

## John M. Shoenberg is Re-elected President of Hospital Board

John M. Shoenberg has been re-elected as president of the board of directors of Jewish Hospital for another year.

SHOENBERG

He has been president since 1958. Stanley M. Richman was newly elected to a one-year term as a vice president. Re-elected to one-year terms were Edward F. Schweich, Millard A. Waldheim, Joseph F. Ruwitch, and Edward B. Greensfelder, vice presi-

dents; Edwin G. Shifrin, secretary and Herbert S. Schiele, treasurer.

Newly elected to three-year board terms were I. M. Kay and Raymond H. Wittcoff. Lee M. Liberman was elected to a one-year term.

Re-elected to three-year terms were Harry Edison, Mrs. Harry L. Franc, Jr., Willard L. Levy, Alexander S. Loeb, Mrs. Morton D. May, Lawrence K. Roos, Shifrin, John M. Shoenberg, and Louis E. Westheimer.

Sam C. Sachs and Louis Tiger were elevated to life membership on the board.

## Psychotherapy Use Cited For Infertility

Psychotherapy is a fruitful approach for women who have difficulty in becoming pregnant when there is no apparent organic cause, three Jewish Hospital staff members reported recently.

In an article in the *American Journal of Obstetrics and Gynecology*, Dr. David Rothman, director, department of obstetrics and gynecology, Dr. Alex H. Kaplan, director, department of psychiatry, and Miss Elizabeth Nettles, psychologist, described the cases of six women who complained of infertility and who later delivered healthy babies after psychotherapy given by the obstetrician.

The six patients received psychotherapy stressing "the development of a warm accepting relationship between the patient and the physician with history taking, ventilation, confession, encouragement, and emotional support."

"At the onset of therapy," the article said, "all of the patients were infertile for periods of between one and four years." Sessions varied among the patients from eight in a four-month period to 25 over a year.

"The common psychological feature exhibited by the group supports the basic concept of an infertile woman as a infantile dependent individual, unable to express anger to her parents for fear of being rejected, starved, or destroyed," the article said. "In general, they were overprotected and felt uneasy as they developed a feminine identification because

A new mobile stretcher is wheeled into the emergency rooms by staff nurse, Miss Cecile Spudich. The new stretcher is both an emergency room obstetrics and examining table and can be converted swiftly into a wheelchair while the patient is atop it.

of marked dependency to a hostile rejecting mother."

"Becoming pregnant meant accepting sexual feelings, being comfortable in competing with a stronger maternal figure, giving up the fantasy of remaining a child, and not having to compete with the unborn child. Since the meeting of any of these demands was frightening, infertility was the symptom of choice."

The psychotherapeutic sessions encouraged the women to recognize previously blocked hostile feelings and their unconscious fears of pregnancy. "Very frequently the patients, through dreams or expressed feelings, could accurately predict their own pregnancy," the article reports.

The team plans further studies of the psychodynamics of infertility.

## Employees Give \$6,590

## Federation Record Set

Another Jewish Federation campaign has ended at the hospital, with a new record established.

The total collection was \$6,590, which was \$2,590 over the campaign goal. There were 373 pledges and 587 cash gifts from 960 employees. (In 1961, a total of \$3,650 was raised from 903 employees.)

The campaign was conducted during the first two weeks in April. Sixty-five team captains assisted in the intensive drive.

Herman L. Kaplow, executive director of the Jewish Federation, said of the campaign, "This is an outstanding accomplishment and a testimonial to the understanding and the generosity of the hospital's employees and the effectiveness of

those who assumed leadership capacities in this effort.

"We share with all the hospital's employees a great sense of pride that they must feel from their accomplishments, and on behalf of our campaign leadership I want to extend our deepest gratitude for a job extremely well done."

Last year, the Federation contributed \$360,000 to the hospital for full or partial support of the Aaron Waldheim clinics, the medical and surgical teaching programs, the home care program, and the chronic illness division.

Robert Rubright was campaign chairman and Daniel Anzel was co-chairman.

