

# 'WANHOPE BUILDING' THRILLS AND CHILLS IMPRESSED AUDIENCE

By DICK COX

When the first nighters at the "Wanhope Building" let go of their chairs and started for the door last night, it was generally agreed that John Finch's play is one of the most unusual ever presented here.

From Jackson Young's opening speech to the late-comers to the final scene in Michael's Bar the highly impressed audience sat glued to its seats.

But the show is by no means all serious. The radio quiz program in the first act is good for plenty of laughs. The dialogue throughout is fast moving and down-to-earth, especially the lines assigned to Flashy Page.

Deane Healey, as Page, seemed to be putting all of his energy into making Flashy the cockiest gob that ever pulled on a set of "dress blues." His closing line in the Lobby scene is especially typical of that.

Jackson Young, with his direct explanations to the audience, and his elevator conversations with Flashy, made the theater-goers follow the mood of the author against their own will and judgment.

Clif Roche, as Eddie the tough guy, showed his listeners a totally different Roche than they have ever seen before. A black-jack seemed to fit as naturally in his hand as a lolly-pop in the hand of a six-year old.

Marie Guzzetti, as Mrs. Mead the drunken old woman, was made up superbly. She looked like she might have been borrowed from any bar along Market street.

Stella Pinoris, the scarlet woman, also turned in a very realistic performance. There were many other good acting jobs turned in last night—the housewife, Brown Hat, Mr. Sherman, Joe Light, the quiz master, to mention a few.

Much of the credit for the acting should go to Dr. James R. Clancy, the director, for his careful and thorough work. Late Thursday night at the dress rehearsal he finished checking his student actors scene by scene.

Credit should also go to the crew back stage for the fast changes of settings. Several times during rehearsals the elevator set was lowered into place so fast that it narrowly missed the actors.

In conclusion it should be said that a play with a meaning, and this play definitely has one, sometimes tends to sermonize. But the author, John Finch, holds his audience in a powerful grip from the beginning.

You probably would like this play; you might dislike it; but once you see it, you will not soon forget it.

## SENIOR FEES DUE AT ONCE

"Seniors who intend to graduate in June must pay their graduating fees immediately," announced Bill Ellsworth, senior class president. Also there are seniors who have not made up incompletes. "Diplomas will be withheld unless these matters are cleared up," Ellsworth remarked.

Graduating seniors have until Monday to purchase their bids to the Senior Ball, the president stated. After Monday the bids will be available to all seniors. If there are any remaining Wednesday and Thursday, they will go on sale to the general student body.

"Announcements and personal cards continue on sale," Ellsworth said. "Announcements may be purchased in the Spartan bookshop. Personal cards are on sale in the Graduate Manager's office."

## Silver Saber Releases New Officers' Names

New Silver Saber officers elected Tuesday night include the following students:

Donald Larson, president; Francis Wildman, vice president; John Rodrigues, treasurer; Jean La Lanne, sergeant; and Carl Hofmann, chaplain.

# WHITES ROMP TO 60-26 VICTORY OVER BLUES AS ANNUAL GRIDIRON SPECTACLE CLOSES SPRING DRILLS

The San Jose State White grid team put on a terrific offensive show for some 2,500 fans last night at Spartan Stadium, rolling up a 60-26 win over the Blue squad in the annual spring inter-squad game. There were so many outstanding performances turned in by players on both teams, Coach Bob Bronzan of the Whites and Hamp Pool, who headed the Blue squad, had a tough time singling out individual

stars. Both coaches stressed the fact that if the squad plays the same brand of ball against Stanford next fall the Indians will be in for a tough afternoon.

Bronzan named Chuck Hughes quarterback; Fred Silva, full, and halfback Billy Parton as tops in the White backfield, and end Mel Stein; Jack Faulk, tackle; Joe Juliano and Dick Harding, guards; and Dick Veris in the line.

### BLUE STARS

On the Blue side, Pool had praise for quarterback Gene Menges; Bill Schemmel, half; Jack Donaldson, full; and ends Junior Morgan and Bob Edminster.

"I thought Menges was especially outstanding since this is his first season with San Jose," Pool stated. "He looked like an old hand and passed exceptionally well considering his line was not as strong as the Whites," Pool continued.

"Bill Schemmel also looked very good and has come along much faster than I expected," Pool said. "Morgan was the best all-around end on the field and did some excellent faking on offense," Pool concluded.

### TRACK MEET

The track meet score resulted mainly from a man to man defense that did not change with different offensive patterns. As Athletic Director Tiny Hartranft stated before the contest, "Look strictly for an offensive battle."

The game went the regular 60 minutes, but no break was taken between halves, and the kickoffs were eliminated since the coaches wanted no unnecessary injuries.

### NIGHT'S SCORING

The night's scoring went as follows: After eight minutes of play in the first quarter, right  
(Continued on page 8)

## EDITORS GET COUNCIL OK

Robert Moon and James Mapes, appointed co-editors of La Torre's 1949 issue by the Student Council Monday, will select the Business Manager for the yearbook publication at some later date, according to Emerson Arends, student body president.

Miss Michael Overhulse, recommended by the Journalism department for editor of Lycurgus magazine, received the approval of the Student Council for that position.

Miss Overhulse will take over direction of the campus publication for the fall quarter edition.

The spring issue of Lycurgus, edited by Al Campbell and Marian Ellis, will be available for purchase on Wednesday, June 9.

## FIRST ANNUAL MILITARY BALL IS TONIGHT

Gardenias and sabers are the decoration theme for San Jose State's first Military Ball to be held tonight in the Hotel Sainte Claire's Empire Room, according to Jack Fowler, Silver Saber society president.

### SABERS

Two 15 foot sabers supported by lattice work of gardenias will grace the ball room entrance. Blue lights will be aimed upon a knight's head suspended from the ceiling, and the entire ball room will be illuminated by indirect lighting.

Ronald King, Louis Vieira, Danial Hernandez and Francis Wildman are the students who will work their magic to transform the Empire Room into elaborate surroundings suitable for a Military ball.

### GALS AND GARDENIAS

Approximately 200 couples are expected to attend the dance. Girls will help to carry out the theme by wearing gardenias. The cadets will be in dress uniform and attendants will wear white gloves and sabers.

