

DR. VICTOR HUNT TO DEAL WITH ECONOMICS IN WAR TALK TODAY

Economic factors in the background of World War II will be the topic of Dr. Victor Hunt in his talk before the War Aims class in room 24 today.

Dr. Hunt's lecture, the second in a series of 18 to be given during the present quarter, will deal specifically with the economic factors which led directly to the outbreak of the present conflict.

The schedule of lectures has been so arranged as to present the war in three phases — background for World War II, America at war, and war aims and the post-war world.

The first three talks in section one are provided to set the stage for the following discussions which deal primarily with the situation as it now stands and as it will stand following the war.

For schedule see page 4.

Rally Committee Meets This Noon, Says Hugh Manley

Newly appointed Rally Committee Chairman Hugh Manley announces that all those students who attended the rally committee meeting Tuesday are to meet in the Student Union at 12:30 today.

All 42 members who attended the last meeting will become members of the rally committee. Today's meeting is called to explain the purposes and duties of the committee and to make out a set of rules and orders to add to the Constitution for future rally committees.

Student Councilman Izzy Gold will help set up the by-laws. "This year the rally committee is going to make an all-out effort in not only providing pre-game football rallies, but we are going to have more entertainment for the Student Body," explains Manley.

A council will be chosen from the 42 members to direct the activities for the quarter.

JUKE BOX DANCE AT NEWMAN CLUB TOMORROW NIGHT

Inviting all Catholic students to attend a welcome dance tomorrow night, members of the Newman Club will hold open house this afternoon and Friday from 1 to 5.

Dancing will be "off the record" from 8 to 12 p.m. at the clubhouse, 779 South Fifth street. Pool, ping-pong, and bowling facilities will also be available.

Refreshments in the form of cookies and punch will be served and club members will be on hand to greet students.

"The affair climaxes a week of activities to introduce the club and its members to incoming students, and all Catholics are invited to attend," says Barbara Healey, secretary.

Second Service Dance Tonight

Tonight will bring the second in the series of dances for the service men in the Student Union building. These dances, under the direction of Mrs. Sarah Wilson, will be held every Thursday night throughout the fall and winter.

Mrs. Wilson announced that all girls must sign with the secretary in the Women's gym before 4:00 p.m. today in order to attend the dance, which will last from 7:30 till 10:00 p.m.

VOL. XXXI

SAN JOSE, CALIFORNIA, THURSDAY, OCTOBER 8, 1942

Number 6

Two KSJS Members Employees Of KQW, Secretary Says

"Present and potential members of KSJS are the Jack Bennys and Bob Hopes of the future."

Alice Modry, secretary of KSJS, made this statement after revealing that two KSJS members are now employees of KQW. They are Jack Hume and Jack Wagner. She said that she was also basing this statement on the splendid praise that the radio speaking society had received on their last year's program.

"Students interested in radio speaking, acting, or writing are urged to try out today at 3:30 p.m. in room 155," stated Miss Modry. Those wishing to write may submit scripts to Mrs. Florence Bryant of the English department, or to Dr. Dorothy Kaucher of the Speech department.

Material for tryouts should preferably be characterization of a sort which will show off the acting ability of the contestant as well as the quality of his voice. A dialogue reading will be supplied by the club for sightreading, Miss Modry declared.

Plans are now under way for the club's new program. It will be a weekly production presenting both student and professionally-written plays of mystery, satire, and the soap-box variety.

Miss Modry asks that all regular members of the club meet in room 157 at 3:00 p.m. for a meeting followed by the audition of candidates.

Dancers Dwindle, Orchestras Reports

S. J. S. college Orchestras Club's members have sadly dwindled since last quarter, Miss Lucas, head of the modern dance group, admitted. Graduation, marriage, and war work have all taken claim of the personnel of this organization, and only three old members showed up at the first rehearsal last Tuesday.

Three new members joined the Junior Orchestras Club and they will dance with the regulars at programs.

Myrtle Peters, newly elected president of the club, announced that next Tuesday each enrollee will bring a guest to participate or watch. Soon there will be a series of guest nights open to all those who are interested in modern dance. They will consist of regular rehearsals, so the spectators can get a better insight into the intricacies of this form of ballet.

Co-op Election

New officers for the fall quarter were elected Tuesday night at a meeting of the members of Eckert Hall, men's co-operative house.

Herb Moore will take over the presidential duties. Moore is a sophomore merchandising major from Ceres, California.

The position of secretary was given to Clifford Moody, a junior from Oakland.

