

# Trustees, Presidents Give Approval for Planning College Union

The State College Board of Trustees has paved the way for a college union at San Jose State College.

The news came Friday from a meeting of the Board of Trustees at Long Beach, where Pres. John T. Wahlquist and the other presidents of the California State Colleges were authorized to move ahead with specific building plans.

President Wahlquist also was authorized to employ a college union expert to participate in the formative stages of the undertaking.

After years of effort and frustration, which included the loss of a student union that previously had been secured for this college, it ap-

peared that aspirations of students, faculty and administration for a college community center were about to come true.

In a statement following Friday's meeting, Dr. Wahlquist said, "It looks as if we're over the hump on the union. We'll move right ahead. I am calling a meeting of the College Union Committee, at which time we'll get the next steps under way."

Also at the Trustees meeting was ASB President Bill Hauck, who, as president of the California State College Student Presidents Association, (CSCSPA), has been working actively in behalf of unions for this and other state colleges.

The Trustees' action followed a

report by Vice Chancellor John F. Richardson, in charge of business affairs of the state colleges, who told them, "Colleges should be self-sufficient communities satisfying all the needs on campus of persons away from home."

"They should provide for college-guided programs for informal interaction... where students meet and talk with students," he said.

"College life should be lived on as high a moral and intellectual plane as possible. A college union should provide stores and shops, routine food service, appropriate and congenial meeting places for faculty and students, offices for student organizations, informal gathering places and

recreational facilities," he told the trustees.

Much of the vice-chancellor's report was based on information furnished by a state-wide committee on college unions, which worked for two years on the problem of unions for the California state colleges under the chairmanship of Pres. Carl McIntosh of Long Beach State College. Members of the seven-man committee included Dean of Students Stanley C. Benz and Dr. Dwight Bentel of San Jose State College, Dr. Bentel serving as secretary of the committee.

Dr. Bentel also is chairman of the College Union Committee, which, during the last several years, has

formulated basic plans for a proposed \$3,750,000 union at San Jose State College. The open area between the Art and Industrial Art Buildings immediately behind the Spartan Cafeteria has been allocated to a union building, says Dr. Bentel.

"We are ready for this development... and have been for some time," he told the Spartan Daily Friday.

"One of the hardest-working committees we ever had at this college met twice a week for months, analyzing our needs for a union and formulating the preliminary plans for its construction and financing."

"Representatives from student government, living groups, student ac-

office, faculty and administration cooperated in the effort. President Wahlquist was the first of the California State College presidents to get the ball rolling on a union. He pioneered the student union movement among the state colleges at this school.

"Student Body Pres. Bill Hauck has been tireless in his work with the needs of the California state colleges for community centers, and has forcibly brought the student viewpoint before key officials. It looks now as if this fine cooperative effort has paid off. And we're ready to take advantage of it."

# Spartan Daily

SAN JOSE STATE COLLEGE

Vol. 50 No. 35 SAN JOSE, CALIFORNIA, TUESDAY, NOVEMBER 13, 1962 No. 39

## Management Workshop Set for '63

Applications are available in TH 116 for Hart's Sixth Annual Student Management Workshop, to be held during the week of Jan. 28-31, 1963.

This workshop is conducted as a regular course under the auspices of the San Jose State Extension Service. Participants will receive one unit of credit.

Those attending will have the opportunity to work with executives and managers in Hart's department store, San Jose.

Purpose of the program is to enable students to see how classroom principles are applied on the job, to help them gain insight into basic management tasks, to assist them in comprehending the importance of leadership ability and human relations in business management, and to acquaint them with department store retailing.

## ROTC Awards Today

Outstanding cadets from the Army ROTC unit at San Jose State will be honored this afternoon, beginning at 1:30 at the women's physical training field behind the Music Building.

Top cadets to be awarded the Distinguished Military Student Certificate at the review are: Albert E. Carlson, William R. Dias, Allen E. Harris, Wayne A. Rush, and Harry T. Yamamura. Rush also will receive the Bronze Cross for Achievement of the Legion of Valor of the United States of America. (See story on Page 4.)

