Anthrax halts campus mail

By Colin Atagi

DAILY STAFF WRITER

In light of the recent outbreak of anthrax across the country, mail delivery across San Jose State University was canceled Monday to highlight the necessary awareness about receiving mail, said Lt. Bruce Lowe of the University Police Department.

Representatives from all departments were required to attend a meeting held in Morris Daily Auditorium to learn about what they should do when they 'Don't open it, don't shake it, don't smell it'

receive any suspicious mail, Lowe

Lt. Shannon Maloney of the UPD provided the introduction to the meeting.

The campus police have been in discussions with the San Jose police and fire departments to develop protocols for similar situations, Maloney said.

Some characteristics to watch

out for include no return address, unusual weight or size, protruding wires, strange odors or an unfamiliar origin, Maloney said.

In situations involving suspi cious letters or packages, Maloney said he recommends isolating the letter or package and then calling either the UPD or 911.

From there, UPD officers may contact the fire department and try to learn the origin of the mail,

Assisting AIDS research

More than 1,000 in annual fund-raiser

By: Karlie Reiss

DAILY STAFF WRITER

The thousands of people who participated in the Silicon Valley Walk for AIDS strutted through Guadalupe Park on Sunday. The event was the only fund-raiser for AIDS and human immunodeficiency virus in Santa Clara County.

The Walk for AIDS raised money by

having the participants get sponsors to walk for nine local agencies that help fight and research the AIDS epidemic.

Volunteers swarmed Park Street with the intent to promote the motto: "Educate. Support. Join the Fight."

Red and white balloons lined the 5K

and 10K courses. Clowns were provided to lift spirits. Ice cream sundaes rewarded participants crossing the finish line for the cause. Some San Jose State University stu-

dents strolled through the course laughing and partaking in the positive environment.

Dulce Delgadillo of SJSU's Lamda Theta Alpha sorority was among 45 fraternity and sorority members who attended the event.

"Our sorority does the AIDS walk annually because this event is definitely worth doing," Delgadillo said. "This is personal for me as close friend who died of AIDS. So, I am walking in memory.

Waking up for a 9 a.m. walk on a Sunday morning is not normal for the

Hawaii, **U.S. focus** of lecture

By Fernando F. Croce

DAILY STAFF WRITER

Hawaiian history and U.S. involvement in it are the subjects of a film lecture title, "The United States of Hypocrisy: The Overthrow of the Hawaiian Nation and U.S. Politics Past and Present." The event is scheduled to be held today.

The more serious side of Hawaii may surprise San Jose State University students who think of sandy beaches and moonlit luaus whenever the island is mentioned, said Kath-

island is mentioned, said Kath-leen Zaretsky, a lecturer in the school of anthropology.

"The primary concern (of the event) is to enhance people's understanding of the role the U.S. played in Hawaiian history, and how it relates to the interna-tional scene today," she said.

The event slated for 4:30 n m.

The event, slated for 4:30 p.m. at the Washington Square Hall, Room 4, is open to all students.

Ken Nichols, an environmental activist and documentary filmmaker, will be there to present and discuss clips from his film with a student audience.

"Ken has been involved in preserving the environment, partic-ularly from the North Shore," Zaretsky said. "He is traveling from Hawaii to find an audience among students."

"He will be here for anyone open to learn about the world," she said.

The documentary chronicles the 1893 overthrow of the Hawaiian government by American forces, and the efforts by contemporary islanders to reinstate a native rule, Zaretsky said. Zaretsky said Nichols plans

use Hawaii as an example to take a critical look at U.S. foreign policy and the links operating between militarism and business

David Simi plays the postlude at the end of the memorial service held for Jason Dahl, a San Jose State University alumnus who died during the Sept. 11 terrorist attacks.

Service honors pilot-alumnus

By Lisa Butt

DAILY STAFF WRITER

Sam Corsello, a San Jose State University alumnus, United Airlines pilot and friend of Capt. Jason Dahl said, "I will sorely miss him," after reading a note Dahl wrote in his flight log book in 1978.

Dahl's brother-in-law, Bill Heiderich, said the pain of Dahl's death was so great that he felt he was frozen in time. "This is the most painful experience I've ever had," he

A second memorial service for Dahl, an SJSU alumnus, was held Saturday afternoon at Christ the Good

Shepherd Lutheran Church in San Jose.
The first service was held in Littleton, Colo., where he lived with his wife, Sandy, and son, Matthew.
Dahl was the pilot for United Airlines Flight 93, which crashed in rural Pennsylvania on Sept. 11.

