SJSU bookstore nixes novel 'Satanic Verses'

By Joel Beers

Daily staff writer "Satanic Verses," the novel that ignited worldwide controversy last week, will not be sold in the Spartan Bookstore.

No reasons were given for the decision announced Friday. The novel, written by British author Salman Rushdie, provoked violence and anti-Western demonstrations throughout the Muslim world for its allegedly blasphemous portrayal of Islam's founder Mohammed.

The bookstore "has no plans" to order the book, according to Pam Pimental, retail computer center man-ager. Pimental made the announce-ment after General Bookstore Manager Nancy McMahon phoned early Friday morning to inform her of the decision.

Neither McMahon nor General Manager Luann Stametz were available for comment Friday.

Although Spartan Bookstore emyees refused to answer questions, SJSU student Marcia Holstrom said she asked for the book on Friday and was told it was unavailable

extremely resent this," said Holstrom, a sophomore majoring in public relations. "I live in the Abraham, a holy figure in Islam,

I want. I resent Waldenbooks, the book's publisher and (the Spartan bookstore). They're all bowing to pressure from a third-world fanatic. It's ridiculous."

A spokesperson for the Santa Clara Islamic Center, Tawsiq Hosein, said he supported the Spartan Bookstore's decision.

'Thank God for that," said Hosein, a Santa Clara University stu-

"This book is not just an insult to

Hosein said the author also treats

Islam but an insult to all religions,'

nited States and can read whatever Christianity and Judaism, irreverently

"Of course this is a free country, but it should be free for the truth and for justice, not free for awful, derogatory statements about the three great religions," he said. The Spartan Bookstore decision

followed an announcement Thursday by Waldenbooks, Inc. that it will no longer publicly display the book, al-though it will be available on re-

'I'm not for book-banning or anything like that. But I don't want any picketing or bombings (at the store) either.'

Noise distracts students Sounds could be hazardous to students' health

dent

he said.

By Doris Kramer

Da v staff writer

The noise resulting from Rec Center construction is distracting to students both in the classroom and in the dorms

What students may not know is that the noise will not end with the completion of construction.

It will only be a different kind of noise

There are three probable environmental noise sources associated with the eventual opening of the Rec Center, according to an environmental impact report (EIR). Ventilation fan noise, traffic noise and crowd noise are distractions not related to construction and haven't yet affected the nearby SJSU community.

A project the size of the Rec Center usually requires a substantial amout of ventilation equipment. This equipment tends to generate a great deal of noise, and is gener-ally placed on the roof. According to the report, there are cerns that the noise may affect the dorms cor The EIR requires fan noise not to exceed 45 decibels at the dorm facilities. A study showed the noise level of a jack hammer at 50 feet can range from 80 decibels to 95 decibels.

The noise level of the fans is to be kept below 45 decibels at the dorms, which are more than 50 feet away.

According to the report, this is an acceptable level. Unfortunately, the Music and Art buildings are barely 20 feet away from the Rec Center. These buildings are not mentioned in the report.

According to Pat Wiley, student union associate director, the ventilation fans are already in use and have not created a problem yet.

Other concerns mentioned in the EIR include traffic and crowd noise generated by events held at the Rec Center. According to seating projections by architects Hall, Goodhue, Haisley & Barker, the maximum capacity of the center for entertainment events is 5,500 people For a basketball game, the maximum capacity is 4,600 people.

Verbal battles raise issues in upcoming A.S. elections

By Shelby Grad Daily staff writer

The feuding between Responsible Murillo's comments could be echoed Alliance (REAL) party members and by REAL's opponents when the Associated Students Controller Mark campaign gets underway. Murillo at last Wednesday's A.S. Board of Directors meeting may have highlighted some of the key is-sues in the upcoming March elections

meeting Beyond the drama of the debate.

Murillo charged that certain board members were attempting to help the REAL party's chances of re-election by releasing a larger sum of money to minor sports than was orginially allotted

Mark Murillo also criticized REAL members, and specifically McCarthy, of

tion, which will take place March 8 money last year in an attempt to and 9, is Tuesday.

Murillo claims he has no plans to run for any office in the upcoming election.

Exactly what kind of opposition REAL is to face this year will not be However, at least one A.S. offi-cial who ran last year on the REAL

protested to the A.S. at its Feb. 8 meeting, complaining that the freeze was hurting their programs and demanding that the funds be released.