### LEADERSHIP, APTITUDE

This certificate is awarded to senior ROTC cadets who possess outstanding qualities of leadership and high moral character and who have exhibited a definite aptitude for military service.

They must have a military science advanced course standing in the upper third of their ROTC class and must be above average students with an overall academic standing in the upper half of their college class.

They must demonstrate initiative and leadership capacities through participation and achievements in campus and civic activities.

### OUTSTANDING CADETS

Other outstanding cadets to be awarded the Academic Excellence

## Expansion Plans Told

A new master plan to expand the San Jose State campus to Santa Clara Street on the north and William Street on the south was revealed by Chancellor Glenn S. Dumke last week.

The plan would require the purchase of six city blocks and would cost \$7 million for the land alone.

An alternate plan was also revealed. This would be to purchase a 300-acre site in San Mateo County for a new state college. Dr. Dumke said that he and the trustees agree that this would be the "best answer."

The ribbon is awarded annually to cadets who attained an A average in Military Science for the previous school year.

Announcement of this award is scheduled to be made by Dr. John T. Wahlquist, president of SJS.

## Repairs to 'Swayback' To End in Early '63

"Swayback Hall," will soon be just a memory, as repairs reach their scheduled completion in January or February of 1963.

The 1956 addition to the library was dubbed "Swayback Hall" when it was closed in the fall of 1961 because its concrete floors had developed sags up to 2 1/2 inches in the 22-foot spans between supporting columns.

Current construction includes lightweight floor leveling and some alterations to the interior and equipment layout, according to C. Grant Burton, executive dean of the college.

Although the wing was abandoned in 1961, actual repair work did not begin until July 19, 1962, Dean Burton said. Delays were caused by the re-opening of bids twice, in order to receive offers within the range of funds available.

"Swayback Hall," located between the north and south wings of the library, was the center of a controversy when it was publicly berated by members of a State Legislative Investigating Committee at a meeting on the SJS campus in the fall of 1961.

The committee met here to study the question of whether state and/or private architects should design state buildings.

At that time construction deficiencies were blamed on the aggregate used in the cement.

## Ad Director Of 'Ebony' To Lecture

Louis Johnson, advertising and western region director for Ebony, Tan and Jet magazines, will speak tomorrow night at the fiftieth anniversary celebration of Alpha Delta Sigma, national professional advertising fraternity.

The guest speaker, an expert on the Negro market in this country, will talk on "The Negro's Role in the Marketing Revolution," at 7 in rooms A and B of the cafeteria.

A showing of slides and a question and answer period will follow Johnson's speech. Professionals and alumni from San Francisco to San Jose have been invited.

An honoring of the founding of Alpha Delta Sigma will conclude the evening's program. The fraternity has grown from 17 members at its founding on Nov. 14, 1912, to over 18,000 members in 55 chapters throughout the United States.

Glenn Lutat, president of ADS, stressed, "This will be an excellent opportunity for members to get acquainted or reacquainted with the chapter and other members."

## Music Lit Class To Hear Soloist

Piano music of Bach and a film will be the offerings this week of the Survey of Music Literature class which meets each Tuesday and Thursday morning at 11:30 in Concert Hall.

Today, Susan Snook, pianist and student of William Erlendson, professor of music, will perform the Bach "Partita in G Minor," and the Bach "Concerto in D Minor."

On Thursday the class will show a film, "Venice Concert," filmed at the Venice International Music Festival in 1959.

The presentations are open to all students whether they are members of the class or not.

## Homing Sparrows

# Zoology Dept. 'For the Birds'

By KEN PORTER

Have you ever wondered why migratory birds return to the same winter feeding grounds year after year?

The SJS Zoology Department presently is seeking an answer to this question, with Dr. Richard Mewaldt, associate professor of zoology, heading up the project.

Working with Dr. Mewaldt are Mrs. Irene Brown, biology instructor; Robert Smith, research assistant; Ray Marsh, technical assistant; and Millie Fujimoto and Evelyn English, clerical assistants.

