VOL. XXI, NO. 7

BARNES MEDICAL CENTER, ST. LOUIS, MO.

JULY, 1967

A Rose for a Patient . . .

AFTER EYE SURGERY this spring at McMillan Hospital, Jim Kurtz, 11, watches the nurses and doctors from his hospital bed on the fifth floor. He had surgery on a detached retina and a cataract operation, and now sees his doctor every two weeks at the Eye Clinic. Attending summer school, Jim is making up the classes he lost last spring. The mother of one of his roommates in McMillan gave a rose to Jim and each of the other children in his room to decorate his medical chart.

2 Appointed to Administration

Two new appointments to the administrative staff of Barnes Hospital went into effect on June 1. Rob-

Nelson

ert J. Nelson, former admitting co-ordinator at Barnes, has been named assistant director. Thomas C.

Winston tor. Thomas C. Winston of Memphis, Tenn., has been named administrative assistant to Robert E. Frank, director.

Mr. Nelson, who holds a bachelor of arts degree from Washington University, received his master's degree in hospital administration last month from Washington Uni-

versity School of Medicine. During the past year he served as administrative resident at Barnes, completing work on his graduate degree. At his new post, Mr. Nelson will be working with Donald Horsh, associate director. He was the hospital's admitting co-ordinator from 1962-66, and before that time was assistant field director for the American Red Cross.

Mr. Winston, who holds a bachelor of arts degree from Memphis State University, received his master's degree in hospital administration last month from Washington University School of Medicine. During the past year he served as administrative resident at Birmingham Baptist Hospitals, Birmingham, Ala., completing work on his graduate degree.

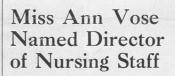

Tower Ruled Property Tax-Exempt

Queeny Tower was ruled exempt from property taxes by the Missouri State Tax Commission in a decision handed down early in June. This is a reversal of the earlier ruling by the Board of Equalization of the City of St. Louis, which had held that the Tower was not eligible for exemption.

Assessment

Last year, Assessor Joseph C. Sansone assessed the Tower at \$1,079,500, saying he considered the building a commercial operation and not eligible for tax exemption as a welfare or charitable institution.

The State Tax Commission, stated, in reversing the city's decision, "All presumptions are

Miss Ann B. Vose, former associate director of Nursing Service, has been appointed director of nursing, effective July

1. She succeeds Mrs. Josephine Hackett who will remain on staff part-time as nursing research consultant.

At Barnes Hospital since 1951, Miss Vose has held the post of associate director of nursing for the past two years.

She received her bachelor of science degree in nursing in 1951 from Washington University, and her master of science degree in nursing service administration in 1964 from Western Reserve University, Cleveland

QUEENY TOWER was ruled an integral part of Barnes medical center by the Missouri State Tax Commission.

in favor of the correctness of the valuations and assessments of the officials whose duty it is to make them; and their good faith and the validity of their acts presumed; however, such presumption of validity is rebuttable . . . the assessment herein, by the Assessor of the City of St. Louis, is arbitrary, capricious and discriminatory."

The assessment was based on the fact that the Tower includes dining facilities, coffee shop, lounge, pool and solarium, and offices for doctors on the faculty of Washington University School of Medicine. Regarding this, the State Tax Commission said, "the incidental use does not interrupt the exclusive use of the real estate for charitable purposes, but furthers and expedites and dovetails into, or rounds out their purposes, the real estate in question, by the use made of it as aforesaid, remains exempt from taxation."

Charitable Uses

"A charitable institution may utilize its real estate in a number of ways," the opinion continued, "So long as such uses are purely charitable or remain incidentally and secondary to a purely charitable use. In Missouri the operation of a hospital for the care of sick and infirm is a purely charitable purpose and real and personal property utilized in connection with the operation of such hospitals is exempt from taxation.

"The petitioner (Barnes Hospital) has not lost its charitable exemption by renting space in its Queeny Tower to its staff physicians," the Tax Commission stated. In commenting on this, the conclusions said, "A hospital may own and maintain residential property for several of its staff doctors, pharmacists, laboratory technicians and personnel who are necessary to the efficient operation of the hospital, and such properties 'used exclusively' by the hospital for charitable purposes are exempt from taxation."

Testimony Given

Many persons on the medical and administrative staffs of Barnes Hospital and Washington U. School of Medicine took part in the hearings on the tax dispute. They testified that the services in Queeny Tower, which contains four floors of acute care rooms, and five floors of ambulatory care rooms, laboratory, x-ray and pharmacy facilities as well as the restaurant and solarium areas, were all aimed at more efficient and helpful methods of patient care, and every facility of the Tower is intimately connected with the charitable purposes of Barnes Hospital.

