The Ivan Pul'uj Electronic Collection in ELARTU Institutional Repository

Institutional repository of the Ternopil Ivan Pul'uj National Technical University (Ukraine)

ELARTU institutional repository (http://elartu.tntu.edu.ua) serves as a backbone of the Ternopil national technical university research and education support system. Starting in 2008, all publications authored by the university’s staff and students are deposited there.

The server is built upon DSpace FOSS (http://www.dspace.org) with financial support from International Renaissance Foundation.

An institutional repository is an electronic archive for collecting and preserving of, and providing long-term and reliable access to, scientific output of the university, learning objects etc.

Ivan Pul'uj Electronic Collection

Ivan Pul'uj Electronic Collection helps to solve the problem of preserving national cultural heritage in digital form.

“This is not an easy task but, as I strongly believe, a necessary one, if we are going to be able to preserve and present the archives in the long run, as a part of our common cultural heritage, to future generations... The democratisation of access to records (transparency), the need to preserve electronic records as a part of our documentary heritage and the obligation to disseminate these records on a wider scale to as many people as possible are goals which nobody questions.”

Claes Gränström

Ivan Pul'uj Electronic Collection has been created in 2009 and is aimed at collecting, preserving and studying research and cultural heritage of the renowned Ukrainian physicist after whom our university has been named.

The collection also includes photographs, video and textual materials popularizing scientific and public activities of Ivan Pul'uj.

Support of Ukrainian culture

Pul'uj is also known for his contribution to promoting Ukrainian culture. He actively supported opening of a Ukrainian university in Lviv and published articles to support the Ukrainian language.

Examples of materials placed in Ivan Pul'uj Electronic Collection

- Presentation of a coin commemorating the 165 anniversary of the birth of Ivan Pul'uj
- Ivan Pul'uj in Wikipedia.