Systematic racism

Black educator speaks

By E. Mark Moreno

Daily staff writer Black Americans face problems that result from systematic racism in a society that fosters a negative self image, a Chicago educator told SJSU students Thursday. Jawanza Kunjufu of African educator told

American Images, a publishing and consulting organization in Chicago, spoke in the Student Union Ballroom as part of SJSU African Awareness Month activities

Kunjufu said the media contribute to the negative self-image of blacks. The media give "the negative, very little about the positive" aspects of the black experience in the United States, he said.

He used the movie "Mississippi Burning" as an example of the ways the media can be misleading. "The reason they (the FBI) were

there was because blacks around the country put pressure on the govern-ment," Kunjufu said. "They were depicted in the movie as the 'great white savior' who saved them. Like Superman or the Lone Ranger."

He also said blacks need to pursue higher education if they want to at-tain success. He pointed out that blacks comprise 86 percent of the players in the National Basketball Association, while only one percent of the engineers and doctors in the U.S. are black.

Kunjufu pointed out that black children make up 8 percent of those enrolled in gifted student programs and 81 percent of those in special education programs. This figure is in contrast to the

mother in Nebraska, normally a frozen tundra. But they didn't get a single snowflake.

Now I was trapped in Chambers, Arizona. The snow began falling around three in the afternoon while I was still in New Mexico, and by seven that evening the storm had all but closed Interstate 40. I was lucky enough to get a motel room for the night. Some travelers weren't as lucky and many tried to sleep in their cars.

I tried to phone my mother to describe my predicament to her and tell her not to worry. Before I left, she made me promise to call once in a while to check in. I wasn't fond of the idea of being babied, but I reluctantly agreed. My brother answered the phone. "How you

doing, bro?" I asked. "Not bad. Where are you, man?" "I'm stuck in Arizona," I said. "Can I talk to

Mom? A muffled silence followed. He came back on

after almost a minute. "Are you sitting down?" he asked. There was genuine concern in his voice.

"I'm standing in a phone booth and there's six inches of snow on the ground," I replied. He took a deep breath. "Mom's in the hospital. We think she's had a heart attack." I was stunned. I felt as though I was having a coronary from the way my heart hed begun to

coronary from the way my heart had begun to pound.

"How long she been in?" I blurted. "Since Wednesday."

'Wednesday?" I screamed. "I talked to her Wednesday.

"She was admitted Wednesday night." He was trying to calm me. "She was complaining about chest pains. We've been waiting for you to call.'

"I don't know when I can get home," I said. "I'm snowed in." "We know. Take your time," he said. "We don't want you to get into an accident.

he conversation ended soon after and I trudged back to my motel room through the

I was afraid. My mother and I hadn't been close since I moved to San Jose. I had known this for some time but always figured there would be time to fix things up between us. Now I wouldn't have the opportunity. I was 500

miles away and trapped. I wouldn't get to tell her how much I loved her,

how much I appreciated what she had done for me. I wouldn't get to thank her for the words.

I also feared that I wouldn't be able to describe dreams and fears to her. I wanted her to know who I was. But my greatest fear was not being able to understand who she was.

"WILL THE LAST SOVIET SOLDIER LEAVING AFGHANISTAN PLEASE TURN ON THE LIGHTS?"

We're turning highways into hell

If even 1 percent of SJSU students would car pool there would be fewer traffic problems,

which be rewer traine problems, and parking difficulties would vanish into the smog. "There are fewer than 50 people who have car-pooling parking permits at SJSU," said Harold V. Manson, manager of traffic and parking parking.

There are 55 more who want to Out of a population of close to 30,000 students, 1 percent more car poolers (300 people), two per car, means 150 more parking places and a ball of a lot lass traffic concention

a hell of a lot less traffic congestion. Commuting SJSU students make up a large amount of the driver-only

autos clogging up the freeways of San Jose. Each day their autos join the massive multi-colored train of

traffic moving at a catatonic pace up and down the interstates

Drivers are paying thousands a year in payments, insurance and

Letter to the Editor

We're not all bad Editor,

I can't help but notice the injustice that may happen to the fast-traveling student. I am a student who frequently travels to class on a skateboard. My right to efficient travel may be taken away because of some "outside aggravators."