Also ruled exempt by the State Tax Commission was a medical building owned by St. Luke's Hospital, which had been assessed for taxation because staff physicians lease private offices on three floors.

Fang's Gang Entertains on TV

INTRODUCING FANG'S GANG to Marty Bronson on the Noon Show is the Rev. John Daly (right), Barnes Catholic chaplain. The folk singing group appeared on the television show May 23 at the KSD-TV studios.

ENTERTAINING ON THE NOON SHOW these students from the medical center give the television audience a folk song. Known as Fang's Gang, the group often practiced with the late Rev. Frank Moore, former Catholic chaplain at Barnes. Left to right, Dick Schwann; Dennis Pisani, pharmacy school; Bonnie Baxter, Barnes School of Nursing; George "Gyp" Schwann, and Curt Clark, pharmacy school.

5-Year Alcoholism Research Grant Awarded to W.U.

A five-year grant of \$1,107 .-787 for research into alcoholism has been awarded to the Washington University School of Medicine. The grant is the first issued by the National Institute of Mental Health's newly established National Center for Prevention and Control of Alcoholism.

Clinical-sociological investigation will include family studies, criminology, suicide, psychiatric illness and alcohol usage patterns. Facilities to be used include Renard Hospital in the Barnes Hospital Group. Dr. Samuel R. Guze, associate psychiatrist at Barnes, will be the principal investigator.

The 18 doctors involved in the study hope to find information on the causes of early chronic alcoholism, the most effective methods of therapy, and the effects of early hospitalization.

Deacon to Assist Two Catholic Chaplains Here

Don Johaningmeier, a deacon from Kenrick Seminary, is assisting Barnes two Catholic chaplains this summer with their work around the medical center. He will complete his studies for the priesthood next

The Rev. John Daly, Catholic chaplain, is studying at New York University for six weeks. The Rev. Thomas McMasters has been assigned to Barnes beginning June 26 during Father Daly's absence.

To Study Blindness

Washington University School of Medicine has been awarded a \$5,000 unrestricted grant for eye study by Research to Prevent Blindness, Inc.

Since 1960 the School has received \$40,000 from the organization. Under study have been treatment and diagnosis techniques for glaucoma.

Employes at Barnes Receive Promotions During Past Months

Dr. Heinbecker, Surgeon, Dies; Here 40 Years

Dr. Peter Heinbecker, associate surgeon on staff at Barnes Hospital for 40 years, died May 22 at the age of 71. He was professor emeritus of clinical surgery at Washington University School of Medicine.

He was a pioneer in the analysis of nerve fiber conduction and helped obtain the first reliable measurements of the speed of conduction in human nerves. He made contributions in the field of endocrinology, metabolism and nervous control of cardiac function.

He is survived by his wife, Mary Thomas Heinbecker, and two sons, William and Peter.

Gifts and Bequests Committee Members Are Promoted in Jobs

Two men who serve on the Gifts and Bequests Committee at Barnes Hospital recently received promotions within their respective companies.

Kempland

Donald E. Lasater, formerly vice president and head of Mercantile Trust Company's trust department, has been elected president of the com-

In addition to his service to Barnes Hospital, Mr. Lasater also serves on the boards of Boys Town of Missouri and Junior Achievement, and is a member of the gifts and bequests committee at St. Louis University.

Richard J. Kempland, trust officer at St. Louis County National Bank, has been elected vice president of the bank and head of its trust department.

Mr. Kempland, who has been with the bank since 1959, was formerly with the Mercantile Trust Company.

Boyer Is Guest Speaker

John M. Boyer, assistant director in charge of personnel, spoke on "The Spotlight's on Food, Ask Any Hospital Administrator" at an institute in food service management June 5 conducted by the Catholic Hospital Assn.

Two hundred persons from 30 states attended the two-week institute.

Hospital Administration Students Toast Don Horsh Miss Craig Takes

THE CLASS OF 1968 held a surprise party for Don Horsh (seated, right), Barnes associate director and head of the hospital administration program, in appreciation of their instructor's help during the past year. Left to right: Ted Sparling, Mr. Horsh, Gordon McCamley, Jim Claywell, administrative engineer, John Wilson and Gerald Sjobeck.

