Mitchell Miglis, Student Editor

Editor's Note:

This inaugural issue of the *Osprey Journal of Ideas and Inquiry* would not have been possible without the generous financial support of the Office of Academic Affairs at the University of North Florida. Provost David Kline and Associate Vice President Dennis Gayle have been instrumental in supporting the Undergraduate Research Program and in creating the journal.

I would also like to thank Interim President E. K. Fretwell who initially approved the creation of the Undergraduate Research Program and President Anne H. Hopkins who has supported and expanded the program since her arrival on campus. The University of North Florida Foundation Board has also provided generous financial support to the activities of the Undergraduate Academic Enrichment Program that have helped to make this journal a reality.

My deepest gratitude is due to my student editor Mitch Miglis, a junior biology major and Honors student at the University of North Florida. Mitch has devoted countless hours to editing the journal, preparing the graphs and pictures, and seeing the project through to completion. He has been indispensable in making this journal a reality, and future student editors will have big shoes to fill.

Mary O. Borg, Editor
Professor of Economics
Director of the Undergraduate Academic Enrichment Program