Jack Shatz, a sophomore music major from Alviso, was elected to the office of sergeant-at-arms.

Other business included a discussion of the Hall's quarterly party.

ASSEMBLY THEME IS "GIVE TO WAR CHEST, BACK SERVICE MEN"

"We can look at the stars on the new service flag and say we are doing something vital for the men and women they represent when we contribute to the War Chest."

City Superintendent of Schools Walter L. Bachrodt told students and faculty members this yesterday morning at the War Chest assembly during which the mammoth flag was dedicated by Dr. T. W. MacQuarrie.

Kirtley, Kidwell, Pagenhart Given Leads In Comedy

Students assigned leading parts in the first stage production of the school year were named yesterday by Ted Hatlen, director of "The Male Animal."

Tom Pagenhart will play Tommy Turner, mid-western college instructor, around whom the play centers. Mary Kirtley was assigned the part of Ellen, Tommy's wife, and Bill Kidwell drew the part of Joe Ferguson, alumnus who makes week-end love to Ellen.

HEALY AS PROF.

Dr. Damon, elderly professor and intimate of Tommy, will be portrayed by Deane Healey and Marilee Putnam was assigned the part of Blanche, Dr. Damon's wife.

Wendell Johnson, speech instructor in charge of sets for "The Male Animal," today invited any student interested in work on the stage crew, lighting, sets or other technical crews to contact him in room 165 or to leave his name at the Speech office.

The part of Patricia Stanley, Ellen's sister, was assigned to Irene Anderson, and Pat Alexander will portray Myrtle Keller, wife of an alumnus. To participate in the play, but still with unassigned parts, are: Rosmary Bonnot, Delwyn Carlson, Leon Fletcher, Alvin Johnson, Gene Dutra and Ed Kincaid.

PLANNING SETS

Rehearsals will enter full swing today, following completion of casting, Hatlen said, while Wendell Johnson, speech faculty member, is already planning sets.

Tickets for the play, to be presented four nights, October 28-31, in the Little Theater, will be placed on sale in the Speech office next week.

Nominations Close Tomorrow

More interest began to be felt in next week's class elections as five more petitions were turned in yesterday bringing the total up to eight. All petitions must be turned in by 4 o'clock tomorrow.

As yet no petitions have been turned in for the office of class representative to the Student Council. The constitution provides for three—sophomore, junior and senior.

Petitions turned in yesterday were for Charles Brown, senior class president; Elyse Bartenstien, senior class secretary-treasurer; Doug Aitken, junior class president; Tom Kerr, junior class vice-president; and Bert Holland, sophomore president.

When Dean of Men Paul Pitman checked the contributions from the War Chest assembly, he found a tiny envelope containing ten dollars. It read, "From the Japanese Students Club (in exile)."

Superintendent Bachrodt described the uses of contributions to the Chest, and he brought the work of the Chest down to a local angle when he mentioned that some money will be used to finance and enlarge a nursery which takes care of children whose mothers are in war work.

In concluding, Mr. Bachrodt said, "The War Chest is not for purely local problems, but for problems of national and global scope."

Following Superintendent Bachrodt's address, envelopes for contributions were passed out to students and faculty members present.

Thomas Eagan led the college band in several selections while envelopes were being distributed.

Dean Pitman gave a short speech as further encouragement for Chest contributions.

Student Body President Tom Taylor presided at the meeting and Chest Drive Chairman Don De Voss made a short talk.

RED CROSS UNIT HELPING ARMY

Now being made by the knitting branch of the college Red Cross unit are 36 articles of apparel for Uncle Sam's soldiers and sailors.

These include 9 turtle-neck sweaters and 6 scarves for the Navy, and 10 V-neck sweaters, 8 mufflers and 3 helmets for the Army.

There is still enough yarn, donated by the Red Cross, to make the remaining 38 articles pledged by the college unit.

Students are also asked to make 6-inch squares for afghans, the yarn for which they must donate themselves.

General chairman of the faculty executive board of the college unit is Mrs. Mildred Winters, while Dean of Women Helen Dimmick is the knitting chairman. Last year's general chairman was Miss Pauline Lynch of the Home Economics department, and Mrs. Hartley Jackson, wife of the printing instructor, was knitting chairman.

War Chest Drive Gets Good Start, Says De Voss

By BOYD HAIGHT

One-third of the \$2500 War Chest contribution goal was pledged yesterday, the opening day of the drive, announces Don De Voss, chairman of the on-campus War Chest effort.

