Stetson Stomp Tomorrow Night

The women's gym will be transformed into a reasonable facsimile of a dude ranch tomorrow night, when Spartanettes will "drag" the men they have "roped in" to enjoy an evening of dancing.

The Junior class sponsored "Stetson Stomp" will feature the music of Benny Glassman's orchestra from 9 to 1 o'clock. Jeans and gingham will be worn by dancers at this girl-date affair.

Selection of a typical "Outdoor Girl" and "Outdoor Boy" will

highlight the evening's entertainment. Phil Richards and Sue Dee Smart are competing for the feminine title, while "Cal" Cowles and "Moe" Richardson are the male contestants.

Concessions will be set up in the south end of the gym for the entertainment of the students attending the dance. They include a dart game, hoop toss, fortune teller, and refreshment stand.

Chairman of the dance is Betty

Doyle, assisted by June Robertson and Jerry Brown, decorations; Dot Lewis and Caroline Lees, refreshments; Jessie Steinnagel and Fred Bonar, booths; Kay Goepfert and Connie Jones, bids; Bill Shaw, clean-up; Carmel Libonati, publicity, and Barbara Stewart, contest.

Patrons for the affair will be Mr. and Mrs. Milton Lanyon, Mr. and Mrs. Dwight Bentel and Miss Helen Dimmick.

March Of Dimes

DRIVE ENDS TODAY

Don't be too late to contribute to the March of Dimes! Spartan Spears will be on campus today, ready to accept your donation, or donations may be left in the tins placed around campus. The drive ends today. Funds collected from the March of Dimes drive support the great work carried on by the National Foundation for Infantile Paralysis. The foundation depends solely on these voluntary contributions for support of its work.

SUCCESS CASES

At this very moment there are boys and girls, men and women, once stricken with infantile paralysis, who are carrying on normal lives, able to earn their own living due to donations given to the foundation during the March of Dimes drives.

Each year the toll from "polio" mounts. All victims must have care. The years 1943 and 1944 added more than 31,000 cases. Service — medical, hospital, nursing and physical therapy—has been available for each of these, as well as those previously stricken, through chapters close to their homes.

LOCAL AID

Half of the money collected in the drives remains in the county for aid to that county's "polio" cases.

Dr. Reinhardt To Speak On China

"China in World History," and what the ancient continental people of China have had to do with World War II and the peace that has still to be made, will be discussed by Dr. Aurelia Henry Reinhardt tomorrow. This will be the fifth of Dr. Reinhardt's 10 weekly lectures on the United Nations, timed with the UNO meetings in London.

The lecture will be presented in the Little Theater at 2 p. m. The Rev. Joyce Wesley Farr, pastor of First M. E. Church and president San Jose Church Council, will give the invocation.

Campus Magazine Staff

With Margaret Moore and Ken Stephens named as editor and business manager, plans are now under way for the publication of the first issue of a new campus magazine.

To be printed on an experimental basis in hopes that it will be sufficiently successful to warrant being published as a monthly instead of quarterly, the magazine will be inter-departmental. Sports, creative writing and feature articles with pictures will be incorporated in the make-up of the student quarterly.

The cover of the as yet unnamed student publication is to be designed by Mr. Milton Lan-

NEARLY 300 HAVE TB X-RAYS TAKEN

The mobile x-ray unit of the Santa Clara County Tuberculosis association, which was on campus this week taking x-rays of entering students who had been unable to get them early in the quarter, took 75 Wednesday and had taken 224 by 2 o'clock Thursday.

This x-ray trailer is paid for by the sale of Christmas seals. It is a General Electric product and is technically called a "photofluorographic unit."

MINIATURES

X-rays taken in the unit are miniatures of size 4" x 10." They are screening films to pick up tuberculosis, not diagnostic films. The trailer is of the same type used by the Army and Navy.

It is lead-lined for the protection of the technician, and even has special windows between the workers, at either end of the trailer, and the machine placed in the middle.

300 DAILY

The average number of x-rays taken per day by the unit is around 300, and over a thousand a month in the county.