## Seventeen New Interns Will Join Hospital House Staff on July 1

Seventeen new interns will join the hospital's house staff July 1, it was announced recently by Dr. Morton D. Pareira, chairman of the house staff and education committee. Fifteen of the interns were obtained through the National Internship Matching Program (NIMP). Two dental interns were not processed through NIMP. The matching program acts as a clearing agency.

Jewish Hospital asked for seven mixed (medicine-surgery) interns and matched seven. It also matched eight of the ten rotating general interns it sought.

According to figures compiled by NIMP, Jewish Hospital in matching 88% of those internships sought did much better than the national average. Among all U. S. hospitals, the percentage of interns matched was 53%; among Missouri hospitals, 38%, and among St. Louis hospitals, 40%. (See related story, page 6)

Testing dials on the new \$3,000 Bekesy audiometer is Dr. Robert Goldstein, director of the Audiology section. The instrument, gift of the hospital Auxiliary, assists in determining hearing deficiencies of patients of all ages.

## \$1,500 Gift From Ben A'Kiba Group

The 500-member Ben A'Kiba Aid Society, celebrating its 70th anniversary, has presented the hospital a check for \$1,500 for the maintenance of the Ben A'Kiba outpatient play therapy section of the Ellen Steinberg Division of Child Psychiatry.

The money will also be used to purchase appliances and underwrite the cost of patient care in the section.

There were 2,223 out-patient visits to the division in 1961, Dr. Naomi Rae-Grant, clinical director, reported. She forecasted an increase in out-patient evaluations and therapy sessions in 1962.

Nearly 450 persons attended the Auxiliary Spring luncheon recently at the Chase Club. Miss Virginia Graham, of the Tonight show and NBC television and radio fame, spoke at the event. Left to right, Mrs. Sander Zwick, Auxiliary president; Mrs. Robert L. Hausfater, program chairman; Mr. Edward F. Schweich, hospital vice president, and Miss Graham.

## Road Work Nears Mid-Summer End

After a severe winter and heavy spring rains, construction work on the Forest Park Parkway on the north side of the hospital is heading toward a mid-summer completion. The Construction officials estimate that sometime between mid-July or early August construction to Euclid Avenue will be finished and ready for paving.

The paving part of the Compton Avenue to Millbrook Boulevard parkway will take about one year. Traffic will roll on the parkway about August, 1963.

In the meantime, vehicular approaches to the hospital on Forest Park Avenue have been drastically cut. Only the Forest Park Avenue ambulance entrance is accessible to emergency vehicles which may enter Forest Park from Kingshighway and swing around the entrance to unload passengers. No parking is permitted in the entrance area.

Employees are requested to have their drivers pick them up or wait for them at the Parkview entrance of the hospital and not by the entrance by the doctor's parking lot or in the adjoining alley.

Dr. Guillermo del Castillo, Jr., new Fellow in Rehabilitation and Geriatrics. Recently a resident at New York University - Bellevue Medical Center, he is a medical graduate of Manila Central University. His father is President of the Philippine Hospital Association.

## New X-Ray Table is Gem

A new light green stainless steel fluoroscopy X-ray table is now in use in the X-ray department. The table, a Picker Citation, cost \$8,220.

The new table is more durably constructed and more esthetically designed than the 12-year-old table it replaced, Kenneth Marks, X-ray co-ordinator, said. It offers excellent radiation protection, features transistors for controlling the tilt, and permits technicians to carry out a variety of special X-ray procedures.

"It is the best looking and the most utilitarian table we have ever put out," a Picker representative remarked.

Alighting in Paris from their Air-France jetliner are Dr. and Mrs. Marvin E. Levin, winners at the recent Clover Ball of a round-trip to Paris and a 17-day all-expenses paid open road tour of French provinces. The prize was given by Goldman-Meyer Travel Agency, St. Louis. The Levins are now back in St. Louis.

## 31 Housekeepers Get Sheepskins

Thirty-one St. Louis area executive housekeepers received diplomas April 19 at graduation ceremonies of a two-semester institute on "Administrative Housekeeping for Institutions." Classes were held for three hours each week in Steinberg Auditorium.

