

Grad Interviews

Students planning a June or summer session graduation are reminded to make an appointment for a graduation interview in the registrar's office, Adm102, through Friday and from Nov. 20 through 24, according to Georgene Merrell, graduation clerk.

VOL. 49

'Ambulance Needed'

SJS Officials Seek State Rule Loophole

San Jose State college officials are seeking some method which would enable the Spartan Health Service to obtain a vehicle which could be used for on-campus emergency calls. Hampering purchase of the vehicle is state policy which forbids ambulatory service for students attending California state colleges.

Dr. Thomas J. Gray, head of the student health service, said he and Stanley C. Benz, dean of students, will confer in the near future with administration committees on the possibility of obtaining such a vehicle.

Dr. Gray said such a vehicle is necessary on a campus the size of SJS to transport on-campus victims requiring emergency treatment to the Health Service building.

At present, Health Service doctors must either walk when responding to an emergency call or seek some type of vehicular transportation.

"But then we have the problem," Dr. Gray said, "of taking the patient to the Health building. Presently, we must either use a wheelchair, a stretcher which must be

carried by four persons, or the campus security squad car in which a patient must be placed in a sitting position—all of these waste valuable time, which may mean life or death for the victim.

Ralph E. Gough, head of the SJS campus security, has said such a vehicle could serve a dual purpose as a patrol vehicle for the campus police.

He added the vehicle would be radio equipped and able to receive and send radio messages over a radio transmitter which will be installed on campus, possibly this year, for use by campus security police.

Book Talk To Trace Socialism

"Paths in Utopia," a book that traces the development of socialism, will be the topic of tomorrow's book talk by Dr. David I. Kulstein, assistant professor of history, at 12:30 p.m. in rooms A and B of the Spartan cafeteria.

Dr. Kulstein's talk is sponsored by the Faculty Library committee. The author, Martin Buber, "is one of the most profound and original thinkers of our day on man's predicament in this century," Dr. Kulstein said yesterday.

Primarily known as a religious philosopher, Buber has been active in the Zionist movement and is a leader in Jewish thought. His other works include a German translation of the Bible and numerous books and articles in the fields of Biblical scholarship, religious existentialism and comparative religion.

"Buber examines how and why modern socialism took the wrong path and suggests ways in which it can be brought back," Dr. Kulstein said.

Dr. Kulstein said that Buber's ideas are "necessarily of some interest even though some of them may be wrong."

Dr. Kulstein taught at Amherst college and Michigan State university before coming to San Jose State College in 1958. He was a teaching fellow at Harvard university where he received his Ph.D. in 1955. He received his B.A. and M.A. from Washington university in St. Louis.

100 Free Tickets For Variety Show

One hundred free tickets are available to SJS students for the Steve Allen television show being taped tomorrow at 4:30 to 5:30 p.m. at the Fox theater in San Francisco for later broadcasting.

Tickets to the show, donated by the American Broadcasting corporation television network, may be picked up in the Spartan Daily office, J208, today and tomorrow from 2 to 4:30 p.m. or until they are gone.

Special guests on the show will include comedians Louis Nye, known for the "Steverino" name he tagged on Steve Allen and Bill Dana, famous for his Jose Jimenez antics, Joanie Sommers, singer, and the Smothers Brothers, comedian folk singers.

The Smothers Brothers, former San Jose State students, have appeared at such San Francisco establishments as the Purple Onion.

Les Brown and his "Band of Renown" will play background music for the show.

Tapes made at this show will be televised over San Francisco's KGO-TV and San Jose's KNTV Nov. 22, at 7:30 p.m.

Peace Lobbyist To Rap Shelters

Dr. Robert Schultz, lobbyist for the Lobby for Peace organization in northern California, will speak tomorrow in TH55, 2:30 p.m., on "Civil Defense That Makes Sense."

The talk is being sponsored by the SJS Federation of Teachers, local, 1362, AFL-CIO, as part of the union's program of bringing speakers on important topical issues to the campus.

In his speech, Dr. Schultz will document his contention that "Fallout shelters are dangerous. Fallout shelters are wrong. Fallout shelters are the worst possible response to a thoroughly ugly situation."

Dr. Schultz believes that "hysterical talk of fallout shelters is not a bad thing if only it doesn't lead to building them. If the concern that leads people to recognize the danger and pushes us to the brink of doing something about it can be channeled in the right directions, it will save us from destruction.

He adds that although alternatives may be grim, they "will be nowhere near so grim in what I call 'sensible civil defense' as in facing nuclear war. And facing—even inviting—nuclear war is what people are doing when they build and stock their shelters."