Total pledges amounted to \$856 with \$479 received in actual cash. Contributions averaged better than \$1 to an envelope as only 431 envelopes were turned in for the \$479 collected. Better than two-thirds of the student body has yet to contribute to the drive.

De Voss asks students to turn in the War Chest envelopes they have received regardless of whether or not they wish to make a contribution at the time. Envelopes should be left at the desk in the front of the Morris Dailey auditorium and they should be signed and marked with a definite pledged amount. De Voss states that an opportunity will be given students to make the contributions for their pledged amount later.

Money collected from all sources in Santa Clara county for the War Chest has been portioned out to 17 different agencies or organizations which will directly or indirectly aid men and women in the armed services.

For instance, U. S. soldiers and sailors, marines and coast guardsmen, doctors and nurses who have been captured by the enemy and who are now imprisoned in concentration and prison camps receive no organized aid from the United States other than that provided by the War Prisoners' aid.

Efforts of the War Prisoners' aid are made possible by contributions to the War Chest. A definite sum has been set aside in the Santa Clara county chest drive goal of \$250,000 for the explicit use of aiding prisoners in enemy countries.

Other appropriations have been countries' aid—Great Britain, Free set aside for all the embattled France, Greece, Poland, Russia and China.

The administrative and collection costs for the entire 1942-43 War Chest drive have been estimated at less than 6½ per cent of the total War Chest goal.

APO PROMISES RURAL FUN AT HAYLOFT HOP

Jeans — gingham — hay—cider —corn-cob pipes—straw hats —an' all the fixin's are what Doug Curry, chairman, promises all who attend Alpha Pi Omega fraternity's 7th Annual Hayloft Hop.

The Swiss-American barn on the Almaden road just outside the city limits has been chosen for the site of the dance because of its exclusiveness and closeness. "It is conveniently located to save rubber, gasoline, and all other vital commodities," stated Curry.

Bids will soon be on sale in the Controller's office, or they may be obtained from any member of APO. The dance comes on the same weekend as the USF game and "it is a swell opportunity to make a real weekend out of it," said Curry. The date of the dance is October 24 from 9 to 1 p.m.

"Regardless of price raises and the present high cost of living," the chairman said, "APO will hold its price at \$1.10 per couple."

Did You Know:

That American royalties from the sale of Hitler's MEIN KAMPF have been seized by the Alien Property Custodian? They netted about \$30,000, all of which has been turned into war material to be used against the Axis.

That the United States government spends \$1790 a second for the war?

That New England is the only region in the United States that uses more fuel oil than gasoline?

That an average tire contains as much rubber as 55 goggles for the Army Air Corps?

That 6,000 Boy Scouts recently were admitted to a Brooklyn Dodgers ball game in return for six tons of scrap?

That girl skaters in a Broadway musical comedy recently turned in their old blades to the scrap metal drive; each pair provided enough metal to make a hand grenade?

Light And Heat Demonstrated By Lester Brubaker

By BOB POPE

Several demonstrations on heat and ultra-violet radiation have been set upon exhibit in the Science building by Mr. Lester Brubaker of the science faculty.

Although ultra-violet is invisible to the eye, the demonstration shows that certain materials absorb the light of low wave-lengths and give off the light at a higher wave-length, thus being plainly visible. To demonstrate that the phosphorescent materials in the exhibit absorb and re-emit light, Mr. Brubaker turned off the ultra-violet lamp, and the materials glowed as the light waves were being emitted.

MINERALS DETECTED

One practical purpose of the light is to determine certain minerals in rock. While the rock does not glow, the minerals contained in the rock emit visible light rays, thus denoting its presence.

The fluorescent lamp uses ultra-violet light. As electricity is applied to mercury vapor inside the tube, an ultra-violet light is given off. When the light is absorbed by a fluorescent material coated on the inside of the tube, visible light waves are given off.

HEAT EXHIBIT

The other exhibit is on heat. First, there are three radiometers. These are tubes which contain a rotating mechanism of four vanes in an enclosure from which most of the air has been removed. Each vane is coated on one side with a black substance. The other side is shiny. As heat is generated by a nearby carbon lamp, the black side of the vane absorbs the energy more readily than the shiny side and is "pushed" ahead by the resultant molecular motion.

There are other examples in the heat exhibit, all as complicated as the last one mentioned, but each demonstrating other phenomena associated with heat.

Anyway, these exhibits are interesting sights in the Science building.

Help In War Relief

-- Give A Dollar --

A Worthy Cause

During the current school year, and until the emergency is over, we are, and will be asked to make numerous contributions to numerous societies.

