Glee Club vs. State Board

The Spartan Daily reported Monday that transportation by the Military Air Transport Service for the Associated Glee club show "So This Is College" was ruled out at Saturday's state board of trustees meeting in Fresno.

It was learned yesterday, however, that the problem never reached the state board meeting.

The question arises, why wasn't the problem taken up at the meeting since the glee club was told earlier in the semester it would be.

The whole question apparently arises from the board's interpretation of its policy passed Nov. 3. The policy states that "... student associations or organizations affiliated with them to use only scheduled airlines."

Roy E. Simpson, state director of education, wrote Pres. John T. Wahlquist Feb. 23, "MATS does not come within the definition of 'regularly scheduled airlines,' according to the information which I have from our legal office."

Mr. Simpson also informed Pres. Wahlquist that he has no direction from the state board of education to change the decision which he gave to President Wahlquist earlier in reference to this particular problem.

There are a few points the board and Mr. Simpson should take into further consideration.

1. MATS is considered a scheduled airline by most commercial insurance companies.

2. MATS smashed its own flying record in 1960 to set a new all-time low of 1.45 accidents per 100,000 flying hours. Lt. Gen. Joe W. Kelly, MATS commander, said in 1960 there were no passenger fatalities or injuries for the second consecutive year.

3. Full coverage of civilian insurance is available to cover flights of these aircraft the same as regularly scheduled civilian airline flights.

4. Should the show be accepted for an overseas tour under auspices of the Department of Defense, or Department of the Army, insurance would be provided by the government.

The Associated Glee club started working for an overseas tour long before the "scheduled airlines" policy was passed by the state board.

Last year a musical show from San Francisco state was accepted by the Army for a tour of the eight western states and a summer tour in the Pacific.

The Army maintains it needs entertainment in the Far East and that men stationed overseas would rather have people of their own age—college age—on entertainment tours.

Perhaps the state board should reconsider the problem, and if the board wants to exclude military transportation from "scheduled airlines," it should specifically state so in its policy.

Student Has 'Solution' To Congo Situation

EDITOR—It certainly is nice to be a citizen of an overdeveloped country. With this sort of an advantage one has time, money and energy to devote to those less fortunate peoples of the world. Why, just this weekend I had a few free hours, so I decided to solve the Congo situation. Let me tell you it certainly wasn't easy; however, after some perplexing moments I finally hit upon the solution. And here it is: we should have an International Peace Corps formulated and led by only those citizens who believe in the dignity of man, brotherhood, love, and togetherness. Next, we need leaders, men and women of great integrity like Sammy and May, Ethel and Julius, who unfortunately are no longer with us, Earl Warren, Chester Bowles, Soapy Williams and perhaps even Mrs. Anne Braden who recently spoke here on the advantages of integration.

Just think of the thousands of eager volunteers who could be recruited from such progressive organizations as NAACP, CORE, SCOPE, the Sit-iners and perhaps even the American Muslims who, after all, believe in the supremacy of the black race. As a matter of fact the Muslims were in the news the other night. They were running around the U.N. in a frenzy yelling, "Africa, Africa, Africa." But alas, no one would listen to these eager young citizens.

If only America would realize that she must send her finest representatives into these underdeveloped countries so they would become overdeveloped much sooner and perhaps give us a hand with our own "depressed" areas. Amen.

Relay Meet Here

Indians, YV Battle SJS

Stanford university tries its luck at track Saturday, when coach Payton Jordan brings his Indian squad to San Jose for an encounter with SJS and the Santa Clara Youth Village.

The Palo Alto school has, in former years, had more success with Spartan athletic aggregations than has been true this season. SJS clubs have dumped their northern neighbors in football and swimming, and Bud Winter is hoping to make it three in a row for San Jose in major sport competition.

The Tribe cindermen come into the relay meet with a fine roster in the field events and some outstanding runners. But noticeably missing are Ernie Cunliffe, the great middle-distance man, and Jerry Winters, a 60-foot shot putter in 1960.

It is interesting to note that two of Stanford's finest 1961 candidates will be performing in the specialties of the departed pair. Rich Kleir, a junior, rapidly improved last spring and is a strong 880 runner. He will probably run in the distance medley and two-mile relays Saturday.

Co-captain Don Bell is Stanford's new weight event ace and should provide stiff competition for SJS entrants and former teammate Jerry Winters, now competing for the Youth Village, Saturday.