Major General Ralf C. Smith, commander of the Reserve Officers' association in California and Nevada, and Brigadier General George A. Taylor, retired, will be among the guests of honor.

### BROADCAST

Station KSJO has donated 15 minutes time as a public service to broadcast part of the official ceremonies which will follow the grand march at 11 p.m.

The ball, sponsored jointly by the Silver Saber society and the Torch and Sword fraternity, will feature the music of Paul Putman's orchestra. The sponsors hope that this ball will become the outstanding social event of the year.

## Frat To Initiate Nine Sunday Eve

Installation of newly-elected officers and formal initiation of nine pledges into Alpha Phi Omega, national service fraternity, will take place at Lucca's Cafe in Santa Clara Sunday evening. Harry Miller, vice president, asks members and pledges to meet in front of the Student Union at 6:30 p.m.

The ceremonies will be conducted after the dinner. The spring pledge class will honor Advisor Rocci Pisano, outstanding member of the year. Newell Johnson will succeed Al Taylor as president.

## Students Required To Return Keys

All students having lockers must turn the keys in to the Information office before the end of the quarter in order to have the locker deposit refunded, Mrs. Edith Huber of the Information office announces.

If the students attend the summer session, however, the keys may be kept until August 6, she said.

## STUDENT BODY OFFICERS TO BE INSTALLED TODAY

### BOOKS HELD FOR OWNERS

According to Miss Helen Dimmick, Dean of Women, a number of unclaimed books belonging to students during the winter and spring quarters have been found. Some owners have been located, and the books returned.

There are two books, however, for whom owners have not as yet been found. Both are books on economics and government.

Anyone having lost books of this type should consult Miss Dimmick in her office to identify and thus recover the property. There are definite means of identifying both books.

## ALL AMERICAN MUSIC TUESDAY

By PAT O'BRIEN

Tuesday night's presentation of all American music by the San Jose Symphony orchestra is an example of one way through which our country's composers obtain hearings. Since it is still difficult for American composers to gain recognition, colleges and universities, unhampered by obligation to a capricious box office, have taken the lead in bringing our artists' work before the public, according to the Music department.

Phillip Greeley Clapp, from Boston, Hubert Klyne Headley, born in West Virginia, George Gershwin, born in Brooklyn, and Howard Hanson, from Nebraska, complete the composers whose work will be heard in the Morris Dailey auditorium under the direction of Dr. Lyle Downey, Music department head.

### HARVARD

Clapp received his doctorate in Philosophy from Harvard in 1911. Since 1919 he has been head of the Department of Music at the State University of California Summer Sessions—1926 and 1929 at Berkeley, 1927 at Los Angeles.

### C.O.P.

Headley graduated from College of the Pacific in 1928. He taught and supervised music in several California cities. The winter of 1936-1937 he spent at the Eastman School of Music, from which he received a Master of Music degree in 1937. Since 1939 he has been at the University of California at Santa Barbara, where he teaches composition and theory. Mr. Headley's symphonic suite, "California," was chosen by Pierre Monteux to open the Golden Gate Exposition in 1941.

### GERSHWIN

Gershwin's childhood was a struggle and afforded little opportunity for music study. At sixteen he went to work for J. H. Remick as a song plucker, but soon began writing songs of his own. He achieved great success in the musical comedy field with such hits as "Lady, Be Good," "Strike Up the Band" and "Of Thee I Sing."

Installation of newly-elected Associated Student Body officers will precede the annual Recognition Assembly today in the Morris Dailey auditorium. The time scheduled is from 11:30 a.m. until 1:10 p.m.—classes will not be dismissed.

A total of 125 San Jose State college students will be presented awards for outstanding work. Those named in yesterday's edition of the Spartan Daily are asked by Chairman Tom Wall to be present today at 11:30 and sit in the front center section.

Student Court and Council members, past, present, and incoming, are also requested to attend the assembly.—Wall will make all presentations.

The breakdown of awards and certificates was not available for publication yesterday—ten different types will be given.

They are: Meritorious Service awards, Elected to Office certificates, Jules Bozzi award, Scholastic awards, Key club awards, Modern Language awards, Phelan awards, Alpha Al Strat awards, Forensic awards, and the Lanini awards.

Wall won the recent ASB election after defeating Joe Juliano in the run-offs and other candidates in the primary election. Bob Cronemiller will be installed today as vice-president of the student body; Bruce Craig as treasurer; and Dolores Arnold as secretary.

### Grade Box

Beginning Wednesday, June 9, for one week, a box for grade envelopes will be placed outside the Information office.

Grades will be mailed to those who drop one of the special envelopes and a nickel into the box.

Students may use their own stamped envelopes as long as they are the standard size, Mrs. Edith Huber of the Information office announces.

## OFF THE WIRE

By UNITED PRESS

Edited by PAUL VON HAFSTEN

WASHINGTON—The House yesterday passed and sent to the Senate the \$3,686,733,150 bill for the world's biggest navy. It also passed a bill giving several million dollars for 32 river and harbor and 14 flood control projects. The House also received the Senate-passed bill which would admit 200,000 displaced persons for two years.

TOKYO—Concern was felt here over the Congressional lack of action and failure to appropriate \$150,000,000 for Japanese rehabilitation to revitalize her economic structure.

WASHINGTON—Senator Henry Cabot Lodge, Jr. (R., Mass.), demanded yesterday that the armed services get together on strategic plans. Treaties of friendship, commerce and navigation, with Italy and China, were ratified by the Senate Wednesday evening.

PORTLAND—Flood conditions were still critical and threatened to add more death and destruction to the Pacific Northwest's greatest disaster.

LAKE SUCCESS—The UN authorities predicted that it would be a week or 10 days before the temporary truce in Palestine went into effect.

BERLIN—Dr. Harry Franklin, deputy chief of the Civil Administration and political affairs of the AMG, was freed by the Russians who had held him for 16 hours to check his identity papers.

TEL AVIV—While the United Nations still hoped for peace, warfare still raged in all sections of Palestine, especially in Jerusalem.

"Did you ever see anything grow like that ivy?"

