Inflation, utility costs blamed

S.U. fee may increase

by Nancy Gibson

SJSU Student Union fees may soon be increased to cover a projected 30 to 35 percent increase in utility costs over the next fiscal year, according to S.U. Director Ron

This fee is included in the \$116

that time inflation has doubled and enrollment has dropped.

A \$10 fee was originally ap-proved at SJSU by a general student S.U. fees, which make up the bulk of S.U. income, go toward

more money just to operate in a rapidly inflating economy." This year, \$82,000 was budgeted for utility costs. However, based on the utility bills received in the first five months, Barrett is anticipating the costs will actually be about

'The essential thing is that costs are increasing ... The likelihood is that we'll need more money.

student services, programs and maintenance.

"We made a mistake projecting over too long a period of time," Barrett admitted.

He said he is unsure when an increase might be made. It may be in addition to the \$2 increase next semester or may occur sometime therefater, he said.

There are other alternatives, he said. However, some changes must be made to avoid a deficit budget and these will probably include a fee increase at some time.

"The essential thing is that costs are increasing," Barrett said. "We try to hold the line on some things but the likelihood is that we'll need

This leaves a deficit of \$20,000 which will be covered by last year's \$36,057 surplus.

According to Barrett, the Student Union almost always has a "slight surplus," which comes back into the budget for the next year.

"When we budget we plan for the year," Barrett said. "In that year we might generate more revenue or we might have more

"There will be some variance and it has generally been in our favor. Either we have kept expenses below or revenue above what was expected."

In the last fiscal year SJSU placed 10th in comparison with the

staff, said.
"We have more money coming

in right now than we have going out in this fiscal year," he added.

stabilize the funding of the paper," Andrew Hughey, dean of the School

of Applied Arts and Sciences, said.

"However, the year is not over

"We are currently trying to

other 16 schools in the CSUC system in terms of surplus, according to a comparative analysis done by the CSUC chancellor's office.

The Student Union has two types of reserves, an expansion reserve and a working capital reserve.

The expansion reserve, begun with money left over from the construction of the building, is the largest and goes toward projects like the amphitheater and the patio remodeling.

The working capital reserve is smaller and is used for emergencies and deficits like this year, Barrett said, "so we have money to fall back

"After meeting outstanding bills at the end of the year, the surplus is transferred into one of these reserves— local money we have access to as we need it," he said.

The balance of the surplus is put into the expansion reserve and if there is a deficit the board must request funds be transferred from the working capital reserve to cover

There is the possibility that student services and programs will be cut, Barrett said, if there isn't money available to cover increasing utility costs.

"There isn't much we can do except cut operating hours and this would detract from the reason we are here, which is student service," he added

If a fee increase is approved by the board, it must then go to SJSU President Gail Fullerton and then to the chancellor's office for final approval.

The idea of a Student Union fee increase is "preposterous" according to A.S. controller Tom Fil.

Fee increase must be

"A student fee increase is not

approved by Fullerton

the answer to inflation," Fil said. "It is passing the buck." According to Fil, the SUBOG is

going to have to "take a concerned insight into the S.U. finances to make sure everything is being utilized effectively."

He suggests they budget themselves better, adjusting their priorities and trim expenditures if necessary before they increase student fees.

"I have always been a firm believer against student fee in-creases," Fil said. "\$116 a semester is already a lot."

A major concern of both Fil and Director of California State Affairs Nancy McFadden is that, unlike the Associated Students, the board of governors does not have to go to the students for a general vote before it increases fees.

However, according to Barrett, all Student Unions in the CSUC system are set up under the same legislature. This gives the authority to increase fees when matching operating costs to the trustees through the chancellor.

The trustees in turn look to the governing board and at no time do they have to go to the students for approval, he said.

A.S. is set up under a different legislation, one that does require a general student vote before a fee

IRA funds sought again Uncertain future faces Daily

The financial condition of the Spartan Daily is still in limbo.