—photo by Jerry Ashton

REPEAT PERFORMANCE of last week's close two-mile battle between Charlie Clark (l) of SJS and Laszlo Tabori (r) of the Santa Clara Valley Youth Village is an attraction of Saturday's Stanford Relay meet at Spartan Field. The pair will probably be matched in a distance relay event. Tabori outdistanced the gaining Clark in Saturday's dual meet, but set a pace fast enough to propel the Spartan star to a school record of 8:55.8.

Tennis Team Seeks No. 3

Winners of two consecutive matches, the Spartan netters seek triumph No. 3 today when they encounter University of Redlands on the Spartan courts at 2.

The southerners should prove a tough hurdle. They defeated SJS, 8-1, last season and boast the same record this year.

Top-seeded Bill Schaefer, unbeaten in four matches, will lead

the Spartans. He is backed by No. 2 man Gordy Stroud (unbeaten in singles competition) and third-ranked Le Junta. Stillson Judah, Larry Willens and Stewart Jones will complete the SJS aggregation.

State's opening victories over USF and San Francisco State have given notice that Butch Krikorian's crew might have a successful season.

No. 3—The Orioles

By TODD PHIPERS

With a gaunt, cautious man named Paul Richards tending the nest, the Baltimore Orioles deserted the underbrush of the American League last season and flew to a lofty second place perch in the junior circuit.

Richards waited calmly while his fledglings tested their unsteady wings in the obscurity of the A.L. depths. Then last season, while the baseball mystics ignored his winged warriors, the former White Sox pilot prepared the Orioles for their flight past every league entry but the potent New York Yankees.

TEAM EFFORT

Baltimore's was a team effort but the bird boosters had heroes to talk about. Most of the enthusiasm around the Maryland city is being generated on the Orioles' future, not their 1960 showing.

Third baseman Brooks Robinson came into his own as a big leaguer. The 23-year-old Texan found his eye at the plate and batted .294, highest among the Baltimore regulars.

Jim Gentile, an archaic 26, finally managed to stay for a season in the majors and pushed across 98 runs with his timely hitting. The former Dodger farm hand found facing American League pitchers more desirable than reading Gil Hodges' press clippings in the minors.

Ron Hansen and Marv Breeding, the Oriole double play combination, were another pair who made the grade in 1960.

HURLING HEROES

But while the inexperienced O's were hatching a large percentage of goose eggs in spacious Baltimore Memorial stadium, it was the reliable wings of their fine pitching corps that kept them in the pennant chase.

Chuck Estrada (18-11), Milt Pappas (15-11), Jack Fisher (12-11) and Hoyt Wilhelm (11-8) were just part of the most consistent pitching crew in baseball. Between them, Richards' mound staff led the league in fewest runs and home runs allowed and number of one-run victories.

NEW AUTO INSURANCE SAVINGS ANNOUNCED

Savings up to \$120 on automobile insurance are now common for married men under 25 years of age with the California Casualty Indemnity Exchange.

"Married men in this age bracket are generally paying excessive premiums for the degree of risk involved," says George M. Campbell, Spartan Representative for the Exchange.

"We believe that a married man with family responsibilities is a more careful driver, and causes fewer accidents," said Campbell. "Therefore, he is entitled to rates for mature drivers."

For example: A married man, age 22 with Bodily Injury Liability \$10/20,000, Property Damage \$5,000 and Medical \$500 pays about \$157 a year with most insurance companies. With California Casualty he would pay about \$80 less \$16 dividend, or a net of \$64 (based on current 20 per cent dividend). Thus he saves about \$93 with the Exchange. (Other coverages with comparable savings.)

Campbell declared that even unmarried men and women with good driving records may save over 20 per cent.

Call or write for full information to George M. Campbell, 566 Maple Ave. Sunnyvale, Regent 9-1741 (day & nite).

Golfers Face USFT Tomorrow

The fairways at San Jose Country Club—although a bit soggy earlier in the week—will be filled with activity this afternoon as the SJS golf team makes ready for its first match of the season tomorrow at 1:15 p.m. with the University of San Francisco.

Coach Walt McPherson has announced that the top six men in the initial match, which is at home, will be John Lotz, Bill McCarrroll, Bob Ginn, Bob Clausen, Gene Miranda, and Grant Hornbeak in that order.