## REPORTS FORESEE PLENTY OF JOBS FOR 200,000 GRADUATING SENIORS BUT IN LIMITED NUMBER OF FIELDS

The U.S. Board of Education and the Bureau of Labor Statistics forecast recently that there will be "plenty of jobs" available for the more than 200,000 students graduating from colleges and universities this month, "but not necessarily the kind they are looking for."

The overall situation for the job outlook is "highly promising," reported the Bureau of Labor Statistics. The agency's commissioner, Ewan Clague, predicted the total U.S. employment this summer will surpass the all-time record of 60,000,000 jobs reached last year.

### PICTURE PROMISING

Although the picture is a promising one, it definitely does not guarantee graduates a "good job in just the field they want to enter," according to BLS' statement to the United Press.

This federal agency reported "very good opportunities" for doctors, dentists, nurses, laboratory and X-ray technicians. The budding lawyers, however, are warned that the legal profession is "somewhat overcrowded and likely to become more so in the next few years."

### COMBINED REPORT

Dr. Robert N. Bush of the Stanford Appointment Service, in commenting on the combined reports of the U.S. Board of Education and the Bureau of Labor Statistics, explained in the Stanford Daily:

"The fields in which the demands for workers are most active are accounting, office work and office management, sales, banking and finance, insurance, retail merchandising, engineering, chemistry and physics, manufacturing, public service, teaching, jobs abroad, and medicine."

## Hear From There by Louis Noia

### Common Ground

"Theologians today recognize science as the common ground of understanding between its own views and the people to whom it speaks," declared USC professor, Donald H. Rhoades, in the May 6 issue of the Daily Trojan.

"Psychology and theology are two sciences which deal with the same material, but which have different viewpoints," he said. Psychologists deal with human behavior with the use of specific scientific approaches, whereas theologians approach the problems of human behavior via beliefs and commitments termed religion."

### No Legal Force

Part of an article in the Daily Californian:

"Those who claim racial prejudice and discrimination can't be abolished through use of legal force haven't a psychological basis for their belief," declares David Krech, assistant professor of psychology. "You see, many people assume legal force is never justified in changing people's beliefs. This is sheer, unadulterated, pseudo-scientific nonsense."

### Motor Running

Something brilliant from the University of Miami Hurricane:

"Her lips quivered as they approached mine. My whole frame shook as I looked into her blue eyes. Her body trembled as our lips met and I could feel my chest heaving, my chin vibrating and my body shuddering as I held her to me.

Moral: Never kiss your girl in a second hand car with the motor running."

### Push-Car

Something new in contests from the Michigan State News;

"Twenty-one teams will puff their way around the circular drive from the starting line at the Women's gym in the first Spartan Push Car relay at one tomorrow afternoon.

The race will be conducted in three heats of about seven teams each, with the two winning cars in each heat competing in the finals.

Carts, soapboxes, baby buggies, and other vehicles have been entered.

One member of each team will drive, while the five other team members will take turns pushing the car. . . ."

# SJS Classroom 'Concentration' Reveals Array Of Spartans' Nervous Habits

By BOB BODEN

There's many a twitch twixt the cup and the lip, goes a parody on the old saw, but in Sparta's classrooms there's many an itch from chime to chime.

As an instructor drones on into the infinities of the dissemination of knowledge, there is a vast (and in some cases more interesting) field open in observation of the species "student collegiate" under fire.

A glance over a shoulder recently revealed a comely miss alternately pushing and pinching the tip of her nose in her deep concentration. The nose soon took on an inflamed appearance. It became brighter and brighter literally screaming, stop!

Development of such a nervous habit definitely was detrimental to the physical beauty of the nose if not to the powers of concentration.

### HABIT CATEGORIES

Careful observation breaks habits down into those usually performed by men and those common to women.

In one class several girls seemed to be enjoying the dubious food value of fingernail polish as they flaked it off with their teeth. Others were content to stroke eyebrows. The gentle arching movement employed undoubtedly as a beauty aid. Chewing pencil ends was prevalent. Is malnutrition present among Spartans?

As a whole there seem to be fewer habits limited strictly to men. Entwining the fingers and then twiddling thumbs is a male exclusive. Scratching on the scalp and pulling the ear lobe have a predominate male following.

Chewing gum might be classed as a national pastime, but in many cases of both men and women the enthusiasm observed places them as habitual gum-chewers.

### "ARTISTIC" DOODLERS

Doodling is a pastime of long standing which serves to enhance the "artistic" beauty of many a student notebook. In political science, a scholarly character several seats away must have been bitten by the love-bug because his notes were interspersed with tiny hearts.

Possibly few doodlers know that the habit of drawing strange symbols is one of the major symptoms of the schizophrenic. The habitual underliner may have hysterical tendencies.

Tapping on the desk with fingers, crossing and uncrossing legs, entwining legs in the rungs of the chair, looking at the time quite often, winding a watch every few minutes, dropping a pencil or other object on the floor, anything to break the monotony of a lecture may become a nervous habit.

Outside the classroom the nervous habit takes on a different significance, for the element of concentration gives way to leisure.

The pressure it off, but another sort of habit may crop up at this time.

### COIN FLIPPER

Waiting for Russian history, a fellow paced about flipping a coin. Perhaps he was showing his capitalistic strength, but habit it could be. Another student sat leaning against a tree; his eyes were half shut and his hands moved his knees together and back in a rhythmical pattern. You figure that one out!

What does this all mean? Well, it seems that a lot of students are forming habits that may not be dangerous, but certainly do not add to the learning process.

If habits are allowed to accumulate they tend to cast a shadow on the personality—they become so ingrained that some common happening sets the habit mechanism to work. That is what happens to the chain smoker; the coke guzzler.

When a person obtains insight into his own condition a habit is not hard to stop. Take a look around in your next class. Observe for yourself nervous habits of Spartans that are ever-present.

Do you have a twitch or an itch? Are habit mechanisms seeking control of your personality? Could be!

The cynic is one who knows the price of everything and the value of nothing.

# SJS Students Voice Opinions And Solutions Concerning Possibility Of Violence To Right Jewish-Arab Differences

By AL CALDWELL

Futility and death continue to mark Palestine's place in the world today. Many prescriptions have been offered for this sick and war torn area. The press of the U. S. and the world has devoted much time and space recording the progress of this particularly vicious war. Through it all the underlying question has been about the role the United Nations should play.