I sit here in front of the SJSU lark Library letter, watching some skaters get off on another picture spree with your "transworld" Spartan Daily photographer. I wish to clarify a point. There are two types of skateboarding here at SJSU. There are the street skaters who are doing tricks everywhere and anywhere, and there are traveling skateboarders who merely travel class to class causing no problems. traveling Almost all skateboarders are SJSU students, and nearly all street skaters here are not SJSU students. I feel that SJSU should consider banning (if it bans at all) only these outside skaters who are always in your paper and not the more quiet, less destructive, traveling skaters who attract no attention. I've skated for over 12 years and I can relate to the joy of skateboarding, but I feel the problem is that an old rule is being overlooked: keep the persons who clearly have no purpose here off campus. It's funny how quickly security officers will kick off campus an underpriveleged bum, who is quiet and poses no danger, and yet they don't know what to do with something more obvious. **Ron Powers**

gas, only to sit helplessly on freeways, having nowhere to park

Letters should bear the writer's name, major, phone number and class level. Letters can be delivered to the Daily office on the second floor of Dwight Bentel Hall or to the Student Union information desk

Campus Voice

Think again, sir

Herb Cleaveland is a CSU Long Beach inspector for the Engineering Building. He is replying to a Feb. 15 letter about the lack of racism in America.

It is my opinion that the would-be thoughts of Mr. Ariani are a prime example of ignorance and

Arran are a prime example of ignorance and racism. A perfect one. First, the Republican Party is not a party for the American Democratic Republic, but for the American private sector. It is a party for a certain kind of economy, not for a political system. Res-

publica = public, not private way. Secondly, American racism is extremely, painfully obvious, not only to "Jacksonites" but to anyone who is not into American business, or kissing up to it for survival. Additionally, it is *massive*, it is *deep*. Finally, our racism is the most fundamental cause, not only of our troubles as Americans, but of the whole world's trouble with America

The above is, in turn, also based upon The above is, in turn, also based upon something obvious: What we call civilization is now being "surpassed" in this nation. Not to a better civilization, but to something other than civilization altogether. Why? Because, when all is said and done, when things are really summed up—let's say American style—cities are civilization. Civility, civic "virtues," being urbane, being affectionate to our world itself, is a matter of jurisdiction. The jurisdiction of Rome, or Paris, let us say. How many of us Americans have even us say. How many of us Americans have even heard (with our "higher educational system as it now operates) of the *heart* of Western culture: the idea, born in Rome, of Amor Mundi—love for the world? How many know that the most illustrious Machiavelli, who was ultimately a democrat, said, "You must love your city more than your own soul?" Machiavelli, Mr. Ariani, was also rooted in Mediterranean culture.

Mediterranean culture. What we Americans are doing, as opposed to what we spout alot, is moving into something different than anything known in the past. It is a "new beginning," all right. But it can easily be seen as something other than civilized, maybe even something other than what we have always called human. Bethers decisively anti-human

called human. Perhaps decisively anti-human. Look at our cities, especially the "cores." Poverty, disease, madness, and mayhem. Can this be denied? Who has deepened this reality the past eight years? The liberals? Or those in office?

Little Mr. Carlos Ariani might think a bit about how our so-called "Western Way" is one which until recently was based on, grounded on the private sector, the economic realm. Commerce, private sector, the economic realm. Commerce, economy, is the foundation. But when the foundation is put above the culture which it is supposed to serve, it crushes it; it would be insane to build a building with the foundation atop it. Too bad that our "way" is being crushed in this way. Has little Mr. Ariani, who knows with his studies in finance what side his bread is buttered on, has he ever heard of White Flight (clearly a gift of American business—American realtors using fear to make a buck?) Or our "love affair" with the car to make a buck)? Or our "love affair" with the car (The Greatest Polluter)? It was the car that made the suburbs possible; our flight from cities, from civilization, possible. Look! Run from cities, in cars; pollute the Earth. For what? Our corrupt Pentagon nuclear arms store, and the nuclear terror which your education on this campus will mostly help you to forget moment by moment, day by day. Our "world," the way we feel about it; worldliness, our ability to feel affection for our

world. All of this is a matter of cities and how we regard them. The Earth is not the world. The Earth is our Mother.

