Sigma Delta Chi To Be Installed

Chi, professional journalistic fraternity, will be installed tonight in the college chapel. Professor Clifford Weigle, of Stanford University and past national Sigma Delta Chi treasurer, will be the installing officer. He is associate director of the Stanford Institute for Journalistic Studies and former dean of the

University of Oregon School of Journalism.

Twenty-two journalism majors will be initiated into the new chapter. Five members of the Northern California professional Northern California professional chapter will perform the initiation Performance ceremonies.

Tonight's installation will mark the beginning of the fourth undergraduate chapter of Sigma Detta Chi in California. Other chapters are located at University of California, Stanford University and University of Southern California.

The five San Francisco professional members who will initiate the group are Pearce Davies, public relations director for the San Jose Planning Commission; Philip Sinnott, San Francisco public relations consultant; Ray Spangler, publisher of the Redwood City Tribune; Frank A. Whitely, public relations director for the Wine Institute; and Frank Marsh, executive director of the Bay Area Council, Inc.

Dr. William E. Gould, associate professor of journalism, will be initiated as a professional member along with the 22 un-

dergraduate members.
The Sigma Delta Chi pledge class was formerly the "30" Club until its acceptance by the national fraternity. Dick Jones is president. Charles V. Kappen, associate professor of journalism, is frater-

The Recognition committee did the selecting, with suggestions various persons, Lindsay said. Service to the student body and scholastic record entered strongly into the final selection.

Four Debaters In Semi-Finals

nual Novice Debate tournament will be run off today and tonight. according to Bill Tyler, SJS speech team manager,

At 3:30 p.m. in Room 157, Don Dogulas and Chuck Bucaria will take the negative stand on the question, "Resolved: That the entrance requirements to colleges and universities be lowered." posing them will be Brian Quinn

and Rick Ross. Losers of the debate will compete against Ken Simpkins and Al Attaviano at 4:30 p.m. in the same room. Winners of this match will face the original winners in the finals at 7 o'clock at the Sigma Chi fraternity-house, 241 S. 11th

Winners will have their names engraved on a perpetual trophy. Judges are Janet Ellingson, Barney Chapman, Joyce Osborn and Virginia Jolly.

Traffic and pedestrian signals bordering the campus on 7th St. may begin operation Monday, according to Dean of Men Stanley C. Benz.

"These signals are the result of a study conducted by a student committee a year or more ago," Dean Benz said. Under the chairman-

Theban Cycle Nears Finish

First staging of the final group of performances of Sophocles' The-ban Cycle will be in the Little Theater tomorrow night at 8

The Speech and Drama department announces that there are no tickets remaining, but that standing room will be sold at the door. Prices are 50 cents for students and 75 cents for general admis-

ship of Jerry Ball, this student committee analyzed the traffic situation on 7th St. by taking a traffic and pedestrian count.

The results of the student study were submitted to San Jose Traffic Analyst Arthur Philpott. In the meantime, the Engineering and Music buildings opened and the pedestrian traf-fic increased. When Philpott had a traffic and pedestrian count taken, his totals were much higher than those collected by the students.

Crosswalks at the three signal locations will be widened from 15 to 30 feet, Philpott announced yesterday. The signal locations on Engineering buildings.

Philpott explained that the red and green traffic lights will be used to control automobiles and committee will receive the cards that the "walk" and "wait" lights will be used for pedestrians

The signals will be coordinated with the bell system for class periods, and they will work only when students are changing classes. They will work on a 50second cycle; 17 seconds will be on green for automobiles; 18 seconds will be on "walk" for pedestrians, and 15 seconds will be the overlap period to allow the street to be cleared.

Philpott pointed out that the overlap period, seven and one-half second "dead period" between each signal, is very important because students must be sure the street is cleared of automobiles before crossing.

Widening of the crosswalks is being done to allow more students to cross at the same time. Philpott said that in this way it will be possible for all students to get across. Staying to the right of the crosswalk, he said, will help speed up the pedestrian movement great deal.

College Yearbook Distribution Ends

Today will be the final distribution day for La Torre, college yearbook, in the Inner Quad, starting at 10 o'clock this morn-

Braving a slight drizzle, slickerclad students picked up 1200 copies of the yearbook Tuesday. Delay in shipment of the yearbooks from San Francisco and records from Los Angeles made two-day distribution necessary

We're Agin' It

At least once a quarter the editor should engage in some sort of crusade against something about which he can do nothing. And so at this time we don our shining armor, mount our gleaming white stallion, and with our 30-foot lance charge at windmills.

What we're trying to say is that we're dead set against rain California in June. It's bad for our state's reputation. Besides that it's downright frustrating. And because there is nothing we can do about it, we won't say any more on the subject.

We just felt that in order to retain some vestige of our selfrespect we just had to come out agin' it.

Amos Reports Softball Fields

Safety was the prime consideration in eliminating two of the softball diamonds from the San Fernando-7th St. drill field, according to John Amos, buildings anad grounds director.

Biggest hazard was the congestion in the field. At times fielders from different games were playing in the same area.

Another problem was fly balls from games near the Journalism and Industrial Arts buildings, Foul balls broke "several" windows in the buildings, and flying glass caused concern for the safety of students in the classrooms, Amos