After the talk, a coffee hour has been scheduled in room B of the cafeteria, 3:30 p.m., where Dr. Schultz will meet with faculty members and students personally to discuss the issues of peace and civil defense.

Dr. Schultz, a former member of the University of California faculty, received his M.S. degree in horticulture and plant genetics from the University of Minnesota in 1941, a certificate in meteorology from the Massachusetts Institute of Technology in 1942, and a Ph.D. in economics from the University of California at Berkeley in 1951.

Since 1960, he has been lobbyist for the Lobby for Peace in northern California.

GALAPAGOS ISLE float entered by Delta Zeta sorority and Alpha Tau Omega fraternity was chosen sweepstakes winner in Saturday's SJS Homecoming parade. Second place was given to Chi Omega and Sigma Alpha Epsilon, third to Delta Gamma and Sigma Nu while Newman club was given honorable mention. In the novelty

division, Dames, wives of SJS students, took first, Associated Women students second and Merri Lee hall third. In the marching units, the SJS Army ROTC drill team placed first, Andrew Hill, Livermore and San Jose high school bands placed first, second and third respectively in the prep school band division.

Faculty Group Decides Only To Change Name

The "Business Division faculty council" voted last night at a meeting to "remain in existence" despite a statement made by SJS Pres. John T. Wahlquist that the "council is unnecessary and distracting to the orderly operation of the Business division."

The group voted however, to change its name to "Faculty Voluntary group (a voluntary advisory body)" according to associate professor Albert Porter, chairman of the group.

President Wahlquist in a memo to the original "Business Division faculty council" said, "inasmuch as Dr. Milburn D. Wright, dean of the Business division, has recently appointed a Business Division faculty advisory council to advise him and his staff in the

operations of the division, the continuance of the "Business Division faculty council" will not only duplicate but possibly interfere with the efforts of the official group to resolve present differences."

President Wahlquist continued by saying, "please understand that there is no wish on the part of the administration to discourage free and open discussion among any members of the Business division. We wish only to ensure that such professional activity is not allowed to assume the form of organized pressure on the administrative staff through pseudo-official titles and pronouncements in the name of either the faculty or the division of business."

"The ideas and suggestions of all faculty members should be offered," said the president, "when

appropriate, in the course of regular divisional and departmental meetings, and also to members of the new Business division faculty advisory council."

The official advisory group consisting of six full professors and three associate professors is called the "Business Division Committee Advisory Group," and has had three meetings to date, according to Dr. John W. Gilbaugh, dean of SJS.

"Until such time as the administrative structure of the Business division is officially changed," stated President Wahlquist, "every faculty member in that division is expected to work cooperatively not only within the policies and procedures that have been established but within the present departmental arrangement."

La Torre Photos

Appointments to have senior pictures taken may be made in the student affairs business office, TH16, until Wednesday, for use in the 1962 La Torre.

Photographs will be made Nov. 14-Dec. 7 in the AWS lounge of the College Union, 315 S. Ninth st.

Senior members of fraternities and sororities will be scheduled with their own organizations rather than for individual appointments.

Spartans Report Missing Platters

If records are your fancy, you had better hide them or buy a vault!

Over the weekend several robberies were reported to the San Jose Police department, each expressing a loss of phonograph records, mostly LP's.

One individual reported the loss of 40 such platters.

Why does this concern San Jose State students? These thefts are occurring in the vicinity of 11th to Fifth sts., and from Santa Clara to Reed sts. This area is heavily concentrated with SJS students.

So, the next time you leave your dwelling, lock your doors and windows and pray that when you return "Open Fire, Two Guitars" will be there.

Assemblyman Speaks Tonight

"Communism, Crime, and Corruption" will be discussed by Assemblyman Bruce F. Allen (R.-Los Gatos) tonight at the Young Republican meeting in TH55 at 7:30.

The 22nd district assemblyman is expected to announce Thursday if he is going to be a candidate for attorney general in 1962.

His talk will be centered on the problem of communism, crime, and corruption in California, which falls under the attorney general's jurisdiction.

Space Missions

Dr. G. A. Eeamad of Lockheed Aircraft corp. will lecture tonight at 7 in E118 to the Society of Mechanical Engineers, on space flight missions of today or the near future.

A 16-mm color-sound movie called "Threshold of Space" will follow the lecture. Its subject is the launching of a Polaris missile and orbital recovery of the Discoverer satellite.