Yesterday the first assembly of the year was held and we were all asked to give generously to the War Chest Drive.

Millions of our allies are fleeing before the fire and steel of our common enemies. In China alone there are some 50,000,000 oppressed peoples—refugees in their own land. Help these, each of us has been asked to contribute a little.

Because Nazi oppression has made the faces of 2,500,000 Greek children show the ravages of slow death by starvation, we have been asked to give up something so that these innocent victims may have a "fifty-fifty" chance at life.

Because thousands of American soldiers have been placed in Axis prison camps through the misfortunes of war, we have been asked to contribute a little so that these men may receive a few of the comforts they knew here at home.

Because the people of Russia, the people who have thwarted Adolph Hitler's plan, now suffer from a lack of food and medical supplies, we have been asked to make small donations so that they may be able to continue their gallant struggle against tyranny.

Because Poland didn't stop fighting when she was conquered, there are 2,000,000 Polish refugees now in Russia. Many of them fighting our fight against slavery and oppression, for them we have been asked to contribute.

In addition to this we have been asked to donate to the Navy Relief Society whose purpose it is to give our sailors the assurance that their loved ones will be well cared for while they are daily risking their lives in our defense.

All these plus the U. S. O., The American Social Hygiene Association, and the various agencies of the Community Chest have been incorporated into the "War Chest."

To the War Chest, the students of San Jose State college have been asked to give \$2,500, less than \$1.00 per student. It won't hurt to deny yourself something so that these agencies and their beneficiaries may live. It is a worthy cause we must all admit; and also that it is our patriotic duty as good Americans to do our part. Give all you can whenever you can, and above all, let's raise that \$2,500!

JOB SHOP

Here is an opportunity for a P. E. major: **Recreational work with a physically handicapped child** for two hours, Monday through Friday, will net one dollar an hour.

From 6 to 12 men are needed to work from 1 to 5 p.m. at a local cannery. They must also be available all day Saturdays and evenings, if possible. Pay is 73 cents an hour.

A man is needed to type from 3 to 5 every afternoon for 50 cents an hour.

There is a position open for a pre-med student in a local drug-store. Hours will be from 5:30 to 10:30 evenings. Pay is to be arranged.

A dishwashing job here on the campus is still unfilled. A 20 percent discount on meals and 60 cents an hour will be given.

Some student with two full days free during the week may find work if he is interested.

Several board and room positions are still open.

Janitor work for 2 to 3 hours evenings, Monday through Friday, and six hours Sunday may also be obtained. The pay is 60 cents an hour to start.

A tray boy may still find work at a local hospital for 40 cents an hour and meals.

DI MAGGIO HERE FROM NEW YORK READY TO PLAY FOR SPARTA SHOWN BY REGISTRATION CARDS

By WILMA SABLEMAN

Anxiously awaiting the next Spartan baseball season is one of San Jose State's newest arrivals, Freshman Joe—Joe DiMaggio—and we've got him on our side!

Joseph John DiMaggio, of just some of the Brooklyn DiMaggio's, insists he is a rabid baseball fan who, when residing in Brooklyn, rarely misses a major league game. And he's got a block in his possession to show any doubters that his position as right fielder at high school was not at all in due admiration for his famous namesake.

Transferring from Lafayette High there to San Jose two years ago leaves him with one great regret—that he can no longer entertain the Yankees at his home. What about the Cardinals? "Never heard of 'em," stated Patriotic Joe. And Mr. DiMaggio, did he ever see him? Why, Joltin' Joe was a personal friend of his who came to dinner frequently. "That is, until he got married," added little Joe. Autographs? "A dime a dozen," quoth he.

Although his main interest remains baseball, State's own DiMaggio plans to be an attorney some day in spite of this interest. When asked whether or not he was kidded over his peculiar situation, the countenance of our newfound friend turned a cardinal red as he exclaimed, "Kid me! Are you kiddin'?"

Mr. Frank F. Petersen, adviser for the international aviation fraternity—Alpha Eta Rho—has announced a meeting in the Student Union tonight at 8:00. The purpose of the meeting will be to discuss prospective pledges and to discuss plans for the coming quarter.

FOX POP

By KENNY FOX

At least there's one solution: we can ration the men. Since one man had an arm broken following a sorority meeting last week the problem has been bothering some who think—and some who don't.

It's seven to five in favor of the women, according to the latest campus census figures. Of course, the odds have always been in favor of the women (sic) but now they're numerically superior, too.

Naturally we would have to be diplomatic in our approach to the problem of V-7 and 4-F rationing. In fact it might be wise to encourage a new class in personal diplomacy, to be sponsored jointly by the Social Science and Psychology departments.

