### **BOISE JUNIOR COLLEGE**

#### HISTORY

Boise Junior College is the product of citizens in action, and holds a reputation as a "community college" meeting the educational needs of the area. From the inception of the school, during the Depression 30s, to February 1965 when it acquired four-year status and a new name—"Boise College"— the citizens have continuously supported plans for higher education.

When college seemed beyond the reach of many young people, in the spring of 1932, an Episcopal Bishop, the Right Reverend Middleton S. Barnwell, Organized Boise Junior College. Its classes were held in St. Margaret's hall, a church-operated girls' academy. Five of the original faculty members are still with the school.

Two years later, in answer to an appeal from the Bishop, a group of visionary citizens formed a non-profit corporation to continue the operation of the fledgling school. The city of Boise, in turn, contributed land on which to build a campus, on a 110-acre tract south of the Boise River, the former municipal airport.

The Idaho Legislature helped lay the groundwork to make the college a public institution by passing an enabling act in February, 1939, permitting the formation of junior college districts. Within a month, the Boise Junior College District was formed by a large majority of the qualified voters, and the school opened that fall as a public institution. Another district vote, by a 10 to 1 majority, approved the necessary funds to start building a college plant.

Repeatedly, the college district electorate has provided the facilities and faculty for the ever growing needs of the college, as the daytime and night school enrollments increase. For 1965-66, the total enrollment in all sessions, including summer school, was more than 6,000, (as compared to the original enrollment of 105 students in 1932.

The 1965 State Legislature voted four-year status for the Boise educational institution which has acquired the ultimate as a fully accredited junior college over a period of 33 years.

The first upper division courses were offered during the summer session of 1965. Many of those who graduated from the junior college in the spring of 1965 will comprise the first junior class at Boise College. The first graduation from the new four-year college will be in the spring of 1967.

The latest legislative action, also enacted by the 1965 Legislature, which vitally affects the future of the College is House Bill 313. This went into effect July 1, 1965 creating a system of junior college areas. Boise Junior College is in Area 3 which encompasses the ten southwest counties.

Now the campus emerges with two colleges to fulfill the educational needs of men and women of all ages: Boise Junior College which will continue to offer two-year courses of study, including an Area Vocational-Technical School; and Boise College which offers four-year curricula towards baccalaureate degrees.

#### PHILOSOPHY OF THE COLLEGE

The pursuit of knowledge today must go far beyond the mere acquisition of facts. The College seeks through its courses and in conjunction with its guidance program to provide students with the intellectual tools necessary to develop their talents to the fullest potential and to become useful members of society. It also attempts to give students a general knowledge of the heritage and civilization of the modern world, and of America in particular; an appreciation of the interdependence of the various fields of human knowledge; and an intensive knowledge of some special field and/or skill.

The College attempts to provide for its students an environment which will promote desirable social adjustments, habits of personal and social responsibility, and an adequate sense of values. Students are encouraged to develop qualities of leadership and good citizenship by participating in student affairs, cultural offerings and religious activities sponsored by the interfaith council. A close relationship between administration, faculty and students is characteristic of the College. The faculty members, with their diverse personalities and broad, varied backgrounds of academic, professional and practical experience, form the nucleus for enriching student life on campus.

#### THE PLAN

Courses of study are planned to meet the needs of high school graduates who desire additional training or education for the following reasons:

- 1. To obtain a baccalaureate degree by enrolling in a full four-year course; or to obtain pre-professional background.
- 2. To obtain a general or specialized junior college education beyond high school.
- 3. To qualify for business or professional positions through additional education and training.
- 4. To obtain new skills or retraining in present work, in evening classes.
- 5. To earn upper division credits in evening classes, toward a four-year degree.

#### THE PLANT

The tree-studded campus south of the Boise River, opposite Julia Davis Park, is bounded on the west by Capitol Boulevard and on the east by Broadway Avenue. It is traversed on the north by a picturesque river road at the end of which stands a small historic chapel which was moved on campus for posterity. College Boulevard is the southern boundary line of the campus.

The college is within walking distance of the downtown area, below the hill from the Union Station. Opposite the campus on the south are several religious centers of various denominations.

