

Past A. M. A. President To Speak Here February 1

Dr. Warren H. Cole, professor and chairman of the department of surgery, University of Illinois school of medicine, will be guest speaker at the fourteenth annual Jack H. Tritt Memorial Lecture February 1 in Steinberg Auditorium.

He will speak on "Current Trends in Cancer Research and Treatment."

Dr. Cole received his medical degree from Washington University school of medicine and served an internship and a residency at Barnes Hospital.

He is a past president of the A.M.A., American College of Surgeons, and the American, Southern, and Western surgical associations.

Dr. Melvin L. Goldman is chairman of the lecture, established in memory of a former resident in medicine at Jewish Hospital.

The lecture is open to the public.

Scientific "Day" Talks Set

Three well-known physicians will be guest speakers at the 5th annual Scientific Session to be held at the hospital on Monday, May 8.

They are: Sam Bessman, M.D., professor of biochemistry, University of Maryland school of medicine; Isidore Cohn, Jr., M.D., associate professor of surgery, Louisiana State University school of medicine, and M. Edward Davis, M.D., chairman and professor, department of obstetrics and gynecology, University of Chicago school of medicine.

The event, sponsored by the Jewish Hospital Alumni Association, will include morning and afternoon lectures and rounds and a luncheon at the hospital, and cocktails and dinner that evening at the Chase Hotel. Jewish Hospital interns will present after-dinner entertainment.

Dr. Leo A. Sachar is president of the alumni association.

Volunteers Are Cited On Awards Night Here

Hundreds Attend Annual Holiday Party (See Story, Page 4)

Forty-five volunteers at Jewish Hospital received awards for 500 or more total hours of service at a ceremony held on January 18 in the employees' dining room.

Participating in the program were John M. Shoenberg, hospital president, who gave the welcoming address; David Littauer, M.D., executive director, who presented awards and made congratulatory remarks, and Mrs. Harry Loeb, president of the Jewish Hospital Medical Center Auxiliary, who announced names of award winners.

Engraved gold discs containing the inscription, "For A Lady of Distinction," were presented to the winners having achieved 500 to 1,000 hours' cumulative service this year. For each thousand hours above the 1,000 level, an additional inscription was made on the discs previously presented to the winners in this group.

Fifteen of the award winners had cumulative totals of 1,000 or more hours. They were:

Mrs. Alfred Goldman (9071), Mrs. Harvey Nathanson (5075), Mrs. Millard Waldheim (4278), Mrs. Ben Samuels (3164), Mrs. Carrye Sang (2347), Miss Leslie Waldheim (2218), Miss DeDe Kaplan (1586), Mrs. M. A. Horwitz (1285), Mrs. S. Binowitz (1207), Mrs. A. F. Felberbaum (1193), Mrs. Ira Lang (1160), Mrs. M. Sachar (1139), Mrs. H. J. Bernstein (1071), Mrs. Sol Deutsch (1007), and Mrs. John D. Levy (1003).

The following volunteers received gold discs this year for totals of 500 to 1,000 hours' service:

Mrs. Arthur Baer, Mrs. George Baker, Mrs. Joseph Berger, Miss Anna Blank, Miss Leah Chackes, Mrs. Rose Dankner, Mrs. Sam Freund, Mrs. Elmer Gertner, Mrs. Irwin Gittelman, Mrs. Jack D. Goldman, Mrs. Pearl Goldstein, Mrs. Ben Heller, Mrs. Milton Kramer, Mrs. Sarah Kucher, Mrs. Harold Lewin, Mrs. Burton Librach, Mrs. H. E. Lieberman, Mrs. Samuel Lott, Mrs. Edwin Meissner, Mrs. Bernard Mitleider, Mrs. E. J. Moskow, Mrs. Leah Pitt, Mrs. Sam Reynolds, Mrs. David Sherman, Mrs. Louis Stein, Mrs. M. A. Steinbach, Mrs. Samuel Stern, Miss Sara Weiner, Mrs. Charles Weinroth, and Mrs. Goldie Zager.