Patient Receives High School Diploma in Hospital

March 14, an 18-year-old patient on 5 Wohl received her high school diploma here in May.

her stay at Barnes might jeopardize her high school graduation this year. Fortunately Janice had completed seven semesters with a total of 18 credits. Requirements set by the state Department of Edu- 3.

Although in the hospital since Moberly, Mo., was worried that cation require 17. And so, having more than enough, Janice was awarded her diploma even though she was in St. Louis.

She returned home on June

Hand-Smocked Dresses Sewn by Patient

which is in vogue again—is a specialty of Mrs. Anita Kruep, an outpatient at Barnes Hospital.

Mrs. Kruep has had three operations at Barnes in the past year. Mrs. Richard Stout, volunteer social worker in the department of social service, encouraged Mrs. Kruep to take up needlework again. The widow had been away from it for 23 years, but when she started on a dress for Mrs. Stout's younger daughter, her nimble fingers found they had not forgotten much.

Delighted with the beautiful results of this first sewing venture, Mrs. Stout showed the woman's handiwork to many of her friends around the medical center. Soon others wanted dresses made by Mrs. Kruep.

As a child, Mrs. Kruep learned smocking and other fanciwork from the sisters in the convent of St. Philomena's Church in St. Louis.

She comes to the Wohl Clinics every Friday for blood tests.

Smocking—an old needlecraft Persons interested in hiring Mrs. the patterns and fabric. At Kruep can contact Mrs. Stout home in North St. Louis, Mrs. in the social service department Kruep can be reached by phonat Ext. 416. They should supply ing CH 1-2558.

ENJOYING A MOMENT with Mrs. Anita Kruep, outpatient at Barnes, are Susan (left) and Sally Stout. They are wearing handsmocked dresses made by Mrs. Kruep. The girls are the daughters of Mrs. Richard Stout, social worker at Barnes Hospital.

New Staff Post

Miss Nancy Craig, assistant director at Barnes, assumed a staff administrative post effective July 1.

Her responsibilities include co-ordinating the infection committee, the United Fund campaign, the disaster and fire plans safety committee, hospital parking facilities and physical plant inspections. The departments of dispatch, laundry, security, the beauty and barber shops have been transferred to Mr. Donald Horsh, associate director, and Robert Nelson, assistant director.

Teaching Hospitals Meet

Robert E. Frank, director, and John Warmbrodt, associate director, attended a meeting of the Council of University Teaching Hospitals May 22-23 at Vanderbilt University, Nashville, Tenn. Ten midwest teaching hospitals were represented at the annual meeting. Last year the group met at Barnes.

ARRIVING IN AMBULANCE at the Emergency Room entrance, a patient is carried in for treatment after suffering a heart attack.

ACTIVITY EVERYWHERE as patients await treatment, nurses bring in equipment, doctors check patients' charts, and relatives wait anxiously for news at the Emergency Room desk.

Treating the Emergency Patient

The unforeseen injury at home or at work. The sudden change in condition of a patient already hospitalized. Both of these incidents require emergency care, and Barnes Hospital is equipped to handle the unexpected.

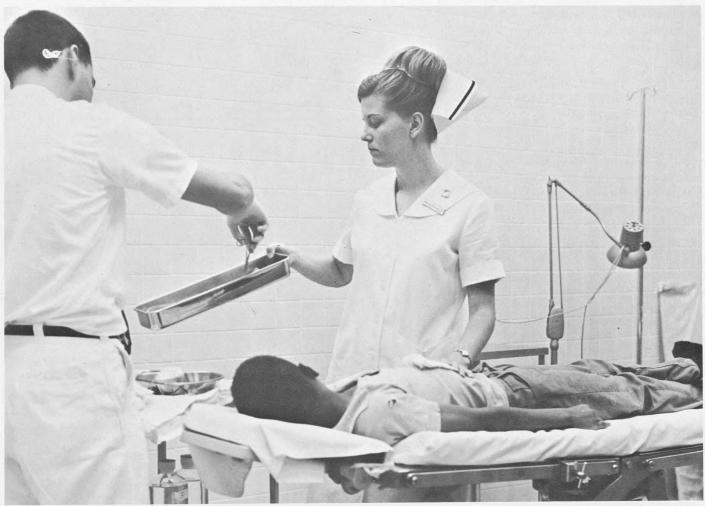

An average of 70 patients are treated daily in Barnes Emergency Room. Here they receive immediate attention from a staff of doctors and nurses experienced in treating all types of injury and illness. After initial treatment is given, it is sometimes necessary to admit the patient for surgery or other care in the hospital. But some patients require only minor treatment and are released to return home. Often these cases require follow-up care by a private doctor. Some cases are referred to one of Barnes clinics where the patient can be examined days later.