The Administration Building was completed in time to accommodate the 1940 classes, and was followed that same year by the Heating Plant, Music Auditorium, Vocational Shop, Gymnasium and Student Union Building.

The Music Auditorium houses the \$40,000 Cunningham Memorial Organ, considered one of the finest of its kind in the Northwest. The building was remodeled in 1953 and seats 600 persons for college and community functions. The Music Department also is quartered here, including practice rooms and studios.

Student Union Building which was partially constructed through student fees and further financed by the Board of Trustees and a gift by H. W. Morrison is the social center of the campus. It has two large dining rooms, kitchen and snack bar, ballroom, lounges and recreation rooms. Here most of the clubs and organizations hold their meetings.

**Bronco Stadium**, completed in 1950, has a permanent seating capacity of 10,800 which frequently is augmented by temporary bleachers. Friends of the college promoted the stadium which not only serves as "Home of the Broncos" football team but for track events, outdoor pageants and spectaculars, and for athletic events of high schools and other colleges.

Morrison Hall (women's dormitory) and Driscoll Hall (men's dormitory) were both completed in 1951 with identical construction of 48 single rooms and 15 double rooms. Central features are downstairs parlor and large recreation rooms. Each dormitory has 10 suites with small living room and lavatory facilities for the occupants. Laundry facilities also are available for the residents.

Science Building was completed in 1955 at a cost of approximately \$500,-000. Occupying the first floor are the Life Science Division, the Physics Department and the Home Economics Department which contains model kitchens and living facilities. A theater-type lecture room seating 260, also on the first floor, is in continuous use. The Physical Science Division classrooms and laboratories occupy the second floor. A NEW WING costing about \$335,000 is scheduled to be ready for fall semester 1966 classes. It will house engineering drawing and other laboratories, 9 classrooms and seminar rooms.

Gymnasium and Physical Education building also constructed in 1955 is used extensively by the college and the community for events requiring a large seating capacity (up to 4,000). The gymnasium contains two full sized basketball floors and additional large areas adaptable for special training classes, testing and registration.

Vocational Buildings are located on the southeastern section of the campus on Bellevue Avenue. Included are shops for auto mechanics, machine shop, welding, carpentry and auto body.

Technical Education Building, constructed in the fall of 1963 to accommodate the rapidly expanding vocational program, houses the Drafting-Design, and Electronics, and other classes. A TWO-STORY ADDITION is scheduled to be ready for fall semester 1966 classes. It will house additional classes, laboratories and offices.

Campus School is an elementary school built by the Boise Independent School District on the college campus. This unique arrangement provides student teaching for education majors, under the guidance of the college and Campus School instructors.

The Library is the newest building on the campus, used for the first time in the summer of 1964. A 1962 bond election provided the funds for the modern, glass-fronted structure overlooking the campus road on the north, with a south terrace where students congregate. The first floor houses the library facilities which can accommodate about 300 persons at reading or study tables and in three lounge areas. The book collection totals over 42,000 volumes, in addition to 4,300 bound periodicals and 2,500 reference volumes. Approximately 400 magazines and 15 newspapers are received, and microfilm readers are available for periodicals on microfilm. Listening and typing rooms are easily accessible, and approximately 1000 phonorecords and 250 tapes also are available.

At present, the English, Art and Speech Departments and the Instructional Materials Center are located on the second floor of the Library. Eventually, the total two-story structure, with the exception of space occupied by the Instructional Materials Center, will be utilized entirely by the Library when the NEW LIBERAL ARTS BUILDING is constructed.

The Instructional Materials Center (Educational Film Library) is owned cooperatively by the college and school districts in Southern Idaho and Eastern Oregon. The library now includes more than 1100 films and 550 film strips valued at more than \$100,000, which are used extensively not only in the College but in schools and by community organizations throughout the area. The latest projectors and other audio-visual equipment also are included in the Center. A Building Expansion Program costing 3½ million dollars, from a 1 mill levy and matching Federal funds, was approved in April, 1965, by district voters. To be constructed is the new Liberal Arts Building, Science Building addition, a new Student Center, new men's dormitory accommodating 300, and an addition to the Technical Education Building.