Russians Claim Tests as Defense, Says Peace Walker

The Russians claim they are testing nuclear bombs for defensive measures only and they will use their nuclear bombs to defend themselves just as surely as we will.

These were the words of Dr. George Willoughby, executive secretary of the central committee for conscientious objectors in Philadelphia, told a large gathering of students yesterday.

Dr. Willoughby spoke on the recent San Francisco to Moscow peace walk which lasted from Dec. to May, 1960.

The Russians' answer for world peace was multilateral disarmament, according to Dr. Willoughby.

Douglas Urges U.S. Not To Yield to Reds

By MICKEY MINTON

Sen. Paul H. Douglas said last night that the Allies should have used tanks to tear down the barbed wire entanglements on the East Berlin border as soon as they were erected.

In his Morris Dailey speech, the Illinois Senator urged unwavering resistance to Communist pressures in the tension-filled city.

"It never pays to yield to an aggressor. If you give in, he will keep pushing and taking advantage of your cowardice—he will keep pushing you farther and farther back," he told the capacity audience.

Senator Douglas said that if

the Allies had acted with firmness when the barricades were being constructed the Communists would have backed down. He added, however, that he couldn't criticize the actions taken because he had suggested no alternative courses at the time.

He said that the original barbed wire entanglements dividing the city have grown into a seven foot

Probation Given to 4

On recommendation of the ASB Judiciary, four students who gave false information on housing cards during registration have been placed on probation for the remainder of the current semester, according to Stanley C. Benz, dean of students.

The violations came to light when police, investigating a party at one of the unapproved apartment houses, recorded the names of all the occupants. Those of SJS students were referred to Robert L. Baron, housing coordinator, who then discovered the students were all under 21.

At the recent hearing before the ASB Judiciary, the four students denied they participated in the party or that they had thrown beer cans which, police said, caused damage to one of the apartments. All admitted, however, the violation of falsifying a college document.

In announcing the decision, Dean Benz said, "It is important that all students have accurate addresses on file so that they may be located in case of emergencies. More important, however, is the fact that students should be honest."

Co-Rec Officials Plan Student Trip

Deadline for signups is Nov. 14 for weekend Co-Rec's trip to Golden Gate park Nov. 18 at 3 p.m.

According to Co-Rec officials, only the first 30 students to sign up will be able to go.

Those students not attending will eat lunch at the park and then take a "bike hike," Co-Rec officials said.

Costs are 75 cents for transportation to be paid at the student affairs office, TH16, and 65 cents for renting bicycles. Private cars will leave the campus at 10:30 a.m. and return at 4:30 p.m.

SENATOR PAUL H. DOUGLAS ... 'Trouble Spots'

DOUGLAS CRITICIZES

Douglas criticized those who say that the West should give up West Berlin to the Communists. He said that there is some sentiment in England advocating surrender of West Berlin to Russian demands.

He said recent history shows that the Communists will give ground when confronted with hard resistance to their aggressive proberings.

Senator Douglas declared that there are a number of issues that the West should refuse to negotiate on in any settlement of the crisis:

1. There must be no reduction of Allied garrisons in West Berlin and freedom of military movement between East and West Berlin must be guaranteed.

CLOSER TIES

2. Freedom of movement for civilians between the two zones should be restored and action should be taken to create closer trade ties between the two zones. Senator Douglas also urged a uniform currency for East and West Berlin.

3. There should be no agreement that would return refugees now in West Germany back to their former masters in East Germany.

He said that today, East Germans are badly dressed, shop at nearly empty stores and walk around with their eyes on the ground like "zombies."

world wire

HOLLYWOOD FIRE SWEEPS PLUSH BEL AIR

BEVERLY HILLS (UPI)—Fire spurred by 65-mile-an-hour winds turned the Santa Monica mountains and plush Bel Air into a warlike holocaust yesterday, destroying at least 186 homes and forcing evacuation of 3000 persons—including Richard M. Nixon. The fire destroyed homes of several movie stars, including Academy Award winner Burt Lancaster. One fire duty chief estimated the disastrous fire burned a total of 226 buildings—including four school structures, stables and garages as well as houses. Gov. Edmund G. Brown declared the entire county of Los Angeles a disaster area. Value of home destroyed ranged from \$50,000 to \$250,000.

U.S. CHARGES RED INTIMIDATION

WASHINGTON (UPI)—The United States yesterday accused Russia of continuing efforts to use its nuclear weapons test to intimidate and threaten the Free World. The U.S. statement, read to newsmen, was in reply to a Soviet warning that Russia might extend its test series if the United States resumed atmospheric testing.

