

Si Simoni Plans Dance For Friday In Gymnasium

Si Simoni Expects a Large Crowd at Free S. B. Dance

CAMPUS BAND TO PLAY

Committee of Aides Named By Student Affairs Chairman

A Student Body dance will be held in the Men's Gymnasium this Friday night under the direction of Si Simoni, chairman of student affairs, and the students who remember the many successful dances of the previous quarter will be assured of at least one evening of economical entertainment during the coming week-end.

Unfortunately, many of the students have objected to the dance coming the night before the Far Western Conference meet which will be held at Sacramento the following day, and have questioned why the dance could not be given on Saturday evening. The latter would be impossible as the Inter-Society formal dance will be held on that date, which has been reserved by the council for weeks in advance.

In view of the still extremely poverty-stricken condition of the near-about-the-campus, the opportunity to go to a dance costing no more than the effort to display a Student Body card, the dance should be attended by the usual large crowd.

With Paul Cox's campus orchestra playing the dance music, and the following committee in charge, Simoni invites the student body to be present Friday night. Eva Beryl Tree, Louise Winans, Alberta Jones, Gail Baldwin, Harry Jennings, Paul Becker, Amby Nichols, Hugh Staffebach, Frank Hearian, Larry Egelson, Elmer Skoll, Bob Leslie.

Retaining Wall Is Next Step in Construction on New Stadium

The next step in the construction of the San Jose State College's \$20,000 football stadium at Seventh and Humboldt streets is the pouring of the concrete retaining walls which will encircle the playing field at the base of the sloping walls of the oval.

The redwood sills, upon which the seats are to be placed, will soon be put into place, and the galvanized brackets will be bolted to these. Seats for 3600 persons can be quickly put into place at any time later.

The turf for the gridiron will be planted within two or three weeks so that it will be in use for the football season. Extensive planting will be done next fall, it is being planned.

New College Name Bill Ready For Senators *State Legislators Are Upholding Interests Of The People* Do Your Part To Convince Opposing Voters

The movement in the California Legislature to change our name from "Teachers College" to "State College" and permit us ultimately to give an academic degree without requiring professional courses in education has not by any means bogged down. Although the Powers-Meeker bill in the Assembly was refused passage by one vote, Senator Hays of Fresno still has a similar bill, S. B. 167, before the Senate Committee on Universities and Teachers Colleges, and he can call for a vote on that at any time. The senator has indicated that he will do so as soon as budget matters have been settled, which will probably mean early next week. S. B. 167 will probably receive a "do pass" vote in the committee. We have many fine friends in the Senate, and there is likelihood of favorable action in that body. Then will come the battle all over again in the Assembly. Our first trial of strength in that body resulted in a victory of 42-33. The bill came up for reconsideration, however, and the next vote stood 40-39 against us. Several members who voted for us the first time voted against us the second and thereby caused our defeat.

Part of the reason for that defeat is the fact that we have no organized lobby in Sacramento, and our friends really did not know how important the bill was to us. The University headed the opposition, and it was rather a one-sided affair. Now we have another opportunity, and we must make a concerted effort to let our legislators and other friends know our views on the measure.

Please remember this: The legislators are high type citizens for the most part. Irresponsible persons glibly claim that this man has been bought up, and that one has taken hook, line, and sinker the program of the special interests. It is most unlikely that such is the case in more than a few instances. Most legislators honestly wish to represent their constituents, and will act accordingly if the voters who sent them to Sacramento will just make their desires known.