#### CULTURAL ADVANTAGES

The College increasingly is becoming the hub of cultural activities for the area, with many events presented at no charge, or for a nominal attendance fee. The College Lyceum Committee sponsors a series of lectures and entertainment featuring outstanding public figures or artists on tour to which the public is invited.

Dramatic offerings by student actors are presented each season, including plays in French, Spanish and German given by language students.

A full calendar of musical offerings includes recitals, concerts of the a cappella choir and the college band (both of which go on tour each year), the BJC-Community Symphony orchestra, and an annual Opera Workshop production.

As the state capital, Boise offers many additional advantages to the students who can observe first hand various governmental departments, where they frequently have an opportunity to work. The city is the hub of communications, with the largest daily newspaper in the state, two major television stations, two weekly newspapers and seven radio stations.

There are two modern hospitals, plus a renowned convalescent center. It is a city of churches, and civic organizations abound for both men and women.

Music opportunities for participants and audiences alike are here with a Philharmonic Symphony orchestra, the Community Concert series, in addition to several major musical show productions involving local talent given each year. There is an active Little Theatre group, an Art Association which sponsors an Art Gallery in Julia Davis Park, and a Historical Society in conjunction with the State Historical Museum also located in the Park, across the river from the college campus.

Boise Valley has a mild climate, only a few miles' drive to the mountains for abundant snow. Bogus Basin, the local ski area, is only 16 miles from the city. Family camping is a favorite recreation, with hunting and fishing practially at one's backdoor. Water sports are found at nearby Lucky Peak reservoir, Lake Lowell and many other recreation spots within a short drive of town.

#### STUDENT HOUSING

All new out-of-county students are required to live in the residence halls unless special written permission is granted by the Dean of Men or Dean of Women. Early application is encouraged since housing is limited at the present time. Such permission will be given women students only to live with a close relative. Students over twenty-one or married are not included in this regulation.

ALL students are required to report any change of residence (temporary or permanent) to the Dean of Men's office immediately.

Standards of Conduct are made explicit to all students through the Student Handbook. Any student who violates these standards may be removed from his place or residence and may be dismissed from the College.

#### **ON-CAMPUS HOUSING: RESIDENCE HALLS**

The two permanent residence halls—one for men and one for women—are virtually identical in every respect. Each building has 48 single and 15 double accommodations. They are located at the heart of the campus near the new library, classrooms, auditorium, athletic fields, and Student Union (dining hall).

A first floor lounge and basement recreation room are the central features of each building with ten suites accommodating from six to eight occupants. Basement laundry facilities are accessible to all residents. Bedding, towels, and study lamps are NOT furnished by the College. All residents are required to take their meals at the Student Union dining hall. Opening and closing dates are listed in the inside front cover of this catalog.

Three temporary housing units—one for men and two for women—are also available. West Hall will accommodate up to twenty men students while the Falk House and Chapman House up to fifty women residents.

MEAL SERVICE CALENDAR for the year 1966-1967:

Fall Semester-August 21, 1966 through December 21, 1966

(Except Thanksgiving vacation November 24 through November 27) Between Semesters—December 22, 1966 through January 7, 1967

(Meal service will be suspended. The Snack Bar will be closed.)

Second Semester-January 8, 1967 through May 14, 1967

(Except for Spring Vacation March 24 through March 27.)

**Application Procedure:** 

All applications for the residence halls should be directed to the Residence Hall Secretary, Boise College. Returning students generally have priority; otherwise, applications will be processed as soon as the following requirements have been met:

- (1) An Application-Contract, Residence Hall Information Card, and Security Deposit are filed with the Residence Hall Secretary.
- (2) The \$25.00 Security Deposit must be filed at the same time as the Application Contract and Residence Hall Information Card. All checks or money orders should be made payable to Boise College.
- (3) The applicant is accepted as a full time student by the Director of Admissions.

Since there may be a delay in obtaining acceptance into the College, the applicant should note that steps one and two may be completed before step three. If notification for a cancellation of a room reservation is not received by this office on or before August 1, the Security Deposit is forfeited and no longer refundable. The Security Deposit will normaly be held until the end of the academic year for registered students awaiting assignment or assigned who move out during the year. The \$25.00 Security Deposit is not to be construed as partial payment for the cost of room and board.

