3**

### **MUSC 223 Elements of Music Design**

Elements of Music Design is an intermediate project-based music course to be taken after completing Foundations II in the music sequence. The course is designed to prepare the student to identify music through aural transcription and write music in a specific style. This course is intended for the developing musician in the creation of music in a global context.

**Repeatable:** N

**DEI**

**Prerequisites** MUSC 111 Foundations of Music II  
**Minimum Credits 3 Maximum Credits 3**

### **MUSC 271 Primary Lessons**

This course offers private instruction at a developing level in voice or primary instrument for students registered in at least one other music course concurrently. The course is repeatable, but requires authorization by an area coordinator for first-time enrollment.

**Repeatable:** Y

**Formerly** 32-2771

**Prerequisites** MPRL-2-100 EXAM-MPRL MINIMUM SCORE = 100  
Music Department Students Only (8MUS)  
**Minimum Credits 2 Maximum Credits 2**

### **MUSC 325 Arranging and Orchestration**

This course examines arranging and orchestration, including acoustic and electronic instruments, their ranges, and sound characteristics. Students will learn to construct basic lead sheets and create arrangements for large and small ensembles in various genres. Topics also include score and part preparation according to industry standards.

**Repeatable:** N

**Formerly** 32-2250

**DEI**

**Prerequisites** MUSC 223 Elements of Music Design and MUSC 210 Foundations of Music III  
**Minimum Credits 3 Maximum Credits 3**

## **MUSC 350 Applied Music Production**

An intermediate course to be taken after completing Foundations of Music sequence. Prepares instrumentalists, singers, and songwriters for more advanced concepts in the creation of music and further develops students' fluency in current music technology tools used throughout the program. Applies the digital environment toward the creation of larger-scale projects and includes concepts in music production, arranging, orchestration, and score preparation.

**Repeatable:** *N*

**Formerly** 32-2925

**Prerequisites** MUSC 211 Foundations of Music IV or MUSC 152 Technology for Musicians I and MUSC 177 Keyboard Styles and Techniques I

**Minimum Credits 3 Maximum Credits 3**

## **MUSC 361 Music, Time, and Place I**

This course addresses ways in which music shapes and is shaped by its social, cultural, and historical contexts. Through reading, writing, and focused listening, students explore the range of philosophies undergirding diverse musical practices and the processes through which those philosophies change over time. Students examine the technical features of specific musical examples as they engage with the aesthetic and ideological issues animating musical practice.

**Repeatable:** *N*

**Formerly** 32-2611

**DEI**

**Prerequisites** MUSC 111 Foundations of Music II

**Minimum Credits 3 Maximum Credits 3**

## **MUSC 362 Music, Time, and Place II**

This course addresses the extraordinary social and cultural upheavals associated with music since 1900. Through reading, writing, and focused listening, students explore the range of challenges to the traditional high art canon asserted through new technologies, new philosophies, and the ascendancy of African-American musical practices.

**Repeatable:** *N*

**Formerly** 32-2612

**DEI**

**Prerequisites** MUSC 111 Foundations of Music II

**Minimum Credits 3 Maximum Credits 3**

## **MUSC 363 Music Styles and Analysis**

Music Styles and Analysis is an advanced theory and criticism class designed to be taken after completing the Foundations of Music Sequence. The course develops a sensitivity to stylistic markers acquired through aural analysis with the ability to apply such appropriately in composition, arranging and performance.

**Repeatable:** *N*

**Formerly** 32-3630

**DEI**

**Prerequisites** MUSC 211 Foundations of Music IV or MUSC 235 Techniques for Improvisation II

**Minimum Credits 3 Maximum Credits 3**

## **MUSC 488 BA Senior Music Seminar**

A required capstone course for BA Music students which will help and supervise the compilation of a comprehensive portfolio consisting of a CV and resume, as well as help organize, prepare, build and navigate contemporary print, electronic and digital media necessary for self-promotion. In addition, essential professional information about musicians unions, guilds, and associations will be discussed.

**Repeatable:** N

**Prerequisites** MUSC 211 Foundations of Music IV

**Requirements** Senior Standing (SR) Music Majors Only (M320)

**Minimum Credits 1 Maximum Credits 1**

*Choose one of the following courses:*

## **MUSC 181G Gospel Choir**

This ensemble is an introductory-level performance class focused on Gospel choral music. Students apply basic music skills, build ensemble awareness, and develop performance techniques necessary for participating in a large chorus experience. No audition required.

**Repeatable:** Y

**Minimum Credits 1 Maximum Credits 1**

## **MUSC 181J Jazz/Pop Choir**

This ensemble is an introductory-level performance class focused on Jazz and contemporary music arranged for choir. Students apply basic music skills, build ensemble awareness, and develop performance techniques necessary for participating in a large chorus experience. No audition required.

**Repeatable:** Y

**Minimum Credits 1 Maximum Credits 1**

*Choose one of the following courses:*

## **MUSC 228 Digital Music Composition and Performance**

This course develops the foundational skills and knowledge necessary for the creative use of technology in music composition and performance. Students will learn the basics of electro-acoustic music, object-oriented computer programming, psychoacoustics, and live and automated manipulation of audio as it relates to sound production and music composition. This course will give students an understanding of the technology essential to today's composer/performer in a hands-on environment that emphasizes the immediate creative application of new knowledge.

**Repeatable:** N

**Formerly** 32-2261

**Prerequisites** MUSC 111 Foundations of Music II

**Minimum Credits 2 Maximum Credits 2**

## **MUSC 327 Songwriting I**

The course examines the craft of popular songwriting from both a historical and applied practical viewpoint. The course is designed for composers and lyricists who are already writing songs, and wish to broaden their

understanding of the craft, as well as for singers and instrumentalists in learning to collaborate effectively.

**Repeatable:** *N*

**Formerly** 32-2221

**Prerequisites** MUSC 111 Foundations of Music II

**Minimum Credits 3 Maximum Credits 3**

## **MUSC 330 Composition I**

This course introduces the student to the fundamentals of music composition. Through analysis of existing works from numerous styles and traditions, compositional exercises, and instructional guidance in the students' own creative compositional work, students learn to envision, plan, and execute compositional ideas and realize them using current, commonly employed tools and processes, with focus on the deliberate and controlled use of all musical parameters as structural as well as expressive elements. Classroom performance of works, both in progress and finished, is an integral part of the instructional method, as is the examination, discussion, and critical feedback of all students' work, both by the instructor as well as by their peers.

**Repeatable:** *N*

**Prerequisites** MUSC 211 Foundations of Music IV and MUSC 223 Elements of Music Design

**Minimum Credits 3 Maximum Credits 3**

## **MUSC 335 Creative Improvisational Practice I**

This is an advanced study in improvisation. Students in this course will explore standard jazz and contemporary repertoire through application of theoretical and technical concepts. This course is a part of a sequence for Music Majors. Students will apply the methods taught in this class in their private study.

**Repeatable:** *N*

**Formerly** 32-3383

**Prerequisites** MUSC 111 Foundations of Music II

**Minimum Credits 2 Maximum Credits 2**

## **MUSC 336 Composition Practicum I**

This course allows students to apply their compositional skills in applied settings as they are currently found in arts and entertainment. Under the guidance of their instructor(s), students write and produce music for several collaborative works in media or the performing arts, adhering to the specific needs of the project at hand, as well as to the current practice prevalent in that type of media or performance. The development and continual adjustment of compositional strategies to support the creative brief and the needs of the project at hand, and the communication with the project creator in this regard, are as integral to the work as the actual composition and production of the music.

**Repeatable:** *N*

**Prerequisites** MUSC 211 Foundations of Music IV

**Minimum Credits 3 Maximum Credits 3**

## **MUSC 371 Primary Lessons**

This course offers private instruction at an intermediate level in voice or primary instrument for students registered in at least one other music course concurrently. The course is repeatable, but requires authorization by an area coordinator for first-time enrollment.

**Repeatable:** Y

**Formerly** 32-3771

**Prerequisites** MPRL-3-100 EXAM-MPRL MINIMUM SCORE = 100

Music Department Students Only (8MUS)

**Minimum Credits 2 Maximum Credits 2**

## **MUSC 373 Composition Lessons**

This course offers intermediate private instruction in composition for music students. In this course, students continue to foster their own creative voice in any compositional style they choose, through work on a piece (or several short pieces) for any acoustic or a combination of acoustic and electronic medium. The course is repeatable, but requires authorization by an area coordinator for first-time enrollment.

**Repeatable:** Y

**Formerly** 32-3791

**Prerequisites** MUSC 228 Digital Music Composition and Performance or MCPL-3-100 EXAM-MCPL MINIMUM SCORE = 100

**Requirements** Permission Required (DP) Music Department Students Only (8MUS)

**Minimum Credits 2 Maximum Credits 2**

*Choose one of the following courses:*

## **MUSC 427 Songwriting II**

This course extends and expands topics discussed in Songwriting I, and addresses additional topics for the professional songwriter. The class includes lyric, harmonic, melodic and formal analysis, and looks at the resulting symbiosis of these elements in forming a well-crafted and coherent whole. Also addresses application of these elements to create more artful narrative approaches and their application in larger and more complex musical forms. The class includes intensive workshops for discussion and development of student works in progress. Aspects of publishing, royalty structures and professional alternatives for the working songwriter are also addressed.

**Repeatable:** N

**Formerly** 32-3222

**Prerequisites** MUSC 327 Songwriting I

**Minimum Credits 3 Maximum Credits 3**

## **MUSC 435 Creative Improvisational Practice II**

This is an advanced study in improvisation. Students in this course will explore standard jazz and contemporary repertoire while developing their own voice as an improviser. This course is a part of a sequence for Music Majors. Students will apply the methods taught in this class in their private study.

**Repeatable:** N

**Formerly** 32-3384

**Prerequisites** MUSC 335 Creative Improvisational Practice I

**Minimum Credits 2 Maximum Credits 2**

## **MUSC 471 Primary Lessons**

This course offers instruction at an advanced level in voice or primary instrument for students registered in at least one other music course concurrently. The course is repeatable, but requires authorization by an area coordinator for first-time enrollment

**Repeatable:** Y

**Prerequisites** MPRL-4-100 EXAM-MPRL MINIMUM SCORE = 100

**Requirements** Junior Standing or Above (JR) Music Department Students Only (8MUS)

**Minimum Credits 2 Maximum Credits 2**

## **MUSC 473 Composition Lessons**

This course offers advanced private instruction in composition for music students. In this course, students continue to foster their own creative voice in any compositional style they choose, through work on a piece (or several short pieces) for a chamber ensemble of varying instrumentation. The course is repeatable, but requires authorization by an area coordinator for first-time enrollment.

**Repeatable:** Y

**Prerequisites** MCPL-4-100 EXAM-MCPL MINIMUM SCORE = 100

**Requirements** Permission Required (DP) Music Department Students Only (8MUS)

**Minimum Credits 2 Maximum Credits 2**

## **Ensemble Electives**

*Complete 4 credits from the following courses:*

### **MUSC 180 Styles & Techniques Ensemble**

Styles and Techniques Ensemble is an introductory-level performance class for instrumentalists and/or vocalists. Styles and Techniques ensembles investigate characteristic elements of a variety of classic and contemporary genres, through a series of genre-specific modules. Ensembles are an integral component of the music program, focusing on musicianship as it applies to technical ability, music literacy, theory, history, and aural skills. Students regularly apply ensemble awareness and effective rehearsal and performance techniques, building confidence in their own abilities and in their ability to function as an effective team.

**Repeatable:** Y

**Formerly** 32-1890

**Requirements** Permission Required (DP) Music Department Students Only (8MUS)

**Minimum Credits 1 Maximum Credits 1**

### **MUSC 181G Gospel Choir**

This ensemble is an introductory-level performance class focused on Gospel choral music. Students apply basic music skills, build ensemble awareness, and develop performance techniques necessary for participating in a large chorus experience. No audition required.

**Repeatable:** Y

**Minimum Credits 1 Maximum Credits 1**

### **MUSC 181J Jazz/Pop Choir**

This ensemble is an introductory-level performance class focused on Jazz and contemporary music arranged for choir. Students apply basic music skills, build ensemble awareness, and develop performance techniques necessary for participating in a large chorus experience. No audition required.

**Repeatable:** Y

**Minimum Credits 1 Maximum Credits 1**

### **MUSC 280 Performance Ensemble: Survey**

The Performance Survey Ensemble course is an intermediate-level performance class for instrumentalists and/or vocalists. Survey Ensembles investigate characteristic elements of a variety of classic and contemporary genres, through a series of genre-specific modules. Ensembles are an integral component of the music program, focusing on musicianship as it applies to technical ability, music literacy, theory, history, and aural skills. Students regularly apply ensemble awareness and effective rehearsal and performance techniques, building confidence in their own abilities and in their ability to function as an effective team.

**Repeatable:** Y

**Formerly 32-2890**

**DEI**

**Requirements** Permission Required (DP) Music Department Students Only (8MUS)

**Minimum Credits 1 Maximum Credits 1**

### **MUSC 380A Performance Ensemble: American Roots**

The Performance Genre Ensemble course is an advanced-intermediate level performance class for instrumentalists, composers and/or vocalists. Genre ensembles engage in the history, performance and composition of specific styles and threads of contemporary and popular music. Ensembles are an integral component of the music program, focusing on musicianship as it applies to technical ability, music literacy, theory, history, and aural skills. Students regularly apply ensemble awareness and effective rehearsal and performance techniques, building confidence in their own abilities and in their ability to function as an effective team.

**Repeatable:** Y

**Formerly MUSC 380**

**Requirements** Permission Required (DP) Music Department Students Only (8MUS)

**Minimum Credits 1 Maximum Credits 1**

### **MUSC 380B Performance Ensemble: Breakaway**

The Performance Genre Ensemble course is an advanced-intermediate level performance class for instrumentalists, composers and/or vocalists. Genre ensembles engage in the history, performance and composition of specific styles and threads of contemporary and popular music. Ensembles are an integral component of the music program, focusing on musicianship as it applies to technical ability, music literacy, theory, history, and aural skills. Students regularly apply ensemble awareness and effective rehearsal and performance techniques, building confidence in their own abilities and in their ability to function as an effective team.

**Repeatable:** Y

**Requirements** Permission Required (DP) Music Department Students Only (8MUS)

**Minimum Credits 1 Maximum Credits 1**

### **MUSC 380C Performance Ensemble: Laptop Ensemble**

The Performance Genre Ensemble course is an advanced-intermediate level performance class for instrumentalists, composers and/or vocalists. Genre ensembles engage in the history, performance and composition of specific styles and threads of contemporary and popular music. Ensembles are an integral component of the music program, focusing on musicianship as it applies to technical ability, music literacy, theory, history, and aural skills. Students regularly apply ensemble awareness and effective rehearsal and performance techniques, building confidence in their own abilities and in their ability to function as an effective team.

**Repeatable:** Y

**Requirements** Permission Required (DP) Music Department Students Only (8MUS)

**Minimum Credits 1 Maximum Credits 1**

### **MUSC 380G Performance Ensemble: Gospel Repertory Ensemble**

The Performance Genre Ensemble course is an advanced-intermediate level performance class for instrumentalists, composers and/or vocalists. Genre ensembles engage in the history, performance and composition of specific styles and threads of contemporary and popular music. Ensembles are an integral component of the music program, focusing on musicianship as it applies to technical ability, music literacy, theory, history, and aural skills. Students regularly apply ensemble awareness and effective rehearsal and performance techniques, building confidence in their own abilities and in their ability to function as an effective team.

**Repeatable:** Y

**Requirements** Permission Required (DP) Music Department Students Only (8MUS)

**Minimum Credits 1 Maximum Credits 1**

### **MUSC 380J Performance Ensemble: Jazz Combos**

The Performance Genre Ensemble course is an advanced-intermediate level performance class for instrumentalists, composers and/or vocalists. Genre ensembles engage in the history, performance and composition of specific styles and threads of contemporary and popular music. Ensembles are an integral component of the music program, focusing on musicianship as it applies to technical ability, music literacy, theory, history, and aural skills. Students regularly apply ensemble awareness and effective rehearsal and performance techniques, building confidence in their own abilities and in their ability to function as an effective team.

**Repeatable:** Y

**Requirements** Permission Required (DP) Music Department Students Only (8MUS)

**Minimum Credits 1 Maximum Credits 1**

### **MUSC 380L Performance Ensemble: Latin Ensemble**

The Performance Genre Ensemble course is an advanced-intermediate level performance class for instrumentalists, composers and/or vocalists. Genre ensembles engage in the history, performance and composition of specific styles and threads of contemporary and popular music. Ensembles are an integral component of the music program, focusing on musicianship as it applies to technical ability, music literacy, theory, history, and aural skills. Students regularly apply ensemble awareness and effective rehearsal and performance techniques, building confidence in their own abilities and in their ability to function as an effective team.

**Repeatable:** Y

**Requirements** Permission Required (DP) Music Department Students Only (8MUS)

**Minimum Credits 1 Maximum Credits 1**

### **MUSC 380N Performance Ensemble: New Music Ensemble**

The Performance Genre Ensemble course is an advanced-intermediate level performance class for instrumentalists, composers and/or vocalists. Genre ensembles engage in the history, performance and composition of specific styles and threads of contemporary and popular music. Ensembles are an integral component of the music program, focusing on musicianship as it applies to technical ability, music literacy, theory, history, and aural skills. Students regularly apply ensemble awareness and effective rehearsal and performance techniques, building confidence in their own abilities and in their ability to function as an effective team.

**Repeatable:** Y

**Requirements** Permission Required (DP) Music Department Students Only (8MUS)

**Minimum Credits 1 Maximum Credits 1**

### **MUSC 380P Performance Ensemble: Hip-Hop Ensemble**

The Performance Genre Ensemble course is an advanced-intermediate level performance class for instrumentalists, composers and/or vocalists. Genre ensembles engage in the history, performance and composition of specific styles and threads of contemporary and popular music. Ensembles are an integral component of the music program, focusing on musicianship as it applies to technical ability, music literacy, theory, history, and aural skills. Students regularly apply ensemble awareness and effective rehearsal and performance techniques, building confidence in their own abilities and in their ability to function as an effective team.

**Repeatable:** Y

**Requirements** Permission Required (DP) Music Department Students Only (8MUS)

**Minimum Credits 1 Maximum Credits 1**

### **MUSC 380U Performance Ensemble: Guitar Ensemble**

The Performance Genre Ensemble course is an advanced-intermediate level performance class for instrumentalists, composers and/or vocalists. Genre ensembles engage in the history, performance and composition of specific styles and threads of contemporary and popular music. Ensembles are an integral component of the music program, focusing on musicianship as it applies to technical ability, music literacy, theory, history, and aural skills. Students regularly apply ensemble awareness and effective rehearsal and performance techniques, building confidence in their own abilities and in their ability to function as an effective team.

**Repeatable:** Y

**Requirements** Permission Required (DP) Music Department Students Only (8MUS)

**Minimum Credits 1 Maximum Credits 1**

### **MUSC 480F Showcase Ensemble: Fusion Ensemble**

Fusion Ensemble course is an advanced-level performance class for instrumentalists and/or vocalists. Repertoire is drawn from advanced-level material appropriate to the style. Ensembles are an integral component of the music program, focusing on musicianship as it applies to technical ability, music literacy, theory, history, and aural skills. Students regularly apply ensemble awareness and effective rehearsal and performance techniques, building confidence in their own abilities and in their ability to function as an

effective team.

**Repeatable:** Y

**Requirements** Permission Required (DP) Music Department Students Only (8MUS)

**Minimum Credits 1 Maximum Credits 1**

### **MUSC 480G Showcase Ensemble: Gospel Band**

The Gospel Band course is an advanced-level performance class for instrumentalists and/or vocalists. Repertoire is drawn from advanced-level material appropriate to the style. Ensembles are an integral component of the music program, focusing on musicianship as it applies to technical ability, music literacy, theory, history, and aural skills. Students regularly apply ensemble awareness and effective rehearsal and performance techniques, building confidence in their own abilities and in their ability to function as an effective team.

**Repeatable:** Y

**Requirements** Permission Required (DP) Music Department Students Only (8MUS)

**Minimum Credits 1 Maximum Credits 1**

### **MUSC 480J Showcase Ensemble: Columbia College Jazz Ensemble**

The Columbia College Jazz Ensemble course is an advanced-level performance class for instrumentalists. Repertoire is drawn from advanced-level material appropriate to the style. Ensembles are an integral component of the music program, focusing on musicianship as it applies to technical ability, music literacy, theory, history, and aural skills. Students regularly apply ensemble awareness and effective rehearsal and performance techniques, building confidence in their own abilities and in their ability to function as an effective team.

**Repeatable:** Y

**Requirements** Permission Required (DP) Music Department Students Only (8MUS)

**Minimum Credits 1 Maximum Credits 1**

### **MUSC 480L Showcase Ensemble: Latin Ensemble**

The Latin Ensemble course is an advanced-level performance class for instrumentalists and/or vocalists. Repertoire is drawn from advanced-level material appropriate to the style. Ensembles are an integral component of the music program, focusing on musicianship as it applies to technical ability, music literacy, theory, history, and aural skills. Students regularly apply ensemble awareness and effective rehearsal and performance techniques, building confidence in their own abilities and in their ability to function as an effective team.

**Repeatable:** Y

**Requirements** Permission Required (DP) Music Department Students Only (8MUS)

**Minimum Credits 1 Maximum Credits 1**

### **MUSC 480P Showcase Ensemble: Pop/Rock Ensemble**

The Pop Rock Showcase course is an advanced-level performance class for instrumentalists and/or vocalists. Repertoire is drawn from advanced-level material appropriate to the style. Ensembles are an integral component of the music program, focusing on musicianship as it applies to technical ability, music literacy, theory, history, and aural skills. Students regularly apply ensemble awareness and effective rehearsal and performance techniques, building confidence in their own abilities and in their ability to

function as an effective team.

**Repeatable:** Y

**Requirements** Permission Required (DP) Music Department Students Only (8MUS)

**Minimum Credits 1 Maximum Credits 1**

### **MUSC 480R Showcase Ensemble: R&B Ensemble**

The R&B Ensemble course is an advanced-level performance class for instrumentalists and/or vocalists. Repertoire is drawn from advanced-level material appropriate to the style. Ensembles are an integral component of the music program, focusing on musicianship as it applies to technical ability, music literacy, theory, history, and aural skills. Students regularly apply ensemble awareness and effective rehearsal and performance techniques, building confidence in their own abilities and in their ability to function as an effective team.

**Repeatable:** Y

**Requirements** Permission Required (DP) Music Department Students Only (8MUS)

**Minimum Credits 1 Maximum Credits 1**

### **MUSC 480V Showcase Ensemble: ChicagoVox**

Chicago Vox is an advanced-level performance class for vocalists. Repertoire is drawn from advanced-level material appropriate to the style. Ensembles are an integral component of the music program, focusing on musicianship as it applies to technical ability, music literacy, theory, history, and aural skills. Students regularly apply ensemble awareness and effective rehearsal and performance techniques, building confidence in their own abilities and in their ability to function as an effective team.

**Repeatable:** Y

**Requirements** Permission Required (DP) Music Department Students Only (8MUS)

**Minimum Credits 1 Maximum Credits 1**

### **MUSC 481 Recording and Performance Ensemble**

This advanced course requires students to develop their own collaborative projects, with the ultimate goal of creating a professionally marketable performing and recording entity. Over the course of the academic year, with the advice and coaching of their ensemble directors, the groups will develop a set of material for live-showcase performance, and create a fully produced, 3-5 song set of recordings suitable for commercial release. The bands will work closely with faculty, staff producers, resident and guest artists in creating their recorded product, and will have additional opportunities to create and perform in concert with select resident artists. Over the course of their two-semester project, band members may be engaged in various aspects of their project's creative and business activities including development of group persona, genre and direction, songwriting and repertoire development. Projects may also collaborate on their promotional, and overall artist-development materials with students and teams from the Music Business program. The class closely models experiences found in the professional space, and takes the student outside of their comfort zone in preparing them for the challenges of the music industry.

**Repeatable:** Y

**Formerly** MUSC 480

**Requirements** Permission Required (DP) Music Department Students Only (8MUS)

**Minimum Credits 1 Maximum Credits 1**

# Musical Theatre, BA

The BA in Musical Theatre offers training in acting, dance techniques and styles, voice and musicianship, character and ensemble, voice and movement, and theatre history. Our approach emphasizes the synthesis of acting, singing, and dancing in musical theatre performance. Students are encouraged to put into practice what they learn in the classroom through hands-on engagement in the preparation and presentation of performances produced in the department.

Students are encouraged to audition for musical theatre productions and non-musical plays. In the classroom, students work with a faculty of professionals in the field, who bring their expertise to the art, craft, and business of theatre. In addition, the program encourages students to take elective courses in related areas, such as directing, stage management, design, marketing and management, on-camera acting, and voiceover performance. This pragmatic approach prepares students to face the challenging realities of making a life in the performing arts.

As a result of successfully completing program requirements, students should be able to:

- inhabit a role as cast, demonstrating the ability to use research, text and score analysis, rehearsal, and exploration;
- exhibit foundational vocal technique, musicianship, and song interpretation skills;
- articulate fundamental dance terminology and demonstrate technique in ballet, jazz, tap, and musical theatre styles as an additional means of furthering the dramatic life of a scene;
- communicate a thorough knowledge of musical theatre repertory and history;
- effectively utilize the body and voice as the actor's instruments of communication; and
- model a broad understanding of musical theatre performance as theatrical art and craft and how it intersects with other theatrical disciplines.

## PROGRAM REQUIREMENTS - 47 credits required

### **MUSC 104 Theory II for Musical Theatre**

Theory II for Musical Theatre is a fundamental course tailored to musical theatre students in the Musical Theatre BA and Musical Theatre Performance BFA, as well as other programs. The course concentrates on the core theoretical concepts utilized in music and provides basic aural skills training incorporating genre appropriate music. The course combines study of the concepts of notation, rhythm, tonality, and harmony in the context of reading and aural perception of music through performance and dictation of melodies, intervals, triads, major and minor scales, chord progressions, and basic chord structures. Students learn the written musical theory for concepts addressed in the course and have the ability to demonstrate and apply them through dictation and performance.

**Repeatable:** *N*

**Formerly** 32-1170

**Prerequisites** MUSC 103 Theory I for Musical Theatre or MUSC-T-77 EXAM-MUSC MINIMUM SCORE = 77

Music Theatre Majors Only (2MUS)

**Minimum Credits 3 Maximum Credits 3**

### **MUSC 107 Fundamentals of Musical Theatre Singing**

This course is a beginning level class in singing for the musical theatre performer. It is designed to familiarize students with fundamental vocal techniques and musical theatre repertoire and to help students

become comfortable with solo and ensemble singing onstage.

**Repeatable:** *N*

**Formerly** 32-1540

**Requirements** Permission Required (DP) Musical Theatre Majors Only (2MUS)

**Minimum Credits** 3 **Maximum Credits** 3

## **THEA 107 Theatre Survey II: American Drama**

The American theatre both reflects and creates American identity. This course will examine plays from the mid-nineteenth century through the present day to investigate the ways that Americans participated in the construction, and deconstruction, of Americans' sense of self. Rather than a complete review of American drama, this course will survey a range of content, form, and styles as they define American drama and American identity.

**Repeatable:** *N*

**Prerequisites** THEA 106 Theatre Survey I: Global Drama or THEA 124 Comedy Survey I or THEA 141 Musical Theatre Foundations

**Minimum Credits** 2 **Maximum Credits** 2

## **THEA 112 Theatre Foundation II: Performance**

In Theatre Foundation II: Performance students will explore presence, the audience/performer relationship and how to shape time, space and energy in work with scripted and devised material. This course is a continuation of Theatre Foundation I and provides a strong foundation for the performer through an integrated study of movement and voice, ensemble and performance. Students will investigate dramatic story telling by exploring the relationship between text and character and in working on monologues and two person scenes.

**Repeatable:** *N*

**Formerly** 31-1252

**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making or THEA 120 Comedy Foundations I: Ensemble and Discovery or THEA 141 Musical Theatre Foundations

**Concurrent Requisite** THEA 107 Theatre Survey II: American Drama

**Minimum Credits** 4 **Maximum Credits** 4

## **THEA 140 Musical Theatre History**

Required for Musical Theatre/Musical Theatre Performance majors, also open as elective to students in other majors. Course examines musical theatre history from beginnings through 'The Golden Age' of American song and the American musical to the present. Students study key figures, songs and shows in musical theatre, as well as social and cultural factors that influenced the form. Course develops research and critical thinking skills through reading and discussion of textbook, audio/visual presentations, essays, research projects, and tests.

**Repeatable:** *N*

**Formerly** 31-1400

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Minimum Credits** 3 **Maximum Credits** 3

## **THEA 141 Musical Theatre Foundations**

Musical Theatre (MT) Foundations prepares incoming students for their role as creative practitioners of musical theatre. Students investigate the elements and principles of the artistic process that can be applied to all aspects of creating musical theatre. The course develops students' awareness, observation and collaborative skills, and their ability to transpose experiences in the world of the play or musical into written, vocal and physical form. Production numbers that explore style and representative genres will be major projects. Readings, composition work in class, and attendance at productions deepen students' understanding and appreciation of the scope of contemporary musical theatre-making. The course will meet in a five-week sub session.

**Repeatable:** *N*

Musical Theatre Majors Only (3MUS)

**Minimum Credits 1 Maximum Credits 1**

## **THEA 202 Traditions of World Theatre**

This course will survey the dramas, history, and aesthetics of performance traditions from various locations around the world including Africa, Asia, Latin America, and the West (United States and Europe), emphasizing important developments and highlighting pivotal movements and participants within their broader historical, social, and cultural contexts. Through an examination of theatrical forms, expressive styles, and contributions of performance traditions from around the world, students will become acquainted with how theatre reflects and constitutes community and culture.

**Repeatable:** *N*

**Formerly** 31-2103

**HU DEI**

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

## **THEA 205 Text Analysis**

This course introduces students to varying methods and approaches to script analysis. While students will become familiar with traditional methods of analysis, a significant emphasis will be placed on alternative and complementary methods including contemplation and intuitive responses, visualization and imagery, and somatic responses to play scripts. Through course readings, presentations, and group activities, furthermore, this course will familiarize students with vocabulary and strategies of analysis for actors, designers, and playwrights, thereby facilitating communication of production ideas.

**Repeatable:** *N*

**Formerly** 31-2120

**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making and ENGL 112 Writing and Rhetoric II or THEA 111 Theatre Foundation I: Theatre Making and ENGL 112H Writing and Rhetoric II: Honors or THEA 111 Theatre Foundation I: Theatre Making and ENGL 122 International Writing and Rhetoric II or THEA 141 Musical Theatre Foundations and ENGL 112 Writing and Rhetoric II or THEA 141 Musical Theatre Foundations and ENGL 112H Writing and Rhetoric II: Honors or THEA 141 Musical Theatre Foundations and ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

## **THEA 240 Musical Theatre Scene Study**

This course requires the musical theatre student to apply their knowledge of basic scene structure and musicality to material from the musical theatre repertoire. The students study and perform two or three-

person scenes from musical theatre works with an eye towards introducing the synthesis of song, vocal technique, text, objectives and tactics to further the dramatic life of the material.

**Repeatable:** *N*

**Formerly** 31-2201

**Prerequisites** MUSC 107 Fundamentals of Musical Theatre Singing and THEA 102 Scene Study for Non-Acting Majors and THEA 143 Musical Theatre Dance I and MUSC 104 Theory II for Musical Theatre and THEA 140 Musical Theatre History or MUSC 107 Fundamentals of Musical Theatre Singing and THEA 112 Theatre Foundation II: Performance and THEA 143 Musical Theatre Dance I and MUSC 104 Theory II for Musical Theatre and THEA 140 Musical Theatre History

**Minimum Credits 3 Maximum Credits 3**

## **THEA 340 Scenes and Songs**

In this multi-disciplinary course in acting and singing for musical theatre, students prepare and perform material from several genres of the musical theatre canon and apply dramaturgical research and text analysis to characterization. Students work to bring characters to life through complete physical, vocal and emotional transformation. Performance style will be introduced, and strong musicianship and vocal technique will continue to be integrated. Emphasis will be placed on working within a supportive ensemble aesthetic, developing a language of constructive feedback and participating in the growth of classmates' work.

**Repeatable:** *N*

**Formerly** 31-2400

**Prerequisites** THEA 205 Text Analysis and THEA 240 Musical Theatre Scene Study and MUSC 171 Primary Lessons or THEA 205 Text Analysis and THEA 240 Musical Theatre Scene Study and MUSC 271 Primary Lessons

**Minimum Credits 3 Maximum Credits 3**

## **THEA 390 Theatre Career**

This course will provide upper level Theatre majors with practical knowledge they will need to transition into careers in their field. Taught by our faculty of theatre professionals, this course explores: unions and contracts as they relate to theatre artists; models of producing: from the storefront theatre to LORT; creating a new theatre company; and self-promotion.

**Repeatable:** *N*

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 1 Maximum Credits 1**

## **THEA 420 Professional Survival and How to Audition**

Course examines techniques of self-promotion; knowledge of talent agencies and casting directors; unions, contracts, and bookkeeping for performers; and opportunities in the local market. Students work on monologues and cold readings for auditions. Course assists acting students making the transition from college to career by providing professional survival information, tools, and techniques. Students with an Acting concentration are required to take this course during their senior year.

**Repeatable:** *N*

**Formerly** 31-3900

**Minimum Credits 3 Maximum Credits 3**

*Complete 4 credits from the following courses:*

### **MUSC 171 Primary Lessons**

This course offers a progressive method through private instruction on a student's primary instrument for which a comparable Techniques Class Instruction is currently unavailable. Students must be registered in at least one other music course concurrently. The course is repeatable, but requires authorization by an area coordinator for first-time enrollment.

**Repeatable:** Y

**Formerly** 32-1771

**Prerequisites** MPRL-1-100 EXAM-MPRL MINIMUM SCORE = 100

Music Department Students Only (8MUS)

**Minimum Credits 2 Maximum Credits 2**

### **MUSC 271 Primary Lessons**

This course offers private instruction at a developing level in voice or primary instrument for students registered in at least one other music course concurrently. The course is repeatable, but requires authorization by an area coordinator for first-time enrollment.

**Repeatable:** Y

**Formerly** 32-2771

**Prerequisites** MPRL-2-100 EXAM-MPRL MINIMUM SCORE = 100

Music Department Students Only (8MUS)

**Minimum Credits 2 Maximum Credits 2**

*Complete 6 credits from the following courses:*

### **THEA 143 Musical Theatre Dance I**

This course is a practical approach to the basic techniques of musical theatre dance required of musical theatre majors at the beginning level. Each class includes ballet and jazz dance terminology, basic floor combinations, and a variety of musical theatre dance styles. Students are offered a focused approach to develop performance skills and demonstrate improved flexibility, musicality and strength in ballet and jazz techniques. Students are introduced to musical theatre dance combinations and professional musical theatre audition procedures.

**Repeatable:** Y

**Formerly** 31-1430

Musical Theatre Majors Only (3MUS)

**Minimum Credits 2 Maximum Credits 2**

### **THEA 243 Musical Theatre Dance II**

This course expands the technical skills in musical theatre dance styles required of musical theatre majors at the intermediate level. Each class includes ballet and jazz dance terminology, floor combinations, a variety of musical theatre dance styles and mock auditions. Students are challenged with more complicated material, and greater demands are placed on speed of learning and retention of choreography for audition purposes. Significant attention is paid to audition practices and professional discipline.

**Repeatable:** Y

**Formerly** 31-2430

**Prerequisites** THEA 143 Musical Theatre Dance I

**Minimum Credits 2 Maximum Credits 2**

### **THEA 440 Musical Theatre Dance III**

This course incorporates all techniques and performance skills acquired in previous musical theatre dance levels, with an emphasis on the elements of style in musical theatre dance. Students frequently learn original Broadway choreography. Attention focuses on developing advanced audition and performance skills in preparation for seeking employment in the musical theatre industry. Significant attention is placed on audition practices and professional discipline. Students are required to audition for Columbia College Theatre Department as well as professional theatre productions.

**Repeatable:** Y

**Formerly** 31-3430

**Prerequisites** THEA 243 Musical Theatre Dance II

**Minimum Credits 2 Maximum Credits 2**

*Choose one of the following courses:*

### **THEA 145 Beginning Musical Theatre Tap**

This course develops dance technique and repertoire within the specialized styles of musical theatre tap and is required of musical theatre majors at the beginning level. Each class includes tap terminology, rhythm progressions, and Broadway-style tap combinations. Students are offered a focused approach to develop performance skills and demonstrate improved flexibility, strength, and the ability to execute basic rhythm sequences. Students are introduced to tap dance combinations and professional musical theatre audition procedures.

**Repeatable:** Y

**Formerly** 31-1431

**Prerequisites** THEA 143 Musical Theatre Dance I

**Minimum Credits 2 Maximum Credits 2**

### **THEA 245 Intermediate Musical Theatre Tap**

This course develops technique, performance, and repertoire within the specialized styles of musical theatre tap required of musical theatre majors at the intermediate level. Each class includes tap terminology, rhythm progressions, Broadway-style tap combinations, and mock auditions. Emphasis will be placed on speed of learning and retention of choreography for audition purposes. Significant attention is paid to audition practices and professional discipline.

**Repeatable:** Y

**Formerly** 31-2431

**Prerequisites** THEA 145 Beginning Musical Theatre Tap

**Minimum Credits 2 Maximum Credits 2**

*Choose one of the following courses:*

### **THEA 168 Playwriting I**

This course is an introduction to the basic techniques of playwriting from concept to completion. Students will learn basic play structuring, character development, conflict heightening, play synopsis, and script formatting while writing scenes, ten-minute plays, and one-act plays which are all read aloud as table-readings in class.

**Repeatable:** N

**Formerly** 31-2800

**Minimum Credits 3 Maximum Credits 3**

## **THEA 266 Directing I**

This course focuses on process through which one approaches a play from a directorial point of view. Students read and discuss five plays and direct scenes from two or three of them. Students create prompt books for their scenes.

**Repeatable:** N

**Formerly** 31-2700

**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making and ENGL 112 Writing and Rhetoric II or THEA 111 Theatre Foundation I: Theatre Making and ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II and THEA 111 Theatre Foundation I: Theatre Making

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

## **THEA 285 Creating a Performance**

This course is required for all students that are chosen to rehearse, design and perform a main stage production of the Theatre department. The ensemble will include design, production, and acting members. Each will work as a specialist within their area of concentration, but also as an ensemble member who will seek and give input outside the area of their growing expertise. Students will use collaborative models appropriate to the involvement required at different stages of creative and practical performance development.

**Repeatable:** Y

**Formerly** 31-2960

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

## **THEA 286 Production and Performance**

Creative participation as a performer, designer, technician or crew member in Student Directing Projects, New Stew Showcases, Comedy or Faculty Workshop, or other department performances.

**Repeatable:** Y

**Formerly** 31-2301

**Requirements** Permission Required (DP)

**Minimum Credits 0 Maximum Credits 2**

## **Photography, BA**

Central to the Photography Department's curricular structure is the idea that all undergraduate students will receive a core foundation in photography skills, which lead to the path of specialization through a range of photographic concentrations.

As a result of successfully completing program requirements, students should be able to:

- produce photographic work consistent with high professional standards;
- demonstrate an applied understanding of the visual grammar of photography and the ability to incorporate technical, formal and conceptual competencies in their creative work;
- articulate in verbal and written form the key technical, formal and conceptual issues in their creative work and the work of others;
- develop portfolios representative of their advanced photography coursework; and
- demonstrate a comprehensive understanding of the history of photography and contemporary photographic practice and be able to relate their work to this history and practice.

The BA is a liberal arts degree that focuses on photography in the context of a broad program of general studies at the college level. Students can choose to pursue a general photography degree or select from a list of 12-credit concentrations that include Commercial, Fashion and Fine Art. The BA allows for substantial interdisciplinary opportunities and the option of a minor or a double major in other departments. Students may choose to take additional electives in photography beyond the required 45 credit hours and may pursue those additional courses in a self-directed manner.

Students must earn a C or better in all major courses. The Photography Department also offers a Second Bachelor of Arts in Photography with no concentration, and a Minor in Photography.

## PROGRAM REQUIREMENTS - 42 credits required

### **ARTS 105 Foundation Studio**

Foundation Studio teaches students how to solve art and design problems. It introduces critical strategies common to major areas of study offered within the departments of Art and Art History and Design, but is also applicable to many other fields in the creative sphere. Students are exposed to a diversity of materials and methods, and are encouraged to develop their own unique solutions through experimentation and collaboration. Assuming the role of problem-solver, students work on increasingly complex projects that culminate in a formalized demonstration of the ability to forge their own creative solutions.

**Repeatable:** *N*

**Formerly** 22-1925

**Minimum Credits** 3 **Maximum Credits** 3

### **BUSE 275 Self-Management and Freelancing**

This course provides artists of all disciplines with the fundamentals of self-sustaining careers in the arts, entertainment and media. The class equips students with an understanding of the matrix of skills, promotional vehicles, and revenue streams in the arts industries as well as fundamentals of career development and business acumen.

**Repeatable:** *N*

**Formerly** 28-2712

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits** 3 **Maximum Credits** 3

### **PHOT 101 Photographic Practice I**

This course introduces students to basic visual grammar of photographic seeing to explore and pursue diverse interests in photography while learning to become an acute observer. Using digital cameras with manual controls and RAW capture, students will learn the craft of making photographs while also being introduced to issues of aesthetic form, historical context, and diverse photographic practices. Students will question, explore, communicate and evaluate using basic photographic concepts and critical-thinking skills while acquiring new sets of technical, conceptual, and formal language that are applicable to many disciplines.

**Repeatable:** *N*

**Formerly** 23-1111

**Minimum Credits 3 Maximum Credits 3**

## **PHOT 102 Photographic Practice II**

This course reinforces the basic understanding of camera functions, exposure and digital workflow that were taught in PHOT101 Photographic Practice I. It introduces the skills necessary to make and analyze high-quality prints and places greater emphasis on color theory. This course reinforces and expands upon critical thinking skills regarding the diversity of contemporary photographic imagery, and helps students to locate their practice within those traditions and innovations.

**Repeatable:** *N*

**Formerly** 23-1112

**Prerequisites** PHOT 101 Photographic Practice I

**Minimum Credits 3 Maximum Credits 3**

## **PHOT 202 Photographic Practice III**

In this course, practical and theoretical applications of photographic skills will be further developed to support a holistic approach to making and critical-thinking. Ideas of integrated software workflows, refining capturing and output skills along with project management will be covered.

**Repeatable:** *Y*

**Prerequisites** PHOT 102 Photographic Practice II

**Minimum Credits 3 Maximum Credits 3**

## **PHOT 205 Principles of Light**

Building upon skills learned in previous classes, this foundation level photography course introduces methods for controlling light in the studio and on location. Artificial light sources, both continuous and strobe and hand held light meters are explored. Students will have the opportunity to engage with a variety of lighting concepts and techniques broadly applicable to the various fields of photography.

**Repeatable:** *Y*

**Prerequisites** PHOT 102 Photographic Practice II

**Minimum Credits 3 Maximum Credits 3**

## **PHOT 251 History of Photography I**

This course examines the emergence of photography and the medium's role in both reflecting and shaping the cultural, social, political, economic, and scientific context of modernity from 1839-1940. Emphasis will be placed on acquiring knowledge about this historical period - especially early photographic technologies, the critical response to photography, and the diverse applications of the medium - while also drawing parallels

between this history and contemporary issues. Students will be introduced to various methods of historical investigation through a balance of lectures, discussions, field trips to view historic photographic objects, primary and secondary source readings, group projects, writing assignments, and/or tests.

**Repeatable:** *N*

**Formerly** 23-2650

**Minimum Credits 3 Maximum Credits 3**

## **PHOT 252 History of Photography II**

This course examines photography's central role in both reflecting and shaping the cultural, social, political, economic, and scientific context from 1940 to the present. In addition to examining the medium's major movements and practitioners within this context, the course will also emphasize the developing history, theory, and criticism of the medium and its relationship to modernism and postmodernism in other media. Students will be introduced to various methods of historical investigation through a balance of lectures, discussions, field trips to view historical photographic objects, primary and secondary source readings, group projects, writing assignments, and/or tests.

**Repeatable:** *N*

**Formerly** 23-2655

**Prerequisites** PHOT 251 History of Photography I

**Minimum Credits 3 Maximum Credits 3**

## **PHOT 362 Image Strategies**

This is a course that is designed to cause the student to think outside the box of the single photographic frame. Photographs are rarely seen in isolation. As such, students will consider the many ways that context affects, alters, and augments the content of their images. The course allows the student to re-contextualize their photographs with text and other imagery and as books, as installations, and within various social media platforms.

**Repeatable:** *Y*

**Prerequisites** PHOT 202 Photographic Practice III and PHOT 205 Principles of Light

**Minimum Credits 3 Maximum Credits 3**

## **PHOT 401 Photography Seminar**

This course teaches students how to develop and shape a rigorous self-directed, long-term photography project relevant to their photographic, interests, and professional ambitions. This course is designed to encourage students to work in a more independent manner and increase their expertise in seeing, editing and problem solving. Students will also engage in a long-term research project that relates to and informs their photographic work. Students learn to create work based on personal concerns and values as well as increase their capacity to speak and write articulately about their work. Students will also engage with professional practitioners in the field through lectures, writings, and in-class visiting lecturers to develop career strategies, discuss professional challenges, and place themselves in relation to contemporary photography practices. This is the capstone course for the BA in Photography.

**Repeatable:** *N*

**Formerly** 23-3910

**Prerequisites** PHOT 362 Image Strategies

**Requirements** Senior Standing (SR)

**Minimum Credits 3 Maximum Credits 3**

# CONCENTRATIONS

## Commercial Photography

The Commercial concentration offers students the opportunity to study and practice multiple roles and skills in the increasingly diverse field of commercial photography. Students will take a core set of photography courses that focus on photographic principals and skills including digital imaging, studio lighting and photo history. Students will have the opportunity to study and practice the roles of photographer, stylist, digital technician and studio assistant at various points in the concentration preparing them for a variety of career opportunities. Advanced level commercial courses offer students the opportunity to refine their skills, create a personal vision, and build a unique body of work.

As a result of successfully completing program requirements for this concentration, students should be able to:

- formulate and execute management strategies that are efficient in meeting individual or collaborative commercial photography projects;
- investigate and implement visual grammar and formal elements of commercial photography in a historical and contemporary context;
- identify and decipher photographic technical and conceptual problems pertaining to commercial photography in a systematic and efficient manner;
- construct and contextualize individual or collaborative projects that draw on current research, historical knowledge and contemporary commercial photographic practices;
- identify and analyze key ethical issues pertaining to commercial photography's role in contemporary society; and
- articulate and evaluate photographic works and methods of publication through basic research techniques, and collaborative critique methods.

**Required for the Concentration:**

## PHOT 209 Principles of Light II

Building upon previous skills learned, this course expands the student's knowledge of how to apply controlled artificial and natural light to a given subject both on location and in the studio. Students will gain knowledge of professional studio practices with the use of strobe lighting, mixed lighting, digital capture and color-managed workflow. Emphasis is placed on commercial and fashion lighting.

**Repeatable:** N

**Formerly** 23-2310

**Prerequisites** PHOT 205 Principles of Light

**Minimum Credits** 3 **Maximum Credits** 3

*Choose three of the following courses:*

## PHOT 325 The Constructed Image

In this advanced, fine art based course, students will explore deliberate picture-making strategies to create images based on personal vision while examining the reasons for employing these strategies. Students will create the subject matter of their photographs, working from the understanding that the process starts with previsualization and moves to planning and execution. Students will be introduced to a multitude of ways of manufacturing photographic subject matter and how these images contribute to and rely on contemporary photographic culture.

**Repeatable:** N

**Formerly** 23-3740

**Prerequisites** PHOT 205 Principles of Light

**Minimum Credits** 3 **Maximum Credits** 3

## **PHOT 330 Commercial Photography**

In this advanced level studio course students examine photographic illustration for commercial applications. Professional studio practices are analyzed and applied. Advanced applications of medium and large format cameras and digital capture will be explored within a studio tabletop context.

**Repeatable:** N

**Formerly** 23-3300

**Prerequisites** PHOT 202 Photographic Practice III and PHOT 209 Principles of Light II

**Minimum Credits** 3 **Maximum Credits** 3

## **PHOT 339 Assisting and Digital Tech**

Building upon skills learned in previous classes, this course provides students with the knowledge, experience, techniques and skills to successfully enter the photography industry as a photo assistant or digital tech. Collaborative practice is established by creating assistant, digital tech, and photographer teams to develop proficiencies relevant to contemporary photographic industry practice.

**Repeatable:** Y

**Formerly** 23-3418

**Prerequisites** PHOT 209 Principles of Light II

**Minimum Credits** 3 **Maximum Credits** 3

## **PHOT 340 Fashion Photography: Location**

In this course students explore fashion photography on location. Lighting, styling, hair, and make-up, production management and digital beauty retouching will be addressed to simulate professional experiences. Historical and contemporary fashion photographers, practices and ethics will be discussed.

**Repeatable:** N

**Formerly** 23-3405

**Prerequisites** PHOT 209 Principles of Light II

**Requirements** Permission Required (DP)

**Minimum Credits** 3 **Maximum Credits** 3

## **PHOT 363 Advanced Retouching and Compositing**

This course introduces students to advanced retouching and compositing techniques and skills used by professionals in many aspects of current photographic practice. Advanced computer tools, theories of image construction and enhancement, and the moral and ethical implications surrounding image manipulation will be addressed in this advanced level class. Students will work on provided image files for weekly assignments that are assessed by review and classroom critique. Students will apply these skills to individual, high-quality final projects.

**Repeatable:** N

**Formerly** 23-3230

**Prerequisites** PHOT 202 Photographic Practice III and PHOT 209 Principles of Light II

**Minimum Credits 3 Maximum Credits 3**

## Fashion Photography

The Fashion Photography concentration offers students a unique experience to work with industry professionals and collaborate with Photography Department partners as they explore what it means to be a fashion photographer in the 21st century. The Fashion Concentration includes a core set of photography courses that focus on photographic principals and techniques including digital imaging, studio lighting, and photo history. Advanced-level courses offer students the opportunity to refine their skills in the studio and on location in order to refine their personal vision and create a unique body of work.

As a result of successfully completing program requirements for this concentration, students should be able to:

- formulate and execute management strategies that are efficient in meeting individual or collaborative fashion photography projects;
- investigate and implement visual grammar and formal elements of fashion photography in a historical and contemporary context;
- identify and decipher photographic technical and conceptual problems pertaining to fashion photography in a systematic and efficient manner;
- construct and contextualize individual or collaborative projects that draw on current research, historical knowledge and contemporary fashion photographic practices;
- identify and analyze key ethical issues pertaining to fashion photography's role in contemporary society; and
- articulate and evaluate their work and the work of others through basic research techniques, and collaborative critique methods.

**Required for the Concentration:**

## PHOT 209 Principles of Light II

Building upon previous skills learned, this course expands the student's knowledge of how to apply controlled artificial and natural light to a given subject both on location and in the studio. Students will gain knowledge of professional studio practices with the use of strobe lighting, mixed lighting, digital capture and color-managed workflow. Emphasis is placed on commercial and fashion lighting.

**Repeatable:** N

**Formerly** 23-2310

**Prerequisites** PHOT 205 Principles of Light

**Minimum Credits 3 Maximum Credits 3**

*Choose three of the following courses:*

## PHOT 330 Commercial Photography

In this advanced level studio course students examine photographic illustration for commercial applications. Professional studio practices are analyzed and applied. Advanced applications of medium and large format cameras and digital capture will be explored within a studio tabletop context.

**Repeatable:** N

**Formerly** 23-3300

**Prerequisites** PHOT 202 Photographic Practice III and PHOT 209 Principles of Light II  
**Minimum Credits 3 Maximum Credits 3**

### **PHOT 340 Fashion Photography: Location**

In this course students explore fashion photography on location. Lighting, styling, hair, and make-up, production management and digital beauty retouching will be addressed to simulate professional experiences. Historical and contemporary fashion photographers, practices and ethics will be discussed.

**Repeatable:** *N*

**Formerly** 23-3405

**Prerequisites** PHOT 209 Principles of Light II

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

### **PHOT 341 Fashion Photography: Studio**

In this course students explore fashion photography in the studio environment. Lighting, styling, hair, and make-up, production management and digital beauty retouching will be addressed to simulate professional experiences. Historical and contemporary fashion photographers, practices and ethics will be discussed.

**Repeatable:** *N*

**Formerly** 23-3410

**Prerequisites** PHOT 209 Principles of Light II

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

### **PHOT 352 Directed Visions**

This course explores multiple approaches to creating photographic tableaux in the studio and on location. Students will construct objects, narratives and 3 dimensional spaces for the sole purpose of being photographed. The directorial mode will be used to intentionally structure staged, fictive images. Fabrication methods, material exploration, creative lighting and studio techniques will be introduced. Students also examine historical and contemporary practitioners of tableaux photography in relation to form and concept.

**Repeatable:** *Y*

**Prerequisites** PHOT 202 Photographic Practice III and PHOT 205 Principles of Light

**Minimum Credits 3 Maximum Credits 3**

### **PHOT 363 Advanced Retouching and Compositing**

This course introduces students to advanced retouching and compositing techniques and skills used by professionals in many aspects of current photographic practice. Advanced computer tools, theories of image construction and enhancement, and the moral and ethical implications surrounding image manipulation will be addressed in this advanced level class. Students will work on provided image files for weekly assignments that are assessed by review and classroom critique. Students will apply these skills to individual, high-quality final projects.

**Repeatable:** *N*

**Formerly** 23-3230

**Prerequisites** PHOT 202 Photographic Practice III and PHOT 209 Principles of Light II

**Minimum Credits 3 Maximum Credits 3**

## Fine Art Photography

The Fine Art concentration offers students the opportunity to develop a comprehensive understanding of contemporary art practice and photographic history supporting their development of a body of work in upper-level topical and seminar classes. The Concentration includes a core set of photography courses that focus on photographic principals and techniques including digital imaging, studio lighting and photo history. The Concentration in Fine Art prepares students for graduate school and/or a variety of careers centered on making, exhibiting and publishing photographs. Students progress through a rigorous and engaging curriculum in which they refine their personal vision and develop a unique body of work.

As a result of successfully completing program requirements for this concentration, students should be able to:

- formulate and execute management strategies that are efficient in meeting individual or collaborative fine art photography projects;
- investigate and implement visual grammar and formal elements of fine art photography in a historical and contemporary context;
- identify and decipher photographic technical and conceptual problems pertaining to fine art photography in a systematic and efficient manner;
- construct and contextualize individual or collaborative projects that draw on current research, historical knowledge and contemporary fine art photographic practices;
- identify and analyze key ethical issues pertaining to fine art photography's role in contemporary society; and
- articulate and evaluate photographic works and methods of publication including exhibition through basic research techniques, and collaborative critique methods.

*Choose four of the following courses:*

### **PHOT 209 Principles of Light II**

Building upon previous skills learned, this course expands the student's knowledge of how to apply controlled artificial and natural light to a given subject both on location and in the studio. Students will gain knowledge of professional studio practices with the use of strobe lighting, mixed lighting, digital capture and color-managed workflow. Emphasis is placed on commercial and fashion lighting.

**Repeatable:** N

**Formerly** 23-2310

**Prerequisites** PHOT 205 Principles of Light

**Minimum Credits** 3 **Maximum Credits** 3

### **PHOT 320 Experimental Photography/ Graphic Techniques I**

Course explores contemporary photographic practices using a variety of hand-applied emulsions that include blue, brown, and silver-gelatin printing processes. Students experiment with image manipulation on a variety of 2-D and 3-D image supports.

**Repeatable:** N

**Formerly** 23-3700

**Prerequisites** PHOT 102 Photographic Practice II or PHOT 120 Darkroom Dynamics or PHOT 121 Black and White Photography

**Minimum Credits** 3 **Maximum Credits** 3

### **PHOT 325 The Constructed Image**

In this advanced, fine art based course, students will explore deliberate picture-making strategies to create images based on personal vision while examining the reasons for employing these strategies. Students will create the subject matter of their photographs, working from the understanding that the process starts with previsualization and moves to planning and execution. Students will be introduced to a multitude of ways of manufacturing photographic subject matter and how these images contribute to and rely on contemporary photographic culture.

**Repeatable:** *N*

**Formerly** 23-3740

**Prerequisites** PHOT 205 Principles of Light

**Minimum Credits 3 Maximum Credits 3**

## **PHOT 352 Directed Visions**

This course explores multiple approaches to creating photographic tableaux in the studio and on location. Students will construct objects, narratives and 3 dimensional spaces for the sole purpose of being photographed. The directorial mode will be used to intentionally structure staged, fictive images. Fabrication methods, material exploration, creative lighting and studio techniques will be introduced. Students also examine historical and contemporary practitioners of tableaux photography in relation to form and concept.

**Repeatable:** *Y*

**Prerequisites** PHOT 202 Photographic Practice III and PHOT 205 Principles of Light

**Minimum Credits 3 Maximum Credits 3**

## **PHOT 360 Documentary Methods**

Course introduces students to a wide range of approaches and styles of documentary photography. Students will conceive, develop, and pursue documentary photographic projects and present the work in a manner consistent with the meaning and point of view of the work.

**Repeatable:** *N*

**Formerly** 23-3520

**Prerequisites** PHOT 102 Photographic Practice II

**Minimum Credits 3 Maximum Credits 3**

## **PHOT 363 Advanced Retouching and Compositing**

This course introduces students to advanced retouching and compositing techniques and skills used by professionals in many aspects of current photographic practice. Advanced computer tools, theories of image construction and enhancement, and the moral and ethical implications surrounding image manipulation will be addressed in this advanced level class. Students will work on provided image files for weekly assignments that are assessed by review and classroom critique. Students will apply these skills to individual, high-quality final projects.

**Repeatable:** *N*

**Formerly** 23-3230

**Prerequisites** PHOT 202 Photographic Practice III and PHOT 209 Principles of Light II

**Minimum Credits 3 Maximum Credits 3**

## **Integrated Photography**

The Integrated Photography concentration offers students the opportunity to develop a comprehensive understanding of contemporary photographic practice and photographic history supporting their development of a body of work in upper-level topical and seminar classes. The Concentration includes a core set of photography courses that focus on photographic principals and techniques including digital imaging, studio lighting and photo history. The Integrated Concentration prepares students for a variety of careers centered on making, marketing, exhibiting and publishing photographs for a variety of audiences including but not limited to commercial, fashion, fine art and other outlets. Students progress through a rigorous and engaging curriculum in which they refine their personal vision and develop a unique body of work.

As a result of successfully completing program requirements for this concentration, students should be able to:

- formulate and execute management strategies that are efficient in meeting individual or collaborative fine art photography projects;
- investigate and implement visual grammar and formal elements of fine art photography in a historical and contemporary context;
- identify and decipher photographic technical and conceptual problems pertaining to fine art photography in a systematic and efficient manner;
- construct and contextualize individual or collaborative projects that draw on current research, historical knowledge and contemporary fine art photographic practices;
- identify and analyze key ethical issues pertaining to fine art photography's role in contemporary society; and
- articulate and evaluate photographic works and methods of publication including exhibition through basic research techniques, and collaborative critique methods.

*Choose four of the following courses:*

## **PHOT 209 Principles of Light II**

Building upon previous skills learned, this course expands the student's knowledge of how to apply controlled artificial and natural light to a given subject both on location and in the studio. Students will gain knowledge of professional studio practices with the use of strobe lighting, mixed lighting, digital capture and color-managed workflow. Emphasis is placed on commercial and fashion lighting.

**Repeatable:** N

**Formerly** 23-2310

**Prerequisites** PHOT 205 Principles of Light

**Minimum Credits** 3 **Maximum Credits** 3

## **PHOT 260 Introduction to Photojournalism**

This is a hands-on class focusing on the technical, aesthetic, journalistic and interpersonal skills needed to produce images that tell stories for newspapers, magazines, books and the Internet. Weekly assignments will introduce students to specific areas of photojournalism. Students may be assigned to cover protests and demonstrations, political campaigns, live performances, press conferences, sporting events as well as feature stories that explore contemporary social issues. Journalistic ethics will be the subject of ongoing discussions throughout the semester, as will applicable business practices for both free-lance and staff photojournalists.

**Repeatable:** N

**Formerly** 23-3500

**Prerequisites** PHOT 101 Photographic Practice I  
**Minimum Credits 3 Maximum Credits 3**

## **PHOT 320 Experimental Photography/ Graphic Techniques I**

Course explores contemporary photographic practices using a variety of hand-applied emulsions that include blue, brown, and silver-gelatin printing processes. Students experiment with image manipulation on a variety of 2-D and 3-D image supports.

**Repeatable:** *N*

**Formerly** 23-3700

**Prerequisites** PHOT 102 Photographic Practice II or PHOT 120 Darkroom Dynamics or PHOT 121 Black and White Photography

**Minimum Credits 3 Maximum Credits 3**

## **PHOT 325 The Constructed Image**

In this advanced, fine art based course, students will explore deliberate picture-making strategies to create images based on personal vision while examining the reasons for employing these strategies. Students will create the subject matter of their photographs, working from the understanding that the process starts with previsualization and moves to planning and execution. Students will be introduced to a multitude of ways of manufacturing photographic subject matter and how these images contribute to and rely on contemporary photographic culture.

**Repeatable:** *N*

**Formerly** 23-3740

**Prerequisites** PHOT 205 Principles of Light

**Minimum Credits 3 Maximum Credits 3**

## **PHOT 330 Commercial Photography**

In this advanced level studio course students examine photographic illustration for commercial applications. Professional studio practices are analyzed and applied. Advanced applications of medium and large format cameras and digital capture will be explored within a studio tabletop context.

**Repeatable:** *N*

**Formerly** 23-3300

**Prerequisites** PHOT 202 Photographic Practice III and PHOT 209 Principles of Light II

**Minimum Credits 3 Maximum Credits 3**

## **PHOT 340 Fashion Photography: Location**

In this course students explore fashion photography on location. Lighting, styling, hair, and make-up, production management and digital beauty retouching will be addressed to simulate professional experiences. Historical and contemporary fashion photographers, practices and ethics will be discussed.

**Repeatable:** *N*

**Formerly** 23-3405

**Prerequisites** PHOT 209 Principles of Light II

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

## **PHOT 360 Documentary Methods**

Course introduces students to a wide range of approaches and styles of documentary photography. Students will conceive, develop, and pursue documentary photographic projects and present the work in a manner consistent with the meaning and point of view of the work.

**Repeatable:** *N*

**Formerly** 23-3520

**Prerequisites** PHOT 102 Photographic Practice II

**Minimum Credits 3 Maximum Credits 3**

## **Photojournalism, BA**

The Photojournalism major aims to provide students with valuable photography, video, audio and new media skills. The curriculum draws upon the expertise of the college's Journalism, Photography and Cinema programs, and students will have the opportunity to learn to report and document news and features on various multimedia platforms. Faculty practice award-winning photo and video journalism.

As a result of successfully completing program requirements, students should be able to:

- demonstrate the highest standards of photojournalism to document history accurately and ethically;
- produce tightly focused and compelling breaking news, news features and documentaries, using still images, video, and audio as the assignment and situation demand;
- report and write accurate short articles, descriptive text and captions using clear, forceful, grammatically correct English;
- capture and create high production value video with technical proficiency in any environment and on deadline; and
- capture and create high production value audio with technical proficiency in any environment and on deadline

## **PROGRAM REQUIREMENTS - 43 credits required**

### **COMM 141 Smartphone/video**

This is a hands-on class focusing on the technical, aesthetic and multimedia skills needed to produce professional video with a smartphone.

**Repeatable:** *N*  
**Formerly** JOUR 141  
**Minimum Credits 1 Maximum Credits 1**

## **INMD 130 Immersive Environments I**

Examine historical and contemporary uses of immersive environments. Generate a variety of work using Augmented Reality, Virtual Reality & 360 Video technologies. Explore 21st Century alternative modes of spectatorship; in particular immersive and interactive ways of experiencing visual spectacle.

**Repeatable:** *N*  
**Formerly** INMD 430  
**Minimum Credits 3 Maximum Credits 3**

## **JOUR 102 Introduction to Journalism**

This course explores rules and roles of journalism along with the challenges of the contemporary media landscape. It also introduces reporting, interviewing and writing skills through hands-on assignments.

**Repeatable:** *N*  
**Formerly** 53-1011  
**Minimum Credits 3 Maximum Credits 3**

## **JOUR 205 Reporting II**

The course helps students refine their reporting, interviewing, researching and writing skills as they conceptualize, pitch and produce journalistic stories. Students further develop critical-thinking skills as well as the use of social media for newsgathering and storytelling. It emphasizes precision and clarity. Equipment is required for this course. See the Department website.

**Repeatable:** *N*  
**Formerly** 53-2020A  
**Prerequisites** JOUR 105 Reporting I and JOUR 108 Copy Editing or JOUR 106 College News Workshop and JOUR 108 Copy Editing  
**Minimum Credits 3 Maximum Credits 3**

## **JOUR 450 Journalism Short Documentary**

Journalism Short Documentary offers intensive, hands-on training in video storytelling and production. Students learn to produce in-depth "mini-doc" stories focusing on newsworthy trends and issues using journalistic best practices and ethics.

**Repeatable:** *Y*  
**Formerly** 53-4840  
**Prerequisites** JOUR 350 Digital Storytelling or PHOT 360 Documentary Methods or CINE 266 Documentary Storytelling  
**Minimum Credits 3 Maximum Credits 3**

## **PHOT 101 Photographic Practice I**

This course introduces students to basic visual grammar of photographic seeing to explore and pursue diverse interests in photography while learning to become an acute observer. Using digital cameras with manual controls and RAW capture, students will learn the craft of making photographs while also being introduced to issues of aesthetic form, historical context, and diverse photographic practices. Students will question, explore, communicate and evaluate using basic photographic concepts and critical-thinking skills while acquiring new sets of technical, conceptual, and formal language that are applicable to many disciplines.

**Repeatable:** *N*

**Formerly** 23-1111

**Minimum Credits 3 Maximum Credits 3**

## **PHOT 102 Photographic Practice II**

This course reinforces the basic understanding of camera functions, exposure and digital workflow that were taught in PHOT101 Photographic Practice I. It introduces the skills necessary to make and analyze high-quality prints and places greater emphasis on color theory. This course reinforces and expands upon critical thinking skills regarding the diversity of contemporary photographic imagery, and helps students to locate their practice within those traditions and innovations.

**Repeatable:** *N*

**Formerly** 23-1112

**Prerequisites** PHOT 101 Photographic Practice I

**Minimum Credits 3 Maximum Credits 3**

## **PHOT 205 Principles of Light**

Building upon skills learned in previous classes, this foundation level photography course introduces methods for controlling light in the studio and on location. Artificial light sources, both continuous and strobe and hand held light meters are explored. Students will have the opportunity to engage with a variety of lighting concepts and techniques broadly applicable to the various fields of photography.

**Repeatable:** *Y*

**Prerequisites** PHOT 102 Photographic Practice II

**Minimum Credits 3 Maximum Credits 3**

## **PHOT 260 Introduction to Photojournalism**

This is a hands-on class focusing on the technical, aesthetic, journalistic and interpersonal skills needed to produce images that tell stories for newspapers, magazines, books and the Internet. Weekly assignments will introduce students to specific areas of photojournalism. Students may be assigned to cover protests and demonstrations, political campaigns, live performances, press conferences, sporting events as well as feature stories that explore contemporary social issues. Journalistic ethics will be the subject of ongoing discussions throughout the semester, as will applicable business practices for both free-lance and staff photojournalists.

**Repeatable:** *N*

**Formerly** 23-3500

**Prerequisites** PHOT 101 Photographic Practice I

**Minimum Credits 3 Maximum Credits 3**

## **PHOT 360 Documentary Methods**

Course introduces students to a wide range of approaches and styles of documentary photography. Students will conceive, develop, and pursue documentary photographic projects and present the work in a manner consistent with the meaning and point of view of the work.

**Repeatable:** *N*

**Formerly** 23-3520

**Prerequisites** PHOT 102 Photographic Practice II

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

## **JOUR 105 Reporting I**

This course teaches students reporting skills used in all major journalism media formats. It is designed to give students a solid foundation for subsequent courses in journalistic storytelling. Equipment is required for this course. See the department website.

**Repeatable:** *N*

**Formerly** 53-1015

**Prerequisites** JOUR 102 Introduction to Journalism and ENGL 111 Writing and Rhetoric I or JOUR 102 Introduction to Journalism and ENGL 111H Writing and Rhetoric I: Honors or JOUR 102 Introduction to Journalism and ENGL 121 International Writing and Rhetoric I or JOUR 102 Introduction to Journalism and ENGL 109 Writing and Rhetoric I Stretch B or JOUR 102 Introduction to Journalism and TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

## **JOUR 106 College News Workshop**

Students in this sophomore-level class serve as reporters and writers for The Columbia Chronicle, the college's award-winning weekly newspaper and its website. The class has learning objectives that parallel those of Reporting I and it may be substituted for Reporting I. Half the class time is devoted to an accelerated introduction to the fundamentals of journalism, and the other half to carrying out Chronicle assignments. This class is also open to a limited number of photography majors interested in photojournalism and building their portfolios. Equipment is required for this course. Consult the department website.

**Repeatable:** *N*

**Formerly** 53-1015A

**Prerequisites** JOUR 102 Introduction to Journalism and ENGL 111 Writing and Rhetoric I or JOUR 102 Introduction to Journalism and ENGL 111H Writing and Rhetoric I: Honors or JOUR 102 Introduction to Journalism and ENGL 121 International Writing and Rhetoric I or JOUR 102 Introduction to Journalism and ENGL 109 Writing and Rhetoric I Stretch B or JOUR 102 Introduction to Journalism and TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

*Choose three of the following courses:*

## **COMM 325 Data Storytelling & Visual Strategies**

This class combines theory and practice on strategies of communicating data through digital graphics and various media platforms. It focuses on visual and media literacy, research, narrative storytelling, and media design. Students will gain experience in translating data into public visual stories by designing various digital media infographics and collaborating on a transmedia storytelling project, including images, explanatory charts, maps, animation, and/or diagrams.

**Repeatable:** *N*

**Formerly** 53-3230

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **JOUR 316 Opinion and Commentary**

Course teaches students to write or produce research-based opinion stories in their own voices. Course includes exercises in editorial, column, podcast, op-doc and opinion writing on various platforms, including audio and video.

**Repeatable:** *N*

**Formerly** 53-2510

**DEI**

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **JOUR 321 Covering Urban Affairs**

This course is about how a variety of societal forces impact people in urban communities. It explores how decisions and actions by various forces -- including city and county government, media, community leaders and organizations - impact education, health care, housing, transportation, cultural affairs and other quality of life issues in a community. Students will produce multimedia work illustrating these interactions. The course will often focus on a singular topic area.

**Repeatable:** *N*

**Formerly** 53-3120

**PL**

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **JOUR 405 Covering Politics:**

Students will learn the fundamentals of covering political campaigns by reporting on local, state and/or presidential races. Students will produce content on deadline and more enterprising work in a variety of formats. Course is open to non-majors with an interest in politics.

**Repeatable:** *Y*

**Formerly** 53-4120

**Prerequisites** JOUR 105 Reporting I or JOUR 106 College News Workshop

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

## **JOUR 463 Global Multimedia**

This course is a practical guide to being a foreign correspondent and to covering international issues in the United States, focusing on immigrant communities in Chicago to understand and report issues of global importance. Students will follow and analyze breaking news and in-depth reporting from around the world. This is a multimedia and social media course that gives students the opportunity to choose from multiple, emerging platforms to tell their stories.

**Repeatable:** *N*

**Formerly** 53-4660

**Requirements** Senior standing (SR)

**Minimum Credits 3 Maximum Credits 3**

## **JOUR 464 Solutions Journalism**

Solutions journalism provides practical insight into how contemporary problems can be addressed. It focuses on effectiveness and provides evidence through in-depth explorations of the people, programs and institutions responding to problems. Students in this upper-level journalism course conduct extensive research as well as in-person interviews, and report and write a publishable story with intellectual depth, factual accuracy and compelling prose.

**Repeatable:** *N*

**Formerly** JOUR 364

**Prerequisites** JOUR 205 Reporting II

**Minimum Credits 3 Maximum Credits 3**

## **RADI 302 Radio Storytelling**

This course focuses on the craft of writing and producing effective radio essays made popular through work found on National Public Radio. Emphasis is placed on storytelling techniques, writing for the ear, sound usage and basic spoken-word audio editing. Students produce four completed radio essays. The course progresses from writing to re-drafting, to audio production, to completed packages. Selected pieces will be considered for broadcast on WCRX 88.1 FM.

**Repeatable:** *N*

**Formerly** RADI 202

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

## **RADI 481 WCRX Practicum I**

This course provides hands-on experience in the operation of college radio station WCRX. Students become proficient with new digital tools and various digital platforms to understand and effectively use social media in a live broadcast environment. Students work on the air as a music or talk host, news or sports anchor, or call play-by-play sports. They may also work in production or as a social media producer to develop content and maintain social media on-line communities for WCRX. Course requires a minimum of six hours per week of practical activity and two class hours per week.

**Repeatable:** *Y*

**Formerly** 41-3300

**Prerequisites** RAD1 118 Radio Workshop and RAD1 210 Radio Production I: Intro  
**Requirements** Permission Required (DP) and Junior Standing or Above (JR)  
**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

### **CINE 477 Documentary Projects**

This course develops advanced techniques in the process of documentary filmmaking, from idea, research, treatment, shooting techniques, to editing. Students produce a fully developed short documentary film which exhibits a sophisticated approach to documentary concepts, practices, aesthetics, and ethical problems encountered in contemporary documentary filmmaking. Students will workshop ideas leading to a production that communicates meaning, demonstrates an ethical concern for its subjects, affects its audience, and reflects an individual voice.

**Repeatable:** Y

**Formerly** CINE 377

**Prerequisites** CINE 266 Documentary Storytelling or CINE 267 Documentary Production Module I: Location Camera and Sound or CINE 264 Documentary Production Module II: The Interview or CINE 269 Documentary Production III: Intermediate Field Production or PHOT 360 Documentary Methods or JOUR 350 Digital Storytelling

**Minimum Credits 3 Maximum Credits 3**

### **JOUR 481 TV Newsbeat**

In this course students will produce a TV news show. While the focus will be on television news, much of what students learn and practice will be applicable across digital platforms. This course refines skills learned in previous coursework to gain additional experience in all facets of planning and executing a local news program.

**Repeatable:** Y

**Formerly** 53-4601A

**Prerequisites** COMM 219 Social Media Content or JOUR 450 Journalism Short Documentary or JOUR 337 Creating the TV News Package and JOUR 352 Writing & Reporting TV News

**Requirements** Permission Required (DP)

**Minimum Credits 4 Maximum Credits 4**

## **Programming, BA**

The Bachelor of Arts in Programming prepares graduates to develop interactive applications for a variety of platforms. Programming is an exciting multidisciplinary field that requires creativity, professional discipline, and strong collaborative production skills. The program provides an environment for students to develop games, simulations, immersive experiences, software, and other interactive experiences, as well as providing the strong background in Liberal Arts and Sciences required to thrive in this growing and competitive field. Students pursuing this degree choose between two concentrations (Game Programming or Application Programming) and participate in a senior capstone course to collaboratively develop work for their portfolio.

As a result of successfully completing program requirements, students should be able to:

- apply advanced programming principles and concepts in the development of interactive experiences;

- synthesize knowledge and skills to build and refine a professional body of work;
- effectively communicate and successfully function in multi-disciplinary teams; and
- perform with a critical understanding of the vocabulary, fundamental concepts, skills, and roles for a career in computer science, or graduate school.

## PROGRAM REQUIREMENTS - 50 credits required

### INMD 114 Web Development I

Counter to printed compositions, web design and development is about fluid and interactive experiences. This course provides an introduction to programming environments and teaches fundamental skills necessary to prototype and deploy digital media. Using technical elements like variables, conditions, sequences and events, completion of this course will empower students with the ability to design interactive applications.

**Repeatable:** Y

**Formerly** 36-1420

**Minimum Credits 3 Maximum Credits 3**

### INMD 214 Web Development II

Interactive design and development can narrate any topic. Using methods and techniques exposed in Web Development I, students prototype and iterate work as a means of increasing complexity and refining concept. Throughout this course students gain and apply the project development strategies necessary to research and produce interactive media using professional management strategies.

**Repeatable:** N

**Formerly** 36-2421

**Prerequisites** INMD 114 Web Development I

**Minimum Credits 3 Maximum Credits 3**

### PROG 101 Programming I

Learn programming concepts as you problem-solve with code, develop algorithms, and create object-oriented applications. Topics covered throughout the semester include data structures, repetition, sequence control structures, program design, testing, and programming best practices.

**Repeatable:** N

**Formerly** 36-1501

**Minimum Credits 3 Maximum Credits 3**

### PROG 103 Computer Architecture

How do computer systems execute, store information, and communicate? Computer hardware and architecture are explored from multiple perspectives. Topics include Boolean logic, data representation, processor organization, input/output, memory organization, system support software, performance, portability, robustness, and communication.

**Repeatable:** N

**Formerly** 36-1200

**Prerequisites** PROG 101 Programming I  
**Minimum Credits 3 Maximum Credits 3**

## **PROG 201 Programming II**

Create applications utilizing object-oriented, event-driven strategies. Design principles such as modularity and abstraction, and object-oriented principles such as encapsulation, inheritance, and polymorphism are covered throughout the semester as you build several projects for your portfolio.

**Repeatable:** *N*

**Formerly** 36-2600

**Prerequisites** PROG 101 Programming I  
**Minimum Credits 3 Maximum Credits 3**

## **PROG 220 C++ Programming I**

Develop C++ applications utilizing language-specific features. Topics include: object-oriented programming, exception handling, resource management, pointers, and templates. Prior experience with programming is required.

**Repeatable:** *N*

**Formerly** 36-2550

**Prerequisites** PROG 101 Programming I  
**Minimum Credits 3 Maximum Credits 3**

## **PROG 301 Programming III**

Develop complex applications with reusable components. Advanced principles of object oriented design and programming are covered as a library of reusable code and a substantial project is built.

**Repeatable:** *N*

**Formerly** 36-3700

**Prerequisites** PROG 201 Programming II  
**Minimum Credits 3 Maximum Credits 3**

## **PROG 340 Graphics Application Programming**

Build applications that leverage libraries and utilize programmatic modeling, shading, textures, and transformations. Additional topics may include cross platform operability, high-performance optimization, UX and interface design. Students will complete the class with several projects for their portfolio and reusable components for future work.

**Repeatable:** *N*

**Formerly** 36-3200

**Prerequisites** PROG 201 Programming II  
**Minimum Credits 3 Maximum Credits 3**

## **PROG 366 Algorithms**

Learn fundamental principles of algorithm design as you work with practical data structures (such as heaps and trees) and common algorithms (such as sort and search). At the end of the semester you will have a

library of code you can use in future problem-solving, and a project showcasing your skills.

**Repeatable:** N

**Formerly** 36-3720

**Prerequisites** PROG 201 Programming II

**Minimum Credits** 3 **Maximum Credits** 3

## **PROG 420 C++ Programming II**

Create project-based work while strengthening an understanding of advanced C++. Design principles and patterns are utilized to create extensible and maintainable code in application and game programming. Additional technologies (e.g. Unreal Engine) are also used in the creation of portfolio work. Prior C++ experience is required.