David A. Gee, associate director, and Mrs. Beulah Sanders, executive housekeeper and the first president of the St. Louis chapter of the National Executive Housekeepers Association, presided.

The institute, composed of twenty-eight lectures on such subjects as textiles and fabrics, work design, economics, public and human relations, personnel administration, floor care, and psychology, was planned to help chapter members meet partial requirements for certification by the national group. The association, along with the hospital, sponsored the institute, the first of its kind held in St. Louis and one of the few such schools in the United States for specific training in executive housekeeping.

Further academic courses for the housekeepers are planned for this fall, Mrs. Sanders said.

## ANNIVERSARY

Dr. David Littauer, right, receives a gift from the Board of Directors on the occasion of his tenth anniversary as executive director of Jewish hospital. Presenting a gold clock is Mr. John Shoenberg, hospital president.

*Dr. N. H. Meyerhardt is the president-elect of the St. Louis Obstetrics - Gynecology Society and will take office in April, 1964. He recently was promoted to assistant professor of ob-gyn at Washington University Medical School.*

*Dr. Alfred Goldman was recently elected vice-president of the American College of Chest Physicians. He is currently president of the St. Louis Society of Internal Medicine.*

*Dr. Calvin H. Weiss, chief of the dental department, was installed recently as president of the American Association of Industrial Dentists.*

*Dr. Aaron Reiches served as general chairman of the Hillel Foundation's fifteenth anniversary dinner at the Park Plaza Hotel.*

## Jane Frick is Student Nurse Queen

Jane Frick, senior from Richmond Heights, was elected queen of the student nurses' senior dance held in early May. Seniors Joyce Enloe, past president of the student council, Beverly Logan, Sharon McMasters, and Georgia Waite were attendants.

Sterling silver charm bracelets were presented to the queen and her attendants by the hospital Auxiliary which sponsored the annual event.

## Dr. Eisenstein Gets Training Grant

A five-year, \$87,720 grant from the United States Public Health Service has been awarded to Dr. Albert B. Eisenstein, director of the department of medicine, for a program to train and prepare young physicians in fields of endocrinology and diabetes.

The purpose of the training grant is to encourage physicians to become teachers of the two specialties as well as to develop among them competence in research and in patient care, Dr. Eisenstein said.

Two summer fellowships for medical school students are also provided by the grant.

During initial stages of the program, trainees will conduct laboratory research in endocrinology.

The first trainee will collaborate with Dr. Eisenstein on research on the effects of adrenal cortical hormones in carbohydrate metabolism. The trainee will work in the recently established Endocrine Clinic, and the Diabetes Clinic, where he will receive advanced patient care experience.

# CONTRIBUTIONS TO JEWISH HOSPITAL FUNDS

Contributions received are used for research, appliances for clinic patients, new equipment, and other worthy undertakings sponsored by The Jewish Hospital Medical Center Auxiliary.

The following are contributions received during period November 4, 1961 to February 4, 1962.

(Contributions to this Fund may be made by sending checks, payable to THE JEWISH HOSPITAL TRIBUTE FUND, to Mrs. Henry H. Stern, 6310 Waterman Avenue, St. Louis 30, or Mrs. Joseph F. Ruwitsch, 102 Lake Forest, St. Louis 17).

**Scholarship Fund  
Gifts Sought**

Contributions are being accepted for the Edna E. Peterson Scholarship Fund, established last year for students planning to enroll in the hospital's nursing school. The fund provides both partial and full scholarships. Both financial need and scholastic achievement are criteria in selecting scholarship winners.

Send contributions in care of the fund to the Office of Resources and Development at the hospital or through normal Tribute Fund channels.

**Fish Filled  
Pond is Needed**

Do you have an old fishing hole to share?

The recreation office seeks a country area that has a fishing pond or some other well-stocked body of water so that it can take medical and psychiatric patients fishing as part of its therapeutic program. The fishing trips would be scheduled bi-monthly.

If you can offer assistance, please call Miss Sally Pugh, recreation director, FOrest 7-8080, station 472.

## HERE'S FIRST LOOK AT NEW GROUP OF INTERNS

General rotating intern, **Jerry L. Beguelin** is a Centralia, Illinois resident who graduated from Washington University in 1958 with an A.B. in chemistry and who will receive an M.D. from that university's medical school in June.