There are, then, three elements in this program at the present time. First, the Senate Committee; second, the Senate; and third, the Assembly. The Senate Committee on Universities and Teachers Colleges is made up as follows: Senator Charles H. Deuel of Chico, Chairman, Senator Breed of Alameda, Senator Ray W. Hays of Fresno, Senator Chris N. Jesperson of San Luis Obispo County, Senator McKinley of Los Angeles, Senator H. A. Perry of Humboldt County, Senator E. W. Stow of Santa Barbara, Senator E. H. Tickle of Monterey and San Benito Counties, and Senator J. I. Waggy of Kern County. Of these senators, Breed and McKinley come from home counties of the University and will probably oppose the bill. The others are all possible friends. Senators Deuel, Perry, Hays, and Stow are from Teachers College counties. Senator Jesperson has always been our good friend, and it is just possible that Senator Tickle of Carmel and Senator Waggy of Bakersfield will be with us also. All students from San Benito or Monterey counties should communicate with Senator E. H. Tickle, State Senate, Sacramento, and tell him of your interest in Senate Bill No. 167. If you have friends or acquaintances in those counties who are interested in this movement to permit a better service on the part of these colleges, ask them to write to their senators also.

Will all students from Kern county please contact Senator J. I. Waggy in the same way. San Jose State has many friends and alumni in that county, and the senator will probably be glad to represent their interests and accept their opinions as having weight in the discussion.

If you are still good friends with your old high school principals, write them also and ask them to use their influence for the bill. The same is true of any Parent-Teacher organization, American Legion Posts, or any other public spirited group with which you or your friends may have been (Continued on Page Two)

Dr. Hazeltine To Stage Elaborate Nature Exhibits

Exhibition Will Be Held In Science Building on May 12, 13

EMINENT MEN SECURED

Six Hundred Instructors in Santa Clara County Receive Invitations

Invitations to attend the two-day Nature Study Exhibition, to be held in the New Science building, May 12th and 13th, have been mailed to six hundred teachers in and about Santa Clara County.

The exhibition will have many interesting displays of the work completed and data compiled by Dr. Hazeltine's class, in which each member has contributed something, which will make the teaching of this elementary science more effective.

The primary object of the exhibition is to acquaint the teachers of the elementary schools with the improved methods for the teaching of Nature Study and giving the children a better appreciation of the world of plants and animals.

Nature study is a new field in grammar school education, although a few teachers, who had some science training, gave their pupils an understanding of the significance of the world they live in; but today special instructors in this endeavor have been added to the school faculty—and Nature Study made a part of the elementary school child's.

Dr. Hazeltine has secured several prominent speakers, who will discuss subjects relevant to the exhibition. These men are experts in the Natural Science field, and what they will have to say will be well worth hearing; so keep the date in mind: May 12th and 13th (Friday and Saturday)—and the place, the new Science building.

Woodwind Ensemble Starts Music Week Monday With Concert

Music Week at San Jose State started off well with its first event Monday evening. This was a very enjoyable program given by the woodwind ensemble under the direction of Thomas E. Egan. Frank Triena, well known violinist at San Jose State, gave an excellent performance. Alice Dillon, harpist, was guest artist on the program, and the students participating were Dale Porter, Kenneth Bomberg, Glenn Matthews, Marshall Dahneke, Bertram Whiting, Frederick King, Raymond Miller, Donald Madsen, Mardell Hirsch, Howard Sauers, and Raymond Verdier.

On Tuesday morning at eleven o'clock, the Symphony Orchestra played at the Woodrow Wilson Junior High School.

Y. W. C. A. Meeting Postponed to Thursday at 4 O'clock in Room 14

Attention is called to the fact that the Y. W. C. A. meeting, which was scheduled for Wednesday, May 3rd, will be held on Thursday afternoon in room 14 at 4:00 o'clock, with a different speaker than the one previously announced.

Rose Terlin and Oleta O'Connor, two graduates of the University of California, will speak on co-operatives and participation in the adult education, which will be carried on by senior women.

Miss Terlin has appeared on the campus before, having spoken to the Globe Trotters.

Miss Aalfs states that the group should be very interesting, as it will discuss the problems of those graduates who will not receive a position after finishing school. The group is open to all senior women.

FRESHMAN ORIENTATION

John M. Burnett, prominent attorney, will be the speaker at Freshman orientation tomorrow. Entertainment will be provided by the Spartan Glee Club, under the direction of Chet Mason.