In the absence of political leadership, we began fleeing cities—we whites—after World War II. Blacks flooded in. The American Realtor quietly, yet massively aroused fear of incoming blacks. We chose to begin the rat race for money. We chose not to welcome blacks to our cities. We ran. In

cars, polluting everything. "Sad is Eros, lover of cities," said W. H. Auden, a great American poet.

which we throw our hard-earned cash, only to have them hit, ticketed **Andrew Channing** semester. Insurance prices are paralleling the national deficit.

upon reaching campus. Yet most commuters continue to

drive alone. Sure ,there is the occasional car

confines

convenience of car pooling is

But she wasn't the only person I wanted to know. I realized that with the possible exception of the brother I spoke with on the phone, I didn't really know my family anymore. Sure, we all get together for Chistmas and we exchange birthday cards but we don't really computing the birthday cards but we don't really communicate. After my mother was discharged from the

hospital, we spent a lot of time talking. Much of this time was spent arguing, but we were at least communicating. We're headed in the right direction.

Experts say society's future family will be fragmented—I want to get closer to my family before I really lose it.

I had to leave my home to find home.

TUESDAY

Boys of summer to start working out the kinks

Pitchers and catchers report Thursday.

a winter of punts and pucks will soon be soothed by the sound of bat against ball. For the players, though, the soothing began a week or so ago when arbitration hearings began.

Once upon a time, baseball's bosses thought free agency was the economic ogre that would consume their game. While they were fighting that dragon with a variety of techniques — not all of them proper —another monster snuck up be-hind them and took a bigger bite out of the budget than the fanciest free agent could ever hope for.

While the owners could control free agency in ome small, if sometimes shady, ways, they can do nothing about arbitration.

Mike Norris, the old Oakland pitcher, recognized the potential of the process early on. Com-ing off a 22-win season in 1980, Norris went to arbitration asking for \$450,000 compared to the A's offer of \$325,000. Both figures are petty cash by today's standards.

Norris considered the options of the arbitrator — pick either the player's figure or the club's number —chuckled to himself and said, "I am either going to get rich or richer.

He lost the case, accepting rich

And the owners happily list Norris in the "Cases Won" category. Management's victories so far this winter

were against Atlanta teammates Albert Hall and \$6.7 million, three-year deal the New York Mets

(AP) — And now for February's best news: bers and catchers report Thursday. Baseball fans who've waited patiently through Coleman, who wanted a raise to \$950,000 and will have to get along at \$775,000, a raise of just \$60.000.

Losses to Seattle's Steve Balboni, who gets \$800,000 rather than the \$500,000 the Mariners would have preferred, and Houston's Glenn Davis, \$1.085 million instead of the Astros' 8875 000 \$875,000, more than balance that ledger to the players' side

Now though, the fun really begins

Two of the game's premier pitchers, Orel Hershiser and Roger Clemens, are poised to make a frontal assault this week on their clubs' exchequers. Both are scheduled for arbitration hearings on Thursday, Hershiser asking \$2.425 million for 1989, Clemens coming in at a bargain \$2.36 million.

The world champion Los Angeles Dodgers who carry that impressive prefix largely because of the efforts of the marvelous right-hander they like to call Bulldog — are offering \$2 million to Hershiser, a tidy increase from the 1.1 million he earned last season. Boston's offer for Clemens is \$1.9 million, up from the \$1.5 million he got after

winning consecutive Cy Young Awards. Both have reportedly rejected three-year deals, Clemens turning down \$7 million and Hershiser \$6.8 million that was a response to the

gave Dwight Gooden last week.

What do you think of those numbers, Mike Norris?

Now suppose you're the arbitrator hearing the case of Mr. Hershiser vs. the Dodgers and suppose the evidence presented includes a record streak of 59 consecutive scoreless innings, MVP awards in both the National League playoffs and World Series, the Cy Young Award for a 23-8 re-cord and 2.26 ERA and countless other endorsements

How do you rule against him?

Well, the answer to that question is another question. How could arbitrator Stephen Goldberg, who ruled for Davis and Balboni, decide against Andre Dawson a year ago? Dawson was the NL's MVP, coming off a

monster year when he hit 49 home runs and had RBIs while working for \$700,000, well 137 above the minimum wage and well below what he was worth.

Dawson and agent Dick Moss considered the production and asked for \$2 million for 1988. The Cubs examined the same numbers and decided they weren't worth a penny more than \$1.85 mil-So for \$150,000, they went to arbitration. lion

Goldberg listened to the arguments and de-cided the Cubs were right. Dawson lost his case.

So nothing is a cinch win in this process, not even for a pitcher who simply stops giving up runs. Especially when you consider the arbitrator scheduled to hear Hershiser's case.