The space in the church was sufficient only for standing room as friends, family and co-workers sang songs and shared stories about him.

Two of the songs that were sung were "Air" and "On Eagles Wing" in honor of Dahl's love of flying. They had the best captain in the world that day," said

David Dosch, a friend and co-worker of Dahl. Pastor Tim Huff compared Dahl to a savior ♦ See DAHL, Page 3

By Hillary Cargo

DAILY STAFF WRITER

Some details have changed in Steven Goldstein's \$20,000 lawsuit against the Board of Trustees of the California State University system.

"I've refined my argument," said Goldstein, a San Jose State University senior and six-year resident of Royce Hall. The lawsuit, which was originally filed in U.S. District Court on July 3, contained charges ranging from viola-tions of Goldstein's civil liberties — most notably his First and Fourteenth Amendment rights - to claims that university housing services has breached its contract with stu-dents based on monopolizing student's telecommunications services within the dorms.

He claims his First Amendment rights were violated

when he was charged with harassment by Steve Ross, who served as Royce Hall's assistant administrator, after leaving numerous voice messages on Ross' answering machine regarding problems he was having with his Internet connection.

Goldstein said his concerns were not taken seriously and the charge of harassment was a form of oppression, which is a violation of his civil rights. "People are too busy and can't think of the fact that they are disrespected," Gold-

stein said in an interview earlier this year. "The university disregards the rights of the students, which undermine the people that they are sup-posed to be serving."

Goldstein states the equal protection clause of the Four-

Letters

All lectures end as noted on schedule

find it frustrating when professors continue to lecture after class has ended. Like most students, I periodically check the time while in class. As the hands of the clock slowly tick toward freedom, I become anxious. I start counting down the minutes, and then the seconds. So when the time designated for that session runs out, but the lecture keeps on going, I'm annoyed.

Not only is time up, but the longer the professor keeps me after, the later I am to my next class. I don't feel it is fair to my next professor, whose lecture is then interrupted by my late arrival. It becomes a "damned if I do, damned if I don't" situation. Either my first professor is upset that I leave before the lecture ends (when class should have ended), or my next professor is irritated that I show

More often than not, the final words of the pro-fessor are drowned out by the shuffle of papers and books as students pack up. The subjects the professor addresses in the final minutes are almost always repeated at the beginning of the next session. So why bother?

Professors, if you are more conscientious of the time, you will have happier students and colleagues.

Erin Norcia

Technical terms make a difference

he Opposing Views article published Wednesday about online music, "Music and film industries suffer economic losses with new online file-sharing systems," was interesting, but there are a couple of points in it that should be clarified.

First of all, musicians and songwriters are not synonymous. The musical activities that most musicians derive income from are performing and teaching music. Relatively few musicians receive any kind of royalties. These correspond to songwriters,

lyricists, composers, etc. — not to musicians per se.

Next, it's unclear whether the article refers to
Sony's product or Sony's technology. "Tape recorders" have been around at least since the '50s, so what's probably being referred to is Digital Audio Tape (DAT). This format has an extremely interesting history of its own.

The music industry lobbied heavily to keep DAT machines off the domestic market due to fears of lost royalties similar to the current concerns described in the article. This was back in the late '80s and

Ironically, the DAT format never caught on with consumers, even after it was made available on the U.S. market. The other formats or technologies being referred to are probably the mini disc and MP3, which do not use tapes.

When far-fetched threats become real

usic was playing. Then a news announcement came over the radio.

broadcaster said possible exposure to anthrax was keeping 80 passengers in a plane on a tarmac at International Airport.

He said a white powdery substance was suspected of having been put into the plane's ventilation system.

No more information followed.

It wasn't until the 11 o'clock news

that some of the details regarding the flight from Chicago to San Jose were explained. Apparently, a man opened a

greeting card.

The unidentified substance was heart-and star-shaped confetti that was stuffed into the envelope.

"It was just confetti, and some ner-

vous passenger made it into a night-mare," Stuart Melton told the San Jose Mercury News as he waited for his friend to be released from the plane. "The more the news media talks about white powder, the worse something like this gets This gentleman brought a love letter on the flight, read it, was going to throw it away, and some lady thought, This looks suspicious."

