Pacific Raiders On Council Agenda

First on the Student Council's agenda this afternoon is the failure of the student body to meet the Community Chest quota. The council will attempt to find new methods of raising the money, declared ASB President Dan Schaeffer.

"It is apparent that the average student doesn't realize the importance of this drive, both to thecommunity and to San Jose State college," said Schaeffer.

Second is the problem of overzealous Spartans who raided the COP campus before the game last Friday night. Schaeffer emphasized that any State student who is caught raiding, even if in retaliation, would be punished by loss of ASB card privileges.

The council will appoint advisers to the Social Affairs committee and to the Student Activities board.

Two members will be named to the Fairness committee. Al Pinard and Fred Severo have been requested to present their applications in person to the board.

This week is our Homecoming week It is also the week of our big game. There are big things planned for the next few days. There are also big things planned for the next few years. The COP game is to be our Homecoming game each home year. That is IF WE PLAY COP EACH YEAR!

This year Mo Hess, Pacific's prexy, and I, tried to straighten out a few of the difficulties between the schools. Tiny Hartranft and their director of athletics have done the same thing.

The Pacific students were very much concerned over their seating arrangements for this year. They thought that there would not be a repeat of the situation of two years ago in which their sections were spread out 18 rows deep over four or five sections.

Unfortunately, this year we cannot do anything about it but the two athletic departments, the Deans of the two schools, and Mo and myself sat down and arrived at a satisfactory arrangement for succeeding years.

Mo has explained this year's situation to Pacific students and up to this weekend we had expected that they had accepted the situation and we hoped that campus this year.

However, last weekend some idiots from San Jose went up to ruined all the work of the year. They have placed in jeopardy all of our Homecoming plans and future games between the two be held in connection with the traditional College of Pacific football game. Front row, left to

Biology Party Catches Some Raw Sea Life

To provide biology students with an elementary idea of marine life in its native habitat, several Science department faculty members journeyed to the coast near New Year's island Saturday afternoon. The results of their rock-erawling activity are now on view on the second floor of the Science building in three medium-sized acquaria.

Included in the salt-water display are a large red chiton, starfish, mussels, pismo claous, hermit crabs, and a polychete worm formation, according to Miss Jan E. Hagerty, assistant in biology.

During the quarter, two or three field trips to the coast are planned for Biology 20 classes, according to Dr. G. A. McCallum, associate ro essor of b'ology.

Faculty members who look advantage of the low ocean tide were Dr. and Mrs. Albert F. Ellis, Mr. James M. Craig and his family, Mr. Rocci Pisano and Miss Hagerty.

A swirling fog caught the searchers off-guard and although 'the men claimed, all we had to do was follow the telephone poles" reflected Miss Hagerty, it took several miles of stumbling through brush to find the automobiles which had been parked half a mile from the beach.
