## THE NOBLEST MOTIVE -- THE PUBLIC GOOD

With Virgil backing up the Latin proverb, "The Noblest Motive --- The Public Good," the San Jose State Spartan Daily through the suggestion of Dr. T. W. MacQuarrie, has adopted it as its slogan and ideal for the future. In our daily four-page paper, we will lay before our student readers a chronological review of the present, past and future events of the college with our ulterior motive to promote interest and prestige toward those we write about.

The Spartan Daily, it must be remembered, is a news agency directed and operated by students learning the journalism profession and just like any other student-conducted project is capable of error. Then, too, a project

## WE'LL GET USED TO IT

One of the local papers had an article the other day describing the changes in our daily life of the future, if the necessities of national defense put us a-foot and limit many of our luxuries.

The idea of anyone walking over two or three block to school, to town, or to any destination is now looked on with surprise and the querie, "Do you really walk it?"

But in the days to follow it may become part of everyone's daily routine to walk to work, school, town, etc., or at least spend a little time waiting for a bus on some corner.

But there is no reason to look forward to this with distaste. As an instructor said the

## THE ART OF LIFE SAVING

The noon hour classes of Mr. Charles Walker's Life Savers is becoming quite the thing.

Several members of the class took this course just to betaking something entirely different, myself included. Instead of the unit credit, we are also getting something that can be put to practical use. This "cinch course," as I called it at the beginning of the quarter is gradually sinking in. Those that are now taking the course will say that in time it will come in very handy. We are slowly learning the process of taking better care of the body in and out of the "aqua."

The process of better body building and protecting one's self in the "deep blue" is an art that all swimmers should learn well. It is not easy to learn to swim and protect one's self right, it takes lessons, practise and proper

such as a daily newspaper is open to the criticism of the student body, which is welcome. Of course, in journalism this is true even in the largest papers.

Our editorials which express entirely the views and opinions of the students, are aimed to promote to the best of their ability in a journalistic fashion some phase of student activity suggested by an editorial board of experienced journalism students. The higher we can raise the standard of our student body through our motto, the more we can be sure that our slogan is expedient for the Spartan Daily.

other day, "Walking on the pavement may not be as pleasant as hiking over trails but after all, its not so bad."

She went on to dispute the theory that it is a waste of time to walk, saying, "After all you don't have to stop thinking just because you are going through the mechanics of walking."

In fact some of us may discover many pleasures we have been missing through the use of modern conveniences. If we ever build up enough wind power so that we can walk a mile without deciding the day's work is over, we may see some of the interesting life about us closer up than through the windows of an automobile.

instruction. Days and even weeks are required to learn to do the thing right. Those potential "life savers" that think they know how to save a life and yet have had not had any teachings of the matter are plum crazy. There are knacks and catches of every kind and shape that are needed to be known before one should attempt to rescue a drowning victim from the water.

To some of the new and old students that thought that such a course did not exist at San Jose State now have a chance to get the first-hand information from Mr. Charlie Walker.

During times like the present emergency and the fact that these times are not going to improve for some time to come, it is advisable to take the course that is now open to the entire student body.

The art of Life Saving is a serious thing.

## PEGGY RICHTER On-Campus

It has been brought to our attention several times that young woman has as much of a right to chase a man as versa. With the present emergency, and men getting scarce every day, it seems pertinent that advice should be given this time to aid co-eds in "troppin' a husbin'."

One of the "never fails, try it often" methods is to drop a self-addressed, stamped envelope, enclosed with telephone number and 5 cents, in front of a group of soldiers. It practically be guaranteed that at least one of the men in

## MODES o' the MOMENT

By DOROTHY CHRISTENSON

The New Year seems to have gotten the seasons sadly mixed. The calendar says January; every time you turn on the radio some one assures you "tis autumn," and yet the San Carlos turf is literally alive with robins.

Under the impression that more than one robin does make it spring, the fashions show a definite trend toward pale felt hats and pastel colors in other clothes. This early accent on Easter colors fits in with the new need for economy, as these same light-colored clothes which are very smart now will still be correct indeed when one no longer needs a robin as proof that it's spring.

Almost summerish is the winter-white apparent in the woolly coats seen around campus, and the white hats, muffs and purses in the shops.

Snakes have crawled into fashions in the form of shoes, purses and belts. One species, the Rhan-godies, a Javanese native reptile, can be polished up to "shimmer like jewels," while other less colorful but equally attractive serpents also contribute to milady's foot-gear.

