Case Reports in Gastroenterology
 Double Pylorus in Upper Gastrointestinal Bleeding
 Oktaricha et al.
 DOI: 10.1159/000513804

Dear Dr. Miftahussurur,

In the section Case Report/Case Presentation you refer to table 1: "It could be concluded that there was a double pylorus with giant ulcer Forrest IIb (Table 1)."

However, we did not receive a file with table 1. Did you mean to figure 1 which also relates to "double pylorus", or are there 2 different files for figure 1 and table 1?

Please specify.

Thank you very much in advance.

Looking forward to your reply I remain