In cooperation with the Office of Naval Research, Department of the Navy, Dr. Mewaldt and his staff have been shipping white and gold crowned sparrows to areas hundreds of miles from San Jose, and each year the birds have been returning to their East San Jose feeding grounds.

In 1956, a number of sparrows were sent to Washington State University in Pullman. Although three of the birds escaped en route, two of these later returned to San Jose.

**DYED AND BANDED**

Before release, the birds are treated with a special dye, and a band placed around the left leg.

Purpose of this is to aid researchers in identification.

According to Dr. Mewaldt, about 25 per cent of the newly banded sparrows return each year. Of the birds which migrate at least one year after banding, about 50 per cent return in following years. More than 90 per cent of all birds surviving the winter are usually retrapped.

In 1961, the SJS researchers sent 50 white-crowned sparrows (Zonotrichia leucophrys pugetensis) to Louisiana State University. Some of the birds released there repeatedly returned to San Jose for as many as five winters.

**LSU BIRDS RETURN**

Four hundred fourteen birds were sent to LSU during the 1961-62 winter. Eighty-five of these sparrows have returned to the San Jose area.

Concerning the project "The results already obtained are of great significance. They establish some rather startling facts concerning the small birds being used in many migrational studies," Dr. Mewaldt said.

Future plans for the project include trapping and netting of additional birds as well as additional displacements of sparrows.

# Trustees Give the OK; 'Union' Planning To Start

By STEVE CHELL

Talk will now turn to action in regard to the San Jose State College Union plans.

At the monthly meeting of the California State College Board of Trustees, held last week, a resolution was passed allowing the 16 state colleges to begin planning for their individual union buildings.

The resolution provided that "the office of the chancellor be directed to work with the several state colleges and student body organizations in the development of specific projects for college union facilities for submission to the Board of Trustees."

### 14 PROVISIONS

A 14-point package of summarized recommendations, all included in the college union report submitted to the board by the Committee on Finance, was accepted as guidelines for the development and financing of the program.

After declaring in point one that "the College Union will be constructed on campus, supported and operated from student assessed fees and surplus revenues from various student activities," the report continues to state that initial financing of the unions will be done through the State College Revenue Bond Act of 1947. The Board of Trustees, under this act, is allowed to issue revenue bonds to raise funds for college unions "in its name and as its obligation."

It must have the approval of the State Board of Control, however.

### AVAILABLE FUNDS

Within these 14 points is stated that the individual college must have available cash resources to meet "consulting costs, equipment,

all fiscal agents' fees, related to costs of operation and maintenance."

A master plan of the college is to be submitted so the Board can approve the plans. The master plan of SJS was submitted to the Board last week. "In view of the character of the facilities involved, initial program study should cover a long range plan in general, even though a limited program is proposed for financing initially," the report states.

A yearly maximum of \$3 million in loans has been set by the Board for each state college. The report continues, "A college should defer requesting a loan for construction rather than propose an inadequate piece-meal approach."

### SUBMIT BUDGET

Before the trustees can approve any loan, a fully detailed operations and maintenance budget, covering revenue and expense for at least three years, must be presented.

Actual building will be conducted under provisions of the college construction act, which would make it subject to the same re-

quirements as is all other state construction.

SJS Pres. John T. Wahlquist must approve a plan for organization and administration to assure that necessary controls can be exercised by him.

Bill Hauck, ASB president, attended the meeting and stated that "When we have fulfilled these provisions, then we submit our plans back to the Board of Trustees, wherein they will apply for a federal loan."

### ONE YEAR AWAY?

"If we are lucky, this can be accomplished in a year; it depends on how much time and effort the people wish to spend on this program," Hauck said before leaving for the gathering, that an all-college election would have to be held to determine, by a two-thirds majority, whether or not the students want to put aside money for the union.

Although SJS stands sixth financially in relation to the other state colleges, Hauck indicated that SJS has fulfilled other provisions which the remaining 15 colleges have not.

# Irene Dalis Triumphs With SJ Symphony

By BOB PACINI

Irene Dalis came home Friday night to sing with the San Jose Symphony and it was a happy occasion for all concerned.