Within the hospital, it is not uncommon for a patient's condition to change suddenly. A heart attack, a coughing spell, hemorrhaging—all require quick thinking and immediate action. Teams of doctors and nurses are on hand 24 hours a day to meet the unanticipated needs of the patient.

EMERGENCY DEPARTMENTS such as inhalation therapy stand by ready to assist the doctors and nurses with breathing machines and cardiac arrest carts. Here Roland Love, chief inhalation therapist, rushes needed equipment to a patient's room.

Teams of doctors and nurses are on hand 24 hours a day Ready to meet the unforeseen needs of patients at Barnes

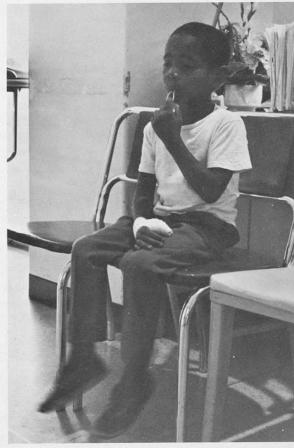

APPLYING DRESSINGS to burns on this young boy's face are Dr. Neil Steinhoff, surgery house staff, and Mrs. Mary Barylski, R.N.

WHEN A PATIENT'S condition warrants it, he is cared for in one of Barnes intensive care units. Clarence Williams received deep chest wounds in an accident on the job. Rushed to Barnes Emergency Room, he then went to surgery and from there to intensive care. Days later he rests comfortably in a semi-private room. Here he receives medication from JoAnn Mazdai, R.N., staff nurse on 2200.

GIVING DIRECTIONS to the family of a patient treated in Barnes Emergency Room is a staff nurse. The nurses assist the doctors in medically evaluating patients treated in E.R. The log book shows that more than 10,000 were seen there in the first six months of 1967.

SOOTHING HIS HURT with a sucker after his hand was treated in the Emergency Room is Carlee Jones. Carlee fell off a banister and cut his hand on glass. Here he waits while his mother pays for his treatment.

Know Your Nursing Divisions

5 NORTH McMILLAN

The north side of 5 McMillan is the clinic eye floor. There are 22 adult beds and six cribs. Two rooms are double rooms, and can be used for private patients if not in use for ward patients.

Children under two years old are sent to Children's Hospital since McMillan is not equipped to take care of infants. Most patients on the floor are over 60, and are hospitalized for cataract extractions or treatment of glaucoma. Children often are hospitalized for eye muscle surgery. Other patients have retinal detachments, lid plasty, eye injuries or other ailments.

The emergency room for eye patients is also on 5 North Mc-Millan after regular clinic hours.

The nursing staff is presently working with the social service department to plan group discussions with new patients. In doing this, the staff hopes to orient them better towards what to expect during and after eye surgery. The floor hopes to start tours of the operating room for children the night before surgery.

The staff consists of: **Head nurse**, F. Scherrer; **staff nurses**, J. Fritz, R.N.; M. Marshall, R.N. and P. Beck, R.N.; **licensed practical nurses**, D. James, LPN; L. Mitchell, LPN and P. Zimmerman, LPN; **nurse assistants**, Y. Watts, A. Wells, G. Gladden, Ida Lee and M. Lofton; **ward clerks**, A. Ratliff and L. Harris.

5 SOUTH McMILLAN

The floor has 14 large adult beds and 9 cribs on the Ear, Nose, and Throat Division. There is a cold steam room in the men's ward for use by patients with laryngectomies and tracheotomies who need further humidity after their initial stay in the Intensive Care Unit. This division is responsible for nursing coverage of the Ear, Nose, and Throat Emergency Room from 4:30 p.m. until 8:30 a.m. daily and the entire weekend until 8:30 a.m. on Monday.

The nursing staff assists in the teaching of Ear, Nose, and Throat nursing to the student practical nurse.

In the near future, the nursing staff plans to initiate group instruction sessions for patients in the following categories:

- a. Children (including a tour of the operating room the night before surgery.)
- b. Pre-operative Cancer patients.
- c. Post-operative Cancer patients.
- d. Convalescent Cancer patients.
- e. Other Ear, Nose, and Throat patients.

The in-hospital sessions will also include adequate preparation and teaching of the patients and relatives for home care with all possible agencies being made available to these patients on discharge.