Any man who has waited till too late to purchase his bid to the annual hop can explain the value of diplomacy.

Under our plan all women students would hold ration cards with a definite set of calendar dates, and all arrangements for meetings would pass through a clearing house. Women would be allowed a little choice, if possible, but ration authorities would not be able to assume responsibility for mis-matched dates and, of course, there would be no refund if the week's rations proved unsatisfactory.

By May, we figure, there will be so few men left that the load will rest rather heavily on their shoulders, so, in all fairness, where students in the service get nine units, the boys who are rationed should get 20, or maybe 24.

Since the ration plan, as we offer it, is only in the rough draft form, we'll have to allow for problems of detail which spring up in any plan of this scope. Immediately at hand is the problem of engagements, announced or otherwise, and "steadies."

All we can offer is a "share the man" system, similar to that proposed for auto drivers. And some form of recognition for the sacrificing girls would be in order: perhaps a windshield sticker with a star and an appropriate word or two such as "I Am Sharing."

For those men who do not relish the idea of becoming an eligible ration commodity, consumers' goods, as it were, we suggest a supplementary draft system. Date slackers would be punished by suspension of their sugar ration cards and their spooner permits.

We admit that the plan as it stands is rough, but the war has already called for the use of untried systems to solve other problems of even more import. And we feel confident that this plan, or a similar one, will be submitted within the next few weeks—and you know where!

LAUNDRY?—YES!
—But Laundry Problems? NO!

Even a Freshman soon learns how to handle Laundry Problems—just send your laundry home by RAILWAY EXPRESS—and have it returned to you the same way. You'll find it's really no problem at all.

Low rates include pick-up and delivery at no extra charge, within our regular vehicle limits, in all cities and principal towns. Your laundry can be sent prepaid or collect, as you choose. Psst! Send and receive baggage, gifts, etc. the same convenient way.

Mermen Mentor In Woeful Mood Over Schedule

By JOHNNY HUBBARD
"Woe is me. Worries, worries; nothing but worries."

That, in effect, is the sad song being sung these days by Water-polo Mentor Claude Horan. And he has good reason, too. It seems that up until almost the day of registration, the powers that be in the P. E. department were not sure that the sport was going to be continued this year. So they didn't make out any schedule. Then, when they finally agreed that water polo did rate enough to be listed as an inter-school sport, it was too late to arrange a schedule. Most of the schools that the Spartans had competed with in the past had no open dates.

However, "Tiny" Hartranft has been burning up the telephone wires and wearing the shoe leather off mail carriers' shoes ever since. And he has succeeded in lining up quite a few games — St. Mary's Pre-Flight, Stanford, San Francisco's Olympic club, and California have already signed to meet State's mermen.

The first definitely scheduled game is set for October 29 with Stanford, here, but Hartranft is trying to line up at least one game before then.

But here's the rub. The only empty spots these teams have on their schedules are at the end of the season, and that means all of them are going to have a full season of experience under their belts, while San Jose will be just starting its campaign. That's going to put Horan's men strictly behind the proverbial eight-ball.

Everything is not as gloomy as it might seem, however. There (Continued on page 4)

BOXING SEASON MONTHS OFF, BUT PORTAL HAPPY

By CHARLES COOK
With the official start of the season still a few months away, Boxing Coach Dee Portal is already waxing exuberant over his prospects. Nearly all of his 1941 leatherpushers are returning and he has a weather eye cocked towards several promising youngsters up from last year's boxing classes.

Heading the list of returning veterans are Charley Townsend and Bob Webber, both Pacific Coast champions. Webber at featherweight and Charley in the 135-pound division should be a cinch to repeat their triumphs of the last two years.

Woody Gibson and Stan Smith, two more sluggers with successful seasons behind them, loom as coast champs in the middleweight and lightweight spots. Gibson was the sensation of the college tournaments last year, while Smith has had two seasons of sock behind him.

Leaving gaping holes in two weight divisions, the loss of Frank Minini and Ken Sheets will be a blow to Portal's title aspirations. Minini, terror of the coast heavies, and Sheets, the human dynamo of the welters, were two of the most popular boys and biggest crowd-pleasers of the '41 squad.

Roy Diederichsen, at present coaching the soccer squad, is slated for the starting call among the 135-pounders. Roy likes the going rough and gives a fair impersonation of a windmill, tossing punches from all angles when in the ring.

Portal's dream now is to find a heavyweight with the punch of Minini and the boxing finesse of Billy Conn.