Passengers were kept quarantined

for three hours after landing. Hospitals were told to be ready for bioterrorist victims. The FBI was called in, and the man who had opened the let-ter was stripped down and hosed off

before being put into a protective suit.

Extreme measures for dealing with a bit of confetti, but Flight 1669 wasn't the only one to be detained because of a false alarm.

Other flights Saturday gave passengers similar scarces

After flying from London to Dulles International Airport near Washington, D.C., 228 passengers and crew members were reportedly sent through decontamination showers after a white powder substance was after a white powder substance was found in the plane's lavatory. Folks headed to Denver from Char-

lotte, N.C., found themselves at Indi-

anapolis International Airport after white powder was also found on board. Officials determined substances on

Officials determined substances on both planes were not hazardous.

Nevertheless, recent outbreaks of anthrax have occurred in three states — Florida, New York and Nevada — and at least 12 cases have been confirmed. Even though officials are treating the might have been exposed

those who might have been exposed to the dangerous bacteria, Sun photo editor Bob Stevens died of inhalation anthrax on Oct. 5 in Florida.

anthrax on Oct. 5 in Florida.

Stevens had reportedly inhaled spores that had been sent in a letter. Before that, no one in the United States had died of inhalation anthrax since 1976.

The good news is anthrax is not

contagious from person to person. In other words, it doesn't spread like the common cold, and those who are exposed to anthrax can avoid infection through antibiotics.
Cutaneous anthrax makes itself

easy to detect because it usually results in a blistery, black skin rash.

Also, Cutaneous anthrax, the most common form of the Bacillus anthracis bacterium, is significantly less lethal than inhalation anthrax. In the wake of recent cases and

countless false alarms, the Center of Disease Control has issued a health advisory explaining how to handle anthrax. The first step is do not panic. This, however, was certainly of little consolation to those who were trapped on Flight 1669.

For three hours, those 80 passengers and their loved ones waiting at the terminal didn't know if their nightmare was just beginning or

nightmare was just beginning or about to end in relief.

For three hours, they were trapped in a worse-case scenario

Although the thought of agents dressed in anti-contamination uniforms complete with gas masks seems slightly over the top for a handful of

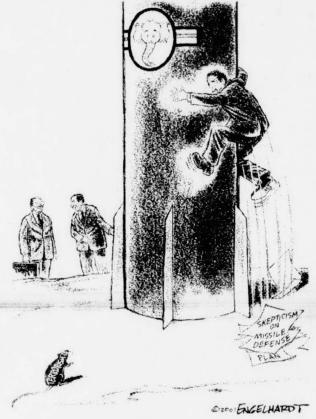

confetti, what's the alternative?
As they say, it's not paranoia when the threat is real.

It's not paranoia when cases of exposure are discovered almost every other day.

It's not paranoia when the country is under a true attack from terrorists. It's for our own good.

Similarities and contrasts to celebrate, coast to coast

up on the East Coast has made me different than native Californians. I have food cravings that people around here don't seem to have, and

Christmas isn't quite the same without snow on the ground.

But I've become a Californian. Now, smoothies and artichoke hearts are on

my list of food cravings.

This weekend, however, I learned a lesson of how different I still am from someone who was born and raised in

California: my cousin Nicole.
She moved to the Bay Area recently, so we decided to meet for dinner this weekend in San Francisco.

I figured that the geographical differences between us would have melted away as we were brought together by a common love of this region.

We both have always been independent and headstrong.
She's traveled to Thailand and Spain, and I've traveled to Croatia and France.

So I was looking forward to seeing how much we now have in common.

Hanging out with my cousin felt more like the story of the town mouse meeting the country mouse, though, except we were East Coast mouse meets West Coast mouse.

I showed up to meet Nicole in Chinatown, 10 minutes late after searching for a place to park my car safely.
She greeted me with a hug and hadn't realized I was late — she wasn't wearing

a watch.

The first differences between us were obvious and superficial at first.

Nicole was wearing earth-toned cloth-ing and sneakers with her naturally

ing and sneakers with her naturally light-brown hair pulled into a ponytail.

I was, typically, wearing head-to-toe black and steel-toe boots, and my dyedblack and purple-burgundy fake braids were sculpted into a bun.

She had ridden her bicycle across the Golden Gate Bridge from Marin County, just to hang out in San Francisco at a four art galleries and to have dipner with

few art galleries and to have dinner with her East Coast cousin.

