Traveler's Aid Society

Clara White Mission

Jacksonville Negro Welfare League

You are not rich enough to help all of our blind, all of our crippled, all of our needy and all of our sick people by yourself. None of us have enough money to do that.

But suppose all of us put our BIT into the Community Chest pool together then there will be enough: to take care of our Old Folks, who are left homeless and without children to care for them in their last days, the weary and needy strangers of our group who are stranded, give help to our ex-soldiers who are in need, provide the proper training for our youth and give nursery care for our babies and also give employment to the mothers of some of these tots.

Working separately, we can do little. Working together, we can keep a great deal of suffering from our people.

Our Folks need help now. You may not at this time, but remember, the hand of Fate might strike down any of Us to-day or to-morrow, and we, too, might need the help of the giving public through the Community Chest. Suppose some would refuse to give for your relief. **THINK!**

Just think, every Dollar that we, the Colored Division, raise this year, the Community Chest will add an additional \$1.00 to the money to be used in our agencies. In other words we get two for one. Can you beat it?

Are you the kind of Citizen who dodges duty and responsibility and leaves it up to the other fellow to do your part? Or are you the high type of manhood and womanhood that is ever-ready to step forward to demand that you be permitted to shoulder your responsibility.

This drive is put on for OURS, you may not be hungry, you may not be cold, you may not need help or relief but others do. Let's put our shoulders to the wheel—**ALL OF US**. Don't let's fall short of our goal. Don't let's fall! But **LET'S DO OUR SHARE AND OUR DUTY.**

THE OLD FOLKS HOME provides a comfortable place of abode, where Happy Hearts beat of 25 inmates. Just imagine that here every dollar you give trebles itself many time in making real happiness for those, who are

unfortunate in their declining years who are unable to work, who can not provide for themselves only through your giving. **WONT YOU HELP?**

SUNSHINE DAY NURSERY cared for 2502 babies last year, while Mother and Dad had to work to keep the **WOLVES** away from their doors. Those mothers are grateful to you because you made it possible by your giving to the Chest to have their babies cared for and given nourishment while at the Nursery. These mothers love theirs as you do yours, but must work to care for them. You can still help them and their little ones will be happy another year, if you will give freely. **WOULD YOU REFUSE?**

TRAVELER'S AID SOCIETY is the Guardian Angel to aged travelers and little children. Last year help was rendered to 1768 strangers within our gates and through it these folk were able to reach their home safely. It is a life saver to young girls coming to the City without knowledge of the pitfall and has done much to help save the virtue and integrity of our girls. With the class of work done to the uplift of future womanhood of the Negro race, I ask you point blank, **'WOULD YOU BE A SLACKER IN THIS DRIVE TO SAVE OUR GIRLS?'**

JACKSONVILLE NEGRO WELFARE LEAGUE the only champion to seek redress when we are mistreated, the only organized effort in our Race working hard to improve living and working conditions among us. This **LEAGUE** co-operates with all other organizations in the community in an effort to provide better facilities for the Health, Education and Recreation and stands as a beacon for a helpless and defenseless people. Do you value the security of your home and the pursuit of happiness then give to this Chest Drive so as to maintain an organization that is fighting your battle for economic freedom. **YOU MUST GIVE!**

THE COMMUNITY CENTER, working under the Provisional Committee of the Y. W. C. A. is a new work among our people. During the past year it has provided nursery care for many children some days up to 28 per day. Some of the mothers of these children were given work in the laundry which was established especially to help these mother who were unable to find a job. **TO THIS CLASS OF WORK WE MUST SUPPORT.**