—AND A RUSSIAN COUNTER-CHARGE

UNITED NATIONS, N.Y. (UPI)—Russia charged yesterday that the United States plans to resume atmospheric nuclear tests in the Pacific because it fears it has lost its atomic leadership to the Soviet Union.

A ONE-MAN ART SHOW will be presented by Glenn A. Wessels, professor of art at the University of California at Berkeley, in the SJS Art Gallery Nov. 13-28.

Cal Prof Will Run One-Man Art Show

The one-time assistant of the man who introduced abstract expressionist art in America will present a one-man show of his paintings in the art department's Art Gallery Nov. 13-28.

Glenn A. Wessels, who was the assistant of Hans Hoffman when he introduced abstract art forms to the U.S. in 1931 through his lectures at the University of California, Berkeley, will exhibit a wide range of textural effects derived from such materials as acrylic latex and oil at his SJS showing.

Wessels, professor of art at Cal, also studied with Hans Hoffman in Europe before World War II.

The 1961 San Francisco Art Festival first prize was recently awarded to Wessels.

The Art Gallery will be open from 9 a.m.-4 p.m. weekdays and from 1:15-5 p.m. on Sundays during the exhibit.

A "Meet the Artist" reception will be held Nov. 16 at which Wessels will speak to students and the general public at 10:30 a.m. and 1:30 p.m.

SENIORS IN CIVIL ENGINEERING

Representatives of the State of California will be on campus Tuesday, November 14, to interview February 1962 candidates for graduation. Opportunities exist in the following fields:

Bridge Engineering — Design and field work on bridges. Employment in San Francisco, Los Angeles and Sacramento. (Division of San Francisco Bay Toll Crossings and Bridge Department of the Division of Highways.)

Hydraulic Engineering — Design and construction supervision of water development projects. Employment in Sacramento and Los Angeles. (Department of Water Resources.)

Highway Engineering — Design and construction supervision of the State freeway program. Employment Statewide. (Division of Highways.)

For complete information and interview arrangements contact the Placement Office.

Tu, Tu Much

A pretty shocking thing happened the other day. Or, at least, it was shocking to me because I've led a sheltered life, having spent a few months of my boyhood in Marin county.

"Marvelous" Marin, for those of you not from the Bay area, is a charming—although slightly snobby—mountained area just across the Golden Gate from San Francisco. It is best known for Muir Woods, San Quentin and censored books.

But getting back to the reason I was shocked: I overheard a sweet, young thing in the cafeteria say, "My Spanish professor and I are having a 'tu' (accent over the 'u') relationship."

You can understand my consternation. Only later did I learn that these sort of relationships are more or less normal between upper-division Spanish students and their instructors. I mean a "tu" relationship has to do with what verb endings people use. The "tu" ending designates familiarity. In other words, no more of this "Miss (Senorita) Jones—Mr. Smith" stuff.

PRETTY HARMLESS

"Tu" relationships, on the whole, are pretty harmless, although I guess if people aren't careful they might get out of hand.

Such is the case with books, too. Reading is O.K. if it's restricted to "Little Women" and "Penrod," but get a book that uses words as "....." or "....." or worse yet "....." and you've got problems.

Words as that are pretty suggestive; there's no telling what a fellow might do after reading that Jack and Jill "....." Wow! Or did you hear about the old lady who "....." and "....."

It's a good thing I'm not writing this for a newspaper in Marin because it is doubtful that it ever would be printed. Can't be corrupting innocent minds, you know.

TROPICAL

That's the trouble with the book "Tropic of Cancer." It's liable to ruin our morals; to prevent that, some upstanding community leaders in Marin have jailed a book dealer who sold it and will attempt to bring him to trial in a "test case."

Now personally, I don't blame them, because I've read a few of the "lurid" passages—just to get an academic perspective, you understand—and I don't think this is the sort of thing I'd want my mother to read.

Mom's a real swell person, but she's led a kind of sheltered life. She was married to some rich Englishman, but she divorced him to marry daddy. Daddy used to be a gamekeeper.

A Cappella Choir To Sing Friday With San Jose Symphony Orchestra

Beethoven's "Symphony No. 9, Op. 125 in D minor" will be featured at the first concert by the San Jose Symphony Orchestra Friday night with the voices of the SJS a cappella choir offering a choral background.

The free concert will begin at 8 p.m. in the San Jose civic auditorium.