We locked up Nicole's bike near a church and set out to find a restaurant that would satisfy both her vegetarian tendencies and my desire to not eat in a hole-in-the-wall establishment.

The first place we stopped at was a

where the food was sitting on a countertop, buffet-style.

I turned up my nose and walked out. I

was having visions of insect dung and botulism.

She said that leaving food out didn't

bother her — she'd eaten all kinds of "unsanitary" food in her travels.

When we found a place we were both happy with, I sat down and pulled out my hand-sanitizing gel.

EMILY B. ZURICH

QUOTH THE RAVEN

"Ah, you're one of those people," Nicole

The food was great. It being a vegetarian restaurant, I knew not to fear mystery meat among my noodles. I ate something I didn't even recognize, and it turned out to be a pretty tasty nugget of tofu.

After finishing most of the food, we set out for the souvenir stores.

I'm a sucker; I walked out with X-rated fortune cookies and overpriced incense. My cousin looked at a few iron teapots

and bought nothing.
On our way out of one of the stores, we saw a sign: "America, Open for Business."
Always the capitalist, I smiled and remarked at how I thought that was exactly what this country needs. Nicole explained why she felt that was too commercial.

We threw her bike in the back of my car, which she insisted wasn't necessary, and we drove to an art exhibit in SoMa. The exhibit, at SoMarts Cultural Cen-ter, had a "Day of the Dead" theme.

Everywhere around us were altars dedicated to artists' loved ones and the

victims of last month's terrorist attacks. We were both touched by one piece in particular. It was a makeshift hospital room of sorts, with a gurney, bandages and medicines lying around, and the lights inside were dark red.

At first, I didn't like it one bit. But then

I realized that the theme was healing — healing from death, disease, broken hearts,

broken bones and broken promises.

My cousin said this kind of art exhib-

it was right up her alley. She said she's spent a lot of time at art galleries just Not only that, but she also had no

problem finding other activities to do on her own, such as farmers' markets, walking tours and street fairs.

I thought about what I do on my Sat-

nights: watching movies, sitting around at home, going to video arcades.

When I dropped Nicole off at her

house, she asked me to come up and hang out again soon.
I said, I'd love to, and I meant it.

The U.S. Postal Service, in an online Oct. 15 release, said if someone receives a suspicious parcel in the mail they should not

should isolate the parcel, evaate the immediate area and call a postal inspector to report that a parcel may contain "biological or chemical substances.

and include contact information, the postal service said.

Dr. Bill Murray of the SJSU biology department, and Dr. Patricia Yeung, interim director of the Health Center, were at the

and explained past incidents

"It is not a threat you can per-ceive," Murray said. "Anthrax is a bacterial disease carried in live-

This is the reason why the bodies of dead livestock are burnt, he said.

Murray also discussed the his-

but difficult to (fight against)," he

Three types of anthrax that

exist are pulmonary, cutaneous and gastro he said.

Pulmonary can be inhaled while the others are digested, Maloney said. Cutaneous anthrax affects the skin, Maloney

said pulmonary anthrax (the airborne one) is the

When I heard the person in Florida had pulmonary anthrax, I knew he was already dead,"

Murray said. Murray said anthrax is not

According to the Center for Disease Control, some infections can be prevented with early antibiotic treatment. A vaccine can also prevent cutaneous or gastro infection, though it is not recommended because of possible side effects and allergic reactions, and it isn't readily available.

Regarding the spreading of anthrax around the country, "the problem with mail is people like to tear into it," Murray said.

Postmaster General Jack E. Potter addressed that tendency at a meeting of the National Postal Forum in Denver on Monday.

He told forum participants to watch for letters or packages that lack a return address or have a

vague address.
"Don't open it. Don't shake it.

Don't smell it," he said. Suspicious pieces of mail should be put in a plastic bag and

turned over to authorities.
The U.S. mail is safe, Potter

"We cannot afford for that confidence to erode.

One question that was brought up was whether or not it would be safe to wear rubber

gloves while opening letters.

it. So do we get gloves or is it a departmental thing? I'd really like to know." The Associated Press contributed to this report.

Mail can be sent to areas isolated from crowds where they may be sorted safely, Maloney

try to open it.

The Web site also said people

It would also be helpful to get a list of all the people who touched the envelope or letter

meeting to answer questions. Murray showed slides of anthrax victims to the audience

involving the disease.

stock. Allowing the organism to exist in sunlight (after the livestock dies) will allow spores to produce. Spores are smaller then bacteria.

tory of bacterial warfare.

