

## ROCK YOUR DREAM CHAIR

2024

The Rock Your Dream Chair came to existence out of a collaboration with Tim van den Burg, a creative maker from Breda, the Urban Living Lab Breda, and THE SPACE, which aims at being inclusive by giving voice to local communities in expressing their dreams for the future (of the places where they live) by appealing to their senses, intuition and imagination.

THE SPACE is a platform to bring artistic practice into (applied and academic) research initiated by Marisa de Brito, Licia Calvi and Laura Pardo at the [Breda University of Applied Sciences](#) powered by the theme Places & Flows within the Research & Graduate School (RGS).