The trailer has a regular schedule. On Monday it is situated near the Hall of Justice as a clinic. On the first Tuesday of the month it is in Gilroy. The rest of the week its work is devoted to industrial and other surveys.

State May Have Two Summer Sessions, States MacQuarrie

Possibility of an additional Summer Session to be given in August and September and lasting four weeks was revealed yesterday by President T. W. MacQuarrie and Registrar Joe West.

The four weeks course would be available to all students and would provide a maximum of six units. The tuition fee would be proportionate to that the regular Summer Session, which lasts six weeks and allows a maximum of nine units. The short session would be advantageous to students who need the few more units for graduation and for veterans, who would wish to remain on the GI payroll for an extra month.

The session would offer a wide selection of courses, most of which would be daily classes, and would start immediately after the closing of the regular Summer Session.

A poll will be taken in a few classes to see how popular a brief summer session would be, and the results will soon be announced.

MORE TRYOUTS

Preliminary tryouts for "Junior Miss," Broadway comedy hit to be presented by the Speech department March 7, 8 and 9, took place yesterday in room 53. More tryouts will be held today and final casting decided.

The play concerns the humorous side of adolescence, but is no high school play, according to Mr. Wendell Johnson, who will direct the production.

DR. HEATH LEADS SUNDAY CLASS

Second in a series of Sunday school classes led by Dr. Harrison Heath will be conducted Sunday at 9:30 a. m. in the First Presbyterian church. Subject for study will be the writings of Luke.

Dr. Heath, who is Personnel adviser to technical students and a member of the Psychology department faculty, plans to have the series end simultaneously with the quarter.

Dr. Heath is a member of the Session of the First Presbyterian church and chairman of the Christian education committee.

Dance Follows Game

The Social Affairs committee decided at Tuesday's meeting to give a dance February 9 following the game with College of Pacific.

It was also decided that 20 records of the latest tunes will be bought for future dances.

OBJECTIVE FRESNO

Spartans To Renew Rivalry With Bulldogs In Weekend Contests

Coach Walt McPherson will leave this morning with his cage team for Fresno, where the Spartans and the Bulldogs of Fresno State college will renew their age-old rivalry in a two game series to be played tonight and tomorrow in the Roosevelt high school gymnasium, in Fresno.

The Spartan hoopsters are moving along at a pretty fast clip, having won their last three games after dropping a two game series in Reno a couple of weeks ago to the University of Nevada.

Since that disappointing week-end, the Staters have chalked up wins over Hamilton Field, San Mateo Merchant Marine Academy and College of Pacific. Their season's record now stands at 10 wins and 9 losses; however, six of those losses were registered last quarter before the Spartans were at their peak of performance.

FRESNO'S RECORD

In contrast, the Bulldogs from Fresno State have a record of eight wins against six losses, approximately the same win-loss average. It is believed that the McPherson forces have met a little tougher class of opposition, and as a result will probably play the role of the favorite in Fresno this week end.

The Bulldogs have been coming along fast, according to Coach Hal Beatty, and showed a great deal of improvement in losing a close game to Camp Pinedale, a quintet that is unbeaten in 20 starts.

BULLDOG LEADERS

The Fresnans are paced by LeRoy Droge, Louis Papac, and Leonard Sondergard. Droge, a guard, has scored 46 points in his last four games, but individual scoring record is still held by Forward Papac who has tallied 124 markers in 13 games. The play of Center Leonard Sondergard has been outstanding all season, and the Spartans will have to be sharp to stop his rebound and pivot shots.

Because of transportation difficulties, the team and managers will travel by automobile. They will leave at 10 o'clock this morning from (Continued on Page 3)

RED CROSS

Inter-Society Competition

Results of the Inter-Society competition in Red Cross sewing for the fall quarter find the Sapphos, with a quota of 280 hours, in first place for their total of 363 hours of work completed. Ero Sophians placed second with 392 hours completed out of their quota of 410 hours. Placing third in competition are the Allenians, who completed 349 hours of their quota of 380. Honorable mention goes to Phi Kappa Pi with a total of 385 of their quota of 420 hours.