The newspaper's future has been in doubt in the past few months because of the depletion of the paper's reserve account and the lack of a means of funding other than advertising revenue.

The reserve account was established in 1972 to cover expenses involved in producing the paper and

the purchase of new equipment.
The reserve fund was as high as \$45,000 in 1978, but was depleted by the end of the spring semester in

The paper has not received any Instructionally Related Activities (IRA) funds since 1977, although the

paper did apply for them.

"I didn't support the Daily because I know the last few years they've had a lot of money stashed away," A.S. President Mike Medina said in an interview last November.

Medina is a member of the IRA committee, comprised of A.S. board members and SJSU administrators.

The largest chunk of the paper's \$13,000 deficit is owed to the university's accounting department,

which keeps the paper's books.

However, the accounting department has postponed payment of the bill indefinitely.

"As soon as we show we can pay the bill, the bill will be sent to us for

payment," Prof. Clyde Lawrence, adviser to the paper's advertising Professors remember Pierce

The paper will apply for IRA funds, Lawrence said, but he does not know how much it will apply for. "I have not done the final

paperwork yet, but a preliminary estimate shows we should apply for

\$22,000," he said.
Applications for IRA funds are due in mid-March.
Alternatives to using IRA funds are also being explored, Lawrence

"One possibility is selling them at the bookstore at the registers," he

those who need the paper, such as the library and offices, pay for the paper."
Medina also has a proposal to

"Another possibility is making

fund the paper and other campus His proposal is to increase the \$5

IRA fees students pay each semester by one dollar to fund the Spartan Daily and all other groups on campus that request the funds, except athletics. For this to occur, he explained,

two things must happen.

First, the fee increase must be approved by the students.

Second, a separate referendum must be passed by the students stating that the money would go to the Spartan Daily and other organizations and not to athletics.

"I think the Daily is an in-stitution on campus, and it would be tremendous of the students to support the paper in that way," Hughey said. During the last school year, 78

percent of the IRA funds went to the men's and women's athletic departments, with the remaining funds given to KSJS radio, theater arts, the art gallery and other

The preliminary hearing of former SJSU student Donald James Cummings, accused of two campusarea murders and two assaults, was closed to the public yesterday at the request of Cummings' attorney, request of Cummings' attorney, Public Defender Bryan Shechmeis-

Shechmeister made the motion yesterday afternoon in San Jose Municipal Court before Judge Edwin B. Pierce. Under California law, Pierce had no choice but to clear the courtroom.

Shechmeister's request also

witness discussing any aspect of the case outside the courtroom.

The hearing ended up in Pierce's courtroom after being transferred twice during the day.

Municipal Court Judge Robert Ahern, who heard Cummings' in-nocent plea on Jan. 28, transferred the case to Judge Edward Nelson at 9 yesterday morning.

After a one hour delay, the case was sent to Pierce's court because Nelson's backlog would not have allowed him to hear the entire

The preliminary hearing should last three days, Jack Marshall, assistant district attorney and prosecutor for the case, estimated.

At the conclusion, Pierce will make a decision whether there is enough evidence to bring Cummings

If Pierce decides the evidence against Cummings is strong enough, he will set a trial date and transfer the case to Santa Clara County Superior Court.

Cummings, 24, has been in

murder hearing hearing without a delay.

additional assault charge.

Alternative Program for the past three years.

each student pays in registration fees at the beginning of each semester. Though the fee is scheduled for increase next semester, an additional fee increase may be necessary to keep the S.U. from running a deficit in its budget next Students now pay \$15 a semester in Student Union fees, which in comparison to other schools in the California State University and Colleges (CSUC) System, is at the mid-point of a range from \$10 to \$20, Barrett said. The fee will increase to \$17 a semester next year, the fifth and final part of a gradual fee increase plan implemented by the Student Union Board of Governors six years ago, Barrett said. However, the fee increases were based on an inflation rate of 7 per-cent and an increasing student enrollment that would help finance running the Student Union. Since

No one can blame Mr. Carter for not trying

It's been less than five weeks

know me?" commercials

Perhaps it was inevitable that after the first chorus of "Hail To The (New) Chief" and the accompanying praise for the Reagan administration that James Earl Carter Jr. would be forgotten.