Sandor Salgo will celebrate his 10th anniversary as symphony conductor. Those attending the program are invited to meet Mr. Salgo following the concert.

William J. Erlendson, professor of music, will direct the

choir in its appearance with the symphony.

Professional singers Carol Todd, Richard Riffel, Pauline Law and Robert Oliver will offer solo performances.

Also included on the program is the "Overture to Coriolanus," Beethoven.

Professor Erlendson serves on the board of directors for the symphony orchestra, as do Thomas Ryan, professor of music and Dr. Hartley Snyder, head of the Music Department, who is also a member of the executive committee.

Student Blasts Greek Discrimination

Editor:

It is a tribute to the fortitude of the hypocritical that they never seem to tire of spouting the traditional banalities, whenever compelled to defend whatever position they hold.

The case in point is the issue of discrimination in fraternities. Of course, most of the prejudiced on 11th st. haven't the stomach for trying to put down a defense on paper. One has to corner them and force them into a conversation on the subject. But then they will strike

Love Brings Conflicts To Musical

Romantic interest and the conflict it produces involves four characters in Cole Porter's famed musical hit, "Kiss Me Kate," which opens in Morris Dailey auditorium Nov. 16, presented by the Associated Glee Clubs.

Tickets for the first Broadway production on campus are on sale in the Opera box office, near the entrance of Concert hall.

Reserved seats are \$2 and \$1.50 with general admission \$1. The musical will run until Nov. 18.

Dr. Gus Lease, associate professor of music, is musical director. He is back working on the production following a brief illness.

An artist's conception of Project Gnome, a step toward providing power and isotopes from underground thermonuclear detonations. This area of endeavor is part of Project Plowshare, initiated at the Lawrence Radiation Laboratory of the University of California. Other Plowshare projects under study include the excavation of an experimental harbor in Alaska, production of oil from tar sands, control of groundwaters, mining applications, and other novel ideas using the energy of nuclear explosives.

Leatherlungers Still Unbeaten

By ED LEVINE
San Jose students are slowly becoming aware of the Spartan

cross country team. Setting a remarkable winning pace, the Spartan harriers have made themselves

known. The hapless Stanford Indians felt the wrath of the Spartans this week, as they went down to defeat 16-43.

Running neck and neck, Jeff Fishback and freshman Danny Murphy tied for first place in 20.26.8 in leading the Spartans to their fourth straight win. Fishback has yet to be defeated wearing the gold and white colors of SJS.

According to Bob Bronzan, SJS athletic director, a meet-

ing will be held this month to decide if there are any obstacles or commitments that would stop the harriers from going to the NCAA finals in East Lansing, Mich.

Only a Fresno state meet, the All Corners meet at San Jose, and the West Coast Championships bar the Spartan way for the right to go to the NCAA finals.

Trouncing everyone they've met the harriers are constantly breaking records. There have only been nine men in Stanford course history that have been under 21:00. Displaying Spartan power, the SJS harrier quartet of Murphy, Fishback, Charlie Clark, and Tom Tuitt were well under 21:00.

Student support has been practically nil in cross country this year. It remains to be seen if Spartan students can generate enough support to spark a potential National Collegiate championship team.

The only thing the Spartan cross country team needs is the vibrant rooting of some fans and a chance to participate for the title.

Cross country brings in no revenue. It does bring in the test of speed, endurance, and courage.

Titchenal, Staff Expect Rugged Game at Pacific

After Saturday's tremendous 32-16 win over Arizona State, Spartan coach Bob Titchenal was not to be found thinking reassuring thoughts of victory on Monday.

On the contrary, Titchenal and his staff of Harry Anderson, Gene Menges and Bob Jones were busy viewing films of the Sept. 22 Spartan-University of Pacific clash... whom the Spartans play this Saturday at Stockton.

"We're not resting on our laurels," says Titchenal. "Pacific beat Idaho 27-2 over the weekend, so we know we're in for a tough ball game."

Idaho beat San Jose 27-18 on Sept. 30. The Spartans drubbed Pacific 16-0 in their last meeting.

In reference to the homecoming victory, Titchenal called the game "our best of the season." He added that San Jose's offensive efforts were particularly pleasing, and that the defense did a good job.

"We knew Arizona State would score quite a few points, but I think our guys did a good job, although we got a little over-eager in spots." The "over-eagerness" was in reference to several off-sides infractions called against the Spartans.

When asked to comment on the play which saw sophomore Walter Roberts run 92 yards for a touchdown in the third quarter, Titchenal said that the play had been used "just a couple of times this season."