With these thoughts in mind, State students randomly met on the campus were asked the all important question. "Should the United Nations propose that force be used to settle the Palestine issue?"

The answers:  
Jo Ann Ellison, Speech major from San Rafael, "Yes. This is exactly the situation that the United Nations was established to handle. By its action now in this controversy will the eventual fate of this new world organization be determined."

Arthur Rice, Industrial Arts major from San Francisco, "No. Force wouldn't settle the problem. Perhaps trade embargoes would provide a more adequate solution, but the answer is not more violence."

Moana Riley, English major from Hawaii, "No. That would be a long and deadly step in the direction of World War III. As a general principle I am opposed

to the use of force as an attempted solution in any situation. Differences must be settled on a merit basis. Propositions that must employ force are fundamentally fallacious."

### CONFUSION

Spencer Sato, Radio major from Palo Alto, "No. It would only confuse the situation and make its solution all the more difficult. I feel that trouble should be avoided wherever possible."

Vern Bergfeld, Teacher Training major from San Francisco, "No. There will always be fighting anyway. Talking it over would be much better. I don't think the United States should get into it either."

Johnny Fontana, Police major from Santa Clara, "If no other suitable means can be evolved, force must inevitably be used. However, it should only be used as a last resort because might is not always right. The trouble here is that the differences of the concerned parties are virtually irreconcilable."

### NO FORCE

Al Williamson, English major from Atascadero, "No. Force will settle no issue. The use of force will only delay a lasting settlement. The thing to do is to let the participants go ahead and fight it out and get it over with. Religious issues cannot be settled by arms."

Katherine Tanase, Home Economics major from San Jose, "No. The use of force just doesn't seem to work in any case. You can't force people into doing anything."

Ed Kerr, pre-legal major from San Jose, "Yes. The United Nations should first use economic restrictions, political pressures, and other such peaceful measures. If, however, these measures do not succeed in halting the conflict, then the use of adequate military force to halt the war is indicated."

Don Gaylord, Business Administration major from Palo Alto, "Yes. They have proved that their sense of greed is far more powerful than their sense of decency or respect for humanity. When a peoples go to the extreme to gain their end that these participants have, it's time for someone else to take the power to rule out of their hands."

# Printing Class Writes And Prints Book Explaining Various Therapeutic Methods

Occupational Therapy seniors enrolled in Mr. Hartley E. Jackson's printing class have completed writing and printing a thirty-two page book entitled "The O.T. ABC," according to Mr. Jackson.

"The O.T. ABC" lists in alphabetical order all therapeutic activities carried on in hospitals, mental institutions and child-care institutions by occupational therapists.

# Princess Anne And Former King To Wed In Athens Next Week

LAUSANNE, Switzerland, June 3. (UP)—Former King Michael of Romania and Princess Anne of Bourbon-Parma will be married in Athens with full Greek orthodox church rites late next week, Michael's aide said today.

Maj. Jacques Vergotti said Michael and Anne would take off for Athens in Michael's private plane, with the ex-King at the controls, on the first good flying day early next week. He said the couple would be accompanied by Michael's mother, Queen Helena, and that others in the royal party would travel by regular airlines.

# Douglas Defeats Braden In Primary

LOS ANGELES, June 3. (UP)—Rep. Helen Gahagan Douglas, (D., Cal), who already has won her own party's nomination, defeated Wallace Braden for the Republican nomination on the basis of complete semi-official returns today.

# Maritime Action Committee Sets Rally Defies Police Edict Against Amplifier

SAN FRANCISCO, June 3. (UP)—The Joint Action committee of Maritime Unions scheduled a waterfront rally for noon today and said it plans to use a public address system despite a police ban.

Police Chief Michael Mitchell denied the committee a permit for the loudspeaker in line with the department's decision that such equipment should be used "only in the general public interest."

The maritime unions have threatened a strike June 15.

Defiance of the police ban resulted in the arrest last week of Charles Garry, Independent Progressive Party Congressional candidate, but charges were dropped in Municipal court.

Sepakers at today's embarcadero rally were expected to include Paul Schnur, San Francisco CIO Council secretary; Henry Schmidt, CIO International Longshoremen's and Warehousemen's Union negotiating committee member; Edward Tangen, CIO Marine Cooks and Stewards Union secretary-treasurer and Robert Sherman, CIO Radio Officers Union.

These and other unions went ahead with plans for a nationwide shipping tieup over contract disputes centering on the hiring hall issue despite reports that

# Scientist Seeks Snail Consumer

WASHINGTON (UP)—Somewhere in the steaming thickness of the African jungles is a forlorn American scientist—hell-bent on finding a snail-eater, preferably an awful hungry one. And if he's lucky and succeeds, he's to take the critter to Guam by the fastest route.

This unusual story has just come to light. The authority is one Capt. W. F. Jennings, assistant chief of naval operations for island governments.

The Japs are a snail-eating clan. And when they took over Guam during the war they brought their lunch along. Those snails! Well, the Nips, as you may recollect, later deserted the island in kind of a hurry, leaving a lot of things, including their lunch basket, behind.

American Marines and GI's, with all those cans of beans and delicious Spam in their kits, had little appetite for snails. So what happened! The snails, with nobody to eat 'em, started producing little snails by the millions.

President Truman may intervene to avert the walkout.

# Spartan Daily SPORTS

## FOUR SJ TRACKMEN FLY TO L.A.; 18 IN P.A.A. MEET

By CARL UNDERWOOD

Four Spartan trackmen leave by plane with Coach Bud Winter tonight for Los Angeles where they will compete in the star-studded Compton Relays, while tomorrow, some 18 members of the local squad are co-favorites with the Olympic Club to cop the P.A.A. meet at Berkeley.

Thelno Knowles will defend the 880 meter title he won in 1947; Gene Haynes, who took third last year, is entered in the 1500 meter run, and Woody Linn and Ray Overhouse will represent San Jose in the discus at Compton.

### TOP TEAMS IN P.A.A.

In addition to San Jose and the Olympic Club, Stanford, California, the Oakland Bittners, and probably several U.S.C., U.C.L.A., and Los Angeles Athletic Club cindermen will be represented in the annual Pacific A.A.U. meet.

