### **Erratum to: Exp Appl Acarol DOI 10.1007/s10493-012-9535-z**

Due to an unfortunate turn of events, the first- and surname of the sixth author was transposed and a typographical error was introduced in the title of the original publication. The correct representation of the authors, their affiliations, and the title are listed above and below and should be treated as definitive by the reader.