Other societies figure as follows: Beta-Gamma Chi with a 340 hour quota with 216 hours completed; Delta Beta Sigma, 380 hour quota, 321 hours completed; Kappa Kappa Sigma 450 quota hours, 346 hours completed; Zeta Chi 310 hour quota and 163 hours completed.

Phyllis Johnson, Red Cross student co-chairman, has announced that Red Cross work and knitting for Philippine relief is being continued. Enough yarn is on hand for the knitting of several sweaters, both long-sleeved and sleeveless, according to Miss Johnson. Organizations or individuals may take out afghan squares and earn points for sewing them together.

WSSF CAMPAIGN OFFICIALLY CLOSES

World Student Service Fund, whose campaign has been conducted on almost every college campus of the United States this winter, is today drawing its San Jose State drive to an official close.

Total pledges and cash donations up until yesterday afternoon were \$1002.25. Of this amount, \$399.50 has been paid, and \$602.75 is pledged, and payable in the Business office.

Notable is the fact that only 132 people have donated to WSSF, with an average contribution of almost nine dollars. Many students, including ex-servicemen, found themselves able to give in excess of \$25.

Faculty pledges are still being solicited, and a nucleus of the student committee under Chairman Elizabeth Leecing will be maintained until the campus quota of \$3,000 is reached.

VETS OVERFLOW INSTITUTIONS

"Veterans have overwhelmed institutions in the nine western states," announces E. S. Thompson, comptroller, who returned Tuesday from a two day meeting of business officers of western colleges and universities.

The University of California and Stanford were hosts at the Fairmont Hotel in San Francisco to the representatives from other schools on the west coast.

Tuesday Release Date For Revelries

Release date for revealing the theme and background of Spartan Revelries, annual all-student show scheduled for February 21, 22 and 23, has been postponed until Tuesday.

Revelries, first inaugurated in 1931, was for some years a part of Spardi Gras, spring celebration that has become traditional with generations of Spartans. Since 1941, however, Revelries has been held as a separate activity during winter quarter.

This year the theme has its inspiration far back in the stone-cut pages of history's dawning. From all reports, preparations for the show are going well, with rehearsals in full swing.

The show is being oiled part by part, and soon will be put together, a riotous two act musical comedy, fun for all and all for fun. Everyone will get a kick out of Revelries '46, even the chorus girls.

Decrease And Peace

After 1980 there will be a population decrease in the United States, and by 1980 there will be three times as many persons over 65 years of age as there were in 1930, according to a leading population statistician.

It is estimated that the United States will reach a population peak of slightly over 150,000,00 between 1970 and 1980, after which there will follow a slow decrease.

Even in a declining population the standard of living can increase to great heights. The increasing number of old people will bring about a tremendous rise in the number of special goods and services for the aged, such as medical care, travel, and resorts. As for the 1,000,000 women who left the farm for the city and whether or not they return to the farm, they will continue to demand the services and products to which they have become accustomed in the cities.

We have the natural resources, the industrial facilities, labor force, capital and management to bring about a higher standard of living. But to maintain this high standard, the psychology of the population must be considered.

If the people are ridden with fear as to the security of the peace and as to the loss of their jobs, they will not only hesitate to spend from their savings, but they will try to hold on to their current income. If the people feel secure in their jobs and secure as to the peace, there is little reason to be concerned about depression.

Industry as well as Government must keep this factor in mind and create the greatest feeling of security possible, to enrich the soil of peace.
 —Frates

BEHIND THE SCENES

By MARGARET MOORE

That bedraggled looking white Christmas tree which has been stuck around the Little Theater and the shop is not a mere leftover from the Yuletide season. Instead it is awaiting in anticipation for the production of "Junior Miss" which will follow the week's run of "Brief Music." As it is now, the tree looks in sad need of a short of something to bring some life back to it.

RUSTLES OF SPRING

Right about now the deer over in Alum Rock park must be feeling their fenced-in predicament more than usual. New leaves are unobtrusively spreading a green blush of color over the bareness—and these are the tender leaves that naturalists say are so tempting to deer. Pretty soon the bucks will be rubbing the "moss" off of their antlers while the does gossip about it through the fence-wire.