Miss Dalis, a 1948 SJS graduate, possesses one of the most stupendous operatic voices of our time and she displayed its quality to perfection.

Looking radiant and downright beautiful in a white satin gown, Miss Dalis sang Wagner's Five Wesendonck Songs and the "Love-Death" scene from Wagner's "Tristan and Isolde."

"The Wagner of the song cycle is far different from the Wagner of the great music dramas.

### CORO Foundation Speaker To Tell Of Grad Program

A representative from CORO Foundation will speak at today's Associated Women Students meeting, at 3:30 p.m. in the AWS Lounge on the second floor of the College Union.

CORO is a non-profit organization which provides selected college graduates with a nine-month internship in public affairs.

Individuals chosen are given the opportunity to work with the government and administration of a particular California city.

The CORO representative will explain how students are selected for the program and will answer any questions.

Final plans for the AWS Post-Thanksgiving Dance, to be held Nov. 30, will also be discussed at today's meeting.

Refreshments will be served.

### Math Club Plans Institute Speaker

Robert H. Gurland, a member of the Academic Year Institute now in session at SJS, will address the Math Club today at 12:30 p.m. in TH113.

Topic for the talk is "Logic Circuits and Computers," and it is being billed as the sequel to the recent talk by Dr. John Kelley titled "1 + 1 = 0."

the "Love-Death," the orchestra, under Conductor Sandor Salgo, performed the long, beautiful prelude to "Tristan."

Salgo turned in a well-paced performance of the piece, patiently molding his climaxes and controlled his orchestra so that the piece emerged as a long, steadily mounting crescendo.

The major work of the concert was the very familiar Beethoven Fifth Symphony.

### UNFORTUNATE CHOICE

It proved to be a somewhat unfortunate choice for conductor Salgo.

The performance was a series of musical ups and downs.

At times the performance reached great heights, notably in the majestic final movement.

But throughout there was often a disagreement of tempo, and the performance often took on the aspect of a race between conductor and orchestra to see who could finish first.

## Classic To Star Welles, Moorehead

Academy award winning, "Citizen Kane," will be shown at tomorrow's classic film presentation at 3:30 in Concert Hall. The film, awarded an "Oscar" in 1941 for the best original screenplay, will be shown again at 7 p.m. in Morris Dalley Auditorium.

Directed by Orson Welles, the film stars Welles, Joseph Cotton, Agnes Moorehead, and Everett Sloane.

Said to be Welles' first and most famous film, the story is a biography of a newspaper tycoon. Expressionist film techniques were employed to depict and develop character and story.

Admission is free, but the presentation is open to members of the college community only.

### Life Still Unchanged after 300 Years

RIVERSIDE (UPI) — Inhabitants of the Caribbean island of St. Barts live in the same way today as their ancestors who settled there more than 300 years ago.

Dr. Ernst Ekman, professor at the University of California at Riverside, has just returned

from a study of a community of French people living on this island.

Ekman, who is writing a book on the Swedish occupation of the island from 1785 to 1878, found that many of the women still wear 17th century style bonnets and the men of the island wear wide-brimmed straw hats.

## Clarification of Proposition 1A Brings Big Dividend on Ballot

By DON CHAPMAN  
Proposition 1A's resounding 2-1 victory at the polls Nov. 6 after a stiff whipping in the June primary can be attributed to clearer wording on the ballot,

a legal commitment and a state-wide informational campaign.

While on the ballot as Proposition 3, the issue was defeated 2-1 on the June ballot. It made no precise statement of where the voters' money was going. 1A clearly stated that 80 per cent of the bond issue was going to higher education construction.

"The voters had no intention of turning down funds for expansion of higher education facilities to take care of the great percentage increase of students coming to college," Dr. Dwight Bentel, head of the Journalism and Advertising Department, said. "This time they did know what they were voting on."

**CRY 'BLANK CHECK'**  
"Blank check" was the cry when the June primary proposition was being contested. "That wasn't the intention by legislators, however. They've played it straight with school construction bonds in the past and they meant to do that proposition," Dr. Bentel said.

