### Correction to: Social Indicators Research

<https://doi.org/10.1007/s11205-020-02440-6>

In the original publication of this article, the Equations 16, 17, 26, 28 and 30 has been published incorrectly. The correct equations are provided here.

Equation (16) should be:

$$a^k = a^{k-1} + \exp \left\{ \frac{\sigma_{1,k}^2 \sigma_{2,k}^2}{\sigma_{2,k}^2 - \sigma_{1,k}^2} \left[ \left( \frac{\mu_{1,k}}{\sigma_{1,k}^2} - \frac{\mu_{2,k}}{\sigma_{2,k}^2} \right) - \sqrt{\Delta_k} \right] \right\},$$

Equation (17) should be:

$$\Delta_k = \left( \frac{\mu_{1,k}}{\sigma_{1,k}^2} - \frac{\mu_{2,k}}{\sigma_{2,k}^2} \right)^2 + \left( 2 \ln \left( \frac{\sigma_{2,k} w_k}{\sigma_{1,k} (1 - w_k)} \right) - \left( \frac{\mu_{1,k}}{\sigma_{1,k}} \right)^2 + \left( \frac{\mu_{2,k}}{\sigma_{2,k}} \right)^2 \right) \frac{(\sigma_{2,k}^2 - \sigma_{1,k}^2)}{\sigma_{1,k}^2 \sigma_{2,k}^2}.$$

Equation (26) should be:

$$\Delta = \left( \frac{\mu_1}{\sigma_1^2} - \frac{\mu_2}{\sigma_2^2} \right)^2 + \left( 2 \ln \left( \frac{\sigma_2 w}{\sigma_1 (1 - w)} \right) - \left( \frac{\mu_1}{\sigma_1} \right)^2 + \left( \frac{\mu_2}{\sigma_2} \right)^2 \right) \frac{(\sigma_2^2 - \sigma_1^2)}{\sigma_1^2 \sigma_2^2} \geq 0.$$

---

The original article can be found online at <https://doi.org/10.1007/s11205-020-02440-6>.

Equation (28) should be:

$$a_{\pm} = \exp \left\{ \frac{\sigma_1^2 \sigma_2^2}{\sigma_2^2 - \sigma_1^2} \left[ \left( \frac{\mu_1}{\sigma_1^2} - \frac{\mu_2}{\sigma_2^2} \right) \pm \sqrt{\Delta} \right] \right\}.$$

Equation (30) should be:

$$\ln(a_{\pm}) = \frac{\sigma_1^2 \sigma_2^2}{\sigma_2^2 - \sigma_1^2} \left[ \left( \frac{\mu_1}{\sigma_1^2} - \frac{\mu_2}{\sigma_2^2} \right) \pm \sqrt{\left( \frac{\mu_1}{\sigma_1^2} - \frac{\mu_2}{\sigma_2^2} \right)^2 + \left( 2 \ln \left( \frac{\sigma_2 w}{\sigma_1 (1-w)} \right) - \left( \frac{\mu_1}{\sigma_1} \right)^2 + \left( \frac{\mu_2}{\sigma_2} \right)^2 \right) \frac{(\sigma_2^2 - \sigma_1^2)}{\sigma_1^2 \sigma_2^2}} \right].$$