The Spartans will definitely be bolstered by the return of NC2A javelin champ, Bob Likens, and should pick up plenty of points in the weight events. Woody Linn, Grant Denmark, and Ray Overhouse are out to whip the discus tossers on the coast once again, while Linn is also entered in the 56 lb. weight and 16 lb. hammer throw.

Thelno Knowles and Gene Haynes will fly back from Los Angeles and should finish at or near the top in the 880 and 2-mile events, respectively. Merle Knox will tour the grueling 10,000 meter run, a race more to his liking than shorter distances.

### LA BEACH, MCKINLEY RUN

In the sprints, Don Smalley may enter although he is still bothered by a sore knee. Bob Bingham and Steve O'Meara will also wear San Jose colors, facing such ace dashmen as Panama's Lloyd La-Beach, ancient Barney Ewell, and Don Anderson of California.

Stu Inman will be entered in the 440 along with Jamaica's Herb McKinley who is out to break his own world record of 46.3. Jack and Bill Passey hope to add to the Spartan point total in the 120-high hurdles, while Tom Birmingham should be near the top in the 220-lows.

## PLATTER FACE

RAY OVERHOUSE

Bill Passey, Birmingham, and Dick Fortier provide a strong hop-step-and-jump trio, and in the broad jump, Birmingham once again will compete. Pole vaulter Howard Overhouse and high jumper Connie Varneck complete the San Jose entrants.

Freshman pole vaulter George Mattos and high jumper Ralph Milliman are competing unattached, and Mel Martin, ineligible Spartan jumper who has leaped 6' 3/4" for the Olympic Club, is also entered.

## TULARE PREP STAR SHINES IN THREE SPORTS

SAN FRANCISCO (UP)—Bob Mathias, a 17-year-old Tulare, Cal., High school youth, with the combined talents of a Mercury and an Atlas, will attempt to win the U.S. decathlon championship this summer and go on to London in the Olympic Games.

Mathias, son of a doctor and a senior in school, is regarded by his athletic coaches, Virgil Jackson and Ernie Lambrecht, as probably the greatest all-around athlete ever developed in the West.

Not only is the 185-pound youngster, who stands 6 feet, 1 1/2 inches, a great track and field star, but he is a standout on the gridiron and on the basketball court. He never has tried his hand at baseball or golf—but his coaches think he would be an expert at either or both.

He picked up firsts in the high and low hurdles at the State High school meet recently—and also placed in the shot-put, to win high individual honors.

On the field last fall, Mathias was the outstanding defensive back on his team and a fine ball player; on the basketball court he averaged 18 points per game for the season.

## FROSH NETTERS TRIP BRONCOS

Only two matches were played in the consolation brackets of the All-College tennis championships Wednesday. Cruze defeated Tower, 6-1, 6-1, and Wilkinson defeated Goode, 6-4, 10-8. Goode advanced to the second round with a default from Woody Linn.

### FROSH DEFEAT BRONCOS

Chet Bulwa's frosh tennis team defeated the Santa Clara yearlings 3-2, Tuesday afternoon. This win gives the Spartans victories over the Broncos in two sports this year, tennis and gunnery.

## FRAT TRACK MEET

The fraternities will hold their annual track meet at the Spartan Stadium Saturday. Starting time is 11:00 a.m.

A special baseball throwing contest will be held. It is scheduled to start at 2:30 p.m.

## THE BULL PEN

By ARNOLD WECHTER

The professional baseball world is in a dither over the throwing of a game by the player-manager, Bernard DeForge, of the Reidsville (N.C.) club in the Carolina League.

Baseball, like pro boxing, seems to be coming into its share of dirty linen. Just last year a group of bookies made hay in the Evangeline league. It is hoped that these two incidents won't cause the public to lose faith in professional baseball.

George M. Trautman, boss of the minor leagues, put it pretty well when he said, "After all, we have 16,000 players in the minor leagues, and yesterday's expulsion of two men was hardly typical."

We feel that the clubs in the Pacific Coast League play baseball to their best ability. It is admitted that a few of the clubs have no ability to start with, but they still give out with their best.

Though there is one sore spot in the PCL, that is Hollywood, not the club or the players, but the gambling group that hangs out in the stadium. Baseball writers up and down the coast have said many times that if these lice are not cleaned up trouble would some day blow the league sky-high.

### USF COACH TO JUDGE BABES

A wire story in yesterday's papers stated that Joe Kuharich, head football coach at USF, will judge the Miss California beauty contest to be held June 11, 12 and 13 at Santa Cruz.

We're glad to hear that Joe is getting a break, because we feel that he is going to need the pleasant memories during the coming football season. Nothing like bathing beauties to bring back this type of memories.

### POOR BRITAIN

Again the British have taken a beating in sports, Frank Stranahan, a millionaire player from America copping the British Amateur Golf crown, while Louise Suggs is rated a cinch for the women's version of the crown. Miss Suggs, who hails from Atlanta, will put the last straw on the ever-suffering British.

In almost every sport since the end of the war, the Britons have ended up on the losing side. It must be very discouraging to lose every single time.

There is one sure bet that you can make. That is, if a fighter is English, he will end up in a horizontal position.

### CAL POLY

Cal Poly is really happy this week, since they defeated the Spartans in baseball. You can hardly talk to them! Well, we're happy for them. They don't get many chances to crow over a sports event, and we would be the last person to take away their small pleasures.

## NYGREN, EX-STATE ALL-AMERICAN, APPOINTED VISALIA GRID COACH

VISALIO, June 2—Former San Jose State little All-America half-back Bernard C. (Bud) Nygren has been named head football coach at Visalia college.

Nygren, who starred for the Spartans in 1940, assisted Bud Winter in coaching the San Jose State freshman grid squad last year. He signed a one-year con-

tract to coach both football and baseball.

He succeeds Pete Beiden, who has been appointed varsity baseball coach at Fresno State.

## DeWitt Portal Thanks Faculty, Students For Support In Primary Election

DeWitt A. Portal, physical education instructor at San Jose State college and candidate for second district supervisor of Santa Clara county, expressed his warm thanks today to all the students and faculty who supported him in the recent primary election.

"It was a nip and tuck contest for the run-off position all the way," Portal explained, "until they hit the precincts near the college and Spartan City. When the students' votes began coming in I received the votes that made it possible for me to run in the November general election."