Titchenal reported that quarterback Chon Gallegos, who completed 12 of 21 pass attempts against the Sun Devils, should be ready to go at full speed against the Tigers Saturday.

Gallegos injured an ankle at the end of the game, consequently being removed in favor of Dave Bonillas, who threw the touchdown pass with nine seconds left to give San Jose its fourth straight win over ASU.

The Spartan mentor revealed that the Tigers are already holding workouts behind closed doors in preparation for the Spartans.

WHY YOU GO BALD DEMONSTRATED BY HAIR EXPERT HERE THIS WEEK

A condition often associated with hair loss, the blocked follicle, is explained to balding man by F. E. Lee, director of Lee Hair and Scalp Specialists. This famous expert is offering a free scalp examination and \$1.00 demonstration treatment here this week.

How to save and improve your hair demonstrated by expert here this week

Successful treatment methods for growing thicker hair—and preventing baldness—are being demonstrated to San Jose residents in an unusual way this week.

Trichologist J. N. O'Flaherty of the staff of Lee Hair and Scalp Specialists, is in charge. He personally examines hair-worried men and women from 11 a.m. to 8 p.m. every day, 10 to 3 Saturdays, in the Lee office, 814 Bank of America Building.

Examine You Free
In announcing this special offer, director F. E. Lee said: "I want to make it clear that you incur no charge whatever by seeing Mr. O'Flaherty. His examination is absolutely free this week and every week. Your only obligation is to yourself, to ease your mind of worries about hair loss, dandruff itching or any other scalp disorder that may be worrying you."

"Almost every human scalp has some such common disorder, usually brought on by neglect or improper hair care. They cause most hair loss and baldness today."

"After examination, we will give you frank answers to your questions.
(1) What is wrong with your scalp?
(2) Will Lee treatment help you?
(3) If so, to what extent?
(4) How much will it cost you?"

Satisfy 90%
"Then, if you're among the 90 per cent who can be helped, we will offer you a demonstration treatment of the exact type that he judges you should be taking to save your hair. The charge for this is purely nominal—\$1.00, no more."

According to expert Lee the treatment which he uses satisfies well over 90 per cent of those who take it. The main problem his organization faces is human skepticism.

"Take the average man," Lee said. "He's usually quite desperate—and definitely baldish—when he nervously comes to consult a Lee expert. All the time he's losing hair, he justifies his neglect with one or another of the old superstitions about hair: That baldness is hereditary, that men just naturally lose hair, as they get along in years; that nothing can be done to stop hair loss."

"By the time we examine him there has been a lot of damage done to his scalp. Some times we just have to

"Alopecia Areata" case before and after treatment. Photos made 10 months apart.

tell him that the best we can do is save the hair he has. We're almost always able to do that. Just a question of clearing up his scalp disorders and teaching him how to take care of his hair in the future.

"More often, we can replace some 'fuzz' with hair of full length and thickness."

Offers \$1.00 Trial Treatment This Week

If you're worried about your hair, see trichologist O'Flaherty tomorrow. Anytime between 11 a.m. and 8 p.m. (or 10 to 3 on Saturdays). You don't need an appointment, but can make one quickly by calling CY 3-0576. They're at 814 Bank of America Bldg., 1st and Santa Clara Sts.

Examination is strictly private. No embarrassment whatever, nor any obligation.

Spartan Booters Lose Match 5-1

A strong University of California Bear soccer team evened the San Jose State soccer squad's record at 4-4 with a 5-1 win over the Spartans last week.

Abdul Hindiye scored the lone Spartan tally. Late in the fourth quarter three SJS booters were ejected from the game and the Spartans played the last seven minutes of the match with only eight players.

The undefeated JV's dropped the Cal frosh 3-2. The frosh has a 5-0 record and is led by John Olson.

Frosh Drop Sequoia Tilt

Playing their finest game of the season, the San Jose State freshmen dropped a heartbreaker to College of Sequoias 27-22 last week at Visalia.

The 16th ranked junior college gridiron team in the nation had a tough time quelling the riotous Spartababes.

Leading 21-14 at the half, the Giants found themselves behind the eight ball to a 22-21 tune. The Spartababes were located two yards out from paydirt and looked like sure winners.

A disputed recovery by Sequoia on the one-yard line and then a determined march for SJS' goal line brought a Giant victory.

MR CATALINA

MAN RELAXED...the friendly comfort of a sweater is great companionship for your favorite pastime...or any time. Created by our celebrated designer, John Norman, who himself makes a study of the art in 'moments of relaxation'.