Cavs no longer victims of NBA 'cadaver' jokes

(AP) - The following dose of the revitalized Cleveland Cavaliers, Cleveland comedy is presented at no charge, courtesy of the Henny Youngman joke book, circa 1947:

who own the best record in the league This is the league of the Lakers

and Celtics, the Pistons and Knicks, the Hawks and Rockets; the league of Akeem and Kareem, Magic and Michael, Dominique and Isiah. And the best record belongs to Cleveland. which employs none of the single name stars

The Cavs are a largely anonymous cast of low profile, high achieve-ment players, directed by soft-spo-ken Lenny Wilkens, who was named to the Hall of Fame last week, two days before directing the East team in the All-Star game. The team is a

reflection of the coach, with a lunch bucket mentality that makes up in production what it lacks in razzle dazzle.

Until now, the franchise was best known for ex-owner Ted Stepien, old knee-slapper who once that seized the town's attention by dropping objects from the top of a downtown building. This clumsy attempt at humor fell somewhat short of the Youngman standard. So did Stepien's propensity for mortgaging his team's future by trading off its draft choices in a series of poorly planned deals

The situation was so bad that the league had to award the franchise

bonus picks as a plum to sweeten terms of the sale to the Gund brothers, who bought out Stepien in 1983. Three years later, they hired Wayne Embry as general manager and he reached into Seattle's front office to import Wilkens as coach. "He knows how to motivate young play-ers and veterans," Embry said. a players' coach." 'He'

For Wilkens, who coached the Su-perSonics to an NBA title a decade ago, the Cavs offered a chance to get back in the action. "I was only in the front office one year," he said. "I enjoyed it and I thought I did it well. I missed coaching, though. I like the excitement of working with young people, of making decisions with two minutes to go, with the game on the line.

Young talent like draft choices Brad Daugherty and Mark Price gave Wilkens instant ammunition gave Wilkens instant ammunition and last year Embry traded for vet-eran Larry Nance. All three were on Wilkens' All-Star roster.

Perhaps no Cav benefited more from the arrival of old pro Nance than Daugherty, the No. 1 pick three years ago, who has shed his "soft" image to become one of the league's best young centers.

"Larry's ability to block shots is uncanny," Daugherty said. "He's back there swatting balls away and that makes it easier for me to play position defense, which is more my game.

The popular perception was that the Cavs were a year or two away. Now Wilkens thinks they may not

Symphony misses the funny bone

By Doris Kramer Daily staff writer

Satirical humor can be entertaining when used appropriately and effectively However, inappropriate satire

and stale humor will irritate and let down audiences

Unfortunately, that was the case in the Feb. 10 performance of P.D.Q. Bach at the San Jose Civic Center, when The San Jose Sym-phony teamed up with Peter Schickle in a not-so-amusing par-ody of the classical composer and symphony

The simple truth is people go to the symphony to listen to quality music performed by professionals.

formance, unsuspecting audience members could be overheard exclaiming their shock and surprise at the satire.

But reality first dawned when Schickle ran up to the stage from the audience. Not only was he at least ten minutes late, but his hair was standing on end and his clothes were in disarray.

George Cleves as conducting the orchestra, but Schickle explained that Cleves was in back haggling over his salary, and he would kindly direct in Cleves' absence.

First of all, not a note was struck

by the symphony until long after 9

By E. Mark Moreno

Daily staff writer Insofar as sex goes, a long standing problem has been the inequality of male and female responsibility towards "protection." The Dell' Arte Players theatrical

group slammed the point home to even the most enlightened and safesex practicing man in "Performance Anxiety," which ran Feb. 9 through 11 at the University Theatre.

The performance, a thoughtprovoking and slapstick rendition of the Players' original production, was part of a physical comedy seminar put on by the troupe at SJSU two weeks ago.

The Blue Lake, California-based artists' ensemble uses masks, clowning and vaudeville in its works. "Anxiety" combines genuinely funny stage maneuvers and corny-funny lines with a message that, while a bit dated, has continuing relevance. continuing relevence.

The story takes place in a dinner theatre where three actors are playing out a scenario which ends reflecting their off-stage up circumstances. Isabella (Joan Schirle) is a supposedly distraught widow who still craves some good male physical contact. She is instantly courted by the sexual opportunist Pantalone (Michael

Bach. His existence, according to Schickle, was supposedly veiled by the Bach family to hide the embarrassment of having a hideously untalented son.