A reception followed the awards ceremony.

Oscar Brand Dies at 53

Mr. Oscar Brand, Jewish Hospital board member for the past ten years, died suddenly December 27, at the age of 53.

One of the most respected leaders of the St. Louis Jewish community, Mr. Brand was also a board member of the Jewish Federation of St. Louis and was a key member of the community health planning committee which developed the consolidation and expansion plans leading to the creation of the Jewish Hospital medical center. He led a capital funds drive which raised money to build the chronic disease division at Jewish Hospital. He was instrumental in starting a management engineering program here.

At the time of his death, Mr. Brand was a member of the Finance and Budget, House and Buildings, Professional Services, and Long-Range Planning committees of the hospital's board of directors.

MR. BRAND

Hematologist Gets Grant

Dr. David Miller, hematologist and blood bank director, has received a three-year, \$47,487 grant from the United States Public Health Service.

Dr. Miller will study factors responsible for anemia resulting from destruction of red cells in the body. He will also explore the basic mechanisms responsible for the maintenance of normal red cells in the blood stream.

He said that the research program will involve an intensive use of the blood bank, especially with reference to more complex aspects of blood typing.

Most of Dr. Miller's research will be carried on in the hematology research laboratory and in the blood bank on the ground floor of the hospital.

He was president of the Artcraft Venetian Blind Manufacturing Company and of the Enamel Products and Plating Company.

He is survived by his widow and two sons, Kenneth S. and Robert N. Brand.

Services Report: Whale of Job

Toward the middle of each month, a gigantic volume of statistics issues forth from the Medical Records Department of the hospital. Its name is the Professional Services Report.

The Professional Services Report is used as an operating tool to improve on professional services at the hospital. It also supplies valuable information to the American Medical Association for approval of internships, to the American Hospital Association for hospital accreditation, and to other organizations interested in comparative statistics on hospitals.

At year's end, an interpretive statement is added to the report. The statement points out such things as trends in patient care, increases or decreases in certain laboratory techniques over the year, and comments on the impact of new services in the hospital.

In the monthly Professional Services Report are such items as totals on patient admissions and discharges, average daily census for the month, average length of stay, numbers of tests given by laboratories, figures on blood transfusions, number of Emergency Room visits, number of clinic patients, and home care statistics.

Also among report items: number of X-Ray exams; number of anesthetics; number of surgical operations, and figures on speech and hearing tests.

The first Professional Services Report at Jewish Hospital was com-

Leukemia Aid From Miriam

The president of the United Order True Sisters, Inc., oldest Jewish women's fraternal organization in the United States, visited Jewish Hospital recently. She is Mrs. Lou Simon of New York City.

While here, Mrs. Simon presented a check for \$700 to continue a program to help alleviate administrative, technical, and processing costs in blood transfusions for leukemia patients of all ages. Accepting the gift for the hospital was David A. Gee, associate director.

Accompanying Mrs. Simon to St. Louis, as part of a six-week trip to UOTS installations, was Mrs. I. Joseph Winters, national vice-president. Mrs. Winters is also a New York City resident.

Mrs. Myron Fisher, president, Miriam #17, St. Louis chapter of UOTS; Mrs. Stanley L. Lopata, chairman of the Miriam cancer service program, and Mrs. Lester Munchweiler, past president of the local group, joined the visitors.

piled in 1952. The growth of the hospital is shown in the report. In 1952, when the bed capacity was 298, the report was 10 pages long. As the hospital reached its present 497 bed capacity, the report added new sections until it is now 44 pages long.

Although all hospitals publish statistical reports, they are usually very brief and do not include all the professional services.

"We have a more comprehensive analytical report than I have seen from any other hospital," said Miss Marjorie H. Boulton, medical record librarian, who supervises monthly publication of the report.