He now joins a select group of ex-statesmen who are no longer in the limelight or the focal point of attention.

His departure on one of the most joyous and of American prestige and power abroad, the hostages and mentous days in recent American history, also marks even a bout with a killer rabbit. momentous days in recent American history, also marks a full circle of sorts.

For Jimmy's debut as the new president some four years ago was full of the same anticipation and hope which greeted his successor on Jan. 20.

Back then the excitement was over the fact that a decent man had been found, one who could resurrect the dreams of a nation disillusioned with war, corruption and

president would indeed rebuild a government "as good as reality. In short, a messiah. the honest people."

Throughout his term it was apparent that President

Carter was not doing the job that everyone had expected. Gradually, the excitement and optimism turned to the and already people are saying, kind of resentment and disappointment so evident on Nov. "Jimmy who?"

4.

If this continues, American

And now with a new president in office, Carter Express may just ask the former becomes a political relic of the past. How ironic that as the president to do one of its, "Hi, do you former head of a nation, he would be forgotten so quickly.

In our rush to welcome the 52 returnees from Iran, we neglected to thank the one individual responsible for leading us through some rather tricky and dangerous

Not that he didn't have his problems and failures including an inability to improve the economy, the decline

During four years of adversity and failure, however, Carter's sincerity and decency was always present.

One could sense his frustration at not succeeding.

Maybe the times were such that any individual, despite well-meaning intentions and determination, could not improve the country's many ills. But no one can blame Mr. Carter for not trying.

Someone should have warned him that the efforts and "Jimmy Carter is the one," chanted everyone with eyes lifted upward in the belief that the newly elected is a leader who can transform campaign promises into

But with all of the pomp and circumstance afforded to the newly-elected leader, it might be helpful to remember that the president is, after all, a human being with all of the limitations and frailties that mark all of us

This would help in recognizing that it isn't necessarily the individual in office, his policies or even personality but

One wonders how the Carter presidency will be viewed by historians. Unlike his predecessors, Carter was

Assessment of Carter will depend upon accomplishments of Reagan

neither ignorant about the Soviet dominance of Poland like Gerald Ford or abusive and dishonest with the office a

Nevertheless, Carter's record of achievement is not without its moments. There is reform in the way of airline, trucking and financial deregulation. Policy agreements made, such as the Panama Canal treaties and the Egyptian-Israeli peace treaty and restored relations with China. Finally, there is a commendable energy program

But in the end, it was a dismal showing on the more important concerns that heralded his downfall.

The swift ushering of Carter from the nation's consciousness raises questions about the political pressure cooker that characterizes the presidency.

Only an ex-president can know the feeling of absolute power tempered with the responsibility of some 250 million lives one day, only to surrender it to a political foe

For now, Jimmy Carter, private citizen says his plans include writing a book, possibly about his experiences as

We can only wish him continued success in the future and a late, but acknowledged appreciation for the job he performed in the most difficult of all jobs. Thanking past presidents for their efforts could start

with Jimmy Carter so we can honor them in life as well as If assessment of the Carter years depends on the

accomplishments of President Reagan, we can only wait and witness the changes. But at this early stage, while relations flourish bet-ween President Reagan and his constituents, everyone is

eager to blame the nation's problems on Carter And in response, Reagan is determined to show his individuality and approach at solving the impossible, even if it means drastic moves in the opposite direction and a massive swing to the right.

We can only wish him luck and hope he does better (according to the voters) than Jimmy Carter, lest four years from now people may start asking, "Ronald who?"

Bicyclists subject to torment; sickos, pushy cops intimidate

Bicycle riders - watch out - it's open season for all of us.