The fact that voters won't be

## Mu Phi Epsilon Sorority Schedules 59-Year Anniversary Recital Tonight

Vocalists and instrumentalists will take the stage tonight at 8:15 in Concert Hall for the Mu Phi Epsilon, international professional music sorority, recital.

The recital commemorates the founding of the sorority 59 years ago today.

The program will open with the "Sonata in F Sharp Minor" of Genzmer. Performers will be Karen Brandon and Ellena Nelson, flute.

Nancy Daggett, pianist, will follow with two compositions of Faure, the "Nocturne," opus 33 and the "Impromptu," opus 34. Music of the Italian Baroque master Vivaldi will be offered by Camilla Sheldon and Joan Bridges performing the "Concerto for Two Violins in A Minor."

Joan Adams, organist, has chosen the "Prelude and Fugue in B Flat Major" of a Bach, the "Sussex Carol" of Miles and Young's "Holiday for Pedals."

Vocal music will conclude the program.

Maureen Schino, soprano, will sing an aria from the Bach "Cantata No. 41," "December Lark" of Kreutz and the "Exultate Jubilate" of Mozart.

Since its founding 59 years ago, the sorority has grown to 88 chapters in colleges, universities and music conservatories across the country.

The organization also has 52 alumni chapters.

The Phi Mu chapter at SJS includes 35 members. Requirements for membership include a B average in music and an overall C average.

Tonight's recital is free of charge and open to the public.

The next event in the Music Department will be a pair of concerts by the SJS Symphony Orchestra Nov. 20 and 21 under the Direction of Dr. Gibson Walters, professor of music.

# Spartan Poloists Shade Foothill; Pete Sagues Stars In Victory

By GENE WILLIAMS  
San Jose State's varsity water polo team halted a second half rally by a stubborn Foothill Col- lege Friday night and won its second straight game, 5-3, in the Spartan pool.

Pete Sagues, in his best effort of the season, won the initial sprint and scored the first San Jose goal to give the locals a 1-0 first quarter advantage. Sagues scored on a rifle-like shot from the left corner early in the first period. The underdog Owls tied it up on a goal by forward Gary Ilman midway through the second quarter. Coach Lee Walton's Spartans

then proceeded to pour in three quick tallies to take a 4-1 half-time lead.

Forward Steve Skold scored the first one on a push shot right in front of the Foothill goal. Skold actually stole the ball from goalie Steve Barnett to set up the go-ahead marker.

Jim Baugh rang up the third San Jose goal with less than two minutes remaining in the period. Moments later Jim Spear, who starred in the Cal game Wednesday, pitched in a strike from mid-pool to complete the first half scoring.

The third quarter was highlighted by the saves of goalies Barnett and Spartan captain John Henry, until Foothill exploded for two fast goals late in the period.

The first came on a long shot by Ilman with about two minutes remaining, and the second on a spectacular backhand effort by center forward Bill Birch 30 seconds later.

With its lead shaved to one goal at 4-3, San Jose wasted little time in the final period. Sagues tossed in his second goal of the evening on a spin shot from the left side to end the scoring at 5-3.

Led by the incomparable Henry, the Spartan defense contained the Owls the remainder of the contest.

San Jose is now 10-5 on the season, while Foothill dipped to 6-8. It was the Spartans second win over the Owls in as many starts.

In the preliminary game the Spartan yearlings shutout the Foothill JV's, 8-0.

A third period spurge of six goals, including four goals by Jeff Logan, sparked the SJS triumph.

San Jose concludes its league campaign tomorrow afternoon at 4 against the University of Pacific in the local pool.

## Speedy Beatty

LOS ANGELES (UPI) — Jim Beatty ran the world's first sub-four minute indoor mile when he was clocked in 3:58.9 at the Los Angeles Times indoor Games, Feb. 10, 1962.

# Fraternities' Top Squads Remain Tied

PIKA and Phi Sigs remained neck-and-neck in the fraternity league standings after Thursday's action. ATO moved ahead of SAE, which tied its game and dropped into fourth place.