The continuous job of compiling

Mrs. Marta Porth (left), and Miss Marjorie H. Boulton display the latest issue of the monthly Professional Services Report.

the report is an exacting task, said Miss Boulton. The task involves the combined efforts of the Medical Record Department plus all professional departments in the hospital, which are required to send in monthly figures. Additional information is gathered daily by Medical Records from the midnight census, daily admission and discharge sheets, and patients' medical records.

The patients' records are reviewed by the department's "initial inspection desk", sent to the "discharge analysis desk", and then all the data is forwarded to Mrs. Marta Porth, who makes the monthly calculations for medical statistical reports. Supplying patient statistics for the hospital is a full-time job for Mrs. Porth, supervisor in this area.

The continuity of the Professional Services Report gives the reader the impression that the reports are compiled by one person. This uniformity is achieved by sending standard forms to each department, illustrating the lay-out of the report, and asking that each department stick to the master design.

"Every month, we more or less 'tear our hair' and wonder whether we are going to get certain departments to conform to the pattern of the report, have every word spelled correctly, and have the mathematics jive, but as a whole, the co-operation of people who work in our division and in other departments is very great," said Mrs. Porth.

Pair Here Gets Heart Grant From Illinois United Fund

A \$5,491 grant for research in heart surgery at Jewish Hospital has been awarded by the Tri-Cities Area United Fund in Granite City, Illinois.

The Social Planning Council, which handles the health service expenditures for the Tri-Cities Area United Fund, recommended the grant to the hospital's heart research program in return for the "direct benefits from that program enjoyed by residents of the Tri-Cities."

Two Jewish Hospital physicians, Drs. Martin Bergmann, director of the department of thoracic and cardiac surgery, and Herbert B. Zimmerman, associate in the division of medicine, conduct a bi-weekly screening center at St. Elizabeth's

Hospital in Granite City for patients requiring preliminary heart tests or heart surgery. Cases requiring surgery are continued at Jewish Hospital.

Thomas A. Sullivan, Tri-Cities Area United Fund president, said that expenditures from the health service funds are limited to projects that have a direct impact on Tri-Cities residents and to organizations which do not conduct separate fund-raising drives in that area.

The grant represents unspent health service funds for the last several years. The heart program at Jewish Hospital was chosen for the first research grant from these funds because heart disease is responsible for more deaths than any other disease, Mr. Sullivan said.

Meeting Room Rules Revised

New rules for reserving meeting rooms at the hospital were put into effect recently.

Reservation request forms, available in the public relations office (sta. 451), must be completed in duplicate and sent to the public relations office at least two weeks in advance of a meeting date. Telephone requests for meeting rooms will no longer be accepted.

A written confirmation will be sent to anyone requesting meeting room facilities, if the room is available. If a room is not free at the time desired, the public relations office will immediately telephone the person responsible for the meeting and attempt to arrange another date.

New meeting room regulations were devised due to recurring scheduling conflicts, as well as some breakage or loss of equipment.

Laugh, Kathy, Laugh

Looking somewhat over-awed for the moment is two-year-old Kathy Tranchilla, as she meets Corky the Clown (alias Cliff St. James). Corky and Texas Bruce (Harry Gibbs), KSD-TV personalities, were visiting the pediatric unit. The children received comic books, balloons and autographed snapshots of their TV idols. Kathy is the daughter of Mr. and Mrs. August V. Tranchilla, 8023 Appleton Drive, University City.

Out-Patient Center Opened

On December 1, the Ambulatory Care Center was organized at the hospital.

Located at the Forest Park ambulance entrance, the Center is the co-ordinating point for all private out-patients who use hospital facilities.

It performs the function of giving information to the patient, collecting certain personal data from him, seeing that he gets to the department which is to render service to him (X-ray, laboratory, blood bank, physical therapy, heart station, audiology, etc.), and arranging for him to pay for the service he receives.