**Repeatable:** N

**Formerly** PROG 320

**Prerequisites** PROG 220 C++ Programming I

**Minimum Credits** 3 **Maximum Credits** 3

## **PROG 449 AI Programming**

How is artificial intelligence used to create game characters with realistic behaviors? Concepts such as decision trees, algorithms, state machines, neural networks and rule-based systems will be explored as you create work for your portfolio.

**Repeatable:** N

**Formerly** PROG 350

**Prerequisites** PROG 366 Algorithms

**Minimum Credits** 3 **Maximum Credits** 3

*Complete 2 credits from the following courses:*

## **PROG 450A Code Sprint**

Strengthen skills and understanding of a programming language (or learn a new language) in an accelerated, fast paced setting. Industry best practices are used to create an advanced-level project. Complete the course with portfolio work.

**Repeatable:** Y

**Prerequisites** PROG 201 Programming II

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 1 **Maximum Credits** 1

## **PROG 450B Code Sprint**

Strengthen skills and understanding of a programming language (or learn a new language) in an accelerated, fast paced setting. Industry best practices are used to create an advanced-level project. Complete the course with portfolio work.

**Repeatable:** Y

**Prerequisites** PROG 201 Programming II

**Requirements** Junior Standing or Above (JR)  
**Minimum Credits 1 Maximum Credits 1**

### **PROG 450C Code Sprint**

Strengthen skills and understanding of a programming language (or learn a new language) in an accelerated, fast paced setting. Industry best practices are used to create an advanced-level project. Complete the course with portfolio work.

**Repeatable:** Y

**Prerequisites** PROG 201 Programming II

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 1 Maximum Credits 1**

*Choose two of the following courses:*

### **PROG 260 Data Design for Applications**

Build applications that use databases and cloud data stores. You'll learn how to build an application that can create, read, update, and delete data from a database. You'll also learn about database design, optimization, security and learn how to write application code that interfaces asynchronously with a database. Industry-standard database tools will be used.

**Repeatable:** N

**Formerly** 36-3520

**Prerequisites** INMD 114 Web Development I or PROG 101 Programming I

**Minimum Credits 3 Maximum Credits 3**

### **PROG 310 Game Programming I**

Build games using industry-standard technologies, practical problem solving, and design patterns (such as strategy, singleton, factory, and observer patterns). Topics include: game components, game services, input handling and state management.

**Repeatable:** N

**Formerly** 36-3270

**Prerequisites** GAME 110 Introduction to Game Development and PROG 201 Programming II

**Minimum Credits 3 Maximum Credits 3**

### **PROG 410 Game Programming II**

Develop complex games using programming best practices and design patterns. At the completion of the course you will have an advanced game for your portfolio.

**Repeatable:** N

**Formerly** 36-3500

**Prerequisites** PROG 310 Game Programming I

**Minimum Credits 3 Maximum Credits 3**

### **PROG 455 Application Design**

Complete the full process of shipping an application. Plan, design, and develop products while learning advanced software engineering methods, and exploring topics such as design patterns, behavior-driven design, and source code management.

**Repeatable:** *N*

**Formerly** PROG 355

**Prerequisites** INMD 214 Web Development II or PROG 201 Programming II or PROG 260 Data Design for Applications

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following capstone options:*

**Option A:**

## **INMD 260 Intro to IAM Team Development**

Working in a collaborative environment is a fundamental skill within the interaction design industry. In this course, students will learn about the roles in interactive team development; how to effectively manage time and project scope; how to set and meet deadlines; and how to work as a group to deliver user-centered projects.

**Repeatable:** *N*

**Formerly** 36-2602

**Prerequisites** INMD 102 Fundamentals of Interaction and INMD 130 Immersive Environments I and PROG 101 Programming I or INMD 214 Web Development II and PROG 101 Programming I or GAME 110 Introduction to Game Development and PROG 101 Programming I or INMD 102 Fundamentals of Interaction and INMD 114 Web Development I

**Minimum Credits 3 Maximum Credits 3**

## **INMD 460 IAM Team**

Intensive team production course teaches students to work collaboratively while producing projects for an external client. Course begins with concepts of team organization and communication and continues with the formation of production teams, design of the project, and acquisition of media elements. Students practice scheduling and meeting deadlines by shipping multiple versions of the project.

**Repeatable:** *Y*

**Formerly** 36-4600

**Prerequisites** INMD 260 Intro to IAM Team Development

**Minimum Credits 6 Maximum Credits 6**

**Option B:**

## **GAME 480 Game Studio I**

Course is the first stage of the senior/capstone experience of the Game Design/Programming/Art Majors. It represents the pre-production stage of the capstone project and is required for all students in Game majors. Students are exposed to best team practices and overall project management, art, sound, programming, and design pre-production techniques and requirements. They also participate in finalizing plans for launching their career in the context of the team. The demo games will be presented in a professional public context.

**Repeatable:** *N*

**Formerly** 36-3997

**Prerequisites** PROG 420 C++ Programming II or GAME 370 Studio Collaboration or GAME 330 Advanced 3D for Games

**Requirements** Senior Standing (SR)

**Minimum Credits 3 Maximum Credits 3**

## **GAME 485 Game Studio II**

Complete a substantial game with market quality content in this intense capstone experience. You'll use industry best practices and tools as you complete the project started in Game Studio I. Several disciplines (including game design, programming, game art, animation, and sound) work together as Yoyu Studio, and operate as a "team of teams".

**Repeatable:** Y

**Formerly** 36-3998

**Prerequisites** GAME 480 Game Studio I

**Minimum Credits 6 Maximum Credits 6**

## **Public Relations, BA**

Students majoring in Public Relations learn to shape the messages that influence public opinion, attitudes and behaviors. Students experience a real-world curriculum, developing portfolio-ready work in the classroom. Throughout their studies, Columbia will endeavor to provide PR majors with multiple opportunities to secure top internships, network with industry thought leaders, utilize cutting edge media tools and platforms, enter industry competitions, develop leadership skills, and participate in our award-winning chapter of the Public Relations Student Society of America (PRSSA). The Public Relations BA aims to equip students with the skills and knowledge necessary for career success in the agency, corporate, government, and non-profit sectors.

As a result of successfully completing program requirements, students should be able to:

- create professional-quality written, verbal and multi-media public relations-oriented content;
- articulate the functions and operations of traditional media outlets, influencer- and expert-generated media, entertainment media, branded and social media channels as well as their interactions with each other;
- effectively collaborate with a diverse range of team members, outside public, and clients, as well as other stakeholders who reflect diversity and inclusion;
- articulate the ethical and cultural implications of proposed public relations recommendations, as well as the issues that arise in the media's shaping of public opinion; and
- demonstrate the ability to manage the development of public relations-oriented solutions, based on research and analytics.

## **PROGRAM REQUIREMENTS - 45 credits required**

### **ADVE 120 Consumer Behavior**

Course explores the relationship between conscious and unconscious factors influencing many different consumers and examines the need, structure, and interaction with planned communication messages. Survey course gives students insight into the reasons the various disciplines of communication work, using basic readings in the psychology of perception and attitude formation.

**Repeatable:** N

**Formerly** 54-1601

**Minimum Credits 3 Maximum Credits 3**

### **ADVE 310 360 Experiential Campaigns**

Experiential communication is one of the hottest branded communication growth areas today. In fact, experiential agencies are growing at twice the rate of traditional agencies. This is not surprising, considering 96% of those experiencing a brand via an activity (digitally or in person) are more likely to buy the brand and share experiences. 360 experiential communication can build not only a brand's ROI, but its ROE (return on engagement) as well. This course will expose students to the very current best practices and also give students the opportunity to develop a strategically sound campaign for a brand (fashion, sports, causes, etc.) based on concrete objectives. This 360 experiential campaign course will not only include engagement driven events (on and off-line), but other critical 360 campaign arenas including: social media; content creation for You Tube, etc.; activation initiatives (e.g., contests, promotions, sampling, pop up shops, etc.); interactive advertising (i.e., location based mobile games) and more.

**Repeatable:** *N*

**Formerly** 54-3607

**Prerequisites** ADVE 101 Advertising Principles or PURE 102 Intro to Public Relations or COMM 203 Social Media Strategy

**Minimum Credits 3 Maximum Credits 3**

### **ADVE 340 Brand Strategy**

This course introduces account planning as the discipline responsible for leveraging consumer insights into powerful and differentiating communication strategies. The class emphasizes using consumer research in the context of strategic brand management. And the course examines the essential features of a consumer insight: what it is, how to get to it, and how to use it.

**Repeatable:** *N*

**Formerly** 54-3810

**Prerequisites** ADVE 120 Consumer Behavior

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **ADVE 420 Agency**

Students learn how to function in an advertising or public relations agency as a specialist (account management, creative, media, traffic, production) and as a member of an agency team. Students work with actual clients on real assignments, participate in client meetings, generate contact reports, conduct research, develop strategies, write media plans, ideate concepts, and produce tactical elements. Course culminates in the production of completed marketing campaign elements, enabling students to have published samples for their portfolios.

**Repeatable:** *Y*

**Formerly** 54-4978

**Minimum Credits 3 Maximum Credits 3**

### **COMM 202 Applied Communication Research**

This course introduces students to best practices in communication research design and process. Students develop a mixed research methodology encompassing contemporary digital research and consumer

collaborative creative methodologies to make better decisions for their audience's needs. It emphasizes translating research into actionable insights and applicable plans. The final project is an applied communication research project for an organization, non-profit, association, or brand, suitable for inclusion in the student's portfolio.

**Repeatable:** *N*

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **COMM 219 Social Media Content**

This course trains students to create strategic and ethical social media and digital content; develop concise and accurate writing and editing skills; and employ search engine optimized keywords, links, and hashtags to grow audiences and motivate them to action.

**Repeatable:** *N*

**Formerly** 54-2205

**Prerequisites** ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or ENGL 109 Writing and Rhetoric I Stretch B or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

## **PURE 102 Intro to Public Relations**

Course is an overview of the historical development and the contemporary techniques of public relations, one of the fastest-growing career fields in our global information society. Through class discussion and case studies focusing on both actual and creatively imagined situations, students gain insight into the world presented by the major media and learn the importance of research, planning, action, and evaluation, with an emphasis on ethical implications.

**Repeatable:** *N*

**Formerly** 54-1700

**Minimum Credits 3 Maximum Credits 3**

## **PURE 105 Public Relations Writing**

Writing-intensive course covers all forms of writing for communicating public relations messages, including press releases, media alerts, public service announcements, video news releases, pitch letters, speechwriting, brochures, newsletters, and other public relations presentations. At the successful completion of the semester, each student has accomplished a writing portfolio.

**Repeatable:** *N*

**Formerly** 54-1701

**Minimum Credits 3 Maximum Credits 3**

## **PURE 210 Presentation Skills**

Course emphasizes verbal skills, from presenting and selling ideas to developing an effective public presence before various audiences. It is recommended for students in other majors as they seek to market themselves. Qualifies for the Oral Communication requirement.

**Repeatable:** *N*

**Formerly** 54-2702

**SP**

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits** 3 **Maximum Credits** 3

### **PURE 220 PR Issues and Crisis**

Course provides opportunity for students to enhance their skill set beyond traditional public relations for organizations, products, and services and develop strategic communications skills and tactics for responding to public policy issues and crisis. Students analyze, discuss, and develop case studies on how public relations techniques are applied to issues advocacy and crisis response.

**Repeatable:** Y

**Formerly** 54-2707

**Prerequisites** PURE 102 Intro to Public Relations

**Minimum Credits** 3 **Maximum Credits** 3

### **PURE 310 Social Change Communications**

Course focuses on emerging communication strategies and techniques to promote social causes and issues. We will look at the inextricable link between public opinion and communication. Through analyses of social causes and issues, students will explore how these practices are creating an impact in areas like social welfare, health, energy, gender, and multiculturalism.

**Repeatable:** N

**Formerly** 54-3714

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Minimum Credits** 3 **Maximum Credits** 3

### **PURE 375 Strategic Media Relations**

This course is designed to deliver each student understanding and experience in real-life media relations. Students will have access to the media database planning tool used by top PR agencies and corporations to develop media outreach strategies and assess media placement outcomes. In addition, students will deliver media pitches and/or media training to a real-world client. This class is designed to enhance the student's body of work; teach firsthand the life and times of the media relations pro; and increase appreciation for the importance of media relationships when it comes to effective public relations.

**Repeatable:** N

**Formerly** 54-3713

**Prerequisites** PURE 102 Intro to Public Relations and PURE 105 Public Relations Writing or COMM 102 Communication Essentials and PURE 105 Public Relations Writing

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

*Choose one of the following courses:*

### **COMM 150 Sports Communication**

Course explores the breadth of the sports communication industry, with a focus on the skills essential for sports communication professionals, including in media relations, promotions, advertising endorsements,

sponsorships, experiential/events, digital and social media.

**Repeatable:** N

**Formerly** ADVE 150

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

## **PURE 240 Fashion Public Relations**

This course builds on the communications foundation and provides students with both a practical and historical context for how to build a fashion brand utilizing public relations. Students will analyze through case study and practical application the fashion public relations industry and the impact of PR on historical and contemporary fashion trends.

**Repeatable:** Y

**Formerly** 54-2715

**Prerequisites** PURE 102 Intro to Public Relations or FASH 101 Intro to the Fashion Industry

**Minimum Credits 3 Maximum Credits 3**

## **PURE 260 Political & Government PR**

This course focuses on the specialized activities of major and minor political campaigns and the public relations activities of various government bodies at the national, state, and local levels. We focus on the four Ms of political campaigns - message, messenger, media and money. Some of the questions addressed by the course are: How are statements to convey the candidate's position conceived, crafted and conveyed How does one shape public opinion through written and spoken communications How does a candidate and the campaign identify which messages and positions on an issue will resonate with the values of the electorate and its base

**Repeatable:** N

**Formerly** 54-2705

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **RADI 230 Podcasting**

In this introductory course, students learn the aesthetics of podcasting as well as basic content development and production techniques while creating elements of a podcast.

**Repeatable:** N

**Formerly** 41-2252

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

*Complete 6 credits from the following courses:*

## **BUSE 368 Leadership**

What is leadership and what does it take to be an effective leader in arts, entertainment, and media today? This course seeks to answer such questions as students study, analyze, and discuss leadership concepts and practices. Students also learn how to lead by evaluating the effectiveness of various leadership styles and through the development, application, and assessment of their own leadership capabilities through group and individual assignments and activities.

**Repeatable:** *N*

**Formerly** 28-3511

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

## **COLL 210 Internship**

This course allows students to take a valuable internship experience in their desired industry for academic credit. Each position is vetted and approved by Career Center to ensure that it is an educational opportunity that will fulfill the learning objectives of the course. Participating in an internship allows the student to gain hands-on experience and explore career interests while applying knowledge and skills learned in the classroom to a work setting. The experience also helps students gain a clearer sense of what they still need to learn and provides an opportunity to build professional networks. Students are responsible for securing their own internships and having them approved prior to registering for this course. Please contact the Career Center for assistance and resources.

**Repeatable:** *Y*

**Formerly** 99-2100

**Requirements** Permission Required (DP)

**Minimum Credits** 1 **Maximum Credits** 1

## **COLL 230 Internship: Professionalism and Creativity**

This course allows students to take a valuable internship experience in their desired industry for academic credit. Each position is vetted and approved by Career Center to ensure that it is an educational opportunity that will fulfill the learning objectives of the course. Participating in an internship allows students to gain hands-on experience and explore career interests while applying knowledge and skills learned in the classroom to a work setting. The online, academic component of this internship fosters student understanding of how organizations operate and provides for structured reflection on their experiences and assessment of their knowledge and skills. Students are responsible for securing their own internships and should contact Career Center for assistance and resources to identify and apply for opportunities of interest.

**Repeatable:** *Y*

**Formerly** 99-2300

**Requirements** Permission Required (DP)

**Minimum Credits** 3 **Maximum Credits** 3

## **COMM 420 Media Ecosystems**

In this capstone project, students work in teams to analyze the civic impact and the reciprocal relationships between a media outlet and a local community. By applying media theories of public sphere, media ecology, and audience studies, the group conducts a social power analysis to explore the information flow, power relationships, and impact of all participants in the media ecosystem. Each team will deliver a professional media kit to their industry partner.

**Repeatable:** *N*

**Formerly** COMM 320

**DEI**

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **PURE 330 Global Communications**

This course examines the role of global communications in human relationships and in business communications. We'll study the theory of intercultural communications in the context of global communications professional practice, and how culture impacts receptivity to messages. We will learn how global communications professionals navigate complex ecosystems to drive organizational success while breaking down barriers to inclusion and engaging stakeholders.

**Repeatable:** *N*

**Formerly** 54-3707

**GA**

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **PURE 360 Advanced Topics in PR**

Topics courses offer the opportunity to explore specialized areas of PR, examine current trends in the practice, and gain knowledge of emerging principles. Courses may include reputation management, stakeholder and media relations, etc.

**Repeatable:** *N*

**Formerly** 54-3708

**Minimum Credits 3 Maximum Credits 3**

## **PURE 380 PR Writers Workshop**

This portfolio-building course adds to the public relations student's body of work with intensive writing assignments. It will give all students an opportunity to refine their writing from earlier course work in everything from PR Writing I to social and digital content courses. Emphasis is on editing and curating the PR portfolio for professional presentation.

**Repeatable:** *N*

**Formerly** 54-3750

**Prerequisites** PURE 105 Public Relations Writing

**Minimum Credits 3 Maximum Credits 3**

## **PURE 450 Organizational Communication**

The most effective organizations build brand loyalty across all stakeholder groups, internal and external, as a method of achieving business strategy. Through open discussions, case studies, research, readings, and guest speakers in the discipline, students will learn how some of the world's most successful organizations grow market share and build world-class brands through effective organizational communication. Students will gain insights into the design and strategy of the organizational communication function, and the profile, character traits, and strategies of the effective leader communicator. Students will also learn how organizational communication unlocks the potential and passions of key stakeholder groups, particularly internal stakeholder groups; builds loyalty and trust; enhances the reputation of the organization; and drives the achievement of key performance indicators (KPIs).

**Repeatable:** *N*

**Prerequisites** PURE 102 Intro to Public Relations and PURE 105 Public Relations Writing or COMM 102 Communication Essentials and COMM 202 Applied Communication Research

**Minimum Credits 3 Maximum Credits 3**

## Radio, BA

This Radio major provides students with a comprehensive education in radio and audio media via online, streaming and web-based platforms. Social media, advanced production software, and radio automation systems are integrated in the curriculum to prepare students to engage in the most current technology across digital platforms. The curriculum emphasizes core skills and knowledge for on-air talent, writing, producing, production, and creative content programming. Students create a body of work that can be used when seeking internships and employment. This work may include voice over, radio theater, documentary, and audio storytelling.

All Radio majors complete at least one semester working at the award-winning WCRX 88.1 FM and wcrxfm.com as on-air show hosts, producers, music curators, sportscasters, newscasters, production directors and social media/web content producers. They can propose a new music, talk, news or sports program to further develop their unique voice and talent.

The Radio internship program places students in commercial, public, internet and satellite radio, as well as in production and voice-over companies.

As a result of successfully completing program requirements, students should be able to:

- demonstrate an understanding of the history and operations of the radio station, including programming, engineering, and rules and regulations of the Federal Communications Commission;
- identify and understand the decision-making processes for ethical dilemmas and issues;
- use proper pronunciation and appropriate vocal techniques for effective radio/audio communications;
- demonstrate proficiency of technical and production skills required for radio/audio production;
- create and execute various audio content;
- write, direct, produce, and execute both long- and short-form radio/audio programs; and
- produce a professional quality radio/audio portfolio.

## PROGRAM REQUIREMENTS - 42 credits required

### COMM 222 Communication Ethics

In this course, students will examine the professional and ethical standards and legal issues for creators of social media, advertising, public relations and media relations who represent companies, brands, media, nonprofits, organizations, causes and education.

**Repeatable:** *N*

**Formerly** 54-2206

**Prerequisites** ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

## **RADI 102 Introduction to Radio**

Introductory course deals with the language and concepts of the radio broadcasting industry. Students are introduced to an overview of radio broadcast history, station organization, past and present technologies, and terminology through the use of lectures, special guests, projects, films, quizzes, exams, and group exercises.

**Repeatable:** *N*

**Formerly** 41-1100

**Minimum Credits 3 Maximum Credits 3**

## **RADI 105 Voice and Articulation**

Course helps students acquire pronunciation and grammar of oral Standard English that is necessary for broadcasting and oral communication in any professional environment. Students receive an individual evaluation of articulation and voice. Course stresses the concept of becoming bi-dialectic, or learning and using Standard English in addition to your primary dialect. Classroom exercises focus on using Standard English when reading copy and engaging in improvisational conversation.

**Repeatable:** *N*

**Formerly** 41-1107

**Minimum Credits 3 Maximum Credits 3**

## **RADI 118 Radio Workshop**

This entry-level course provides hands-on and practical experience in performing radio programs and operating industry standard radio broadcast equipment. Course also focuses on the performance experience of an on-air host at a music radio station. Students will develop a personal on-air style by performing radio programs, delivering copy, integrating music into shows and preparing material for program breaks. This course is a pre-requisite for an on-air position at the college radio station WCRX, 88.1FM.

**Repeatable:** *Y*

**Formerly** 41-1121

**Prerequisites** RADI 105 Voice and Articulation

**Minimum Credits 3 Maximum Credits 3**

## **RADI 205 Writing for Radio**

This introductory course covers the basic style, format, and techniques used in various forms of creative writing specific to radio broadcasting and audio media, including content for the Internet and mobile-devices. Students write for several genres, including commercials, public service announcements, commentary, news, documentary, and essay. Emphasis is placed on the specific techniques employed in writing for the ear.

**Repeatable:** *N*

**Formerly** 41-2107

**Prerequisites** ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

## **RADI 210 Radio Production I: Intro**

This introduction to digital audio production combines theory with creative, hands-on audio production projects. Each student will use a digital audio workstation loaded with professional audio software. Students will learn audio/production/computer terminology along with fundamental audio production techniques, including recording, editing, mixing, and working with music and sound effects. Each student also will use a portable digital field recorder to produce class projects.

**Repeatable:** *N*

**Formerly** RADI 126

**Minimum Credits 3 Maximum Credits 3**

## **RADI 230 Podcasting**

In this introductory course, students learn the aesthetics of podcasting as well as basic content development and production techniques while creating elements of a podcast.

**Repeatable:** *N*

**Formerly** 41-2252

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **RADI 421 Radio and Audio Documentary**

This Radio Department capstone course teaches students to produce sound-rich audio documentaries suitable for broadcast on the radio, delivered on the Internet, or through mobile media. Students study and employ the appropriate artistic aesthetic necessary for producing quality work in this genre. Each student uses research, the techniques of interviewing, writing, editing, and audio production to create two short documentaries.

**Repeatable:** *Y*

**Formerly** 41-4221

**Prerequisites** AUDI 121 Fundamentals of Audio Production or CINE 130 Editing I or CINE 211 Post-Production Audio I or JOUR 350 Digital Storytelling or PHOT 260 Introduction to Photojournalism or RADI 210 Radio Production I: Intro

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **RADI 481 WCRX Practicum I**

This course provides hands-on experience in the operation of college radio station WCRX. Students become proficient with new digital tools and various digital platforms to understand and effectively use social media in a live broadcast environment. Students work on the air as a music or talk host, news or sports anchor, or call play-by-play sports. They may also work in production or as a social media producer to develop content and maintain social media on-line communities for WCRX. Course requires a minimum of six hours per week of practical activity and two class hours per week.

**Repeatable:** *Y*

**Formerly** 41-3300

**Prerequisites** RADI 118 Radio Workshop and RADI 210 Radio Production I: Intro

**Requirements** Permission Required (DP) and Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## Electives

*Choose one of the following courses:*

### **BUSE 275 Self-Management and Freelancing**

This course provides artists of all disciplines with the fundamentals of self-sustaining careers in the arts, entertainment and media. The class equips students with an understanding of the matrix of skills, promotional vehicles, and revenue streams in the arts industries as well as fundamentals of career development and business acumen.

**Repeatable:** *N*

**Formerly** 28-2712

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits** 3 **Maximum Credits** 3

### **MEDI 370 DocYourWorld**

#docyourworld is a modular course born out of the successful multi-disciplinary collaboration of Cinema, Television, Radio, Journalism, Interactive Arts & Media, Creative Writing, and Photography. This course culminates in the annual event, which bears the same name. #docyourworld brings together students and faculty from across the college along with leaders in the field of the non-fiction documentary form. Students curate and produce the two-day event and develop skills for working with stakeholders in the documentary field.

**Repeatable:** *N*

**Formerly** 24-1815

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

### **RADI 326 Radio Production II: Advanced**

This intermediate-level course focuses on writing and producing short-form features for music radio. Students will write, record, edit, and produce short features, including a person on the street, mock interview, movie review, and a music-themed PSA. The final project is an artist/music rockumentary that will include original scripting/narration, artist/fan interviews, and music. All projects are recorded, edited, and produced using state-of-the-art digital audio workstations and software.

**Repeatable:** *N*

**Formerly** 41-3407

**Prerequisites** RADI 210 Radio Production I: Intro

**Minimum Credits** 3 **Maximum Credits** 3

### **RADI 350 Podcast Series Production**

In this advanced course, students produce and publish a multi-episode, original series, reflecting their individual interests. Students learn the aesthetics of a high-quality audio podcast production. Through the development of audio production techniques and topic exploration, students find their distinctive voice to create unique content. Students also set up a viable system for podcast production and distribution, and explore monetization of their series.

**Repeatable:** Y

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

### **RADI 352 Radio Dramatic Series:Production**

This is the final part of a three-course sequence to create an episodic radio series for WCRX-FM. Focus will be on transforming audio scripts developed in Radio Dramatic Series: Writing into production documents and the technical and artistic execution of those instructions. Students read scripts and listen to programs that exemplify fine series production. They will systematically shape voice tracks, sound effects and a commissioned musical score into consistent, ready-to-broadcast individual programs on a set schedule.

**Repeatable:** N

**Formerly** 41-3319

**Prerequisites** RADI 210 Radio Production I: Intro or AUDI 121 Fundamentals of Audio Production

**Minimum Credits** 3 **Maximum Credits** 3

### **RADI 481 WCRX Practicum I**

This course provides hands-on experience in the operation of college radio station WCRX. Students become proficient with new digital tools and various digital platforms to understand and effectively use social media in a live broadcast environment. Students work on the air as a music or talk host, news or sports anchor, or call play-by-play sports. They may also work in production or as a social media producer to develop content and maintain social media on-line communities for WCRX. Course requires a minimum of six hours per week of practical activity and two class hours per week.

**Repeatable:** Y

**Formerly** 41-3300

**Prerequisites** RADI 118 Radio Workshop and RADI 210 Radio Production I: Intro

**Requirements** Permission Required (DP) and Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

### **TELE 335 Web Series Producer**

This class will cover the responsibilities of a web series producer with focus on launching, distributing, and growing a loyal audience of internet and mobile viewers. Each student will be responsible for building an online presence for and launching of a completed web show.

**Repeatable:** N

**Formerly** 40-3240

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits** 3 **Maximum Credits** 3

## **CONCENTRATIONS**

Narrative

### **RADI 302 Radio Storytelling**

This course focuses on the craft of writing and producing effective radio essays made popular through work found on National Public Radio. Emphasis is placed on storytelling techniques, writing for the ear, sound

usage and basic spoken-word audio editing. Students produce four completed radio essays. The course progresses from writing to re-drafting, to audio production, to completed packages. Selected pieces will be considered for broadcast on WCRX 88.1 FM.

**Repeatable:** *N*

**Formerly** RADI 202

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

## **RADI 342 Radio Dramatic Series: Writing**

This is part one of a three-course sequence to create an episodic radio series for WCRX-FM. This course covers the style, format and technique of writing the series. Students will read scripts and listen to programs that exemplify fine series writing. They will design and write an original episodic series. Students will analyze their scripts individually and as elements of a larger work. Focus is on the script as a creative and practical blueprint to guide performers and technicians in creating a final product.

**Repeatable:** *N*

**Formerly** 41-3315

**Prerequisites** RADI 205 Writing for Radio or THEA 168 Playwriting I or CINE 145 Screenwriting I: Writing the Short Film or TELE 212 Television Arts: Writing

**Minimum Credits 3 Maximum Credits 3**

## **RADI 350 Podcast Series Production**

In this advanced course, students produce and publish a multi-episode, original series, reflecting their individual interests. Students learn the aesthetics of a high-quality audio podcast production. Through the development of audio production techniques and topic exploration, students find their distinctive voice to create unique content. Students also set up a viable system for podcast production and distribution, and explore monetization of their series.

*Choose one of the following courses:*

## **RADI 168 Rock & Soul on the Radio: Roots**

This course covers Rock and Soul music's influence on radio formats, modern culture, and technology. Students will analyze the progression of contemporary rock and soul music from its roots in rhythm and blues, country, folk music and jazz from the beginning of the 20th century through 1969. Students will study and report on individual artists and musical groups who created the music, the cultural trends and the styles of these music genres.

**Repeatable:** N

**Formerly** 41-1314

**Minimum Credits** 3 **Maximum Credits** 3

## **RADI 169 Rock & Soul on the Radio: Contemporary**

This course covers rock and soul music's influence on radio formats, modern culture, current events and present technology. Students will analyze the progression of contemporary rock and soul music from its roots in rhythm and blues, country, folk music and jazz from 1970 to the present. Students will research and report on individual artists and musical groups who created the music, the trends and the styles of this performing art.

**Repeatable:** N

**Formerly** 41-1321

**Minimum Credits 3 Maximum Credits 3**

Voiceover

## **RADI 235 Voiceover**

This course is for all students who are interested in the field of voiceover for commercials, narration, industrials, animation, Internet, and gaming. Students will practice voicing copy using acting techniques, vocal techniques, building characters, and analyzing copy. They will take a trip to a professional studio, record voiceovers in the Audio Arts and Acoustics studios, learn to select, edit and prepare copy for a future demo and learn to perform cold voiceover auditions.

**Repeatable:** Y

**Formerly** 41-2308

**Prerequisites** RADI 105 Voice and Articulation or THEA 103 Voice for Non-Theatre Majors or THEA 112 Theatre Foundation II: Performance

**Minimum Credits 3 Maximum Credits 3**

## **RADI 320 Voiceover Demo Production**

Performance-based course that introduces the student to the skills and techniques used in interpreting and presenting commercial and narrative copy for radio and television advertising as well as scripts used in corporate training and industrial narration. Students work in a studio classroom and receive individual critiques. Emphasis is placed on developing a style that works for each student. Course also includes some lecture presentations regarding the business of voice-overs and how to prepare a demo tape.

**Repeatable:** N

**Formerly** 41-3183

**Prerequisites** RADI 210 Radio Production I: Intro and RADI 235 Voiceover

**Minimum Credits 3 Maximum Credits 3**

## **RADI 339 Voice Acting for Animation**

This course is for students who wish to develop the skills needed to be an animation voice talent. It will explore the acting skills, the vocal skills, the job requirements, the hands on techniques of voicing to picture, auditioning and script analysis. The student will prepare an audio minute of character voices for their portfolio, CD and/or website.

**Repeatable:** Y

**Formerly** 41-3308

**Prerequisites** RADI 235 Voiceover  
**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

### **RADI 239 Voice Acting for Intractv Gaming**

This course focuses on voice acting techniques necessary to provide unique and compelling performances for the expanding area of interactive games. Students practice using actual game scripts developing text analysis, acting skills, and unique vocal demands required for interactive games as they explore the entrepreneurial skills necessary to enter this field. Acting technique and studio experience helps students know and understand the auditioning, performance, directing, and recording process as students prepare actual interactive game voiceover cuts for their websites.

**Repeatable:** N  
**Formerly** 41-2310  
**Prerequisites** RADI 235 Voiceover  
**Minimum Credits 3 Maximum Credits 3**

### **RADI 280 Voiceover for Narration**

This course is for voiceover students who intend to pursue future work in long form narration. The course will cover the areas of audiobook narration, medical, technical, IVRS (Interactive Voice Response Systems), business to business audio/video tracks, training/educational video voiceover, TV and Radio identity voice branding and film narration. Skills introduced and reinforced are: i.e. script/galley marking, subtle character differentiation, vocal strength and stamina; and tone/delivery for long form narration. Students also prepare professional sample cuts suitable for website posting.

**Repeatable:** Y  
**Formerly** 41-2820  
**Prerequisites** RADI 235 Voiceover  
**Minimum Credits 3 Maximum Credits 3**

## **Social Media and Digital Strategy, BA**

Columbia is one of the first schools in the country to offer a Social Media and Digital Strategy major, an undergraduate program that prepares students to work in this exciting new field across industries. Content creators, social media managers, digital strategy experts, and others are needed for nonprofits, companies, artists, start-ups, and more. This major draws from established programs in Advertising, Business and Entrepreneurship, Communication, Fashion, Journalism, and Public Relations. This field is rich with internship opportunities, helping you graduate career-ready with ample real-world experience.

As a result of successfully completing program requirements, students should be able to:

- critically analyze, produce, create and distribute social media and digital content that is strategically sound and consumer-relevant;
- identify, interpret, and report research, data and trends to public audience;
- measure and analyze audience engagement, business models and performance metrics;
- execute digital strategies and social media that build awareness for causes and brands, create social change and/or generate revenue streams; and
- adhere to legal and ethical standards when employing social media whether for business, media government, nonprofits or causes.

## PROGRAM REQUIREMENTS - 45 credits required

### **ADVE 120 Consumer Behavior**

Course explores the relationship between conscious and unconscious factors influencing many different consumers and examines the need, structure, and interaction with planned communication messages. Survey course gives students insight into the reasons the various disciplines of communication work, using basic readings in the psychology of perception and attitude formation.

**Repeatable:** *N*

**Formerly** 54-1601

**Minimum Credits 3 Maximum Credits 3**

### **COMM 107 Social Media and Digital Strategy Foundations**

This introductory course provides foundational knowledge to enable students to become better social media users and producers. Students will focus on diversity, inclusiveness and accessibility as they learn about the applications, ethics and effects of social media, as well as the impacts of corporate ownership.

**Repeatable:** *N*

**DEI**

**Minimum Credits 3 Maximum Credits 3**

### **COMM 202 Applied Communication Research**

This course introduces students to best practices in communication research design and process. Students develop a mixed research methodology encompassing contemporary digital research and consumer collaborative creative methodologies to make better decisions for their audience's needs. It emphasizes translating research into actionable insights and applicable plans. The final project is an applied communication research project for an organization, non-profit, association, or brand, suitable for inclusion in the student's portfolio.

**Repeatable:** *N*

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **COMM 203 Social Media Strategy**

This course teaches students how to connect brands (ranging from business to nonprofits and initiatives) to their critical audiences by developing targeted strategies on social media. Through real-world best practices, examples, and hands-on projects, students will learn about previous social media strategies and develop the strategic components of a social media communication plan that blends aspects of advertising, public relations, and branded content.

**Repeatable:** *N*

**Formerly** COMM 103

**Prerequisites** ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or ENGL 109 Writing and Rhetoric I Stretch B or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

## **COMM 219 Social Media Content**

This course trains students to create strategic and ethical social media and digital content; develop concise and accurate writing and editing skills; and employ search engine optimized keywords, links, and hashtags to grow audiences and motivate them to action.

**Repeatable:** *N*

**Formerly** 54-2205

**Prerequisites** ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or ENGL 109 Writing and Rhetoric I Stretch B or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

## **COMM 325 Data Storytelling & Visual Strategies**

This class combines theory and practice on strategies of communicating data through digital graphics and various media platforms. It focuses on visual and media literacy, research, narrative storytelling, and media design. Students will gain experience in translating data into public visual stories by designing various digital media infographics and collaborating on a transmedia storytelling project, including images, explanatory charts, maps, animation, and/or diagrams.

**Repeatable:** *N*

**Formerly** 53-3230

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **COMM 470 Digital Content and Analytics**

This course focuses on digital communication tools utilized today to strategically plan, create, execute, and evaluate strategic communication programs across contemporary platforms, both well-established and emerging. Industry tools to be explored include: Google Analytics, social media, search engine marketing, and email marketing. Students will explore strategically planning, creating, and analyzing digital content outcomes.

**Repeatable:** *N*

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **PURE 105 Public Relations Writing**

Writing-intensive course covers all forms of writing for communicating public relations messages, including press releases, media alerts, public service announcements, video news releases, pitch letters, speechwriting, brochures, newsletters, and other public relations presentations. At the successful completion of the semester, each student has accomplished a writing portfolio.

**Repeatable:** *N*

**Formerly** 54-1701

**Minimum Credits 3 Maximum Credits 3**

## **PURE 220 PR Issues and Crisis**

Course provides opportunity for students to enhance their skill set beyond traditional public relations for organizations, products, and services and develop strategic communications skills and tactics for responding to public policy issues and crisis. Students analyze, discuss, and develop case studies on how public relations techniques are applied to issues advocacy and crisis response.

**Repeatable:** Y

**Formerly** 54-2707

**Prerequisites** PURE 102 Intro to Public Relations

**Minimum Credits 3 Maximum Credits 3**

## Digital Content Electives

*Complete 6 credits from the following courses:*

### **ADVE 220 Concepting I: The Big Idea**

This course teaches students to develop concepts (including copy) for campaigns targeting consumer audiences. Focused on writing campaigns to be featured in print, broadcast, outdoor, and digital media. The course teaches the elements of style and creativity, relevant communication techniques, and the basics of how commercial messages are constructed.

**Repeatable:** N

**Formerly** 54-2606

**Prerequisites** ADVE 101 Advertising Principles or COMM 203 Social Media Strategy

**Minimum Credits 3 Maximum Credits 3**

### **ADVE 245 Advertising Production**

Course allows students to practice the skills needed to plan, produce, and pitch multi-platform advertising campaigns consistent with today's evolving landscape. Students will create innovative concepts for digital advertising (programmatic ads, pre-roll, mobile video, interactive out of home and more) based on a creative brief, reflecting a clear understanding of diverse cultural perspectives. Ultimately, students will learn production planning, execution and film multiple projects.

**Repeatable:** N

**Formerly** 54-2602

**Prerequisites** ADVE 220 Concepting I: The Big Idea or COMM 219 Social Media Content

**Minimum Credits 3 Maximum Credits 3**

### **COMM 140 Smartphone/photo**

This is a hands-on class focusing on the technical, aesthetic and multimedia skills needed to produce images with a smartphone for professional communication and storytelling.

**Repeatable:** N

**Formerly** JOUR 140

**Minimum Credits 1 Maximum Credits 1**

### **COMM 141 Smartphone/video**

This is a hands-on class focusing on the technical, aesthetic and multimedia skills needed to produce professional video with a smartphone.

**Repeatable:** *N*

**Formerly** JOUR 141

**Minimum Credits 1 Maximum Credits 1**

### **COMM 143 Smartphone/audio**

This is a hands-on class focusing on the technical, aesthetic and multimedia skills needed to produce professional audio with a smartphone.

**Repeatable:** *N*

**Formerly** JOUR 143

**Minimum Credits 1 Maximum Credits 1**

### **COMM 210 Visual Communication**

A theoretical and a hands-on course that immerses students in all aspects of visual communications, including typography, photography, illustration, informational graphics, design, and layout. Students will create visual projects according to their related fields.

**Repeatable:** *N*

**Formerly** 53-2220

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **RADI 230 Podcasting**

In this introductory course, students learn the aesthetics of podcasting as well as basic content development and production techniques while creating elements of a podcast.

**Repeatable:** *N*

**Formerly** 41-2252

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **Digital Strategy Electives**

*Choose three of the following courses:*

### **ADVE 310 360 Experiential Campaigns**

Experiential communication is one of the hottest branded communication growth areas today. In fact, experiential agencies are growing at twice the rate of traditional agencies. This is not surprising, considering 96% of those experiencing a brand via an activity (digitally or in person) are more likely to buy the brand and share experiences. 360 experiential communication can build not only a brand's ROI, but its ROE (return on engagement) as well. This course will expose students to the very current best practices and also give students the opportunity to develop a strategically sound campaign for a brand (fashion, sports, causes,

etc.) based on concrete objectives. This 360 experiential campaign course will not only include engagement driven events (on and off-line), but other critical 360 campaign arenas including: social media; content creation for YouTube, etc.; activation initiatives (e.g., contests, promotions, sampling, pop up shops, etc.); interactive advertising (i.e., location based mobile games) and more.

**Repeatable:** *N*

**Formerly** 54-3607

**Prerequisites** ADVE 101 Advertising Principles or PURE 102 Intro to Public Relations or COMM 203 Social Media Strategy

**Minimum Credits 3 Maximum Credits 3**

### **ADVE 340 Brand Strategy**

This course introduces account planning as the discipline responsible for leveraging consumer insights into powerful and differentiating communication strategies. The class emphasizes using consumer research in the context of strategic brand management. And the course examines the essential features of a consumer insight: what it is, how to get to it, and how to use it.

**Repeatable:** *N*

**Formerly** 54-3810

**Prerequisites** ADVE 120 Consumer Behavior

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **ADVE 371 Digital Media Planning**

Students create digital-first paid media communication solutions by identifying the right mix of digital advertising platforms, including social, mobile, search, video, digital display, non-digital platforms, and more. Students analyze media data, develop strategic insights, and create recommendations. The course involves media strategy, costing, scheduling, audience analysis, negotiation strategies, and programmatic buying. Students will learn professional resume-building and create a portfolio-ready, contemporary media plan.

**Repeatable:** *N*

**Formerly** 54-3102

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **ADVE 380 Account Exec & Brand Manager**

Course focuses on the role of two key marketing positions, one on the client and the other on the agency side of business. Students examine roles and responsibilities of these career options within the context of an integrated marketing environment.

**Repeatable:** *N*

**Formerly** 54-3504

**Prerequisites** BUSE 101 Introduction to Marketing or ADVE 101 Advertising Principles or PURE 102 Intro to Public Relations or COMM 203 Social Media Strategy

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **BUSE 334 Digital Media Strategies**

This class addresses new and emerging business models and strategies in today's rapidly evolving media industries. Topics include an in depth understanding of social media, online marketing, retail and distribution of digital, audio, and visual content including a la carte download services, subscription, and ad-supported streaming services. Additional topics include e-commerce, web design strategy, mobile retail and promotion, community building, direct to consumer marketing, and a variety of other vital tech-based strategies.

**Repeatable:** N

**Formerly** 28-3416

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **PURE 310 Social Change Communications**

Course focuses on emerging communication strategies and techniques to promote social causes and issues. We will look at the inextricable link between public opinion and communication. Through analyses of social causes and issues, students will explore how these practices are creating an impact in areas like social welfare, health, energy, gender, and multiculturalism.

**Repeatable:** N

**Formerly** 54-3714

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

## **Capstone**

*Choose one of the following courses:*

### **ADVE 420 Agency**

Students learn how to function in an advertising or public relations agency as a specialist (account management, creative, media, traffic, production) and as a member of an agency team. Students work with actual clients on real assignments, participate in client meetings, generate contact reports, conduct research, develop strategies, write media plans, ideate concepts, and produce tactical elements. Course culminates in the production of completed marketing campaign elements, enabling students to have published samples for their portfolios.

**Repeatable:** Y

**Formerly** 54-4978

**Minimum Credits 3 Maximum Credits 3**

### **ADVE 480 Campaign Practicum: Strategic Planning**

This is Semester One of a two-semester Capstone course that offers the ultimate hands-on approach to utilizing principles learned across the Advertising and PR curriculum. As part of the American Advertising Federation, students develop a strategic integrated campaign for a corporate client that includes advertising, marketing, and public relations. The two-semester course culminates at the National Student Advertising Competition, where students pitch the campaign before a review panel composed of advertising agency executives and other communications industry professionals. Interested students who do not meet the outlined prerequisites should contact the Communication department.

**Repeatable:** Y

**Formerly** 54-4605

**Prerequisites** ADVE 280 Advertising Workshop or PURE 220 PR Issues and Crisis

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

## Theatre Design and Technology, BA

The Bachelor of Arts in Theatre Design and Technology emphasizes design as a collaborative process that requires close cooperation among each designer, the director, the technical team, and the performers.

As a result of successfully completing program requirements, students should be able to:

- demonstrate a working understanding that design is a collaborative process that requires close cooperation between the designers, the director, technical team, and performers on a theatrical production;
- demonstrate familiarity with multiple design disciplines (costume, lighting, sound, or scenic design) though students may focus their work in one area;
- demonstrate a fluent knowledge of technical theatre and theatrical drawing, including rendering and drafting;
- articulate knowledge of art and theatre history and dramatic theory; and
- have experienced a range of production responsibilities provided to the theatrical design students by the ample opportunities to work on departmental productions.

Students may focus their work in the area of costumes, lighting, sound, or scenic design, but they must gain familiarity with all design disciplines. Classes are also required in the areas of makeup, technical theatre, rendering and drawing, art and theatre history, and beginning acting. There are ample opportunities for students to work on departmental productions, from the bare-bones workshop level to fully budgeted main stage shows. In addition, assistant design and internship opportunities are available to work on productions in the larger Chicago theatre community. These opportunities often become available through the influence of our faculty of working professionals. Upon graduation, students with a B.A. in Theatre Design and Technology will have developed a strong portfolio of work that can be used to seek admission to graduate school or to look for work in professional theatre.

## PROGRAM REQUIREMENTS - 48 credits required

### **THEA 106 Theatre Survey I: Global Drama**

This course is designed to introduce students to dramas - across history and cultures - that have influenced major trends in theatre. In doing so, students will engage a range of dramatic texts from classical and contemporary dramas to adaptations and revisions of canonical works. Students will study and discuss a sampling of plays that exemplify an array of genres and forms resulting in the student's ability to make connections between a text's form and its context.

**Repeatable:** N

**Minimum Credits** 2 **Maximum Credits** 2

### **THEA 111 Theatre Foundation I: Theatre Making**

Theatre Foundation I: Theatre Making invites incoming students into their role as creative practitioners. Students investigate the elements and principles of artistic process that can be applied to all aspects of theatre making. The course develops students' awareness, observation and collaborative skills, and their

ability to transpose experiences in the world into visual, written, vocal and physical form. Readings, composition work in class and attendance at Columbia College Chicago productions and in the city of Chicago deepens students' understanding and appreciation of the scope of contemporary theatre making practices.

**Repeatable:** *N*

**Formerly** 31-1251

**Concurrent Requisite** THEA 106 Theatre Survey I: Global Drama

**Minimum Credits 4 Maximum Credits 4**

## **THEA 152 Aesthetics for Theatre Makers**

Both written and devised theatre works invite the artist to create a world that is unique to the needs of each production. In this course, students will explore the development of a vision and intention for theatrical works. Exploring their own world view, as well as that of their classmates, students will investigate these perspectives for implicit bias and translate their point of view into aesthetic and theatrical works. Working in teams of makers-writers, directors, designers, managers, and technicians, students will collaborate as equals in the creation of a physical world.

**Repeatable:** *N*

**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making or THEA 120 Comedy Foundations I: Ensemble and Discovery or THEA 141 Musical Theatre Foundations

**Minimum Credits 3 Maximum Credits 3**

## **THEA 157 Rendering for Theatre I**

This course introduces the student to figure drawing, color, light and shadow, and a variety of rendering materials and techniques. Through demonstration, work in class, and assignments designed to hone skills, students focus on the rendering of costumes, stage lighting, and sets.

**Repeatable:** *N*

**Formerly** 31-1515

**Minimum Credits 3 Maximum Credits 3**

## **THEA 159 Drafting for Theatre**

This course introduces mechanical drawing techniques for the performing arts. Students learn to create clear, accurate drawings to be used for the design and construction of scenery, and the preparation and implementation of a lighting design.

**Repeatable:** *N*

**Formerly** 31-1510

**Minimum Credits 3 Maximum Credits 3**

## **THEA 202 Traditions of World Theatre**

This course will survey the dramas, history, and aesthetics of performance traditions from various locations around the world including Africa, Asia, Latin America, and the West (United States and Europe), emphasizing important developments and highlighting pivotal movements and participants within their broader historical, social, and cultural contexts. Through an examination of theatrical forms, expressive styles, and contributions of performance traditions from around the world, students will become acquainted with how theatre reflects and constitutes community and culture.

**Repeatable:** N

**Formerly** 31-2103

**HU DEI**

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

## **THEA 205 Text Analysis**

This course introduces students to varying methods and approaches to script analysis. While students will become familiar with traditional methods of analysis, a significant emphasis will be placed on alternative and complementary methods including contemplation and intuitive responses, visualization and imagery, and somatic responses to play scripts. Through course readings, presentations, and group activities, furthermore, this course will familiarize students with vocabulary and strategies of analysis for actors, designers, and playwrights, thereby facilitating communication of production ideas.

**Repeatable:** N

**Formerly** 31-2120

**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making and ENGL 112 Writing and Rhetoric II or THEA 111 Theatre Foundation I: Theatre Making and ENGL 112H Writing and Rhetoric II: Honors or THEA 111 Theatre Foundation I: Theatre Making and ENGL 122 International Writing and Rhetoric II or THEA 141 Musical Theatre Foundations and ENGL 112 Writing and Rhetoric II or THEA 141 Musical Theatre Foundations and ENGL 112H Writing and Rhetoric II: Honors or THEA 141 Musical Theatre Foundations and ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

## **THEA 227 Vectorworks for the Performing Arts**

This course provides students with a thorough introduction into computer-aided design with a focus on theatrical uses of Vectorworks. By using hands-on exercises, assignments, and projects, students will gain the capacity to create and distribute industry standard (USITT) theatrical drawings and light plots. The student will learn basic digital drawing techniques for completing theatrical drawings and light plots. The course will cover page layout and printing techniques. This course is recommended for lighting designers. Student access to the computer lab is available to complete assignments outside of class.

**Repeatable:** N

**Formerly** 31-2522

**Prerequisites** THEA 159 Drafting for Theatre

**Minimum Credits 3 Maximum Credits 3**

## **THEA 228 Design/Tech Practicum**

This course enables students to work on productions within the department under faculty and staff supervision. Students may repeat the course three times. This course allows the student to acquire the practical skills used in the various shops of the Department.

**Repeatable:** Y

**Formerly** 31-2523

**Prerequisites** THEA 163 Introduction to Costume Construction or THEA 161 Introduction to Scenic Construction or THEA 133A Makeup Techniques: or THEA 235 Makeup Design or THEA 164 Introduction to

Lighting Technologies

**Minimum Credits 1 Maximum Credits 1**

### **THEA 285 Creating a Performance**

This course is required for all students that are chosen to rehearse, design and perform a main stage production of the Theatre department. The ensemble will include design, production, and acting members. Each will work as a specialist within their area of concentration, but also as an ensemble member who will seek and give input outside the area of their growing expertise. Students will use collaborative models appropriate to the involvement required at different stages of creative and practical performance development.

**Repeatable:** Y

**Formerly** 31-2960

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

### **THEA 346 Period Styles for Theatrical Design**

This course will familiarize students of theatrical design and directing with the prevalent visual movements in the history of art, architecture, fashion and decorative arts. It will integrate these diverse elements to create a knowledge of the cultural life of each period discussed. Pre-historic through modern periods will be covered. Lecture, research, and field trips utilizing Chicago's architecture and cultural institutions will aid students in the development of their visual vocabulary.

**Repeatable:** N

**Formerly** 31-3160

**Prerequisites** THEA 201 Theatre History & Inquiry or THEA 202 Traditions of World Theatre

**Minimum Credits 3 Maximum Credits 3**

### **THEA 390 Theatre Career**

This course will provide upper level Theatre majors with practical knowledge they will need to transition into careers in their field. Taught by our faculty of theatre professionals, this course explores: unions and contracts as they relate to theatre artists; models of producing: from the storefront theatre to LORT; creating a new theatre company; and self-promotion.

**Repeatable:** N

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 1 Maximum Credits 1**

### **THEA 425 Creating a Career in Technology and Design**

This course is designed for graduating technology and design students to prepare them to find and secure employment in the theatre and related industries. Through class work, guest speakers, and site visits, the course offers a thorough introduction to various aspects of life as a working professional. Students will prepare a portfolio and resume, and hone interview skills in preparation to pursue entry-level jobs in the entertainment industry.

**Repeatable:** N

**Formerly** 31-3905

**Requirements** Senior Standing (SR)  
**Minimum Credits 2 Maximum Credits 2**

*Choose one of the following courses:*

### **AUDI 102 Introduction to Audio**

This course provides an overview of the world of sound and audio in its various manifestations, including music, communications, sound in linear and non-linear media, sound art, and sonification. It introduces students to basic concepts and terminology related to sound, audio, and audio equipment and systems, but it is not a theory course. Rather, the course examines aspects of our sonic world through the lenses of audio production, live sound reinforcement, and acoustics, constructing a survey of practices and trends, practitioners, and examples; of history, context, and politics; and of art and aesthetics. Along the way it challenges students to examine and open themselves to difference ways of listening. This course is open to all majors.

**Repeatable:** N  
**Formerly** 43-1111  
**Minimum Credits 3 Maximum Credits 3**

### **THEA 133A Makeup Techniques:**

This character makeup techniques course focuses on makeup vocabulary, materials, tools, and skills suitable for a variety of media. Research, discussion, and demonstration combine with hands-on experience to develop student skills in painting, color mixing, blending, and contouring. Topics of skin care, color theory, lighting concerns, and the development of a makeup kit are covered.

**Repeatable:** Y  
**Formerly** THEA 133  
**Minimum Credits 3 Maximum Credits 3**

### **THEA 133B Makeup Techniques:**

This fashion and beauty makeup techniques course focuses on makeup vocabulary, materials/tools, and skills suitable for incorporation into a wide variety of media types. Research, discussion, demonstrations, and materials acquisition/experimentation combine with hands-on experience to develop the student's painting, color mixing and blending, and contouring skills. Respect for skin care, color theory, lighting concerns, and makeup kits for the makeup artist, performer, and hobbyist alike are covered.

**Repeatable:** Y  
**Minimum Credits 3 Maximum Credits 3**

### **THEA 161 Introduction to Scenic Construction**

This course is a basic introduction to the construction of an interior architectural set. The class will focus on building basic set elements from raw material, and the assembling of these elements to form a theatrical set. Health and safety in the workplace will comprise a substantial section of the course. During the semester, students will experience the reading and interpretation of ground plans and drawings, the safe use of basic shop and power tools, and strategies for analyzing the construction of sets both on campus and in the professional world.

**Repeatable:** N

**Formerly** 31-1530

**Minimum Credits 3 Maximum Credits 3**

### **THEA 163 Introduction to Costume Construction**

This course provides an introduction to Costume Shop techniques and procedures. Through demonstrations and assigned projects, students learn basic machine and hand-sewing techniques, pattern development, and all aspects of costume construction from the interpretation of a rendering to a finished costume. Content provides an overview of related subjects such as millinery, costume props, and formal wear.

**Repeatable:** *N*

**Formerly** 31-1525

**Minimum Credits 3 Maximum Credits 3**

### **THEA 164 Introduction to Lighting Technologies**

This basic skills course addresses primary information in the art of stage lighting. Instruction includes purposes, allied techniques, equipment terminology, use of color, and fundamental drafting.

**Repeatable:** *N*

**Formerly** 31-1520

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

### **THEA 233 Sound Design**

This introductory course provides an overview of concepts, processes, and tools in sound design for contemporary theatre. The course will cover the history of sound design, design conceptualization, storytelling, relationships to text and action, collaboration and production protocols, and introduce theatrical audio production tools and processes. Course activities will mix lecture and demonstration with practical and creative projects. Students will learn and practice design-driven operations with audio production and playback software. By the end of the course, students should be able to design, construct, and deliver simple playback-based sound designs, with an emphasis on creating work that is driven by the storytelling needs of the text and production.

**Repeatable:** *N*

**Formerly** 31-2612

**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making or AUDI 102 Introduction to Audio

**Minimum Credits 3 Maximum Credits 3**

### **THEA 235 Makeup Design**

This course develops a student's skills in makeup through critical analysis, collaboration, discussion, and practice. Students gain an understanding of the practical aspects of pre-production, production, and post-production design phases for a variety of media. Hands-on experiences include collaborations with Cinema and Television Arts' FreqOut and additional scripts/projects. Students will develop research, design, presentation, and management skills as a means to enhance their individual artistic voice. No previous experience in Makeup is required.

**Repeatable:** *N*

**Formerly** 31-2680

**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making or THEA 133A Makeup Techniques: or THEA 133B Makeup Techniques: or THEA 135 Introduction to Basic Makeup or CINE 113 Cinema Makeup and Makeup Special Effects

**Minimum Credits 3 Maximum Credits 3**

## **THEA 260 Set Design**

This course introduces the student to the art of Set Design. Focusing on the synthesis of text and space, students will learn to understand spatial relationships in the theatre, actor to actor, and audience to actor. They will learn to manipulate the emotional and visual space of the theatre. The students will be introduced to the process of designing scenery for the stage.

**Repeatable:** *N*

**Formerly** 31-2610

**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making

**Minimum Credits 3 Maximum Credits 3**

## **THEA 262 Costume Design**

This course will introduce students to the art and business of Costume Design for theatre and film. Projects will focus on character development from text, costume research, the creation of color palettes, the use of fabric, and organizational paperwork. The development and presentation of costume design for entire productions will be explored.

**Repeatable:** *N*

**Formerly** 31-2615

**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making or FASH 285 Fashion Styling I

**Minimum Credits 3 Maximum Credits 3**

## **THEA 265 Lighting Design**

This course will introduce students to the artistic side of creating a live entertainment lighting design, focusing on its application in the theatre. Students will explore the use of light as a tool to create space, emphasis, and rhythm in performance. The focus will be on honing the ability to see and experience light and then use it to create design, including conceiving the design idea and communicating it to others. Students will explore theatrical texts and how to connect the text to the design idea.

**Repeatable:** *N*

**Formerly** 31-2620

**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

## **THEA 335 Makeup Prosthetics/FX Design**

This repeatable course expands and builds upon previous Makeup, Prosthetics, and FX courses, teaching Theatre, Film, TV, and Avant Garde techniques for the creation, application and removal of prosthetics. Instruction covers the vocabulary, skills, techniques, and safety protocols required for the use of a variety of materials including Latex, Foam, and Silicone. Research, design, casting, sculpting, molding, and painting of prosthetics are incorporated into full makeup projects, both individual and collaborative. Makeup will be self-applied or applied to peers or models.

**Repeatable:** Y

**Formerly** 31-3605

**Prerequisites** THEA 133A Makeup Techniques: or THEA 235 Makeup Design or CINE 113 Cinema Makeup and Makeup Special Effects

**Minimum Credits 3 Maximum Credits 3**

### **THEA 360 Advanced Set Design**

This course is an advanced examination of set construction, emphasizing the procedures for constructing large, intricate theatrical sets. Students will learn to use advanced shop tools and materials to construct scenic elements such as step units and irregular flats. The assembly of complex sets will be covered, both in terms of structure and set dressing. Students will be introduced to the terminology of theatrical architecture and mechanics.

**Repeatable:** Y

**Formerly** 31-3610

**Prerequisites** THEA 159 Drafting for Theatre and THEA 260 Set Design and THEA 157 Rendering for Theatre I and THEA 161 Introduction to Scenic Construction

**Minimum Credits 3 Maximum Credits 3**

### **THEA 365 Advanced Lighting Design**

This course explores the synthesis of Lighting Design and Lighting Technologies, exploring how to use the specialized equipment to create the lighting idea. The focus is on creation of light plots and paperwork and will expand the theoretical design idea into a production based plan. Each student will design a project in the Theatre department as part of this class.

**Repeatable:** Y

**Formerly** 31-3620

**Prerequisites** THEA 265 Lighting Design and THEA 164 Introduction to Lighting Technologies and THEA 227 Vectorworks for the Performing Arts

**Minimum Credits 3 Maximum Credits 3**

### **THEA 399A Topics in Theatre Technology:**

This course focuses on specific topics, skills, ideas, or management issues in the field of technical theatre or design. Each semester this course covers different material that might not be included in the permanent course offerings or concentrates on new or experimental approaches to issues in technical theatre. When possible, topics chosen will pertain to productions within the department.

**Repeatable:** Y

**Formerly** THEA 399

**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making

**Minimum Credits 3 Maximum Credits 3**

### **THEA 399B Topics in Theatre Technology:**

This course focuses on specific topics, skills, ideas, or management issues in the field of technical theatre or design. Each semester this course covers different material that might not be included in the permanent course offerings or concentrates on new or experimental approaches to issues in technical theatre. When possible, topics chosen will pertain to productions within the department.

**Repeatable:** Y

**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making

**Minimum Credits 3 Maximum Credits 3**

## Design and Technology Elective

*Choose one of the following courses:*

### **AUDI 102 Introduction to Audio**

This course provides an overview of the world of sound and audio in its various manifestations, including music, communications, sound in linear and non-linear media, sound art, and sonification. It introduces students to basic concepts and terminology related to sound, audio, and audio equipment and systems, but it is not a theory course. Rather, the course examines aspects of our sonic world through the lenses of audio production, live sound reinforcement, and acoustics, constructing a survey of practices and trends, practitioners, and examples; of history, context, and politics; and of art and aesthetics. Along the way it challenges students to examine and open themselves to difference ways of listening. This course is open to all majors.

**Repeatable:** N

**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making or AUDI 102 Introduction to Audio

**Minimum Credits 3 Maximum Credits 3**

### **THEA 235 Makeup Design**

This course develops a student's skills in makeup through critical analysis, collaboration, discussion, and practice. Students gain an understanding of the practical aspects of pre-production, production, and post-production design phases for a variety of media. Hands-on experiences include collaborations with Cinema and Television Arts' FreqOut and additional scripts/projects. Students will develop research, design, presentation, and management skills as a means to enhance their individual artistic voice. No previous experience in Makeup is required.

**Repeatable:** *N*

**Formerly** 31-2680

**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making or THEA 133A Makeup Techniques: or THEA 133B Makeup Techniques: or THEA 135 Introduction to Basic Makeup or CINE 113 Cinema Makeup and Makeup Special Effects

**Minimum Credits 3 Maximum Credits 3**

## **THEA 260 Set Design**

This course introduces the student to the art of Set Design. Focusing on the synthesis of text and space, students will learn to understand spatial relationships in the theatre, actor to actor, and audience to actor. They will learn to manipulate the emotional and visual space of the theatre. The students will be introduced to the process of designing scenery for the stage.

**Repeatable:** *N*

**Formerly** 31-2610

**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making

**Minimum Credits 3 Maximum Credits 3**

## **THEA 262 Costume Design**

This course will introduce students to the art and business of Costume Design for theatre and film. Projects will focus on character development from text, costume research, the creation of color palettes, the use of fabric, and organizational paperwork. The development and presentation of costume design for entire productions will be explored.

**Repeatable:** *N*

**Formerly** 31-2615

**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making or FASH 285 Fashion Styling I

**Minimum Credits 3 Maximum Credits 3**

## **THEA 265 Lighting Design**

This course will introduce students to the artistic side of creating a live entertainment lighting design, focusing on its application in the theatre. Students will explore the use of light as a tool to create space, emphasis, and rhythm in performance. The focus will be on honing the ability to see and experience light and then use it to create design, including conceiving the design idea and communicating it to others. Students will explore theatrical texts and how to connect the text to the design idea.

**Repeatable:** *N*

**Formerly** 31-2620

**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making

**Minimum Credits 3 Maximum Credits 3**

## **Theatre, BA**

The Bachelor of Arts in Theatre provides students with a comprehensive program of study through one of our four concentrations: directing, playwriting, stage management, and theatre studies. Students will study theatrical practices, theory, and history from the perspective of all four concentrations in order to gain an understanding of the discipline as a whole.

Students will take courses and gain valuable knowledge in the art and craft of design and technical theatre, the conceptual skills involved in directing, the tools of story crafting required of playwrights, dramatic criticism and dramaturgy, and the organizational expertise necessary to manage stage and production. Students are encouraged to put into practice what they are learning in the classroom through hands-on engagement in the preparation and presentation of performances produced in the department. Students learn from a range of faculty who bring their professional experience to the art, craft, business, and scholarly approach to the study of theatre. This pragmatic approach prepares students to face the challenging realities of making a life in the performing arts.

As a result of successfully completing program requirements, students should be able to:

- identify and apply practical skills as a director, stage manager, playwright, dramaturg, and/or theatre scholar;
- analyze performance, performance text, and practical technique;
- efficiently lead a group of artistic and technical collaborators through the creation and presentation of public performances for theatre;
- think, write, and speak clearly about theory and practice; and
- analyze and employ diverse theatre traditions.

## PROGRAM REQUIREMENTS - 44-47 credits required

### **THEA 106 Theatre Survey I: Global Drama**

This course is designed to introduce students to dramas - across history and cultures - that have influenced major trends in theatre. In doing so, students will engage a range of dramatic texts from classical and contemporary dramas to adaptations and revisions of canonical works. Students will study and discuss a sampling of plays that exemplify an array of genres and forms resulting in the student's ability to make connections between a text's form and its context.

**Repeatable:** *N*

**Minimum Credits 2 Maximum Credits 2**

### **THEA 111 Theatre Foundation I: Theatre Making**

Theatre Foundation I: Theatre Making invites incoming students into their role as creative practitioners. Students investigate the elements and principles of artistic process that can be applied to all aspects of theatre making. The course develops students' awareness, observation and collaborative skills, and their ability to transpose experiences in the world into visual, written, vocal and physical form. Readings, composition work in class and attendance at Columbia College Chicago productions and in the city of Chicago deepens students' understanding and appreciation of the scope of contemporary theatre making practices.

**Repeatable:** *N*

**Formerly** 31-1251

**Concurrent Requisite** THEA 106 Theatre Survey I: Global Drama

**Minimum Credits 4 Maximum Credits 4**

### **THEA 152 Aesthetics for Theatre Makers**

Both written and devised theatre works invite the artist to create a world that is unique to the needs of each production. In this course, students will explore the development of a vision and intention for theatrical

works. Exploring their own world view, as well as that of their classmates, students will investigate these perspectives for implicit bias and translate their point of view into aesthetic and theatrical works. Working in teams of makers-writers, directors, designers, managers, and technicians, students will collaborate as equals in the creation of a physical world.

**Repeatable:** *N*

**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making or THEA 120 Comedy Foundations I: Ensemble and Discovery or THEA 141 Musical Theatre Foundations

**Minimum Credits 3 Maximum Credits 3**

## **THEA 168 Playwriting I**

This course is an introduction to the basic techniques of playwriting from concept to completion. Students will learn basic play structuring, character development, conflict heightening, play synopsis, and script formatting while writing scenes, ten-minute plays, and one-act plays which are all read aloud as table-readings in class.

**Repeatable:** *N*

**Formerly** 31-2800

**Minimum Credits 3 Maximum Credits 3**

## **THEA 202 Traditions of World Theatre**

This course will survey the dramas, history, and aesthetics of performance traditions from various locations around the world including Africa, Asia, Latin America, and the West (United States and Europe), emphasizing important developments and highlighting pivotal movements and participants within their broader historical, social, and cultural contexts. Through an examination of theatrical forms, expressive styles, and contributions of performance traditions from around the world, students will become acquainted with how theatre reflects and constitutes community and culture.

**Repeatable:** *N*

**Formerly** 31-2103

**HU DEI**

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

## **THEA 205 Text Analysis**

This course introduces students to varying methods and approaches to script analysis. While students will become familiar with traditional methods of analysis, a significant emphasis will be placed on alternative and complementary methods including contemplation and intuitive responses, visualization and imagery, and somatic responses to play scripts. Through course readings, presentations, and group activities, furthermore, this course will familiarize students with vocabulary and strategies of analysis for actors, designers, and playwrights, thereby facilitating communication of production ideas.

**Repeatable:** *N*

**Formerly** 31-2120

**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making and ENGL 112 Writing and Rhetoric II or THEA 111 Theatre Foundation I: Theatre Making and ENGL 112H Writing and Rhetoric II: Honors or THEA 111 Theatre Foundation I: Theatre Making and ENGL 122 International Writing and Rhetoric II or THEA 141 Musical Theatre Foundations and ENGL 112 Writing and Rhetoric II or THEA 141 Musical Theatre

Foundations and ENGL 112H Writing and Rhetoric II: Honors or THEA 141 Musical Theatre  
Foundations and ENGL 122 International Writing and Rhetoric II  
**Minimum Credits 3 Maximum Credits 3**

## **THEA 254 Stage Management I**

This course will introduce students to the nuts-and-bolts practices and techniques of Stage Management in the professional theatre. Students will assist an advanced stage manager on a department production throughout the course of the semester. Regular availability on evenings and weekends is required.

**Repeatable:** *N*

**Formerly** 31-1540

**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **THEA 266 Directing I**

This course focuses on process through which one approaches a play from a directorial point of view. Students read and discuss five plays and direct scenes from two or three of them. Students create prompt books for their scenes.

**Repeatable:** *N*

**Formerly** 31-2700

**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making and ENGL 112 Writing and Rhetoric II or THEA 111 Theatre Foundation I: Theatre Making and ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II and THEA 111 Theatre Foundation I: Theatre Making

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **THEA 390 Theatre Career**

This course will provide upper level Theatre majors with practical knowledge they will need to transition into careers in their field. Taught by our faculty of theatre professionals, this course explores: unions and contracts as they relate to theatre artists; models of producing: from the storefront theatre to LORT; creating a new theatre company; and self-promotion.

**Repeatable:** *N*

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 1 Maximum Credits 1**

*Choose one of the following courses:*

## **THEA 320 Dramaturgy**

This course provides an overview of the art and craft of dramaturgy in the contemporary theatre. Through individual and group projects, students examine the role the dramaturg plays in developing production concepts, conducting production research, choosing translations, and developing adaptations of literature for performance. Students will also consider how the dramaturg functions within a theatrical organization to assist in season selection, audience education, and audience development.

**Repeatable:** *N*

**Formerly** 31-3125

**Prerequisites** THEA 205 Text Analysis

**Minimum Credits** 3 **Maximum Credits** 3

## **THEA 346 Period Styles for Theatrical Design**

This course will familiarize students of theatrical design and directing with the prevalent visual movements in the history of art, architecture, fashion and decorative arts. It will integrate these diverse elements to create a knowledge of the cultural life of each period discussed. Pre-historic through modern periods will be covered. Lecture, research, and field trips utilizing Chicago's architecture and cultural institutions will aid students in the development of their visual vocabulary.

**Repeatable:** N

**Formerly** 31-3160

**Prerequisites** THEA 201 Theatre History & Inquiry or THEA 202 Traditions of World Theatre

**Minimum Credits** 3 **Maximum Credits** 3

*Choose one of the following courses:*

## **THEA 228 Design/Tech Practicum**

This course enables students to work on productions within the department under faculty and staff supervision. Students may repeat the course three times. This course allows the student to acquire the practical skills used in the various shops of the Department.

**Repeatable:** Y

**Formerly** 31-2523

**Prerequisites** THEA 163 Introduction to Costume Construction or THEA 161 Introduction to Scenic Construction or THEA 133A Makeup Techniques: or THEA 235 Makeup Design or THEA 164 Introduction to Lighting Technologies

**Minimum Credits** 1 **Maximum Credits** 1

## **THEA 286 Production and Performance**

Creative participation as a performer, designer, technician or crew member in Student Directing Projects, New Stew Showcases, Comedy or Faculty Workshop, or other department performances.

**Repeatable:** Y

**Formerly** 31-2301

**Requirements** Permission Required (DP)

**Minimum Credits** 0 **Maximum Credits** 2

## **THEA 481 Stage Management Practicum**

This course will provide students with a hands-on experience in the practices and techniques of stage management in the professional theatre. In addition to stage managing a departmental project throughout the course of the semester, students will meet weekly for discussion of trending topics within their production work. Regular availability on evenings and weekends is required.

**Repeatable:** Y

**Formerly** 31-2540

**Prerequisites** THEA 254 Stage Management I  
**Minimum Credits 1 Maximum Credits 1**

*Choose one of the following courses:*

### **COLL 210 Internship**

This course allows students to take a valuable internship experience in their desired industry for academic credit. Each position is vetted and approved by Career Center to ensure that it is an educational opportunity that will fulfill the learning objectives of the course. Participating in an internship allows the student to gain hands-on experience and explore career interests while applying knowledge and skills learned in the classroom to a work setting. The experience also helps students gain a clearer sense of what they still need to learn and provides an opportunity to build professional networks. Students are responsible for securing their own internships and having them approved prior to registering for this course. Please contact the Career Center for assistance and resources.

**Repeatable:** Y

**Formerly** 99-2100

**Requirements** Permission Required (DP)

**Minimum Credits 1 Maximum Credits 1**

### **THEA 470 One-Act Play Festival**

This J-Term course is a comprehensive workshop production of the works of several selected playwrights. (Actors and Directors are secured during the previous months.) While the playwrights work on and discuss their plays during class time, they will also be attending rehearsals of their plays led by the faculty instructor and student directors. The rehearsal period is short and student actors work with scripts in hand so that playwrights can continue implementing rewrites throughout the rehearsal period. The workshop culminates in a week-long festival of performances whereby each play is performed before a live audience.

**Repeatable:** Y

**Formerly** 31-3707J

**Prerequisites** THEA 268 Playwriting II

**Requirements** Permission Required (DP)

**Minimum Credits 1 Maximum Credits 1**

### **THEA 484 Directing Practicum**

Students enrolled in Directing II, III, or IV classes direct and produce plays each semester. In this Practicum, students will expand on acquired skills necessary to produce a play. In an ongoing classroom dialogue, the students and instructors explore all areas of production including collaboration, technical rehearsal planning, and design, with occasional input from guest designers.

**Repeatable:** Y

**Formerly** 31-3776

**Prerequisites** THEA 266 Directing I

**Requirements** Permission Required (DP)

**Minimum Credits 1 Maximum Credits 1**

## **CONCENTRATIONS**

## Directing

### **THEA 102 Scene Study for Non-Acting Majors**

Students learn to solve beginning acting problems through work on scenes from a diverse range of plays. Students study the acting text for clues to character behavior and motivation. They explore the rehearsal process with an emphasis on listening and responding to their scene partner, making choices and reflection and revision. Observation and detailed, constructive critique engages students in each other's work in class.

**Repeatable:** *N*

**Formerly** 31-1205

**Prerequisites** THEA 101 Acting Basic Skills for Non-Acting Majors or THEA 111 Theatre Foundation I: Theatre Making or THEA 120 Comedy Foundations I: Ensemble and Discovery or THEA 141 Musical Theatre Foundations

**Minimum Credits 3 Maximum Credits 3**

### **THEA 267 Directing II**

With instructor approval, this course asks students to select one act of less than 45 minutes to direct. Students cast play from the Theatre Department student body, direct the play, and mount four performances in the Classic Studio. Rehearsals are held outside class hours and are determined by director and cast. All areas of directing are discussed among students and instructors with occasional guest directors, actors, and designers. Students will direct a one-act play.

**Repeatable:** *N*

**Formerly** 31-2750

**Prerequisites** THEA 266 Directing I and THEA 481 Stage Management Practicum and THEA 205 Text Analysis

**Concurrent Requisite** THEA 484 Directing Practicum

**Minimum Credits 3 Maximum Credits 3**

### **THEA 281 Basic Viewpoints Workshop**

This course examines Viewpoints, a movement philosophy that explores the issues of time and space. In theatre, it allows a group of actors to function spontaneously and intuitively; to generate bold new work quickly by developing flexibility, articulation, and strength in movement; and to use writing and other resources as steps to creativity. Students will learn the vocabulary and basic theory by applying Viewpoints to creating new compositions as well as using them with existing theatrical texts.

**Repeatable:** *N*

**Formerly** 31-2372

**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making

**Minimum Credits 1 Maximum Credits 1**

### **THEA 366 Directing III**

In this course students will select and direct a one-act play and learn how to research, analyze, stage and articulate their approach to the play.

**Repeatable:** *N*

**Formerly** 31-3701

**Prerequisites** THEA 267 Directing II  
**Minimum Credits 3 Maximum Credits 3**

## **THEA 450 Devising I**

Students will explore, devise and present ensemble created works in various styles.

**Repeatable:** *N*

**Formerly** 31-3706

**Prerequisites** THEA 112 Theatre Foundation II: Performance or THEA 101 Acting Basic Skills for Non-Acting Majors or THEA 152 Aesthetics for Theatre Makers or MUSC 223 Elements of Music Design or ARTS 105 Foundation Studio or DANC 167 Dance Improvisation or THEA 121 Comedy Foundations II: Point of View and Performance

**Minimum Credits 3 Maximum Credits 3**

## **THEA 467 Directing History and Theory**

In this seminar/lab class, students will examine a broad variety of historical and contemporary approaches to performance. The history and context of these approaches and theories will be analyzed from the perspective of directing. Students will begin to develop their own theory of performance from a directorial point of view

**Repeatable:** *N*

**Formerly** 31-3704

**Prerequisites** THEA 266 Directing I

**Minimum Credits 3 Maximum Credits 3**

## **THEA 484 Directing Practicum**

Students enrolled in Directing II, III, or IV classes direct and produce plays each semester. In this Practicum, students will expand on acquired skills necessary to produce a play. In an ongoing classroom dialogue, the students and instructors explore all areas of production including collaboration, technical rehearsal planning, and design, with occasional input from guest designers.

**Repeatable:** *Y*

**Formerly** 31-3776

**Prerequisites** THEA 266 Directing I

**Requirements** Permission Required (DP)

**Minimum Credits 1 Maximum Credits 1**

## Playwriting

### **THEA 102 Scene Study for Non-Acting Majors**

Students learn to solve beginning acting problems through work on scenes from a diverse range of plays. Students study the acting text for clues to character behavior and motivation. They explore the rehearsal process with an emphasis on listening and responding to their scene partner, making choices and reflection and revision. Observation and detailed, constructive critique engages students in each other's work in class.

**Repeatable:** *N*

**Formerly** 31-1205

**Prerequisites** THEA 101 Acting Basic Skills for Non-Acting Majors or THEA 111 Theatre Foundation I: Theatre Making or THEA 120 Comedy Foundations I: Ensemble and Discovery or THEA 141 Musical Theatre Foundations

**Minimum Credits 3 Maximum Credits 3**

## **THEA 268 Playwriting II**

This course furthers techniques of playwriting begun in Playwriting I: scene and character development, dialogue, theme, story, and play structure. Students focus on completion of one-act plays.

**Repeatable:** N

**Formerly** 31-3800

**Prerequisites** THEA 168 Playwriting I

**Minimum Credits 3 Maximum Credits 3**

## **THEA 432 New Plays Workshop**

Working in teams, Playwriting and Directing students collaborate to develop a playwright's script for performance via a proposed production. The director guides the script through a series of readings with student actors, resulting in subsequent rewrites by the playwright and a production analysis of the play by the director. The semester culminates in a staged reading of the playwrights' final drafts and the directors' final production analysis.

**Repeatable:** Y

**Formerly** 31-3805

**Prerequisites** THEA 268 Playwriting II or THEA 266 Directing I

**Minimum Credits 3 Maximum Credits 3**

## **THEA 468 Playwriting: Advanced**

Playwriting students develop a full-length play while creating class-created and one-act plays and combat scenes to be performed at the end of the semester. Students polish skills acquired in Playwriting I and II, engage in deep analysis and evaluation of a variety of styles and genres, and discuss professional playwriting with visiting working playwrights.