"Anthrax is cheap to produce.

The spores have to be specially produced to be dispersed and only has to be one micron in diameter to enter the lungs, he

A rolling stone gathers no moss

Bob Dylan returns to his roots at the Compaq Center

By Kemberly Gong

DAILY STAFF WRITER

He stood there, lanky and slim, with his guitar slung across his shoulder and a har-monica in his hand.

As he started to play, the crowd exploded with loud cheers

Bob Dylan played a terrific set Friday night at the San Jose

REVIEW

Compaq Center that was strongly reminiscent of his earlier days as a folk legend.

The 20-piece set opened up with "Wait For The Light To

The crowd was ready to rock. Roughly 5,200 people attended the show, barely putting a dent in the large arena.

The atmosphere was interesting, as longhaired earth mothertypes mingled in the same room with little, bouncing babies and college-age kids, as young and old gathered to appreciate Dylan's soulful lyrics.

Some people at the concert had been listening to Dylan

heard him for the first time that

night.
It's not hard to see why there were young people at the concert, though. His words still ring just as true today as they did 40

As he started an acoustic set

was pulled back to expose a white one.

A glimmer of the youthful optimism reflected in his earlier songs shone through with the lyrics, "You that never done nothin', but build to destroy, you play with my world, like it's your little toy, you put a gun in my hand and you hide from my eyes, and you turn and run far-ther when the fast bullets fly,"

from "Masters of War."
His repertoire throughout the night consisted of a lot of his wartime anthems, such as "Des-olation Row" and "A Hard Rain's Gonna Fall," which spoke of the threat of nuclear war during the

Cold War. With the recent bombings in Afghanistan, it was as if Dylan was a harbinger of the war times to come when he sang, "The

Times, They Are A-Changing."
Unfortunately, the sound at the arena wasn't the best and well, neither was Bob's voice.

He never was one for clear, audible lyrics, but the sound system and echoing auditorium didn't help.

Bob stood there, tall and lean in a luminescent white suit and steel-tipped cowboy

He was still, except for an occasional twitch of his knee, as he stood against a black backdrop and a checkerboard floor.

His band, The Band, was dressed in sober black suits, which completed the contrasting color scheme.

Dylan throughout the whole

The standout musician during the show was Larry Campbell, who switched off between

playing lap steel guitar, guitar and mandolin.

The entire band played with an easy grace of those who know

After 40 years and 45 albums, it's hard not to know Dylan's intense imagery that is buried within seemingly simplistic

Dylan's guitar solos were fair-ly good, though not the most

impressive.
The all-time cool moment was when Dylan broke out his har-monica on the wildly mischie-vous number, "Leopard Skin Pillbox Hat."

The crowd went wild.

The entire floor of the arena was filled with old people danc-ing, young people dancing and the random hippies spinning around in circles.

The distinctive smell of mari-juana saturated the air as old peace-niks packed closely on the floor of the arena to get a better look at Dylan.

They were not disappointed. Dylan put on a great concert that balanced his older songs with his newer songs, such as "Tweedle Dee & Tweedle Dum," and "Summer Days," from his new album, "Love and Theft."

Dylan is a poet's musician, and the show really represented

that consisted of some of his older songs, the black curtain cians and were right on with known by the audience, but with

Bob Dylan performed at the Compaq Center in downtown San Jose. younger ones and explained the lyrics or the sometimes-obtuse story behind it.

He played a five-song encore that included the Academy Award winning song, "Things Have Changed" from the Wonder Boys soundtrack, and "Like A Rolling Stone."

No flights, no tights in new twist on Superman story

VANCOUVER, British Columbia (AP) — Gone are the tights and the flights.

The cape, glasses and dual identity are gone, too.

There's just a teen-age Clark Kent coping with adolescence, his

burgeoning superpowers and the occasional villain.

The WB's "Smallville," which premieres Tuesday at 9 p.m. EDT,

is a fun, creative addition to the Superman mythology. Written by Alfred Gough and Miles Millar, the duo behind the films "Shanghai Noon" and "Lethal Weapon 4," the new interpretation takes view ers back to where Superman's earthly life started — Smallville.

The series opener begins with a meteor shower that brings death, destruction and a small boy to Smallville. In the aftermath, the youngster is found by the childless Kents and raised as their own. The show jumps forward 12 years, Clark (played by Tom Welling) has grown into an awkward, unpopular teen.