BEGUELIN

He has done independent laboratory research in the departments of pharmacology, psychiatry, physiology, and surgery at the medical school.

Another rotating intern, **Ivan S. Cliff**, is an Edwardsville, Illinois resident and graduate of Washington U. He graduates from the University of Illinois in June and will be married later in the month. He served an externship here last summer and had a research fellowship in Washington University's department of bacteriology. Included in his hobbies are sailing and tennis.

CLIFF

Serving a mixed internship will be **Maxwell A. Eidex**, '58 graduate of the University of Chattanooga. He will get his M.D. from Emory University School of Medicine, Atlanta, in June. He is married and is now a Chattanooga resident. He externed at Baroness Erlanger Hospital, Chattanooga. His hobby is photography.

EIDEX

**Steven M. Fredman** is a St. Louis resident who will begin a mixed internship after graduation from Washington University School of Medicine in June. His A.B. degree is also from Washington U. where he was active in fraternity affairs. He has done research in psychiatry at the medical school and in the infectivity of schistosoma mansoni at the U. S. Army Tropical Center, San Juan, Puerto Rico. His future plans include private practice in internal medicine.

Planning a mixed internship, **Jon E. Gustafson** is from Independence, Missouri. Married, he received his B.A. degree with honors from Yale University in 1958. He will get his M.D. in June from Washington U. School of Medicine where, in 1959 and 1960, he was awarded student research fellowships to

GUSTAFSON

support his studies in psychiatry. Part of this work has already been published. He has externed here and is interested in model construction and music.

**Charles T. Herbert** will serve a dental internship. Born in St. Louis, he presently lives in Memphis, Tennessee and is married. He received a B.A. in chemistry from Missouri University in 1959 and will graduate from the University of Tennessee School of Dentistry in June. He enjoys hunting and fishing.

Taking on a mixed internship will be **Donald G. Kanefield**, Washington U., '57 and Washington U. School of Medicine, June, 1962. He is married and is a native of St. Louis. During his senior year, he externed at Hamilton Medical Convalescent Center. In college, he was elected to Phi Beta Kappa and several other honorary organizations. He has done research in urological surgery and may eventually specialize in either urological or orthopedic surgery.

HERBERT

KANEFIELD

**Clayton resident Marshall B. Katzman** will commence a rotating internship here. He graduated from Princeton University with an A.B. and will receive an M.D. from St. Louis University School of Medicine. A Phi Delta Epsilon member, he has spent three summers doing laboratory work on urinary steroids at medical school. Married, with one child, he plays the drums, likes painting and athletics.

KATZMAN

**Sheldon F. Lipson** is a University City native who will begin a mixed internship upon graduation from St. Louis U. School of Medicine. His undergraduate degree is from Washington University where he was elected to Phi Delta Epsilon. He has done research in the departments of physiology and internal medicine at the medical school. He tentatively plans to specialize in cardiology. Music and photography are among his hobbies. He is married.

LIPSON

**Lester L. Mann** will become a general rotating intern after graduation from St. Louis University School of Medicine. He received his B.A. from Goshen College in 1957. A resident of St. Louis, he is married with three children. He hopes eventually to have a general medical practice.

MANN

Another general rotating intern, **Gerald E. Murdock, Jr.**, is a Buffalo, Wyoming, native and graduate of the University of Wyoming where he was elected to several honorary organizations, including Phi Beta Kappa. He graduates in June from Washington U. School of Medicine. Hoping to eventually specialize in surgery, he has served externships at Jewish, St. Luke's, and Missouri Baptist Hospitals and has done research in physiology at medical school. Sports and reading are among his hobbies.

MURDOCK

ROTHBARD

**Morton Rothbard**, who will serve a mixed internship, has a B.A. from Syracuse University, an M.S. from Northwestern U. and a Ph.D. from the University of Notre Dame. He will receive his M.D. from St. Louis University School of Medicine this June. He externed at DePaul and Jewish Hospitals and had research fellowships at the University of Notre Dame and St. Louis U. Medical School. He plays the violin, likes tennis.