Up until very recently, I've always used my bike and/or public transportation to go places on the weekends. This somehow made me feel a little less guilty for putting 300 miles a week on my car as a commuter student. I'll admit I didn't clear up Bay Area smog in my efforts, but like I say, I felt a little less guilty.

For the first several months,

parking my car on weekends worked beautifully. Fresh air and exercise does wonders for the cobwebs that can accumulate in your head during the course of a school week.

One day, I was sailing down a tree-lined hill, wind blowing through my hair and no particular thought in my mind. Suddenly, a car whizzed by me, with the passenger's windo rolled down and somebody hurled a two-inch rock right at my head. Luckily, it only hit my shoulder, but it HURT and I was furious, never-

The following week, I had pretty much forgotten the incident and again ventured out on my bike.

This time a car full of teenage thrill-seekers came hurdling around a corner, steadied itself on the road, then aimed their car right at me. I drove into a ditch, tearing my new jeans, and looked up just in time to Arlene Stenger

see a young head protruding out the window and giving me a raspberry. I had visions of taking that little sweetheart, throwing him down on the pavement, and running him over or five times in my car until I felt better.

Before I could get home, a cop car with a flashing red light was signaling me to pull over.

"You didn't come to a full stop at the stop sign," he said. "The penalty? Oh, around \$25." I gasped and told him he could

be a little more lenient in the name of gas conservation as well as my clean bicycling record.

Ignoring me, he said, "I see you aren't licensed, either. This is really going to cost you."

I muttered something to the effect of seeing him in court, but cooly replied, "Fine. But you won't get anywhere with the judge if you

don't get that license taken care of. And, oh, by the way, to get your license, you'll have to get a headlight and a bell mounted on your handlebars."

Why does helping the vironment have to be so difficult? Why couldn't that policeman be out chasing drunk drivers or people with exhaust swirling out of their tail pipes instead of picking on me?

I wasn't about to pay the ticket, so I took the necessary steps to get

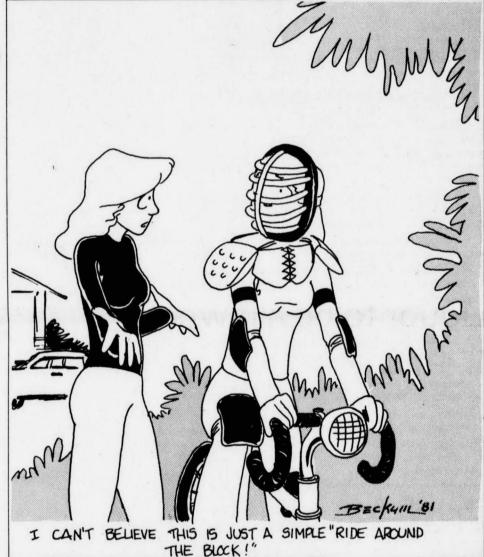

In court, the judge suspended my sentence and warned me that in the future, I should obey all traffic signs. I said I would.

My bike hasn't seen the light of day for weeks. It's in the garage collecting cobwebs. I suppose I'll weekend bike again, but not in the It's too bad that in this day of

diminishing energy supplies that mean people, both inside and outside the law, have to louse it up for those of us who are concerned for our

Bicycle users are vulnerable to all kinds of torment. In the years to come, more and more people will be turning to alternate means of transportation.

Sickos and pushy cops should not be allowed to intimidate people back into their cars.

Daily Policy

The policy of the Spartan Daily Daily staff is as follows:

· Letters should be submitted to the

Spartan Daily office (JC 208) be-

tween 9 a.m. and 5 p.m. weekdays, or by mail to the Opinion Page, c/o the Spartan Daily, San Jose State University, 125 S. Seventh St., San Jose, CA 95192.

· All letters must include the writ-

er's signature, major, class standing, address and telephone number.