Spartan Tri-C Presents Presidents Prayer Breakfast On Film

President Kennedy, Billy Graham and Others

11:30 & 12:30 - WED., NOV. 8

Morris Dailey Auditorium

We're looking forward to meeting you

We'll be on the campus on the dates listed below, ready to give engineering and science seniors information on space-age careers in a dynamic industry.

If you are looking for a company offering assignments on programs of unique interest and career potential, you'll be interested in the advantages Boeing can offer you.

Boeing, for instance, is a major contractor on such advanced programs as the Dyna-Soar manned space glider; the solid-fuel Minuteman ICBM, and the Bomarc defense missile system. Boeing is also the world's foremost designer and builder of multi-jet aircraft, including the eight-jet B-52H missile bomber, the KC-135 tanker-transport, the C-135 cargo-jet, and the famous Boeing 707, 720 and 727 jetliners. In addition, Boeing's Vertol Division is one of America's leading builders of helicopters.

Research projects at Boeing are under way in such advanced fields as celestial mechanics, solid state physics, nuclear and plasma physics, flight sciences, space flight and propulsion.

Expanding Boeing programs offer exceptional opportunities to holders of B.S., M.S. and Ph.D. degrees in aeronautical, mechanical, civil, electrical-electronic and industrial engineering, and in engineering mechanics, engineering physics as well as in mathematics and physics. At Boeing you'll work in a small group where individual ability and initiative get plenty of visibility. You'll enjoy many other advantages, including an opportunity to take graduate studies at company expense to help you get ahead faster. Drop in to your Placement Office and arrange for an interview. We're looking forward to meeting you!

Monday and Tuesday—November 13 and 14

ASB Posts

Editor's note: Applications for the below listed positions are now open. Forms may be picked up in the College Union. All applicants must sign up for an interview, according to Barney Goldstein, ASB personnel officer. Applications must be returned to Goldstein no later than 12 noon the day of the interview. If there are any conflicts in time, please contact the personnel officer in the College Union.

COLLEGE UNION BUILDING COMMITTEE, recommends policies for the use and development of the proposed College Union building. Interviews: Today.

FAIRNESS COMMITTEE, studies, reports and makes recommendations concerning all issues on fairness in academic matters. Interviews: Thursday.

COMMUNITY SERVICE COMMITTEE, organizes and directs all ASB service projects including Campus Chest and Blood drive. Interviews: Friday.

AWARDS BOARD, establishes policy governing the awards granted by the ASB through its auxiliary units. Interviews: Friday.

TODAY

Survey of Music Literature, Concert hall, 11:30 p.m.

Women's Recreation assn., field, 4:15 p.m.; fencing, women's gymnasium, 7 p.m.

Phi Mu Alpha, meeting, M272, 7 p.m.

Democratic club, speaker: Dr. Snell Putney, associate professor of sociology, "The Problems of Democracy in a Mass Society," CH226, 7:30 p.m.

Young Republicans, speaker: Assemblyman Bruce Allen (R-Los Gatos) "Communism, Crime and Corruption," TH55, 7:30 p.m.

Wesley foundation, luncheon, St. Paul's Methodist church, 12:30 p.m.

College Religious council. Second in a series of lectures on religion will be presented simultaneously at various college-affiliated living groups during their dinner hours.

Sanitary Science society, meeting, S309, 7:30 p.m.

Christian Science organization, meeting, Memorial chapel, 7:30 p.m.

Society of Mechanical Engineers, speaker: Dr. G. A. Etamad, Lockheed Aircraft corp., "The Dynamics of Space Flight," E118, 7 p.m.

Freshman class, meeting, CH-150, 3:30 p.m.

Arab-American Students assn. and International Relations club, speaker: Dr. Mohammad T. Medhi, 7 p.m.

Job Interviews

Note: Interviews are held in the Placement Office, Adm234. Appointment lists are put out in advance of the interview. Students are requested to sign up early.—Ed.

WEDNESDAY

Representatives from Lawrence Radiation laboratory will interview fall graduates majoring in physics, chemistry, mathematics and mechanical and electrical engineering for positions in basic and applied research in nuclear propulsion and weapons, controlled thermonuclear reaction, industrial application of nuclear energy and high energy physics.

The Internal Revenue service will see fall graduates in accounting, business and liberal arts for positions as internal revenue agents, revenue officers and office auditors.

THURSDAY

NASA-AMES Research Center representatives will interview fall graduates majoring in electrical and mechanical engineering, physics, physical chemistry and mathematics for research positions in aero-space technology.