The Center is open seven days a week, 24 hours a day. After 7 p.m., it also performs the functions of admitting in-patients and acting as receptionist for anyone else entering the hospital at night.

The Ambulatory Care Center was created in connection with the renovation and reorganization of the Emergency Rooms.

CONTRIBUTIONS TO JEWISH HOSPITAL FUNDS

Contributions received are used for research, appliances for clinics patients, new equipment, and other worthy undertakings sponsored by The Jewish Hospital Medical Center Auxiliary.

The following are contributions received during period Sept. 10, 1960 to December 10, 1960.

(Contributions to this Fund may be made by sending checks, payable to THE JEWISH HOSPITAL TRIBUTE FUND, to Mrs. Henry H. Stern, 6310 Waterman Avenue, St. Louis 30, or Mrs. Clarence T. Eckert, 410 North Newstead, St. Louis 8).

Allergies, Possums Among Subjects For Research Here

Two new faces behind microscopes in the Institute of Experimental Pathology are those of Drs. William Hutton and Joseph B. Gorman, full and part-time research associates, respectively.

A study of the influence of auto-allergic conditions on the central nervous system is Dr. Hutton's project here. (An auto-allergic condition is one in which, through penetration of antibodies into the brain, a person becomes allergic to the tissue in his own body.)

Dr. Hutton aims to determine how these antibodies penetrate the "blood-brain barrier" — a built-in barrier every person has which protects the brain from the rest of the body — and discover the resultant damage. This research is being done in two stages: (1) reading and studying various types of toxic substances and their composition, in order to select several substances suitable for this particular work, and (2) experimentation on subject animals — rats and rabbits — in an effort to cause antibodies to enter their brains and study the damage done.

Dr. Hutton received A.B. and Ph.D. degrees from the University of California. He did research in

**DR. HUTTON**

multiple sclerosis at the University of California medical school, and also taught biology and hygiene at Stephen's College, Columbia, Mo.

Dr. Gorman's work involves a study of the function and tissue responses of animals with relationship to the thyroid hormone mechanisms. In his studies on thyroid function levels, he uses a scintillation counter radioiodine technique devised by Dr. Bhartur Premachandra and his associates at the University of Missouri. (Dr. Premachandra is now a member of the Institute staff here.)

An unusual array of subject animals is used by Dr. Gorman — sparrows, lizards, snakes, possums, cave salamanders, and frogs — all chosen because, in their proportionately smaller bodies, thyroid processes are much slower and can be better observed than they can in a human body.

Another aim of Dr. Gorman's project is to determine the thyroid gland's effect on aging — work closely related to the well-known interest of Dr. Herman T. Blumenthal, Institute director, on problems of aging.

Dr. Gorman, a former professor of comparative anatomy and comparative embryology at St. Louis University school of medicine, received his B.A. degree from U.C.L.A., and took his Ph.D. at the University of California at Berkeley.

Physician United Fund Giving Shows Gains

Jewish Hospital physicians contributed \$10,237.25 to the 1960 United Fund campaign this year, an increase of almost \$310 over last year's collection.

A total of 146 doctors participated in the medical staff's drive here. Their contributions achieved 103% of this year's goal of \$9,934.

Dr. Robert Burstein was chairman of the medical staff solicitation.

(Jewish Hospital employees contributed \$4,660.10 to the employee campaign held during the month of October.)

Stahl Tributes Buy A Cardiac Monitor

The purchase of a cardiac monitor has been made possible through tributes by friends of the late Dr. P. D. Stahl, who died last October. (The Dr. P. D. Stahl Cardiac Monitor Equipment Fund was established recently in his memory.)

A large contribution from Mr. and Mrs. Lewis Bettman in memory of Ethel B. Ullman was also included in memorial funds which were applied to the purchase of the machine.

A cardiac monitor, which costs \$681, is a machine which makes graphic readings of the heart during surgery.

FM In Labor Rooms

Stork Must Face The Music

Music is now being piped into the hospital's eight labor rooms.