IN THE SPOT

Revelries will be one of the first productions to use the two beautiful new "Klieglight" spot lights which were recently purchased. The spot can be regulated into squares, triangles, and other shapes besides the standard circular shape.

THE DANCE

Dale Bower and John Calderwood were among the students from State who "danced" with the Ballet Theatre when it appeared here Monday evening. They were supposed to be Russian peasants mingling in the background with other atmospheric dancers. They whirled a couple of times with some of the ladies—and columnist Dave Webster, who saw them, wondered why they were doing a square dance.

"The Ballet folk were very nice—friendly—and muscular," Dale told us.

THE THINKERS

We are glad to observe that there are some students around school who are thinking about something other than the good-

looking fellow in math class or what happened to the left rear hub-cap on the 1929 jalopy. Slowly but surely and with quality and thought, the editorial board on the Daily is gathering together the work of these thinking students. All kinds of subjects are being considered and written up. Chairman Virginia Wilcox is quietly investigating the work of all candidates who are being brought to her attention. Many students here who are eligible in every way have not been contacted. Willie would like to have more student volunteers. Contributions may be turned in at the "Pub" office and she will contact the writers.

IDEAS

From those students who can't write, or think they can't ideas are quite acceptable and welcome. A lot of people may have the gift of gab—but don't say anything.

We ask you to read some of the Thrust and Parry's sometimes—especially by Grenbeaux who sometimes writes clever and humorous articles. He would have us know that his every word is a gem of intellect—but the question is—whose intellect?

VISITOR

Bert Holland, former mainstay of KSJS, the radio speaking society, and the Speech department in general, visited the campus yesterday.

**Brief Music Props
 Are The Real Things**

BARBARA CAMPBELL

Kay Goepfert and Alice Hagan, in charge of props for the coming Speech department production, "Brief Music," report that all is coming along fine with the props situation, which presents unique problems in the type of presentation to be used. "Brief Music" is to be presented "penthouse style," a new idea in play production in which the audience sits on all sides of the acting area and can see exactly what all the materials used are, and whether they are the "real thing."

THE LETTER

In one scene from the play a letter is introduced. Alice and Kay got busy and mailed Kay a letter under a fictitious name, so that they would have a real letter, all postmarked, etc., for use in the scene.

Greek notes gave them a little trouble. This question they solved by getting the real thing—some notes written in Greek. No meaningless scribbles would do in a "penthouse style" play.

MORE REALISM

A few of the girls must play bridge in another scene, and the ones involved had no knowledge of the game. What to do? The cards are stacked and ready for the game, which the actresses have memorized.

Even the magazines must be up to date. None of this dentist's office stuff for "Brief Music."

The outstanding problem of the two girls now is securing two photographs of 30-year-old men. They urgently request anyone having any information leading to the apprehension of such articles to contact them.

JOB SHOP

A number of full time positions are available in the Placement office at the present time. Miss Doris Robinson, Placement Director, has requests for persons to fill the following jobs: Receptionist for a doctor's office (applicant must speak Italian); general office girl with knowledge of shorthand, accounting, typing and merchandising. Further information available at the Placement office.

Men And Maids And Stuff

By MAX MILLER

Became tired of doodling in the margin of a book on abnormal psych, so we ambled out into the starlit night and over to Morris Dailey auditorium to watch "Orson" Johnson go simply maaaaa-d.

Ever since sheep-herding ceased to be a profitable business and we came down from the hills to obtain some book larnin', we've heard nothing but orchids about this gazabo and a show he's producing. From our seat in the fourth row at rehearsal all we could say for the '46 Revelries is that it's still in the incubator. Just whether a turkey or a bird of paradise will emerge when the heat is finally off remains to be seen.

Although no one asked us, we'd say that Johnson has a good show. If he'd only give up that brainstorm about riding a Unicorn into the orchestra pit at the finale—you'll get enough laughs. Without that Johnson, you'll get enough laughs.

Must admit that we jumped when we heard this one. We have it from reliable sources that Renie, of Hollywood, who drapes the shapes of EKO's glamorous girlies, has shocked the more conservative members of the fashion world by predicting feminine evening clothes "with complete bosom exposure!" That's what the lady said, she said that, yes she did.