He longs for popular cheerleader Lana Lang (newcomer Kristen Kreuk). But when he tries to talk to her, Clark gets weak-

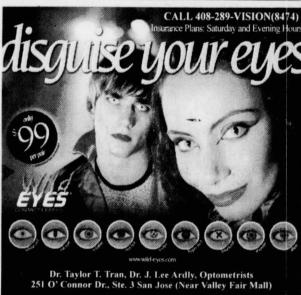

kneed and sick to his stomach. The problem: She wears a Kryptonite necklace

He also finds an unlikely friend in a twentysomething Lex Luthor (Michael Rosenbaum, the transvestite from "Sweet November") after saving his life in a car acci-

dent. "As much as this is a story about Clark's journey to super-hero, it's also the story of Lex's journey to being a villain," Gough

The guardians of Clark's identiy are his adoptive parents (John Schneider from the old "The Dukes of Hazzard" and "Dr. Quinn, Medicine Woman" series and Annette O'Toole, who played Lana Lang in the movie "Superman III")

Schneider as the father is likable and believable. O'Toole provides some continuity for Superman fans since she once before tenanted Smallville as Lana, while Sam Jones III ("NYPD Blue") and Allison Mack ("My Horrible Year" and "Honey, We Shrunk Ourselves") — who play Clark's best friends - provide the show's comic relief.

AIDS

♦ continued from Page 1

average college student, said

Annette Garcia, a student. "It was hard getting up this morning, but once we got here it was easy to get pumped up for the cause because we were surrounded by positive attitudes and a diverse group of young

and old," Garcia said. The participants could pick the local agency their donations would go to, or the sum could be divided among the nine.
"We walked this morning for

the Bill Wilson Center, because it focuses on kids and young adults," said Randy Rullamas of SJSU's Delta Sigma fraterni-

The Delta Sigma fraternity is supportive not only through participating by walking, but also by gaining corporate sponsors, "In the three years that our

fraternity has been doing this we have raised over \$5,000 for the cause," said Jay Reyes, also from Delta Sigma.

The Bill Wilson Center provides services for young people to prevent the spread of AIDS by education and intervention methods.

The SJSU residence halls were also involved by having the staff walk with the residents, Joe Donahue said.

Donahue, a resident adviser from Joe West Hall, said he ran the 10K.

The resident advisers and residents came together for support," Donahue said. "It's hard see all these positive attitudes and then spot a person with a negative message in the

Donahue is referring to man who was opposing the cause of the walk.

At the starting line there was a man with a shirt that said, "No homo's," and a sign that said, "Jesus is coming, turn and repent".

"It's so hard to see bad representatives in a crowd that is so willing to help the cause of What is even harder to

swallow is that he is using Christianity to back his idea, Donahue said.

The only physical memory left at the end of the day was when the last of the walkers crossed the finish line and the band began to clean up.

The only thing remaining was the remembrance quilt that was assembled throughout the

"The quilt is made of squares that walkers are making in memory of the day," said Andrea Lewak from Family and Chil-dren Services. "This quilt will be the first assembled that will in Santa Clara County, and will be available to tour schools or community events.

HAWAII

continued from Page 1

his own experiences in the past decade, from an ex-Marine and a Gulf War veteran to his involvement in environmental activism, she said.

The event, Zaretsky said, is supported by the Agency of Public Affairs for the Reinstated Hawaiian Government, an affiliation created by private citizens whose main aim is to "educate the public of the history of an invaded nation."

According to the group's manifesto (www.reinstated.org), the program aims to "rebuild a nation, one step at a time."

Zaretsky said the presentation

should have an added interest in context with the international scene of today.

"We had planned the lecture prior to the Sept. 11 tragedy," she said. "The course of events since then gives the whole thing a new immediacy, because I think the film analyses many of the foreign policies in use right now.

Jan English-Lueck, chairwoman of the school of anthropology, said the subject of the lecture is an important "untold story."

"Few people even heard of it," she said. "And I think it is full of rele-vance on many levels for students and anyone interested in what goes on in the world."

More information about the event can be found at (408) 924-

Earthquakes one win away from finals

Landon Donovan of the San Jose Earthquakes tries to dribble past the defense of Carlos Llamosa of the Miami Fusion. The Earthquakes won Sunday's playoff game by a score of 4-0. The Earthquakes need another victory Wednesday in order to advance to the Major League Soccer Cup Finals.

