Because of misunderstanding between authors of the paper and some data providers, we are responsible for some omission in the authors list and acknowledgements.

So we want to give here a new author list:  
A. Nicault, S. Alleaume, S. Brewer, M. Carrer, P. Nola,  
E. Guttierrez, J.L. Edouard, C. Urbinati and J. Guiot  
And we want also acknowledge the consortium FOR-  
MAT (project ENV4-CT97-0641 funded by EU) for a big  
part of the data provided for this study.