Spartan Daily Sports

SAN JOSE, CALIFORNIA, THURSDAY, OCTOBER 8, 1942

OXY MENTOR

Coach Elmer C. "Gus" Henderson

Injury Jinx Hits Soccer Squad

The injury jinx hit Coach Roy Diederichsen's soccer squad for the first time this year when Stan Smith, regular right half, dropped out of practice with a possible broken foot.

With the Menlo J. C. game only three days off, the loss of Smith may be a serious blow to the Spartans' chances. Always a tough nut to crack, the Rams may prove too tough for the inexperienced Spartans.

A strong golden bear squad, runner-up to the Washington Square men for the past two seasons, will again furnish the headaches for them. The California squad has been practicing for over two months and already have several tough games under their belts.

Victories over the English and Chilean Navy teams have established the Bears as pre-season favorites.

However, the California contest has been postponed from October 17 to a later date and this will give Diederichsen and his men time to get some under-fire game action behind them.

Coach Diederichsen is now fishing for a game with the Naval Pre-flight school at St. Mary's to fill in one of the three byes in the Spartan schedule.

RETURNING STARS BOLSTER HOPES OF WRESTLING COACH

Cheered by the return of four of last year's champions and several promising frosh stars, Coach Sam Della Maggiore expects this year's wrestling squad to be one of the strongest he has ever coached.

The champions back for more competition are Dave Hines, Far Western champ at 165 lbs. and Pacific Coast king in the 175-lb. division; Hans Wiedenhofer, 165-lb. Pacific Coast champion; Ivan Olson, holder of the P. C. 145-lb. title; and Harold Janic, Far Western freshman champion at 135 lbs.

The squad will also be bolstered by the return of veterans Grey McConnell and John Dahl in the heavyweight division, and Al Long, middleweight up from the frosh squad. Della Maggiore also has several outstanding ex-high school grapplers who will be eligible to wrestle for the varsity under the recent ruling.

Only weak spots on the squad will be in the 121 and 128-lb. classes.

A match has already been scheduled with the Navy Pre-Flight squad from St. Mary's, and Della Maggiore is trying to add other service teams to the schedule. The wrestling season will get under way in December.

Intra-Mural Play At Noon Today

Out to avenge Tuesday's defeats, Bill Toasperm and Jack Gottschang will lead their respective intramural football teams against those of Marvin Sheets and Vernon Akamian in the second half of the series on the San Carlos turf at noon today.

Tuesday Sheets' gridders took the lead over Toasperm's squad 12 to 6, while Akamian's boys blanked Gottschang's team 12 to 0.

Next week Gottschang's men will tangle with Sheets' squad, and Toasperm's gridders will take on Akamian's squad. Each team will play a total of five games. Ivan Olson, P. E. major, is in charge of the games.

Swimming For Safety Should Be First, Not Speed, Instructor Claims

The tragic, unnecessary fate of many men in the service that have died through inability to swim far or for a long period of time, has brought home the lesson that swimming for safety is most important and should be emphasized more than speed, claims Miss Gail Tucker of the Women's P. E. department.

The trend in swimming is changing all over the country. The unwritten motto for water sports has become "Swim for fun, health and safety."

At the first meeting of the Women's Swim Club, the members discussed the rules which the Naval Pre-Flight Training Schools have set up as essential for self-preservation in the water.

These rules have no emphasis on speed at all, inaugurating an entirely new policy in swim instruction. For the past quarter of a century the speed strokes, that is, those with arm recovery over water, have been featured entirely over the slower strokes with the movements under water.

When a person is forced to jump, or is thrown or blown into the water clothed, it is impossible for him to swim effectively for

any time or distance using one of the speed strokes. The speed strokes are the crawl, back crawl, or the butterfly breaststroke.

The elementary back, the traditional breast, and the side strokes are coming into their own again. By using them one may swim while clothed, may effectively swim through or under oil slicks, may avoid floating debris, may tow others, and equipment.

The events the club practiced last Monday night were as follows:

1. Jumping feet first from various levels above the water.
2. Floating five minutes fully clothed.

(Continued on page 4)

LACK OF CONDITION BRINGS STIFF WORKOUTS FOR FOOTBALLERS IN PREPARATION FOR OCCIDENTAL

Citing lack of condition as a factor in the Spartans' so-so showing against Whittier Saturday, Coach Tiny Hartranft sent his grid charges through two hours of stiff workouts both yesterday and the day before to ready the team for the next encounter with Occidental college.