This untalented son composed music slightly resembling the music of J.S. Bach, Schickle said. The only difference was all that was aesthetically great in J.S.'s music was turned into an ear-wrenching ordeal by P.D.Q.

N-81== 010 00+.1

This entire tale of P.D.Q., along with dozens of horrible music scores, were created and copyrighted in a biography by Schickle. The last place one would expect to see a comedy show poking fun

at the symphony is at the sym-phony. The simple truth is people usually go to the symphony to listen to quality music performed by professionals This is not what this audience

got.

They got an evening of stale humor dabbled with purposely dis-torted music. For example, the third snatch of music was titled Canine Canata: "Wachet Arf!." evening of stale

In this repetitively unhumorous selection, Schickle was dressed in no less than a dog costume. Cleves was finally back to directing the orchestra in this number — al-though there was little improvement in the music.

Schickle accompanied the orchestra with various tones of bowwows for five movements. The finale for this masterpeice entailed the dog wetting the distinguished conductor Cleves' leg.

The last selection of the evening 'Concerto for Bassoon vs. was Orchestra." Schickle showed his finesse at the bassoon by splatting spit, showering confetti, and finally blowing up a condom with his bassoon.

The lack of taste in the performance, along with the surprise of paying for a ticket to the San Jose Symphony but not listening to a typical symphony, did not please all of the audience.

Claire O'Briane was displeased that the ticket did not depict the concert as uncharacteristic of the San Jose Symphony. "Just a little vigette of the

humor would have been plenty-,''said O'Briane.''I certainly would have not chosen to see this.

Another member of the audience, Betty Magovan, said she didn't enjoy herself because she wasn't expecting Schickle's type

of performance. "I didn't laugh," Magovan said. "Maybe another time, when and if I was in the mood for this kind of show, I would have thought it funny. "But not tonight," she said. " I

wanted to hear the music of (J.S.)Bach."

feeding three babies at once is hell.

The Players are good at what they o. Although the first act is funny but pointless with its snappy lines, acrobatics, and funny phallic symbols, the second act demonstrates both strongly and hilariously the unfairness of nature.

Daily staff writer Cupid was in fine form - literary form - for the annual Valentine's Day mass entitled, "Love's Not Time's Fool," presented by the San Jose Center for Poetry and Literature Tuesday

Infatuation infested the air as couples, many clad in festive reds and pinks, sipped champagne and nibbled heart-shaped cookies while anxiously awaiting amorous elocution.

'Poets and artists are prisoners of love.'

- Alan Soldofsky, SJSU English professor

The program, which took place in the Loma Prieta Ballroom, featured readings of love poems by SJSU fac-ulty and Santa Clara County Superior Court Judge Conrad Rushing. The SJSU Choraliers, under the direction of Charleyne Archibeque, also presented a short concert of love songs

Alan Soldofsky, executive direc-tor for the Center for Poetry and Literature, acted as master of cere-monies for the event. He set the tone for the evening with his introductory speech, creating a mood of both de votion and friviolity

"We are devoted to our love of language," Soldofsky said. Then, after unveiling the thematic symbol of the evening, a pair of boxer shorts cluttered with hearts, he added,

Hudson verdict wrongly frees lovers of their responsibility

ANGELES (AP) - The multimillion-dollar jury award against actor Rock Hudson's estate award is excessive and wrongly frees lovers of their responsibility to protect themselves against AIDS, critics

Those who praised the verdict said it sends a strong message that people infected by the AIDS virus or other sexually transmitted diseases are responsible for informing their lovers.

Others expressed mixed feelings about the award against Hudson's estate and personal secretary, Mark Miller, in a lawsuit brought by Marc Christian, who was the actor's ho-mosexual lover before Hudson died Oct. 5, 1985.

Jurors found Hudson and Miller engaged in "outrageous conduct" by failing to tell Christian that Hudson had acquired immune deficiency syndrome for months as Hudson continued to have high-risk sex with Christian.

'I'm delighted with the message and I'm appalled at the size of the award," said Rabbi Allen Freehling, chairman of the Los Angeles County Commission on AIDS.