Meeting Planned for All Student Teachers

All students who plan to do student teaching during the year 1933-34, must absolutely attend a meeting in the Little Theater at prompt 12 o'clock on Friday, May 5. At this time those who attend will sign with Dr. Freeland.

Second Concert in Music Series To Be Thursday

The Symphonic Band of San Jose State, under the direction of Raymond Miller, assisted by Thomas Eagan, will present its second concert of the year Thursday evening, May 4, 1933, in the Morris Dailey auditorium.

The band will play selections from Bizet's "Carmen"; also the ever popular "Les Preludes" of Franz Liszt.

This concert is one of the main events of Music Week. The public is cordially invited to attend.

Registrar's office announces that Friday, May 5th, will positively be the last day to drop courses. All students take note.

Salmagundi

We begin our squib hesitantly in trepidation lest someone think that we consider ourselves as a little light shining in a naughty and benighted world.

We don't exactly know what we are or what we think. There ought to be some statement of purpose, we suppose, but promises reek too much of political platforms, and ours would be no more reliable than they are as they are trumpeted forth to the trusting hearts of American countymen.

What we are not and what we will not are more clear. There shall be no salacious information. (Our ancient predecessor in this college in the role of the eye at the keyhole and the ear at the transom may rest easily without fear of competition.) There shall be no scandal—except, of course, what comes to our ears. We shall refrain from indulging in a prodigality of vocabulary such as has been characteristic of half-baked college journalists since the newspaper racket began and which lately has been aggravated by the discoveries of a psychologist that the extent of one's vocabulary (we mean legitimate words) is an index of one's I. Q. We shall limit discussions of sex and subjects lying in the surrounding territory to allusions having a secure basis in the realms of psychology and natural science. (In respect to the late gentlemen, James and Lange, we proffer the following: It's a nice psychological question whether you kiss because you love, or love because you kiss.) The settlement of moral issues we leave to the competent hands of the Epworth League; we have always felt that the subject of sin is too aweful and too complicated by ramification to attempt adequate treatment in this column. Besides, old Moses, with modern implications, is good enough for us.

Life, debts, and the taxes shall not pass unmentioned, though college students are blissfully unperturbed about all save the first. Nor shall hunger, war clouds in Europe, and Dr. MacQuarrie's valiant struggles with Sacramento politicians escape unmentioned. Peace to our ashes!

COMMUNICATIONS

To the Associated Students of San Jose State College:

During the past few days many students have asked me why we are not having an "extensive program" of Student Body dances this quarter as we did during the winter quarter. The answer is pure and simple. The dates are practically all taken, and have been for a long time in almost all of the cases. We were rather fortunate in reserving dates last quarter for the regular Student Body dances for the current school session, and at least we are sure of a few dances.

We have found it very difficult to follow last quarter's policy as far as the different types of dances are concerned. That is to have the regular Student Body dances a more "formal type of dance," and then to make the "after game" dances just as informal as the students wanted them to be. With this idea in mind we tried to please as many students as we possibly could, and as a result many students came to the "after game" dances who would not have gone to the regular Student Body dances, and also, vice versa. We will do all that is within our power to carry out the policy as stated above for the balance of this quarter to a point where the students will be absolutely satisfied.

There will be a Student Body dance this Friday night in the Men's Gym, with Paul Cox's orchestra furnishing the rhythm for the ballroom art.

Just as soon as it will be possible there will be a dance in the Women's Gym in the afternoon. "Jo" Jennings will then make his first campus appearance with his popular orchestra.

If any student has or would like to make some suggestion please do not hesitate to see me. The Student Body may be able to profit by it.

In behalf of the Student Affairs Committee, I would like to say that we will work hard to make the social program a success, and we all hope that you will attend and enjoy yourself to the utmost. DARIO SIMONI, Chairman, Student Affairs Committee.