· The Spartan Daily reserves the

regarding letters and material submitted from individuals or organizations outside of the Spartan

right to limit the number of letters on a given topic after a sufficient amount of comment has appeared.

Daily should verify accusation

Editor:
If the Spartan Daily reported accurately Feb. 23, a UPC official on campus recently called University Police Chief Earnest G. Quinton "a sy police chief (who) came out of Dark Ages."

This is a startling accusation. It continue to hold Quinton in high lousy police chief (who) came out of the Dark Ages.'

the lowest form of humor

ould be helpful now if the Spartan Daily could pursue this, and ascertain the accuser's evidence, general background in law enforcement, experience in social science research techniques, personal experience in the area under inquiry and similar matters. Then Spartan Daily readers would be able better to weigh the accuser's

ERA letter expresses naivete

Janne Reid's letter on President Reagan's position on women's rights clearly expresses the general naivete demonstrated by opponents of the Equal Rights Amendment.

Ms. Reid exemplifies this in her first statement, pertaining to the record number of women elected to the present Congress. A "record number" does not have the same meaning as a fair representation. Women make up 51 percent of this country's population and the per-centage of women in Congress is much lower than this figure. I especially fail to see the connection with Reagan's "vision of govern-

mental betterment and equality."

I respect President Reagan and shall support his efforts to get our country back on its feet. I do not, however, believe him to be a miracle worker as Ms. Reid does.

She displays her conservative ignorance by associating women's rights with the "murderous advance of communist aggression." This follows the doctrine of Joseph Mc-Carthy: If you don't like something, (or someone), associate it with communism.

A real man is one who doesn't

feel threatened by equality with real

Michael Vaughn Journalism freshman

Gun control, letters 'ludicrous'

The adverse responses to the published statement of Mr. Strahl were most ludicrous. Two letters by seniors and were printed on Feb. 18.

There are three important points not even mentioned which should be stated and restated through the development of any argument on gun control. The first is the Bill of Rights which in the Second Amendment proclaims the "right to keep and bear arms." Unfortunately, in this matter there are those who wish to twist the

meaning to whatever they please.

The next is the way gun control laws are used by the government. The Bureau of Alcohol, Tobacco and Firearms uses the gun law of 1968 to arrest and confiscate from innocent citizens on technicalities, as proven in court. At the same time the strict gun laws, of New York and elsewhere, on the use of a gun are reduced or expelled in the process of plea bargaining on the larger crime involved.

Finally it must be realized that gun control will never work. No matter what the consequences many citizens will never turn their firearms in. The only method that

chance of functioning correctly is the passing of laws creating strict mandatory penalties for the use of a firearm in a crime. Maybe then someone will give a second thought before picking up a

I realize this is just a start at outlining these points, but at least this is not a meandering passage through some fictitious points for gun control.

Post-rain period is time for allergies

by Ted Catanesi

Students who suffer from allergies and would like to seek medical attention should now be "desensitizing" themselves through injections in preparation for the upcoming grass season, according to Dr. William H. Floyd.

Floyd, who coordinates the allergy clinic offered by the Student Health Service at the Health Building, said follows rainy weather, brings on allergies.

"The allergy season varies with the weather," Floyd said. "Following rainy weather, especially in warm climates, there's a high level of pollen in the

Floyd said pollen is a major antigen that leads to allergies. He added, though, that other antigens include animals, drugs, chemical agents and foods.

According to Floyd, an

antigen is anything that is foreign to the body and often causes allergies.

"Right now, mold pollen is abundant and is leading to allergies," Floyd

Floyd said allergies are part of the body's immunology system and are a result of the human being protecting itself from the environment.

Presently, about 100 students come to Floyd's allergy clinic every one to

jections for the desensitization treatment.