Freehling urged Christian to use the money to establish a foundation

to support AIDS research and education because to keep the money "sounds very exploitive. It has put a tremendous price tag on what he describes loving as a very relationship." The verdict sends a message that

someone is "totally irresponsible" if they fail to tell their lover they are infected by the AIDS virus, Freehl-

ing said. Benjamin Schatz, a lawyer for National Gay Rights Advocates in San Francisco, said the case "sends a dangerous message. It tells people that if they continue to bury their heads in the sand by engaging in un-safe sex and become infected, it's entirely their partner's fault and they don't bear any responsibility.

"The fact Mr. Christian was not infected appears to have been over-looked," Schatz said. "The jury seems to have responded hysterically to the very fear of AIDS rather than the medical facts."

Christian consistently has tested negative for infection with the AIDS virus. His lawyer said that's no guarantee he won't eventually develop AIDS because of his sexual liasons

with Hudson. Tests now in common use almost

Classified

always indicate if a person is in-fected by the AIDS virus within weeks after they were exposed, and in no case longer than 30 months af-terward, said Dr. James Lee, AIS unit director at West Covina Hospital

While it's highly unlikely Christian might still develop AIDS from Hudson, a new test not in wide-spread use shows some people are infected even though they appeared virus-free on common tests, said Dr. Neil Schram, a member of the Cali-fornia Medical Association's AIDS task force.

Under California law, the issue is irrelevant, said attorney Margaret Davis, author of "Lovers, Doctors & the Law," and Tom Coleman, legal director for the Gay and Lesbian Community Services Center in Los Angeles.

'In (many) other jurisdictions, you have to show physical injury as well as emotional injury," Ms. Davis said. "In California, if you can prove (outrageous conduct caused) intentional infliction of emotional distress, you do not have to prove a tangible injury."

Bearmobile on the go

Judy Sommers, a sophomore majoring in advertising, transports "Buford the Bear" on Interstate Highway 280 from a storage area in San Jose to her home. Sommers is storing the stuffed buddy for Paul Bockovn. Bockovn, a junior majoring in advertising, bought Buford for his mother and asked Sommers to keep the animal for him. Sommers told her friend she would be happy to hold the bear. "I love teddy bears," she said.

Novel

From page 1 and Santa Clara University's bookstore, showed all the stores are sold out of the novel and most have ordered a second shipment.

The lone exception was the Little Professor, located on Meridian and Foxworthy. Manager Candy Pratt said the store will special-order the book of the store will special-order the books but not carry them openly.

"I'm not for book-banning or anything like that," Pratt said, "But I don't want any picketing or bombings (at the store) either. Besides, from what I've heard it's not a very

Noise

From page 1 Although the Seventh Street Ga-rage will be open for such events, there will be a considerable increase in traffic near the dorms. Hoover, Royce and Washburn residence halls are nearest to the garages and could

experience the most repercussions. Kim Scow, A.S. personnel direc-tor and a residential adviser in West Hall, is not as concerned about the automobile traffic that will be generated by the Rec Center as she is with the problems the crowds will impose on the dorm residents.

'Crowds going to and from the events are going to pass right by the dorms," Scow said. "This could in-terfere with the students' ability to study and sleep."

Scow is also concerned with the potential security problem that the increase of non-students in the area will create for the dorm residents.

'We have security problems regarding strangers in and around the dorms already," she said. "The Rec Center is only going to aggravate the

Bike

From page 1 hours, why isn't there a concern dur-ing other hours?" Abeyta asked. Jennifer Kessler, A.S. director of

student rights and responsibilities, opposed the 24-hour restriction. "If I'm walking my bike across campus at midnight, there's a greater

possibility of something happening to me than if I was riding," she said. Bicycles would be prohibited in

all campus buildings, including fac-ulty offices, according to the committee-approved recommendation. "This is a safety concern," Abeyta said. "If there was a fire, I wouldn't want a lot of bikes clutter-ing up the halls during an evacua-tion."

good book. The only reason for it's success is all the controversy." An employee for the Phoenix

Bookstore in downtown San Jose said controversy surrounding the novel influenced the decision to order the book.

"We never even heard of the damn thing before the controversy erupted," said employee Joseph Hansen. "We probably wouldn't even had ordered it before, since it was such an obscure book."

A spokesperson for Robert's Bookstore, on 10th Street, said the store does not carry enough trade books to order the novel.

E. Mark Moreno contributed to this report.

problem." According to a study by The SWA Group, an accoustical consulting firm, crowds within the building should not be able to generate noise audible from the outside. They found, however, that noise generated by people outside the facility could be an occasional problem.