This is the first time San Jose's pro soccer team has past the first round in the postseason

By Clarissa Aljentera

DAILY SENIOR STAFF WRITER

This season's biggest test for the San Jose Earthquakes will be

Wednesday in Florida. They must win the semifinal game against the Miami Fusion

to move on to the Major League Soccer Cup on Oct. 21.

The Earthquakes forced the third game of the best of three series after shutting out Miami

4-0 Sunday at Spartan Stadium.
San Jose, which is seeded
No. 5, began its quest for the cup
after defeating the No. 4 seed, Columbus Crew, 3-1 in the first game and 3-0 in the second

The Earthquakes then faced Miami, the top seed, and lost the first game 1-0 before winning the

Fusion coach Ray Hudson said the final game of the series

would be tough.
"These are the two best futbol teams in the MLS," Hudson said. We needed the go-ahead goal and we created chances, but we

Earthquakes forward Landon

Donovan scored in the 16th minute to help ensure San Jose's victory Sunday.

Donovan took the feed from

midfielder Manny Lagos at the top of the box and fired it past Miami goalkeeper Nick Riman-Nine minutes later, Fusion

forward Diego Serna got caught up in a tangle with Earthquake defender Zak Ibsen, which culminated with a red card being dealt to both players.

Ibsen and Serna's legs became tangled and Ibsen kicked Serna several times as Serna rolled off before they were ejected for ungentlemanly conduct.

The barrage of goals against the Fusion came in the second

Earthquakes midfielder Ian Russell scored in the 57th minute. Later, Lagos and Dwayne DeRosario capped off San Jose's rally with a goal each to seal the fate of the Fusion.

The Earthquakes outshot Miami 21-6. Miami had 12 fouls while San Jose had 15. Fusion defender Ivan McKinley was ejected in the 74th minute when

he collided with Donovan. The Fusion will play two men down in the next game.

"You take the reds out of it and I still think we win the game," Earthquakes coach Frank Yallop said.

The game wasn't anything made of statistics, but of a physical nature.

"They played the first half without Serna and we beat them," Earthquake Richard Mul-rooney said. "They have played without players before and they are the No. 1 seed in the tourna-

This is the first time the

continued past the opening round. In 1996, they lost to the Los Angeles Galaxy in the first

If San Jose wins Wednesday in Miami, they will advance to the MLS Cup and play the winner of the Chicago-LA winner series in

Columbus, Ohio.
At this time last year, San
Jose was sitting at the bottom of the league and preparing for the 2001 season. The Earthquakes picked up defender Jeff Agoos and forward Landon Donovan in the off-season and replaced Lothar Osiander with Yallop.

Mulrooney, who has been with the team since 1999, and Wade Barrett who has played for San Jose since 1998, said the changes during the off-season were instrumental in bringing the Earthquakes (14-7-6) this far

into the playoffs.

"All the pieces need to be changed a little bit," Mulrooney "Everything needed to be changed.

Barrett agreed with the fran-

chise's changes.
"During the off-season we got a new coaching staff and new players," Barrett said. "We reached the goals and extended them."

Barrett said the team set goals to make it to the playoffs. Once they reached the postseason, the team had its eyes on the MLS Cup.

Lagos, who joined the team this year after being traded from the Tampa Bay Mutiny, knows San Jose still has a battle to face on Wednesday.

"The last game won't be as easy as tonight," Lagos said. "We can't play like we did last time. We have to try and come out with more focus and concentration

Soccer teams experience ups and downs in the Southwest

By Chris Giovannetti

DAILY STAFF WRITER

No one said the season would

That's just what the San Jose ate University men's and women's soccer teams are finding out after splitting a pair of weekend road conference games. Last year, Gary St. Clair's men's

squad went through the Mountain Pacific Sports Federation schedule undefeated, but have a different taste in its mouth after Friday's MPSF opener — a 1-0 loss at the University of Nevada-Las Vegas.

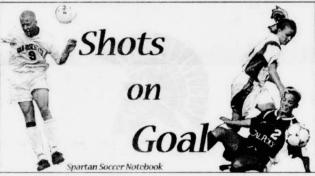

"We played our best game of the year on Friday. We played well and dominated the opponent but they got a late score while we couldn't find the back of the net," said St. Clair, whose team outshot the

Runnin' Rebels 15-6. "If you play well, you'll win games nine out of 10 times. Friday was just that one time. All I want is the guys to play well and come out and play hard."