**Repeatable:** Y

**Formerly** 31-3801

**Prerequisites** THEA 320 Dramaturgy and THEA 268 Playwriting II

**Minimum Credits 3 Maximum Credits 3**

*Complete 6 credits from the following courses:*

## **THEA 287A Topics in Playwriting**

Students write new plays in response to a specific and unique playwriting topic presented in each distinctive section of this umbrella course. Possible topics include (but are not limited to) writing musical theatre, writing plays for children, adapting literature into drama, writing experimental plays, creating a living newspaper theatre, generating political theatre, writing modern adaptations of classic drama, and/or writing plays focused on one area of the world or one group of people. Each Topics class culminates in a live staged performance or reading featuring student performers.

**Repeatable:** Y

**Formerly** THEA 287

**Prerequisites** THEA 168 Playwriting I

**Minimum Credits 3 Maximum Credits 3**

## **THEA 287B Topics in Playwriting**

Students write new plays in response to a specific and unique playwriting topic presented in each distinctive section of this umbrella course. Possible topics include (but are not limited to) writing musical theatre, writing plays for children, adapting literature into drama, writing experimental plays, creating a living newspaper theatre, generating political theatre, writing modern adaptations of classic drama, and/or writing plays focused on one area of the world or one group of people. Each Topics class culminates in a live staged performance or reading featuring student performers.

**Repeatable:** Y

**Prerequisites** THEA 168 Playwriting I

**Minimum Credits 3 Maximum Credits 3**

## **Stage Management**

### **BUSE 109 Information Management**

This course provides students with a practical framework for employing essential computer applications in today's business environment. Students apply advanced functions of database, spreadsheet, word processing and presentation software to business analysis and decision-making processes. The skill set pursued in this course is fundamental to effective managerial operations of a variety of arts, entertainment and media businesses and organizations.

**Repeatable:** N

**Formerly** 28-1113

**Minimum Credits 3 Maximum Credits 3**

### **THEA 255 Production Management**

This advanced course is designed to build upon the students skills as designers, stage managers, or technicians in order to provide the ability and insight to serve in a supervisory capacity for theatrical productions. Students will learn broad management techniques as well as perform industry specific assignments intended to cultivate an understanding of the technical, financial, logistical, and staffing demands of a professional production.

**Repeatable:** N

**Formerly** 31-3550

**Prerequisites** THEA 254 Stage Management I or THEA 267 Directing II

**Minimum Credits 3 Maximum Credits 3**

### **THEA 285 Creating a Performance**

This course is required for all students that are chosen to rehearse, design and perform a main stage production of the Theatre department. The ensemble will include design, production, and acting members. Each will work as a specialist within their area of concentration, but also as an ensemble member who will seek and give input outside the area of their growing expertise. Students will use collaborative models appropriate to the involvement required at different stages of creative and practical performance

development.

**Repeatable:** Y

**Formerly** 31-2960

**Requirements** Permission Required (DP)

**Minimum Credits** 3 **Maximum Credits** 3

## **THEA 355 Stage Management II**

Students will work on a department production as the lead stage manager while discussing challenges and problems in a group setting. Night and weekend availability is required.

**Repeatable:** Y

**Formerly** 31-3530

**Prerequisites** THEA 254 Stage Management I and THEA 481 Stage Management Practicum

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

## **THEA 481 Stage Management Practicum**

This course will provide students with a hands-on experience in the practices and techniques of stage management in the professional theatre. In addition to stage managing a departmental project throughout the course of the semester, students will meet weekly for discussion of trending topics within their production work. Regular availability on evenings and weekends is required.

**Repeatable:** Y

**Formerly** 31-2540

**Prerequisites** THEA 254 Stage Management I

**Minimum Credits** 1 **Maximum Credits** 1

*Choose one of the following courses:*

## **MUSC 103 Theory I for Musical Theatre**

Course prepares students for study of theory and is based on intense drill in note recognition, work with basic rhythms, and preliminary development of aural skills, with special attention to note replication. Students develop a sense of self-discipline required for the study of music, a sense of relative pitch, a verbal musical literacy, and an ability to listen actively.

**Repeatable:** N

**Formerly** MUSC 108

Music Theatre Majors Only (2MUS)

**Minimum Credits** 3 **Maximum Credits** 3

## **THEA 110 Improvisation Essentials**

Designed for both Theatre and non-Theatre majors, this course is a study of improvisational techniques, rooted in the work of Viola Spolin, that are foundational to theatre such as The Second City and Upright Citizens Brigade. Students will work individually, in small groups, and as a single ensemble to experience the process of improvising together. Drawing from both everyday life and improvisational concepts (such as give and take, support, mirroring, explore and heighten, environment, object work, and character) students will actively explore through exercises to create consistent and effective scene work.

**Repeatable:** *N*  
**Formerly** 31-1210  
**Minimum Credits** 3 **Maximum Credits** 3

### **THEA 147 Musical Theatre Dance for the Singer/Actor**

This course emphasizes dance terminology and basic techniques necessary at an introductory level. Executing basic dance terminology will be the focus of this course along with attention to proper nutrition and injury prevention. Students will apply terminology in basic floor combinations in a variety of musical theatre dance styles. Each class session will include strengthening exercises to improve flexibility, conditioning and technique in ballet, jazz and tap. No prior dance training is necessary.

**Repeatable:** *N*  
**Formerly** 31-1435  
**Minimum Credits** 2 **Maximum Credits** 2

### **THEA 230 Stage Combat I**

This beginning course instructs students in how to create the illusion of violence for stage and screen including basic instruction in Unarmed (feet, fists, slaps, punches, kicks, falls, and rolls) and Rapier and Dagger (parries, cuts, thrusts and more!) The emphasis is on safe and realistic violence for the stage. Midterm scenes will be performed in the classroom. Final scenes will be performed in a theatre during the final weeks of the semester.

**Repeatable:** *N*  
**Formerly** 31-2315  
**Prerequisites** THEA 101 Acting Basic Skills for Non-Acting Majors or THEA 111 Theatre Foundation I: Theatre Making or THEA 120 Comedy Foundations I: Ensemble and Discovery or THEA 141 Musical Theatre Foundations  
**Minimum Credits** 3 **Maximum Credits** 3

*Choose one of the following courses:*

### **THEA 161 Introduction to Scenic Construction**

This course is a basic introduction to the construction of an interior architectural set. The class will focus on building basic set elements from raw material, and the assembling of these elements to form a theatrical set. Health and safety in the workplace will comprise a substantial section of the course. During the semester, students will experience the reading and interpretation of ground plans and drawings, the safe use of basic shop and power tools, and strategies for analyzing the construction of sets both on campus and in the professional world.

**Repeatable:** *N*  
**Formerly** 31-1530  
**Minimum Credits** 3 **Maximum Credits** 3

### **THEA 164 Introduction to Lighting Technologies**

This basic skills course addresses primary information in the art of stage lighting. Instruction includes purposes, allied techniques, equipment terminology, use of color, and fundamental drafting.

**Repeatable:** *N*  
**Formerly** 31-1520  
**Minimum Credits 3 Maximum Credits 3**

## **THEA 260 Set Design**

This course introduces the student to the art of Set Design. Focusing on the synthesis of text and space, students will learn to understand spatial relationships in the theatre, actor to actor, and audience to actor. They will learn to manipulate the emotional and visual space of the theatre. The students will be introduced to the process of designing scenery for the stage.

**Repeatable:** *N*  
**Formerly** 31-2610  
**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making  
**Minimum Credits 3 Maximum Credits 3**

## **THEA 262 Costume Design**

This course will introduce students to the art and business of Costume Design for theatre and film. Projects will focus on character development from text, costume research, the creation of color palettes, the use of fabric, and organizational paperwork. The development and presentation of costume design for entire productions will be explored.

**Repeatable:** *N*  
**Formerly** 31-2615  
**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making or FASH 285 Fashion Styling I  
**Minimum Credits 3 Maximum Credits 3**

## **THEA 265 Lighting Design**

This course will introduce students to the artistic side of creating a live entertainment lighting design, focusing on its application in the theatre. Students will explore the use of light as a tool to create space, emphasis, and rhythm in performance. The focus will be on honing the ability to see and experience light and then use it to create design, including conceiving the design idea and communicating it to others. Students will explore theatrical texts and how to connect the text to the design idea.

**Repeatable:** *N*  
**Formerly** 31-2620  
**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making  
**Minimum Credits 3 Maximum Credits 3**

## **Theatre Studies**

### **THEA 180 Introduction to Theatre Studies**

This course introduces students to basic terminology and methodology used in understanding the scholarly study of theatre. Students will explore the relationship between theory and practice by exploring a range of contexts for theatre study through the following three areas: theatre history, dramatic criticism, and theatre theory. Students will study a sample of cultural and historical influences that form the background of theatre in a global context. Furthermore, students will read a range of dramatic texts alongside major theories of dramatic criticism to understand the practice and as well the critique of canon formation and the

sociocultural context in which they were written.

**Repeatable:** *N*

**Minimum Credits 3 Maximum Credits 3**

## **THEA 201 Theatre History & Inquiry**

This course examines theatre history through active research and inquiry into selected periods and genres of theatre. After reading and discussing a script, students will research primary and secondary sources to place the work in its artistic and cultural context. A short presentation of the research will follow. Then, students will develop a thesis and develop that idea through writing, performance, and/or visual presentation.

**Repeatable:** *N*

**Formerly** 31-2100

**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making and ENGL 112 Writing and Rhetoric II or THEA 111 Theatre Foundation I: Theatre Making and ENGL 112H Writing and Rhetoric II: Honors or THEA 111 Theatre Foundation I: Theatre Making and ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

## **THEA 280 Theories of Performance Studies**

What is performance? What does performance do? Why is performance classified as a central element of political, social and cultural life? What are the distinctions between performance as event, theory, and method? In answering these questions, this course introduces students to performance studies, an interdisciplinary field that investigates a wide range of repeatable, embodied, and symbolic actions. Specifically, this course offers a critical survey of the genealogies as well as foundational theories and theorists of performance studies including Zora Neale Hurston, Richard Schechner, Dwight Conquergood, Ervin Goffman, Victor Turner, Judith Butler, E. Patrick Johnson, and D. Soyini Madison. Students will examine a broad range of performances both on and off the stage from rituals and storytelling to live and recorded performances, and from political speeches and protests to human interaction and individual acts of identity expression. Additionally, we will apply analytical frameworks of performance theory to sites and happenings including theatre, religious events, social media, community gatherings, and sporting events as well as examine people's habitual patterns and behaviors of everyday life as performance.

**Repeatable:** *N*

**Prerequisites** CULS 101 Introduction to Cultural Studies or CULS 101H Introduction to Cultural Studies: Honors or THEA 106 Theatre Survey I: Global Drama and THEA 111 Theatre Foundation I: Theatre Making

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

*Choose two of the following courses:*

## **THEA 140 Musical Theatre History**

Required for Musical Theatre/Musical Theatre Performance majors, also open as elective to students in other majors. Course examines musical theatre history from beginnings through 'The Golden Age' of American song and the American musical to the present. Students study key figures, songs and shows in musical theatre, as well as social and cultural factors that influenced the form. Course develops research and critical thinking skills through reading and discussion of textbook, audio/visual presentations, essays, research projects, and tests.

**Repeatable:** *N*

**Formerly** 31-1400

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

## **THEA 211 African American Theatre and Performance**

This course surveys the historical, political, and aesthetic advancements of African American theatre from the late 19th century to the contemporary moment. In particular, this course examines dramatic literature alongside social movements such as the Black Power Movement as well as the Black Feminist Movement as a way to investigate how artists/activists used theatre and performance to promote Black liberation. In doing so we will witness changing and often challenging perceptions, creations, and responses to race and racism, and related social constructions of gender and sexuality. Furthermore, we will also address several larger questions pertaining to the development of Black theatre in America: What is a Black play? What is the relationship between Black theatre and the broader American theatre? How has Black theatre and performance contributed to the making of Black identity formation?

**Repeatable:** *N*

**HU DEI**

**Minimum Credits 3 Maximum Credits 3**

## **THEA 398 Topics in Performance and Representation**

In studio and seminar sessions, students will explore intersections between identity, representation and performance. The relationship of the performer with the character as written in the text and represented in performance will be of primary consideration. Theatrical texts and training methods will be considered in international and historical contexts.

**Repeatable:** *Y*

**Prerequisites** THEA 112 Theatre Foundation II: Performance or THEA 121 Comedy Foundations II: Point of View and Performance or THEA 152 Aesthetics for Theatre Makers

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **User Experience and Interaction Design, BA**

In the User Experience and Interaction Design major, students have the opportunity to invent creative, participant-centered design solutions that prepare them for careers within the dynamic and expanding fields of interactive design and development. The User Experience and Interaction Design degree is ideal for both the creative artist who possesses digital/computer-based skills and the back-end developer/coder/programmer with an aesthetic eye, strong work ethic and an impulse to innovate.

The major emphasizes the principles of user interface and experience design anchored by a strong dose of back-end technical skill development. By synthesizing their digital design skills, creativity, and knowledge of user-centered interaction theory, students create versatile projects that reach a wide variety of clients and audiences.

In their senior year, students participate in a dynamic capstone team class where they perform a specialized role within an interactive production team. Upon successful completion of the program, students are expected to compile a professional web-based portfolio featuring a body of work that seeks to exhibit a mastery of navigational interfaces, user-centered design practices and visual identity design.

As a result of successfully completing program requirements, students should be able to:

- demonstrate the ability to apply interactive culture core concepts to create and critique media works;
- identify and evaluate major historical and contemporary theories, works and ideas on social, interactive and mobile media;
- incorporate empathy and emotion to develop participant-centered work within the context of interaction design;
- demonstrate facility with interaction design patterns and methodologies as they relate to interactive art and media disciplines;
- develop interactive work using a variety of computational tools, technologies and processes to express ideas and solve design problems;
- exhibit proficiency applying the principles of user-centered theory and workflow to create interactive applications and digital media;
- synthesize technology ideas and aesthetics to build and refine a professional portfolio;
- use professional writing practices to articulate ideas appropriate to a target audience;
- make strategic use of digital media to deliver well-organized and professional oral and written presentations before groups;
- analyze and critique their own work in the context of the goal of the piece, its perception and the intended audience;
- use appropriate interaction design vocabulary to promote and advocate for their work;
- exhibit the professional behaviors, skills and work habits necessary to succeed in the global marketplace within their chosen field, including time-management and meta-cognition (learning to learn);
- demonstrate the social and emotional competencies necessary to perform and communicate responsibly in collaborative teams and group settings; and
- recognize the functions, methods, vocabulary and roles that are unique to the programmer, the designer and the artist within the iterative and collaborative design process.

## PROGRAM REQUIREMENTS - 42 credits required

### **INMD 102 Fundamentals of Interaction**

Contemporary interactive media share a common computational canvas. This course explores technology underlying these media, and introduces students interested in programming and interactive media development to foundational theories and practices in interface design and development. Interaction principles will be explored through practical assignments; sketching, prototyping, and design are essential parts of the development process. Students complete the course with an understanding of participant-centered design, usability, and foundational development terms and concepts.

**Repeatable:** *N*

**Formerly** 36-1010

**Minimum Credits 3 Maximum Credits 3**

### **INMD 114 Web Development I**

Counter to printed compositions, web design and development is about fluid and interactive experiences. This course provides an introduction to programming environments and teaches fundamental skills necessary to prototype and deploy digital media. Using technical elements like variables, conditions, sequences and events, completion of this course will empower students with the ability to design interactive

applications.

**Repeatable:** Y

**Formerly** 36-1420

**Minimum Credits 3 Maximum Credits 3**

## **INMD 120 Digital Image Design**

Technical, conceptual and aesthetic skills and concepts will inform an introductory body of work using imaging applications. Idea development, research, vocabulary and critical analysis skills will enhance development of individual voice. This fundamental media art course will also focus on visual design theory, gestalt principles and semiotics.

**Repeatable:** N

**Formerly** 36-1300

**Minimum Credits 3 Maximum Credits 3**

## **INMD 210 Interface Design I**

Course advances students' practical understanding of media theory, with an emphasis on interactive models of communication. This course focuses on navigational models of interaction design and how to create participant-centered interfaces through research, usability testing, and iterative design. Students produce substantial written critiques to demonstrate their growing understanding of the discipline.

**Repeatable:** N

**Formerly** 36-2110

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **INMD 215 Conversational Interfaces**

Conversation interfaces offer a greater degree of engagement than typical navigational models, and its dependence upon spoken word and audio broaden the reach and application of interactive media beyond visual environments. Students have the opportunity to author highly engaging, writing-centric interactive content. From fiction to non-fiction, poetry to ad copy, this new interaction model offers substantial creative and professional territory for interaction designers and writers alike.

**Repeatable:** N

**Formerly** 36-2130

**Prerequisites** ENGL 112 Writing and Rhetoric II and INMD 102 Fundamentals of Interaction or ENGL 112H Writing and Rhetoric II: Honors and INMD 102 Fundamentals of Interaction or ENGL 122 International Writing and Rhetoric II and INMD 102 Fundamentals of Interaction

**Minimum Credits 3 Maximum Credits 3**

## **INMD 220A Prototyping Strategies**

Students gain a deeper understanding of techniques and practices by sketching, thumbnailing, storyboarding and making physical mock-ups for digital projects. The iterative production cycle is practiced by rapid prototyping in a collaborative environment, and is informed by research and testing. Each five week module of this one credit, repeatable course will focus on a different prototyping tool and evaluation method.

This class develops a student's ability to communicate quickly visually before committing to code and design, and to create participant-centered works based on usability-testing results.

**Repeatable:** Y

**Formerly** INMD 220

**Prerequisites** INMD 102 Fundamentals of Interaction

**Minimum Credits 1 Maximum Credits 1**

## **INMD 220B Prototyping Strategies**

Students gain a deeper understanding of techniques and practices by sketching, thumbnailing, storyboarding and making physical mock-ups for digital projects. The iterative production cycle is practiced by rapid prototyping in a collaborative environment, and is informed by research and testing. Each five week module of this one credit, repeatable course will focus on a different prototyping tool and evaluation method. This class develops a student's ability to communicate quickly visually before committing to code and design, and to create participant-centered works based on usability-testing results.

**Repeatable:** Y

**Prerequisites** INMD 102 Fundamentals of Interaction

**Minimum Credits 1 Maximum Credits 1**

## **INMD 220C Prototyping Strategies**

Students gain a deeper understanding of techniques and practices by sketching, thumbnailing, storyboarding and making physical mock-ups for digital projects. The iterative production cycle is practiced by rapid prototyping in a collaborative environment, and is informed by research and testing. Each five week module of this one credit, repeatable course will focus on a different prototyping tool and evaluation method. This class develops a student's ability to communicate quickly visually before committing to code and design, and to create participant-centered works based on usability-testing results.

**Repeatable:** Y

**Prerequisites** INMD 102 Fundamentals of Interaction

**Minimum Credits 1 Maximum Credits 1**

## **INMD 260 Intro to IAM Team Development**

Working in a collaborative environment is a fundamental skill within the interaction design industry. In this course, students will learn about the roles in interactive team development; how to effectively manage time and project scope; how to set and meet deadlines; and how to work as a group to deliver user-centered projects.

**Repeatable:** N

**Formerly** 36-2602

**Prerequisites** INMD 102 Fundamentals of Interaction and INMD 130 Immersive Environments I and PROG 101 Programming I or INMD 214 Web Development II and PROG 101 Programming I or GAME 110 Introduction to Game Development and PROG 101 Programming I or INMD 102 Fundamentals of Interaction and INMD 114 Web Development I

**Minimum Credits 3 Maximum Credits 3**

## **INMD 315 Experience Design**

This course will encourage students to evaluate their own work, as well as the work of others, from the viewpoint of their audience. By gaining an awareness of how the participant experiences their work, students will gain an understanding of how to create engaging, user-centered interfaces.

**Repeatable:** *N*

**Formerly** 36-3150

**Prerequisites** INMD 210 Interface Design I

**Minimum Credits** 3 **Maximum Credits** 3

## **INMD 350 Service Design and Systems Thinking**

Successful digital products solve a problem held by an identifiable group of people. Identifying the problem, the potential solutions, and knowing how to identify and reach the target market are all essential elements of a digital product launch. Students will explore the foundational concepts and practices of both user and market research and will have the opportunity to gain valuable experience pitching their ideas.

Multidisciplinary teams research, plan, design and rapidly build a digital product and pitch their ideas to professionals including product and user experience experts, start-up team members and investors, and digital entrepreneurs.

**Repeatable:** *Y*

**Prerequisites** INMD 114 Web Development I or INMD 210 Interface Design I

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

## **INMD 460 IAM Team**

Intensive team production course teaches students to work collaboratively while producing projects for an external client. Course begins with concepts of team organization and communication and continues with the formation of production teams, design of the project, and acquisition of media elements. Students practice scheduling and meeting deadlines by shipping multiple versions of the project.

**Repeatable:** *Y*

**Formerly** 36-4600

**Prerequisites** INMD 260 Intro to IAM Team Development

**Minimum Credits** 6 **Maximum Credits** 6

*Choose three of the following courses:*

## **AUDI 436 Research Methods: An Interdisciplinary Approach**

Understanding research on quantitative and observable data requires a thorough understanding of the scientific method, familiarity with multiple methodological approaches to research, as well as the ability to critically evaluate the strengths and limitations of methods and data collected within a research paradigm. This multidisciplinary course is designed particularly for students within Media Arts who will benefit from an understanding of research methods in science and communications, as distinct from research in humanities and creative arts. Students in this course will learn about the strengths and limitations of various types of research, as well as directly apply research methods through group and individual research proposals and projects, including projects within their discipline.

This course is not discipline-specific and therefore can serve students outside the department.

**Repeatable:** *N*

**Formerly** 43-3583

**Prerequisites** ENGL 112 Writing and Rhetoric II and MATH 110 College Mathematics or ENGL 112 Writing

and Rhetoric II and MATH 115 Liberal Arts Mathematics or ENGL 112 Writing and Rhetoric II and MATH 120 Quantitative Reasoning or ENGL 112 Writing and Rhetoric II and ACCU-T-67 EXAM-ACCUPLACER MATH MINIMUM SCORE = 67 or ENGL 112 Writing and Rhetoric II and ACT-M-23 EXAM-ACT MATH MINIMUM SCORE = 23 or ENGL 112 Writing and Rhetoric II and SAT-M-550 EXAM-SAT MATH MINIMUM SCORE = 550 or ENGL 112H Writing and Rhetoric II: Honors and MATH 110 College Mathematics or ENGL 112H Writing and Rhetoric II: Honors and MATH 115 Liberal Arts Mathematics or ENGL 112H Writing and Rhetoric II: Honors and MATH 120 Quantitative Reasoning or ENGL 112H Writing and Rhetoric II: Honors and ACCU-T-67 EXAM-ACCUPLACER MATH MINIMUM SCORE = 67 or ENGL 112H Writing and Rhetoric II: Honors and ACT-M-23 EXAM-ACT MATH MINIMUM SCORE = 23 or ENGL 112H Writing and Rhetoric II: Honors and SAT-M-550 EXAM-SAT MATH MINIMUM SCORE = 550 or ENGL 122 International Writing and Rhetoric II and MATH 110 College Mathematics or ENGL 122 International Writing and Rhetoric II and MATH 115 Liberal Arts Mathematics or ENGL 122 International Writing and Rhetoric II and MATH 120 Quantitative Reasoning or ENGL 122 International Writing and Rhetoric II and ACCU-T-67 EXAM-ACCUPLACER MATH MINIMUM SCORE = 67 or ENGL 122 International Writing and Rhetoric II and ACT-M-23 EXAM-ACT MATH MINIMUM SCORE = 23 or ENGL 122 International Writing and Rhetoric II and SAT-M-550 EXAM-SAT MATH MINIMUM SCORE = 550 or ENGL 112 Writing and Rhetoric II and ALEK-1-46 EXAM-ALEKS MINIMUM SCORE = 46 or ENGL 112H Writing and Rhetoric II: Honors and ALEK-1-46 EXAM-ALEKS MINIMUM SCORE = 46 or ENGL 122 International Writing and Rhetoric II and ALEK-1-46 EXAM-ALEKS MINIMUM SCORE = 46

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **INMD 130 Immersive Environments I**

Examine historical and contemporary uses of immersive environments. Generate a variety of work using Augmented Reality, Virtual Reality & 360 Video technologies. Explore 21st Century alternative modes of spectatorship; in particular immersive and interactive ways of experiencing visual spectacle.

**Repeatable:** *N*

**Formerly** INMD 430

**Minimum Credits 3 Maximum Credits 3**

## **INMD 214 Web Development II**

Interactive design and development can narrate any topic. Using methods and techniques exposed in Web Development I, students prototype and iterate work as a means of increasing complexity and refining concept. Throughout this course students gain and apply the project development strategies necessary to research and produce interactive media using professional management strategies.

**Repeatable:** *N*

**Formerly** 36-2421

**Prerequisites** INMD 114 Web Development I

**Minimum Credits 3 Maximum Credits 3**

## **INMD 263 Physical Computing I**

Course teaches students to read wiring diagrams, as well as design and build basic electronic circuits for general applications. Students use commercially available tools to design, build, and program simple functional devices which produce a physical response (light, sound, or motion) in the environment and interfacing with a computer.

**Repeatable:** Y  
**Formerly** 36-2620  
**Minimum Credits** 3 **Maximum Credits** 3

## **INMD 355 Information Architecture**

This course provides insight into the way we sort and categorize data, and how these different schema impact the user experience. Students will explore multiple concepts of organizational techniques, and introduce the student to methods for effectively assessing and creating their own organizational structures to optimize the user experience.

**Repeatable:** N  
**Formerly** 36-3515  
**Prerequisites** INMD 210 Interface Design I  
**Minimum Credits** 3 **Maximum Credits** 3

## **INMD 370 Studio Collaboration**

Students in Studio Collaboration act effectively as interns to IAM Team, which is the final stage in the Interaction Design and Programming senior/capstone sequence. IAM Team is an intensive team production course that teaches students to work collaboratively while producing projects for an external client. Course begins with concepts of team organization and communication and continues with the formation of production teams, design of the project, and acquisition of media elements. Students practice scheduling and meeting deadlines by shipping multiple versions of the project.

**Repeatable:** Y  
**Prerequisites** INMD 114 Web Development I or INMD 260 Intro to IAM Team Development or INMD 210 Interface Design I or INMD 235 Immersive Environments II  
**Requirements** Junior Standing or Above (JR)  
**Minimum Credits** 3 **Maximum Credits** 3

## **Bachelor of Fine Arts**

### **Acting, BFA**

The Bachelor of Fine Arts in Acting is a pre-professional degree that offers advanced performance skills and a multitude of practical experiences in Chicago and abroad, providing the opportunity to prepare for a career as a global artist, equally adept at interpretation or creation, in classical work as well as current media practice. Students have the option of an international exchange semester to immerse themselves in international performance practice and broaden their experience of the art form.

Each student will have the opportunity to receive personalized instruction and production/performance opportunities, several exclusive to the BFA cohort. Our program capacities are intentionally small to ensure individual attention, honing both the skills of the solo player as well as ensuring a strong commitment to an ensemble ethos. Progressively intense training in voice, movement, and acting styles is matched with inquiry into performance practice from a global perspective. The BFA cohort will create and perform a new work or present a contemporary script, synthesizing the techniques and insights acquired over the course of study in this structured, rigorous program.

Acting BFA students are regularly evaluated to monitor their levels of achievement and progress and to suggest directions for growth. Students must maintain a 3.0 GPA in their major, complete the performance requirements, and demonstrate continued development in order to continue in the program.

As a result of successfully completing program requirements, students should be able to:

- demonstrate a strong integration and practice of the requisite acting, voice, and movement skills of a variety of performance styles, including performance work in different media: on camera, voice over, animation, and devised work;
- display the collaborative skills necessary to be a vital, proactive part of the ensemble: in the classroom, in production, and in the profession;
- exhibit the ability to analyze texts for performance and research;
- articulate through speech and writing a working knowledge of theatre history and its foundational practitioners;
- develop a strategy for entering the profession and sustaining a career through the creation of a business model for self-management as a performer/theatre maker; and
- demonstrate knowledge of contemporary performance practice that deepens their skill set and broadens their professional opportunities.

## PROGRAM REQUIREMENTS - 72 credits required

### **THEA 106 Theatre Survey I: Global Drama**

This course is designed to introduce students to dramas - across history and cultures - that have influenced major trends in theatre. In doing so, students will engage a range of dramatic texts from classical and contemporary dramas to adaptations and revisions of canonical works. Students will study and discuss a sampling of plays that exemplify an array of genres and forms resulting in the student's ability to make connections between a text's form and its context.

**Repeatable:** *N*

**Minimum Credits 2 Maximum Credits 2**

### **THEA 107 Theatre Survey II: American Drama**

The American theatre both reflects and creates American identity. This course will examine plays from the mid-nineteenth century through the present day to investigate the ways that Americans participated in the construction, and deconstruction, of Americans' sense of self. Rather than a complete review of American drama, this course will survey a range of content, form, and styles as they define American drama and American identity.

**Repeatable:** *N*

**Prerequisites** THEA 106 Theatre Survey I: Global Drama or THEA 124 Comedy Survey I or THEA 141 Musical Theatre Foundations

**Minimum Credits 2 Maximum Credits 2**

### **THEA 111 Theatre Foundation I: Theatre Making**

Theatre Foundation I: Theatre Making invites incoming students into their role as creative practitioners. Students investigate the elements and principles of artistic process that can be applied to all aspects of theatre making. The course develops students' awareness, observation and collaborative skills, and their ability to transpose experiences in the world into visual, written, vocal and physical form. Readings,

composition work in class and attendance at Columbia College Chicago productions and in the city of Chicago deepens students' understanding and appreciation of the scope of contemporary theatre making practices.

**Repeatable:** *N*

**Formerly** 31-1251

**Concurrent Requisite** THEA 106 Theatre Survey I: Global Drama

**Minimum Credits 4 Maximum Credits 4**

## **THEA 112 Theatre Foundation II: Performance**

In Theatre Foundation II: Performance students will explore presence, the audience/performer relationship and how to shape time, space and energy in work with scripted and devised material. This course is a continuation of Theatre Foundation I and provides a strong foundation for the performer through an integrated study of movement and voice, ensemble and performance. Students will investigate dramatic story telling by exploring the relationship between text and character and in working on monologues and two person scenes.

**Repeatable:** *N*

**Formerly** 31-1252

**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making or THEA 120 Comedy Foundations I: Ensemble and Discovery or THEA 141 Musical Theatre Foundations

**Concurrent Requisite** THEA 107 Theatre Survey II: American Drama

**Minimum Credits 4 Maximum Credits 4**

## **THEA 126 Introduction to Auditioning**

Students engage in discussion, demonstration and the application of techniques in auditioning for performance in a variety of media such as live theatre, film, television and voice over. Selection and preparation of material, professional conduct and terminology are stressed in addition to developing strategies for relaxation, building confidence and being true to yourself in the audition experience.

**Repeatable:** *N*

**Formerly** 31-1690

**Minimum Credits 1 Maximum Credits 1**

## **THEA 185 BFA Acting Workshop**

This course is designed for students who have auditioned for, and been accepted into the BFA in Acting. The course will present a series of performance workshops that offer diverse techniques to augment the BFA curriculum as well as opportunities for students to form important artistic bonds within the BFA cohort. Topics covered will be based in the expertise of existing faculty and/or to take advantage of artists who are not part of the Columbia College faculty but available for a workshop experience.

**Repeatable:** *Y*

**Requirements** BFA Students Only (BFA) Acting Majors Only (M311)

**Minimum Credits 1 Maximum Credits 1**

## **THEA 202 Traditions of World Theatre**

This course will survey the dramas, history, and aesthetics of performance traditions from various locations around the world including Africa, Asia, Latin America, and the West (United States and Europe),

emphasizing important developments and highlighting pivotal movements and participants within their broader historical, social, and cultural contexts. Through an examination of theatrical forms, expressive styles, and contributions of performance traditions from around the world, students will become acquainted with how theatre reflects and constitutes community and culture.

**Repeatable:** *N*

**Formerly** 31-2103

**HU DEI**

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

## **THEA 203 Voice for the Actor**

This course teaches the practice of healthy vocal use by exploring the processes of speech production. Knowledge of the basic anatomy of the breathing musculature and vocal mechanism will support the student actor's developing technique. Particular attention will be paid to freeing both the body and voice from over-effort. The speech sounds of the General American English dialect will be introduced as a tool for students to develop energy and clarity in articulating thought. Students will build their palette of vocal expression through the use of dramatic text.

**Repeatable:** *N*

**Formerly** 31-2300

**Prerequisites** THEA 103 Voice for Non-Theatre Majors and THEA 101 Acting Basic Skills for Non-Acting Majors or THEA 112 Theatre Foundation II: Performance

**Minimum Credits 3 Maximum Credits 3**

## **THEA 204 Movement for the Actor**

Students continue the study of the actor's physical instrument. Working as an ensemble and through personal practice outside of class, students expand physical strength and stability, and the interconnection of voice and body, emotion and body, mind and body.

**Repeatable:** *N*

**Formerly** 31-2305

**Prerequisites** THEA 112 Theatre Foundation II: Performance

**Minimum Credits 3 Maximum Credits 3**

## **THEA 205 Text Analysis**

This course introduces students to varying methods and approaches to script analysis. While students will become familiar with traditional methods of analysis, a significant emphasis will be placed on alternative and complementary methods including contemplation and intuitive responses, visualization and imagery, and somatic responses to play scripts. Through course readings, presentations, and group activities, furthermore, this course will familiarize students with vocabulary and strategies of analysis for actors, designers, and playwrights, thereby facilitating communication of production ideas.

**Repeatable:** *N*

**Formerly** 31-2120

**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making and ENGL 112 Writing and Rhetoric II or THEA 111 Theatre Foundation I: Theatre Making and ENGL 112H Writing and Rhetoric II: Honors or THEA 111 Theatre Foundation I: Theatre Making and ENGL 122 International Writing and Rhetoric II or THEA 141

Musical Theatre Foundations and ENGL 112 Writing and Rhetoric II or THEA 141 Musical Theatre Foundations and ENGL 112H Writing and Rhetoric II: Honors or THEA 141 Musical Theatre Foundations and ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

### **THEA 207 Scenes: Performance & Analysis**

Students take an active and creative role in analyzing and rehearsing scenes for performance. Students are encouraged to make choices that explore the text in the current cultural moment, but also to analyze the given circumstances embedded in the text. The integration of physical and vocal technique into performance continues from previous course work. Students will present scenes for live and on-camera performance.

**Repeatable:** *N*

**Formerly** 31-2200

**Prerequisites** THEA 112 Theatre Foundation II: Performance or THEA 125 Comedy Survey II or THEA 103 Voice for Non-Theatre Majors and THEA 102 Scene Study for Non-Theatre Majors

**Minimum Credits 3 Maximum Credits 3**

### **THEA 250 Character & Ensemble**

Students analyze the shifting alliances and conflicts that occur in scenes between three or more characters. This analytical work is explored in the context of heightened give and take, awareness, concentration and focus demanded in a more populated stage space. Students are encouraged to make active, transformative choices in physical and vocal technique, and are expected to take responsibility for memorization, preparation and reflection that is essential to the actor's discipline. Students will present scenes for live and on-camera performance.

**Repeatable:** *N*

**Formerly** 31-2205

**Prerequisites** THEA 207 Scenes: Performance & Analysis and THEA 203 Voice for the Actor and THEA 205 Text Analysis or THEA 240 Musical Theatre Scene Study and THEA 203 Voice for the Actor and THEA 205 Text Analysis

**Minimum Credits 4 Maximum Credits 4**

### **THEA 281 Basic Viewpoints Workshop**

This course examines Viewpoints, a movement philosophy that explores the issues of time and space. In theatre, it allows a group of actors to function spontaneously and intuitively; to generate bold new work quickly by developing flexibility, articulation, and strength in movement; and to use writing and other resources as steps to creativity. Students will learn the vocabulary and basic theory by applying Viewpoints to creating new compositions as well as using them with existing theatrical texts.

**Repeatable:** *N*

**Formerly** 31-2372

**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making

**Minimum Credits 1 Maximum Credits 1**

### **THEA 285 Creating a Performance**

This course is required for all students that are chosen to rehearse, design and perform a main stage production of the Theatre department. The ensemble will include design, production, and acting members. Each will work as a specialist within their area of concentration, but also as an ensemble member who will

seek and give input outside the area of their growing expertise. Students will use collaborative models appropriate to the involvement required at different stages of creative and practical performance development.

**Repeatable:** Y

**Formerly** 31-2960

**Requirements** Permission Required (DP)

**Minimum Credits** 3 **Maximum Credits** 3

### **THEA 301 Advanced Acting: Heightened Languages**

Students will develop performance and analytical skills demanded by texts with heightened language. Emphasis will be placed on how heightened language supports acting choices, and on physical engagement with the text through breath, resonance and the tactile feel of language. Students will research and perform texts from a wide spectrum of cultural, economic and social diversity. This is an advanced acting class that synthesizes learning from previous classes in text analysis, theater history, scene study and vocal and physical training.

**Repeatable:** N

**Formerly** 31-3204

**Prerequisites** THEA 250 Character & Ensemble and THEA 143 Musical Theatre Dance I or THEA 204 Movement for the Actor and THEA 250 Character & Ensemble

**Minimum Credits** 3 **Maximum Credits** 3

### **THEA 302 Advanced Acting: Physical Approaches**

Students will develop performance and devising skills that are based in the physicality of the actor. Emphasis will be on different physical approaches that investigate impulse, energy, 'spine' and the kinesthetic relationship between performers. Students will research and explore performance representing a wide spectrum of cultural, economic and social diversity. This is an advanced acting class that synthesizes learning from previous classes in text analysis, theater history, scene study and vocal and physical training.

**Repeatable:** N

**Formerly** 31-3200

**Prerequisites** THEA 250 Character & Ensemble and THEA 143 Musical Theatre Dance I or THEA 250 Character & Ensemble and THEA 204 Movement for the Actor

**Minimum Credits** 3 **Maximum Credits** 3

### **THEA 304 Advanced Acting: On-Camera Performance**

Students develop the skills, terminology and etiquette for performance in the on-camera environment. This combined class works with television and/or film directors to collaborate in rehearsal, performance, capture and post-production processes. Students learn how to prepare for auditions and on-camera performances by taking an active role shaping their own performances in relation to text, character, presentation and performance context. Students also consider how to be compositional 'within the frame', how to maintain continuity, and how to make discoveries from take to take.

**Repeatable:** N

**Prerequisites** THEA 250 Character & Ensemble

**Minimum Credits** 3 **Maximum Credits** 3

### **THEA 322 Voice and Text**

This course explores the intersection of vocal technique and imagination in creating dynamic acting choices specifically through the use of language. Students will practice skillful application of vocal technique to a wide range of performance texts, while learning to build vocal strength, energy, stamina, and flexibility. Students will investigate structure, rhythm, image, argument, sound and sense in performing a variety of dramatic and poetic texts. A written component of the course requires students to reflect critically on the use of vocal technique in performance.

**Repeatable:** Y

**Formerly** 31-3300

**Prerequisites** THEA 205 Text Analysis and THEA 207 Scenes: Performance & Analysis and THEA 203 Voice for the Actor

**Minimum Credits 3 Maximum Credits 3**

## **THEA 398 Topics in Performance and Representation**

In studio and seminar sessions, students will explore intersections between identity, representation and performance. The relationship of the performer with the character as written in the text and represented in performance will be of primary consideration. Theatrical texts and training methods will be considered in international and historical contexts.

**Repeatable:** Y

**Prerequisites** THEA 112 Theatre Foundation II: Performance or THEA 121 Comedy Foundations II: Point of View and Performance or THEA 152 Aesthetics for Theatre Makers

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **THEA 401 Advanced Acting Workshop I**

This capstone acting course concentrates on expanding character and style ranges for students according to their individual needs.

**Repeatable:** N

**Formerly** 31-3891

**Prerequisites** THEA 302 Advanced Acting: Physical Approaches or THEA 301 Advanced Acting: Heightened Languages

**Minimum Credits 3 Maximum Credits 3**

## **THEA 402 Advanced Acting Workshop II**

This capstone BFA Acting class will synthesize performance technique learned in the Department and with our European partners in application to the creation of a devised piece or rehearsal and performance of a contemporary play from the European repertoire.

**Repeatable:** N

**Formerly** 31-3892

**Prerequisites** THEA 401 Advanced Acting Workshop I and THEA 301 Advanced Acting: Heightened Languages and THEA 322 Voice and Text

**Requirements** BFA Students Only (BFA) Acting Majors Only (M311)

**Minimum Credits 3 Maximum Credits 3**

## **THEA 420 Professional Survival and How to Audition**

Course examines techniques of self-promotion; knowledge of talent agencies and casting directors; unions, contracts, and bookkeeping for performers; and opportunities in the local market. Students work on monologues and cold readings for auditions. Course assists acting students making the transition from college to career by providing professional survival information, tools, and techniques. Students with an Acting concentration are required to take this course during their senior year.

**Repeatable:** *N*

**Formerly** 31-3900

**Prerequisites** THEA 250 Character & Ensemble or THEA 340 Scenes and Songs

**Minimum Credits** 3 **Maximum Credits** 3

## Performance Technique Elective

*Choose one of the following courses:*

### **THEA 110 Improvisation Essentials**

Designed for both Theatre and non-Theatre majors, this course is a study of improvisational techniques, rooted in the work of Viola Spolin, that are foundational to theatre such as The Second City and Upright Citizens Brigade. Students will work individually, in small groups, and as a single ensemble to experience the process of improvising together. Drawing from both everyday life and improvisational concepts (such as give and take, support, mirroring, explore and heighten, environment, object work, and character) students will actively explore through exercises to create consistent and effective scene work.

**Repeatable:** *N*

**Formerly** 31-1210

**Minimum Credits** 3 **Maximum Credits** 3

### **THEA 147 Musical Theatre Dance for the Singer/Actor**

This course emphasizes dance terminology and basic techniques necessary at an introductory level. Executing basic dance terminology will be the focus of this course along with attention to proper nutrition and injury prevention. Students will apply terminology in basic floor combinations in a variety of musical theatre dance styles. Each class session will include strengthening exercises to improve flexibility, conditioning and technique in ballet, jazz and tap. No prior dance training is necessary.

**Repeatable:** *N*

**Formerly** 31-1435

**Minimum Credits** 2 **Maximum Credits** 2

### **THEA 231 Stage Combat II**

This course offers continued study of safe and realistic violence for the stage and screen. The emphasis is on Advanced Unarmed and Rapier and Dagger; new weapon skill- Broadsword added. Midterm scenes will be performed in the classroom. Final scenes will be performed on the main stage during Performance Week. Adjudication of Skills Proficiency by a Fight Master of the Society of American Fight Directors and the British Academy of Stage and Screen Combat will be integrated into the final performances.

**Repeatable:** *N*

**Formerly** 31-2316

**Prerequisites** THEA 230 Stage Combat I

**Minimum Credits** 3 **Maximum Credits** 3

## **THEA 251 Accents and Dialects**

This course asks students to examine and practice the 10 most commonly used English and foreign language dialects encountered in English-speaking theatre. Content emphasizes technical aspects of dialect, such as vowel and consonant pronunciation, lilt, rhythm, and vocabulary, and how they affect a theatrical character's personality.

**Repeatable:** Y

**Formerly** 31-2325

**Prerequisites** THEA 112 Theatre Foundation II: Performance or THEA 103 Voice for Non-Theatre Majors or RADI 105 Voice and Articulation

**Minimum Credits 3 Maximum Credits 3**

## **Movement Elective**

*Choose one of the following courses:*

### **THEA 113 Feldenkrais: Awareness through Movement**

Course is based on Moshe Feldenkrais Awareness through Movement lessons. Through select breathing and movement sequences, students learn new vocal patterns and make spontaneous acting choices beyond habitual movement. Movement sequences are light and easy and may be accomplished by anyone regardless of age or physical limitations.

**Repeatable:** Y

**Formerly** 31-1310

**Minimum Credits 3 Maximum Credits 3**

### **THEA 230 Stage Combat I**

This beginning course instructs students in how to create the illusion of violence for stage and screen including basic instruction in Unarmed (feet, fists, slaps, punches, kicks, falls, and rolls) and Rapier and Dagger (parries, cuts, thrusts and more!) The emphasis is on safe and realistic violence for the stage. Midterm scenes will be performed in the classroom. Final scenes will be performed in a theatre during the final weeks of the semester.

**Repeatable:** N

**Formerly** 31-2315

**Prerequisites** THEA 101 Acting Basic Skills for Non-Acting Majors or THEA 111 Theatre Foundation I: Theatre Making or THEA 120 Comedy Foundations I: Ensemble and Discovery or THEA 141 Musical Theatre Foundations

**Minimum Credits 3 Maximum Credits 3**

## **Advanced Acting Elective**

*Choose one of the following courses:*

### **THEA 305 Advanced Acting: Realism**

Students will develop their performance skills and experience with the stylistic concepts of realism and naturalism. Emphasis is placed on the work the performer must do to activate the text and explore relationships between characters. The audience/performance relationship associated with realism will be considered. Students will research and perform texts from a wide spectrum of cultural, economic and social perspectives. This is an advanced acting class that combines learning from previous classes in text analysis, theater history, scene study and vocal and physical training.

**Repeatable:** *N*

**Prerequisites** THEA 250 Character & Ensemble and THEA 204 Movement for the Actor or THEA 250 Character & Ensemble and THEA 143 Musical Theatre Dance I

**Minimum Credits 3 Maximum Credits 3**

### **THEA 306 Advanced Acting: Presentational Theatre**

Students will develop their skills and experience with performance styles from a range of theatrical periods and playwrights focusing on absurd, expressionistic, political, surrealistic and current dramatic styles in which the performer acknowledges the act of performance. The audience/performance relationship will be widely explored. Students will research and perform texts from a wide spectrum of cultural, economic and social perspectives. This is an advanced acting class that combines learning from previous classes in text analysis, theater history, scene study and vocal and physical training.

**Repeatable:** *N*

**Formerly** 31-3228

**Prerequisites** THEA 250 Character & Ensemble and THEA 204 Movement for the Actor or THEA 250 Character & Ensemble and THEA 143 Musical Theatre Dance I

**Minimum Credits 3 Maximum Credits 3**

### **THEA 307 Advanced Acting: Comedic Performance**

Students will develop their performance skills and experience with a variety of comedic materials from a range of theatrical periods and playwrights. Emphasis will be placed on the creative exploration of comedy through language, physicality and relationship. Cultural considerations about comedy will be investigated. Students will research and perform texts from a wide spectrum of cultural, economic and social perspectives. This is an advanced acting class that synthesizes learning from previous classes in text analysis, theater history, scene study and vocal and physical training.

**Repeatable:** *N*

**Prerequisites** THEA 250 Character & Ensemble and THEA 204 Movement for the Actor or THEA 250 Character & Ensemble and THEA 143 Musical Theatre Dance I

**Minimum Credits 3 Maximum Credits 3**

## **Place, Purpose, and Performance Elective**

*Choose one of the following courses:*

### **THEA 269 Solo Performance I**

This course requires that students use various writing exercises to experiment with generating their own written material, whether it be autobiographical, character driven, or a literary adaptation. They will learn how to present their personal work in monologue form with the focus on culminating in one five minute solo performance piece, to be presented during Performance Week. Students will also be exposed to the work of various contemporary solo performance artists. There will be some journal writing as well as weekly writing

assignments.

**Repeatable:** *N*

**Formerly** 31-3810

**Prerequisites** THEA 207 Scenes: Performance & Analysis or THEA 240 Musical Theatre Scene Study or THEA 268 Playwriting II

**Minimum Credits 3 Maximum Credits 3**

## **THEA 450 Devising I**

Students will explore, devise and present ensemble created works in various styles.

**Repeatable:** *N*

**Formerly** 31-3706

**Prerequisites** THEA 112 Theatre Foundation II: Performance or THEA 101 Acting Basic Skills for Non-Acting Majors or THEA 152 Aesthetics for Theatre Makers or MUSC 223 Elements of Music Design or ARTS 105 Foundation Studio or DANC 167 Dance Improvisation or THEA 121 Comedy Foundations II: Point of View and Performance

**Minimum Credits 3 Maximum Credits 3**

## **THEA 482 Teaching Practicum**

Theatre Teaching Practicum provides an entry into Teaching Artistry through theory and practical application.

**Repeatable:** *N*

**Formerly** 31-2950

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

# **Computer Animation, BFA**

The BFA degree in Computer Animation is offered as a professional degree. The educational experience and subsequent body of work reflect three areas of success in the animation profession: a capstone animated film created in a collaborative, team-oriented setting; an animated short created as a solo thesis project; and additional courses in critical studies, story, advanced CG animation, and the technical facility that seeks to prepare students for immediate entry into the professional world.

As a result of successfully completing program requirements, students should be able to:

- demonstrate proficiencies in digital and computer-generated software and technology through the creation of animated projects;
- demonstrate a comprehension of history, aesthetics and the analytical context of animation in cinema through written, oral and animated presentations;
- employ a professional level of industry practices, standards and career strategies to successfully market and showcase their animated work;
- collaborate on a team project in the development, production and presentation of an animated short film;
- create and present an animated thesis film; and
- create a professional quality animation portfolio demonstrating original cinematic material and a developed artistic voice.

## PROGRAM REQUIREMENTS - 79 credits required

### **ANIM 106 History of Animation**

Course explores the origins of the animation process, beginning with animated films by J. Stewart Blackton, Emil Cohl, Len Lye, Winsor McCay, and many others through to present day productions. The lives and environments, as well as the artistic and narrative influences on these and other animators, will be dissected and studied. The class will involve weekly screenings of films and videos from around the world, including both independent and commercial, to get an understanding of where this art form has been and where it might be going. Emphasis will be on understanding the motivations and influences on animation artists, and how as contemporary animators you might benefit from studying them.

**Repeatable:** *N*

**Formerly** 26-1070

**Prerequisites** ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 150 Computer Animation: Keyframing I**

This course establishes a beginning understanding of computer-generated (CG) keyframing via object and camera keyframing using industry standard software application. Further animation assignments focus on an intermediate level of character animation through a provided CG character and rig.

**Repeatable:** *N*

**Formerly** 26-1015

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 201 Storyboarding for Animation**

Learn the art of visual storytelling for animation as a cinema art form. Draw digitally using industry-standard technologies and create a story reel for the final project; a movie comprised of all of storyboard panels (which may include dialogue, music, and sound effects) timed out to reflect the actual pacing of the film.

**Repeatable:** *N*

**Formerly** 26-2040

**Prerequisites** ANIM 101 Animation Foundations or ANIM 105 Introduction to Traditional Animation

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 240 Computer Animation**

Expanding on the skills learned in Introduction to Computer Animation (ANIM 150), this course will focus on establishing an intermediate level of CG skills using Autodesk's Maya software application. Assignments focus on polygonal character modeling, rigging, texture-mapping, lighting, digital rendering, and skeletal animation.

**Repeatable:** *N*

**Formerly** 26-3045

**Prerequisites** ANIM 150 Computer Animation: Keyframing I or GAME 201 Computer Animation: Modeling

**Minimum Credits 4 Maximum Credits 4**

## **ANIM 340 The Business of Animated Content**

Course examines central business and legal matters associated with developing, producing and releasing animated content. Students will be introduced to basic business principles and production hierarchies for short and feature animated films including new technologies and the evolving convergent marketplace.

**Repeatable:** N

**Formerly** 26-3605

**Prerequisites** ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or ENGL 109 Writing and Rhetoric I Stretch B or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **ANIM 382 Animation Preproduction**

In this course, students develop the stories for their animated thesis solo films required for the BFA degrees in both Traditional and Computer Animation. Students create storyboards and story reels, model sheets, explore art direction, timing, and various other aspects of preproduction that will lead to green-lighting the production of their films in either Traditional or Computer Animation Studio. Animation Preproduction & Story Development must be taken by both Traditional and Computer Animation students pursuing BFAs in their respective areas.

**Repeatable:** Y

**Formerly** 26-3051

**Prerequisites** ANIM 201 Storyboarding for Animation and ANIM 210 Drawing for Animation I or ANIM 201 Storyboarding for Animation and ANIM 240 Computer Animation

**Minimum Credits 3 Maximum Credits 3**

## **ANIM 480 Animation Production Studio I**

This course is the first of two semesters in which students will be working collaboratively with classmates on a single project, the purpose of which is to simulate an actual production environment that they might face once having left academia. Each participant will be assigned a particular production role based on a portfolio review at the beginning of the class in which each student will be asked to share portfolio work from previous classes with the executive producer (the instructor) and fellow classmates. This first semester of pre-production includes screenplay, design of characters and backgrounds, storyboards, recording of vocal talent, and completion of a story reel.

**Repeatable:** Y

**Formerly** 26-4085

**Prerequisites** ANIM 210 Drawing for Animation I or ANIM 350 Computer Animation: Keyframing II or ANIM 351 Environmental Design & Modeling or ANIM 352 Character Design and Modeling

**Requirements** Senior Standing (SR)

**Minimum Credits 6 Maximum Credits 6**

## **ANIM 481 Animation Production Studio II**

In this course students continue working on the project started in Animation Production Studio I. This class is primarily devoted to production and post-production, with the students embarking on traditional and/or computer animation production, generating visual effects, and working with a sound designer and composer. The goal of this course is to complete production and screen the film by the end of the semester.

**Repeatable:** Y

**Formerly** 26-4090

**Prerequisites** ANIM 480 Animation Production Studio I

**Requirements** Senior Standing (SR)

**Minimum Credits** 6 **Maximum Credits** 6

## **ANIM 482 Animation Solo Project**

After successfully completing Animation Preproduction and Computer Animation students enroll in this course to begin and subsequently complete production of their solo thesis films required for the BFA degree in Traditional and Computer Animation. Animation Solo Project is a repeatable course offering students sufficient time to complete production of their animated films.

**Repeatable:** Y

**Formerly** 26-4060

**Prerequisites** ANIM 382 Animation Preproduction

**Minimum Credits** 3 **Maximum Credits** 3

## **ANIM 485 Animation Portfolio Development**

Course will help students prepare for work in the field of animation by providing weekly insight and guidance as they develop a working portfolio, resume, and video/DVD with work they've completed. In addition to weekly in-class work, several professional animation studio student recruiters will come to campus throughout the 15-week class to present portfolio examples and discuss the field. They will meet with each of the students one on one to discuss their particular situation and to give them their advice and direction.

**Repeatable:** Y

**Formerly** 26-4048

**Prerequisites** ANIM 480 Animation Production Studio I

**Requirements** Senior Standing (SR)

**Minimum Credits** 3 **Maximum Credits** 3

## **CINE 145 Screenwriting I: Writing the Short Film**

Course is a workshop that explores basic methods of writing for cinema which further develop the students' skills in presenting their ideas in written form. Students will develop craft skills basic to cinema writing: research, story development, scene structure, dialogue, and character definition. Emphasis is on finding visual equivalents for human emotions and on developing the writer's individual personal vision. This work culminates in the development and revision of two short narrative scripts. Instrumental in the development of the student as a writer is the ability to read, and effectively critique, the work of their peers.

**Repeatable:** N

**Formerly** 24-1710

**Prerequisites** ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or ENGL 109 Writing and Rhetoric I Stretch B or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits** 3 **Maximum Credits** 3

## **GAME 201 Computer Animation: Modeling**

This course covers basic principles and language of three-dimensional (3D) modeling and animation utilizing industry standard software. Lectures cover the language and applications of these tools for use in the game, animation and film industries. By the completion of this course, students construct a series of sophisticated beginner level character and environment model 3D assets for their 3D portfolio. This course is suitable for students with little to no prior experience in 3D modeling or digital design.

**Repeatable:** *N*

**Formerly** 36-2370

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

### **ANIM 101 Animation Foundations**

Introductory foundation class for freshman providing a survey of various animated forms. Over the course of 15 weeks, students will be exposed to: Traditional Animation, Computer Graphics, Visual Effects, Motion Graphics & Alternative Strategies culminating in a final project based on a specific, dedicated workflow.

**Repeatable:** *N*

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 105 Introduction to Traditional Animation**

This course is an introduction to basic animation principles for students with little or no animation production experience. Students explore basic animation techniques including object, hand-drawn, stop-motion, and alternative animation styles. Animated films, both domestic and international, are screened and discussed. Students complete short exercises in each of the techniques mentioned and complete a final project employing a style of their choice that was previously explored during the semester.

**Repeatable:** *N*

**Formerly** 26-1000

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

### **ANIM 121 Stop-Motion Animation**

Course provides a basic understanding of three-dimensional animation using armatures, puppets, and objects. With the use of a Video Lunchbox, students will investigate the nature of human movement, and cover topics such as timing, weight, exaggeration, composition, lighting, and narrative approaches. Students will also become familiar with various materials and tools as you explore ways to create characters and simple scenery. A variety of stop-motion films, spanning a wide range of genres, will be viewed and discussed.

**Repeatable:** *N*

**Formerly** 26-1030

**Prerequisites** ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 122 Animation Maquettes**

This course teaches the process of creating animation maquettes: the sculptures created from model sheets that are used in the animation field. Students with a sculpting interest will explore the creation of maquettes in the same manner as industry professionals. Preexisting model sheets and models created by the student will be used to interpret two dimensional illustration into 3D sculptures.

**Repeatable:** *N*

**Formerly** 26-1010

**Minimum Credits 3 Maximum Credits 3**

## **ANIM 210 Drawing for Animation I**

Drawing-intensive course allows students to acquire an understanding of figurative human emotions and movements, enabling them to create believable animated characters. Students will create model sheets, learn the principles of animation, and learn how to endow your characters with believable actions and acting. Digital pencil testing will allow for the building of the animation from basic motion to more refined movements and emotion. Particular attention will be given to timing, layout, the creation of extreme drawings, and the process of inbetweening.

**Repeatable:** *N*

**Formerly** 26-2025

**Prerequisites** ANIM 101 Animation Foundations or ANIM 105 Introduction to Traditional Animation

**Minimum Credits 3 Maximum Credits 3**

## **ANIM 213 Animation Layout**

This course focuses on the layout process in animation production which is the creation of the monochromatic drawings which are later rendered as backgrounds for each shot. Students will strengthen their drawing skills by learning how to draw in proper perspective, understand lighting and shading principles. The layout process also teaches students how to block character animation within each shot and also understand how the camera functions within the action of each shot.

**Repeatable:** *N*

**Formerly** 26-2010

**Prerequisites** ANIM 201 Storyboarding for Animation

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

## **CINE 234 Cinema Analysis and Criticism**

Course is a writing-and-research-intensive introduction to cinema studies. Students are taught how to write about cinema and media using different approaches including: formal analysis, ideological analysis, and historical research. In order to focus more on writing and course content, screenings will be limited. The screenings may change at the discretion of the instructor but the nature and number of the assignments will remain the same for each offering of the course.

**Repeatable:** *N*

**Formerly** 24-2500

**Minimum Credits 3 Maximum Credits 3**

## **CINE 235A Authorship:**

Screening/discussion course is an intensive study of a single director (or directors) as auteur. The featured director(s) changes each semester. Class examines recurring themes, stylistic innovations, and differentiating interpretations of directors' films. Course may be repeated as featured directors change.

**Repeatable:** Y

**Formerly** CINE 235

**Minimum Credits 3 Maximum Credits 3**

### **CINE 235B Authorship:**

Screening/discussion course is an intensive study of a single director (or directors) as auteur. The featured director(s) changes each semester. Class examines recurring themes, stylistic innovations, and differentiating interpretations of directors' films. Course may be repeated as featured directors change.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

### **CINE 235C Authorship:**

Screening/discussion course is an intensive study of a single director (or directors) as auteur. The featured director(s) changes each semester. Class examines recurring themes, stylistic innovations, and differentiating interpretations of directors' films. Course may be repeated as featured directors change.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

### **CINE 235D Authorship:**

Screening/discussion course is an intensive study of a single director (or directors) as auteur. The featured director(s) changes each semester. Class examines recurring themes, stylistic innovations, and differentiating interpretations of directors' films. Course may be repeated as featured directors change.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

### **CINE 235E Authorship:**

Screening/discussion course is an intensive study of a single director (or directors) as auteur. The featured director(s) changes each semester. Class examines recurring themes, stylistic innovations, and differentiating interpretations of directors' films. Course may be repeated as featured directors change.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

### **CINE 235F Authorship:**

Screening/discussion course is an intensive study of a single director (or directors) as auteur. The featured director(s) changes each semester. Class examines recurring themes, stylistic innovations, and differentiating interpretations of directors' films. Course may be repeated as featured directors change.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

### **CINE 238A Cinema History and Culture**

This course examines historical and cultural issues in cinema. Topics may include specific genres, national cinemas, representations of gender and sexuality, non-narrative cinema, or the aesthetic impact of technological innovations. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help engage them actively with the topics.

**Repeatable:** Y

**Formerly** CINE 238

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 238B Cinema History and Culture**

This course examines historical and cultural issues in cinema. Topics may include specific genres, national cinemas, representations of gender and sexuality, non-narrative cinema, or the aesthetic impact of technological innovations. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help engage them actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 238C Cinema History and Culture**

This course examines historical and cultural issues in cinema. Topics may include specific genres, national cinemas, representations of gender and sexuality, non-narrative cinema, or the aesthetic impact of technological innovations. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help engage them actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 238D Cinema History and Culture**

This course examines historical and cultural issues in cinema. Topics may include specific genres, national cinemas, representations of gender and sexuality, non-narrative cinema, or the aesthetic impact of technological innovations. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help engage them actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **CINE 238E Cinema History and Culture**

This course examines historical and cultural issues in cinema. Topics may include specific genres, national cinemas, representations of gender and sexuality, non-narrative cinema, or the aesthetic impact of technological innovations. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help engage them actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **CINE 238F Cinema History and Culture**

This course examines historical and cultural issues in cinema. Topics may include specific genres, national cinemas, representations of gender and sexuality, non-narrative cinema, or the aesthetic impact of technological innovations. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help engage them actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **CINE 240A Cinema and Global Media Culture**

This course examines the impact of global media culture on cinema history and aesthetics. Topics may include cinematic adaptations of video games, graphic novels, or television series, as well as an analysis of how distribution models and international film festivals help determine cinematic form and audience reception. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help them engage actively with the topics.

**Repeatable:** Y

**Formerly** CINE 240

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **CINE 240B Cinema and Global Media Culture**

This course examines the impact of global media culture on cinema history and aesthetics. Topics may include cinematic adaptations of video games, graphic novels, or television series, as well as an analysis of how distribution models and international film festivals help determine cinematic form and audience reception. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help them engage actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **CINE 240C Cinema and Global Media Culture**

This course examines the impact of global media culture on cinema history and aesthetics. Topics may include cinematic adaptations of video games, graphic novels, or television series, as well as an analysis of how distribution models and international film festivals help determine cinematic form and audience reception. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help them engage actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 240D Cinema and Global Media Culture**

This course examines the impact of global media culture on cinema history and aesthetics. Topics may include cinematic adaptations of video games, graphic novels, or television series, as well as an analysis of how distribution models and international film festivals help determine cinematic form and audience reception. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help them engage actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 240E Cinema and Global Media Culture**

This course examines the impact of global media culture on cinema history and aesthetics. Topics may include cinematic adaptations of video games, graphic novels, or television series, as well as an analysis of how distribution models and international film festivals help determine cinematic form and audience reception. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help them engage actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 243 Studies in Film Aesthetics**

Course investigates how artistic and cultural movements and technological innovations determine and enhance the aesthetics development of the medium. Previous topics have included expressionism; surrealism; and aspects of film: cinemascope, technicolor, stereophonic sound, and 3-D. Course may be repeated as topics change.

**Repeatable:** N

**Formerly** 24-2561

**Minimum Credits 3 Maximum Credits 3**

*Choose two of the following courses:*

### **ANIM 350 Computer Animation: Keyframing II**

Course will expand upon the skills and concepts introduced in ANIM 150 Computer Animation: Keyframing I. Using current computer animation software, students will be introduced to advanced concepts and techniques using inverse kinematics/forward kinematics, dynamics, and simulations. Using MEL scripts for animation will also be covered. A series of short exercises will ensure that students understand these skills and techniques as the class progresses. A final project will encourage students to exhibit these acquired skills.

**Repeatable:** Y

**Formerly** 26-3046

**Prerequisites** ANIM 150 Computer Animation: Keyframing I

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 351 Environmental Design & Modeling**

Course emphasizes the design and technical ability needed to model non-character 3-D objects. Students will be introduced to level design, industrial design, and architectural terms and concepts. Using 3-D software, students will design and build environments, set dressing, and vehicles. Level of detail exercises will introduce the concept of polygon and image budget creation. Exercises in stand-alone software packages will teach advanced texture/mapping.

**Repeatable:** Y

**Formerly** 26-3082

**Prerequisites** GAME 201 Computer Animation: Modeling or ANIM 240 Computer Animation

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 352 Character Design and Modeling**

Course emphasizes the design and technical ability needed to model 3-D characters. Students will be introduced to design, sculpting, and anatomical terms and concepts. Using 3-D software, students will design and build characters and other organic models. Level of detail exercises will introduce the concept of polygon and image budgets. Exercises in stand-alone software packages will teach advanced texture mapping.

**Repeatable:** Y

**Formerly** 26-3086

**Prerequisites** GAME 201 Computer Animation: Modeling or ANIM 240 Computer Animation

**Minimum Credits 3 Maximum Credits 3**

## **Electives**

*Complete 18 credits from the following courses:*

### **ANIM 121 Stop-Motion Animation**

Course provides a basic understanding of three-dimensional animation using armatures, puppets, and objects. With the use of a Video Lunchbox, students will investigate the nature of human movement, and cover topics such as timing, weight, exaggeration, composition, lighting, and narrative approaches. Students will also become familiar with various materials and tools as you explore ways to create characters and simple scenery. A variety of stop-motion films, spanning a wide range of genres, will be viewed and discussed.

**Repeatable:** N

**Formerly** 26-1030

**Prerequisites** ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 122 Animation Maquettes**

This course teaches the process of creating animation maquettes: the sculptures created from model sheets that are used in the animation field. Students with a sculpting interest will explore the creation of maquettes in the same manner as industry professionals. Preexisting model sheets and models created by the student will be used to interpret two dimensional illustration into 3D sculptures.

**Repeatable:** *N*

**Formerly** 26-1010

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 161 CVFX Foundations**

This course introduces students to core methodologies and practices for creating, constructing and producing key visual effects sequences for live-action cinema. Students will learn a cross-section of visual effect approaches developing their knowledge and practical application of these technologies in supporting live-action cinema. This survey primer on core methodologies allows students to organize, plan and execute required cinema visual effects developing interpersonal and practical skill sets.

**Repeatable:** *N*

**Formerly** 24-1600

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 210 Drawing for Animation I**

Drawing-intensive course allows students to acquire an understanding of figurative human emotions and movements, enabling them to create believable animated characters. Students will create model sheets, learn the principles of animation, and learn how to endow your characters with believable actions and acting. Digital pencil testing will allow for the building of the animation from basic motion to more refined movements and emotion. Particular attention will be given to timing, layout, the creation of extreme drawings, and the process of inbetweening.

**Repeatable:** *N*

**Formerly** 26-2025

**Prerequisites** ANIM 101 Animation Foundations or ANIM 105 Introduction to Traditional Animation

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 211 Alternative Strategies in Animation**

Course explores alternative approaches to the normally highly structured, technically oriented process of creating an animated film. Students will be expected to be curious and imaginative as they are introduced to unorthodox approaches including sand, pastels, drawing directly on film stock, paint-on-glass, and other techniques. Students will also view and discuss films created by non-mainstream artists/animators such as Len Lye, Norman McLaren, and others, which will introduce them to highly graphic and imaginative movement and messages.

**Repeatable:** *N*

**Formerly** 26-2028

**Prerequisites** ANIM 105 Introduction to Traditional Animation

**Minimum Credits** 3 **Maximum Credits** 3

### **ANIM 250A Topics in Animation**

This is a topics course in Animation. Different sections of this course will focus on different topic areas related to Animation that are not taught in other classes. Please contact the department for specifics on the content of each topic. .

**Repeatable:** *Y*

**Formerly** ANIM 250

**Minimum Credits** 1 **Maximum Credits** 3

### **ANIM 250B Topics in Animation**

This is a topics course in Animation. Different sections of this course will focus on different topic areas related to Animation that are not taught in other classes. Please contact the department for specifics on the content of each topic. .

**Repeatable:** *Y*

**Minimum Credits** 1 **Maximum Credits** 3

### **ANIM 250C Topics in Animation**

This is a topics course in Animation. Different sections of this course will focus on different topic areas related to Animation that are not taught in other classes. Please contact the department for specifics on the content of each topic. .

**Repeatable:** *Y*

**Minimum Credits** 1 **Maximum Credits** 3

### **ANIM 250D Topics in Animation**

This is a topics course in Animation. Different sections of this course will focus on different topic areas related to Animation that are not taught in other classes. Please contact the department for specifics on the content of each topic. .

**Repeatable:** *Y*

**Minimum Credits** 1 **Maximum Credits** 3

### **ANIM 263 CVFX: Compositing I**

Lectures and demonstrations, with supporting materials, along with weekly exercises to reinforce the ideas and principles put forth in these presentations, will guide students toward a solid fundamental understanding of the visual effects postproduction process via the compositing workflow. Students will be given the opportunity to show what they have learned by executing a basic final project at the end of the semester, with a subsequent critique by the class and individually with the instructor.

**Repeatable:** *N*

**Formerly** 24-2209

**Minimum Credits 3 Maximum Credits 3**

## **ANIM 270 Motion Graphics I**

Course teaches techniques to digitally integrate software and composite layers of images. Discussions of digital and optical effects from conception to design encourage students to make creative use of software.

**Repeatable:** *N*

**Formerly** 24-1420

**Prerequisites** INMD 120 Digital Image Design or GRDE 136 Design Lab or TELE 230 Production & Editing I or PHOT 202 Photographic Practice III or PHOT 206 Digital Imaging I or CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process

**Minimum Credits 3 Maximum Credits 3**

## **ANIM 311 Acting For Animators**

This course, recommended for both Traditional and Computer Animation students, focuses on acting techniques for animators exploring the similarities and differences of stage and screen acting. Students will learn acting techniques through physical and emotional acting exercises in addition to viewing scenes from a variety of live action and animated films. Focus of this class is exploring the emotional feelings of characters which lead to their physical movement. Animation assignments include creating a performance with a CG rig (for Computer Animation Students) and hand-drawn character animation (for Traditional Animation Students).

**Repeatable:** *N*

**Formerly** 26-3050

**Prerequisites** ANIM 210 Drawing for Animation I or ANIM 240 Computer Animation or ANIM 121 Stop-Motion Animation

**Minimum Credits 3 Maximum Credits 3**

## **ANIM 332 Animation for Comics**

An examination of Limited Animation practices detailing core principles, practices, methodologies and movements for online and broadcast comic book programming.

**Repeatable:** *N*

**Formerly** 26-3010

**Prerequisites** INMD 240 Story Development for Interactive Media or RAD1 205 Writing for Radio or RAD1 339 Voice Acting for Animation or ANIM 105 Introduction to Traditional Animation or ANIM 263 CVFX: Compositing I

**Minimum Credits 3 Maximum Credits 3**

## **ANIM 350 Computer Animation: Keyframing II**

Course will expand upon the skills and concepts introduced in ANIM 150 Computer Animation: Keyframing I. Using current computer animation software, students will be introduced to advanced concepts and techniques using inverse kinematics/forward kinematics, dynamics, and simulations. Using MEL scripts for animation will also be covered. A series of short exercises will ensure that students understand these skills and techniques as the class progresses. A final project will encourage students to exhibit these acquired skills.

**Repeatable:** Y

**Formerly** 26-3046

**Prerequisites** ANIM 150 Computer Animation: Keyframing I

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 351 Environmental Design & Modeling**

Course emphasizes the design and technical ability needed to model non-character 3-D objects. Students will be introduced to level design, industrial design, and architectural terms and concepts. Using 3-D software, students will design and build environments, set dressing, and vehicles. Level of detail exercises will introduce the concept of polygon and image budget creation. Exercises in stand-alone software packages will teach advanced texture/mapping.

**Repeatable:** Y

**Formerly** 26-3082

**Prerequisites** GAME 201 Computer Animation: Modeling or ANIM 240 Computer Animation

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 352 Character Design and Modeling**

Course emphasizes the design and technical ability needed to model 3-D characters. Students will be introduced to design, sculpting, and anatomical terms and concepts. Using 3-D software, students will design and build characters and other organic models. Level of detail exercises will introduce the concept of polygon and image budgets. Exercises in stand-alone software packages will teach advanced texture mapping.

**Repeatable:** Y

**Formerly** 26-3086

**Prerequisites** GAME 201 Computer Animation: Modeling or ANIM 240 Computer Animation

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 363 CVFX: Compositing II**

This course teaches students the various analogue and digital techniques of compositing film elements of diverse origin, from film, electronic imaging systems, and computer-generated images, through lecture, demonstration, and hands-on practice.

**Repeatable:** N

**Formerly** 24-3209

**Prerequisites** ANIM 263 CVFX: Compositing I or ANIM 370 Motion Graphics II

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 370 Motion Graphics II**

Course teaches complex film and video compositing under tight deadlines using advanced high-end systems. Course emphasizes storyboarding and design as well as postproduction house protocols.

**Repeatable:** N

**Formerly** 24-2421

**Prerequisites** ANIM 270 Motion Graphics I or CINE 310 Cinema Models and Miniatures

**Minimum Credits 3 Maximum Credits 3**

## **ANIM 373A Advanced Topics in Computer Animation**

This course continues to refine and advance the aesthetic understanding and technical abilities needed in advanced Computer Generated (CG) animation through a series of rotating topics courses. Computer Animation software such as Autodesk's Maya will be used for classroom review, professional examples and student assignments.

**Repeatable:** Y

**Formerly** ANIM 373

**Prerequisites** ANIM 240 Computer Animation

**Minimum Credits 1 Maximum Credits 1**

## **ANIM 373B Advanced Topics in Computer Animation**

This course continues to refine and advance the aesthetic understanding and technical abilities needed in advanced Computer Generated (CG) animation through a series of rotating topics courses. Computer Animation software such as Autodesk's Maya will be used for classroom review, professional examples and student assignments.

**Repeatable:** Y

**Prerequisites** ANIM 240 Computer Animation

**Minimum Credits 1 Maximum Credits 1**

## **ANIM 373C Advanced Topics in Computer Animation**

This course continues to refine and advance the aesthetic understanding and technical abilities needed in advanced Computer Generated (CG) animation through a series of rotating topics courses. Computer Animation software such as Autodesk's Maya will be used for classroom review, professional examples and student assignments.

**Repeatable:** Y

**Prerequisites** ANIM 240 Computer Animation

**Minimum Credits 1 Maximum Credits 1**

## **ANIM 373D Advanced Topics in Computer Animation**

This course continues to refine and advance the aesthetic understanding and technical abilities needed in advanced Computer Generated (CG) animation through a series of rotating topics courses. Computer Animation software such as Autodesk's Maya will be used for classroom review, professional examples and student assignments.

**Repeatable:** Y

**Prerequisites** ANIM 240 Computer Animation

**Minimum Credits 1 Maximum Credits 1**

## **ANIM 451 Advanced Character & Environmental Design**

Course continues to refine and advance the design and technical abilities needed to model 3D characters and non-character 3D objects. Using industry standard software for 3D modeling and advanced texture-mapping, students will design and build either characters or environments based on industry standards.

**Repeatable:** N

**Formerly** 26-4089

**Prerequisites** ANIM 352 Character Design and Modeling or ANIM 351 Environmental Design & Modeling

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 470 Motion Graphics III**

Students in this course complete a series of projects modeled upon current professional practices while refining design and research skills. Student projects include a team-based client work, an independent textual interpretation or research-inspired animation, and additional short animations. The team-based projects will include interaction with the client/s. Research, ideation, prototyping, production and evaluation will be a collective and collaborative process. Students develop a portfolio-based web site that includes video samples, a personal statement and resume.

**Repeatable:** Y

**Formerly** 24-4422

**Prerequisites** ANIM 370 Motion Graphics II or ANIM 240 Computer Animation

**Minimum Credits 3 Maximum Credits 3**

### **GAME 337 3D Digital Sculpting**

This course focuses on skills, techniques and concepts that pertain to 3D digital sculpting. In this class students learn how to concept, produce and present high quality 3d models created using specialized digital sculpting software.

**Repeatable:** Y

**Formerly** 36-3350

**Prerequisites** GAME 201 Computer Animation: Modeling

**Minimum Credits 3 Maximum Credits 3**

### **GAME 436 Advanced 3D Digital Sculpting**

Digital sculpting is a cornerstone of 3D content creation and concept art creation for games. This course serves as a way for students to create more thoughtfully considered content using digital sculpting processes. Students will learn how to sculpt a series of 3D concepts and then develop a concept into a fully realized, hyper realistic piece of content for a game. This goal will be achieved by using more involved retopology and normal mapping techniques to translate high resolution from high polygon meshes to optimized, low polygon game meshes that can be translated to a game engine.

**Repeatable:** N

**Formerly** 36-3750

**Prerequisites** GAME 337 3D Digital Sculpting

**Minimum Credits 3 Maximum Credits 3**

## **Dance, BFA**

The Dance, BFA program is a nationally respected academic program intended for students with professional aspirations in dance, and includes a variety of courses that, in their breadth and depth, prepare students to enter the field as young artists. At 78 credit hours required within the department, the demands of the BFA program are significant. The possibility of a minor in another subject within the standard four-year course study is diminished on this track. The BFA is most appropriate for students who wish to make a

definitive commitment to dance and who have demonstrated clear aptitude for the physical and intellectual demands of the field. Acceptance into the BFA program is by application only. Applications to the BFA are accepted early in the spring semester.

As a result of successfully completing program requirements, students should be able to:

- demonstrate accomplishment as contemporary dancers with substantial experience/proficiencies across culturally diverse dance forms;
- create dances and scholarship that reflect a distinctive point of view and demonstrate exposure to collaborative and interdisciplinary processes;
- analyze and articulate how dance practices circulate within systems of power and resistance;
- initiate and utilize professional and scholarly discourse to analyze their bodies of work as well as those of their peers and professionals;
- create a working portfolio that showcases their body of work and demonstrates an aptitude for success in a variety of artistic and professional settings;
- design, present and evaluate concept-based dance curriculum using pedagogical practices that reflect their knowledge of anatomy, culture and multiple learning styles; and
- articulate their ideas and advocate for the field of dance through kinesthetic, verbal and written communication.

### **Performance Standards**

The Dance Department expects exemplary effort and accomplishment from our BFA candidates. Failure to meet one or more of the following expectations will result in review of a candidate's continuation within the BFA program. BFA candidates must:

- pass all required courses with grades of C or better and maintain a minimum 3.0 GPA;
- advance through technical requirements in a timely manner;
- BFA students will demonstrate continuing development as dancers. Typically BFA students will advance one level each year;
- exhibit full engagement and presence in their artistic and scholarly practices; and
- conduct themselves in a manner beneficial to their own and others' education.

### **Transfer Students Seeking a BFA in Dance**

Transfer students seeking the BFA degree earn a minimum of 45 credits at Columbia and at least 15 of those must be toward major requirements. Any prior dance courses at a previous institution will be evaluated for equivalency with Columbia College's Dance Department requirements.

