

MacRae, R

Forensic Network Research Special Interest Group (FNRSIG) Annual Research Conference. 2nd November 2023. Invited keynote speaker.

The background to, findings and outputs of a research study into improving the health and wellbeing of people living with a suspected or diagnosed dementia in prison will be presented. The talk will highlight some new dementia research and educational initiatives taking place in prison and forensic settings in Scotland before inviting a participants to discuss what would be helpful next steps in relation to dementia research and education in secure settings.