The injections cost the student \$1 per injection. Skin tests are part of the treatment also, which cost

During the desen-sitization treatment, the antigen the student is sensitive to is injected in small doses. In response to the antigen, the body builds immuno-globulin, which

According to Floyd, the dose is increased injection until all that is needed to fight the allergy is a once-a-month maintenance dose

Floyd said symptoms allergies sneezing, stuffy nose, coughing and sometimes itching. Because of the symptoms suffered, said, students who think they have a cold often have protects the individual an allergy.

Liquor to be allowed during Greeks' dance

by Nancy Gibson

Council (IFC) is going ahead with plans to serve alcoholic beverages at its dance in the Student Union as a part of the Greek Week festivities in April.

Previously, the Student Union Board of Governors (SUBOG) had a no-liquor policy for concerts and dances in the Student Union, according to S.U. Director Ron Barrett.

This is not the first time such a policy change has been requested, Barrett said. "But the IFC is the first group that wanted to push for it."

"The policy is still the same," he said. "But if a group wishes to, it can have alcohol at a function under the conditions spelled out by the board and Fuller-

council approached SUBOG last October with its request to serve liquor, the board agreed to grant the request and consider similar future requests under these conditions: -that such dances be

formal functions;

-that each group not have more than one such function per year;

The Inter-Fraternity served in the presence of minors, security personnel not affiliated with the sponsoring group serve the alcohol and control the access of minors to it;

> -that the group post a reasonable security deposit according to Barrett. with the Student Union One problem

SJSU President Gail Fullerton added three stipulations to the granted request.

First she requested that the sponsor of an event where alcohol would be served set up a separate room for serving and consuming liquor.

A second stipulation was the alcohol be served under a one-day Alcoholic Beverage Control License. The last stipulation was

Tomorrow, February 25

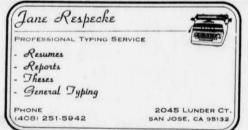

-that if alcohol is to be that serving alcohol at events held in the Student Union be considered experimental by all involved.

In the past, the Student Union prohibited serving alcohol because of various anticipated problems,

One problem was having people under 21 attend functions where alcohol was served.

"The dance is considered experimental because the board wants the opportunity to change conditions if it doesn't work out," Barrett said.

The council will be serving beer and wine at its semi-formal dance April 3 and will be meeting the requirements set forth, according to Mike Bruz-

SJSU professor drums to rhythms of taiko

He grew up in Nippon, "the land of the rising more commonly called Japan. He reflects on his childhood memories, and is impressed as he listens to the moving sounds of taiko, the beating of Japanese drums. This impr

impression remained dormant, and it wasn't until long after he immigrated to the United States, that he let taiko become a part of his life.

Chaote Lin, SJSU eign languages foreign languages professor, at age 50, is the oldest member of the San Taiko Group, Asian-American forming arts group.

The Japanese art of taiko was introduced to the American public by Seiichi Tanaka, master of the art who studied at three different taiko schools in

He is a disciple of Daihachi Oguchi, the grand master of Suwa Taiko in Japan. Sensei (teacher) the only taiko instructor in

Members of the San Jose Taiko Group practice as the bachi (sticks) are thrusted against the skin tops of the Taiko drums. The sounds produced are powerful and "leap to the soul."

Through the in- Sensei Tanaka, the San spiration and instruction of Jose Taiko Group was

formed in 1973. The group consists of approximately Asian-American members, many of whom are SJSU alumni.

According to Lin, the group is proud of its cultural heritage but they are aware that they are also American, and thus they have integrated their American culture with

"We are taking a tradition and expanding it," said P.J. Hirabayashi, a member of the group.

Hirabayashi, the group is pioneering a new area in an attempt to integrate two

The martial art of aikido combines bone-crushing force, self control

By combining a practiced passiveness with violent force, the martial tremely effective method of self-defense.

Aiki is the Japanese character for "harmony with energy." Pracwith energy." Practitioners of aikido use this philosophy in subduing attackers with as little physical exertion was rendered co helpless by the degree black belt.

Instead of general control of the physical exertion was rendered co helpless by the degree black belt.