PIKA rolled over Sigma Nu, 26-0, as the winner almost ran wild against its opponent. George Buck intercepted two passes and ran one back 78 yards for a score and returned the other for 65 yards. Ron Caselli dashed to another touchdown after intercepting a pass. The other two tallies came on passes from Bob Graham to Tom Graham.

The Phi Sigs scraped by Lambda Chi, 9-0, on Jim Owens' pitch to Rich Welch for the game's only touchdown. Owens then ran for the two points after. Lambda Chi also was caught for a safety.

PIKA now has an 8-1-2 record, while the Phi Sigs have nine wins, two losses.

ATO eked out a 6-2 win over stubborn Theta Xi. ATO's only score came on a 12-yard run by Gil Cyester. Theta Xi scored on a safety.

SAE failed to score after it had two touchdowns called back on penalties. Sigma Pi's best play of the game was an interception that failed to materialize.

In other action, DU skipped past DSP by a 19-6 margin. Al Dart combined with two teammates to score three touchdowns. On the first, Dart flipped a five-yard tally to Steve Cornwall. Dart then shoveled one to Fred Demarest good for four yards and a touchdown. Demarest caught his second touchdown pass of the day when Dart hit him with a 10-yard aerial. One extra point to Tim Palmer was good. DSP's only six points came on a 35-yard scoring play from Roy Swanson to Jerry Bell.

Intramural activities in the next few weeks include bowling and basketball, the two most important on the sports calendar. Others are the Turkey Trot and the Greek Relays.

Entries for bowling, the Turkey Trot and the Greek Relays are all due Thursday. Basketball rosters are due one week from tomorrow.

Both the trot and the relays are held one week from today. Basketball begins Nov. 29 for the fraternities and Dec. 3 for the independent organizations. Bowling starts Nov. 27.

Intramural Director Dan Unruh said the bowling league will be held at Alma Bowl and possibly at the Downtown Bowl if there are enough entries.

## ROTC Football Tilt Slated Tomorrow

Csimma Zoltan of the Army ROTC and Dave Armstrong of the Air Force ROTC will be the opposing captains in the annual ROTC football classic on the intramural field tomorrow at 3:45 p.m.

The Air Force has won the last two encounters, and shut out the Army 7-0 in last year's tilt. Much of the Army team's hope for victory rests on the laurels of four members of the SJS freshman football team.

# FSC Out-Passes, Out-Gains, Out-Scores Spartans, 20-14

By JOHN HENRY

The Spartans tried hard to come from behind but were unable to beat Fresno State Saturday night at Spartan Stadium as the Bulldogs won 20-14. Fresno ran up 209 yards to SJS' 85 running and also took the passing game away from San Jose 122 to 83.

The Bulldogs opened the scoring in 19 seconds of the first quarter when on the play from scrimmage Beau Carter took the ball around left end and went 73 yards for the first touchdown. Jon Anabo tried the PAT kick but it was no good and Fresno led 6-0.

The rest of the quarter was close as neither team penetrated the other's zone very deeply. The best drive was put on by the Spar-

ter when Johnny Johnson blocked the Fresno State punt and recovered the ball on the Bulldogs' 32.

Bonillas passed to Tom Doslak down to the FSC 15. Doslak went over right guard for three yards to put the ball on the nine.

Carter then took the ball around right end for the touchdown. Bonillas passed to Greg Rocha for two points.

Neither team could score again. The gun sounded with the Bulldogs winning 20-14.

## EVERY COLLEGE STUDENT CAN BENEFIT

by reading this book

An understanding of the truth contained in Science and Health with Key to the Scriptures by Mary Baker Eddy can remove the pressure which concerns today's college student upon whom increasing demands are being made for academic excellence.

**Free to You for 30 Days**  
Science and Health may be read, borrowed, or purchased for \$3 at any Christian Science Reading Room. On request a copy will be mailed to you postpaid. After 30 days you may keep the book by remitting the cost or return it to the Reading Room in the mailing carton provided.