Portal placed second in the four-way race for the supervisory post. Unofficial returns gave him 2316 votes. William S. Pfeifle, write-in candidate, placed first with 4204. Ernest H. Renzel, Jr., and J. J. Veteran, the other two candidates received 1982 and 435 respectively.

"I'm rather new at this campaigning game," Portal said, "and my campaign for the primary election was not too well organized. But I feel that the experience we've gained from the first election will make it possible to really put on a campaign next time that will bring results."

### Prof's Campaign

## Dr. Campbell Pleased With Primary, Says Didn't Expect Palo Alto Support

Earl C. Campbell, Political Science instructor, said yesterday that he was well pleased with the support he received in Tuesday's primary election, and particularly with the support received from the northern sections of the Fifth district.

"I hadn't expected such a favorable vote in the northern part of the district," Dr. Campbell said. "I was particularly satisfied with the results of the voting in Palo Alto," he said. Palo Alto is the home town of the two leading opponents of Dr. Campbell, Raup Miller, former State Assemblyman, and Edward P. Cashel, Palo Alto City Councilman. Palo Alto voting favored Dr. Campbell.

"The election results indicate that the people of the Fifth district are in favor of a sound program of county progress and constructive change," the former San Jose City Councilman stated.

Unofficial results of the voting in the Fifth Supervisorial District are: Campbell, 8800 votes; Miller, 5241; Cashel, 3701; Douglass Whitaker, 1615.

Miller and Campbell will vie for the supervisorial post in the November general election.

When questioned as to whether the office of supervisor would interfere with his college duties or vice-versa, in the event of his election, Portal explained that his teaching program could be arranged so as to allow him ample time to satisfactorily perform both jobs.

"When I was approached by the group of citizens sponsoring me with the request that I run for the position of supervisor, I talked with Dr. MacQuarrie before giving my answer," Portal revealed.

"Dr. MacQuarrie expressed his approval of faculty members taking an active part in civic responsibilities, and he assured me that my program could be worked out to everyone's satisfaction," Portal said.

Portal's supporters are optimistic toward his chances of winning the position of supervisor and point to his statement of policy as the best possible recommendation they could make.

"I've been campaigning as an independent candidate, and shall continue to do so. If elected, I will not be obligated to any individual or to any group. I will follow only the dictates of the people of the second district," Portal has stated.

## Philosophy Prof Receives Position In Oregon School

Sidney Peterman, instructor in philosophy at San Jose State, has accepted a fellowship in the Philosophy department of the University of Oregon.

Mr. Peterman has also been appointed minister of the Unitarian Church of Eugene.

He will begin teaching at the university next school year, but he will assume his ministerial duties this summer.

## SJS Grads Made Members Of SX

Six out of nine graduate students in Biology at Stanford university recently initiated into Sigma Xi, national honorary scientific research society, were San Jose State college graduates.

According to The San Jose Mercury Herald of May 23, two out of eight chemistry students initiated were San Jose State graduates.

Former Spartans given associate memberships to Sigma Xi are: Martin R. Brittan, Beth E. Childs, Laura M. Henry, J. W. Tilden, Joel F. Gustafson, Franklin T. Algard, biology, and Peter V. Peterson Jr. and Arthur C. Wilbur, chemistry.

Associate memberships in Sigma Xi are given to those who have shown an aptitude for independent scientific investigation but have not yet completed major research work.

Kisses are unctuous as oils.  
—Francis S. Saltus

## Lutheran Students Attend Outing

The San Jose State Lutheran Student association will meet at an outing in Santa Cruz tomorrow, according to Rose Neil, president.

All those planning to attend should be at the Immanuel church across from the Ste. Claire hotel at 10:30. Students are asked to bring their own suits, towels and a small lunch. Transportation will be provided.

## Colgate Scholarship Goes To Berkeley Boy

HAMILTON, N.Y. (UP)—Justin M. Roach, Jr., of Berkeley, Calif., today was awarded a National War Memorial Scholarship to Colgate university.

One of 13 men selected from the nation, Roach will receive part of a total of \$80,000 set aside for the scholars during his four years at Colgate, beginning this September.

## House Committee Hacks At Program For Foreign Spending, Half Billion Cut

WASHINGTON (UP)—The House Appropriations committee today hacked \$553,000,000 from the administration's overall foreign spending program.

It allowed \$5,980,710,288 for seven key foreign programs, including the critical European Recovery Program, but warned that the money will have to do for 15 months instead of 12 because:

"The gradual but steady depletion of this country's resources makes it mandatory that Congress take every reasonable precaution to safeguard the dwindling assets and domestic economy of this nation."

In effect, the reduction amounts to about 25 per cent—consisting of the actual cut and the fact that the money will have to stretch three months longer.

The State department wanted to spend \$6,523,710,228 over a 12-month period ending next April 30. European aid chief Paul Hoffman had warned that even that might not be enough.

The European aid program, set up to halt the march of communism in Western Europe, bore the brunt of the committee's economy axe. For this purpose it recommended \$4,000,000,000, a reduction of \$245,000,000.

The committee pared the Greek-Turkish aid program from \$275,000,000 to \$200,000,000, saying the Greek guerrillas will be "substantially if not completely liquidated by the end of this summer."

## Lycurgus To Be Placed On Sale Next Week Eight Additional Humor Pages Included

Lycurgus, San Jose State campus feature magazine, will go on sale next week, Marian Ellis, editor, announced today.

An increase of eight pages of humor in the form of cartoons, gags, and illustrations will be an added attraction in the sale of the book.

Wednesday, June 9, is the date set for the opening sale, reports Jim Black and Sal Millan, sales managers. Booths will be placed at convenient points throughout the campus where students may purchase their copies for 25 cents each.

## Dr. Moseley, Nevada U. Prexy, Will Speak At Baccalaureate; Grads Must Attend

Seniors graduating in June are expected to attend Baccalaureate services on June 13, according to Bill Ellsworth, class president. Guest speaker Dr. John O. Moseley, president of the University of Nevada, will give the sermon at 3 p.m. in the Morris Dailey auditorium.

Senior week activities, as announced by Ellsworth include:

**Saturday, June 12**—Senior Ball in the Gold Room at the Palace hotel in San Francisco. Bids are now available in the Graduate Manager's office.

