Dear Nyilo,

Thank you for sending your revised article, there are several important comments remaining in the manuscript, including:

- Please provide ZIP codes for all affiliations.
- Please state whether informed consent was obtained from participants and whether this was oral or written consent. If verbal rather than written consent has been obtained, we ask authors to provide a description of the reasons for this, confirm that verbal consent was approved as adequate by the ethics committee and describe how consent from each participant was documented.
- Please provide details on how the data were analysed, including the software (with version number and URL/reference).
- Please clarify why the ethics statement in the methods section differs from the ethics statement in the declarations section. Please ensure that the correct information has been stated (including the approval number).

- Please align the reference list with our guidelines on references (please see comment in the article for more information).

Please address these comments in order to continue onto the next stage.

Payment: The APC is \$1350.00 after any discounts you are eligible for have been applied. **Please provide us with the details of the individual/organization taking responsibility for paying the fee as soon as possible.** Please sign in with the credentials you used to submit the article or you will not be able to access this page. Our Accounts department will be in touch regarding payment.

Best wishes,
Tabitha

Dear Nyilo,

Thank you for sending your revised article, however unfortunately, we cannot proceed with the article until it is clear whether participants provided informed consent to take part in the study. **Please state whether participants gave informed consent and whether it was oral or written, and provide a copy of the consent form.**

Furthermore, please ensure that in-text reference numbers are in numerical order, ensuring to update the reference list as appropriate.

Please see the attached article and address all of the remaining comments.

Thank you for the clarification.

Data collection is based on a google form. At the beginning of the questionnaire, it was asked whether the respondent was willing to participate in the study? If the answer is yes, then the questionnaire will be opened. This can be seen in the master data where the answer is YES.

I attached a screenshot informed consent in this study.

Dear Nyilo,

Thank you for clarifying this, we can accept this as consent.

There are no further comments in the article that need addressing, however we do need you to ensure that all references have been mentioned in the main text. Please do the following in the most recent version of the article (Compared 3 - TL):

- Cite reference 1 in the main text as a **hyperlink** in the text and remove the reference from the reference list.
- **Cite reference 2 in the main text.**
- Reorder the reference list so the in-text reference numbers are in **numerical order**, ensuring to update the reference list as appropriate.

Dear Nyilo,

Thank you for the response. Unfortunately we do not have the capacity to add ORCID ID's on behalf of co-authors because it requires an email sign in. All authors will be emailed instructions on how to link their own ORCID's once the article goes live.

Can you confirm there are no other corrections to the article?

Many thanks,
