Profile of a Senior Assistant Librarian for SLIS

Marci Hunsaker is the Library liaison to the students and faculty in the School of Library and Information Science (SLIS). With 1,800 students this semester, and over 100 faculty members, SLIS is one of a handful of graduate degree programs completely on line at SJSU. Marci is the only librarian whose main liaison responsibility is to an online program. Serving so many students plus faculty may seem like a daunting task to mere humans, but Marci thoroughly enjoys her work. She has created online tools such as Lib guides and tutorials, which are heavily accessed by students. She has also been able to create effective online tools for instructors. "I am able to collaborate through online classrooms and chat tools where I can meet students and answer questions about library resources."

Column Like I See Em

The view of a student reporter for the Spartan Daily

By Austin Belisle

Journalists aspire to see their names inked forever in pen on paper. For San José State students, part of that process begins with the Spartan Daily, the school's campus-wide newspaper and a stepping stone to life after college. Many like myself saw writing for the Spartan Daily as a student's worst nightmare, filled with horror stories of sleepless nights, disastrous interviews, and crushing critiques. If anything, writing for the Spartan Daily has been a blessing, an unexpected dream from which I'm not ready to wake up.

My first day in the Daily newsroom was eye-opening. The pace at which editors moved was numbing, almost intimidating. Stories were assigned, written, edited, and published. Wake up the next day and do it again. In order to be a journalist, you have to be able to adapt, and adapt I did. I

Notable Speakers

Jose Antonio Vargas receives William Randolph Hearst Award from JMC

The School of Journalism and Mass Communication awarded the William Randolph Hearst Award to Pulitzer Prize winning journalist Jose Antonio Vargas on March 10 in the Morris Dailey Auditorium. San José State was fortunate to be chosen for the first west coast university of his film "Documented." This powerful documentary demonstrated the plight of undocumented people in the United States. took multiple stories a week and strived to be the busiest writer in the building. But the Spartan Daily is more than just a collaboration between JOUR 135 and JOUR 166 students; its a chance to make an impact on campus while building relationships with faculty, staff, and some of San José's most interesting subjects.

I currently write a sports column that appears every first and third Wednesday of the month titled "Column Like I See 'Em," delving into the hottest topics in the sports world and sharing my unabashed analysis with the campus. The Daily has given me the chance to find my creative voice, to branch out and meet a variety of people, and to grow as not only a student, but prepare me for a career once I'm handed my diploma in May.