And at least one Spartan lad is sporting a "boa tie," a very smart snakeskin neckpiece for which a Brazilian boa constrictor was responsible.

will be curious enough to pick up; he can either use the money to phone you or come out to you on the bus. In case he doesn't, he still has the self-addressed stamped envelope.

Another "sure-fire" method is to pick out a freshman in the library. Don't scoff at the idea of a freshman—he might be around here more than a senior—maybe, Star conversation with him; ask him questions. A tested method of opening the conversation is to begin with, "You look like an intelligent fellow, could you please tell me the time." The "intelligent" will tell him, and put you in a good light. The rest is up to you.

A slightly more obvious method, but nevertheless good, is to walk by a corridor and wait until a student walks by. But don't wait for him to walk by, stumble in front of him and drop all your books, before he gets a chance to pass. Flap your eyelashes and look helpless. This is supposed to get 'em ... help ... feminine.

Of course, there is the tried and tried method of placing a classified ad in a paper reading something like this: "Young woman with four white-walled tires would like to meet man."

The above methods do not necessarily represent the viewpoint of this writer and do not claim to represent the writer's opinion or express her policy. The methods were gathered by a group of college experts who made a poll of questions answered by charming man-trappers.

Geology Club: Meeting today at 12:30 in room S228.—Val Reese.

## San Jose Track Team In National Competition For First Time; Enter Ten Tournaments, Five Dual Meets

The 1942 track schedule which puts San Jose State in national competition for the first time was released by the athletic department yesterday.

The track squad will get its share of traveling as 10 of the 14 meets listed will be held away. These include the Drake Relays in Des Moines, Iowa, the National A. A. U. meet, which will be held this year in Dallas, Texas, and several trips to the southern part of California.

### TRACK SCHEDULE

- Mar. 6—Interclass.  
13—Indoor-PAA, San Francisco.  
21—Long Beach Relays.  
28—S.F. State (tentative), here.  
April 8—Stanford university, there.  
11—Santa Barbara State, here.  
18—San Diego State, there.  
25—Drake Relays, Des Moines.  
May 2—Fresno State, here.  
9—Conference meet (CCAA)  
San Diego.

- 16—Fresno Relays.  
23—Los Angeles Relays.  
30—Open.  
June 5—Compton Invitationals.  
NCAA.  
July 4—AAU, Dallas, Texas.

## Wrestling Sked Still Indefinite; Nightly Practice

With the schedule still indefinite due to the dropping out of club team members, the 1942 edition of the varsity wrestling team continues to work out nightly in the little gym in preparation for its opening matches, which are not too far off, states Coach Sam Della Maggiore.

Because of the war, the club teams which had originally been scheduled withdrew in most cases due to lack of material, and this leaves only the college teams on the coast active.

Matches with Nevada university, University of California at Los Angeles, and others are now being arranged, states Della Maggiore. Also they are still planning to make the trip to the national tourney in Lansing, Mich., and will enter the 2C2A tourney to be staged at Fresno.

with the new 2C2A ruling allowing the yearlings to compete with the varsity, San Jose probably will field a much stronger team than last year, according to Blesh.

### CLARK TOPS

Among the freshman counted on to bear the weight of the team are Lloyd "Dink" Clark of the local high school, who has participated in many of the Bay Area tournaments and led his team last year.

## Sheets, Minini Macia Look Good In Novice Wins

(Continued from Page 1)  
rounds to gain the nod. Macia will meet Woody Gibson, Gamma Phi winner, tonight in the 165-pound final.

### DAHL WINS

In the heavyweight class, John Dahl of P. E. garnered the third win for his team from Walt Toupin of APO. Toupin looked good in the first round, but Dahl seemed in better condition and took the second and third goes to get the decision.

Frank Minini will be Dahl's opponent tonight in the heavyweight final by virtue of his hard-earned win over tough Walt Meyers of Eckert in the last bout of the program. Both were in good shape and Meyers was more than willing to mix it with his heavier opponent, but Minini outpointed him to win for Spartan Hall.

The P. E. Majors received 3 points each for their semi-final wins, making a total of 9 points. Spartan Hall had two semi-final winners and one quarter-final winner for 7 points, as did Gamma Phi Sigma for the same amount.

Eckert Hall had one semi-final winner for 3 points and the Alpha Pi Omega team did not score.

Another who has taken part in many junior tournaments in the Bay Area is Don McKenzie of San Francisco. Both of these boys will fill in with Edwards and Morton.

### J. C. TRANSFER

Others include Greg Sargent of Palo Alto, who will be out after the close of the basketball season; John Nicholson of Santa Cruz, and Harold Faulk.