"We use the concept of energy to correlate mind and body," said Jack Wada, SJSU instructor of beginning Aikido.

Intense concentration on practiced moves and holds allows users of the art to easily overpower larger opponents.

Knowing the proper moment to apply the correct force is what makes aikido so formidable, according to

The idea isn't to maim disable an assaulter, 'just to take care of him.'

When Wada says "take care" he means it literally as well as figuratively. By withdrawing pressure at exactly the right time, a master of Aikido can save an attacker from permanent injury.

In a demonstration of

Aikido instructor Jack Wada demonstrates the art's effectiveness on student Jennifer Javora

aikido is a state of mind. Wada, who has studied the art for 12 years, said he believes what applies to self-defense can also apply to everyday life.

Aikido teaches people to use their own bodies efficiently, in every action they make-not just selfdefense, he said.

To completely understand what Aikido is all about, its origin and background must be brought into focus.

At the end of an illustrious career, martial arts champion Mori Kei Veshiba saw there was no place for him to go but

He has already molded himself into one of the most honored and respected masters in Japan.

There simply was no reason to prove himself anymore.

Seeing his speed and agility decreasing with age, Veshiba developed a non-combative, mystical philosophy and style of selfdefense that used a person's own resources, however limited, in the efficient way possible.

Aikido was born. The followers of Veshiba have changed the original concept of "har-mony with energy" little in 11 years since their

mentor's death. "The best definition of Aikido is self-defense, without the hyphen," Wada

Chinatown lights up

New year dances in

San Francisco's Chinatown brought out all its finery for its celebration of the "Year of the Rooster" -- or the New Year 4679 -- last Saturday.

Besides the usual carnival atmosphere, the Chinese Chamber of Commerce hosted several events, including the Miss Chinatown Pageant and Coronation Ball and daily exhibits and entertainment.

The grandest of events slated was the ever-popular New Year's street parade where, to the delight of what was said to be the largest crowd ever in attendance, young and old joined in the festivities.

Dragons began their prowl of the streets and shops around noon Saturday, with several groups parading from shop to shop.

According to Lui Ying, a Chinatown employee, the "dragons" go from shop to shop and are considered evil spirits.

"When the dragons come to our door," Ying said, "we throw firecrackers to drive them off."

When the parading groups near each other, they compete more fervently for the bystanders'

The high point of the day is the parade, which travels through the heart of Chinatown.

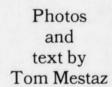

Everyone involved dresses for the occasion, youngsters in costumes and young ladies in traditional garb.

Dragons, bands, acrobats and firecrackers filled the street while onlookers filled the sidewalks and many took to higher ground to get a better vantage point.

For a little while, everyone was Chinese, and throughout the night, "Gung Hay Fat Choy" could be heard. It means Happy New Year.

SJSU nine beats Stanford twice Spartans score 13 runs in one inning

by Richard de Give

Timely hitting and fine defensive play led the SJSU baseball team to two wins over fifth-ranked Stanford over the weekend, boosting its overall record to 8-3. Stanford's record dropped

However, the Spartans, who scored 13 runs in one inning on Friday, were unable to sweep the series when an unearned run scored in the fifth inning in the second game led to a 4-2

With two outs, and the score tied, 2-2, Stanford's Dave Meier hit a ground ball toward SJSU's Ed Rettagliata at shortstop. Rettagliata, who had

an otherwise excellent series on the field, let the ball by him for an error, scoring Mike Dotterer from second.

"I felt we stayed in it until the end," SJSU coach

Gene Menges said.
The SJSU runs came on a two-run home run by catcher Jim Howard in the

The ball sailed over the outfield wall at Sunken Diamond, and over another fence separating the field from the rugby field.

The blast gave SJSU a 2-1 lead in the game, which was lost in the bottom of

the inning when Dotterer

red on a double play. In the first game, the artans scored early and often to win 7-3 behind pitcher Eric Tretten, who is 2-1 on the season, with both wins against Pac-10 "Eric's off-speed stuff was on today, like in the Cal game," Menges said.