Ernst and Ernst will interview accounting majors who will graduate this fall for jobs on its audit staff.

Standard Oil co. will interview mechanical, civil and electrical engineering majors who will graduate this fall.

The U. S. Army Audit agency will interview fall graduates with 18 units in accounting subjects and six units in related subjects.

FRIDAY

The Navy Electronics Laboratory of San Diego will interview electrical engineering, physics and mathematics majors graduating this fall.

The Pacific Missile Range of Point Mugu will interview fall graduates majoring in electrical, mechanical and aeronautical engineering, physics and mathematics.

NEW AUTO INSURANCE SAVINGS ANNOUNCED

Savings up to \$120 on automobile insurance are now common for married men under 25 years of age with the California Casualty Indemnity Exchange.

"Married men in this age bracket are generally paying excessive premiums for the degree of risk involved," says George M. Campbell, Spartan Representative for the Exchange.

"We believe that a married man with family responsibilities is a more careful driver, and causes fewer accidents," said Campbell. "Therefore, he is entitled to rates for mature drivers."

For example: A married man, age 22 with Bodily Injury Liability \$10/20,000, Property Damage \$5,000 and Medical \$500 pays about \$157 a year with most insurance companies. With California Casualty he would pay about \$80 less (\$16 dividend, or a net of \$64 (based on current 20 per cent dividend). Thus he saves about \$93 with the Exchange. (Other coverages with comparable savings).

Campbell declared that even unmarried men and women with good driving records may save over 20 per cent.

Call or write for full information to George M. Campbell, 566 Maple Ave., Sunnyvale; REgent 9-1741 (day & nite).

director of the West Coast office of the Arab Information center and assistant professor of Middle Eastern studies at the American Academy of Asian studies in San Francisco, "Inter-Arab Conflict," TH55, 3:30 p.m.

Students Against Communism, speaker: Edward S. Carmick, associate professor of engineering, "The Kind of War We Are In—At San Jose State," Morris Dailey auditorium, 4:30 p.m.

United Campus Christian fellowship and the Lutheran Student assn., speaker: James Berthoff, senior speech and drama major, "An Agnostic Speaks to the Church," Campus Christian center, 300 S. 10th st., 8 p.m.

TOMORROW

Women's Recreation assn., archery, 4:15 p.m.; orchesis, room 10, 7 p.m.; women's swimming, 7 p.m.; all events take place in the women's gymnasium.

Co-Rec, special events: recent SJS football films, 7:30 p.m. to 8 p.m.; "Volunteers" dance combo, 8 p.m.; regular Co-Rec events, 7:30 p.m.

Tri-C, film: "The Presidential Prayer Breakfast," Morris Dailey auditorium, 11:30 a.m. and 12:30 p.m.

Toward an Active Student Community, peace-walkers discuss their trip, CH226, 3:30 p.m.

Hawaiian club, meeting, CH163, 7 p.m.

Social Affairs committee, meeting, A139, 3:30 p.m.

Newman club, meeting, Newman hall, 79 S. Fifth st., 8 p.m.

Book talk, Dr. David I. Kulstein, assistant professor of history, "Paths in Utopia" by Martin Buber, cafeteria rooms A and B, 12:30 p.m.

CLAIM JAMMING RECORD

AUBURN, Ala. (UPI) — Male residents of Auburn university's Magnolia dormitory claimed a record for jamming last night. Kenneth Wilkham said 225 students crammed into a room 11½ feet square by 8½ feet high.

Poli Sci Prof To Discuss 'Inter-Arab Conflict' Today

A lecture on "Inter-Arab Conflict" will be given by Dr. Mohammed T. Mehdi, director of the West Coast Arab Information center and assistant professor of Middle Eastern studies at the American Academy of Asian studies in San Francisco, "Inter-Arab Conflict," TH55, 3:30 p.m.

As the director of the center, Dr. Mehdi is the official representative of the League of Arab states which includes: Iraq, Jordan, Kuwait, Lebanon, Libya, Morocco, Saudi Arabia, Sudan, Tunisia, United Arab Republic and Yemen.

Born in Karbala, Iraq, in 1928, Dr. Mehdi received his high school

education in the Baghdad School of Commerce where he was awarded a scholarship from the Iraqi government to pursue his higher education in the United States. He received his B.A. in 1953, M.A. in 1954 and Ph.D. in 1960 in political science at the University of California.

The co-sponsors of the lecture are the Arab-American Students assn. and the International Relations club.