New College Name Bill Up for Vote in Senate

(Continued from Page One)

associated. If your home is outside of Santa Clara County, or of any county in which there is a Teachers College, you should write your senator and assemblyman immediately about this bill. It is important to all of us. Now is the time to exercise that citizenship about which you have been hearing so much, and about which you have such definite ideas.

The Assembly Bill, A. B. 1223, has been up for action twice, as stated above. It will interest you to glance over the roll calls. An analysis of those roll calls is as follows:

Voting for us both times:

Hobart R. Alter, San Bernardino. Clifford C. Anglim, Contra Costa George R. Bliss, Santa Barbara George B. Bowers, San Diego James J. Boyle, Los Angeles Michael J. Burns, Del Norte, Humboldt, Mendocino

Bert V. Callahan, Los Angeles Ford A. Chatters, Kings, Tulare C. C. Cottrell, Santa Clara Frank Lee Crist, Santa Clara Charles W. Dempster, Los Angeles J. E. Frazier, Butte, Yuba, Sutter Charles W. Grubbs, Los Angeles Charles A. Hunt, Los Angeles Wm. Mosely Jones, Los Angeles Clifford R. Kallam, Santa Cruz, San Benito Cecil R. King, Los Angeles J. J. McBride, Ventura John D. McCarthy, Los Angeles Jesse M. Mayo, Nevada, Placer, El Dorado, Amador, Calaveras, Alipine, Luolumine, Mariposa, Mono, Inyo.

Maurice S. Meeker, Fresno Eleanor Miller, Los Angeles Roy J. Nielsen, Sacramento James S. O'Connor, Los Angeles John P. Phillips, Riverside Lucius Powers, Jr., Fresno Samuel E. Robinson, Imperial Frank J. Rogers, Los Angeles Bruce B. Stannard, San Diego Charles W. Stream, San Diego Walter H. Sullivan, Los Angeles James E. Thorp, San Joaquin Austin Tournoux, Los Angeles Rodney L. Turner, Kern Percy G. West, Sacramento Clare Woolwine, Los Angeles.

Voting against us both times:

Willard E. Badham, Los Angeles A. E. Brock, San Bernardino James M. Cassidy, Alameda F. C. Clowdsley, San Joaquin Lawrence Gobb, Los Angeles Edward Craig, Orange Mervyn Cronin, San Francisco Ernest C. Crowley, Lake, Napa, Solano Herbert J. Evans, Los Angeles B. J. Feigenbaum, San Francisco C. Don Field, Los Angeles Charles W. Fisher, Alameda Joseph P. Gilmore, San Francisco William B. Hornblower, San Francisco William F. Knowland, Alameda E. V. Latham, Los Angeles Walter J. Little, Los Angeles Charles W. Lyon, Los Angeles Patrick J. McMurray, San Francisco Thomas A. Maloney, San Francisco Henry P. Meehan, Alameda

James A. Miller, San Francisco Albert H. Morgan, Alameda John H. O'Donnell, Tehama, Glenn, Colusa, Yolo John T. Rawls, Los Angeles Kent H. Redwine, Los Angeles Harry B. Riley, Los Angeles Frederick M. Roberts, Los Angeles Eugene W. Roland, Alameda James B. Utt, Orange Ray Williamson, San Francisco Frank W. Wright, Los Angeles

First, then, against us: Herbert S. Hallner, Los Angeles Frank G. Martin, Los Angeles Ellis E. Patterson, Monterey, San Luis Obispo Frederick Peterson, San Mateo Hubert B. Scudder, Sonoma, Marin

First against, then for us: William W. Hoffman, Alameda

Not voting first time, but for us second time: C. Ray Robinson, Merced, Madera E. H. Zion, Stanislaus

Not voting first time, but against us second time: Samuel M. Greene, Los Angeles Edgar C. Levey, San Francisco Albert F. Ross, Siskiyou, Modoc, Trinity, Shasta, Lassen, Plumas, Sierra.

