FUTURE MODELS MAY HAVE INFRA-RED SENSORS

take a taxi and go fishing
how do you like that?
visit canada
hey look, i see a big moose

cat's nose is twitching
why don't you ever go
to work and earn money?
invest your money here

why don't you try it yourself?
i'm on guard duty
with the armored car
could you give me a lift?

then we could buy some lunch
gentlemen, here comes lunch
there is all the food we want
just give me a microsecond

maybe you likee something
to eat while you wait
of course, of course, well, well
i'll prove it to you

you sir. who, me sir?
well sir, what is the verdict?
believe me
i've never seen my sheet

tell me again, i don't get it
sorry, hotee dogs all gone
a natural using wild game
one share of wildcat oil

don't cut *me*. i never
heard of wildcat oil
broken glass, drawn stars
fine, fine, you killed him

hold it officer, it's my duty
right behind the car sir
before anyone sees me
my pleasure, you know what they say

money talks. i just don't understand
xylophone trills
another day like yesterday
we'll be in gravy

pardon me gentlemen
is there a bank
in the neighborhood?
you drove up from hillcrest?

TWO TOGETHER

i know behind the soot flame is yellow
singing distracts me
plink plink plink
practical
exploratory
topology

fierce visions are lost
over there
slices of white light
on dry mountain

all for the first time
rain, rain, and rain again
