RAMP

Research Analytics Mentorship Program

2024 Research Analytics Summit

March 12

Andrea Christelle, Diné College

Lou Hurst, University of Kentucky
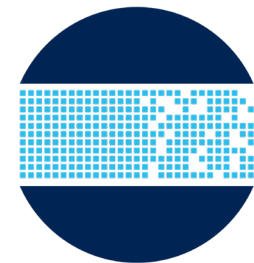

Baron Wolf, University of Kentucky

What is mentorship?

- The *goal* of mentorship is to foster personal and professional development.

- The *activities* of mentorship are about sharing:
  - Knowledge
  - Skills
  - Experience
  - Specific scenarios

- The *outcomes* of mentorship are:
  - Growth
  - Increased confidence
  - Success

What is the structure of mentorship?

- The structure of mentorship typically implies a hierarchy
  - Mentor
  - Mentee

- Mentorship can be more collaborative
  - Mentor circles

- RAMP structure will be shaped by the skills and interests of participants

Why we created RAMP

- Research Analytics
  - Requires practice
  - Is best understood in specific scenarios
  - Is an emergent area of expertise

- Learning and growth through mentorship is an ideal structure for developing capacity, confidence, and success in research analytics.

Who is eligible for RAMP?

- Research administrators from higher education institutions who have:
  - Access to relevant institutional data
  - Institutional support

- Preference for attendees at this conference

What is the investment for RAMP?

- Meeting twice monthly

- Harnessing institutional data

- Engaging in special projects

- Reporting on findings

What are the benefits of RAMP?

- Learning new analytics skills

- Learning about how analytics are deployed at other institutions

- Developing an analytics strategy

- Building your RA network

- Mentors receive a stipend.

How do I get involved in RAMP?

- Apply on conference website

https://analyticssummit.uky.edu/#/Mentorship?lang=en

What is the timeline for RAMP?

- Participants notified by 2nd week in April.

- Mentor groups convene by first week in May.

- Meet twice monthly for 6 months (May – October).

- Groups report on outcomes by December 2024.