Another player who may be here next quarter is Bill Ashton, transfer from Modesto junior college. Ashton is also from Santa Cruz and will bolster the team greatly.

## FROSH MERMEN OPEN 1942 SEASON TODAY AT 4:15 IN LOCAL POOL AGAINST SAN JOSE HIGH SQUAD

Coach Charley Walker's freshman swimming team will enter its first competition this afternoon at 4:15 in the local pool when it battles the San Jose high Bulldog swimmers from across the campus.

This year's yearling squad will be attempting to uphold the record of the 1941 edition of seven wins and no losses. Until last year no freshman team had gone undefeated.

## SPARTAN CAGERS CONCENTRATE ON CHARITY TOSSES

In an attempt to get his team to improve its free-throwing record, Coach Walt McPherson has ordered all members of the basketball squad to practice 25 free throws after every workout. A record of the number of shots taken and the amount made is kept on a chart.

Out of 103 charity tosses the Golden Raiders have only connected with 54, or just a little more than 50 per cent. With such tough foes as Humboldt, COP, St. Mary's, and USF, not to mention the CCAA conference opponents, the Spartans are going to need every point they can possibly get.

### HUMBOLDT NEXT

At the present time McPherson is concentrating on the Humboldt series starting tomorrow night up at Arcata.

### LEAVE TOMORROW

The Spartans will leave for the north early tomorrow morning. Walt will take 11 men in his squad.

Not much is known of the strength of the Bulldog mermen, but Coach Sam Della Maggiore, high school mentor, has high hopes this year. The team was hit hard by graduation last year and will have to rely on newcomers and reserves from last year which are fairly strong.

This year, however, Coach Walker will have a stronger diver to face the Bulldog threat in Cecil Dombalian, from Sequoia high in Redwood City, who is now probably the strongest diver in the school. Fred Hadley will back up Dombalian and is expected to garner points.

### FORMER BULLDOGS

Two ex-Bulldogs will be facing their former teammates when the two teams clash this afternoon. Karl Hazeltine, who took second in the sprint last year, will enter the 100-yard sprint and also the 220. Another ex-Bulldog who will see action in both the 50 and 100 yard sprint is Jim Davis.

- 50—Davis and Jackson.
- 100—Hazeltine and Davis.
- 220—Kiefer and Hazeltine.
- Backstroke—Coates and Kendall.
- Breaststroke—Sheridan and Heppler.
- Diving—Dombalian and Hadley.

## Freshmen Hoopsters Face Hollister Junior College Tomorrow Night

Coach Frank Carroll will send his freshman cagers into action against the Hollister junior college five tomorrow night at 7:30 in quest of victory No. 5.

The frosh were hard hit at the beginning of the quarter when most of Carroll's first string failed to return to school. In fact, the loss was so great that Carroll wasn't even sure if he would be able to have a yearling squad.

### HOLD OWN

However, after long practice sessions and numerous changes of positions, he was able to floor a team that has held its own against all competition.

In seven contests, the yearlings

have come out on top in four games and dropped three. Two of their defeats were at the hands of Menlo junior college, one of them by just one point in a hectic game.

### COMEBACK GOOD

Their most notable win was the 48 to 36 shellacking they handed Salinas junior college. The Salinas outfit holds wins over such strong teams as Santa Rosa junior college, which reached the finals in the Modesto cancellation tournament, and Menlo junior college.

Their offense has manufactured 294 points for an average of 42 points, while they have held their opponents to 242 points for a 35-point average.

### NEWS BRIEFS

#### EXTRAVAGANZA GETS UNDER WAY

Extravaganza practice is progressing by leaps and splashes, according to Iris Bakeman, publicity chairman of the San Jose State Women's Swimming club.

Newcomers are endeavoring to increase their endurance, while old-timers are devoting their efforts to swimming in rhythm.

Meetings are held at the pool each Monday night at 7. All women students interested in participating in the Extravaganza are asked to come out for practice.

"Attendance has been good so far," Miss Bakeman declared, "despite competing basketball games. We'd like to see all swimmers present at the next meeting Monday night."

#### Newman Welcome Dance Tonight

The Newman club will hold its quarterly Welcome Dance tonight at 8 in Newman Hall at 79 South Fifth street.

All Catholic students are invited to attend.

Evening's entertainment will be dancing "off the record," pool, ping-pong and bowling.

#### LT. COMMANDER TO SPEAK HERE

Epsilon Pi Tau, Industrial Arts fraternity, will have as guest speaker at their next meeting Lieutenant Commander E. R. Booker from the Bethlehem shipyards in San Francisco.