## **PROGRAM REQUIREMENTS - 78 credits required**

### **DANC 167 Dance Improvisation**

This course introduces students to dance performance, composition, and movement research through improvisation. Coursework balances in-depth individual exploration with rigorous practice in spontaneous duet, small group, and ensemble dance making. Throughout the course students will investigate concepts of dance composition while developing skills to work spontaneously, collaboratively, and independently. Direct physical work will prioritize the development of the student's unique movement voice, readings, writing, and discussion will develop the student's analytical skills.

**Repeatable:** *N*

**Formerly** DANC 230

**Prerequisites** DANC 105 Modern IA or DANC 205A Modern Technique II or DANC 205B Modern Technique II or DANC 205C Modern Technique II or 33 1211 Intro to Dance Technique I or 33 1311 Modern

Technique I or 33 2011 Modern Technique II

**Minimum Credits 3 Maximum Credits 3**

### **DANC 180 Introduction to Dance Studies**

This course orients students to the field of dance as an academic discipline, profession and art form. To this end, this course arms students with information and processes of inquiry so as to facilitate their own decision making as they proceed in the department. Topics to be covered include: an introduction to dance as an art form, dance history, dance as a product of culture, and the relationship of dance technique to the overall field. Class sessions may be augmented by guest lectures led by a number of different Dance Department faculty, staff, students and alumni in an effort to bring new students fully into our learning community.

**Repeatable:** *N*

**Formerly** 33-1351

**HU DEI**

**Minimum Credits 3 Maximum Credits 3**

### **DANC 225 Experiential Anatomy**

This course is an introduction to the scientific principles underlying the complexities of movement specific to dance. Through writing, movement workshops, reading, and lectures, you will learn to apply scientific principles to movement specific to dance training. This course covers anatomical terminology and topography, skeletal design of each of the major joints, alignment, breathing and care, and prevention of injuries.

**Repeatable:** *N*

**Formerly** 33-2371

**Prerequisites** DANC 106 Modern IB or 33 1212 Intro to Dance Technique II or 33 1311 Modern Technique I or 33 2011 Modern Technique II

**Minimum Credits 3 Maximum Credits 3**

### **DANC 245 Choreography I**

This course explores a variety of concepts and processes that may be used in making dances. Students will create their own dance studies in response to a variety of assigned exercises. Topics will include concepts such as space, time, shape, and dynamics, and processes for the invention, manipulation and structuring of movement materials. Improvisation and other physical processes will be employed as works are developed, revised and solidified into repeatable forms. Students will engage in critiques of their own and others' work and are expected to work rigorously and imaginatively to expand in new directions.

**Repeatable:** *N*

**Formerly** DANC 345

**Prerequisites** DANC 167 Dance Improvisation

**Minimum Credits 3 Maximum Credits 3**

### **DANC 330 Postcolonial Approaches to Dance Studies**

This course explores dance and movement practices through a post-colonial lens. This course introduces methodologies for writing about the socio-political meanings that bodies carry as they move through time and space. Topics include: dance as cultural identity, dance as a social form of expression, dance as sacred practice, and dance as political power. Through readings, writing, lectures, discussion and extensive viewing

of filmed and live performance, students come to understand dance as a rich human activity with many different manifestations and applications.

**Repeatable:** *N*

**Formerly** 33-3342

**HU DEI**

**Prerequisites** DANC 180 Introduction to Dance Studies and ENGL 122 International Writing and Rhetoric II or DANC 180 Introduction to Dance Studies and ENGL 112 Writing and Rhetoric II or DANC 180 Introduction to Dance Studies and ENGL 112H Writing and Rhetoric II: Honors

**Minimum Credits 3 Maximum Credits 3**

### **DANC 335 Historical Approaches to Western Concert Dance**

Historical Approaches to Western Concert Dance explores the artistic developments in the field of Western concert dance from the 17th century to the 21st century. The course focuses on the socio-political contexts that birthed ballet and modern dance and traces how the aesthetic values of western dance forms over time morph and shift for the concert stage. Through readings, writing, lectures, discussions and extensive viewing of video and live performance, students come to understand the rich lineage of these dance forms.

**Repeatable:** *N*

**Formerly** 33-3343

**Prerequisites** DANC 330 Postcolonial Approaches to Dance Studies

**Minimum Credits 3 Maximum Credits 3**

### **DANC 340 Teaching Dance I**

This course is a broad overview of teaching dance, covering both creative and technical skills as they are taught to diverse student populations. In this class students will plan and present material to their classmates and to a population outside of class. Students will observe teachers at work, discuss various methods of teaching and prepare materials for teaching job applications.

**Repeatable:** *N*

**Formerly** 33-3372

**Prerequisites** DANC 245 Choreography I

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **DANC 346 Choreography II**

In Choreography II students will complete at least three movement studies and one fully realized work. Working as soloists, in duets and in small groups, students will create and perform dances and revise them based on class critiques. Class-time will be spent investigating concepts as well as performing and discussing dances prepared outside of class. In addition to making dances, students will also view videos, attend performances, and write about major contemporary artists.

**Repeatable:** *N*

**Prerequisites** DANC 245 Choreography I

**Minimum Credits 3 Maximum Credits 3**

### **DANC 355 Concert Production**

Concert Production is a broad survey of the tasks and processes involved in producing dance as a theatrical event. Emphasis is placed on the relationship of production elements to the choreographic concept or artistic vision and the experience of producing from an administrative, artistic, design, and technical level. A wide range of subject matter is covered including: collaborations with artistic and technical personnel, programming, performance spaces, basics of publicity, grant writing, budgeting, costuming, lighting, sound, video, and practical experience on an actual production. Students gain essential background information as well as practical experience related to the people processes, equipment, and backstage operations that support live performance. Through written work, discussions, and practical projects, students develop a model dance production plan from initial conception to full theatrical completion.

**Repeatable:** N

**Formerly** 33-3456

**Prerequisites** DANC 346 Choreography II

**Minimum Credits** 3 **Maximum Credits** 3

### **DANC 365 Screen Dance and Sound Design**

This course explores computer-based technologies and their applications in dance. A variety of software packages will be examined as partners in the creative process, components within stage productions, and as tools for career support. Direct interaction with technology will be supported by viewings, readings, and discussions about important artists and work in the field. Students will produce finished projects through work in at least two of the following software environments: Dance Forms, Protools LE, and iMovie.

**Repeatable:** N

**Formerly** 33-3840

**Prerequisites** DANC 245 Choreography I

**Minimum Credits** 3 **Maximum Credits** 3

### **DANC 470 Capstone Seminar, BFA in Dance**

This Capstone Seminar is the culminating course in the dance BFA curriculum. Facilitated by the dance faculty, seniors gather together as a community of artists and scholars to support, inspire and challenge one another as they design and execute their individual capstone projects. Project possibilities include: a concert of original work, a teaching placement in the community, an in-depth research project, a series of performances, or another pre-professional project.

**Repeatable:** N

**Formerly** 33-4001

**Requirements** Permission Required (DP)

**Minimum Credits** 3 **Maximum Credits** 3

*Choose one of the following courses:*

### **DANC 198A Topics in Movement Practice**

This course teaches specific movement forms and styles that enrich students in ways that may include increased aptitude in dance, more efficient movement, and improved body awareness, as well as broadening their understanding of dance traditions and practices throughout the world. Each semester a different discipline or set of disciplines is featured. Course develops awareness of movement and aesthetic principles particular to each form.

**Repeatable:** Y

**Formerly** DANC 198

**Minimum Credits 1 Maximum Credits 1**

### **DANC 198B Topics in Movement Practice**

This course teaches specific movement forms and styles that enrich students in ways that may include increased aptitude in dance, more efficient movement, and improved body awareness, as well as broadening their understanding of dance traditions and practices throughout the world. Each semester a different discipline or set of disciplines is featured. Course develops awareness of movement and aesthetic principles particular to each form.

**Repeatable:** Y

**Minimum Credits 1 Maximum Credits 1**

*Complete 12 credits from the following courses:*

### **DANC 399A Advanced Topics in Dance**

Advanced Topics in Dance offers an opportunity for in-depth, collaborative research in domains of performance, choreography and scholarship. Each semester, the course will focus on specific themes or issues submitted to hybrid pedagogical enterprises that may include, choreographic, performative, and scholarly articulations. Semester long course topics may include: Dance for Camera, Post-Colonial Choreographies, Feminist Discourses in Dance, Physical Theatre Workshop, and Site-Specific Dancemaking Strategies. Through extended research processes-which may include extensive viewing of video and live performances, reading of pertinent literature, student driven choreographic workshops, instructor-led movement experiences, and substantial performance and production experience-students will engage with dance as a form that resists compartmentalization by methodological boundaries.

**Repeatable:** Y

**Formerly** DANC 399

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

### **DANC 399B Advanced Topics in Dance**

Advanced Topics in Dance offers an opportunity for in-depth, collaborative research in domains of performance, choreography and scholarship. Each semester, the course will focus on specific themes or issues submitted to hybrid pedagogical enterprises that may include, choreographic, performative, and scholarly articulations. Semester long course topics may include: Dance for Camera, Post-Colonial Choreographies, Feminist Discourses in Dance, Physical Theatre Workshop, and Site-Specific Dancemaking Strategies. Through extended research processes-which may include extensive viewing of video and live performances, reading of pertinent literature, student driven choreographic workshops, instructor-led movement experiences, and substantial performance and production experience-students will engage with dance as a form that resists compartmentalization by methodological boundaries.

**Repeatable:** Y

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

*Complete 9 credits from the following courses:*

### **COLL 230 Internship: Professionalism and Creativity**

This course allows students to take a valuable internship experience in their desired industry for academic credit. Each position is vetted and approved by Career Center to ensure that it is an educational opportunity that will fulfill the learning objectives of the course. Participating in an internship allows students to gain hands-on experience and explore career interests while applying knowledge and skills learned in the classroom to a work setting. The online, academic component of this internship fosters student understanding of how organizations operate and provides for structured reflection on their experiences and assessment of their knowledge and skills. Students are responsible for securing their own internships and should contact Career Center for assistance and resources to identify and apply for opportunities of interest.

**Repeatable:** Y

**Formerly** 99-2300

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

## **DANC 341 Teaching Dance II**

This course will focus primarily on methodologies of teaching dance technique. Students will serve as teaching assistants - demonstrating, making corrections, and presenting exercises - in a Level I course, in any style. Students will prepare and present movement assignments, design lesson plans, observe and practice teaching skills, and create teaching resources. For the culminating project, students will prepare and present a technique class.

**Repeatable:** N

**Formerly** 33-3674

**Prerequisites** DANC 340 Teaching Dance I

**Minimum Credits 3 Maximum Credits 3**

## **DANC 360 Kinesiology**

This course, a continuation of study begun in Experiential Anatomy, looks at the scientific principles underlying the complexities of movement specific to dance. Content covers the muscular and neuromuscular systems, the physiological support systems, the prevention and care of injuries, development of conditioning programs, analysis of dance movements, and awareness of common anatomical and muscular imbalances found in dancers. Through lecture and movement workshops students learn to apply this information to their own training and to the principles of teaching.

**Repeatable:** N

**Formerly** 33-3473

**Prerequisites** DANC 225 Experiential Anatomy

**Minimum Credits 3 Maximum Credits 3**

## **DANC 480 Repertory Performance Workshop**

Course offers intensive practical experience to students who work as ensemble members under the direction of different guest artist choreographers. The class functions as a dance company engaged in processes of creation, rehearsal, and performance of dance works. You will learn and practice different rehearsal and performance processes, ensemble skills, repertoire maintenance, and performance disciplines. Each semester culminates with fully produced performances of completed works.

**Repeatable:** Y

**Formerly** 33-3365

**Requirements** Permission Required (DP)  
**Minimum Credits** 3 **Maximum Credits** 3

## West African Techniques

*Complete 4 credits from the following courses:*

### **DANC 120 West African Dance Technique IA**

In this course students will study the fundamental techniques, terminology, and history common to traditional West African Dances, primarily those derived from the Old Mali Empire. Developmental exercises will condition the body and refine the ear for the polycentric and polyrhythmic requirements of the forms. Students will learn rhythms (steps) that integrate polycentric somatic forms in space with polyrhythmic patterns in time and emphasize grounded stance and appropriate use of alignment.

**Repeatable:** N  
**Formerly** 33-1031A  
**Minimum Credits** 1 **Maximum Credits** 1

### **DANC 121 West African Dance Technique IB**

This course expands upon the fundamental techniques, terminology, and history common to traditional West African Dances, primarily those derived from the Old Mali Empire. Developmental exercises will condition the body and refine the ear for the polycentric and polyrhythmic requirements of the forms. Students will learn rhythms (steps) that integrate polycentric somatic forms in space with polyrhythmic patterns in time and emphasize grounded stance and appropriate use of alignment.

**Repeatable:** N  
**Formerly** 33-1031B  
**Prerequisites** DANC 120 West African Dance Technique IA or DWAF-1-100 EXAM-DWAF MINIMUM SCORE = 100  
**Minimum Credits** 1 **Maximum Credits** 1

### **DANC 220A West African Dance Technique II**

This course focuses on the techniques, terminology, and history common to traditional West African Dances, primarily those derived from the Old Mali Empire. Developmental exercises will condition the body and refine the ear for the polycentric and polyrhythmic requirements of the forms. Students will learn rhythms (steps) that integrate polycentric somatic forms in space with polyrhythmic patterns in time and emphasize grounded stance and appropriate use of alignment.

**Repeatable:** Y  
**Formerly** DANC 220  
**Prerequisites** DANC 121 West African Dance Technique IB or DWAF-2-100 EXAM-DWAF MINIMUM SCORE = 100  
**Minimum Credits** 1 **Maximum Credits** 1

### **DANC 220B West African Dance Technique II**

This course focuses on the techniques, terminology, and history common to traditional West African Dances, primarily those derived from the Old Mali Empire. Developmental exercises will condition the body and refine

the ear for the polycentric and polyrhythmic requirements of the forms. Students will learn rhythms (steps) that integrate polycentric somatic forms in space with polyrhythmic patterns in time and emphasize grounded stance and appropriate use of alignment.

**Repeatable:** Y

**Prerequisites** DANC 121 West African Dance Technique IB or DWAF-2-100 EXAM-DWAF MINIMUM SCORE = 100

**Minimum Credits 1 Maximum Credits 1**

### **DANC 320 West African Dance Technique III**

This course goes deeper into the techniques, terminology, and history common to traditional West African Dances, primarily those derived from the Old Mali Empire. Developmental exercises will condition the body and refine the ear for the polycentric and polyrhythmic requirements of the forms. Students will learn rhythms (steps) that integrate polycentric somatic forms in space with polyrhythmic patterns in time and emphasize grounded stance and appropriate use of alignment.

**Repeatable:** Y

**Formerly** 33-3031

**Prerequisites** DANC 220A West African Dance Technique II or DANC 220B West African Dance Technique II or DWAF-3-100 EXAM-DWAF MINIMUM SCORE = 100

**Minimum Credits 1 Maximum Credits 1**

## **Hip-Hop and Street Dance Techniques**

*Complete 2 credits from the following courses:*

### **DANC 185 Hip-Hop and Street Dance Technique I**

This course focuses on foundational techniques of Hip-Hop dance and related street dance styles (e.g., breaking, locking, popping and house) that have contributed significantly to the birth, growth and development of Hip-Hop culture and movement. Students develop proficiency in foundational movement vocabulary associated with these forms, as well as core Hip-Hop techniques and concepts, including: isolations, groove, dynamic range, foot work, freestyle, and musicality. Students also learn about and embody the history, ethos and sociocultural context of Hip-Hop via videos and other resources, class discussions, and attending Hip-Hop-centered cultural events.

**Repeatable:** Y

**Formerly** 33-1385

**Minimum Credits 1 Maximum Credits 1**

### **DANC 285 Hip-Hop and Street Dance Technique II**

This course focuses on intermediate-level foundational techniques of Hip-Hop dance and related street dance forms (e.g., breaking, locking, popping, and house) that have contributed significantly to the birth, growth and development of Hip-Hop culture and movement. Students develop proficiency in intermediate-level movement vocabulary (associated with the specific forms being taught), as well as core Hip-Hop techniques and concepts, including isolations, groove, dynamic range, footwork, freestyle and musicality. There is an emphasis on performance quality and artistry through set and improvised movement. Students also learn about and embody the history, ethos and sociocultural context of Hip-Hop via videos (and other resources), class discussion, and participating in Hip-Hop-centered cultural events.

**Repeatable:** Y

**Formerly** 33-2386

**Prerequisites** DANC 185 Hip-Hop and Street Dance Technique I or DHIP-2-100 EXAM-DHIP MINIMUM SCORE = 100

**Minimum Credits 1 Maximum Credits 1**

### **DANC 385 Hip-Hop and Street Dance Technique III**

This course focuses on intermediate to advanced-level techniques of Hip-Hop dance and related street dance forms (e.g., breaking, locking, popping, and house) that have contributed significantly to the birth, growth and development of Hip-Hop culture and movement. Students develop proficiency in intermediate to advanced-level movement vocabulary (associated with the specific forms being taught), as well as core Hip-Hop techniques and concepts, including isolations, groove, dynamic range, footwork, freestyle and musicality. There is an emphasis on performance quality, artistry and the development of original style through set and improvised movement. Students are expected to interface with the broader Hip-Hop community, professional artists, as well as demonstrate a high level of proficiency in technique and the embodiment of history, ethos and philosophies of Hip-Hop (and/or related street dance forms).

**Repeatable:** Y

**Prerequisites** DANC 285 Hip-Hop and Street Dance Technique II or DHIP-3-100 EXAM-DHIP MINIMUM SCORE = 100

**Minimum Credits 1 Maximum Credits 1**

## **Ballet Techniques**

*Complete 4 credits from the following courses:*

### **DANC 115 Ballet Technique IA**

This course focuses on fundamental principles, practices and vocabulary common to classical ballet technique through a daily practice of warm-up exercises at the barre and movement combinations both in the center and across the floor. The knowledge acquired at the barre is tested in the center through adagio and allegro sections of the class. Adagio tests balance and fosters a lyrical quality while allegro tests coordination, articulation and the ability to move quickly and softly through space. Emphasis is placed on physical conditioning, coordination, alignment, clarity, movement pick-up and artistry.

**Repeatable:** N

**Formerly** 33-1021A

**Minimum Credits 1 Maximum Credits 1**

### **DANC 116 Ballet Technique IB**

This course expands upon the fundamental principles, practices and vocabulary introduced in Ballet IA and, common to classical ballet technique, through a daily practice of warm-up exercises at the barre and movement combinations both in the center and across the floor. The knowledge acquired at the barre is tested in the center through the adagio and allegro sections of the class. Adagio tests balance and fosters a lyrical quality while allegro tests coordination, articulation and the ability to move quickly and softly through space. Emphasis is placed on physical conditioning, coordination, alignment, clarity, movement pick-up and artistry.

**Repeatable:** N

**Formerly** 33-1021B

**Prerequisites** DANC 115 Ballet Technique IA or DBAL-1-100 EXAM-DBAL MINIMUM SCORE = 100  
**Minimum Credits 1 Maximum Credits 1**

## **DANC 215A Ballet Technique II**

This course focuses on the principles, practices and vocabulary common to classical ballet technique through a daily practice of warm-up exercises at the barre and movement combinations both in the center and across the floor. The knowledge acquired at the barre is tested in the center through the adagio and allegro sections of the class. Adagio tests balance and fosters a lyrical quality while allegro tests coordination, articulation and the ability to move quickly and softly through space. Emphasis is placed on physical conditioning, coordination, alignment, clarity, movement pick-up and artistry.

**Repeatable:** Y

**Formerly** DANC 215

**Prerequisites** DANC 116 Ballet Technique IB or DBAL-2-100 EXAM-DBAL MINIMUM SCORE = 100  
**Minimum Credits 1 Maximum Credits 1**

## **DANC 215B Ballet Technique II**

This course focuses on the principles, practices and vocabulary common to classical ballet technique through a daily practice of warm-up exercises at the barre and movement combinations both in the center and across the floor. The knowledge acquired at the barre is tested in the center through the adagio and allegro sections of the class. Adagio tests balance and fosters a lyrical quality while allegro tests coordination, articulation and the ability to move quickly and softly through space. Emphasis is placed on physical conditioning, coordination, alignment, clarity, movement pick-up and artistry.

**Repeatable:** Y

**Prerequisites** DANC 116 Ballet Technique IB or DBAL-2-100 EXAM-DBAL MINIMUM SCORE = 100  
**Minimum Credits 1 Maximum Credits 1**

## **DANC 215C Ballet Technique II**

This course focuses on the principles, practices and vocabulary common to classical ballet technique through a daily practice of warm-up exercises at the barre and movement combinations both in the center and across the floor. The knowledge acquired at the barre is tested in the center through the adagio and allegro sections of the class. Adagio tests balance and fosters a lyrical quality while allegro tests coordination, articulation and the ability to move quickly and softly through space. Emphasis is placed on physical conditioning, coordination, alignment, clarity, movement pick-up and artistry.

**Repeatable:** Y

**Prerequisites** DANC 116 Ballet Technique IB or DBAL-2-100 EXAM-DBAL MINIMUM SCORE = 100  
**Minimum Credits 1 Maximum Credits 1**

## **DANC 315A Ballet Technique III**

This course goes deeper into the principles, practices and vocabulary common to classical ballet technique through a daily practice of warm-up exercises at the barre and movement combinations both in the center and across the floor. The knowledge acquired at the barre is tested in the center through the adagio and allegro sections of the class. Adagio tests balance and fosters a lyrical quality while allegro tests coordination, articulation and the ability to move quickly and softly through space. Emphasis is placed on physical conditioning, coordination, alignment, clarity, movement pick-up and artistry. Students must audition to be placed at this level.

**Repeatable:** Y

**Formerly** DANC 315

**Prerequisites** DBAL-3-100 EXAM-DBAL MINIMUM SCORE = 100

**Minimum Credits 1 Maximum Credits 1**

### **DANC 315B Ballet Technique III**

This course goes deeper into the principles, practices and vocabulary common to classical ballet technique through a daily practice of warm-up exercises at the barre and movement combinations both in the center and across the floor. The knowledge acquired at the barre is tested in the center through the adagio and allegro sections of the class. Adagio tests balance and fosters a lyrical quality while allegro tests coordination, articulation and the ability to move quickly and softly through space. Emphasis is placed on physical conditioning, coordination, alignment, clarity, movement pick-up and artistry. Students must audition to be placed at this level.

**Repeatable:** Y

**Prerequisites** DBAL-3-100 EXAM-DBAL MINIMUM SCORE = 100

**Minimum Credits 1 Maximum Credits 1**

## **Modern Techniques**

*Complete 8 credits from the following courses:*

### **DANC 105 Modern IA**

In this course students study the fundamental principles, practices and vocabulary common to Modern dance through a daily practice of warm-up exercises and movement combinations. Classes consist of a series of technical exercises that condition the body for strength, flexibility, endurance, and coordination; develop a physical and conceptual awareness of the elements of space, time, and energy; and promote performance skills of concentration, focus, and musicality. Live musicians accompany all dance major technique classes. Modern Technique IA is the first course in a two-semester sequence. Modern Technique IA is a prerequisite for Modern Technique IB.

**Repeatable:** N

**Formerly** 33-1011A

**Minimum Credits 2 Maximum Credits 2**

### **DANC 106 Modern IB**

In this course, students build upon the skills acquired in Modern Technique IA and explore further the fundamental principles, practices and vocabulary common to modern dance through a daily practice of warm-up exercises and movement combinations. Classes consist of a series of technical exercises that condition the body for strength, flexibility, endurance, and coordination; students begin to develop a physical and conceptual awareness of the elements of space, time, and energy; and promote performance skills of concentration, focus, and musicality. Live musicians accompany all dance major technique classes.

**Repeatable:** N

**Formerly** 33-1011B

**Prerequisites** DANC 105 Modern IA or DMOD-1-100 EXAM-DMOD MINIMUM SCORE = 100

**Minimum Credits 2 Maximum Credits 2**

## **DANC 205A Modern Technique II**

In this course students will study the principles, practices and vocabulary common to modern dance through a daily practice of warm-up exercises and movement combinations. Emphasis will be on developing conditioning, coordination, alignment, clarity, movement pick-up and artistry. Live musicians accompany all modern classes.

**Repeatable:** Y

**Formerly** DANC 205

**Prerequisites** DANC 106 Modern IB or DMOD-2-100 EXAM-DMOD MINIMUM SCORE = 100

**Minimum Credits 1 Maximum Credits 1**

## **DANC 205B Modern Technique II**

In this course students will study the principles, practices and vocabulary common to modern dance through a daily practice of warm-up exercises and movement combinations. Emphasis will be on developing conditioning, coordination, alignment, clarity, movement pick-up and artistry. Live musicians accompany all modern classes.

**Repeatable:** Y

**Prerequisites** DANC 106 Modern IB or DMOD-2-100 EXAM-DMOD MINIMUM SCORE = 100

**Minimum Credits 1 Maximum Credits 1**

## **DANC 205C Modern Technique II**

In this course students will study the principles, practices and vocabulary common to modern dance through a daily practice of warm-up exercises and movement combinations. Emphasis will be on developing conditioning, coordination, alignment, clarity, movement pick-up and artistry. Live musicians accompany all modern classes.

**Repeatable:** Y

**Prerequisites** DANC 106 Modern IB or DMOD-2-100 EXAM-DMOD MINIMUM SCORE = 100

**Minimum Credits 1 Maximum Credits 1**

## **DANC 310A Intermediate Contemporary Modern Techniques**

This course will challenge you physically, going deeper into contemporary modern dance vocabulary that emphasizes more complex and layered dance phrasework. You will draw upon skills acquired in Modern Technique II with increasing focus on body alignment specific to modern dance technique, rhythmic clarity, and spatial intent. Emphasis is on deeper skill building in relationship to stamina, focus, and concentration in the practice of more complex physical vocabulary. You must complete four credits of Modern Technique II prior to enrolling in this course.

**Repeatable:** Y

**Formerly** DANC 310

**Prerequisites** DANC 205A Modern Technique II and DANC 205B Modern Technique II or DANC 205A Modern Technique II and DANC 205C Modern Technique II or DANC 205B Modern Technique II and DANC 205C Modern Technique II or DMOD-3-100 EXAM-DMOD MINIMUM SCORE = 100

**Minimum Credits 1 Maximum Credits 1**

## **DANC 310B Intermediate Contemporary Modern Techniques**

This course will challenge you physically, going deeper into contemporary modern dance vocabulary that emphasizes more complex and layered dance phrasework. You will draw upon skills acquired in Modern Technique II with increasing focus on body alignment specific to modern dance technique, rhythmic clarity, and spatial intent. Emphasis is on deeper skill building in relationship to stamina, focus, and concentration in the practice of more complex physical vocabulary. You must complete four credits of Modern Technique II prior to enrolling in this course.

**Repeatable:** Y

**Prerequisites** DANC 205A Modern Technique II and DANC 205B Modern Technique II or DANC 205A Modern Technique II and DANC 205C Modern Technique II or DANC 205B Modern Technique II and DANC 205C Modern Technique II or DMOD-3-100 EXAM-DMOD MINIMUM SCORE = 100

**Minimum Credits 1 Maximum Credits 1**

## **DANC 425A Advanced Contemporary Modern Techniques**

This course will challenge you physically with an advanced contemporary modern vocabulary that emphasizes your individual contributions to the class material. You will draw upon skills acquired in Intermediate Contemporary Modern Techniques with increasing focus on building a stronger class community with your peers, to work both as an ensemble, as well as cultivating your unique voice and individuality. Emphasis is on building complex and layered physical vocabulary that challenges you to think creatively with curiosity and commitment, empowers you to take risks, and consider your individual role within the class context. You must audition for placement at this level.

**Repeatable:** Y

**Formerly** DANC 425

**Prerequisites** DMOD-4-100 EXAM-DMOD MINIMUM SCORE = 100

**Minimum Credits 1 Maximum Credits 1**

## **DANC 425B Advanced Contemporary Modern Techniques**

This course will challenge you physically with an advanced contemporary modern vocabulary that emphasizes your individual contributions to the class material. You will draw upon skills acquired in Intermediate Contemporary Modern Techniques with increasing focus on building a stronger class community with your peers, to work both as an ensemble, as well as cultivating your unique voice and individuality. Emphasis is on building complex and layered physical vocabulary that challenges you to think creatively with curiosity and commitment, empowers you to take risks, and consider your individual role within the class context. You must audition for placement at this level.

**Repeatable:** Y

**Prerequisites** DMOD-4-100 EXAM-DMOD MINIMUM SCORE = 100

**Minimum Credits 1 Maximum Credits 1**

## **Intermediate Contemporary Modern/Hip-Hop and Street Dance Techniques**

*Complete 3 credits from the following courses:*

## **DANC 310A Intermediate Contemporary Modern Techniques**

This course will challenge you physically, going deeper into contemporary modern dance vocabulary that emphasizes more complex and layered dance phrasework. You will draw upon skills acquired in Modern Technique II with increasing focus on body alignment specific to modern dance technique, rhythmic clarity, and spatial intent. Emphasis is on deeper skill building in relationship to stamina, focus, and concentration in the practice of more complex physical vocabulary. You must complete four credits of Modern Technique II prior to enrolling in this course.

**Repeatable:** Y

**Formerly** DANC 310

**Prerequisites** DANC 205A Modern Technique II and DANC 205B Modern Technique II or DANC 205A Modern Technique II and DANC 205C Modern Technique II or DANC 205B Modern Technique II and DANC 205C Modern Technique II or DMOD-3-100 EXAM-DMOD MINIMUM SCORE = 100

**Minimum Credits 1 Maximum Credits 1**

## **DANC 310B Intermediate Contemporary Modern Techniques**

## **Fashion Design, BFA**

The Bachelor of Fine Arts in Fashion Design program trains students to develop a design practice with a strong focus on design context - emphasizing an understanding of the culture, history, and theory of fashion as well as the crucial business savviness needed to make their work market-ready. Building on the strong foundations of the Bachelor of Arts in Fashion Studies, Product Development concentration, the BFA further explores the processes of conceptualizing, creating, and delivering a thesis collection that sits at the intersection of craft and innovation. Students cultivate their creative voice while honing the digital expertise, research acumen, and critical thinking skills required to be innovative leaders in a rapidly evolving global industry, bringing change-making thinking to the problems it faces.

Through the program's emphasis on issues of inclusivity, body positivity, sustainability, and the emergence of smart textiles and wearable technology, BFA students gain a broader perspective to inform their design practice. The program encourages students to broaden their experience in other ways as well. For example, students may choose to study in fashion capitals like London, Milan, Berlin, New York, and Los Angeles. Though personal studio space is provided as part of the senior thesis experience, critical dialogue and collaborative opportunities remain vital components of the program, and students are strongly encouraged to collaborate across disciplines to fuel creative exploration.

Students may join the BFA program either through direct enrollment or by application during the sophomore year.

As a result of successfully completing program requirements, students should be able to:

- use discipline-appropriate technology in order to navigate the multi-channel global business environment;
- evaluate consumer, fashion and design theories in order to propose solutions to existing and potential industry-related problems
- use best practice primary and secondary research to communicate fashion industry-related concepts and solutions;
- effectively apply advanced craft techniques, technology, and vocabulary/terminology relative to their end product;
- translate fashion historical and theoretical concepts into their design practice;
- understand the importance of alternative sizing, gender performativity, and adaptive fashions, among other things, in order to create more inclusive fashion future;
- execute all stages of the design process from creative problem solving to concept development to design and fabrication;

- describe, analyze, interpret, and contextualize their work and the work of others in relation to the broader canon of creative fashion production; and
- develop and present a cohesive and competitive professional body of work.

## PROGRAM REQUIREMENTS - 72 credits required

### **FASH 101 Intro to the Fashion Industry**

This course offers students a broad overview of the interrelated fields of product development and merchandising within the fashion industry. This includes an introduction to global markets, fashion production, distribution, and marketing, and apparel business practices.

**Repeatable:** *N*

**Formerly** 27-1100

**Minimum Credits 3 Maximum Credits 3**

### **FASH 102 Fashion Design Principles**

This course offers an overview of the process of design for the body, built environment, and user experience, introducing students to design and digital skills as they apply broadly to the field of fashion. The course will introduce key design principles in conjunction with digital tools for presentation and visual communication.

**Repeatable:** *N*

**Formerly** 27-1101

**Minimum Credits 3 Maximum Credits 3**

### **FASH 130 Patternmaking and Construction I**

Patternmaking and Construction I introduces students to and gives them practice in a range of patternmaking and construction techniques used in apparel product development. Students will be able to create and apply basic blocks, patternmaking and draping techniques to construct prototypes and finished products.

**Repeatable:** *N*

**Formerly** 27-1607

Fashion Majors Only (2FSH)

**Minimum Credits 3 Maximum Credits 3**

### **FASH 176 Digital Strategies in Fashion Design**

This computer-based studio course expands on skills first introduced in Fashion Design Principles (FASH 102). Students are exposed to a range of digital technologies used in the fashion industry for creative work. Students will explore intermediate and advanced approaches using digital technology to create digital flats, digital illustration, and custom libraries; image manipulation, collage and montage for mood boards, and textile design and layout of final presentations and portfolio design techniques. Students will be taught to plan, shoot, and edit short videos of their work and creative process.

**Repeatable:** *N*

**Prerequisites** FASH 102 Fashion Design Principles

**Minimum Credits 3 Maximum Credits 3**

## **FASH 203 Trendspotting**

This course introduces students to research methodology and critical assessment of trend sources and research used to develop products, marketing and merchandising campaigns for fashion and adjacent industries.

**Repeatable:** *N*

**Formerly** 27-2125

**DEI**

**Minimum Credits 3 Maximum Credits 3**

## **FASH 204 Math for Fashion**

This course explores mathematical applications used in product development and merchandising for the fashion industry. Emphasis is placed on use of formula-based spreadsheets to expedite and defend financial problem solving.

**Repeatable:** *N*

**Formerly** 27-2110

**Prerequisites** MATH 110 College Mathematics or MATH 115 Liberal Arts Mathematics or MATH 120 Quantitative Reasoning or MATH 150 Geometry in the Arts or MATH 155 Math in Art and Nature or MATH 160 Mathematical Ideas or MATH 165 Math for Marketing and Management or ACCU-T-75 EXAM-ACCUPLACER MATH MINIMUM SCORE = 75 or ACT-M-25 EXAM-ACT MATH MINIMUM SCORE = 25 or SAT-M-580 EXAM-SAT MATH MINIMUM SCORE = 580 or ALEK-1-61 EXAM-ALEKS MINIMUM SCORE = 61

**Minimum Credits 3 Maximum Credits 3**

## **FASH 205 Textiles Survey**

This course demonstrates the interrelationship between textiles and clothing design. It explores the importance of the textile industry to the fashion industry. Students acquire understanding of fibers, fabrics, manufacturing techniques, trends, definitions, and uses of textiles applied to both industries. Laws governing uses, liabilities, treatment, standards, and labeling are discussed.

**Repeatable:** *N*

**Formerly** 27-2121

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **FASH 230 Patternmaking and Construction II**

Patternmaking and Construction II further develops students' knowledge of patternmaking and construction techniques used in apparel product development and advances their technical skills in these areas.

**Repeatable:** *N*

**Formerly** 27-2607

**Prerequisites** FASH 130 Patternmaking and Construction I

**Minimum Credits 3 Maximum Credits 3**

## **FASH 231 Approaches and Process in Fashion Design**

This course introduces individual and teamed students to design-focused product development through consumer market-segment research and category-specific design challenges across traditional and niche markets such as women's, men's, children's, active sports, underwear, event, occasion, and special-needs wear and accessories.

**Repeatable:** *N*

**Formerly** 27-2730

**Prerequisites** FASH 101 Intro to the Fashion Industry

**Minimum Credits 3 Maximum Credits 3**

## **FASH 306 Apparel Evaluation**

This course provides students with a production vocabulary based on a thorough knowledge of the relationship between textiles and finished garments. Students will learn about garment fit, construction details, federal regulations, quality control and wholesale/retail pricing based on market segmentation. Decision making and negotiating skills are also highlighted.

**Repeatable:** *N*

**Formerly** 27-3115

**Prerequisites** FASH 101 Intro to the Fashion Industry or FASH 205 Textiles Survey

**Minimum Credits 3 Maximum Credits 3**

## **FASH 307 A History of Fashion in 100 Objects**

By decentering the traditionally Eurocentric focus of fashion history, students will come to understand the universality of fashion and how humans throughout history have utilized dress objects to signal status, construct identity and cultivate community. Through regular visits to the Fashion Study Collection, students will also be introduced to the material culture of dress, the evolution of fashion journalism, retail history and developments in manufacturing and construction.

**Repeatable:** *N*

**Formerly** 27-3175

**DEI**

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

## **FASH 308 Professional Practice**

Students will create a professional package based on their career interests comprised of the following elements: a portfolio, resume, cover letter, website and LinkedIn page. Students will develop interview skills and gain an understanding of how to pursue a meaningful career in the fashion industry.

**Repeatable:** *N*

**Formerly** 27-3130

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **FASH 309 Sourcing and Supply Chain**

This course introduces students to the economic, environmental and social challenges that impact sustainability while sourcing textile and apparel locally and globally.

**Repeatable:** *N*

**Formerly** 27-3930

**DEI**

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **FASH 330 Digital Patternmaking and Construction**

Students will move between Optitex digital platform, paper patternmaking, sewn prototypes and adjustments to fit. Familiarity with digital applications will open pathways to nuanced alteration, grading for size and use of patterned fabric.

**Repeatable:** *N*

**Formerly** 27-3607

**Prerequisites** FASH 230 Patternmaking and Construction II and FASH 231 Approaches and Process in Fashion Design

**Minimum Credits 3 Maximum Credits 3**

## **FASH 331 Design Solutions for Fashion**

Using 2D and 3D platforms and prototypes to creatively solve design challenges, students will work independently and in teams to research, analyze and develop design strategies and innovations for a variety of products for fashion consumers.

**Repeatable:** *N*

**Formerly** 27-3730

**Prerequisites** FASH 230 Patternmaking and Construction II and FASH 231 Approaches and Process in Fashion Design

**Minimum Credits 3 Maximum Credits 3**

## **FASH 332 Patternmaking and Construction III**

Patternmaking and Construction III further develops students' knowledge of patternmaking, draping and construction techniques used in apparel & product development and advances their technical skills in these areas. In this course focus will be on flat pattern size-grading to address how we can adapt patterns to fit all sizes. Students will learn about non-conventional, adaptive design, and non-binary design, as well as plus-size patternmaking.

**Repeatable:** *N*

**Prerequisites** FASH 230 Patternmaking and Construction II

**Minimum Credits 3 Maximum Credits 3**

## **FASH 333 Fashion Design Studio I**

This six-credit course immerses students in the studio experience, combining research methodologies, theme development, and advanced practice in digital illustration, drawing for fashion, generating color palettes, and choosing suitable fabrics. Students will develop original design concepts through pivot, slash and spread, and contouring techniques. Through critiqued design development on the dress form, students further their understanding in the principles of proportion, silhouette, and line. Further evaluation for fit and style is done using professional models. Students will be encouraged to develop skillsets related to professional practice, including developing a cohesive work product, working to deadlines, teamwork, and

constructive critique.

**Repeatable:** *N*

**Prerequisites** FASH 230 Patternmaking and Construction II and FASH 231 Approaches and Process in Fashion Design

**Minimum Credits 6 Maximum Credits 6**

## **FASH 334 Fashion Design Studio II**

Using designs developed in FASH 333 Fashion & Product Design Studio I, students will realize original design concepts and further explore two- and three-dimensional patternmaking approaches to garment design. In addition to conducting original research, students will utilize the 6,000-piece Fashion Study Collection for research and ideation. Through critiqued design development on the dress form, students further their understanding in the principles of proportion, silhouette, line and style, while exploring current market trends and research. Two projects are evaluated on professional models for fit and style alongside their developed presentation to support the garments and/or products.

**Repeatable:** *N*

**Prerequisites** FASH 333 Fashion Design Studio I

**Minimum Credits 6 Maximum Credits 6**

## **FASH 383 Fashion and Dress Beyond the West**

This interdisciplinary, topic-based course examines the dress, adornment, beautification and body modification practices and customs of non-Western, marginalized and indigenous peoples. Through readings, assignments, discussions, museum trips, film screenings, fieldwork, site visits and archival research, students will be asked to think critically about the relationship between identity, race, gender, memory, community and citizenship, as well as how the residual effects of colonialism have shaped the Western fashion system. The course will culminate with a group exhibition or publication.

**Repeatable:** *N*

**HU DEI**

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **FASH 403 Fashion Design Thesis I**

This course gives students the opportunity to further develop and finally construct an original collection of clothing that showcases their creativity, innovative designs, and technical skills, based on recommendations received on designs and sample prototypes from the previous semester (FASH 334 Fashion Design Studio II). Students will also develop strategies for marketing their collection along with a professional portfolio that best represents their individual design identity.

**Repeatable:** *N*

**Prerequisites** FASH 334 Fashion Design Studio II  
Fashion Design BFA Majors Only (M271)

**Minimum Credits 6 Maximum Credits 6**

## **FASH 404 Fashion Design Thesis II**

Fashion Design Thesis II is a continuation of FASH 403 Fashion Design Thesis I, where students will further refine two- and three-dimensional patternmaking techniques and complete their thesis collection. They will explore 2D to 3D visualization along with construction details and finishes that allow for innovative cut, shape and silhouette. Critical thinking and problem-solving skills will be used to realize students' unique work to be showcased at graduation. Students will have the opportunity to collaborate with majors across the college.

**Repeatable:** *N*

**Prerequisites** FASH 403 Fashion Design Thesis I

Fashion Design BFA Majors Only (M271)

**Minimum Credits 3 Maximum Credits 3**

## Film and Television, BFA

The Bachelor of Fine Arts in Film and Television is designed specifically to help students meet the qualification for direct entry into the profession and is built around extensive modeling of professional practice integrated with research and collaborative production of thesis work. Students can earn a BFA in Film and Television with a concentration in Cinematography, Directing, Editing and Post-Production, Sound for Cinema, Cinema Visual Effects, Producing, Production Design or Screenwriting.

### PROGRAM REQUIREMENTS - 62-71 credits required

#### CINE 401 BFA Studio

Students begin the development of the Thesis Project by collaborating with other BFA candidates. All will contribute ideas for development with ongoing revisions, peer evaluation, and Advisor/Instructor critiques. The work will culminate in a single locked script approved by the Thesis Advisors/Instructors for production. Concurrent with the script development, students will hone their skills through progressively complex assignments building toward a final short narrative cinematic story.

**Repeatable:** *N*

**Formerly** 24-4020

**Minimum Credits 6 Maximum Credits 6**

#### CINE 402 BFA Research and Presentation

The Research and Presentation component of the BFA course of study provides an opportunity for candidates to place their Thesis work in the appropriate historical, thematic, and aesthetic context. Using the subject matter of the Thesis as the focal point of their work, candidates will research artists, genres, and cultural influences that provide a backdrop for the development and execution of the Thesis. A self-reflection and analysis of the candidate's work throughout the course of study, culminating in the Thesis, is integral to the overall written presentation

**Repeatable:** *Y*

**Formerly** 24-4040

**Minimum Credits 3 Maximum Credits 3**

#### CINE 491A BFA Thesis I

In this course, CTVA BFA students commence with preproduction on scripts developed in the designated BFA Studio curriculum and approved by the BFA faculty instructors. Students will collaborate with their thesis cohorts with an emphasis on visual and aural realization for all department heads including Directing, Producing, Cinematography, Production Design, and Sound for Cinema. The teams must meet specified milestones during the process, and production will take place during designated production windows once green lit by their advisors. Each BFA candidate is expected to meet the complete deliverable schedule required by their department.

**Repeatable:** N

**Formerly** CINE 491

**Minimum Credits 6 Maximum Credits 6**

## **CINE 491B BFA Thesis II**

In this course, Film and Television BFA students complete the thesis project produced in CINE 491A BFA Thesis I. Students will continue to collaborate with their thesis cohorts with an emphasis on visual and aural realization for all department heads including Directing, Producing, Cinematography, Production Design, Editing and Post Production, and Sound for Cinema. The teams must meet specified milestones during the completion process. Each BFA candidate is expected to meet the complete deliverable schedule required by their department.

**Repeatable:** Y

**Prerequisites** CINE 491A BFA Thesis I

**Minimum Credits 3 Maximum Credits 3**

## **MEDI 101 Cinematic Storytelling**

This course explores the elements of cinematic storytelling that are used to articulate theme, evoke emotion, and create personal connection with an audience. The student will analyze, research, develop, and visualize cinematic stories for the screen. Aesthetics and storytelling components will be applied in MEDI 102 Cinema and Television Production.

**Repeatable:** N

**Concurrent Requisite** MEDI 102 Cinema and Television Production

**Minimum Credits 3 Maximum Credits 3**

## **MEDI 102 Cinema and Television Production**

This hands-on course explores the techniques of cinema and television production as a collaborator on both individual and group projects. The student will practice conceptualization, visualization, cinematography, sound recording, and editing techniques through effective visual and oral presentations. The aesthetic and storytelling principles will be applied from MEDI 101 Cinematic Storytelling.

**Repeatable:** N

**Concurrent Requisite** MEDI 101 Cinematic Storytelling

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

## **CINE 143 World Cinema I**

This course examines the world cinema up until World War II. Emphasis is placed on major directors, national cinemas, and movements that contributed to the development of narrative cinema. Screenings will be discussed for their aesthetic, historical, technological and ideological significance. Students will research and write papers and be involved in a number of other in-class and online research activities to help engage them actively with the material.

**Repeatable:** *N*

**Formerly** 24-2550

**Minimum Credits 3 Maximum Credits 3**

## **CINE 144 World Cinema II**

This course examines the world cinema after World War II. Emphasis is placed on major directors, national cinemas, and movements that contributed to the development of narrative cinema. Screenings will be discussed for their aesthetic, historical, technological and ideological significance. Students will research and write papers and be involved in a number of other in-class and online research activities to help engage them actively with the material.

**Repeatable:** *N*

**Formerly** 24-2551

**Minimum Credits 3 Maximum Credits 3**

## **CONCENTRATIONS**

### **Cinematography**

The goal of the cinematography program is to provide students a pre-professional level of knowledge and competence in cameras and lighting necessary to conceive and create images for the screen in relationship to story. As a result of successfully completing program requirements, students should be able to:

- demonstrate a professional level of knowledge and competence necessary to conceive and create images for the screen;
- demonstrate the concept, practice, and aesthetics of lighting;
- demonstrate the ability to link a lighting concept to dramatic material;
- develop and articulate a film or television story with the emphasis on communicating the message of the piece visually;
- demonstrate a comprehensive knowledge of all film, television, and digital camera systems as well as the responsibilities of the Cinematographer, Camera Operator, Camera Assistants, Gaffer, and Key Grip;
- demonstrate the skill to collaborate with all key departments (Directing, Producing, Production Design, Special FX, etc.);
- demonstrate a comprehensive knowledge of electronic imaging, image optics, special effects, film stocks, laboratory practices, and finishing the film or television project (color correction and final delivery for exhibition);
- demonstrate the ability to translate a director's concept into a complete short film or television story that both demonstrates proficiency of craft and creativity, and fulfills the director's vision;
- interpret a narrative screenplay and break it down into a visual treatment, shot list, storyboard, floor plan; in collaboration with the director; and
- demonstrate the ability to critically examine their own work and others.

**Required for the Concentration:**

## **CINE 121 Lighting I**

Course introduces the physics of motion picture lighting for students with little or no lighting experience. Students become familiar with important safety procedures and the use of standard lighting equipment. Special attention is given to important light measuring techniques using incident light meters and spot meters, quality of light and lighting ratios. Course encourages intelligent, thoughtful approaches to the aesthetics of lighting.

**Repeatable:** *N*

**Formerly** 24-1200

**Prerequisites** CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production

**Minimum Credits** 4 **Maximum Credits** 4

## **CINE 215 Cinematography: Camera Seminar I**

This course gives students a working knowledge of beginning digital motion picture camera systems. It provides hands-on training in camera handling and assisting. Students learn basic image acquisition techniques based on optics, focal length, stops, and depth-of-field. Students are introduced to set protocol and the duties of different members of the camera department.

**Repeatable:** *N*

**Formerly** 24-2202

**Prerequisites** CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production

**Minimum Credits** 3 **Maximum Credits** 3

## **CINE 216 Image Design for Cinema**

In this course students will examine the design of images and their critical role in how filmmakers communicate story. Through lectures, practical assignments and critique, students refine their ability to use visual components to see, conceive and communicate most effectively. This course bridges the gap between theory and practice and highlights the relationship between story structure and visual structure.

**Repeatable:** *N*

**Formerly** 24-2201

**Prerequisites** CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production

**Minimum Credits** 3 **Maximum Credits** 3

## **CINE 221 Photo Theory**

This course deals with histories of technologies of image acquisition, from the first photographic emulsion to today's digital sensors. It offers in-depth studies of latent image theory, image quality, densitometry, sensitometry and digital sensors, scanning, and archiving.

**Repeatable:** *N*

**Formerly** 24-2216

**Prerequisites** CINE 121 Lighting I and CINE 216 Image Design for Cinema

**Minimum Credits** 3 **Maximum Credits** 3

## **CINE 223 Cinema Color I**

Students acquire a working knowledge of the aesthetics and technical aspects of the color correction process. Content addresses theory and application of color correction, image control and manipulation techniques. Principles and history of color theory and the tools available to filmmakers are explored through lecture, interactive computer exercises, and hands-on work with current professional color correction software.

**Repeatable:** *N*

**Formerly** 24-2208

**Prerequisites** CINE 130 Editing I or CINE 216 Image Design for Cinema

**Minimum Credits** 3 **Maximum Credits** 3

## **CINE 306 Cinematography I**

Through still and motion picture exercises, this course focuses on the interpretation of artistic goals by exploring the use of camera movement, focal length, depth of field, camera angles, etc. Students begin by developing different creative visualizations using pre-production tools including storyboards, shot lists, and overheads. Technical issues including acquisition formats, exposure, and lighting are analyzed.

**Repeatable:** *N*

**Formerly** 24-3202

**Prerequisites** CINE 215 Cinematography: Camera Seminar I and CINE 221 Photo Theory

**Minimum Credits** 4 **Maximum Credits** 4

## **CINE 308 Cinematography II**

This course is devoted to digital acquisition and collaboration with directors on set. Cinematographers will work with a student enrolled in an advanced directing class, teaming up to create a pre-production plan and to shoot and color correct a short narrative story. Students will also shoot a non-narrative short such as a music video, commercial, or documentary. Using advanced digital systems, cinematography students learn all aspects of digital workflow from pre-production through post production.

**Repeatable:** *N*

**Formerly** 24-3204

**Prerequisites** CINE 306 Cinematography I

**Requirements** Permission Required (DP)

**Minimum Credits** 4 **Maximum Credits** 4

## **CINE 315 Cinematography: Camera Seminar II**

This class expands upon concepts introduced in Camera Seminar I. In addition to the technical aspects of high end, professional level camera systems, this course focuses on the skills required to be a professional operator and the first assistant. Instruction also covers support equipment including the dolly, jib, gear head, and video assist. The course focuses on how various camera skills can be used to enhance storytelling.

**Repeatable:** *N*

**Formerly** 24-3201

**Prerequisites** CINE 215 Cinematography: Camera Seminar I and CINE 321 Lighting II

**Concurrent Requisite** CINE 316 Camera Seminar II Studio

**Minimum Credits** 3 **Maximum Credits** 3

## **CINE 316 Camera Seminar II Studio**

Camera Seminar II Studio is a mandatory concurrent course for those enrolled in Camera Seminar II. In it, students will work in groups acting as operators and focus pullers for in-class exercises. These exercises expand upon the skills students are developing in Camera Seminar II, applying them to more complex and complete storytelling assignments.

**Repeatable:** *N*

**Formerly** 24-3201A

**Concurrent Requisite** CINE 315 Cinematography: Camera Seminar II

**Minimum Credits** 3 **Maximum Credits** 3

## **CINE 321 Lighting II**

This course expands upon the skills and concepts introduced in Lighting I that revolve around the aesthetics and technical aspects of lighting for narrative storytelling. Using discovery and experimentation, it focuses on the emotional impact of visual image. Both lecture and hands-on practical experience are used to stress the technical elements necessary to accomplish the sophisticated marriage of art and science. Lighting II Studio is a concurrent requisite.

**Repeatable:** *N*

**Formerly** 24-3200

**Prerequisites** CINE 121 Lighting I and CINE 215 Cinematography: Camera Seminar I

**Concurrent Requisite** CINE 322 Lighting II Studio

**Minimum Credits** 3 **Maximum Credits** 3

## **CINE 322 Lighting II Studio**

This course is designed to work in conjunction with Lighting II. Students will collaborate on class exercises, involving a full array of pre-visualization and production techniques with an emphasis on collaboration and communication. The coursework expands upon the skills cinematography students learn in Lighting II, applying them to more complex and complete storytelling assignments.

**Repeatable:** *Y*

**Formerly** 24-3200A

**Concurrent Requisite** CINE 321 Lighting II

**Minimum Credits** 3 **Maximum Credits** 3

## **CINE 406 Cinematography III**

Building on Cinematography II, this course focuses on visual storytelling with an emphasis on color, camera movement, shot design, and other creative choices. Students develop a story and visual concept and shoot a short project without any dialogue, relying heavily on visuals to communicate story, tone, theme, and emotional impact.

**Repeatable:** *N*

**Formerly** 24-4203

**Prerequisites** CINE 308 Cinematography II and CINE 315 Cinematography: Camera Seminar II and CINE 316 Camera Seminar II Studio

**Requirements** Permission Required (DP)

**Minimum Credits** 4 **Maximum Credits** 4

## **Cinema Visual Effects**

This specialized area of study combines analytical and practical application of technical, creative and physiological studies in support of creating effects that support the film's cinematic vision. As a result of successfully completing program requirements, students should be able to:

- identify and construct a design preparation and implementation for digital composites;
- demonstrate the skills to use color grading, format transformation, and element correction tools for dramatic construction;
- demonstrate the ability to apply basic digital editing and use compositing techniques for creating animated type sequences for film and television titling;
- utilize the proper methods of creating mattes from Chroma-key extraction methods and for applying motion tracking and stabilization tools to visual elements;
- demonstrate an ability to plan, pre-visualize, and create visual effects sequences, titles, and graphics in a 3D, node-based composite system environment, working individually and collaboratively as part of a team;
- utilize cinematography techniques and studies of historical examples of visual effects sequences to effect planning, design, and execution of a series of visual effect assignments;
- articulate the aesthetic role and history of visual effects in film and television; and
- communicate and collaborate with art department, directors, and/or producers on pre-visualization of VFX elements.

**Required for the Concentration:**

### **ANIM 150 Computer Animation: Keyframing I**

This course establishes a beginning understanding of computer-generated (CG) keyframing via object and camera keyframing using industry standard software application. Further animation assignments focus on an intermediate level of character animation through a provided CG character and rig.

**Repeatable:** *N*

**Formerly** 26-1015

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 161 CVFX Foundations**

This course introduces students to core methodologies and practices for creating, constructing and producing key visual effects sequences for live-action cinema. Students will learn a cross-section of visual effect approaches developing their knowledge and practical application of these technologies in supporting live-action cinema. This survey primer on core methodologies allows students to organize, plan and execute required cinema visual effects developing interpersonal and practical skill sets.

**Repeatable:** *N*

**Formerly** 24-1600

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 262 CVFX: Cinematography I**

Course teaches students the methodology of visual effects production through practical, hands-on application. Students acquire general knowledge of a variety of skills needed to effectively produce and direct a visual effects sequence.

**Repeatable:** *N*

**Formerly** 24-2204

**Prerequisites** CINE 121 Lighting I  
**Minimum Credits 3 Maximum Credits 3**

### **ANIM 263 CVFX: Compositing I**

Lectures and demonstrations, with supporting materials, along with weekly exercises to reinforce the ideas and principles put forth in these presentations, will guide students toward a solid fundamental understanding of the visual effects postproduction process via the compositing workflow. Students will be given the opportunity to show what they have learned by executing a basic final project at the end of the semester, with a subsequent critique by the class and individually with the instructor.

**Repeatable:** *N*  
**Formerly** 24-2209  
**Minimum Credits 3 Maximum Credits 3**

### **ANIM 270 Motion Graphics I**

Course teaches techniques to digitally integrate software and composite layers of images. Discussions of digital and optical effects from conception to design encourage students to make creative use of software.

**Repeatable:** *N*  
**Formerly** 24-1420  
**Prerequisites** INMD 120 Digital Image Design or GRDE 136 Design Lab or TELE 230 Production & Editing I or PHOT 202 Photographic Practice III or PHOT 206 Digital Imaging I or CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process  
**Minimum Credits 3 Maximum Credits 3**

### **ANIM 363 CVFX: Compositing II**

This course teaches students the various analogue and digital techniques of compositing film elements of diverse origin, from film, electronic imaging systems, and computer-generated images, through lecture, demonstration, and hands-on practice.

**Repeatable:** *N*  
**Formerly** 24-3209  
**Prerequisites** ANIM 263 CVFX: Compositing I or ANIM 370 Motion Graphics II  
**Minimum Credits 3 Maximum Credits 3**

### **ANIM 365 Computer Animation: Visual Effects**

This course introduces the advanced Computer Animation Concentration student to the visual effects process of integrating computer-generated elements with live action footage. Early assignments integrate pre-existing computer generated elements with live action content. Subsequent assignments introduce advanced texture-mapping, rendering and camera tracking techniques. The course concludes with the development of a solo visual effects sequence that combines idea generation, production strategy and advanced CG rendered objects, particles, effects and camera. Screening of film examples and a presentation assignment about the visual effects industry will underscore the aesthetic impact of CG elements in a live action film.

**Repeatable:** *N*  
**Formerly** 26-3049

**Prerequisites** ANIM 150 Computer Animation: Keyframing I

**Minimum Credits 4 Maximum Credits 4**

## **ANIM 370 Motion Graphics II**

Course teaches complex film and video compositing under tight deadlines using advanced high-end systems. Course emphasizes storyboarding and design as well as postproduction house protocols.

**Repeatable:** *N*

**Formerly** 24-2421

**Prerequisites** ANIM 270 Motion Graphics I or CINE 310 Cinema Models and Miniatures

**Minimum Credits 3 Maximum Credits 3**

## **CINE 130 Editing I**

Course helps students develop the basic non-linear editing skills needed to tell stories effectively through screenings, practical hands-on assignments, using NLE editing software, readings, and lectures. Organizational skills needed to handle NLE offline digital video and audio materials are covered. Editing exercises consist of various editing genres, using scenes from longer works. Students receive ongoing critiques of their work to determine their proficiency of craft and creativity.

**Repeatable:** *N*

**Formerly** 24-1401

**Concurrent Requisite** CINE 131 Editing I Studio

**Minimum Credits 3 Maximum Credits 3**

## **CINE 131 Editing I Studio**

This course is required concurrently with Editing I. Students develop basic skill in the use of a digital editing platform in completing the Editing I course exercises, as well as investigating current technical developments and digital workflow concepts. Content is presented through demonstrations, tutorials and hands-on practice using visual and audio media. Students receive ongoing critique, quizzes and one-to-one problem solving to determine their proficiency and advancement in the use of the platform.

**Repeatable:** *N*

**Formerly** 24-1401B

**Concurrent Requisite** CINE 130 Editing I

**Minimum Credits 1 Maximum Credits 1**

## **CINE 223 Cinema Color I**

Students acquire a working knowledge of the aesthetics and technical aspects of the color correction process. Content addresses theory and application of color correction, image control and manipulation techniques. Principles and history of color theory and the tools available to filmmakers are explored through lecture, interactive computer exercises, and hands-on work with current professional color correction software.

**Repeatable:** *N*

**Formerly** 24-2208

**Prerequisites** CINE 130 Editing I or CINE 216 Image Design for Cinema

**Minimum Credits 3 Maximum Credits 3**

## **CINE 323 Cinema Color II**

This course expands upon concepts taught in Cinema Color I by providing students with training in the theory and techniques of digital transfer and digital intermediates. Students apply their knowledge of the technical aspects and aesthetics of the celluloid-based film transfers and digital manipulation. Principles of color theory and the tools available to filmmakers engaged in the process of electronic media and image manipulation are explored through lecture and interactive computer exercises.

**Repeatable:** *N*

**Formerly** 24-3208

**Prerequisites** CINE 223 Cinema Color I

**Minimum Credits 3 Maximum Credits 3**

## **Directing**

This concentration is designed to provide training and practice in all aspects of fictional directing, with course offerings that allow students to study the craft of directing through the eyes of and in collaboration with screenwriters, casting directors, editors, cinematographers, production designers and others. As a result of successfully completing program requirements, students should be able to:

- interpret a narrative screenplay visually and aurally to generate a completed short film or television story ready for exhibition and distribution;
- analyze a narrative screenplay, prepare a director's breakdown, and visual treatment;
- prepare a shot list, lined shooting script, floor plan, and storyboards in collaboration with a cinematographer, producer, and assistant director;
- effectively communicate and collaborate with actors to create psychologically believable cinematic performances;
- effectively tell a visual screen story through cinematic elements including camera, lighting, production design, editing, and audio;
- critically examine their own work and that of their peers; and
- develop and articulate a personal vision of cinematic storytelling while effectively collaborating with producers, cinematographers, production designers, and editors in all phases of film and television production from development through to completion.

**Required for the Concentration:**

## **CINE 104 Fundamentals of Casting**

This course introduces the fundamental practices, etiquette and protocol for casting cinema productions. Sources of actors, methods of posting calls, offers and booking sheets and implementing SAG guidelines are presented and examined. The role and value of a casting director and their collaboration with directors, producers and line producers is covered. A standard protocol for scheduling and running casting sessions from pre-reads through chemistry tests is developed with an emphasis on professionalism.

**Repeatable:** *N*

**Formerly** 24-1301

**Minimum Credits 1 Maximum Credits 1**

## **CINE 128 Acting and Directing Workshop**

Course is designed to introduce fundamentals of the actor's craft to directing students. Students learn various acting techniques and apply them to basic directing methods. The relationship between actor, text,

and director is emphasized through analysis, rehearsal, and scene work. Intended outcome is an understanding of the actor's process and the collaboration and communication necessary between actors and directors.

**Repeatable:** *N*

**Formerly** 24-1300

**Prerequisites** CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production

**Minimum Credits 3 Maximum Credits 3**

## **CINE 145 Screenwriting I: Writing the Short Film**

Course is a workshop that explores basic methods of writing for cinema which further develop the students' skills in presenting their ideas in written form. Students will develop craft skills basic to cinema writing: research, story development, scene structure, dialogue, and character definition. Emphasis is on finding visual equivalents for human emotions and on developing the writer's individual personal vision. This work culminates in the development and revision of two short narrative scripts. Instrumental in the development of the student as a writer is the ability to read, and effectively critique, the work of their peers.

**Repeatable:** *N*

**Formerly** 24-1710

**Prerequisites** ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or ENGL 109 Writing and Rhetoric I Stretch B or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

## **CINE 225 Cinema Directing I**

Course builds upon the relationship between actor, text, and director and expands to include camera blocking, basic scene coverage, additional rehearsal techniques, and effective critiquing skills. Emphasis is on the development of director's breakdowns, pre-visualization, set-etiquette, and fundamental collaboration with key department heads. Scene work culminates with the blocking and staging of a cinematic narrative scene.

**Repeatable:** *N*

**Formerly** 24-2301

**Prerequisites** CINE 128 Acting and Directing Workshop

**Minimum Credits 6 Maximum Credits 6**

## **CINE 250 Advanced Script Supervising**

This three-credit hour course is affiliated with the advanced production and offers students an opportunity to learn about the role of Script Supervisor by serving as Script Supervisors on a film. Learning will be delivered through instructor mentoring and focus on practical preparation of scripts notes, lining scripts, assigning slate numbers, working with the various departments during production and set etiquette.

**Repeatable:** *Y*

**Formerly** 24-2612

**Prerequisites** CINE 225 Cinema Directing I or CINE 249 Introduction to Script Supervising

**Minimum Credits 3 Maximum Credits 3**

## **CINE 325 Cinema Directing II**

Course continues the development of collaboration with actors and key department heads while introducing the principles of cinematic coverage and providing the opportunity to develop personal directorial style. Pre-visualization, fundamental considerations of location shooting, and the use of editing and audio design in cinematic storytelling are emphasized. Student work culminates with the direction of scenes on both studio and location.

**Repeatable:** N

**Formerly** 24-3302

**Prerequisites** CINE 225 Cinema Directing I

**Minimum Credits 6 Maximum Credits 6**

### **CINE 345 Advanced Casting Director**

Course will focus on the casting director's role as a facilitator of (and creative collaborator) in casting for filmed entertainment. This instruction will entail the full range of affairs between casting director and director during the auditioning phase and a comprehensive look at hiring actors, contract negotiations, actor representation, and the Screen Actors Guild.

**Repeatable:** Y

**Formerly** 24-3601

**Prerequisites** CINE 104 Fundamentals of Casting

**Minimum Credits 3 Maximum Credits 3**

*Complete 15 credits from the following courses:*

### **ANIM 161 CVFX Foundations**

This course introduces students to core methodologies and practices for creating, constructing and producing key visual effects sequences for live-action cinema. Students will learn a cross-section of visual effect approaches developing their knowledge and practical application of these technologies in supporting live-action cinema. This survey primer on core methodologies allows students to organize, plan and execute required cinema visual effects developing interpersonal and practical skill sets.

**Repeatable:** N

**Formerly** 24-1600

**Minimum Credits 3 Maximum Credits 3**

### **CINE 121 Lighting I**

Course introduces the physics of motion picture lighting for students with little or no lighting experience. Students become familiar with important safety procedures and the use of standard lighting equipment. Special attention is given to important light measuring techniques using incident light meters and spot meters, quality of light and lighting ratios. Course encourages intelligent, thoughtful approaches to the aesthetics of lighting.

**Repeatable:** N

**Formerly** 24-1200

**Prerequisites** CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production

**Minimum Credits 4 Maximum Credits 4**

### **CINE 130 Editing I**

Course helps students develop the basic non-linear editing skills needed to tell stories effectively through screenings, practical hands-on assignments, using NLE editing software, readings, and lectures. Organizational skills needed to handle NLE offline digital video and audio materials are covered. Editing exercises consist of various editing genres, using scenes from longer works. Students receive ongoing critiques of their work to determine their proficiency of craft and creativity.

**Repeatable:** *N*

**Formerly** 24-1401

**Concurrent Requisite** CINE 131 Editing I Studio

**Minimum Credits 3 Maximum Credits 3**

## **CINE 131 Editing I Studio**

This course is required concurrently with Editing I. Students develop basic skill in the use of a digital editing platform in completing the Editing I course exercises, as well as investigating current technical developments and digital workflow concepts. Content is presented through demonstrations, tutorials and hands-on practice using visual and audio media. Students receive ongoing critique, quizzes and one-to-one problem solving to determine their proficiency and advancement in the use of the platform.

**Repeatable:** *N*

**Formerly** 24-1401B

**Concurrent Requisite** CINE 130 Editing I

**Minimum Credits 1 Maximum Credits 1**

## **CINE 202 Cinematic Art in the Land of Leonardo**

In this course students investigate Florentine history and art as it relates to contemporary cinema by analyzing, planning, and filming segments from a film script. Special attention is paid to visual perspective, the impact of physical context on visual narrative, individual and collaborative approaches to art making, and the role of patronage, apprenticeship and mentorship. Primary references are Dante's *Inferno*, Renaissance perspectival painting, and 20th century Italian Neo-Realism. Each topic is approached from the point of view of performance, photography/cinematography, design, and editing. The course will be of value not only to Cinema Art + Science students but also to actors, photographers, set and fashion designers, and those interested in art history and art criticism.

**Repeatable:** *N*

**Formerly** 24-2001

**GA**

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

## **CINE 216 Image Design for Cinema**

In this course students will examine the design of images and their critical role in how filmmakers communicate story. Through lectures, practical assignments and critique, students refine their ability to use visual components to see, conceive and communicate most effectively. This course bridges the gap between theory and practice and highlights the relationship between story structure and visual structure.

**Repeatable:** *N*

**Formerly** 24-2201

**Prerequisites** CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or MEDI 101

Cinematic Storytelling and MEDI 102 Cinema and Television Production

**Minimum Credits 3 Maximum Credits 3**

### **CINE 235A Authorship:**

Screening/discussion course is an intensive study of a single director (or directors) as auteur. The featured director(s) changes each semester. Class examines recurring themes, stylistic innovations, and differentiating interpretations of directors' films. Course may be repeated as featured directors change.

**Repeatable: Y**

**Formerly CINE 235**

**Minimum Credits 3 Maximum Credits 3**

### **CINE 235B Authorship:**

Screening/discussion course is an intensive study of a single director (or directors) as auteur. The featured director(s) changes each semester. Class examines recurring themes, stylistic innovations, and differentiating interpretations of directors' films. Course may be repeated as featured directors change.

**Repeatable: Y**

**Minimum Credits 3 Maximum Credits 3**

### **CINE 235C Authorship:**

Screening/discussion course is an intensive study of a single director (or directors) as auteur. The featured director(s) changes each semester. Class examines recurring themes, stylistic innovations, and differentiating interpretations of directors' films. Course may be repeated as featured directors change.

**Repeatable: Y**

**Minimum Credits 3 Maximum Credits 3**

### **CINE 235D Authorship:**

Screening/discussion course is an intensive study of a single director (or directors) as auteur. The featured director(s) changes each semester. Class examines recurring themes, stylistic innovations, and differentiating interpretations of directors' films. Course may be repeated as featured directors change.

**Repeatable: Y**

**Minimum Credits 3 Maximum Credits 3**

### **CINE 235E Authorship:**

Screening/discussion course is an intensive study of a single director (or directors) as auteur. The featured director(s) changes each semester. Class examines recurring themes, stylistic innovations, and differentiating interpretations of directors' films. Course may be repeated as featured directors change.

**Repeatable: Y**

**Minimum Credits 3 Maximum Credits 3**

### **CINE 235F Authorship:**

Screening/discussion course is an intensive study of a single director (or directors) as auteur. The featured director(s) changes each semester. Class examines recurring themes, stylistic innovations, and differentiating interpretations of directors' films. Course may be repeated as featured directors change.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

## **CINE 245 Screenwriting II: The Feature Film**

Course teaches students to produce longer and more complex screenplays; facilitates a deeper understanding of the screenwriting process; and enables students to develop character, story, and linear structure. Students master systematic work habits in order to fully develop the screenplay, from initial idea to completed script. Course also provides students with the opportunity for consistent critique of their screenwriting.

**Repeatable:** N

**Formerly** 24-2710

**Prerequisites** CINE 145 Screenwriting I: Writing the Short Film or TELE 212 Television Arts: Writing

**Minimum Credits 3 Maximum Credits 3**

## **CINE 275 Experimental Production I**

Project-centered course engages students in non-narrative, alternative aspects of video and digital production. Students develop an aesthetic that explores, challenges, extends, or subverts mainstream narrative or documentary structures. Topics include camera experimentation and image manipulation; development of personal, political, or social themes; and distribution and marketing of experimental work.

**Repeatable:** N

**Formerly** 24-2901

**Prerequisites** CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production

**Minimum Credits 3 Maximum Credits 3**

## **CINE 329 Scene Study with Camera: A Directing Workshop**

Course focuses on narrative scene work that is written by the director. Two scenes are developed, cast, rehearsed, shot on location and edited. Collaboration with a cinematographer remains a focus. Critical evaluation during each stage in the process emphasizes identifying the opportunities to revise and improve the material as the director realizes the dramatic potential of a scene and continues to develop a personal style.

**Repeatable:** Y

**Formerly** 24-3305

**Prerequisites** CINE 325 Cinema Directing II

**Minimum Credits 6 Maximum Credits 6**

## **CINE 364 The Assistant Director's Workshop**

Course teaches assistant directors how to run a set by assembling all of the elements needed for filming and for the daily operation of the shooting set. Through lecture, exercises, and on-set experience, this course explores an assistant director's objective of providing the director with everything needed to put the director's vision on film. Their duties are supervisory, organizational, administrative - and multifarious. Working within

the structure that is governed by budgets, union and guild contracts, industry custom, and so on, they make schedules, attend to the cast, direct extras, oversee the crew as each shot is prepared, create detailed reports of each day's events, and are looked to by cast and crew to solve many problems that arise in student productions.

**Repeatable:** N

**Formerly** 24-3624

**Prerequisites** CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production

**Minimum Credits 3 Maximum Credits 3**

### **CINE 383A Advanced Topics in Cinema Directing**

This is an advanced topics course in the area of Cinema Directing. Topics will vary.

**Repeatable:** Y

**Formerly** CINE 383

**Minimum Credits 1 Maximum Credits 4**

### **CINE 383B Advanced Topics in Cinema Directing**

This is an advanced topics course in the area of Cinema Directing. Topics will vary.

**Repeatable:** Y

**Minimum Credits 1 Maximum Credits 4**

### **CINE 383C Advanced Topics in Cinema Directing**

This is an advanced topics course in the area of Cinema Directing. Topics will vary.

**Repeatable:** Y

**Minimum Credits 1 Maximum Credits 4**

### **CINE 383D Advanced Topics in Cinema Directing**

This is an advanced topics course in the area of Cinema Directing. Topics will vary.

**Repeatable:** Y

**Minimum Credits 1 Maximum Credits 4**

### **CINE 383E Advanced Topics in Cinema Directing**

This is an advanced topics course in the area of Cinema Directing. Topics will vary.

**Repeatable:** Y

**Minimum Credits 1 Maximum Credits 4**

### **CINE 416 Advanced First Assistant Director**

Course would focus on applied advanced first assistant director skills, including short and feature film scheduling, calling roll on-set, collaborating with the director and other key crew during production, working

in both union and non-union settings, and wrangling associated production documentation.

**Repeatable:** Y

**Formerly** 24-4615

**Prerequisites** CINE 364 The Assistant Director's Workshop

**Minimum Credits** 3 **Maximum Credits** 3

### **CINE 425 Cinema Directing III**

Course covers directing original material, from script breakdown and pre-visualization through location production and picture cut, culminating in a short narrative cinematic story. Using HD video format, instruction elaborates on collaborative skills needed to work with a cinematographer, production designer, editor, and other department heads. Students apply for admittance by submitting a very short, dramatically effective screenplay that is ready for pre-production.

**Repeatable:** N

**Formerly** 24-3303

**Prerequisites** CINE 325 Cinema Directing II

**Requirements** Permission Required (DP)

**Minimum Credits** 6 **Maximum Credits** 6

### **CINE 475 Experimental Production II**

Project-centered course stimulates and assists students in the creation of an alternative film, video, or digital work. Students will employ an aesthetic that explores, challenges, or subverts mainstream narrative or documentary structures. The class builds on topics from Experimental Production I, including camera experimentation and image manipulation as well as the development of personal, political, or social themes. Festivals, distribution, and marketing of experimental film and video will also be emphasized. The class will produce a show at the end of the semester.

**Repeatable:** Y

**Formerly** 24-4902

**Prerequisites** CINE 275 Experimental Production I

**Minimum Credits** 3 **Maximum Credits** 3

## **Editing and Post-Production**

This concentration prepares students for careers in editing for picture, sound and other related post-production specializations of cinematic storytelling. As a result of successfully completing program requirements, students should be able to:

- demonstrate advanced cinema editing skills, concepts and practices in the editing and finishing of an original short film or television story;
- demonstrate the ability to apply dramatic structure with materials provided including the effective arrangement of time, dramatic arc, dialogue, and character development within the work;
- identify and articulate effective critical analysis and critique;
- write a statement of intention for a project that reflects a personal point of view, and apply that statement to their work;
- demonstrate the ability to control rhythm, emotional content, transitions of sound and picture, and other editing techniques to facilitate audience response;
- demonstrate the ability to receive and incorporate critical analysis;

- demonstrate the ability to incorporate sound elements such as dialogue, sound effects, voice over, and music, throughout the post-production process;
  - demonstrate the ability to collaborate with directors, producers, and post-production personnel to facilitate, implement and integrate the director's vision for the film or television story, through all phases of production, from development to completion;
  - demonstrate and apply technical proficiency within the responsibilities of an editor, assistant editor and post-production professional on a cinematic work; and
  - demonstrate proficiency in one or more of the following areas: sound design and mixing; motion graphics; compositing and vfx; on set data wrangling and workflow; color correction and online.
- Required for the Concentration:**

## **CINE 130 Editing I**

Course helps students develop the basic non-linear editing skills needed to tell stories effectively through screenings, practical hands-on assignments, using NLE editing software, readings, and lectures. Organizational skills needed to handle NLE offline digital video and audio materials are covered. Editing exercises consist of various editing genres, using scenes from longer works. Students receive ongoing critiques of their work to determine their proficiency of craft and creativity.

**Repeatable:** *N*

**Formerly** 24-1401

**Concurrent Requisite** CINE 131 Editing I Studio

**Minimum Credits 3 Maximum Credits 3**

## **CINE 131 Editing I Studio**

This course is required concurrently with Editing I. Students develop basic skill in the use of a digital editing platform in completing the Editing I course exercises, as well as investigating current technical developments and digital workflow concepts. Content is presented through demonstrations, tutorials and hands-on practice using visual and audio media. Students receive ongoing critique, quizzes and one-to-one problem solving to determine their proficiency and advancement in the use of the platform.

**Repeatable:** *N*

**Formerly** 24-1401B

**Concurrent Requisite** CINE 130 Editing I

**Minimum Credits 1 Maximum Credits 1**

## **CINE 211 Post-Production Audio I**

Entry-level Sound for Cinema course offers instruction and exploration into the methodology and skills training of sound design and mixing for cinema. Course includes an introduction to the Digital Audio Workstation for sound editing, enhancement and manipulation, and re-recording mixing of the various categories of cinema sound. Students work on a variety of cinema sound projects that mirror professional practice and foster development of the necessary skills to proceed through the Sound for Cinema pathway.

**Repeatable:** *N*

**Formerly** 24-2101

**Prerequisites** CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production or JOUR 351 Multimedia Photo Essay

**Minimum Credits 4 Maximum Credits 4**

## **CINE 230 Editing II**

Hands-on course helps students continue to develop the necessary skills to become professional editors. Editing projects are increasingly more complex, concluding with finishing a short film. Communicating and collaborating with a director is emphasized. Students use professional state-of-the-art non-linear digital editing equipment and receive ongoing critiques of their work to determine their proficiency of craft and creativity. Understanding NLE workflow from capturing footage through exporting the final project is emphasized.

**Repeatable:** N

**Formerly** 24-2402

**Prerequisites** CINE 130 Editing I and CINE 131 Editing I Lab

**Concurrent Requisite** CINE 231 Editing II Studio

**Minimum Credits 3 Maximum Credits 3**

## **CINE 231 Editing II Studio**

This course must be taken concurrently with Editing II. Students develop advanced editing skills using a state-of-the-art digital editing platform. Skill development includes: editing techniques, sound design, color correction, simple compositing, and exporting to successfully complete the Editing II course projects. Content is presented through demonstrations, tutorials and hands-on practice. Ongoing critique and one-on-one problem solving are offered to determine proficiency and advancement in use of the platform.

**Repeatable:** N

**Formerly** 24-2402B

**Prerequisites** CINE 130 Editing I

**Concurrent Requisite** CINE 230 Editing II

**Minimum Credits 1 Maximum Credits 1**

*Complete 3 credits from the following courses:*

## **CINE 181A Studies in Editing**

This repeatable course consists of rotating subjects of interest to the developing editor or filmmakers who wants to explore particular aspects of editing and postproduction in depth. Classes include lectures, film clips, written papers and/or exercises. Students choose to register for the subjects that best address their interests and needs.