Since there are limited accommodations at present, selection of assigned residents is based on a stringent review of the cumulative records of each applicant.

#### OFF-CAMPUS STUDENT HOUSING

All unmarried students under 21 years of age must obtain the approval of the Dean of Men or the Dean of Women to live off campus. Lists of available housing are on file in these offices. Housing agreements must be initiated and filed with the Dean of Men's office.

Students over 21 years and/or married need not obtain approval but are welcome to use the Dean's Housing lists.

All students are required to report any change of address, both temporary and permanent.

#### COLLEGE COURTS (MARRIED STUDENT HOUSING)

Eighty housing units are available for married students. They are located one block off campus and rents are low. Rates for apartments are \$50.00 to \$55.00 for one bedroom, \$60.00 for two bedroom, and \$65.00 for three bedroom. (Charges subject to change without notice.) Electric refrigerators and ranges are installed in each apartment. Coin-operated washing machines and dryers are located on the site. Heat, water, hot water, and garbage disposal are furnished. Other facilities are not furnished.

Applications for these units should be made directly to Married Student Housing Manager, Boise College. A \$50.00 security deposit is required. If notification for a cancellation of a reservation is not received by August 1, the security deposit is forfeited and no longer refundable.

#### HEALTH SERVICE

Boise College provides a health service for students in attendance. Each student will be required to take a complete physical examination before entering Boise College for the first time. This physical examination report must be furnished on medical form mailed to prospective students by the college.

The medical advice of the college physician, Dr. Bruce Budge, is available one hour daily at the Health Center, without charge, to all students. Also between hours of 9:00 and 12 noon a nurse will be on duty. The student may receive, as well as medical advice, treatment for any minor ailment or injury requiring bandaging and medication. In addition, all full time students automatically are participants in a health and accident insurance program providing coverage from the beginning to the end of each semester. The health and accident program provides for liberal hospitalization as well as medication, laboratory service, and the major portion of medical and surgical fees.

The treatment of pre-existing illnesses is not incuded under either of the programs. Responsibility for providing any special care required by a physically handicapped student rests with that student or with his parent or guardian.

#### GUIDANCE PROGRAMS

The guidance program at Boise College is designed to reach every student. Regardess of the nature of his problems the student at Boise College is afforded the opportunity to discuss them with a faculty advisor of his choice, or with a professional counsellor.

The student in need of vocational guidance finds at his disposal the services of a specialist at no extra cost. In addition to knowledge gained from the entrance tests, taken before his registration, information is available through tests that range from inventories of his interests to measure of his various aptitudes and abilities.

Each full-time student is required to take the standard American College Testing program test battery before entering Boise Junior College as a firsttime freshman. Students who take these tests during their senior year in high school will not be retested at the College. All tests are used for guidance and placement rather than for selective admission.

#### PETITIONS

Individuals or groups of students always have the privilege of petition. Academic petitions should be addressed to the Dean of Faculty. Other petitions should be directed to the appropriate administrative officer.

#### ACCREDITATION

The College will continue its junior college division emphasizing a strong program in the academic, pre-professional, semi-professional, and vocationaltechnical programs of study. Boise Junior College is a member of the Northwest Association of Secondary and Higher Schools, and has been fully accredited by that organization since 1941. This accreditation continues as in the past with a re-evaluation scheduled for October 1966 by a visitation committee of the Northwest Association of Secondary and Higher Schools. This is part of the regular, periodic accreditation of all northwest colleges and universities which are members of the association.

Five to ten years is the maximum period of accreditation for any college or university in the Association. Boise Junior College received this maximum accreditation in 1956, and now the College will be re-evaluated on the basis of a junior college and a four-year degree-granting college.

#### HONORS

The Idaho Society of Professional Engineers selects a pre-engineering major to receive the honor being the outstanding engineering student graduating from Boise Junior College. The engineering faculty nominates candidates for this honor. An individual plaque is given to the recipient, and his name is also inscribed on a plaque in the Science Building. The name of the student receiving this honor is announced at Commencement each year.