A good many of those votes were cast with very little understanding of the factors involved. It would be a good idea for you to get in touch with any of those men who have voted against us if you or any of your friends are acquainted with them, particularly is this true of those who changed their votes. Students from San Mateo County should get in touch with Assemblyman Frederick Peterson, and students from Monterey and San Benito counties should contact Assemblyman E. E. Patterson. Mr. Patterson has usually been a good friend of the colleges, but for some reason or another felt it necessary to change his vote. A proper presentation of our case may convince him that the bill is still worthy of his support. If any of you need the addresses or initials of the legislators, the Times office will be glad to furnish them.

We are doing pretty well with the budget at the present time. If we can just handle this problem successfully, it will mean a great deal to the future of this College.

EXTRACTS FROM SENATE BILL 167

5.1. State teachers colleges now established, or hereafter established by the legislature, shall be known as "state colleges."

5.2. The State teachers colleges located at San Jose, Chico, San Diego, San Francisco, Santa Barbara, Fresno, and Arcata, shall hereafter be known as "State colleges," and shall be designated respectively as the State College of San Jose, the State College of Chico, the State College of San Diego, the State College of San Francisco, the State College of Santa Barbara, the State College of Fresno, and the Humboldt State College.

5.4. The State Colleges shall have for their objects, the education of teachers for the public schools of the state, and such other educational functions as may be assigned to them by the Director of Education with the approval of the State Board of Education.

5.8. When authorized so to do by the State Department of Education in the manner hereinafter provided, to establish and maintain courses of instruction in teacher-training, and in such other lines as may be approved by the said board leading to a baccalaureate degree, and to grant the same.

Trinity College Upsets Reading Theory

The eye can see and read a single number in the incredibly short time of three two-thousandths of a second on a new machine announced at the Trinity College.

This shows the eye sees by a method at almost complete variance with modern textbook teachings. But it agrees with Aristotle, who, 2200 years ago, held positively that only one object at a time can be attended to visually.

Aristotle described by brick-by-brick type of seeing, whereby the mind built up a complete picture, one detail at a time. The new apparatus which supports this was built by Robert B. W. Hutt, professor of psychology at Trinity.

But no individual has succeeded in reading two digits in his own particular "single glance" time. Two digits always take more time than two. Dr. Hutt proposes to take thousands of readings to establish average rates.

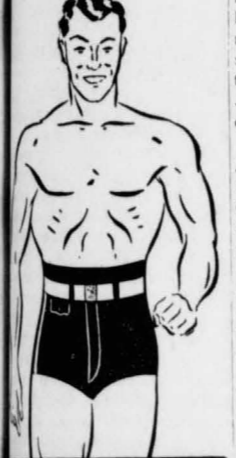

Previous investigators, he said, who assumed a person could see a number like 749 at a single glance, based their beliefs upon machines giving much longer exposures—a fifth of a second down to a 100th.

Lacking funds to buy a factory—(Continued on Page Three)

Bibliophiles To Hold Spring Picnic Friday

The annual spring picnic will be Friday, May 5, at Alum Rock Park. Cars will leave from the Carnegie Library at 3:15 and 4:15 p. m. All library majors and minors are urged to attend. A good time is assured. Sign up on the paper provided on the main bulletin board if you can come.

College Tea Room Open Tuesdays and Thursdays

Open every Tuesday and Thursday from 11:50 to 12:50, the College tea room is an ideal place for luncheon. Delicious food, attractive surroundings, efficient service, and minimum prices, are features which please the patrons. The tea room is continuing its policy of student management, one member of the tea room management class acting as hostess each week. Inez Fester was the first manager of the quarter, while Evelyn Holst took charge last week. Lois Ward will be the next manager. Other duties of the tea room are divided among the members of the class. Reservations for tables are not necessary, but if desired Mrs. Dowdle will be glad to arrange them. Luncheons at twenty-five and thirty-five cents are featured.