**Repeatable:** Y

**Formerly** CINE 181

**Minimum Credits 1 Maximum Credits 1**

## **CINE 181B Studies in Editing**

This repeatable course consists of rotating subjects of interest to the developing editor or filmmakers who wants to explore particular aspects of editing and postproduction in depth. Classes include lectures, film clips, written papers and/or exercises. Students choose to register for the subjects that best address their interests and needs.

**Repeatable:** Y

**Minimum Credits 1 Maximum Credits 1**

## **CINE 181C Studies in Editing**

This repeatable course consists of rotating subjects of interest to the developing editor or filmmakers who wants to explore particular aspects of editing and postproduction in depth. Classes include lectures, film clips, written papers and/or exercises. Students choose to register for the subjects that best address their interests and needs.

**Repeatable:** Y

**Minimum Credits 1 Maximum Credits 1**

## **CINE 181D Studies in Editing**

This repeatable course consists of rotating subjects of interest to the developing editor or filmmakers who wants to explore particular aspects of editing and postproduction in depth. Classes include lectures, film clips, written papers and/or exercises. Students choose to register for the subjects that best address their interests and needs.

**Repeatable:** Y

**Minimum Credits 1 Maximum Credits 1**

## **CINE 181E Studies in Editing**

This repeatable course consists of rotating subjects of interest to the developing editor or filmmakers who wants to explore particular aspects of editing and postproduction in depth. Classes include lectures, film clips, written papers and/or exercises. Students choose to register for the subjects that best address their interests and needs.

**Repeatable:** Y

**Minimum Credits 1 Maximum Credits 1**

## **CINE 332 Editing the Short Form**

Students edit commercials, trailers, music videos and other promotional short form content under tight deadlines while learning skills relevant to editing spots in a professional environment.

**Repeatable:** N

**Formerly** 24-3404

**Prerequisites** CINE 230 Editing II

**Minimum Credits 3 Maximum Credits 3**

## **CINE 334 Experimental Editing**

Through a series of exercises, course teaches alternative editing strategies for both narrative and non-narrative work. Students cut three short projects based on each covered experimental tradition and then a longer final project. Projects develop with increasing complexity and enable students to apply their ideas about experimental film to their material to develop their own style and aesthetic. Students receive critiques of their work after each project to determine the progress of their proficiency of craft and creativity.

**Repeatable:** N

**Formerly** 24-3429

**Prerequisites** CINE 130 Editing I  
**Minimum Credits 3 Maximum Credits 3**

### **CINE 335 Editing the Documentary**

This course provides documentary editing experience and creative collaborations on original work developed by students in the documentary production classes. Pre-production planning, on set workflow issues and handling large amounts of media in the edit room are discussed from the post-production perspective. Students will add original creative work for their editing reels from the projects completed in this class.

**Repeatable:** Y

**Formerly** CINE 228

**Prerequisites** CINE 130 Editing I or CINE 265 Documentary Production I or CINE 267 Documentary Production Module I: Location Camera and Sound or TELE 230 Production and Editing I

**Minimum Credits 4 Maximum Credits 4**

### **CINE 410 Advanced Editing Seminar**

This intensive course provides an opportunity for editing students to collaborate on original creative work by advanced direction, thesis and independent projects, in a seminar environment. Deadlines are strictly enforced as editors collaborate with students in other areas of expertise in creating a short digital narrative project. Students also develop an extensive written career plan to showcase their creative work and important portfolio materials such as website, editing samples, resume, cover letters, and business cards.

**Repeatable:** Y

**Formerly** 24-4406

**Prerequisites** CINE 230 Editing II

**Requirements** Permission Required (DP)

**Minimum Credits 4 Maximum Credits 4**

*Complete 3 credits from the following courses:*

### **ANIM 161 CVFX Foundations**

This course introduces students to core methodologies and practices for creating, constructing and producing key visual effects sequences for live-action cinema. Students will learn a cross-section of visual effect approaches developing their knowledge and practical application of these technologies in supporting live-action cinema. This survey primer on core methodologies allows students to organize, plan and execute required cinema visual effects developing interpersonal and practical skill sets.

**Repeatable:** N

**Formerly** 24-1600

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 263 CVFX: Compositing I**

Lectures and demonstrations, with supporting materials, along with weekly exercises to reinforce the ideas and principles put forth in these presentations, will guide students toward a solid fundamental understanding of the visual effects postproduction process via the compositing workflow. Students will be given the opportunity to show what they have learned by executing a basic final project at the end of the semester, with a subsequent critique by the class and individually with the instructor.

**Repeatable:** N  
**Formerly** 24-2209  
**Minimum Credits 3 Maximum Credits 3**

### **ANIM 270 Motion Graphics I**

Course teaches techniques to digitally integrate software and composite layers of images. Discussions of digital and optical effects from conception to design encourage students to make creative use of software.

**Repeatable:** N  
**Formerly** 24-1420

**Prerequisites** INMD 120 Digital Image Design or GRDE 136 Design Lab or TELE 230 Production & Editing I or PHOT 202 Photographic Practice III or PHOT 206 Digital Imaging I or CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process  
**Minimum Credits 3 Maximum Credits 3**

### **ANIM 361 CVFX: Studio**

In this workshop, students will serve as visual effects artists or supervisors on one or more significant short films, in collaboration with students from other disciplines. Emphasis is on the realization of visual elements used in the films, as well as the artistic relationship between the visual effects supervisor, director, and visual effects artists. Students will take on specific roles in visual effects post-production, including compositing, 3D modeling, animation, cinema title design, and VFX supervisor. Each student will be assigned to their role based on prerequisites and a portfolio review.

**Repeatable:** Y  
**Formerly** 24-3020

**Prerequisites** ANIM 363 CVFX: Compositing II or ANIM 365 Computer Animation: Visual Effects or ANIM 350 Computer Animation: Keyframing II or ANIM 353 Motion Capture II or ANIM 370 Motion Graphics II or ANIM 351 Environmental Design & Modeling or ANIM 352 Character Design and Modeling  
**Requirements** Permission Required (DP)  
**Minimum Credits 3 Maximum Credits 3**

### **CINE 223 Cinema Color I**

Students acquire a working knowledge of the aesthetics and technical aspects of the color correction process. Content addresses theory and application of color correction, image control and manipulation techniques. Principles and history of color theory and the tools available to filmmakers are explored through lecture, interactive computer exercises, and hands-on work with current professional color correction software.

**Repeatable:** N  
**Formerly** 24-2208

**Prerequisites** CINE 130 Editing I or CINE 216 Image Design for Cinema  
**Minimum Credits 3 Maximum Credits 3**

### **CINE 226 Digital Workflow**

This repeatable course consists of rotating subjects supporting the creative workflow of digital cinema. This course would be of interest to developing editors, cinematographers, post-production supervisors, VFX supervisors or anyone else seeking fluency in the contemporary digital landscape. Classes may include

lectures, demonstrations, site visits and/or practice.

**Repeatable:** Y

**Formerly** 24-2404

**Prerequisites** CINE 130 Editing I

**Minimum Credits 1 Maximum Credits 1**

## **CINE 227 Advanced Post-Production Tools**

This repeatable course consists of rotating subjects which support students to advance and deepen their skills in the tools used in editing and post-production workflows. Students will learn through lectures, demonstrations and exercises as they deepen and apply their skills in editing and post-production.

**Repeatable:** Y

**Formerly** 24-2406

**Prerequisites** CINE 130 Editing I

**Minimum Credits 3 Maximum Credits 3**

## **CINE 229 The Assistant Editor**

This course examines the role of the feature film assistant editor past, present and future, with a focus on providing hands-on experience using traditional and current skills associated with this position. In addition to exploring the responsibilities associated with the preparation and organization of digital elements students will conform a short film from a digital edit as a basis of understanding the evolution of current post-production processes

**Repeatable:** N

**Formerly** 24-2425

**Prerequisites** CINE 130 Editing I

**Minimum Credits 3 Maximum Credits 3**

## **CINE 232 Post-Production Supervisor**

Course is designed for the advanced editing student who is working as a post-production producer. Content emphasizes pre-production decisions necessary for post-production: scheduling, budgeting, hiring personnel and allocating facilities and equipment. Class explores various national and international distribution requirements. Students learn strategies for communicating with third-party vendors including sound, labs, and post-production houses. Course uses a feature length film as model.

**Repeatable:** N

**Formerly** 24-2427

**Prerequisites** CINE 130 Editing I and CINE 131 Editing I Studio

**Minimum Credits 3 Maximum Credits 3**

## **CINE 311 Post-Production Audio II**

Course explores the post-production techniques used in creating effective audio for cinema. Students develop aesthetic judgment by analyzing a variety of soundtracks and develop technical skills, including track building, ADR, Foley, and mixing, by employing these techniques in the design and creation of their own soundtracks.

**Repeatable:** N

**Formerly** 24-2102

**Prerequisites** AUDI 324 Audio for Visual Media I or CINE 211 Post-Production Audio I

**Minimum Credits 4 Maximum Credits 4**

## **CINE 414 Digital Cinema Mastering**

Course provides an advanced editing experience in three areas: developing skills necessary to manipulate large amounts of cinema source material; acquiring the means to apply those skills while working with clients; and using nonlinear editing and color correction equipment to complete assigned online editing and cinema mastering projects. Students also learn organizational skills necessary to edit projects and gain advanced knowledge of post-production protocols in offline editing and the generation of EDLs and KeyKode cutlists, video online editing and digital cinema mastering. Students work on advanced cinema and high definition projects on industry leading nonlinear editing and color correction software. Digital Intermediates and Digital Cinema Packages will also be covered. Students receive critiques of their work after each project to determine the development of their proficiency of craft and creativity. Course culminates in the finishing of a cinema project from an off-line creative edit to a digital cinema master.

**Repeatable:** Y

**Formerly** 24-4428

**Prerequisites** CINE 230 Editing II

**Minimum Credits 4 Maximum Credits 4**

*Complete 16 credits from the following courses:*

## **ANIM 180 Studies In:**

Rotating CVFX Topic course dedicated to specific areas of study within the cinema visual effects discipline.

**Repeatable:** Y

**Formerly** 24-1025

**Minimum Credits 1 Maximum Credits 1**

## **ANIM 363 CVFX: Compositing II**

This course teaches students the various analogue and digital techniques of compositing film elements of diverse origin, from film, electronic imaging systems, and computer-generated images, through lecture, demonstration, and hands-on practice.

**Repeatable:** N

**Formerly** 24-3209

**Prerequisites** ANIM 263 CVFX: Compositing I or ANIM 370 Motion Graphics II

**Minimum Credits 3 Maximum Credits 3**

## **ANIM 370 Motion Graphics II**

Course teaches complex film and video compositing under tight deadlines using advanced high-end systems. Course emphasizes storyboarding and design as well as postproduction house protocols.

**Repeatable:** N

**Formerly** 24-2421

**Prerequisites** ANIM 270 Motion Graphics I or CINE 310 Cinema Models and Miniatures

**Minimum Credits 3 Maximum Credits 3**

## **ANIM 470 Motion Graphics III**

Students in this course complete a series of projects modeled upon current professional practices while refining design and research skills. Student projects include a team-based client work, an independent textual interpretation or research-inspired animation, and additional short animations. The team-based projects will include interaction with the client/s. Research, ideation, prototyping, production and evaluation will be a collective and collaborative process. Students develop a portfolio-based web site that includes video samples, a personal statement and resume.

**Repeatable:** Y

**Formerly** 24-4422

**Prerequisites** ANIM 370 Motion Graphics II or ANIM 240 Computer Animation

**Minimum Credits** 3 **Maximum Credits** 3

## **CINE 135 Photoshop Workshop for Editors**

Intensive two-day seminar course in Photoshop assists editing students in video finishing. Photoshop can be used as a tool for graphics production for film and video. Students will learn titling, alpha channels, mattes, etc.

**Repeatable:** N

**Formerly** 24-1426

**Minimum Credits** 1 **Maximum Credits** 1

## **CINE 214 Music for Cinema**

Students are introduced to the language of cinema and how composers and music supervisors serve the needs of the frame while exploring the functions of the score and music licensing. Textural conceptualization and technology expanding emotional resonance are examined. Understanding the vocabulary of music, contemporary targeting issues impacting tone, voicing, spotting and the business of synchronization to picture are a vital component. Students develop musical application skills using analysis and creative projects to foster and enhance their understanding.

**Repeatable:** N

**Formerly** 24-2104

**Prerequisites** CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production

**Minimum Credits** 3 **Maximum Credits** 3

## **CINE 224 Color Correction for Editors**

Course is designed for any Cinema or Television student with specific value for the editor. Students acquire a working knowledge of aesthetics and the technical aspects of color correction as it applies to the editing environment. Course involves lecture and practical experience. Students may bring an existing project to work with during the workshop part of the class, or exercises will be provided for them.

**Repeatable:** N

**Formerly** 24-2206J

**Prerequisites** CINE 230 Editing II

**Minimum Credits** 2 **Maximum Credits** 2

## **CINE 318 The Art and Craft of Foley**

This workshop course offers hands-on projects designed to prepare students to cue, perform, and edit Foley tracks as needed for cinema, animation, television, and games. Small class projects will include studio time for performing footsteps, props, and cloth for Foley. Final projects will require the cueing, shooting, and editing of Foley on student projects.

**Repeatable:** Y

**Formerly** 24-2106

**Prerequisites** CINE 311 Post-Production Audio II

**Minimum Credits 2 Maximum Credits 2**

### **CINE 319 The Art and Craft of Automated Dialogue Replacement**

This workshop course offers hands-on projects designed to prepare students to cue, perform, and edit Automated Dialogue Replacement tracks as needed for cinema, animation, television, and games. Small class projects will include studio time for recording principal performers and group ADR. Final projects will require the cueing, shooting, and editing of ADR on student projects.

**Repeatable:** Y

**Formerly** 24-2107

**Prerequisites** CINE 311 Post-Production Audio II

**Minimum Credits 2 Maximum Credits 2**

### **CINE 323 Cinema Color II**

This course expands upon concepts taught in Cinema Color I by providing students with training in the theory and techniques of digital transfer and digital intermediates. Students apply their knowledge of the technical aspects and aesthetics of the celluloid-based film transfers and digital manipulation. Principles of color theory and the tools available to filmmakers engaged in the process of electronic media and image manipulation are explored through lecture and interactive computer exercises.

**Repeatable:** N

**Formerly** 24-3208

**Prerequisites** CINE 223 Cinema Color I

**Minimum Credits 3 Maximum Credits 3**

### **CINE 327 Digital Imaging Technician and On-Set Post-Production**

This an intermediate-to-advanced, highly technical course in the use of on-set data management. Students will learn the responsibilities of a Digital Imaging Technician (DIT) and will gain experience working on-set for advanced productions. As a member of the Camera Department, students will practice the critical role of interfacing between the production and post teams. A basic understanding of advanced camera systems, data management or color grading is required.

**Repeatable:** Y

**Formerly** 24-3211

**Prerequisites** CINE 230 Editing II or CINE 315 Cinematography: Camera Seminar II

**Minimum Credits 3 Maximum Credits 3**

### **CINE 411 Post-Production Audio III**

Advanced level Sound for Cinema course designed to further student's insight and experience into the art of preparing, mixing and re-recording sound tracks for cinema. Students work in collaborative environment to

complete class projects that mirror professional industry cinema sound practice. Skills training and learning outcomes offered in this class represent the capstone in the Sound for Cinema pathway.

**Repeatable:** Y

**Formerly** 24-3122

**Prerequisites** CINE 311 Post-Production Audio II

**Minimum Credits 4 Maximum Credits 4**

### **CINE 415 Sound Mixing for Cinema**

Sound Mixing For Cinema explores the advanced processes used to create effective state-of-the-art cinema sound mixes. In this intensive, hands-on studio course, students will study the latest trends in soundtrack aesthetics & rerecording technology and employ these techniques in mixing soundtracks for a variety of cinema genres & media.

**Repeatable:** N

**Formerly** 24-3126

**Prerequisites** CINE 311 Post-Production Audio II

**Minimum Credits 4 Maximum Credits 4**

### **COLL 210 Internship**

This course allows students to take a valuable internship experience in their desired industry for academic credit. Each position is vetted and approved by Career Center to ensure that it is an educational opportunity that will fulfill the learning objectives of the course. Participating in an internship allows the student to gain hands-on experience and explore career interests while applying knowledge and skills learned in the classroom to a work setting. The experience also helps students gain a clearer sense of what they still need to learn and provides an opportunity to build professional networks. Students are responsible for securing their own internships and having them approved prior to registering for this course. Please contact the Career Center for assistance and resources.

**Repeatable:** Y

**Formerly** 99-2100

**Requirements** Permission Required (DP)

**Minimum Credits 1 Maximum Credits 1**

### **COLL 230 Internship: Professionalism and Creativity**

This course allows students to take a valuable internship experience in their desired industry for academic credit. Each position is vetted and approved by Career Center to ensure that it is an educational opportunity that will fulfill the learning objectives of the course. Participating in an internship allows students to gain hands-on experience and explore career interests while applying knowledge and skills learned in the classroom to a work setting. The online, academic component of this internship fosters student understanding of how organizations operate and provides for structured reflection on their experiences and assessment of their knowledge and skills. Students are responsible for securing their own internships and should contact Career Center for assistance and resources to identify and apply for opportunities of interest.

**Repeatable:** Y

**Formerly** 99-2300

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

## Producing

The curriculum balances creativity with business acumen and production management skills. The learning culminates in a thesis consisting of a finished short film, a slate of feature films ready for the marketplace. As a result of successfully completing program requirements, students should be able to:

- research and write project-based investment proposals;
- write story notes, script coverage and edit notes at an industry entry-level. Define the key differences between a Creative Producer and a Line Producer/UPM;
- use industry-standard software to create professional production budgets and schedules;
- create producer-driven paperwork and documentation such as Call Sheets and Production Reports;
- manage a crew in all phases of film and television production from development through to exhibition;
- negotiate and execute deal memos relating to cast and crew, and define the role of unions and representation in these processes;
- articulate and pitch projects;
- research, make offers and secure the involvement of principle actors for film and television projects;
- develop short and feature-length projects in collaboration with a creative partner, as well as secure the legal rights;
- articulate trends in distribution and customary acquisition (deal) terms; and
- create a project-based plan including key art, festival and distribution strategies, cast and crew bio's, press and promotions.

**Required for the Concentration:**

### **CINE 248 Producing I: Production Team**

Course explores the production team and the role of the line producer, unit production manager, production manager, and assistant directors in managing the physical production process of producing a film. This process will include budgeting and scheduling, and managing cast, crew and vendor relationships. Additional team members are examined, including the roles of the casting director, location manager, production coordinator, and script supervisor. The post-production supervisor position is discussed including post-production scheduling, budgeting, and meeting delivery requirements for distribution and film festivals.

**Repeatable:** *N*

**Formerly** 24-2600

**Prerequisites** MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production or CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process

**Minimum Credits** 3 **Maximum Credits** 3

### **CINE 261 Intro to Producing the Commercial**

Course provides an introduction to the role of a commercial producer focusing on the advertising industry, the agencies, the creatives, bidding, as well as the physical/ logistical elements of producing commercials including scheduling, budgeting, crewing up, casting, working with vendors, for stage and location shooting. Course will cover a wide range of short-form content including commercials, corporate videos, to new media content.

**Repeatable:** *N*

**Formerly** 24-3615

**Prerequisites** CINE 248 Producing I: Production Team or TELE 210 The Television Producer  
**Minimum Credits 3 Maximum Credits 3**

### **CINE 348 Producing II: Legal and Financial Options**

Taking a pragmatic view of the evolving film industry, course examines the basic process of financing film and video projects including research and analysis and associated procedures to procure production financing. Course also explores the bundle of rights associated with filmmaking including the role of the chain of title and the protocol of negotiating corresponding multi-platform distribution deals. A thorough examination of cast and crew dealmaking, contracts relating to locations, vendors, and other production affiliates is discussed.

**Repeatable:** N

**Formerly** 24-3607

**Prerequisites** CINE 248 Producing I: Production Team  
**Minimum Credits 3 Maximum Credits 3**

### **CINE 349 Producing III: The Creative Producer**

Course examines the role and functions of the creative producer throughout the life cycle of a film. The creative producer is the person who acquires intellectual property, develops it, packages it, finds financing, and hires and supervise the entirety of the cast and crew from pre-production through distribution. Course will balance classroom lectures with practical exercises in advanced filmmaking.

**Repeatable:** N

**Formerly** 24-3609

**Prerequisites** CINE 248 Producing I: Production Team  
**Minimum Credits 3 Maximum Credits 3**

### **CINE 368 The Line Producer Workshop**

This course provides the Line Producing student with the unique opportunity to produce an advanced student short film. This course teaches Line Producers how to produce a short film by assembling all of the preparation elements needed for filming and then for the day-to-day operation of the shooting set/principal photography. The course explores a Line Producer's objective of maintaining financial responsibility while providing the production and Creative Producer with everything needed to put the Director's vision on film. Their duties are supervisory, organizational, administrative and multifarious. The Line Producing student will be working within the structure that is governed by budgets, union and schedules, attend to cast, contract with vendors, hire crew, create detailed reports of each day's events and are looked to by cast and crew to problem solve on a moment to moment notice before and during production.

**Repeatable:** Y

**Formerly** 24-3635

**Prerequisites** CINE 248 Producing I: Production Team  
**Minimum Credits 6 Maximum Credits 6**

### **CINE 424 Strategic Distribution for Filmmakers**

This course focuses on the practical step-by-step process of creating and implementing strategies to launch short-form content into current distribution and festival venues. Having a good film is not enough; a producer must identify specific elements in the film across a myriad of different and evolving technology and trend-driven platforms, as well as be able to effectively secure distribution.

**Repeatable:** N

**Formerly** 24-4660

**Prerequisites** CINE 248 Producing I: Production Team or CINE 225 Cinema Directing I

**Minimum Credits** 3 **Maximum Credits** 3

*Complete 18 credits from the following courses:*

### **CINE 249 Introduction to Script Supervising**

Course focuses on the role of the script supervisor, a film profession responsible for maintaining script continuity, working with the director to ensure that scenes are completely covered, and preparing daily notes for the editor and post-supervisor. Course will also cover the script supervisor as a critical crew position and will enhance students' understanding of the multitude of details that must be addressed in production and the resulting impact on post-production through the creation and dissemination of associated on-set documentation and the management of continuity protocol.

**Repeatable:** Y

**Formerly** 24-2600J

**Minimum Credits** 2 **Maximum Credits** 2

### **CINE 345 Advanced Casting Director**

Course will focus on the casting director's role as a facilitator of (and creative collaborator) in casting for filmed entertainment. This instruction will entail the full range of affairs between casting director and director during the auditioning phase and a comprehensive look at hiring actors, contract negotiations, actor representation, and the Screen Actors Guild.

**Repeatable:** Y

**Formerly** 24-3601

**Prerequisites** CINE 104 Fundamentals of Casting

**Minimum Credits** 3 **Maximum Credits** 3

### **CINE 364 The Assistant Director's Workshop**

Course teaches assistant directors how to run a set by assembling all of the elements needed for filming and for the daily operation of the shooting set. Through lecture, exercises, and on-set experience, this course explores an assistant director's objective of providing the director with everything needed to put the director's vision on film. Their duties are supervisory, organizational, administrative - and multifarious. Working within the structure that is governed by budgets, union and guild contracts, industry custom, and so on, they make schedules, attend to the cast, direct extras, oversee the crew as each shot is prepared, create detailed reports of each day's events, and are looked to by cast and crew to solve many problems that arise in student productions.

**Repeatable:** N

**Formerly** 24-3624

**Prerequisites** CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production

**Minimum Credits** 3 **Maximum Credits** 3

### **CINE 369 Producing the Commercial**

Course introduces the role of the producer in development, production, postproduction, and delivery of commercials. Instruction emphasizes standard practices in production company operations. Students learn how to read storyboards and scripts and understand strategic marketing plans through practical applications. Students will bid, schedule, and execute a commercial production.

**Repeatable:** *N*

**Formerly** 24-3637

**Prerequisites** CINE 261 Intro to Producing the Commercial

**Minimum Credits** 3 **Maximum Credits** 3

### **CINE 376 Script Rewrite and Polish**

Advanced collaborative workshop course asks students to focus on the subtleties associated with production rewriting from sculpting dialogue, polishing characters to defining the role of theme in the short film arena. Juxtaposed with these creative affairs, students will be introduced to business practices associated with doing rewrite work, including work for hire scenarios. Material for the class must be approved by instructors and Practicum faculty before being admitted into the class

**Repeatable:** *N*

**Formerly** 24-3701J

**Prerequisites** CINE 349 Producing III: The Creative Producer or CINE 245 Screenwriting II: The Feature Film

**Minimum Credits** 2 **Maximum Credits** 2

### **CINE 409 Pitching Hollywood: Los Angeles**

The most important part of any successful career is the ability to present ideas clearly. This course will examine how entertainment professionals pitch their stories, and provide students with tools to present their own creative work. Students will engage in repetitive pitching of various types and lengths before an audience.

**Repeatable:** *N*

**Requirements** Permission Required (DP)

**Minimum Credits** 3 **Maximum Credits** 3

### **CINE 416 Advanced First Assistant Director**

Course would focus on applied advanced first assistant director skills, including short and feature film scheduling, calling roll on-set, collaborating with the director and other key crew during production, working in both union and non-union settings, and wrangling associated production documentation.

**Repeatable:** *Y*

**Formerly** 24-4615

**Prerequisites** CINE 364 The Assistant Director's Workshop

**Minimum Credits** 3 **Maximum Credits** 3

### **Production Design**

The Production Design concentration offers students the opportunity to develop the creative and problem solving skills necessary for professional level design of sets, props, and special effects as well as the collaborative skills necessary to work with directors, cinematographers, and producers. As a result of successfully completing program requirements, students will be able to:

- formulate and conceive a visual concept to support the theme of the film or television story as interpreted by the director;
- demonstrate a body of working knowledge in the history of art-forms relevant to Production Design (e.g., Architecture, Fashion, Interior Design, Industrial Design);
- communicate a concept visually to collaborators through concept art and storyboards;
- communicate a concept visually through technical draftings done traditionally and with CAD;
- assemble and manage an art department, both creatively and logistically, from preproduction through production;
- develop and manage an art department budget;
- implement a design through the construction and/or acquisition of the set decoration, props, and costumes;
- implement a design through the construction and decoration of a set or modified location; and
- collaborate and communicate with directors, producers, and cinematographers in all phases of film and television production from development through production.

**Required for the Concentration:**

## **CINE 107 Production Design I**

Course provides an overview of production design for the visual media by exploring the history and theory of production design, as well as the application of art, design, and architecture to moving image storytelling. Students examine and critique case studies. Instruction covers the process of script analysis and breakdowns to budgeting for the art department. The roles and procedures of the art department will be introduced. Basics of architectural drafting and simple drawing will be covered. Students will be required to serve in the art department of an advanced film production.

**Repeatable:** *N*

**Formerly** 24-1015

**Minimum Credits 3 Maximum Credits 3**

## **CINE 110 History and Techniques of Production Design**

The men and women who have become Production Designers have arrived from many different backgrounds. Production Designers strive to create a visual language that encompasses and defines the world we see in film. What techniques have designers developed and how have they evolved since cinemas early beginnings in the silent era, through the studio system, and into the digital age? By exploring the evolution of the profession, as well as the evolution of film both in Hollywood and the wider world, this course will provide historical context for the Production Designer.

**Repeatable:** *N*

**Formerly** 24-1016

**Minimum Credits 3 Maximum Credits 3**

## **CINE 205 Cinema Props**

Course emphasizes the safety, construction, and planning skills necessary to design, estimate, and construct three dimensional specialty props, models and miniatures for cinema. Emphasis is on the collaborative skills of transforming images from a designer's sketches and concept art to working drawings and full three dimensional construction props. Techniques include carving, molding, casting, as well as scaling of paint and dress techniques for miniatures.

**Repeatable:** *N*

**Formerly** 24-2011

**Prerequisites** CINE 105 Production Design Fabrication Basics and CINE 107 Production Design I

**Minimum Credits** 3 **Maximum Credits** 3

## **CINE 208 Cinema Set Design and Construction**

This course introduces the planning and fabrication skills necessary to design, estimate, and safely construct motion picture sets. Students will learn the basics of hand-drawn drafting to create working drawings and cost estimating for budget creation. Students will collaborate on in-class projects, gaining hands-on experience in construction techniques, shop safety, and the uses of common construction materials as they relate to set construction.

**Repeatable:** Y

**Formerly** 24-2013

**Prerequisites** CINE 105 Production Design Fabrication Basics and CINE 107 Production Design I

**Minimum Credits** 4 **Maximum Credits** 4

## **CINE 209 Production Design Rendering Techniques**

Production Design for cinema requires precise visual communication between all departments. This course emphasizes the rendering and drafting techniques necessary to create useful and believable previsualization images of sets, props, keyframes, and storyboards. Focus will be on utilizing elements and principles of design to compose drawings based on observation, understanding and utilizing perspective, and applying shading techniques and lighting.

**Repeatable:** Y

**Formerly** 24-2014

**Prerequisites** ARTS 110 Drawing I and CINE 107 Production Design I

**Minimum Credits** 3 **Maximum Credits** 3

## **CINE 307 Production Design II**

Building on the concepts introduced in Production Design I, this course expands on the foundation of the student as designer with an emphasis on the development of the visual concept and collaboration with a director and cinematographer. New material includes the creative and technical aspects of the art department as they relate to physical production and location modification. Course covers the traditional skills of sketching, drafting, and concept art and explains how they are used to communicate a designer's vision to production crews. Students will be required to collaborate with peers on an advanced production.

**Repeatable:** N

**Formerly** 24-2010

**Prerequisites** CINE 107 Production Design I

**Minimum Credits** 3 **Maximum Credits** 3

## **CINE 365 Set Decoration**

Building on the concepts introduced in Production Design 1, course emphasizes the development and fulfillment of a film's visual theme through set decoration. Course will include the creative and practical aspects of the Art Department as they relate to Set Decorating.

**Repeatable:** N

**Formerly** 24-2012

**Prerequisites** CINE 107 Production Design I  
**Minimum Credits 3 Maximum Credits 3**

### **ILLU 203 Illustration: Concept Art I**

This course examines the sketching process, using research to solve problems and various types of media to create clear and effective visual presentations.

**Repeatable:** N

**Formerly** 21-2401

**Prerequisites** ANIM 105 Introduction to Traditional Animation or ARTS 105 Foundation Studio or ARTS 110 Drawing I or GAME 205 2D Art for Games or ILLU 101 Introduction to Illustration

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

*Complete 13 credits from the following courses:*

### **ARTS 110 Drawing I**

This course teaches students how to represent accurately and proportionately objects, planes, and volumes through line and tone by developing hand-to-eye coordination. Basics of form development, 1, 2 and 3 point perspective, composition, texture, and modeling through various shading techniques are explored in various exercises augmented by critiques, slide lectures, and discussions.

**Repeatable:** N

**Formerly** ARTS 210

**Minimum Credits 3 Maximum Credits 3**

### **CINE 113 Cinema Makeup and Makeup Special Effects**

The goal of this course is to give a broad overview of the responsibilities of the makeup artist on a film or television production and to show how makeup interacts with other departments. The class will also cover specific techniques and tools used in creating makeup looks for cinema, including historical period styles, aging, light special effects and gore. Students will learn how to create a budget, a character proposal, and to work with other members of a production team.

**Repeatable:** N

**Formerly** 24-1017

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 216 Image Design for Cinema**

In this course students will examine the design of images and their critical role in how filmmakers communicate story. Through lectures, practical assignments and critique, students refine their ability to use visual components to see, conceive and communicate most effectively. This course bridges the gap between theory and practice and highlights the relationship between story structure and visual structure.

**Repeatable:** N

**Formerly** 24-2201

**Prerequisites** CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or MEDI 101

Cinematic Storytelling and MEDI 102 Cinema and Television Production

**Minimum Credits 3 Maximum Credits 3**

### **CINE 310 Cinema Models and Miniatures**

Course emphasizes the design and technical ability needed to create miniatures and models for cinema. Film examples will be analyzed for scale, medium, and style. Students will be introduced to physical modeling and sculpting techniques, media, scale, and architectural terms and concepts. Beginning from sketches and draftings, students will design and build miniature objects, environments, and characters utilizing a variety of materials.

**Repeatable:** Y

**Formerly** 24-2015

**Prerequisites** CINE 107 Production Design I and CINE 208 Cinema Set Design and Construction or CINE 205 Cinema Props

**Minimum Credits 3 Maximum Credits 3**

### **CINE 466 Production Design: Special Effects**

This course introduces students to the design and execution of safe practical special effects for cinema. Students will develop and design effects taking advantage of camera, frame, object, and space manipulation. Students will combine techniques and technology such as forced perspective, mechanical movements, electric motors, actuators and electronics to create safe and effective illusions for the screen. Students will study professional effects and will collaborate on a final project to be captured on film or video.

**Repeatable:** N

**Formerly** 24-3006

**Prerequisites** CINE 208 Cinema Set Design and Construction or CINE 205 Cinema Props

**Minimum Credits 4 Maximum Credits 4**

### **ILLU 314 Digital Illustration I**

This course helps students begin to master digital painting, drawing, and image processing techniques to extend and augment their skills and techniques with traditional media and methods. Students work with the latest painting and drawing software that digitally mimics traditional tools such as watercolor, oil paint, airbrush, and charcoal. Students also explore methods such as brush effects, compositing, masking, and collage as a resource for initiating, developing, and refining illustration concepts.

**Repeatable:** N

**Formerly** 21-3403

**Prerequisites** ILLU 214 Illustration Studio I

**Minimum Credits 3 Maximum Credits 3**

### **THEA 135 Introduction to Basic Makeup**

This short course covers a brief introduction to the most common makeup applications known as the "no-makeup look" & "Corrective" techniques. Focus is geared towards skin care & appropriate color choices to match &/or enhance the student's skin tone & appearance. Introductory vocabulary & Designer/Performer communications; materials appreciation & acquisition; & painting/contouring skills will be covered through discussion, demonstrations, & hands-on experience. This course will introduce the performer, budding designer &/or hobbyist alike to feel comfortable utilizing these simplified techniques as needed. For more in-depth makeup techniques/designs, consider one of other course offerings.

**Repeatable:** *N*

**Formerly** 31-1605

**Minimum Credits 1 Maximum Credits 1**

## **THEA 335 Makeup Prosthetics/FX Design**

This repeatable course expands and builds upon previous Makeup, Prosthetics, and FX courses, teaching Theatre, Film, TV, and Avant Garde techniques for the creation, application and removal of prosthetics. Instruction covers the vocabulary, skills, techniques, and safety protocols required for the use of a variety of materials including Latex, Foam, and Silicone. Research, design, casting, sculpting, molding, and painting of prosthetics are incorporated into full makeup projects, both individual and collaborative. Makeup will be self-applied or applied to peers or models.

**Repeatable:** *Y*

**Formerly** 31-3605

**Prerequisites** THEA 133A Makeup Techniques: or THEA 235 Makeup Design or CINE 113 Cinema Makeup and Makeup Special Effects

**Minimum Credits 3 Maximum Credits 3**

## **Screenwriting**

The concentration offers students the opportunity to develop the understanding and skills to translate stories into both cinematic and emotional experiences for the audience. As a result of successfully completing program requirements, students should be able to:

- develop both short scripts and features. Write scripts for either themselves or others to direct;
- generate, develop, implement and revise story ideas into screenplay format;
- critique the work of their peers both orally and in writing and apply it to their own revision process;
- collaborate and communicate effectively;
- develop short and feature length projects in collaboration with a creative partner;
- negotiate and execute an option agreement including a writing services component to the agreement; and
- produce "Production Ready" scripts based on creative producer and instructor notes throughout the development process.

**Required for the Concentration:**

## **CINE 140 Script Analysis for Cinema**

This course provides students with an opportunity to learn more about various concentrations by examining the methods by which professionals approach, break down, or prepare a script for filming. Students analyze various drafts of scripts from several feature length and shorter films. Beginning with story analysis, class analyzes scripts in relationship to producing, directing, acting, production design, cinematography, editing, and sound design. Script strengths and weaknesses are discussed in relation to each of the production areas. Course material links with material from each of the major concentration areas in Cinema.

**Repeatable:** *N*

**Formerly** 24-1700

**Prerequisites** ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or TWC-T-7 EXAM-

TWC WRITING MINIMUM SCORE = 7  
**Minimum Credits 3 Maximum Credits 3**

### **CINE 145 Screenwriting I: Writing the Short Film**

Course is a workshop that explores basic methods of writing for cinema which further develop the students' skills in presenting their ideas in written form. Students will develop craft skills basic to cinema writing: research, story development, scene structure, dialogue, and character definition. Emphasis is on finding visual equivalents for human emotions and on developing the writer's individual personal vision. This work culminates in the development and revision of two short narrative scripts. Instrumental in the development of the student as a writer is the ability to read, and effectively critique, the work of their peers.

**Repeatable:** *N*

**Formerly** 24-1710

**Prerequisites** ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or ENGL 109 Writing and Rhetoric I Stretch B or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

### **CINE 245 Screenwriting II: The Feature Film**

Course teaches students to produce longer and more complex screenplays; facilitates a deeper understanding of the screenwriting process; and enables students to develop character, story, and linear structure. Students master systematic work habits in order to fully develop the screenplay, from initial idea to completed script. Course also provides students with the opportunity for consistent critique of their screenwriting.

**Repeatable:** *N*

**Formerly** 24-2710

**Prerequisites** CINE 145 Screenwriting I: Writing the Short Film or TELE 212 Television Arts: Writing

**Minimum Credits 3 Maximum Credits 3**

### **CINE 253 Adaptation**

Course examines problems, obstacles, and reconstruction principles inherent in adapting a literary work for the screen. Content focuses primarily on the kinds of short work attractive to low-budget filmmakers and works possible within the Columbia production program.

**Repeatable:** *N*

**Formerly** 24-2715

**Prerequisites** CINE 145 Screenwriting I: Writing the Short Film or TELE 212 Television Arts: Writing

**Minimum Credits 3 Maximum Credits 3**

### **CINE 260 Screen Treatment & Presentation**

Course develops students' skills in presenting their film ideas orally and in written treatment format. Course builds on concepts learned in Screenwriting I and Screenwriting II. Students master techniques to improve their oral pitching skills, learn how to write a query letter, and explore ways to improve their storytelling ideas. Course emphasizes rewriting and developing skills to sell screenplays.

**Repeatable:** *N*

**Formerly** 24-2740

**Prerequisites** CINE 245 Screenwriting II: The Feature Film or CINE 140 Script Analysis for Cinema  
**Minimum Credits 3 Maximum Credits 3**

### **CINE 378 Ideation & Theme: Portfolio Review**

Course provides an opportunity for screenwriting students to revisit work completed throughout their tenure in the screenwriting program. Students critique their previous work in an effort to understand their themes and styles, their strengths and weaknesses, and their development as a writer. This examination assists students in setting professional goals as screenwriters, whether that includes working in Hollywood or the independent scene.

**Repeatable:** N

**Formerly** 24-3750

**Prerequisites** CINE 245 Screenwriting II: The Feature Film and CINE 253 Adaptation and CINE 260 Screen Treatment & Presentation

**Minimum Credits 3 Maximum Credits 3**

### **CINE 428 The Business of Screenwriting**

Course instructs students how the inner workings of the film industry directly affect their ambitions as screenwriters. They will understand that there is much more to being a screenwriter than writing the script alone. Course will give the students a working knowledge of finding an agent, researching producers for their material, dealing with studios, understanding different types of contracts, copyright law and the Writers Guild of America. Students will also have a chance to take their scripts through a professional submission process to the agent or production company of their choice.

**Repeatable:** Y

**Formerly** 24-4742

**Prerequisites** CINE 245 Screenwriting II: The Feature Film and CINE 140 Script Analysis for Cinema

**Minimum Credits 3 Maximum Credits 3**

### **Electives**

*Complete 15 credits of electives, with a minimum of 3 credits per elective group:*

### **CRWR 132 Story in Fiction and Film: International**

Course critically explores the elements of fiction writing as they are translated to film with an emphasis on foreign and international stories: voice, point of view, dialogue, scene, structure, and other fictional forms. Fiction has been an important source for cinematic storytelling since its earliest incarnations. Students will view films, read fictional excerpts, discuss techniques, and hear speakers, studying how these elements can be used to heighten their own stories. Course will be helpful for students interested in studying fiction, film, and other arts and media disciplines.

**Repeatable:** N

**Formerly** 59-1406

**GA**

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 150 Fiction Workshop: Beginning**

Course is the first one in the core sequence. Students move at their own pace in developing perceptual, technical, and imaginative abilities in fiction writing. No prerequisites, though either Foundations in Creative Writing or Writing and Rhetoric I are helpful.

**Repeatable:** *N*

**Formerly** 59-1201

**Minimum Credits 3 Maximum Credits 3**

### **CRWR 155 Poetry Workshop: Beginning**

Through in-class writing exercises, reading of model poems, and discussion of student work, this course encourages students to produce poetry of increasing quality.

**Repeatable:** *N*

**Formerly** 59-1500

**Minimum Credits 3 Maximum Credits 3**

### **GAME 105 Game Culture**

Course explores the increasing popularity of games within today's culture, which necessitates analysis of how games are impacted by social and ideological forces and influence them in turn. Questions like Why do we play and How do we play differently are explored, with many others, as students are guided through topics such as role-playing and identity, ethics, group behavior, competition, gender, race, and aesthetics in modern (and historical) games.

**Repeatable:** *N*

**Formerly** 36-1100

**Prerequisites** ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

### **INMD 110 Interactive Culture**

Through discussion, lecture, and critique, this course develops critical thinking skills and the student's ability to apply media theory to media design. Students learn how interactivity plays an increasingly important role in our world by exposure to leading designers, artists, thinkers, authors, and critics throughout the history of media.

**Repeatable:** *N*

**Formerly** 36-1000

**Prerequisites** ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

### **INMD 240 Story Development for Interactive Media**

The increasing impact of interaction on the narrative (stories) told in today and tomorrow's educational and entertainment media requires a different perspective on story development. This class begins with an overview of the area and its history from the writer's perspective, and then moves on to review and analyze common interactive structures and narrative requirements. Students are also exposed to the basic types of

interactive narrative and media being created today, and conceptualize and develop their own interactive narrative projects.

**Repeatable:** *N*

**Formerly** GAME 260

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **RADI 205 Writing for Radio**

This introductory course covers the basic style, format, and techniques used in various forms of creative writing specific to radio broadcasting and audio media, including content for the Internet and mobile-devices. Students write for several genres, including commercials, public service announcements, commentary, news, documentary, and essay. Emphasis is placed on the specific techniques employed in writing for the ear.

**Repeatable:** *N*

**Formerly** 41-2107

**Prerequisites** ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

## **TELE 110 The History of Television**

Cultural history course examines not only the chronological development of television as a technology and an industry, but also explores also how television has become a part of our histories and, indeed, how TV has shaped history and our sense of it. Television is a primary source for the transmission of information, politics, entertainment, and our collective and dispersed cultures in the United States, surpassing even film and newspaper because of its combined accessibility and visual appeals. Since its arrival on the scene at the World's Fair of 1939, TV has been the site through which we engage with any number of issues and events—from the most intimate to the most broadly social.

**Repeatable:** *N*

**Formerly** 40-1101

**DEI**

**Minimum Credits 3 Maximum Credits 3**

## **TELE 112 Aesthetics and Storytelling**

In this course, students will explore the formal elements of television that are used to express meaning, evoke emotion, and shape the vision they wish to communicate. The student will learn the basics of researching, writing, planning, and visualizing stories for the screen. They will also analyze various television program examples, learning to deconstruct the ways that television tells stories.

**Repeatable:** *N*

**Formerly** 40-1103

**Minimum Credits 3 Maximum Credits 3**

## **TELE 212 Television Arts: Writing**

Building on concepts and techniques introduced in Aesthetics and Storytelling, course allows students to explore basic methods of television writing for scripted and non-scripted formats. Students will develop craft skills basic to television writing: research, story structure, dialogue, and character development, all of which will prepare them for writing scenes and short scripts. Course will not only prepare the student to write full length scripts but will also help them grow as artists, learning to tell stories in a unique and personally meaningful way.

**Repeatable:** N

**Formerly** 40-2100

**Minimum Credits 3 Maximum Credits 3**

### **TELE 310 Writing for Television**

Scriptwriting course is for students who already have a basic understanding of story structure, dialog, and character development. In this class the student will learn to write full-length television scripts and will study the structure and conventions of writing the sitcom, sketch comedy, and hour-long dramatic scripts. Student work will be read aloud and workshopped, step by step, in a traditional writers table' story conference procedure. Each student will leave the course with at least one full-length, polished script from one of the featured genres.

**Repeatable:** N

**Formerly** 40-3202

**Prerequisites** TELE 212 Television Arts: Writing or CINE 145 Screenwriting I: Writing the Short Film

**Minimum Credits 3 Maximum Credits 3**

### **TELE 318 Writing the Situation Comedy**

Advanced level scriptwriting course teaches the skills needed to write the most popular form in television today, the situation comedy. The class will require the students to write two half-hour comedies, one based on an existing prime-time television series, the other based on an original pilot concept. The scripts will be read and reviewed, step by step, in a classic writer's table story conference procedure. In addition, there will be lectures on the writing of both the established sitcom as well as the original pilot episode.

**Repeatable:** Y

**Formerly** 40-3221

**Prerequisites** TELE 310 Writing for Television or CINE 145 Screenwriting I: Writing the Short Film

**Minimum Credits 3 Maximum Credits 3**

### **TELE 320 Critical Television Theory and Analysis**

This course seeks to master methods of analysis and theory commonly utilized in Television Studies: historic and industrial, auteurism and genre, semiotics and psychoanalysis, postmodernism, feminist, critical race, discourse, and audience reception. In students' aspirations to become professionals in the field of television, understanding how TV operates culturally and socially in a sophisticated manner will ultimately make them better creative artists, producers, managers, screenwriters, etc.

**Repeatable:** Y

**Formerly** 40-3212

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **TELE 327 Writing for Television Genre**

Course is an advanced level writing class with much time devoted to the development of analytic skills. The class will be broken up into two parts. The first will be an investigation of a variety of analytic methods. The second half will be spent examining a variety of genres and writing a series of outlines and script excerpts. The topics would include action/adventure, melodrama, drama, comedy, mystery, and science fiction. Each would be examined with examples drawn from both current and past television programming. The class would conclude with the completion of a full-length script.

**Repeatable:** N

**Formerly** 40-3231

**Prerequisites** TELE 310 Writing for Television or CINE 145 Screenwriting I: Writing the Short Film

**Minimum Credits 3 Maximum Credits 3**

### **TELE 333 Writing for Internet and Mobile TV**

This course will focus on telling one story using multiple creative and distribution platforms. The primary or origin form will be a scripted multiple episode dramatic or comedic web series. Each series will also have 3 extension platforms: social media and open source creative platforms that will tell a different part of the story. Students will pitch, develop, write and using a smart-phone, laptop or tablet will create 'in character' extension content on YouTube, Facebook, Instagram, Tumblr, Bitmoji, etc. The final project will consist of a completed 6-9 episode written web series with transmedia extension content for a deeper exploration of character and story.

**Repeatable:** N

**Formerly** 40-3237

**Prerequisites** TELE 212 Television Arts: Writing or TELE 310 Writing for Television or CINE 145 Screenwriting I: Writing the Short Film

**Minimum Credits 3 Maximum Credits 3**

### **TELE 440A Writing the Television Pilot:**

Writing the Television Pilot: is an advanced level writing class devoted to the development and writing of a TV pilot script(s). The first part of the class will be spent examining the unique qualities and responsibilities of a TV pilot: to introduce plot, story, character, relationships and mystery. The second half of the class will be spent pitching ideas, developing, work shopping, and table reading multiple drafts the student's original pilot script. The class would conclude with the completion of a full-length pilot script(s). This is a rotating subject course.

**Repeatable:** Y

**Formerly** TELE 440

## **THEA 168 Playwriting I**

This course is an introduction to the basic techniques of playwriting from concept to completion. Students will learn basic play structuring, character development, conflict heightening, play synopsising, and script formatting while writing scenes, ten-minute plays, and one-act plays which are all read aloud as table-readings in class.

**Repeatable:** N

**Formerly** 31-2800

**Minimum Credits 3 Maximum Credits 3**

*Complete 3 to 6 credits from the following courses:*

## **ANIM 105 Introduction to Traditional Animation**

This course is an introduction to basic animation principles for students with little or no animation production experience. Students explore basic animation techniques including object, hand-drawn, stop-motion, and alternative animation styles. Animated films, both domestic and international, are screened and discussed. Students complete short exercises in each of the techniques mentioned and complete a final project employing a style of their choice that was previously explored during the semester.

**Repeatable:** N

**Formerly** 26-1000

**Minimum Credits 3 Maximum Credits 3**

## **CINE 107 Production Design I**

Course provides an overview of production design for the visual media by exploring the history and theory of production design, as well as the application of art, design, and architecture to moving image storytelling. Students examine and critique case studies. Instruction covers the process of script analysis and breakdowns to budgeting for the art department. The roles and procedures of the art department will be introduced. Basics of architectural drafting and simple drawing will be covered. Students will be required to serve in the art department of an advanced film production.

**Repeatable:** N

**Formerly** 24-1015

**Minimum Credits 3 Maximum Credits 3**

## **CINE 118 Introduction to Sound for Cinema and Television**

This introductory course covers theory and aesthetics of sound as it is used in cinema and television, emphasizing visual storytelling through audio.

**Repeatable:** N

**Formerly** 24-1100

**Minimum Credits 1 Maximum Credits 1**

## **CINE 121 Lighting I**

Course introduces the physics of motion picture lighting for students with little or no lighting experience. Students become familiar with important safety procedures and the use of standard lighting equipment. Special attention is given to important light measuring techniques using incident light meters and spot meters, quality of light and lighting ratios. Course encourages intelligent, thoughtful approaches to the aesthetics of lighting.

**Repeatable:** *N*

**Formerly** 24-1200

**Prerequisites** CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production

**Minimum Credits 4 Maximum Credits 4**

## **CINE 128 Acting and Directing Workshop**

Course is designed to introduce fundamentals of the actor's craft to directing students. Students learn various acting techniques and apply them to basic directing methods. The relationship between actor, text, and director is emphasized through analysis, rehearsal, and scene work. Intended outcome is an understanding of the actor's process and the collaboration and communication necessary between actors and directors.

**Repeatable:** *N*

**Formerly** 24-1300

**Prerequisites** CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production

**Minimum Credits 3 Maximum Credits 3**

## **CINE 130 Editing I**

Course helps students develop the basic non-linear editing skills needed to tell stories effectively through screenings, practical hands-on assignments, using NLE editing software, readings, and lectures. Organizational skills needed to handle NLE offline digital video and audio materials are covered. Editing exercises consist of various editing genres, using scenes from longer works. Students receive ongoing critiques of their work to determine their proficiency of craft and creativity.

**Repeatable:** *N*

**Formerly** 24-1401

**Concurrent Requisite** CINE 131 Editing I Studio

**Minimum Credits 3 Maximum Credits 3**

## **CINE 131 Editing I Studio**

This course is required concurrently with Editing I. Students develop basic skill in the use of a digital editing platform in completing the Editing I course exercises, as well as investigating current technical developments and digital workflow concepts. Content is presented through demonstrations, tutorials and hands-on practice using visual and audio media. Students receive ongoing critique, quizzes and one-to-one problem solving to determine their proficiency and advancement in the use of the platform.

**Repeatable:** *N*

**Formerly** 24-1401B

**Concurrent Requisite** CINE 130 Editing I  
**Minimum Credits 1 Maximum Credits 1**

### **CINE 148 Introduction to Documentary**

Students will examine in-depth the methods by which non-fiction filmmakers develop, produce and distribute documentary films. Through a series of screenings, lectures, critiques and class discussions, a variety of long- and short-form documentary projects will be analyzed by students in relationship to: story, research, producing, directing, cinematography, editing, sound design, history, aesthetics, ethics and distribution. The class will link with material from each concentration area in Cinema and Television Arts - but through the prism of non-fiction filmmaking.

**Repeatable:** N

**Formerly** 24-1801

**Prerequisites** MEDI 101 Cinematic Storytelling or ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

### **CINE 225 Cinema Directing I**

Course builds upon the relationship between actor, text, and director and expands to include camera blocking, basic scene coverage, additional rehearsal techniques, and effective critiquing skills. Emphasis is on the development of director's breakdowns, pre-visualization, set-etiquette, and fundamental collaboration with key department heads. Scene work culminates with the blocking and staging of a cinematic narrative scene.

**Repeatable:** N

**Formerly** 24-2301

**Prerequisites** CINE 128 Acting and Directing Workshop

**Minimum Credits 6 Maximum Credits 6**

### **CINE 235A Authorship:**

Screening/discussion course is an intensive study of a single director (or directors) as auteur. The featured director(s) changes each semester. Class examines recurring themes, stylistic innovations, and differentiating interpretations of directors' films. Course may be repeated as featured directors change.

**Repeatable:** Y

**Formerly** CINE 235

**Minimum Credits 3 Maximum Credits 3**

### **CINE 235B Authorship:**

Screening/discussion course is an intensive study of a single director (or directors) as auteur. The featured director(s) changes each semester. Class examines recurring themes, stylistic innovations, and differentiating interpretations of directors' films. Course may be repeated as featured directors change.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

### **CINE 235C Authorship:**

Screening/discussion course is an intensive study of a single director (or directors) as auteur. The featured director(s) changes each semester. Class examines recurring themes, stylistic innovations, and differentiating interpretations of directors' films. Course may be repeated as featured directors change.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

### **CINE 235D Authorship:**

Screening/discussion course is an intensive study of a single director (or directors) as auteur. The featured director(s) changes each semester. Class examines recurring themes, stylistic innovations, and differentiating interpretations of directors' films. Course may be repeated as featured directors change.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

### **CINE 235E Authorship:**

Screening/discussion course is an intensive study of a single director (or directors) as auteur. The featured director(s) changes each semester. Class examines recurring themes, stylistic innovations, and differentiating interpretations of directors' films. Course may be repeated as featured directors change.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

### **CINE 235F Authorship:**

Screening/discussion course is an intensive study of a single director (or directors) as auteur. The featured director(s) changes each semester. Class examines recurring themes, stylistic innovations, and differentiating interpretations of directors' films. Course may be repeated as featured directors change.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

### **CINE 238A Cinema History and Culture**

This course examines historical and cultural issues in cinema. Topics may include specific genres, national cinemas, representations of gender and sexuality, non-narrative cinema, or the aesthetic impact of technological innovations. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help engage them actively with the topics.

**Repeatable:** Y

**Formerly** CINE 238

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 238B Cinema History and Culture**

This course examines historical and cultural issues in cinema. Topics may include specific genres, national cinemas, representations of gender and sexuality, non-narrative cinema, or the aesthetic impact of technological innovations. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help engage them actively with the topics.

**Repeatable:** Y

Students will research and write papers and be involved in a number of other in-class and online research activities to help engage them actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 1 Maximum Credits 1**

### **CINE 241C New Trends in Global Cinema**

This one-credit course examines the impact of global media culture on cinema history and aesthetics in the form of topics not usually discussed in a fifteen week course. Topics may include cinematic adaptations of video games, graphic novels, or television series, as well as an examination of how distribution models and international film festivals help determine cinematic form and audience reception. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help engage them actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 1 Maximum Credits 1**

### **CINE 241D New Trends in Global Cinema**

This one-credit course examines the impact of global media culture on cinema history and aesthetics in the form of topics not usually discussed in a fifteen week course. Topics may include cinematic adaptations of video games, graphic novels, or television series, as well as an examination of how distribution models and international film festivals help determine cinematic form and audience reception. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help engage them actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 1 Maximum Credits 1**

### **CINE 241E New Trends in Global Cinema**

This one-credit course examines the impact of global media culture on cinema history and aesthetics in the form of topics not usually discussed in a fifteen week course. Topics may include cinematic adaptations of video games, graphic novels, or television series, as well as an examination of how distribution models and international film festivals help determine cinematic form and audience reception. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help engage them actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 1 Maximum Credits 1**

### **CINE 248 Producing I: Production Team**

Course explores the production team and the role of the line producer, unit production manager, production manager, and assistant directors in managing the physical production process of producing a film. This process will include budgeting and scheduling, and managing cast, crew and vendor relationships. Additional team members are examined, including the roles of the casting director, location manager, production coordinator, and script supervisor. The post-production supervisor position is discussed including post-production scheduling, budgeting, and meeting delivery requirements for distribution and film festivals.

**Repeatable:** N

**Formerly** 24-2600

**Prerequisites** MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production or CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process

**Minimum Credits 3 Maximum Credits 3**

## **CINE 266 Documentary Storytelling**

Course begins with an overview of the relationships between story and discourse in narrative storytelling. This includes narrative voice and perspective, the temporal and spatial arrangements of events and mutual influences between plot and character. Once fundamental principles are established, the focus shifts specifically to documentary. By studying excerpts from existing works, students develop an understanding of narrative approaches to documentary and apply that knowledge to a personal project they wish to develop.

**Repeatable:** N

**Formerly** 24-2807

**Prerequisites** CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or CINE 267 Documentary Production Module I: Location Camera and Sound or CINE 264 Documentary Production Module II: The Interview or CINE 269 Documentary Production III: Intermediate Field Production or MEDI 101 Cinematic Storytelling

**Minimum Credits 3 Maximum Credits 3**

## **CINE 275 Experimental Production I**

Project-centered course engages students in non-narrative, alternative aspects of video and digital production. Students develop an aesthetic that explores, challenges, extends, or subverts mainstream narrative or documentary structures. Topics include camera experimentation and image manipulation; development of personal, political, or social themes; and distribution and marketing of experimental work.

**Repeatable:** N

**Formerly** 24-2901

**Prerequisites** CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production

**Minimum Credits 3 Maximum Credits 3**

## **MEDI 310 Transmedia Analysis: Games, Film and Television**

Modern storytelling is not constrained to one medium. This course provides students with an opportunity to learn about the ways in which core narrative properties can be adapted to various media, specifically narrative games, television, and film. Through selected case studies, students will analyze the ways in which core narrative properties are defined, adapted, and transformed across media. This class is a prerequisite for the Semester in LA/Transmedia Production: Games, Film, and Television course.

**Repeatable:** N

**Formerly** 24-3001

**Prerequisites** INMD 240 Story Development for Interactive Media or CINE 245 Screenwriting II: The Feature Film or TELE 310 Writing for Television

**Minimum Credits 3 Maximum Credits 3**

*Complete 3 to 6 credits from the following courses:*

## **CINE 355A Screenwriting Workshops:**

Course is designed to help the students write better and more effective scripts. Students will learn a variety of approaches and techniques. This is a repeatable course with rotating topics, which in the past have included co-writing and experimental screenwriting.

**Repeatable:** Y

**Formerly** CINE 355

**Prerequisites** CINE 245 Screenwriting II: The Feature Film and CINE 140 Script Analysis for Cinema

**Minimum Credits 3 Maximum Credits 3**

### **CINE 355B Screenwriting Workshops:**

Course is designed to help the students write better and more effective scripts. Students will learn a variety of approaches and techniques. This is a repeatable course with rotating topics, which in the past have included co-writing and experimental screenwriting.

**Repeatable:** Y

**Prerequisites** CINE 245 Screenwriting II: The Feature Film and CINE 140 Script Analysis for Cinema

**Minimum Credits 3 Maximum Credits 3**

### **CINE 355C Screenwriting Workshops:**

Course is designed to help the students write better and more effective scripts. Students will learn a variety of approaches and techniques. This is a repeatable course with rotating topics, which in the past have included co-writing and experimental screenwriting.

**Repeatable:** Y

**Prerequisites** CINE 245 Screenwriting II: The Feature Film and CINE 140 Script Analysis for Cinema

**Minimum Credits 3 Maximum Credits 3**

### **CINE 355D Screenwriting Workshops:**

Course is designed to help the students write better and more effective scripts. Students will learn a variety of approaches and techniques. This is a repeatable course with rotating topics, which in the past have included co-writing and experimental screenwriting.

**Repeatable:** Y

**Prerequisites** CINE 245 Screenwriting II: The Feature Film and CINE 140 Script Analysis for Cinema

**Minimum Credits 3 Maximum Credits 3**

### **CINE 355E Screenwriting Workshops:**

Course is designed to help the students write better and more effective scripts. Students will learn a variety of approaches and techniques. This is a repeatable course with rotating topics, which in the past have included co-writing and experimental screenwriting.

**Repeatable:** Y

**Prerequisites** CINE 245 Screenwriting II: The Feature Film and CINE 140 Script Analysis for Cinema

**Minimum Credits 3 Maximum Credits 3**

### **CINE 373 Comparative Screenwriting:**

This is a repeatable, rotating subjects course that provides students with an extensive examination of the screenwriter's role, career, development, and relationship to the production process. These objectives are achieved by comparing and contrasting screenplays and/or screenwriters that are related in a significant way.

**Repeatable:** Y

**Formerly** 24-3720

**Prerequisites** CINE 140 Script Analysis for Cinema and CINE 145 Screenwriting I: Writing the Short Film

**Minimum Credits 3 Maximum Credits 3**

### **CINE 374A Genres in Screenwriting:**

Course examines a specific genre and provides an opportunity to develop and write a feature screenplay based upon elements of the genre, but reflective of the student's personal themes, as well. This is a repeatable, rotating subjects course wherein the genre rotates from semester to semester.

**Repeatable:** Y

**Formerly** CINE 374

**Prerequisites** CINE 245 Screenwriting II: The Feature Film

**Minimum Credits 3 Maximum Credits 3**

### **CINE 374B Genres in Screenwriting:**

Course examines a specific genre and provides an opportunity to develop and write a feature screenplay based upon elements of the genre, but reflective of the student's personal themes, as well. This is a repeatable, rotating subjects course wherein the genre rotates from semester to semester.

**Repeatable:** Y

**Prerequisites** CINE 245 Screenwriting II: The Feature Film

**Minimum Credits 3 Maximum Credits 3**

### **CINE 374C Genres in Screenwriting:**

Course examines a specific genre and provides an opportunity to develop and write a feature screenplay based upon elements of the genre, but reflective of the student's personal themes, as well. This is a repeatable, rotating subjects course wherein the genre rotates from semester to semester.

**Repeatable:** Y

**Prerequisites** CINE 245 Screenwriting II: The Feature Film

**Minimum Credits 3 Maximum Credits 3**

### **CINE 374D Genres in Screenwriting:**

Course examines a specific genre and provides an opportunity to develop and write a feature screenplay based upon elements of the genre, but reflective of the student's personal themes, as well. This is a repeatable, rotating subjects course wherein the genre rotates from semester to semester.

**Repeatable:** Y

**Prerequisites** CINE 245 Screenwriting II: The Feature Film

**Minimum Credits 3 Maximum Credits 3**

### **CINE 374E Genres in Screenwriting:**

Course examines a specific genre and provides an opportunity to develop and write a feature screenplay based upon elements of the genre, but reflective of the student's personal themes, as well. This is a repeatable, rotating subjects course wherein the genre rotates from semester to semester.

**Repeatable:** Y

**Prerequisites** CINE 245 Screenwriting II: The Feature Film

**Minimum Credits 3 Maximum Credits 3**

### **CINE 376 Script Rewrite and Polish**

Advanced collaborative workshop course asks students to focus on the subtleties associated with production rewriting from sculpting dialogue, polishing characters to defining the role of theme in the short film arena. Juxtaposed with these creative affairs, students will be introduced to business practices associated with doing rewrite work, including work for hire scenarios. Material for the class must be approved by instructors and Practicum faculty before being admitted into the class

**Repeatable:** N

**Formerly** 24-3701J

**Prerequisites** CINE 349 Producing III: The Creative Producer or CINE 245 Screenwriting II: The Feature Film

**Minimum Credits 2 Maximum Credits 2**

### **CINE 380A Studies in Screenwriting:**

This repeatable course consists of subjects of interest to the developing screenwriter. Previous courses have focused on myths and dreams, experimental scriptwriting, business aspects of screenwriting, and historical research. This is a rotating subjects course.

**Repeatable:** Y

**Formerly** CINE 380

**Prerequisites** CINE 145 Screenwriting I: Writing the Short Film

**Minimum Credits 3 Maximum Credits 3**

### **CINE 380B Studies in Screenwriting:**

This repeatable course consists of subjects of interest to the developing screenwriter. Previous courses have focused on myths and dreams, experimental scriptwriting, business aspects of screenwriting, and historical research. This is a rotating subjects course.

**Repeatable:** Y

**Prerequisites** CINE 145 Screenwriting I: Writing the Short Film

**Minimum Credits 3 Maximum Credits 3**

### **CINE 380C Studies in Screenwriting:**

This repeatable course consists of subjects of interest to the developing screenwriter. Previous courses have focused on myths and dreams, experimental scriptwriting, business aspects of screenwriting, and historical research. This is a rotating subjects course.

**Repeatable:** Y

**Prerequisites** CINE 145 Screenwriting I: Writing the Short Film

**Minimum Credits 3 Maximum Credits 3**

### **CINE 380D Studies in Screenwriting:**

This repeatable course consists of subjects of interest to the developing screenwriter. Previous courses have focused on myths and dreams, experimental scriptwriting, business aspects of screenwriting, and historical research. This is a rotating subjects course.

**Repeatable:** Y

**Prerequisites** CINE 145 Screenwriting I: Writing the Short Film

**Minimum Credits 3 Maximum Credits 3**

### **CINE 380E Studies in Screenwriting:**

This repeatable course consists of subjects of interest to the developing screenwriter. Previous courses have focused on myths and dreams, experimental scriptwriting, business aspects of screenwriting, and historical research. This is a rotating subjects course.

**Repeatable:** Y

**Prerequisites** CINE 145 Screenwriting I: Writing the Short Film

**Minimum Credits 3 Maximum Credits 3**

## **Sound for Cinema**

The concentration prepares students to handle the various audio steps involved in pre-production, production, post-production and the release of the motion picture. As a result of successfully completing program requirements, students should be able to:

- define basic audio concepts and terminology that relate to audio pre-production, production, and digital post-production;
- demonstrate and articulate basic knowledge of the digital post-production process, material preparation, archival processes, and the manipulation of a sound track for a desired effect;
- define audio principles and terminology as they apply to the motion picture;
- demonstrate proficiency in the use of location sound packages;
- demonstrate a proficiency of audio production from pre-planning, communication with crew during production through delivery to Post-production;
- design an effective soundtrack, which enhances the story of a completed project;
- demonstrate the ability to edit and mix dialog, music and sound effects;
- demonstrate the ability to record, edit and mix ADR (replacement audio dialogue) and Foley (replacement audio sound effects);
- demonstrate the ability to collaborate with a director and/or producer and other postproduction personnel to create a complete soundtrack of dialogue, music and special effects suitable for distribution;
- utilize advanced audio mixing hardware and software to create mono, stereo and surround mixes for multiple release media; and
- demonstrate advanced knowledge of the digital production process (material preparation for dialogue, sound effects management, delivery and archival processes, the manipulation of a sound track) with an emphasis on professional best practices.

**Required for the Concentration:**

## **AUDI 102 Introduction to Audio**

This course provides an overview of the world of sound and audio in its various manifestations, including music, communications, sound in linear and non-linear media, sound art, and sonification. It introduces students to basic concepts and terminology related to sound, audio, and audio equipment and systems, but it is not a theory course. Rather, the course examines aspects of our sonic world through the lenses of audio production, live sound reinforcement, and acoustics, constructing a survey of practices and trends, practitioners, and examples; of history, context, and politics; and of art and aesthetics. Along the way it challenges students to examine and open themselves to difference ways of listening. This course is open to all majors.

**Repeatable:** *N*

**Formerly** 43-1111

**Minimum Credits 3 Maximum Credits 3**

## **CINE 118 Introduction to Sound for Cinema and Television**

This introductory course covers theory and aesthetics of sound as it is used in cinema and television, emphasizing visual storytelling through audio.

**Repeatable:** *N*

**Formerly** 24-1100

**Minimum Credits 1 Maximum Credits 1**

## **CINE 211 Post-Production Audio I**

Entry-level Sound for Cinema course offers instruction and exploration into the methodology and skills training of sound design and mixing for cinema. Course includes an introduction to the Digital Audio Workstation for sound editing, enhancement and manipulation, and re-recording mixing of the various categories of cinema sound. Students work on a variety of cinema sound projects that mirror professional practice and foster development of the necessary skills to proceed through the Sound for Cinema pathway.

**Repeatable:** *N*

**Formerly** 24-2101

**Prerequisites** CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production or JOUR 351 Multimedia Photo Essay

**Minimum Credits 4 Maximum Credits 4**

## **CINE 213 Location Sound Recording I**

Course introduces students to production applications and audio technologies for cinema and television arts. Areas covered include digital recorders, mixers, microphones, signal chain, time-code, metadata, production protocols, and pre-production strategies for cinema and television production.

**Repeatable:** *N*

**Formerly** 24-2103

**Prerequisites** TELE 230 Production and Editing I or CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production

**Minimum Credits 4 Maximum Credits 4**

## **CINE 214 Music for Cinema**

Students are introduced to the language of cinema and how composers and music supervisors serve the needs of the frame while exploring the functions of the score and music licensing. Textural conceptualization and technology expanding emotional resonance are examined. Understanding the vocabulary of music, contemporary targeting issues impacting tone, voicing, spotting and the business of synchronization to picture are a vital component. Students develop musical application skills using analysis and creative projects to foster and enhance their understanding.

**Repeatable:** *N*

**Formerly** 24-2104

**Prerequisites** CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production

**Minimum Credits 3 Maximum Credits 3**

## **CINE 311 Post-Production Audio II**

Course explores the post-production techniques used in creating effective audio for cinema. Students develop aesthetic judgment by analyzing a variety of soundtracks and develop technical skills, including track building, ADR, Foley, and mixing, by employing these techniques in the design and creation of their own soundtracks.

**Repeatable:** *N*

**Formerly** 24-2102

**Prerequisites** AUDI 324 Audio for Visual Media I or CINE 211 Post-Production Audio I

**Minimum Credits 4 Maximum Credits 4**

## **CINE 313 Location Sound Recording II**

This course applies the principles and applications of production sound recording for cinema and television arts by providing sound services for advanced student productions. Under faculty supervision students will examine professional protocols and practical applications of production sound for discussions, exchange of experiences, and problem solving.

**Repeatable:** *Y*

**Formerly** 24-3101

**Prerequisites** AUDI 122 DAW Production Techniques and Applications or CINE 213 Location Sound Recording I

**Minimum Credits 4 Maximum Credits 4**

## **CINE 318 The Art and Craft of Foley**

This workshop course offers hands-on projects designed to prepare students to cue, perform, and edit Foley tracks as needed for cinema, animation, television, and games. Small class projects will include studio time for performing footsteps, props, and cloth for Foley. Final projects will require the cueing, shooting, and editing of Foley on student projects.

**Repeatable:** *Y*

**Formerly** 24-2106

**Prerequisites** CINE 311 Post-Production Audio II

**Minimum Credits 2 Maximum Credits 2**

## **CINE 319 The Art and Craft of Automated Dialogue Replacement**

This workshop course offers hands-on projects designed to prepare students to cue, perform, and edit Automated Dialogue Replacement tracks as needed for cinema, animation, television, and games. Small class projects will include studio time for recording principal performers and group ADR. Final projects will require the cueing, shooting, and editing of ADR on student projects.

**Repeatable:** Y

**Formerly** 24-2107

**Prerequisites** CINE 311 Post-Production Audio II

**Minimum Credits 2 Maximum Credits 2**

### **CINE 411 Post-Production Audio III**

Advanced level Sound for Cinema course designed to further student's insight and experience into the art of preparing, mixing and re-recording sound tracks for cinema. Students work in collaborative environment to complete class projects that mirror professional industry cinema sound practice. Skills training and learning outcomes offered in this class represent the capstone in the Sound for Cinema pathway.

**Repeatable:** Y

**Formerly** 24-3122

**Prerequisites** CINE 311 Post-Production Audio II

**Minimum Credits 4 Maximum Credits 4**

### **CINE 415 Sound Mixing for Cinema**

Sound Mixing For Cinema explores the advanced processes used to create effective state-of-the-art cinema sound mixes. In this intensive, hands-on studio course, students will study the latest trends in soundtrack aesthetics & rerecording technology and employ these techniques in mixing soundtracks for a variety of cinema genres & media.

**Repeatable:** N

**Formerly** 24-3126

**Prerequisites** CINE 311 Post-Production Audio II

**Minimum Credits 4 Maximum Credits 4**

## **Fine Arts, BFA**

The BFA degree is a student's path toward professionalization. It emphasizes the interdependency of studio practice, art history and theory, technical mastery, and individual management while emphasizing critical thinking. This degree is the doorway for the student seeking to become a fine artist. The course of study weaves students into a major international art center and uses Chicago's most famous galleries as the backdrop for a rigorous integration with one of the most dynamic cultural spaces in the world. Students work through a series of opportunities to share their work while the experience culminates in an exhibition and accompanying catalog.

As a result of successfully completing program requirements, students should be able to:

- understand and use visual arts techniques and research methods for the production of fine art;
- produce a body of work that reflects their knowledge-both visual and conceptual-and professional development;
- engage in an active studio practice employing creativity, criticality, technical ability, problem solving and historical research;
- competitively pursue graduate education; and

- practice as an artist in the marketplace and in arts-related fields.

## PROGRAM REQUIREMENTS - 72 credits required

### **ARTH 110 Art History Survey: Prehistoric to Modern**

This introductory course is a global survey of the history of visual arts from pre-historic times through the nineteenth century. Students study examples from Africa, Asia, the Americas, and Europe in an overall chronological order. Class lectures and discussions focus on various civilizations, periods, and styles around the world including Mesopotamia, Egypt, Greece, and Rome, Early Chinese, Early Christian, Early Islamic, Early Buddhist, Niger Valley, Pre-Columbian, Gothic, Renaissance, Baroque, Impressionism and Post-Impression. Students explore the aesthetic values of these diverse cultures in relation to historical, socio-political, religious, and other contexts for the creation of art.

**Repeatable:** *N*

**Formerly** 22-1101

**HU**

**Minimum Credits 3 Maximum Credits 3**

### **ARTH 210 20th Century Art History**

This course surveys the history of modern art and critical theories from Post-Impressionism in the 1890s, covering major subsequent currents such as Cubism, Expressionism, Surrealism, Dada, The Harlem Renaissance, Abstract Expressionism, The Black Arts Movement and Post-modernism. Developments in design and architecture, such as the Bauhaus, International Style, and Post-modernism, will also be addressed.

**Repeatable:** *N*

**Formerly** 22-2110

**HU**

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **ARTH 310 Contemporary Art: 1980 to the Present**

This course surveys the history of art and its critical discourses from 1980 to the present, including Post-modernism, the challenges of globalism, the rise of the biennials, relational aesthetics, and other current developments in current art practice and theory.

**Repeatable:** *N*

**Formerly** 22-3115

**HU PL**

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **ARTH 315 Art Theory Seminar**

This seminar is a reading and writing intensive course in which students discuss major concepts and methods of art theory from modernist formalism to contemporary issues of race, gender, globalism, and feminism. Other topics addressed may include: semiotics, structuralism, Deconstruction, medium, object, social practice, identity politics, relational aesthetics.

**Repeatable:** *N*

**Formerly** 22-3110

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

## **ARTS 103 Art Now! Art and Art History Speaker Series**

ART NOW! is the Art and Art History Department's curricularized one-credit Speaker Series. Over the course of a semester, students attend no fewer than six sessions sponsored by the department, where they learn about and engage with a diverse mix of art makers, curators, critics, historians, and entrepreneurs. Students hear directly from the unique individuals--international, national, and Chicago-based--who are actively authoring the culture of our times, and gain exposure to the rich range of perspectives, practices, and professional pathways possible for the contemporary creative. In addition to attending the lectures, students prepare by reviewing materials that provide background and context for each speaker and students participate in a digital discussion forum, where they critically engage current issues facing contemporary art and culture and present informed positions and assessments of contemporary art practice. This course provides an accessible, timely, and lively introduction to the multiple worlds of contemporary art and current art discourse, as well as being an excellent way to stay current with the latest developments.

**Repeatable:** *Y*

**DEI**

**Minimum Credits** 1 **Maximum Credits** 1

## **ARTS 105 Foundation Studio**

Foundation Studio teaches students how to solve art and design problems. It introduces critical strategies common to major areas of study offered within the departments of Art and Art History and Design, but is also applicable to many other fields in the creative sphere. Students are exposed to a diversity of materials and methods, and are encouraged to develop their own unique solutions through experimentation and collaboration. Assuming the role of problem-solver, students work on increasingly complex projects that culminate in a formalized demonstration of the ability to forge their own creative solutions.

**Repeatable:** *N*

**Formerly** 22-1925

**Minimum Credits** 3 **Maximum Credits** 3

## **ARTS 106 Fundamentals of Visual Design**

This course introduces students to elements and principles of visual design. While handling digital media through the use of industry-standard software (for example, Photoshop, Illustrator, and other Adobe Creative Suite programs), students investigate connections between formal analysis, concept, and ideas in pixel, vector, and motion-based imagery. Lectures and critiques advance verbal communication skills to cultivate facility with the formal language of art and design, building understandings of the relationships of perception, process, and presentation.

**Repeatable:** *N*

**Minimum Credits** 3 **Maximum Credits** 3

## **ARTS 110 Drawing I**

This course teaches students how to represent accurately and proportionately objects, planes, and volumes through line and tone by developing hand-to-eye coordination. Basics of form development, 1, 2 and 3 point perspective, composition, texture, and modeling through various shading techniques are explored in various exercises augmented by critiques, slide lectures, and discussions.

**Repeatable:** *N*

**Formerly** ARTS 210

**Minimum Credits 3 Maximum Credits 3**

## **ARTS 220 Painting I**

This studio course introduces the artistic medium and discipline of painting. Students learn painting materials, techniques, and its technical vocabulary through direct, hands-on experimentation with a broad range of painting media, tools, and processes (for example, oil, acrylics, ink, etc.). Studio instruction may be augmented with field trips, slide lectures, readings, critiques, and discussion that help critically, currently, and historically situate painting as a fine arts practice

**Repeatable:** *N*

**Formerly** 22-2220

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **ARTS 230 Printmaking I**

In this studio course students are exposed to a broad range of basic traditional and innovative printmaking techniques including block, etching, lithography, RISO and the use of these skills to produce independent work within the context of contemporary art and design. This course will include the use of Photoshop and Illustrator in the production of stencils. Students will be introduced to skills and techniques, experiment with the medium, and think creatively and critically. Studio instruction may be augmented with field trips, slide lectures, readings, critiques, and discussion that help critically, currently, and historically situate printmaking as a fine arts and design practice.

**Repeatable:** *N*

**Formerly** 22-2224

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **ARTS 240 Sculpture I**

This studio course introduces students to the tools, materials, and processes used in the creation of sculptural objects. With particular focus on learning by doing, projects will revolve around a variety of additive, subtractive, mold and computer methods. Studio instruction may be augmented with field trips, slide lectures, readings, critiques, and discussion that help critically, currently, and historically situate sculpture as a fine arts and design practice.