Tretten's only walk was to Dotterer to start the

game.
"When the offense and defense are playing like He they should, all I have to do batters.

is get the ball in there," Tretten said.

The Spartans rocked Paul Grame, who had won his four previous starts, for six runs on six hits in his four-inning stint.

SJSU scored twice in the first and second innings and added single tallies in the next three innings to put the game out of reach.

Robles and Paul Willoughby led the Spar-

Stan Jones, Greg bles and Paul tans with two hits each.

two runs in the game. In Friday's game at Municipal Stadium, SJSU

Robles also batted in

humiliated the Cards 15-4. The 13 runs SJSU scored in the fifth inning fell short of the school record of 19, which was set last year against Nevada-Reno, also in the fifth in-

ning. Eighteen batters came to the plate in the inning, getting 10 hits off three Cardinal pitchers.

Willoughby started the inning with a walk.

Rod Daniels singled to Willoughby to second.

Jones singled and advanced to second when Cardinal third baseman John Elway threw the ball away, scoring both run-

Mark Langston cruised to his third victory of the year without a loss, striking out eight.

SJSU now has a 3-1 record against Pac-10 competition.

'We wanted to win the series, of course," Menges said, "but the wins against a Pac-10 team will look good if we need to qualify for an at-large position in the playoffs."

SJSU first baseman Greg Robles receives a throw in time to nip a Stanford base runner. SJSU won two-out-of-three from the highly-ranked Cardinals.

Spartan grapplers close out season undefeated in PCAA

by Jerry McDonald

The SJSU wrestling team closed out its regular season in high style, beating Fresno State 37-11 Friday night in Fresno.

The win ran SJSU's team record to 20-2-1 on the season and a spotless 5-0 in PCAA action.

As has been the case in all the Spartans' PCAA matches this season, the Fresno State match wasn't

"We wrestled pretty well, I'd say," Spartan coach T.J. Kerr said. "But we could have won at 118 and heavyweight."

The first match of the evening was one of the only Spartan losses, a 23-7 loss by Brian Canali at the hands of Paul Bolanos.

A win by David Barnes followed by consecutive pins by Eddie Baza (134) over Jeff Hasson, Jay Slivkoff (142) over Ron Davis, and Reggie Thompson (158) over Bob Barton gave the Spartans a commanding 23-3 lead.

Randy Davis trium-ohed for SJSU at 158 before Dennis Shea lost by a pin at 167. Shea has wrestled as low as 142 this season for the Spartans.

"That was a little too much of a size advantage against Dennis," Kerr said. "He actually wrestled pretty well until he got

He designs fitness programs to suit a student's goals or to rehabilitate bodily injuries.

Job Fair offers a 'mix of employers

interested in summer jobs can attend the Summer Job Fair from 10 a.m. to 3 p.m. Wednesday in the S.U. Ballroom, where about 100 local and national comwill send representatives.

"There will be a thorough mix of employers there," said Gerald Brody, director of the Career Planning and Placement Center, which is coordinating the program.

Accounting firms anks, engineering and technology companies, retail stores, police and fire departments and city governments from eight South Bay cities, will be among employers sending representatives.

"The majority of the employers are local," said Rebecca Urrutia, coor-Fair and career adviser for summer Career Planning and Placement.

decement. good number will have Urrutia also said many career jobs" in addition.

"Different employers may do different things" regarding employment, Brody said. Some may hire students on the spot at the Job Fair, some may schedule interviews and some may only provide applications spective employees, he

"A resume would never hurt," Brody said, but he noted the Job Fair is designed to be informal. and data sheets are not required.

Brody also said, students do not need to register with Career Planning and Placement for the Summer Job Fair as opposed to other activities which the center sponsors.

Although the emdinator of the Summer Job ployers will all have positions available, Brody said, "A