Oxy, beaten by lopsided scores by Loyola and Fresno, is

Canoe Authority Here Tomorrow

By MAXINE SIPES

Mr. Van B. Claussen, an American Olympic coach, will give an exhibition of the use of small craft in the college pool tomorrow afternoon at 4:10.

He is one of the outstanding canoe authorities of the world, having navigated all the rivers and streams in this country and coached four of our Olympic canoe teams. Besides being the author of many articles and the book "Canoes and Canoeing," he has now taken the full-time job of Assistant National Director of Water Safety and Accident Prevention of the American Red Cross.

His demonstrations are beautiful to watch. All those who are interested in canoeing are invited to attend. Besides remarkable canoeing, Mr. Claussen will demonstrate paddleboard techniques and rescue methods with their use.

The afternoon exhibition for everybody will be followed by one at 8 o'clock for swimming teachers and water safety instructors.

primed for Saturday's contest on the Spartan stadium turf, according to Hartranft. Handicapped by a lack of topflight backs, the Tigers boast of almost an all-veteran line. Heading the backs and sparking the eleven is Keith Beebe, who can run, pass or punt with equal facility. The only other serious threat in the backfield is Jack Bell, a seat back who can compare with any the Spartans have to offer.

Coach Elmer Henderson of USC and Los Angeles Bulldog fame has built his attack around these two backs and concentrates primarily on the passing ability of Beebe. The Tiger offense features for the most part a spread formation with lots of aerial stuff which Hartranft figures to stop with an alert pass defense.

Yesterday's workout was almost entirely a scrimmage against Oxy players.

Today and tomorrow will be spent with tapering off drills and non-contact workouts against the Tiger formations and lengthy signal practice sessions designed to smooth up the Spartan offense.

Hartranft also announced a change in game time from the usual 2 o'clock to 3:30 p.m.

NEWS BRIEFS

SJS COLLEGE 'Y'S' COMBINE INTO ONE ASSOCIATION

With the approval of the Council of Social Agencies, the college YWCA and YMCA have been incorporated under the name Student Christian Association, as an agency of the Community and War Chest.

The SCA is an intercollegiate organization to which students of any race or denomination may belong. It operates through national associations in American colleges and universities, according to Miss Jean Thoits, secretary of the SCA.

Student officers of the San Jose State unit are Paul C. Mobley, president; Virginia Davis, secretary; Marshall Kelly, treasurer; Mary Sanchez and Sam Zones, national representatives.

ALL ELIGIBLE

All students will be welcomed as members of the organization, and they are offered a variety of activities from which to choose. Those in the Social Group arrange dances, entertainments, and other functions; members of the Forum plan discussions, forums, and arrange for speakers to come to the campus; other groups include Race Relations, Publicity, and Social Service committees, Miss Thoits said.

At the Student Center, 120 East San Antonio, there are recreation, social, and clubrooms, in which are found radios, ping-pong sets, games and pianos. These rooms are open for use by any student or campus organization, by signing up with the SCA secretary.

CONFERENCES PLANNED

Members of the association hold student conferences during the year at Asilomar, Colfax and Redwood Lodge.

Students who have transferred from other college will be honored at a party in the Student Center on October 13 at 7:30 p.m. Officers of the SCA will welcome the transfers. Entertainment for the evening will be dancing and games, and refreshments will be served, announces Alice Lee Freeman, chairman for the affair.

The Student Book Exchange meets tonight in room 20 at 7:30. Present committees will outline their work, and any student desiring to work on the Exchange is invited to attend.—Rex Gardiner.

Spartan Knights Consider New Candidates

New men for the Spartan Knights, men's honorary service fraternity, are now under consideration, according to Duke Marty Taylor.

The Knights held their first meeting of the quarter in the student union last night to consider neophytes. Men are chosen for the organization on their leadership ability, service to the school, general scholastic standing, and interest in school activities.

Plans were made to paint the parking lines around the school, usher for the various student body functions, and to participate in other school services.

They also plan to give a key with a Spartan head on it to all Knights leaving school to enter the service.

35 Attend DSG Pledge Smoker

About thirty-five prospective pledges were guests of the Delta Sigma Gamma social fraternity at an informal smoker Tuesday evening in the Hotel De Anza. President Harry Harter presided and Charles Van Gundy, of the P. G. and E., showed moving pictures of the Sierra Nevada Mountains.

All of the guests were introduced to the members following the movies. Bob Gager is the new treasurer elected to serve the remainder of the term left vacant by Jim Argo, now in the Navy, and Francis Stoffels took over his new office of secretary.