Eight speakers, along with individual volume control switches, have been installed in the labor rooms on the fourth floor.

This is the second area in the hospital now wired for piped

music. Since April, 1960, piped FM music has been wafting through speakers in the main dining room.

Doctors say the labor room music is helpful to mothers-to-be — the music is soothing and it helps pass the time quickly.

4 Give Hospital Television Sets

In response to a recent 216 request, four friends of the hospital donated television sets for use in patient areas.

The contributors were Mrs. Harold Mosinger, Mr. A. I. Pollock, Mrs. Roger Scherck, and Dr. Alfred Schwartz.

Mrs. Singer Donates Two Oil Paintings

Latest additions to Jewish Hospital's "art collection" are two oil paintings by Mrs. James W. Singer, Jr., given to the adult psychiatry division by Mrs. Singer.

This gift is an addition to seven other oils and watercolors the hospital has received from Mrs. Singer in the past two years.

Sixth, Seventh Floor Balconies Removed

Outdoor balconies on the sixth and seventh floors of the hospital have been removed. The existing space at the northern ends of the corridors is being converted into supplementary waiting areas.

These areas, approximately 6' x 6½', are being enclosed in brick and will contain from two to four chairs for the convenience of visitors.

A. F. Jaquier, director of building services, said construction on the sixth floor is scheduled to begin in about six weeks and will take approximately six to eight weeks to complete. Work on the seventh floor waiting area will then begin.

Patients Attend Chanuka Party

Twenty patients from the rehabilitation and chronic disease divisions took part in a gala Chanuka party December 15 in the ambulatory dining room.

Rabbi Bernard Lipnick told the story of Chanuka and showed slides of Jerusalem. Then followed lighting of the Chanuka candles, singing of traditional Chanuka songs, distribution of gifts to all present, and refreshments.

Mrs. B. S. Goldwasser was chairman of the party, which was made possible through funds provided by an anonymous donor.

They're Taking Movies On Rehabilitation Division; Films Aid Amputees Learning To Walk Again

Movie-making is now a diagnostic and research tool in the Division of Rehabilitation here. Movies are used to study gait problems which are commonly encountered in the division.

The inability to walk independently is one of the most common causes of disability, said Dr. Franz U. Steinberg, division director. If this difficulty is not resolved, it may condemn the patient to the life of a permanent invalid, dependent on the care of others, he said.

Inability to walk properly can be caused by many different diseases or injuries. If the patient is to be

re-trained to walk, a physical therapist must understand any faulty gait pattern which has developed, Dr. Steinberg said.

Robert Hickok, division co-ordinator and physical therapist, has been taking 16 mm. movies of patients with gait problems and of amputees learning to walk on "new" legs. Slow-motion films are able to break down the intricate gait pattern into basic components which in turn reveal any defects or distortions that may be present.

In the movie audience may be physicians, orthopedic surgeons, physical therapists, and others in-

terested in gait training. Occasionally, Hickok shows films to classes of physical therapy students from Washington University.

Gait-training methods, as used here, are a great boon for first-time users of artificial legs. In the past, Hickok said, a patient would be fitted for a new artificial leg at a limb company and would usually leave the shop with little or no training in its use. Often, the patient became so discouraged that the new limb would end up in a closet, he said.

By teaching a person techniques, there is much more assurance that

the patient will really utilize the limb, Hickok remarked.

The techniques of gait analysis and training used in the division of rehabilitation are based on research studies conducted at the University of California at Berkeley.

"We have used techniques from the California study and have combined them with our own experiences at Jewish Hospital over the last few years," Mr. Hickok said.

The success that the division has had with amputees and gait problems in general indicates that gait analysis methods have a bright future.

CAPSULES

Honors . . .

