**Subject:** Company

A major round of applause for the entire cast/crew of Company. There was so much about it that was wonderful that the few negatives are hardly worth mentioning. What impressed us the most I think was knowing that the cast was having the time of their lives and communicating that to the audience. The live orchestra was a treat in a day when so much of even professional productions comes out of a can or a couple of synthesizers. My wife and I have seen all kinds of theatre between Boston, Washington, DC and in between. These kids are right up there with the big boys! . . . can't wait for next season.

All the best,  
Brian Larkin