**Repeatable:** *N*

**Formerly** 22-2251

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **ARTS 250 New Genres I**

This course provides students with opportunities to explore inter- and multi-disciplinary art forms in both a studio and discussion context. Students create performance, installation, and site-specific works dealing with issues of time and space in non-traditional ways. Video, sound, performance, site-specific installation, photography, non-material approaches, and other contemporary means of communication are possible media. Studio instruction may be augmented with field trips, slide lectures, readings, critiques, and discussion that help critically, currently, and historically situate new genre work as fine art practices.

**Repeatable:** *N*

**Formerly** 22-2258

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **ARTS 303 Art Now! Art and Art History Speaker Series**

ART NOW! is the Art and Art History Department's curricularized one-credit Speaker Series. Over the course of a semester, students attend no fewer than six sessions sponsored by the department, where they learn about and engage with a diverse mix of art makers, curators, critics, historians, and entrepreneurs. Students hear directly from the unique individuals--international, national, and Chicago-based—who are actively authoring the culture of our times and gain exposure to the rich range of perspectives, practices, and professional pathways possible for the contemporary creative. In addition to attending the lectures, students prepare by reviewing materials that provide background and context for each speaker and students participate in a digital discussion forum, where they critically engage current issues facing contemporary art and culture and present informed positions and assessments of contemporary art practice. Students enrolled in the upper-division section of Art Now! will take into special consideration career and professional implications and opportunities by productively relating aspects of current art production and discourse to the development of their own work. This course provides an accessible, timely, and lively introduction to the multiple worlds of contemporary art and current art discourse, as well as being an excellent way to stay current with the latest developments.

**Repeatable:** *Y*

**DEI**

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 1 Maximum Credits 1**

### **ARTS 360 Junior Fine Arts BFA Studio**

In this course Fine Arts and Photography BFA students will amplify and enrich their individual artistic voice. Centered around the critique and critical investigation, the course emphasizes constructive analysis of one's own work and the work of others. Pursuing regular, structured, and well-researched art production and making, students are challenged to identify, represent, and defend their own values, to recognize the perspectives of others, and to develop critical skills for engaging in and presenting intellectual discourse around a range of work in various media and genres through presentation, discussion, critique, and critical and reflective writing. All Fine Arts BFA majors take this course in the spring semester of the junior year.

**Repeatable:** *N*

**Formerly** 22-3264

**Prerequisites** ARTS 110 Drawing I and ARTS 220 Painting I and ARTS 230 Printmaking I and ARTS 240 Sculpture I and ARTS 250 New Genres I or PHOT 102 Photographic Practice II

**Requirements** Junior Standing or Above (JR) Fine Arts or Photography Majors Only (PHAR)

**Minimum Credits 3 Maximum Credits 3**

### **ARTS 450 Senior Fine Arts Studio**

The Senior Fine Arts Studio provides intensive studio-centered work on a one-to-one basis with the instructor. The tutorial relationship is specifically designed for individual guidance on self-directed projects in order to help students achieve clarity of expression and further their conceptual, material, and process development. The development of sustained, self-directed studio practice is a central aspect of a professional practice. Students will meet both as a group to share goals and progress and individually with the instructor throughout the semester for intensive critique sessions. All Fine Arts BA and BFA students and BFA in Photography majors pursuing fine arts are required to take this course.

**Repeatable:** *N*

**Formerly** 22-4220

**Prerequisites** ARTS 110 Drawing I and ARTS 220 Painting I and ARTS 230 Printmaking I and ARTS 240 Sculpture I and ARTS 250 New Genres I or PHOT 102 Photographic Practice II

**Requirements** Senior Standing (SR) Fine Arts or Photography Majors Only (PHAR)

**Minimum Credits 3 Maximum Credits 3**

### **ARTS 463 Professional Practices in Fine Arts**

This course addresses professional issues such as portfolio preparation, proposal writing, budget preparation, approaching galleries, establishing alternative spaces, internships, residencies, and grant opportunities. Preparation for graduate school application and exhibition opportunities are central to the class.

**Repeatable:** *N*

**Formerly** 22-4200

**Requirements** Senior Standing (SR)

**Minimum Credits 3 Maximum Credits 3**

### **ARTS 465 Senior Fine Arts BFA Exhibition**

In this course, BFA in Fine Arts majors prepare for participation in their capstone BFA Fine Art exhibition at Manifest, the College's annual urban arts festival. The focus is on the specifics of selecting, preparing, and installing work for professional exhibition. Students also prepare professional promotional materials. This course culminates in the installation of work in exhibition spaces and the development of the BFA catalogue. All Fine Arts BFA majors are required to take this course in the spring semester of their senior year.

**Repeatable:** *N*

**Formerly** 22-4230

**Prerequisites** ARTS 450 Senior Fine Arts Studio  
Fine Arts Majors Only (M222)

**Minimum Credits 6 Maximum Credits 6**

*Choose one of the following courses:*

### **ARTH 105 Introduction to Visual Culture**

In this course, students will refine their skills of seeing, discussing, and writing about visual culture. Structured according to methodologies for visual analysis rather than chronology or artistic style, the course introduces students to critical approaches that can be applied to a wide range of images, objects and spaces. Through assignments that emphasize writing, research and presentation skills, students will explore a broad range of perspectives on visual literacy.

**Repeatable:** *N*

**Formerly** 22-1105

**HU DEI**

**Minimum Credits 3 Maximum Credits 3**

## **ARTH 105H Introduction to Visual Culture: Honors**

In this course, students will refine their skills of seeing, discussing, and writing about visual culture. Structured according to methodologies for visual analysis rather than chronology or artistic style, the course introduces students to critical approaches that can be applied to a wide range of images, objects, and spaces. Through assignments that emphasize writing, research, and presentation skills, students will explore a broad range of perspectives on visual literacy. This is an Honors course and in addition to any pre-requisites, students need a minimum 3.50 GPA to enroll.

**Repeatable: N**

**HU DEI**

**Requirements 3.5 or Higher GPA (35GP)**

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

## **ARTS 226 Color Strategies**

In this course, you will study the application and effective use of color. We will explore a range of historical and contemporary case studies, examining global and culture-specific color theory and color systems. You will utilize the knowledge and techniques covered throughout the semester in the production of a body of work related to your major area of study.

**Repeatable: N**

**Formerly 22-2960**

**Requirements Sophomore Standing or Above (SO)**

**Minimum Credits 3 Maximum Credits 3**

## **ARTS 231 Papermaking**

This class will qualify students in the basic techniques, materials, processes, and concepts used in the Papermaking Studio. Technique will be taught as a method of investigation and a material exploration of ideas. Projects will focus on using papermaking as an image making tool and sculptural material. Projects engaging micro-industry, environmental, and community-building models will also be considered. Students will gain skills in beating a variety of fibers, sheet forming, and other papermaking techniques.

**Repeatable: N**

**Formerly 66-2100**

**Requirements Sophomore Standing or Above (SO)**

**Minimum Credits 3 Maximum Credits 3**

## **ARTS 239 Artists' Books**

In this studio course you will be introduced to the tools and techniques of book construction as well as the conceptual possibilities and concerns of the book as a significant contemporary art form. You will construct a variety of blank book models, learn simple image transfer techniques, engage digital and risographic printing techniques, and produce your own artists' books. We will reflect on the artistic cultures of publication from mass produced offset runs to DIY zine cultures to one of a kind objects.

**Repeatable:** N

**Formerly** 22-2239

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **ARTS 251 Digital Media**

This course investigates issues of art and technology, and introduces digital devices and software for the production of image and time-based art works. Students will extend their understanding of the Adobe Creative Suite, and the digital processes artists use to extend their art practices using contemporary tools. The course will introduce history and current theory related to digital art making, sound and video art, and their broader application in art contexts. Students may also have the opportunity to extend their digital creations into physical space.

**Repeatable:** N

**Formerly** 22-2219

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **ARTS 299A Topics in Studio Art I:**

This rotating topics course introduces topics not addressed in the regular course offerings, and may engage new, experimental, or highly interdisciplinary approaches to art practice. This is a vital, open space for experimentation and for representing a diversity of art media, practices, and themes. Studio instruction may be augmented with field trips, slide lectures, readings, critiques, and discussions that help critically, currently, and historically situate the course topic.

**Repeatable:** Y

**Formerly** ARTS 299

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **ARTS 299B Topics in Studio Art I:**

This rotating topics course introduces topics not addressed in the regular course offerings, and may engage new, experimental, or highly interdisciplinary approaches to art practice. This is a vital, open space for experimentation and for representing a diversity of art media, practices, and themes. Studio instruction may be augmented with field trips, slide lectures, readings, critiques, and discussions that help critically, currently, and historically situate the course topic.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

*Choose three of the following courses:*

### **ARTS 320A Painting and Drawing II:**

In this intermediate/advanced studio course students have the opportunity for a focused, in-depth engagement with painting and drawing. Students will receive advanced instruction in a more specialized area of or approach to painting and drawing practice. Studio instruction may be augmented with field trips, slide lectures, readings, critiques, and discussion that help critically, currently, and historically situate

painting and drawing as fine arts practices. Topics include: Painting at Mural Scale; Painting and Projection; Painting the Figure; Storytelling; Abstraction.

**Repeatable:** Y

**Formerly** ARTS 320

**Prerequisites** ARTS 220 Painting I

**Minimum Credits** 3 **Maximum Credits** 3

### **ARTS 320B Painting and Drawing II:**

In this intermediate/advanced studio course students have the opportunity for a focused, in-depth engagement with painting and drawing. Students will receive advanced instruction in a more specialized area of or approach to painting and drawing practice. Studio instruction may be augmented with field trips, slide lectures, readings, critiques, and discussion that help critically, currently, and historically situate painting and drawing as fine arts practices. Topics include: Painting at Mural Scale; Painting and Projection; Painting the Figure; Storytelling; Abstraction.

**Repeatable:** Y

**Prerequisites** ARTS 220 Painting I

**Minimum Credits** 3 **Maximum Credits** 3

### **ARTS 331 Silkscreen**

This course will explore more intermediate and advanced level silkscreen printing techniques including cut, hand drawn and photographic stencils and printing on a variety of surfaces. Students will explore innovative and experimental fine art editioning practices in silkscreen and build a body of work that is conceptually, as well as technically, proficient.

**Repeatable:** Y

**Formerly** 22-3226

**Prerequisites** ARTS 230 Printmaking I

**Minimum Credits** 3 **Maximum Credits** 3

### **ARTS 333 Letterpress Studio**

Letterpress is the original broadcast medium: printing from movable type is a technological innovation that has had huge, far-reaching effects. Only a tiny percent of commercial printing is done using hand-set metal type anymore, but the entire discipline of typography was invented by the technological innovation of letterpress printing, and all the terms of typography have their genesis in metal, movable type. This class focuses on learning the printing techniques used in letterpress, understanding how the fundamental concepts in typography have their origins in metal type, and as opportunity to create a series of projects informed by these ideas and techniques. Students will learn letterpress printing through a series of demonstrations and studio projects.

**Repeatable:** N

**Formerly** 66-3426

**Minimum Credits** 3 **Maximum Credits** 3

### **ARTS 334 Lithography**

This course will introduce students to intermediate and more advanced lithographic processes including multi-color printing using aluminum plate and photo lithography. Students will explore innovative and

experimental fine art editioning practices in lithography and build a body of work that is conceptually, as well as technically, proficient.

**Repeatable:** *N*

**Formerly** 22-3224

**Prerequisites** ARTS 230 Printmaking I

**Minimum Credits 3 Maximum Credits 3**

## **ARTS 335 Etching**

In this course, you will explore a wide range of materials and techniques used to create the linear, tonal, and photographic images of the intaglio print. Basic techniques cover line etching for precise linework, drypoint for velvety and textured lines, soft ground for both crayon-like lines and textures, aquatint for tones, and lift grounds for the quality of watercolor. Inking techniques include black-and-white and color intaglio, and may include others such as à la poupée, stenciling, and chine collé for added color and texture. All processes will be discussed and demonstrated, along with photo etching techniques. You may be producing monoprints, collagraphs, and/or carborundum prints.

**Repeatable:** *N*

**Prerequisites** ARTS 230 Printmaking I

**Minimum Credits 3 Maximum Credits 3**

## **ARTS 340A Sculpture II:**

This intermediate/advanced studio course builds on the essential knowledge and skills gained in Sculpture I and provides students the opportunity for deeper creative exploration and artistic engagement in a specific area of sculptural object making. Studio instruction may be augmented with field trips, slide lectures, readings, critiques, and discussion that help critically, currently, and historically situate sculpture as a fine arts and design practice. Topics include: Digital Fabrication; Responsive Objects; Figurative Sculpture; Woodworking.

**Repeatable:** *Y*

**Formerly** ARTS 340

**Prerequisites** ARTS 240 Sculpture I

**Minimum Credits 3 Maximum Credits 3**

## **ARTS 340B Sculpture II:**

This intermediate/advanced studio course builds on the essential knowledge and skills gained in Sculpture I and provides students the opportunity for deeper creative exploration and artistic engagement in a specific area of sculptural object making. Studio instruction may be augmented with field trips, slide lectures, readings, critiques, and discussion that help critically, currently, and historically situate sculpture as a fine arts and design practice. Topics include: Digital Fabrication; Responsive Objects; Figurative Sculpture; Woodworking.

**Repeatable:** *Y*

**Prerequisites** ARTS 240 Sculpture I

**Minimum Credits 3 Maximum Credits 3**

## **ARTS 354 Installation/Site-Specific Art**

In this studio course, students are challenged to expand their visual and conceptual vocabulary using various spatial, time-based, and site-specific approaches to the creation of new work. Research and development, execution, documentation, and presentation of projects will be supported through course assignments. Classroom/studio activity will promote the creative process in a relationship between the artist's expression and the designated medium and site.

**Repeatable:** N

**Formerly** 22-3234

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **ARTS 356 Performance Art**

This course gives students a comprehensive introduction to the history and practice of performance art with a particular emphasis on the performative body in art since the 1960s, including experiments in live art in feminism and multiculturalism that have made particular use of performance. Students will respond to prompts to create their own performance works, which will be presented for critique. Particular emphasis will be placed on idea development and the role of the experiential in art production and reception.

Various documentation strategies will be covered in the class, including photographic and video techniques.

**Repeatable:** N

**Formerly** 22-3236

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **ARTS 499A Topics in Studio Art II:**

This is an advanced and open space for specific instruction in emergent contemporary art forms and specific critical practices. Studio instruction may be augmented with field trips, slide lectures, readings, critiques, and discussion that help critically, currently, and historically situate the course topic. Rotating topics may include: Multiples and Democratized Experience; Shaping Solid Light; Art Activism Studio; Art and Archives.

**Repeatable:** Y

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **ARTS 499B Topics in Studio Art II:**

This is an advanced and open space for specific instruction in emergent contemporary art forms and specific critical practices. Studio instruction may be augmented with field trips, slide lectures, readings, critiques, and discussion that help critically, currently, and historically situate the course topic. Rotating topics may include: Multiples and Democratized Experience; Shaping Solid Light; Art Activism Studio; Art and Archives.

**Repeatable:** Y

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## **Foundation Skill Electives**

*Complete 3 credits from the following courses:*

## **ARTS 113 Foundation Skill: Ideation Sketching**

This course will help students develop their visual skills through rapid sketching and ideation which helps visualize the design process. Students will be introduced to strategies for flat mapping, three dimensional object sketching, and temporal sequencing.

**Repeatable:** *N*

**Formerly** 22-1964

**Minimum Credits 1 Maximum Credits 1**

## **ARTS 120 Foundation Skill: Color Theory**

This course will focus on learning and applying color theories and systems. Students will solve color problems in traditional and digital formats.

**Repeatable:** *N*

**Formerly** 22-1965

**Minimum Credits 1 Maximum Credits 1**

## **ARTS 130 Foundation Skill: Silkscreening**

This course introduces the student to the techniques of screen printing through a series of exercises designed to integrate the core concepts of editions, stencils, photo stencils, half tones, color layers, and key plates, to produce a series of prints on paper.

**Repeatable:** *N*

**Formerly** 22-1962

**Minimum Credits 1 Maximum Credits 1**

## **ARTS 131 Foundation Skill: Stamps and Stencils**

This course introduces the student to techniques for making stamps and stencils through a series of exercises designed to integrate the core concepts of image replication, from hand-cut stamps and utility (X-Acto) knife-cut paint stencils to images that originated in software and are output via laser cutter.

**Repeatable:** *N*

**Minimum Credits 1 Maximum Credits 1**

## **ARTS 135 Foundation Skill: Papermaking**

In this course students will be introduced to the papermaking studio and learn to make pulp with a variety of plant fibers, using them in collage, lamination and simple 3-D construction methods. Additionally, students will learn the possibilities for hand papermaking as an artistic medium and in collaboration with print and book possibilities.

**Repeatable:** *N*

**Formerly** 22-1976

**Minimum Credits 1 Maximum Credits 1**

## **ARTS 141 Foundation Skill: Laser Cutter**

This course introduces students to laser cutting technology. Students use two-dimensional design skills to convert two-dimensional planar material into three-dimensional form and engage in a process that includes: visual research, designing work in scale, manual and digital drafting using Adobe Illustrator and digital output using laser technology.

**Repeatable:** *N*

**Formerly** 22-1977

**Minimum Credits 1 Maximum Credits 1**

### **ARTS 143 Foundation Skill: Mold Making**

This course introduces students to techniques in mold making for the creation of multiples. Students will create traditional one- and two-piece molds and explore the production of multiples utilizing press molding and slip casting.

**Repeatable:** *N*

**Formerly** 22-1975

**Minimum Credits 1 Maximum Credits 1**

### **ARTS 144 Foundation Skill: Wood**

This course will introduce students to the basic properties, characteristics, sizes, and connection requirements of wood in its natural and man-modified states (lumber, plywood, etc.). Students will also learn a wide variety of basic tools to modify and manipulate this material.

**Repeatable:** *N*

**Formerly** 22-1974

**Minimum Credits 1 Maximum Credits 1**

### **ARTS 145 Foundation Skill: 3D Printing**

This course introduces students to the basics of 3D Printing technology. Students learn how to create digital models using 3D modeling tools; how to prepare those digital models for 3D printing; and how to use 3D printers to create physical versions of their digital models. Students will additionally consider uses of 3D printing in a range of creative practices.

**Repeatable:** *N*

**Minimum Credits 1 Maximum Credits 1**

### **ARTS 150 Foundation Skill: Digital Camera**

Using a digital camera with manual controls students will be introduced to the process of making correct exposures. Basic techniques such as composition, depth of field, file management and lighting will also be covered. As this is a screen-based class, students will need access to a digital Single Lens Reflex Camera (dSLR), which can be checked out from the Art & Art History Media Center for short periods of time.

**Repeatable:** *N*  
**Formerly** 22-1967  
**Minimum Credits 1 Maximum Credits 1**

### **ARTS 151 Foundation Skill: Web Design**

This course introduces students to the use of HTML (hyper text markup language) and CCS (cascading style sheets) for web design.

**Repeatable:** *N*  
**Formerly** 22-1961  
**Minimum Credits 1 Maximum Credits 1**

### **ARTS 152 Foundation Skill: InDesign**

This course will introduce students to the basics of Adobe Indesign software, a layout and design tool used to create publications such as graphic novels and page layouts for portfolio presentations.

**Repeatable:** *N*  
**Formerly** 22-1968  
**Minimum Credits 1 Maximum Credits 1**

### **ARTS 153 Foundation Skill: Photoshop**

This class explores the basics of Adobe Photoshop, a software used for image editing and compositing. Image selection, layers, resolution, color correction, and image repair are among the topics covered.

**Repeatable:** *N*  
**Formerly** 22-1969  
**Minimum Credits 1 Maximum Credits 1**

### **ARTS 154 Foundation Skill: Illustrator**

This course introduces students to Adobe Illustrator, a digital application used to create illustrations and technical drawings. The creation of vector paths, as well as the application of strokes and fills, will be demonstrated. Students will explore use gradients, blends, and effects.

**Repeatable:** *N*  
**Formerly** 22-1970  
**Minimum Credits 1 Maximum Credits 1**

### **ARTS 155 Foundation Skill: Digital Video Editing**

In this one-credit course students use editing software like Adobe Premier to create their own short, polished videos. Technical topics include media importing, digital file formats, effects, color correction, keyframing, compression schemes, export, and more. Lectures and screenings will touch upon essential editing techniques to demonstrate the "why" in addition to the "how."

**Repeatable:** *Y*  
**Formerly** 22-1275  
**Minimum Credits 1 Maximum Credits 1**

### **ARTS 199A Topics in Foundation Skill:**

This course will focus on a specific foundational topic in art and design. The course will cover different material that might not be included in the permanent course offering.

**Repeatable:** Y

**Formerly** ARTS 199

**Minimum Credits 1 Maximum Credits 1**

### **ARTS 199B Topics in Foundation Skill:**

This course will focus on a specific foundational topic in art and design. The course will cover different material that might not be included in the permanent course offering.

**Repeatable:** Y

**Minimum Credits 1 Maximum Credits 1**

### **ARTS 199C Topics in Foundation Skill:**

This course will focus on a specific foundational topic in art and design. The course will cover different material that might not be included in the permanent course offering.

**Repeatable:** Y

**Minimum Credits 1 Maximum Credits 1**

## **Graphic Design, BFA**

The Bachelor of Fine Arts in Graphic Design program seeks to provide students with a rigorous, professionally focused education in visual communications. In addition to creating strong visuals, graphic designers create meaning and emotional responses in messages that influence choices we make in our daily lives. The program encourages a foundation of design research, forming a basis for visual creation with significant emphasis on creating unique concepts, creative solutions, and outcomes that are client specific.

Students will be challenged to demonstrate a broad understanding of issues in relation to cognitive, social, cultural, technological and economic concepts.

As a result of successfully completing program requirements, students should be able to:

- describe, analyze, and interpret visual communications within the social, historical and theoretical contexts;
- understand software for print, web and new media and gain the ability to seek out new uses for emerging technologies;
- use advanced skills in typography, layout, information design, packaging design and other applications to create clear and dynamic visual communication;
- apply primary and secondary research methods in the conceptualization and solution of design problems; and
- present a succinct, cohesive, critically edited and interpreted body of work.

A grade of C or better is required in all major coursework, and a GPA of 3.0 or higher is required in the major for BFA candidates.

**PROGRAM REQUIREMENTS - 72 credits required**

## **ANIM 270 Motion Graphics I**

Course teaches techniques to digitally integrate software and composite layers of images. Discussions of digital and optical effects from conception to design encourage students to make creative use of software.

**Repeatable:** *N*

**Formerly** 24-1420

**Prerequisites** INMD 120 Digital Image Design or GRDE 136 Design Lab or TELE 230 Production & Editing I or PHOT 202 Photographic Practice III or PHOT 206 Digital Imaging I or CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process

**Minimum Credits 3 Maximum Credits 3**

## **ARTH 225 History of Communication Design**

This course introduces students to the history of visual communication, including text and image. Lectures, slides, and discussions focus on the work of important practitioners in the field and on the historical and cultural significance of design, technology, and innovation. Materials in this course are especially relevant to the fields of graphic design, advertising, and illustration, and may also be of interest to students of photography, journalism, and the history and criticism of graphic design.

**Repeatable:** *N*

**Formerly** 22-2170

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **ARTS 105 Foundation Studio**

Foundation Studio teaches students how to solve art and design problems. It introduces critical strategies common to major areas of study offered within the departments of Art and Art History and Design, but is also applicable to many other fields in the creative sphere. Students are exposed to a diversity of materials and methods, and are encouraged to develop their own unique solutions through experimentation and collaboration. Assuming the role of problem-solver, students work on increasingly complex projects that culminate in a formalized demonstration of the ability to forge their own creative solutions.

**Repeatable:** *N*

**Formerly** 22-1925

**Minimum Credits 3 Maximum Credits 3**

## **ARTS 106 Fundamentals of Visual Design**

This course introduces students to elements and principles of visual design. While handling digital media through the use of industry-standard software (for example, Photoshop, Illustrator, and other Adobe Creative Suite programs), students investigate connections between formal analysis, concept, and ideas in pixel, vector, and motion-based imagery. Lectures and critiques advance verbal communication skills to cultivate facility with the formal language of art and design, building understandings of the relationships of perception, process, and presentation.

**Repeatable:** *N*

**Minimum Credits 3 Maximum Credits 3**

## **ARTS 110 Drawing I**

This course teaches students how to represent accurately and proportionately objects, planes, and volumes through line and tone by developing hand-to-eye coordination. Basics of form development, 1, 2 and 3 point perspective, composition, texture, and modeling through various shading techniques are explored in various exercises augmented by critiques, slide lectures, and discussions.

**Repeatable:** *N*

**Formerly** ARTS 210

**Minimum Credits 3 Maximum Credits 3**

## **BUSE 130 Business of Design**

This course introduces students to management practices in the design field. Students will investigate the business practices associated with a variety of design disciplines including graphic design, illustration, interior architecture, product design, web design, branding, marketing, photography, product design, and advertising design. Through an examination of functionality (mission/purpose, products/services, and target markets), clients/audience, organizational structure, strategy, and operations, students will understand the management of integrated design practices.

**Repeatable:** *N*

**Formerly** 28-1310

**Minimum Credits 3 Maximum Credits 3**

## **DSGN 110 Design Thinking**

This course introduces design thinking, and its theories and methods that are empathetic, human-centered, tolerant of ambiguity, and action-oriented. Design thinking is a creative, innovative process to identify and solve complex problems. In this course, students participate in a series of exercises and project challenges that are resolved using a holistic design thinking process.

**Repeatable:** *N*

**Minimum Credits 3 Maximum Credits 3**

## **DSGN 350 Portfolio**

Portfolio is a focal course designed to utilize work from other required courses within a student's major. Students explore concepts and professional techniques to develop, document, and curate a body of work for different audiences (think entering the job market), demonstrating a range of work, conceptual sophistication and technical proficiency. The course will allow students to demonstrate professionalism, verbal skills, and conceptual and critical thinking, while communicating a personal creative story in a compelling manner. Topics include archiving and curating a sequence, researching a target market, and self-branding.

**Repeatable:** *N*

**Formerly** 21-4385

**Requirements** Junior Standing or Above (JR) Design Majors Only (4DSG)

**Minimum Credits 3 Maximum Credits 3**

## **GRDE 136 Design Lab**

This course covers digital typesetting, layout, and image editing techniques for graphic design, illustration, and advertising. Topics covered include digital document construction and layout, typography formatting and specification, digital image editing, and application.

**Repeatable:** *N*  
**Formerly** 21-1320  
**Minimum Credits** 3 **Maximum Credits** 3

### **GRDE 231 Graphic Design I: Form and Structure**

As the basis for creating well-structured design outcomes, students in this course are provided opportunities to learn the basics of creating graphic design using the principles of form and structure. This course explores how graphic content informs the structure of visual compositions and client based outcomes. Instruction will engage students in developing conceptual thinking and problem-solving skills; observational and presentation skill; and knowledge of basic typography and color theory.

**Repeatable:** *N*  
**Formerly** 21-2330  
**Prerequisites** ARTS 105 Foundation Studio and GRDE 136 Design Lab or 22 1920 Making 2 and GRDE 136 Design Lab  
**Minimum Credits** 3 **Maximum Credits** 3

### **GRDE 232 Graphic Design II: Semiotics and Form**

Graphic design as a discipline is highly focused on creating graphic language. This language helps to organize information and to tell a brand story through consistent use of symbols. In this course, concepts will be synthesized into graphic form by use of symbology and typography as the major components in developing a graphic language as essential to brand building. Students will explore basic concepts of symbology as it pertains to basic graphic structure and universal communication. Outcomes will include 2-D and 3-D design solutions.

**Repeatable:** *N*  
**Formerly** 21-2350  
**Prerequisites** GRDE 231 Graphic Design I: Form and Structure  
**Concurrent Requisite** GRDE 238 Typography for Graphic Design  
**Minimum Credits** 3 **Maximum Credits** 3

### **GRDE 238 Typography for Graphic Design**

This course examines the historical, aesthetic, and cultural development of typographic forms from their beginnings in 1455 to the 21st century. Projects involve the examination of historical styles and theories of type design and typographic layouts, and their influence on modern and contemporary typography.

**Repeatable:** *N*  
**Formerly** 21-2340  
**Prerequisites** GRDE 231 Graphic Design I: Form and Structure  
**Minimum Credits** 3 **Maximum Credits** 3

### **GRDE 240 Website Design I**

This course covers website design topics, including hypertext, graphic style information, graphic file formats, digital imaging, and basic computer-user interface issues. Course assignments include design and execution of HTML documents and graphics.

**Repeatable:** *N*  
**Formerly** 21-2375

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **GRDE 305 Publication Design**

This course examines editorial operations, production procedures, and the roles of the art director and designer to familiarize students with theoretical and practical concerns of magazine and trade publication design and internet publishing. The course content emphasizes the identity of current publications as a result of design format and grid structure.

**Repeatable:** N

**Formerly** 21-3345

**Prerequisites** GRDE 238 Typography for Graphic Design and GRDE 232 Graphic Design II:Semiotics and Form

**Minimum Credits 3 Maximum Credits 3**

### **GRDE 317 Photo Communication**

In this course, students develop advanced understanding of photographic imagery and their application to design. Students develop visual language by shooting their own photographs, enhancing photo selections, and improving their editing skills. The course provides students an opportunity to conceptualize designs and the structures and forms of the digital photography they shoot. Students explore location photography and studio practices. Alternative ways to generate photographic images are reviewed.

**Repeatable:** N

**Formerly** ADAD 317

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **GRDE 331 Graphic Design III: Visual Identity and Narrative**

Building on Graphic Design I and II, students are provided the opportunity to understand methodologies and strategies used for building and maintaining narrative-based visual identities (branding). Students will employ advanced use of typographic skills; explore the development of culturally relevant messages and images, thus building longevity and viability in brand recognition. Corporate client projects focus on use of graphic design to express core values and impact consumer perceptions of the brand. Outcomes may include graphics and complete branding systems.

**Repeatable:** N

**Formerly** 21-3358

**Prerequisites** GRDE 232 Graphic Design II:Semiotics and Form and GRDE 238 Typography for Graphic Design

**Minimum Credits 3 Maximum Credits 3**

### **GRDE 332 Graphic Design IV: Narrative and Research Studio**

In this course students will use inquiry-based methods to find meaning and create narrative-based outcomes. Students are provided the opportunity to understand the importance of design research and information organization. Research phase includes: Data collection and analysis from various relevant sources. This highly intensive course employs advanced use of typography to create information graphics.

**Repeatable:** N

**Formerly** 21-3372

**Prerequisites** GRDE 331 Graphic Design III: Visual Identity and Narrative  
Graphic Design Majors Only (M213)

**Minimum Credits 3 Maximum Credits 3**

## **GRDE 340 Website Design II**

This course covers advanced topics in website design, covering human-computer interface design, multimedia use in internet and intranet publications, and network systems design and functions. Course assignments include design and execution of HTML documents, graphics, and other media objects.

**Repeatable:** *N*

**Formerly** 21-3376

**Prerequisites** GRDE 240 Website Design I

**Minimum Credits 3 Maximum Credits 3**

## **GRDE 348 Experimental Typography**

This course studies 20th- and 21st-century design philosophies and their influence on typography and typographic design. Projects allow students to experiment with type from a variety of approaches and examine its possibilities as expressive form in relation to syntax and visual communication.

**Repeatable:** *N*

**Formerly** 21-3370

**Prerequisites** GRDE 238 Typography for Graphic Design

**Minimum Credits 3 Maximum Credits 3**

## **GRDE 431 Graphic Design V: Branded Environments**

Branded environments are the most advanced form of graphic design as it pertains to all aspects of a complete branded experience. This advanced course encourages investigation and implementation of environmental graphics which impact spatial solutions, starting with narrative creation. In this course students will be given the opportunity to create branding solutions that will become environmental graphics. Students in this course will become familiar with different materials for printing and applying large-scale graphic solutions.

**Repeatable:** *N*

**Formerly** 21-4380

**Prerequisites** GRDE 332 Graphic Design IV: Narrative and Research Studio

**Minimum Credits 3 Maximum Credits 3**

## **GRDE 480 Graphic Design Practicum: Client Design Studio**

This course will create a collaborative, hands-on, real work/real world learning experience for upper level students in graphic design and related disciplines, including illustration and photography. Students will form teams and meet with clients to develop design briefs. Students will be given the opportunity to research, plan, design and produce solutions based on project needs/brief.

**Repeatable:** *N*

**Formerly** 21-4300

**Prerequisites** GRDE 431 Graphic Design V: Branded Environments

**Minimum Credits 6 Maximum Credits 6**

*Choose one of the following courses:*

### **ARTH 105 Introduction to Visual Culture**

In this course, students will refine their skills of seeing, discussing, and writing about visual culture. Structured according to methodologies for visual analysis rather than chronology or artistic style, the course introduces students to critical approaches that can be applied to a wide range of images, objects and spaces. Through assignments that emphasize writing, research and presentation skills, students will explore a broad range of perspectives on visual literacy.

**Repeatable:** *N*

**Formerly** 22-1105

**HU DEI**

**Minimum Credits 3 Maximum Credits 3**

### **ARTH 105H Introduction to Visual Culture: Honors**

In this course, students will refine their skills of seeing, discussing, and writing about visual culture. Structured according to methodologies for visual analysis rather than chronology or artistic style, the course introduces students to critical approaches that can be applied to a wide range of images, objects, and spaces. Through assignments that emphasize writing, research, and presentation skills, students will explore a broad range of perspectives on visual literacy. This is an Honors course and in addition to any pre-requisites, students need a minimum 3.50 GPA to enroll.

**Repeatable:** *N*

**HU DEI**

**Requirements** 3.5 or Higher GPA (35GP)

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

### **ARTS 333 Letterpress Studio**

Letterpress is the original broadcast medium: printing from movable type is a technological innovation that has had huge, far-reaching effects. Only a tiny percent of commercial printing is done using hand-set metal type anymore, but the entire discipline of typography was invented by the technological innovation of letterpress printing, and all the terms of typography have their genesis in metal, movable type. This class focuses on learning the printing techniques used in letterpress, understanding how the fundamental concepts in typography have their origins in metal type, and as opportunity to create a series of projects informed by these ideas and techniques. Students will learn letterpress printing through a series of demonstrations and studio projects.

**Repeatable:** *N*

**Formerly** 66-3426

**Minimum Credits 3 Maximum Credits 3**

### **GRDE 336 Design Lab II**

This course covers advanced desktop publishing techniques, illustrative techniques, and imaging possibilities on the Macintosh computer. The software applications covered include Adobe Photoshop, Illustrator, and InDesign. This course is designed for advanced-level students with a direction in graphic design or advertising art.

**Repeatable:** N

**Formerly** 21-3378

**Prerequisites** GRDE 136 Design Lab

**Minimum Credits** 3 **Maximum Credits** 3

*Choose one of the following courses:*

### **COLL 200 Internship**

This course allows students to take a valuable internship experience in their desired industry. Each position is vetted and approved by Career Center to ensure that it is an educational opportunity that will fulfill the learning objectives of the course. Participating in an internship allows the student to gain hands-on experience and explore career interests while applying knowledge and skills learned in the classroom to a work setting. The experience also helps students gain a clearer sense of what they still need to learn and provides an opportunity to build professional networks. Students are responsible for securing their own internships and having them approved prior to registering for this course. Please contact the Career Center for assistance and resources.

**Repeatable:** Y

**Formerly** 99-2000

**Requirements** Permission Required (DP)

**Minimum Credits** 0 **Maximum Credits** 0

### **COLL 210 Internship**

This course allows students to take a valuable internship experience in their desired industry for academic credit. Each position is vetted and approved by Career Center to ensure that it is an educational opportunity that will fulfill the learning objectives of the course. Participating in an internship allows the student to gain hands-on experience and explore career interests while applying knowledge and skills learned in the classroom to a work setting. The experience also helps students gain a clearer sense of what they still need to learn and provides an opportunity to build professional networks. Students are responsible for securing their own internships and having them approved prior to registering for this course. Please contact the Career Center for assistance and resources.

**Repeatable:** Y

**Formerly** 99-2100

**Requirements** Permission Required (DP)

**Minimum Credits** 1 **Maximum Credits** 1

### **COLL 230 Internship: Professionalism and Creativity**

This course allows students to take a valuable internship experience in their desired industry for academic credit. Each position is vetted and approved by Career Center to ensure that it is an educational opportunity that will fulfill the learning objectives of the course. Participating in an internship allows students to gain hands-on experience and explore career interests while applying knowledge and skills learned in the classroom to a work setting. The online, academic component of this internship fosters student understanding of how organizations operate and provides for structured reflection on their experiences and assessment of their knowledge and skills. Students are responsible for securing their own internships and should contact Career Center for assistance and resources to identify and apply for opportunities of interest.

**Repeatable:** Y

**Formerly** 99-2300

**Requirements** Permission Required (DP)  
**Minimum Credits 3 Maximum Credits 3**

## Illustration, BFA

The Bachelor of Fine Arts in Illustration program seeks to prepare students in the most current expressions of the illustrative arts. With a developed background in visual design and fine arts, illustrators may direct their pursuits and careers in various directions. Possible career paths include book and magazine publishing, advertising, company literature, packaging, television, commercial and feature film industries. The program seeks to provide students with critical thinking skills and strategies necessary to conceptualize and articulate ideas with appropriate media and to organize compositions to greater enhance communication. Studio and lecture courses expose students to the history and contemporary practice of illustration.

Students will be challenged to demonstrate a broad understanding of issues in relation to cognitive, social, cultural, technological, and economic contexts.

As a result of successfully completing program requirements, students should be able to:

- communicate an idea or a theory to an audience in a clear, dynamic manner based on informed decisions;
- apply materials, techniques, technology, and concepts to the vocabulary/terminology relative to digital and traditional illustration in a professional and advanced capacity;
- demonstrate an advanced proficiency in the creation and development of effective images;
- demonstrate skills and knowledge of digital/traditional techniques and vocabulary;
- demonstrate scholarship of illustration theories and practices from an historical perspective with a specialized knowledge of visual communications; and
- present a succinct, cohesive, critically edited and interpreted body of work.

A grade of C or better is required in all major coursework, and a GPA of 3.0 or higher is required in the major for BFA candidates.

## PROGRAM REQUIREMENTS - 70 credits required

### ARTS 105 Foundation Studio

Foundation Studio teaches students how to solve art and design problems. It introduces critical strategies common to major areas of study offered within the departments of Art and Art History and Design, but is also applicable to many other fields in the creative sphere. Students are exposed to a diversity of materials and methods, and are encouraged to develop their own unique solutions through experimentation and collaboration. Assuming the role of problem-solver, students work on increasingly complex projects that culminate in a formalized demonstration of the ability to forge their own creative solutions.

**Repeatable:** N

**Formerly** 22-1925

**Minimum Credits 3 Maximum Credits 3**

### ARTS 106 Fundamentals of Visual Design

This course introduces students to elements and principles of visual design. While handling digital media through the use of industry-standard software (for example, Photoshop, Illustrator, and other Adobe Creative Suite programs), students investigate connections between formal analysis, concept, and ideas in pixel,

vector, and motion-based imagery. Lectures and critiques advance verbal communication skills to cultivate facility with the formal language of art and design, building understandings of the relationships of perception, process, and presentation.

**Repeatable:** *N*

**Minimum Credits 3 Maximum Credits 3**

## **ARTS 110 Drawing I**

This course teaches students how to represent accurately and proportionately objects, planes, and volumes through line and tone by developing hand-to-eye coordination. Basics of form development, 1, 2 and 3 point perspective, composition, texture, and modeling through various shading techniques are explored in various exercises augmented by critiques, slide lectures, and discussions.

**Repeatable:** *N*

**Formerly** ARTS 210

**Minimum Credits 3 Maximum Credits 3**

## **DSGN 110 Design Thinking**

This course introduces design thinking, and its theories and methods that are empathetic, human-centered, tolerant of ambiguity, and action-oriented. Design thinking is a creative, innovative process to identify and solve complex problems. In this course, students participate in a series of exercises and project challenges that are resolved using a holistic design thinking process.

**Repeatable:** *N*

**Minimum Credits 3 Maximum Credits 3**

## **ILLU 101 Introduction to Illustration**

This course is designed to introduce students to the field of illustration and basic illustration processes. Students will experiment within a studio environment with a variety of traditional and digital materials, techniques, styles, and their hybrids. Classes are supplemented with a series of presentations on contemporary illustrators, market trends, demonstrations, and documentation.

**Repeatable:** *N*

**Minimum Credits 3 Maximum Credits 3**

## **ILLU 203 Illustration: Concept Art I**

This course examines the sketching process, using research to solve problems and various types of media to create clear and effective visual presentations.

**Repeatable:** *N*

**Formerly** 21-2401

**Prerequisites** ANIM 105 Introduction to Traditional Animation or ARTS 105 Foundation Studio or ARTS 110 Drawing I or GAME 205 2D Art for Games or ILLU 101 Introduction to Illustration

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **ILLU 204 Figure Drawing I**

In this course students are provided the opportunity through direct observation of the human form to learn skills in representing the human form using a variety of materials, by concentrating on proportion, light, shape, and movement. Slide discussions of master figure drawings set examples and standards.

**Repeatable:** Y

**Formerly** 21-2402

**Prerequisites** ANIM 105 Introduction to Traditional Animation or ARTS 110 Drawing I or GAME 205 2D Art for Games or ILLU 101 Introduction to Illustration

**Minimum Credits 3 Maximum Credits 3**

## **ILLU 212 Figure Drawing and Color**

In this course students create a series of expressive figure drawings through an exploration of projects, media and materials, and process documentation. Contemporary and historical approaches within figurative art and color will be presented and discussed. Utilizing a variety of textures and surfaces, collage and other media, students will be encouraged to seek connections between hand, eye, and mind, using the figure as subject and departure point. Emphasis is on expressive representations of gesture, movement, and form.

**Repeatable:** Y

**Formerly** 21-2405

**Prerequisites** ARTS 105 Foundation Studio or ARTS 110 Drawing I or ILLU 101 Introduction to Illustration

**Minimum Credits 3 Maximum Credits 3**

## **ILLU 213 Illustration History & Practice**

This course covers and analyzes the origins of contemporary illustration. The course examines, from a historical perspective, illustrators, illustration trends, styles, and techniques from print to animated motion pictures. Significant illustrators and illustrations are featured throughout the semester. Course objectives are to gain a better appreciation of illustration and its origins, as well as learning to analyze how illustration has reflected and influenced our society and culture today.

**Repeatable:** N

**Formerly** 21-3401

**Prerequisites** ILLU 203 Illustration: Concept Art I

**Minimum Credits 3 Maximum Credits 3**

## **ILLU 214 Illustration Studio I**

This course covers the fundamental process of illustration from conceptual development to application of traditional and digital media for books, magazines, journals, posters, and storyboards. The objectives of the course are to develop, from a historical perspective, the fundamental understanding of illustration as a form of visual expression, and to learn the basic principles of illustration as a form of communication.

**Repeatable:** N

**Formerly** 21-3402

**Prerequisites** ILLU 203 Illustration: Concept Art I

**Minimum Credits 3 Maximum Credits 3**

## **ILLU 303 Illustration: Concept Art II**

This course expands upon and refines the sketching-based processes, methods, media, and techniques covered in Illustration: Concept Art, stressing research, presentation skills, and the importance of drawn

environments. Completed projects are designed to support a variety of professional markets and create portfolio level artwork.

**Repeatable:** *N*

**Prerequisites** ILLU 203 Illustration: Concept Art I

**Minimum Credits 3 Maximum Credits 3**

## **ILLU 304 Figure Drawing II**

This course focuses on conceptual development, rendering techniques, experimentation, and stylization as a means of communication using clothed and nude models. Various media and techniques are explored.

**Repeatable:** *Y*

**Formerly** 21-3404

**Prerequisites** ILLU 204 Figure Drawing or 22 1285 Figurative Sculpture

**Minimum Credits 3 Maximum Credits 3**

## **ILLU 313 Illustration Studio II**

Professional applications of traditional and/or digital illustration related to a market-based portfolio. Assignments present industry-specific problems which encourage students to examine their process, project conceptualization, and personal style. The objective of this class is to create a collection of artwork for professional portfolio development.

**Repeatable:** *N*

**Formerly** 21-4401

**Prerequisites** ILLU 214 Illustration Studio I

**Requirements** Junior Standing or Above (JR) Illustration Majors Only (M214)

**Minimum Credits 3 Maximum Credits 3**

## **ILLU 314 Digital Illustration I**

This course helps students begin to master digital painting, drawing, and image processing techniques to extend and augment their skills and techniques with traditional media and methods. Students work with the latest painting and drawing software that digitally mimics traditional tools such as watercolor, oil paint, airbrush, and charcoal. Students also explore methods such as brush effects, compositing, masking, and collage as a resource for initiating, developing, and refining illustration concepts.

**Repeatable:** *N*

**Formerly** 21-3403

**Prerequisites** ILLU 214 Illustration Studio I

**Minimum Credits 3 Maximum Credits 3**

## **ILLU 320 Cartooning**

This course introduces different aspects and basic techniques of cartoon drawing, emphasizing clear, efficient visual storytelling, the art of composition, and establishing character and environment. Instruction includes the historical study of various types of cartoons (both from print and animation). Styles of cartoons, thematic types, narrative structures, and construction of cartoon characters are analyzed and explored.

**Repeatable:** *N*

**Formerly** 21-3406

**Prerequisites** ARTS 110 Drawing I or ILLU 204 Figure Drawing I or ILLU 203 Illustration: Concept Art I or ANIM 210 Drawing for Animation I or GAME 205 2D Art for Games

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **ILLU 330 Special Issues in Illustration**

This course allows students to work with a visiting illustrator to solve a particular illustration problem. Students learn specific technical and creative problem-solving methods from a leading illustrator in Chicago.

**Repeatable:** Y

**Formerly** 21-3408

**Prerequisites** ARTS 105 Foundation Studio or ARTS 110 Drawing I or 22 1920 Making 2

**Minimum Credits 1 Maximum Credits 3**

### **ILLU 414 Digital Illustration II**

In this course students study more advanced digital art making techniques, application usage and experimental digital processes. Projects may include advanced content creation for print, online interactive, and other media utilizing industry specific guidelines, graphics and design applications. Completed projects are designed to support a variety of professional markets and create portfolio level artwork.

**Repeatable:** N

**Prerequisites** ILLU 314 Digital Illustration I

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **ILLU 440 Drawing the Graphic Novel**

This course provides students with a means for creative self-discovery and the exploration of complex ideas. Students record their observations, experiences, and memories in a sketchbook and translate this material into various graphic narratives of varying lengths. The class explores the rhythms of storytelling and formal elements of comics. Students learn to compose comic pages using iconic visual language, while experimenting with a variety of tools, media, and approaches.

**Repeatable:** N

**Formerly** 21-4402

**Prerequisites** ILLU 320 Cartooning or ARTS 110 Drawing I or ILLU 204 Figure Drawing I or ILLU 203 Illustration: Concept Art I or ANIM 210 Drawing for Animation I or GAME 205 2D Art for Games

**Minimum Credits 3 Maximum Credits 3**

### **ILLU 441 Children's Book Illustration**

Students study the work of children's book illustrators and their techniques, sources of inspiration, and influences. Students experiment and develop individual graphic and illustrative styles with emphasis on practical application of children's book illustration for publishing in contemporary markets.

**Repeatable:** N

**Formerly** 21-4403

**Prerequisites** ILLU 214 Illustration Studio I or ILLU 320 Cartooning or ARTS 110 Drawing I or ILLU 204 Figure Drawing I or ILLU 203 Illustration: Concept Art I or ANIM 210 Drawing for Animation I or GAME

205 2D Art for Games

**Minimum Credits 3 Maximum Credits 3**

### **ILLU 442 Freelance Illustration**

This course combines analysis and personal expression to convey ideas via illustration. Content includes traditional and non-traditional methods and materials. Students apply previously learned skills and techniques to solve visual problems, as in a professional environment.

**Repeatable:** *N*

**Formerly** 21-4404

**Prerequisites** ILLU 314 Digital Illustration I or ILLU 360A Illustration: Materials & Techniques

**Minimum Credits 3 Maximum Credits 3**

### **ILLU 444 Illustration Studio III**

This course assists senior students majoring in illustration with the creation of competitive artwork and assembly of an illustration portfolio. The course also covers professional practices, career strategies, compensation, and industries of employment for illustrators. The objective of this class is to complete a collection of artwork for a portfolio and transition from students to their career.

**Repeatable:** *N*

**Formerly** 21-4406

**Prerequisites** ILLU 313 Illustration Studio II

**Requirements** Senior Standing (SR) Illustration Majors Only (M214)

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

### **ARTH 105 Introduction to Visual Culture**

In this course, students will refine their skills of seeing, discussing, and writing about visual culture. Structured according to methodologies for visual analysis rather than chronology or artistic style, the course introduces students to critical approaches that can be applied to a wide range of images, objects and spaces. Through assignments that emphasize writing, research and presentation skills, students will explore a broad range of perspectives on visual literacy.

**Repeatable:** *N*

**Formerly** 22-1105

**HU DEI**

**Minimum Credits 3 Maximum Credits 3**

### **ARTH 105H Introduction to Visual Culture: Honors**

In this course, students will refine their skills of seeing, discussing, and writing about visual culture. Structured according to methodologies for visual analysis rather than chronology or artistic style, the course introduces students to critical approaches that can be applied to a wide range of images, objects, and spaces. Through assignments that emphasize writing, research, and presentation skills, students will explore a broad range of perspectives on visual literacy. This is an Honors course and in addition to any pre-requisites, students need a minimum 3.50 GPA to enroll.

**Repeatable:** *N*

**HU DEI****Requirements** 3.5 or Higher GPA (35GP)**Minimum Credits** 3 **Maximum Credits** 3

*Choose one of the following courses:*

**ILLU 360A Illustration: Materials & Techniques**

Students will be given the opportunity to create innovative illustrations through the hands-on exploration of a series of materials- and techniques-based projects. Contemporary and historical approaches within the field of illustration will be presented and discussed. By engaging with a variety of textures and surfaces, watercolor and gauche painting, ink applications and other media, students will be encouraged to seek deeper connections between seeing, thinking, and making, as it relates to the field of illustration.

**Repeatable:** N**Formerly** ILLU 360**Prerequisites** ILLU 214 Illustration Studio I or ARTS 220 Painting I**Requirements** Junior Standing or Above (JR)**Minimum Credits** 3 **Maximum Credits** 3**ILLU 360B Illustration: Materials & Techniques**

Students will be given the opportunity to create innovative illustrations through the hands-on exploration of a series of materials and techniques-based projects. Contemporary and historical approaches within the field of illustration will be presented and discussed. By engaging with a variety of textures and surfaces, watercolor and gauche painting, ink applications and other media, students will be encouraged to seek deeper connections between seeing, thinking, and making, as it relates to the field of illustration.

**Repeatable:** N**Prerequisites** ILLU 214 Illustration Studio I or ARTS 220 Painting I**Requirements** Junior Standing or Above (JR)**Minimum Credits** 3 **Maximum Credits** 3

*Choose one of the following courses:*

**ARTH 311 Histories of the Graphic Novel**

This course will explore the multifaceted development of the graphic novel as an artistic form. The term "graphic novel" may have been coined in 1964, but the form itself has reached its current state from a variety of historical and cultural developments. Topics covered will range from Tijuana Bibles to Jack Chick tracts, from Classics Illustrated to the "Black-and-white Boom" of the 1980s, and from underground comix to the New York Times bestseller list. Readings will be a mixture of comics and secondary literature. Students will gain an understanding the of various artistic movements, publishing strategies, and cultural discourses which have led to wide-ranging possibilities exhibited in the graphic novels of today.

**Repeatable:** N**Requirements** Junior Standing or Above (JR)**Minimum Credits** 3 **Maximum Credits** 3**ILLU 310 History of Political and Social Illustration**

This course explores the history of illustration as a reflection of, comment upon, response to, and protest against society, politics and culture. Through a combination of lectures, journaling, quizzes, and research projects, students will refine their skills of seeing, analyzing, discussing, and writing about illustration. Structured primarily by theme, the lectures trace the boundaries of the illustration medium while providing chronological context.

**Repeatable:** *N*

**Formerly** 21-3405

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

## Interior Architecture, BFA

The Bachelor of Fine Arts in Interior Architecture program, accredited by the Council of Interior Design Accreditation (CIDA), seeks to provide education in design principles, visual and spatial conventions, and professional practice. Interior architects create environments that are visually engaging and supportive of client requirements while manipulating interior space, furniture and finishes to serve functional requirements and conceptual/artistic ends. In the college's state of the art fabrication facility, students may physically explore potential spatial solutions. Internships further knowledge of the design profession and build students' professional networks. Through coursework and within a community of peers, students can build the skills and portfolio necessary for an entry-level design position and the NCIDQ exam.

Program graduates are qualified to undertake the National Council for Interior Design Accreditation (NCIDQ) exam which, upon passage, may lead to licensed/titled status.

As a result of successfully completing program requirements, students should be able to:

- develop a deep understanding of design process and utilize this process in a competent manner;
- develop and gain a technical competency exceeding minimal entry-level professional expectations;
- become competent communicators, both verbal and written;
- develop graphic maturity;
- learn presentation techniques typical of the field and utilize these techniques in a manner consistent with entry-level professional expectations;
- be exposed to some full scale design-build opportunities during their studies;
- be qualified to undertake the first steps (IDFX) towards National Council for Interior Design Accreditation (NCIDQ) exam, leading to licensed/titled status (in states requiring such);
- actively participate in program-required internships, gaining exposure to real-world expectations and experience within the profession;
- be solidly prepared to enter the design profession as design team members;
- experience a broad range of project and client types;
- understand the opportunities that are presented in a multi-disciplinary environment;
- graduate with a competent knowledge of historical and contemporary precedent in art, architecture, and design and recognize the importance of such a knowledge;
- develop an awareness of, and sensitivity to, various socio-economic realities; and
- have opportunities to use their skills to improve lives of others.

## PROGRAM REQUIREMENTS - 80 credits required

### **ARTH 210 20th Century Art History**

This course surveys the history of modern art and critical theories from Post-Impressionism in the 1890s, covering major subsequent currents such as Cubism, Expressionism, Surrealism, Dada, The Harlem Renaissance, Abstract Expressionism, The Black Arts Movement and Post-modernism. Developments in design and architecture, such as the Bauhaus, International Style, and Post-modernism, will also be addressed.

**Repeatable:** *N*

**Formerly** 22-2110

**HU**

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **ARTS 105 Foundation Studio**

Foundation Studio teaches students how to solve art and design problems. It introduces critical strategies common to major areas of study offered within the departments of Art and Art History and Design, but is also applicable to many other fields in the creative sphere. Students are exposed to a diversity of materials and methods, and are encouraged to develop their own unique solutions through experimentation and collaboration. Assuming the role of problem-solver, students work on increasingly complex projects that culminate in a formalized demonstration of the ability to forge their own creative solutions.

**Repeatable:** *N*

**Formerly** 22-1925

**Minimum Credits 3 Maximum Credits 3**

## **DSGN 110 Design Thinking**

This course introduces design thinking, and its theories and methods that are empathetic, human-centered, tolerant of ambiguity, and action-oriented. Design thinking is a creative, innovative process to identify and solve complex problems. In this course, students participate in a series of exercises and project challenges that are resolved using a holistic design thinking process.

**Repeatable:** *N*

**Minimum Credits 3 Maximum Credits 3**

## **INTA 111 Contemporary Practice: InArch**

This foundation level course will introduce students to contemporary professional practice in the field of Interior Architecture. Participants will be provided an opportunity to gain an understanding of the role of the interior designer and the scope of the profession. Lectures focusing on contemporary case studies, discussions and small exercises allow the student to explore the profession before committing to the intensive post-foundation curriculum.

**Repeatable:** *Y*

**Formerly** 21-1801

**Minimum Credits 1 Maximum Credits 1**

## **INTA 115 Textiles for InArch**

In this course students will be introduced to the construction, use, application and design standards specific to textiles used in the interior environment. The course highlights awareness of fibers, material properties and performance criteria to provide students with a knowledge base from which to make informed design

choices.

**Repeatable:** *N*

**Formerly** 21-2811

**Prerequisites** INTA 111 Contemporary Practice: InArch

**Minimum Credits 1 Maximum Credits 1**

## **INTA 122 Interior Architecture Drawing**

This foundation level course provides students with the opportunity to represent actual and speculative interior space through drawing techniques employed by the interior architecture discipline.

**Repeatable:** *N*

**Minimum Credits 3 Maximum Credits 3**

## **INTA 131 Digital Media for InArch I**

This course introduces the digital workflow process employed by designers to communicate design intent through the use of several software applications. Using an interior architecture case study, students will explore orthographic drawing systems (plans, sections, and elevations). Students will make use of AutoCAD and Adobe Photoshop to create drawings, and InDesign for presentation preparation.

**Repeatable:** *N*

**Formerly** 21-1840

**Minimum Credits 3 Maximum Credits 3**

## **INTA 201 Design History: Spaces + Objects**

In this course, students will refine their skills of seeing, discussing, and analyzing the built environment and objects inhabiting it. Students will be exposed to the major movements and periods in interior architecture and design, furniture, and the decorative arts from the industrial revolution to current practice. In addition, students will explore a wide range of cultural, political, technological and material influences affecting changes in design of the built environment.

**Repeatable:** *N*

**Formerly** 21-2805

**Prerequisites** ARTH 105 Introduction to Visual Culture

**Minimum Credits 3 Maximum Credits 3**

## **INTA 211 Lighting for InArch**

In this course students explore illumination strategies and their impact on the design of the built environment. Strategies for impactful lighting design will be introduced through a series of lectures, discussions, and exercises culminating in a final lighting design project linked to InArch Introductory studio.

**Repeatable:** *Y*

Interior Architecture Majors Only (M215)

**Minimum Credits 3 Maximum Credits 3**

## **INTA 220 Human Factors, Building Code, and the Built Environment**

In this course, students will be introduced to codes, standards and guidelines that impact of interior spaces. The course focuses on protecting the health, safety, well-being of occupants.

**Repeatable:** *N*

**Formerly** 21-2815

**Prerequisites** INTA 251 InArch: Introductory Studio

**Minimum Credits 2 Maximum Credits 2**

## **INTA 231 Digital Media for InArch II**

This course develops proficiency in the digital workflow process employed by designers to communicate design intent through the use of several software applications. Using an interior architecture case study, students will explore building modeling techniques using a SketchUp and Rhino software to create explore 3D schematic visualizations, and parametric modeling of interior space.

**Repeatable:** *Y*

**Formerly** 21-2840

**Prerequisites** INTA 131 Digital Media for InArch I

**Minimum Credits 3 Maximum Credits 3**

## **INTA 232 Digital Media for InArch III**

This course develops fluency in the digital workflow process employed by designers to communicate design intent through the use of several software applications. Using a case study, students will explore modeling techniques using Revit.

**Repeatable:** *Y*

**Formerly** 21-2841

**Prerequisites** INTA 231 Digital Media for InArch II

**Minimum Credits 3 Maximum Credits 3**

## **INTA 240 Construction Documents I**

In this course, students will be introduced to construction document preparation using AutoCad utilizing a contemporary interior case study. Lectures, assignments, and exercises will review standard construction details.

**Repeatable:** *N*

**Formerly** 21-2850

**Prerequisites** INTA 122 Interior Architecture Drawing and INTA 251 InArch: Introductory Studio

**Minimum Credits 2 Maximum Credits 2**

## **INTA 251 InArch: Introductory Studio**

This course explores the relationship between space, form, and human interactions within the built environment. Students are introduced to basic theoretical principles through a series of projects of increasing complexity culminating in a hospitality focused space.

**Repeatable:** *N*

**Formerly** 21-2890

**Prerequisites** INTA 105 Human Dimension in InArch and INTA 122 Interior Architecture Drawing and INTA

131 Digital Media for InArch I

**Minimum Credits 4 Maximum Credits 4**

### **INTA 252 InArch: Surface Manipulation Studio**

This intermediate level studio introduces students to materiality in the built environment. Students will explore potential opportunities presented by the use of materials, pattern, texture, color, and light in the design of interior environments.

**Repeatable:** *N*

**Formerly** 21-2891

**Prerequisites** INTA 251 InArch: Introductory Studio and INTA 231 Digital Media for InArch II and INTA 210 Lighting for InArch

**Requirements** Permission Required (DP)

**Minimum Credits 6 Maximum Credits 6**

### **INTA 318 InArch: Corporate Studio**

This studio introduces the complexities of the design of large scale interior environments. Students will be introduced to in depth programming and space planning techniques applied to a variety of base buildings and client requirements.

**Repeatable:** *N*

**Formerly** 21-3885

**Prerequisites** INTA 252 InArch: Surface Manipulation Studio and INTA 232 Digital Media for InArch III and INTA 220 Human Factors, Building Code, and the Built Environment and INTA 240 Construction Documents I

**Requirements** Permission Required (DP)

**Minimum Credits 4 Maximum Credits 4**

### **INTA 324 InArch: Narrative Studio**

This design studio introduces students to narrative-driven space making. Studio will explore the spatial manifestation of personal, client and/or brand driven narratives through the design of small/medium scale spatial experiences. Emphasis will be placed on translating abstract theoretical ideas into constructible spatial solutions.

**Repeatable:** *N*

**Formerly** 21-3891

**Prerequisites** INTA 318 InArch: Corporate Studio and INTA 340 Construction Documents II and INTA 370 Anatomy of the Built Environment I

**Minimum Credits 4 Maximum Credits 4**

### **INTA 331 Digital Media for InArch IV**

In this advanced level course, students build upon their knowledge of the Interior Architecture digital workflow in creating presentations of complex spatial proposals. This course will build upon two- and three-dimensional representation skills developed in the Digital Media for InArch sequence. Students are encouraged to develop and refine personal representational techniques by exploring a wide variety of presentation options, culminating in a cohesive visual language.

**Repeatable:** *N*

**Prerequisites** INTA 232 Digital Media for InArch III  
**Minimum Credits 3 Maximum Credits 3**

## **INTA 350 Construction Documents II**

This course introduces the process of Building Information Modeling (BIM) to generate a set of construction documents using an approximately 5,000 sf interior case study. Lectures and projects focus on discipline-specific details, assemblies, and standards and how they are used to communicate design intent to allied disciplines.

**Repeatable:** Y

**Prerequisites** INTA 240 Construction Documents I  
Interior Architecture Majors Only (M215)  
**Minimum Credits 3 Maximum Credits 3**

## **INTA 370 Anatomy of the Built Environment I**

In this course, students will be introduced to the constructive context of the built environment, including allied disciplines, building systems, environmental concerns, and materials/processes typical of commercial interiors. Through lectures and potential site visits, participants will be provided the opportunity to gain insight into the impact of these realities on their proposed spatial solutions.

**Repeatable:** N

**Formerly** 21-3801  
**Prerequisites** INTA 240 Construction Documents I  
**Minimum Credits 3 Maximum Credits 3**

## **INTA 372 Anatomy of the Built Environment II**

In this course, students will be provided the opportunity to develop a deeper understanding of the constructed interior environment and how an advanced knowledge of environmental issues, the integration of the building envelope, building systems and standard/specialized constructive techniques inform design decisions. Through lectures and potential site visits, participants will have the opportunity to gain insight into the impact of these realities on their proposed spatial solutions.

**Repeatable:** N

**Formerly** 21-3811  
**Prerequisites** INTA 370 Anatomy of the Built Environment I  
**Minimum Credits 3 Maximum Credits 3**

## **INTA 410 Research Methods for InArch**

In this course, students will be introduced to a variety of methods and strategies for research which forms the basis of, and adds value, to the practice of design. Students will explore how research is integrated into the design process and produce work that will guide their Final Studio project.

**Repeatable:** N

**Formerly** 21-4810

**Prerequisites** INTA 324 InArch: Narrative Studio

**Minimum Credits 2 Maximum Credits 2**

## **INTA 415 Professional Practices in InArch**

In this course, students will be introduced to the business structures, project management, communication and delivery methods for design firms. Lectures will also cover the licensure process and networking.

**Repeatable:** *N*

**Formerly** 21-4815

**Prerequisites** INTA 324 InArch: Narrative Studio or INTA 426 InArch: Detail Studio

**Minimum Credits 1 Maximum Credits 1**

## **INTA 420 InArch: Portfolio Review**

In this course, students will continue working on their portfolios with an emphasis on the professional organization and representation of their creative output. Students will be provided the opportunity to understand various portfolio formats (print, digital, online, interactive), learn how to edit materials to suit specific applications, and become conversant with various resources within the college. Emphasis is placed on organization of the body of work developed previously, focusing on a specific area of expertise and individual goals.

**Repeatable:** *N*

**Formerly** 21-4816

**Prerequisites** INTA 324 InArch: Narrative Studio or INTA 426 InArch: Detail Studio

**Minimum Credits 1 Maximum Credits 1**

## **INTA 426 InArch: Detail Studio**

This design studio immerses students in the practice of interior architecture design detailing. Students will utilize detailing principles and processes, including hands-on prototyping, while working within the context of various sized design projects.

**Repeatable:** *N*

**Formerly** 21-3893

**Prerequisites** INTA 324 InArch: Narrative Studio and INTA 370 Anatomy of the Built Environment I

**Minimum Credits 4 Maximum Credits 4**

## **INTA 435 InArch: Final Studio**

This capstone design studio provides students the opportunity to apply the knowledge acquired throughout previous program coursework to a complex, socially/environmentally responsive design project. The course encourages individual expression through student-selected typologies.

**Repeatable:** *N*

**Formerly** 21-4890

**Prerequisites** INTA 410 Research Methods for InArch

**Minimum Credits 6 Maximum Credits 6**

*Choose one of the following courses:*

### **ARTH 105 Introduction to Visual Culture**

In this course, students will refine their skills of seeing, discussing, and writing about visual culture. Structured according to methodologies for visual analysis rather than chronology or artistic style, the course introduces students to critical approaches that can be applied to a wide range of images, objects and spaces. Through assignments that emphasize writing, research and presentation skills, students will explore a broad range of perspectives on visual literacy.

**Repeatable:** *N*

**Formerly** 22-1105

**HU DEI**

**Minimum Credits 3 Maximum Credits 3**

### **ARTH 105H Introduction to Visual Culture: Honors**

In this course, students will refine their skills of seeing, discussing, and writing about visual culture. Structured according to methodologies for visual analysis rather than chronology or artistic style, the course introduces students to critical approaches that can be applied to a wide range of images, objects, and spaces. Through assignments that emphasize writing, research, and presentation skills, students will explore a broad range of perspectives on visual literacy. This is an Honors course and in addition to any pre-requisites, students need a minimum 3.50 GPA to enroll.

**Repeatable:** *N*

**HU DEI**

**Requirements** 3.5 or Higher GPA (35GP)

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

### **COLL 410 Interior Architecture Internship**

Students are required to obtain and complete a 225-hour internship in the interior architecture field during their studies in the program. Each position is vetted and approved by Career Center to ensure that it is an educational opportunity that will fulfill the learning objectives of the course.

**Repeatable:** *Y*

**Prerequisites** INTA 252 InArch: Surface Manipulation Studio and INTA 232 Digital Media for InArch III

**Requirements** Permission Required (DP)

**Minimum Credits 0 Maximum Credits 0**

### **COLL 411 Interior Architecture Internship**

Students are required to obtain and complete a 225-hour internship in the interior architecture field during their studies in the program. Each position is vetted and approved by Career Center to ensure that it is an educational opportunity that will fulfill the learning objectives of the course.

**Repeatable:** *Y*

**Prerequisites** INTA 252 InArch: Surface Manipulation Studio and INTA 232 Digital Media for InArch III

**Requirements** Permission Required (DP)

**Minimum Credits 1 Maximum Credits 1**

# Musical Theatre Performance, BFA

The BFA in Musical Theatre Performance provides rigorous, intensive, pre-professional education in the skills and disciplines of musical theatre. We emphasize the synthesis of acting, singing and musicianship, dance technique and styles, and theatre history in order to prepare students for the demands of a field that values the contributions of a “triple threat” performer. Our program capacities are intentionally small to ensure individual attention, honing both the skills of the solo player as well as ensuring a strong commitment to an ensemble ethos.

BFA students are encouraged to put into practice what they learn in the classroom through the preparation and presentation of performances produced in the department. In the classroom, students work with a faculty of professionals in the field, who bring their expertise to the art, craft, and business of the theatre, with an emphasis on the ongoing need to grow as an artist if they choose to pursue a career in professional musical theatre.

BFA students are regularly evaluated to monitor their levels of achievement, progress and suggest directions for growth. Students must maintain a 3.0 GPA in the major, complete performance requirements, and demonstrate continued development in order to continue in the BFA program.

As a result of successfully completing program requirements, students should be able to:

- inhabit a psychologically and physically credible character through research, text analysis, rehearsal and exploration, and synthesize characterization onstage as an actor, singer and dancer;
- exhibit strong musicianship skills and vocal technique, and demonstrate song interpretation and musical role preparation abilities in a wide variety of styles and formats;
- demonstrate strong dance technique and articulate terminology in ballet, jazz, tap and musical theatre styles as an additional means of characterization that further the dramatic life of the scene;
- effectively communicate through speech and writing an advanced knowledge of musical theatre repertory and history;
- develop a strategy for entering the profession and sustaining a career through the creation of a business model for self-management as a performer/theatre maker; and
- articulate a knowledge of contemporary performance practice that deepens their skill set and broadens their professional opportunities.

## PROGRAM REQUIREMENTS - 81 credits required

### MUSC 104 Theory II for Musical Theatre

Theory II for Musical Theatre is a fundamental course tailored to musical theatre students in the Musical Theatre BA and Musical Theatre Performance BFA, as well as other programs. The course concentrates on the core theoretical concepts utilized in music and provides basic aural skills training incorporating genre appropriate music. The course combines study of the concepts of notation, rhythm, tonality, and harmony in the context of reading and aural perception of music through performance and dictation of melodies, intervals, triads, major and minor scales, chord progressions, and basic chord structures. Students learn the written musical theory for concepts addressed in the course and have the ability to demonstrate and apply them through dictation and performance.

**Repeatable:** *N*

**Formerly** 32-1170

**Prerequisites** MUSC 103 Theory I for Musical Theatre or MUSC-T-77 EXAM-MUSC MINIMUM SCORE =

77

Music Theatre Majors Only (2MUS)

**Minimum Credits 3 Maximum Credits 3**

### **MUSC 107 Fundamentals of Musical Theatre Singing**

This course is a beginning level class in singing for the musical theatre performer. It is designed to familiarize students with fundamental vocal techniques and musical theatre repertoire and to help students become comfortable with solo and ensemble singing onstage.

**Repeatable:** *N*

**Formerly** 32-1540

**Requirements** Permission Required (DP) Musical Theatre Majors Only (2MUS)

**Minimum Credits 3 Maximum Credits 3**

### **MUSC 176 Keyboard for Musical Theatre**

This course instructs students how to play the keyboard and how to read its notation on the grand staff. Students learn proper playing position and the necessary technique to play pentachords, cadential sequences, and major scales using both hands in all major and minor keys. In addition, students analyze, play, and transpose short melodies from popular and theater repertoire in major and minor keys in either hand; harmonize longer melodies in major and minor keys; sight read simple short melodies with both hands; and perform a short piece from a piano score using both hands.

**Repeatable:** *N*

**Formerly** 32-1131

Musical Theatre Majors Only (2MUS)

**Minimum Credits 2 Maximum Credits 2**

### **THEA 107 Theatre Survey II: American Drama**

The American theatre both reflects and creates American identity. This course will examine plays from the mid-nineteenth century through the present day to investigate the ways that Americans participated in the construction, and deconstruction, of Americans' sense of self. Rather than a complete review of American drama, this course will survey a range of content, form, and styles as they define American drama and American identity.

**Repeatable:** *N*

**Prerequisites** THEA 106 Theatre Survey I: Global Drama or THEA 124 Comedy Survey I or THEA 141

Musical Theatre Foundations

**Minimum Credits 2 Maximum Credits 2**

### **THEA 112 Theatre Foundation II: Performance**

In Theatre Foundation II: Performance students will explore presence, the audience/performer relationship and how to shape time, space and energy in work with scripted and devised material. This course is a continuation of Theatre Foundation I and provides a strong foundation for the performer through an integrated study of movement and voice, ensemble and performance. Students will investigate dramatic story telling by exploring the relationship between text and character and in working on monologues and two person scenes.

**Repeatable:** *N*

**Formerly** 31-1252

**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making or THEA 120 Comedy Foundations I: Ensemble and Discovery or THEA 141 Musical Theatre Foundations  
**Concurrent Requisite** THEA 107 Theatre Survey II: American Drama  
**Minimum Credits 4 Maximum Credits 4**

## **THEA 140 Musical Theatre History**

Required for Musical Theatre/Musical Theatre Performance majors, also open as elective to students in other majors. Course examines musical theatre history from beginnings through 'The Golden Age' of American song and the American musical to the present. Students study key figures, songs and shows in musical theatre, as well as social and cultural factors that influenced the form. Course develops research and critical thinking skills through reading and discussion of textbook, audio/visual presentations, essays, research projects, and tests.

**Repeatable:** N

**Formerly** 31-1400

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

## **THEA 141 Musical Theatre Foundations**

Musical Theatre (MT) Foundations prepares incoming students for their role as creative practitioners of musical theatre. Students investigate the elements and principles of the artistic process that can be applied to all aspects of creating musical theatre. The course develops students' awareness, observation and collaborative skills, and their ability to transpose experiences in the world of the play or musical into written, vocal and physical form. Production numbers that explore style and representative genres will be major projects. Readings, composition work in class, and attendance at productions deepen students' understanding and appreciation of the scope of contemporary musical theatre-making. The course will meet in a five-week sub session.

**Repeatable:** N

Musical Theatre Majors Only (3MUS)

**Minimum Credits 1 Maximum Credits 1**

## **THEA 202 Traditions of World Theatre**

This course will survey the dramas, history, and aesthetics of performance traditions from various locations around the world including Africa, Asia, Latin America, and the West (United States and Europe), emphasizing important developments and highlighting pivotal movements and participants within their broader historical, social, and cultural contexts. Through an examination of theatrical forms, expressive styles, and contributions of performance traditions from around the world, students will become acquainted with how theatre reflects and constitutes community and culture.

**Repeatable:** N

**Formerly** 31-2103

**HU DEI**

**Prerequisites** ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

## **THEA 203 Voice for the Actor**

This course teaches the practice of healthy vocal use by exploring the processes of speech production. Knowledge of the basic anatomy of the breathing musculature and vocal mechanism will support the student actor's developing technique. Particular attention will be paid to freeing both the body and voice from over-effort. The speech sounds of the General American English dialect will be introduced as a tool for students to develop energy and clarity in articulating thought. Students will build their palette of vocal expression through the use of dramatic text.

**Repeatable:** *N*

**Formerly** 31-2300

**Prerequisites** THEA 103 Voice for Non-Theatre Majors and THEA 101 Acting Basic Skills for Non-Acting Majors or THEA 112 Theatre Foundation II: Performance

**Minimum Credits 3 Maximum Credits 3**

## **THEA 205 Text Analysis**

This course introduces students to varying methods and approaches to script analysis. While students will become familiar with traditional methods of analysis, a significant emphasis will be placed on alternative and complementary methods including contemplation and intuitive responses, visualization and imagery, and somatic responses to play scripts. Through course readings, presentations, and group activities, furthermore, this course will familiarize students with vocabulary and strategies of analysis for actors, designers, and playwrights, thereby facilitating communication of production ideas.

**Repeatable:** *N*

**Formerly** 31-2120

**Prerequisites** THEA 111 Theatre Foundation I: Theatre Making and ENGL 112 Writing and Rhetoric II or THEA 111 Theatre Foundation I: Theatre Making and ENGL 112H Writing and Rhetoric II: Honors or THEA 111 Theatre Foundation I: Theatre Making and ENGL 122 International Writing and Rhetoric II or THEA 141 Musical Theatre Foundations and ENGL 112 Writing and Rhetoric II or THEA 141 Musical Theatre Foundations and ENGL 112H Writing and Rhetoric II: Honors or THEA 141 Musical Theatre Foundations and ENGL 122 International Writing and Rhetoric II

**Minimum Credits 3 Maximum Credits 3**

## **THEA 240 Musical Theatre Scene Study**

This course requires the musical theatre student to apply their knowledge of basic scene structure and musicality to material from the musical theatre repertoire. The students study and perform two or three-person scenes from musical theatre works with an eye towards introducing the synthesis of song, vocal technique, text, objectives and tactics to further the dramatic life of the material.

**Repeatable:** *N*

**Formerly** 31-2201

**Prerequisites** MUSC 107 Fundamentals of Musical Theatre Singing and THEA 102 Scene Study for Non-Acting Majors and THEA 143 Musical Theatre Dance I and MUSC 104 Theory II for Musical Theatre and THEA 140 Musical Theatre History or MUSC 107 Fundamentals of Musical Theatre Singing and THEA 112 Theatre Foundation II: Performance and THEA 143 Musical Theatre Dance I and MUSC 104 Theory II for Musical Theatre and THEA 140 Musical Theatre History

**Minimum Credits 3 Maximum Credits 3**

## **THEA 250 Character & Ensemble**

Students analyze the shifting alliances and conflicts that occur in scenes between three or more characters. This analytical work is explored in the context of heightened give and take, awareness, concentration and

focus demanded in a more populated stage space. Students are encouraged to make active, transformative choices in physical and vocal technique, and are expected to take responsibility for memorization, preparation and reflection that is essential to the actor's discipline. Students will present scenes for live and on-camera performance.

**Repeatable:** *N*

**Formerly** 31-2205

**Prerequisites** THEA 207 Scenes: Performance & Analysis and THEA 203 Voice for the Actor and THEA 205 Text Analysis or THEA 240 Musical Theatre Scene Study and THEA 203 Voice for the Actor and THEA 205 Text Analysis

**Minimum Credits 4 Maximum Credits 4**

## **THEA 251 Accents and Dialects**

This course asks students to examine and practice the 10 most commonly used English and foreign language dialects encountered in English-speaking theatre. Content emphasizes technical aspects of dialect, such as vowel and consonant pronunciation, lilt, rhythm, and vocabulary, and how they affect a theatrical character's personality.

**Repeatable:** *Y*

**Formerly** 31-2325

**Prerequisites** THEA 112 Theatre Foundation II: Performance or THEA 103 Voice for Non-Theatre Majors or RADI 105 Voice and Articulation

**Minimum Credits 3 Maximum Credits 3**

## **THEA 289 Musical Theatre Audition Workshop**

This workshop is specifically for students who plan to regularly audition for musical theatre, and focuses primarily on the singing portion of auditions. Discussion topics include how to create a well-rounded audition book, select and prepare audition song cuts, communicate with accompanists, and tailor auditions to specific shows/roles.

**Repeatable:** *N*

**Formerly** 31-2940

Musical Theatre Majors Only (3MUS)

**Minimum Credits 1 Maximum Credits 1**

## **THEA 340 Scenes and Songs**

In this multi-disciplinary course in acting and singing for musical theatre, students prepare and perform material from several genres of the musical theatre canon and apply dramaturgical research and text analysis to characterization. Students work to bring characters to life through complete physical, vocal and emotional transformation. Performance style will be introduced, and strong musicianship and vocal technique will continue to be integrated. Emphasis will be placed on working within a supportive ensemble aesthetic, developing a language of constructive feedback and participating in the growth of classmates' work.