Art Students Enjoy San Francisco Excursion

A successful art excursion to San Francisco, conducted by Mr. Mendelowitz and Miss Fisher of the Art department, was taken last Saturday by a group of State students. Fleishacker's Zoo, which gave an opportunity to several of the art students to do sketches of animals, was the first point in the itinerary. Visits to the famous De Young Museum in Golden Gate Park, the Aquarium, were participated in and followed by lunch at Lucca's.

Reading Experiment

Will the girl who found the white-gold wrist watch in the women's dressing room of the Science wing please bring it to the business office? The watch was valuable because of reasons of sentiment and for this reason a substantial reward is offered. No questions will be asked.

INHERITANCE TAX WILL AID TEACHERS PENSIONS ACCORDING TO NEW BILL

Five per cent of the inheritance tax which has been going to the retirement salary fund for retired school teachers will continue to go to this fund so that the pensioned school teachers will not be deprived of this State contribution, it has been revealed. A bill was recently killed in committee meeting at Sacramento which would have changed this regulation had it gone into effect.

INDUSTRIAL EDUCATION GROUP TO MEET IN JUNE

California Industrial Education Association will hold a convention in San Jose on June 29, 30, and July 1. Plans for the convention were discussed at a meeting of the California Vocational Federation Council recently held at the Sainte Claire Hotel. John C. Beswick, assistant state superintendent in charge of vocational education, was the main speaker at the conference. Dr. Thomas W. MacQuarrie welcomed the conference to this city, and H. A. Sotzin, head of the State College Vocational Education department, presided over the conference luncheon.

FRANCO'S FOODS advertisement featuring a large 'FRANCO'S' logo, 'SAVE DOLLARS EVERY DAY!', and a cartoon illustration of a woman and a man talking about shopping at Franco's Market.

Reading Experiment

(Continued from Page Two) made apparatus, Dr. Hutt built his own. It costs less than \$10. When it revealed eyes reading single numbers in the unheard of time of three two-thousandths of a second, the professor discovered his home-made apparatus was wrong. He rebuilt it and discovered that it was correct; that he had stumbled upon a new fact of sight by splitting the single glance time many fold finer than other scientists have reported. This will bring about a change or discussion of the modern educational system of reading.

Spartan Tracksters Have "Fighting" Chance for Far Western Conference Track Title in Meet This Saturday

Taylor and Salvato Should Be in Good Shape By Saturday

San Jose State's stock for a possibility of regaining their lost Far Western Conference crown took a jump following their meet with the Olympic Club, in which bad breaks and only bad breaks caused their defeat. The big meet takes place at Sacramento this Saturday.

The awakening of two sprinters and a half miler, and the return of an injured pole vaulter looks to be the silver lining surrounding a dark cloud which formed over Conference hopes a few weeks ago when the Spartans were humbled by Fresno State, present Conference title holder.

Taylor and Salvato in Shape

A happy gleam came forth from Coach Erwin Blesh's eyes after the 220 race last Saturday. And why shouldn't there be a gleam? Doug Taylor won the race in 21.5, and Salvato was about the width of a hair behind him. For awhile it looked as though Taylor wouldn't shake the slump which overtook him at the Sacramento Relays in time for the F. W. C. meet, but he has, and should be in excellent shape Saturday. Lou Salvato has caused considerable worry to both the coach and Spartan followers. Known to take sometime to work up to a peak, nobody thought much of Salvato's not turning in any first place in the first few meets. Salvato, not showing much improvement meet after meet caused the pessimistic fans to take him as a forgotten man. Finding himself in the Modesto meet, in which he placed second behind Shoemaker, Salvato has been running great in practice sessions, and turned in two good races against the Club.

Bob Clemo in Half Mile

One of the highlights of the last two meets has been the performances of Bob Clemo. Clemo started the season as a half miler, couldn't get going, Blesh being in need of a two miler, consequently removed Clemo from the half to the longer race. Getting a second chance at the 880, which is his favorite event, in the meet against Modesto he tore around the two laps in 1:59.5, proving himself to be the best man in the event. His showing in the Modesto and Club meets and his runs in practice has stamped him as a strong contender at the F. W. C. meet.