These six men are expected to carry the brunt of the load for the Spartans throughout most of the season, according to McPherson. Because of a number of drop-outs from the team and a lack of qualified golfers, McPherson expects few others to break into the lineup.

The lack of depth on the team is apparent, and therefore any success that the golf team is going to have this year must come from the consistency of the top six players.

Judo Team Goes To Stockton Meet

San Jose State's judo team travels to Stockton Sunday to compete in a tournament at the Stockton Buddhist gym.

The tourney will help prepare the Spartans for subsequent competition in the Pacific AAU and national championship events.

Sunday's event at Stockton will be a Kohaku Shiai—in which a contestant takes on one opponent after another until he is beaten and knocked out of the tournament.

The SJS team is the defending champion in the Palo Alto meet.

Students Utilize Loan Programs

This year students have utilized the loan and grant programs more than ever before, Don Ryan, assistant to the dean of students, commented Tuesday.

"Unfortunately, only a limited number of programs are known to the students." Therefore, one or two such programs may be completely depleted, while other large sums of money lie unused, simply because no one realizes they exist, Mr. Ryan added.

Students desiring loans or a possible scholarship, are urged to investigate the following:

CALIFORNIA DAR STUDENT LOAN AND SCHOLARSHIP FUND. Loans to any student will not exceed \$800, nor \$200 for any single semester. Students must be at least 18 years

old and be sponsored by a chapter of the Daughters of the American Revolution. Applications must be approved by three members of the Student Loan and Scholarship Fund committee. The grants are open to juniors and seniors only. For more information students should contact Mrs. May L. King, CYpress 5-4204.

LAKE COUNTY RETIRED TEACHERS SCHOLARSHIP FUND. Applicants must be graduates of a Lake county high school working toward teaching credentials in elementary or high school. A \$250 scholarship is offered. Interested students are requested to submit written applications by April 1 to Dr. F. Dean McClusky, Upper Lake, Lake county.

FRED A. HOOPER MEMORIAL SCHOLARSHIP. A \$1,000 scholarship, awarded in two or three equal installments, is given to the recipient at the beginning of each semester. Any woman with junior standing, who intends to prepare for a career in the areas of transportation and traffic management is eligible. Interested coeds should contact Miss Bess Jackson, chairman, Fred A. Hooper memorial scholarship fund, 538 Glen View ave., Apt. 6, Oakland 10.

Rally Workshop Opens Service Fraternity Rush Tomorrow

The first in a series of five workshops for new song girls and yell leaders begins tomorrow evening at 7 o'clock in MG206 and 207.

The workshops are open to anyone interested in trying out for these positions, reported Kathy Lynes, publicity chairman for the Rally committee. All five sessions must be attended for students to be eligible for the final tryouts.

Student voting first elects the new song girls and yell leaders. Finalists are then voted on by a panel including P.E. faculty, Jackie Erickson, head song girl and Dale Heisinger, head yell leader. The head song girl and yell leader from Stanford and Cal are also on the panel of judges.

Candidates must have a 2.0 grade point average for completed

college work, Miss Lynes said. Returning and transfer students must have not less than a 2.25 g.p.a. for last semester and be a member of the Rally committee.

The workshops each count as two activity hours toward Rally committee membership. Automatic membership is gained at the end of the five workshops.

Alpha Phi Omega, men's national service fraternity, will hold a rush function tomorrow night at 8 o'clock in HB403. Refreshments will be served. Any one desiring further information should contact Dick Imperiale, pledge master, in Moulder hall, 382 S. Ninth st., room 100.

Tory IIA is the first of a series of test reactors being developed under the Lawrence Radiation Laboratory's nuclear ramjet program.

A reactor for ramjet propulsion must operate at high power levels yet be of minimum size and mass. Its design must consider the very high pressure drop across its length, the stress loads due to flight maneuvering, and the extremely

high radiation flux level which itself leads to severe heat transfer and radiation damage problems. Because the operating temperature exceeds that at which most conventional structural materials fail, the core itself consists of bundled tubes of sintered uranium and beryllium oxide fabricated with central holes for continuous air passage.

Very unusual
ONE OF MANY unusual projects at the Lawrence Radiation Laboratory—the only national laboratory active in virtually all phases of the atomic energy program.
ON MARCH 16
Lawrence Radiation Laboratory staff members will be on campus to answer your questions about a career in nuclear research.
They will interview outstanding:
electronic engineers
physicists
mathematicians
mechanical engineers (MS, Ph D)