SWA measured the sound level generated by a person shouting at 115 decibels from three feet away. The study concluded that noise generated from people shouting could definitely awaken dorm students.

definitely awaken dorm students. "As for noises from the crowds, we won't know about that until the Rec Center opens," Wiley said. An EIR filed by SWA states that the only solution to this potential problem is through policing. The Rec Center will have a se-rious impact on dorm life according

to Larry Dougherty, A.S. vice presi-dent during 1983-84. "The Rec Center is going to se-

riously harm the quality of life for dorm students," he said. "This has not been really taken into consideration by persons favoring the Rec Center Project."

The building restriction would apply to faculty as well as students, Abevta said.

'It would be a double-standard to prohibit student bicycles in buildings but allow faculty bicycles in their offices," he said.

Eloise Hamann, Campus Planning Committee chairperson, said the committee's recommendation may not be that different from what the safety committee originally proposed

"The only real difference I can see is the safety committee gave UPD the right to impound bicy-cles," she said.

An enabling clause states that the restriction will not take effect until bicycle lanes are in place, appropri-ate signs are posted and sufficient bicycle racks are installed.

> "The first step would be self-es-teem," he said. "We need to control the images our children see. need to take an active role in chang-ing books, posters, TV" to reinforce a positive black self-image, he a added.

a possible bone of contention, critics

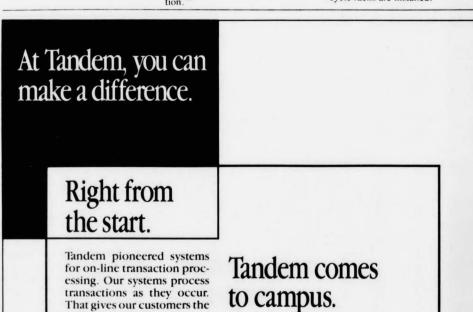

Walters and others who say they plan to run against REAL candidates complain that too many decisions are made by what Walters describes as a 'liberal clique.'' REAL members point with pride

to a diverse slate of directors that include minorities, fraternity mem-bers, and gays, as well as white males

'We represent a cross-section of the campus," Kirmsse said in ex-plaining why REAL has been so suc-

cessful over the last few years. The team elimination agreement between Fullerton and the A.S. proves that REAL philosophy in dealing with administration is a success, McCarthy said.

facing blacks There are 2,000 reasons for the problems. That may be one of them," he said. "I feel that blacks have to take more responsibility on themselves to enter the American mainstream. That is the best way to

What does it mean when the longer they stay in school the worse they do?" he asked the small but enthusiastic crowd of about 50 people.

Problems with education derive from social problems such as teen pregnancies and premature marriages. He envisioned young blacks discovering themselves before accepting adult responsibilities. "You should not get married until

you know who you are," he said. "Get to know your mate before you have children. We do it backwards, we have the babies first.

You cannot build a nation on that. You build a nation on quality, not quantity," he said. Kunjufu also said that blacks need to build their own businesses and

buy goods and services from other blacks.

In combined wages and assets, America's black population holds about \$208 billion, which would make them the ninth wealthiest world power as a separate nation. Of that money, 93 percent is spent in white businesses, he said.

He told of an incident in which a black woman was offered \$800 by a black man for contract work on her house. The woman refused, then accepted a bid by a white contractor who charged \$1,500.

The black contractor showed up at her house on the appointed day and said, "I work for the white contractor. Now I have to charge you \$1,500."

After his speech, Kunjufu offered a solution to problems facing black Americans.

'We need to take an active role in changing books, posters and TV.'

— Jawanza Kunjufu, educator

"It has to be done by everybody: schools, churches, businesses'

Along with other American insti-tutions, the media "reinforces the value system of white supremacy.

Kunjufu responded to some asser-tions made by SJSU English professor Shelby Steele, who drew crit-icism from other black scholars about his essays on affirmative ac-tion and other issues involving blacks. Steele wrote that the concep of "black power" is detrimental to blacks.

"People like Shelby like to blame the victim," he said. "I don't agree. I don't think he fully understands black power.

During the King era, the civil rights movement inspired blacks to

compete with whites, Kunjufu said. "Steele says that 'black power' doesn't give students some incentive," he said.

While both Steele and Kunjufu agree that educational aid for blacks should come "as early as possible," Steele believes racism is only one of many elements involved in problems

fight racism." "I don't think it's the main issue. Achievement is the main issue