President Harter told the guests about the history of the fraternity and then played a few selections on the piano. Refreshments were served and the remainder of the evening was spent in playing cards.

All present were invited to the regular business meeting last night at one of the members' homes.

LOST: Girl's Elgin wrist-watch near pool. Name engraved. Reward. Phone S. C. 559-W or return to Lost and Found.

LOST: A crescent-shaped Rebekah pin. Has emblem and F.L.T. in red, white and blue. Reward. Please return to Information office or Ruth L. Bettinger, phone Col. 1343-W.

Iota Delta Phi Plans Open House

Tentative plans for an open house at which prospective members will be entertained were made this week by Iota Delta Phi, French honor society, according to Bob Moore, reporter-historian.

Plans were discussed at the society's first meeting of the year, Monday, at the home of Ann Wilson, vice-president.

Officers who assumed new duties at the meeting were Lucette De Canniere, president; Margie Spolerder, secretary; Irma Walters, treasurer; Miss Wilson and Mr. Moore.

Alpha Phi Omega Elects Officers

Last night Alpha Phi Omega, national service fraternity, held their first meeting of the fall quarter and elected the following officers: Warren Hageman, president; Ed Carmen, vice-president; Tom Hosley, secretary; Dean Thompson, treasurer.

As yet an adviser has not been announced but he will be named before the next meeting. Plans for pledging will be completed when the next meeting is held.

PI OMEGA PI IN FIRST MEET

Discussion of prospective pledges will be the main business at hand when Pi Omega Pi holds its first meeting of the quarter Monday night, October 12, at the home of Gene Long.

All members as well as commerce faculty are urged to attend and are asked to sign up in the Commerce office. Refreshments will be served.

Officers of the fraternity this quarter are Gene Long, president; Madelyn Murch, vice-president; Barbara Kurz, secretary; and Bethel Beattie, treasurer.

S J PLAYERS MEET

San Jose Players will meet Friday for their first official meeting this year, it has been announced by Marie Carr, faculty adviser for the actors.

All members were urged to attend at 4 p.m. in room 53.

MERMEN MENTOR HAS GLOOMY OUTLOOK

(Continued from page 3) are quite a few bright spots in the picture.

First, there are returning stars from last year's team—Marty Taylor (forward and sprint), and Doug Bacon (forward) to mention two.

Second, there are some highly-touted newcomers. One of these is Warren Kliest who hails from San Francisco, and has had a lot of experience on the YMCA team there. Then there are Ed Rudloff (forward), and Lloyd Kidder (guard). Both of these prospects are fresh out of high school, but they stand a good chance of landing first-string berths, nevertheless.

I can't come back. Will explain later.—Joe.

H. E. STUDENTS TO ATTEND TEA

All home economics majors, minors and technical students are invited to an informal get-together Monday afternoon, from 4 to 5:30 o'clock, in the college tea room, Miss Isabel Heath, president of Eta Epsilon, announced Wednesday.

This invitation is extended to help old and new students to become acquainted with each other and their club. Everyone is urged to drop in if only for a few minutes between classes. Punch and sandwiches will be served throughout the afternoon.

The semi-yearly formal initiation will be held October 19, in room H1.

Eta Epsilon leaders for the year are Miss Isabel Heath, president; Miss Bernice Hansen, vice-president; Miss Esther Snow, secretary-treasurer; Miss Virginia Johnson, historian; and Miss Ruth Morris, AWA representatives.

There will be an Art Council meeting on Thursday, October 8, at 12 noon in the Seminar. Please be prompt.—Dr. Marques E. Reitzel, Head Art department.

Any girls interested in living in a co-op house please see Mrs. Plant immediately.

Red Cross Class Is Still Open

Tuesday is the last day to sign up for all candidates for the Red Cross Canteen class, under the direction of Miss Helen Mignon.

The two-hour class, open both students and townspersons, meets in room H35 Tuesdays from 10 a.m. to 12 noon.

"The Red Cross permits no late registrations," stated Miss Mignon. She urges all who are interested to see her before October 12. A class in nutrition is the only pre-requisite. There is a fee of \$1 for materials used.

A Red Cross Canteen Certificate is granted to all who complete this course satisfactorily.

Swimming

(Continued from page 3)

3. Splashing breaststroke through oil.

4. Surface diving and under water swimming.

5. Dis-robing in water.

6. Continuous ten-minute swimming, using one of the following strokes: Breast, side, and elementary or fundamental back stroke.

Next Monday night the club will continue with these events. The club session ends with a "swim you wish" period.
