

AN EVALUATION OF OVER-THE-COUNTER MEDICATION ABUSE IN HIGH SCHOOL STUDENTS: A SURVEY-BASED STUDY

Ashley Harmeyer, Pharm.D. Candidate

Rachel Moffett, Pharm.D. Candidate

Emily Rennekamp, Pharm.D. Candidate

Darin Ramsey, Pharm.D., BCPS, BCACP

Objectives

- Evaluate the abuse of over-the-counter medications in high school teenagers
- Compare trends to national statistics
- Educate students on the dangers and risks involved in using these medications inappropriately

Methods

Cross-sectional survey administered to students at two Indiana high schools, Lawrenceburg High School and North Montgomery High School