**Donald M. Rubin** will begin a general rotating internship. Holder of an A.B. from Washington University, he will receive his M.D. from the same school in June. A St. Louis resident, he is single. While at Washington U., he was news editor of the campus newspaper. He participated in a public health research project concerned with chronic diseases and disability. He plays the piano, enjoys baseball.

RUBIN

**Theodore C. Stander, Jr.**, planning a dental internship, is from Denver, Colorado. Trained as a laboratory technician in the United States Air Force, he received a diploma in medical technology from Brooks Army Hospital, Fort Sam Houston, Texas. He received a B.S. from the University of Denver in 1958; in June, he will graduate from St. Louis U. School of Dentistry. He is married, has three children.

STANDER

Silver Spring, Maryland is the home of **Arthur W. Traum**, who will serve a rotating internship. He graduated in 1958 from Brown University; he will get his M.D. from the University of Maryland School of Medicine this June. A recipient of a research fellowship from the Maryland state health department, he externed in two Baltimore hospitals. Copy editor of his medical school year-book, he is single and plans a private practice in internal medicine.

TRAUM

**Walter C. Vashaw, Jr.**, will begin a mixed internship after his graduation from Washington U. School of Medicine. A resident of Rochester, Pennsylvania, he received a B.S. degree from Geneva College in 1958. Single, his future plans include private practice, the mission field, teaching and research. Reading, woodworking, and boating are his hobbies.

VASHAW

WOOL

A St. Louis native, **Gerald Wool**, will take a rotating internship. He will receive his M.D. in June from Washington University School of Medicine. While at Princeton University, where he earned an A.B., he was active in fraternity affairs and intramural sports. He has worked with Dr. Stanley Lang here in surgical research projects. Married, he is interested in music.

### M.D. BRIEFS

**Dr. Ben H. Senturia**, director, department of otolaryngology, attended the meeting of the Council of the American Otologic Society in Dallas, Texas and later presented a paper at the Society's scientific program entitled: "Histopathologic changes associated with middle ear effusion in experimental animals". Collaborating on the papers were Dr. Robert Ahlvin of the pathology department and Mr. Charles T. Carr.

Dr. Senturia also lectured recently to the Virginia Society of Ophthalmology and Otolaryngology in Norfolk.

**Dr. Daniel D. Klaff**, associate otolaryngologist, was appointed assistant professor of otolaryngology at Washington University School of Medicine.

**Dr. William DeLoach**, assistant professor of psychiatry at Southwest University Medical School, Dallas, Texas, visited the Division of Adult Psychiatry recently. He studied the clinical and administrative operation of the unit.

Miss Nancy Hoppe, new nursing school student council president.

Installed May 7 as new President of the Nursing School Student Council was Miss Nancy Hoppe, a junior from Chester, Illinois. Other officers installed were: Miss Judith Mundy, vice president, a freshman from Granite City, Illinois; Miss Shaaron Snellenberger, secretary, a freshman from Decatur, Illinois; and Joan McKinney, treasurer, a junior from Collinsville, Illinois.

Miss Eloise DeLap, an instructor in the Nursing School, will be sponsor for the next academic year succeeding Mrs. Billie Ellis, who left the hospital in May.

Outgoing council officers are: Joyce Enloe, president; Donna Cook, secretary; Darlene Santen, treasurer; and Miss Hoppe, vice president.

## Jamaican Joins Research Team

Gladstone Fairweather, a native of Kingston, Jamaica, is a new research assistant in the Institute of Experimental Pathology.

"Stoney" came to the United States five years ago. He attended William Jewell College in Liberty, Missouri, where he obtained a B.A. in biology. He is now doing graduate work at Southern Illinois University.

His goal is research and teaching. "I would like to teach at the West Indies University in Jamaica and do cancer research, if possible," explained the smiling Jamaican, pausing briefly from his microscope work.

Gladstone works afternoons here reading cytology slides and assists in a project concerning thyroid deficiencies. He plays golf, ping pong or handball and sings Calypso songs during non-academic hours.