Commander Booker will speak on "Adapting Our Industrial Shop Facilities in Our Schools to a Wartime Training Purpose." He is a mathematics major and is in charge of organizing courses in such trades as machine shop, welding, mechanical drawing, copper smithing and sheet metal work.

All members of the Industrial Arts department and their friends are invited to attend this meeting, which will be held on the evening of February 2 in the Student Union at 7:30.

#### NYA SUPERVISORS TO MEET TODAY

Meetings of campus NYA supervisors will be held Thursday afternoon at 4 and Friday at 2 p.m. to discuss needs and problems of the organization. Less money has been allotted the NYA this quarter than during previous quarters, and therefore help will be available to a smaller group of students, Dean of Men Paul M. Pitman declared yesterday.

### Phi Mu Alpha Delegation From San Jose Plans Fresno Chapter

Supreme Vice-President Adolf Otterstein of the Phi Mu Alpha, National Music fraternity, and ten members from the local Beta Eta chapter, will travel to Fresno State college Sunday to install a new chapter in the national fraternity.

Gamma Pi, the new Fresno State college chapter, will be the 74th in the United States. In complying with the national

regulation, Gamma Pi has been organized for the period of one year in order to show itself an efficient and stabilized club, and has held a membership of 20 students which is headed by Mr. Verner Delaney, Fresno State college faculty member.

The proceedings will include an installation ceremony in the afternoon followed by a banquet. Thomas Eagan, symphonic band director, and Phi Mu Alpha Governor of the Western Provinces, will also be present to officiate.

Former San Jose State college alumni and members of the Phi Mu Alpha recently added to the collection of musical references and scores by donating six volumes of chamber music scores which, according to Adolf Otterstein, are "very complete and beautifully bound."

These books include the works of Beethoven, Brahms, Haydn, Schumann, Schubert, Mozart and a group of concerto grossi. "These books will be placed in the Arts room of the new library," stated Otterstein, "and they will be available to any student. Most of the scores have records to accompany them, and these may be followed in the listening room."

#### STUDENT CENTER DANCE POSTPONED

The "off the record" dance scheduled for tomorrow evening at the Student Center will not be held because of the student body dance which is scheduled for the same date, announced Mary Ellen Emig and Ed Brubaker, chairmen of the dance, yesterday.

"A dance will be held the following Friday at the Student Center, however," they declared.

The Recreation committee will meet this noon in the Student Center for a business meeting, announced Jean Thoit, YWCA secretary.

#### Red Cross Unit Knits Sweaters For Army Men

New assignment for the campus unit of the Red Cross will be knitting sweaters for the men in the United States Army and Navy.

Before this assignment can be started, all articles not yet in from the previous assignment must be returned. Most of the yarn and articles have come in very satisfactorily, according to Miss Pauline Lynch.

Besides Mrs. Hartley Jackson, who is in charge of the knitting instruction, other persons donating their time are Miss Helen Dimmick, Dean of Women; Miss Susan Byrne of the Art department; Miss Bernice Tompkins of the Social Science department; Miss Estella Hoisholt of the Art department; Mrs. T. W. MacQuarrie, wife of President MacQuarrie, and Miss Dora Smith of the library staff.

Hours when those named will instruct are posted in the Red Cross room in the Home Economics building.

Student Union Hostesses: Additional girls are needed to act as hostesses. All girls interested please meet in the Student Union Thursday at 12:30. — Carol McDaniel.

Delta Sigma Gamma: Important meeting tonight at 7:30 at the fraternity house. Please attend. — Ken Wilkens.

La Torre assumes no responsibility for using any person's picture in the 1942 yearbook if: 1. Your photograph was taken after Wednesday, January 21; 2. Proofs not returned; 3. Bills unpaid; 4. Uniformity of dress is not carried out.—Ken Stephens.

### Eight Ex-Staters In Naval Reserve Air Corps

#### Two Commissioned As Ensigns Today

Ralph D. Poling, who attended San Jose State college for three years and California university for one year, received his commission in the United States Naval reserve as an ensign last week.

Poling, a member of the boxing team, received his primary training at Oakland and completed his training at Corpus Christi, Texas. While there he specialized in flying the navy's large patrol bombers.

#### TWO COMMISSIONED

Today two former Spartans receive their ensign commissions in the Naval reserve from the Corpus Christi Air station.

Walter Fisher, who attended San Jose for four years and went on to the University of California, was a member of the swimming team and was president of Alpha Pi Omega, on-campus social fraternity. While at Corpus Christi, Fisher specialized in the handling of dive bombers.

