#### IV. Waiver of Proposed Rulemaking and Delay in Effective Date

We ordinarily publish a notice of proposed rulemaking in the **Federal Register** to provide a period for public comment before the provisions of a rule take effect in accordance with section 553(b) of the Administrative Procedure Act (APA) (5 U.S.C. 553(b)). However, we can waive the notice and comment procedure if the Secretary finds, for

good cause, that the notice and comment process is impracticable, unnecessary, or contrary to the public interest, and incorporates a statement of the finding and the reasons for it in the rule.

Section 553(d) of the APA ordinarily requires a 30-day delay in the effective date of final rules after the date of their publication. This 30-day delay in effective date can be waived, however, if an agency finds for good cause that the delay is impracticable, unnecessary, or contrary to the public interest, and the agency incorporates a statement of the findings and its reasons in the rule issued.

This document merely corrects typographical and technical errors made in FR Doc. E9-26502, the CY 2010 PFS final rule with comment period (74 FR 61738) and in FR Doc. E9-29256, the December 10, 2009 correction notice (74 FR 65449), and is (with limited exceptions not relevant to these corrections, but noted in the rule), effective on January 1, 2010. The provisions of the final rule with comment period have been subjected previously to notice and comment procedures. The corrections contained in this document are consistent with, and do not make substantive changes to, the payment methodologies and policies adopted in the CY 2010 PFS final rule

with comment period. As such, these corrections are being made to ensure the CY 2010 PFS final rule with comment period accurately reflects the policies adopted in that rule. Therefore, we find for good cause that it is unnecessary and would be contrary to the public interest to undertake further notice and comment procedures to incorporate these corrections into the CY 2010 PFS final rule with comment period.

For the same reasons, we are also waiving the 30-day delay in effective date for these corrections. We believe that it is in the public interest to ensure that the CY 2010 PFS final rule with comment period accurately states our policies as of the date they take effect. Therefore, we find that delaying the effective date of these corrections beyond the effective date of the final rule with comment period would be contrary to the public interest. In so doing, we find good cause to waive the 30-day delay in the effective date.