Jack Prouty Ready

Jack Prouty's return to the Spartan fold, after being laid up with a pulled muscle since early in the season, takes a large load off the overburdened shoulders of Blesh.

With such excellent breaks occurring but a week before the big meet Spartan fans may discard their rose-colored glasses and still regard the locals as having an equal chance of copping the title that they lost last year to Fresno State.

Intra-Mural

By Dick Bertrandias

And now, boys, we have something to say that should be said. This week is your only chance to sign up for the big intramural baseball tournament that is scheduled to start on Tuesday, May 9th. This Friday is absolutely and without a doubt the last day for entering your name. Coach Charlie Walker said this with finality and from the tone in his voice there was nothing left to do but believe it.

Men interested may sign with Coach Walker, the class managers and any Phy Ed Major. And just as a point of interest, the Senior class, the boys who are out to take the whole doggoned intramural championship, have entered 24 men already, while the only other class to show response is the Sophs and ONE man has taken the step. I'm tellin' you, those Seniors have "intent" written all over their pans.

Volleyball is still in existence, and the Senior A team has just about sewed everything up in the bag. The last games will be Thursday, and then the following week baseball will steal the show.

Thasall today, and don't forget

Watch Them!

Should Sundquist (above) and Freddie Bennett (below) come through with unlooked for points in the javelin throw and broad jump, respectively, San Jose State will stand a good chance of winning the Far Western Conference track championship from Fresno State at Sacramento Saturday.

The 24 men lead the Seniors have on the baseball sign-up.

Weight Events Will Be Close

Jorgenson Is Shot Favorite

By Gil Bishop

Editor's Note: This is the seventh of a series of articles by Mr. Bishop dealing with Far Western Conference trackmen. His next and final article will deal with the hurdle events.

Probably the most unpredictable part of the meet on Saturday will be the weight events. Nearly every school in the Conference has two representatives in each event, all of mediocre material.

In the shot, the outstanding men are Jorgenson of Chico and White of Fresno. Both men have puts of around 45 feet to their credit. Jorgenson is the most consistent of the two and beat White in the Sacramento Relays. However, the Fresno man has been coming up rapidly and may add points for Hanner's Bulldogs in the ball event. Russell and Brown off Pacific, were right in the money last year but have yet to come up to expectations this season. Both men should beat 43 feet if in shape.

From Reno comes the report that two football stars of All-Conference fame, Theis and Jack Hill, are putting the brass sphere out considerable distance. These two boys have a chance to cut into the Fresno total by getting in some distance. Westfall of the

Cal Aggies is also good for around 42 feet and has a good chance of placing.

The two hopes of the Spartans will be McPhetres and Marshall. Neither are conceded much of a chance by dopsters but have the ability to shove the shot out further than they have thus far. Marshall has been improving daily and Blesh hopes to see him break into the point column.

In the platter event, the reigning favorite is Keyes of Fresno, who has consistently broken 130 feet. In this unstable event anything may happen and any of San Jose's weight men are capable of upsetting the dope sheet. Marquis, McPhetres, and Arnold have a good chance of getting over 130 feet. Marquis the most erratic of the three, but also has the power to shove the plate out of the lot. McPhetres has done 125 consistently, while Arnold has not yet reached his best form.

Lewis is the other Fresno weight man, but is another of the erratic type, ranging anywhere from 130 to 120 feet. Werner, also of Fresno, is a 125 foot man.

Westfall of the Aggies, and Theis of Nevada, are also entered in the discus. These two men complete the 125 foot circle of

Conference Heads Name Herb Dana Far Western Czar

Dana Will Introduce New and Better Officials To F. W. C.