Later, the staff plans to hold group sessions for:

- a. Parents of children (although this will be done to a degree on admission.)
- b. Relatives of the above pre-operative, post-operative and convalescent patients.

These sessions will be planned and implemented with the guidance and help of Mr. R. Swain and Miss J. Godfry of the social service department.

The nursing staff on 5 McMillan consists of: **Head nurse**, Miss J. Cooper; **staff nurses**, Mrs. J. Bowman, Miss J. Hucker, Mrs. A. McKean; **licensed practical nurses**, Mrs. B. King, Mrs. B. Mills, Mrs. G. Smith, Mrs. C. Williams; **nurse assistants**, Mrs. F. Davis, Mrs. D. Gladden, Mrs. B. Hill, Mrs. G. Long, Miss M. Watts; **ward clerk**, Mrs. B. Calloway.

Journal Club Held Monthly by Nurses

The administrative staff of Nursing Service holds a Journal Club once a month to discuss various aspects of nursing. The topics presented in the past months include "Legal Implications" and "Trends in Nursing."

Participants take turns presenting new topics. They read articles to document their presentations. In this way they personally keep abreast of the

Dr. Fryer to Head Assn.

Dr. Minot P. Fryer, assistant surgeon at Barnes Hospital, has been elected president of the American Assn. of Plastic Surgeons. Dr. James Barrett Brown, associate surgeon at Barnes, was presented an honorary medal at the group's annual meeting in May at Toronto.

latest nursing techniques, and can then share their findings with the rest of the staff.

Focus on Nursing

Written by Nursing Service at Barnes Hospital

Nursing Appoints 2 Staff Directors

REVIEWING Nursing Service plans for the coming months are the two nurses who will be assisting Miss Vose, Barnes new nursing director—Miss Jeanne Wright (left) and Miss Sue Hackman.

One-Day Workshop To Keep Barnes Nurses Up-to-Date

The department of staff development is conducting a daylong workshop for all staff nurses, both full-time and parttime. The program will be offered nine times, so that all staff nurses will be able to attend.

The workshop is entitled: "Change: A Threat or a Challenge." Mrs. Carolyn Weimer, instructor in the department, is co-ordinating the activities.

Miss Ann Vose, Director of Nursing Service, will deliver the keynote address, "The Future of Nursing at Barnes."

Included in the morning session will be discussion and application of the principles of creative thinking. A film, "The Real Security," will show creative thinking as an essential aspect of change.

The afternoon will be devoted to the method for writing nursing care plans. Nursing Service feels that these represent an essential part of the professional nurse's responsibility in providing quality patient care.

Welcome!

Nursing Service extends a warm welcome to Miss Joyce Brueggeman who has been named patient care consultant at Barnes Hospital. Nursing Service announces the appointments of Miss M. Jeanne Wright to Associate Director of Nursing and Miss Susan Hackman to Assistant Director of Nursing Personnel.

Miss Wright, a graduate of New Castle Hospital, New Castle, Pa., has been associated with Barnes since March 1965. For the past two years she has held the position of Assistant Director of Nursing Personnel. She received a B.S. in nursing education from Mount Mercy College, Pittsburgh, Pa., in 1956 and a M.S. degree in nursing service in 1965 from St. Louis University.

Miss Susan Hackman, a graduate of James Ward Thorne School of Nursing—Passavant Memorial Hospital, Chicago, has been associated with Barnes since April 1965. For the past two years she has been supervisor in Nursing Service. She will receive a B.S. in nursing from Washington University in August, and is planning to return to school part time in the fall to work toward a master's degree in nursing.

School of Nursing Freshman Is Recipient of Scholarship

RECEIVING A SCHOLARSHIP check from the Downtown Business and Professional Women's Club is Miss Marjorie Schepers, freshman in the Barnes Hospital School of Nursing. The check is presented by Miss Kathryn Handsbrough, director of the club, who works in the Wohl Clinics.

Washington U. Medical Alumni in St. Louis for Reunion June 1-2

TWO CLASSMATES at the Friday night banquet, Dr. Louis Aitken (left), and Capt. C. K. Higgins, U. S. Navy (retired.)

WELL REPRESENTED at their 40-year reunion were members of the Class of '27. Chatting here at the Friday night banquet are (left to right): Mrs. C. H. Leslie, Dr. C. H. Leslie and Dr. Franklin E. Walton.