**Sunday, June 13**—Baccalaureate in the Morris Dailey.

**Monday, June 14**—Senior Day at Hidden Valley Dude ranch. Assemble at Student Union at 10 a.m.

**Tuesday, June 15**—Senior picnic at Seaciff, free to seniors. Assemble at Student Union at 10 a.m.

**Wednesday, June 16**—Informal faculty reception in the inner quad, 3-5 p.m.

**Thursday, June 17**—Senior banquet at the Scottish Rite Temple, 6:30 p.m. Seniors will be admitted free. Guests will be charged.

**Friday, June 18**—Commencement in the stadium. Seniors must assemble in the Stadium field house by 3 p.m. for roll call. Failure to do this will exclude a senior from participation in the exercises. Dr. MacQuarrie will open the exercises at 4 p.m.

## Schedule Set For Graduation Exercises Friday

"The College Year" will be the speech given by Dr. T. W. MacQuarrie at commencement exercises in the Spartan stadium Friday, June 14. Exercises will begin at 4 p.m.

"Seniors must assemble at the stadium field house for roll call at 3 p.m.," announced senior class president Bill Ellsworth. He warned that failure to do so would mean exclusion from participation in the exercises.

Rehearsal schedule for seniors is: Baccalaureate, Little Theater, Thursday, June 10, at 11:30 a.m.; Commencement, stadium field house, Wednesday, June 15 at 8:30 a.m. All candidates for graduation must attend both rehearsals. Candidates who do not participate in the exercises are not excused for final examinations.

The faculty committee reports that "You are to be on time for all rehearsals. Since you will stand and march during rehearsals for more than an hour, requests that you dress appropriately. Do not carry articles."

Tutors should behave reverently before their pupils.—L'Estrange

## Library Arts Room Adds Six New Mags; Collection Now 85

Added to the collection of 79 magazines in the arts room of the library are six new ones, according to Miss Maude Coleman, arts librarian.

American Fabrics, a quarterly magazine, contains designs and the actual examples of fabrics. It is dedicated to the belief that fashion begins with the fabric, and that the American textile industry casts a major influence on the economic and social aspects of the world in which we live.

The international journal, Graphis, is published in Switzerland and is written in the English, German and French languages in the same issue.

Also on hand is The New Colophon, a book collector's quarterly. The other magazines added are the Californian, fashion magazine, Dance Index, concerned with music and dancing on the stage, and Hobbies.

## SF Schedules Track Reduction For New Buses

SAN FRANCISCO, June 3. (UP)—Market street's double trolley track operation—a landmark in San Francisco—will be reduced to make way for buses next Sunday.

The two outer rails will be discontinued west of third street for the first time in many years as lines No. 5 (McAllister) and No. 21 (Hayes) are converted to all-bus service. The two inner tracks will continue to operate.

The last two street cars to travel over the lines Saturday night will carry banners: "Headin' for the barn for the last time—and it's high time."

The Hayes and McAllister lines will have 55 new buses purchased with the \$20,000,000 bond issue voted last November.

## Annual Engineering Society Barbecue Tonight; Profs' Bike Race Featured

Scheduled for this evening is the annual barbecue of the Engineering society, with co-sponsor Aeronautics club, to be held at Alum Rock Park.

An afternoon sports contest will begin at 3 with a baseball game between the two groups. Outstanding feature of the occasion is a spectacular bicycle race between "Hot Peddles" and "Whiz Wheels," Dr. R. J. Smith and Mr. D. L. James respectively.

All members of the clubs planning to attend are requested to sign up on the door of the Engineering office. An important meeting to discuss final plans for today's activities will be held at 11:30 this morning in S210, announces Frank Delfino, vice president of the Engineering society.

## Bookkeeper Beats Boss's Bankroll For Boy Friend's Bus

LOS ANGELES, June 3. (UP)—A middle-aged head bookkeeper was accused today of stealing \$40,000 in regular raids on her employers' accounts to buy, among other things, a car for her 28-year-old boy friend.

Mrs. Marie Owens, 45, admitted taking \$9500, police said. She denied stealing the other \$30,000 and guessed somebody had added incorrectly.

The comely brunette said the money went to pay a hospital bill and buy a car for her young boy friend. Police are looking for him.

"I was going to pay the money back," she told police, "as soon as I was able."

Mrs. Owens was arrested yesterday on complaint of the downtown jewelry store where she worked. A spokesman said she had been pocketing from \$100 to \$500 amounts regularly over the last two-and-a-half years.

She covered the shortages, the spokesman said, by manipulating credit accounts.

"My goodness," Mrs. Owens said, "I've never been in any trouble in my whole life. But don't involve my boy friend. He had nothing to do with it."

Knowledge is like money, the more a man gets the more he craves.—Josh Billings.

## Chinese Youth On Way To US College In Honor Of Buddy

SAN FRANCISCO, June 3. (UP)—An 18-year-old Chinese youth was on his way to an American college education today as a memorial to Mac Cook, a buddy who was killed in battle in France.

Zee King-Tao, who arrived here yesterday aboard the transport General Meigs, is the son of an American Express guide in Shanghai. He was met by Cook's family, Mrs. J. B. Cook of Memphis, Tenn., and her daughter, Betty. The cooks are sending him to Harding college in Searcy, Ark.

## Chi Pi Sigma Has Saturday Banquet

The sixth banquet of the Chi Pi Sigma will be held at the De Anza Hotel June 5 at 8 p.m. The story behind the scene started in 1942 when the San Jose State police school was breaking up.

Peter Kristovich, assistant professor, was president of the Chi Pi Sigma when its members vowed to meet once every five years.

**WHITES OUTSCORE BLUES**

(Continued from page 1)  
half Harry Russell sprinted 20 yards through center for the first White score.

Billy Parton climaxed a 58 yard White drive, including a 35 yard pass from Chuck Hughes to George Keene, by driving over from the 4 yard line for a second tally.

A floating 30 yard pass from Pete Denevi to end Mel Stein brought the score to 20-0, and Fred Mangini plunged over for the fourth tally from 4 yards out as the first quarter ended.