Last Monday the appointment of Herb Dana, Well-known football referee and Pacific Coast Conference Football and Basketball Commissioner, as Commissioner of Football and Basketball in the Far Western Conference was announced. His duties as commissioner will consist of appointing the officials who will walk the games and the supervision of these officials. Dana will receive a list of approved officials from each coach and from these lists he will arbitrarily select the officials for each game.

The greatest advantage of this new move is that it insures better officials than Far Western Conference schools have been accustomed. Under the old system this Conference had to be satisfied with a lower class of officials, but now officials will be definitely selected and they must work their appointed games or be blackballed by their association.

SCORES FOR ENTRANCE IN QUALIFYING ROUND OF GOLF ARE POSTED

All who wish to compete in the qualifying round of the school golf championship must have scores in by Sunday morning. Two men have posted scores and yours should be in soon.

George Ichishita and Francis Pura are the first to finish their rounds. Ichishita is so far leading

The rules for the qualifying round of the school golf championship:

1. Round must be played with another qualifier or faculty member.
2. Scores must be kept by opponent and signed.
3. Play will be governed by local and U. S. G. A. rules.
4. Scores must be turned in to Coach Blesh or Manager Chappel as soon as round is completed.
5. Eight lowest in first flight will qualify for championship. Second and third flights will be held for those who fail to qualify in the first. This will be consolation championship.
6. Squad for team competition will be chosen from highest scorers.

the qualifiers with a neat 82 for the 18 holes. Pura carded a 92.

Although his score does not rate him one of the leaders, it does make Pura a favorite to cop the consolation flight.

discuss tossers. The Aggies have two more men in Feck and Wreden, who have marks of 120 feet. So it can be seen that the discus is certainly a toss-up.

Keyes, Lewis, Werner, Marquis, McPhetres, Arnold, Westfall, and Theis—take your choice.

A few items on the Stockton freeze-out events:

Boy, and did that wind howl! The north wind that swept over the box cars at the north end of the field and breezed over the turf in Baxter stadium did manage to thin down the attendance the afternoon. In the evening under the arcs, the wind laid down somewhat and the cash customers were more in evidence. However, it's our guess that the final figures were in the

The wind forced the return from A. A. Stagg—"Well, I thought I was in California, but this afternoon reminded me of Chicago." Yeah, me too, A. A.

Red Sorenson certainly stepped out in the last lap of the shuttle relay. Red made up about three yards in the final fifty yard sprint to nose out the Pacific and Modesto anchor man by a hair.

The San Jose contingent made an impressive showing at Stockton in their vivid orange sideburn coats and blue and-gold pants. Heard in the stands: "Who are they? St. Marys?"

De Groot's 1932 Varsity evidently made more on their respective minds than football during the last quarter. The average grade dropped considerably below the grades during active season. The first five were in this order—Jim Francis, "Dee" Wolfe, Jerry Whitaker, Carl Sandholdt, and believe it or not, our old pal Harry Harbman. My, my—will wonders never cease?

Manager Ed De Fraga was on top of the list—however, he studies.

Listen to this! We have it from a reliable source—Tom Thornhill was told that San Jose State was gunning for the Stanford Big Red team in the opening of the 1933 football season, and replied to the effect that he would quit his job if State defeated his charges. Well, Mr. Thornhill, do you know of any vacant positions? Maybe the water polo team could use a new mentor.

Frank Cunningham's throw of 212 feet 3 inches against the Fresno team in the Raisin City is the longest heave recorded thus far in competition in the United States. Frank's throw was without the benefit of any breeze whatsoever. And was Mr. Hanner's face red!

Jerry Whitaker, Charlie Spaulding and Ralph Meyers worked plenty hard at the C. O. P. meet Saturday without any recognition. These three boys were centering for the passers and kickers and there was not a single complaint registered throughout the day. This cooperation deserves notice—nice work, fellows!

P. E. MEETING

The regular monthly meeting of all Phy. Ed. Majors will be held today noon in room 17. All majors are urged to attend as important matters for the remainder of the quarter will be discussed.

JACK MENGEL, Secty.