MEMBERS OF THE CLASSES of 1912 and 1917 sat at the same table at the Friday night banquet. Left to right: Dr. Edwin C. Ernst, 1912 class chairman; Dr. Henry O'Donnell, '17; and Dr. Robert Mueller, 1917 class chairman.

ENJOYING DINNER at the reunion banquet are Mrs. Mya Moto and Maj. Gen. O. K. Niess, U. S. Air Force (retired).

Washington University School of Medicine attended reunion festivities June 1 and 2 at the medical center. They came from 31 states.

A scientific program was held on Friday in Clopton Auditorium. Presiding was Dr. C. Read Boles, president-elect of the association. Presentations were made by Dr. Jay Wesley Smith, Dr. Robert D. Utiger, Dr. George E. Murphy, Dr. Sidney Goldring, Dr. Charles M. Huguley, Jr., Dr. Alfred A. Gellhorn, Dr. P. Roy Vagelos, Dr. Joseph H. Ogura and Dr. Juan Taveras. An open forum to discuss trends in medical education had Dr.

More than 300 alumni of the Richard W. Hudgens as moderator with Dr. Michael M. Karl, Dr. Samuel B. Guze and Dr. Harvey Butcher as panelists.

> The classes given special recognition at the Friday night banquet held at the Chase Hotel included 1912, '17, '22, '27, '32, '37, '42, '47, '52, '57

> Dr. Melvin L. Goldman, assistant physician at Barnes, has been named president-elect of the Washington University Medical Alumni Assn. Dr. C. Read Boles, assistant pediatrician, will serve as president of the 4,000-member group during the coming year.

RECALLING FOND MEMORIES of medical school days is Dr. Mya Moto (center) to an attentive audience, Mrs. John Hobbs (left) and Mrs. Ollie Niess.

50 Years After Serving 'Over There

A 50-year reunion, of medical personnel who served together as an overseas hospital unit during World War I, was held May 19, 20 and 21 at the Gateway Hotel, St. Louis.

The unit—Base Hospital 21 -was composed primarily of doctors and nurses from the staffs of Barnes Hospital and Washington University School of Medicine. It left St. Louis on May 16, 1917.

The hospital unit had its longest period of service at Rouen, France, where it was set up on a racetrack about 40 miles from Paris. A mobile group, it saw other warfronts as well. During the 18 months that

IN FRONT OF THE COAT of arms which was brought back to St. Louis from the location of Base Hospital 21 in Rouen, France, are, left to right: Louis Garner; Dr. Charles Eyermann, assistant physician at Barnes; Earl Trickey of Cape Girardeau, Mo.; Marvin S. Hamilton, reunion chairman; Charlie Koch, cochairman, and Al Rieser. The wooden emblem is now kept at the home of Dr. and Mrs. Edwin C. Ernst.

EXAMINING A SCRAPBOOK with snapshots from their service in France are (in circle, left to right): Clinton Tobias; Dr. Oliver Lohr of Michigan; Louis Garner; Dr. Joseph Megidson, and Mrs. Gordon Kimbrel whose husband is deceased.

it administered to the ill and wounded at Rouen, more than 61,000 patients were treated.

Photos and relic displays from World War I, along with slides and movies of Rouen, were shown. Dr. William H. Danforth, vice chancellor for medical affairs, was the principal speaker at the Saturday night banquet and awards presentation. A ceremony commemorating the group's departure from Christ Church Cathedral 50 years ago was held at the cathedral on Saturday. The reunion closed with a lawn party and supper at the home of Dr. Edwin C. Ernst on Sunday.

Dr. Moore Elected Academy Fellow

Dr. Carl V. Moore, physicianin-chief at Barnes Hospital, has been elected a fellow in the American Academy of Arts and

Dr. Moore was among 91 distinguished Americans elected to fellowship this year. He is an internationally known authority on nutrition and hematology.

The only other person from Missouri elected a fellow was Charles Allen Thomas, chairman of the finance committee of Monsanto Co., a member of its board of directors and chairman of its technical committee. Mr. Thomas currently is serving as chairman of the board of trustees at Washington Univer-

HOSPITAL BULLETIN is published monthly for and about personnel and friends of Barnes Hospital and units operated by Barnes, which include Barnard Hospital and the following operated for Washington University School of Medicine: Maternity, McMillan, Renard and Wohl Hospitals and Wohl Clinics. Edited by Public Relations Office, Barnes Hospital, Barnes Hospital Plaza, St. Louis, Mo. 63110. Telephone: FO. 7-6400, Ext. 265, 439.