Down in Texas, the women's team had a tougher time. Literally.

Head coach Tamie Grimes said she was pleased to see her Spartans pull out a win against the University of Texas-El Paso on Friday, 3-2, on a field she considered less than par for a college match.

"We didn't play too well, but we played well enough to win. When you're on the road, that's what counts," Grimes said. "UTEP isn't an easy place to play at. The field isn't all that good. It's like a bad high school field. They're also an aggressive team, so the game was slow with all of the fouls they com-

mitted. We're just happy we came out with a win.'

The trip home was soured by a 4-0 defeat to Southern Methodist

University on Sunday. The Mustangs scored three sec-

Williams to reach first after strik-

ond half goals and outshot the Spartans, 25-5.

Both teams were forced to play two matches in three games. A factor both coaches said limited

We traveled on Thursday and again on Saturday and ran out of steam against SMU," Grimes said. "It showed in the second half. We can do better on road trips, but we're happy to come home 1-1." St. Clair said his team was also

tired from traveling, but the Spartans rebounded on Sunday after making a 575-mile trip from Las Vegas to Albuquerque for a 1-0 win at the University of New Mexico.

Dylan Pender scored his first goal of the year to send his team back to San Jose happy.

"It's tough playing your second game in three days," St. Clair said. We played the Sunday match with heart and it was a nice rebound."

The men's squad plays just one

University on Oct. 28 and at the University of Hawai'i on Nov. 1. Job Search!

San Jose State University is an Equal Opportunity/Affirmative Action Title Demployer, committed to creating a community in which a diverse population learn and work in an atmosphere of inclusion and respect for each individue

backed up his words with another potential MVP season, hitting .342 with 38 home runs and 120 ing out. And in the fourth, NEW YORK (AP) -But Giambi also was part of two plays in the field that cost the Giambi's throwing error on a pickoff attempt put Chuck With one out in the third, he Knoblauch on second. Both runners eventually scored and the A's lost by two couldn't scoop a throw by catcher Greg Myers, allowing Bernie

Yankees steal series from A's, may take Giambi as well

Giambi was focused on his immediate future — trying to get the Oakland Athletics to the next round of the playoffs. The reigning AL MVP led with his bat, going 4-for-4, while chal-

lenging his teammates to perform in the Athletics' 5-3 loss Monday night to the New York Yankees in the deciding Game 5 of their firstround playoff series.

Now, the question is: Will he become a free agent and join the Yankees?

Giambi drove in two runs. He also confronted Miguel Tejada, who failed to advance from first to third on Giambi's RBI single in the fifth inning.

In the Athletics' typically loose style, Giambi and Tejada made up in the dugout after the inning, patting each other's faces

When the A's started their season 8-18, Giambi told his teammates not to worry, that they would win the wild card. He

RBIs. He was at his best when Oakland went 58-17 in the second half, tops in the majors.

Giambi is eligible for free agency. He and the team had reportedly agreed to a six-year, \$91 million contract during spring training, but couldn't come to terms on the no-trade clause that Giambi wanted.

He is rumored to be a favorite of the Yankees, and New York fans throughout the series pleaded with him to come to the Bronx. Giambi, who was 2-for-13 with

a home run coming into Game 5, got the A's going right away with a single in the first inning. Giambi singled in the third,

had another run-scoring single in the fifth and singled off Mariano Rivera to lead off the eighth. He finished 6-for-17 (.353) in the series with a homer and four

Cowboys winners in Monday's 'Gutter Bowl'

IRVING, Texas (AP) - For three quarters, the Dallas Cowboys and Washington Redskins really looked like they were playing the "Gutter Bowl."

Then two of the NFL's worst teams played to an exciting fin-

Tim Seder, whose kicking leg collided with a horse during pregame warmups, made a 26yard field goal as time expired Monday night to give Dallas a

9-7 victory, its first of the year. The Cowboys (1-4) won their eighth straight game against the Redskins (0-5), who lost their first seven games in 1998. The only positive for Washington, which led 7-3 early in the fourth quarter, was the close

The Redskins had been beaten by at least 14 points in every game while getting outscored 135-25.

The wretched records of the once-proud teams prompted Washington defensive end Kenard Lang to give the game its nickname

Lang noted that the franchises that have won a combined eight Super Bowls are in the gutter and "are trying to climb