This trend toward open air bodices is an answer to New York stylists who favor mannish figures for ladies, says Renie. All this is because of a "definite need for a startling stimulus after a pro-longed war."

Only last week the kid here was out gathering a concensus of opinion on the present length of Milady's skirts and whether or not the proposed dropping of the hemline would meet with approval but it seems that I'm as far behind the times as a pair of spats and a straw skimmer.

THRUST AND PARRY

WARNING SIGNALS

Thrust and Parry and Miss Durgy:

"Rumors are rampant in the United States today on the subject of the Soviet Union. . ." This was the lead line in your editorial last Wednesday. The editorial says in a rather incoherent vein that all the rumors (doubts) about the Soviet Union were untrue and that the Soviets were to be cultivated instead of doubted. As far as I can see there is no organized opposition to the Soviets in the United States powerful enough to start widespread and unfounded rumors. Cannot the rumors then be the verbal forebodings of the American man on the street? YES! These latter rumors are those with any semblance of foundation. You may consider them lurid propaganda if you wish, but I regard them as a spirited—if unorganized—opposition to an alien political philosophy.

You pointed out the anti-Soviet feeling here on campus as a movement of "Doubting Thomases," stirring up disgust and hatred without reasonable provocation; that they make wild assertions with no factual foundations. Who knows anything about Russia except that:

1. It has a dictator.
 2. It is a totalitarian state.
 3. It has steadily pursued a policy of imperialistic aggression toward its neighbors: Latvia, Estonia, Finland, Poland, Bulgaria, Iran, Rumania, China, and so on.
 4. Russia has been loaned over 30 billion dollars (estimate) by the United States, giving nothing in return but victories over the Germans (something Russia HAD to do).
 5. Suppression of free and democratic ideals in occupied countries.
 6. Non-cooperation in allied military government.
- This could go on for hours. Can someone give us a few enlightening facts in favor of Russia that are not outweighed by the above? Doubt and distrust are the warning signals you feel when something alien is dangerously near to overtaking those things that you cherish and hold dear, i.e., Communism (Russia) taking over the democracies.
 —Robert E. Pearson, ASB 35.

SJS CAGERS HAVE LOST 149 POINTS

San Jose State's current basketball quintet might have boasted a better won and lost average at this point in the season had they been able to connect with their charity tosses with more consistency.

In 19 games, they have been presented with 346 chances to gain a free point but have capitalized on only 197 for an average of .569, which is not quite as high as Coach Walt McPherson would like it to be.

STEVENSON BEST

Center Wes Stevenson has set a desired precedent by dunking 35 free shots out of 45 attempts for an amazing average of .777. Bill Helbush, with four for six, and Ted Holmes, with 23 for 35, boast averages of .666 and .657 to follow Stevenson in that department.

FREE THROWS IMPORTANT

Free throws are a vital part of a basketball team's capabilities; more games are won and lost on the free throw line than in any other manner. Had San Jose been more adept in this respect, they might have posted at least three more wins on their ledger than they now have.

The average has improved since early season, however, and McPherson is giving the lads lots of practice so that they will be able to come through with those much needed handout shots in the remainder of the games.

Bob Bronzan Newest Addition To State's Athletic Staff

Bob Bronzan, latest addition to the San Jose State athletic staff, will arrive here this week end with his wife and small daughter and will be on hand Monday morning to take up his new duties.

Glenn Hartman announced the acquisition of the new staff member last month after he had compiled an enviable record as head coach on the Long Beach City College aggregation last fall. He produced the strongest football club ever to perform on the gridiron for that institution.

STAR TACKLE

Bronzan, a '40 graduate, was a star tackle on those famous high scoring teams of SJSU under the tutelage of Dud DeGroot in '38 and '39. He is 26 years of age and just received his discharge as a first lieutenant from the Army Air Corps last September.

Because of his excellent record in the physical education theory field, Bronzan will specialize in the teaching of those classes here on Washington Square.

WILL COACH, TEACH

In addition to those duties, he will be the head wrestling coach and line coach for the '46 edition of the football squad.