## New Unit Aids Blood Analysis

The job of analyzing constituents in human blood in the biochemistry laboratory has been eased with the addition of a second Auto Analyzer as well as supplementary equipment for the first machine, Dr. Sam Frankel, biochemist, reported.

The combined units — total cost, about \$15,000 — do four laboratory procedures simultaneously. One unit does blood sugars and urea nitrogens; another does sodiums and potassiums.

The enlarged Auto Analyzers make for a certain amount of patient comfort, Dr. Frankel said, in that smaller quantities of blood are required for the tests.

Numbering specimens on an Auto Analyzer recording unit is Mrs. Arleise Pritchett, technician. Watching is Miss Cecile Hoegen, chief technician, Biochemistry laboratory. (See related story.)

## N. R. Gift Supports Obstetrical Research

Obstetrical research at the hospital got a recent boost with a \$3,000 check from the Noshim Rachmonieth Mothers and Babies Welfare Society. The check was presented to Dr. David Littauer by the group's retiring president, Mrs. Jacob Mellman.

Since 1946, the NR Society has contributed \$38,500 to the Frances D. Israel Obstetrical Research Fund. The society's affiliated group, the Nadah Club, has contributed \$4,000 to the fund since 1958.

The big advantage of the Auto Analyzers is that while they are operating, a technician is free to do other work. The machines don't get weary after 150 or 200 laboratory tests, and they don't lose precision either.

The pair of Auto Analyzers now operate a total of 9 to 10 hours daily. This volume will be stepped up considerably soon, Dr. Frankel said. About 10 other laboratory tests that are now done manually will be put through the machines in the future, he said. Included would be transaminases, cholesterol and uric acids. The two instruments do the work of 2½ technicians.

Jewish is the only St. Louis area hospital which has such an extensive complex of Auto Analyzers with a flame photometer, which burns processed blood and shows the intensity of certain constituents — sodiums and potassiums — by the intensity of the color emitted.

A ribbon cutting marks the opening of the Maternity division's new classroom. Officiating are Miss Marie Kuppinger, maternity supervisor, right, and Miss Helen Wohlert, instructor in obstetrics. The classroom, richly decorated in murals and decals, will be used by new mothers and student nurses.

## New Station is Nurses' Dream

A new modern 2-South nursing station is now open for business. The new station is 50% larger than the station it replaced, Armand Jaquier, building services director, said.

The station was designed by Mr. Jaquier, who gathered many of his ideas from nurses who work in the area. The shoulder-high desk prevents persons from peering over it and reading records and charts. Two ceiling mirrors across the corridor permit nurses to check on traffic up and down the hall.

Tucked away in the desk is plenty of extra shelf space for storing necessary supplies and equipment. There is also additional lighting in the desk area. The patient communications apparatus at the desk has been modified to permit nurses to speak into it from almost anywhere within the station.

A conference room for house staff members and a fully-equipped kitchen have also opened in the area.

**Changed Your Address? Notify The Hospital Public Relations Office So Our Mailing List Can Be Corrected.**

The two graduates of the recent Housekeeping Institute who travelled the farthest to their weekly classes receive diplomas from David A. Gee, associate director. They are Mrs. Evelyn Spitzfadden, left, and Mrs. Evelyn Lewis, both of St. John's hospital, Springfield, Illinois.

Mrs. Clara Johnson, central supply, receives a check from Mr. William Chiles, suggestion system chairman, for her suggestion that double doors be installed at the purchasing department loading ramp to keep out cold air while trucks load and unload. Also an award winner, but not in the picture, is Miss Emily Johnson, aide on 2-South. She suggested placing handrails at the east exit on the ground floor.

### Dr. Barber Will Be College Official

Dr. William Barber will leave the Medical Care Research Center in late May to accept a new position as dean of the school of education and assistant professor of psychology at Gonzaga University, Spokane, Wash. Dr. Barber obtained his Ph.D. in psychology last year, the first scholar to use the hospital as a base of operations in preparing his Ph.D. dissertation.

He was a project director in psychology for the Medical Care Research Center and also taught at Washington University. He had been at the hospital since 1959.

