*University of Pennsylvania*

The Nippur Bibliography which follows is divided into two parts. The first part, "Text Publications and Interpretations," includes all primary publications of Nippur tablets and all studies that make significant use of tablets from Nippur. The secondary studies are included in order to highlight the contribution of the Nippur tablets to the reconstruction and interpretation of ancient Near Eastern literature, history, mythology, economy, law, and lexicography. The second part of the bibliography, "Excavation Reports and Secondary Archaeological Publications," includes all publications relating to the Nippur excavations, as well as studies of major archaeological finds. At the end of the section is a list of the Nippur field seasons, 1889-1990.