Bronzan coached for a time at Livingston High school after he completed his special training at UCLA.

NOTICE

Cosmopolitan club meeting tonight at the Student Center. Dr. Tui will sing and play the guitar.

SPORTLIGHT

By DAN WECK

The Sportlight is a column which will appear irregularly, and be devoted to some SJSU figure who is prominent in athletics.

Today the Sportlight is focused on the Spartan varsity guard, Ted Holmes, who has been a varsity basketball and baseball player through all of his college career. "Ted" started in college at Menlo Jaycee; after two highly successful years there he transferred to Sparta, where he is majoring in business administration. While at Menlo, "Big Ted" was a star baseballer and cage man, playing varsity ball in both sports.

Having many friends and a variety of interests, Ted Holmes is seen frequently around campus, but his primary interests are in his major field, business administration, and in sports, in which he has long been active.

Ted first showed his fighting prowess in basketball when he played varsity and lightweight ball for Palo Alto High school, his alma mater. Ted was one of the factors in the basketball reputation that Palo Alto built up three years ago.

In this year's basketball season Ted Holmes has continuously had one of the starting positions at guard; he has proved to be one of the best guards ever to defend Sparta's backboards. No mean scorer, Ted has placed 29 field goals and 23 free throws through the hoop to total 81 points so far this season.

His scoring is not his strong point, however; but his ability to completely control our own backboard, and to work the ball forward to one of the team's high scorers has made him one of the most feared of this year's Spartan cagers in the eyes of opposing coaches.

Ted, when asked recently about the forthcoming Fresno opposition, stated: "We should be able to beat them fairly easily; after all, look what San Diego State did to them, two games straight."

NOTICE

Spartan Spinners Constitution meeting 12:30 in room 39. SPAC members please bring box lunches.

POOL SQUAD DROPS MEET SCHEDULE UNTIL NEXT YEAR

With three injuries, two ineligible because of inadequate courses, and two other ineligibilities, Student Coach Don Thomsen has decided that it is best to drop the swimming schedule completely rather than forfeit the eligibility of the few remaining swimmers in a season which could not possibly be completed.

Several key men of the squad are subject to immediate draft.

Without enough able swimmers left to threaten seriously a good high school team, the coach has been forced to cancel all of the meets which had previously been on the schedule for contests this season.

Of the three champion divers Coach Thomsen had intended to have on the squad, not one will be available for intercollegiate swimming. Because of injuries, neither backstroke or breaststroke men would be available to the coach, and the combination of woes was enough to remove all of the well founded hopes which he had previously held. For that reason, San Jose State college will have to wait one more year to engage in intercollegiate swimming.

Notices

The following students are reminded to report to the booth in the Library arch at the designated times: 9—Bonnie Gartshore and Stella Barreto; 10—Dadie McNeil; 11—Kay Goepfert; 12—Gwen Friesen; 1—Betty Doyle; 2—Leslie Frusetta and Donald Ross; 3—Cecil Monahan.

Recreational swimming hours for both men and women students will be from 2-4 this afternoon.

Spartans To Renew Bulldog Rivalry

(Continued from Page 1)

the men's gymnasium. Those making the trip include: Don "Dutch" Boysen, Ed "Gunner" Maggett, Wes "Curly" Stevenson, Ted Holmes, Bert Robinson, Bill Helbush, Fred "Puppy" Lindsey, Kaleb Borg, Marv Langhoff, Bill Culp, Frank Waterman, Managers Stanley Carlson and Dan Weck, and Coach Walt McPherson.

The Spartans' next home appearance will be Tuesday, February 5. The game originally scheduled with the El Centro Marine outfit was cancelled, but Coach McPherson is lining up a game for the Staters with one of the athletic clubs from San Francisco.

The preliminary tilt will find the Spartan reserves meeting the Wardrobe outfit, — (unintentional pun) an industrial league team here in San Jose.

A week from today, the high-riding Spartans play a return game with the College of Pacific in the State gymnasium. The first tilt saw the final score 60-58, SJSU on top.

