The data reproduced in this listing was compiled for use in Missouri Agricultural Experiment Station Project 306 entitled, "Social and Cultural Factors and Processes Associated With Social Changes Occurring in Missouri Trade-Center Communities."

POPULATION CHANGE OF MISSOURI TOWNS

Compiled by John S.Holik

Following is a list of place names, counties, and population by decades. Source of the data is the United States Census of Population for each decade from 1890 to 1960.

There have been numerous name changes among Missouri towns. The most recent name and spelling reported by the Census Bureau is the one given in this list. The census corrections for earlier incorrect population data have been used. Such corrections have noted from 1890 to 1960. Cross references show when a town has been reported under two or more names. Though great care was exercised in compiling these data, there remains the possibility of error.

1890 - 1960