Alex C. Sonnenwirth, Ph.D., bacteriologist, has been elected president of the Eastern Missouri Branch, Society of American Bacteriologists . . . Franz U. Steinberg, M.D., director, division of rehabilitation, was elected to the board of directors of the St. Louis chapter, National Rehabilitation Association . . . Loretta Moore, supervisor in medical records, is new secretary of the Missouri Association of Medical Record Librarians. . .

Vital Statistics . . .

Tax deduction #4 for credit manager Pat Bryan and spouse — son Timothy — arrived December 27 . . . A Post-Christmas bride was Lee Hein, child care worker on 3-North. She became Mrs. David McDonnell Dec. 27. . .

New Faces . . .

Clara Dickens and Opal Richter, PBX operators . . . Nancy L. Atkinson, administrative assistant, and Roberta Marlowe, research analyst, Medical Care Research Center . . . Sylvia Rimbach, secretary, volunteer services . . . Robert Samuels and William Patterson, admitting clerks . . . Virginia Natho and James Westbrook, technicians, clinical labs . . . Ann Jean Fellers, steno,

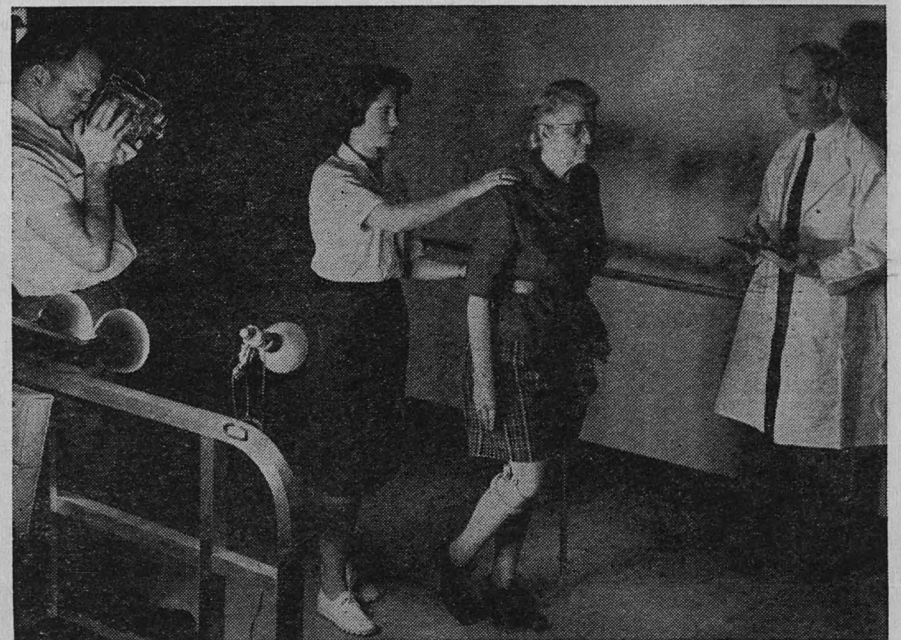

social service . . . Elaine Rust, outpatient cashier . . . Bonnie Ziegler, pharmacy clerk . . . Mary Phillips, receptionist, nurses' residence . . . Muriel Narve, Mary Ann Meuret and Marjorie Kimsey, medical technology students . . .

Here and There . . .

Elizabeth Gladstones, occupational therapist, attended the Congress of the International Society for the Welfare of Cripples in New York last month . . . Linda Collier, child care worker on 3-North, is taking a course in practical nursing at O'Fallon Technical High School. She hopes to get her L.P.N. diploma next fall . . . "Rehabilitation of the Paraplegic Patient" was the title of a paper presented by Franz U. Steinberg, M.D., rehabilitation division director, at the annual meeting of the Southern Medical Association . . . Jane Matthews, dictaphone operator in medical records, received a certificate from St. Louis University for a course in anatomy which she took in connection with her work . . .

News Notes . . .

The hospital's residency program in radiology recently was given continued approval by the A.M.A. for three years' training.