Information about Science and Health may also be obtained on campus through the **Christian Science Organization**

## 'Gorgeous Gams' Photos, Fees Due; Vote Nov. 28-29

Entries for the annual "Gorgeous Gams" contest, sponsored by the Freshman Class, are due in the College Union by this Friday at 5 p.m., according to Rod Buchignani, class publicity chairman.

A \$2 entry fee must accompany an 8x10 photograph of the entrant's legs, which must be turned in to the College Union by Nov. 27.

Voting will be by penny ballot on Nov. 28 and 29. The winner and organization sponsoring him will each receive trophies.

## Senior To Receive Achievement Medal

Wayne A. Rush, 20, senior zoology major from Hayward, will receive the Bronze Cross for Achievement of the Legion of Valor of the United States of America, this afternoon at 1:30 on the women's physical training field, outside the Music Building.

Rush, in his first two and a half years at SJS, maintained a 4.0 grade point average (GPA). He is a member of Phi Eta Sigma, freshman honor fraternity, and its past president; Blue Key, national honorary society, and Tau Delta Phi honor fraternity.

While at SJS he also won the \$1,000 Spartan Rental Service Scholarship, the Borden freshman scholarship, and the \$500 Government Employees Mutual (GEM) scholarship. Rush has served as chairman of the SJS freshman camp and has recently applied for a regular Army commission.

Dr. John T. Wahlquist, SJS president, said of Rush, "To find an all-round academic scholar—superior in the fields of political science, literature, philosophy, foreign language, and entomology—is unusual in itself . . ."

**GENERAL DYNAMICS | POMONA**

offers exceptional opportunities in the following programs:

GENERAL DYNAMICS' POMONA is the nation's leading Development & Production facility for tactical missiles and weapons systems.

**prime contractor for . . .**

- MAULER**
- REDEYE**
- advanced TERRIER**
- TARTAR**

The **MAULER**: Air Defense Missile System capable of destroying short range enemy missiles and rockets and high performance low flying aircraft.

The **REDEYE**: Shoulder-fired, infra-red, anti-aircraft guided missile.

The **ADVANCED TERRIER**: Two stage supersonic surface to air guided missile.

The **TARTAR**: Navy Supersonic surface to air guided missile.

The **TYPHON**: General Dynamics' Pomona plays a major part in the development of the Typhon missile program and other projects not yet publicly announced for Navy, Army and Air Force.

**located:** Pomona is located in the heart of Southern California's Playground near Los Angeles. Suburban living with no traffic or commuting problems to and from the plant.

General Dynamics|Pomona offers: Professional Atmosphere—Technical Freedom—Challenging Assignments—plus the opportunity to broaden your background and training.

**Advanced Education**—Liberal tuition program which enables the engineer the opportunity to obtain a MS Degree through the UCLA Off-Campus Orange Belt Program.

Engineers interested in management may pursue a Masters of Business Administration in Business Economics at Claremont Graduate School through a General Dynamics Pomona sponsored program. Valuable experience is also provided by varied assignments. Our internal structure is flexible enough to allow movement from one assignment to another.

**Positions are open for Bachelors, Masters and Doctorate candidates in the fields of Electronics, Aeronautics, Mechanics and Physics.**

**GUIDANCE • THERMODYNAMICS • AERODYNAMICS • STRUCTURAL DYNAMICS • PHYSICS • PROGRAMMING • STRESS AND WEIGHTS RELIABILITY • MISSILE SYSTEM ANALYSIS • INSTRUMENT • TECHNICAL WRITING • MICROWAVE • RADAR • OPTICS • TEST EQUIPMENT COMPUTER • FLIGHT ANALYSIS • FIELD SERVICE • AUTOPILOT • POWER AND CONTROLS • MANUFACTURING ENGINEERING (E.E.)**

Contact your placement office immediately to assure yourself of a campus interview. If a personal interview is not possible send a resume and grade transcript to:  
**R. J. Daniele, College Recruiting Coordinator, Department 3-15, Pomona, California.**