*Dr. David Littauer, executive director, has been appointed assistant professor of hospital administration at Washington University. Also promoted: Alex C. Sonnenwirth, Ph.D., to assistant professor of microbiology, Washington University School of Medicine, and Albert F. Wessen, Ph.D., to associate professor of sociology in Washington University's department of sociology — anthropology.*

## Nursing Study Grant Awarded

A three-year study of ideologies in nursing, including a review of nursing values, attitudes, and behavior, will be undertaken by Dr. Albert F. Wessen and Dr. John Stern of the Medical Care Research Center. The National Institutes of Health awarded the study group a three-year \$120,000 grant.

Dr. Stern is professor and head of the division of medical psychology at Washington University School of Medicine and research associate, Medical Care Research Center and Dr. Albert F. Wessen is associate professor of sociology at Washington University and executive director of the Medical Care Research Center.

During the first year of the study, the group will develop, evaluate and validate three related techniques for assessing the role performance of student and professional nurses. The final two years will be given to a study of how students become professional

nurses in various schools of nursing.

"The study should clarify the process by which nursing education achieves — or fails to achieve — its goals," the investigators said. "That is, we believe that we shall be able to define the relative contributions of school and education activities and of service and on-the-job activities to the establishment of the attitudes and values of nurses."

It is anticipated that the research program will contribute new knowledge concerning the criteria of "good nursing care" and will answer such questions as, What educational ideologies and programs are particularly successful in developing desired role performance by nursing personnel? and, At what point in the period of professional training can it be said that attitudes and values characteristic of the professional nurse emerge and become stabilized?

The investigators hope that the study will shed light upon the individual characteristics that are most desirable for nursing students in given training programs.

The second adult male volunteer at the hospital is Mr. Alvin Jacks, who retired recently after many years with Eagle Stamp Company. A fellow volunteer, Mr. Edward Posin, works weekly in the Accounting department.

### Shock Grant Renewed

The U. S. Surgeon General's Office in Washington announced that it has renewed a grant of Dr. Morton D. Pareira, director, department of surgery, entitled "Therapeutic Properties of Blood Plasma in the Therapy of Tourniquet Shock."

The grant, in the amount of \$10,945, is for one year and is renewable. Dr. Pareira received his first grant from the Surgeon General in 1957. Since that time, he has received \$59,900 to carry out studies in this specialized area.

### Hospital Census Reaches New High

The hospital census on March 16 was 488 patients, highest in the institution's history.

It surpassed by three patients, the former record set on October 24, 1961.

Participating in the patient management phase of the on-going Rehabilitation Nursing Institute at the hospital are four staff nurses from other St. Louis hospitals. Watching Mrs. Fern Stewart, head nurse, 1-South, help patient Roy Brooks from a wheelchair onto his bed are, left to right, Mrs. Carole Pope, Koch Hospital, Mrs. Eugenia Walsh, St. Vincent's Hospital, Mrs. Peggy Divers, St. Vincent's, and Mrs. Eloise O'Connor, Koch. The first phase of the institute was held in February.

## Rabbi Abraham Halpern Is Dead

Rabbi Abraham E. Halpern, spiritual leader for 45 years of B'nai Amoona Congregation, died in the hospital in early April. He was 71 years old.

Active in religious and civic affairs since his arrival in St. Louis in 1917, he founded the Kosher kitchens at the hospital. He was a board member of the Jewish Federation, Associated Hebrew Schools, St. Louis Children's Home, the Urban League, and Va'ad Ho'eir.

The Kosher kitchens — one for milk, another for meat — prepare about 85 meals daily in separate facilities within the hospital's main kitchen.

"We will miss Rabbi Halpern dearly," said Mrs. Dora Wolff, a cook in the kitchens, speaking for all kitchen employees. Rabbi Halpern frequently visited the kitchens, making sure the special food was prepared properly, checking the utensils, and inspecting other details of the strictly-run facilities.

Ground floor attention getter: the new stainless steel display case. Viewing a pictorial review of audiology section activities are Mrs. Joyce Sebastian, left, and Mrs. Judith Rebmann of the executive offices.