Robert Hickok takes a movie of gait-training session of Mrs. Elsie Sapp, rehabilitation patient (discharged since this photo was taken). Mrs. Janet Schmieding, physical therapist, assists the patient, while Dr. Franz U. Steinberg observes the proceedings.

Dean Cox Heads Credit Group

Dean Cox, admitting office supervisor here, is new president of the Hospital Credit Managers' Association. He serves a one-year term.

The association is comprised of credit office employees from 250 hospitals in Missouri and Illinois. Hospital membership in the group will be increased next spring to include a six-state area, Mr. Cox said.

The association assists credit personnel in becoming better qualified for their jobs through bi-monthly exchanges of information and ideas.

MR. COX

Simons Give To Hospital

Three members of a prominent St. Louis family have given Jewish Hospital gifts amounting to \$33,110 for research activities.

Gifts from Julian Simon, Mrs. Ira Simon, and Mrs. Herbert Simon have established the Ira and Herbert Simon Research Fund in the hospital's Research Institute.

Most of the funds will be used for research in cancer and in mental and nervous disorders.

The late Ira and Herbert Simon, along with their brother, Julian, were partners in the St. Louis firm, J. Simon and Sons. The firm disbanded in 1939.

Herbert Simon died in 1940, and Ira Simon died in January of 1960.

Tunnel Project Rolls On; Access To Parkway Told

Work on the east-west tunnel under Kingshighway at the Forest Park-Kingshighway intersection is coming along on schedule, according to construction officials.

The four-lane project, called the Forest Park Parkway, will extend west from Compton avenue and Market street to the St. Louis county line on Millbrook boulevard and is set for completion sometime in 1962.

So far, one frame wall, which supports the roadway over the tunnel, and one wing wall have been built. About 430,000 pounds of cement are poured into one frame wall to make it rigid. A second frame wall will be poured shortly.

When all the walls are built, a concrete slab or roadway will be poured over the tunnel. Into the slab will go more than 1,500,000 pounds of concrete. This slab will constitute the western two lanes of Kingshighway and will be open to traffic sometime in March or April, if bad weather doesn't interfere.

With one side of Kingshighway open, workmen will then excavate

the east side of Kingshighway, build walls, and pour a roadway so that automobiles can use both sides of the boulevard once again.

When all work on the parkway is complete, west-bound motorists will be able to enter it via a ramp on Forest Park avenue, halfway between Euclid and Kingshighway. There will be no parkway entrance in this area for east-bound motorists.

Getting off the parkway at the Forest Park-Kingshighway intersection will be easier. East-bound motorists will leave the parkway by a ramp and will proceed south on Kingshighway. East-bound motorists will also be able to go under Kingshighway and leave the parkway by a ramp onto Euclid. No exit is planned for west-bound motorists.

There are tentative arrangements for an electric traffic signal at Forest Park and Kingshighway, with possible provisions for a left turn onto Kingshighway from Forest Park avenue. Motorists coming south on Kingshighway will be able to turn left onto Forest Park avenue.

Big Crowd At Annual Party

Between 950 and 1,000 employees, students and house staffers attended the annual Holiday Party December 22 in Steinberg Auditorium.

Two weeks later, guests were given an opportunity to express their reaction to the party in a questionnaire distributed in the main dining room.

Opinion poll results indicate that Holiday Party guests would just as soon sit at tables instead of standing up to eat, and that the main dining room is a more preferable site for the party than is Steinberg Auditorium.

A majority of those completing questionnaires approved of party attendance prizes (small \$2 gifts), but stated that the violin player who entertained either couldn't be heard over the din of the crowd or was just inappropriate for the holiday season.

It is more than likely that the hospital will heed the advice of the opinion poll and make some changes in the 1961 party.

The food menu of the recent party included 200 pounds of potato salad, 100 pounds of roast beef, 320 pounds of fried chicken, 85 pounds of ham and 11 cases of eggnog.