**Repeatable:** *N*

**Formerly** 31-2400

**Prerequisites** THEA 205 Text Analysis and THEA 240 Musical Theatre Scene Study and MUSC 171 Primary Lessons or THEA 205 Text Analysis and THEA 240 Musical Theatre Scene Study and MUSC 271

Primary Lessons

**Minimum Credits 3 Maximum Credits 3**

### **THEA 390 Theatre Career**

This course will provide upper level Theatre majors with practical knowledge they will need to transition into careers in their field. Taught by our faculty of theatre professionals, this course explores: unions and contracts as they relate to theatre artists; models of producing: from the storefront theatre to LORT; creating a new theatre company; and self-promotion.

**Repeatable:** *N*

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 1 Maximum Credits 1**

### **THEA 426 Advanced Audition Techniques for Musical Theatre**

This is a comprehensive course that empowers advanced musical theatre students with the skills needed for successful auditions. The class defines an audition as a fully-realized performance strengthened by strategy, savvy presentation and marketing techniques. The course includes individual coachings on audition pieces (songs and monologues), vocal genres and styles, in-depth discussions on selecting material, understanding type, mock audition exercises under varied conditions, callback preparation, cold readings, the casting process, and the business of the business. BFA Musical Theatre Performance Majors only or permission of instructor.

**Repeatable:** *N*

**Formerly** 31-3926

**Prerequisites** THEA 240 Musical Theatre Scene Study

Musical Theatre Performance Majors Only (M313)

**Minimum Credits 3 Maximum Credits 3**

### **THEA 443 Musical Theatre III: Workshop I**

Musical Theatre Workshop is the year-long capstone training laboratory for seniors in the BFA in Musical Theatre Performance major. The class offers advanced-level training intended to add depth, polish, and finesse to the musical theatre actor's process. The class includes extensive scene work, small group and production numbers in a variety of styles, individual research and creative writing projects, the development of new work, master classes, and a final thesis project.

**Repeatable:** *N*

**Formerly** 31-3400

**Prerequisites** THEA 340 Scenes and Songs and THEA 243 Musical Theatre Dance II and THEA 250

Character & Ensemble and MUSC 176 Keyboard for Musical Theatre

Musical Theatre Performance Majors Only (M313)

**Minimum Credits 4 Maximum Credits 4**

### **THEA 444 Musical Theatre III: Workshop II**

Musical Theatre Workshop is the year-long capstone training laboratory for seniors in the BFA in Musical Theatre Performance major. The class offers advanced-level training intended to add depth, polish and finesse to the musical theatre actor's process. The class includes production numbers in a variety of styles, individual research and creative writing projects, the development of new work, master classes, and preparation for Senior Showcase.

**Repeatable:** N

**Formerly** 31-3405

**Prerequisites** THEA 443 Musical Theatre III: Workshop I  
Musical Theatre Performance Majors Only (M313)

**Minimum Credits 4 Maximum Credits 4**

*Complete 8 credits from the following courses:*

### **MUSC 171 Primary Lessons**

This course offers a progressive method through private instruction on a student's primary instrument for which a comparable Techniques Class Instruction is currently unavailable. Students must be registered in at least one other music course concurrently. The course is repeatable, but requires authorization by an area coordinator for first-time enrollment.

**Repeatable:** Y

**Formerly** 32-1771

**Prerequisites** MPRL-1-100 EXAM-MPRL MINIMUM SCORE = 100  
Music Department Students Only (8MUS)

**Minimum Credits 2 Maximum Credits 2**

### **MUSC 271 Primary Lessons**

This course offers private instruction at a developing level in voice or primary instrument for students registered in at least one other music course concurrently. The course is repeatable, but requires authorization by an area coordinator for first-time enrollment.

**Repeatable:** Y

**Formerly** 32-2771

**Prerequisites** MPRL-2-100 EXAM-MPRL MINIMUM SCORE = 100  
Music Department Students Only (8MUS)

**Minimum Credits 2 Maximum Credits 2**

### **MUSC 371 Primary Lessons**

This course offers private instruction at an intermediate level in voice or primary instrument for students registered in at least one other music course concurrently. The course is repeatable, but requires authorization by an area coordinator for first-time enrollment.

**Repeatable:** Y

**Formerly** 32-3771

**Prerequisites** MPRL-3-100 EXAM-MPRL MINIMUM SCORE = 100  
Music Department Students Only (8MUS)

**Minimum Credits 2 Maximum Credits 2**

*Complete 10 credits from the following courses:*

### **THEA 143 Musical Theatre Dance I**

This course is a practical approach to the basic techniques of musical theatre dance required of musical theatre majors at the beginning level. Each class includes ballet and jazz dance terminology, basic floor

combinations, and a variety of musical theatre dance styles. Students are offered a focused approach to develop performance skills and demonstrate improved flexibility, musicality and strength in ballet and jazz techniques. Students are introduced to musical theatre dance combinations and professional musical theatre audition procedures.

**Repeatable:** Y

**Formerly** 31-1430

Musical Theatre Majors Only (3MUS)

**Minimum Credits 2 Maximum Credits 2**

## **THEA 243 Musical Theatre Dance II**

This course expands the technical skills in musical theatre dance styles required of musical theatre majors at the intermediate level. Each class includes ballet and jazz dance terminology, floor combinations, a variety of musical theatre dance styles and mock auditions. Students are challenged with more complicated material, and greater demands are placed on speed of learning and retention of choreography for audition purposes. Significant attention is paid to audition practices and professional discipline.

**Repeatable:** Y

**Formerly** 31-2430

**Prerequisites** THEA 143 Musical Theatre Dance I

**Minimum Credits 2 Maximum Credits 2**

## **THEA 440 Musical Theatre Dance III**

This course incorporates all techniques and performance skills acquired in previous musical theatre dance levels, with an emphasis on the elements of style in musical theatre dance. Students frequently learn original Broadway choreography. Attention focuses on developing advanced audition and performance skills in preparation for seeking employment in the musical theatre industry. Significant attention is placed on audition practices and professional discipline. Students are required to audition for Columbia College Theatre Department as well as professional theatre productions.

**Repeatable:** Y

**Formerly** 31-3430

**Prerequisites** THEA 243 Musical Theatre Dance II

**Minimum Credits 2 Maximum Credits 2**

## **THEA 442 Musical Theatre Choreography Lab**

This course explores musical theatre dance from a choreographer's perspective. Students research a variety of classic and/or contemporary styles of musical theatre dance. Exercises in music choice, character development, choreographic patterns, partner work, use of props, and creative concepts will be emphasized. Required projects include creating two choreography pieces utilizing this research as inspiration to develop an original choreographic expression. Students engage in a collaborative environment to develop these choreographic works and present them in a formal performance environment.

**Repeatable:** Y

**Formerly** 31-3436

**Prerequisites** THEA 440 Musical Theatre Dance III and THEA 140 Musical Theatre History

**Minimum Credits 1 Maximum Credits 1**

*Complete 4 credits from the following courses:*

## **THEA 145 Beginning Musical Theatre Tap**

This course develops dance technique and repertoire within the specialized styles of musical theatre tap and is required of musical theatre majors at the beginning level. Each class includes tap terminology, rhythm progressions, and Broadway-style tap combinations. Students are offered a focused approach to develop performance skills and demonstrate improved flexibility, strength, and the ability to execute basic rhythm sequences. Students are introduced to tap dance combinations and professional musical theatre audition procedures.

**Repeatable:** Y

**Formerly** 31-1431

**Prerequisites** THEA 143 Musical Theatre Dance I

**Minimum Credits 2 Maximum Credits 2**

## **THEA 245 Intermediate Musical Theatre Tap**

This course develops technique, performance, and repertoire within the specialized styles of musical theatre tap required of musical theatre majors at the intermediate level. Each class includes tap terminology, rhythm progressions, Broadway-style tap combinations, and mock auditions. Emphasis will be placed on speed of learning and retention of choreography for audition purposes. Significant attention is paid to audition practices and professional discipline.

**Repeatable:** Y

**Formerly** 31-2431

**Prerequisites** THEA 145 Beginning Musical Theatre Tap

**Minimum Credits 2 Maximum Credits 2**

## **THEA 345 Advanced Musical Theatre Tap**

This course develops technique, performance, and repertoire within the specialized styles of musical theatre tap at the advanced level. Focus will be placed on complex rhythms, progressions, and mock auditions. Original Broadway choreography and student choreography projects are included as part of the required assignments. Significant attention is placed on professional audition practices. Students are required to audition for Columbia College Theatre Department as well as professional theatre productions.

**Repeatable:** Y

**Formerly** 31-3435

**Prerequisites** THEA 245 Intermediate Musical Theatre Tap

**Minimum Credits 2 Maximum Credits 2**

*Complete 3 credits from the following courses:*

## **THEA 285 Creating a Performance**

This course is required for all students that are chosen to rehearse, design and perform a main stage production of the Theatre department. The ensemble will include design, production, and acting members. Each will work as a specialist within their area of concentration, but also as an ensemble member who will seek and give input outside the area of their growing expertise. Students will use collaborative models appropriate to the involvement required at different stages of creative and practical performance development.

**Repeatable:** Y

**Formerly** 31-2960

**Requirements** Permission Required (DP)

**Minimum Credits** 3 **Maximum Credits** 3

## **THEA 286 Production and Performance**

Creative participation as a performer, designer, technician or crew member in Student Directing Projects, New Stew Showcases, Comedy or Faculty Workshop, or other department performances.

**Repeatable:** Y

**Formerly** 31-2301

**Requirements** Permission Required (DP)

**Minimum Credits** 0 **Maximum Credits** 2

*Choose one of the following courses:*

## **THEA 301 Advanced Acting: Heightened Languages**

Students will develop performance and analytical skills demanded by texts with heightened language. Emphasis will be placed on how heightened language supports acting choices, and on physical engagement with the text through breath, resonance and the tactile feel of language. Students will research and perform texts from a wide spectrum of cultural, economic and social diversity. This is an advanced acting class that synthesizes learning from previous classes in text analysis, theater history, scene study and vocal and physical training.

**Repeatable:** N

**Formerly** 31-3204

**Prerequisites** THEA 250 Character & Ensemble and THEA 143 Musical Theatre Dance I or THEA 204 Movement for the Actor and THEA 250 Character & Ensemble

**Minimum Credits** 3 **Maximum Credits** 3

## **THEA 302 Advanced Acting: Physical Approaches**

Students will develop performance and devising skills that are based in the physicality of the actor. Emphasis will be on different physical approaches that investigate impulse, energy, 'spine' and the kinesthetic relationship between performers. Students will research and explore performance representing a wide spectrum of cultural, economic and social diversity. This is an advanced acting class that synthesizes learning from previous classes in text analysis, theater history, scene study and vocal and physical training.

**Repeatable:** N

**Formerly** 31-3200

**Prerequisites** THEA 250 Character & Ensemble and THEA 143 Musical Theatre Dance I or THEA 250 Character & Ensemble and THEA 204 Movement for the Actor

**Minimum Credits** 3 **Maximum Credits** 3

## **THEA 304 Advanced Acting: On-Camera Performance**

Students develop the skills, terminology and etiquette for performance in the on-camera environment. This combined class works with television and/or film directors to collaborate in rehearsal, performance, capture and post-production processes. Students learn how to prepare for auditions and on-camera performances by taking an active role shaping their own performances in relation to text, character, presentation and performance context. Students also consider how to be compositional 'within the frame', how to maintain

continuity, and how to make discoveries from take to take.

**Repeatable:** *N*

**Prerequisites** THEA 250 Character & Ensemble

**Minimum Credits 3 Maximum Credits 3**

### **THEA 305 Advanced Acting: Realism**

Students will develop their performance skills and experience with the stylistic concepts of realism and naturalism. Emphasis is placed on the work the performer must do to activate the text and explore relationships between characters. The audience/performance relationship associated with realism will be considered. Students will research and perform texts from a wide spectrum of cultural, economic and social perspectives. This is an advanced acting class that combines learning from previous classes in text analysis, theater history, scene study and vocal and physical training.

**Repeatable:** *N*

**Prerequisites** THEA 250 Character & Ensemble and THEA 204 Movement for the Actor or THEA 250 Character & Ensemble and THEA 143 Musical Theatre Dance I

**Minimum Credits 3 Maximum Credits 3**

### **THEA 306 Advanced Acting: Presentational Theatre**

Students will develop their skills and experience with performance styles from a range of theatrical periods and playwrights focusing on absurd, expressionistic, political, surrealistic and current dramatic styles in which the performer acknowledges the act of performance. The audience/performance relationship will be widely explored. Students will research and perform texts from a wide spectrum of cultural, economic and social perspectives. This is an advanced acting class that combines learning from previous classes in text analysis, theater history, scene study and vocal and physical training.

**Repeatable:** *N*

**Formerly** 31-3228

**Prerequisites** THEA 250 Character & Ensemble and THEA 204 Movement for the Actor or THEA 250 Character & Ensemble and THEA 143 Musical Theatre Dance I

**Minimum Credits 3 Maximum Credits 3**

### **THEA 307 Advanced Acting: Comedic Performance**

Students will develop their performance skills and experience with a variety of comedic materials from a range of theatrical periods and playwrights. Emphasis will be placed on the creative exploration of comedy through language, physicality and relationship. Cultural considerations about comedy will be investigated. Students will research and perform texts from a wide spectrum of cultural, economic and social perspectives. This is an advanced acting class that synthesizes learning from previous classes in text analysis, theater history, scene study and vocal and physical training.

**Repeatable:** *N*

**Prerequisites** THEA 250 Character & Ensemble and THEA 204 Movement for the Actor or THEA 250 Character & Ensemble and THEA 143 Musical Theatre Dance I

**Minimum Credits 3 Maximum Credits 3**

## **Photography, BFA**

The Bachelor of Fine Arts in Photography program seeks to provide students with a rigorous, professionally focused education in visual communications. The Bachelor of Fine Arts in Photography program trains students to develop a photography practice with a strong focus on visual communication informed by the broad culture, history, and theory of the medium. The BFA in Photography further explores the processes of conceptualizing, creating, and delivering a body of work that sits at the intersection of craft and innovation. Students cultivate their creative voice while honing the digital expertise, research acumen, and critical thinking skills required to be innovative leaders in the rapidly evolving photography industry.

Through the program's emphasis on cross genre and cross disciplinary practice, students gain a broader perspective to inform their photography practice. Critical dialogue and collaborative opportunities are vital components of the program, and students are strongly encouraged to collaborate across disciplines to fuel creative exploration. Students will be challenged to demonstrate a broad understanding of issues in relation to social, cultural, technological, and economic concepts. Students may join the BFA program either through direct enrollment or by application during the sophomore year.

As a result of successfully completing program requirements, students should be able to:

- use best practice primary and secondary research to communicate photography industry-related concepts and solutions;
- effectively apply advanced craft techniques, technology, and vocabulary/terminology relative to the production of their work;
- translate historical and theoretical concepts into their photography practice;
- understand the importance of photographic representation in context of diversity and equity in order to help create a more inclusive future for the medium;
- execute all stages of the design process from creative problem solving to concept development to design and fabrication;
- describe, analyze, interpret, and contextualize their work and the work of others in relation to the broader canon of creative photographic production;
- develop and present a cohesive and competitive professional body of work; and
- competitively pursue graduate education and/or practice as a photographic artist in the marketplace and in arts-related fields.

## PROGRAM REQUIREMENTS - 72 credits required

### **ARTH 105 Introduction to Visual Culture**

In this course, students will refine their skills of seeing, discussing, and writing about visual culture. Structured according to methodologies for visual analysis rather than chronology or artistic style, the course introduces students to critical approaches that can be applied to a wide range of images, objects and spaces. Through assignments that emphasize writing, research and presentation skills, students will explore a broad range of perspectives on visual literacy.

**Repeatable:** *N*

**Formerly** 22-1105

**HU DEI**

**Minimum Credits 3 Maximum Credits 3**

### **ARTH 210 20th Century Art History**

This course surveys the history of modern art and critical theories from Post-Impressionism in the 1890s, covering major subsequent currents such as Cubism, Expressionism, Surrealism, Dada, The Harlem Renaissance, Abstract Expressionism, The Black Arts Movement and Post-modernism. Developments in

design and architecture, such as the Bauhaus, International Style, and Post-modernism, will also be addressed.

**Repeatable:** *N*

**Formerly** 22-2110

**HU**

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits** 3 **Maximum Credits** 3

### **ARTS 105 Foundation Studio**

Foundation Studio teaches students how to solve art and design problems. It introduces critical strategies common to major areas of study offered within the departments of Art and Art History and Design, but is also applicable to many other fields in the creative sphere. Students are exposed to a diversity of materials and methods, and are encouraged to develop their own unique solutions through experimentation and collaboration. Assuming the role of problem-solver, students work on increasingly complex projects that culminate in a formalized demonstration of the ability to forge their own creative solutions.

**Repeatable:** *N*

**Formerly** 22-1925

**Minimum Credits** 3 **Maximum Credits** 3

### **ARTS 450 Senior Fine Arts Studio**

The Senior Fine Arts Studio provides intensive studio-centered work on a one-to-one basis with the instructor. The tutorial relationship is specifically designed for individual guidance on self-directed projects in order to help students achieve clarity of expression and further their conceptual, material, and process development. The development of sustained, self-directed studio practice is a central aspect of a professional practice. Students will meet both as a group to share goals and progress and individually with the instructor throughout the semester for intensive critique sessions. All Fine Arts BA and BFA students and BFA in Photography majors pursuing fine arts are required to take this course.

**Repeatable:** *N*

**Formerly** 22-4220

**Prerequisites** ARTS 110 Drawing I and ARTS 220 Painting I and ARTS 230 Printmaking I and ARTS 240 Sculpture I and ARTS 250 New Genres I or PHOT 102 Photographic Practice II

**Requirements** Senior Standing (SR) Fine Arts or Photography Majors Only (PHAR)

**Minimum Credits** 3 **Maximum Credits** 3

### **COLL 230 Internship: Professionalism and Creativity**

This course allows students to take a valuable internship experience in their desired industry for academic credit. Each position is vetted and approved by Career Center to ensure that it is an educational opportunity that will fulfill the learning objectives of the course. Participating in an internship allows students to gain hands-on experience and explore career interests while applying knowledge and skills learned in the classroom to a work setting. The online, academic component of this internship fosters student understanding of how organizations operate and provides for structured reflection on their experiences and assessment of their knowledge and skills. Students are responsible for securing their own internships and should contact Career Center for assistance and resources to identify and apply for opportunities of interest.

**Repeatable:** *Y*

**Formerly** 99-2300

**Requirements** Permission Required (DP)  
**Minimum Credits 3 Maximum Credits 3**

### **GRDE 136 Design Lab**

This course covers digital typesetting, layout, and image editing techniques for graphic design, illustration, and advertising. Topics covered include digital document construction and layout, typography formatting and specification, digital image editing, and application.

**Repeatable:** *N*  
**Formerly** 21-1320  
**Minimum Credits 3 Maximum Credits 3**

### **GRDE 231 Graphic Design I: Form and Structure**

As the basis for creating well-structured design outcomes, students in this course are provided opportunities to learn the basics of creating graphic design using the principles of form and structure. This course explores how graphic content informs the structure of visual compositions and client based outcomes. Instruction will engage students in developing conceptual thinking and problem-solving skills; observational and presentation skill; and knowledge of basic typography and color theory.

**Repeatable:** *N*  
**Formerly** 21-2330  
**Prerequisites** ARTS 105 Foundation Studio and GRDE 136 Design Lab or 22 1920 Making 2 and GRDE 136 Design Lab  
**Minimum Credits 3 Maximum Credits 3**

### **PHOT 102 Photographic Practice II**

This course reinforces the basic understanding of camera functions, exposure and digital workflow that were taught in PHOT101 Photographic Practice I. It introduces the skills necessary to make and analyze high-quality prints and places greater emphasis on color theory. This course reinforces and expands upon critical thinking skills regarding the diversity of contemporary photographic imagery, and helps students to locate their practice within those traditions and innovations.

**Repeatable:** *N*  
**Formerly** 23-1112  
**Prerequisites** PHOT 101 Photographic Practice I  
**Minimum Credits 3 Maximum Credits 3**

### **PHOT 202 Photographic Practice III**

In this course, practical and theoretical applications of photographic skills will be further developed to support a holistic approach to making and critical-thinking. Ideas of integrated software workflows, refining capturing and output skills along with project management will be covered.

**Repeatable:** *Y*  
**Prerequisites** PHOT 102 Photographic Practice II  
**Minimum Credits 3 Maximum Credits 3**

### **PHOT 205 Principles of Light**

Building upon skills learned in previous classes, this foundation level photography course introduces methods for controlling light in the studio and on location. Artificial light sources, both continuous and strobe and hand held light meters are explored. Students will have the opportunity to engage with a variety of lighting concepts and techniques broadly applicable to the various fields of photography.

**Repeatable:** Y

**Prerequisites** PHOT 102 Photographic Practice II

**Minimum Credits 3 Maximum Credits 3**

## **PHOT 209 Principles of Light II**

Building upon previous skills learned, this course expands the student's knowledge of how to apply controlled artificial and natural light to a given subject both on location and in the studio. Students will gain knowledge of professional studio practices with the use of strobe lighting, mixed lighting, digital capture and color-managed workflow. Emphasis is placed on commercial and fashion lighting.

**Repeatable:** N

**Formerly** 23-2310

**Prerequisites** PHOT 205 Principles of Light

**Minimum Credits 3 Maximum Credits 3**

## **PHOT 251 History of Photography I**

This course examines the emergence of photography and the medium's role in both reflecting and shaping the cultural, social, political, economic, and scientific context of modernity from 1839-1940. Emphasis will be placed on acquiring knowledge about this historical period - especially early photographic technologies, the critical response to photography, and the diverse applications of the medium - while also drawing parallels between this history and contemporary issues. Students will be introduced to various methods of historical investigation through a balance of lectures, discussions, field trips to view historic photographic objects, primary and secondary source readings, group projects, writing assignments, and/or tests.

**Repeatable:** N

**Formerly** 23-2650

**Minimum Credits 3 Maximum Credits 3**

## **PHOT 252 History of Photography II**

This course examines photography's central role in both reflecting and shaping the cultural, social, political, economic, and scientific context from 1940 to the present. In addition to examining the medium's major movements and practitioners within this context, the course will also emphasize the developing history, theory, and criticism of the medium and its relationship to modernism and postmodernism in other media. Students will be introduced to various methods of historical investigation through a balance of lectures, discussions, field trips to view historical photographic objects, primary and secondary source readings, group projects, writing assignments, and/or tests.

**Repeatable:** N

**Formerly** 23-2655

**Prerequisites** PHOT 251 History of Photography I

**Minimum Credits 3 Maximum Credits 3**

## **PHOT 362 Image Strategies**

This is a course that is designed to cause the student to think outside the box of the single photographic frame. Photographs are rarely seen in isolation. As such, students will consider the many ways that context affects, alters, and augments the content of their images. The course allows the student to re-contextualize their photographs with text and other imagery and as books, as installations, and within various social media platforms.

**Repeatable:** Y

**Prerequisites** PHOT 202 Photographic Practice III and PHOT 205 Principles of Light

**Minimum Credits 3 Maximum Credits 3**

## **PHOT 365 Video for Photographers**

This course will introduce students to video capture using DSLR cameras, and to editing techniques utilizing a variety of software. Concepts and strategies in how to integrate the moving image into a photography practice will be covered. Applications of the moving image within fashion, fine art, commercial and photojournalism / documentary will be explored.

**Repeatable:** N

**Formerly** 23-3205

**Prerequisites** PHOT 202 Photographic Practice III

**Minimum Credits 3 Maximum Credits 3**

## **PHOT 401 Photography Seminar**

This course teaches students how to develop and shape a rigorous self-directed, long-term photography project relevant to their photographic, interests, and professional ambitions. This course is designed to encourage students to work in a more independent manner and increase their expertise in seeing, editing and problem solving. Students will also engage in a long-term research project that relates to and informs their photographic work. Students learn to create work based on personal concerns and values as well as increase their capacity to speak and write articulately about their work. Students will also engage with professional practitioners in the field through lectures, writings, and in-class visiting lecturers to develop career strategies, discuss professional challenges, and place themselves in relation to contemporary photography practices. This is the capstone course for the BA in Photography.

**Repeatable:** N

**Formerly** 23-3910

**Prerequisites** PHOT 362 Image Strategies

**Requirements** Senior Standing (SR)

**Minimum Credits 3 Maximum Credits 3**

## **PHOT 406 Professional Practice**

Advanced level course is designed for seniors to assist them in developing skills to prepare for entering the photography industry. Development, production, and assembly of a high-quality portfolio and self-promotional materials are fundamental to the class. A component of this class is working in close collaboration with the Columbia College Chicago Careers Center.

**Repeatable:** N

**Formerly** 23-3810

**Requirements** Senior Standing (SR)

**Minimum Credits 3 Maximum Credits 3**

## **PHOT 436 Photo Social Practice**

This advanced photography course presents students with an experiential opportunity that utilizes their photographic skills and knowledge to effectively interact within communities. Combining photographic practice with problem solving strategies, students will develop group projects that are ethically sound, inclusive and engaging.

**Repeatable:** Y

**Formerly** PHOT 336

**Prerequisites** PHOT 102 Photographic Practice II

**Minimum Credits 3 Maximum Credits 3**

*Choose six of the following courses:*

## **ARTS 360 Junior Fine Arts BFA Studio**

In this course Fine Arts and Photography BFA students will amplify and enrich their individual artistic voice. Centered around the critique and critical investigation, the course emphasizes constructive analysis of one's own work and the work of others. Pursuing regular, structured, and well-researched art production and making, students are challenged to identify, represent, and defend their own values, to recognize the perspectives of others, and to develop critical skills for engaging in and presenting intellectual discourse around a range of work in various media and genres through presentation, discussion, critique, and critical and reflective writing. All Fine Arts BFA majors take this course in the spring semester of the junior year.

**Repeatable:** N

**Formerly** 22-3264

**Prerequisites** ARTS 110 Drawing I and ARTS 220 Painting I and ARTS 230 Printmaking I and ARTS 240 Sculpture I and ARTS 250 New Genres I or PHOT 102 Photographic Practice II

**Requirements** Junior Standing or Above (JR) Fine Arts or Photography Majors Only (PHAR)

**Minimum Credits 3 Maximum Credits 3**

## **PHOT 320 Experimental Photography/ Graphic Techniques I**

Course explores contemporary photographic practices using a variety of hand-applied emulsions that include blue, brown, and silver-gelatin printing processes. Students experiment with image manipulation on a variety of 2-D and 3-D image supports.

**Repeatable:** N

**Formerly** 23-3700

**Prerequisites** PHOT 102 Photographic Practice II or PHOT 120 Darkroom Dynamics or PHOT 121 Black and White Photography

**Minimum Credits 3 Maximum Credits 3**

## **PHOT 325 The Constructed Image**

In this advanced, fine art based course, students will explore deliberate picture-making strategies to create images based on personal vision while examining the reasons for employing these strategies. Students will create the subject matter of their photographs, working from the understanding that the process starts with previsualization and moves to planning and execution. Students will be introduced to a multitude of ways of manufacturing photographic subject matter and how these images contribute to and rely on contemporary photographic culture.

**Repeatable:** *N*

**Formerly** 23-3740

**Prerequisites** PHOT 205 Principles of Light

**Minimum Credits** 3 **Maximum Credits** 3

## **PHOT 330 Commercial Photography**

In this advanced level studio course students examine photographic illustration for commercial applications. Professional studio practices are analyzed and applied. Advanced applications of medium and large format cameras and digital capture will be explored within a studio tabletop context.

**Repeatable:** *N*

**Formerly** 23-3300

**Prerequisites** PHOT 202 Photographic Practice III and PHOT 209 Principles of Light II

**Minimum Credits** 3 **Maximum Credits** 3

## **PHOT 339 Assisting and Digital Tech**

Building upon skills learned in previous classes, this course provides students with the knowledge, experience, techniques and skills to successfully enter the photography industry as a photo assistant or digital tech. Collaborative practice is established by creating assistant, digital tech, and photographer teams to develop proficiencies relevant to contemporary photographic industry practice.

**Repeatable:** *Y*

**Formerly** 23-3418

**Prerequisites** PHOT 209 Principles of Light II

**Minimum Credits** 3 **Maximum Credits** 3

## **PHOT 340 Fashion Photography: Location**

In this course students explore fashion photography on location. Lighting, styling, hair, and make-up, production management and digital beauty retouching will be addressed to simulate professional experiences. Historical and contemporary fashion photographers, practices and ethics will be discussed.

**Repeatable:** *N*

**Formerly** 23-3405

**Prerequisites** PHOT 209 Principles of Light II

**Requirements** Permission Required (DP)

**Minimum Credits** 3 **Maximum Credits** 3

## **PHOT 341 Fashion Photography: Studio**

In this course students explore fashion photography in the studio environment. Lighting, styling, hair, and make-up, production management and digital beauty retouching will be addressed to simulate professional experiences. Historical and contemporary fashion photographers, practices and ethics will be discussed.

**Repeatable:** *N*

**Formerly** 23-3410

**Prerequisites** PHOT 209 Principles of Light II

**Requirements** Permission Required (DP)

**Minimum Credits** 3 **Maximum Credits** 3

## **PHOT 352 Directed Visions**

This course explores multiple approaches to creating photographic tableaux in the studio and on location. Students will construct objects, narratives and 3 dimensional spaces for the sole purpose of being photographed. The directorial mode will be used to intentionally structure staged, fictive images. Fabrication methods, material exploration, creative lighting and studio techniques will be introduced. Students also examine historical and contemporary practitioners of tableaux photography in relation to form and concept.

**Repeatable:** Y

**Prerequisites** PHOT 202 Photographic Practice III and PHOT 205 Principles of Light

**Minimum Credits 3 Maximum Credits 3**

## **PHOT 360 Documentary Methods**

Course introduces students to a wide range of approaches and styles of documentary photography. Students will conceive, develop, and pursue documentary photographic projects and present the work in a manner consistent with the meaning and point of view of the work.

**Repeatable:** N

**Formerly** 23-3520

**Prerequisites** PHOT 102 Photographic Practice II

**Minimum Credits 3 Maximum Credits 3**

## **PHOT 363 Advanced Retouching and Compositing**

This course introduces students to advanced retouching and compositing techniques and skills used by professionals in many aspects of current photographic practice. Advanced computer tools, theories of image construction and enhancement, and the moral and ethical implications surrounding image manipulation will be addressed in this advanced level class. Students will work on provided image files for weekly assignments that are assessed by review and classroom critique. Students will apply these skills to individual, high-quality final projects.

**Repeatable:** N

**Formerly** 23-3230

**Prerequisites** PHOT 202 Photographic Practice III and PHOT 209 Principles of Light II

**Minimum Credits 3 Maximum Credits 3**

## **Television Writing and Business, BFA**

The BFA in Television Writing and Business addresses the growing need to prepare students for launching and managing entertainment projects while maintaining creative control of their productions. Today's studios, networks, and independent production companies seek creatives with high level writing skills and sound business acumen and entrepreneurial thinking. This program fulfills that need while also teaching students how to create their own opportunities for employment and engagement with the television and digital media industry.

As a result of successfully completing program requirements, students should be able to:

- develop the writing skills that enable the successful development and execution of a television series.
- understand the fundamentals of what is needed to be an Executive Producer;

- understand how to finance and manage creative organizations and professionals;
- apply the creative, technical, and business processes needed to develop and produce content;
- produce, manage, finance, and distribute content across multiple platforms;
- apply critical thinking, problem solving, communication, and entrepreneurial skills to the television industry;
- analyze trends, opportunities, and challenges to compete successfully in a rapidly changing global media environment;
- lead the next generation of creative ventures; and
- launch self-sustaining creative careers.

## PROGRAM REQUIREMENTS - 71 credits required

### **BUSE 109 Information Management**

This course provides students with a practical framework for employing essential computer applications in today's business environment. Students apply advanced functions of database, spreadsheet, word processing and presentation software to business analysis and decision-making processes. The skill set pursued in this course is fundamental to effective managerial operations of a variety of arts, entertainment and media businesses and organizations.

**Repeatable:** *N*

**Formerly** 28-1113

**Minimum Credits 3 Maximum Credits 3**

### **BUSE 155 Business of Film and TV**

This course studies how the movie business works in today's ever-changing marketplace, concentrating equally on mainstream Hollywood films as well as smaller independent films made outside the studio system. The two businesses co-exist, compete, and sometimes cross over in their attempts for money, starts, distribution deals, movie screens, and audience approval. Course will examine recent mega-mergers in the media world, the type of movies being released, the factors that constitute whether a film is considered a success or failure, and what it takes to compete as a professional working in the very competitive movie industry. Topics will include past events that have shaped today's film business climate, the various methods of film financing, the cost of film distribution, the state of independent film, the operation of movie theaters, and the mysteries of Hollywood accounting. Throughout the course, students will get an inside glimpse into the economic, political, and power structures behind the scenes which help determine that movies get made, distributed, and seen by the public.

**Repeatable:** *N*

**Formerly** 28-1635

**Minimum Credits 3 Maximum Credits 3**

### **BUSE 201 Accounting**

This course is a thorough overview of financial accounting topics for arts, entertainment and media organizations, starting with the accounting cycle for a sole proprietorship and ending with the study of corporations. Clear principles and procedures are used to demonstrate the function of the accounting cycle. The Income Statement, Statement of Equity, Balance Sheet, and Statement of Cash Flow are prepared. The class presents topics that will enhance the student's understanding of the financial statements, including an introduction to ratio analysis.

**Repeatable:** *N*

**Formerly** 28-2110

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits** 3 **Maximum Credits** 3

## **BUSE 205 Law for Creative Industries**

This course enables future artists, managers and entrepreneurs to better understand legal issues in business dealings in creative industries, and to recognize where legal problems may arise. This is accomplished through readings and lectures relating to copyright and other intellectual property rights, contracts, licensing agreements, First Amendment issues, agency agreements, and the formation of partnerships and corporations.

**Repeatable:** *N*

**Formerly** 28-2111

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits** 3 **Maximum Credits** 3

## **BUSE 220 Entertainment Marketing**

This course teaches students to analyze arts, entertainment, media, and fashion organizations within their environmental context to determine how to position them in the marketplace. Students develop an understanding of the consumer and market, choose proper research techniques to solve problems, determine appropriate promotional techniques to develop relationships with customers, and develop a complete and integrated marketing plan for an organization.

**Repeatable:** *N*

**Formerly** 28-1115

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits** 3 **Maximum Credits** 3

## **BUSE 248 Talent Management**

This course examines the crucial role of professional management for all types of artists and entertainers. Instruction focuses on roles of personal manager, booking agent, talent agent, road manager, and company manager. Course explores formation of an agency, development of talent, and special touring considerations.

**Repeatable:** *N*

**Formerly** 28-2430

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits** 3 **Maximum Credits** 3

## **BUSE 275 Self-Management and Freelancing**

This course provides artists of all disciplines with the fundamentals of self-sustaining careers in the arts, entertainment and media. The class equips students with an understanding of the matrix of skills, promotional vehicles, and revenue streams in the arts industries as well as fundamentals of career development and business acumen.

**Repeatable:** *N*

**Formerly** 28-2712

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **BUSE 308 Entrepreneurship**

This class introduces entrepreneurship as a way of thinking and acting that can serve as a springboard for a self-sustaining, creative career. It provides students with insight into how arts, entertainment, and media professionals turn ideas into a business, and how various elements of an organization fit together to become a viable venture, whether in the profit or non-profit world. Through launching their own microbusinesses, students learn to recognize and evaluate opportunities; problem-solve and manage risks; plan and manage time effectively; leverage resources; craft business models; and develop audiences to support their work.

**Repeatable:** *N*

**Formerly** 28-3130

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **BUSE 334 Digital Media Strategies**

This class addresses new and emerging business models and strategies in today's rapidly evolving media industries. Topics include an in depth understanding of social media, online marketing, retail and distribution of digital, audio, and visual content including a la carte download services, subscription, and ad-supported streaming services. Additional topics include e-commerce, web design strategy, mobile retail and promotion, community building, direct to consumer marketing, and a variety of other vital tech-based strategies.

**Repeatable:** *N*

**Formerly** 28-3416

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **BUSE 479 Executive Producing for Film and TV: Practicum**

Executive Management for Film and Television gives students the opportunity to develop a financial deal-making strategy for film and television projects. Students will investigate the responsibilities of executives and stakeholders - CFOs, Executive Directors, Executive Producers, Legal Counsel, Financial Advisors, Investors, and Donors - in for-profit and nonprofit companies and learn how they interact in greenlighting a film or TV project. Simulated scenarios in which students assume these executive management roles will allow students to experience what is involved in managing stakeholders, negotiating deals, and structuring the finances for these projects.

**Repeatable:** *N*

**Formerly** 28-4550

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

### **TELE 110 The History of Television**

Cultural history course examines not only the chronological development of television as a technology and an industry, but also explores also how television has become a part of our histories and, indeed, how TV has shaped history and our sense of it. Television is a primary source for the transmission of information, politics, entertainment, and our collective and dispersed cultures in the United States, surpassing even film

and newspaper because of its combined accessibility and visual appeals. Since its arrival on the scene at the World's Fair of 1939, TV has been the site through which we engage with any number of issues and events--from the most intimate to the most broadly social.

**Repeatable:** *N*

**Formerly** 40-1101

**DEI**

**Minimum Credits 3 Maximum Credits 3**

## **TELE 125 Television Arts: Production**

Introductory class in the art of television production provides an overview, and basic, practical, hands-on experience in all aspects of today's trends in the television industry. Although taught in a studio environment, this course will cover camera operation, sound, lighting, video transitions, and graphics as they relate to all forms of production. The final project for the class is the completion of three full productions created by students in the class.

**Repeatable:** *N*

**Formerly** 40-1302

**Minimum Credits 3 Maximum Credits 3**

## **TELE 210 The Television Producer**

Course introduces the student to the duties of the television producer, focusing primarily on the producer's role in creating differing types of programming. We will explore relationships with the production team, the director, writers, and the studio. Main goals include individual development in areas of problem solving, prioritization, team building, and scheduling for a successful project. The role of the producer in all phases of the production process will be emphasized.

**Repeatable:** *N*

**Formerly** 40-2201

**Prerequisites** TELE 230 Production and Editing I or TELE 125 Television Arts: Production or CINE 102 Cinema Notebooks and CINE 103 Cinema Image and Process or MEDI 101 Cinematic Storytelling and MEDI 102 Cinema and Television Production

**Minimum Credits 3 Maximum Credits 3**

## **TELE 212 Television Arts: Writing**

Building on concepts and techniques introduced in Aesthetics and Storytelling, course allows students to explore basic methods of television writing for scripted and non-scripted formats. Students will develop craft skills basic to television writing: research, story structure, dialogue, and character development, all of which will prepare them for writing scenes and short scripts. Course will not only prepare the student to write full length scripts but will also help them grow as artists, learning to tell stories in a unique and personally meaningful way.

**Repeatable:** *N*

**Formerly** 40-2100

**Prerequisites** ENGL 111 Writing and Rhetoric I and MEDI 101 Cinematic Storytelling or ENGL 111H Writing and Rhetoric I: Honors and MEDI 101 Cinematic Storytelling or ENGL 121 International Writing and Rhetoric I and MEDI 101 Cinematic Storytelling or ENGL 111 Writing and Rhetoric I and CINE 102 Cinema Notebooks or ENGL 111H Writing and Rhetoric I: Honors and CINE 102 Cinema Notebooks or ENGL 121 International Writing and Rhetoric I and CINE 102 Cinema Notebooks or ENGL 111 Writing and Rhetoric

I and TELE 112 Aesthetics and Storytelling or ENGL 111H Writing and Rhetoric I: Honors and TELE 112 Aesthetics and Storytelling or ENGL 121 International Writing and Rhetoric I and TELE 112 Aesthetics and Storytelling or ENGL 112 Writing and Rhetoric II or ENGL 112H Writing and Rhetoric II: Honors or ENGL 122 International Writing and Rhetoric II or MEDI 101 Cinematic Storytelling and TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7 or CINE 102 Cinema Notebooks and TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7 or TELE 112 Aesthetics and Storytelling and TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

## **TELE 310 Writing for Television**

Scriptwriting course is for students who already have a basic understanding of story structure, dialog, and character development. In this class the student will learn to write full-length television scripts and will study the structure and conventions of writing the sitcom, sketch comedy, and hour-long dramatic scripts. Student work will be read aloud and workshopped, step by step, in a traditional writers table' story conference procedure. Each student will leave the course with at least one full-length, polished script from one of the featured genres.

**Repeatable:** N

**Formerly** 40-3202

**Prerequisites** TELE 212 Television Arts: Writing or CINE 145 Screenwriting I: Writing the Short Film

**Minimum Credits 3 Maximum Credits 3**

## **TELE 328 Television Program Development**

Television Program Development teaches students how to take an idea for a scripted television series and turn it into a fully realized written document (show bible) that focuses on creating a sustainable premise and includes a pilot story, subsequent stories, characters and a vision, which effectively reflect the series' setting, tone, and structure. From this detailed document, students will be able to write a pilot script (in a subsequent class or on their own). Additionally, the class introduces students to the variety of programming needs of broadcast, cable and streaming platforms.

**Repeatable:** N

**Formerly** 40-3232

**Prerequisites** CINE 145 Screenwriting I: Writing the Short Film or CINE 248 Producing I: Production Team or TELE 210 The Television Producer or TELE 212 Television Arts: Writing

**Requirements** Junior Standing or Above (JR)

**Minimum Credits 3 Maximum Credits 3**

*Choose two foundations courses, either MEDI 101 and 102 or TELE 112 and 230:*

## **MEDI 101 Cinematic Storytelling**

This course explores the elements of cinematic storytelling that are used to articulate theme, evoke emotion, and create personal connection with an audience. The student will analyze, research, develop, and visualize cinematic stories for the screen. Aesthetics and storytelling components will be applied in MEDI 102 Cinema and Television Production.

**Repeatable:** N

**Concurrent Requisite** MEDI 102 Cinema and Television Production

**Minimum Credits 3 Maximum Credits 3**

## **MEDI 102 Cinema and Television Production**

This hands-on course explores the techniques of cinema and television production as a collaborator on both individual and group projects. The student will practice conceptualization, visualization, cinematography, sound recording, and editing techniques through effective visual and oral presentations. The aesthetic and storytelling principles will be applied from MEDI 101 Cinematic Storytelling.

**Repeatable:** N

**Concurrent Requisite** MEDI 101 Cinematic Storytelling

**Minimum Credits 3 Maximum Credits 3**

## **TELE 112 Aesthetics and Storytelling**

In this course, students will explore the formal elements of television that are used to express meaning, evoke emotion, and shape the vision they wish to communicate. The student will learn the basics of researching, writing, planning, and visualizing stories for the screen. They will also analyze various television program examples, learning to deconstruct the ways that television tells stories.

**Repeatable:** N

**Formerly** 40-1103

**Minimum Credits 3 Maximum Credits 3**

## **TELE 230 Production and Editing I**

In this course students will develop basic skills in field production and editing. Each student will learn and practice the fundamentals of field production in terms of conceptual development, research and planning, and finally editing and project management. Students will have the opportunity to put into practice the basic rules of visual composition, sequencing and storytelling as learned in prerequisite course, and successfully apply those concepts in this practical hands-on course.

**Repeatable:** N

**Formerly** 40-2302

**Prerequisites** TELE 112 Aesthetics and Storytelling or CINE 102 Cinema Notebooks

**Minimum Credits 3 Maximum Credits 3**

## **Speciality Electives**

*Complete 17 credits from the following courses:*

### **BUSE 303 Finance**

Finance is the art and science of managing funds. This course provides an understanding of the financial system, basic financial management techniques, and analyses as applied to the arts, entertainment, and media business environment. Concepts studied include cash flow, ratio analyses, time value of money methodology, capital budgeting, and business ethics. The course introduces students to essential financial management tools used by decision-makers.

**Repeatable:** N

**Formerly** 28-3110

**Prerequisites** BUSE 201 Accounting

**Minimum Credits 3 Maximum Credits 3**

## **BUSE 368 Leadership**

What is leadership and what does it take to be an effective leader in arts, entertainment, and media today? This course seeks to answer such questions as students study, analyze, and discuss leadership concepts and practices. Students also learn how to lead by evaluating the effectiveness of various leadership styles and through the development, application, and assessment of their own leadership capabilities through group and individual assignments and activities.

**Repeatable:** N

**Formerly** 28-3511

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

## **BUSE 445 Entertainment & Media Marketing**

This course meets in Los Angeles. It investigates how marketing plans, publicity campaigns, and branded entertainment are developed for film, TV, streaming, mobile, and other emerging forms of media. This course introduces students to industry professionals and leaders, providing them with an overview of internship and employment opportunities through guest lectures and field trips.

**Repeatable:** N

**Formerly** 28-4711L

**Requirements** Permission Required (DP)

**Minimum Credits** 4 **Maximum Credits** 4

## **BUSE 484 AEMMP Digital Distribution and Promotion Agency: Practicum**

This class provides students with an experiential learning opportunity and addresses new and emerging technologically based business models and strategies in today's rapidly evolving music and media industries. Topics include an in depth understanding of the retail and distribution of digital audio and visual content. Additional topics include online promotion strategies, e-commerce, web design strategy, mobile retail and promotion, community building, social network marketing, and direct to consumer marketing. During the Spring semester, students may be able to enroll in a section of this course that will participate in activities at the SXSW Music Conference and Festival in Austin, TX.

**Repeatable:** Y

**Formerly** 28-4060

**Requirements** Junior Standing or Above (JR)

**Minimum Credits** 3 **Maximum Credits** 3

## **BUSE 486 Artist Management: Practicum**

This course provides students with an experiential learning opportunity to work with artists on matters of presentation, marketability, branding, product development, career planning and live performance. Additionally, students will gain management experience as they represent artists, develop promotional materials, create an online presence, plan artist showcases and prepare for product release. During the Spring semester students may be able to enroll in a section of this course that will participate in activities at the SXSW Music Conference and Festival in Austin, TX.

**Repeatable:** Y

**Formerly** 28-4070

**Prerequisites** BUSE 248 Talent Management

**Requirements** Junior Standing or Above (JR)  
**Minimum Credits 3 Maximum Credits 3**

### **CINE 362 Los Angeles Speaker Series**

This course offers students participating in the Los Angeles program the opportunity to gain insight into the daily business of the entertainment industry through a series of guest lecturers.

**Repeatable:** Y  
**Requirements** Junior Standing or Above (JR)  
**Minimum Credits 3 Maximum Credits 3**

### **CINE 409 Pitching Hollywood: Los Angeles**

The most important part of any successful career is the ability to present ideas clearly. This course will examine how entertainment professionals pitch their stories, and provide students with tools to present their own creative work. Students will engage in repetitive pitching of various types and lengths before an audience.

**Repeatable:** N  
**Requirements** Permission Required (DP)  
**Minimum Credits 3 Maximum Credits 3**

### **MEDI 201 Culture, Race and Media**

This immersive course enables students to view, analyze, interpret and evaluate current media to identify the consequences of their pervasive influence. Interactive, facilitated discussions and exercises, stimulating readings, web-based assignments and analysis of media examples in myriad genres of cinema, television, games, photography, print, audio, advertisements, performance and others, offer students new insights into both media and their lives. Utilizing regularly posted progress reports, students reflect on their ideologies while investigating race, ethnicity, gender, social class, age, religion, ability, sexual and other identities to recognize their cultural and ethical responsibilities as media makers and influencers.

**Repeatable:** N  
**Formerly** 40-2803  
**HU DEI PL**  
**Requirements** Sophomore Standing or Above (SO)  
**Minimum Credits 3 Maximum Credits 3**

### **MEDI 201H Culture, Race and Media: Honors**

Course enables students to analyze subtle and subliminal messages about culture, race, ethnicity, gender, religion, class, and ability as presented to us through the media. The media--television, film, and print--has a pervasive influence upon how we view the world. Through open discussions of differences, research, and stimulating readings, we will learn who we are and why we view things the way we do. Expected outcomes include new insights into media influence and our responsibility as media makers, a research project, and self-examination of personal cultural and racial identity.

This is an Honors class. In addition to other possible pre-requisites, students need a minimum G.P.A. of 3.50 or higher to enroll.

**Repeatable:** N  
**Formerly** 40-2803HN

**HU DEI**

**Requirements** Sophomore Standing or Above (SO) and 3.5 or Higher GPA (35GP)

**Minimum Credits 3 Maximum Credits 3**

**TELE 320 Critical Television Theory and Analysis**

This course seeks to master methods of analysis and theory commonly utilized in Television Studies: historic and industrial, auteurism and genre, semiotics and psychoanalysis, postmodernism, feminist, critical race, discourse, and audience reception. In students' aspirations to become professionals in the field of television, understanding how TV operates culturally and socially in a sophisticated manner will ultimately make them better creative artists, producers, managers, screenwriters, etc.

**Repeatable:** Y

**Formerly** 40-3212

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

**TELE 388A Television Script Analysis:**

Course is a rotating subjects class that examines the script of one episode of a television series from a variety of perspectives including historical, cultural, and textual. Pertinent episodes of the series will be viewed, the primary script read, and the series analyzed. The class will conclude with each student engaging in an analysis utilizing one of the approaches from the class.

**Repeatable:** Y

**Formerly** TELE 388

**Prerequisites**

TELE 212 Television Arts: Writing or CINE 234 Cinema Analysis and Criticism

**Minimum Credits 1 Maximum Credits 1**

**TELE 388B Television Script Analysis:**

Course is a rotating subjects class that examines the script of one episode of a television series from a variety of perspectives including historical, cultural, and textual. Pertinent episodes of the series will be viewed, the primary script read, and the series analyzed. The class will conclude with each student engaging in an analysis utilizing one of the approaches from the class.

**Repeatable:** Y

**Prerequisites** TELE 212 Television Arts: Writing

**Minimum Credits 1 Maximum Credits 1**

**TELE 388C Television Script Analysis:**

Course is a rotating subjects class that examines the script of one episode of a television series from a variety of perspectives including historical, cultural, and textual. Pertinent episodes of the series will be viewed, the primary script read, and the series analyzed. The class will conclude with each student engaging in an analysis utilizing one of the approaches from the class.

**Repeatable:** Y

**Prerequisites** TELE 212 Television Arts: Writing  
**Minimum Credits 1 Maximum Credits 1**

### **TELE 388D Television Script Analysis:**

Course is a rotating subjects class that examines the script of one episode of a television series from a variety of perspectives including historical, cultural, and textual. Pertinent episodes of the series will be viewed, the primary script read, and the series analyzed. The class will conclude with each student engaging in an analysis utilizing one of the approaches from the class.

**Repeatable:** Y

**Prerequisites** TELE 212 Television Arts: Writing  
**Minimum Credits 1 Maximum Credits 1**

### **TELE 388E Television Script Analysis:**

Course is a rotating subjects class that examines the script of one episode of a television series from a variety of perspectives including historical, cultural, and textual. Pertinent episodes of the series will be viewed, the primary script read, and the series analyzed. The class will conclude with each student engaging in an analysis utilizing one of the approaches from the class.

**Repeatable:** Y

**Prerequisites** TELE 212 Television Arts: Writing  
**Minimum Credits 1 Maximum Credits 1**

### **TELE 431 Producing Sketch Comedy**

In this advanced workshop, students will serve as producers for one the Television Program's sketch comedy content. Students will have the opportunity to experience all phases of collaborative producing, from concept development through finished program.

**Repeatable:** Y

**Formerly** 40-3239

**Prerequisites** TELE 210 The Television Producer or CINE 348 Producing II: Legal and Financial Options or CINE 368 The Line Producer Workshop  
**Minimum Credits 4 Maximum Credits 4**

### **TELE 440A Writing the Television Pilot:**

Writing the Television Pilot: is an advanced level writing class devoted to the development and writing of a TV pilot script(s). The first part of the class will be spent examining the unique qualities and responsibilities of a TV pilot: to introduce plot, story, character, relationships and mystery. The second half of the class will be spent pitching ideas, developing, work shopping, and table reading multiple drafts the student's original pilot script. The class would conclude with the completion of a full-length pilot script(s). This is a rotating subject course.

**Repeatable:** Y

**Formerly** TELE 440

**Prerequisites** TELE 310 Writing for Television or CINE 245 Screenwriting II: The Feature Film

## **TELE 480 Branded Entertainment Practicum**

In this course, students gain theoretical and practical experience in the strategy, production and distribution of client-based branded entertainment media. Students join collaborative interdisciplinary teams and work with commercial and not-for-profit clients to develop and execute branded entertainment strategy plans, media content and analytic processes. Contemporary social media platforms, business models and best practices for evaluating impact will be presented and used by the student teams.

**Repeatable:** Y

**Formerly** 40-3242

**Prerequisites** TELE 210 The Television Producer and TELE 330 Production and Editing II or CINE 230 Editing II or CINE 275 Experimental Production I

**Minimum Credits** 3 **Maximum Credits** 3

## Traditional Animation, BFA

The BFA degree in Traditional Animation is offered as a professional degree. The educational experience and subsequent body of work reflect three areas of success in the animation profession: (a) a capstone animated film created in a collaborative, team-oriented setting, (b) an animated short created as a solo thesis project, and (c) additional courses in critical studies, story, classic art, advanced animation, and the technical facility that seeks to prepare students for immediate entry into the professional world.

As a result of successfully completing program requirements, students should be able to:

- demonstrate proficiencies in digital and computer-generated software and technology through the creation of animated projects;
- demonstrate a comprehension of history, aesthetics and the analytical context of animation in cinema through written, oral and animated presentations;
- employ a professional level of industry practices, standards and career strategies to successfully market and showcase their animated work;
- collaborate on a team project in the development, production and presentation of an animated short film;
- create and present an animated thesis film; and
- create a professional quality animation portfolio demonstrating original cinematic material and a developed artistic voice.

## PROGRAM REQUIREMENTS - 72 credits required

### **ANIM 105 Introduction to Traditional Animation**

This course is an introduction to basic animation principles for students with little or no animation production experience. Students explore basic animation techniques including object, hand-drawn, stop-motion, and alternative animation styles. Animated films, both domestic and international, are screened and discussed. Students complete short exercises in each of the techniques mentioned and complete a final project employing a style of their choice that was previously explored during the semester.

**Repeatable:** N

**Formerly** 26-1000

**Minimum Credits** 3 **Maximum Credits** 3

### **ANIM 106 History of Animation**

Course explores the origins of the animation process, beginning with animated films by J. Stewart Blackton, Emil Cohl, Len Lye, Winsor McCay, and many others through to present day productions. The lives and environments, as well as the artistic and narrative influences on these and other animators, will be dissected and studied. The class will involve weekly screenings of films and videos from around the world, including both independent and commercial, to get an understanding of where this art form has been and where it might be going. Emphasis will be on understanding the motivations and influences on animation artists, and how as contemporary animators you might benefit from studying them.

**Repeatable:** *N*

**Formerly** 26-1070

**Prerequisites** ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

## **ANIM 201 Storyboarding for Animation**

Learn the art of visual storytelling for animation as a cinema art form. Draw digitally using industry-standard technologies and create a story reel for the final project; a movie comprised of all of storyboard panels (which may include dialogue, music, and sound effects) timed out to reflect the actual pacing of the film.

**Repeatable:** *N*

**Formerly** 26-2040

**Prerequisites** ANIM 101 Animation Foundations or ANIM 105 Introduction to Traditional Animation

**Minimum Credits 3 Maximum Credits 3**

## **ANIM 210 Drawing for Animation I**

Drawing-intensive course allows students to acquire an understanding of figurative human emotions and movements, enabling them to create believable animated characters. Students will create model sheets, learn the principles of animation, and learn how to endow your characters with believable actions and acting. Digital pencil testing will allow for the building of the animation from basic motion to more refined movements and emotion. Particular attention will be given to timing, layout, the creation of extreme drawings, and the process of inbetweening.

**Repeatable:** *N*

**Formerly** 26-2025

**Prerequisites** ANIM 101 Animation Foundations or ANIM 105 Introduction to Traditional Animation

**Minimum Credits 3 Maximum Credits 3**

## **ANIM 213 Animation Layout**

This course focuses on the layout process in animation production which is the creation of the monochromatic drawings which are later rendered as backgrounds for each shot. Students will strengthen their drawing skills by learning how to draw in proper perspective, understand lighting and shading principles. The layout process also teaches students how to block character animation within each shot and also understand how the camera functions within the action of each shot.

**Repeatable:** *N*

**Formerly** 26-2010

**Prerequisites** ANIM 201 Storyboarding for Animation

**Minimum Credits 3 Maximum Credits 3**

## **ANIM 310 Drawing for Animation II**

This course focuses on advanced character animation where students acquire the skills necessary to understand and communicate the emotions and intentions of a character. Exploring and communicating acting through their character's actions and movements, students apply the principles of classic animation learned in Drawing for Animation I (ANIM 210). Working from a dialogue track, students will learn lip-synching and adding personality and depth to their characters while continuing to develop their skills drawing and animating digitally using a stylus and tablet.

**Repeatable:** N

**Formerly** 26-3026

**Prerequisites** ANIM 210 Drawing for Animation I

**Minimum Credits 3 Maximum Credits 3**

## **ANIM 330 Digital Animation Techniques: Ink, Paint & Composite**

Course introduces students to what has become the norm at most studios: digital ink and paint and compositing. Students will work with animated drawings created in Drawing for Animation I (ANIM 210), or create new drawings to scan, paint, and render with independent peg moves, using computers as the medium, creating a full-color 20-second piece of animation for a final project.

**Repeatable:** Y

**Formerly** 26-2075

**Prerequisites** ANIM 210 Drawing for Animation I

**Minimum Credits 3 Maximum Credits 3**

## **ANIM 340 The Business of Animated Content**

Course examines central business and legal matters associated with developing, producing and releasing animated content. Students will be introduced to basic business principles and production hierarchies for short and feature animated films including new technologies and the evolving convergent marketplace.

**Repeatable:** N

**Formerly** 26-3605

**Prerequisites** ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or ENGL 109 Writing and Rhetoric I Stretch B or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **ANIM 382 Animation Preproduction**

In this course, students develop the stories for their animated thesis solo films required for the BFA degrees in both Traditional and Computer Animation. Students create storyboards and story reels, model sheets, explore art direction, timing, and various other aspects of preproduction that will lead to green-lighting the production of their films in either Traditional or Computer Animation Studio. Animation Preproduction & Story Development must be taken by both Traditional and Computer Animation students pursuing BFAs in their respective areas.

**Repeatable:** Y

**Formerly** 26-3051

**Prerequisites** ANIM 201 Storyboarding for Animation and ANIM 210 Drawing for Animation I or ANIM 201

Storyboarding for Animation and ANIM 240 Computer Animation

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 480 Animation Production Studio I**

This course is the first of two semesters in which students will be working collaboratively with classmates on a single project, the purpose of which is to simulate an actual production environment that they might face once having left academia. Each participant will be assigned a particular production role based on a portfolio review at the beginning of the class in which each student will be asked to share portfolio work from previous classes with the executive producer (the instructor) and fellow classmates. This first semester of pre-production includes screenplay, design of characters and backgrounds, storyboards, recording of vocal talent, and completion of a story reel.

**Repeatable:** Y

**Formerly** 26-4085

**Prerequisites** ANIM 210 Drawing for Animation I or ANIM 350 Computer Animation: Keyframing II or ANIM 351 Environmental Design & Modeling or ANIM 352 Character Design and Modeling

**Requirements** Senior Standing (SR)

**Minimum Credits 6 Maximum Credits 6**

### **ANIM 481 Animation Production Studio II**

In this course students continue working on the project started in Animation Production Studio I. This class is primarily devoted to production and post-production, with the students embarking on traditional and/or computer animation production, generating visual effects, and working with a sound designer and composer. The goal of this course is to complete production and screen the film by the end of the semester.

**Repeatable:** Y

**Formerly** 26-4090

**Prerequisites** ANIM 480 Animation Production Studio I

**Requirements** Senior Standing (SR)

**Minimum Credits 6 Maximum Credits 6**

### **ANIM 482 Animation Solo Project**

After successfully completing Animation Preproduction and Computer Animation students enroll in this course to begin and subsequently complete production of their solo thesis films required for the BFA degree in Traditional and Computer Animation. Animation Solo Project is a repeatable course offering students sufficient time to complete production of their animated films.

**Repeatable:** Y

**Formerly** 26-4060

**Prerequisites** ANIM 382 Animation Preproduction

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 485 Animation Portfolio Development**

Course will help students prepare for work in the field of animation by providing weekly insight and guidance as they develop a working portfolio, resume, and video/DVD with work they've completed. In addition to weekly in-class work, several professional animation studio student recruiters will come to campus throughout the 15-week class to present portfolio examples and discuss the field. They will meet with each of the students one on one to discuss their particular situation and to give them their advice and direction.

**Repeatable:** Y  
**Formerly** 26-4048  
**Prerequisites** ANIM 480 Animation Production Studio I  
**Requirements** Senior Standing (SR)  
**Minimum Credits** 3 **Maximum Credits** 3

## **ARTH 210 20th Century Art History**

This course surveys the history of modern art and critical theories from Post-Impressionism in the 1890s, covering major subsequent currents such as Cubism, Expressionism, Surrealism, Dada, The Harlem Renaissance, Abstract Expressionism, The Black Arts Movement and Post-modernism. Developments in design and architecture, such as the Bauhaus, International Style, and Post-modernism, will also be addressed.

**Repeatable:** N  
**Formerly** 22-2110

**Requirements** Sophomore Standing or Above (SO)  
**Minimum Credits** 3 **Maximum Credits** 3

## **ARTS 110 Drawing I**

This course teaches students how to represent accurately and proportionately objects, planes, and volumes through line and tone by developing hand-to-eye coordination. Basics of form development, 1, 2 and 3 point perspective, composition, texture, and modeling through various shading techniques are explored in various exercises augmented by critiques, slide lectures, and discussions.

**Repeatable:** N  
**Formerly** ARTS 210  
**Minimum Credits** 3 **Maximum Credits** 3

## **CINE 145 Screenwriting I: Writing the Short Film**

Course is a workshop that explores basic methods of writing for cinema which further develop the students' skills in presenting their ideas in written form. Students will develop craft skills basic to cinema writing: research, story development, scene structure, dialogue, and character definition. Emphasis is on finding visual equivalents for human emotions and on developing the writer's individual personal vision. This work culminates in the development and revision of two short narrative scripts. Instrumental in the development of the student as a writer is the ability to read, and effectively critique, the work of their peers.

**Repeatable:** N  
**Formerly** 24-1710  
**Prerequisites** ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or ENGL 109 Writing and Rhetoric I Stretch B or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7  
**Minimum Credits** 3 **Maximum Credits** 3

## **ILLU 204 Figure Drawing I**

In this course students are provided the opportunity through direct observation of the human form to learn skills in representing the human form using a variety of materials, by concentrating on proportion, light,

shape, and movement. Slide discussions of master figure drawings set examples and standards.

**Repeatable:** Y

**Formerly** 21-2402

**Prerequisites** ANIM 105 Introduction to Traditional Animation or ARTS 110 Drawing I or GAME 205 2D Art for Games or ILLU 101 Introduction to Illustration

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

### **ANIM 121 Stop-Motion Animation**

Course provides a basic understanding of three-dimensional animation using armatures, puppets, and objects. With the use of a Video Lunchbox, students will investigate the nature of human movement, and cover topics such as timing, weight, exaggeration, composition, lighting, and narrative approaches. Students will also become familiar with various materials and tools as you explore ways to create characters and simple scenery. A variety of stop-motion films, spanning a wide range of genres, will be viewed and discussed.

**Repeatable:** N

**Formerly** 26-1030

**Prerequisites** ENGL 109 Writing and Rhetoric I Stretch B or ENGL 111 Writing and Rhetoric I or ENGL 111H Writing and Rhetoric I: Honors or ENGL 121 International Writing and Rhetoric I or TWC-T-7 EXAM-TWC WRITING MINIMUM SCORE = 7

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 122 Animation Maquettes**

This course teaches the process of creating animation maquettes: the sculptures created from model sheets that are used in the animation field. Students with a sculpting interest will explore the creation of maquettes in the same manner as industry professionals. Preexisting model sheets and models created by the student will be used to interpret two dimensional illustration into 3D sculptures.

**Repeatable:** N

**Formerly** 26-1010

**Minimum Credits 3 Maximum Credits 3**

### **ANIM 211 Alternative Strategies in Animation**

Course explores alternative approaches to the normally highly structured, technically oriented process of creating an animated film. Students will be expected to be curious and imaginative as they are introduced to unorthodox approaches including sand, pastels, drawing directly on film stock, paint-on-glass, and other techniques. Students will also view and discuss films created by non-mainstream artists/animators such as Len Lye, Norman McLaren, and others, which will introduce them to highly graphic and imaginative movement and messages.

**Repeatable:** N

**Formerly** 26-2028

**Prerequisites** ANIM 105 Introduction to Traditional Animation

**Minimum Credits 3 Maximum Credits 3**

*Complete 6 credits from the following courses:*

## **ANIM 311 Acting For Animators**

This course, recommended for both Traditional and Computer Animation students, focuses on acting techniques for animators exploring the similarities and differences of stage and screen acting. Students will learn acting techniques through physical and emotional acting exercises in addition to viewing scenes from a variety of live action and animated films. Focus of this class is exploring the emotional feelings of characters which lead to their physical movement. Animation assignments include creating a performance with a CG rig (for Computer Animation Students) and hand-drawn character animation (for Traditional Animation Students).

**Repeatable:** N

**Formerly** 26-3050

**Prerequisites** ANIM 210 Drawing for Animation I or ANIM 240 Computer Animation or ANIM 121 Stop-Motion Animation

**Minimum Credits 3 Maximum Credits 3**

## **ANIM 312 Cartooning**

Course introduces different aspects of cartoon drawing. Course teaches basic techniques of cartoon drawing and investigates five genres of cartooning. Students study in-depth one liner, multi-panel, advertisement, illustrative, and political editorial cartoons. Instruction includes historical study of specific types of cartoons dating from 1745. Course explores style of cartoons, thematic types, and construction of cartoon character for the technique of animation.

**Repeatable:** N

**Formerly** 26-3070

**Minimum Credits 3 Maximum Credits 3**

## **ANIM 331 Digital Animation Techniques Current 2D Trends**

Course introduces students to digital animation techniques and aesthetics currently used by traditional animators for professional productions. Students will apply fundamental animation principles learned in Drawing for Animation 1 (ANIM 210) and apply them using various techniques and software which may include Flash, Photoshop, and After Effects. Students learn to create paperless hand-drawn animation using a digital drawing tablet and computer, creating a short animated piece by the end of the semester.

**Repeatable:** N

**Formerly** 26-3047

**Prerequisites** ANIM 210 Drawing for Animation I

**Minimum Credits 3 Maximum Credits 3**

## **ANIM 374A Advanced Topics in Traditional Animation**

This is an advanced topics course in traditional animation. Different sections of this course will focus on different topic areas related to Traditional Animation that are not taught in other classes. Please contact the department for specifics on the content of each topic.

**Repeatable:** Y

**Formerly** ANIM 374

**Prerequisites** ANIM 210 Drawing for Animation I

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 1 Maximum Credits 3**

## **ANIM 374B Advanced Topics in Traditional Animation**

This is an advanced topics course in traditional animation. Different sections of this course will focus on different topic areas related to Traditional Animation that are not taught in other classes. Please contact the department for specifics on the content of each topic.

**Repeatable:** Y

**Prerequisites** ANIM 210 Drawing for Animation I

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 1 Maximum Credits 3**

## **ANIM 374C Advanced Topics in Traditional Animation**

This is an advanced topics course in traditional animation. Different sections of this course will focus on different topic areas related to Traditional Animation that are not taught in other classes. Please contact the department for specifics on the content of each topic.

**Repeatable:** Y

**Prerequisites** ANIM 210 Drawing for Animation I

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 1 Maximum Credits 3**

## **ANIM 374D Advanced Topics in Traditional Animation**

This is an advanced topics course in traditional animation. Different sections of this course will focus on different topic areas related to Traditional Animation that are not taught in other classes. Please contact the department for specifics on the content of each topic.

**Repeatable:** Y

**Prerequisites** ANIM 210 Drawing for Animation I

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 1 Maximum Credits 3**

## **Electives**

*Choose one of the following courses:*

## **CINE 234 Cinema Analysis and Criticism**

Course is a writing-and-research-intensive introduction to cinema studies. Students are taught how to write about cinema and media using different approaches including: formal analysis, ideological analysis, and historical research. In order to focus more on writing and course content, screenings will be limited. The screenings may change at the discretion of the instructor but the nature and number of the assignments will remain the same for each offering of the course.

**Repeatable:** N

**Formerly** 24-2500

**Minimum Credits 3 Maximum Credits 3**

## **CINE 235A Authorship:**

Screening/discussion course is an intensive study of a single director (or directors) as auteur. The featured director(s) changes each semester. Class examines recurring themes, stylistic innovations, and differentiating interpretations of directors' films. Course may be repeated as featured directors change.

**Repeatable:** Y

**Formerly** CINE 235

**Minimum Credits 3 Maximum Credits 3**

### **CINE 235B Authorship:**

Screening/discussion course is an intensive study of a single director (or directors) as auteur. The featured director(s) changes each semester. Class examines recurring themes, stylistic innovations, and differentiating interpretations of directors' films. Course may be repeated as featured directors change.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

### **CINE 235C Authorship:**

Screening/discussion course is an intensive study of a single director (or directors) as auteur. The featured director(s) changes each semester. Class examines recurring themes, stylistic innovations, and differentiating interpretations of directors' films. Course may be repeated as featured directors change.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

### **CINE 235D Authorship:**

Screening/discussion course is an intensive study of a single director (or directors) as auteur. The featured director(s) changes each semester. Class examines recurring themes, stylistic innovations, and differentiating interpretations of directors' films. Course may be repeated as featured directors change.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

### **CINE 235E Authorship:**

Screening/discussion course is an intensive study of a single director (or directors) as auteur. The featured director(s) changes each semester. Class examines recurring themes, stylistic innovations, and differentiating interpretations of directors' films. Course may be repeated as featured directors change.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

### **CINE 235F Authorship:**

Screening/discussion course is an intensive study of a single director (or directors) as auteur. The featured director(s) changes each semester. Class examines recurring themes, stylistic innovations, and differentiating interpretations of directors' films. Course may be repeated as featured directors change.

**Repeatable:** Y

**Minimum Credits 3 Maximum Credits 3**

### **CINE 238A Cinema History and Culture**

This course examines historical and cultural issues in cinema. Topics may include specific genres, national cinemas, representations of gender and sexuality, non-narrative cinema, or the aesthetic impact of technological innovations. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help engage them actively with the topics.

**Repeatable:** Y

**Formerly** CINE 238

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 238B Cinema History and Culture**

This course examines historical and cultural issues in cinema. Topics may include specific genres, national cinemas, representations of gender and sexuality, non-narrative cinema, or the aesthetic impact of technological innovations. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help engage them actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 238C Cinema History and Culture**

This course examines historical and cultural issues in cinema. Topics may include specific genres, national cinemas, representations of gender and sexuality, non-narrative cinema, or the aesthetic impact of technological innovations. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help engage them actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 238D Cinema History and Culture**

This course examines historical and cultural issues in cinema. Topics may include specific genres, national cinemas, representations of gender and sexuality, non-narrative cinema, or the aesthetic impact of technological innovations. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help engage them actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **CINE 238E Cinema History and Culture**

This course examines historical and cultural issues in cinema. Topics may include specific genres, national cinemas, representations of gender and sexuality, non-narrative cinema, or the aesthetic impact of technological innovations. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help engage them actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **CINE 238F Cinema History and Culture**

This course examines historical and cultural issues in cinema. Topics may include specific genres, national cinemas, representations of gender and sexuality, non-narrative cinema, or the aesthetic impact of technological innovations. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help engage them actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **CINE 240A Cinema and Global Media Culture**

This course examines the impact of global media culture on cinema history and aesthetics. Topics may include cinematic adaptations of video games, graphic novels, or television series, as well as an analysis of how distribution models and international film festivals help determine cinematic form and audience reception. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help them engage actively with the topics.

**Repeatable:** Y

**Formerly** CINE 240

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **CINE 240B Cinema and Global Media Culture**

This course examines the impact of global media culture on cinema history and aesthetics. Topics may include cinematic adaptations of video games, graphic novels, or television series, as well as an analysis of how distribution models and international film festivals help determine cinematic form and audience reception. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help them engage actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

## **CINE 240C Cinema and Global Media Culture**

This course examines the impact of global media culture on cinema history and aesthetics. Topics may include cinematic adaptations of video games, graphic novels, or television series, as well as an analysis of how distribution models and international film festivals help determine cinematic form and audience reception. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help them engage actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 240D Cinema and Global Media Culture**

This course examines the impact of global media culture on cinema history and aesthetics. Topics may include cinematic adaptations of video games, graphic novels, or television series, as well as an analysis of how distribution models and international film festivals help determine cinematic form and audience reception. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help them engage actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 240E Cinema and Global Media Culture**

This course examines the impact of global media culture on cinema history and aesthetics. Topics may include cinematic adaptations of video games, graphic novels, or television series, as well as an analysis of how distribution models and international film festivals help determine cinematic form and audience reception. Course may be repeated as topics change. Students will research and write papers and be involved in a number of other in-class and online research activities to help them engage actively with the topics.

**Repeatable:** Y

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **CINE 243 Studies in Film Aesthetics**

Course investigates how artistic and cultural movements and technological innovations determine and enhance the aesthetics development of the medium. Previous topics have included expressionism; surrealism; and aspects of film: cinemascope, technicolor, stereophonic sound, and 3-D. Course may be repeated as topics change.

**Repeatable:** N

**Formerly** 24-2561

**Minimum Credits 3 Maximum Credits 3**

## **Bachelor of Music**

### **Contemporary Urban and Popular Music, BMus**

Columbia College Music offers a unique, innovative performance degree, a Bachelor of Music in Contemporary, Urban, and Popular Music. This professional degree in music is enhanced by Columbia's urban Chicago campus where students are mentored by a faculty of renowned musicians and can establish connections as artists and interns in Chicago's music scene. This degree is intended for instrumentalists of all types, singers, songwriters and producers who are interested in performing and in creating original music in popular idioms, including various forms of Rock, Pop, Jazz, and Jazz hybrids, as well as contemporary and classic urban, and R&B styles. The program includes specialized courses in Music Technology and Music Business in addition to dedicated courses in Music History, Theory and Arranging. For their capstone projects, students form collaborative band projects for the purpose of developing, recording, and performing original music intended for professional presentation. In addition, students organize and present their own singular vision for their Senior Recital project.

As a result of successfully completing program requirements, students should be able to:

- read, notate, hear, perform, and analyze music at an advanced musicianship level;
- demonstrate performance and improvisational skills on an instrument or voice at a professional level, particularly in collaborative music-making experiences;
- demonstrate an understanding of the characteristics, performance practices, and historical context of a diverse range of contemporary musical styles and genres;
- critically assess music performances, recordings, and production elements;
- apply knowledge and skill in composition, improvisation, and digital music production to create and produce original music in individual and collaborative contexts;
- demonstrate a capacity to produce a portfolio of original music suitable for the professional market, culminating in a final media product or live performance experience; and
- demonstrate the acumen required to prepare a viable business plan for a career in music performance, songwriting, and production.

## PROGRAM REQUIREMENTS - 81 credits required

### **MUSC 110 Foundations of Music I**

Foundations of Music I is the initial course of the Music Core Curriculum and includes instruction in the areas of contemporary music theory, aural skills, piano keyboard (or equivalent), digital audio workstations and a variety of applications used widely in the music industry.

**Repeatable:** *N*

**Formerly** 32-1120

**DEI**

**Concurrent Requisite** MUSC 174 Applied Music I

**Minimum Credits 4 Maximum Credits 4**

### **MUSC 111 Foundations of Music II**

Foundations of Music II is the second course of the Music Core Curriculum and includes instruction in the areas of contemporary music theory, aural skills, piano keyboard (or equivalent), digital audio workstations and a variety of applications used widely in the music industry.

**Repeatable:** *N*

**DEI**

**Prerequisites** MUSC 110 Foundations of Music I

**Concurrent Requisite** MUSC 175 Applied Music II

**Minimum Credits 4 Maximum Credits 4**

## **MUSC 174 Applied Music I**

This course provides an applied experience contemporary instrumental students need prior to enrolling in private lessons. Students will study the foundational knowledge, techniques, skills, and repertoire essential to their chosen instrument. Students will apply their Foundations of Music skills to begin developing an improvisational approach to their instrument.

**Repeatable:** *N*

**Formerly** 32-1321

**Concurrent Requisite** MUSC 110 Foundations of Music I

**Minimum Credits 2 Maximum Credits 2**

## **MUSC 175 Applied Music II**

This course provides an applied experience contemporary instrumental students need prior to enrolling in private lessons. Students will study technique, scales, chords, sight-reading and repertoire. Students will apply their Foundations of Music skills to begin developing an improvisational approach to their instrument.

**Repeatable:** *N*

**Concurrent Requisite** MUSC 111 Foundations of Music II

**Minimum Credits 2 Maximum Credits 2**

## **MUSC 210 Foundations of Music III**

Foundations of Music III is the third course of the Music Core Curriculum and includes instruction in the areas of contemporary music theory, aural skills, piano keyboard (or equivalent), digital audio workstations, and a variety of applications used widely in the music industry.

**Repeatable:** *N*

**DEI**

**Prerequisites** MUSC 111 Foundations of Music II

**Minimum Credits 3 Maximum Credits 3**

## **MUSC 211 Foundations of Music IV**

Foundations of Music IV focus on the development and influences of the blues on contemporary music as well as exploration of diverse rhythmic influences from many cultures around the world in current music making. The course also focuses on application of concepts from the Foundations sequence in present music practice.

**Repeatable:** *N*

**DEI**

**Prerequisites** MUSC 210 Foundations of Music III

**Minimum Credits 3 Maximum Credits 3**

## **MUSC 223 Elements of Music Design**

Elements of Music Design is an intermediate project-based music course to be taken after completing Foundations II in the music sequence. The course is designed to prepare the student to identify music through aural transcription and write music in a specific style. This course is intended for the developing musician in the creation of music in a global context.

**Repeatable:** *N*

**DEI**

**Prerequisites** MUSC 111 Foundations of Music II

**Minimum Credits 3 Maximum Credits 3**

## **MUSC 315 Contemporary Harmony and Rhythm**

This course extends and applies the student's core music theory and ear-training knowledge to practices and conventions specific to popular music and jazz idioms. Students will further explore the creation and interpretation of advanced chord symbols; the identification, application, and more complex variations of commonly used chord progressions, rhythm patterns, and additional scales and modes; the analysis of song forms, scores, and arrangements; and application of harmonic analysis to concepts such as modal interchange, chord substitutions, alterations, and modulations.

**Repeatable:** *N*

**Formerly** 32-3161

**Prerequisites** MUSC 211 Foundations of Music IV or MUSC 214 Theory III

**Minimum Credits 3 Maximum Credits 3**

## **MUSC 325 Arranging and Orchestration**

This course examines arranging and orchestration, including acoustic and electronic instruments, their ranges, and sound characteristics. Students will learn to construct basic lead sheets and create arrangements for large and small ensembles in various genres. Topics also include score and part preparation according to industry standards.

**Repeatable:** *N*

**Formerly** 32-2250

**DEI**

**Prerequisites** MUSC 223 Elements of Music Design and MUSC 210 Foundations of Music III

**Minimum Credits 3 Maximum Credits 3**

## **MUSC 350 Applied Music Production**

An intermediate course to be taken after completing Foundations of Music sequence.

