"It's Everybody's Job"

== THE PRIDE OF A RACE ==

BREWSTER HOSPITAL

THE PRIDE OF A RACE demands that it be willing to be self-sustaining. The pride of a race scorns the acceptance of the assistance of others until the race itself has done its utmost toward assisting itself.

Five negro relief agencies receive the support of the Community Chest, which will conduct its annual campaign February 7 to 12.

The pride of a race demands that a proportionate share

"It's Everybody's Job"

HOMÉ FOR THE AGED

of the financing of these agencies be given by the people for the benefit of whose race the fund has been established.

Happiness, joy, contentment, the relief of suffering, the recovery of health all are bound inseparably with the success of the Community Chest Campaign.

The pride of a race demands that it give generously in proportion to its individual means in behalf of the brother who is less fortunate.