William Mathson Jr., who also will receive his commission today, specialized in flying the fast carrier planes and will be assigned to one of the Navy's aircraft carriers. Mathson took CAA primary flight training while at San Jose.

#### FOUR GRADUATES

Both of the above received their primary training at the Oakland Elimination base.

Four former San Jose students were recently graduated to advanced flight training at Corpus Christi after completing the preliminary flight training at Oakland.

Stan Murdock, council member last year, who graduated in June with an A. B. in Economics, will be commissioned at the end of his advanced training at the Texas Air station. Murdock was a member of Gamma Phi Sigma and the Spartan Knights.

#### ENSIGNS NAMED

Others who will also receive their commissions as ensigns in the Naval reserve are Ross Miles, member of Alpha Pi Omega; August Avila, member of Chi Pi Sigma, honorary police fraternity, and member of the soccer and wrestling teams; and Jack Baldwin, member of Delta Theta Omega and Spartan Knights.

Last week, Bob Smith, past president of Delta Theta Omega and major in commerce, received his appointment to the Oakland Elimination base where, if successful, he will be sent to Corpus Christi for his advanced training and commissioning.

Badminton Club: All badminton players who would like to continue playing this quarter, please come out and play tonight at 7 in the Women's gym. — Bobby Rutherford.

## PAN-AMERICAN LEAGUE CHAPTER MEETS, WILL SPONSOR CONTESTS TO AID AMERICAN SOLIDARITY

By JOHN HOWE

The newly organized San Jose State chapter of the Pan American League decided to sponsor, along with the Varian Forensic squad, the National Extempore-Discussion contest here at San Jose State and an essay contest, both of which are designed to create a stronger interest in Inter-American affairs at a recent meeting.

### Four Pledged To Alpha Eta Sigma

Jim Sarris, Al Tamborini, John Denhart and Charles Cowen were pledged to Alpha Eta Sigma, accounting fraternity, at a smoker held last Tuesday evening.

Qualifications for eligibility to membership include a B average in commerce with high grades in accounting courses.

Arthur Kelley, commerce instructor and author of several accounting textbooks, is the adviser; Walter Schmidt is the fraternity's president.

### Three Students Qualify For Army Cadet Training

Army Aviation Cadet Examining board, now at San Jose State college examining men who wish to enter this branch of the service, announces that students John M. Jackson, Robert C. Lyon, and MacPherson A. Lester have qualified and will leave for the Chandler, Arizona, training center.

More than 100 men have been interviewed by the board and 46 are in the process of examination. The board will continue to examine men in room 21 through Monday.

It is necessary that any man applying to take examinations have a birth certificate and three letters of recommendation, according to Lieutenant Lee of the examining board.

### Rehearsals For Revelries Tonight

(Continued from page 1) university student, will play the part of "Beef," a typical misunderstood college football player. Margaret Smitherum, from Campbell, is cast as a shy, retiring person in the show.

Pauline Perry will play a typical "Joe College" role, and Betty Stillman plays the haughty, blue-nosed sorority girl, according to Izzy Gold, rehearsal assistant.

A 20-piece band conducted by Clyde Appleby, musical director, and featuring six strings, will play for "Good News."

The National Extempore-Discussion contest is sponsored by Nathan A. Rockefeller, whose aim is to promote friendly Latin-American feeling. All contestants will be paid and the eight top winners will get free tours to South America.

The essay contest is for members of the league only, and topics include any military, economic or cultural aspect of hemispheric solidarity.

The recently elected officers presiding at their first regular scheduled meeting, were Jack Backus, president; Sam Zander, vice-president; Wilbur Scott, treasurer; Dorothy Rice, secretary; Evenel Speck, corresponding secretary. The latter office was instituted to correspond with students in the southern hemisphere, who usually means that letters must be written in Spanish.

The local chapter, organized last November, has been recognized by the college as an official organization. A charter has also been granted the organization by the national headquarters of the Pan American League.

The San Jose Chapter is one of 173 such organizations scattered throughout the United States in Mexico and is the first to be organized in Northern California.

The subject for discussion, chosen by the club, for the year concerns "The Economic and Trade Relations of the Americas."

Faculty adviser for the club Mrs. Mildred Winters of the Social Science department.

### QUALIFIED MEN NEEDED FOR AIR CORPS NAVIGATION

Young men with elementary knowledge of physical science are needed as navigators in the Air Corps, declares Dean of Men Paul M. Pitman.

Requirements for applicants include the 25-week training course that they be accredited high school graduates between 20 and 27 years of age, and that they complete army general classification tests, simple mechanical comprehension test, and an elementary physics test.

Application blanks are obtainable at the nearest army recruiting office.