**WHITES LEAD 40-7**

Steve O'Meara ended a 35 yard drive to open the second period with an 11 yard burst through center for another score, making it 34-0. The Blues finally hit pay dirt after a White fumble when Bill Schemmel scored from the 1. Hughes hit John Lankas who was all by himself in the end zone to make it 40-7 for the Whites at half time.

Schemmel scored again for the Blues on a beautiful 30 yard end run to open the second half, but three minutes later a pass from Hughes to Marvin Johnson ran the score to 47-13. The Blues came right back as Schemmel scored for the third time from the 2.

A 70 yard White march ended with Parton sweeping right end standing up for another tally, the final score of the third quarter, making it 53-19.

**FINAL SCORES**

Fred Silva climaxed another drive of 69 yards by scampering over from the 10 for the final White TD.

Gene Barbier of the Blues ended the night's scoring when he romped over the goal standing up after taking a lateral from teammate Ed Johnson, the play going for 30 yards all told.

**Crosby, Blondell In Final SK Film**

The Spartan Knights' last production of the year will be "East-side of Heaven," starring Bing Crosby and Joan Blondell. The program will begin at 8 o'clock Sunday evening in the Morris Dailey auditorium. An old-time Stan Laurel and Oliver Hardy two-reel comedy and another short subject complete the final presentation.

**Leonare Staats Wins Scholarships**

Leonare Staats, sophomore from Vallejo, California, was notified Tuesday that she had received the MacKenzie scholarship. Dr. Karl Hazeltine, head of the college scholarship committee, made the award.

Miss Staats is a Kindergarten Primary teacher training candidate. She will receive a monetary award.

Present at the committee meeting when the announcement was made were Miss Helen Dimmick, dean of women, and several other KP majors.

**Oak Ridge Strike Threatened By AFL**

WASHINGTON (UP)—Chairman David Lillenthal of the Atomic Energy Commission, said today he has failed to persuade AFL unions not to strike next week at the Atomic Research Laboratory at Oak Ridge, Tenn.

**Senior Tickets Deadline Is Set**

The only tickets for Senior week activities that must be paid for are the Senior Ball bids, the senior breakfast, which immediately follows the ball, and lower classmen and outsider tickets for the Senior Banquet, Patsy Young, activities chairman, said today.

Senior tickets for Hidden Valley, Sea Cliff, and the banquet must be picked up in the Business office next so that attendance totals can be made, Miss Young said.

**Leaders Predict Truman's Train Will Be Picketed**

WASHINGTON (UP)—Railroad union leaders predicted today that President Truman's special train will be picketed by railroaders "every time it stops" during his cross-country trip.

They said the picketing may start when Mr. Truman boards his special train at Union station here tonight.

The union leaders are officials of the three rail unions which threatened a nationwide train strike three weeks ago to back up their contract demands. That walkout was stopped when Mr. Truman seized the railroads and got a federal court order forbidding a strike.

The unions, representing about 190,000 engineers, firemen and switchmen, have accused Mr. Truman of acting as a "strike-breaker."

Joined by 18 other rail workers' unions, they have asked the government to nationalize the railroads and negotiate new contract terms with them. But the White House so far has ignored these requests.

**BENTEL SAYS LA TORRE IS FINEST IN HISTORY**

**Senator Urges Passage Of Draft**

WASHINGTON (UP)—Senator Chan Gurney (R., S.D.) yesterday asked the Senate to pass the 19-through-25 draft as a "peace measure" because voluntary enlistment programs have failed to provide enough men.

Gurney is chairman of the Senate armed services committee. He opened Senate debate on the draft bill.

"If America is to be influential in the peace councils of the world, we must lead from strength and not from weakness," Gurney said. "We must build up and maintain military forces capable of breaking up any attack against us."

"We must have it understood that we are capable of instantly launching a counter-offensive so devastating that no enemy will dare to make war on us."

**ROTC Fraternity To Elect Officers Tuesday**

Torch and Sword, basic ROTC fraternity, will hold its election of officers at the regular meeting Tuesday, Jim LaMont, chaplain, reports.

Proceedings start at 7:30 p.m. in B 67, LaMont stated.

**Former Spartan Makes Good In Dos Palos**

Bonnie Jean McWilliams, who was graduated in June 1946 with a degree in Women's Physical Education, is another former Spartan who made good. She is Dean of Girls at Dos Palos Joint Union High school.

**Dame Whitty's Ashes Are Sent To England**

BEVERLY HILLS, Calif., June 3. (UP)—The ashes of Dame May Whitty, 82-year-old actress, will be sent home to her native England.

The noted actress' body was cremated yesterday after funeral services attended by 150 close friends, mostly members of Hollywood's British colony. Portions of the Bible were read at the service by Sir C. Aubrey Smith, Edmund Gwenn, Herbert Marshall, Boris Karloff, Brian Aherne, Alexander Knox and John Van Druten.

She died Saturday after a brief illness, less than a year after the death of her husband, Actor Ben Webster.

He picked up knowledge to wear it on his head like the plumes of horses in a parade.

For your convenience we offer a complete and exclusive prescription department in San Jose's newest medical building—the MEDICAL CENTER at 123 South Third St. Phone: Columbia 421.

**MEDICAL CENTER PHARMACY**

The 1948 La Torre is "far and away the finest yearbook in the history of the school," declared Dwight Bentel, head of the Journalism department, yesterday after inspecting an advance copy of the annual.

"It is so much superior that it has entered the 'big-school' class in yearbooks," he explained. "I predict that as soon as the book hits campus, and students see it, there will be a rush to buy the remaining copies."

"Betty Patnoe, editor, has done a superlative job," Mr. Bentel said. "The 12 pages of color pictures of our campus are beautiful."

"The books' cover—a padded leatherette of a pleasing color—is very attractive," he concluded.

The La Torre will be distributed in the Student Union on either Thursday, June 10, or Friday, June 11.

**Sigma Gamma Omega Initiates Eight Tonite**

Eight new members will be taken into Sigma Gamma Omega tonight during the fraternity's formal initiation at the Ste. Claire Hotel. Ceremonies begin at 6:30, according to Jim Toland, president.

Following the initiation will be a dinner-dance at the Pioneer Inn at Woodside. Dinner is scheduled for 8:30 p.m. Dress is to be semi-formal.