MU DELTA PI CHOOSES OFFICERS

Robert M. Culp, freshman art major from Taft, was elected acting president of Mu Delta Pi at Wednesday night's meeting of that organization.

Mu Delta Pi is the on-campus veterans' fraternity which was organized two years ago. Officers elected at the last meeting will be temporary, and re-election will take place when the fraternity membership increases.

Also elected were Milton Monroe, vice-president; Louis De Barry, treasurer; Dan Weck, secretary, and Dick Mansfield, sergeant-at-arms.

A drive to increase membership will start with a rally to be held Wednesday noon at which time all veterans will be urged to attend meetings of the organization. The fraternity is open to all veterans, and Culp urges that as many as possible attend in order for the new veterans on campus to get acquainted with the older members.

Former president of Mu Delta Pi was Jim Howie.

The next meeting will be held in room 2 of the YMCA next Thursday, February 7, at 7 p. m.

Forestry Class To Go Field-Tripping

First of three field trips to be taken this quarter by the Elements of Forestry class will be at Hecker Pass in the Santa Cruz mountains tomorrow.

Dr. Allen W. Jacobs of the Science department, instructor of the class, announces that the group of 26 students will study the forest as a whole. This includes the soil as well as the trees.

The class will observe the oaks at the floor of the valley. Farther up, there will be black oaks followed by redwoods.

The group will also visit the Mt. Madonna camp site, formerly used by the Civilian Conservation Corps. This is a good place to see and learn about the Giant Chinquapin, large oak tree with broad, fuzzy, gold leaves, says Mr. Jacobs.

History, cutting, logging, and ecology of the trees and forest will also be noted by the class.

BOB FINLEY TO SPEAK TODAY

"How to Get the Most Out of Life" will be the topic of Bob Finley's last talk on the State College campus in room 155 from 12 to 1 o'clock today.

Students who have attended meetings this week have derived much spiritual benefit from the meetings, according to Collegiate Christian Fellowship sponsors.

Finley will remain in San Jose for the remainder of the day and will be in the Student Union from 2 to 5 o'clock to meet anyone who would like to speak with him.

HOROLOGY LAB IS INSPECTED

The Proprietor Watchmakers Association of San Francisco sent a committee to inspect the Horology department of San Jose State college yesterday.

Voicing their approval of the watchmaking department's facilities and equipment, the inspection committee was also well pleased with the various activities and projects now in progress in the department, reported Mr. Theron Sowers, director.

Members of the Association's committee were Mr. C. Becker, Mr. E. Fischer and Mr. Soderman.

Nora Lynch Is New Prexy of "30" Club

Nora Lynch, freshman journalism major from San Jose, was elected president of the "30" club at a special meeting Wednesday. Virginia Mahon, Alice Joy Golder and Don Dunne were elected vice-president, secretary-treasurer and reporter, respectively.

Plans were discussed for the next regular meeting Tuesday, February 12.

All journalism and advertising majors are eligible for membership in the "30" club. Meetings are scheduled for the second and fourth Tuesdays of each month. Mr. Dwight Bentel and Mrs. Dolores Spurgeon are faculty advisers of the group.

NOTICE

A four-dollar "Effective Advertising" book was taken from the AWA lounge last week. Please leave the book in the Dean of Women's office.

SEVEN MEN ARE PLEGDED TO DTO

Delta Theta Omega, social fraternity, pledged seven men at a breakfast Sunday at the De Anza hotel.

Pledges include Gerry Swarner, Don Litcomb, Al Daum, Jacques Martinet, Bill Klinker, Bud Hooton and Eli Bariteau.

DTO has been inactive on campus since the beginning of the war. It returned to activity last quarter. At the present time there are 11 active members on campus.

Hell week for the pledges will start today.

NOTICES

The Northern California Occupational Therapy association will hold its meeting in room S112 tonight. A business meeting at 7:30 p. m. will be followed by a lecture with slides by Dr. Scarborough, of the Santa Clara County Tuberculosis Sanatorium. All Occupational Therapy students are cordially invited to the meeting.

Mary D. Booth, Room S100,
Natural Science Building.

Will the Allenian pledges please meet me in the Student Union at noon today? Be prompt.

Colleen.