Prepares instrumentalists, singers, and songwriters for more advanced concepts in the creation of music and further develops students' fluency in current music technology tools used throughout the program.

Applies the digital environment toward the creation of larger-scale projects and includes concepts in music production, arranging, orchestration, and score preparation.

**Repeatable:** *N*

**Formerly** 32-2925

**Prerequisites** MUSC 211 Foundations of Music IV or MUSC 152 Technology for Musicians I and MUSC 177 Keyboard Styles and Techniques I

**Minimum Credits 3 Maximum Credits 3**

## **MUSC 361 Music, Time, and Place I**

This course addresses ways in which music shapes and is shaped by its social, cultural, and historical contexts. Through reading, writing, and focused listening, students explore the range of philosophies undergirding diverse musical practices and the processes through which those philosophies change over

time. Students examine the technical features of specific musical examples as they engage with the aesthetic and ideological issues animating musical practice.

**Repeatable:** *N*

**Formerly** 32-2611

**DEI**

**Prerequisites** MUSC 111 Foundations of Music II

**Minimum Credits 3 Maximum Credits 3**

## **MUSC 362 Music, Time, and Place II**

This course addresses the extraordinary social and cultural upheavals associated with music since 1900. Through reading, writing, and focused listening, students explore the range of challenges to the traditional high art canon asserted through new technologies, new philosophies, and the ascendancy of African-American musical practices.

**Repeatable:** *N*

**Formerly** 32-2612

**DEI**

**Prerequisites** MUSC 111 Foundations of Music II

**Minimum Credits 3 Maximum Credits 3**

## **MUSC 363 Music Styles and Analysis**

Music Styles and Analysis is an advanced theory and criticism class designed to be taken after completing the Foundations of Music Sequence. The course develops a sensitivity to stylistic markers acquired through aural analysis with the ability to apply such appropriately in composition, arranging and performance.

**Repeatable:** *N*

**Formerly** 32-3630

**DEI**

**Prerequisites** MUSC 211 Foundations of Music IV or MUSC 235 Techniques for Improvisation II

**Minimum Credits 3 Maximum Credits 3**

## **MUSC 425 Contemporary Arranging and Production**

Course examines the approaches used in arranging and orchestrating for small to large ensembles, and includes writing for rhythm section, horns, string instruments, woodwinds, and electronic instruments, as well as the professional application of the notation and technology tools available to the contemporary arranger. Course addresses the stylistic elements that are idiomatic to various popular genres, while focusing on the creative and compositional aspects of writing and arranging for contemporary music ensembles and orchestras. The course is required for students in the Contemporary, Urban and Popular Music program.

**Repeatable:** *N*

**Formerly** 32-3250

**Prerequisites** MUSC 350 Applied Music Production

**Minimum Credits 3 Maximum Credits 3**

## **MUSC 450 Advanced Music Production**

An advanced course to be taken after completing MUSC 350 Music Technology. The course prepares students for more advanced concepts in music technology, and further develops student's fluency in the

various music technology tools used in courses throughout the program. Applies the digital environment towards the creation of larger-scale projects and includes concepts in music production, arranging, orchestration, and score preparation.

**Repeatable:** *N*

**Formerly** 32-3926

**Prerequisites** MUSC 350 Applied Music Production

**Minimum Credits 3 Maximum Credits 3**

## **MUSC 461 Music History, Ethnography, and Analysis**

This is an advanced course in the history, ethnography, and analysis of contemporary music. Students will study several music traditions, inquiring into their history, musical structure, and social significance. In addition, each student will undertake an original analysis and research project that involves working with a Chicago musician, tradition, or repertoire; conducting interviews; engaging in musical transcription and analysis; and coming to an understanding of how musical practice engages and responds to its social context. This course complements the broad view of music taken in Music Time and Place II and advanced theory by engaging in more in-depth study of specific areas;

**Repeatable:** *N*

**Formerly** 32-3621

**Prerequisites** MUSC 362 Music, Time, and Place II

**Minimum Credits 3 Maximum Credits 3**

## **MUSC 475 Private Lessons: Senior Recital**

Required course for all graduating BMusic students that provides private instruction during the semester of the student's senior recital. Students will prepare the music for their recital under the close supervision of the instructor. The instructor will act as a performance coach, as a guide for choosing repertoire, and as a consultant on non-musical aspects of the senior recital, such as printed program preparation and staging. You must be currently enrolled as a student in a BMus program.

**Repeatable:** *Y*

**Formerly** 32-3797

**Requirements** Permission Required (DP)

**Minimum Credits 2 Maximum Credits 2**

## **MUSC 481 Recording and Performance Ensemble**

This advanced course requires students to develop their own collaborative projects, with the ultimate goal of creating a professionally marketable performing and recording entity. Over the course of the academic year, with the advice and coaching of their ensemble directors, the groups will develop a set of material for live-showcase performance, and create a fully produced, 3-5 song set of recordings suitable for commercial release. The bands will work closely with faculty, staff producers, resident and guest artists in creating their recorded product, and will have additional opportunities to create and perform in concert with select resident artists. Over the course of their two-semester project, band members may be engaged in various aspects of their project's creative and business activities including development of group persona, genre and direction, songwriting and repertoire development. Projects may also collaborate on their promotional, and overall artist-development materials with students and teams from the Music Business program. The class closely models experiences found in the professional space, and takes the student outside of their comfort zone in preparing them for the challenges of the music industry.

**Repeatable:** Y

**Formerly** MUSC 480

**Requirements** Permission Required (DP) Music Department Students Only (8MUS)

**Minimum Credits 1 Maximum Credits 1**

### **MUSC 489 BMus Senior Music Seminar**

Required capstone course for all BMus students that provides supervision and preparation for the student's senior recital and portfolio. Students will create a proposal for their senior recital under the supervision of the instructor and with the input of their private lesson instructor and concentration coordinator. Students will have the opportunity to present their work to their peers, receive career counseling, attend special presentations, and participate in senior assessment procedures.

**Repeatable:** N

**Formerly** 32-3999

**Prerequisites** MUSC 211 Foundations of Music IV or MUSC 214 Theory III

**Requirements** Senior Standing (SR) Bachelor of Music Students Only (BMUS)

**Minimum Credits 1 Maximum Credits 1**

*Choose one of the following courses:*

### **MUSC 181G Gospel Choir**

This ensemble is an introductory-level performance class focused on Gospel choral music. Students apply basic music skills, build ensemble awareness, and develop performance techniques necessary for participating in a large chorus experience. No audition required.

**Repeatable:** Y

**Minimum Credits 1 Maximum Credits 1**

### **MUSC 181J Jazz/Pop Choir**

This ensemble is an introductory-level performance class focused on Jazz and contemporary music arranged for choir. Students apply basic music skills, build ensemble awareness, and develop performance techniques necessary for participating in a large chorus experience. No audition required.

**Repeatable:** Y

**Minimum Credits 1 Maximum Credits 1**

*Complete 6 credits from the following courses:*

### **MUSC 171 Primary Lessons**

This course offers a progressive method through private instruction on a student's primary instrument for which a comparable Techniques Class Instruction is currently unavailable. Students must be registered in at least one other music course concurrently. The course is repeatable, but requires authorization by an area coordinator for first-time enrollment.

**Repeatable:** Y

**Formerly** 32-1771

**Prerequisites** MPRL-1-100 EXAM-MPRL MINIMUM SCORE = 100

Music Department Students Only (8MUS)

**Minimum Credits 2 Maximum Credits 2**

### **MUSC 271 Primary Lessons**

This course offers private instruction at a developing level in voice or primary instrument for students registered in at least one other music course concurrently. The course is repeatable, but requires authorization by an area coordinator for first-time enrollment.

**Repeatable:** Y

**Formerly** 32-2771

**Prerequisites** MPRL-2-100 EXAM-MPRL MINIMUM SCORE = 100

Music Department Students Only (8MUS)

**Minimum Credits 2 Maximum Credits 2**

### **MUSC 371 Primary Lessons**

This course offers private instruction at an intermediate level in voice or primary instrument for students registered in at least one other music course concurrently. The course is repeatable, but requires authorization by an area coordinator for first-time enrollment.

**Repeatable:** Y

**Formerly** 32-3771

**Prerequisites** MPRL-3-100 EXAM-MPRL MINIMUM SCORE = 100

Music Department Students Only (8MUS)

**Minimum Credits 2 Maximum Credits 2**

### **MUSC 471 Primary Lessons**

This course offers instruction at an advanced level in voice or primary instrument for students registered in at least one other music course concurrently. The course is repeatable, but requires authorization by an area coordinator for first-time enrollment

**Repeatable:** Y

**Prerequisites** MPRL-4-100 EXAM-MPRL MINIMUM SCORE = 100

**Requirements** Junior Standing or Above (JR) Music Department Students Only (8MUS)

**Minimum Credits 2 Maximum Credits 2**

*Choose one of the following courses:*

### **MUSC 327 Songwriting I**

The course examines the craft of popular songwriting from both a historical and applied practical viewpoint. The course is designed for composers and lyricists who are already writing songs, and wish to broaden their understanding of the craft, as well as for singers and instrumentalists in learning to collaborate effectively.

**Repeatable:** N

**Formerly** 32-2221

**Prerequisites** MUSC 111 Foundations of Music II

**Minimum Credits 3 Maximum Credits 3**

### **MUSC 335 Creative Improvisational Practice I**

This is an advanced study in improvisation. Students in this course will explore standard jazz and contemporary repertoire through application of theoretical and technical concepts. This course is a part of a sequence for Music Majors. Students will apply the methods taught in this class in their private study.

**Repeatable:** *N*

**Formerly** 32-3383

**Prerequisites** MUSC 111 Foundations of Music II

**Minimum Credits 2 Maximum Credits 2**

*Choose one of the following courses:*

### **BUSE 135 Business of Music**

Business of Music provides a comprehensive exploration of the multibillion-dollar music industry. Both historical developments and current music business issues are examined. Topics include professional songwriting, copyright, the recording industry, management, touring, publishing, marketing, distribution, the role of technology in the industry and careers in music. This course is an entry point for other music business classes, a requirement for students pursuing a music business management degree, and is also open to non-Business and Entrepreneurship majors.

**Repeatable:** *N*

**Formerly** 28-1410

**Minimum Credits 3 Maximum Credits 3**

### **BUSE 250 Music Publishing**

Students learn principles and procedures involved in music publishing both nationally and internationally. The course examines copyright basics, registration, and publishing income sources. Analysis of publishing deals and their negotiation provides a foundation in understanding the business of music publishing.

**Repeatable:** *N*

**Formerly** 28-2435

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

*Choose one of the following courses:*

### **BUSE 275 Self-Management and Freelancing**

This course provides artists of all disciplines with the fundamentals of self-sustaining careers in the arts, entertainment and media. The class equips students with an understanding of the matrix of skills, promotional vehicles, and revenue streams in the arts industries as well as fundamentals of career development and business acumen.

**Repeatable:** *N*

**Formerly** 28-2712

**Requirements** Sophomore Standing or Above (SO)

**Minimum Credits 3 Maximum Credits 3**

### **BUSE 350 Music Publishing II: Licensing Strategies**

This course teaches students concepts involved in developing contracts and music licensing strategies in the music industry. Specific topics include: negotiations involving various new media contracts from the viewpoint of the attorney, media company, and artist and manager; strategic budgeting and negotiation of the artistic development deals; licensing of completed recorded music; the internet as a tool for repertoire; and the utilization of technology for artist development.

**Repeatable:** N

**Formerly** 28-3430

**Prerequisites** BUSE 250 Music Publishing

**Minimum Credits 3 Maximum Credits 3**

## **MUSC 386 Music Immersion: Songwriters Week**

The course centers on a writing-for-hire model, in a collaborative team setting. Potential projects are presented on day one by Music Licensing student teams participating in the parallel BusE course, and may include publishing house briefs for upcoming artist releases, commercial and PSA themes, or TV and film scenes and scoring. Students teams develop and produce demos for final competitive client presentations.

**Repeatable:** Y

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

## **Electives**

*Choose one of the following courses:*

## **MUSC 228 Digital Music Composition and Performance**

This course develops the foundational skills and knowledge necessary for the creative use of technology in music composition and performance. Students will learn the basics of electro-acoustic music, object-oriented computer programming, psychoacoustics, and live and automated manipulation of audio as it relates to sound production and music composition. This course will give students an understanding of the technology essential to today's composer/performer in a hands-on environment that emphasizes the immediate creative application of new knowledge.

**Repeatable:** N

**Formerly** 32-2261

**Prerequisites** MUSC 111 Foundations of Music II

**Minimum Credits 2 Maximum Credits 2**

## **MUSC 271 Primary Lessons**

This course offers private instruction at a developing level in voice or primary instrument for students registered in at least one other music course concurrently. The course is repeatable, but requires authorization by an area coordinator for first-time enrollment.

**Repeatable:** Y

**Formerly** 32-2771

Music Department Students Only (8MUS)

**Minimum Credits 2 Maximum Credits 2**

*Choose one of the following courses:*

### **MUSC 327 Songwriting I**

The course examines the craft of popular songwriting from both a historical and applied practical viewpoint. The course is designed for composers and lyricists who are already writing songs, and wish to broaden their understanding of the craft, as well as for singers and instrumentalists in learning to collaborate effectively.

**Repeatable:** N

**Formerly** 32-2221

**Prerequisites** MUSC 111 Foundations of Music II

**Minimum Credits 3 Maximum Credits 3**

### **MUSC 335 Creative Improvisational Practice I**

This is an advanced study in improvisation. Students in this course will explore standard jazz and contemporary repertoire through application of theoretical and technical concepts. This course is a part of a sequence for Music Majors. Students will apply the methods taught in this class in their private study.

**Repeatable:** N

**Formerly** 32-3383

**Prerequisites** MUSC 111 Foundations of Music II

**Minimum Credits 2 Maximum Credits 2**

### **MUSC 371 Primary Lessons**

This course offers private instruction at an intermediate level in voice or primary instrument for students registered in at least one other music course concurrently. The course is repeatable, but requires authorization by an area coordinator for first-time enrollment.

**Repeatable:** Y

**Formerly** 32-3771

**Prerequisites** MPRL-3-100 EXAM-MPRL MINIMUM SCORE = 100

Music Department Students Only (8MUS)

**Minimum Credits 2 Maximum Credits 2**

### **MUSC 373 Composition Lessons**

This course offers intermediate private instruction in composition for music students. In this course, students continue to foster their own creative voice in any compositional style they choose, through work on a piece (or several short pieces) for any acoustic or a combination of acoustic and electronic medium. The course is repeatable, but requires authorization by an area coordinator for first-time enrollment.

**Repeatable:** Y

**Formerly** 32-3791

**Prerequisites** MUSC 228 Digital Music Composition and Performance or MCPL-3-100 EXAM-MCPL

MINIMUM SCORE = 100

**Requirements** Permission Required (DP) Music Department Students Only (8MUS)

**Minimum Credits 2 Maximum Credits 2**

*Choose one of the following courses:*

## **MUSC 427 Songwriting II**

This course extends and expands topics discussed in Songwriting I, and addresses additional topics for the professional songwriter. The class includes lyric, harmonic, melodic and formal analysis, and looks at the resulting symbiosis of these elements in forming a well-crafted and coherent whole. Also addresses application of these elements to create more artful narrative approaches and their application in larger and more complex musical forms. The class includes intensive workshops for discussion and development of student works in progress. Aspects of publishing, royalty structures and professional alternatives for the working songwriter are also addressed.

**Repeatable:** N

**Formerly** 32-3222

**Prerequisites** MUSC 327 Songwriting I

**Minimum Credits** 3 **Maximum Credits** 3

## **MUSC 435 Creative Improvisational Practice II**

This is an advanced study in improvisation. Students in this course will explore standard jazz and contemporary repertoire while developing their own voice as an improviser. This course is a part of a sequence for Music Majors. Students will apply the methods taught in this class in their private study.

**Repeatable:** N

**Formerly** 32-3384

**Prerequisites** MUSC 335 Creative Improvisational Practice I

*Complete 7 credits from the following courses:*

## **MUSC 180 Styles & Techniques Ensemble**

Styles and Techniques Ensemble is an introductory-level performance class for instrumentalists and/or vocalists. Styles and Techniques ensembles investigate characteristic elements of a variety of classic and contemporary genres, through a series of genre-specific modules. Ensembles are an integral component of the music program, focusing on musicianship as it applies to technical ability, music literacy, theory, history, and aural skills. Students regularly apply ensemble awareness and effective rehearsal and performance techniques, building confidence in their own abilities and in their ability to function as an effective team.

**Repeatable:** Y

**Formerly** 32-1890

**Requirements** Permission Required (DP) Music Department Students Only (8MUS)

**Minimum Credits 1 Maximum Credits 1**

### **MUSC 181G Gospel Choir**

This ensemble is an introductory-level performance class focused on Gospel choral music. Students apply basic music skills, build ensemble awareness, and develop performance techniques necessary for participating in a large chorus experience. No audition required.

**Repeatable:** Y

**Minimum Credits 1 Maximum Credits 1**

### **MUSC 181J Jazz/Pop Choir**

This ensemble is an introductory-level performance class focused on Jazz and contemporary music arranged for choir. Students apply basic music skills, build ensemble awareness, and develop performance techniques necessary for participating in a large chorus experience. No audition required.

**Repeatable:** Y

**Minimum Credits 1 Maximum Credits 1**

### **MUSC 280 Performance Ensemble: Survey**

The Performance Survey Ensemble course is an intermediate-level performance class for instrumentalists and/or vocalists. Survey Ensembles investigate characteristic elements of a variety of classic and contemporary genres, through a series of genre-specific modules. Ensembles are an integral component of the music program, focusing on musicianship as it applies to technical ability, music literacy, theory, history, and aural skills. Students regularly apply ensemble awareness and effective rehearsal and performance techniques, building confidence in their own abilities and in their ability to function as an effective team.

**Repeatable:** Y

**Formerly** 32-2890

**DEI**

**Requirements** Permission Required (DP) Music Department Students Only (8MUS)

**Minimum Credits 1 Maximum Credits 1**

### **MUSC 380A Performance Ensemble: American Roots**

The Performance Genre Ensemble course is an advanced-intermediate level performance class for instrumentalists, composers and/or vocalists. Genre ensembles engage in the history, performance and composition of specific styles and threads of contemporary and popular music. Ensembles are an integral component of the music program, focusing on musicianship as it applies to technical ability, music literacy, theory, history, and aural skills. Students regularly apply ensemble awareness and effective rehearsal and

performance techniques, building confidence in their own abilities and in their ability to function as an effective team.

**Repeatable:** Y

**Formerly** MUSC 380

**Requirements** Permission Required (DP) Music Department Students Only (8MUS)

**Minimum Credits 1 Maximum Credits 1**

### **MUSC 380B Performance Ensemble: Breakaway**

The Performance Genre Ensemble course is an advanced-intermediate level performance class for instrumentalists, composers and/or vocalists. Genre ensembles engage in the history, performance and composition of specific styles and threads of contemporary and popular music. Ensembles are an integral component of the music program, focusing on musicianship as it applies to technical ability, music literacy, theory, history, and aural skills. Students regularly apply ensemble awareness and effective rehearsal and performance techniques, building confidence in their own abilities and in their ability to function as an effective team.

**Repeatable:** Y

**Requirements** Permission Required (DP) Music Department Students Only (8MUS)

**Minimum Credits 1 Maximum Credits 1**

### **MUSC 380C Performance Ensemble: Laptop Ensemble**

The Performance Genre Ensemble course is an advanced-intermediate level performance class for instrumentalists, composers and/or vocalists. Genre ensembles engage in the history, performance and composition of specific styles and threads of contemporary and popular music. Ensembles are an integral component of the music program, focusing on musicianship as it applies to technical ability, music literacy, theory, history, and aural skills. Students regularly apply ensemble awareness and effective rehearsal and performance techniques, building confidence in their own abilities and in their ability to function as an effective team.

**Repeatable:** Y

**Requirements** Permission Required (DP) Music Department Students Only (8MUS)

**Minimum Credits 1 Maximum Credits 1**

### **MUSC 380G Performance Ensemble: Gospel Repertory Ensemble**

The Performance Genre Ensemble course is an advanced-intermediate level performance class for instrumentalists, composers and/or vocalists. Genre ensembles engage in the history, performance and composition of specific styles and threads of contemporary and popular music. Ensembles are an integral component of the music program, focusing on musicianship as it applies to technical ability, music literacy, theory, history, and aural skills. Students regularly apply ensemble awareness and effective rehearsal and performance techniques, building confidence in their own abilities and in their ability to function as an effective team.

**Repeatable:** Y

**Requirements** Permission Required (DP) Music Department Students Only (8MUS)

**Minimum Credits 1 Maximum Credits 1**

### **MUSC 380J Performance Ensemble: Jazz Combos**

The Performance Genre Ensemble course is an advanced-intermediate level performance class for instrumentalists, composers and/or vocalists. Genre ensembles engage in the history, performance and composition of specific styles and threads of contemporary and popular music. Ensembles are an integral component of the music program, focusing on musicianship as it applies to technical ability, music literacy, theory, history, and aural skills. Students regularly apply ensemble awareness and effective rehearsal and performance techniques, building confidence in their own abilities and in their ability to function as an effective team.

**Repeatable:** Y

**Requirements** Permission Required (DP) Music Department Students Only (8MUS)

**Minimum Credits 1 Maximum Credits 1**

### **MUSC 380L Performance Ensemble: Latin Ensemble**

The Performance Genre Ensemble course is an advanced-intermediate level performance class for instrumentalists, composers and/or vocalists. Genre ensembles engage in the history, performance and composition of specific styles and threads of contemporary and popular music. Ensembles are an integral component of the music program, focusing on musicianship as it applies to technical ability, music literacy, theory, history, and aural skills. Students regularly apply ensemble awareness and effective rehearsal and performance techniques, building confidence in their own abilities and in their ability to function as an effective team.

**Repeatable:** Y

**Requirements** Permission Required (DP) Music Department Students Only (8MUS)

**Minimum Credits 1 Maximum Credits 1**

### **MUSC 380N Performance Ensemble: New Music Ensemble**

The Performance Genre Ensemble course is an advanced-intermediate level performance class for instrumentalists, composers and/or vocalists. Genre ensembles engage in the history, performance and composition of specific styles and threads of contemporary and popular music. Ensembles are an integral component of the music program, focusing on musicianship as it applies to technical ability, music literacy, theory, history, and aural skills. Students regularly apply ensemble awareness and effective rehearsal and performance techniques, building confidence in their own abilities and in their ability to function as an effective team.

**Repeatable:** Y

**Requirements** Permission Required (DP) Music Department Students Only (8MUS)

**Minimum Credits 1 Maximum Credits 1**

### **MUSC 380P Performance Ensemble: Hip-Hop Ensemble**

The Performance Genre Ensemble course is an advanced-intermediate level performance class for instrumentalists, composers and/or vocalists. Genre ensembles engage in the history, performance and composition of specific styles and threads of contemporary and popular music. Ensembles are an integral component of the music program, focusing on musicianship as it applies to technical ability, music literacy, theory, history, and aural skills. Students regularly apply ensemble awareness and effective rehearsal and performance techniques, building confidence in their own abilities and in their ability to function as an effective team.

**Repeatable:** Y

**Requirements** Permission Required (DP) Music Department Students Only (8MUS)

**Minimum Credits 1 Maximum Credits 1**

### **MUSC 380U Performance Ensemble: Guitar Ensemble**

The Performance Genre Ensemble course is an advanced-intermediate level performance class for instrumentalists, composers and/or vocalists. Genre ensembles engage in the history, performance and composition of specific styles and threads of contemporary and popular music. Ensembles are an integral component of the music program, focusing on musicianship as it applies to technical ability, music literacy, theory, history, and aural skills. Students regularly apply ensemble awareness and effective rehearsal and performance techniques, building confidence in their own abilities and in their ability to function as an effective team.

**Repeatable:** Y

**Requirements** Permission Required (DP) Music Department Students Only (8MUS)

**Minimum Credits 1 Maximum Credits 1**

### **MUSC 480F Showcase Ensemble: Fusion Ensemble**

Fusion Ensemble course is an advanced-level performance class for instrumentalists and/or vocalists. Repertoire is drawn from advanced-level material appropriate to the style. Ensembles are an integral component of the music program, focusing on musicianship as it applies to technical ability, music literacy, theory, history, and aural skills. Students regularly apply ensemble awareness and effective rehearsal and performance techniques, building confidence in their own abilities and in their ability to function as an effective team.

**Repeatable:** Y

**Requirements** Permission Required (DP) Music Department Students Only (8MUS)

**Minimum Credits 1 Maximum Credits 1**

### **MUSC 480G Showcase Ensemble: Gospel Band**

The Gospel Band course is an advanced-level performance class for instrumentalists and/or vocalists. Repertoire is drawn from advanced-level material appropriate to the style. Ensembles are an integral component of the music program, focusing on musicianship as it applies to technical ability, music literacy, theory, history, and aural skills. Students regularly apply ensemble awareness and effective rehearsal and performance techniques, building confidence in their own abilities and in their ability to function as an effective team.

**Repeatable:** Y

**Requirements** Permission Required (DP) Music Department Students Only (8MUS)

**Minimum Credits 1 Maximum Credits 1**

### **MUSC 480J Showcase Ensemble: Columbia College Jazz Ensemble**

The Columbia College Jazz Ensemble course is an advanced-level performance class for instrumentalists. Repertoire is drawn from advanced-level material appropriate to the style. Ensembles are an integral component of the music program, focusing on musicianship as it applies to technical ability, music literacy, theory, history, and aural skills. Students regularly apply ensemble awareness and effective rehearsal and performance techniques, building confidence in their own abilities and in their ability to function as an effective team.

**Repeatable:** Y

**Requirements** Permission Required (DP) Music Department Students Only (8MUS)

**Minimum Credits 1 Maximum Credits 1**

### **MUSC 480L Showcase Ensemble: Latin Ensemble**

The Latin Ensemble course is an advanced-level performance class for instrumentalists and/or vocalists. Repertoire is drawn from advanced-level material appropriate to the style. Ensembles are an integral component of the music program, focusing on musicianship as it applies to technical ability, music literacy, theory, history, and aural skills. Students regularly apply ensemble awareness and effective rehearsal and performance techniques, building confidence in their own abilities and in their ability to function as an effective team.

**Repeatable:** Y

**Requirements** Permission Required (DP) Music Department Students Only (8MUS)

**Minimum Credits 1 Maximum Credits 1**

### **MUSC 480P Showcase Ensemble: Pop/Rock Ensemble**

The Pop Rock Showcase course is an advanced-level performance class for instrumentalists and/or vocalists. Repertoire is drawn from advanced-level material appropriate to the style. Ensembles are an integral component of the music program, focusing on musicianship as it applies to technical ability, music literacy, theory, history, and aural skills. Students regularly apply ensemble awareness and effective rehearsal and performance techniques, building confidence in their own abilities and in their ability to function as an effective team.

**Repeatable:** Y

**Requirements** Permission Required (DP) Music Department Students Only (8MUS)

**Minimum Credits 1 Maximum Credits 1**

### **MUSC 480R Showcase Ensemble: R&B Ensemble**

The R&B Ensemble course is an advanced-level performance class for instrumentalists and/or vocalists. Repertoire is drawn from advanced-level material appropriate to the style. Ensembles are an integral component of the music program, focusing on musicianship as it applies to technical ability, music literacy, theory, history, and aural skills. Students regularly apply ensemble awareness and effective rehearsal and performance techniques, building confidence in their own abilities and in their ability to function as an effective team.

**Repeatable:** Y

**Requirements** Permission Required (DP) Music Department Students Only (8MUS)

**Minimum Credits 1 Maximum Credits 1**

### **MUSC 480V Showcase Ensemble: ChicagoVox**

Chicago Vox is an advanced-level performance class for vocalists. Repertoire is drawn from advanced-level material appropriate to the style. Ensembles are an integral component of the music program, focusing on musicianship as it applies to technical ability, music literacy, theory, history, and aural skills. Students regularly apply ensemble awareness and effective rehearsal and performance techniques, building confidence in their own abilities and in their ability to function as an effective team.

**Repeatable:** Y

**Requirements** Permission Required (DP) Music Department Students Only (8MUS)

**Minimum Credits 1 Maximum Credits 1**

## **MUSC 481 Recording and Performance Ensemble**

This advanced course requires students to develop their own collaborative projects, with the ultimate goal of creating a professionally marketable performing and recording entity. Over the course of the academic year, with the advice and coaching of their ensemble directors, the groups will develop a set of material for live-showcase performance, and create a fully produced, 3-5 song set of recordings suitable for commercial release. The bands will work closely with faculty, staff producers, resident and guest artists in creating their recorded product, and will have additional opportunities to create and perform in concert with select resident artists. Over the course of their two-semester project, band members may be engaged in various aspects of their project's creative and business activities including development of group persona, genre and direction, songwriting and repertoire development. Projects may also collaborate on their promotional, and overall artist-development materials with students and teams from the Music Business program. The class closely models experiences found in the professional space, and takes the student outside of their comfort zone in preparing them for the challenges of the music industry.

**Repeatable:** Y

**Formerly** MUSC 480

**Requirements** Permission Required (DP) Music Department Students Only (8MUS)

**Minimum Credits 1 Maximum Credits 1**

## **Music Composition, BMus**

The Bachelor of Music in Music Composition offers students a well-rounded curriculum that provides foundational training in the theories, contexts, and practice of contemporary music. At the center of the BMus in Music Composition is a sequence of four courses that combine composition, orchestration, counterpoint, and digital music production in a holistic project-based approach, designed to help composers succeed in the 21st century. The program focuses extensively on current compositional techniques, with special emphasis on methods utilized by concert music composers since 1970. Working in tight integration with the Music Composition for the Screen MFA program, the BMus in Music Composition features the MFA program's Composers in Residence as part of their advanced composition classes.

As a result of successfully completing program requirements, students should be able to:

- read, notate, hear, perform, and analyze music at an advanced musicianship level;
- demonstrate performance and improvisational skills on an instrument or voice;
- demonstrate an understanding of the characteristics, performance practices, and historical context of a diverse range of musical styles and genres;
- critically assess music performances;
- demonstrate advanced knowledge and skill in composition, improvisation, and digital music production in order to create and produce original music;
- demonstrate a capacity to produce a portfolio of original music culminating in a final media product or live performance experience; and
- demonstrate the acumen required to prepare a viable business plan for a career in music or a career in music composition or production.

## **PROGRAM REQUIREMENTS - 80 credits required**

### **MUSC 110 Foundations of Music I**

Foundations of Music I is the initial course of the Music Core Curriculum and includes instruction in the areas of contemporary music theory, aural skills, piano keyboard (or equivalent), digital audio workstations and a variety of applications used widely in the music industry.

**Repeatable:** *N*

**Formerly** 32-1120

**DEI**

**Concurrent Requisite** MUSC 174 Applied Music I

**Minimum Credits 4 Maximum Credits 4**

## **MUSC 111 Foundations of Music II**

Foundations of Music II is the second course of the Music Core Curriculum and includes instruction in the areas of contemporary music theory, aural skills, piano keyboard (or equivalent), digital audio workstations and a variety of applications used widely in the music industry.

**Repeatable:** *N*

**DEI**

**Prerequisites** MUSC 110 Foundations of Music I

**Concurrent Requisite** MUSC 175 Applied Music II

**Minimum Credits 4 Maximum Credits 4**

## **MUSC 174 Applied Music I**

This course provides an applied experience contemporary instrumental students need prior to enrolling in private lessons. Students will study the foundational knowledge, techniques, skills, and repertoire essential to their chosen instrument. Students will apply their Foundations of Music skills to begin developing an improvisational approach to their instrument.

**Repeatable:** *N*

**Formerly** 32-1321

**Concurrent Requisite** MUSC 110 Foundations of Music I

**Minimum Credits 2 Maximum Credits 2**

## **MUSC 175 Applied Music II**

This course provides an applied experience contemporary instrumental students need prior to enrolling in private lessons. Students will study technique, scales, chords, sight-reading and repertoire. Students will apply their Foundations of Music skills to begin developing an improvisational approach to their instrument.

**Repeatable:** *N*

**Concurrent Requisite** MUSC 111 Foundations of Music II

**Minimum Credits 2 Maximum Credits 2**

## **MUSC 210 Foundations of Music III**

Foundations of Music III is the third course of the Music Core Curriculum and includes instruction in the areas of contemporary music theory, aural skills, piano keyboard (or equivalent), digital audio workstations, and a variety of applications used widely in the music industry.

**Repeatable:** *N*

**DEI**

**Prerequisites** MUSC 111 Foundations of Music II  
**Minimum Credits 3 Maximum Credits 3**

### **MUSC 211 Foundations of Music IV**

Foundations of Music IV focus on the development and influences of the blues on contemporary music as well as exploration of diverse rhythmic influences from many cultures around the world in current music making. The course also focuses on application of concepts from the Foundations sequence in present music practice.

**Repeatable:** N

**DEI**

**Prerequisites** MUSC 210 Foundations of Music III  
**Minimum Credits 3 Maximum Credits 3**

### **MUSC 223 Elements of Music Design**

Elements of Music Design is an intermediate project-based music course to be taken after completing Foundations II in the music sequence. The course is designed to prepare the student to identify music through aural transcription and write music in a specific style. This course is intended for the developing musician in the creation of music in a global context.

**Repeatable:** N

**DEI**

**Prerequisites** MUSC 111 Foundations of Music II  
**Minimum Credits 3 Maximum Credits 3**

### **MUSC 271 Primary Lessons**

This course offers private instruction at a developing level in voice or primary instrument for students registered in at least one other music course concurrently. The course is repeatable, but requires authorization by an area coordinator for first-time enrollment.

**Repeatable:** Y

**Formerly** 32-2771

**Prerequisites** MPRL-2-100 EXAM-MPRL MINIMUM SCORE = 100  
Music Department Students Only (8MUS)  
**Minimum Credits 2 Maximum Credits 2**

### **MUSC 325 Arranging and Orchestration**

This course examines arranging and orchestration, including acoustic and electronic instruments, their ranges, and sound characteristics. Students will learn to construct basic lead sheets and create arrangements for large and small ensembles in various genres. Topics also include score and part preparation according to industry standards.

**Repeatable:** N

**Formerly** 32-2250

**DEI**

**Prerequisites** MUSC 223 Elements of Music Design and MUSC 210 Foundations of Music III  
**Minimum Credits 3 Maximum Credits 3**

## **MUSC 330 Composition I**

This course introduces the student to the fundamentals of music composition. Through analysis of existing works from numerous styles and traditions, compositional exercises, and instructional guidance in the students' own creative compositional work, students learn to envision, plan, and execute compositional ideas and realize them using current, commonly employed tools and processes, with focus on the deliberate and controlled use of all musical parameters as structural as well as expressive elements. Classroom performance of works, both in progress and finished, is an integral part of the instructional method, as is the examination, discussion, and critical feedback of all students' work, both by the instructor as well as by their peers.

**Repeatable:** *N*

**Prerequisites** MUSC 211 Foundations of Music IV and MUSC 223 Elements of Music Design

**Minimum Credits 3 Maximum Credits 3**

## **MUSC 331 Composition II**

Using similar instructional methods, this course continues the work begun in MUSC 330 by introducing more advanced concepts of compositional techniques, more expansive forms and ensembles, more complex technological tools for the realization of compositions, and other similar expansions on the concepts introduced in MUSC 330. In addition to the regular classroom performances/presentations, students also integrate more accomplished live musicians into their works and compositional methodologies via a small recording session towards the end of the semester. As in MUSC 330, the examination, discussion, and critical feedback of all students' work, both by the instructor as well as by their peers, represents an integral part of the instructional method.

**Repeatable:** *N*

**Prerequisites** MUSC 330 Composition I

**Minimum Credits 3 Maximum Credits 3**

## **MUSC 336 Composition Practicum I**

This course allows students to apply their compositional skills in applied settings as they are currently found in arts and entertainment. Under the guidance of their instructor(s), students write and produce music for several collaborative works in media or the performing arts, adhering to the specific needs of the project at hand, as well as to the current practice prevalent in that type of media or performance. The development and continual adjustment of compositional strategies to support the creative brief and the needs of the project at hand, and the communication with the project creator in this regard, are as integral to the work as the actual composition and production of the music.

**Repeatable:** *N*

**Prerequisites** MUSC 211 Foundations of Music IV

**Minimum Credits 3 Maximum Credits 3**

## **MUSC 337 Composition Practicum II**

Expanding on MUSC 336, students are applying their skills on larger and more ambitious works in media or the performing arts, necessitating a deeper exploration of both compositional strategies to accommodate longer arcs while retaining cohesion, as well as more advanced and complex challenges regarding creative revisions, collaborative communication, technological integration, and similar. The course includes a recording session using live players towards the end of the semester, necessitating both the creation of performance materials to industry standards, communication of performance instructions under time

pressure during the session, and integration of the recordings into the final version of the work after the conclusion of the session. This allows the students to experience a credible, simple simulation of current professional composition practice.

**Repeatable:** *N*

**Prerequisites** MUSC 336 Composition Practicum I

**Minimum Credits 3 Maximum Credits 3**

## **MUSC 350 Applied Music Production**

An intermediate course to be taken after completing Foundations of Music sequence.

Prepares instrumentalists, singers, and songwriters for more advanced concepts in the creation of music and further develops students' fluency in current music technology tools used throughout the program.

Applies the digital environment toward the creation of larger-scale projects and includes concepts in music production, arranging, orchestration, and score preparation.

**Repeatable:** *N*

**Formerly** 32-2925

**Prerequisites** MUSC 211 Foundations of Music IV or MUSC 152 Technology for Musicians I and MUSC 177 Keyboard Styles and Techniques I

**Minimum Credits 3 Maximum Credits 3**

## **MUSC 361 Music, Time, and Place I**

This course addresses ways in which music shapes and is shaped by its social, cultural, and historical contexts. Through reading, writing, and focused listening, students explore the range of philosophies undergirding diverse musical practices and the processes through which those philosophies change over time. Students examine the technical features of specific musical examples as they engage with the aesthetic and ideological issues animating musical practice.

**Repeatable:** *N*

**Formerly** 32-2611

**DEI**

**Prerequisites** MUSC 111 Foundations of Music II

**Minimum Credits 3 Maximum Credits 3**

## **MUSC 362 Music, Time, and Place II**

This course addresses the extraordinary social and cultural upheavals associated with music since 1900. Through reading, writing, and focused listening, students explore the range of challenges to the traditional high art canon asserted through new technologies, new philosophies, and the ascendancy of African-American musical practices.

**Repeatable:** *N*

**Formerly** 32-2612

**DEI**

**Prerequisites** MUSC 111 Foundations of Music II

**Minimum Credits 3 Maximum Credits 3**

## **MUSC 363 Music Styles and Analysis**

Music Styles and Analysis is an advanced theory and criticism class designed to be taken after completing the Foundations of Music Sequence. The course develops a sensitivity to stylistic markers acquired through aural analysis with the ability to apply such appropriately in composition, arranging and performance.

**Repeatable:** *N*

**Formerly** 32-3630

**DEI**

**Prerequisites** MUSC 211 Foundations of Music IV or MUSC 235 Techniques for Improvisation II

**Minimum Credits 3 Maximum Credits 3**

### **MUSC 430 Studio Composition III**

The project-driven Studio Composition III explores writing for solo instruments (with or without electronic accompaniment) and a final small chamber ensemble of varied instrumentation with multimedia and audience participation. During the course of the semester, the students will be exposed to Eastern European and world musical idioms, elements of common-practice tonality and extended chromatic tonality. Projects will involve working with mentor composers who will be in residence at the MFA Music Composition for the Screen program.

**Repeatable:** *N*

**Prerequisites** MUSC 331 Composition II

**Minimum Credits 6 Maximum Credits 6**

### **MUSC 431 Studio Composition IV**

The project-driven Studio Composition IV explores writing for solo, ensemble, and orchestra with and without digital media. The students will work directly with the composers-in-residence in the MFA Music Composition for the Screen program in order to understand current industry practice. Students will be expected to conform to such practice in the preparation of scores and parts. Final projects will be composed for soloist and chamber ensemble with digital media and recorded at the end of the term.

**Repeatable:** *N*

**Prerequisites** MUSC 430 Studio Composition III

**Minimum Credits 6 Maximum Credits 6**

### **MUSC 461 Music History, Ethnography, and Analysis**

This is an advanced course in the history, ethnography, and analysis of contemporary music. Students will study several music traditions, inquiring into their history, musical structure, and social significance. In addition, each student will undertake an original analysis and research project that involves working with a Chicago musician, tradition, or repertoire; conducting interviews; engaging in musical transcription and analysis; and coming to an understanding of how musical practice engages and responds to its social context. This course complements the broad view of music taken in Music Time and Place II and advanced theory by engaging in more in-depth study of specific areas;

**Repeatable:** *N*

**Formerly** 32-3621

**Prerequisites** MUSC 362 Music, Time, and Place II

**Minimum Credits 3 Maximum Credits 3**

### **MUSC 462 Music Analysis and Criticism**

This is an advanced course in the history, ethnography, and analysis of contemporary music. Students will study several music traditions in media and contemporary concert music, inquiring into their history, musical structure, and social significance. In addition, each student will undertake an original analysis and research project that involves ethnographic research; conducting interviews where possible; engaging in musical transcription and analysis; and coming to an understanding of how musical practice engages and responds to its social context.

**Repeatable:** N

**Formerly** 32-3122

**Prerequisites** MUSC 461 Music History, Ethnography, and Analysis

**Minimum Credits** 3 **Maximum Credits** 3

### **MUSC 475 Private Lessons: Senior Recital**

Required course for all graduating BMusic students that provides private instruction during the semester of the student's senior recital. Students will prepare the music for their recital under the close supervision of the instructor. The instructor will act as a performance coach, as a guide for choosing repertoire, and as a consultant on non-musical aspects of the senior recital, such as printed program preparation and staging. You must be currently enrolled as a student in a BMus program.

**Repeatable:** Y

**Formerly** 32-3797

**Requirements** Permission Required (DP)

**Minimum Credits** 2 **Maximum Credits** 2

### **MUSC 489 BMus Senior Music Seminar**

Required capstone course for all BMus students that provides supervision and preparation for the student's senior recital and portfolio. Students will create a proposal for their senior recital under the supervision of the instructor and with the input of their private lesson instructor and concentration coordinator. Students will have the opportunity to present their work to their peers, receive career counseling, attend special presentations, and participate in senior assessment procedures.

**Repeatable:** N

**Formerly** 32-3999

**Prerequisites** MUSC 211 Foundations of Music IV or MUSC 214 Theory III

**Requirements** Senior Standing (SR) Bachelor of Music Students Only (BMUS)

**Minimum Credits** 1 **Maximum Credits** 1

*Choose one of the following courses:*

### **MUSC 181G Gospel Choir**

This ensemble is an introductory-level performance class focused on Gospel choral music. Students apply basic music skills, build ensemble awareness, and develop performance techniques necessary for participating in a large chorus experience. No audition required.

**Repeatable:** Y

**Minimum Credits** 1 **Maximum Credits** 1

### **MUSC 181J Jazz/Pop Choir**

This ensemble is an introductory-level performance class focused on Jazz and contemporary music arranged for choir. Students apply basic music skills, build ensemble awareness, and develop performance techniques necessary for participating in a large chorus experience. No audition required.

**Repeatable:** Y

**Minimum Credits 1 Maximum Credits 1**

*Choose one of the following courses:*

### **MUSC 228 Digital Music Composition and Performance**

This course develops the foundational skills and knowledge necessary for the creative use of technology in music composition and performance. Students will learn the basics of electro-acoustic music, object-oriented computer programming, psychoacoustics, and live and automated manipulation of audio as it relates to sound production and music composition. This course will give students an understanding of the technology essential to today's composer/performer in a hands-on environment that emphasizes the immediate creative application of new knowledge.

**Repeatable:** N

**Formerly** 32-2261

**Prerequisites** MUSC 111 Foundations of Music II

**Minimum Credits 2 Maximum Credits 2**

### **MUSC 327 Songwriting I**

The course examines the craft of popular songwriting from both a historical and applied practical viewpoint. The course is designed for composers and lyricists who are already writing songs, and wish to broaden their understanding of the craft, as well as for singers and instrumentalists in learning to collaborate effectively.

**Repeatable:** N

**Formerly** 32-2221

**Prerequisites** MUSC 111 Foundations of Music II

**Minimum Credits 3 Maximum Credits 3**

### **MUSC 335 Creative Improvisational Practice I**

This is an advanced study in improvisation. Students in this course will explore standard jazz and contemporary repertoire through application of theoretical and technical concepts. This course is a part of a sequence for Music Majors. Students will apply the methods taught in this class in their private study.

**Repeatable:** N

**Formerly** 32-3383

**Prerequisites** MUSC 111 Foundations of Music II

**Minimum Credits 2 Maximum Credits 2**

### **MUSC 371 Primary Lessons**

This course offers private instruction at an intermediate level in voice or primary instrument for students registered in at least one other music course concurrently. The course is repeatable, but requires authorization by an area coordinator for first-time enrollment.

**Repeatable:** Y

**Formerly** 32-3771

**Prerequisites** MPRL-3-100 EXAM-MPRL MINIMUM SCORE = 100

Music Department Students Only (8MUS)

**Minimum Credits 2 Maximum Credits 2**

## **MUSC 373 Composition Lessons**

This course offers intermediate private instruction in composition for music students. In this course, students continue to foster their own creative voice in any compositional style they choose, through work on a piece (or several short pieces) for any acoustic or a combination of acoustic and electronic medium. The course is repeatable, but requires authorization by an area coordinator for first-time enrollment.

**Repeatable:** Y

**Formerly** 32-3791

**Prerequisites** MUSC 228 Digital Music Composition and Performance or MCPL-3-100 EXAM-MCPL MINIMUM SCORE = 100

**Requirements** Permission Required (DP) Music Department Students Only (8MUS)

**Minimum Credits 2 Maximum Credits 2**

*Choose one of the following courses:*

## **MUSC 427 Songwriting II**

This course extends and expands topics discussed in Songwriting I, and addresses additional topics for the professional songwriter. The class includes lyric, harmonic, melodic and formal analysis, and looks at the resulting symbiosis of these elements in forming a well-crafted and coherent whole. Also addresses application of these elements to create more artful narrative approaches and their application in larger and more complex musical forms. The class includes intensive workshops for discussion and development of student works in progress. Aspects of publishing, royalty structures and professional alternatives for the working songwriter are also addressed.

**Repeatable:** N

**Formerly** 32-3222

**Prerequisites** MUSC 327 Songwriting I

**Minimum Credits 3 Maximum Credits 3**

## **MUSC 435 Creative Improvisational Practice II**

This is an advanced study in improvisation. Students in this course will explore standard jazz and contemporary repertoire while developing their own voice as an improviser. This course is a part of a sequence for Music Majors. Students will apply the methods taught in this class in their private study.

**Repeatable:** N

**Formerly** 32-3384

**Prerequisites** MUSC 335 Creative Improvisational Practice I

**Minimum Credits 2 Maximum Credits 2**

## **MUSC 471 Primary Lessons**

This course offers instruction at an advanced level in voice or primary instrument for students registered in at least one other music course concurrently. The course is repeatable, but requires authorization by an area coordinator for first-time enrollment

**Repeatable:** Y

**Prerequisites** MPRL-4-100 EXAM-MPRL MINIMUM SCORE = 100

**Requirements** Junior Standing or Above (JR) Music Department Students Only (8MUS)

**Minimum Credits 2 Maximum Credits 2**

### **MUSC 473 Composition Lessons**

This course offers advanced private instruction in composition for music students. In this course, students continue to foster their own creative voice in any compositional style they choose, through work on a piece (or several short pieces) for a chamber ensemble of varying instrumentation. The course is repeatable, but requires authorization by an area coordinator for first-time enrollment.

**Repeatable:** Y

**Prerequisites** MCPL-4-100 EXAM-MCPL MINIMUM SCORE = 100

**Requirements** Permission Required (DP) Music Department Students Only (8MUS)

**Minimum Credits 2 Maximum Credits 2**

### **Ensemble Electives**

*Complete 4 credits from the following courses:*

### **MUSC 180 Styles & Techniques Ensemble**

Styles and Techniques Ensemble is an introductory-level performance class for instrumentalists and/or vocalists. Styles and Techniques ensembles investigate characteristic elements of a variety of classic and contemporary genres, through a series of genre-specific modules. Ensembles are an integral component of the music program, focusing on musicianship as it applies to technical ability, music literacy, theory, history, and aural skills. Students regularly apply ensemble awareness and effective rehearsal and performance techniques, building confidence in their own abilities and in their ability to function as an effective team.

**Repeatable:** Y

**Formerly** 32-1890

**Requirements** Permission Required (DP) Music Department Students Only (8MUS)

**Minimum Credits 1 Maximum Credits 1**

### **MUSC 181G Gospel Choir**

This ensemble is an introductory-level performance class focused on Gospel choral music. Students apply basic music skills, build ensemble awareness, and develop performance techniques necessary for participating in a large chorus experience. No audition required.

**Repeatable:** Y

**Minimum Credits 1 Maximum Credits 1**

### **MUSC 181J Jazz/Pop Choir**

This ensemble is an introductory-level performance class focused on Jazz and contemporary music arranged for choir. Students apply basic music skills, build ensemble awareness, and develop performance techniques necessary for participating in a large chorus experience. No audition required.

**Repeatable:** Y

**Minimum Credits 1 Maximum Credits 1**

### **MUSC 280 Performance Ensemble: Survey**

The Performance Survey Ensemble course is an intermediate-level performance class for instrumentalists and/or vocalists. Survey Ensembles investigate characteristic elements of a variety of classic and contemporary genres, through a series of genre-specific modules. Ensembles are an integral component of the music program, focusing on musicianship as it applies to technical ability, music literacy, theory, history, and aural skills. Students regularly apply ensemble awareness and effective rehearsal and performance techniques, building confidence in their own abilities and in their ability to function as an effective team.

**Repeatable:** Y

**Formerly 32-2890**

**DEI**

**Requirements** Permission Required (DP) Music Department Students Only (8MUS)

**Minimum Credits 1 Maximum Credits 1**

### **MUSC 380A Performance Ensemble: American Roots**

The Performance Genre Ensemble course is an advanced-intermediate level performance class for instrumentalists, composers and/or vocalists. Genre ensembles engage in the history, performance and composition of specific styles and threads of contemporary and popular music. Ensembles are an integral component of the music program, focusing on musicianship as it applies to technical ability, music literacy, theory, history, and aural skills. Students regularly apply ensemble awareness and effective rehearsal and performance techniques, building confidence in their own abilities and in their ability to function as an effective team.

**Repeatable:** Y

**Formerly MUSC 380**

**Requirements** Permission Required (DP) Music Department Students Only (8MUS)

**Minimum Credits 1 Maximum Credits 1**

### **MUSC 380B Performance Ensemble: Breakaway**

The Performance Genre Ensemble course is an advanced-intermediate level performance class for instrumentalists, composers and/or vocalists. Genre ensembles engage in the history, performance and composition of specific styles and threads of contemporary and popular music. Ensembles are an integral component of the music program, focusing on musicianship as it applies to technical ability, music literacy, theory, history, and aural skills. Students regularly apply ensemble awareness and effective rehearsal and performance techniques, building confidence in their own abilities and in their ability to function as an effective team.

**Repeatable:** Y

**Requirements** Permission Required (DP) Music Department Students Only (8MUS)

**Minimum Credits 1 Maximum Credits 1**

### **MUSC 380C Performance Ensemble: Laptop Ensemble**

The Performance Genre Ensemble course is an advanced-intermediate level performance class for instrumentalists, composers and/or vocalists. Genre ensembles engage in the history, performance and composition of specific styles and threads of contemporary and popular music. Ensembles are an integral

component of the music program, focusing on musicianship as it applies to technical ability, music literacy, theory, history, and aural skills. Students regularly apply ensemble awareness and effective rehearsal and performance techniques, building confidence in their own abilities and in their ability to function as an effective team.

**Repeatable:** Y

**Requirements** Permission Required (DP) Music Department Students Only (8MUS)

**Minimum Credits 1 Maximum Credits 1**

### **MUSC 380G Performance Ensemble: Gospel Repertory Ensemble**

The Performance Genre Ensemble course is an advanced-intermediate level performance class for instrumentalists, composers and/or vocalists. Genre ensembles engage in the history, performance and composition of specific styles and threads of contemporary and popular music. Ensembles are an integral component of the music program, focusing on musicianship as it applies to technical ability, music literacy, theory, history, and aural skills. Students regularly apply ensemble awareness and effective rehearsal and performance techniques, building confidence in their own abilities and in their ability to function as an effective team.

**Repeatable:** Y

**Requirements** Permission Required (DP) Music Department Students Only (8MUS)

**Minimum Credits 1 Maximum Credits 1**

### **MUSC 380J Performance Ensemble: Jazz Combos**

The Performance Genre Ensemble course is an advanced-intermediate level performance class for instrumentalists, composers and/or vocalists. Genre ensembles engage in the history, performance and composition of specific styles and threads of contemporary and popular music. Ensembles are an integral component of the music program, focusing on musicianship as it applies to technical ability, music literacy, theory, history, and aural skills. Students regularly apply ensemble awareness and effective rehearsal and performance techniques, building confidence in their own abilities and in their ability to function as an effective team.

**Repeatable:** Y

**Requirements** Permission Required (DP) Music Department Students Only (8MUS)

**Minimum Credits 1 Maximum Credits 1**

### **MUSC 380L Performance Ensemble: Latin Ensemble**

The Performance Genre Ensemble course is an advanced-intermediate level performance class for instrumentalists, composers and/or vocalists. Genre ensembles engage in the history, performance and composition of specific styles and threads of contemporary and popular music. Ensembles are an integral component of the music program, focusing on musicianship as it applies to technical ability, music literacy, theory, history, and aural skills. Students regularly apply ensemble awareness and effective rehearsal and performance techniques, building confidence in their own abilities and in their ability to function as an effective team.

**Repeatable:** Y

**Requirements** Permission Required (DP) Music Department Students Only (8MUS)

**Minimum Credits 1 Maximum Credits 1**

### **MUSC 380N Performance Ensemble: New Music Ensemble**

The Performance Genre Ensemble course is an advanced-intermediate level performance class for instrumentalists, composers and/or vocalists. Genre ensembles engage in the history, performance and composition of specific styles and threads of contemporary and popular music. Ensembles are an integral component of the music program, focusing on musicianship as it applies to technical ability, music literacy, theory, history, and aural skills. Students regularly apply ensemble awareness and effective rehearsal and performance techniques, building confidence in their own abilities and in their ability to function as an effective team.

**Repeatable:** Y

**Requirements** Permission Required (DP) Music Department Students Only (8MUS)

**Minimum Credits 1 Maximum Credits 1**

### **MUSC 380P Performance Ensemble: Hip-Hop Ensemble**

The Performance Genre Ensemble course is an advanced-intermediate level performance class for instrumentalists, composers and/or vocalists. Genre ensembles engage in the history, performance and composition of specific styles and threads of contemporary and popular music. Ensembles are an integral component of the music program, focusing on musicianship as it applies to technical ability, music literacy, theory, history, and aural skills. Students regularly apply ensemble awareness and effective rehearsal and performance techniques, building confidence in their own abilities and in their ability to function as an effective team.

**Repeatable:** Y

**Requirements** Permission Required (DP) Music Department Students Only (8MUS)

**Minimum Credits 1 Maximum Credits 1**

### **MUSC 380U Performance Ensemble: Guitar Ensemble**

The Performance Genre Ensemble course is an advanced-intermediate level performance class for instrumentalists, composers and/or vocalists. Genre ensembles engage in the history, performance and composition of specific styles and threads of contemporary and popular music. Ensembles are an integral component of the music program, focusing on musicianship as it applies to technical ability, music literacy, theory, history, and aural skills. Students regularly apply ensemble awareness and effective rehearsal and performance techniques, building confidence in their own abilities and in their ability to function as an effective team.

**Repeatable:** Y

**Requirements** Permission Required (DP) Music Department Students Only (8MUS)

**Minimum Credits 1 Maximum Credits 1**

### **MUSC 480F Showcase Ensemble: Fusion Ensemble**

Fusion Ensemble course is an advanced-level performance class for instrumentalists and/or vocalists. Repertoire is drawn from advanced-level material appropriate to the style. Ensembles are an integral component of the music program, focusing on musicianship as it applies to technical ability, music literacy, theory, history, and aural skills. Students regularly apply ensemble awareness and effective rehearsal and performance techniques, building confidence in their own abilities and in their ability to function as an effective team.

**Repeatable:** Y

**Requirements** Permission Required (DP) Music Department Students Only (8MUS)

**Minimum Credits 1 Maximum Credits 1**

## **MUSC 480G Showcase Ensemble: Gospel Band**

The Gospel Band course is an advanced-level performance class for instrumentalists and/or vocalists. Repertoire is drawn from advanced-level material appropriate to the style. Ensembles are an integral component of the music program, focusing on musicianship as it applies to technical ability, music literacy, theory, history, and aural skills. Students regularly apply ensemble awareness and effective rehearsal and performance techniques, building confidence in their own abilities and in their ability to function as an effective team.

**Repeatable:** Y

**Requirements** Permission Required (DP) Music Department Students Only (8MUS)

**Minimum Credits 1 Maximum Credits 1**

## **MUSC 480J Showcase Ensemble: Columbia College Jazz Ensemble**

The Columbia College Jazz Ensemble course is an advanced-level performance class for instrumentalists. Repertoire is drawn from advanced-level material appropriate to the style. Ensembles are an integral component of the music program, focusing on musicianship as it applies to technical ability, music literacy, theory, history, and aural skills. Students regularly apply ensemble awareness and effective rehearsal and performance techniques, building confidence in their own abilities and in their ability to function as an effective team.

**Repeatable:** Y

**Requirements** Permission Required (DP) Music Department Students Only (8MUS)

**Minimum Credits 1 Maximum Credits 1**

## **MUSC 480L Showcase Ensemble: Latin Ensemble**

The Latin Ensemble course is an advanced-level performance class for instrumentalists and/or vocalists. Repertoire is drawn from advanced-level material appropriate to the style. Ensembles are an integral component of the music program, focusing on musicianship as it applies to technical ability, music literacy, theory, history, and aural skills. Students regularly apply ensemble awareness and effective rehearsal and performance techniques, building confidence in their own abilities and in their ability to function as an effective team.

**Repeatable:** Y

**Requirements** Permission Required (DP) Music Department Students Only (8MUS)

**Minimum Credits 1 Maximum Credits 1**

## **MUSC 480P Showcase Ensemble: Pop/Rock Ensemble**

The Pop Rock Showcase course is an advanced-level performance class for instrumentalists and/or vocalists. Repertoire is drawn from advanced-level material appropriate to the style. Ensembles are an integral component of the music program, focusing on musicianship as it applies to technical ability, music literacy, theory, history, and aural skills. Students regularly apply ensemble awareness and effective rehearsal and performance techniques, building confidence in their own abilities and in their ability to function as an effective team.

**Repeatable:** Y

**Requirements** Permission Required (DP) Music Department Students Only (8MUS)

**Minimum Credits 1 Maximum Credits 1**

## **MUSC 480R Showcase Ensemble: R&B Ensemble**

The R&B Ensemble course is an advanced-level performance class for instrumentalists and/or vocalists. Repertoire is drawn from advanced-level material appropriate to the style. Ensembles are an integral component of the music program, focusing on musicianship as it applies to technical ability, music literacy, theory, history, and aural skills. Students regularly apply ensemble awareness and effective rehearsal and performance techniques, building confidence in their own abilities and in their ability to function as an effective team.

**Repeatable:** Y

**Requirements** Permission Required (DP) Music Department Students Only (8MUS)

**Minimum Credits 1 Maximum Credits 1**

## **MUSC 480V Showcase Ensemble: ChicagoVox**

Chicago Vox is an advanced-level performance class for vocalists. Repertoire is drawn from advanced-level material appropriate to the style. Ensembles are an integral component of the music program, focusing on musicianship as it applies to technical ability, music literacy, theory, history, and aural skills. Students regularly apply ensemble awareness and effective rehearsal and performance techniques, building confidence in their own abilities and in their ability to function as an effective team.

**Repeatable:** Y

**Requirements** Permission Required (DP) Music Department Students Only (8MUS)

**Minimum Credits 1 Maximum Credits 1**

## **MUSC 481 Recording and Performance Ensemble**

This advanced course requires students to develop their own collaborative projects, with the ultimate goal of creating a professionally marketable performing and recording entity. Over the course of the academic year, with the advice and coaching of their ensemble directors, the groups will develop a set of material for live-showcase performance, and create a fully produced, 3-5 song set of recordings suitable for commercial release. The bands will work closely with faculty, staff producers, resident and guest artists in creating their recorded product, and will have additional opportunities to create and perform in concert with select resident artists. Over the course of their two-semester project, band members may be engaged in various aspects of their project's creative and business activities including development of group persona, genre and direction, songwriting and repertoire development. Projects may also collaborate on their promotional, and overall artist-development materials with students and teams from the Music Business program. The class closely models experiences found in the professional space, and takes the student outside of their comfort zone in preparing them for the challenges of the music industry.

**Repeatable:** Y

**Formerly** MUSC 480

**Requirements** Permission Required (DP) Music Department Students Only (8MUS)

**Minimum Credits 1 Maximum Credits 1**

## **Bachelor of Science**

### **Acoustics, BS**

The Bachelor of Science degree program in Acoustics offered by the Audio Arts and Acoustics Department aims to provide students with extensive undergraduate level preparation in the fields of Architectural

Acoustics (e.g. sound isolation, design of concert halls, studios, etc.), Environmental Acoustics (e.g. noise measurement and control, noise pollution; regulatory standards; etc.), Sound Perception and Cognition (e.g. physical, physiological, and cognitive bases of communication through sound), and audio and vibration studies in markets as diverse as loudspeaker manufacturing, automotive research and development, and musical instrument construction. A number of graduates of the program are represented at major consulting firms throughout the country and at world-renowned manufacturers. The program also aims to prepare students for graduate studies in hearing sciences and architectural acoustics.

The main educational goal of the program is to offer students a holistic understanding of acoustics as a discipline, by presenting all of its components, i.e. theory, practicum, and aesthetics, through a combination of survey and in-depth courses. Theoretical and applied theory elements of acoustics are introduced in courses such as Architectural Acoustics, Environmental Acoustics, Fundamentals of Vibration Analysis, Studies in Hearing, and Psychoacoustics, while courses like Acoustical Testing I, Acoustical Testing II, and Acoustical Modeling give students the opportunity to analyze and solve real-world problems, while developing a professional portfolio. Practical real-world exposure to the discipline is further emphasized in advanced courses such as Acoustics of Performance Spaces, and Engineered Acoustics, while the aesthetic element of the discipline presented in every class is furthered in courses such as Perception & Cognition of Sound, and Studies in Applied Acoustics.

In all, we have developed a curriculum that provides both the fundamental elements that any practitioner in acoustics should be intimately familiar with, as well as a series of courses that the student can choose from in order to match her/his specific educational and career goals. Students are also encouraged to become better practitioners in the field of acoustics by considering elective courses that truly reflect the foundation of an enlightened liberal arts education.

Students advance through the program in a cohort fashion, with a typical class of 12-15 students graduating in the spring semester. The cohort is expected to develop study groups, bring forth to the attention of the faculty common issues of interest to the students, and plan for and schedule research activities suitable for presentation in refereed conferences.

Although the Acoustics program aims at fostering a climate that develops team work, it also emphasizes individual attention to the students during all phases of their academic careers. Registration for most courses requires instructor permission, leading to regular one-on-one advising sessions between student and faculty members. In addition, office hours are held after every class and a wide range of individual tutoring options are available.

As part of the Audio Arts and Acoustics Department, students benefit from both a liberal arts education and a curriculum that emphasizes the science and mathematics behind the sounds we love (and sometimes hate). This 128-credit degree program aims to prepare its students to successfully compete in the workplace and for graduate admission into relevant advanced academic programs.

This program of study has significant support from those already in the industry. Here are some sample comments\* from a few of our educational partners:

"When hiring, I look for individuals that have a strong educational background in mathematics and science to perform complex acoustical analysis.... [This curriculum] will increase the marketability of the graduates to potential employers and it [will] further assist in supporting their post-graduation academic goals." (Michelle A. Jones, President, Entech Consulting Group)

"There are only a handful of Acoustics degrees available and this [makes] yours even more desirable and competitive.... In the eyes of employers like Kinetics Noise Control, college graduates who can analyze and understand acoustic events using math and physics skills are a step ahead." (Matt Swysgood, Vice President for Architectural and Interiors Markets, Kinetics Noise Control)

\*Please note that these statements are not made by Columbia College Chicago and do not offer a guarantee of promise of employment.

As a result of successfully completing program requirements, students should be able to:

- effectively communicate the theory, methods, and outcomes of acoustics project work, in both verbal and written formats suitable for presentation in educational, professional, and conference settings;
- independently test, model, and assess acoustical parameters pertaining to a wide range of problems in the areas of Architectural Acoustics, Environmental Acoustics, and Sound Perception;
- work effectively in teams to conduct acoustics-related testing and analysis, and to report their findings in a structured and efficient fashion;
- identify and promote Best Practices that are associated with the field of acoustics within their chosen career path;
- pursue entry into a graduate program in a field related to acoustics with little or no additional preparation;
- pursue entry-level positions in the field of acoustics, within the private sector of the industry, i.e. at an acoustical consulting firm, or with a manufacturer of sound and vibration control products; and
- pursue entry-level positions in the field of acoustics, within the regulatory and standards sector of the industry, such as at an acoustical testing laboratory, or with an entity charged with developing and/or enforcing relevant noise and measurement standards.

## PROGRAM REQUIREMENTS - 76 credits required

### **AUDI 103 Audio Theory and Systems**

This course immerses students in the language, theories, and technical knowledge common to all fields in which audio is used. Topics include sound waves and propagation, the analog and digital audio signal, signal analysis and processing (frequency, amplitude and time-based), and basic audio systems (transducers, amplifiers, mixers). To contextualize these theoretical aspects, students are introduced to equipment used in professional audio systems from a technical and functional point of view.

**Repeatable:** *N*

**Formerly** 43-1112

**Prerequisites** AUDI 102 Introduction to Audio

**Concurrent Requisite** PHYS 215 The Science of Acoustics I

**Minimum Credits** 3 **Maximum Credits** 3

### **AUDI 105 Signal Flow and Gain Structure**

This 1 credit course will introduce students to signal flow and gain structure in small (2-4 channel) to large (16 channel) mixing consoles with playback on shared speakers/headphones and patching to and from select outboard equipment (reverb unit, cue/monitor, etc.). Projects and assignments will be done during class. Homework will include readings. Tests will be practical as well as written (vocabulary, application concepts).

**Repeatable:** *N*

**Minimum Credits** 1 **Maximum Credits** 1

### **AUDI 121 Fundamentals of Audio Production**

Course introduces students to basic theories and techniques of recording, editing, and mixing. Instruction covers fundamentals of microphone usage, signal flow, and non-linear digital recording and editing. Course is taught in a classroom laboratory where lectures and labs focus on the production of short-form audio

works of voice, music, and sound effects to develop and improve engineering and production skills.

**Repeatable:** *N*

**Formerly** 43-1115

**Minimum Credits 3 Maximum Credits 3**

## **AUDI 202 Studies in Hearing**

This course introduces students to the fundamentals of human hearing physiology as well as issues relating to hearing loss and conservation. It is important for any audio professional to understand how complex and delicate the human hearing system is. We must also realize the significance of the fact that society is, only now, beginning to address the problem of environmentally induced hearing loss. The first part of the course will address hearing physiology. Course will focus on the mechanical systems of hearing, starting with the reception of acoustic energy and ending with the delivery of neural signals to the brain. This will give students the necessary foundation knowledge to engage in presentations and discussions covering the topics of hearing loss and conservation.

**Repeatable:** *N*

**Formerly** 43-2725

**Prerequisites** AUDI 103 Audio Theory and Systems

**Minimum Credits 3 Maximum Credits 3**

## **AUDI 231 Psychoacoustics**

Class provides the necessary basis for understanding how we hear the world around us. The course is multidisciplinary, with contributions from the academic disciplines of auditory physiology, physics, and psychology. It examines how the human auditory system processes the information it receives, that is, how physical attributes of sound translate into perceptual attributes such as loudness, pitch, and timbre. Topics extend to the perception of music, sound localization, speech, and beyond. Numerous audio-visual demonstrations are used to reinforce the theoretical material presented.

**Repeatable:** *N*

**Formerly** 43-2310

**Prerequisites** PHYS 215 The Science of Acoustics I

**Minimum Credits 3 Maximum Credits 3**

## **AUDI 232 Architectural Acoustics**

Course reviews the fundamentals of acoustics covered in previous classes and presents all of the materials within the context of the behavior of sound in a bounded space. Practical aspects of the class are emphasized by dedicating a large portion of the semester to case studies. Demonstrations are provided throughout the semester to emphasize both theoretical and practical concepts.

**Repeatable:** *N*

**Formerly** 43-2315

**Prerequisites** MATH 220 Calculus I and AUDI 231 Psychoacoustics or MATH 220H Calculus I: Honors and AUDI 231 Psychoacoustics

**Minimum Credits 3 Maximum Credits 3**

## **AUDI 242 Sound System Design**

Course offers an in-depth look at what goes into designing and installing permanent sound systems. Students learn to design systems for coverage, intelligibility, and cost effectiveness. Emphasis is placed on understanding specifications of system component and predicting system performance.

**Repeatable:** *N*

**Formerly** 43-3610

**Prerequisites** AUDI 103 Audio Theory and Systems and AUDI 105 Signal Flow and Gain Structure

**Minimum Credits 3 Maximum Credits 3**

## **AUDI 334 Fundamentals of Vibration Analysis**

Course provides students with an understanding of vibration theory, experimental analysis and vibration control. The class focuses on free and forced vibration of mechanical systems with an emphasis on practical applications in the areas of rotating machinery, isolation, and noise reduction. Excessive vibration is often the cause of unwanted sound or noise. Understanding the effects of vibration enhances the understanding of noise related issues in buildings and the environment, addressed in Engineered Acoustics and Environmental Acoustics. This class also provides the necessary background to understand the complex vibration of musical instruments.

**Repeatable:** *N*

**Formerly** 43-3340

**Prerequisites** AUDI 231 Psychoacoustics and MATH 220 Calculus I or AUDI 231 Psychoacoustics and MATH 220H Calculus I: Honors

**Minimum Credits 3 Maximum Credits 3**

## **AUDI 431 Acoustical Testing I**

The testing of an acoustical space represents the proof of performance of the design phase. Course introduces students to a variety of testing tools and techniques to be used in a wide range of situations. The course makes extensive use of real world contexts to present the need for accurate testing and reinforce the methodology introduced during the lectures.

**Repeatable:** *N*

**Formerly** 43-3325

**Prerequisites** AUDI 334 Fundamentals of Vibration Analysis

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

## **AUDI 432 Acoustical Testing II**

Course focuses on practical applications of the theory introduced in Acoustical Testing I.

**Repeatable:** *N*

**Formerly** 43-3326

**Prerequisites** AUDI 431 Acoustical Testing I

**Requirements** Permission Required (DP)

**Minimum Credits 3 Maximum Credits 3**

## **AUDI 433 Acoustical Modeling**

Modeling is rapidly becoming an essential component of the acoustical design process. This course reviews the modeling options currently available to acoustical designers and presents the strengths and the

limitations of the various methods. Modeling exercises for a variety of acoustical environments are performed by the students using some of the relevant software currently available. A large portion of the class is devoted to student projects.

**Repeatable:** *N*

**Formerly** 43-3320

**Prerequisites** AUDI 431 Acoustical Testing I

**Requirements** Permission Required (DP)

**Minimum Credits** 3 **Maximum Credits** 3

## **MATH 220 Calculus I**

In the first course of the Calculus sequence, students will briefly review essential precalculus topics and then study the fundamental concepts of Calculus—the limit, derivative, and integral. Topics include techniques for calculating limits; continuity; the definition of the derivative; derivatives of polynomial and rational functions; the chain rule; implicit differentiation; Rolle's and the mean value theorems; applications of the derivative; antiderivatives; the calculus of trigonometric, logarithmic, and exponential functions; the definite integral; and the fundamental theorem of calculus.

**Repeatable:** *N*

**Formerly** 56-2720

**MA**

**Prerequisites** MATH 215 Precalculus or ACCU-T-80 EXAM-ACCUPLACER MATH MINIMUM SCORE = 80 or ACT-M-27 EXAM-ACT MATH MINIMUM SCORE = 27 or SAT-M-620 EXAM-SAT MATH MINIMUM SCORE = 620 or CMPS-M-80 EXAM-CMPS MATH MINIMUM SCORE = 80 or ALEK-1-76 EXAM-ALEKS MINIMUM SCORE = 76

**Minimum Credits** 4 **Maximum Credits** 4

## **MATH 221 Calculus II**

In the second course of the Calculus sequence, students will study integration techniques and applications of the integral and will analyze the behavior and properties of sequences and series. Topics include area, volume, and other applications of the integral; techniques of integration, including numerical methods, substitution, integration by parts, trigonometric substitution, and partial fractions; indeterminate forms and L'Hôpital's rule; improper integrals; sequences and series; convergence tests; and Taylor and MacLaurin series.

**Repeatable:** *N*

**Formerly** 56-2721

**MA**

**Prerequisites** MATH 220 Calculus I or MATH 220H Calculus I: Honors

**Minimum Credits** 4 **Maximum Credits** 4

## **MATH 330 Elementary Differential Equations**

Differential Equations is the study of methods of solving equations involving differentials (derivatives). The course concentrates on differential equations of first order and second order; simultaneous, linear, and homogeneous differential equations; solutions by power series; Laplace transforms and applications.

**Repeatable:** *N*

**Formerly** 56-3720

**MA**

**Prerequisites** MATH 221 Calculus II  
**Minimum Credits 3 Maximum Credits 3**

## **PHYS 120 Science of Electronics**

This course provides an introduction to electronics. Students acquire knowledge in the fundamentals of electric circuit theory. Course teaches the operation and use of electronic components and instruments such as multimeters and oscilloscopes. Regular laboratories provide opportunities for hands-on activities. During the final weeks of the course students construct an electronic project.

**Repeatable:** N

**Formerly** 56-1820

**SL**

**Prerequisites** MATH 110 College Mathematics or MATH 115 Liberal Arts Mathematics or MATH 120 Quantitative Reasoning or ACCU-T-67 EXAM-ACCUPLACER MATH MINIMUM SCORE = 67 or ACT-M-23 EXAM-ACT MATH MINIMUM SCORE = 23 or SAT-M-550 EXAM-SAT MATH MINIMUM SCORE = 550 or CMPS-M-67 EXAM-CMPS MATH MINIMUM SCORE = 67 or ALEK-1-46 EXAM-ALEKS MINIMUM SCORE = 46

**Minimum Credits 4 Maximum Credits 4**

## **PHYS 215 The Science of Acoustics I**

The course introduces the physics of vibrating systems, waves and sound. Topics include the sound spectrum, how the ear works, the transmission of sound through fluids at different temperatures and through different materials and the Doppler effect. The properties of reflection, refraction, diffraction and interference are studied with special emphasis on resonance, standing waves and the Inverse Square Law of the intensity of sound. The course concludes with an introduction to auditorium acoustics and basic electricity used in the operation of speakers and microphones.

**Repeatable:** N

**Formerly** 56-2820

**Prerequisites** MATH 110 College Mathematics or MATH 115 Liberal Arts Mathematics or MATH 120 Quantitative Reasoning or ACCU-T-67 EXAM-ACCUPLACER MATH MINIMUM SCORE = 67 or ACT-M-23 EXAM-ACT MATH MINIMUM SCORE = 23 or SAT-M-550 EXAM-SAT MATH MINIMUM SCORE = 550 or CMPS-M-67 EXAM-CMPS MATH MINIMUM SCORE = 67 or ALEK-1-46 EXAM-ALEKS MINIMUM SCORE = 46

**Minimum Credits 3 Maximum Credits 3**

## **Applied Acoustics Electives**

*Complete 15 credits from the following courses. At least three courses must be upper-level.*

### **AUDI 102 Introduction to Audio**

This course provides an overview of the world of sound and audio in its various manifestations, including music, communications, sound in linear and non-linear media, sound art, and sonification. It introduces students to basic concepts and terminology related to sound, audio, and audio equipment and systems, but it is not a theory course. Rather, the course examines aspects of our sonic world through the lenses of audio production, live sound reinforcement, and acoustics, constructing a survey of practices and trends, practitioners, and examples; of history, context, and politics; and of art and aesthetics. Along the way it challenges students to examine and open themselves to difference ways of listening. This course is open to

all majors.

**Repeatable:** *N*

**Formerly** 43-1111

**Minimum Credits 3 Maximum Credits 3**

## **AUDI 211 Audio Programming and Performance**

This course introduces principles of sound synthesis and audio programming applied to live performance. The students learn to design their own mini instruments as they explore real-time audio programming topics, including fundamentals of sound synthesis and signal processing (e.g. Additive, Subtractive, Granular, AM, FM), control protocols (e.g. OSC), patterns and event structures, live coding and performance. The semester culminates in a live public performance of original compositions for a laptop ensemble.

**Repeatable:** *N*

**Formerly** 43-2241

**Prerequisites** PROG 101 Programming I or PROG 110 Art of Code

**Minimum Credits 3 Maximum Credits 3**

## **AUDI 241 The Art of Troubleshooting**

Because complex, interactive systems fail in complex, interactive ways, this course builds six essential competencies to assist system designers and system operators to cope with failure and limit immediate damage; to collect symptoms and understand systems rapidly; to apply inferential logic and avoid logical fallacies; to identify, trap, and limit failures; and to patch around them. This is not a course in equipment repair.

**Repeatable:** *N*

**Formerly** 43-3621

**Prerequisites** AUDI 103 Audio Theory and Systems

**Minimum Credits 3 Maximum Credits 3**

## **AUDI 301 History of Audio**

This course offers students an exposition of the history and evolution of audio technologies and practices, while also engaging students in an active process of analysis and critique through different lenses (such as aesthetic, technological, sociocultural, political, and economic). The course enables students to deepen their awareness and appreciation of the historical dimensions and trajectories of audio theory, technology, practice, and aesthetics, while also revealing and drawing attention to deeper and more critical themes and issues, that might range from technological debates (e.g. acoustical vs. electrical recording, fidelity vs. convenience, different values and approaches toward production) to sociocultural, political (e.g. issues of access and affordance, diversity, intellectual property).

**Repeatable:** *N*

**Formerly** 43-2720

**Prerequisites** AUDI 103 Audio Theory and Systems

**Minimum Credits 3 Maximum Credits 3**

## **AUDI 331 Environmental Acoustics**

Course aims at providing a comprehensive understanding of issues pertaining to noise pollution and noise control in a wide range of environments such as urban, industrial, airport, entertainment venues, and so

forth. Comprehensive course equally covers both theory and practice with field measurements performed by students and teacher. Data are used to reinforce theoretical models. Course emphasizes noise studies in the workplace and reviews current regulatory issues pertaining to noise pollution.

**Repeatable:** *N*

**Formerly** 43-3315

**Prerequisites** AUDI 231 Psychoacoustics

**Minimum Credits** 3 **Maximum Credits** 3

### **AUDI 332 Acoustics of Performance Spaces**