The combined efforts of about 50 persons made the party a success. Employees in the dietary department, some of whom worked on their normal day off or came to work at midnight to begin party preparations, deserve much credit. Credit is also due members of the housekeeping and maintenance departments for handling many additional details of the party.

A five-member committee handled overall arrangements for the affair.

Miss Edna E. Peterson, director of nursing, serves punch to three student nurses at Holiday Party.

Magazine Sales Up

The Jewish Hospital Medical Center Auxiliary's magazine project had the most successful month of its career in December 1960, when 56 subscriptions were sold.

"We believe this increase in business was due in large part to posters in various hospital areas which publicized our project," reports Mrs. Morris Glaser, magazine project chairman.

Proceeds of the project are used to purchase books for the hospital's medical library.

Subscriptions may be made by calling Mrs. Glaser (PA. 7-8086), or Mrs. Irving Lundy (WY. 3-6780).

Eye Clinic Slit Lamp Is Gift

The hospital's eye clinic has acquired a Haag-Streit slit-lamp, a high-powered binocular microscope used for examination of the eyes under magnification.

Max Goldstein Display Set

A memorabilia exhibit featuring the biography and writings of Dr. Max Aaron Goldstein will go on display soon at the hospital.

Dr. Goldstein, an eminent otologist, editor, and leader in the medical profession, was founder of the Central Institute for the Deaf here.

The exhibit is being prepared under the direction of Dr. Gerhard Gruenfeld, chairman of the memorabilia committee.

The display will be located in the memorabilia showcases in the corridor opposite the medical staff lounge on the first floor of the hospital.

Japanese MDs Research Here

Two Japanese physicians in the section of medicine of the hospital's Research Institute are doing research on vitamin deficiencies in animals. They are Drs. Shinji Itoh and Machido Kono.

Dr. Itoh, who has been at the hospital for several months, is on leave as professor of physiology at Hokkaido University school of medicine. His research specialties are in endocrinology and physiology.

Dr. Itoh is studying the relationship of various nutritional factors, particularly B vitamins, to the function of hormones in the body. He is working with vitamin B deficient rats and comparing the effect of adrenal hormones on them with the way the hormones affect normal animals.

He has written about 50 articles for medical journals and is awaiting publication of his latest book, *Textbook of Physiology*.

Dr. Itoh has also written a textbook on *The Chemistry of Human Sweat*. He states that, although much is now known about human sweat, "we need much more knowledge about how the body responds to cold and to heat."

DR. ITOH

Dr. Itoh is married. His wife and four children are awaiting his return to Japan in early autumn.

Dr. Kono graduated two years ago from Tokyo University school of medicine. She spent the last six months at Lutheran Hospital here in St. Louis.

She is studying the relationship of Vitamin A to the secretion of hormones by the adrenal cortex.

Both Dr. Kono and Dr. Itoh are studying in co-operation with Dr. Albert B. Eisenstein, director of the section of medicine in the Research Institute.

Mrs. Brown Named To Auxiliary Services Post

Mrs. Lillian S. Brown is new director of auxiliary services at the hospital. She succeeds Mrs. Sophia Rosenkranz, who has resigned.

Mrs. Brown, responsible for coordinating activities of more than 350 hospital volunteers, brings to Jewish Hospital much experience in women's organizational work.

She served for ten years as executive secretary of the Women's Division of the Jewish Federation of St. Louis, Jewish Center for Aged Auxiliary, Ben A'Kiba Aid Society, Hadassah, and other local organizations.

Mrs. Brown is married to Mordecai Brown, formerly of Brown

Printing Company. They are the parents of two daughters — Mrs. Gerald H. Maschan and Mrs. Leslie A. Wise — and have six grandchildren, three boys and three girls.

Mrs. Rosenkranz, who served the hospital since 1955, resigned January 15, 1961.

At Aged Conference

Dr. David Littauer, executive director, has returned from Washington, D. C. where he attended the White House Conference on Aging.
